Music Honors Program

Purpose

The Music Honors Program is designed for highly talented, self-motivated students majoring in music. Through individual instruction and mentoring by the student’s applied faculty member, he/she will present a full public recital on his/her major instrument or present a series of original compositions. In the Department of Music this program is also referred to as the Young Performing Artists Program.

Eligibility

Acceptance to the Music Honors Program requires the student to:

- Be a music major.
- Be of at least sophomore standing in music.
- Be admitted to 300-level private lessons.
- Earn and maintain an overall GPA of 3.0 and a minimum cumulative GPA of 3.25 in all music courses.

Requirements

- Have permission of his/her applied instructor.
- Be recommended and accepted to the program by members of the music faculty by way of an end-of-semester jury.
- Present a 30 minute (junior year) and/or 1 hour (senior year) preliminary recital before the music faculty. Permission from the faculty must be granted before proceeding to a public recital.
- In consultation with the applied teacher, arrange and program a recital, write program notes, and assemble the program.
- Present a 30 minute (junior year) and/or 1 hour (senior year) public recital.

Benefits

Students will receive valuable individual attention and a public recital sponsored by the Department of Music. On most occasions, the performance is accompanied by a professional accompanist and is recorded onto compact disc. This recording is of great use to students when they are applying for music positions, graduate schools, fellowships, and assistantships. Students who complete the program will graduate “With Honors in Music.”
Contact
For more information concerning the Department of Music Honors Program, please contact:

E-mail: songman@uab.edu

Department of Philosophy
Chair: Gregory Pence

The Department of Philosophy offers the Bachelor of Arts degree with a major in philosophy, as well as a minor in philosophy and course offerings for non-majors and non-minors. The department also sponsors an interdisciplinary minor in Philosophy and Law, described below.

The program for majors is built around two aims. First, the major offers study of the methods, problems, and history of philosophy. Second, it exposes the student to analysis of contemporary moral issues and philosophical puzzles. Throughout the major goal is to teach students to present and analyze critically arguments, both orally and in writing. Graduates of the department have pursued such careers as teaching, law, medicine, counseling, and business.

Further information about the department and its programs may be obtained at the department’s website: www.uab.edu/philosophy.

There are three different ways in which to major in philosophy at UAB:

• The general track.
• The individually designed track.
• The honors track.

When a student first declares a major in philosophy, he or she is classified in the general track. Students remain in this track unless they request entry into the individually designed track or are successfully admitted upon request into the honors track. These requests are made of the department chair.

The general track appeals to students with broad philosophic interests as well as to students desiring a second major or who need a flexible class schedule. The individually designed track is designed in consultation with a faculty advisor in areas such as applied ethics, bioethics, history of ideas, law and society, religion, and science and the modern world. Students graduating in the honors track graduate "With Honors in Philosophy."

A grade of "C" or better is required in all philosophy courses for the minor.

**Minor in Philosophy & Law**

Director: Theodore Benditt (Philosophy)

The Philosophy and Law minor provides interested students with a secondary specialization focusing upon the philosophical underpinnings of the political and legal systems of the United States as well as the modes of thought found in the legal system. Because legal argument frequently uses ideas found in moral thought, exposure to the theory or history of ethics is critical. The program may be of interest to students contemplating a career in law and in related careers, though it is not intended as a pre-law or legal studies program.

**Major in Philosophy with Honors**

The Philosophy Honors Program is designed for qualified, self-motivated students. It is suited for those contemplating graduate work in philosophy or in professional fields in which an honors degree is desired. Through special distribution and credit hour requirements and a directed honors thesis, honors students are prepared for in-depth philosophical research and related graduate and professional opportunity. For acceptance in Philosophy Honors Program a student must

- be a philosophy first major
- have at least sophomore standing
- have at least nine semester hours in UAB philosophy courses
- have at least a 3.5 GPA in UAB philosophy course work
- submit an application to the department (applications are available from department office)

To register for this course, contact the Department of Philosophy

Department of Physics

Chair: Ilias Perakis

Physics is a basic science concerned with the study of the universe and the matter, space-time, energy and interactions that take place among them. It includes core theories of classical mechanics, electromagnetism, quantum mechanics, relativity, and thermodynamics. Practical applications of these theories are covered in courses such as Physics of Biomedical Processes and Technologies, Physics of Renewable Energy Systems, Nanoscale Science & Applications, Biophysics, Laser Physics, Optics, and Solid State Physics. There are opportunities for physics majors to excel through research participation in funded projects, where stipends are available through research grants or the established NSF/NASA REU Program, by joining the Honors Physics Program, and by participating in the Society of Physics Students.

The Department of Physics offers courses in astronomy, physics, and physical science. The B.S. degree, with a major in physics, emphasizes...
the understanding of the theories of physics to solve fundamental and applied problems in science and technology by using critical thinking and systematic analysis. Physicists work effectively in many careers which require these skills, such as, basic, applied, and medical research; medical, financial, and legal services; product design and development; computer programming and software development; management, administration, and quality control; as well as in higher and secondary education.

The Department of Physics is a partner in the UABTeach initiative. UABTeach lets undergraduate students receive both their B.S. degree in physics and full teaching certification in four years. More information about the coordination between UABTeach and the UAB Physics Undergraduate program is available at the UABTeach Web site (http://www.uab.edu/uabteach/).

The department offers the following B.S. degrees and concentrations as well as a minor in physics:

1. Major in Physics
2. Major in Physics – Advanced Physics Track
3. Major in Physics – Applied Physics Track
4. Major in Physics – Computational Physics Track
5. Major in Physics – Biophysics Track

A Bachelor of Science degree with Honors in Physics is available for all tracks, and offers the motivated and capable physics major with the enhanced opportunity to develop the research, problem-solving and communication skills necessary to excel in a scientific career or in the marketplace.

Advising for all physics majors is provided by a professional advisor in conjunction with physics faculty members.

The Department of Physics Web site (http://www.uab.edu/physics/) summarizes information about the Departmental programs. Further information may be obtained from Dr. Renato Camata, Undergraduate Program Director at (205) 934-8143, camata@uab.edu.

Graduate Programs

The Department of Physics offers graduate study leading to the degrees of Master of Science and Doctor of Philosophy in physics. Further information may be obtained from Dr. Mary Ellen Zvanut, Graduate Program Director at (205) 934-6661, mezvanut@uab.edu, or the UAB Graduate School Catalog.

See the UAB Graduate School Catalog for descriptions of graduate courses.

Bachelor of Science with a Major in Physics

The curriculum of the Major in Physics provides fundamental knowledge in the core theories of physics.

Total Hours 60-61
Grade Requirement
Students must earn a grade of “C” or better in all courses applied to this major.

Additional Requirements
Physics or General Electives
Students must take physics or general electives to reach the 120 semester hour requirement.

Minor
A minor is required for this degree, unless a double major is being earned.

Advanced Physics Track
The Advanced Physics Track is designed to prepare students for graduate studies in physics or other physical sciences. In addition to a strong foundation in the key theories of physics, this track encourages students to enroll in numerous advanced physics electives to broaden and deepen their preparation in physics.

Applied Physics Track
The Applied Physics Track is designed to prepare students for careers in industry or other technology enterprises. A judicious choice of courses that qualify as Applied Physics Track courses allows graduates to develop a competitive set of professional skills.

Computational Physics Track
The Computational Physics Track is designed to provide graduates with valuable computational skills in the areas of simulation of physical processes, big data processing and experimental analysis, and high levels of mathematical reasoning.

Bachelor of Science with a Major in Physics and a Biophysics Track
The Biophysics Track is a multidisciplinary program of study designed to place students in medical school, graduate school in the biosciences, teaching positions, or biotech enterprises. A balanced, flexible mix of physics, chemistry, biology and math is required.

</tbody>
</table>
Grade Requirement

Students must earn a grade of “C” or better in all courses applied to this major.

Additional Requirements

A biophysics track student who has taken all or part of the PH 201-202 sequence before declaring a physics major may petition to have those courses substitute for PH 221-222.

Physics and General Electives

Students must take physics or general electives to reach the 120 semester hour requirement.

Minor

A minor is required for this degree, unless a double major is being earned.

Suggested plans for majoring in physics

The plans provided below are meant to assist you in your path toward the B.S. degree in physics. Choose Group 1, 2, or 3, depending on your affiliation with the Science and Technology Honors Program (STHP) or the University Honors Program (UHP). Then identify within the chosen group the plan that best matches your goals and background. Please consult with an academic advisor to select the most suitable plan for you:

Group 1: Physics majors not in the Science and Technology Honors Program or the University Honors Program

- Plan 1A: Graduate School Bound and/or Strong HS Math/Physics (Freshmen with Calculus I Credit)
- Plan 1B: Graduate School Bound and/or Solid HS Math/Physics (Freshmen without Calculus I Credit)
- Plan 1C: Intensive Physics Track (Freshmen without Calculus I Credit)
- Plan 1D: Physics Track (Students with large science/engineering loads; double majors; UABTeach (https://www.uab.edu/uabteach))
- Plan 1E: Biophysics Track (Students with large interdisciplinary course loads; UABTeach (https://www.uab.edu/uabteach))

Group 2: Physics majors in the Science and Technology Honors Program

- Plan 2A: Graduate School Bound and/or Strong HS Math/Physics (Freshmen with Calculus I Credit)
- Plan 2B: Graduate School Bound and/or Solid HS Math/Physics (Freshmen without Calculus I Credit)

Group 3: Physics majors in the University Honors Program

- Plan 3A: Graduate School Bound and/or Solid HS Math/Physics
- Plan 3B: Biophysics Track (Students with large interdisciplinary course load; UABTeach (https://www.uab.edu/uabteach))

Plan 1A: Graduate School Bound - Freshman with Calculus I Credit

This plan is recommended for:

- Students with strong high school math and/or physics preparation
- Students who plan to pursue Graduate Studies in physics or related areas

*This plan is not intended for students in STHP or UHP*

Plan 1E: Biophysics Track

This plan is recommended for:
- Biophysics Track students with numerous professional school requirements or large load in interdisciplinary courses
- Students pursuing more than one major or students in the UABTeach (https://www.uab.edu/uabteach) Program
- This plan is not intended for students in STHP or UHP

### Plan 2A: Graduate School Bound - Freshman with Calculus I Credit

This plan is recommended for:
- Students in the Science and Technology Honors Program (STHP) who have strong high school math and/or physics preparation
- Students who plan to pursue Graduate Studies in physics or related areas
### Plan 2B: Graduate School Bound - Freshman without Calculus I Credit

This *accelerated* plan is recommended for:

- Students in the Science and Technology Honors Program (STHP) who have solid high school math and/or physics preparation
- Students who plan to pursue Graduate Studies in physics or related areas

Plan 3B: Biophysics Track - University Honors Program
This plan is recommended for:

- Students in the University Honors Program (UHP) with numerous professional school requirements or large load in interdisciplinary courses
- Students pursuing more than one major or students in the UABTeach (https://www.uab.edu/uabteach) Program

**Total Hours**

**GPA & Residency Requirement**

A minimum grade of "C" is required in all courses applied to the minor, as well as all mathematics course prerequisites. A minimum of two physics courses must be completed at UAB.

**Honors Program in Physics**

The Physics Honors Program offers the motivated and capable physics major enhanced opportunities to develop the research, problem solving, and communication skills necessary for a dedicated effort in the scientific enterprise. By designing, describing, and defending a research project, the honors graduate will have a documented capacity for success in graduate school or in any career where scientific critical thinking, motivation, and accomplishment are valued.

**Eligibility**

Acceptance into the Physics Honors Program requires the student to:

- have earned a 3.25 GPA in physics courses attempted.
- have earned a 3.0 GPA overall.
- have completed 16 semester hours in physics, including PH 351-PH 352.

**Requirements**

Students graduating with Physics Honors are required to have completed the following:

- arrangement with a faculty sponsor to do a physics research project satisfying expectations for six semester hours of PH 495 Honors Research
- selection of an Honors Committee.
- committee approval of a written research proposal.
- completion of the proposed six semester hours of PH 495 Honors Research.
- maintenance of a 3.25 GPA in physics courses and an overall 3.0 GPA.
- a written report in the format required by an appropriate journal.
- an oral or poster presentation of the research project to the Honors Committee.

**Benefits**

The goal of the Physics Honors Program is to train capable undergraduates for uncommon accomplishment in academic research. The new physics honors graduate will have documented experience and productivity commonly found in second- or third-year graduate students. Ideally, the research project will result in publication and presentation at a national conference, giving the honors graduate strong credentials for graduate or medical/professional school, for industrial research, for science writing, and for teaching. Contacts made through publication and conferences and informed references written by mentor and committee members will constitute a significant advantage in the job market. The successful honors student will be recognized at the UAB Honors Convocation and will graduate "With Honors in Physics."

Dr. Renato P. Camata
Director Undergraduate Physics Program
E-Mail: camata@uab.edu
The curriculum in psychology provides a flexible program for the psychology major leading to the Bachelor of Science degree. Alternatively, students can earn a minor in psychology or take advantage of the numerous course offerings that are open to all students. The Department of Psychology provides a variety of experiences to give students an understanding of the basic principles and mechanisms of behavior. The scientific method is emphasized throughout the curriculum. Students with a major or minor in psychology are encouraged to obtain first-hand experience with both the creation of new knowledge (research) and the application of that knowledge in community and treatment settings. There are many opportunities for students to gain firsthand research experience by working with individual faculty members in a variety of laboratory, clinical, and field research settings. In addition, numerous community and treatment facilities provide settings for students to observe and participate in the application of psychological principles to the solution of individual and social problems.

In addition to providing a major field of study as part of a liberal arts and science education, the B.S. degree in psychology prepares students for graduate study in psychology. The degree also provides a strong intellectual foundation for a variety of careers in areas such as teaching, counseling, social work, human factors engineering, community planning, sales, management, personnel administration, ministry, law, politics, and various health professions, including psychiatry, nursing, medicine, optometry, public health, and physical and occupational therapy. For information on preparation for these careers, see the Psychology Department Undergraduate website, http://www.uab.edu/cas/psychology/undergraduate.

Psychology is an evolving discipline, and after a period of time the material taught in a psychology course is no longer current. For this reason, the Department of Psychology reserves the right to deny credit toward its major and minors for Elementary Statistical Methods (PY 216) and upper level (300 and above) courses completed more than 12 years prior to graduation.

### Graduate Program

The Department of Psychology offers programs of study leading to the Doctor of Philosophy (Ph.D.) degree in three areas of psychology: medical clinical psychology (co-sponsored by the School of Medicine), behavioral neuroscience, and lifespan developmental psychology. Although the Master of Science (M.S.) degree is awarded as an intermediate degree in some Ph.D. programs, a terminal M.S. degree program is not offered. Individuals interested in the graduate program should contact the Department of Psychology or the UAB Graduate School.

---

### Bachelor of Science with a Major in Psychology

To qualify for a B.S. degree in psychology, students must complete a minimum of 38 semester hours of courses in psychology and 6 semester hours of coursework in biology, chemistry, or physics, as listed below.

1. BY 111, BY 112, CH 100 and PH 100 may not be taken to satisfy this requirement. Most biology, chemistry, and physics courses that satisfy the Area III Core Curriculum requirement will also satisfy this requirement of the major. It is recommended that students consult with the psychology advisor about this requirement.

2. Completing PY 101 or PY 201 and PY 212 will also satisfy 6 of the 12 required hours in Core Curriculum Area IV.
Six hours must be taken at the 400 level. The remaining 3 hours may be taken at either the 300 or 400 level. PY 396 Teaching Practicum in Psychology, PY 397 Community-Based Practicum in Psychology and PY 398 Research Practicum in Psychology may not be used to fulfill more than three hours of this requirement.

Grade and Residency Requirement

A grade of C or better is required in all courses applied to the major. At least 15 hours at the 300 level or above, including at least 9 hours at the 400 level, must be completed at UAB.

Additional Requirements

Minor

A minor is recommended but not required for this degree.

General Electives

Students must take general electives to reach the 120 semester hour graduation requirement.

Students are encouraged to assist with ongoing research projects and/or obtain experience with the application of psychology in teaching or community settings. Academic credit may be earned for these experiences. Students may apply a maximum of 3 semester hours of PY 396 (research), and/or PY 398 (teaching), and/or PY 397 (community) to their major and minor requirements. Students preparing to attend graduate school in psychology are strongly encouraged to participate in the Psychology Honors Program, get involved faculty research projects, and develop a strong background in natural sciences, mathematics, and computer science.

Psychology majors may be required to complete a general psychology examination at the time they declare psychology as their major, as well as a second examination upon completion of the major requirements for a B.S. degree in psychology. Although these examinations may be required for graduation, they are intended for program assessment purposes only. Performance on these examinations will not affect students’ grade point averages, nor will they be a factor in determining whether students qualify for graduation.

A grade of C or better is required in all courses applied to the minor. At least 15 hours at the 300 level or above, including at least 9 hours at the 400 level, must be completed at UAB.

Minor in Psychology

A minor is recommended for Psychology Majors. A minor is recommended but not required for this degree.

A minor in psychology, students must complete a minimum of 18 semester hours of courses in psychology, as listed below.

Total credit hours: 121

A minor is recommended for Psychology Majors.
Grade & Residency Requirement

A grade of "C" or better is required in all courses applied to the minor. At least six hours at the 300-level or above must be completed at UAB.

Psychology Honors Program

Purpose

Participation in the Psychology Honors Program provides an enriched learning environment for psychology majors with excellent academic records who are interested in pursuing graduate study and a career in psychology, medicine, or other health related professions. The program provides students with a strong foundation in behavioral science through an enhanced program of study and the opportunity to conduct research with an individual member of the faculty. Students who complete the program will qualify for the B.S. in psychology and graduate "With Honors in Psychology."

Eligibility

Students may apply for admission to the program at any time after being at UAB for at least one semester, provided they will attend UAB for at least three additional semesters in order to complete their honors thesis and program-specific coursework (PY 399 and PY 499). Students should submit an application form (available from their psychology advisor or the department website) to the Director of the Psychology Honors Program (mgcrowe@uab.edu), and an interview will be scheduled.

For admission to the program students should have a minimum GPA of 3.50 in psychology coursework, an overall GPA of 3.50 or above (at UAB as well as any transfer institution), and grades of A or B in core English and Mathematics courses.

Requirements

Students in the Psychology Honors program must complete a minimum of 48 semester hours of courses in psychology and 6 semester hours of coursework in biology, chemistry, or physics, as listed below.

Grade and Residency Requirement

A grade of C or better is required in all courses applied to these requirements. Overall GPA, Psychology GPA, and Institutional GPA (courses taken at UAB) must all be at least 3.50 and maintained at a minimum 3.50 to remain in and graduate from the Honors Program. At least 18 hours at the 300 level or above, including all honors and practicum courses must be completed at UAB.

At least 18 hours at the 300 level or above, including all honors and practicum courses must be completed at UAB.
Take PY 399 Psychology Honors Seminar in any three semesters after joining honors program. Take PY 499 Psychology Honors Thesis concurrently with the last enrollment in PY 399. Note that these courses are only offered in the Spring and Fall semesters.

If these classes are completed, students fulfill the requirement of Psychology Capstone and do not take PY 490.

Take at least 5 hours of PY 398 Research Practicum in Psychology hours of and at least 1 hour of PY 396 Teaching Practicum in Psychology or PY 397 Community-Based Practicum in Psychology.

Requirements for the general psychology examination, described above for the major in psychology, also apply to students in the Psychology Honors Program. As psychology majors, honors students have a full-time academic advisor available in the psychology department (Dr. Eric Gamper); Room 415 Campbell Hall; Telephone: (205) 934-3850; E-mail: redfox@uab.edu

Contact

For more information and an application for admission to the Psychology Honors Program, see the undergraduate psychology website at http://www.uab.edu/cas/psychology/undergraduate. You can also contact the Honors Program Director, Dr. Michael Crowe, at mcrowe@uab.edu

Department of Social Work

Chair: Dr. David E. Pollio

The baccalaureate social work program is fully accredited by the Council on Social Work Education and prepares graduates for employment at the beginning level of professional social work practice as well as for graduate-level professional education. The mission is to educate undergraduate students from a social science perspective in both problem-solving skills and social work values to prepare them for generalist practice with diverse populations in an increasingly complex and interconnected world, emphasizing social and economic justice for populations at risk. The program encourages social work career development through affiliation with professional organizations, pursuit of graduate education, and involvement in continuing education.

Students seeking to formally declare Social Work as a major must officially apply to the Social Work Professional program. Upon submitting the application and a signed academic check sheet all applicants are expected to submit a four question essay which will be evaluated by Department of Social Work faculty to determine admission.

Required course work includes acquisition of social work knowledge, values, and skills essential to social work practice, research, and policy. The curriculum culminates with a full-time, one-term field practicum.

No minor is required for social work majors. Instead, selected social and behavioral science courses provide a foundation for the professional courses. These foundation courses include:

Purpose
The Social Work Honors Program will provide preparation for graduate study or professional careers in Social Work. The program is designed to enhance students’ problem solving skills, critical and independent thinking, and application of research/evidence-based practice.

Benefits
• Honors students will benefit from one-on-one mentoring with faculty in the department, professional presentations and exposure which will enhance the student’s understanding of the field and practice of social work;

Minimum Eligibility Requirements
• Completion or currently enrolled in the following required social work courses (SW 100, SW 200, SW 203, SW 222);
• Declaration and acceptance into the social work major (application can be in the process of being reviewed at the time of submission);
• Must have a minimum 3.5 overall GPA and a minimum 3.8 GPA in required social work courses.

Application Process
Submit application material to the Department of Social Work office.

The application deadline(s) are as follows:
• Fall Admission: No later than 2nd Friday in March
• Spring Admission: No later than 2nd Friday in November

Submit a “Social Work Honors Program Application” with the following documents:
• A Honors Program Application Form*
• An unofficial copy of transcript
• A recommendation letter from an instructor of SW 100, SW 200, SW 203, or SW 222 **
• A resume

*NOTE: The application must be typed.

**A recommendation letter must be sent directly to Ms. Walker (cdwalker@uab.edu)

Review Process
• Review of application by faculty members
• Interview with the Honors Program Director

Requirements
To complete the departmental honors program, students must earn 10 honors credit hours and must maintain a minimum 3.5 overall GPA and a minimum 3.8 GPA in required social work courses and honors courses through graduation. Honors sections will be offered in the following courses:
• SW 320 Honors (3 credits)
• SW 494 Honors (3 credits)*
• SW 498 (1 credit)**

Grade Requirement
A C or better is required in all courses applied to the minor.
Department of Sociology

**Chair:** William Cockerham

Sociology is the scientific study of human social behavior, from the smallest group interactions to the broadest and most complex social processes. As a social science, the discipline analyzes the patterns of behavior in all types of social relationships. This field has broad scope and relevance and can be crafted to best serve a student's career or post-degree education.

The Department of Sociology offers three majors in sociology: Bachelor of Arts degrees in 1) General Sociology, 2) Social Psychology Concentration in Sociology, and a Bachelor of Science degree in 3) Medical Sociology. Minors are offered in General Sociology, Medical Sociology, and Social Psychology.

The undergraduate program in general sociology is designed to complement UAB’s location in a large metropolitan area. Such a location provides an excellent laboratory for study in several areas, including social inequality and urban sociology, as well as, medical sociology and social psychology. Students may choose from several courses in each of these areas to best complement their career goals. The general sociology major provides a broad background for students who are not planning a career in sociology but who want an understanding of the nature and development of social structures and social issues-knowledge that can be applied to a variety of occupations and careers. Additionally, the general sociology degree serves as useful pre-professional training for careers such as law, business, education, and government. Finally, the program helps prepare students for graduate study in sociology and other social sciences.

The social psychology concentration provides a perspective on interpersonal relationships that draws on research conducted in sociology and psychology. In the broadest sense, social psychology is the study of how people’s behaviors and thoughts influence, and are influenced by, the actions of others. As a field of study, social psychology has typically focused on the study of persons in face-to-face situations and small group settings. The social psychology concentration prepares students for careers in service-oriented fields such as health professions, education, business, and government, and graduate work in social psychology.

Medical sociology provides an analytic framework for understanding the social contexts of health, illness, and health care. The Bachelor of Science degree in Medical Sociology is a research-focused degree that prepares students for graduate studies in medical sociology or a career in health-related services, medical (social) research, or government data analysis. In addition, when the Bachelor of Science in Medical Sociology is paired with pre-professional medical programs, students are provided with additional rigor in the social dynamics of the careers of their choice (nursing, medical school, and the health professions).

**Graduate Program**

For information on the graduate program in sociology, please consult the Department of Sociology or the UAB Graduate School Catalog.

Sociology Electives |
Select 15 hours from Sociology (SOC) courses, with at least nine hours at the 300-level or above. | 15
---|---
Total Hours | 18

1. SOC 100 Introduction to Sociology may also be eligible to count toward Core Curriculum Area IV.
2. SOC 245 will count toward this requirement, and may also be eligible to count toward Core Curriculum Area IV.

Grade & Residency Requirement

A “C” or better is required in all courses applied to the minor. At least six hours of the minor must be completed at UAB, including three hours at the 300-level or above.

Minor in Medical Sociology

Medical sociology focuses on study of the social causes and consequences of health and illness. In addition, it analyzes health organizations and institutions, the social behavior of health personnel and consumers of health care, as well as international patterns of health services. It is a particularly relevant minor for students preparing for a career in a health profession such as medicine, nursing, dentistry, or optometry.

A grade of “C” or Better is required for all courses within the Medical Sociology Minor.

Requirements | Hours
---|---
Required Courses |
SOC 280 Introduction to Medical Sociology | 3
SOC 283 The Sociology of Mental Health | 3
Social Diversity and Inequality |

**Honors Program in Sociology**

**Purpose**

The Sociology Honors Program is designed to help prepare outstanding undergraduate majors for graduate study in sociology or a career in medical sociology. The program offers a mentored research experience, and under faculty supervision, students will be exposed to a wide range of sociological perspectives and research areas.

**Eligibility**

Acceptance into the Sociology Honors Program requires the following:

- Completion of the required sociology courses including Introduction to Sociology, Theory, Research Methods and Statistics (by the end of the fall term of the year the student enters the honor’s program).
- An undergraduate cumulative GPA of 3.00 or above.
- A junior or senior level standing (admittance to Honors Program must take place before August 1).
- A cumulative GPA in Sociology courses of 3.3 or above.

**Requirements**

The following is required to graduate with honors in the Sociology Honors Program:

- Completion of the required sociology courses.
- Completion of two-semester Honors seminar 498/499.
- Completion of a senior-level thesis or Service Learning Project or Research Project under faculty supervision.

**Benefits**

Participation in the Sociology Honors Program provides a unique opportunity for highly motivated, academically talented undergraduate students to have access to and interact with faculty in an environment that encourages creativity and independent scholarship. Seminar participation and research experience will be important to nurturing the student’s sociological imagination. Completion of the Honors Program is an advantage when applying to graduate school or looking for employment in an appropriate discipline-oriented field. Finally, students who complete the program will graduate “With Honors in Sociology.”

**Contact**

For additional information and/or admission to the Sociology Honors Program, contact:

The Director of Undergraduate Programs
Department of Sociology
460H Heritage Hall Bldg
Birmingham, AL 35294-1152
Telephone: (205) 934-3307

**Honors Program in Social Psychology**

**Purpose**

The Social Psychology Honors Program is designed to help prepare outstanding undergraduate majors for graduate study in Social Psychology or a career in medical Social Psychology. The program offers a mentored research experience, and under faculty supervision, students will be exposed to a wide range of sociological perspectives and research areas.

**Eligibility**

Acceptance into the Social Psychology Honors Program requires the following:

- Completion of the required Social Psychology courses; including Introduction to Sociology, Theory, Research Methods and Statistics (by the end of the fall term of the year the student enters the honor’s program).
- An undergraduate cumulative GPA of 3.00 or above.
- Junior or senior level standing (admittance to Honors Program must take place before August 1).
- Cumulative GPA in Social Psychology courses of 3.3 or above.

**Requirements**

The following is required to graduate with honors in the Social Psychology Honors Program:
• Completion of the required Social Psychology courses.
• Completion of two-semester Honors seminar 498/499.
• Completion of a senior-level Thesis or Service Learning Project or Research Project under faculty supervision.

Benefits
Participation in the Social Psychology Honors Program provides a unique opportunity for highly motivated, academically talented undergraduate students to have access to and interact with faculty in an environment that encourages creativity and independent scholarship. Seminar participation and research experience will be important to nurturing the student’s sociological imagination. Completion of the Honors Program is an advantage when applying to graduate school or looking for employment in an appropriate discipline-oriented field. Finally, students who complete the program will graduate “With Honors in Social Psychology.”

Birmingham, AL 35294-1152
Telephone (205) 934-3307

Department of Theatre
Chair: Mr. Kelly Dean Allison, MFA
The Department of Theatre subscribes to the philosophy that classroom study and practical experience are complementary and of equal value. A wide array of courses related to the performing arts and film are taught in well-equipped studios and smart classrooms. Production opportunities are available in state-of-the-art production facilities, the Morris K. Sirote Theatre and the Odess Theatre in the Alys Robinson Stephens Performing Arts Center.

Majors
The Department of Theatre offers a Bachelor of Arts (BA) in Theatre, a Bachelor of Fine Arts (BFA) in Musical Theatre, a minor in Theatre, and an individually designed major (IDM) in Film. In addition, students can earn an interdisciplinary minor in Film Studies. The department also offers an honors program for qualified students.

All BA Theatre majors are admitted on a general track. Those who wish to specialize are given the opportunity to audition and interview for one of two pre-professional concentrations: Performance or Design and Production. The general track provides a student with a broad education in all areas of theatre. The pre-professional performance concentration focuses on acting, with an emphasis on movement and vocal training. The pre-professional design and production concentration focuses on developing design and production skills in the areas of scenery, costume, lighting, and audio.

The Musical Theatre BFA training program focuses on musical theatre performance skills with 72 semester hours in theatre, music, and dance. An audition is required to declare a Musical Theatre major. Auditions are held three times during the academic year starting in November.

Enrollment is limited so students who wish to pursue a Musical Theatre BFA are encouraged to audition early.

An Individually Designed Major is a program of study that is tailored to the individual needs of each student and is available to self-motivated students. Film IDM majors normally begin with a common 30 credit hour core of film-related courses. A minimum of fifteen additional credit hours are chosen by students in areas that will prepare them to accomplish their specific career goals. All IDM plans of study require approval from the Department of Theatre Chair and the Dean of the College of Arts and Sciences, as well as consultation with a faculty mentor and an academic advisor in the College of Arts and Sciences.

Theatre faculty provide individual mentoring and advising to help students matriculate and achieve their academic and professional goals. All majors and minors are expected to show progress toward completing university core requirements, participate in department productions, and to be professional both in attitude and actions while representing the department.

Scholarships, Stipends, and Other Financial Aid
In addition to university financial aid, stipends and scholarships are available through the Department of Theatre to qualified students. Students awarded Theatre stipends and scholarships are expected to remain in academic good standing. Department scholarships require an overall GPA of 2.5 and a 3.0 GPA for all Theatre courses. Students with department stipends must maintain an overall GPA of 2.25. For more information, call (205) 934-3236 or visit the department web site at www.uab.edu/cas/theatre.

| **Total Hours** | 24 |

### Honors Program in Theatre

#### Purpose

The Theatre Honors Program is designed for outstanding students majoring in Theatre. Through mentored work on an individually developed creative project or research topic, students will develop skills in preparation for graduate school or a professional career.

#### Eligibility

Acceptance into the Theatre Honors Program requires the student to:

- Be a Theatre major.
- Have earned a 3.5 GPA in Theatre courses attempted.
The UAB Honors College brings together intellectually curious students from all majors to form a close-knit community of emerging scholars. Our honors courses are designed to prepare students to communicate effectively in written and oral form, demonstrate critical thinking skills, integrate knowledge across domains, participate effectively in team endeavors, and function as ethical citizens of communities.

All UAB Honors College students benefit from the following:

- Innovative honors seminars
- Honors sections of core and elective courses
- Unique experiential learning opportunities in service learning, undergraduate research, and study abroad
- Special speaker series, discussion groups, and student activities
- Smaller class sizes
- Additional academic advising
- Optional honors housing
- Honors New Student Retreat

### Honors Student Leadership

Leadership development is an integral part of the honors student experience. UAB Honors College offers opportunities for students through workshops, coursework, and events throughout the year. In addition, we offer three formal student leadership groups:

- **Honors Ambassadors**: A highly selective group of outstanding honors students. Honors Ambassadors are our official representatives and participate in a number of activities and events that connect visitors and other constituents of the UAB community – prospective students and their families; current students and alumni; administrators, faculty, and staff – to the UAB Honors College.

- **Honors College Leadership Council (HCLC)**: Elected representatives of the Honors College student body, the HCLC leads efforts to advocate for the needs of the honors community, promotes the visibility of the Honors College both on and off campus, and seeks to foster a sense of community within the Honors College. The HCLC plans service, social, and educational events for all honors students.

- **Honors Resident Assistants (Honors RAs)**: Selected by both UAB Honors College and UAB Housing and Residence Life, Honors RAs live with our first-year students in the New Freshman Residence Hall. They help honors students adjust to college life and create community among new students.

### Honors Faculty Fellows

UAB Honors College established our Honors Faculty Fellows program in 2016 to create stimulating academic enrichment experiences and enhance community. Faculty members are nominated and selected each summer. Recent Honors Faculty Fellows activities include a science fiction book club, an honors running club, and monthly seminars on timely topics (e.g., deception in politics, the minimum wage, gun violence).

### Curriculum

UAB Honors College students can either pursue our **Personalized Pathway** or choose one of our **Specialized Programs** in global and community leadership (GCL), science and technology (STH), or interdisciplinary arts and sciences (UHP). We encourage students to visit http://www.uab.edu/honors for additional information on the Personalized Pathway and Specialized Programs. In addition, many of our honors students participate in departmental (major-specific) honors programs or Fast Track Fifth Year Master's Programs. When possible, we also offer opportunities for students to take special seminars typically available only to graduate students. These enhanced curricular and co-curricular opportunities are designed to stimulate high-ability students, build community, and prepare students to accomplish their long-term goals.
Contacting the Honors College:

Mailing Address: Physical Address:
HBB 520 Heritage Hall, Room 520
172 2nd Avenue South 1401 University Blvd
Birmingham, AL 35294-1152 Birmingham, AL 35294

Phone: 205-996-7190

Email: honorscollege@uab.edu

UAB Honors College Admission Requirements

Incoming Freshmen:
In order to be admitted to the UAB Honors College, students must first be admitted to the University of Alabama at Birmingham. Following general university admission, there are two paths for incoming freshmen to join the UAB Honors College:

- **Invitation** – Admitted students with a minimum ACT score of 28 or SAT score of 1260 and a 3.5 GPA will receive an invitation in the mail to join the UAB Honors College. Students who join the UAB Honors College prior to January 15 will have the option of applying to specialized programs in science and technology, interdisciplinary arts and sciences, and global and community leadership. All students offered admission into the UAB Honors College or its programs must confirm their enrollment online no later than May 1 of their senior year.

- **Application** – Students who do not meet the standardized test score or GPA requirements must submit an application in order to be considered for admission. A committee of faculty and staff will review these materials and notify students of their admission status.

To learn more about enrolling in the UAB Honors College, please visit http://www.uab.edu/honorscollege/.

Current and Transfer Students:

Current UAB students and transfer students may be eligible for admission into the UAB Honors College, provided that they have earned at least 12 hours of credit with a minimum 3.5 collegiate GPA. All current and transfer students must earn at least 18 credits of honors-level coursework during their time at UAB. Prospective current and transfer students should contact the Office of Honors Advising and Retention at honorsadvising@uab.edu to discuss possible admission into the UAB Honors College based on their existing academic profiles and future trajectories.

Continuation in the Honors College

UAB Honors College students are required to maintain a 3.0 cumulative UAB GPA to remain in good standing. Each student’s academic record is evaluated at the end of fall and spring semesters and any student who falls below the minimum requirement will be placed on immediate probation. A student on probation will be required to meet with an Honors College advisor or the director of their program to discuss the student’s action plan to raise the cumulative UAB GPA to at least 3.0. Students on probation have up to one year to raise their UAB GPA at least 3.0. The probation period ends when a student’s GPA rises to at least 3.0 or after 1 year has elapsed.

Continued failure to meet minimums after the one year probationary period will result in suspension from the Honors College. Suspension includes the loss of all privileges associated with being an honors student, including priority registration and honors graduation designation. In rare circumstances, a student may appeal to the Dean of the Honors College for an extension of the probation period or for reinstatement. Additional requirements may be required by individual honors programs for students to remain in good standing.

Honors-Level Courses

All UAB Honors College students must complete a minimum of 18 credit hours of honors-level coursework to graduate with Distinguished Honors. Students who choose to earn 30 or more honors credits will graduate with High Distinguished Honors. Specific requirements for our Personalized Pathway and our Specialized Programs are detailed in these sections. Honors credits can be earned in the following ways:

1. Courses offered with an HC prefix
2. Courses offered with an STH, HON, or GCLH prefix
3. Honors-level course sections offered through academic departments
4. Honors by Contract*
5. Courses required for departmental honors programs

*Honors by Contract allows students to augment their experiences in standard courses. Within the first two weeks of the semester, an interested student should meet with a faculty member to devise an honors contract. Contract details vary, but they share a commitment to academic excellence above and beyond the minimum requirements for the course. Some faculty may require additional readings, labs, papers, or research. Others may ask students to complete qualitatively different work while maintaining the same quantity of assignments. Once the faculty member and student have agreed on the contract, they both sign an Honors by Contract form which the faculty member submits to the UAB Honors College. Forms are due no later than the second week of the semester the student is enrolled in the course.

Commitment to Excellence

Honors College admission is a noteworthy achievement, recognizing not only demonstrated academic excellence but also potential for future success. The UAB Honors College is a scholarly community comprised of students, faculty, and staff who commit themselves to high standards of intellectual and personal integrity. As such, honors students should be among the most respectful, hard-working participants in any classroom. They should challenge themselves to think in new ways and to remain open to insight from others. In addition, they should be ethical community members continually looking for ways to serve their peers, the campus, and the local community.

Personalized Pathway

The UAB Honors College is dedicated to innovative courses, hands-on experiential learning, service learning, and – most importantly – the individuality and diversity of our brilliant students.

Those learning experiences – and those unique students – just don’t fit into the standard college curriculum. Some of our students pick up second majors or interesting minors, or they incorporate electives from multiple programs to give them a more well-rounded education. Others create individualized majors that reflect their unique mosaic of interests. To make sure their curiosity is fed, their passion is pursued, and their
fire stays stoked, we guide our students in charting their own course with their own personalized curriculum.

Benefits

Working with an honors advisor each semester, students pursuing a Personalized Path develop their interests and talents into goals. Then they work together to create a personalized curriculum that will take them places no standard, one-size-fits-all curriculum ever could. One of the greatest benefits to the Personalized Path is its flexible and customizable curriculum. Rather than being told which honors courses to take each semester, students constructing a Personalized Path choose from an array of more than 30 honors courses each term. And when students discover new interests, their honors advisors help them identify honors coursework and experiential learning opportunities that align with those new passions.

Coursework

In a Personalized Path, honors students take a mixture of honors seminars, honors sections of core and elective courses, honors experiential learning courses, and honors by contract. These classes are smaller in size (maximum of 25 students per section) and provide students with uniquely engaging curricular experiences.

- Honors Freshman Seminar: These multidisciplinary seminars, designed for first year students, cover topics not typically offered at UAB and are taught by some of our most outstanding faculty. Students choose from 10-15 topics each fall. Prior examples include: Media and Society; Healing: Ritual, Relationships and Faith; Justice for All? Education and Opportunity in America; Design Thinking for Innovators; and Health and Humanity: Being a Global Leader.
- Honors Core and Elective Courses: Enhanced sections of regular courses that provide students with a high level of engagement and critical thinking.
- Honors Experiential Learning Courses: Students may participate in individual projects in service learning, research, internships, or education abroad. The UAB Honors College also offers specific experiential courses, including recent study abroad courses in the Netherlands and Cuba.
- Honors by Contract: Students may work individually with a faculty member to enhance a standard course with academic work going above and beyond the common requirements of the class.

Community

Students pursuing a Personalized Path are immersed in the UAB Honors College community through activities each semester organized by our student leaders, advisors, and Honors Faculty Fellows. Even before classes begin, the Honors College offers orientation dinners and an Honors New Student Retreat to introduce students to one another and prepare them for success at UAB. Once on campus, our Honors RAs facilitate monthly programming in the residence halls, and students receive a weekly newsletter making them aware of college-wide service opportunities, social events (e.g., Holiday Soiree, Spring Ball), and professional development workshops. Students also have access to exclusive space for studying and spending time with friends.

Honors-Level Courses

UAB Honors College students on our Personalized Pathway must complete a minimum of 18 credit hours of honors-level coursework in order to graduate with Distinguished Honors. Students who choose to earn 30 or more honors credits will graduate with High Distinguished Honors.

Honors credits can be earned in any of the following ways:

1. Courses offered with an HC prefix
2. Courses offered with an STH, HON, or GCLH prefix
3. Honors-level course sections offered through academic departments
4. Honors by Contract
5. Courses required for departmental honors programs

*Honors by Contract allows students to augment their experiences in standard courses. Within the first two weeks of the semester, an interested student should meet with a faculty member to devise an honors contract. Contract details vary, but they share a commitment to academic excellence above and beyond the minimum requirements for the course. Some faculty may require additional readings, labs, papers, or research. Others may ask students to complete qualitatively different work while maintaining the same quantity of assignments. Once the faculty member and student have agreed on the contract, they both sign an Honors by Contract form which the faculty member submits to the UAB Honors College. Forms are due no later than the second week of the semester the student is enrolled in the course.

Honors Seminar

Students are required to complete an honors seminar during their first year in the Honors College. Available seminars will be communicated each semester through the honors advisors.

Experiential Learning

Students are required to complete a minimum of one experiential learning course at UAB. These courses may include service learning, study abroad, research, or internships.

Specialized Programs

Not all Honors College students choose a personalized pathway — some find a perfect academic fit in one of our three specialized honors programs. The Global and Community Leadership Honors Program (p. 262), Science and Technology Honors Program (p. 262), and University Honors Program (p. 265) lay out a curriculum of courses and experiences to thoroughly explore global leadership, science and technology, or interdisciplinary arts and sciences.

Once students have been admitted to the UAB Honors College, they may apply to one or more of the specialized programs. Admission to these programs is competitive, and students must submit an additional program application no later than January 15.

Experiential Learning Scholars Program

Based on the outstanding success of this pilot program, the UAB Honors College now incorporates experiential learning for all honors students, and we are no longer accepting applications for this program.

EL 199. Honors Experiential Learning Plan. 0 Hours.

Provides an opportunity for a customized learning plan to integrate the student's values, goals, academic plan to include but not limited to applicable and relevant research, service learning, and study abroad experiences.
Global & Community Leadership

Students in the Global and Community Leadership (GCL) Honors Program know that they’re members of a community — not just a local one, but a global one. Social justice issues like educational disparities, poverty, food insecurity, environmental degradation, and health care access touch lives in every country, in every big city and small village, at every socioeconomic level. GCL prepares honors students to explore, understand, and take a leadership role in addressing those issues and making lives better.

Vision
Through the GCL Honors Program, students combine their academic interests and personal passion to be transformational leaders for the 21st century.

Mission
The GCL Honors Program challenges students to think critically about how they can be good citizens of communities. GCL students gain appreciation of diverse perspectives and practice applying knowledge to community development.

Values
• Participatory citizenship
• Ethical leadership
• Creative problem-solving
• Effective communication

Community
GCL students are a tight knit community of students wanting to make the world a better place. Our elected student Leadership Council for GCL plans monthly global and community education and outreach events, service projects, and social activities that are open to all UAB Honors College students.

Application
For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honors. GCL is intentionally flexible and is available for students to enter as late as the third year.

Coursework
GCL students must complete a minimum of 18 hours of designated honors coursework to graduate with Distinguished Honors in Global and Community Leadership; students may complete 30 hours of honors coursework to graduate with High Distinguished Honors in Global and Community Leadership.

Required GCL coursework
12 hours of designated GCL honors coursework:
- Honors Seminar HC 110-120 (3 credit hours) — Seminar on a topic related to GCL’s mission, topics vary annually
- Burning Issues: GCLH 150 (3 credit hours) — Overview of various issues facing society (e.g., human rights, sustainability, healthcare access, educational reform). Course includes guest speakers, topical readings, and significant reflective writing. Ultimately, students will identify an issue that ignites their passion — their “burning issue.”
- Fanning the Flame: Variable courses (3 credit hours) — Student will select a course that provides further exploration of the student’s “burning issue.”
- Stoking the Fire - Leadership in Action: GCLH 350 (3 credit hours) — Students will learn, develop, and put into practice a pragmatic skill set for management and operations in social change leadership.

Six additional hours of honors coursework:
Students should take the remaining hours from approved honors courses relevant to GCL’s mission. GCL administration will designate appropriate honors courses for GCL students each semester, and students will choose the courses that are most applicable to their own passions and goals.

For students who choose to earn 30 hours of honors credit, the additional 12 hours of honors coursework can be earned through non-GCL specific honors seminars, honors sections of core courses, honors by contract, and/or school/departmental honors programs.

Experiential Learning
GCL students are required to complete a minimum of one experiential learning course at UAB. These courses may include service learning, study abroad, research, or internships. If taken for honors credit, the experiential learning course may help fulfill the honors requirement. If not taken for honors credit, the course will not be applied to the total number of honors credit hours but can still satisfy the experiential learning requirement.

Science and Technology Honors Program

Program Director: Diane C. Tucker, Ph.D.
Associate Directors: Joe L. March, Ph.D., and Joel L. Berry, Ph.D.
Program Manager: Clay Walls, B.A.

The Science and Technology Honors Program at UAB revolutionizes the undergraduate experience. Acceptance to the program places students in the company of fellow scholars and world-renowned researchers. Science and Technology Honors (STH) students synthesize ideas from multiple disciplines to tackle real, meaningful scientific problems. The unique, four-year STH curriculum of coursework, seminars, mentored research, and leadership challenges builds community and sharpens scientific thinking.

This unique program is the only one of its kind in Alabama. It is designed for the best and brightest students whose academic and extracurricular
achievements demonstrate intellectual curiosity, energy, creativity, and leadership abilities. Graduates of the STH Program are well prepared for graduate study at the Master’s or Doctoral level as well as for professional school.

Mission
To prepare scientific leaders of the next generation by engaging students in interdisciplinary classroom, leadership, research, and innovation experiences which culminate in the dissemination of new scientific knowledge.

Vision
- UAB’s Science and Technology Honors Program will recruit a diverse group of talented undergraduate students, involve faculty from across the university as teachers and mentors, and provide a unique educational experience for students.
- Through interdisciplinary courses and laboratory research experiences, STH students will be exposed to the power of integrating multidisciplinary approaches and will apply this perspective to research and innovation problems.
- STH students will be trained in scientific thinking and communication and will conduct and disseminate original research or scholarship under the supervision of a faculty mentor.
- STH graduates will be well prepared for graduate and professional study and will show evidence of leadership in academic, economic, and policy areas related to science and technology during their careers.

Benefits
Students in the STH Program work closely with research faculty and participate in original scientific research. During the first two years, the program prepares students with the knowledge and skills they need to get started in research. Beginning as early as the freshman or sophomore year, students work closely with a faculty mentor on an individualized project, learning about research and innovation through apprenticeship. STH students are encouraged to attend national conferences and to publish their research in scientific journals.

The program is a closely knit community with approximately 50 undergraduate students admitted each year. The small number encourages collaboration among students, interaction with faculty, and sharing of ideas. Students receive priority registration and take science and technology focused sections of core courses such as English Composition II (EH 102). In addition, STH students can earn graduate credit, providing an advantage when pursuing an advanced degree.

Coursework
The academic portion of the Science and Technology Honors Program builds upon UAB’s research strengths in science and technology. Special interdisciplinary courses such as Introduction to the Scientific Process (STH 199) and the Interdisciplinary Seminar (STH 299) examine topics from many scientific and technical perspectives, illustrating how scientists integrate multiple fields of study when approaching research and development questions.

Students discover the methodologies and techniques used in a variety of research areas, including biology, cell biology, chemistry, molecular genetics, computer and information systems, engineering, neuroscience, psychology, physics, and more. In their Research Approaches (STH 201) course, students get hands-on experience in laboratory techniques and generate original data for presentation at the UAB Expo.

Exclusive seminars put students face to face with UAB’s best known researchers who share their insights and experiences from the lab and the field. The entire curriculum is designed to encourage independent thinking, questioning of ideas, innovative problem-solving, and skill in scientific communication. STH coursework also integrates seamlessly with honors programs in science and technology majors.

The program culminates in a two-year intensive research experience under the direction of UAB faculty. Students build upon the methods they have learned in their courses and seminars to propose and conduct an independent research or innovation project in collaboration with their faculty mentor. This project becomes the student’s Honors Thesis. The Honors Thesis is prepared for publication in a scientific journal and for presentation at a national conference. Thus, many STH students will both publish a scientific paper and present at a national conference before graduating from UAB. Students in the program must complete 30 hours of honors coursework, which includes 13 hours of Science and Technology Honors courses and at least 6 hours of independent research under the direction of a faculty mentor to complete their Honors Thesis research. Honors versions of many core courses have been developed and can contribute to the 30 hours of honors credit required.

The Honors Thesis may also take the form of a capstone or clinical innovation project developed in consultation with and approval of the program director.

- A capstone project draws together students’ experience and is useful for students planning career paths other than bench research. Students will delineate the scope of the project, resources needed, and the anticipated product. The project could be proposed by a team of students with the scope adjusted and the expectation that several students will contribute.
- The clinical innovation pathway allows students to develop expertise in applied innovation within medical settings through a series of courses that provide exposure to clinical settings and guide them through a client-centered design process. The final product may include a working prototype, patent application, or business plan, depending on the scope of the proposed project. Students will have the option to develop an idea into a project either as an individual or as part of a team.

Who Should Apply
This program is best suited for students who are intensely curious about science and excited about the prospect of becoming a generator of new knowledge in their field. In addition to curiosity about science, successful applicants generally have a strong academic record and plan to pursue a career in science or technology. STH students typically have a GPA of 3.5 or higher in their high school academic courses and ACT or SAT scores at or above the 90th percentile in math and science. Because the program values diversity and strives to accommodate talented students, applications are reviewed individually and invited applicants are personally interviewed.

Students interested in applying to STH must first be admitted to the UAB Honors College. Following admission to the College, interested students may then submit an application to the STH Program. This application and two letters of reference must be received by January 15 of the student’s
senior year of high school. For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honorscollege/.

**STH Signature Courses**

Each student in the program takes the following STH Program coursework during their first two years in the program to prepare for their independent research experience.

**STH 199 Introduction to the Scientific Process.** Fall semester of freshman year. Students work in teams to analyze current scientific problems under investigation by UAB faculty, learning about how scientists approach problems and conduct their research, including ethics and institutional review of human and animal research.

**STH 201 Research Approaches.** Spring semester of freshman year. Systematic training in foundational research methodologies and opportunity to application of the methods in research laboratories. Students choose among biotechnology training, advanced chemical analysis, or engineering design and materials analysis.

**STH 299 Interdisciplinary Seminar.** Fall semester of sophomore year. This course illustrates the synergy achieved by interdisciplinary analysis of problems. Example topics include High Voltage Innovation, Neurobiology of Learning and Memory, Energy Generation and Conservation, Disorders of the Central Nervous System, and Creating a Culture of Sustainability.

**STH 301 Statistics and Design Overview.** Spring semester of sophomore year. Introduction to principles of research design and statistical analysis, including a statistics laboratory for hands on experience. Students may satisfy the statistics requirement by earning credit for an equivalent statistics course approved by the STH program director, e.g., PUH 250, PY 216, or MA 180. Alternative credit through AP or IB may also be accepted.

**Curriculum**

To graduate with **High Distinguished Honors in Science and Technology,** students must complete a minimum of 30 semester hours of honors coursework including the following courses:

<table>

<sup>a</sup> Students must take an honors section of EH 102 focused on scientific communication and technical writing, usually either in the fall or spring semester of the first year, depending on whether they come to UAB already having earned credit for EH 101. Students who come to UAB having earned credit for both EH 101 and EH 102 should take this course cross-listed at the 200-level as EH 202, usually in their first semester.

<sup>b</sup> Students may satisfy the statistics requirement by earning credit for an equivalent statistics course approved by the program director, e.g., PUH 250, PY 216, MA 180, or STH 301.

<sup>c</sup> Students may substitute **no more than three (3) of the six (6)** required research credit hours with equivalent research credit course(s) in the department of their major with approval of the program director, e.g., By 398, CH 497, BME 494, PY 398, NBL 398, PH 498, CS 398, MA 398, or BMD 497, for STH 398 and/or STH 399 which will also be counted towards their cumulative total of 30 honors hours.

<sup>d</sup> Students completing a capstone or innovation thesis instead of a traditional research thesis may substitute STH 394 and/or STH 397 instead of research credit hours. The number and type of hours needed to fulfill this requirement will depend on the thesis plan developed with and approved by the program director. In all cases, a cumulative total of 30 credit hours of honors coursework must still be earned.

and interests in the friendly confines of the Spencer Honors House. To participate in a community of committed scholars, to form close relationships with faculty, to explore new ideas, and to share their ideas for students who want to satisfy their intellectual curiosity both inside and outside the classroom, the program accepts about 50 students each year representing a wide variety of disciplines, backgrounds, and interests. The program offers an innovative, interdisciplinary arts and sciences curriculum gives students a distinct advantage when applying for national awards and scholarships as well as graduate or professional schools.

**University Honors Program**

**Program Director:** Michael E. Sloane, Ph.D.

**Associate Director:** William J. Rushton, IV, Ph.D.

**Program Manager:** Donna Andrews, M.P.A.

**Student Counselor:** Rebecca Freeman, M.A.

The University Honors Program draws on the wide range of resources available at a comprehensive research university and concentrates those resources within a small, personal, liberal arts setting. Designed for students who want to satisfy their intellectual curiosity both inside and outside the classroom, the program accepts about 50 students a year representing a wide variety of disciplines, backgrounds, and interests. The program offers an innovative, interdisciplinary arts and sciences curriculum taught by faculty who are known for their excellence in teaching and scholarship. Without delaying progress toward a degree, the University Honors Program provides students an opportunity to participate in a community of committed scholars, to form close relationships with faculty, to explore new ideas, and to share their ideas and interests in the friendly confines of the Spencer Honors House.

**Benefits**

Students in the University Honors Program (UHP) receive a more intensive and innovative education that consists of a 33 credit hour interdisciplinary arts and sciences curriculum that replaces a student’s regular core curriculum without adding any additional time to degree completion. Students take two, nine-credit hour interdisciplinary courses and five UHP honors seminars on topics not offered in the regular academic departments. Since the five UHP honors seminars are capped at 16 UHP students, they get to know their instructors and other students very well, providing a sense of community and identity within the larger university context. UHP students have the opportunity to develop their leadership skills by involvement with several student-lead UHP committees and university-wide organizations and initiatives. UHP students receive priority registration and are typically involved in undergraduate research mentored by renowned faculty.

The Spencer Honors House, with all of its facilities, belongs exclusively to students in the UHP and is accessible to them at all times. UHP students have the opportunity to participate in a wide variety of cultural, social, and scholarly events and are funded to present their research at state, regional, and national honors conferences. After completing the program, students graduate with a special designation on their transcripts. In addition, UHP students are recognized annually at the UHP Honors Day ceremony. Graduation from the UHP, with its broad interdisciplinary arts and sciences curriculum gives students a distinct advantage when applying for national awards and scholarships as well as graduate or professional schools.

**Spencer Honors House**

The center of identity and community for the University Honors Program is the Spencer Honors House, located on campus in the spacious and attractive environment of the Old Church at 1190 10th Avenue South. All instructional and social activities of the University Honors Program take place there. The Spencer Honors House is also available for day-to-day use by UHP students for recreation, studying, meeting, and relaxing. The facilities include a kitchen, lounge areas, library, computer clusters, and pool and Ping-Pong tables. The offices of the director, associate director, program manager, and student counselor are also located in the Spencer Honors House.

**Scholarships**

The Hess-Abroms Honors Scholarships, awarded annually, are valued at $24,000 each and provide $6,000 per year. Application is open to incoming freshmen. The award is based on superior academic achievement, creativity or talent, strong motivation, character, and intellectual promise. Application materials are made available at the time of interview. The University Honors Program also has a number of smaller ($1,000-$2,000) annual scholarships that are awarded in May each year. Students who have committed to entering the program can apply for these scholarships that are distributed based on merit and need.

**Application**

For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honorscollege/.

**Honors Coursework**

Instead of the 41 semester hours of Core Curriculum requirements, students in the University Honors Program take 33 semester hours of honors coursework and three semester hours in mathematics. In addition,
they participate in a variety of special events, most of which are centered in the Spencer Honors House. While in no way delaying progress toward a degree or interfering with commitment to a major, the University Honors Program provides a stimulating range and depth of scholarly pursuits within an interdisciplinary arts and sciences context. Students have frequent individual contact with the teaching faculty and have unusual opportunities for independent projects and research.

Honors students have two options for completing their 33 semester hours in honors:

- Two 9-semester-hour fall-semester interdisciplinary honors courses plus five 3-semester-hour honors seminars (only two of which can be related to the student’s major or minor); or
- Two 9-semester-hour fall-semester interdisciplinary honors courses, a minimum of three 3-semester-hour honors seminars (not related to the student’s major or minor), and up to six semester hours of departmental honors coursework within the student’s major (with the total number of semester hours adding up to 33).

The interdisciplinary honors courses are offered during the fall semester and are open only to University Honors students. These courses are team-taught by faculty members (usually six) from different schools in the university and by guest lecturers from the medical center, the business, and other areas. Each interdisciplinary course is organized thematically and designed to cover a broad range of material so the student is introduced to all areas covered by the Core Curriculum and to a wide variety of other areas as well. Topics of past interdisciplinary courses have included “Minds and Realities,” “In Search of Human nature,” “It’s About Time,” and “The Anatomy of Desire.” As part of the course, each student works on an independent project related to the central theme. Since instructors are committed to full-time teaching of this course, students receive ample advice and guidance on their projects.

The University Honors program offers about 18-20 different honors seminars each year. Some are cross-listed in other departments and so are open to all students at UAB. These seminars are offered during the fall semester, spring semester, and summer term and are limited to 16 students. Honors seminars are available in a variety of different fields and focus on issues that are of major interest within the field and also have implications and applications beyond it. Examples of honors seminars which have been taught are "Ethnographic Filmmaking," "China's Next phase," "Cognitive Brain Imaging," "Philosophy, Psychology, and the Economics of Happiness," "Existentialism and Modern Literature."

Additional Information about the Curriculum Core Requirement in Mathematics

In addition to the honors coursework, University Honors Program students must fulfill the mathematics requirement of Area III of the Core Curriculum.

Credit for Participation in Honors

Students may receive up to three semester hours of credit, graded on a pass/fail basis, for participating in the range of special events sponsored by the University Honors Program. Those events include:

- The monthly lecture
- First Thursday Lecture series
- Afternoon receptions for visiting speakers

- The fall film series
- Workshops
- Field trips

Credit for Community Service

Students may receive up to three semester hours of credit, graded on a pass/fail basis, for completing long-term service projects. Available projects are announced before each semester and typically include:

- Work at a recycling center
- Homeless shelter
- Public school

As well as regular meetings to reflect on these service projects.

Independent Study

Students may propose an internship or independent study project in place of one seminar. An example of such a project is an internship at city hall, leading to a policy proposal on some area of city government. Proposals for these projects must be approved by the Honors Council.

Honors Research

Students can register for one, two, or three credit hours of Honors Research, and receive a letter grade for their research. Students arrange for a research mentor and conduct a project under the guidance of a faculty mentor.

Continuation in the Program

A student who leaves the University Honors Program for any reason will receive full credit toward graduation for all coursework completed in the program. The director of the University Honors Program will designate which of the Core Curriculum requirements have been fulfilled by the individual student’s honors coursework. In addition to the UAB Honors College’s requirement to maintain a 3.0 cumulative UAB GPA, UHP students are expected to maintain a 3.0 average in University Honors Program coursework.

School of Education

Dean: Deborah L. Voltz

The School of Education offers a wide range of educator preparation degrees and teacher certification options as well as non-teacher education degrees, majors, concentrations, and minors.

Educator Preparation Options. The School of Education offers educator preparation options that are fully approved by the Council for the National Council for Accreditation of Teacher Education and the Alabama State Board of Education (ALSBOE). These options lead to Bachelor of Science degrees and Alabama teacher certification in early childhood and elementary education, high school (secondary) education, and kinesiology (physical education). The School of Education also collaborates with the College of Arts and Sciences to offer pathways to teacher certification in a wide range of teaching fields, including music, science, and mathematics.

Kinesiology, Community Health and Human Services Preparation Options. There are several non-educator preparation options available for individuals seeking degrees at the undergraduate level. These degrees prepare students for employment in a variety of wellness, health, and fitness programs (community, commercial, clinical, and corporate) agencies/facilities and/or admission to health-related graduate programs (e.g., physical therapy, medicine, occupational therapy). Degrees, majors, concentrations, and minors are available in community health, human services, and kinesiology.

Educator Preparation Programs

At the undergraduate level, students may complete programs that lead to Alabama Class B certification in the following areas:

<table>
<thead>
<tr>
<th>Certification Area &amp; Grade Levels</th>
<th>Undergraduate Major</th>
<th>Teacher Education Department</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biology (6-12)</td>
<td>Biology</td>

### Office of Clinical Experiences

The Office of Clinical Experiences is responsible for coordinating student teaching and other clinical experiences for the School of Education. Information concerning student teaching applications, placement, and field experiences may be found in Suite 232 in the Education Building.

### Office of Student Services

The Office of Student Services is located in Suite 232 in the Education Building, provides academic advising to undergraduate Education majors. This office is also responsible for academic records and recommendations for teacher certification for the School of Education. Application materials for the Teacher Education Program and for Alabama teacher certification can be found at [http://www.uab.edu/soestudentservices/](http://www.uab.edu/soestudentservices/).

Alabama teacher certification programs and basic degree requirements vary among majors. Students should contact this office early in their studies to be certain they will meet School of Education requirements and Alabama Department of Education teacher certification requirements. The Alabama State Department of Education sets requirements for teacher education majors. Changes to these requirements may occur periodically so students should meet with their academic advisor at least once per semester to receive the most updated information about the Alabama State Department of Education requirements.

### Honors Program in Exercise Science and Fitness Leadership

The Department of Human Studies offers an Honors Program for Exercise Science and Fitness Leadership students. Highly qualified students will have the opportunity to work one-on-one with a mentor in an area of mutual interest and conduct either a research or civic engagement project designed to meet some particular need as it relates to pertinent areas of fitness, exercise, and physical activity. For more information go to: [http://www.uab.edu/education/studentservices/current-students/get-involved/honors-program](http://www.uab.edu/education/studentservices/current-students/get-involved/honors-program).

### Honors Program in Early Childhood and Education

Students in the Early Childhood and Elementary Honors Program graduate with departmental honors that will be designated on their transcripts and recognized during commencement exercises. In order to become eligible for this designation, students must meet the following criteria:

- Demonstrated commitment to Early Childhood and Elementary Education.
- Junior standing and the completion of nine (9) hours pre-professional education courses from ECY 300, EEC 300, EEC 301, EDF 362, and EPR 363.
- 3.5 GPA in Education courses taken, 3.0 GPA overall.

In order to participate in the Honors Program and graduate with “Honors Designation”, students must file an application with the Office of Curriculum & Instruction (Room 100) following an invitation from the respective program area. Following acceptance, students must enroll and complete the following two Education Honors Courses: EDH 491 - Honors Education Research and EDH 492 - Honors Education Service Project. Students must maintain an overall GPA of 3.0 or above and 3.25 in education courses through graduation.

EDH 491 - Education Research. Prerequisite: admission into the EEC Honors Program.

EDH 492 - Honors Education Service Project. Prerequisite: admission into the EEC Honors Program and completion of EHS 491.

### Admission and Program of Student Requirements

Admission and program of student requirements for all undergraduate degrees, majors, and concentrations may be located at [http://www.uab.edu/education/studentservices/admissions/checklists/undergraduate/bachelors](http://www.uab.edu/education/studentservices/admissions/checklists/undergraduate/bachelors).

### TEP Retention Requirements

A student may be dropped from the Teacher Education Program for failure to maintain satisfactory academic performance or professional dispositions as described by School of Education policy. Consistent with UAB policy on readmission, students readmitted to UAB must complete all program requirements, including TEP admissions and retention and completion requirements as outlined in the catalog under which they are officially readmitted.

1. Additional retention requirements by program:
   a. Early Childhood/Elementary Education
      i) Grade of “C” or better in all Pedagogy I courses (EDR 440, EEC 402, EEC 405, EEC 406, and EEC 494) and a GPA of 3.0 or higher in the Pedagogy I courses.
      ii) Grade of “C” or better in all Pedagogy II courses (EEC 412, EEC 413, EEC 414, EDR 443, and EEC 494) and a GPA of 3.0 or higher in the Pedagogy II courses.
Student Teaching Requirements

All students seeking baccalaureate degrees leading to teaching certificates must participate in a student teaching internship. All students must apply for student teaching by January 31 of the academic year that precedes student teaching. Applications are available online at the School of Education website, Office of Clinical Experiences. For additional information contact the Office of Clinical Experiences in Suite 232 of the Education Building.

To be eligible for this internship, students must have an approved student teaching application based on the following:

Early Childhood/Elementary Education:
1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the Early Childhood/Elementary program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.30 in all Teaching Field courses.
8. Passing score on all three parts of the Alabama Educator Certification Testing Program (AECAP).
9. Passing score on all parts of the Praxis II: Elementary Education Multiple Subjects.
11. Passing score on Praxis II: Teaching Reading.
12. Passing score on Praxis II: Principles of Learning and Teaching K-6 or the edTPA.
13. Demonstration of the dispositions needed to be successful as a teacher of young children, including children with special needs.
14. Documentation of requisite field experience hours in schools.
15. Criminal history background check status shown as ‘cleared’ on the Alabama State Department of Education database.

Students approved to teach in Early Childhood/Elementary Education must be concurrently enrolled in EEC 490 Internship in P-3/3-6 and EEC 491 Internship Seminar in P-6 Education. Students cannot take additional coursework besides these two courses during the term in which they student teach.

Kinesiology: (Physical Education):
1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the Kinesiology program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.75 in all Teaching Field courses.
7. Completion of all teaching field courses (KIN 307, KIN 308, KIN 311, KIN 320, KIN 320L, KIN 400, KIN 402, KIN 409, and KIN 489) with a grade of "C" or better.
8. Passing score on the Praxis I.
10. Passing score on Praxis II: Principles of Learning and Teaching K-6 (Code 5622) or Praxis II: Principles of Learning and Teaching 7-12 or the edTPA.
11. Demonstration of the dispositions needed to be successful as a teacher.
12. Documentation of the requisite field experience hours in schools.
13. Criminal history background check status shown as "cleared" on the Alabama State Department of Education database.

High School and Middle School Education:
1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the High School Education program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.75 in all Teaching Field courses.
7. Completion of all coursework. In some instances, a student may be allowed to take a teaching field course during the semester that immediately follows the student teaching semester. Students should regularly consult with their advisor to plan their program so that all teaching field courses are completed prior to student teaching.
8. Passing score on all three parts of the Praxis I.
9. Passing score on the appropriate Praxis II Subject Assessment.
10. Passing score on Praxis II: Principles of Learning and Teaching 7-12 or the edTPA.
11. Demonstration of the dispositions needed to be a successful teacher of middle and high school students, including students with special needs.
12. Documentation of requisite field experience hours in schools.
13. Criminal history background check status shown as “cleared” on the Alabama State Department of Education database.

Students approved to teach in Secondary Education must be concurrently enrolled in EHS 490 Secondary School Student Teaching I and EHS 489 Internship Seminar in Secondary Education. Students cannot take additional coursework besides these two courses during the term in which they student teach.

TEP Completion and Certification Requirements

A student who satisfies TEP admission and retention requirements and who meets the following completion requirements will be recommended for "Class B" teacher certification. Students must apply for certification. Certification application packets are available on the School of Education-Office of Student Services website www.uab.edu/soestudentservices, and should be completed and returned to the Office of Student Services, Suite 232, Education Building during the semester of program completion.

1. Students must have a minimum 2.75 higher education GPA, 2.75 teaching field GPA, and 2.75 professional studies GPA with no grade below "C" in professional studies courses.
2. Students must complete all courses on the Alabama State Board of Education approved checklist for the teaching field(s) in which certification is sought.
3. Students must demonstrate readiness to teach through on-the-job performance as a student teacher. This evaluation is conducted by
the School of Education faculty and appropriate personnel from local school systems.

4. Students must document a passing score on the Praxis I and all appropriate Praxis II and/or the edTPA. Official score reports must be sent to both UAB and the Alabama State Department of Education.

5. The Alabama State Department of Education has additional requirements for teacher certification. Included in these are fees associated with obtaining a certificate which are set by legislative action and may be changed. Students seeking initial certification are required to obtain background clearance to determine any criminal history through a fingerprint review conducted by the Alabama Bureau of Investigation (ABI) and the Federal Bureau of Investigation (FBI) prior to the issuance of a teaching certificate. A current application and fee payment for official transcripts are also required. Information on these requirements is available in the Office of Student Services, Suite 232, Education Building, and is included in the certification application packet.

**Teacher Certification for Students who Hold a Baccalaureate Degree**

There are several routes to teacher certification in the state of Alabama for those who already hold a baccalaureate degree. One option is to return to school to complete the current undergraduate coursework required for teacher certification. In general, individuals exercising this option are required to meet the same requirements for admission to, retention in, and exit from the Teacher Education Program as indicated above. Additionally, these students are required to have a program plan approved by the department chair before enrolling in any courses. A second option is to pursue the Alternative Master’s Program. Completion of this program and all its requirements leads to a master’s degree in education and Alabama “Class A” teacher certification.

Additional information on these and other options may be found on the Alabama State Department of Education’s web site (www.alsde.edu) or by contacting the Office of Student Services.

UABTeach (https://www.uab.edu/uabteach) is the program for all students seeking certification to teach secondary school (grades 6-12) in the sciences and mathematics, and in middle school mathematics (grades 4-8), with an undergraduate degree. It is a cooperative program among the College of Arts and Sciences (CAS), the School of Education, and the School of Engineering. To obtain teaching certification in Chemistry, Biology, Physics, General Science, or Mathematics, students major in their STEM field (Science, Technology, Engineering, and Mathematics) and participate in the UABTeach program. UABTeach is not a major, but rather leads to a minor in STEM Education (through the School of Education) and a Class B teaching certificate. Students considering seeking teaching certification in a STEM field should contact both their STEM advisor and the UABTeach advisor (HHB 210, 205-975-7424, UABTeach (https://www.uab.edu/uabteach)).

UABTeach consists of a sequence of eight courses (24 credit hours), ideally taken over eight semesters as outlined below. Courses with an EHS prefix are normally taken in sequence. However, there are pathways for students entering UABTeach after the first semester of their freshman year, and up until the first semester of their junior year, described in detail on the UABTeach website, which allow some overlap of courses. Normally, students can complete the UABTeach courses without adding any additional time to their degree, provided they are on schedule in their STEM major, and have not already begun their junior year. Currently, UABTeach courses are offered only in Fall and Spring semesters.

- Semester 1: Step1, Inquiry Approaches to Teaching (EHS 125, 1 hour; also counts as First Year Experience course in CAS)
- Semester 2: Step2, Inquiry-Based Lesson Design (EHS 126, 1 hour)
- Semester 3: Knowing and Learning in Mathematics and Science (EHS 325, 3 hours)
- Semester 4: Perspectives on Science and Mathematics (PHY 275) or Science, Knowledge, and Reality (PHL 270, 3 hours)
- Semester 5: Classroom Interactions (EHS 326, 3 hours)
- Semester 6: Research Methods* (number varies with STEM department, 3 hours) OR Functions and Modeling** (MA 361, 3 hours)
- Semester 7: Project-Based Instruction (EHS 327, 3 hours)
- Semester 8: Apprentice Teaching (EHS 425 and EHS 426, 7 hours)

* The Research Methods course is required for all UABTeach students earning science certification, and it is recommended for future math teachers.

** Functions and Modeling is required for all UABTeach students earning mathematics certification, and it is recommended for future science teachers.

The following table lists the currently available certifications, and the majors leading to them, under UABTeach.

<table>
<thead>

Students can begin the program in either fall or spring semesters. For more information, please visit the UABTeach website: http://www.uab.edu/uabteach/

**Minor in STEM (Science, Technology, Engineering, and Math) Education**

The STEM Education Minor includes the same courses UABTeach (https://www.uab.edu/uabteach) students take to earn Alabama teacher certification. So UABTeach students can add a minor with no additional coursework and have an element of their academic transcript reflect the work they have done to prepare themselves for teaching. The STEM Education Minor also includes an elective pathway designed to allow UABTeach students who elect not to complete Apprentice Teaching (EHS 425) and their certification requirements to add education electives to bring their minor coursework up to the required minimum of 18 hours.

1. The elective course structure is designed to allow UABTeach students who elect not to complete certification to earn a minor without enrolling in Apprentice Teaching, which is the student teaching option in UABTeach.
2. Course may not be used as a minor elective if also counted toward the students’ major.
3. e.g. BY 492, CH 492, PH 494. Course may not be used as a minor elective if also counted toward the students’ major.

**Department of Curriculum and Instruction**

**Chair:** Lynn Kirkland, Ed.D

The Department of Curriculum and Instruction offers undergraduate programs leading to a B.S. degree and Alabama “Class B” certification in early childhood/elementary education (grades P-6) and secondary education (grades 6-12). Teacher education programs are offered in conjunction with the College of Arts and Sciences in the following areas: music (choral and instrumental), science, and mathematics.

Students preparing to teach are expected to participate in a series of planned assignments in community and/or school settings both before and after admission to the Teacher Education Program. These opportunities to work with children and youth are designed to enhance the students’ professional development and to supplement their campus coursework.

**Early Childhood Education - Non-Certification Program**

The early childhood education non-certification program is designed to prepare students to work in a variety of early care and educational settings serving children ages birth to five. Career options include but are not limited to childcare administration, childcare resource and referral, and teaching in preschool and Head Start classrooms. Students successfully completing the program will receive a baccalaureate degree in early childhood education. In addition to studying general child development content, students will learn the basics of planning, implementing, and evaluating early childhood programs. Professional preparation includes courses in child development, curriculum, instructional strategies, assessment, and technology. The program includes extensive field experiences in infant, toddler, and preschool classrooms.

There are two pathways to earning an early childhood non-certification bachelor’s degree. One option, the 2+2 option, is designed for students who complete an Associate degree in child development at an Alabama community college. These students transfer to UAB and complete the second half of the early childhood education non-certification bachelor’s degree program. Option two is for students who begin their post-secondary education at a four-year institution.

**Core Curriculum for Early Childhood Education (Non-Certification Program)**

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

1. Core Curriculum Area IV: PY 101 Introduction to Psychology & SOC 100 Introduction to Sociology preferred.

**Bachelor of Science with a Major in Early Childhood Education (Non-Certification)**

Early Childhood and Elementary Education (Teacher Certification Program)

The early childhood/elementary education program is designed as a double major program. Students successfully completing the program and all requirements outlined below will receive a baccalaureate degree and be eligible for Alabama “Class B” professional teaching certificates in early childhood education (grades P-3) and elementary education (grades K-6).

Professional preparation includes courses in humanistic and behavioral studies, early childhood education, elementary education, curriculum and teaching, evaluation of teaching and learning, extensive pre-internship field experiences in P-6 settings, and an internship. Students must work closely with their faculty advisor for appropriate selection of courses in each area of general and professional studies.

Total Hours 19
on track for all requirements. Students should consult with their education advisor once per term and also with a content major advisor in CAS to insure they meet all current requirements as outlined in previous sections in order to be recommended for Alabama teacher certification. Students seeking certification in middle grades mathematics should complete the Mathematical Reasoning track of the Mathematics major within the Department of Mathematics (See Catalog). For education course requirements, contact the Office of Student Services (934-7530), within the School of Education, for the current checklist. This program is a part of the UABTeach Program. For more information on UABTeach contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach.

High School Education- English Language Arts and General Social Science

Secondary education offers a major in secondary education and certification for grades 6-12 in English language arts (ELA) and in general social science (GSS). Candidates obtaining certification in these two teaching fields must either have an academic major (in English for ELA or in history for GSS) or meet the highly qualified condition specified by the Alabama State Department of Education (ALSDE). Because of teacher certification requirements, content coursework may slightly differ from those courses required of traditional English or history majors. Thus, candidates should follow the appropriate program checklist assigned by the Office of Student Services within the School of Education to insure that they meet certification requirements. Although an academic major in English or history may be built into the certification checklists, candidates should seek advising for these content majors from College of Arts and Science (CAS) advisors to insure they meet all current degree requirements for either English or history. Students who complete requirements for both an academic major and an education major will receive a single degree with both majors listed.

Due to ALSDE regulations for teachers, Core Curriculum requirements for education majors are more specific than Core Curriculum requirements for academic majors. Students should seek advising and obtain a program checklist from the Office of Student Services, Education Building, Suite #232, Phone: (205) 934-7530. Students should also consult with their education advisor once per term and also with a content advisor in CAS to insure they stay on track for all requirements.

Bachelor of Science with a Major in High School Education/English Language Arts

This curriculum results in a major in secondary education with teacher certification in English language arts.

For other history courses see the current checklist in the Offices of Student Services within the School of Education. See the requirements for a history major within the catalog listings for the College of Arts and Sciences. You should confer with advisors in Education and CAS about specific history requirements. Students seeking teacher certification may have more specific requirements than non-certification students.

High School Education – All Areas of Science and Mathematics

Programs leading to grades (6-12) certification in biology, chemistry, physics, general science, and mathematics are offered in conjunction with the College of Arts and Sciences and the School of Engineering as part of the UABTeach program. The UABTeach program is an innovative program modeled after the national UTeach program developed at the University of Texas at Austin. The aim of this program is to produce well prepared teachers of mathematics and the sciences within a 4-year period and to increase the number of teachers in the STEM (science, technology, engineering, and mathematics) disciplines. The UABTeach program requires a major in an academic field such as biology, chemistry, engineering, mathematics, etc. The program requires several innovative and intensive education courses aimed at preparing teachers for grades 6-12 and leading to Class B teacher certification. The academic majors are housed within the appropriate departments within the College of Arts and Sciences and the School of Engineering. Students should contact their CAS or Engineering advisors for advising on their major. Information on the Education components of the program can be found by contacting the Office of Student Services, Education Building, Suite #232, Phone: (205) 934-7530. For more information contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach.

Bachelor of Science with a Major in High School Education/ Mathematics, Biology, Chemistry, General Science, Physics

UAB offers certification in grades 6-12 for Mathematics, Biology, Chemistry, General Science, and Physics through the UABTeach program. Students in STEM majors in the College of Arts and Sciences and the School of Engineering may seek teacher certification in an appropriate field listed above. Students majoring in computer science or engineering should contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach, for guidance in selecting a certification area.

Core Curriculum Mathematics, Biology, Chemistry, General Science, Physics

Students should follow the core curriculum for their STEM major. See the catalog for majors in CAS and Engineering and speak with an advisor in these programs.

Major Requirements Mathematics, Biology, Chemistry, General Science, Physics

Students should follow the curriculum prescribed for their STEM major. See the catalog for majors in CAS and Engineering and speak with an advisor in these programs.

<td>3</td>
</tr>
</tbody>
</table>

Choose two of the courses below:

- EHS 497 Special Problems in Education
- EEC 302 Expressive Arts (P-6)
- EEC 440 Workshop in Education: Strategies for English Learners
- EDU 300 Special Topics in Education
- EPR 214 Introduction to Educational Statistics
- EPR 414 Lifespan Human Development
- CHHS 342 Introduction to Health Education/Promotion
- CHHS 402 Mental Health and Stress Management
- CHHS 404 Global Trends in Health Education/Promotion
- CHHS 408 Drug Abuse Prevention and Education
- KIN 305 Motor Development
- KIN 407 Coaching Young Athletes
- EMS 330 Introduction to Middle/Junior High Teaching
- EMS 352 Teaching Mathematics in Middle/Junior High School

Only students who are formally admitted into the Teacher Education Program in Middle School Mathematics may take EMS 330 and EMS 352, and these must be taken AFTER admission to TEP.

Total Hours 18

## Minor in STEM (Science, Technology, Engineering, and Math) Education

The STEM Education Minor includes the same courses UABTeach (https://www.uab.edu/uabteach) students take to earn Alabama teacher certification. So UABTeach (https://www.uab.edu/uabteach) students can add a minor with no additional coursework and have an element of their academic transcript reflect the work they have done to prepare themselves for teaching. The STEM Education Minor also includes an elective pathway designed to allow UABTeach (https://www.uab.edu/uabteach) students who elect not to complete Apprentice Teaching (EHS 425) and their certification requirements to add education electives to bring their minor coursework up to the required minimum of 18 hours. The elective course structure is designed to allow UABTeach students who elect not to complete certification to earn a minor without enrolling in Apprentice Teaching, which is the student teaching option in UABTeach.

1 Course may not be used as a minor elective if also counted toward the students’ major
2 e.g. BY 492, CH 492, PH 494. Course may not be used as a minor elective if also counted toward the students’ major.

### Approved Elective Courses

- PHL 270 Science, Knowledge, and Reality
- HY 275 Perspectives on Science & Mathematics
- EHS 425 Apprentice Teaching
- & EHS 426 and Apprentice Teaching Seminar
- MA 361 Mathematical Modeling
- EDU 300 Special Topics in Education
- EPR 214 Introduction to Educational Statistics
- EPR 414 Lifespan Human Development
- CHHS 342 Introduction to Health Education/Promotion
- CHHS 402 Mental Health and Stress Management
- CHHS 404 Global Trends in Health Education/Promotion
- CHHS 408 Drug Abuse Prevention and Education
- KIN 305 Motor Development
- KIN 407 Coaching Young Athletes
- EMS 330 Introduction to Middle/Junior High Teaching
- EMS 352 Teaching Mathematics in Middle/Junior High School

Total Hours 18

## Department of Human Studies

Chair: Kristi Menear

The Department of Human Studies offers undergraduate majors in both Community Health and Human Services and Kinesiology. Community Health and Human Services majors choose between two concentrations: Community Health (non-teaching) or Human Services (non-teaching). Community Health and Human Services also offers a minor in Community Health and a minor in Human Services. Kinesiology majors choose among three concentrations: Physical Education Teacher Certification (grades P-12), Fitness Leadership (non-teaching), or Exercise Science (non-teaching). Kinesiology also offers a minor in Athletic Coaching and a minor in Exercise Science. Programs leading to degrees and/or certificates in Counseling and Educational Leadership are offered at the graduate level.

Students should contact the Office of Student Services, Suite 232, Education Building, (205) 934-7530, early in their studies to obtain the name of their advisor and pertinent program information related to the Core Curriculum. Students should consult their advisor prior to each registration period for the appropriate guidance (e.g., students are expected to take courses in the appropriate sequence, including prerequisites).

The Department of Human Studies offers an Honors Program for Exercise Science and Fitness Leadership students. Highly qualified students will have the opportunity to work one-on-one with a mentor in an area of mutual interest and conduct either a research or civic engagement project designed to meet some particular need as it relates to pertinent areas of fitness, exercise, and physical activity. For more information go to: http://www.uab.edu/education/student-services/current-students/get-involved/honors-program.

## Major in Community Health and Human Services with a Community Health Concentration

A grade of “C” or better is required in all majors courses.

### Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. **These courses are required for this major and can also fulfill core curriculum requirements.**

Area II Humanities and Fine Arts: CMST 101
Area III Natural Science with Lab: BY 101 & BY 102 and CH 105 & CH 106

Area IV Social Science: PY 101 or SOC 100 and one of the following: ANTH 101 or GEO 121

Literature sequence preferred: EH 217 & EH 218 or EH 221 & EH 222 or EH 223 & EH 224

**Kinesiology Programs**

Students majoring in Kinesiology may choose from three concentrations: teacher certification, exercise science, and fitness leadership. The teacher certification program prepares students for entry into teaching positions in grades P-12. The exercise science program prepares students for graduate work in exercise physiology or health related
careers such as physical therapy and occupational therapy. The fitness leadership program prepares students to be fitness leaders in fitness centers, clinics, or industrial settings.

**Kinesiology Major: Teacher Certification**

A grade of "C" or better is required in all math, science, and major courses.

**Core Curriculum for Kinesiology Major: Teacher Certification.**

EH 101/102 requires one grade of at least a "B" or higher and one grade of "C" or higher for teacher certification.

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

General Electives
Elective coursework to reach the 120 hour graduation requirement (hours variable) 75

Other Courses
Choose 9-11 Hours:

- KIN 132  Group Exercise Leadership
- KIN 305  Motor Development
- KIN 340  Planning/Management of Fitness Facilities
- KIN 402  Basic Athletic Training
- KIN 440  Principles of Conditioning the Athlete
- KIN 450  Physical Activity for Individuals with Disabilities/SL
- KIN 451  Physical Activity for Senior Adults
- KIN 460  Clinical Exercise Physiology
- KIN 470  Advanced Treatment Athletic Training
- KIN 499  Fitness Internship 1

CHHS 342  Introduction to Health Education/Promotion 3

Aquatics
Select one of the following courses: 1

- KIN 101  Beginning and Advanced Beginning Swimming
- KIN 102  Intermediate Swimming/Swimmer Course
- KIN 103  Lifeguard Training

Major Elective Requirements
Select 14 to 17 hours of the following courses: 14-17

- AHS 350  Medical Terminology for Health Professionals
- PY 218  Abnormal Psychology 3
  or PY 330  Sport Psychology
- BY 123  Introductory Biology I 2
- BY 124  Introductory Biology II 2
- BY 210  Genetics
- BY 261  Introduction to Microbiology
- BY 271  Biology of Microorganisms
- BY 314  Embryology
- BY 327  Histology
- BY 330  Cell Biology
- BY 409  Principles of Human Physiology
- BY 420  General Endocrinology

CH 115  General Chemistry I
& CH 116  and General Chemistry I Laboratory 2
CH 117  General Chemistry II
& CH 118  and General Chemistry II Laboratory
CH 235  Organic Chemistry I
& CH 236  and Organic Chemistry I Laboratory
CH 237  Organic Chemistry II
& CH 238  and Organic Chemistry II Laboratory
CH 460  Fundamentals of Biochemistry
MA 125  Calculus I 2
MA 126  Calculus II 2
PH 202  College Physics II 2
PH 222  General Physics II

Internship
KIN 499  Fitness Internship 3

Total Hours 123-128

Students need to take 5-23 hours of General Electives to reach the 120 hour requirement in order to graduate.

1  This elective is in addition to the 3 hours of KIN 499 in the Internship section. No more than a total of 6 hours of KIN 499 may be applied to the degree.
2  Courses taken may not be applied to both major requirements and core curriculum. A maximum of 10 hours of PH, MA, CH, or BY courses can be taken to meet this requirement.
3  Either PY 330 or PY 218 will count as a major elective

Kinesiology Major: Fitness Leadership Concentration

A grade of “C” or better is required in all math, science, and major courses. Note: UAB requires 120 total semester hours in order to graduate. Students with this major will need additional electives to meet this requirement.

Required Courses in Core Curriculum
Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area II Humanities and Fine Arts: CMST 101
Area III Natural Science with Lab: PH 201 or BY 101 & BY 102
Area IV Social Science: PY 101

Lower Division Requirements Kinesiology Major: Fitness Leadership Concentration

</tr>
</tbody>
</table>

**Community Health Electives**

Select three of the following courses:

- CHHS 343 Behavioral Theory in Health Education/Promotion
- CHHS 402 Mental Health and Stress Management
- CHHS 408 Drug Abuse Prevention and Education
- CHHS 421 Health Communications & Health Coaching
- CHHS 423 Human Sexuality
- CHHS 431 Planning and Implementing Health Education/Promotion Programs
- CHHS 432 Administration of Health Education/Promotion Programs
- CHHS 452 Evaluation and Grantsmanship
- CHHS 489 Intervention Strategies for Health Education/Promotion
- CHHS 498 Lifespan Dimensions in Women’s Health and Nutrition

This minor is not available to Community Health majors

**Total Hours** 21

**Minor in Human Services**

The Human Services Minor provides background information related to the human services field as well as some applied courses. A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and a minor. This minor is open to all students except Humans Services majors. This program is offered online.

**Requirements**

<table>
<thead>
<tr>
<th>Human Services</th>
<th>Hours</th>

</tr>
<tr>
<td>CHHS 460</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Hours** 20

**Minor in Kinesiology: Exercise Science**

A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and minor. Students cannot apply courses toward both major and minor course requirements. Students may need to take additional electives to reach the required 19 hours in order to receive the minor (e.g. students who fulfill the HE 140 "0" credit hour waiver).

The BY 115, BY 116, and HE 140 requirements are waived for ONLY students majoring in Biomedical Sciences, who have completed BMD 310 (4 hrs.), BMD 315 (4 hrs.), and CDS 425 (1 hr.), respectively. As BMD 310, BMD 315, and CDS 425 cannot be used to satisfy both the Biomedical Sciences major and the Exercise Science minor, students must replace these 9 hours with courses from the Electives listed below. These replacement hours must include KIN 307.

**Requirements**

<table>
<thead>
<tr>
<th>Exercise Science</th>

</tr>
<tr>
<td>CHHS 455</td>
<td>3</td>
</tr>
<tr>
<td>CHHS 460</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Hours** 20

**Community Health and Human Services Minors**

The Community Health and Human Services program offers two minors. The Community Health minor provides background information related to health issues and health programming. A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and a minor.
See Kinesiology Program policy for "0" credit hour HE 140 waiver criteria. Students who meet the HE 140 waiver requirements need to take an additional 3 hour Elective to reach the minimum 19 hour requirement in order to receive the minor.

### School of Engineering

Dean: J. Iwan Alexander  
Senior Associate Dean: Timothy M. Wick  
Associate Dean for Undergraduate Programs: Zoe B. Dwyer

The School of Engineering provides professional education in engineering through the Departments of Biomedical Engineering; Civil, Construction, and Environmental Engineering; Electrical and Computer Engineering; Materials Science and Engineering; and Mechanical Engineering. The School of Engineering offers programs of study leading to Bachelor of Science in Biomedical Engineering, Bachelor of Science in Civil Engineering, Bachelor of Science in Electrical Engineering, Bachelor of Science in Materials Engineering, and Bachelor of Science in Mechanical Engineering. All undergraduate programs are accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Each undergraduate curriculum is comprised of four components: the UAB Core Curriculum as specified for engineering majors; basic mathematics and science courses; a series of engineering courses intended to provide a breadth of technical education; and concentrated study in a particular engineering discipline. The curricula are designed to prepare the graduate to practice the profession of engineering and effectively participate as a member of society. Additionally, the School of Engineering participates in UABTeach (https://www.uab.edu/uabteach). For more information, see the UABTeach (https://www.uab.edu/uabteach) website at www.uab.edu/uabteach/.

At the graduate level, the School of Engineering offers programs of study leading to the Master of Science in Biomedical Engineering, the Master of Science in Civil Engineering, the Master of Science in Electrical Engineering, the Master of Science in Materials Engineering, and the Master of Science in Mechanical Engineering. A Master of Engineering degree is offered with concentrations in Advanced Safety Engineering and Management, Construction Engineering Management, Information Engineering and Management, Design and Commercialization, Structural Engineering and Sustainable Smart Cities. The Doctor of Philosophy degree in Biomedical Engineering and the Doctor of Philosophy degree in Interdisciplinary Engineering are also offered. Joint Doctor of Philosophy degrees are offered in Materials/Metallurgical Engineering, Materials Science, and Civil Engineering. A shared Doctor of Philosophy degree in Computer Engineering is available.

In order to keep pace with accreditation standards as well as educational and technological developments, the School of Engineering reserves the right to make changes in its degree requirements. Changes may be applied to students already enrolled; but, in such cases, every effort will be made to give the student the benefit of the new educational program without imposing undue hardships.

### Vision

To be nationally and internationally recognized as a top research-oriented School of Engineering: a first choice for a quality undergraduate and graduate education.

### Mission

To create and apply knowledge for the benefit of society, and to prepare engineering graduates to be immediately productive and able to adapt and to lead in a rapidly changing environment.

### Goals

- Provide an excellent educational experience for a community of highly capable students that reflect the diversity of our society
Students seeking admission to Biomedical Engineering are admitted to Pre-Mechanical Engineering majors based on their intended program. Students are admitted as Pre-Civil, Pre-Electrical, Pre-Materials, or Pre-Mechanical Engineering major based on their intended program. Students admitted to UAB with an ACT score of 28 or higher (or SAT equivalent) or an institutional (UAB) GPA of 2.20 to be admitted to the School of Engineering. These students must have a cumulative GPA of 2.20 and, if applicable, an institutional (UAB) GPA of 3.20. Transfer and returning students receive a Pre-Engineering designation for a minimum of one semester following admission to UAB and are admitted to their chosen department upon completion of the minimum requirements listed below.

Students who are seeking admission to the School of Engineering and are currently enrolled in other UAB schools or divisions must have an institutional (UAB) GPA of 2.20 (3.20 for Pre-Biomedical) or greater and must be eligible to enroll in Pre-Calculus Algebra (MA 105) or higher in the pre-calculus series.

Requirements for Advancing from Pre-Engineering to Civil, Electrical, Materials or Mechanical Engineering

In order to advance from pre-engineering to one of the engineering majors listed above, students must meet the following minimum requirements:

- Sophomore standing
- Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
- Completion (C or better) of two required science courses with appropriate labs
- Completion of EGR 110 and EGR 111 (or EGR 200), ME 102 Engineering Graphics, and EGR 150
- An institutional (UAB) GPA of 2.20

Requirements for Advancing from Pre-Engineering to Biomedical Engineering

In order to advance from pre-engineering to Biomedical Engineering, students must meet all of the following minimum requirements:

- Sophomore standing
- Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
- Completion (C or better) of two required science courses with appropriate labs
- Completion of EGR 110 and EGR 111 (or EGR 200)
- Completion of ME 102 Engineering Graphics
- An institutional (UAB) GPA of 3.20 (and cumulative [UAB + transfer] GPA of 3.20 if applicable)

If a Pre-Biomedical or Pre-Engineering student is not eligible to advance into Biomedical Engineering after completing a maximum of 64 hours of course work, they may advance into another engineering major if the qualifications for that major (as listed above) are met.

Change of Major within the School of Engineering

Students changing majors within the School of Engineering should follow procedures outlined under Declaration of Major in this catalog. Students must meet the requirements listed previously.

Transfer Credit

In addition to guidelines for transfer credit outlined in the current UAB catalog, the following policies apply to students transferring into the School of Engineering:

- Students seeking admission to Biomedical Engineering are admitted to Pre-Biomedical Engineering if they have a cumulative GPA of 3.20 and, if applicable, an institutional (UAB) GPA of 3.20.
- Transfer and returning students receive a Pre-Engineering designation for a minimum of one semester following admission to UAB and are admitted to their chosen department upon completion of the minimum requirements listed below.
- Students who are seeking admission to the School of Engineering and are currently enrolled in other UAB schools or divisions must have an institutional (UAB) GPA of 2.20 (3.20 for Pre-Biomedical) or greater and must be eligible to enroll in Pre-Calculus Algebra (MA 105) or higher in the pre-calculus series.

Requirements for Advancing from Pre-Engineering to Civil, Electrical, Materials or Mechanical Engineering

In order to advance from pre-engineering to one of the engineering majors listed above, students must meet the following minimum requirements:

- Sophomore standing
- Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
- Completion (C or better) of two required science courses with appropriate labs
- Completion of EGR 110 and EGR 111 (or EGR 200), ME 102 Engineering Graphics, and EGR 150
- An institutional (UAB) GPA of 2.20

Requirements for Advancing from Pre-Engineering to Biomedical Engineering

In order to advance from pre-engineering to Biomedical Engineering, students must meet all of the following minimum requirements:

- Sophomore standing
- Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
- Completion (C or better) of two required science courses with appropriate labs
- Completion of EGR 110 and EGR 111 (or EGR 200)
- Completion of ME 102 Engineering Graphics
- An institutional (UAB) GPA of 3.20 (and cumulative [UAB + transfer] GPA of 3.20 if applicable)

If a Pre-Biomedical or Pre-Engineering student is not eligible to advance into Biomedical Engineering after completing a maximum of 64 hours of course work, they may advance into another engineering major if the qualifications for that major (as listed above) are met.

Change of Major within the School of Engineering

Students changing majors within the School of Engineering should follow procedures outlined under Declaration of Major in this catalog. Students must meet the requirements listed previously.

Transfer Credit

In addition to guidelines for transfer credit outlined in the current UAB catalog, the following policies apply to students transferring into the School of Engineering:
1. The UAB School of Engineering may grant transfer credit for engineering, math, and science courses taken at another institution only if a grade of C or higher was earned. Students admitted to the School of Engineering who have earned a grade of D in a course within a required sequence of courses may be required to repeat all or part of the sequence.

2. Engineering technology courses are not equivalent to engineering courses.

**Transient Credit**

In addition to guidelines for transient credit outlined in the current UAB catalog, Engineering requires the following:

The prerequisites for any course that is part of a student's UAB engineering program must be satisfied prior to starting the course. This requirement must be met for courses taken at UAB and for courses the student wishes to take as transient and transfer the credit to UAB under the UAB Transient policy. Additionally, a student who has attempted but failed to successfully complete a UAB course offered by their specific engineering program must repeat that course at UAB for credit.

**Dual Degree Program Participants**

Dual degree program participants from cooperating four-year institutions must provide the following information to School of Engineering advisors in order to advance from pre-engineering to an engineering major:

- A letter or email from the student acknowledging their participation in the Dual Degree Program and intent to complete an Engineering degree at UAB.
- A letter from the cooperating institution stating that the student has successfully completed the general education requirements at that institution, and will be awarded a degree from the institution upon completion of UAB Engineering requirements.

**Reasonable Progress**

All students in the School of Engineering must continually make reasonable progress toward the completion of their academic programs. To assure that students are achieving reasonable academic progress towards graduation, the School of Engineering provides academic advice and planning each term through EGR 110 and EGR 111 and appointments with assigned engineering advisors. During advising, students receive a registration access code (RAC) which will allow them to register for courses the following semester. Pre-Engineering students in all disciplines are advised by engineering faculty in the School of Engineering’s Office of Academic Programs (OAP). Upon admission to Biomedical, Civil, Electrical, Materials or Mechanical Engineering, students are advised by engineering faculty within their major.

Reasonable progress is defined as follows:

1. All students must comply with appropriate prerequisite and concurrent requirements for all courses in which they enroll. Students will be administratively withdrawn from engineering courses for which they do not meet prerequisite or concurrent requirements.

2. All required courses offered by the student's specific engineering program failed at UAB must be repeated and successfully completed at UAB for the student to apply the credit to satisfy degree requirements.

3. The School of Engineering follows the University’s Course Repeat and Forgiveness Policy as previously stated in this catalog.

4. Engineering students with the exception of students majoring in biomedical engineering must maintain a GPA of at least 2.00 in all UAB courses and all UAB engineering courses. Biomedical engineering majors must maintain an institutional (UAB) GPA of at least 3.00.

5. Engineering students must successfully complete two courses applicable to their engineering program within an academic year.

6. If a pre-engineering student is not eligible to advance to an engineering major within 64 hours, the student may be dismissed from the School of Engineering and may not seek readmission to the School of Engineering until another baccalaureate degree is earned.

**Academic Warning, Probation, and Suspension**

The School of Engineering follows the UAB Policy for Academic Warning, Probation, and Suspension with the following additions:

1. Students on Academic Warning or Probation are advised to register for no more than 14 semester credit hours per term.

2. While on Academic Warning or Probation, students may only register for 100- and 200-level engineering courses, or repeat courses for which they previously earned a grade of D or F.

3. Students suspended from the University will be removed from the School of Engineering and returned to Undeclared - Interest in Engineering student in the University Academic Success Center if another major is not specified at the time of suspension. Students may not seek readmission to the School of Engineering unless, and until, the requirements for advancing from a pre-engineering designation to Civil, Electrical, Materials, Mechanical, or Biomedical Engineering met.

4. First-term freshmen students in Biomedical Engineering who have an institutional (UAB) GPA below a 3.00 will be placed on academic warning in Biomedical Engineering. If their institutional (UAB) GPA is not a 3.00 or greater after the next term enrolled, the student will be placed on academic probation in Biomedical Engineering. Biomedical students (excluding first-term freshmen) who have an institutional (UAB) GPA below a 3.00 will be placed on academic probation in Biomedical Engineering. Biomedical Engineering students on academic probation who do not attain an institutional (UAB) GPA of 3.00 in their next term attempted will be reclassified as Pre-General Engineering.

**Appeal for Reinstatement to the School of Engineering**

A student suspended from the School of Engineering must meet the requirements necessary to advance to their intended major before petitioning for reinstatement. The petition should be addressed to the Senior Associate Dean and should clearly state the circumstances resulting in their dismissal from the School and include steps taken to resolve the deficiency. The student's petition should be received in the Office of the Associate Dean of Engineering no later than five working days prior to the beginning of the desired semester of re-entry.

**Graduation Requirements**

In addition to satisfying the general UAB graduation requirements (Baccalaureate Degrees), all engineering students must earn an engineering grade point average (GPA) of at least 2.00 in order to graduate. The engineering grade point average includes all engineering course work applicable to the degree attempted at UAB. Students who
are on academic warning or probation cannot graduate from the School of Engineering. BME students must also have an institutional GPA of 3.00 or higher and have earned a grade of C or better in all BME courses to graduate.

Individual engineering programs may have additional graduation requirements which can be found in the program description.

Office of Academic Programs

Director: Dr. Zoe B. Dwyer

The freshman year program is similar among the engineering curricula at UAB. It is based upon substantial high school preparation in English, mathematics, and natural sciences. Students must enroll in appropriate English, chemistry, or mathematics sequences according to placement. Incomplete preparation at the high school level is not unusual, and coursework to strengthen the student's academic background is routinely offered by UAB. Advice on this subject may be obtained from the Office of Academic Programs.

1 Transfer Students should substitute EGR 200 for EGR 110 and EGR 111
2 Except for Electrical Engineering
3 Except for Electrical Engineering and Mechanical Engineering

Pre-Health Program Option

Any undergraduate program in engineering can be configured to satisfy pre-health requirements but requires additional coursework. Further information on pre-health program options can be obtained from:

https://www.uab.edu/cas/advising/pre-health-advising • Dr. Dale S. Feldman • School of Engineering, Pre-Health Program Coordinator • Hoehn Engineering Building • 1075 13th Street South • Room 361 • Birmingham, Alabama 35294-4440

Core Curriculum as Specified for Engineering Majors

Students in the School of Engineering follow the University Core Curriculum, which includes EH 101 English Composition I and EH 102 English Composition II, with the following exceptions and additional specifications:

1. Engineering students are required to take 9 hours in Core Curriculum Area II: Humanities and Fine Arts to include a minimum of 3 semester hours in literature and 3 semester hours in the fine arts. The following courses are recommended as they best complement the technical coursework of engineering programs: CMST 101 Public Speaking, CH 117 World Literature I: Before 1660, EH 221 World Literature II: 1660-Present, PH 115 Contemporary Moral Issues, and PH 116 Bioethics.

2. Engineering students should take the following course to satisfy the Core Curriculum Area III Mathematics requirement: MA 125 Calculus I.

3. Engineering students should take the following courses to satisfy the Core Curriculum Area III Mathematics requirement: MA 125 Calculus I.

4. Engineering students are required to take 9 hours in Core Curriculum Area IV: History, Social and Behavioral Sciences to include a minimum of 3 semester hours in history. Please note: for Core Area IV, students cannot apply more than 6 hours of History. The following courses are recommended as they best complement the technical coursework of engineering programs: EC 210 Principles of Microeconomics, EC 211 Principles of Macroeconomics, ITS 101 Introduction to International Studies, PY 101 Introduction to Psychology, SOC 100 Introduction to Sociology, and SOC 245 Contemporary Social Problems.

5. Engineering majors must complete a six-semester-hour sequence in either Area II or Area IV. To be considered a sequence, courses must have the same prefix and must be sequential if possible. Sequences in history, such as HY 101 Western Civilization I and HY 102 Western Civilization II or literature, such as EH 221 British and Irish Literature I: Before 1800 and EH 222 British and Irish Literature II: 1800-Present are common. Two courses in a foreign language such as ARA 101 and ARA 102; CHI 101 and CHI 102; FR 101 and FR 102; FR 201 and FR 202; GN 101 and GN 102; GN 201 and GN 202; JPA 101 and JPA 102; SPA 101 and SPA 102; and SP&A 201 and SPA 202 also fulfill this requirement. Any two Area II courses in one of the following disciplines: ARH, PHIL, or THR; or any two Area IV courses in one of the following disciplines: ANTH, EC, PSC, PY, or SOC, can also fulfill this requirement.

University Requirements for the School of Engineering

In order to receive a degree in the School of Engineering at UAB, a student must have at least 128 semester hours of acceptable credit.

Minors

Students majoring in disciplines other than engineering may choose a minor in engineering to become familiar with topics such as biomedical engineering, environmental engineering, electrical systems, engineering materials, thermodynamic sciences, applied mechanics, or software engineering. Because technology greatly affects most aspects of society, the study of technology in conjunction with the pursuit of a non-engineering major can provide a worthwhile career-oriented educational experience.
Because enrollment in engineering courses is restricted, it is essential that students with declared minors in engineering receive an approved program of study. These students should visit the School of Engineering Office of Academic Programs to receive relevant information. Students planning to minor in engineering should exercise care in the selection of courses to meet the requirements of their major as well as concurrently satisfying prerequisite requirements for engineering courses. Students should be particularly aware of the mathematics and natural sciences prerequisites.

Students majoring in engineering may select a minor offered from outside their engineering discipline as listed below, with the exception of engineering science.

To satisfy the minor requirements, a minimum grade point average of 2.00 is required for all engineering coursework attempted for all programs. Transfer students wishing to earn a minor in engineering must take at least nine (9) semester hours at UAB and earn a minimum GPA of 2.00 in UAB engineering courses attempted. Students who are not majoring in biomedical engineering but wish to enroll in 300- or 400-level BME courses must fulfill course prerequisites, have an institutional (UAB) GPA of at least 3.00, and be approved by the BME Undergraduate Program Director.

A non-engineering major who wishes to minor in engineering may choose one of the minor programs listed here.

**Minor in Applied Mechanics**

*Offered through the Department of Civil Construction and Environmental Engineering*

Total Hours: 22

### Business Administration Minor for Non-Business Majors

Engineering students may choose to pursue a Minor in Business Administration. This minor combined with an undergraduate engineering degree and co-op/internship experience provides a powerful and highly sought-after combination in today’s competitive economy. Engineering students interested in exploring the Business Administration Minor should contact the academic advisor in the School of Engineering at (205) 934-8410.

### Honors in Engineering

Honors Programs are offered by all undergraduate degree programs in the School of Engineering.

- Biomedical Engineering
- Civil Engineering
- Electrical Engineering
- Materials Engineering
- Mechanical Engineering
Purpose
The honors programs are intended to enrich educational opportunities for talented students in the School of Engineering.

Eligibility
Students who have earned a GPA of at least 3.25 (3.75 for BME); have completed MA 227 Calculus III or EGR 265 Math Tools for Engineering Problem Solving; and receive departmental endorsement are invited to participate in an engineering honors program. Invitations are extended by the Dean's office during spring semester of each year.

Community college transfer students who have earned a GPA of at least 3.50 (3.75 for BME); have completed MA 227 Calculus III; and have been elected to Phi Theta Kappa are also eligible.

Requirements
Honors programs require nine credit hours of honors coursework.

- Students enroll in EGR 301 Honors Research I, a one-hour course, no later than junior year. Students participating in the Science and Technology Honors program are not required to take EGR 301.
- Students enroll in two one-hour seminars which can be taken at any time in their course of study.
- Students complete six hours of credit in departmental honors research.
- Individual programs may vary in the way credit is awarded. For information regarding departmental requirements, contact the departmental program director.

Benefits
Students who complete an engineering honors program will have earned nine credit hours in honors coursework. Honors research beyond the required six hours may be applied as graduate credit. Three credit hours of honors research may be applied as an undergraduate elective according to departmental policy. Students who complete an honors program in engineering with a minimum GPA of 3.0 will receive a bachelor's degree "with Honors" in addition to any University honors designations.

Contact
For more information about Engineering Honors Programs, contact:

Dr. Timothy M. Wick • Senior Associate Dean and Professor of Biomedical Engineering • School of Engineering • Birmingham, AL 35294-4440 • Telephone (205) 934-8410

Department of Biomedical Engineering
Chair: Jianyi Zhang, M.D., Ph.D.

Biomedical engineering (BME) is the application of engineering principles and technology to the solution of problems in the life sciences and medicine. Biomedical engineers create knowledge and develop technologies that improve healthcare delivery and patient outcomes with an emphasis on reducing healthcare costs. Graduates create and apply knowledge at the interface of life sciences and engineering for the benefit of society. The BME undergraduate program prepares graduates to be immediately productive and able to adapt to a rapidly changing environment. The curriculum includes engineering core courses, mathematics, calculus-based physics, biology, chemistry, humanities, social and behavioral sciences, biomedical engineering core courses and electives. The curriculum culminates in a capstone design experience where interdisciplinary teams apply knowledge to solve real-world engineering problems. A bachelor’s degree in BME from UAB provides a foundation in medical devices, biomedical implants, biomaterials, and biomedical instrumentation to compete in an increasingly technical medical field, and also prepares students for graduate school, medical school, or professional school.

The Biomedical Engineering program is currently accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Freshmen with an ACT score of 28 or higher (or SAT equivalent) and a high school GPA of 3.20 or higher may be admitted directly to the Biomedical Engineering program. Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

BME students must maintain an institutional (UAB) GPA of at least 3.00. First-term BME freshmen students who have an institutional GPA below 3.00 will be placed on academic warning in BME. If their institutional GPA is not at least 3.0 after the next term enrolled, they will be placed on academic probation in BME. BME undergraduates (other than first-term freshmen) who do not have an institutional GPA of at least 3.00 will be placed on BME academic probation. If at the end of the next term in which they enroll, their institutional GPA is not at least 3.00, they will be reclassified as Pre-General Engineering. To be re-admitted to the BME program, a student must have an institutional GPA of at least 3.20 and make a formal application for readmission.

BME students must have an institutional GPA of at least 3.00 and have completed at least 64 hours of coursework applicable to their degree before they may register for 300-level and 400-level BME courses. BME students must also have an institutional GPA of 3.00 or higher and have earned a grade of C or better in all BME courses to graduate.

In addition to fulfilling course prerequisites, non-BME students (including pre-BME students and students seeking a BME minor) who wish to enroll in 300-level and 400-level BME courses must have an institutional (UAB) GPA of at least 3.00 as well as permission of the BME Undergraduate Advisor. Non-BME majors may not enroll in BME 423, BME 498, or BME 499. In addition, a minimum overall GPA of 3.00 is required for all engineering coursework applied to a BME minor. Transfer students seeking a BME minor must take at least nine (9) semester hours and earn a minimum GPA of 3.00 in UAB engineering courses attempted before enrolling in BME courses.

Vision
To be an internationally recognized, research-oriented Department of Biomedical Engineering: a top choice for undergraduate and graduate education.

Mission
To improve healthcare by making scientific discoveries, solving problems and advancing technology using quantitative methods; to prepare
graduates to succeed in the evolving fields of biomedical engineering and biotechnology.

**Educational Objectives**

Graduates of the Biomedical Engineering undergraduate program will:

1. Gain admission to graduate or professional school, or employment in engineering and/or health related professions and
2. Pursue opportunities for professional growth, development, and service

**Bachelor of Science in Biomedical Engineering**

- BY 271L Biology of Microorganisms Laboratory
- BY 280 Biology of Aging
- BY 311 Molecular Genetics
- BY 330 Cell Biology
- BY 362 Neurobiology
- CH 235 Organic Chemistry I
- CH 237 Organic Chemistry II
- CH 355 Quantitative Analysis
- CH 460 Fundamentals of Biochemistry
- MA 313 Patterns, Functions and Algebraic Reasoning
- MA 360 Scientific Programming
- MA 361 Mathematical Modeling
- MA 453 Transforms
- MA 485 Probability
- PH 475 Introduction to Biophysics I
- PH 487 Nanoscale Science and Applications

1. With departmental approval. At most 3 hours of BME 494 or BME 491 may be used for elective credit.
2. Student must be enrolled in BME Honors Program.
3. Other courses may be selected as electives, but must be approved by a BME faculty advisor.
Concentration in Biomechanics

Students seeking the degree of BSBME may add a concentration in Biomechanics by appropriate selection of their Mathematics/Science/Engineering Electives (3 credit hours), Engineering Elective (3 credit hours), and BME Electives (6 credit hours).

**Total credit hours: 128**

1. Transfer students may substitute EGR 200 for EGR 110 and EGR 111.
2. May substitute MA 227 and MA 252 for EGR 265 and one Math/Science/Engineering/Biomedical Engineering Elective.
3. Students using this curriculum as a pre-health professional program (pre-med, pre-dental, or pre-optometry) may use CH 237, CH 238 or CH 460 for this elective.
4. Please refer to the Core Curriculum as specified for engineering majors.
5. Seminar may be taken during any semester.
Department of Civil, Construction, and Environmental Engineering

Chair: Fouad H. Fouad

The Department of Civil, Construction, and Environmental Engineering offers a broad-based program in civil engineering, which covers mechanics and structures, soils, surveying, transportation, water resources, environmental engineering, and construction engineering management. Computer applications are emphasized in all areas. The program is based on a strong foundation of mathematics, physical sciences, humanities, and social sciences and is supported by a series of basic courses from other engineering disciplines. The primary objective of the program is to prepare students for entry into the civil engineering profession as design engineers. The Civil, Construction, and Environmental Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Electives in the academic program may be selected from courses in structural engineering, construction engineering management, environmental engineering, geotechnical engineering, and transportation engineering. These courses allow students to emphasize a particular area in their undergraduate academic program. Judicious selection of these electives may be used as additional preparation for a specific design career or for entry into a specialized civil engineering certificate or engineering graduate program.

Qualified, motivated undergraduate students may also participate in the Departmental Honors Program.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appears; and graduation requirements.

Vision

To become a department of top choice for civil engineering students, faculty and industry partners wanting a real world experience in a metropolitan setting.

Mission

To advance civil engineering knowledge through innovative, rigorous and practice-based education, research, and outreach to better serve our students, community, and society at large.

Educational Objectives

The Civil, Construction, and Environmental Engineering Department has developed the following educational objectives for graduates of the Civil Engineering program. Three to six years after graduation, graduates who choose to practice in the Civil Engineering field should:

- Achieve a level of technical competency that allows them to advance in engineering practice and/or research
- Pursue lifelong learning, such as graduate study and other professional education, and professional licensure
- Engage in service to the profession through involvement in professional societies, community activities, and educational outreach

Experiential Learning

The Civil, Construction, and Environmental Engineering Department strongly encourages students to participate in experiential learning opportunities; such as industry co-ops, engineering internships, and research with department faculty. These programs greatly enhance a student's education and provide the real-world experience employers look for after graduation. The School of Engineering has a dedicated staff member to assist students in finding and applying to these programs and the Civil, Construction, and Environmental Engineering Department will work with students to tailor programs of study that will allow them to participate in these programs while completing their degrees in a timely manner.

The University of Alabama at Birmingham - DRAFT COPY

CE 450  Structural Steel Design  3
CE 455  Reinforced Concrete Design  3
CE 497  Construction Engineering Management  3
CE 499  Capstone Design Project  3
ME 215  Dynamics  3

Civil Engineering Electives
Select nine hours from Civil Engineering (CE) Courses at the 400-level or above.

Construction Engineering Management Electives
CE 600  Sustainable Construction  3
CE 601  Construction Methods  3
CE 603  Construction Accounting and Financial Management  3
CE 604  International Construction Contracts and Law  3
CE 605  Project Management  3
CE 606  Advanced Project Management  3
CE 607  Engineering Entrepreneurship  3
CE 631  Environmental Law  3
CE 649  Engineering Liability  3

Environmental Engineering Electives
CE 430  Water Supply/Drainage Design  1
CE 433  Solid and Hazardous Wastes Management  3
CE 434  Air Quality Modeling and Monitoring  3
CE 480  Introduction to Water and Wastewater Treatment  1
CE 485  Engineering Hydrology  3

Geotechnical Engineering Electives
CE 426  Foundation Engineering  3

Structural Engineering Electives
CE 420  Advanced Mechanics  3
CE 426  Foundation Engineering  3
CE 433  Design of Wood Structures  3
CE 454  Design of Masonry Structures  3
CE 456  Prestressed Concrete Design  3
CE 460  Structural Mechanics  3
CE 461  Introduction to the Finite Element Method  3
CE 462  Advanced Structural Analysis  3
CE 464  Structural Dynamics  3
CE 467  Wind and Seismic Loads  3
CE 468  Bridge Engineering  3

Transportation Engineering Electives
CE 442  Highway Materials and Construction  3
CE 443  Pavement Design and Construction  3
CE 457  Concrete Technology  3

Total Hours 62

1 One of these is required for the major, the other may be taken as a Civil Engineering Elective.

Concentration in Sustainable Engineering Design and Construction
Students seeking the degree of BSCE may add a concentration in Sustainable Engineering and Construction by appropriate selection of their Civil Engineering Electives (400-Level) courses (9 credit hours total).

Requirements Hours
Select three of the following courses: 9

CE 431  Energy Resources  3
CE 433  Solid and Hazardous Wastes Management  3
CE 434  Air Quality Modeling and Monitoring  3
CE 437  Sustainable Construction  3
CE 438  Construction Methods  3
CE 608  Green Building Design  3

Total Hours 9

Please refer to the School of Engineering Overview for School policies related to admission, academic progress, reasonable progress toward degree, and graduation.

Total credit hours: 128

1 Transfer students may substitute EGR 200 for EGR 110/EGR 111
2 Students may also replace EGR 265 and a 400-level CE elective with MA 227 and MA 252.
3 Please refer to the Core Curriculum as specified for Engineering majors.
4 Any 400-level UAB Civil Engineering courses not included as a requirement in Civil Engineering curriculum may be selected.
5 Students may choose to take either CE 480 offered in fall terms or CE 430 offered in spring terms.

The Department of Civil, Construction, and Environmental Engineering offers six Category A Certificates in the following areas:

- Certificate in Construction Engineering Management
- Certificate in Environmental Engineering
- Certificate in Geotechnical Engineering
- Certificate in Structural Engineering
- Certificate in Sustainable Engineering Management
- Certificate in Transportation Engineering

The requirements are as follows:

- Students must be admitted to the Department as either undergraduate or graduate students in Civil, Construction, and Environmental Engineering
- Certificates require a minimum of 15 semester hours consisting of one required undergraduate course (which will also count toward the BSCE degree at UAB) and four graduate level elective courses in the area of specialization
- Graduate level elective courses taken may be applied to the certificate as well as a MSCE degree
- One course, up to three semester hours, may be transferred from another institution: this may be the required course or one of the graduate level courses
- Only one course listed with an asterisk (*) may be applied to a certificate; i.e., for the transportation certificate, students may apply either CE 649 or CE 658
- Courses taken from UA and UAH by IITS may be applied to certificates
- Elective course may be taken at the 500, 600, or 700 level

Certificate in Construction Engineering Management

Engineering Electives
Select electives from the following list to earn 12 semester hours:

Structural Analysis Electives (Minimum 3 Hours)
- CE 516  Mechanical Vibrations
- CE 520  Advanced Mechanics
- CE 560  Structural Mechanics
- CE 561  Introduction to the Finite Element Method
- CE 562  Advanced Structural Analysis
- CE 564  Structural Dynamics
- CE 612  Theory of Elasticity
- CE 615  Theory of Elastic Stability
- CE 617  Theory of Plates and Shells
- CE 663  Finite Element Methods

Structural Design Electives (Minimum 3 Hours)
- CE 526  Foundation Engineering
- CE 553  Design of Wood Structures
- CE 554  Design of Masonry Structures
- CE 556  Prestressed Concrete Design
- CE 567  Wind and Seismic Loads
- CE 568  Bridge Engineering
- CE 650  Advanced Structural Steel
- CE 655  Advanced Reinforced Concrete

Other Electives (Maximum 3 Hours)
- CE 542  Hwy Materials and Construction
- CE 557  Concrete Technology
- CE 649  Engineering Liability
- CE 658  Engineering Management

1 Only one of these courses may be applied to this certificate.

Department of Electrical and Computer Engineering

Chair: Murat M. Tanik, Ph.D.

Degree Offered: BSEE
Director: David Green
Phone: (205) 934-8440
Email: dgreen@uab.edu
Website: https://www.uab.edu/engineering/ece/undergrad

The Electrical Engineering program in the Department of Electrical and Computer Engineering at UAB embodies a curriculum of 128 semester hours that is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org. In addition to courses in pre-engineering, mathematics, calculus-based physics, chemistry, and the humanities/social sciences, students take a core of fundamental engineering coursework outside of electrical engineering, a core of courses in the breadth of electrical engineering, and electrical engineering elective courses. A bachelor’s degree in electrical engineering (BSEE) can provide the foundation that a student will need in any of the areas of electrical engineering, including advanced analog and digital electronics, microprocessor applications, biomedical instrumentation, digital computer systems, software systems, electric utility power systems, digital control, industrial electronics, and machinery control.

Each student must complete a senior design team project that comprises six (EE 498 Team Design Project I and EE 499 Team Design Project II) semester hours of coursework.

Vision
To be a nationally recognized Department of Electrical and Computer Engineering: a first choice for undergraduate and graduate education

Mission
To prepare graduates to be immediately productive and able to adapt to a rapidly changing environment while also creating and applying knowledge for the benefit of Birmingham, the state, and beyond

Electrical Engineering Program Objectives
The Electrical Engineering undergraduate program prepares graduates to:

- Succeed in a career or graduate studies in electrical engineering
- Approach problem solving with an engineering mindset
- Grow professionally

1. EGR 111 replaces EGR 110
2. EGR 265 replaces EGR 200
The required materials engineering courses address ceramics, polymers, composite materials, and metals. They emphasize the relationships among properties, structure, processing, and performance. Materials engineering elective courses are also offered to introduce students to leading-edge materials engineering topics. In addition to the general materials engineering program, students can specialize in Biomaterials, Polymer Matrix Composites, or Metallurgy by proper selection of their electives (see Concentrations). The curriculum prepares graduates to directly enter the professional practice of materials science and engineering, to pursue graduate studies in materials science and engineering, or to enter a professional school, such as medicine or dentistry. The department has very active research programs in metal casting and composite materials.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

The department also offers courses of study leading to the Master of Science and Doctor of Philosophy degrees in materials engineering. These programs are described in the UAB Graduate School Catalog.

Vision
To be an internationally recognized research-oriented department – a first choice for undergraduate and graduate education.

Mission
To excel in research for the benefit of society while educating students at all levels to be immediately productive.

Educational Objectives
Our Materials Engineering undergraduate program will produce functioning professionals who:

- Advance in materials engineering or related professional positions
- Continue to develop intellectually and professionally

### Concentration in Polymer Matrix Composites

Students seeking the degree of BS/MtE may add a concentration of Polymer Matrix Composites by appropriate selection of their MSE Elective and Science/Mathematics/Engineering Electives (10 credit hours total). CH 235/CH 236 may be used as the Science/Mathematics Elective instead of one of the Science/Mathematics/Engineering Electives.

Total Hours: 17

### Core Curriculum Area II or IV: Humanities & Fine Art or Social & Behavioral Science

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111.
2. Students may also take MA 227 and MA 252 for Engineering Problem Solving and either the SCI/MA or one SCI/MA/EGR elective.
3. Please refer to the Core Curriculum as specified for Engineering majors.
4. Students may substitute EE 300 Engineering Problem Solving II or PUH 250 Biostatistics for CE 344 Civil Engineering Analysis I if there are scheduling conflicts.
5. Completion of Departmental Honors Program satisfies three credits of either a Materials Engineering Elective or an Engineering/Mathematics/Science Elective.

### Department of Mechanical Engineering

**Chair:** David L. Littlefield

Mechanical engineering is a broad-based discipline that embraces two major areas—mechanical systems and thermal systems. With an understanding of the phenomena associated with these topics, mechanical engineers conceive and design a wide variety of devices, machines, and systems to meet the needs and desires of a modern economy. Mechanical engineers also engage in other engineering functions such as applied research, development, and management. During the next decade and beyond, mechanical engineers will have a primary role in addressing the problems relating to manufacturing, productivity and safety in the workplace, supply and efficient utilization of energy, transportation, enhancement of the environment, and human rehabilitation.

The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET, [http://www.abet.org](http://www.abet.org). The Mechanical Engineering Program embodies a curriculum of 128 semester credit hours. In addition to courses in pre-engineering, mathematics, calculus-based physics, chemistry, humanities, and social sciences, the mechanical engineering curriculum also includes a core of fundamental engineering coursework and advanced courses in thermodynamics, fluid mechanics, heat transfer, mechanics of machinery, and mechanical design. Laboratory experiences are provided in each area to illustrate the application of theory in engineering practice. During the senior year, the curriculum provides for electives that allow specializations in the areas of mechanical systems or energy systems or for further exposure in both areas. With additional coursework, the mechanical engineering program can also be utilized as a pre-health curriculum.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.
Vision

To be a nationally and internationally recognized research-oriented mechanical engineering department – a first choice for undergraduate and graduate education.

Mission

To prepare students to be immediately productive and able to adapt to and lead in a rapidly changing environment and to create and apply knowledge for the benefit of society.

Program Educational Objectives

The Mechanical Engineering Undergraduate Program will prepare graduates to:

- Succeed in Engineering and/or related professional positions
- Continue to develop professionally

Bachelor of Science in Mechanical Engineering

Lower Division Requirements For Mechanical Engineering

A C or better is required in any course that is a prerequisite to another course in the ME curriculum.

Total credit hours: 128

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111
2. Please refer to the Core Curriculum as specified for Engineering majors.
4. Course must be approved by ME Undergraduate Program Director.
5. Mechanical systems electives include: ME 430, ME 464, ME 470, ME 475, ME 477, and ME 478.
6. Thermal fluids electives include: ME 411, ME 421, ME 445, ME 448, ME 449, ME 454, and ME 455
7. Electives with computer-aided engineering content include: ME 421 and ME 464

School of Health Professions

Dean: Harold P. Jones, PhD
Senior Associate Dean for Academic & Faculty Affairs: Donna J. Slovensky, PhD
Senior Associate Dean for Strategic Partnerships & Enterprise Development: M. Patrick McNees, PhD
Associate Dean for Research & Science: David B. Allison, PhD
Assistant Dean for Administrative & Fiscal Affairs: Melanie L. Talbot, MBA, CPA
Assistant Dean for Student Recruitment, Engagement & Success: Tracee M. Synco, PhD
Assistant Dean for Undergraduate Research & Honors: Fred (Ted) Bertrand, III, PhD

The School of Health Professions delivers educational programs to prepare health personnel who will improve the services in health care and the systems through which these services are provided. In keeping with the mission of the University of Alabama at Birmingham, the resources and programs of the school are dedicated to excellence in teaching, research, and scholarly activity and to service to the institution, the community, and the professions represented by programs of the school.

Degree options in the School of Health Professions include undergraduate, master’s, and doctoral programs sponsored by five academic departments – Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy. In addition, minors, certificates, and post-doctoral fellowships are available in some specialized areas. The School sponsors more than 25 degree and certificate options, all of which require students to apply for and be accepted to the specific degree or certificate program.

The School of Health Professions is committed to the practice of ethical standards of conduct. School policies, procedures, and regulations reflect this commitment and are in compliance with those of the University of Alabama at Birmingham. To ensure continued practice of ethical standards, the administration and the standing committees of the school
(Faculty Affairs, Academic Affairs, Student Affairs) regularly review school policies and procedures. All research endeavors are in compliance with policies of the UAB Institutional Review Board.

**SHP Admissions**

Entrance requirements for the individual educational programs of SHP vary. Persons desiring admission to a particular program should consult the appropriate section of the University Catalogs for specific entrance requirements, application process, and program information. Students who attend an institution other than UAB are encouraged to seek academic advisement from the intended program as early as possible to plan for completion of program prerequisites.

Application for admission to UAB to complete program entrance or pre-professional requirements at UAB may be made to the Office of Undergraduate Admissions (http://www.uab.edu/students/undergraduate-admissions). Admission to UAB does not guarantee admission to the professional phase of any SHP program.

The School of Health Professions welcomes applications from all individuals who are prepared for the programs offered. All applicants must offer acceptable evidence of ability and intent to meet the academic standards specified by the particular program into which admission is desired. In addition, certain immunizations are required prior to enrollment; see UAB Student Health and Insurance Programs and UAB Immunization Policy. Accepted students are subject to background check and drug screen requirements. Applicants are considered regardless of race, color, religion, gender, sexual orientation, national origin, disability unrelated to program performance, disabled veteran status, or Vietnam era veteran status (see UAB Equal Opportunity Policy). Persons who have not yet decided upon a specific health career may obtain information from the SHP Office of Student Recruitment, Engagement, and Success, School of Health Professions Building, Room 230, 1705 University Boulevard; telephone: (205) 934-4195.

**SHP Mission, Vision, Values**

The mission of the School of Health Professions is “To improve health care through teaching, research, and translation of discoveries into practice in partnership with the UAB community.” The School vision is, “To be recognized as the leading school of health professions – shaping the future of healthcare.” Fulfilling the mission requires faculty and staff to embrace the following organizational values:

- Accountability
- Collaboration/Cooperation
- Diversity
- Excellence
- Innovation/Creativity
- Integrity/Ethical behavior
- Open communication
- Professional behavior

**SHP First Year Experience**

All freshmen admitted to the university are required to complete a first year experience (FYE) course. The FYE sponsored by SHP, HRP 101 Experience the University Transition, is designed to ease the transition between high school and university experiences and to prepare students for success in health professions majors. The course is delivered in a blended seminar / online format. Students interact with faculty, advisers, and other students to learn academic skills and personal lifestyle management tactics to make their freshman experience positive and academically rewarding. Social interaction and engagement in the UAB community are key goals as well.

**Core Curriculum**

All SHP majors are required to comply with the UAB core curriculum for a baccalaureate degree. However, most professional curricula in the school include specific prerequisite coursework that should be considered in making choices about options within the core curriculum. Students are strongly encouraged to make early contact with academic advisers in the School of Health Professions to plan their course schedules to meet the dual requirements of the core curriculum and the requirements of their chosen major. The courses identified in Area V of the core curriculum (Elective and Pre-professional Credits) differ by major, and are subject to change as programs respond to changes in workforce requirements. Students should work closely with their academic advisers to plan their programs of study during the freshman and sophomore years.

**School-Wide Core / Capstone**

The School of Health Professions does not specify a common core for all programs. Students must comply with the UAB core curriculum and the degree requirements for their chosen major. All SHP programs include capstone experiences, either a supervised practicum, a didactic course, or a combination of both.

**University Requirements**

In order to receive a degree at UAB, a student must have a minimum 120 semester hours of acceptable credit.

**Interdisciplinary Majors / Minors**

Interdisciplinary majors are not offered by the School of Health Professions. Students may elect to pursue any minor available at UAB in addition to their major, but minor study is not required. Several minor options are available in the School of Health Professions.

**Minor in Biomedical Sciences**

The minor in Biomedical Sciences requires completion of 18 semester hours of coursework; including 12 hours of required BMD courses and 6 elective hours. All courses (including prerequisites) must be completed with a grade of C or better and students must maintain a 2.5 overall GPA. Students must apply to the Biomedical Sciences program for admission to the minor.

School of Health Professions Undergraduate Research and Honors Programs

The School of Health Professions Undergraduate Research and Honors Programs provide experiential opportunities for undergraduate students to develop project leadership and research skills in a team environment to prepare for careers in health care or for graduate study in the health professions. All students’ projects are presented publicly in an appropriate professional forum.

**SHP Honors Program.** A cohort of students is accepted into the SHP Honors Program each year. Admission criteria include a 3.25 GPA and recommendation by the program director of the student’s major. Honors students participate in four semester credits of interdisciplinary seminars and a minimum of six semester credits in honors projects under the direction of a faculty and community mentor. Projects may involve community research or service learning activities, and are completed by teams of students. Students who successfully complete all program requirements graduate with School Honors.

**SHP Undergraduate Research Opportunities.** Students who wish to pursue a mentored research experience outside of, or in addition to, the Honors Program are paired with a faculty mentor to complete a research activity consistent with their goals and abilities that will contribute meaningfully to their mentor’s research.

Mentored Research Project. Students who wish to complete individual projects must be registered for Mentored Research in the Health Professions while working with their mentor. Project hours completed will be documented on the student’s academic transcript. The number of credit hours allocated to the project is negotiated among the student, the mentor, and the Assistant Dean.

Research Team Experiential Learning. Students may participate in a 3-semester team based research experience that pairs student teams with research mentors, to address research issues. Students participate in a two-credit research/team work/project development course, and then
complete a minimum of six semester hours of research in a team. Teams of students who complete this experience will receive a certificate from the School for their professional portfolios.

For information about application to any honors or research activity, or to make an appointment to discuss required courses and project work, please contact Dr. Ted Bertrand by email at fbrtrnd@uab.edu. Additional information is available on the SHP website at: http://www.uab.edu/shp/home/departments-programs.

Clinical and Diagnostic Sciences

The Department of Clinical and Diagnostic Sciences sponsors the B.S. in Biomedical Sciences. Undergraduate degrees in Medical Technology and Nuclear Medicine ended in 2016. Students interested in these degrees should contact the Department to discuss graduate degree options, which are available for both Clinical Laboratory Science and Nuclear Medicine Technology.

School of Health Professions Honors Program

The School of Health Professions Honors Program provides opportunities for students in School of Health Professions degree programs to develop leadership and research skills to prepare for careers in health care or for graduate and professional study in the health professions. Students participate in two semester credits of interdisciplinary seminars and four semester credits in honors projects under the direction of a faculty mentor. Projects may involve research, service learning, or leadership activities. The student’s project, whether scholarly, service, or leadership, is presented publicly in an appropriate professional forum. A limited number of students are accepted into the Honors Program each year. Admission criteria include a 3.25 GPA, recommendation by the program director of the student’s major, and a letter of support from their faculty mentor. Students who successfully complete the program graduate with School Honors.

Biomedical Sciences

Program Director: Kari J. Dugger, PhD

The B.S. in Biomedical Sciences program curriculum is designed to prepare students for entry into the biomedical science workforce or for graduate and professional study in the health professions. Many of the prerequisites for admission to identified graduate programs can be incorporated into the student's program of study. This allows students to create a tailored undergraduate educational experience to prepare for further study in an area of choice such as physician assistant studies, medicine, dentistry, optometry, physical therapy, biotechnology, clinical laboratory science, genetic counseling, and many more.

Admission Requirements

Admission options are based on the student’s previous academic work and personal interests. Students intending to enroll in the B.S. in Biomedical Sciences program must meet all UAB undergraduate admission and academic requirements. The following additional requirements also apply and must be met prior to acceptance into the Biomedical Sciences program.

Program Admission from High School

Must be a graduate of an accredited high school with a grade point average of 2.75 or higher on a 4.0 scale for admission. Achieved an ACT Composite Score of 22 or higher.

Must place in College English 101 or higher and College Math 105 or higher.

Must meet all UAB undergraduate admission and academic requirements.

If accepted, complete the UAB medical history questionnaire and physical, provide proof of required immunizations, and receive satisfactory screening by the UAB Medical Center Student Health Service.

If accepted, a background check and drug screening will be required at admission and again prior to any practicum placement.

Program Admission from Community College or University, including UAB

Must meet all UAB undergraduate admission and academic requirements.

If accepted, complete the UAB medical history questionnaire and physical, provide proof of required immunizations, and receive satisfactory screening by the UAB Medical Center Student Health Service.

Must hold a 2.75 or higher Overall GPA on a 4.0 scale for admission to the Biomedical Sciences Program.

If accepted, a background check and drug screening will be required at admission and may be required again prior to any practicum or lab placement.

Other Biomedical Sciences Program Requirements

Grades of C or better are required for any Biomedical Sciences coursework.

A minimum of 2.75 Overall GPA and 2.00 UAB institutional GPA must be maintained to remain enrolled in the B.S. in Biomedical Sciences program.

Application Procedure

Applicants are accepted at any time, and students may be enrolled during any term. Applicants should submit the following materials:

To the UAB Undergraduate Admissions Office:

- Completed UAB undergraduate application form, including SHP as the school, and application fee, if applicable (if enrolled at UAB in another major, complete a Change of School/Major Request using the online form available on BlazerNET (https://www.uab.edu/blazernet)).
- Official transcripts from each college or university attended

Recommended Courses Core Curriculum

Students, in consultation with their academic advisor, should sequence coursework to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog.

Although the courses listed below are recommendations, students are required to earn a satisfactory grade in MA 106 or MA 125 for the major.

Area II (non-Literature option): CMST 101
Area III Mathematics: MA 106 or MA 125
Area IV non-History: PY 101 or PY 212

Contact for additional information:
B.S. in Biomedical Sciences Program (BMD) Program
School of Health Professions Building
University of Alabama at Birmingham
1705 University Boulevard
Telephone: (205) 996-4721
Email: bmd@uab.edu (askCDS@uab.edu)
Web address: http://www.uab.edu/shp/cds/biomedical-sciences

The Biomedical Sciences (BMD) program has partnered with several graduate programs to provide students with enhanced opportunities to prepare for graduate professional education.

Early Acceptance Program with M.S.
Degree in Clinical Laboratory Science
Qualified BMD juniors must have an overall GPA of 3.0 and a prerequisite GPA of at least 3.25, a GRE of 305, and must have demonstrated interest in NMT. In consultation with the NMT Admissions Coordinator and BMD advisor, BMD students with provisional admission to the NMT program will take selected graduate level courses to meet BMD degree or elective requirements. These competencies would then be waived for the NMT master’s program. For more information, contact the Program Director for Clinical Laboratory Sciences or the BMD adviser.

Early Acceptance Program with M.S.
Degree in Nuclear Medicine Technology
Qualified BMD juniors must have an overall GPA of 3.0 and a science GPA of 3.25, and must have demonstrated interest in NMT. BMD students with provisional admission to the NMT program must complete all required NMT prerequisites, and will take selected graduate level courses to meet BMD degree or elective requirements. For more information, contact the Program Director for Nuclear Medicine Technology or the BMD adviser.

4 + 1 Partnership with M.S. Degree in Biotechnology
Qualified BMD juniors (at least 60 hours of course work) must have an overall GPA of 3.25 and demonstrated interest in BT. In addition, BMD students must take the GRE or MCAT by the second semester of their junior year and have a GRE combined score of at least 300, or a MCAT score of 28. BMD students who are admitted to the 4+1 program will take selected BT courses to fulfill BMD degree or elective requirements. These competencies would then be waived for the BT master’s program. For more information, contact the Program Director for Biotechnology or the BMD adviser.

Early Acceptance Program with PharmD
Degree at the Lake Erie College of Osteopathic Medicine
This opportunity is available for BMD majors prior to their third year of study, who are interested in obtaining a doctorate in Pharmacy after graduation. Students who qualify for admission into both the BMD program and the LECOM EAP program, and maintain qualifying EAP LECOM credentials until completion of the BMD program will be admitted into LECOM PharmD program. More information can be found here:
http://lecom.edu/admissions/entrance-requirements/early-acceptance-programs or by contacting the BMD program director at BMD@uab.edu.

1 any Honors courses substituted for an original course requirement will require completion of the corresponding lab and/or recitation.
2 or equivalent Core Area IV course applicable to requirement
3 see Major for approved Statistics courses.

Minor in Biomedical Sciences

The minor in Biomedical Sciences requires completion of 18 semester hours of coursework; including 12 hours of required BMD courses and 6 elective hours. All courses (including prerequisites) must be completed with a grade of C or better and students must maintain a 2.5 overall GPA. Students must apply to the Biomedical Sciences program for admission to the minor.

Health Services Administration

The Department of Health Services Administration sponsors degree programs at the doctoral, master's, and baccalaureate levels, including a baccalaureate program in Health Care Management, and undergraduate minors in Health Care Management, Health Information Management, and Clinical Coding and Reimbursement.

Health Care Management

Program Director: Bryan K Breland, DrPH, JD, MPA

The Bachelor of Science in Health Care Management (HCM) was established at UAB in 1982. The program prepares graduates to be effective leaders in mid-level management positions in all types of health care organizations, including hospitals, ambulatory care centers, physician practices, long term care facilities, home health care agencies, and more. Job and career growth opportunities for mid-level managers in the health care industry are very good. Many changes are occurring in our healthcare delivery system that require well educated and technically trained individuals in operational management positions.

More than 900 individuals have graduated from the program to date, and approximately 450 students are currently enrolled. The HCM degree offers a pathway into entry- and mid-level management careers for some and serves as a foundation for success in graduate-level academic or professional degree programs for others. Career opportunities for HCM graduates exist in acute care facilities, physician practices, long term care, managed care, ambulatory care, corporate health programs, public health, pharmaceutical sales, and numerous companies providing consulting and vendor services in the healthcare industry.

There are six focused HCM curriculum tracks available to students based on the student’s previous academic work, current professional status, personal interests, and future goals:

- General Manager track prepares students for leadership positions managing health operations, developing a vision and strategies for growth, and to ensure patients receive high quality and efficient care.
Students in this track complete the professional curriculum courses and electives selected in collaboration with the HCM student adviser.

- **Clinical Manager** track is restricted to graduates of certificate and/or associate degree programs who are credentialed or licensed in a health professions discipline. Graduates of this track typically apply their management and leadership skills in facilities or organizational units that provide services in their clinical discipline.

- **Pre-professional** track is designed for undergraduate students whose academic goal is completion of a master’s level graduate or professional degree program such as health administration, health informatics, occupational therapy, physical therapy, biotechnology, surgical physician assistant, medical school, dental school or other graduate level health professions programs. Prerequisites for admission to identified graduate programs can be incorporated into the program curriculum.

- **Long Term Care Administration** track is for individuals intending to pursue a career in long-term care, including those who will manage resident care facilities. The curriculum prepares students to test for licensure as a long term care administrator.

- **HCM - Occupational Therapy Fast Track** allows qualified students entering UAB as a freshman to complete the BS in Health Care Management and the MS in Occupational Therapy in five years. This option will benefit those students who plan to test for licensure as occupational therapists by reducing the number of courses and time required to obtain the BS and MS degrees separately.

- **HCM - Health Informatics Fast Track** allows qualified students to complete the BS in Health Care Management and the MS in Health Informatics in four years, including summers.

**Admission Requirements**

Students intending to enroll in the Health Care Management program must meet all UAB undergraduate admission and academic requirements. The following additional requirements also apply for admission and progression in the HCM program.

**Program Admission from High School**

Entering freshmen are admitted to the HCM-HI or HCM-OT Fast Tracks or the General Manager Track for the first year and may elect to transition to the Pre-professional or Long Term Care Administration Tracks in the sophomore year, if qualified. The Clinical Manager Track requires previous post-secondary work and is not available directly from high school.

**General Manager Track**

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 2.5 or higher on a 4.0 scale.

**HCM Occupational Therapy Fast Track**

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must have achieved an ACT Composite Score of 24 or higher.
- Must be eligible for placement in EH 101 and MA 105 or higher.

**HCM Health Informatics Fast Track**

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must be eligible for placement in EH 101 or MA 105 or higher.

**Program Admission From Community College or University, Including UAB**

**General and Clinical Manager Tracks**

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 2.5 or higher on a 4.0 scale.
- Must have a UAB institutional GPA of 2.5, if applicable.
- Clinical Manager track is restricted to graduates of certificate and/or associate degree programs who are credentialed or licensed in a health professions discipline.

**Pre-professional and Long Term Administration Tracks**

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 2.75 or higher on a 4.0 scale.
- Must have a UAB institutional GPA of 2.75, if applicable.
- Students admitted to General Manager track who wish to transfer to Pre-Professional or Long Term Care Administration tracks must meet the minimum 2.75 overall and institutional GPA.

**HCM - Occupational Therapy Fast Track**

- Must be a graduate of an accredited high school.
- Must be a freshman with less than 30 hours of coursework at the time of transfer.
- Must have an overall grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must have achieved an ACT Composite Score of 24 or higher.
- Have or be eligible for placement in EH 101 or MA 105 or higher.

**HCM - Health Informatics Fast Track**

- Must be a graduate of an accredited high school.
- Must be a freshman with less than 60 hours of coursework at the time of transfer.
- Must have an overall grade point average (GPA) of 3.25 or higher on a 4.0 scale.
- Must have a high school grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must have a UAB institutional GPA of 2.75, if applicable.
- Students admitted to General Manager track who wish to transfer to Pre-Professional or Long Term Care Administration tracks must meet the minimum 2.75 overall and institutional GPA.

**Drug Screen and Background Check**

Students are required to complete a background check and drug screening upon admission to the program and again prior to internship placement by School policy. Instructions for requesting the background check and appropriate consent forms are provided at the time of the program admission.

**Application Procedure**

Applications are accepted by UAB at any time. Students may begin the program at the start of any full academic term. Applicants should submit the following materials:
To the UAB Undergraduate Admissions Office:

- Completed UAB undergraduate application form, indicating SHP as the school, and application fee, if applicable https://idm.uab.edu/myuab/login?from=ugadmapp
- Official transcripts from each high school, college, or university attended.

The student should request an appointment with the program manager/advisor prior to the term of initial enrollment. It is essential to have transcripts of previous coursework during the enrollment interview.

1 A six semester hour sequence in literature or history is required; if a second literature is chosen it will apply as three of the elective hours in Core Curriculum Area II: Humanities and Fine Art; if a second history is chosen it will apply as three of the elective hours in Core Curriculum Area IV: Social and Behavioral Sciences

School of Nursing

Dean: Doreen C. Harper, PhD, RN, FAAN
Senior Associate Dean for Academic Affairs: Linda Moneyham, DNS,RN
Associate Dean for Clinical Affairs and Partnerships: Cynthia S. Selleck, DSN, ARNP
Associate Dean for Research and Scholarship: Karen Meneses, PhD, RN, FAAN

Mission of the School of Nursing

The University of Alabama at Birmingham School of Nursing, as part of a research university and academic health center, shapes patient-centered health care by preparing recognized nurse leaders who excel as clinicians, researchers, and educators in Alabama, nationally and internationally.

Approvals/Accreditation

The University of Alabama at Birmingham (UAB) is accredited by the Southern Association of Colleges and Schools (SACS). The School of Nursing is approved by the Alabama Board of Nursing and is accredited by the Commission on Collegiate Nursing Education (CCNE).

Bachelors in Nursing (BSN) Degree

Baccalaureate preparation in nursing is the basic educational level for entry into professional nursing practice. This foundational education includes both academic and professional nursing courses that provide a base for clinical competence and informed judgments about health and patient care in a variety of settings. These settings include, but are not limited to, home/community agencies, outpatient/ambulatory care, and hospital-based practice ranging from chronic to high acuity. Baccalaureate nursing education builds upon knowledge acquired from the humanities and biological, physical, social, and behavioral sciences. By engaging in state-of-the-art technologies, simulations, and other teaching strategies, the graduate is prepared to care for families and individuals of all ages. The integration of principles of nursing research and principles of leadership and management also assist the graduate to function as an informed member of an interdisciplinary health team. Graduates of the program are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to become a registered nurse (RN).
Student Learning Outcomes
The BSN Curriculum is designed to prepare graduates for entry into professional nursing practice. This foundation offers both academic and professional nursing courses that provide the base for clinical competence and informed judgments about health care situations and care of patients in both in- and out-patient settings. The curriculum prepares nurses to:

- Apply knowledge from diverse liberal arts educational content to generalist nursing care principles and practice experiences.
- Incorporate a basic understanding of organizational systems and the application of knowledge and skills needed to provide safe, quality care to individual patients and to function as part of an interprofessional team.
- Participate in and utilize structure, process, and outcome measures to evaluate the implementation of patient safety and quality improvement initiatives.
- Demonstrate and understanding of the basic elements of the evidence-based practice and participate in the retrieval, appraisal, and application of best practices.
- Demonstrate skills in the ethical use of healthcare information communication technology (ICT) and how technology supports safe practice and examination of patient data for outcome analysis.
- Demonstrate skills in the ethical use of healthcare policy, advocacy, global health, legal, and regulatory issues as factors that may influence healthcare delivery and practice.
- Utilize effective intra and interprofessional communication skills to advocate for evidence-based, holistic care as a member of the healthcare team.
- Assess determinants of health in relation to multiple factors (genetics, environmental exposure, family history, individual health, and health preferences) to guide and advocate for the delivery of healthcare promotion/disease prevention strategies.
- Apply knowledge of nursing history, nursing history, nursing standards, ad one's own beliefs and values to the application of professional nursing behaviors, communication, and actions.
- Practice safe, evidence-based, compassionate, holistic, and patient and family centered care applying knowledge of leadership and healthcare delivery for individuals and communities.

BSN Admission for Traditional Students*
Admission decisions are competitive based on the applicant’s overall academic record and criteria described below.

Admission Criteria
- The minimum cumulative GPA and minimum foundation cumulative GPA for all traditional BSN applicants is 2.75 at the time of application (includes transfer students). Admission is competitive and is based on space available. A minimum cumulative GPA of 2.75 does not guarantee admission to the School of Nursing.
- Students are eligible to apply when they have successfully completed a minimum of 41 semester credit hours. Successful completion of all pre-nursing foundation courses with a “C” or above must be met prior to matriculation into the nursing program.

Coursework GPA must be a 2.75 or greater on all coursework must be met prior to matriculation into the nursing program.

- Admission decisions are highly competitive and based on the applicant’s academic record and application at the time of the application deadline. *All grades (UAB and other colleges/universities) from previous terms must be posted on applicant’s UAB transcript by the application deadline.
- A resume, outlining health care interest/experience, campus/community involvement, leadership, employment, etc. will be due by the application deadline. Resumes should not be more than one page in length and should only include activities after graduation from high school.
- Applicants are strongly encouraged to provide proof of work/volunteer experience in a healthcare setting as part of the application process. The healthcare work is to be documented by letters from a supervisor (on agency letterhead) and/or time sheets and must consist of a minimum of 60 hours of paid or volunteer work in a healthcare setting. Completion of a nursing skills course does not meet this criterion for BSN applicants.
- Applicants to the School of Nursing are strongly recommended to demonstrate a record of full-time study and a minimum number of course repeats/grade forgiveness options.

Special Options for Traditional BSN Admission

UAB Dean’s Nursing Scholars Program
- UAB Dean’s Nursing Scholars Program for Entering Freshmen is a special early admission option for academically qualified high school seniors who have an ACT score of 24 or above or a composite SAT score of 1130 (old), 1680 (new) and a minimum cumulative GPA of 3.2. This option insures admission to the nursing program as long as a minimum GPA of 3.2 is maintained in the BSN foundation courses and a minimum cumulative GPA of 3.0 is maintained. Students who apply for this program can only use 12 hours of dual enrollment coursework from high school.

http://www.uab.edu/nursing/home/special-initiatives/scholars-programs

Prior to Enrollment for Upper Division Nursing Courses
- CPR certification will be due prior to registration for upper division courses (listed are approved courses)
- American Heart Association’s Healthcare Provider Course (Course C or BLSC)
- American Red Cross’ Professional Rescuer Course
- Medical Clearance, a Background Check, and a Drug Screen are required prior to beginning class for all upper division nursing courses and must be maintained throughout the program until the student graduates. Failure to comply may result in administrative withdrawal from the program.

Application Deadlines
Fall and Spring admission dates listed at - https://www.uab.edu/nursing/home/student-information/acad-prog/application-deadlines

All transfer students must be admitted to the University one month prior to the School of Nursing application deadline.
Applicants will receive an admissions decision a minimum of 4 weeks after application for the semester for which they are applying.

Future updates on the BSN admission process will be posted on the School of Nursing website (www.uab.edu/nursing) and will be available from your Pre-Nursing Advisor. If you have any questions concerning these changes, please feel free to contact the School of Nursing Office of Student Affairs at http://www.uab.edu/nursing/home/student-information/contact-us.

Traditional Students are those students who seek to enter the Undergraduate BSN program and are not a RN.

### Additional Requirements

**Pre-application Credit Hour Requirement**

Successful completion of all core and pre-nursing requirements and a minimum of 41 semester hours are prerequisites for admission to the School of Nursing. Final coursework may be in progress.

Grade of C or greater required for all core, pre-nursing and major in nursing courses and a minimum of a 2.75 for the core, pre-nursing and major in nursing courses to be considered for application.

**Pre-application mandatory meeting with pre-nursing advisor**

In order to apply to the School of Nursing, all students must meet with their pre-nursing advisor to evaluate completion of all School of Nursing requirements for application and receive a Certificate of Advisement used to obtain an application for the School of Nursing

**Freshman Year Experience**

Students entering UAB with less than 24 credit hours who plan to enter the nursing program are required by the University to take a 2 hour approved Freshman Year Experience course in order to graduate. This increases the total number of credit hours to 127 that is required for graduation from the BSN program for these students

**BSN Course Requirements**

**BSN Foundation Courses**

Grades for these courses will be used to calculate the BSN Foundation grade point average used in the determination for admission to the BSN program; a minimum grade of C is required in each course.

Second Degree BSN Students Course Requirements

- Traditional Entry [http://www.uab.edu/nursing/home/student-information/acad-prog/bsn](http://www.uab.edu/nursing/home/student-information/acad-prog/bsn)
- Accelerated Entry [http://www.uab.edu/nursing/home/student-information/acad-prog/amnp](http://www.uab.edu/nursing/home/student-information/acad-prog/amnp)

Individuals who have completed a previous undergraduate degree, outside the field of nursing, and who have met the UAB criteria for School of Nursing admissions, may be considered for admission to the School of Nursing at the University of Alabama at Birmingham (UAB) Bachelor of Science of Nursing (BSN) program or the Accelerated Master's into Nursing Pathway (AMNP). Second-degree students seeking the BSN degree are admitted fall and spring terms. The AMNP program is a graduate level program, and results in a Master of Science in Nursing and admits in the spring term.

Second Degree Applicant Requirements

- Earned at least a bachelor’s degree in a major other than nursing at a regionally accredited institution.
- A pre-nursing foundation course GPA of at least 2.75 and an overall GPA of 2.75 OR A pre-nursing foundation course GPA of at least 2.75 and a GRE General Test score of: 293 (or 1000 on previous scale) on the Verbal and Quantitative sections and; 4 or better on the analytical writing skills portion.

The following prerequisite courses (32 credit hours) must be successfully completed (with a grade of C or greater) prior to the student being considered for admission to the undergraduate program in the School of Nursing:

1 If a student takes Microbiology at UAB, please contact your pre-nursing advisor for appropriate required course. Otherwise, a second science with lab may be substituted (excluding Geology and Astronomy).

Second-degree applicants must submit all material, follow the same processes and adhere to the same deadlines and requirements as all other undergraduate BSN applicants. The upper-division Nursing course requirements (66 credit hours) and the length of the program (five semesters) for second-degree applicants/students are the same as for the basic BSN applicants/students.

For information related to specific programs of study please refer to the School of Nursing catalog.

Honors in Nursing

Purpose

Provide research experiences that engage students, faculty, and staff with the community to identify and meet community needs and to enhance academic engagement.

Eligibility

Acceptance into the Nursing Honors Program requires the student to:

- Be accepted into the School of Nursing
- Have earned a 3.40 GPA in Foundation courses
- Have earned a 3.00 GPA UAB and overall
- Have submitted the Honors Program Application Form
- Have been selected by Honors Committee from application, transcript evaluation, and interview
- BSN, Second degree BSN students, and RN-BSN Mobility students are eligible for participation in the nursing honors program

Requirements

- Maintenance of a 3.00 GPA (UAB) and a 3.25 GPA in nursing courses through graduation.
- Completion of a minimum of 6 credit hours designated for honors clinical courses/seminars.
- An oral or poster presentation at a designated meeting in the School of Nursing, professional meeting or scientific session.

Benefits

Students who successfully complete the program will receive a certificate of acknowledgement at the UAB Honors Convocation and will graduate “With Honors in Nursing”. Students who participate in both the UAB Honors program and the School of Nursing Honors program will graduate “With University Honors in Nursing”.

The UAB Honors in Nursing Program endeavors to offer specific student enrichment opportunities beyond the traditional courses. Comprised of three courses that encompass six credit hours, the program adds three additional credit hours to the standard curriculum. A detailed explanation of the three smester hours of coursework include:
- A focus on the introduction to nursing research, research ethics and the fundamentals of research critique. In addition, research groups are created and assigned to an established/funded research teams...
Requirements for admission include the following:

- Admission to UAB as a regular pre-RN-BSN Option student through the Office of Undergraduate Admissions. (Recommended to contact the Nurse Recruiter in the Office of Student Affairs at 205-934-3534 PRIOR to applying to UAB.)
- Application for admission to the School of Nursing RN-BSN Option.
- Admission grade point average of at least 2.5 on a 4.0 scale.
- A grade of at least “C” in Human Anatomy, Human Physiology, Microbiology, and Descriptive Statistics. There are no time limits on general studies courses for RN-BSN Option students.
- Evidence of successful completion of an accredited diploma or associate degree nursing program and a current license to practice as a registered nurse in the state in which you will do your practicum course.
- Advisement with the Student Nurse Recruiter at the School of Nursing (can be done before applying to UAB).
- RN-BSN Option students are eligible for the Honors in Nursing Program.

Admission is based upon the academic record, admission application, and all supporting documents.

Additionally, RN-BSN Option students entering the RN-BSN Option who have a Bachelor's degree from a regionally accredited school with a minimum of 120 credit hours will be exempt for all general studies requirements except for Area V requirements. Students can ask for an exemption from Area V courses based on a review of transcripts and resume/CV by the RN-BSN Option Coordinator. Descriptive statistics would not be included in this exemption.

**Student with a bachelor's degree may also qualify for the ADN to MSN option. [https://www.uab.edu/nursing/home/student-information/acad-prog/msn](https://www.uab.edu/nursing/home/student-information/acad-prog/msn)**

1 36 credits of validated courses from previous nursing content will be awarded after successful completion of NUR 474, NUR 475, NUR 381, and NUR 347.
2 Students may replace these courses with graduate level nursing courses, after meeting with their faculty advisor.

Students planning to continue towards the MSN Degree

A student may qualify for substitution of up to two courses from their RN-BSN Option courses as listed above. Any course substituted will go towards the students BSN degree, and will be waived from their master’s degree requirements if the course is part of that master’s specialty coursework.

A student will need to apply for the masters of nursing program through the on-line graduate application.

For admission in good standing to the MSN program:

- Cumulative grade point average of at least 3.0 on a 4.0 scale, or on the last 60 semester hours.
- A score of 410 on the MAT; or a combined score of 293 (or a 1000 on the previous scale) on the verbal and quantitative sections of the Graduate Record Examination (GRE) or a score of 480 on the GMAT.
- Letters of professional reference attesting to the applicant’s potential for graduate study.

GRE, GMAT, and MAT are waived for students with a 3.2 or better GPA. The GRE/GMAT/MAT Waiver Process allows eligible candidates for

Additional Requirements

RN License
Only students who are licensed RNs may complete the RN-BSN Option curriculum.

Pre-Application Advisor Contact
Students interested in the RN-BSN Option should contact the Student Nurse Recruiter who advises the RN-BSN Option students. Please call 205-934-5491 to speak to the advisor.

Progression Requirements
The RN student who has successfully completed all prerequisite courses and the courses listed below will receive equivalency credit of 36 semester hours for specified clinical nursing courses.

Flexible Scheduling
This distance-accessible option offers RNs the flexibility to complete the BSN requirements while maintaining work and family responsibilities. Faculty are available in person or in virtual classroom format.

Practicum Course
There is one leadership practicum course in the RN-BSN Option. This course is designed to enable RN students to build on their existing clinical expertise, broaden their exposure to different specialty areas, and apply theory learned throughout the curriculum. Faculty will assist the RN in planning experience that meet the course objective. For students who live outside the Birmingham area, faculty will assist in arranging precepted leadership experience.

RN-BSN Option Course Requirements

BSN Foundation Courses
Grades for these courses will be used to calculate the BSN Foundation grade point average for admission into the School of Nursing.

masters’ study to have the requirement of satisfactory GRE, GMAT or MAT scores waived for admission if the student has BSN Grade Point Average (GPA) of 3.2 or above on a 4.0 scale. Students in the RN-BSN-MSN option must maintain a cumulative grade point average of at least 3.0 and follow their approved curriculum plan.

School of Public Health

About the School of Public Health

The School of Public Health was established in 1978 when Dr. William Bridges established a program to address community health problems. His activity captured a great deal of press and attracted the attention of Dr. Jarvis Ryals, a neurologist, 1965 UAB graduate, and donor. He initiated the creation of the building that the school now occupies and requested that it be named after his parents.

For over thirty years, the School of Public Health has continued Dr. Bridges’ crusade to improve health and living conditions in local Alabama communities and has expanded that vision to all areas of the world. Through research, education, and community outreach, we address community and global health problems and train the next generation of innovative public health workers.

The mission of the School of Public Health is to lead in developing, disseminating and applying knowledge to prevent disease and promote health in the human population. Because of its inherent breadth, public health is comprised of many disciplines. Thus the school achieves its mission by bringing the various disciplines together to educate individuals who will be working to prevent disease and improve the health of the school's constituent populations. These individuals include experienced public health and other health professionals, undergraduates with education backgrounds in the sciences, and persons from developing countries with health-related backgrounds. An implicit part of this mission is a commitment to increase and validate, through research and practice, the body of knowledge upon which the school’s educational programs are necessarily based.

Contact Information

Dean: Max Michael, MD
Associate Dean for Graduate Programs: Peter M. Ginter, MBA, PhD
Assistant Dean for Undergraduate Programs: Suzanne E. Judd, PhD
Undergraduate Student Advisors: Nicole Gravitt, MA
Michelle Henry, MA, NCC
Advisor’s Contact Number: (205) 934-4993
Major Offered: Bachelor of Science in Public Health
Minor Offered: Public Health
Website: www.soph.uab.edu/academics

Bachelor of Science in Public Health Competencies

- Understand historical milestones in public health and how they influence current practice.
- Explain disease processes from a biological, environmental, social and behavioral perspective.
- Identify the role of health disparities in studying the health needs of communities and improving population health.
- Describe how data and study design methodology are utilized in quantifying public health problems.
- Communicate public health approaches, messages, and findings effectively both orally and in writing.

Bachelor of Science in Public Health Degree Concentrations

The bachelor’s degree is designed to give students a foundational understanding of public health issues and methods. The UAB School of Public Health will offer a Bachelor of Science in Public Health with concentrations in the following three areas:

- Environmental Health Sciences Concentration
- Global Health Studies Concentration
- Public Health Concentration

website: http://www.soph.uab.edu/bachelors
Catalog: www.soph.uab.edu/undergraduate

Bachelor of Science with a Major in Public Health

The B.S in Public Health degree program will train students in multidisciplinary approaches to public health practice and research. The degree will explore both quantitative and qualitative aspects of public health at all levels of analysis. Graduates will advance, through employment or further education, to become the new generation of public health professionals prepared to face the emerging challenges to human health from a population perspective.

The B.S. degree in Public Health will be offered through the UAB School of Public Health which is the only Council on Education for Public Health (CEPH) accredited degree in the state. The Public Health major will provide a broad and rigorous sequence of courses in biostatistics, epidemiology, public health systems, behavior science, and environmental health sciences. Students must choose one of the following concentrations: public health, environmental health sciences, or global health studies.

Program Completion Requirements

- Credit hours required in major: 27 hours plus a 1 hour first year experience course
- Credit hours required in concentration: 18 hours
- Credit hours in institutional general education or core curriculum: 41 hours
- Credit hours in required or free electives: 34 hours
- Total credit hours required for completion: 120 hours

Environmental Health Sciences Curriculum Planning Sheet

A concentration in Environmental Health Sciences will prepare you to protect both the environment and workers by identifying and eliminating health hazards. The environmental health sciences concentration will teach you to identify toxins and their effects on human and natural populations. Environmental scientists work in public and private sector careers to address problems such as pollution, water safety, and ecosystem protection.

Environmental Health Sciences Concentration

* Please visit the Environmental Health Sciences website for more information: http://www.sparkmancenter.org/

Requirements Hours

- PUH 321 The Workplace Environment and Worker Safety and Health (previously ENH 301) 3

Total Hours 3

Click the following link to view undergraduate Public Health Electives: http://catalog.uab.edu/undergraduate/schoolofpublichealth/#courseinventory

Public Health Honors Track

Students may consider pursuing school honors by applying to the Honors Track. The following requirements must be met in order to be considered for the school wide honors.

1. Take the Sophomore Seminar Course (PUH 292) and receive a grade of B or better
2. Must have 3.0 university GPA and have completed 60 hours of course work with at least 24 hours of PUH course work to apply for the honors track ($500 scholarship if you are accepted)
3. Maintain a 3.0 after admitted
4. Identify a faculty mentor within 3 semesters of graduation
5. Complete additional experiential learning outside of course work totaling: 20 hours of service to the school, 40 hours of practice to the profession, and 40 hours of research. All hours must be reviewed and approved by faculty mentor.

Undergraduate Program Concentrations

Bachelor of Science in Public Health with a Concentration in Environmental Health Sciences

The concentration should include at least 6 hours from the 400-level and a service learning designated course.

- PUH 322 Environmental Justice and Ethics (previously ENH 310) 3
- PUH 421 Nature vs. Nurture: Genes, Environment and Health (previously ENH 405) 3
- PUH 422 Fundamentals of Toxicology: Poisons and People (previously ENH 300) 3

ENH Electives 6

Total Hours 18

Approved electives for the Environmental Health Sciences concentration include:

Bachelor of Science in Public Health with a Concentration in Global Health Studies

Global Health Studies Concentration

As a student in the Global Health Studies concentration you will learn about health conditions that affect people around the world and associated challenges that make these issues difficult to address such as poverty, cultural beliefs, and population dynamics. This program will prepare you to work both locally and globally in public health by studying the effects of disease and learning how to plan and implement public health programs.

Global Health Studies Curriculum Planning Sheet

- Please visit the Sparkman Center website for more information: http://www.sparkmancenter.org/

Requirements Hours

The concentration should include at least 6 hours from the 400-level and a service learning designated course.

- PUH 332 Global Communicable Disease Challenges (previously GHS 401) 3
- PUH 331 The Rise of Non-Communicable Diseases Globally (previously GHS 301) 3
- PUH 333 Food, Water, and Air: the Global Environment and Health (previously GHS 303) 3
- PUH 432 Global Health Cases (previously GHS 402) 3

Catalog: www.soph.uab.edu/minor

Minor in Public Health

Public Health is an exciting and growing field of study. The field challenges its professionals to confront complex health issues, such as improving access to health care, controlling infectious disease, and reducing environmental hazards, violence, substance abuse, and injury. A Bachelor in Public Health is an undergraduate degree, which trains students in the essential skills needed to plan, initiate and manage healthcare programs. Research has shown the impact of healthy lifestyles on the rate of incidence of illnesses and on increasing longevity; hence, public health is now considered a very significant area of study.

AAS-African American Studies Courses

Courses

AAS 100. African American Studies Seminar. 1 Hour.
AAS 100 is an initial course that introduces new majors and minors to the field and the African American Studies Program. Emphases will be placed on exploring the history and development of the AAS Program, major and minor requirements, internship and service learning opportunities and career options. Required of all new majors & minors.

AAS 150. Let’s BMEN. 1 Hour.
Given the historical and current retention rate at colleges/universities in the U.S.; this class is designed to assist young scholars in navigating an academic environment. This course will explore issues such as masculinity, cultural identity, leadership and education relative to African American males. It seeks to provide students with tools and strategies that can be employed as they matriculate though their college experience.

AAS 165. Jazz Styles: History and Appreciation. 3 Hours.
American jazz with emphasis on instrumental and vocal performers, jazz bands, and combos. Development of big band, swing, and popular music.

AAS 200. Introduction to African-American Studies. 3 Hours.
Examination of seven core areas of African American Studies: History, Religion, Social Organization, Politics, Economics, Creative Production, and Psychology. Emphasizes major thematical theoretical and critical discourses of Black Studies, and its emergence as a political/social movement and discipline. Relates the latter to the complexity and diversity of contemporary movements such as Civil Rights, Free Speech, Black Power, and Afro-centricism. Majors and minors in African American Studies should complete this course before enrolling in any higher level AAS course. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

AAS 201. Honors Introduction to African American Studies. 3 Hours.
An advanced study of African American Studies as a discipline. Examines the seven core areas of the field with an emphasis on the major theories, critical discourses, and the emergence of Black Studies as a field of inquiry.

AAS 220. History of Sport: The African American Experience. 3 Hours.
This course provides a socio-cultural and historical overview of the African American athletes (male and female) that contributed to sports as we know them today. Focus will begin on the historical figures that helped shape sports culture and will continue into discussions about the role African-Americans play in collegiate and professionals sports today.

AAS 223. African Amer Hist to Civil War. 3 Hours.
Survey of the African American experience from Pre-Colonial Africa to the End of the Civil War.

AAS 224. African American History Since 1865. 3 Hours.
Survey of late 19th century to present African American history.
AAS 250. Special Topics in African-American Studies. 3 Hours.
Specific topic in African American Studies.

AAS 260. History of Afro-Latin America. 3 Hours.
This course surveys the history of those countries of Latin America, e.g. Cuba, Brazil and Colombia, that comprise the heart of the New World's African diaspora, having received most of the roughly 10 million Africans brought to Latin American shores during the centuries-long transatlantic slave trade. It explores the dramatic experiences of Afro-Latin Americans including their roles in the destruction of slave systems, creation of nations based on democratic principles, and rise of vibrant multicultural societies.

AAS 290. Writing in African American Studies. 3 Hours.
Course offers students continued practice in reading, research, and writing central to academic investigation and to interdisciplinary approaches. Develops skills in writing across disciplines and critical thinking. Emphasizes readings on diverse, contemporary, and multicultural issues in African American Studies. Writing, Ethics and Civic Responsibility are significant components of this course.

AAS 300. African American Music. 3 Hours.
Survey, history and appreciation of African derived music and its presence in the United States from its earliest forms in spirituals, blues and jazz to contemporary forms of be-bop, hip-hop, reggae, and rap.

AAS 301. History and Tradition of Gospel Music. 3 Hours.
The purpose of this course is to broaden the knowledge of African American Gospel Music history and to identify the valuable contributions of this genre by studying its eras and major contributors.

AAS 310. Black Image: Screen and Television. 3 Hours.
History and definition of the image of the African-ancestored people in the United States through cinema and television.

AAS 311. Race and Representation in Media. 3 Hours.
The course critically assesses the depiction of race in various visual media presentations. It explores how race is projected in media and how these media structures can create, support stereotypes of race and perpetuate social inequalities.

AAS 320. African Identity/Personality. 3 Hours.
This course is a study of the African identity, personality, and the concept of blackness, with particular emphasis on what it means to be black in America. An adequate discourse on the complexities of African American Studies requires a multi-disciplinary approach that considers the expansive nature of the African Experience in North America. Accordingly, any substantive intellectual and scholarly foundation for critically understanding the salient areas of this course require the application of cross-discipline areas of study involving race, culture, socioeconomics, history, African American political behavior, and psychosocial theories of development. Quantitative Literacy is a significant component of this course.

AAS 325. Black Psychology. 3 Hours.
This course examines and explores theory, research, and practice related to the study of psycho-social experiences from the worldview of Africans in America.

AAS 330. African Aesthetics and Traditional Religion. 3 Hours.

AAS 335. The Psychology of Hip Hop. 3 Hours.
Psychology of Hip Hop uses hip hop music and culture as conceptual lenses for analyzing and interpreting the life experiences of people of African descent throughout the African diaspora. Drawing mainly on psychology as well as other social sciences, this course is intended to provide students with an understanding of the psycho-historical and psycho-social development of African Americans relative to hip hop culture. This course explores and examines the thesis that African American music is an expression of African American life. Thus hip hop music and culture serve as soundtracks that allow the opportunity to listen to and learn from this particular manifestation of what W. E. B. Du Bois called the souls/psychology of Black folk.

AAS 350. Research Methods in African American Studies. 3 Hours.
Research Methods in Africana Studies will introduce students to a general conceptual framework for ordering the social theories and methods that people of African descent have used to interpret and understand Africana life experiences.

AAS 366. African American Literature II. 3 Hours.
Cultural values from James Baldwin in the 1950s, through black nationalist, civil rights, and black feminist movements, to contemporary writers such as Ishmael Reed, Charles Johnson, and Toni Morrison.

AAS 400. Seminar in African American Studies. 3 Hours.
Specific topic in African American Studies.

AAS 420. Public Health and Medical Issues in African Communities. 3 Hours.
This course introduces students to important health issues that face the African American community. The goals are to increase awareness and stimulate discussion about health problems facing African Americans, factors believed to cause, contribute or worsen these problems, and steps now taken to alleviate or eliminate these problems.

AAS 448. African American Poetry Tradition. 3 Hours.
Development of African American poetry from its early works to the present, including Wheatley, Dunbar, Hughes, Brooks, and Angelou.

AAS 490. African American Studies Internship. 3 Hours.
On campus and off campus training positions in filed utilizing cross disciplinary skills, with some positions offering external funding. Students should contact the Program Director for listings of available positions and application procedures. May be counted as elective only. Preq: Junior or senior standing as African American Studies major and approval of application. May be repeated once for credit. Permission of the Program Director is needed.

AAS 493. Capstone Seminar. 3 Hours.
Specific topics vary...The course will provide an opportunity for students to reflect upon and to use the knowledge, skills and dispositions developed in previous African American Studies coursework. This course or AAS 495 required of all AAS majors. AAS 493 is ideally taken in the final undergraduate semester. Preq: 9 hours AAS coursework at the 400 level and permission of the Program Director. 3 hours.
AC 305. Professional Development in Accountancy. 1 Hour.
This course will introduce students to the Accountancy profession, the recruitment process for internships and entry-level positions in accounting; the traditions, expectations and ethical demands of the profession; and the availability of diverse career options.

AC 309. Intermediate Accounting for Corporate Careers. 3 Hours.
The course explores the major components of the balance sheet elements assets, liabilities and equity as well as revenue recognition.
Prerequisites: AC 300 [Min Grade: C]

AC 310. Financial Accounting II. 3 Hours.
Continuation of AC 300. Inventories, plant assets, intangible assets, current liabilities, long-term debt and stockholders' equity.
Prerequisites: AC 300 [Min Grade: B]

AC 320. Financial Accounting Survey. 3 Hours.
Accounting cycle, financial accounting theory, financial statements, cash and receivables, inventories, plant assets, intangible assets, current liabilities, long-term debt, stockholders' equity, investments, income taxes, pension benefits, leases, error correction, and reporting of accounting changes and earnings per share. Not open to accounting majors.
Prerequisites: (AC 201 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 364. Taxation and the Working Poor. 3 Hours.
Students will explore the objectives and consequences of the U.S. federal tax system in relation to the working poor. Topics covered will include the Earned Income Tax Credit, progressive and regressive taxes, and income redistribution as the result of tax provisions. In addition, students will study common mis-perceptions of those living in poverty. The course will consist of classroom instruction, tax preparation training, completion of a tax certification test, and volunteer tax preparation at a community-based site. This course is open to both business and non-business majors and assumes no prior knowledge of accounting or tax. The course is a service-learning course and will satisfy the experiential-learning requirement in the Collat School of Business.
Prerequisites: GPAU 2.00

AC 401. Cost Accounting. 3 Hours.
Basic theory and procedures involving cost determination, analysis, and control. Cost allocations, application of overhead, budgeting, standard costs, job order, process and by-product costing, spoilage, and quantitative techniques. Junior standing required.
Prerequisites: AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00 or (AC 320 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and GPAT and GPAO 2.00 and GPAO 2.00) or (AC 300 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (AC 320 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 413. Internal Auditing. 3 Hours.
Theory and practice of internal auditing and application of internal auditing principles and techniques to selected audit problems.
Prerequisites: (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
AC 414. Governmental and Not-for-Profit Accounting. 3 Hours. Budgetary and fund accounting as applied to municipalities, other governmental units, and institutions operating as nonprofit entities. **Prerequisites:** (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAU 2.00) or (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00).

AC 423. External Auditing. 3 Hours. This course covers the major phases of an external audit including preliminary engagement procedures, planning the audit, evaluation of ICFR, substantive audit procedures, and reporting. **Prerequisites:** AC 310 [Min Grade: C] (Can be taken Concurrently)

AC 430. Financial Accounting III. 3 Hours. Accounting for Dilutive Securities and Earnings per Share, Investments, Revenue Recognition, Income Taxes, Pensions and Post-retirement Benefits, Leases, Accounting Changes and Error Analysis, and the Statement of Cash Flows. **Prerequisites:** AC 310 [Min Grade: C]

AC 440. International Accounting: From a User's Perspective. 3 Hours. Development of international accounting knowledge needed to make informed decisions in global business environment. **Prerequisites:** AC 300 [Min Grade: C]

AC 441. International Accounting: Study Abroad. 3 Hours. Development of international accounting knowledge needed to make informed decisions in global business environment through study abroad. **Prerequisites:** AC 440 [Min Grade: C]

AC 452. Income Taxation II. 3 Hours. Completion of fundamentals of taxation for individuals. Basic concepts and laws applicable to partnerships and corporations. Tax research techniques and tax planning concepts. **Prerequisites:** (AC 402 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 402 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 464. Accounting Internship. 3 Hours. Work experience enabling students to better integrate academic knowledge with practical applications by exposure to accounting practice and business environment. **Prerequisites:** AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and (AC 402 [Min Grade: C] or AC 423 [Min Grade: C])

AC 472. Forensic Accounting and Information Tech Auditing. 3 Hours. Introduction to the practice of forensic accounting and its relationship to auditing in settings characterized by extensive reliance on information technology. An emphasis on audit methodology as applied to accounting information systems. **Prerequisites:** (AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 473. Fraud Examination. 3 Hours. Advanced forensic accounting concepts with a primary focus on occupational fraud and abuse—its origins, perpetration, prevention, and detection. **Prerequisites:** (AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 474. Forensic Accounting Practicum. 1-3 Hour. Work experience requiring the application of forensic accounting concepts and methods. **Prerequisites:** (AC 472 [Min Grade: C] and AC 473 [Min Grade: C] and LS 471 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 472 [Min Grade: C] and AC 473 [Min Grade: C] and LS 471 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 480. Advanced Financial Accounting. 3 Hours. Business combinations, consolidated financial statements, multinational accounting, and partnerships. **Prerequisites:** AC 430 [Min Grade: B]

AC 490. Advanced Topics in Accounting. 3 Hours. Contemporary professional accounting issues. Preq: Permission of instructor. **Prerequisites:** (GPAT and GPAU 2.00) or (GPAU 2.00 and GPAO 2.00)

AC 495. Accounting Capstone. 3 Hours. Course brings together in one setting the learned skills and knowledge needed in a professional career in accounting. Permission of the Accounting and Finance Department Chair required. **Prerequisites:** (AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and FN 310 [Min Grade: C] and AC 402 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and AC 402 [Min Grade: C] and GPAO 2.00) or (AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and AC 402 [Min Grade: C] and FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 499. Directed Readings. 1-3 Hour. Readings and independent study in selected areas. **Prerequisites:** (GPAT and GPAU 2.00) or (GPAU 2.00 and GPAO 2.00)

**AFS-Aerospace Studies Courses**

**Courses**

**AFS 101. Air Force Today. 1 Hour.** Topics relating to Air Force and national defense. Purpose, structure, and career opportunities in U.S. Air Force. Written communication.

**AFS 101L. Leadership Laboratory I. 0 Hours.** Laboratory to accompany AFS 101.

**AFS 102. Air Force Today. 1 Hour.** Interpersonal communication. Effective listening techniques; verbal and nonverbal communication. Practical exercises and group projects to demonstrate barriers to effective communication and techniques to overcome barriers.

**AFS 102L. Leadership Lab. 0 Hours.** Laboratory to accompany AFS 102.

**AFS 201. Development of Air Power. 1 Hour.** Historical survey of technological innovation in warfare. Emergence of air power; significance in war and national security policy implementation.

**AFS 201L. Leadership Laboratory II. 0 Hours.** Laboratory to accompany AFS 201.

**AFS 202. Development of Air Power. 1 Hour.** Leadership and followership traits in context of modern military force. Ethical standards of military officers and Air Force core values. Total quality management.

**AFS 202L. Leadership Lab. 0 Hours.** Laboratory to accompany AFS 202.
ANTH 101. Introduction to Cultural Anthropology. 3 Hours.
Cultures of world’s peoples; ideas used to explain similarities and differences among human groups. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 102. Introduction to Biological Anthropology. 3 Hours.
Biological evolution; interpretation of human fossil record; race; human population genetics and primate behavior.

ANTH 104. Introduction to Peace Studies. 3 Hours.
An overview of concepts and practices related to conflict, social justice, and peace. Students are introduced to theories, terms, analytical skills and tools in terms of peace building and conflict transformation.

ANTH 106. Introductory Archaeology. 3 Hours.
Archaeological methods and theory used to reconstruct and interpret past. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 120. Language and Culture. 3 Hours.
Nonverbal communication; language origins and acquisition; universals; language classification and processes of change; language as expression of cultural values and social structure; beginning componental and structural analysis. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 200. Applied Anthropology. 3 Hours.
Applied anthropology stresses the practical application of anthropological perspectives, theories, and methods to the real world needs of contemporary communities, organizations, and institutions. Within this context, applied anthropology is viewed as a critically important fifth subfield of anthropology ideally suited to aid in the resolution of modern challenges. Topics addressed include global challenges related to public policy; the environment; sustainable development; health, poverty, social, racial, and gender inequality; social advocacy; and cultural tolerance.

ANTH 202. Science Fiction and Anthropology. 3 Hours.
Anthropological concepts in works of science fiction; the place of anthropology in contemporary science fiction literature, film, and television. Topics include culture, language, archaeology and human evolution.

ANTH 210. Monkeys and Apes. 3 Hours.
Behavior and social organization of humans’ closest living relatives. Living primates and why they behave as they do.

ANTH 211. Human Evolution. 3 Hours.
Human organism’s evolution as systemic whole. Process of human evolutionary change as depicted in behavior and fossil record.

ANTH 222. Prehistory of North America. 3 Hours.
Prehistoric America north of Mexico from terminal Pleistocene to early historic times.

PREREQUISITES: ANTH 101 [Min Grade: C]

ANTH 226. Archaeological Field School. 1-6 Hour.
Participation in all phases of excavation, laboratory study, and report preparation. Off campus.

ANTH 231. Archaeology of the Origins of Civilization in Egypt, Mesopotamia, and the Mediterranean. 3 Hours.
Development of complex society in the Fertile Crescent and surrounding lands in Egypt, Mesopotamia, and Mediterranean from origins of agriculture to Alexander the Great.

ANTH 235. Immigration Transnationalism and Diasporas. 3 Hours.
What happens to culture and the social organization of groups after they migrate from one country to another? This course focuses on two possible responses: (1) How immigrants assimilate to the host society through a process of becoming disorganized or uprooted and then reorganizing themselves in a new context, and (2) How immigrants, or transnationals are influenced by their persisting ties to their home countries and elsewhere.

ANTH 242. Peoples of World/South America Indians. 3 Hours.
Ethnology of indigenous peoples of South America including ecological adaptation, social organization, religious systems, and culture change. Emphasis on lowland South Americans.

ANTH 244. Peoples of the World: Africa. 3 Hours.
Local and regional African cultures. Geographical, racial, and historical backgrounds; contemporary African social systems.

ANTH 245. Peoples of the World: Mediterranean. 3 Hours.
This course covers both the western part of the Ancient Middle East and the Mediterranean Area, first introducing Neolithic Europe and Turkey/Anatolia (e.g., Catal Huyuk; Stonehenge), but focusing on Bronze Age Greece, the Aegean, and Anatolia:ca. 3000-1200 BCE. This includes an examination of the Minoans and Mycenaeans in the first part of the course (e.g., Knosso; Thera; Mycenae), and a look at the Hittites and Trojans in the second half of the semester (e.g., Hattusas; Troy), culminating with the Trojan War and Sea Peoples ca. 1200 BCE.
ANTH 248. Peoples of the World: Latin America. 3 Hours.
Holistic survey of cultures of Latin America from pre-Columbian times to present. Processes of cultural change (including revolution), ethnic group relations, and functioning of contemporary societies.

ANTH 262. Mythbusters! Arch hoaxes, doc. 3 Hours.
This course will provide an in depth examination of a number of known and not-so-well known archaeological hoaxes throughout history, allowing the class to explore the myriad of social, legal, and economic pressures which precipitated such discoveries. The course will explore subjects like the shroud of Turin, Atlantis, the Jesus Tomb, and the curse surrounding the discovery of King Tutankhamen’s tomb in 1922. As part of the course, students will watch and evaluate a number of documentaries for the “truth” behind the story, and will follow ongoing media coverage of major archaeological discoveries.

ANTH 290. Study Abroad: Chilapa, Guerrero, Mexico. 3 Hours.
Orientation to and popular culture in Chilapa; Mexican history and ethnicity, regional history and ethnology, and local economy and human ecology.

ANTH 292. Anthropology of Slavery. 3 Hours.
This course is a mixed format including, lectures, student projects, and potential fieldwork. The class will provide a broad cross-cultural perspective on different types of slavery that have existed across the globe (Americas, Africa, the Near East, Oceania) and examine slavery in the American South, especially Alabama. Issues of race, hierarchy, ethnicity, political, economy, religion, ideology, and social relations will be discussed.

ANTH 299. Contemporary Global Issues. 3 Hours.
This course explores anthropological perspectives, applications, and contributions to solving contemporary world problems including: terrorism, warfare, genocide; global warming and sustainable development; global epidemic disease and new pandemics; torture and human rights abuses; global capitalism, sweatshops, and economic justice; poverty and hunger; illiteracy; child labor and child soldiers; and human population explosion.

ANTH 309. Egypt in the Age of the Pyramids. 3 Hours.
This course begins with the Prehistoric and Predynastic-Early Dynastic roots of Ancient Egypt, and focuses upon the pyramid building age of the Old through Middle Kingdoms, and concludes with the Second Intermediate Period (i.e., Dynasties 17-1: ca. 3200-1550 BCE). It will focus broadly on the archaeology, history, art, architecture, religion, and literature of this period. It is designed to stand independently of its companion course imperial and Post-imperial Egypt.

ANTH 310. Imperial and Post-Imperial Egypt. 3 Hours.
This course focuses mainly on Egypt’s imperial period, spanning the New Kingdom (Dynasties 18-20: ca. 1550-1150/1069 BCE), and concludes with a shorter overview of the post-imperial period of Egypt’s encounters with the Kushite (Nubian), Assyrian, Neo-Babylonian, and Persian empires (Dynasties 21-31: ca. 1069-332 BCE). It focuses broadly on the archaeology, history, art, architecture, religion, and literature of this time span and is designed to stand independently of its companion course Egypt in the Age of the Pyramids.

ANTH 318. Anthropology of Development. 3 Hours.
Effects of Western penetration of indigenous societies and role of anthropologists in development projects in Third World.

ANTH 319. Food and Culture. 3 Hours.
This course is designed to present a broad view of the role of food in human culture through time and in a variety of geographic settings, offering students and opportunity to reflect on the cultural meanings of food in human life. Class lectures, assigned readings, and films will be used to enhance each student’s understanding of the subject from a cross cultural perspective. We will examine the biological basis of diet, how foodways develop and change, how and why anthropologists study diet, and variations in foodways around the world.

ANTH 320. Comparative Religion. 3 Hours.
The cross cultural study of ritual, religion, the sacred, and the spiritual is unique to the discipline of anthropology (which investigates humans and their culture across space and time). Concepts of the sacred and what we refer to as “religion” can be found in all cultures both past and present. For the purposes of this course the term religion may be viewed broadly as human beliefs and practices associated with supernatural or non-empirical beings and forces, including spirituality, witchcraft, cults, magic, and superstition. The goal of this course is for students to gain a broad understanding of religion cross culturally, to closely examine case studies of particular religious practices in their culture context, to explore theories of religion and their evolution, and to achieve a perspective of cultural relativism and a greater appreciation of human diversity.

ANTH 329. Egypt: Archeological Field Study. 3-6 Hours.
Two week field school in Egypt. Students will visit Egypt old and new, including Islamic Cairo, Coptic churches, the pyramids of Giza, Alexandria, the tombs and temples of Luxor (Valley of the Kings), Aswan (Abu Simbel), and an archaeological excavation. Experience Egyptian folklore through dance and musical performances.

ANTH 330. Nationalism Ethnicity and Violence. 3 Hours.
Social and cultural analysis of ethnicity and nationalist ideologies particularly where these have led to violent confrontations within modern nation-states. Primordialist versus constructionist theories of difference; varying weight to be attributed to political, historical, and cultural factors in study of nationalism; politics of culture versus culture of politics.

ANTH 340. Archeology and History Bible Lands. 3 Hours.
Archaeology and History of the Bible Lands. Examination of region spanning modern Syria, Lebanon, Israel, and Jordan from 10,000-585 BC.

ANTH 351. Anthropology of Human Rights. 3 Hours.
Examination of conceptual, political, and legal aspects of human rights from an anthropological perspective. Topics considered may include: state violence; the history of human rights claims; the opposition of cultural human rights and human rights claim; human rights as a form of political discourse; human rights practices in select contemporary settings.

ANTH 353. Primatology. 3 Hours.
Biology, behavior, and distribution of living nonhuman primates. Field studies of old-world monkeys and apes.

ANTH 355. Archaeology of Alabama. 3 Hours.
This course will explore the archaeology of Alabama with an emphasis on current regional research which may include historical archaeology, industrial archaeology, and the archaeology of Native Americans. It may include both field and class room components.

ANTH 357. Anthropology of Gender. 3 Hours.
Roles of women, men, and other genders from a cross-cultural perspective; includes bio-cultural approaches to sex and gender and changing gender roles over time. Course involves substantial writing component in essay examinations and research papers. Writing is a significant component of this course.
ANTH 360. Ecological Anthropology. 3 Hours.
Interactions among behavioral, technological, organizations, and ideological features of human cultures that serve to adapt societies to their physical environment. 3 hours in ANTH required.

ANTH 365. Economic Anthropology. 3 Hours.
Comparative ethnology of economic organizations and processes in non-industrial societies. Precapitalist social settings and transformations of precapitalist economies that have occurred, and are occurring, as result of development and expansion of industrial capitalism.

ANTH 370. Music in World Cultures. 3 Hours.
Characteristics of musical styles in various cultures throughout world.
Prerequisites: MU 120 [Min Grade: C]

ANTH 371. Service Learning in Anthropology. 3 Hours.
This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.

ANTH 400. Human Osteology. 3 Hours.
This class focused on the identification of human skeletal remains. As a combined laboratory and lecture course it provides the groundwork for much of the work in biological and forensic anthropology.

ANTH 401. Forensic Anthropology. 4 Hours.
Applied human osteology, emphasizing ability to identify age, sex, and population type of skeletal material. Effects of disease and behavior on bones.

ANTH 404. Human Rights, Peace, and Justice. 3 Hours.
This course offers an introductory exploration of theories, concepts, and issues involved in the study of peace, human rights, social justice, and conflict resolution. It considers the relationship of human rights to achieving peace with justice, including the role of international law. It introduces the concepts of positive peace, human security, and global interdependence. Finally, the course includes an examination and critique of anthropological approaches to peace and the associated practical applications to real-world conflicts, rights violations, and global challenges.

ANTH 407. Peace Ethology. 3 Hours.
This course provides insights into causes, mechanisms, development, function, and evolution of peaceful behavior in humans and nonhuman animals. The course shows how studying the role of peaceful behavior in the survival and propagation of animal life has direct significance for improving our understanding of the evolved abilities for peace in humans.

ANTH 408. Conflict Resolution in Cross-Cultural Perspective. 3 Hours.
This course explores conflict and conflict management from an anthropological perspective. It includes ethnographic examples from around the globe. Do all societies engage in war? How are conflicts handled in other cultures? The course will challenge a Western view that humans are naturally violent and warlike and consider some interesting anthropological controversies. Specific topics considered include conflict models, origins of war, conflict resolution, socialization of conflict styles, third-party mediation, and ways to reduce violence and prevent war.

ANTH 409. Peace through Global Governance. 3 Hours.
Global governance represents a new dimension in social organization. Anthropology has much to contribute to understanding it. Global governance has the potential to promote social progress and human development, the protection of human rights, peace, and human security. The course examines security—military, collective, and human security—and the evolution of international identity, norms, values, and laws and their contributions to the development of global civil society.

ANTH 411. Advanced Field Archaeology. 0-6 Hours.
Archaeological field and laboratory techniques, including excavation, surveying, and artifact analysis and description; general problems of archaeological interpretation.
Prerequisites: ANTH 101 [Min Grade: C]

ANTH 412. Peaceful Societies and Peace Systems. 3 Hours.
This course explores peaceful societies, some of which are internally peaceful and some of which do not make war, as well as peace systems, that is, clusters of neighboring societies that do not make war on each other and possibly not with any outside groups either. The main questions addressed in the course are: How do peaceful societies and peace systems manage to successfully keep the peace? What lessons do peaceful societies and peace systems hold for creating a less violent and warless world?

ANTH 413. Peace & Environmental Sustainability. 3 Hours.
By highlighting that ecology sets the stage for the social and economic domains, this course traces our interdependence with nature and makes the case that sustaining the natural conditions that are essential for the functioning of the ecosystem on which our lives depend equals sustaining peace. The course takes a positive peace perspective on environmental sustainability goals and methods to achieve them.

ANTH 414. Prehistory of War and Peace in North America. 3 Hours.
This course explores the origins, development, and consequences of conflict and warfare among the prehistoric and early historic indigenous cultures of North America, as well as the complimentary processes of cooperation and peace-making. Archaeological, biological, and ethnohistorical sources are utilized to understand the ways in which war and peace were carried out among Native American cultures from the earliest evidence of human occupation to European contact and beyond. Both indigenous and European practices of war and peace are considered.
Prerequisites: ANTH 101 [Min Grade: C] or ANTH 106 [Min Grade: C]

ANTH 415. Ethnographic Research Methods. 6 Hours.
Ethnographic Field Methods classroom instruction and practical experience in techniques of ethnographic fieldwork, including participant observation, household surveys, structured and unstructured interviewing, and genealogies.

ANTH 416. War & Peace in Ancient Mesopotamia. 3 Hours.
“War & Peace in Ancient Mesopotamia” (ca. 10,000 - 323 BCE) begins with an introduction to the advent of farming, urban life, various crafts, writing, and other innovations in the region of the “Two Rivers,” namely the Tigris and Euphrates’ flood plain. It proceeds with the rise and fall of early state complex societies and empires in the Bronze and Iron Ages, and terminates in the Persian period. Although providing much focus on diverse issues dealing with war, alliances, diplomacy, treaties, and peace, this course also integrates a comprehensive background context and overview of other aspects of past societies in this region, including history, archaeology, language, literature, religion, architecture, art, material culture, and trade. The course material is introductory, with no specific prerequisite, but a prior enrollment in either ANTH 245 (Peoples of the Mediterranean), or ANTH 340 (Archaeology & History of Bible Lands), is helpful since these courses introduce past societies from contemporary, adjacent regions frequently in direct contact with Ancient Mesopotamia.
ANTH 418. The Power of Nonviolence. 3 Hours.
This course introduces students to the theory and practice of nonviolence as a manner of social change and as a philosophy. The course explores some of the classic writings on nonviolence such as those by Tolstoy, Gandhi, and King as well as current research findings on the efficacy of nonviolent social change, for instance, the work of Shariv, Nagler, Ackerman, and Chenoweth. Readings, films, small group and whole class discussions, guest lectures by activists will contribute to an understanding of the necessary skills for practicing and promoting nonviolent social change. Students will develop projects and presentations that utilize an online nonviolence database.

ANTH 419. Religion, Reconciliation, & Forgiveness. 3 Hours.
This course examines the role of religion, spirituality, reconciliation, apology, and forgiveness in conflict situations, from the individual to the global. Topics include the role of religion in both war and peace. The course has a cross-cultural and inclusive dimension and goes well beyond Christianity to also consider Buddhism, Confusianism, Islam, and other religions. The spiritual dimensions of Gandhian nonviolence are also considered.

ANTH 420. Cultural Transformation: Our History, Our Future. 3 Hours.
The course will explore the significance of Eissler’s Partnership-Domination Model and the socio-cultural systems informed by it. The course will focus on the practical application of the partnership approach for promoting peace and human rights across social levels from the family, schools, community, upward to the global level. Consideration will be given to how to transform values, institutions, economics, and politics from domination to partnership.

ANTH 421. Technological Monitoring of Human Rights and Conflicts. 3 Hours.
This class will give students an overview of how humanitarian work intersects with innovation and technological advances. The class will introduce students to how social media, remote sensing technologies/ drones, cell phones, open source, crowd sourcing, Big Data, cloud computing, the Internet, and sensors are all changing how we collect data and interpret the world around us, and how that information is revolutionizing humanitarian and conflict monitoring.

ANTH 422. Landscape Archaeology. 3 Hours.
The course will cover the techniques and strategies employed by archaeologists to reconstruct past landscape, which involves scientific testing, remote sensing, GIS, survey, excavation and environmental analysis. Examples will be drawn from projects across diverse landscape types in Europe, the Middle East, Africa, Central America and Asia. In-field and laboratory application of techniques will be emphasized.

ANTH 423. Vikings: Raiders, Traders, Farmers. 3 Hours.
The Vikings are most popularly thought of as warriors raiding settlements along the northern coastline of Europe during the Viking Age (ca. 793 – 1050 AD), but their society and activities extended well beyond this scope. This course furnishes an overview of Viking social structure, subsistence, art, architecture, religion, language, and literature. It covers hostile and peaceful interactions with the peoples of Greenland, the Arctic, Labrador and Newfoundland and considers the evidence for Norse explorations and influence in North America.

ANTH 430. Zooarchaeology. 3-6 Hours.
Methods and theories of zooarchaeological research are discussed in this lab/lecture course. Practical experience in processing, identification, and interpretation of animal bone remains from archaeological sites forms a large part of this class.

Prerequisites: ANTH 106 [Min Grade: C]

ANTH 432. Villains, Victims, & Vigilantes. 3 Hours.
This course examines ways in which the concepts of “rights” and “justice” are understood and enacted in local communities, particularly in regions of the world experiencing high rates of violent criminality. Beginning with a review of formal law and legal principles underlying state systems of justice, the course surveys settings in which dissatisfaction with state efforts to protect rights have induced communities to develop alternate policing and judicial institutions.

ANTH 434. Observing the Earth from Space. 3 Hours.
The course will give students the ability to analyze remotely sensed data from satellite images as part of the newly established Joint Programs for Remote Sensing and Health. Students will learn about the physics and mathematics behind remote sensing. They will also learn about wide range of satellite images and techniques to analyze them via ERDAS Imagine, ER Mapper and other programs. Applications of remote sensing to a variety of fields will form a key component of the class. The course will culminate in a term project involving remote sensing applications to the UAB faculty-led initiatives in health, medicine, geography and anthropology. There will be a weekly lab component of the course.

ANTH 436. Community Internship. 3-6 Hours.
Application of anthropological approaches to efforts in public or private sector.

ANTH 437. Real World Remote Sensing Applications. 3 Hours.
This course will be offered as a research seminar focusing on real world applications of remote sensing technology. Students will work closely with UAB professors and scientists at NASA’s Marshall Space Flight Center in Huntsville doing original remote sensing research on new satellite datasets. These datasets cover diverse areas including terrorism, global warming, health, anthropology / archaeology, atmospheric studies, urban expansion and coastal management. Students will be responsible for analyzing the satellite imagery and presenting papers to NASA.

ANTH 438. The Conquest of Mexico. 3 Hours.
This course examines the Spanish conquest of Mexico from both Spanish and indigenous perspectives. It further surveys the institutionalization of Spanish control over the fallen Aztec Empire the broader intellectual and material consequences of the conquest.

ANTH 439. Ethnography of Mexico. 3 Hours.
Survey of the incorporation of rural Mexican communities into the country’s developing industrial economy.

ANTH 442. Historical Archaeology. 3 Hours.
This course involves all stages of archaeological filed work at a historical archaeology site. Students will learn survey skills, excavation, mapping, recovery, and post-field analysis techniques.

ANTH 444. Theories of Anthropology. 3 Hours.
This course provides an overview of the discipline and theories of anthropology, taking into consideration perspectives from the classic four anthropological sub-disciplines. It is intended for students entering the UAB graduate program who do not have a strong background in the four sub-fields of anthropology. Concepts and theory are covered in cultural anthropology, linguistic anthropology, biological anthropology, and archaeology.

ANTH 445. Medical Anthropology & Health Disparities. 3 Hours.
This course explores the bio-cultural basis of health and cross-cultural variation in illness and healing which includes theoretical bases of medical anthropology, comparative health care systems, and social, political, and economic issues related to health care delivery around the globe.
ANTH 446. Explorers, Mummies and Hieroglyphs. 3 Hours.
This course provides a thematic approach to pharaonic Egypt in general, with one portion covering diverse aspects such as geography, an overview of the history of Dynasties 1-31, society and government, daily religion, mortuary religion, architecture, literature, the military, trade, economy, and daily life. Another portion of the course provides several documentaries regarding early to more recent explorers and Egyptologists (e.g., Belzoni; Champollion; Petrie; Carter; modern Egyptology) with written responses. The third part introduces Egyptian hieroglyphs in eight grammar classes and follow-up user-friendly, in-class exercises, aiming to enable students to translate basic hieroglyphic texts.

ANTH 447. Advanced Peace Studies. 3 Hours.
Intensive exploration of concepts and issues involved in the study of peace, social justice, nonviolence, and conflict resolution. Students will engage in an in-depth examination and critique of anthropological approaches to peace and the associated theoretical and practical problems and applications. ANTH 104 (Introduction to Peace Studies) is recommended before taking this class, but not required.

ANTH 450. Advanced Cultural Anthropology. 3 Hours.
Critical review of theoretical approaches in cultural anthropology.

ANTH 451. Advanced Archaeological Anthropology. 3 Hours.
This course examines the theoretical approaches of 20th century archaeology: historical, processual, and post-processual. This reading intensive seminar is focused on theory and its impact on practice and the development of the subdiscipline of archaeology relative to anthropology.

ANTH 452. Advanced Linguistic Anthropology. 3 Hours.
Historical development of theory and field practice of linguistics; acquisition, sociolinguistics, nonverbal communication, semiotics, and ethnosemantics; applied linguistics.
Prerequisites: ANTH 120 [Min Grade: C]

ANTH 453. Advanced Biological Anthropology. 3 Hours.
Human evolution and primatology; race; human genetics. Tasks performed by physical anthropologists.
Prerequisites: ANTH 102 [Min Grade: D]

ANTH 454. Biological Anthropology and Contemporary Issues. 3 Hours.
This course applies a biological anthropological perspective to explore what it means to be human and to develop critical perspectives on our culture, science, and media. How did humanity arise in its current position? How do we understand human diversity? What can we learn from the differences among people, their overwhelming biological similarity, and their common humanity? How do we use this knowledge to build a sustainable future for ourselves?

ANTH 458. Human Sexuality. 3 Hours.
This course will explore human sexuality and gender from an anthropological perspective, including biological and cultural perspectives, as well as the areas where anthropology meets psychology. The evolution of sexual behavior in humans and in non-human primates will be examined, as well as how sexuality is embedded in socio-cultural context both across and within societies.

ANTH 459. Politics, Drugs and Society in Latin America. 3 Hours.
This course will examine the role of drug production and the drug trade in the economic and political life of Latin American societies. Viewed historically and ethnographically, the course will include coverage of the traditional uses of drugs in indigenous societies as well as the more recent globalization of the industry.

ANTH 460. Historical Ecology. 3 Hours.
This course explores the topic of Historical Ecology and examines the relationship between humans and their environments from the perspectives of history, anthropology, archaeology, ecology, and biogeography.

ANTH 464. Political Anthropology. 3 Hours.
Individuals and associations of individuals in all societies variously compete and cooperate in the course of daily life. This course will draw upon the global inventory of ethnographic information to examine these political processes. Whereas the causes of socio-political competition and cooperation vary widely from one culture to the next, socio-political competition and cooperation are nevertheless universal facts of life for individuals living in a society.

ANTH 467. Museum Studies. 3 Hours.
This course uses case studies, analysis of topical issues, and problem-based learning exercises to explore the many aspects of museum studies relevant to the administration and management of not-for-profit museums. This course provides an interdisciplinary introduction to museum work.

ANTH 483. Intern in Peace, Justice and Environmental Study. 1-3 Hour.
Individually designed program that places students in local environmental organizations, divisions of local businesses or government, or special projects to gain professional experience in preparation for careers focused on peace, social justice, and/or environment.

ANTH 486. Special Problems in Applied Anthropology. 3 Hours.
Supervised study of specified topic area; defined problem explored in depth; topics determined by student and instructor interest.

ANTH 487. Special Problems in Peace Research. 1-3 Hour.
Supervised study of specified topic area in peace studies; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 488. Special Problems in Human Rights. 1-3 Hour.
Supervised study of specified topic area in Human Rights; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 489. Special Problems in Cultural Anthropology. 3 Hours.
Supervised study of specified topic area; defined problem explored in depth; topics determined by student and instructor interest.

ANTH 490. Special Problems in Archaeology. 3 Hours.
Supervised study of specified topic area in archaeology. Topics determined by student and instructor interest.

ANTH 492. Special Problems in Linguistics. 3 Hours.
Supervised in-depth study of specified topic area in linguistics. Topics determined by student and instructor interest.

ANTH 496. Special Problems in Biological Anthropology. 3 Hours.
Supervised, in-depth study of specified topic area in biological anthropology. Topic determined by student and instructor interest.

ANTH 497. Special Topics in Anthropology. 3 Hours.
Topics vary. See class schedule for topic.

ANTH 498. Honors Thesis Research. 3-6 Hours.
Independent development of research project.
Courses

ARA 101. Introductory Arabic I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Modern Standard Arabic (MSA) is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ARA 102. Introductory Arabic II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where MSA Arabic is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ARA 190. Study Abroad: Arabic. 1-8 Hour.
Approved novice level study abroad program in an Arabic-speaking country. Course of study will vary according to array of approved offerings and student interest. Permission of department chair required.

ARA 201. Intermediate Arabic I. 3 Hours.
This is a continuation of ARA 102. Emphasis is placed on reading authentic Arabic materials and communicative competence. There will be a focus on the meaning of sentences rather than words, which would enable the students to read and speak with more fluency and better comprehension. Students will not only engage in studying authentic Arabic materials (written, audio, and/or video, official forms, etc.), but are also required to evaluate them for others. They will also be guided to function in specific situations where they have to use only the target language to communicate their ideas and then write about them. Additionally, they will be exposed to some particular aspects of the cultures, customs, literary traditions and other artistic expressions of the Arabic-speaking world.

ARA 202. Intermediate Arabic II. 3 Hours.
This course focuses on enhancing students’ linguistic and cultural competence in the Arabic speaking-world. Class activities will include role-playing, individual student presentations and extramural group projects. While the class is focused on content instruction, attention will also be paid to Arabic Language through selected activities that enhance the students’ reading, writing, and conversational skills. Intermediate-high proficiency in reading, writing, listening, and speaking Arabic is the targeted outcome.

Prerequisites: ARA 201 [Min Grade: C]

ARA 290. Arabic for Study Abroad. 1-6 Hour.
This study-abroad Arabic course aims at improving students’ oral fluency. It will help students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content will also include discussion and analysis of current cultural topics. Arabic 290 will be conducted entirely in Arabic.

ARA 299. Directed Readings in Arabic. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Arabic students. Course design is determined by the instructor and student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Arabic language and culture. Intermediate proficiency in reading, writing, listening and speaking Arabic is the targeted outcome.

ARA 390. Study Abroad: Arabic. 1-6 Hour.
Approved advanced level study abroad program in an Arabic-speaking country. Course of study will vary according to array of approved offerings. Permission of the department chair required.

ARA 399. Directed Readings: Arabic. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Arabic language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Arabic language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Arabic is the targeted outcome. 9 hours in Intermediate Arabic or equivalent and permission of the department chair required.

ARH-Art History Courses

Courses

ARH 101. The Art Experience. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of art materials and techniques. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 203. Ancient and Medieval Art. 3 Hours.
Introduction to Western art from prehistoric cave paintings to Gothic Cathedrals. Focusing on ancient Eurasia, Mesopotamia, Egypt, Greece, Rome, and medieval Europe, this course examines the images, monuments, and ideas that shaped the pre-modern world. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 204. Early Modern-Contemporary Art. 3 Hours.
Introduction to Western art from Renaissance painting to current bio-sculpture. Focusing on Europe, its colonies, the United States, and global contemporary art, this course examines the images, monuments, and ideas that shaped the modern world. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 205. African/Native American/Oceanic Art. 3 Hours.
Significant monuments and styles of non-western cultures.

ARH 206. Survey of Asian Art. 3 Hours.
Art and culture of India, China, and Japan. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 405. African Art. 3 Hours.
Survey of the arts of Africa, ranging from Ancient Egypt through the contemporary period.

Prerequisites: ARH 203 [Min Grade: C]

ARH 409. Egypt in the Age of the Pyramids. 3 Hours.
This course spans the period 5000 B.C through 1550 B.C. (Predynastic and Dynasties 1-17), which encompasses Egypt's pyramid building age. It will focus broadly on the art, archaeology, history, architecture, religion, and literature of this period. It is designed to stand independently of its companion course Imperial and Post-Imperial Egypt.

Prerequisites: ARH 203 [Min Grade: C]
ARH 410. Imperial and Post Imperial Egypt. 3 Hours.
This course spans the years of 1550 B.C. to the Ptolemaic-Roman periods, which covers Egypt's glorious imperial era (New Kingdom: Dynasties 18-10) and its decline in Dynasties 21-31, with the rise of other empires and Macedonian and Roman control of Egypt. It focuses broadly on the art, archaeology, history, architecture, religion, and literature of this time span and is designed to stand independently of its companion course Egypt in the Age of the Pyramids.
Prerequisites: ARH 203 [Min Grade: C]

ARH 419. Arts of Death in the Middle Ages. 3 Hours.
The visual culture of death and the afterlife from the Roman catacombs to cadaver tombs, 300-1500.
Prerequisites: ARH 204 [Min Grade: C]

ARH 421. Italian Renaissance Art. 3 Hours.
The visual arts of the Italian Renaissance (1300-1550) in their historic context.
Prerequisites: ARH 204 [Min Grade: C]

ARH 422. The Birth of Painting: Portable Pictures Across Renaissance Europe. 3 Hours.
The emergence of modern easel painting, 1300-1600.
Prerequisites: ARH 204 [Min Grade: C]

ARH 423. Study Abroad: European Art. 3 Hours.
On-site study of art and architecture in Europe.

ARH 424. Northern Renaissance Art. 3 Hours.
The visual arts of the Northern Renaissance (1300-1600) in their historic context.
Prerequisites: ARH 204 [Min Grade: C]

ARH 430. Eighteenth-Century Art in Europe. 3 Hours.
Prerequisites: ARH 204 [Min Grade: C]

ARH 431. Seventeenth-Century Painting. 3 Hours.
Painting in Europe from Italian and Spanish Baroque through the Dutch Golden Age.
Prerequisites: ARH 204 [Min Grade: C]

ARH 435. Arts of Power in Early Modern Europe. 3 Hours.
The visual arts in service of kings, popes, and the people, 1300-1700.
Prerequisites: ARH 204 [Min Grade: C]

ARH 440. 19th-Century Art I: Neoclassicism, Romanticism, Realism. 3 Hours.
Painting, sculpture, and graphic arts in Europe, 1780-1860.
Prerequisites: ARH 204 [Min Grade: C]

ARH 441. 19th-Century Art II: Impressionism and Post-Impressionism. 3 Hours.
Painting, sculpture, and graphic arts in Europe, 1860-1900.
Prerequisites: ARH 204 [Min Grade: C]

ARH 450. American Art to 1900. 3 Hours.
Painting, sculpture, and architecture in the U.S., with an emphasis on 19th Century.
Prerequisites: ARH 204 [Min Grade: C]

ARH 460. Twentieth-Century Art to 1945. 3 Hours.
Painting, sculpture, and architecture in Europe and the United States, 1900-1945.
Prerequisites: ARH 204 [Min Grade: C]

ARH 461. Modern Design. 3 Hours.
History of modern design. Will examine various design disciplines, design theory, well as the relationships between design, fine art, architecture and popular culture.
Prerequisites: ARH 204 [Min Grade: C]

ARH 464. Art Since 1945. 3 Hours.
Painting, sculpture, and architecture primarily in the United States, 1945 to present.
Prerequisites: ARH 204 [Min Grade: C]

ARH 465. Aspects of Contemporary Art. 3 Hours.
Topics in contemporary art, ca. 1970 to the present. Course offerings will vary from year to year and will study a specific historical moment, medium, theme, or subject.
Prerequisites: ARH 204 [Min Grade: C]

ARH 467. Modern Architecture. 3 Hours.
History of modern architecture, covering examples from the late 18th century to the present and emphasizing the United States.
Prerequisites: ARH 204 [Min Grade: C]

ARH 468. Race and Representation. 3 Hours.
History of 20th-Century African American art in context of contemporary theories of identity and issues of diversity, and in relation to African art. Includes study of objects in the Birmingham Museum of Art. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ARH 204 [Min Grade: C]

ARH 470. Tomb Art in East Asia. 3 Hours.
What is the purpose of a tomb? How do its structure and decor convey ancient perceptions of death? Who are the occupants, and how did they envision their journey into the afterlife? This course is a survey of the funerary arts of China, Korea, and Japan. By investigating tombs, shrines, sarcophagi, wall paintings, and grave goods throughout East Asia, we will gain a deeper understanding of ancient religions, social structures, ethnic identities, and cross-cultural interactions. Lectures will be supplemented by several visits to the Museum's Asian collections.
Prerequisites: ARH 206 [Min Grade: C]

ARH 471. Topics in Asian Cinema. 3 Hours.
This course offers students an introduction to a vital aspect of contemporary Asian culture, recognizing that film can be an important focus of contemporary, cultural commentary and critique. The course presumes no prior knowledge of Asia or cinema and its artistic tradition. The goal of the course is to view and discuss, as a class, approximately ten films, emphasizing an understanding of their cultural background and an appreciation of their aesthetic merits as films and cultural settings in Asia. Attendance at weekly screenings is mandatory. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ARH 206 [Min Grade: C]

ARH 472. Buddhist & Hindu Art in India to 1200. 3 Hours.
This course explores the environments of worship and devotion particular to India's major indigenous religious traditions, from their earliest expressions in approximately the fifth century BCE through to the arrival of Islam in India, ca. 1200. We will examine aesthetic conventions, religious ideals, and urban cultures by focusing on the sculpture and architecture traditions of Hinduism, Buddhism, and Jainism.
Prerequisites: ARH 206 [Min Grade: C]

ARH 473. Japanese Prints/Printmakers. 3 Hours.
A history of Japanese block prints and printmakers from seventeenth through twentieth centuries.
Prerequisites: ARH 206 [Min Grade: C]
ARH 474. Landscape and Image in East Asia. 3 Hours.
This course surveys the major traditions of landscape art in East Asia. We will explore the ways in which places and spaces are transformed into famous places and sacred sites and consider the critical role played by visual representation in this process. Major topics include the relationship between landscape and power, cultural memory, literature, mythology, seasonality, travel, and literati culture. We will examine the functions of landscape art in various cultural, geographical, and temporal contexts of East Asia. We will look at landscape painting in China from the Tang through the Ming dynasties and consider the complex processes of cultural dissemination and adaptation by looking at the reception of Chinese landscape painting tradition in Korea and Japan.
Prerequisites: ARH 206 [Min Grade: C]

ARH 475. Japanese Art. 3 Hours.
Art and culture, Neolithic era through nineteenth century.
Prerequisites: ARH 206 [Min Grade: C]

ARH 477. Piety and Power: Art in India after 1200. 3 Hours.
This course looks at the arts of India after 1200, when Indian art and culture was increasingly influenced and altered by religious and secular powers from outside the subcontinent. We will examine Islamic art and architecture under the patronage of various Sultanate traditions, and finally the Mughals, who expressed their power and piety in monumental architecture and extensively illustrated books. We will also consider the influence of Europeans in South Asia, culminating with the colonial project of the British Raj. Ongoing negotiations between these newly-arriving groups and Indians older, indigenous traditions will be studied. Throughout the course we will dissect the categories of knowledge about South Asia and its art that were constructed primarily by the British, considering, for example, the usefulness of dividing India's art history into categories of "Hindu," "Islamic," "European," and etc.
Prerequisites: ARH 206 [Min Grade: C]

ARH 478. Buddhist Arts of East Asia. 3 Hours.
Survey of art and architecture created for Buddhist religious purposes in China, Japan, and to a lesser extent Korea and Central Asia. The course will include a brief overview of Buddhist monuments in South Asia, study of the iconography of Buddhist images in graphic and sculptural media, and analysis of a variety of Buddhist styles in painting, sculpture, and architecture.
Prerequisites: ARH 206 [Min Grade: C]

ARH 479. Study Abroad: Art & Culture of South Asia. 3 Hours.
This course allows students to become immersed in the art and culture of Asia through direct experience in the field. Focus will primarily be on South Asia but may vary with each course offering to include Nepal, Tibet, and Southeast Asia. Preliminary lectures in Birmingham and significant written assignments required.

ARH 480. Art Criticism and Theory. 3 Hours.
A topics course on subjects in art criticism and theory. The specific focus will vary by instructor and may emphasize either non-Western or Western theories, criticisms, and approaches.
Prerequisites: ARH 204 [Min Grade: C]

ARH 481. Special Topics: Early Modern Art. 3 Hours.
Special topics in the arts of the Early Modern period in the Western art tradition. Subject will vary with each offering.
Prerequisites: ARH 203 [Min Grade: C] or ARH 204 [Min Grade: C]

ARH 482. Special Topics: Modern Art. 3 Hours.
A special topics course on subjects in the Modern period in the Western tradition, beginning in the later eighteen century. Specific course topics will vary by semester.
Prerequisites: ARH 204 [Min Grade: C]

ARH 483. Special Topics: Gender and the Visual Arts. 3 Hours.
Topic will vary, depending on instructor. This course will address ways in which gender has affected the history of artistic practice and patronage. It will consider such issues as the gendering of pictorial practice and space, strategies of representing gendered subjects, and the impact of women as patrons of art and architecture.

ARH 484. Special Topics: Contemporary Art. 3 Hours.
Special topics in the arts of the Contemporary period in the Western Art tradition. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARH 485. Special Topics: Museum Studies. 3 Hours.
Museum operation; organization and preparation of exhibitions; cataloging objects in collection; experience with UAB Institute of Visual Art and Birmingham Museum of Art.
Prerequisites: ARH 204 [Min Grade: C] or ARH 206 [Min Grade: C]

ARH 486. Special Topics: South Asia. 3 Hours.
Special topics in the arts of South Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 487. Special Topics: Field Study. 3 Hours.
Trips to prominent museums and galleries in United States. Preliminary lectures in Birmingham and significant written assignments required.
Prerequisites: ARH 204 [Min Grade: C]

ARH 488. Special Topics: East Asian Art. 3 Hours.
Special topics in the arts of East Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 489. Art History Senior Capstone. 3 Hours.
This course will assess students’ knowledge of art history and assist them in applying what they have learned. Students will explore post-baccalaureate options, prepare professional materials, and hone art historical skills through a variety of activities such as conducting research, writing for different audiences, curating exhibitions, and presenting research at a symposium. Offered each fall. Should be taken at the senior level.
Prerequisites: ARH 204 [Min Grade: C] or ARH 203 [Min Grade: C] or ARH 206 [Min Grade: C]

ARH 490. Art Theory: Special Topics. 3 Hours.
Topic of art theory will vary with each offering.
Prerequisites: ARH 203 [Min Grade: D] or ARH 204 [Min Grade: D] or ARH 206 [Min Grade: D]

ARH 491. Independent Study. 3-4 Hours.
Project proposed by student and approved by Art History instructor.

ARH 492. Museum/Gallery Internship. 3 Hours.
Through active participation in the daily operations of a museum, gallery, or art space, students will acquire direct working knowledge of a cooperating art institution. Students will be required to work at the institution a minimum of 10 supervised hours per week during the term.

ARH 493. Seminar: South Asian Art. 3 Hours.
Seminar in the arts of South Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 494. Seminar: East Asian Art. 3 Hours.
Seminar in the arts of East Asia. Subject will vary with each offering.

ARH 495. Seminar: Early Modern Art. 3 Hours.
Seminar in Early Modern Art. Subject will vary with each offering.
Prerequisites: ARH 203 [Min Grade: C] or ARH 204 [Min Grade: C]
ARS 496. Seminar: Modern Art. 3 Hours.
Seminar in Modern Art. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARS 497. Seminar: Contemporary Art. 3 Hours.
Seminar in Contemporary Art. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARS 498. AEIVA Internship. 3 Hours.
The AEIVA Intern Team will participate in all phases of daily gallery operations, ranging from curatorial practices, exhibition design, video/photographic documentation and production, technical and analytical writing, graphic design, etc. This team will act as a support staff for the AEIVA curatorial/administrative staff in a hands-on museum/gallery work environment. May be repeated to a maximum of 6 semester hours.

ARS 499. Honors Thesis. 3 Hours.
For students accepted into honors program in art history. Directed study in art history, in which student works with a faculty mentor to write an extensive research paper on a topic of the student's choice. Recommended to be taken at the senior level, the semester prior to graduation. Permission of instructor required. ARH 489 recommended.

ARS-Art Studio Courses

Courses

ARS 100. Drawing Foundations. 3 Hours.
Students will investigate the fundamentals of drawing in order to learn the elements and principles of art, to improve their dexterity and visual perception, and build skill for advanced arts practice.

ARS 101. Two-Dimensional Design Foundations. 3 Hours.
The course provides students with a foundational knowledge of twodimensional creative media and an understanding of working with the elements and principles of art and design.

ARS 102. Three-Dimensional Design Foundations. 3 Hours.
The course provides foundational knowledge of three-dimensional art and design focusing on the organization of space and form using a variety of materials, processes, and tools. Students will investigate formal, functional and conceptual issues while developing effective material choices, construction methods, and a safe studio working practice.

ARS 103. Digital Imaging & Design Foundations. 3 Hours.
An introduction to the digital means of image capture, creation, manipulation, imaging software (such as Adobe Photoshop, Illustrator, InDesign), and research. Theme-driven projects explore type and image, collage, identity, story-telling, transformation, historical precedence, best practices and file management.

ARS 104. Four-Dimensional Design Foundations. 3 Hours.
This course introduces the fundamental principles of four-dimensional art and design through a survey of concepts, techniques, and technological practices. Basic concepts of art and design will be taught with the use of computers, video and sound equipment. In focusing on the relations between space, time and motion the 4D course extends and supplements the other Foundations courses and prepares students to continue their work with art and design.

ARS 110. Visual Literacy & Application Foundations. 3 Hours.
Students will learn to interpret visual images through closely engaging with the act of looking and making. Instruction will focus on the principles and elements of art and design and examines the work and studio practice of contemporary artists.

ARS 195. Special Topics in Studio Art: Intro (non-art majors). 1-3 Hour.
Specialized introductory studio problems in Studio Art for non-art majors. Subject will vary with each offering.

ARS 200. Experiential Drawing. 3 Hours.
This course will expand students' knowledge of drawing and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice as well as collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 200 [Min Grade: C]

ARS 201. Experiential Painting. 3 Hours.
This course will expand students' knowledge of painting and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice as well as collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 201 [Min Grade: C]

ARS 220. Experiential Sculpture. 3 Hours.
This course will expand students' knowledge of sculpture and the three-dimensional creative media and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice as well as collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 230. Experiential Ceramics. 3 Hours.
This course will expand students' knowledge of ceramics and the three-dimensional creative media and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice as well as collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 230 [Min Grade: C]

ARS 240. Experiential Printmaking. 3 Hours.
This course will expand students' knowledge of printmaking and the two-dimensional creative media and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice as well as collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 240 [Min Grade: C]

ARS 250. Experiential Graphic Design. 3 Hours.
This course will expand students' knowledge of graphic design and the two-dimensional creative media and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 250 [Min Grade: C]

Specialized introductory studio problems in Studio Art for non-art majors. Subject will vary with each offering.

ARS 250. Experiential Graphic Design. 3 Hours.
This course will expand students' knowledge of graphic design and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 250. Experiential Graphic Design. 3 Hours.
This course will expand students' knowledge of graphic design and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 250. Experiential Graphic Design. 3 Hours.
This course will expand students' knowledge of graphic design and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 110 [Min Grade: C]
ARS 260. Experiential New Media. 3 Hours.
This course will introduce the discipline of new media through creative explorations, development of skills and material use. Students will engage in action research of their creative practice and collaboration experiences. Media practices including sound, animation and video capturing, as well as experimental projection techniques for the fine arts will be taught. Students will work with dedicated audio and video equipment to learn the basics of sound editing and capturing video footage. Dedicated projects such as in camera editing, montage and stop motion animation will allow students to build upon video editing skills. Historical context of media arts is given through screenings, readings and response papers. Technical workshops are given throughout the semester.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C]

ARS 270. Experiential Photography. 3 Hours.
This course will introduce the discipline of photography through creative explorations and development of basic skills and material use. Students will engage in action research of their creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 280. Creativity and Imagination. 3 Hours.
This course provides students with a practical and theoretical basis for creative and imaginative practice. Students will explore issues of creativity, imagination and innovation through sketchbook exercises, discussions, and studying the work of notable artists and innovators in historical and contemporary contexts. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARS 295. Special Topics in Studio Art: Beginning. 1-3 Hour.
Specialized beginning studio problems in Studio Art. Subject will vary with each offering.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 105 [Min Grade: C]

ARS 300. Drawing - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 301. Drawing - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 302. Drawing - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 310. Painting - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C] and ARS 102 [Min Grade: C]

ARS 311. Painting - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 312. Painting - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 320. Sculpture - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 321. Sculpture - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 322. Sculpture - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 330. Ceramics - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]
ARS 331. Ceramics - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 332. Ceramics - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 340. Printmaking - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 341. Printmaking - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 342. Printmaking - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 350. Graphic Design - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 351. Graphic Design - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 352. Graphic Design - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 360. New Media - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 361. New Media - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 362. New Media - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 370. Photography - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 371. Photography - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 372. Photography - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]
ARS 395. Special Topics in Studio Art: Intermediate. 3 Hours.
Specialize studio art problems at the intermediate level. Subject will vary with each offering.
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 105 [Min Grade: C]

ARS 400. Advanced Drawing. 3 Hours.
Advanced studies in drawing with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 300 [Min Grade: C]

ARS 410. Advanced Painting. 3 Hours.
Advanced studies in the discipline of painting with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 310 [Min Grade: C] and ARS 311 [Min Grade: C] and ARS 312 [Min Grade: C]

ARS 420. Advanced Sculpture. 3 Hours.
Advanced studies in the discipline of sculpture with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 320 [Min Grade: C] and ARS 321 [Min Grade: C] and ARS 322 [Min Grade: C]

ARS 430. Advanced Ceramic Sculpture. 3 Hours.
Advanced studies in the discipline of ceramics with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 330 [Min Grade: C] and ARS 331 [Min Grade: C] and ARS 332 [Min Grade: C]

ARS 440. Advanced Printmaking. 3 Hours.
Advanced studies in the discipline of printmaking with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 340 [Min Grade: C] and ARS 341 [Min Grade: C] or ARS 342 [Min Grade: C]

ARS 450. Advanced Graphic Design. 3 Hours.
Advanced studies in the discipline of graphic design with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 350 [Min Grade: C] and ARS 352 [Min Grade: C] and ARS 351 [Min Grade: C]

ARS 459. Graphic Design Field Internship. 3 Hours.
Work in approved graphic design office under guidance of field supervisor and Department of Art and Art History instructor.
**Prerequisites:** ARS 350 [Min Grade: C] and ARS 351 [Min Grade: C]

ARS 460. Advanced New Media. 3 Hours.
Advanced studies in the discipline of new media with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 360 [Min Grade: C] and ARS 361 [Min Grade: C] and ARS 362 [Min Grade: C]

ARS 470. Advanced Photography. 3 Hours.
Advanced studies in the discipline of photography with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
**Prerequisites:** ARS 370 [Min Grade: C] and ARS 371 [Min Grade: C] and ARS 372 [Min Grade: C]

ARS 489. Professionalism, Project Management and Entrepreneurship. 3 Hours.
This capstone professional development course will provide students with knowledge and experience in the intersection of art and business for career in the arts. Students will conduct research, write about art and prepare materials and gain valuable insight into the inner workings of a career in the arts and identify your options and learn how to survive in a continually evolving marketplace. The course aims to familiarize students with ongoing theoretical, methodological and tactical issues in volved in art making and scholarship. Offered each fall. Should be taken at the senior level.

ARS 490. Independent Study in Studio Art. 1-9 Hour.
Students plan a course of study, meeting times and expectations in cooperation with a faculty member.

ARS 491. B.F.A. Exhibition. 3 Hours.
B.F.A. students plan, prepare and present an exhibition of work during final spring semester under the direction of a faculty member of the students choosing. Course meeting times and expectations are developed with the faculty.

ARS 492. Studio or Gallery Internship. 3 Hours.
Through active participation in the daily operations of a museum, gallery, studio, or art space, students will acquire direct working knowledge of a cooperating art institution. Students will be required to work at the institution a minimum of 10 supervised hours per week during the term.

ARS 495. Special Topics-Interdisciplinary. 3 Hours.
Interdisciplinary and inter-media approaches to art making. Courses offer integrated, multidimensional approach to art-making. Topics vary each semester.
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 498. AEIVA Internship. 3 Hours.
The AEIVA Intern Team will participate in all phases of daily gallery operations, ranging from curatorial practices, exhibition design, video/photographic documentation and production, technical and analytical writing, graphic design, etc. This team will act as a support staff for the AEIVA curatorial/administrative staff in a hands-on museum/gallery work environment. May be repeated to a maximum of 6 semester hours.

AS-American Studies Courses

**Courses**

**AS 201. Studies in American Culture. 3 Hours.**
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other "texts" from art, music, industrial and technological developments, folk and popular culture. Specific topics vary with instructors; materials for study include culutral experiences and expressions of diverse groups within American society, including native Americans, African American, immigrants and women.

**AS 202. Studies in American Culture. 3 Hours.**
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other texts from art, music, industrial and technological developments, and folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society, including Native Americans, African Americans, immigrants, and women.
ASEM - Advanced Safety Engineering and Management

Courses

ASEM 461. Occupational Health & Safety Management Systems. 3 Hours.
Prerequisites: MG 302 [Min Grade: C]

ASEM 462. Hazard Identification and Risk Assessment. 3 Hours.
Criticality of proactive hazard identification and risk assessment for mitigation of serious workplace incidents. Techniques include Preliminary Hazard List (PHL), Preliminary Design Hazard Analysis (PHA), System Hazard Analysis (SHA), Subsystem Hazard Analysis (SSHA). Management’s role in establishing policies and guidelines for acceptance of residual risk.
Prerequisites: MG 302 [Min Grade: C]

ASEM 463. Incident Investigation and Root Cause Analysis. 3 Hours.
Human error and error provocative environments. System design for the “failing human.” Rasmussen’s model of Drift to Danger and Reason’s “Swiss Cheese Model.” Analysis techniques include five why, fishbone, event trees and fault tree analysis (FTA). Case studies heavily emphasized.
Prerequisites: MG 302 [Min Grade: C]

Focus on ANSI/ASSE Z10-2012 and ISO 18001.
Prerequisites: MG 302 [Min Grade: C]

AST-Astronomy Courses

AST 101. Astronomy of the Universe. 3 Hours.
Survey of the universe of matter and energy. Interpretation of observations to develop a self-consistent view of the universe, basic physical laws and structures, cosmic history and evolution. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 102. Astronomy of Stellar Systems. 3 Hours.
Mechanisms and processes of universe and interrelationships as systems, including nature of stars and galaxies: formation, interior processes, including energy generation, evolution, and galaxies as systems. Lecture and laboratory. Quantitative Literacy is a significant component of this course. Requires concurrent enrollment in AST 112 laboratory. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 103. Astronomy of the Solar System. 3 Hours.
Descriptive and interpretive approach to solar and interplanetary phenomena, comets, and cometary/meteor relationships, asteroids and planetesimals, planetary surfaces, atmospheres, and interior structures. Physical law governing the solar system and quest for understanding its history and evolution, including formation. Lecture. Requires concurrent enrollment in AST 113 laboratory. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 104. Extraterrestrial Life. 3 Hours.
Interdisciplinary treatment (astronomy, chemistry, biology, planetary science, communications, and information sciences) of the universe as habitat, cosmic chemistry of molecules and evolution, environmental requirements, origin and occurrence of life, search for evidence, intelligence, communication, and contact. Lecture and laboratory. Concurrent enrollment in AST 115 laboratory required. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 111. Astronomy of the Universe Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 101. Quantitative Literacy is a significant component of this course. Must take with AST 101 to receive credit.
Prerequisites: AST 101 [Min Grade: D](Can be taken Concurrently)

AST 112. Astronomy of Stellar Systems Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 102. Quantitative Literacy is a significant component of this course. Must take with ST 102 to receive credit.
Prerequisites: AST 102 [Min Grade: D](Can be taken Concurrently)

AST 113. Astronomy of the Solar Systems Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 103. Must take AST 103 to receive credit.
Prerequisites: AST 103 [Min Grade: D](Can be taken Concurrently)
AST 115. Extraterrestrial Life Laboratory. 1 Hour.
Laboratory experience illuminates topics presented in AST 105. Must take AST 105 to receive credit. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: AST 105 [Min Grade: C] (Can be taken Concurrently)

BMD-Biomedical Sciences

Courses

BMD 150. Introduction to the Biomedical Sciences. 1 Hour.
Introduction to career paths within the Biomedical Sciences. Topics will address student needs and interests and current trends in the Biomedical Sciences. Emphasis will be placed on developing an individualized educational plan based on a student's academic and professional interests.

BMD 201. Contemporary Issues in Biomedical Sciences. 1 Hour.
A survey of current policy topics and industry trends in biomedical sciences, health, and medicine.

BMD 202. Survey of the Biomedical Sciences Literature. 1 Hour.
Techniques for searching, retrieving, reading, and analyzing the expert information used by biomedical researchers and health professions practitioners.

BMD 300. Laboratory Techniques in Biotechnology I. 2 Hours.
Basic laboratory techniques in biotechnology utilizing a lab notebook, basic lab instruments, and making solutions. Basic molecular biology and mammalian cell culture techniques used in studying gene regulation.
Prerequisites: CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C]) and BY 123 [Min Grade: C] and (CH 114 [Min Grade: C] or CH 116 [Min Grade: C]) and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C]) and BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BMD 310. Clinical Anatomy and Histology. 4 Hours.
Exploration of the functional anatomy of the human body through gross and microscopic studies of cells, tissues, and organ systems; survey of body systems; correlations between the structures and functions of the body’s various systems; association of major embryonic developmental events with functional gross anatomy.
Prerequisites: BY 123 [Min Grade: C]

BMD 315. Clinical Physiology and Pharmacology for Health Professions I. 4 Hours.
Basic concepts of physiology and pharmacology related to human organ systems and drug categories; human physiological principles and their application to pharmacology; membrane physiology, muscle physiology, physiology of the autonomic nervous system and the cardiovascular system; application of physiologic principles to drug pharmacokinetic and pharmacodynamics models.
Prerequisites: CH 115 [Min Grade: C] and (CH 114 [Min Grade: C] or CH 116 [Min Grade: C]) and (CH 117 [Min Grade: C] or CH 118 [Min Grade: C]) and CH 119 [Min Grade: C]) and BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BMD 317. Clinical Physiology and Pharmacology for Health Professions II. 4 Hours.
Basic concepts of physiology and pharmacology related to human organ systems and drug categories; human physiological principles and their application to pharmacology; renal, respiratory, gastrointestinal and endocrine systems; application of physiological principles to drug pharmacokinetic and pharmacodynamics models.
Prerequisites: BMD 315 [Min Grade: C]

BMD 320. Survey of Cell Biology for Health Professions. 3 Hours.
Molecular and cellular biosciences from a highly-integrated systems perspective; principles of eukaryotic cell structure and function, macromolecules, gene expression, signaling, division, differentiation, energy transformation and metabolism in cells; endocytosis, intramembrane transport, protein targeting, organelle biosynthesis, protein sorting, exocytosis, cell shape, motility, and cell-to-cell interaction; signal transduction processes and cellular functions required for cell growth and programmed cell death.
Prerequisites: CH 115 [Min Grade: C] and (CH 114 [Min Grade: C] or CH 116 [Min Grade: C]) and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C]) and BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BMD 330. Clinical Microbiology for Health Professions. 3 Hours.
Clinically-based study of bacteriology, parasitology, mycology, and virology and the human host response to each; mechanisms of microbial pathogenicity and complex interactions with the host that produce symptoms of disease.
Prerequisites: BMD 320 [Min Grade: C]

BMD 380. Research Methods and Scientific Literacy for the Biomedical Sciences. 3 Hours.
Introduction to basic research methodology; review of statistical methods in health professions research. Emphasis will be given to preparing students to critically evaluate medical and scientific literature as well as web-based materials.
Prerequisites: HCM 360 [Min Grade: C] or MA 180 [Min Grade: C] or QM 214 [Min Grade: C] or BY 216 [Min Grade: C] or PUH 250 [Min Grade: C]

BMD 400. Laboratory Techniques in Biotechnology II. 2 Hours.
Laboratory techniques used in biotechnology, including cloning genes into an expression vector; transforming into E. coli; and transfection into mammalian cells for study of gene regulation and expression.
Prerequisites: BMD 300 [Min Grade: C]

BMD 410. Clinical Biochemistry for Health Professions. 3 Hours.
Current concepts of human biochemistry and molecular biology; protein structure and function, enzymes, intermediary metabolism, biosynthesis of lipids, and utilization of lipids; special emphasis on the molecular basis of inherited genetic diseases, acquired diseases, and clinically-related biochemistry.
Prerequisites: CH 235 [Min Grade: C] and (CH 234 [Min Grade: C] or CH 236 [Min Grade: C]) and CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

BMD 420. Pathophysiology for Health Professions. 4 Hours.
Problem-oriented study of general disease processes and the major subdivisions of general pathology: cellular adaptations, tissue injury and renewal, neoplasia, environmental and nutritional pathology, and pediatric disorders; cellular alterations and inflammation, genetic, immunological, nutritional and circulatory disorders; effects of infection, chemical and physical agents, blood and vascular diseases, neoplasia and aging as they apply to selected organ systems.
Prerequisites: BMD 317 [Min Grade: C]

BMD 430. Clinical Immunology for Health Professions. 3 Hours.
Basic immunology and the fundamental principles relating to the immune response in normal and disease states; antigens, antibodies, cells and structures of the immune system; process of immunity, allergies, transplantation and diseases; emphasis on the genetics, mechanisms, and regulation of the immune system in human health and disease.
Prerequisites: BMD 320 [Min Grade: C]
BMD 475. Capstone Experience in the Biomedical Sciences. 2-4 Hours.
Mentored capstone project to explore an area of student interest demonstrating curriculum integration. The capstone project should culminate in a formal scholarly work. Senior Standing required.
**Prerequisites:** BMD 315 [Min Grade: C] and BMD 317 [Min Grade: C] and BMD 320 [Min Grade: C]

BMD 490. Directed Readings in Biomedical Sciences. 1-3 Hour.
Directed readings and/or literature review under the direction of a faculty member. Approval of faculty sponsor and program director required.

BMD 495. Practicum in Biomedical Sciences. 1-6 Hour.
Course combines the practical workplace experience gained through an internship or service learning activity with a seminar component to guide reflective assessment of the total experience. Approval of faculty sponsor and program director required.

BMD 497. Directed Biomedical Sciences Research Studies. 1-6 Hour.
Students will conduct a field, laboratory, or literary study project culminating in a formal paper and/or presentation as directed by the supervising instructor. Approval of faculty sponsor and program director required.

**BME-Biomedical Engineering Courses**

**Courses**

**BME 011. Undergraduate Coop/Internship in BME. 0 Hours.**
Engineering workplace experience in preparation for the student's intended career.

**BME 210. Engineering in Biology. 3 Hours.**
Application of engineering to the study of biology on the cellular and molecular level. Engineering solutions in genomics, proteomics, and nanotechnology to investigate cellular and molecular process.
**Prerequisites:** BY 123 [Min Grade: C] and PH 222 [Min Grade: C] (Can be taken Concurrently) and BY 210 [Min Grade: C] (Can be taken Concurrently)

**BME 310. Biomaterials. 3 Hours.**
Introduction to wide range of materials used for biomedical applications. Physical, chemical and mechanical properties of biomaterials.
**Prerequisites:** MSE 280 [Min Grade: C] and BME 210 [Min Grade: C]

**BME 311. Biomaterials for Non-Majors. 3 Hours.**
Wide range of materials used for biomedical applications. Physical, chemical and mechanical properties of biomaterials.
**Prerequisites:** MSE 280 [Min Grade: C]

**BME 312. Biocomputing. 3 Hours.**
Introduction to computational techniques used in biomedical engineering.
**Prerequisites:** (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) and (EGR 265 [Min Grade: C] or MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and MA 260 [Min Grade: C] (Can be taken Concurrently)

**BME 313. Bioinstrumentation. 3 Hours.**
An introduction to instrumentation used to make biological and physiological measurements. Techniques include acquisition and analysis of bioelectric signals and several imaging modalities.
**Prerequisites:** EE 312 [Min Grade: C] and (MA 227 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C])

**BME 333. Biomechanics of Solids. 3 Hours.**
Application of mechanics of solids principles to biomedical engineering problems; stress-strain of bone, viscoelasticity and constitutive equations of tissues, mechanics of the cell, introduction to molecular mechanics.
**Prerequisites:** EGR 265 [Min Grade: C] (Can be taken Concurrently) or MA 227 [Min Grade: C] (Can be taken Concurrently) and MA 252 [Min Grade: C] (Can be taken Concurrently) and ME 215 [Min Grade: C] (Can be taken Concurrently)

**BME 340. Bioimaging. 3 Hours.**
Overview of diagnostic imaging including major imaging modalities such as X-Ray/CT, Nuclear Imaging, Ultrasound, Magnetic Resonance and in vivo molecular imaging approaches. Physical principles of image formation, image interpretation and patient safety.
**Prerequisites:** EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and BME 210 [Min Grade: C] and EE 312 [Min Grade: C] (Can be taken Concurrently)

**BME 350. Biological Transport Phenomena. 3 Hours.**
Basic mechanisms and mathematical analysis of transport processes with biological and biomedical applications. Analysis of flow, transport and reaction processes for biological fluids and biological molecules with applications towards development of artificial organs, drug delivery systems and tissue engineering products.
**Prerequisites:** EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and BME 210 [Min Grade: C] (Can be taken Concurrently) and BY 409 [Min Grade: C] (Can be taken Concurrently) and ME 215 [Min Grade: C] (Can be taken Concurrently)

**BME 401. Undergraduate Biomedical Engineering Seminar. 1 Hour.**
Undergraduate seminar.

**BME 408. Advanced Biological Transport Phenomena. 3 Hours.**
Application of fluid mechanics in blood flow in the circulatory system; cardiovascular fluid mechanics, wall shear stress and the development of atherosclerosis, viscoelastic behavior of the arteries, non-Newtonian character of blood.
**Prerequisites:** BME 350 [Min Grade: C] and (CE 220 [Min Grade: C] or BME 333 [Min Grade: C])

**BME 417. Engineering Analysis. 3 Hours.**
Solutions to engineering problems involving ordinary and partial differential equations; Laplace transform, power series, Bessel functions, Legendre polynomials, Fourier series, Fourier integral and transform, Sturm-Liouville and separation of variables.
**Prerequisites:** (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) or EGR 265 [Min Grade: C]

**BME 420. Implant-Tissue Interactions. 3 Hours.**
An overview of implant biocompatibility including tissue histology, histopathology of implant response and the regulatory process for medical devices. Emphasis placed on ethical issues related to design, development, and implementation of biomedical implants. Ethics and Civic Responsibility are significant components of this course.
**Prerequisites:** BME 310 [Min Grade: C] or BME 311 [Min Grade: C]

**BME 423. Living Systems Analysis and Biostatistics. 3 Hours.**
Basic concepts and techniques of measurement processing and analysis of data from living systems. Statistics, analysis of variance and regression analysis. Emphasis is placed on writing lab reports in a style similar to research papers. BME 423L must be taken concurrently.
**Prerequisites:** BME 312 [Min Grade: C]
BME 423L. Living Systems Analysis and Biostatistics Laboratory. 0 Hours.
Labs include blood flow data acquisition and analysis, implant biocorrosion testing, evaluation and analysis of cell proliferation, and apoptosis. The laboratory component of BME 423 and must be taken concurrently.

BME 435. Tissue Engineering. 3 Hours.
Principles underlying strategies for regenerative medicine such as stem-cell based therapy, scaffold design, proteins or genes delivery, roles of extracellular matrix, cell-materials interactions, angiogenesis, tissue transplantation, mechanical stimulus and nanotechnology.
Prerequisites: BME 310 [Min Grade: C] or BME 311 [Min Grade: C]

BME 443. Medical Image Processing. 3 Hours.
Fundamental topics of medical image processing to practical applications using conventional computer software.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] or MA 252 [Min Grade: C]) and PH 222 [Min Grade: C]

BME 450. Computational Neuroscience. 3 Hours.
This course examines the computational principles used by the nervous system. Topics include: biophysics of axon and synapse, sensory coding (with an emphasis on vision and audition), planning and decision-making, and synthesis of motor responses. There will be an emphasis on systems approach throughout. Homework includes simulations.
Prerequisites: BME 312 [Min Grade: C]

BME 454. Introduction to Pharmaceutical Engineering. 3 Hours.
This course is designed to introduce the science and biopharmaceutical principles of drug delivery to undergraduate students of Biomedical Engineering. Graduate students of BME, Pharmacology & Toxicology and Chemistry are also eligible to take it as an elective course.
Prerequisites: BME 310 [Min Grade: D] and CH 115 [Min Grade: D] and CH 116 [Min Grade: D]

BME 461. Bioelectric Phenomena. 3 Hours.
Quantitative methods in electrophysiology of neural, cardiac, and skeletal muscle systems.
Prerequisites: PH 222 [Min Grade: C] and BME 312 [Min Grade: C]

BME 471. Continuum Mechanics of Solids. 3 Hours.
Matrix and tensor mathematics, fundamentals of stress, momentum principles, Cauchy and Piola-Kirchoff stress tensors, static equilibrium, invariance, measures of strain, Lagrangian and Eulerian formulations, Green and Almansi strain, deformation gradient tensor, infinitesimal strain, constitutive equations, finite strain elasticity, strain energy methods, 2-D Elasticity, Airy Method, viscoelasticity, mechanical behavior of polymers.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (BME 333 [Min Grade: C] or CE 220 [Min Grade: C])

BME 475. Quantitative Biomechanics of Injury & Rehabilitation. 3 Hours.
Students will learn the material, mechanical, electrophysiological and energetic principles of human movement. Students will learn about the healthy nonimpaired system and compare to systems impaired by injury or disability for applications in rehabilitation.
Prerequisites: ME 215 [Min Grade: C]

BME 489. Undergraduate Research in Biomedical Engineering. 0 Hours.
Undergraduate research experiences in biomedical engineering.
Prerequisites: EGR 200 [Min Grade: C] or (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

BME 490. Special Topics in Biomedical Engineering. 3 Hours.
Special Topic in Biomedical Engineering.

BME 491. Individual Study in Biomedical Engineering. 1-6 Hour.
Individual Study in Biomedical Engineering.

BME 494. Honors Research I. 1-3 Hour.
Research experiences for undergraduates enrolled in the departmental honors program. The student should write a proposal and make a presentation based on the proposal.
Prerequisites: EGR 301 [Min Grade: C]

BME 495. Honors Research II. 1-3 Hour.
Research opportunities for undergraduate students in the Biomedical Engineering Honors Program. Research areas include cardiac electrophysiology, brain imaging, biomedical implants, and tissue engineering.
Prerequisites: BME 494 [Min Grade: C]

BME 496. Biomedical Engineering Honors Seminar. 1 Hour.
Must be enrolled in an Honors Program.

BME 498. Capstone Design I Product Development. 3 Hours.
Design and development of medical-products. Through experiential learning, students go through the early phases of engineering design innovation for medical products, starting with clinical immersion to determine a critical health-care need. Engineering students work in multi-disciplinary teams that include students from the School of Business to develop design concepts for both a client-based prototype and a commercializable version. Designs take into account client needs as well as legal, regulatory, and marketing requirements. Business ethics are also covered. Emphasis is placed on communication in both oral and written format to targeted audiences.
Prerequisites: BME 310 [Min Grade: C](Can be taken Concurrently) and BME 312 [Min Grade: C](Can be taken Concurrently) and BME 313 [Min Grade: C](Can be taken Concurrently) and BME 333 [Min Grade: C](Can be taken Concurrently)

BME 498L. Senior Design and Product Development Laboratory. 0 Hours.
Lab component for BME 498 Senior Design Product Development. Laboratory activities include break-out sessions for team discussions (Problem definition and brainstorming of solutions), training and use of computer design software (Cree, CES Edupak, ABAQUS), and machine shop training for prototype development. Must be taken concurrently with BME 498.
BUS 301. Introduction to Business. 3 Hours.  
This course will enable students to understand the breadth of business opportunities and careers as well as assist in their transition to college and the Collat School of Business through the inclusion of First Year Experience (FYE).

BUS 302. Business Foundations. 3 Hours.  
This course will enable students to understand the breadth of business opportunities and careers as well as introduce them to the Collat School of Business.

BUS 303. Business Honors Reading Seminar. 1 Hour.  
This course will facilitate development of an acceptable Business Honors Thesis/Project Proposal to be submitted to the Collat School of Business Honors Committee by exposing students to a selection of books and periodicals that are not typically assigned in other courses. Book selections will vary from semester to semester. Students will read, discuss, and write a review of each assigned work. Prereq: Acceptance into a UAB Honors Program or permission of instructor. May be repeated with permission of Honors Program Director.

BUS 305. Professional Development for Today’s Workplace. 1 Hour.  
This course prepares students for experiential learning and internship opportunities. Students will gain an understanding of networking, personal branding, career planning, strategic career search, interviewing techniques, salary negotiation, and professional etiquette in today’s global workplace.

BUS 310. Accounting and Finance for Nonbusiness Majors. 3 Hours.  
An introduction to accounting, financial reporting and the basic principles of business finance. Not open to majors in the Collat School of Business.

Prerequisites: (BUS 102 [Min Grade: C] and GPAT and GPAO 2.00) or (BUS 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 311. Creating & Delivering Customer Value. 3 Hours.  
An introduction of managerial and marketing principles used to create and deliver customer value in organizations.

Prerequisites: (GPAT and GPAO 2.00 and BUS 102 [Min Grade: C]) or (GPAU 2.00 and GPAO 2.00 and BUS 102 [Min Grade: C]) or BUS 101 [Min Grade: C]

BUS 350. Business Communications. 3 Hours.  
BUS 350 provides effective communication skills for business contexts. This course is writing intensive and emphasizes grammar, mechanics, word usage, formatting, and style appropriate for professional business messages.

Prerequisites: (EH 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EH 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EH 107 [Min Grade: C] and GPAU 2.00) or (EH 107 [Min Grade: C] and GPAU 2.00)

BUS 400. Business Honors Seminar, I. 3 Hours.  
This course will facilitate completion of an accepted Business Honors Thesis/Project Proposal. Students conduct independent research and present work in progress. Acceptance to the Collat School of Business Honors Program required.

Prerequisites: (BUS 300 [Min Grade: C] and GPAT and GPAO 2.00) or (BUS 300 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 410. Integrating Business Functions. 3 Hours.  
Course integrates various elements that impact the success of business enterprises. Not open to majors in the Collat School of Business.

Prerequisites: (GPAT and GPAO 2.00 and BUS 310 [Min Grade: C] and BUS 311 [Min Grade: C]) or (GPAU 2.00 and GPAO 2.00 and BUS 310 [Min Grade: C] and BUS 311 [Min Grade: C])

BUS 450. Strategic Management Capstone Experience. 3 Hours.  
Senior seminar integrating functional business fields of accounting, economics, finance, information systems, management, marketing, production policy and decision making. This course is writing intensive and students must demonstrate an ability to write to appropriate audiences and incorporate pertinent external sources. Strong emphasis on ethical reasoning and decision-making and relating material to contemporary business events and issues. Must be senior in last term.

BUS 495. Business Honors Seminar, II. 3 Hours.  
Study of the strategy-setting process for a business or other complex organization with emphasis on role of chief executive officer and other leaders in that process. Research, analysis, communications and presentation skills practiced.

BUS 496. Business Honors Seminar, III. 3 Hours.  
Continuation of BUS 495, overview of business ethics and emphasis on skills required to complete final work project for the Collat School of Business Honors Program. Good standing in the Collat School of Business Honors Program and second semester senior standing required.

Prerequisites: (GPAT and GPAO 2.00) or (GPAT 2.00 and GPAO 2.00)
Courses

BY 101. Topics in Contemporary Biology. 3 Hours.
Selected topics in the current understanding of biological systems, ranging from humans to ecosystems. Particular focus on scientific issues such as human diseases, genetic engineering, emerging infectious diseases, environmental causes of disease, and climate change, as well as analysis of these issues as presented in print and electronic media. NOTE: Not for biology majors or minors (with BY 102). This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

BY 102. Topics Contemporary Biology Laboratory. 1 Hour.
Experiments and demonstrations in contemporary biology with strong emphasis is placed on understanding the systems of the human body. Drawing and writing assignments will focus on the structure and function of the important systems of the human body. Quantitative Literacy is a significant component of this course.

BY 108. Human Population and the Earth’s Environment. 3 Hours.
Influence of human population on Earth’s environment. Specific attention will be paid to environmental issues such as population growth, climate change, water and energy resources, pollution, waste disposal, plant and animal extinctions, and food resources. Strong emphasis will be placed on determining solution to the variety of environmental problems facing the earth. Lecture and film. Ethics and Civic Responsibility are significant components of this course.

BY 109. Laboratory in Environmental Science. 1 Hour.
Experiments on topics essential to study of environment and which reveal complexity of solving environmental problems. Writing, Ethics and Civic Responsibility are significant components of this course.

Prerequisites: BY 108 [Min Grade: D](Can be taken Concurrently) or ENV 108 [Min Grade: D](Can be taken Concurrently)

BY 111. Extended Topics in Contemporary Biology. 3 Hours.
Selected topics in contemporary biology of interest to students with minimal background in biology. Topics presented in interactive lecture/discussion format. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences. NOTE: Only general elective credit for biology major or minor.

Prerequisites: BY 101 [Min Grade: D]

BY 112. Ext Topics Contemporary Biology Laboratory. 1 Hour.
Further examination, interpretation, and discussion of topics in BY 111. Independent and group projects. NOTE: Only general elective credit for biology major or minor.

Prerequisites: BY 111 [Min Grade: D](Can be taken Concurrently)

BY 115. Human Anatomy. 4 Hours.
Principles of vertebrate structure with emphasis on gross and microscopic human anatomy. Survey of human embryology and evolution. Lecture and laboratory.

BY 115L. Human Anatomy Laboratory. 0 Hours.
Human Anatomy Lab required with BY 115 lecture.

BY 116. Introductory Human Physiology. 4 Hours.
Integrated functions of human cells, tissues, and organ systems. NOTE: Only general elective credit for biology majors or minors. Lecture and laboratory.

Prerequisites: BY 115 [Min Grade: C] and (CH 105 [Min Grade: C] and CH 106 [Min Grade: C] or CH 115 [Min Grade: C] and CH 116 [Min Grade: C] or CH 114 [Min Grade: C] or CH 117 [Min Grade: C] and CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 116L. Introductory Human Physiology Laboratory. 0 Hours.
Human Physiology Lab required with BY 116 lecture.

BY 123. Introductory Biology I. 4 Hours.
Basic chemistry, cell structure and function, metabolism, genetics, evolution, bacteria, and protists. For major in biology and related fields. Quantitative Literacy and Writing are significant components of this course. Lecture and laboratory. Eligible for, enrolled in, or have completed MA 106, MA 107, MA 125, or MA 126. This course meets the Core Curriculum requirements for Area III: Natural Sciences.

Prerequisites: MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently) or MA 126 [Min Grade: C](Can be taken Concurrently) or MA 226 [Min Grade: C](Can be taken Concurrently) or (A02 25 and HSCG 3.50) or (A02 24 and HSCG 3.50) or (A02 25 and HSCG 2.50) or A02 26 or (S02 580 and HSCG 3.50) or (S02 560 and HSCG 3.50) or (S02 580 and HSCG 3.50) or S02 600 or MAC1 17 or MAAD 24

BY 123L. Introductory Biology I Laboratory. 0 Hours.
Introductory Biology I Lab required with BY 123 lecture.

BY 124. Introductory Biology II. 4 Hours.
The course emphasizes the transition from cell, to tissue, to organs in multicellular systems. Specific attention in the course will be paid to a survey of the various groups of plants, fungi, invertebrates and vertebrates. Strong emphasis will be placed on comparing the anatomy and physiology of the major organ systems in humans with those of other organisms. The course is designed to expand the students understanding of the process of scientific writing. Quantitative Literacy and Writing are significant components of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.

Prerequisites: BY 123 [Min Grade: C]

BY 124L. Introductory Biology II Laboratory. 0 Hours.
Introductory Biology II Lab required with BY 124 lecture.

BY 210. Genetics. 3 Hours.
Principles and mechanisms of inheritance: structure, action, and regulation of genes; molecular genetic technology and application to human health and agriculture. Preparation for advanced courses in biology.

Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 213. Phage Genomics I. 4 Hours.
Phage Genomics I is the first semester of a year-long lecture, laboratory, and web-enhanced course designed to provide an authentic research experience for undergraduate students. The course will address themes and techniques from across biology including microbiology, phage genetics, molecular biology, bioinformatics, and electron microscopy. Prqs: completed application (contact biology advisor) and permission of instructor. Freshmen and sophomores only.

BY 214. Phage Genomics II. 4 Hours.
This course is the second semester of a year-long lecture, laboratory, and web-enhanced class designed to provide an authentic research experience for undergraduate students. Students will learn the concepts and procedures for: annotating segments of a unique mycobacteriophage genome to indentify open reading frames, genes, and regulatory sequences; compare this bacteriophage genome to other sequenced bacteriophage genomes; compare and analyze amino acid sequences to reveal relationships between species; writing and presentation of scientific results. Freshmen and sophomores only.

Prerequisites: BY 213 [Min Grade: C]
BY 216. Pathophysiology. 3 Hours.
The course addresses epidemiologically relevant human pathologies resulting in disrupted homeostasis with an emphasis toward causal agents, mechanism of injury at the cellular and histological levels, pathogenic manifestations at the cellular, histologic, organ system and organismal levels, and applicable treatment strategies currently used in their medical detection, intervention and management. The course stresses modalities for human disease including genetic mutation, infection, neoplasia, immune dysfunction, preventable behaviors, endocrine alterations, and aging. The course specifically integrates the pathogenic model's impact on stress reactions, immune defenses, hematology, ventilation-respiration, cardiovascular perfusion, fluid balance, and nutrition. The course incorporates some remediation of the normal physiology and genetics required for homeostasis and introduces clinical profiling and case study learning.
Prerequisites: BY 116 [Min Grade: C] or BY 409 [Min Grade: D] or BY 124 [Min Grade: D] and (BY 261 [Min Grade: C] or BY 271 [Min Grade: C])

BY 220. CLOne: Chromatin Laboratory 1. 0-4 Hours.
Students will learn laboratory skills in molecular genetics, with a focuses on generating CRISPR guide RNAs and testing their efficiency in Drosophila cells. The students will be introduced to the scope of the project, read relevant literature, and will conclude their research experience by writing a journal-style report on their results.
Prerequisites: BY 123 [Min Grade: D]

BY 245. Fundamentals of Scientific Investigation. 3 Hours.
The course covers the basics of scientific investigation with an emphasis on understanding methods of the scientific process, experimental design, data interpretation and presentation and scientific writing. Special emphasis will be placed on the use of data management and statistical packages to address the most common types of data analysis used to investigate specific applications in biology. Quantitative Literacy is a significant component of this course. Recommend course is taken before junior year.
Prerequisites: BY 124 [Min Grade: C]

BY 255. Invertebrate Zoology. 4 Hours.
Invertebrate phyla, emphasizing evolutionary relationships, biological principles demonstrated by invertebrates, and significance of invertebrates in total ecology. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 255L. Invertebrate Zoology Laboratory. 0 Hours.
Invertebrate Zoology Lab required with BY 255 lecture.

BY 256. Vertebrate Zoology. 4 Hours.
Comparative approach to the structure, function, ecology, life history, and conservation of vertebrates. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C] and CH 115 [Min Grade: C] and (CH 116 [Min Grade: C] or CH 114 [Min Grade: C])

BY 256L. Vertebrate Zoology Laboratory. 0 Hours.
Vertebrate Zoology Lab required with BY 256 lecture.

BY 260. Botany. 4 Hours.
Development, structure, physiology, and diversity of plants, emphasizing vascular plants. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 260L. Botany Laboratory. 0 Hours.
Botany Lab required with BY 260 lecture.

BY 261. Introduction to Microbiology. 4 Hours.
Cell structure and function, microbial genetics, viruses, and epidemiology and infectious disease. NOTE: Cannot be applied toward requirements for a biology major. Lecture and laboratory.
Prerequisites: BY 116 [Min Grade: C] and BY 123 [Min Grade: C] or CH 107 [Min Grade: C] or CH 108 [Min Grade: C](Can be taken Concurrently) or CH 235 [Min Grade: C] and CH 234 [Min Grade: C] or CH 236 [Min Grade: C] or CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

BY 261L. Introduction to Microbiology Laboratory. 0 Hours.
Introduction to Microbiology Lab required with BY 261 lecture.

BY 267. Tropical Ecology. 3 Hours.
Major tropical ecotypes; ecology of terrestrial, aquatic, and marine tropical organisms. Major portion conducted at tropical field station in Caribbean. Lecture and field trips (May session, alternate years). Permission of Instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 268. Galapagos Ecology. 3 Hours.
An overview of the ecology of the Galapagos Island, with an emphasis on the ecology of terrestrial and marine organisms. Major portion of course conducted on the Galapagos Islands. Lecture & field trips. Permission of instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 271. Biology of Microorganisms. 4 Hours.
Microbiology with emphasis on molecular aspects of microbial cell structure, function, and diversity. Host defense mechanisms, infectious disease, and microbial ecology. Preparation for advanced courses in biology. Lecture and laboratory.
Prerequisites: BY 210 [Min Grade: D] and CH 117 [Min Grade: D] and (CH 118 [Min Grade: D] or CH 119 [Min Grade: D])

BY 271L. Biology of Microorganisms Laboratory. 0 Hours.
Biology of Microorganisms Lab required with BY 271 lecture.

BY 280. Biology of Aging. 3 Hours.
Current understanding of aging, measurement of aging changes, theories of aging, and aging changes in various human systems.
Prerequisites: BY 123 [Min Grade: C]

BY 311. Molecular Genetics. 3 Hours.
Prokaryotic and eukaryotic gene structure and function.
Prerequisites: BY 210 [Min Grade: D]

BY 314. Embryology. 3 Hours.
Descriptive and experimental studies of vertebrate development at the molecular, cellular and tissue levels.
Prerequisites: CH 117 [Min Grade: D] and CH 118 [Min Grade: D]

BY 327. Histology. 4 Hours.
Microscopic anatomy of cells, tissues, and organs of animals; correlation of structure and function. Techniques and methodology. Lecture and laboratory.
Prerequisites: BY 115 [Min Grade: D] or BY 124 [Min Grade: D]

BY 327L. Histology Laboratory. 0 Hours.
Histology Lab required with BY 327 lecture.
BY 330. Cell Biology. 3 Hours.
Biological molecules and metabolic processes; energetics; synthesis and regulation of macromolecules; differential gene expression; membranes and organelles; cytoskeleton; cell cycle and growth of normal and neoplastic cells.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and CH 235 [Min Grade: C](Can be taken Concurrently) and CH 234 [Min Grade: C](Can be taken Concurrently) or BY 271 [Min Grade: C] and CH 236 [Min Grade: C](Can be taken Concurrently)

BY 362. Neurobiology. 3 Hours.
This course teaches the biological basis of nervous system function, i.e., how the central nervous system is organized, and how neurons, synapses and neuronal circuits function in order to produce behavior. The course also provides the student with basic concepts in mammalian neuroendocrinology and age-related changes in nervous system structure and function.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 394. Biology Laboratory Teaching. 1-3 Hour.
Student will assist in instruction of a biology laboratory. Student is required to attend scheduled preparatory sessions each week, assist in teach assigned laboratory section, help develop student assignments such as examinations and/or practicals and assist the laboratory coordinator in other capacities as assigned. Students work under the direction of the course instructor and/or the laboratory coordinator. Student must have completed the course in which the student is assisting with a grade of B or higher. Permission of the instructor is required. May be repeated for credit to a maximum of three semester hours.

BY 395. Special Topics in Biology. 1-4 Hour.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 397. Advanced Directed Readings. 1-3 Hour.
Reading and independent study in selected areas under supervision of faculty sponsor. May be repeated for total of three semester hours credit.
12 semester hours of BY with BY GPA of 3.0 and permission of instructor required.

BY 398. Undergraduate Research. 1-3 Hour.
Research project under supervision of faculty sponsor. May be repeated for a total of 3 semester hours credit.
12 semester hours of BY with GPA of 3.0 and permission of instructor required.

BY 405. Microbial Physiology. 3 Hours.
Microbial structure and function, growth, metabolism, and regulation of cellular activity.
Prerequisites: BY 271 [Min Grade: D] and CH 235 [Min Grade: D] and (CH 236 [Min Grade: D] or CH 234 [Min Grade: D])

BY 407. Microbial Ecology. 3 Hours.
Microorganisms in nature; interactions with each other and with environment.
Prerequisites: BY 271 [Min Grade: D]

BY 409. Principles of Human Physiology. 4 Hours.
The lecture and laboratory course uses humans as a model system to investigate physiological processes occurring at cell, tissue, organ, and system levels. Additionally the use of experimental examples and laboratory experiments and the interpretation of data will be used to understand all aspects of productivity. The class is designed to improve scientific writing skills related to research experiment. Writing and Quantitative Literacy are significant components of this course. Foundation in anatomy recommended (BY 115 or BY 256).
Prerequisites: BY 210 [Min Grade: D] and CH 237 [Min Grade: D] and CH 238 [Min Grade: D] or CH 239 [Min Grade: D]

BY 409L. Principles of Human Physiology Laboratory. 0 Hours.
Human Physiology Lab required with BY 408 and BY 409 lecture.

BY 410. Comparative Animal Physiology. 3 Hours.
Comparative examples to illustrate general principles of physiology; study of how animals function in their environment.
Prerequisites: BY 256 [Min Grade: D]

BY 411. Advanced Human Anatomy. 4 Hours.
This course is a detailed, advanced examination of gross human anatomy and histology. In a laboratory setting, students achieve course objectives by dissecting a human cadaver, and by observing projected cadavers and casted models.
Prerequisites: BY 115 [Min Grade: C] or BY 124 [Min Grade: C] or BY 409 [Min Grade: C]

BY 416. Cellular Physiology. 3 Hours.
Biochemical and thermodynamic aspects of cellular energy metabolism. Foundation in physiology recommended (BY 124, BY 116, BY 409 or BY 410).
Prerequisites: BY 330 [Min Grade: D] and CH 237 [Min Grade: D] and (Can be taken Concurrently) and CH 238 [Min Grade: D](Can be taken Concurrently) or CH 239 [Min Grade: D]

BY 419. Reproductive Physiology. 3 Hours.
Comparative reproductive physiology in mammals, with emphasis on humans.
Prerequisites: BY 256 [Min Grade: D] and CH 235 [Min Grade: D] and (CH 236 [Min Grade: D] or CH 234 [Min Grade: D])

BY 420. General Endocrinology. 3 Hours.
The central theme of this course is the role of hormone chemical messengers in the regulation of physiological processes. Topics include structure of endocrine cells and glands, hormone synthesis and chemistry, physiological effects of hormones, and mechanisms of hormone action. Emphasis is placed on vertebrate systems, but instructive invertebrate systems are also considered.
Prerequisites: BY 256 [Min Grade: D]

BY 426. Evolutionary Medicine. 3 Hours.
An evolutionary approach to issues relating to human health and disease.
Prerequisites: BY 116 [Min Grade: C] or BY 409 [Min Grade: C] and BY 330 [Min Grade: C]

BY 429. Evolution. 3 Hours.
The course includes the history of evolutionary thought and modern evolutionary theory. Discussions cover (but are not limited to) the history of life, mechanisms of evolutionary change, sexual selection, adaptation, speciation, and molecular evolution. Students will also be introduced to historical and contemporary studies of evolution on a wide variety of topics and organisms.
Prerequisites: BY 210 [Min Grade: D]
BY 431. Principles of DNA Technology. 3 Hours.
Manipulation of genes and their regulation; techniques used in recombinant DNA technology. Lecture.
Prerequisites: BY 210 [Min Grade: D] and BY 311 [Min Grade: D]

BY 432. Biological Information Resources. 3 Hours.
The National Center for Biological Information (NCBI) website is a treasure house of information and tools for researchers in all areas of modern Biology. The goal of this course is to provide guidance for students who wish to become familiar with the NCBI website through an online learning experience. They will learn many of the features available at this site and will gain experience using some of the tools. The course will be taught completely online and will consist of 1) Guidelines for navigating through NCBI, 2) Study guide questions for students to answer online, 3) NCBI tutorials with questions to be answered online, 4) Assignments with questions to be answered online, 5) Online exams.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 433. Advanced Molecular Genetics. 3 Hours.
Molecular genetics of eukaryotic organisms, including analysis of the features and nature of eukaryotic genomes, genes, nucleosomes, and chromosomes; processes involved, such as transcription, splicing, transposition, and signal transduction. The role of molecular biology in cell growth and cancer. Lecture.
Prerequisites: BY 311 [Min Grade: D]

BY 434. Functional Genomics and Systems Biology. 3 Hours.
Systems biology is an inter-disciplinary study underlying complex biological processes as integrated systems of many interacting components. This course will give students a foundation in understanding complex biological interactions at the molecular, network and genomic level. This course will cover state-of-the-art high throughput established and novel approaches used in genome sequencing, transcriptomics, proteomics and metabolomics to obtain, integrate and analyze complex data. The students will also get familiar with knowledge on experimental perturbation of genomes, gene regulatory networks, comparative genomics and evolution, basic bioinformatics. This course will be a combination of text based lectures and discussions of the current literature relevant to Functional Genomics and Systems Biology.
Prerequisites: BY 210 [Min Grade: C]

BY 435. Natural History of Vertebrates. 4 Hours.
Lecture and field study of adaptations of vertebrate classes for survival in particular environments. Survey and classification of local vertebrates. Lecture and laboratory.
Prerequisites: BY 256 [Min Grade: C]

BY 435L. Natural History of Vertebrates Laboratory. 0 Hours.
Natural History of the Vertebrates Lab required with BY 435 lecture.

BY 437. Epigenetics. 3 Hours.
This course provides a survey of the field of epigenetics, introducing the student to the diverse areas of epigenetic research in a variety of eukaryotic systems. The course combines lectures with discussion of primary literature and research talks from invited faculty speakers working in epigenetics. In addition to providing an overview of the field of epigenetics, this course emphasizes working with primary scientific literature and the development of critical reading skills. Recommended that Molecular Genetics be completed prior to enrollment.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 440. Immunology. 3 Hours.
Immune system and functions of host humoral and cellular immune responses. Mechanisms of antigen and antibody reactions and basic immunological methods.
Prerequisites: BY 271 [Min Grade: C] and BY 330 [Min Grade: C]

BY 442. Experimental Phycology. 4 Hours.
The course uses Algae as a model system to investigate various experimental approaches to assessing productivity with specific emphasis placed on classification, respiration, photosynthesis, growth and nutrient limitation. Additionally the use of experimental examples and laboratory experiments and the interpretation of data will be used to understand all aspects of productivity. Designed to improve scientific writing skills related to research experiments. Writing and Quantitative Literacy are significant components of this course.
Prerequisites: BY 124 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 442L. Experimental Phycology Laboratory. 0 Hours.
Experimental Phycology Lab required with BY 442 lecture.
Prerequisites: BY 124 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 448. Psychoneuroimmunology. 3 Hours.
How neuroendocrine and immune systems communicate with each other. Regulatory processes mediated by interactions between these systems and application to diseases.
Prerequisites: BY 440 [Min Grade: D]

BY 450. Plant Physiology. 4 Hours.
Metabolic activities and growth processes of plants, with emphasis on photosynthesis, respiration, germination, dormancy, and hormones; physiological phenomena associated with phases of development. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: D] and CH 235 [Min Grade: D] and (CH 236 [Min Grade: D] or CH 234 [Min Grade: D])

BY 450L. Plant Physiology Laboratory. 0 Hours.
Plant Physiology Lab required with BY 450 lecture.

BY 451. Plant Biology. 3 Hours.
This course introduces the student to the basic concepts of plant biology including plant diversity, structure, physiology, metabolism, reproduction, genetics, molecular biology, evolution and ecology. It is targeted to Biology Majors and Biology Graduate Students. This class brings together knowledge and methodologies from a number of different disciplines to provide students with an intensive and comprehensive plant curriculum from the molecular to the organismal level.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 452. Field Botany. 4 Hours.
Plant identification and classification; consideration of phylogenetic systems. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: D]

BY 452L. Field Botany Laboratory. 0 Hours.
Field Botany Lab required with BY 452 lecture.

BY 453. Mycology. 4 Hours.
Fungi, including morphology, development, physiology, taxonomy, and phylogeny. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: D] or BY 271 [Min Grade: D] and CH 235 [Min Grade: D] and (CH 236 [Min Grade: D] or CH 234 [Min Grade: D])

BY 453L. Mycology Laboratory. 0 Hours.
Mycology Lab required with BY 453 lecture.
BY 456. Comparative Vertebrate Anatomy. 4 Hours.
Study of the anatomical systems of vertebrates in an evolutionary and functional context. Covers form, function, development and phylogeny of vertebrates, with overviews of organ systems, and the major adaptive events of vertebrate evolution. Labs complement lectures with dissections of representative species, and surveys of specializations in other forms. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 456L. Comparative Vertebrate Anatomy Lab. 0 Hours.
Comparative Vertebrate Anatomy Lab required with BY 456 lecture.
Prerequisites: BY 124 [Min Grade: C]

BY 460. Advanced Invertebrate Zoology. 3 Hours.
This course takes an in-depth look at aspects of the biology of the Echinodermata and Crustacea. The course format includes lectures, guest lectures, and student critiques of papers from the scientific literature. There is a field trip to Blunt Springs to search for echinoderm fossils. Lecture and student projects.
Prerequisites: BY 255 [Min Grade: D]

BY 465. Limnology. 4 Hours.
Chemical and physical principles of lakes and streams; biology of freshwater and estuarine organisms. Lecture and laboratory.
Prerequisites: BY 255 [Min Grade: D] or BY 256 [Min Grade: D] or BY 260 [Min Grade: D]

BY 465L. Limnology Laboratory. 0 Hours.
Limnology Lab required with BY 465 lecture.

BY 467. Population Ecology. 3 Hours.
The course covers the structure and dynamics of populations with an emphasis on understanding how reproduction, mortality and dispersal interact to control fluctuations in population size and structure. Special emphasis will be placed on the use of computer models and interpretation of data to address specific applications in conservation biology and natural resource management. Quantitative Literacy is a significant component of this course.
Prerequisites: BY 124 [Min Grade: C]

BY 469. Molecular Ecology and Phylogenetics. 3 Hours.
Course will survey processes and patterns of molecular evolution and methods of phylogenetic analysis using DNA sequences, amino acid sequences, and molecular markers.
Prerequisites: BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 470. Ecology. 3 Hours.
Ecosystems and population biology. Lecture.
Prerequisites: BY 255 [Min Grade: D] or BY 256 [Min Grade: D] or BY 260 [Min Grade: D] or BY 271 [Min Grade: D]

BY 471. Ecology Laboratory. 1 Hour.
Laboratory in ecosystems and population biology. May be taken concurrently with BY 470.
Prerequisites: BY 470 [Min Grade: D] (Can be taken Concurrently)

BY 474. Chemical Ecology. 3 Hours.
Study of chemical interactions between organisms or between organisms and their environment. Topics include chemical signaling between organisms, sensing of the chemical environment, and chemical defenses against predators, pathogens, biofoulers, or competitors. Students will be introduced to these topics in a wide variety of terrestrial and aquatic habitats, with a special emphasis on marine organisms.
Prerequisites: BY 124 [Min Grade: C] and CH 235 [Min Grade: C]

BY 475. Comparative Developmental Biology. 3 Hours.
Mechanisms of development with emphasis on comparative biology.
Prerequisites: BY 210 [Min Grade: D]

BY 480. Emergency Medicine Internship. 3 Hours.
This semester-long internship is designed to provide undergraduate students with an authentic hands-on medical research experience. The course will allow students the opportunity to assist faculty members and residents of the UAB Department of Emergency Medicine in their clinical research studies. Specifically, students will be involved in patient recruitment for the study, determine patient eligibility, reading information about the studies to patients, and collecting data regarding patient history. Students will also have the methodology associated with clinical research. Junior or senior standing, minimum GPA of 3.5, completed application and acceptance into the internship program required.

BY 485. Special Topics in Biology. 0-4 Hours.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 490. Bio Capstone: Human Physiology. 4 Hours.
Physiological processes occurring at cell, tissue, organ, and system levels in mammals with emphasis on humans. Students that enroll in this capstone experience will be expected to do additional work to fulfill their biology capstone requirement. Lecture and Laboratory. Foundation in anatomy recommended (Human Anatomy or Vertebrate Zoology).
Prerequisites: BY 210 [Min Grade: D] and CH 237 [Min Grade: D] and (CH 238 [Min Grade: D] or CH 239 [Min Grade: D])

BY 491. Biology Capstone - Evolution. 4 Hours.
The course introduces the history of evolutionary thought and modern evolutionary theory. Discussions cover (but are not limited to) the history of life, mechanisms of evolutionary change, sexual selection, adaptation, speciation, and molecular evolution. Students will be introduced to historical and contemporary studies of evolution on a wide variety of topics and organisms. Students that enroll in this class as their capstone experience are expected to do writing and ethics assignments to fulfill their capstone requirement.

BY 492. Biology Capstone - Undergraduate Research. 4 Hours.
Research project under supervision of faculty sponsor. Student must enroll for 4 credit hours and must have senior standing. Students who enroll in this course as their capstone experience will be required to do additional work to fulfill their biology capstone requirement.

BY 493. Biology Capstone - Honors Research. 4 Hours.
Research project under supervision of faculty sponsor. You must enroll in 4 credit hours and you must have senior standing. Students that identify this course as their capstone experience will be required to do additional work to fulfill their biology capstone requirement.

BY 495. Special Topics in Biology. 0-4 Hours.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]
BY 496. Fundamentals of Clinical Research. 3 Hours.
Issues relevant to the conduct of clinical research: ethics, hypothesis testing, study design, and data collection and management. Lecture and clinical interaction with patients. Prerequisites: Junior or Senior level biology majors; 15 hours of biology credit with a 3.5 GPA in biology courses, and permission of instructor.

BY 498. Honors Research. 1-6 Hour.
Research project for students admitted to Honors Research Program. Two or three terms required during which minimum of 6 semester hours must be earned. Grade assigned at completion of program. 18 hours of biology with minimum GPA of 3.5 in biology classes and admission to Honors Research Program required.

BY 499. Biology Seminar. 1 Hour.
Student presentations and discussions. Subject matter varies by term. See current class schedule for topic. Senior standing and permission of instructor required.

CAS-College of Arts & Sciences Courses

Courses

CAS 101. Success in Biology and Natural Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the biology in context of the university. It is meant to help prepare students for a successful collegiate career in the study of biology and natural sciences.

CAS 102. Success in Chemistry and Natural Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the Chemistry in context of the university. It is meant to help prepare students for a successful collegiate career in the study of chemistry and natural sciences.

CAS 103. Success in the Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of science.

CAS 104. Success in Soc/ Behavioral Sci. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the social and behavioral sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of social and behavioral sciences.

CAS 105. Success in Psychology and Social Sciences. 2 Hours.
The objective of this course is to introduce freshmen to an education in psychology and the social sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of psychology and social sciences.

CAS 106. Success in the Humanities. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the humanities in context of the university. It is meant to help prepare students for a successful collegiate career in the study of the humanities.

CAS 107. Success in Music. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in music in context of the university. It is meant to help prepare students for a successful collegiate career in the study of music.

CAS 108. Success in Communication. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in communication in context of the university. It is meant to help prepare students for a successful collegiate career in the study of communication.

CAS 109. Success in World Cultures and Foreign Languages. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in foreign languages and world cultures in context of the university. It is meant to help prepare students for a successful collegiate career in the study of world cultures and foreign languages.

CAS 110. Success in Art. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in art in context of the university. It is meant to help prepare students for a successful collegiate career in the study of art.

CAS 111. Success in Theatre. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in theatre in context of the university. It is meant to help prepare students for a successful collegiate career in the study of theatre.

CAS 112. Success in College. 1 Hour.
The objective of this course is to introduce incoming freshmen to a successful path in college. It is meant to help prepare students for a successful collegiate career in any field of study.

CAS 399. Perceptions:Poverty in Amer/SL. 3 Hours.
This service-learning course engages students in critical analysis of perceptions and policies about poverty in the United States while providing essential tax preparation and services to members of our local community. Academic coursework will focus on perceptions and misperceptions of those in poverty, race and poverty, socioeconomic issues faced by low-income families, federal and state policies toward working families, predatory lending practices that erode wealth, and strategies to address poverty in the United States.

CAS 400. General Studies Career Readiness Capstone Project. 1 Hour.
This capstone experience course is designed for students who opted for an interdisciplinary major to develop a portfolio and reflect on their academic accomplishments, interdisciplinary intellectual interests, and the skills they have acquired in light of their specific career goals.

CAS 401. General Studies Independent Studies. 2 Hours.
Course designed for students who opted for an interdisciplinary major to explore an interdisciplinary topic and develop an integrative research portfolio.

CAS 402. General Studies Interdisciplinary Independent Readings. 3-6 Hours.
This individualized course of directed readings focuses on a rigorous in-depth exploration of an interdisciplinary research topic and the development of a comprehensive research project for program director and instructor are required.

CAS 405. General Studies Professional Internship. 3 Hours.
Experiential learning course designed for students who opted for an interdisciplinary major, allowing them to gain valuable professional experience and develop a reflective professional activity portfolio related to an interdisciplinary academic trajectory. The experience will be relevant to the student’s academic and career plans.

CDS-Clinical & Diagnostic Sciences
Courses

CDS 300. Microbiology for the Health Professions. 3 Hours.
A course in which the basic, and some advanced, concepts of microbiology are presented as they relate to health sciences and medicine. The course consists of nine units, each of which contains multiple lessons. The units cover the scope of microbiology, a survey of microorganisms, the study of microorganisms, microbial physiology, the control of microbial growth, microbial genetics, immunity, microbial pathogenesis, and microbial processes.

CDS 301. Microbiology Laboratory for Health Professions. 1 Hour.
Students will learn to practice laboratory safety, correctly operate a compound light microscope, prepare and interpret the results of various stains, cultivate, isolate and identify pathogenic microorganisms, and perform and interpret simple serologic assays.

CDS 400. Fundamentals of Phlebotomy and Body Fluid Collection. 1 Hour.
An in depth course in phlebotomy covering aspects of safety procedures, hygiene, capillary puncture, venipuncture, arterial access and maintenance, intravenous access and maintenance, drug administration via IV, intramuscular and subcutaneous methods and non-blood collections of bodily fluids.

CDS 405. Survival Spanish for Health Professionals. 1 Hour.
Study of the essentials of 12-lead EKG interpretation including discussion of various lead systems. Identification of typical cardiac rhythms and discussion of abnormal anatomy and physiology consistent common cardiac arrhythmias.

CDS 410. Introduction to Electrocardiography. 1 Hour.
Study of the essentials of 12-lead EKG interpretation including discussion of various lead systems. Identification of typical cardiac rhythms and discussion of abnormal anatomy and physiology consistent common cardiac arrhythmias.

CDS 420. Competencies in Genetics for Health Professions. 2 Hours.
Overview of core competencies in genetics; develops knowledge, skills, and attitudes needed to provide effective and comprehensive health services to individuals and families.

CDS 425. First Aid and Healthcare Provider CPR and AED Course. 1 Hour.
The goal of this course is to provide the student with the knowledge and skills needed to perform basic first aid and CPR procedures for adult, child and infant victims according to the American Heart Association (AHA) Standards.

CDS 430. Advanced Cardiac Life Support. 1 Hour.
Provides students with the knowledge and skills needed to perform Advanced Cardiac Life Support (ACLS) according to the American Heart Association (AHA) standards.

CDS 440. Physics in Bio-Medical Sciences. 3 Hours.
Qualitative and quantitative applied physical concepts pertaining to medical applications. Selected physical concepts used in biology, human anatomy, physiology, and medical diagnosis and treatment.

CDS 444. Social and Behavioral Science for the Health Professions. 3 Hours.
Health and behavior are influenced by multiple psychological, behavioral, social, and cultural factors. An understanding of these factors is essential to addressing health problems and eliminating health disparities and inequalities. This course will provide an overview of biopsychosocial factors that influence health status and outcomes. Community engagement and service learning is an essential component of this course.

CDS 450. Introduction to Medical History Taking and Physical Examination. 3 Hours.
Introduction to the proper way to elicit a comprehensive medical history, perform a physical examination, and report the findings in a systematic and concise format.

CE-Civil Engineering Courses

Courses

CE 011. UG Coop/Internship in CE. 0 Hours.
Engineering workplace experience in preparation for the student's intended career.

CE 200. Engineering Geology. 2 Hours.
The Course covers the fundamentals and advanced topics of plate tectonics, mineral formation, sedimentary / igneous / metamorphic rocks, structural deformations, weathering and erosion, groundwater migration, and slope stability.

CE 210. Statics. 3 Hours.

CE 211. Dynamics. 3 Hours.

CE 220. Mechanics of Solids. 3 Hours.

CE 222. Mechanics of Solids Laboratory. 1 Hour.
Standard tensile, torsion, bending, and column tests. Strain gage installation and applications. Measurement of forces, displacements, strains, and other variables. Writing is a significant component of this course.

CE 221. Mechanics of Solids Laboratory. 1 Hour.
Standard tensile, torsion, bending, and column tests. Strain gage installation and applications. Measurement of forces, displacements, strains, and other variables. Writing is a significant component of this course.

CE 222. Civil Engineering Materials Laboratory. 1 Hour.
Materials testing laboratory evaluating properties of materials of construction such as cement, aggregates, concrete, asphalt, and masonry. Design of Portland cement concrete mixes. Writing is a significant component of this course.

CE 223. Engineering Geology Laboratory. 1 Hour.
The course will provide an overview of biopsychosocial factors that influence health status and outcomes. Community engagement and service learning is an essential component of this course.
CE 230. Plane Surveying. 3 Hours.
Care and use of surveying instruments, surveying methods, error theory, traversing, stadia, mapping techniques, circular and parabolic curves, areas, and volumes. CE 230L must be taken concurrently.
Prerequisites: MA 125 [Min Grade: C]

CE 230L. Plane Surveying Laboratory. 0 Hours.
To provide the student with an understanding of the principles of land measurement, the instruments and techniques used in surveying, theory of errors and mathematical precision in engineering analysis and design. To provide an introduction to route surveying, and the principles of horizontal and vertical curves. Companion to CE 230 and must be taken concurrently.

CE 236. Environmental Engineering. 3 Hours.
Air/water pollution and solid waste. Quality of environment. Environmental health. Regulations and legal considerations. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently) and CH 117 [Min Grade: C]

CE 236L. Environmental Engineering Laboratory. 0 Hours.
Laboratory equipment and methods. Chemical, and physical tests to determine characteristics of water and wastewater. Companion lab to CE 236 and must be taken concurrently.

CE 332. Soil Engineering. 4 Hours.
Soil identification and properties, stress concepts, permeability settlement analysis, soil compaction, bearing capacity, shear strength of soil, and slope stability. CE 332L must be taken concurrently.
Prerequisites: CE 200 [Min Grade: D] and CE 220 [Min Grade: D]

CE 332L. Soil Engineering Laboratory. 0 Hours.
Soil classification, strength tests, permeability and consolidation tests. Companion to CE 332 and must be taken concurrently.

CE 337. Hydraulics. 3 Hours.
Fundamentals of hydraulics including properties of water; hydrostatic forces and pressures; flow, head losses, and related phenomena in pipes; river hydrograph routing; statistical hydrology; flow in open channels; culvert design; applied hydraulic modeling. Must have a grade of C or better to complete the course.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

CE 344. Civil Engineering Analysis I. 3 Hours.
Inspection and treatment of data using exploratory data analysis. Introduction to probability. Basic data analysis using comparisons and regression, hypothesis testing, and analysis of variance. Quality control and reliability analyses. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

CE 345. Transportation Engineering. 3 Hours.
Function, influence, characteristics and operation of transportation systems and facilities, focusing primarily on highway systems. Geometric design, operations, and transportation planning are covered.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C]

CE 360. Structural Analysis. 3 Hours.
Reactions, shears, moments, and axial forces in determinate and indeterminate structures. Influence lines; moment area and energy methods of computing deflections; methods of truss and frame analysis. Computer applications. Must have a grade of C or better to complete the course.
Prerequisites: CE 220 [Min Grade: D]

CE 395. Engineering Economics. 3 Hours.
Fundamental concepts of engineering economy. Introduction to cost and revenue estimating and cash flow analysis for engineering projects. Choosing between alternatives taking into account the time value of money, depreciation, inflation, income taxes and risk factors.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

CE 410. FE Review for Civil Engineers. 1 Hour.
Review concepts of the engineering core and civil engineering in preparation for the Fundamentals of Engineering (FE) exam.

CE 415. Building Information Modeling (BIM). 3 Hours.
This class will be an introduction to the virtual world of design and construction. Topics covered will include uses for technology, what is BIM, and will have a focus on AutoCAD and Revit Software. An emphasis will be placed on the use of these tools and their practical applications to the real world environment. Students will be provided with the software through the Autodesk Student community and will be required to complete a Multi-Step term Project.
Prerequisites: ME 102 [Min Grade: D]

CE 420. Advanced Mechanics. 3 Hours.
Variation of stress at point including determination of principal and maximum shear stresses. Basic problems involving symmetrical deformation; thickwall cylinders and spheres. Torsions of noncircular sections. Curved beams. Failure Theories. Unsymmetrical bending and shear center.
Prerequisites: CE 220 [Min Grade: D]

CE 426. Foundation Engineering. 3 Hours.
Application of principles of soil mechanics to: determine bearing capacity and settlement of spread footings, mats, single piles and pile groups; site investigation, evaluate data from field and tests; estimation of stresses in soil masses; lateral resistance of piles and pile group; retaining walls, sheetpiles, and coffer-dams.
Prerequisites: CE 332 [Min Grade: D]

CE 430. Water Supply/Drainage Design. 3 Hours.
Water requirements; wastewater characteristics. Hydraulics and design of sewers; distribution and reuse of water. Development of water supplies; design considerations.
Prerequisites: CE 337 [Min Grade: C]

CE 431. Energy Resources. 3 Hours.
Overview of the various energy resources: oil, natural gas, coal, nuclear, hydro, solar, geothermal, biomass, wind, and ocean energy resources, in terms of supply, distribution, recovery and conversion, environmental impacts, economies, policy, and technology. Advantages and limitations of various energy resources. Concepts and opportunities for energy conservation; including electric power generation, changing role of electric utilities, transportation applications, and energy use in developing countries. Field trips.
Prerequisites: CE 236 [Min Grade: D]

CE 433. Solid and Hazardous Wastes Management. 3 Hours.
Overview of waste characterization, regulations, and management options. The course covers fundamentals of landfill design, recycling, incineration, emerging disposal technologies, federal and state laws, and hazardous waste treatment, and ultimate disposal of hazardous waste.
Prerequisites: CE 236 [Min Grade: D]

CE 434. Air Quality Modeling and Monitoring. 3 Hours.
Atmospheric pollutant effects, reactions and sources. Air dispersion modeling. Ambient monitoring.
Prerequisites: ME 251 [Min Grade: D]
CE 440. Civil Engineering Honors Research. 3 Hours.
Departmental honors students work closely with faculty researchers and graduate students in departmental concentration specialties to develop research skills. Enrollment is limited to undergraduate students enrolled in CCEE Departmental Honors Program.

CE 441. Civil Engineering Honors Seminar. 1 Hour.
Seminar focusing on student research and guest presentations of various topics of interest to civil and environmental engineering students.

CE 443. Pavement Design and Construction. 3 Hours.
Analysis of stresses and strains in pavement systems. Design and construction of flexible and rigid pavements, base courses, and subgrades. Effects of loading on pavement life.
Prerequisites: CE 345 [Min Grade: D]

CE 450. Structural Steel Design. 3 Hours.
Tension members, columns, beams, and beam columns. Simple connections. Load Resistance Factor Design (LRFD) approaches.
Prerequisites: CE 360 [Min Grade: C]

CE 453. Design of Wood Structures. 3 Hours.
Design and detailing of timber structures. Properties and specifications for dimension and glulam timber. Design of beams, columns, beam-columns, connections (nail and bolts), roof diaphragms, and shear walls. Design of timber structures to meet the requirements of the National Design Specification Standards.
Prerequisites: CE 360 [Min Grade: C]

CE 454. Design of Masonry Structures. 3 Hours.
Design and detailing of masonry structures. Nomenclature, properties, and specifications for components. Design of assemblages, simple masonry structures, unreinforced and reinforced elements, and complex masonry structures.
Prerequisites: CE 360 [Min Grade: C]

CE 455. Reinforced Concrete Design. 3 Hours.
Behavior, strength, and design of reinforced concrete structural members (beams, columns, one-way slabs, and continuous beams) subjected to moment, shear, and axial forces according to the American Concrete Institute Building Code Requirements for Structural Concrete (ACI 318). Crack control and serviceability considerations. Introduction to the design of reinforced concrete structures.
Prerequisites: CE 360 [Min Grade: C]

CE 456. Prestressed Concrete Design. 3 Hours.
Principles and concepts of design in prestressed concrete including elastic and ultimate strength analyses for flexural, shear, bond, and deflection. Principles of concordancy and linear transformation for indeterminate prestressed structures.
Prerequisites: CE 455 [Min Grade: D]

CE 460. Structural Mechanics. 3 Hours.
Elastic beam deflections, beam columns, lateral torsional buckling, column stability, plastic design, plate bending, and yield line theory.
Prerequisites: CE 360 [Min Grade: C]

CE 461. Introduction to the Finite Element Method. 3 Hours.
Prerequisites: CE 380 [Min Grade: C]

CE 462. Advanced Structural Analysis. 3 Hours.
Analysis of indeterminate structures utilizing both classical and matrix methods. Use of large-scale computer programs.
Prerequisites: CE 360 [Min Grade: C]

CE 464. Structural Dynamics. 3 Hours.
Prerequisites: CE 360 [Min Grade: C] and ME 215 [Min Grade: C]

CE 467. Wind and Seismic Loads. 3 Hours.
Methods for calculating loads on structures caused by extreme winds and earthquakes. Calculation of wind loads on various types of structures according to theory and codes. Determination of earthquake loads on structures using structural dynamics and codes.
Prerequisites: CE 360 [Min Grade: C]

CE 468. Bridge Engineering. 3 Hours.
Bridge loads, steel beam bridges, composite beam bridges, bridge bearings, reinforced and prestressed concrete slab and T-beam bridges, bridge evaluations and ratings, and upgrade methodologies; computer applications.
Prerequisites: CE 450 [Min Grade: D] and CE 455 [Min Grade: D](Can be taken Concurrently)

CE 480. Introduction to Water and Wastewater Treatment. 3 Hours.
Physical unit operations and chemical/biological unit processes for water and wastewater treatment. Design of facilities for treatment. Treatment and disposal of sludge.
Prerequisites: CE 236 [Min Grade: D]

CE 485. Engineering Hydrology. 3 Hours.
Hydrologic principles including the hydrologic cycle, precipitation data and stream-flow measurements. Applications to engineering problems: stream-flow analysis, and watershed management.
Prerequisites: CE 337 [Min Grade: C]

CE 489. Undergraduate Engineering Research. 0 Hours.
Undergraduate research experiences in civil, construction and/or environmental engineering.
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) or EGR 100 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

CE 490. Special Topics in (Area). 3 Hours.
Special Topics in (Area).

CE 491. Individual Study in (Area). 1-3 Hour.
Individual Study in (Area).

CE 497. Construction Engineering Management. 3 Hours.
Study of construction management services that include: project planning, scheduling, estimating, budgeting, contract administration, agreements and ethics. Emphasis is made on the management of manpower, materials, money and machinery.
Prerequisites: CE 395 [Min Grade: D]
CE 499. Capstone Design Project. 3 Hours.
Students work in teams to complete a capstone design project that incorporates the major aspects of civil engineering design including structural, geotechnical, environmental, transportation, and construction management components. The course also includes lecturing and assignments related to professionalism including engineering ethics, leadership, and management. Normally taken during last term before graduation. CE 498 is a companion lab and must be taken concurrently.

**Prerequisites:** CE 332 [Min Grade: D] and CE 337 [Min Grade: C] and CE 345 [Min Grade: D] and (CE 450 [Min Grade: D] or CE 455 [Min Grade: D]) and CE 430 [Min Grade: D].

CH-Chemistry Courses

**Courses**

**CH 100. Chemical Problem Solving. 3 Hours.**
Development of quantitative skills and introduction to basic chemical concepts to prepare students for CH 115. Successful completion of MA 098 or more advanced math, or placement in a more advanced math, is strongly recommended prior to taking this course.

**Prerequisites:** (A02 20 and HSCG 2.00) or (S02 480 and HSCG 2.00) or A02 21 or S02 500 or MAAD 15 or MA 098 [Min Grade: P] or MA 098 [Min Grade: C] or MA 102 [Min Grade: D].

**CH 105. Introductory Chemistry I. 3 Hours.**
Fundamental facts, principles, theory, and applications of chemistry. Qualitative in nature; for non-science majors and nursing students with no previous background in chemistry. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

**Prerequisites:** MA 098 [Min Grade: P] or MA 098 [Min Grade: C] or MA 102 [Min Grade: D].

**CH 105R. Introductory Chemistry I Recitation. 0 Hours.**
Introductory Chemistry I recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 105 Introductory Chemistry I required.

**CH 106. Introductory Chemistry I Laboratory. 1 Hour.**
Emphasizes development of lab skills and demonstration of chemical principles covered in CH 105. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 105 strongly recommended.

**CH 107. Introductory Chemistry II. 3 Hours.**
Fundamental organic and biochemistry. The second part of the chemistry sequence for non-science majors and nursing students. Covers concepts of organic chemistry and biochemistry. Emphasis on molecules involved in life processes. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

**Prerequisites:** CH 105 [Min Grade: C] or CH 115 [Min Grade: C]

**CH 107R. Introductory Chemistry II Recitation. 0 Hours.**
Introductory Chemistry II recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 107 Introductory Chemistry II required.

**CH 108. Introductory Chemistry II Laboratory. 1 Hour.**
Emphasizes development of lab skills and demonstration of phenomena covered in CH 107. Not applicable to a major or minor in chemistry. Writing assignments structured to build on scientific reasoning. Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 107 strongly recommended.

**CH 114. General Chemistry I Laboratory (Honors). 1 Hour.**
Emphasizes development of laboratory skills and quantitative analyses related to CH 115. Writing assignments structured to build on scientific reasoning. (Core Area III) Quantitative Literacy is a significant component of this course. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required. Concurrent enrollment or prior completion of CH 115 strongly recommended.

**CH 115. General Chemistry I. 3 Hours.**
Stoichiometry, quantum theory, atomic structure, chemical bonding, acids-bases, colligative properties and periodicity. Laboratory emphasizes quantitative analysis. Writing assignments structured to build on scientific reasoning. Concurrent enrollment in CH 115R General Chemistry I Recitation required. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

**Prerequisites:** MA 102 [Min Grade: B] or (MA 105 [Min Grade: C] or MA 105 [Min Grade: P]) or MA 106 [Min Grade: C].

**CH 115R. General Chemistry I Recitation. 0 Hours.**
General Chemistry I recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 115 General Chemistry I required.

**CH 116. General Chemistry I Laboratory. 1 Hour.**
Emphasizes development of laboratory skills and quantitative analyses related to CH 115. Writing assignments structured to build on scientific reasoning. Concurrent enrollment or prior completion of CH 115 General Chemistry I recommended. Quantitative Literacy is a significant component of this course.
CH 117. General Chemistry II. 3 Hours.
Solutions, chemical kinetics, chemical thermodynamics, chemical equilibrium and special topics (organic, biochemistry, descriptive chemistry) Writing assignments structured to build on scientific reasoning. Concurrent enrollment in CH 117R General Chemistry II Recitation required. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: CH 115 [Min Grade: C]

CH 117R. General Chemistry II Recitation. 0 Hours.
General Chemistry II Recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 117 General Chemistry II required.

CH 118. General Chemistry II Laboratory. 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 117. Writing assignments structured to build on scientific reasoning. Concurrent enrollment or prior completion of CH 117 General Chemistry II recommended. Quantitative Literacy is a significant component of this course.

CH 119. General Chemistry II Laboratory (Honors). 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 117. Writing assignments structured to build on scientific reasoning. (Core Area III) Quantitative Literacy is a significant component of this course. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required. Concurrent enrollment or prior completion of CH 117 strongly recommended.

CH 201. Research Methods in Chemistry. 3 Hours.
Comprehensive approach for developing research skills used in chemistry and biochemistry research laboratories. Permission of instructor required.
Prerequisites: CH 115 [Min Grade: C](Can be taken Concurrently)

CH 234. Organic Chemistry I Laboratory (Honors). 1 Hour.
Emphasis placed on development of techniques used in organic research laboratories and scientific writing. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required.
Prerequisites: CH 235 [Min Grade: C](Can be taken Concurrently)

CH 235. Organic Chemistry I. 3 Hours.
Prerequisites: CH 117 [Min Grade: C]

CH 235R. Organic Chemistry I Recitation. 0 Hours.
Organic Chemistry I recitation is used to build problem-solving skills in study-group environments. Concurrent enrollment in CH 235 Organic I required.

CH 236. Organic Chemistry I Laboratory. 1 Hour.
Techniques of organic chemistry. Synthesis, purification, and characterization of organic compounds. Concurrent enrollment or prior completion of CH 235 strongly recommended.
Prerequisites: CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

CH 237. Organic Chemistry II. 3 Hours.
Reactions of aromatic compounds and carbonyl containing functional groups: aldehydes, ketones, acids, esters and amides. Molecules of biological interest, such as proteins and carbohydrates. Concurrent enrollment in CH 237R Organic II Recitation required.
Prerequisites: CH 235 [Min Grade: C]

CH 237R. Organic Chemistry II Recitation. 0 Hours.
Organic Chemistry II recitation is used to build problem-solving skills in study-group environments. Concurrent enrollment in CH 237 Organic II required.

CH 238. Organic Chemistry II Laboratory. 1 Hour.
Synthesis, purification, and characterization of organic compounds using instrumental analysis and identification of unknowns. Concurrent enrollment or prior completion of CH 237 strongly recommended.
Prerequisites: CH 235 [Min Grade: C] and (CH 234 [Min Grade: C] or CH 236 [Min Grade: C])

CH 239. Organic Chemistry II Laboratory (Honors). 1 Hour.
Synthesis, purification and characterization of organic compounds using instrumental analysis, molecular modeling, scientific writing and oral presentation. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required.
Prerequisites: CH 237 [Min Grade: C](Can be taken Concurrently)

CH 297. Undergraduate Research Experiences. 1 Hour.
Research experience in selected areas of chemistry under supervision of faculty mentor. 3 or more labs hours per week, GPA of 2.5 in required chemistry courses, permission of faculty mentor and chemistry academic advisor required.

CH 325. Physical Chemistry I with Calculus: Thermodynamics and Chemical Kinetics. 4 Hours.
Thermodynamics, chemical equilibria, and chemical kinetics. Lecture and laboratory. Prior completion of PH 221 and CH 355 strongly recommended. Prior completion or concurrent enrollment in MA 227 strongly recommended. Concurrent enrollment in CH 325 Physical Chemistry I Lab required.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 228 [Min Grade: C]) and (PH 201 [Min Grade: C] or PH 221 [Min Grade: C])

CH 325L. Physical Chemistry I Laboratory: Thermodynamics and Chemical Kinetics. 0 Hours.
Thermodynamics and chemical kinetics laboratory required with CH 325 lecture. Concurrent enrollment in CH 325 Physical Chemistry I required.

CH 345. Inorganic Chemistry: Principles and Applications of Chemical Periodicity. 4 Hours.
Systematic coverage of descriptive chemistry. Chemical reactivity using structural and electronic parameters. Development of chemical understanding and intuition of elements and their compounds, as well as industrial and environmental applications. Lecture and laboratory. Concurrent enrollment in CH 345L Inorganic Chemistry: Principles and Applications of Chemical Periodicity Lab required.
Prerequisites: CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

CH 345L. Inorganic Chemistry Lab: Principles and Applications of Chemical Periodicity. 0 Hours.
Principles and Applications of Chemical Periodicity Laboratory required with CH 345 lecture. Concurrent enrollment in CH 345 Inorganic Chemistry: Principles and Applications of Chemical Periodicity required.
CH 355. Quantitative Analysis. 4 Hours.
Principles of analytical measurements, statistical and volumetric techniques, spectrophotometric analysis, and chromatography, with emphasis on equilibrium and applications. Lecture and laboratory. Concurrent enrollment in CH 355L Quantitative Analysis Lab required.
Prerequisites: CH 117 [Min Grade: C]

CH 355L. Quantitative Analysis Laboratory. 0 Hours.
Emphasizing quantitative analysis laboratory. Concurrent enrollment in CH 355 Quantitative Analysis required.

CH 391. Cooperative Education in Chemistry. 2-3 Hours.
Analysis of the concepts and models of chemistry with emphasis on computational skills for chemistry and science teachers. Appropriate for students seeking certification as chemistry or science teachers. Junior or senior standing and minimum GPA of 2.5 or above required. Requires permission of and evaluation by appropriate faculty advisor.

CH 416. Chemical Demonstrations I. 3 Hours.
Demonstration and analysis of safe, practical and effective experiments suitable for middle/high school students. At least 50 demonstrations will be performed. Not applicable to a major or minor in chemistry. Requires permission of instructor.

CH 417. Chemical Demonstrations II. 3 Hours.
Demonstration and analysis of safe, practical and effective experiments suitable for middle/high school students. At least 50 demonstrations will be performed. Not applicable to a major or minor in chemistry. Requires permission of instructor.

CH 426. Physical Chemistry II: Structure/Bonding and Molecular Spectroscopy. 3 Hours.
Quantum mechanics, chemical bonding, and molecular spectroscopy. Laboratory work correlated with lecture material. Prior completion of CH 325 and MA 227 strongly recommended. Formerly CH 326.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 202 [Min Grade: C] or PH 222 [Min Grade: C]) and CH 427 [Min Grade: C] (Can be taken Concurrently)

CH 427. Molecular Structure and Spectroscopy Laboratory. 1 Hour.
Laboratory with emphasis on structure/bonding in main group and transition metal compounds. Laboratory will utilize molecular orbital theory and molecular spectroscopy (including nuclear magnetic resonance (NMR), infrared(IR), ultra-violet-visible(UV-vis), and mass(ms) spectroscopy and X-ray crystallography.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 202 [Min Grade: C] or PH 222 [Min Grade: C]) and CH 237 [Min Grade: C]

CH 429. Special Topics in Physical Chemistry. 1-3 Hour.
Special Topics in selected areas of physical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 439. Special Topics in Organic Chemistry. 1-3 Hour.
Special Topics in selected areas of organic chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 440. Transition Metal Chemistry. 3 Hours.
Relationship between bonding, structure, and properties of compounds including reactions, mechanisms, and catalysis of organometallic and bioinorganic chemistry.
Prerequisites: CH 345 [Min Grade: C] and CH 427 [Min Grade: C] (Can be taken Concurrently)

CH 449. Special Topics in Inorganic Chemistry. 1-3 Hour.
Special Topics in selected areas of inorganic chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 450. Instrumental Analysis. 4 Hours.
Focus on modern analytical chemistry instrumentation including chemical separations, spectrophotometries (atomic absorption, infrared, UV-visible, fluorescence), mass spectroscopy, and thermal analysis. Concurrent enrollment in CH 450L Instrumental Analysis Laboratory is required and correlated with lecture material.
Prerequisites: CH 115 [Min Grade: C]

CH 450L. Instrumental Analysis Laboratory. 0 Hours.
Instrumental Analysis Lab. Concurrent enrollment in CH 450 Instrumental Analysis is required.

CH 451. Chemometrics. 3 Hours.
Introduction to basic data analysis techniques that include testing hypotheses, establishing tendencies and correlations, experimental design, etc. The course is designed to provide a support to a research chemist in effectively solving everyday problems associated with production and interpretation of experimental data.

CH 459. Special Topics in Analytical Chemistry. 1-3 Hour.
Special Topics in selected areas of analytical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 460. Fundamentals of Biochemistry. 3 Hours.
Overview of biochemical principles; chemistry of aqueous solutions, biochemical building blocks including amino acids, carbohydrates, lipids, and nucleotides; examination of metabolic pathways and enzymes that mediate catabolic and anabolic metabolism of carbohydrates, lipids, amino acids, and nucleic acids. Application of clinical correlations of metabolism to human nutrition and disease. This course is designed for Chemistry majors as well as students interested in medicine, dentistry, optometry, or pharmacy.
Prerequisites: CH 237 [Min Grade: C]

CH 461. Advanced Biochemistry I. 3 Hours.
Protein structure and function, enzymology, DNA structure, prokaryotic replication, transcription, and protein synthesis. Membrane structure and function, carbohydrate structure and function. Methods for isolating and characterizing macromolecule structure and function including chromatography, gel electrophoresis, CD, UV, and fluorescence spectroscopy, mass spectroscopy, X-ray crystallography and nuclear magnetic resonance spectroscopy.
Prerequisites: CH 460 [Min Grade: C]

CH 463. Biochemistry Laboratory. 3 Hours.
Introduction to modern biobanalytical techniques used for the expression, isolation, and characterization of proteins and other biological macromolecules. Space is limited. Students with the Chemistry Major with the Biochemistry Track have priority.
Prerequisites: CH 355 [Min Grade: C] and CH 460 [Min Grade: C]

CH 464. Physical Biochemistry Laboratory. 3 Hours.
Physical/analytical approaches (including mass spectroscopy and NMR) toward determination of macromolecular structures, ligand binding, and enzymology. Space is limited. Students with the Chemistry Major with the Biochemistry Track have priority. Concurrent or prior enrollment in CH 461 is recommended.
Prerequisites: CH 325 [Min Grade: C] and CH 355 [Min Grade: C] and CH 460 [Min Grade: C]

CH 469. Special Topics in Biochemistry. 1-3 Hour.
Special Topics in selected areas of biochemistry, biophysical chemistry, or structural biochemistry under supervision of faculty sponsor. Requires permission of instructor.
Prerequisites: CH 462 [Min Grade: C]
CH 471. Medicinal Chemistry and Drug Discovery. 3 Hours.
Emphasis in design and synthesis strategies for biologically active compounds directed toward common macromolecular drug targets. Selected examples of successful design for clinically used drug classes are presented.
Prerequisites: CH 237 [Min Grade: C] and CH 460 [Min Grade: C]

CH 472. Chemistry of Natural Products. 3 Hours.
The principal focus of this course will be the introduction of synthesis and medicinal chemistry of natural products. Drug discovery using natural products, with specific examples in the areas of antibacterial, anticancer, and analgesic drugs will be introduced. An overview of structural classes, biosynthetic pathways and application of asymmetric synthesis in the synthesis of specific examples from each class will be discussed. This course is intended for undergraduate students at the senior level. Prior completion of prerequisite courses with a grade of B or better strongly recommended.
Prerequisites: CH 235 [Min Grade: C] and CH 234 [Min Grade: C] or CH 236 [Min Grade: C] and CH 237 [Min Grade: C] and CH 238 [Min Grade: C] or CH 239 [Min Grade: C]

CH 477. Radiochemistry for the Life Sciences. 3 Hours.
This course is intended to act as an introduction to radiochemistry. It will cover production, instrumentation, and radiochemistry techniques to make use of radioisotopes in the life sciences from basic biological and environmental applications to medical imaging and therapy.

CH 480. Polymer Chemistry I. Basic Principles. 4 Hours.
Basic chemical principles of polymers with the focus on synthesis, characterization, and applications of synthetic and biological macromolecules. Prior completion of CH 237, CH 325, and CH 355 (and MSE 350 for MSE students) recommended.
Prerequisites: CH 117 [Min Grade: C]

CH 480L. Polymer Chemistry I Laboratory. 0 Hours.
Polymer Chemistry I Laboratory. Concurrent enrollment in CH 480 Polymer Chemistry I required.

CH 481. Polymer Chemistry II. Fundamental Properties. 4 Hours.
Fundamentals of chemical, physical and molecular properties of polymers in bulk and solution. Concurrent enrollment in CH 481L Polymer Chemistry II Laboratory required. Prior completion of CH 237, CH 325, and CH 355 (and MSE 350 for MSE students) recommended.
Prerequisites: CH 117 [Min Grade: C]

CH 481L. Polymer Chemistry II Laboratory. 0 Hours.
Polymer Chemistry II Laboratory. Concurrent enrollment in CH 481 Polymer Chemistry II required.

CH 489. Special Topics in Polymer Chemistry. 1-3 Hour.
Special topics in selected areas of polymer chemistry under supervision of faculty sponsor. Requires permission of instructor.

CH 492. Research Methods. 1-3 Hour.
This course is required in the UABTEACH program and is specially designed to meet the needs of future teachers. Students meet two hours per week for non-traditional, interactive lectures and two hours per week for lab. The course is cross-listed (Physics, Chemistry, and Biology). It provides students with the tools that scientists use to solve scientific problems; gives students the opportunity to use these tools in a laboratory setting; makes students aware of how scientists communicate with each other through peer-reviewed scientific literature; and enables students to understand how scientists develop new knowledge and insights. The course requires a substantial amount of writing.

CH 493. Chemistry in Culture & Ethics. 3 Hours.
Designed to explore the impact of chemical innovations on society; challenges students to consider ethical use of chemical innovations and broader impacts of chemistry in society. Writing assignments are structured to build on scientific reasoning. Capstone course for Chemistry majors.
Prerequisites: CH 237 [Min Grade: C]

CH 495. Ethics in Chemical Research. 1 Hour.
Designed to explore the impact of chemical innovations on society; challenges students to consider ethical use of chemical innovations and broader impacts of chemistry in society. Writing assignments are structured to build on scientific reasoning. Capstone course for Chemistry majors.
Prerequisites: CH 237 [Min Grade: C] and CH 497 [Min Grade: C] (Can be taken Concurrently)

CH 497. Undergraduate Research. 3 Hours.
Research project conducted under the supervision of a faculty mentor. Two semesters are highly recommended for minimum accumulation of 6 semester hours. A progress report is required each semester and a comprehensive written report in ACS format is required at the completion of the project. Permission of faculty mentor and chemistry academic advisor required; GPA 2.5 or greater overall; GPA 3.0 or greater in required chemistry courses.

CH 498. Chemistry Teaching Methods. 3 Hours.
This course provides chemistry majors who will be future chemistry teachers with insights into the fundamental principles of chemistry in a way that can be transported to the classroom. The course will cover all aspects of teaching, measurements of effectiveness, and outcomes. Permission of instructor required.
Prerequisites: CH 237 [Min Grade: C]

CH 499. Honors Research and Thesis. 3 Hours.
Research project conducted under the supervision of faculty mentor. Prior completion of 6 hours of CH 497, or 3 hours of CH 497 and 3 hours of STH equivalent, and admission to the Chemistry Honors Program. Requires research proposal on file with and approved by chemistry honors director. The course concludes with a written honors thesis and oral presentation and defense. Chemistry GPA 3.25 or greater; overall GPA 3.0 or greater and permission of instructor required.
Prerequisites: CH 497 [Min Grade: C]

CHHS-Community Health and Human Services Courses

Courses

CHHS 140. First Aid. 3 Hours.
Knowledge and skills needed to perform basic first aid and CPR procedures.

CHHS 141. Personal Health. 3 Hours.
Knowledge and skills that support a healthy lifestyle. Stress management, cardiovascular health, nutrition, and fitness.

CHHS 223. Introduction to Disease Prevention in Health Education/ Promotion. 3 Hours.
Disease etiology, incidence, prevalence, prevention, and control. Impact of various diseases on society.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) and (KIN 222 [Min Grade: C] or HE 222 [Min Grade: C] or HPE 200 [Min Grade: C])
CHHS 300. Ethics in Policy and Health Promotion. 3 Hours.
The candidate is introduced to professional ethics and policy implication in the helping professions. This course focuses on the knowledge, skills and values essential for ethical decision-making in responsible practice. Case studies through integrated learning will be utilized for discussion, self-exploration and skill building for problem solving of ethical issues and dilemmas.

CHHS 305. Social & Cultural Diversity. 3 Hours.
This course promotes the knowledge and skills needed to explore issues of diversity in a productive, professional and ethical manner. Topics span the discipline of public health and integrate materials, concepts, and frameworks from numerous fields in public health, health promotion, environmental health and health policy.

CHHS 342. Introduction to Health Education/Promotion. 3 Hours.
Foundations of health education and health promotion. Key concepts, definitions, models, theories, and skills.
Prerequisites: HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C] or KIN 222 [Min Grade: C] or HPE 200 [Min Grade: C]

CHHS 343. Behavioral Theory in Health Education/Promotion. 3 Hours.
Application of health education theories and methods to assist individuals and groups with planned behavior change. Basic steps of program planning and implementation. Multiple assignments to reinforce ethics and civic responsibility in the profession. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C]) and (HE 223 [Min Grade: C] or CHHS 223 [Min Grade: C]) and (HE 342 [Min Grade: C] or CHHS 342 [Min Grade: C])

CHHS 350. Introduction to Human Services. 4 Hours.
This course is an introductory course in studying the field of human services. Content will include learning about what “human services” is, the helping process, and the roles and duties of those calling themselves “human service” providers. Coverage will also include learning about a broad range of services, jobs, functions, and roles human service professionals provide in everyday life. Basic principles, concepts, and theory in the helping field will be covered.

CHHS 402. Mental Health and Stress Management. 3 Hours.
Stress process and its relationship to individual wellness and total health. Physical and psychological effects of stressors and individual appraisals using theoretical models and practical examples. How to identify and manage stress. Effective skills to reduce deleterious effects of stressful events.

CHHS 404. Global Trends in Health Education/Promotion. 3 Hours.
The goal of this course is to introduce students to the many and varied health education priorities around the world. New and ongoing health issues will be discussed. The contributions of health educators, both actual and potential, will be explored. Additionally, the course will look at how health educators can effectively work with other health professionals to reduce the risk of health threats on the personal, community, national and international levels.

CHHS 408. Drug Abuse Prevention and Education. 3 Hours.
Concept, manifestation, and causes of addiction. Major drug classifications and their effects. Potential of drug education as preventative mechanism.

CHHS 415. Case Management in Human Services. 3 Hours.
This course is an introductory course in studying the field of human services. Content will include learning about what “human services” is, the helping process, and the roles and duties of those calling themselves “human service” providers. Coverage will also include learning about a broad range of services, jobs, functions, and roles human service professionals provide in everyday life. Basic principles, concepts, and theory in the helping field will be covered.
Prerequisites: EPR 350 [Min Grade: C] or CHHS 350 [Min Grade: C]

CHHS 420. Helping Skills in Human Services. 3-4 Hours.
This course promotes skills appropriate for selected health problems, problem solving, and referrals. It also promotes skills to enhance communication with clients, peers, and community members at large.

CHHS 421. Health Communications & Health Coaching. 3 Hours.
Skills appropriate for selected health problems, problem solving, and referrals. Skills to enhance communication with clients, peers, and community members at large. Health-related theories, communication theories, and marketing strategies.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) or HPE 200 [Min Grade: C] or HE 223 [Min Grade: C] or KIN 222 [Min Grade: C] and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C])

CHHS 423. Human Sexuality. 3 Hours.
Biological, sociological, psychological, and ethical aspects of human sexuality. Biological overview, behavioral variations, research in sexuality, social issues, sexual decision making, sexuality of special populations, and sexual complications.

CHHS 425. Community Resources/Identification/Mobilization in Human Services. 3 Hours.
This course provides an overview of community change, and it discusses theoretical issues and principles that promote change. Further, it introduces models of community change, provision of services, change agents, identification of resources, and community mobilization.

CHHS 426. Student Health & Wellness Center Peer Education. 3 Hours.
The intent of this course is to provide students will the skills to facilitate group presentations on health related content to their peers. Students will complete the Certified Peer Education Training a comprehensive, interactive, and skills-based training. Students will learn about the programs and services offered at the UAB Student Health and Wellness Center and be able to articulate this to new student users. Students will learn basic alcohol and other drug information in preparation for presentation to their peers.

CHHS 427. SHAPE Peer Education. 3 Hours.
This course is designed to provide students with the knowledge and skills needed to effectively communicate accurate information related to sexual health and decision-making. The concept of total health and the effects of lifestyle and decision-making on the quality of life will be emphasized. Students will learn decision-making and other skills that will enable them to make healthy choices and engage in healthy activities to improve and maintain an ideal level of quality of life. By the end of this course the student will be able to facilitate workshops on Sexual Decision Making, HIV Awareness, and Healthy Relationships.
CHHS 431. Planning and Implementing Health Education/Promotion Programs. 3 Hours.
Content and process planning, implementing, and evaluating programs in health education and health promotion. Sociological, psychological, and epidemiological foundations of health promotion programs. Development of practical skills for school, occupational, clinical, and community settings. A comprehensive program planning assessment will reinforce quantitative literacy in the profession. Quantitative Literacy is a significant component of this course.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) or HPE 200 [Min Grade: C] or KIN 222 [Min Grade: C] or HE 222 [Min Grade: C]) and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 432. Administration of Health Education/Promotion Programs. 3 Hours.
Administrative theory and practice related to health and fitness programs in various settings. Management issues, professional issues, and personal professionalism. Writing is a significant component of this course.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) or HPE 200 [Min Grade: C] or KIN 222 [Min Grade: C] or HE 222 [Min Grade: C]) and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 452. Evaluation and Grantsmanship. 3 Hours.
Evaluation of health education programs and curricula. Current thought and practice related to evaluation and the grant writing process.
Prerequisites: (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C])

CHHS 455. Fund Raising in Human Services. 3 Hours.
This course introduces students to the area of fund raising, development, special events, annual fund, major gifts, capital campaigns, and basic finance in the nonprofit sector. It is also appropriate for students working in other areas of Human Services as well as other majors who plan to work with nonprofits or governmental agencies. The course will also give students the foundation and tools needed to implement these plans into action. By the end of the course students will have developed at least one major fundraising plan focusing on one area.

CHHS 460. Leadership in Non-Profit Administration. 3 Hours.
This course provides the opportunity for study of administrative practices as related to health/fitness programs in various settings. Emphasis is on program administration and management. Consideration is also given to health/fitness professional issues.

CHHS 489. Intervention Strategies for Health Education/Promotion. 3 Hours.
Methods and materials; media used in professional health education practice. Nature of effective helping relationships. Selection, development, and critique resources for health instruction; Development of lesson plans. Barriers and ethical issues related to planned health behavior change.
Prerequisites: (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 490. Special Projects in Health Education. 1-6 Hour.
Exploration of health-related topic via professional literature or research project.

CHHS 491. Problems in Health Education. 1-6 Hour.
Controversial topics in health education or topics identified as state or national priority.

CHHS 498. Lifespan Dimensions in Women’s Health and Nutrition. 3 Hours.
Highlights will include health issues specific to women, chronic diseases, body image and eating disorders, health promotion and disease prevention, pregnancy, childbirth and lactation, weight loss/maintenance, menopause and ageing, fitness management and stress management.

CHHS 499. Community Health & Human Services Internship. 3-9 Hours.
Supervised work experience in a pre-approved community agency/organization.
Prerequisites: CHHS 431 [Min Grade: C] or HE 431 [Min Grade: C]

CHI-Chinese Courses

Courses

CHI 101. Introductory Chinese I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

CHI 102. Introductory Chinese II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

CHI 190. Study Abroad: Chinese. 1-8 Hour.
Approved novice level study abroad program in a Chinese-speaking country. Course of study will vary according to array of approved offerings student interest. Permission of department chair required.

CHI 201. Intermediate Chinese I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. Conducted in Chinese. (CORE AREA II).

CHI 202. Intermediate Chinese II. 3 Hours.

CHI 203. Intermediate Chinese Language & Culture. 3 Hours.
This course aims to improve student linguistic and cultural fluency necessary for functioning in the Chinese-speaking world. The course examines several cultural topics as well as language patterns in everyday speech. While emphasis will be placed on oral skills, attention will also be given to the written Chinese that one encounters in daily life. Topics may include: Life of the Chinese People, Chinese Folk Customs, Chinese Arts and Crafts, Chinese Architecture, Traditional Chinese Ideology, Traveling around China, and etc.
CHI 204. Intermediate Chinese Language and Culture II. 3 Hours.
This course uses film as a medium to explore various aspects of Chinese culture and helps students understand the Chinese language. A wide range of movie genres are covered, including drama, action and thriller movies, etc. Students develop skills in reading, writing, speaking, listening and critical thinking. In addition, students will be introduced to the field of film studies and learn how to critically analyze and critique a movie.
Prerequisites: CHI 201 [Min Grade: C]

CHI 206. Chinese for the Professions. 3 Hours.
Intensive conversation and acquisition of vocabulary for the professionals while focusing on culture(s) of the Chinese-speaking world. This course aims to further develop communicative competence within the cultural context of the Chinese-speaking world; to foster critical thinking skills, such as problem-identification and solving, decision-making, anticipation and planning, client understanding, and negotiation techniques; to expand students’ functional vocabulary, in particular, the language of the Chinese-speaking professional world; to promote a better understanding of Chinese business culture; and to develop professional basic writing skills.

CHI 290. Study Abroad: Chinese. 1-6 Hour.
This study-abroad Chinese course helps students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content also includes discussion and analysis of current cultural topics. Conducted in Chinese. Permission of the Department Chair and Director of Education Abroad required.

CHI 299. Directed Readings in Chinese. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Chinese students. Course design is determined by the instructor and student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Chinese language and culture. Intermediate proficiency in reading, writing, and speaking Chinese is the targeted outcome.

CHI 300. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Permission of the Department Chair and Director of Education Abroad required.

CHI 390. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Permission of the Department Chair and Director of Education Abroad required.

CHI 399. Directed Readings: Chinese. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Chinese language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of the Chinese language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Chinese is the targeted outcome. Permission of the Department Chair required.

CHI 490. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Conducted in Chinese. Permission of the Department Chair and Director of Education Abroad required.

CMST-Communication Studies

Courses
CMST 100. Media & Society. 3 Hours.
Examines the impact of mediated messages on society. What theories help to shape perception and understanding of the interplay between media, society, and human behavior.

CMST 101. Public Speaking. 3 Hours.
Effective public speaking. Analysis, research, organization, delivery, to enhance speaking performance. This course meets the Core Curriculum requirements for Area II: Humanities.

CMST 103. History of Mass Media. 3 Hours.
The history of newspapers, books, magazines, radio, television, cinema, recording industry, and the internet, focusing on current events, civic responsibilities and the role, value of diversity when appropriate. Ethics and Civic Responsibility are significant components of this course.

CMST 105. Introduction to Human Communication. 3 Hours.
Communication and persuasion as ideas in Western thought, ranging from Greek to contemporary period. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

CMST 110. Introduction to Interpersonal Communication and Relationships. 3 Hours.
This class introduces students to interpersonal communication research and theory; focusing on emotion management, passion, jealousy, romantic attraction, betrayal, conflict, deception, and the successful maintenance of romantic, family, and friendship relationships.

CMST 210. Newswriting and Reporting I. 3 Hours.
Recognizing news, gathering information, and writing news. Though the emphasis is on newspaper journalism, this is a foundational news writing course for all mass communication majors and minors.
Prerequisites: EH 102 [Min Grade: B] or EH 107 [Min Grade: B]

CMST 255. Introduction to Political Campaign Communication. 3 Hours.
A discussion of current theories and practices related to political campaign communication. This will included relevant media theories, campaign strategies, campaign financing, speech writing, and other topics as they relates to political campaigning.

CMST 283. Visual Media Production I. 3 Hours.
Intro to digital video production camera operation, framing, composition, lighting and audio with both multi-camera and single camera applications.

CMST 300. Human Communication in Everyday Life. 3 Hours.
Learning to express what we mean and to understand others is the foundation of this course. Human communication will review the following basic concepts: Components of human communication, interpersonal relationships, perceptions, and relational concerns.

CMST 301. Classical Theories of Social Influence. 3 Hours.
Classical systems of rhetoric applied to contemporary theory building in communication. Works selected from among Sophists, as well as Plato and Aristotle.

CMST 305. Applied Communication Theory. 3 Hours.
Major theoretical approaches to issues involved in human communication. Various psychological and sociological conceptualizations of communication process.

CMST 306. Investigative Reporting. 3 Hours.
Gathering and writing in-depth news; covering courts, police, schools, and county and city governments.
Prerequisites: MC 210 [Min Grade: C] or CMST 210 [Min Grade: C] or MC 106 [Min Grade: C]
CMST 308. Newswriting and Reporting II. 3 Hours.
Practice in gathering and writing news, with experience in writing under pressure of deadlines and covering beats.
Prerequisites: CMST 210 [Min Grade: C] or MC 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 309. Interviewing. 3 Hours.
Theory and practice in various types of interviews, such as employment, counseling, research, and journalistic.

CMST 310. Communications and Teamwork. 3 Hours.
Theories of small group communication and practice in decision making in various group formats as part of organizational structure.

CMST 311. Organizational Communication. 3 Hours.
Theories and models of communication in organizational settings. Analysis and diagnosis of communicative patterns and consideration of methods for implementing appropriate communication models in organizations.

CMST 315. Communication Leadership and Management. 3 Hours.
Theory and research on leadership and communication management. Specific attention to contexts in which leaders and managers function.

CMST 320. Introduction to Advertising. 3 Hours.
Survey of methods, techniques, and strategy involved in creating an advertising campaign.

CMST 321. Persuasion Communication. 3 Hours.
An introduction to the study and practice of persuasive discourse using both the rhetorical and behavioral science traditions.

CMST 322. Argumentation Theory. 3 Hours.
Bases of argument and nature of issues in controversy. Evidence, logic, refutation, and argumentative formats. Recommended for pre-law as well as general students.

CMST 324. Gender, Sex Similarities and Differences in Communication. 3 Hours.
This class introduces students to gender and how it influences communication and relationships in a variety of personal and professional contexts. Theory, research, and historical perspectives are reviewed and applied to interpersonal, family, romantic, educational, health, and organizational contexts.

CMST 326. Sports in the Mass Media. 3 Hours.
An introduction to the study of communication as it relates to sports. Topics include discussions of athlete-coach interactions, fan behaviors, and media coverage of sporting events.

CMST 335. Communication and Sports. 3 Hours.
An introduction to the study of communication as it relates to sports. Topics include discussions of athlete-coach interactions, fan behaviors, and media coverage of sporting events.

CMST 339. Introduction to Public Relations. 3 Hours.
Survey of public relations in the United States. Relationships among marketing, advertising and public relations.

CMST 340. Public Relations Principles. 3 Hours.
Relationship of business, industrial, educational, health, and service institutions to audiences. Public relations as management function in areas of communication analysis, counseling, and public information activities.
Prerequisites: (CMST 210 [Min Grade: C] or MC 210 [Min Grade: C]) and (CMST 339 [Min Grade: C] or CM 339 [Min Grade: C] or MC 339 [Min Grade: C])

CMST 343. Public Relations Methods II. 3 Hours.
Graphics, brochure and newsletter design, slide shows, broadcast PSAs, and multimedia presentations.
Prerequisites: CMST 340 [Min Grade: C] or MC 340 [Min Grade: C]

CMST 350. Publication Editing and Design. 3 Hours.
News selection, copy editing, picture editing, and headline writing.
Prerequisites: CMST 210 [Min Grade: C] or CM 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 353. Sports and Media Relations. 3 Hours.
An examination of the role of media relations in the sports communication environment. Students will acquire multiple competencies, including writing press releases, putting together media kits and media guides, preparing press conferences, and arranging interviews for sports personalities.

CMST 356. Propaganda and Public Persuasion. 3 Hours.
Theory and practice of propaganda with emphasis on mass media as tools of propagandist. Nazi, Soviet, and U.S. propaganda analyzed and critiqued in context of communication theory and ethics.

CMST 360. Feature Writing. 3 Hours.
Finding subjects, collecting information, interviewing, writing, and marketing magazine and newspaper features.
Prerequisites: CMST 210 [Min Grade: C] or CM 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 364. Crisis Management. 3 Hours.
The course will provide sufficient knowledge about crisis management in order to perform professional duties with all available information in how to anticipate and respond to a crisis—both negative and positive. Historical and traditional responses to crises will be examined, and particular instances of response by corporations, politicians, and government to disasters and catastrophic events analyzed. A crisis environment and preparation of a response will be simulated.
Prerequisites: EH 101 [Min Grade: D] or CMST 210 [Min Grade: D]

CMST 365. Social Media Strategy and Management. 3 Hours.
Basics of strategic design and management for social media.

CMST 366. Digital Design and Animation. 3 Hours.
Basics of design for digital media, including web and motion graphics.

CMST 370. Introduction to Broadcast Media. 3 Hours.
Broadcasting and digital technology, history of radio and television, economics of broadcasting, government regulation of industry, and assessment of media in society.

CMST 371. Copywriting for Broadcast Media. 3 Hours.
Copywriting for freelance, in-station, agency, corporate in-house, and institutional settings.
Prerequisites: CMST 103 [Min Grade: C] or MC 101 [Min Grade: C]

CMST 380. Health Communication. 3 Hours.
Bases of theory and practice of communication in health-care setting. Emphasis on communication contexts and relationships.

CMST 382. Current Issues in Health Communication. 3 Hours.
A project-based course in the current methods of communicating health information. Students will research the foundations of communication strategies in health care and plan a program of health information to be tested with an actual population. Email, telephone health, are just two areas of study for students. Students should plan for some time to be devoted to a community project.
CMST 383. Visual Media Production II. 3 Hours.
Advanced digital video production for media applications on the web, television and film.
Prerequisites: CMST 283 [Min Grade: C] or MC 283 [Min Grade: C]
CMST 391. Sports Communication Practicum. 3 Hours.
The student will gain practical experience by working in a sports environment on a regular basis. The experience will be directed by a communication studies faculty member, while the day-to-day experiences of the student will be directed by a supervisor in the work environment.
CMST 400. Professional Presentations. 3 Hours.
Advanced speaking and delivery techniques in professional settings. Audience analysis, professional delivery, research, and application of theories of persuasion.
CMST 401. Instructional Communication. 3 Hours.
Communication problems in the classroom. Translation of data into lecture discussion. Empirical research on verbal and nonverbal elements of effective presentation.
CMST 402. Mass Communication Law. 3 Hours.
Legal limitations and privileges affecting publishing and broadcasting. Major court decisions. Fair comment, libel, right of privacy, fairness doctrine, and license renewal.
CMST 403. Pragmatics and Human Interaction. 3 Hours.
This class examines how people use language to create meanings within conversations; with a focus on the nature of language, speech act theory, conversation analysis, face and face maintenance, sexism in language, conversation implicature, honesty, and deception.
CMST 405. Contemporary Philosophies of Communication. 3 Hours.
Twentieth-century systems of Western rhetoric. Concepts selected from among works of Burke, Weaver, Toulmin, Perelman, Richards, and McLuhan.
CMST 411. Organizational Communication Project. 3 Hours.
Theory and research in communication audits of organizations.
Prerequisites: CMST 311 [Min Grade: C] or CM 311 [Min Grade: C]
CMST 413. Nonverbal Communication. 3 Hours.
Elements of nonverbal behavior (physical appearance, gestures, space, voice) which affect communication in person-to-person situations.
CMST 414. Language and Thought. 3 Hours.
CMST 415. Intercultural & International Communication. 3 Hours.
Communication problems in intercultural and multicultural contexts. Interpretations and otherness. Ethnocentrism and culture. Analysis of one culture interpreting another, with emphasis on modern societies.
CMST 416. Issues in Global Communication. 3 Hours.
CMST 417. Cyborg Communication. 3 Hours.
The study of how people use online communities to mirror, extend, idealize and fantasize their everyday lives. Exploration of how online communities are formed, maintained and dissolved will be made.
CMST 425. Communication in Social and Personal Relationships. 3 Hours.
The course offers an in-depth examination of the role of communication in the initiation, development, maintenance, and termination of social, professional, and personal relationships.
CMST 440. Public Relations Methods I. 3 Hours.
Planning and executing ongoing programs and campaigns to improve organizational and institutional relations with publics. Preparing and distributing news releases, reports, letters, pamphlets, position papers, public statements, speeches, and backgrounder.
Prerequisites: CMST 340 [Min Grade: C] or MC 340 [Min Grade: C]
CMST 442. Conducting Public Relations Campaigns. 3 Hours.
National and local programs that illustrate good and bad practices. Student teams research, plan, and design public relations campaign for client.
CMST 455. Seminar in Political Communication. 3 Hours.
Emerging cross-disciplinary field of political communication. Literature and propositions surrounding key approaches, methods, and substantive areas of inquiry in political communication.
CMST 458. Media Criticism. 3 Hours.
Rhetorical systems for appraising persuasive messages and campaigns in twenty-first century.
CMST 460. Communication and Social Movements in America. 3 Hours.
Exploration of role of public communication in political, religious, social, and economic evolution of America. Movements include war and peace, revolution, slavery, feminist concerns, and industrial change.
CMST 461. Media Economics. 3 Hours.
Basic economic principles in the theories of Adam Smith, Davis Ricardo and Karl Marx. Economy and communication as part of a social life. What’s the value? Value in linguistics and economics. F. von Hayeck and the idea of pricing as a means of signaling. Pricing and consumption of goods in Industrial Society. Understanding media from the viewpoint of economic concepts and procedures.
CMST 480. Seminar in Health and Medical Communication. 3 Hours.
Advanced communication theory and research in health-care setting. Impact of interpersonal, organizational, and mass communication policy in field of human health and medicine.
CMST 481. Communication and Aging. 3 Hours.
Biological, neurological, and socio-psychological effects of aging on communication process. Communication with elderly in various health and medical contexts.
CMST 483. Visual Media Production III. 3 Hours.
Applied advanced digital video production.
Prerequisites: CMST 383 [Min Grade: C] or MC 383 [Min Grade: C]
CMST 491. Internship. 1-3 Hour.
Students who meet eligibility requirements may take three hours of academic credit per semester for participating in an advisor approved internship experience. All internships require a minimum of 70 hours of work per academic credit per semester.
CMST 492. Independent Study. 1-3 Hour.
The purpose of this class is to provide the student with an opportunity to conduct significant research under the direct supervision of a Communication Studies faculty member. This research is to be an extension of an existing class or classes that you have already taken. It is not to be used to replace existing classes or fulfill requirements that existing classes already fill.
CMST 493. Special Topics in Communication Studies. 3 Hours.
Topics selected by faculty.

CMST 494. Communication Research Methods. 3 Hours.
Research questions, design, methodology, data gathering, and analysis. Practice in conducting, interpreting, and communicating research findings to public. Ethical considerations of conductions research with human subjects. Ethics and Civic Responsibility are significant components of this course. Junior standing required.

CMST 495. Mass Media and Society. 3 Hours.
Mass communication research from 1940s to present. Transactional model of communication and symbolic-interactionist perspective used among other approaches to evaluate role of mass media in twenty-first century America.

COP-Co-Operative Work Program

Courses

COP 011. Cooperative Work Program Full-Time. 12 Hours.
**Engineering students should register for your department's co-op course. In order for a Co-op Work (COP) experience to be recognized by the University and posted to an academic transcript, a student must register prior to the term he or she plans to participate. If a student fails to register by the last day to add classes, as published each term, the experience will not be posted to his or her transcript retroactively. This course has requirements including: an employer offer letter, student self-assessment, employer assessment, and a final essay. Information will be provided upon enrollment. Failure to register for co-op may affect a student's status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered should consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact Career & Professional Development at 934-4324.

COP 012. Cooperative Work Program Part-Time. 6 Hours.
**Engineering students should register for your department's co-op course. In order for a Co-op Work (COP) experience to be recognized by the University and posted to an academic transcript, a student must register prior to the term he or she plans to participate. If a student fails to register by the last day to add classes, as published each term, the experience will not be posted to his or her transcript retroactively. This course has requirements including: an employer offer letter, student self-assessment, employer assessment, and a final essay. Information will be provided upon enrollment. Failure to register for co-op may affect a student's status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered should consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact Career & Professional Development at 934-4324.

COP 021. Walt Disney - Cooperative Work Program Full-Time. 12 Hours.
Cooperative work program full-time. Student must submit a letter from Disney for term employed and should consult your academic advisor for approval.

CS-Computer Science Courses

Courses

CS 103. Introduction to Computation. 4 Hours.
An introduction to computation and computational thinking, explored through programming in Python. Python is a scripting programming language that encourages exploration and quick development. This course assumes no prior programming experience and is appropriate for students in any discipline, such as linguistics, biology, business, and art. The student will leave the course with the ability to write clear and well-designed programs that solve interesting problems, and an appreciation of the power and beauty of computation. Strings, tuples, lists, dictionaries; branching, iteration, abstraction through functions, recursion, higher order programming; insertion sort, binary search, turtle graphics, binary numbers, introduction to classes. Principles of software development are emphasized, including specification, documentation, testing, debugging, exception handling. This course has a laboratory component.

CS 103L. Introduction to Computation Lab. 0 Hours.
Laboratory to accompany CS103.

CS 130. Introduction to Cyber Security. 3 Hours.
This course introduces students to the rapidly evolving and critical international arenas of privacy, information security, and critical infrastructure, and is designed to develop knowledge and skills for security of information and information systems at both individual and organizational levels. Stakeholders of information security and privacy. Framework of information security and privacy. Nature of common information hazards. Common cyber attacks and counter-measures. Operation and limitations of information and system safeguards. Ethics, privacy, policy and information decisions. Legal aspects, professional practices, and standards for information security and privacy. Security of national critical infrastructures.

CS 199. Special Topics in Computer Science. 1-3 Hour.
Selected topics in Computer Science. This course may or may not have a laboratory component or be taught online.

CS 199L. Special Topics Lab. 0 Hours.
Project oriented hands-on approach lab. Mandatory first day of attendance.

CS 203. Object-Oriented Programming. 4 Hours.
A second course in computational thinking, through the lens of object oriented programming. Fundamental concepts of object oriented programming and basic data structures. Types, classes, objects, inheritance, containers, OO software design, program structure and organization, reflection, generic programming. Lists, trees, stacks, queues, heaps, search trees, hash tables, graphs, complexity analysis. This course has a laboratory component.
Prerequisites: CS 103 [Min Grade: C] or CS 201 [Min Grade: C]

CS 203L. Object-Oriented Programming Lab. 0 Hours.
Laboratory to accompany CS203.

CS 222. Mobile Application Development. 3 Hours.
Introduction to application development for mobile devices including those built on Android, iOS and Windows Phone using a popular mobile application development platform such as Cordova. Covers unique requirements and constraints of mobile applications, foundations of mobile application development, syntax and semantics of web languages such as HTML, CSS and related frameworks, client side scripting including JavaScript and associated techniques such as jQuery and Ajax, principles for the design and evaluation of mobile user interfaces, storage and sensors. Lecture and laboratory.
Prerequisites: CS 103 [Min Grade: C]
CS 222L. Mobile Application Development Laboratory. 0 Hours.
Laboratory to accompany CS 222.

CS 250. Discrete Structures. 3 Hours.
Discrete mathematics for computer science, including elementary propositional and predicate logic, sets, relations, functions, counting, elementary graph theory, proof techniques including proof by induction, proof by contradiction, and proof by construction.
Prerequisites: CS 103 [Min Grade: C] or CS 201 [Min Grade: C] and
(MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C] or MA 126 [Min Grade: C] or MA 227 [Min Grade: C])

CS 303. Algorithms and Data Structures. 4 Hours.
Techniques for design and analysis of algorithms; efficient algorithms for sorting, searching, graphs, and string matching; and design techniques such as divide-and-conquer, recursive backtracking, dynamic programming, and greedy algorithms.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 303L. Algorithms and Data Structures Laboratory. 0 Hours.
Project oriented hands-on approach to accompany CS 303.

CS 306. Programming in Perl. 1 Hour.
Basic syntax and data types, data structures, functions, scoping, regular expressions and pattern matching, libraries and modules, program composition, best practices.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 309. Programming in Mathematica. 1 Hour.
Syntax, semantics and concepts of programming in Mathematica: expressions, lists, patterns and rules, functional programming, procedural programming, recursion, numeric, strings, graphics and visualization, dynamic expressions, optimization, and applications.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 330. Computer Organization and Assembly Language Programming. 3 Hours.
Register-level architecture of modern digital computer systems, digital logic, machine-level representation of data, assembly-level machine organization, and alternative architectures. Laboratory emphasizes machine instruction execution, addressing techniques, program segmentation and linkage, macro definition and generation, and computer solution of problems in assembly language.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 330L. Computer Organization and Assembly Language Programming Lab. 0 Hours.
Laboratory to accompany CS 330.

CS 333. System Programming in C. 3 Hours.
Unix architecture and internals with an emphasis on Linux, shell scripting, distributions of Linux for various computing platforms including large and desktop computers, and embedded computing devices, introduction to the C programming language, system programming in C covering signals and process control, networking, I/O, concurrency and synchronization, memory allocation, threads, debugging, library development and usage.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 334. Networking. 3 Hours.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 334L. Networking Lab. 0 Hours.
Project oriented hands-on approach to accompany CS 334. Mandatory first day of class.

CS 350. Automata and Formal Languages. 3 Hours.
Finite-state automata and regular expressions, context-free grammars and pushdown automata, computability.
Prerequisites: CS 250 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 355. Probability and Statistics in Computer Science. 3 Hours.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 380. Scientific Computing. 3 Hours.
Scientific computing is the foundation of many key areas of computer science (e.g., machine learning, graphics, vision, cryptography) and of companies like Google. A main object of study in this course is the matrix, including matrix computation (matrix multiplication, null space, solution of linear systems, least squares) and applications (image filtering, face detection, compression). Other topics may include wavelets, root finding, quadrature, and Fourier transform.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 391. Special Topics. 1-3 Hour.
Selected Topics in Computer Science.

CS 392. Special Topics. 1-3 Hour.
Selected Topics in Computer Science.

CS 398. Undergraduate Honors Research. 1-3 Hour.
Research project under supervision of faculty sponsor. Prerequisite: 18 semester hours in computer and information sciences with grade point average of 3.5 in computer and information sciences and permission of instructor.

CS 399. Directed Readings. 1-3 Hour.
Selected readings, research and project development under the direction of a faculty member. Permission of instructor.
Prerequisites: CS 203 [Min Grade: D] and CS 250 [Min Grade: D]
CS 401. Programming Languages. 3 Hours.
CS 401 is a programming language overview course. The course will discuss computability, lexing, parsing, type systems, and ways to formalize a language's semantics. The course will introduce students to major programming paradigms, such as functional programming and logic programming, and their realization in programming languages. Students will solve problems using different paradigms and study the impact on program design and implementation. The course enables students to assess strengths and weaknesses of different languages for problem solving.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 401L. Programming Languages Laboratory. 0 Hours.
Laboratory to accompany CS 401.

CS 402. Compiler Design. 3 Hours.
Study the design and implementation of compilers, including front-end (lexer, parser, type checking), to mid-end (intermediate representations, control-flow analysis, dataflow analysis, and optimizations) to back-end (code generation). Students will get hands-on experience by implementing several compiler components.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 403. Cloud Computing. 3 Hours.
Introduction to cloud computing, definition, history, models of service delivery, IaaS/PaaS/SaaS clouds, Public/private/Hybrid clouds, cloud architectures, cloud storage, data center design issues, cloud programming systems, MapReduce programming, security and privacy issues, application development on commercial Cloud Computing Platforms, building mobile apps with a cloud based backend, using cloud APIs in PaaS/IaaS/SaaS platforms.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 410. Introduction to Databases. 3 Hours.
Relational model of databases, structured query language, normalized structure of database management systems based on relational model, and security and integrity of databases.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 415. Multimedia Databases. 3 Hours.
Multimedia information processing, multimedia database architecture, multimedia database retrieval, semantic models for multimedia databases.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 416. Big Data Programming. 3 Hours.
Introduction to Big Data, Properties of Big Data, platforms, programming models, applications, business analytics programming, big data processing with Python, R, and SAS, MapReduce programming with Hadoop.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 417. Database Security. 3 Hours.
Database fundamentals, introduction to database security, overview of security models, access control models, covert channels and inference channels, MySQL security, Oracle security, Oracle label security, developing a database security plan, SQL server security, security of statistical databases, security and privacy issues of data mining, database applications security, SQL injection, defensive programming, database intrusion prevention, audit, fault tolerance and recovery, Hippocratic databases, XML security, network security, biometrics, cloud database security, big database security.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 419. Investigating Online Crimes. 3 Hours.
Introduction to cyber-investigative techniques involving network forensics. Students will develop and learn to apply new programs and techniques to automatically evaluate digital evidence from network packet captures, emails, server logs, social media, darknets and online forums related to cyber crime cases from both a law enforcement and incident response perspective.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 420. Software Engineering. 3 Hours.
Design and implementation of large-scale software systems, software development life cycle, software requirements and specifications, software design and implementation, verification and validation, project management and team-oriented software development. Lecture and laboratory.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 420L. Software Engineering Laboratory. 0 Hours.
Laboratory to accompany CS 420.

CS 421. Advanced Web Application Development. 3 Hours.
Introduction to web application design and development. Includes traditional web applications utilizing server-side scripting as well as client/server platforms. Covers responsive design for both mobile and desktop users, as well as hands on server provisioning and configuration. Other topics include web security problems and practices, authentication, database access, application deployment and Web API design, such as REpresentational State Transfer (REST).
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 421L. Advanced Web Application Development Laboratory. 0 Hours.
Laboratory to accompany CS 421.

CS 423. Network Security. 3 Hours.
Conventional network security (symmetric and public-key cryptography). Message encryption and authentication. Secure communication between computers in a hostile environment, including E-mail (PGP), virtual private networks (IPSec), remote access (SSH), and E-commerce (SSL), firewalls, intrusion detection and prevention, security of IEEE 802.11 wireless networks (WEP, WPA), Mandatory weekly Linux-based lab.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 423L. Network Security Laboratory. 0 Hours.
Laboratory to accompany CS 423.
CS 425. Metrics and Performance. 3 Hours.
The theory and practice of metrics and performance. Querying theory and statistical analysis.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 426. Secure Software Development. 3 Hours.
Why and how software fails, characteristics of secure and resilient software, life cycle of secure software development, metrics and models for secure software maturity, design methodology, best practices for secure programming, secure software for mobile computing, cloud computing and embedded systems, methodology for testing and validation.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 427. Software Design and Integration. 3 Hours.
This course provides hands-on experience in the design and integration of software systems. Component-based technology, model-driven technology, service-oriented technology, and cloud technology are all explored. Software design basics, including the decomposition of systems into recognizable patterns, the role of patterns in designing software and design refactoring, and attributes of good design. Agile culture, CASE tools, tools for continuous integration, build, testing, and version control.
Prerequisites: CS 420 [Min Grade: C]

CS 429. Software Engineering Research Project. 3 Hours.
This is a project-based research course in software engineering, involving significant implementation and experimentation under the supervision of a faculty member. A project proposal must be accepted before registering for this course.
Prerequisites: CS 420 [Min Grade: C]

CS 430. Computer Architecture. 3 Hours.
Introduction to computer architecture, including memory subsystems, direct-mapped and set-associative cache and multi-level cache subsystems, direct-access devices including RAID and SCSI disk drives, processor pipelining including super-scalar and vector machines, parallel architectures including SMP, NUMA and distributed memory systems, Interrupt mechanisms, and future microprocessor design issues.
Prerequisites: CS 330 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 431. Distributed Systems. 3 Hours.
Introduction to distributed systems, distributed hardware and software concepts, communication, processes, naming, synchronization, consistency and replication, fault tolerance, security, client/server computing, web technologies, enterprise technologies.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 432. Parallel Computing. 3 Hours.
Introduction to parallel computing architectures and programming paradigms. Theoretical and practical aspects of parallel programming and problem solving. Design, development, analysis, and evaluation of parallel algorithms.
Prerequisites: (CS 303 [Min Grade: C] and CS 330 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 433. Operating Systems. 3 Hours.
Introduction to operating systems. This course looks at the internal design and operation of a modern operating system. Topics include interrupt handling, process scheduling, memory management, virtual memory, demand paging, file space allocation, file and directory management, file/user security and file access methods. Several comparisons among current operating systems are used, with attention to Windows and Unix in particular.
Prerequisites: CS 330 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 433L. Operating Systems Laboratory. 0 Hours.
Laboratory to accompany CS 433.

CS 434. Virtualization. 3 Hours.
Theory and practice of virtualization. Origins, history, technical and economic motivations. Relationship to network operating systems and operating system architecture. Simulation, Emulation, Virtualization of CPUs, networks, storage, desktops, memory, devices, and combinations thereof. Different approaches to virtualization, including hardware assists and software-only techniques. Techniques, approaches, and methodologies for scale-out and scale-up computing, including security, performance and economic concerns.
Prerequisites: CS 433 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 435. Network Programming. 3 Hours.
Remote procedure call and client-server mechanisms. Protocol definition and compilation; client and server stubs and application code; transport independence; multiple client and server systems. Applications, e.g., remote database query and update and image filtering and archiving; systems programming and file systems contexts.
Prerequisites: CS 334 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 436. Computer Security. 3 Hours.
Study of the breadth of major computer security topics including cyber threats, malware, information assurance, authorization, applied cryptography, web security, mobile and wireless security, network security, systems/software security, database and storage security, user-centered security, and best security practices and countermeasures.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 437. Digital Media Forensics. 3 Hours.
Digital media forensics addresses all stored digital evidence types faced by cyber security professionals and computer forensics examiners. Students will learn to analyze character encoding, file formats, and digital media, including hard drives, smartphones and other portable devices, and cloud-hosted evidence, as well as disk acquisition, duplication and evidence preservation techniques and how to apply these techniques in typical criminal investigation scenarios.
Prerequisites: CS 303 [Min Grade: C] and CS 330 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 437L. Digital Media Forensics Lab. 0 Hours.
Laboratory to accompany CS 437.
CS 440. Introduction to Bioinformatics. 3 Hours.
This course introduces students to the field of bioinformatics, emphasizing the application of computational tools and methodology in genomics, analysis of protein functions and structures, and DNA sequencing. Students learn how to use a high level programming language such as Python together with software tools such as BLAST and ArrayTrack to solve bioinformatics problems.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 441. Algorithms in Bioinformatics. 3 Hours.
This course covers the design and analysis of algorithmic techniques applied in bioinformatics. Topics include sequence comparison, alignment and matching, suffix tree, sequence database search, phylogenetic tree, genome rearrangement, motif finding, RNA prediction, and peptide sequencing.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 442. Mobile and Wireless Security. 3 Hours.
Mobile/wireless devices are ubiquitous, raising the potential for many cyber threats. This course examines security vulnerabilities inherent in many existing and emerging mobile and wireless systems, ranging from smartphones to wearables and RFID tags. In addition to exposing security vulnerabilities, defensive mechanisms to address these vulnerabilities drawn from existing deployments and research literature will be studied.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 443. Cloud Security. 3 Hours.
Definition of cloud computing, cloud computing models, privacy, authenticity and integrity of outsourced data, proof of data possession / retrievability, cloud forensics, malware analysis as a service, remote verification of capability and reliability, proof of availability, economic attacks on clouds and outsourced computing, virtual machine security, trusted computing technology and clouds, verifiable resource accounting, cloud-centric regulatory compliance issues and mechanisms, business and security risk models, secure MapReduce, applications of secure cloud computing, private information retrieval and cloud cartography.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 444. Network Forensics. 3 Hours.
This course covers concepts and methods involved in unraveling network intrusions, DDoS, and other untoward network behavior.
Prerequisites: CS 303 [Min Grade: C] and CS 336 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 445. Modern Cryptography. 3 Hours.
Theory and practices of modern cryptographic techniques, algorithms and protocols, including formal analysis. Secret key encryption algorithms, public key encryption algorithms, stream ciphers, one-way hashing algorithms, authentication and identification, digital signatures, signcryption, key establishment and management, secret sharing and data recovery, zero-knowledge proofs, public key infrastructures, efficient implementation, cryptoanalytic attacks and countermeasures, security models, assumptions and proofs.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 446. Digital Currency. 3 Hours.
Fundamental principles of digital cash systems including Bitcoin, Ripple and other notable cryptocurrencies. Topics to be covered include how a cryptocurrency works, blockchain and other decentralized consensus protocols, proof of work, proof of stake, security and privacy of cryptocurrencies, cryptographic techniques for digital currency, and applications of blockchain in peer-to-peer trust establishment, smart contracts, digital asset management, financial exchanges and distributed autonomous organization.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 447. Biomedical Modeling. 3 Hours.
Modeling and analysis of biomedical datasets. Aspects of image processing and shape modeling related to biomedical datasets, morphometry, alignment, surgical planning, case studies.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 452. Advanced Algorithms and Applications. 3 Hours.
This course introduces students to the design and analysis of fundamental algorithms that underpin many fields of importance ranging from data science, business intelligence, finance and cyber security to bioinformatics. Algorithms to be covered include dynamic programming, greedy technique, linear programming, network flow, sequence matching, search and alignment, randomized algorithms, page ranking, data compression, and quantum algorithms. Both time and space complexity of the algorithms are analyzed.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 454. Malware Analysis. 3 Hours.
Hands-on course teaching static, dynamic and contextual analysis of malware. Malware analysis, and investigation is taught through interaction with both "classroom" and "wild" malware samples. Defensive and counter-measure techniques for both corporate and law enforcement environments are explored.
Prerequisites: CS 303 [Min Grade: C] and CS 330 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 454L. Malware Analysis Lab. 0 Hours.
Laboratory to accompany CS 454.

CS 456. Web Security. 3 Hours.
The web uses advanced applications that run on a large variety of browsers that may be built using programming languages such as JavaScript, AJAX, Google Web Toolkit and Apache Struts, to name a few. This course studies how core web technologies work, the common security vulnerabilities associated with them, and how to build secure web applications that are free from these vulnerabilities.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 457. Penetration Testing and Vulnerability Assessment. 3 Hours.
This course focuses on penetration testing and vulnerability analysis. It introduces methodologies, techniques and tools to analyze and identify vulnerabilities in stand-alone and networked applications. It also covers methodologies for legal and standards compliance.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 457 [Min Grade: C])
CS 460. Artificial Intelligence. 3 Hours.
This course will provide an introduction to fundamental concepts in the field of artificial intelligence. Topics typically covered include agents, search, logic and knowledge representation, probabilistic models, machine learning, natural language processing and perception.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 462. Natural Language Processing. 3 Hours.
This course provides a broad introduction to Natural Language Processing (Computational Linguistics). Topics typically covered in this course include part-of-speech tagging, syntactic parsing, semantic analysis, speech recognition, machine translation, sequence labeling algorithms, n-gram language models, statistical parsing, grammar formalisms and treebanks.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C] and CS 355 [Min Grade: C] or CS 460 [Min Grade: C]

CS 463. Data Mining. 3 Hours.
Techniques used in data mining (such as frequent sets and association rules, decision trees, Bayesian networks, classification, clustering), algorithms underlying these techniques, and applications.

CS 467. Machine Learning. 3 Hours.
Introduction to machine learning, the design of algorithms that can make predictions about the future based on past experience. Emphasizes practical considerations for developing efficient and accurate machine learning models, and theoretical underpinnings of different learning algorithms.
Prerequisites: CS 303 [Min Grade: C] and CS 355 [Min Grade: C] and MA 125 [Min Grade: C] or CS 460 [Min Grade: C] or (CS 303 [Min Grade: C] and MA 225 [Min Grade: C])

CS 469. Introduction to the Internet of Things. 3 Hours.
Definition of the Internet of Things (IoT), history, IoT components, device specifications and examples, architectures, protocols, applications, security and privacy issues, programming and development environments for IoT, interoperability, interfacing IoT devices via web and mobile applications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 470. Computer Graphics and Data Visualization. 3 Hours.
Computer graphics and its application to the visualization of data for data science. Computer graphics: raster images, coordinate frames, matrix transforms, perspective and orthographic viewing, color, shading, visibility, quaternions and animation, triangle meshes, smooth curves and surfaces, texture mapping, graphics programming, Data visualization: Tufte's design rules, using colour to visualize, histograms, graph visualization, silhouettes and nonphotorealistic rendering, medical illustration, contouring, principal component analysis (PCA).
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 473. Computer Vision. 3 Hours.
Image smoothing and filtering, feature detection, segmentation, calibration and alignment, object recognition, morphology, projective geometry, scale space.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 474. 3D Printing. 3 Hours.
3D Printing: design, materials, and aesthetics. Students will do projects which result in unique artifacts created by 3D printing. Multi-disciplinary teams are encouraged. Societal and legal implications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 475. Visualization. 3 Hours.
Advanced computer graphics techniques aimed at scientific visualization applications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 476. Foundations of Game Development. 3 Hours.
An exploration of the Unreal game development engine and game development using Unreal and C++. This course assumes no prior C++ programming experience, game development experience or experience with the Unreal engine. The student will gain foundational knowledge of the Unreal Engine, C++, game design and development.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 226 [Min Grade: C])

CS 482. Simulation Methodology. 3 Hours.
Foundations for computer modeling and simulation, with accent on discrete systems: random number and process generation; statistical bases with probability and frequency distribution orientation; Monte Carlo experiments and general purpose modeling.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 483. Open Source Security Systems. 3 Hours.
An introduction to the design, implementation, evaluation and maintenance of secure software systems and applications using open source technologies, with an emphasis on hands-on experience. Topics include: open source ecosystems, open source security methodologies and models, notable open source software systems and projects, quality and security assurance through open source, open source supply chain security, major open source cryptographic packages; designing, implementing and maintaining security systems using open source technologies; assessment and regulatory compliance using open source tools, and open source hardware.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 484. Robot Motion. 3 Hours.
Path planning algorithms. Configuration space, potential functions, roadmaps, cell decomposition, probabilistic motion planning, compliant motion.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 485. Foundations of Data Science. 3 Hours.
This introductory course in data science teaches fundamental concepts and techniques in statistical inference and big data analytics. Topics include high-dimensional space, singular value decomposition, random graphs, random walks and Markov chains, data streaming and sketching, and basics of data mining and machine learning.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 486. Software-Defined Networking. 3 Hours.
Software defined networking (SDN) allows a logically centralized software component to manage and control the behavior of an entire network. Topics to be covered include abstractions and layered architecture of SDN, data, control and management planes, network virtualization, programming SDN, network functions (e.g. routing, load balancing and security), comparison of OpenFlow and proprietary SDN technologies, and network optimization with SDN.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 487. Complex Networks. 3 Hours.
Introduction to complex network theory and real-world applications in biology, physics, sociology, national security and cyber enabled technology systems such as social networks. Essential network models including small world networks, scale free networks, spatial and hierarchical networks together with methods to generate them with a computer will be discussed. In addition, various techniques for the analysis of networks including network modeling and evolution, community structure, dynamic network analysis, and network visualization will be explored.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 489. Cyber Risk Management. 3 Hours.
This course develops knowledge and skills in risk based information security management geared toward preventive management and assurance of security of information and information systems in technology-enabled environments. It focuses on risk assessments, risk mitigation strategies, risk profiling and sensitivity; quantitative and qualitative models of calculating risk exposures, security controls and services, threat and vulnerability management, financing the cost of security risks, and return on investment for information security initiatives. The course presents several risk assessment models with an ultimate goal of identifying and realizing the unique and acceptable level of information risk for an organization.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 491. Special Topics. 3 Hours.
Special Topics in Computer Science.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 492. Special Topics. 3 Hours.
Special Topics in Computer Science.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 496. Research Seminar. 1 Hour.
Participation in research seminar directed by a faculty member.

CS 497. Competitive Programming Techniques. 1 Hour.
This course will help students become more competitive in a programming contest such as the ACM programming contest by exploring numerous problem solving techniques and algorithms not covered in the traditional curriculum.

CS 498. Research Methods in Computer Science. 3 Hours.
This course is designed to provide future computer science teachers with the tools that computer science uses to develop new knowledge. Students will design, implement, and document independent research projects. Students will learn how to explore scientific literature and evaluate conflicting claims. Work is closely coordinated with the work of students from other content disciplines so that students see the similarity and differences of research methods in their own field as compared with those of other science disciplines.
Prerequisites: EHS 126 [Min Grade: D]

CS 499. Senior BS Capstone. 3 Hours.
This capstone course consolidates key concepts in the undergraduate BS curriculum and prepares students for their professional careers. Teamwork and writing are key themes of the course. Students discuss and write about topics in ethics, professional practice, entrepreneurship, intellectual property, licensing (e.g., GPL, MIT), privacy, continuing professional development, professional networking tools, compliance, tolerance, inclusion, appreciation of diversity, and contemporary issues. In a software engineering project, students work in a team to put to practice principles and techniques that they have acquired throughout the undergraduate curriculum. Students take the Major Field Test in Computer Science as a requirement for completing this course. Students should be CIS BS majors in their last year of undergraduate study.
Lecture and laboratory.
Prerequisites: CMST 101 [Min Grade: C] and PHL 115 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 499L. Senior Capstone Laboratory. 0 Hours.
Laboratory to accompany CS 499.

DB-Distribution Courses

DB 320. Distribution Management. 3 Hours.
Introduction to basic problems, concepts and management practices of distribution firms and manufacturing relationships. History of types of distributor organizations, functions and role of industrial distribution in the economy.
Prerequisites: MK 303 [Min Grade: C] (Can be taken Concurrently)

DB 430. Distribution Operations. 3 Hours.
The course emphasizes distribution operations decision making. There are heavy emphases on profitability analysis, margin management, pricing and price negotiations, and managing inventory investments.
Prerequisites: DB 320 [Min Grade: C] and AC 200 [Min Grade: C] and AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 214 [Min Grade: C] and LS 246 [Min Grade: C] and OM 215 [Min Grade: C] and (BUS 101 [Min Grade: C] or BUS 102 [Min Grade: C]) and BUS 110 [Min Grade: C]

DB 435. Distribution Policies and Quality Issues. 3 Hours.
The course examines issues involved in customer relationship strategy and management in industrial and medical business markets. Topics include channel strategy and management, B2B e-commerce strategy and applications, strategic account management processes and systems, customer profitability and lifetime value, multi-channel selling models, negotiations and other operational strategies and technologies used by distributors and manufacturers.
Prerequisites: DB 320 [Min Grade: C]

DB 495. Distribution Directed Studies Practicum. 3 Hours.
Issues in managing distributors, both as suppliers for and customers of manufacturers and other businesses. Students work with host distributor/manufacturer on current and future distribution problem areas. Students develop an in-depth research analysis of the host distributor/manufacturer.

DCS-Digital Community Stud Courses
Courses

DCS 101. Media and Society. 3 Hours.
This course serves as an introduction to the theory and practice of media production. Topics include the practice of looking, a cross-cultural look at visual representation, and the impact of media on society.

DCS 150. Introduction to Film and History. 3 Hours.
This course will examine fiction and non-fiction films as socially significant documents. Students will receive an introduction to the techniques of film analysis in the class.

DCS 201. History of Documentary Film. 3 Hours.
This course will provide a history of the documentary tradition by studying the major stylistic movements, works, and filmmakers of non-fiction film and photography in the 20th century.

DCS 208. Women in Film. 3 Hours.
This course will provide a history of women in film, focusing on both women working in the film industry and the representation of women on screen. The course will focus on American film history, 1930’s Hollywood to the present.

DCS 250. Community and Service. 3-6 Hours.
This service-learning course provides students the opportunity to explore social and community issues by volunteering with a local agency, non-profit or community group. Students will use multimedia to highlight their community partner, document their experience and share their interests. Methods such as participant observation and ethnographic field approaches will provide the framework for student exploration.

DCS 266. New Urbanism. 3 Hours.
This course investigates the community development model of New Urbanism which promotes the values of walkability, diversity and connectivity for healthy living and neighborhood sustainability. Students will explore local communities, connecting New Urbanist design principles to community values and social interaction.

DCS 291. Community Ethnography and Public History. 3 Hours.
This experiential course addresses how to investigate and represent local community history and stories through the methodologies of service learning, participant observation, ethnographic research and oral history. This class addresses the concepts of human memory, nostalgia, folklore, storytelling and public history. Students will learn how to use new media technologies, such as digital video, podcasting and website production, as a way to represent community history and culture for the public.

DCS 309. American Independent Film. 3 Hours.
This course will provide a history of the American Independent filmmaking tradition by studying the major stylistic movements, works, and filmmakers of the 1970s-the present.

DCS 390. Life, Liberty, and the Pursuit of Happiness: Representing American Identity on Film. 3 Hours.
An interdisciplinary course in which students investigate the formation and representation of early American identity and produce their own films representing contemporary American identity.

DCS 391. Digital Storytelling. 3 Hours.
In this non-fiction video production course, students will learn how to use new media technologies, such as digital video, digital audio, music, graphics, and still photography, as a way to represent community history, personal narratives, and local culture for the public.

DCS 401. Ethnographic Filmmaking/SL. 6 Hours.
This course is an interdisciplinary course in which students pair up to produce a short documentary film which represents a community in the Birmingham area. The course contains four key elements: 1) community outreach, 2) intro to social science theory and methods, 3) film theory and the aesthetics of filmmaking, and 4) technical aspects of camera work and digital video editing. This is a designated service-learning course intergrating academic learning, civic learning and meaningful service to the community. Preq: Permission of the instructor.
Prerequisites: DCS 101 [Min Grade: C] and DCS 201 [Min Grade: C]

DCS 455. Professional Producing. 3 Hours.
This course offers students hands-on experience creating and analyzing media pieces about community issues, including documentary films, public service announcements, translation of academic research to lay audiences, and multimedia grant proposals and reports. Emphasis will be on communicating effectively in the non-profit sector. This course is a designated capstone experience. Permission of Instructor.
Prerequisites: DCS 401 [Min Grade: C]

DCS 455. Professional Producing. 3 Hours.
This course offers students hands-on experience creating and analyzing media pieces about community issues, including documentary films, public service announcements, translation of academic research to lay audiences, and multimedia grant proposals and reports. Emphasis will be on communicating effectively in the non-profit sector. This course is a designated capstone experience. Permission of Instructor.
Prerequisites: DCS 401 [Min Grade: C]

DCS 460. Independent Media Studies. 3-6 Hours.
This course will provide an opportunity for advanced students to pursue individual projects in multimedia studies. Prerequisites: Permission of the Instructor.
Prerequisites: DCS 401 [Min Grade: C]

DCS 470. Internship in Media Studies. 3-6 Hours.
Internships will provide students with the opportunity for hands-on experience with digital technology in workplace setting. This course is a designated capstone experience. Permission of the Instructor.
Prerequisites: DCS 401 [Min Grade: C]

DCS 490. Special Topics in Media. 3 Hours.
Study of thematic topics throughout media studies. This course is a designated capstone experience.

DCS 499. Special Topics in Media Studies. 3 Hours.
Study of thematic topics throughout media studies.

EC-Economics Courses

Courses

EC 110. Economics and Society. 3 Hours.
Economic principles and development of economic analysis. Combines key elements of EC 210 and 211. Primarily intended for majors in School of Education seeking to meet certification requirements; also open to students outside School of Business who wish to survey economics in one course. Not open to entering freshmen; not open to majors in School of Business or economics majors in the College of Arts and Sciences.
EC 210. Principles of Microeconomics. 3 Hours.
This course is an introduction to microeconomic analysis. Students will learn why markets often function well without any centralized control and reasons why they sometimes do not, and why basic microeconomic models often are able to explain, predict and improve the world around us. The emphasis is on how the intuitive notions of optimization and equilibrium provide a unifying framework for understanding human behavior, as well as simple ways in which economists use real-world data to answer specific questions.

Prerequisites: EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and GPAU 2.00 or GPAO 2.00

EC 211. Principles of Macroeconomics. 3 Hours.
This course is an introduction to macroeconomic analysis, which pertains to the overall economy. We study economy-wide phenomena such as the growth rate of national economic output, rates of inflation and unemployment, and learn how macroeconomists design government policies that improve aggregate economic performance.

Prerequisites: EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00 and EC 211 [Min Grade: C] and GPAU 2.00 or GPAO 2.00

EC 210. Principles of Microeconomics. 3 Hours.
This course is an introduction to microeconomic analysis. Students will learn why markets often function well without any centralized control and reasons why they sometimes do not, and why basic microeconomic models often are able to explain, predict and improve the world around us. The emphasis is on how the intuitive notions of optimization and equilibrium provide a unifying framework for understanding human behavior, as well as simple ways in which economists use real-world data to answer specific questions.

EC 300. Economic History of the U.S.. 3 Hours.
This course spans the economic history of the U.S. from colonial times to present. Topics covered include the U.S. Constitution, national economy, wars, ethnicity, race, gender, distribution of wealth and power, social conflict and reform, entrepreneurs, workers, workplace, popular culture, and foreign affairs.

EC 301. Money and Banking. 3 Hours.
Money supply, banking system, and other financial institutions; how money affects aggregate economic activity.

Prerequisites: EC 300 [Min Grade: C] or (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 302. Law and Economics. 3 Hours.
This is an introduction to Law and Economics, that is, the application of economic analysis to legal questions. The course offers a survey of core issues (including property, contracts, and torts), an exposition of alternative approaches to those issues, and a discussion of important implications for economics, law, political science, philosophy, public administration, and sociology. The instructor encourages students to concurrently sign up for the course Cooperation and Competition (EC 330).

Prerequisites: (GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 303. Labor Economics. 3 Hours.
Economic analysis in dealing with major aspects of such problems as employment, wages, hours, unionism, labor-management relations, and social security. Influence of psychological and institutional factors.

Prerequisites: EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00 and EC 211 [Min Grade: C] and EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00

EC 304. Microeconomics. 3 Hours.
Advanced economic principles underlying value and distribution with additional training in application of these principles to problems of analysis. Preq: Completion of all pre-business requirements.

Prerequisites: EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and GPAU 2.00 or GPAO 2.00

EC 305. Macroeconomics. 3 Hours.
Forces determining level of income and employment in economic systems, with special reference to United States. Causes and cures of unemployment. Role of government in maintaining high level of employment.

Prerequisites: GPAT and GPAO 2.00 and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 211 [Min Grade: C]

EC 306. Health Care Economics. 3 Hours.
This course seeks to apply economic analysis to issues in health care. Students will review the basic tools of economic analysis and discuss the evolving trends and institutional features in the health care industry. Students will then use an economic way of thinking to address contemporary health care issues from an economic perspective. This will include consideration of the supply and demand for health care, hospitals, insurance and managed care, health labor markets, chronic disease, prescription drugs, and government policy.

Prerequisites: EC 210 [Min Grade: C]

EC 308. Economics of Environment. 3 Hours.
Use of economic analysis to examine interaction between economic institutions and physical environment. Specific topics: social costs and benefits of economic growth, interactions between private business and public welfare, and socioeconomic systems and goals.

Prerequisites: GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00

EC 315. Sports Economics. 3 Hours.
An introduction into the economics of both amateur and professional sports. Basic economic principles are used to detail fan demand, team output/success, and the complexities of league/conference organization, sports rules, racial disparities, and government attempts to regulate sports. Specific focus is placed on the use of statistics to evaluate salaries and the most valuable attributes, players, and positions of many sports to produce a win.

EC 320. Behavioral Economics. 3 Hours.
Incorporation of psychology into models of economic behavior. These models are applied to a variety of fields including industrial organization, marketing, and negotiation.

Prerequisites: (EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 330. Game Theory. 3 Hours.
This course studies strategic interaction between economic agents. Topics include finding Nash equilibria in sequential- and simultaneous-move games, game-changing strategic moves & their credibility, manipulating information, cooperation & coordination, auctions, bargaining, voting and incentives. The emphasis is on developing strategic intuition and understanding how and why results in experimental and real-world play often differ from those predicted by the underlying theory.

Prerequisites: (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 401. Mathematical Approach in Economics and Business. 3 Hours.
Mathematical approach in economics and business.

Prerequisites: (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
EC 403. Monetary Economics. 3 Hours.
Current theories of monetary policy and management, historical development of theory and practice, contemporary policies employed by monetary authorities, institutions concerned, evaluation of policies and reform, and interrelations between monetary factors and economic processes.
Prerequisites: (EC 304 [Min Grade: C] and EC 301 [Min Grade: C] or EC 305 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] and EC 301 [Min Grade: C] or EC 305 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 404. Topics in Public Policy. 3 Hours.
Topics in Public Policy.
Prerequisites: (EC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 405. Economic Development and Growth. 3 Hours.
Problems of economic development; growth of less developed economies compared with those of advanced economies. Theories of economic development. Policy measures to promote development of growth, with emphasis on measures to accelerate development of countries.
Prerequisites: (EC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 407. International Economics. 3 Hours.
Analysis of theoretical principles underlying international trade and investment, and international monetary relations. Study includes the effects on domestic and foreign economies of commercial, monetary and fiscal policies. (Also IB 407).
Prerequisites: (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 408. Topics in the History of Economic Theory. 3 Hours.
The development of economic thought from antiquity to the end of the twentieth century, with emphasis on the synthesis of evolving ideas constituting current economic theory.
Prerequisites: (EC 211 [Min Grade: C] and EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 409. Econometrics. 3 Hours.
This course is an introduction to micro-econometric empirical methods. Students will learn how to specify and estimate regression equations, various econometric models and the appropriate situations for using them, the implications of estimated parameters, and the conditions under which causal effects are identified. The focus is on application, i.e. conceptualization, interpretation and hands-on data analysis.
Prerequisites: EC 210 [Min Grade: C] and QM 214 [Min Grade: C]

EC 411. Public Finance. 3 Hours.
Principles of taxation, government expenditures, borrowing, and fiscal administration.
Prerequisites: (EC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 413. Urban Economics. 3 Hours.
Economic issues and structure of metropolitan areas. Economic growth and decay of urban regions. Specific topics: housing, education, employment, political economy, and public safety.
Prerequisites: EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00

EC 414. Industrial Organization. 3 Hours.
Structure and performance of monopolistic and oligopolistic industries, emphasizing efficiency, pricing policies, and investment decisions. Extent and nature of concentration in economy as whole.
Prerequisites: (EC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 420. Applied Forecasting. 3 Hours.
Practical use of various forecasting techniques on business and economic data. Topics include dynamic regression models, exponential smoothing, forecast criteria, moving averages, seasonality, and univariate Box Jenkins ARIMA modeling.
Prerequisites: (EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 425. Applied Regression Analysis. 3 Hours.
Simple, multilinear, and polynomial regression analysis. Model selection, inferential procedures, and application with computer.
Prerequisites: (QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 440. Economics for Educators. 3 Hours.
Students will gain an understanding of both basic economic principles and entrepreneurship and learn innovative methods of transferring economic knowledge to elementary and secondary students. Students will also become well-versed in the National and Alabama State standards of learning. Only open to education majors and certified teachers in K-12. This class is not open to economics or business majors.

EC 450. Economics, Institutions & Law. 3 Hours.
The course will study the microeconomic and macroeconomic consequences of different institutional environments and arrangements of designed incentives. This will include political, regulatory and legal structures and rules, both as pertain to actual institutions at the macro level (e.g., the Federal Reserve, the IMF, the World Bank) and regulated structures at the micro level (households and firms). The presumed conceptual frameworks will be based on intermediate microeconomics and introductory macroeconomics. Normative justification of institutional designs will be addressed. EC 320 is a recommended prerequisite.
Prerequisites: (EC 211 [Min Grade: C] and EC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 211 [Min Grade: C] and EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 460. Economics Internship. 3 Hours.
The economics internship program offers qualified students the opportunity to gain first-hand experience in local organizations for a term while receiving academic credit. Participating organizations are expecting to receive high-quality work from the students they sponsor. The active participation by students in actual business decisions of the sponsoring organization is the primary interest of the internship.
Prerequisites: (EC 304 [Min Grade: C] and EC 305 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] and EC 305 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 490. Advanced Topics in Economics. 3 Hours.
Selected topics in economics.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

EC 499. Directed Readings in Economics. 3-12 Hours.
Investigation of specific areas in economics.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)
ECE-Early Childhood Educ Courses

Courses

ECE 320. Introduction to Curriculum and Teaching. 3 Hours. 
Provides basic knowledge of early childhood curriculum for programs serving children birth to age five in a variety of settings. Emphasizes the relationship of child growth and development in the planning and implementation of all areas of curriculum. Whole program overview. Extensive field experience required. Open access.

ECE 331. Creative Learning Expression: Young Child. 1-3 Hour. 
Planning and implementation of activities in art, music, movement, and play considering growth patterns of individual child. Emphasis on preserving and maintaining creative expressions. Laboratory experiences. Extensive field experience required. Open access.

ECE 332. Literature for the Young Child. 3 Hours. 
Literature suitable for young children (grades Nu3). Reading aloud, storytelling, and other planned experiences. Extensive field experience required. Open access.

ECE 333. Young Children: Family/School. 3 Hours. 
Introduction and practicum in early childhood education. Programs, teaching opportunities, professional organizations and publications, trends, contemporary problems, parent involvement, and family relationships. Conducting parent conferences and using volunteers in classroom. Directed observation and participation with children in learning environment required. Extensive field experience required. Open access. 
Prerequisites: EEC 240 [Min Grade: C]

ECE 347. Language Experiences for the Young Child. 3 Hours. 
Emphasizes the learning processes in language arts and effective teaching strategies for children birth to age five with particular focus on infants and toddlers. Open Access.

ECE 390. Practicum in Early Childhood Education. 1-6 Hour. 
Supervised teaching in an early childhood program serving children ages birth to five. Assignments include participation, observation, planning and implementing lessons. 
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 410. Organize Programs: Young Children. 3 Hours. 
Trends, practices, and research in administration, organization, evaluation, and design of early childhood programs. Main focus NAEYC Accreditation. 
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 445. Young Children: Math/Science/Social Studies. 6 Hours. 
Provides for development of concepts required for teaching mathematics, science, and social studies to young children. Emphasizes child growth and development as a basic for planning and teaching the three curricular areas in a variety of programs. Includes teaching methods and use of technology. Extensive field experience required. 
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 446. Communication Arts/Reading: Young Child. 6 Hours. 
Nature of reading and language arts experiences for pre-school children. Technology, materials, experiences, programs, strategies to facilitate development of communication abilities with emphasis on preserving and maintaining creative expression. Integration of learning in areas of listening, speaking, reading, composition, literature, handwriting, spelling and other communication arts. Extensive field experience required. 
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 448. Infant/Toddler Development. 3 Hours. 
The course covers the social-emotional, physical, cognitive, language, and creative development of infants and toddlers and the corresponding appropriate curriculum materials to support development. Extensive field experience required. Open access.

ECE 449. Education Environment: Infant/Parent. 3 Hours. 
This course provides an overview of infant and toddler parenting programs. Topics include parent as child's first teacher, teacher as parent educator, organization and management strategies for parent/child educational programming, parent involvement, and family literacy. Extensive field experience required. Open access.

ECE 460. Current Topics in Early Childhood Education Assessment. 3 Hours. 
In depth experiences in evaluating growth and development of children. Techniques for assessing needs, motivations, self-concept and achievements of children. 
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 490. Student Teaching in Early Childhood Education I. 9 Hours. 
Supervised teaching in early childhood program (grades N-3). 
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C] and ECE 445 [Min Grade: C] and ECE 446 [Min Grade: C] and ECE 460 [Min Grade: C]

ECE 491. Student Teaching in Early Childhood Education II. 3-9 Hours. 
Supervised teaching in early childhood program (grades N-3).

ECE 492. Home Visitation Curriculum Projects. 3 Hours. 
Field projects in home visitation with parents and children ages 0-5.

ECE 494. Field Work in Early Childhood Education. 3-4 Hours. 
Observation and participation experiences with children ages 0-3. 
Prerequisites: ECE 448 [Min Grade: C] and ECE 449 [Min Grade: C] and EEC 301 [Min Grade: C]

ECG-Counseling, Human Services Courses

Courses

ECG 150. Career Planning and Management. 3 Hours. 
Understanding aptitudes, abilities, and interests as related to career alternatives. Group and individual experiences aid self-direction in planning and career management. Values, preferences, skills, and personal resources matched with educational and employment opportunities using variety of experiences and resources.

ECG 152. Let’s BMEN: How to successfully Navigate the collegiate Experience. 1 Hour. 
This course is design to be an academic tool for participants in the BMEN program. Academic skills, and resources along with male perspectives of color will also be presented.

ECG 155. Job Search Strategies. 1 Hour. 
Current occupational information, employer information, and job market trends. Relevance of academic preparation to world of work. Job search strategies and resume preparation.
ECT-Collaborative Teacher Educ Courses

Courses

ECY-Special Education Courses

ECY 300. Survey of Special Education. 3 Hours.
Characteristic and needs of children and youth with exceptionalities. Special education law and policy, characteristics of children and youth with disabilities and their families, and critical issues in the field of special education. This course fulfills requirements for Ethics and Civil Responsibility (ECR).
Prerequisites: EDU 200 [Min Grade: C](Can be taken Concurrently)

ECY 494. Special Topics in Education. 1-6 Hour.
Current topics in Education are presented and discussed.

EDA-Art Education Courses

Courses

EDA 483. Methods of Teaching Art. 3 Hours.
Preparation to teach art in schools. Learning experiences necessary for development of essential teaching competencies. Materials and methods in art studio media, technology skills for art classroom, art history and criticism, and current issues in art education.

EDA 484. Methods of Teaching Art Laboratory. 1 Hour.
Observations in schools. Concurrent enrollment in EDA 483 required.

EDA 490. Student Teaching in Art N-12. 3-9 Hours.
Supervised student teaching in elementary and secondary art.

EDA 499. Internship Seminar in Art Educ. 1 Hour.
Problem solving related to situations such as classroom management, grading, professionalism and ethics, legal issues, and teacher’s rights.

EDF-Foundations of Education Courses

Courses

EDF 361. Ethical Issues in Professional Practice. 2 Hours.
Examines professional ethics and legal issues related to teaching, student supervision, contractual obligation, conditions of employment, and other workplace issues related to conduct and practice in the field of public school teaching. Legal mandates and professional codes of ethics are analyzed. Also addressed are the development of professional judgment and of moral decision making abilities.

EDF 362. Foundations of Education I: Social, Historical, Philosophical. 3 Hours.
Realities of contemporary professional education and active participatory field experience in teaching situations. Seminars on current issues and problems in education, role and value of diversity in education, and the construction and implementation of ethically defensible pedagogies. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EDU 200 [Min Grade: C](Can be taken Concurrently)

EDF 363. Special Topics in Education Foundations. 3 Hours.
Educational Foundations Special Topics.

EDH-Education Honors Courses
EDR-Reading Education Courses

Courses

EDR 341. Beginning Reading Experiences for the Young Child. 3 Hours.
Beginning reading experiences for the young child.
Prerequisites: EDR 440 [Min Grade: C]

EDR 421. Reading in Context Areas. 1 Hour.
Application of principle of reading process to content-area materials and instruction. Designed for pre-service teachers. Field experience required concurrently with the field experience in a teaching methods course.
Supervision fee.

EDR 440. Developmental Reading L. 3 Hours.
Materials and methods. Emphasis on planning balanced program and understanding reading process. Extensive field experience required.

EDR 441. Literature for Adolescents. 3 Hours.
Literary works written for or about adolescents.

EDR 442. Reading in Context Areas. 3 Hours.
Application of principles of reading process to content-area materials and instruction. Designed for elementary, middle, and high school pre-service teachers. Extensive field experience required. Admission to TEP required. Supervision fee.
Prerequisites: EHS 401 [Min Grade: D]

EDR 443. Developmental Reading II. 3 Hours.
Application of principles of reading process to content-area materials and instruction. Designed for elementary and middle school pre-service teachers. Extensive field experience required.
Prerequisites: EDR 440 [Min Grade: C]

EDR 450. Literature for Elementary/Middle School. 3 Hours.
EE 233. Engineering Programming Methods. 3 Hours.
Program design techniques, data structures, coding and documentation standards. File I/O. Product design and life cycles. Testing and software tools. Lecture and computer laboratory.
Prerequisites: (MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C]) (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently) or BME 150 [Min Grade: C] or EGR 150 [Min Grade: D] (Can be taken Concurrently) and EE 316 [Min Grade: C] or EE 316L. Electrical Networks laboratory component. EE 316 must be taken concurrently.

EE 254. Applied Numerical Methods. 3 Hours.
Selected mathematical and computational topics appropriate to the numerical solution of engineering problems.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: D] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or MA 252 [Min Grade: C] or EE 314 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]).

EE 300. Engineering Problem Solving II. 3 Hours.
Selected mathematical and computational topics appropriate to the solution of engineering problems, including probability and statistics.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: D] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) or EE 310 [Min Grade: C]).

EE 305. Fundamentals of Electrical Engineering. 3 Hours.
Survey of topics fundamental to field of electrical engineering. For non-engineering majors. Not available for credit toward engineering major.
Prerequisites: MA 109 [Min Grade: C] or EE 312 [Min Grade: C] or EE 314 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 226 [Min Grade: C] and PH 221 [Min Grade: C]).

EE 314. Electrical Circuits. 3 Hours.
Introduction to DC circuit analysis, AC steady-state analysis, first-order transient analysis, ideal transformers, and electrical safety. For EE Majors.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C].

EE 314R. Electrical Circuits Recitation. 0 Hours.
An application based course designed to reinforce concepts from EE 314.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C].

EE 316. Electrical Networks. 4 Hours.
Analysis of circuits using classical differential/integral techniques, Laplace transforms, and two-port network parameters. Circuit solution using simulation. EE 316L must be taken concurrently. Quantitative Literacy is a significant component of this course.
Prerequisites: EGR 265 [Min Grade: D] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: D]) (Can be taken Concurrently) and (EH 101 [Min Grade: C] and PH 222 [Min Grade: C]) and EE 314 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]).

EE 316L. Electrical Networks Laboratory. 0 Hours.
Electrical Networks laboratory component. EE 316 must be taken concurrently.

EE 318. Methods of System Analysis. 3 Hours.
Time-domain and frequency-domain methods for modeling and analyzing continuous and discrete-time signals and systems. Fourier, Laplace, and Z transform methods.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (MA 226 [Min Grade: C] and PH 222 [Min Grade: C]) and EE 312 [Min Grade: C] or EE 314 [Min Grade: C] and EE 316 [Min Grade: C].

EE 333. Engineering Programming Using Objects. 3 Hours.
Software development emphasizing object-oriented methods. Design and develop programs using existing classes and newly created classes. A graphical user interface framework will be used as extensive example of Object Oriented System. Develop skills in project management, written and oral communication, teams, and an introduction to ethics and intellectual property issues.
Prerequisites: EE 233 [Min Grade: D]

EE 337. Introduction to Microprocessors. 4 Hours.
Application of microcomputers to engineering problems such as data acquisition and control. Topics include CPU architecture, assembly language, and input/output interfacing. EE 337L must be taken concurrently.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D]

EE 337L. Introduction to Microprocessors Laboratory. 0 Hours.
Introduction to Microprocessors laboratory component. EE 337 must be taken concurrently.

EE 341. Electromagnetics. 3 Hours.
Mathematical techniques used to solve electromagnetics problems. Fundamental concepts and applications for dynamic and static problems. Electromagnetic wave propagation and transmission. Transmission lines.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (MA 226 [Min Grade: C] and PH 222 [Min Grade: C]) and EE 300 [Min Grade: D] (Can be taken Concurrently) and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C] or EE 316 [Min Grade: C]).

EE 351. Electronics. 4 Hours.
Solid-state electronics, bipolar junction and field-effect transistor (FET) properties, biasing, frequency response, single and multistage amplifier circuits. EE 351L must be taken concurrently.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and EE 210 [Min Grade: C] and PH 222 [Min Grade: C] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C].

EE 351L. Electronics Laboratory. 0 Hours.
Electronics laboratory component. EE 351 must be taken concurrently.

EE 361. Machinery I. 4 Hours.
Fundamentals and applications of polyphase circuits, magnetic circuits, transformers, polyphase synchronous and asynchronous machines. EE 361L must be taken concurrently.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and PH 222 [Min Grade: C].

EE 361L. Machinery I Laboratory. 0 Hours.
Machinery I laboratory component. EE 361 must be taken concurrently.
EE 412. Practical Computer Vision. 3 Hours.
Fundamentals and applications of computer vision: image preprocessing, detection, segmentation, registration, classification and recognition, texture and color, visual tracking.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and EGR 150 [Min Grade: C] and EE 300 [Min Grade: D] and EE 314 [Min Grade: C] and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 418. Wireless Communications. 3 Hours.
Wireless communication system topics such as propagation, modulation techniques, multiple access techniques, channel coding, speech and video coding, and wireless computer networks.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 421. Communication Systems. 3 Hours.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 423. Digital Signal Processing. 3 Hours.
Digital filter analysis and design. FFT algorithms. Applications of digital signal processing in engineering problems such as data acquisition and control. Lecture and laboratory.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 426. Control Systems. 3 Hours.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 427. Controls and Automation. 3 Hours.
Power control devices and applications. Relay logic and translation to other forms. Programmable logic controllers. Proportional-integral-derivative and other methods for process control. Modern laboratory instrumentation and man-machine interface software. Lecture and laboratory.
Prerequisites: EE 233 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D] and EE 351 [Min Grade: C]

EE 431. Analog Integrated Electronics. 4 Hours.
Advanced analysis and design using op-amps, with emphasis on error analysis and compensation. Applications include signal conditioning for instrumentation, instrumentation amplifiers, nonlinear and computational circuits. Butterworth and Chebyshev filter design, power amplifier design, voltage regulator design, and oscillators. A-to-D and D-to-A conversion methods. Laboratory exercises emphasize design techniques. Lecture and laboratory.
Prerequisites: EE 210 [Min Grade: C] and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: D] and EE 351 [Min Grade: D] (Can be taken Concurrently) and EE 318 [Min Grade: D]

EE 432. Introduction to Computer Networking. 3 Hours.
Computer networking and engineering standards related to networking. Networking hardware, software, and protocols including TCP/IP protocol suite. Internetworking, LANS, and typical applications.
Prerequisites: EE 233 [Min Grade: D]

EE 433. Engineering Software Solutions. 3 Hours.
Project planning, specification, design, implementation, and testing of software solutions for engineers. Waterfall model of development and agile development methods. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D] and EE 333 [Min Grade: D] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) and EE 130 [Min Grade: C] or ME 130 [Min Grade: C] or EE 134 [Min Grade: C]

EE 434. Power Semiconductor Electronics. 3 Hours.
Fundamentals of integrated circuit design for radio-frequency and power converter circuits. Course contents include basics of RF circuit theory, matching networks, high frequency MOS model, low-noise-amplifier, voltage controlled oscillator, fundamentals of power electronics, power semiconductor switches, steady-state equivalent circuit modeling, DC transformer model, basic AC equivalent circuit modeling, linearization and perturbation, etc. Students will require accomplishing a computer aided design, simulation and chip layout of an integrated circuit design project.
Prerequisites: EE 316 [Min Grade: C] and EE 318 [Min Grade: D] and EE 351 [Min Grade: D]

EE 437. Introduction to Embedded Systems. 3 Hours.
Applications of microprocessors in engineering problems such as data acquisition and control, and real-time input/output. Lecture and laboratory.
Prerequisites: (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) and EE 130 [Min Grade: C] or ME 130 [Min Grade: C] or EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 438. Computer Architecture. 3 Hours.
Advanced microprocessor topics including cache design, pipelining, superscalar architecture, design of control units, microcoding, and parallel processors. Comparison of advanced, contemporary microprocessors from Intel and IBM. EE 337 (Introduction to Microprocessors) is a recommended prerequisite for this course.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 444. Real-Time Process & Protocols. 3 Hours.
Hands-on laboratory course covering topics in real-time computer systems such as algorithms, state-machine implementations, communication protocols, instrumentation, and hardware interfaces.
Prerequisites: EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 447. Internet/Intranet Application Development. 3 Hours.
Development of models and applications using Internet/Intranet technologies such as JavaScript, Dynamic HTML, server side scripting, multi-tier models, and XML. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D]

EE 448. Software Engineering Projects. 3 Hours.
Object-oriented concepts and design. Unified Modeling Language and design patterns. Provides a project environment for implementation of systems using object-oriented techniques. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D] and EE 333 [Min Grade: D]

EE 452. Digital Systems Design. 3 Hours.
Digital system design, verification, and simulation using VHDL. Lecture and laboratory.
Prerequisites: EE 337 [Min Grade: D] and EE 210 [Min Grade: C] and EE 233 [Min Grade: D]
EE 458. Medical Instrumentation. 3 Hours.
Fundamental operating principles, applications, and design of electronic instrumentation used in measurement of physiological parameters.
Prerequisites: EE 351 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C]

EE 461. Machinery II. 3 Hours.
Physical principles of DC machines. Mathematical analysis of generator designs using equivalent circuits and magnetization curves. Calculation of motor speed, torque, power, efficiency, and starting requirements. Solid-state speed control systems.
Prerequisites: EE 361 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C]

EE 471. Power Systems I. 3 Hours.
Components of power systems. Performance of modern interconnected power systems under normal and abnormal conditions. Calculation of inductive and capacitive reactances of three-phase transmission lines in steady state.
Prerequisites: EE 431 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C]

EE 472. Power Systems II. 3 Hours.
Prerequisites: EE 471 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C]

EE 473. Protective Relaying of Power Systems. 3 Hours.
Operating principles of protective relays. Protection of transmission lines, generators, motors, transformers, and buses.
Prerequisites: EE 361 [Min Grade: C] and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 485. Engineering Operations. 3 Hours.
Economic, procedural, planning, and control aspects of engineering projects. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EGR 111 [Min Grade: C] or EGR 200 [Min Grade: C] and EE 310 [Min Grade: C] and (EE 314 [Min Grade: C] or EE 312 [Min Grade: C]

EE 489. Undergraduate Engineering Research. 0 Hours.
Undergraduate research experiences in electrical engineering.
Prerequisites: EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C] or EGR 200 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (PH 221 [Min Grade: C]) (Can be taken Concurrently)

EE 490. Special Topics in (Area). 3 Hours.
Topic assigned with course.

EE 491. Special Problems in (Area). 3 Hours.
Topic assigned with course.

EE 492. Honors Research I. 4 Hours.
Departmental honors students work closely with faculty to develop research skills.
Prerequisites: EGR 301 [Min Grade: P] (Can be taken Concurrently)

EE 493. Honors Research II. 4 Hours.
Departmental honors students work closely with faculty to develop research skills.
Prerequisites: EGR 301 [Min Grade: P]

EE 498. Team Design Project I. 3 Hours.
Senior Design Team Project Course Part I. Analysis and design of assigned team project, including design review and documentation. Must have an approved Application for Degree on file and must be in final year of his/her program.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: C] and EE 337 [Min Grade: D] and EE 485 [Min Grade: D] (Can be taken Concurrently) and EE 351 [Min Grade: D] (Can be taken Concurrently)

EE 499. Team Design Project II. 3 Hours.
Senior Design Team Project Course Part II. Capstone design project: design and implementation of assigned team project, including design review, demonstration, and documentation. Must have an approved Application for Degree on file and must be in final year of his/her program.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: C] and EE 337 [Min Grade: D] and EE 351 [Min Grade: D] and EE 485 [Min Grade: D] and EE 421 [Min Grade: D] (Can be taken Concurrently) and EE 426 [Min Grade: D] (Can be taken Concurrently) and EE 431 [Min Grade: D] (Can be taken Concurrently)

EEC-Elem & Early Childhood Courses

Courses

Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on children's growth. Early childhood (birth-6 years). Includes field experiences.

Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on children's growth. Middle childhood (6-12 years). Includes field experiences.

EEC 300. Child Development/Family Relationships. 3-4 Hours.
Interrelationship of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on human growth from conception through adolescent years. Extensive field experience required.
Prerequisites: EDU 200 [Min Grade: C]

EEC 301. Introduction to P-6 Education. 3 Hours.
Basic knowledge of early childhood and elementary school curricula in variety of settings from infancy programs through elementary school. Theories and practical approaches to teaching and to curriculum development; relationship between child growth and development and areas of curriculum. Observation in early childhood and elementary programs required. Extensive field experience required.
Prerequisites: EDU 200 [Min Grade: C]
EEC 302. Expressive Arts (P-6). 1 Hour.
Creativity through numerous experiences in music, theatre, dance, and visual arts. Experiences correlate with literacy skills, critical thinking skills, symbols, and images that can be directly applied to both teacher-centered and child-centered methods of teaching. Extensive field experience required.

EEC 402. Primary Math Methods. 3 Hours.
A math methods course focusing on emergent mathematical concepts for young children. Extensive field experience required.

EEC 405. Children’s Literature in Early Childhood and Elementary Education. 3 Hours.

EEC 406. Language Arts in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Communication-based approach in developing effective language arts program. All aspects of language arts program addressed. Extensive field experience required.

EEC 411. Discipline and Classroom Management. 3 Hours.
Theoretical and practical application of various theories of discipline. Development of skills in management of student behavior and classroom environment.

EEC 412. Math in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of mathematics program. Computational skills and problem solving. Field experiences required.
Prerequisites: EEC 405 [Min Grade: C] and EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

EEC 413. Science in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of science program. Inquiry, science process skills, and concept development. Extensive field experience required.
Prerequisites: EEC 405 [Min Grade: C] and EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

EEC 414. Social Studies in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of social studies curriculum. Teaching strategies, program articulation, and instructional planning. Extensive field experience required.
Prerequisites: EEC 405 [Min Grade: C] and EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

EEC 415. Learning Environments through Positive Behavior Support. 3 Hours.
Theoretical approaches that focus on child centered curriculum, classroom management, discipline strategies and cultural, linguistic, and developmentally appropriate instruction. Extensive field experience required.

EEC 440. Workshop in Education: Strategies for English Learners. 1-6 Hour.
Strengthen proficiency in teaching English learners in the mainstream classroom. Develop understanding of second language acquisition, culturally responsive teaching, accommodations for varying language levels, and appropriate assessments for English learners. Practice family planning, implementing, and managing sheltered instructions.

EEC 460. Current Topics in Education. 3 Hours.
Topics vary. May be repeated for maximum of six hours of differing topics.

EEC 465. Teaching Globe and Map Skills. 3 Hours.
Concepts and skills related to understanding functional use of globes and maps. Strategies and methods for teaching concepts and skills to children. Curriculum scope, sequence, continuity, and application within social studies program. Materials and resources for teaching. Admission to TEP required.

EEC 490. Internship in P-3/3-6. 9 Hours.
Supervised capstone teaching experience in early childhood (P-3) and elementary (K-6) program. Gradual assumption of responsibility for planning and teaching for the entire class (minimum of 12 weeks). Supervision in working with resource professionals and parents.

EEC 491. Internship Seminar in P-6 Education. 1,3 Hour.
Supports and extends efforts of student teaching. Problem solving related to classroom situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

EEC 492. Individual Curriculum Project: Area Specific. 3-6 Hours.
Field projects in curriculum modification and improvement of classroom practice. Permission of instructor required.

EEC 493. Individual Readings. 1-3 Hour.
Individualized readings on special topics. Permission of instructor required.

EEC 494. Field Work in Early Childhood and Elementary Education. 2 Hours.
Observation and participation experiences with children.

EGR-Engineering Courses

Courses

EGR 110. Introduction to Engineering I. 1 Hour.
Introduction to profession of engineering, engineering specialties; education requirements; team work and present and future societal demands on profession.
Prerequisites: MA 105 [Min Grade: C] (Can be taken Concurrently) or MA 106 [Min Grade: C] (Can be taken Concurrently) or MA 107 [Min Grade: C] (Can be taken Concurrently) or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently)

EGR 111. Introduction to Engineering II. 1 Hour.
Ethics and safety; career opportunities in engineering, introduction to engineering design and technical communications; team work and present and future societal demands on profession.
Prerequisites: EGR 110 [Min Grade: C]

EGR 125R. Engineering Applications of Calculus I. 1 Hour.
An application based course designed to reinforce concepts from MA 125.

EGR 126R. Engineering Applications of Calculus II. 1 Hour.
An application based course designed to reinforce concepts from MA 126.
EGR 150. Computer Methods in Engineering. 3 Hours.
An introduction to engineering computation using MATLAB language and Excel. Basic programming skills using built-in functions is emphasized. Generation and manipulation of vectors and matrices, operations on vectors/matrices, plotting, iterations calculations. If else and other logical constructs, and data input/output are covered. Engineering applications are used throughout the course.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently)

EGR 197. Engineering Approaches to Problem Solving I. 1-3 Hour.
EGR 197 offers an introduction to a rationally developed method of solving practical problems. This is engineering. Starting with the ancient Greeks, who initiated reasoned speculation, and the Romans, who made practical use of it, the course develops an understanding of why we approach problems the way we do.

EGR 198. Engineering Approaches to Problem Solving II. 1-3 Hour.
Building on engineering principles, focus on the engineering process. Develop and practice good communication, collaboration and presentation skills. Explore interdisciplinary approaches through hands-on projects.

EGR 199. Engineering Approaches to Problem Solving III. 1-3 Hour.
EGR 199 builds on knowledge gained in EGR 197 and 198. While EGR 197 & 198 regarded the theories and practice of integrational engineering principles, this course focuses on innovation. The hows of creating new solutions to old problems will be explored.

EGR 200. Introduction to Engineering Design. 2 Hours.
Profession of engineering; ethics and safety, engineering specialties and career opportunities, educational requirements, introduction to engineering design, team work and technical communications, and present and future societal demands on profession.
Prerequisites: (MA 102 [Min Grade: C] or MA 105 [Min Grade: C] (Can be taken Concurrently) or MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently)

EGR 265. Math Tools for Engineering Problem Solving. 4 Hours.
Designed to allow engineering majors to utilize the terminology and problem-solving approaches inherent to engineering, while completing their mathematical preparation.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

EGR 301. Honors Research I. 1 Hour.
Introduces students to research methodology, ethics, data analysis, and technical communication. Students must be invited into program in order to enroll.
Prerequisites: MA 227 [Min Grade: C] or EGR 265 [Min Grade: D]

EGR 400. Special Topics in (Study Abroad). 0-9 Hours.
Independent studies in various subject and/or service areas outside the state of Alabama or the continental United States.

EGR 410. Engineering Service Learning in Education. 1-6 Hour.
Course provides students an opportunity to help students in K-12 to analyze and solve problems using engineering concepts and design process to engage and excite them about engineering, science, and technology.

EGR 420. Engineering in Service Learning through EiSAL. 0-6 Hours.
This course will allow engineering students the opportunity to communicate and live in other cultural environments, allowing them to share interdisciplinary engineering design and analysis in a real-world setting. It will also allow them the opportunity to work in multi-cultural groups to solve a common problem.

EGR 440. Social Responsibility in Global Health. 1 Hour.
This course provides students with an understanding of key social and economic concepts of global health that, together with an understanding of interprofessional collaboration and community partnerships, will enable them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the interprofessional global health service learning program at the University of Alabama at Birmingham.

EGR 441. Interprofessional Collaboration (IPC) and Community Partnerships in Global Health. 1 Hour.
This course provides students with an understanding of principles of interprofessional collaboration and community partnerships that, together with key social and economic concepts of global health, enables them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners.

EGR 442. EGR Service Learning in Intertropical and Global Health. 1 Hour.
This course provides students with an opportunity to apply principles of interprofessional collaboration, community partnerships, and global health in the development of a plan to address a global health problem in collaboration with a community partner. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the global health service learning program at the University of Alabama at Birmingham.

EGR 450. Engineering Service Learning: Teaching Experiences. 1 Hour.
This course provides engineering students the opportunity to assist engineering faculty and fellow students in a tutorial environment by serving as teaching assistants in engineering service courses.

EGR 481. Interdisciplinary Project Lab. 3 Hours.
Multidisciplinary student teams (engineering, business, arts) engineer devices based on client needs. The project team will collaborate with the client to establish an appropriate engineering design to meet user needs. Students are trained in product development, product design, engineering validation and will develop training and documentation market analysis, business plan and a go-to-market strategy as appropriate for the project.
Prerequisites: (ME 102 [Min Grade: C] and CE 210 [Min Grade: C] and EE 312 [Min Grade: C]) or CE 360 [Min Grade: C] or EE 337 [Min Grade: D] and EE 351 [Min Grade: D]) or (ME 322 [Min Grade: C] and ME 371 [Min Grade: C]) or MSE 281 [Min Grade: D]

EGR 490. Special Topics in (Area). 0-6 Hours.
Special Topics in engineering.

EGR 499. Industrial Distribution Senior Design Project. 4 Hours.
Capstone design project: interdisciplinary design teams, ethics, materials selection, the design process, development of a proposal, project planning and scheduling, project execution and resource scheduling. Successful completion and oral defense of a design project. Limited to students majoring in Industrial Distribution.
EH-English Courses

Courses

EH 091. Introduction to College English. 5 Hours.
Focuses on connections between reading and writing, especially as they relate to a writer's purpose and development of academic writing. Includes review of grammar, punctuation, and usage, with emphasis on editing skills and writing effective paragraphs and expository essays. Required for students who score below 20 on the English or Reading portions of the ACT test. Prepares students for EH 101; may not be used for fulfillment of any degree requirement.

EH 096L. Introduction to Freshman Writing I. 3 Hours.
EH 096L provides individualized, hands-on support to students in EH 106 through writing studio sessions with their EH 106 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 106. Students must pass EH 096L in order to make a C or above in EH 106.

EH 097L. Introduction to Freshman Writing II. 2 Hours.
EH 097L provides individualized, hands-on support to students in EH 107 through writing studio sessions with their EH 107 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 107. Students must pass EH 097L in order to make a C or above in EH 107.
Prerequisites: EH 106 [Min Grade: C] and EH 096L [Min Grade: P]

EH 101. English Composition I. 3 Hours.
Process and final product of expository and analytical essays. Research and documentation required on most essays. Students must receive grade of C or higher in EH 101 and 102 to complete Core Curriculum requirement in English language. (Also see CLEP examinations and AP examinations.).
Prerequisites: EH 091 [Min Grade: C] or (A01 20 and A03 20) or (S01 480 or SATR 26) or (EHWS 29 and EHRS 18)

EH 102. English Composition II. 3 Hours.
Process and final product of argumentative essays. Research and documentation required on most essays. Students must receive grade of C or higher in EH 101 or EH 102 to complete Core Curriculum requirement in English language. (Also see CLEP examinations and AP examinations.).
Prerequisites: EH 101 [Min Grade: C]

EH 105. Ada Long Creative Writing Workshop. 1 Hour.
Introductory course in creative writing for high school students with demonstrated creative writing abilities.

EH 106. Introduction to Freshman Writing I. 3 Hours.
English 106 provides a hands-on, individualized study of expository and analytical writing, including developing strong processes of drafting, revising and editing. Co-requisite with EH 096L. EH 106 and EH 096L are required for students who score below 20 on the English or Reading portions of the ACT test. Students must receive grade of C or higher in EH 106 and grade P for EH 096L and grade of C or higher in EH 107 and grade P for EH 097L to complete Core Curriculum in English Language. (Also see CLEP examinations and AP examinations).

EH 106L. Introduction to Freshman Writing I--Lab. 3 Hours.
EH 106L provides individualized, hands-on support to students in EH 106 through writing studio sessions with their EH 106 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 106. Students must pass EH 106L in order to make a C or above in EH 106.

EH 107. Introduction to Freshman Writing II. 3 Hours.
English 107 provides a hands-on, individualized study of research, academic writing, and argumentation, including developing strong processes of drafting, revising and editing. Co-requisite with EH 097L. EH 107 and EH 097L are required for students who score below 20 on the English or Reading portions of the ACT test. Students must receive grade of C or higher in EH 106 and grade P for EH 096L and grade of C or higher in EH 107 and grade P for EH 097L to complete Core Curriculum in English Language. (Also see CLEP examinations and AP examinations).
Prerequisites: EH 106 [Min Grade: C] and EH 096L [Min Grade: P]

EH 107L. Introduction to Freshman Writing II--Lab. 2 Hours.
EH 107L provides individualized, hands-on support to students in EH 107 through writing studio sessions with their EH 107 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 107. Students must pass EH 107L in order to make a C or above in EH 107.
Prerequisites: EH 106 [Min Grade: C] and EH 106L [Min Grade: P]

EH 108. English Composition I for Second Language Writers. 3 Hours.
Process and final product of expository and analytical essays with support for second language writers. Research and documentation required on most essays. Students must receive grade of C or higher in EH 108 and 109 to complete core curriculum requirement in English language. (Also see CLEP examinations and AP examinations.).

EH 109. English Composition II for Second Language Writers. 3 Hours.
Process and final product of argumentative essays with support for second language writers. Research and documentation required on most essays. Students must receive grade of C or higher in EH 108 and EH 109 to complete core curriculum requirement in English Language. (Also see CLEP examinations and AP examinations.).
Prerequisites: EH 108 [Min Grade: C]

EH 202. English Composition II: Scientific and Technical Communication. 3 Hours.
This course will be paired with EH 102, enrolling students from the Science and Technology Honors Program who have already completed (or received credit for) EH 102. In addition to covering material required for all sections of EH 102, this course introduces students to the specific rhetorical elements of scientific and technical discourse.
Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

EH 203. Writing in Birmingham. 3 Hours.
Improvement of skills for public writing, using Birmingham as geographical, historical, and institutional context. Emphasis on issues related to Birmingham's past and present, including the ethics and civic responsibilities of Birmingham residents. Ethics and Civic Responsibility and Writing are significant components of this course.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 205. Introduction to Creative Writing. 3 Hours.
An introduction to the writing of fiction, poetry, and the creative essay. Emphasis on fundamentals of writing creatively, with students producing original work in each of the three genres.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 210. Interpreting Film. 3 Hours.
Introduction to film analysis, surveying the language of film, the structure of film narrative, major genres, and the relationship between film and its social context.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 212. Forms of Literature. 3 Hours.
Study of literary forms and genres such as poems, short stories, novels, plays, films, and other kinds of literature. Emphasis on techniques of each form. Writing is a significant component of this course.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 213. Ideas in Literature. 3 Hours.
Investigation of an idea or theme as it appears in a diverse set of literary works. Emphasis on the ways in which works of literature engage with and interrogate broader cultural ideas. Writing is a significant component of this course.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 214. Introduction to Literature: Special Topics. 3 Hours.
Study of an individual author, a specific genre, or an important literary movement. Selections will vary according to instructor. Writing is a significant component of this course.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 216. Introduction to Literature. 3 Hours.
Short stories, novellas, poems, and plays from variety of historical periods and cultures. Emphasis on techniques of each genre. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 217. World Literature I: Before 1660. 3 Hours.
World literature before 1660. Emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 218. World Literature II: 1660-Present. 3 Hours.
World literature since 1660. Emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 221. British and Irish Literature I: Before 1800. 3 Hours.
British/Irish literature from Anglo-Saxon period to end of eighteenth century with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 222. British and Irish Literature II: 1800-Present. 3 Hours.
British/Irish literature from end of eighteenth century into twentieth century with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 223. American Literature I: Before 1865. 3 Hours.
American literature from 1620 to 1865 with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 224. American Literature II: 1865-Present. 3 Hours.
American literature 1865 to present with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 300. Engineering Communication. 2 Hours.
Introduces engineering students to the theory and practice of communicating effectively in various organizational contexts. Subjects covered include managing and producing professional reports, proposals, and feasibility studies; communicating ethically in the workplace; and presenting ideas to multiple audiences in written and oral formats. Required for most undergraduate engineering majors.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 301. Reading, Writing, and Research for English Majors. 3 Hours.
Designed to improve skills for critical writing about literary texts. Strong emphasis on analytical thinking and on the ethics of argumentation. Required for English majors; recommended prior to taking 400-level courses.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 302. Intermediate Writing. 3 Hours.
This course is designed for non-English majors who wish to improve the quality of their writing.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 303. Advanced Composition. 3 Hours.
Improvement of skills for academic and public writing, focusing on analysis and critique. Writing is a significant component of this course.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 304. Editing in Professional Contexts. 3 Hours.
Theory and practice of editorial/rhetorical concerns throughout writing process, particularly as related to professional contexts. Writing is a significant component of this course.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 305. Beginning Poetry Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 306. Beginning Poetry Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 307. Beginning Creative Nonfiction Writing Workshop. 3 Hours.
Seminar teaching fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 308. Beginning Creative Nonfiction Writing Workshop. 3 Hours.
Seminar teaching fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 310. Beginning Fiction Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
EH 311. English Internship. 3 Hours.
On-campus and off-campus training positions in fields utilizing language and writing skills, with some positions offering external funding. Students should contact the Director of Internships to discuss available positions and application procedures. May be counted as elective only in professional writing concentration and writing minor with approval of the Undergraduate Director.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 315. Introduction to Professional Writing. 3 Hours.
Introduces students to professional writing as a discipline and teaches them to compose professional documents. Recommended prior to taking 400-level courses.

EH 318. Science Fiction. 3 Hours.
Modern science fiction, including novels and short stories by Asimov, Heinlein, LeGuin, and others.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 324. African-American Special Topics. 3 Hours.
See Class Schedule for Topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 326. Pre-1800 Literature: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 327. Post-1800 Literature: Special Topics. 3 Hours.
See Class Schedule for Topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 328. English Elective: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 329. Literature of the Vikings. 3 Hours.
Old Norse mythology, poetry, and sagas in translation. Background for Beowulf.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 330. Professional Writing: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.

EH 332. Public Discourse: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.

EH 339. Twentieth Century Theater. 3 Hours.
Study of major works in 20th century drama.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 340. Developing Digital Documents. 3 Hours.
Provides students the opportunity to plan, write, and design documents using computer aided publishing technologies.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 350. Introduction to Linguistics. 3 Hours.
Introduction to the scientific study of language with a main focus on principles underlying phonology morphology, syntax and semantics. Relationship between language and society, psycholinguistics and language typology may also be addressed.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 351. Structure of English. 3 Hours.
Description and analysis of present-day English grammar with particular attention paid to the structure of phrases, clauses and sentences, including parts of speech, coordination, subordination, tense, aspect, voice, grammatical functions, agreement and clause types.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 352. The Structure of English Words. 3 Hours.
Introduction to English vocabulary elements and word formation, including topics in history of English and sound patterns as these topics relate to word formation. Does not count as literature for Core Curriculum requirement.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 355. Introduction to Sociolinguistics. 3 Hours.
Social factors that play role in language usage and learning; emphasis on American English.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 356. Semantics. 3 Hours.
Meaning in language with reference to questions of synonymy, ambiguity, and language use.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 360. Phonology. 3 Hours.
Sound patterning of languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 365. African American Literature, 1746-1954. 3 Hours.
Cultural values from colonial writer Lucy Terry, through slavery and emancipation, to Ralph Ellison and writers of early 1950s. Emphasis on role of diversity and how historical issues of race relate to modern contexts. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 366. African American Literature, 1954-Present. 3 Hours.
Cultural values from James Baldwin in 1950s, through black nationalist, civil rights, and black feminist movements, to contemporary writers such as Ishmael Reed, Charles Johnson, and Toni Morrison. Emphasis on role of diversity and how historical issues of race relate to modern contexts. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 367. Southern Literature. 3 Hours.
Literature of American South: Faulkner, Jefferson, Douglass, Chopin, O'Connor, and others.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]
EH 369. The American Dream. 3 Hours.
Literature expressing values and ideals of American people from Hawthorne and Thoreau to Richard Wright and Adrienne Rich. 
**Prerequisites:** EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 376. Shakespeare. 3 Hours.
Five or six plays: one history, one comedy, three major tragedies. Intensive study of two or more tragedies. 
**Prerequisites:** EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 389. Bible as Literature. 3 Hours.
Literary themes and styles of Old and New Testaments. 
**Prerequisites:** EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 393. Special Topics in Linguistics. 3 Hours.
See class schedule for topic. 
**Prerequisites:** EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 401. Tutoring Writing. 3 Hours.
Seminar focusing on the improvement of writing skills through understanding theories of tutoring. Preparation of future teachers for tutor training and writing center development. Writing is a significant component of this course. 
**Prerequisites:** EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 402. Writing in Popular Periodicals. 3 Hours.
Current theory regarding production, distribution, and consumption of popular periodicals, with extensive practice contributing to these sources. Writing is a significant component of this course. 
**Prerequisites:** EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 403. Business Writing. 3 Hours.
Advanced writing course focusing on writing clearly and ethically in professional business contexts, with particular emphasis on memos, letters, resumes, and reports. Writing, Ethics and Civic Responsibility are significant components of this course. 
**Prerequisites:** EH 203 [Min Grade: C] or EH 204 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 404. Technical Writing. 3 Hours.
Advanced writing concentrating on short informal and long formal reports. Quantitative literacy is a significant component of the course. 
**Prerequisites:** EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 405. Poetry Writing Workshop (Seminar). 3 Hours.
Intermediate poetry seminar conducted through critique of student writing. 
**Prerequisites:** EH 305 [Min Grade: C] or EH 306 [Min Grade: C]

EH 406. Poetry Writing Workshop (Seminar). 3 Hours.
Intermediate poetry seminar conducted through critique of student writing. 
**Prerequisites:** EH 305 [Min Grade: C] or EH 306 [Min Grade: C]

EH 407. Creative Nonfiction Writing Workshop (Seminar). 3 Hours.
Intermediate creative nonfiction seminar conducted through critique of student writing. 
**Prerequisites:** EH 307 [Min Grade: C] or EH 308 [Min Grade: C]

EH 408. Creative Nonfiction Writing Workshop (Seminar). 3 Hours.
Intermediate creative nonfiction seminar conducted through critique of student writing. 
**Prerequisites:** EH 307 [Min Grade: C] or EH 308 [Min Grade: C]

EH 409. Fiction Writing Workshop (Seminar). 3 Hours.
Intermediate prose fiction seminar conducted through critique of student writing. 
**Prerequisites:** EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 410. Fiction Writing Workshop (Seminar). 3 Hours.
Intermediate prose fiction seminar conducted through critique of student writing. 
**Prerequisites:** EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 411. Capstone Internship. 3 Hours.
This course is available to qualified English majors who wish to apply their knowledge and skills to a work setting. Students will fulfill the requirements for a university capstone course by reflecting on the applicability of disciplinary knowledge to internship responsibilities. Students should contact the Director of Internships to discuss available positions and application procedures. 
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 411L. Lab Section for Capstone Internship. 0 Hours.
Lab to supplement the Capstone Internship.

EH 412. Forms of Poetry. 3 Hours.
Study of prosody and works of major formalist poets. Includes writing poems in received forms and modes and critiquing those in workshop setting. 
**Prerequisites:** EH 405 [Min Grade: C] or EH 406 [Min Grade: C]

EH 413. Forms of Creative Nonfiction. 3 Hours.
Intensive study of one or more major nonfiction forms such as memoir, essay, or literary journalism. Includes writing nonfiction forms and critiquing them in a workshop setting. 
**Prerequisites:** EH 407 [Min Grade: C] or EH 408 [Min Grade: C] or EH 409 [Min Grade: C] or EH 410 [Min Grade: C]

EH 414. Modern British and European Drama. 3 Hours.
Techniques and problems of modern European drama: Ibsen, Shaw, Chekhov, Synge, Pirandello, Brecht, Beckett, and others. 
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 415. Forms of Fiction. 3 Hours.
Intensive study of one or more aspects of fiction. Includes writing and critiquing in a workshop setting. 
**Prerequisites:** EH 407 [Min Grade: C] (Can be taken Concurrently) or EH 408 [Min Grade: C] or EH 409 [Min Grade: C] or EH 410 [Min Grade: C]

EH 416. Modern American Poetry. 3 Hours.
Selections from Frost, Stein, Stevens, Pound, Eliot, Williams, Doolittle, Jeffers, Moore, McKay, Loy, Toomer, Crane, Hughes, and others. 
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)
EH 419. Young Adult Literature. 3 Hours.
Close reading of young adult literature and study of its form and history, its assumptions about adolescent psychology, and its literary relationship to the traditional canon.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 420. World Literature. 3 Hours.
Selections in translation from Greek, Roman, and Hebrew classics, other literature, and oral tradition.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 421. World Literature. 3 Hours.
Selections in translation from European, African, and South American writers.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 422. African Literature. 3 Hours.
Selected novels, short stories, autobiographies, folk tales, drama, essays, films, songs from pre-colonial Africa to the present, including works by Emecheta, wa Thiong'o, Head, Achebe, Ba, Armah, Laye, Salih, Soyinka, and Abrahams.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 423. African Women's Literature. 3 Hours.
Writing in all genres by African women from pre-colonial Africa to the present.
Prerequisites: EH 301 [Min Grade: C]

EH 424. African-American Special Topics. 3 Hours.
See Class Schedule for topic. May be repeated.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 426. Pre-1800 Literature: Special Topics. 3 Hours.
See Class Schedule for topic. May be repeated.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 427. Post-1800 Literature: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 428. English Elective: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 429. Creative Writing: Special Topics. 3 Hours.
Seminar in creative writing: see class schedule for topic. May be repeated.
Prerequisites: EH 305 [Min Grade: C](Can be taken Concurrently) or EH 306 [Min Grade: C] or EH 307 [Min Grade: C] or EH 308 [Min Grade: C] or EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 430. Professional Writing: Special Topics. 3 Hours.
See Class Schedule for topic. May be repeated.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 431. Special Topics in Film. 3 Hours.
In-depth study of a specialized topic in film, for example, a particular national cinema, one or more directors, a development in film history or genre, or issues in visual representation.
Prerequisites: EH 210 [Min Grade: C](Can be taken Concurrently) or EH 301 [Min Grade: C](Can be taken Concurrently)

EH 432. Public Discourse: Special Topics. 3 Hours.
See course schedule for topics. Counts as Public Discourse in the English major concentration in Professional Writing and the English minor in Writing.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 222 [Min Grade: C] or EH 224 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 433. Academic Writing. 3 Hours.
Introduction for students in all disciplines, to the processes of scholarly inquiry and the most common genres of academic writing, including critiques, bibliographies, proposals, conference presentations, and articles. Writing is a significant component of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 435. Teaching Creative Writing. 3 Hours.
Examines current theory and practice in teaching creative writing particularly in secondary schools and introductory college-level classes.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 436. Workshop in Writing for Young People. 3 Hours.
Intermediate workshop in writing for young people through critique of student writing.
Prerequisites: EH 307 [Min Grade: C] or EH 308 [Min Grade: C] or EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 437. Workshop in Writing for Young People. 3 Hours.
Intermediate workshop in writing for young people through critique of student writing.
Prerequisites: EH 307 [Min Grade: C] or EH 308 [Min Grade: C] or EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 441. Literary Theory and Criticism, the Ancients to the Nineteenth Century. 3 Hours.
Introduction to theories of art and literary production in the contexts of aesthetics and culture from Plato to the end of the nineteenth century.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 442. Literary Theory and Criticism, the Twentieth Century to the Present. 3 Hours.
Introduction to theories of art and literary production in the contexts of aesthetics and culture from Russian formalism to the present.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 443. Archetype and Myth. 3 Hours.
Recurring images, underlying patterns, and shapes-of-meaning in poetry, fiction, and fairy tales.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 444. Women's Literature and Theory. 3 Hours.
Literary works and theoretical perspectives of Angelou, Chopin, Hong, Kingston, Hurston, Walker, Woolf, Plath, and others.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 446. African American Autobiography. 3 Hours.
Personal narratives by African Americans, including texts by Wheatley, Douglass, Jacobs, Wilson, DuBois, Johnson, Hurston, Hughes, Wright, Baldwin, Angelou, and Moody.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)
EH 447. African American Dramatic Tradition. 3 Hours.
Development of African American dramatic tradition from the nineteenth century through the Harlem Renaissance and Black Arts movement to contemporary postmodernism, including Brown, Hurston, Baraka, and Wilson.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 448. African American Poetry Tradition. 3 Hours.
Development of African American poetry from its early works to the present, including Wheatley, Dunbar, Hughes, Brooks, and Angelou.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 450. Advanced Grammar. 3 Hours.
Present-day English grammar.
Prerequisites: EH 350 [Min Grade: C] or EH 351 [Min Grade: C]

EH 451. Generative Grammar. 3 Hours.
Introduction to Chomskian linguistic theory. Knowing a language involves knowing an intricate set of rules; this course gives one approach to modeling this linguistic knowledge.
Prerequisites: EH 350 [Min Grade: C] or EH 351 [Min Grade: C]

EH 452. Grammar and Usage for English Teachers. 3 Hours.
Overview of English grammar and usage, focusing on those topics that are presented in the classroom. Topics will include the difference between prescriptive and descriptive grammar, parts of speech, types of verbs, grammatical functions, agreements, sentence structure, tense, aspect, voice, finite clauses, nonfinite clauses, clause types, Focus also on Reed-Kellogg sentence diagramming.
Prerequisites: EH 350 [Min Grade: C] or EH 351 [Min Grade: C]

EH 453. History of the English Language. 3 Hours.
Overview of language evolution from Proto-Indo-European to modern English dialects, including phonological shifts, dialectal distinctions, language families and orthographical and syntactical changes.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 454. The Biology of Language. 3 Hours.
Vocal tract and neuroanatomical specializations for language, language acquisition, genetic language disorders, language and other primates, and evolution of language.
Prerequisites: EH 350 [Min Grade: C] or EH 351 [Min Grade: C]

EH 455. Digital Publishing. 3 Hours.
Introduces students to new technologies for digital communication and the ways in which these technologies influence how people read, write, interact with, and share information.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 456. Visual Rhetoric. 3 Hours.
Analysis of the rhetorical characteristics of texts that incorporate both images and words in order to persuade audiences. Writing is a significant component of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 457. Writing and Medicine. 3 Hours.
This course examines how the realm of medical knowledge and practice is written or constructed according to particular social and ethical values. Overarching institutional assumptions and norms as well as specific texts and practices will be considered in our study of medical discourse. Writing, Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 459. Discourse Analysis. 3 Hours.
Advanced practice in the analysis and writing of public discourse, with emphasis on the social politics of linguistic choices. Writing is a significant component of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 460. American Women Writers Before 1900. 3 Hours.
Survey of American women's writing before 1900.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 461. American Literature, 1620 - 1820. 3 Hours.
Representative American writing from colonial period to Washington Irving.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 462. American Literature, 1820 - 1870. 3 Hours.
Representative writers such as Alcott, Cooper, Poe, Hawthorne, Melville, Emerson, Fuller, Fern, Harper, Thoreau, Jacobs, Whitman, Stowe, and Dickinson.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 463. American Literature, 1870 - 1914. 3 Hours.
Realism and naturalism: Twain, James, Howells, Crane, Jewett, Wharton, Dreiser, Norris, and Chopin, among others.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 464. American Literature, 1914 - 1945. 3 Hours.
Selected fiction, poetry, and drama of major American writers such as Eliot, Faulkner, Hemingway, Hurston, O'Neill, and Wright.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 465. American Literature, 1945-Present. 3 Hours.
Selected fiction, poetry, and drama in context of post-war cultural trends and literary movements.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 466. The Slave Narrative and Its Literary Expressions. 3 Hours.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 467. Black Women Writers. 3 Hours.
Evolution of Afrocentric feminist consciousness through early and contemporary writings including works by Alidde, Conde, Cooper, Chase-Riboud, Marshall, Morrison and Naylor.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)
EH 468. The Harlem Renaissance. 3 Hours.
Black writers during Harlem Renaissance movement. Includes Johnson, Toomer, Murray, Larsen, McKay, Thurman, Reed, and Morrison.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 469. Medieval Culture: Literature and Society. 3 Hours.
Exploration through art, literature, and history of dominant themes of Middle Ages, from Germans to Dante and Chaucer.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 470. Arthurian Legend. 3 Hours.
King Arthur and his knights in literature from sixth-century history and formulation of legend in Middle Ages to its use in twentieth century.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 471. Beowulf in Context. 3 Hours.
Beowulf and various texts that bear upon it (including modern literary and film adaptations), as well as a close study of the Norse analogues of the Old English epic. All texts in Modern English translation. Not appropriate for those who have taken EH 649.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 472. Introduction to Old English. 3 Hours.
An introduction to the language and literature of early medieval England (pre-1100), culminating in analyses of The Dream of the Rood and The Battle of Maldon in the original alliterative verse.

EH 473. Chaucer: Pilgrimage to Canterbury. 3 Hours.
Selections from Canterbury Tales and Chaucer’s fourteenth-century milieu.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 474. English Renaissance Drama (Excluding Shakespeare). 3 Hours.
Plays by Marlowe, Kyd, Jonson, Tourneur, Webster, Middleton, and Ford.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 475. English Renaissance Poetry and Prose. 3 Hours.
Topics vary. Broad survey of period or close analysis of genre, theme, or author.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 476. Shakespeare. 3 Hours.
Study of several major plays.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 478. Milton. 3 Hours.
Selected prose and poetry, including Paradise Lost.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 480. The Restoration. 3 Hours.
Interdisciplinary exploration of selected poems, plays, and essays by Restoration authors. Authors and topics vary.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 481. The Eighteenth Century: Literature and Culture. 3 Hours.
Interdisciplinary exploration of texts that focuses on social, economic, and political backgrounds. Topics and authors vary.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 482. The Eighteenth Century: Theory and Interpretation. 3 Hours.
Interdisciplinary exploration of selected texts by 18th-century authors that focuses on their formal and philosophical contexts. Authors and topics vary.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 483. British Romanticism. 3 Hours.
Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Hazlitt, Lamb, and DeQuincy.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 485. British Victorian Poetry. 3 Hours.
Selected works by Tennyson, Browning, Arnold, and others.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 486. Eighteenth-Century British Novel. 3 Hours.
Selected works by Fielding, Defoe, Sterne, Smollet, Richardson.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 487. Nineteenth-Century British Novel. 3 Hours.
Selected works by Austen, Dickens, Thackeray, Bronte, Trollope, Eliot, or other novelists.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 488. British Novel: The Modern Age. 3 Hours.
Selected works by Conrad, Lawrence, Joyce, Woolf, Ford, and others.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 489. James Joyce. 3 Hours.
Joyce’s fiction through Ulysses.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 493. Special Topics in Linguistics. 3 Hours.
See class schedule for topic.
Prerequisites: EH 350 [Min Grade: C] or EH 351 [Min Grade: C]

EH 494. English Honors Research. 3 Hours.
This is an individual studies course for outstanding students beginning their work on an honors capstone thesis. During the first course of a two-course sequence, students will conduct research for that thesis and write a full-length prospectus for that thesis with an extended bibliography.
Prerequisites: EH 301 [Min Grade: C]

EH 495. Honors Capstone Thesis. 3 Hours.
This is an individual studies course for outstanding students completing their work on an honors capstone thesis. During this second course of a two-course sequence, students will write and defend that thesis.
Prerequisites: EH 301 [Min Grade: C]

EH 496. Capstone Seminar. 3 Hours.
Specific topics vary. This seminar will provide an opportunity for students to reflect upon and to use the knowledge, skills, and dispositions developed in previous English coursework. Required of all English majors. EH 496 is ideally taken in the final undergraduate semester.
Prerequisites: EH 301 [Min Grade: C]

EH 497. Individual Studies. 1-3 Hour.
Student and faculty member work together to define project; student conducts research and presents results as written report.

EHS-Secondary Education (EHS)

Courses

EHS 125. Inquiry Approaches to Teaching. 1 Hour.
This Step 1 allows students to explore teaching as a career at no cost. Following an introduction to the theory and practice behind excellent inquiry-based science and mathematics instruction, students teach lessons in elementary classrooms to obtain firsthand experience in planning and implementation. The goal of Step 1 is to have students explore the possibility of teaching in science, mathematics, or computer science. Students teach science or mathematics lessons in local elementary classrooms and obtain first-hand experience with planning and implementing inquiry-based curriculum.
EHS 126. Step 2: Inquiry Based Lesson Designs. 1 Hour.
In Step 2, students continue developing the lesson planning skills learned in EHS 125: Step 1. After observing a lesson being taught in a local school district classroom, students plan and teach three inquiry-based lessons to sixth, seventh, or eighth graders. Middle school science or mathematics classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the Step 2 students assigned to them.
Prerequisites: EHS 125 [Min Grade: C]

EHS 320. Geography for Teachers. 3 Hours.
Unifying themes and concepts of geography. Culture and characteristics of places, especially as caused by relationships between humans and their environment.

EHS 325. Knowing and Learning in Mathematics and Science. 3 Hours.
Knowing and Learning in Mathematics and Science is the first in a sequence of three, 3-credit teaching methods courses in the UABTeach program. Knowing and Learning in Mathematics and Science is more than simply a general survey of theories in the STEM fields; its goal being for students to construct a model of knowing and learning that will guide their future classroom practice. Students begin by considering what standards for knowing are to be used, how knowing and learning are structured, and how what is known changes and develops. Ultimately, students must think about the tensions between general, cross-disciplinary characterizations of knowing (e.g., intelligence) and the specifics of coming to understand powerful ideas in mathematics and science.
Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C]
(Can be taken Concurrently)

EHS 326. Classroom Interactions. 3 Hours.
Classroom Interactions builds on the Knowing and Learning course, moving from a focus on thinking and learning to a focus on teaching and learning. The course is centered around a close examination of the interplay between teachers, students, and content, and how these types of interactions enable students to develop deep conceptual understanding. The goals for this course are to: Provide students with opportunities to see how theories explored in Knowing and Learning play out in instructional settings by designing and implementing instructional activities informed by their own understanding of what it means to know and learn mathematics and science, and then evaluating the outcomes of those activities on the basis of student artifacts (i.e., what students say, do, or create). It provides students with frameworks for thinking about equity issues in the classroom and larger school settings, make students aware of equity issues in classroom settings and their effects on learning, and provide students with strategies for teaching diverse students equitably.
Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] and EHS 325 [Min Grade: C]

EHS 327. Project-Based Instruction. 3 Hours.
Project-Based Instruction (PBI) is the capstone course in the sequence of teaching methods courses (Knowing and Learning, Classroom Interactions, and PBI) UTeach students take prior to Apprentice Teaching. PBI is the course in which a number of the major principles and themes of the UTeach program—integration of mathematics and science content; infusion of technology in representation, analysis, modeling, assessment and contextualization of content; immersion in intensive field-based experiences; and a focus on designing equitable learning environments for diverse students—are synthesized as the students develop an intellectually challenging project-based instructional unit. When students complete PBI, they are fully prepared for Apprentice Teaching.
Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] and EHS 325 [Min Grade: C] and EHS 326 [Min Grade: C]

EHS 401. Secondary Education Curriculum and Methods. 3 Hours.
Interaction with middle and high school teachers and students and representatives from support agencies in their respective environments. Extensive field experience required.

EHS 402. Practicum I. 1 Hour.
Reading strategies for 6-12 instruction provide foundation for constructing lesson plans in EHS 401.

EHS 425. Apprentice Teaching. 6 Hours.
The purpose of Apprentice Teaching is to offer UABTeach students a culminating experience that provides them with the tools needed for their first teaching jobs. In Apprentice Teaching, students are immersed in the expectations, processes, and rewards of teaching. When making placements, UABTeach master teachers consider each apprentice teacher’s characteristics and abilities as well as the cooperating teacher’s teaching and mentoring styles.

EHS 426. Apprentice Teaching Seminar. 1 Hour.
Apprentice teachers sign up for two courses: the one-hour Seminar and the six-hour Apprentice Teaching course. The Apprentice Teaching seminar provides a supportive environment where apprentice teachers share their experiences and work on solutions to difficulties they are experiencing. The seminar is a good forum for students to get the guidance they consistently want on classroom management.

EHS 430. Practicum. 1 Hour.
Field experience in school-based setting. Admission to Alternative Master's Program required.

EHS 436. Methods I: English Language Arts, 6-12. 3 Hours.
Introduction to teaching English language arts in secondary school settings. Developing basic skills in planning, instruction, and assessment. Admission to TEP required.

EHS 438. Methods I: Social Science, 6-12. 3 Hours.
Introduction to teaching the social sciences in secondary school settings. Developing basic skills in planning, instruction, and assessment. Admission to TEP required.

EHS 456. Classroom Management in Secondary Schools. 3 Hours.
Management and instructional problems in secondary schools; techniques for improving study skills and developing better instructional planning.

EHS 458. Science Technology and Society: A Primer for Educators. 3 Hours.
Nature of momentous changes: origin, current status, and future direction. Role of educational community in helping young people better understand and deal with various issues raised.
EHS 465. Methods II: Mathematics 6-12. 3 Hours.
Planning and organization, methods and techniques of teaching mathematics. Extensive field experience required. Note: Fee will apply to course.
Prerequisites: EHS 401 [Min Grade: C] and EHS 402 [Min Grade: C]

EHS 466. Methods II: Language Arts 6-12. 3 Hours.
Curriculum and instruction in English/language arts. Extensive field experience required. Note: Fee will apply to course.
Prerequisites: EHS 401 [Min Grade: C] and EHS 402 [Min Grade: C]

EHS 467. Methods II: Science 6-12. 3 Hours.
Teaching methods and curricula in secondary science programs. Extensive field experience required. Note: Fee will apply to course.

EHS 468. Methods II: Social Science 6-12. 3 Hours.
Curriculum and instruction in social studies. Extensive field experience required. Note: Fee will apply to course.

EHS 469. Secondary School Curriculum: Foreign Language. 3 Hours.
Approaches and methods of teaching and testing foreign language. Selection and use of audiovisual equipment and materials. Extensive field experience required. Note: Fee will apply to course.

EHS 470. Practicum II. 1 Hour.
Coherent view of effective teaching and instructional design in middle and high schools. Extensive guided teaching experiences. Students implement full range of instructional process: planning, delivery, and evaluation.

EHS 471. Special Education Accommodation / Modification Lab. 1 Hour.
Knowledge and skills for helping students with special needs to successfully progress in the general education curriculum. Managing verbal and physical aggression, collaborative teaching, and strategies for adapting the general education curriculum for students with special needs.

EHS 480. Secondary School Student Teaching I. 3-9 Hours.
Supports and extends efforts of student teaching. Problem solving related to classroom situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

EHS 480. Secondary School Student Teaching I. 3-9 Hours.
Capstone experience involving observation and teaching in secondary schools.

EHS 481. Secondary School Student Teaching II. 3-6 Hours.
Supervised teaching in high school.

EHS 497. Special Problems in Education. 3 Hours.
Topics of current interest. May be repeated for total of 6 hours. Note: Fee will apply to course.

EHS 499. Field Studies: Select Education Setting. 1-3 Hour.
Field visits to locations of high educational impact.

ELI-English Language Institute Courses

Courses

ELI 009. ELCI 6-week Session. 24 Hours.
This course registers students as full-time or part-time students in Banner in special summer 6-week programs.

ELI 010. ELI Session. 10,20 Hours.
This course registers students as full-time or part-time students in Banner.

ELI 011. Reading Level I. 0 Hours.
Students will learn reading skills to get meaning from simple non-fiction, non-academic texts in English. Students will learn general vocabulary.
Objectives: Students will read at least 14 non-fiction non-academic texts of up to 200 words in English. The texts are written for use with Level 1 students. Students will learn and practice basic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 012. Integrated Skills I. 0 Hours.
Grammar, vocabulary, speaking, and listening will be learned and practiced together. Students will learn form, meaning, and pronunciation of simple present, present perfect, present continuous, and going to; nouns, adjectives and adverbs. They will practice this language in spoken and written activities. Students will learn and practice form, meaning, and pronunciation of basic vocabulary. They will learn basic speaking skills through practice of grammar and vocabulary in communicative activities. Students will develop basic listening skills to get meaning from classroom and recorded speech that uses the grammar and vocabulary.

ELI 013. Vocabulary Building. 1 Hour.
Students will learn basic vocabulary that is useful in daily life, in topic groups including time & calendar, daily activities, family, weather, clothes, food, furniture, and places in town. Students will learn the meaning, pronunciation, and form (spelling, part of speech, plurals and non-count, collocations, and phrasal verbs) of the words.

ELI 014. Writing Level I. 0 Hours.
Students will complete at least 10 paragraphs of up to 100 words. Paragraphs will eventually include topic and supporting sentences. Students will follow the process of generating content, analyzing models, organizing content, and writing drafts with teacher, peer, and self-editing. Students will learn and practice Level 1 mechanics, grammar, sentence structure, and functional language for content area.

ELI 015. Support for Beginners. 0 Hours.
This course is designed to support Level Pre-1 students in their outcomes for ELI 013 Vocabulary Building 1 and ELI 012 Integrated Skills 1.

ELI 021. Reading Level 2. 0 Hours.
Goals: Students will develop reading skills to get meaning from non-fiction non-academic and simplified academic texts in English. Students will learn general vocabulary. Students will read at least 12 non-fiction non-academic and simplified academic texts of up to 400 words in English. Texts are graded for use with Level 2 students. Students will learn and practice general reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 022. Integrated Skills: Grammar, Listening and Speaking Level II. 0 Hours.
Grammar, vocabulary, speaking, and listening will be learned and practiced together. Students will improve their use simple present, simple past, present continuous, and going to; and learn present perfect, present continuous for future, comparatives and superlatives, modals, quantifiers, and basic infinitives and gerunds. They will practice language in spoken and written activities. Students will learn and practice form, meaning, and pronunciation of general vocabulary. They will develop their speaking fluency through communicative activities, and their listening skills to get meaning from classroom and recorded speech. Students will also develop their writing skills through communicative activities.
ELI 023. Vocabulary Building Level 2. 0 Hours.
Students will learn vocabulary that is useful in daily life, in topic groups including personality, emotions, health, emergencies, errands, workplace, geography, hobbies & sports, and transportation. Students will learn the meaning, pronunciation, and form (spelling, part of speech, plurals and non-count, collocations, and phrasal verbs) of the words.

ELI 024. Writing Level II. 0 Hours.
Students will complete at least 4 academic paragraphs of up to 120 words. Paragraphs will include topic, supporting, and concluding sentences. Students will follow the process of generating content, analyzing models, outlining, and writing 2 drafts with teacher, peer, & self-editing. Students will learn and practice Level 2 language, including adverb and adjective clauses, and functional language for paragraph genre.

ELI 031. Academic Reading Level III. 0 Hours.
Students will read at least 12 non-fiction academic texts of 600-1000 words in English. Texts are those graded for use with Level 3 students, and authentic articles and excerpts. Students will learn and practice basic academic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 032. Speaking and Listening Skills Level III. 0 Hours.
Students will develop their speaking skills to communicate in groups, and give short presentations on general and simplified academic topics. Students will develop their listening skills to get meaning and take notes on graded & authentic conversations and academic lectures. Students will learn basic academic vocabulary on listening and speaking topics. Speaking and listening skills and vocabulary will be studied together with 4 popular and academic topics. Students will develop their communicative speaking skills in topic-based interactive activities. They will give at least 4 short presentations with attention to non-verbal communication. They will receive feedback on their pronunciation and grammar use. Students will listen to at least 4 graded and authentic recorded conversations and academic lectures. They will learn basic lecture note-taking skills with guided outlines. Students will learn form, meaning, & pronunciation of topic vocabulary.

ELI 033. Grammar: Using English Accurately Level III. 0 Hours.
Students will develop their ability to accurately use verb tenses, and relative clauses. Students will apply this grammar in speaking and expository writing. Students will learn form, meaning, and pronunciation of all English verb tenses in contrast. They will learn restrictive and non-restrictive subject and object relative clauses. Students will practice this language in written and spoken controlled exercises, and apply it in freer written and spoken activities.

ELI 034. Academic Writing III. 0 Hours.
Students will learn to write short academic essays. Students will complete 4 academic essays of at least 250 words in these genres: descriptive, comparison, opinion, and narrative. Essays will include introduction, body (1-2), and conclusion paragraphs. Students will follow the process of generating content, analyzing models, outlining, and writing 2 drafts with teacher, peer, and self-editing. Students will learn and practice Level 3 language, including adverb and adjective clauses, and functional language for essay genre.

ELI 041. Academic Reading Level IV. 0 Hours.
Students will develop reading skills to get meaning from non-fiction academic texts and fiction in English. Students will learn academic vocabulary. Students will read at least 12 texts, including non-fiction academic texts and fiction of 800-1200 words in English. Texts are authentic articles and excerpts. Students will develop their academic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 042. Speaking Listening Skills Level IV. 0 Hours.
Students will develop their speaking skills to communicate spontaneously in groups, and give presentations on academic topics. Students will develop their listening skills to get meaning from and take notes on authentic conversations and academic lectures. Students will learn academic vocabulary contextualized in the listening and speaking topics. Speaking and listening skills and vocabulary will be integrated into 4 academic topics. Students will develop their communicative speaking skills in interactive activities. They will prepare and give at least 4 presentations, with attention to organization and basic visual aids. They will receive feedback on their grammar use and pronunciation. Students will listen to at least 4 authentic recorded conversations and academic lectures, and develop their lecture note-taking skills with guided outlines. Students will learn the form, meaning, and pronunciation of topic vocabulary.

ELI 043. Grammar: Using English Accurately Level IV. 0 Hours.
Students will learn and develop their ability to accurately use modals, gerunds and infinitives, articles and nouns, passives, and conditionals. Students will apply this grammar in speaking and expository writing. Students will learn form, meaning, and pronunciation of modals including past, gerunds and infinitives, nouns and article use, passives in all tenses, and conditionals. Students will practice this language in written and spoken controlled exercises, and apply it in freer written and spoken activities.

ELI 044. Academic Writing IV. 0 Hours.
Students will learn to write longer and more developed academic essays. Objectives: Students will complete 3 academic essays of at least 450 words in these genres: classification, cause/effect, and argument. Essays will include introduction, 3 or more body paragraphs, and conclusion paragraph. Students will follow the process of generating content, analyzing models, outlining, and writing 3 drafts with teacher, peer, and self-editing. Students will learn and practice Level 4 language, including adverb and adjective clauses, and functional language for essay genre.

ELI 045. TOEFL Preparation. 0 Hours.
Goals: Students will become familiar with TOEFL internet-based test tasks and question types. They will apply the test-taking strategies and skills needed in the reading, listening, writing, and speaking parts of the exam. Objectives: Students will learn and practice the test-taking strategies and skills needed in the reading, listening, writing, and speaking parts of the exam.

ELI 051. Academic Reading Level V. 0 Hours.
Goals: Students will expand their reading skills to get meaning from non-fiction academic texts in English. Students will learn academic vocabulary. Objectives: Students will read at least 12 non-fiction academic texts of up to 800-2000 words in English. Texts are authentic articles or excerpts. Students will expand their academic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.
ELI 052. Oral Communication Level V. 0 Hours.
Goals: Students will expand their speaking skills to communicate spontaneously on academic topics in small groups, and give professional presentations on academic topics. Students will expand their listening skills to extract meaning from and take notes on authentic academic conversations and lectures. Students will learn academic vocabulary contextualized in the listening and speaking topics. Objectives: Speaking and listening skills and vocabulary will be integrated into 4 academic topics. Students will expand their communicative speaking skills in interactive activities with academic topics and tasks. They will prepare and give at least 4 presentations, with focus on organization and visual aids. They will receive feedback on their grammar and pronunciation. Students will listen to at least 4 authentic recorded conversations and 4 academic lectures, and generate their own lecture note-taking outlines. Students will learn the form, meaning, and pronunciation of contextualized vocabulary.

ELI 053. Using English Accurately Level V. 0 Hours.
Goals: Students will expand their ability to use grammar common to academic contexts such as cause & effect, compare & contrast, narrative, problem & solution, and persuasion. They will apply new and revised grammar in speaking and expository writing in these contexts. Objectives: Students will learn new grammar, and expand on known grammar commonly used in specific academic contexts. They will focus on form, meaning, and pronunciation of various tenses, sentence structures, and functional language used to speak and write academically. Students will practice this language in spoken and written controlled exercises, and apply it in speaking in groups and presentations, and writing in academic contexts.

ELI 054. Academic Writing Level V. 0 Hours.
Goals: Students will develop skills to write academic research papers. Students will develop their citing, quoting, paraphrasing, and summarizing skills, and learn APA format for external sources. They will learn to integrate source information into their essays. Objectives: Students will write 2 research papers of 500-750 words. For an expository essay, students will develop evaluative criteria, conduct on-line research, generate content, outline, and write 2 drafts with teacher, peer, and self-editing. For a reporting essay, students will read published sources on a medical problem, write a rough and detailed outline, and 2 drafts with teacher, peer, and self-editing. Students will expand their ability to quote, paraphrase, and summarize, and learn APA citation format. Students will expand their reading ability and use complex sentence structures.

ELI 055. IELTS® Preparation. 1 Hour.
Students will become familiar with IELTS test tasks and question types. They will apply the test-taking strategies and skills needed in the listening, reading, writing, and speaking parts of the exam. Students will also build their vocabulary. Students will learn and practice the test-taking strategies and skills needed in the listening, reading, writing, and speaking parts of the exam, including the following. They will learn & practice new vocabulary found in texts.

ELI 061. Special Programs in Speaking and Listening. 0 Hours.
Students practice extensive speaking, including pronunciation instruction and feedback, teaching on conversation strategies, and discussions about culturally relevant topics. Students also practice listening skills in this interactive environment through podcasts, videos, and other media with a particular emphasis on note taking skills. Vocabulary building is incorporated into this class and emphasizes American expressions and current idioms, which enables students to understand informal English with greater fluency. In addition, class discussions usher in a deeper analysis of American culture.

ELI 062. Special Programs Using Grammar in Conversation. 0 Hours.
Grammar in practice means using English accurately, not simply knowing English grammar rules for a test. The Grammar in Conversation class emphasizes accuracy and fluency. Students review some of the most common grammatical errors in spoken English, including those that frequently impede comprehensibility, and then practice producing the forms accurately in fluent speech. In this way, this class supports previous grammar study but also capitalizes on the possibilities for fluency practice that a short-term immersion program provides.

ELI 063. Special Programs Reading and Writing. 0 Hours.
Grammar in practice means using English accurately, not simply knowing English grammar rules for a test. The Grammar in Conversation class emphasizes accuracy and fluency. Students review some of the most common grammatical errors in spoken English, including those that frequently impede comprehensibility, and then practice producing the forms accurately in fluent speech. In this way, this class supports previous grammar study but also capitalizes on the possibilities for fluency practice that a short-term immersion program provides.

ELI 071. Pronunciation/Accent Training I. 0 Hours.
This course focuses on improving your American English pronunciation and accent. The desired outcome of this course is that your speech will be more easily understood by speakers of English.

ELI 072. Pronunciation/Accent Training II. 0 Hours.
This course focuses on continuing to improve your American English pronunciation and accent through practicing previously studied skills in active conversation. The primary desired outcome of this course is that your accent will be more easily understood by speakers of English. The secondary outcome is that you will be more comfortable and fluent when speaking in English.

ELI 075. Business Listening and Speaking. 0 Hours.
This course is designed to improve students' business English skills. In particular, listening and speaking skills will be the focus of this course. Business professionals or persons presently working in the U.S. will benefit from the speaking and listening skills learned in this class. The class will also feature business-related vocabulary, idioms, and culture discussions.

ELI 076. Business Writing Skills. 3 Hours.
The following are objectives for this course: Improve understanding of the different types of business writing and appropriate use of each type (business letters, emails, memos, reports, cover letters, resumes, proposals); enhance familiarity with common business letter formats, the various parts of a business letter and the purpose of each part; create business English writing that is clear, concise and specific; learn techniques of self-editing; improve the following grammar skills: use of articles, prepositions, gerunds and infinitives, contractions, comma usage, punctuation, recognition of sentence fragments, and appropriate use of adjectives and adverbs; and improve the following language usage skills: formal vs. informal language, linking fragments, numbers in writing, and accuracy of vocabulary.

ELI 078. GRE Preparation. 0 Hours.
This advanced-level course, designed for non-native English speakers, will focus on the verbal English skills that are needed for success on the test: practice writing analytical essays, acquire strategies for mastering analogies, learn techniques to build vocabulary, review key grammar points, improve reading comprehension, and practice taking the GRE® in a computer lab.
ELI 09. ELI 6-week Session. 24 Hours.
This course registers students as full-time or part-time students in Banner in special summer 6-week programs.

ELI 091. Common Hour. 0 Hours.
This course is designed to provide additional support to students in the Intensive English Program. This course serves as an extended orientation that will help students integrate into campus life and navigate through cultural adjustment while learning about the USA/State/Local/ UAB cultures and procedures. The class is not a language learning class. The focus of the class is on knowledge. Translation help will be provided as needed.

ELI 092. Language Partners for Levels 1 and 2. 0 Hours.
This course is designed to provide additional English practice to students in the Intensive English Program. This course provides native English speaking volunteers from UAB and the community to practice in a one-on-one situation. For full-time students in the Academic English Program who are in levels 1 and 2, this is a required course. Conversational topics are chosen each week and sample questions are provided to help get conversation going. The goal is to help develop and/ or enhance fluency in English.

ELI 101. Academic Writing for Non-Native English Speakers I. 3 Hours.
This course focuses on the development of various types of writing required in university courses. Becoming fluent in the organizational structure of writing in the American academic setting will be emphasized. In addition, grammar and mechanics are reviewed. Students will practice all aspects of the writing process: generating ideas, drafting, revising, and editing.

ELI 102. Academic Reading for Non-Native English Speakers II. 3 Hours.
This course expands academic reading skills and strategies, text analysis, and vocabulary skills for application in an academic environment. In addition, students will build academic vocabulary range through analyzing vocabulary contextualized in the readings. Students will expand their reading skills to extract meaning from non-fiction academic texts in English, which will feature authentic articles or excerpts.

ELI 203. Academic Listening and Speaking for Non-Native English Speakers I. 3 Hours.
This course emphasizes the development and practice of speaking and listening skills necessary for successful communication in the university environment. Specifically, this course focuses on effective strategies for listening to lectures, participating in classroom discourse, and giving presentations. In addition, students will engage in oral fluency practice and pronunciation improvement.

ELI 205. Using English Skills for Academic Success. 3 Hours.
This course will build on previous courses and will provide a venue for structured practice with all academic English language skills, including reading, writing, speaking, and listening, in an integrated format for second-semester, INTO UAB undergraduate standard pathway students. Students will employ a variety of English skills in ways that will mimic what is expected in an actual undergraduate classroom format. The course will feature much feedback from the instructor to facilitate improvement; content will take into account the other courses in the pathway to maximize learning.

ELI 206. Accelerated English Skills for Academic Success. 3 Hours.
This course will provide a venue for structured practice with all academic English language skills, including reading, writing, speaking, and listening, in an integrated format for INTO UAB undergraduate accelerated pathway students. Students will employ a variety of English skills in ways that will mimic what is expected in an actual undergraduate classroom format, with the intention of accelerating transfer of English language skills to the American academic environment. The course will feature much feedback from the instructor to facilitate improvement; content will take into account the other courses in the pathway to maximize learning.

ELI 401. Academic Reading & Writing for the Graduate Student 1. 3 Hours.
This two-semester, multi-skill course, designed for non-native English speaking graduate students needing English language skill improvement, will focus on reading and writing skill development, with additional outcomes in improved grammar usage and vocabulary expansion. The course will emphasize academic reading skills and strategies and text analysis, using non-fiction academic texts in English, and it will also build academic vocabulary range through analyzing vocabulary contextualized in the readings. Then, students will use readings to practice various types of writing. Becoming fluent in the organizational structure of writing in the American academic setting will be emphasized, and grammar instruction will be addressed as needed. Students will practice all aspects of the writing process: generating ideas, drafting, revising, and editing.

ELI 401L. Academic Reading and Writing I Laboratory. 0 Hours.
This course is designed to provide extra practice for topics covered in all Pathways courses for Graduate Standard Pathways students. Completion of assignments require attendance in our English and tutoring lab to pass the course and will affect your grades in ELI 401.

ELI 402. Academic Speaking & Listening for the Graduate Student 1. 3 Hours.
This two-semester, multi-skill course, designed for non-native English speaking graduate students needing English language skill improvement, will focus on the development and practice of speaking and listening skills necessary for successful communication in the university environment, with additional outcomes related to pronunciation training. Specifically, this course focuses on effective strategies for listening to lectures, participating in classroom and general academic discourse, and giving presentations. In addition, the course provides a focus on pronunciation and opportunities for oral fluency practice.

ELI 402L. Academic Speaking and Listening I Laboratory. 0 Hours.
This course is designed to provide extra practice for topics covered in all Pathways courses for Graduate Standard Pathways students. Completion of assignments require attendance in our English and tutoring lab to pass the course and will affect your grades in ELI 402.

ELI 403. Academic Reading & Writing for the Graduate Student 2. 3 Hours.
The second part of a two-semester, multi-skill course for non-native English speaking graduate students needing English language skill improvement, this course will continue building skills in reading, writing, grammar, and vocabulary for use in graduate coursework. Reading passages from authentic texts, as well as summarizing and paraphrasing passages from texts, will be included.
ELI 404. Academic Speaking & Listening for the Graduate Student. 3 Hours.
The second part of a two-semester, multi-skill course for non-native English speaking graduate students needing English language skill improvement, this course will build on the previous course in focusing on the development and practice of speaking and listening skills necessary for success in a graduate academic environment. This course provides a venue for structured practice with these English language skills in an integrated format, as students mimic in class what transpires in the graduate classroom. The course will feature much feedback from the instructor to facilitate improvement, as well as an emphasis on pronunciation practice.

ELI 405. Academic English Skills for the Graduate Student. 3 Hours.
This course will provide a venue for structured practice with all academic English language skills, including reading, writing, speaking, and listening, in an integrated format for INTO UAB accelerated graduate pathway students. Students will employ a variety of English skills in ways that will mimic what is expected in an actual graduate classroom format, with the intention of accelerating transfer of English language skills to the American academic environment. The course will feature much feedback from the instructor to facilitate improvement.

ELI 405L. Academic English Skills Laboratory. 0 Hours.
This course is designed to provide extra practice for topics covered in all Pathways courses for Graduate Accelerated Pathways students. Completion of assignments require attendance in our English and tutoring lab to pass the course and will affect your grades in ELI 405.

EMS-Middle School Education Courses

Courses

EMS 326. Class Room Interactions. 3 Hours.
Classroom Interactions builds on the Knowing and Learning course, moving from a focus on thinking and learning to a focus on teaching and learning. The course is centered around a close examination of the interplay between teachers, students, and content, and how these types of interactions enable students to develop deep conceptual understanding. The goals for this course are to: Provide students with opportunities to see how theories explored in Knowing and Learning play out in instructional settings by designing and implementing instructional activities informed by their own understanding of what it means to know and learn mathematics and science, and then evaluating the outcomes of those activities on the basis of student artifacts (i.e., what students say, do, or create). It provides students with frameworks for thinking about equity issues in the classroom and larger school settings, make students aware of equity issues in classroom settings and their effects on learning, and provide students with strategies for teaching diverse students equitably. EMS 326 is a cross-listed section of EMS 325 and is specifically designed for student pursuing middle school teaching certification in science or mathematics.

Prerequisites: EMS 325 (Min Grade: C) and EMS 326 (Min Grade: C)

EMS 327. Project-Based Instruction. 3 Hours.
Project-Based Instruction (PBI) is the capstone course in the sequence of professional development courses (Knowing and Learning, Classroom Interactions, and PBI) UTeach students take prior to Apprentice Teaching. PBI is the course in which a number of the major principles and themes of the UTeach program—integration of mathematics and science content; infusion of technology in representation, analysis, modeling, assessment and contextualization of content; immersion in intensive field-based experiences; and a focus on designing equitable learning environments—are synthesized as the students develop an intellectually challenging project-based instructional unit. When students complete PBI, they are fully prepared for Apprentice Teaching.

Prerequisites: EMS 125 [Min Grade: C] and EMS 126 [Min Grade: C] and EMS 325 [Min Grade: C] and EMS 326 [Min Grade: C]

EMS 351. Teaching Language Arts in Middle/Junior High School. 3 Hours.
Methods of teaching middle grades language arts. Extensive field experiences required. Supervision fee.

EMS 352. Teaching Mathematics in Middle/Junior High School. 3 Hours.
Methods of teaching middle grades mathematics. Extensive field experiences required. Admission to TEP required.

EMS 355. Laboratory/Practicum in Middle School Education. 1 Hour.
This course serves as a laboratory practicum for undergraduate students who are pursuing teacher certification in middle school education.

EMS 425. Apprentice Teaching. 6 Hours.
The purpose of Apprentice Teaching is to offer UABTeach students a culminating experience that provides them with the tools needed for their first teaching jobs. In Apprentice Teaching, students are immersed in the expectations, processes, and rewards of teaching. When making placements, UABTeach master teachers consider each apprentice teacher’s characteristics and abilities as well as the cooperating teacher’s teaching and mentoring styles. EMS 425 is a cross-listed section of EMS 425 and is specifically designed for student pursuing middle school teaching certification in science or mathematics.

EMS 426. Apprentice Teaching Seminar. 1 Hour.
Apprentice teachers sign up for two courses: the one-hour Seminar and the six-hour Apprentice Teaching course. The Apprentice Teaching seminar provides a supportive environment where apprentice teachers share their experiences and work on solutions to difficulties they are experiencing, including classroom management.

EMS 451. Workshop in the Middle School. 1-3 Hour.
This course is a workshop for undergraduate students who wish to teach at the middle school level.

EMU-Music Education Courses

Courses

EMU 403. Methods of Teaching Music N-6 Lab. 1 Hour.
Public school observation experiences for music education students enrolled in EMU 402.

EMU 404. Methods of Teaching Music in Secondary Education. 3 Hours.
Aims, principles, and philosophies of music; various methods of teaching in secondary schools for both non-performance music classes and instrumental and vocal activities. Laboratory includes direct method application in secondary music classrooms.
EMU 405. Methods of Teaching Music in Secondary Education Lab. 1 Hour.
Public school observation experiences for music education students enrolled in EMU 404.

EMU 490. Internship in Music Education. 6-9 Hours.
Supervised capstone teaching experience in grades N-12 as appropriate to student's teaching field (general music, instrumental music, or vocal/choral music).
Prerequisites: EPR 410 [Min Grade: C] and EMU 402 [Min Grade: C] and EMU 404 [Min Grade: C]

EMU 499. Internship Seminar in Music Education N - 12. 1-3 Hour.
Capstone course for the B.A. in Music Education. Students will demonstrate the skills expected of a professional music educator. This course is a supervised teaching course where the student is expected to solve problems in all issues related to classroom management, assessment, and music making. Included in the assessment will be the creation of professional documents, appropriate budgets, and supervised teaching experiences. Prerequisites: Completion of methods courses with no grade below C. Corequisite: EMU 490. 1 hour.

ENV-Environmental Science Courses

Courses

ENV 108. Human Population and the Earth's Environment. 3 Hours.
Influence of human population on Earth's environment. Specific attention will be paid to environmental issues such as population growth, climate change, water and energy resources, pollution, waste disposal, plant and animal extinctions, and food resources. Strong emphasis will be placed on determining solution to the variety of environmental problems facing the earth. Lecture and film. Ethics and Civic Responsibility are significant components of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

ENV 109. Laboratory in Environmental Science. 1 Hour.
Experiments on topics essential to study of environment and which reveal complexity of solving environmental problems. Writing, Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ENV 108 [Min Grade: D](Can be taken Concurrently) or BY 108 [Min Grade: D](Can be taken Concurrently)

EPI-Epidemiology

Courses

EPI 222. Public Health Issues in Physical Activity and Obesity. 3 Hours.
The purpose of this course is to provide an overview of the components of health and fitness within the context of the epidemiological evidence establishing the links between various types of health behaviors and risk factors (e.g., physical activity, body composition, diet, sleep, etc.) and health outcomes.

EPR-Educational Psychology Courses

Courses

EPR 214. Introduction to Educational Statistics. 3 Hours.
This introductory statistics course will cover basic descriptive and inferential statistics to include the following: Measures of central tendency; measures of variability; frequency distributions; normal curve of distribution; sampling; hypothesis testing, analysis of variance correlation, regression, and introduction to chi-square.

EPR 363. Foundations of Education II: Psychological. 3 Hours.
Psychological principles basic to the understanding of the learner, learning process, and learning situation is covered, as well as all major principles of Human Development. Twenty hours of field experiences required.
Prerequisites: EDU 200 [Min Grade: C](Can be taken Concurrently)

EPR 410. Measurement and Evaluation in Education. 3 Hours.
For early childhood/elementary education majors only. Basic concepts and principles of measurement and evaluation of personal and academic progress in classroom. Formative and summative assessment; Response to Instruction; and PLAN2020. Elementary descriptive statistics and measurement techniques used in student evaluation. Quantitative literacy is a significant component of this course.

EPR 411. Measurement and Evaluation in Education. 3 Hours.
For secondary education majors only. Principles of student assessment. Basic concepts and principles of measurement and evaluation of personal and academic progress in classroom; Formative and summative assessment; Response to Instruction; and PLAN2020. Elementary descriptive statistics and measurement techniques used in student evaluation. Quantitative Literacy is a significant component of this course. Admission to TEP required.

EPR 414. Lifespan Human Development. 3 Hours.
Physical, cognitive, social and moral development across lifespan, including death and dying from a variety of theories are covered.
Prerequisites: PY 101 [Min Grade: C]

ES-Earth Science Courses

Courses

ES 101. Physical Geology. 3 Hours.
Study of the earth, its materials and natural resources, processes of change, natural hazards to mankind. Lecture. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

ES 102. Physical Geology Laboratory. 1 Hour.
Study of properties and uses of rocks and minerals. Study of landscapes and various types of maps. One laboratory session per week.
Prerequisites: ES 101 [Min Grade: D](Can be taken Concurrently)

ES 103. History of the Earth. 3 Hours.
Interpretation of Earth's history through geologic time. Study of life on Earth through the fossil record. Lecture. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

ES 104. History of the Earth Laboratory. 1 Hour.
Sedimentary materials and environments of formation. Fossil identification. Geologic time and principles of age-dating. One laboratory session per week.

ES 105. Physical Geography. 3 Hours.
Atmosphere, weather, climate and climatic regions, and soils.

ES 109. Planet Earth. 3 Hours.

ES 110. The Geography of Alabama. 3 Hours.
The physical geography of Alabama: geologic setting, landscape, climate and weather, soils and vegetation, natural resources.

ES 120. Geology for Engineers. 3 Hours.
The solid earth, the nature of the earth's crust, surficial processes.

ES 191. Co-op Work Program. 2-3 Hours.

FLL 101. Introductory Foreign Language I. 3 Hours.
Introduction to a less commonly taught Foreign Language and culture. Essentials of language and culture needed for communication. Includes listening comprehension, speaking, writing, and reading. Offered on demand in target language. Language selection rotates. (Core Area II).

FLL 102. Introductory Foreign Language II. 3 Hours.
This course continues introducing students to a less commonly taught Foreign Language and culture. Essentials of language and culture needed for communication. Includes listening comprehension, speaking, writing, and reading. Offered on demand in target language. Language selection rotates.

Prerequisites: FLL 101 [Min Grade: D]

FLL 120. Foreign Cultures. 3 Hours.
Exploration of the customs, traditions, languages, ancestry, religions, values, and institutions of varied western and non-western nations through the use of humanities disciplines. Strong emphasis on the epistemology, production, and reception of culture, within and beyond the borders of a particular nation-state. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

FLL 121. Special Topics through World Cultures. 3 Hours.
This course has been designed to introduce students to some of the most significant cultural topics across the languages and civilizations represented in the DFLL through a cultural medium, such as music, film, or food. The course, team-taught by selected faculty of the different languages, will explore and reflect on ideas and attitudes, customs and traditions, identities and values of diverse western and non-western civilizations. Offered in English, it does not require previous knowledge of foreign languages.

FLL 160. Freshman Year Experience: Foreign Languages. 1 Hour.
The objective of this course is to introduce incoming freshmen to an education in foreign languages and world cultures in context of the university. It is meant to help prepare students for a successful collegiate career in the study of foreign languages.

FLL 190. Study Abroad: Foreign Language. 1-8 Hour.
Approved novice level study abroad program for a foreign language not regularly offered at UAB, which takes place in a foreign country. Permission of the Department Chair and the Study Abroad Director.

FLL 199. Directed Reading: Foreign Lang. 3 Hours.
This is an individualized course of directed readings and activities for novice Foreign Language students in a foreign language that is not offered regularly at UAB. The course may be offered in the case of a visiting professor in a language that is beyond the scope of regular instructional languages. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy and knowledge of foreign languages.

FLL 200. Foreign Literatures in English Translation. 3 Hours.
Introduction to cross-cultural theory of genre and human experience with a particular emphasis on the historical and cultural context in which literary traditions are shaped, interpreted and reinvented. FLL 220 invites the students to think critically about the formation of literary canons and the ethics of translating cultural difference/sameness. Ethics and Civic Responsibility are significant components of this course.

FLL 220. Foreign Literatures in English Translation. 3 Hours.
Introduction to cross-cultural theory of genre and human experience with a particular emphasis on the historical and cultural context in which literary traditions are shaped, interpreted and reinvented. FLL 220 invites the students to think critically about the formation of literary canons and the ethics of translating cultural difference/sameness. Ethics and Civic Responsibility are significant components of this course.

FLL 222. Modern World Literatures. 3 Hours.
Major topics and problems in modern earth science. Nature of solid

FLL 290. Study Abroad: Foreign Language. 1-6 Hour.
Approved novice level study abroad program for a foreign language not regularly offered at UAB, which takes place in a foreign country. Permission of the Department Chair and the Study Abroad Director.

FLL 299. Directed Reading: Foreign Lang. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Foreign Language students in a foreign language that is not offered regularly at UAB. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy and knowledge of foreign languages. Permission of Department Chair required.

FLL 303. History of World Movies I: The Origins to 1960. 3 Hours.
From the first silent movies to the development of the modern color sound movie of Hollywood in the fifties: comparison and contrast of the views of major film makers of the sixty years of the 20th century.

FLL 304. History of World Movies II. 3 Hours.
From the modern color sound movie of the fifties and the Nouvelle Vague to the latest movies produced around the globe: comparison and contrast of the views of filmmakers of the last forty years.

FLL 333. Foreign Language Internship/SL. 1-6 Hour.
Faculty-supervised opportunity for practical experience in tasks of international scope, may provide opportunities to use language(s) studied or applications of cultural knowledge.

FLL 334. Foreign Language Internship. 0 Hours.
Faculty-supervised opportunity for practical experience in tasks of international scope, may provide opportunities to use language(s) studied or applications of cultural knowledge.
FN 350. Intro to Romance Linguistics. 3 Hours.
This course provides an introduction to the grammar of Romance languages, with emphasis on French and Spanish. Students will learn about the phonology (sound system), morphology, and syntax of French and Spanish. The course content is presented in a contrastive way, and it is related to the historical background that led to the separation of Latin into the modern Romance languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

FLL 410. Undergraduate Foreign Language Research. 1-6 Hour.
This is an individualized course of directed readings and research for Foreign Language students. Course design is determined by the instructor and student and will be tailored to a specific research project. The goal of the course is to increase knowledge of research design and practices in the foreign language discipline. Permission of the Department Chair.

FLL 485. Foreign Language Capstone Seminar. 3 Hours.
Advanced seminar on broad cultural and cross-cultural topics in foreign languages, literatures, and critical theory. Students must complete a Capstone project including substantial Writing assessments with a strong emphasis on Ethics and Civic Responsibility, where they apply cultural literacy in a critical and reasoned manner toward understanding contemporary and/or past foreign cultures. Selected courses may also include a Quantitative Literacy component. Taught in English, readings assignments in English and/or foreign languages. Senior standing, FLL 120, FLL 220 or EH 218 and at least 6 semester hours at the 300 level of student's target language track.
Prerequisites: FLL 120 [Min Grade: C] and FLL 220 [Min Grade: C] or EH 218 [Min Grade: C]

FN-Finance Courses

Courses

FN 101. Personal Finance. 3 Hours.
Selected aspects of finance encountered by an individual during his or her lifetime. Lower-level elective credit only. Not applicable to the finance major. Open to all UAB students.

FN 102. Money and Society. 3 Hours.
The basic principles of the use of money in society are presented in a decision making framework. The objective of this course is to provide students with the tools necessary to analyze financial issues from a global and societal perspective.

FN 103. Money Management 101. 1 Hour.
Covers selected aspects of financial planning encountered by an individual during his or her lifetime. Cannot count as credit toward the finance major.

FN 104. Debt Management 101. 1 Hour.
Covers selected aspects of managing credit and insurance needs that an individual might encounter during his or her lifetime. Does not count toward the finance major.

FN 105. Saving and Investing 101. 1 Hour.
Covers selected aspects of managing investments that an individual might encounter during his or her lifetime. Does not count toward the finance major.

FN 310. Fundamentals of Financial Management. 3 Hours.
Introduction to the basic principles of financial management emphasizing quantitative and qualitative analysis of time value of money, stock and bond valuation, and capital budgeting; risk/return analysis, cost of capital, capital structure and cash flow analysis.
Prerequisites: AC 200 [Min Grade: C] and EC 210 [Min Grade: C] and QM 214 [Min Grade: C]

FN 311. Short-Term Financial Management. 3 Hours.
Multidisciplinary approach to analysis of financial statements and working capital management. Financial planning, corporate liquidity, and short-term financial policy issues.
Prerequisites: [AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 320. Financial Research Methods. 3 Hours.
Introduction to commercial and publicly available financial research databases and the basics of data analysis.
Prerequisites: (IS 303 [Min Grade: C] and FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (IS 303 [Min Grade: C] and EC 301 [Min Grade: C] and FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 350. Equity Portfolio Management. 3 Hours.
Investment theory with emphasis on risk-return tradeoff; equity investment instruments and environment, sources and interpretation of investment information, portfolio theory, market indices, options and futures, and international investing.
Prerequisites: [FN 310 [Min Grade: C] and GPAT and GPAO 2.00] or [FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00]

FN 351. Bond Portfolio Management. 3 Hours.
Fixed income markets and instruments, including valuation and portfolio strategies. Derivatives of fixed income securities.
Prerequisites: [FN 310 [Min Grade: C] and GPAT and GPAO 2.00] or [FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00]

FN 358. Green and Gold Fund Financial Analyst. 1 Hour.
The Green and Gold Fund is UAB's student-managed investment portfolio. Fund members perform actual investment portfolio management with real money. A student must hold the position of analyst.

FN 359. Green and Gold Fund Portfolio Management. 1-3 Hour.
The Green and Gold Fund is UAB's student-managed investment portfolio. Fund members perform actual investment portfolio management with real money. For three credit hours, a student must hold the position of CIO, chief economist, or portfolio manager. For one credit hour, a student must hold the position of analyst.
Prerequisites: FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and FN 490 [Min Grade: C]

FN 360. Fundamentals of Healthcare Financial Management. 3 Hours.
Basic principles of healthcare financial management emphasizing time value of money, stock and bond valuation, and capital budgeting; risk/return analysis, cost of capital, capital structure, and cash flow analysis in the context of Healthcare organizations.
Prerequisites: AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C]
FN 370. Principles of Real Estate. 3 Hours.
Upper division course designed to provide the student with a solid foundation for making real estate decisions. Course involves computer-based assignments.
Prerequisites: AC 200 [Min Grade: C] and EC 210 [Min Grade: C] and QM 214 [Min Grade: C]

FN 410. Intermediate Financial Management. 3 Hours.
Analysis of long-term corporate financial management; detailed stock and bond valuation, cost of capital, capital budgeting, cash-flow analysis, capital structure, and dividend policy.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 411. Advanced Financial Management. 3 Hours.
Case method approach to study of applied and special topics in financial management; spreadsheet applications used in analysis of initial public offerings, imbedded options, leases, mergers, bankruptcy, and pension plan management.
Prerequisites: (FN 410 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 410 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 412. International Financial Management. 3 Hours.
Financial analysis and decision making in international context. All traditional areas of corporate finance explored.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 420. Financial Sales & Trading. 3 Hours.
This course introduces interactive trading in financial instruments. Students learn the principles of asset price discovery through real-time trading in a variety of markets, including equities, bonds, options and derivatives. Topics addressed include asset valuation, portfolio management, and risk management in the context of real-time trading of financial instruments.
Prerequisites: (FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and FN 351 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and FN 351 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 452. Management of Financial Intermediaries. 3 Hours.
Roles, activities, and functions of financial institutions and their interrelationships.
Prerequisites: (FN 310 [Min Grade: C] and EC 301 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and EC 301 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 453. Financial Risk Management. 3 Hours.
Domestic and international risk management issues. Tools to measure and manage interest rate; exchange rate and commodity price risks.
Prerequisites: (FN 350 [Min Grade: C] and FN 410 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 350 [Min Grade: C] and FN 410 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 460. Finance Internship. 3 Hours.
A work experience to enable students to better integrate academic knowledge with practical applications and to enhance students' educational experiences by making subsequent study more meaningful. Permission of the instructor required.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 470. Real Estate Finance. 3 Hours.
A study of the instruments, techniques and institutions of real estate finance and the use of financial analysis in real estate decisions.
Prerequisites: (FN 370 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 370 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 475. Real Estate Investment Analysis and Valuation. 3 Hours.
A study of investment analysis for real estate decisions, including taxation, risk, financial leverage, land use and market analysis will be covered in depth.
Prerequisites: (FN 310 [Min Grade: C] and FN 370 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and FN 370 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 490. Advanced Topics in Finance. 3 Hours.
Issues and problems in selected areas of finance.
Prerequisites: (GPAT and GPAO 2.00) or (GPAT and GPAO 2.00)

FN 499. Directed Readings in Finance. 1-3 Hour.
Supervised study of specific areas of finance.
Prerequisites: (GPAT and GPAO 2.00) or (GPAT and GPAO 2.00)

FR-French Courses

Courses

FR 101. Introductory French I. 4 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where French is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 102. Introductory French II. 4 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where French is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 108. Introductory Intensive French. 4 Hours.
Intensive study of the essentials of language needed for proficient communication. This is a high-paced course, which includes basic exercises in listening comprehension, speaking, writing and reading, as it combines FR 101 and 102. Includes a one-hour lab requirement. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 190. Study Abroad. 1-8 Hour.
First-year level of approved study-abroad program in a French-speaking country.

FR 201. Intermediate French I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where French is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.
Continuation of French 201. Continued review of grammar and composition through written exercises of reading, writing, listening comprehension, and speaking skills. Conducted in French. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 206. Intermediate Business French. 3 Hours.
Concentration on writing letters, negotiations and vocabulary build-up for the legal, medical or business fields. Conducted in French. May not concurrently enroll in FR 306.

FR 210. Intermediate French Culture. 3 Hours.
Overview of contemporary French cultural identity, in the context of geographical, social and educational dynamics. Conducted in French. May not concurrently enroll in FR 310.

FR 211. Intermediate Survey of French Literature. 3 Hours.
Intermediate-level overview of French literature and civilization from the seventeenth century to the present. Conducted in French. May not concurrently enroll in FR 311.

FR 220. Intermediate French Composition. 3 Hours.
Fundamental composition course focusing on syntactical patterns of French, vocabulary building, correct usage, stylistic control, writing skills, and free composition. Conducted in French. May not concurrently enroll in FR 320. Writing is a significant component of this course.

FR 230. Intermediate French Conversation. 3 Hours.
Acquisition of conversational and listening skills, vocabulary, and oral automatisms. Conducted in French. May not concurrently enroll in FR 330.

FR 290. Study Abroad. 1-6 Hour.
Approved program in a French-speaking country. Prerequisite: Permission of Department Chair.

FR 305. French-Speaking Cinema. 3 Hours.

FR 306. Business French. 3 Hours.
Concentration on writing letters, negotiations and vocabulary build-up for the legal, medical, or business fields. Conducted in French.

FR 307. Advanced Grammar and Composition I. 3 Hours.
Thorough review of principles of French grammar, vocabulary, and idioms. Also comparative linguistics and phonetics. Conducted in French.

FR 308. Advanced Grammar and Composition II. 3 Hours.

FR 310. Advanced French Culture. 3 Hours.
Overview of the culture of contemporary France with emphasis on social, political, and economic institutions. Concentrates on understanding and comparing French cultural, social, educational, institutional, political, and technological dynamics, at an advanced level. Conducted in French. May not take concurrently with FR 210.

FR 311. Greatest Hits of French Literature. 3 Hours.
This course is an overview of French civilization, culture, literature, and the arts from early to contemporary times. Highlights of best selling works of various authors, with emphasis on fundamental literary concepts and distinctive stylistic features of French discourse, will be reviewed. Conducted in French. May not be taken concurrently with FR 211.

FR 320. Advanced French Composition. 3 Hours.
Fundamental composition course which focuses on the syntactical patterns of French, vocabulary building, correct usage, stylistic control, writing skills, and free composition. Integrates the four language skills into a structured approach to composition. Conducted in French. May not take concurrently with FR 220.

FR 330. Advanced French Conversation. 3 Hours.
Acquisition of conversational and listening skills, vocabulary, and oral automatisms. Conducted in French. Prereg: 6 hours of French at the minor level (or equivalent) or permission of instructor. May not concurrently enroll in FR 230.

FR 390. Study Abroad. 1-6 Hour.
Approved program in a French-speaking country.

FR 399. Special Readings in French. 3 Hours.
Individualized course of directed readings and activities for students of French. Permission of Department Chair required.

FR 401. Pre-Revolutionary France (1610-1789). 3 Hours.
Literature, culture, and civilization of seventeenth- and eighteenth-century France, reflecting the historical and literary ambience in which Ancient Regime writers, philosophers, and artists worked. Selected works of representative authors. Conducted in French.

FR 402. Post-Revolutionary France (1789-1913). 3 Hours.
Literature, culture, and civilization of late eighteenth-, nineteenth-, and early twentieth-century France, illustrating the impact of the French Revolution on the historical and literary ambience of Europe and the Americas. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 403. Fin-de-Siecle France (1895-1940). 3 Hours.
Major literary and artistic movements of fin-de-siecle France, from La Belle Epoque period through World War I. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 404. French Literature since 1940. 3 Hours.
Cultural trends and literary movements from World War II to the present, including existentialism and the Nouveau Roman. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 405. Francophone Literature. 3 Hours.
French-speaking literature outside France that developed through colonization, decolonization, revolution, and emigration. Representative writers from Francophone countries with emphasis on Africa and the Caribbean. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 410. Special Topics in French. 3 Hours.
Seminar on individual authors, specific genres, important literary movements, or literary discourse/theory. Selected works of representative authors. Selections will vary according to instructor. Conducted in French. May be repeated for credit.

FR 412. French Civilization: before 1789 Pre-Revolutionary. 3 Hours.
Historical and cultural foundation of France, from its conquest by Julius Caesar to the French Revolution. Conducted in French.

FR 413. French Civilization after 1789 Post-Revolutionary. 3 Hours.
The history and myths of France after the French Revolution that produced French civilization. Conducted in French.

FR 490. Study Abroad: French. 1-6 Hour.
Approved program in a French-speaking country.
GCLH-Global Comm Ldshp Honors Courses

Courses

GCLH 105. Exploring Birmingham: Change and Power. 3 Hours.
Exploring Birmingham is a first-year GCL field experience which uses
the City as Text pedagogy to engage students in a structured exploration
of Birmingham and the social, political, economic and environmental
forces which shape it. Through readings, films, discussions, lectures, and
personal experiences in the city itself, students learn how to gather and
analyze information, think critically about difficult and contentious issues,
and integrate learning across disciplines.

GCLH 150. Burning Issues. 3 Hours.
Introductory course for students in the Global and Community Leadership
Honors Program. Students will learn about various issues impacting the
world today. Course will include guest speakers, topical readings, and
significant reflective writing. Ultimately, students will select the issue that
ignites their passion – their “burning issue”.

GCLH 200. Thinking Like a Leader. 1-3 Hour.
This course will examine social change leadership models and explore
the characteristics, values, and beliefs of such leaders past and present.
It is a required course for all Global and Community Leadership Honors
Program students.

GCLH 205. Leadership and Community/SL. 1-3 Hour.
The second required GCL field experience uses the service-learning
pedagogy, providing students partnerships with selected community or
local government agencies. Through readings, discussions and written
reflections, students will explore the meaning of service and leadership
as they work throughout the semester with their community partners.
The goal of the course is to bring students to a deeper understanding
of their role as leaders in service to those communities where they find
themselves living and working, as well as those they wish to affect in
positive ways.

Prerequisites: GCLH 105 [Min Grade: C]

GCLH 210. Thinking Locally and Globally. 1-3 Hour.
This course engages students in moderator development techniques
needed to conduct community forums and exposes them to cross-cultural
participatory decision-making through an immersion experience.

Prerequisites: GCLH 105 [Min Grade: C] and GCLH 205 [Min Grade: C]

GCLH 301. Leadership and Community Engagement. 1-3 Hour.
This course provides students with field experiences in partnership with
community or local government agencies. Through readings, discussions
and written reflections, students will explore the meaning of leadership
and community engagement. Student placements are based on an issue
of interest, thus allowing them to apply knowledge gained in both their
major field and leadership courses. The goal of the course is to bring
students to a deeper understanding of their role as leaders in service to
the community and in applying knowledge for the benefit of Birmingham
and beyond.

Prerequisites: GCLH 105 [Min Grade: C] and GCLH 205 [Min Grade: C] and GCLH 210 [Min Grade: C] and HAC 301 [Min Grade: C]

GCLH 350. Stoking the Fire: Leadership in Action. 3 Hours.
Practical application of leadership skills for students in the Global and
Community Leadership Honors Program. Students will learn, develop,
and put into practice a pragmatic skill set for management and operations
in social change leadership.

GEO-Geography Courses

Courses

GEO 101. Intro to Geography. 3 Hours.
Basic concepts and principles underlying major research traditions of
geography, including earth science, culture-environment, and location
and area analysis.

GEO 109. Intro to Urban Geography. 3 Hours.
External and internal spatial processes of cities and city systems with
emphasis on contemporary urban problems.

GEO 121. World Regional Geography. 3 Hours.
Modern worlds great culture realms using basic ideas and concepts in
field of geography.

GEO 221. Geography of North America. 3 Hours.
Nature and character of places, especially as caused by relationship
between human beings and environment.

GEO 304. Looking at Earth: Maps Satellite Images and GIS. 3 Hours.
Introduction to maps as analytic tools in the social behavioral, and
applied sciences. Students are provided training in the theory and
methodosof cartographic representation, aerial and satellite image analysis
and geographic information system. Equal weight will be placed on
first priciples, practical training in computer methods, and case studies
selected from different regions of the earth.

Prerequisites: GEO 101 [Min Grade: C]

GEO 415. Political Economy/Race in Bham. 3 Hours.
Critical analysis of race in the political economy of Birmingham from the
postbellum period to the era of Civil Rights.

GEO 491. Environmental Policy. 3 Hours.
Institutions,processes, actors and key issues in environmental policy.

GER-Gerontology Courses

Courses

GER 280. Biology of Aging. 3 Hours.
Current understanding of aging, measurement of aging changes, theories
of aging, and aging changes in various human systems.

Prerequisites: BY 123 [Min Grade: D]

GER 285. Introduction to Aging. 3 Hours.
Aging experience in modern world. Theories of aging, dimensions of
aging, everyday concerns associated with aging, and future prospects
of aging.Guest lectures by professionals in the field and other faculty in
gerontology.

GER 309. Community Resources for Special Populations. 3 Hours.
Analysis of community-based programs for specific populations: older
citizens, persons with HIV/AIDS, and the chronic mentally ill.

GER 397. Advanced Directed Readings in the Biology of Aging. 1-3 Hour.
Reading and independent study in selected areas under supervision of
faculty sponsor. Gerontology topic required.
GER 398. Research Practicum in Psychology. 1-3 Hour.
Independent project, study, or reading supervised by member of faculty.

GER 403. Politics of Aging. 3 Hours.
Role of aging in political process. Political demands made by elderly, role of aging in political decision-making, and policy outputs relevant to older population.

GER 407. Pathology of Memory. 3 Hours.
Memory disorders from stand point of experimental psychology and neuropsychology. Amnesic syndrome, dementia, transient memory disorders, Alzheimer's disease, epidemiology and public health issues.

GER 411. Bio-Psycho-Social Aspects of Aging for the Health. 3 Hours.
Overview of current gerontological-geriatric information. Special needs of the elderly in receiving healthcare services.

GER 420. Anthropology of Old Age. 3 Hours.
Anthropology of Old Age: Cross-cultural perspective of status alternatives for elderly. Examination of differing roles, especially kinship, of elderly in Africa, Europe, Oceania, Middle East, and various ethnic groups in U.S.

GER 425. Psychology of Aging. 3 Hours.
Age changes in human cognition and behavior. Sensory processes, memory, intelligence, physiology and health, psychopathology, and lifespan development and adjustment.

GER 438. Gerontology and Geriatrics Multidisciplinary Core. 3 Hours.
Overview of current gerontological-geriatric information. Special needs of the elderly in receiving healthcare services.

GER 445. Minority Aging. 3 Hours.
Cross-racial/ethnic exploration on national level of special problems of minority aged groups such as Latinos, Blacks, Chinese, Japanese, Koreans, Pacific-Asians, and American Indians. Family, church, health care, housing, adult education, retirement, income, and recreation.

GER 456. Death and Dying. 3 Hours.
Death and dying from sociological and social psychological perspectives. Social significance of death as human existential phenomenon. Recent trends in definition, distribution, and handling of death and dying (e.g., interaction with dying persons, hospice movement, and funeral practices).

GER 457. The Aging Family. 3 Hours.
Exploration of changes in family structure; status of aging in family in various societies; intra-and inter-generational relations; family-related role transitions.

GER 462. Environment and Aging. 3 Hours.
Analysis of special consequences of residential environment for older people. Patterns of residence among elderly; fit between lifestyles and types of residence; consequences of living in segregated versus age-integrated neighborhoods, retirement homes, and nursing homes; examination of policy options.

GER 480. Women and Aging. 1 Hour.
Subjects of special interest, such as women and religion, women in civil rights movement, and theories of women's studies. Varies in content depending upon topic. Students may enroll under these numbers multiple times but topic may not be repeated.

GER 485. Age Stratification. 3 Hours.
Description of normal aging process; survey of individual troubles and group social problems associated with aged. Specific topics include health, economic status, work/retirement, family relations, housing/living environments, and transportation problems.

GER 488. Sociological Practice. 3 Hours.
Students will be involved in community research projects related to intergenerational relations, aging, medicine, and/or health. Placement in community organizations, e.g. schools, senior centers, to focus on research methods related to social policy.

Prerequisites: SOC 100 [Min Grade: D]

GER 490. Independent Study and Special Courses in Sociology. 1-3 Hour.
Individually designed programs for students wishing to conduct semi-independent research or guided reading in gerontology.

GER 491. Independent Study and Special Courses in Sociology. 1-3 Hour.
Individually designed programs for students wishing to conduct semi-independent research or guided reading in gerontology.

GER 498. Independent Study I. 1-3 Hour.
Community service projects under direction of faculty.

GER 499. Independent Study II. 1-3 Hour.
Community service projects under direction of faculty.

GL-Geology

Courses

GL 201. Invertebrate Paleontology. 4 Hours.

GN-German Courses

Courses

GN 101. Introductory German I. 4 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where German is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 102. Introductory German II. 4 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where German is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 190. Study Abroad. 1-8 Hour.
Approved novice-level program in German-speaking country. Course of study will vary according to array of approved offering and student interest. Permission of the Department Chair and Director of Education Abroad required.

GN 201. Intermediate German I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where German is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.
GN 202. Intermediate German II. 3 Hours.
Continuation of GN 201. Conducted in German. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 203. German Culture and Civilization. 3 Hours.
Introduction to historical and contemporary aspects of German culture through readings and other media. Emphasizes continued development of oral and written skills. Conducted in German.

GN 204. Readings in German Literature. 3 Hours.
Selections from representative modern authors. Emphasis on oral and written practice. Conducted in German. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 205. German for the Professions. 3 Hours.
Intensive conversation course designed to acquaint students with more extensive vocabulary of German-speaking professionals. Students also learn about the cultural context in which German is used in various professions. Conducted in German.

GN 206. German for Technology and Media. 3 Hours.
Practice in the use of technology and media in German Studies. Conducted in German.

GN 210. German Culture and Civilization II. 3 Hours.
Highlights of cultural history from the Middle Ages to the present.

GN 290. Study Abroad. 1-6 Hour.
Approved program in a German-speaking country.

GN 299. Special Readings in German. 3 Hours.
This is an individualized course of directed readings and activities for intermediate students of German. Course design is determined by the instructor and the student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of German language and culture. Intermediate proficiency in reading, writing, listening and speaking German is the targeted outcome. Permission of Department Chair required.

Prerequisites: GN 201 [Min Grade: D]

GN 390. Study Abroad. 1-6 Hour.
Approved program in a German-speaking country.

GN 399. Directed Readings in German. 3 Hours.
Special Readings in German.

GN 480. Special Topics in German Literature. 3 Hours.
Emphasis on particular authors, genres, or topics. May be repeated for credit.

GN 490. Study Abroad: German. 1-6 Hour.
Approved program in a German-speaking country.

GN 499. Directed Studies in German. 3 Hours.
Directed studies. Permission of Department Chair required.

HC-Honors College

Courses

HC 101. Honors College Leadership. 1-3 Hour.
This course is the first course in the three-course Honors College leadership series. Specifically, this course is an introduction to the study of leadership; including the study of traits and characteristics of leaders, values & ethics used in leadership, the situational nature of leadership, the importance of Emotional Intelligence in leadership, and the study of leadership as a team activity.

HC 110. Honors Seminar: Special Topics. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience course.

HC 111. Honors Seminar in Engineering. 1-3 Hour.
Honors College seminar in Engineering. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 112. Honors Seminar in Public Health. 0-3 Hours.
Honors College seminar in Public Health. Course content varies and is based on topics in Public Health of interest to honors students. Freshmen honors students may take in lieu of a First Year Experience course.

HC 113. Honors Seminar in Education. 1-3 Hour.
Honors College seminar in Education. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 114. Honors Seminar in Business. 1-3 Hour.
Honors College seminar in Business. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 115. Honors Seminar in Health Professions. 1-3 Hour.
Honors College seminar in Health Professions. Course content varies and is based on health-related topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 116. Honors Seminar in Social and Behavioral Sciences. 1-3 Hour.
Honors College seminar in Social and Behavioral Sciences. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 117. Honors Seminar in Natural Sciences and Mathematics. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 118. Honors Seminar in Arts and Humanities. 1-3 Hour.
Honors College seminar in Arts and Humanities. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 119. Honors Seminar. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 120. Honors Seminar. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 201. Leadership Skills. 1-3 Hour.
This course is the second course in the three-course Honors College leadership series. HC 101 focused on leadership principles and individual characteristics that contribute to a leader’s style. HC 201 will focus on planning the project to be carried out in HC 301 and on related leadership skills such as communication methods, professionalism and the identification of measureable outcomes.

Prerequisites: HC 101 [Min Grade: C]
HC 300. Contemporary Social Issues, Leadership and Scholarship. 0-3 Hours.
Analysis of classical and modern foundations and principles of leadership and a survey of contemporary social issues. Practice in scholarship essay writing, interviewing, and critical thinking. Intended for national and international scholarship and fellowship applicants. Enrollment limited to sophomores and juniors.

HC 301. Advanced Leadership Skills and Practice. 1-3 Hour.
Provides students with an opportunity to lead an independent project using leadership principles and skills.
Prerequisites: HC 201 [Min Grade: C]

HC 395. Honors Study Abroad. 0-3 Hours.
Students will participate in an honors study abroad experience. Instructor and Director of Education Abroad approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 396. Honors Service Learning. 0-3 Hours.
Students will propose and complete a service learning project under the supervision of a faculty member. Instructor approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 397. Honors Independent Study. 0-3 Hours.
Students will propose and complete an honors-level academic project under the supervision of a faculty mentor. Instructor approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 398. Honors Undergraduate Research Studies. 0-3 Hours.
Students will propose and conduct an undergraduate research project under the supervision of a faculty mentor. Instructor approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 399. Internships or Co-op Studies. 0-3 Hours.
Students will participate in an internship or co-op experience under the supervision of a faculty mentor. Instructor approval required. May be repeated for credit.

HC 401. Honors Independent Leadership Project. 1-3 Hour.
Students will propose and complete a leadership experience under the supervision of a faculty mentor. Must be an Honors College student in good standing. Instructor approval required. May be repeated for credit.
Prerequisites: HC 301 [Min Grade: C]

HCM-Health Care Management

Courses

HCM 302. Principles of Management in Health Care. 3 Hours.
Basic management concepts in context of health care organizations; oral and written communication; planning and goal setting; decision-making and problem solving; personnel selection; performance appraisal.

HCM 305. Effective Communication and Professionalism in Health Care. 2 Hours.
Professional traits, behaviors, skills, and attitudes needed to perform in a professional, ethical, and competent manner in the health care environment.

HCM 316. Accounting and Finance for Health Care. 3 Hours.
Introduction to financial accounting in health care organizations; reasoning and methods of financial accounting in for-profit, not for profit and government entities; and health care industry characteristics affecting financial management.
Prerequisites: AHS 330 [Min Grade: C] or (HCM 330 [Min Grade: C] and MA 105 [Min Grade: C] and MA 110 [Min Grade: C])

HCM 318. Law for Health Care Professionals. 3 Hours.
Principles of law and U.S. legal system as applied in health care organizations; documentation, privacy, security, and release of health information; liability, consent, and medical malpractice.

HCM 320. Microcomputer Applications for Health Care Professionals. 3 Hours.
Word Processing, spreadsheet, database, file management, information systems, internet, and presentation applications in managerial functions.

HCM 325. Healthcare Law and Ethics. 3 Hours.
Principles of law and ethics in the U.S. healthcare legal system as applied in health care organizations; patient’s rights, privacy, security confidentiality, informed consent, documentation and release of health information, liability, and medical malpractice.

HCM 330. Health Care Systems. 3 Hours.
Overview of U.S. health care system; implications of environmental trends and health care policy on health care organizations; introduction to financing of health care.

HCM 350. Medical Terminology for Health Professionals. 3 Hours.
Systematic study of medical terminology with emphasis on constructing, understanding and using medical terms. Content includes diseases, symptoms & signs of disease, diagnostic, and clinical procedures and treatment modalities.

HCM 360. Statistics for Managers. 3 Hours.
Basic descriptive and inferential statistics as applied in managerial processes; computer-based graphic analysis of data; use of computer-based statistical software; application of statistical process control tools. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

HCM 375. Managerial Epidemiology. 3 Hours.
Methods and applications of managerial epidemiology; measurement and epidemiological tools that inform health care management decisions.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 401. Organizational Studies in Health Care. 4 Hours.
Behavioral science concepts including leadership, managing change, negotiating and conflict resolution, team building, organizational assessment, marketing, and entrepreneurship in the context of health care organizations.
Prerequisites: (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 402. Economics for Healthcare Managers. 3 Hours.
Principles of economics of the health care system on the basis of incentives, risk management, asymmetrical information, and moral hazards; practical application of economic principles, including supply and demand, market structure and forecasting.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]
HCM 403. Operations Management in Health Care Organizations. 4 Hours.
Operational functions of mid-level managers in health care organizations including work design and re-engineering; systems theory; development, planning, and analysis; ergonomics and work environment; quality improvement techniques.
Prerequisites: (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 405. Human Resource Management in Health Care Organizations. 4 Hours.
Managerial activities in health care organizations related to job descriptions, recruiting, interviewing, hiring, firing, orientation, benefits, appraisal, discipline, and developing clinical and non-clinical personnel.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 407. Strategic Management in Health Care Organizations. 3 Hours.
Overview of strategic management process; strategic planning in health care organizations from perspective of mid-level manager; emphasis on operational level implementation and control.
Prerequisites: AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C]

HCM 409. Personnel Management in Long-Term Care. 1 Hour.
Planning for staffing and staff development of clinical and non-clinical personnel in long-term care facilities.
Prerequisites: AHS 405 [Min Grade: C] or HCM 405 [Min Grade: C]

HCM 410. Long Term Care Facilities Management. 3 Hours.
Overview of administrative responsibility for physical facilities; environmental safety; emergency preparedness and response; interdependence and functioning of medical, nursing, social, dietary, and other key resident services.

HCM 411. Biological, Psychological, and Sociological Issues of Aging. 3 Hours.
Overview of current gerontological-geriatric information; special needs of the elderly in receiving health care services.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 415. Ethics for Health Care Professionals. 3 Hours.
Overview of major ethical theories; ethical decision making models; application to patients rights, confidentiality, informed consent, professional relationships, and allocation of scarce resources. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: (AHS 318 [Min Grade: C] or HCM 318 [Min Grade: C]) and (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 416. Financial Management in Health Care Organizations. 3 Hours.
Overview of financial management functions at the department level; budgeting and cost analysis for department-level operations and capital expenditures. Fulfills the requirements in Quantitative Literacy.
Prerequisites: (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]) and (AC 200 [Min Grade: C] and AC 201 [Min Grade: C]) or BUS 310 [Min Grade: C] or HCM 316 [Min Grade: C]

HCM 417. Financial Management for Long Term Care Administrators. 2 Hours.
Overview of financial management practices and reimbursement issues and methodologies in long term care facilities.
Prerequisites: (AHS 416 [Min Grade: C] or HCM 416 [Min Grade: C]) and (AHS 421 [Min Grade: C] or HCM 421 [Min Grade: C])

HCM 418. Legal and Regulatory Issues in Long Term Care. 3 Hours.
Governance and administrative responsibilities for compliance with LTC licensure laws, government and accrediting regulations, and facility policies.
Prerequisites: [AHS 318 [Min Grade: C] or HCM 318 [Min Grade: C] or HCM 325] and (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 420. Long Term Care Resident Care and Quality. 2 Hours.
Planning, managing, and evaluating programs that enhance resident quality of life in long-term care facilities.

HCM 421. Introduction to Long Term Care Administration. 3 Hours.
Introduction to the long term care industry and nursing facility operations through seminars, independent media research, and experiential learning.
Prerequisites: HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]

HCM 425. Healthcare Reimbursement Methods. 3 Hours.
Review of diverse financial systems within American healthcare, focus on reimbursement methods and payment systems and how they affect providers and payers. Review of major insurance programs, federal health care legislation, legal/regulatory issues, diagnosis and procedure coding systems, and the impact of coding on reimbursement, compliance and fraud and abuse.
Prerequisites: (AHS 350 [Min Grade: C] or HCM 350 [Min Grade: C]) and (HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C])

HCM 430. Documentation Requirements in Long Term Care. 2 Hours.
Overview of clinical documentation requirements in long term care facilities, including the Resident Assessment Instrument, Minimum Data Set, and Patient Care Plan. Additional Focus on information privacy and security.
Prerequisites: (HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]) and (HCM 421 [Min Grade: C] or AHS 330 [Min Grade: C])

HCM 431. Planning and Implementing HE. 3 Hours.
Content and process planning, implementing, and evaluating programs in health education and health promotion. Sociological, psychological, and epidemiological foundations of health promotion programs. Development of practical skills for school, occupational, clinical, and community settings. A comprehensive program planning assessment will reinforce quantitative literacy in the profession. Quantitative Literacy is a significant component of this course.

HCM 432. Continuum of Long-Term Care. 3 Hours.
Survey of providers of long term and elder care, including scope of services provided, review of reimbursement methodologies, clientele served, and political issues affecting their operational practices.
Prerequisites: (HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]) and (HCM 421 [Min Grade: C] or AHS 421 [Min Grade: C])

HCM 435. Clinical and Administrative Information Systems. 3 Hours.
Overview of information systems and applications in health care organization; issues and challenges in system design and implementation.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 450. Quality Management in Health Care. 3 Hours.
Concepts of monitoring and evaluating the quality and appropriateness of patient care and services provided in health care organizations; overview of regulatory guidelines and industry standards; current issues in quality measurement and outcomes.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]
HCM 460. Research Methods. 3 Hours.
Introductory research methods course for the design and conduct of interdisciplinary health services research, including study design, research ethics, descriptive and advanced statistics, and research reporting.
Prerequisites: (AHS 360 [Min Grade: C] or HCM 360 [Min Grade: C]) or MA 180 [Min Grade: C] or QM 214 [Min Grade: C] or PY 216 [Min Grade: C]

HCM 474. Service Learning in Health Care Management. 2 Hours.
Classroom and experiential learning through designed community based or clinically related service experiences. Students work with community partners to monitor patient health and welfare while gaining insight into the barriers to healthcare access, costs, and quality.

HCM 475. Special Topics in Health Care Management. 1-4 Hour.
Exploration of current issues in Health Care Management.

HCM 480. Health Care Policy and Reform. 3 Hours.
Identification and discussion of health policy issues facing the U.S. and economic implications of health policy and health care reforms over time.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 481. Health Care Management Internship. 3,6 Hours.
Capstone course places students in selected healthcare setting supervised by experienced preceptors. Students are exposed to day-to-day managerial functions and participate in organizational projects. Students draw upon, synthesize, and apply classroom learning to healthcare organization environments. Activities focus on the development of problem solutions, effective communications and research skills. Projects focus on Service Learning and students also explore the culture, ethical issues and community impact of the organization.
Prerequisites: (AHS 401 [Min Grade: C] or HCM 401 [Min Grade: C]) and (AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C]) and (AHS 405 [Min Grade: C] or HCM 405 [Min Grade: C]) and (AHS 407 [Min Grade: C] or HCM 407 [Min Grade: C]) and (AHS 480 [Min Grade: C] or HCM 480 [Min Grade: C])

HCM 482. Current Issues in Health Care. 3 Hours.
Identification of current issues in the health care industry, with an emphasis on analyzing organizational impact.
Prerequisites: HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]

HCM 483. Long Term Care Health Care Management Internship. 6-10 Hours.
Supervised experience in managerial functions in selected long-term care health care organizations.
Prerequisites: (AHS 401 [Min Grade: C] or HCM 401 [Min Grade: C]) and (AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C]) and (AHS 405 [Min Grade: C] or HCM 405 [Min Grade: C]) and (AHS 407 [Min Grade: C] or HCM 407 [Min Grade: C])

HE-Health Education Courses

HIM-Health Information Mgmt Courses

Courses

HIM 318. Survey of Human Anatomy and Physiology for Coding. 3 Hours.
Survey course on the structure and function of the body. A systems approach emphasizing basic anatomy and physiology of the human body.
Prerequisites: AHS 350 [Min Grade: C]

HIM 405. Clinical Information I. 3 Hours.
Study of diseases with emphasis on medical terminology relevant to clinical documentation in inpatient and outpatient health care settings. Course content includes manifestation of disease, diagnostic and therapeutic procedures, and pharmacology for cardiovascular, respiratory, blood, lymphatic, immune, musculoskeletal, integumentary, and endocrine body systems and sense organs, oncology and psychiatry.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C] or HIM 318 [Min Grade: C]

HIM 410. Clinical Information II. 3 Hours.
Study of diseases with emphasis on medical terminology relevant to clinical documentation in inpatient and outpatient health care settings. Course content includes manifestation of disease, diagnostic and therapeutic procedures, and pharmacology for cardiovascular, respiratory, blood, lymphatic, immune, musculoskeletal, integumentary, and endocrine body systems and sense organs, oncology and psychiatry. An emphasis will be put on writing a professional paper on a clinical topic. Writing is a significant component of this course.

HIM 415. Introduction to Health Information Management. 3 Hours.
Study of HIM profession and employment opportunities; functions of a HIM department and ancillary hospital departments; HIM professional ethics; HIM professional associations; applications of principles of management to the efficient administration of health information services; numbering, filing and preservation of records; master patient index and the role of The Joint Commission and other accrediting agencies. An emphasis is placed on the student's ability to apply HIM professional ethics in real world case scenarios. Ethics and Civic Responsibility are significant components of this course.

HIM 416. Health Data Concepts. 3 Hours.
Study of the origin, uses, content and format of health care data across the continuum of health care including both paper and electronic health records; accreditation, certification and licensures standards applicable to health records and documentation requirement in various healthcare facilities relative to the Joint Commission on Accreditation of Healthcare Organizations, Center for Medicare and Medicaid Services, American Osteopathic Association and Alabama requirements.
Prerequisites: HIM 415 [Min Grade: C](Can be taken Concurrently)

HIM 417. Pathology for Coders. 3 Hours.
Study of disease with emphasis on the pathology relevant to clinical documentation in health care settings; includes manifestation of disease, diagnostic and therapeutic procedures, and pharmacology, for all body systems.
Prerequisites: AHS 350 [Min Grade: C] and (HIM 318 [Min Grade: C]) or BY 115 [Min Grade: C] or BY 116 [Min Grade: C]

HIM 418. Documentation Standards for Health Data. 3 Hours.
Origin, uses, content, and format of data across the continuum of health care, including paper and electronic health records; primary and secondary data sources; documentation best practices; accreditation standards and regulations applicable to documentation requirements.
Prerequisites: AHS 350 [Min Grade: C] and AHS 318 [Min Grade: C]
HIM 425. Epidemiology and Applied Statistics in Health Care Organizations. 3 Hours.
Concepts of epidemiology; basic biostatistics; vital statistics; data collection and data presentation; study designs. Quantitative Literacy is a significant component of this course.

HIM 430. Clinical I. 1 Hour.
Supervised projects/assignments at approved professional practice sites where student applies theory from HIM courses. Projects/assignments include: filing and retrieval, registration processes, assembly/analysis of paper/electronic records; confidentiality and release of medical information; security, storage and retention of health records; HIM department systems analysis and workflow; HIM department organization and functions; and paper/electronic forms design.

HIM 431. Clinical II. 1 Hour.
Supervised projects/assignments at approved professional practice sites where student applies theory from HIM courses. Projects/assignments include: identification of statistical reporting and data requirements; regulatory, compliance and quality responsibilities/functions; case management or utilization management functions, ICD-9-CM/CPT-4 coding; case mix management; revenue cycle; and HIM department productivity.

HIM 440. ICD-10-CM Coding. 4 Hours.
Diagnostic and procedural coding, including the principles of ICD-10-CM coding and UHDDS guidelines.
Prerequisites: HIM 405 [Min Grade: C] and BY 115 [Min Grade: C] and BY 116 [Min Grade: C] or HIM 318 [Min Grade: C]

HIM 441. Diagnostic Coding for Health Care Organizations. 3 Hours.
Study of diagnostic and procedural coding including the principles of ICD-10CM/PCS and UHDDS guidelines; assignment and sequencing of principal diagnosis and procedure.
Prerequisites: AHS 350 [Min Grade: C] and HIM 318 [Min Grade: C] and HIM 417 [Min Grade: C] and HIM 418 [Min Grade: C](Can be taken Concurrently)

HIM 443. Information Resource Management. 3 Hours.
Overview of information management functions related to obtaining, managing, and using information to improve patient outcomes and health care facility performance in patient care, governance, management, and support processes.

HIM 450. Clinical Research. 3 Hours.
Study of design concepts and information systems to support clinical and health services research and investigation, e.g. drug companies, genetic engineering firms, academic institutions and individual researchers; major national research policy-making bodies, their research protocols and their management of information. Students will perform statistical analysis and display of data and results and will critically evaluate published reports of clinical and epidemiological studies.
Prerequisites: HIM 425 [Min Grade: C]

HIM 455. Reimbursement and Regulatory Requirements for HIM. 3 Hours.
Financial aspects of healthcare involving prospective reimbursement; managing the coding function in healthcare organization; quality assurance of coded data; DRGs and other case mix systems; security issues under HIPAA.
Prerequisites: HIM 440 [Min Grade: C] and HIM 460 [Min Grade: C]

HIM 458. Clinical Terminology and Vocabulary. 3 Hours.
Overview of clinical terminologies, vocabularies and classification systems including purposes, organization and structures, mappings in the electronic health record (EHR), and future roles in eHIM.
Prerequisites: HIM 440 [Min Grade: C]

HIM 460. Coding/Classification Systems. 3 Hours.
Ambulatory care coding – CPT-4, HCPCS, and CMS’s coding and reporting requirements for ambulatory care.
Prerequisites: HIM 405 [Min Grade: C]

HIM 465. Clinical Evaluation and Outcomes Research. 3 Hours.
Review of current approaches to measuring, evaluating, and reporting clinical outcomes in health care organizations.

HIM 470. Data Management. 3 Hours.
Data collection for enterprise; reportable and specialized databases; data mining of healthcare data; data information; file structures; data security; and data retrieval.
Prerequisites: AHS 435 [Min Grade: C]

HIM 475. Electronic Health Records. 3 Hours.
Strategies for developing and implementing the framework and conceptual model of the electronic health record for enterprise-wide data collection, archiving, aggregation and reporting, and data security of health information for patient care.
Prerequisites: AHS 318 [Min Grade: C]

HIM 481. Issues in Health Information Management. 1-4 Hour.
A seminar that emphasizes management skills/tools used in HIM practice and highlights current developments in HIM. Emphasis on writing documents (e.g. memo, policy, team chart, teaching plan); emphasis on calculating productivity, FTES and costs for alternative solutions to reduce backlog in a designated function; and emphasis on the HIM professional’s role in advocacy for current national issues in HIM practice, such as privacy and security of health information and the personal health record.

HON-University Honors Program

Courses

HON 101. Interdisciplinary: English. 3 Hours.
Process and final product of expository, argumentative, and analytical essays in a variety of disciplines. Research and documentation required on most essays. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 102. Interdisciplinary: Chemistry. 3 Hours.
Fundamental facts, principles, theory, and applications of chemistry. Qualitative in nature; for non-science majors with no previous background in chemistry. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 103. Interdisciplinary: Psychology. 3 Hours.
Application of scientific method to behavior. Takes an interdisciplinary approach in exploring areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 104. Interdisciplinary: Theology. 3 Hours.
Introduction to foundations of the major religions. An exploration of religion, its nature, warrant, and significance. God, evil, religious experience, faith, and reason. Takes an interdisciplinary approach to religion and religious practices. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 105. Interdisciplinary: Science. 3 Hours.
Survey of scientific methodologies in biology, chemistry and physics. Recent advances and topics in modern biology, chemistry examined from an interdisciplinary approach. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 106. Interdisciplinary: Anthropology. 3 Hours.
An interdisciplinary exploration of culture; similarities and differences among human groups. Interpretation of human fossil record; archaeological methods and theory used to reconstruct and interpret past. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 107. Interdisciplinary: Urban Studies. 3 Hours.
An interdisciplinary study of social and demographic characteristics of cities, structures of urban governments, intergovernmental relations, lifestyles, and electoral politics in metropolitan environments. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 108. Interdisciplinary: Music. 3 Hours.
Basic elements of music and music notation: rhythm, scales, keys, and chords. Physical and perceptual aspects of musical tones and numerical basis of scales, tuning, and musical instrument design. A variety of music styles are studied in an interdisciplinary context. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 109. Interdisciplinary: Business. 3 Hours.
Introduction to principles of business, international business, business ethics, and trading blocks. Not intended for Business majors. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 110. Participation in Honors. 1 Hour.
Student must participate in at least eight special events sponsored by the University Honors Program including special lectures, visiting speakers, workshops and field trips. Permission of instructor. Pass/Fail.

HON 111. Interdisciplinary: Philosophy. 3 Hours.
Introductory survey of philosophy, its nature, methods, and problems explored in an interdisciplinary context. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 112. Community Service. 1 Hour.
Student must have signed a contract and completed a minimum 20 hours community service in a designated, extended project and have attended meetings to discuss general issues related to community service. Permission of instructor. Pass/Fail.

HON 151. Interdisciplinary: Art and Art History. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of art materials and techniques. Not for Art majors. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 152. Interdisciplinary: Psychiatry and Behavioral Neurobiology. 3 Hours.
Introduction to major psychiatric disorders and knowledge gained about brain-behavior relationships from behavioral neurobiology. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 153. Interdisciplinary: Biology. 3 Hours.
Selected topics in contemporary biology for non-majors. Animal form and function, behavior, ecology, and evolution. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 154. Interdisciplinary: Literature. 3 Hours.
Short stories, novellas, poems, and plays with an emphasis on the techniques of each genre. American, British and Irish, and world literature from a variety of historical periods. Emphasis on writing and literary analysis while taking an interdisciplinary approach. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 155. Interdisciplinary: Physics. 3 Hours.
Introductory survey of physics. Matter, energy, light. Selective topics in modern physics. Basic laws of physics, modern theories of matter and the universe, cosmic history and evolution. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 156. Interdisciplinary: Law and Ethics. 3 Hours.
Interdisciplinary discussion of the nature and function of law and legal institutions. Ethics and morality in modern society. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 157. Interdisciplinary: Cognitive Science. 3 Hours.
Introduction to major issues in cognitive science drawing from cognitive psychology, cognitive neuroscience, computer science, philosophy, linguistics, behavioral neurology, and cultural anthropology. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 158. Interdisciplinary: Economics. 3 Hours.
Economic principles, economic analysis, trading blocks, examined in an interdisciplinary context. Not intended for Business majors. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 159. Interdisciplinary: Theatre. 3 Hours.
Understanding the theatre experience through class lectures, reading and writing assignments, demonstrations, and discussions. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 160. Interdisciplinary: Government. 3 Hours.
An introduction to the institutions and processes of American government in an interdisciplinary context. Exposure to political cultures and systems around the world. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 161. Interdisciplinary: History. 3 Hours.
An exploration of significant world historical developments from the beginning of the early modern era (approximately 1600 CE) to the present in an interdisciplinary context. Intellectual movements, political revolutions and nationalism, industrialization, cultural changes, and the relationship between Western and non-Western societies. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 162. Interdisciplinary: Mathematics. 3 Hours.
Mathematics is studied in an interdisciplinary context focusing on the development of quantitative reasoning skills, quantitative literacy, and deductive inference. Topics incorporate pre-calculus algebra, pre-calculus trigonometry, probability, descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 163. Interdisciplinary: Justice Sciences. 3 Hours.
Introduction to the criminal justice system. Examination of crime and delinquency in an interdisciplinary context. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 164. Interdisciplinary: Sociology. 3 Hours.
An interdisciplinary approach to human social life, its forms and consequences for everyday life. An exploration of social inequalities and differentiation by race, ethnicity, class, and gender. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 165. Interdisciplinary: Communications. 3 Hours.
Perspectives on the history of newspapers, books, magazines, radio, television, cinema, recording industry, and the Internet examined in an interdisciplinary context. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 166. Interdisciplinary: Film. 3 Hours.
An interdisciplinary analysis of film, and understanding of film as art form. Examination of editing, directing, and other aspects of film production. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 170. Interdisciplinary: Computer Science. 3 Hours.
Introduction to features of modern computing in an interdisciplinary context. Fundamentals of hardware, software, human-computer interfaces, networking, multi-media, databases, privacy and digital security. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 171. Interdisciplinary: Linguistics. 3 Hours.
An interdisciplinary approach to the scientific study of language. Principles underlying phonology, morphology, syntax and semantics. Relationships between language and culture, and language and mind. Psycholinguistics. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 172. Interdisciplinary: Foreign Languages & Literatures. 3 Hours.
An interdisciplinary approach to the exploration of the customs, traditions, languages, ancestry, religions, values, and institutions of varied western and non-western nations through the use of humanities disciplines. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 173. Interdisciplinary: Education. 3 Hours.
Interdisciplinary perspectives on current issues and problems in education, the role and value of diversity in education, and modern trends in effective pedagogy. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 174. Interdisciplinary: Engineering. 3 Hours.
An interdisciplinary introduction to profession of engineering, engineering design, and problem solving. Not for engineering majors. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 175. Interdisciplinary: Health Professions. 3 Hours.
An interdisciplinary introduction to current issues in health information management, health care management, medical technology, nuclear medicine technology, and respiratory therapy. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 176. Interdisciplinary: Nursing. 3 Hours.
An interdisciplinary approach to the practice of professional nursing as an evidence-based, goal-directed activity for assisting patients to achieve optimal health by meeting basic human needs, providing holistic care, and engaging in health promotion. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 178. Interdisciplinary: Medicine. 3 Hours.
Interdisciplinary perspectives on the history of medicine as well as the practice of modern medicine. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 179. Interdisciplinary: Public Health. 3 Hours.
Introduction to the scope of modern public health. Epidemiology, Epidemics and pandemics. Health behavior and occupational health and safety. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 180. Interdisciplinary: African American Studies. 3 Hours.
An interdisciplinary study of major theoretical, and critical discourses of Black Studies, and its emergence as a political/social movement and discipline. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 181. Interdisciplinary: Women's Studies. 3 Hours.
An interdisciplinary study of role of women in society through social, political, economic, philosophical, historical, and biological perspectives. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 182. Interdisciplinary: Neuroscience. 3 Hours.
An exploration of the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions. An examination of the molecular basis of nervous system disorders and diseases. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 183. Interdisciplinary: Nutrition Sciences. 3 Hours.
Introduction to principles of nutrition; metabolism and function of essential nutrients and their relation to growth and optimal functioning of the body; biosynthesis of vitamins; dietary recommendations to promote wellness and prevent chronic disease; human requirements for energy, amino acids, minerals, and vitamins; current human nutritional problems and obesity. This course is an option for freshmen in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 184. Interdisciplinary: Biomedical Engineering. 3 Hours.
Introduction to topics in biomedical engineering. Engineering solutions to problems in genomics, proteomics, and nanotechnology. Introduction to challenges in biomaterials and bioinstrumentation. Not for engineering majors. This course is an option for freshmen in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 186. Interdisciplinary: International Studies. 3 Hours.
An introductory survey of the problems and practices of global cooperation and conflict. Discussion of issues in international economics such as trading blocs, wealth distribution; issues in social justice and human rights; issues in international law and politics such as the United Nations. This course is an option for freshmen in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 195. Interdisciplinary: Natural Sciences. 3 Hours.
Examination and survey of scientific methodologies including biology, geology, physics, chemistry, and important developments in the natural sciences. Recent advances and topics in the natural sciences are examined from an interdisciplinary approach. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 200. Seminar: Independent Project. 3 Hours.
The University Honors Program student writes a two-page proposal describing the scope and outcomes of the proposed project to be conducted under the mentorship of an internal and external advisor. The project replaces a regular honors seminar. HON 200 is taken for a grade (A-F). Prerequisite: The proposal must be pre-approved by a majority of the Honors Council. Permission of instructor.

HON 201. Interdisciplinary: English. 3 Hours.
Process and final product of expository, argumentative, and analytical essays in a variety of disciplines. Research and documentation required on essays. Introduction to fundamentals of creative writing. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 202. Interdisciplinary: Chemistry. 3 Hours.
Covers fundamental concepts of organic chemistry and biochemistry studied in an interdisciplinary context. For non-science majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 203. Interdisciplinary: Psychology. 3 Hours.
Advanced application of scientific method to behavior. Areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences are studied in an interdisciplinary context. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 204. Interdisciplinary: Theology. 3 Hours.
An exploration of religion, its nature, warrant, and significance in an interdisciplinary context. God, evil, religious experience, faith, and reason. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 205. Interdisciplinary: Science. 3 Hours.
Exploration of recent developments in modern biology, chemistry, and physics in an interdisciplinary context. Basic physical laws and structures, cosmic history and evolution. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 206. Interdisciplinary: Anthropology. 3 Hours.
An interdisciplinary exploration of concept of culture; similarities and differences among human groups. Interpretation of human fossil record; archaeological methods and explorations of ancient civilizations. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 207. Interdisciplinary: Urban Studies. 3 Hours.
An interdisciplinary study of social and demographic characteristics of cities, structures of urban governments, intergovernmental relations, lifestyles, and electoral politics in metropolitan environments. Urban problems compared to rural and suburban problems. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 208. Interdisciplinary: Music. 3 Hours.
Basic elements of music and music notation: rhythm, scales, keys, and chords. Physical and perceptual nature of musical tones and numerical basis of scales, tuning, and musical instrument design. A variety of music styles are studied in an interdisciplinary context. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 209. Interdisciplinary: Business. 3 Hours.
Survey of business principles, international business, business ethics, and trading blocks in an interdisciplinary context. Business and government interactions. Not intended for Business majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 210. Participation in Honors. 1 Hour.
Student must participate in at least eight special events sponsored by the University Honors Program including special lectures, visiting speakers, workshops and field trips. Must have completed HON 112. Permission of instructor. Pass/Fail.

HON 211. Interdisciplinary: Philosophy. 3 Hours.
Introductory survey of philosophy, its nature, methods, and problems explored in an interdisciplinary context. Classic and contemporary readings. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 212. Community Service. 1 Hour.
Student must have signed a contract and completed a minimum 20 hours community service in a designated, extended project and have attended meetings to discuss general issues related to community service. Must have completed HON 110. Permission of instructor. Pass/Fail.

HON 251. Interdisciplinary: Art and Art History. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of the aesthetic experience. Various media, methods, subject matter, and vocabulary discussed in an interdisciplinary context. Not for Art majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 252. Interdisciplinary: Psychiatry and Behavioral Neurobiology. 3 Hours.
Major psychiatric disorders and topics in behavioral biology discussed in an interdisciplinary context. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 253. Interdisciplinary: Biology. 3 Hours.
Selected topics in contemporary biology discussed in an interdisciplinary context. Animal form and function, behavior, ecology, and evolution. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 254. Interdisciplinary: Literature. 3 Hours.
American, British and Irish, and world literature from a variety of historical periods studied in an interdisciplinary context. Emphasis on writing and literary analysis. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 255. Interdisciplinary: Physics. 3 Hours.
Survey of physics. Matter, energy, light. Selective topics in modern physics discussed in an interdisciplinary context. Basic laws of physics, modern theories of matter and the universe, cosmic history and evolution. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 256. Interdisciplinary: Law and Ethics. 3 Hours.
Interdisciplinary discussion of the nature and function of law and legal institutions. The Supreme Court and constitutional issues. Ethics and morality in modern society. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 257. Interdisciplinary: Cognitive Science. 3 Hours.
An introduction to the major issues in modern cognitive science. An interdisciplinary approach drawing from cognitive psychology, cognitive neuroscience, computer science, philosophy, linguistics, behavioral neurology, and cultural anthropology. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 258. Interdisciplinary: Economics. 3 Hours.
Economic principles, economic analysis, stock exchange, trading blocks and world trade examined in an interdisciplinary context. Not intended for Business majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 259. Interdisciplinary: Theatre. 3 Hours.
Understanding the theatre experience through class lectures, reading and writing assignments, demonstrations, and discussions. Writing is a significant component of the course. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 260. Interdisciplinary: Government. 3 Hours.
An introduction to the institutions and processes of American government in an interdisciplinary context. Exposure to political cultures and systems around the world. Transitions to democracy. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 261. Interdisciplinary: History. 3 Hours.
An interdisciplinary exploration of significant world historical developments from the beginning of the early modern era (approximately 1600 CE) to the present. Intellectual movements, political revolutions and nationalism, industrialization, cultural changes, and the relationship between Western and non-Western societies. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 262. Interdisciplinary: Mathematics. 3 Hours.
Mathematics is studied in an interdisciplinary context focusing on the development of quantitative reasoning skills, quantitative literacy, and deductive inference. Topics incorporate pre-calculus algebra, pre-calculus trigonometry, probability, descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 263. Interdisciplinary: Justice Sciences. 3 Hours.
Introduction to the criminal justice system (police, courts, and corrections). Examination of crime and delinquency in an interdisciplinary context. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 264. Interdisciplinary: Sociology. 3 Hours.
An interdisciplinary approach to human social life, its forms and consequences for everyday life. An exploration of selective topics related to social inequalities and differentiation by race, ethnicity, class, and gender. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 265. Interdisciplinary: Communications. 3 Hours.
An interdisciplinary approach to issues in the history of newspapers, books, magazines, radio, television, cinema, recording industry, and the Internet. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 266. Interdisciplinary: Film. 3 Hours.
An interdisciplinary analysis of film and its role in modern society. The understanding of film as art form. Examination of editing, directing, and other aspects of film production. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 267. Seminar: Tropical Ecology. 3 Hours.
Major tropical ecotypes; ecology of terrestrial, aquatic, and marine tropical organisms. Major portion conducted at tropical field station in Caribbean. Lecture and field trips (May session). Permission of instructors, University Honors Program Director, UAB Study Abroad Director and payment of all study abroad fees required to enroll. This course is equivalent to BY 267 Tropical Ecology, which will take place in the Bahamas.

HON 268. Seminar: Galapagos Ecology. 3 Hours.
An overview of the ecology of the Galapagos Island, with an emphasis on the ecology of terrestrial and marine organisms. Major portion of course conducted on the Galapagos Islands. Lecture & field trips. (May session) Permission of instructors, University Honors Program Director, UAB Study Abroad Director and payment of all study abroad fees required to enroll. This course is equivalent to BY 268-SA, which will take place in Galapagos Islands.

HON 269. Seminar: Rain Forest Ecology. 3 Hours.
Physical and environmental factors that structure rain forest, biodiversity of life, and interactions of its organisms. Prominent biota. Major portion of course taught at tropical field station in Costa Rica. Lecture and field trips. (May session). Permission of instructors, University Honors Program Director, UAB Study Abroad Director and payment of all study abroad fees required to enroll. This course is equivalent to BY 269-SA, which will take place in Costa Rica.

Prerequisites: BY 124 [Min Grade: D]

HON 270. Interdisciplinary: Computer Science. 3 Hours.
Perspectives on modern computing in an interdisciplinary context. Artificial intelligence. Fundamentals of hardware, software, human-computer interfaces, networking, multi-media, databases, privacy and digital security. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 271. Interdisciplinary: Linguistics. 3 Hours.
An interdisciplinary approach to the scientific study of language. Principles underlying phonology, morphology, syntax and semantics. Language acquisition, production, and perception. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 272. Interdisciplinary: Foreign Languages. 3 Hours.
An interdisciplinary approach to the exploration of the customs, traditions, languages, ancestry, religions, values, and institutions of varied western and non-western nations through the use of humanities disciplines. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 273. Interdisciplinary: Education. 3 Hours.
Interdisciplinary perspectives on current issues and problems in education, the role and value of diversity in education, and modern trends in effective pedagogy. Issues in cognitive development. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 274. Interdisciplinary: Engineering. 3 Hours.
An interdisciplinary introduction to profession of engineering, engineering design, and problem solving. Examination of significant engineering feats in history. Issues facing modern engineering. Not for engineering majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 275. Interdisciplinary: Health Professions. 3 Hours.
An interdisciplinary introduction to current issues in health information management, health care management, and medical technology. Selected topics in the clinical and diagnostic sciences, nutrition, nuclear medicine technology, and rehabilitation sciences. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 276. Interdisciplinary: Nursing. 3 Hours.
An interdisciplinary approach to the practice of professional nursing as an evidence-based, goal-directed activity for assisting patients to achieve optimal health by meeting basic human needs, providing holistic care, and engaging in health promotion. Selected topics such as health literacy, critical care, etc. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 278. Interdisciplinary: Medicine. 3 Hours.
Interdisciplinary perspectives on the history of medicine as well as the practice of modern medicine. Selected topics in medical technology and bioethical implications. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 279. Interdisciplinary: Public Health. 3 Hours.
Introduction to the scope of modern public health. Interdisciplinary perspectives on epidemiology, Disease transmission, epidemics and pandemics. Health behavior and occupational health and safety. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 280. Interdisciplinary: African American Studies. 3 Hours.
An interdisciplinary study of major theoretical and critical discourses of Black Studies, and its emergence as a political/social movement and discipline. Selective topics in History, Religion, Social Organization, Politics, Economics, Creative Production, and Psychology. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 281. Interdisciplinary: Women's Studies. 3 Hours.
An interdisciplinary study of role of women in society through social, political, economic, philosophical, historical, and biological perspectives. Theories of women's studies. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 282. Interdisciplinary: Neuroscience. 3 Hours.
An exploration of the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions. An examination of the molecular basis of nervous system disorders and diseases. Interdisciplinary coverage that spans the anatomy, evolution, development, genetics, biochemistry, cell biology, physiology, electrophysiology, pharmacology, circuitry and pathology of the nervous system. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 283. Interdisciplinary: Nutrition Sciences. 3 Hours.
Overview of principles of nutrition; metabolic disorders; dietary deficiencies and chronic disease; metabolism and function of essential nutrients and their relation to growth and optimal functioning of the body; biosynthesis of vitamins; dietary recommendations to promote wellness; human requirements for energy, amino acids, minerals, and vitamins; current human nutritional problems and obesity. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 284. Interdisciplinary: Biomedical Engineering. 3 Hours.
Overview of field of biomedical engineering. Illustrations of engineering solutions to problems in genomics, proteomics, and nanotechnology. Introduction to challenges in biomaterials and bioinstrumentation. Not for engineering majors. This course is an option for sophomores in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 285. Interdisciplinary: Environmental Science. 3 Hours.
Environmental issues related to population growth, environmental health sciences, climate change, water and energy resources, pollution, waste disposal, air/water pollution, plant and animal extinctions, food resources, and sustainability. This course is an option for sophomores in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 286. Interdisciplinary: International Studies. 3 Hours.
An introductory survey of the problems and practices of global cooperation and conflict. Discussion of issues in international economics such as trading blocs, wealth distribution; issues in social justice and human rights; issues in international law and politics such as the United Nations. This course is an option for sophomores in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 287. Interdisciplinary: History. 3 Hours.
An examination of the development of the United States, with a focus on most essays. Emphasis on developing theses and arguments on essays in a variety of disciplines. Research and documentation required. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 295. Interdisciplinary: Natural Sciences. 3 Hours.
An interdisciplinary study of scientific methodologies including biology, geology, physics, chemistry, and important developments in the natural sciences. Recent advances and topics in the natural sciences are examined from an interdisciplinary approach. This course is an option for sophomore students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 288. Interdisciplinary: Medicine. 3 Hours.
Overview of field of biomedical engineering. Illustrations of engineering solutions to problems in genomics, proteomics, and nanotechnology. Introduction to challenges in biomaterials and bioinstrumentation. Not for engineering majors. This course is an option for sophomores in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 289. Interdisciplinary: Engineering. 3 Hours.
Overview of field of biomedical engineering. Illustrations of engineering solutions to problems in genomics, proteomics, and nanotechnology. Introduction to challenges in biomaterials and bioinstrumentation. Not for engineering majors. This course is an option for sophomores in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 290. Interdisciplinary: Psychology. 3 Hours.
Advanced application of scientific method to behavior. In-depth analysis of areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 291. Interdisciplinary: Theology. 3 Hours.
An interdisciplinary study of role of women in society through social, political, economic, philosophical, historical, and biological perspectives. Theories of women's studies. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 305. Interdisciplinary: Science. 3 Hours.
Selected topics in contemporary biology, chemistry, and physics. Takes an interdisciplinary approach with a strong emphasis on understanding at the systems level. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 310. Participation in Honors. 1 Hour.
Student must participate in at least eight special events sponsored by the University Honors Program including special lectures, visiting speakers, workshops and field trips. Must have completed HON 210. Permission of instructor. Pass/Fail.

HON 312. Community Service. 1 Hour.
Student must have signed a contract and completed a minimum 20 hours community service in a designated, extended project and have attended meetings to discuss general issues related to community service. Must have completed HON 212. Permission of instructor. Pass/Fail.

HON 313. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

HON 314. Seminar: Medicine. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of medicine, the practice of modern medicine, narrative medicine, medical instrumentation and surgical techniques. See Class Schedule for specific topic.

HON 315. Seminar: Film. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of film, the documentary tradition, and independent filmmaking. See Class Schedule for specific level.

HON 316. Seminar: Ethnographic Filmmaking. 6 Hours.
Students will document and analyze aspects of human social life using film and video. They will develop an understanding of the visual syntax and narrative structure of successful ethnographic and documentary films through discussion and criticism in the classroom as well as through short film projects of their own. Permission of instructor.

HON 317. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

HON 318. Seminar: Engineering. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

HON 319. Seminar: Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. See Class Schedule for specific topic.

HON 320. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

HON 321. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions. The US Constitution. Decisions of the US Supreme Court. International law. Ethics and morality in modern society. See Class Schedule for specific topic.

HON 322. Seminar: Law. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions. The US Constitution. Decisions of the US Supreme Court. International law. Ethics and morality in modern society. See Class Schedule for specific topic.

HON 323. Seminar: Sociology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human social life, social inequalities and differentiation by race, ethnicity, class, and gender. See Class Schedule for specific topic.

HON 324. Seminar: Foreign Languages and Literatures. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics related to the customs, traditions, languages, ancestry, religions, values, and institutions of varied western and non-western nations through the use of humanities disciplines. See Class Schedule for specific topic.
HON 325. Seminar: Psychology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in brain-behavior relationships, mental illness, cognitive science and cognitive neuroscience, learning and memory, human sexuality, personality, cross cultural issues, and human development. See Class Schedule for specific topic.

HON 326. Seminar: Anthropology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include core topics in cultural anthropology and physical anthropology, archaeology, and linguistics. See Class Schedule for specific topic.

HON 327. Seminar: Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of science and technology; the frontiers of modern science and technology. See Class Schedule for specific topic.

HON 328. Seminar: Mathematics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in history of mathematics, quantitative reasoning, deductive inference, probability, and descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. See Class Schedule for specific topic.

HON 329. Seminar: Chemistry. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in organic chemistry and biochemistry. See Class Schedule for specific topic.

HON 330. Seminar: Physics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in modern physics, astrophysics and cosmic history, modern theories of matter, and quantum theory. See Class Schedule for specific topic.

HON 331. Seminar: Education. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in curriculum development and instruction, diversity and educational disparities, aptitudes and abilities, and pedagogical techniques. See Class Schedule for specific topic.

HON 332. Seminar: Biology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of biology, interdisciplinary issues, and important new developments in the biological sciences. See Class Schedule for specific topic.

HON 333. Seminar: Geology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: study of the earth, its materials and natural resources; processes of change; interpretation of Earth's history through geologic time; atmosphere, weather, and climate change. See Class Schedule for specific topic.

HON 334. Seminar: Communication Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human communication, interpersonal relationships, nonverbal communication, public relations, and mass media. See Class Schedule for specific topic.

HON 335. Seminar: Library Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: the historical role of the library in culture and society; how libraries play a role in society as disseminators, defenders and preservers of knowledge; issues affecting intellectual freedom; the effects of digital publishing on scholarship; and the evolving structure and function of libraries. See Class Schedule for specific topic.

HON 336. Seminar: Government and Public Service. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the institutions and process of American government, comparative politics, political theory, and contemporary political issues. See Class Schedule for specific topic.

HON 337. Seminar: Urban Affairs. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the policy process at local, state, and federal levels of government. See Class Schedule for specific topic.

HON 338. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.
HON 339. Seminar: Music. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in music appreciation, history of music, music and mathematics, music perception, and musical genres. See Class Schedule for specific topic.

HON 340. Seminar: Nursing. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the practice of professional nursing, holistic care, health promotion, health literacy, and critical care. See Class Schedule for specific topic.

HON 341. Seminar: Neuroscience. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions; the molecular basis of nervous system disorders and diseases. See Class Schedule for specific topic.

HON 342. Seminar: Medicine. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of medicine, the practice of modern medicine, narrative medicine, medical instrumentation and surgical techniques, and issues in bioethics. See Class Schedule for specific topic.

HON 343. Seminar: Medicine. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in information technology, fundamentals of hardware and software, and human-computer interfaces. See Class Schedule for specific topic.

HON 344. Seminar: Computer and Information Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in information technology, fundamentals of hardware and software, and human-computer interfaces. See Class Schedule for specific topic.

HON 345. Seminar: Justice Sciences. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

HON 346. Seminar: Health Related Sciences. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in clinical and diagnostic sciences, nutrition, nuclear medicine technology, occupational and physical therapy, and rehabilitation sciences. See Class Schedule for specific topic.

HON 347. Seminar: Accounting. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in accounting and taxation, management, information systems, business ethics, marketing, and industrial distribution. See Class Schedule for specific topic.

HON 348. Seminar: Business. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in accounting and taxation, management, information systems, business ethics, marketing, and industrial distribution. See Class Schedule for specific topic.

HON 349. Seminar: Economics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in macroeconomics and microeconomics, labor economics, behavioral economics, law and banking, and international trade. See Class Schedule for specific topic.

HON 350. Seminar: Womens Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the role of women in society through social, political, economic, philosophical, historical, and biological perspectives. See Class Schedule for specific topic.

HON 351. Interdisciplinary: Art and Art History. 3 Hours.
Exploration of visual culture in an interdisciplinary context. The aesthetic experience. Various media, methods, subject matter, and vocabulary. Not for Art majors. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 352. Interdisciplinary: Biology. 3 Hours.
n-depth study of selected topics in contemporary biology discussed in an interdisciplinary context. From microscopic to macroscopic. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 354. Interdisciplinary: Literature. 3 Hours.
Close analysis of a selection of books from American, British and Irish, and world literature in an interdisciplinary context. Emphasis on developing themes for writing literary analyses. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
HON 355. Interdisciplinary: Physics. 3 Hours.
Survey of selective topics in modern physics discussed in an interdisciplinary context. Basic laws of physics, modern theories of matter and the universe, cosmic history and evolution. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 360. Interdisciplinary: Government. 3 Hours.
In-depth analysis on selective issues regarding the institutions and processes of American government in an interdisciplinary context. Exposure to political cultures and systems around the world. Transitions to democracy. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 362. Interdisciplinary: Mathematics. 3 Hours.
Mathematics is studied in an interdisciplinary context focusing on the development of quantitative reasoning skills, quantitative literacy, and deductive inference. Topics incorporate pre-calculus algebra, pre-calculus trigonometry, probability, descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 363. Interdisciplinary: Justice Science. 3 Hours.
Introduction to the criminal justice system (police, courts, and corrections). Examination of crime and delinquency in an interdisciplinary context. Analyses of trends in crime statistics. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 367. Seminar: Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of science and technology; the frontiers of modern science and technology.

HON 368. Seminar: Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of science and technology; the frontiers of modern science and technology.

HON 369. Seminar: Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of science and technology; the frontiers of modern science and technology. See Class Schedule for specific topic.

HON 377. Seminar: Quilting. 3 Hours.
This course focuses on the art of quilting and its social and cultural context. The history of quilting is examined in an interdisciplinary context. Quilts will be made as part of a group project.

HON 379. Interdisciplinary: Public Health. 3 Hours.
Introduction to the scope of modern public health. Interdisciplinary perspectives on epidemiology, Disease transmission, epidemics and pandemics. Health behavior, occupational health and safety, and health policy. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 383. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

HON 384. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

HON 385. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

HON 386. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

HON 387. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

HON 388. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

HON 389. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.
HON 390. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

HON 391. Seminar: Urban Affairs. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the policy process at local, state, and federal levels of government. See Class Schedule for specific topic.

HON 392. Seminar: Special Topics. 3 Hours.
This course is a seminar offered by a visiting scholar. The topic and content of the course will be in the area of expertise of the scholar in residence. See Class Schedule for specific topic.

HON 393. Interdisciplinary: Arts and Humanities. 3 Hours.
An in-depth interdisciplinary study of major topics and movements within the fields of art, film, literature, music, philosophy, photography, and theatre. This course is an option for third and fourth year Teaching Assistants in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 394. Interdisciplinary: Social and Behavioral Sciences. 3 Hours.
An in-depth interdisciplinary study of major topics and movements within the fields of anthropology, history, political science, psychology, and sociology. This course is an option for third and fourth year Teaching Assistants in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 395. Interdisciplinary: Natural Sciences. 3 Hours.
Examination and survey of scientific methodologies including biology, geology, physics, chemistry, and important developments in the natural sciences. Recent advances and topics in the natural sciences are examined from an interdisciplinary approach. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

HON 397. Seminar: Physics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in modern physics, astrophysics and cosmic history, modern theories of matter, and quantum theory.

HON 399. Honors Research. 1-3 Hour.
This research practicum provides students in the University Honors Program an opportunity to receive academic credit for conducting supervised research with a faculty mentor. Students are required to work 3 hours a week. The practicum does not replace any component of the University Honors curriculum. HON 399 is taken for a grade (A-F). Permission of instructor. (1-3 hrs.).

HON 400. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: reading, writing, literary analysis, poetry, basic construction, methods and/or grammar. See Class Schedule for specific topic.

HON 410. Seminar: Social Work. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in empirically based social work practice, history of social welfare, family care in cross-cultural perspectives, and social welfare policy analysis. See Class Schedule for specific topic.

HON 412. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

HON 413. Seminar: African American Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in African American Studies such as history, religion, social organization, politics, economics, creative production, and psychology. See Class Schedule for specific topic. (Prerequisite: Admittance to the University Honors Program).

HON 414. Seminar: Women's Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in African American Studies such as history, religion, social organization, politics, economics, creative production, and psychology. See Class Schedule for specific topic.

HON 415. Seminar: African American Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in African American Studies such as history, religion, social organization, politics, economics, creative production, and psychology. See Class Schedule for specific topic.

HON 416. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.
HON 417. Seminar: Creative Writing. 3 Hours.
In this creative writing course, groups of writers who are joined together by aesthetic approach or political beliefs are studied. Students examine the different sub-genres, styles, and forms, and analyze how authors do what they do and learn how to apply what they learn to their own creative work. Weekly writing assignments and student workshops are designed to produce better writers and also better critical readers of others work. Literary journals are reviewed with an eye toward publication and engagement with the broader world of contemporary poetry, fiction and creative nonfiction. See Class Schedule for specific topic.

HON 418. Seminar: Anthropology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include core topics in cultural anthropology and physical anthropology, archaeology, and linguistics. See Class Schedule for specific topic.

HON 419. Seminar: Mathematics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in history of mathematics, quantitative reasoning, deductive inference, probability, and descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics.

HON 420. Seminar: Sociology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human social life, social inequalities and differentiation by race, ethnicity, class, and gender. See Class Schedule for specific topic.

HON 421. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

HON 422. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

HON 423. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

HON 424. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

HON 425. Seminar: Gerontology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the biology of aging, psychology of aging, politics of aging, memory disorders, geriatric medicine, death and dying. See Class Schedule for specific topic.

HON 426. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

HON 427. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

HON 428. Seminar: Biology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of biology, interdisciplinary issues, and important new developments in the biological sciences. See Class Schedule for specific topic.

HON 429. Seminar: Biology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of biology, interdisciplinary issues, and important new developments in the biological sciences. See Class Schedule for specific topic.

HON 430. Seminar: Music. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in music appreciation, history of music, music and mathematics, music perception, and musical genres. See Class Schedule for specific topic.
HON 431. Seminar: Film. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of film, the documentary tradition, and independent filmmaking. See Class Schedule for specific topic.

HON 432. Seminar: Chemistry. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in organic chemistry and biochemistry. See Class Schedule for specific topic.

HON 433. Seminar: Chemistry. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in organic chemistry and biochemistry. See Class Schedule for specific topic.

HON 434. Seminar: Cognitive Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in cognitive psychology, cognitive neuroscience, computer science, philosophy, linguistics, behavioral neurology, and cultural anthropology. See Class Schedule for specific topic.

HON 435. Seminar: Cognitive Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in cognitive psychology, cognitive neuroscience, computer science, philosophy, linguistics, behavioral neurology, and cultural anthropology. See Class Schedule for specific topic.

HON 436. Seminar: Cognitive Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in cognitive psychology, cognitive neuroscience, computer science, philosophy, linguistics, behavioral neurology, and cultural anthropology. See Class Schedule for specific topic.

HON 437. Seminar: Computer and Information Sciences. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in information technology, fundamentals of hardware and software, and human-computer interfaces. See Class Schedule for specific topic.

HON 438. Seminar: Education. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in curriculum development and instruction, diversity and educational disparities, aptitudes and abilities, and pedagogical techniques. See Class Schedule for specific topic.

HON 439. Seminar: English. 3 Hours.
This course is a recurring seminar that is designed to facilitate in the development and production of the University Honors Programs publication(s) and newsletter(s). The course will provide students with up-to-date information about the printing and publishing industry. It will also give students hands-on experience by developing publication(s) and/or newsletter(s) in class throughout the semester. At least one newsletter is issued semi-annually to students, alumni, and friends of the University Honors Program. Concepts discussed will include writing, proofreading, copy editing, photography, layout and design, printing, publishing, packaging, and distribution. Students may be expected to gather articles and artwork related to the University Honors Program, as well as write, edit, and proofread those articles.

HON 440. Seminar: Political Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in American government, political cultures and institutions of political systems around the world, political theory, political economy, and contemporary political issues. See Class Schedule for specific topic.

HON 441. Seminar: Education. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in curriculum development and instruction, diversity and educational disparities, aptitudes and abilities, and pedagogical techniques. See Class Schedule for specific topic.

HON 442. Seminar: Engineering. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in biomedical engineering, tissue generation, nanotechnology, and bioinstrumentation, bio-imaging, and biomaterials, civil and environmental engineering. See Class Schedule for specific topic.

HON 443. Seminar: Engineering. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in biomedical engineering, tissue generation, nanotechnology, and bioinstrumentation, bio-imaging, and biomaterials, civil and environmental engineering. See Class Schedule for specific topic.
HON 444. Seminar: Environmental Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in sustainability, Green technology, air/water pollution, environmental engineering, waste management, and geology. See Class Schedule for specific topic.

HON 445. Seminar: Environmental Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in sustainability, Green technology, air/water pollution, environmental engineering, waste management, and geology. See Class Schedule for specific topic.

HON 446. Seminar: Government. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the problems and practice of global cooperation and conflict, global power, wealth, and social justice. See Class Schedule for specific topic.

HON 447. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the institutions and process of American government, comparative politics, political theory, and contemporary political issues. See Class Schedule for specific topic.

HON 448. Seminar: Education. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

HON 449. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

HON 450. Seminar: International Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the problems and practice of global cooperation and conflict, global power, wealth, and social justice. See Class Schedule for specific topic.

HON 453. Seminar: Physics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in modern physics, astrophysics and cosmic history, modern theories of matter, and quantum theory.

HON 457. Seminar: International Studies. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the problems and practice of global cooperation and conflict, global power, wealth, and social justice. See Class Schedule for specific topic.

HON 458. Seminar: Justice Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

HON 459. Seminar: Justice Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

HON 460. Seminar: Justice Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

HON 461. Seminar: Justice Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

HON 462. Seminar: Law. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions. The US Constitution. Decisions of the US Supreme Court. International law. Ethics and morality in modern society. See Class Schedule for specific topic.
HON 463. Seminar: Law. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions. The US Constitution. Decisions of the US Supreme Court. International law. Ethics and morality in modern society. See Class Schedule for specific topic.

HON 464. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

HON 465. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions; the molecular basis of nervous system disorders and diseases. See Class Schedule for specific topic.

HON 466. Seminar: Neuroscience. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions; the molecular basis of nervous system disorders and diseases. See Class Schedule for specific topic.

HON 467. Seminar: Neuroscience. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions; the molecular basis of nervous system disorders and diseases. See Class Schedule for specific topic.

HON 468. Seminar: Neuroscience. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions; the molecular basis of nervous system disorders and diseases. See Class Schedule for specific topic.

HON 469. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

HON 470. Seminar: Chemistry. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in organic chemistry and biochemistry. See Class Schedule for specific topic.

HON 471. Seminar: Nursing. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the practice of professional nursing, holistic care, health promotion, health literacy, and critical care. See Class Schedule for specific topic.

HON 472. Seminar: Nursing. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the practice of professional nursing, holistic care, health promotion, health literacy, and critical care. See Class Schedule for specific topic.

HON 473. Seminar: Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. See Class Schedule for specific topic.

HON 474. Seminar: Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. See Class Schedule for specific topic.

HON 475. Seminar: Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. See Class Schedule for specific topic.
HON 476. Seminar: Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. See Class Schedule for specific topic.

HON 477. Seminar: Political Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in American government, political cultures and institutions of political systems around the world, political theory, political economy, and contemporary political issues. See Class Schedule for specific topic.

HON 478. Seminar: Psychology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in brain-behavior relationships, mental illness, cognitive science and cognitive neuroscience, learning and memory, human sexuality, personality, cross cultural issues, and human development. See Class Schedule for specific topic.

HON 479. Seminar: Psychology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in brain-behavior relationships, mental illness, cognitive science and cognitive neuroscience, learning and memory, human sexuality, personality, cross cultural issues, and human development. See Class Schedule for specific topic.

HON 480. Seminar: Psychology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in brain-behavior relationships, mental illness, cognitive science and cognitive neuroscience, learning and memory, human sexuality, personality, cross cultural issues, and human development. See Class Schedule for specific topic.

HON 481. Seminar: Political Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in American government, political cultures and institutions of political systems around the world, political theory, political economy, and contemporary political issues. See Class Schedule for specific topic.

HON 482. Seminar: Art and Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

HON 483. Seminar: Government. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the institutions and process of American government, comparative politics, political theory, and contemporary political issues. See Class Schedule for specific topic.

HON 484. Seminar: Economics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in macroeconomics and microeconomics, labor economics, behavioral economics, law and banking, and international trade. See Class Schedule for specific topic.

HON 485. Seminar: Film. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of film, the documentary tradition, and independent filmmaking. See Class Schedule for specific topic.

HON 486. Seminar: City as Text. 3 Hours.
City as Text® is a pedagogy developed by the National Collegiate Honors Council, the umbrella organization for all honors programs and colleges in the United States. This experiential learning course allows students to explore a community and obtain first hand knowledge of patterns in housing, commercial development, traffic flow, community activities. Students explore architecture, landscaping, social gatherings, signage as well as talk to residents of the community. Students reflect on and write about their experiences in the community and reflect on their expectations before experiencing the community.

HON 487. Seminar: Directed Research. 4 Hours.
This course offers an Oxford tutorial option where the student engages in an in-depth analysis of a specific research topic. The student meets with his/her mentor twice a week to discuss and analyze primary source papers.

HON 488. Seminar: Business. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in accounting and taxation, management, information systems, business ethics, marketing, and industrial distribution. See Class Schedule for specific topic.
HON 489. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

HON 490. Seminar: Anthropology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include core topics in cultural anthropology and physical anthropology, archaeology, and linguistics. See Class Schedule for specific topic.

HON 491. Seminar: Psychology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in brain-behavior relationships, mental illness, cognitive science and cognitive neuroscience, learning and memory, human sexuality, personality, cross cultural issues, and human development. See Class Schedule for specific topic.

HON 492. Seminar: Communications. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human communication, interpersonal relationships, nonverbal communication, public relations, and mass media. See Class Schedule for specific topic.

HON 493. Seminar: Anthropology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include core topics in cultural anthropology and physical anthropology, archaeology, and linguistics. See Class Schedule for specific topic.

HON 494. Seminar: Communications. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human communication, interpersonal relationships, nonverbal communication, public relations, and mass media. See Class Schedule for specific topic.

HON 495. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

HON 496. Seminar: Public Health. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in epidemiology; disease transmission; epidemics and pandemics; health behavior, occupational health and safety; health care administration, and health care policy. See Class Schedule for specific topic.

HON 497. Seminar: Public Health. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in epidemiology; disease transmission; epidemics and pandemics; health behavior, occupational health and safety; health care administration, and health care policy. See Class Schedule for specific topic.

HON 498. Seminar: Public Health. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in epidemiology; disease transmission; epidemics and pandemics; health behavior, occupational health and safety; health care administration, and health care policy. See Class Schedule for specific topic.

HON 499. Seminar: Economics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in macroeconomics and microeconomics, labor economics, behavioral economics, law and banking, and international trade. See Class Schedule for specific topic.

HPE-Health & Physical Educ Courses

Courses

HPE 200. Quality of Life. 2 Hours.
Total health; effects of lifestyle on total health. Decision-making skills to enable health enhancing choices and engage in health enhancing activities to improve and maintain health status. For education majors only.

HPE 301. Teaching Health Education and Physical Education in Elementary Schools. 3 Hours.
For classroom teachers. Communicating and working with physical education specialists, selecting developmentally appropriate activities, and integrating movement activities and concepts into classroom subjects. Background information and skills to implement health education in grades K-5.

Prerequisites: HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or HE 222 [Min Grade: C] or CHHS 141 [Min Grade: C]

HRP-Health Related Professions
Courses

HRP 101. Experience the University Transition. 2 Hours.
Structured introduction to the college experience for entering freshmen with health professions majors.

HRP 105. Business Principles for Health and Life Sciences. 3 Hours.
Basic leadership concepts will be covered with special emphasis on oral and written communication, planning and goal setting, team building, decision-making and problem solving.

HRP 15. Mentored Research in the Health Professions. 1-6 Hour.
Field, laboratory, literary study, service learning or community based research project directed by a supervising mentor.

HRP 200. Responsible Conduct of Research Training. 0 Hours.
Provides required RCR training for undergraduates conducting any form of research at UAB.

HRP 300. Survey of Health Professions. 2 Hours.
A survey of undergraduate and graduate health professions that provide patient care and other services in the health care delivery system. Designed to assist undergraduate students in career investigation.

HRP 401. Honors Seminar I. 1 Hour.
Introduction to leadership and team principles. Skills development in public speaking and presentations. Skills development in information searching, literature review and proposal writing.

HRP 402. Honors Seminar II. 1 Hour.
Advanced leadership and team principles. Skills development in information critiquing, report writing, and presentation techniques.

HRP 405. Team-Based Problem Solving in the Health Professions. 2 Hours.
Blend of didactic, online, and mentored team work; development of effective team skills, including assessment, conflict management, and project development and management; information searching and critiquing, literature review, and technical writing. May be taken for Honors credit.

HRP 410. Honors Research Project. 1-3 Hour.
Development and completion of a scholarly project for presentation and publication under the direction of a faculty mentor. Two to four terms required for a minimum accumulation of 4 semester hours.

HRP 411. Honors Community Service Project. 1-3 Hour.
Development and completion of a community-based project for presentation and publication under the direction of a faculty mentor.

HRP 415. Mentored Research in the Health Professions. 1-6 Hour.
Field, laboratory, literary study, service learning or community based research project directed by a supervising mentor.

HRP 475. Special Topics in Health Services or Clinical Research. 1-4 Hour.
Faculty-led exploration of current topics and issues in health services or clinical research.

HUM-Humanities

Courses

HUM 120. Introductory Humanities Seminar. 3 Hours.
Special topics to introduce students to the study of the humanities.

HUM 160. First Year Experience in HUM. 1 Hour.
The objective of this course is to introduce incoming freshmen to an education in the humanities in context of the university. It is meant to help prepare students for a successful collegiate career in the study of the humanities.

HY-History Courses

Courses

HY 101. Western Civilization I. 3 Hours.
This course examines the diverse cultures which are included in what is commonly referred to as the West. Students develop an understanding of the evolution of religious, political, social, military and economic structures and relationships in Europe and the Middle East up to 1600. Students develop an appreciation of how individuals have influenced and been influenced by time and place. Ethics and Civic Responsibility are significant components to this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 102. Western Civilization II. 3 Hours.
This course examines developments in the Western World since 1600. Since for most of this period, European culture dominated the world the course will also examine interactions between the West and non-European cultures. The course focuses on political, economic, social and cultural developments and stresses change and continuity over time as well as the various ideas and debates which have marked the modern West. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 104. World History to 1600. 3 Hours.
This course is designed to provide students with an understanding of the development of major world civilizations from pre history to the early modern era (ca. 1600 CE). The principal characteristics of these civilizations such as political development, social structure, gender relations, religious beliefs and philosophies, will be examined. The ultimate goal is for students to see the world around them with an increased understanding and appreciation for the societies, traditions, and ideas that existed in the past and in many cases still exist and influence us today. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 105. World History 1600 to the Present. 3 Hours.
This course will examine many significant world historical developments from the beginning of the early modern era (approximately 1600 CE) to the present. These historical developments include: intellectual movements, political revolutions and nationalism, industrialization, cultural changes, and the relationship between Western and non-Western societies. The ultimate goal of this course is for students to perceive the world around them with an increased understanding and appreciation for the diverse societies, traditions, and ideas that existed in the past and in many cases still exist and influence us today. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.
HY 106. World History and Technology I. 3 Hours.
Survey of the role of technology in history from prehistoric times to the beginning of the Scientific Revolution. The first of a two-course sequence, it begins in the Paleolithic and Neolithic Eras and ends with the era of European global expansion. Students will consider not only about the great advances of humankind but also the scientific principles behind them, focusing on major themes such as power, water, transportation, and materials. The course uses tech as a lens through which to study humans' increasing control of the environment and interactions with the world around them.

HY 107. World History and Technology II. 3 Hours.
Survey of the role of technology in history from the Enlightenment to the present day. It is the second of a two-course sequence. The course moves through the British Industrial Revolution in the 17th century and ends in the 21st century with examination of current issues and trends. Both the positive and negative impacts of technology development, including imperialism and Third World development, will be addressed.

HY 120. The United States To 1877. 3 Hours.
This course provides an introduction to some of the main political, social, cultural, and economic developments in American history from the era of exploration and colonial settlement through the end of the Civil War. Central themes of the course will include the cross-cultural encounters (and clashes) in the Americas between various European and native peoples; the spectacular growth of European settlements in North America; the creation (always contested) of an American national identity; the emergence of a market economy and the question of American ideas of success and happiness. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 121. The United States Since 1877. 3 Hours.
This course assists students in gaining a sophisticated understanding of the development of modern America - its politics, economics and social fabric together with how these have helped shape its foreign involvement. In the process, this course helps students understand the big idea of "change over time" and how all people face the choice of using change to help themselves and others - or not do this with resultant consequences. Finally, this course offers "lessons" out of our past about civic engagement, cultural diversity, and emerging globalization - "values" for productive citizenship on the contemporary scene. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 201. Economic History of the United States. 3 Hours.
Economic developments of U.S. from colonial times to present, focusing on business organization, technology and innovation.

HY 202. Reacting to the Past. 3 Hours.
Reacting to the Past is an award-winning pedagogy involving complex, collaborative role-playing games in which students seek to attain "victory objectives" while grappling with central tests in the history of ideas. The class will conduct several Reacting games that will allow students to explore key moments in intellectual and cultural history.

HY 203. History of American Technology. 3 Hours.
History of civilization of new technology in the United States emphasizing role of inventors and engineers.

HY 206. Introduction to Film and History. 3 Hours.
This course will examine fiction and non-fiction films as socially significant documents. Students will receive an introduction to the techniques of film analysis in the class.

HY 207. The American Film. 3 Hours.
Creation and development of motion pictures in the United States, including how films are made, American film industry, and impact of Hollywood on American culture.

HY 208. Women in Film. 3 Hours.
This course will provide a history of women in film, focusing on both women working in the film industry and the representation of women on screen. The course will focus on American film history, 1930's Hollywood to the present.

HY 210. History of American Medicine. 3 Hours.
Survey of patterns and trends in American medicine.

HY 214. Roman Republic. 3 Hours.
Survey of Roman history, society, and culture from the founding of the city of Rome in 753 BCE to the death of Julius Caesar in 44 BCE. Course covers the conquest of Italy, the Punic wars, and the conquest of the Hellenistic kingdoms. Emphasis on the impact of military success on the lifestyle and culture of the Roman people.

HY 217. History of Ancient Greece. 3 Hours.
Ancient Greece from prehistory to Alexander and the Hellenistic age.

HY 218. History of the Roman Empire. 3 Hours.
Survey of Roman history, society, and culture from the death of Julius Caesar in 44 BCE to the reign of Constantine in the early fourth century CE, with an emphasis on how the Roman empire ruled.

HY 219. Late Antiquity and Early Middle Ages. 3 Hours.
This course explores the transition from the Classical Greco-Roman Mediterranean world to the Middle Ages. It begins with the conversion of the Roman Empire to Christianity. Then it explores the collapse of the Western Roman Empire and the continuation of the Eastern Empire (known to historians as the Byzantine Empire). It places Mohammad and the rise of Islam in its historical context and explores the impact of the early Islamic conquests. The course will finish around the year 800 with the reign of Charlemagne in the West and Islamic Abbasid Dynasty ruling in Baghdad.

HY 222. African-American History to 1865. 3 Hours.
Ancient African civilizations and their demise, the slave trade and slavery in New World to the Civil War.

HY 224. African-American History Since 1865. 3 Hours.
Survey of late 19th century to present African American history.

HY 225. History of Alabama. 3 Hours.
Social, economic, and political survey of state from prehistory to present.

HY 226. History and Development of Birmingham. 3 Hours.
Social, economic, and political survey of the Birmingham area.

HY 227. Technology and Society. 3 Hours.
Relationship of machines and people in modern industrial society. Topics from recent American history and from contemporary problems.

HY 228. Southern Industrial History. 3 Hours.
Provides an overview of the major social, economic, and political developments behind the numerous attempts to industrialize the South from the post Civil War period to the present. Attention will be paid to Birmingham's Industrial District, the impact of World War I and World War II on Southern Industry, Labor Music, Women in Industry, Organized Labor and Unions, as well as the impact of the Space and Automobile Industry on the Modern South.
HY 230. Middle East 550 BCE to 1453 CE. 3 Hours.
Survey course on the history of the Middle East from the rise of the Persian Empire to the Ottoman conquest of Constantinople. Course covers the Persian Empire, Alexander the Great’s conquests, Rome in the Middle East, the early Islamic Conquests, and the impact of the Crusades. The development of Judaism, Christianity, and Islam are emphasized.

HY 234. The World Since 1945. 3 Hours.
Events and trends from the end of the Second World War to the present, emphasizing the origins of the Cold War, decolonization, Europana integration, globalization, the rise of China, India and Japan, the revolutions in Eastern Europe in 1989 and the collapse of communism in the Soviet Union, the third wave of democratization, Islamic fundamentalism, 9/11, and the international financial crisis of 2008-2009.

HY 235. War in the Modern World. 3 Hours.
American military history from colonial times to present, including impact of Western ideas and technology on national defense policy.

HY 236. Europe Since 1945. 3 Hours.
After the Nazi catastrophe, what was to be the future of Europe? After sketching the context of unparalleled death and destruction, this course focuses on European reconstruction on both sides of the Iron Curtain. While contrasting Eastern and Western regimes, course will also seek to compare postwar recovery plans, cultural aesthetics, and shared legacies borne out of the experience of World War II. Strong emphasis is given to questions of memory and national identity, the history of European integration in the West, and socialist interdependence in the East. After 1989, course will focus on the expansion of the European Union, alongside transnational cultural phenomena such as European soccer, environmentalism, spaces of memory, and the loaded question of Europe’s “boundaries” in the east and southeast.

HY 237. Eastern Europe 1600-1918. 3 Hours.
Before WWI, Eastern Europe consisted of a patchwork of ethnic groups ruled by four empires, which were ultimately destroyed with the rise of nationalism. This course explores this lost world of Eastern Europe in the Age of Empire and attends to four conceptual areas which dominated it: the concept and practice of Empire; the genesis, development, and triumph of nationalism; the contribution of the region’s diverse Jewish population; and questions surrounding the ultimate downfall of this world. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 238. Eastern Europe 1914-Present. 3 Hours.
This course traces drastic transformative processes which remade Eastern Europe during the violent twentieth century, including: nationalism, ethnic cleansing, genocide, the Holocaust, communism, the Cold War, and European integration. Virulent nationalism, Nazi atrocities, and the vicious revenge they inspired decimated the multiethnic world that had come before and forged ethnically homogeneous nation-states with rigid frontiers. With previous understandings of property rights, moral responsibility, and neighborhood undermined, and with Soviet armies occupying the ruins that remained, communists and their unwitting nationalist allies found fertile ground for the establishment of command economies, which repressed the traumatized survivors of the Second World War and their descendants until 1989. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 239. The Holocaust. 3 Hours.
On the basis of extensive reading, this course introduces students to the central problems surrounding the Nazi genocide of European Jewry as well as the postwar memory debates which have resulted from it. We will examine Jewish culture, contributions, and integration in pre-1932 Europe, as well as after the Holocaust, and conclude by exploring the contemporary influence of the Holocaust, such as in Israeli national identity. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 245. Introduction to Latin American History. 3 Hours.
A sweeping survey of Latin American history from colonial times through the contemporary era focusing on forces and patterns that have shaped the region as a whole, making it broadly distinct from our own "Anglo" America.

HY 247. Indians, Spaniards & Creoles. 3 Hours.
A history of Latin American society and civilization in the formative era of Iberian (Spanish & Portuguese) colonialism, 1492 through c. 1810. The course looks at major precolombian civilizations; the Spanish Conquest; and nature of Spanish-Indian relations. It stresses the impact of Iberian values, norms, and institutions, i.e. Church and State, on the emergence of unique new hybrid or Creole societies by the end of the period.

HY 248. Modern Latin America. 3 Hours.
A survey of Latin American history from c. 1810 to the present. Covers the vital era of political independence and, through “case studies” of major countries, examines key trends and developments that have shaped the region and its 21 nations since then. Major topics include 19th century nation-state formation and economic modernization; 20th century urbanization, nationalism, social revolution, military dictatorships, and democratization, including the rise of influential women’s (and feminist) movements.

HY 251. Nineteenth-Century Europe. 3 Hours.
National consolidation, imperialist adventure, and European society and politics from 1815 to 1914.

HY 252. Twentieth Century Europe. 3 Hours.
Europe as transformed by total war, economic dislocation, rise of totalitarian movements, and post-1945 integration from 1914 to present.

HY 257. The Celtic Fringe: Ireland, Scotland, Wales. 3 Hours.
History of “other” British nations: Irish, Scots, and Welsh. Internal development and relations with England.

HY 258. Britain and the Third World. 3 Hours.
This course examines the relations between Great Britain, the modern world’s first superpower and non-European peoples all over the world. In addition to examining issues of Empire, the course stresses the cultural interactions that were critical in the development of the modern world and the problems and opportunities of multi-ethnic societies. The course emphasizes those areas in Africa, Asia and the Middle East where the encounters between the British and the native culture created situations which are still major issues for the twentieth century world. Parallels to American experiences are also discussed. Ethics and Civic Responsibility are significant components of this course.

HY 259. Social History of Crime. 3 Hours.
This course examines the various approaches historians have made to the social and cultural history of criminal violence. While the topic is one that applies to every human society, most of the material deals with Europe and the United States.
HY 260. History of Afro-Latin America. 3 Hours.
This course surveys the history of those countries of Latin America, e.g. Cuba, Brazil and Colombia, that comprise the heart of the New World's African diaspora, having received most of the roughly 10 million Africans brought to Latin American shores during the centuries-long transatlantic slave trade. It explores the dramatic experiences of Afro-Latin Americans including their roles in the destruction of slave systems, creation of nations based on democratic principles, and rise of vibrant multicultural societies.

HY 262. Introduction to Early Modern Spanish History. 3 Hours.
Survey of the history of Spain from the 15th to the 18th centuries with emphases on the social and cultural effects of European expansion, race and religion, the Inquisitions, and Spain’s contribution to European art and literature.

HY 263. History of the Russian Empire. 3 Hours.
Russian history from prehistory to 1917, focusing on development of Russian state and its social and political character.

HY 264. Russian Revolution: 1917-1921. 3 Hours.
Russian Revolution with emphasis on political, social, and national conflicts in cities, in countryside, and in non-Russian areas.

Bolshevik Revolution and role of Soviet Union as world power.

HY 270. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 271. Traditional East Asian History and Culture. 3 Hours.
An introduction to the histories and cultures of East Asia (China, Japan, Korea, and Southeast Asia) from ancient times to 1800.

HY 272. Modern East Asia. 3 Hours.
A political and social history of East Asia and East Asia’s relations with the West from 1800 to present.

HY 275. Perspectives on Science & Mathematics. 3 Hours.
This course explores the intellectual, social, and cultural history of science and mathematics from the Renaissance to the present. It is designed for students in UABTeach and for general education students in order to put this broader history and context to work in science and mathematics education and to improve your writing, research, and information analysis skills.

HY 278. Untold Stories: Oral History. 3 Hours.
This course teaches the techniques and theories of oral history as a primary way to uncover untold or "hidden" histories of ordinary people. Students will conduct interviews of persons who participated in an aspect of history or who witnessed an important era.

HY 279. Women Rogues, Radicals and Reformers. 3 Hours.
This course looks at women as agents of their own history in the United States and of American society as a whole. It concentrates on how women have defined and used sexual politics, political radicalism, and reform agendas from the 1600s to the 1960s.

HY 280. Historic Preservation and Public Policy. 3 Hours.
Ways to research, assess, and use historic buildings and architecture as a way to study history and inform public policy.

HY 285. Mapping Our World. 3 Hours.
This course will focus on the historical applications of mapping and map-making. It will provide a background to geometric mapping and Geography using aerial photography, satellite remote sensing, Geographic Information Systems (GIS), and historical maps and related datasets. Students will be taught the importance of maps to a wide range of fields from a number of academic specialists. This will include the physical sciences (NASA atmospheric applications), biological sciences (environmental mapping), social sciences (crime mapping and archaeological mapping), health sciences (disease mapping), and humanities (religious mapping). Students will work in UAB labs and in broader Birmingham on learning ArcGIS and mapmaking skills, and will submit an e-Portfolio by the end of the semester. Quantitative Literacy is a significant component of this course.

HY 289. Topics in African American History. 3 Hours.
Special studies in African American historical topics.

HY 290. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 291. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 292. Topics in History/SL. 3 Hours.
Special studies of historical topics. May be repeated. Service Learning.

HY 300. The Historian's Craft. 3 Hours.
This course examines the values, methodology, and materials of historical analysis. During the semester students will develop their writing skills, study the quantitative aspects of historical scholarship and examine the ethical and civic responsibilities historians bear towards the profession and the larger community. Writing is a significant component of this course.

HY 303. Women in American History. 3 Hours.
Changing economic, political, and social roles of women from colonial period to present.

HY 304. U.S. Civil Rights Movement. 3 Hours.
History of civil rights from late 19th century to present; significance of movement to those involved and to rest of American society.

HY 305. Popular Culture in American History. 3 Hours.
Mass culture of U.S. through films and recorded sound, from creation of entertainment industry in 19th century to television and counterculture of 1960s.

HY 307. The American Film. 3 Hours.
Creation and development of motion pictures in the United States, including how films are made, American film industry, and the impact of Hollywood on American culture.

HY 308. History of Popular Music in the United States. 3 Hours.
Creation of musical entertainment, the changing audience, and diffusion of recordings from earliest recordings of music hall songs to rap and hip hop.

HY 309. American Independent Film. 3 Hours.
Focuses on the rise of the independent film in the 1980s and the struggle with mainstream Hollywood studios for dominance of cinema in the 1990s. Covers independent film makers, finance, scripts and what it takes to make a personal film.

HY 310. Film in the 1960s. 3 Hours.
The sixties were a revolutionary time for films and the film industry, and this course surveys film from Europe and Asia but with special emphasis on American film and the way it reflected the counter culture.
HY 311. History of the Documentary Film. 3 Hours.
Studies the development of the film documentary and the issues of representing reality on film. Deals with film aesthetic and the techniques of making films. Looks at American and European documentaries.

HY 312. Rock n Roll and Race Relations. 3 Hours.
Looks at popular music as a part of American Culture. Concentrates on the rise of R and B and rock n roll as the signifiers of a new youth culture in the United States with special emphasis on music in Birmingham.

HY 313. Indie Rock from Punk to Post Modern. 3 Hours.
Covers the rise of indie rock from the punks of the 1970s to the Seattle Sound of the 1990s, and its impact on popular culture. Also examines the influence of sampling, electronica and dance music on the alternative culture of the 1980s.

HY 314. Roman Republic. 3 Hours.
Survey of Roman history, society, and culture from the founding of the city of Rome in 753 BCE to the death of Julius Caesar in 44 BCE. Course covers the conquest of Italy, the Punic wars, and the conquest of the Hellenistic kingdoms. Emphasis on the impact of military success on the lifestyle and culture of the Roman people.

HY 317. History of Ancient Greece. 3 Hours.
Ancient Greece from prehistory to Alexander and the Hellenistic age.

HY 318. History of the Roman Empire. 3 Hours.
Survey of Roman history, society, and culture from the death of Julius Caesar in 44 BCE to the reign of Constantine in the early fourth century CE, with an emphasis on how the Roman Empire ruled.

HY 319. Late Antiquity and Early Middle Ages. 3 Hours.
This course explores the transition from the Classical Greco-Roman Mediterranean world to the Middle Ages. It begins with the conversion of the Roman Empire to Christianity. Then it explores the collapse of the Western Roman Empire and the continuation of the Eastern Empire (known to historians as the Byzantine Empire). It places Mohammad and the rise of Islam in its historical context and explores the impact of the early Islamic conquests. The course will finish around the year 800 with the reign of Charlemagne in the West and Islamic Abbasid Dynasty ruling in Baghdad.

HY 320. Political History From Roosevelt to Roosevelt. 3 Hours.
History of the period between 1900 and 1945, with emphasis on national politics.

HY 321. Political History Since FDR. 3 Hours.
A History of United States since 1945, with a special emphasis on national politics; includes Cold War domestic and foreign policy, the rights revolutions, changing political ideologies and identities, globalization and its effects.

HY 322. The Great Depression in Film. 3 Hours.
Examines the causes and effects of the Great Depression using both fictional and documentary films and required readings; students will analyze how Hollywood interpreted the lives of Americans during that period.

HY 325. Southern Politics in the 20th Century. 3 Hours.
The social and economic bases of Southern politics.

HY 326. Mansions, Mines, and Jim Crow. 3 Hours.
This course will study the history of Birmingham (1871-1950) by examining the few men who owned the mines and mills, the masses of men who worked for them, and the way that Jim Crow segregation kept the system from working.

HY 327. Southern Labor History. 3 Hours.
Unique conditions and people who formed Southern labor history. Changing contours of slave, industrial, and post-industrial labor force.

HY 329. US Women's Labor History. 3 Hours.
Role and influence of working women on American history as social and political force in creating work identity and culture.

HY 330. Middle East 550 BCE to 1453 CE. 3 Hours.
Survey course on the history of the Middle East from the rise of the Persian Empire to the Ottoman conquest of Constantinople. Course covers the Persian Empire, Alexander the Great's conquests, Roman in the Middle East, the early Islamic Conquests, and the impact of the Crusades. The development of Judaism, Christianity, and Islam are emphasized.

HY 334. The World Since 1945. 3 Hours.
Events and trends from the end of the Second World War to the present, emphasizing the origins of the Cold War, decolonization, European integration, globalization, the rise of China, India, and Japan, the revolutions in Eastern Europe in 1989 and the collapse of communism in the Soviet Union, the third wave of democratization, Islamic fundamentalism, 9/11, and the international financial crisis of 2008-2009.

HY 336. Europe Since 1945. 3 Hours.
After the Nazi catastrophe, what was to be the future of Europe? After sketching the context of unparalleled death and destruction, this course focuses on European reconstruction on both sides of the Iron Curtain. While contrasting Eastern and Western regimes, course will also seek to compare postwar recovery plans, cultural aesthetics, and shared legacies borne out of the experience of World War II. Strong emphasis is given to questions of memory and national identity, the history of European integration in the West, and socialist interdependence in the East. After 1989, course will focus on the expansion of the European Union, alongside transnational cultural phenomena such as European soccer, environmentalism, spaces of memory, and the loaded question of Europe's "boundaries" in the east and southeast.

HY 337. Eastern Europe 1600-1918. 3 Hours.
Before WWI, Eastern Europe consisted of a patchwork of ethnic groups ruled by four empires, which were ultimately destroyed with the rise of nationalism. This course explores this lost world of Eastern Europe in the Age of Empire and attends to four conceptual areas which dominated it: the concept and practice of Empire; the genesis, development, and triumph of nationalism; the contribution of the region's diverse Jewish population; and questions surrounding the ultimate downfall of this world. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.
HY 338. Eastern Europe 1914-Present. 3 Hours.
This course traces drastic transformative processes which remade Eastern Europe during the violent twentieth century, including: nationalism, ethnic cleansing, genocide, the Holocaust, communism, the Cold War, and European integration. Virulent nationalism, Nazi atrocities, and the vicious revenge they inspired decimated the multiethnic world that had come before and forged ethnically homogenous nation-states with rigid frontiers. With previous understandings of property rights, moral responsibility, and neighborhood undermined, and with Soviet armies occupying the ruins that remained, communists and their unwitting nationalist allies found fertile ground for the establishment of command economies, which repressed the traumatized survivors of the Second World War and their descendants until 1989. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 339. The Holocaust. 3 Hours.
The Holocaust is the great tragedy of modern history. The Nazis brought industrial efficiency to mass murder and killed millions of innocents. This class will trace the political, economic and cultural roots of this genocide and examine the vast organization that carried it out.

HY 340. Popular Culture in the 1960s. 3 Hours.
This class will examine music, film, fashion and sport in the 1960s. Students will discover why the 60s were "swinging," and what constituted cool in the coolest decade ever.

HY 341. The U.S. and Latin America. 3 Hours.
A history of the multi-faceted, often troubled, relations between the U.S. and its nearest southern neighbors since the early nineteenth century. While touching on various aspects of those relations, it stresses the geopolitical aspect, focusing on conflicts that have arisen as a result of different interests and perceptions as well as basic power asymmetries.

HY 342. Sex & Latin American Society. 3 Hours.
A social history of Latin America that traces the evolution of relations between the sexes since the colonial period and focuses on the role of gender (socially-constructed rather than biological differences between men and women), along with race, class, and other factors, in shaping the experiences of women in particular.

HY 343. Modern Latin America. 3 Hours.
A survey of Latin American history from c. 1810 to the present. Covers the vital era of political independence and, through "case studies" of major countries, examines key trends and developments that have shaped the region and its 21 nations since then. Major topics include 19th century nation-state formation and economic modernization; 20th century urbanization, nationalism, social revolution, military dictatorships, and democratization, including the rise of influential women's (and feminist) movements.

HY 351. Continental Enlightenment 1680-1790. 3 Hours.
Ideas and politics during 18th century, focusing on Western Europe outside France; new ideas about society, religion, and government in Italian and German states.

HY 353. The Christians in History. 3 Hours.
Origins, development, and spread of Christianity from antiquity to the modern world.

HY 355. The Reformation. 3 Hours.
Issues and meanings of the Protestant and Catholic Reformations of the 16th and 17th centuries, with particular attention to intellectual, social, and political dimensions.

HY 357. Religion in Early Modern European History. 3 Hours.
Examines the theological, social and political upheavals that shaped religious life and how religion permeated early modern culture from the abstract philosophical debates to the most mundane daily activities.

HY 359. Social History of Crime. 3 Hours.
This course examines the various approaches historians have made to the social and cultural history of criminal violence. While the topic is one that applies to every human society, most of the material deals with Europe and the United States.

HY 360. The Celtic Fringe: Ireland, Scotland, Wales. 3 Hours.
History of other Britain nations: Irish, Scots, and Welsh. Internal development and relations with England.

HY 361. Britain and the Third World. 3 Hours.
British foreign policy, emphasizing Empire and British relations with peoples outside Europe.

HY 370. End of the U.S.S.R.. 3 Hours.
An analysis of Gorbachev's impact on the Soviet Union and the social and political forces he unleashed.

HY 371. Traditional East Asian History and Culture. 3 Hours.
An introduction to the histories and cultures of East Asia (China, Japan, Korea, and Southeast Asia) from ancient times to 1800.

HY 372. Modern East Asia. 3 Hours.
A political and social history of East Asia and East Asia's relations with the West from 1800 to present.

HY 375. The Pacific War, 1931-1945. 3 Hours.
The military and political conflict between Japan, China, and the United States from the Manchurian Incident to the atomic bombings of Hiroshima and Nagasaki.

HY 378. Untold Stories: Oral History. 3 Hours.
This course teaches the techniques and theories of oral history as a primary way to uncover untold or "hidden" histories of ordinary people. Students will conduct interviews of persons who participated in an aspect of history or who witnessed an important era.

HY 379. Women Rogues, Radicals and Reformers. 3 Hours.
This course looks at women as agents of their own history in the United States and of American society as a whole. It concentrates on how women have defined and used sexual politics, political radicalism, and reform agendas from the 1600s to the 1960s.

HY 388. History of American Medicine. 3 Hours.
Survey of patterns and trends in American medicine.

HY 389. Topics in African American History. 3 Hours.
Special studies of African American historical topics. May be repeated.

HY 390. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 391. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 392. Topics in History/SL. 3 Hours.
Special studies of historical topics. May be repeated. Service Learning.

HY 393. 3. 3 Hours.
Special studies of historical topics. May be repeated.

HY 401. Honors Thesis. 3 Hours.
Independent research project for honors students in history, directed by faculty advisor.
HY 402. Reacting to the Past. 3 Hours.
Reacting to the Past® is an award winning pedagogy involving complex, collaborative role-playing games in which students seek to attain "victory objectives" while grappling with central tests in the history of ideas. This class will conduct several Reacting games that will allow students to explore key moments in European intellectual and cultural history.

HY 403. Colonial American History to 1765. 3 Hours.
Examines colonial North America, especially Britain’s colonies, their social and cultural development, and the emergence of distinctive British American and African American identities.
Prerequisites: HY 120 [Min Grade: C]

HY 404. American Revolution. 3 Hours.
This course provides an introduction to the history and historiography of the American Revolution and the emergence of the United States as a nation-state with emphasis on the origins of the Revolution, the progress of the War for Independence, the social consequences of the Revolution, the creation of the American Republic, and the contested memories and meanings of the Revolution and American identity.

HY 405. War and Society in Early America. 3 Hours.
Examination of the history of warfare in colonial North America and the impact of war on colonial and native societies. Topics will include the "military revolution" and colonial America, war and culture, and wars for empire.
Prerequisites: HY 120 [Min Grade: C]

HY 406. Age of Jackson and the Market Revolution. 3 Hours.
Examines the first 50 years of the 16th Century, commonly known as the Age of Jackson or the Market Revolution, as an era of profound economic, political and cultural revolutions that overwhelmed America as it became recognizably modern, industrial and democratic.

HY 408. Early Republic, 1789-1828. 3 Hours.
Intellectual, political, and social origins and aspects of decades and the search for a national culture and identity.
Prerequisites: HY 120 [Min Grade: C]

HY 409. U.S. Constitutional History to 1877. 3 Hours.
Landmark cases in interpretation of Constitution against background of American history.
Prerequisites: HY 120 [Min Grade: C]

HY 410. U. S. Constitutional History Since 1877. 3 Hours.
Landmark cases in interpretation of Constitution against background of American history.
Prerequisites: HY 121 [Min Grade: C]

HY 411. The Antebellum South. 3 Hours.
South from post-revolutionary era through 1860, emphasizing social and cultural developments and myths.
Prerequisites: HY 120 [Min Grade: C]

HY 412. The American Civil War. 3 Hours.
Origins of secession and political, social, military, and diplomatic developments during war.
Prerequisites: HY 120 [Min Grade: C]

HY 413. Reconstruction in America. 3 Hours.
Myths and realities of Reconstruction from 1865 to 1877.
Prerequisites: HY 120 [Min Grade: C]

HY 414. The New South, 1877 to 1945. 3 Hours.
Political, economic, and urban development of South from Reconstruction to end of World War II.

HY 415. The Modern South, 1945 to Present. 3 Hours.
Social, political, and cultural developments of post-World War II South, including urbanization, civil rights, political party transformations, ethnic diversification, and federal public policy.

HY 416. The Fifties in America. 3 Hours.
Examines the decade that was the 1950's using documentaries and movies to identify major events and trends which includes the Korea War, political change, civil rights, teen culture and changing sexual mores.

HY 417. The Making of Modern America 1877-1920. 3 Hours.
Changing forms of industrialism and social problems created; Populism, Progressivism, and other reform movements of era.

HY 418. America in the 1920s and 1930s. 3 Hours.
American popular culture, political development, and economic change in period between two World Wars.
Prerequisites: HY 121 [Min Grade: C]

HY 419. The Second World War. 3 Hours.
Diplomatic and military history, with emphasis on world-historical changes brought about by World War II.

HY 420. Recent America 1945 to the Present. 3 Hours.
Economic, social, and political trends; history of Cold War.

HY 421. The Vietnam Wars, 1945-1975. 3 Hours.
A social, political, and military history of the French and American wars in Vietnam during the Cold War era.

HY 422. Ethnic Cleansing & Genocide 1912-2012. 3 Hours.
With strong attention to definitions and critical approaches to comparative history, this course examines the varied forms of forced population movements in recent European history, moving from precedents during and after World War I through the era of upheaval during and after World War II. A significant portion of the course examines the legacy of these movements after 1945 and then broadens discussion to examine global forced population movements in the postwar period (India/Pakistan, Palestine/Israel, Rwanda, etc.) and contemporary cases. Alongside intensive readings, it incorporates a critical research paper devoted to an instance or aspect of forced population movement.

HY 423. Southern Women: Image and Reality. 3 Hours.
Southern women’s lives from colonial period into 20th century. Contrasts myths, particularly myth of belle on pedestal, with realities of women’s lives.
Prerequisites: HY 120 [Min Grade: C]

HY 424. Emergence of Modern American 1877-1945. 3 Hours.
Focused study of the final appearance of an industrial economy and the different approaches to the government it generated, including the various reform movements (populism, socialism, progressivism, latent civil rights, women’s movement, New Deal) that spun out of this experience.
Prerequisites: HY 121 [Min Grade: C]

HY 425. History of American Technology. 3 Hours.
Development and impact of new technology in U.S. from colonial period to present.

HY 426. Technology and American Life. 3 Hours.
Impact of technology on modern American life and culture; automobile, television, and computer.

HY 429. Workers in American Society. 3 Hours.
Seventeenth century artisans to contemporary factory and office workers, organized and unorganized; effect of industrial and technological revolution on American labor, society, and politics.
HY 430. U.S. Labor History. 3 Hours.
Examines the multifaceted lives of American workers from the colonial period to the late 20th century with emphasis on their changing lives as economies changed.

HY 431. American Film and Violent Society. 3 Hours.
History of violent movies in the United States from earliest silent films to new gangster films of Quentin Tarantino. Meaning of these films and what they say about American society.

HY 432. Labor History in Film. 3 Hours.
Examines and contrasts the imagery of working class life with documentary and film.

HY 435. American Urban History. 3 Hours.
Major patterns of urbanization and urban life in American history.

HY 436. Money and Capitalism. 3 Hours.
The primary objective of this course is to acquaint students with the development of fundamental concepts in economic theory and major economic thinkers, their works and ideas from the late 18th century up to the recent past. There will be an emphasis on the evolution and synthesis of ideas basic to current economic theory. Written research, oral discussion, and critical analysis will make up a significant part of this course. Students will have ample opportunity to read, analyze, and discuss various issues and to consider, in a respectful but rigorous manner, the arguments, reasoning, and viewpoints of others. Significant weight will be given to participation in class discussions.

HY 439. American Environmental History. 3 Hours.
Changing perspectives on American environment and major issues in environmental history.

HY 440. The Holocaust on Film. 3 Hours.
This class provides an overview of the ever-increasing number of films about the Holocaust. Film and television have educated the world about this tragedy, from the first documentaries about the liberated camps to the global popularity of Schindler's List. Students will examine the way this genocide has been depicted on film and how we remember the victims.

HY 446. Nations of the Andes. 3 Hours.
A study of the vital Andean region of South America since the time of the Inca Empire, with special focus on the rise of the modern-day countries of Peru, Chile, Ecuador, and Colombia. Explores their struggles, starting in the 19th century, to transform their ethnically diverse, highly stratified societies into modern and more inclusive nations. Major topics include the impact of 19th century liberal nation-building and agro-export economies as well as 20th century nationalism, "indigenismo," social conflict, populism, revolutionary movements and contemporary ethnic rights movements; also, the rise of illicit drug-production and trafficking.

HY 447. Modern Mexico. 3 Hours.
Examines the evolution of the Mexican nation and its relations with the rest of the world from C.1800 to the present. This includes the country's dramatic 19th century struggles for political unity and survival; the U.S.-Mexican War and origins of Mexicans' Yankeephobia; the epic Mexican Revolution of 1910 and its impact; and rise of modern Mexican nationalism as well as contemporary trends such as the restoration of electoral democracy since c. 2000.

HY 448. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 449. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 450. Topics in Ancient History. 3 Hours.
Special studies in ancient historical topics. May be repeated.

HY 451. History of Greece. 3 Hours.
Ancient Greece from prehistory to Alexander and Hellenistic Age.

HY 452. History of Rome. 3 Hours.
Ancient Rome from time of Etruscans through Republic and Empire until decline in the 4th century A.D.

HY 453. Clash of Civilizations. 3 Hours.
This course critically analyzes the conception of a clash between "eastern" and "western" civilizations through historical case studies. Possible topics include the Greco-Persian wars, the early Islamic conquests, the Crusades, the Israeli-Palestinian Conflict, and the War on Terror.

HY 454. Topics in Middle Eastern History. 3 Hours.
Special studies in Middle Eastern historical topics.

HY 455. Renaissance and Reformation. 3 Hours.
From background of medieval society to birth of commercial, urban society; individualism; development of centralized territorial state; popular piety; humanism and art.
Prerequisites: HY 101 [Min Grade: D]

HY 456. Seventeenth-Century Europe: Absolutism, Revolution and Science. 3 Hours.
Evaluation of Seventeenth century through a study of the economy and society, statecraft and politics, warfare and the military revolution, the English civil war, the scientific revolution, and court life and absolutism.

HY 457. Nineteenth-Century Europe. 3 Hours.
National consolidation, imperialist adventure, and European society and politics, 1815-1914.

HY 458. Modern Europe. 3 Hours.
Europe as transformed by total war, economic dislocation, and rise of totalitarian movements; 1914 to present.

HY 459. Spain and the Spanish Inquisition. 3 Hours.
Examines early modern Spanish history covering the breakdown of the Spanish "convivencia," the rise of the Catholic kings and the absolutist state, the establishment of a Spanish colonial empire and its ultimate decline of power, as well as an examination of the Spanish Inquisition and its institutional development and function as a tool of the Spanish state.

HY 460. Ancient and Medieval Britain. 3 Hours.
Celtic, Anglo-Saxon, Roman, and Viking influences and evolution of kingdom from Norman Conquest to reign of Edward III.

HY 461. English History: 1307-1660. 3 Hours.
Social and political history of England from peasant uprisings of the late 14th century through Wars of the Roses, Tudor years, and civil war of the 17th century.

HY 462. Early Modern Britain. 3 Hours.
History of the nations of the British Isles from the civil wars of the 16th century to the beginning of the Victorian Age.

HY 463. Victorian Britain. 3 Hours.
Social and political history of 19th century Britain.

HY 464. Modern Great Britain. 3 Hours.
Problems facing Britain in the 20th century, including end of empire, economic decline, and political restructuring.

HY 465. French Enlightenment. 3 Hours.
French Enlightenment as intellectual and social phenomenon.
HY 466. The French Revolution. 3 Hours.
Revolution as social, political, and cultural event and its place in modern European history and historiography.

HY 467. Modern France 1815 - Present. 3 Hours.
Economic, social and political history of France and the contentious issues of equality, democracy, and liberty between the Napoleonic era and the present.

HY 468. German Catastrophe 1815-2012. 3 Hours.
After the collapse of Nazism, Germany was in ruins, truncated to a fraction of its former size, occupied and divided by hostile powers, and stained by the infamy of barbaric war crimes, most especially the Holocaust of Europe's Jews. After first examining the rise of German power and influence in nineteenth and early twentieth-century Europe (with emphasis on German nationalism, ideological tensions, Jewish life, industrialization, and Germany's relations with its Eastern neighbors), this course examines how defeat and resulting extremism after the First World War bred an environment in which the Nazis could seize power. Step by step, we will explore how an entirely new East Central Europe was forged in the terrible fires of 1938-1948, and we will examine how the resulting ruptures in memory and self-understanding wrought by this German Catastrophe were buried, manipulated, and confronted over the course of the Cold War and to the present day.

HY 469. Stalin and Stalinism. 3 Hours.
The life and times of Joseph Stalin (1878-1953) and his impact on the development of the Soviet Union after Lenin's death in 1924.
Prerequisites: HY 102 [Min Grade: C] or HY 105 [Min Grade: C] or HY 121 [Min Grade: C]

HY 470. The Soviet Union Since 1953. 3 Hours.
Soviet economic, political, and social trends since Stalins death in 1953.
Prerequisites: HY 102 [Min Grade: C] or HY 105 [Min Grade: C] or HY 121 [Min Grade: C]

HY 471. Russian Intellectual History. 3 Hours.
The emergence of modern Russian intellectual thought from Peter the Great (1682-1725) to the outbreak of the First World War with special emphasis on philosophy, literature, history and the issue of the Russian identity, as formulated by those who claim that Russia is part of the West and those who claim that it is a completely exceptional political and culture entity.

HY 472. Terror and Terrorism from French Revolution to Present. 3 Hours.
History of terrorism from its advent during the French Revolution of 1789 to the global war of present time reviewing three main instances of terrorism in history; French Revolution from 1793 through 1794, Russia in the 1870s and 1880s and their civil war between 1918 and 1921, and the present-day conflicts involving the United States and the Middle East.

HY 473. The Cold War. 3 Hours.
A survey and assessment of the dynamic relationship between the United States and its allies and the Soviet Union and the People's Republic of China from the Second World War to 1991 and the collapse of the USSR. This course emphasizes the domestic as well as the international sources of this conflict, starting with the Second World War and communist ideology. It will cover the rise and fall of the international communist order, highlighting the differences between Soviet and Chinese efforts to reform their post-Stalinist and post-Mao systems in the 1980s, and the US role in this process.

HY 475. Modern China. 3 Hours.
China's political, social and cultural history from the final decades of the Qing dynasty in the 19th century to its re-emergence as a major world power in the late 20th century.

HY 476. Japan to the 19th Century. 3 Hours.
Japan's political and cultural history from its legendary beginnings to the final decades of the Tokugawa shogunate.

HY 477. Modern Japan. 3 Hours.
Japan's political and cultural history from the Meiji Restoration to the present.

HY 478. Topics in European History. 3 Hours.
Special Studies in European History. May be repeated.

HY 480. Historic Preservation and Public Policy. 3 Hours.
Ways to research, assess, and use historic buildings and architecture as a way to study history and inform public policy.

HY 481. Public History. 3 Hours.
Various approaches to interest and inform general public of local and state history. Visits to public history sites around Birmingham area.

HY 482. Internship in Public History. 1-3 Hour.
Individually designed program that allows students to work in local historic museums, archives, or other sites to gain professional experience in public history.

HY 483. Internship in Environmental Studies. 1-3 Hour.
Individually designed program that places students in local environmental organizations, divisions of local businesses or government, or special projects to gain professional experience in preparation for an environmental career.

HY 489. Topics in African American History. 3 Hours.
Special studies in African American historical topics. May be repeated.

HY 490. Undergraduate Seminar in History. 3-6 Hours.
Topic varies depending on professor.

HY 491. Directed Readings in History. 3 Hours.
Individually designed course of reading in various fields.

HY 492. Directed Readings in History. 1-3 Hour.
Individually designed course of reading in various fields.

HY 497. History Capstone. 3 Hours.
This course requires history majors to demonstrate their competency by successfully completing a research project.
Prerequisites: HY 300 [Min Grade: C]

HY 498. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 499. Topics in History. 3 Hours.
Special studies in historical topics. May be repeated.

IB-International Business Courses

Courses

IB 495. Business Study Abroad. 3 Hours.
Academic course of study in a business discipline which takes place in a foreign location. Sophomore standing, UAB GPA minimum 2.7 and permission of Collat School of Business faculty sponsor.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)
IS-Information Systems Courses

Courses

IS 204. Introduction to Business Programming. 3 Hours.
An introductory course addressing the concepts, structures, and use of an event-driven programming language to implement business solutions. Emphasis is placed on developing general problem-solving strategies and implementing solutions through algorithm development.
Prerequisites: IS 103 [Min Grade: C]

IS 301. Introduction to Database Management Systems. 3 Hours.
An introductory course on database management systems. Emphasis is placed on providing students with the fundamental knowledge necessary to model business data needs, design logical data models, and design, implement, and use of a physical database in application development.
Prerequisites: IS 321 [Min Grade: C]

IS 302. Enterprise Systems. 3 Hours.
A study of data communications technologies used for business. The technologies include local and wide area networks, as well as telephony. Network management and security are also emphasized.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

IS 303. Information Systems. 3 Hours.
A survey course covering the theory and application of management information systems in business environments. Includes planning, development and implementation of business strategies that leverage information systems for competitive advantage.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

IS 305. Introduction to Application Development. 3 Hours.
A course addressing the concepts, structures, and use of object-oriented problem solving and the C# programming language. Emphasis is placed on developing general problem-solving strategies and implementing solutions through algorithm development using object class models and C#.
Prerequisites: (IS 204 [Min Grade: C] and IS 301 [Min Grade: C])(Can be taken Concurrently) and GPAT and GPAO 2.00)

IS 321. Systems Analysis. 3 Hours.
Focuses on the planning, decision making tasks and requisite skills necessary for the analysis of information systems.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

IS 331. Enterprise Operating Systems. 3 Hours.
This course is an introductory course to large-scale computing systems known as Enterprise Systems. Students will learn how Enterprise Systems provide the critical infrastructure for 90% of Fortune 500 companies to ensure security, cloud capability, mobility and business analytics.
Prerequisites: IS 204 [Min Grade: D]

IS 332. Intro to COBOL Programming. 3 Hours.
This course provides an Introduction to Programming in COBOL. Emphasis on Structured Coding techniques and COBOL within the context of Enterprise software support and maintenance. Several computer assignments required.
Prerequisites: IS 331 [Min Grade: D](Can be taken Concurrently)

IS 413. Introduction to Information Security. 3 Hours.
This course serves as an introduction to the field of information security where students will develop a basic understanding of the information security principles. Students will be able to understand the business value of information security and its legal/ethical considerations. Students will also gain an appreciation for security planning and risk management and how risk may be mitigated through technical, physical, and administrative controls.
Prerequisites: IS 413 [Min Grade: C]

IS 414. Information Security Planning and Management. 3 Hours.
Primary objectives of the course are for the student to develop an understanding of key information security concepts, develop an understanding of how people, technology, and organizational policies should be developed and managed to safeguard an organization’s information resources, learn how to manage under uncertainty and risk, develop policies and procedures to make information systems secure, and learn how to audit and recover from security breaches.
Prerequisites: IS 413 [Min Grade: C]

IS 415. Social Media & Virtual Communities. 3 Hours.
This course focuses on how social media and virtual communities are changing business in fundamental ways. The course helps students gain practical facility in the use of social media tools and learn meta-skills like how to use new social media tools, how to use filters to make sense of social media, and how to curate news and reports in a manner that contributes to business knowledge and intellect.

IS 416. Web Analytics. 3 Hours.
The Web Analytics course introduces technologies and tools used to realize the full potential of web sites. The course focuses on collection and use of web data such as web traffic and visitor information to design web sites that will enable firms to acquire, convert and retain customers.

IS 417. Introduction to Business Intelligence. 3 Hours.
This course covers topics of knowledge management and business intelligence from an organizational IT perspective. The content of the course includes discussion of and readings on the nature of knowledge; knowledge discovery, generation, capture, transfer, sharing, and application; and includes discussions of the core IT capabilities necessary to deliver Business Intelligence in organizations. The development and use of data warehouses and data marts to support business analytics is discussed.

IS 420. Web Application Development. 3 Hours.
This course will cover concepts, principles, and methods related to the design and implementation of web applications. The course will also cover a basic understanding and technical skills of both client and server technologies, and build simple web applications.
Prerequisites: IS 204 [Min Grade: D]

IS 421. Mobile Application Development. 3 Hours.
This course will cover concepts, principles, and methods related to the design and implementation of mobile applications. Emphasis is placed on the developing web content and creating applications for mobile devices, including Internet/business practices and techniques for delivery on mobile platforms.
Prerequisites: IS 204 [Min Grade: D]
IS 431. Enterprise Transaction Systems. 3 Hours.
CICS (Customer Information Control System) is the world-wide transaction processor that's used for interactive transactions on IBM mainframe computers. The vast majority of the CICS code for those applications is in the form of CICS commands that are embedded within COBOL programs, and this course will help you develop a solid understanding of what you have to do to become a proficient CICS programmer.
Prerequisites: IS 331 [Min Grade: D] and IS 332 [Min Grade: D]

IS 432. Enterprise Database Systems. 3 Hours.
The IBM DB2 database management system is the standard in enterprise data management for z/OS and earlier mainframe operating systems. Although several programming languages work with DB2, COBOL is the most commonly used in the mainframe environment. Students will be introduced to fundamentals of database analysis, design and implementation. This course teaches the use of the industry-standard Structured Query Language within a COBOL program to retrieve and update data stored in DB2 databases.
Prerequisites: IS 331 [Min Grade: D] and IS 332 [Min Grade: D]

IS 464. IS Internship. 3 Hours.
Work experience enabling students to better integrate academic knowledge with practical applications by exposure to accounting practice and the business environment. 2.50 GPA in IS courses and permission of instructor required.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

IS 491. Current Topics in Information Systems. 3 Hours.
A study of selected current developments in information systems emphasizing development and managerial implications. Permission of instructor required.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

IS 499. Directed Readings. 1-3 Hour.
Readings and independent study in selected areas.

ITL-Italian Courses

Courses

ITL 101. Introductory Italian I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Italian is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ITL 102. Introductory Italian II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Italian is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.
Prerequisites: ITL 101 [Min Grade: D]

ITL 190. Study Abroad: Italian. 1-8 Hour.
Approved novice level study abroad program in an Italian-speaking country.

ITL 201. Intermediate Italian I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Italian is spoken.

ITL 290. Study Abroad. 1-6 Hour.
Approved program in an Italian-speaking country.

ITL 299. Directed Readings in Italian. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Italian students. Course design is determined by the instructor and student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Italian language and culture. Intermediate proficiency in reading, writing, listening and speaking Italian is the targeted outcome. Permission of Department Chair required.

ITL 390. Study Abroad. 1-6 Hour.
Approved upper level study abroad program in an Italian-speaking country. Permission of Department Chair and Study Abroad Director.

ITL 399. Independent Study. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Italian language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of the Italian language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Italian is the targeted outcome. Permission of the Department Chair required.

ITS-International Studies Courses

Courses

ITS 101. Introduction to International Studies. 3 Hours.
A survey of the problems and practice of global cooperation and conflict. Particular attention is paid to issues of global power, wealth and social justice. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ITS 110. Directed Readings in International Studies. 1-3 Hour.
Critique of current popular works in International Studies. Prerequisite: permission of ITS director.

ITS 223. International Study Abroad. 3 Hours.
Independent study done in International setting in conjunction with non-UAB academic program. Prerequisite: permission of ITS Director.

ITS 229. International Study Abroad. 3 Hours.
Current events in international setting. Part of program supported by UAB Education Abroad. Permission of ITS director and UAB Education Abroad director.

ITS 250. Special Topics. 3 Hours.
Topics in world geography and international issues. Prerequisite: permission of ITS director.

ITS 299. Problems in International Studies. 1-3 Hour.
Study of international relation and world culture subjects.
ITS 470. Seminar in International Studies. 3 Hours.
International Studies exit seminar that draws together program themes and summarizes main threads of current global issues. Prerequisite: permission of ITS director.

ITS 471. Seminar in International Studies. 3 Hours.
Analyzing and writing in depth about the ethics and rationale for using and abusing the film medium to relate to, undermine, or support political authority. Writing, Ethics and Civic Responsibility are significant components of this course.

ITS 480. Advanced Problems in International Studies. 1-3 Hour.
Independent study. Prerequisite: permission of ITS director.

ITS 482. Internship in International Affairs. 1-3 Hour.
Individually arranged assignments in international companies or organizations, monitored and evaluated by the director of international studies. Prerequisite: permission of ITS director.

ITS 497. Honors Research in International Studies. 3 Hours.
Directed research by international studies honors students under faculty supervision. Prerequisite: open only to International Studies Honors students by permission of ITS director.

ITS 499. Advanced Seminar in International Studies. 3 Hours.
Special-topic seminar treating major current event or international problem.

JPA-Japanese Courses

Courses

JPA 101. Introductory Japanese I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Japanese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

JPA 102. Introductory Japanese II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Japanese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

JPA 109. Study Abroad. 1-6 Hour.
Approved novice level study abroad program in Japan. Prerequisite: permission of Department Chair required.

JPA 201. Intermediate Japanese I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Japanese is spoken. (CORE AREA II).

Continuation of JPA 201. Conducted in Japanese. (CORE AREA II).

JPA 203. Intermediate Japanese Language & Culture I. 3 Hours.
This course aims at improving students' linguistic and cultural fluency necessary for functioning in Japanese. Class activities will consist of communicative exercises such as role-playing. While emphasis will be placed on oral skills, attention will also be given to the written Japanese that one encounters in daily life, particularly in signage and forms. Topics may include: Conversational Japanese in such settings as restaurant, store, public transportation, airport, post office, hospital, home-stay, hotel, and local attractions.

JPA 204. Intermediate Japanese Language & Culture II. 3 Hours.
This course focuses on developing students' reading and writing skills to increase Japanese literacy. It will also expand students' vocabulary, grammatical understanding, listening and speaking. Topics may include: Examples will be taken from authentic popular literature, manga and anime, folktales, letters, e-mails and songs. Students will learn how to write basic compositions and make speeches.

JPA 205. Advanced Japanese. 3 Hours.
This course focuses on developing students' reading and writing skills in the Japanese language. Students are expected to effectively use their language skills to explore and analyze current business trends and issues in Japan. Conducted in Japanese.

JPA 206. Business Japanese. 3 Hours.
Japanese course focusing on the effective communication skills essential in professional fields and the understanding of the Japanese business world. Students develop their verbal, listening, reading, and writing proficiency in business Japanese and acquire culturally appropriate interpersonal communication skills needed to deal with a variety of business situations. Students are expected to effectively use their language skills to explore and analyze current business trends and issues in Japan. Conducted in Japanese.

JPA 207. Contemporary Issues in Japanese Society. 3 Hours.
Study of selected themes in contemporary Japanese society, through reading and discussion of contemporary debates in periodicals, news sources and other media. Readings will focus on such themes as work and social pressure, gender inequality, social alienation, declining birthrates, aging and social support, media images, and education. Conducted in Japanese.

JPA 210. Discourse and Culture in Japanese. 3 Hours.
Study of the significance of cultural knowledge in understanding the meaning of language. The course focuses Japanese learners to understand values, expectations and appropriate behavior in Japanese culture, as well as the theoretical underpinnings of pragmatics and discourse analysis. Conducted in Japanese.

JPA 211. Contemporary Issues in Japanese Society. 3 Hours.
Study of selected themes in contemporary Japanese society, through reading and discussion of contemporary debates in periodicals, news sources and other media. Readings will focus on such themes as work and social pressure, gender inequality, social alienation, declining birthrates, aging and social support, media images, and education. Conducted in Japanese.

JPA 290. Japanese for Study Abroad. 1-6 Hour.
This study-abroad Japanese course aims at improving students' oral fluency. It will help students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content will also include discussion and analysis of current cultural topics. JPA 290 will be conducted entirely in Japanese. Permission of department chair required.
JS 299. Directed Readings in Japanese. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Japanese students. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Japanese language and culture. Intermediate proficiency in reading, writing, listening and speaking Japanese is the targeted outcome.
Prerequisites: JPA 202 or equivalent.
Prerequisites: JPA 202 [Min Grade: C]

JPA 306. Advanced Business Japanese. 3 Hours.
Advanced Japanese course focusing on the effective advanced communication skills essential in professional fields and the understanding of the Japanese business world. Students develop their advanced verbal, listening, reading, and writing proficiency in business Japanese and acquire culturally appropriate inter-personal communication skills needed to deal with a variety of business situations. Students are expected to effectively employ their language skills to explore and analyze current business trends and issues in Japan. Conducted in Japanese.
Prerequisites: JPA 204 [Min Grade: C]

JPA 390. Study Abroad. 1-6 Hour.
Approved upper-level study abroad program in a Japanese-speaking country. Permission of Deparment Chair and Study Abroad Director.

JPA 399. Directed Readings: Japanese. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Japanese language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of the Japanese language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Japanese is the targeted outcome. Permission of the Department Chair required.
Prerequisites: JPA 201 [Min Grade: C]

JPA 490. Study Abroad: Japan. 1-6 Hour.
Approved upper-level study-abroad program in Japan. Permission of Department Chair and Study-Abroad Director.

JS-Justice Sciences Courses

Courses

JS 100. Introduction to the Criminal Justice System. 3 Hours.
Introduction to criminal justice as a system consisting of interactions among three main components: police, courts, and corrections and the processes involving those components.

JS 101. Crime and Criminality. 3 Hours.
Examination of the causes and consequences in society of crime/delinquency, including theoretical explanations, sources of data on crime/delinquency, and efforts at controlling the behavior.

JS 110. Introduction to Forensic Science. 3 Hours.
Overview of the major components of forensic science including death investigation, toxicology, osteology, questioned documents, law, and criminalistics.

JS 115. Comparative Criminal Justice Systems. 3 Hours.
Analysis of police, judicial, and correctional components found in the world's four major legal systems: Common Law, Islamic, Napoleonic and Socialist.

JS 120. Introduction to Statistics. 3 Hours.
Introduction to basic statistical theory and analysis. Course emphasizes computation, units of measurement, and evaluation of quantitative assertions; interpretation of quantitative data; use of quantitative data for problem-solving; and communication of information using numbers/words appropriate for the audience. Quantitative Literacy is a significant component of this course.

JS 125. Introduction to Forensic Psychology. 3 Hours.
Overview of issues involving the intersection of law and psychology. Focus on role of clinical assessment of competency, scientific jury selection, expert witnesses in court, punishment and sentencing, and related issues.

JS 150. Foundations of Law. 3 Hours.
Examination and analysis of the evolution, function, and sources of law and legal systems in Western culture.

JS 160. Introduction to Private Security. 3 Hours.
Survey of the field of private security, including organizational, administrative, operational, and liability issues common to it.

JS 170. Introduction to Crime Scene Analysis. 3 Hours.
Overview of crime scene investigation (CSI), including history of crime scene investigation; processing techniques and methods used to document and preserve evidence found at crime scenes.

JS 220. Police in America: An Overview. 3 Hours.
Introduction to the history and evolution of modern law enforcement in the United States, including the role and functions of police in the community.
Prerequisites: JS 100 [Min Grade: C](Can be taken Concurrently)

JS 280. Court Administration. 3 Hours.
Introduction to history and evolution of probation, prisons, parole, and community-based programs for adult and juvenile offenders.
Prerequisites: JS 100 [Min Grade: C]

JS 290. Criminal Justice in America. 3 Hours.
Survey of the field of private security, including organizational, administrative, operational, and liability issues common to it.

JS 290. Criminal Administration. 3 Hours.
Introduction to administration of criminal justice. Course emphasizes management of personnel, administrative, operational, and liability issues common to the field.
Prerequisites: JS 100 [Min Grade: C]

JS 250. Criminalistics: An Overview. 3 Hours.
Introduction to the history and evolution of modern law enforcement in the United States, including the role and functions of police in the community.

JS 260. Criminal Justice System in America. 3 Hours.
Overview of the American criminal justice system, including police, courts, and corrections.
Prerequisites: JS 100 [Min Grade: C]

JS 280. Criminal Justice in America. 3 Hours.
Survey of the field of private security, including organizational, administrative, operational, and liability issues common to it.

JS 300. Research Methods in Criminal Justice. 3 Hours.
Introduction to research methods and techniques associated with social research with an emphasis on criminal justice/criminology applications. Writing assignments emphasize ability to make a logical argument and respond to counter claims; incorporating outside sources into written materials; and use conventions appropriate for the discipline. Writing is a significant component of this course.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 305. Religion and Crime. 3 Hours.
This course is designed to introduce students to research on the impact of religious institutions and values on multiple aspects of public policy and life. Students will explore the impact of religion on law creation, crime-control attitudes, criminal and deviant behaviors, provision of social services, politics, and race/ethnic relations.
JS 307. Crime and Everyday Life. 3 Hours.
Examines everyday aspects of crime, including different forms of crime, media involvement, crime patterns, and policy responses.

JS 320. Police Organization and Administration. 3 Hours.
Analysis of organizational and administrative structure and function of police departments in the U.S.
Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]

JS 321. Police-Community Relations. 3 Hours.
Overview and analysis of historical and contemporary relationship between police agencies and the public; legal issues; analysis of crime prevention programs, community participation, and police discretion.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C])

JS 322. Legal Aspects of Private Security. 3 Hours.
Introduction to and examination of critical legal aspects of private security, especially liability issues.
Prerequisites: JS 160 [Min Grade: C]

JS 330. Criminal Law. 3 Hours.
Analysis of the development of criminal law, including legal elements of a crime, defenses in criminal cases, appellate case analysis, and legal terminology.
Prerequisites: JS 230 [Min Grade: C] or (JS 150 [Min Grade: C])

JS 331. Criminal Procedure. 3 Hours.
Introduction to legal rules relating to the criminal process from investigation through punishment.
Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]

JS 332. Criminal Evidence. 3 Hours.
Examination of the system of rules and standards, both state and federal, by which admission of proof at criminal trial is regulated.
Prerequisites: JS 230 [Min Grade: C] or JS 150 [Min Grade: C]

JS 333. Trial Advocacy. 3 Hours.
Overview of preparations for civil and criminal litigation including courtroom procedure, evidence, and the art of advocacy.
Prerequisites: JS 230 [Min Grade: C] or JS 150 [Min Grade: C]

JS 335. Mediation. 3 Hours.
Examination of mediation as a specific form of alternative dispute resolution (ADR), including its history, development, and processes.
Prerequisites: JS 230 [Min Grade: C] or JS 150 [Min Grade: C]

JS 336. Criminal Investigation: Techniques and Analysis. 3 Hours.
Examination of both technical and analytical aspects of the criminal investigative process.

JS 337. Introduction to the Intelligence Community. 3 Hours.
Overview of the Office of the Director of National Intelligence (ODNI) and its role in the intelligence community; Examination of the development and expansion of state and local fusion centers and first responder roles in evolving federal, state, and local intelligence community enterprise.
Prerequisites: JS 337 [Min Grade: C]

JS 338. Intelligence Oversight and Legal Controls. 3 Hours.
Historical development of intelligence oversight from the 1940s to the present; intelligence abuses; expansion of executive branch authority post-September 11, 2001.
Prerequisites: JS 337 [Min Grade: C]

JS 339. Methodologies in Intelligence Analysis. 3 Hours.
Introduction to analytical tactics, techniques, and procedures used by and in the intelligence community.
Prerequisites: JS 337 [Min Grade: C]

JS 340. Terrorism and the Intelligence Community. 3 Hours.
Examines application of the intelligence cycle (collection, analysis, management & dissemination of information) to the war on terrorism using case studies of successes and failures.
Prerequisites: JS 337 [Min Grade: C]

JS 341. Correctional Institutions. 3 Hours.
Introduction to prisons, jails, and juvenile institutions in the U.S.; evolution of penology and correctional change strategies; inmate social system; prison stress, violence, and reform.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C])

JS 342. Probation and Parole. 3 Hours.
Analysis of history, structure, and function of probation and parole systems in the United States; pre-sentence investigations; offender selection and classification; offender supervision; and agency administration.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and JS 240 [Min Grade: C]

JS 344. Science and Technology in the Intelligence Community. 3 Hours.
Introduction to, and critical examination of, science and technology capability of each member agency within the intelligence community.
Prerequisites: JS 337 [Min Grade: C]

JS 350. Advanced Criminalistics. 3 Hours.
Examination of advanced criminalistics, including biological or genetic properties of evidence, trace evidence analytics, and firearm toolmark examinations.
Prerequisites: JS 110 [Min Grade: C]

JS 351. Forensic Science Lab I. 3 Hours.
Basic identification and individualization of common, frequently occurring physical evidence materials, with emphasis on trace evidence.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

JS 352. Forensic Science Laboratory II. 3 Hours.
Basic identification and individualization of common, frequently occurring physical evidence materials, with emphasis on biological materials.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

JS 360. Criminology. 3 Hours.
Identification and assessment of early and modern theories concerning the causes of crime in society.
Prerequisites: JS 101 [Min Grade: C] or CJ 101 [Min Grade: C]

JS 362. Victimology. 3 Hours.
Examination of the criminal-victim relationship and societal reaction to victims including victim services, restitution, and compensation.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (CJ 101 [Min Grade: C] or JS 101 [Min Grade: C])

JS 380. Media, Crime & Justice. 3 Hours.
Examination of issues in crime and justice as depicted in popular media, including motion pictures, television, video, and other media.

JS 390. The Death Penalty in America. 3 Hours.
Overview of capital punishment in America including its history and justification, major Supreme Court rulings, current issues, and future directions.
JS 400. Drugs and Society. 3 Hours.  
This course teaches students the pharmacological effects of and different categories of drugs. Different theories of drug use are discussed as well as the historical development of drug laws. Various harms associated with drug use are discussed as well as the consequences of drug prohibition. Lastly, students are expected to understand the different methods of drug research.

JS 402. Introduction to Computer Forensics. 3 Hours.  
Introduction to the use of analytical and investigative techniques in criminal or civil litigation to identify, collect, examine and preserve evidence/information magnetically stored or encoded.

JS 403. Restorative Justice. 3 Hours.  
Introduction to, and analysis of, movement in criminal justice to institutionalize peaceful approaches to harm, problem-solving and violations of legal and human rights. Includes discussion of specific programs, critical evaluation of these programs, and analysis of future directions of the movement.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 404. Serial Killers. 3 Hours.  
Examination of the psychology and sociology of serial killers, including case studies, agency responses and related issues.

JS 407. Special Topics in Criminal Justice. 3 Hours.  
In-depth analysis of substantive topic in criminal justice or criminology including contemporary issues, ethics, historical review, or related topics. Varies by semester and by Instructor. May be repeated twice for credit.

JS 408. Juvenile Delinquency. 3 Hours.  
Introduction to the nature, scope, and causes of illegal behavior by juveniles, and societal responses to that behavior.

JS 410. Criminal Justice Ethics. 3 Hours.  
Analysis of systems of ethics and their applicability to problems in the administration of the justice system including those facing police officials, lawyers, judges, and correctional professionals. Writing and Ethics and Civic Responsibility are significant components of this course.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C])

JS 411. Juvenile Justice System. 3 Hours.  
Introduction to the evolution and operation of specialized agencies and procedures to address juvenile law-breaking, including emerging problems and solutions.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 412. Juvenile Law. 3 Hours.  
Review and analysis of emerging statutory and case law in American juvenile justice.

Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]

JS 413. The Legal Profession. 3 Hours.  
Weekly seminars conducted by accomplished practitioners in civil litigation, criminal prosecution, criminal defense, labor and employment law, products liability, domestic relations, military justice, environmental, indigent legal aid, and alternative dispute resolution (ADR) techniques.

JS 415. Investigating Online Crimes. 3 Hours.  
Introduction to cyber investigative techniques involving focused analysis of email and websites; examination of legal process and preparing evidence in cyber crime cases; rules concerning introduction of digital evidence.

Prerequisites: JS 402 [Min Grade: C]

JS 424. Serial Killers in Cross-National Settings. 3 Hours.  
Examines serial homicide in cross-national settings including offender disorders; crime scene analysis; significance of victims; and offender classification process.

JS 434. Mock Trial Competition. 3 Hours.  
Represent UAB as member of Mock trial Team in invitational, regional, and national competition. May be repeated for maximum of 12 hours of which not more than 6 hours may be counted toward fulfilling major or minor requirements.

JS 436. The Intelligence Community. 3 Hours.  
Weekly seminars by intelligence community experts covering relevant topics including state fusion centers; proliferation of intelligence units within first responder agencies; growing role of the private sector; and local prosecution for intelligence agency abuse.

JS 437. Cybercrime and Forensics. 3 Hours.  
Overview of all aspects of media forensics including analysis of character encoding, file formats, and digital media; examination of disk acquisition and duplication techniques; application of media forensic techniques in criminal investigation scenarios.

Prerequisites: JS 402 [Min Grade: C]

JS 440. White Collar and Corporate Crime. 3 Hours.  
Introduction to, and analysis of, illegal/deviant behavior occurring in complex organizational settings, including theoretical explanations; patterns and case studies; and control strategies.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 441. Terrorism and Social Control. 3 Hours.  
Exploration of causes and consequences of terrorism and how governments respond, including investigation, prosecution, and punishment of terrorists.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 442. Race, Crime, Gender and Social Policy. 3 Hours.  
Examination of how subordinate status of minority groups (African Americans, Hispanics, Native Americans and Women) affects interaction with the justice system as offenders, victims, and professionals.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 443. Women and the Criminal Justice System. 3 Hours.  
Examination of women's experiences as offenders, victims, and professionals in the criminal and civil justice systems.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

JS 444. Law and Society. 3 Hours.  
Examination of relationship between law and society, including how law is used to facilitate or retard social change, social control, and social conflict.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 150 [Min Grade: C] or CJ 230 [Min Grade: C])

JS 445. Juvenile Corrections. 3 Hours.  
Examination of historical and contemporary efforts to reduce juvenile delinquency through institutional and community-based programs; innovative programs; evaluation of program effectiveness.

Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])
JS 450. Questioned Death Investigation. 3 Hours.
Introduction to and analysis of questioned deaths, including techniques used in case investigation; overview and history of coroners' offices structure and function in the U.S.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

JS 451. Research Methods in Forensic Science. 3 Hours.
Review of routinely used research methods to conduct forensic science scientific studies.
Prerequisites: CJ 110 [Min Grade: C] or JS 110 [Min Grade: C]

JS 453. Investigation of Fires and Explosions. 3 Hours.
Introduction to arson investigation including overview of specific techniques used in case investigation; case preparation and presentation in court.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

JS 456. Forensic Approaches to Osteology. 3 Hours.
Introduction study of structure and function of bones with particular emphasis on ability to identify age, sex, and population type of skeletal material.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

JS 460. Violence: An American Tradition. 3 Hours.
Examines violence as an American tradition, including historical acts of violence as catalysts for social change, destructive or negative violence, and policies and prevention strategies.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C])

JS 465. Cold Case Analysis. 3 Hours.
Introduction to methods used in analyzing unsolved cases, including innovative technology, 3rd party investigators, and teams.

JS 466. Spatial Analysis and Crime Mapping. 3 Hours.
This skills-based class will introduce students to the application of geographic information systems (GIS) to crime-related topics and issues.

JS 477. Legislative Issues in the Intelligence Community. 3 Hours.
Case studies of legislative contributions to and curbs on intelligence community's legal authority, including Patriot Act, Foreign Intelligence Surveillance Act (FISA), Defense Department Authorization Act, and state and local legislative initiatives.

JS 481. Honors Research. 3 Hours.
Undergraduate research project developed and completed under direction of faculty mentor.

JS 482. Honors Research and Colloquium. 3 Hours.
Completion of undergraduate Honors Project under the guidance of a faculty mentor with presentation of project at department colloquium.

JS 483. Patterns in Crime. 3 Hours.
Examination of the major correlates of crime and criminality; critical examination of major sources of information from which data on crime correlates are gathered.
Prerequisites: (JS 100 [Min Grade: C] and CJ 100 [Min Grade: C]) or (JS 101 [Min Grade: C] and CJ 101 [Min Grade: C])

JS 490. Independent Research in Criminal Justice. 1-3 Hour.
Independent readings, research or project approved and directed by a criminal justice faculty member who supervises proposed plan of study. Permission of Department Chair.

JS 491. Independent Research in Criminal Justice. 1-3 Hour.
Independent readings, research or project approved and directed by a criminal justice faculty member who supervises proposed plan of study. Permission of Department Chair.

JS 492. Study Abroad in Criminal Justice. 3 Hours.
This course affords students the opportunity engage in academic study outside of the U.S. to examine substantive topics in crime and justice. Students spend time (to be determined by the specific program) at a destination point, where they engage with students and faculty members in classroom and research settings at partner post-secondary institutions, experience immersion in foreign culture, and engage in comparative analysis of policies and programs relating to crime and justice.

JS 497. Internship and Capstone in Criminal Justice for Practitioners. 3-6 Hours.
Supervised capstone experience for students already working in a local, state, or federal criminal justice or ancillary agency. Course strongly emphasizes demonstration of student's ability to communicate in written form to appropriate audiences, including competence in grammar and mechanics; understanding and practicing ethical decision making and civic responsibility; and quantitative analyses including construction and interpretation of tables and ability to adequately communicate quantitative information. Prerequisite: Permission of Internship Coordinator. May be repeated for maximum of 12 hours of which not more than 6 hours may be counted toward fulfilling major or minor requirements. Ethics and Civil Responsibility and Writing are significant components of this course.

JS 498. Distance Internship and Capstone in Criminal Justice. 3-6 Hours.
Supervised capstone experience in criminal justice agency located more than 100 miles from Birmingham. Course strongly emphasizes demonstration of student's ability to communicate in written form to appropriate audiences, including competence in grammar and mechanics; understanding and practicing ethical decision making and civic responsibility; and quantitative analyses including construction and interpretation of tables and ability to adequately communicate quantitative information. Prerequisite: Permission of Internship Coordinator. May be repeated for maximum of 12 hours of which not more than 6 hours may be counted toward fulfilling major or minor requirements. Ethics and Civil Responsibility and Writing are significant components of this course.

JS 499. Internship and Capstone in Criminal Justice. 3-6 Hours.
Supervised capstone experience in local, state, or federal criminal justice or ancillary agency. Course strongly emphasizes demonstration of ability to communicate in written form to an appropriate audience, including competence in grammar and mechanics; understanding and practicing ethical decision making and civic responsibility; and quantitative analyses including construction and interpretation of tables and ability to adequately communicate quantitative information. Prerequisite: Permission of Internship Coordinator. May be repeated for maximum of 12 hours of which not more than 6 hours may be counted toward fulfilling major or minor requirements. Ethics and Civil Responsibility and Writing are significant components of this course.

KIN-Kinesiology

Courses

KIN 101. Beginning and Advanced Beginning Swimming. 1 Hour.
This course provides the student with basic aquatic safety skills as well as aquatic survival skills. The strokes include beginner, front crawl, elementary back stroke, breast stroke, back crawl and side stroke. Intermediate or advanced swimmers will be administratively withdrawn from the course.
KIN 102. Intermediate Swimming/Swimmer Course. 1 Hour.
The intermediate swim course is part of the American Red Cross “Learn to Swim” Program, which is designed for learning and improving swim strokes. Gaining the knowledge and skills needed in basic water safety is the common theme in providing the information and resources to make participation in aquatics activities a lifetime pursuit. Students must be able to jump in the deep end, recover and tread or float for one minute, then swim 25 yards using crawl stroke or elementary backstroke.

KIN 103. Lifeguard Training. 1 Hour.
The American Red Cross Lifeguarding course focuses on training people who are already good swimmers. The course covers the skills and knowledge required for effective lifeguarding at swimming pools and at nonsurf, open-water beaches. Must be able to swim 300 yards continuously and surface dive 7 - 10 feet to retrieve a 10 lb. object.

KIN 104. Tennis. 1 Hour.
Course will provide students with the knowledge and skill needed to play the game of tennis.

KIN 105. Golf. 1 Hour.
This course includes beginning skills, rules and etiquette for recreational golf.

KIN 108. Weight Training and Aerobics. 1 Hour.
This course includes basic weight training and aerobic instruction and workouts.

KIN 112. Dance and Gymnastics. 1 Hour.
This course provides future teachers background in planning and conducting basic dance and gymnastic instruction. Intended for physical education majors.

KIN 114. Rec Games/Outdoor Leisure. 1 Hour.
This course will enable students to experience a wide variety of recreational games and outdoor leisure pursuits.

KIN 115. Weight Training. 1 Hour.
Basic weight training techniques and creation of personal workouts.

KIN 116. Ballroom and Latin Dancing. 1 Hour.
This course includes instruction of the more popular social Latin and Ballroom dances.

KIN 117. Team Sports. 1 Hour.
This course will enable students to learn the basic skills of different team sports (such as team handball, football, volleyball, basketball, soccer, speedball, tchoukball, and rugby). Students will practice those skills to have the ability to gain skill proficiency in playing the sports as well as teaching others to play the sport.

KIN 118. Sports Using Implements. 1 Hour.
This course will enable students to learn the basic skills of different sports that require use of an implement (i.e., badminton, cricket, hockey, lacrosse, softball, and tennis). Students will practice those skills to have the ability to gain skill proficiency in playing the sport as well as teaching other to play the sport.

KIN 124. Beginning Whitewater Kayaking. 1 Hour.
This course is designed to take interested student from zero knowledge to being able to competently maneuver a Kayak in flat water and demonstrate basic paddling safety skills.

KIN 125. Cheerleaders and Dance Team. 1 Hour.
Open to members of UAB cheerleading and dance teams only.

KIN 126. Flying Disc Sports. 1 Hour.
Students in this class will learn the basic skills of throwing and catching flying discs. They can incorporate these techniques in the popular games of today including Ultimate, a team game similar to soccer that is very popular in college and university settings, and Disc Golf, one of the fastest growing individual sports of the day.

KIN 127. Running and Jogging. 1 Hour.
This course includes basic running and jogging instruction and training.

KIN 128. Rock Climbing. 1 Hour.
Introduction to the fundamentals of rock climbing. Lectures and drills designed to give students an introduction to the skills and knowledge to rock climb safely in a single pitch sport climbing environment.

KIN 129. Aikido. 1 Hour.
Series of techniques adapted to respond to a variety of attacks and to multiple attackers.

KIN 130. Scuba Diving. 1 Hour.
This course includes physiology, physics, safety issues, and guidelines of recreational scuba diving through lectures, quizzes, and final exams. Students will learn and be able to demonstrate the proper assembly and use of scuba equipment as well as proper swimming and breathing techniques. Students must provide their own snorkel, fins, and mask. Must be able to tread water for 10 minutes and swim 200 yards.

KIN 131. Aerobics. 1 Hour.
Opportunity to improve cardiovascular fitness, flexibility, muscular strength and endurance and body composition in a group setting. Improves rhythm and coordination, body and space awareness, energy management appreciation of a healthy lifestyle and mental focus and concentration.

KIN 132. Group Exercise Leadership. 1 Hour.
Review and application of exercise science theory to group exercise. Repertoire of exercise for flexibility, strength, aerobic dance, and step training. Practice teaching each segment of a class at end of course will be able to teach a 60 minute group exercise class.

Prerequisites: (KIN 115 [Min Grade: C] or PE 115 [Min Grade: C]) and (KIN 131 [Min Grade: C] or PE 131 [Min Grade: C])

KIN 133. Aerobic Training. 1 Hour.
The purpose of this course is to provide information and experiences in aerobic exercise training, heart rate monitoring, and fitness assessment.

KIN 134. The College Athlete: Concerns and Issues. 3 Hours.
Needs of and demands on college athletes. Time management, study skills and habits, drug use and abuse, drug testing and NCAA rules, use of student and training facilities, and nutritional practices. Holistic health with emphasis on keeping athletic experience in perspective. Does not count toward physical education major or minor.

KIN 136. Intro to Physical Education Fitness and Sport. 3 Hours.
Introduction to the fields; professional organizations, career opportunities, historical development, and philosophical and scientific foundations.

KIN 201. Officiating Techniques. 2 Hours.
Knowledge and practical experience in officiating various team and individual sports. Includes officiating UAB intramurals.

KIN 206. Introduction to Teaching Physical Education. 3 Hours.
Research on teaching physical education and sociocultural influences on children as learners; development of basic teaching skills.

Prerequisites: KIN 136 [Min Grade: C] or PE 136 [Min Grade: C]
KIN 222. Concepts of Health and Fitness. 3 Hours.
Fitness and related health concepts. Fitness assessment, variety of fitness-related activities, and development of personal fitness program. Nutrition and cardiovascular health.

KIN 300. Organization and Administration of Physical Education. 3 Hours.
Development of skills required to organize and administer physical education programs.
Prerequisites: KIN 136 [Min Grade: C] or PE 136 [Min Grade: C]

KIN 305. Motor Development. 3 Hours.
Development of motor skills, physical fitness, and perceptual motor abilities across life span; concentration on preschool population. Students will be required to communicate effectively in writing the information obtained via assessment of the above elements of motor development. In addition, quantitative literacy will be assessed in terms of the student's ability to interpret the assessment data to plan appropriate physical activities.
Prerequisites: KIN 136 [Min Grade: C] or PE 136 [Min Grade: C]

KIN 307. Applied Kinesiology. 3 Hours.
Knowledge of anatomical terminology and analysis of internal muscular forces that act on bones resulting in motion at major movable joints. Identification and application of mathematical formulae to comprehend the external and internal biomechanical forces that occur in human movement.
Prerequisites: BY 115 [Min Grade: C] and (MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 126 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C])

KIN 308. Adapted Physical Education. 3 Hours.
Prescription and planning physical activity for individuals with disabilities. Admission to TEP required.
Prerequisites: ECY 300 [Min Grade: C]

KIN 311. Elementary School Physical Education. 3 Hours.
Nature and content of a developmentally appropriate elementary physical education program. Admission to TEP required.
Prerequisites: KIN 136 [Min Grade: C] or PE 136 [Min Grade: C] or KIN 305 [Min Grade: C] or MA 110 [Min Grade: C] or MA 116 [Min Grade: C] (Can be taken Concurrently) or MA 125 [Min Grade: C] or MA 126 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C]

KIN 320. Fitness/Motor Skill Acquisition. 3 Hours.
Acquire the knowledge and the skills necessary to analyze and appropriately teach motor skills and design developmentally appropriate fitness activities for adolescents applicable to all physical activity settings (school and recreation). Admission to TEP required.
Prerequisites: KIN 136 [Min Grade: C] or PE 136 [Min Grade: C] or KIN 305 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 126 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C]

KIN 320L. Sports Skill Proficiency. 1 Hour.
This course will enable candidates to acquire the knowledge and the skills necessary to teach the critical elements needed to perform all basic sport skills. Candidates will demonstrate skill proficiency in the sport skills as well as the ability to teach others to perform the skills. Concurrent Enrollment in Fitness/Motor Skill Acquisition required. Admission to TEP required.
Prerequisites: KIN 305 [Min Grade: C] or PE 305 [Min Grade: C]

KIN 322. Techniques Teaching LIFE Skills in Sec. Schools. 3 Hours.
This course will enable candidates to learn techniques and strategies for teaching LIFE (Lifelong Individualized Fitness Education) skills typically covered in a high school physical education program. Admission to TEP required.

KIN 323. Techniques Teaching LIFE Skills in Sec. Schools. 3 Hours.
This course will enable candidates to learn techniques and strategies for teaching LIFE (Lifelong Individualized Fitness Education) skills typically covered in a high school physical education program. Admission to TEP required.

KIN 340. Planning/Management of Fitness Facilities. 3 Hours.
Management, marketing, operational leadership, evaluation, and planning principles of commercial, corporate, clinical, and community health/fitness facilities.
Prerequisites: KIN 136 [Min Grade: C] or PE 136 [Min Grade: C] and (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 400. Physiology of Exercise. 4 Hours.
Knowledge of acute and chronic physiological adaptions in response to a wide-range of exercise conditions. Includes clinical laboratory experiences.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or HPE 200 [Min Grade: C])

KIN 402. Basic Athletic Training. 2 Hours.
Knowledge and skills in organization and administration, mechanisms of injury, recognition and evaluation of injuries, injury management, general nutritional concerns, medical conditions and taping and bracing techniques.
Prerequisites: BY 115 [Min Grade: C] (Can be taken Concurrently) and KIN 136 [Min Grade: C] (Can be taken Concurrently) or PE 136 [Min Grade: C] and (KIN 307 [Min Grade: C] or PE 307 [Min Grade: C])

KIN 403. Basic Therapy Management of Sports Injuries. 3 Hours.
Use of modalities and rehabilitation techniques to return injured athlete to athletic participation. Practical experience in the therapeutic management of sports injuries.
Prerequisites: KIN 402 [Min Grade: C] or PE 402 [Min Grade: C]

KIN 405. Sports Nutrition. 3 Hours.
Overview of current research on sources, functions, digestion, absorption and metabolism of nutrients and ergogenic aids relative to the athlete over the life cycle. HE 141 and NTR 222 strongly recommended.
Prerequisites: BY 116 [Min Grade: C]

KIN 407. Coaching Young Athletes. 3 Hours.
Acquire knowledge and understanding of the principles of coaching regarding sport psychology, sport pedagogy, sport physiology, and sports management.

KIN 409. Assessment in Physical Education. 3 Hours.
This course emphasizes the development, implementation, and analysis of assessments within K-12 physical education programs, including assessment of the cognitive, physical, and psychomotor domains including program assessment.
Prerequisites: KIN 320 [Min Grade: C] or PE 320 [Min Grade: C]

KIN 440. Principles of Conditioning the Athlete. 3 Hours.
Isometric, isotonic, negative, variable resistance, and isokinetic training; tapering of athlete; constructing weight training programs; techniques of various types of exercise and weight training for specific sports.
Prerequisites: BY 115 [Min Grade: C] and (KIN 400 [Min Grade: C] or PE 400 [Min Grade: C])

KIN 450. Physical Activity for Individuals with Disabilities/SL. 3 Hours.
Knowledge and skills needed to meet the unique fitness and physical activity needs of individuals with various disabilities. Design and implementation of personal training/fitness programs and disability sports/recreation programs for individuals with disabilities based on assessments of health-related strengths and needs. This is a designated service-learning course integrating academic learning, civic learning, and meaningful service to the community.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or HPE 200 [Min Grade: C])
KIN 451. Physical Activity for Senior Adults. 3 Hours.
Knowledge and skills needed to be a leader of exercise, dance, and fitness for older adults.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 460. Clinical Exercise Physiology. 3 Hours.
The use of exercise as a form of treatment and prevention of chronic disease.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 470. Advanced Treatment Athletic Training. 3 Hours.
Seminar in treatment and prevention.
Prerequisites: KIN 402 [Min Grade: C] or PE 402 [Min Grade: C]

KIN 485. Exercise Testing/Prescription. 3 Hours.
Knowledge and skill needed to perform pre-exercise health risk and physical fitness assessments interpret results and develop exercise prescriptions to apparently healthy individuals and individuals with medically controlled diseases (based on 'American College of Sports Medicine' guidelines). This course also includes a high level of review of exercise physiology and applied kinesiology, and application of behavioral and motivational strategies to support clients in adopting and maintaining healthy lifestyle behaviors.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C] and (HE 140 [Min Grade: C] or CHHS 140 [Min Grade: C]) and (KIN 307 [Min Grade: C] or PE 307 [Min Grade: C]) and (KIN 400 [Min Grade: C] or PE 400 [Min Grade: C])

KIN 489. Instructional Strategy for Physical Education K-12. 6 Hours.
Various teaching methods and materials suitable for use in elementary (P-6) and secondary physical education (middle, junior high, or senior high) schools. Opportunities to apply methods and materials while working with elementary and secondary school students.
Prerequisites: KIN 320 [Min Grade: C] or PE 320 [Min Grade: C]

KIN 492. Special Projects in Kinesiology. 1-6 Hour.
Designed as an independent study for students who wish to conduct an in-depth investigation into a physical education related topic.

KIN 493. Problems in Kinesiology. 3-6 Hours.
Provides students with current information regarding a selected physical education related issue. Classes taught under this course title are outside the current physical education program requirements.

KIN 495. Elementary/Secondary Physical Education Student Teaching. 9 Hours.
Capstone experience including observation and teaching of physical education to attain grades P-12 Alabama certification.

KIN 496. Physical Education Internship Seminar. 3 Hours.
Supports and extends efforts of student teaching. Problem solving related to situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

KIN 499. Fitness Internship. 3-6 Hours.
Takes place in a setting that is related to the degree and major area of emphasis and serves as the culminating experience of the formal education process. Students complete their internship hours with guidance from their agency supervisor.
Prerequisites: (KIN 485 [Min Grade: C] or PE 485 [Min Grade: C]) and (KIN 136 [Min Grade: C] or PE 136 [Min Grade: C]) and (KIN 400 [Min Grade: C] or PE 400 [Min Grade: C]) and (KIN 307 [Min Grade: C] or PE 307 [Min Grade: C])

LCB-FLC in Business

Courses

LCB 101. Dollars and Sense/SL. 3 Hours.
This anchor course will take a practical approach to introducing students to the very real issue of managing their finances in the college environment by engaging them in creating a lifetime financial plan as well as participating in a service learning project. Topics of this course include financial literacy and the mathematics of money. This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.

LCB 102. Roadmap Professional Succes. 3 Hours.
What is professionalism? What does it mean to be a professional? This course will use your experiences and define these difficult terms together. Then explore many aspects of professionalism including ethical decision making, communication, creative thinking, emotional intelligence, and expectations of professional standards. You will learn by practicing and helping others, guest speakers, readings, class discussions, and a variety of other learning tools. Open to all majors, this course is designed to help you now as you go through school and build your resume as well as after graduation as you BECOME a professional.

LCB 103. I Lead: Access Ldshp Potential. 3 Hours.
This anchor course will examine qualities of effective leaders and how leadership skills can affect everything from your personal relationships to your career development. Students will develop their own leadership goals and show specific plans to achieve these goals. Self assessment tools will be used in this course to help students identify what type of leadership qualities and characteristics they have.

LCB 104. Soc Media & Innovation in BUS. 3 Hours.
This anchor course will examine how social media can be used in innovative ways to promote successful business practices. Students will study the world of social media, how it affects consumer behavior, ethical considerations for businesses, and how technology has changed traditional business practices in a very short time.

LCB 105. Consumers Beware. 3 Hours.
This anchor course will examine how marketing strategies target different groups of consumers to influence their buying behavior. What are companies trying to get you to buy and are their methods successful? Students will look at marketing theories, research, consumer psychology, ethics, and current practices in business.

LCB 106. Global Perspective. 3 Hours.
This FLC will examine how understanding the global marketplace will be essential for students in the 21st century. This FLC is designed to start students on a path to develop a perspective that appreciates the complexities of international culture and business.

LCB 107. Developing the Leader Within. 3 Hours.
This course will examine qualities of leaders who inspire others to work together to succeed. The role of leadership in personal and professional development will be explored. Through self-assessment, students will learn to recognize their individual strengths and opportunities for improvement as leaders. Students will develop their own leadership goals and show specific plans to achieve these goals.
Ling-Linguistics Courses

Courses

LING 221. Introductory Descriptive Linguistics. 3 Hours.
Description and analysis of non-Western languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 260. Language and Culture. 3 Hours.
Nonverbal communication; language origins and acquisition;
universaliz; language classification and processes of change; language
as expression of cultural values and social structures; beginning
componental and structural analysis.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 350. Introduction to Linguistics. 3 Hours.
Introduction to the scientific study of language with a main focus on
principles underlying phonology, morphology, syntax and semantics.
Relationship between language society, psycholinguistics and language
philology may also be addressed.
Prerequisites: EH 301 [Min Grade: C]

LING 351. Structure of English. 3 Hours.
Description and analysis of present-day English grammar with particular
attention paid to the structure of phrases, clauses and sentences,
including parts of speech, coordination, subordination, tense, aspect,
voice, grammatical functions, agreement and clause types.
Prerequisites: EH 201 [Min Grade: C]

LING 352. The Structure of English Words. 3 Hours.
Introduction to English vocabulary elements and word formation,
including topics in history of English and sound patterns as these topics
relate to word formation. Does not count as literature for Core Curriculum
requirement.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 355. Introduction to Sociolinguistics. 3 Hours.
Social factors that play role in language usage and learning; emphasis on
American English.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 356. Semantics. 3 Hours.
Meaning in language with reference to questions of synonymy, ambiguity,
and language use.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 360. Phonology. 3 Hours.
Sound patterning of languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 393. Special Topics in Linguistics. 3 Hours.
See class schedule for topic.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 450. Advanced Grammar. 3 Hours.
Present-day English grammar.
Prerequisites: EH 250 [Min Grade: C] or EH 251 [Min Grade: C]

LING 451. Generative Grammar. 3 Hours.
Introduction to Chomskian linguistic theory. Knowing a language involves
knowing an intricate set of rules; this course gives one approach to
modeling this linguistic knowledge.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 452. Grammar and Usage for English Teachers. 3 Hours.
Overview of English grammar and usage, focusing on those topics
that are presented in the classroom. Topics will include the difference
between prescriptive and descriptive grammar, parts of speech, types
of verbs, grammatical functions, agreement, sentence structure, tense,
aspect, voice, finite clauses, nonfinite clauses, clause types. Focus also
Reed-Kellogg sentence diagramming.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 453. History of the English Language. 3 Hours.
Overview of language evolution from Proto-Indo European to modern
English dialects, including phonological shifts, dialectical distinctions,
language families, and orthographical and syntactical changes.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 454. The Biology of Language. 3 Hours.
Vocal tract and neuroanatomical specializations for language, language
acquisition, genetic language disorders, language and other primates,
and evolution of language.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 466. Computational Linguistics. 3 Hours.
Computational Linguistics.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 493. Special Topics in Linguistics. 3 Hours.
See class schedule for topic.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 494. Special Problems in Linguistics. 3 Hours.
Supervised in-depth study of specified topic area in linguistics. Topics
determined by student and instructor interest.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 495. Special Problems in Linguistics. 3 Hours.
Supervised in-depth study of specified topic area in linguistics. Topics
determined by student and instructor interest.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or
EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LS-Legal Studies Courses

Courses

LS 246. Legal Environment of Business. 3 Hours.
This course is required for all students in the Collat School of Business.
Students acquire a general knowledge of the legal environment of
business.
MA-Mathematics Courses

department chair required.

languages other than those commonly taught at UAB. Permission of

Individualized course of directed readings and activities for students of

the Portuguese-speaking societies in which the works were produced.

Overview of a rotating selection of genres, text, authors, and regions of

the Lusophone World. Focus on the relevant questions of genre and on

Selections in translation from major Portugues or Brazillian writers.

LT 430. Brazilian or Portuguese Literature in English Translation. 3

produced.

genre and on the Spanish-speaking societies in which the works were

regions of the Hispanic World. Focus on the relevant questions of genre

Selections in translation from major Spanish or Hispano-American

LT 427. Spanish and/or Spanish- American Literature in English. 3

Arithmetic of integers, rational numbers, real numbers, exponents,
polynomial algebra, factoring, rational functions, linear and quadratic
equations, elementary geometry, verbal problems. Designed to prepare
students for college level math courses. Attendance at the first day of
class is mandatory. Attendance at the first lab meeting is mandatory.
MA 098 section QL is an on-line version of MA 098 and is intended
primarily for students who have job conflicts or live a long distance from
the campus. There are no campus based meetings with the on-line class.
However, students in the on-line version of MA 098 are required to interact
with peers and the instructor through an on-line format and should be able to
work independently and be motivated self-starters who are confident in their
ability to master mathematics. Non-credit; does not contribute to any
degree requirements. 0.000 Credit Hours.

MA 098. Basic Algebra. 3 Hours.

MA 102. Intermediate Algebra. 3 Hours.

Absolute values, Cartesian coordinates, graphs of linear equations,
concept of a function, linear systems, algebra of polynomials, factoring
of polynomials, algebra of rational expressions, literal equations, word
problems involving linear, rational and quadratic models, integer and
rational exponents, radical expressions, rational, radical and quadratic
equations, complex numbers. Consists of one, mandatory, scheduled
50 minute lecture per week, plus one, mandatory, scheduled 50 minute
lab meeting per week, plus 50 minutes of individually scheduled lab time
per week. Quantitative Literacy is a significant component of this course.
MA 102 section QL is an on-line version of MA 102 and is intended
primarily for students who have job conflicts or live a long distance from
the campus. There are no campus based meetings with the on-line class.
However, students in the on-line version of MA 102 are required to
interact with peers and the instructor through an on-line format and
should be able to work independently and be motivated self-starters who
are confident in their ability to master mathematics.

Prerequisites: MA 098 [Min Grade: P] or (A02 20 and HSCG 2.50) or
A02 21 or (S02 480 and HSCG 2.50) or S02 500 or MAAD 15 or MA1
085 or MA 098 [Min Grade: C] or (SAT2 510 and HSCG 2.50) or SAT2
530

LT-Foreign Literature English Courses

Courses

LT 420. World Literature I. 3 Hours.

Selections in translation from Greek, Latin, and Hebrew classics as well
as other world literature, and from oral tradition.

LT 421. World Literature II. 3 Hours.

Selections in translation from world writers. Overview of a rotating
selection of genres, texts, author, societies and regions of the world.

LT 425. French Literature in English Translation. 3 Hours.

Selections in translation from major Francophone writers. Overview of
a rotating selection of genres texts and authors. Focus on the relevant
questions of genre and on the French-speaking societies in which the
works were produced.

LT 426. German Literature in English Translation. 3 Hours.

Selections in translation from major Spanish or Hispano-American
writers. Overview of rotating selection of genres, texts, authors, and
regions of the Hispanic World. Focus on the relevant questions of genre
and on the German-speaking society in which the works were produced.

LT 427. Spanish and/or Spanish- American Literature in English. 3
Hours.

Selections in translation from major Spanish or Hispano-American
writers. Overview of a rotating selection of genres, texts, authors and
regions of the Hispanic World. Focus on the relevant questions of genre
and on the Spanish-speaking societies in which the works were produced.

LT 430. Brazilian or Portuguese Literature in English Translation. 3
Hours.

Selections in translation from major Portugues or Brazilian writers.
Overview of a rotating selection of genres, text, authors, and regions of
the Lusophone World. Focus on the relevant questions of genre and on
the Portuguese-speaking societies in which the works were produced.

LT 431. Individual Studies. 1-3 Hour.

Individualized course of directed readings and activities for students of
languages other than those commonly taught at UAB. Permission of
department chair required.

MA-Mathematics Courses
MA 105. Pre-Calculus Algebra. 3 Hours.
Functions from algebraic, geometric (graphical), and numerical points of view, including polynomial, rational, logarithmic, and exponential functions; inverse functions; systems of equations and inequalities; quadratic and rational inequalities; complex and real roots of polynomials; applications and modeling, both scientific and business. Supports development of quantitative literacy. Consists of one scheduled 50 minute lecture per week, plus one 50 minute scheduled lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. May not be enrolled in Undergraduate Certificate. Lecture, online at least 80%. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 102 [Min Grade: C] or (A02 22 and HSCG 3.50) or (A02 23 and HSCG 3.00) or (A02 24 and HSCG 2.50) or (S02 520 and HSCG 3.50) or (S02 540 and HSCG 3.00) or (S02 560 and HSCG 2.50) or S02 580 or MAAD 21 or MA2 080 or A02 25 or (SAT 2 550 and HSCG 3.50) or (SAT2 570 and HSCG 3.00) or (SAT 2 580 and HSCG 2.50) or SAT2 600

MA 106. Pre-Calculus Trigonometry. 3 Hours.
Trigonometric functions (circular functions) and their inverses, graphs, and properties; right triangle trigonometry and applications; analytical trigonometry, trigonometric identities and equations; polar coordinates; complex numbers; laws of sines and cosines; conic sections. Supports development of quantitative literacy. Consists of one scheduled 50 minute lecture per week, plus one 50 minute scheduled lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 105 [Min Grade: C] or (A02 25 and HSCG 3.50) or (A02 26 and HSCG 3.00) or (A02 27 or (S02 580 and HSCG 3.50) or (S02 600 and HSCG 3.00) or S02 620 or MAC1 17 or MA3 080 or (SAT 2 600 and HSCG 3.50) or (SAT 2 620 and HSCG 3.00) or SAT2 640

MA 107. Pre-Calculus Algebra and Trigonometry. 4 Hours.
Functions, their graphs and applications, including polynomial, rational, algebraic, exponential, logarithmic, and trigonometric functions. A fast-paced course designed as a review of the algebra and trigonometry needed in calculus. (MA107 is a combination of MA105 Pre-Calculus Algebra and MA106 Pre-Calculus Trigonometry taught in a single semester.) Satisfies core curriculum requirement in mathematics. Supports development of quantitative literacy. Consists of two scheduled 50 minute lectures per week, plus one 50 minute scheduled lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 102 [Min Grade: B] or (A02 24 and HSCG 3.50) or (A02 25 and HSCG 3.00) or (A02 26 and HSCG 2.50) or A02 27 or MAAD 21 or MA4 085 or (S02 560 and HSCG 3.50) or (S02 580 and HSCG 3.00) or (S02 600 and HSCG 2.50) or S02 620 or (SAT 2 580 and HSCG 3.50) or (SAT 2 600 and HSCG 3.00) or (SAT 2 620 and HSCG 2.50) or SAT2 640

MA 110. Finite Mathematics. 3 Hours.
An overview of topics of finite mathematics and applications of mathematics for the liberal arts student. Topics include counting, permutations, combinations, basic probability, conditional probability, descriptive statistics, binomial and normal distributions, statistical inference, and additional selected topics. Students construct models of problem situations, translate verbal descriptions into mathematical form, interpret and create schematic representations of mathematical relationships, use quantitative evidence as a basis for reasoning, argument, and drawing conclusions, and communicate their results to an audience appropriately. May not be enrolled in Undergraduate Certificate. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 094 [Min Grade: C] or MA 098 [Min Grade: C] or MA 102 [Min Grade: C] or (A02 20 and HSCG 2.00) or A02 21 or (S02 480 and HSCG 2.00) or S02 500 or MAAD 15 or MA1 085 or (SAT 2 510 and HSCG 2.00) or SAT2 530

MA 120. Introduction to Symbolic Logic. 3 Hours.
Modern theory of deductive inference. Emphasis on recognizing valid forms of reasoning. Truth-function theory and some concepts of one-variable quantification theory. May not be used to satisfy Core Curriculum requirement in mathematics.

MA 125. Calculus I. 4 Hours.
Limit of a function; continuity, derivatives of algebraic, trigonometric exponential, and logarithmic functions, application of derivative to extremal problems, optimization, and graphing; Newton method; the definite integral and its application to area problems; fundamental theorem of integral calculus, average value, and substitution rule. Quantitative literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or (A02 25 and HSCG 3.50) or (A02 26 and HSCG 3.00) or (A02 27 or (S02 580 and HSCG 3.50) or (S02 600 and HSCG 3.00) or S02 620 or MAC2 16 or (S02 600 and HSCG 3.50) or (SAT 2 620 and HSCG 3.00) or SAT2 640

MA 126. Calculus II. 4 Hours.
Techniques of integration; applications in integration such as volume, arc length and work; infinite series, Taylor series; polar coordinates; parametric equations; plane and space vectors; lines and planes in space. Quantitative Literacy is a significant components of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 180. Introduction to Statistics. 3 Hours.
Descriptive and inferential statistics, probability distributions, estimation, hypothesis testing. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 224. Intermediate Symbolic Logic. 3 Hours.
Full development of quantification theory, including identity and definite description, and soundness and completeness proofs. Skill in formal proof emphasized, as well as ability to express arguments from natural language in artificial language.
Prerequisites: MA 120 [Min Grade: C] or PHL 220 [Min Grade: C]
MA 225. Calculus I - Honors. 4 Hours.
Limit of a function; continuity, derivatives of algebraic, trigonometric, exponential, and logarithmic functions, application of derivative to extremal problems, optimization, and graphing; Newton method; the definite integral and its application to area problems; fundamental theorem of integral calculus, average value, and substitution rule. Students will be required to display an in-depth understanding of these topics through a complete justification of their work on tests and through participation in class projects. Quantitative literacy is a significant component of this course.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or (A02 25 and HSCG 3.50) or (A02 25 and HSCG 3.50) or A02 27 or (S02 580 and HSCG 3.50) or (S02 600 and HSCG 3.00) or MAC2 16 or MA5 080

MA 226. Calculus II - Honors. 4 Hours.
Techniques of integration; applications in integration such as volume, arc length and work; infinite series, Taylor series; polar coordinates; parametric equations; plane and space vectors; lines and planes in space. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 225 [Min Grade: C] or MA 125 [Min Grade: C]

MA 227. Calculus III. 4 Hours.
Vector functions, functions of two or more variables, partial derivatives, quadric surfaces, multiple integration and vector calculus, including Greens Theorem, curl and divergence, surface integrals, and Gauss' and Stokes’ Theorem. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 252. Introduction to Differential Equations. 3 Hours.
First order differential equations (separable, linear, exact, and additional non-linear examples using MAPLE), modeling with first order DE’s, examples of systems of first order DE’s, theory of higher order linear DE’s (homogeneous and non-homogeneous, superposition of solutions, linear independence and general solutions, initial and boundary value problems), solution of constant coefficient homogeneous linear equations, variation of parameters and Green’s functions with complicated cases done using MAPLE. Modeling projects in the course will emphasize the use of MAPLE to do the heavy lifting. Quantitative Literacy and Writing are significant components of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 260. Introduction to Linear Algebra. 3 Hours.
Linear equations and matrices; real vector spaces, basis, diagonalization, linear transformations; determinants, eigenvalues, and eigenvectors; inner product spaces, matrix diagonalization; applications and selected additional topics. MA 260 and MA 434 may not both be counted toward the major or minor. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 265. Math Tools for Engineering Problem Solving. 4 Hours.
An applied mathematics course designed to utilize the terminology and problem-solving approaches inherent to engineering, while completing the mathematical preparation of most engineering students. This course includes elements of MA 227 and MA 252.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 268. Introduction to Mathematical Biology. 3 Hours.
This course, designed at the interface of several disciplines, targets undergraduate students in biology, mathematics, and engineering. We will review the biology of problems that arise in nature and medicine and study the mathematics that allows us to tackle these problems. This course serves as an introduction, by example, to multivariable calculus, discrete and continuous differential equations in one or more variables, vectors, matrices, linear and non-linear dynamical systems, and basic concepts of chaos. Biological topics may include single species and interacting population dynamics, modeling infectious and dynamic diseases, regulation of cell function, molecular interactions and receptor-binding, biological oscillators, and an introduction to biological pattern formation. There will also be discussions of current topics of interest such as tumor growth and angiogenesis, HIV and AIDS, and control of the mitotic clock.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 298. Research in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics. Freshman or sophomore standing recommended.
Prerequisites: Permission of instructor.

MA 311. History of Mathematics I. 3,4 Hours.
Development of mathematical principles and ideas from an historical viewpoint, and their cultural, educational and social significance.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 312. History of Mathematics II. 3 Hours.
Development of mathematical principles and ideas from an historical viewpoint, and their cultural, educational and social significance.
Prerequisites: MA 311 [Min Grade: C]

MA 313. Patterns, Functions and Algebraic Reasoning. 3 Hours.
Problem solving experiences, inductive and deductive reasoning, patterns and functions, some concepts and applications of geometry for elementary and middle school teachers. Topics include linear and quadratic relations and functions and some cubic and exponential functions. Number sense with the rational number system including fractions, decimals, and percents will be developed in problem contexts. An emphasis will be on developing algebraic thinking and reasoning.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 314. Geometric and Proportional Reasoning. 3 Hours.
Problem solving experiences, inductive and deductive reasoning, concepts and applications of geometry and proportional reasoning. Topics include analysis of one-, two- and three-dimensional features of real objects, ratio and proportionally, similarity, and congruence, linear, area, and volume measurement, and the development of mathematically convincing arguments. An emphasis will be on developing geometric and proportional thinking and reasoning.
Prerequisites: MA 313 [Min Grade: C]

MA 315. Probabilistic and Statistical Reasoning. 3 Hours.
Descriptive and inferential statistics, probability, estimation, hypothesis testing. Reasoning with probability and statistics is emphasized.
Prerequisites: MA 313 [Min Grade: C]
MA 316. Numerical Reasoning. 3 Hours.
Develop an understanding of number and improve numerical reasoning skills specifically with regard to place value, number relationship that build fluency with basis facts, and computational proficiency; developing a deep understanding of numerous diverse computational algorithms; mathematical models to represent fractions, decimals and percents, equivalencies and operations with fractions, decimals and percents; number theory including order of operations, counting as a big idea, properties of number, primes and composites, perfect, abundant and significant numbers, and figurate numbers; inductive and deductive reasoning with number.
Prerequisites: MA 313 [Min Grade: C]

MA 317. Extending Algebraic Reasoning. 3 Hours.
Extension of algebraic and functional reasoning to polynomials, rational, exponential, and logarithmic functions; problem-solving involving transfer among representations (equation, graph, table); proof via symbolic reasoning, contradiction, and algorithm; interpretation of key points on graphs (intercepts, slope, extrema); development of facility and efficiency in manipulating symbolic representations with understanding; appropriate use of technology and approximate versus exact solutions; functions as models.
Prerequisites: MA 313 [Min Grade: C]

MA 360. Scientific Programming. 3 Hours.
Programming and mathematical problem solving using Matlab, Python, FORTRAN or C++. Emphasizes the systematic development of algorithms and numerical methods. Topics include computers, floating point arithmetic, iteration, GNU/Linux operating system, functions, arrays, Matlab graphics, image processing, robotics, solving linear systems and differential equation arising from practical situations, use of debuggers and other debugging techniques, and profiling; use of callable subroutine packages like LAPACK and differential equation routines; parallel programming. Assignments and projects are designed to give the students a computational sense through complexity, dimension, inexact arithmetic, randomness, simulation and the role of approximation.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 361. Mathematical Modeling. 3 Hours.
Mathematical modeling using computer software, including spreadsheets, systems dynamics software, and computer algebra systems; connections to calculus and functions are emphasized. Students make presentations to the class; justification of mathematical claims and quality of student presentations are assessed. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 398. Research in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Junior standing recommended. Permission of instructor required.

MA 411. Integrating Mathematical Ideas. 3 Hours.
This course will integrate ideas from algebra, geometry, probability, and statistics. Emphasis will be on using functions as mathematical models, becoming fluent with multiple representations of functions, and choosing the most appropriate representations for solving a specific problem. Students will be expected to communicate mathematics verbally and in writing through small group, whole group, and individual interactions.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C] and MA 314 [Min Grade: C] (Can be taken Concurrently) or MA 316 [Min Grade: C]

MA 418. Statistics for Teachers. 3 Hours.
Descriptive and inferential statistics, probability distributions, estimation, hypotheses testing, regression. Writing assignment on a project drawing from the above topics. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 419. Special Topics. 1-4 Hour.
Topics vary; may be repeated for credit.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 434. Algebra I: Linear. 3 Hours.
Abstract vector spaces, subspaces, dimension bases, linear transformations, matrix algebra, matrix representations of linear transformations, determinants. MA 260 and MA 434 may not both be counted toward the minor.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 435. Algebra II: Modern. 3 Hours.
Rings, including the rings of integers and of polynomials, integral domains, fields and groups. Homomorphism, isomorphism. As time permits, Galois theory, semi-groups, quotient groups, models, or other areas of algebra may be included. Students present proofs from a list of pre-assigned theorems to the class. Logical correctness and proper mathematical proof-writing style are assessed.
Prerequisites: MA 434 [Min Grade: C] or MA 260 [Min Grade: C]

MA 440. Advanced Calculus I. 3 Hours.
Real numbers, sequences and series, continuity, differential and integral calculus, exponential and logarithm functions, sine and cosine functions. Students present proofs from a list of pre-assigned theorems to the class. Written versions of the proofs are posted for easy access in subsequent proofs. Logical correctness and proper mathematical proof-writing style are assessed. Writing and Quantitative Literacy are significant components of the course.
Prerequisites: MA 227 [Min Grade: C]

MA 441. Advanced Calculus II. 3 Hours.
Real numbers, sequences and series, continuity, differential and integral calculus, exponential and logarithm functions, sine and cosine functions. Students present proofs from a list of pre-assigned theorems to the class. Written versions of the proofs are posted for easy access in subsequent proofs. Logical correctness and proper mathematical proof-writing style are assessed. Writing and Quantitative Literacy are significant components of the course.
Prerequisites: MA 440 [Min Grade: C]

MA 444. Vector Analysis. 3 Hours.
Review and application of multiple integrals; Jacobians and change of variables in multiple integrals; line and surface integrals; Green, Gauss, and Stokes theorems, with applications to physical sciences and computation in spherical and cylindrical coordinates.
Prerequisites: MA 227 [Min Grade: C]

MA 445. Complex Analysis. 3 Hours.
Analytic functions, complex integration and Cauchys theorem, Taylor and Laurent series, calculus of residues and applications, conformal mappings.
Prerequisites: MA 227 [Min Grade: C]

MA 453. Transforms. 3 Hours.
Theory and applications of Laplace and Fourier transforms.
Prerequisites: MA 252 [Min Grade: C]
MA 454. Intermediate Differential Equations. 3 Hours.
Topics from among Frobenius series solutions, Sturm-Liouville systems, nonlinear equations, and stability theory.
Prerequisites: MA 252 [Min Grade: C]

MA 455. Partial Differential Equations I. 3 Hours.
Classification of second order partial differential equations; background on eigenfunction expansions and Fourier series; integrals and transforms; solutions of the wave equations, reflection of waves; solution of the heat equations in bounded and unbounded media; Laplace's equation, Dirichlet and Neumann problems. Written project reports required. Quantitative Literacy and Writing are significant components of this course.
Prerequisites: MA 252 [Min Grade: C]

MA 456. Partial Differential Equations II. 3 Hours.
Classification of second order partial differential equations; background on eigenfunction expansions and Fourier series; integrals and transforms; solution of the wave equations, reflection of waves; solution of the heat equation in bounded and unbounded media; Laplace's equation, Dirichlet and Neumann problems.
Prerequisites: MA 455 [Min Grade: C]

MA 461. Modeling with Partial Differential Equations. 3 Hours.
Practical examples of partial differential equations; derivation of partial differential equations from physical laws; introduction to MATLAB and its PDE Tool-box, and COMSOL using practical examples; an overview of finite difference and finite element solution methods; specialized modeling projects in topics such as groundwater modeling, scattering of waves, medical and industrial imaging, continuum mechanics and deformation of solids, Fluid mechanics including the class boat race, financial derivative modeling, and acoustic and electromagnetic wave applications. Written project reports required for all homework assignments. Quantitative Literacy and Writing are significant components of this course.
Prerequisites: MA 252 [Min Grade: C]

MA 462. Intro to Stochastic Differential Equations. 3 Hours.
Stochastic differential equations arise when random effects are introduced into the modeling of physical systems. Topics include Brownian motion and Wiener processes, stochastic integrals and the Ito calculus, stochastic differential equations, and applications to financial modeling, including option pricing.
Prerequisites: MA 485 [Min Grade: C]

MA 463. Operations Research I. 3 Hours.
Mathematical techniques and models with application in industry, government and defense. Topics usually chosen from dynamic, linear, and nonlinear programming; decision theory; Markov chains; queuing theory; inventory control; simulation; network analysis; and selected case studies.
Prerequisites: MA 227 [Min Grade: C]

MA 464. Operations Research II. 3 Hours.
Mathematical techniques and models with application in industry, government, and defense. Topics usually chosen from dynamic, linear, and nonlinear programming; decision theory; Markov chains; queuing theory; inventory control; simulation; network analysis; and selected case studies.
Prerequisites: MA 463 [Min Grade: C]

Review of difference methods for ordinary differential equations, including Runge-Kutta, multi-step, adaptive stepping, and stiffness; finite difference versus finite element; elliptic boundary value problems, iterative solution methods, self-adjoint elliptic problems; parabolic equations, including consistency, stability, and convergence, Crank-Nicolson method, method of lines; first order hyperbolic systems and characteristics, Lax-Wendroff schemes, method of lines for hyperbolic equations.
Prerequisites: MA 360 [Min Grade: C] and MA 455 [Min Grade: C]

MA 467. Gas Dynamics. 3 Hours.
Euler's equations for inviscid flows, rotation and vorticity, Navier-Stokes equations for viscous flows, hyperbolic equations and characteristics, rarefaction waves, shock waves and entropy conditions, the Riemann problem for one-dimensional gas flows, numerical schemes.
Prerequisites: MA 252 [Min Grade: C] and MA 360 [Min Grade: C]

MA 468. Numerical Analysis. 3 Hours.
Prerequisites: MA 227 [Min Grade: C] or MA 252 [Min Grade: C]

MA 469. Numerical Analysis II. 3 Hours.
Prerequisites: MA 468 [Min Grade: C]

MA 470. Differential Geometry I. 3 Hours.
Theory of curves and surfaces: Frenet formulas for curve, first and second fundamental forms of surface; global theory; abstract surfaces, manifolds, Riemannian geometry.
Prerequisites: MA 125 [Min Grade: C] or MA 226 [Min Grade: C]

MA 471. Differential Geometry II. 3 Hours.
Theory of curves and surfaces: Frenet formulas for curve, first and second fundamental forms of surface; global theory; abstract surfaces, manifolds, Riemanian geometry.
Prerequisites: MA 470 [Min Grade: C]

MA 472. Geometry I. 3 Hours.
The axiomatic method; Euclidean geometry including Euclidean constructions, basic analytic geometry, transformational geometry, and Klein’s Erlangen Program. Students present proofs from a list of pre-assigned theorems to the class. Logical correctness and proper mathematical proof-writing style are assessed.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 473. Geometry II. 3 Hours.
Analytical geometry, Birkhoff’s axioms, and the complex plane; structure and representation of Euclidean isometries; plane symmetries; non-Euclidean (hyperbolic) geometry and non-Euclidean transformations; fractal geometry; algorithmic geometry. Course integrates intuition/ exploration and proof/ explanation.
Prerequisites: MA 472 [Min Grade: C] and (MA 260 [Min Grade: C] or MA 434 [Min Grade: C])

MA 474. Introduction to Topology I. 3 Hours.
Essence and consequences of notion of continuous function developed. Topics include metric spaces, topological spaces, compactness, connected-ness, and separation.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]
MA 475. Introduction to Topology II. 3 Hours.
Essence and consequences of notion of continuous function developed.
Topics include metric spaces, topological spaces, compactness,
connectedness, and separation.
Prerequisites: MA 474 [Min Grade: C]

MA 480. Introduction to Statistics. 3 Hours.
Descriptive and inferential statistics, probability distributions, estimation,
and hypothesis testing. Recommended that two years of high school algebra
or MA 102 has been completed before taking course.

MA 484. Mathematical Finance. 3 Hours.
The notion of no arbitrage. Interest, compounding, bonds. Review of
mean, variance, and covariance. Portfolio management: risk and return.
Forwards and Futures. Put-call parity. Martingales and conditional
expectation. The binomial model. Fundamental theorems of asset pricing.
Brownian motion (heuristics). Ito's formula and Girsanov's theorem
(heuristics). The Black-Scholes-Merton formula. Interest rates. The
binomial model for stochastic interest rates.
Prerequisites: (MA 434 [Min Grade: C] or MA 435 [Min Grade: C] or MA
260 [Min Grade: C]) and (MA 485 [Min Grade: C] or MA 585 [Min Grade: C])

MA 485. Probability. 3 Hours.
Probability spaces, combinatorics, conditional probabilities and
independence. Bayes rule, discrete and continuous distributions, mean
value and variance, moment generation function, joint distributions,
correlation, Central Limit Theorem, Law of Large Numbers, random
walks, Poisson process.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 486. Mathematical Statistics. 3 Hours.
Sampling techniques and data analysis, Simulation, Point estimation,
Confidence intervals, Sufficient statistics, Rao-Cramer lower bound,
Tests for binomials, Tests for normals, Goodness-of-fit test, Contingency
tables, Two factor analysis, Regression, Order statistics, Nonparametric
methods: Wilcoxon test, Run test, and Kolmogorov-Smirnov test. A
computer project that involves a written report. Quantitative Literacy and
Writing are significant components of this course.
Prerequisites: MA 485 [Min Grade: C]

MA 490. Mathematics Seminar. 1-3 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
Permission of instructor.

MA 491. Special Topics in Mathematics. 1-3 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics.

MA 492. Special Topics in Mathematics. 1-3 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics.

MA 493. Special Topics in Mathematics. 1-3 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics.

MA 494. Special Topics in Mathematics. 1-6 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics.

MA 495. Special Topics in Mathematics. 1-6 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics.

MA 496. Special Topics in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics.

MA 497. Research Methods in Mathematics. 1-3 Hour.
Through experience in designing and carrying out investigations, learn
how scientists and mathematicians gain knowledge, evaluate scientific
and mathematical claims when they conduct, and design and carry out
investigations to answer new questions. Work is closely coordinated with
the work of students from other content disciplines so that students see
the similarity and differences of research methods in their own field as
compared with those of science and mathematics inquiry as a whole.
Enrollment in UABTeach is required.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 498. Research in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications
of mathematics. May be repeated for credit when topics vary. Prerequisites
vary with topics. Senior standing recommended.

MA 499. Honors Research in Mathematics. 1-12 Hour.
Mentored research in mathematics leading to a written research report
and a public presentation in the form of a talk or poster. Admission
restricted to students admitted to Honors in Mathematics. Permission of
instructor required.

ME-Mechanical Engineering Courses

Courses

ME 011. Coop/Internship in ME. 0 Hours.
Engineering workplace experience in preparation for the student's
intended career.

ME 102. Engineering Graphics. 2 Hours.
Basic concepts in technical sketching, computer-aided drawing and
design, projections, sections, and dimensioning.
Prerequisites: MA 105 [Min Grade: C](Can be taken Concurrently) or
MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min
Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be
taken Concurrently) or MA 225 [Min Grade: C]

ME 103. Drawing, Design and Measurement for Industrial
Distribution. 3 Hours.
Technical sketching and reading of engineering drawings and analysis of
systems involving human performance. For non-engineering majors. Not
available for credit toward engineering major.

ME 215. Dynamics. 3 Hours.
Kinematics of particles in Cartesian, cylindrical, and polar coordinates.
Simple relative motion. Second law application in rectilinear translation.
Projectile motion. Energy and momentum principles for particles and
for rigid bodies in plane motion. Impact and conservation of linear
momentum.
Prerequisites: CE 210 [Min Grade: C]
ME 241. Thermodynamics I. 3 Hours.
Thermodynamic definitions, properties of a pure substance, ideal, and real gases, work, and heat. Fundamental laws of thermodynamics, entropy, reversible cycles, and irreversibility. 
Prerequisites: PH 221 [Min Grade: C] and CH 115 [Min Grade: C] and CH 116 [Min Grade: C] and MA 126 [Min Grade: C] and MA 226 [Min Grade: C] (Can be taken Concurrently) or MA 226 [Min Grade: C] (Can be taken Concurrently)

ME 242. Thermodynamics II. 3 Hours.
Application of thermodynamic principles to engineering systems; vapor power cycles; gas turbine cycles; Otto and Diesel cycles; refrigeration cycles; mixtures of ideal gases; psychrometrics. 
Prerequisites: ME 241 [Min Grade: C] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

ME 251. Introduction to Thermal Sciences. 2 Hours.
Introduction to thermodynamics and heat transfer for non-mechanical engineering majors. 
Prerequisites: (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C]

ME 302. Overview of Mechanical Components. 3 Hours.
An introduction to statics, dynamics, strength of materials, and engineering design. Transformation of energy, thermodynamics, heat transfer, and fluid mechanics. For non-engineering majors. Not available for credit toward engineering major.

ME 309. Hogwarts School of Leadership. 3 Hours.
The Harry Potter book/movie series is full of insights about life matters. They also teach us about how to be better business managers in addressing adversity, success, leadership, and ethics. In this class, we will examine various leadership theories and popular management/leadership books and understand them in terms of the characters and situations presented in the Harry Potter book/movie series. In order to be successful in the course, students should have read most, and preferably all, of the Harry Potter books prior to the beginning of the semester. Being very familiar with all of the movies is also acceptable.

ME 321. Introduction to Fluid Mechanics. 3 Hours.
Fluid properties, fluid statics, fluid in motion (control volume method), pressure variation in flowing fluids (Bernoulli equation), principles of momentum and energy transport, dimensional analysis and similitude, internal flow and external flow. 
Prerequisites: ME 241 [Min Grade: C] and (MA 227 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C]) and CE 210 [Min Grade: C] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

ME 322. Introduction to Heat Transfer. 3 Hours.
Fundamentals of heat transfer and their application to practical problems, including steady and transient heat conduction, external and internal forced convection, natural convection and radiation. 
Prerequisites: ME 321 [Min Grade: C]

ME 360. Introduction to Mechatronic Systems Engineering. 3 Hours.
Prerequisites: ME 215 [Min Grade: C] and ME 364 [Min Grade: C]

ME 361. Thermo-Fluids Systems. 3 Hours.
Pressure, temperature, fluid flow, and heat transfer instrumentation and their application to measurements of mass, heat, and momentum transport, flow characterization, heat engine and refrigeration cycles, and other thermal-fluids experiments. Experimental uncertainty analysis. Writing proficiency is required. ME 361L must be taken concurrently. 
Prerequisites: ME 242 [Min Grade: C] (Can be taken Concurrently) and ME 322 [Min Grade: C] (Can be taken Concurrently)

ME 361L. Thermo-Fluids Systems Laboratory. 0 Hours.
Lab component for ME 361 Thermo-Fluids Systems. ME 361 must be taken concurrently.

ME 364. Linear Algebra and Numerical Methods. 3 Hours.
Linear equations and matrices, real vector bases, matrix decompositions, linear transformations; determinants, eigenvalues, eigenvectors; numerical methods for linear systems of equations, integration, ordinary differential equations; approximation, interpolation, least squares fits. 
Prerequisites: MA 227 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

ME 370. Kinematics and Dynamics of Machinery. 3 Hours.
Displacement, velocity and acceleration analysis, synthesis and design of linkages and mechanisms for various engineering applications on the basis of motion requirements. Static and dynamic force analysis of linkages, balancing of rotors and reciprocating machines. Significant consideration is given to designing geometry of gear sets: spur, helical, worm, and bevel gears. Analysis of planetary gear sets and drivetrains completes the course. Computer workshops support the learning process of main technical components. 
Prerequisites: ME 102 [Min Grade: C] and ME 215 [Min Grade: C]

ME 371. Machine Design. 3 Hours.
Body stress, deflection and fatigue strength of machine components. Failure theories, safety factors and reliability, surface damage. Application to the design of gears, shafts, bearings, welded joints, threaded fasteners, belts and chains, keys, pins, springs, as well as mechanical design and selection of other machine components. Software applications, design projects, and exposure to hardware and systems are used to reinforce concepts. 
Prerequisites: CE 220 [Min Grade: C] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) and ME 215 [Min Grade: C]

ME 405. Manufacturing Processes. 3 Hours.
Processing of metals, glasses, ceramics, and composites. Power processing, casting, welding, rapid solidification, and other advanced methods. 
Prerequisites: MSE 280 [Min Grade: C] and CE 220 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

ME 411. Intermediate Fluid Mechanics. 3 Hours.
Applications of fluid dynamic principles to engineering flow problems such as turbo-machinery flow and one-dimensional compressible flow. Vorticity, potential flow, viscous flow, Navier-Stokes solutions, and boundary layers. 
Prerequisites: ME 321 [Min Grade: C] and ME 364 [Min Grade: C]

ME 421. Introduction to Computational Fluid Dynamics Basics. 3 Hours.
Governing equations for fluid flows, classifications of flow regimes, and approaches to analyze fluid flow problems. Introduction to Computational Fluid Dynamics (CFD), mesh generation, boundary conditions, numerical solution of equations governing fluid flows, and visualization. Hands-on exercises using a commercial CFD solver. 
Prerequisites: ME 321 [Min Grade: C]
ME 430. Vehicular Dynamics. 3 Hours.
Introduction to the fundamentals of mechanics and analytical methods for modeling vehicle dynamics and performance. Topics include tire-road interaction modeling, vehicle longitudinal dynamics and traction performance, lateral dynamics, handling, stability of motion and rollover, as well as contribution of the drivetrain system, steering system and suspension configurations to the dynamics of a vehicle. Software applications, projects, and exposure to hardware and systems are used to reinforce concepts.
Prerequisites: ME 215 [Min Grade: C]

ME 445. Combustion. 3 Hours.
Evaluation of the impact of fuel characteristics and operating conditions on the performance of coal-fired electric utility steam-raising plant and the prospects for continued reliance on coal as fuel for electric power generation. The phenomena emphasized are the behavior of turbulent jets; ignition, devolatilization and combustion of coal particles; radiative heat transfer and the effect of ash deposits on heat transfer; formation of air pollutants and their removal from combustion products; integrated gasification combined cycle; and capture and sequestration of carbon dioxide.
Prerequisites: ME 242 [Min Grade: C] and ME 322 [Min Grade: C]

ME 448. Internal Combustion Engines. 3 Hours.
Fundamentals of reciprocating internal combustion engines: engine types, engine components, engine design and operating parameters, thermo-chemistry of fuel-air mixtures, properties of working fluids, ideal models of engine cycles, engine operating characteristics, gas-exchange processes, fuel metering, charge motion within the cylinder, combustion in spark-ignition and compression ignition engines. Software applications, projects, and exposure to hardware and systems are used to reinforce concepts.
Prerequisites: ME 215 [Min Grade: C] and ME 242 [Min Grade: C]

ME 449. Power Generation. 3 Hours.
Application of thermodynamics, fluid mechanics, and heat transfer to conversion of useful energy. Includes terrestrial and thermodynamic limitations, fossil fuel power plants, renewable energy sources, and direct energy conversion.
Prerequisites: ME 242 [Min Grade: C]

ME 454. Heating, Ventilating and Air Conditioning. 3 Hours.
Fundamentals and practice associated with heating, ventilating, and air conditioning; study of heat and moisture flow in structures, energy consumption, and design of practical systems.
Prerequisites: ME 322 [Min Grade: C]

ME 455. Thermal-Fluid Systems Design. 3 Hours.
Comprehensive design problems requiring engineering decisions and code/Standard compliance. Emphasis on energy system components: piping networks, pumps, heat exchangers. Includes fluid transients and system modeling.
Prerequisites: ME 322 [Min Grade: C]

ME 461. Mechanical Systems. 3 Hours.
This course concentrates on main technical principles and aspects of mechanical systems design. The course also provides fundamental knowledge on test equipment and experimental techniques for experimenting on main technical principles of mechanical design. This course discusses data acquisition systems and signal conditioning, and design of experiments. Writing proficiency is required. ME 461L must be taken concurrently.
Prerequisites: CE 220 [Min Grade: C] and ME 215 [Min Grade: C]

ME 461L. Mechanical Systems Laboratory. 0 Hours.
Lab Component of ME 461 Mechanical Systems. ME 461 must be taken concurrently.

ME 464. Introduction to Finite Element Method. 3 Hours.
Prerequisites: CE 220 [Min Grade: C]

ME 470. Introduction to Continuum Mechanics. 3 Hours.
Fundamentals and application of mechanics principles to problems in continuous media. Matrix and tensor mathematics, fundamentals of stress, kinematics and deformation of motion, conservation equations, constitutive equations and invariance, linear and nonlinear elasticity, classical fluids, linear viscoelasticity.
Prerequisites: EGR 164 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and CE 220 [Min Grade: C]

ME 475. Mechanical Vibrations. 3 Hours.
Prerequisites: (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) or EGR 285 [Min Grade: C] and ME 215 [Min Grade: C]

ME 477. Systems Engineering. 3 Hours.
Exposure to the field of systems engineering, mission design, requirements development, trade studies, project life cycle, system hierarchy, risk analysis, cost analysis, team organization, design fundamentals, work ethics, compare and evaluate engineering alternatives, systems thinking.

ME 478. Automated Manufacturing. 3 Hours.
Introduction to automated manufacturing technology. Components of automated systems (controllers, sensors and actuators) and automated manufacturing sub-systems (3D printer, CNC, robot and computer vision) will be studied in a lecture/lab environment with hands on activities.
Prerequisites: ME 102 [Min Grade: C] and EGR 150 [Min Grade: C]

ME 480. Instrumentation and Measurements. 3 Hours.
Through exploration of fundamental measurement concepts and techniques for data acquisition and validation. Explanation of important selection criteria for the identification and configuration of commercially available data acquisition devices. Students will get hands-on experience following best practices for data acquisition (high speed vs low speed) relevant to their field of study or career. Many types of sensors, their underlying technology, and measurement techniques will be discussed (i.e. accelerometers, load cells, Digital Image Correlation, etc.) to demonstrate best practices for sensor selection for a wide range of specialized applications.

ME 489. Undergraduate Research in Mechanical Engineering. 0 Hours.
Undergraduate research experiences in mechanical engineering.
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) or EGR 100 [Min Grade: C] or EGR 200 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

ME 490. Special Topics in (Area). 1-4 Hour.
Special Topics in (Area).
ME 491. Individual Study in (Area). 1-4 Hour.
Individual Study in (Area).

ME 494. Mechanical Engineering Seminar. 1 Hour.
Required for ME undergraduate Honors Program students. Presentations by students, faculty, and guests regarding current research.

ME 496. Honors Research. 1-6 Hour.
Research opportunities for undergraduate students in the Mechanical Engineering Honors Program.
Prerequisites: EGR 301 [Min Grade: P]

ME 498. Capstone Design Project I. 1-3 Hours.
Capstone design project: interdisciplinary design teams, ethics, materials selection, design process, development of proposal, project planning and scheduling, project execution and resource scheduling, and communication of design.
Prerequisites: (ME 322 [Min Grade: C] and ME 360 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 370 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 371 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 370 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 371 [Min Grade: C]) or (ME 370 [Min Grade: C]) or (ME 370 [Min Grade: C] and ME 371 [Min Grade: C]) or MSE 401 [Min Grade: C] (Can be taken Concurrently) or ME 405 [Min Grade: C] (Can be taken Concurrently)

ME 499. Capstone Design Project II. 3 Hours.
Continuation of ME 498. Capstone interim and final design reviews with written and oral reports. ME 498 must be taken the term immediately before ME 499.
Prerequisites: (ME 322 [Min Grade: C] or ME 360 [Min Grade: C] or ME 370 [Min Grade: C] or ME 371 [Min Grade: C] and ME 322 [Min Grade: C] or ME 360 [Min Grade: C] or ME 370 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 370 [Min Grade: C] or ME 371 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 370 [Min Grade: C] or ME 371 [Min Grade: C] and ME 322 [Min Grade: C] or ME 360 [Min Grade: C] or ME 370 [Min Grade: C]) or ME 405 [Min Grade: C] (Can be taken Concurrently)

**MESC-Marine Environmental Science Courses**

**Courses**

**MESC 106. Introduction to Oceanography. 4 Hours.**
General introduction to the physics, chemistry, geology, and biology of the ocean. Lecture, laboratory, and field trips.

**MESC 128. Ocean Science. 4 Hours.**
Marine environment and relation of ocean to man. Lecture, laboratory, and field work. For non-science majors. Does not count towards the biology major or minor. General elective credit only.

**MESC 201. Oceanology of the Gulf of Mexico. 2 Hours.**
Descriptive study of the oceanology of the Gulf of Mexico and adjacent waters, including coastal zone, continental shelf, and deep ocean.

**MESC 204. Coastal Geomorphology. 2 Hours.**
Shape and land forms along coast; factors determining formation. Lecture and lab.

**MESC 206. Marine Biology. 4 Hours.**
Invertebrates, vertebrates, and marine plants. Lecture, laboratory, and field work. Permission of instructor required.
Prerequisites: BY 124 [Min Grade: D]

**MESC 207. Commercial Marine Fisheries of Alabama. 2 Hours.**
Biology, harvest techniques, processing, and economic value of local commercial species.

**MESC 208. Biology and Conservation of Marine Turtles. 2 Hours.**
Overview of the biology and conservation of marine turtles. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: D]

**MESC 209. Hurricanes of the Gulf of Mexico. 2 Hours.**
Survey of hurricane formation and impacts with emphasis on hurricanes in the Gulf of Mexico. Does not count towards the biology major or minor. General elective credit only.

**MESC 213. Shark & Ray Biology. 2 Hours.**
Introduction to the biology of sharks and rays, with emphasis on regional shark and ray fauna. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

**MESC 216. Shark and Ray Biology. 2 Hours.**
Introduction to the biology of sharks and rays, with emphasis on regional shark and ray fauna. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

**MESC 302. Coastal Zone Management. 2 Hours.**
Ecological features and set of physical management policies for coastal communities, with description of relevant federal and state programs.

**MESC 303. Coastal Climatology. 2 Hours.**
Physical factors resulting in climatic conditions of coastal regions, with emphasis on northern Gulf of Mexico. Does not count towards the biology major or minor. General elective credit only.

**MESC 304. Marine Geology. 4 Hours.**
Geology of ocean basins, with emphasis on continental shelves, sediments, and sedimentary processes.
Prerequisites: ES 101 [Min Grade: D] and ES 102 [Min Grade: D]

**MESC 305. Dolphins and Whales. 2 Hours.**
Classification, anatomy, and ecology of cetaceans. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: D]

**MESC 402. Marine Vertebrate Zoology. 4 Hours.**
Marine fishes, reptiles, and mammals (systematics, zoogeography, and ecology). Lecture, laboratory, and field work. 12 semester hours in biology required.

**MESC 407. Marine Botany. 4 Hours.**
Marine algae and vascular and non-vascular plants (distribution, identification, structure, ecology, and reproduction). Lecture, laboratory, and field work. 12 semester hours in biology required.

**MESC 411. Costal Wetlands Ecology. 4 Hours.**
Habitat analysis, natural history studies, and population dynamics of selected organisms. Lecture, laboratory, and field work.
Prerequisites: MESC 412 [Min Grade: D] or BY 470 [Min Grade: D]

**MESC 412. Marine Ecology. 4 Hours.**
Bioenergetics, community structure, population dynamics, predation, competition, and speciation in marine ecosystems. Lecture, laboratory and field work.
Prerequisites: BY 255 [Min Grade: D] or BY 256 [Min Grade: D]

**MESC 413. Marine Invertebrate Zoology. 4 Hours.**
Natural history, systematics, and morphology of marine invertebrates. Lecture, laboratory and field work.
Prerequisites: BY 124 [Min Grade: D]

**MESC 415. Coastal Ornithology. 2 Hours.**
Coastal and pelagic birds, with emphasis on ecology, taxonomy, and distribution. Lecture, laboratory, and field work.
Prerequisites: BY 124 [Min Grade: D]
MESC 417. Marine Technical Methods. 2 Hours.
Hardware of marine science, sampling procedures, processing station location, and field equipment maintenance and operation. Prerequisite: 12 semester hours in a science discipline.

MESC 428. Oceanography. 4 Hours.
Physics, chemistry, biology, and geology of oceans. Prerequisites: CH 117 [Min Grade: D] and CH 118 [Min Grade: D] and PH 202 [Min Grade: D] and MA 106 [Min Grade: D]

MESC 472. Marine Aquaculture. 2 Hours.
Science, techniques, and economics of marine aquaculture. Lecture and laboratory. BY 255 is a recommended prerequisite. Prerequisites: BY 256 [Min Grade: D] or BY 435 [Min Grade: D]

MESC 473. Marine Fish Diseases. 4 Hours.
Introduction to aquatic animal diseases, specifically for fish and shellfish. Prerequisites: BY 271 [Min Grade: D] and (BY 255 [Min Grade: D] or BY 256 [Min Grade: D])

MESC 475. Marine Behavioral Ecology. 4 Hours.
Behavior of marine organisms as it relates to survival in their environment. Lecture, laboratory and field trips. Prerequisites: BY 255 [Min Grade: D] or BY 256 [Min Grade: D]

MESC 478. Advanced Anatomy and Evolution of Marine Fishes. 3 Hours.
Anatomical studies of marine fishes with emphasis on function and structure; evolutionary and taxonomic relationships. Prerequisites: BY 256 [Min Grade: D]

MESC 479. Marine Toxicology. 4 Hours.
Selected topics of toxicology as related to the coastal environment and marine organisms. Prerequisites: BY 330 [Min Grade: D] and (CH 235 [Min Grade: D] or CH 237 [Min Grade: D])

MESC 491. Research on Special Topics. 1-6 Hour.
Enrollment by special arrangement in any subject listed. Permission of MESC representative, Department of Biology required.

MESC 492. Special Topics: Lecture. 2-4 Hours.
Lectures on selected marine-related topics. Course content varies.

MG-Management Courses

Courses

MG 302. Management Processes and Behavior. 3 Hours.
This introductory course covers the four functions of management: planning, organizing, leading, and controlling. Strategic planning, teamwork, diversity, communication, and globalization are emphasized also. Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MG 305. Nonprofit Organization Mgmt/SL. 3 Hours.
The purpose of this course is to expose students to the historical origins of NPOs/NGOs, their favored tax status, and demands of transparency and accountability of achieving their stated missions. This course also exposes students to the challenges of managing a voluntary workforce, identifying revenue streams to fund activities, and developing strategies to ensure value creation in the nonprofit setting. This course is experiential. Students will explore the various aspects of the nonprofit sector academically and will also get first hand experience with a chosen NPO/NGO.

MG 306. Managing Innovation. 3 Hours.
This course addresses selected challenges and opportunities related to managing innovation. The purpose of this course is to provide an overview of the role of creativity and innovation in organizations, examine the managerial strategies and tactics for fostering innovation, and to help students enhance their own ability to innovate.

MG 309. Hogwarts School of Leadership. 3 Hours.
The Harry Potter book/movie series is full of insights about life matters. They also teach us about how to be better business managers in addressing adversity, success, leadership, and ethics. In this class, we will examine various leadership theories and popular management/leadership books and understand them in terms of the characters and situations presented in the Harry Potter book/movie series. In order to be successful in the course, students should have read most, and preferably all, of the Harry Potter books prior to the beginning of the semester. Being very familiar with all of the movies is also acceptable.

MG 358. Business and Society. 3 Hours.
Analysis of social, ethical, and legal issues that effect the business environment and their organizational lives and how to implement "best practices" in an effort to respond to these issues. Prerequisites: MG 302 [Min Grade: D]

MG 401. Organizational Behavior. 3 Hours.
Organizational behavior is the study of individuals and their behavior in the workplace. The course looks at behaviors across individual, group, and organizational levels. Broad topics include organizational behavior and leadership, understanding individuals in organizations, motivating employees, building relationships, and creating change. Prerequisites: (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 403. Operations Management. 3 Hours.
This course covers the strategic, tactical, and integrative roles of Operations in the management of service and manufacturing organizations in a globally competitive economy. Students will learn how to maximize efficiency and value in a business environment. Topics include productivity, design and process strategies, sustainability, ethics, quality management, supply chain strategies, scheduling, forecasting, inventory management, facilities location and layout strategies, maintenance and reliability. Prerequisites: MG 302 [Min Grade: C]

MG 405. Nonprofit Strategy and Entrepreneurship. 3 Hours.
This course takes students on the journey from a promising program idea through the steps necessary to create a viable strategic plan for your program’s business model. Working as individuals and small teams, students will work with an assigned nonprofit organization (NPO) start-up, or established NPO, seeking the next steps for their program idea. These steps include analyzing and defending a suggested business model and strategic analysis where individuals or teams suggest improvements and next steps for this NPO. Along the way students will meet and interact with local nonprofits and engage in thought-provoking brainstorming sessions with some of Birmingham’s most innovative and creative nonprofits.

MG 409. Human Resource Management. 3 Hours.
This course covers managerial problems associated with the acquisition, development, motivation, and compensation of human resources. Personnel problems such as employment, employee education and training, labor relations, industrial health and safety, and wage and salary administration. Prerequisites: (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
MG 410. Labor-Management Relations. 3 Hours.
Analysis of managerial issues and opportunities associated with the
development of labor-management relations policy. The impact of public
policy, significance of pressure groups, negotiations and administration
of the collective bargaining agreements, along with the role of the National
Labor Relations Board (NLRB) and Labor Relations (LA) as a matter of
policy.
Prerequisites: (MG 302 [Min Grade: C] and GPAT and GPAO 2.00) or
(MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 411. Compensation Administration. 3 Hours.
This course covers compensation administration in public and private
organizations, with emphasis on determination of range, salary levels,
and structures. Job evaluation, pay systems, and wage and benefits legal
issues are covered.
Prerequisites: (MG 409 [Min Grade: C] and GPAT and GPAO 2.00) or
(MG 409 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 412. Organizational Staffing. 3 Hours.
Primary focus is on the employee recruiting and selection functions within
organizations. Strategic staffing, Federal laws and regulations impacting
staffing activities, recruitment and selection practices, hiring decision
approaches, job analysis and measurement in selection will also be
covered in detail.
Prerequisites: MG 409 [Min Grade: C] and QM 215 [Min Grade: C]

MG 413. Employment Law. 3 Hours.
Management of legal risks arising from hiring, promotion, and other
human resources transactions, including risks arising under anti-
discrimination laws (e.g., Title VII of Civil Rights Act of 1964) and income
security laws (e.g., Fair Labor Standards Act and Family Medical Leave
Act).
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MG 415. International Business Dynamics. 3 Hours.
Essential information that managers need to know about international
business. We will consider cultural, political, and geographic differences
and develop strategies to attempt to maximize business opportunities in
view of these differences.
Prerequisites: MG 302 [Min Grade: C]

MG 416. Supply Chain Management. 3 Hours.
Course takes operational view of the mechanism for matching supply and
demand through the management of material and information flow. This
framework is used to understand strategic, design and operational issues
insupply management.
Prerequisites: (MG 403 [Min Grade: C] and GPAT and GPAO 2.00) or
(MG 403 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 417. Project Management. 3 Hours.
Course discusses project management principles, methods, techniques
and tools from manager's point of view. Topics include: planning,
scheduling, organizing and controlling non-routine activities to achieve
schedule, budget and performance objectives. Also discussed: socio-
technical aspects of projects, role of project managers, project teams and
scheduling and executing projects under uncertainty.
Prerequisites: AC 201 [Min Grade: C] and LS 246 [Min Grade: C] and
EC 211 [Min Grade: C] and QM 215 [Min Grade: C]

MG 418. Quality Management. 3 Hours.
Concepts, techniques, and organizational requirements to ensure that
quality is provided to consumer. Breadth of quality efforts, statistical
quality control methods, quality circle principles, and quality assurance
activities in various enterprises.
Prerequisites: (MG 403 [Min Grade: C] and GPAT and GPAO 2.00) or
(MG 403 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 425. Managing Through Leadership. 3 Hours.
Provide students with a comprehensive understanding of leadership as a
phenomenon, with an emphasis on developing the skills to lead others.
Major theories of leadership will be examined and students will gain
insights about their individual strengths and weaknesses. Through hands-
on experiences and workshops, students will develop and acquire the
skills to lead high-performance teams that can optimize their productivity
and deliver high-quality results.

MG 430. Management and Leadership in Sports and Entertainment
Organizations. 3 Hours.
Students will gain an understanding of leadership requirements
and challenges in the sports and entertainment industries. Topics
include: problem solving and decision making, culture, human resource
management, teams, communication, motivation, leadership, facilities
and events. This is a service/ experiential learning designated course.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MG 438. Managerial Communication Skills. 3 Hours.
An advanced business communications course for undergraduates
focusing on the verbal and nonverbal communication skills required of
managers in today's business environment.
Prerequisites: BUS 350 [Min Grade: C]

MG 445. Management Internship. 3 Hours.
Offers qualified undergraduate students the chance to gain first-hand
experience in a local business while receiving academic credit. Must be
a management major, at least junior standing, B or better in MG 302 and
GPA of 2.5 overall. Sponsoring business may require additional courses.
Prerequisites: (AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and
EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min
Grade: C] and MG 302 [Min Grade: C] and GPAT and GPAO 2.00) or
(AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min
Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and
MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 490. Management Seminar/SL. 3 Hours.
Selected management topics. This is a designated service-learning
course integrating academic learning, civic learning and meaningful
service to the community.
Prerequisites: (AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and
EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min
Grade: C] and MG 302 [Min Grade: C] and GPAT and GPAO 2.00) or
(AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min
Grade: C]) and (LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and
MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

3 Hours.
Selected topics in production and operations management.
Prerequisites: (MG 403 [Min Grade: C] and GPAT and GPAO 2.00) or
(MG 403 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 493. Current Topics in Human Resource Management. 3 Hours.
Current development and issues in human resource management.
Prerequisites: (MG 409 [Min Grade: C] and GPAT and GPAO 2.00) and
(MG 409 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 499. Directed Study in Management. 1-3 Hour.
Specific areas in management.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MK-Marketing Courses
Courses

MK 101. Introduction to Consumer Marketing. 3 Hours.
Survey course designed to provide understanding of business marketing practices and consumer decision making processes. Open to all UAB students.

MK 303. Basic Marketing. 3 Hours.
Survey course of the modern business process for planning, distributing, promoting and pricing of products (goods and services) for domestic and international organizations.
Prerequisites: (MA 105 [Min Grade: C] or MA 109 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C] and (AC 200 [Min Grade: C] and EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (MA 105 [Min Grade: C] or MA 109 [Min Grade: C] or MA 125 [Min Grade: C]) and (AC 200 [Min Grade: C] and EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 312. Retail Marketing. 3 Hours.
Business to consumer marketing with consideration for location, organization, buying, receiving stock inventory and control, policies, pricing, services, control and personnel management within retail establishments.
Prerequisites: (MK 303 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 330. Professional Selling. 3 Hours.
The course focuses on the fundamentals of professional selling and the professionalization of the field. The course combines personal selling theory with actual practice. Students develop the analytical and communicative skills useful in their future business relationship-building activities. Analytical skills are developed through an assignment that requires students to research, design, and present their own comprehensive sales scenario. Students practice their communicative skills through in-class role playing.
Prerequisites: (MK 303 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 333. Sports Marketing. 3 Hours.
Strategic analysis, positioning and marketing of professional and amateur sports events and organizations. The goal is to provide students with a comprehensive view of all that is required to successfully market a sporting organization or event. Junior standing required.
Prerequisites: (GPAT and GPAO 2.00) or (GPAT 2.00 and GPAO 2.00)

MK 401. Social Media in Marketing. 3 Hours.
Survey course of the unique aspects of marketing through social media. The focus is on the application of new and emerging social media communications systems and practices that are becoming major elements in integrated marketing communication programs.
Prerequisites: MK 303 [Min Grade: C]

MK 408. Marketing Research. 3 Hours.
Research techniques in marketing with application of research findings to decision making and formulation of marketing strategies.
Prerequisites: (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 410. Integrated Marketing Communication. 3 Hours.
Considers the organizations coordinated and strategic use of communication tools used in marketing including advertising, sales promotion, direct marketing, interactive media, publicity/public relations, sponsorship marketing, point-of-purchase communications and personal selling.
Prerequisites: (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 416. International Marketing. 3 Hours.
International marketing activities, including environmental issues, marketing strategy and tactical considerations in entering foreign markets.
Prerequisites: AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and MK 303 [Min Grade: C]

MK 418. Introduction to E-Commerce. 3 Hours.
Management of Internet Technology into the marketing function of organization. Web-based business models, customer support, on-line quality, product pricing, and Internet based channels of distribution development studied. Preq: C or better in AC 201, EC 211, IS 103, LS 246, QM 215 and MK 303.
Prerequisites: (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 419. Services Marketing. 3 Hours.
Understanding service customers, customer satisfaction, motivating service employees, improving service quality and role of services in strategy planning.
Prerequisites: (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 420. Sales Management. 3 Hours.
The course focuses on the fundamentals of professional selling and the professionalization of the field. The course combines personal selling theory with actual practice. Students develop the analytical and communicative skills useful in their future business relationship-building activities. Analytical skills are developed through an assignment that requires students to research, design, and present their own comprehensive sales scenario. Students practice their communicative skills through in-class role playing.
Prerequisites: MK 330 [Min Grade: C] (Can be taken Concurrently)

MK 425. Advanced Professional Selling. 3 Hours.
This course builds upon the basic selling skills learned in MK 330 and other communications courses. The students will focus on enhancing value-adding selling skills and developing long-term, mutually-beneficial customer relationships in a B2B context.
Prerequisites: MK 330 [Min Grade: C]
MK 440. Small Business Consulting and Research. 3 Hours.
Applied field work integrating functional business fields of management, finance, accounting, marketing, economics, production policy, and decision making related to small business enterprises.
Prerequisites: FN 310 [Min Grade: C] and MG 302 [Min Grade: C] and MK 303 [Min Grade: C]

MK 445. Marketing Internship. 3 Hours.
Offers qualified undergraduate students the chance to gain first-hand experience in a local business while receiving academic credit. Marketing major and junior standing required. Sponsoring business may require additional courses.
Prerequisites: (MK 303 [Min Grade: B] and GPAU 2.00 and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: B] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 450. Strategic Marketing. 3 Hours.
Course addresses problems of marketing management with emphasis on planning, implementing and controlling marketing activities with individual firms.
Prerequisites: (BUS 350 [Min Grade: C] and FN 310 [Min Grade: C] and MK 312 [Min Grade: C] and MK 320 [Min Grade: C] and MK 408 [Min Grade: C] and MK 410 [Min Grade: C] and GPAT and GPAO 2.00) or (BUS 350 [Min Grade: C] and FN 310 [Min Grade: C] and MK 312 [Min Grade: C] and MK 320 [Min Grade: C] and MK 408 [Min Grade: C] and MK 410 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 471. Health Care Marketing. 3 Hours.
This class is designed for upper level students with an interest in and/or who seek employment in the healthcare industry. It is also appropriate for seniors in Medical Equipment Sales and Distribution. The primary objective of this course is to provide students with a comprehensive overview of the marketing fundamentals in the health care environment. The course examines health care organizations as customers in a Business to Business environment as well as the special challenges in implementing marketing strategies.

MK 490. Special Topics in Marketing. 3 Hours.
Selected marketing topics not covered in other marketing courses.
Prerequisites: (MK 303 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 499. Directed Readings in Marketing. 1-3 Hour.
Specific areas in marketing.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MS-Military Science Courses

Courses

MS 101. Military Leadership. 2 Hours.
Foundations of officership, examines the unique duties and responsibilities of officers. Discusses organization and role of the Army; reviews basic life skills pertaining to fitness and communication; analyzes Army values and expected ethical behavior.

MS 101L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 102. Military Leadership. 2 Hours.
Basic leadership presents fundamental leadership concepts and doctrine. Practices basic skills that underlie effective problem solving; applies active listening and feedback skills; examines factors that influence leader and group effectiveness and examines the officer experience.

MS 102L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 153. Basic Military Studies. 3 Hours.
Mini-term class stressing physical training, leadership, and communication skills. Designed for students who are not able to take scheduled MS 101, 102, and 103 classes. Taken only with permission of Professor of Military Science.

MS 201. Military Leadership. 2 Hours.
Quality Leadership and Management. Emphasizes individual skills necessary to be a successful leader and manager. Instruction on written and interpersonal communications, briefing/presentation skills, hands-on office equipment and computer software training. First aid and map reading.

MS 201L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 202. Military Leadership. 2 Hours.
Continuation of Quality Leadership and Management. Through lecture, activities, films, short readings, and discussion, students examine leadership dynamics, individual and group behavioral processes and team building. Analysis of professional values and ethics. Decision making and problem solving skills.

MS 202L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 203. Leadership and Management. 2 Hours.
Quality Leadership and Management. Group and individual physical fitness programs. Health and nutrition, weight control management and counseling techniques, safety management. Logistics management, planning and organizational skills, meeting management, general employee counseling techniques.

MS 204. Rangers. 1 Hour.
Develop leadership qualities of ROTC cadets through small unit tactics, self discipline, self confidence, and resourcefulness. Cadets participate in physical training. Enrolled cadets may participate in the two-day, 27-school South East Conference invitational varsity Ranger Challenge competition.

MS 205. Rangers. 1 Hour.
Develop leadership qualities of ROTC cadets through small unit tactics, self discipline, self confidence, and resourcefulness. Cadets participate in physical training. Enrolled cadets may participate in the two-day, 27-school South East Conference invitational varsity Ranger Challenge competition.
MS 206. Rangers. 1 Hour.
Develop leadership qualities of ROTC cadets through small unit tactics, self discipline, self confidence, and resourcefulness. Cadets participate in physical training. Enrolled cadets may participate in the two-day, 27-school South East Conference invitational varsity Ranger Challenge competition.

MS 207. Airborne Operations. 3 Hours.
This course requires 210 hours of student participation in airborne operations. The student will keep a journal of daily operations at airborne school in order to develop an airborne school for dummies booklet to be used as a guide for cadets and cadre when faced with questions about airborne school. The student must produce a point paper that discusses the relevancy or lack of relevancy of airborne operations in today's Army.

MS 250. Camp Challenge. 6 Hours.
Summer, off-campus, all-expense paid, hands-on seminar. Trains students in MS 100 and 200 level skills. Attending students qualify to compete for special 2-year, full scholarships to UAB.

MS 253. Basic Military Studies. 3 Hours.
Physical training, leadership, communication skills. Designed for students who are not able to take scheduled MS 201, 202, and 203 classes. Taken only with permission of Professor of Military Science.

MS 301. Military Leadership. 3 Hours.
Leadership and Problem solving examines basic skills that underlie effective problem solving; analyzes the role officers played in the transition of the Army from Vietnam to the 21ST century; reviews the features and execution of the Leadership Development Program; analyzes military missions, plan military operations and executes squad battle drills.

MS 301L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. to be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 302. Military Leadership. 3 Hours.
Leadership and Ethics probes leader responsibilities that foster an ethical command climate; develops cadet leadership competencies; prepares for success at National Advanced Leadership Camp; recognizes leader responsibility to accommodate subordinate spiritual needs; apply principles and techniques of effective written and oral communication.

MS 302L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. to be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 303. Pre-Cadet Leadership Course (CLC). 3 Hours.
Platton defensive and offensive measures; platoon movement techniques and command and staff functions. Incorporates all cadet skills for the Leadership Development and Assessment Course at Fort Lewis, Washington.

MS 307. American Military History. 3 Hours.
Survey of American Military History from 1775 to present.

MS 401. Military Leadership. 3 Hours.
Oral and written presentation skills, including writing and reviewing selections of military correspondence and forms; presentation of performance-oriented training; conduct of briefings and meetings; analysis of organizational morals and ethics.

MS 401L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. to be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 402. Military Leadership. 3 Hours.
Military justice system and junior officer's use of it; Army personnel management, logistics system, and personal support agencies.

MS 402L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. to be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 405. Applied Army Leadership. 3 Hours.
MSL 405, Applied Army Leadership is the capstone class for Army cadets who have completed their Military Science and Leadership level four requirements, yet still need to complete their bachelor or masters level graduation requirements before commissioning as a Second Lieutenant. MSL 405 is an advanced level course that draws upon all previous learning and experience in the ROTC program for application in leading and mentoring of the Blazers Cadet Battalion. The course places significant emphasis on independent leadership in the form of direct mentorship of Cadet MS IVs, exploration and growth in personal leadership styles and approaches and effective communication with the Assistant Professor of Military Science (APMS). This semester, you will: Advise Cadet Battalion leadership in tactical, procedural and ethical decision making. Guide Cadets in the art and science of Mission Command through engaged leadership. Explore, apply and evaluate personal leadership approaches. Communicate weekly with the PMS concerning independent mentorship and personal leadership evolution. Prepare for the transition to a career as an Army Officer.
MSE 281. Physical Materials I. 4 Hours.
Structure of metals, ceramics and polymers; crystal bonding; phase diagrams, diffusion, dislocations and grain boundaries. Applications to the iron-carbon system, including heat treatment. MSE 281L must be taken concurrently.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and MSE 280 [Min Grade: D]
MSE 281L. Physical Materials I Laboratory. 0 Hours.
Laboratory component of MSE 281 and must be taken concurrently with MSE 281.
MSE 350. Introduction to Materials. 3 Hours.
Concepts and applications, crystal structure of materials, formation of microstructures, and selected structure-property relationships. Not available for credit toward engineering major. For non-engineering majors only.
MSE 380. Thermodynamics of Materials. 3 Hours.
First, second, and third laws of thermodynamics. Gibbs free energy, heat capacity, enthalpy, entropy, and relationships between thermodynamic functions. Free-energy versus composition relationships; behavior of ideal and non-ideal solutions; concept of thermodynamic activity of components in solution. Applications to materials systems.
Prerequisites: CH 117 [Min Grade: D] and CH 118 [Min Grade: D] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and MSE 280 [Min Grade: D]
MSE 381. Physical Materials II. 3 Hours.
Microstructural changes in response to temperature and time; vacancies, annealing, diffusion, nucleation and growth kinetics. Equilibrium and non-equilibrium microstructures. Applications to precipitation hardening and solidification of metals.
Prerequisites: MSE 281 [Min Grade: D]
MSE 382. Mechanical Behavior of Materials. 3 Hours.
Microscopic deformation mechanisms in materials leading to macroscopic properties of fatigue; creep; ductile, transitional, and brittle fracture; friction; and wear. CE 220 (Mechanics of Solids) is recommended as a prerequisite for this course.
Prerequisites: MSE 281 [Min Grade: D]
MSE 401. Materials Processing. 3 Hours.
Processing of metals, glasses, ceramics, and composites. Powder processing, casting, welding, rapid solidification, and other advanced methods. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: MSE 280 [Min Grade: D] and CE 220 [Min Grade: D]
MSE 405. Frontiers of Automotive Materials. 3 Hours.
Advanced lightweight automotive materials, manufacturing and modeling techniques. Technology advancements in cost-effective carbon, glass and related reinforcements; “green” and sustainable materials, crashworthiness and injury protection of occupants and pedestrians, metal castings, heavy truck, mass transit, fuel cell and hybrid vehicles. Students taking this class will receive a GATE certificate of training in automotive materials technologies upon successful completion.
Prerequisites: MSE 281 [Min Grade: D]
MSE 408. Nanobiomaterials. 3 Hours.
Basic tools of nanotechnology, building blocks of nanostructured materials. Behavior of materials with nanoscale structures and their technological applications, including automotive, medical, and electronic applications. Introduction to biomaterials and nanobiomaterials. Concepts in tissue engineering with special focus on nanoscaffolds and nanoparticles in drug delivery.
Prerequisites: MSE 280 [Min Grade: D]
MSE 409. Principles of Metal Casting. 3 Hours.
Production and evaluation of cast ferrous metals (gray iron, ductile iron, steel) and non-ferrous metals (brass, bronze, aluminum). Design of castings and molds. Laboratory on the gating, risering and molten metal treatment, analysis and handling techniques required to produce high quality castings. MSE 409L must be taken concurrently.
Prerequisites: MSE 280 [Min Grade: D]
MSE 409L. Principles of Metal Casting Laboratory. 0 Hours.
Laboratory component of MSE 409 and must be taken concurrently with MSE 409.
MSE 413. Composite Materials. 3 Hours.
Processing, structure, and properties of metal-, ceramic-, and polymer-matrix composite materials. Roles of interfacial bond strength, reinforcement type and orientation, and matrix selection in physical and mechanical properties of composite materials. MSE 382 (Mechanical Behavior of Materials) is recommended as a prerequisite for this course. Writing is a significant component of this course.
Prerequisites: MSE 281 [Min Grade: D]
MSE 430. Polymeric Materials. 3 Hours.
Processing methods, structure/engineering/property relationships, and applications of polymeric materials.
Prerequisites: MSE 281 [Min Grade: D] and CH 117 [Min Grade: D] and CH 118 [Min Grade: D]
MSE 430L. Polymeric Materials Laboratory. 0 Hours.
Laboratory component of MSE 430 and must be taken concurrently with MSE 430.
MSE 433. Nondestructive Evaluation of Materials. 3 Hours.
Principles, applications, and limitation of ultrasonic vibrations, acoustic emission, radiographic, magnetic particle, eddy current, and other nondestructive testing methods. Intelligent sensors and health monitoring of real structures.
Prerequisites: MSE 281 [Min Grade: D]
MSE 462. Composites Manufacturing. 3 Hours.
Principles of manufacturing and processing of polymeric matrix composites. Production techniques including filament winding, pultrusion, and liquid infusion techniques combined with design, environmental and manufacturing issues of polymer matrix composites.
Prerequisites: MSE 281 [Min Grade: D]
MSE 464. Metals and Alloys. 4 Hours.
Microstructures, properties, heat treatment, and processing of ferrous and nonferrous materials.
Prerequisites: MSE 281 [Min Grade: D]
MSE 464L. Metals and Alloys Laboratory. 0 Hours.
Laboratory component of MSE 464 and must be taken concurrently with MSE 464.
MSE 465. Characterization of Materials. 4 Hours.
Theory and practice of materials characterization, with emphasis on
optical metallography, quantitative metallography, scanning electron
microscopy, crystallography, and x-ray diffraction. Specific applications in
metals and ceramics considered. MSE 465L must be taken concurrently.
Prerequisites: MSE 281 [Min Grade: D]

MSE 465L. Characterization of Materials Laboratory. 0 Hours.
Laboratory component of MSE 465 and must be taken with MSE 465.

MSE 470. Ceramic Materials. 4 Hours.
Structure, processing, properties, and uses of ceramic compounds
and glasses. Mechanical, thermal, and electrical behavior of ceramic
materials in terms of microstructure and processing variables.
Prerequisites: MSE 281 [Min Grade: D] and CH 117 [Min Grade: D] and
CH 118 [Min Grade: D]

MSE 470L. Ceramic Materials Laboratory. 0 Hours.
Laboratory component of MSE 470 and must be taken concurrently with
MSE 470.

MSE 474. Metals and Alloys II. 3 Hours.
Production and physical metallurgy of ferrous and non-ferrous alloys
including: steel alloys, inoculation and production of ductile, gray,
compacted and malleable iron; advanced heat treatments of steel and
iron; conventional and ultra-high strength aluminum alloys; wrought and
cast copper alloys; wrought and cast magnesium alloys.
Prerequisites: MSE 281 [Min Grade: D] and MSE 464 [Min Grade: D]

MSE 489. Undergraduate Research in MSE. 0 Hours.
Undergraduate research experiences in materials science and/or
engineering.

MSE 490. Special Topics in (Area). 1-6 Hour.
Special Topics in (Area).

MSE 491. Individual Study in (Area). 1-6 Hour.
Individual Study in (Area).

MSE 496. MSE Honors Seminar. 1 Hour.
Research presentations by faculty, students, and invited guests on topics
related to Materials Science and Engineering.

MSE 497. MSE Honors Research. 2-6 Hours.
Graduate research students develop materials engineering research skills by working
closely with faculty and graduate students.
Prerequisites: EGR 301 [Min Grade: P](Can be taken Concurrently)

MSE 498. Capstone Design Project I. 3 Hours.
Capstone design project: interdisciplinary design teams, ethics, materials
selection, design process, development of proposal, project planning
and scheduling, project execution and resource scheduling, and
communication of design. Writing is a significant component of this
course.
Prerequisites: MSE 401 [Min Grade: D](Can be taken Concurrently) or
ME 405 [Min Grade: D](Can be taken Concurrently)

MSE 499. Capstone Design Project II. 3 Hours.
Continuation of MSE 498 which must be taken in the previous term.
Interim and final design reviews with written and oral reports. Writing is a
significant component of this course.
Prerequisites: MSE 498 [Min Grade: D]

Courses

MT 350. Special Topics: Chemistry. 1-3 Hour.
Designed specifically for individual student to cover topics not covered in
MLT curriculum.

MT 400. Health and Safety Management. 1 Hour.
Review of infection control principles focused on bloodborne, airborne,
drug-resistant and opportunistic pathogens, and general health and
safety guidelines and standards.

MT 403. Body Fluids. 1 Hour.
Diagnosis and monitoring renal and systemic disease through the
physical, biochemical, and microscopic analysis of urine and feces.
Diagnosis of central nervous system and systemic disease through
cerebrospinal fluid analysis. Diagnosis of metabolic and infectious
disease through analysis of peritoneal fluid, synovial fluid, transudates,
and exudates. Fertility testing using semen analysis.

MT 404. Body Fluid Lab. 1 Hour.
Diagnosis and monitoring renal and systemic disease through the
physical, biochemical, and microscopic analysis of urine and feces.
Diagnosis of central nervous system and systemic disease through
cerebrospinal fluid analysis. Diagnosis of metabolic and infectious
disease through analysis of peritoneal fluid, synovial fluid, transudates,
and exudates. Fertility testing using semen analysis. Concurrent
enrollment MT 403.
Prerequisites: MT 403 [Min Grade: C](Can be taken Concurrently)

MT 405. Laboratory Management. 3 Hours.
Current catalog description will remain unchanged. Ethics and Civic
Responsibility are significant components of this course.

MT 406. Laboratory Techniques. 2 Hours.
Overview of issues and skills surrounding working in the modern
laboratory environment; includes safety, collection of specimens,
equipment, mathematics, measurements, microscopy, dilutions, quality
assurance, basic spectrophotometry, phlebotomy, automation of
laboratory testing and lab computers.

MT 418. Immunology. 3 Hours.
Physiology of immune responses to infectious agents, tumors, transplant;
abnormal responses: hypersensitivity, autoimmunity, immunoproliferative
disorders, and immunodeficiencies; antigen-antibody reactions;
complement; principles and applications of clinical immunology.

MT 423. Clinical Microbiology. 3 Hours.
Reservoirs, modes of transmission, disease associations, and
morphological and biochemical characteristics of microorganisms
commonly isolated in the clinical laboratory; methods used to isolate and
identify bacteria, parasites, and fungi.
Prerequisites: BY 271 [Min Grade: C] or BY 261 [Min Grade: C]

MT 424. Clinical Microbiology Laboratory. 1 Hour.
Performance of techniques and tests used in the isolation and
identification of bacteria, fungi and parasites commonly seen in a clinical
microbiology laboratory. Concurrent enrollment MT 423.
Prerequisites: (BY 261 [Min Grade: C] or BY 271 [Min Grade: C]) and
MT 423 [Min Grade: C](Can be taken Concurrently)
MT 423. Instrumentation and Automation. 2 Hours.
This course includes the study of the theory and principles of automation and instrumentation used in laboratories. An emphasis will be placed on quality control, quality assurance, instrumentation principles, basic statistics, and the regulatory, and economic issues encountered in laboratories including, clinical labs, health labs, government labs, private labs and other laboratories.
Prerequisites: CH 117 [Min Grade: C] and CH 118 [Min Grade: C]

MT 427. Instrumentation and Automation Laboratory. 1 Hour.
This course includes the practical application of automation and instrumentation used in laboratories. An emphasis will be placed on quality control, quality assurance, instrumentation principles, basic statistics, and the regulatory, and economic issues encountered in laboratories including, clinical labs, health labs, government labs, private labs and other laboratories.
Prerequisites: CH 117 [Min Grade: C] and CH 118 [Min Grade: C] and MT 426 [Min Grade: C](Can be taken Concurrently)

MT 428. Hematology I. 4 Hours.
Systematic examination of the normal hematologic and hemostatic systems: blood cell production, structure and function; blood cell morphology; performance, evaluation and interpretation of routine and special tests; primary hemostasis, coagulation and fibrinolysis. The course includes a mandatory laboratory component.
Prerequisites: MT 418 [Min Grade: C] and MT 430 [Min Grade: C] and MT 426 [Min Grade: C] and MT 427 [Min Grade: C](Can be taken Concurrently)

MT 430. Immunohematology. 4 Hours.
Analyze blood group antigen-antibody reactions; donor blood collection and testing serological characteristics and immunogenetics of the major blood group systems; pretransfusion testing, basic and advanced techniques of antibody identification and problem-solving; transfusion therapy; laboratory evaluation of hemolytic disease of the newborn; and the investigation of immune coating of red cells in vivo, including autoimmune hemolytic anemia. Application of theory and problem-solving skills is emphasized.
Prerequisites: MT 418 [Min Grade: C]

MT 431. Immunohematology Laboratory. 1 Hour.
Performance and evaluation of: red cell phenotyping, antibody detection and identification, pretransfusion testing, and laboratory investigation to diagnosis and treat hemolytic anemias and adverse effects of transfusion.
Prerequisites: MT 418 [Min Grade: C] and MT 430 [Min Grade: C](Can be taken Concurrently)

MT 432. Hematology II. 4 Hours.
Pathology of the hematologic and hemostatic systems: anemias, leukopenias, myelodysplastic syndromes, myeloproliferative syndromes, chronic leukemias, acute leukemias, primary hemostatic disorders, coagulopathies, thrombophilia, and interpretation and correlation of laboratory data supporting diagnosis and management or treatment. The course includes a mandatory laboratory component.
Prerequisites: MT 428 [Min Grade: C]

MT 438. Infectious Diseases. 3 Hours.
Pathogenic mechanisms of infectious diseases; normal flora and pathogens of various body sites; methods for collection, transport, and culturing different types of clinical specimens; interpretation of cultures.
Prerequisites: MT 423 [Min Grade: C] and MT 424 [Min Grade: C]

MT 439. Infectious Diseases Laboratory. 1 Hour.
Performance and interpretation of direct Gram stains; culturing various types of clinical specimens for isolation of bacteria; performing and interpreting tests used in the identification of potential pathogens; reporting culture results; antimicrobial susceptibility and resistance testing.
Prerequisites: MT 423 [Min Grade: C] and MT 424 [Min Grade: C] and MT 438 [Min Grade: C](Can be taken Concurrently)

MT 442. Molecular Diagnostics. 3 Hours.
The course will focus on the development of knowledge in and the fundamental principles of: molecular biochemistry, medical genetics, molecular pathology, performance, evaluation and interpretation of molecular tests.
Prerequisites: BY 210 [Min Grade: C]

MT 443. Molecular Diagnostics Laboratory. 1 Hour.
The course will focus on applications and analysis, and the development of competencies in: nucleic acid isolation, analysis of nucleic acids and protein, cytogenetics, PCR and others.
Prerequisites: MT 442 [Min Grade: C](Can be taken Concurrently)

MT 451. Clinical Chemistry. 4 Hours.
Theory of clinical laboratory techniques to identify and quantitate chemical analytes in body fluids and the correlation of these analytes to human disease.
Prerequisites: MT 426 [Min Grade: C] and MT 427 [Min Grade: C]

MT 452. Clinical Chemistry Laboratory. 1 Hour.
Performance of laboratory techniques used to identify and quantitate chemical analytes in body fluids and the correlation of these analytes to human disease.
Prerequisites: MT 451 [Min Grade: C]

MT 455. Research Principles. 2 Hours.
Clinical research principles and methods relevant to laboratory medicine assays; applications of descriptive and inferential statistics with diagnostic assay accuracy studies; development of competencies for critical analyses of empirical research papers to determine quality of empirical evidence and the operating characteristics of the diagnostic assays studied and the planning process for verification studies of diagnostic assays. Quantitative Literacy is a significant component of this course.

MT 460. Clinical Correlations. 3 Hours.
Analyze and interpret laboratory case studies; correlate clinical and technical information obtained from various topics covered throughout the curriculum; work with groups to present case studies with an emphasis on application and interpretation of laboratory protocols, competence in grammar usage and mechanics, and writing conventions required for laboratory professionals. Writing is a significant component of this course.
Prerequisites: MT 430 [Min Grade: C](Can be taken Concurrently) and MT 432 [Min Grade: C](Can be taken Concurrently) and MT 451 [Min Grade: C](Can be taken Concurrently) and MT 438 [Min Grade: C](Can be taken Concurrently)

MT 470. Certification Review. 1 Hour.
Review of medical technology/clinical laboratory science body of knowledge with required comprehensive trial certification final examination using self-directed online materials. Experience with the development of a personal certification maintenance plan to meet requirements defined by national certification agencies in Clinical Laboratory Sciences. Medical Technology students only.
Prerequisites: MT 495 [Min Grade: C](Can be taken Concurrently)
MT 495. Clinical Practices. 1-12 Hour.
This CLS program capstone course involves directed clinical practice in hematology, chemistry, microbiology, immunology and immunohematology with focused activities to reinforce, integrate and apply knowledge obtained throughout the curriculum. Students will organize, build on, and reflect on previous assignments/experiences to demonstrate attainment of discipline-specific writing, quantitative literacy, ethical issues, and civic engagement.

MU-Music Courses

Courses

MU 100. Fundamentals of Music. 3 Hours.
Basic elements of music and music notation: rhythm, scales, keys, and chords.

MU 115. Computer Music I. 3 Hours.
Introduction to hardware and software for creating and performing music with computers. Concepts include digital sampling, binary computation, properties of waveforms, graphical notation, and audio sequencing. Quantitative Literacy is a significant component of this course.
Prerequisites: MU 100 [Min Grade: B]

MU 120. Music Appreciation. 3 Hours.
Guided listening and class discussion covering variety of styles. Emphasis on European concert music of the eighteenth and nineteenth centuries. This course meets the Core Curriculum requirements for Area II: Fine Arts.

MU 141. Musical Acoustics. 3 Hours.
Physical nature of musical tones (pitch, loudness, and timbre) and numerical basis of scales, tuning, and musical instrument design. Laboratory/discussion including use of oscilloscope to study actual acoustic systems.

MU 145. The Music Business. 3 Hours.
Business aspects of music industry.

MU 159. Introduction to Composition. 3 Hours.
Introduction to the craft of musical composition.
Prerequisites: MU 221 [Min Grade: C] and MU 224 [Min Grade: C]

MU 160. First Year Experience in Music. 1 Hour.
The objective of this course is to introduce incoming freshmen to an education in music and music education in context of the university. It is meant to help prepare students for a successful collegiate career in the study of music. 1 hour.

MU 165. Jazz Styles: History and Appreciation. 3 Hours.
American jazz with emphasis on instrumental and vocal performers, jazz bands, and combos. Development of big band, swing, and popular music.

MU 199. Independent Studies. 1-3 Hour.
Directed projects in music. Permission of Department Chair based on written proposal submitted prior to registration.

MU 203. Introduction to Music Education. 2 Hours.
An introduction to the expectations of the modern-day public school music teacher, including the role of the teacher, curricular and legal expectations of teaching, and historical and philosophical underpinnings of public school music teaching.

MU 210. Special Topic. 1 Hour.
Specialized subjects taught as opportunity allows. May be repeated for credit.

MU 211. Recording Studio Workshop. 1-3 Hour.
Specialized subjects taught as opportunity allows. May be repeated for credit.

MU 221. Music Theory I. 3 Hours.
Melody, harmony, and rhythm; their interaction in music. Diatonic musical materials with emphasis on choral and simple keyboard idioms.

MU 222. Music Theory II. 3 Hours.
Continuation of MU 221.
Prerequisites: MU 221 [Min Grade: C] and MU 224 [Min Grade: C]

MU 224. Aural Skills I. 1 Hour.
Required laboratory for MU 221.

MU 225. Aural Skills II. 1 Hour.
Required laboratory for MU 222.
Prerequisites: MU 224 [Min Grade: C]

MU 232. Instrumental Literature I. 3 Hours.
Introduction to the layout of instrumental scores, a history and development of the orchestra, extensive work with transpositions, ranges, and tone colors of instruments, and a survey of instrumental literature.

MU 233. Piano Literature I. 3 Hours.
Survey of the important piano solo repertoire from Bach through Schubert. Examination of the development of keyboard repertoire from the time of the harpsichord through the time of the early piano through playing, analysis and listening. Two terms of Applied Piano required.
Prerequisites: MUP 150 [Min Grade: C]

MU 234. Vocal Literature I. 3 Hours.
Introductory survey of representative non-operatic solo vocal repertoire of North America, the British Isles, and Italy. Techniques of song study, interpretation, and performance practice. Two terms of Applied Voice required.
Prerequisites: MUP 140 [Min Grade: C]

MU 235. English and Italian Diction. 2 Hours.
Instruction in standard English and Italian stage pronunciation.

MU 236. French and German Diction. 2 Hours.
Instruction in the standard French and German stage pronunciation.

MU 245. Recording Technology I. 3 Hours.
Concepts and techniques of music production in recording studios. Limited enrollment. First class meets on campus.
Prerequisites: MU 115 [Min Grade: C] and MU 221 [Min Grade: C] and MU 224 [Min Grade: C]

MU 261. Introduction to Music Literature. 3 Hours.
Score reading and elementary analysis. Chronological survey of styles and forms of each historical period. Basic music reading ability.

MU 282. Accompanying. 3 Hours.
Principles of accompanying singers and instrumentalists; practical experience in accompanying; and facility in sight-reading for keyboard performers. Experience is gained through assigned projects and/or assigned studio accompanying.

MU 298. Introduction to Technology in the Arts. 3 Hours.
Applications of computer-based technology to the arts: music, theatre, video, and visual arts. Demonstrations of multimedia capabilities.

MU 299. Independent Studies. 1-3 Hour.
May be repeated for credit. Permission of Department Chair based on written proposal submitted prior to registration.
MU 303. Foundations of Music Education. 3 Hours.
Analysis into the historical, social, and philosophical foundations of music education by studying the application of education principles to music and emphasizing the development of a personal philosophy towards music education.
Prerequisites: MU 203 [Min Grade: C]

MU 321. Music Theory III. 3 Hours.
Emphasizes chromatic harmony, modulation, and the analysis of musical form.
Prerequisites: MU 222 [Min Grade: C] and MU 225 [Min Grade: C]

MU 322. Music Theory IV. 3 Hours.
Emphasizes chromatic harmony and voice-leading, the expansion of tertian harmony, and includes an overview of 20th century and contemporary compositional and analytical techniques.
Prerequisites: MU 321 [Min Grade: C] and MU 324 [Min Grade: C] and MUP 125 [Min Grade: C]

MU 324. Aural Skills III. 1 Hour.
Required laboratory for MU 321. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: MU 225 [Min Grade: C] and MU 222 [Min Grade: C]

MU 325. Aural Skills IV. 1 Hour.
Required laboratory for MU 322.
Prerequisites: MU 324 [Min Grade: C] and MU 321 [Min Grade: C] and MUP 125 [Min Grade: P]

MU 329. Conducting. 2 Hours.
Basic conducting techniques and rehearsal procedures.

MU 330. Marching Band Techniques. 3 Hours.
Organizing and administering a marching band, including show design and computer-assisted drill-writing experience.

MU 331. Band Literature. 3 Hours.
Frequently performed modern concert band literature.

MU 332.Instrumental Literature II. 3 Hours.
Introduction to the layout of instrumental scores, a history and development of the orchestra, extensive work with transpositions, ranges, and tone colors of instruments, and a thorough study of instrumental literature including orchestral, wind, and chamber music.
Prerequisites: MU 232 [Min Grade: C]

MU 333. Piano Literature II. 3 Hours.
Survey of the important solo repertoire from the early Romantic era through the present. Examination of the development of piano technique from Chopin and Liszt through Cage and Crumb by playing, analyzing and listening.
Prerequisites: MU 233 [Min Grade: C]

MU 334. Vocal Literature II. 3 Hours.
Introductory survey of representative non-operatic solo vocal repertoire of France, Germany, and Austria. Techniques of song study, interpretation, and performance practice.
Prerequisites: MU 234 [Min Grade: C] and MU 236 [Min Grade: C]

MU 341. Computer Music II. 3 Hours.
Using computer applications, including MIDI and sampling technology, in the creation of musical compositions.
Prerequisites: MU 115 [Min Grade: C] and MU 221 [Min Grade: C] and MU 224 [Min Grade: C]

MU 342. Computer Music III. 3 Hours.
Continuation of MU 341. Advanced computer music projects utilizing sound synthesis, sound file manipulation, and hard disk recording techniques.
Prerequisites: MU 222 [Min Grade: C] and MU 225 [Min Grade: C] and MU 245 [Min Grade: C] and MU 341 [Min Grade: C]

MU 345. Recording Technology II. 3 Hours.
Advanced concepts and techniques of multitrack recording in project and professional recording studio, including signal processing mixing and mastering.
Prerequisites: MU 115 [Min Grade: C] and MU 221 [Min Grade: C] and MU 224 [Min Grade: C] and MU 245 [Min Grade: C]

MU 359. Composition I. 1-2 Hour.
Discussions and creative projects designed to help beginning composers or arrangers gain experience in handling variety of musical styles, and in shaping musical ideas. May be repeated for maximum of 3 hours credit.
Prerequisites: MU 322 [Min Grade: C]

MU 364. American Music. 3 Hours.
Music in United States from colonial times to the present.
Prerequisites: MU 120 [Min Grade: C] or MU 261 [Min Grade: C]

MU 365. The Evolution of Jazz. 3 Hours.
Origins and survey of jazz types and styles. Lectures, recordings, and readings.
Prerequisites: MU 120 [Min Grade: C] or MU 261 [Min Grade: C]

MU 366. Music in World Cultures. 2-3 Hours.
Characteristics of musical styles found in various cultures throughout the world. 3-hour option requires semester project directed by the instructor.

MU 367. Introduction to Ethnomusicology. 3 Hours.
Holistic approach to study of music. Musicians' training, instruments, and role in society. Methods for documenting and transcribing, social functions and economic context, and theories of performance and creativity. Ghanaian and Indian traditions, with other music, including Western, as appropriate. Six semester hours of ANTH, MU or MUP courses required.
Prerequisites: MU 120 [Min Grade: C] or MU 120 [Min Grade: C]

MU 381. Instrumental Pedagogy. 3 Hours.
Overview of important components of teaching instrumental music in the secondary school program, including developing a personal philosophy of music education and teaching strategies. Prerequisites: Four terms of Applied Lessons (MUP 161 - 195).

MU 382. Piano Pedagogy. 3 Hours.
Study of teaching objectives, techniques, literature, methods and materials (including observation) for the pre-college student as well as the study of the history of the piano and piano mechanism. Two terms of Applied Piano required.
Prerequisites: MUP 150 [Min Grade: C]

MU 383. Vocal Pedagogy. 3 Hours.
Principles of healthy voice production as the foundation for an approach to teaching voice. Two terms of Applied Voice required.
Prerequisites: MUP 140 [Min Grade: C]

MU 399. Independent Studies. 1-3 Hour.
Permission of Department Chair based on written proposal submitted prior to registration.

MU 410. Music Technology Workshop. 1-3 Hour.
Workshop in Music Technology.
MU 429. Advanced Conducting/Techniques. 2 Hours.
Rehearsal techniques, expression, and interpretation. May occasionally work with University ensembles.
Prerequisites: MU 329 [Min Grade: C]
MU 431. Methods of Teaching Music N-6. 3 Hours.
Organization of appropriate music concepts and musical experiences for all young learners; elementary children; development of methods and skills needed for direct student involvement in musical experiences for each grade level.
MU 432. Methods I: Choral Music. 3 Hours.
Introduction to teaching choral music to adolescent learners. Developing basic skills in planning, instruction, and assessment.
MU 433. Methods I: Instrumental Music. 3 Hours.
Introduction to teaching instrumental music to adolescent learners. Developing basic skills in planning, instruction, and assessment.
MU 441. Multimedia Productions. 3 Hours.
Techniques for producing music for television, film, video, computer presentations, and slide shows using computer-based technologies.
Prerequisites: MU 321 [Min Grade: C] and MU 324 [Min Grade: C] and MU 342 [Min Grade: C] and MU 345 [Min Grade: C]
MU 445. Modal Counterpoint. 3 Hours.
Important characteristics of vocal polyphonic writing based on modal scales with emphasis on style of Palestrina and other Renaissance composers.
Prerequisites: MU 222 [Min Grade: C]
MU 446. Tonal Counterpoint. 3 Hours.
Important characteristics of polyphonic writing based on major and minor scales with emphasis on style of J.S. Bach and other eighteenth century composers.
Prerequisites: MU 322 [Min Grade: C]
MU 448. Orchestration. 3 Hours.
Scoring techniques for orchestra, band, and other instrumental groups.
Prerequisites: MU 322 [Min Grade: C]
MU 451. Topics in Music Theory. 3 Hours.
Aspects of music theory and analysis. May be repeated for credit.
Prerequisites: MU 322 [Min Grade: C]
MU 455. Form and Analysis. 3 Hours.
Principles and techniques of organization in tonal music; analytical methods.
Prerequisites: MU 322 [Min Grade: C]
MU 458. Contemporary Techniques. 3 Hours.
Techniques and materials employed in contemporary music, including nonfunctional and nontertian harmony, polyharmony, atonal and serial music, contemporary notation.
Prerequisites: MU 322 [Min Grade: C]
MU 459. Composition II. 1-2 Hour.
Directed individual projects in composition and discussions on related topics. May be repeated for credit.
Prerequisites: MU 359 [Min Grade: C]
MU 461. Seminar in Music Literature. 3 Hours.
Selected topics concerning specific periods, genres, and forms. May be repeated for credit.
Prerequisites: MU 400 [Min Grade: C] and (MU 222 or MU 435)
MU 462. Methods II: Choral Music. 3 Hours.
Preparation to plan, teach and assess choral music with adolescent learners: making informed decisions about context, learners, learner differences, teaching strategies, methodologies, curricula, and assessment.
Prerequisites: MU 432 [Min Grade: C]
MU 463. Methods II: Instrumental Music. 3 Hours.
Preparation to plan, teach, and assess instrumental music with adolescent learners: making informed decisions about context, learners, learner differences, teaching strategies, methodologies, curricula, and assessment.
Prerequisites: MU 433 [Min Grade: C]
MU 471. Music History and Literature to 1750. 3 Hours.
Major developments of music styles and forms from pre-Christian era through Baroque. Includes critical listening to selected musical examples.
Prerequisites: MU 222 [Min Grade: C]
MU 472. Music Hist/Lit 1750-Present. 3 Hours.
A course taken in the student¿s junior or senior year that studies the major developments of musical styles and forms from the classical period through the present. This includes critical listening to selected musical examples as well as critical analysis, research and writing. Writing is a significant component of this course.
Prerequisites: MU 222 [Min Grade: C]
MU 498. Music Technology Internship. 1-2 Hour.
This capstone experience provides students in Music Technology with practical experience in.
Prerequisites: MU 342 [Min Grade: C] and MU 345 [Min Grade: C] and MU 441 [Min Grade: C]
MU 499. Independent Studies. 1-3 Hour.
Directed studies in music. Permission of Department Chair. Written proposal must be submitted prior to registration.

MUP-Music Performance Courses

Courses

MUP 001. Performance Attendance. 0 Hours.
Attendance at Department-approved musical events such as concerts, recitals, and festivals. Required of music, music technology, and music education majors.

MUP 110. Gospel Choir. 1 Hour.
Primarily performs choral literature from the Major Eras of American Gospel Music. Open to students of all majors. May be repeated for credit.

MUP 120. University Chorus. 1 Hour.
Non-auditioned ensemble open to students of all majors, performing larger masterworks for choir and orchestra. May be repeated for credit.

MUP 122. Class Voice. 1 Hour.
Fundamentals of singing for teaching or performance. Group and individual instruction.

MUP 124. Class Piano. 1 Hour.
Basic keyboard skills for adult beginner. May be repeated for maximum of 3 hours of credit.

MUP 125. Piano Proficiency Exam. 0 Hours.
Required of music majors for graduation and music education majors before entering Teacher Education Program (TEP).

MUP 130. Class Guitar. 1 Hour.
Beginning course in basic guitar techniques and music reading. Student must have a classic or acoustic guitar.
MUP 132. Class Woodwinds. 1 Hour.
Basic materials and performance techniques, primarily for music education students.

MUP 134. Class Brass. 1 Hour.
Basic materials and performance techniques, primarily for music education students.

MUP 136. Class Percussion. 1 Hour.
Basic materials and performance techniques, primarily for Music Education students.

MUP 138. Class Strings. 1 Hour.
Basic materials and performance techniques, primarily for Music Education students.

MUP 140. Private Lessons: Voice. 1 Hour.
Private instruction in voice. Limited to Music Majors and Minors.

MUP 150. Private Lessons: Piano. 1 Hour.
Private instruction in Piano. Open to all majors by audition.

MUP 161. Private Lessons: Flute. 1 Hour.
Private instruction in flute. Limited to Music majors and minors.

MUP 162. Private Lessons: Oboe. 1 Hour.
Private instruction in oboe. Limited to Music majors and minors.

MUP 163. Private Lessons: Clarinet. 1 Hour.
Private instruction in clarinet. Limited to Music majors and minors.

MUP 164. Private Lessons: Saxophone. 1 Hour.
Private instruction in saxophone. Limited to Music majors and minors.

MUP 166. Private Lessons: Bassoon. 1 Hour.
Private instruction in bassoon. Limited to Music majors and minors.

MUP 171. Private Lessons: Trumpet. 1 Hour.
Private instruction in trumpet. Limited to Music majors and minors.

MUP 172. Private Lessons: French Horn. 1 Hour.
Private instruction in french horn. Limited to Music majors and minors.

MUP 173. Private Lessons: Trombone. 1 Hour.
Private instruction in trombone. Limited to Music majors and minors.

MUP 174. Private Lessons: Euphonium. 1 Hour.
Private instruction in euphonium. Limited to Music majors and minors.

MUP 175. Private Lessons: Tuba. 1 Hour.
Private instruction in tuba. Limited to Music majors and minors.

MUP 180. Private Lessons: Percussion. 1 Hour.
Private instruction in percussion. Limited to Music majors and minors.

MUP 191. Private Lessons: Violin. 1 Hour.
Private instruction in violin. Limited to Music majors and minors.

MUP 192. Private Lessons: Viola. 1 Hour.
Private instruction in viola. Limited to Music majors and minors.

MUP 193. Private Lessons: Cello. 1 Hour.
Private instruction in cello. Limited to Music majors and minors.

MUP 194. Private Lessons: Bass. 1 Hour.
Private instruction in bass. Limited to Music majors and minors.

MUP 195. Private Lessons: Guitar. 1 Hour.
Private instruction in guitar. Limited to Music majors and minors.

MUP 220. Concert Choir. 1 Hour.
Performs choral music representing a variety of periods and styles. Some sight-reading ability necessary. May be repeated for credit.

MUP 220L. Concert Choir Learning Lab. 0 Hours.
Required Learning Lab for MUP 220 Concert Choir. Performs choral music representing a variety of periods and styles. Some sight-reading ability necessary.

MUP 221. Jazz Combo. 1 Hour.
Performs repertoire of traditional and contemporary jazz for small ensembles. Rehearsals will focus on reading from “Real Books” and will include harmonic analysis as well as a study of basic improvisation, form and style.

MUP 222. Advanced Woodwind Methods. 1 Hour.
Methods and materials for music educators in the specialized techniques of woodwind (flute, oboe, clarinet, saxophone, bassoon) pedagogy; emphasis on learning through performance and preparing and teaching in-class lessons.
Prerequisites: MUP 132 [Min Grade: C]

MUP 224. Advanced Brass Methods. 1 Hour.
Methods and materials for music educators in the specialized techniques of brass (trumpet, trombone, horn, euphonium, tuba) pedagogy; emphasis on learning through performance and preparing and teaching in-class lessons.
Prerequisites: MUP 134 [Min Grade: C]

MUP 225. Symphony Band. 1 Hour.
Performs concert band literature. Open to students of all majors. May be repeated for credit.

MUP 226. Advanced Percussion Methods. 1 Hour.
Methods and Materials for music educators in the specialized techniques of percussion pedagogy; emphasis on learning through performance and preparing and teaching in-class lessons.
Prerequisites: MUP 136 [Min Grade: C]

MUP 230. Guitar Ensemble. 1 Hour.
Performs original and pre-arranged selections of guitar ensemble literature. May be repeated for credit.

MUP 231. Orchestra. 1 Hour.
Participation in community orchestra. Open to string students; wind or percussion players must enroll concurrently in MUP 225, MUP 235 or MUP 236.

MUP 232. Marching Band. 1 Hour.
Supports UAB football program by performing pre-game and half time shows. May also perform for other special University or community events. Open to students of all majors with marching band experience. May be repeated for credit.

MUP 233. Clarinet Choir. 1 Hour.
Performs works for clarinet choir in a chamber setting. Open to students of all majors. May be repeated for credit.

MUP 234. Percussion Ensemble. 1 Hour.
Performs original and pre-arranged selections of concert percussion literature. Advanced percussion skill necessary. Open to students of all majors. May be repeated for credit.

MUP 235. Wind Symphony. 1 Hour.
Performs finest concert band literature. Open to students of all majors. May be repeated for credit.

MUP 235L. Wind Symphony Learning Lab. 0 Hours.
Required Learning Lab for MUP 235 Wind Symphony. Performs finest concert band literature. Open to students of all majors.

MUP 236. Jazz Ensemble. 1 Hour.
Performs classic and contemporary jazz, swing, and rhythm and blues. May be repeated for credit.
MUP 237. Blazer Band. 1 Hour.
Supports UAB basketball program by performing at games. May also perform for other special University or community events. Open to students of all majors. May be repeated for credit.

MUP 238. Brass Ensemble. 1 Hour.
Performs works for brass ensemble in a chamber setting. Open to students of all majors. May be repeated for credit.

MUP 239. Tuba/Euphonium Ensemble. 1 Hour.
Performs works for low brass ensemble in a chamber setting. Open to students of all majors. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Private instruction in piano, including weekly performance class. Open to all majors by audition.

MUP 253. Private Lessons: Jazz Piano. 1,2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 262. Private Lessons: Oboe. 1-2 Hour.
Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 263. Private Lessons: Clarinet. 1-2 Hour.
Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 265. Jazz Improvisation. 3 Hours.
Jazz theory and improvisational techniques. Emphasis on basic repertory of standards and typical jazz forms. Stresses both performance and theory.

MUP 266. Private Lessons: Bassoon. 1-2 Hour.
Private instruction in bassoon. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.

MUP 267. Private Lessons: Jazz Saxophone. 1,2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 274. Private Lessons Euphonium. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 276. Private Lessons: Jazz Trumpet. 1,2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

MUP 277. Private Lessons: Jazz Trombone. 1,2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 281. Private Lessons: Jazz Percussion. 1-2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 283. Private Lessons: Cello. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 286. Private Lessons: Chamber Singers. 1 Hour.
Advanced choral group. Performs variety of choral music representing different periods and styles. By audition only. Advanced music-reading skills required. May be repeated for credit.

MUP 321. Women's Chorale. 1 Hour.
Performs choral music for women's voices and covers a variety of periods and styles. Some sight-reading ability necessary. May be repeated for credit.
Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 341. Computer Music Ensemble. 1 Hour.
Performs computer and other electronically generated music of various styles.
Prerequisites: MU 222 [Min Grade: C] and MU 225 [Min Grade: C] and MU 341 [Min Grade: C]

Private instruction in piano, plus weekly performance class. Open to all majors by audition.

MUP 353. Piano Ensemble. 1 Hour.
Explores piano literature for multiple performers. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 363. Private Lessons: Clarinet. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Private instruction in bassoon. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 373. Private Lessons: Trombone. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 381. Private Lessons: Violin. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 393. Private Lessons: Cello. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 397. Junior Recital. 0 Hours.
Thirty-minute recital presented in the junior year.

MUP 420. Opera Workshop. 1 Hour.
Select member group. Performs staged productions of operas, opera scenes, and musical theater excerpts. Requires advanced music-reading skills. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 340 [Min Grade: C]

Limited to Music majors and minors. Weekly performance class and private lesson, to be.
Prerequisites: MUP 350 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 361 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 362 [Min Grade: C]

MUP 463. Private Lessons: Clarinet. 1-2 Hour.
Private instruction in clarinet. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.
Prerequisites: MUP 363 [Min Grade: C]
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 364 [Min Grade: C]

MUP 466. Private Lessons: Bassoon. 1-2 Hour.
Private instruction in bassoon. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.
Prerequisites: MUP 366 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 371 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 372 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 373 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 374 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 375 [Min Grade: C]

Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 380 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 391 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 392 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 393 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 394 [Min Grade: C]

NBL-Neurobiology

Courses

NBL 120. Basic Neuroscience. 3 Hours.

NBL 121. Basic Neuroscience. 3 Hours.

NBL 150. Neuroscience for Non-Majors. 3 Hours.
Neuroscience is one of the fastest growing disciplines in all of science. Using tools and perspectives adopted from across many scientific realms, neuroscience researchers have now learned more about the brain in the last two decades than in all of human history combined. Like never before, neuroscience is providing us with information pertinent to our everyday lives and in the process become a part of contemporary culture. In this lecture and discussion-based course, we will explore a range of neuroscience-related topics, including but not limited to creativity, consciousness, perception, love and emotion, brain health, motivation, stress, personality, and the differences between the male and female brain. There will be no required text for the course, and participants need no scientific background to participate.

NBL 210. Scientific Reasoning and Medical Research Design. 3 Hours.
The goal of this course is to teach biomedical research design basics and critical thinking skills in the context of neuroscience research. This knowledge should be helpful for understanding and conducting scientific research, as well as for the updated sections of the 2015 MCAT test for medical school admission.

NBL 220. Special Topics Neuroscience 1. 1 Hour.
This course covers different topics that have to do with Neurobiology.

NBL 222. Special Topics Neuroscience 2. 2 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 225. No Self Control: Motivation, Reward and Addiction. 3 Hours.
Survival of self and species has been evolutionarily wired into the brain. Largely, involving sub-cortical networks, animals are strongly rewarded by beneficial outcomes and driven away from aversive situations. Overseeing these opposing subconscious determinants of motivated behavior is a pre-frontal cortical command center, which along with additional systems that provide for experiential memory and emotional significance, guide the choices we make. This course will provide the participant with an introduction to the neuronal pathways that underlie normal decision making, with a major focus on how this circuitry becomes compromised during addiction. These topics should be relevant to students interested in biomedicine, health professions or counseling.
NBL 230. Brain Science: Biology, Disorders, and Clinical Therapies. 3 Hours.
This course is an introduction to the mammalian nervous system, intended to give a strong foundation or understanding of the human brain. Topics include the composition and function of neurons and glia, sensory systems and perception, movement, basic learning and memory, and select diseases of the brain. Students also explore the principles of experimental design and apply those to contemporary neuroscience techniques.

NBL 240. Introduction to Neuroscience Methods. 3 Hours.
This course is designed to develop practical, experience-based laboratory skills in undergraduate student researchers with minimal prior laboratory exposure. Students will be exposed to a variety of techniques ranging from cellular and molecular to vertebrate animal applications. Any student that completes this course should have the rudimentary skills (and confidence!) to begin supervised research in primary laboratories around campus. No background in Neuroscience required.

NBL 245. The Neurobiology of Learning and Memory. 3 Hours.
This course focuses on the biological mechanisms involved in the processes of learning and memory in the nervous system. We will examine these mechanisms at the molecular, cellular and systems levels of the brain. Topics range from memory-associated molecules and synaptic plasticity to animal models and human behavior. In addition, students will be introduced to the many behavioral paradigms and molecular genetic techniques used by neuroscientists to study learning and memory in the brain.

NBL 298. Special Topics Neuroscience 4. 1 Hour.
This course covers different topics that have to do with Neurobiology.

NBL 310. Evolution of the Vertebrate Brain. 3 Hours.

NBL 311. From Wet Brains to Artificial Stupidity. 1-3 Hour.

NBL 323. Special Topics Neurobiology 1. 1 Hour.
This course covers different topics that have to do with Neurobiology.

NBL 325. Special Topics Neurobiology 3. 2 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 327. 100 Things You've Always Wanted to Know About the Brain. 3 Hours.
This course examines intriguing questions in neuroscience as they are presented to the layperson through TED Talks, video presentations, podcasts, Scientific American articles, and newspaper/magazine science op-eds. The aim is to expose students to a wide range of topics about the brain, some fundamental, some controversial, in ways they may not have thought about before; challenging them to discuss the evidence for and against various theories of brain function. There will be no memorization of information, only the willingness to read, post and discuss scientific opinions on articles/videos. Non majors are encouraged!

NBL 355. Mechanisms of Synaptic Transmission. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize the development, anatomy, cellular and molecular biology and biochemistry of neurons and glial cells, and introduce electrical, biophysical and chemical signaling within and across neurons.

NBL 356. Mechanisms of Sensation, Movement & Cognition. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize mechanisms of synaptic transmission, sensory systems, neuropharmacology, and synaptic plasticity; and introduce the molecular basis of diseases and disorders of the central and peripheral nervous systems.

Prerequisites: PY 355 [Min Grade: C] or NBL 355 [Min Grade: C]

NBL 390. Neurobiology Research Laboratory. 3 Hours.
Hands-on instruction will be provided in contemporary methods used in neurobiology research. These will include molecular cloning, DNA sequencing, cell transformation and culture, western blotting, immunohistochemistry and electrophysiology.

NBL 398. Rescg Prac in Neurobiology-RES. 1-6 Hour.
Project or research activity supervised by faculty. Cannot be taken Pass/ Fail.

NBL 399. Senior Seminar in Neuroscience. 3 Hours.
All (Thesis Track) Neuroscience majors will participate in the Senior Seminar, which is a capstone experience in their study of Neuroscience. The seminar will meet weekly for in-depth discussions of current topics in neuroscience. Over the course of the semester, students will independently develop and complete a capstone research paper on a topic of their choosing while working closely with a supervising faculty member. The research report serves as a culminating academic and intellectual experience that works to develop critical thinking, research skills, and both written and oral communication. Students will present their papers at the completion of the course. (Fall and Spring availability).

NBL 401. Colloquium in Basic, Cognitive and Clinical Neuroscience. 1 Hour.
The Colloquium in Basic, Cognitive and Clinical Neuroscience is a faculty seminar. The Colloquium will expose students to cutting edge research programs and technologies from approximately 25 faculty each year who serve as mentors for the Undergraduate Neuroscience Major and Graduate Neuroscience Program. Faculty will also discuss strategies for development of careers in medicine and research. Students will prepare by reading an assigned research article authored by the speaker and be prepared for a group discussion. Class meets for one and a half hours a week.

NBL 410. Molecular Biology of the Neuron. 3 Hours.
Molecular Neuroscience will provide students an advanced understanding of how the brain works with a focus on protein function. Everything the brain does is built upon the actions of proteins, many of which are completely unique to the brain. Together we will work to thoroughly understand the exact molecular mechanisms utilized by the brain to support the complex function of our most fascinating organ. Topics covered will include brain morphogenesis, axonal outgrowth, synapse formation, neurotransmitter biosynthesis, intracellular signaling, and the blood brain barrier. This lecture course is designed to fulfill a neuroscience major’s requirement for an advanced course. Non-neuroscience majors should seek course master approval before enrolling and must have a significant background in biology and/or chemistry. Students will be required to purchase a text. Grades will be assigned based on points accumulated through weekly quizzes, cumulative exams, and written reports.

Prerequisites: (NBL 230 [Min Grade: C] or PY 253 [Min Grade: C]) and (NBL 355 [Min Grade: C] or PY 355 [Min Grade: C]) and (NBL 356 [Min Grade: C] or PY 356 [Min Grade: C])
Courses

NBL 425. Methods in Human Neuroimaging. 3 Hours.
Cognitive neuroscience research has provided valuable insights into the workings of the human brain. The ability to perform neuroimaging studies on awake human individuals engaged in cognitive, social, sensory, and motor tasks has produced a conceptual revolution in the study of human cognition. This course will comprehensively examine the methods and techniques in neuroimaging with the primary goal of building basic knowledge in the concepts and techniques of neuroimaging. The course will explore techniques, such as single and multi cell recordings, deep brain stimulation, electroencephalography, magnetoencephalography, and diffusion tensor imaging, and focuses on functional magnetic resonance imaging. Course goals: By the end of the course, students will have gained basic knowledge in the field and will be able to read and critically assess scientific journal articles that make use of a variety of neuroimaging methods. The secondary and implicit goal of this course is to create and nurture, in students, a genuine interest in neuroscience and neuroimaging.

NBL 430. Neurodevelopment and its Disorders. 3 Hours.
This course will cover fundamental principles of brain development in the context of neurodevelopmental disorders associated with autism and intellectual disability. We will meet 3 times a week for 1 hour lectures by the course director and at least 4 other faculties from Neurobiology and Psychology.

NBL 433. Diseases of the Nervous System. 3 Hours.
Molecular mechanisms and treatments for neurological, psychiatric, and injury based disorders and diseases of the nervous system. Topics include neurodevelopmental disorders (including intellectual disability and autism spectrum disorders), neurological disorders (including neurodegenerative and demyelinating disease), neuropsychiatric disorders (including depression disorders and schizophrenia), and injury to the nervous system (including stroke and traumatic brain and spinal cord injury).
Prerequisites: PY 356 [Min Grade: C] or NBL 356 [Min Grade: C]

NBL 434. Mechanisms of Memory, 3 Hours.
Molecular, cellular, systems and medical components of neuroscience, with an emphasis on cognition and cognitive disorders. Covers topics ranging from genes and molecules to human behavior, using cognitive function and clinical cognitive disorders as the unifying theme, with a focus on learning and memory and disorders of these processes.
Prerequisites: (NBL 355 [Min Grade: C] or PY 355 [Min Grade: C]) and (NBL 356 [Min Grade: C] or PY 356 [Min Grade: C])

NBL 440. Special Topics Neuroscience 1. 1 Hour.
This course covers different topics that have to do with Neurobiology.

NBL 442. Sp Tp Neuroscience 2. 2 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 444. Special Topics Neuroscience 3. 3 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 446. Special Topics Neuroscience 4. 4 Hours.
This course covers different topics that have to do with Neuroscience.

NBL 454. Mind/Brain Course. 3 Hours.

NMT-Nuclear Medicine Tech Courses

NMT 304. Physics for Technologists. 8 Hours.
Mechanics, static and dynamic fluids, wave motion, heat, sound, electricity, magnetism, and light; fundamental concepts of physics with mathematical formulation to enhance problem-solving skills.
Prerequisites: MA 105 [Min Grade: C] or MA 106 [Min Grade: C]

NMT 320. Human Pathophysiology. 3 Hours.
Introduction to basic disease concepts, theories of disease causation and pathophysiologic disorders most frequently encountered in clinical practice.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C]

NMT 400. Intro to Clinical Nuclear Medicine Technology. 2 Hours.
Overview of professional organizations and nuclear medicine; hospital organization; medical terminology; medical records; introduction to other aspects of nuclear medicine technology including ethics concerning the hospital setting; writing assignments on professionalism and hospital ethics. Writing and Ethics and Civic Responsibility are significant components of this course.

NMT 401. Introduction to MRI Clinic. 2 Hours.
This course is designed to provide students with the practical aspect of Magnetic Resonance Imaging. The role of MRI technologists, patient management, MRI screening and safety procedures, quality assurance procedures and FDA guidelines will be discussed.
Prerequisites: NMT 424 [Min Grade: C] or NMT 417 [Min Grade: C]

NMT 404. Patient Care. 2 Hours.
Basic patient care theory and techniques including standard precautions, infection control, vital signs venipuncture patient transfer techniques, immobilization techniques, aseptic and nonaseptic techniques, oxygen administration, and medical emergencies which are required for nuclear medicine students prior to entering clinical training.

NMT 405. Cross-Sectional Anatomy. 3 Hours.
Integration of the knowledge of gross anatomy with the identification and location of structures in cross-sectional images. Computer Tomography (CT), Magnetic Resonance (MR), and Diagnostic Ultrasound (US) images in various anatomical planes will be used to locate and identify anatomical structures.

NMT 410. Medical Radiation Physics. 4 Hours.
Qualitative and quantitative concepts of radiation physics pertaining to medical applications in nuclear medicine, radiology, and radiation therapy; atomic and nuclear structure, radioactive decay, properties of radiation; x-ray production; artificial production; photon interactions in matter and shielding attenuation processes.
Prerequisites: MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

NMT 421. Instrumentation I. 3 Hours.
Theoretical and practical concepts in radiation detection instrumentation; calibration; maintenance standards; practical uses of gaseous detectors, scintillation detectors, and multichannel analyzers; quality assurance testing for nuclear medicine instrumentation including GM detectors, ionization chambers and scintillation detectors; gamma spectrometry of all commonly used nuclear medicine radionuclides. Principles of in vivo and in vitro counting and imaging using probe counters, well counters, and scintillation gamma cameras; scintillation gamma camera quality control; types of collimators used in nuclear medicine, their use and function.
NMT 421L. Instrumentation I Laboratory. 1 Hour.
Introduction to basic radiation and nuclear counting instrumentation. Utilizing proper calibration of the Multi-Channel Analyzer (MCA) and Geiger Muller (G-M) Counter. Determine the proper operating voltage, detector efficiency, window width, and amplifier gain and energy resolution of the MCA. Proper counting statistics and dual isotope counting labs will emphasize the importance of proper use of nuclear counting instrumentation.

NMT 422. Instrumentation II. 3 Hours.
Applies computer fundamentals to the acquisition and processing of nuclear medicine patient data. Quantitative planar studies as well as SPECT/PET image reconstruction, filtering, and attenuation correction are presented. Quality control of SPECT and PET camera system.
Prerequisites: NMT 421 [Min Grade: C]

NMT 423. Computed Tomography. 3 Hours.
Provide theoretical principles of Computed Tomography (CT) using the historical development of CT and the physical principles underlying CT scanning, CT instrumentation, data acquisition, data processing and image quality.

NMT 424. Physics/Instrumentation of Nuclear Magnetic Resonance. 3 Hours.
Fundamental physical principle of nuclear magnetic resonance, including structure of atom, concept of resonance, Larmor frequency, gyromagnetic ratio, T1 and T2 and methods of generating magnetic fields; theory of operation of NMR spectrometers and imagers, including function of basic components, effects of linear gradients, signal processing, slice definition and image reconstruction.

NMT 431. Nuclear Medicine Procedures I. 4 Hours.
Study of the utilization of nuclear medicine procedures and the nuclear medicine technologist's responsibilities in completing a procedure involving the skeletal, respiratory, endocrine, gastrointestinal and genitourinary systems. Anatomy and relevant concepts in physiology are reviewed and applied to each procedure. Common pathologies demonstrated with each procedure are also discussed.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C]

NMT 432. Nuclear Medicine Procedures II. 4 Hours.
Instruction of various nuclear medicine procedures and the nuclear medicine technologist's responsibilities for completing a procedure involving nuclear cardiology, oncology, central nervous and hematopoietic systems and applications of position emission tomography. Anatomy and relevant concepts in physiology are reviewed and applied to each procedure. Common pathologies demonstrated with each procedure and the basics of three and twelve lead ECGs.
Prerequisites: NMT 431 [Min Grade: C]

NMT 433. Computed Tomography Procedures. 3 Hours.
Provide a solid foundation of Computed Tomography (CT) Procedures through basic CT scanning concepts and image quality, detailed discussions about CT positioning criteria, specific selections, and options in protocols. Understanding concepts in advanced CT including interventional imaging, virtual reality imaging, positron emission tomography and special procedures.
Prerequisites: NMT 405 [Min Grade: C] or RTT 402 [Min Grade: C] and NMT 423 [Min Grade: C][Can be taken Concurrently] or RTT 403 [Min Grade: C]

NMT 434. MRI Scanning and Sequence. 3 Hours.
This course will provide the students with a solid foundation of the magnetic resonance imaging (MRI) modality. Basic MRI theory will be reviewed along with detailed discussion about imaging sequences, parameter optimizations, and imaging procedures will be extensively discussed. Advanced concepts such as flow imaging, and MR spectroscopy will also be discussed.
Prerequisites: NMT 405 [Min Grade: C] and NMT 424 [Min Grade: C]

NMT 441. Radiation Protection and Biology. 3 Hours.
Principles and methods of radiation protection, health physics units, measurement, and dose limiting regulations for occupationally and non occupationally exposed individuals; radiation surveys, techniques and decontamination methods, monitoring of radioactive waste, radiation dose measurements, and radionuclide accountability; special topics, including precautions with brachytherapy patients, with patients receiving therapeutic amounts of radionuclides, and in management of accidentally contaminated individuals. Physical, chemical and biological mechanisms involved in action of different types of radiations on living cells and their components are covered. Emphasis is given to being able to interpret how to respond to a malicious radiological exposure incident in an appropriate manner.

NMT 442. Application of Radiation Protection and Biology. 1 Hour.
Introduction to basic radiation physics and radiation protection experiments, emphasizing the ALARA concept; basic concepts of radiation safety (including time, distance and appropriate shielding), half-lives, half value layers for different absorbers and radioisotopes, the inverse square law, semi-log graphing and calibration and use of nuclear counting instrumentation; proper calibration of the Multi Channel Analyzer (MCA) and Geiger Muller (G-M) Counter; proper operating voltage, detector efficiency, and window width, proper counting statistics and dual isotope counting labs.

NMT 443. Regulatory Issues. 2 Hours.
Basic knowledge of appropriate rules, regulations and work practices governing the use of radioactive materials in the medical setting to plan for and participate in a successful radiation safety compliance management program.

NMT 451. Communication Skills. 1 Hour.
This course explores the nature of the patient-technologist relationships, technologist-hospital professional relationship and the role of the technologist as a patient educator. Therapeutic communication skills, interviewing skills, and the psychosocial aspects of being a patient are discussed.

NMT 452. Health Law for NMT. 1 Hour.
Introduction to medical law and ethics presenting an overview of major ethical theories and their relation to health law. Topics covered include ethical dilemmas and ethical decision making models and their application to clinical practice; legal principles and their application to healthcare; issues concerning professional liability, informed consent, and malpractice.

NMT 453. Seminar III. 1 Hour.
Review of current literature applied to case study presentation.

NMT 460. Radiochemistry and Radiopharmacy. 2 Hours.
Introduction to fundamentals of radiopharmacy including radionuclide generator design and operation, labeling and quality control of Tc-99m labeled compounds, unit dose preparation and a review of federal regulations pertinent to radionuclides and radiopharmaceuticals; radiopharmaceutical design, IND process and the basic concepts of internal radiation dosimetry.
NMT 461. Radiopharmacy and Pharmacology Laboratory. 1 Hour. Utilizing the fundamentals of radiopharmacy including radionuclide generator design and operation, labeling and quality control of Tc-99m labeled compounds, unit dose preparation, and a review of federal regulations pertinent to radionuclides and radiopharmaceuticals along with the radiopharmaceutical design and the IND process and basic concepts of internal radiation dosimetry.

NMT 491. Clinical Practice I. 5 Hours. Directed clinical practice: in vivo procedures; instrumentation quality control; radiopharmacy; applied radiation safety procedures.

NMT 492. Clinical Practice II. 7 Hours. Directed clinical practice: in vivo procedures; instrumentation quality control; radiopharmacy; applied radiation safety procedures. Prerequisites: NMT 491 [Min Grade: C]

NMT 493. Clinical Practice III. 4-10 Hours. Directed clinical practice: in vivo procedures; instrumentation quality control; radiopharmacy; applied radiation safety procedures. Prerequisites: NMT 492 [Min Grade: C]

NMT 494. CT Clinical Practice. 12 Hours. Clinical application of the nuclear medicine program concepts with opportunity to observe, work, and train to become certified in CT; performance evaluated through clinical experiences, final evaluation, and a self-assessment.

NMT 495. MRI Clinical Practice. 12 Hours. Clinical application of the nuclear medicine program concepts with opportunity to observe, work, and train to become certified in MRI; performance evaluated through clinical experiences, final evaluation, and a self-assessment.

NMT 499. Correlative Imaging. 3 Hours. Capstone course encompassing all aspects of the nuclear medicine technology program to investigate and analyze the multifaceted nature of disease diagnosis and treatment in the United States, current trends in healthcare costs and payment methods, and healthcare disparities associated with these imaging tests This course consists of the three aspects of the University Quality Enhancement Plan including Ethics and Civic Responsibility, Writing and Quantitative Literacy.

NS-Natural Sciences/Math

Courses

NS 100. NSM Honors Seminar. 3 Hours. NSM Honors Seminar.

NS 101. Succeeding in the Sciences. 1 Hour. This one credit-hour course is designed to introduce freshmen NSM majors to the tools and techniques that will enhance their transition to college and improve their academic success. Goal setting, critical thinking, note-taking, time management, and other academic skills applicable to success in all NSM majors will be addressed along with exploring career options and gaining insight into the scientific approach used by faculty in their research.

NTR-Nutrition Sciences

Courses

NTR 220. Contemporary Issues in Nutrition. 3 Hours. Contemporary Issues in Nutrition is designed for non-health professional majors and will be particularly beneficial to those in education, communications, and business fields of study.

NTR 222. Nutrition and Health. 3 Hours. Introduction to principles of nutrition; essential nutrients and their relation to growth, maintenance, and optimal functioning of the body; dietary recommendations to promote wellness and prevent chronic disease.

NTR 225. Promoting Nutrition and Wellness for Healthy Communities. 3 Hours. This course will introduce students to one of the most critical health issues in the US today ¿ poor nutrition, unhealthy lifestyle styles and their consequences including the epidemic of obesity. Students will learn about the diverse range of individuals impacted by this issue and will discover the range of prevention, education and support services that are offered. This course will cover the following aspects of unhealthy lifestyles/poor nutrition: history and systemic causes, education and prevention, including policy and advocacy. The course is also designed to present a multicultural perspective on the issues and students will be encouraged to engage in service-learning in the field, read literature, listen to speakers and interact with individuals representing a range of ages, genders, ethnicities and socioeconomic status.

NTR 232. Lifecycle Nutrition. 3 Hours. Role of nutrition and dietary factors on the growth, development, and maintenance of health throughout the human life cycle. Nutritional guidelines/recommendations, special nutritional needs, physiology, and nutritional health concerns for each stage of the human lifecycle, from preconception through adulthood and aging. Prerequisites: NTR 222 [Min Grade: C]

NTR 320. Nutrition and the Consumer. 3 Hours. Contemporary nutrition topics that affect consumers, such as dietary supplements, food additives, food safety, food, genetically modified organisms in foods & integrative medicine. Techniques to communicate nutrition information to consumers. Prerequisites: NTR 222 [Min Grade: C]

NTR 330. Nutrition and Metabolism. 3 Hours. Metabolism and functions of nutrients after mixed meal intakes, including USDA MyPlate, low-carbohydrate or low-fat diets; biosynthesis of vitamins and co-factors and whole food sources; human requirements for energy, amino acids, minerals, and vitamins; food fortification; current human nutritional challenges and diseases. Prerequisites: NTR 222 [Min Grade: C]

NTR 420. Nutritional Genetics. 3 Hours. How behavioral practices, environmental influences, and genetic makeup interact to influence individual preferences and responses to foods. Models to incorporate the interaction of these factors in developing potential strategies to prevent disease and achieve better nutritional health.

NTR 421. Nutrition Assessment and the Nutrition Care Process. 3 Hours. Introduction to the Nutrition Care Process (NCP), a systematic approach to providing high-quality nutrition care. The NCP provides a framework for critical thinking and decision making. Gain factual knowledge, learn to apply course material through case study application, and explore fundamental principles in medical nutrition related content areas. Prerequisites: NTR 222 [Min Grade: D]
NUR-Nursing Courses

Courses

NUR 100. Student Success in Nursing. 2 Hours.
This course will provide instruction regarding the competencies developed by the university to assist pre-nursing freshman students in making the transition from high school to college. Within the competencies specified by the university, students will be exposed to related topics in the School of Nursing (SON). Faculty expectations and student responsibilities will not only focus on the pre-nursing general studies but also will facilitate a platform for introducing expectations of faculty in the SON. Students will be prepared for the SON admission process, emphasizing the importance of good study habits, time management, and test-taking skills. Student will visit the SON historical archive and the Lister Hill Library to view the Nightingale letters. CPR, basic skills, and a shadowing experience will give the students a sense of the holistic approach to the nursing model of care.

NUR 101. Survey of the Profession of Nursing. 2 Hours.
Will provide a greater knowledge of the nursing profession to assist pre-nursing freshmen students in making their final decision regarding their application to nursing school. Within the competencies specified by the university, students will also be exposed to related topics in the School of Nursing (SON). Faculty expectations and students responsibilities will not only focus on careers in nursing but also will facilitate a platform for introducing students to nursing regulation and career opportunities. The nursing curriculum will be presented and pedagogical links will be made between selected websites and the need for that knowledge for future registered nurses. Students will also be prepared for the licensure process, emphasizing the importance of high moral character. Guest speakers representing select Advanced Practice Nursing Roles will be available to answer questions and discuss their experiences as advanced practice nurses. Students will conclude the semester with a scholarly paper on the topic of their choice.

NUR 305. Principles of Oncology Nursing. 3 Hours.
This course provides a theoretical base for students to diagnose and manage oncology health problems in adults. Emphasis is placed on integration of knowledge of pathophysiology, clinical assessment, and nursing and medical management.
Prerequisites: NUR 334 [Min Grade: C] or NUR 347 [Min Grade: C]

NUR 307. Interprofessional Global Health Service Learning I. 1 Hour.
This course provides students with an opportunity to apply principles of interprofessional collaboration, community partnerships, and global health in the development of a plan to address a global health problem in collaboration with a community partner. Students apply concepts and theories related to global health, interprofessional collaboration, team building, community partnerships, and the ecological framework developing a plan to address a specific global health problem with a community partner. The course focuses on planning a service learning project that will benefit a community partner. The project is planned and carried through by an interprofessional team. The course is primarily experiential, with students' time spent on planning the project and learning leadership and project planning skills.

NUR 308. Interprofessional Collaboration (IPC) and Community Partnerships in Global Health. 1 Hour.
This course provides students with an understanding of principles of interprofessional collaboration and community partnerships that, together with key social and economic concepts of global health, enables them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. Working in interdisciplinary teams, students apply concepts and theories related to global health, interprofessional collaboration, team building, community partnerships, and the socioecological framework to develop a plan to address a specific global health problem with a community partner.

NUR 309L. Veterans Transition to Professional Nursing. 4 Hours.
The purpose of this course is to develop the skills necessary to complete a holistic assessment and to apply fundamental nursing concepts and processes in providing safe, quality family centered nursing care in a variety of settings, focusing on medically under-served populations. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the professional attributes of the nurse, legal and ethical implications for nursing practice and beginning care competencies.

NUR 310. Concepts of Professional Nursing. 3 Hours.
The purpose of this course is to introduce fundamental nursing concepts and processes of professional nursing that assist in providing safe, quality nursing care to clients and their families. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the professional attributes of the nurse, legal and ethical implications for nursing practice and beginning care competencies.

NUR 311L. Nursing Skills Development I. 2 Hours.
The purpose of this course is to introduce the fundamental nursing skills required to provide safe, quality care. The course focuses on the role of the nurse as caregiver. Emphasis is on basic psychomotor skills and beginning care competencies.

NUR 312L. Health Assessment Across the Lifespan. 2 Hours.
The purpose of this course is to develop the skills necessary to complete a holistic assessment including physiological, spiritual, cultural, psychological, and developmental components. The course focuses on the role of the nurse as caregiver and educator. Emphasis is placed on the skills and clinical reasoning necessary to assess clients/patients across the lifespan.

NUR 313L. Concepts of Professional Nursing Practicum. 2 Hours.
The purpose of this course is to apply fundamental nursing concepts and processes in providing safe, quality family centered nursing care in a variety of settings. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the professional attributes of the nurse, legal and ethical implications for nursing practice and beginning care competencies.

The purpose of this course is to introduce foundational pathophysiological and pharmacokinetic concepts and processes. Emphasis is on cellular injury, immunity, fluid/electrolytes, genetics, pharmacokinetics, and medication calculation.

NUR 315. Population Focused Health Care. 2 Hours.
The purpose of this course is to introduce health care delivery systems, behaviors and practices that affect the health status and well-being of populations (or the "overall health of populations"). The focus is on the role of the nurse as caregiver, advocate, and collaborator. Emphasis is on strategies related to health promotion, illness and injury prevention, health literacy and cultural competency to improve the care of individuals, families, groups, communities and populations.
NUR 318. Pathophysiologic Concepts. 3 Hours.
The purpose of this survey course is to introduce the student to the foundation pathophysiological processes associated with disease. The course focuses on understanding the pathophysiological changes that occur in select common diseases of the neurological, cardiovascular, pulmonary, gastrointestinal, renal, and endocrine systems with an emphasis on the role of cellular injury, immunity, inflammation, fluid and electrolytes, and genetics.

NUR 320. Social Responsibility in Global Health. 1 Hour.
This course provides students with an understanding of key social and economic concepts of global health that, together with an understanding of interpersonal collaboration and community partnerships, will enable them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the interprofessional global health service learning program at the University of Alabama at Birmingham. Working in interdisciplinary teams, students apply concepts and theories related to global health, interprofessional collaboration, team building, community partnerships, and the socioecological framework to develop a plan to address a specific global health problem with a community partner.

NUR 321L. Nursing Skills Development II. 1 Hour.
The purpose of this course is to build on nursing skills attained in Nursing Skills Development I to provide safe, quality nursing care. The course focuses on the role of the role of the nurse as caregiver and collaborator. Emphasis is on clinical reasoning and intermediate psychomotor skills and care competencies.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 322. Concepts of Behavioral Health Nursing. 3 Hours.
The purpose of this course is to introduce concepts of mental health and mental illness throughout the lifespan with consideration given to therapeutic communication and the implementation of safe, quality nursing care to clients and their families. Focus is on the roles of the nurse as caregiver, educator, counselor, advocate, and care manager. Emphasis is on the professional attributes of the nurse concerning legal, ethical, and cultural implications for nursing practice across the mental health-illness continuum.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 323L. Concepts of Behavioral Health Nursing Practicum. 2 Hours.
The purpose of this course is to implement therapeutic communication and safe, quality, family-centered nursing care to clients in mental health settings. Focus is on the roles of the nurse as caregiver, educator, counselor, advocate, and care manager. Emphasis is on the professional attributes of the nurse concerning legal, ethical, and cultural implications for nursing practice across the mental health-illness continuum.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 324. Pharmacotherapy & Disease Process II. 3 Hours.
The purpose of this course is to build on the knowledge gained in NUR 314 and emphasizes the application of principles of pathophysiology and pharmacotherapies to body systems. Content will align with concepts taught in Concepts of Behavioral Health and Concepts of Adult Health Nursing I.
Prerequisites: NUR 314 [Min Grade: C]

NUR 326. Concepts in Adult Health Nursing I. 3 Hours.
The purpose of this course is to introduce the student to alterations in regulation and homeostasis, protection and movement, oxygenation and coping and stress tolerance. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the nursing care and management of young, middle-age, and older adults.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 327L. Concepts of Adult Health Nursing I Practicum. 2 Hours.
The purpose of this course is to apply knowledge related to alterations in regulation and homeostasis, oxygenation, and protection and movement to the care of young, middle age, and older adults. The course focuses on the role of the nurse as caregiver, educator, and advocate. Emphasis is on the nursing care and management of young, middle-age, and older adults.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 328. Pharmacotherapy I. 2 Hours.
The purpose of this survey course is to introduce students to concepts of pharmacotherapy. The focus of the course is the application of principles of pharmacotherapies to select physiologic mechanisms and body systems. Course content emphasizes nursing implications related to pharmacotherapies.
Prerequisites: NUR 318 [Min Grade: C]

NUR 333. Growth and Development. 3 Hours.
The content of this course is centered around major theories of development; including physiological, psychoanalytic, social, stimulus-response, cognitive and moral. Current areas and findings of research are investigated and research designs and methods are critiqued. Self-selected in depth studies are made and shared. Contributions of the study of development functional practice of nursing are demonstrated. Admission to the School of Nursing is required.

NUR 334. Pharmacotherapy Disease Process III. 2 Hours.
This course is a continuation of Pharmacotherapy & Disease Process II. Emphasis is on the application of principles of pathophysiology and pharmacotherapies to body systems. Content will align with concepts taught in Concepts of Adult Health Nursing II and Concepts of Maternal Child Health Nursing.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C] and NUR 324 [Min Grade: C]
NUR 335. Issues in Women’s Health. 3 Hours.
This course will identify a broad range of health issues that are either unique to women or of special importance to women and will also examine the roles that women play as both providers and consumers of health care in the United States. The student will also provide with the opportunity to explore health care issues of women from adolescence through old age. The interface of gender, socio-economic disadvantages and minority status will be discussed. Feminist theory will provide the framework for exploring these issues. A primary object of this course is enabled the student to become an informed consumer of health care services.

NUR 336. Leadership. 2 Hours.
The purpose of this course is to introduce concepts of leadership development. The focus is on the roles of leader, advocate and collaborator. Emphasis is on the development of individual leadership knowledge and skills.

NUR 338. Pharmacotherapy II. 2 Hours.
This course is a continuation of NUR 328, Pharmacotherapy I. The purpose of this course is to increase student knowledge of concepts of pharmacotherapy and disease process. The focus of the course is on the application of principles of pharmacotherapies to select physiologic mechanisms and body systems. Course content emphasizes nursing implications related to pharmacotherapies.
Prerequisites: NUR 328 [Min Grade: C]

NUR 345L. Basic Nursing and Health Assessment Skills. 4 Hours.
NUR 345L provides basic nursing and health assessment skills that will form the foundation for more complex knowledge and skills in subsequent nursing courses. Legal and ethical (e.g., confidentiality, documentation), communication, and health concepts are reinforced throughout the course. The role of caregiver is presented as an integral part of the health care team. Learning experiences occur in the nursing skills laboratory and are essential to the course. Although knowledge and skills in this course are focused on adults, many of the concepts are adaptable to care of patients of all ages and target populations. Admission to the School of Nursing is required.

NUR 346. Pathophysiology for Professional Nursing. 3 Hours.
This course builds on the knowledge of basic anatomy and physiology to provide the adult learner with an opportunity to apply previously learned principles in explaining physiologic adaptations to pathogenic changes for the purpose of enhancing nursing care of patients. The first part of the course emphasizes the basic concepts of pathophysiology including cellular level of response, genetic alterations, fluid and electrolytes, acid-base balance, and immune response. The second part of the course focuses on the application of the basic concepts to body systems and disease processes. The relationship between pathophysiologic concepts and nursing care of clients will be emphasized throughout the course. Admission to the School of Nursing is required.

NUR 347. Pathophysiology for Professional Nursing Practice for RNs. 3 Hours.
This course builds on basic anatomy and physiology to provide the adult learner with an opportunity to apply previously learned principles in explaining physiologic adaptations to pathogenic changes for the purpose of enhancing nursing care of patients. The first part of the course emphasizes the basic concepts of pathophysiology: cellular level of response, genetic alterations, fluid and electrolytes, acid-base balance, and immune response. The second part of the course focuses on the application of the basic concepts to body systems and disease processes. The relationship between pathophysiologic concepts and nursing care of clients will be emphasized throughout the course. Admission to the RN Mobility Program required.

NUR 355. Foundations of Professional Nursing. 4 Hours.
NUR 355 focuses on the practice of professional nursing as an evidence-based, goal-directed activity for assisting patients to achieve optimal health by meeting basic human needs, providing holistic care, and engaging in health promotion. Concepts of communication, interpersonal relationships, and nursing process as a clinical decision-making strategy are introduced. Chronic and long-term internal and external environmental variables that affect the health of adults are explored. The professional role of the caregiver is developed in diverse learning experiences. Admission to the School of Nursing is required.

NUR 356L. Foundations of Professional Nursing Practicum. 3 Hours.
In this practicum component of Foundations of Professional Nursing, students are guided in the application of content studied in the theoretical portion of the course. Competencies needed by the nurse generalist in the care of adult patients are introduced and practiced. Critical thinking and clinical decision-making skills utilized by the nurse caregiver are emphasized in diverse health care settings. Admission to the School of Nursing is required.

NUR 365. Maternal-Newborn and Women’s Health Nursing. 3 Hours.
The purpose of this course is to provide content necessary to promote the care of women, newborns, and the childbearing family. Focus is on knowledge that will be necessary for students to be able to promote, maintain, and restore the adaptation of culturally diverse well and high-risk clients related to, but not limited to, the childbearing experience. Content includes internal and external variables affecting the health of the family during the antepartal, intrapartal and postpartal phases of childbearing and the neonatal period. Content builds upon past knowledge from the scientific and humanistic disciplines, increases the student’s understanding of ethical reasoning and decision-making as applicable to this client population and contributes to the body of knowledge necessary for future nursing courses. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C] (Can be taken Concurrently)

NUR 366L. Maternal-Newborn and Women's Health Nursing Practicum. 2 Hours.
The purpose of this course is to provide opportunities to utilize the nursing process and critical thinking skills in caring for women, the childbearing family, and newborns. Focus is on nursing interventions in women's health and with the childbearing family that promote, maintain, and restore health. Clinical experiences are in primary and secondary settings.
Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C] (Can be taken Concurrently)

NUR 370. Clinical Pharmacology. 3 Hours.
This course focuses on the analysis and utilization of principles of pharmacology and pharmacokinetics for the purpose of planning, implementing, and evaluating therapeutic pharmacological interventions as they relate to nursing practice. The unique characteristics of special populations related to therapeutic needs, as well as drug absorption, metabolism, and excretion are defined. Admission to the School of Nursing is required.
NUR 374. Informatics and Research for Nursing Practice. 4 Hours.
This course is designed to prepare students with the knowledge and skills to: (1) locate and evaluate research relevant to nursing practice; (2) use a problem solving approach to examine questions identified in nursing practice, and; (3) identify technological solutions to enhance patient safety and outcomes. Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.

NUR 376. Nursing of the Older Adult. 3 Hours.
NUR 376 focuses on the unique needs of older adult patients who require nursing care in a variety of health care settings. The older adult as a heterogeneous, holistic person is emphasized in light of current and future health care needs. Concepts of healthy aging, and care in the preventive, restorative, acute and chronic domains will be explored. The professional role of the nurse as advocate is developed in diverse learning activities.

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C])

NUR 378. Nursing of the Older Adult for RNs. 3 Hours.
NUR 378 focuses on the unique needs of older adult patients who require nursing care in a variety of health care settings. The older adult as a heterogeneous, holistic person is emphasized in light of current and future health care needs. Concepts of healthy aging, and care in the preventive, restorative, acute and chronic domains will be explored. The professional role of the nurse as advocate is developed in diverse learning activities. Admission to the RN Mobility Program required.

NUR 380. Spanish for Health Professionals. 3 Hours.
Intensive conversation to acquaint health professionals with intermediate structure of Spanish. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients.

NUR 381. Informatics and Research for Nursing Practice for RNs. 4 Hours.
This course is designed to prepare students with the knowledge and skills to: (1) locate and evaluate research relevant to nursing practice; (2) use a problem solving approach to examine questions identified in nursing practice, and; (3) identify technological solutions to enhance patient safety and outcomes. Quantitative Literacy is a significant component of this course.

NUR 383. Health Literacy Identifying Risk Populations. 3 Hours.
NUR 383 is designed to provide students with a greater understanding and an improved knowledge level regarding the importance of health literacy and the challenges presented by low health literacy. Interventions and planned programs that are effective in the identification of low health literacy in America will be introduced to the student. The course will provide insight to the multidimensional nature of low health literacy and provide examples of multidisciplinary research in health literacy.

NUR 385. Nursing of the Psychiatric Mental Health Client. 3 Hours.
Content in NUR 385 will emphasize communication and therapeutic nursing interventions for clients adapting to internal and external environmental variables affecting mental health and psychopathology. The course focuses on the use of critical thinking and clinical decision-making skills in the promotion, maintenance and restoration of optimum mental health of individuals and families. Emphasis is placed on the independent and collaborative roles of nursing in identifying risk factors for mental disorders, assessing mental health status, and designing and implementing psychobiological and psychosocial interventions associated with expected therapeutic outcomes.

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: P] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C]
(Can be taken Concurrently)

NUR 386L. Nursing of the Psychiatric Mental Health Client Practicum. 2 Hours.
This clinical course is focused on promotion, maintenance and restoration of mental health of individuals and families. Clinical experiences provide students with opportunities to utilize skills in the therapeutic use of self, critical thinking, and nursing process with clients in psychiatric mental health clinical settings.

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C]
(Can be taken Concurrently)

NUR 387. Supplemental Academic Course for Support (SACS). 1-3 Hour.
The purpose of this distance-accessible course is to introduce a structured format for students to review nursing concepts and processes related to a specific patient population. The course focuses on the role of the nurse as caregiver. Emphasis is on test-taking strategies and the review of didactic content to strengthen the student's knowledge base.

NUR 388. Concepts of Adult Health Nursing II. 3 Hours.
The purpose of this course is to augment previous knowledge gained in Concepts of Adult Health Nursing I related to regulation and homeostasis, protection and movement, coping and stress tolerance and oxygenation. The course focuses on the role of the nurse as caregiver, manager, collaborator, and educator. Emphasis is on the nursing care and management of young, middle-age, and older adults.

Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: C] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 327L [Min Grade: C] and NUR 336 [Min Grade: C]

NUR 389L. Concepts of Adult Health Nursing II Practicum. 2 Hours.
The purpose of this distance-accessible course is to apply the expand role of the nurse in providing care for patients with alterations in regulation and homeostasis, oxygenation, and protection, and movement. The course focuses on the role of the nurse as caregiver, manager, collaborator, advocate, and educator. Emphasis is on the nursing care and management of young, middle-age, and older adults.

Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: C] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 327L [Min Grade: C] and NUR 336 [Min Grade: C]

NUR 390. Independent Study in Nursing. 1-6 Hour.
Individually designed learning experiences. Must be a junior year nursing student and have a written Independent Study contract signed by the faculty and the Associate Dean.
NUR 391. Independent Study in Nursing. 1-6 Hour.
Individually designed clinical learning experiences. Must be a junior year nursing student and have a written Independent Study contract signed by the faculty and the Associate Dean.

NUR 392. Concepts of Maternal Child Health Nursing. 4 Hours.
The purpose of this course is to build upon knowledge gained in previous nursing and pre-nursing courses in the care of childbearing and childrearing families. This course focuses on the role of the nurse as educator, caregiver, collaborator, and advocate. The course emphasizes the application of theoretical and empirical knowledge to the nursing care of neonates, infants, children, adolescents, and adult women in diverse care settings.

Prerequisites: NUR 388 [Min Grade: C] and NUR 334 [Min Grade: C] and NUR 389L [Min Grade: C] and NUR 409 [Min Grade: C] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P]

NUR 393L. Concepts of Maternal Child Health Nursing Practicum. 3 Hours.
The purpose of this course is to provide nursing practice opportunities to build upon knowledge and skills gained in previous nursing, pre-nursing and Concepts of Maternal Child Health Nursing. This course focuses on implementing the roles of the nurse as educator, caregiver, collaborator, and advocate. The course emphasizes the application of theoretical and empirical knowledge to the nursing care of neonates, infants, children, adolescents and adult women in diverse care settings.

Prerequisites: NUR 388 [Min Grade: C] and NUR 334 [Min Grade: C] and NUR 389L [Min Grade: P] and NUR 409 [Min Grade: C] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P]

NUR 395. Community and Public Health Nursing. 3 Hours.
In this theory course, students will analyze theories, processes, issues, demographic data and epidemiological trends that affect population aggregates within diverse communities. Emphasis is on professional role development to promote nursing care focused on illness and injury prevention, health promotion, health maintenance, health education, and coordination of care for diverse aggregate groups in various community settings. Ethics and Civic Responsibility are significant components of this course.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 370 [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 389L [Min Grade: C] (Can be taken Concurrently) and NUR 386L [Min Grade: C] (Can be taken Concurrently) and NUR 376 [Min Grade: C] (Can be taken Concurrently)

NUR 396L. Community and Public Health Nursing Practicum. 2 Hours.
In this practicum course, nursing students complete a portion of their clinical hours to advance the mission of social justice in health care through community engagement and service learning. Students apply community and public health concepts through engagement within communities as they implement the nursing process with diverse populations at various community sites; in simulated clinical activities; and at assigned community-based clinical facilities. Emphasis is on professional nurse role development focused on illness and injury prevention, health promotion, health maintenance, health education, and coordination of care for aggregate groups across the life span.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 370 [Min Grade: C] and NUR 385 [Min Grade: C] (Can be taken Concurrently) and NUR 386L [Min Grade: C] (Can be taken Concurrently) and NUR 376 [Min Grade: C] (Can be taken Concurrently)

NUR 397. Community and Public Health Nursing for RNs. 4 Hours.
In this theory course, students will analyze theories, processes, issues, demographic data and epidemiological trends that affect the population aggregates within communities. Emphasis is on professional role development to promote nursing care focused on illness and injury prevention, health promotion, health maintenance, health education, and coordination of care for diverse aggregate groups in various community settings. Ethics and Civic Responsibility are significant components of this course.

NUR 401. Caring For America's Heroes: An Introduction to the Veteran's Healthcare Administration System. 3 Hours.
This course is designed to increase the student's understanding of long term and high acuity internal and external environmental variables which affect the health of the unique population of adult patients, veterans, within the Veterans Healthcare Administration (VHA). Knowledge gained in this elective course can be applied to the care of VHA patients in this course and subsequent didactic and practicum nursing courses.

NUR 403. Primary Health Care in Low Resource Countries. 3 Hours.
This course is designed for the Advanced Health Care Provider who plans to deliver primary health care in countries considered to be low resource areas as designated by the World Health Organization. These students will study the epidemiology, pathophysiology, diagnosis, and management of infectious and parasitic diseases throughout the global community. In addition, nutritional deficiencies and obstetric problems will be reviewed. Emphasis will be placed on those health problems which are not common in high resource countries. Implementation of the World Health Organization's Integrated Management standards will be included in the study of each disease as they apply to adults, adolescents, and children. Potential personal safety issues for world travelers, and information designed to alleviate these issues will be studied. Each student will focus on a specific country or global area for a more in-depth learning experience. Restrictions Nursing ONLY.

NUR 409. Healthcare and Information Technology. 2 Hours.
The purpose of this course is to integrate concepts of nursing informatics introduced in previous nursing coursework to enhance patient safety and quality outcomes. The focus is on the role of the nurse as caregiver, educator, collaborator, advocate, and consumer of research. The course emphasizes healthcare and information technologies.

Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: C] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 410. Evidence-Based Practice in Nursing. 2 Hours.
The purpose of this course is to provide the student with skills to apply evidence to practice. The course focuses on the role of the nurse as consumer of research. The emphasis of the course is on providing the foundation for identifying potential clinical problems, searching the literature for potential evidence-based solutions, and evaluating the quality of the research literature.

Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: C] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 419. Health Issues in Culturally Diverse Populations in the United States. 3 Hours.
This course provides students with an overview of health issues and health disparities confronting culturally diverse populations in the United States. The course also addresses genetic, cultural, historical and demographic factors that influence these health issues and disparities, implications for culturally effective health care, and for development of health policy.
NUR 426. Concepts of Complex Nursing. 2 Hours.
The purpose of this course is to integrate and apply knowledge from previous courses to the care of patients and their families experiencing complex health conditions. The course focuses on the role of the nurse as caregiver, manager, collaborator, advocate, leader, and educator. Emphasis is on the nursing care and management of diverse patients and families with complex health conditions.

Prerequisites: NUR 334 [Min Grade: C] and NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P]

NUR 427L. Concepts of Complex Nursing Practicum. 2 Hours.
The purpose of this course is to apply the expanded role of the nurse in providing family centered nursing care for clients and their families experiencing complex health conditions. The course focuses on the role of the nurse as caregiver, manager, collaborator, advocate, leader, and educator. Emphasis is on the nursing care and management of complex health issues for patients across the life-span in a variety of settings.

Prerequisites: NUR 334 [Min Grade: C] and NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P]

NUR 428. Concepts of Community and Public Health Nursing. 2 Hours.
The purpose of this course is to provide a foundation for culturally competent care to populations in a community. The focus is on the roles of educator, caregiver, advocate, coach, collaborator, and consumer of research. Emphasis is on protecting and enhancing the health of local, state, national, and global populations.

Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: P] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 336 [Min Grade: C] and NUR 327L [Min Grade: P]

NUR 429L. Concepts of Community and Public Health Nursing Practicum. 2 Hours.
The purpose of this course is to apply content from previous courses to advance the mission on social justice in health care through community engagement with vulnerable, at-risk individuals and populations. The focus is on the professional roles of caregiver, educator, advocate, health coach, counselor, leader, collaborator, and interprofessional team member. Emphasis is on injury and illness prevention, health promotion, health maintenance, health literacy, and disaster preparedness for population aggregates in local, national, and global communities.

Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: P] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 336 [Min Grade: C] and NUR 327L [Min Grade: P]

NUR 431L. Nursing Skills Development III. 1 Hour.
The purpose of this course is to build on nursing skills attained in NUR 321L to provide safe, quality care. The course focuses on the role of the role of the nurse as caregiver and collaborator. Emphasis is on critical inquiry, clinical reasoning, problem solving and advanced psychomotor care competencies.

Prerequisites: NUR 334 [Min Grade: C] and NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P]

NUR 434. Perspectives in Global Health Leadership. 3 Hours.
This course is designed to provide students with an understanding of global aspects of health care leadership. The course will focus on identification of characteristics of global health care leaders, leadership theories, and strategies to develop one’s own personal leadership abilities. The course will provide students with a unique opportunity to interact with health care leaders from countries around the world, and develop projects related to an aspect of global health care leadership of interest to each student.

NUR 435. Nursing of the Adult. 4 Hours.
NUR 435 focuses on patients across the adult lifespan who require nursing care in high acuity health care settings. Internal and external environmental variables that have implications for long-term and episodic care are studied in this course. Emphasis is placed on the use of the problem-solving process in health promotion, meeting physiological needs, and providing holistic care during illness and at the end of life. The professional role of the caregiver is further developed in increasingly complex learning experiences.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 436L. Nursing of the Adult Practicum. 3 Hours.
In the practicum component of Nursing of the Adult, students apply content learned in the companion theory course. Competencies needed by the nurse generalist in the care of adult patients are developed in increasingly complex learning experiences. Critical thinking and clinical decision-making skills utilized by the nurse caregiver in a variety of health care settings are emphasized. All Level 1 and Level 2 courses. Co-requisite: NUR 435.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 437. Principles of Genetics. 3 Hours.
This elective course provides the foundation to examination, integration, and evaluation of genetic principles to future advances in genetic health and counseling. Opportunity is given to apply ethical principles in decision making related to nursing care of families with genetic health patterns or problems. Must be enrolled in the School of Nursing.

NUR 439. Complementary Therapies and Integrative Health Care. 3 Hours.
The focus of this elective course is on holistic nursing utilizing complementary and alternative therapies and integrative health care as an emerging paradigm in the health care arena. This course will examine both the concepts of integrative health care and major complementary therapies, including theoretical basis and research support, actions, uses, contraindications, and side effects. The socio-cultural, economic, legal and ethical issues associated with complementary therapies will be included as well as standards for practice and available resources. Students will be encouraged to explore ways in which they can counsel patients regarding complementary therapies as well as potential inclusion of the therapies in their own practice.

NUR 442. Health, Education, and Social Welfare in a Global Community. 3 Hours.
The purpose of this course is to provide students with a cross-cultural experience in which they will spend time in a selected global community while learning about health, educational and social welfare issues. Students will participate in pre-trip seminar in Birmingham or on-line prior to travel. The seminar(s) will focus on an overview of the course, a model of assessing culture and an overview of selected global community’s culture. Students will also participate in seminars on a variety of health, education and social welfare topics provided by the course instructor and by resource persons from the selected global community.
NUR 444. Principles of Developmental Care Newborn Infants. 3 Hours.
Provides students with an overview of principles of individualized care for newborns and infants. The course also addresses principles of family-centered care as a key component of developmental care. Students review concepts and theories related to molecular biology, fetal, infant and family development, psychology, and sociology in assessing and planning care to promote optimal development of high risk infants and families. Students explore roles of nurses and other interdisciplinary team members in developmental care, are assessed, and develop plans to promote organizational change in order to incorporate developmental care principles in a clinical setting.
Prerequisites: NUR 392 [Min Grade: C] and NUR 393L [Min Grade: P]

NUR 445. Nursing of the Child and Adolescent. 3 Hours.
Course provides knowledge that is essential for the professional nursing care of children from infancy through adolescence within the context of the family. Students examine the physical, nutritional, developmental, psychological, cognitive, psychosocial, educational, and spiritual needs of children and adolescents adapting to common and complex environmental variables that affect health. Students explore the roles of the professional nurse as caregiver, educator, advocate, and collaborator in providing nursing care to children and adolescents in a variety of settings. Writing competency is an additional focus of this course. Writing is a significant component of this course.
Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 446L. Nursing of the Child and Adolescent Practicum. 2 Hours.
NUR 446L provides clinical nursing practice opportunities with children/adolescents within the context of the family in selected hospital and community settings and the nursing simulations laboratory. Students apply knowledge of physical, nutritional, developmental, psychological, cognitive, psychosocial, educational, and spiritual needs of children adapting to common and complex environmental variables that affect health. Students implement the roles of the professional nurse as caregiver, educator, advocate, and collaborator in providing nursing care to children and adolescents in a variety of settings.
Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 447L. Synthesis and Assimilation Practicum. 4 Hours.
The purpose of this course is the synthesis and assimilation of skills and clinical reasoning drawn from all previous nursing courses and is intended to prepare students to function independently in the management and provision of nursing care to an assigned cohort of patients. The focus of the course is on the professional roles of caregiver, educator, consumer of research, advocate, counselor, leader, and inter-and intra-professional team member. The course emphasizes quality and safety in the provision of nursing care.
Prerequisites: NUR 409 [Min Grade: C] and NUR 410 [Min Grade: C] and NUR 426 [Min Grade: C] and NUR 427L [Min Grade: P] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P] and NUR 431L [Min Grade: C]

NUR 448. Transition to Professional Nursing Practice. 2 Hours.
The purpose of this course is to facilitate the transition of the student into the role of a professional nurse. The course focuses on all professional nursing roles. Emphasis is on leadership and management theories and models, resource allocation and management, delegation, legal implications of practice, continuous quality improvement, healthcare systems, and contemporary issues in healthcare.
Prerequisites: NUR 409 [Min Grade: C] and NUR 410 [Min Grade: C] and NUR 426 [Min Grade: C] and NUR 427L [Min Grade: P] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P] and NUR 431L [Min Grade: C]

NUR 449. Synthesis Review Course. 1 Hour.
The purpose of this course is to prepare the student to successfully complete the NCLEX® examination. The course focuses on all professional nursing roles. Emphasis is on the synthesis of knowledge from all nursing courses as well as the humanities, and the social, behavioral, and natural sciences.
Prerequisites: NUR 409 [Min Grade: C] and NUR 410 [Min Grade: C] and NUR 426 [Min Grade: C] and NUR 427L [Min Grade: P] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P] and NUR 431L [Min Grade: C]

NUR 450. Honors Seminar I - Introduction to Nursing Research. 1 Hour.
The purpose of this course is to provide the student with introductory knowledge of nursing research. The course focuses on the role of the nurse researcher with emphasis on providing the foundation for understanding the role of nursing research in nursing practice and in healthcare, conducting ethical research, and searching the literature for an area of research interest.

NUR 451. Honors Seminar II - Exploring Nursing Research. 2 Hours.
This course is designed to prepare students with the knowledge and skills to: (1) locate and examine nursing research relevant to a specific nursing problem; (2) discuss the quality of qualitative and quantitative research evidence; and (3) discuss common nursing research designs and methodologies.
Prerequisites: NUR 450 [Min Grade: C]

NUR 452L. Honors Seminar III - Research Immersion. 3 Hours.
This course provides opportunities for participation in an ongoing research project. Course content includes information about the role of teams in research, the role of the nurse in leading research teams, and guidelines for preparation of manuscripts and presentations. Course activities include discussion of research projects and exploration of the student's role as a team member. Professional expectations include dissemination of research experiences with peers and communities of interest.
Prerequisites: NUR 450 [Min Grade: C] and NUR 451 [Min Grade: C]

NUR 455. Leadership and Management in Professional Nursing. 3 Hours.
This course focuses on leadership and management theories and models, resource allocation and management, delegation, conflict resolution, legal implications of practice, managed care, evaluation of practice, continuous quality improvement, healthcare systems, and contemporary issues in the workplace. Emphasis is placed on the integration of all professional role behaviors, application of research, and leadership/management of care as the transition is made from the student role to that of practicing professional nurse.
Prerequisites: NUR 435 [Min Grade: C] and NUR 436L [Min Grade: P] and NUR 445 [Min Grade: C] and NUR 446L [Min Grade: P]
NUR 456L. Leadership and Management in Professional Nursing Practicum. 5 Hours.
NUR 456L - Leadership and Management in Professional Nursing Practicum - 5 Capstone course focuses on direct and indirect clinical performance in the areas of nursing process, leadership and management, evidence-based practice, and the demonstration of professional nursing role behavior as the transition is made from student role to practicing nurse professional. As a capstone course for the BSN program, experiences in this course will also provide the student with opportunities to demonstrate discipline-specific proficiency related to nursing, quantitative literacy and ethics/civic responsibility. Prerequisites: All courses in the nursing program, except NUR 395 and NUR 396L which may be taken prior to or concurrently with NUR 456L. Co-requisite: NUR 455.

NUR 457. Leadership and Management in Professional Nursing for RNs. 3 Hours.
This course focuses on leadership and management theories and models, resource allocation and management, delegation, conflict resolution, legal implications of practice, managed care, evaluation of practice, continuous quality improvement, healthcare systems, and contemporary issues in the workplace Emphasis is placed on the integration of all professional role behaviors, application of research, and leadership/management skills.

NUR 458L. Leadership Development Practicum for RNs. 2 Hours.
This practicum is designed to enable RN students to build on their existing clinical expertise, broaden their exposure to different specialty areas, and apply theory learned throughout the BSN curriculum to meet the needs of individual clients, client groups, other health care providers, and the public at large. As a capstone course for the RN Mobility Program, specific experiences will provide the student with opportunities to develop leadership/management skills while working with aggregate groups within the community and to demonstrate discipline-specific proficiency related to writing, quantitative literacy, and ethic/civic responsibility.

NUR 459L. Enhanced Clinical Nursing for the RN. 1-3 Hour.
This practicum course permits the practicing RN to augment previous clinical performance in the areas of nursing process, leadership and management, evidence-based practice, and the demonstration of professional nursing role behavior as the transition is made from student role to practicing nurse professional. As a capstone course for the BSN program, experiences in this course will also provide the student with opportunities to demonstrate discipline-specific proficiency related to nursing, quantitative literacy and ethics/civic responsibility. Prerequisites: NUR 380 [Min Grade: C]

NUR 461. Advanced Spanish for Health Professionals. 3 Hours.
This advanced course emphasizes and expands intensive conversation, technical readings and vocabulary pertinent to the medical field. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients. Prerequisites: NUR 360 [Min Grade: C]

NUR 462. Neonatal Behavior Assessment in Clinical Nursing Practice. 2 Hours.
This elective course provides students with the knowledge and skills of neonatal behavioral assessment. Focus is placed upon concepts underlying the Brazelton Neonatal Behavioral Assessment Scale, behavioral characteristics of newborns, and cultural differences and assessment of low and high risk neonates.

NUR 465. Concepts of Management of the High Risk Neonate. 3 Hours.
This course provides theoretical concepts essential to the nursing management of high-risk neonates and families. Students examine the impact of environmental variables on the biophysical, psychological, socio-cultural, spiritual, development, and educational needs of the neonate. The focus of the course is on the concepts of health promotion, maintenance, and restoration of the high-risk neonate and family as they adapt to environmental variables. Students examine legal, historical, political, socio-cultural, ethical, technological, and economic issues related to the care of high-risk neonates and their families. In addition, students analyze current research and the role of the professional nurse in providing care to high risk neonates and families. Prerequisites: (NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C])

NUR 474. Transition to Professional Nursing Practice. 4 Hours.
Using an online format, this course is designed to enhance the registered nurse’s knowledge of the role of the professional nurse in meeting the health needs of society. Historical, legal, political, and ethical issues affecting the profession will be examined. The relationship between selected issues, trends, and theories and professional nursing practice will be analyzed. Students will examine behaviors related to various roles of the professional nurse, including caregiver, teacher, advocate, research consumer, and counselor. Additionally, this course addresses communication skills necessary to a professional nurse including writing and computer literacy. Writing and Ethics and Civic Responsibility are significant components of this course.

NUR 475. Health Assessment Across the Lifespan for RNs. 4 Hours.
The structure of the course allows the student opportunity for directed and self-directed learning experiences. In an online classroom, students are guided in a series of learning activities designed to increase the knowledge and skill of the professional nurse related to health assessment of individuals and family. In addition to physical assessment, students will review other components of a holistic assessment including spiritual, cultural, psychological, and developmental assessment. Admission to the RN Mobility Program is required.

NUR 475L. Health Assessment Across the Lifespan for RNs. 4 Hours.
The structure of the course allows the student opportunity for directed and self-directed learning experiences. In an online classroom, students are guided in a series of learning activities designed to increase the knowledge and skill of the professional nurse related to health assessment of individuals and family. In addition to physical assessment, students will review other components of a holistic assessment including spiritual, cultural, psychological, and developmental assessment. Admission to the RN Mobility Program is required.

NUR 478. Sexuality Issues in Health and Illness: A Lifespan Approach. 3 Hours.
This elective course includes the ethical, social, biological and psychological concepts of human sexuality. Open to non-nursing majors with permission of instructor.

NUR 481. Advanced Spanish for Health Professionals. 3 Hours.
This advanced course emphasizes and expands intensive conversation, technical readings and vocabulary pertinent to the medical field. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients. Prerequisites: NUR 380 [Min Grade: C]

NUR 490. Independent Study in Nursing. 1-6 Hour.
Independent Study in Nursing. Must be a senior year nursing student and have a written Independent Study contact signed by the Associate Dean.

NUR 491. Independent Study in Nursing. 1-6 Hour.
Independent Study in Nursing. Must be a senior year nursing student and have a written Independent Study contact signed by the Associate Dean.

NUR 499. Living with Loss. 3 Hours.
This elective course includes loss, grief, body-image changes, loss due to chronic conditions, and loss of life in childhood and adulthood, explored from the viewpoint of health-care professionals.

PH-Physics Courses
Courses

PH 100. Preparatory Physics. 3 Hours.
Designed primarily for students in need of preparation for PH 201 or PH 221. Vectors, kinematics, and dynamics, including conservation laws. Emphasis placed on methods of analyzing physics problems, setting up equations for physics problems, and interpreting information in physics problems.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

PH 110. Topics in Contemporary Physics. 1 Hour.
The objective of this course is to introduce incoming freshmen to the different areas of physics and to topics that physicists are working on today. Through lectures and seminars by members of the UAB physics faculty, students are introduced to the UAB Department of Physics community, their research activities, and career opportunities for graduates in the various tracks of the Physics Undergraduate Program. Course required for physics majors in the first fall semester of residency.

PH 191. Co-operative Work Program. 2-3 Hours.
Co-Op Work Program.

PH 201. College Physics I. 4 Hours.
First term of non-calculus based physics. Linear and planar motion, Newton's laws, work and energy, gravitation, momentum, rigid body motion, elasticity, oscillations, waves, sound, fluids, ideal gases, heat and thermodynamics. Lecture and laboratory. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

PH 201L. College Physics Laboratory I. 0 Hours.
Laboratory for PH 201. Lecture, laboratory, and recitation must be taken concurrently.

PH 201R. College Physics I Recitation. 0 Hours.
First term of non-calculus based physics. Linear and planar motion, Newton's Law, work and energy, gravitation, momentum, rigid body motion, statics, elasticity, oscillations, waves, sound, fluids, ideal gases, heat, and thermodynamics. Lecture, laboratory, and recitation must be taken concurrently.

PH 202. College Physics II. 4 Hours.
Second term of non-calculus based physics. Electricity and magnetism, optics, and modern physics. Lecture, laboratory, and recitation must be taken concurrently. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: PH 201 [Min Grade: C]

PH 202L. College Physics Laboratory II. 0 Hours.
Laboratory for PH 202. Lecture, laboratory, and recitation must be taken concurrently.

PH 202R. College Physics II - Recitation. 0 Hours.
Second term of non-calculus based physics sequence covering electricity and magnetism, optics, and modern physics. Lecture, laboratory, and recitation must be taken concurrently.

PH 211. College Physics I Laboratory. 0-1 Hours.
College Physics I Laboratory.

PH 212. College Physics II Lab. 1 Hour.

PH 221. General Physics I. 4 Hours.
First term of introductory, calculus-based general physics sequence covering classical mechanics: measurements, kinematics, vectors, translational and rotational dynamics, work, energy, momentum, statics, oscillatory motion, wave motion, and sound. Lecture and laboratory. Quantitative Literacy is a significant component of this course. PH 221 General Physics I – Honors: This section of PH 221 is designed for students with strong interests and preparation in science, mathematics, and/or engineering. Topics are covered with more mathematical rigor and in greater depth than in regular sections. Second term of non-calculus based physics. Electricity and magnetism, optics, and modern physics. Lecture, laboratory, and recitation must be taken concurrently. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

PH 221L. General Physics Laboratory I. 0 Hours.
Laboratory for PH 221. Lecture, laboratory, and recitation must be taken concurrently.

PH 221R. General Physics I Recitation. 0 Hours.
First term of introductory, calculus-based general physics sequence covering classical mechanics: measurements, kinematics, vectors, translational and rotational dynamics, work, energy, momentum, statics, oscillatory motion, wave motion, and sound. Lecture, laboratory, and recitation must be taken concurrently.

PH 222. General Physics II. 4 Hours.
Second term of introductory, calculus-based general physics sequence covering electricity and magnetism: Coulomb's Law, electric fields, Gauss' Law, potential, capacitors and dielectrics, Ohm's Law, DC circuits, magnetic fields, Ampere's Law, Biot-Savart Law, Faraday's Law, inductance, AC circuits, geometrical and physical optics. Lecture, Laboratory, and Recitation must be taken concurrently. PH 222 General Physics II Honors: This section of PH 222 is designed for students with strong interests and preparation in science, mathematics, and/or engineering. Topics are covered with more mathematical rigor and in greater depth than in regular sections. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: PH 221 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C])

PH 222L. General Physics Laboratory II. 0 Hours.
Laboratory for PH 222. Lecture, Laboratory, and Recitation must be taken concurrently.

PH 222R. General Physics II - Recitation. 0 Hours.
Second term of introductory, calculus-based general physics sequence covering electricity and magnetism, Coulomb's Law, electric fields, Gauss' Law, potential, capacitors, and dielectrics, Ohm's Law, DC circuits, magnetic fields, Ampere's Law, Biot-Savart Law, Faraday's Law, inductance, AC circuits, geometrical and physical optics. Lecture, Laboratory, and Recitation must be taken concurrently.

PH 231. General Physics I Laboratory. 0-1 Hours.
General Physics I Laboratory.

PH 232. General Physics II Laboratory. 0-1 Hours.
General Physics II Laboratory.

PH 301. Instructional Astronomy I. 4 Hours.
Survey of selected topics in astronomy of the universe, stellar systems and solar systems with a focus on preparing to teach. Lecture and Laboratory must be taken concurrently.
PH 301. Instructional Astronomy Laboratory. 0 Hours.
Laboratory for PH 301. Lecture and Laboratory must be taken concurrently.

PH 302. Instructional Physical Science. 4 Hours.
Lecture and discussion in areas of the physical sciences importance to basic scientific literacy and to current technology, with a focus on preparing to teach. Must be taken concurrently with PH 302L.

PH 302L. Instructional Physical Science Laboratory. 0 Hours.
Laboratory for PH 302.

PH 304. Intermediate Mechanics. 3 Hours.
Intermediate treatment of the kinematics and dynamics of classical systems. Presentation of problem solving techniques is emphasized.
Prerequisites: PH 222 [Min Grade: C]

PH 305. Intermediate Electricity and Magnetism. 3 Hours.
Intermediate treatment of electricity and magnetism including fields, potential, induction, Maxwell’s equations, circuits. Presentation of problem solving techniques is emphasized.
Prerequisites: PH 222 [Min Grade: C]

PH 331. Classical Thermodynamics. 3 Hours.
Introduction to thermal phenomena on a macroscopic and statistical basic, principles and laws governing them.
Prerequisites: PH 222 [Min Grade: C] and MA 227 [Min Grade: C]

PH 351. Modern Physics I. 4 Hours.
Study of topics in modern physics, including special relativity, atomic structure, quantum mechanics, quantum statistics, and selected additional topics (e.g. solid state physics, molecular physics, lasers, semiconductors and nanotechnology, particle physics, and general relativity). Specific applications in medical physics will also be discussed. Emphasis on the use of quantitative reasoning to solve modern physics problems. Writing and scientific ethics assignments based on laboratory experiences. Lecture and laboratory. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PH 222 [Min Grade: C]

PH 351L. Modern Physics I Laboratory. 0 Hours.
Laboratory for PH 351. Experimental work in the topics associated with PH 351, including special relativity, atomic structure, quantum physics, and solid state physics. Successful students will develop their ability to collect and analyze experimental data, interpret the results, and present their findings in a clear, concise, and convincing way. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PH 351 [Min Grade: C]

PH 352. Modern Physics II. 4 Hours.
A continuation of PH351 with more focus on the theoretical basis of modern physics topics with applications in special relativity, quantum mechanics, atomic and nuclear structure, solid-state physics, semiconductors, lasers and nanotechnology. Application of the theory to experimental measurements associated with PH352L will be a major focus. Emphasis on the use of quantitative reasoning to solve modern physics problems. Writing and scientific ethics assignments based on laboratory experiences. Lecture and laboratory. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PH 351 [Min Grade: C]

PH 352L. Modern Physics II Laboratory. 0 Hours.
Laboratory for PH 352. Experimental work in the topics associated with PH 352 at a level of investigation to more strongly develop the connections between theory and experiment. Successful students will refine their data collection, analysis, and interpretation and scientific presentation skills. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.

PH 397. Directed Reading in Physics I. 2-3 Hours.
Tutorial studies in physics offered by special arrangement. Permission of instructor.

PH 398. Directed Reading in Physics II. 2-3 Hours.
Tutorial studies in physics offered by special arrangement. Permission of instructor.

PH 410. Physics of Fluids and Polymer Solutions. 3 Hours.
This course provides an introduction to fluid mechanics and polymer physics appropriate for physics, engineering, chemistry, and biology majors. Topics include the concept of a fluid, the fluid as a continuum, properties of the velocity field, thermodynamic properties of a fluid, viscosity, pressure distribution in a fluid, basic physical laws of fluid mechanics, the Reynolds transport theorem, differential relations for a fluid particle, viscous flow, polymer solutions and thermodynamics. Brownian motion, diffusion equation, Fick’s law, Stokes-Einstein equation and hydrodynamic radius of a polymer chain, and viscosity of polymer solutions.
Prerequisites: PH 221 [Min Grade: C] and MA 252 [Min Grade: C]

PH 420. Mathematical Methods of Physics I. 3 Hours.
Prerequisites: PH 222 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C]

PH 421. Mathematical Methods of Physics II. 3 Hours.
Prerequisites: PH 420 [Min Grade: C]

PH 423. Computational Physics. 3 Hours.
Introduces symbolic and numerical computation through examples drawn from classical and modern physics, such as, classical mechanics, electromagnetism, and quantum mechanics. Emphasizes computer-based approaches to visualization, solution of ordinary differential equations, evaluation of integrals, and finding roots, eigenvalues, and eigenvectors.
Prerequisites: MA 252 [Min Grade: C] or EGR 265 [Min Grade: C] and PH 222 [Min Grade: C]

PH 424. Biomedical Optics. 3 Hours.
The objective in this class is to present an introduction to applied optics, with an emphasis on biomedical applications.
Prerequisites: PH 222 [Min Grade: C]

PH 425. Applications of Contemporary Optics I. 3 Hours.
Prerequisites: PH 222 [Min Grade: C]
PH 426. Applications of Contemporary Optics II. 3 Hours.
Prerequisites: PH 425 [Min Grade: C]

PH 427. Geometrical Optics. 4 Hours.
Prerequisites: PH 422 [Min Grade: C]

PH 427L. Geometrical Optics Laboratory. 0 Hours.
Laboratory for PH 427. Lecture and laboratory must be taken concurrently.

PH 428. Physical Optics. 4 Hours.
Prerequisites: PH 422 [Min Grade: C]

PH 428L. Physical Optics Laboratory. 0 Hours.
Laboratory for PH 428. Lecture and laboratory must be taken concurrently.

PH 429. Applications of Contemporary Optics III. 3 Hours.
Optical interactions with materials, including nonlinear optical effects, such as birefringence, electro-optics, photelasticity, crystal optics, acousto-optics, and phase conjugation. Optical spectroscopies, such as spectroscopic instrumentation, lasers as spectroscopic light sources, fluorescence and Raman laser spectroscopy, and applications of laser spectroscopy in chemistry, environmental research, materials science, biology, and medicine.
Prerequisites: PH 425 [Min Grade: C] and PH 426 [Min Grade: C]

PH 432. Statistical Thermodynamics I. 3 Hours.
Statistical basis of laws of thermodynamics. Ensembles and partition functions. Quantum statistics of ideal gases, including photons and electrons. Applications to solids, real gases, liquids, and magnetic systems. Transport theory.
Prerequisites: PH 351 [Min Grade: C]

PH 433. Statistical Thermodynamics II. 3 Hours.
Statistical basis of laws of thermodynamics. Ensembles and partition functions. Quantum statistics of ideal gases, including photons and electrons. Applications to solids, real gases, liquids, and magnetic systems. Transport theory.
Prerequisites: PH 432 [Min Grade: C] and PH 450 [Min Grade: C]

PH 435. Physics of Biomedical Processes and Technologies. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to biomechanical systems, biophysical networks, and bioimaging technologies.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 436. Physics of Renewable Energy Systems. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to electrical power generation from renewable resources such as solar, wind, hydro, and ocean energy.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 445. Electromagnetic Theory I. 3 Hours.
Electromagnetic theory approached from the standpoint of fields and using Maxwell’s equations. 
Prerequisites: PH 222 [Min Grade: C]

PH 446. Electromagnetic Theory II. 3 Hours.
Electromagnetic theory approached from the standpoint of fields and using Maxwell’s equations.
Prerequisites: PH 445 [Min Grade: C]

PH 447. Directed Reading in Electromagnetic Theory. 2-3 Hours.
Tutorial studies in electromagnetic theory offered by special arrangement.

PH 450. Introductory Quantum Mechanics I. 3 Hours.
Principles of quantum mechanics and their application to particle waves, angular momentum, tunneling, radiation, and selection rules. Perturbation and variational methods. Successful completion of PH 352 is recommended prior to registering for this class.
Prerequisites: PH 352 [Min Grade: C] and PH 461 [Min Grade: C]

PH 451. Introductory Quantum Mechanics II. 3 Hours.
Principles of quantum mechanics and their application to particle waves, angular momentum, tunneling, radiation, and selection rules. Perturbation and variational methods. Successful completion of PH 352 is recommended prior to registering for this class.
Prerequisites: PH 450 [Min Grade: C]

PH 452. Directed Reading in Quantum Mechanics. 2-3 Hours.
Tutorial studies in quantum mechanics offered by special arrangement.

PH 453. Introductory Solid State Physics I. 3 Hours.
Properties of crystal lattices, lattice dynamics, lattice imperfections, and bonding energies. Electronic properties of dielectrics, semiconductors, and metals. Ferroelectric, magnetic, and optical properties of solids.
Prerequisites: PH 451 [Min Grade: C]

PH 454. Introductory Solid State Physics II. 3 Hours.
Properties of crystal lattices, lattice dynamics, lattice imperfections, and bonding energies. Electronic properties of dielectrics, semiconductors, and metals.
Prerequisites: PH 453 [Min Grade: C] and PH 451 [Min Grade: C]

PH 455. Molecular Spectroscopy. 3 Hours.
Molecular Spectroscopy.

PH 461. Classical Mechanics I. 3 Hours.
Kinematics and dynamics, including central forces, rotating coordinate systems, and generalized coordinates. Lagrangian, Hamiltonian, and other equivalent formulations of mechanics.
Prerequisites: PH 222 [Min Grade: C] and (MA 252 [Min Grade: C] or EGR 265 [Min Grade: C])

PH 462. Classical Mechanics II. 3 Hours.
Kinematics and dynamics, including central forces, rotating coordinate systems, and generalized coordinates. Lagrangian, Hamiltonian, and other equivalent formulations of mechanics.
Prerequisites: PH 461 [Min Grade: C]

PH 463. Directed Reading in Classical Mechanics. 2-3 Hours.
Tutorial studies in classical mechanics offered by special arrangement.

PH 465. Applied Mechanics and Electromagnetism I. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to biomechanical systems, biophysical networks, and bioimaging technologies.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]
PH 466. Applied Mechanics and Electromagnetism II. 3 Hours.
Integrated study of the fundamentals and dynamical principles of
mechanics, electromagnetism, and select quantum physics topics, with
applications to electrical power generation from renewable resources
such as solar, wind, hydro, and ocean energy.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 467. Special Relativity. 3 Hours.
Principles and foundations of special relativity with applications to
mechanics and electrodynamics.
Prerequisites: PH 446 [Min Grade: C] and PH 462 [Min Grade: C]

PH 468. General Relativity. 3 Hours.
Gravitational phenomena associated with and resulting from linear field
equations. Equivalence principle, its implications of non-linear field, and
physical consequences.

PH 469. Directed Reading in Physics. 2-3 Hours.
Tutorial studies in physics offered by special arrangement.

PH 471. Fundamentals of Spectroscopy. 3 Hours.
Explanation of phenomena related to rotational vibration and electronic
spectroscopy of atoms and molecules; operational principles of
spectroscopic tools including diffraction grating, waveguides and
interferometers, basic group theory concepts and notation.

PH 475. Introduction to Biophysics I. 3 Hours.
Physics of biological systems: proteins, lipids, nucleic acids,
supramolecular structures, and molecular motors; structure, function,
energetics, thermodynamics, and bio-nanotechnology. Emphasis on
systems that are best understood in physical and molecular detail.
Systems will direct study, with modern physical methods introduced as
needed.
Prerequisites: PH 351 [Min Grade: C]

PH 476. Introduction to Biophysics II. 3 Hours.
Physics of biological systems: proteins, lipids, nucleic acids,
supramolecular structures, and molecular motors; structure, function,
energetics, thermodynamics, and bio-nanotechnology. Emphasis on
systems that are best understood in physical and molecular detail.
Systems will direct study, with modern physical methods introduced as
needed.
Prerequisites: PH 475 [Min Grade: C]

PH 480. Laser Physics I. 3 Hours.
Physical principles of laser operation and design. Spontaneous and
stimulated emission, population inversion, light amplification, laser
resonators, Q-switching, mode-locking, pulse shortening techniques,
spectral narrowing, and tunable lasers. Individual types of lasers such
as gas, solid state, dye, color center, and semiconductor. Practical
applications of lasers as well as modern techniques and instrumentation
in laser spectroscopy. Lecture and laboratory must be taken concurrently.
Prerequisites: PH 222 [Min Grade: C]

PH 480L. Laser Physics I Laboratory. 0 Hours.
Laboratory for PH 480. Lecture and laboratory must be taken concurrently.

PH 482. Laser Physics II. 3 Hours.
Physical principles of laser operation and design. Spontaneous and
stimulated emission, population inversion, light amplification, laser
resonators, Q-switching, mode-locking, pulse shortening techniques,
spectral narrowing, and tunable lasers. Individual types of lasers such
as gas, solid state, dye, color center, and semiconductor. Practical
applications of lasers as well as modern techniques and instrumentation
in laser spectroscopy. Lecture and laboratory must be taken concurrently.
Prerequisites: PH 481 [Min Grade: C]

PH 482L. Laser Physics II Laboratory. 0 Hours.
Laboratory for PH 482. Lecture and laboratory must be taken concurrently.

PH 485. Laser Spectroscopy. 3 Hours.
Fundamental principles, experimental techniques, instrumentation, and
practical applications of laser spectroscopy.

PH 486. Semiconductor Materials in Modern Technology. 3 Hours.
Brief review of electronic materials with emphasis on traditional and
cutting edge silicon technology. Competing and complementary
semiconductors covered in standard lecture and seminar style. Materials:
compound and tertiary semiconductors, organic semiconductors, and
wide bandgap semiconductors. Applications: optical and chemical
sensors, microwave electronics, high power electronics, and lasers.
Specific applications and materials determined by student interests.
Prerequisites: PH 352 [Min Grade: C] or EE 351 [Min Grade: C] or CH
326 [Min Grade: C]

PH 487. Nanoscale Science and Applications. 3 Hours.
Physics of electronic, mechanical, and biological properties of materials
at the nanoscale level approaching one billionth of a meter. The
applications of nanoscale materials in electronic, mechanical, and
biomedical systems will be emphasized. Special tools in synthesis and
characterization of nanomaterials will be discussed.
Prerequisites: PH 221 [Min Grade: C] and PH 222 [Min Grade: C] or
(CH 115 [Min Grade: C] and CH 117 [Min Grade: C])

PH 490. Preparations for Teaching. 1-4 Hour.
This class prepares physics majors for successful teaching experiences.
The course emphasizes a foundation of practical knowledge related to
expectations and duties shared by teachers in physics education, as well
as an opportunity to read, reflect, and discuss current research related to
physics teaching and learning in secondary and higher education.
Prerequisites: PH 352 [Min Grade: C]

PH 491. Advanced Physics Laboratory I. 1-4 Hour.
This course provides physics majors with the opportunity to integrate the
physics knowledge acquired in earlier courses in a research environment
under the supervision of an approved UAB faculty mentor.
Prerequisites: PH 352 [Min Grade: C]

PH 492. Advanced Physics Laboratory II. 1-4 Hour.
This course provides physics majors with the opportunity to integrate the
physics knowledge acquired in earlier courses in a research environment
under the supervision of an approved UAB faculty mentor.
Prerequisites: PH 491 [Min Grade: C]

PH 493. Advanced Physics Laboratory III. 1-4 Hour.
This course provides physics majors with the opportunity to integrate the
physics knowledge acquired in earlier courses in a research environment
under the supervision of an approved UAB faculty mentor.
Prerequisites: PH 492 [Min Grade: C]

PH 494. Research Methods in Physics. 1-3 Hour.
This course is designed to provide future physics teachers with the
tools that physicists use to solve scientific problems; to give them the
opportunity to use these tools in a physics laboratory setting; to make
them aware of how scientists communicate with each other through peer-
reviewed scientific literature; and to enable them to understand how
scientists in general and physicists in particular develop new knowledge
and insights, the most important of which are eventually presented in
textbooks and taught in conventional science classes.
Prerequisites: EHS 126 [Min Grade: D]
PH 495. Honors Research. 3 Hours.
Research in an area of active research, under the direction of a faculty sponsor and the Honors Committee. May be repeated.
Prerequisites: PH 352 [Min Grade: C]

PH 497. Special Topics in Physics. 1-6 Hour.
Topics of current interest, such as theoretical physics, computational physics, experimental techniques. May be repeated for credit.

PH 498. Directed Research. 1-6 Hour.
Directed Research.

PH 499. Physics Capstone. 3 Hours.
Instructional sessions, conclusion of research or teaching project and career planning activities aimed at the integration of physics knowledge and competencies in scientific writing, quantitative literacy, and ethics and civic responsibility.
Prerequisites: PH 490 [Min Grade: C] or PH 491 [Min Grade: C] or PH 495 [Min Grade: C]

PHL-Philosophy Courses

Courses

PHL 100. Introduction to Philosophy. 3 Hours.
Introductory survey of philosophy, its nature, methods and problems. Topics typically include, among others, existence of God, freedom, knowledge, right and wrong. Classical and/or contemporary readings. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 115. Contemporary Moral Issues. 3 Hours.
Survey of contemporary moral problems and dilemmas; introduction to methods and concepts of moral philosophy. Topics may include abortion, euthanasia, capital punishment, economic justice, homosexuality, animal rights, and respect for nature. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 116. Bioethics. 3 Hours.
Moral problems and dilemmas in medicine and health professions; elementary methods and concepts of moral philosophy. Problems typically include, among others, AIDS and human and animal experimentation. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 120. Practical Reasoning. 3 Hours.
Survey of skills in critical thinking and scientific reasoning, including the ability to identify different kinds of arguments, recognize common fallacies of reasoning, and evaluate analogical, causal, and statistical arguments. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 125. Introduction to Ethics. 3 Hours.
Elements of moral philosophy. Moral objectivity; connections among morality, rationality, and religion; nature and significance of moral value. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 130. Social and Political Philosophy. 3 Hours.
Survey of moral and political philosophy; theories of justice, rights, and the free enterprise system. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 135. The Rule of Law. 3 Hours.
Law and legal institutions and processes, with emphasis on civil law. Development of legal ideas in such areas as torts, contracts, and property law. Role and history of legal institutions within political framework. Covers many topics addressed in the first year of law school. Relations between courts and legislatures. Ethics and Civic Responsibility are significant components of this course.

PHL 203. Philosophy of Religion. 3 Hours.
Religion; its nature, justification, and significance. God, evil, religious experience, faith, and reason. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 204. Philosophy and Christianity. 3 Hours.
What Christians believe and why they believe it; foundations of Christian philosophical thought. Christian concepts of God, Christ, salvation, atonement, faith, and ethics.

PHL 205. Existentialism. 3 Hours.
What Existentialists believe and why they believe it; foundations of Existentialist philosophical thought. Existentialist concepts of freedom, commitment, anxiety, and authenticity.

PHL 215. History of Moral Philosophy. 3 Hours.

PHL 216. Intermediate Bioethics. 3 Hours.
Survey of contemporary debates concerning fundamental principles of medical ethics. Usually 3-4 topics will be selected from the general areas of Death and Dying, Ethical Issues at the Beginning of Human Life, Research Ethics, Justice and Medical Finance, Genetics, and the Doctor-Patient Relationship.

PHL 220. Introduction to Symbolic Logic. 3 Hours.
Modern theory of deductive inference. Emphasis on recognizing valid forms of reasoning. Truth-function theory and some beginning concepts of quantification theory. Quantitative Literacy is a significant component of this course.

PHL 230. Social and Political Philosophy. 3 Hours.
Survey of contemporary debates concerning fundamental principles of political life. Topics typically include justification of political authority, the proper role of government in society, economic justice, freedom and rights, and the free enterprise system. Ethics and Civic Responsibility are significant components of this course.

PHL 232. Classical Political Thought. 3 Hours.
Development of western political thought from Plato to Augustine; theories of major political thinkers.

PHL 233. Modern Political Theory. 3 Hours.
Development of Western political thought from the early modern era to contemporary debates in works of Hobbes to Mill. Theories of major political thinkers.

PHL 239. Classical Thought of India China and the West. 3 Hours.
Conceptions of self, society, and natural world.

PHL 240. History of Philosophy: Socrates Plato and Aristotle. 3 Hours.
Origins and development of Western philosophic tradition, with emphasis on writings of Plato and Aristotle. Concepts of knowledge, reality, and the good life.

PHL 270. Science, Knowledge, and Reality. 3 Hours.
Science; its nature, scope, and significance. Scientific reasoning: science as social institution; ethical issues in science.

PHL 290. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 291. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.
PHL 292. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 293. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 309. Teaching Practicum. 3 Hours.
Teaching experience in philosophy courses, supervised by a faculty member. Student must have previously taken the course for which the student will work within. Permission of Director of Undergraduate Studies required. Pass/Fail.

PHL 311. Philosophy of Science. 3 Hours.
Philosophical issues concerning the nature of science. Topics may include philosophical debates about scientific evidence; scientific explanation; empiricism, instrumentalism, and realism; the problems of induction; the demarcation problem; theories and models; laws and mechanisms; reduction; causation and explanation; observables vs. unobservables; ethical issues in science; and the social structure and impact of science.

PHL 312. Philosophy of Biology. 3 Hours.
This course surveys issues in contemporary philosophy of biology and some closely related issues. Much of the focus will be on philosophical issues concerning evolutionary biology, but issues in developmental biology, molecular biology, and immunology will also be considered. No background in biology is required. Philosophical issues involving evolution and ethics, nature vs. nurture, evolution and psychology, biological mechanisms and models, species and human nature, evolution and intelligent design, and natural selection and chance will be discussed.

PHL 314. Philosophy and Feminism. 3 Hours.
Feminism; conceptual foundations, scope, and applications. Problems typically include, among others, feminist concepts of gender, reasoning, knowledge, and ethics. Prerequisite: One previous PHL course or permission of instructor.

PHL 315. Ethics: Theories of Good and Evil. 3 Hours.
Morality; its nature, principles, and scope. Normative and critical problems in moral philosophy; moral obligation. One previous PHL course or permission of instructor required.

PHL 335. Philosophy of Law. 3 Hours.
Theories of the nature of law (natural law, realism, positivism, critical legal theory); interpretation of precedents, statutes, and Constitution; Constitutional protections such as freedom of speech and religion and the right of privacy; selected issues in criminal and civil law. Ethics and Civic responsibility are significant components of this course.

PHL 341. History of Philosophy: Descartes to Hume. 3 Hours.
Philosophy in modern era, focusing on continental rationalism and British empiricism; emphasis on theories of knowledge and reality; science, religion, and modernism. One previous PHL course or permission of instructor required. Writing is a significant component of this course.

PHL 342. History of Philosophy: Kant and 19th Century. 3 Hours.
Western philosophic tradition from Kant through end of nineteenth century. Kant, Hegel, Marx, Kierkegaard, and Mill, among others. Prerequisites: PHL 100 [Min Grade: C] or PHL 115 [Min Grade: C] or PHL 116 [Min Grade: C] or PHL 215 [Min Grade: C]

PHL 343. History of Philosophy: Twentieth Century. 3 Hours.

PHL 348. American Philosophy. 3 Hours.
Major philosophers of classical American period; Pierce, James, and Dewey. Origins and nature of American pragmatism. One previous PHL course or permission of instructor required.

PHL 350. Philosophy of Language. 3 Hours.
Language: its nature, structure, and uses. Reference, meaning, communication, and interpretation; Russell, Wittgenstein, Chomsky, and Quine, among others. One previous PHL course or permission of instructor required.

PHL 372. Minds and Machines. 3 Hours.
Artificial intelligence; its philosophical foundations and implications. Topics may include mind-body problem, nature of intelligence, machine models of mind, computational processes, and mental representation. One previous PHL course or permission of instructor required.

PHL 375. Philosophy of Mind. 3 Hours.
Mind; its nature, forms, and functions. Concepts of mind/body, consciousness, rationality, and personal identity; free will. One previous PHL course or permission of instructor required. Writing is a significant component of this course.

PHL 390. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 391. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. One previous PHL course or permission of instructor required.

PHL 392. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. One previous PHL course or permission of instructor required.

PHL 393. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 394. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.
PHL 395. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 396. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 397. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 398. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 399. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 400. Neuroethics. 3 Hours.
Ethical issues related to neuroscience and other sciences of the mind. Topics typically include: privacy and side effects of brain technologies; neuroscientific threats to free will; moral responsibility and mental illness; emotion and reason in moral judgment; cognitive enhancement and personality change; ethically sound research practices. A previous course in Philosophy is recommended. Ethics and Civic Responsibility are significant components of this course.

PHL 405. Epistemology: Theories of Knowledge. 3 Hours.
Human knowledge; its nature, sources, and limits. Concepts of truth, objectivity, evidence, and belief. Two previous PHL courses or permission of instructor required. Writing is a significant component of this course.

PHL 408. Metaphysics. 3 Hours.
Reality; its basic elements, principles of existence and identity, and appearance and reality. Concepts of cause, matter, mind, realism, and anti-realism. Two previous PHL courses or permission of instructor required.

PHL 435. Philosophy of Law. 3 Hours.
Theories of the nature of law (natural law, realism, positivism, critical legal theory); interpretation of precedents, statutes, and Constitution; Constitutional protections such as freedom of speech and religion and the right of privacy; selected issues of criminal and civil law. Requires additional work not required in PHL 335. Ethics and Civic Responsibility are significant components of this course.

PHL 441. History of Philosophy: Descartes to Hume. 3 Hours.
Philosophy in modern era, focusing on continental rationalism and British empiricism; emphasis on theories of knowledge and reality; science, religion, and modernism. Writing is a significant component of this course.

PHL 442. History of Philosophy: Kant and 19th Cent. 3 Hours.
Western philosophic tradition from Kant through end of nineteenth century. Kant, Hegel, Marx, Kierkegaard, and Mill, among others. One previous PHL course or permission of instructor required.

PHL 443. History of Philosophy: Twentieth Century. 3 Hours.
Major movements and problems of twentieth century philosophy. Moore, Russell, Wittgenstein, and Quine, among others. Two previous PHL courses or permission of instructor required.

PHL 470. Philosophical Problems in the Natural and Social Sciences. 3 Hours.
Nature and uses of science. Concepts of explanation, confirmation, scientific law, and theory; special problems in sciences. Two previous PHL courses or permission of instructor required.

PHL 491. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey using previous course work in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution. Course fulfills capstone requirement for Seniors.

PHL 492. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey using previous course work in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution. This course fulfills the capstone requirement for seniors.

PHL 493. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey using previous course work in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution.
PHL 494. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest.
A systematic survey in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution.

PHL 498. Philosophy Internship. 1-3 Hour.
On-campus and off-campus training positions in fields utilizing critical language and writing skills, with some positions offering external funding. Students should contact the Department Chair to discuss available positions and application procedures. Student must be a Philosophy major or minor.

PHL 499. Directed Studies. 1-3 Hour.
Special arrangement opportunity for in-depth study. Permission of Instructor Only.

PHS-Physical Sciences Courses

Courses

PHS 02. Physical Science II. 4 Hours.
This course includes online lecture and laboratory activities and is designed to assist non-science major students in acquiring practical knowledge of established physical laws and learning scientific investigative methods. Writing and Quantitative Literacy are significant components of this course.

PHS 101. Physical Science. 4 Hours.
Scientific method and hands-on experience with integrated laboratory, discussion, and lecture. Emphasis on the use of quantitative reasoning to solve physical problems. Writing, assignments based on research and laboratory experiences that include collection and interpretation of experimental data. For nonscience majors. Lecture and laboratory. Writing and Quantitative Literacy are significant components of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.

PHS 101L. Physical Science Laboratory. 0 Hours.
Must be taken concurrently with PHS 101 lecture.

PHS 102. Physical Science II. 4 Hours.
This course includes online lecture and laboratory activities and is designed to assist non-science major students in acquiring practical knowledge of established physical laws and learning scientific investigative methods. Writing and Quantitative Literacy are significant components of this course. Prerequisites: PHS 101 [Min Grade: C]

PHS 102L. Physical Science II Lab. 0 Hours.
Physical Science II Laboratory.

PHS 110. Overview of Space Exploration. 3 Hours.
Descriptive approach to comparative planetology for non-science majors. Analysis of recent, ongoing, and planned space missions with regard to scientific objectives and experiment design.

PHS 141. Musical Acoustics. 3 Hours.
Scientific method and hands-on experience with integrated laboratory, discussion, and lecture, emphasizing physical principles and experiences important for understanding musical tones. For non-science majors. See MU 141. Prerequisite for this class includes completion of Core Curriculum mathematics requirement.

PHS 150. Science Writing. 3 Hours.
Scientific writing skills for science, mathematics, and engineering. Identification of audience and purpose, generation of ideas, organization of information and construction of arguments.

PHS 211. Discussion on the Nature of Matter. 3 Hours.
Honors seminar. Evolution of science and scientific method from early Greek origins in context of the study of matter. Non-mathematical, descriptive, and pictorial approach to understanding basic structure of matter and materials of technological interest. See HON 211. Scientific writing skills for science, mathematics, and engineering. Permission of instructor or admission to Honors Program.

PSC-Political Science Courses

Courses

PSC 100. Public Service. 3 Hours.
This course provides an introduction to public service values and career paths in political science and public policy. Students will learn of various career paths relevant to political science and international studies in public management and nonprofit organizations. A component of the course focuses on career preparation, resume building, professional networking, and interview strategies.

PSC 101. Foundations of American Government. 3 Hours.
This course provides an overview of the American political system. The course covers the constitutional foundations of the American political system. It explains how the institutions of American Government - Congress, the presidency, and the courts operate and how they interact with one another. Each section provides a foundation for future study. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 102. Foundations of Comparative Politics. 3 Hours.
Compares the political cultures and institutions of various political systems around the world. Special emphasis upon the Communist and post-Communist states, religiously-based states, and countries in transition to democracy. (CP) This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 103. Foundations of International Relations. 3 Hours.
The introductory course in international relations is designed to be a survey of the problems and practice of global cooperation and conflict. Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 104. Foundations of Political Theory. 3 Hours.
This course surveys the intellectual origins and historical development of political theory from the ancient Athenian experiment in direct democracy to the contemporary American challenge of diversity in a representative government. We explore citizenship as a philosophical conversation about rights and duties, equality and liberty, and the ethical responsibility of the individual to the community.

PSC 110. Foundations of American Public Policy. 3 Hours.
Policy process at local, state, and federal levels of government. Problem identification and definition; policy formulation and enactment; implementation and evaluation; policy termination. (AG/PT).
PSC 120. Urban Politics. 3 Hours.
This course is a critical examination of the institutions of urban
government, focusing on intergovernmental relations, official decision
makers, and the role of group and electoral politics in metropolitan
environments. (AG/PT).

PSC 170. Contemporary Political Issues. 1-3 Hour.
Selected topics of current political importance and interest. Interests
identified in current schedule of classes. May be repeated with
permission of department chair.

PSC 221. American State and Local Government. 3 Hours.
This course is a critical study of the institutions, functions, and processes
of the state and local levels of American government. (AG/PT) This
course meets the Core Curriculum requirements for Area IV: Social and
Behavioral Sciences.

PSC 222. Public Administration and Policy. 3 Hours.
Principles and practices of governmental administration, including
organization, procedures, personnel management, budgeting, and
control. (AG/PT).

PSC 260. American Foreign Policy. 3 Hours.
Creation and conduct of U.S. foreign policy. Evolution of American role
in world affairs; problems, trends, and developments since World War II.
(CP/IR).

PSC 261. Law and Society. 3 Hours.
This course takes a multidisciplinary approach to the study of law and
examines how societal and cultural factors shape the law as well as how
law affects society by looking at whether law can act as a form of social
control, whether courts can bring about social change, and whether law
creates societal inequality. These questions are answered in the context
of current social and moral issues. (AG/PT).

PSC 265. Special Topics in Comparative Politics. 3 Hours.
Selected topics in Comparative Politics.

PSC 266. The United Nations. 3 Hours.
Organization framework, evolving experiences and continuing problems
of United Nations system for maintenance of international peace and
security and for international economic and social cooperation. (IR/CP).

PSC 270. Law and Film. 3 Hours.
This course focuses on the portrayal of courts, cases, lawyers, and law
in major motion pictures. The course examines the extent to which films
that focus on law are affected by the legal, political, and pop culture at
the time of their production as well as the extent to which films shape
society's perceptions, whether correctly or incorrectly, of law and the legal
profession. (AG/PT).

PSC 271. Contemporary Political Issues. 3 Hours.
Issues of current interest in political science.

PSC 272. Model Arab League. 1 Hour.
Preparation for participation in Model Arab League simulations around
the country. Individual research on the Arab League and cooperative
efforts to represent an assigned country and its foreign policy on
committees, such as political affairs, economics, social affairs, and
others.

PSC 275. Special Topics in Political Theory. 3 Hours.
Special Topics in Political Theory: selected topics in Political Theory.

PSC 285. Special Topics in International Relations. 3 Hours.
Selected topics in International Relations.

PSC 295. Special Topics in Political Science. 3 Hours.
Selected topics in Political Science.

PSC 316. Human Rights. 3 Hours.
This course examines the definition and major facets of human rights,
key issues and controversies related to human rights, as well as groups
and institutions related to the promotion of human rights. Specific issues
include state repression and torture, genocide, the rights of women and
children, and economic rights.

PSC 317. Religion and Politics. 3 Hours.
This course investigates the relationship between religion and the
American political community. Topics examined will include: the influence
of religion on Early Settlement thought; the role of religion in shaping the
1st Amendment; the political evolution of Christian, Jewish and Islamic
sects in the US; the court and the issue of "church and state"; religion and
political activism; faith-based organizations and the implementation of
public policy. (AG/PT).

PSC 318. Politics and Race in America. 3 Hours.
This course is designed to provide students with a broader understanding
of American politics by examining the politics and strategies of African
Americans within the United States. Topics examined in the course
include the Civil Rights Movement, the Black Power Movement, the
Obama presidency, as well as the continuing problem of racism in
America. (AG/PT).

PSC 319. Civil Liberties and Civil Rights. 3 Hours.
This course examines the role of the Supreme Court in defining the
fundamental rights and liberties of citizens in the United States. We
analyze the inherent tension in supporting individual rights when they
conflict with the will of the democratic majority.

PSC 320. Political Participation. 3 Hours.
This course focuses on forms of political participation in American
national politics, including individual level public opinion, voting
behavior, and the role of groups in public life. It explores the causes and
consequences of individual participation in campaigns and elections,
parties and interest groups, and protest movements. Ethics and Civic
Responsibility are significant components of this course. (AG/PT).

PSC 321. Public Opinion in American Politics. 3 Hours.
This course is an in-depth study of public opinion and the factors that
shape it, including media effects, socialization, and group formation and
advocacy. Students will examine the effects of public opinion on elections
and policy, and explore the methods of public opinion measurement. (AG/
PT).

PSC 322. Gender, Politics, & Policy. 3 Hours.
This course analyzes the history, theory and public policy of women as
U.S. citizens from the colonial era through suffrage toward a woman in
the White House. We examine the struggle for political rights, educational
opportunity and economic equality, and gender roles in the family.
We evaluate poll date, public policy debates, electoral strategies and
leadership styles for women candidates for local, state, and federal office.
(AG/PT).

PSC 330. The American Judicial Process. 3 Hours.
This course examines the purpose and structure of American courts; the
selection of judges; the role of jurors; how federal courts set agendas,
decide cases, and impact legal policy; the role of interest groups and
public opinion on judicial behavior. This course is writing-intensive;
students will produce a central research project that asks and answers an
empirical question about the judicial system, broadly described. Writing is
a significant component of this course. (AG/PT).
PSC 331. The U.S. Congress. 3 Hours.
This course in an in-depth analysis of the U.S. Congress. Students will explore the internal organization of Congress and the rules and norms that govern the legislative process. Students will also examine the roles of the president, the court, interest groups, and political parties in the legislative process. (AG/PT).
Prerequisites: PSC 101 [Min Grade: D]

PSC 332. The American Presidency. 3 Hours.
This course is a critical exploration of American presidential leadership. Students examine the legal foundations of presidential authority, popular influences on presidential politics, the role of the presidency in the broader context of American democratic government. (AG/PT).

PSC 333. Political Parties and Interest Groups. 3 Hours.
This course covers engagement and governing in American politics through the institutions of participation - political parties and interest groups. Topics include parties and political organizations in their varied forms - trade associations, membership groups, social movements and others, and the role of these organizations shaping outcomes. (AG/PT).

PSC 340. American Political Thought. 3 Hours.
This course focuses on the origins and evolution of American political theory from the colonial period to post-modernity. Investigates the philosophical legacy of the American founding and the civic republican tradition on contemporary theories of liberty, equality, and civic engagement in public life. Ethics and Civic Responsibility are significant components of this course. (AG/PT).

PSC 341. Classical Political Thought. 3 Hours.
This course analyzes the development of Western political thought in classical period from Plato to Augustine. We trace the emergence of democratic government and the political culture of the polis as represented by the philosophers and playwrights of the ancient world from Athens to Rome. (AG/PT).

PSC 342. Modern Political Theory. 3 Hours.
This course surveys the development of Western political thought from early modern era to contemporary debates from Machiavelli to King. We examine the innovation of social contract theories and the revolution of modern democracies as we analyze philosophical arguments for individual consent, political authority, personal liberty, and legitimate government. (AP/PT).

PSC 343. Digital Democracy. 3 Hours.
The advent of the internet and digital media has fundamentally transformed the way humans connect, communicate, and share information. This class will look at the democratization of information as a result of the “information revolution” - i.e. the internet and digital medium as a game changer in communications, politics, health, education, citizenship, and many other sectors. Additional topics will include net neutrality, protection of consumer rights, and a touch of behavioral economics in digital commerce.
Prerequisites: PSC 104 [Min Grade: D]

PSC 350. African Politics. 3 Hours.
Following the African tradition of communication of political philosophies through narrative, our study of African politics will incorporate storytelling (in film, fiction, and poetry) as well as more standard methods of political analysis. The course addresses social, economic, and political dimensions of Africa - Northern, Southern, and Sub-Saharan - from pre-colonial era to the present. We will also examine Africa’s regional and international relations today. (CP/IR).

PSC 351. European Political Systems. 3 Hours.
Comparative analysis of politics in European nations. (CP/IR).

PSC 352. Latin/South American Political Systems. 3 Hours.
Comparative analysis of politics in Latin and South American Societies. (CP/IR).

PSC 353. Asian Political Systems. 3 Hours.
This course provides an overview of the relationships between state and society in contemporary Asia, with particular emphasis on India, Pakistan, China and Japan. Also included are a presentation of Pan-Asian relation, environmental problems, current armed conflicts and political culture. (CP/IR).

PSC 355. Politics of Development. 3 Hours.
Analysis of social, economic and political problems confronting the world’s poor countries. Topics examined include national responses to the following problems: child soldiers and child labor; government corruption and transparency; ethnic conflict; environment destruction; social inequality; globalization; and cultural preservation. (CP/IR).

PSC 356. Riots, Resistance, Revolt. 3 Hours.
This course is an introduction to sub-state political violence. We will focus particularly closely on post-WWII resistance and revolt in North Africa.

PSC 357. Human Trafficking. 3 Hours.
The goal of this course to address issues regarding modern slavery and human trafficking. Specifically, we will investigate the types of slavery, such as bonded labor and forced prostitution, the political, legal, economic and social dimensions of global slavery and human trafficking, and ways in which a broad variety of international and nongovernmental organizations respond to this crisis.

PSC 358. Health and Humanitarian Crisis. 3 Hours.
This course examines the concepts, actors, analytic frameworks and dilemmas related to humanitarian action. Specific issues include the changing nature of conflict, coordination difficulties among humanitarian actors, evidence shortcomings, food security, public health crises, and efforts made to reform and professionalize the humanitarian sector.

PSC 360. International Security. 3 Hours.
Analysis of arms race, process of arms control negotiations, and diffusion of nuclear weapons. (IR/CP).
Prerequisites: PSC 103 [Min Grade: D]

PSC 361. North/South International Relations. 3 Hours.
Relations between advanced industrial countries and underdeveloped countries, focusing on changing dynamics of these relations. (IR/CP).
Prerequisites: PSC 103 [Min Grade: D]

PSC 362. Diplomacy. 3 Hours.
Origins, institutions, functions and rules of modern diplomatic and consular practice and roles of diplomacy as instrument of national policy. (IR/CP).

PSC 363. Nationalism in World Politics. 3 Hours.
The primary objective of this course is to examine the political basis and implications of nationalism, as an idea and a political movement, in world politics. (IR/CP).
Prerequisites: PSC 103 [Min Grade: D]

PSC 364. Gender in World Politics. 3 Hours.
This course is an investigation of contemporary women’s and LGBT issues in world politics, with particular emphasis on cultural politics and women and development. There is also an investigation of masculinities and conflict.

PSC 365. Special Topics in Comparative Politics. 3 Hours.
Selected topics in Comparative Politics.
PSC 366. The United Nations. 3 Hours.
Organization framework, evolving experiences and continuing problems of United Nations system for maintenance of international peace and security and for international economic and social cooperation. (IR/CP).

PSC 368. Women and War. 3 Hours.
This course provides an overview of gender and armed conflict from a global perspective. In the first third of the class, we will learn about theories of gender and war. In the second third, we will apply these theories to case studies of women and war. We will also examine the roles of women in terrorism. The last third of the course concerns women and peacemaking.

PSC 370. Politics and the Media. 3 Hours.
This course covers how significant changes in communications media have affected our ability to address our political problems and make public policy. It covers the interactive relationship between real world politics and communications media, where and how we learn about candidates, elected and appointed officials, and policy issues.
Prerequisites: PSC 101 [Min Grade: D]

PSC 371. Political Propaganda in Film. 3 Hours.
Analyzing and writing in depth about the ethics and rationale for using and abusing the film medium to relate to, undermine, or support political authority.

PSC 372. The Politics of Constitutional Law. 3 Hours.
Special Topics in Political Theory: selected topics in Political Theory.

PSC 375. Special Topics in Political Theory. 3 Hours.
Special Topics in Political Theory: selected topics in Political Theory.

PSC 380. The Politics of Constitutional Law. 3 Hours.
Decisions of the U.S. Supreme Court as related to the development of important doctrines of constitutional law. Role of judiciary; extent of federal executive and legislative power; federal taxing and commerce powers. (AG/PT).
Prerequisites: PSC 101 [Min Grade: C]

PSC 381. The Bill of Rights. 3 Hours.
Decisions of the U.S. Supreme Court as related to the development of important doctrines of constitutional law. Guaranties of Bill of Rights regarding both national and state governments; 14th Amendment. (AG/PT).
Prerequisites: PSC 101 [Min Grade: C]

PSC 382. Political Networks. 3 Hours.
The way we connect to others affects how we behave and think, even politically. The course explores how traditional and new (through social digital media) connections between individuals, groups, and institutions affect political behavior and policy outcomes both in domestic and international politics. The course also covers computational tools used to study social networks.

PSC 383. International Conflict & Conflict Management. 3 Hours.
Who fights whom, where, when, and how? And what can be done to resolve conflicts? This course investigates the causes of conflict between states, groups, and individuals. It reviews and evaluates the effectiveness of the political and legal tools at our disposal to manage conflict, including negotiation, various forms of mediation, peacekeeping and peace enforcement.

PSC 384. Diamonds, Drugs, and Guns: The Illicit Global Economy. 3 Hours.
Systematic analysis of the illicit global economy, including the causes of the leading illegal markets, the various organizations involved and key concepts used to analyze illicit markets. Particular attention is paid to the role of the state, as well as international organizations, in responding to these markets.

PSC 385. Special Topics in International Relations. 3 Hours.
Selected topics in International Relations.

PSC 386. Economics of Public Policy. 3 Hours.
The primary focus of this course is the role of government in the economy, specifically when and why the government intervenes, how it does so, and the effect of these interventions. Key economic concepts are brought to bear on leading public issues including safety and environmental policy, health policy, and social insurance.

PSC 389. Special Topics in American Government. 3 Hours.
Special topics in American Government.

PSC 400. Data, Politics, and Policy. 3 Hours.
From big data to focus groups and “small world networks,” this course explores the use and misuse of data in the policy process and in political analysis. It emphasizes strategies for using data to test hypotheses about domestic and international politics.
Prerequisites: PSC 101 [Min Grade: C] and PSC 102 [Min Grade: C] and PSC 103 [Min Grade: C] and PSC 104 [Min Grade: C]

PSC 401. Seminar in American Government. 3 Hours.
There are multiple theoretical approaches employed in the study of American political culture, behavior, institutions, and policy making. This course covers those approaches and the significant literature on the central topics in American government and politics (AG/PT).
Prerequisites: PSC 101 [Min Grade: D]

PSC 402. Seminar in Comparative Politics. 3 Hours.
This seminar is an exploration of core themes, debates, and concepts of world politics. (CP/IR).
Prerequisites: PSC 102 [Min Grade: D]

PSC 403. Seminar in International Relations. 3 Hours.
From civil war and terrorism to human rights and climate change, this capstone seminars deals with how important issues in world politics can be understood and analyzed from a multitude of theoretical perspectives. The seminar has significant writing, quantitative, and civic engagement components.
Prerequisites: PSC 103 [Min Grade: D]

PSC 404. Seminar in Political Theory. 3 Hours.
Multiple approaches employed in study of political theory and their usefulness in forming normative judgements. (PT/AG).
Prerequisites: PSC 104 [Min Grade: D]

PSC 418. Politics and Race in America. 3 Hours.
This course gives students a pragmatic understanding of the Black-American political experience in the United States to facilitate a deeper understanding of the status of Blacks in the American system. The goal of the course is to introduce students to the development and character of Black-American political and social discourse and the role that political and social ideas play in the lives of Black-Americans. The design of the course is to help and encourage students to read, think, discuss, and write intelligently, analytically, and critically about Black-American social and political discourse, in particular, and the larger American social and political dynamic, in general.

PSC 422. Gender, Politics, & Policy. 3 Hours.
This course analyzes the history, theory and public policy of women as U.S. citizens from the colonial era through suffrage toward a woman in the White House. We examine the struggle for political rights, educational opportunity and economic equality, and gender roles in the family. Students will design and research a paper on the impact of women elected and appointed leaders on law and public policy. (AG/PT).
PUH-Public Health

PSC 443. Digital Democracy. 3 Hours.
The advent of the internet and digital media has fundamentally transformed the way humans connect, communicate, and share information. This class will look at the democratization of information as a result of the “information revolution” - i.e. the internet and digital medium as a game changer in communications, politics, health, education, citizenship, and many other sectors. Additional topics will include net neutrality, protection of consumer rights, and a touch of behavioral economics in digital commerce.

PSC 456. Riots Resistance Revolt. 3 Hours.
This course is an introduction to sub-state political violence. We will focus particularly closely on post-WWII resistance and revolt in North Africa.

PSC 461. International Political Economy. 3 Hours.
The course examines global economic processes, such as trade and finance, as well as the key actors involved, including states, societal actors, multinational corporations, and international organizations. Key issues of contention, including trade disputes, financial crises, and problems associated with globalization, are also assessed (IR/CP).

Prerequisites: PSC 103 [Min Grade: D]

PSC 465. International Law. 3 Hours.
The course covers the sources, foundational principles, and main institutions of public international law. It explores international law concerning boundaries and territory (including the high seas and outer space), diplomatic relations, the use of force, conflict resolution, human rights, and the environment. (IR/CP).

PSC 466. The United Nations. 3 Hours.
Organizational framework, evolving experiences and continuing problems of United Nations system for maintenance of international peace and security and for international economic and social cooperation. (IR/CP).

PSC 471. Political Propaganda in Film. 3 Hours.
This course analyzes the ethics and rationale for using and abusing the film medium to relate to, undermine, or support political authority. The class employs a critical analysis of the explicit or implicit forms of the film medium to relate to, undermine, or support political authority.

PSC 495. Directed Research in Political Science. 1-6 Hour.
Directed research in political science with department faculty. Open to Political Science majors only. Requires instructor approval.

PSC 496. Independent Studies and Special Projects. 1-3 Hour.
Directed reading under supervision of member of PSC faculty.

PSC 497. Honors Research in Political Science. 3-6 Hours.
Directed research by Political Science Honors student.

Prerequisites: PSC 401 [Min Grade: A] or PSC 402 [Min Grade: A] or PSC 403 [Min Grade: A] or PSC 404 [Min Grade: A]

PSC 498. Public Affairs Internship. 1-3 Hour.
Individually arranged assignment in public or non-profit agencies or organizations, monitored and evaluated by member of department.

Courses

PUH 101. Transitioning to College, Exploring Public Health. 1 Hour.
This First Year Experience (FYE) course is for students majoring in or interested in Public Health. It is designed to introduce freshmen to the tools and techniques that will enhance their transition to college and improve their academic success. Goal setting, time management, faculty/peer interaction, and other relevant academic skills will be addressed. Students will also gain an understanding of the various educational opportunities and career options associated with Public Health.

This course explores the richness of public health through its disciplines and its stories to demonstrate how the understanding of the origins of epidemics determines the progress of civilization.

PUH 202. Introduction to Global Health. 3 Hours.
This course is designed to introduce students to the topic of global health and impart a basic understanding of its interdisciplinary nature, successes to date, and current challenges in the field. The first part of the course provides a basic framework for understanding global public health issues and improvement of health at a population level by exposing students to basic public health concepts of disease burden, standard indices for measuring population-based health, and highlighting global epidemiologic trends. Progress towards the Millennium Development Goals will be a focus of discussion. The second section of the course will discuss vulnerable populations and how their specific needs are prioritized and addressed. Third, the class will examine strategies for organization and delivery of health care services at a population level and examine health as a human right. Finally, the course will look at the key institutions and organizations working in tandem with health ministries to address global health and the need for major collaborative initiatives to address health disparities worldwide. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PUH 204. Health Meets Life: Sex, Drugs, Weight, and other Health Behaviors. 3 Hours.
This course will be structured around lectures, in-class activities, and discussions of lecture, readings, and current events. The successful student will engage in active listening and critical thinking of the topics presented. Students will be evaluated by class participation, projects, and exams.

PUH 205. Adolescent Health. 3 Hours.
This undergraduate course will provide an overview of critical health issues in adolescence and review the potential of emerging perspectives to advance adolescent health and promote positive youth development. This course is designed to provide students with the most current knowledge of issues influencing the health and well-being of adolescents. Theoretical frameworks that draw on an ecological perspective will provide a better understanding of how families, peers, schools, neighborhoods, and the larger community influence risk and protective factors in youth. Adolescence is a time of growth and experimentation, a period marked by establishing autonomy and confronting new challenges. Emphasis will be placed on the promotion of positive youth development, and the relevance of adolescent health issues for the science of health behavior and the broader public health arena.
PUH 210. Biological Basis of Public Health. 3 Hours.
This course will consist of lectures and in-class active-learning activities centered on deepening the students’ understanding of the fundamental biological concepts with an emphasis on significant public health problems. Each major system will be presented first as normal physiology, then, how genetics and/or specific exposures (voluntary and involuntary) contribute to diseases of public health significance. Examples may include genetics/genomics with cancer and disease susceptibility; the immune system and infectious diseases; respiratory system with asthma; the nervous system with pesticide exposure; the reproductive system, STIs and reduced fertility; and, fetal development with drug addiction. The relevance for the biological basis of public health will be underscored through a major assignment in which the student will research a current issue in public health, thoroughly explain the biological basis of the condition, identify factors (genetic and non-genetic) that may contribute to the problem, and finally propose interventions (behavior choices, genetic counseling, policy, avoiding or limiting exposures, etc.) that could lead to improvements in public health.
Prerequisites: BY 115 [Min Grade: C] or (BY 101 [Min Grade: C] and BY 102 [Min Grade: C]) or BY 123 [Min Grade: C]

PUH 220. Environmental Factors in Public Health. 3 Hours.
This didactic lecture course open to students from all majors will survey current issues and challenges in our global and local environmental and how those impact our health. It will examine the sources, exposure routes, regulation and health outcomes associated with biological, chemical, and physical agents in the environment, both naturally occurring and man-made. We will examine these agents and how they impact air, water and food quality to cause disease. Regulatory agencies, risk assessment and disaster response and preparedness will be discussed.

PUH 250. Biostatistics. 3 Hours.
Students will gain a thorough understanding of basic analysis methods, elementary concepts, statistical models and applications of probability, commonly used sampling distributions, parametric and nonparametric one and two sample tests, confidence intervals, applications of analysis of two-way contingency table data, simple linear regression, and simple analysis of variance.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C]

PUH 302. Epid: Beyond the Outbreak. 3 Hours.
The course will provide students with a basic understanding of epidemiology history, methods, and practice. The history of epidemiology will focus on major historical events such as John Snow and the 1854 Broad Street cholera outbreak. The course will also cover basic epidemiologic methods such measures of disease occurrence (e.g., prevalence and incidence) as well as basic study designs such as case-control and cohort studies. Later in the term, students will utilize actual epidemiologic investigations in order to learn how these methods are put into practice. The coursework will focus mostly on discussion for the first part of the course focused on the history of epidemiology. The section on methods will primarily be problem-based, performing basic analysis of epidemiologic data through calculation of prevalence/incidence and measures of association (e.g., prevalence ratio, incidence rate ratio).
This work will lead to students to prepare a document on how they would respond to an outbreak in a situation described by the course master. The entire coursework will take place in a lecture format, with the class meeting twice a week.
Prerequisites: (MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C]) and PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]

PUH 307. Public Health Policy. 3 Hours.
This course provides a comprehensive overview of public health systems in the United States. A public health system is comprised of an array of entities whose unifying mission is to promote health and well-being at the population level. The course will examine the contributions of federal agencies (Centers for Disease Control, Department of Health and Human Services), state/county/city level health departments, and public and private health care providers (hospitals, long-term care facilities, physicians and nurses) to population health.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 321. The Workplace Environment and Worker Safety and Health. 3 Hours.
This course will explore known physical and chemical hazards found in the workplace, and we will combine our technical knowledge with skills to identify and control work-related hazards. We will begin with the importance of key events and milestones in the history of worker safety and health. We will research the ethical, legal and social implications associated with the working environment. We will define the related roles and responsibilities of government, non-government agencies, private organizations, businesses and industry in worker safety and health.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 322. Environmental Justice and Ethics. 3 Hours.
In this course, students will investigate and analyze the disproportionate burdens of environmental contamination and the health disparities affecting communities of color across the U.S. and internationally. Using a broad range of examples we will look at the incidents that lead to this grass roots movement, many of which came from towns and peoples of the Deep South.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]
 PUH 331. The Rise of Non-Communicable Diseases Globally. 3 Hours.
This course provides an introduction to selected key topics in chronic diseases burden endured globally. We will address the following questions: How is it that people in some countries live twice as long as in others? Why is there a rising epidemic of NCDs such as cancer, heart and lung disease, obesity, and diabetes spreading globally? What are the burdens posed by these diseases? What steps are being taken to control it? What key tools are at our disposal? Who are the global actors and stakeholders addressing this global health epidemic? What is the link between globalization and the rise of NCDs?.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

 PUH 333. Food, Water, and Air: the Global Environment and Health. 3 Hours.
This service-learning course will examine food security and nutrition as complex issues of sustainable human development. While learning about food security and nutrition in the classroom, students will gain further understanding of the topic through engaging with non-profit organizations in Birmingham that address food security and nutritional issues. Topics to be covered include issues of availability, access, and use of food in the domestic and global context, as well as current responses and potential solutions. The course will also focus on helping students develop a skill set for global citizenship that includes opportunities for advocacy, leadership, and critical thinking.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

 PUH 340. Professionalism in Public Health. 3 Hours.
The purpose of this course would be to prepare students to enter the workforce by providing tangible skills including, but not limited to: Ethic of Public Health, Oral and Written Communication, Personal Presentation Skills, Leadership Styles and Working in Teams and Project Management.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

 PUH 341. Public Health Preparedness and Emergency Management. 3 Hours.
This course will provide students with an understanding of Public Health Emergency Preparedness (PHEP), exercise development, and evaluation. During this course you will learn how to identify threats within your community, determine what capabilities are most needed to prepare for and meet these threats, and how to develop and evaluate exercises to test knowledge, skills and abilities.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

 PUH 342. Public Health Disasters. 3 Hours.
This will be a hybrid of environmental disasters and history and consequences of world disasters.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

 PUH 350. Beating the Odds: Statistical Modeling and Disease Prediction. 3 Hours.
This class provides an introduction into the commonly used statistical methods that are classified as General Linear Models. By the end of the class, students will be able to build and interpret prediction equations using Simple and Multiple Linear Regression. Students will learn the statistical assumptions of the models and how to check the assumptions. Students will learn how to test group differences within a regression framework (Analysis of Variance), test for group differences while controlling for other variables (Analysis of Covariance). In the last weeks of the class, students will learn how to model categorical outcomes.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C] and PUH 250 [Min Grade: C]

 PUH 352. Risk Reporting: Interpreting and Writing Medical News. 3 Hours.
The main tool that scientists use to describe their work is the peer-reviewed research article. These articles are written for a specialist audience of other scientists and clinicians. However, human research is of interest to patients, policies makers, and other non-scientists. Accurate and appropriate interpretation and evaluation of scientific findings is vitally important to their implementation. In this course students will learn how to read and interpret scientific publications to critically evaluate scientific publications and media coverage of the publications, and to write articles describing scientific findings in ways that are accessible for a general audience. The first part of the semester will consist of lectures and class discussions including guest lectures by science writers. The later part of the semester will include student-lead discussions of scientific and mass-market articles. Evaluation will be based on reading quizzes, class participation and submission of discussion questions before class periods, written assignments interpreting and evaluating scientific and mass-market articles, and a midterm and final exam.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C] and PUH 302 [Min Grade: C]

 PUH 353. The Domestic Hot Zone: Major Diseases Affecting the U.S.. 3 Hours.
Though infectious diseases still contribute greatly to morbidity in the United States, in the 20th century the causes of mortality in the United States began to shift—known as the epidemiologic transition—from infectious diseases to chronic diseases such as heart disease, cancer, stroke, and diabetes. These four diseases alone account for nearly three-quarters of a trillion dollars in medical expenditure and cause over 1.3 million deaths annually. The purpose of this class is to provide students with detailed knowledge regarding the major diseases that affect the United States, covering both major chronic and infectious diseases. Each week will focus on a disease or family of diseases, and will cover the epidemiology of the disease as well as looking at historical trends in disease incidence and mortality and how the trends have changed in recent years. Students will be graded through the use of take-home assignments, a mid-term examination, and a final examination.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C] and PUH 302 [Min Grade: C]
PUH 354.Scratching the Iche: Introduction to Infection Control and Hospital Epidemiology. 3 Hours.
This course is designed to focus specifically on concepts involved with performing epidemiological surveillance and research within a hospital setting. With the recent advent of policies set forth by the Affordable Care Act, emphasis has been placed on surveillance and prevention of nosocomial infections in hospitals throughout the country. The course will introduce students to the methodology of infection control in a hospital setting, including how patients are tested for infectious diseases, surveillance methodology, and how an outbreak investigation in a hospital is performed. The course will involve guest lecturers from different departments of the hospital, including but not limited to Infection Control, Patient Safety and Quality, Clinical Laboratory, and Environmental Control. Each week will cover a given topic (e.g., bloodstream and catheter-associated infections, multi-drug resistant pathogens, respiratory diseases). The students will be graded through the use of take-home assignments, a mid-term examination, two case studies, and a group project involving a nosocomial outbreak investigation of an infectious disease of the course master's choice.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C] and PUH 302 [Min Grade: C]

PUH 391. Directed Study in Public Health. 1-6 Hour.
This course is open to junior and senior level undergraduate students to conduct research or explore an approved topic of interest under the supervision of a faculty mentor. This is an individualized course and students will have individual end of term goals, typically a comprehensive paper and presentation.

PUH 392. Seminar in Public Health. 1-3 Hour.
Seminar will explore current public health issues and topics locally, regionally, nationally and globally; case studies in epidemiology, issues and causes of chronic and infectious diseases, how the environment interacts with health, and how social and behavioral factors affect personal health.

PUH 398. Undergraduate Research in Public Health. 1-6 Hour.
Research project conducted under the supervision of a faculty mentor.

PUH 399. Special Topics in Public Health. 1-6 Hour.
This special topics course will be used in the undergraduate program to cover emerging issues or specialized content not represented in the main curriculum.

PUH 405. Managing Public Health Programs. 3 Hours.
This course will consist of lectures and case discussions of management in a public health context. Management involves planning, organizing, directing, and controlling resources to achieve an organizational mission. Following a series of lectures, students will prepare an analysis of an assigned case and present the analysis to the class. Each case analysis presentation will be evaluated by other students and the evaluation presented at a subsequent class meeting. A comprehensive final examination will be administered.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 421. Nature vs. Nurture: Genes, Environment and Health. 3 Hours.
This didactic lecture course will examine how components of the world around us impact our lives and health. The classic battle of nature (genes) vs. nurture (environment) is being replaced with the understanding of how our exposure to our environment impacts gene expression, which can increase (or decrease) our own likelihood of disease. Using everyday, real-world examples we will study the environment-gene interaction and how this helps determine why some people are more disease prone than others. Each example will focus on the underlying science and the medical consequence of exposure, and will also examine exposure prevention strategies for individuals and practical legislation to reduce environmental contamination. Examples will vary from year to year, but damaging examples may include nanoparticles, smog, medical radiation, drugs and alcohol, pesticides, noise, indoor air pollution, toxic metals, plastics, food and water contamination, and sexually transmitted infections. We will also discuss how the environment can positively impact gene expression, and will include discussions of functional foods (i.e. nutraceuticals such as soy, green tea and garlic) and other alternative medicinal therapies. BY 116 or equivalent; completion of or registration in BY210 or BY330 is recommended.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 210 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 422. Fundamentals of Toxicology: Poisons and People. 3 Hours.
Basic principles in toxicology will be covered including: dose-response relationships; absorption, distribution, storage, biotransformation and elimination of toxicants; target organ toxicity; mutagenesis and carcinogenesis; and an overview of fate and transport of contaminants in the environment. The course will focus on contaminants of environmental and public health interest and will include the fascinating roles toxins have played in human history.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 210 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 432. Global Health Cases. 3 Hours.
Global Health cases refer to instances of health problems that transcend national borders. Diseases are not constrained by borders. Similarly, problems and solutions to these cases are not unique to a particular race, region, socio-political system or even level of economic development. These cases also carry the dubious reputation of having a global political and economic impact. Yet a closer look at site specific successes can yield important lessons about how to tackle the challenges confronting similar cases in other sites.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]

PUH 434. Global Communicable Disease Challenges. 3 Hours.
This course is designed to introduce students to the major infectious diseases of public health importance globally. Since we cannot cover all infections in depth in the time allowed, we will highlight major categories of infections as well as focus on a few major infections that together cause the greatest morbidity and mortality in children or adults worldwide. The purpose of this course is to equip participants with up-to-date knowledge of resources on major infections of global importance, and their prevention and control strategies.
PUH 436. Maternal and Child Health in Africa and Asia. 3 Hours.
Despite significant advances in global health over the last fifty years, the burden of disease among the maternal and child health (MCH) population in certain areas of the world remains alarmingly high. While child mortality has declined over the last fifty years, maternal and neonatal mortality has seen relatively little improvement, especially in Sub Saharan Africa and South Asia, which bears a disproportionate share of the global burden of maternal and child health disease. Maternal health is especially critical due to the far ranging impact of a maternal death on the family, community, and society. Fortunately, high impact, cost-effective solutions exist to address these highly preventable maternal and child deaths. In this course we will discuss those successful MCH interventions and policies in addition to identifying different barriers and challenges to the implementation and scale up of MCH services in Africa and Asia.

PUH 441. Public Health Law and Policy. 3 Hours.
PUH 441 will be an introductory course in public health law and policy designed for undergraduate students in public health. There are no prerequisites for this course. The purpose of the course is to introduce non-lawyers to the United States legal system and to the basic principles of law relevant to public health practitioners. It is intended to provide students with basic legal knowledge to assist them in communicating with attorneys about potential legal issues that may arise in formulating policy and exercising leadership in health care organizations. An overarching theme of the course is the tension between community interests and individual rights.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

This interdisciplinary course will provide students with basic knowledge about current issues in health and society, both globally and domestically that impact the Maternal and Child Health (MCH) population, which broadly includes women of reproductive age, infants, children, and families. The course will include a specific focus on the role of poverty in the health issues of this population.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 450. Statistical Programming and Database Analysis. 3 Hours.
This class provides an introduction into the commonly used statistical programs and teaches the fundamentals of database design. By the end of the class, students will be able to design and build research databases. Students will also be taught how to conduct statistical analyses using EXCEL and SAS.

Prerequisites: PUH 250 [Min Grade: C]

PUH 491. Directed Study in Public Health. 1-6 Hour.
This course is open to junior and senior level undergraduate students to conduct research or explore an approved topic of interest under the supervision of a faculty mentor. This is an individualized course, and students will have individual end of term goals, typically a comprehensive paper and presentation.

PUH 492. Seminar in Public Health. 1-3 Hour.
Seminar will explore current public health issues and topics locally, regionally, nationally and globally; case studies in epidemiology, issues and causes of chronic and infectious diseases, how the environment interacts with health, and how social and behavioral factors affect personal health.

PUH 494. Internship/Fieldwork in Public Health. 3 Hours.
Students who meet eligibility requirements may take three hours of academic credit per semester for participating in an advisor approved internship experience.

PUH 495. Public Health Capstone Experience. 3 Hours.
This course provides students with the opportunity to synthesize information from the various courses and experiences. Students will report on their service learning experience to discuss issues and report activities. Students will present a final report on their experience and how they applied their coursework. Students must have completed 27 hours of PUH coursework and are encouraged to find a community partner for the course prior to the first day of class. This course should be taken in the last two semesters of graduating.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 204 [Min Grade: C] and PUH 210 [Min Grade: C] and PUH 220 [Min Grade: C] and PUH 250 [Min Grade: C] and PUH 302 [Min Grade: C] and PUH 307 [Min Grade: C]

PUH 498. Undergraduate Research in Public Health. 1-6 Hour.
Research project conducted under the supervision of a faculty mentor.

PY-Psychology Courses

Courses

PY 101. Introduction to Psychology. 3 Hours.
Application of scientific method to behavior. Areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PY 107. Psychology of Adjustment. 3 Hours.
Adaptive behavior; theories, research, and personal applications relevant to desirable behavior patterns; interpersonal skills and self-control techniques.

PY 108. Human Sexuality. 3 Hours.
Biological and psychological bases of human sexual behavior. Genetic, hormonal, and learning foundations for development of sexual and sex-related structures and of psychosocial identity and behavior. Adult sexual structures and behavior, conception control, pregnancy, lactation and parentalism, drugs and reproduction, and sexual pathology and variances.

PY 109. Drugs and Human Behavior. 3 Hours.
Historical and cultural perspectives on drug use by humans. Major classes of drugs; effects, side effects, and toxicity. Mechanisms of drug action, drug abuse, government regulations, and use of psychoactive drugs in treatment of mental disorders.

PY 125. Introduction to Forensic Psychology. 3 Hours.
Overview of issues involving the intersection of law and psychology. Focus on role of clinical assessment of competency, scientific jury selection, expert witnesses in court, punishment and sentencing, and related issues.

PY 201. Honors Introduction to Psychology. 3 Hours.
Advanced seminar in scientific study of behavior and cognitive processes. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences. Permission of Director of Undergraduate Studies required.
PY 212. Developmental Psychology. 3 Hours.
Human development from prenatal period to old age. Genetic and environmental determinants of behavior. Language, cognition, personality, social and emotional behavior, intelligence, and physical and sexual development. Applied areas include child rearing, childhood psychoses, and child abuse. This course fulfills the requirements in Ethics and Civil Responsibility (ECR).
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 213. Cross-Cultural Perspective on Child Development. 3 Hours.
Cultural differences in determinants of child development. Effects of culturally distinct approaches to child rearing and education on infant attachment, temperament, aggression, cognitive development, peer interaction, sex-role socialization, and moral reasoning.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 215. Research Literacy in Psychology. 3 Hours.
This course provides an overview of the scientific process and teaches students to read and evaluate scientific reports: popular media to primary literature; emphasizing the importance of being a good consumer of information. The course also teaches students to write scientifically, following accepted formats such as APA.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 216. Elementary Statistical Methods. 4 Hours.
Descriptive and inferential statistics with emphasis on behavioral science applications. Measures of central tendency and variability, frequency distributions, probability, t-test, correlation, analysis of variance, and regression. Use of computers in statistical analysis of psychological research data. Quantitative Literacy is a significant component of this course. Concurrent enrollment in PY216L required.
Prerequisites: MA 105 [Min Grade: C] or MA 110 [Min Grade: C] or MA 102 [Min Grade: C] or MA 125 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 225 [Min Grade: C]

PY 216L. Elementary Statistical Methods Laboratory. 0 Hours.
Statistical Methods Laboratory required with PY 216 lecture. Concurrent enrollment in PY 216 required.
Prerequisites: MA 105 [Min Grade: C] or MA 102 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 225 [Min Grade: C]

PY 218. Abnormal Psychology. 3 Hours.
Research-oriented study of different types of maladaptive behavior, including symptoms, development, classification, and treatment. Ethics and Civil Responsibility are significant components of this course.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 220. Contemporary Issues in Psychology. 3 Hours.
Issues of current interest in psychology.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 222. Honors Developmental Psychology. 3 Hours.
Advanced seminar in human development from prenatal period to old age. Genetic and environmental determinants of behavior. Language, cognition, personality, social and emotional behavior, intelligence, and physical and sexual development.
Prerequisites: PY 212 [Min Grade: C] or PY 222 [Min Grade: C]

PY 226. Honors Elementary Statistical Methods. 4 Hours.
Advanced seminar in descriptive and inferential statistics with emphasis on behavioral science applications. Measures of central tendency and variability, frequency distributions, probability, t-test, correlation, analysis of variance, and regression. Use of computers in statistical analysis of psychological research data. Quantitative Literacy is a significant component of this course. Concurrent enrollment in PY216L required.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 228. Honors Abnormal Psychology. 3 Hours.
Advanced seminar in research-oriented study of different types of maladaptive behavior, including symptoms, development, classification, and treatment.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 240. Psychology of Social Inequality. 3 Hours.
The gap in income between the rich and the poor has been growing steadily larger in the United States for over 30 years. Psychological science has produced some surprising insights about the causes and effects of this contentious trend. Among topics that will be tackled are how poverty affects decision making, wealth changes how people treat others, and racial discrimination affects responses to stress.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 253. Brain, Mind and Behavior. 3 Hours.
How brain functions during dreaming, visual perception, aggression, learning and memory, sex, and language. Left versus right hemisphere specializations, recovery after brain damage, and neurological basis of illnesses such as schizophrenia, autism, and Parkinson’s disease. Includes five hours of videos. Quantitative Literacy is a significant component of this course.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 302. History and Systems of Psychology. 3 Hours.
Historical origins and development of major approaches to psychology.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 303. Introduction to Cognitive Science. 3 Hours.
Introduction to the exciting new discipline of cognitive science, the interdisciplinary study of mind and intelligence. This course draws on a number of disciplines involved in unraveling the mysteries of the mind and intelligent life.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 305. Medical Psychology. 3 Hours.
Prerequisites: PY 101 [Min Grade: D] or PY 201 [Min Grade: D]

PY 312. Advanced Developmental Psychology. 3 Hours.
Current research and theory in childhood and adolescence with focus on perceptual/cognitive and social/emotional issues. Relationship between spoken language development and learning to read, linguistic development in special populations (e.g., hearing-impaired children), applications of memory research to children’s courtroom testimony, impact of preschool experience (e.g., Head Start) on academic achievement, and family and peer influence on cognitive and social development.
Prerequisites: PY 212 [Min Grade: C] or PY 222 [Min Grade: C]
PY 313. Language: Mind, Brain, and Society. 3 Hours.
Language is the greatest achievement of the human mind and brain. This course will provide an introductory survey of this amazing ability. Topics will include: speech perception, word comprehension, semantics, bilingualism, speech production, sentence processing, reading, and the social aspects of language. Throughout, the course will combine cognitive and behavioral perspectives with what is known about the brain systems that support language, and how those systems are impaired in developmental and neurological disorders. The course material will be conveyed through lectures, assigned readings, discussion of current debates, and hands-on "labs" in which students will collect data and write lab reports describing their results.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 315. Methods in Psychological Research. 4 Hours.
This course provides an overview of scientific methods used to investigate psychological phenomena, including correlational methods, quasi-experimental methods, and experimental methods. It considers issues related to problem definition, hypothesis formation, measurement, causal inference, validity, and reliability and includes a strong emphasis on writing, quantitative analysis and questions of ethics and civic responsibility. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PY 215 [Min Grade: C] and PY 216 [Min Grade: C] or (PY 214 [Min Grade: C] and PY 217 [Min Grade: C] and PY 215 [Min Grade: C])

PY 316. Research Methods in Psychology. 3 Hours.
Overview of specific research methods such as correlational, quasi-experimental, and experimental methods. Students will design and conduct research. As such it includes a strong emphasis on quantitative analysis and questions of ethics and civic responsibility. This course also provides practical knowledge of the scientific methodology such as problem definition, hypothesis formation, measurement, causal inference, validity, and reliability. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PY 215 [Min Grade: C] and PY 216 [Min Grade: C] or (PY 214 [Min Grade: C] and PY 217 [Min Grade: C] and PY 215 [Min Grade: C])

PY 319. Psychopathology and Culture. 3 Hours.
Cultural differences with respect to types of behavior viewed as abnormal and how such behaviors are classified and treated.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 320. Contemporary Issues in Psychology. 3 Hours.
Issues of current interest in psychology.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 325. Clinical Child Psychology. 3 Hours.
Diagnosis, prevention and treatment of psychological problems in children and adolescents. Interview techniques, behavioral and cognitive interventions, and community prevention programs. Developmental considerations emphasized.
Prerequisites: PY 218 [Min Grade: C] or PY 228 [Min Grade: C]

PY 326. Industrial/Organizational Psychology. 3 Hours.
Psychological methods applied to people at work. Selection, placement, performance appraisal, training, attitude measurement, work motivation, leadership, industrial safety, and human performance.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 330. Sport Psychology. 3 Hours.
Psychological factors in athletic performance. Psychological characteristics of successful athletes; anxiety, arousal, motivation, attention, concentration, attribution, cognition, and imagery.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 335. Motivation and Emotion. 3 Hours.
Psychobiology of motivated behaviors including eating, drinking, sleep, sex, aggression, social motivation, and emotions. Classic theories and current evidence for underlying mechanisms as well as abnormal states including circadian, sleep, and eating disorders, obesity, genetic sex abnormalities and sexual arousal disorders, drug addiction, criminal violence, psychopathy and cult membership.
Prerequisites: PY 253 [Min Grade: C] or NBL 230 [Min Grade: C]

PY 350. Personality and Intellectual Assessment. 3 Hours.
Measurement of personality and other psychological characteristics through psychological tests. Selection, administration, and interpretation of psychological tests.
Prerequisites: PY 214 [Min Grade: C] or PY 216 [Min Grade: C]

PY 353. Behavioral Neuroscience. 4 Hours.
The focus of the course is the neurobiological basis of behavior and emotion, and will cover molecular, cellular, and systems level mechanisms that mediate processes such as learning, motivation, sensation, speech, and emotional behavior. The associated lab will utilize the collection and analysis of physiological data to reinforce core course concepts.
Prerequisites: PY 253 [Min Grade: C]

PY 353L. Behavioral Neuroscience Laboratory. 0 Hours.
Behavioral Neuroscience Laboratory required with PY 353 lecture. Concurrent enrollment in PY 353 required.

PY 354. Autism: Brain and Cognition. 3 Hours.
Autism is a disorder that affects every facet of human functioning. Its multidimensional manifestation is enigmatic to researchers as well as to affected families. This course will examine the scientific research that has illuminated the nature of autism, focusing on its cognitive and biological aspects. We will examine different perspectives of thinking and various biological underpinnings of brain function, to converge on the most recent scientific consensus on the biological and psychological characterization of autism. There will be a special focus on structural and functional brain imaging studies of autism.
Prerequisites: PY 253 [Min Grade: C]

PY 355. Cellular & Molecular Neuroscience. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize the development, anatomy, cellular and molecular biology and biochemistry of neurons and glial cells, and introduce electrical, biophysical and chemical signaling within and across neurons.
Prerequisites: PY 253 [Min Grade: C] and BY 123 [Min Grade: C] and CH 115 [Min Grade: C]

PY 356. From Systems to Cognitive Neuroscience. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize mechanisms of synaptic transmission, sensory systems, neuropharmacology, and synaptic plasticity; and introduce the molecular basis of diseases and disorders of the central and peripheral nervous systems.
Prerequisites: PY 355 [Min Grade: C] or NBL 355 [Min Grade: C]
PY 361. Psychology of Learning. 3 Hours.
Issues of learning in terms of current theoretical positions. Classical conditioning, instrumental conditioning, forgetting, role of motivation, and transfer of training.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 363. Cognitive Psychology. 3 Hours.
Human cognitive functioning. Selective attention, information processing, models of learning, memory, perception, and free and structured thought processes.
Prerequisites: PY 253 [Min Grade: C]

PY 370. Personality. 3 Hours.
Comparison of major theories of personality, including philosophy of human nature; structure, dynamics, and development of personality.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 372. Social Psychology. 3 Hours.
Major theories and research in social psychology. Social perception and attribution, behavior in interpersonal relationships, and group influences on individual behavior.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 375. Philosophy of Mind. 3 Hours.
Mind; its nature, forms, and functions. Consciousness, self-consciousness, action, belief, desire, rationality, personal identity; problems such as mind-body, psychological explanation, and freedom of will. Prerequisite: one previous PHL course or permission of instructor.

PY 376. Psychology and Law. 3 Hours.
Interaction between theories and applications of psychology and practice of civil and criminal law. Insanity, malpractice, competency, civil commitment, violence, jury selection, and expert-witness testimony.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 380. Perception. 3 Hours.
Contemporary theory and empirical research in sensory coding of perceptual information. Sensory transduction, physiology and anatomy of sensory systems, and psychophysical measurement techniques. Visual perception, hearing, and speech, smell, and taste.
Prerequisites: PY 253 [Min Grade: C]

PY 390. Animal Behavior. 3 Hours.
The foundation of animal behavior as it relates to the study of psychobiology and evolutionary psychology. Reproductive and survival strategies, communication, learning, cognition, orientation navigation/homing, behavioral genetics, and evolution.
Prerequisites: PY 101 [Min Grade: C] (Can be taken Concurrently) or PY 201 [Min Grade: C]

PY 396. Teaching Practicum in Psychology. 1-3 Hour.
Teaching experience in psychology courses, supervised by a faculty member. Student must have previously taken the course for which the student will work within. Permission of Director of Undergraduate Studies required. Pass/Fail.

PY 397. Community-Based Practicum in Psychology. 1-6 Hour.
Community work in various supervised settings such as Crisis Center, Department of Human Resources, etc. Permission of Director of Undergraduate Studies required. (Pass/Fail) Ethics and Civic Responsibility are significant components of this course.

PY 398. Research Practicum in Psychology. 0-7 Hours.
Project or research activity supervised by faculty. Cannot be taken Pass/Fail. Permission of Director of Undergraduate Studies required.

PY 399. Psychology Honors Seminar. 1 Hour.
Focus on preparation for graduate/professional school and conducting psychological research, including presentation of research and discussion of relevant issues in statistical analysis, research methods, and ethics. Prerequisites: Admission into the Psychology Honors Program and Elementary Statistical Methods (may be concurrent enrollment).
Prerequisites: PY 216 [Min Grade: C] (Can be taken Concurrently)

PY 401. Neuroscience Seminar. 1 Hour.
Neuroscience faculty from the School of Medicine and Psychology present current research and discuss strategies for career development in medicine and research. Group discussion follows research presentation.
Prerequisites: PY 253 [Min Grade: C]

PY 405. Biofeedback, Meditation, and Self-Regulation. 3 Hours.
History and current applications of biofeedback, meditation, and relaxation techniques.
Prerequisites: PY 315 [Min Grade: C] or PY 316 [Min Grade: C]

PY 411. Cognitive Development. 3 Hours.
Development of and changes in memory, perception, learning, and thinking throughout the lifespan.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 412. Social Development. 3 Hours.
Contemporary theoretical models and empirical research in social development. Attachment formation in infancy, parent-child and family interactions, peer relationships, moral and pro-social development, aggression, and sex role development.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 413. Psychology of the African American Child. 3 Hours.
Psychological development of African American children from birth through adolescence. Prenatal influences on growth and development, cognitive development, practices of African American families, Black English and language development, psychological testing, self-concept, racial identification, and motivation and academic achievement.
Prerequisites: (PY 212 [Min Grade: C] and PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 415. Intellectual and Developmental Disabilities. 3 Hours.
History, causes, treatment/education, behavioral interventions, and family issues related to Intellectual and Developmental Disabilities and other developmental disabilities. Psychologist as member of interdisciplinary treatment team.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 418. Psychotherapy and Behavior Change. 3 Hours.
Different therapeutic approaches and issues relating to their effectiveness. Principles of behavior modification.
Prerequisites: PY 218 [Min Grade: C] or PY 228 [Min Grade: C] and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 420. Special Topics in Psychology. 3 Hours.
Issues of current interest in psychology.
Prerequisites: PY 315 [Min Grade: C] or PY 316 [Min Grade: C]
PY 422. Infant Development. 3 Hours.
The goal of the course is to review contemporary theory, research, and methods relevant to understanding infant development. The course focuses on both normative and atypical development because an understanding of one enriches an understanding of the other. Individual differences, sociocultural diversity, and a historical perspective on the study of these themes will be emphasized throughout. Topics will include: Genetic and environmental influences on development & temperament; Neurodevelopment & Risk, Resilience, & Intervention; Sensory development; Cognitive development; Social cognitive development, joint attention; Language development; Emotion & emotion regulation; Social Interaction; Precursors to attachment.  
Prerequisites: PY 316 [Min Grade: C]

PY 423. Abnormal Child Development. 3 Hours.
Current research and theories related to aberrations of normal development processes, including autism, childhood schizophrenia, and other disorders of childhood.  
Prerequisites: (PY 218 [Min Grade: C] or PY 228 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 425. Psychology of Aging. 3 Hours.
A comprehensive overview of psychological aspects of aging. Topics will include age-related changes in cognitive function, behavior, sensation/ perception, health, and personality, as well as dementia and other forms of psychopathology. (Also offered under Gerontology.).  
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 426. Creative Arts Therapies. 3 Hours.
The goals of the course are to provide an introduction to and overview of the educational, ethical and credentialing requirements for each of the creative arts therapies. The course includes lecture, discussion, research, and presentation requirements.  
Prerequisites: PY 316 [Min Grade: C]

PY 431. The Dynamics of Pain. 3 Hours.
Prerequisites: (PY 253 [Min Grade: C] or NBL 230 [Min Grade: C])

PY 433. Diseases of the Nervous System. 3 Hours.
Molecular mechanisms and treatments for neurological, psychiatric, and injury based disorders and diseases of the nervous system. Topics include neurodevelopmental disorders (including intellectual disability and autism spectrum disorders), neurological disorders (including neurodegenerative and demyelinating disease), neuropsychiatric disorders (including depression disorders and schizophrenia), and injury to the nervous system (including stroke and traumatic brain and spinal cord injury).  
Prerequisites: PY 353 [Min Grade: B] or PY 355 [Min Grade: C] or PY 356 [Min Grade: C]

PY 436. Statistical Programming. 3 Hours.
This course integrates an introduction to the most commonly-used statistical methods in psychology and neuroscience with an introduction to statistical programming. The statistical programming material includes basic programming concepts, and focuses on specific needs of data management, data visualization, and reproducible data analysis. The statistical methods include descriptive and inferential statistics, organized around the generalized linear modeling framework.  
Prerequisites: PY 216 [Min Grade: C] or PY 226 [Min Grade: C]
PY 453. Advanced Behavioral Neuroscience. 4 Hours.
Neural systems which control behavior will be studied, incorporating knowledge gained from neurobiological and psychological research. Topics will include synaptic communication, sensation and perception, movement, genetic influences on behavior, motivation, emotions, psychopathology, brain plasticity, and an extended module on learning. The associated lab will utilize the collection and analysis of physiological data to reinforce core course concepts.
Prerequisites: PY 353 [Min Grade: D] or PY 355 [Min Grade: D] or PY 363 [Min Grade: D] or NBL 355 [Min Grade: D]

PY 453L. Advanced Behavioral Neuroscience Laboratory. 0 Hours.
Advanced Behavioral Neuroscience Laboratory required with PY 453 lecture. Concurrent enrollment in PY 453 required.

PY 454. Advanced Topics in Behavioral Neuroscience. 3 Hours.
Advanced Topics in Behavioral Neuroscience will cover methods and discoveries in the neuroscience of behavior, such as brain imaging, human and animal learning, perception, neurophysiology, neuropharmacology and psychiatric disorders.
Prerequisites: PY 453 [Min Grade: C]

PY 455. Psychology of Eating Disorders and Obesity. 3 Hours.
The history, epidemiology, genetic, environmental, and behavioral correlates and prevention and treatment strategies of eating disorders and obesity. Includes mechanisms of normal feeding and weight control and general research methods used to understand psychiatric disorders.
Prerequisites: PY 253 [Min Grade: C] and (PY 315 [Min Grade: C] or PY 316 [Min Grade: C]) and (PY 353 [Min Grade: C] or PY 335 [Min Grade: C]) or PY 355 [Min Grade: C]

PY 457. Neural Measurement Lab. 3 Hours.
This course is about how to obtain nervous system data. It will include basic and applied research techniques, including data collection, measurement, and analysis methodology. Students will learn basic instrumentation for the measurement of autonomic and central nervous system responses related to psychological, psychophysiological, and emotional tasks.
Prerequisites: PY 253 [Min Grade: B] or PY 353 [Min Grade: C]

PY 460. Advanced Neuroscience: From Molecules to Mind. 3 Hours.
Builds on foundation set in PY 355. Provides in-depth understanding of nervous system functions at molecular, cellular, biophysical, and circuit level. Includes developmental, cognitive, systems and clinical neuroscience.
Prerequisites: PY 355 [Min Grade: C]

PY 463. Cognitive Neuroscience. 3 Hours.
Interdisciplinary study of higher-order cognitive functions in humans. Data from functional brain imaging, neurology, neuroanatomy, and neurophysiology used in study of human perception, language, learning, and memory.
Prerequisites: PY 353 [Min Grade: C] or PY 355 [Min Grade: C] or PY 363 [Min Grade: C] or NBL 355 [Min Grade: C]

PY 465. Neural Analysis Lab. 3 Hours.
This course extends the analysis methodology from the PY 457 course and includes an advanced focus on the processes associated with data examination (probability and basic statistics), and how to model data (Simulink and Matlab).
Prerequisites: PY 457 [Min Grade: C]

PY 468. Cognitive Neuroimaging. 3 Hours.
This course will focus on examining the neural bases of higher cognitive and social functions. We will discuss the basics of functional MRI and will study scientific papers in neuroimaging to arrive at neural characterization of cognitive functions, such as: executive functions, emotion, intentionality, language comprehension, and social cognition. This course will provide students a unique opportunity to learn about the potential of neuroimaging in understanding cognition. It will also help students refine their research interests and possibly choose the field of neuroscience to pursue further studies.
Prerequisites: PY 315 [Min Grade: C] or (PY 316 [Min Grade: C] and PY 253 [Min Grade: C])

PY 472. Social Psychophysiology. 3 Hours.
Current research on the effects of the social world on hormonal responses (cortisol, testosterone etc.). Several research articles will be discussed every week in a seminar format.
Prerequisites: NBL 210 [Min Grade: C] or PY 316 [Min Grade: C]

PY 488. Pediatric Psychology. 3 Hours.
Behavioral influence on health and illness; impact of health problems and illness on behavior and development of children and adolescents; family issues related to these interactions.
Prerequisites: [PY 212 [Min Grade: C] or PY 222 [Min Grade: C]] and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 490. Psychology Capstone/SL. 3 Hours.
Capstone emphasizes the synthesis of knowledge and research skills expected of the undergraduate Psychology major. Students are guided in conducting research within a specific content area. Use of computers in statistical analysis of psychological research data. Also includes class readings and discussions on ethical issues. Observation or community service in selected social service agencies is an integral part of the course. Ethics and Civic Responsibility, Writing and Quantitative Literacy are significant components of this course. This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.
Prerequisites: PY 315 [Min Grade: C] or PY 316 [Min Grade: C]

PY 499. Psychology Honors Thesis. 2 Hours.
The Capstone course represents the culmination of the undergraduate major in Psychology for participants in the Psychology Honors Program. Students complete their honors thesis with guidance from their research mentor and the honors program Director, and defend their thesis in the Psychology Honors Seminar, and also present their research at a conference or in another public venue. Participation in the Honors Program in Psychology and completion of 3 semesters of PY 399 required, one of which may be concurrently enrolled.
Prerequisites: PY 399 [Min Grade: D](Can be taken Concurrently)

QM-Quantitative Methods Courses
Courses

QM 214. Quantitative Analysis I. 3 Hours.
This course is an introductory course to statistics and data analyses for business students. Students will be exposed to basic statistical concepts and procedures to handle the data. Students are expected to recognize the nature of their data, select appropriate procedures, perform requisite calculations, demonstrate computer proficiency, and explain the results to layperson.
Prerequisites: (MA 105 [Min Grade: C] or MA 109 [Min Grade: C] or MA 125 [Min Grade: C]) and BUS 110 [Min Grade: C]

QM 215. Quantitative Analysis II. 3 Hours.
QM215 is the sequel of QM214 and a continuation of introductory statistics and data analyses. Built upon students' understanding of descriptive statistics and probability, this course exposes students to inferential statistics. Upon finishing the course, students are expected to know how to formulate hypotheses, collect data, select appropriate model(s), conduct statistical analyses, and present statistical findings with proper support of statistical graphs.
Prerequisites: QM 214 [Min Grade: C]

QM 350. Quantitative Methods for Finance. 3 Hours.
Development of the mathematical foundations of undergraduate level financial modeling and analysis, including applications of calculus, probability theory, linear algebra and Monte Carlo simulation to the measurement of asset returns and the assessment of risk, to the pricing of options and other financial derivatives, and to the solution of important financial optimization problems.
Prerequisites: (QM 215 [Min Grade: C] and QM 215 [Min Grade: C]) and (QM 215 [Min Grade: C] and QM 215 [Min Grade: C]) or (QM 215 [Min Grade: C] and QM 215 [Min Grade: C])

QM 400. Survey of Management Science. 3 Hours.
Application of mathematical and statistical techniques to management problems. Network planning techniques, linear programming, inventory systems, queuing theory, simulation, and decision analysis.
Prerequisites: (QM 214 [Min Grade: C] and QM 215 [Min Grade: C]) and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 215 [Min Grade: C]

QM 410. Nonparametric Statistics. 3 Hours.
Nonparametric methods applied to business decisions. Nonparametric tests for medians using one and two samples; tests for randomness and independence. Contingency tables and goodness of fit tests. All applications in area of behavioral sciences, particularly marketing and management. Completion of all pre-business requirements required.
Prerequisites: (QM 214 [Min Grade: C] and QM 215 [Min Grade: C]) or (QM 214 [Min Grade: C] and QM 215 [Min Grade: C]) and EC 210 [Min Grade: C] and QM 215 [Min Grade: C]

QM 416. Sampling Techniques. 3 Hours.
Sampling procedures and application to estimation problems in business. Simple random, stratified, and cluster sampling reviewed and applied to simple and ratio estimators. Completion of all pre-business requirements required.
Prerequisites: (QM 215 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 215 [Min Grade: C]) or (QM 215 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 215 [Min Grade: C])

QM 420. Applied Forecasting. 3 Hours.
Practical use of various forecasting techniques on business and economic data. Topics include dynamic regression models, exponential smoothing, forecast criteria, moving averages, seasonality, and univariate Box Jenkins ARIMA modeling. Completion of all pre-business requirements required.
Prerequisites: (QM 214 [Min Grade: C] and QM 214 [Min Grade: C]) and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 215 [Min Grade: C]

QM 425. Applied Regression Analysis. 3 Hours.
Simple, multilinear, and polynomial regression analysis. Model selection, inferential procedures, and application with computer. Completion of all pre-business requirements required.
Prerequisites: (QM 214 [Min Grade: C] and QM 215 [Min Grade: C] and QM 215 [Min Grade: C]) or (QM 214 [Min Grade: C] and QM 215 [Min Grade: C])

QM 442. Statistics for Quality and Productivity. 3 Hours.
Application of statistics to improve quality and productivity throughout organization. Process analysis and improvement via numerical and graphical procedures illustrated with construction and interpretation of control charts. Tolerances, specifications, process capability studies, and elements of total quality program as espoused by Deming and Ishikawa.
Prerequisites: (QM 403 [Min Grade: C] and QM 403 [Min Grade: C]) or (QM 403 [Min Grade: C] and QM 403 [Min Grade: C])

QM 490. Advanced Topics in Statistics/Management Science. 3 Hours.
Statistics/management science application to problems in business and economics.
Prerequisites: (QM 215 [Min Grade: C] and QM 215 [Min Grade: C]) or (QM 215 [Min Grade: C] and QM 215 [Min Grade: C])

QM 499. Directed Readings in Quantitative Methods. 1-3 Hour.
Readings and independent study in selected areas.
Prerequisites: (QM 215 [Min Grade: C] and QM 215 [Min Grade: C]) or (QM 215 [Min Grade: C] and QM 215 [Min Grade: C])

RST-Respiratory Therapy Courses

Courses

RST 440. Asthma Certification Preparation Course. 4 Hours.
The content of this course will cover the asthma condition, pathophysiology of asthma, factors that contribute to acute and chronic asthma, patient history, physical examination of the asthma patient, objective measures to identify and assess asthma severity, how to assess the patient's performance and asthma protocols.

SOC-Sociology Courses
Courses

SOC 100. Introduction to Sociology. 3 Hours.
Human social life, its forms and consequences for everyday life. Social inequality and differentiation by race, ethnicity, class and gender. Assessment of the competency is through performance on course examinations, quizzes, and written assignments. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

SOC 120. Introduction to Social Psychology. 3 Hours.
How societies and groups affect perception of self and others; emotional climate and structure of group interaction; processes and dynamics of group leadership, interaction, and dissolution.

SOC 130. Intimate Relationships and the Family. 3 Hours.
Contemporary trends of marriage, cohabiting and partnerships; dating and courtship; social and psychological factors in mate selection; marital adjustment; role of sex, money, and children in marriage; divorce, other crisis situations, and changing patterns of family relationships in U.S. including the increase in LGBT families.

SOC 135. Human Sexuality. 3 Hours.
Social basis of sexual interaction; varieties of sexual interaction; sexuality related to daily life; attitudes, contraceptive use, and fertility and fecundity; sex role controversies; relation to institutions such as family, religion, medicine, and education; social definitions as determinants of behavior.

SOC 200. Social Change. 3 Hours.
Understanding social change helps us to better anticipate, prepare for, and shape the future. Examination of how and why human societies have changed so profoundly since prehistoric times; focus on information and technology as catalysts for change; patterns of change in contemporary societies from world system and comparative perspectives.

SOC 220. Sociology of Sex and Gender. 3 Hours.
This course discusses the presumed biological differences; socialization differences of females and males; positions in and treatment by major institutions such as education, religion and economy; influence of gender labeling on development and lives of individuals.

SOC 235. Sociology of Religion. 3 Hours.
Social aspects of individual religious experience; organization of churches and sects; relationships among religion, science, and other institutions; Major faith groups: religion and global conflict.

SOC 245. Contemporary Social Problems. 3 Hours.
How certain social conditions or behaviors come to be seen as social problems, why they persist and how they can be changed. Emphasis on understanding contemporary issues, and how diverse social groups are impacted by them. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

SOC 250. Sociology of Race and Ethnicity. 3 Hours.
Various ethnic and racial groups, with emphasis on theory and research on intergroup relations; internal structure, culture, and experiences of ethnic groups, with emphasis on contemporary American society.

SOC 275. Urban Sociology. 3 Hours.
Lifestyle changes in urban society; social and demographic characteristics of cities; benefits and problems resulting from these characteristics; urban problems compared with rural and suburban problems.

SOC 278. Global and International Sociology. 3 Hours.
Globalization is a pervasive feature of contemporary social life. A world economy, a world polity, and a world culture are rapidly expanding. This course examines globalization’s aspects and impacts to begin understanding its causes, effects, and implications for our own lives.

SOC 280. Introduction to Medical Sociology. 3 Hours.
Social and cultural factors in defining health and illness; social determinants of health; health and illness behavior; health professionals; organization and delivery of health care in the U.S. (This course was formerly titled Health and Society).

SOC 282. Minority Health. 3 Hours.
The relationship between race, ethnicity, health, and social and behavioral factors, and health policy. Health related issues specific to various racial and ethnic groups will be discussed.

SOC 283. The Sociology of Mental Health. 3 Hours.
Examination of mental and illness in its social context the social construction of mental health and illness the interrelationships between social structure, social factors, stress, coping resources and mental health experiences of mental health and illness.

SOC 285. Introduction to Aging. 3 Hours.
Aging experience in modern world. Theories of aging, dimensions of aging, everyday concerns associated with aging, and future prospects of aging.

SOC 290. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: C]

SOC 291. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 292. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 293. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 294. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 295. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 310. Sociological Literacy. 3 Hours.
Focus on the critical understanding the sociological imagination through social research. This class will advance an understanding of the development, production, and interpretation of social research, including statistical analysis. The goal of the course is to provide students with the tools they need to become better consumers of social science research.
Prerequisites: SOC 100 [Min Grade: D]
SOC 315. The Sociology of Terrorism. 3 Hours.
Examination of the social and social psychological explanations of the phenomenon, with particular emphasis given to theories of social construction of terrorism.

SOC 316. Popular Culture. 3 Hours.
Relationship between popular culture, our cultural heritage, and present cultural identity. Connections with big business, music, sports, politics, film and mass media. Analyze cultural objects (movies), compare past mindsets with the present.

SOC 317. Sociology of Social Media. 3 Hours.
Communication and information technology as a product of social, economic, political, cultural forces. Its impact on everyday life. Focus on the Internet and how individuals use it to gather, distribute and convey information.

SOC 319. Sociology of The South. 3 Hours.
Focus on the South as a unique region. Examining areas such as history, politics, race relations, religion, music, personality, social types and collective behavior.

Prerequisites: SOC 100 [Min Grade: C]

SOC 320. Sociology Through Fiction. 3 Hours.
Sociological theories and concepts as illustrated in contemporary fiction. Classes will vary in terms of the fictional genre explored.

SOC 323. Social Structure and Personality. 3 Hours.
Interaction of social structure and personality; motivation, cognition, and impact of family, social class, and other institutions on personality development and mental illness.

SOC 335. Human Sexuality: A Comparative Approach. 3 Hours.
Sexual identity from a sociological perspective. Topics include: theories of sexual orientation, social movements related to sexual identity, development of sexual identity over the life course, and relationship to social institutions such as the family, medical community, and legal system.

SOC 336. Sport and Society. 3 Hours.
Sociological analysis of sport in contemporary societies. Sport as microcosm of society and modern institution; socialization process, problems of racial and sexual inequality, aggression and violence, mass media, and societal change.

SOC 340. Deviant Behavior. 3 Hours.
How and why certain behaviors, thoughts, and characteristics are labeled deviant; how and why certain individuals are labeled; consequences of being labeled; individual and group conflict; socialization to deviance; education; law enforcement; institutions; influence on family and friends.

SOC 350. Sociology of Hip Hop. 3 Hours.
Examines the emergence and impact of Hip Hop music and culture from historical, aesthetic, and sociopolitical perspectives.

SOC 370. Population Problems. 3 Hours.
Scope and method of population analysis; analysis of growth, distribution of characteristics, and changes of population of U.S.; impact of changes in population structure on American and world society.

SOC 383. Drugs and Society. 3 Hours.
Variety of legal and illegal drugs in use in our society, their history, their social effects, and strategies for control and prevention of their abuse.

SOC 395. HIV/AIDS and Society. 3 Hours.
This course explores the social impact of HIV/AIDS in local, national, and international contexts, focusing on how society has responded to and changed as a result of HIV/AIDS, including public health surveillance and interventions, policies and funding for prevention/research, and broader cultural changes.

SOC 405. Mind, Self and Society. 3 Hours.
Symbolic interaction as major theoretical perspective of sociological social psychology; origins of approach in Mead, Blumer, and Goffman. Significance of concepts such as role-taking, impression management, self, identity and symbolic interaction.

SOC 407. Development of Sociological Theory. 3 Hours.
Social thought from earliest classic thinkers to current sociological theories; interrelationship between sociological theory and research; how theories are constructed; application of theory to contemporary problems through various writing assignments. Writing is a significant component of this course.

SOC 408. Medical Sociological Theory. 3 Hours.
This course provides a basic introduction to the use of sociological theory in medical sociology. The course begins with an examination of the relevant work of classical theorists, such as Durkheim and Weber, and extends to contemporary theory, including theories that have been developed by medical sociologists.

Prerequisites: SOC 310 [Min Grade: C]

SOC 410. Social Statistics. 4 Hours.
Elementary techniques and analysis; preparation and use of graphs and tables; measures of central tendency and dispersion; probability and sampling; tests of significance and measurements of association. Quantitative Literacy is a significant component of this course.

Prerequisites: MA 102 [Min Grade: D] or MA 110 [Min Grade: D]

SOC 410L. Social Statistics Laboratory. 0 Hours.
Laboratory component of SOC 410. Required for all sociology majors. Cross listed as SW 321L. Quantitative Literacy is a significant component of this course.

SOC 415. Social Stratification. 3 Hours.
Inequality of wealth, prestige, and power distribution examined as caste-class differences; effect of stratification on individuals and their behavior, lifestyle, and life chances.

SOC 417. Political Sociology. 3 Hours.
Political sociology traces the relationships between political ideas, government structures, social life, and the neverending efforts of individuals and groups to modify these relationships to achieve their best notions of the good life.

SOC 431. Environmental Sociology. 3 Hours.
Examines the interaction between the biophysical environment and human society, how social processes, define, construct, and alter the environment, and human causes and consequences of environmental problems.

SOC 445. Biology and Society. 3 Hours.
This course introduces students to the basic techniques and theoretical models through which modern sociologists and other social scientists incorporate genetic and biological information and processes into their understanding of society.

SOC 456. Death and Dying. 3 Hours.
Death, dying and bereavement from sociological and social psychological perspectives.
SOC 457. Family Relations over the Life Course. 3 Hours.
This course examines family relationships from middle to late adulthood from a sociological perspective. We examine issues such as caregiving, preparing for retirement, family relationships and how they vary depending on family structure, effects of divorce and remarriage, parenting at older ages and assisted reproductive technologies, transfers and saving, family ties etc. Much of the class is oriented towards how later life experiences are guided by earlier life situations.

SOC 460. Sociology of Work. 3 Hours.
Social organization of occupations; role and function in modern industrial society; gender and race; professionalism, job choices, and careers and stress; labor force composition, unemployment, and retirement. This class often does a field trip to a local business.

SOC 470. Population Dynamics. 3 Hours.
Scope and method of population analysis; analysis of growth, distribution of characteristics, and changes of population of U.S.; impact of changes in population structure on American and world society.

SOC 480. Sociology of Health and Illness. 3 Hours.
Critical evaluation of medical care system and health policy; social consequences of current health issues; social causes of health and illness; alternative practitioners and self-help groups. (This course was formerly titled Medical Sociology).

SOC 482. Gender and Health. 3 Hours.
Sociological, psychological and biological explanations of gender differences in mental and physical health across the life course.

SOC 484. Quantitative Research Methods. 3 Hours.
Comprehensive introduction to quantitative research in the social sciences, with an overview of the scientific method and the philosophy of science. Detailed study of quantitative research designs, sampling techniques, and measurement.
Prerequisites: SOC 310 [Min Grade: C]

SOC 486. Qualitative Research Methods. 3 Hours.
Learn methods for conducting qualitative sociological research including participant observation, interviews, and content analysis; ethics of qualitative research; ethnographic field strategies; preparing for and conducting in-depth interviewing and focus groups; analyzing the interrelationships between research and thinking theoretically; reading and evaluating qualitative research; proposing own research projects using appropriate qualitative methods.
Prerequisites: SOC 310 [Min Grade: C]

SOC 488. Sociological Practice/SL. 3 Hours.
Students will be involved in community research and/or service-learning projects related to a substantive area of sociology or gerontology. Placement in community organizations to focus on research or practice related to social policy.

SOC 489. The Research Experience. 4 Hours.
Capstone includes application of the basic tools of inquiry in sociological research; basic ethical issues in research; forming the research question; hypothesis testing; measurement, sampling, validity and reliability; data gathering techniques; research design; data management; disciplinary standards for writing the research proposal and reporting findings. For students in their last 30 hours.

SOC 489L. The Research Experience Laboratory. 0 Hours.
Laboratory component of the Capstone course, required of all Sociology majors.

SOC 490. Independent Study: Sociology. 1-3 Hour.
Individually designed programs for semi-independent research or guided readings in areas and subjects otherwise unavailable. Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated. This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.

SOC 491. Independent Study and Special Courses in Sociology. 1-3 Hour.
Peer-facilitated, structured dialogues on topics related to social identity in a diverse society. Separate topics on gender, race, religion, sexualities. May be repeated for credit but topic may not be repeated.

SOC 492. Independent Study and Special Courses in Sociology. 1-3 Hour.
Individually designed programs for semi-independent research or guided readings in areas and subjects otherwise unavailable. Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.

SOC 493. Independent Study and Special Courses in Sociology. 1-3 Hour.
Individually designed programs for semi-independent research or guided readings in areas and subjects otherwise unavailable. Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.

SOC 494. Independent Research in Sociology. 1-3 Hour.
Individually designed programs for semi-independent research. Irregularly offered course on research topics in sociology. Varies in content. May be repeated for credit and continued topic with advancement.

SOC 495. Independent Research in Sociology. 1-3 Hour.
Individually designed programs for semi-independent research. Irregularly offered course on research topics in sociology. Varies in content. May be repeated for credit and continued topic with advancement.

SOC 498. Sociology Honors Seminar. 3 Hours.
Special seminar for sociology honors students. Prerequisite: admission to the Sociology Honors Program and permission of the Undergraduate Director in Sociology.

SOC 499. Sociology Honors Thesis. 3 Hours.
Sociology Honors Thesis.

SPA-Spanish Courses

Courses

SPA 101. Introductory Spanish I. 4 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Spanish is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 102. Introductory Spanish II. 4 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Spanish is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.
SPA 108. Introductory Intensive Spanish. 4 Hours.
Accelerated essentials of language and culture needed for communication. Includes listening comprehension, speaking, writing, and reading. Fast-paced review of SPA 101 and SPA 102. Conducted in Spanish. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 180. Spanish for Health Professionals. 3 Hours.
Intensive conversation course to expose health professionals to basic vocabulary of Spanish-speaking patients. Focus on practical vocabulary, idiomatic expressions, and cultural patterns of Spanish-speaking patients with little or no proficiency in English. Conducted in Spanish.

SPA 190. Study Abroad. 0-8 Hours.
Approved program in a Spanish-speaking country.

SPA 201. Intermediate Spanish I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Spanish is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 202. Intermediate Spanish II. 3 Hours.
Continuation of SPA 201. Conducted in Spanish. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 203. Intermediate Spanish Review. 3 Hours.
This course is designed as a review of the content covered in Introductory Spanish I, Introductory Spanish II, Intermediate Spanish I, and Intermediate Spanish II, while deepening the knowledge and understanding about different grammatical and cultural topics. This course is especially useful for students who have already taken Spanish courses at the intermediate level but whose exposure has been limited or fragmented in recent times. The primary focus of this course is to improve communication skills in Spanish. Therefore, Spanish is the language of instruction.
Prerequisites: SPA 201 [Min Grade: D]

SPA 206. Intermediate Spanish for the Professions. 3 Hours.
Focusing on Spanish-speaking professional culture, this course emphasizes elementary-level conversation acquisition and vocabulary. Conducted in Spanish.

SPA 210. Conversation and Culture. 3 Hours.
Development of oral expression within the context of contemporary Spanish-speaking cultures.

SPA 214. Introduction to Translation for the Professions. 3 Hours.
This course focuses on the improvement of the Spanish language through translation. While studying basic aspects of translation and translating short texts from a variety of sources in the context of contemporary situations, students review the most important and complex structures of the Spanish language as they relate to English. Students will work in a collaborative workshop format—in Spanish—in order to better understand the process of translating and editing one’s work.
Prerequisites: SPA 201 [Min Grade: C]

SPA 233. Intermediate Spanish Grammar in Context. 3 Hours.
This course is an intermediate-level Spanish course that focuses on the language skills of writing and speaking. It has been designed to help students improve their proficiency and fluidity in the language and in the cultures of the Spanish-speaking world, focusing on grammatical understanding, and written and oral communication in formal and informal situations. All the while, the course exposes students to a variety of authentic cultural contexts in the Hispanic world.

SPA 280. Spanish for Health Professionals. 3 Hours.
This course focuses on the Spanish-speaking health-related culture, presenting practical vocabulary, idiomatic expressions, medical terminology, and cultural attitudes of Spanish-speaking patients towards health issues. This course builds and develops the speaking, listening, and reading skills by emphasizing intensive conversation, technical reading, and vocabulary acquisition. Conducted in Spanish.

SPA 290. Study Abroad. 1-6 Hour.
Approved program in a Spanish-speaking country.

SPA 299. Special Readings in Spanish. 3 Hours.
Directed readings in intermediate Spanish. Studies select texts of the Spanish-speaking world to increase overall literacy in Spanish.

SPA 300. Advanced Grammar and Composition. 3 Hours.
Designed to improve the use of fundamental grammatical structures of Spanish in diverse contexts. Strong emphasis is given to the development of writing skills that are appropriate for this level. Six hours of SPA courses at the minor level required. Writing is a significant component of this course.

SPA 304. Phonetics and Phonology. 3 Hours.
Course focuses on how the Spanish sound system functions in various regions. Development of pronunciation through oral practice. Conducted in Spanish.

SPA 310. Cultures of the Spanish-Speaking World. 3 Hours.
Historical overview of the heritage of Spain, Latin America, and the Hispanic U.S., with emphasis on social, political, and economic institutions. Conducted in Spanish.

SPA 311. Greatest Hits of Hispanic Literature I. 3 Hours.
This course is an overview of Spanish civilization, culture, literature, and the arts from early to contemporary times. Highlights of best selling works of various authors, with emphasis on fundamental literary concepts and distinctive stylistic features of Spanish discourse, will be reviewed. Conducted in Spanish.

SPA 312. Greatest Hits of Hispanic Literature II. 3 Hours.
This course is an overview of Latin American civilization, culture, literature, and the arts from early to contemporary times. Highlights of best selling works of various authors, with emphasis on fundamental literary concepts and distinctive stylistic features of Spanish discourse, will be reviewed. Conducted in Spanish.

SPA 313. Business Spanish. 3 Hours.
Vocabulary, idioms, protocol, and style characteristic of speaking and writing commercial Spanish. Concentration on writing letters, job descriptions, advertisements, and import-export documents. Conducted in Spanish.

SPA 314. Spanish Translation and Interpretation. 3 Hours.
History, principles, theory, and practice of translation and interpretation, including a systematic study and contrastive exercises in Spanish-English translation and interpretation. A wide variety of conceptual fields with emphasis on vocabulary building. Conducted in Spanish.
SPA 380. Advanced Spanish for Health Profess. 3 Hours.
This advanced course emphasizes intensive Spanish conversation, technical readings and vocabulary pertinent to the medical field. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients. The main objectives of the course are: To further develop advanced communicative competence within the medical context of the various regions of the Spanish-speaking world, especially the Hispanic community in Alabama; To foster critical thinking skills, such as problem-identification and solving, decision making, anticipation and planning, patient understanding and achieving communication; To expand on students' functional vocabulary, in particular, the language of the Hispanic medical world at an advanced level; To promote a better understanding of the Hispanic cultures in general, especially of the Hispanic communities who live in the United States; To further develop oral, listening and reading skills at the advanced levels; To further expand on functions and notions of the language and to apply those to the medical field.

SPA 390. Study Abroad. 1-6 Hour.
Approved program in a Spanish-speaking country.

SPA 399. Special Readings in Spanish. 3 Hours.
Directed readings in Spanish.

SPA 401. Voices of Imperial Spain. 3 Hours.
Culture and civilization of Imperial Spain from the age of the Catholic Monarchs to the close of the Hapsburg Dynasty (1469-1716). Includes a study of the art, historical documents and literature from both the center and periphery of the Empire. Selected works by representative authors will vary according to instructor. Conducted in Spanish.

SPA 402. Voices of Colonial Latin America. 3 Hours.
Culture and civilization of Colonial Latin America from the advent of European dominance to the decades following the Spanish American War (1492-1920). Emphasis on the blending of Spanish, Amerindian, and African cultural forms and their diverse literary expressions. Selected works by representative authors will vary according to instructor. Conducted in Spanish.

SPA 403. Contemporary Spanish Literature and Film. 3 Hours.
Cultural and literary trends of Spain from the transformation of Spanish society in the late nineteenth century to the post-Franco era. Conducted in Spanish.

SPA 404. Medicine and Literature in the Spanish-Speaking World. 3 Hours.
How does literature help us to understand the relationship between medicine, culture, and politics? This class, which seeks answers and related questions, focuses on the role of medical science in literary and cultural texts from Latin American countries, Spain, and the United States. Students will read short stories, poems, novel excerpts, and essays, and they will interpret films and visual art to discuss how science and the humanities supplement one another to create a richer understanding of the human body and its role in the historical development of Europe and the Americas. Offered in Spanish.

SPA 405. US Latino Writers. 3 Hours.
Focus on the growing body of literature written by Latinos in the United States. Explores Latino issues and cultural identity through the analysis of their narrative works and experience. Conducted in Spanish.

SPA 407. Indigenous and Indigenist Latin America. 3 Hours.
Cultural and literary forms of Amerindian, Hispanic or mixed-descent writers of Latin America. Focus on the concepts of hybridity, syncretism and mestizaje. Conducted in Spanish.

SPA 409. Spanish-Speaking Nobel Laureates. 3 Hours.
Literary masterpieces of the Spanish-speaking world. Conducted in Spanish.

SPA 411. Cervantes and the Quixote. 3 Hours.
This course will review the major episodes of Don Quixote de La Mancha, one of the most influential works of Spanish and World literature, as well as other selected works written by Cervantes. Emphasis will be given to the author's unique contribution to the birth of the modern novel and his ingenuity to create stories that transformed all literary genres. These readings will be analyzed within the civilization of the Golden Age of Spain, while exploring a diverse array of topics, such as: love and marriage, religion, race, class, magic, madness, and honor. Conducted in Spanish.

SPA 412. Voices of Contemporary Latin America 1920-Present. 3 Hours.
Cultural and literary trends of Latin America from la nueva narrativa through the Boom and post-Boom periods. Focus on Mexico, Northern Latin America, and the Southern Cone. Conducted in Spanish.

SPA 414. African Hispanophone Writers. 3 Hours.
Cultural and literary forms of African-descended writers in Spanish-speaking world. Focus on African presence in Medieval and Golden Age Spain, Equatorial Guinea, Latin America, or the Caribbean. Conducted in Spanish.

SPA 416. Special Topics in Spanish. 3 Hours.
Seminar on individual authors, specific genres, literary movements, literary discourse/theory, or transatlantic studies. Conducted in Spanish. May be repeated for credit.

SPA 420. Introduction to Hispanic Linguistics. 3 Hours.
Analyze, clarify and expand upon critical aspects of the Spanish language (grammar, vocabulary and phonetics) and related cultural aspects in relation to the second language acquisition processes.

SPA 430. Spanish Sociolinguistics. 3 Hours.
This advanced Spanish linguistics course provides a general overview of sociolinguistics and the pragmatics of oral communication in Spanish. This course studies the Spanish language in its social context. In addition to specific regional linguistic features, social factors such as geography, social class, politics, race, gender, economics, education and history are discussed as determiners of the linguistic landscape.

SPA 440. History of Spanish Language. 3 Hours.
This advanced Spanish linguistics course provides a general overview of the evolution of Spanish language, while relating it to relevant historical events. It pays special attention to diachronic change in order to understand the phenomenon of language variation in a multicultural society.

SPA 450. Spanish Second Language Acquisition. 3 Hours.
This course describes the cognitive, developmental and linguistic processes involved in the acquisition of Spanish as a second language while exploring the basic research techniques used in the field.

Prerequisites: SPA 300 [Min Grade: D]

SPA 460. Globalization in the Hispanic World. 3 Hours.
This course develops a constructivist framework for the study of contemporary globalization issues in the Hispanic world by engaging students in higher-level discussions and critical thinking. Through films, music and literature, and guided research, course explores history, politics, economics and sociocultural issues of the recent Spanish-speaking world. Conducted in Spanish.
SPA 461. Contemporary Spain & Globalization. 3 Hours.
This course develops a constructivist framework for the study of contemporary Spain by engaging students in higher-level discussions and critical thinking. Through films, music and literature, and guided research, course explores recent Spanish history, politics, economics and sociocultural issues. Conducted in Spanish.

SPA 490. Study Abroad: Spanish. 1-6 Hour.
Approved program in a Spanish-speaking country.

SPA 499. Directed Studies. 3 Hours.
Directed readings in Spanish. Conducted in Spanish.

**STH-Science and Tech Honors Courses**

**Courses**

**STH 151. Problem Analysis and Project Planning. 1 Hour.**
Students will apply leadership and teamwork skills to analyze a problem or need and develop a plan to address the need. Skills such as developing measurable outcomes and communicating with stakeholders are emphasized.

**STH 199. Introduction to the Scientific Process. 3 Hours.**
Fall semester of freshman year. First-year Honors Seminar for students accepted in the Science and Technology Honors Program. Discussion of basic concepts of scientific methodology will be integrated with analysis of scientific journal articles and use of visual representations to communicate ideas. Students learn about research ongoing at UAB through working with a small team to analyze a scientific publication. The course will culminate in presentation of a poster representing their analysis of the article.

**STH 201. Research Approaches. 3 Hours.**
Spring semester of freshman year. Hands-on experience with research methods. Students participate in a lab experience such as biotechnology, engineering, molecular genetics, or chemical analysis in which they learn state-of-the-art techniques used in research laboratories.

**STH 250. PrimeTime Leadership. 1-3 Hour.**
Cary through leadership or innovation project. Document outcome of the project, report to stakeholder, and prepare public presentation of project.
**Prerequisites:** STH 151 [Min Grade: C]

**STH 299. Interdisciplinary Seminar. 3 Hours.**
Fall semester of sophomore year. Team-taught course with faculty from several disciplines addressing how a complex problem is addressed by multiple disciplines. This course will illustrate the synergy achieved by interdisciplinary analysis of problems.

**STH 301. Statistics and Design Overview. 3 Hours.**
Spring semester of sophomore year. Introduction to statistics and research design. Covers basics of experimental design and statistical decision theory; indices of central tendency, variability, and association; graphical data presentation; and statistical inference.

**STH 302. Statistics/Design Overview Lab. 1 Hour.**
Spring semester of sophomore year. Computer laboratory component of STH 301 Statistics and Design Overview. Lab will illustrate principles and provide hands-on experience with statistical methods.

**STH 310. Communicating Science. 1-3 Hour.**
Students will collaborate with university faculty and staff to produce media products which communicate scientific concepts to the public. Permission of instructor is required.

**STH 350. Next Level Leadership. 1-3 Hour.**
Oversight of team organized to sustain leadership or innovation project.
**Prerequisites:** STH 250 [Min Grade: C]

**STH 394. Clinical Innovation Seminar. 1-3 Hour.**
Students will rotate through clinical settings to identify problems in instrumentation or procedure that impede quality or efficiency. Students will analyze these problems and develop proposals for solutions. Prototypes may be produced.

**STH 395. Honors Proposal Preparation. 1 Hour.**
Seminar for students who are preparing to propose their honors thesis research project and have worked in a lab for a minimum of one semester. Students will present and discuss their research plans and provide input into the proposals of classmates. Honors thesis research proposals will be completed by the end of the semester and defended before a faculty committee. Students must have permission of the program director if they have not completed at least one semester of mentored research prior to taking this course.

**STH 396. Internships/Community Projects/SL. 1-3 Hour.**
Experiential learning through individually designed community based or clinically related experiences. Each project will have both experiential and academic components. Permission of program director is required.

**STH 397. Independent Study. 1-3 Hour.**
Individually designed academic course of study under the direction of a selected faculty member. Permission of the program director is required.

**STH 398. Honors Research. 1-6 Hour.**
Laboratory research under the supervision of a faculty mentor. Permission of program director is required.

**STH 399. Honors Thesis Research. 1-6 Hour.**
Undergraduate research for student's honors thesis project under the supervision of a faculty mentor. Students may register for this course after approval of their honors thesis proposal in STH 395.
**Prerequisites:** STH 395 [Min Grade: C]

**STH 400. Honors Thesis Preparation. 1 Hour.**
Students will prepare their honors thesis in the format of a journal article during this course and present it to their faculty committee for approval.
**Prerequisites:** STH 395 [Min Grade: C]

**SW-Social Work Courses**

**Courses**

**SW 100. Introduction to Social Work. 3 Hours.**
This course introduces students to the value-based profession of social work. Students will have the opportunity to learn about social work's history, mission, professional values and theoretical frameworks (e.g. the systems/ecological perspective). Furthermore, students will explore areas in generalist practice and the varied roles and responsibilities of the social work profession. Students will be afforded the opportunity to examine their own personal values and how those values influence their views on social welfare problems and issues.

**SW 200. Professional Communication in Social Work. 3 Hours.**
This course introduces the techniques of professional writing for social work practitioners. The course is designed to enhance professional and academic writing skills. Students will study how to craft narratives for funding applications, case records, and advocacy materials. Students will be introduced to the APA style. Additionally, students will complete a technology module focusing on information technology skills such as word processing, using presentation software, and communication skills with digital and social media. This is a writing intensive course.
SW 201. Evidence-Based Social Work Practice. 3 Hours.
This course introduces the concepts and the process involved in evidence-based and empirically based social work practice. It will cover the skills, values, and ethics necessary in this process and field, concentrating on the identification, analysis, and implementation of evidence, as well as empirically based social work practice, which promotes the effectiveness of practice in intervention at the individual, family/group, organization and community levels.

SW 203. Social Welfare History. 3 Hours.
This course provides an opportunity to review the history of U.S. social welfare and its relationship and impact on current social work practice. Additionally, the course explores, within a social justice context, the historical impact of social welfare policies on the well-being of individuals, especially vulnerable populations, and communities.

SW 207. Racism, Sexism and Other Isms. 3 Hours.
This course is intended to provide students with opportunities to examine various aspects of culture and cultural diversity as those aspects impact on the delivery of social services. The course also examines the impact of discrimination and oppression on various social service consumer populations.

SW 208. Disaster Preparedness. 3 Hours.
This course uses a multi-disciplinary perspective on aspects of domestic disaster preparedness and response for natural and man-made disasters. This course provides review of current recommendations on disaster preparedness, local, state and federal response networks and organizations, and psychosocial aspects of response including sheltering, crisis intervention and psychological first aid. This course does not cover international issues.

SW 222. Social Work Values Lab. 4 Hours.
This course offers an introduction to the helping profession of social work with service learning opportunities in local social service agencies. A didactic classroom and service learning lab that integrates field observation with self-awareness related values, professionalism and ethical practice. At the successful conclusion of this course, students may apply for social work major status. (SL).

SW 230. Introduction to Research Methods. 3 Hours.
This course introduces analytical frameworks with which to evaluate contemporary U.S. social welfare policy. It is designed for students with basic knowledge of the history of social welfare. The course also examines the relationship between current policy and the practice of social work today. Additionally explored is the real-world impact of current policy on the well-being of individuals and communities, within a social justice context.

Prerequisites: SW 203 [Min Grade: C]

SW 313. Human Behavior and The Social Environment I. 3 Hours.
This course, the first of two required courses in Human Behavior and the Social Environment, is designed to prepare students to understand human development across the different levels of social systems. The course explores theories, concepts, and knowledge from conception through early adolescence. Content also includes discussion of how factors such as social class, sexual orientation, gender, physical ability, age, race, ethnicity, and culture influence human development and behavior.

Prerequisites: SW 313 [Min Grade: C]

SW 320. Statistics for Social Work Research. 3 Hours.
This course provides the context for understanding the analysis and interpretation of quantitative data. Descriptive and inferential statistics will be covered, along with hypothesis testing and statistical significance. Students will become more familiarized with research-informed practice and practice-informed research. Quantitative Literacy is a significant component of this course. Honors students will have additional research related assignments.

SW 321. Statistics for Social Work Research. 3 Hours.
This course provides the context for understanding the analysis and interpretation of quantitative data. Descriptive and inferential statistics will be covered, along with hypothesis testing and statistical significance. Students will become more familiarized with research-informed practice and practice-informed research. Quantitative Literacy is a significant component of this course.

Prerequisites: SW 320 [Min Grade: C]

SW 322. Social Work Practice I. 4 Hours.
This course provides generalist model application of social work with concentration on the micro-level that provides the student with the opportunity to gain the knowledge, skills, understanding and competence needed for interventions at the beginning professional level. This course includes a service learning lab that allows students to practice a solution-focused relationship with emphasis on self-awareness, cultural-awareness, active listening, interviewing, and recording skills at all systems levels. (SL) Instructor's permission is required.

Prerequisites: SW 222 [Min Grade: C]

This course addresses issues children face in today’s society and identify possible intervention strategies. This course will also identify current trends in service delivery and relevant policy issues concerning the health and well-being of children. Students will have the opportunity to examine the diversity of families in today’s society to better understand and appreciate the roles children play in their family systems.
SW 422. Social Work Practice II. 4 Hours.
This course focuses on generalist model application of social work practice at the mezzo and macro levels. The course emphasizes systems theory and strengths perspectives to examine groups, communities and organizations, and gives students the opportunity to discuss and practice necessary skills for practice. This course includes a service learning lab that allows students to practice working with groups, communities and organizations in local social service agencies, using ethical and professional standards based on NASW Code of Ethics. (SL). Instructor’s permission is required.
Prerequisites: SW 322 [Min Grade: C]

SW 428. Medical and Mental Health Social Work. 3 Hours.
This course provides an introduction to and overview of working with people called “patients” in medical and mental health. Through this course, students will obtain a basic understanding on how to effectively assist individuals, groups, families, and communities impacted by various illnesses. The role of the social worker on the care team in various settings will be examined. The course also examines special population groups, resource allocation, service delivery, and legal and ethical considerations.

SW 445. Working in Addiction and Recovery. 3 Hours.
This course examines the impact of substance use disorder on individuals, families, groups, organizations, institutions and communities. This course is recommended for students who want to expand their knowledge and sensitivity for understanding the special problems that substance use disorder brings to society. Course content includes identification of the various drugs of abuse, major theories of addiction, and examination of the psychological and physiological consequences of substance use disorder.

SW 478. Special Topics in Social Work. 3 Hours.
Study of current issues in social work.

SW 490. Practicum in Social Work/SL. 9 Hours.
This course integrates social work knowledge and values with application of professional helping skills. Students participate in a full-time placement in approved social service agencies under supervision of master’s-level social workers. This is taken concurrently with SW 494.
Prerequisites: SW 494 [Min Grade: C] (Can be taken Concurrently)

SW 494. Practicum Seminar. 3 Hours.
This capstone course in Social Work is an integrative seminar that must be taken concurrently with SW 490 (Practicum in Social Work). The seminar reviews basic social work tools that will enhance the students’ work with client systems by providing opportunities to increase their knowledge of the social work profession, practice collegiate collaboration for the benefit of clients, and engage in strategies for problem-solving. The seminar also provides a forum to review students’ practicum experiences, discuss social work practice issues, and reflect on the relationship of these experiences to their overall social work education program. Social Work Honors Students will be required to complete an additional 100 hours involved in community based research.

SW 496. Social Work Honors Seminar. 3 Hours.
This course is designed to enhance students’ problem solving skills, critical and independent thinking, and application of research/evidence-based practice. Faculty mentors will assist students in exploring social work practice interest areas and will provide preparation for graduate study and/or professional careers in Social Work. This course is required for all Social Work Honors students.

SW 498. Independent Study II. 1-3 Hour.
This course provides opportunities for Honors students to initiate their research project and receive one-on-one mentorship. Social Work Honors students will attend a monthly seminar session to present their progress on projects. This independent study is required for all Social Work Honors students. Instructor's permission is required.

SW 499. Independent Study II. 1-3 Hour.
This course provides opportunities for students to pursue their specific interests in social issues and topics. Students will work closely with a faculty member to design readings, assignments, and/or activities to meet their learning goals. Instructor's permission is required.

THR-Theatre Courses

Courses

THR 100. Introduction to the Theatre. 3 Hours.
Understanding the theatre experience through class lectures, reading and writing assignments, demonstrations, discussions, and viewing live evening performances. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Fine Arts.

THR 102. Introduction to Cinema. 3 Hours.
A survey of the world’s greatest films and filmmakers emphasizing historical context and development of the art form over time. This course meets the Core Curriculum requirements for Area II: Fine Arts.

THR 105. Introduction to Dance. 3 Hours.
Understanding the dance experience through class lectures, demonstrations, discussions, and viewing performances.

THR 106. Jazz I. 2 Hours.
Basic movement and combinations based on modern jazz, Broadway/theatrical styles, and popular jazz forms. May be taken 3 times for a total of 6 hours.

THR 107. Tap I. 2 Hours.
Basic rhythmic studies and combinations based on Broadway/theatrical tap styles. May be taken 3 times for a total of 6 hours.

THR 108. Ballet I. 2 Hours.
Fundamentals of classic ballet technique with emphasis on analysis and proper execution. May be taken 3 times for a total of 6 hours.

THR 124. Theatre Technology: Scenery and Lighting. 3 Hours.
Scenic construction techniques and execution of stage lighting via lectures, demonstrations, and practical application. Emphasis in tools, materials and procedure. 40 lab hours outside of scheduled classes required.

THR 125. Theatre Technology: Costumes and Makeup. 3 Hours.
Fundamentals of costume construction, finishing and manipulation. Basic stage makeup techniques. Lectures, demonstrations and practical experience. 30 lab hours outside of scheduled classes required. Need instructor permission.

THR 126. Film Technology: Cinematography, Audio and Editing. 3 Hours.
Fundamentals of film technology, camera operations, lighting, audio, editing and an introduction to the fundamentals of composing basic camera shots.

THR 154. Beginning Acting. 3 Hours.
Introduction to the basic principles of acting. Exercises in talking and listening, actions and objectives, subtext and internal monologue.
THR 160. Theatre Cornerstone. 1 Hour.
The objective of this course is to introduce incoming freshmen to the professional performing arts industry and the UAB Department of Theatre community. Its primary objective is to prepare students for a successful collegiate career in the study and practice of theatre. Course required for majors in the first fall semester of residency.

THR 200. Plays on Film. 3 Hours.
Understanding major genres of drama through lecture, analysis, reading scripts, and viewing performances. This course meets the Core Curriculum requirements for Area II: Fine Arts.

THR 202. Voice and Movement for the Actor I. 3 Hours.
This course seeks to integrate voice and body in order to develop a free, flexible, and dynamic voice and body for the actor. Students will explore body work in order to develop kinesthetic awareness in the centering, grounding, and release of tension which are essential to the freeing of the voice. Students will explore expanded field of awareness as well as breath release, support for sound, resonance, embodying sounds, vocal hygiene, and vocal dynamics with applications to speaking text.

THR 203. Voice and Movement for the Actor II. 3 Hours.
A continuation of Voice and Movement for the Actor I with special emphasis on voice/body integration, field of awareness, breath support, range, dynamics, phrasing, tempo-rhythms. Students will explore how to use the voice working with a variety of dramatic texts. Additionally, students will explore principles of the Alexander Technique. May be repeated two times with permission of instructor.

Prerequisites: THR 202 [Min Grade: C]

THR 204. Beginning Production Practicum. 1-2 Hour.
Practical directed production experience in conjunction with actual production. THR 204 and THR 404 may be repeated for a combined total of 8 hours.

THR 205. Beginning Performance Practicum. 1 Hour.
Practical directed performance experience in conjunction with actual production. Requires audition. THR 205 and THR 405 may be repeated for a combined total of 8 hours. Requires permission of instructor.

THR 206. Jazz II. 2 Hours.
Intermediate exploration of jazz idioms, musicality, and technique, with emphasis on theatrical and choreographic styles. May be taken 3 times for a total of 6 hours.

Prerequisites: THR 106 [Min Grade: C]

THR 207. Tap II. 2 Hours.
Advanced exploration of tap genre, with emphasis on musicality and technique. May be taken 3 times for a total of 6 hours.

Prerequisites: THR 107 [Min Grade: C]

THR 208. Ballet II. 2 Hours.
Continued study of classic ballet technique. May be taken 3 times for a total of 6 hours.

Prerequisites: THR 108 [Min Grade: C]

THR 210. Introduction to Theatrical Design. 3 Hours.
Study and application of elements of design in theatre setting. Roles of scenic, lighting, and costume designers and their collaborative relationship with director.

THR 215. Playwriting I. 3 Hours.
Study and practicum in playwriting with emphasis on creating works for production and/or publication. Permission of instructor required. Writing is a significant component of this course.

Prerequisites: EH 101 [Min Grade: C]
THR 300. Exploring the African-American Creative Experience. 3 Hours.
Contributions of African Americans to theatre and dance. Creative process and application of creative process through live performance.
Prerequisites: THR 100 [Min Grade: C] or THR 200 [Min Grade: C] or THR 235 [Min Grade: C]

THR 303. History of Film I: Origins to 1960. 3 Hours.
From the first silent movies to the development of the modern color sound movie of Hollywood in the fifties: comparison and contrast of the views of major film makers of the first sixty years of the 20th Century.
Prerequisites: EH 101 [Min Grade: C]

THR 304. History of Film II: 1960 to Present. 3 Hours.
From the modern color sound movie of the fifties and the Nouvelle Vague to the latest movies produced around the globe: comparison and contrast of the views of filmmakers since the 1960s.
Prerequisites: THR 303 [Min Grade: C]

THR 306. Jazz III. 2 Hours.
Advanced study in Jazz technique and musicality with complex combinations and understanding of theatrical style. May be taken 3 times for a total of 6 hours.
Prerequisites: THR 206 [Min Grade: C]

THR 315. Playwriting II. 3 Hours.
Advanced Study and practicum in playwriting with emphasis on creating works for production and/or publication. Writing is a significant component of this course.
Prerequisites: THR 215 [Min Grade: C]

THR 316. Screenwriting II. 3 Hours.
Advanced study and practicum in writing feature-length screenplays, with emphasis on creating works for production, sale, and/or publication. May be repeated 1 time for a total of 6 hours.
Prerequisites: THR 216 [Min Grade: C]

THR 318. Stage Combat. 3 Hours.
Fighting for the stage and screen.

THR 323. Lighting Design. 3 Hours.
Exploration of the theory and practice of lighting design for live performance.
Prerequisites: THR 124 [Min Grade: C] and THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 325. Theatre Sound Design and Technology. 3 Hours.
Principles and practice of designing, engineering and propagating audio for live theatrical productions.

THR 326. Scenic Design. 3 Hours.
Exploration of the theory and practice of scene design for live performance.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 327. Costume Design. 3 Hours.
Exploration of the theory and practice of costume design for live performance. Basic principles of design, characterization and rendering technique.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 343. Experimental Performance. 3 Hours.
This course explores alternative approaches to creating performance. In addition, the course focuses on the psychology of the actor and examines techniques to reduce performance anxiety. The work culminates in the creation of a solo piece.
Prerequisites: THR 154 [Min Grade: C]

THR 350. Costume History and Period Style for the Theatre. 3 Hours.
A selective study of clothing, architecture, furniture and decorative arts of different historical eras, with emphasis on popular theatrical eras and styles. Includes an examination of the societal, cultural, and economic influences which shape historical style.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

THR 355. Advanced Acting. 3 Hours.
Advanced level class in actor training. Students will be introduced to specific period styles acting techniques for Shakespearean drama, restoration drama, and emerging changes for performance techniques in the plays of Henric Ibsen and Anton Chekhov.
Prerequisites: THR 202 [Min Grade: C] and THR 254 [Min Grade: C]

THR 360. Internship. 3 Hours.
Experience in non-academic theatre under supervision of professional staff. Interns may work in single area of specialty or in rotation throughout host theatre operation and may contract for single term or academic year.

THR 361. Musical Theatre Showcase II. 1 Hour.
This course focuses on rehearsal and performance techniques through practical exploration of duet scenes and songs from assigned musical theatre selections leading to proficiency in performance skills and preparation for graduation and the profession.
Prerequisites: THR 261 [Min Grade: C]

THR 365. Directing I. 3 Hours.
Basic principles of staging, picturization, composition, focus, and movement. Text analysis, directorial scoring, and actor/director dynamics.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 374. Video Editing. 3 Hours.
Digital video and audio editing.
Prerequisites: THR 126 [Min Grade: C]

THR 375. Beginning Narrative Filmmaking. 6 Hours.
Study and practicum in producing short narrative films. Students will gain experience in screenwriting, scouting locations, designing shots, drawing storyboards, creating shooting schedules, holding auditions, casting, and editing.
Prerequisites: THR 126 [Min Grade: C] and THR 216 [Min Grade: C]

THR 376. Intermediate Narrative Filmmaking. 3 Hours.
Expand upon the experience gained in Beginning Filmmaking by working as part of a crew (industry model) to write, cast, shoot and edit an original narrative film.
Prerequisites: THR 316 [Min Grade: C] and THR 375 [Min Grade: C]

THR 377. Acting for the Camera. 3 Hours.
A study of acting techniques for film and television.

THR 378. Film Directing. 3 Hours.
Students will study the films and directing techniques of the great film directors from around the world. They will then apply those directing techniques as they design shots and work with actors in filmmaking exercises. Activities in this course are divided between film analysis and exercises in a workshop format.
Prerequisites: THR 376 [Min Grade: C]

THR 401. NYC Showcase. 1 Hour.
Preparation of songs, monologues and scenes for presentation to casting directors and agents. Students enrolled in this course will be required to cover costs associated with travel to New York City.
THR 404. Advanced Production Practicum. 1-2 Hour.
Practical directed production experience in conjunction with actual production. Prior to taking THR 404, student must have completed the 3 required practicum credits. THR 204 and THR 404 may be repeated for a combined total of 8 credits.

THR 405. Advanced Performance Practicum. 1 Hour.
Practical directed performance experience in conjunction with actual production. Requires audition. Prior to taking THR 405, student must have completed the 3 required practicum credits. THR 205 and THR 405 may be repeated for a combined total of 8 hours.

THR 406. Special Topics in Dance. 1-3 Hour.
Specialized subjects in dance taught as opportunity allows.

THR 420. Teaching Theatre in the Secondary School. 3 Hours.
Course provides the student with a complete understanding and utilization of the knowledge and skills needed to teach theatre at the secondary school level.

THR 425. Pattern Drafting. 3 Hours.
Students will learn garment terms, their application, and flat pattern techniques for garment development. The course requires 20 lab hours, in addition to regular class meetings.
Prerequisites: THR 125 [Min Grade: B]

THR 430. Auditioning. 3 Hours.
This course prepares the actor for graduate school and professional auditions. A working method is explored for the preparation of classical and contemporary audition pieces.
Prerequisites: THR 154 [Min Grade: C] and THR 202 [Min Grade: C]

THR 435. Dialects. 3 Hours.
Students will develop the knowledge and skills to describe and recreate oral postures, placement, and rhythms of various stage dialects.
Prerequisites: THR 202 [Min Grade: C]

THR 450. Costume History and Period Style for the Theatre. 3 Hours.
A selective study of clothing, architecture, furniture and decorative arts of different historical eras, with emphasis on popular theatrical eras and styles. Includes an examination of the societal, cultural, and economic influences which shape historical style.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

THR 451. Musical Theatre History and Script Analysis. 3 Hours.
Exploration of the origins and development of musical theatre, from the mid-18th century to the present day. Students will develop a critical sensitivity to the medium and will learn to analyze the music, plots, characters and situations of musical theatre.
Prerequisites: EH 102 [Min Grade: C] or EH 102 [Min Grade: C]

THR 455. Advanced Studio in Performance. 3 Hours.
Advanced exploration of special topics related to acting through performance including but not restricted to period styles, dialects, ensemble work, solo performance, or any other specialized genre.
Prerequisites: THR 154 [Min Grade: C]

THR 461. Musical Theatre Showcase III. 1 Hour.
This course focuses on rehearsal and performance techniques through practical exploration of scenes and solo songs from assigned musical theatre selections leading to proficiency in performance skills and preparation for graduation and the profession.
Prerequisites: THR 361 [Min Grade: C]

THR 462. Special Topics. 1-3 Hour.
Specialized subjects taught as opportunity allows.

THR 465. Directing II. 3 Hours.
Preparing performances. Director/actor communication in rehearsal, rehearsal motifs, rehearsal organization, and finishing production. Actual direction of one-act play for laboratory performance.
Prerequisites: THR 365 [Min Grade: C]

THR 470. Individual Project in Design and Production. 1-3 Hour.
Directed individual study in topics related to theatrical design and production. Individual Project in Design: The design of costumes, scenery, lighting, audio, or makeup for a mainstage production under the supervision of a faculty mentor. Individual Project in Production: Assume the position and execute the responsibilities of a specific production position, such as a cutter/draper or technical director, while under the supervision of a faculty mentor. Proposals for individual projects must be approved prior to registration.

THR 471. Advanced Studio in Scenery. 3 Hours.
Advanced exploration of special topics related to scenic design and production. May be repeated for credit.

THR 472. Advanced Studio in Costumes. 3 Hours.
Advanced exploration of special topics related to costume design and production. May be repeated for credit.

THR 473. Advanced Studio in Lighting. 3 Hours.
Advanced exploration of special topics related to lighting design and production. May be repeated for credit.

THR 474. Advanced Studio in Audio. 3 Hours.
Advanced exploration of special topics related to audio design and production. May be repeated for credit.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C] and THR 325 [Min Grade: C]

THR 475. Advanced Narrative Filmmaking. 3 Hours.
Expand upon the experience gained in Intermediate Filmmaking by working as part of a crew (industry model) to write, cast, shoot and edit an original narrative film.
Prerequisites: THR 376 [Min Grade: C]

THR 476. Audio for Film: Recording and Mixing. 3 Hours.
Audio recording in studio and field, proper microphone techniques, non-linear, multi-track mixing for motion pictures, radio, and television.
Prerequisites: THR 375 [Min Grade: C]

THR 478. Music Video Production. 3 Hours.
Designing, shooting, and editing a music video using film industry crew protocol.
Prerequisites: THR 375 [Min Grade: C]

THR 480. Individual Project in Film. 1-3 Hour.
An opportunity for students to write, produce and/or direct an original 10-20 minute film as an independent project.

THR 481. Theatre History to 1860. 3 Hours.
An exploration of Western theatre from 500 B.C. to 1860 by focusing on the Classical, Medieval, Renaissance, Restoration, and Enlightenment periods. The original historical and performance contexts of plays written during the period will be considered to illuminate the cultural and political role of theatre through the ages. The class format includes lectures, class discussions, group exercises, and creative research projects.
Prerequisites: THR 235 [Min Grade: C]
THR 482. Theatre History from 1860 to Present. 3 Hours.
An exploration of nineteenth and twentieth century Western theatre, focusing on Romanticism, Realism and Non-Realism. Also introduces students to the most popular forms of traditional non-Western theatre to explain their influence on the European avant-garde. Emphasis will be placed on seminal plays, theatre spaces and design, acting techniques, and directing styles. The class format includes lectures, class discussions, group exercises, and creative and research projects.
Prerequisites: THR 235 [Min Grade: C]

THR 489. Individual Studies in Film. 1-3 Hour.
An opportunity for students to study a specific aspect of film production or history leading to the presentation of research.

THR 491. Theatre Capstone. 2 Hours.
An exploration of the role of theatre and the theatre artist in the macrocosm of the world. Synthesis and assessment of the academic theatre experience through writing assignments, class discussion, and oral presentations focused on career preparation and planning, the role of theatre in society, defining a personal aesthetic and collaboration. Required for graduation in last year of residency.

THR 492. Film Internship/Capstone. 3 Hours.
A synthesis experience for students as they apply what they have learned to a real-life, work environment. When possible, students are expected to intern with a Los Angeles film or television production company.

THR 493. Musical Theatre Capstone. 2 Hours.
An exploration of the business of musical theatre including information about contracts, unions, agents/managers, casting directors, taxes and other life strategies in order to develop a specific plan for the next steps after graduation. Students prepare themselves for professional careers by developing such items as resumes, audition material, headshots and websites.

THR 496. Honors Project. 3 Hours.
Admission into the departmental honors program.

THR 499. Individual Studies. 1-3 Hour.
Directed individual study in theatre topics unrelated to design and production. Proposals for individual projects must be approved prior to registration. May be repeated for credit.

UASC - University Academic Success Center

Courses

UASC 101. Exploring UAB. 1 Hour.
The purpose of this course is to assist students in their transition to UAB by providing essential navigational tools and resources to encourage student engagement and a strong persistence towards graduation. These strategies include intentional major, degree, and career outlook planning; using time more efficiently; developing academic skills in reading, note taking, studying, and test taking; enhancing critical thinking and problem solving; developing networking and communication skills; and encouraging campus involvement.

UASC 105. Keys to Academic Success. 2 Hours.
The purpose of this course is to assist students in applying strategies for college success. These strategies include using technology and library resources for processing and retrieving information; planning and using time more efficiently; developing academic skills in reading, note taking, studying, and test taking; enhancing critical thinking and problem solving; developing networking and communication skills; encouraging campus involvement; and incorporating wellness habits.

UASC 150. Career Planning and Management. 3 Hours.
Understanding aptitudes, abilities, and interests as related to career alternatives. Group and individual experiences aid self-direction in planning and career management. Values, preferences, skills, and personal resources matched with educational and employment opportunities using a variety of experiences and resources.

UASC 203. Connections: The Transfer Student Seminar. 2 Hours.
This course is designed to facilitate the successful transition of UAB transfer students by reinforcing the resources and skills needed to be succeed at a research university. The course will help students explore what it means to be a successful UAB student by providing information about managing transitions. Students will also be introduced to campus resources, gain knowledge of academic supports, become familiar with university policies and procedures along with participating in out of class activities.

The purpose of this course is to provide students with both an introduction and understanding of the necessary requirements and skills needed in preparation for medical school. In addition, students will explore the foundations of medicine and health and actively participate in service related activities to understand the reciprocal relationship between theory and practice. Furthermore, students will use said information to formulate group presentations for future research, advocacy, or continued service.

UNIV-University Courses

Courses

UNIV 105. Surviving and Thriving at UAB: Freshman Success Course. 2 Hours.
Surviving and Thriving at UAB: A Freshman Success Course.

UNIV 200. Job Search Essentials. 1 Hour.
This course is designed for those ready to start the job search process. This course walks you through the basic essentials needed to begin a professional job search including resume, interviewing, elevator pitch, informational interviews, networking, and company research. This course is made up of project-based, interactive activities that will culminate into a final project using LinkedIn. This course is not designed for students who do not have a specific goal. For students who are seeking the foundations of this course plus more professional development, the UNIV 300 course may be more appropriate.

UNIV 203. Connections: The Transfer Student Seminar. 2 Hours.
This two credit course is designed to assist in the successful transition of transfer students from their previous institution to UAB. The seminar provides an opportunity for students to get to know the intellectual community they have joined, while introducing them to campus resources that will help them succeed at UAB. Each session of the seminar will address a topic or body of knowledge for the purpose of developing students as learners.
UNIV 300. Career Mapping: Navigating for Success. 3 Hours.
UNIV 300 is for students who want to confirm their career path, get
a jump start on their post-graduation job search, and make a smooth
transition into the professional world. UNIV 300 uses project-based,
interactive activities to help students determine an appropriate career
path, explore career options, perform industry research, build a
professional network, and prepare for the job search by creating an
effective resume and participating in in-person mock interviews. Students
also gain skills in workplace competencies like effective communication,
teamwork, and dealing with feedback. This in-depth career course
involves interaction with local employers and community partners.

UNIV 398. Undergraduate Research. 1-12 Hour.

WS-Womens Studies Courses

Courses

WS 100. Introduction to Women's and Gender Studies. 3 Hours.
Interdisciplinary study of roles of women in society through social,
political, economic, philosophical, historical, and biological perspectives.
Required for Women's and Gender Studies Minor. This course meets the
Core Curriculum requirements for Area IV: Social and Behavioral
Sciences.

WS 280. Special Topics in Women's and Gender Studies. 3 Hours.
Subjects of special interest, such as women and religion, women and war
and theories of women's studies. Varies in content depending upon topic.
Students may enroll under these numbers multiple times but topic may
not be repeated.

WS 357. Anthropology of Gender. 3 Hours.
Roles of women, men, and other genders from a cross-cultural
perspective; includes bio-cultural approaches to sex and gender and
changing gender roles over time. Course involves substantial writing
component in essay examinations and research papers. Writing is a
significant component of this course.

WS 380. Special Topics: Women's and Gender Studies. 3 Hours.
Interdisciplinary study of gender in society through social, political,
economic, philosophical, historical, and biological perspectives. Required
for Women's and Gender Studies Minor.

WS 400. Theory and Practice of Women's and Gender Studies:
Senior Seminar. 3 Hours.
Everyday applications of feminist and queer theories. Required for the
minor.

Prerequisites: WS 100 [Min Grade: D]

WS 480. Special Topics in Women's and Gender Studies. 1-3 Hour.
Subjects of special interest, such as women and religion, women and war,
and theories of women's studies. Varies in content depending upon topic.
Students may enroll under these numbers multiple times but topic may
not be repeated.

WS 490. Directed Readings in Women's and Gender Studies. 1-3 Hour.
Independent study with faculty guidance of selected gender-related
issues.

WS 491. Directed Studies in Women's and Gender Studies. 1-3 Hour.
Independent research with faculty guidance on selected gender-related
issues.

WS 495. Internship in Women's and Gender Studies. 1-3 Hour.
Experience in community agency working with women or gender issues.
Course requirements dependent upon number of credits student wishes
to take.

Undergraduate

This catalog contains information on UAB’s academic programs offered in the following schools:

- Arts and Sciences (p. 137)
- Business (p. 112)
- Education (p. 266)
- Engineering (p. 283)
- Health Professions (p. 302)
- Honors (p. 258)
- Nursing (p. 310)
- Public Health (p. 317)

Catalog Disclaimer

Although this catalog intends to reflect any policies or rules of the Board of Trustees of the University of Alabama referred to or incorporated herein, students are cautioned that changes or additions to such policies or rules may have become effective since the publication of this material. In the event of such a conflict, the current statements of the Board policy contained in the official minutes and manuals of rules, bylaws, and guidelines shall prevail. Thus, the provisions of this catalog are not to be regarded as a contract between the Board of Trustees of the University of Alabama, the University of Alabama at Birmingham (or any of its schools) and the student. The University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students, these changes to be effective when determined by the appropriate authority within the University. These changes will govern current and formerly enrolled students. Registration of all students is accepted subject to these conditions.

Produced through the Office of the Registrar.

About UAB

Over four decades, UAB has evolved from an academic extension center into an autonomous, comprehensive urban university and academic health center within the University of Alabama System. UAB has established wide-ranging programs in the College of Arts and Sciences and the schools of Business, Dentistry, Education, Engineering, Health Professions, Medicine, Nursing, Optometry and Public Health, with graduate programs serving all major units. Fall 2016 enrollment was a record-high 19,535 students, with an increase in students at every UAB school, as well as the College of Arts and Sciences and Honors College. The freshman class had an average ACT of 24, and high school GPA of 3.65.

UAB is situated near downtown Birmingham and the historic Five Points South district. The campus stretches across 100 square blocks and occupies more than 100 primary buildings. UAB is Alabama’s largest single-site employer, with more than 23,000 employees and an economic impact exceeding $5 billion annually on the state.

Accreditation

The University of Alabama at Birmingham is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees at the baccalaureate, masters, specialist, and doctorate levels.

Questions related to the accreditation of The University of Alabama at Birmingham should be directed to the Commission on Colleges at:

Commission on Colleges
Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, Georgia 30033
Phone: (404) 679-4500
Fax: (404) 679-4558

Many academic programs have additional accreditation from organizations appropriate to the academic discipline.

If you have questions related to issues such as admission requirements, educational programs, and financial aid that are not answered in this publication, please contact UAB at:

University of Alabama at Birmingham

General Information

Role Statement

UAB’s undergraduate instructional programs are broad-based and designed to serve the needs of a diverse student body without sacrificing a strong general education foundation. Programs range from the liberal arts and sciences to professionally oriented studies, including business, education, engineering, and the health disciplines. UAB’s baccalaureate offerings are shaped by its location in the state’s largest metropolitan area, by its mandate to serve a large and heterogeneous constituency, by its responsibility to contribute to the economic and professional development of Birmingham and the state, and by its role of providing support to a nationally recognized academic health sciences center.

At the graduate level, programs serve the career needs of educators and business leaders, as well as those involved in advancing the frontiers of the health sciences. Training for health professionals is available through programs at the baccalaureate, master’s, doctoral, and professional degree levels.

UAB also has the primary responsibility for meeting the state’s health professional needs. It offers a comprehensive range of programs which encompass both basic preparation and sophisticated graduate and specialty training in medicine, dentistry, optometry, nursing, the health professions, and public health.

As one of the nation’s leading research institutions, UAB emphasizes both basic and applied research. Although the majority of the university’s
research effort is in the biomedical sciences and related areas, all instructional programs are expected to participate in research activities. UAB's urban setting necessitates the development of research programs that are responsive to the city's economic, social, and cultural needs. Much of the research conducted at UAB is interdisciplinary in nature and is organized through centers that bring together experts in a number of related fields to concentrate on a particular problem or issue. UAB's total research expenditures exceeded $516 million in 2015, and the university currently ranks 10th among public universities in funding from the National Institutes of Health.

As the senior public doctoral-level institution in the state's major urban area, UAB is also committed to providing comprehensive programs in continuing education consistent with the quality and diversity of its other offerings. The university's faculty, staff, and students also serve as resources to the area through activities related to professional, economic, and cultural growth and development.

Cultural Opportunities

UAB's urban location offers students unique cultural opportunities. Located within walking distance of the campus is the Five Points South district, where several nationally recognized restaurants are located, along with shops, art galleries, and music clubs. Not far from campus are the Birmingham Museum of Art, the Civil Rights Institute, the historic Alabama Theater, and the Birmingham-Jefferson Convention Complex. Other nearby sites include Sloss Furnace, a post-Civil War iron foundry which has been converted into a museum and informal music hall, and Oak Mountain Amphitheater, an outdoor facility that features music-industry headliners during the spring and summer concert season.

UAB also has a flourishing arts program. Dozens of major music events are produced each season at UAB, in addition to numerous theater productions and student and professional art exhibitions. The Alys Robinson Stephens Performing Arts Center is Birmingham's home for the performing arts and the anchor of UAB's burgeoning Cultural Arts Corridor. The Center features a 1,400-seat concert hall, a 350-seat theater, and a 150-seat recital hall, and regularly schedules nationally and internationally known artists and orchestras and features faculty and student productions and concerts. The Abroms-Engel Institute for the Visual Arts houses the Department of Art and Art History and hosts world-class exhibits and cultural events.

Student Life

UAB offers a rich variety of student life activities through its many academic organizations, honor clubs, fraternities and sororities, and volunteer groups. The university houses more than 180 campus organizations, including 33 national honorary societies, more than 120 professional clubs and interest groups, cheerleaders, the Golden Girls dance team, intramural and recreational sports, and an established student government organization.

The campus is rich in social activity and the arts and culture. The Campus Green is a vibrant hub of campus life, with serene outdoor spaces and state-of-the-art residence halls, dining facilities and academic buildings. A few blocks away, the Cultural Arts Corridor offers a host of free activities for students, including exhibitions, lectures and performances. UAB's new Hill Student Center is an architecturally striking facility that houses, among other amenities, a student welcome center, bookstore, and meeting, conference, and auditorium space.

UAB's athletic program is a Division I member of the NCAA and a founding member of Conference USA. UAB athletes participate in 18 intercollegiate sports and have earned championships in baseball, men's tennis, women's tennis, women's basketball, and men's golf.

The University of Alabama System

The University of Alabama was foreseen in the Constitutional Convention in Huntsville, Alabama Territory, on July 5, 1819. At the second session of the General Assembly, December 18, 1819, an act was passed establishing a seminary of learning "to be denominated the University of Alabama." The university opened for admission of students on April 18, 1831, in Tuscaloosa. All public buildings except the observatory were burned by federal cavalrymen on April 4, 1865. Erection of new buildings began in January 1867 and classroom instruction resumed in April 1869.

During the first half of the twentieth century and in addition to its regular educational programs at the Tuscaloosa campus, the university began to offer additional educational opportunities to residents in urban communities throughout Alabama. Extension centers, offering both day and evening classes, were established in Birmingham, Huntsville, Montgomery, Mobile, Dothan, and Gadsden. The Birmingham and Huntsville centers evolved into new university campuses, which were established in addition to the Tuscaloosa campus.

In September 1966, all university operations in Birmingham were designated as the University of Alabama in Birmingham (UAB) by the University of Alabama Board of Trustees. This action established the University of Alabama in Birmingham as one of the three major campuses of the university. The University of Alabama in Huntsville had been initiated as a four-year school in 1964.

In June 1969, the campuses were given autonomy within the framework of the University of Alabama System, each having its own administrative structure with a president as the chief executive officer. A chancellor was appointed in June 1976 as chief administrative officer of the system. In 1984, the name of the University of Alabama in Birmingham was changed to the University of Alabama at Birmingham.

Medicine, Dentistry, Optometry, or Law

Students wishing to pursue careers in medicine, dentistry, optometry, or law complete a program of undergraduate study (usually culminating in a baccalaureate degree) before entering the appropriate professional school. "Pre-medicine," "pre-dentistry," "pre-optometry" and "pre-law" are not majors.

Individually Designed Majors

Students whose educational objectives are not well served by any of the regular majors may propose an individually designed major. Such program proposals require approval of the appropriate dean.

ROTC

UAB has Army and Air Force ROTC (Reserve Officer Training Corps) units in which Birmingham-area college students may participate.

Cooperative Education Program

UAB's Cooperative Education Program helps students identify work opportunities that combine practical experience with academic studies. Some academic departments give credit for carefully structured work experiences.
Non-Academic Policies

Equal Opportunity and Discriminatory Harassment Policy
UAB is committed to equal opportunity in education and employment, and the maintenance and promotion of nondiscrimination and prevention of discriminatory harassment in all aspects of education, recruitment and employment of individuals throughout the university.

Immunization Policy
UAB requires that first-time entering students, international students and scholars, and students in health-related schools provide proof of immunization against certain diseases.

Non-Resident Tuition Policy
This policy addresses non-resident tuition, certification of residency status by campus officials, and establishment of campus policies to administer an appeals process.

Drug-Free Campus Policy for Students
Unlawful possession, use, manufacture, distribution, or dispensing of illicit drugs, controlled substances, or alcoholic beverages by any UAB student is prohibited.

Drug-Free Campus Policy for Students - Attachment A
This attachment for the Drug-free Campus Policy for Students outlines the Federal penalties and sanctions for the illegal possession of a controlled substance.

Drug-Free Campus Policy for Students - Attachment B
This attachment to the Drug-free Campus Policy for Students outlines the health risks associated with the use of drugs and alcohol.

Drug Free Campus/Workplace Policy - Attachment B.1
This Attachment to the Drug-Free Campus and Drug-Free Workplace Policies outlines effects related to the consumption of alcohol.

Drug-Free Campus Policy for Students - Attachment C
This attachment to the Drug-Free Campus Policy describes available programs through UAB offering counseling and assistance for drug and alcohol abuse.

Copyright Policy
The University of Alabama at Birmingham (the “University”) is dedicated to instruction, research and service to benefit society and encourages its faculty, staff and students to carry out scholarly endeavors in an open and free atmosphere, and to publish the results of such work without restraint, consistent with applicable law and policy.

Patent Policy
UAB encourages the development of procurement and licensing of patents for inventions in the interest of the public, the inventor, and the university.

Data Protection and Security Policy
Data (electronic) created at UAB must be protected and maintained in accordance with all applicable federal and state laws and university policies.

Student E-Mail Address Policy
November 10, 2003

Electronic Data Processing Security Policy
Acceptable Use Policy
Network Usage Guidelines

Purpose
UAB provides electronic mail resources in support of its instruction, research, and service activities. The purpose of this policy is to establish the use of electronic mail (e-mail) as one of the official methods for communicating with UAB students.

Official Communications Using E-Mail Addresses
In a similar manner as mail distribution of paper communiqués to a student’s “permanent” address is considered an official method for distributions to students, so also are official e-mail messages sent by UAB to a student’s “@UAB.EDU” e-mail address considered an official distribution method. For purposes of this policy, “official” communiqués or e-mails as used here are those established as “official” through other approval mechanisms in place at UAB.

Student Requirements and Responsibilities
Every student enrolled at UAB must have an e-mail address that ends with “@UAB.EDU”. Such an e-mail address is required for a student to register for UAB credit courses. It is the student’s responsibility to obtain an official UAB e-mail address in a timely manner from the UAB e-mail registering system (BlazerID World Wide Web site). This will require the student also to have a valid, current, and reliable electronic mailbox through an Internet Service Provider (ISP) or portal or on a server administered by the student’s academic department, or on the central mail service provided by the Office of the Vice President for Information Technology. It is the student’s responsibility to check his or her e-mail regularly for distribution of official UAB communications. UAB recommends that e-mail be checked at least once a day, when practicable. UAB is not responsible for lost, rejected, or delayed e-mail forwarded by UAB from a student’s “@UAB.EDU” address to off campus or unsupported e-mail services or providers. Such lost, rejected, or delayed e-mail does not absolve the student from responsibilities associated with an official UAB communiqué sent to the student’s official UAB e-mail address (“@UAB.EDU”). If there is a change in a student’s e-mail address to which the “@UAB.EDU” alias address is
re-directed, it is the student's responsibility to make the changes in the UAB e-mail registering system.

**UAB Responsibilities**

UAB will ensure that all students have access to an e-mail account and will provide means for students who do not otherwise have access to e-mail-capable computers to be able to check their e-mail through such mechanisms as computer labs, the UAB libraries, and public terminals. UAB will provide mechanisms to allow students to request that their e-mail addresses not be published in a similar way that other student directory information is not published. However, unpublished e-mail addresses will be used for sending official UAB communications to students including communications to a group of students such as a course e-mail list. Students also will be provided mechanisms for requesting that their e-mail addresses not be used for general UAB mailings that are not official communications with students. UAB is not responsible for the handling or mishandling of students' e-mail by non-UAB providers or by unofficial (non-@UAB.EDU) e-mail servers.

**Student Records Policy**

The University of Alabama at Birmingham student records policy complies with the Family Educational Rights and Privacy Act of 1974, as amended. All students enrolled or previously enrolled at UAB have certain rights with regard to information included in their education records. These rights are the subject of this policy.

Instructor of Nursing, 1993, B.S.N. (Michigan State); M.S.N., D.N.P. (UAB)

Christensen, Lois M.  
Department of Curriculum and Instruction, Professor of Early Childhood and Elementary Education, 1996, B.A., M.A. (Arizona State), Ph.D. (Texas AM)

Cinnella, Pasquale  
Department of Mechanical Engineering, Professor of Mechanical Engineering; Undergraduate Program Director, 2017, B.S. (University of Bari, Italy), Ph.D. (Virginia Polytechnic Institute and State University), Dynamics

Clabough, Jeremiah  
Department of Curriculum and Instruction, Assistant Professor of Secondary Education, 2012, B.A. (Maryville College), M.S., Ph.D. (Tennessee)

Clavell, Alicia  
Department of Management, Information Systems, and Quantitative Methods, Visiting Instructor in Business Communications, 2011, B.A. (Berry College), M.A. (UAB)

Clay, Olivo  
Department of Psychology, Associate Professor of Psychology, 2007, B.S., M.A., Ph.D. (UAB)

Cochran, John Brock  
Department of Foreign Languages and Literatures, Instructor of Spanish, 2012, B.A. (Auburn), M.A. (North Carolina in Charlotte)

Cockerham, William C.  
Department of Sociology, Distinguished Professor of Sociology; Chair, Department of Sociology; Professor of Medicine, 1991, B.A. (Oklahoma), M.A., Ph.D. (California-Berkeley)

Coles, Karen M.  
Instructor of Nursing, 1993, B.S.N. (Michigan State); M.S.N., D.N.P. (UAB)

Conner, David A.  

Cook, Edwin W. III  
College of Arts and Sciences
Copes, J. Heith
Department of Justice Sciences, Professor and Director, Master of Science in Criminal Justice Program, 2001, B.S. (Southwestern Louisiana), M.A., Ph.D., (Tennessee), Qualitative Methods, Criminal Decision Making, Visual Criminology

Corbetta, Renato
Department of Government, Associate Professor of Government, 2005, B.A., M.A. (Portland State), Ph.D. (Arizona)

Cormier, Loretta
Department of Anthropology, Associate Professor of Anthropology, 2000, B.S. (Florida), M.A. (UAB), Ph.D. (Tulane)

Cowart, Larry
Department of Accounting and Finance, Assistant Professor of Finance, 2007, B.S. (Athens), M.B.A. (Samford), Ph.D. (Georgia)

Cracco, Derek A.
Department of Art History, Associate Professor of Art, 1999, B.F.A. (Louisiana State), M.F.A. (Syracuse), Printmaking, Computer graphics, Color Theory

Crigler, Paul
Department of Management, Information Systems, and Quantitative Methods, Instructor of Information Systems, 2004, B.S. (Auburn); B.S., M.S. (UAB)

Crooks, Elizabeth
Instructor of Nursing, 2011, B.S.N. (Catholic University of America), M.S.N. (Case Western Reserve), D.N.P. (UAB)

Crowe, Michael
Department of Psychology, Associate Professor of Psychology, Assistant Director of the Center for Research on Applied Gerontology, 2006, B.S. (Illinois), M.A., Ph.D. (Southern California)

Cullen, Clark
Department of Sociology, Teaching Assistant Professor of Sociology, 2009, B.A. (Mississippi); M.A., Ph.D. (UAB)

Culver, Sarah E.
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Economics, 1993, B.S., M.A., Ph.D. (Houston)

Cummins, Cathleen A.
Department of Art History, Associate Professor of Art History, 2006, B.A. (Mills College), M.A. (University of London), M.A. and Ph.D. (Ohio State)

Currie, Erin
School of Nursing
Assistant Professor, 2014, B.S.N. (Florida State); M.S.N., Ph.D. (UAB)

Cusic, Anne M.
Department of Biology, Associate Professor of Biology, 1988, B.S. (UAB), M.S. (Samford), Ph.D. (UAB), General Biology and Reproductive Biology

Dagley, Amy L.
Department of Human Studies, Assistant Professor of Educational Leadership, 2016, BLA, M.A. (Alaska Southeast); Ph.D. (Alabama)

Dailey, Kelly
Instructor of Nursing, 2012, B.S.N. (Samford), M.S.N. (UAB)

Dale, Louis
Department of Mathematics, Professor Emeritus of Mathematics, 1973, B.A. (Miles), M.S. (Atlanta), Ph.D. (Alabama), Ring Theory

Dallow, Jessica
Department of Art History, Associate Professor of Art History, 2002, B.A. (San Diego), M.A., Ph.D. (North Carolina-Chapel Hill), Contemporary Art, American Art

Daniel, Melanie
Instructor of Nursing, 2008, B.S.N., M.S.N. (UAB)

Daniels, Melissa
Department of English, Assistant Professor of English, 2013, B.A. (University of La Verne), M.A. (Claremont), M.A., Ph.D. (Northwestern), Nineteenth-Century American Literature, African American Literature

Daniérou, Catherine F.
Department of Foreign Languages and Literatures, Associate Professor of French; Senior Associate Dean for Undergraduate Academic Affairs, College of Arts and Sciences, 1990, licence-ès-Lettres, Maîtrise-ès-Lettres (Sorbonne), M.A., Ph.D. (Michigan State)

DasGupta, Manabendra
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Economics, 1990, B.A., M.A. (Calcutta), M.A., Ph.D. (Southern Methodist)

Davis, Colin J.

Dawson, Martha
School of Nursing
Assistant Professor of Nursing, 2008, B.S.N., M.S.N., D.N.P. (UAB)

Debiasi, Laura B.
School of Nursing
DeCarlo, Thomas E.  School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 2007, B.S. (N. Carolina State), Ph.D. (Georgia)

DeLuca, Shannon  School of Nursing
Instructor of Nursing, 2012, B.S.N. (North Carolina-Charlotte), M.S.N. (UAB)

Deupree, Joy  School of Nursing
Assistant Professor of Nursing, 2011, B.S.N., M.S.N., Ph.D. (UAB)

DeVore, Todd E.  College of Arts and Sciences
Department of Physics, Instructor of Physics, 1998, B.S. (Lewis and Clark), M.S. PhD. (UAB), Physics and science education; computational physics

Di Gangi, Paul  School of Business
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor of Information Systems, 2013, B.S. (Quinnipiac), M.S. (George Washington), Ph.D. (Florida State)

Dickinson, Dale A.  School of Public Health
Department of Environmental Health Sciences, Assistant Professor and Graduate Program Director, 2003, Ph.D. (University of Guelph, Ontario), Pedagogies for enhancing public health training, including service learning, team-based and problem-based learning; environmental justice; molecular actions of functional foods; adaptive response to environmental toxicants and pollutants

Dluhy, Richard  College of Arts and Sciences
Chemistry, Professor and Chair, 2015, BS (Connecticut), PhD (Rutgers)

Dobbins, Allan C.  School of Engineering
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 1996, B.Sc. (Dalhousie), B.S.E., M.S.E., Ph.D. (McGill), Human and machine vision, Neural computation, Brain imaging, Scientific visualization

Dobbs, Joel  School of Business
Department of Management, Information Systems, and Quantitative Methods, Entrepreneur in Residence, 2011, M.Sc. (UAB)

Dorsey, Amanda D.  School of Health Professions
Department of Health Informatics, M.S.H.I., Instructor Assistant Program Director (Health Services Administration)

Doss, Harriet E. Amos  College of Arts and Sciences
Department of History, Associate Professor of History, 1978, B.A. (Agnes Scott), M.A., Ph.D. (Emory)

Downs, Lauren  College of Arts and Sciences
Department of Anthropology, Research Associate, 2013, B.A. (North Carolina), M.A., Ph.D. (Alabama)

Drentea, Patricia  College of Arts and Sciences
Department of Sociology, Associate Professor of Sociology, 1999, B.A. (Wisconsin), M.A., Ph.D. (Ohio State)

Drnevich, Dawn  School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2010, Ph.D. (Texas Tech)

Dudley, Patricia  School of Nursing
Instructor of Nursing, 2006, B.S.N, M.S.N. (Samford)

Dunbar, Jessie  College of Arts and Sciences
Department of English, Assistant Professor of English, 2013, B.A. (Clark Atlanta University), M.A. (Georgia), Ph.D. (Emory), Nineteenth and Twentieth-Century African American Literature and Black Diaspora Studies

Duncan, W. Jack  School of Public Health
Department of Health Care Organization and Policy, Professor of Management and University Scholar Emeritus, 1972, Ph.D. (Louisiana State)

Dwyer, Zoe. B.  School of Engineering
Department of Materials Science and Engineering, Associate Professor of Materials Science and Engineering; Associate Dean for Undergraduate Programs, 1999, B.S., M.S., Ph.D. (UAB)

Earwood, Martha  College of Arts and Sciences
Department of Justice Sciences, Teaching Assistant Professor of Criminal Justice Internship Coordinator, 2003, B.S., M.S. (Georgia State), Corrections, Victimology, Restorative Justice, Experiential Learning.

Eberhardt, Alan  School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering; Associate Chair of Education, Biomedical Engineering; Director of Master of Engineering in Design and Commercialization, 1991, B.S., M.S. (Delaware), Ph.D. (Northwestern), Solid Mechanics, Injury Biomechanics, Biomedical Implants, Analytical and Numerical Methods in Biomechanics

Edmonds, Christopher  School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2013, B.S. (Colarado State), M.B.A. (UAB), Ph.D. (Virginia Tech)

Edmonds, Jennifer  School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2013, B.S. (Birmingham-Southern), M Acc., Ph.D. (Virginia Tech)

Eisler, Riane  College of Arts and Sciences
Department of Anthropology, Research Associate, 2015, B.A., J.D. (UCLA), DHL (Case Western), DHL (Saybrook)
Enah, Comfort  
School of Nursing  
Assistant Professor of Nursing, 2009, B.S.N. (Berea College), M.S.N., Ph.D. (Cincinnati)

Ennis, Robin  
School of Education  
Department of Curriculum and Instruction, Assistant Professor of Collaborative Teacher Education K-12, 2015, B.A. (Birmingham Southern), M.Ed. (Vanderbilt), Ph.D. (Georgia State)

Epps, Chad A.  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Associate Professor, 2007, MD (Medical College of Georgia), Simulation

Ernest, James R.  
School of Education  
Department of Curriculum and Instruction, Professor of Early Childhood and Elementary Education, 2010, B.A. (The University of Exeter, Exeter, England), M.A. (Louisiana State), Ph.D. (UAB)

Esposito, Richard A.  
School of Engineering  
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2011, B.S. (Auburn), M.S. (Auburn; Samford), Ph.D. (UAB), P.G. (Alabama, Georgia, Florida, Mississippi, Tennessee), Carbon Dioxide Sequestration; Power Generation

Estes, Jr., Norman Robert  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2015, Ph.D. (UAB)

Etheridge, Sherita  
School of Nursing  
Instructor of Nursing, 2008, B.S.N. (UNA), M.S.N. (UAB)

Evans, Patrick  
College of Arts and Sciences  
Department of Music, Professor and Chair, 2015, B.M., B.M.E. (Montevallo), M.M., D.M. (Florida State)

Evans, Retta  
School of Education  
Department of Human Studies, Associate Professor of Community Health and Human Services, 2003, B.S., (Fort Hays), M.S. (Northeastern), Ph.D. (Arkansas)

Fambrough, R. Eugene  
College of Arts and Sciences  
Department of Music, Associate Professor of Music, 2001, B.M. (Georgia), M.M. (East Carolina), D.M.A. (Alabama)

Fanucchi, Michelle  
College of Joint Health Sciences  
Department of Biochemistry and Molecular Genetics, Associate Professor Chair; Environmental Health Sciences, 2007, Ph.D. (University of California - Davis), Pulmonary cell biology and toxicology. Cell-to-cell interactions in the developing lung as well as in repair after lung injury and disease in children. Environmental Justice, Childhood lung disease and its etiology. Drug metabolism.

Fast, Vladimir G.  
School of Engineering  
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1997, B.S., M.S. Physics, Ph.D. in Biophysics (Moscow Institute of Physics and Technology), Optical imaging of electrical and ionic activity in the heart mechanisms of cardiac arrhythmias and defibrillation

Fathallah-Shaykh, Hassan  
College of Arts and Sciences  
Department of Applied Mathematics, Professor of Neurology; Mathematics; Integrative, Developmental and Cell Biology; Biomedical, Electrical, and Mechanical Engineering, 2008, M.D. (American University of Beirut), Ph.D. (Illinois at Chicago), Mathematical Biology, Systems biology of cancer, Dynamics of molecular networks, Biological rhythms

Fedorov, Vladimir V.  
College of Arts and Sciences  
Department of Physics, Research Assistant Professor of Physics, 2007, M.S. (Moscow Institute of Physics), Ph.D. (Russian Academy of Science), Physical and mathematical science; coherent and laser spectroscopic characterization of doped laser materials; solid-state lasers; laser spectroscopy for molecular-sensing applications

Feldman, Dale S.  
School of Engineering  
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 1985, B.S. (Northwestern), M.S. (Dayton), Ph.D. (Clemson), Biomaterials, Soft-tissue biomechanics, Polymeric implants

Fiedler, Robin L.  
School of Education  
Department of Human Studies, Instructor of Educational Psychology and Research, 2008, B.S. (Edinboro), M.Ed. (Virginia Commonwealth), Ph.D. (Auburn), Measurement, Educational Psychology, Educational Statistics

Fischer, Kathleen E.  
College of Arts and Sciences  
Department of Biology, Research Assistant Professor of Biology, 2014, A.B. (UC Santa Cruz); Ph.D. (Harvard), Comparative Biology, Aging, Evolution, Natural History and Conservation

Fisher, Gordon  
School of Education  
Department of Human Studies, Professor of Kinesiology, 2012, B.S. (Hillsdale), M.S. (Mississippi State), Ph.D. (Auburn), Postdoctoral Fellow (UAB), Exercise Physiology; Exercise/Nutrition, Mitochondrial Bioenergetics, Oxidative Stress, and Chronic Inflammation

Flammini, Steve  
School of Health Professions  
Department of Health Informatics, Credit Course Instructor (Health Services Administration)

Fogger, Susanne  
School of Nursing  
Associate Professor of Nursing, 2010, B.S.N. (Wayland Baptist University), M.S.N., D.N.P. (South Alabama)

Foley, Robin D.  
School of Engineering  
Department of Materials Science and Engineering, Associate Professor of Materials Science and Engineering, 1990, B.S., M.S. (Illinois, Urbana-Champaign), Ph.D. (Wisconsin-Madison), Materials Characterization, Physical Metallurgy, Metals Casting
Fontaine, Kevin
School of Public Health
Department of Health Behavior, Professor and Chair, 2012, Ph.D. (Victoria University, UK), Obesity, non-descriptive placebo responses, resistance exercise, mirror visual feedback for pain, movement restrictions in Chronic Fatigue Syndrome, and the effects of carbohydrate restricted diets on systemic inflammation

Forbes, Laura
School of Education
Department of Human Studies, Assistant Professor of Community Health and Human Services, 2005, B.S. (Ball State), M.S. (Central Florida), Ph.D. (South Carolina)

Forman, Michele
College of Arts and Sciences

Fouad, Fouad H.
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering; Chair, Department of Civil, Construction and Environmental Engineering; Associate Director, University Transportation Center for Alabama, 1981, B.S.C.E. (Alexandria, Egypt), M.S.C.E. (Texas), Ph.D. (Texas AM), P.E. (Alabama, Texas), Structural Engineering, Reinforced Concrete, Concrete Materials

Franklin, Gregory A.
School of Engineering
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering, 2007, B.S., M.S., Ph.D. (UAB), P.E. (Alabama), Electric utility power systems, power system protection, power line communications

Franks, Alan E.
College of Arts and Sciences
Department of Communication Studies, Assistant Professor; Director, Broadcasting, 2013, B.S. (UAB); MFDI (Sydney); MFA (Montana State)

Friday, R. David
School of Health Professions
Department of Health Informatics, M.S.H.I., Adjunct Instructor (Health Services Administration)

Friend, Edward M. III
School of Business
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Business Law and Executive in Residence, 2008, B.A., J.D. (University of Alabama)

Fry, Douglas P.
College of Arts and Sciences
Department of Anthropology, Professor Chairperson, 2014, B.A. (UCSB), M.A., Ph.D. (Indiana)

Fu, Richard
School of Business
Department of Accounting and Finance, Associate Professor of Finance, 2006, Ph.D. (Georgia Institute of Technology)

Gainey, Denise
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2002, B.M.E. (Florida State), M.M. (North Texas), D.M.A. (Kentucky)

Gaioso, Vanessa
School of Nursing
Instructor of Nursing, 2008, B.S.N., M.S.N. (University of Sao Paulo, Brazil), Ph.D. (UAB)

Gakumo, C. Ann
School of Nursing
Assistant Professor of Nursing, 2009, B.S.N. (Tuskegee), Ph.D. (UAB)

Gampher, J. Eric
College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2008, B.S. (Florida State), Ph.D. (UAB)

Gardner, Elizabeth A.
College of Arts and Sciences
Department of Justice Sciences, Associate Professor and Director, Master of Science in Forensic Science Program, 2007, B.S. (Penn State), PhD. (Michigan State), Drug Chemistry, Legal Highs, Gun Powder Residue, Laser Induced Breakdown Spectroscopy, Pharmaceutical Spam

George, Remo
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2008, M.S. (Mahtma Gandhi University), Ph.D. (UAB), Using Molecular Beacons for Detection and Attenuation of Mycobacteria

Ghanta, Vithal K.
College of Arts and Sciences
Department of Biology, Professor of Biology, 1971, B.S. (G.C.W. College), M.S. (Banaras Hinda), Ph.D. (Southern Illinois), Research Interest: Cancer Immunology, Immunology, and Biology of Aging

Ghervas, Stella
College of Arts and Sciences
Department of History, Assistant Professor, 2016, B.A., M.A. (St. Petersburg), Ph.D. (Bucharest)

Gilbert, Margie G.
College of Arts and Sciences
Department of Social Work, Visiting Assistant Professor, 2014, B.S.W. (UAB), M.S.W. (Alabama)

Gilchrist, Roger. L.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 1999, B.S., M.S., Ph.D. (Wyoming), Human Anatomy and Physiology

Gilmer, Dianne
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Instructor of Civil, Construction, and Environmental Engineering, 2009, B.S. (Samford), MEng-CEM (UAB), Engineering Online Education, Learning Management System Applications, Student Retention in Online Learning Programs

Goldman, Jay
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Distinguished Service Professor Dean Emeritus, 2017, Ph.D. (Washington University in St. Louis)
Goldman, Renitta L.  School of Education
Department of Curriculum and Instruction, Professor of Special Education, 1984, B.A. (Washington), M.S. (North Carolina State), Ph.D. (Missouri)

Goldightly, Beverly  School of Health Professions
Department of Health Informatics, M.S.H.A., Credit Course Instructor (Health Services Administration)

Goodin, Burel  College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology and Anesthesiology, 2012, B.S. (Illinois College); M.A. (Boston University of Medicine); M.A., Ph.D (Maryland, Baltimore)

Grant, Terry  School of Business
Department of Accounting and Finance, Professor of Accounting, 2012, B.S. (Alabama), M.P.A. (Texas), Ph.D (Florida)

Grau, Grace  School of Nursing
Instructor of Nursing, 2011, B.S.N. (Miami), M.S.N. (UAH)

Graveline, Jeffrey D.  Mervyn H. Sterne Library

Graves, Lila V.  College of Arts and Sciences
Department of English, Associate Professor of English Emerita, 1976, B.S., M.A., Ph.D. (Auburn), Prose Fiction, Eighteenth-Century British Literature

Gray, Gary M.  College of Arts and Sciences
Department of Chemistry, Professor of Chemistry, 1983, B.S., Ph.D. (Lehigh)

Green, David G.  School of Engineering
Department of Electrical and Computer Engineering, Instructional Professor of Electrical and Computer Engineering, 1981, B.S.E., M.S.E (UAH), Collaborative Systems, Internet Applications, and Engineering Education

Griffin, John A.  School of Engineering
Department of Materials Science and Engineering, Research Assistant Professor of Materials Science and Engineering, 2011, B.S.Mt.E, M.S.Mt.E. (UAB), Metals Casting, Testing and Characterization, Nondestructive Evaluation

Griffin, O. Hayden  College of Arts and Sciences
Department of Justice Sciences, Associate Professor of Justice Sciences, 2013, J.D. (University of Richmond), Ph.D. (University of Florida), Corrections, Policy, Drugs and Society, Law and Society

Griffin, Russell  School of Public Health
Department of Epidemiology, Assistant Professor, 2012, Ph.D. (UAB), Improving quality of care among trauma and burn patients, utilization of peritoneal dialysis in rural populations, and predictors of acute kidney injury among neonates.

Grimes, Gary J.  School of Health Professions
Department of Health Informatics, Ph.D., Professor (Electrical and Computer Engineering)

Grimes, L. Kyle  College of Arts and Sciences
Department of English, Professor of English; Director of Graduate Studies Department of English, 1990, B.A. (Dartmouth), M.A., Ph.D. (Illinois)

Grimes-Robison, Cindy  School of Nursing
Instructor of Nursing, 2003, B.A. (Alabama), B.S.N., Ph.D. (UAB), M.Ed. (Montevallo), M.S.N (Troy State)

Grostick, Sara S.  School of Health Professions
Department of Health Informatics, M.A., Associate Professor (Health Services Administration)

Guest, Kristi C.  College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2003, B.S., M.A., Ph.D. (UAH)

Gunnels, Ken  School of Business
Department of Management, Information Systems, and Quantitative Methods, Instructor of Information Systems, 2011, B.S. (UAH); M.B.A. (Samford); M.S., MIS, Ph.D. (Alabama)

Gunther-Canada, Wendy A.  College of Arts and Sciences
Department of Government, Professor and Chair, Department of Government, 1992, B.A. (Utah), M.A., Ph.D. (Rutgers)

Gurley, Dennis Keith  School of Education
Department of Human Studies, Assistant Professor of Educational Leadership, 2012, B.A. (Trinity), M.Ed., Ed.D. (Wichita State), Pre-Service and In-Service Development for School Leaders, Professional Learning Communities, and Organizational Theory

Guthrie, James Ronald  College of Arts and Sciences

Hadley, Mark  School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Surgery; Professor of Marketing and Industrial Distribution; Spinal Surgery and Medical Equipment and Supplies Distribution, 2008, B.A. (Stanford), M.D. (Albany Medical College)
Haider, Mohammad
School of Engineering
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, Ph.D. (Tennessee-Knoxville), Low-power Sensor Electronics, Wireless Telemetry, and Wireless Power Transfer

Hall, Cheryl D.
College of Arts Science
Department of Theatre, Assistant Professor of Theatre, 1989, B.A. (Southern Illinois), M.F.A. (Arizona)

Hall, Sean
School of Education
Department of Human Studies, Assistant Professor of Counselor Education, 2012, B.A., M.A. (Florida Gulf Coast), Ph.D. (Old Dominion), Counselor Education, Clinical Mental Health Counseling, Assessment and Intervention Techniques, Processes and Outcomes Research, Dropout Prevention

Hallman, Melanie
School of Nursing
Instructor of Nursing, 1998, B.S.N., M.S.N. (UAB)

Hamilton, Denise
School of Health Professions
Department of Health Administration, Instructor (Health Services Administration): Health Care Finance

Hamilton, Harry
College of Arts and Sciences
Department of Sociology, Teaching Associate Professor of Sociology, 2005, B.A., M.A., Ph.D. (UAB)

Hamilton, Tracy P.
College of Arts and Sciences
Department of Chemistry, Associate Professor of Chemistry, 1991, B.S., M.S., Ph.D. (Arkansas)

Hammack, Glenn G.
School of Health Professions
Department of Health Informatics, O.D., M.S.H.I., Assistant Professor (Health Services Administration)

Hammond, Stephanie
School of Nursing
Instructor of Nursing, 2010, B.S.N. (Alabama), M.S.N. (UAB)

Hansen, John
School of Business
Department of Marketing, Industrial Distribution, and Economics, Assistant Professor of Marketing, 2009, B.S., M.B.A. (Troy), Ph.D. (Alabama)

Hardin, J. Michael
School of Health Professions
Department of Health Informatics, Ph.D., Credit Course Instructor (Health Services Administration)

Harper, Doreen
School of Nursing
Professor and Dean of Nursing, 2005, B.S.N. (Cornell), M.S.N. (Catholic), Ph.D. (Maryland)

Harris, Linda S.
Mervyn H. Sterne Library

Harris, Melissa L.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2016, B.S., Ph.D. (UC Davis), Somatic Stem Cells, Aging, Genetics and Genomics, Pigmentation Biology

Harris, Yolanda
School of Nursing
Instructor of Nursing, 2011, B.S.N. (Samford), M.S.N. (UAB)

Harrison, Joseph G.
College of Arts and Sciences
Department of Computer and Information Sciences, Assistant Professor of Computer and Information Sciences, 2011, B.S. (Bangladesh), M.S., Ph.D. (Illinois Urbana-Champaign)

Hataway, Connie
School of Nursing
Instructor of Nursing, 2008, B.A. (Brenau College), A.S.N. (Troy State), M.S.N. (Samford)

Hawk, James F.
College of Arts and Sciences
Department of Physics, Lecturer Emeritus in Physics, 1956, B.A. (Virginia), A.M. (Washington)

Heaton, Karen
School of Nursing
Assistant Professor of Nursing, 2008, BSN (UAB), MSN (Louisville) Ph.D. (Kentucky)

Hebard, Stephen P.
School of Education
Department of Human Studies, Assistant Professor of Counselor Education, 2015, B.S. (East Stroudsburg), M.S., Ph.D. (North Carolina-Greensboro)

Hendricks, Peter
School of Public Health
Department of Health Education and Health Promotion, Associate Professor, 2010, Ph.D. (South Florida), Tobacco use initiation, maintenance, and relapse, with a goal of developing novel and potentially more efficacious interventions for intractable smoking behavior

Hernandez, S. Robert
School of Health Professions
Department of Health Services Administration, Professor and Program Director, Doctoral Program in Administration-Health Services , 1972, DrPH (UNC - Chapel Hill), Strategic Planning for Health Care Organizations, Health Care Organization Theory, Human Resources Management

Herzig, Terrell W.
School of Health Professions
Department of Health Informatics, M.S.H.I., Credit Course Instructor (Health Services Administration)

Hess, Annette
School of Nursing
Assistant Professor of Nursing, 1984, B.S.N. (Auburn), M.S.N. (Troy State), Ph.D. (UAB)

Hettich, Dana L.
Mervyn H. Sterne Library

Hicks, Joan C.
School of Health Professions
Department of Health Informatics, M.S.H.I., Assistant Professor (Health Services Administration)

Hickson, Mark III
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 1987, B.S., M.A. (Auburn), M.A. (Mississippi State), Ph.D. (Southern Illinois); J.D. (Birmingham School of Law)

Hill, Kelly L.
School of Education
Department of Curriculum and Instruction, Temp Assistant Professor of English as a Second Language, 2015, B.S., M.A., Ed.S., Ph.D. (UAB)

Hilton, David
College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 2007, B.S., M.S. (Rochester), M.S. (Cornell), Ultrafast spectroscopy and ultrashort pulse generations; ultrafast terahertz spectroscopy; correlated electron materials; superconductivity; high-magnetic field spectroscopy; magnetic semiconductors; complex functional nanomaterials; materials in extreme environments

Hitchcock, Laurel
College of Arts and Sciences
Department of Social Work, Assistant Professor, 2013, B.A. (Wisconsin-Madison), M.P.H. (UAB), M.S.W. (Alabama), Ph.D. (Alabama)

Hitchcock, Wilbur A.
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering; Director of Construction Engineering Management Program, 2005, B.S. (U.S. Military Academy), M.E.C.E., Ph.D. (Texas AM), Engineering Online Education, Sustainable Structural Design Advances, Infrastructure Resilience

Hites, Lisle
School of Public Health
Department of Health Care Organization and Policy, Associate Professor, 2010, Ph.D. (Tulane), Structural modeling of predictors of on the job injuries suffered by law enforcement, firefighters, and corrections officers, and understanding the relationship between situation awareness and decision making quality in non-routine emergency response

Hodges, Ashley
School of Nursing
Assistant Professor of Nursing; Interim Assistant Dean for Graduate Clinical Programs, 2009, B.S.N. (Alabama), M.A. (Seton Hall), M.S.N., Ph.D. (UAB)

Hogewood, Connie M.
School of Nursing
Instructor of Nursing, 2014, B.G.S., B.S.N., M.S.N. (Samford)

Holloway, Stacey
College of Arts Sciences
Department of Art History, Assistant Professor of Art, 2009, B.F.A (Purdue), M.F.A. (Minnesota-Twin Cities), Sculpture, Ceramics, Engineering

Hood, Anthony
School of Business
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor, 2011, B.S., M.S. (UAB), Ph.D. (UAB)

Hopkins, Maria
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, Director, Undergraduate Studies of Psychology, 2007, B.S., M.A., Ph.D. (UAB)

Hosch, Ian E.
School of Engineering
Department of Civil Construction, and Environmental Engineering, Assistant Professor of Civil, Construction and Environmental Engineering, 2012, B.S.C.E., M.S.C.E, Ph.D. (UAB), Structural Engineering, Engineering Mechanics, Geotechnical Engineering

Howard, Jack Lee
School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2009, B.S., A.M., Ph.D. (University of Illinois at Urbana-Champaign)

Huang, Xuan
School of Business
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor of Quantitative Methods, 2010, B.E. (Tsinghua University, Beijing), M.Sc., Ph.D. (Massachusetts, Amherst)

Hunter, Gary R.
School of Education

Hurst-Wajszczuk, Kristine
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2007, B.M., M.M. (Westminster Choir-Rider), D.M.A. (Colorado-Boulder)

Hutchings, William (Bill)
College of Arts and Sciences
Department of English, Professor of English, 1981, A.B. (Transylvania), M.A., Ph.D. (Kentucky), Modern British Fiction, Modern Drama, World Literature

Hutchison, Jeanne S.
College of Arts and Sciences
Department of Mathematics, Assistant Professor of Mathematics, 1970, B.S. (Creighton), M.A., Ph.D. (California-Los Angeles)

Hutson, Susan
School of Health Professions
Department of Clinical and Diagnostic Sciences, Associate Professor Emeritus, Respiratory Therapy Program, 1976, M.A.E. (UAB)
Hyatt, Robert M.  
College of Arts and Sciences  
Department of Computer and Information Sciences, Associate Professor of Computer and Information Sciences, 1988, B.S., M.S. (Southern Mississippi), Ph.D. (UAB)

Hyde, Michael T.  
School of Nursing  
Instructor of Nursing, 2012, B.S.N., M.S.N. (Alabama)

Ibelema, Minabere  
College of Arts and Sciences  
Department of Communication Studies, Associate Professor of Communication Studies, 1995, B.A. (Wilberforce), M.A., Ph.D. (Ohio State)

Iddins, Brenda  
School of Nursing  
Instructor of Nursing, 2008, B.S.N., M.S.N., D.N.P. (UAB)

Iles, Karen E.  
School of Public Health  
Department of Environmental Health Science, Associate Professor, 2015, Ph.D. (Guelph), Research administration, especially conflict of interest regulations; cell-signaling responses to pulmonary injury focusing on pollutant-derived and bacterial insults; signaling mechanisms for endogenous antioxidants, such as glutathione, to decrease pulmonary injury; molecular nutrition and gene expression.

Irving, Howard L.  
College of Arts and Sciences  
Department of Music, Professor of Music, 1981, B.Mus. (Centenary), M.M., Ph.D. (Louisiana State)

Jablonksi, Rita S.  
School of Nursing  
Associate Professor of Nursing, 2012, B.S.N. (Holy Family), M.S.N. (La Salle), Ph.D. (Virginia)

Jack, Eric  
School of Business  
Department of Management, Information Systems and Quantitative Methods, Associate Professor of Management; Dean, Faculty Development and Research, 2001, B.S. (Georgia Institute of Technology), M.B.A. (Wright State), Ph.D. (Cincinnati)

Jannett, Thomas C.  
School of Engineering  
Department of Electrical and Computer Engineering, Professor Emeritus of Electrical and Computer Engineering, 1984, B.S.E., M.S.E. (UAB), Ph.D. (Auburn), Sensor Networks, Biomedical Instrumentation and Control Systems

Janowski, Gregg M.  
School of Engineering  
Department of Materials Science and Engineering, Professor of Materials Science and Engineering; Associate Provost for Assessment and Accreditation, 1990, B.S., M.S., Ph.D. (Michigan Technological), X-Ray Diffraction, Composite Materials, Physical Metallurgy, Structure-Processing-Property Relationships

Jennings, Matthew  
School of Nursing  
Instructor of Nursing, 2009, B.A. (Augusta State); M.Ed. (Troy State)

Jepkenboi, Grace  
School of Education  
Department of Curriculum and Instruction, Assistant Professor of Early Childhood and Elementary Education, 2008, B.Ed. (Egerton University, Kenya), M.A. (Moi University, Kenya), Ph.D. (UAB)

Jessee, Margaret Jay  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2013, B.A., M.A. (Tennessee), Ph.D. (Arizona), Gender Studies, Women's Literature, American Literature

Johnston, Allen  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Information Systems, Director of Information Systems Programs, 2007, B.S. (LSU), M.B.A., PhD. (Mississippi)

Johnstone, John K.  
College of Arts and Sciences  
Department of Computer and Information Sciences, Associate Professor and Undergraduate Program Director of Computer and Information Sciences; Associate Professor of Ophthalmology, 1994, B.S. (Saskatchewan-Canada), M.S., Ph.D. (Cornell)

Jolly, Pauline  
School of Public Health  
Department of Epidemiology, Professor, 1991, M.P.H., Ph.D. (Johns Hopkins), Infectious Disease Epidemiology, International Health and Global Studies.

Jones, Alison  
School of Nursing  
Assistant Professor, 2015, B.S.N., M.S.N., Certificate, Ph.D. (Kentucky)

Jones, Harold P.  
School of Health Professions  
Professor and Dean, School of Health Professions, 2001, Ph.D. (Duke)

Jones, Warren T.  
College of Arts and Sciences  
Department of Computer and Information Sciences, Professor Emeritus of Computer and Information Sciences, 1979, B.S.E.E. (Georgia Institute of Technology), M.S. (Georgia State), M.S., Ph.D. (Georgia Institute of Technology), P.E. (Kentucky)
Judd, Suzanne E.  
School of Public Health  
Department of Biostatistics, Assistant Dean for Undergraduate Education, Associate Professor, 2008, Ph.D. (Emory), Vitamin D, Longitudinal Cohort Studies, Data Management, Stroke, Dietary Patterns and Population Nutrition

Jukkala, Angela  
School of Nursing  
Associate Professor of Nursing, 2006, B.S.N. (Bemidji State), M.S., Ph.D. (Minnesota)

Jun, Ho-Wook  
School of Engineering  
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 2006, BS, MS (Hanyang University, South Korea), Ph.D. (Rice), Biomimetic nanotechnology, Biomaterials, Tissue engineering

Kain, Margaret M.  
Mervyn H. Sterne Library  
Mervyn H. Sterne Library, Senior Assistant Librarian; Electronic Resources Librarian; Cataloging Collection Management, Mervyn H Sterne Library, 2006, B.S. (Auburn-Montgomery), M.L.S. (Alabama)

Kamii, Constance  
School of Education  
Department of Curriculum and Instruction, Professor of Early Childhood Education, 1984, B.A. (Pomona College), M.A., Ph.D. (Michigan), Ed.D. (Wheelock College)

Kana, Rajesh K.  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology; Co-Director, Undergraduate Neuroscience Program , 2007, B.S. (Calicut), M.A. (Annamalai), Ph.D. (Indian Institute of Technology)

Kannappan, Ramaswamy  
School of Engineering  
Department of Biomedical Engineering, Assistant Professor of Biomedical Engineering, 2015, BPharm, MPharm (Tamilnadu DR. M.G.R. Medical University - India), Ph.D. (Niigata University - Japan), Aging cardiomyopathy, Cardiac stem cells

Karpeshina, Yulia  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics, 1995, M.S., Ph.D. (Saint Petersburg, Russia), Partial Differential Equations and Mathematics Physics

Kasman, Yakov  
College of Arts and Sciences  
Department of Music, Professor of Music; Artist in Residence, 2002, B.M. (Music College of Moscow Conservatory), M.M., D.M.A. (Moscow State Conservatory)

Kavouras, Ilias  
School of Public Health  
Department of Environmental Health Sciences, Associate Professor, 2015, Ph.D. (Crete, Greece), Air Pollution, Wildfires, Climate Change, Organic Aerosol, Asthma, Heart Disease

Kawai, Ryoichi  
College of Arts and Sciences  
Department of Physics, Associate Professor of Physics, 1991, B.S., M.S., Ph.D. (Waseda, Japan), Condensed-matter theory; biophysics theory; materials physics theory; computational physics; open quantum systems

Keitt, Andrew W.  
College of Arts and Sciences  
Department of History, Associate Professor of History, 1999, B.A. (Duke), M.A., Ph.D. (UC-Berkeley)

Keltner, Norman  
School of Nursing  
Professor of Nursing, 1990, B.S.N., M.S.N. (Fresno State), Ed.D. (San Francisco)

Kemp, Dustin W.  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2016, B.S. (Texas AM); M.S. (Florida Atlantic); Ph.D. (Georgia), Marine Ecology and Physiology, Global Climate Change

Kempf, Mirjam  
School of Nursing  
Associate Professor of Nursing, 2010, M.P.H., (UAB), Ph.D. (Institute for Medical Microbiology and Hygiene, Julius-Maximilians-Universitiat)

Kennedy, Bridgett H.  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2013, B.A., M.A., Ph.D. (UAB)

Kennedy, Karen  
School of Business  
Department of Marketing, Industrial Distribution and Economics, Associate Professor of Marketing and Industrial Distribution; Senior Associate Dean, Programs and Outreach, 2001, B.S. (Blue Mountain), M.S. (Florida State), M.B.A. (Georgia State), Ph.D. (South Florida)

Kennedy, Karen  
School of Health Professions  
Department of Administration Health Services, Associate Professor (Marketing), Cognitive Research, Diversity, Services Marketing, Organizational Culture, Interpersonal Trust Development, Qualitative Research Methods

Key, Susan  
School of Business  
Department of Management, Information Systems, and Quantitative Methods , Associate Professor of Management, 1995, B.A., J.D., M.B.A. (Illinois), Ph.D. (Pittsburgh)

Khrlampieva, Eugenia  
College of Arts and Sciences  
Department of Chemistry, Associate Professor of Chemistry, 2010, B.S. (ChelyabinskSt.), Ph.D. (Stevens Institute of Technology)

Kilgo, Jennifer L.  
School of Education  
Department of Curriculum and Instruction, Professor of Special Education, 1995, B.A. (Auburn), M.A. (UAB), Ed.D. (Alabama)
Kilgore, Meredith
School of Public Health
Department of Health Care Organization and Policy, Professor and Chair, 2002, Ph.D. (RAND Graduate School), Burden of disease associated with osteoporosis and related bone fractures and the effects of bone metastases on skeletal related events, an intervention to improve osteoporosis in the home health setting, the effectiveness of prophylactic enteric feeding tubes in patients undergoing treatment for head and neck cancer, and a study of the quality of primary care for patients diagnosed with cancer.

King, Jerry
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, Respiratory Therapy Program, 2008, M.S. (UAB)

King, Matthew
College of Arts and Sciences
Department of Philosophy, Assistant Professor of Philosophy, 2014, B.A. (University of Virginia), M.A., Ph.D. (University of Maryland)

King, Pamela Sterne
College of Arts and Sciences
Department of History, Assistant Professor of History, 2004, B.A. (Samford), M.A. (UAB)

Kirby, Jason
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Associate Professor of Civil, Construction and Environmental Engineering; Director, Sustainable Smart Cities Program, 2005, B.S. (Auburn), M.S., Ph.D. (Alabama), Environmental Engineering, Water Resources, Hydraulics

Kirkland, Lynn
School of Education

Kittredge, Brian
College of Arts and Sciences
Department of Music, Associate Professor of Music; Director of Choral Activities, 2010, B.M. (Mansfield), M.M. (Eastman), D.M.A. (LSU)

Knight, Candace
School of Nursing
Instructor of Nursing, 2012, B.S.N. (UAB)

Knight, David C.
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology; Co-Director, Undergraduate Neuroscience Program, 2007, B.S. (Truman State), M.S., Ph.D. (Wisconsin-Milwaukee)

Knowles, Ian W.
College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1979, B.Sc. (Adelaide), M.Sc., Ph.D. (Flinders-South Australia), Ordinary and Partial Differential Equations, Numerical Analysis

Koomullil, Roy P.
School of Engineering
Department of Mechanical Engineering, Associate Professor of Mechanical Engineering, 2002, B.S. (Mahatma Gandhi University, India), M.S. (Indian Institute of Technology, India), Ph.D. (Mississippi State), High Performance Computing; Six Degrees of Freedom Simulation; Biomedical Flow Modeling

Kornegay, Randall W.
School of Business
Department of Management, Information Systems, and Quantitative Methods, Instructor of Business Communication, 2006, B.A., M.A. (UAB)

Koskinen, Karla
College of Arts Science
Department of Theatre, Professor of Theater, 2007, B.A. (Marquette), M.F.A. (Illinois State)

Kranz, Clare
School of Nursing
Instructor of Nursing, 2015, B.S.N., M.S.N. (UAB)

Kravchuk, Elena
College of Arts and Sciences
Department of Mathematics, Instructor of Mathematics, 2002, M.S. (Donetsk State – Ukraine), Ph.D. (NASU, Donetsk – Ukraine)

Krueger-Hadfield, Stacy A.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2016, B.S., M.S. (California State - Northridge); Ph.D. (Université de Pierre et Marie Curie Sorbonne Universités); Ph.D. (Pontificia Universidad Católica de Chile), Evolutionary Ecology, Molecular Ecology, Phycology

Kurata, Marilyn J.
College of Arts and Sciences

Kyle, Chris
College of Arts and Sciences
Department of Anthropology, Associate Professor of Anthropology, 2000, B.A. (Fl. Lewis College), M.A., M.Phil., Ph.D. (Columbia)

LaChenaye, Jenna
School of Education
Department of Human Studies, Assistant Professor of Educational Psychology and Research, 2014, B.A. (Louisiana), B.S., Ed.S., Ph.D. (Louisiana State), M.S. (Florida State)

Lake, Lauren
College of Arts and Sciences
Department of Art Art History, Associate Professor of Art; Chair, 2013, BA (University of Florida), M.F.A. (Madison-Wisconsin), Drawing

Laken, Debra E.
School of Health Professions
Department of Clinical and Diagnostic Sciences, Associate Professor, Respiratory Therapy Program, 1999, M.A.E. (UAB)

Lancaster, Winston C.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2014, B.S. (Auburn); M.S. (LSU), Ph.D. (North Carolina), Human Anatomy, Comparative Anatomy, Biosonar in Bats and Whales

Langston, Summer
School of Nursing
Assistant Professor of Nursing; Co-Coordinator of AMNP Program, 2009, B.S.N. (Southern Mississippi), M.S.N., D.N.P. (UAB)
Lanzi, Robin Gaines  
School of Public Health  
Department of Health Education and Health Promotion, Associate Professor, 2009, M.P.H., Ph.D. (UAB), Adolescent parenting, child maltreatment, maternal depression, early intervention programs, developmental outcomes, research methods, ethical issues, and social policy

Lariscy, Nichole  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2005, B.A. (Georgia College and State University), M.A. (Northwestern), Ph.D. (Wisconsin-Milwaukee)

Lawson, Christopher M.  
College of Arts and Sciences  
Department of Physics, Professor of Physics, 1993, B.S. (Oklahoma State), M.S. (Colorado), Ph.D. (Oklahoma State), Nonlinear optics; fiber optics; optical sensors; optical coherence imaging tomography; laser spectroscopy

Lee, Loretta  
School of Nursing  
Assistant Professor of Nursing, 2002, B.S.N. (Alabama), M.S.N., Ph.D. (UAB)

Lee, Yookyong  
College of Arts and Sciences  
Department of Social Work, Associate Professor and BSW Program Director, 2013, B.A., M.S.W. (Michigan), M.A., Ph.D. (Columbia)

Leece, Ryan  
School of Business  
Department of Accounting and Finance, Assistant Professor, BS (LSU); MSIS, PhD (Mississippi State)

Lemons, Jack E.  
School of Engineering  
Department of Biomedical Engineering, Professor of Biomaterials; Professor of Surgery; Division Director, Orthopaedic Laboratory Research; Professor of Biomedical and Materials Engineering, 1968, Ph.D. (Florida), Biocompatibility profiles of surgical implant devices with an emphasis on the role(s) of element and/or force transfers along biomaterial-to-tissue interfaces

Levine, Timothy R.  
College of Arts and Sciences  
Department of Communication Studies, Distinguished Professor and Chair, 2015, B.A. (Northwestern); M.A. (West Virginia); Ph.D. (Michigan State)

Levitan, Emily B.  
School of Public Health  
Department of Epidemiology, Associate Professor, 2009, Sc.D. (Harvard), Comparative Effectiveness Research, Cardiovascular Epidemiology, Epidemiologic Methods

Lewis, Angela K.  
College of Arts and Sciences  
Department of Government, Associate Professor of Government, 2003, B.A. (Alabama), M.P.A., Ph.D., (Tennessee)

Lewis, Roger T.  
College of Arts and Sciences  
Department of Mathematics, Professor Emeritus of Mathematics, 1975, A.B. (Tennessee), M.S. (Florida Institute of Technology), Ph.D. (Tennessee), Differential Equations, Spectral Theory

Li, JunFang  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 2008, B.A. (Wuhan Univ., China), Ph.D. (Oklahoma), Geometric Analysis and Non-linear Partial Differential Equations

Liber, George O.  
College of Arts and Sciences  
Department of History, Professor of History, 1987, B.A. (Indiana), M.A. (Harvard), Ph.D. (Columbia)

Lim, Hyeyoung  
College of Arts and Sciences  
Department of Justice Sciences, Assistant Professor and Honors Program Director, 2013, Ph.D. (Sam Houston State), Police Use of Force, Police Decision Making, Quantitative Methods, Program and Policy Evaluation

Lingasubramanian, Karthikeyan  
College of Arts and Sciences  
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, Ph.D. (South Florida), Hardware Security, Reliability and Low Power Design for Digital VLSI Circuits and Systems

Linville, Jason G.  
College of Arts and Sciences  
Department of Justice Sciences, Teaching Assistant Professor, 2004, B.S. (Ohio), M.S., Ph.D. (UAB), Forensic Biology, Entomology, Forensic Science Education

Littlefield, David L.  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering; Chair of Mechanical Engineering, 2005, B.S., M.S, Ph.D. (Georgia Tech), Computational Mechanics; Impact Mechanics and Shock Physics; Weapons Effects

Liu, Xiaoguang  
College of Arts and Sciences  
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 2016, Chemical Engineering (Shandong University, M.S. in Biochemical Engineering (Tianjin University), Ph.D. in Chemical and Biomolecular Engineering (The Ohio State University), Cellular therapy, antibody, anti-cancer, heart failure treatment, industrial biopharmaceutical and biotechnology, metabolic cell-process engineering, bioreactor, cell culture

Loder-Jackson, Tondra  
School of Education  
Department of Human Studies, Associate Professor of Foundations of Education, 2003, B.S. (Birmingham-Southern), M.P.P. (Chicago), Ph.D. (Northwestern)

Long, Jennifer M.  
Mervyn H. Sterne Library
Mervyn H. Sterne Library, Senior Assistant Librarian, Reference Services, Mervyn H. Sterne Library, 1997, B. S. (Bowling Green), M.L.S. (Kent State)

Lucius, Aaron L.  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry, 2006, B.S. (Oregon State), Ph.D. (Washington U.)

Lund, Donald  
School of Business  
Department of Marketing, Industrial Distribution, and Economics, Assistant Professor of Marketing, 2009, B.S., M.B.A. (Missouri State) Ph.D. (Missouri, Columbia)

Ma, Ling  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Instructor of Chinese, 2013, B.A. (Jinan University, China), B.S. (UAB), Chinese Language Training Program (Troy; Sun Yat-sen University, China)

Mack, June  
College of Arts and Sciences  
Department of Communication Studies, Associate Professor of Theatre, 2001, B.A. (Hollins), M.F.A. (Florida State), M.Ed. (Harvard)

Madden-Lunsford, Kerry  
College of Arts and Sciences  
Department of English, Associate Professor of English; Director of Creative Writing, 2009, B.A., M.F.A. (Tennessee)

Maddox, John  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Assistant Professor of Foreign Languages, 2014, B.A., B.S.Ed., M.A. (Georgia), Ph.D. (Vanderbilt)

Mahapatra, Majoj K.  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science Engineering, 2015, BTech (University of Calcutta - India), MTech (IT-BHU - India), Ph.D. (Virginia Tech), Ceramics and glasses for advanced energy systems, Structural ceramics, Solid waste immobilization, Chemistry-processing-structure-property relationship, Electrochemistry, Materials degradation

Major, Melba  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2014, B.A. (Union), M.A., (UAB), M.F.A. (Antioch)

March, Joe L.  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry; Associate Director, Science and Technology Honors Program, 1999, B.S., M.S. (Southwestern Texas), Ph.D. (Texas)

Marion, Ken R.  
College of Arts and Sciences  
Department of Biology, Professor Emeritus of Biology, 1971, B.A., Ph.D. (Washington University, St. Louis), Animal Natural History and Aquatic Environmental Biology

Marstrander, Jon  
School of Engineering  
Department of Electrical and Computer Engineering, Instructor of Electrical and Computer Engineering, 2005, B.S.E.E., M.S.E.E. (UAB), P.E. (Alabama), Signal and Image Processing, Embedded Systems, and Field Programmable Gate Arrays

Martin, Heather  
Mervyn H. Sterne Library  

Martyshkin, Dmitri V.  
College of Arts and Sciences  
Department of Physics, Research Assistant Professor, 2010, B.S. (Novosibirsk State University, Russia), M.S., Ph.D. (UAB), Development of spectroscopic characterization of doped laser materials; solid-state lasers; laser spectroscopy for molecular-sensing applications

Mayer, John C.  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics; Associate Chair, Department of Mathematics, 1984, B.A. (Randolph-Macon), M.A., Ph.D. (Florida), Topology, Continuum Theory, Dynamical Systems, Mathematics Education

Mayoral-Hernández, Roberto  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Associate Professor of Spanish, 2008, Licenciatura (Universidad Complutense de Madrid), Diploma de Estudios Avanzados (Universidad Autónoma de Madrid), Ph.D. (Southern California)

McCain, Kevin  
College of Arts and Sciences  
Department of Philosophy, Assistant Professor of Philosophy, 2012, B.A., B.S. (Southeast Missouri State University), M.A. (University of Missouri-Columbia), Ph.D. (University of Rochester, New York)

McCarty, Shannon  
School of Education  
Department of Human Studies, Assistant Professor of Counselor Education, 2014, B.A. (Pennsylvania State), M.A. (Central Florida), Ph.D. (Florida)

McClintock, James B.  
College of Arts and Sciences  
Department of Biology, Endowed University Professor of Polar and Marine Biology, 1987, B.S. (California), M.S., Ph.D. (South Florida), Marine Invertebrate Chemical Ecology, Climate Change Biology

McComiskey, Bruce  
College of Arts and Sciences  
Department of English, Professor of English, 1998, B.A., M.A. (Illinois State), Ph.D. (Purdue), Rhetorical and Composition
McCormick, Lisa  
School of Public Health  
Department of Health Care Organization and Policy, Associate Professor; Director of the Office of Public Health Practice, Dean’s Office, 2010, Dr.P.H. (UAB), Public health preparedness and response, the organization of response systems, and assessing interorganizational networks as a dimension of response capacity and community resiliency

McCormack, Steven  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Washington); A.M. (Illinois at Urbana-Champaign)

McCutcheon, Martin J.  
School of Engineering  
Department of Biomedical Engineering, Professor Emeritus of Biomedical Engineering, 1967, B.S.E.E., M.S.E.E., Ph.D. (Arkansas), P.E. (Alabama)

McDaniel, David R.  
School of Engineering  
Department of Mechanical Engineering, Research Associate Professor of Mechanical Engineering, 2008, B.S. (US Air Force Academy), M.S. (George Washington University), Ph.D. (Colorado, Colorado Springs), High Performance Computing; Computational Fluid Dynamics; Multidisciplinary Air Vehicle Simulation

McFarland, Carl E. Jr.  
College of Arts and Sciences  
Department of Psychology, Professor Emeritus (Psychology), Behavioral Neuroscience, 1975, B.A., M.S., Ph.D. (Kansas)

McGrath, Shelly A.  
College of Arts and Sciences  
Department of Justice Sciences, Assistant Professor of Justice Sciences, 2008, B.S. (St. Mary’s), M.S. (Ball State), Ph.D. (Southern Illinois), Quantitative Methods, Crime Mapping, Violence

McGuiness, Teena  
School of Nursing  
Professor of Nursing; Interim Chair Community Health, Outcomes and Systems, 2007, B.S.N. (Old Dominion), M.S. (Virginia Commonwealth), Ph.D. (Pittsburgh)

McKnight, Andrew  
School of Education  
Department of Human Studies, Associate Professor of Foundations of Education, 2003, B.A. (Virginia Commonwealth), M.A.Ed. (William Mary), Ph.D. (North Carolina at Greensboro)

Mclain, Rhonda  
School of Nursing  
Assistant Professor of Nursing; Assistant Dean for Undergraduate and Prelicensure Programs, 2005, B.S.N. (College of Mt. St. Joseph), M.N. (Emory), D.S.N. (UAB)

McLernon, Dennis J.  
College of Arts Science  
Department of Theatre, Professor of Theatre, Head of Performance, 2000, B.A. (Allentown), M.Ed. (Auburn-Montgomery), M.F.A. (Alabama-Alabama Shakespeare Festival)

McNulty, John E.  
College of Arts and Sciences  
Department of Government, Assistant Professor of Government, 2014, B.S. (Pennsylvania); M.A., Ph.D. (California at Berkeley)

McPherson, Heather A.  
College of Arts and Sciences  
Department of Art History, Professor of Art History, 1982, B.A. (Oregon), M.A. (Sorbonne), Ph.D. (Washington), Modern European Art (18th -20th Century), focusing on portraiture

Meadows, Lee  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 1993, B.A. (Mississippi), M.A. (Texas), Ph.D. (Georgia)

Meakin, Robert  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2007, B.S. (Brigham Young), M.S., Ph.D. (Stanford), Software Engineering for Multi-Disciplinary, Physics-Based Simulation Capability Development; Computational Geometry; Aerodynamics of Multiple-Bodies in Proximate Flight

Mehta, Tapan  
School of Health Professions  
Department of Physical Therapy, Assistant Professor, 2013, PhD (UAB)

Menear, Kristi S.  
School of Education  
Department of Human Studies, Professor of Kinesiology, 2001, B.A. (Louisiana), M.A., Ph.D. (New Orleans)

Meneses, Karen  
School of Nursing  
Professor of Nursing; Associate Dean of Research, 2007, B.S. (Georgetown), M.S., Ph.D. (Boston College)

Merritt, Stephen  
College of Arts and Sciences  
Department of Anthropology, Assistant Professor of Anthropology, 2013, B.S., M.A., Ph.D. (Rutgers)

Mersmann, James  
College of Arts and Sciences  
Department of English, Associate Professor of English, Emeritus, 1973, B.A. (Missouri-Kansas City), M.A., Ph.D. (Kansas)

Messina, Frank M.  
School of Business  
Department of Accounting and Finance, Professor of Accounting, 1993, B.S. (Livingston), M.Acc., Ph.D. (Mississippi State), C.P.A.

Metcalf, Sevante K.  
School of Business  
Department of Accounting and Finance, Instructor and Internship Coordinator, 2012, B.A., M.B.A. (UAB)

Michael III, Max  
School of Public Health  
Department of Health Care Organization and Policy, Professor and Dean, 2001, M.D. (Harvard)

Millard, Andre J.  
College of Arts and Sciences  
Department of History, Professor of History, 1989, B.A. (Nottingham-England), M.A. (Mississippi), Ph.D. (Emory)

Miller, Brianna  
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2004, M.S. (UAB), Transfusion Medicine

**Miller, Kenneth**  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Instructor of Marketing and Industrial Distribution; Executive Director, MBA Programs, 2008, B.S. (Auburn), M.B.A. (Golden Gate), Ed.D. (Vanderbilt)

**Miller, Stephen J.**  
College of Arts and Sciences  
Department of History, Associate Professor of History, 2001, B.A. (Wisconsin-Madison), M.A., Ph.D., (UCLA)

**Milligan, Gary**  
School of Nursing  
Instructor of Nursing; Mobility Program Coordinator, 2008, B.S.N. (Birmingham-Southern), M.S.N. (Jacksonville State), M.S.H.A., D.N.P. (UAB)

**Milner, Adrienne**  
College of Arts and Sciences  
Department of Sociology, Teaching Assistant Professor of Sociology, 2012, B.A. (Emory), M.A., Ph.D. (Miami)

**Miltner, Rebecca S.**  
School of Nursing  
Assistant Professor of Nursing, 2010, B.S.N. (Georgia), M.S.N. (Wisconsin), Ph.D. (Maryland)

**Minnix, Christopher**  
College of Arts and Sciences  
Department of English, Assistant Professor of English; Director, Freshman Composition, 2012, B.S. (Grace College), M.A. (Radford), Ph.D. (Tennessee), Rhetorical Theory, Transnational Rhetoric, Compositions Studies, Writing Program Administration

**Mirman, Daniel**  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, 2016, B.A. (Cornell); Ph.D. (Carnegie Mellon)

**Mirman, Jessica H.**  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, 2016, B.A. (Delaware); M.A., Ph.D. (Fordham)

**Mirov, Sergey B.**  
College of Arts and Sciences  
Department of Physics, University Professor, 1993, Master (Moscow Power Engineering Institute), Ph.D. (USSR Academy of Sciences), Experimental quantum electronics, solid-state lasers, laser spectroscopy

**Mitchell, Dana**  
School of Nursing  
Instructor of Nursing, 2009, B.S.N. (Alabama); M.S.N., D.N.P. (UAB)

**Moak, Stacy C.**  
College of Arts and Sciences  
Department of Social Work, Professor, 2016, B.S. (Southern Mississippi), J.D. (Loyola), Ph.D. (New Orleans)

**Mohr, Robert D.**  
College of Arts and Sciences  
Department of Physics, Instructor of Physics, 2003, B.S. (North Georgia), M.S. (Clemson), Ph.D. (Alabama), Computational applications to theoretical astrophysical problems

**Moneyham, Linda**  
School of Nursing  
Professor of Nursing; Senior Associate Dean for Academic Affairs, 2007, B.S.N. (Berea College), M.S.N. (Kentucky), D.S.N. (Indiana)

**Monroe, Charles A.**  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2012, B.S. (Penn State), M.S., Ph.D. (Iowa), Metals Casting, Design for Manufacture, Process Modeling

**Monti, Denise**  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2013, B.S. (Cornell), M.P.H., Ph.D. (UAB), Phage Biology, STEM Teaching and Learning

**Moore, Hassan**  
School of Engineering  
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering, 2007, B.S. (Dillard), M.S. (Xavier), Ph.D. (Howard), Engineering Mathematics; Engineering Education; Non-Coaxial LIDAR Systems

**Moore, John K.**  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Associate Professor of Spanish, 2003, B.A. (University of the South), M.A.T. (Middle Tennessee State), Ph.D. (North Carolina-Chapel Hill)

**Moradi, Lee**  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering; Director of Engineering and Innovative Technology Development, 1996, B.S., M.S., Ph.D. (UAB), Vibrations; Systems Engineering; Finite Elements Method

**Morgan, Kathryn**  
College of Arts and Sciences  
Department of Justice Sciences, Associate Professor of Justice Sciences; Director of African American Studies, 1991, B.S., M.A. (Texas Woman's), Ph.D. (Florida State), Corrections, Criminological Theory, Minorities, Violence

**Morris, Jeffrey J.**  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2015, B.S. (Kennesaw State); Ph.D. (Tennessee-Knoxville), Experimental Evolution and Phytoplankton Physiology

**Morrison, Kelly**  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Illinois at Urbana-Champaign); M.A., Ph.D. (Michigan State)

**Morrison, Shannon**  
School of Nursing  
Assistant Professor of Nursing, 2010, B.S.N., M.S.N. (Jacksonville State), Ph.D. (UAB)
Morrow, David R.  
College of Arts and Sciences  
Department of Philosophy, Assistant Professor of Philosophy, 2010, B.A. (John Hopkins); Ph.D. (CUNY)

Mosley, Michael  
School of Nursing  
Instructor of Nursing, 2015, B.S.N. (Jacksonville State); M.S.N. (UAB)

Moss, Jacqueline  
School of Nursing  
Professor of Nursing; Chair, Adult/Acute Health Chronic Care Foundations, 2011, B.S.N., M.S.N (Georgia State) Ph.D. (Maryland)

Mosteller, Paul W.  
College of Arts and Sciences  
Department of Music, Associate Professor of Music, 1988, B.S. (West Chester), M.M. (Juilliard), D.M.A. (Iowa)

Motley, Carol  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Marketing, 2011, B.S. (Southern Illinois), M.B.A. (Washington), Ph.D. (Georgia)

Mowling, Claire M.  
School of Education  
Department of Human Studies, Assistant Professor of Kinesiology, 2015, B.S., M.S. (Troy State), Ed.D. (Auburn)

Mrug, Sylvie  
College of Arts and Sciences  
Department of Psychology, Professor of Psychology, 2005, B.S., M.S., Ph.D. (Purdue)

Muccio, Donald D.  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry, 1982, B.S., Ph.D. (Ohio State)

Mukhtar, Karolina  
College of Arts and Sciences  
Department of Biology, Associate Professor of Biology, 2010, M.S. (Szczecin), Ph.d. (Cologne), Plant Molecular Biology

Mukhtar, Shahid  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2010, B.Sc., M.Sc. (Faisalabad), Ph.D. (Cologne), Genetics, Molecular Biology, Functional Genomics, and Bioinformatics, and Network Biology

Mulvihill, Beverly  
School of Public Health  
Department of Health Care Organization and Policy, Associate Professor, 1992, M.Ed. (North Carolina - Chapel Hill) Ph.D. (Texas Women's), Child Development, Children with and At-Risk for Disabilities, Early Intervention, Child Care Issues

Mumford, Gregory  
College of Arts and Sciences  
Department of Anthropology, Associate Professor of Anthropology, 2007, B.S., M.A., Ph.D. (Toronto)

Munchus III, George M.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 1976, B.S., M.B.A., Ph.D. (North Texas State), A.P.S.

Murchpee, Allen J.  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Instructor of Civil, Construction, and Environmental Engineering, 2014, B.Sc. (Southern Polytechnic State University), MEng (UAB), Engineering Online Education, Construction Project Risk Management

Murphy, Danny L.  
School of Nursing  
Instructor of Nursing, 1988, B.S. (Wayland Baptist); M.E.N.G. (UAB)

Murray, Pamela S.  
College of Arts and Sciences  
Department of History, Professor of History, 1990, B.A. (New Mexico State), M.A., Ph.D. (Tulane)

Musa, Phillip F.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Management, 2000, B.S., M.S., M.B.A. (Texas Tech)

Nabors, Eddie  
School of Business  
Department of Accounting and Finance, Instructor of Accounting, 2011, B.S. (Alabama), M.Acc. (University of West Florida)

Nakhman, Arie  
School of Engineering  
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, B.Sc., M.Sc., Ph.D (Technion - Israel Institute of Technology), Computer Vision, Visual Tracking, Biomedical Image Analysis, Systems and Control

Navarette, Liliana  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2008, M.S. (Alabama), Instrumentation, Minority Health Disparities, Physics Education

Navasca, Carmeliza  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 2012, B.A. (California - Berkeley), Ph.D. (California - Davis), Multilinear Algebra, Control Theory, Optimization, Data Mining

Neilson, Michael J.  
College of Arts and Sciences  
Department of Chemistry, Professor Emeritus of Geology, 1975, B.S., Ph.D. (New England, Australia)

Neiva, Eduardo  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 1993, B.A. (Catholic University of Rio de Janeiro), M.A., Ph.D. (Federal University of Rio de Janeiro)

Nelson III, Leonard "Jack"  
School of Public Health  
Department of Health Care Organization and Policy, Adjunct Professor, 1987, JD (Gonzaga); LLM (Yale), Health care law; ethics

<td></td>
</tr>
</tbody>
</table>
Patterson, Heather
School of Nursing
Instructor of Nursing, 2012, B.S.N. (UAB), PharmD (Auburn)

Patterson, James C.
College of Arts and Sciences
Department of Chemistry, Assistant Professor of Chemistry, 2007, B.A. (Carleton), Ph.D. (California – Santa Barbara)

Paustian, Pamela E.
School of Health Professions
Department of Health Services Administration, Assistant Professor and Program Director, Health Care Management Program, 2001, PhD (UAB), Leadership Resilience, Managerial, and Operational Practices in Healthcare, Technology Driven Approaches to Education

Pellathy, Elisabeth
Colleg of Arts and Sciences

Pence, Gregory E.
College of Arts and Sciences
Department of Philosophy, Chair Professor of Philosophy, 1976, B.A. (William and Mary), M.A., Ph.D. (New York)

Perakis, Ilias
College of Arts and Sciences
Department of Physics, Professor and Chair, 2015, BS (National Technical - Athens, Greece); MS, PhD (Illinois, Urbana-Champaign)

Perkins Waters, Martinek
School of Public Health
Department of Health Education and Health Promotion, Adjunct Assistant Professor, Psychology

Perry, Tonya
School of Education
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 2002, B.A. (North Carolina), M.A., Ph.D. (UAB), NBPTS

Perumean-Chaney, Suzanne
College of Arts and Sciences
Department of Justice Sciences, Assistant Professor of Justice Sciences, 2004, B.S., M.S. (Nevada), Ph.D. (SUNY Albany), Quantitative Methods, Violence, Program Evaluation

Peters, Gary B.
School of Education
Department of Human Studies, Associate Professor, 2010, B.A., M.A. (Governors State), Ed.S., Ph.D. (UAB), Leadership; Organizational Theory

Peters, Robert W.
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering, 2001, B.S. (Northwestern), M.S., Ph.D. (Iowa State), P.E. (Indiana and Illinois), Environmental Engineering, Water and Wastewater Treatment, Hazardous Waste Treatment

Pevsner, Wanda D.
School of Education
Department of Curriculum and Instruction, Assistant Professor of Special Education, 2004, B.S. (Judson), M.A., Ph.D. (UAB)

Phillips, Jennan
School of Nursing
Assistant Professor of Nursing, 2008, B.S.N. (Samford), M.S.N., D.S.N. (UAB)

Phillips, Scott L.
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2008, B.A. (Brigham Young), M.A. (Central Florida), Ph.D. (Iowa)

Pilkerton, Patty A.
Mervyn H. Sterne Library

Pillay, Selvum
School of Engineering
Department of Materials Science and Engineering, Associate Professor and Chair of Materials Science and Engineering, 2007, Bach (M L Suttan Technikon), M.S.M.E. (Florida AM), Ph.D. (UAB), Polymer Matrix Composites, Manufacturing and Processing, Design for Manufacture; R D to Commercialization

Pirkelbauer, Peter
College of Arts and Sciences
Department of Computer and Information Sciences, Assistant Professor of Computer and Information Sciences, 2012, Dipl.-Ing. (Linz, Austria), MBA, Ph.D. (Texas AM University), Compilers, Runtime Systems, High Performance Computing, Non-Blocking Software Design

Plaisance, Eric
School of Education
Department of Human Studies, Assistant Professor of Kinesiology, 2013, B.S. (Nicholls State), M.S. (United States Sports Academy), Ph.D. (Auburn)

Pollard, Andrew
School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1996, B.S.E., M.S.E., Ph.D. (Duke), Cardiac electrophysiology, Computer simulations and Modeling of electrical signals of the heart

Pollio, David
College of Arts and Sciences
Department of Social Work, Distinguished Professor and Chair, 2014, B.A., M.S.W. (Virginia), Ph.D. (Michigan)

Polson, Shannon
School of Nursing
Instructor of Nursing, 2010, B.A. (West Georgia); M.S.N. (UAB)

Ponder, Amy
School of Nursing
Instructor of Nursing, 2009, B.S.N. (UAB), M.S.N. (Samford)

Ponder, Jennifer
School of Education
Department of Curriculum and Instruction, Associate Professor of Elementary Education, 2015, B.S., M.A. (UAB), Ph.D. (Indiana)
Powell, Larry
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 1998, B.A., M.A. (Auburn), Ph.D. (Florida)

Powell, Mickie L.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2016, B.S., M.S., Ph.D. (UAB), Invertebrate Physiology

Powers, Thomas L.
School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 1985, B.S., M.B.A. (Eastern Michigan), Ph.D. (Michigan State)

Prado, Josephine
School of Education
Department of Curriculum and Instruction, Assistant Professor of English as a Second Language, 2013, B.A. (Agnes Scott College); M.A., Ph.D. (Alabama)

Prather-Kinsey, Jenice
School of Business
Department of Accounting and Finance, Professor of Accounting; Chair, Department of Accounting and Finance, 2001, B.S. (Lindenwood), M.S. (Illinois), PhD. (Alabama), C.P.A.

Preskitt, Julie
School of Public Health
Department of Health Care Organizaion and Policy, Assistant Professor, 2010, M.S.O.T., M.P.H. (UAB), Ph.D. (Auburn), Children with special health care needs, maternal and child health policy, disability policy, and underinsurance/adequacy of insurance

Price, Marjorie
College of Arts and Sciences
Department of Philosophy, Associate Professor of Philosophy, 1977, A.B. (Barnard), M.A., Ph.D. (New York)

Price, William
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2006, B.M.E. (UNA), M.M., D.M.A. (LSU)

Pryor, Erica
School of Nursing
Associate Professor of Nursing, 2000, B.S.N. (UAH), M.S.N. (UAB), Ph.D. (Emory)

Puchta, Tami
College of Arts and Sciences
Department of Mathematics, Instructor, 2015, Ed.S. (UAB), Math Education

Qin, Gangjian
School of Engineering
Department of Biomedical Engineering, Professor of Medicine and Biomedical Engineering; Director of Molecular Cardiology Program, 1986, MD/MS (Tongji Medical University, China)

Quinlan, Kieran
College of Arts and Sciences
Department of English, Professor of English, 1988, B.A., M.A. (Oxford), M.A., Ph.D. (Vanderbilt), American Literature, Literature of the American South

Quintana, Jose B.
School of Health Professions
Department of Health Services Administration, Associate Professor, 1989, PhD, Outcomes Management and Process Improvement, Quality

Randich, Alan
College of Arts and Sciences
Department of Psychology, Professor Emeritus (Psychology); Behavioral Neuroscience Doctoral Program; Professor of Psychology, 1991, B.A., M.S. (Syracuse), Ph.D. (Dalhousie)

Raut, Samiksha
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2012, B.S., M.S. (Nagpur), Ph.D. (UAB), General Biology, Microbiology, and STEM Education

Redden, David T.
School of Public Health
Department of Biostatistics, Professor and Chair of Biostatistics, 2001, Ph.D. (Alabama), Regression of Diagnostics, Admixture, Association Studies, Group Randomized Trials

Reilly, Kevin D.
College of Arts and Sciences
Department of Computer and Information Sciences, Professor Emeritus of Computer and Information Sciences, 1970, B.S. (Creighton), M.S. (Nebraska), Ph.D. (University of Chicago)

Reynolds, Jeff W.
College of Arts and Sciences
Department of Music, Associate Professor of Music, 1998, B.M. (Samford), M.M. (Southwestern Baptist Theological Seminary), D.M.A. (Illinois)

Reynolds, Robert C.
College of Arts and Sciences
Department of Chemistry, Research Professor of Chemistry, 2012, B.S. (University of Virginia), Ph.D. (Duke)
Rice, Marti
School of Nursing
Professor of Nursing, 1997, B.S.N. (Creighton), M.S.N. (Medical College of Georgia), Ph.D. (Georgia State)

Richmond, Virginia
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 2006, B.A. (West Virginia Institute of Technology), M.A. (West Virginia), Ph.D. (Nebraska)

Riddle, Nicole C.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2012, B.S. (Missouri), Ph.D. (Washington University in St. Louis), Epigenetics and Chromatin Structure

Rieger, Sonja O.
College of Arts and Sciences
Department of Art Art History, Professor of Art, 1979, B.A. (Massachusetts), M.F.A. (Rutgers), Photography, Fine Art Digital Printing, Alternative Process, Perception Space and Installation, WPA Photographers in Alabama, children of the Klan, the Psychology of Adoption

Rinker, Erika H.
College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of German, 2008, B.A. (Wake Forest), M.A., Ph.D. (Washington in St. Louis)

Rivera, C. Julio
School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Information Systems, 1988, B.S., M.S. (Texas AM), M.B.A. (Southern Mississippi), Ph.D. (Mississippi State)

Roberts, Steve
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2007, B.M. (Oberlin), M.M., D.M.A. (Illinois)

Robicheaux, Robert A.
School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 2004, B.S., M.B.A., Ph.D. (Louisiana State University)

Robinson, Cheryl
School of Nursing
Associate Professor of Nursing, 2011, B.S.N. (Alabama), M.S.N. (Colorado), D.N.S. (LSU)

Robinson, Robert R.
College of Arts and Sciences
Department of Government, Assistant Professor of Government, 2006, B.A. (Rhodes), M.A., PhD. (Wisconsin-Madison)

Roche, Cathy C.
School of Nursing
Associate Professor, 2011, B.S.N. (Alabama); M.S.N. (Colorado); D.N.S. (LSU)

Rodriguez, Christina M.
College of Arts and Sciences

Department of Psychology, Associate Professor of Psychology, 2013, B.S. (Miami); M.S., Ph.D. (Florida)

Rogers, Jack M.
School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1994, B.S., M.S., Ph.D. (California-San Diego), Cardiac electrophysiology, Computer simulations, Signal analysis of cardiac arrhythmias

Ross, Douglas H.
School of Engineering
Department of Mechanical Engineering, Assistant Professor of Mechanical Engineering, 2008, B.S. (Illinois), M.S., Ph.D. (UAB), Computer Aided Design; Undergraduate Education; Machine Design

Roussel, Linda
School of Nursing
Professor of Nursing, DNP Program Coordinator, 2013, B.S.N. (Williams Cary), M.S.N. (Southern Mississippi), Ph.D. (UAB)

Roy, Jane
School of Education
Department of Human Studies , Associate Professor of Kinesiology, 2001, B.S., M.A., PhD. (Alabama)

Rushton IV, William James
College of Arts and Sciences
Department of English, Assistant Director, Honors Program; Adjunct Lecturer of English, 1998, B.A. (Vanderbilt), A.B. (Oxford), M.A., Ph.D. (Virginia)

Russell, Jackie
School of Business
Department of Accounting and Finance, Instructor of Accounting, 2013, B.S. (Birmingham-Southern), M.Acc. (Birmingham-Southern), J.D. (Miles)

Ryan, Cynthia
College of Arts and Sciences
Department of English, Associate Professor of English; Director, Internships, 1998, B.S., M.A. (Illinois State), Ph.D. (Purdue), Composition, Profesional Writing, Public Discourse, Medical Rhetoric

Saito, Yoshimi
College of Arts and Sciences
Department of Mathematics, Professor Emeritus of Mathematics, 1983, B.A., M.A., Ph.D. (Kyoto, Japan), Scattering Theory, Differential Equations

Sample, Nevette
School of Nursing
Instructor of Nursing, 2014, B.A. (Duke); M.S.H.A. (UAB)

Santiago, Ana Maria
College of Arts and Sciences

Santoro, Nick J.
School of Engineering
Department of Mechanical Engineering, Research Associate Professor of Mechanical Engineering, 2007, B.S., M.S. (Alabama), Power Generation; Thermal Dynamics; Internal Combustion Engines
Sathiakumar, Nalini School of Public Health Department of Epidemiology, Professor, 1988, M.D., Dr.PH., Environmental Epidemiology, Occupational Epidemiology, Chronic Disease Epidemiology

Savage, Arline School of Business Department of Accounting and Finance, Department Chair and Professor of Accounting, 2012, Ph.D. (University of Port Elizabeth-South Africa), CA (SA)

Savage, Grant School of Business Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2011, B.A. (Connecticut), M.A., Ph.D. (Ohio State)

Saxena, Nitesh College of Arts and Sciences Department of Computer and Information Sciences, Associate Professor of Computer and Information Sciences; MS CFSM Program Co-Director, 2011, B.S. (Kharagpur), M.S., Ph.D. (University of California-Irvine)

Schnormeier, Kimberly A. College of Arts and Sciences Department of Theatre, Associate Professor of Theatre, 1991, B.F.A. (Miami), M.F.A. (Northwestern)

Schwebel, David C. College of Arts and Sciences Department of Psychology, Professor of Psychology, Associate Dean of Research in the Sciences, 2000, B.A. (Yale), M.A., Ph.D. (Iowa)

Selinger, Nikita College of Arts and Sciences Department of Mathematics, Assistant Professor of Mathematics, 2015, Ph.D. (Jacobs University, Bremen), Conformal Dynamics; Teichmüller Theory

Selleck, Cynthia School of Nursing Professor and Associate Dean for Clinical Affairs Partnerships, 2010, B.S.N., (Emory), M.S.N. (Vanderbilt), D.S.N. (UAB)

Shackleford, Lee College of Arts and Sciences Department of Theatre, Assistant Professor of Theatre, 2000, B.A. (UAB), M.F.A. (Southern Illinois)

Shaia, Jacquelyn S. College of Arts and Sciences Department of Communication Studies, Assistant Professor of Communication Studies, 2015, B.A., Ph.D. (UAB); J.D. (Cumberland School of Law)

Sharlach, Lisa College of Arts and Sciences Department of Government, Associate Professor of Government, 2004, B.A. (California), M.A. (California), Ph.D. (California - Davis)

Shealy, David L. College of Arts and Sciences Department of Physics, Professor of Physics, 1973, B.S., Ph.D. (Georgia), Geometrical optics; laser beam shaping optics; radiative transfer; caustic and optical aberration theory

Sheng, Shibin (Simon) School of Business Department of Marketing, Industrial Distribution, Economics, Associate Professor of Marketing, 2011, B.S. (Tsinghua University), Ph.D. Economics (Tsinghua University) Ph.D. Marketing (Virginia Tech)

Shipman, Sallie School of Nursing Instructor of Nursing, 2014, B.S.N., M.S.N., Ed.D. (Alabama, NU)

Shores, Melanie L. School of Education Department of Human Studies, Associate Professor of Educational Psychology and Research, 2005, B.S., M.A.M., M.A., Ph.D. (Auburn)

Shtrenberg, Roman G. College of Arts and Sciences Department of Mathematics, Associate Professor of Mathematics, 2007, M.S., Ph.D (St. Petersburg State University – Russia), Mathematical Physics, Spectral Theory, Inverse Problems, Partial Differential Equations, Non-linear Partial Differential Equations

Sickling, Dean L. School of Engineering Department of Mechanical Engineering, Professor of Mechanical Engineering, 2012, B.S., M.S., Ph.D. (Texas AM), Crashworthiness Design; Sports Safety Equipment; Computational Mechanics

Siegel, Daniel College of Arts and Sciences Department of English, Associate Professor of English; Director, Undergraduate Studies, 2002, B.A. (Chicago), M.A., Ph.D. (Virginia), Nineteenth-Century British Literature and Culture, The Novel, Cinema

Simien, Clayton College of Arts and Sciences Department of Physics, Assistant Professor of Physics, 2013, B.S. (Prairie View AM), Ph.D. (Rice), Strongly correlated ultracold neutral plasmas; next generation frequency standards; precision measurements and variations in fundamental constants; quantum dipolar gases and rare-earth elements; laser cooling; nanotechnology; atomic sensors
Simien, Daneesh
School of Engineering
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2014, B.S., M.S., Ph.D. (Rice University), Self Corrective and Response, "Smart" Nano Scale Composite Materials, Structure-Property Relationships of Polymer Composites Inclusive of Rheological and Electrical Properties, Nano Scale Sensors and Flexible Robust Electronics

Simon, Cliff
College of Arts Science
Department of Theatre, Professor of Theatre, 2002, B.A. (Queens), M.F.A. (Texas-Austin)

Simpson, Laura
Mervyn H. Sterne Library

Sims, Michele
School of Education
Department of Curriculum and Instruction, Associate Professor of Reading and Secondary Education, 1999, B.A., M.S. (CUNY), Ed.D. (Pennsylvania)

Sims, Omar T.
College of Arts and Sciences
Department of Social Work, Assistant Professor, 2015, A.B., M.S.W., Ph.D. (Georgia)

Sims, Sandra
School of Education
Department of Human Studies, Assistant Professor of Kinesiology, 2005, B.S. (Montevallo), M.A. (UAB), Ed.S. (UAB), Ph.D. (Southern Mississippi)

Simányi, Nándor
College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1999, M.S., Ph.D. (Rolánd Eötvös - Hungary), Dr.M.S. (Hungarian Academy of Sciences), Dynamical Systems, Ergodic Theory, Topology

Sisiopiku, Virginia P.
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Associate Professor of Civil, Construction and Environmental Engineering, 2002, B.S. (Aristotelian University of Thessaloniki), M.S., Ph.D. (Illinois-Chicago), Transportation Engineering, Traffic Engineering

Slaughter, Lauren
College of Arts and Sciences
Department of English, Assistant Professor of English, 2007, B.A. (Kenyon), M.F.A. (Alabama), M.A. (Montana)

Sloan, Kenneth
College of Arts and Sciences
Department of Computer and Information Sciences, Associate Professor, 1990, Sc.B. (Brown), M.S. (Stevens Institute of Technology), Ph.D. (Pennsylvania)

Sloane, Michael E.
College of Arts and Sciences

Slovensky, Donna J.
School of Health Professions
Department of Health Services Administration, Professor; Associate Dean, School of Health Professions, 1976, PhD (UAB), Information management to support quality improvement in healthcare; healthcare technology applications

Smith, Angel
School of Business
Department of Accounting and Finance, Instructor of Accounting, 2008, B.S., MAc. (UAB)

Smith, Glenda
School of Nursing
Assistant Professor of Nursing, 2006, B.S.N., (North Carolina Central), M.S.N. (Vanderbilt), D.S.N. (Texas-Houston Health Science Center)

Smith, Tedra
School of Nursing
Instructor of Nursing, 2012, B.S.N. (Auburn), M.S.N., D.N.P. (UAB)

Smith, Tommy G.
School of Education
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 1989, B.S., M.S., Ed.D. (Auburn)

Smith, William M.
School of Engineering
Department of Biomedical Engineering, Professor Emeritus of Biomedical Engineering, 1994, B.S. (Oglethorpe), Ph.D. (Duke)

Snyder, Scott W.
School of Education
Department of Human Studies, Associate Professor of Research and Early Childhood Special Education, 1988, B.A. (SUNY-Potsdam), M.S., Ph.D. (Purdue)

Sommerall, D’Ann
School of Nursing
Assistant Professor of Nursing, 2010, B.S., B.S.N., M.S.N., D.N.P. (UAB)

Song, Yuhua
School of Engineering
Department of Biomedical Engineering, Assistant Professor of Biomedical Engineering, 2006, B.S. (Jilin University of Technology), M.S. (Harbin University of Science and Technology), Ph.D. (Harbin Institute of Technology), Computational biomechanics, Computational biology, Multiscale modeling

Sorge, Robert
College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2012, H.B.Sc. (McMaster), M.A. (Wilfrid Laurier), Ph.D. (Concordia)

Souillac, Geneviève
College of Arts and Sciences
Department of Anthropology, Visiting Associate Professor, 2016, B.A. (Sydney), M.A.s (Sydney, EHESS Paris, KU Leuven), Ph.D. (Hong Kong)

Spence, Paul H.
Mervyn H. Sterne Library

Spezzini, Susan K. School of Education
Department of Curriculum and Instruction, Associate Professor of English as a Second Language, 2005, B.A., M.A. (California), Ph.D. (Alabama)

Sprague, Alan P. College of Arts and Sciences
Department of Computer and Information Sciences, Professor of Computer and Information Sciences; Associate Professor of Medicine, 1988, B.A. (Oberlin), M.A.T. (Northwestern), M.S., Ph.D. (Ohio State)

Stanford, Robert E. School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Quantitative Methods, 1982, B.A. (University of the South), M.A. (Georgia Institute of Technology), Ph.D. (California-Berkeley)

Stanishevskaya, Irina Mervyn H. Sterne Library
Mervyn H. Sterne Library, Senior Assistant Librarian, Cataloging Collection Management, Mervyn H. Sterne Library, 2008, B.S. (Belarusian University of Culture), M.L.I.S. (Alabama)

Stanishevsky, Andrei College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 2002, M.S. (Minsk Radioengineer Institute-USSR), Ph.D. (Belarus Academy of Sciences –USSR), Focused ion beam micro- and nanofabrication; PVD thin films deposition, characterization, and application; nanoparticle research

Stanley, Glenda School of Nursing
Instructor of Nursing, 2015, B.H.S. (Kentucky); M.A. (Moorehead State)

Stansell, Laura R. College of Arts and Sciences
Department of Mathematics, Instructor of Mathematics, 2007, B.S. (Berry), M.S. (Southern Mississippi), M.S. (UAB)

Starr, Shannon College of Arts and Sciences
Department of Mathematics, Associate Professor of Mathematics, 2012, B.A. (California - Berkeley), Ph.D. (California - Davis), Mathematical Physics and Probability

Stavrinos, Despina College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, Director, Translational Research for Injury Prevention (TRIP) Laboratory, 2011, B.S. (Alabama), M.A., Ph.D. (UAB)

Steadman, Laura School of Nursing
Assistant Professor of Nursing, 2010, B.S.N. (Auburn University), M.S.N. (Troy State), Ed.D. (Alabama)

Steele, Brian D. College of Arts and Sciences
Department of History, Associate Professor of History, 2005, B.A., M.A. (Tulsa), Ph.D. (UNC)

Stepanikova, Irena College of Arts and Sciences
Department of Sociology, Assistant Professor of Sociology, 2012, B.A. (Campbellsville), M.A. (Masaryk), Ph.D. (Stanford)

Stocks, Douglas R. College of Arts and Sciences
Department of Mathematics, Associate Professor Emeritus of Mathematics, 1969, B.A., M.A., Ph.D. (Texas)

Stolz, Günter College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1994, Ph.D. (Frankfurt, Germany), Spectral Theory, Mathematical Physics

Stoppeleibn, Laura College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2011, B.S., M.A., Ph.D. (Alabama)

Strang, Christianne College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2014, B.S. (Miami); M.A. (Vermont); Ph.D. (UAB)

Sullivan, Andrew School of Engineering

Summerlin, Jennifer School of Education
Department of Curriculum and Instruction, Instructor of Reading , 2011, B.A., M.A., Ph.D. (UAB), NBPTS

Sun, Liou Y. College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2015, B.S., M.D. (Southeast University); Ph.D. (Southern Illinois), Biology of Aging, Endocrinology, Obesity, Neurodegenerative Diseases

Swan, Nancy School of Nursing
Instructor of Nursing, 2010, B.S., (UAB), A.D. (Wallace State Community College), B.S.N. (Georgia Southern), M.S.N. (Jacksonville State)

Szafarski, Magdalena College of Arts and Sciences
Department of Sociology, Assistant Professor of Sociology, 2012, B.A., M.A. (Michigan), Ph.D. (Cincinnati)

Sánchez-López, Lourdes College of Arts and Sciences
Department of Foreign Language and Literature, Associate Professor of Spanish; Director, Spanish for Specific Purposes Certificate Program, 2001, B.A. (Universidad de Granada), M.A. (Southern Mississippi), M.A., Ph.D. (Universidad de Jaén)

Taherian, Hessam  
School of Engineering  
Department of Mechanical Engineering, Assistant Professor of Mechanical Engineering, 2010, B.S. (Isfahan University of Technology, Iran), M.S. (Amirkabir University of Technology, Iran), Ph.D. (Dalhousie, Canada)

Takamiya, Yumi  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Visiting Assistant Professor of Japanese, 2015, B.A. (Bunkyo University, Japan), M.A. (Wisconsin-Madison), Ph.D. (Purdue)

Talley, Michele  
School of Nursing  
Instructor of Nursing, 2009, B.S.N. (Alabama), M.S.N. (UAB)

Tanik, Murat M.  
School of Engineering  
Department of Electrical and Computer Engineering, Professor and Chair of Electrical and Computer Engineering, 1998, B.S. (Middle East Technical), M.C.S., Ph.D. (Texas AM), Software Systems Engineering, Quantum Information Theory, Embedded Systems

Taratoot, Cole  
College of Arts and Sciences  
Department of Public Administration, Assistant Professor (Government), 2008, B.S., M.P.A. (West Georgia), Ph.D. (Georgia), Administrative law, judicial politics, constitutional law, quantitative analysis

Taub, Edward  
College of Arts and Sciences  
Department of Psychology, University Professor of Psychology, 1986, B.A. (Brooklyn), M.A. (Columbia), Ph.D. (New York)

Taylor, Jennifer  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Marketing, 2011, B.S. (Clemson University), M.B.A., Ph.D. (Georgia State University)

Temple, Cheryl  
College of Arts and Sciences  

Temple, Gale M.  
College of Arts and Sciences  
Department of English, Associate Professor of English; Director, Graduate Studies, 2001, B.S. (Michigan), M.A., Ph.D. (Loyola-Chicago), Early American Literature and Culture

Terndrup, Thomas E.  
School of Health Professions  
Department of Health Informatics, M.D., Professor (Emergency Medicine)

Thomas, Vinoy  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2007, B.S., M.S. (University of Kerala, India), Ph.D. (Sree Chitra Tirunal Institute for Medical Sciences Technology, India), Polymeric Biomaterials and 3D Composite Scaffolds for Tissue Engineering, Nanomaterials and Nanodiamonds for Biomedical Applications, Green Materials Synthesis and Structure-Property Relationships

Thomeer, Mieke B.  
Colleg of Arts and Sciences  
Department of Sociology, Assistant Professor of Sociology, 2014, B.A. (Virginia), M.A., Ph.D. (Texas)

Tofani, Peter  
School of Nursing  
Assistant Dean of Student Affairs; Instructor of Nursing, 2008, B.S. (The United States Military Academy), MS (Pennsylvania State)

Tollefsbol, Trygve  
College of Arts and Sciences  
Department of Biology, Professor of Biology, 1998, B.S. (Houston), M.S., D.O., Ph.D. (North Texas Health Sciences Center), Gene Regulation in Cancer and Aging

Tomlinson, Dale  
School of Nursing  
Instructor of Nursing; RN-BSN Coordinator, 2007, B.S.N., M.S.N., D.N.P. (UAB), M.N. (LSU)

Treutel, Rita B.  
College of Arts and Sciences  

Trimm, Jerry “Mickey”  
School of Health Professions  
Department of Health Services Administration, Associate Professor, Health Care Management, 2006, Ph.D. (UAB)

Trost, Zina  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2015, B.A. (Fordham); M.S., Ph.D. (Ohio)

Tsoi, Georgiy  
College of Arts and Sciences  
Department of Physics, Research Assistant Professor of Physics, 2005, M.Sc. (Karkov, Ukraine), Ph.D. (NAS, Ukraine), Structural, magnetic and electrical properties of materials under high pressure

Tucker, Diane C.  
College of Arts and Sciences  
Department of Psychology, Professor of Psychology, Director, Science and Technology Honors Program, 1984, B.S., M.S., Ph.D. (Iowa)

Turan, Bulent  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2011, B.S. (Bogazici), M.A. (Loyola), Ph.D. (Stanford)

Turel, Noa  
College of Arts and Sciences  
Department of Psychology, University Professor of Psychology, 1986, B.A. (Brooklyn), M.A. (Columbia), Ph.D. (New York)
Department of Art Art History, Assistant Professor of Art History, 2012, B.A. (State University of New York), M.A. (University of London), Ph.D. (California-Santa Barbara), North Renaissance Art, Late Medieval and Early Modern Visual Culture and Science, Performance Art and theory

Turner, Kevin  
College of Arts and Sciences  
Department of Music, Instructor of Music, 1998, B.A. (Trinity)

Turner, Lori  
School of Public Health  
Department of Health Behavior, Adjunct Professor, UA Health Science, 2007, Ph.D.

Turner-Henson, Anne  
School of Nursing  
Professor of Nursing, 1982, B.S.N. (Medical College of Georgia), M.N. (Emory), D.S.N. (UAB)

Tyson, Lawrence E.  
School of Education  
Department of Human Studies , Associate Professor of Counselor Education, 1997, B. A. (Atlantic Christian), M.Ed. (Rollins), Ph.D. (Mississippi State)

Uddin, Nasim  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering, 2001, B.S. (University of Engineering and Technology, Bangladesh), M.S. (Oklahoma-Norman), Ph.D. (SUNY Buffalo), P.E. (New York), Structural Engineering, Wind and Seismic Loads, Bridge Design

Usdan, Stuart  
School of Public Health  
Department of Health Behavior, Adjunct Professor; UA, Health Science, 2013, Ph.D.

Uswatte, Gitendra  
College of Arts and Sciences  
Department of Psychology, Professor of Psychology, 2001, B.A. (Princeton), M.A., Ph.D., (UAB)

Vaidya, Uday K.  
School of Engineering  
Department of Materials Science and Engineering, Professor of Materials Science and Engineering; Chair of Materials Science and Engineering; Director, Materials Processing and Applications Development (MPAD) Center, 2001, B.S.M.E. (Karnataka University, India), M.S. (Shivaji University, India), Ph.D. (Auburn), Composites Application Development; Thermostat and Thermoplastic Polymer Matrix Composites; Design, Manufacturing Processing Modeling; Nondestructive Evaluation and Dynamic Response; RD to Commercialization

Van Matre, Joseph G.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods , Professor of Quantitative Methods, 1971, B.E.E., M.B.A. (Auburn), Ph.D. (Alabama)

Van Sant, John E.  
College of Arts and Sciences  
Department of History, Associate Professor of History, 2000, B.A., M.A. (UC-Davis), Ph.D. (Oregon)

Vance, David  
School of Nursing  
Associate Professor of Nursing; Ph.D. Program Coordinator, 2004, B.S. (Virginia Tech), M.S. (New Orleans), M.G.S. (Miami), Ph.D. (UAB)

Vantsevich, Vladimir V.  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2012, Dip.-Eng., Ph.D. (Belarusian National Technical University, Minsk, Belarus), D.Sc. (State Supreme Attestation Board, Moscow, Russia), Mechatronic Systems Design, Modeling and Control; Manned/Unmanned Ground Vehicle Dynamics and Design; Dynamics and Design of Robotic Manipulators

Vaughn, Loy O. Jr.  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 1969, B.A. (Florida State), M.S., Ph.D. (Alabama)

Vaughn, Gregg L.  
School of Engineering  
Department of Electrical and Computer Engineering, Professor of Electrical and Computer Engineering, 1979, B.S.E.E., M.S.E.E., Ph.D. (Alabama), P.E. (Alabama), Digital Communication, Image Processing, Radiation Effects

Velu, Sadanandan  
College of Arts and Sciences  
Department of Chemistry, Associate Professor of Chemistry, 2002, B.Sc., M.Sc. (Calicut – India), Ph.D. (Madras – India)

Verbeek, Peter  
College of Arts and Sciences  
Department of Anthropology, Associate Professor, 2015, B.S. (Eckerd College), M.A., Ph.D. (Emory)

Yates, Stephanie  
School of Business  
Department of Accounting and Finance, Associate Professor of Finance, 2007, B.S., M.A., M.B.A. (Cincinnati), Ph.D. (LSU)
Admission to Undergraduate Programs

UAB welcomes applications from all individuals whose preparation and abilities give them a reasonable chance of success in its programs. All applicants must offer acceptable evidence of ability and intent to meet the academic standards of the university. Admission decisions are based on a number of factors including a previous record of satisfactory academic performance, strength of curriculum, and test scores. Admission to the university is valid for one academic year.

The application for admission, application instructions, and application deadlines can be accessed at http://www.uab.edu/apply. Applications are processed in the order in which they are complete and ready for a decision.

Prospective students currently attending high school may apply as early as the summer before their senior year. Tentative admission will be granted on the basis of ACT or SAT scores and high school records through the junior year. A final official transcript reflecting work completed in the senior year and confirmation of graduation will be reviewed before a student's final admission. Applicants must earn a high school diploma to be eligible for admission. A General Equivalency Diploma (GED) may be considered if the applicant is 19 years of age or older and does not have a high school diploma.

Prospective students currently attending another college or university may apply one year prior to the date of the desired term of enrollment. However, tentative admission will be granted with no more than one term pending on the basis of an evaluation of coursework from all colleges and

Department of Health Services Administration, Assistant Professor, 2014, PhD (UAB), Financial and Quality Performance of Healthcare Organizations

Zhand, Xiao School of Public Health
Department of Biostatistics, Ph.D. (UCLA), Research Assistant Professor. Bayesian Computation, Clinical Trials.

Zhang, Chengcui College of Arts and Sciences
Department of Computer and Information Sciences, Professor and Graduate Program Director of Computer and Information Sciences, 2004, B.S., M.S. (Zhejiang University, China), Ph.D. (Florida International)

Zheng, Yuliang College of Arts and Sciences
Department of Computer and Information Sciences, Professor and Chair, 2015, Ph.D. (Yokohama - Japan)
universities attended. A final official transcript reflecting work completed will be reviewed before a student’s final admission.

Credentials and documentation required for admission vary by application status. To be considered official, all academic documents required for admission must be sent to UAB directly from the high school, colleges/universities attended, and testing agencies. All credentials submitted as part of the application for admission become and remain the property of the university and will not be returned to the student, duplicated, or transferred to another institution.

Any change in a student’s record prior to enrollment will necessitate a new review of the application. Any omissions or misrepresentations on a student’s application for admission will automatically invalidate consideration by and acceptance to UAB. If, after a student is admitted to the university, information comes to light that indicates an applicant did not meet all admission requirements, the applicant’s offer of admission will be rescinded.

**Priority Application Deadlines**

Prospective students are encouraged to apply well in advance of the date of the desired term of enrollment but no more than one year.

<table>
<thead>
<tr>
<th>Entry Term</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>June 1</td>
</tr>
<tr>
<td>Spring</td>
<td>November 1</td>
</tr>
<tr>
<td>Summer</td>
<td>March 15</td>
</tr>
</tbody>
</table>

The application for admission, application fee, and all supporting official academic documents must be complete and received in the Office of Undergraduate Admissions by 5 p.m. on the respective deadline date. If the deadline falls on a weekend or university holiday, applications will be considered the following business day.

**Admission to Specific Schools or Programs**

Admission to the university as an undergraduate student may not be the final step required to gain admission to the desired school or academic program. For the undergraduate programs listed below, additional steps are required:

- College of Arts and Sciences (Immunology, Music, Musical Theatre, Neuroscience)
- School of Education (Teacher Education Program)
- School of Engineering
- School of Health Professions
- School of Nursing

Further information on the additional steps required is given in the section of this catalog devoted to the particular school/college.

**Declaration of School and Major**

Applicants are asked to indicate an intended major field of study on the application for admission. Applicants who do not have a general field of interest may request admission as Undeclared. International students must declare a major.

**Admission Appeal Procedure**

Applicants denied admission to the undergraduate program who believe they have extenuating circumstances that might justify a different decision may appeal for further consideration.

**Freshmen**

1. Applicants must complete and submit a Supplemental Admission Application. Any academic or personal information that would help the committee to make a fair and informed decision should be provided. A Supplemental Admission Application may be obtained from the Office of Undergraduate Admissions.

2. Applicants must submit a letter of recommendation from a guidance counselor or teacher who can speak knowledgeably about the applicant’s academic background and potential.

3. Students who are admitted through this procedure may be admitted to the Blazing Start program or with terms and conditions set forth by the appeals committee.

**Non-Traditional Freshmen (Graduated from high school four or more years ago and have not attended college)**

1. Applicants must submit a letter addressed to the Admission Appeals Committee which addresses several issues regarding educational goals:
   - What is your educational objective?
   - How would a UAB education help you achieve your personal or career goals?
   - What deterred you from enrolling in college before this time?
   - To what extent are these factors still pertinent today?
   - What challenges to successfully completing your education at UAB do you foresee?
   - What steps have you taken to prepare for academic success at UAB?
   - What support systems do you have in place to ensure success?

2. Students who are admitted through this procedure:
   - Will be admitted to and advised in the Vulcan Materials Academic Success Center.
   - Must adhere to all policies and procedures of academic warning status.
   - Must limit their first-term course load to a maximum of 12 semester hours.

**Transfer/Former UAB Students**

1. Applicants must submit a letter addressed to the Admission Appeals Committee which addresses several issues regarding educational goals:
   - Reasons the applicant did not do satisfactory academic work when previously enrolled.
   - What the applicant has done since last enrolled in school.
   - What steps the applicant has taken to prepare for academic success at UAB.
   - Goals for personal development, career and education.
   - Why the applicant is now better able to complete goals than when last enrolled in school.

2. Students who are admitted through this procedure:
• Will be admitted to and advised through the Vulcan Materials Academic Success Center.
• Must adhere to all policies and procedures of probation status.
• Must limit their first-term course load to a maximum of 12 semester hours.

Both freshman and transfer/former student appeal documentation should be submitted to the attention of the Admission Appeals Committee. Students who wish to appeal are highly encouraged to do so well in advance of the deadline. The deadline to submit all required appeal documentation is one week after the application for admission deadline of the desired term of enrollment.

**Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP)**

UAB awards credit to students who have earned designated scores on Advanced Placement (AP) Program examinations of the College Board. AP examinations are usually taken at the end of an AP-designed course of study in high school. Credit, if awarded, will be recorded without grades or quality points and will not, therefore, be included in the calculation of the grade point average.

Credits awarded by other institutions for Advanced Placement (AP), International Baccalaureate (IB), and the College Level Examination Program (CLEP) must be reevaluated to determine if credit will be awarded at UAB. Students wishing to submit such credits should send an official score report to the Office of Registration and Academic Records.

UAB score requirements for Advanced Placement, International Baccalaureate, and the College Level Examination Program are available online (http://www.uab.edu/students/admissions/credit-equivalencies).

**Equal Opportunity Policy**

UAB administers its educational programs and activities, including admission, without regard to race, color, religion, sex, sexual orientation, age, national origin, disability unrelated to job performance or Vietnam-era or disabled veteran status. The full text of this policy can be found http://sppublic.ad.uab.edu/policies/Pages/default.aspx.

**Office of Undergraduate Admissions**

**Mailing Address for Documents and Credentials:** Box 99 • 1720 2nd Ave S • Birmingham, AL 35294-4600

**Physical Address:** 1701 11th Avenue South • Birmingham, Alabama 35294-4412

**Freshman Admission**

**High School Graduates**

1. Completion of a college preparatory curriculum to include the following:

2. Minimum high school grade point average (grades 9-12) of 2.25 on a 4.0 scale

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
<th>Description</th>

<tr>
<td>Additional Core Courses</td>
<td>3 units</td>
<td></td>
</tr>
</tbody>
</table>

4. Minimum ACT composite score of 20 or SAT score of 1020 (EBRW + M).

**Home Schooled Students**

UAB welcomes applications from students who are schooled at home. Home schooled high school students are reviewed for admission and for academic scholarships following the same criteria utilized for students who attend public and private high schools. The official high school transcript should contain the titles of courses in each subject area beginning with grade nine, course grades, overall GPA on a 4.0 scale, course grading scale, signature and contact information of the school administrator. The teaching credentials of the home school teacher should be included.

**Non-Traditional Freshmen**

Minimum admission requirements for students who graduated from high school 4 years ago or more and have not attended college:

1. Minimum high school grade point average of 2.25 or GED score of 520.

**Joint Admission Program**

Freshman applicants seeking admission to UAB who do not meet admission requirements may be offered Joint Admission at one of UAB’s community college partners. This Joint Admission Program offer is based upon a holistic review of each applicant’s academic record. The Joint Admission Program is for Alabama residents only.

Students who accept the offer of Joint Admission must meet the following requirements to participate in the program:

1. Maintain continuous full-time enrollment at the community college (fall/spring).
2. Earn an Associates Degree from the community college prior to transitioning to UAB through the Joint Admission Program.
3. Maintain a 2.0 GPA in all transferable college coursework.
4. Participate in New Student Orientation and confer with a UAB academic advisor prior to registering for their first term at UAB.
Joint Admission students will have the ability to utilize a variety of programs, resources and facilities at UAB while actively enrolled in the program, and transition directly to UAB once completing their Associates Degree.

Transfer Admission (http://uab.edu/transferapply)

Applicants with a minimum of 24 transferable college semester hours (not including dual enrollment coursework earned while attending high school) must:

1. Have a minimum grade point average of 2.0 in all such work.
2. Be considered in good standing at all previously attended colleges or universities.

Applicants who have earned college credits, but fewer than 24 semester hours, must have a 2.0 grade point average in all transferable college work attempted and also satisfy freshman admission requirements (See “Freshman Admission”),( p. 40)

Applicants who are permanent residents but attended a college or university outside of the United States must meet the same admission requirements as international students (See “International Admission (p. 41)

Eligibility of College Credits for Transfer

The eligibility of credit for transfer to UAB depends both on the subject matter of the credit and on the accreditation status of the institution that awarded the credit.

Technical/vocational credits or remedial credits, whether earned at UAB or at any other institution of higher education, are not eligible for transfer and may not, therefore, be used to satisfy degree requirements. The exception to this rule is when the transfer of certain courses applicable to specific professional degree programs is approved in advance by the appropriate department. The accepted courses will be posted only while the student is in the degree program approving the credit. If the student changes programs, the courses will be removed. Credits earned while on academic suspension from UAB or another institution may be eligible for transfer. However, the UAB forgiveness policy can only be applied to grades earned at UAB.

Transfer credit in academic subjects will be considered for transfer to UAB from post-secondary institutions that are fully accredited by one of the six regional accrediting associations (see below) that offer the UAB from post-secondary institutions that are fully accredited by one of the six regional accrediting associations that offer the UAB from post-secondary institutions that are fully accredited by one of the six regional accrediting associations. (See “Joint Admission”).

Applicants with credits from institutions outside the United States should review transfer of international credits.

Limitations of Transferred Credit

One half of the credit hours required for a degree may be transferred from a two-year college provided the courses are numbered as freshman-level (100) and sophomore-level (200) courses.

Acceptance of Transfer Credits toward a Degree

College-level coursework transferred from a regionally accredited institution will be shown on the UAB transcript; however, applicability of the course toward a degree is determined by the student’s major department.

Admission as an International Student

International students are defined as any applicant who is not a U.S. Citizen or Permanent Resident. International students should apply at least six months in advance of desired attendance date in order to facilitate timely admission and enrollment.

Freshman Admission

Applicants who have completed secondary school abroad under a grading system different from the U.S. System must submit:

1. Minimum overall GPA of 2.50
2. Minimum TOEFL score of 77 on the Internet-based version or minimum IELTS score of 6.0 overall with a minimum of 5.5 on each section of the exam, if English is not the applicant’s native language.
3. Minimum ACT composite score of 20 or SAT score (EBRW + M) of 1020 if English is the applicant’s native language. Prospective students on select government scholarship programs and entities sending students that have UAB institutional agreements may qualify for an exemption from this requirement.

A TOEFL or IELTS score is not required if the applicant has attended a U.S. high school for at least two years.
Transfer Admission

Applicants who have attended a college or university outside the United States must submit:

1. Minimum overall GPA of 2.0.
2. Minimum TOEFL score of 77 on the Internet-based version or minimum IELTS score of 6.0 overall with a minimum of 5.5 on each section of the exam, if English is not the applicant’s native language.

NOTE: Applicants who have earned fewer than 24 semester hours at a postsecondary institution will also need to meet the minimum admission requirements for freshmen.

Student Visa

To obtain documents for an F-1 or J-1 student visa, applicants must provide a letter verifying support from the student’s financial sponsor, an original or certified copy of a bank statement confirming a balance sufficient to cover the first year’s tuition, fees, and living expenses, and a clearance form if transferring from another school within the United States.

To meet the requirements of the F-1 visa, international students must be full-time students. Full-time students are defined as those earning a minimum of 12 semester hours of credit for two consecutive semesters. All others must provide a copy of their visa or I-797 approval notices about their status to International Student and Scholar Services.

Health Insurance

All international students are required to register with the UAB Student Health Service and to carry a health and accident insurance policy approved by the UAB Student Health Service.

Readmission of Former UAB Students

Former students who have not been enrolled in undergraduate courses at UAB for one academic year or more must apply for readmission. Former students are subject to the same conditions as newly-admitted students.

Former UAB students who are returning to continue their programs of study should consult with their academic advisor or department chair to determine whether curriculum or degree requirements have changed since their last enrollment.

Post-Baccalaureate Admission

Degree Seeking

Persons with a baccalaureate degree who wish to seek a second baccalaureate degree must apply by the published deadline and have a minimum grade point average of 2.0 in all undergraduate coursework attempted.

Non-Degree Seeking

Persons with a baccalaureate degree who wish to:

1. Meet prerequisites for advanced programs or
2. Satisfy requirements for professional certification

Must apply by the published deadline and submit an official transcript from the college or university from which the baccalaureate degree was earned.

Admission as a Non-Degree Student

Students who wish to enroll in undergraduate courses with no intent of pursuing a degree should apply by the published deadline to be considered as a non-degree seeking student (Temporary, Transient, and Non-Degree Post-Baccalaureate). The following restrictions apply to non-degree students:

1. Ineligible for financial aid or priority registration.
2. If a course is over-enrolled, non-degree students may be dropped in favor of degree-seeking students.
3. May not participate in intercollegiate sports.

Temporary

A prospective student seeking personal enrichment or career enhancement may be admitted as a Temporary student. Temporary students are limited to applying a maximum of 24 semester hours to a UAB degree program.

Applicants in this category must be at least 25 years of age unless enrolling in an approved certificate program. Students must provide a letter of good standing if they have attended another college or university within the last year.

Transient Students

Persons who want to transfer credit earned at UAB back to their home institution where they are enrolled as a full-time student may be admitted as Transient students.

Requirements: Applicants for Transient status must submit an official transcript or letter of good standing from the home institution. Enrollment as a Transient student is typically for one term, with a maximum of two consecutive semesters.

Change from Non-Degree to Degree Status

A student with a non-degree classification who wishes to change to a degree-seeking classification must reapply for admission by submitting an application for admission, application fee, and all required transcripts. To be admitted as a degree-seeking student, the individual must:

1. Meet the published application deadline and admission requirements.
2. Submit all documentation required for a degree-seeking applicant.

Concurrent Enrollment and Dual Enrollment/Dual Credit

UAB welcomes applications from exceptional high school juniors and seniors who wish to earn college credit while still enrolled in high school. Evidence must be presented that enrollment at UAB would enhance the student’s educational experience beyond that available in high school.

Requirements include:

1. A minimum grade point average of 3.0.
2. A recommended ACT score of 25 or SAT score of 1170 (combined EBRW + M).
3. A letter of permission from a parent or guardian.
4. A letter of approval from the high school principal or guidance counselor.
Concurrent Enrollment

A student applies for Concurrent Enrollment in order to take courses as a non-degree student at UAB, while concurrently enrolled as a junior or senior in high school. This option may be appropriate for students whose high schools do not participate in the Dual Enrollment/Dual Credit program.

Dual Enrollment/Dual Credit

The Dual Enrollment/Dual Credit option is available only to those students whose high schools have a formal Dual Enrollment/Dual Credit agreement with UAB. A high school junior or senior may apply for dual enrollment/dual credit in order to take courses as a non-degree student at UAB while still completing high school and apply credit earned at UAB both toward college requirements and toward the high school diploma.

Individual courses taken by dual enrollment/dual credit must be pre-approved by the student’s high school. Prior to each term of enrollment under the dual enrollment/dual credit option, the student must submit a letter from the high school identifying the pre-approved course(s) to be taken for dual credit.

Admission as an Auditor

Applicants who wish to audit credit courses must follow standard admission procedures and meet minimum admission requirements.

New Student Orientation

Orientation is offered several times prior to the beginning of each term for all incoming freshmen and transfer students. Sessions include information about resources and services available to students to help them be successful. Additionally, new students meet with faculty and academic advisors and register for classes. Attendance at New Student Orientation is required for all new degree-seeking freshmen and transfer students prior to their first term of enrollment.

Office of New Student Orientation

Hill Student Center, Suite 201 • 1400 University Boulevard • Birmingham, Alabama 35294 • Telephone: (205) 975-7999 • E-Mail: orient@uab.edu • Web: https://www.uab.edu/students/orientation

Student Involvement and Leadership

UAB Student Experience would like to invite you to complete your UAB experience by becoming involved in the many activities and organizations available to you as a student. Events range from relaxing at free movies or comedy shows, involvement in student governance, cheering on the Blazers, writing for the Kaleidoscope student newspaper, rappelling down a cliff, hiking the Grand Canyon and so much more. Each semester brings new events, new organizations, opportunities to make friends, get physically fit, learn, socialize, relax, and have a good time becoming a part of the Blazer community! We want you to get involved!!

This section of the catalog contains an alphabetical list of many of the activities and organizations and activities available to students.

Student Involvement & Leadership

The Office of Student Involvement and Leadership is responsible for developing the leadership capacity of students and supporting student organizations as integral members of the University community by serving as a leadership and organizational development clearinghouse. The mission of the Office of Student Involvement and Leadership is to serve as full partners in the collegiate experience by empowering students through intentional programs that foster personal and professional development, while enhancing campus pride and commitment to the greater Birmingham community.

Students who engage in programs, activities, and services provided by the Office of Student Involvement and Leadership will be able to choose
opportunities that foster collaboration with others by finding value in the contribution of viewpoints that differ from their own, develop a spirit of public-mindedness that influences civic engagement with local and global communities while creating spaces that generate a more porous and interactive flow of knowledge between campus and community, and develop their leadership and professional skills (such as critical thinking, event planning, conflict resolution), allowing them to succeed in all roles of a team and use these skills to build a foundation for future career success.

Civic Engagement

The Office of Student Involvement and Leadership promotes and supports service and community involvement through engaging our students in a variety of meaningful service activities. The office serves as a resource center for community service programming in order to help students expand their understanding of social community issues, develop leadership skills, and work on solutions to real life problems. The Blazers on Break alternative spring break program and Summer Service Weekends promotes community service, develops leadership skills, and creates strong bonds among participants who travel to another community to participate in volunteer work addressing issues such as environmental protection, children, affordable housing, hunger, education, HIV/AIDS awareness, and disabilities. Through local partner fairs and large scale programs like Into the Streets Day of Service, Awareness Weeks, and Martin Luther King, Jr. Day of Service, students can get involved in many ways to make a positive difference on the lives of others in our community.

Fraternities and Sororities

Looking to excel in you academics? Have incredible leadership opportunities? Give back to the community and a cause bigger than yourself? Most importantly, looking for a home away from home? The fraternities and sororities here have set the bar high for UAB students in terms of scholarship, leadership, philanthropy and service, and brotherhood and sisterhood. We currently have over twenty fraternities and sororities across four councils: the Panhellenic Council, Interfraternity Council, National Pan-Hellenic Council, and Multicultural Greek Council. Our diverse groups welcome students from all backgrounds, and will help you lay a foundation for success that lasts long after your college years have ended.

Leadership Programs

The Office of Student Involvement and Leadership coordinates campus-wide leadership programming to help students reach their potential in and out of the classroom. In addition to one-on-one leadership consultations, our office coordinates Leadership Foundations, a co-hort style leadership class, and programs such as Lunch with a Leader, Dinner with the Dean, the Fall Leadership Conference, the Winter Leadership Retreat, and the annual Etiquette Dinner.

Educating is an integral part of what our office does, whether it is offering weekly seminar-style learning through the LEAD (Leadership Education And Development) on Demand program, a chance to sharpen networking skills through an annual etiquette dinner, or how to be an effective leader as a member of UAB LEAD. We also offer a scholarship annually to an emerging leader.

Honor Societies

UAB recognizes many nationally affiliated honor societies that acknowledge scholastic achievement, citizenship, and outstanding leadership among students. Check out our honor societies at uab.edu/bsync.

Student Organizations

UAB recognizes over 300 student-led organizations concerned with the academic, social, and personal development of students. Organizations include groups with interests in religion, music, athletics, and cultural diversity. Additionally, nearly every academic major is represented by a student organization. Check out our organizations at uab.edu/bsync.

University Programs

University Programs bring entertaining, diverse, and educational events to UAB. University Programs produces Homecoming, TalentSearch, SpringFest, Fall Concert, Film Series, comedians, late night programs, music, and other special events.

Undergraduate Student Government

The Undergraduate Student Government Association (USGA) is the voice for the undergraduate student body and represents student issues, concerns, and views to the administration. USGA provides programs and services for undergraduate students in the Schools of Business, Education, Engineering, Health Professions, Nursing, Public Health, and the College of Arts and Sciences. Elections for these executive council and senate positions are held each Spring semester. Students can also serve on USGA committees or be appointed to the cabinet or student court. Freshman may get involved through Freshman Forum.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu. (205) 934-8020, Hill Student Center 230. www.uab.edu/studentinvolvement.

Student Multicultural and Diversity Programs

In support of UAB’s mission of global citizenship, Student Multicultural and Diversity Programs (SMDP) seeks to cultivate a campus wide academic community characterized by:

- Social justice education
- Student advocacy and empowerment
- Affirmation of social identities
- An intersectional approach to gender, race, sex, class, sexuality, ability status, country of origin, faith, and language
- Providing cultural and identity specific programs

SMDP provides learning environments that value and respect underrepresented student populations as a means to contribute to student success. In collaboration with campus and community partners, SMDP acts as an institutional resource for identity based policy, education, and outreach efforts.

Black Student Awareness Committee

Through educational events and programs, the Black Student Awareness Committee (BSAC) strives to increase the awareness of issues surrounding the Black community on our campus, within
the city of Birmingham, and across the nation. BSAC encourages celebration of Black heritage, celebrates the accomplishments of Black people on and around the campus, and offers insight into the future of Black America.

**Blazer Male Excellence Network**

The BMEN Peer Mentoring Program is designed to provide academic and social support to Black male students entering UAB. BMEN’s overall goal is to improve the quality of life for the new student by partnering a returning student with a new student, and by staff providing information on navigating the collegiate experience inside and outside the classroom. The mentors are selected each spring and go through extensive training to offer the best services possible. At UAB, improving the retention and graduation rates of its students is a primary objective of the University. Nationally, black males have the lowest retention rate of any group on most college campuses. The BMEN Peer Mentoring Program is one way to connect black males to the University and help them successfully transition to UAB.

**Free Food For Thought**

Free Food for Thought (FFFT) aims to create a space for students, and sometimes community members, to share their thoughts and opinions about ‘hot topic’ or ‘hot button’ current events and issues. Each semester a topic is chosen for discussion and each session is framed around that topic. FFFT encourages building a community that values inclusion and social justice. Interested participants exchange viewpoints on topics like these, resulting in a greater awareness about issues and experiences across social and personal identities. Learning from one another through facilitated, respectful discussion can help us value the contributions of peers. Just as the title espouses, food is served at all of our sessions.

**Global Citizenship 101**

Global Citizenship 101’s primary objective is to reach out to local high schools in an endeavor to educate students on the importance of being a Global Citizen. Over the course of the program, students learn about different global issues ranging from local and state concerns, like prison overcrowding and gun control, to problems that stretch across multiple countries, such as global water shortages and famine. This gives students an interdisciplinary outlook and understanding on how issues are handled successfully and why governments fail to solve major global problems. This program is a critical first step into international and cultural understanding of complex issues and can have a lasting effect that continues to help students grow and be receptive to new ideas.

**Intergroup Dialogue**

For many, faith, agnosticism, and atheism are important aspects of their identity. This dialogue group aims to create a space for a small number of students to discuss this aspect of themselves. In conversations such as these, emotions rise, debate ensues, and there is a fast end to positive conversation. To ensure an open space, with intentional conversation, the tenants of dialogue are taught to all participants and will be maintained in the space by two peer facilitators.

**International Mentors**

UAB International Mentors is a program that provides incoming international students with valuable information about UAB, Birmingham, and the United States. International Mentors serve the UAB international community by offering programming, support, and assistance to better meet the needs of incoming new students. The mentors are chosen through a highly selective process each spring and go through extensive training to offer the best services possible.

**Safe Zone Peer Educators**

SafeZone Peer Educators are a group of volunteer undergraduate students who provided education and training around issues of gender, sexuality, power and oppression. SafeZone Peer Educators provide a visible network where all UAB undergraduate, graduate and professional students can receive knowledge and ask questions in a welcoming space in order to help make campus a safer, more accepting place for LGBTQ students, staff, faculty and visitors. Each semester, three open sessions are offered to all UAB students: SafeZone 101, SafeZone 201, and Trans 101. Lunch-n-learns and special topics are also offered throughout the year.

**Social Justice Advocacy Council**

The Social Justice Advocacy Council (SJAC) is a programming, leadership and advocacy board comprised of a diverse group of students that promote multicultural awareness and inclusive excellence. Our objective is to celebrate diversity of identity, broaden cultural understanding, encourage unity, empower marginalized and underrepresented groups, educate about identity related issues, and promote intercultural interactions between all communities of people at The University of Alabama at Birmingham.

**Theatre Activities**

**UAB Department of Theatre**

The UAB Department of Theatre presents several productions each year in the Alys Stephens Center’s Sirote Theatre and the Odess Theatre. Students of all majors can audition, build productions and participate on running crews for credit. Special ticket pricing is available for UAB students. For more information, contact the Department of Theatre at (205) 934-3236.

**Ambassadors**

The UAB Ambassador Program is the oldest and most prestigious student program on campus. This select group of 22 dedicated students are committed to the University by serving as the official hosts and hostesses at recognized activities and events of UAB. At all times, these student leaders represent UAB through their actions, demeanor, and speech. Ambassadors are selected each spring semester via application and interview.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

**Athletic Team Support Groups**

Blazer support groups include the UAB Golden Girls, Cheerleaders (small coed), mascot (Blaze), Blazer Band, and the UAB Marching Blazers. These groups perform at UAB basketball, volleyball, and at a variety
of events in Birmingham. Each spring tryouts are held and are based on
performance and interviews. For more information on cheerleaders,
mascot, and Golden Girls, contact the Athletic Team Support Office,
Room 190, Campus Rec Center, (205) 975-5376 or email Ryan Martin
at rmartin1@uab.edu (%20rmartin1@uab.edu). For information on the
Blazer Band and the UAB Marching Blazers, call the band office at (205)
975-BAND (975-2263). You can also visit the website www.uab.edu/spirit.

BlazeRadio
Hear music from your favorite artist, get the 411 on celebrity news and
find out what's happening on campus 24 hours a day with BlazeRadio,
UAB's student Web radio station. Tune in online, or download our
Live365 smartphone app, and listen to the latest alternative, rock, hip
hop, jazz, dance, and country music and more. You can also check out
our popular news, sports, and talk shows that are all produced by and for
UAB students.

If a job in radio is what you hope to achieve, BlazeRadio offers volunteer
spots on the air and behind the scenes. Check the BlazeRadio site
for details on programming, promotion, technology, and management
positions. On-air slots require an audition. Get started by completing an
application in the Office of Student Media.

To tune in, go to www.uab.edu/studentmedia and click on our live stream
link. Our studio is located in Suite 130 in the Hill Student Center located
at 1400 University Blvd. You can call us at (205) 934-3354 (WBLZ), or
send us an email at info@InsideUAB.com (info@insideuab.com).

Good Games UAB
The Good Games UAB (gg.UAB) program aims to create an environment
that fosters a community of students with diverse backgrounds who
actively engage in numerous eSports initiatives and activities throughout
the school year. Our organization provides extensive programming,
hands-on experience and mentoring to promote eSports culture within
the community while increasing career awareness for students looking
to jump-start their journey into the industry by connecting them with
companies in the Greater Birmingham area. All students enrolled at UAB
are eligible for membership.

For more information, contact the Office of Student Involvement and
Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center

Honor Societies
UAB recognizes many nationally affiliated honor societies that
acknowledge scholastic achievement, citizenship, and outstanding
leadership among students. Check out our honor societies at uab.edu/
bsync.

For more information, contact the Office of Student Involvement and
Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center

Leadership and Service Council (LSC)
The LSC consists of 12 selected student leaders and is responsible for
coordinating various events and programs related to serving others and
creating awareness for current social issues. Advised by the Office of
Student Involvement & Leadership, LSC has five committees, and these
student leaders are responsible for all aspects of events sponsored by
the LSC, including event logistics, marketing, and volunteers. LSC also
assists with the planning and execution of other events sponsored by
Civic Engagement, including Civic Engagement Fairs, Blazers on Break,
and Summer Service Weekends. Selection for this council takes place in
the spring semester.

For more information, contact the Office of Student Involvement and
Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center
230, or www.uab.edu/studentaffairs/.

Miss UAB
The spotlight shines on students both on stage and behind the scenes
in the Miss UAB Scholarship Pageant, an official preliminary to the
Miss Alabama and Miss America pageants. Held each fall, the pageant
showcases each contestant's talent and achievement and provides
scholarships to help them pursue educational goals. Get involved
by joining the pageant’s planning committees which promote the
contestants, produce the show, recruit judges, or take the stage as a
contestant!

For more information, contact the Office of Student Involvement and
Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center

Music Ensembles
Students of all majors are invited to participate in instrumental or vocal
music ensembles offered through the Department of Music. Each group
performs on campus several times each year; some also perform for
selected off-campus events. Some prior experience and brief auditions
are required. Several scholarships are available each year for students
who perform with these groups. For more information, contact the
Department of Music, (205) 934-7376.

Vocal Groups
Chessy Singers
This choral ensemble performs a variety of music representing
different periods and styles. The group is open to students of all
majors. A short audition is required. For more information, please
contact Dr. Brian Kittredge at (205) 975-2599 or briank@uab.edu.

Concert Choir
This auditioned choral ensemble performs music representing a
variety of periods and styles. Some music-reading ability is needed.
The group is open to students of all majors. A short audition is
required. For more information, please contact Dr. Brian Kittredge at
(205) 975-2599 or briank@uab.edu.

Gospel Choir
This ensemble primarily performs choral literature from the major
eras of American Gospel Music. It is open to students of all majors.
Students with significant skill in playing gospel, jazz and/or pop
keyboard, rhythm guitar, bass guitar, saxophone, and drums are
also encouraged to participate in the Gospel Choir. For more
information, please contact Mr. Kevin Turner at (205) 934-6155 or
kturner@uab.edu.

Opera Workshop
This ensemble performs opera scenes and musical theater
cuttings, as well as fully staged, complete operas. It is open
to students of all majors. A short audition is required. For more

Bands

Blazer Band

As part of the university band program, the Blazer Band provides

support for UAB Blazer basketball. It performs at all home and

selected away games and for post-season events such as the

annual Conference USA tournament. For further information, please

contact the band office at (205) 975-BAND (975-2263).

Jazz Ensemble and Jazz Combos

Instrumentalists can further their musical knowledge and creative

skills by performing classic and contemporary jazz, swing, and

rhythm and blues. For further information, please contact Dr. Steve

Roberts at (205) 934-6154 or jazztpt@uab.edu.

UAB Marching Blazers

The UAB Marching Blazers is part of the university band program,

and produces high-quality experiences for students and fantastic

entertainment for diverse audiences. The Marching Blazers

go beyond the traditional role of collegiate marching bands by

performing for professional sporting events; local, regional, and

national marching band competitions and parades; and international

travel and competitions. Scholarships are available. For further

information, contact the band office at (205) 975-BAND (975-2263).

Wind Symphony and Symphony Band

As part of the university band program, the Wind Symphony and

Symphony Band perform the finest concert band literature in

campus concerts, selected special performances, and an annual

spring tour. Band placement is contingent upon a brief audition.

Scholarships are available for students who participate in the Wind

Symphony or Symphony Band and the Marching Blazers. For

further information, contact the band office at (205) 975-BAND (975-2263).

Student Media

Kaleidoscope, UAB’s student newspaper, was here before there was a

UAB. Students have been gathering, editing, and distributing the news

about the UAB community since 1967.

Throughout the years, “Kscope,” as it is known on campus, has played a

vital role in helping keep students informed as well as providing a public

forum for the discussion of timely issues of interest to our community.

As times have changed, so has UAB’s Student Media - trading in

typewriters for computers, adding more color to its print edition, and

aggressively converging what had once been a print-only medium into a

contemporary operation that delivers content not only in print but daily on

the web and through mobile devices.

And, UAB’s Student Media has expanded along the way with these

innovative media:

• Interactive Student Media, the web services group that powers
  Kscope online.

• Streaming internet radio (BlazeRadio (http://www.uab.edu/
  studentmedia))

• Literary and visual arts magazine (Aura Literary Arts Review)

Regardless of the medium, however, at the heart of these operations are

students who gain real-world experience and training that has equipped

them for entry into the professional world. Over the years, teams of

students have won numerous regional and national awards for journalistic

excellence.

Student Media alums have gone on to work for a variety of media,

ranging from community journalism to major metropolitan operations

across the U.S. with most crediting their experiences with student media

at UAB as essential to their careers.

Today, students produce content for all facets of these operations, including

wrangling multimedia and mobile technologies to adapt the

medium for display on smartphones and tablets. These innovations are

produced by students themselves and are among some of the most

cutting-edge concepts in collegiate journalism in the nation.

Student Media is always looking for those who want to join a team

dedicated to finding the next great idea in serving our community.

Perhaps that’s you. Contact us today.

For more information, contact:

Student Media Office

Hill Student Center, 1400 University Blvd., Suite 130 • Telephone (205)

934-3354 • Find us on B-Sync or Email: info@insideuab.com

Student Organizations

UAB recognizes over 300 student-led organizations concerned with the

academic, social, and personal development of students. Organizations

include groups with interests in religion, music, athletics, and cultural

diversity. Additionally, nearly every academic major is represented by a

student organization. Check out our organizations at uab.edu/bsync.

For more information, contact the Office of Student Involvement and

Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center

UAB TrailBlazers

The UAB TrailBlazers (http://www.uab.edu/trailblazers) are UAB's official

student recruitment team. TrailBlazers assist the Office of New Student

Programs by providing in-depth information about UAB to prospective

students and their families. Chosen annually, TrailBlazers strive to

ensure that students know about the diverse academic, cultural, and

extracurricular interests found within the UAB community. These highly

motivated, energetic, and dedicated students are chosen to represent

the Division of Enrollment Management at special on- and off-campus

recruitment events and campus tours. For more information, contact

the Office of New Student Programs Campus Visit Center, Suite 201, (205)

934-9098 or TrailBlazers@uab.edu.

UAB LEAD

UAB LEAD is a student-led organization responsible for coordinating

leadership events and activities for UAB students. UAB LEAD assists

in the development of the Fall Leadership Retreat, Winter Leadership

Conference, Leadership Lectures, workshops for other student

organizations which include leadership development, icebreakers and
introductions, communication and conflict resolution, and strategic management, etc.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

**Undergraduate Student Government Association (USGA)**

The Undergraduate Student Government Association (USGA) is the voice for the undergraduate student body and represents student issues, concerns, and views to the administration. USGA provides programs and services for undergraduate students in the Schools of Business, Education, Engineering, Health Professions, Nursing, Public Health, and the College of Arts and Sciences. Elections for these executive council and senate positions are held each Spring semester. Students can also serve on USGA committees or be appointed to the cabinet or student court. Freshman may get involved through Freshman Forum.

For more information about USGA, contact the Office of Student Involvement and Leadership, usga@uab.edu (getinvolved@uab.edu), (205) 934-8060, Hill Student Center 230, or www.uab.edu/usga.

**University Programs Board**

The University Programs Board (UPB) is the student programming organization on campus. UPB works cooperatively with the Office of Student Involvement and Leadership to provide programs, entertainment, activities, and special events such as homecoming, Miss UAB, comedians, concerts, movies, and other special events.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, or www.uab.edu/studentaffairs.

**Student Services & Facilities**

This page contains a list of facilities and services available to UAB students. For further information on these and other facilities and activities, contact the Information Desk (https://www.uab.edu/studentaffairs/studentcenter), located at the Hill Student Center or refer to the UAB student handbook, Direction, at https://www.uab.edu/students/ and on BlazerNET (http://www.uab.edu/blazernet) on the Student Resources tab.

**Academic Advising**

Academic advising is designed to assist students in identifying and achieving their educational and career goals. Specific guidance is given in selecting majors and choosing courses to satisfy degree requirements. Each student is assigned an academic advisor based on their choice of school and major.

Birmingham Area Consortium for Higher Education (BACHE) Library Cooperation

The Birmingham Area Consortium for Higher Education (BACHE) consists of UAB, Birmingham-Southern College, Miles College, the University of Montevallo, and Samford University. Students, faculty, and staff at BACHE institutions may access the resources of all member libraries by simply presenting their valid ID cards. It is best for students to discuss research projects first with the reference staff at UAB's library before using other member libraries. The rules and regulations of the lending library are in effect.

http://www.uab.edu/bache/

Campus Recreation

The Campus Recreation Center (CRCT) offers students, faculty, staff, and alumni access to a state-of-the-art recreation facility. The UAB Campus Recreation Center offers premier programs, facilities, and services! You will find something for everyBODY – free weights, multipurpose courts, an aquatic center, group fitness studios, nutrition education, cardio-fitness areas, a climbing wall, and much more.

The 150,000 square foot facility covers three floors housing: four basketball/volleyball courts; five racquetball courts (one of which can be converted to squash and four for walleyball); four aerobics studios; one performance studio; 18,000 square feet of weight and cardio-fitness areas; a game room; Kid Zone; an aquatics center with both lap and leisure components; a multi-purpose court used for indoor soccer, floor hockey, indoor flag football and badminton; an indoor track; and a climbing wall.

Patrons can also take advantage of the wellness services here at the Campus Recreation Center, which offer personal fitness assessments, massage therapy, and personal training. In addition, we have a Campus Rec Pro Shop in house, so if you forget something we’ve got you covered and the PowerZone to keep you fueled before and after your workout. Lastly, we have a number of lockers available for rent in 12 month or 3 month contracts. Space is limited, so contact membership services at 205-996-5038 today if you are interested! If you prefer not to purchase a locker, we have several areas in the facility, including the locker rooms, with day use lockers available; just bring a lock, store your belongings while you workout with your own lock, and take it with you when you leave - Free of charge! The CRCT is located at 1501 University Boulevard next to the Campus Green.

Aquatics

The Aquatic Center housed within the Campus Recreation Center provides a place for members to swim laps as well as meet their leisure aquatic needs by swimming laps, floating through the lazy river or taking a dip in the hot tub. In addition, the aquatics program offers swim classes, private lessons, life-guarding certifications WSI (Water Safety Instructor) classes, and pool parties for special events. For questions about pool party requests and/or other pool activities, please visit our website www.uab.edu/campusrecreation.

Fitness & Wellness Services (https://www.uab.edu/students/campusrecreation)

The Fitness and Wellness programs offered at the UAB Campus Recreation Center range from traditional Ufit classes and Studio V performance classes to personal training packages and wellness massage services. For more information on all of our fitness and wellness services or to schedule an appointment today, please contact fitness@uab.edu.

Ufit & Instructional Group Fitness Classes

Ufit classes are FREE to anyone with an active CRCT membership. Feel free to drop in any time or day of the week to participate in the wide variety of classes available! Instructional classes are offered throughout the year and provide anyone pre-registered with a more advanced learning experience. If you are interested in participating in any one of the instructional classes please register at our Membership desk. All Instructional classes are open for active members and non-members.

- We offer a wide variety of fitness classes, designed to fit your scheduling needs. From seasoned cyclers to those wanting to try yoga for the first time, Ufit has a class that will get you moving! Please visit our website to view our current schedule.
- New and challenging classes are continually being offered throughout the year! Look for classes like Cardio & Strength, Bootcamp, Women’s Strength Training, Group Cycling, Aqua Fit. Other classes include: Fit Barre, Step Jump & Pump, Yoga, Pilates, Hip Hop, Zumba, Bosu, Latin Dance, Bharatanatyam Dance and TRX Training. Register online here (http://www.uab.edu/campusrecreation/membership/access-portal/)

Wellness Catering

Wellness Catering is a program designed to cater any recreation, health, and/or wellness topic to the UAB community. All programs are presented by a recreation professional and can be modified for your groups exact needs. Topics covered vary from fitness trends, healthy eating habits, to fitness and nutrition demonstrations. Departments have the opportunity to pick a topic to be presented at a staff meeting, lunch group, or any time of your choice!

Complete Fitness Assessments

Fitness Assessments provide individuals with their baseline measurements of flexibility, endurance, blood pressure, muscular strength, body composition, and cardiovascular fitness. The results of these tests are reviewed by a certified Personal Trainer and are used to help personalize a tailored workout plan specifically for you. To schedule
your Fitness Assessment please email the Graduate Assistant of Fitness & Wellness kplan@uab.edu (krickels@uab.edu) and complete the Health History Questionnaire as well as the Fitness Assessment Form prior to the appointment.

Personal Training
Do you want to get back into shape or simply looking to kick start a new workout? Personal Training is the service for you! Here at the UAB Campus Recreation Center we offer a variety of Personal Training packages for both members and students. Check out our Personal Training now for complete pricing, packing, and details.

Massage Therapy Services
Celebrate a little YOU time by scheduling yourself a massage today! Appointments are available for 30 or 60 minutes and are performed by certified massage therapists. Choose from a variety of massage packages in order to customize the perfect relaxation for you. Massage therapy appointments are based upon the therapists’ schedules and availability. Please allow at least 24 hours advanced notice of your preferred appointment time in order for us to best schedule your appointment.

For more information or to schedule your next appointment, please email a completed Health History Form (https://www.uab.edu/graduate/images/acrobat/forms/SHW_nonclinicalinternational.pdf) and preferred days/times for your appointment to fitness@uab.edu today!

Competitive Sports (http://www.uab.edu/campusrecreation/programs/competitive-sports)
The Competitive Sports program offers activities such as Intramurals and Club Sports that involve individual and team competition.

Intramurals
All UAB students, staff, and faculty are eligible to participate in intramural sports. Faculty and Staff must adhere to the specific entrance policies if they are not campus recreation facility members. Individuals in any team league must have their campus card in possession to be eligible to participate. Every team league is offered in men’s, women’s and co-rec format. Each league will have a 4 week regular season followed by a single elimination playoff. For more information please visit our website or contact intramurals@uab.edu.

Want to sign up? (http://www.imleagues.com/School/Home.aspx?&SchId=927a5b36e94420acad259198f8e8f2)

Individual Tournaments / Events
All single day tournaments are single or double elimination. Tournaments offered include: badminton, corn hole, billiards, table tennis, swim meet, track & field, triathlon, Texas Hold’em, and sand volleyball.

View tournaments here (http://www.uab.edu/campusrecreation/programs/competitive-sports).

*All tournaments start at 6:30 pm with registration starting at 6 pm.
*Tournaments will be free

Club Sports
A club sport is an organized group of individuals established to promote interest in a sport and develop skills of its members in that sport. A club sport may be organized for recreational, instructional, performance, or competitive purposes. For more information please visit our website or contact spettigr@uab.edu.

Adventure Recreation
Adventure Recreation offers outdoor trips and clinics throughout the year including: kayaking, backpacking, camping, climbing, canoeing and whitewater rafting. Also offered are delay certification and lead climbing programs. Trips and clinics, such as the Wilderness First Responder training, are open to university students, faculty/staff, alumni, and the community. Contact outdoors@uab.edu for more information on trips, clinics, and rentals.

Climbing Wall
Located on the mezzanine level of the Campus Recreation Center, the 42’ tall by 36’ wide climbing wall offers 1,512 square feet of climbing. The wall’s climbing surface is constructed of reinforced polymer concrete panels and imprinted to match the look and feel of natural rock. Open to university students, faculty/staff, and alumni. The community may use the wall by private group rental.

Team Building
Campus recreation offers many opportunities for team building initiatives, catering toward campus groups, corporate outings, school groups and more! Our enthusiastic and skilled facilitators will guide your group through fun activities focused on enhancing or developing vital workplace and life skills such as teamwork, cooperation, communication, and trust. Our program can accommodate groups of any size. Initiatives work on developing or enhancing: communication, teamwork, trust, cooperation, team building, planning, and other common work place functions. Contact fagan422@uab.edu.

Rentals
The Outdoor Pursuits Rental Center offers outdoor equipment for various events and is open to university students, faculty/staff, alumni, and the community. Whether backpacking, camping, or canoeing, the rental center has multiple rental time spans on the equipment you might need like sleeping bags, tents, backpacks, and cooking sets.

Campus Dining
Dining on-campus gives you the advantage of never having to worry about keeping cash on hand and never losing your parking space. At UAB we have eleven (11) restaurants on-campus. Just swipe your ONE Card and dine! For more information about Campus Dining, please stop by the UAB Campus Dining office located on the top floor of the Commons on the Green next to the Den, or call (205) 996-6567. You can also visit us online at www.uab.edu/dining.

For a map of dining locations and updated hours of operation visit: www.uab.edu/students/dining/locations-hours.

Meal Plans
Your meal plan gives you the advantage of never having to worry about keeping cash on hand to eat on-campus. Just swipe your ONE Card and dine. For meal plan options and requirements visit www.uab.edu/students/dining/meal-plans.

Dining Dollars
Dining Dollars are funds that you receive from your campus dining fee. All full-time undergraduate students (those students taking twelve (12) or more credit hours on campus) will be assessed a $225 Campus Dining Fee during fall and spring semesters. This Dining Dollars fee is loaded onto a student’s OneCard and is used as a declining balance account accepted at all on campus dining locations. Dining Dollars are not part of a student’s meal plan.

**Hill Student Center**

With over 162,000 square feet, the UAB Hill Student Center is the living room of the university. It’s a place where you can find friends, meals, books, and a variety of student services, meetings and activities. You can find building maps and hours online at uab.edu/studentcenter.

The Hill Student Center has a variety of dining options. In the food court you will find a Panera Bread, Mein Bowl Asian Market, and a Full Moon Bar-B-Que. On the second floor you will find a Starbucks.

The Hill Student Center also offers a variety of meeting rooms and event spaces. It houses eleven meeting rooms, all equipped with audio/visual equipment and can comfortably accommodate meetings as small as eight or as large as forty. The Hill Student Center also has a 6,722 square-foot multipurpose ballroom that is divisible into four different size configurations.

It is easy to reserve spaces in the Hill Student Center simply visit uab.edu/studentcenter to view availability and request space.

**Libraries**

**UAB Libraries** hold more than two million volumes and provide access to thousands of relevant digital resources for information, instruction, and research in support of UAB’s vast academic and medical enterprise. The UAB Libraries system comprises Mervyn H. Sterne Library (http://www.mhsl.uab.edu) as well as Lister Hill Library at University Hospital (http://www.uab.edu/lhluh) and UAB Historical Collections (http://www.uab.edu/historical)’ Reynolds-Finley Historical Library (http://www.uab.edu/reynolds), UAB Archives (http://www.uab.edu/archives), and the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). The faculty and staff of UAB Libraries provide the resources and essential expertise to support excellence in education, research, patient care, and community outreach. Priorities for UAB Libraries include increased access to resources, seamless cloud-based single search capability, campus-wide digital asset management, and increased support for distance and international students and researchers.

**Mervyn H. Sterne Library** (http://www.mhsl.uab.edu)

The Mervyn H. Sterne Library houses a collection of more than one million items and numerous electronic resources that support teaching and research in the arts and humanities, business, education, engineering, natural sciences and mathematics, and social and behavioral sciences. The library is located at 917 13th Street South and online at www.mhsl.uab.edu. (http://www.mhsl.uab.edu) The website is the gateway to all library services and collections including the Undergraduate Research Toolkit, subject- and course-specific Library Guides, and a list of FAQs. Services include research assistance, citation consultations, workshops and faculty-requested classes, assistance with locating materials, and interlibrary loan.

Named in memory of the late Birmingham philanthropist and civic leader Mervyn H. Sterne shortly after it opened in 1973, the library has seminar rooms, study rooms, lockable study carrels, computers, printers, scanners, copiers, and seating for 1,350 users. The first floor of the library was renovated in 2010 to make it even more user-friendly and houses the University Writing Center and a Starbucks. Due to student requests, Sterne Library has extended hours, opening 24 hours a day for five days a week except during holidays and summer terms. For more information on resources and services, visit the Sterne Library website at www.mhsl.uab.edu, call Reference Services at (205) 934-6364 or User Services at (205) 934-4338, or request help by email, text, or chat at www.mhsl.uab.edu/2009/contact.

**Lister Hill Library of the Health Sciences** (http://www.uab.edu/lister)

The Lister Hill Library of the Health Sciences, the largest biomedical library in the state, provides services and resources for UAB students, research and teaching faculty, and clinicians in medicine, nursing, optometry, dentistry, public health, health professions, and joint health sciences. The library was established in 1945, and then dedicated in 1971 in honor of Senator Joseph Lister Hill, a champion for health care and library legislation.

Lister Hill Library, located at 1700 University Boulevard, provides collaborative and group study space on the first floor and quiet study space on the second floor. Lister Hill Library’s website at www.uab.edu/lister provides 24/7 access to databases, electronic journals, ebooks, LHL Guides, FAQs, and recorded classes and tutorials. Services include consultations for conducting searches, guidance for citing resources, assistance with locating materials, and interlibrary loan services. For more information on resources and services, visit the Lister Hill Library website at www.uab.edu/lister, call (205) 934-2230, or request help by email, text, or chat at www.uab.edu/lister/ask.

The Lister Hill Library at University Hospital, located in the West Pavilion, provides onsite support for education, research, and patient care. Access the resources and services for clinicians through the LHL@UH website at www.uab.edu/lhluh or call (205) 934-2275 for more information.

The UAB Historical Collections, located on the third floor of Lister Hill Library, includes the Reynolds-Finley Historical Library (http://www.uab.edu/reynolds), UAB Archives (http://www.uab.edu/archives), and the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). The Reynolds-Finley Historical Library contains rare books, pamphlets, and manuscripts in the history of medicine, science, and health-related fields. This collection dates from the mid-14th century to the early 20th century and includes a core of world-renowned medical classics with important concentrations on medicine in the Civil War, the South, and early America. UAB Archives is the official repository for the permanent records of the University and for archival collections held by UAB. One collecting area for manuscripts is the history of the health sciences, but the repository preserves collections with a wide variety of topics. The Alabama Museum of the Health Sciences preserves over seven hundred years of medical history with instruments, specimens, equipment, and pharmacology used by health care professionals throughout the world, with a special emphasis on material used on and around the University of Alabama at Birmingham campuses. Please call (205) 934-4475 for more information on the Reynolds-Finley Historical Library (http://www.uab.edu/reynolds) or the Alabama Museum of the
Math Learning Lab

Located on the second floor of Heritage Hall, the Math Learning Lab offers free tutoring in basic and intermediate algebra, pre-calculus algebra and trigonometry, business calculus, finite mathematics, elementary statistics, and calculus I, II, and III. One-on-one tutoring and homework help are available with no appointment necessary.

Smolian International House

The Bertha and Joseph Smolian International House, 1600 10th Avenue South, offers services and activities for international students and scholars. Known as the I-House, it provides a focal point for programs and activities designed to foster a free exchange of information and international understanding. The facility includes meeting space for campus groups, as well as community groups having an international purpose. For additional information or a schedule of activities, call (205) 934-3328.

www.uab.edu/students/international

Student Housing and Residence Life

Student Housing facilities include a suite-style residence hall, a semi-suite style residence hall, and four apartment-style residence halls. Student Housing is centrally located on campus and is within walking distance of all classroom buildings, libraries, campus dining facilities, the Medical Center, and the Campus Recreation Center and other student recreation facilities.

Student Housing is limited to full-time undergraduate and graduate students who are admitted to UAB and who are in good standing. "Good Standing" means not on academic or disciplinary suspension. A full-time undergraduate student must be registered for at least 12 credit hours and a full-time graduate student must be registered for at least 9 credit hours throughout the entire academic year. The summer term is treated under a separate contract. Students will be required to satisfy these eligibility standards throughout the term of their Student Housing Contract and to inform Student Housing and Residence Life of any changes in his/her status, which may affect his/her eligibility.

Residence Life Coordinators and Resident Assistants (RAs) serve as live-in professional staff and student leaders within the residence halls. The Residence Life Program consists of educational, cultural, recreational, and social events based on the needs and interests of the residents. In addition to planning these programs, trained staff members are available to answer questions, make appropriate referrals, and assist residents with personal or academic problems.

Since housing at UAB is limited, students should apply as early as possible, particularly if on campus housing is desired for the fall semester. Submitting a Housing Application does not guarantee a space for fall. Every effort will be made to inform applicants of availability. Applications should be completed online. For first time applicants a $25 non-refundable application fee is due along with a $250 prepayment of the room fees for the fall term. Returning residents are also required to submit a $250 prepayment at the time of application. All Student Housing rooms are assigned on a first come, first served basis.

Any questions or concerns may be directed to studenthousing@uab.edu or by telephone at (205) 996-0400. You can also visit the Student Housing & Residence Life website for additional information and resources at uab.edu/housing.

The UAB Bookstore

The UAB Bookstore is located at 1400 University Boulevard inside the new Hill Student Center. The bookstore posts official lists of UAB courses and stocks the textbooks and all other items necessary for successful UAB coursework. Most textbooks can be purchased new or used. The option to rent textbooks is also available for most courses. The bookstore carries study aids, reference materials, school and office supplies; medical instruments, lab coats, and scrubs; and the largest assortment of UAB logo apparel and gifts available. Contact the UAB Bookstore at (205) 996-2665 or visit the store online at www.shopuab.com (http://www.shopuab.com)

University Writing Center

Located on the first floor of Mervyn Sterne Library, the University Writing Center (http://www.uab.edu/writingcenter) (UWC) is UAB students’ go-to place for writing assistance, whether the task at hand is a Freshman Composition paper, a lab report, or a graduate school application essay. In a friendly and professional one-on-one setting, UWC tutors teach students to use writing to discover, apply, and communicate knowledge in all disciplines. Students commonly visit to get help with understanding a writing assignment; brainstorming ideas; developing outlines and claims; understanding and applying instructor feedback; and revising and editing complete drafts. While UWC tutors do not edit for students, they can help students identify their common errors and develop stronger editing processes.

In addition to one-on-one sessions in the Sterne Library location, the UWC offers online consultations for students enrolled in online courses; Ask-a-Tutor, an email service for short writing questions; and regular workshops on topics of common interest. To make an appointment, visit the UWC’s website (http://www.uab.edu/writingcenter) and log onto the online scheduling system with your Blazer ID and password. Like the UWC’s Facebook (http://www.facebook.com/UABWritingCenter) page and follow the UWC’s Twitter (http://www.twitter.com/UABWritingCntr) page to stay in touch and find out about upcoming workshops.

One Stop

What if you could get answers to your questions about your student account, financial aid and registration all in one place? Stop running from office to office and make the One Stop your first and possibly your only stop! If we can’t help you on the spot, we’ll do the legwork for you or connect you to the appropriate resource.

Contact us by email, phone, or in person.

One Stop Student Services, Room 103 of the Hill Student Center, 1400 University Blvd
onestop@uab.edu
(205) 934-4300, 855-UAB-1STP (822-1787)

9:00 am - 5:00 pm, Friday

Information Center

Information regarding programs, services, and activities at UAB is available at the UAB Information Center. Referrals to the appropriate department, office, or person may be made for more specific information. The Information Center is located just inside the 14th Street entrance of the Hill Student Center, 1400 University Blvd. For additional information,
UAB students are making a substantial investment of time and money by pursuing higher education, and our office takes each student’s career goals seriously. Creating a career plan requires specific goals and milestones. All graduate and undergraduate students have access to the full range of services provided by UAB’s department of Career & Professional Development.

Our services are intentionally designed around current workforce trends and industry best practices. Here is a broad list of services offered by Career & Professional Development:

- Individual career coaching
- Personalized, in-person resume reviews
- Interview practice for jobs, internships, medical school, and graduate school programs
- Monthly career workshops (topics vary based on workforce trends)
- Professional and Industry Speaker Panels
- Career Fairs
- Credit-based courses:
  - Career Mapping (UNIV 300) – 3 credits – 50% online, 50% in-person
  - Job Search Essentials (UNIV 200) – 1 credit – 100% online
  - HireABlazer – UAB’s career management system for students

All UAB students have access to HireABlazer through BlazerNet and can download the HireABlazer app for their phone.

Both students and parents can stay informed of career events and receive professional development information via Twitter (@uabcareerserve (https://twitter.com/uabcareerserve)) or Facebook (Career & Professional Development (https://facebook.com/uabcareerservices)).

**Disability Support Services**

Disability Support Services (DSS), located in the Hill Student Center, serves as the central campus resource for students with disabilities. The goal of DSS is to provide a physically and educationally accessible university environment that ensures an individual is viewed on the basis of ability, not disability. DSS staff members work individually with students to determine appropriate accommodations. To be eligible for services, students need to complete an application, submit documentation of their disability and meet with our counseling staff.

For more information, contact Disability Support Services at (205) 934-4205 (voice) or 934-4248 (TTY) or http://www.uab.edu/students/disability/ E-mail contacts are welcome at dss@uab.edu.

**Physical Address**

Hill Student Center
1400 University Boulevard

**Mailing Address**

UAB One Stop
1400 University Blvd., Hill 103

**International Student and Scholar Services**

International Student and Scholars Services (ISSS) is committed to providing quality services and programs to retain and support the UAB international community.

ISSS advises foreign students and visiting international faculty and staff in matters of immigration and federal and state taxation, and provides orientation and support programs to facilitate the transition to the UAB and Birmingham community. ISSS also serves as a collaborative resource to facilitate, promote, and strengthen international understanding on campus and throughout the Birmingham community.

International Student and Services also operates the Smolian International House. For additional information, call (205) 934-3328 or visit our Web page at www.uab.edu/international.

**Multicultural Scholars Program (MSP)**

The Multicultural Scholars Program (MSP) provides special resources and services to better prepare students for options after graduation from UAB, including admission to graduate and first-professional schools or initial entrance into a competitive job market. This multi-faceted program focuses on academic excellence and social development. The program takes students from the freshman year of college to graduation and beyond, which exemplifies the program’s motto "each one, reach one."

All programs and services are designed to help students ease their transition to college, maximize their college experience, achieve their goals, and prepare for the next phase of their lives. For more information, contact Student Multicultural and Diversity Programs in the Campus Recreation Center room 190, Telephone (205) 934-8225, electronic mail jonesc1@uab.edu or read about our programs and services on the Student Multicultural and Diversity Programs Website, https://www.uab.edu/students/diversity/.

**ONE Card**

The UAB ONE Card serves as the official student ID and offers access to a variety of services and resources on and around campus. Students use their ONE Card to enter residence halls and the Campus Recreation Center, attend UAB athletic and cultural events and check out materials from UAB libraries. With their ONE Card, students can enjoy discounts on tickets to a wide variety of on and off-campus events through the UAB Ticket Office. The ONE Card also functions as a debit card, allowing students a convenient and secure way to pay for goods and services at a variety of on campus and local area merchant locations.

General information about the UAB ONE Card, including a list of carding locations, is available at www.uab.edu/onecard. Note: A photo ID is required to have your initial ONE Card made. Questions about ONE Card services can be directed to onestop@uab.edu or (205) 934-4300.

**Parking**

All students who desire to park in UAB student parking facilities must purchase a permit from Parking and Transportation Services. Permits can be purchased by the term or for the full academic year. Fees vary according to lot. Contact Parking and Transportation Services at (205) 934-3513, for details, or visit online at www.uab.edu/parking/.

Birmingham, AL 35294
Both the university and the City of Birmingham issue citations in student lots to vehicles illegally parked or not displaying a proper permit. Students are responsible for paying all fines and fees imposed. Any delinquent ticket payments may be added to the student's account in the Student Accounting Office. If a student accumulates three or more delinquent tickets and/or accumulates more than $45.00 in citations, the student's vehicle may be immobilized or impounded at his or her expense.

Handicapped spaces are conveniently located throughout campus. A valid handicap permit must be displayed to park in a handicapped space in addition to the applicable parking permit. All state issued handicap parking permits MUST be registered with the UAB Parking Office in order to avoid a citation and park in a restricted UAB lot or deck.

For additional information and a campus parking map, contact:

**UAB Parking and Transportation Services**

608 Eighth Street South • Telephone (205) 934-3513 • E-mail: uabparking@uab.edu • Website: www.uab.edu/parking/

**Blazer Express**

The UAB Blazer Express Transit System is a service that provides transportation throughout the University campus. With a valid UAB ID badge, students, employees, and authorized visitors can enjoy fare-free bus transportation along 6 designated routes. Buses are ADA-accessible and can seat up to 35 riders. Bus service is provided Monday – Friday from 5:30A – 12:00A. Safety escort service is available through Blazer Express seven days a week from 9:00PM – 5:30 AM by calling (205) 934-8772.

**Motorist Assistance Roadside Service (MARS)**

Motorist Assistance Roadside Service (MARS) is a free service available to all visitors, students, and employees parking on campus who need help with a dead battery, flat tire, keys locked in a car, or empty gas tank. The service is available weekdays 7:30 AM - 10:00 PM, except University holidays. For assistance, call (205) 975-6277.

Normal 0 false false false EN-US X-NONE X-NONE MicrosoftInternetExplorer4 /* Style Definitions */ table.MsoNormalTable 
{mso-style-name:"Table Normal"; mso-ty cascading style rules;}

**Placement Test**

The UAB Testing Office provides individual placement testing. Group testing is also available at times and locations listed each term in the UAB Class Schedule. For further information, contact the Testing Office, 936 Building, 936 19th Street South (205) 934-3704.

http://www.uab.edu/testing/

**Student Health & Wellness Center**

The Student Health & Wellness Center (SHWC) provides a comprehensive and integrated program of services to meet the medical, counseling and wellness needs of UAB's undergraduate, graduate and professional students. Creating a healthy campus and promoting student wellness are essential to supporting student learning and success. The SHWC is staffed by a group of committed medical providers, counselors, nurses, clinicians, wellness specialists, and support staff who embrace the opportunity to meet your wellness, medical and counseling needs. Those services and resources are available in the new state-of-the-art Student Health & Wellness Center located at 1714 9th Ave. South (LRC building), Birmingham, AL 35294-1270.

Blazer Express has convenient drop-off and pick-up locations near the Student Health & Wellness Center. Patient and client parking is available at the South entrance to the building.

**Health Services**

Student Health Services offer comprehensive primary care services including acute and chronic care, women's health, a Registered Dietitian, mental health evaluation and treatment, immunizations, allergy immunotherapy, and treatment of minor emergencies. A Sports Medicine and Sexual Health Clinic are also available, as well as a Certified Athletic Trainer located in the UAB Recreational Center. On-site lab and x-ray services are available. After-hour's consultation is provided through provider on call coverage, 24 hours a day/7 days a week/365 days a year. To ensure convenience and access, the Health Services operates under an open-access appointment scheduling system. Go to www.uab.edu/studenthealth for more information or to schedule an appointment through our patient portal. You may also call (205) 934-3580 to schedule an appointment or for general information. All currently enrolled UAB undergraduate and graduate students have access to medical office visits, evaluation and development of a treatment plan at no additional cost beyond the payment of regular UAB tuition, regardless of insurance coverage. Diagnostic testing (lab and x-ray) is available on a fee-for-service basis and can be billed to the student's insurance or, for those without insurance, directly to the student. A more complete listing of no-cost services and those services available, but at additional cost, can be accessed at http://www.uab.edu/studenthealth/student-health-coverage

**Counseling Services**

Counseling Services assists in developing students' potential in physical, academic, spiritual, psychosocial, emotional, and vocational areas. Common presenting concerns include depression, anxiety, grief, relationship concerns, stress management, eating disorders, alcohol or substance abuse concerns, identity, conflict, gender transition and trauma. In addition to individual and couples counseling, services include wellness programs, group opportunities, and educational resources. Confidential counseling services are available to all currently enrolled UAB students at no cost. For more information or to schedule an appointment call (205) 934-5816.

**Student Insurance Coverage (Mandatory and Optional)**

In addition to services provided at the SHWC, select academic programs have a mandatory requirement to have major medical health insurance to ensure coverage for hospital, emergency room, specialty physician care and diagnostic testing. For more information on the mandatory insurance coverage requirement go to the SHWC website at www.uab.edu/studenthealth/insurance-and-waivers/mandatory-insurance-waivers.

Viva Health offers an optional Student Health Insurance Plan for full-time registered undergraduate students taking a minimum of 9 credit hours and non-health related graduate students taking a minimum of 5 credit hours. The plan may be extended to cover the student's spouse and dependents for an additional premium. Please...
visit www.vivaemployer.com (http://www.vivaemployer.com) for more information.

To learn more about services available through the Student Health and Wellness Center, please visit www.uab.edu/studenthealth or contact us at one of the following phone numbers for assistance.

**TRIO Academic Services**

Fully funded by the U.S. Department of Education, TRIO Academic Services (Student Support Services) offers assistance to UAB's degree-seeking undergraduate students who are either first generation college students (neither parent has a bachelor's degree), are low-income, or have a disability. The program seeks to increase eligible students' chances of graduating from UAB in four years. Students participate in the program from their entrance to UAB as freshmen or sophomores until graduation.

Intensive services are provided during the freshman and sophomore years; fewer services are provided during the junior and senior years. Services offered include free tutoring from freshman courses through senior courses, workshops to improve study skills, computerized basic skills assistance, computer training and usage, counseling and referral, graduate and professional school admission assistance, and educational and cultural activities. Students also receive a UAB-funded incentive stipend that increases yearly. Student who enter the TRIO program as freshmen, remain in good standing, and graduate in four years, will be eligible for the largest amount of money. Students are required to be full time and complete a minimum of 27 semester hours with at least a 2.0 grade point average each year. Required developmental courses are counted in these 27 semester hours. Students must maintain eligibility for financial aid if needed and participate fully in needed program services.

Priority acceptance is given to conditionally admitted freshmen who are attending UAB for the first time during fall semester. Limited space is available for freshmen and sophomores who are already attending UAB. New Participant Applications are available from April 1st to August 25th of each year. An application can be downloaded by clicking on the link below (this link will only be active from April 1st to August 25th) or can be picked up from our office during this time period. Applications are also emailed to newly admitted students accepted to UAB between April 1st and July 1st. **The application deadline is August 25th.**

**Download Trio Academic Services Application**

**TRIO STEM-H**

THE TRIO STEM-H (SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS, AND HEALTH SCIENCES) PROGRAM @ UAB IS AN EDUCATIONAL OPPORTUNITY THAT IS FEDERALLY FUNDED BY THE U.S. DEPARTMENT OF EDUCATION. THE MISSION OF TRIO STEM–H IS TO PROVIDE ACADEMIC AND PERSONAL SUPPORT TO HELP PARTICIPANTS BE SUCCESSFUL AS THEY PURSUE THEIR EDUCATIONAL GOALS AT UAB.

**What are the benefits of being in the TRIO STEM-H Program?**

- Individualized Guidance: One-on-one assistance to help students make a smooth transition to college, develop goals and create a graduation plan.
- Academic Support: Weekly tutoring sessions and workshops.
- Workshops: Sessions on time management, learning styles, résumé writing, etc.
- Financial Advising: Assistance in applying for financial aid (FAFSA), scholarship searches, and financial counseling including help in creating a budget, managing credit, debt and personal finances.
- Career and Academic Guidance: Success Coaching and assistance with academics, including career and educational planning, mentoring, graduate school tours, and career development.
- Resources: Access to textbooks, calculators, reference materials, computers, FREE printing, graduate school prep tests and quiet study space.
- Money: STEM-H Grant-Aid and UAB Stipend.
- Cultural Events: Free cultural events and trips that will broaden horizons and enrich life experiences. Also STEM-H provides opportunities to study abroad.
- Campus Connections: A place to feel connected with others and UAB.

**Who Can Participate in TRIO STEM-H?**

All classifications selected have an academic need and:

- are first-generation college students *(neither parent completed a bachelor’s degree)*,
- have a documented physical, psychological or learning disability *(that may affect their role as a college student)*, and/or
- have a limited family income *(determined by taxable income level and family size)*

**How do I find out more information?** Contact us at sbenjamin@uab.edu or visit us in the Hill Student Center, Suite 315.

**Director:** Brian E. Johnson, Ph.D.

**Coordinator:** Megan K. Talpash

**Contact:** www.uab.edu/educationabroad | 205-975-6611
Mission

The mission of the UAB Office of Education Abroad (UABEA) is to administer, establish, and send UAB students on high-quality education abroad opportunities to prepare them for success in the globalized world.

Description

Pursuant to our mission, UABEA engages in the activities described below.

Study Abroad: Take courses for which academic credit is received and transferred to UAB on our supported study abroad programs. This includes academic credit for student exchanges, UAB affiliate programs, and faculty-led programs that feature traditional classes, research, service learning, internships, volunteerism, shadowing, clinical rotation, and observations. Our office can help students with aspects from selecting a program to facilitating their transition back to UAB.

Student Organizations Abroad: Travel abroad as part of a UAB student organization; including Outreach Abroad, Outdoor Pursuits, artistic performances, athletic activities, or other student organization travel. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Student Conference Travel Abroad: Present at or attend a conference that takes place abroad as a UAB representative. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Passport Services: Apply for a passport conveniently on campus. As an official U.S. Department of State Passport Acceptance Facility, we are happy to accept passport applications for students, employees, and members of the community. Our passport service is open to the public.

Destinations

With programs in over 45 different countries, there's something for everyone. Programs are available in the United Kingdom, Italy, Spain, France, China, Germany, Costa Rica, Australia, Ireland, Japan, and many more countries. Over 40 UABEA programs cost approximately the same as UAB tuition + room + board.

Dates

Programs are available for fall semester, spring semester, academic year, calendar year, summer, Thanksgiving Break, and Spring Break.

Languages

Programs are available in English, as well as all of the foreign languages taught at UAB (and a few that aren't).

Eligibility

To be eligible to apply for our programs, one must:

1. be an enrolled UAB student;
2. be 19 years of age or older (or have parental permission); and
3. be in good academic, disciplinary, and financial standing with UAB.

Some programs have additional eligibility requirements, such as GPA minima, listed on the individual program webpages.

Students may petition to the Director of Education Abroad for a possible exception to the eligibility criteria.

Subjects of Study

Students may take core curriculum courses while abroad, as well as courses for their major and minors. Elective credits are also available.

Course Articulation

Students need to consult with UABEA before studying abroad to initiate course articulation, the process by which UAB course equivalency is determined for each course to be taken while studying abroad. Course articulation involves the student, UABEA, the host study abroad university, and UAB department chairs and advisors all working together and commonly takes approximately one month to complete.

It is highly recommended that the students contact UABEA to begin the course articulation process at least one month before the application deadline for the selected program. Students who don’t begin the articulation process early enough prior to studying abroad, may not know how, or if, their courses abroad will count toward completion of a UAB degree.

Grade Posting

All grades earned while abroad will be posted to the student's UAB transcript and included in GPA calculations. Letter grades are used rather than pass/fail marks. In all cases, students must participate fully in all course activities and meet all stated course requirements. Auditing of any course abroad is not permitted. The process of grade posting varies depending on the program type:

UAB Exchanges are programs for which UABEA has established an exchange agreement with a university abroad. Students earn direct UAB course credit. Students on exchanges are usually mainstreamed into regular classes with the student body at their university abroad. Courses taken on student exchanges will begin with IN ("International" indicating that the course took place at an international UAB exchange location) and a two-letter subject code such as ME (Mechanical Engineering), GN (German), SP (Spanish), etc. to indicate the subject that was studied. Additionally, each of the courses are numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university. INxx courses are repeatable. INxx courses include:

UAB Affiliate Programs are co-organized by UABEA in cooperation with an education abroad provider and/or a foreign university. Students receive a transcript from the foreign university or U.S. university of record and have transfer credit appear on their UAB transcript. UAB affiliate programs include the UAB/USAC and UAB/ISA programs listed here (http://educationabroad.uab.edu/index.cfm?FuseAction=Programs.ListAll&). Courses taken on UAB Affiliate Programs will begin with INTL ("INTERNational" indicating that the course took place at an international UAB Affiliate Program) plus the host institution subject code to indicate the subject that was studied. Additionally, each of the courses is numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university.

UAB Faculty-Led Programs are UAB courses that are developed and taught by UAB faculty and have a field trip that takes place far from campus, usually outside of the United States. The field trips are typically about 1 to 2 weeks in duration and the entire class, faculty leader and students, travel together. Students earn direct UAB course credit. For UAB Faculty-Led Programs, the instructor will assign the final grade as is normally done for any UAB class taught on campus. (See the Grading Policies and Practices (p. 89) section of the UAB Catalog of Undergraduate Programs). UAB Faculty-Led Programs are designated with SA following the course title.

UAB Internship/Practicum Courses Abroad are UAB courses through which students do an internship or practicum, actually working abroad in a company or organization related to the student's area of study, and earn direct UAB course credit. For UAB Internship/Practicum Courses Abroad the instructor will assign the final grade as is normally done for any UAB internship/practicum course taken domestically.

Residency
Courses taken on UAB Exchanges, UAB/USAC programs, UAB/ISA programs, U.S. - UK Fulbright Commission Summer Institutes, U.S. Department of State Critical Language Scholarship Program, Clinton Scholarship at the American University in Dubai, UAB Faculty-Led Programs, and UAB Internship/Practicum Courses Abroad will satisfy the UAB residency requirement. Students need to contact UABEA to ensure their Graduation Planning System records are noted accordingly.

Changes of Grades
Requests for grade changes to UABEA must be accompanied by official documentation sent directly from the host university.

UAB Testing Office
The UAB Testing Office provides testing services for UAB students, prospective students, and the community at large. The following tests and/or services are available:

- Admissions examinations for undergraduate and graduate programs
- American College Testing Program (ACT)
- Scholastic Aptitude Test (SAT)
- Miller Analogies Test (MAT) (acceptable to some graduate programs)
- College Level Examination Program (CLEP)—General and Subject Examinations
- Correspondence examination monitoring
- Professional licensing/certification/registration examinations

For further information on any of the above, contact the UAB Testing Office, 936 Building, 936 19th Street South, Telephone (205) 934-3704.

UAB Ticket Office
The UAB Ticket Office is an excellent source for acquiring the best seats to campus events, including performances at the Alys Stephens Center, and UAB Blazers Football and Basketball games. It also serves as the point-of-purchase for events sponsored by the Department of Student Life and other UAB organizations and off-campus agencies. In addition, the UAB Ticket Office offers discounted tickets for Carmike and Regal Cinemas, and to most major theme parks across the southeast, including Six Flags over Georgia, Alabama Splash Adventure and Dollywood. Discounts to the major aquariums in the area are also available including: Georgia Aquarium and Ripley's Aquarium of the Smokies. First-class postage stamps are also available for purchase (UAB internal requisitions accepted). For additional information, contact the UAB Ticket Office, located inside One Stop Student Services in Room 103 of the Hill Student Center, 1400 University Blvd., Birmingham, AL 35294-1150. Telephone: (205) 934-8000.

Visit our website https://www.uab.edu/students/one-stop/ticket-office.

UAB Transfer Center
The UAB Transfer Center assists transfer students throughout the transfer process, from admissions to enrollment. Transfer Center staff evaluate coursework from other colleges and universities, but students can also use the Transfer Equivalency web resource at http://www.uab.edu/students/admissions/credit-equivalencies/transfer-to.
determine how courses may transfer to UAB. For more information, email TransferCenter@uab.edu

Veterans Services

UAB Veterans Services (UAB-VS) assists veterans, reservists, guardsmen, and dependents of disabled or deceased veterans to access their educational benefits. UAB-VS serves as a liaison between the student and the local and federal agencies, including the State Department of Education, Department of Defense, and the Department of Veterans Affairs. The office staff assist students in applying for educational benefits, securing tutorial assistance and obtaining veterans work-study positions. For further information, contact UAB Veterans Services, Hill Student Center, Room 313, 1400 University Blvd., Telephone (205) 996-0404 or read about our programs and services at www.uab.edu/students/veterans

VA Complaint Policy

Any VA Complaint against the school should be routed through the VA GI Bill Feedback System by going to the following link: http://www.benefits.va.gov/GIBILL/Feedback.asp. The VA will then follow up through the appropriate channels to investigate the complaint and resolve it satisfactorily.

Choice Act

The University of Alabama at Birmingham in the State of Alabama complies with section 702 - Tuition under Veteran’s Access Choice and Accountability Act of 2015, providing for resident (in-state) tuition and fees for the following:

• A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post 9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Alabama while attending a school located in the State of Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge from a period of active duty service;

• Anyone using transferred Post – 9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in the State of Alabama while attending a school located in the State of Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor’s discharge from a period of active duty service;

• A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b) (9) who lives in the State of Alabama while attending a school located in the State of Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member’s death in the line of duty following a period of active duty service;

• Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge or death described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States code.

Financial Information

Tuition and Fees

Undergraduate Courses

The Detailed Tuition and Fee Schedule is available online https://www.uab.edu/students/paying-for-college/detailed-tuition-and-fees

Estimated Tuition and Fees

To ascertain Tuition and Fees Schedule please visit BlazerNET located online at www.uab.edu/blazernet

Deadlines

Student account payment deadlines are available on the Academic Calendar for each term at http://www.uab.edu/academiccalendar. Students who do not make the initial payment of 100 percent of the total account balance by the first payment deadline will automatically be enrolled in the Blazer Flex Plan which will include a $25 enrollment fee. The Blazer Flex Plan allows students to make payments in three equal installments. Payment deadline dates are available on the Academic Calendar and at http://www.uab.edu/students/paying-for-college/when-to-pay.

Penalties

Students who fail to pay by the deadline are subject to substantial late fees. Students with delinquent accounts will not be allowed to register at UAB, and transcript requests will not be honored until all accounts are paid in full. The list of penalties is available online at http://www.uab.edu/students/paying-for-college/when-to-pay/penalties.

How to Pay

Payments can be made via the web with a Blazer ID and Password at www.uab.edu/blazernet. The One Stop office also has a drop box where checks can be dropped off. Payments can also be made at Student Accounting Services. All fees are due by the published deadline, as indicated on the UAB Academic Calendar at http://www.uab.edu/academiccalendar. For tuition questions please call Student Accounting Services at (205) 934-3570.

Withdrawing from Courses

To avoid academic penalty, a student must withdraw from a course by the withdrawal deadline shown in the academic calendar and receive a grade of W (withdrawn). The withdrawal period ends at approximately 75% of the academic term. Failure to attend class does not constitute a formal drop or withdrawal.

Withdrawal from courses can only be accomplished using official procedures. The official withdrawal must be completed online in BlazerNET. In extraordinary circumstances, if it is impossible for the student to withdraw online the student may mail a withdrawal letter to the Office of the Registrar. The official date of withdrawal will be the date the
Financial Information

letter is received in this office. If the official date of withdrawal is after the last day to drop without paying, no tuition or fees will be refunded.

For financial aid purposes, the date of last class attendance will be the official date of withdrawal unless otherwise documented. Note that individual schools may have withdrawal rules in addition to the above.

Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

Exceptions
All students are responsible for adhering to UAB’s academic policies, as published in the UAB Undergraduate Catalog. The Provost may make exceptions to policies. Exceptions will only be made in extraordinary circumstances. Only in cases of serious illness, which precludes a student from attending classes, or a call to active military service, can a student qualify under this policy for either administrative or academic withdrawal from courses from that semester. In such instances, students requesting an exception to policy must provide the cause specific documentation in order for the request to be considered.

Requests are evaluated only from written documentation and not through appointments or telephone calls. Information and forms are available online. (https://www.uab.edu/students/one-stop/policies/exceptions-to-academic-policy/academic-policy-appeal) (Please note that grievances of an academic nature are addressed through the Academic Grievance Policy). Requests for exceptions must be submitted at the earliest possible time. Consideration will not be given to any request submitted later than the term immediately following the term for which the exception is being requested.

A full reduction in tuition and associated fees will be made for appropriately documented serious illnesses or military service activation, which preclude a student from continuing his/her studies at UAB. For students receiving refunds, such refunds will first be applied to any outstanding obligations and to any scholarship, grant, or loan the student has received for that term. A student who is receiving any form of Federal Title IV Financial Aid will be liable for any unearned funds received as determined by the Federal Return of Funds Policy (check with Student Accounting Office (http://financialaffairs.uab.edu/content.asp?id=261145) for details.)

Failure to adhere to the published drop and withdrawal deadlines (as outlined in the UAB Catalog and the UAB Class Schedule) does not qualify under this policy as an Academic Exception.

Exceptions to Academic Policy • Office of the Registrar • 1605 11th Avenue South • Birmingham, AL 35205 • (205) 934-8228

Financial Aid to Students
Students should apply for financial aid if they need assistance in paying for the cost of education. Students applying for financial aid are considered for all programs for which they are eligible. Assistance generally takes the form of a combination of grant, loan, and employment. The amount of the award is based on the financial need of the student, taking into consideration the student’s total expenses and the family’s financial circumstances. A nationally recognized method of analysis approved by the federal government is used to determine the family’s ability to pay toward the cost of education.

Applying for Financial Aid
Students are encouraged to complete the Free Application for Federal Student Aid (FAFSA) available online at http://fafsa.gov/ in October. The earliest students can submit the FAFSA is October 1, 2016. Instructions and UAB forms are available online at https://www.uab.edu/students/ paying-for-college. Since some of the aid programs have limited funding, students are encouraged to submit all required forms to the financial aid office by December 1 for financial aid for the following fall to ensure they receive aid from all programs for which they are eligible. In order to meet the tuition and fee deadlines, completed applications should be submitted no later than 30 days prior to the tuition due date. Students must reapply for financial aid each academic year.

Since procedures and rules are subject to change, students interested in applying for financial aid can receive further information online at www.uab.edu/financialaid.

Financial Aid Programs
Federal Pell Grants
The federal government has allocated funds that currently provide grants up to $5,920 per year for eligible students. All undergraduate students needing financial assistance should apply.

Federal Supplemental Educational Opportunity Grants
Federal Supplemental Educational Opportunity Grants provide assistance for undergraduate students who demonstrate financial need. The maximum annual grant at UAB is $1,500.

Federal College Work-Study Program
Eligible undergraduate and graduate students may work part time and earn money to help pay their educational expenses while attending school. On-campus and off-campus jobs are available in areas related to the student’s educational interests.

Federal Direct Subsidized Loan
The Federal Direct Subsidized Loan is a need-based loan for undergraduate students with a current fixed rate of 3.76%. Repayment begins six months after the student’s enrollment level drops below half time. Annual loan limits are $3,500 for freshmen, $4,500 for sophomores, $5,500 for juniors and seniors. The aggregate limits are $23,000 for dependent undergraduates and $57,500 for independent undergraduates.
Federal Direct Unsubsidized Loan
This is a non-need-based loan with a current fixed rate of 3.76% for undergraduate students. Interest must be paid while the student is in school or must be capitalized as agreed upon by the borrower and lender. Repayment of the principal and any capitalized interest begins when the student’s enrollment status drops below half time. The maximum annual loan amount is the Federal Direct Stafford Loan annual limit minus the student’s amount of eligibility for a Federal Direct Stafford Loan.

Additional Federal Direct Unsubsidized Loan
Independent students or dependent students whose parents cannot borrow under the Federal Direct PLUS Program may borrow $4,000 as freshmen and sophomores, $5,000 as juniors and seniors

Federal Direct Parent Loan for Undergraduate Students
This is a non-need-based loan with a current fixed rate of 6.31%. Repayment of principal and interest begins immediately after the loan has been disbursed. Annual loan limits are the cost of attendance minus other aid.

Scholarships and Merit-Based Awards

Freshmen
To be eligible for a Freshman Academic Scholarship at UAB, Alabama residents must submit their undergraduate admission application and all required documentation (official high school transcript and official ACT and/or SAT scores) by December 1 of their senior year in high school (May 1 for out-of-state residents). Entering freshmen who have their admission documents postmarked by that date are automatically considered for ACT & GPA-based scholarships upon admission to UAB. The December test scores from their senior year will be the last scores considered for scholarship purposes. The examined GPA will be the cumulative GPA at the time of admission. All scholarships are awarded on a first-come, first-served basis to qualified students. Scholarships from specific schools and departments may require additional applications, and their deadlines may be earlier than December 1. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART, UAB's Blazer Scholarship Management and Resource Tool, beginning October 1 of each year at uab.edu/bsmart.

For Alabama Residents

Presidential Recognition Scholarship: Tuition and academic fees for up to 15 credit hours per semester (fall and spring only) with an ACT of 30 or higher and a cumulative GPA of 3.5 or higher.

Collegiate Honors Scholarship: $5,500 with an ACT of 27-29 and a cumulative GPA of 3.5 or higher or an ACT of 30-36 and a cumulative GPA of 3.0-3.49.

UAB Breakthrough Scholarship: $3,000 with an ACT of 24-26 and a cumulative GPA of 3.5 or higher.

UAB Academic Achievement Scholarship: $2,000 with an ACT of 20-23 and a cumulative GPA of 3.5 or higher or an ACT of 24-29 and a cumulative GPA of 3.0-3.49.

For Out-of-State Residents

Blazer Elite Scholarship: $15,000 with an ACT of 30 or higher and a cumulative GPA of 3.5 or higher.

Blazer Gold Scholarship: $12,000 with an ACT of 26-29 and a cumulative GPA of 3.5 or higher.

Blazer Pride Scholarship: $10,000 with an ACT of 24-25 and a cumulative GPA of 3.5 or higher or an ACT of 26-36 and a cumulative GPA of 3.0-3.49.

Blazer Distinction Scholarship: $7,500 with an ACT of 20-23 and a cumulative GPA of 3.5 or higher or an ACT of 24-25 and a cumulative GPA of 3.0-3.49.

For National Merit Finalists and National Hispanic Recognition Program Scholars

Entering freshmen who are recognized as National Merit Finalists or National Hispanic Recognition Program Scholars are eligible to receive the UAB Presidential Scholarship for National Scholars, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 4 years (8 academic semesters). The award also provides a one-year on-campus housing allotment for the freshman year and a one-time technology stipend of $1,000 for the fall semester of the first year. In addition, students will receive a one-time $2,500 stipend to be used for experiential learning (education abroad, internships, co-ops, etc.) To obtain this scholarship, National Merit Finalists must name UAB as their first choice with the National Merit Scholarship Corporation (NMSC). National Hispanic Recognition Program Scholars must send a copy of their notification letter and certificate to scholarships@uab.edu by May 31 of their senior year in high school.

For International Students

UAB International Scholarship: This scholarship, valued at US $5,000 per year, is available to international students who are enrolling as first-year, full-time, degree-seeking students in an undergraduate program at UAB. To be considered, applicants must meet the following requirements: graduate from a secondary or high school outside of the United States, have a minimum grade point average of 3.0/4.0, have not enrolled in post-secondary work, anticipate holding an F-1 visa and currently live outside of the United States. Students must be accepted prior to May 1 for the August intake. The examined GPA will be the cumulative GPA at the time of admission. All scholarships are awarded on a first-come, first-served basis as funds are available and are renewable for a total of 4 years (8 academic semesters). Students who are receiving governmental scholarships or other external support are not eligible to receive this award.

Other Scholarships for which Entering Freshmen May Apply

To apply for additional scholarship opportunities, students must first submit the General Application in BSMART, UAB's Blazer Scholarship Management and Resource Tool, at uab.edu/bsmart. Once the General Application is completed, students will be matched with scholarships for which they may qualify and prompted to answer additional questions, if necessary.

AP Achievement and Recognition Awards for High School Seniors in the Birmingham City School System: Advanced Placement (AP) students who are currently enrolled in 1 of the 7 high schools in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn) may receive 1 of 2 AP Awards. To be considered, students must be
admitted to UAB by March 1 of their senior year in high school, complete the Free Application for Federal Student Aid (FAFSA) by March 1, complete a minimum of 2 AP courses, earn grades of B or higher in all AP coursework, and submit an AP Recognition Award Application at uab.edu/bsmart by March 1. (Students must first submit the General Application in BSMART in order to access the AP Recognition Award Application.) Up to 50 applicants may receive a one-time AP Recognition Award of $1,000. Up to 20 applicants who earn a score of 3 or higher on a minimum of 2 subsequent AP exams may have their AP Recognition Award upgraded to an AP Achievement Award, which guarantees that the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid for a total of 4 years (8 academic semesters). The actual value of this award is dependent upon any grants and/or academic scholarships the student has been offered by UAB.

Birmingham City School Scholarship: This renewable award is for entering freshmen who graduate from a high school in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, W enonah, or Woodlawn). This award will annually increase in the following manner, providing a total of $13,500 in scholarship funding over a 4-year period: $3,000 for the first academic year; $3,000 for the second academic year; $3,500 for the third academic year; $4,000 for the fourth academic year. Qualified applicants must be admitted to UAB by May 1 of their senior year in high school and enroll during the fall semester immediately following their high school graduation. A separate scholarship application is not required.

Birmingham News-Clarence B. Hanson, Jr. Scholarship: This renewable award is for incoming freshmen who are residents of Blount, Jefferson, Shelby, St. Clair, or Walker counties in Alabama. Consideration is based on financial need, leadership and academic achievement. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.5 or higher, have a composite ACT score of 25 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents. Up to 2 awards will be given each year.

Charles William Ireland Presidential Honors Scholarship: This renewable award annually provides $12,000 toward tuition costs and a UAB summer research stipend of $1,000. It also provides an on-campus housing allotment of up to $6,200 each year (fall and spring only). To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Applicants should demonstrate outstanding character and integrity, potential for leadership, and the promise of significant achievement in his or her chosen field. Approximately ten applicants will be selected to participate in an on-campus interview in late February or early March, and one entering freshman will be selected as the Charles William Ireland Scholar. Students must be U.S. citizens or permanent residents to receive this award.

Dottie Monro Presidential Minority Scholarship: This renewable award is for incoming freshmen who are minority students. Consideration is based on financial need and academic achievement. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents.

Energen First Birmingham City Scholarship: This renewable award is for entering freshmen who are first generation college students and graduates of a high school in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn). Consideration is based on academic promise and achievement. Students must be admitted to UAB by December 1 of their senior year in high school and be U.S. citizens or permanent residents to receive this award.

Energen First Central Alabama Scholarship: This renewable award is for entering freshmen who are first generation college students and graduates of a central Alabama high school (limited to the following counties: Autauga, Calhoun, Chambers, Chilton, Choctaw, Cleburne, Dallas, Elmore, Etowah, Green, Hale, Jefferson, Lee, Lowndes, Macon, Marengo, Montgomery, Perry, Pickens, Russell, Shelby, St. Clair, Sumter, Talladega, Tuscaloosa, Walker, and Winston). Consideration is based on academic promise and achievement. Students must be admitted to UAB by December 1 of their senior year in high school and be U.S. citizens or permanent residents to receive this award.

George G. Seibels, Jr. Scholarship: This one-year award is available to entering freshmen. Award amounts vary each year, but they typically range from $500-$2,000. To be considered, students must be admitted to an undergraduate program at UAB, complete the General Application in BSMART, and answer the supplemental essay question for the George G. Seibels, Jr. Scholarship by February 1. Consideration is based on leadership potential, solid academic promise, high moral character, and an expressed interest in civic affairs, public service, or patriotic affairs. To receive this award, students must be U.S. citizens or permanent residents.

I Am My Brother’s Keeper Scholarship: UAB sponsors a scholarship opportunity for up to 2 entering freshmen who have participated in Birmingham’s I Am My Brother’s Keeper (IAMBK) Leadership Institute. (The institute is not directly affiliated with UAB.) To be considered, students must be admitted to UAB for the upcoming fall semester by March 1 of their senior year in high school, have an ACT composite score of 24 or higher, submit the Free Application for Federal Student Aid (FAFSA) by March 1, and provide documentation from the IAMBK Institute, confirming fulfillment of all the IAMBK requirements. Selected recipients will receive a 4-year award that guarantees the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid.

International Baccalaureate (IB) Scholarships: Entering freshmen who are IB Diploma Candidates or IB Diploma Holders may be eligible to receive special scholarship funding. (For the purpose of this scholarship, “Diploma Candidates” are students who are fulfilling all coursework requirements for the IB Diploma, completing the Extended Essay, Creativity, Action and Service, and Theory of Knowledge components.) To be considered, students must be admitted to UAB for the summer or fall term immediately following their high school graduation and submit an IB Diploma Candidate Award Application at uab.edu/bsmart by March 1. (Students must first submit the General Application in BSMART in order to access the IB Diploma Candidate Award Application.) Selected students will initially be awarded the Diploma Candidate amount ($1,000 per year). If they earn the IB Diploma, their awards will automatically be upgraded to the IB Diploma Holder Scholarship ($2,500 per year) after their official IB scores are received.
JANE KNIGHT LOWE SCHOLARSHIP: This renewable award is for entering freshmen who are graduates of a public or private high school in Madison County, Alabama. To be considered, students must be pursuing a degree in a health-related profession, demonstrate solid academic promise, and exhibit financial need, as determined by their FAFSA results. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents.

MARTHA CORBIN SCHOLARSHIP: This renewable scholarship is based on the academic achievements of entering freshmen who are residents of Alabama. To be considered, students must have a 3.0 overall grade point average and be admitted to an undergraduate program at UAB. Students must enroll full-time and be U.S. citizens or permanent residents to receive this award.

NATALIE T. AND JAMES A. GARLAND EDUCATIONAL ASSISTANCE FUND: This one-year award is for children of current, full-time, non-exempt employees of the UAB Women and Infants Center (including nursing and support staff, but excluding executive staff). To be considered, students must be admitted to, or enrolled in, an undergraduate program at UAB and have an overall grade point average of 3.0 or higher. First preference will be given to entering freshmen. Students must be eligible for and certified as a dependent for the UAB Educational Assistance Program in order to receive this award. Preference will be given to students who complete the Free Application for Federal Student Aid (FAFSA) by March 1 and demonstrate financial need, as determined by its results.

RAISE UAB SCHOLARSHIP: Raise.me enables students in the Birmingham City School System to earn micro-scholarships throughout their high school careers based on such criteria as honors classes taken, AP/IB classes taken, extracurricular activities, etc. Raise.me micro-scholarships that have been earned by entering freshmen who are graduating from A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn High School must be submitted to the UAB scholarship administrator via the raise.me (http://www.raise.me) website. Qualified applicants must also be admitted to UAB by May 1 of their senior year in high school and enroll during the fall semester immediately following their high school graduation. For more information, visit the raise.me (http://www.raise.me) website.

REGIONS ACADEMIC SCHOLARSHIP: This renewable award annually provides $12,500 toward tuition costs and a UAB summer research stipend of $1,000. It also provides an on-campus housing allotment of up to $6,200 each year (fall and spring only). To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by March 1. To receive this award, students must be admitted to, or enrolled in, an undergraduate degree-seeking program at UAB. Applicants should demonstrate financial need, leadership ability, and academic achievement while earning an overall grade point average of 3.5 or higher by the time of application.

Transfer Students
New students transferring from 2-year community colleges are automatically considered for one of the following Transfer Academic Scholarships upon admission to UAB. All scholarships are awarded on a funds-available basis and are renewable for a total of two years. To be eligible for an academic scholarship, transfer students must be admitted to UAB by March 1 for the upcoming summer or fall semester, have a minimum GPA of 2.5, and be enrolled full-time at your community college during 3 of the 4 semesters immediately preceding the March 1 deadline. If admitted to UAB during the semester immediately preceding the scholarship deadline, students must send an updated, official transcript that contains their fall grades by March 1. International students, part-time students, and students with previous coursework from another 4-year institution will not be considered.

Scholarships from specific schools and departments may require additional applications, and their deadlines may be earlier than March 1. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART, UAB’s Blazer Scholarship Management and Resource Tool, beginning October 1 of each year at uab.edu/bsmart.

Transfer Academic Scholarships
Phi Theta Kappa Scholarship: This two-year scholarship, valued at $3,000 per year, is reserved for transfer students who are members of Phi Theta Kappa (PTK) and have a cumulative GPA of 3.5 or higher based on all transferrable coursework. PTK membership must either be noted on their official college transcript or a letter must be received from their faculty sponsor by the March 1 deadline, confirming membership. Students must be U.S. citizens or permanent residents to receive this award.

UAB Transfer Excellence Scholarship: This two-year scholarship, valued at $1,500 per year, is reserved for transfer students with a cumulative GPA of 3.75 or higher based on all transferrable coursework, who are not members of Phi Theta Kappa.

UAB Transfer Scholarship of Distinction: This two-year scholarship, valued at $1,000 per year, is reserved for transfer students with a cumulative GPA of 3.5-3.74 based on all transferrable coursework, who are not members of Phi Theta Kappa.

Other Scholarships for which Entering Transfer Students May Apply

All-Alabama Academic Team Scholarship: This two-year scholarship, valued at $1,000 per year, is available to entering transfer students who are All-Alabama Academic Team (AAAT) members. To be considered, students must be admitted to UAB for the summer or fall semester that immediately follows the receipt of their AAAT honor. They must also submit the General Application in BSMART, and complete 3 additional questions for the All-Alabama Academic Team (AAAT) Scholarship, 1 of which requires them to upload their AAAT letter from the Alabama Community College System. The deadline for completing the scholarship application is May 1. Please note: this award cannot be stacked on top of the Transfer Presidential Scholarship.

Transfer Presidential Scholarship: A limited number of entering transfer students will be selected to receive this prestigious scholarship, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 2 years (4 academic semesters). Students must be recommended to the UAB Scholarship Committee by one of the following community colleges: Bevill State, Gadsden State, Jefferson State, Lawson State, or Wallace State-Hanceville. To be considered, students must be admitted to UAB by March 1 for the upcoming summer or fall semester with a cumulative GPA of 3.5 or higher based on all transferrable coursework. Students must also earn an associate’s degree at the end of the spring semester that immediately precedes their term of enrollment at UAB, and they cannot have earned credit from a four-year institution, unless they did so while enrolled in high school. Students must be Alabama residents and U.S. citizens or permanent residents to receive this award. (Please note: This scholarship cannot be stacked on top of the Phi Theta Kappa, Transfer Excellence, Transfer Scholarship of Distinction, Joint Admission, or UAB All-Alabama Academic Team Scholarships.)

UAB Joint Admission Scholarship: This two-year scholarship, valued at $2,000 per year, is reserved for students who participate in the Joint Admission Program at one of our partner community colleges. To be eligible, students must be continuously enrolled at a partner community college for a minimum of one year, fulfill all requirements of the Joint Admission Program, earn a non-technical associate’s degree with a minimum GPA of 3.0 based on all transferrable coursework, and submit final and official transcript(s) to UAB by the following deadlines:

- Spring graduates: June 15th
- Summer graduates: September 15th

Current UAB Students

To apply for scholarship opportunities, currently enrolled students must first submit the General Application in BSMART, UAB’s Blazer Scholarship Management and Resource Tool, at uab.edu/bsmart beginning October 1 each year. Once the General Application is completed, students will be matched with scholarships for which they may qualify and prompted to answer additional questions, if necessary. All applications and supporting documentation must be submitted by 11:59pm (CST) on February 1. Most scholarship decisions are made in the spring term and will go into effect the following academic year.

Scholarships from specific schools and departments may require additional applications, and their deadlines may vary. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART.

Scholarships for Current UAB Students

Academic Affairs Scholarship: Selection for this renewable award is based on the financial need and academic achievements of current full-time UAB students who are currently enrolled in, or admitted to, a degree-seeking program in the College of Arts and Sciences, Business, Education, or Engineering at UAB. Students must have a grade point average of 3.0 or higher and be U.S. citizens or permanent residents to receive this award.

African American Faculty Association Endowed Scholarship: Selection for this one-year award is based on the academic promise and achievements of current full-time UAB students who are graduates of a public high school in the Birmingham metropolitan area. Preference will be given to students who demonstrate financial need and a commitment to public service within African American communities either in the Birmingham metropolitan area or in the state of Alabama. Public service should be performed while the student is enrolled at The University of Alabama at Birmingham. Students must be U.S. citizens or permanent residents to receive this award.

Birmingham Racing Commission Scholarship: Selection for this one-year award is based on the academic achievements of current full-time UAB students who are residents of Jefferson County, Alabama. To be considered, students must be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Charles “Charlie” Campbell Endowed Memorial Scholarship: This one-year scholarship is based on the academic achievements of current full-time UAB students who are residents of Jefferson County, Alabama. To be considered, students must have an overall grade point average of 3.0 or higher and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award. Preference will be given to students who reside in Bessemer, Alabama.

Crawford T. and Virginia Johnson Presidential Scholarship: A two-year scholarship based on the academic achievement, leadership, and extracurricular activities of current sophomore students who are residents of the Birmingham Metropolitan Statistical Area (Blount, Jefferson, Shelby, St. Clair or Walker counties). To be considered, students must have a cumulative UAB grade point average of 3.5 or higher, have completed a minimum of 48 semester hours of coursework by the following fall term and be enrolled in a regular undergraduate program...
at UAB. Students must be enrolled full-time and be a U.S. citizen or permanent resident to receive this award.

**Ehney A. Camp Jr., Endowed Scholarship:** A renewable award based on financial need, leadership, and the academic achievements of current full-time UAB students. To be considered, students must have earned a 3.25 cumulative UAB grade point average and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

**Goodfellow Scholarship:** A one-year scholarship based on the financial need of current full-time UAB students who are residents of Alabama. To be considered, students must have an overall grade point average of 2.5 or higher, demonstrate leadership in their community, have a cumulative UAB grade point average of 2.5 or higher and be enrolled in a regular degree-granting program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

**Helping Other People Excel (HOPE) Scholarship:** This renewable scholarship is based on the financial need, academic achievement, and extracurricular activities of current full-time UAB students who are residents of Alabama. To be considered, students must demonstrate a successful history of employment, active participation in community activities and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

**Jack Edwards Alabama Power Foundation Scholarship:** A one-year award that is based on the academic achievements of current full-time UAB students who are residents of Alabama. Students must be U.S. citizens or permanent residents to receive this award.

**Joseph F. Volker Memorial Scholarship:** A one-time scholarship based on the academic achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have an overall grade point average of 3.0 or higher and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

**Mary Elizabeth Adams Endowed Scholarship:** This one-year award is based on the academic achievements, financial need, and extracurricular activities of current UAB students who self-identify as having type I diabetes. To be considered, applicants must have earned at least an overall 3.5 grade point average, earned at least a 25 on the ACT (or an equivalent score on the SAT) and demonstrated leadership ability and achievement in previous pursuits, whether of a scholastic or extracurricular nature. Students must also be an Alabama resident and a U.S. citizen or permanent resident to receive this award. Preference will be given to students who plan to pursue a degree in the sciences, or who have declared a pre-medicine major.

**Nellie Whitworth Flaherty and Lula McCord Whitworth Endowed Scholarship:** A one-year scholarship based on the academic achievements of current female UAB students who have graduated from UAB high schools. Applicants are evaluated on the totality of their situation: academic achievement, financial need, demonstrated service to the LGBTQ community, demonstrated leadership skills, and present and future goals.

**The Alliance for LGBTQ Equality at UAB Scholarship:** To be considered for this award, students must be currently enrolled in, or admitted to, a degree-granting program at UAB and demonstrate solid academic promise and achievement, earning at least a 3.0 grade point average in any coursework completed prior to the time of application. Preference will be given to applicants who can demonstrate service to the Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) community. Applicants are evaluated on the totality of their situation: academic achievement, financial need, demonstrated service to the LGBTQ community, demonstrated leadership skills, and present and future goals.

**UAB Affinity Cardholders Scholarship:** Selection for this one-year award is based on the financial need, academic achievement, and extracurricular activities of current full-time UAB students. To be considered, students must have achieved Junior or Senior standing in a degree-seeking program at UAB, have a minimum 3.0 cumulative UAB grade point average and be U.S. citizens or permanent residents.

**UAB General Scholarship:** A one-year award based on the academic achievement and extracurricular activities of current full-time UAB students. To be considered, students must have achieved Junior or Senior standing in a degree-seeking program at UAB, have a minimum 3.0 cumulative UAB grade point average and be U.S. citizens or permanent residents.

**UAB Leadership Council Scholarship:** A one-year award based on the academic achievement and extracurricular activities of current sophomores who are residents of the Birmingham Metropolitan Statistical Area. To be considered, students must have a cumulative UAB grade point average of 3.0 or higher, have completed a minimum of 60 semester hours of course work at the time the award is received, and be enrolled in a regular undergraduate program at UAB. Students must be enrolled full-time and be a U.S. citizen or permanent resident to receive this award.

**UAB Women's Club Scholarship:** A one-time award reserved for deserving female students who are working to overcome financial hardships to further their education at UAB. Applicants must be currently enrolled, full-time or part-time, in an undergraduate program at UAB. Selection is based on communication skills, career goals and commitment to your major field. Priority consideration is given to undergraduate students with the greatest number of UAB hours and a cumulative UAB GPA of 3.0 or higher.

**Vettes-4-Vets Endowed Scholarship:** This scholarship is an award based on the academic achievement, leadership, and community involvement of students who are currently enrolled in, or admitted to, a degree-granting program at UAB and must be current or former members of a branch of the United States Military. To be considered, students should have earned at least a 2.5 cumulative UAB grade point average and must be enrolled full-time and be a U.S. citizen or permanent resident to receive this award.

**积木基金会奖学金**：此奖学金基于财务需求，学术成就，和课外活动的成就于当前全职UAB学生，须为阿拉巴马州居民。被考虑的学生必须有一个3.0或更高的整体学分平均数，并且是UAB的学士学位课程的全日制学生。学生必须是美国公民或永久居民，才能获得此奖学金。
average (on a 4.0 scale) in any coursework completed prior to the time of application.

**Virginia and Anna Praytor Scholarship:** A renewable scholarship that is based on the academic achievements of current UAB students who are graduates of a high school in the Birmingham Public School system. To be considered, students must have earned at least a 3.0 cumulative UAB grade point average. Students must be U.S. citizens or permanent residents to receive this award.

**W. Ann Reynolds Endowed Presidential Scholarship:** This scholarship is awarded to entering freshmen and current UAB students who are admitted to, or currently enrolled in, an undergraduate degree-seeking program at UAB. Applicants should demonstrate financial need, leadership ability, and academic achievement while earning at least an overall 3.5 grade point average by the time of application.

**Program-Related Scholarships**

The following are Honors College and Honors College Program-Related Scholarships. Please contact the Honors College or individual program listed for more information on the application process.

**Honors College:**

**Britt and Susan Sexton Endowed Honors Scholarship:** Applicants must be in a degree-granting program through the Honors College. Preference given to first year undergraduate students. Applicants should show solid academic promise and have earned a 3.5 grade point average. Applicants should also display a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have passionately explored these pursuits. Preference will also be given to those with fervor for community involvement and service-related volunteer activities.

**Women’s Club House of the Third District of the Alabama Federation of Women’s Clubs, Inc., Endowed Honors Scholarship:** Applicants must be in a degree-granting program through the Honors College. Preference given to first year, female students. Applicants should show solid academic promise and have earned a 3.5 grade point average. This award is based on merit and need; however, applicants do not have to qualify for federal financial assistance to be considered. Applicants should also display a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have passionately explored these pursuits. Preference will also be given to those with a fervor for community involvement and service-related volunteer activities.

**Edith and Franklyn Zimmerman Endowed Honors Scholarship:** Applicants must be in a baccalaureate degree-granting program through the Honors College. Preference given to first year undergraduate students. Applicants should demonstrate solid academic promise and achievement and have earned at least an overall 3.5 (on a 4.0 scale) grade point average in coursework completed prior to the time of application and have earned a score of at least 25 on the ACT or an equivalent score on the SAT. Applicants should also demonstrate leadership ability and achievement in previous pursuits, whether of a scholastic or extracurricular nature.

**University Honors Program (UHP):**

**Boman-Powell Student Travel Award:** Established by Daphne and Richard Powell in honor of their mothers to enable students in the University Honors Program to travel to regional and national conferences or for education abroad. This fund allows UHP students to expand their educational experience through travel that would not otherwise be possible because of financial constraints. There is no formal application form, but any UHP student may apply by contacting the UHP Director and providing Documentation of the program/conference and costs associated with participation.

**Hess-Abrams Honors Scholarship Endowment:** Applicants must be students in the University Honors Program. This four-year scholarship is typically awarded to incoming freshmen accepted to the University Honors Program. Applicants should demonstrate superior academic achievement (as reflected in grades, test scores, and class rank), creativity or talent (as in the sciences, fine arts, leadership, or independent study), strong motivation, exemplary character, and intellectual promise. All applicants for the University Honors Program are encouraged to apply for this scholarship. Applications due mid-February.

**Steven C. Smith Discovery Award:** Applicants must be currently enrolled in, or admitted to, a degree-granting program at UAB and accepted to the University Honors Program. First preference will be given to entering first-year students in the program. Applicants should demonstrate solid academic promise and achievement and have earned at least a 3.0 grade point average in any coursework completed prior to the time of application. The award of this scholarship will be based on both merit and need. Applicants should display interest in a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and must have a passion for exploring these pursuits as avenues of opportunity present themselves. Preference will also be given to applicants with fervor for community involvement, particularly service-related volunteer activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

**William J. Rushton III/Alabama Power Foundation Scholarship Endowment:** Applicants must be incoming or current members of the University Honors Program in good standing and be residents of Alabama. This award is based on merit and need. Applicants should have a strong academic background, a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

**William M. Spencer III Endowed Honors Scholarship:** Applicants must be admitted to or be current members of the University Honors Program. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

**Juliet Nunn Pearson Scholarship:** Applicants must be entering UAB freshmen admitted to the University Honors Program. Preferences are
given to non-traditional students, pre-professional students, and/or minority students. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

**Nelson and Maye Hill Honors Fund:** Applicant must be a student in the University Honors Program and be accepted to an academic Study Abroad program. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to the academic and extracurricular activities of the University Honors Program. No application deadline.

**Science and Technology Honors Program (STHP):**

**Wells Fargo Scholars Program:** Applicants must be enrolled in the Science and Technology Honors Program and have at least a 3.0 GPA. Preference is given to students with unmet financial need who are from groups underrepresented in their field of study. The award is based on merit and need, but applicants do not have to apply for federal financial assistance to be considered. This program awards 4-year scholarships to STHP students with strong academic backgrounds who have a desire to pursue a research career. The award is for underrepresented minorities and females majoring in Chemistry, Engineering, Math, and Computer Science. An application and interview are required for consideration. The application process typically opens in December of each year and closes in January.

**Wells Fargo Summer Scholars Academic Enrichment Awards:** This program awards scholarships of up to $2,500 to current STHP students. These competitive, merit-based awards are used to support summer research and academic activities. A call for applications for each scholarship opportunity will be announced to all current students each year (typically in late February) along with the application instructions and deadlines (typically mid-March).
