Undergraduate

This catalog contains information on UAB’s academic programs offered in the following schools:

• Arts and Sciences (p. 137)
• Business (p. 113)
• Education (p. 267)
• Engineering (p. 284)
• Health Professions (p. 303)
• Honors (p. 259)
• Nursing (p. 311)
• Public Health (p. 318)

Catalog Disclaimer

Although this catalog intends to reflect any policies or rules of the Board of Trustees of the University of Alabama referred to or incorporated herein, students are cautioned that changes or additions to such policies or rules may have become effective since the publication of this material. In the event of such a conflict, the current statements of the Board policy contained in the official minutes and manuals of rules, bylaws, and guidelines shall prevail. Thus, the provisions of this catalog are not to be regarded as a contract between the Board of Trustees of the University of Alabama, the University of Alabama at Birmingham (or any of its schools) and the student. The University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students, these changes to be effective when determined by the appropriate authority within the University. These changes will govern current and formerly enrolled students. Registration of all students is accepted subject to these conditions.

Produced through the Office of the Registrar.

About UAB

Over four decades, UAB has evolved from an academic extension center into an autonomous, comprehensive urban university and academic health center within the University of Alabama System. UAB has established wide-ranging programs in the College of Arts and Sciences and the schools of Business, Dentistry, Education, Engineering, Health Professions, Medicine, Nursing, Optometry and Public Health, with graduate programs serving all major units. Fall 2016 enrollment was a record-high 19,535 students, with an increase in students at every UAB school, as well as the College of Arts and Sciences and Honors College. The freshman class had an average ACT of 24, and high school GPA of 3.65.

UAB is situated near downtown Birmingham and the historic Five Points South district. The campus stretches across 100 square blocks and occupies more than 100 primary buildings. UAB is Alabama's largest single-site employer, with more than 23,000 employees and an economic impact exceeding $5 billion annually on the state.

Accreditation

The University of Alabama at Birmingham is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees at the baccalaureate, masters, specialist, and doctorate levels.

Questions related to the accreditation of The University of Alabama at Birmingham should be directed to the Commission on Colleges at:

Commission on Colleges
Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, Georgia 30033
Phone: (404) 679-4500
Fax: (404) 679-4558

Many academic programs have additional accreditation from organizations appropriate to the academic discipline.

If you have questions related to issues such as admission requirements, educational programs, and financial aid that are not answered in this publication, please contact UAB at:

General Information

Role Statement

UB’s undergraduate instructional programs are broad-based and designed to serve the needs of a diverse student body without sacrificing a strong general education foundation. Programs range from the liberal arts and sciences to professionally oriented studies, including business, education, engineering, and the health disciplines. UAB’s baccalaureate offerings are shaped by its location in the state’s largest metropolitan area, by its mandate to serve a large and heterogeneous constituency, by its responsibility to contribute to the economic and professional development of Birmingham and the state, and by its role of providing support to a nationally recognized academic health sciences center.

At the graduate level, programs serve the career needs of educators and business leaders, as well as those involved in advancing the frontiers of the health sciences. Training for health professionals is available through programs at the baccalaureate, master’s, doctoral, and professional degree levels.

UAB also has the primary responsibility for meeting the state’s health professional needs. It offers a comprehensive range of programs which encompass both basic preparation and sophisticated graduate and specialty training in medicine, dentistry, optometry, nursing, the health professions, and public health.
As one of the nation’s leading research institutions, UAB emphasizes both basic and applied research. Although the majority of the university’s research effort is in the biomedical sciences and related areas, all instructional programs are expected to participate in research activities. UAB’s urban setting necessitates the development of research programs that are responsive to the city’s economic, social, and cultural needs. Much of the research conducted at UAB is interdisciplinary in nature and is organized through centers that bring together experts in a number of related fields to concentrate on a particular problem or issue. UAB’s total research expenditures exceeded $516 million in 2015, and the university currently ranks 10th among public universities in funding from the National Institutes of Health.

As the senior public doctoral-level institution in the state’s major urban area, UAB is also committed to providing comprehensive programs in continuing education consistent with the quality and diversity of its other offerings. The university’s faculty, staff, and students also serve as resources to the area through activities related to professional, economic, and cultural growth and development.

Cultural Opportunities

UAB’s urban location offers students unique cultural opportunities. Located within walking distance of the campus is the Five Points South district, where several nationally recognized restaurants are located, along with shops, art galleries, and music clubs. Not far from campus are the Birmingham Museum of Art, the Civil Rights Institute, the historic Alabama Theater, and the Birmingham-Jefferson Convention Complex. Other nearby sites include Sloss Furnace, a post-Civil War iron foundry which has been converted into a museum and informal music hall, and Oak Mountain Amphitheater, an outdoor facility that features music-industry headliners during the spring and summer concert season.

UAB also has a flourishing arts program. Dozens of major music events are produced each season at UAB, in addition to numerous theater productions and student and professional art exhibitions. The Alys Robinson Stephens Performing Arts Center is Birmingham’s home for the performing arts and the anchor of UAB’s burgeoning Cultural Arts Corridor. The Center features a 1,400-seat concert hall, a 350-seat theater, and a 150-seat recital hall, and regularly schedules nationally and internationally known artists and orchestras and features faculty and student productions and concerts. The Abroms-Engel Institute for the Visual Arts houses the Department of Art and Art History and hosts world-class exhibits and cultural events.

Student Life

UAB offers a rich variety of student life activities through its many academic organizations, honor clubs, fraternities and sororities, and volunteer groups. The university houses more than 180 campus organizations, including 33 national honorary societies, more than 120 professional clubs and interest groups, cheerleaders, the Golden Girls dance team, intramural and recreational sports, and an established student government organization.

The campus is rich in social activity and the arts and culture. The Campus Green is a vibrant hub of campus life, with serene outdoor spaces and state-of-the-art residence halls, dining facilities and academic buildings. A few blocks away, the Cultural Arts Corridor offers a host of free activities for students, including exhibitions, lectures and performances. UAB’s new Hill Student Center is an architecturally striking facility that houses, among other amenities, a student welcome center, bookstore, and meeting, conference, and auditorium space.

UAB’s athletic program is a Division I member of the NCAA and a founding member of Conference USA. UAB athletes participate in 18 intercollegiate sports and have earned championships in baseball, men’s tennis, women’s tennis, women’s basketball, and men’s golf.

The University of Alabama System

The University of Alabama was foreseen in the Constitutional Convention in Huntsville, Alabama Territory, on July 5, 1819. At the second session of the General Assembly, December 18, 1819, an act was passed establishing a seminary of learning “to be denominated the University of Alabama.” The university opened for admission of students on April 18, 1831, in Tuscaloosa. All public buildings except the observatory were burned by federal cavalrymen on April 4, 1865. Erection of new buildings began in January 1867 and classroom instruction resumed in April 1869.

During the first half of the twentieth century and in addition to its regular educational programs at the Tuscaloosa campus, the university began to offer additional educational opportunities to residents in urban communities throughout Alabama. Extension centers, offering both day and evening classes, were established in Birmingham, Huntsville, Montgomery, Mobile, Dothan, and Gadsden. The Birmingham and Huntsville centers evolved into new university campuses, which were established in addition to the Tuscaloosa campus.

In September 1966, all university operations in Birmingham were designated as the University of Alabama in Birmingham (UAB) by the University of Alabama Board of Trustees. This action established the University of Alabama in Birmingham as one of the three major campuses of the university. The University of Alabama in Huntsville had been initiated as a four-year school in 1964.

In June 1969, the campuses were given autonomy within the framework of the University of Alabama System, each having its own administrative structure with a president as the chief executive officer. A chancellor was appointed in June 1976 as chief administrative officer of the system. In 1984, the name of the University of Alabama in Birmingham was changed to the University of Alabama at Birmingham.

Medicine, Dentistry, Optometry, or Law

Students wishing to pursue careers in medicine, dentistry, optometry, or law complete a program of undergraduate study (usually culminating in a baccalaureate degree) before entering the appropriate professional school. “Pre-medicine,” “pre-dentistry,” “pre-optometry” and “pre-law” are not majors.

Individually Designed Majors

Students whose educational objectives are not well served by any of the regular majors may propose an individually designed major. Such program proposals require approval of the appropriate dean.

ROTC

UAB has Army and Air Force ROTC (Reserve Officer Training Corps) units in which Birmingham-area college students may participate.

Cooperative Education Program

UAB’s Cooperative Education Program helps students identify work experiences that combine practical experience with academic studies. Some academic departments give credit for carefully structured work experiences.
Non-Academic Policies

Equal Opportunity and Discriminatory Harassment Policy
UAB is committed to equal opportunity in education and employment, and the maintenance and promotion of nondiscrimination and prevention of discriminatory harassment in all aspects of education, recruitment and employment of individuals throughout the university.

Immunization Policy
UAB requires that first-time entering students, international students and scholars, and students in health-related schools provide proof of immunization against certain diseases.

Non-Resident Tuition Policy
This policy addresses non-resident tuition, certification of residency status by campus officials, and establishment of campus policies to administer an appeals process.

Drug-Free Campus Policy for Students
Unlawful possession, use, manufacture, distribution, or dispensing of illicit drugs, controlled substances, or alcoholic beverages by any UAB student is prohibited.

Drug-Free Campus Policy for Students - Attachment A
This attachment for the Drug-free Campus Policy for Students outlines the Federal penalties and sanctions for the illegal possession of a controlled substance.

Drug-Free Campus Policy for Students - Attachment B
This attachment to the Drug-free Campus Policy for Students outlines the health risks associated with the use of drugs and alcohol.

Drug Free Campus/Workplace Policy - Attachment B.1
This Attachment to the Drug-Free Campus and Drug-Free Workplace Policies outlines effects related to the consumption of alcohol.

Drug-Free Campus Policy for Students - Attachment C
This attachment to the Drug-Free Campus Policy describes available programs through UAB offering counseling and assistance for drug and alcohol abuse.

Copyright Policy
The University of Alabama at Birmingham (the "University") is dedicated to instruction, research and service to benefit society and encourages its faculty, staff and students to carry out scholarly endeavors in an open and free atmosphere, and to publish the results of such work without restraint, consistent with applicable law and policy.

Patent Policy
UAB encourages the development of procurement and licensing of patents for inventions in the interest of the public, the inventor, and the university.

Data Protection and Security Policy
Data (electronic) created at UAB must be protected and maintained in accordance with all applicable federal and state laws and university policies.

Student E-Mail Address Policy
November 10, 2003

See also:
Electronic Data Processing Security Policy
Acceptable Use Policy
Network Usage Guidelines

Purpose
UAB provides electronic mail resources in support of its instruction, research, and service activities. The purpose of this policy is to establish the use of electronic mail (e-mail) as one of the official methods for communicating with UAB students.

Official Communications Using E-Mail Addresses
In a similar manner as mail distribution of paper communiqués to a student’s "permanent" address is considered an official method for distributions to students, so also are official e-mail messages sent by UAB to a student’s "@UAB.EDU" e-mail address considered an official distribution method. For purposes of this policy, "official" communiqués or e-mails as used here are those established as "official" through other approval mechanisms in place at UAB.

Student Requirements and Responsibilities
Every student enrolled at UAB must have an e-mail address that ends with "@UAB.EDU". Such an e-mail address is required for a student to register for UAB credit courses. It is the student’s responsibility to obtain an official UAB e-mail address in a timely manner from the UAB e-mail registering system (BlazerID World Wide Web site). This will require the student also to have a valid, current, and reliable electronic mailbox through an Internet Service Provider (ISP) or portal or on a server administered by the student’s academic department, or on the central mail service provided by the Office of the Vice President for Information Technology. It is the student’s responsibility to check his or her e-mail regularly for distribution of official UAB communiqués. UAB recommends that e-mail be checked at least once a day, when practicable. UAB is not responsible for lost, rejected, or delayed e-mail forwarded by UAB from a student’s "@UAB.EDU" address to off campus or unsupported e-mail services or providers. Such lost, rejected, or delayed e-mail does not absolve the student from responsibilities...
associated with an official UAB communiqué sent to the student's official UAB e-mail address ("@UAB.EDU"). If there is a change in a student's e-mail address to which the"@UAB.EDU" alias address is re-directed, it is the student's responsibility to make the changes in the UAB e-mail registering system.

**UAB Responsibilities**

UAB will ensure that all students have access to an e-mail account and will provide means for students who do not otherwise have access to e-mail-capable computers to be able to check their e-mail through such mechanisms as computer labs, the UAB libraries, and public terminals. UAB will provide mechanisms to allow students to request that their e-mail addresses not be published in a similar way that other student directory information is not published. However, unpublished e-mail addresses will be used for sending official UAB communiqués to students including communications to a group of students such as a course e-mail list. Students also will be provided mechanisms for requesting that their e-mail addresses not be used for general UAB mailings that are not official communications with students. UAB is not responsible for the handling or mishandling of students' e-mail by non-UAB providers or by unofficial (non-
@UAB.EDU) e-mail servers.

**Student Records Policy**

The University of Alabama at Birmingham student records policy complies with the Family Educational Rights and Privacy Act of 1974, as amended. All students enrolled or previously enrolled at UAB have certain rights with regard to information included in their education records. These rights are the subject of this policy.

Beard, Craig W.  
Mervyn H. Sterne Library, Associate Librarian, Reference Services, 1967, B.S., M.S. (Purdue), Ph.D. (Pittsburgh)

Becker, Brooke A.  

Becker, David J.  
School of Public Health, Department of Health Care Organization and Policy, Associate Professor, 2005, Ph.D. (University of California - Berkeley), Specializes in health, labor and regulatory economics

Bej, Asim K.  
Department of Biology, Professor of Biology, 1991, B.S., M.Sc. (Calcutta), Ph.D. (Louisville), Gut Microbiome of Model Organisms in Relation to the Environment and Human Health

Bellis, Peter  
Department of English, Professor of English, 2007, B.A. (Amherst), M.A., Ph.D. (Johns Hopkins), American Literature

Benditt, Theodore M.  
Department of Philosophy, Professor of Philosophy, 1978, B.A., J.D., M.A. (Pennsylvania), Ph.D. (Pittsburgh)

Berry, Joel L.  
School of Engineering, Department of Biomedical Engineering, Associate Professor of Biomedical Engineering; Director of BME Undergraduate Program; Associate Director, UAB Science and Technology Honors Program, 2010, B.S., B.S.M.E., M.S.M.E. (UAB), Ph.D. (Wake Forest), Cardiovascular biomechanics and tissue engineering

Bertalan, Rebecca A.  
School of Nursing, Instructor of Nursing, 2011, B.S.N. (Mt. Saint Mary’s); M.S.N. (Wyoming)

Bertrand, Fred (Ted)  
School of Health Professions, Department of Clinical and Diagnostic Sciences, Associate Professor, 2014, Ph.D. (UAB), Cancer Cell Signaling and Microenvironment Regulation of Tumor Initiation and Development

Bethard, Steven J.  
College of Arts and Sciences, Department of Computer and Information Sciences, Assistant Professor of Computer and Information Sciences, 2013, B.A., B.S. (Arizona), Ph.D. (Colorado)

Biasini, Fred J.  
College of Arts and Sciences

Bibb, Bonnie S.  
School of Nursing, Instructor of Nursing, 2013, B.S.N., M.S.N. (UAB)

Biga, Chris F.  
College of Arts and Sciences, Department of Sociology, Teaching Assistant Professor of Sociology, 2012, B.A. (Nebraska), M.A. (New Orleans), Ph.D. (Washington State)

Biga, Peggy  
College of Arts and Sciences, Department of Biology, Assistant Professor of Biology, 2012, B.S., M.S. (Angelo State), Ph.D. (Idaho), Physiology and Developmental Biology

Blanton, Robert G.  
College of Arts and Sciences, Department of Government, Professor of Government, 2014, B.A. (North Carolina), M.A., Ph.D. (South Carolina)

Blanton, Shannon L.  
College of Arts and Sciences, Department of Government, Professor of Government, Dean, Honors College, 2014, B.A. (Georgia College), M.A. (Georgia), Ph.D. (South Carolina)

Blokh, Alexander  
College of Arts and Sciences, Department of Mathematics, Professor of Mathematics, 1992, Ph.D. (Kharkov State), Dynamical Systems

Boggiano, Mary M.  
College of Arts and Sciences, Department of Psychology, Associate Professor of Psychology, 2000, B.A., M.A., Ph.D. (Texas at El-Paso)

Bokobza, Serge  
College of Arts and Sciences, Department of Foreign Languages and Literatures, Professor of French, 1980, Licence-ès-Lettres, Maitrise-ès-Lettres (Paris-X: Nanterre), M.A., Ph.D. (Illinois)

Bolus, Norman E.  
School of Health Professions, Department of Clinical and Diagnostic Sciences, Assistant Professor and Program Director, Nuclear Medicine Technology Program, 1999, M.P.H. (UAB)

Bond, Margaret D.  
College of Arts and Sciences, Department of Foreign Languages and Literatures, Instructor of French, 2009, B.A. (Virginia), B.A., M.A. (UAB)

Bonta, Bruce  
College of Arts and Sciences, Department of Anthropology, Research Associate, 2015, B.A. (Bucknell), SLS (Maine)
Borry, Erin L.  
College of Arts and Sciences  
Department of Public Administration, Assistant Professor of Government, 2013, B.A., M.P.A. (Rutgers), Ph.D. (Kansas)

Bowen, Pamela  
School of Nursing  
Assistant Professor of Nursing, 2005, B.S.N. (UAB), B.A. (Faulkner), M.S.N., Ph.D. (UAB)

Boyar, Scott L.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2009, B.S. (Keene State College), M.B.A. (University of San Diego), Ph.D. (Mississippi State)

Boylan, Douglas M.  
School of Engineering  
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2005, B.S., M.S, Ph.D. (Tulane)

Brande, Scott  
College of Arts and Sciences  
Department of Chemistry, Associate Professor of Chemistry, 1979, B.S. (Rochester), M.S. (California Institute of Technology), Ph.D. (SUNY-Stony Brook)

Brandwein, Craig  
College of Arts and Sciences  
Department of Music, Assistant Professor of Music, 2016, B.S., M.A. (Long Island)

Braswell, Mary Flowers  
College of Arts and Sciences  

Braziel, James  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2010, B.A. (Georgia), M.F.A (Bowling Green State), Creative Writing, Poetry, Science Fiction

Breland, Bryan  
School of Health Professions  
Department of Health Services Administration, Assistant Professor, 2009, DrPH, JD, MPH, MPH, Community and Organizational Emergency Preparedness, Healthcare Policy

Bristow, Alice S.  
School of Nursing  
Instructor of Nursing, 2011, B.S. (Alabama); B.S.N., M.S.N. (UAB)

Britt, Sylvia E.  
School of Nursing  
Assistant Professor of Nursing, 2007, B.S.N. (Medical College of Georgia), M.S.N., D.S.N. (UAB)

Brouillette, Wayne J.  
College of Arts and Sciences  
Department of Chemistry, Emeritus Professor of Chemistry, 1979, B.S. (West Florida), M.S., Ph.D. (Kansas)

Brown, Michelle  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2000, M.S. (UAB), Transfusion Medicine and Interprofessional Education

Bryant, Pamela  
School of Nursing  
Instructor of Nursing, 2008, B.S.N., M.S.N., D.N.P. (UAB)

Budhwani, Henna  
School of Public Health  
Department of Health Care Organization and Policy, Assistant Professor, Deputy Director of the UAB Sparkman Center for Global Health, 2013, M.P.H., Ph.D. (UAB), Health disparities and global health

Buys, Katie Crawford  
School of Nursing  
Instructor of Nursing, 2011, B.S.N. (Samford); M.S.N., M.P.H., D.N.P. (UAB)

Calhoun, Charles  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Elementary Education, 1989, B.A. (Earlham), M.A., Ph.D. (Georgia State)

Callahan, Dale  
School of Engineering  
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering; Director, Information Engineering and Management, 2000, B.E.E. (Auburn), M.B.A. (Auburn-Montgomery), M.S.E.E. (UAB), Ph.D. (Alabama), P.E. (Alabama), Entrepreneurship, Innovation and Social Media

Camata, Renato  
College of Arts and Sciences  
Department of Physics, Associate Professor of Physics, 2000, B.S. (Universidade de São Paulo), M.S., Ph.D. (Caltech), Aerosol processes in nanomaterials fabrication; nanostructured materials; laser synthesis and properties of semiconductor, electroceramic and bioceramic thin films

Cannon, Joseph J.  
College of Arts Science  
Department of Theatre, Assistant Professor of Theatre, 2004, B.A. (UAB), M.F.A. (Arizona)

Carlito, Delores  
Mervyn H. Sterne Library  

Carpenter, Randy  
School of Health Professions  
Department of Health Informatics, M.S.H.I., Adjunct Professor (Health Services Administration)

Caruthers, Kara  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2010, MAPAS (UAB), Emergency Medicine

Catledge, Shane A.  
College of Arts and Sciences  

Department of Physics, Assistant Professor of Physics, 2004, B.S. (California State –Sacramento), Ph.D. (UAB), Synthesis and properties of nanostructured super-hard materials; chemical vapor deposition (CVD) of diamond films and novel nanostructured coatings for industrial cutting and biomedical implant applications; molecular sensing using fluorescent nanodiamond; mechanical properties

Cato, Shelly  
College of Arts and Sciences

Catron, Kelly  
School of Nursing
Instructor of Nursing, 2010, B.S.N., M.S.N. (UAB)

Causey, Cora  
School of Education
Department of Curriculum and Instruction, Instructor of Early Childhood and Elementary Education, 2014, B.A., (Birmingham Southern), M.A., Ph.D. (UAB)

Centeno, María Jesús  
College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of Spanish, 2006, B.A. (Universidad Autónoma de Madrid), M.A. (Georgia)

Chambless, Krista  
College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of Spanish, 2006, B.A., M.A., Ph.D. (Alabama)

Chapman Lambert, Crystal  
School of Nursing
Assistant Professor, 2014, B.S.N., A.A., M.S.N., Grad Certificate, Ph.D. (South Florida)

Chapman, Alison  
College of Arts and Sciences
Department of English, Professor of English; Chair, Department of English, 2000, B.A. (Davidson), M.A., Ph.D. (Pennsylvania), Renaissance Poetry and Prose

Chapman, Gary H.  
College of Arts and Sciences
Department of Art Art History, Professor of Art, 1990, B.S., B.A. (Berea), M.F.A. (Cranbrook Academy), Painting, Drawing, Mixed Media, Figuration

Chawla, Krishan Kumar  
School of Engineering
Department of Materials Science and Engineering, Professor Emeritus of Materials Science and Engineering, 1998, B.S. (Banaras Hindu, India), M.S., Ph.D. (Illinois, Urbana-Champaign), Metal, Ceramic, and Polymer Matrix Composite Materials; Fibers; Foams

Chen, Dongquan  
School of Health Professions
Department of Health Informatics, Ph.D., Research Assistant Professor (Health Services Administration)

Chiasera, Janelle  
School of Health Professions

Department of Clinical and Diagnostic Sciences, Professor, Chair, and Interim Program Director (Clinical Laboratory Sciences), 2006, Ph.D. (Ohio State), Diabetes Mellitus and its complications

Childs, Gwendolyn  
School of Nursing
Assistant Professor of Nursing, 2007, B.S.N. (Lander), M.S.N. (Medical College of Georgia), Ph.D. (South Carolina)

Cho, Won  
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2011, B.M. (Manhattan), M.M. (Boston), D.M.A. (Memphis)

Christensen, Lois M.  
School of Education
Department of Curriculum and Instruction, Professor of Early Childhood and Elementary Education, 1996, B.A., M.A. (Arizona State), Ph.D. (Texas AM)

Cinnella, Pasquale  
School of Engineering
Department of Mechanical Engineering, Professor of Mechanical Engineering; Undergraduate Program Director, 2017, B.S. (University of Bari, Italy), Ph.D. (Virginia Polytechnic Institute and State University), Dynamics

Clabough, Jeremiah  
School of Education
Department of Curriculum and Instruction, Assistant Professor of Secondary Education, 2012, B.A. (Maryville College), M.S., Ph.D. (Tennessee)

Clavell, Alicia  
School of Business
Department of Management, Information Systems, and Quantitative Methods, Visiting Instructor in Business Communications, 2011, B.A. (Berry College), M.A. (UAB)

Clay, Oliivo  
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2007, B.S., M.A., Ph.D. (UAB)

Cochran, John Brock  
College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of Spanish, 2012, B.A. (Auburn), M.A. (North Carolina in Charlotte)

Cockerham, William C.  
College of Arts and Sciences
Department of Sociology, Distinguished Professor of Sociology; Chair, Department of Sociology; Professor of Medicine, 1991, B.A. (Oklahoma), M.A., Ph.D. (California-Berkeley)

Coles, Karen M.  
School of Nursing
Instructor of Nursing, 1993, B.S.N. (Michigan State); M.S.N., D.N.P. (UAB)
Conner, David A.  
Faculty of Engineering  

Cook, Edwin W. III  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Director, Medical/Clinical Psychology Doctoral Program, 1986, B.S. (Pennsylvania), M.S., Ph.D. (Wisconsin).

Copes, J. Heith  
College of Arts and Sciences  
Department of Justice Sciences, Professor and Director, Master of Science in Criminal Justice Program, 2001, B.S. (Southwestern Louisiana), M.A., Ph.D., (Tennessee), Qualitative Methods, Criminal Decision Making, Visual Criminology.

Corbetta, Renato  
College of Arts and Sciences  

Cormier, Loretta  
College of Arts and Sciences  
Department of Anthropology, Associate Professor of Anthropology, 2000, B.S. (Florida), M.A. (UAB), Ph.D. (Tulane).

Cowart, Larry  
School of Business  
Department of Accounting and Finance, Assistant Professor of Finance, 2007, B.S. (Athens), M.B.A. (Samford), Ph.D. (Georgia).

Cracco, Derek A.  
College of Arts and Sciences  
Department of Art History, Associate Professor of Art, 1999, B.F.A. (Louisiana State), M.F.A. (Syracuse), Printmaking, Computer graphics, Color Theory.

Crigler, Paul  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Instructor of Information Systems, 2004, B.S. (Auburn); B.S., M.S. (UAB).

Crooks, Elizabeth  
School of Nursing  
Instructor of Nursing, 2011, B.S.N. (Catholic University of America), M.S.N. (Case Western Reserve), D.N.P. (UAB).

Crowe, Michael  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Assistant Director of the Center for Research on Applied Gerontology, 2006, B.S. (Illinois), M.A., Ph.D. (Southern California).

Cullen, Clark  
College of Arts and Sciences  
Department of Sociology, Teaching Assistant Professor of Sociology, 2009, B.A. (Mississippi); M.A., Ph.D. (UAB).

Culver, Sarah E.  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Economics, 1993, B.S., M.A., Ph.D. (Houston).

Cummings, Cathleen A.  
College of Arts and Sciences  
Department of Art History, Associate Professor of Art History, 2006, B.A. (Mills College), M.A. (University of London), M.A. and Ph.D. (Ohio State).

Currie, Erin  
School of Nursing  
Assistant Professor, 2014, B.S.N. (Florida State); M.S.N., Ph.D. (UAB).

Cusic, Anne M.  
College of Arts and Sciences  
Department of Biology, Associate Professor of Biology, 1988, B.S. (UAB), M.S. (Samford), Ph.D. (UAB), General Biology and Reproductive Biology.

Dagley, Amy L.  
School of Education  
Department of Human Studies, Assistant Professor of Educational Leadership, 2016, B.A. (Alaska Southeast); Ph.D. (Alabama).

Dailey, Kelly  
School of Nursing  
Instructor of Nursing, 2012, B.S.N. (Samford), M.S.N. (UAB).

Dale, Louis  
College of Arts and Sciences  
Department of Mathematics, Professor Emeritus of Mathematics, 1973, B.A. (Miles), M.S. (Atlanta), Ph.D. (Alabama), Ring Theory.

Dallow, Jessica  
College of Arts and Sciences  
Department of Art History, Associate Professor of Art History, 2002, B.A. (San Diego), M.A., Ph.D. (North Carolina-Chapel Hill), Contemporary Art, American Art.

Daniel, Melanie  
School of Nursing  

Daniels, Melissa  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2013, B.A. (University of La Verne), M.A. (Claremont), M.A., Ph.D. (Northwestern), Nineteenth-Century American Literature, African American Literature.

Daniélieu, Catherine F.  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Associate Professor of French; Senior Associate Dean for Undergraduate Academic Affairs, College of Arts and Sciences, 1990, Licence-ès-Lettres, Maîtrise-ès-Lettres (Sorbonne), M.A., Ph.D. (Michigan State).

DasGupta, Manabendra  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Economics, 1989, B.A., M.A. (Calcutta), M.A., Ph.D. (Southern Methodist).
Davis, Colin J.  

Dawson, Martha  
School of Nursing  
Assistant Professor of Nursing, 2008, B.S.N., M.S.N., D.N.P. (UAB)

Debiasi, Laura B.  
School of Nursing  

DeCarlo, Thomas E.  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 2007, B.S. (N. Carolina State), Ph.D. (Georgia)

DeLuca, Shannon  
School of Nursing  
Instructor of Nursing, 2012, B.S.N. (North Carolina-Charlotte), M.S.N. (UAB)

Deupree, Joy  
School of Nursing  
Assistant Professor of Nursing, 2011, B.S.N., M.S.N., Ph.D. (UAB)

DeVore, Todd E.  
College of Arts and Sciences  
Department of Physics, Instructor of Physics, 1998, B.S. (Lewis and Clark), M.S. PhD. (UAB), Physics and science education; computational physics

Di Gangi, Paul  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor of Information Systems, 2013, B.S. (Quinnipiac), M.S. (George Washington), Ph.D. (Florida State)

Dickinson, Dale A.  
School of Public Health  
Department of Environmental Health Sciences, Assistant Professor and Graduate Program Director, 2003, Ph.D. (University of Guelph, Ontario), Pedagogies for enhancing public health training, including service learning, team-based and problem-based learning; environmental justice; molecular actions of functional foods; adaptive response to environmental toxicants and pollutants

Dluhy, Richard  
College of Arts and Sciences  
Chemistry, Professor and Chair, 2015, BS (Connecticut), PhD (Rutgers)

Dobbins, Allan C.  
School of Engineering  
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 1996, B.Sc. (Dalhousie), B.S.E., M.S.E., Ph.D. (McGill), Human and machine vision, Neural computation, Brain imaging, Scientific visualization

Dobbs, Joel  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Entrepreneur in Residence, 2011, M.Sc. (UAB)

Dorsey, Amanda D.  
School of Health Professions

Department of Health Informatics, M.S.H.I., Instructor Assistant Program Director (Health Services Administration)

Doss, Harriet E. Amos  
College of Arts and Sciences  
Department of History, Associate Professor of History, 1978, B.A. (Agnes Scott), M.A., Ph.D. (Emory)

Downs, Lauren  
College of Arts and Sciences  
Department of Anthropology, Research Associate, 2013, B.A. (North Carolina), M.A., Ph.D. (Alabama)

Drentea, Patricia  
College of Arts and Sciences  
Department of Sociology, Associate Professor of Sociology, 1999, B.A. (Wisconsin), M.A., Ph.D. (Ohio State)

Drnevich, Dawn  
School of Business  
Department of Accounting and Finance, Assistant Professor of Accounting, 2010, Ph.D. (Texas Tech)

Dudley, Patricia  
School of Nursing  
Instructor of Nursing, 2006, B.S.N, M.S.N. (Samford)

Dunbar, Jessie  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2013, B.A. (Clark Atlanta University), M.A. (Georgia), Ph.D. (Emory), Nineteenth and Twentieth-Century African American Literature and Black Diaspora Studies

Duncan, W. Jack  
School of Public Health  
Department of Health Care Organization and Policy, Professor of Management and University Scholar Emeritus, 1972, Ph.D. (Louisiana State)

Dwyer, Zoe, B.  
School of Engineering  
Department of Materials Science and Engineering, Associate Professor of Materials Science and Engineering; Associate Dean for Undergraduate Programs, 1999, B.S., M.S., Ph.D. (UAB)

Earwood, Martha  
College of Arts and Sciences  
Department of Justice Sciences, Teaching Assistant Professor of Criminal Justice Internship Coordinator, 2003, B.S., M.S. (Georgia State), Corrections, Victimology, Restorative Justice, Experiential Learning.

Eberhardt, Alan  
School of Engineering  
Department of Biomedical Engineering, Professor of Biomedical Engineering; Associate Chair of Education, Biomedical Engineering; Director of Master of Engineering in Design and Commercialization, 1991, B.S., M.S. (Delaware), Ph.D. (Northwestern), Solid Mechanics, Injury Biomechanics, Biomedical Implants, Analytical and Numerical Methods in Biomechanics

Edmonds, Christopher  
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2013, B.S. (Colorado State), M.B.A. (UAB), Ph.D. (Virginia Tech)

Edmonds, Jennifer
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2013, B.S. (Birmingham-Southern), M.Acc., Ph.D. (Virginia Tech)

Eisler, Riane
College of Arts and Sciences
Department of Anthropology, Research Associate, 2015, B.A., J.D. (UCLA), DHL (Case Western), DHL (Saybrook)

Enah, Comfort
School of Nursing
Assistant Professor of Nursing, 2009, B.S.N. (Berea College), M.S.N., Ph.D. (Cincinnati)

Ennis, Robin
School of Education
Department of Curriculum and Instruction, Assistant Professor of Collaborative Teacher Education K-12, 2015, B.A. (Birmingham Southern), M.Ed. (Vanderbilt), Ph.D. (Georgia State)

Epps, Chad A.
School of Health Professions
Department of Clinical and Diagnostic Sciences, Associate Professor, 2007, MD (Medical College of Georgia), Simulation

Ernest, James R.
School of Education
Department of Curriculum and Instruction, Professor of Early Childhood and Elementary Education, 2010, B.A. (The University of Exeter, Exeter, England), M.A. (Louisiana State), Ph.D. (UAB)

Esposito, Richard A.
School of Engineering
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2011, B.S. (Auburn), M.S. (Auburn; Samford), Ph.D. (UAB), P.G. (Alabama, Georgia, Florida, Mississippi, Tennessee), Carbon Dioxide Sequestration; Power Generation

Estes, Jr., Norman Robert
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2015, Ph.D. (UAB)

Etheridge, Sherita
School of Nursing
Instructor of Nursing, 2008, B.S.N. (UNA), M.S.N. (UAB)

Evans, Patrick
College of Arts and Sciences
Department of Music, Professor and Chair, 2015, B.M., B.M.E. (Montevallo), M.M., D.M. (Florida State)

Evans, Retta
School of Education
Department of Human Studies, Associate Professor of Community Health and Human Services, 2003, B.S., (Fort Hays), M.S. (Northeastern), Ph.D. (Arkansas)

Fambrough, R.
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2001, B.M. (Georgia), M.M. (East Carolina), D.M.A. (Alabama)

Fanucchi, Michelle
College of Joint Health Sciences
Department of Biochemistry and Molecular Genetics, Associate Professor Chair; Environmental Health Sciences, 2007, Ph.D. (University of California - Davis), Pulmonary cell biology and toxicology, Cell-to-cell interactions in the developing lung as well as in repair after lung injury and disease in children, Environmental Justice. Childhood lung disease and its etiology. Drug metabolism.

Fast, Vladimir G.
School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1997, B.S., M.S. Physics, Ph.D. in Biophysics (Moscow Institute of Physics and Technology), Optical imaging of electrical and ionic activity in the heart mechanisms of cardiac arrhythmias and defibrillation

Fathallah-Shaykh, Hassan
College of Arts and Sciences
Department of Applied Mathematics, Professor of Neurology; Mathematics; Integrative, Developmental and Cell Biology; Biomedical, Electrical, and Mechanical Engineering, 2008, M.D. (American University of Beirut), Ph.D. (Illinois at Chicago), Mathematical Biology, Systems biology of cancer, Dynamics of molecular networks, Biological rhythms

Fedorov, Vladimir V.
College of Arts and Sciences
Department of Physics, Research Assistant Professor of Physics, 2007, M.S. (Moscow Institute of Physics), Ph.D. (Russian Academy of Science), Physical and mathematical science; coherent and laser spectroscopic characterization of doped laser materials; solid-state lasers; laser spectroscopy for molecular-sensing applications

Feldman, Dale S.
School of Engineering
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 1985, B.S. (Northwestern), M.S. (Dayton), Ph.D. (Clemson), Biomaterials, Soft-tissue biomechanics, Polymeric implants

Fiedler, Robin L.
School of Education
Department of Human Studies, Instructor of Educational Psychology and Research, 2008, B.S. (Edinboro), M.Ed. (Virginia Commonwealth), Ph.D. (Auburn), Measurement, Educational Psychology, Educational Statistics

Fischer, Kathleen E.
College of Arts and Sciences
Department of Biology, Research Assistant Professor of Biology, 2014, A.B. (UC Santa Cruz); Ph.D. (Harvard), Comparative Biology, Aging, Evolution, Natural History and Conservation

Fisher, Gordon
School of Education
Department of Human Studies, Professor of Kinesiology, 2012, B.S. (Hillsdale), M.S. (Mississippi State), Ph.D. (Auburn), Postdoctoral Fellow (UAB), Exercise Physiology; Exercise/Nutrition, Mitochondrial Bioenergetics, Oxidative Stress, and Chronic Inflammation

Flammini, Steve
School of Health Professions
Department of Health Informatics, Credit Course Instructor (Health Services Administration)

Fogger, Susanne School of Nursing
Associate Professor of Nursing, 2010, B.S.N. (Wayland Baptist University), M.S.N., D.N.P. (South Alabama)

Foley, Robin D. School of Engineering
Department of Materials Science and Engineering, Associate Professor of Materials Science and Engineering, 1990, B.S., M.S. (Illinois, Urbana-Champaign), Ph.D. (Wisconsin-Madison), Materials Characterization, Physical Metallurgy, Metals Casting

Fontaine, Kevin School of Public Health
Department of Health Behavior, Professor and Chair, 2012, Ph.D. (Victoria University, UK), Obesity, non-descriptive placebo responses, resistance exercise, mirror visual feedback for pain, movement restrictions in Chronic Fatigue Syndrome, and the effects of carbohydrate restricted diets on systemic inflammation

Forbes, Laura School of Education
Department of Human Studies, Assistant Professor of Community Health and Human Services, 2005, B.S. (Ball State), M.S. (Central Florida), Ph.D. (South Carolina)

Forman, Michele College of Arts and Sciences

Fouad, Fouad H. School of Engineering
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering; Chair, Department of Civil, Construction and Environmental Engineering; Associate Director, University Transportation Center for Alabama, 1981, B.S.C.E. (Alexandria, Egypt), M.S.C.E. (Texas), Ph.D. (Texas AM), P.E. (Alabama, Texas), Structural Engineering, Reinforced Concrete, Concrete Materials

Franklin, Gregory A. School of Engineering
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering, 2007, B.S., M.S., Ph.D. (UAB), P.E. (Alabama), Electric utility power systems, power system protection, power line communications

Franks, Alan E. College of Arts and Sciences
Department of Communication Studies, Assistant Professor; Director, Broadcasting, 2013, B.S. (UAB); MFDI (Sydney); MFA (Montana State)

Friday, R. David School of Health Professions
Department of Health Informatics, M.S.H.I., Adjunct Instructor (Health Services Administration)

Friend, Edward M. III School of Business
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Business Law and Executive in Residence, 2005, B.A., J.D. (University of Alabama)

Fry, Douglas P. College of Arts and Sciences
Department of Anthropology, Professor Chairperson, 2014, B.A. (UCSB), M.A., Ph.D. (Indiana)

Fu, Richard School of Business
Department of Accounting and Finance, Associate Professor of Finance, 2006, Ph.D. (Georgia Institute of Technology)

Gainey, Denise College of Arts and Sciences
Department of Music, Associate Professor of Music, 2002, B.M.E. (Florida State), M.M. (North Texas), D.M.A. (Kentucky)

Galoso, Vanessa School of Nursing
Instructor of Nursing, 2008, B.S.N., M.S.N. (University of Sao Paulo, Brazil), Ph.D. (UAB)

Gakumo, C. Ann School of Nursing
Assistant Professor of Nursing, 2009, B.S.N. (Tuskegee), Ph.D. (UAB)

Gampher, J. Eric College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2008, B.S. (Florida State), Ph.D. (UAB)

Gardner, Elizabeth A. College of Arts and Sciences
Department of Justice Sciences, Associate Professor and Director, Master of Science in Forensic Science Program, 2007, B.S. (Penn State), Ph.D. (Michigan State), Drug Chemistry, Legal Highs, Gun Powder Residue, Laser Induced Breakdown Spectroscopy, Pharmaceutical Spam

George, Remo School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2008, M.S. (Mahtma Gandhi University), Ph.D. (UAB), Using Molecular Beacons for Detection and Attenuation of Mycobacteria

Ghanta, Vithal K. College of Arts and Sciences
Department of Biology, Professor of Biology, 1971, B.S. (G.C.W. College), M.S. (Banaras Hinda), Ph.D. (Southern Illinois), Research Interest: Cancer Immunology, Immunology, and Biology of Aging

Ghervas, Stella College of Arts and Sciences
Department of History, Assistant Professor, 2016, B.A., M.A. (St. Petersburg), Ph.D. (Bucharest)

Gilbert, Margie G. College of Arts and Sciences
Department of Social Work, Visiting Assistant Professor, 2014, B.S.W. (UAB), M.S.W. (Alabama)

Gilchrist, Roger L. College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 1999, B.S., M.S., Ph.D. (Wyoming), Human Anatomy and Physiology
Gilmer, Dianne  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering.  
Instructor of Civil, Construction, and Environmental Engineering, 2009,  
B.S. (Samford), MEng-CEM (UAB), Engineering Online Education,  
Learning Management System Applications, Student Retention in Online Learning Programs

Goldman, Jay  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering.  
Distinguished Service Professor Dean Emeritus, 2017, Ph.D.  
(Washington University in St. Louis)

Goldman, Renitta L.  
School of Education  
Department of Curriculum and Instruction, Professor of Special Education, 1984, B.A. (Washington), M.S. (North Carolina State), Ph.D. (Missouri)

Golightly, Beverly  
School of Health Professions  
Department of Health Informatics, M.S.H.A., Credit Course Instructor (Health Services Administration)

Goodin, Burel  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology and Anesthesiology, 2012, B.S. (Illinois College); M.A. (Boston University of Medicine); M.A., Ph.D (Maryland, Baltimore)

Grant, Terry  
School of Business  
Department of Accounting and Finance, Professor of Accounting, 2012, B.S. (Alabama), M.P.A. (Texas), Ph.D. (Florida)

Grau, Grace  
School of Nursing  
Instructor of Nursing, 2011, B.S.N. (Miami), M.S.N. (UAH)

Graveline, Jeffrey D.  
Mervyn H. Sterne Library  
Mervyn H. Sterne Library, Associate Librarian, Reference Services,  

Graves, Lila V.  
College of Arts and Sciences  
Department of English, Associate Professor of English Emerita, 1976,  
B.S., M.A., Ph.D. (Auburn), Prose Fiction, Eighteenth-Century British Literature

Gray, Gary M.  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry, 1983, B.S., Ph.D. (Lehigh)

Green, David G.  
School of Engineering  
Department of Electrical and Computer Engineering, Instructional Professor of Electrical and Computer Engineering, 1981, B.S.E., M.S.E (UAH), Collaborative Systems, Internet Applications, and Engineering Education

Griffin, John A.  
School of Engineering  
Department of Materials Science and Engineering, Research Assistant Professor of Materials Science and Engineering, 2011, B.S.M.T.E., M.S.M.T.E. (UAB), Metals Casting, Testing and Characterization, Nondestructive Evaluation

Griffin, O. Hayden  
College of Arts and Sciences  
Department of Justice Sciences, Associate Professor of Justice Sciences, 2013, J.D. (University of Richmond), Ph.D. (University of Florida), Corrections, Policy, Drugs and Society, Law and Society

Griffin, Russell  
School of Public Health  
Department of Epidemiology, Assistant Professor, 2012, Ph.D. (UAB), Improving quality of care among trauma and bum patients, utilization of peritoneal dialysis in rural populations, and predictors of acute kidney injury among neonates.

Grimes, Gary J.  
School of Health Professions  
Department of Health Informatics, Ph.D., Professor (Electrical and Computer Engineering)

Grimes, L. Kyle  
College of Arts and Sciences  
Department of English, Professor of English; Director of Graduate Studies Department of English, 1990, B.A. (Dartmouth), M.A., Ph.D. (Illinois)

Grimes-Robison, Cindy  
School of Nursing  
Instructor of Nursing, 2003, B.A. (Alabama), B.S.N., Ph.D. (UAB), M.Ed. (Montevallo), M.S.N (Troy State)

Grostick, Sara S.  
School of Health Professions  
Department of Health Informatics, M.A., Associate Professor (Health Services Administration)

Guest, Kristi C.  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2003, B.S., M.A., Ph.D. (UAB)

Gunnels, Ken  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Instructor of Information Systems, 2011, B.S. (UAB); M.B.A. (Samford); M.S., MIS, Ph.D. (Alabama)

Gunther-Canada, Wendy A.  
College of Arts and Sciences  
Department of Government, Professor and Chair, Department of Government, 1992, B.A. (Utah), M.A., Ph.D. (Rutgers)

Gurley, Dennis Keith  
School of Education  
Department of Human Studies, Assistant Professor of Educational Leadership, 2012, B.A. (Trinity), M.Ed., Ed.D. (Wichita State), Pre-Service and In-Service Development for School Leaders, Professional Learning Communities, and Organizational Theory
Guthrie, James  
College of Arts and Sciences  

Hadley, Mark  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Professor of Surgery; Professor of Marketing and Industrial Distribution; Spinal Surgery and Medical Equipment and Supplies Distribution, 2008, B.A. (Stanford), M.D. (Albany Medical College)  

Haider, Mohammad  
School of Engineering  
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, Ph.D. (Tennessee-Knoxville), Low-power Sensor Electronics, Wireless Telemetry, and Wireless Power Transfer  

Hall, Cheryl D.  
College of Arts Science  
Department of Theatre, Assistant Professor of Theatre, 1989, B.A. (Southern Illinois), M.F.A. (Arizona)  

Hall, Sean  
School of Education  
Department of Human Studies, Assistant Professor of Counselor Education, 2012, B.A., M.A. (Florida Gulf Coast), Ph.D. (Old Dominion), Counselor Education, Clinical Mental Health Counseling, Assessment and Intervention Techniques, Processes and Outcomes Research, Dropout Prevention  

Hallman, Melanie  
School of Nursing  
Instructor of Nursing, 1998, B.S.N., M.S.N. (UAB)  

Hamilton, Denise  
School of Health Professions  
Department of Health Administration, Instructor (Health Services Administration): Health Care Finance  

Hamilton, Harry  
College of Arts and Sciences  
Department of Sociology, Teaching Associate Professor of Sociology, 2005, B.A., M.A., Ph.D. (UAB)  

Hamilton, Tracy P.  
College of Arts and Sciences  
Department of Chemistry, Associate Professor of Chemistry, 1991, B.S., M.S., Ph.D. (Arkansas)  

Hammack, Glenn G.  
School of Health Professions  
Department of Health Informatics, O.D., M.S.H.I., Assistant Professor (Health Services Administration)  

Hammond, Stephanie  
School of Nursing  
Instructor of Nursing, 2010, B.S.N. (Alabama), M.S.N. (UAB)  

Hansen, John  
School of Business  
Department of Marketing, Industrial Distribution, and Economics, Assistant Professor of Marketing, 2009, B.S., M.B.A. (Troy), Ph.D. (Alabama)  

Hardin, J. Michael  
School of Health Professions  
Department of Health Informatics, Ph.D., Credit Course Instructor (Health Services Administration)  

Harper, Doreen  
School of Nursing  
Professor and Dean of Nursing, 2005, B.S.N. (Cornell), M.S.N. (Catholic), Ph.D. (Maryland)  

Harris, Linda S.  
Mervyn H. Sterne Library  
Mervyn H. Sterne Library, Associate Librarian: Head, Reference Services, Mervyn H. Sterne Library, 1984, B.A. (Stillman), M.S.L.S. (Atlanta)  

Harris, Melissa L.  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2016, B.S., Ph.D. (UC Davis), Somatic Stem Cells, Aging, Genetics and Genomics, Pigmentation Biology  

Harris, Yolanda  
School of Nursing  
Instructor of Nursing, 2011, B.S.N. (Samford), M.S.N. (UAB)  

Harrison, Joseph G.  
College of Arts and Sciences  
Department of Physics, Associate Professor of Physics, 1986, B.S. (Texas AM), M.S., Ph.D. (Wisconsin - Madison), Solid-state theory; atomic and molecular physics; MRI modeling; chemical kinetics; simulation of nonparticle-facilitated hyperthermia  

Hasan, Ragib  
College of Arts and Sciences  
Department of Computer and Information Sciences, Assistant Professor of Computer and Information Sciences, 2011, B.S. (Bangladesh), M.S., Ph.D. (Illinois Urbana-Champaign)  

Hataway, Connie  
School of Nursing  
Instructor of Nursing, 2008, B.A. (Brenau College), A.S.N. (Troy State), M.S.N. (Samford)  

Hawk, James F.  
College of Arts and Sciences  
Department of Physics, Lecturer Emeritus in Physics, 1956, B.A. (Virginia), A.M. (Washington)  

Heaton, Karen  
School of Nursing  
Assistant Professor of Nursing, 2008, BSN (UAB), MSN (Louisville)  

Hendricks, Peter  
School of Public Health  
Department of Health Education and Health Promotion, Associate Professor, 2010, Ph.D. (South Florida), Tobacco use initiation, maintenance, and relapse, with a goal of developing novel and potentially more efficacious interventions for intractable smoking behavior
Hernandez, S. Robert  
School of Health Professions  
Department of Health Services Administration, Professor and Program Director, Doctoral Program in Administration-Health Services, 1972, DrPH (UNC - Chapel Hill), Strategic Planning for Health Care Organizations, Health Care Organization Theory, Human Resources Management.

Herzig, Terrell W.  
School of Health Professions  
Department of Health Informatics, M.S.H.I., Credit Course Instructor (Health Services Administration).

Hess, Annette  
School of Nursing  
Assistant Professor of Nursing, 1984, B.S.N. (Auburn), M.S.N. (Troy State), Ph.D. (UAB).

Hettich, Dana L.  
Mervyn H. Sterne Library  

Hicks, Joan C.  
School of Health Professions  
Department of Health Informatics, M.S.H.I., Assistant Professor (Health Services Administration).

Hickson, Mark III  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 1987, B.S., M.A. (Auburn), M.A. (Mississippi State), Ph.D. (Southern Illinois); J.D. (Birmingham School of Law).

Hill, Kelly L.  
School of Education  
Department of Curriculum and Instruction, Temp Assistant Professor of English as a Second Language, 2015, B.S., M.A., Ed.S., Ph.D. (UAB).

Hilton, David  
College of Arts and Sciences  
Department of Physics, Associate Professor of Physics, 2007, B.S., M.S. (Rochester), M.S., Ph.D. (Cornell), Ultrafast spectroscopy and ultrashort pulse generations; ultrafast terahertz spectroscopy; correlated electron materials; superconductivity; high-magnetic field spectroscopy; magnetic semiconductors; complex functional nanomaterials; materials in extreme environments.

Hitchcock, Laurel  
College of Arts and Sciences  

Hitchcock, Wilbur A.  
School of Engineering  

Hites, Lisle  
School of Public Health  
Department of Health Care Organization and Policy, Associate Professor, 2010, Ph.D. (Tulane), Structural modeling of predictors of on the job injuries suffered by law enforcement, firefighters, and corrections officers, and understanding the relationship between situation awareness and decision making quality in non-routine emergency response.

Hodges, Ashley  
School of Nursing  
Assistant Professor of Nursing; Interim Assistant Dean for Graduate Clinical Programs, 2009, B.S.N. (Alabama), M.A. (Seton Hall), M.S.N., Ph.D. (UAB).

Hogwood, Connie M.  
School of Nursing  

Holloway, Stacey  
College of Arts Sciences  
Department of Art Art History, Assistant Professor of Art, 2009, B.F.A (Purdue), M.F.A. (Minnesota-Twin Cities), Sculpture, Ceramics, Engineering.

Hood, Anthony  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor, 2011, B.S., M.S. (UAB), Ph.D. (UAB).

Hopkins, Maria  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Director, Undergraduate Studies of Psychology, 2007, B.S., M.A., Ph.D. (UAB).

Hosch, Ian E.  
School of Engineering  

Howard, Jack Lee  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2009, B.S., A.M., Ph.D. (University of Illinois at Urbana-Champaign).

Huang, Xuan  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor of Quantitative Methods, 2010, B.E. (Tsinghua University, Beijing), M.Sc., Ph.D. (Massachusetts, Amherst).

Hunter, Gary R.  
School of Education  

Hurst-Wajszczuk, Kristine  
College of Arts and Sciences  

Hutchings, William (Bill)  
College of Arts and Sciences  

Hutchison, Jeanne S.  
College of Arts and Sciences  
Department of Mathematics, Assistant Professor of Mathematics, 1970, B.S. (Creighton), M.A., Ph.D. (California-Los Angeles)

Hutson, Susan  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Associate Professor Emeritus, Respiratory Therapy Program, 1976, M.A.E. (UAB)

Hyatt, Robert M.  
College of Arts and Sciences  
Department of Computer and Information Sciences, Associate Professor of Computer and Information Sciences, 1988, B.S., M.S. (Southern Mississippi), Ph.D. (UAB)

Hyde, Michael T.  
School of Nursing  
Instructor of Nursing, 2012, B.S.N., M.S.N. (Alabama)

Ibelema, Minabere  
College of Arts and Sciences  
Department of Communication Studies, Associate Professor of Communication Studies, 1995, B.A. (Wilberforce), M.A., Ph.D. (Ohio State)

Iddins, Brenda  
School of Nursing  
Instructor of Nursing, 2008, B.S.N., M.S.N., D.N.P. (UAB)

Iles, Karen E.  
School of Public Health  
Department of Environmental Health Science, Associate Professor, 2015, Ph.D. (Guelph), Research administration, especially conflict of interest regulations; cell-signaling responses to pulmonary injury focusing on pollutant-derived and bacterial insults; signaling mechanisms for endogenous antioxidants, such as glutathione, to decrease pulmonary injury; molecular nutrition and gene expression.

Irving, Howard L.  
College of Arts and Sciences  
Department of Music, Professor of Music, 1981, B.Mus. (Centenary), M.M., Ph.D. (Louisiana State)

Jablonski, Rita S.  
School of Nursing  
Associate Professor of Nursing, 2012, B.S.N. (Holy Family), M.S.N. (La Salle), Ph.D. (Virginia)

Jack, Eric  
School of Business  
Department of Management, Information Systems and Quantitative Methods, Associate Professor of Management; Dean, Faculty Development and Research, 2001, B.S. (Georgia Institute of Technology), M.B.A. (Wright State), Ph.D. (Cincinnati)

Jannett, Thomas C.  
School of Engineering  
Department of Electrical and Computer Engineering, Professor Emeritus of Electrical and Computer Engineering, 1984, B.S.E., M.S.E. (UAB), Ph.D. (Auburn), Sensor Networks, Biomedical Instrumentation and Control Systems

Janowski, Gregg M.  
School of Engineering  
Department of Materials Science and Engineering, Professor of Materials Science and Engineering; Associate Provost for Assessment and Accreditation, 1990, B.S., M.S., Ph.D. (Michigan Technological), X-Ray Diffraction, Composite Materials, Physical Metallurgy, Structure-Processing-Property Relationships

Jennings, Matthew  
School of Nursing  
Instructor of Nursing, 2009, B.A. (Augusta State); M.Ed. (Troy State)

Jepkemboi, Grace  
School of Education  
Department of Curriculum and Instruction, Assistant Professor of Early Childhood and Elementary Education, 2008, B.Ed. (Egerton University, Kenya), M.A. (Moi University, Kenya), Ph.D. (UAB)

Jessee, Margaret Jay  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2013, B.A. (Tennessee), Ph.D. (Arizona), Gender Studies, Women’s Literature, American Literature

Johnson, Karmie M.  
School of Nursing  
Instructor of Nursing, 2012, B.S.N., M.A.S.N. (UAB); B.S.N. (South Alabama)

Johnson, Margaret  
College of Arts and Sciences  
Department of Chemistry, Assistant Professor of Chemistry, 2013, B.S., Ph.D. (Simon Fraser)

Johnson, Marlene  
College of Arts and Sciences  
Department of Theatre, Associate Professor of Theater, 2006, B.A. (Asbury), M.A. (Miami-Oxford), M.F.A. (Virginia Commonwealth)

Johnson, Walter  
College of Arts and Sciences  

Johnston, Allen  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Information Systems, Director of Information Systems Programs, 2007, B.S. (LSU), M.B.A., PhD. (Mississippi)

Johnstone, John K.  
College of Arts and Sciences  
Department of Computer and Information Sciences, Associate Professor and Undergraduate Program Director of Computer and Information Sciences; Associate Professor of Ophthalmology, 1994, B.S. (Saskatchewan-Canada), M.S., Ph.D. (Cornell)

Jolly, Pauline  
School of Public Health  
Department of Epidemiology, Professor, 1991, M.P.H., Ph.D. (Johns Hopkins), Infectious Disease Epidemiology, International Health and Global Studies.

Jones, Alison  
School of Nursing  
Assistant Professor, 2015, B.S.N., M.S.N., Certificate, Ph.D. (Kentucky)
Jones, Harold P.  School of Health Professions
Professor and Dean, School of Health Professions, 2001, Ph.D. (Duke)

Jones, Warren T. College of Arts and Sciences
Department of Computer and Information Sciences, Professor Emeritus of Computer and Information Sciences, 1979, B.S.E.E. (Georgia Institute of Technology), M.S. (Georgia State), M.S., Ph.D. (Georgia Institute of Technology), P.E. (Kentucky)

Judd, Suzanne E. School of Public Health
Department of Biostatistics, Assistant Dean for Undergraduate Education, Associate Professor, 2008, Ph.D. (Emory), Vitamin D, Longitudinal Cohort Studies, Data Management, Stroke, Dietary Patterns and Population Nutrition

Jukkala, Angela School of Nursing
Associate Professor of Nursing, 2006, B.S.N. (Bemidji State), M.S., Ph.D. (Minnesota)

Jun, Ho-Wook School of Engineering
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 2006, BS, MS (Hanyang University, South Korea), Ph.D. (Rice), Biomimetic nanotechnology, Biomaterials, Tissue engineering

Kain, Margaret M. Mervyn H. Sterne Library
Mervyn H. Sterne Library, Senior Assistant Librarian; Electronic Resources Librarian; Cataloging Collection Management, Mervyn H Sterne Library, 2006, B.S. (Auburn-Montgomery), M.L.S. (Alabama)

Kamii, Constance School of Education
Department of Curriculum and Instruction, Professor of Early Childhood Education, 1984, B.A. (Pomona College), M.A., Ph.D. (Michigan), Ed.D. (Wheelock College)

Kana, Rajesh K. College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology; Co-Director, Undergraduate Neuroscience Program , 2007, B.S. (Calicut), M.A. (Annamalai), Ph.D. (Indian Institute of Technology)

Kannappan, Ramaswamy School of Engineering
Department of Biomedical Engineering, Assistant Professor of Biomedical Engineering, 2015, BPharm, MPharm (Tamilnadu DR. M.G.R. Medical University - India), Ph.D. (Niigata University - Japan), Aging cardiomyopathy, Cardiac stem cells

Karpeshina, Yulia College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1995, M.S., Ph.D. (Saint Petersburg, Russia), Partial Differential Equations and Mathematics Physics

Kasman, Yakov College of Arts and Sciences
Department of Music, Professor of Music; Artist in Residence, 2002, B.M. (Music College of Moscow Conservatory), M.M., D.M.A. (Moscow State Conservatory)

Kavouras, Ilias School of Public Health
Department of Environmental Health Sciences, Associate Professor, 2015, Ph.D. (Crete, Greece), Air Pollution, Wildfires, Climate Change, Organic Aerosol, Asthma, Heart Disease

Kawai, Ryoichi College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 1991, B.S., M.S., Ph.D. (Waseda, Japan), Condensed-matter theory; biophysics theory; materials physics theory; computational physics; open quantum systems

Keitt, Andrew W. College of Arts and Sciences
Department of History, Associate Professor of History, 1999, B.A. (Duke), M.A., Ph.D. (UC-Berkeley)

Keitner, Norman School of Nursing
Professor of Nursing, 1990, B.S.N., M.S.N. (Fresno State), Ed.D. (San Francisco)

Kemp, Dustin W. College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2016, B.S. (Texas AM); M.S. (Florida Atlantic); Ph.D. (Georgia), Marine Ecology and Physiology, Global Climate Change

Kempf, Mirjam School of Nursing
Associate Professor of Nursing, 2010, M.P.H., (UAB), Ph.D. (Institute for Medical Microbiology and Hygiene, Julius-Maximilians-Universitat)

Kennedy, Bridgett H. College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2013, B.A., M.A., Ph.D. (UAB)

Kennedy, Karen School of Business
Department of Marketing, Industrial Distribution and Economics, Associate Professor of Marketing and Industrial Distribution; Senior Associate Dean, Programs and Outreach, 2001, B.S. (Blue Mountain), M.S. (Florida State), M.B.A. (Georgia State), Ph.D. (South Florida)

Kennedy, Karen School of Health Professions
Department of Administration Health Services, Associate Professor (Marketing), Cognitive Research, Diversity, Services Marketing, Organizational Culture, Interpersonal Trust Development, Qualitative Research Methods

Key, Susan School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Management, 1995, B.A., J.D., M.B.A. (Illinois), Ph.D. (Pittsburgh)

Kharlampeiva, Eugenia College of Arts and Sciences
Department of Chemistry, Associate Professor of Chemistry, 2010, B.S. (ChelyabinskSt.), Ph.D. (Stevens Institute of Technology)

Kilgo, Jennifer L. School of Education
Department of Curriculum and Instruction, Professor of Special Education, 1995, B.A. (Auburn), M.A. (UAB), Ed.D. (Alabama)

Kilgore, Meredith School of Public Health
Department of Health Care Organization and Policy, Professor and Chair, 2002, Ph.D. (RAND Graduate School), Burden of disease associated with osteoporosis and related bone fractures and the effects of bone metastases on skeletal related events, an intervention to improve osteoporosis in the home health setting, the effectiveness of prophylactic enteric feeding tubes in patients undergoing treatment for head and neck cancer, and a study of the quality of primary care for patients diagnosed with cancer.

King, Jerry School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, Respiratory Therapy Program, 2008, M.S. (UAB)

King, Matthew College of Arts and Sciences
Department of Philosophy, Assistant Professor of Philosophy, 2014, B.A. (University of Virginia), M.A., Ph.D. (University of Maryland)

King, Pamela Sterne College of Arts and Sciences
Department of History, Assistant Professor of History, 2004, B.A. (Samford), M.A. (UAB)

Kirby, Jason School of Engineering
Department of Civil, Construction, and Environmental Engineering, Associate Professor of Civil, Construction and Environmental Engineering; Director, Sustainable Smart Cities Program, 2005, B.S. (Auburn), M.S., Ph.D. (Alabama), Environmental Engineering, Water Resources, Hydraulics

Kirkland, Lynn School of Education

Kittredge, Brian College of Arts and Sciences
Department of Music, Associate Professor of Music; Director of Choral Activities, 2010, B.M. (Mansfield), M.M. (Eastman), D.M.A. (LSU)

Knight, Candace School of Nursing
Instructor of Nursing, 2012, B.S.N. (UAB)

Knight, David C. College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology; Co-Director, Undergraduate Neuroscience Program, 2007, B.S. (Truman State), M.S., Ph.D. (Wisconsin-Milwaukee)

Knowles, Ian W. College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1979, B.Sc. (Adelaide), M.Sc., Ph.D. (Flinders-South Australia), Ordinary and Partial Differential Equations, Numerical Analysis

Koomullil, Roy P. School of Engineering
Department of Mechanical Engineering, Associate Professor of Mechanical Engineering, 2002, B.S. (Mahatma Gandhi University, India), M.S. (Indian Institute of Technology, India), Ph.D. (Mississippi State), High Performance Computing; Six Degrees of Freedom Simulation; Biomedical Flow Modeling

Kornegay, Randall W. School of Business
Department of Management, Information Systems, and Quantitative Methods, Instructor of Business Communication, 2006, B.A., M.A. (UAB)

Koskinen, Karla College of Arts Science
Department of Theatre, Professor of Theater, 2007, B.A. (Marquette), M.F.A. (Illinois State)

Kranz, Clare School of Nursing
Instructor of Nursing, 2015, B.S.N., M.S.N. (UAB)

Kravchuk, Elena College of Arts and Sciences
Department of Mathematics, Instructor of Mathematics, 2002, M.S. (Donetsk State – Ukraine), Ph.D. (NASU, Donetsk – Ukraine)

Krueger-Hadfield, Stacy A. College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2016, B.S., M.S. (California State - Northridge); Ph.D. (Université de Pierre et Marie Curie Sorbonne Universités); Ph.D. (Pontificia Universidad Católica de Chile), Evolutionary Ecology, Molecular Ecology, Phycology

Kurata, Marilyn J. College of Arts and Sciences

Kyle, Chris College of Arts and Sciences
Department of Anthropology, Associate Professor of Anthropology, 2000, B.A. (Pittsburgh College), M.A., M.Phil., Ph.D. (Columbia)

LaChenaye, Jenna School of Education
Department of Human Studies, Assistant Professor of Educational Psychology and Research, 2014, B.A. (Louisiana), B.S., Ed.S., Ph.D. (Louisiana State), M.S. (Florida State)

Lake, Lauren College of Arts and Sciences
Department of Art Art History, Associate Professor of Art; Chair, 2013, BA (University of Florida), M.F.A. (Madison-Wisconsin), Drawing

Laken, Debra E. School of Health Professions
Department of Clinical and Diagnostic Sciences, Associate Professor, Respiratory Therapy Program, 1999, M.A.E. (UAB)

Lancaster, Winston C. College of Arts and Sciences

Department of Biology, Assistant Professor of Biology, 2014, B.S. (Auburn); M.S. (LSU), Ph.D. (North Carolina), Human Anatomy, Comparative Anatomy, Biosonar in Bats and Whales

Langston, Summer  
School of Nursing  
Assistant Professor of Nursing; Co-Coordinator of AMNP Program, 2009, B.S.N. (Southern Mississippi), M.S.N., D.N.P. (UAB)

Lanzi, Robin Gaines  
School of Public Health  
Department of Health Education and Health Promotion, Associate Professor, 2009, M.P.H., Ph.D. (UAB), Adolescent parenting, child maltreatment, maternal depression, early intervention programs, developmental outcomes, research methods, ethical issues, and social policy

Lariscy, Nichole  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2005, B.A. (Georgia College and State University), M.A. (Northwestern), Ph.D. (Wisconsin-Milwaukee)

Lawson, Christopher M.  
College of Arts and Sciences  
Department of Physics, Professor of Physics, 1993, B.S. (Oklahoma State), M.S. (Colorado), Ph.D. (Oklahoma State), Nonlinear optics; fiber optics; optical sensors; optical coherence imaging tomography; laser spectroscopy

Lee, Loretta  
School of Nursing  
Assistant Professor of Nursing, 2002, B.S.N. (Alabama), M.S.N., Ph.D. (UAB)

Lee, Yookyong  
College of Arts and Sciences  
Department of Social Work, Associate Professor and BSW Program Director, 2013, B.A. (Michigan), M.A., Ph.D. (Columbia)

Leece, Ryan  
School of Business  
Department of Accounting and Finance, Assistant Professor, BS (LSU); MSIS, PhD (Mississippi State)

Lemons, Jack E.  
School of Engineering  
Department of Biomedical Engineering, Professor of Biomaterials; Professor of Surgery; Division Director, Orthopaedic Laboratory Research; Professor of Biomedical and Materials Engineering, 1968, Ph.D. (Florida), Biocompatibility profiles of surgical implant devices with an emphasis on the role(s) of element and/or force transfers along biomaterial-to-tissue interfaces

Levine, Timothy R.  
College of Arts and Sciences  
Department of Communication Studies, Distinguished Professor and Chair, 2015, B.A. (Northwestern); M.A. (West Virginia); Ph.D. (Michigan State)

Levitan, Emily B.  
School of Public Health  
Department of Epidemiology, Associate Professor, 2009, Sc.D. (Harvard, Comparative Effectiveness Research, Cardiovascular Epidemiology, Epidemiologic Methods

Lewis, Angela K.  
College of Arts and Sciences  
Department of Government, Associate Professor of Government, 2003, B.A. (Alabama), M.P.A., Ph.D., (Tennessee)

Lewis, Roger T.  
College of Arts and Sciences  
Department of Mathematics, Professor Emeritus of Mathematics, 1975, A.B. (Tennessee), M.S. (Florida Institute of Technology), Ph.D. (Tennessee), Differential Equations, Spectral Theory

Li, JunFang  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 2008, B.A. (Wuhan Univ., China), Ph.D. (Oklahoma), Geometric Analysis and Non-linear Partial Differential Equations

Liber, George O.  
College of Arts and Sciences  
Department of History, Professor of History, 1987, B.A. (Indiana), M.A. (Harvard), Ph.D. (Columbia)

Lim, Hyeyoung  
College of Arts and Sciences  
Department of Justice Sciences, Assistant Professor and Honors Program Director, 2013, Ph.D. (Sam Houston State), Police Use of Force, Police Decision Making, Quantitative Methods, Program and Policy Evaluation

Lingasubramanian, Kirthikeyan  
School of Engineering  
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, Ph.D. (South Florida), Hardware Security, Reliability and Low Power Design for Digital VLSI Circuits and Systems

Linville, Jason G.  
College of Arts and Sciences  
Department of Justice Sciences, Teaching Assistant Professor, 2004, B.S. (Ohio), M.S., Ph.D. (UAB), Forensic Biology, Entomology, Forensic Science Education

Littlefield, David L.  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering; Chair of Mechanical Engineering, 2005, B.S., M.S, Ph.D. (Georgia Tech), Computational Mechanics; Impact Mechanics and Shock Physics; Weapons Effects

Liu, Xiaoguang  
School of Engineering  
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 2016, Chemical Engineering (Shandong University, M.S. in Biochemical Engineering (Tianjin University), Ph.D. in Chemical and Biomolecular Engineering (The Ohio State University), Cellular therapy, antibody, anti-cancer, heart failure treatment, industrial biopharmaceutical and biotechnology, metabolic cell-process engineering, bioreactor, cell culture

Loder-Jackson, Tondra  
School of Education
Department of Human Studies, Associate Professor of Foundations of Education, 2003, B.S. (Birmingham-Southern), M.P.P. (Chicago), Ph.D. (Northwestern)

Long, Jennifer M. Mervyn H. Sterne Library
Mervyn H. Sterne Library, Senior Assistant Librarian, Reference Services, Mervyn H. Sterne Library, 1997, B. S. (Bowling Green), M.L.S. (Kent State)

Lucius, Aaron L. College of Arts and Sciences
Department of Chemistry, Professor of Chemistry, 2006, B.S. (Oregon State), Ph.D. (Washington U.)

Lund, Donald School of Business
Department of Marketing, Industrial Distribution, and Economics, Assistant Professor of Marketing, 2009, B.S., M.B.A. (Missouri State) Ph.D. (Missouri, Columbia)

Ma, Ling College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of Chinese, 2013, B.A. (Jinan University, China), B.S. (UAB), Chinese Language Training Program (Troy; Sun Yat-sen University, China)

Mack, June College of Arts and Sciences
Department of Communication Studies, Associate Professor of Theatre, 2001, B.A. (Holllins), M.F.A. (Florida State), M.Ed. (Harvard)

Madden-Lunsford, Kerry College of Arts and Sciences
Department of English, Associate Professor of English; Director of Creative Writing, 2009, B.A., M.F.A. (Tennessee)

Maddox, John College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of Foreign Languages, 2014, B.A., B.S.Ed., M.A. (Georgia), Ph.D. (Vanderbilt)

Mahapatra, Majoj K. School of Engineering
Department of Materials Science and Engineering, Assistant Professor of Materials Science Engineering, 2015, BTech (University of Calcutta- India), M.Tech (IT-BHU - India), Ph.D. (Virginia Tech), Ceramics and glasses for advanced energy systems, Structural ceramics, Solid waste immobilization, Chemistry-processing-structure-property relationship, Electrochemistry, Materials degradation

Major, Melba College of Arts and Sciences
Department of English, Assistant Professor of English, 2014, B.A. (Union), M.A., (UAB), M.F.A. (Antioch)

March, Joe L. College of Arts and Sciences
Department of Chemistry, Professor of Chemistry; Associate Director, Science and Technology Honors Program, 1999, B.S., M.S. (Southwestern Texas), Ph.D. (Texas)

Marion, Ken R. College of Arts and Sciences
Department of Biology, Professor Emeritus of Biology, 1971, B.A., Ph.D. (Washington University, St. Louis), Animal Natural History and Aquatic Environmental Biology

Marstrander, Jon School of Engineering
Department of Electrical and Computer Engineering, Instructor of Electrical and Computer Engineering, 2005, B.S.E.E., M.S.E.E. (UAB), P.E. (Alabama), Signal and Image Processing, Embedded Systems, and Field Programmable Gate Arrays

Martin, Heather Mervyn H. Sterne Library

Martyshkin, Dmitri V. College of Arts and Sciences
Department of Physics, Research Assistant Professor, 2010, B.S. (Novosibirsk State University, Russia), M.S., Ph.D. (UAB), Development of spectroscopic characterization of doped laser materials; solid-state lasers; laser spectroscopy for molecular-sensing applications

Mayer, John C. College of Arts and Sciences
Department of Mathematics, Professor of Mathematics; Associate Chair, Department of Mathematics, 1984, B.A. (Randolph-Macon), M.A., Ph.D. (Florida), Topology, Continuum Theory, Dynamical Systems, Mathematics Education

Mayoral-Hernández, Roberto College of Arts and Sciences
Department of Foreign Languages and Literatures, Associate Professor of Spanish, 2008, Licenciatura (Universidad Complutense de Madrid), Diploma de Estudios Avanzados (Universidad Autónoma de Madrid), Ph.D. (Southern California)

McCain, Kevin College of Arts and Sciences
Department of Philosophy, Assistant Professor of Philosophy, 2012, B.A., B.S. (Southeast Missouri State University), M.A. (University of Missouri-Columbia), Ph.D. (University of Rochester, New York)

McCarthy, Shannon N. School of Education
Department of Human Studies, Assistant Professor of Counselor Education, 2014, B.A. (Pennsylvania State), M.A. (Central Florida), Ph.D. (Florida)

McCIntock, James B. College of Arts and Sciences
Department of Biology, Endowed University Professor of Polar and Marine Biology, 1987, B.S. (California), M.S., Ph.D. (South Florida), Marine Invertebrate Chemical Ecology, Climate Change Biology

McComiskey, Bruce College of Arts and Sciences
Department of English, Professor of English, 1998, B.A., M.A. (Illinois State), Ph.D. (Purdue), Rhetorical and Composition

McCormick, Lisa  
School of Public Health  
Department of Health Care Organization and Policy, Associate Professor; Director of the Office of Public Health Practice, Dean's Office, 2010, Dr.PH. (UAB), Public health preparedness and response, the organization of response systems, and assessing interorganizational networks as a dimension of response capacity and community resiliency

McCornack, Steven  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Washington); A.M. (Illinois at Urbana-Champaign)

McCotcheon, Martin J.  
School of Engineering  
Department of Biomedical Engineering, Professor Emeritus of Biomedical Engineering, 1967, B.S.E.E., M.S.E.E., Ph.D. (Arkansas), P.E. (Alabama)

McDaniel, David R.  
School of Engineering  
Department of Mechanical Engineering, Research Associate Professor of Mechanical Engineering, 2008, B.S. (US Air Force Academy), M.S. (George Washington University), Ph.D. (Colorado, Colorado Springs), High Performance Computing; Computational Fluid Dynamics; Multidisciplinary Air Vehicle Simulation

McFarland, Carl E. Jr.  
College of Arts and Sciences  
Department of Psychology, Professor Emeritus (Psychology), Behavioral Neuroscience, 1975, B.A., M.S., Ph.D. (Kansas)

McGrath, Shelly A.  
College of Arts and Sciences  
Department of Justice Sciences, Assistant Professor of Justice Sciences, 2008, B.S. (St. Mary's), M.S. (Ball State), Ph.D. (Southern Illinois), Quantitative Methods, Crime Mapping, Violence

McGuinness, Teena  
School of Nursing  
Professor of Nursing; Interim Chair Community Health, Outcomes and Systems, 2007, B.S.N. (Old Dominion), M.S. (Virginia Commonwealth), Ph.D. (Pittsburgh)

McKnight, Andrew  
School of Education  
Department of Human Studies, Associate Professor of Foundations of Education, 2003, B.A. (Virginia Commonwealth), M.A.Ed. (William Mary), Ph.D. (North Carolina at Greensboro)

McLain, Rhonda  
School of Nursing  
Assistant Professor of Nursing; Assistant Dean for Undergraduate and Prelicensure Programs, 2005, B.S.N. (College of Mt. St. Joseph), M.N. (Emory), D.S.N. (UAB)

McLernon, Dennis J.  
College of Arts Science  
Department of Theatre, Professor of Theatre, Head of Performance, 2000, B.A. (Allentown), M.Ed. (Auburn-Montgomery), M.F.A. (Alabama- Alabama Shakespeare Festival)

McNulty, John E.  
College of Arts and Sciences

McPherson, Heather A.  
School of Arts and Sciences  
Department of Art Art History, Professor of Art Art History, 1982, B.A. (Oregon), M.A. (Sorbonne), Ph.D. (Washington), Modern European Art (18th -20th Century), focusing on portraiture

Meadows, Lee  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 1993, B.A. (Mississippi), M.A. (Texas), Ph.D. (Georgia)

Meakin, Robert  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2007, B.S. (Brigham Young), M.S., Ph.D. (Stanford), Software Engineering for Multi-Disciplinary, Physics-Based Simulation Capability Development; Computational Geometry; Aerodynamics of Multiple-Bodies in Proximate Flight

Mehta, Tapan  
School of Health Professions  
Department of Physical Therapy, Assistant Professor, 2013, PhD (UAB)

Menear, Kristi S.  
School of Education  
Department of Human Studies, Professor of Kinesiology, 2001, B.A. (Louisiana), M.A., Ph.D. (New Orleans)

Meneses, Karen  
School of Nursing  
Professor of Nursing; Associate Dean of Research, 2007, B.S. (Georgetown), M.S., Ph.D. (Boston College)

Merritt, Stephen  
School of Arts and Sciences  
Department of Anthropology, Assistant Professor of Anthropology, 2013, B.S., M.A., Ph.D. (Rutgers)

Mersmann, James  
School of Arts and Sciences  
Department of English, Associate Professor of English. Emeritus, 1973, B.A. (Missouri-Kansas City), M.A., Ph.D. (Kansas)

Messina, Frank M.  
School of Business  
Department of Accounting and Finance, Professor of Accounting, 1993, B.S. (Livingston), M.Acc., Ph.D. (Mississippi State), C.P.A.

Metcalf, Sevante K.  
School of Business  
Department of Accounting and Finance, Instructor and Internship Coordinator, 2012, B.A., M.B.A. (UAB)

Michael III, Max  
School of Public Health  
Department of Health Care Organization and Policy, Professor and Dean, 2001, M.D. (Harvard)

Millard, Andre J.  
School of Arts and Sciences  
Department of History, Professor of History, 1989, B.A. (Nottingham-England), M.A. (Mississippi), Ph.D. (Emory)
Miller, Brianna
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2004, M.S. (UAB), Transfusion Medicine

Miller, Kenneth
School of Business
Department of Marketing, Industrial Distribution, Economics, Instructor of Marketing and Industrial Distribution; Executive Director, MBA Programs, 2008, B.S. (Auburn), M.B.A. (Golden Gate), Ed.D. (Vanderbilt)

Miller, Stephen J.
College of Arts and Sciences
Department of History, Associate Professor of History, 2001, B.A. (Wisconsin-Madison), M.A., Ph.D., (UCLA)

Milligan, Gary
School of Nursing
Instructor of Nursing; Mobility Program Coordinator, 2008, B.S.N. (Birmingham-Southern), M.S.N. (Jacksonville State), M.S.H.A., D.N.P. (UAB)

Milner, Adrienne
College of Arts and Sciences
Department of Sociology, Teaching Assistant Professor of Sociology, 2012, B.A. (Emory), M.A., Ph.D. (Miami)

Miltner, Rebecca S.
School of Nursing
Assistant Professor of Nursing, 2010, B.S.N. (Georgia), M.S.N. (Wisconsin), Ph.D. (Maryland)

Minnix, Christopher
College of Arts and Sciences
Department of English, Assistant Professor of English; Director, Freshman Composition, 2012, B.S. (Grace College), M.A. (Radford), Ph.D. (Tennessee), Rhetorical Theory, Transnational Rhetoric, Compositions Studies, Writing Program Administration

Mirman, Daniel
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2016, B.A. (Cornell); Ph.D. (Carnegie Mellon)

Mirman, Jessica H.
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2016, B.A. (Delaware); M.A., Ph.D. (Fordham)

Mirov, Sergey B.
College of Arts and Sciences
Department of Physics, University Professor, 1993, Master (Moscow Power Engineering Institute), Ph.D. (USSR Academy of Sciences), Experimental quantum electronics, solid-state lasers, laser spectroscopy

Mitchell, Dana
School of Nursing
Instructor of Nursing, 2009, B.S.N. (Alabama); M.S.N., D.N.P. (UAB)

Moak, Stacy C.
College of Arts and Sciences
Department of Social Work, Professor, 2016, B.S. (Southern Mississippi), J.D. (Loyola), Ph.D. (New Orleans)

Mohr, Robert D.
College of Arts and Sciences
Department of Physics, Instructor of Physics, 2003, B.S. (North Georgia), M.S. (Clemson), Ph.D. (Alabama), Computational applications to theoretical astrophysical problems

Moneyham, Linda
School of Nursing
Professor of Nursing; Senior Associate Dean for Academic Affairs, 2007, B.S.N. (Berea College), M.S.N. (Kentucky), D.S.N. (Indiana)

Monroe, Charles A.
School of Engineering
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2012, B.S. (Penn State), M.S., Ph.D. (Iowa), Metals Casting, Design for Manufacture, Process Modeling

Monti, Denise
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2013, B.S. (Cornell), M.P.H., Ph.D. (UAB), Phage Biology, STEM Teaching and Learning

Moore, Hassan
School of Engineering
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering, 2007, B.S. (Dillard), M.S. (Xavier), Ph.D. (Howard), Engineering Mathematics; Engineering Education; Non-Coaxial LIDAR Systems

Moore, John K.
College of Arts and Sciences
Department of Foreign Languages and Literatures, Associate Professor of Spanish, 2003, B.A. (University of the South), M.A.T. (Middle Tennessee State), Ph.D. (North Carolina-Chapel Hill)

Moradi, Lee
School of Engineering
Department of Mechanical Engineering, Professor of Mechanical Engineering; Director of Engineering and Innovative Technology Development, 1996, B.S., M.S., Ph.D. (UAB), Vibrations; Systems Engineering; Finite Elements Method

Morgan, Kathryn
College of Arts and Sciences
Department of Justice Sciences, Associate Professor of Justice Sciences; Director of African American Studies, 1991, B.S., M.A. (Texas Woman's), Ph.D. (Florida State), Corrections, Criminological Theory, Minorities, Violence

Morris, Jeffrey J.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2015, B.S. (Kennesaw State); Ph.D. (Tennessee-Knoxville), Experimental Evolution and Phytoplankton Physiology Experimental Evol

Morrison, Kelly
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Illinois at Urbana-Champaign); M.A., Ph.D. (Michigan State)
Morrison, Shannon
School of Nursing
Assistant Professor of Nursing, 2010, B.S.N., M.S.N. (Jacksonville State), Ph.D. (UAB)

Morrow, David R.
College of Arts and Sciences
Department of Philosophy, Assistant Professor of Philosophy, 2010, B.A. (John Hopkins); Ph.D. (CUNY)

Mosley, Michael
School of Nursing
Instructor of Nursing, 2015, B.S.N. (Jacksonville State); M.S.N. (UAB)

Moss, Jacqueline
School of Nursing
Professor of Nursing; Chair, Adult/Acute Health Chronic Care Foundations, 2011, B.S.N., M.S.N (Georgia State) Ph.D. (Maryland)

Mosteller, Paul W.
College of Arts and Sciences
Department of Music, Associate Professor of Music, 1988, B.S. (West Chester), M.M. (Juilliard), D.M.A. (Iowa)

Motley, Carol
School of Business
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Marketing, 2011, B.S. (Southern Illinois), M.B.A. (Washington), Ph.D. (Georgia)

Mowling, Claire M.
School of Education
Department of Human Studies, Assistant Professor of Kinesiology, 2015, B.S., M.S. (Troy State), Ed.D. (Auburn)

Mrug, Sylvie
College of Arts and Sciences
Department of Psychology, Professor of Psychology, 2005, B.S., M.S., Ph.D. (Purdue)

Muccio, Donald D.
College of Arts and Sciences
Department of Chemistry, Professor of Chemistry, 1982, B.S., Ph.D. (Ohio State)

Mukhtar, Karolina
College of Arts and Sciences
Department of Biology, Associate Professor of Biology, 2010, M.S. (Szczecin), Ph.d. (Cologne), Plant Molecular Biology

Mukhtar, Shahid
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2010, B.Sc., M.Sc. (Faisalabad), Ph.D. (Cologne), Genetics, Molecular Biology, Functional Genomics, and Bioinformatics, and Network Biology

Mulvihill, Beverly
School of Public Health
Department of Health Care Organization and Policy, Associate Professor, 1992, M.Ed. (North Carolina - Chapel Hill) Ph.D. (Texas Women's), Child Development, Children with and At-Risk for Disabilities, Early Intervention, Child Care Issues

Mumford, Gregory
College of Arts and Sciences
Department of Anthropology, Associate Professor of Anthropology, 2007, B.S., M.A., Ph.D. (Toronto)

Munchus III, George M.
School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 1976, B.S., M.B.A., Ph.D. (North Texas State), A.P.S.

Murphree, Allen J.
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Instructor of Civil, Construction, and Environmental Engineering, 2014, B.Sc. (Southern Polytechnic State University), MEng (UAB), Engineering Online Education, Construction Project Risk Management

Murphy, Danny L.
School of Nursing
Instructor of Nursing, 1988, B.S. (Wayland Baptist); M.E.N.G. (UAB)

Murray, Pamela S.
College of Arts and Sciences
Department of History, Professor of History, 1990, B.A. (New Mexico State), M.A., Ph.D. (Tulane)

Musa, Phillip F.
School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Management, 2000, B.S., M.S., M.B.A. (Texas Tech)

Nabors, Eddie
School of Business
Department of Accounting and Finance, Instructor of Accounting, 2011, B.S. (Alabama), M.Acc. (University of West Florida)

Nakhmani, Arie
School of Engineering
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, B.Sc., M.Sc., Ph.D (Technion - Israel Institute of Technology), Computer Vision, Visual Tracking, Biomedical Image Analysis, Systems and Control

Navarette, Liliana
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2008, M.S. (Alabama), Instrumentation, Minority Health Disparities, Physics Education

Navasca, Carmeliza
College of Arts and Sciences
Department of Mathematics, Associate Professor of Mathematics, 2012, B.A. (California - Berkeley), Ph.D. (California - Davis), Multilinear Algebra, Control Theory, Optimization, Data Mining

Neilson, Michael J.
College of Arts and Sciences
Department of Chemistry, Professor Emeritus of Geology, 1975, B.S., Ph.D. (New England, Australia)

Neiva, Eduardo
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 1993, B.A. (Catholic University of Rio de Janeiro), M.A., Ph.D. (Federal University of Rio de Janeiro)
Nelson III, Leonard
School of Public Health
“Jack”
Department of Health Care Organization and Policy, Adjunct Professor, 1987, JD (Gonzaga); LLM (Yale), Health care law; ethics

Nelson, Dalton S.
School of Engineering
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 1994, B.S.E.E., M.S.E.E., (UAB), Ph.D. (UAH), P.E. (Alabama), Intelligent Control Systems, Medical Instrumentation, Software Systems and Algorithm Development

Nichols, Lynn Stover
School of Nursing
Interim Assistant Dean, 014, B.S.N., M.S.N., Ph.D. (UAB)

Nichols, Robert H.
School of Engineering
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2002, B.S. (Mississippi State), M.S., Ph.D. (Tennessee), Propulsion; Computational Fluid Dynamics; Turbulence Modeling

Nikles, Jacqueline A.
College of Arts and Sciences
Department of Chemistry, Associate Professor of Chemistry, 2001, B.S. (Marietta College), Ph.D. (Case Western Reserve)

Ning, Haibin
School of Engineering
Department of Materials Science and Engineering, Assistant Professor, 2010, B.E. (Central South University, China); M.S. (Guangxi University, China), Ph.D. (UAB), Polymer Matrix Composite Materials, Metal; Design and Modeling

Nkashama, Mubenga
College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1989, B.S., M.S. M.S., Ph.D. (Catholic University of Louvain, Belgium), Partial Differential Equations; Nonlinear Analysis; Continuous Dynamical Systems

Nordlund, Thomas M.
College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 1990, B.A. (Oregon), M.S., Ph.D. (Illinois), Physics education; biological imaging and self-assembly

O’Beirne, Rosie
College of Arts and Sciences

O’Kelley, Sarah E.
College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2012, B.A., M.A., Ph.D. (Alabama)

Olive, J. Fred
Mervyn H. Sterne Library

Oliveira, Anna
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2011, DrPH (UAB), Infectious Diseases, Global Health, Food Safety

Oliver, Nathan
School of Business
Department of Management, Information Systems, and Quantitative Methods, Instructor of Management, 2003, B.S. (UAB), M.B.A. (Alabama AM)

Orihuela, Carlos L.
College of Arts and Sciences
Department of Foreign Languages and Literatures, Professor of Spanish, 1994, B.A. - Licenciatura in Literature (Universidad Nacional Mayor De San Marcos, Lima), M.A., Ph.D. (Pittsburgh)

Oversteegen, Lex G.
College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1980, Kandidaat Doctorandus (Amsterdam), Ph.D. (Wayne State), Topology, Continuum Theory, Dynamical Systems

O’Leary, Malinda Blair
College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of Spanish, 2005, B.A., M.Ed. (UAB), Ph.D. (Alabama)

O’Neal, Marcia R.
School of Education
Department of Human Studies, Research Associate Professor, 1998, B.A. (UCLA), B.S., M.A., Ph.D. (Alabama)

O’Neil, Peter V.
College of Arts and Sciences
Department of Mathematics, Professor Emeritus of Mathematics, 1978, B.S. (Fordham), M.S., Ph.D. (Rensselaer Polytechnic Institute), Graph Theory, Combinatorics

Page, Amy
College of Arts and Sciences
Department of Theatre, Assistant Professor of Theatre, 2014, B.A. (Winthrop), M.F.A. (North Carolina)

Panion III, Henry
College of Arts and Sciences
Department of Music, Professor of Music, 1987, B.S. (Alabama AM), M.A., Ph.D. (Ohio State)

Parcak, Sarah H.
College of Arts and Sciences
Department of Anthropology, Associate Professor of Anthropology, 2006, B.A. (Yale), M.A., Ph.D. (Cambridge)

Park, Hee Sun
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Michigan State); M.A. (Hawaii); Ph.D. (California-Santa Barbara)

Parris, Kaitrin
School of Nursing
Instructor of Nursing, 2014, B.S.N. (William Carey); M.S.N. (Phoenix); D.N.P. (Case Western)
Patrician, Patricia  
School of Nursing  
Professor of Nursing; Banton Professorship, 2008, B.S.N. (Wilkes), M.S.N. (Texas), M.S. (U.S. Army War College), Ph.D. (Pennsylvania)

Patterson, Heather  
School of Nursing  
Instructor of Nursing, 2012, B.S.N. (UAB), PharmD (Auburn)

Patterson, James C.  
College of Arts and Sciences  
Department of Chemistry, Assistant Professor of Chemistry, 2007, B.A. (Carleton), Ph.D. (California – Santa Barbara)

Paustian, Pamela E.  
School of Health Professions  
Department of Health Services Administration, Assistant Professor and Program Director, Health Care Management Program, 2001, PhD (UAB), Leadership Resilience, Managerial, and Operational Practices in Healthcare, Technology Driven Approaches to Education

Pellathy, Elisabeth  
Colleg of Arts and Sciences  

Pence, Gregory E.  
College of Arts and Sciences  
Department of Philosophy, Chair Professor of Philosophy, 1976, B.A. (William and Mary), M.A., Ph.D. (New York)

Perakis, Ilias  
College of Arts and Sciences  
Department of Physics, Professor and Chair, 2015, BS (National Technical - Athens, Greece); MS, PhD (Illinois, Urbana-Champaign)

Perkins Waters, Martinique  
School of Public Health  
Department of Health Education and Health Promotion, Adjunct Assistant Professor, Psychology

Perry, Tonya  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 2002, B.A. (North Carolina), M.A., Ph.D. (UAB), NBPTS

Perumean-Chaney, Suzanne  
College of Arts and Sciences  
Department of Justice Sciences, Assistant Professor of Justice Sciences, 2004, B.S., M.S. (Nevada), Ph.D. (SUNY Albany), Quantitative Methods, Violence, Program Evaluation

Peters, Gary B.  
School of Education  
Department of Human Studies, Associate Professor, 2010, B.A., M.A. (Governors State), Ed.S., Ph.D. (UAB), Leadership; Organizational Theory

Peters, Robert W.  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering, 2001, B.S. (Northwestern), M.S., Ph.D. (Iowa State), P.E. (Indiana and Illinois), Environmental Engineering, Water and Wastewater Treatment, Hazardous Waste Treatment

Pevsner, Wanda D.  
School of Education  
Department of Curriculum and Instruction, Assistant Professor of Special Education, 2004, B.S. (Judson), M.A., Ph.D. (UAB)

Phillips, Jennan  
School of Nursing  
Assistant Professor of Nursing, 2008, B.S.N. (Samford), M.S.N., D.S.N. (UAB)

Phillips, Scott L.  
College of Arts and Sciences  
Department of Music, Associate Professor of Music, 2008, B.A. (Brigham Young), M.A. (Central Florida), Ph.D. (Iowa)

Pilkerton, Patty A.  
Mervyn H. Sterne Library  

Pillay, Selvum  
School of Engineering  
Department of Materials Science and Engineering, Associate Professor and Chair of Materials Science and Engineering, 2007, Bach (M L Suttan Technikon), M.S.M.E. (Florida AM), Ph.D. (UAB), Polymer Matrix Composites, Manufacturing and Processing, Design for Manufacture; R & D to Commercialization

Pirkelbauer, Peter  
College of Arts and Sciences  
Department of Computer and Information Sciences, Assistant Professor of Computer and Information Sciences, 2012, Dipl.-Ing. (Linz, Austria), MBA, Ph.D. (Texas AM University), Compilers, Runtime Systems, High Performance Computing, Non-Blocking Software Design

Plaisance, Eric  
School of Education  
Department of Human Studies, Assistant Professor of Kinesiology, 2013, B.S. (Nicholls State), M.S. (United States Sports Academy), Ph.D. (Auburn)

Pollard, Andrew  
School of Engineering  
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1996, B.S.E., M.S.E., Ph.D. (Duke), Cardiac electrophysiology, Computer simulations and Modeling of electrical signals of the heart

Pollio, David  
College of Arts and Sciences  
Department of Social Work, Distinguished Professor and Chair, 2014, B.A., M.S.W. (Virginia), Ph.D. (Michigan)

Polson, Shannon  
School of Nursing  
Instructor of Nursing, 2010, B.A. (West Georgia); M.S.N. (UAB)
Ponder, Amy
School of Nursing
Instructor of Nursing, 2009, B.S.N. (UAB), M.S.N. (Samford)

Ponder, Jennifer
School of Education
Department of Curriculum and Instruction, Associate Professor of Elementary Education, 2015, B.S., M.A. (UAB), Ph.D. (Indiana)

Powell, Larry
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 1998, B.A., M.A. (Auburn), Ph.D. (Florida)

Powell, Mickie L.
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2016, B.S., M.S., Ph.D. (UAB), Invertebrate Physiology

Powers, Thomas L.
School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 1985, B.S., M.B.A. (Eastern Michigan), Ph.D. (Michigan State)

Prado, Josephine
School of Education
Department of Curriculum and Instruction, Assistant Professor of English as a Second Language, 2013, B.A. (Agnes Scott College); M.A., Ph.D. (Alabama)

Prather-Kinsey, Jenice
School of Business
Department of Accounting and Finance, Professor of Accounting; Chair, Department of Accounting and Finance, 2001, B.S. (Lindenwood), M.S. (Illinois), PhD. (Alabama), C.P.A.

Preskitt, Julie
School of Public Health
Department of Health Care Organization and Policy, Assistant Professor, 2010, M.S.O.T., M.P.H. (UAB), Ph.D. (Auburn), Children with special health care needs, maternal and child health policy, disability policy, and underinsurance/adequacy of insurance

Price, Marjorie
College of Arts and Sciences
Department of Philosophy, Associate Professor of Philosophy, 1977, A.B. (Barnard), M.A., Ph.D. (New York)

Price, William
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2006, B.M.E. (UNA), M.M., D.M.A. (LSU)

Pryor, Erica
School of Nursing
Associate Professor of Nursing, 2000, B.S.N. (UAB), M.S.N. (UAB), Ph.D. (Emory)

Puchta, Tami
College of Arts and Sciences
Department of Mathematics, Instructor, 2015, Ed.S. (UAB), Math Education

Qin, Gangjian
School of Engineering
Department of Biomedical Engineering, Professor of Medicine and Biomedical Engineering; Director of Molecular Cardiology Program, 1986, MD/MS (Tongji Medical University, China)

Quinlan, Kieran
College of Arts and Sciences

Quintana, Jose B.
School of Health Professions
Department of Health Services Administration, Associate Professor, 1989, PhD, Outcomes Management and Process Improvement, Quality

Racca, Joshua
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2011, Ph.D. pending University of North Texas (Denton, Texas)

Randich, Alan
College of Arts and Sciences
Department of Psychology, Professor Emeritus (Psychology); Behavioral Neuroscience Doctoral Program; Professor of Psychology, 1991, B.A., M.S. (Syracuse), Ph.D. (Dalhousie)

Raut, Samiksha
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2012, B.S., M.S. (Nagpur), Ph.D. (UAB), General Biology, Microbiology, and STEM Education

Rauterkus, Andreas
School of Business
Department of Accounting and Finance, Associate Professor of Finance, 2007, Diploma (J. W. Goethe University, Germany), M.B.A. (East Carolina), Ph.D. (Cincinnati)

Rauterkus, Melissa A.
College of Arts and Sciences
Department of English, Assistant Professor of English, 2013, B.A. (University of La Verne), M.A. (Claremont), Ph.D. (Northwestern)

Redden, David T.
School of Public Health
Department of Biostatistics, Professor and Chair of Biostatistics, 2001, Ph.D. (Alabama), Regression of Diagnostics, Admixture, Association Studies, Group Randomized Trials

Reilly, Kevin D.
College of Arts and Sciences
Department of Computer and Information Sciences, Professor Emeritus of Computer and Information Sciences, 1970, B.S. (Creghtion), M.S. (Nebraska), Ph.D. (University of Chicago)

Reynolds, Jeff W.
College of Arts and Sciences
Department of Music, Associate Professor of Music, 1998, B.M. (Samford), M.M. (Southwestern Baptist Theological Seminary), D.M.A. (Illinois)
Reynolds, Robert C.  Collog of Arts and Sciences
Department of Chemistry, Research Professor of Chemistry, 2012, B.S. (University of Virginia), Ph.D. (Duke)

Rice, Marti  School of Nursing
Professor of Nursing, 1997, B.S.N. (Creighton), M.S.N. (Medical College of Georgia), Ph.D. (Georgia State)

Richmond, Virginia Peck  College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 2006, B.A. (West Virginia Institute of Technology), M.A. (West Virginia), Ph.D. (Nebraska)

Riddle, Nicole C.  College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2012, B.S. (Missouri), Ph.D. (Washington University in St. Louis), Epigenetics and Chromatin Structure

Rieger, Sonja O.  College of Arts and Sciences
Department of Art Art History, Professor of Art, 1979, B.A. (Massachusetts), M.F.A. (Rutgers), Photography, Fine Art Digital Printing, Alternative Process, Perception Space and Installation, WPA Photographers in Alabama, children of the Klan, the Psychology of Adoption

Rinker, Erika H.  College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of German, 2008, B.A. (Wake Forest), M.A., Ph.D. (Washington in Saint Louis)

Rivera, C. Julio  School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Information Systems, 1988, B.S., M.S. (Texas AM), M.B.A. (Southern Mississippi), Ph.D. (Mississippi State)

Roberts, Steve  College of Arts and Sciences
Department of Music, Associate Professor of Music, 2007, B.M. (Oberlin), M.M., D.M.A. (Illinois)

Robicheaux, Robert A.  School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 2004, B.S., M.B.A., Ph.D. (Louisiana State University)

Robinson, Cheryl  School of Nursing
Associate Professor of Nursing, 2011, B.S.N. (Alabama), M.S.N. (Colorado), D.N.S. (LSU)

Robinson, Robert R.  College of Arts and Sciences
Department of Government, Assistant Professor of Government, 2006, B.A. (Rhodes), M.A., Ph.D. (Wisconsin-Madison)

Roche, Cathy C.  School of Nursing
Associate Professor, 2011, B.S.N. (Alabama); M.S.N. (Colorado); D.N.S. (LSU)

Rodriguez, Christina M.  College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2013, B.S. (Miami); M.S., Ph.D. (Florida)

Rogers, Jack M.  School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1994, B.S., M.S., Ph.D. (California-San Diego), Cardiac electrophysiology, Computer simulations, Signal analysis of cardiac arrhythmias

Ross, Douglas H.  School of Engineering
Department of Mechanical Engineering, Assistant Professor of Mechanical Engineering, 2008, B.S. (Illinois), M.S., Ph.D. (UAB), Computer Aided Design; Undergraduate Education; Machine Design

Roussel, Linda  School of Nursing
Professor of Nursing, DNP Program Coordinator, 2013, B.S.N. (Williams Cary), M.S.N. (Southern Mississippi), Ph.D. (UAB)

Roy, Jane  School of Education
Department of Human Studies , Associate Professor of Kinesiology, 2001, B.S., M.A., PhD. (Alabama)

Rushton IV, William James  College of Arts and Sciences
Department of English, Assistant Director, Honors Program; Adjunct Lecturer of English, 1998, B.A. (Vanderbilt), A.B. (Oxford), M.A., Ph.D. (Virginia)

Russell, Jackie  School of Business
Department of Accounting and Finance, Instructor of Accounting, 2013, B.S. (Birmingham-Southern), M.Acc. (Birmingham-Southern), J.D. (Miles)

Ryan, Cynthia  College of Arts and Sciences
Department of English, Associate Professor of English; Director, Internships, 1998, B.S., M.A. (Illinois State), Ph.D. (Purdue), Composition, Profesional Writing, Public Discourse, Medical Rhetoric

Saito, Yoshimi  College of Arts and Sciences
Department of Mathematics, Professor Emeritus of Mathematics, 1983, B.A., M.A., Ph.D. (Kyoto, Japan), Scattering Theory, Differential Equations

Sample, Nevette  School of Nursing
Instructor of Nursing, 2014, B.A. (Duke); M.S.H.A. (UAB)

Santiago, Ana Maria  College of Arts and Sciences
Santoro, Nick J. School of Engineering
Department of Mechanical Engineering, Research Associate Professor of Mechanical Engineering, 2007, B.S., M.S. (Alabama), Power Generation; Thermal Dynamics; Internal Combustion Engines

Sathiakumar, Nalini School of Public Health
Department of Epidemiology, Professor, 1988, M.D., Dr.PH., Environmental Epidemiology, Occupational Epidemiology, Chronic Disease Epidemiology

Savage, Arline School of Business
Department of Accounting and Finance, Department Chair and Professor of Accounting, 2012, Ph.D. (University of Port Elizabeth-South Africa), CA (SA)

Savage, Grant School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2011, B.A. (Connecticut), M.A., Ph.D. (Ohio State)

Saxena, Nitesh College of Arts and Sciences
Department of Computer and Information Sciences, Associate Professor of Computer and Information Sciences; MS CFSM Program Co-Director, 2011, B.S. (Kharagpur), M.S., Ph.D. (University of California-Irvine)

Schimizzi, Anthony J. Mervyn H. Sterne Library

Schimizzi, Anthony J. School of Arts Science
Department of Theatre, Associate Professor of Theatre, 1991, B.F.A. (Miami), M.F.A. (Northwestern)

Schwebel, David C. College of Arts and Sciences
Department of Psychology, Professor of Psychology, Associate Dean of Research in the Sciences, 2000, B.A. (Yale), M.A., Ph.D. (Iowa)

Segner, E. P. Jr. School of Engineering

Selinger, Nikita College of Arts and Sciences
Department of Mathematics, Assistant Professor of Mathematics, 2015, Ph.D. (Jacobs University, Bremen), Conformal Dynamics; Teichmüller Theory

Selleck, Cynthia School of Nursing
Professor and Associate Dean for Clinical Affairs Partnerships, 2010, B.S.N., (Emory), M.S.N. (Vanderbilt), D.S.N. (UAB)

Shackleford, Lee College of Arts Science
Department of Theatre, Assistant Professor of Theatre, 2000, B.A. (UAB), M.F.A. (Southern Illinois)

Shaia, Jacquelyn S. College of Arts and Sciences
Department of Communication Studies, Assistant Professor of Communication Studies, 2015, B.A., Ph.D. (UAB); J.D. (Cumberland School of Law)

Sharlach, Lisa College of Arts and Sciences
Department of Government, Associate Professor of Government, 2004, B.A. (California), M.A. (California), Ph.D. (California - Davis)

Shealy, David L. College of Arts and Sciences
Department of Physics, Professor of Physics, 1973, B.S., Ph.D. (Georgia), Geometrical optics; laser beam shaping optics; radiative transfer; caustic and optical aberration theory

Sheng, Shibin School of Business
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Marketing, 2011, B.S. (Tsinghua University), Ph.D. Economics (Tsinghua University) Ph.D. Marketing (Virginia Tech)

Shipman, Sallie School of Nursing

Shores, Melanie L. School of Education
Department of Human Studies, Associate Professor of Educational Psychology and Research, 2005, B.S., M.A.M., M.A., Ph.D. (Auburn)

Shterenberg, Roman G. College of Arts and Sciences
Department of Mathematics, Associate Professor of Mathematics, 2007, M.S., Ph.D (St. Petersburg State University – Russia), Mathematical Physics, Spectral Theory, Inverse Problems, Partial Differential Equations, Non-linear Partial Differential Equations

Sicking, Dean L. School of Engineering
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2012, B.S., M.S., Ph.D. (Texas AM), Crashworthiness Design; Sports Safety Equipment; Computational Mechanics

Siegel, Daniel College of Arts and Sciences
Department of English, Associate Professor of English; Director, Undergraduate Studies, 2002, B.A. (Chicago), M.A., Ph.D. (Virginia), Nineteenth-Century British Literature and Culture, The Novel, Cinema

Simien, Clayton College of Arts and Sciences
Department of Physics, Assistant Professor of Physics, 2013, B.S. (Prairie View AM), Ph.D. (Rice), Strongly correlated ultracold neutral plasmas; next generation frequency standards; precision measurements and variations in fundamental constants; quantum dipolar gases and rare-earth elements; laser cooling; nanotechnology; atomic sensors
Simien, Daneesh  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2014, B.S., M.S., Ph.D. (Rice University), Self Corrective and Response, "Smart" Nano Scale Composite Materials, Structure-Property Relationships of Polymer Composites Inclusive of Rheological and Electrical Properties, Nano Scale Sensors and Flexible Robust Electronics

Simon, Cliff  
College of Arts Science  
Department of Theatre, Professor of Theatre, 2002, B.A. (Queens), M.F.A. (Texas-Austin)

Simpson, Laura  
Mervyn H. Sterne Library  

Sims, Michele  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Reading and Secondary Education, 1999, B.A., M.S. (CUNY), Ed.D. (Pennsylvania)

Sims, Omar T.  
College of Arts and Sciences  
Department of Social Work, Assistant Professor, 2015, A.B., M.S.W., Ph.D. (Georgia)

Sims, Sandra  
School of Education  
Department of Human Studies, Assistant Professor of Kinesiology, 2005, B.S. (Montevallo), M.A. (UAB), Ed.S. (UAB), Ph.D. (Southern Mississippi)

Simányi, Nándor  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics, 1999, M.S., Ph.D. (Rolánd Eötvös - Hungary), Dr.M.S. (Hungarian Academy of Sciences), Dynamical Systems, Ergodic Theory, Topology

Sisiopiku, Virginia P.  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Associate Professor of Civil, Construction and Environmental Engineering, 2002, B.S. (Aristotelian University of Thessaloniki), M.S., Ph.D. (Illinois-Chicago), Transportation Engineering, Traffic Engineering

Slaughter, Lauren  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2007, B.A. (Kenyon), M.F.A. (Alabama), M.A. (Montana)

Sloan, Kenneth  
College of Arts and Sciences  
Department of Computer and Information Sciences, Associate Professor, 1990, Sc.B. (Brown), M.S. (Stevens Institute of Technology), Ph.D. (Pennsylvania)

Sloane, Michael E.  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Director, University Honors Program, 1982, B.A., M.A. (University College, Dublin), Ph.D. (Northwestern)

Slovensky, Donna J.  
School of Health Professions  
Department of Health Services Administration, Professor; Associate Dean, School of Health Professions, 1976, PhD (UAB), Information management to support quality improvement in healthcare; healthcare technology applications

Smith, Angel  
School of Business  
Department of Accounting and Finance, Instructor of Accounting, 2008, B.S., MAc. (UAB)

Smith, Glenda  
School of Nursing  
Assistant Professor of Nursing, 2006, B.S.N., (North Carolina Central), M.S.N. (Vanderbilt), D.S.N. (Texas-Houston Health Science Center)

Smith, Tedra  
School of Nursing  
Instructor of Nursing, 2012, B.S.N. (Auburn), M.S.N., D.N.P. (UAB)

Smith, Tommy G.  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 1989, B.S., M.S., Ed.D. (Auburn)

Smith, William M.  
School of Engineering  
Department of Biomedical Engineering, Professor Emeritus of Biomedical Engineering, 1994, B.S. (Oglethorpe), Ph.D. (Duke)

Snyder, Scott W.  
School of Education  
Department of Human Studies, Associate Professor of Research and Early Childhood Special Education, 1988, B.A. (SUNY-Potsdam), M.S., Ph.D. (Purdue)

Somerall, D’Ann  
School of Nursing  
Assistant Professor of Nursing, 2010, B.S., M.S., B.S.N., M.S.N., D.N.P. (UAB)

Song, Yuhua  
School of Engineering  
Department of Biomedical Engineering, Assistant Professor of Biomedical Engineering, 2006, B.S. (Jilin University of Technology), M.S. (Harbin University of Science and Technology), Ph.D. (Harbin Institute of Technology), Computational biomechanics, Computational biology, Multiscale modeling

Sorge, Robert  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2012, H.B.Sc. (McMaster), M.A. (Wilfrid Laurier), Ph.D. (Concordia)

Souilliac, Geneviève  
College of Arts and Sciences  
Department of Anthropology, Visiting Associate Professor, 2016, B.A. (Sydney), M.A.s (Sydney, EHESS Paris, KU Leuven), Ph.D. (Hong Kong)

Spence, Paul H.  
Mervyn H. Sterne Library  
Department of Psychology, Assistant Professor of Psychology, 2012, H.B.Sc. (McMaster), M.A. (Wilfrid Laurier), Ph.D. (Concordia)

Spezzini, Susan K. School of Education Department of Curriculum and Instruction, Associate Professor of English as a Second Language, 2005, B.A., M.A. (California), Ph.D. (Illinois)

Sprague, Alan P. College of Arts and Sciences Department of Computer and Information Sciences, Professor of Computer and Information Sciences; Associate Professor of Medicine, 1988, B.A. (Oberlin), M.A.T. (Northwestern), M.S., Ph.D. (Ohio State)

Stanford, Robert E. School of Business Department of Management, Information Systems, and Quantitative Methods, Professor of Quantitative Methods, 1992, B.A. (University of the South), M.A. (Georgia Institute of Technology), Ph.D. (California-Berkeley)

Stepanikova, Irena College of Arts and Sciences Department of Mathematics, Associate Professor Emeritus of Mathematics, 1994, Ph.D. (Frankfurt, Germany), Spectral Theory, Mathematical Physics

Stocks, Douglas R. College of Arts and Sciences Department of Mathematics, Associate Professor of Mathematics, 2011, B.S., M.A., Ph.D. (Alabama)

Stolz, Günter College of Arts and Sciences Department of Mathematics, Professor of Mathematics, 1994, Ph.D. (Frankfurt, Germany), Spectral Theory, Mathematical Physics

Stonewall, Laura College of Arts and Sciences Department of Psychology, Assistant Professor of Psychology, 2011, B.A., M.A., Ph.D. (Alabama)

Strong, Christianne College of Arts and Sciences Department of Psychology, Assistant Professor of Psychology, 2014, B.S. (Miami); M.A. (Vermont); Ph.D. (UAB)

Stroppelbein, Laura College of Arts and Sciences Department of Psychology, Associate Professor of Psychology, 2011, B.S., M.A., Ph.D. (Alabama)

Stepplebein, Laura College of Arts and Sciences Department of Psychology, Associate Professor of Psychology, 2011, B.S., M.A., Ph.D. (Alabama)

Sun, Liou Y. College of Arts and Sciences Department of Biology, Assistant Professor of Biology, 2015, B.S., M.D. (Southeast University); Ph.D. (Southern Illinois), Biology of Aging, Endocrinology, Obesity, Neurodegenerative Diseases

Swan, Nancy School of Nursing Instructor of Nursing, 2010, B.S., (UAB), A.D. (Wallace State Community College), B.S.N. (Georgia Southern), M.S.N. (Jacksonville State)

Szaflarski, Magdalena College of Arts and Sciences Department of Sociology, Assistant Professor of Sociology, 2012, B.A., M.A. (Michigan), Ph.D. (Cincinnati)

Sánchez-López, Lourdes College of Arts and Sciences
Department of Foreign Language and Literature, Associate Professor of Spanish; Director, Spanish for Specific Purposes Certificate Program, 2001, B.A. (Universidad de Granada), M.A. (Southern Mississippi), M.A., Ph.D. (Universidad de Jaén)

Taherian, Hessam
School of Engineering
Department of Mechanical Engineering, Assistant Professor of Mechanical Engineering, 2010, B.S. (Isfahan University of Technology, Iran), M.S. (Amirkabir University of Technology, Iran), Ph.D. (Dalhousie, Canada)

Takamiya, Yumi
College of Arts and Sciences
Department of Foreign Languages and Literatures, Visiting Assistant Professor of Japanese, 2015, B.A. (Bunkyo University, Japan), M.A. (Wisconsin-Madison), Ph.D. (Purdue)

Talley, Michele
School of Nursing
Instructor of Nursing, 2009, B.S.N. (Alabama), M.S.N. (UAB)

Tanik, Murat M.
School of Engineering
Department of Electrical and Computer Engineering, Professor and Chair of Electrical and Computer Engineering, 1998, B.S. (Middle East Technical), M.C.S., Ph.D. (Texas AM), Software Systems Engineering, Quantum Information Theory, Embedded Systems

Taratoot, Cole
College of Arts and Sciences
Department of Public Administration, Assistant Professor (Government), 2008, B.S., M.P.A. (West Georgia), Ph.D. (Georgia), Administrative law, judicial politics, constitutional law, quantitative analysis

Taub, Edward
College of Arts and Sciences
Department of Psychology, University Professor of Psychology, 1986, B.A. (Brooklyn), M.A. (Columbia), Ph.D. (New York)

Taylor, Jennifer
School of Business
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Marketing, 2011, B.S. (Clemson University), M.B.A., Ph.D. (Georgia State University)

Temple, Cheryl
College of Arts and Sciences

Temple, Gale M.
College of Arts and Sciences
Department of English, Associate Professor of English; Director, Graduate Studies, 2001, B.S. (Michigan), M.A., Ph.D. (Loyola-Chicago), Early American Literature and Culture

Terndrup, Thomas E.
School of Health Professions
Department of Health Informatics, M.D., Professor (Emergency Medicine)

Thomas, Vinoy
School of Engineering
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2007, B.S., M.S. (University of Kerala, India), Ph.D. (Sree Chitra Tirunal Institute for Medical Sciences Technology, India), Polymeric Biomaterials and 3D Composite Scaffolds for Tissue Engineering, Nanomaterials and Nanodiamonds for Biomedical Applications, Green Materials Synthesis and Structure-Property Relationships

Thomeer, Mieke B.
Colleg of Arts and Sciences
Department of Sociology, Assistant Professor of Sociology, 2014, B.A. (Virginia), M.A., Ph.D. (Texas)

Tofani, Peter
School of Nursing
Assistant Dean of Student Affairs; Instructor of Nursing, 2008, B.S. (The United States Military Academy), MS (Pennsylvania State)

Tollefsbol, Trygve
College of Arts and Sciences
Department of Biology, Professor of Biology, 1998, B.S. (Houston), M.S., D.O., Ph.D. (North Texas Health Sciences Center), Gene Regulation in Cancer and Aging

Tomlinson, Dale
School of Nursing
Instructor of Nursing; RN-BSN Coordinator, 2007, B.S.N., M.S.N., D.N.P. (UAB), M.N. (LSU)

Treutel, Rita B.
Colleg of Arts and Sciences

Trimm, Jerry "Mickey"
School of Health Professions
Department of Health Services Administration, Associate Professor, Health Care Management, 2006, Ph.D. (UAB)

Trost, Zina
College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2015, B.A. (Fordham); M.S., Ph.D. (Ohio)

Tsoi, Georgiy
College of Arts and Sciences
Department of Physics, Research Assistant Professor of Physics, 2005, M.Sc. (Karkov, Ukraine), Ph.D. (NAS, Ukraine), Structural, magnetic and electrical properties of materials under high pressure

Tucker, Diane C.
College of Arts and Sciences
Department of Psychology, Professor of Psychology, Director, Science and Technology Honors Program, 1984, B.S., M.S., Ph.D. (Iowa)

Turan, Bulent
College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2011, B.S. (Bogazici), M.A. (Loyola), Ph.D. (Stanford)

Turel, Noa
College of Arts and Sciences
Department of Art Art History, Assistant Professor of Art History, 2012, B.A. (State University of New York), M.A. (University of London), Ph.D. (California-Santa Barbara), North Renaissance Art, Late Medieval and Early Modern Visual Culture and Science, Performance Art and theory

Turner, Kevin  
College of Arts and Sciences  
Department of Music, Instructor of Music, 1998, B.A. (Trinity)

Turner, Lori  
School of Public Health  
Department of Health Behavior, Adjunct Professor, UA Health Science, 2007, Ph.D.

Turner-Henson, Anne  
School of Nursing  
Professor of Nursing, 1982, B.S.N. (Medical College of Georgia), M.N. (Emory), D.S.N. (UAB)

Tyson, Lawrence E.  
School of Education  
Department of Human Studies, Associate Professor of Counselor Education, 1997, B. A. (Atlantic Christian), M.Ed. (Rollins), Ph.D. (Mississippi State)

Uddin, Nasim  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Professor of Civil, Construction and Environmental Engineering, 2001, B.S. (University of Engineering and Technology, Bangladesh), M.S. (Oklahoma-Norman), Ph.D. (SUNY Buffalo), P.E. (New York), Structural Engineering, Wind and Seismic Loads, Bridge Design

Usdan, Stuart  
School of Public Health  
Department of Health Behavior, Adjunct Professor; UA, Health Science, 2013, Ph.D.

Uswatte, Gitendra  
College of Arts and Sciences  
Department of Psychology, Professor of Psychology, 2001, B.A. (Princeton), M.A., Ph.D., (UAB)

Vaidya, Uday K.  
School of Engineering  
Department of Materials Science and Engineering, Professor of Materials Science and Engineering; Chair of Materials Science and Engineering; Director, Materials Processing and Applications Development (MPAD) Center, 2001, B.S.M.E. (Karnataka University, India), M.S. (Shivaji University, India), Ph.D. (Auburn), Composites Application Development; Thermoset and Thermoplastic Polymer Matrix Composites; Design, Manufacturing Processing Modeling; Nondestructive Evaluation and Dynamic Response; RD to Commercialization

Van Matre, Joseph G.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Professor of Quantitative Methods, 1971, B.E.E., M.B.A. (Auburn), Ph.D. (Alabama)

Van Sant, John E.  
College of Arts and Sciences  
Department of History, Associate Professor of History, 2000, B.A., M.A. (UC-Davis), Ph.D. (Oregon)

Vance, David  
School of Nursing  
Associate Professor of Nursing; Ph.D. Program Coordinator, 2004, B.S. (Virginia Tech), M.S. (New Orleans), M.G.S. (Miami), Ph.D. (UAB)

Vantsevich, Vladimir  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2012, Dip.-Eng., Ph.D. (Belarusian National Technical University, Minsk, Belarus), D.Sc. (State Supreme Attestation Board, Moscow, Russia), Mechatronic Systems Design, Modeling and Control; Manned/Unmanned Ground Vehicle Dynamics and Design; Dynamics and Design of Robotic Manipulators

Vaughan, Loy O. Jr.  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 1969, B.A. (Florida State), M.S., Ph.D. (Alabama)

Vaughn, Gregg L.  
School of Engineering  
Department of Electrical and Computer Engineering, Professor of Electrical and Computer Engineering, 1979, B.S.E.E., M.S.E.E., Ph.D. (Alabama), P.E. (Alabama), Digital Communication, Image Processing, Radiation Effects

Velu, Sadanandan  
College of Arts and Sciences  
Department of Chemistry, Associate Professor of Chemistry, 2002, B.Sc., M.Sc. (Calicut – India), Ph.D. (Madras – India)

Verbeek, Peter  
College of Arts and Sciences  
Department of Anthropology, Associate Professor, 2015, B.S. (Eckerd College), M.A., Ph.D. (Emory)

Vetter, Imelda L.  
Mervyn H. Sterne Library  

Vines, Adam  
College of Arts and Sciences  
Department of English, Assistant Professor of English; Director, English Honors Program, 2006, B.A., M.A. (UAB), M.F.A. (Florida), Creative Writing, Poetry, Twentieth and Twentieth-First Century Poetry

Vohra, Yogesh K.  
College of Arts and Sciences  
Department of Physics, Professor of Physics, University Scholar, Associate Dean, 1992, B.S., M.S. (Delhi, India), Ph.D. (Bombay, India), High Pressure Materials Research, Growth and Characterization of Synthetic Diamond, and Nanoscale Materials for Biomedical Applications

Voltz, Deborah  
School of Education  
Department of Curriculum and Instruction, Professor of Special Education, 2013, B.A. (National College of Education), M.A. (UAB), Ed.D. (UAB)

Vyazovkin, Sergey  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry, 2002, B.Sc., M.Sc. (Calicut – India), Ph.D. (Madras – India)
Faculty

Department of Chemistry, Professor of Chemistry, 2001, B.M.S., M.A., Ph.D., (Belorussian – Russia)

Wadas, Theresa
School of Nursing
Instructor of Nursing, 2004, B.S.N., (Troy State), M.S.N. (UAB)

Yates, Stephanie School of Business

Department of Accounting and Finance, Associate Professor of Finance, 2007, B.S., M.A., M.B.A. (Cincinnati), Ph.D. (LSU)
UAB welcomes applications from all individuals whose preparation and abilities give them a reasonable chance of success in its programs. All applicants must offer acceptable evidence of ability and intent to meet the academic standards of the university. Admission decisions are based on a number of factors including a previous record of satisfactory academic performance, strength of curriculum, and test scores. Admission to the university is valid for one academic year.

The application for admission, application instructions, and application deadlines can be accessed at http://www.uab.edu/apply. Applications are processed in the order in which they are complete and ready for a decision.

Prospective students currently attending high school may apply as early as the summer before their senior year. Tentative admission will be granted on the basis of ACT or SAT scores and high school records through the junior year. A final official transcript reflecting work completed in the senior year and confirmation of graduation will be reviewed before a student’s final admission. Applicants must earn a high school diploma to be eligible for admission. A General Equivalency Diploma (GED) may be considered if the applicant is 19 years of age or older and does not have a high school diploma.

Prospective students currently attending another college or university may apply one year prior to the date of the desired term of enrollment. However, tentative admission will be granted with no more than one term pending on the basis of an evaluation of coursework from all colleges and
universities attended. A final official transcript reflecting work completed will be reviewed before a student’s final admission.

Credentials and documentation required for admission vary by application status. To be considered official, all academic documents required for admission must be sent to UAB directly from the high school, colleges/universities attended, and testing agencies. All credentials submitted as part of the application for admission become and remain the property of the university and will not be returned to the student, duplicated, or transferred to another institution.

Any change in a student’s record prior to enrollment will necessitate a new review of the application. Any omissions or misrepresentations on a student’s application for admission will automatically invalidate consideration by and acceptance to UAB. If, after a student is admitted to the university, information comes to light that indicates an applicant did not meet all admission requirements, the applicant’s offer of admission will be rescinded.

Priority Application Deadlines
Prospective students are encouraged to apply well in advance of the date of the desired term of enrollment but no more than one year.

<table>
<thead>
<tr>
<th>Entry Term</th>
<th>Deadline</th>

<tbody>
<tr>
<td>Fall</td>
<td>June 1</td>
</tr>
<tr>
<td>Spring</td>
<td>November 1</td>
</tr>
<tr>
<td>Summer</td>
<td>March 15</td>
</tr>
</tbody>
</table>

The application for admission, application fee, and all supporting official academic documents must be complete and received in the Office of Undergraduate Admissions by 5 p.m. on the respective deadline date. If the deadline falls on a weekend or university holiday, applications will be considered the following business day.

Admission to Specific Schools or Programs
Admission to the university as an undergraduate student may not be the final step required to gain admission to the desired school or academic program. For the undergraduate programs listed below, additional steps are required:

- College of Arts and Sciences (Immunology, Music, Musical Theatre, Neuroscience)
- School of Education (Teacher Education Program)
- School of Engineering
- School of Health Professions
- School of Nursing

Further information on the additional steps required is given in the section of this catalog devoted to the particular school/college.

Declaration of School and Major
Applicants are asked to indicate an intended major field of study on the application for admission. Applicants who do not have a general field of interest may request admission as Undeclared. International students must declare a major.

Admission Appeal Procedure
Applicants denied admission to the undergraduate program who believe they have extenuating circumstances that might justify a different decision may appeal for further consideration.

Freshmen
1. Applicants must complete and submit a Supplemental Admission Application. Any academic or personal information that would help the committee to make a fair and informed decision should be provided. A Supplemental Admission Application may be obtained from the Office of Undergraduate Admissions.
2. Applicants must submit a letter of recommendation from a guidance counselor or teacher who can speak knowledgeably about the applicant’s academic background and potential.
3. Students who are admitted through this procedure may be admitted to the Blazing Start program or with terms and conditions set forth by the appeals committee.

Non-Traditional Freshmen (Graduated from high school four or more years ago and have not attended college)
1. Applicants must submit a letter addressed to the Admission Appeals Committee which addresses several issues regarding educational goals:
   - What is your educational objective?
   - How would a UAB education help you achieve your personal or career goals?
   - What deterred you from enrolling in college before this time?
   - To what extent are these factors still pertinent today?
   - What challenges to successfully completing your education at UAB do you foresee?
   - What steps have you taken to prepare for academic success at UAB?
   - What support systems do you have in place to ensure success?
2. Students who are admitted through this procedure:
   - Will be admitted to and advised in the Vulcan Materials Academic Success Center.
   - Must adhere to all policies and procedures of academic warning status.
   - Must limit their first-term course load to a maximum of 12 semester hours.

Transfer/Former UAB Students
1. Applicants must submit a letter addressed to the Admission Appeals Committee which addresses several issues regarding educational goals:
   - Reasons the applicant did not do satisfactory academic work when previously enrolled.
   - What the applicant has done since last enrolled in school.
   - What steps the applicant has taken to prepare for academic success at UAB.
   - Goals for personal development, career and education.
   - Why the applicant is now better able to complete goals than when last enrolled in school.
2. Students who are admitted through this procedure:
• Will be admitted to and advised through the Vulcan Materials Academic Success Center.
• Must adhere to all policies and procedures of probation status.
• Must limit their first-term course load to a maximum of 12 semester hours.

Both freshman and transfer/former student appeal documentation should be submitted to the attention of the Admission Appeals Committee. Students who wish to appeal are highly encouraged to do so well in advance of the deadline. The deadline to submit all required appeal documentation is one week after the application for admission deadline of the desired term of enrollment.

Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP)

UAB awards credit to students who have earned designated scores on Advanced Placement (AP) Program examinations of the College Board. AP examinations are usually taken at the end of an AP-designed course of study in high school. Credit, if awarded, will be recorded without grades or quality points and will not, therefore, be included in the calculation of the grade point average.

Credits awarded by other institutions for Advanced Placement (AP), International Baccalaureate (IB), and the College Level Examination Program (CLEP) must be reevaluated to determine if credit will be awarded at UAB. Students wishing to submit such credits should send an official score report to the Office of Registration and Academic Records.

UAB score requirements for Advanced Placement, International Baccalaureate, and the College Level Examination Program are available online (http://www.uab.edu/students/admissions/credit-equivalencies).

Equal Opportunity Policy

UAB administers its educational programs and activities, including admission, without regard to race, color, religion, sex, sexual orientation, age, national origin, disability unrelated to job performance or Vietnam-era or disabled veteran status. The full text of this policy can be found at http://sppublic.ad.uab.edu/policies/Pages/default.aspx.

Office of Undergraduate Admissions

Mailing Address for Documents and Credentials: Box 99 • 1720 2nd Ave S • Birmingham, AL 35294-4600

Physical Address: 1701 11th Avenue South • Birmingham, Alabama 35294-4412

(205) 934-8221 or (800) 421-8743 • ChooseUAB@uab.edu (undergradadmit@uab.edu) • www.uab.edu/apply

Freshman Admission

High School Graduates

1. Completion of a college preparatory curriculum to include the following:

2. Minimum high school grade point average (grades 9-12) of 2.25 on a 4.0 scale

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>

<td>History, psychology, sociology, etc.</td>
</tr>
<tr>
<td>Foreign Language</td>
<td>1</td>
<td>One Language</td>
</tr>
<tr>
<td>Additional Core Courses</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

4. Minimum ACT composite score of 20 or SAT score of 1020 (EBRW + M).

Home Schooled Students

UAB welcomes applications from students who are schooled at home. Home schooled high school students are reviewed for admission and for academic scholarships following the same criteria utilized for students who attend public and private high schools. The official high school transcript should contain the titles of courses in each subject area beginning with grade nine, course grades, overall GPA on a 4.0 scale, course grading scale, signature and contact information of the school administrator. The teaching credentials of the home school teacher should be included.

Non-Traditional Freshmen

Minimum admission requirements for students who graduated from high school 4 years or more and have not attended college:

1. Minimum high school grade point average of 2.25 or GED score of 520.

Joint Admission Program

Freshman applicants seeking admission to UAB who do not meet admission requirements may be offered Joint Admission at one of UAB’s community college partners. This Joint Admission Program offer is based upon a holistic review of each applicant’s academic record. The Joint Admission Program is for Alabama residents only.

Students who accept the offer of Joint Admission must meet the following requirements to participate in the program:

1. Maintain continuous full-time enrollment at the community college (fall/spring).
2. Earn an Associates Degree from the community college prior to transitioning to UAB through the Joint Admission Program.
3. Maintain a 2.0 GPA in all transferable college coursework.
4. Participate in New Student Orientation and confer with a UAB academic advisor prior to registering for their first term at UAB.
Joint Admission students will have the ability to utilize a variety of programs, resources and facilities at UAB while actively enrolled in the program, and transition directly to UAB once completing their Associates Degree.

Transfer Admission (http://uab.edu/transferapply)

Applicants with a minimum of 24 transferable college semester hours (not including dual enrollment coursework earned while attending high school) must:

1. Have a minimum grade point average of 2.0 in all such work.
2. Be considered in good standing at all previously attended colleges or universities.

Applicants who have earned college credits, but fewer than 24 semester hours, must have a 2.0 grade point average in all transferable college work attempted and also satisfy freshman admission requirements (See “Freshman Admission”). (p. 40)

Applicants who are permanent residents but attended a college or university outside of the United States must meet the same admission requirements as international students (See "International Admission (p. 41)")

Eligibility of College Credits for Transfer

The eligibility of credit for transfer to UAB depends both on the subject matter of the credit and on the accreditation status of the institution that awarded the credit.

Technical/vocational credits or remedial credits, whether earned at UAB or at any other institution of higher education, are not eligible for transfer and may not, therefore, be used to satisfy degree requirements. The exception to this rule is when the transfer of certain courses applicable to specific professional degree programs is approved in advance by the appropriate department. The accepted courses will be posted only while the student is in the degree program approving the credit. If the student changes programs, the courses will be removed. Credits earned while on academic suspension from UAB or another institution may be eligible for transfer. However, the UAB forgiveness policy can only be applied to grades earned at UAB.

Transfer credit in academic subjects will be considered for transfer to UAB from post-secondary institutions that are fully accredited by one of the six regional accrediting associations (see below) that offer the baccalaureate degree or associate’s degree leading to the baccalaureate degree. If an institution is not yet accredited, but has acquired candidate status from a regional accrediting agency, then academic credits from the institution will be considered for transfer to UAB.

- Middle States Association of Colleges and Schools
- Higher Learning Commission (North Central Association of Colleges and Schools)
- New England Association of Schools and Colleges
- Northwest Association of Schools and Colleges
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

Academic credit earned at Alabama Community Colleges during the initial organization of the Alabama College System (1965-1967) will be acceptable for transfer to UAB.

College courses completed at unaccredited non-candidate institutions are not usually considered for transfer to UAB. However, applicants with credits in this category may contact the Office of the Registrar for information on the “Credit by Portfolio (https://www.uab.edu/students/admissions/credit-eqivalencies/portfolio)” option. The official determination of acceptability of courses from other institutions is the responsibility of the Office of the Provost.

Students with credits from institutions outside the United States should review transfer of international credits.

Credits awarded by other institutions for Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP (http://catalog.uab.edu/undergraduate/progresstowardadegree/clep)) and Advanced International Certificate of Education (AICE) must be reevaluated to determine if credit will be awarded at UAB. Students wishing to submit such credits should send an official score report to the Office of the Registrar.

Limitations of Transferred Credit

One half of the credit hours required for a degree may be transferred from a two-year college provided the courses are numbered as freshman-(100) and sophomore-level (200) courses.

Acceptance of Transfer Credits toward a Degree

College-level coursework transferred from a regionally accredited institution will be shown on the UAB transcript; however, applicability of the course toward a degree is determined by the student’s major department.

Admission as an International Student

International students are defined as any applicant who is not a U.S. Citizen or Permanent Resident. International students should apply at least six months in advance of desired attendance date in order to facilitate timely admission and enrollment.

Freshman Admission

Applicants who have completed secondary school abroad under a grading system different from the U.S. system must submit:

1. Minimum overall GPA of 2.50
2. Minimum TOEFL score of 77 on the Internet-based version or minimum IELTS score of 6.0 overall with a minimum of 5.5 on each section of the exam, if English is not the applicant’s native language.
3. Minimum ACT composite score of 20 or SAT score (EBRW + M) of 1020 if English is the applicant’s native language. Prospective students on select government scholarship programs and entities sending students that have UAB institutional agreements may qualify for an exemption from this requirement.

A TOEFL or IELTS score is not required if the applicant has attended a U.S. high school for at least two years.
Transfer Admission
Applicants who have attended a college or university outside the United States must submit:

1. Minimum overall GPA of 2.0.
2. Minimum TOEFL score of 77 on the Internet-based version or minimum IELTS score of 6.0 overall with a minimum of 5.5 on each section of the exam, if English is not the applicant's native language.

NOTE: Applicants who have earned fewer than 24 semester hours at a postsecondary institution will also need to meet the minimum admission requirements for freshmen.

Student Visa
To obtain documents for an F-1 or J-1 student visa, applicants must provide a letter verifying support from the student's financial sponsor, an original or certified copy of a bank statement confirming a balance sufficient to cover the first year's tuition, fees, and living expenses, and a clearance form if transferring from another school within the United States.

To meet the requirements of the F-1 visa, international students must be full-time students. Full-time students are defined as those earning a minimum of 12 semester hours of credit for two consecutive semesters.

All others must provide a copy of their visa or I-797 approval notices about their status to International Student and Scholar Services.

Health Insurance
All international students are required to register with the UAB Student Health Service and to carry a health and accident insurance policy approved by the UAB Student Health Service.

Readmission of Former UAB Students
Former students who have not been enrolled in undergraduate courses at UAB for one academic year or more must apply for readmission. Former students are subject to the same conditions as newly-admitted students.

Former UAB students who are returning to continue their programs of study should consult with their academic advisor or department chair to determine whether curriculum or degree requirements have changed since their last enrollment.

Post-Baccalaureate Admission
Degree Seeking
Persons with a baccalaureate degree who wish to seek a second baccalaureate degree must apply by the published deadline and have a minimum grade point average of 2.0 in all undergraduate coursework attempted.

Non-Degree Seeking
Persons with a baccalaureate degree who wish to:

1. Meet prerequisites for advanced programs or
2. Satisfy requirements for professional certification

Must apply by the published deadline and submit an official transcript from the college or university from which the baccalaureate degree was earned.

Admission as a Non-Degree Student
Students who wish to enroll in undergraduate courses with no intent of pursuing a degree should apply by the published deadline to be considered as a non-degree seeking student (Temporary, Transient, and Non-Degree Post-Baccalaureate). The following restrictions apply to non-degree students:

1. Ineligible for financial aid or priority registration.
2. If a course is over-enrolled, non-degree students may be dropped in favor of degree-seeking students.
3. May not participate in intercollegiate sports.

Temporary
A prospective student seeking personal enrichment or career enhancement may be admitted as a Temporary student. Temporary students are limited to applying a maximum of 24 semester hours to a UAB degree program.

Applicants in this category must be at least 25 years of age unless enrolling in an approved certificate program. Students must provide a letter of good standing if they have attended another college or university within the last year.

Transient Students
Persons who want to transfer credit earned at UAB back to their home institution where they are enrolled as a full-time student may be admitted as Transient students.

Requirements: Applicants for Transient status must submit an official transcript or letter of good standing from the home institution. Enrollment as a Transient student is typically for one term, with a maximum of two consecutive semesters.

Change from Non-Degree to Degree Status
A student with a non-degree classification who wishes to change to a degree-seeking classification must reapply for admission by submitting an application for admission, application fee, and all required transcripts. To be admitted as a degree-seeking student, the individual must:

1. Meet the published application deadline and admission requirements.
2. Submit all documentation required for a degree-seeking applicant.

Concurrent Enrollment and Dual Enrollment/Dual Credit
UAB welcomes applications from exceptional high school juniors and seniors who wish to earn college credit while still enrolled in high school. Evidence must be presented that enrollment at UAB would enhance the student's educational experience beyond that available in high school.

Requirements include:

1. A minimum grade point average of 3.0.
2. A recommended ACT score of 25 or SAT score of 1170 (combined EBRW + M).
3. A letter of permission from a parent or guardian.
4. A letter of approval from the high school principal or guidance counselor.
Concurrent Enrollment
A student applies for Concurrent Enrollment in order to take courses as a non-degree student at UAB, while concurrently enrolled as a junior or senior in high school. This option may be appropriate for students whose high schools do not participate in the Dual Enrollment/Dual Credit program.

Dual Enrollment/Dual Credit
The Dual Enrollment/Dual Credit option is available only to those students whose high schools have a formal Dual Enrollment/Dual Credit agreement with UAB. A high school junior or senior may apply for dual enrollment/dual credit in order to take courses as a non-degree student at UAB while still completing high school and apply credit earned at UAB both toward college requirements and toward the high school diploma.

Individual courses taken by dual enrollment/dual credit must be pre-approved by the student’s high school. Prior to each term of enrollment under the dual enrollment/dual credit option, the student must submit a letter from the high school identifying the pre-approved course(s) to be taken for dual credit.

Admission as an Auditor
Applicants who wish to audit credit courses must follow standard admission procedures and meet minimum admission requirements.

New Student Orientation
Orientation is offered several times prior to the beginning of each term for all incoming freshmen and transfer students. Sessions include information about resources and services available to students to help them be successful. Additionally, new students meet with faculty and academic advisors and register for classes. Attendance at New Student Orientation is required for all new degree-seeking freshmen and transfer students prior to their first term of enrollment.

Office of New Student Orientation
Hill Student Center, Suite 201 • 1400 University Boulevard • Birmingham, Alabama 35294 • Telephone: (205) 975-7999 • E-Mail: orient@uab.edu • Web: https://www.uab.edu/students/orientation

Student Involvement and Leadership
UAB Student Experience would like to invite you to complete your UAB experience by becoming involved in the many activities and organizations available to you as a student. Events range from relaxing at free movies or comedy shows, involvement in student governance, cheering on the Blazers, writing for the Kaleidoscope student newspaper, rappelling down a cliff, hiking the Grand Canyon and so much more. Each semester brings new events, new organizations, opportunities to make friends, get physically fit, learn, socialize, relax, and have a good time becoming a part of the Blazer community! We want you to get involved!!

This section of the catalog contains an alphabetical list of many of the activities and organizations and activities available to students.

Student Involvement & Leadership
The Office of Student Involvement and Leadership is responsible for developing the leadership capacity of students and supporting student organizations as integral members of the University community by serving as a leadership and organizational development clearinghouse. The mission of the Office of Student Involvement and Leadership is to serve as full partners in the collegiate experience by empowering students through intentional programs that foster personal and professional development, while enhancing campus pride and commitment to the greater Birmingham community.
Students who engage in programs, activities, and services provided by the Office of Student Involvement and Leadership will be able to choose opportunities that foster collaboration with others by finding value in the contribution of viewpoints that differ from their own, develop a spirit of public-mindedness that influences civic engagement with local and global communities while creating spaces that generate a more porous and interactive flow of knowledge between campus and community, and develop their leadership and professional skills (such as critical thinking, event planning, conflict resolution), allowing them to succeed in all roles of a team and use these skills to build a foundation for future career success.

Civic Engagement
The Office of Student Involvement and Leadership promotes and supports service and community involvement through engaging our students in a variety of meaningful service activities. The office serves as a resource center for community service programming in order to help students expand their understanding of social/community issues, develop leadership skills, and work on solutions to real life problems. The Blazers on Break alternative spring break program and Summer Service Weekends promotes community service, develops leadership skills, and creates strong bonds among participants who travel to another community to participate in volunteer work addressing issues such as environmental protection, children, affordable housing, hunger, education, HIV/AIDS awareness, and disabilities. Through local partner fairs and large scale programs like Into the Streets Day of Service, Awareness Weeks, and Martin Luther King, Jr. Day of Service, students can get involved in many ways to make a positive difference on the lives of others in our community.

Fraternities and Sororities
Looking to excel in you academics? Have incredible leadership opportunities? Give back to the community and a cause bigger than yourself? Most importantly, looking for a home away from home? The fraternities and sororities here have set the bar high for UAB students in terms of scholarship, leadership, philanthropy and service, and brotherhood and sisterhood. We currently have over twenty fraternities and sororities across four councils: the Panhellenic Council, Interfraternity Council, National Pan-Hellenic Council, and Multicultural Greek Council. Our diverse groups welcome students from all backgrounds, and will help you lay a foundation for success that lasts long after your college years have ended.

Leadership Programs
The Office of Student Involvement and Leadership coordinates campus-wide leadership programming to help students reach their potential in and out of the classroom. In addition to one-on-one leadership consultations, our office coordinates Leadership Foundations, a co-hort style leadership class, and programs such as Lunch with a Leader, Dinner with the Dean, the Fall Leadership Conference, the Winter Leadership Retreat, and the annual Etiquette Dinner.

Educating is an integral part of what our office does, whether it is offering weekly seminar-style learning through the LEAD (Leadership Education And Development) on Demand program, a chance to sharpen networking skills through an annual etiquette dinner, or how to be an effective leader as a member of UAB LEAD. We also offer a scholarship annually to an emerging leader.

Honor Societies
UAB recognizes many nationally affiliated honor societies that acknowledge scholastic achievement, citizenship, and outstanding leadership among students. Check out our honor societies at uab.edu/bsync.

Student Organizations
UAB recognizes over 300 student-led organizations concerned with the academic, social, and personal development of students. Organizations include groups with interests in religion, music, athletics, and cultural diversity. Additionally, nearly every academic major is represented by a student organization. Check out our organizations at uab.edu/bsync.

University Programs
University Programs bring entertaining, diverse, and educational events to UAB. University Programs produces Homecoming, TalentSearch, SpringFest, Fall Concert, Film Series, comedians, late night programs, music, and other special events.

Undergraduate Student Government
The Undergraduate Student Government Association (USGA) is the voice for the undergraduate student body and represents student issues, concerns, and views to the administration. USGA provides programs and services for undergraduate students in the Schools of Business, Education, Engineering, Health Professions, Nursing, Public Health, and the College of Arts and Sciences. Elections for these executive council and senate positions are held each Spring semester. Students can also serve on USGA committees or be appointed to the cabinet or student court. Freshman may get involved through Freshman Forum.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Student Multicultural and Diversity Programs
In support of UAB’s mission of global citizenship, Student Multicultural and Diversity Programs (SMDP) seeks to cultivate a campus wide academic community characterized by:

• Social justice education
• Student advocacy and empowerment
• Affirmation of social identities
• An intersectional approach to gender, race, sex, class, sexuality, ability status, country of origin, faith, and language
• Providing cultural and identity specific programs

SMDP provides learning environments that value and respect underrepresented student populations as a means to contribute to student success. In collaboration with campus and community partners, SMDP acts as an institutional resource for identity based policy, education, and outreach efforts.
Black Student Awareness Committee

Through educational events and programs, the Black Student Awareness Committee (BSAC) strives to increase the awareness of issues surrounding the Black community on our campus, within the city of Birmingham, and across the nation. BSAC encourages celebration of Black heritage, celebrates the accomplishments of Black people on and around the campus, and offers insight into the future of Black America.

Blazer Male Excellence Network

The BMEN Peer Mentoring Program is designed to provide academic and social support to Black male students entering UAB. BMEN’s overall goal is to improve the quality of life for the new student by partnering a returning student with a new student, and by staff providing information on navigating the collegiate experience inside and outside the classroom. The mentors are selected each spring and go through extensive training to offer the best services possible. At UAB, improving the retention and graduation rates of its students is a primary objective of the University. Nationally, black males have the lowest retention rate of any group on most college campuses. The BMEN Peer Mentoring Program is one way to connect black males to the University and help them successfully transition to UAB.

Free Food For Thought

Free Food for Thought (FFFT) aims to create a space for students, and sometimes community members, to share their thoughts and opinions about ‘hot topic’ or ‘hot button’ current events and issues. Each semester a topic is chosen for discussion and each session is framed around that topic. FFFT encourages building a community that values inclusion and social justice. Interested participants exchange viewpoints on topics like these, resulting in a greater awareness about issues and experiences across social and personal identities. Learning from one another through facilitated, respectful discussion can help us value the contributions of peers. Just as the title espouses, food is served at all of our sessions.

Global Citizenship 101

Global Citizenship 101’s primary objective is to reach out to local high schools in an endeavor to educate students on the importance of being a Global Citizen. Over the course of the program, students learn about different global issues ranging from local and state concerns, like prison overcrowding and gun control, to problems that stretch across multiple countries, such as global water shortages and famine. This gives students an interdisciplinary outlook and understanding on how issues are handled successfully and why governments fail to solve major global problems. This program is a critical first step into international and cultural understanding of complex issues and can have a lasting effect that continues to help students grow and be receptive to new ideas.

Intergroup Dialogue

For many, faith, agnosticism, and atheism are important aspects of their identity. This dialogue group aims to create a space for a small number of students to discuss this aspect of themselves. In conversations such as these, emotions rise, debate ensues, and there is a fast end to positive conversation. To ensure an open space, with intentional conversation, the tenants of dialogue are taught to all participants and will be maintained in the space by two peer facilitators.

International Mentors

UAB International Mentors is a program that provides incoming international students with valuable information about UAB, Birmingham, and the United States. International Mentors serve the UAB international community by offering programming, support, and assistance to better meet the needs of incoming new students. The mentors are chosen through a highly selective process each spring and go through extensive training to offer the best services possible.

Safe Zone Peer Educators

SafeZone Peer Educators are a group of volunteer undergraduate students who provided education and training around issues of gender, sexuality, power and oppression. SafeZone Peer Educators provide a visible network where all UAB undergraduate, graduate and professional students can receive knowledge and ask questions in a welcoming space in order to help make campus a safer, more accepting place for LGBTQ students, staff, faculty and visitors. Each semester, three open sessions are offered to all UAB students: SafeZone 101, SafeZone 201, and Trans 101. Lunch-n-learns and special topics are also offered throughout the year.

Social Justice Advocacy Council

The Social Justice Advocacy Council (SJAC) is a programming, leadership and advocacy board comprised of a diverse group of students that promote multicultural awareness and inclusive excellence. Our objective is to celebrate diversity of identity, broaden cultural understanding, encourage unity, empower marginalized and underrepresented groups, educate about identity related issues, and promote intercultural interactions between all communities of people at The University of Alabama at Birmingham.

Theatre Activities

UAB Department of Theatre

The UAB Department of Theatre presents several productions each year in the Alys Stephens Center's Sirote Theatre and the Odess Theatre. Students of all majors can audition, build productions, and participate on running crews for credit. Special ticket pricing is available for UAB students. For more information, contact the Department of Theatre at (205) 934-3236.

Ambassadors

The UAB Ambassador Program is the oldest and most prestigious student program on campus. This select group of 22 dedicated students are committed to the University by serving as the official hosts and hostesses at recognized activities and events of UAB. At all times, these student leaders represent UAB through their actions, demeanor, and speech. Ambassadors are selected each spring semester via application and interview.
Honor Societies

UAB recognizes many nationally affiliated honor societies that acknowledge scholastic achievement, citizenship, and outstanding leadership among students. Check out our honor societies at uab.edu/bsync.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Athletic Team Support Groups

Blazer support groups include the UAB Golden Girls, Cheerleaders (small coed), mascot (Blaze), Blazer Band, and the UAB Marching Blazers. These groups perform at UAB basketball, volleyball, and at a variety of events in Birmingham. Each spring tryouts are held and are based on performance and interviews. For more information on cheerleaders, mascot, and Golden Girls, contact the Athletic Team Support Office, Room 190, Campus Rec Center, (205) 975-5376 or email Ryan Martin at rmartin1@uab.edu (%20rmartin1@uab.edu). For information on the Blazer Band and the UAB Marching Blazers, call the band office at (205) 975-BAND (975-2263). You can also visit the website www.uab.edu/spirit.

BlazeRadio

Hear music from your favorite artist, get the 411 on celebrity news and find out what’s happening on campus 24 hours a day with BlazeRadio, UAB’s student Web radio station. Tune in online, or download our Live365 smartphone app, and listen to the latest alternative, rock, hip hop, jazz, dance, and country music and more. You can also check out our popular news, sports, and talk shows that are all produced by and for UAB students.

If a job in radio is what you hope to achieve, BlazeRadio offers volunteer spots on the air and behind the scenes. Check the BlazeRadio site for details on programming, promotion, technology, and management positions. On-air slots require an audition. Get started by completing an application in the Office of Student Media.

To tune in, go to www.uab.edu/studentmedia and click on our live stream link. Our studio is located in Suite 130 in the Hill Student Center located at 1400 University Blvd. You can call us at (205) 934-3354 (WBLZ), or send us an email at info@InsideUAB.com (info@insideuab.com).

Good Games UAB

The Good Games UAB (ggUAB) program aims to create an environment that fosters a community of students with diverse backgrounds who actively engage in numerous eSports initiatives and activities throughout the school year. Our organization provides extensive programming, hands-on experience and mentoring to promote eSports culture within the community while increasing career awareness for students looking to jump-start their journey into the industry by connecting them with companies in the Greater Birmingham area. All students enrolled at UAB are eligible for membership.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Leadership and Service Council (LSC)

The LSC consists of 12 selected student leaders and is responsible for coordinating various events and programs related to serving others and creating awareness for current social issues. Advised by the Office of Student Involvement & Leadership, LSC has five committees, and these student leaders are responsible for all aspects of events sponsored by the LSC, including event logistics, marketing, and volunteers. LSC also assists with the planning and execution of other events sponsored by Civic Engagement, including Civic Engagement Fairs, Blazers on Break, and Summer Service Weekends. Selection for this council takes place in the spring semester.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, or www.uab.edu/studentaffairs/.

Miss UAB

The spotlight shines on students both on stage and behind the scenes in the Miss UAB Scholarship Pageant, an official preliminary to the Miss Alabama and Miss America pageants. Held each fall, the pageant showcases each contestant’s talent and achievement and provides scholarships to help them pursue educational goals. Get involved by joining the pageant’s planning committees which promote the contestants, produce the show, recruit judges, or take the stage as a contestant!

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Music Ensembles

Students of all majors are invited to participate in instrumental or vocal music ensembles offered through the Department of Music. Each group performs on campus several times each year; some also perform for selected off-campus events. Some prior experience and brief auditions are required. Several scholarships are available each year for students who perform with these groups. For more information, contact the Department of Music, (205) 934-7376.

Vocal Groups

Chamber Singers

This choral ensemble performs a variety of music representing different periods and styles. The group is open to students of all majors. A short audition is required. For more information, please contact Dr. Brian Kittredge at (205) 975-2599 or briank@uab.edu.
Concert Choir
This auditioned choral ensemble performs music representing a variety of periods and styles. Some music-reading ability is needed. The group is open to students of all majors. A short audition is required. For more information, please contact Dr. Brian Kittredge at (205) 975-2599 or briank@uab.edu.

Gospel Choir
This ensemble primarily performs choral literature from the major eras of American Gospel Music. It is open to students of all majors. Students with significant skill in playing gospel, jazz and/or pop keyboard, rhythm guitar, bass guitar, saxophone, and drums are also encouraged to participate in the Gospel Choir. For more information, please contact Mr. Kevin Turner at (205) 934-6155 or kturner@uab.edu.

Opera Workshop
This ensemble performs opera scenes and musical theater excerpts, as well as fully staged, complete operas. It is open to students of all majors. A short audition is required. For more information, please contact Dr. Kristine Hurst-Wajszczuk at (205) 934-8906 or khw@uab.edu.

Bands
Blazer Band
As part of the university band program, the Blazer Band provides support for UAB Blazer basketball. It performs at all home and selected away games and for post-season events such as the annual Conference USA tournament. For further information, please contact the band office at (205) 975-BAND (975-2263).

Jazz Ensemble and Jazz Combos
Instrumentalists can further their musical knowledge and creative skills by performing classic and contemporary jazz, swing, and rhythm and blues. For further information, please contact Dr. Steve Roberts at (205) 934-6154 or jazztpt@uab.edu.

UAB Marching Blazers
The UAB Marching Blazers is part of the university band program, and produces high-quality experiences for students and fantastic entertainment for diverse audiences. The Marching Blazers go beyond the traditional role of collegiate marching bands by performing for professional sporting events; local, regional, and national marching band competitions and parades; and international travel and competitions. Scholarships are available. For further information, contact the band office at (205) 975-BAND (975-2263).

Wind Symphony and Symphony Band
As part of the university band program, the Wind Symphony and Symphony Band perform the finest concert band literature in campus concerts, selected special performances, and an annual spring tour. Band placement is contingent upon a brief audition. Scholarships are available for students who participate in the Wind Symphony or Symphony Band and the Marching Blazers. For further information, please contact the band office at (205) 975-BAND (975-2263).

Student Media
Kaleidoscope, UAB’s student newspaper, was here before there was a UAB. Students have been gathering, editing, and distributing the news about the UAB community since 1967.

Throughout the years, “Kscope,” as it is known on campus, has played a vital role in helping keep students informed as well as providing a public forum for the discussion of timely issues of interest to our community.

As times have changed, so has UAB’s Student Media -- trading in typewriters for computers, adding more color to its print edition, and aggressively converging what had once been a print-only medium into a contemporary operation that delivers content not only in print but daily on the web and through mobile devices.

And, UAB’s Student Media has expanded along the way with these innovative media:

- Interactive Student Media, the web services group that powers Kscope online.
- Streaming internet radio (BlazeRadio [http://www.uab.edu/studentmedia])
- Literary and visual arts magazine (Aura Literary Arts Review)
- Television web channel (UABTV [http://www.uab.edu/studentmedia])

Regardless of the medium, however, at the heart of these operations are students who gain real-world experience and training that has equipped them for entry into the professional world. Over the years, teams of students have won numerous regional and national awards for journalistic excellence.

Student Media alums have gone on to work for a variety of media, ranging from community journalism to major metropolitan operations across the U.S. with most crediting their experiences with student media at UAB as essential to their careers.

Today, students produce content for all facets of these operations, including wrangling multimedia and mobile technologies to adapt the medium for display on smartphones and tablets. These innovations are produced by students themselves and are among some of the most cutting-edge concepts in collegiate journalism in the nation.

Student Media is always looking for those who want to join a team dedicated to finding the next great idea in serving our community. Perhaps that’s you. Contact us today.

For more information, contact:

Student Media Office
Hill Student Center, 1400 University Blvd., Suite 130 • Telephone (205) 934-3354 • Find us on B-Sync or Email: info@insideuab.com

Student Organizations
UAB recognizes over 300 student-led organizations concerned with the academic, social, and personal development of students. Organizations include groups with interests in religion, music, athletics, and cultural diversity. Additionally, nearly every academic major is represented by a student organization. Check out our organizations at uab.edu/bsync.
For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

UAB TrailBlazers

The UAB TrailBlazers (http://www.uab.edu/trailblazers) are UAB’s official student recruitment team. TrailBlazers assist the Office of New Student Programs by providing in-depth information about UAB to prospective students and their families. Chosen annually, TrailBlazers strive to ensure that students know about the diverse academic, cultural, and extracurricular interests found within the UAB community. These highly motivated, energetic, and dedicated students are chosen to represent the Division of Enrollment Management at special on- and off-campus recruitment events and campus tours. For more information, contact the Office of New Student Programs Campus Visit Center, Hill Student Center, Suite 201, (205) 934-9098 or TrailBlazers@uab.edu.

UAB LEAD

UAB LEAD is a student-led organization responsible for coordinating leadership events and activities for UAB students. UAB LEAD assists in the development of the Fall Leadership Retreat, Winter Leadership Conference, Leadership Lectures, workshops for other student organizations which include leadership development, icebreakers and introductions, communication and conflict resolution, and strategic management, etc.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Undergraduate Student Government Association (USGA)

The Undergraduate Student Government Association (USGA) is the voice for the undergraduate student body and represents student issues, concerns, and views to the administration. USGA provides programs and services for undergraduate students in the Schools of Business, Education, Engineering, Health Professions, Nursing, Public Health, and the College of Arts and Sciences. Elections for these executive council and senate positions are held each Spring semester. Students can also serve on USGA committees or be appointed to the cabinet or student court. Freshman may get involved through Freshman Forum.

For more information about USGA, contact the Office of Student Involvement and Leadership, usga@uab.edu (getinvolved@uab.edu), (205) 934-8060, Hill Student Center 230, or www.uab.edu/usga.

University Programs Board

The University Programs Board (UPB) is the student programming organization on campus. UPB works cooperatively with the Office of Student Involvement and Leadership to provide programs, entertainment, activities, and special events such as homecoming, Miss UAB, comedians, concerts, movies, and other special events.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentaffairs.

Student Services & Facilities

This page contains a list of facilities and services available to UAB students. For further information on these and other facilities and activities, contact the Information Desk (https://www.uab.edu/studentaffairs/studentcenter), located at the Hill Student Center or refer to the UAB student handbook, Direction, at https://www.uab.edu/students/ and on BlazerNET (http://www.uab.edu/blazernet) on the Student Resources tab.

Academic Advising

Academic advising is designed to assist students in identifying and achieving their educational and career goals. Specific guidance is given in selecting majors and choosing courses to satisfy degree requirements. Each student is assigned an academic advisor based on their choice of school and major.

Birmingham Area Consortium for Higher Education (BACHE) Library Cooperation

The Birmingham Area Consortium for Higher Education (BACHE) consists of UAB, Birmingham-Southern College, Miles College, the University of Montevallo, and Samford University. Students, faculty, and staff at BACHE institutions may access the resources of all member libraries by simply presenting their valid ID cards. It is best for students to discuss research projects first with the reference staff at UAB’s library before using other member libraries. The rules and regulations of the lending library are in effect.

http://www.uab.edu/bache/

Campus Recreation

The Campus Recreation Center (CRCT) offers students, faculty, staff, and alumni access to a state-of-the-art recreation facility. The UAB Campus Recreation Center offers premier programs, facilities, and services! You will find something for everyBODY – free weights, multipurpose courts, an aquatic center, group fitness studios, nutrition education, cardio-fitness areas, a climbing wall, and much more.

The 150,000 square foot facility covers three floors housing: four basketball/volleyball courts; five racquetball courts (one of which can be converted to squash and four for walleyball); four aerobics studios; one performance studio; 18,000 square feet of weight and cardio-fitness areas; a game room; Kid Zone; an aquatics center with both lap and leisure components; a multi-purpose court used for indoor soccer, floor hockey, indoor flag football and badminton; an indoor track; and a climbing wall.

Patrons can also take advantage of the wellness services here at the Campus Recreation Center, which offer personal fitness assessments, massage therapy, and personal training. In addition, we have a Campus Rec Pro Shop in house, so if you forget something we’ve got you covered and the PowerZone to keep you fueled before and after your workout. Lastly, we have a number of lockers available for rent in 12 month or 3 month contracts. Space is limited, so contact membership services at 205-996-5038 today if you are interested! If you prefer not to purchase a locker, we have several areas in the facility, including the locker rooms, with day use lockers available; just bring a lock, store your belongings while you workout with your own lock, and take it with you when you leave - Free of charge! The CRCT is located at 1501 University Boulevard next to the Campus Green.
Aquatics
The Aquatic Center housed within the Campus Recreation Center provides a place for members to swim laps as well as meet their leisure aquatic needs by swimming laps, floating through the lazy river or taking a dip in the hot tub. In addition, the aquatics program offers swim classes, private lessons, life-guarding certifications WSI (Water Safety Instructor) classes, and pool parties for special events. For questions about pool party requests and/or other pool activities, please visit our website www.uab.edu/campusrecreation.

Fitness & Wellness Services (https://www.uab.edu/students/campusrecreation)
The Fitness and Wellness programs offered at the UAB Campus Recreation Center range from traditional Ufit classes and Studio V performance classes to personal training packages and wellness massage services. For more information on all of our fitness and wellness services or to schedule an appointment today, please contact fitness@uab.edu. 

Ufit & Instructional Group Fitness Classes
Ufit classes are FREE to anyone with an active CRCT membership. Feel free to drop in any time or day of the week to participate in the wide variety of classes available! Instructional classes are offered throughout the year and provide anyone pre-registered with a more advanced learning experience. If you are interested in participating in any one of the instruction classes please register at our Membership desk. All Instructional classes are open for active members and non-members.

• We offer a wide variety of fitness classes, designed to fit your scheduling needs. From seasoned cyclers to those wanting to try yoga for the first time, Ufit has a class that will get you moving! Please visit our website to view our current schedule.
• New and challenging classes are continually being offered throughout the year! Look for classes like Cardio & Strength, Bootcamp, Women's Strength Training, Group Cycling, Aqua Fit. Other classes include: Fit Barre, Step Jump & Pump, Yoga, Pilates, Hip Hop, Zumba, Bosu, Latin Dance, Bharatanatyam Dance and TRX Training. 
Register online here (http://www.uab.edu/campusrecreation/membership/access-portal/).

Wellness Catering
Wellness Catering is a program designed to cater any recreation, health, and/or wellness topic to the UAB community. All programs are presented by a recreation professional and can be modified for your groups exact needs. Topics covered vary from fitness trends, healthy eating habits, to fitness and nutrition demonstrations. Departments have the opportunity to pick a topic to be presented at a staff meeting, lunch group, or any time of your choice!

Complete Fitness Assessments
Fitness Assessments provide individuals with their baseline measurements of flexibility, endurance, blood pressure, muscular strength, body composition, and cardiovascular fitness. The results of these tests are reviewed by a certified Personal Trainer and are used to help personalize a tailored workout plan specifically for you. To schedule your Fitness Assessment please email the Graduate Assistant of Fitness & Wellness kplan@uab.edu (krickels@uab.edu) and complete the Health History Questionnaire as well as the Fitness Assessment Form prior to the appointment.

Personal Training
Do you want to get back into shape or simply looking to kick start a new workout? Personal Training is the service for you! Here at the UAB Campus Recreation Center we offer a variety of Personal Training packages for both members and students. Check out our Personal Training now for complete pricing, packing, and details.

Massage Therapy Services
Celebrate a little YOU time by scheduling yourself a massage today! Appointments are available for 30 or 60 minutes and are performed by certified massage therapists. Choose from a variety of massage packages in order to customize the perfect relaxation for you. Massage therapy appointments are based upon the therapists’ schedules and availability. Please allow at least 24 hours advanced notice of your preferred appointment time in order for us to best schedule your appointment.

For more information or to schedule your next appointment, please email a completed Health History Form (https://www.uab.edu/graduate/images/acrobat/forms/SHW_nonclinicalinternational.pdf) and preferred days/times for your appointment to fitness@uab.edu today!

Competitive Sports (http://www.uab.edu/campusrecreation/programs/competitive-sports)
The Competitive Sports program offers activities such as Intramurals and Club Sports that involve individual and team competition.

Intramurals
All UAB students, staff, and faculty are eligible to participate in intramural sports. Faculty and Staff must adhere to the specific entrance policies if they are not campus recreation facility members. Individuals in any team league must have their campus card in possession to be eligible to participate.

Every team league is offered in men’s, women’s and co-rec format. Each league will have a 4 week regular season followed by a single elimination playoff. For more information please visit our website or contact intramurals@uab.edu.

Want to sign up? (http://www.imleagues.com/School/Home.aspx?id=927a5b3b6e944220acad259198ffe8f2)

Individual Tournaments / Events
All single day tournaments are single or double elimination. Tournaments offered include: badminton, corn hole, billiards, table tennis, swim meet, track & field, triathlon, Texas Hold’em, and sand volleyball.

View tournaments here (http://www.uab.edu/campusrecreation/programs/competitive-sports).

*All tournaments start at 6:30 pm with registration starting at 6 pm.
*Tournaments will be free

Club Sports
A club sport is an organized group of individuals established to promote interest in a sport and develop skills of its members in that sport. A club sport may be organized for recreational, instructional, performance, or competitive purposes. For more information please visit our website or contact spettigr@uab.edu.
Adventure Recreation

Adventure Recreation offers outdoor trips and clinics throughout the year including: kayaking, backpacking, camping, climbing, canoeing and whitewater rafting. Also offered are belay certification and lead climbing programs. Trips and clinics, such as the Wilderness First Responder training, are open to university students, faculty/staff, alumni, and the community. Contact outdoors@uab.edu for more information on trips, clinics, and rentals.

Climbing Wall

Located on the mezzanine level of the Campus Recreation Center, the 42’ tall by 36’ wide climbing wall offers 1,512 square feet of climbing. The wall’s climbing surface is constructed of reinforced polymer concrete panels and imprinted to match the look and feel of natural rock. Open to university students, faculty/staff, and alumni. The community may use the wall by private group rental.

Team Building

Campus recreation offers many opportunities for team building initiatives, catering toward campus groups, corporate outings, school groups and more! Our enthusiastic and skilled facilitators will guide your group through fun activities focused on enhancing or developing vital workplace and life skills such as teamwork, cooperation, communication, and trust. Our program can accommodate groups of any size. Initiatives work on developing or enhancing: communication, teamwork, trust, cooperation, team building, planning, and other common workplace functions. Contact fagan422@uab.edu.

Rentals

The Outdoor Pursuits Rental Center offers outdoor equipment for various events and is open to university students, faculty/staff, alumni, and the community. Whether backpacking, camping, or canoeing, the rental center has multiple rental time spans on the equipment you might need like sleeping bags, tents, backpacks, and cooking sets.

Campus Dining

Dining on-campus gives you the advantage of never having to worry about keeping cash on hand and never losing your parking space. At UAB we have eleven (11) restaurants on-campus. Just swipe your ONE Card and dine! For more information about Campus Dining, please stop by the UAB Campus Dining office located on the top floor of the Commons on the Green next to the Den, or call (205) 996-6567. You can also visit us online at www.uab.edu/dining/.

For a map of dining locations and updated hours of operation visit: www.uab.edu/students/dining/locations-hours.

Meal Plans

Your meal plan gives you the advantage of never having to worry about keeping cash on hand to eat on-campus. Just swipe your ONE Card and dine. For meal plan options and requirements visit www.uab.edu/students/dining/meal-plans.

Dining Dollars

Dining Dollars are funds that you receive from your campus dining fee. All full-time undergraduate students (those students taking twelve (12) or more credit hours on campus) will be assessed a $225 Campus Dining Fee during fall and spring semesters. This Dining Dollars fee is loaded onto a student’s OneCard and is used as a declining balance account accepted at all on campus dining locations. Dining Dollars are not part of a student’s meal plan.

Hill Student Center

With over 162,000 square feet, the UAB Hill Student Center is the living room of the university. It’s a place where you can find friends, meals, books, and a variety of student services, meetings and activities. You can find building maps and hours online at uab.edu/studentcenter.

The Hill Student Center has a variety of dining options. In the food court you will find a Panera Bread, Mein Bowl Asian Market, and a Full Moon Bar-B-Que. On the second floor you will find a Starbucks.

The Hill Student Center also offers a variety of meeting rooms and event spaces. It houses eleven meeting rooms, all equipped with audio/visual equipment and can comfortably accommodate meetings as small as eight or as large as forty. The Hill Student Center also has a 6,722 square-foot multipurpose ballroom that is divisible into four different size configurations.

It is easy to reserve spaces in the Hill Student Center simply visit uab.edu/studentcenter to view availability and request space.

Libraries

UAB Libraries hold more than two million volumes and provide access to thousands of relevant digital resources for information, instruction, and research in support of UAB’s vast academic and medical enterprise. The UAB Libraries system comprises Mervyn H. Sterne Library (http://www.mhsl.uab.edu) as well as Lister Hill Library of the Health Sciences (http://www.uab.edu/lister), which includes Lister Hill Library at University Hospital (http://www.uab.edu/lhh), and UAB Historical Collections (http://www.uab.edu/historical), Reynolds-Finley Historical Library (http://www.uab.edu/reynolds), UAB Archives (http://www.uab.edu/archives), and the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). The faculty and staff of UAB Libraries provide the resources and essential expertise to support excellence in education, research, patient care, and community outreach. Priorities for UAB Libraries include increased access to resources, seamless cloud-based single search capability, campus-wide digital asset management, and increased support for distance and international students and researchers.

Mervyn H. Sterne Library (http://www.mhsl.uab.edu)

The Mervyn H. Sterne Library houses a collection of more than one million items and numerous electronic resources that support teaching and research in the arts and humanities, business, education, engineering, natural sciences and mathematics, and social and behavioral sciences. The library is located at 917 13th Street South and online at www.mhsl.uab.edu. (http://www.mhsl.uab.edu) The website is the gateway to all library services and collections including the Undergraduate Research Toolkit, subject- and course-specific Library Guides, and a list of FAQs. Services include research assistance, citation consultations, workshops and faculty-requested classes, assistance with locating materials, and interlibrary loan.

Named in memory of the late Birmingham philanthropist and civic leader Mervyn H. Sterne shortly after it opened in 1973, the library has
seminar rooms, study rooms, lockable study carrels, computers, printers, scanners, copiers, and seating for 1,350 users. The first floor of the library was renovated in 2010 to make it even more user-friendly and houses the University Writing Center and a Starbucks. Due to student requests, Sterne Library has extended hours, opening 24 hours a day for five days a week except during holidays and summer terms. For more information on resources and services, visit the Sterne Library website at www.mhsl.uab.edu, call Reference Services at (205) 934-4338, or request help by email, text, or chat at www.mhsl.uab.edu/2009/contact.

**Lister Hill Library of the Health Sciences**

The Lister Hill Library of the Health Sciences, the largest biomedical library in the state, provides services and resources for UAB students, research and teaching faculty, and clinicians in medicine, nursing, optometry, dentistry, public health, health professions, and joint health sciences. The library was established in 1945, and then dedicated in 1971 in honor of Senator Joseph Lister Hill, a champion for health care and library legislation.

Lister Hill Library, located at 1700 University Boulevard, provides collaborative and group study space on the first floor and quiet study space on the second floor. Lister Hill Library’s website at www.uab.edu/lister provides 24/7 access to databases, electronic journals, ebooks, LHL Guides, FAQs, and recorded classes and tutorials. Services include consultations for conducting searches, guidance for citing resources, assistance with locating materials, and interlibrary loan services. For more information on resources and services, visit the Lister Hill Library website at www.uab.edu/lister, call (205) 934-2230, or request help by email, text, or chat at www.uab.edu/lister/ask.

The Lister Hill Library at University Hospital, located in the West Pavilion, provides onsite support for education, research, and patient care. Access the resources and services for clinicians through the LHL@UH website at www.uab.edu/lhlUh or call (205) 934-2275 for more information.

The UAB Historical Collections, located on the third floor of Lister Hill Library, includes the Reynolds-Finley Historical Library (http://www.uab.edu/reynolds), UAB Archives (http://www.uab.edu/archives), and the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). The Reynolds-Finley Historical Library contains rare books, pamphlets, and manuscripts in the history of medicine, science, and health-related fields. This collection dates from the mid-14th century to the early 20th century and includes a core of world-renowned medical classics with important concentrations on medicine in the Civil War, the South, and early Americana. UAB Archives is the official repository for the permanent records of the University and for archival collections held by UAB. One collecting area for manuscripts is the history of the health sciences, but the repository preserves collections with a wide variety of topics. The Alabama Museum of the Health Sciences preserves over seven hundred years of medical history with instruments, specimens, equipment, and pharmacology used by health care professionals throughout the world, with a special emphasis on material used on and around the University of Alabama at Birmingham campuses. Please call (205) 934-4475 for more information on the Reynolds-Finley Historical Library (http://www.uab.edu/reynolds) or the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). Call (205) 934-1896 for more information on UAB Archives (http://www.uab.edu/archives).

**Math Learning Lab**

Located on the second floor of Heritage Hall, the Math Learning Lab offers free tutoring in basic and intermediate algebra, pre-calculus algebra and trigonometry, business calculus, finite mathematics, elementary statistics, and calculus I, II, and III. One-on-one tutoring and homework help are available with no appointment necessary.

**Smolian International House**

The Bertha and Joseph Smolian International House, 1600 10th Avenue South, offers services and activities for international students and scholars. Known as the I-House, it provides a focal point for programs and activities designed to foster a free exchange of information and international understanding. The facility includes meeting space for campus groups, as well as community groups having an international purpose. For additional information or a schedule of activities, call (205) 934-3328.

www.uab.edu/students/international

**Student Housing and Residence Life**

Student Housing facilities include a suite-style residence hall, a semi-suite style residence hall, and four apartment-style residence halls. Student Housing is centrally located on campus and is within walking distance of all classroom buildings, libraries, campus dining facilities, the Medical Center, and the Campus Recreation Center and other student recreation facilities.

Student Housing is limited to full-time undergraduate and graduate students who are admitted to UAB and who are in good standing. “Good Standing” means not on academic or disciplinary suspension. A full-time undergraduate student must be registered for at least 12 credit hours and a full-time graduate student must be registered for at least 9 credit hours throughout the entire academic year. The summer term is treated under a separate contract. Students will be required to satisfy these eligibility standards throughout the term of their Student Housing Contract and to inform Student Housing and Residence Life of any changes in his/her status, which may affect his/her eligibility.

Residence Life Coordinators and Resident Assistants (RAs) serve as live-in professional staff and student leaders within the residence halls. The Residence Life Program consists of educational, cultural, recreational, and social events based on the needs and interests of the residents. In addition to planning these programs, trained staff members are available to answer questions, make appropriate referrals, and assist residents with personal or academic problems.

Since housing at UAB is limited, students should apply as early as possible, particularly if on campus housing is desired for the fall semester. Submitting a Housing Application does not guarantee a space for fall. Every effort will be made to inform applicants of availability. Applications should be completed on-line. For first time applicants a $25 non-refundable application fee is due along with a $250 prepayment of the room fees for the fall term. Returning residents are also required to submit a $250 prepayment at the time of application. All Student Housing rooms are assigned on a first come, first served basis.

Any questions or concerns may be directed to studenthousing@uab.edu or by telephone at (205) 996-0400. You can also visit the Student
Housing & Residence Life website for additional information and resources at uab.edu/housing.

The UAB Bookstore
The UAB Bookstore is located at 1400 University Boulevard inside the new Hill Student Center. The bookstore posts official lists of UAB courses and stocks the textbooks and all other items necessary for successful UAB coursework. Most textbooks can be purchased new or used. The option to rent textbooks is also available for most courses. The bookstore carries study aids, reference materials, school and office supplies; medical instruments, lab coats, and scrubs; and the largest assortment of UAB logo apparel and gifts available. Contact the UAB Bookstore at (205) 996-2665 or visit the store online at www.shopuab.com (http://www.shopuab.com)

University Writing Center
Located on the first floor of Mervyn Sterne Library, the University Writing Center (http://www.uab.edu/writingcenter) (UWC) serves as UAB students’ go-to place for writing assistance, whether the task at hand is a Freshman Composition paper, a lab report, or a graduate school application essay. In a friendly and professional one-on-one setting, UWC tutors teach students to use writing to discover, apply, and communicate knowledge in all disciplines. Students commonly visit to get help with understanding a writing assignment; brainstorming ideas; developing outlines and claims; understanding and applying instructor feedback; and revising and editing complete drafts. While UWC tutors do not edit for students, they can help students identify their common errors and develop stronger editing processes.

In addition to one-on-one sessions in the Sterne Library location, the UWC offers online consultations for students enrolled in online courses; Ask-a-Tutor, an email service for short writing questions; and regular workshops on topics of common interest. To make an appointment, visit the UWC’s website (http://www.uab.edu/writingcenter) and log onto the online scheduling system with your Blazer ID and password. Like the UWC’s Facebook (http://www.facebook.com/UABWritingCenter) page and follow the UWC’s Twitter (http://www.twitter.com/UABWritingCntr) page to stay in touch and find out about upcoming workshops.

One Stop
What if you could get answers to your questions about your student account, financial aid and registration all in one place? Stop running from office to office and make the One Stop your first and possibly your only stop! If we can’t help you on the spot, we’ll do the legwork for you or connect you to the appropriate resource.

Contact us by email, phone, or in person.
One Stop Student Services, Room 103 of the Hill Student Center, 1400 University Blvd
onestop@uab.edu
(205) 934-4300, 855-UAB-1STP (822-1787)
8:00 am - 5:00 pm, Monday - Thursday
9:00 am - 5:00 pm, Friday

Information Center
Information regarding programs, services, and activities at UAB is available at the UAB Information Center. Referrals to the appropriate department, office, or person may be made for more specific information. The Information Center is located just inside the 14th Street entrance of the Hill Student Center, 1400 University Blvd. For additional information, call (205) 934-8000, or see the Web page at https://www.uab.edu/studentaffairs/studentcenter/

Disability Support Services
Disability Support Services (DSS), located in the Hill Student Center, serves as the central campus resource for students with disabilities. The goal of DSS is to provide a physically and educationally accessible university environment that ensures an individual is viewed on the basis of ability, not disability. DSS staff members work individually with students to determine appropriate accommodations. To be eligible for services, students need to complete an application, submit documentation of their disability and meet with our counseling staff.
For more information, contact Disability Support Services at (205) 934-4205 (voice) or 934-4248 (TTY) or http://www.uab.edu/students/disability/ Email contacts are welcome at dss@uab.edu.

Physical Address
Hill Student Center
1400 University Boulevard

Mailing Address
UAB One Stop
1400 University Blvd., Hill 103
Birmingham, AL 35294

International Student and Scholar Services
International Student and Scholars Services (ISSS) is committed to providing quality services and programs to retain and support the UAB international community.

ISSS advises foreign students and visiting international faculty and staff in matters of immigration and federal and state taxation, and provides orientation and support programs to facilitate the transition to the UAB and Birmingham community. ISSS also serves as a collaborative resource to facilitate, promote, and strengthen international understanding on campus and throughout the Birmingham community.

International Student and Services also operates the Smolian International House. For additional information, call (205) 934-3328 or visit our Web page at www.uab.edu/international.

Multicultural Scholars Program (MSP)
The Multicultural Scholars Program (MSP) provides special resources and services to better prepare students for options after graduation from UAB, including admission to graduate and first-professional schools or initial entrance into a competitive job market. This multi-faceted program focuses on academic excellence and social development. The program takes students from the freshman year of college to graduation and beyond, which exemplifies the program's motto "each one, reach one." All programs and services are designed to help students ease their transition to college, maximize their college experience, achieve their goals, and prepare for the next phase of their lives. For more information, contact Student Multicultural and Diversity Programs in the Campus Recreation Center room 190, Telephone (205) 934-8225, electronic mail jonesc1@uab.edu or read about our programs and services on the Student Multicultural and Diversity Programs Website, https://www.uab.edu/students/diversity/.

ONE Card
The UAB ONE Card serves as the official student ID and offers access to a variety of services and resources on and around campus. Students use their ONE Card to enter residence halls and the Campus Recreation Center, attend UAB athletic and cultural events and check out materials from UAB libraries. With their ONE Card, students can enjoy discounts on tickets to a wide variety of on and off-campus events through the UAB Ticket Office. The ONE Card also functions as a debit card, allowing students a convenient and secure way to pay for goods and services at a variety of on campus and local area merchant locations.

General information about the UAB ONE Card, including a list of carding locations, is available at www.uab.edu/onecard. Note: A photo ID is required to have your initial ONE Card made. Questions about ONE Card services can be directed to onestop@uab.edu or (205) 934-4300.

Parking
All students who desire to park in UAB student parking facilities must purchase a permit from Parking and Transportation Services. Permits can be purchased by the term or for the full academic year. Fees vary according to lot. Contact Parking and Transportation Services at (205) 934-3513, for details, or visit online at www.uab.edu/parking/.

Both the university and the City of Birmingham issue citations in student lots to vehicles illegally parked or not displaying a proper permit. Students are responsible for paying all fines and fees imposed. Any delinquent ticket payments may be added to the student's account in the Student Accounting Office. If a student accumulates three or more delinquent tickets and/or accumulates more than $45.00 in citations, the student's vehicle may be immobilized or impounded at his or her expense.

Handicapped spaces are conveniently located throughout campus. A valid handicap permit must be displayed to park in a handicapped space in addition to the applicable parking permit. All state issued handicap parking permits MUST be registered with the UAB Parking Office in order to avoid a citation and park in a restricted UAB lot or deck.

For additional information and a campus parking map, contact:

UAB Parking and Transportation Services
608 Eighth Street South • Telephone (205) 934-3513 • E-mail: uabparking@uab.edu • Website: www.uab.edu/parking/

Blazer Express
The UAB Blazer Express Transit System is a service that provides transportation throughout the University campus. With a valid UAB ID badge, students, employees, and authorized visitors can enjoy fare-free bus transportation along 6 designated routes. Buses are ADA-accessible and can seat up to 35 riders. Bus service is provided Monday – Friday from 5:30A – 12:00A. Safety escort service is available through Blazer Express seven days a week from 9:00PM – 5:30 AM by calling (205) 934-8772.

Motorist Assistance Roadside Service (MARS)
Motorist Assistance Roadside Service (MARS) is a free service available to all visitors, students, and employees parking on campus who need help with a dead battery, flat tire, keys locked in a car, or empty gas tank. The service is available weekdays 7:30 AM - 10:00 PM, except University holidays. For assistance, call (205) 975-6277.

Placement Test
The UAB Testing Office provides individual placement testing. Group testing is also available at times and locations listed each term in the UAB Class Schedule. For further information, contact the Testing Office, 936 Building, 936 19th Street South (205) 934-3704.

http://www.uab.edu/testing/

Student Health & Wellness Center
The Student Health & Wellness Center (SHWC) provides a comprehensive and integrated program of services to meet the medical, counseling and wellness needs of UAB’s undergraduate, graduate and professional students. Creating a healthy campus and promoting student wellness are essential to supporting student learning and success. The SHWC is staffed by a group of committed medical providers, counselors, nurses, clinicians, wellness specialists, and support staff who embrace the opportunity to meet your wellness, medical and counseling needs. Those services and resources are available in the new state-of-the-art Student Health & Wellness Center located at 1714 9th Ave. South (LRC building), Birmingham, AL 35294-1270.

Blazer Express has convenient drop-off and pick-up locations near the Student Health & Wellness Center. Patient and client parking is available at the South entrance to the building.

Health Services
Student Health Services offer comprehensive primary care services including acute and chronic care, women’s health, a Registered Dietitian, mental health evaluation and treatment, immunizations, allergy immunotherapy, and treatment of minor emergencies. A Sports Medicine and Sexual Health Clinic are also available, as well as a Certified Athletic Trainer located in the UAB Recreational Center. On-site lab and x-ray services are available. After-hour’s consultation is provided through provider on call coverage, 24 hours a day/7 days a week/365 days a year. To ensure convenience and access, the Health Services operates under an open-access appointment scheduling system. Go to www.uab.edu/studenthealth for more information or to schedule an appointment through our patient portal. You may also call (205) 934-3580 or schedule an appointment through the SHWC website at www.uab.edu/studenthealth.

TRIO Academic Services
Fully funded by the U.S. Department of Education, TRIO Academic Services (Student Support Services) offers assistance to UAB’s degree-seeking undergraduate students who are either first generation college students (neither parent has a bachelor’s degree), are low-income, or have a disability. The program seeks to increase eligible students’ chances of graduating from UAB in four years. Students participate in the program from their entrance to UAB as freshmen or sophomores until graduation.

Intensive services are provided during the freshman and sophomore years; fewer services are provided during the junior and senior years. Services offered include free tutoring from freshman courses through senior courses, workshops to improve study skills, computerized basic skills assistance, computer training and usage, counseling and referral, graduate and professional school admission assistance, and educational and cultural activities. Students also receive a UAB-funded incentive stipend that increases yearly. Student who enter the TRIO program as
freshmen, remain in good standing, and graduate in four years, will be eligible for the largest amount of money. Students are required to be full time and complete a minimum of 27 semester hours with at least a 2.0 grade point average each year. Required developmental courses are counted in these 27 semester hours. Students must maintain eligibility for financial aid if needed and participate fully in needed program services.

Priority acceptance is given to conditionally admitted freshmen who are attending UAB for the first time during fall semester. Limited space is available for freshmen and sophomores who are already attending UAB.

New Participant Applications are available from April 1st to August 25th of each year. An application can be downloaded by clicking on the link below (this link will only be active from April 1st to August 25th) or can be picked up from our office during this time period. Applications are also emailed to newly admitted students accepted to UAB between April 1st and July 1st. The application deadline is August 25th.

Download Trio Academic Services Application

TRIO STEM-H

THE TRIO STEM-H (SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS, AND HEALTH SCIENCES) PROGRAM @ UAB IS AN EDUCATIONAL OPPORTUNITY THAT IS FEDERALLY FUNDED BY THE U. S. DEPARTMENT OF EDUCATION. THE MISSION OF TRIO STEM–H IS TO PROVIDE ACADEMIC AND PERSONAL SUPPORT TO HELP PARTICIPANTS BE SUCCESSFUL AS THEY PURSUE THEIR EDUCATIONAL GOALS AT UAB.

What are the benefits of being in the TRIO STEM-H Program?

• Individualized Guidance: One-on-one assistance to help students make a smooth transition to college, develop goals and create a graduation plan.

• Academic Support: Weekly tutoring sessions and workshops.

• Workshops: Sessions on time management, learning styles, résumé writing etc.

• Financial Advising: Assistance in applying for financial aid (FAFSA), scholarship searches, and financial counseling including help in creating a budget, managing credit, debt and personal finances.

• Career and Academic Guidance: Success Coaching and assistance with academics, including career and educational planning, mentoring, graduate school tours, and career development.

• Resources: Access to textbooks, calculators, reference materials, computers, FREE printing, graduate school prep tests and quiet study space.

• Money: STEM-H Grant-Aid and UAB Stipend.

• Cultural Events: Free cultural events and trips that will broaden horizons and enrich life experiences. Also STEM-H provides opportunities to study abroad.

• Campus Connections: A place to feel connected with others and UAB.

Who Can Participate in TRIO STEM-H?

All classifications selected have an academic need and:

• are first-generation college students (neither parent completed a bachelor’s degree);

• have a documented physical, psychological or learning disability (that may affect their role as a college student), and/or

• have a limited family income (determined by taxable income level and family size)

How do I find out more information? Contact us at sbenjamin@uab.edu 205-934-2729 or visit us in the Hill Student Center, Suite 315.

Director: Brian E. Johnson, Ph.D.

Coordinator: Megan K. Talpash

Contact: www.uab.edu/educationabroad | 205-975-6611

Mission

The mission of the UAB Office of Education Abroad (UABEA) is to administer, establish, and send UAB students on high-quality education abroad opportunities to prepare them for success in the globalized world.

Description

Pursuant to our mission, UABEA engages in the activities described below.

Study Abroad: Take courses for which academic credit is received and transferred to UAB on our supported study abroad programs. This includes academic credit for student exchanges, UAB affiliate programs, and faculty-led programs that feature traditional classes, research, service learning, internships, volunteerism, shadowing, clinical rotation, and observations. Our office can help students with aspects from selecting a program to facilitating their transition back to UAB.

Student Organizations Abroad: Travel abroad as part of a UAB student organization; including Outreach Abroad, Outdoor Pursuits, artistic performances, athletic activities, or other student organization travel. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Student Conference Travel Abroad: Present at or attend a conference that takes place abroad as a UAB representative. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Passport Services: Apply for a passport conveniently on campus. As an official U.S. Department of State Passport Acceptance Facility, we are happy to accept passport applications for students, employees, and members of the community. Our passport service is open to the public.

Destinations

With programs in over 45 different countries, there’s something for everyone. Programs are available in the United Kingdom, Italy, Spain, France, China, Germany, Costa Rica, Australia, Ireland, Japan, and many more countries. Over 40 UABEA programs cost approximately the same as UAB tuition + room + board.
Dates
Programs are available for fall semester, spring semester, academic year, calendar year, summer, Thanksgiving Break, and Spring Break.

Languages
Programs are available in English, as well as all of the foreign languages taught at UAB (and a few that aren't).

Eligibility
To be eligible to apply for our programs, one must:
1. be an enrolled UAB student;
2. be 19 years of age or older (or have parental permission); and
3. be in good academic, disciplinary, and financial standing with UAB.

Some programs have additional eligibility requirements, such as GPA minima, listed on the individual program webpages.

Students may petition to the Director of Education Abroad for a possible exception to the eligibility criteria.

Subjects of Study
Students may take core curriculum courses while abroad, as well as courses for their major and minors. Elective credits are also available.

Course Articulation
Students need to consult with UABEA before studying abroad to initiate course articulation, the process by which UAB course equivalency is determined for each course to be taken while studying abroad. Course articulation involves the student, UABEA, the host study abroad university, and UAB department chairs and advisors all working together and commonly takes approximately one month to complete.

It is highly recommended that the students contact UABEA to begin the course articulation process at least one month before the application deadline for the selected program. Students who don’t begin the articulation process early enough prior to studying abroad, may not know how, or if, their courses abroad will count toward completion of a UAB degree.

Grade Posting
All grades earned while abroad will be posted to the student’s UAB transcript and included in GPA calculations. Letter grades are used rather than pass/fail marks. In all cases, students must participate fully in all course activities and meet all stated course requirements. Auditing of any course abroad is not permitted. The process of grade posting varies depending on the program type:

UAB Exchanges are programs for which UABEA has established an exchange agreement with a university abroad. Students earn direct UAB course credit. Students on exchanges are usually mainstreamed into regular classes with the student body at their university abroad. Courses taken on student exchanges will begin with IN ("International" indicating that the course took place at an international UAB exchange location) and a two-letter subject code such as ME (Mechanical Engineering), GN (German), SP (Spanish), etc. to indicate the subject that was studied. Additionally, each of the courses are numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university. INxx courses are repeatable.

UAB Affiliate Programs are co-organized by UABEA in cooperation with an education abroad provider and/or a foreign university. Students receive a transcript from the foreign university or U.S. university of record and have transfer credit appear on their UAB transcript. UAB affiliate programs include the UAB/USAC and UAB/ISA programs listed here (http://educationabroad.uab.edu/index.cfm?
UAB Testing Office

The UAB Testing Office provides testing services for UAB students, prospective students, and the community at large. The following tests and/or services are available:

- Admissions examinations for undergraduate and graduate programs
- American College Testing Program (ACT)
- Scholastic Aptitude Test (SAT)
- Miller Analogies Test (MAT) (acceptable to some graduate programs)
- College Level Examination Program (CLEP)—General and Subject Examinations
- Correspondence examination monitoring
- Professional licensing/certification/registration examinations

For further information on any of the above, contact the UAB Testing Office, 936 Building, 936 19th Street South, Telephone (205) 934-3704.

UAB Internship/Practicum Courses Abroad are UAB courses through which students do an internship or practicum, actually working abroad in a company or organization related to the student's area of study, and earn direct UAB course credit. For UAB Internship/Practicum Courses Abroad the instructor will assign the final grade as is normally done for any UAB class taught on campus. (See the Grading Policies and Practices (p. 90) section of the UAB Catalog of Undergraduate Programs). UAB Faculty-Led Programs are designated with SA following the course title.

Residency

Courses taken on UAB Exchanges, UAB/USAC programs, UAB/ISA programs, U.S.-UK Fulbright Commission Summer Institutes, U.S. Department of State Critical Language Scholarship Program, Clinton Scholarship at the American University in Dubai, UAB Faculty-Led Programs, and UAB Internship/Practicum Courses Abroad will satisfy the UAB residency requirement. Students need to contact UABEA to ensure their Graduation Planning System records are noted accordingly.

Changes of Grades

Requests for grade changes to UABEA must be accompanied by official documentation sent directly from the host university.

UAB Ticket Office

The UAB Ticket Office is an excellent source for acquiring the best seats to campus events, including performances at the Alys Stephens Center, and UAB Blazers Football and Basketball games. It also serves as the point-of-purchase for events sponsored by the Department of Student Life and other UAB organizations and off-campus agencies. In addition, the UAB Ticket Office offers discounted tickets for Carmike and Regal Cinemas, and to most major theme parks across the southeast, including Six Flags over Georgia, Alabama Splash Adventure and Dollywood. Discounts to the major aquariums in the area are also available including: Georgia Aquarium and Ripley's Aquarium of the Smokies. First-class postage stamps are also available for purchase (UAB internal requisitions are accepted). For additional information, contact the UAB Ticket Office, located inside One Stop Student Services in Room 103 of the Hill Student Center, 1400 University Blvd., Birmingham, AL 35294-1150 Telephone: (205) 934-8000.

Visit our website https://www.uab.edu/students/one-stop/ticket-office

UAB Transfer Center

The UAB Transfer Center assists transfer students throughout the transfer process, from admissions to enrollment. Transfer Center staff evaluate coursework from other colleges and universities, but students can also use the Transfer Equivalency web resource at http://www.uab.edu/students/admissions/credit-equivalencies/transfer to determine how courses may transfer to UAB. For more information, email TransferCenter@uab.edu

Veterans Services

UAB Veterans Services (UAB-VS) assists veterans, reservists, guardsmen, and dependents of disabled or deceased veterans to access their educational benefits. UAB-VS serves as a liaison between the student and the local and federal agencies, including the State Department of Education, Department of Defense, and the Department of Veterans Affairs. The office staff assist students in applying for educational benefits, securing tutorial assistance and obtaining veterans work-study positions. For further information, contact UAB Veterans Services, Hill Student Center, Room 313, 1400 University Blvd., Telephone (205) 996-0404 or read about our programs and services at www.uab.edu/students/veterans

VA Complaint Policy

Any VA Complaint against the school should be routed through the VA GI Bill Feedback System by going to the following link: http://www.benefits.va.gov/GIBILL/Feedback.asp. The VA will then follow up through the appropriate channels to investigate the complaint and resolve it satisfactorily.

Choice Act

The University of Alabama at Birmingham in the State of Alabama complies with section 702 - Tuition under Veteran's Access Choice and Accountability Act of 2015, providing for resident (in-state) tuition and fees for the following:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post 9/11 G.I. Bill), of title 38, United States Code, who lives in the State
Financial Information

Tuition and Fees
Undergraduate Courses
The Detailed Tuition and Fee Schedule is available online https://www.uab.edu/students/paying-for-college/detailed-tuition-and-fees

Estimated Tuition and Fees
To ascertain Tuition and Fees Fee Schedule please visit BlazerNET located online at www.uab.edu/blazernet

Deadlines
Student account payment deadlines are available on the Academic Calendar for each term at http://www.uab.edu/academiccalendar. Students who do not make the initial payment of 100 percent of the total account balance by the first payment deadline will automatically be enrolled in the Blazer Flex Plan which will include a $25 enrollment fee. The Blazer Flex Plan allows students to make payments in three equal installments. Payment deadline dates are available on the Academic Calendar and at http://www.uab.edu/students/paying-for-college/when-to-pay.

Penalties
Students who fail to pay by the deadline are subject to substantial late fees. Students with delinquent accounts will not be allowed to register at UAB, and transcript requests will not be honored until all accounts are paid in full. The list of penalties is available online at http://www.uab.edu/students/paying-for-college/when-to-pay/penalties.

How to Pay
Payments can be made via the web with a Blazer ID and Password at www.uab.edu/blazernet. The One Stop office also has a drop box where checks can be dropped off. Payments can also be made at

Student Accounting Services. All fees are due by the published deadline, as indicated on the UAB Academic Calendar at http://www.uab.edu/academiccalendar. For tuition questions please call Student Accounting Services at (205) 934-3570.

Contact
Student Accounting Services

LHL Ground Floor G10
Birmingham, AL 35294
(205) 934-3570

Withdrawing from Courses
To avoid academic penalty, a student must withdraw from a course by the withdrawal deadline shown in the academic calendar and receive a grade of W (withdrawn). The withdrawal period ends at approximately 75% of the academic term. Failure to attend class does not constitute a formal drop or withdrawal.

 Withdrawal from courses can only be accomplished using official procedures. The official withdrawal must be completed online in BlazerNET. In extraordinary circumstances, if it is impossible for the student to withdraw online the student may mail a withdrawal letter to the Office of the Registrar. The official date of withdrawal will be the date the letter is received in this office. If the official date of withdrawal is after the last day to drop without paying, no tuition or fees will be refunded.

For financial aid purposes, the date of last class attendance will be the official date of withdrawal unless otherwise documented. Note that individual schools may have withdrawal rules in addition to the above.

Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

Exceptions
All students are responsible for adhering to UAB’s academic policies, as published in the UAB Undergraduate Catalog. The Provost may make exceptions to policies. Exceptions will only be made in extraordinary circumstances. Only in cases of serious illness, which precludes a student from attending classes, or a call to active military service, can a student qualify under this policy for either administrative or academic withdrawal from courses from that semester. In such instances, students requesting an exception to policy must provide the cause specific documentation in order for the request to be considered.

Requests are evaluated only from written documentation and not through appointments or telephone calls. Information and forms are available online. (https://www.uab.edu/students/one-stop/policies/exceptions-to-academic-policy/academic-policy-appeal) (Please note that grievances of an academic nature are addressed through the Academic Grievance Policy). Requests for exceptions must be submitted at the earliest possible time. Consideration will not be given to any request submitted later than the term immediately following the term for which the exception is being requested. A full reduction in tuition and associated fees will be made for appropriately documented serious illnesses or military service activation, which preclude a student from continuing his/her studies at UAB. For students receiving refunds, such refunds will first be
applied to any outstanding obligations and to any scholarship, grant, or loan the student has received for that term. A student who is receiving any form of Federal Title IV Financial Aid will be liable for any unearned funds received as determined by the Federal Return of Funds Policy (check with Student Accounting Office (http://financialaffairs.uab.edu/content.asp?id=261145) for details.)

Failure to adhere to the published drop and withdrawal deadlines (as outlined in the UAB Catalog and the UAB Class Schedule) does not qualify under this policy as an Academic Exception.

Contact
Exceptions to Academic Policy • Office of the Registrar • 1605 11th Avenue South • Birmingham, AL 35205 • (205) 934-8228

Financial Aid to Students

Students should apply for financial aid if they need assistance in paying for the cost of education. Students applying for financial aid are considered for all programs for which they are eligible. Assistance generally takes the form of a combination of grant, loan, and employment. The amount of the award is based on the financial need of the student, taking into consideration the student’s total expenses and the family’s financial circumstances. A nationally recognized method of analysis approved by the federal government is used to determine the family’s ability to pay toward the cost of education.

Applying for Financial Aid

Students are encouraged to complete the Free Application for Federal Student Aid (FAFSA) available online at http://fafsa.gov/ in October. The earliest students can submit the FAFSA is October 1, 2016. Instructions and UAB forms are available online at https://www.uab.edu/students/paying-for-college. Since some of the aid programs have limited funding, students are encouraged to submit all required forms to the financial aid office by December 1 for financial aid for the following fall to ensure they receive aid from all programs for which they are eligible. In order to meet the tuition and fee deadlines, completed applications should be submitted no later than 30 days prior to the tuition due date. Students must reapply for financial aid each academic year.

Since procedures and rules are subject to change, students interested in applying for financial aid can receive further information online at www.uab.edu/financialaid.

Financial Aid Programs

Federal Pell Grants

The federal government has allocated funds that currently provide grants up to $5,920 per year for eligible students. All undergraduate students needing financial assistance should apply.

Federal Supplemental Educational Opportunity Grants

Federal Supplemental Educational Opportunity Grants provide assistance for undergraduate students who demonstrate financial need. The maximum annual grant at UAB is $1,500.

Federal College Work-Study Program

Eligible undergraduate and graduate students may work part time and earn money to help pay their educational expenses while attending school. On-campus and off-campus jobs are available in areas related to the student’s educational interests.

Federal Direct Subsidized Loan

The Federal Direct Subsidized Loan is a need-based loan for undergraduate students with a current fixed rate of 3.76%. Repayment begins six months after the student’s enrollment level drops below half time. Annual loan limits are $3,500 for freshmen, $4,500 for sophomores, $5,500 for juniors and seniors. The aggregate limits are $23,000 for dependent undergraduates and $57,500 for independent undergraduates.

Federal Direct Unsubsidized Loan

This is a non-need-based loan with a current fixed rate of 3.76% for undergraduate students. Interest must be paid while the student is in school or must be capitalized as agreed upon by the borrower and lender. Repayment of the principal and any capitalized interest begins when the student’s enrollment status drops below half time. The maximum annual loan amount is the Federal Direct Stafford Loan annual limit minus the student’s amount of eligibility for a Federal Direct Stafford Loan.

Additional Federal Direct Unsubsidized Loan

Independent students or dependent students whose parents cannot borrow under the Federal Direct PLUS Program may borrow $4,000 as freshmen and sophomores, $5,500 as juniors and seniors

Federal Direct Parent Loan for Undergraduate Students

This is a non-need-based loan with a current fixed rate of 6.31%. Repayment of principal and interest begins immediately after the loan has been disbursed. Annual loan limits are the cost of attendance minus other aid.

Scholarships and Merit-Based Awards

Freshmen

To be eligible for a Freshman Academic Scholarship at UAB, Alabama residents must submit their undergraduate admission application and all required documentation (official high school transcript and official
ACT and/or SAT scores by December 1 of their senior year in high school (May 1 for out-of-state residents). Entering freshmen who have their admission documents postmarked by that date are automatically considered for ACT & GPA-based scholarships upon admission to UAB. The December test scores from their senior year will be the last scores considered for scholarship purposes. The examined GPA will be the cumulative GPA at the time of admission. All scholarships are awarded on a first-come, first-served basis to qualified students. Scholarships from specific schools and departments may require additional applications, and their deadlines may be earlier than December 1. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART, UAB's Blazer Scholarship Management and Resource Tool, beginning October 1 of each year at uab.edu/bsmart.

For Alabama Residents

Presidential Recognition Scholarship: Tuition and academic fees for up to 15 credit hours per semester (fall and spring only) with an ACT of 30 or higher and a cumulative GPA of 3.5 or higher.

Collegiate Honors Scholarship: $5,500 with an ACT of 27-29 and a cumulative GPA of 3.5 or higher or an ACT of 30-36 and a cumulative GPA of 3.0-3.49.

UAB Breakthrough Scholarship: $3,000 with an ACT of 24-26 and a cumulative GPA of 3.5 or higher.

UAB Academic Achievement Scholarship: $2,000 with an ACT of 20-23 and a cumulative GPA of 3.5 or higher or an ACT of 24-29 and a cumulative GPA of 3.0-3.49.

For Out-of-State Residents

Blazer Elite Scholarship: $15,000 with an ACT of 30 or higher and a cumulative GPA of 3.5 or higher.

Blazer Gold Scholarship: $12,000 with an ACT of 26-29 and a cumulative GPA of 3.5 or higher.

Blazer Pride Scholarship: $10,000 with an ACT of 24-25 and a cumulative GPA of 3.5 or higher or an ACT of 26-36 and a cumulative GPA of 3.0-3.49.

Blazer Distinction Scholarship: $7,500 with an ACT of 20-23 and a cumulative GPA of 3.5 or higher or an ACT of 24-25 and a cumulative GPA of 3.0-3.49.

For National Merit Finalists and National Hispanic Recognition Program Scholars

Entering freshmen who are recognized as National Merit Finalists or National Hispanic Recognition Program Scholars are eligible to receive the UAB Presidential Scholarship for National Scholars, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 4 years (8 academic semesters). The award also provides a one-year on-campus housing allotment for the freshman year and a one-time technology stipend of $1,000 for the fall semester of the first year. In addition, students will receive a one-time $2,500 stipend to be used for experiential learning (education abroad, internships, co-ops, etc.) To obtain this scholarship, National Merit Finalists must name UAB as their first choice with the National Merit Scholarship Corporation (NMSC). National Hispanic Recognition Program Scholars must send a copy of their notification letter and certificate to scholarships@uab.edu by May 31 of their senior year in high school.

For International Students

UAB International Scholarship: This scholarship, valued at US $5,000 per year, is available to international students who are enrolling as first-year, full-time, degree-seeking students in an undergraduate program at UAB. To be considered, applicants must meet the following requirements: graduate from a secondary or high school outside of the United States, have a minimum grade point average of 3.0/4.0, have not enrolled in post-secondary work, anticipate holding an F-1 visa and currently live outside of the United States. Students must be accepted prior to May 1 for the August intake. The examined GPA will be the cumulative GPA at the time of admission. All scholarships are awarded on a first-come, first-served basis as funds are available and are renewable for a total of 4 years (8 academic semesters). Students who are receiving governmental scholarships or other external support are not eligible to receive this award.

Other Scholarships for which Entering Freshmen May Apply

To apply for additional scholarship opportunities, students must first submit the General Application in BSMART, UAB's Blazer Scholarship Management and Resource Tool, at uab.edu/bsmart. Once the General Application is completed, students will be matched with scholarships for which they may qualify and prompted to answer additional questions, if necessary.

AP Achievement and Recognition Awards for High School Seniors in the Birmingham City School System: Advanced Placement (AP) students who are currently enrolled in 1 of the 7 high schools in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn) may receive 1 of 2 AP Awards. To be considered, students must be admitted to UAB by March 1 of their senior year in high school, complete the Free Application for Federal Student Aid (FAFSA) by March 1, complete a minimum of 2 AP courses, earn grades of B or higher in all AP coursework, and submit an AP Recognition Award Application at uab.edu/bsmart by March 1. (Students must first submit the General Application in BSMART in order to access the AP Recognition Award Application.) Up to 50 applicants may receive a one-time AP Recognition Award of $1,000. Up to 20 applicants who earn a score of 3 or higher on a minimum of 2 subsequent AP exams may have their AP Recognition Award upgraded to an AP Achievement Award, which guarantees that the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid for a total of 4 years (8 academic semesters). The actual value of this award is dependent upon any grants and/or academic scholarships the student has been offered by UAB.

Birmingham City School Scholarship: This renewable award is for entering freshmen who graduate from a high school in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn). This award will annually increase in the following manner, providing a total of $13,500 in scholarship funding over a 4-year period: $3,000 for the first academic year; $3,000 for the second academic year; $3,500 for the third academic year; $4,000 for the fourth academic year. Qualified applicants must be admitted to UAB by May 1 of their senior year in high school and enroll during the fall semester immediately following their high school graduation. A separate scholarship application is not required.

Birmingham News-Clarence B. Hanson, Jr. Scholarship: This renewable award is for incoming freshmen who are residents of Blount, Jefferson, Shelby, St. Clair, or Walker counties in Alabama.
Consideration is based on financial need, leadership and academic achievement. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and have an overall grade point average of 3.0 or higher, submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents. Up to 2 awards will be given each year.

**Charles William Ireland Presidential Honors Scholarship:** This renewable award annually provides $12,000 toward tuition costs and a UAB summer research stipend of $1,000. It also provides an on-campus housing allotment of up to $6,200 each year (fall and spring only). To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Applicants should demonstrate outstanding character and integrity, potential for leadership, and the promise of significant achievement in his or her chosen field. Approximately ten applicants will be selected to participate in an on-campus interview in late February or early March, and one entering freshman will be selected as the Charles William Ireland Scholar. Students must be U.S. citizens or permanent residents to receive this award.

**Dottie Monro Presidential Minority Scholarship:** This renewable award is for incoming freshmen who are minority students. Consideration is based on financial need and academic achievement. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents.

**Energen First Birmingham City Scholarship:** This renewable award is for entering freshmen who are first generation college students and graduates of a high school in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn). Consideration is based on academic promise and achievement. Students must be admitted to UAB by December 1 of their senior year in high school and be U.S. citizens or permanent residents to receive this award.

**Energen First Central Alabama Scholarship:** This renewable award is for entering freshmen who are first generation college students and graduates of a central Alabama high school (limited to the following counties: Autauga, Calhoun, Chambers, Chilton, Chocowh, Cleburne, Dallas, Elmore, Etowah, Green, Hale, Jefferson, Lee, Lowndes, Macon, Marengo, Montgomery, Perry, Pickens, Russell, Shelby, St. Clair, Sumter, Talladega, Tuscaloosa, Walker, and Winston). Consideration is based on academic promise and achievement. Students must be admitted to UAB by December 1 of their senior year in high school and be U.S. citizens or permanent residents to receive this award.

**George G. Seibels, Jr. Scholarship:** This one-year award is available to entering freshmen. Award amounts vary each year, but they typically range from $500-$2,000. To be considered, students must be admitted to an undergraduate program at UAB, complete the General Application in BSMART, and answer the supplemental essay question for the George G. Seibels, Jr. Scholarship by February 1. Consideration is based on leadership potential, solid academic promise, high moral character, and an expressed interest in civic affairs, public service, or patriotic affairs.

To receive this award, students must be U.S. citizens or permanent residents.

**I Am My Brother's Keeper Scholarship:** UAB sponsors a scholarship opportunity for up to 2 entering freshmen who have participated in Birmingham’s I Am My Brother’s Keeper (IAMBK) Leadership Institute. (The institute is not directly affiliated with UAB.) To be considered, students must be admitted to UAB for the upcoming fall semester by March 1 of their senior year in high school, have an ACT composite score of 24 or higher, submit the Free Application for Federal Student Aid (FAFSA) by March 1, and provide documentation from the IAMBK Institute, confirming fulfillment of all the IAMBK requirements. Selected recipients will receive a 4-year award that guarantees the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid.

**International Baccalaureate (IB) Scholarships:** Entering freshmen who are IB Diploma Candidates or IB Diploma Holders may be eligible to receive special scholarship funding. (For the purpose of this scholarship, "Diploma Candidates" are students who are fulfilling all coursework requirements for the IB Diploma, completing the Extended Essay, Creativity, Action and Service, and Theory of Knowledge components.) To be considered, students must be admitted to UAB for the summer or fall term immediately following their high school graduation and submit an IB Diploma Candidate Award Application at uab.edu/bsmart by March 1. (Students must first submit the General Application in BSMART in order to access the IB Diploma Candidate Award Application.) Selected students will initially be awarded the Diploma Candidate amount ($1,000 per year). If they earn the IB Diploma, their awards will automatically be upgraded to the IB Diploma Holder Scholarship ($2,500 per year) after their official IB scores are received.

**Jane Knight Lowe Scholarship:** This renewable award is for entering freshmen who are graduates of a public or private high school in Madison County, Alabama. To be considered, students must be pursuing a degree in a health-related profession, demonstrate solid academic promise, and exhibit financial need, as determined by their FAFSA results. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents.

**Martha Corbin Scholarship:** This renewable scholarship is based on the academic achievements of entering freshmen who are residents of Alabama. To be considered, students must have a 3.0 overall grade point average and be admitted to an undergraduate program at UAB. Students must enroll full-time and be U.S. citizens or permanent residents to receive this award.

**Natalie T. and James A. Garland Educational Assistance Fund:** This one-year award is for children of current, full-time, non-exempt employees of the UAB Women and Infants Center (including nursing and support staff, but excluding executive staff). To be considered, students must be admitted to, or enrolled in, an undergraduate program at UAB and have an overall grade point average of 3.0 or higher. First preference will be given to entering freshmen. Students must be eligible for and certified as a dependent for the UAB Educational Assistance Program in order to receive this award. Preference will be given to students who complete the Free Application for Federal Student Aid (FAFSA) by March 1 and demonstrate financial need, as determined by its results.
Raise UAB Scholarship: Raise.me enables students in the Birmingham City School System to earn micro-scholarships throughout their high school careers based on such criteria as honors classes taken, AP/IB classes taken, extracurricular activities, etc. Raise.me micro-scholarships that have been earned by entering freshmen who are graduating from A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn High School must be submitted to the UAB scholarship administrator via the raise.me (http://www.raise.me) website. Qualified applicants must also be admitted to UAB by May 1 of their senior year in high school and enroll during the fall semester immediately following their high school graduation. For more information, visit the raise.me (http://www.raise.me) website.

Regions Academic Scholarship: This renewable award annually provides $12,500 toward tuition costs and a UAB summer research stipend of $1,000. It also provides an on-campus housing allotment of up to $6,200 each year (fall and spring only). To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Selection is based on outstanding academic achievement and demonstrated leadership ability. Approximately ten applicants will be selected to participate in an on-campus interview in late February or early March, and one entering freshman will be selected as the Regions Academic Scholar. Students must be U.S. citizens or permanent residents to receive this award.

Roberts and Mildred Blount Presidential Endowed Scholarship: This four-year award, which annually provides $5,000 toward tuition costs, is for an outstanding entering freshman who is graduating from an accredited high school in Elmore County, Alabama. To be considered, students must be admitted to an undergraduate program at UAB, have a cumulative GPA of 3.0 or higher, and complete the General Scholarship Application by February 1. Selected candidates will be invited to interview for this award in late February or early March. Students must be enrolled full-time and be U.S. citizens or permanent residents to receive this award.

UAB Presidential Scholarship: A limited number of entering freshmen will be selected to receive this prestigious scholarship, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 4 years (8 academic semesters). The award also provides a one-year on-campus housing allotment for the freshman year. To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Students must be U.S. citizens or permanent residents to receive this award.

UAB SpeakFirst Award: This UAB-sponsored scholarship is for entering freshmen who are selected and certified by the officials of Impact Alabama as having completed the requirements of the SpeakFirst initiative. This 4-year award guarantees that the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid. Up to 4 awards may be made each year. To receive this award, Impact Alabama’s candidates must be admitted to UAB for the upcoming fall semester by May 1 of their senior year in high school with a minimum ACT score of 20 and a cumulative GPA of 2.25 or higher. Students must also complete the Free Application for Federal Student Aid (FAFSA) and be U.S. citizens or permanent residents to receive this award.

W. Ann Reynolds Scholarship: This award is for entering freshmen and current UAB students who are admitted to, or currently enrolled in, an undergraduate degree-seeking program at UAB. Applicants should demonstrate financial need, leadership ability, and academic achievement while earning an overall grade point average of 3.5 or higher by the time of application.

Transfer Students
New students transferring from 2-year community colleges are automatically considered for one of the following Transfer Academic Scholarships upon admission to UAB. All scholarships are awarded on a funds-available basis and are renewable for a total of two years. To be eligible for an academic scholarship, transfer students must be admitted to UAB by March 1 for the upcoming summer or fall semester, have a minimum GPA of 3.5, and be enrolled full-time at your community college during 3 of the 4 semesters immediately preceding the March 1 deadline. If admitted to UAB during the semester immediately preceding the scholarship deadline, students must send an updated, official transcript that contains their fall grades by March 1. International students, part-time students, and students with previous coursework from another 4-year institution will not be considered.

Scholarships from specific schools and departments may require additional applications, and their deadlines may be earlier than March 1. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART. UAB’s Blazer Scholarship Management and Resource Tool, beginning October 1 of each year at uab.edu/bsmart.

Transfer Academic Scholarships

Phi Theta Kappa Scholarship: This two-year scholarship, valued at $3,000 per year, is reserved for transfer students who are members of Phi Theta Kappa (PTK) and have a cumulative GPA of 3.5 or higher based on all transferrable coursework. PT K membership must either be noted on their official college transcript or a letter must be received from their faculty sponsor by the March 1 deadline, confirming membership. Students must be U.S. citizens or permanent residents to receive this award.

UAB Transfer Excellence Scholarship: This two-year scholarship, valued at $1,500 per year, is reserved for transfer students with a cumulative GPA of 3.75 or higher based on all transferrable coursework, who are not members of Phi Theta Kappa.

UAB Transfer Scholarship of Distinction: This two-year scholarship, valued at $1,000 per year, is reserved for transfer students with a cumulative GPA of 3.5-3.74 based on all transferrable coursework, who are not members of Phi Theta Kappa.

Other Scholarships for which Entering Transfer Students May Apply

All-Alabama Academic Team Scholarship: This two-year scholarship, valued at $1,000 per year, is available to entering transfer students who are All-Alabama Academic Team (AAAT) members. To be considered, students must be admitted to UAB for the summer or fall semester that immediately follows the receipt of their AAAT honor. They must also submit the General Application in BSMART, and complete 3 additional questions for the All-Alabama Academic Team (AAAT) Scholarship, 1 of which requires them to upload their AAAT letter from the Alabama Community College System. The deadline for completing the scholarship application is February 1.
Transfer Presidential Scholarship: A limited number of entering transfer students will be selected to receive this prestigious scholarship, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 2 years (4 academic semesters). Students must be recommended to the UAB Scholarship Committee by one of the following community colleges: Bevill State, Gadsden State, Jefferson State, Lawson State, or Wallace State-Hanceville. To be considered, students must be admitted to UAB by March 1 for the upcoming summer or fall semester with a cumulative GPA of 3.5 or higher based on all transferrable coursework. Students must also earn an associate’s degree at the end of the spring semester that immediately precedes their term of enrollment at UAB, and they cannot have earned credit from a four-year institution, unless they did so while enrolled in high school. Students must be Alabama residents and U.S. citizens or permanent residents to receive this award. (Please note: This scholarship cannot be stacked on top of the Phi Theta Kappa, Transfer Excellence, Transfer Scholarship of Distinction, Joint Admission, or UAB All-Alabama Academic Team Scholarships.)

UAB Joint Admission Scholarship: This two-year scholarship, valued at $2,000 per year, is reserved for students who participate in the Joint Admission Program at one of our partner community colleges. To be eligible, students must be continuously enrolled at a partner community college for a minimum of one year, fulfill all requirements of the Joint Admission Program, earn a non-technical associate's degree with a minimum GPA of 3.0 based on all transferrable coursework, and submit final and official transcript(s) to UAB by the following deadline:

- Spring graduates: June 15th
- Summer graduates: September 15th
- Fall graduates: January 15th

Current UAB Students

To apply for scholarship opportunities, currently enrolled students must first submit the General Application in BSMART, UAB’s Blazer Scholarship Management and Resource Tool, at uab.edu/bsmart beginning October 1 each year. Once the General Application is completed, students will be matched with scholarships for which they may qualify and prompted to answer additional questions, if necessary. All applications and supporting documentation must be submitted by 11:59pm (CST) on February 1. Most scholarship decisions are made in the spring term and will go into effect the following academic year.

Scholarships from specific schools and departments may require additional applications, and their deadlines may vary. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART.

Scholarships for Current UAB Students

Academic Affairs Scholarship: Selection for this renewable award is based on the financial need and academic achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have earned a 3.25 cumulative UAB grade point average and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Joseph F. Volker Memorial Scholarship: A one-time scholarship based on the academic achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have an academic record of excellence and demonstrate a commitment to public service within African American communities either in the Birmingham metropolitan area or in the state of Alabama. Public service should be performed while the student is enrolled at The University of Alabama at Birmingham. Students must be U.S. citizens or permanent residents to receive this award.
overall grade point average of 3.0 or higher and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Mary Elizabeth Adams Endowed Scholarship: This one-year award is based on the academic achievements, financial need, and extracurricular activities of current UAB students who self-identify as having type 1 diabetes. To be considered, applicants must have earned at least an overall 3.5 grade point average, earned at least a 25 on the ACT (or an equivalent score on the SAT) and demonstrated leadership ability and achievement in previous pursuits, whether of a scholastic or extracurricular nature. Students must also be an Alabama resident and a U.S. citizen or permanent resident to receive this award. Preference will be given to students who plan to pursue a degree in the sciences, or who have declared a pre-medicine major.

Nellie Whitworth Flaherty and Lula McCord Whitworth Endowed Scholarship: A one-year scholarship based on the academic achievements of current female UAB students who have been or are in the workforce and are returning to school to complete their education on either a part-time or full-time basis. To be considered, students must have at least an overall grade point average of 2.5 or higher, demonstrate financial need and be admitted to a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Samuel Ullman Scholarship: This renewable scholarship is based on the leadership, academic and individual achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have earned at least a 3.0 grade point average and be admitted to a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

The Alliance for LGBTQ Equality at UAB Scholarship: To be considered for this award, students must be currently enrolled in, or admitted to, a degree-granting program at UAB and demonstrate solid academic promise and achievement, earning at least a 3.0 grade point average in any coursework completed prior to the time of application. Preference will be given to applicants who can demonstrate service to the Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) community. Applicants are evaluated on the totality of their situation: academic achievement, financial need, demonstrated service to the LGBTQ community, demonstrated leadership skills, and present and future goals.

The Howlin' Mad Smith Detachment of the Marine Corps League Sponsored Scholarship: This scholarship is based on the academic achievement of current full-time UAB students who are current or former members of the U.S. Marine Corps. To be considered, students must demonstrate leadership in their community, have a cumulative UAB grade point average of 2.5 or higher and be enrolled in a regular degree-granting program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

UAB Affinity Cardholders Scholarship: Selection for this one-year award is based on the financial need, academic achievement, and extracurricular activities of current UAB students. To be considered, students must have earned at least a 2.5 cumulative UAB grade point average and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

UAB General Scholarship: A one-year award based on the financial need, academic achievements, and extracurricular activities of current full-time UAB students. To be considered, students must have achieved an overall 3.5 grade point average (on a 4.0 scale) in any coursework completed prior to the time of application.

UAB Leadership Council Scholarship: A one-year award based on the academic achievement and extracurricular activities of current full-time UAB students who are residents of the Birmingham Metropolitan Statistical Area. To be considered, students must have a cumulative UAB grade point average of 3.0 or higher, have completed a minimum of 60 semester hours of course work by the time the award is received, and be enrolled in a regular undergraduate program at UAB. Students must be enrolled full-time and be a U.S. citizen or permanent resident to receive this award.

UAB Women's Club Scholarship: A one-time award reserved for deserving female students who are working to overcome financial hardships to further their education at UAB. Applicants must be currently enrolled, full-time or part-time, in an undergraduate program at UAB. Selection is based on communication skills, career goals and commitment to your major field. Prior consideration is given to undergraduate students with the greatest number of UAB hours and a cumulative UAB GPA of 3.0 or higher.

Vettes-4-Vets Endowed Scholarship: This scholarship is an award based on the academic achievement, leadership, and community involvement of students who are currently enrolled in, or admitted to, a degree-granting program at UAB and must be current or former members of a branch of the United States Military. To be considered, students should have earned at least a 2.5 cumulative UAB grade point average (on a 4.0 scale) in any coursework completed prior to the time of application.

Virginia and Anna Praytor Scholarship: A renewable scholarship that is based on the academic achievements of current UAB students who are graduates of a high school in the Birmingham Public School System. To be considered, students must have earned at least a 3.0 cumulative UAB grade point average. Students must be U.S. citizens or permanent residents to receive this award.

W. Ann Reynolds Endowed Presidential Scholarship: This scholarship is awarded to entering freshmen and current UAB students who are admitted to, or currently enrolled in, an undergraduate degree-seeking program at UAB. Applicants should demonstrate financial need, leadership ability, and academic achievement while earning at least an overall 3.5 grade point average by the time of application.

Program-Related Scholarships

The following are Honors College and Honors College Program-Related Scholarships. Please contact the Honors College or individual program listed for more information on the application process.

Honors College:

Britt and Susan Sexton Endowed Honors Scholarship: Applicants must be in a degree-granting program through the Honors College. Preference given to first year undergraduate students. Applicants should show solid academic promise and have earned a 3.5 grade point average. Applicants should also display a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have passionately explored these pursuits. Preference will also be given
to those with fervor for community involvement and service-related volunteer activities.

Woman’s Club House of the Third District of the Alabama Federation of Women’s Clubs, Inc., Endowed Honors Scholarship: Applicants must be in a degree-granting program through the Honors College. Preference given to first-year, female students. Applicants should show solid academic promise and have earned a 3.5 grade point average. This award is based on merit and need; however, applicants do not have to qualify for federal financial assistance to be considered. Applicants should also display a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have passionately explored these pursuits. Preference will also be given to those with a fervor for community involvement and service-related volunteer activities.

Edith and Franklyn Zimmerman Endowed Honors Scholarship: Applicants must be in a baccalaureate degree-granting program through the Honors College. Preference given to first-year undergraduate students. Applicants should demonstrate solid academic promise and achievement and have earned at least an overall 3.5 (on a 4.0 scale) grade point average in coursework completed prior to the time of application and have earned a score of at least 25 on the ACT or an equivalent score on the SAT. Applicants should also demonstrate leadership ability and achievement in previous pursuits, whether of a scholastic or extracurricular nature.

University Honors Program (UHP):

Boman-Powell Student Travel Award: Established by Daphne and Richard Powell in honor of their mothers to enable students in the University Honors Program to travel to regional and national conferences or for education abroad. This fund allows UHP students to expand their educational experience through travel that would not otherwise be possible because of financial constraints. There is no formal application form, but any UHP student may apply by contacting the UHP Director and providing Documentation of the program/conference and costs associated with participation.

Hess-Abroms Honors Scholarship Endowment: Applicants must be in the University Honors Program. This four-year scholarship is typically awarded to incoming freshmen accepted to the University Honors Program. Applicants should demonstrate superior academic achievement (as reflected in grades, test scores, and class rank), creativity or talent (as in the sciences, fine arts, leadership, or independent study), strong motivation, exemplary character, and intellectual promise. All applicants for the University Honors Program are encouraged to apply for this scholarship. Applications due mid-February.

Steven C. Smith Discovery Award: Applicants must be currently enrolled in, or admitted to, a degree-granting program at UAB and accepted to the University Honors Program. First preference will be given to entering first-year students in the program. Applicants should demonstrate solid academic promise and achievement and have earned at least a 3.0 grade point average in any coursework completed prior to the time of application. The award of this scholarship will be based on both merit and need. Applicants should show interest in a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have a passion for exploring these pursuits as avenues of opportunity present themselves. Preference will also be given to applicants with a fervor for community involvement, particularly service-related volunteer activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

William J. Rushton III/Alabama Power Foundation Scholarship Endowment: Applicants must be incoming or current members of the University Honors Program in good standing and be residents of Alabama. This award is based on merit and need. Applicants should have a strong academic background, a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

William M. Spencer III Endowed Honors Scholarship: Applicants must be admitted to or be current members of the University Honors Program. This program is based on merit and need. Applicants should have a strong academic background and a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

Juliet Nunn Pearson Scholarship: Applicants must be entering UAB freshmen admitted to the University Honors Program. Preferences are given to non-traditional students, pre-professional students, and/or minority students. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

Nelson and Maye Hill Honors Fund: Applicant must be a student in the University Honors Program and be accepted to an academic Study Abroad program. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to the academic and extracurricular activities of the University Honors Program. No application deadline.

Science and Technology Honors Program (STHP):

Wells Fargo Scholars Program: Applicants must be enrolled in the Science and Technology Honors Program and have at least a 3.0 GPA. Preference is given to students with unmet financial need who are from groups underrepresented in their field of study. The award is based on merit and need, but applicants do not have to apply for federal financial assistance to be considered. This program awards 4-year scholarships to STHP students with strong academic backgrounds who have a desire to pursue a research career. The award is for underrepresented minorities and females majoring in Chemistry, Engineering, Math, and Computer Science. An application and interview are required for consideration. The
application process typically opens in December of each year and closes in January.

Wells Fargo Summer Scholars Academic Enrichment Awards: This program awards scholarships of up to $2,500 to current STHP students. These competitive, merit-based awards are used to support summer research and academic activities. A call for applications for each scholarship opportunity will be announced to all current students each year (typically in late February) along with the application instructions and deadlines (typically mid-March).

Student Academic Engagement Education Abroad

Pushpamala Deosthale Scholarship for Study Abroad: This scholarship, established in 1999, was named in the memory of Ms. Pushpamala Deosthale and was established by contributions coming in part from her son, Dr. Duleep C. Deosthale, a former director of a predecessor office to UAB Education Abroad. This scholarship awards funds to be used for tuition and fees for a UAB Education Abroad-approved fall or spring program.

Dr. John Downey Jones Scholarship for Study Abroad: This scholarship, established in 1993, was named in the honor of Dr. John Downey Jones, Jr., a former director of a predecessor office to UAB Education Abroad. This scholarship awards funds to be used for tuition and fees for a UAB Education Abroad-approved fall or spring program.

For more information, including eligibility and application instructions, visit www.uab.edu/educationabroad.

ROTC

Kelly Ingram VFW Post 668 Distinguished Army ROTC Cadet Scholarship: Non-renewable Award to the most outstanding student selected from among the incoming senior class of ROTC. Applicants must have a 3.0 GPA. Determined by the Army ROTC program and the Office for Student Financial Aid.

College and School Scholarships

College of Arts & Sciences

The UAB College of Arts and Sciences offers over 50 scholarships. In order to be considered for a scholarship you must have a declared College of Arts and Sciences major and submit a scholarship application. While most of these scholarships require you to already be enrolled in the College, there are some awards available for incoming students. Important information, including the application process, eligibility requirements, and deadlines, are available on the UAB College of Arts and Sciences website: http://www.uab.edu/cas/home/scholarships

In addition some departments offer their own scholarships. If you are interested in a scholarship or award offered by a specific department, please visit its website for more information.

Art and Art History

For More Information, Please contact the Department of Art and Art History (205) 934-4941.

**Phillips Scholarship in English:** This annual award is reserved for junior English majors with a GPA of 3.0 or better.

**Grace Lindsley Waits Scholarship:** This annual award is reserved for junior English majors with a GPA of 3.0 or better.

**Government**
*For More Information, Please Contact the Department of Government (205) 934-8674.*

**Voytek Zubek Memorial Endowed Scholarship:** This scholarship is open to students currently enrolled in the Department of Government in the College of Arts and Sciences, and they must be Political Science majors. The scholarship recipient must have demonstrated solid academic promise and leadership qualities, and have at least an overall 3.0 grade point average and a 3.3 grade point average in Political Science.

**Justice Sciences**
*For More Information, Please Contact the Department of Justice Sciences (205) 934-2069.*
**Justice T. Eric Embry Scholarship:** Applicants for this scholarship must be enrolled in, or admitted to, the Master of Science in Forensic Science (MSFS) program and have earned at least a 3.0 GPA in coursework completed prior to the time of application. The number and amount of the awards to be granted from this scholarship fund shall be left to the discretion of the scholarship committee and based on the spendable income earned.

**Pre Law Advisory Board Scholarship:** To be eligible the student must demonstrate solid academic credentials and be involved with the UAB undergraduate Pre-Law Program and/or Mock Trial Team as well as maintain a 3.0 minimum grade point average.

**Mathematics**

*For More Information, Please Contact the Department of Mathematics* (205) 934-2154.

**Robert M. Kauffman Memorial Endowed Award Fund:** This award may be given for cumulative achievement for an individual’s outstanding work. Work done outside of the normal curriculum, such as projects and contributions to seminars, may also be considered. Preference is given to students who demonstrate outstanding ability, potential and interest in pursuing studies in Mathematics.

**Travis Wood Memorial Mathematics Scholarship:** Applicants must be currently enrolled as Mathematics majors and have completed Calculus III. Candidates must have a 3.0 GPA overall and in their mathematics courses. Preference will be given to full-time undergraduates with dependent(s) who are in need of financial aid. Special consideration is given to mature candidates who have suffered an interruption in their education.

**Mathematics Fast Track Scholarships:** Students in this program are expected to complete both a BS and Master’s degree in mathematics. Many students do this in four years. Freshmen must be able to start in Calculus I. All students must maintain a 3.5 GPA in mathematics courses. The program provides for office space, support to attend mathematical meetings, participation in a seminar and individual weekly meetings with a faculty member.

**O’Neil Endowed Scholarship in Mathematics:** Applicants must be currently enrolled, or admitted to, UAB with the declared intent to pursue a major in mathematics. Applicants should demonstrate academic promise and have earned at least a 3.0 grade point average in coursework completed prior to application. Preference will be given to applicants who demonstrate outstanding ability, potential and interest in pursuing studies in mathematics.

**James C. and Carol Warner Endowed Scholarship:** First preference will be given to entering first-year students. Applicants should demonstrate solid academic promise and have an overall 3.0 GPA completed prior to application.

**Music**

*For More Information, Please Contact the Department of Music* (205) 934-7376.

**Band Scholarships:** Students are required to participate in various ensembles as determined by the director(s). Open to students of all disciplines.

**Choral Scholarships:** Students are required to participate in various ensembles as determined by the director(s). Open to students of all disciplines.

**James Darrell McAnnally Piano Scholarship:** For a music major in piano performance.

**Music Technology Scholarships:** Scholarships are available for students majoring in Music Technology.

**Myrtle Jones Steele Piano Scholarship Endowment:** For music majors in piano performance.

**Alys Robinson Stephens Alumni Scholarship for the Performing Arts:** For a music major in any instrument or voice.

**Physic**

*For More Information, Please visit http://www.uab.edu/cas/home/scholarships.*

**Robert and Edith Bauman Endowed Scholarship in Physics:** Applicants must be currently enrolled in, or admitted to, a degree-granting program in the Department of Physics at UAB. Applicants should demonstrate academic promise and have earned at least a 3.0 grade point average in coursework completed prior to application. This is an annual award. Although preference will be given to entering first-year students, recipients of the scholarship may apply for the award in subsequent years.

**Psychology**

*For More Information, Please visit http://www.uab.edu/cas/home/scholarships.*

**The Passey Psychology Prize Endowment:** The Passey Psychology Prize Endowment goes to the student who is judged to have shown the best overall level of accomplishment in psychology – both in terms of course grades and also research and other department activities.

**Sociology and Social Work**

*For More Information, Please Contact the Department of Sociology and Social Work* (205) 934-3307.

**Ferris S. and Annie Pharo Ritchey Endowed Scholarship in Sociology:** Applicants must be deserving undergraduate students in the Department of Sociology. This scholarship was named by Dr. Ferris Ritchey, former Chair and faculty member in the Department of Sociology, and his family in memory of grandparents.

**Theatre**

*For More Information, Please Contact the Department of Theatre* (205) 934-3236.

**Ruby Lloyd Apsey Scholarships:** These scholarships are awarded annually and are renewable for promising students majoring in theatre.
Fannie Flagg/Kathy Waites Endowed Scholarship: Applicant must be a deserving student majoring in dance or Theatre Arts at UAB.

David Lloyd Memorial Scholarship Endowment: These scholarships are awarded annually and are renewable for outstanding students majoring in theatre.

William C. Ozier Memorial Scholarship: Applicants must be residents of Alabama. Applicants must show financial need and demonstrate talent in theatre arts.

College Wide Scholarships

For More Information, please visit http://www.uab.edu/cas/home/scholarships.

College of Arts and Sciences Dean's Scholarship: Applicants must be currently enrolled in a degree-granting program in the College of Arts and Sciences. Applicants should demonstrate leadership qualities and academic promise and have earned at least a 3.0 grade point average in coursework completed prior to application. This is an annual award. Recipients of the scholarship may not apply for the award in subsequent years.

Edward H. Atchison Endowment Fund for Scholarships in the Visual and Performing Arts: A four-year scholarship which covers full tuition and fees for an undergraduate student enrolled in a full-time program in the Visual and Performing Arts or for undergraduate students enrolled in the School of Education's Art Education or Music Education Programs. Students must maintain a 2.5 overall grade point average.

Gladys Davies and George F. Brockman IV Endowed Scholarship: Applicants must be currently enrolled in a degree-granting program in the Departments of Biology, Chemistry, Computer and Information Sciences, Mathematics or Physics. Applicants should demonstrate academic promise and have earned at least a 3.0 grade point average in coursework completed prior to application.

The God at the Speed of Light Endowed Scholarship: Applicants must be currently enrolled, or admitted to, a degree-granting program in the Departments of Biology, Chemistry, Computer and Information Sciences, Mathematics or Physics. Applicants should demonstrate academic promise and have earned at least a 2.5 grade point average in coursework completed prior to application. Preference will be given to applicants who are deserving of financial assistance. This is an annual award and recipients may apply for the award in subsequent years. Applicants must be residents of Alabama.

Lauren McLellan Sanders Endowed Scholarship: The Sanders Scholarship is open to students currently enrolled in the Departments of Government, History, Anthropology, Justice Sciences, Psychology and Sociology and Social Work who have demonstrated solid academic promise and have at least an overall 3.0 grade point average. The Lauren McLellan Sanders Scholarship is an annual award. Recipients of the scholarship may apply for the award in subsequent years.

Jane White Mulkin Endowed Scholarship: This scholarship is awarded annually to a student enrolled in, or admitted to the Departments of Art and Art History, Communication Studies, English, Foreign Languages and Literatures, Music, Philosophy or Theatre. Preference given to applicants in need of financial assistance, particularly non-traditional students who are attending school while working. Applicants must be residents of Alabama.

NASA-Alabama Space Grant Program Scholarships: Scholarships are available to science and engineering students through the NASA-Alabama Space Grant Program. Apply through the Department of Physics.

National Alumni Society Dean's Scholarship: The National Alumni Society Dean’s Scholarship is a college-wide scholarship and is open to students currently enrolled in or admitted to a degree-granting program in the College of Arts and Sciences who have demonstrated solid academic promise and leadership qualities, and have at least an overall 3.0 grade point average.

Tennant and Susan McWilliams Endowed Scholarship: This fund provides scholarship support to students currently enrolled in the Departments of Government, History and Anthropology, Justice Sciences, Psychology and Sociology and Social Work.

School of Education Scholarships

All Scholarships and Awards are for students in good standing and pursuing degrees from the School of Education. Other stipulations and requirements are noted with each Award or Scholarship listing.

Dr. Lydia L. Alexander Endowed Student Award in Education

Dr. Lydia L. Alexander was a long-time faculty member and served six years as Assistant Dean in the School of Education. She retired in 1998, but continues to work in and give back to the community through Alpha Kappa Alpha sorority and other charitable organizations. Dr. Alexander received the Lifetime Achiever award from the Oliver Robinson Foundation in 2012 and remains an ardent proponent of quality education.

Criteria:

- Applicant must be a Junior or Senior student seeking a degree in Secondary Education from the School.

Beta Chi ESG Clint Bruess Health Education Scholarship

In 2009 and in recognition of his long years of service to UAB and the School of Education, the Eta Sigma Gamma Beta Chi chapter Executive Board at UAB established this Scholarship in honor of Dr. Clint E. Bruess. Dr. Bruess was a School faculty member, and served as Chair of the Department of Human Studies from 1981 through 1987 and subsequently as Dean of the School of Education from 1988 until 1999.

Criteria:

- Applicants must be pursuing a degree in a Health Education-related major.
- Applicants should demonstrate solid academic promise and have earned at least a 3.3 grade point average.
- Preference will be given to members of the Beta Chi Chapter of Eta Sigma Gamma.

The Catharine Comer Friend Endowed Scholarship

Catharine Comer Friend was very active in the Birmingham community, serving as Executive Director of the Birmingham Kiwanis Club and Chair of the International Association of Kiwanis Secretaries, and was a
Criteria:

• Preference will be given to students who wish to teach in schools that serve predominantly disadvantaged students and/or in an urban setting in Alabama.
• Applicants should have earned at least an overall 3.0 GPA (based on a 4.0 scale) in coursework prior to the time of application.
• Preference will be given to those deserving financial assistance as determined by the UAB Office of Student Financial Aid.

The Early Childhood Education Graduate Student Award

A thoughtful donor and friend of the UAB School of Education has created an award to assist deserving students who are enrolled in the UAB School of Education Early Childhood Education program.

Criteria:

• Applicants must be enrolled in or admitted to a graduate degree-granting program in Early Childhood Education.
• Preference will be given to students pursuing a doctoral degree.
• The Award is not renewable.

The Layla Ghabayen Education Scholarship

Layla Ghabayen was an education major at the UAB School of Education. She was involved in a fatal auto accident in 2010, and her loving parents, Waleed and Cynthia Ghabayen, and family wanted a way to keep her spirit alive and create a lasting tribute to her and the joy she derived from helping others learn. The oldest of four, Ms. Ghabayen was industrious, intelligent, enthusiastic, curious, and committed to working with children – her dream was to be a teacher and mother. Each year, a student recipient is chosen who best exemplifies the selfless and energetic qualities of Ms. Ghabayen.

Criteria:

• Applicants must be enrolled in or admitted to the Early Childhood Education/Elementary Education Program in the School.
• Applicants should have at least a 3.0 GPA.

The Virginia Horns-Marsh Scholarship

Dr. Virginia Horns-Marsh began her UAB career in 1969, when the University was first designated as an autonomous institution. She worked tirelessly to promote early childhood education and served as the Director of the School’s Early Childhood Education Program, Early Childhood Education Doctoral Program and Metropolitan Education Studies, as Chair of the Department of Curriculum and Instruction. A gift from Dr. Horns-Marsh and gifts from family, friends and colleagues created this Scholarship to provide opportunities for success to future Early Childhood Educator candidates.

Criteria:

• Preference will be given to students enrolled in Early Childhood Education and Development of Health Education/Health Promotion in the School.
• In the absence of such applicant, consideration may be given to exceptional doctoral students in the School of Education, then exceptional graduate students in Early Childhood Education, Elementary Education or Secondary Education.
• Recipients must maintain a 3.0 GPA in all coursework.

The Dr. Delbert H. and Dr. Roberta Long School of Education Endowed Scholarship

As long-time UAB faculty, Dr Delbert Long and Dr. Roberta Long distinguished themselves by their commitment to educating future teachers and education administrators. Before coming to UAB, Doctors Long taught in Nepal, Indonesia, Czechoslovakia and Germany, among other places, sharing their love of learning and passion for education. They created this Scholarship in order to make access to an education degree easier for students and thereby fostering opportunities to train quality teachers for future generations.

Criteria:

• Applicants must be an undergraduate enrolled in or admitted to TEP;
• In the absence of such an applicant, consideration may be given to students enrolled in the Alternative Master’s Program.
• Recipients must maintain a 3.0 GPA.
• Applicants must demonstrate a successful work and/or leadership experience.
• Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.

The Artie Manning Memorial Scholarship

Artie Manning was a unique young man with a special blend of skills and empathy for individuals, particularly children, who faced physical and learning challenges. Artie had cerebral palsy but didn’t let that hinder his interest in and love for athletics, and managed the Lady Blazers basketball team and worked at the Blazers’ summer basketball camps while working on his master’s degree in special education. After graduation, he taught special education at Barrett Elementary School until his death in 1991. What Artie wanted most in life was to serve people, and this scholarship, created by family in his memory, helps preserve that passion.

Criteria:

• Applicants must be learning and/or physically challenged.
• In the absence of such applicants, recipients must be preparing to teach learning and/or physically challenged individuals.
• Recipients must be accepted into TEP or a degree-seeking education program in the graduate school of the School of Education.
• Candidates must be full-time and have completed 24 hours (undergraduate) or 18 hours (graduate)
• Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.

The Maryann Manning Endowed Literacy Scholarship

Upon Dr. Maryann Manning’s retirement from UAB, friends, colleagues and admirers created this scholarship as a tribute to her many years of service and passion to enhance literacy learning around the world.

Criteria:
The Frances M. Owens Endowed Scholarship

A native of Birmingham and UAB alumna, Frances M Owens taught English and social studies at Mountain Brook Junior High School. She is a member of the UAB National Alumni Society and remains a faithful supporter of many programs across the UAB campus. Mrs. Owens created this Scholarship to provide assistance and greater opportunity to those diagnosed with ADD/ADHD become educators, and thereby better serve and positively impact students in our K-12 school systems.

Criteria:

- Preference will be given to entering freshmen students with ADD/ADHD registered through UAB Disability Support Service.
- Applicants must be a full-time undergraduate student.

Dr. Mabel C. Robinson Memorial Endowed Scholarship

This Scholarship was created by the friends and family of Dr. Mabel C. Robinson, and in tribute to her life-long work in physical and health education. Dr. Robinson spent her life advocating for greater opportunities for girls and women in athletics and physical and health education. Her efforts were assisted by passage of Title IX legislation and by the health and wellness and education faculty at UAB. This Scholarship will help foster opportunities for students to earn a degree from UAB and be better prepared to enter the profession.

Criteria:

- Applicants must be pursuing an undergraduate degree in health or exercise education-related degrees.
- Preference shall be given to females.

The Mildred, Mack & Blanche Stewart Teacher Education Endowed Scholarship

Mildred Stewart Snipes was the first elementary guidance counselor in the Jefferson County Public School System, working 36 years at Gardendale Elementary School. Her firm belief when women have access to education, their cultural influence will permeate their families as well as the children they teach. Mrs. Snipes created this scholarship to create opportunities to assist students in becoming strong, passionate and well-trained educators who will positively impact students’ lives. The Scholarship was created as a memorial to her parents Mack and Blanche Stewart who fostered a love of learning and sense of giving back to the community.

Criteria:

- Applicants must have graduated from the Jefferson County Public School System, or Spain Park, Leeds, Hewitt-Trussville, or any high school in Bibb, Blount, Cullman, St. Clair, Shelby, Tuscaloosa or Walker Counties.
- Preference will be given to entering freshman
- If no freshmen apply, consideration may be given to transfer students from community colleges that attended previously mentioned schools.
- Applicants must maintain a 3.0 GPA.
- Applicants who are transfer students from a community college must apply and be accepted into TEP and be seeking certification from the State Department of Education.

The Ruth M. Strong Scholarship

Dr. Ruth M. Strong spent her professional life helping children find a brighter tomorrow. She began her teaching career at McCaw Elementary School, where she implemented a reading program which grew into the Birmingham City Schools Right-to-Read Program. She was named Director of this reading initiative. She also served as Program Specialist for Reading, Director of the Magnet School Program, and Assistant Superintendent for Instruction for the Birmingham City School System.
This Scholarship is provided annually by a generous gift from Dr. Strong, and supports a student who will carry forward Dr. Strong’s proud legacy.

Criteria:
- Applicants must be accepted in the TEP as an undergraduate
- In the absence of undergraduate candidates, students accepted into the Alternative Master’s Program may be considered.
- Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.
- Preference will be given to underrepresented, low-income and minority students.

**The Tevendale Family Scholarship**

Jackie and William Alan “Bill” Tevendale are long-time supporters of education and educational opportunities in the greater Birmingham area. Both remain active volunteers, and Mr. Tevendale was the first Alabamian recognized with the National Operation School Bell Award by the Assistance League. The entire Tevendale family equally values educational opportunities, and with this Scholarship intends to create opportunity for future educators who will, in turn, leave a positive impact on the community.

Criteria:
- Recipient must maintain a 3.0 GPA.
- Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.
- Preference will be given to first generation college students.
- Preference will be given to students who are active in their communities, including the UAB community.

**School of Education Alumni Scholarship**

This Scholarship is provided annually through the generosity of School of Education alumni and friends who contribute to the School’s Scholarship efforts and/or Area of Greatest Need.

Criteria:
- Recipients must maintain a 3.0 GPA.
- Preference will be given to those who show financial need as determined by UAB Office of Student Financial Aid.

**Glenda R. Elliott Endowed Scholarship**

The Glenda R. Elliott Endowed Scholarship was created by faculty in the Counselor Education Program in the School of Education and members of the UAB Zeta Chapter of Chi Sigma Iota in honor and tribute to her and her years of service to UAB. Dr. Elliott is a licensed professional counselor, certified counselor supervisor, and has more than 40 years of experience as a counselor educator. She retired from UAB in 1994, is adjunct faculty for the Counselor Education Program, and Associate Professor Emerita.

Criteria:
- Applicants must be enrolled in the counselor education program as graduate students.

**The Joyce G. Sibley Educational Computing Award**

Dr. Joyce Sibley and her husband Dr. William Sibley have long supported educational opportunities for students. Knowing that learners benefit greatly when using the right tools, Dr. Sibley wanted to put a computer into the hands of an outstanding future teacher. This Award provides a desktop, tablet, or other personal computer for a deserving student.

Criteria:
- Preference is given to students that do not own a computer.
- Applicants must be a junior or senior admitted to the teacher education program.
- In the absence of such applicants, students admitted to the Alternative Master’s Program may be considered.
- Recipients must maintain a 3.25 GPA.

**Jack Tribble Scholarship**

Mr. Jack Tribble was an ardent supporter of UAB and a long-time fan of football. Although Mr. Tribble did not have an opportunity himself to attend college, he had a strong desire to make a college education affordable and an option for worthy students. At his death, UAB learned of Mr. Tribble’s generous bequest meant to support students who need financial assistance and are physical education majors. Each year, the Kinesiology Program selects a student recipient who best exemplifies Mr. Tribble’s interests and passion.

Criteria:
- Recipients must be majoring in physical education.
- Preference will be given to those who demonstrate financial need as determined by the UAB Office of Student Financial Aid.

**School of Business**

**Accounting Advisory Council Scholarship:** A scholarship(s) is awarded to a student with an accounting major with a 3.0/4.0 minimum GPA who is enrolled in or has completed AC300. The value of the award and the number of awards are variable. For further information, contact the School of Business at (205) 934-8813.

**Alabama Society of CPA’s Educational Foundation Scholarship:** A scholarship, valued at $1,500, is awarded to full-time accounting major in the School of Business. The recipient must have completed AC 310, have a 3.0/4.0 GPA overall and in accounting courses completed, and have at least one full year left in school (4th or 5th year). For further information, contact the School of Business at (205) 934-8813.

**American Society of Women Accountants:** A scholarship, valued at $1,000, is awarded to a senior in accounting with at least a 3.0/4.0 GPA overall and in accounting. The recipient must have completed 60 hours of coursework and have completed AC 300. Need is considered. For information, contact the School of Business at (205) 934-8813.

**Association of Certified Fraud Examiners (ACFE) Scholarship:** A scholarship, valued at $1,000, is awarded to a student with an accounting major with a 3.0/4.0 GPA who is enrolled in or has completed AC300. The value of the award and the number of awards are variable. For further information, contact the School of Business at (205) 934-8813.
Barfield, Murphy, Shank & Smith Scholarship in Accounting: A scholarship, valued at $1,000, is awarded to a senior in Accounting who has an interest in public accounting and who is enrolled in or completed AC300. GPA is important. For further information, contact the School of Business at (205) 934-8813.

Becker CPA Review Scholarship: Free Becker CPA Review Course is awarded to a graduating senior planning a career in public accounting. GPA is important. The Accounting Scholarship Committee must receive a letter of interest by February 1. The number of awards is variable. For further information, contact the School of Business at (205) 934-8813.

Birmingham Chapter of the Alabama Society of CPA’s Scholarship: A scholarship, valued at $2,000, is awarded to a full-time accounting major entering his/her senior year. Recipient must have earned and maintain a 3.0/4.0 GPA in all coursework. For further information, contact the School of Business at (205) 934-8813.

Birmingham Chapter of the IMA Scholarship: Two scholarships, valued at $2,500 each, are awarded to an undergraduate accounting major or a Master of Accounting student. Recipients must have a 3.0/4.0 GPA in their accounting coursework and overall. They should intend to pursue a career in managerial accounting and show an interest in attaining the CMA or CFM designation. For further information contact the School of Business at (205) 934-8813.

John F. Breyer Endowed Scholarship: A scholarship of variable value is awarded to a student enrolled or admitted to The School of Business with a 3.0/4.0 or better GPA. Financial need and academic promise are considered. For further information, contact the School of Business at (205) 934-8813.

William D. Burg Memorial Scholarship: In May 2006, Dr. William (Bill) Burg was tragically killed in a car accident. Family, students, and friends immediately established a memorial scholarship in his name because of the unique care and mentoring he provided to students. Gifts and pledges were sufficient to create an endowment for an annual scholarship to an IS student who exhibits character and show potential in IS. For further information, contact the School of Business at (205) 934-8813.

CISCO Information Systems Endowed Scholarship in Business: Must be currently enrolled in or admitted to the School of Business Department of Informational Systems. Applicants must have a 3.0 GPA. Students must demonstrate a commitment to community service. This scholarship is restricted to minorities (including minority female).

Collat Scholars: Twenty (20) renewable four year scholarships, valued at $5000 each, are available to freshmen and transfer students. Entering freshmen, who have selected a major in the School of Business, must have a minimum GPA of 3.25/4.0 and at least a 24 ACT score. Transfer students, who have selected a major in the School of Business, must have a minimum GPA of 3.0/4.0 in all college courses and have completed at least 24 semester hours of college credit. Preference will be given to students who bring diversity to the School of Business student body. For further information, contact the School of Business at (205) 934-8813.

Colonial Properties Trust Business Scholars Practicum: A scholarship, valued at $10,000 plus a practicum, is awarded to a junior or senior majoring in finance. For further information, contact the School of Business at (205) 934-8813.

Colonial Properties Trust Scholarship Program: One annual scholarship, in the form of a rent-free, one-bedroom apartment for a full-time student in the School of Business for an entire calendar year, is awarded to a student with a major in Finance. For further information, contact the School of Business at (205) 934-8812. Deadline: February 1.

Charles & Patsy Collat Endowed Scholarship in Industrial Distribution: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Computer Technology Solutions (CTS) Scholarship: Scholarships, valued at $2,500, are awarded to students who major in Information Systems and who demonstrate capabilities and aptitude for systems development and emerging IT issues. CTS is one of Birmingham’s premier consulting firms for IT development and systems development. The number of awards is variable. For further information, contact the School of Business at (205) 934-8813.

Cooper Industries Industrial Distribution Scholarship: Scholarships of variable amounts are awarded to entering freshman, transfer or currently enrolled students who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will also be considered for the scholarship.

Tommie G. Cummings Endowed Scholarship in Accounting: A scholarship of variable value is awarded to an entering freshman or currently enrolled student or MAC student who demonstrates solid academic performance or achievement. For further information, contact the School of Business at (205) 934-8813.

Thomas & Betts T. Kevin Dunnigan Endowed Scholarship in Industrial Distribution: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Eaton Corporation Endowed Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree
requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Ernst and Young/John L. Rhoads Scholarship in Accounting: Two scholarships, of variable value, are awarded to either undergraduate accounting majors entering their senior year or accounting equivalent majors. The recipients must have a minimum 3.25/4.0 accounting GPA and minimum 3.0/4.0 overall GPA. Must be involved in professional and other activities and have an interest in public accounting. Equivalent majors must have completed AC 310. For further information, contact the School of Business at (205) 934-8813.

Faculty Scholarships in Management: A scholarship, valued at $500, is awarded to a student majoring in Management. The recipient must have at least a 3.25/4.0 GPA overall and have taken between 60-90 semester hours of coursework. Previous recipients are not eligible to reapply. For further information, contact the School of Business at (205) 934-8813.

Fetherston Scholarship in Finance: A scholarship, valued at $1,500, is awarded to a currently enrolled or admitted finance major. The recipient must have at least a 3.0/4.0 GPA, demonstrate leadership, and be active in student activities. For further information, contact the School of Business at (205) 934-8813.

Roy S. Foger Memorial Scholarship: At least one scholarship, valued at $1,500, is awarded annually to a currently enrolled UAB School of Business student entering his/her junior or senior year. Selection is based upon academic promise, leadership potential and financial need. Award is renewable so long as the recipient maintains a minimum overall GPA of 3.0/4.0 and an average 3.0/4.0 in his or her major. Number of awards is variable. For further information, contact the School of Business at (205) 934-8813.

Katherine Bridges Freeland Endowed Scholarship: A variable value scholarship is awarded to student enrolled or admitted to UAB. Recipient must have a major in FN or IS with a 3.0/4.0 or better GPA. Low income or minority given priority. For further information, contact the School of Business at (205) 934-8813.

Edward M. Friend III School of Business Endowed Scholarship: A variable value scholarship is awarded to a new or currently enrolled student in the School of Business. Applicants must have a 3.0/4.0 overall GPA. For further information, contact the School of Business at (205) 934-8813.

A.G. Gaston Endowed Memorial Scholarship: A scholarship is awarded to an African American student enrolling as a freshman or currently enrolled in the UAB School of Business. Recipient is eligible to re-apply in following years with total awards limited to no more than four years. Financial need and superior academic achievement are considered. For further information, contact the School of Business at (205) 934-8813.

GE Industrial Distribution Endowed Scholarship: Scholarship(s) is awarded to an entering freshman with an Industrial Distribution major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will also be considered for the scholarship. Recipients may re-apply in following years but will be limited to four academic years. The value of the award and the number of awards are variable. For further information, contact the School of Business at (205) 975-5810 or (205) 934-8813.

Green and Gold Student Managed Investment Fund Scholarship: These scholarships are funded by earnings from the Green and Gold Student Managed Investment Fund and vary in amount according to fund performance. The scholarships are awarded to those students involved in the Green and Gold fund. For further information, contact the School of Business at (205) 934-8813.

Hackney Family Endowed Scholarship in Business: Preference given to entering freshman who demonstrate solid academic promise and have at least a 3.0 overall GPA.

Tommy and Anne Hagwood Endowed Scholarship in Commercial Real Estate: Must be a junior or senior currently enrolled or admitted to the UAB School of Business Finance Department with plans to pursue a career in commercial real estate. Must have a 3.25 GPA. Must also demonstrate a commitment to community service and exhibit outstanding involvement in extracurricular activities.

Robert E. and Diane M. Holmes Endowed Scholarship: A variable value scholarship is awarded to a new or currently enrolled student in the School of Business. Applicants must have a 3.0/4.0 overall GPA. For further information, contact the School of Business at (205) 934-8813.

Hubbell Foundation Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Information Systems Advisory Scholarship: Council scholarships of variable amounts are awarded to entering freshmen, currently enrolled, or transfer students in the School of Business who are interested in the field of information systems. For further information, contact the School of Business at (205) 934-8813.

Institute of Internal Auditors/Debbie Tanju/UAB Scholarship: One scholarship, valued at $1,500, is awarded to an accounting major with an interest in internal auditing. GPA is important. For further information, contact the School of Business at (205) 934-8813.

Jackson Endowed Scholarship in Industrial Distribution: Scholarship(s) is awarded to a transfer or currently enrolled student majoring in Industrial Distribution. The recipient must complete a minimum of 24 hours during the academic year and maintain a 3.0/4.0 GPA. The recipient must show active participation in extracurricular and/or community service activities. The value of the award and the number of awards are variable. For further information, contact the School of Business at (205) 975-5810 or (205) 934-8813.

Chris L. Jones Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently
enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extracurricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

L. Paul Kassouf & Co. Endowed Scholarship: Two scholarships with variable values are awarded to rising seniors in accounting. Recipients must earn a minimum of 27 semester hours in the academic year, have completed AC 300 and have demonstrated professional awareness and involvement. Recipients must have a minimum overall and accounting 3.0/4.0 GPA. Need is considered if there are equally deserving students. For further information, contact the School of Business at (205) 934-8813.

L. Paul Kassouf Forensic Accounting Scholarship: A scholarship of variable value is awarded to a junior or senior majoring in accounting in the School of Business with an interest in forensic accounting. Recipient must have a minimum 3.0/4.0 GPA. Need is considered if there are equally deserving students. For further information, contact the School of Business at (205) 934-8813.

L. Paul Kassouf Endowed Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Kinder Morgan Excellence in Accounting Scholarship: A scholarship, valued at $3,500, is awarded to a minority accounting undergraduate, graduate, or equivalent student. Recipient must have and maintain a 3.0/4.0 GPA and have a year of coursework remaining. For further information, contact the School of Business at (205) 934-8813.

Legrand Endowed Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Debra Linton Scholarship: A scholarship, valued at $2,500, is awarded to an entering freshman, currently enrolled student, or transfer student majoring in accounting with an overall GPA of 3.0/4.0. For further information, contact the School of Business at (205) 934-8813.

MBA Alumni Association Graduate Support Fund: A scholarship of variable value is awarded to a student pursuing an MBA with at least a 3.5/4.0 GPA. For further information, contact the School of Business at (205) 934-8813.

J. Stanley Mackin Scholarship in Finance: Scholarships with variable values are awarded to finance majors within the School of Business. The recipients must have a 2.5/4.0 or higher overall GPA and must demonstrate financial need. Recipients must be involved in student activities, show leadership potential and display excellent interpersonal and social skills. The value of the award and the number of awards are variable. For further information, contact the School of Business at (205) 934-8813.

David E. Mackle Sr. Endowed Memorial Scholarship in Accounting: A scholarship of variable value is awarded to a currently enrolled or entering freshman accounting major. The recipient should demonstrate solid academic promise or achievement. For further information, contact the School of Business at (205) 934-8813.

Katherine L. McCarl Maisel Memorial Scholarship: A scholarship of variable value is awarded to a senior student majoring in Accounting or Information Systems (with an interest in auditing or computer auditing). Applicants must have a 3.0/4.0 GPA in any completed coursework and demonstrate strong leadership skills and human management skills. It is preferred that accounting majors have completed AC 300, and all applicants must be courageous and positive in their attitude toward life. For further information, contact the School of Business at (205) 934-8813.

NABA/Murat Tanju Scholarship: A scholarship, valued at $1,000, is awarded to an accounting major who is a member of NABA. For further information, contact the School of Business at (205) 934-8813.

NABA President’s Scholarship: A scholarship, valued at $500, is awarded to the NABA President. For further information, contact the School of Business at (205) 934-8813.

M. Gene Newport Business Scholarship Endowment: A scholarship, valued at $1,000, is awarded to a regular, full-time entering freshman or transfer student in the School of Business for one academic year and is renewable for up to three consecutive years. The recipient must complete a minimum of 27 hours in one academic year and maintain a 3.0/4.0 GPA. For further information, contact the School of Business at (205) 934-8813.

O’Neal Steel Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

OSRAM Sylvania Scholarship: Scholarship(s) is awarded to an entering freshman or currently enrolled student with an Industrial Distribution major. High school GPA, ACT, or SAT scores, participation in extracurricular activities and career goals will be considered. Currently enrolled ID students must maintain a 3.0/4.0 GPA, be committed to the degree requirements of the ID program and participate in community service. The value of the award and the number of awards are variable. For further information, contact the School of Business at (205) 975-5810.
Pearce, Bevill, Leesburg & Moore Scholarship: A scholarship, valued at $2,000, is awarded to either an undergraduate accounting major entering his/her senior year, an accounting equivalent major, or a Master of Accounting student. Recipient must have a minimum 3.25/4.0 accounting GPA, have completed AC 310, and be actively involved in at least one professional organization. Need is considered if there are equally deserving students. For further information, contact the School of Business at (205) 934-8813.

Pearce, Bevill, Leesburg & Moore/AL Society of CPA’s Minority Scholarship: A scholarship, valued at $1,500, is awarded to a minority accounting major in the School of Business. The recipient must be a full-time student, must have completed AC 310, have a 3.0/4.0 GPA overall and in all accounting courses completed, and have at least one full year left in school (4th or 5th year). For further information, contact the School of Business at (205) 934-8813.

Philips Industrial Distribution Scholarship: Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extracurricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

Pitzitz Endowed Scholarship: Scholarships, valued at $2,500 for four years, are awarded to at least one entering freshman that intends to pursue a degree in the UAB School of Business, earns at least 27 hours per academic year and maintains a 3.0/4.0 GPA. Selection is based on grades, ACT or SAT scores, extracurricular activities and career goals. The number of awards is variable. For further information, contact the School of Business at (205) 934-8813.

Ollie S. Powers Endowed Scholarship in Accounting: A scholarship of a variable amount is awarded to an entering freshman or currently enrolled student or MAC student with an accounting major in the School of Business who demonstrates solid academic promise or achievement. For further information, contact the School of Business at (205) 934-8813.

PricewaterhouseCoopers Scholarship/Jimmy Bent Memorial Scholarship: A scholarship of variable value is awarded to a currently enrolled student with an accounting major or a Master of Accounting student. Recipient must have and maintain a 3.0/4.0 GPA and preferably have completed AC 300. For further information, contact the School of Business at (205) 934-8813.

PricewaterhouseCoopers Recruiting Scholarship: A scholarship, valued at $2,000, is awarded to an entering freshman who has demonstrated academic excellence with a GPA of at least a 3.0/4.0 and will pursue a degree in accounting. For further information, contact the School of Business at (205) 934-8813.

Project Management Institute Scholarship: The Birmingham Chapter of PMI provides scholarships to students who major in IS and who demonstrate skills and abilities in project management. The funds are generated through the UAB IS/PMI Project Management Certificate Program, which is periodically offered to the public. For further information, contact the School of Business at (205) 934-8813.

Protective Life Corporation/NABA Scholarship: A scholarship, valued at $1,500, is awarded annually to an undergraduate accounting major at any level in the School of Business with a minimum 3.0/4.0 GPA in his/her accounting coursework. The recipient must have completed at least one semester at UAB prior to receiving the scholarship and be an active member and heavily involved in the UAB student chapter of the National Association of Black Accountants. The recipient will be eligible to intern at Protective Life Corporation based on availability of an opportunity and the company interview process. For further information, contact the School of Business at (205) 934-8813.

Protective Life Corporation Information Systems Scholarship: A scholarship, valued at $2,500, is awarded to student with an information systems major in School of Business with a minimum 2.5/4.0 GPA. Must be a junior or senior. Internship is encouraged. Low income and minority encouraged to apply/given priority. For further information, contact the School of Business at (205) 934-8813.

Regions Bank Endowed Scholarship in Business: Scholarships are awarded to students currently enrolled as finance majors in the School of Business. Selection is based upon academic promise, leadership potential, merit and high moral character. Applicants must have and maintain a 3.0/4.0 GPA. Recipients are eligible to reapply in subsequent years as long as they continue to meet the requirements. The value of the award and the number of awards are variable. For further information, contact the School of Business at 934-8813.

Regions IS Scholars Practicum: A scholarship, valued at $4,000 plus $18,000 for an on-site practicum, is awarded to a student with information systems major in the School of Business. Must be a junior or senior with a 3.0/4.0 GPA or better. For further information, contact the School of Business at (205) 934-8813.

Roberta M. and John L. Rhoades Accounting Scholarship: Scholarships of variable value are awarded to rising seniors majoring in accounting. Recipients must have at least a 3.25/4.0 accounting GPA and a minimum 3.0/4.0 overall GPA. Financial need, extracurricular, civic and professional activities will be considered. The recipient must have completed AC 310. For further information, contact the School of Business at (205) 934-8813.

Rime Endowed Scholarship: A scholarship, valued at $2,500 for four years, is awarded to an entering freshman that intends to pursue a degree in the UAB School of Business. Recipient must earn at least 27 hours per academic year and maintain a 3.0/4.0 GPA. Selection is based upon grades, ACT or SAT scores, extracurricular activities and career goals. For further information, contact the School of Business at (205) 934-8813.

Harvey C. Smith Scholarship in Marketing, presented by the AMA, BI Chapter: A scholarship, valued at $500, is awarded to a junior or senior level student with a designated major in Marketing. Recipient must have a 3.2/4.0 overall GPA. Leadership and membership in the UAB chapter of AMA is considered.

Society for Information Management (SIM) Scholarship: Scholarships are awarded to entering freshmen, currently enrolled students, or transfer students in the School of Business with an interest in information systems as a major. The value of the award
and the number of awards are variable. For further information, contact the School of Business at (205) 934-8813.

**South Birmingham Chapter of Institute of Management Accountants Scholarship:** A scholarship valued at $1,000 is awarded to an undergraduate student majoring in accounting with an interest in managerial accounting or financial management. A minimum 3.0/4.0 GPA is required. For further information, contact the School of Business at (205) 934-8813.

**Southern Pulp and Paper Industry Labor Management Endowed Scholarship (SPPILMC):** A scholarship of variable value is awarded to an undergraduate student with a 3.0/4.0 GPA. Preference will be given to Human Resource Management majors and students who have worked in the paper industry or who have a parent or guardian who has worked in a primary mill within the paper industry. For further information, contact the School of Business at (205) 934-8813.

**Bernard S. Steiner Jr. Endowed Memorial Scholarship:** Scholarships of variable value are awarded to students enrolled in degree-granting programs in the School of Business. Accounting major is preferred, although the scholarships may be awarded to finance, economics and information systems majors also. Minimum 3.0/4.0 GPA required. For further information, contact the School of Business at (205) 934-8813.

**Thomas & Betts Endowed Industrial Distribution Scholarship:** Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

**Juanita and William H. Van Matre Endowed Scholarship:** $1000 is awarded to at least one entering freshman or transferring junior college student who intends to pursue a degree in the UAB School of Business. The recipient is preferred to be from a rural area and have good character. They must earn at least 27 hours per academic year and maintain a 3.0 GPA. Recipients are chosen based upon academic promise and need.

**Warren, Averett, Kimbrough & Marino Scholarship:** A scholarship, valued at $1,500, is awarded annually to a senior accounting major or Master of Accounting student in the School of Business with a minimum 3.0/4.0 GPA. For further information, contact the School of Business at (205) 934-8813.

**Young Men’s Business Club Scholarship:** At least one scholarship valued at $2,000 is awarded annually to a currently full time enrolled UAB student in the School of Business who will be entering their junior or senior year. Selection is based on high academic standing, financial need, and community service.

**School of Engineering**

Entering freshmen in the School of Engineering are automatically considered for all school-wide academic scholarships after being accepted to UAB. The admissions application to the University serves as the application for engineering scholarships. No additional scholarship application materials are required. Students who wish to be considered for engineering scholarships should be admitted to the University no later than December 1 of their senior year.

All scholarships are merit based, and most are renewable for a total of four years. School of Engineering Scholarship Awards range from $1,000 to $5,000 per year and may be combined with other scholarship offers.

**Entering Freshman Scholarships**

The UAB School of Engineering offers the following scholarships to incoming freshman for the 2015-2016 academic year. In-state students must be admitted by December 1, 2015 and out-of-state students must be admitted by May 1, 2016 in order to be considered.

Students who have an ACT of 30 or higher, but have a GPA of 3.49 or lower, will be considered for scholarships on an individual basis.

Scholarship amounts and eligibility criteria are subject to change in future years.

**Additional scholarships available to currently enrolled or soon-to-be-enrolled, UAB engineering students:**

**Dean’s Scholarship**

**Amount:** $250/$100 Per Student

This scholarship is awarded to those students who remain on the Dean’s or Presidential Honors list for both the fall and spring semester in an academic year. For students who receive Presidential Honors for both of these terms, a $250 scholarship will be awarded at the beginning of the following fall semester. For students who receive Presidential Honors and/or are on the Dean’s list, a $100 scholarship will be awarded at the beginning of the following fall semester. The dean of the School of Engineering will also host an event at the beginning of the fall semester where he will speak and they will have an opportunity to congregate and ask questions about the upcoming year.

**Mentor Scholarships**

**Amount:** $1,200 Per Academic Year ($600 per semester)

The School of Engineering Mentor Program offers scholarships to students that apply, are selected, and commit to offering 50 hours of mentoring to their fellow engineering students each semester.
Students that would like to be considered for a mentor position should have at least a 3.0 GPA in all coursework and be friendly and approachable.

**Dupuis Leadership Scholarship**  
**Amount:** $1,500 Per Student  
School of Engineering Dupuis Leadership Scholars have the opportunity to impact the future of the School of Engineering, while receiving a $1,500 scholarship. Specifically, the Leadership Scholars play a major role in several student recruiting initiatives, including making brief, personal presentations to high school students and parents during UAB Days, coordinating and serving as tour guides for groups taking part in scheduled School of Engineering tours, and participating in a limited number of additional recruiting events.

**Dupuis Leadership Scholars** must be a academically successful rising junior or senior with at least 30 hours of credit completed at UAB and must take initiative, possess organizational skills, present themselves well, and be personable and friendly. To apply for a **Dupuis Leadership Scholar** position, students must submit their résumé, including all college activities. From these submissions, the Leadership Scholars committee will select applicants for interviews. Final selections will be made following interviews.

**Transfer Scholarship**  
**Amount:** $1,000  
To be considered for this scholarship, applicants must have a minimum GPA of 3.5 and have earned at least 45 semester hours of academic coursework relevant to an engineering degree, including successful completion of Calculus 2. International students, part-time students, and students with previous coursework from another 4-year institution will not be considered.

**Information about the scholarships below will be sent to eligible students by email:**  
- Adam Telle Memorial Endowed Award Scholarship in Mechanical Engineering  
- Clayton V. Reuse/Birmingham ASHRAE Endowed Scholarship  
- Leah McCraney Memorial Endowed Scholarship in Advanced Safety Engineering and Management

**For more information about the following awards, engineering students should contact the UAB National Alumni Society:**  
- Mobolaji O. Kukoyi, P.E. UAB National Alumni Society Scholar Award  
- Dr. Ray Watts Textbook Scholarship UAB National Alumni Society Scholar Award  
- UAB National Alumni Society Brandon Keith Jacobs Memorial Scholarship

**School of Health Professions**

**Dean’s Merit Scholarship:** These scholarships are used to recruit or retain outstanding students enrolled in SHP academic programs. Selection is based upon academic achievement, including but not limited to, grade point average and standardized test scores. Selection of awardees is made by SHP academic programs.

**Dean’s Diversity Scholarship:** These scholarships are used to recruit or retain students from under-represented groups who will enhance the diversity of SHP academic programs, and consequently the diversity of the health professions workforce. Recipients must meet the University’s definition of under-represented groups. Selection of awardees is made by SHP academic programs.

**SHP Scholarship:** These scholarships are funded through a combination of allocated budget monies from the Dean and proceeds from the SHP Endowed Scholarship fund, which was established in 1988 through gifts from faculty, staff, and friends of the School. These scholarships are used to recruit or retain students who will enhance the diversity of SHP programs or who have outstanding academic credentials, including but not limited to, grade point average and standardized test scores. Selection of awardees is made by the SHP Scholarship Committee; applications are submitted by SHP program directors on behalf of qualified students. The number and amount of awards are determined by the Scholarship Committee based upon available funds.

**Lettie Pate Whitehead Foundation Scholarship:** These scholarships are made possible by an annual grant from the Lettie Pate Whitehead Foundation, based in Atlanta, Georgia. The Whitehead family was the first to secure an exclusive contract to bottle and sell Coca-Cola throughout most of the United States. Applicants must be young women from the Southeastern states who are pursuing an undergraduate or graduate degree in one of the SHP programs and who demonstrate financial need. Selection is made by the SHP Office of Student Recruitment, Engagement, and Success. For more information contact the Assistant Dean for Student Affairs at (205) 934-4195.

**Ethel M. and Jessie D. Smith Endowed Nursing and Allied Health Scholarship:** This endowment provides scholarships for both the School of Health Professions and the School of Nursing. SHP applicants must be admitted to or enrolled in a SHP baccalaureate program and be a resident of the state of Alabama at the time of enrollment. Selection is made by the SHP Office of Student Recruitment, Engagement, and Success. For more information contact the Assistant Dean for Student Affairs at (205) 934-4195.

**Matthew F. McNulty, Jr., Health Services Emergency Loan:** Students enrolled in the professional phase of programs in the School of Health Professions are eligible to apply for this low-interest loan. The fund was originally established by the University Hospital Auxiliary, and its purpose is to provide support for students needing emergency assistance. The amount of the loan will depend upon the student’s needs. Inquiries should be directed to the SHP Office of Student Recruitment, Engagement, and Success. For more information contact the Assistant Dean for Student Affairs at (205) 934-4195.

**Patricia Ann Amos Endowed Scholarship (Clinical Laboratory Sciences):** The Patricia Ann Amos Scholarship endowment was established in 2002 through gifts given by Ms. Amos and other donors. Ms. Amos retired from UAB in 1988 after 28 years of service as a medical technology faculty member, department chair, and assistant dean. Applicants must be accepted into the professional phase of the Bachelor of Medical Laboratory Sciences Program and have satisfactory academic performance. Selection is made by a committee comprised of the Clinical Laboratory Sciences faculty. The number and amount of the awards given each year is determined by the committee based upon the availability of funds.

**Cooperative Clinical Laboratories of Huntsville Endowed Scholarship/Loan (Clinical Laboratory Sciences):** The CCLH Scholarship/Loan Fund endowment was created in 1991 by the Huntsville Cooperative School of Medical Technology, Huntsville Hospital,
Crestwood Hospital, Huntsville Diagnostic Laboratory and Humana Hospital Huntsville. Applicants must be full-time students in the UAB Clinical Laboratory Sciences Program with preference given to those who reside in northern Alabama or who wish to obtain employment as a clinical laboratory scientist at a Huntsville institution. Scholarship awards are an amount equal to 25% of UAB tuition and fees; loan recipients may receive an amount equal to the total of tuition and fees for the duration of the program. The loan is repaid subsequent to graduation; however, recipients who are employed as clinical laboratory scientists for one year at a designated Huntsville institution are forgiven the total. Selection is made by a committee comprised of the CCLH representatives and a UAB Clinical Laboratory Sciences faculty member.

**Elbert and Panzie Purser Scholarship (Physician Assistant):** The Purser Scholarship was established in 1979 and subsequently endowed in 1983 through a gift from the Elbert H. Purser Trust. Applicants must be admitted to or enrolled in the UAB Physician Assistant program and must be natives of the state of Alabama. Selection is made by a committee of the Physician Assistant program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

**Earl W. Hall Loan (Physician Assistant):** Seniors in the Physician Assistant Program with emergency financial needs are eligible to apply for this low-interest loan. Inquiries should be directed to the Director, Physician Assistant Program.

**Henry L. Laws Scholarship Loan (Physician Assistant):** Students with financial need who are enrolled in or accepted for enrollment in the Physician Assistant Program may apply for this loan. Inquiries should be directed to the Director, Physician Assistant Program.

**Alabama HIMSS President’s Endowed Award in Health Informatics:** The Alabama HIMSS Endowed Award Fund was established in 2004 by a generous gift from the Alabama chapter of the Healthcare Information and Management Systems Society to be awarded annually to recognize and provide financial support to an outstanding senior student enrolled in the UAB Master of Science in Health Informatics program as determined by a committee of the MSHA faculty and the President of Alabama HIMSS or his or her chosen representative.

**Alabama Hospital Association Scholarship (Health Administration):** This scholarship is sponsored annually by a gift from the Alabama Hospital Association for a student admitted to or enrolled in the UAB Master of Science in Health Administration program, based upon criteria established by the Association. Eligible students are identified by the MSHA program faculty; selection is made by the Alabama Hospital Association leadership in consultation with the faculty.

**Robert C. Chapman Endowed Scholarship (Health Administration):** The Robert C. Chapman Endowed Scholarship was established in 2003 through a generous gift from Robert C. (Bob) Chapman, an alumnus of the M.S. in Health Administration program and a long-time supporter and preceptor for the program. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

**Michael E. Garrigan Endowed Scholarship (Health Administration):** The Michael E. Garrigan Endowed Scholarship was established in 2000 by a generous gift from Mike Garrigan, an alumnus of the MSHA program and long-time supporter and preceptor for the program. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

**HSA 25th Anniversary Endowed Scholarship (Health Administration):** This scholarship endowment was established through generous gifts made by faculty, alumni, and friends of the MSHA program to commemorate the 25th anniversary of the Health Administration program. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

**Health Services Administration Endowed Scholarship (Health Administration):** This scholarship was established in 2000 through the generosity of an anonymous donor. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

**Scott Braxton Ryland Memorial Endowed Scholarship (Health Administration):** This scholarship endowment was established in 2004 through gifts made by family, friends, and colleagues of Mr. Ryland, an alumnus of the MSHA program and a pioneer in the field of psychiatric care facilities. Applicants must be residents of the state of Alabama, have completed two terms of study in the MSHA program and demonstrate academic promise as well as concern for the mental health of the community. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.
student in the Administration-Health Services Ph.D. program at the time of his death at age 33. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Jon E. Vice Scholarship (Health Administration): This scholarship was established in 2005 in honor of MSHA alumnus Jon E. Vice and in recognition of his financial support and volunteer leadership for both the Department of Health Services Administration and the School of Health Professions. The scholarship is funded by a portion of the proceeds from the Health Services Administration 25th Anniversary Scholarship endowment, which was established through a fund-raising drive chaired by Mr. Vice. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Robert J. Zasa Endowed Scholarship (Health Administration): The Robert J. Zasa Scholarship endowment was established in 2000 through a generous gift by Mr. Zasa, an alumnus of the MSHA program who has provided long-time support to the program as a student mentor and guest lecturer. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

The Alabama Power Service Organization/ Glenda Harris Scholarship (Dietetic Internship/Nutrition Sciences): This scholarship is sponsored by the Alabama Power Service Organization to honor Glenda Harris and to promote educational opportunities to deserving young adults in the Department of Nutrition Sciences. Selection is made by the Nutrition Sciences faculty; the number and amount of the awards are subject to the availability of funds.

Rebecca L. Bradley Endowed Scholarship (Dietetic Internship): This scholarship endowment was established in 2005 in honor of Rebecca L. Bradley for her many years of dedicated service as a faculty member and director of the UAB Dietetic Internship program, a position she retained until her retirement in 1998. Applicants must be admitted to or enrolled in the UAB Dietetic Internship Program. Selection is made by the Dietetic Internship program faculty; the number and amount of the awards are determined annually by the faculty based upon the availability of funds.

Carol Brewster Craig Endowed Scholarship (Dietetic Internship/Nutrition Sciences): The Carol Brewster Craig Endowed Scholarship was established 1992 by gifts made in honor of Ms. Craig, professor and director of the Division of Human Nutrition and Dietetics until her retirement, to commemorate the occasion of the 25th anniversary of the Dietetic Internship program at UAB. Applicants must be admitted to or enrolled in the professional phase of either the Dietetic Internship or the M.S. Nutrition Sciences degree programs and demonstrate solid academic promise. Selection of the recipients is made by departmental scholarship committee; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Howerde E. Sauberlich Endowed Award for Excellence in Nutrition Sciences Research: The Sauberlich Award endowment was established in 2003 in memory of Dr. Howerde E. Sauberlich, longtime nutrition sciences faculty member and a pioneer in the study of macro- and micronutrients, through a generous gift from his wife, Irene, along with gifts from other donors. The award is used to recognize and financially support students for superior performance in research of an area of the nutrition sciences. Selection is made by departmental committees for the Clinical Nutrition master’s program and the Nutrition Sciences Ph.D. program; the number and amount of the awards are determined by the committees based upon the availability of funds.

Caroline Amari Endowed Scholarship (Occupational Therapy): The Caroline “Cat” Amari Endowed Scholarship was established in 2006 in honor of Cat Amari for her many years of service as a faculty member, program director and mentor to many OT students. It is the first endowed scholarship to have been established for Occupational Therapy students at UAB. Selection is made by a committee of the Department of Occupational Therapy faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Elizabeth Davis Scholarship (Occupational Therapy): The Elizabeth Davis Scholarship is made possible by contributions made by family and friends of Ms. Davis in appreciation for care she received from an occupational therapist. Selection is made by a committee of the Department of Occupational Therapy faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Occupational Therapy Memorial Scholarship (Occupational Therapy): The OT Memorial Scholarship is funded through contributions by alumni, faculty, and friends of the program wishing to honor their loved ones. Selection is made by a committee of the Department of Occupational Therapy faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Randy Gilner Emergency Loan (Physical Therapy): This no-interest loan may be awarded to students enrolled in the Department of Physical Therapy. Inquiries should be directed to the Chair of the Physical Therapy Department.

HEALTHSOUTH Rehabilitation Corporation Endowed Scholarship (Physical Therapy): This scholarship endowment was established in 1991 by a gift from HealthSouth Rehabilitation Corporation. Applicants must be Alabama residents, must be enrolled in the Doctor of Physical Therapy program at UAB and should demonstrate solid academic progress. Selection is made by the Department of Physical Therapy Financial Aid Committee; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Shirley Shaddeau Memorial Endowed Scholarship (Physical Therapy): The Shirley Shaddeau Memorial Scholarship endowment was established through a generous gift from Sue Shaddeau to honor the memory of her sister, Shirley Shaddeau, and her dedication to the profession of physical therapy. The fund has received additional contributions from family, alumni and friends. Applicants must be enrolled in the first professional degree program in Physical Therapy, demonstrate solid academic promise, financial need and be of high moral character. Selection is made by the Department of Physical Therapy Financial Aid Committee; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

School of Nursing

The School of Nursing at UAB has an excellent scholarship program in which many students participate. Because of the size of some of these scholarship endowments, the school is able to award multiple students scholarships from the same endowed fund. The scholarship application process is simple. One application is needed to be considered for all undergraduate or graduate scholarships. Please call the School of Nursing Office of Student Affairs at 205-934-5483 or visit the website at: http://www.uab.edu/nursing/home/son-scholarships for complete details regarding eligibility and application deadlines.

The following is a listing of scholarships at the University of Alabama School of Nursing at UAB.

Alice L. McCallum Endowed Nursing Scholarship: Established by family and friends of Dr. Charles A. McCallum, Jr., and the late Alice L. McCallum. Criteria: admission to or current full-time enrollment in the School of Nursing, a cumulative grade point average of at least a 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Student Financial Aid. Preference will be given to first year students enrolled in the undergraduate or graduate pre-licensure programs.

Barbara and Emmet O'Neal Endowed Nursing Scholarship: Established with gifts from friends of Barbara O'Neal and the late Emmet O'Neal. Mr. O'Neal left a legacy as a generous benefactor and supporter of the people of Birmingham, and Mrs. O'Neal is a member of the School of Nursing's Board of Visitors. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, a cumulative grade point average of at least 3.2 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Student Financial Aid. Preference will be given to those who are residents of Alabama or who express a desire to live and work in an underserved area of the state following graduation.

Benjamin and Roberta Russell Nursing Scholarship: Established with funds received from the Benjamin and Roberta Russell Foundation. Criteria: admission to or current full-time enrollment in study leading to a degree in nursing at the University of Alabama School of Nursing at UAB, cumulative grade point average of at least a 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Student Financial Aid. Preference will be given to those who are residents of Alabama or who express a desire to live and work in an underserved area of the state following graduation.

Board of Visitors Endowed Veterans Nursing Care Scholarship: Established by the UAB School of Nursing Board of Visitors with proceeds from the 2009 MASH fundraising event. Criteria: admission to or current full-time enrollment in study leading to a degree in the School of Nursing at UAB, a cumulative grade point average of at least 3.0 on a 4.0 scale, and applicants must demonstrate financial need as determined by the UAB Office of Financial Aid. First preference will be given to students who demonstrate an interest in and commitment to providing nursing care for veterans and their families.

Board of Visitors Endowed Nursing Scholarship: Established with funds rasied by the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in study leading to a degree in the School of Nursing at UAB, and a cumulative grade point average of at least 3.0 on a 4.0 scale. Preference will be given to those who are residents of Alabama, and who express a desire to live and work in Alabama following graduation.

Board of Visitors Endowed Scholarship in Doctoral Nursing: Established with funds raised by the UAB School of Nursing Board of Visitors to support deserving doctoral nursing students. Criteria: Must be currently enrolled in or admitted to a doctoral degree-granting program in the School of Nursing and have earned at least an overall 3.0 grade point average in coursework completed prior to the time of application.

Brock Family Endowed Nursing Scholarship: The Harry B. and Jane H. Brock Foundation has made generous gifts to create an endowed scholarship at the School of Nursing, in recognition of the nursing career of their daughter, Barrett Brock MacKay (MSN 1979), who is a member of the School's Board of Visitors. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing. Applicants must have at least an overall 2.8 grade point average on a 4.0 scale at the time of the scholarship application. Preference will be given to applicants that demonstrate financial need as determined by the UAB Office of Financial Aid.

Carolyn Farrior Boone Endowed Nursing Scholarship: Established by Mr. and Mrs. James B. Boone, Jr., of Tuscaloosa, Alabama. Mr. Boone serves as Chairman of the Board and Director of Boone Newspapers, Inc. His wife, Carolyn, is a retired nurse and a member of the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in the School of Nursing. Applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

Catherine S. and Lee J. Stysslinger, Jr., Endowed Nursing Scholarship: Established by Catherine and Lee Stysslinger, Jr., well known residents of Birmingham and throughout the state of Alabama for their leadership and generous philanthropic support. Catherine is member of the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least a 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Student Financial Aid. Preference will be given to students enrolled in the undergraduate and/or graduate pre-licensure programs.

Delia and John Robert Endowed Nursing Scholarship: Established with funds from the Delia and John Robert Trust to support students seeking a professional nursing career. Criteria: current full-time enrollment in study leading to a degree in nursing at the UAB School of Nursing and a cumulative grade point average of at least 3.0. Preference will be given to those for whom the decision to return to school is a second life choice; or who may have pursued a degree in nursing earlier in life and been forced by circumstances to stop that education; or who are returning to school in order to seek an advanced degree in nursing.

Dorothea G. Sterne Nursing Scholarship Fund: Established with funds received from the Dorothy Sterne estate through the provisions of her will. Preference will be given to Calhoun County, Alabama, residents enrolled full-time in study leading to the BSN degree at the UAB School of Nursing.

Dr. Charles E. Flowers, Jr. Endowed Nursing Scholarship: Established by Dr. Flowers' widow, Dr. Juanzetta S. Flowers, and family, colleagues and friends of Dr. Charles E. Flowers, this scholarship was created to assist deserving students who are enrolled in the UAB School of Nursing. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing. Applicants should demonstrate solid academic promise and have earned a cumulative 2.8 (on a 4.0 scale) grade point average in coursework prior to the time of application.

The Harry B. and Jane H. Brock Foundation has made generous gifts to create an endowed scholarship at the School of Nursing, in recognition of the nursing career of their daughter, Barrett Brock MacKay (MSN 1979), who is a member of the School's Board of Visitors. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing. Applicants must have at least an overall 2.8 grade point average on a 4.0 scale at the time of the scholarship application. Preference will be given to applicants that demonstrate financial need as determined by the UAB Office of Financial Aid.
Dr. Margaret Millsap Memorial Endowed Award in Nursing:
Established by alumni of the UAB School of Nursing and members of the Nu Chapter of Sigma Theta Tau International, the Honor Society of Nursing, and colleagues of Dr. Margaret Israel Millsap to provide financial support for deserving advanced practice nursing students. Criteria: must be enrolled in, or admitted to, a degree-granting program in the School of Nursing. Both full-time and part-time students are eligible and should have earned at least an overall 3.0 grade point average in foundational and overall coursework completed prior to the time of application.

Dr. Paul W. Scockel III and Mary Lou Scockel and William A. Honeycutt and Christine R. Honeycutt Endowed Scholarship: Established by Mr. and Mrs. Paul S. Scockel in honor and memory of their parents Dr. Paul W. Scockel III and Mary Lou Scockel and William A. Honeycutt and Christine R. Honeycutt. Criteria: must demonstrate financial need as defined by the UAB Financial Aid Office, earned at least an overall 3.0 grade point average, and be currently enrolled in, or admitted to a degree-granting program at UAB School of Nursing.

Eileen Marie Mahan Endowed Scholarship in Nursing Scholarship: Established in memory of Eileen Marie Mahan (MSN 1980), who died in an automobile accident. This memorial scholarship is to enable deserving graduate students in the School of Nursing. Criteria: admission to or current full-time enrollment in a degree-seeking graduate program at the UAB School of Nursing, a cumulative grade point average of 3.0 out of 4.0, and must demonstrate financial need as determined by the UAB Office of Financial Aid.

Eileen S. Meyer Endowed Nursing Scholarship: Established by Dr. Bruce Burns in honor of his wife, Eileen S. Meyer, CRNP as a surprise for her 40th birthday. Criteria: Must be currently enrolled in, or admitted to, a degree-granting program in the School of Nursing and should demonstrate solid academic promise in foundational and overall coursework completed prior to the time of application. Applicants must demonstrate excellent skills in physical diagnosis, as attested to by letters of recommendation from faculty. Applicants must demonstrate excellent skills in communication and interpersonal relationships as attested to by letters of recommendation from faculty and I or employers. Students do not have to qualify for federal assistance to be considered for this award.

Elizabeth Jane Harper Memorial Scholarship: Established by family members as a memorial to Elizabeth Jane Harper, who was a student at the UAB School of Nursing. Criteria: must be currently enrolled as a full-time student in study leading to the BSN degree at the UAB School of Nursing, be in good standing, and show financial need as defined by the UAB Financial Aid Office.

Elizabeth Stullenbarger Endowed Nursing Scholarship: Established by UAB School of Nursing Professor Emerita, Dr. Elizabeth Stullenbarger together with other friends of the School of Nursing to provide financial support to deserving nursing students. Criteria: Must be currently enrolled in, or admitted to, a degree-granting program in the School of Nursing, with first preference given to full-time students in the undergraduate and graduate pre-licensure programs. Applicants should have earned at least an overall 3.0 grade point average in foundational and overall coursework completed prior to the time of application.

Dr. Elwynn “Chick” Hale Endowed Nursing Scholarship: Established by family and friends of the late Dr. Elwynn “Chick” Hale in her memory to assist deserving nursing students at the UAB School of Nursing. An alumna of the School, Dr. Hale was also a beloved faculty member from 1974 to 1990, and served as a member of the School’s Board of Visitors until her death. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, and a cumulative grade point average of 3.0 on a 4.0 scale. Preference given to students who are citizens of Alabama or who express a desire to work in Alabama following graduation.

Emmet and Mary Anne O’Neal Endowed Nursing Scholarship:
Established with gifts from family and friends of the late Mary Anne and Emmet O'Neal, who, during their lifetime, set an example of grace and benevolence for their family and for the Birmingham community. Criteria: admission to or current full-time enrollment in study leading to a degree in nursing at the UAB School of Nursing, cumulative grade point average of at least a 3.0 on a 4.0 scale, and a demonstrated financial need as determined by the UAB Office of Student Financial Aid.

Ethel M. and Jesse D. Smith Nursing and Allied Health Scholarship:
Established by Dr. Bettye Jane Smith as a memorial to her parents, Ethel McCarty Smith and Jesse Doswell Smith. Criteria: must demonstrate financial need as defined by the UAB Financial Aid Office, reside in the state of Alabama, have a cumulative grade point average of at least a 3.0 on a 4.0 scale, and be admitted to or enrolled in full-time study leading to the BSN degree at the UAB School of Nursing.

Fay B. Ireland Endowed Nursing Scholarship: Established by Mrs. William R. Ireland, Sr., to support native Alabama students pursuing a degree at the UAB School of Nursing. Criteria: applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

Florence A. Hixson Endowed Nursing Scholarship: Established by family, friends, and colleagues of Dr. Florence Alberta Hixson, the first Dean of the UAB School of Nursing. Criteria: current full-time enrollment in study leading to an advanced degree at the UAB School of Nursing and a cumulative grade point average of at least 3.0 on a 4.0 scale.

Francis S. Falkenburg Endowed Nursing Scholarship: Established by the family of Francis S. Falkenburg, former member of the State Legislature of Alabama and lobbyist for UAB and the Alabama State Nurses Association. Criteria: admission to or current full-time enrollment in the undergraduate program in the School of Nursing and demonstrate financial need as determine by the family of Gladys Farmer Colvin, who was a nurse for many years at the Jefferson County Department of Public Health. Criteria: admission to or current full-time enrollment in the PhD program in the UAB School of Nursing and have a cumulative grade point average of 3.0 or above on a 4.0 scale.

Governors Lurleen B. and George C. Wallace Memorial Fund:
Established by James T. Parsons and his late wife, Bobbie Parsons, to honor her parents, Governor Lurleen Burns Wallace and Governor George Corley Wallace. Bobbie served as a member of the UAB School of Nursing Board of Visitors for 18 years. Gov. Lurleen Wallace respected and admired the work of nurses, and Gov. George Wallace was a strong supporter of UAB and provided significant support through funding and legislation. This fund is used for scholarships and many other worthy purposes within the UAB School of Nursing.

The Hill Crest Foundation Endowed Nursing Scholarship:
Established by the Hill Crest Foundation to provide financial assistance to deserving students who are admitted to the UAB School of Nursing. Criteria: Students must be currently enrolled in, or admitted to, a degree-granting program in the School of Nursing. First preference will be given to students seeking a second degree in the Accelerated Masters in Nursing Pathway (AMNP). Applicants must have at least an overall 3.0
grade point average in foundational and overall coursework completed prior to the time of application.

**James Coleman Lee, Sr., Endowed Nursing Scholarship:** Established by the late James, C., Lee, Jr. and his wife Rose, through the Buffalo Rock Company to honor the memory of Mr. Lee’s father, James Coleman Lee, Sr.; this scholarship was created to encourage students to enter the nursing profession and to make it possible for many future nurses to focus on their studies without the burden of financial pressure. Criteria: admission to the UAB School of Nursing. Applicants should demonstrate solid academic promise and have earned at least a cumulative 2.8 grade point average on a 4.0 scale in coursework prior to the time of application. Preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Financial Aid.

**Jarman F. Lowder Endowed Scholarship:** Established by Mr. Thomas H. Lowder and his late wife, Jarman, to encourage students to enter the nursing profession and to make it possible for many future students in the School of Nursing to focus on their studies without the burden of financial pressures. Mrs. Lowder (BSN 1973) served on the Board of Visitors for the School of Nursing until her untimely passing. Criteria: must be admitted to or enrolled in a full-time degree-seeking program at the School of Nursing, have a cumulative 3.0 grade point average on a 4.0 scale in coursework at the time of application. Applicants will demonstrate high moral character and preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Financial Aid.

**Jean Riley Tomlinson Endowed Nursing Scholarship:** Established by Mrs. Jean Riley Tomlinson, longtime member and former chair of the UAB School of Nursing Board of Visitors. This scholarship pays tribute to the nurses and physicians specializing in cardiovascular illnesses that provided excellent care to her late husband, Jack O. Tomlinson, Sr. It is the Tomlinson’s intent that this scholarship make a significant difference for students in need of financial assistance for higher education. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, a cumulative grade point average of at least a 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Financial Aid. Preference will be given to those who have demonstrated an interest in cardiovascular nursing.

**Jernigan Endowed Nursing Scholarship:** Established by the late Thomas E. Jernigan, Sr. and his wife Donna. Mrs. Jernigan is a member of the UAB School of Nursing Board of Visitors. Criteria: must have a cumulative grade point average of at least 3.0 on a 4.0 scale, and be eligible to enroll full-time in a junior level clinical nursing course at the University of Alabama School of Nursing at UAB. Preference will be given to those who demonstrate leadership potential or ability through participation in extracurricular activities or similar experiences.

**Jo Ann Barnett Endowed Nursing Scholarship:** Established with funds from friends, colleagues and family of the late Jo Ann Barnett (BSN 1987, MSN 1990), this scholarship was created to honor Ms. Barnett’s memory and to benefit students in the School of Nursing. Criteria: admission to or current full-time enrollment in the UAB School of Nursing MSN program, with preference given to those students pursuing a career in neonatal nursing or oncology nursing. Applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

**John Wilson Rodgers Endowed Memorial Scholarship:** Established by Dr. Marguerite Rodgers Kinney (DIPL 1961), a former faculty member at the UAB School of Nursing, as a memorial to her father. Criteria: good academic standing, current full-time enrollment in study leading to the MSN degree. Preference will be given to applicants who are pursuing, or their program of study shows that they plan to pursue, advanced study in cardiovascular nursing and demonstrate financial need as determined by the UAB Office of Student Financial Aid.

**Junior Board of Visitors Endowed Nursing Scholarship:** Established by the UAB School of Nursing Junior Board of Visitors with proceeds from the No-Show Ball fundraisers. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, have earned a cumulative 3.0 grade point average on a 4.0 scale, and deserving of financial assistance as determined by the UAB Office of Financial Aid. First preference will be given to students demonstrating an interest and commitment to providing pediatric nursing care.

**Lois and Barry Luther National Alumni Society Endowed Nursing Scholarship:** Established by UAB School of Nursing alumna and former faculty member, Lois Luther and her husband, Barry Luther to provide financial assistance to undergraduate nursing students. Criteria: Must be admitted to a degree-granting program at the School of Nursing and have earned at least a 2.5 in coursework completed prior to the time of application. Students do not have to qualify for federal assistance to be considered for this award.

**Lois Drolet Luckie Endowed Nursing Scholarship:** Established in memory of Mrs. Lois Luckie by her loving husband, Robert Luckie, Jr. This scholarship is awarded in honor of Holli Kemper (BSN 1985), one of Mrs. Luckie’s oncology nurses. According to the late, Mr. Luckie, Ms. Kemper constantly “went the extra mile” during his wife’s terminal illness, carrying out her duties with great professionalism, cheerfulness and sympathetic skill. Criteria: must be admitted to or enrolled full-time in the School of Nursing, a cumulative grade point average of at least 3.0 on a 4.0 scale. Preference will be given to applicants who express an interest in oncology nursing.

**Mable E. Lamb Endowed Nursing Scholarship:** Established with funds from a planned gift to honor Dr. Lamb’s commitment to educating the nurses of the future. Criteria: must have a cumulative grade point average of at least 2.8 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Financial Aid.

**Margaret and Bradford Kidd Endowed Nursing Scholarship:** Established by Margaret and the late, William Bradford Kidd. Mrs. Kidd is a member of the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, must have a cumulative grade point average of at least 3.0 on a 4.0 scale, and applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

**Margaret Parks Kendrick Nursing Scholarship:** Established by Dr. Marvin Hayne Kendrick as a memorial to his mother, Margaret Parks Kendrick. Criteria: must show financial need as defined by the UAB Financial Aid Office, be admitted to or enrolled in full-time study leading to the BSN degree at the University of Alabama School of Nursing at UAB, and have a cumulative grade point average of at least 3.0 on a 4.0 scale. Preference will be given to residents of Crenshaw County, Alabama.

**Marie Carter Bonner Memorial Scholarship:** established by friends and associates as a memorial to Mrs. Bonner, who worked as a nurse at UAB Hospital for more than 20 years and served as Director of Psychiatric Nursing. Criteria: admission to or current full-time enrollment in study leading to a degree in the School of Nursing at UAB, and a cumulative grade point average of at least 3.0. Preference will be given to applicants who express an interest in psychiatric-mental health nursing.
Marie L. O’Koren School of Nursing Alumni Association Endowed Scholarship: Established with funds received from the late, Dr. Marie L. O’Koren and members of the alumni association of the UAB School of Nursing, in honor of Dr. O’Koren’s many years of service as dean of the School. Criteria: admission to or current full-time enrollment in study leading to a degree in nursing at the UAB School of Nursing, cumulative grade point average of at least 3.0 on a 4.0 scale, and a demonstrated financial need as determined by the UAB Office of Student Financial Aid.

Marie S. Ingalls Endowed Nursing Scholarship: Established by funds from the estate of Marie S. Ingalls, a noted civic leader and philanthropist, who was a member of the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing. Applicants must have at least an overall 3.0 grade point average on a 4.0 scale at the time of the scholarship application.

Martha F. Tilt Endowed Nursing Scholarship: Established by Mrs. Tilt’s three sons, family, and friends - with the intent that nursing students be given a helping hand into a profession through this scholarship, and in memory of one inspirational role model who lived and defined the profession - a lady who gained her rewards in life through befriending, comforting and caring for others. Mrs. Tilt had the heart of a nurse and shared it freely with everyone she met. Criteria: admission to or current full-time enrollment at the School of Nursing, and a cumulative grade point average of at least 2.5 on a 4.0 scale. First preference will be given to mature, non-traditional, first-year nursing undergraduate students, as defined by the University, and to those applicants who plan to practice nursing either in a clinical or a hospital setting upon graduation. Preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Student Financial Aid.

Mary G. Nash Endowed Nursing Scholarship: Established by colleagues and friends to pay tribute to Dr. Mary G. Nash and her service to the School of Nursing, University Hospital, and UAB. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing Preference will be given to applicants who plan to work in Alabama upon graduation. The School of Nursing Office of Development and Alumni Affairs announces application deadlines and procedures.

Mary Josephine Harwell Nursing Scholarship: Established with funds received from the estate of Mary Josephine Harwell through the provisions of her will. Criteria: must be admitted to or currently enrolled full-time in study leading to the BSN degree at the UAB School of Nursing, and have a cumulative grade point average of 2.5 or higher. Preference will be given to residents of Elmore County, Alabama, and neighboring counties, and those who show financial need as defined by the UAB Financial Aid Office.

Nancy Eastman Harp Oncology Endowed Nursing Scholarship: Established by the late, Peggy Spain McDonald, a longtime community leader in Birmingham. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, a cumulative grade point average of at least 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Student Financial Aid. Preference will be given to those who have demonstrated an interest in geriatric nursing.

Rachel Z. Booth Endowed Nursing Scholarship: Established by the UAB School of Nursing Board of Visitors with proceeds from the 2005 “MASH: Make Another Scholarship Happen” fundraising event. Dr. Booth served as the School of Nursing’s third dean from 1987-2005. Criteria: students must be currently enrolled in, or admitted to, a doctoral program in the UAB School of Nursing, a cumulative grade point average of at least 3.2 on a 4.0 scale, and applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

The Reese Phifer, Jr. Endowed Nursing Scholarship: Established by the Reese Phifer, Jr., Memorial Foundation to support Alabama students pursuing degrees in nursing and to honor the late Mr. Phifer. The scholarship assists Alabama residents who are currently enrolled in, or have been admitted to, the baccalaureate, masters or doctoral degree-seeking program within the UAB School of Nursing. Criteria: admission to or current full-time enrollment in study leading to a degree in the School of Nursing, a grade point average of at least 3.0 on a 4.0 scale, and must be a resident of the state of Alabama.

Rylee/Casper Endowed Nursing Scholarship: Established by a charitable gift from Mrs. Gladys Muriel Rylee Casper who was a 1947 diplomat of the School of Nursing and served for more than two decades as a nurse in the armed forces. Criteria: admission to or current full-time enrollment in a degree-seeking program at the UAB School of Nursing, demonstrate financial need as determined by the UAB Office of Student Financial Aid, and applicants must be residents of the State of Alabama. Preference will be given to applicants wishing to pursue a career in neonatal nursing. Applicants should have earned at least an overall 3.0 grade point average in coursework completed prior to the time of application.

SOS Foundation Scholarship: Established with funds received from the Sabin Oral Sunday (SOS) Foundation of Jefferson County. Preference will be given to a Jefferson County, Alabama, resident enrolled full-time in study leading to the BSN degree at the UAB School of Nursing.

The Robert Luckie Family Endowed Nursing Scholarship: Established by Robert E. Luckie, Jr., to enable deserving nursing students attending the UAB School of Nursing realize their dream of receiving a quality education. Criteria: admission to or current full-time enrollment in a degree-seeking program in the UAB School of Nursing, a cumulative grade point average of 2.8 on a 4.0 scale. Preference will be given to students who are citizens of Alabama or who express a desire to work in Alabama following graduation and demonstrate financial need as determined by the UAB Office of Financial Aid.

The School of Nursing Dean’s Merit Endowed Scholarship: Four scholarships are available per year to undergraduate students. Three of these scholarships are two-year renewable scholarships and one is for one year only. The amount of the scholarship is $1,000 per year. Criteria:
a “B” (3.0) average on all collegiate pre-nursing work attempted. For renewal of a two-year scholarship, a student must maintain a 2.5 grade point average on nursing courses. All applicants for admission to study leading to the BSN degree at the School of Nursing are automatically considered for the Dean’s Scholarship.

The School of Nursing Faculty and Staff Endowed Scholarship: Established with funds from School of Nursing Faculty and Staff, this scholarship was established to benefit the training and education of deserving nursing students. Criteria: admission to or current full-time enrollment in a degree-seeking program in the University of Alabama School of Nursing at UAB and an overall 3.5 (on a 4.0 scale) grade point average in coursework completed prior to time of application.

The Student/Alumni Endowed Nursing Scholarship: Established with funds raised from current and former students, this scholarship was developed by former students who wanted to make a difference in the lives of future students. Every year, former students contribute through the School of Nursing’s Annual Fund. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least a 3.0 on a 4.0 scale.

Thelma Walker Mitchell Endowed Nursing Scholarship: Established with funds from the estate of Thelma Walker Mitchell, who was a 1941 graduate of the Hillman Hospital School of Nursing at what is now UAB. She made maternal and child health nursing her life’s work, including many years as a nursing consultant to the Alabama State Department of Public Health Bureau of Maternal and Child Health in Montgomery.

Terri J. Broach Nursing Scholarship Endowment: Established by friends and family members as a memorial to the late Terri J. Broach, who was a student at the UAB School of Nursing. Criteria: must be a resident of the State of Alabama, be admitted to or enrolled in full-time study leading to the BSN degree in nursing at UAB, and have a cumulative grade point average of 2.5 or above. Preference will be given to those who have an active relationship with a church, synagogue, or other religious institution or order, and those who show financial need as defined by the UAB Financial Aid Office.

Thor-Louck Endowed Nursing Scholarship: Established with funds from Isabel H. Thorp and Phyllis M. Loucks, beloved former faculty members of the School of Nursing. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least a 3.0 on a 4.0 scale.

The UAB Hospital Auxiliary Endowed Nursing Scholarship: Established by the UAB Hospital Auxiliary to assist nursing students currently working at UAB Hospital or in the UAB Health System and with an intention of practicing at UAB Hospital with the completion of their studies. Criteria: must be undergraduate students currently enrolled or admitted to the School of Nursing, with first preference given to applicants planning to work at UAB Hospital after graduation. Applicants should have earned at least an overall 3.0 grade point average. Applicants must work at UAB Hospital in a part-time or full-time capacity, have completed one full year of employment and be in good standing. A reference letter from the applicant’s immediate supervisor is required as part of the scholarship application and will be used to determine good standing.

Virginia Bonds Black Endowed Nursing Scholarship: Established by Virginia Bonds Black to provide financial assistance to deserving nursing students. Ms. Black, a 1950 diploma graduate of Jefferson Hillman School of Nursing, spent her entire career as a dedicated servant to others. Criteria: must be currently enrolled, or admitted to the School of Nursing at UAB and have earned at least an overall 2.8 (on a 4.0 scale) grade point average.

William Groce Campbell Endowed Nursing Scholarship: Established by Myrtle Campbell Bell in memory of her brother, William Groce Campbell, this scholarship was created to benefit students in the UAB School of Nursing. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, and a minimum grade point average of a 2.8 on a 4.0 scale.

William C. Howton Endowed Nursing Scholarship – Established by the late, William C. Howton in honor of his two daughters who are registered nurses. Criteria: must be admitted to or enrolled in the undergraduate program at the UAB School of Nursing and have earned at least an overall 3.0 grade point average on a 4.0 scale. Preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Student Financial Aid.

Worthington-Cargo Family Endowed Nursing Scholarship: Established by Nancy and Allan Worthington to support students in the Doctor of Nursing Practice Program who plan to pursue an Advanced Clinical Specialization in Adult Gerontology. Criteria: must show financial need as defined by the UAB Financial Aid Office and have a cumulative grade point average of 3.0 or above. Preference will be given to residents of Alabama who plan to continue to work in Alabama as a doctorally-prepared clinical nurse.

Comer Nursing Scholarship: Established with funds received from the Comer Foundation. The Comer Foundation Scholarship program serves as a tribute to the tradition and future commitment in support of higher education. Criteria: must show financial need as defined by the UAB Financial Aid Office, be a resident of the State of Alabama, have a cumulative grade point average of 3.0 or above, intend to practice nursing in the State of Alabama, and be enrolled full-time in study leading to the BSN degree at the University of Alabama School of Nursing at UAB.

Lettie Pate Whitehead Foundation Scholarship: The Lettie Pate Whitehead Foundation was established in 1946 by Conkey Pate Whitehead. Mr. Whitehead established the Foundation as a memorial to his mother. Criteria: Exclusively for the purpose of providing need-based scholarships to deserving Christian women who are residents of one of the following states: Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Virginia.

Violet Terrell Clark Nursing Scholarship: Established by Mr. and Mrs. Steve M. Bates in memory of Jean Clark Bates’ mother, Violet Terrell Clark. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least a 3.2 on a 4.0 scale. Preference will be given to applicants who plan to work with underprivileged patient populations upon graduation.

Academic Common Market

The Academic Common Market is an interstate agreement among selected southern states for sharing academic programs at both the baccalaureate and graduate levels. Participating states are able to make arrangements for their residents who qualify for admission to enroll in specific programs in other states at an in-state tuition basis. Participating states are Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.
If you are not an Alabama resident and you wish to enroll at UAB as an Academic Common Market student, you must be accepted for admission into a UAB program to which your state has obtained access for its residents through the Academic Common Market coordinator in your home state.

Certification of eligibility must be received by the Office of Undergraduate Admission before the first day of class in the initial semester of registration to obtain in-state tuition status for the entire program; otherwise, in-state tuition status will be awarded beginning with the semester following receipt of this certification. Please note that if a student who enrolls at UAB as an Academic Common Market student changes majors, the student will revert to paying out-of-state tuition.

To obtain the name and address of a state coordinator, visit the Academic Common Market web site (www.sreb.org/page/1304/) (http://www.sreb.org/page/1304).

Progress Toward a Degree

Responsibilities

The student is responsible for selecting and registering for courses necessary for reasonable progress toward the degree sought. The minimum requirement for reasonable academic progress is that the student must pass a minimum of 24 semester hours of coursework in an academic year.

The Office of the Registrar is responsible for registration, recording and reporting grades; maintaining current and permanent records on all students; enforcing rules on academic warning, probation and suspension; certifying students for graduation; and issuing transcripts. The office is located in the 1605 Building, 1605 11th Avenue South, Birmingham, Alabama 35294-4300, (205) 934-8228.

Students must notify the Office of the Registrar of address changes so that notices and other materials are sent to the current address. Changes may be made online in BlazerNET or in person.

Freshman Year Experience

Students entering UAB with less than 24 hours of college credit must successfully complete a first year experience (FYE) course in their first 24 credit hours at UAB. FYE courses include freshman learning communities, U101, and school-specific FYE courses.

Capstone Course

All UAB students must successfully complete the capstone course or experience required by their major program or school in order to graduate.

Declaration of a Major

All students must declare a degree-awarding major by the time they earn 60 semester hours of coursework, including courses currently in progress, before registering for the next semester. Students who (1) have been dismissed from a degree-awarding major or professional program, (2) have over 60 semester hours of coursework, including courses currently in progress, and (3) are in a non-degree awarding major* must declare a new degree-awarding major before enrolling for a second semester. Students who do not declare a major within the stated time-frame will not be allowed to register for the next term and must contact their academic adviser and change their major before enrolling.

Newly admitted students who have previously earned 75 or more hours without receiving a baccalaureate degree must declare a degree-awarding major during their first term of enrollment.

Conditions for acceptance of a student into a major vary by department, school, and college. Majors should be declared or changed online at Normal 0 false false false EN-US X-NONE X-NONE MicrosoftInternetExplorer4 /* Style Definitions */ table.MsoNormalTable {mso-style-name:"Table Normal"; mso-tstyle-rowband-size:0; mso-tstyle-colband-size:0; mso-style-parent:""; mso-padding-alt:0in 5.4pt 0in 5.4pt; mso-para-margin:0in; mso-para-margin-bottom:.0001pt; mso-pagination:widow-orphan; font-size:10.0pt; font-family:"Times New Roman","serif";} BlazerNet. Some majors are subject to additional admission requirements and enrollment limitations.

School, Major, or Address Changes

Changes or corrections to a student’s address, telephone number, school, or major can be made online through BlazerNet or at or in person at One Stop Student Services, Room 103 of the Hill Student Center, 1400 University Blvd., Birmingham, Alabama 35294-1150.

Course Enrollment

Terms and Course Offerings

There are three academic terms during a calendar year: fall semester, spring semester, and summer semester. The fall and spring semesters each consist of approximately 14 weeks of classes, followed by one week of final examinations. The summer term consists of five sessions, each with its own time and format. The five summer term sessions are as follows: a fourteen-week session that runs throughout the summer term; the intensive May session, consisting of the first three weeks of the summer semester; a ten week session, beginning after the May session ends and running until the end of the summer semester; and the summer A and summer B sessions, which are seven weeks long and run back-to-back concurrently with the fourteen week session. The courses to be offered during a particular term are listed in the online Class Schedule. Summer/Fall class schedules are available to students in early March; spring semester schedules are available in late October. Early registration in April allows current students to enroll in fall semester classes on a priority basis. Class schedules are available in BlazerNET (http://www.uab.edu/blazernet) and also online http://www.uab.edu/home/academics.

Undergraduate Students in Graduate Courses

With the approval of their advisor, the undergraduate program director or department chair, and the instructor, UAB undergraduate students
may be allowed to register for a graduate course. Credits earned by undergraduate students may be applied to either an undergraduate degree or a graduate degree, but not both. If the student is subsequently admitted to the Graduate School, use of this credit toward a graduate degree requires the approval of the graduate program director and the Graduate School dean. (The Graduate School does not give credit for any grade below a “C-.”) Credits that have been used toward the baccalaureate degree cannot be used a second time toward a graduate degree.

Registration
A student wishing to attend any of the three academic terms must register for that specific term. A student is eligible to register if he/she has been admitted to UAB, the student’s financial records in the Student Accounting Office are clear, and the student is in good academic standing. An early registration period for fall semester will occur every spring for degree-seeking students.

A degree-seeking student who has not registered for course work over a period of one academic year must reapply for admission to resume study as a degree-seeking student. If accepted, the student is subject to the policies of the catalog current at the time of re-enrollment.

Registration can be accomplished online through BlazerNET (http://www.uab.edu/blazernet).

Credit Hours and Loads
The unit of credit at UAB is the semester hour. Course descriptions indicate the number of semester hours that may be earned for a particular course. A standard course load for a full-time student is 15 semester hours of course work in a semester. At least 12 semester hours of course work are required for full-time status. Registration for more than 18 semester hours in a term or more than three semester hours in the May Session requires approval by the dean or the dean’s representative of the school in which the student is majoring.

Prerequisites for a Course
Prerequisites are enforced for UAB students. Prerequisites are waived for transient students taking courses at UAB. It is the student’s responsibility to ensure that prerequisites for a course are met before registering for the course. Advisors are available to help with this determination. After term grade processing, students preregistered for a course in which they do not meet the prerequisites, will be dropped from the course.

First Class Attendance
An instructor has the prerogative to drop a student from a course if the student is absent without prior notification from the first class of a term. Such action is at the discretion of the instructor, and absence from the first class does not automatically drop the student from the course. If a student wishes to drop or withdraw from the course, the student must follow official drop or withdrawal procedures. A student who misses the first class of a term is responsible for determining his/her status in the class.

Attendance and Excused Absence Policy
UAB recognizes that the academic success of individual students is related to their class attendance and participation. Each course instructor is responsible for establishing policies concerning class attendance and make-up opportunities. Any such policies, including points for attendance and/or participation, penalties for absences, limits on excused absences, total allowable absences, etc., must be specified in the course syllabus provided to students at the beginning of the course term. Such policies are subject to departmental oversight and may not, by their specific prescriptions, negate or circumvent the accommodations provided below for excused absences.

The University regards certain absences as excused and in those instances requires that instructors provide a reasonable accommodation for the student who misses assignments, presentations, examinations, or other academic work of a substantive nature by virtue of these excused absences. Examples include the following:

- Absences due to jury or military duty, provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences of students registered with Disabilities Services for disabilities eligible for “a reasonable number of disability-related absences” provided students give their instructors notice of a disability-related absence in advance or as soon as possible.
- Absences due to participation in university-sponsored activities when the student is representing the university in an official capacity and as a critical participant, provided that the procedures below have been followed:
  - Before the end of the add/drop period, students must provide their instructor a schedule of anticipated excused absences in or with a letter explaining the nature of the expected absences from the director of the unit or department sponsoring the activity.
  - If a change in the schedule occurs, students are responsible for providing their instructors with advance written notification from the sponsoring unit or department.
- Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students.
- Absences due to religious observances provided that students give faculty written notice prior to the drop/add deadline of the term.

In these instances, instructors must devise a system for reasonable accommodation including, for example, policies allowing for dropped exams/quizzes, make-up exams, rescheduling of student classroom presentations or early or later submission of written assignments.

Add/Drop Procedures
Drop/Add deadlines are published in the Academic Calendar (https://www.uab.edu/students/academics/academic-calendar) available online. In the case of fall and spring semesters, the last day to drop a class without paying full tuition is the eighth calendar day of the term; the last day to add a class is also the eighth calendar day of the term.

It is the student’s responsibility to initiate add/drop procedures. Students may drop and add courses online after they have registered and until the drop/add deadline online using BlazerNET (http://www.uab.edu/blazernet) or in person in One Stop Student Services.

Students may register online if space is available or use the add/drop form and receive an instructor’s signature and special permission to enroll in classes that are filled to capacity. A student beginning the registration process during the late registration period will be assessed a late registration fee of $75.

Withdrawing from Courses

To avoid academic penalty, a student must withdraw from a course by the withdrawal deadline shown in the academic calendar and receive a grade of W (withdrawn). The withdrawal period ends at approximately 75% of the academic term. Failure to attend class does not constitute a formal drop or withdrawal.

Withdrawal from courses can only be accomplished using official procedures. The official withdrawal must be completed online in BlazerNET. In extraordinary circumstances, if it is impossible for the student to withdraw online the student may mail a withdrawal letter to the Office of the Registrar. The official date of withdrawal will be the date the letter is received in this office. If the official date of withdrawal is after the last day to drop without paying, no tuition or fees will be refunded.

For financial aid purposes, the date of last class attendance will be the official date of withdrawal unless otherwise documented. Note that individual schools may have withdrawal rules in addition to the above.

Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

Exceptions

All students are responsible for adhering to UAB’s academic policies, as published in the UAB Undergraduate Catalog. The Provost may make exceptions to policies. Exceptions will only be made in extraordinary circumstances. Only in cases of serious illness, which precludes a student from attending classes, or a call to active military service, can a student qualify under this policy for either administrative or academic withdrawal from courses from that semester. In such instances, students requesting an exception to policy must provide the cause specific documentation in order for the request to be considered.

Requests are evaluated only from written documentation and not through appointments or telephone calls. Information and forms are available online. [https://www.uab.edu/students/one-stop/policies/exceptions-to-academic-policy/academic-policy-appeal](https://www.uab.edu/students/one-stop/policies/exceptions-to-academic-policy/academic-policy-appeal)  (Please note that grievances of an academic nature are addressed through the Academic Grievance Policy). Requests for exceptions must be submitted at the earliest possible time. Consideration will not be given to any request submitted later than the term immediately following the term for which the exception is being requested.

A full reduction in tuition and associated fees will be made for appropriately documented serious illnesses or military service activation, which preclude a student from continuing his/her studies at UAB. For students receiving refunds, such refunds will first be applied to any outstanding obligations and to any scholarship, grant, or loan the student has received for that term. A student who is receiving any form of Federal Title IV Financial Aid will be liable for any unearned funds received as determined by the Federal Return of Funds Policy (check with Student Accounting Office [http://financialaffairs.uab.edu/content.asp?id=261145](http://financialaffairs.uab.edu/content.asp?id=261145) for details.)

Failure to adhere to the published drop and withdrawal deadlines (as outlined in the UAB Catalog and the UAB Class Schedule) does not qualify under this policy as an Academic Exception.

Course Completion

Final Examinations

The final examination for each course is scheduled for a designated period during finals week. The final examination time cannot be changed without the approval of the appropriate dean. A student with three or more exams scheduled in one day or two exams scheduled during the same final exam period may request to have one exam rescheduled by mutual agreement between student and instructor. The student’s request to the instructor should include appropriate written documentation of his/her schedule and should be provided to the instructor at least 14 calendar days prior to the last day of classes. Faculty are encouraged to work collaboratively with students and other faculty when such situations arise. Faculty reserve the right to administer an alternate examination at the rescheduled time.

Grading Policies and Practices

Grade Report

Final grades of all students are recorded and posted to their transcripts. In determining these final grades, the faculty may consider such things as grades received in daily recitations, written work, laboratory work, tests, and final examinations. Grade reports are available online.

Grades Assigned by the Faculty

A (superior achievement)
B (above average)
C (average)
D (minimally adequate)
F (failing)
P (passing) Applicable only to a course taken on a pass/fail basis.
I (incomplete) is a temporary notation which is assigned at the discretion of the instructor, and only if the following three conditions are met.

• The student, for nonacademic reasons beyond his or her control, is unable to complete course requirements.
• The student is, according to the instructor’s assessment, currently passing or has demonstrated the potential for passing the course.
• The student has made arrangements with the instructor, prior to the grade submission deadline, for completing the course requirements.

It is the responsibility of the student receiving an Incomplete to arrange with the instructor whatever action is needed to remove the Incomplete at the earliest possible date. If make-up work requires classroom attendance in a subsequent term, the student must register for the course as an auditor (with the instructor’s permission) and must pay tuition and associated fees.

An Incomplete will not be calculated in the student’s grade point average for the term in which the notation appears. However, an Incomplete that is not changed by the Instructor by the grade submission deadline of the
next semester automatically converts to an F. A notation of Incomplete may not be used to meet a prerequisite requirement. A student cannot graduate with an Incomplete notation on his or her academic record.

MT (Multi-term) is a temporary notation which may be assigned in departmentally approved courses, including theses, practica, and internships, if work cannot be completed within one semester. A notation of MT will not be calculated in the student’s grade point average for the term in which the notation appears. However, an MT notation that is not changed by the instructor by the grade submission deadline of the next semester automatically converts to an F. A student cannot graduate with an MT notation on his or her academic record.

Notations Assigned by the Office of the Registrar

W (withdrawn) A notation assigned by the Office of the Registrar reflecting an administrative action initiated by the student in accordance with regulations governing withdrawal from courses. “W” (withdrawn) may not be assigned by the instructor.

N (no grade submitted) A temporary notation made by the Office of the Registrar if no grade (A, B, C, D, F, I, or P) is assigned the student by the Registrar if no grade (A, B, C, D, F, I, or P) is assigned the student by the course instructor. This notation is used only when the Office of Registrar is unable to obtain a grade from the instructor prior to the issuing of grades for the semester or when the course is designed to extend beyond a single term. It remains the instructor’s responsibility to assign a permanent grade. If the instructor has not submitted a grade by the end of the following term, the “N” (no grade submitted) is changed automatically to an “F” (failing) by the Office of the Registrar. The notation “N” cannot be extended.

Study Abroad Grading Policy

Auditing

Auditing of any study abroad courses will not be permitted. This policy has been put into effect to ensure full participation by all students on such programs. This policy includes UAB student exchanges, UAB faculty-led programs, Non-UAB Programs (third party programs), and any other study abroad programs.

Grade Assignment and Posting of Study Abroad Grades to the UAB Transcript

In cases where a student is receiving a transcript from a foreign institution, UAB will honor the U.S. equivalent of the final grade that is assigned by that host institution and posted to the official transcript of said host institution. If a foreign institution assigns a pass/fail grade on their host institution transcript, then the UAB transcript will reflect such a pass/fail grade.

For those programs in which a UAB faculty member is teaching a class, the instructor will assign the final grade as is normally done for any regular UAB class taught on campus. See the Grading Policies and Practices section of the UAB Undergraduate Catalog. In most cases letter grades shall be assigned. Assignment of a pass/fail grade will be left to the discretion of the faculty leader/instructor of the course and will be determined on a case-by-case basis.

In all cases, students must participate fully in all course activities and meet all stated course requirements.

Grade Assignment and Posting of the Washington Center Grades to the UAB Transcript

UAB students wishing to participate in the Washington Center internship program must receive written permission from their academic department at UAB to enroll in the UAB internship course offered by their department prior to applying to the Washington Center. After permission is granted by the student’s academic department at UAB, but before the start of the internship, the student will enroll in the UAB internship course offered by the permission-granting department at UAB and will be assigned a UAB faculty member who will act as the instructor of record. The instructor will assign a final grade as is normally done for the internship course in that UAB department.

The Washington Center also offers courses and seminars, which will not count toward a UAB degree.

Grade Change Policy

Final grades for an I (Incomplete) or an MT (Multi-term) should be submitted no later than the grade submission deadline of the semester after the notation was originally awarded; Incomplete and Multi-term notations not changed by that time will convert to Fs. In general, end-of-course grades submitted to the Office of the Registrar are final and are not subject to change by reason of revision of the teacher’s judgment; nor are submitted grades to be revised on the basis of a second trial (e.g., a new examination or additional work undertaken or completed). Grade changes submitted in order to correct an error in computation or transcription must be made within two semesters after the grades were originally submitted. These grade changes must be submitted via BlazerNET and require the teacher’s statement as to the reason for the change, the approval of the department head, and the approval of the dean of the school in which the course is taught.

Auditing Courses

As an alternative to full participation in a course, students may audit the course. Auditors do not receive grades and do not usually participate in the examinations; however, instructors have the option of establishing requirements for a satisfactory audit.

Audit is similar to regular enrollment. Students choosing this option must be admitted to UAB; enroll in the course by completing a UAB registration form, indicating “AU” in the column labeled “Sem. Hrs.”; obtain the signature of the instructor; and pay the same tuition and fees as regular enrollees. Provided the instructor’s requirements are met, the course will appear on the transcript with the notation “AU” and zero semester hours credit.

If the requirements are not met, a “W” will be entered on the transcript.

Course registration, withdrawal, and drop policies apply to audited courses. In instances of over-enrollment, preference is given to students taking courses for credit, and auditing students may be dropped.

A student is not permitted to change from audit to credit or credit to audit at any time.

Courses Taken on a Pass/Fail Basis

A degree-seeking student who is in good standing may request permission from an instructor to register for a course on a pass/fail basis. The course must be one for which the student is eligible to register
and cannot be among those used to satisfy core requirements. The department housing the student's major must approve all courses taken on a pass/fail basis if used to satisfy major and minor requirements. A student must declare the intention to take a course on pass/fail basis by notifying the instructor prior to the first class meeting. It is recommended that students consult their academic advisors prior to taking any course as pass/fail.

Grades awarded for a pass/fail course are “P” (pass) or “F” (fail). A grade of “P” carries full credit for the course, but the course is not counted in calculating the grade point average. At most, twelve semester hours taken on a pass/fail basis may be used to satisfy degree requirements (not including courses for which “P” or “F” is the only grade awarded).

Course Repeat
A student may repeat any course in an effort to improve grades and/or to improve understanding of the course content. Students are encouraged to seek advice of an academic advisor before repeating courses.

A student may repeat an individual course no more than one time (for a total of two attempts). Under exceptional circumstances, and upon approval of a formal electronic appeal submitted to the Associate Dean of the College or School in which the course is taught, a student may be allowed to repeat a course for a second time (for a total of 3 attempts). A student may not appeal to repeat a course more than a second time. In order for an appeal to be considered, it must be submitted prior to the first day of the applicable term.

Both the original grade and the repeated grade(s) will show on the student's transcript. Both grades will also be calculated in the student's grade point average (GPA) unless the forgiveness policy is applied. It is the student's responsibility to notify the Office of the Registrar of his/her applying the forgiveness policy to a repeated course. The process is not automatic. (See Forgiveness Policy below). Academic departments and schools may have additional provisions regarding how repeat courses affect the calculation of GPA.

A course repeat takes place any time a student retakes a course for which that student has already received an A, B, C, D, F, P, W, AU, NP, MT, or N. Students should not re-enroll in a course for which they have been assigned a grade of I (incomplete) and will not be affected by this policy unless the I converts to a grade of F. Courses which are designed to be repeated (e.g. Independent Study, Special Topics, Music Recital, etc.) are exempt from this policy.

University Forgiveness Policy
UAB offers the undergraduate student a forgiveness option by which courses taken at UAB may be repeated at UAB, and the grade for the first course will be excluded from the calculation of his/her grade point average (GPA). If a student has repeated a course more than once, the student may choose which grade should be removed from the calculation. Only courses for which the student has received a grade of C, D, F, or F may be repeated under this option. The forgiveness policy may be used a maximum of four (4) times, only once for any course, which allows a student to use the forgiveness for four different courses. The transcript will show both the original grade and the course repeat grade, but only the grade points and credit hours earned in the repeated courses will be counted toward degree completion and averaged into the student's GPA. Once a course grade is declared forgiven, the decision is irrevocable. (The forgiveness policy can be invoked at any time for a repeated course; however, all forgiveness requests must be made prior to application for degree). It is the student’s responsibility to notify the Office of the Registrar of his/her applying the forgiveness policy to a repeated course. The process is not automatic.

The Forgiveness Policy can only be applied to grades earned at UAB and may not be applied after the student has graduated. Forgiveness forms are available online (https://www.uab.edu/students/one-stop/grades/forgiveness-form-forgiveness-policy) and also in One Stop Student Services.

Note that individual schools may have course repeat and forgiveness policy rules in addition to the above.

In accordance with the UAB Academic Honor Code, any course grade of F for academic misconduct supersedes any other grade or notation for that class and therefore is not eligible for replacement under the Forgiveness Policy.

The New Start Option
The New Start Option serves the student who previously accumulated a poor academic record, but who has recently demonstrated the ability to succeed in college-level work at UAB. The option enables the student to eliminate from the grade point calculation all grades and credit hours earned prior to the date of the New Start and begin anew with work from that point forward. To be eligible, a student must not have been enrolled in an academic institution for at least five (5) consecutive calendar years.

The policy does not apply to college graduates or to admission policies in the Schools of Nursing and Health Professions, nor to college graduates, admission policies and progress toward degree in the School of Education’s Teacher Education Programs leading to certification. Students seeking degrees in a Non-Certification Program are eligible for the New Start Option.

To apply for the New Start Option (https://www.uab.edu/students/academics/new-start-option), the student must obtain the written approval of an academic advisor. The application must be filed with the Office of the Registrar prior to graduation and must specify a date, called the New Start date, prior to which all grades and notations are voided. This application is available online: New Start Option (https://www.uab.edu/students/academics/images/documents/new-start-petition-form.pdf).

The application will not be considered until the following are met:

1. The student’s transcript contains at least 24 semester hours of course work applicable to a degree (i.e. hours earned, but not necessarily to a particular major) at UAB, posted after the requested New Start date.
2. The Higher Education GPA on all work taken after the requested New Start date, as well as the UAB GPA, must be at least 2.0.

Policies governing the New Start Option are as follows:

1. Upon approval of the application, all grades (including passing grades) and notations listed on the transcript prior to the New Start date are placed in a separate listing on the transcript and are voided for purposes of satisfying UAB degree requirements and computing GPA. The transcript carries the notation: “Approved for New Start (date); work prior to this date is not calculated in GPA or applied toward a degree.”
2. All work completed after the New Start date is counted toward completion of a degree, in accordance with policies of the catalog in
effect at the New Start date. The transcript will be re-evaluated from the New Start date. The forgiveness policy applies only to courses taken after the New Start date.

3. A course completed before the New Start date, and which is a prerequisite for a course to be taken later, must be taken again even if successfully completed before the New Start date, unless explicit exception is made by the chair of the department in which the course is taught.

4. The student may employ alternative credit to replace some voided courses taken prior to the New Start date.

5. A student may not use the New Start Option to graduate with honors.

6. The New Start Option may be granted only once during the student’s academic career at UAB and is irrevocable.

Academic Warning, Probation, and Suspension

Academic Warning

A first-term freshman (a student with no previous college credit, except through dual enrollment) will be placed on academic warning if a grade point average of at least 2.0 is not earned during the first term of enrollment. The freshman must meet with his/her academic advisor before the next registration period. If the second term’s UAB grade point average is not 2.00 or higher, the freshman will be placed on academic probation.

Academic Probation

A student (other than a first-term freshman) will be placed on academic probation if his/her UAB grade point average falls below 2.00 and will be required to meet with his/her academic advisor before the next registration period. At this meeting, the student and advisor will agree on a plan of action that will best help the student with his/her academic progress (e.g., courses to take or repeat, supplemental instruction, reduced credit hour load, basic skills seminars, etc.). The Academic Plan will be monitored by the student’s academic advisor throughout the probationary period. While on academic probation, the student must earn a minimum 2.0 term GPA each term of enrollment, or they will be suspended (first suspension is one term; any subsequent suspension is one year). In order to clear academic probation, the student must earn a UAB GPA of at least 2.0.

Academic Suspension

If while on academic probation a student fails to achieve a minimum term GPA of 2.0, the student will be suspended for one term. When returning from the one-term suspension, the student must meet with his/her academic advisor to be reinstated prior to registering for classes. The student will be reinstated on academic probation and must achieve a 2.00 or higher term grade point average each term until the UAB grade point average is at least 2.00. The student must achieve a UAB grade point average of at least 2.0 to have the academic probation removed.

Students wishing to return to UAB after a one-year suspension must submit an application for readmission and a letter of appeal for readmission to the Office of Undergraduate Admission. The deadline for a student to submit an application and letter of appeal for readmission will be eight weeks prior to the date of intended enrollment. By this deadline, an applicant must have submitted any attending documentation to support the appeal.

If readmitted to UAB after a one-year suspension, the student will be admitted under probation and must achieve a 2.00 grade point average each term until the UAB grade point average is at least a 2.00. If both the term grade point average and the UAB grade point average fall below 2.00, the student will be placed on suspension for one year.

Credits earned while on academic suspension from UAB or another institution may be eligible for transfer. However, the UAB Forgiveness Policy can only be applied to grades earned at UAB.

Note that individual schools may have probation and/or suspension rules in addition to the above.

All notations of academic warning, probation or suspension are a permanent part of a student’s transcript.

Appeal of a One-Term Academic Suspension

Students academically suspended from UAB for one term are not allowed to register for classes at UAB until the end of the suspension period. If a student appeals successfully, he or she will be immediately eligible for readmission.

The procedure for a student to appeal an academic suspension decision is as follows:

1. The suspended student must present a petition describing the extraordinary personal circumstances that contributed to his or her academic deficiencies. Such events must be highly unusual such as the death of an immediate relative, a serious illness, severe financial distress, or personal crisis. Each individual wishing to appeal an academic suspension is required to submit a petition outlining the reasons for the applicant’s previous academic problems and how the applicant plans to correct the problems. Each petition must be accompanied by appropriate documentation relative to the need for additional consideration and/or substantiating the extenuating circumstances related to the appeal. The student petition should be received in the Office of the Registrar no later than five working days prior to the beginning of the desired semester of entry. The suspension appeal documentation will be forwarded to the Suspension Appeals Committee.

2. The Suspension Appeals Committee is composed of five members (two faculty members appointed by the Provost’s designee, one student designated by the Student Government Association, one representative from Registration and Academic Records, and the University Registrar) who will review all petitions.

3. Should the Suspension Appeals Committee determine that an extraordinary personal event contributed significantly to the student’s academic deficiencies, and there is evidence of an adequate plan to address these extraordinary circumstances, they will recommend that the student be reinstated on academic probation. The student must maintain a minimum 2.0 grade point average or reach the retention standards each semester he or she remains in this status.

4. The decision of the suspension appeals committee is final.

The Office of the Registrar is the administrative unit responsible for the academic suspension appeals process. This unit is responsible for coordinating the appeals process, maintaining the official records and producing annual reports.
Transcripts

Transcripts may be requested online (https://www.uab.edu/students/onestop/academic-transcripts) or in person at One Stop Student Services.

Upon request by the student, the Office of the Registrar will send an official transcript directly to the recipient designated by the student. Official transcripts will not be issued to the student; however, an unofficial transcript may be issued to the student. There is a charge for each transcript. Transcript requests will be honored only for students whose financial accounts with UAB are clear, including payment of charges for the current term.

Classification of Students

Students are classified as sophomores when they have earned 30 semester hours of credit, juniors when they have earned 60 semester hours of credit, and seniors when they have earned 90 semester hours of credit.

Overall Credits and Grade Point Average

The official determination of “credit hours earned,” “credit hours attempted,” and “grade point average” is made only by the Office of the Registrar. The following sections indicate how these figures are calculated. Transfer work and courses taken at UAB are treated on the same basis. Developmental courses are not included in calculations of credit hours earned, credit hours attempted, or grade point average.

Credit Hours Earned

The student’s “credit hours earned” are increased by:

1. Earning a passing grade (D or better) in a course for which the student was registered for credit.
2. Obtaining the “Pass” grade in a course taken on a pass/fail basis.
3. Obtaining the “Pass” grade for alternative credit.

Credit Hours Attempted

The student’s “credit hours attempted” are increased by:

1. Receiving an A, B, C, D, or F in a course for which the student was registered for credit.
2. Receiving the “Fail” grade in a course taken on a pass/fail basis.

Grade Points

Four quality grade points are awarded for each semester hour for which the student received an A grade; three quality grade points are awarded for each semester hour in which a B is obtained; two quality grade points are awarded for each semester hour in which a C is obtained; and one quality grade point is awarded for each semester hour in which a D is obtained. No quality grade points are awarded for an F.

Grade Point Average

The grade point average is determined by taking the grade points obtained and dividing by the credit hours attempted (not credit hours earned). The UAB grade point average is determined using only work attempted at UAB. The cumulative (overall) grade point average is determined by calculating all college work attempted.

Academic Honors

UAB compiles and publishes an honor roll at the close of each regular term. Only UAB work is considered. To be eligible for the Presidential Honors List, students must be registered for and complete at least 12 semester hours of credit and have a 4.0 grade point average for the term. Students who register for and complete at least 12 semester hours of credit and who attain a grade point average of at least 3.6 are included in the Dean’s List for the term. Superior scholastic achievement may be further recognized by election to membership in appropriate national honorary societies.

Transfer Credits

Collegiate coursework earned at postsecondary institutions that are fully accredited (or in candidacy status) by regional accrediting associations will be considered for transfer to UAB and may be applied toward the fulfillment of degree requirements.

Courses Taken as a Transient Student

To take a course at another institution while enrolled as a degree-seeking student at UAB, a student must submit a Transient Student Request via BlazerNET prior to enrolling in the course. The student must check with his/her academic advisor to determine whether the course is transferrable and will be applicable toward a degree at UAB. Further, the student must be in good academic standing (i.e., has a minimum 2.0 GPA at UAB).

Alternative Credit Opportunities

In some instances academic credit may be awarded for work done in a format other than a college course. Credits earned in this way are recorded on the transcript with a grade of P. Such credits may not be used in repeating a course and may not be awarded for work equivalent to a course that is a prerequisite to a course already taken for credit. No more than 45 semester hours of alternative credit may be applied toward a degree.

Opportunities for earning credit outside the normal course format include:

Advanced Placement (AP)

The amount of credit awarded and the examination score required are stated in the current policy. To determine which tests are eligible for UAB credit please see the Advanced Placement Credit Table (p. 97).

College Level Examination Program (CLEP)

The CLEP General Examination must be taken before 15 semester hours of college work have been completed. The subject-area examinations are assigned credit as listed in the UAB CLEP Policy statement. For more information on CLEP testing schedules, fees and study guide information, please contact the UAB Testing Office http://www.uab.edu/testing or call (205) 934-5503. To determine which tests are eligible for UAB credit please see the College Level Examination Program Credit Table (p. 98).

International Baccalaureate Credit (IB)

Academic credit may be awarded for scores of five or higher on IB standard-level and higher-level examinations. To determine
which tests are eligible for UAB credit please see the International Baccalaureate Credit Table (p. 99).

**Credit by Examination (CBE)**
A degree-seeking student may petition to obtain credit for a course by taking an examination; however, not all programs accept CBE. It is the student’s responsibility to verify the applicability of CBE courses for major/minor requirements. The relevant department must agree to create and grade the examination. If a student takes CBE in a course that he/she has already taken for credit, the grade for CBE will not replace the grade for the previous course. The fee for CBE is based on the current rate of tuition according to level (undergraduate/graduate) and residency status. The Credit by Examination application is available online: CBE Form. (https://www.uab.edu/students/admissions/images/forms/credit-by-exam-application.pdf)

**Credit by Portfolio (CBP)**
A degree-seeking student may petition to receive credit for a course on the basis of a portfolio of information documenting knowledge of the course material. The chair of the appropriate department and dean of the school make the final decision on acceptability of the materials for credit. The fee for CBP is based on the current rate of tuition according to level (undergraduate/graduate) and residency status. The Credit by Portfolio application is available online: CBP Form.

**Non-collegiate Courses**
Credit may be awarded for non-collegiate courses in accordance with American Council on Education recommendations and approval of the appropriate department chair and dean.

**Credit for Military Experiences**
UAB evaluates military service and educational experiences completed by active-duty military service and Coast Guard personnel. UAB is an institutional member of Service Members’ Opportunity Colleges.

**Dante's Subject Standardized Tests (DSST)**
The DSST, prepared by the Chauncey Group, is a nationally recognized credit by examination program that awards college credit for courses taken by examination. DSST Examinations are scheduled individually, by appointment. To determine which tests are eligible for UAB credit please see the DANTES Subject Standardized Test Credit Table (p. 99).

**Cooperative Exchange Programs**

**Birmingham Area Consortium for Higher Education (BACHE)**
UAB, Birmingham-Southern College, Miles College, the University of Montevallo, and Samford University have established the Birmingham Area Consortium for Higher Education (BACHE) to expand educational opportunities for their students. Please visit the website http://www.uab.edu/bache/ for more information on BACHE.

**The University of Alabama System**
UAB students may also enroll in courses at the University of Alabama and the University of Alabama in Huntsville through the University of Alabama System Cooperative Exchange Program. Any full-time, degree-seeking UAB student who is in good academic standing may, with written permission from his/her academic advisor and dean, and at no additional charge, take a course at another cooperative exchange institution if it is not offered at UAB and it is deemed to be beneficial to the student’s overall educational program. All courses eligible to be taken through the cooperative exchange programs must be articulated by UAB prior to the student’s registration. Credit for work completed under the cooperative programs will be posted on the student’s record as UAB credit.

**Conduct and Complaints**

**Student Conduct**
The university expects mature and honorable behavior from every student and reserves the right to take appropriate disciplinary action when such behavior is not forthcoming.

**Academic Conduct**
All UAB students are expected to be familiar with the UAB Academic Honor Code as well as any honor codes that are specific to their schools or disciplines.

The code represents a commitment to integrity in the academic community and a respect for an individual’s educational endeavors:

I have read and, by choosing to become a member of the UAB academic community, accept the UAB Academic Honor Code. I understand that violation of this code will result in penalties as severe as expulsion from the university. I promise and confirm that I will not, at any time and under any circumstances, involve myself with abetting, cheating, plagiarism, fabrication, or misrepresentation while enrolled as a student at the University of Alabama at Birmingham.

**The UAB Academic Honor Code**
UAB expects all members of its academic community to function according to the highest ethical and professional standards. Students, faculty, and the administration of the institution must be involved to ensure this quality of academic conduct. Academic misconduct undermines the purpose of education. Such behavior is a serious violation of the trust that must exist among faculty and students for a university to nurture intellectual growth and development. Academic misconduct can generally be defined as all acts of dishonesty in an academic or related matter.

Academic dishonesty includes, but is not limited to, the following categories of behavior:

- **ABETTING** is helping another student commit an act of academic dishonesty. Allowing someone to copy your quiz answers or use your work as their own are examples of abetting.
- **CHEATING** is the unauthorized use or attempted use of unauthorized materials, information, study aids, the work of others, or computer-related information.
- **PLAGIARISM** means claiming as your own the ideas, words, data, computer programs, creative compositions, artwork, etc., done by someone else. Examples include improper citation of referenced works, the use of commercially available scholarly papers, failure to cite sources, or copying another person’s ideas.
FABRICATION means presenting falsified data, citations, or quotations as genuine.

MISREPRESENTATION is falsification, alteration, or the misstatement of the contents of documents, academic work, or other materials related to academic matters, including work substantially done for one class as work done for another without receiving prior approval from the instructor.

Violations of the UAB Academic Honor Code are punishable by a range of penalties, from receiving a failing grade on an assignment to an F in the course to dismissal. Any course grade of F for academic misconduct supersedes any other grade or notation for that class. Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

Procedure for Suspected Violation

In the event of a suspected violation of the Academic Honor Code, UAB follows this procedure:

1. Upon reaching the conclusion that academic dishonesty may have occurred and that action is warranted, the instructor should inform the student of the charge as soon as possible. The student has the right to hear the instructor’s reasons for making the charge, to inspect all relevant evidence in the instructor’s possession, and to respond to the charge. Based on the student’s response and all the evidence, the instructor will determine if a penalty is appropriate. If a penalty is deemed appropriate, the instructor will inform the student of the action to be taken. If the student is not in agreement with the findings or the penalty, the instructor will provide the student with a written statement of the action taken and the basis for it. A copy of this letter will be sent to the chair of the department.

2. Within two weeks of this notification of a judgment of academic dishonesty, the student may appeal the instructor’s decision by letter to the chair of the department or his/her designated representative. The chair, acting expeditiously, should take testimony from the student, the instructor, and all appropriate witnesses and make a decision. If the chair reverses the finding of academic misconduct, the instructor must reexamine the work in question and assign credit without prejudice. In the event that the chair is the instructor in the course, the dean will replace the chair in the appeal process.

3. In cases where a grade of F is assigned in the course and the student has utilized the appeal process described above (in section 2), the student has two weeks to appeal the decision by letter to the dean of the school responsible for the course. The dean should acknowledge receipt of the student’s appeal and inform the student of the course of action within 10 working days of the date the appeal is received in the dean’s office. At the dean’s discretion, an advisory panel may be appointed to study the appeal and make a recommendation to the dean. However, it is the responsibility and prerogative of the dean alone to make, in a timely manner, the final decision. The decision of the dean is final.

4. In cases where the final decision concerning an academic misconduct charge is an F for the course, a letter to this effect will be sent to the Office of the Registrar and be kept on file. The course repeat policy will not apply to course grades resulting from instances of academic misconduct. In these cases, the grades of F received will be computed in the UAB grade point average.

A student who has received the grade of F for two instances of academic misconduct will be expelled from the university. Under certain circumstances, a student may be expelled on the first offense. The student will be duly informed of the pending expulsion and will be provided the opportunity to be heard. The student has two weeks after notification to file a request for an appeal hearing with the Office of the Provost. The ad hoc appeals committee will consist of two people designated by the Provost, one student appointed by the President of the USGA, and two faculty members appointed by the chair of the Faculty Senate. The Provost will designate the person to serve as chair who will coordinate and preside at all meetings. Students expelled from UAB for academic misconduct will have that noted on their transcripts.

In addition, students should consult the policies of the school/program in which they are enrolled to determine school/program guidelines and penalties regarding academic misconduct and suspension for academic misconduct. Schools that suspend a student on the first offense may post this offense on the student’s UAB academic record.

A student suspended from a UAB school for academic misconduct will have a hold placed on his/her registration and will not be permitted to enroll in another UAB school without that school’s permission. Some UAB programs have policies preventing enrollment of students with past academic misconduct offenses.

Note that individual schools may have academic misconduct rules in addition to the above.

Non-Academic Conduct

Your first priority at UAB is to get a great education, plain and simple. The Non-Academic Conduct Policy, maintained by the office of Student Engagement, provides the guidelines that protect your chance at getting that top-quality education by setting the standard for what it means to be a successful student.

Non-Academic Student Conduct Policy

Student Engagement, specifically regarding student conduct is one of many channels that the university can use to foster the personal development of its students. In cases where a student engages in non-academic misconduct, the conduct process is also an approach that we use to protect the safety of the university community. While the conduct process does adjudicate misconduct, it is not a legal system. The conduct process does not use the same procedures, burdens of proof, or rules of evidence as the legal systems. In order to maintain an educational tone, the university takes steps to ensure that the process is as non-adversarial as possible, while still safeguarding the rights of students.

The non-academic misconduct process is an integral part of the educational mission and goals of UAB and Student Life. The Office of Student Engagement oversees and implements the non-academic misconduct process. The nonacademic misconduct process is designed to provide and help maintain an educational atmosphere with emphasis on developing individual understanding and acceptance of personal and social responsibilities; creating a sense of belonging within a welcoming environment; and challenging and supporting students to reflect, integrate, and act upon their UAB experience.

Report a violation of the Code of Conduct

Student Complaints

Academic Matters

Judgments on academic matters are most appropriately made by individuals with expertise in the particular academic discipline involved. For this reason, complaints by students on academic matters are
the responsibility of the department and school involved. Normally, such complaints can be resolved quickly through discussion with the faculty directly involved. In rare situations where such resolution does not occur, the student should contact the chair of the appropriate academic department to file a formal grievance. The student’s grievance should be submitted in writing and accompanied by any appropriate documentation. Grievances should be submitted at the earliest possible time. Consideration will not be given to any grievance submitted later than the end of the term immediately following the term in which the matter in question arose. The department should acknowledge the date the grievance is received and provide notice to the student of when an answer may be expected. It is the responsibility of the department chair to provide an answer to the student within 10 working days. If the matter cannot be settled within the department, the student has 10 working days from the day the department’s response is received to appeal to the dean of the school in which the department is located. At the dean’s discretion, an advisory panel may be appointed to study the disagreement and make a recommendation to the dean. However, it is the responsibility and prerogative of the dean alone to make, in a timely manner, a decision on any academic disputes which have not been resolved at lower levels, and the decision of the dean is final.

Non-Academic Matters

When complaints on non-academic matters cannot be settled by the persons directly involved, a written complaint should be forwarded to the appropriate office. If the administrative officer is unsuccessful in resolving the complaint, it may then be forwarded in writing to the Provost or a designee for further consideration. For specific information concerning the procedures and processes for non-academic complaints and grievances, contact the Office of Student Engagement or visit the following web site http://www.uab.edu/students/sarc/

Completion of a Degree

Requirements

Baccalaureate Degrees

Requirements for the baccalaureate degree at UAB include at least 120 semester hours of appropriately distributed courses, a UAB GPA of 2.00, a 2.00 GPA on all college work attempted (Higher Education grade point average), and satisfaction of the Core Curriculum, major, minor (if required), and residency requirements, along with all other criteria specified by the school or department governing the major.

Students are subject to the catalog policies in effect at the time of their most recent admission as a degree-seeking student, with the following exceptions. Seven years after the date of their first enrollment as a degree-seeking student, policies of the catalog currently in effect become applicable. The student who is not enrolled at UAB for 12 consecutive months must meet the requirements of the catalog in effect at the time of re-enrollment. For courses required for the major or minor, the administering department(s) may establish written policies for the re-certification of courses taken more than seven years previously.

Residency

At least 25 percent of the total semester hours required for graduation must be taken at UAB. At least 21 of the last 30 semester hours must be taken at UAB or on a program supported by the UAB Office of Education Abroad. Courses taken as alternative credit or as a non-degree student (excluding post-baccalaureate students) may not be used to satisfy the residency requirement. A minimum of nine semester hours required for the major (at or above the 400 level) must be completed at UAB or on a program supported by the UAB Office of Education Abroad. Individual departments may have additional requirements.
Total Credits and Averages
The minimum total credit hours required for a baccalaureate degree is 120 semester hours. The student must have a higher education grade point average of at least 2.00 (C) in all credit hours attempted at all institutions including UAB and an average of at least 2.00 (C) in all credit hours attempted at UAB.

Distribution of Credits
In addition to the overall requirements mentioned above, there are important requirements for the distribution of credits. All programs of study leading to the baccalaureate degree have as an essential component a common Core Curriculum. Students majoring in the Schools of Business, Education, Engineering, Nursing, and Health Professions satisfy Core Curriculum requirements in addition to specific school requirements and requirements in their chosen major(s). In the College of Arts and Sciences students meet Core Curriculum requirements, requirements for a major specialization, and any requirements for a minor, specialization or concentration, if required.

Major
Requirements for majors vary and can be found in the sections of this catalog on the specific academic unit responsible for the major. A minimum C average in the major is required for graduation. Furthermore, the academic unit responsible for the major may require the student to repeat, or otherwise compensate for, any course required for the major in which a grade below C was earned. Majors should be declared (https://www.uab.edu/students/academics/student-success/declare-your-major) or changed (https://www.uab.edu/students/academics/changing-majors) online. Some majors are subject to additional admission requirements and enrollment limitations.

Double Major
Students who wish to double major must maintain an affiliation with one school and graduate under that school's core curriculum and major requirements. In addition, the student must complete the requirements for the second major including all prerequisites. It is important for students to maintain contact with advisors of both majors so that requirements are completed for both majors.

Dual/Multiple Degrees
A bachelor's degree is based on at least 120 semester hours of coursework. For each additional degree, a student must complete at least 30 semester hours of work over and above the work done for the first degree. As with the first degree, work done for each additional degree must include any necessary prerequisites for the new major and all major requirements. The residency requirement must be met for each degree.

Second Bachelor's Degree
After graduating with a bachelor’s degree, a student may earn a second bachelor’s degree by completing in residence, with an average of C or better, at least 30 semester hours of work taken subsequent to awarding of the first degree. Work done for the second degree must include any necessary prerequisites for the new major and all major requirements. The first degree, whether earned at UAB or another regionally accredited institution, must be based on at least 120 semester hours of fully accredited work. No minor is required for the second degree. A student interested in earning a second degree is required to have the program of study approved by the school in advance.

Minor
The availability of minors is indicated in the sections of this catalog on the various schools. The course requirements for the minor are specified in the catalog section for the department offering the minor. The department offering the minor may require the student to repeat, or otherwise compensate for, any course required for the minor in which a grade below C was earned. Whether a minor is required for a particular major is specified in the catalog section for the school in which the major resides.

Individually Designed Majors and Minors
Students with specific career goals or with unique intellectual objectives may propose majors and minors designed to meet their individual academic needs. The Individually Designed Major requires a minimum of 40 semester hours in the major, of which at least 20 semester hours must be in courses numbered at or above 300 and approved for use towards a major, with a minimum of a C average. Students are not permitted to apply the same individual course(s) to satisfy both a minor and a major. In addition, students must prepare a rationale for a nonstandard major-level course of study, complete Core Curriculum requirements, and complete any additional requirements set by the school in which the degree will be awarded. The Individually Designed Minor requires completion of 21 semester hours, of which nine semester hours must be in courses numbered at or above 300, with a minimum of a C average. The Individually Designed Major or Minor must be reviewed and approved by the departments involved, by the dean of the school in which the degree will be awarded, and by the Office of the Registrar.

Limitations on Some Types of Credit
For some types of credit, there are limitations on the amount that can be applied toward the minimum hours required for a baccalaureate degree (usually 120 semester hours).

1. For credits transferred from a two-year college, the limit is no more than one-half the number required for a baccalaureate degree, provided that the work is freshman (100) or sophomore (200) level.
2. For alternative work, including Advanced Placement, College Level Examination Program, credit by examination, evaluation of non-collegiate-sponsored courses, credit for military services courses, International Baccalaureate credit, and credit by portfolio, the limit is no more than 45 semester hours.

Bachelor's Degree with Honors
The Higher Education grade point average is used in conferring academic honors at graduation and is based on all college work attempted. Honors designations are conferred according to the following GPA Ranges:

<table>
<thead>
<tr>
<th>GPA Range</th>
<th>Designation</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50 - 3.69</td>
<td>cum laude</td>
</tr>
<tr>
<td>3.70 - 3.89</td>
<td>magna cum laude</td>
</tr>
<tr>
<td>3.90 or above</td>
<td>summa cum laude</td>
</tr>
</tbody>
</table>

Procedures for Applying for a Degree
Students are advised to file an online application for degree at least two terms prior to completing work for a baccalaureate degree. This will
allow time for the application to be processed and completion of degree requirements to be verified. The absolute deadline to apply for degree is the tenth day of the term in which the student plans to graduate. Online applications are available at http://www.uab.edu/commencement/degree-applications.

Graduation

Official UAB graduation ceremonies are held in May for graduates of the preceding spring semester and in December for graduates of the preceding summer term and fall semester. Graduates are listed in the commencement program. Students who have completed the requirements for baccalaureate degrees are urged to attend.

Although degrees are officially conferred in April and December, students receive their diplomas approximately four weeks after the end of the regular term in which they complete their degree requirements, provided the application for degree is submitted by the published deadline. Please visit the commencement website for additional information http://www.uab.edu/commencement.

The UAB Undergraduate Academic Experience

Shared Vision for a UAB Graduate

The Shared Vision for a UAB Graduate reflects high expectations in the areas of Communication, Knowledge, Problem-Solving, and Citizenship.

Communication - A UAB graduate

• Participates effectively in the world of ideas and information.
• Reads with comprehension, attention to detail, and an awareness of context, tone, and interconnections with other texts, life experiences, and public events.
• Writes correctly and effectively in response to specific needs and for diverse audiences and contexts.
• Speaks effectively as determined by audience, setting, and circumstances.
• Uses information technology effectively for professional communication.

Knowledge - A UAB graduate

• Possesses a depth and breadth of knowledge sufficient for informed decision-making.
• Demonstrates substantial knowledge in a disciplinary major.
• Differentiates among methodologies, major ideas and figures, and specific information or issues relevant to the sciences and humanities.
• Uses effectively the technology appropriate for one’s discipline.

Problem-Solving - A UAB graduate

• Collects and evaluates data and analyzes complex issues, using appropriate methods.
• Demonstrates critical thinking skills by synthesizing information, making reasonable arguments, and arriving at logical conclusions.
• Demonstrates quantitative reasoning by interpreting data in multiple formats and applying quantitative methods to solve complex problems.
• Demonstrates the ability to achieve goals through collaboration.

Citizenship - A UAB graduate

• Is aware of contemporary issues and prepared to engage responsibly in the community.
• Understands civic responsibility and engages in informed decision-making with respect to social and political issues.
• Recognizes that values and ethics are integral to one’s academic, personal, and professional life.
• Respects the significant role of diversity in the contemporary world.

The Shared Vision for a UAB Graduate is achieved through the UAB Undergraduate Academic Experience, which begins with the first year experience and the core curriculum; continues with major courses, elective courses, and perhaps courses required for a minor or certificate; and culminates in a capstone experience.

First Year Experience

Every UAB first year student will share a common foundation for learning, whatever their majors or professional goals. This common foundation is found in the Discussion Book and the First Year Experience (FYE) course.

Discussion Book

Since 2005, UAB has selected an annual UAB Discussion Book as one focal point for uniting first year students with the returning students, faculty, and staff of this research extensive campus. In addition to providing all UAB community members with a common ground for discussion, the Common Reading program provides a contextualized foundation upon which students, faculty, and staff may explore personal and shared interests in issues related to civic engagement and social awareness. The Discussion Book has literary merit, raises complex questions, is relevant to contemporary issues, and broadens the reader’s understanding of diversity in a meaningful way. Students are able to purchase the book at the UAB Bookstore during New Student Orientation.

Intentionally designed to foster a sense of community among all participants, programming related to UAB’s Common Read includes activities throughout the academic year in courses, residence hall activities, and student life. The Common Read provides a focus point for students to explore and discuss their transitional experiences during their collegiate journey and is integrated into First Year Experience courses that are taught by the Vulcan Material Academic Success Center team as well as other core curriculum courses. Partnerships among colleagues within the Division of Student Affairs increases the diversity of events offered that connect curricular engagement through co-curricular activities in students’ residence halls and social space as well as the classroom.

First Year Experience Course Requirement

Students entering UAB with fewer than 24 hours of college credit must enroll in and pass a first year experience (FYE) course in their first 24 credit hours at UAB.

FYE courses are the gateway to undergraduate education at UAB. FYE courses improve student success by helping to bridge the gap between high school experiences and university expectations and enhance successful progress towards graduation by establishing the foundations
for academic achievement and holistic development. FYE courses include:

- Freshman Learning Communities
- College-, School-, or Department-focused FYE courses, which may be the required option for certain majors (check catalog requirements).

**Core Curriculum Requirements**

Sometimes called general education courses, the core curriculum is a selection of required and elective courses that together promote six competencies which build the foundation for attainment of the Shared Vision for a UAB Graduate.

A graduating student should be able to demonstrate the following core competencies:

- Reading and writing skills sufficient to ensure access to information and ideas in the institution’s curriculum as well as in society at large.
- An ability to make aesthetic judgments in the arts, literature, and humanities based on relevant historical, social, or philosophical contexts.
- The ability to collect and evaluate information within the context of the scientific method and to use this ability to further one’s understanding of the natural world.
- The ability to apply mathematical skills and quantitative reasoning to solve problems and interpret information.
- The ability to reason and evaluate information within the context of the social and behavioral sciences and to use this ability to further one’s understanding of the social, economic, and political environment.
- Knowledge of contemporary and/or historical issues.

**Who is required to fulfill the Core Curriculum Requirements?**

- First time college freshmen who have no credit for college work (excepting credit earned while still enrolled in high school).
- Those returning UAB students or transfer students who are enrolling as a degree student after an absence from college of more than 12 months.
- Students who enrolled for the first time in any institution of higher education in Fall 1998 or later and who subsequently transferred to the University of Alabama at Birmingham.

Any student with a valid articulation contract from an Alabama two-year school will be able to enroll under the terms of the contract. Contracts prior to Fall 1998 must have been submitted to UAB's Office of Admission according to the procedures in place at the time.

Since Fall Term 2000, all undergraduate students entering UAB have been subject to the 1998 Core Curriculum requirements.

**Can One Satisfy Core Curriculum Requirements with Alternative Credit?**

Students may satisfy certain Core Curriculum requirements by presenting credit earned through the following: Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP), and Credit by Examination (CBE). Students with AP, IB, or CLEP credit must have official documents sent to the Office of Enrollment Management, ATTN: Alternative Credit, 1605 Building, 1605 11th Avenue South, (205) 934-5503, for evaluation and acceptance before credit can be posted on the UAB transcript.

**What Courses Satisfy Core Curriculum Requirements?**

Core curriculum requirements are divided into four areas, and all students must fulfill requirements in each area. See Collat School of Business and School of Engineering sections of this catalog for their specific variations. Majors may also have specific requirements in each area, as indicated in this catalog.

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

**What is the relationship between the core competencies and the core curriculum courses?**

The matrix below identifies how specific core curriculum courses introduce or reinforce the desired core competencies which build the foundation for attainment of the Shared Vision for a UAB Graduate. Faculty who teach courses in the disciplines have identified these core competencies as essential for success in upper-division major courses.

UAB has chosen to place special emphasis on three essential competencies embodied in the six core competencies identified below. These targeted competencies are writing, quantitative literacy, and ethics & civic responsibility. Core courses which intentionally provide specific instruction in, practice of, and assessment of writing, quantitative literacy, and ethics & civic responsibility are identified below with a W, QL, and/or ECR.

**The UAB Core Curriculum Matrix Core Competency**

**Demonstrate reading and writing skills sufficient to ensure access to information and ideas in the institution’s curriculum, as well as in society at large.**

**Core Curriculum Courses In Which Practiced and Reinforced**

| AAS 200 Introduction to African-American Studies | 3 |
| ARH 204 Early Modern-Contemporary Art | 3 |
| EH 102 English Composition II | 3 |
Core Competency

Demonstrate the ability to collect and evaluate information within the context of the scientific method and to use this ability to further one's understanding of the natural world.

Core Competency

Demonstrate an ability to make aesthetic judgments in the arts, literature, and humanities based on relevant historical, social, or philosophical contexts.

Core Competency

Demonstrate the ability to apply mathematical skills and quantitative reasoning to solve problems and interpret information.
Core Competency

Demonstrate knowledge of contemporary and/or historical issues.

Learning Outcomes for Writing include:

1. Respond to an assigned topic in a way that shows responsible concern for an identified audience.
2. Write a logical argument that makes an unambiguous claim, marshals reasonable and appropriate evidence, and takes seriously the perspectives of others by fairly presenting and responding to alternative claims.
3. Incorporate external sources pertinent to the argument and document such sources accurately and appropriately, demonstrating academic integrity when referencing the ideas of others.
4. Demonstrate an appropriate level of competence in grammar, usage, and mechanics.

Writing (W)

Effective communication skills are fundamental to competent functioning across the undergraduate curriculum and in life beyond graduation. Improving writing contributes to the development of other communication competencies, such as reading and public speaking. Writing is crucial to critical thinking and effective problem-solving, as well as for the communication of knowledge. The ability to write effectively is a key skill that contributes to professional advancement, successful personal relationships, and responsible civic involvement. Writing designated courses have a “W” designation in their description. To foster this essential competency, every program ensures that its majors take a minimum of two W courses between the First Year Experience and the Capstone.

Learning Outcomes for Writing include:

1. Respond to an assigned topic in a way that shows responsible concern for an identified audience.
2. Write a logical argument that makes an unambiguous claim, marshals reasonable and appropriate evidence, and takes seriously the perspectives of others by fairly presenting and responding to alternative claims.
3. Incorporate external sources pertinent to the argument and document such sources accurately and appropriately, demonstrating academic integrity when referencing the ideas of others.
4. Demonstrate an appropriate level of competence in grammar, usage, and mechanics.
5. Accurately use the writing conventions appropriate to the discipline.

**Quantitative Literacy (QL)**

Quantitative literacy is fundamental to solving quantitative problems that occur in school, life, and work, and in communicating solutions to those problems to others. Quantitatively literate students are able to understand and, as necessary, interpret a problem in quantitative terms and then solve it using appropriate methods. Like verbal literacy, quantitative literacy is critical to effective citizenship, communication, and personal and social responsibility. Quantitative Literacy courses have a “QL” designation in their description. To foster this essential competency, every program ensures that its majors take a minimum of two QL courses between the First Year Experience and the Capstone.

Learning Outcomes for Quantitative Literacy:
1. Compute using arithmetic and algebra, work with units of measurement, translate verbal descriptions into mathematical form, and/or evaluate the reasonableness of quantitative assertions.
2. Interpret and construct tables, graphs, and schematic representations of relationships among objects and concepts.
3. Draw conclusions based on probabilities, costs, benefits, and risks.
4. Use quantitative evidence as a basis for reasoning, problem-solving, and argument.
5. Design empirical research, evaluate research designs, and analyze data to draw conclusions about research hypotheses.
6. Communicate quantitative information using numbers and words appropriate to the audience.

**Ethics and Civic Responsibility (ECR)**

The role of a university is to prepare students to function effectively and engage responsibly in both the academic community and post-graduation life. Ethical decisions should be academic, personal, and professional goals for everyone. Effective and responsible living depends upon the ability of individuals to strive for excellence, to make informed and ethical decisions, to accept responsibility for one’s choices, and to practice good citizenship as part of multiple larger social units. Ethics and Civic Responsibility courses are have an “ECR” designation in their description. To foster this essential competency, every program ensures that its majors take a minimum of two ECR courses between the First Year Experience and the Capstone.

Learning Outcomes for Ethics and Civic Responsibility:
1. Understand and practice ethical reasoning and decision-making.
2. Be knowledgeable about contemporary events and issues.
3. Understand civic responsibility.
4. Understand the role and value of diversity.

**Capstone Requirement**

UAB’s undergraduate programs culminate in a capstone requirement. The capstone provides a summative opportunity for students to draw upon, synthesize, and apply what they have learned to an original project and/or real life application. Depending on the discipline, the capstone may involve such components as collaborative projects, internships, service learning, fieldwork, independent research, community outreach, and/or thesis writing. In every case capstones include a set of well-defined learning outcomes, significant writing, and integration of discipline-specific competencies in quantitative literacy and in ethics and civic responsibility. Most importantly the capstone provides an enriching bridge experience for students between their undergraduate education and post-graduation lives.

All UAB students must successfully complete the capstone course or experience required by their major program or school in order to graduate.

**Academic Engagement & Global Citizenship**

The Office of Academic Engagement and Global Citizenship is comprised of two offices and three programs that promote academically enriching and engaging experiences for students across campus. UAB Education Abroad (p. 106) administers and establishes study abroad programs, assistance for student organization travel abroad, assistance for student travel to attend conferences that take place abroad as a UAB representative, and passport application acceptance services. The UAB Office for Service Learning and Undergraduate Research (p. 108) engages students, faculty members, and community partners into academically-based service experiences that both enrich student learning and provide community benefit. The Office also supports and fosters the research, scholarship, and creative activities across all disciplines between students and their faculty and community mentors.

**Education Abroad**

**Director:** Brian E. Johnson, Ph.D.

**Coordinator:** Megan K. Talpath

**Contact:** www.uab.edu/educationabroad | 205-975-6611

**Mission**

The mission of the UAB Office of Education Abroad (UABEA) is to administer, establish, and send UAB students on high-quality education abroad opportunities to prepare them for success in the globalized world.

**Description**

Pursuant to our mission, UABEA engages in the activities described below.

**Study Abroad**

Take courses for which academic credit is received and transferred to UAB on our supported study abroad programs. This includes academic credit for student exchanges, UAB affiliate programs, and faculty-led programs that feature traditional classes, research, service learning, internships, volunteerism, shadowing, clinical rotation, and observations. Our office can help students with aspects from selecting a program to facilitating their transition back to UAB.

**Student Organizations Abroad**

Travel abroad as part of a UAB student organization; including Outreach Abroad, Outdoor Pursuits, artistic performances, athletic activities, or other student organization travel. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

**Student Conference Travel Abroad**

Present at or attend a conference that takes place abroad as a UAB representative. Our office can
help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Passport Services: Apply for a passport conveniently on campus. As an official U.S. Department of State Passport Acceptance Facility, we are happy to accept passport applications for students, employees, and members of the community. Our passport service is open to the public.

Destinations
With programs in over 45 different countries, there's something for everyone. Programs are available in the United Kingdom, Italy, Spain, France, China, Germany, Costa Rica, Australia, Ireland, Japan, and many more countries. Over 40 UABEA programs cost approximately the same as UAB tuition + room + board.

Dates
Programs are available for fall semester, spring semester, academic year, calendar year, summer, Thanksgiving Break, and Spring Break.

Languages
Programs are available in English, as well as all of the foreign languages taught at UAB (and a few that aren't).

Eligibility
To be eligible to apply for our programs, one must:

1. be an enrolled UAB student;
2. be 19 years of age or older (or have parental permission); and
3. be in good academic, disciplinary, and financial standing with UAB.

Some programs have additional eligibility requirements, such as GPA minima, listed on the individual program webpages.

Students may petition to the Director of Education Abroad for a possible exception to the eligibility criteria.

Subjects of Study
Students may take core curriculum courses while abroad, as well as courses for their major and minors. Elective credits are also available.

Course Articulation
Students need to consult with UABEA before studying abroad to initiate course articulation, the process by which UAB course equivalency is determined for each course to be taken while studying abroad. Course articulation involves the student, UABEA, the host study abroad university, and UAB department chairs and advisors all working together and commonly takes approximately one month to complete.

It is highly recommended that the students contact UABEA to begin the course articulation process at least one month before the application deadline for the selected program. Students who don’t begin the articulation process early enough prior to studying abroad, may not know how, or if, their courses abroad will count toward completion of a UAB degree.

Grade Posting
All grades earned while abroad will be posted to the student’s UAB transcript and included in GPA calculations. Letter grades are used rather than pass/fail marks. In all cases, students must participate fully in all course activities and meet all stated course requirements. Auditing of any course abroad is not permitted. The process of grade posting varies depending on the program type:

UAB Exchanges are programs for which UABEA has established an exchange agreement with a university abroad. Students earn direct UAB course credit. Students on exchanges are usually mainstreamed into regular classes with the student body at their university abroad. Courses taken on student exchanges will begin with IN ("International" indicating that the course took place at an international UAB exchange location) and a two-letter subject code such as ME (Mechanical Engineering), GN (German), SP (Spanish), etc. to indicate the subject that was studied. Additionally, each of the courses are numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university. INxx courses are repeatable. INxx courses include:

<table>

Changes of Grades
Requests for grade changes to UABEA must be accompanied by official documentation sent directly from the host university.

Service Learning and Undergraduate Research

Director: Amy Badham

Office of Service Learning and Undergraduate Research (http://www.uab.edu/servicelearning)
As a UAB student, you can explore and pursue your interests through service learning and research opportunities. Service - both local and global - and the pursuit of knowledge through research, scholarship, and creative activities are vital and core to UAB’s mission. Service learning and research opportunities are available to all students who want to engage with today’s pressing issues and problems. UAB’s Office of Service Learning and Undergraduate Research works to bring students, faculty members, and community partners together to advance student learning and provide community benefit through for-credit academic courses and non-credit campus and experiential opportunities in all disciplines across campus.

Service Learning
UAB is fortunate to be situated in the heart of a vibrant urban community with a large number of passionate and highly effective nonprofit organizations. The directors and staffers of these organizations – working to reduce systemic poverty, advocate for clean air and water, or increase access to healthcare, among many other issues - collaborate with UAB’s faculty members and students in academic service learning courses. Service with a local or global community partner is integrated into these courses to enhance student learning of course content, to provide community benefit, and to produce participatory citizens. You also gain real-life, hands-on experience that enables you to be a top-notch candidate in job and graduate school interviews.

The Office of Service Learning and Undergraduate Research helps students find service learning courses and meaningful long-term community service experiences. In addition, it advises and supports faculty members and community partners who are providing experiences that integrate academic learning and civic engagement.

Service Learning Courses
The list of service learning courses grows and changes each semester as UAB faculty are continually developing new courses and integrating service learning into existing courses. Eligibility to participate in a service learning course depends on the particular course requirements as established by the department and professor. For the most up-to-date list of service-learning courses available, perform an Advanced Search in the UAB Class Schedule, and select “Service Learning” in the attribute box.

International Service Learning Opportunities
UAB Education Abroad offers service-learning opportunities associated with study abroad programs and UAB student organization travel abroad. For details on international service learning opportunities, see www.uab.edu/educationabroad.

For More Information on Service Learning:
- Visit Heritage Hall Room 527
- http://www.uab.edu/servicelearning/
- www.facebook.com/UABServiceLearning
- Twitter: @UABServeLearn

Undergraduate Research
As one of the 108 institutions in the nation currently classified as a "Very High Research University" by the Carnegie Classification of Institutions of Higher Education (http://carnegieclassifications.ui.edu), UAB attracts students, faculty, and staff from all over the world to
engage in groundbreaking, innovative research across the disciplines. As an undergraduate student, you have the opportunity to participate in research, investigation, performance, scholarship, or creative activities in collaboration with a mentor to enhance and illuminate your learning.

The Office of Service Learning and Undergraduate Research helps students engage in research, scholarship, and creative activities in collaboration with a faculty mentor via an academic course or through an independent project. The office also provides opportunities for students to showcase their scholarship through the Spring, Summer, and Fall Expo events. In addition, it provides programming and workshops to students and faculty members to advance, facilitate and promote undergraduate research.

**Undergraduate Research Courses**

Eligibility to participate in a research-designated course depends on the particular course requirements as established by the department and professor. The list of undergraduate research courses grows and changes each semester. For the most up-to-date list of research courses available, perform an Advanced Search in the UAB Class Schedule, and select "Undergraduate Research" in the attribute box.

For More Information on Undergraduate Research:
- Visit Heritage Hall Room 527
- [https://www.uab.edu/undergraduateresearch/](https://www.uab.edu/undergraduateresearch/)
- [https://www.facebook.com/UABUndergradResearch/](https://www.facebook.com/UABUndergradResearch/)

**Early Medical School Acceptance Program (EMSAP)**

The Early Medical School Acceptance Program (EMSAP) offers superior high school seniors the assurance that after completing undergraduate studies at UAB, they will enter the UAB School of Medicine, Dentistry, or Optometry. EMSAP students can complete an excellent undergraduate program and gain conditional admission into UAB’s world-renowned medical programs.

To be considered for admission to EMSAP, students must have the following:

- Four years of English
- Four years of mathematics
- At least one year each of chemistry or physics and biology, preferably AP or IB level
- A grade point average of at least 3.5 (on a 4.0 scale) in academic subjects, and
- An ACT composite score of at least 30 or a redesigned SAT score of 1400
- U.S. citizenship or lawful permanent residence

Selected candidates who meet the academic criteria are interviewed by members of the Admissions committee of the respective professional schools. In making its final selections, the committee considers maturity and exposure to medicine, as well as letters from teachers. Students can only apply for EMSAP programs as seniors in high school. They must first be admitted to UAB by December 1st and then must complete the EMSAP application online by December 15th. For further information, including criteria for remaining in good standing in EMSAP, please see the EMSAP web site at: [http://www.uab.edu/emsap/](http://www.uab.edu/emsap/) or contact the Office of Undergraduate Admissions by email at chooseuab@uab.edu or by phone at (205) 934-8221.

**English Language Programs, INTO UAB**

**INTO UAB**

At INTO UAB, international students join a supportive community committed to helping them integrate with ease into American university life while preparing for degree studies. Unique programs help improve academic and English language skills, and helpful faculty and staff ensure students adjust to life in the US. Students studying in the INTO UAB Center have all the benefits of campus life at an American university. Living and learning in the heart of UAB’s campus, international students develop friendships with American and international students and have access to all of the academic, social and cultural resources and activities at The University of Alabama at Birmingham.

**Pathway Programs**

INTO UAB offers academic Pathway programs designed to prepare students to progress with confidence to UAB undergraduate and graduate degree programs.

**Academic English Program**

The Academic English program at INTO UAB prepares international students for university study in the US. This academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at UAB through development of:

- Listening
- Speaking
- Reading
- Writing
- Vocabulary and pronunciation skills
- Correct grammar usage
- Academic study skills

**Program Highlights**

- Intensive English instruction to prepare for university study
- Academic advising and support throughout the program
- Small class sizes
- Highly trained and experienced instructors

**Program Courses**

**Level 1-2**

- Integrated Skills
- Vocabulary Building
- Writing
- Reading

**Level 3-5**

- Grammar in Use
- Academic Listening and Speaking
- Academic Reading
Program Outcomes

After finishing this intensive program, successful students will be able to:

- Interact comfortably in the US classroom with professors and fellow students
- Understand US values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the internet and UAB libraries databases to conduct academic research
- Read, understand and critically evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

Understand the Pathway Program

INTO UAB’s Undergraduate Pathway program combines intensive language study, academic skills development and academic coursework in a program designed to move students successfully through the first year of their four-year degree program of study in the US.

The Undergraduate Pathway program is for students who:

- Want to study for an undergraduate degree in the US
- Desire additional academic, language and cultural support in order to succeed during the first year at a US university
- May need to improve English language skills
- May have a lower GPA than required for direct admission to degree program
- Meet any or all of the above criteria

In addition to intensive English instruction, Pathway students take core academic courses including math, science, writing and other courses required of all students, domestic and international. All Undergraduate Pathway courses are UAB credit-bearing courses. Undergraduate Pathway programs are available in the fall, spring and summer semesters. Some programs will require taking courses in the summer in order to complete the degree in four years. Programs such as engineering may require a fifth year to complete a bachelor’s degree.

Program Benefits

Pathway students receive the highest level of support during their transition abroad, making the program an ideal choice for international students who are driven to achieve high academic goals. Other benefits include:

- Guaranteed progression to a UAB degree program (upon successful completion of a Pathway program)
- Full integration with domestic and international students on the UAB campus
- Access to all UAB cultural events, athletic events and activities including UAB’s state-of-the-art recreation center
- Classrooms and accommodations in the heart of UAB’s compact and accessible campus with shopping, dining and other services located nearby
- Individual supplemental tutoring
- Highly trained and experienced university instructors
- Academic advising throughout the program

Prepare for Success

At the end of the first year, Pathway students should be able to:

- Communicate effectively in written and spoken English
- Interact fully with professors and fellow students in a US classroom setting
- Understand research, reference and citation standards for American academic papers
- Use on-campus technology including computer hardware and software
- Read, comprehend and critically evaluate academic texts and problems
- Take useful and accurate notes in academic lectures

Undergraduate Pathway Programs

- Business
- Computer and Information Science
- Engineering
- General Studies
- Public Health
- Science

Graduate Pathway

The innovative Graduate Pathway Programs offered at INTO UAB are designed to develop international students’ academic knowledge and strengthen their language ability and study skills, enabling them to progress successfully to a UAB graduate degree program.

There are two Pathway options for students with the equivalent of a four-year undergraduate bachelor’s degree:

Standard Pathway (two semesters)

- Students with an equivalent four-year bachelor’s degree and
- TOEFL iBT 65+, IELTS 5.5, PTEA 44 or completion of Academic English Level 4.

Accelerated Pathway (one semester)

- Students with an equivalent four-year bachelor’s degree and
- TOEFL iBT 80+, IELTS 6.5, PTEA 53

Decide if the Program is Right for You

The Graduate Pathway program is for students who:

- Want to study for a graduate degree in the US
- Desire additional academic, language and cultural support in order to succeed during the first year at a US university
- May need to improve English language skills
- May have a lower GPA than required for direct admission to degree program
- Meet any or all of the above criteria

Graduate Pathway Programs at UAB:
• Master of Science in Biotechnology
• Master of Business Administration (MBA)
• Master of Science in Computer and Information Science
• Master of Engineering in Design and Commercialization
• Master of Science in Civil Engineering
• Master of Science in Electrical Engineering
• Master of Science in Materials Engineering
• Master of Science in Mechanical Engineering
• Master of Science in Public Health
• Master of Science in Computer Forensics and Security Management—one track for undergrad degrees in the field, one track for undergrad degrees out of the field
• Master of Public Administration
• Master of Arts in Early Childhood Education
• Master of Arts in Special Education
• Master of Arts in TESOL
• Master of Science in Health Informatics

ROTC

Both the United States Army and Air Force offer Reserve Officer Training Corps (ROTC) at UAB. Air Force ROTC courses are taught on the Samford University campus.

Army ROTC

Faculty: LTC Skells, CPT Araujo, MSG Scott, SFC Marlow, Mr. Parker, Mr. Garcia, Mr. Abbott, Ms. Edwards, Ms. Scott

The Army Reserve Officers Training Corps (ROTC) program offered at UAB under federal laws and Acts of Congress. Students may compete for two, three, or four year full tuition ROTC scholarships just by attending an ROTC class.

ROTC develops leadership and problem solving skills training, through hands-on training and classroom instruction by experienced, active-duty Army officers and non-commissioned officers. Students learn the necessary skills to become successful civilian or military professionals. Students apply leadership, organizational and personnel management skills in a variety of challenging environments.

Qualified students may obtain a commission as a Second Lieutenant, with the opportunity to serve as either full time in the active Army, or full or part time in the National Guard or U.S. Army Reserve.

Enrollment

All students are eligible to apply to the program. The Army ROTC program offers several courses that may be counted as electives. The Lower Division is designed to benefit students with a broad range of professional goals. The Upper Division leads to a presidential commission as a Second Lieutenant in the U.S. Army. Enrolled students who actively pursue a commission may earn a Minor in Military Science.

Lower Division

Lower Division courses are normally taken in the freshman and sophomore years. Veterans may take a compressed version of the Lower Division sequence in the summer as a six-week, all-expense-paid leadership seminar. Successful completion of the Lower Division gives students the credentials necessary for enrollment in the Upper Division.

Upper Division

Upper Division courses are taken during the final two years of college and include an advanced summer seminar between the junior and senior years. Students in the Upper Division are paid $450 to $500 per month while enrolled, and earn a salary for all summer internships.

Scholarship Program

Army ROTC offers opportunities for scholarships covering full tuition. Students may apply for three-year or two-year scholarships. Each scholarship covers tuition, provides an annual allotment of $1,200 for books and fees, and gives students a tax-free allowance each month classes are in session. The allowance increases each year: $300 per month during the student’s freshman year, $350 per month during the sophomore year, $450/month during the junior year, and $500 per month during the senior year. Army ROTC scholarships are awarded on the basis of merit. Family income has no bearing on eligibility for an award. For more details, see the Financial Aid section of this catalog or contact the scholarship advisor at the ROTC Department, Telephone (205) 934-8749.

Partnership in Nursing Education

Army ROTC also offers a unique scholarship opportunity for UAB School of Nursing students under the Partnership in Nursing Education (PNE) program. These scholarships not only cover tuition, books and fees, and the monthly allowance, but also guarantee progression into the upper division clinical nursing classes. Two-year, three-year, or four-year scholarships are available for all qualified nursing majors. See the Financial Aid section of this catalog or contact the scholarship advisor at the ROTC Department, Telephone (205) 934-8749.

Veterans

Students with prior military experience can fulfill credit requirements for the ROTC Lower Division sequence. If credit is granted, and provided the student is not on a three-year Army ROTC Scholarship, veterans may bypass the freshman and sophomore years of ROTC and enroll directly in the Upper Division sequence. Students with prior service may be eligible for special veteran scholarships. In addition to any financial assistance from ROTC, veterans are still qualified to receive any and all GI Bill, Army College Fund, or VEAP benefits to which they are entitled.

Simultaneous Membership Program

Students may take advantage of the Simultaneous Membership Program (SMP), which allows participation in ROTC and enlistment in the Army National Guard or Reserve at the same time. SMP Students serve as officer trainees in a Guard or Reserve unit and perform duties commensurate with the grade of Second Lieutenant. SMPs are paid at the rate of at least a Sergeant E-5 for Guard or Reserve service.

Minor in Military Science

Students who are actively pursuing a commission as a Lieutenant (active duty or reserve duty) may pursue a minor in Military Science. Contact the Department of Military Science, (205) 934-8763, or UAB Academic Programs and Policy for more information.

Honors Program

As part of the Military Honors Program, military science students with outstanding qualities of leadership, academics, and high moral character may be designated by the Professor of Military Science as “Distinguished Military Students.” Upon earning a commission as a Second Lieutenant
and a baccalaureate degree, select students may be designated “Distinguished Military Graduates.”

Further Information
For further information on the UAB Army ROTC program, contact the Professor of Military Science at (205) 934-8763 or 934-8749, or visit the web site at http://www.uab.edu/armyrotc.

Air Force ROTC
The Air Force Reserve Officer Training Corps (ROTC) program provides college men and women with the opportunity to compete for a commission as a Second Lieutenant in the United States Air Force upon graduation. The program is divided into the General Military Course and the Professional Officer Course. The General Military Course includes courses offered during the first two years of the program and is open to all students without military obligation. The Professional Officer Course includes junior and senior level courses and is restricted to those who meet entry requirements or have special permission from the Professor of Aerospace Studies. Air Force ROTC students can gain confidence, leadership training, communication skills, and an appreciation for the role of the military in contemporary society. Call (205) 726-2859 for complete information.

General Military Course
The General Military Course consists of:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFS 101  Air Force Today</td>
<td>1</td>
</tr>
<tr>
<td>AFS 102  Air Force Today</td>
<td>1</td>
</tr>
<tr>
<td>AFS 201  Development of Air Power</td>
<td>1</td>
</tr>
<tr>
<td>AFS 202  Development of Air Power</td>
<td>1</td>
</tr>
</tbody>
</table>

These courses are open to all students regardless of qualifications for military service or intent to compete for commission. As part of the General Military Course, students examine the basic organization and structure of the Air Force, appreciate the historical significance of air power, apply basic communication skills, and receive an introduction to total quality management. Each course is one semester hour credit.

Scholarship Programs
Four-year college scholarships are available to highly qualified high school seniors. Interested students should visit www.afrotc.com (https://www.afrotc.com) or contact the nearest Air Force ROTC program for more information. Applications are due by December 1 of the senior year in high school.

Three-year and two-year scholarships are also available to college students. Air Force ROTC scholarships pay college tuition, and books. Scholarship students also receive a monthly tax-free stipend ranging from $300 to $500 depending on academic year in school. Family income has no bearing on eligibility for an award. For additional information, contact the Aerospace Studies Department at (205) 726-2859. Uniforms and textbooks for all aerospace studies courses are provided at no charge.

Leadership Laboratory
Leadership Laboratory is an integral part of the Air Force ROTC program. It provides an opportunity for students to apply classroom teachings to actual environments. Each course has an associated leadership laboratory. The laboratory meets for two hours each week during the term. Instruction is conducted within the framework of an organized cadet corps with a progression of experiences designed to develop leadership potential. Leadership Laboratory involves a study of the life and work of Air Force junior officers. Students develop their leadership potential in a practical, supervised laboratory, which typically includes field trips to Air Force installations throughout the United States.

The first two years of Leadership Laboratory involve activities classified as initial leadership experiences. This includes studying Air Force Customs & Courtesies, Drill & Ceremonies; giving military commands; instructing, correcting, and evaluating the preceding skills; studying the environment of an Air Force base; and learning about career opportunities available to commissioned officers. The last two years of Leadership Laboratory consist of activities classified as advanced leadership experiences. They involve planning, organizing, coordinating, directing, and controlling the military activities of the cadet corps; preparing and presenting briefings and other oral and written communications; and providing interviews, guidance, and information to increase the understanding, motivation, and performance of other cadets.

Field Training
Air Force ROTC field training is offered during the summer months at selected Air Force bases throughout the United States. Students in the four-year program participate in 23 days of field training, usually between their sophomore and junior years. The major areas of study in the 23 days of field training program include officership training, career orientation, base functions and the Air Force environment, and physical training.

Minor Requirements for Aerospace Studies
To earn a Minor in Aerospace Studies, the student must have a 3.0 GPA or better in all Aerospace Studies courses, and a “C” or better in all required classes. No grade below a “C” will count towards the Minor in Aerospace Studies. This must include at least two courses of the Military Science 300 Sequence (6 semester hours), and two courses of the Military Science 400 sequence (6 semester hours).

**ROTC Cadet Leadership Course (CLC) - Not Waiverable**

Failure to successfully complete CLC will prevent a student from earning a minor in Military Science. This is a required summer training program for 33 days of training and evaluation in skills and leadership ability, conducted at Ft. Knox, Kentucky.

**Total Hours** 24

The Vulcan Materials Academic Success Center

The Vulcan Materials Academic Success Center (VMASC) promotes and fosters undergraduate student success, enhances academic performance, and inspires students to achieve their academic, professional, and personal goals. Our resources are intentionally designed to facilitate experiences that encourage student persistence and prepare students for life after graduation.

Academic Services

Exploratory Advising

Academic advising at UAB supports the teaching and learning mission of the University by guiding students through their academic journey and helping students understand the value of achieving their goals in and out of the classroom. The Exploratory Advising initiative is designed to support students who have not declared a major, or are considering changing their major, and want to think more critically about the options among all of UAB's degree-granting programs. Our team of Academic Advisors are professionally trained to assist you as you prepare to declare your major and define your career interests. We feel strongly that Academic advising captures the essence of a student's potential by focusing on the development of a mutually beneficial academic and graduation plan of action. To make an appointment with your Academic Advisor, please visit us here. ([https://www.uab.edu/students/academics/student-success/who-is-my-advisor](https://www.uab.edu/students/academics/student-success/who-is-my-advisor))

Supplemental Instruction

Supplemental Instruction (SI) is an academic support model that utilizes peer-assisted study sessions to improve student retention and success within targeted, historically difficult courses. The weekly review sessions are facilitated by "SI Leaders", students who have previously done well in the course (received an A or B) and who attend all class lectures, take notes, and work directly with the course's faculty. The program encourages collaborative learning and shows students how to integrate course content and study skills. SI is a free and voluntary service.

Supplemental Instruction is associated with improved student outcomes such that students who attend SI sessions earn one half to a whole letter grade higher than their peers who do not attend SI sessions. Data indicate that SI is an effective method to enhance student success across disciplines. More information on SI can be found here. ([https://www.uab.edu/students/academics/student-success/supplemental-instruction](https://www.uab.edu/students/academics/student-success/supplemental-instruction))

Success Advising

Success Advising is facilitated by a professional educators in the VMASC and takes place in a one on one session. Sessions are conducted in an effort to identify and assess any external factors that may be impairing a student’s overall success at UAB. Students are welcome to seek success advising on a need basis, or welcome to set up a regular schedule to meet with their success advisor throughout the semester to create and track implementation of an academic success plan based on their individual goals. The goal of success advising is to provide the student with the skills and resources necessary in all areas directly correlated to academic and overall student success. Appointments can be made online here. ([https://mytutor.uab.edu:4443](https://mytutor.uab.edu:4443))

Tutoring

The Vulcan Material Academic Success Center provides free course-specific tutoring services to UAB undergraduate students. Tutoring is offered in both one-on-one and group sessions. Our tutoring sessions are tailored to address undergraduate students’ questions and needs as we aim to foster independent learning. Appointments can be made online here. ([https://mytutor.uab.edu:4443](https://mytutor.uab.edu:4443))

Academic Success Workshops

Academic success workshops are designed to provide students with an interactive experience that will enhance their academic learning. Workshops are organized by topic and designed to meet the demands of college-level academics. Common topics presented are related to Study Skills, Learning Strategies, and Time Management. All workshops are facilitated by faculty or staff at UAB and are offered throughout the semester. The schedule of events may be viewed here.

For more information or to make an appointment, please stop by the Vulcan Materials Academic Success Center ([http://www.uab.edu/success](http://www.uab.edu/success)) on the second floor of the Education building, 901 13th Street South, across from the Sterne Library Starbucks, or please call 934-8184.

Collat School of Business

Dean: Eric P. Jack, Ph.D.
Senior Associate Dean: Karen N. Kennedy, Ph.D.
Associate Dean for Research, Innovation, and Faculty Success: Molly McLure Wasko, Ph.D.

UAB's Collat School of Business is the only named school at the University of Alabama at Birmingham, a world-renowned academic research center. We offer eight undergraduate and three graduate degree programs.

Located in the heart of Alabama’s business center, the Collat School of Business offers an engaging learning environment with classrooms extending well beyond the walls of the UAB campus. Our unique location allows our faculty to integrate the practical experiences of the state’s leading companies — from Fortune 500 corporations to entrepreneurial startups — into the programs we offer. Our students gain valuable,
real-world experience through a wide variety of internships and other opportunities in the business community.

The Collat School of Business is accredited at the baccalaureate and master’s levels by AACSB International and holds separate AACSB International accreditation for our undergraduate and master’s programs in accounting, an accomplishment held by only 174 other U.S. business schools.

Our programs are designed to meet the many diverse educational needs of modern organizations. Additionally, our faculty members are involved in research and service activities that advance knowledge in business, mentor students and assist our stakeholders in accomplishing their unique goals.

At the undergraduate level, the Collat School of Business offers programs of study leading to the Bachelor of Science degree with majors in accounting, economics, finance, human resource management, industrial distribution, information systems, management and marketing. Each program combines a broad exposure to the arts and sciences with comprehensive preparation in all areas of business. In addition, recognizing the undeniable advantage of practical experience as part of a rich academic program, all degree-seeking students engage in at least one of several options for Experiential Learning credit. Those options include internship (paid or volunteer), study abroad, a business analysis project, a service learning project, a research project or completion of the Business Honors Program. Students work with their academic advisor to determine which option is most appropriate.

At the graduate level, the Graduate School of Management offers programs of study leading to the Master of Business Administration, Master of Accounting or Master of Science in Management Information Systems degrees. Programs resulting in a dual degree are offered in cooperation with the School of Public Health (MPH/MBA), the School of Health Professions (MSHA/MBA), the School of Medicine (MD/MBA), the School of Dentistry (DM/D MBA) and the School of Optometry (OD/ MBA). The Ph.D. degree in administration/health services is offered in cooperation with the School of Health Professions.

Mission, Vision and Values Statements

Mission Statement
We create and disseminate business knowledge that transforms the lives of our students and stakeholders by leveraging our locational advantages for the benefit of our local, national and global constituents.

Vision Statement
We strive to be a known business school focused on leadership, innovation and entrepreneurship.

Values Statement
We value:

• Quality teaching, research, and professional and public service by faculty, staff, and students;
• Relevance and innovation in curriculum, instructional methods, research, and professional and public service;
• Intellectual growth, professional and ethical development of our students;
• A collegial environment of academic freedom and faculty governance;
• Partnerships with our internal and external constituencies;
• Diversity in our students, faculty, staff and community;
• High standards of professional, ethical conduct, and a climate that fosters continuous improvement.

Admission Requirements

Beginning Freshmen
Beginning freshmen, admitted with conditional or unconditional status, may enroll in the Collat School of Business.

Two-Year College Transfers
Students considering transferring to UAB from a two-year college should consult with their two-year college advisor about specific courses that are transferable to UAB and the Collat School of Business. UAB’s Collat School of Business requirements include those defined in the Alabama General Studies articulation program for a major in business. The public speaking requirement may be taken as part of Area II and the pre-calculus course may be taken as part of Area III. Students planning to major in industrial distribution should see the footnoted exceptions to the Core Curriculum requirements in regard to elective hours.

In cases where enrollment has been interrupted by one year or more, transfer students are expected to meet catalog requirements in effect at the time that they enter UAB.

Only 60 applicable semester hours of two-year college coursework can be applied toward a UAB degree.

Transfers from Other Institutions
Admission to the Collat School of Business is open to those students who are admitted to UAB as degree-seeking or as non degree-seeking students. Students must have a minimum 2.0 cumulative grade point average. Before an upper-level business course may be attempted, a minimum grade of C in the stated prerequisite(s) for the Collat School of Business course(s) is required.

Transfers within UAB
Degree-seeking students changing their major from schools and the college within UAB will be admitted to the Collat School of Business provided they have a minimum 2.0 overall grade point average. Before an upper-level business course may be attempted, a minimum grade of C in the stated prerequisite(s) for the Collat School of Business course(s) is required.

Students Readmitted to UAB
Degree-seeking students, non-degree seeking students and post-baccalaureate students readmitted to UAB may be admitted to the Collat School of Business.

Former students are expected to meet catalog requirements in effect at the time they re-enter UAB, when one year or more of enrollment at UAB has lapsed or when another college has been attended since last enrolling at UAB.

Non-Degree Seeking Students

Admission of non-degree-seeking students to the Collat School of Business is restricted to those students who already have a four-year degree from a regionally accredited college or university.

The following policies apply:
1. Post-baccalaureate students not seeking a UAB business degree will be classified in the major that was selected on the application or as a Collat School of Business undeclared major. They may enroll in any undergraduate business course in which the stated course prerequisite(s) has been completed with a minimum grade of C. Students having less than a C in prerequisite courses or those who completed the prerequisites many years earlier are advised to repeat the prerequisites (see specific major for any deviation).

2. Post-baccalaureate students seeking a UAB undergraduate business degree will be classified in the appropriate major. Once the decision to seek a business degree is made, post-baccalaureate students are expected to meet all catalog requirements in effect at the time of their admission or readmission to UAB.

3. Students are responsible for providing transcripts to their advisors for verification of prerequisites.

**Transient Students**

Transient students who wish to attempt Collat School of Business courses should be aware of the following:

1. It is the student’s responsibility to verify with the advisor at the home institution that courses taken at the Collat School of Business will transfer back to the home institution.

2. Note that if enrolled in a business course that fills and there is degree-seeking student demand, the transient students are withdrawn from the filled class.

Are you considering a transfer to UAB and the Collat School of Business? Please make an appointment with one of our advisors (205-934-8813). Remember to bring an unofficial copy of all previous college work to be able to discuss your course of study with the advisor.

All information regarding our business programs and the Collat School of Business is available at http://www.uab.edu/business/. You may check about class availability on BlazerNet, select the Student Services tab and scroll to class schedule.

**Admission Classification**

Undergraduate students entering the Collat School of Business are admitted with a self-selected major classification. Majors include accounting, economics, finance, industrial distribution, information systems, management and marketing. Students may explore business majors while classified as undeclared business majors. Freshmen are expected to choose a degree granting major prior to completion of 60 semester hours. Transfer students who have earned 60 credit hours prior to entering UAB and are admitted as undeclared business majors must choose a degree granting major within six terms of enrollment at UAB.

Lower level prerequisite business courses must be completed with a grade of C or better before attempting upper-level business courses (those numbered 300 or higher). Any request for deviations from the requirements must be petitioned through the academic advisor for the department in which the course resides.

Collat School of Business advisors are available within each academic department in the Business-Engineering Complex or by telephone (205) 934-8813.

**Curriculum Outline**

The Collat School of Business reserves the right to modify curricula and specific courses of instruction, to alter requirements for graduation, and to change the majors to be awarded at any time the school may determine. Such changes may be applicable to either prospective or currently enrolled students.

The curriculum outline that follows is formatted to show how course requirements of the Collat School of Business concur with the UAB Core Curriculum requirements. Students, in cooperation with their advisor, should sequence these requirements in a manner to meet stated prerequisite requirements for specific courses in their curriculum.

**UAB Core Curriculum Requirements**

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

Business students should take the following courses in the Core Curriculum.

2. Core Curriculum Area II: Humanities and Fine Art: select one of the following:
   a. ARH 101 The Art Experience
   b. MU 120 Music Appreciation
   c. THR 100 Introduction to the Theatre.

3. Core Curriculum Area III: Natural Science and Mathematics, select one of the following:
   a. MA 105 Pre-Calculus Algebra
   b. MA 125 Calculus I.

1 All majors must complete one international business course. Accounting majors take AC 440. Finance majors take FN 412. Economics majors take EC 407. International Economics.
2 See requirements listed under individual majors.
3 Capstone courses: Accounting majors take AC 495. Marketing majors take MK 450. All other majors take BUS 450 as their capstone course.
4 Industrial Distribution majors take ME 103. Medical Equipment and Supplies Distribution take BY 115. Additional electives must be approved by advisor. Hours vary by major.
5 Accounting majors complete AC 305. All other business majors complete BUS 305.

6 All business majors are required to participate in experiential education. Experiential education can carry 0 - 3 credit hours. This requirement may be met by satisfactory completion of AC 364, AC 464, AC 474, BUS 496, DB 495, EC 460, ENT 445, ENT 426, FN 460, IB 495, IS 464, MG 445, MK 425, MK 445. Other courses may be approved by your Program. You may access details about options for satisfying this degree requirement here: http://www.uab.edu/business/home/degrees-certificates/undergraduate/experiential-learning-requirement. Please see your academic advisor for specific requirements for your major.
7 Industrial Distribution majors take DB 320.

Academic Requirements

The following general requirements and policies apply to all students majoring in the Collat School of Business.

1. To attempt upper-level business courses (numbered 300 and above), students must have a grade of C or better in the stated prerequisites for each business course. Students must also meet any specific grade requirements within their major.
2. In courses where one year or more of non-enrollment at UAB has lapsed or when another school has been attended since the last enrollment at UAB, students are expected to meet catalog requirements in effect at the time they re-enter UAB.

GPA Graduation Requirement

The Collat School of Business GPA (grade point average) graduation requirement is in addition to the general UAB requirements.

Accounting, Finance and Information Systems Majors

1. Earn at least a cumulative 2.0 GPA in all accounting, finance, and information systems major courses.
2. Earn a minimum grade of C in all courses used in the accounting, finance, and information systems majors.
3. Earn a cumulative 2.0 GPA (transfer and UAB courses) and a 2.0 GPA at UAB.

Students may opt to utilize the university’s course forgiveness policy to calculate the GPA for the accounting, finance, and information systems majors. Using this policy, courses taken at UAB may be repeated at UAB, and the grade for the first attempt will be excluded from the calculation of the GPA. Only courses for which the student has received a grade of C or below may be repeated with this option. The transcript will show the original grade for the course and the repeated grade for the course, however, only the grade points and credit hours earned when the course is repeated will be counted toward degree completion and averaged into the student’s GPA. The forgiveness policy may be used a maximum of four (4) times, only once for any course, allowing a student to use the forgiveness for four different courses.

Students should process all repeats before applying for degree to insure a correct graduation GPA calculation.

Economics, Industrial Distribution, Management, and Marketing Majors

1. Earn at least a cumulative 2.0 GPA in all courses required for the above listed majors.
2. Earn a cumulative 2.0 GPA (transfer and UAB courses).
3. Earn a 2.0 GPA at UAB.

Students may opt to utilize the university’s course forgiveness policy to calculate the GPA for economics, industrial distribution, management, and marketing majors. Using this policy, courses taken at UAB may be repeated at UAB, and the grade for the first attempt will be excluded from the calculations of the GPA. Only courses for which the student has received a grade of C or below may be repeated with this option. The transcript will show the original grade for the course and the repeated grade for the course, however, only the grade points and credit hours earned when the course is repeated, will be counted toward degree completion an averaged into the student’s GPA. The forgiveness policy may be used a maximum of four (4) times, only once for any course, allowing a student to use the forgiveness policy for four different courses.

Students should process all repeats before applying for degree to insure a correct graduation GPA calculation.

Residency Requirement

Of the 21 to 27 semester hours of upper-level major courses required for a departmental major, at least 15 semester hours must be completed at UAB. In addition, 50 percent (30 to 33 semester hours) of business hours required must be taken at UAB. These hours exclude nine hours of economics and six hours of statistics.

Minors in Business

The Collat School of Business offers minors in accounting, business administration, economics, finance, information systems, management, and marketing, and sports and entertainment marketing. These minors are available to all UAB students with the exception of the minors in international business and in sports and entertainment marketing which are available only to School of Business majors.

The following requirements apply to minors:

1. Students must meet the following grade point requirements:
   - Have a 2.0 cumulative GPA (includes all schools attended)
   - Have a 2.0 UAB GPA

2. Students must have the following:
   - A minimum grade of C in all lower level business courses required for the minor, including minor courses transferred. All minors allow the use of the university’s course forgiveness policy;
   - A minimum overall average of C in UAB business courses required for the minor. (check specific minor for any deviations)
   - At least 12 semester hours of the minor courses taken in the Collat School of Business (the accounting, finance, and information systems minors have additional requirements).

3. All required 200-level business courses listed for selected minor must be completed, with a grade of C, prior to enrollment in the 300 and 400-level courses listed (check specific minor for any deviations)

4. Students may enroll and receive a grade of (A, B, C, D, or F) for any business course a maximum of 2 (two) times only.

5. Students who wish to take upper-level business courses other than those specified in the selected minor must meet all prerequisites for those courses and have permission from the Collat School of Business.

6. Collat School of Business majors may also earn a business minor, with the exception of the minor in Business Administration. The minor must include at least nine semester hours beyond the requirement of the student’s selected business major. The Collat School of Business undergraduate advisors can assist business majors in tailoring a business minor.

Minor in Accounting

Must earn a grade of "C" or better and overall GPA of 2.0 in all courses required for this minor.

Minor in Entrepreneurship

The Minor in Entrepreneurship is intended to prepare students for new economic realities by providing a foundation in business and entrepreneurial thinking. It is intended to complement the core knowledge they are gaining in their chosen major so that they can find new opportunities to practice within their field. The primary objective is to provide students with the tools they need to think and act entrepreneurially.

Eligibility

This minor is open to all students. Students must also have a minimum overall 2.0 GPA.

### Minor in International Business

The international business minor is available only to Collat School of Business majors. It supplements the student’s major with an appreciation of the global economy and issues unique to doing business on a worldwide basis. The minor includes a required foreign language component. The international business minor consists of the following 18 semester hours.

UAB Professional Sales Certificate Program

Purpose

The Professional Sales Certificate is designed for undergraduate students of all majors pursuing a sales career or wishing to enhance his/her interpersonal communication skills in a business environment. This program helps students distinguish themselves as committed professionals in sales and customer service. In addition to the course work shown below, students will be involved in out-of-class activities, including job shadowing and mentorship. Students with a Professional Sales Certificate are well-prepared for entry-level sales careers and have a competitive advantage in the job market. All majors from across UAB are eligible to compete for entrance. Classes are kept small to ensure individual attention is provided for each student.

Eligibility

Submission of completed application form, available in BEC 219 or from one of the contact people below:

- Resume demonstrating characteristics that support a successful sales career (strong work ethic, etc);
- Achievement of an overall 2.0 G.P.A. and be in good academic standing with the university;
- Commitment to extra-curricular involvement in the Professional Sales Program activities;
- Complete a panel interview with the Professional Sales Program Leadership Team members.

Undergraduate Certificate in Social Media

Purpose

The objective of the social media certificate is to help our students and working professionals advance in their careers by improving understanding about how to use the latest social media technologies to benefit organizational stakeholders, such as managers, organizations, employees, customers and partners. Our emphasis is on the application of new and emerging social media technologies, to serve those currently working in IS and marketing related fields, and to prepare individuals from other fields to build the skills needed to succeed in social media careers.

Eligibility

Open to all students majoring in business. Students must have an overall GPA of 2.5 or higher to be admitted to this certificate program.

Honors in Business

Purpose

The Collat School of Business Honors Program is designed for qualified and self-motivated students pursuing business-related undergraduate degrees or otherwise having a demonstrated interest in business. Through a mentored program format, students will develop research and communication skills in preparation for a professional career and/or graduate study. Although students may focus their research into any of the disciplines in the Collat School of Business, the Business Honors Program has overarching themes of leadership and ethics.

Eligibility

Entry into the Collat School of Business Honors Program is by invitation. Students may apply to be considered for an invitation.

To be eligible for the Collat School of Business Honors Program, students must:

- Have earned a 3.5 GPA in all business courses attempted;
- Have earned a 3.0 GPA overall;
- Have a major in the Collat School of Business or be invited to submit an application;
- Have submitted a Business Honors Program Application form or be invited to submit an application;
- Have been selected from application and transcript evaluation.

Requirements

- Enroll Spring Semester of junior year in BUS 300 Introduction to Leadership Seminar for 3 credit hours;
There are two ways that UAB students can meet these requirements:

- Enroll Fall Semester of senior year in BUS 495, Business Honors Seminar I (Strategic Leadership), for three credit hours and enroll Spring Semester of senior year in BUS 496 Business Honors Seminar II (Independent Research), for three credit hours;
- An oral presentation of a completed independent research project at the Undergraduate Research Expo.

Benefits

In addition to educational benefits and enhanced credentials for graduate school or professional pursuits, students with business majors will graduate “With Honors in Business” or “With Honors in Economics”.

Contact

For more information and/or admission to the Collat School of Business Honors Program, contact:

Collat School of Business Honors Program
Director
1720 2nd Avenue, South/ BEC 207E • Birmingham, AL 35294-4460 • Telephone (205) 934-8845 • E-mail: businesshonors@uab.edu

Department of Accounting and Finance

Department Chair: Arline Savage, Ph.D.

The Department of Accounting and Finance is responsible for activities in accounting and finance.

Mission Statement

The Department strives to provide a quality, practice-oriented educational experience to a diverse undergraduate and graduate student population. The faculty contributes to the understanding and application of knowledge through its teaching, research and service activities.

Uniform CPA Exam

As of January 1, 2016, the State of Alabama requires that applicants for the Uniform CPA Exam hold a baccalaureate degree from an accredited institution and possess a total of 120 semester hours of post-secondary education, including at least 24 semester hours of accounting at the upper-division or graduate level. However, 150 semester hours are required to be certified as a public accountant.

There are two ways that UAB students can meet these requirements:

1. By obtaining an undergraduate accounting degree (or its equivalent) and completing certain additional coursework as specified under state law. Students interested in this option should contact an undergraduate advisor in The Department of Accounting and Finance for specific guidance. Students interested in this option and that hold degrees from other institutions should contact an undergraduate business advisor as well as apply to the university as a post baccalaureate degree-seeking student.
2. By obtaining a Master of Accounting degree. The Department of Accounting and Finance offers a master’s program that is fully accredited by AACSB International. Students interested in this option should refer to the UAB Graduate School Catalog for admission policies.

Other Professional Accounting Certifications

Other examinations leading to professional certification (CMA, CIA, CFA, etc.) generally do not require academic coursework beyond the baccalaureate degree. Students interested in other accounting certifications should contact an undergraduate Accounting advisor or a member of the accounting faculty for further information.

Accounting Major

The objective of the major in accounting is to provide conceptual accounting and business knowledge as a foundation for professional careers in public accounting, private or industrial accounting, and governmental or not-for-profit accounting, or for pursuing study at the graduate level.

The various accounting career choices available to students mandate different course emphasis, and our curriculum offers a selection of course choices. Students may further specialize by pursuing the concentration in forensic accounting and information technology auditing.

Students must earn a minimum grade of a B in AC 200 to become an accounting major. The grade of B in AC 200 is a prerequisite for AC 300. Accounting majors who wish to pursue a career path in public accounting must earn a minimum grade of a B for the financial accounting course sequence of AC 300, AC 310, and AC 430. The grade of a B in each of these courses is a prerequisite for the subsequent course in this series. The grade of B in AC 430 is also a prerequisite for the elective financial accounting course AC 480. A minimum grade of C is required for all other accounting courses. In addition, students must earn a minimum grade of C and have an overall C average in all major courses. At least 15 hours of the major must be taken at UAB. The university’s course forgiveness policy may be applied to this major.

Finance Major

The finance curriculum is designed to provide an understanding of financial operating and investment problems in both financial and non-financial businesses. Careers are available in areas such as government, securities businesses, banking, insurance, real estate, savings and other financial intermediaries, and in the financial management of non-financial businesses.

Finance majors must earn a minimum grade of C in all finance courses and have an overall 2.0 GPA in all major courses. At least 15 hours of the major must be taken at UAB. The university course forgiveness policy may be applied to any finance concentration.

1. All majors must complete one international business course.
   Accounting majors take AC 440 Finance majors take FN 412.
   Economics majors take EC 407 International Economics.
2. See requirements listed under individual majors.
3. Capstone courses: Accounting majors take AC 495. Marketing majors take MK 450. All other majors take BUS 450 as their capstone course.
4. Industrial Distribution majors take ME 103. Medical Equipment and Supplies Distribution take BY 115. Additional electives must be approved by advisor. Hours vary by major.
5. Accounting majors complete AC 305. All other business majors complete BUS 305
6. All business majors are required to participate in experiential education. Experiential education can carry 0 - 3 credit hours. This requirement may be met by satisfactory completion of AC 364, AC 464,AC 474,BUS 496,DB 495,EC 460,ENT 445,ENT 426,FN 460,IB 495, IS 464, MG 445, MK 425, MK 445. Other courses may be approved by your Program. You may access details about options for satisfying this degree requirement here: http://www.uab.edu/business/home/degrees-certificates/undergraduate/experiential-learning-requirement. Please see your academic advisor for specific requirements for your major.

---

### Concentration in Forensic Accounting and Information Technology Auditing

The increased attention focusing on inappropriate and fraudulent behavior within the business community in recent years has led to the creation of a concentration in Forensic Accounting and Information Technology Auditing at UAB. This concentration introduces accounting and information systems students to the basics of fraud, IT audits, fraud examination and forensic accounting. Although of value to anyone in the financial information professions, it is designed to appeal to those students with an interest in becoming Certified Fraud Examiners (CFEs).

Accounting and information systems majors may choose, (as a part or in addition to the courses required for the major), the following series of courses which make up the concentration:

- FN 351  Bond Portfolio Management

---

**Legal Elements of Fraud Investigation**

2. The total number of electives required is 12. If a student takes no electives, then he/she must take 4 additional courses to complete the major.
Students may also take specified electives to complete the concentrations in Financial Management, Investments & Institutions, or Real Estate.

If three are selected from above, select one from the following: AC 300, AC 401, AC 402, EC 420.

Finance majors may select a concentration in Financial Management or Investments and Institutions or Real Estate.

Financial Management Concentration

Students who expect to own and/or operate small businesses, or who wish to seek employment as financial analysts in large corporations, and government agencies should select this concentration. Topics studied include financial analysis and forecasting, capital budgeting, working capital management, valuation theory, and other specialized areas in finance.

Requirements
Finance Core
AC 320 Financial Accounting Survey
FN 320 Financial Research Methods
FN 350 Equity Portfolio Management
FN 370 Principles of Real Estate
FN 410 Intermediate Financial Management

Select three or four from the following:
FN 311 Short-Term Financial Management
FN 360 Fundamentals of Healthcare Financial Management
FN 411 Advanced Financial Management
FN 453 Financial Risk Management

If three are selected from above, select one from the following:
FN 351 Bond Portfolio Management
FN 420 Financial Sales & Trading
FN 475 Real Estate Investment Analysis and Valuation

Total Hours 27

Real Estate Concentration

Students who wish to focus on commercial real estate finance and investment analysis should select this concentration. Topics included, but not limited to, are the commercial real estate industry and preparation for related entry positions with developers, lenders, appraisers, brokers, investment bankers, real estate advisors, real estate trusts and consulting firms, both nonprofit organizations and government agencies.

Requirements
Finance Core
AC 320 Financial Accounting Survey
FN 320 Financial Research Methods
FN 350 Equity Portfolio Management
FN 370 Principles of Real Estate
FN 410 Intermediate Financial Management

Required Concentration Courses
FN 452 Management of Financial Intermediaries
FN 470 Real Estate Finance
FN 475 Real Estate Investment Analysis and Valuation

Select one from the following:
FN 311 Short-Term Financial Management
FN 351 Bond Portfolio Management
FN 360 Fundamentals of Healthcare Financial Management
FN 411 Advanced Financial Management
FN 420 Financial Sales & Trading
FN 453 Financial Risk Management
AC 300 Financial Accounting I
AC 401 Cost Accounting
AC 402 Income Taxation I
EC 420 Applied Forecasting

Total Hours 27

Investments and Institutions Concentration

Students who wish to prepare for careers in financial institutions (such as banks, thrifts, insurance companies, and credit unions), or the securities industry (such as a stockbroker, portfolio manager, financial planner, or securities analyst), should select this concentration. Topics include commercial bank management, credit analysis, trust services, securities markets, and portfolio management, economic forecasting, and real estate.
Admissions Requirement
Students must be admitted to the School of Business. Please review the School of Business Admissions Requirements.

School of Business Requirements
Students must adhere to all School of Business Academic Requirements and Finance major GPA requirements. Use of the university’s course forgiveness policy is allowed.

Free Electives
If the courses taken to satisfy all of the requirements will not meet the minimum credit hour requirement to graduate, free electives may be taken to reach the required number of hours.

Department of Management, Information Systems and Quantitative Methods

Interim Chair: Jack L. Howard, Ph.D.

The Department of Management, Information Systems and Quantitative Methods (http://www.uab.edu/business/departments-centers/academic-departments/management-informationsystems-quantitativemethods) supports the mission of the Collat School of Business through the department’s majors and course offerings. The department will offer an educational foundation that will prepare students for professional careers and enable them to pursue graduate studies.

The department is responsible for activities in management, information systems, and quantitative methods.

Total Hours: 25

1. Must earn a grade of C or better in all stated prerequisites for all business courses and have an overall 2 GPA.
2. Must be taken as a senior in last term.
3. All business majors are required to participate in experiential education. This requirement may carry 0-3 credit hours. This requirement may be met by satisfactory completion of one of the following courses or course/project approved by your Program: AC 464, AC 474, BUS 496, DB 495, EC 460, ENT 445, ENT 426, FN 460, IB 495, IS 464, MG 445, MK 425, MK 445. Details about meeting this degree requirement may be found at: http://www.uab.edu/business/home/degrees-certificates/undergraduate/experiential-learning-requirement. Please see your advisor for specific requirements for your major.

Management Major

The management major is designed to provide students with the ability to be effective decision makers in an organizational setting. The objective of the major is to enable students to acquire the knowledge and skills necessary for gaining entry into a management career and for sustaining successful performance throughout that career. Internships and elective courses in entrepreneurship are also available.

Students must earn at least a grade of C in all stated prerequisite courses for all of the management concentrations. An overall 2 GPA in all courses used in the major is also required. At least 15 hours of the major courses must be taken at UAB. The university’s course forgiveness policy may be applied to all management major concentrations.

Management majors have the option of choosing one of the following concentrations: Business Administration, Human Resource Management, or Operations Management as a major. A student not choosing a concentration will have a Management degree with no concentration.

Bachelor of Science with a Major in Management and a Business Administration Concentration

The business administration concentration is designed for students who seek more flexibility within the management major by allowing them to select courses from other disciplines to round out the major. Besides providing greater flexibility, the student can select advanced studies in other areas of business such as finance, information systems, economics and marketing.

Bachelor of Science with a Major in Information Systems

The information systems major is designed to provide students with the foundational knowledge and managerial skills to pursue a career in information systems, systems analysis and design, IT project management, and/or the implementation of a complex information system.

Students must have a minimum grade of C in all information systems courses, numbered 200 and above, that are applied to the major. The grade of C is a prerequisite for all information systems courses numbered 300 or above. In addition, students must have a grade of C or better and an overall C average in all major courses. At least 15 hours of the major must be taken at UAB. The university’s course forgiveness policy may be applied to this major.

Information Systems Electives

Select 9 hours from Information Systems courses. 

Total Hours: 24

Admissions Requirement

Students must be admitted to the Collat School of Business. Please review the School’s Admissions Requirements.

Collat School of Business Requirements

Students must adhere to all Collat School of Business Academic Requirements and Information Systems major requirements. The university’s course forgiveness policy is allowed.

Free Electives

If the courses taken to satisfy all of the requirements will not meet the minimum credit hour requirement to graduate, free electives may be taken to reach the required number of hours.

Department of Marketing, Industrial Distribution, and Economics

Chair: Dr. Mike Wittmann

The Department of Marketing, Industrial Distribution, and Economics supports the mission of the School of Business through the department’s majors and course offerings. Majors within the department are designed around discipline-based theory and real-world applications.

The department is responsible for activities in marketing, industrial distribution, economics, and legal studies.

Marketing Major

The objective of the major in marketing is to prepare students for a wide range of marketing positions in both business and not-for-profit organizations and to place our graduates in rewarding and productive careers. Graduates find career opportunities in marketing management, marketing research, supply chain management, professional sales, purchasing, promotion, and advertising. The major is an excellent foundation for graduate work in marketing, Law School or an M.B.A. degree. Students must concentrate in an area of marketing through elective courses offered by the MIDE and MISQ departments. Concentrations include Marketing Management, Professional Sales Management, Retail Marketing Management, and Social Media Marketing.

Students must earn at least a grade of C in all stated prerequisite courses for the marketing requirements. A 2.0 GPA for all courses applied to the major is also required. At least 15 hours of the major courses must be taken at UAB.

Total Hours 24

1 All business majors are required to participate in experiential education. This requirement may carry 0-3 credit hours. Please see your advisor for specific requirements for your major.

Industrial Distribution Major

The Charles & Patsy Collat Industrial Distribution Program is one of a small number of such programs in the world that prepares graduates for technical sales, operations, logistics, marketing and purchasing positions specifically for industrial, technical and medical firms. This challenging and engaging program provides two highly focused tracks from which students choose between as an area of concentration: Industrial Distribution or Medical Equipment and Supplies Distribution. These concentrations allow students the opportunity to gain specialized knowledge unique to each of these industries.

Industrial Distribution Concentration:

The Industrial Distribution concentration provides students with a comprehensive understanding of issues and solutions facing suppliers, distributors, and customers as they move technical products and provide services through supply chain networks. Preparing students for careers with manufacturers or distributors in a technical industry, graduates are prepared to work in positions such as sales, operations, or purchasing for companies that manufacture technical equipment or for companies that distribute these products. While enrolled in the ID Program, students receive instruction and mentoring from faculty in the Collat School of Business as well as from faculty in the School of Engineering. An internship is a required component of the ID Program which enables students to receive direct training and exposure to the field in which they are preparing to work.

**Bachelor of Science with a Major in Industrial Distribution**

<table>
<thead>

<td>3</td>
</tr>
</tbody>
</table>

Completion of this sequence constitutes a double major in Industrial Distribution and Marketing.

**Bachelor of Science with a Major in Industrial Distribution and a Concentration in Medical Equipment and Supplies Distribution**

The Medical Equipment & Supplies Program integrates specially tailored health care coursework with the Distribution curriculum to prepare graduates for careers in the medical equipment and supplies industry. Emphasis is placed on the structure of the health care industry, medical terminology and medical and health care industry purchasing systems. A unique feature of the Program is the experiential learning opportunities that are designed to give students specific knowledge of the fast growing medical equipment and supplies industry. Medical Distribution students, for example, have opportunities to experience the operating room theater
during surgery and witness first-hand the duties and responsibilities of the medical supplier in achieving successful patient outcomes. In combination, the Program provides students with the skills necessary for success in a variety of positions in our country’s medical supply chain. Graduates have been hired by the top medical manufacturers and distributors in positions such as operations, technical sales, purchasing, and inventory management, among others. In addition, many students have been accepted to medical school upon graduation from this Program.

**Requirements**

<table>

**Medical Equipment Supplies Distribution Electives**

Select Four From The Following: 12-13

- BY 115 Human Anatomy
- & 115L Human Anatomy Laboratory (Cannot be used in Core Area III)
- HCM 340 Medical Terminology for Health Professionals
- EC 306 Health Care Economics
- ENT 424 New Product Development
- ENT 426 Practicum in Commercialization
- FN 360 Fundamentals of Healthcare Financial Management
- HCM 330 Health Care Systems
- HCM 416 Financial Management in Health Care Organizations
- HCM 435 Clinical and Administrative Information Systems
- MK 471 Health Care Marketing

**Total Hours** 27-28

1 Must maintain an overall 2.0 GPA, and have an overall 2.0 GPA in all major courses.

**Economics Major**

The major in economics is designed to provide students with a solid grounding in economic analysis and decision making. These skills allow students to follow many career paths in business and government. Also, this major provides excellent training for students planning to pursue graduate work in economics, law, or business.

Students must earn at least a grade of C in all stated prerequisite courses in both economics major concentrations. A 2.0 GPA in all courses used in the major is also required. At least 15 hours of these courses must be taken at UAB. The university’s course forgiveness policy may be applied to both economics major concentrations.

Economics majors should select a concentration in Economic Analysis and Policy, Mathematical Economics, or Philosophy, Politics and Economics as a major.

**Bachelor of Science with a Major in Economics and a Concentration in Economic Analysis & Policy**

This concentration is suited for students who desire an understanding of the functions of the economy at the micro and macro levels. The analytical skills acquired provide excellent preparation for a variety of careers in industry and government, as well as graduate studies in law or public policy.

Students must earn a minimum grade of C in all stated prerequisite courses for any economics major concentration. A 2.0 GPA in all courses applied to the major is also required. At least 15 hours of these courses must be taken at UAB. The university’s course forgiveness policy may be applied to either economics major concentration.

</tr>
</tbody>
</table>

**Economics Major Electives**

Select five 300-level or higher Economics (EC) courses or FN 412 2 15

**Experiential requirement** 3 3

**Total Hours** 27

1 Must earn a grade of C or better in stated prerequisites, have overall 2.0 GPA, and have overall 2.0 GPA in all major courses.

2 Note: Each course used only once.

3 All business majors are required to participate in experiential education. This requirement may be met by satisfactory completion of one of the following courses or other course/project approved by your academic advisor: AC 464, AC 474, BUS 496, DB 495, EC 460, FN 460, IB 495, IS 464, MG 445, MK 425, MK 445

**Bachelor of Science with a Major in Economics and a Mathematical Economics Concentration (and Math Minor)**

Students who choose the mathematical economics concentration will earn both a major in economics and a minor in mathematics by taking the required course work. This track is well suited for those students who wish to pursue graduate studies in economics, finance, or any other quantitative discipline. It also provides the student with excellent preparation for quantitative and analytical careers, such as those in the actuarial science or those in economic consulting.

Students must earn a minimum grade of C in all stated prerequisite courses for any economics major concentration. A 2.0 GPA in all courses applied to the major is also required. At least 15 hours of these courses must be taken at UAB. The university’s course forgiveness policy may be applied to either economics major concentration.

Total Hours: 31

Bachelor of Science with a Major in Economics and a Concentration in Philosophy, Politics and Economics

The Philosophy, Politics and Economics Concentration focuses on topics in the intersection of philosophy, political science and economics. This concentration trains students to attack a wide range of problems using rigorous analytical techniques. It is an excellent basis for graduate study in philosophy, public policy, or political science, as well as for those planning to attend law school or for those anticipating careers in journalism, politics, management, intelligence, marketing, industrial organization and many other fields.

Students must earn at least a grade of C in all stated prerequisite courses for an economics major concentration. A 2.0 GPA in all courses used in the major is also required. At least 15 hours of these courses must be taken at UAB. The university’s course forgiveness policy may be applied to either economics major concentration.

Economics Major Electives

Select three 300-level or higher Economics (EC) courses or FN 412.

Experiential Requirement

Total Hours: 27

1. Must earn a grade of C or better in stated prerequisites, have overall 2.0 GPA, and have overall 2.0 GPA in all major courses.

2. All business majors are required to participate in experiential education. This requirement may be met by satisfactory completion of one of the following courses or other course/project approved by your academic advisor: AC 464, AC 474, BUS 496, DB 495, EC 460, FN 460, IB 495, IS 464, MG 445, MK 425, MK 445

Admissions Requirement

Students must be admitted to the School of Business. Please review the School of Business Admissions Requirements.

School of Business Requirements

Students must adhere to all School of Business Academic Requirements and major requirements. The university’s course forgiveness policy is allowed.

Free Electives

If the courses taken to satisfy all of the requirements will not meet the minimum credit hour requirement to graduate, free electives may be taken to reach the required number of hours.

Proposed Program of Study for a Major in Economics with a Concentration in Philosophy, Politics, and Economics

Proposed Program of Study for a Major in Economics with a concentration in Mathematical Economics (and minor in Math)

College of Arts & Sciences
Dean: Robert E. Palazzo
Senior Associate Dean for Undergraduate Academic Affairs: Catherine Daniélou
Associate Dean for Advising: Kimberly Schnormeier
Associate Dean for Interdisciplinary and Creative Innovation: Yogesh K. Vohra
Associate Dean for Research in the Sciences: David C. Schwebel
The College of Arts and Sciences includes departments in the arts, humanities, mathematics, social, behavioral, natural and physical sciences.

The College offers 28 degree programs leading to a Bachelor’s degree and 23 programs leading to a masters or doctoral degree. Situated at the center of an internationally renowned research university and academic medical center, students and faculty in the College of Arts and Sciences have unparalleled opportunity to be part of the innovative and ground-breaking research and creative work that is the signature of UAB.

We offer a student-centered, experiential curriculum designed to prepare students not only for the careers and challenges of the 21st century but also to be the leaders in the global marketplace of ideas. Every undergraduate program in the arts and sciences is designed to insure that students cultivate strong oral and written communication skills, proficiency in mathematical and analytical reasoning, and sophisticated appreciation of ethics and civic engagement. Graduates with an arts and sciences major develop the ability to understand diverse perspectives making them better prepared to work creatively and productively with others to solve the most important problems of our times.

Honors programs and honors level study are offered in almost every department, along with mentored research and study abroad for interested students. Our metropolitan location provides an endless number of internship placements coordinated with an academic program of study. Each year many of our students pursue at least one of these opportunities.

Interdisciplinary programs of study are increasingly interesting as we realize the benefits of multiple perspectives and methods to advance understanding and improve solutions. Students in the College of Arts and Sciences can pursue formal interdisciplinary programs such as African-American Studies or International Studies. The Bachelor of General Studies (BGS) degree is another interdisciplinary option that prepares students for careers in various professional fields where fundamental critical thinking and inquiry skills as well as rigorous writing and communication skills are of key importance. We also welcome volunteers to work with their academic advisor and to design an individualized, interdisciplinary major in a focused area. Among the fields that some of our students have chosen to focus on are: Asian Studies, Children Studies, Chinese Studies, Film Studies, Forensic Science, Health and Society, International Development, International Health, Japanese Studies, Legal Studies, New Media, Quantitative Economics, Sports and Health in Society, Translational Research, Women’s Studies.

The UAB Core Curriculum requirements and the specific major and minor requirements for graduation are listed below for each Bachelor’s degree option.

### The UAB Core Curriculum

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

### Additional Requirements

Departments within the College have policies on the grade level of acceptable work that may be applied towards the major or minor. All College of Arts and Sciences majors must take general electives to reach the 120 semester hour requirement. At least 9 semester hours of the major must be at the 400 level or above. All students must have a capstone experience. In addition to the number of hours there is a requirement of at least a C average in courses counted toward the major and also in courses counted toward the minor for all students majoring in Biology, Chemistry, Computer and Information Sciences, Mathematics, Physics. At least one-third of the hours in both the major and minor must be completed at UAB, and at least a C average must be maintained in these courses.

Requirements for students majoring or minoring in Communication Studies, Government, International Studies, History, Psychology, Social Work, Sociology: courses counted toward one major or minor may not be applied to meet the requirements of another major or minor; credit will be allowed for job-training instructional programs that have been evaluated and approved by an agency of the American Council on Education, or comparable evaluating agency, and when the work in question is germane to the student’s program. Normal 0 false false false EN-US X-NONE X-NONE MicrosoftInternetExplorer4 /* Style Definitions */ table.MsoNormalTable {mso-style-name:"Table Normal"; mso-tstyle-rowband-size:0; mso-tstyle-colband-size:0; mso-style-noshow:yes; mso-style-priority:99; mso-style-parent:""; mso-padding-alt:0in 5.4pt 0in 5.4pt; mso-para-margin:0in; mso-para-margin-bottom:.0001pt; mso-pagination:widow-orphan; font-size:11.0pt; font-family:"Calibri","sans-serif"; mso-ascii-font-family:Calibri; mso-ascii-theme-font:minor-latin; mso-hansi-font-family:Calibri; mso-hansi-theme-font:minor-latin;}

### Teacher Certification

UAB offers baccalaureate level (Class B) secondary (grades 6-12) teacher certification in Chemistry, Biology, General Science, History, General Social Science, English Language Arts, Mathematics, Music-Instrumental, Music-Choral, and middle school (grades 4-8) teacher certification (Class B) in Mathematics. To obtain certification in fields outside science and mathematics, students must major in their teaching field and education. Requirements for the major in the College of Arts and Sciences may be found in the appropriate department listing. To obtain certification in Chemistry, Biology, Physics, General Science, and Mathematics, students major in their teaching field and participate in the UABTeach program (Heritage Hall Building 210), which leads to a minor in STEM Education and Class B teacher certification. Requirements for the major in the College of Arts and Sciences may be found in the appropriate department listing. Because of specific Alabama Teacher Certification requirements, students seeking certification should consult with the School of Education Student Success Center (Room 100, Education Building) early in their academic careers, or consult directly with UABTeach if in science or mathematics. UAB also offers non-traditional fifth year masters’ level (Class A) certification in the above disciplines. Students majoring in one of the above fields should contact the School of Education Student Success Center for more information about program admission requirements.
Interdisciplinary Programs

Interdisciplinary programs of study are increasingly interesting as we realize the benefits of multiple perspectives and methods to advance understanding and improve solutions. Students in the College of Arts and Sciences can pursue formal interdisciplinary programs such as African-American Studies or International Studies. The Bachelor of General Studies (BGS) degree is also an interdisciplinary degree that will prepare students for careers in various professional fields where fundamental critical thinking and inquiry skills, rigorous writing and communication skills, as well as team work skills are of key importance. Other possibilities for interdisciplinary study include for example Media Studies or Film Studies at the minor level. The Interdisciplinary Minors list below indicates our choices in the College of Arts and Sciences.

We also encourage motivated students to work with their academic advisor and faculty to design an individualized, interdisciplinary major in a focused area. The Individually Designed Major option is available to all students in good standing who are interested in working independently, and can only be made possible using courses available at UAB. Among the many different fields that some of our students have chosen to focus on are Asian Studies, Children Studies, Chinese Studies, Film-making, Film Studies, Health and Society, Integrative Media, International Development, International Health, Japanese Studies, Latin American Studies, Legal Studies, Media Production, Sports and Health in Society, Social Media, Sports Economics, Women’s Studies. Students who may be interested in designing their own major should contact their academic advisor or email Dr. Catherine Danielou at danielou@uab.edu. (danielou@uab.edu)

African American Studies

Director: Kathryn Morgan

The African American Studies Program is an interdisciplinary program that integrates the humanities, social and behavioral sciences and health related fields. A major in African American Studies leads to a Bachelor of Arts Degree. The Program also offers a minor. Since the Program requires only 40 hours for completion, students are encouraged to consider a “double major” with African American Studies.

The curriculum offered by the African American Studies Program advances knowledge about continental and diasporic African and African-American cultures and the history, literature, art, music, politics, economics, and religion associated with these cultures.

Our mission is to encourage critical thinking, develop analytical and writing skills, promote understanding and appreciation of contributions made by African Americans, and illuminate the complexity of race and the African American experience.

In addition to taking the required core classes for the major, students will have the opportunity to select one of three areas of emphasis: Global and Minority Health and Social Justice; Historical Investigation and Cultural Awareness; and History and Culture of Afro-Caribbean and Latino People.

The plan of study prepares students with critical knowledge, research skills, and communication skills to further their education in graduate and professional study in a variety of disciplines including African American Studies, Public Health, Criminal Justice, Public Administration, and Education; obtain employment in public health, social sciences, business and related fields; communicate effectively; and demonstrate the application of knowledge through community engagement.

The revised curriculum provides students more course options for completing the requirements of the degree. The revised curriculum also provides Areas of Emphasis that lead to a variety of career and graduate school opportunities. The three areas include: Global and Minority Health and Social Justice; Historical Investigation and Cultural Awareness; and the History and Culture of Afro-Caribbean and Latino People. As an African American Studies major, students select an area of study and complete enough hours to pursue a Master’s or secure employment in that area. Students are able to develop goals early in their academic careers and strategies for achieving their goals.

In addition to the major in African American Studies, the Program also offers a minor. Students are required to complete 18 hours of coursework to fulfill the requirements for the minor. Students may also complete the minor online. Online courses will allow students to fulfill the minor requirements.

### African American Studies Honors Program

**PURPOSE**
The purposes of the Honors Program in African American Studies are to promote academic excellence; provide opportunity for majors to do extensive study and research in the discipline; and prepare academically talented majors to pursue graduate school or professional careers.

**ELIGIBILITY**
- completion of required AAS courses:  
  - AAS 200 Introduction to African American Studies  
  - AAS 320 (African Identity and Personality),  
  - AAS 350 (Research Methods in African American Studies)  
- undergraduate cumulative GPA of 3.00  
- GPA of 3.25 in AAS courses  
- junior-senior level standing

**REQUIREMENTS**
- completion of required courses for the AAS major  
- approval by the Program Director  
- completion of AAS 497 Honors Seminar (Fall Semester)  
- completion of AAS 498 Honors Thesis/Project (Spring Semester)  
- formal presentation of the final project

**BENEFITS**
Participation in the African American Studies Honors program provides opportunities for academically talented students to have unique access to faculty and to interact with other honors students in an environment that encourages creative and innovative thinking. Seminar participation and research experience will be useful for graduate study or a career in the field. Completion of the Honors program is an advantage when applying to graduate programs. Finally, students who complete the program will be recognized at the African American Studies outstanding student ceremony and will graduate “With Honors in African American Studies.”

**CONTACT**
For additional information and/or admission to the African American Honors Program, please contact:

Dr. Kay Morgan, Program Director  
African American Studies Program  
322 Heritage Hall  
Birmingham, AL 35294-1152  
Phone: 205-975-9651 or 975-9652  
E-mail: kmorgan@uab.edu

### American Studies

**Interdisciplinary Minor**

**Directors:** Catherine Danielou (Dean's Office, College of Arts and Sciences) and Deborah Littleton (College of Arts and Sciences)

The American Studies Program offers, through the College of Arts and Sciences, an interdisciplinary minor that examines various aspects of United States society and culture. Students are introduced to a wide range of different “texts” from American art, literature, music, history, science and technology, political science and sociology, justice sciences, and popular culture. These “texts” may include movies, slides, audio recordings, material artifacts, folkways, and food ways, as well as traditional written material. Students learn how to “read” and interrelate these texts in order to acquire a more complete and multifaceted understanding of American life and history. The minor in American studies thus provides a broad background in liberal arts and social sciences while developing skills of interdisciplinary thinking useful in a variety of careers. An American studies minor complements and counterbalances more narrowly focused majors; at the same time, it enhances majors that are either national or international in scope.

Total Hours 29

1 Note: All of these courses may also satisfy the Core Curriculum Area III: Natural Sciences requirement; check the Core Curriculum for your particular major.

Grade Requirement
All courses applied to this minor must be completed with a grade of C or better.

Film

Interdisciplinary Minor

Director: June Mack (Theatre)

Committee: Bokobza (Foreign Languages and Literatures), Danielou (College of Arts and Sciences), Forman (Media Studies/History), Lake (Art/Art History), Millard (History), O’Beirne (Media Studies Commons), Phillips (Music), Shackleford (Theatre), Siegel (English).

The College of Arts and Sciences Interdisciplinary Film Minor is a 21-hour program. Coursework must be chosen from a minimum of 3 disciplines. Students may petition to substitute courses for up to 6 credit hours. Please contact the director of the minor for information regarding course substitutions and let your academic advisor know as well. Substitutions must be approved 6 months before graduation.
General Studies

Bachelor of General Studies

**Director:** Catherine Daniélou

College of Arts and Sciences Dean’s Office

The Bachelor of General Studies (BGS) degree is a flexible interdisciplinary degree that allows students to choose a general curriculum that meets their individual goals and provides room for exploration and inquiry. The BGS prepares students for careers in various professional fields, including government, health care, real estate, general social services and the service-producing sector, law, retail, and private industry where fundamental critical thinking and inquiry skills as well as rigorous writing and communication skills are of key importance.

The Bachelor of General Studies is a broad-based option supported by all undergraduate programs offering a minor at UAB. UAB offers a choice of over 80 minors. The BGS program integrates all our undergraduate campus in the choice of options. The program goals are to 1) equip students with a broad-based higher education allowing them to perform efficiently in the workplace; 2) prepare students to understand an increasingly complex and multifaceted world; and 3) help students to demonstrate a multidisciplinary base of knowledge.

Undergraduate students graduating with a degree in General Studies work with the assigned BGS advisor and select two minors of their choice offered at UAB. Graduating students are expected to: (1) write, communicate, and present effectively; (2) evaluate and interpret information as well as societal issues critically and analytically; (3) apply knowledge and modes of inquiry from several disciplines; (4) demonstrate integrative learning.

The Bachelor of General Studies provides broad well-rounded rigorous educational opportunities to traditional and non-traditional students contemplating careers for which a Bachelor’s degree and university-level reading, writing, communication and critical thinking skills are required.

Program Director:

Catherine Danielou, PhD, Dean’s Office, College of Arts and Sciences
934-4653, danielou@uab.edu

Successful completion of any 2 UAB minors* of student’s choice

**Capstone Requirement:**

Select one of the following:

- CAS 400 – General Studies Capstone (1 credit)
- Or another UAB approved Capstone course

Total Hours: Estimated 36 – 51 hours (minors being a minimum of 18 hours)**

*Students majoring in General Studies must achieve a grade of C or higher in all courses applied toward the major requirements.

**A single course may not count toward more than one minor requirement.

Gerontology

**Interdisciplinary Minor**

**Director:** Patricia L. Sawyer

Committee on Undergraduate and Graduate Education in Gerontology

**Director:** Sawyer (Center for Aging)

**Associate Director:** Shevchenko (Health Professions)

**Members:** Austad (Biology), Ball (Psychology), Curtis (Division of Gerontology, Geriatrics, and Palliative Care), Fordham (Nursing), Galvin (Public Health), Ghana (Biology), Wadley (Psychology)

Gerontology is the study of the processes of aging in all their diversity—the complex interaction of individual, social, and organizational phenomena producing change over the entire life span. Gerontological education necessarily encompasses many traditional disciplines in the biological, behavioral, medical, and social sciences, as well as numerous professional specialties. The philosophy of the Gerontology Education Program is that research and instruction of the highest quality are achieved when faculty and students are trained within their parent discipline or field and apply their insights to questions of aging through interdisciplinary education. In this sense, students bring a firm disciplinary background with a specialized body of knowledge into their future endeavors.

UAB’s Gerontology Education Program offers interdisciplinary courses in gerontology, leading to an undergraduate minor. The study of gerontology at this level provides students educated in various disciplines with the background needed to work in programs related to aging and the aged. The program’s main goals are to provide students with a thorough background in existing theory and research in gerontology and to supplement their existing backgrounds and professional disciplines.

The academic program is administered by the director of the Gerontology Education Program. The director is also responsive to the guidance of the Committee on Undergraduate and Graduate Education in Gerontology and serves as chair of the committee. The committee is made up of representatives from academic departments throughout UAB who are active in the study of aging and the aged. The director reports to the dean of the College of Arts and Sciences and to the director of the Center for Aging.
The multidisciplinary gerontology program is offered to all UAB students in good standing. The program has the sponsorship and support of the College of Arts and Sciences and the Center for Aging. Students may obtain the program’s Operating Policies: Standards and Procedures Manual through the program director.

Complete a practicum or independent reading or research project for three credit hours. See your advisor for details.

Gerontology Electives

Select six hours from Gerontology (GER) courses

Grade Requirement

A grade of C or better is required in all courses applied to the minor. Additionally, students must have a GPA of at least 2.5 in all courses applied to the minor.

International Studies

Interdisciplinary Major and Minor

Director: Renato Corbetta

Faculty: Corbetta, Sharlach, Zahariadis (Government); Kyle (Anthropology), Liber, Murray, Van Sant, Ward (History); Biga, Cockerham (Sociology); Cummings (Art and Art History); Danielou (Foreign Languages and Literatures)

The International Studies Program promotes a holistic appreciation of the different values and structures that characterize the world's diverse societies, as well as an understanding of the institutions that produce economic, social, cultural, and political interdependence among nations.

A major or minor in international studies provides students with the background necessary to pursue a variety of public and private-sector careers. Employment opportunities are as numerous and varied as the interests and abilities of individual students. Majors may find employment in diplomatic or foreign service; international business, law, or labor relations; international development, social service, the travel industry, or health agencies and cultural organizations. Many of our students pursue graduate work in the fields of international relations, international development, peace studies, conflict resolution studies, public health, or law. We encourage all International Studies majors to study abroad, minor in a foreign language, and hope that they will pursue internship opportunities as well. The minor complements any major area by providing students with an international focus in their field.

The program is administered by the College of Arts and Sciences. In addition, courses taught in other schools and professional programs at UAB may be relevant to the curriculum developed by a student in pursuit of his or her specific career goals.

International Studies is an interdisciplinary major. Courses eligible to apply to this major may vary with the emphasis that a student chooses.

See your advisor for identifying an appropriate curriculum in your area of interest.

### Cultural Literacy

Select three of the following courses, from at least two different departments:

- ANTH 101 Introduction to Cultural Anthropology
- ANTH 104 Introduction to Peace Studies
- ANTH 303 The Conquest of Mexico
- ANTH 319 Food and Culture
- ANTH 320 Comparative Religion
- ANTH 357 Anthropology of Gender

### Electives

Students must take six semester hours from any of the above approved list of courses AND/OR from the list below:

- ANTH 207 Introduction to Egyptian Archaeology
- ANTH 285 Mapping Our World
- ANTH 304 Looking at Earth: Maps Satellite Images and GIS
- CMST 416 Issues in Global Communication
- ENH 400 Our Global Environment: Issues and Challenges
- ENH 405 Nature vs. Nurture: Genes, Environment and Health
- FLL 303 History of World Movies I: The Origins to 1960
- FLL 304 History of World Movies II
- FLL 485 Foreign Language Capstone Seminar
- HY 339 The Holocaust
- HY 422 Ethnic Cleansing & Genocide 1912-2012
- PUH 302 Epid: Beyond the Outbreak
**Grade and Level Requirement**

A grade of C or better is required in all International Studies courses. Students must demonstrate second-year proficiency in a foreign language. Students must ensure that at least 9 hours are taken in an approved geographic concentration. Geographic areas currently include Europe, Africa, Asia, Latin America and the Middle East. At least 15 credits must be taken at the 300 level including 9 hours at 400 level. Students must fulfill an international experience. This requirement may be satisfied by one of the following: participation in a study abroad program; participation in a course with a substantial international, applied component to it; participation in the Model Arab League simulation program; participation in a course with a substantial international, applied component to it; participation in an internship with an international organization or company or an entity offering an international component.

**Additional Requirements**

**General Electives**

Students must take general electives to reach the 120 semester hour requirement.

**Proposed Program of Study for a Major in International Studies**

Media Studies

Interdisciplinary Minor

Director: Michele Forman (Department of History)

The Media Studies minor is an interdisciplinary program for students interested in learning the theory and production practices of new media technology. The minor provides students a solid grounding in the history, theory and practice of documentary film, film history, oral history, ethnography, community studies, and media theory. Students will gain experience in community-based research, as well as attain proficiency in various new media technologies.

The courses are taught by members of the UAB Arts and Sciences faculty, offering students instruction in digital video cinematography, field audio recording, computer-based editing, applied research techniques, and professional presentation methods. The minor in Media Studies emphasizes experiential learning and offers students opportunities for hands-on participation in local communities through service learning and internships with non-profit organizations, businesses, and educational and governmental institutions.

Requirements

The Media Studies minor will require 18 semester hours, including three courses in the core for the minor (9 hours), six hours of additional advanced media studies coursework (either 2 courses or one 6 hour-course), and one elective (3 hours). The elective will be drawn from a number of relevant courses already existing in the curriculum of the College of Arts and Sciences involving technology, media, and/or community studies. No grade below C will be counted as credit for the minor.

Natural Science

Interdisciplinary Major

The purpose of the Natural Science degree is to enable students to receive a general science education based on a course of study which is broader, but less in-depth in a single area, than a typical science major in the College of Arts and Sciences.

Requirements are successful completion of 30 semester hours approved and offered by one science department (designated the major) and 27 semester hours approved and offered by a second science department (designated the minor). The five science departments are found within the College of Arts and Sciences and include Biology, Chemistry, Computer Science, Mathematics, and Physics. At least 9 semester hours of the major must be at the 400 level or above. The major requires a Capstone experience.

Because departments within the college offer a variety of courses for diverse purposes, not every course listed in this catalog can be counted toward the natural science degree. Students must obtain approval of a plan of study leading toward this degree from the department chair of both the major and minor departments. It is advisable to do this as soon as possible to avoid taking courses that might not be approved toward the degree.

In addition to the number of hours, there is a requirement of at least a C average in courses counted toward the major and also in courses counted toward the minor. At least one-third of the hours in both the major and minor must be completed at UAB, and at least a C average must be maintained in these courses. Individual departments may be contacted for specific listings of courses required or recommended for the major or minor in that department for the natural science degree, or for information about particularly effective major/minor pairings.

Students interested in pursuing a major in Natural Science should email Dr. Catherine Danielou, Senior Associate Dean for Undergraduate Academic Affairs in the College of Arts and Sciences, and will be referred to an appropriate academic adviser (danielou@uab.edu), or call (205) 934-5643.

Neuroscience

Interdisciplinary Major

Neuroscience is an ideal major for motivated students who want to pursue careers in medicine, research, and other health related disciplines. The curriculum for a BS degree in Neuroscience combines coursework in biology, chemistry, math, physics, psychology, and neurobiology to provide students an interdisciplinary understanding of the body’s most complex organ system.

The UAB Undergraduate Neuroscience Program (UNP) (http://www.uab.edu/cas/neuroscience) is an interdisciplinary major between the Department of Neurobiology in the School of Medicine and the Department of Psychology in the College of Arts and Sciences. Neuroscience is the study of the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions. Neuroscience also seeks to understand the molecular basis of nervous system disorders and diseases. Multidisciplinary in nature, the field of Neuroscience spans the anatomy, evolution, development, genetics, biochemistry, cell biology, physiology, electrophysiology, pharmacology, circuitry and pathology of the nervous system. Therefore, neuroscience integrates biology, chemistry, physics, mathematics, psychology, and computer science. It is one of the most rapidly advancing fields in biomedical research.

The goals of the UNP are to prepare and advance UAB undergraduates to careers in research and health-related sciences in highly competitive programs and to enable UAB graduates to become accomplished research scientists, clinicians and health-care professionals who will be ideally equipped for future study of the nervous system and treatment and discovery of cures for neurological, psychiatric and neurodevelopmental disorders and injury.

The UNP and its Training Faculty accomplish these goals by four complementary mechanisms. First, students are provided with a solid academic and intellectual foundation through coursework in biology, chemistry, mathematics, physics, psychology and neuroscience (http://www.uab.edu/cas/neuroscience/academic-programs/the-major). Second, students conduct original hands-on laboratory research under the direction of faculty mentors (http://www.uab.edu/cas/neuroscience/people/faculty-directory) to learn the state-of-the-art experimental approaches and methods in Neuroscience research. Third, students are mentored in the development of skills in scientific method, experimental analysis, and effective oral and written communication (http://www.uab.edu/cas/neuroscience/academic-programs/research). Students are expected to become active “colleagues” in faculty laboratories, which should result in publications in scientific journals and presentations at professional meetings. Fourth, students are provided with one-on-one academic and career counseling to identify professional programs most suited to their interests, and strategies to be competitive applicants to these programs.

Students earning the B.S. in Neuroscience at UAB are ideally suited for admission into the nation’s most prestigious graduate programs, and medical and professional schools.
Admissions

The UNP is designed for graduating high school seniors and college freshmen or sophomores with a strong academic record and the motivation to pursue a career in biomedical science. Please note carefully the following items.

High school students with an ACT score of 28 or higher and a GPA of 3.5 or higher (the UAB Honors College admissions criteria) are eligible for immediate acceptance into the Neuroscience major. Others may choose to attend UAB before applying in the freshman or sophomore year. Current UAB students whose high school credentials meet the minimum requirements and/or whose academic performance in freshman science courses is excellent may apply at any time (http://www.uab.edu/cas/neuroscience/academic-programs/apply). Please contact Dr. Cristin Gavin (cfgavin@uab.edu), if you would like to be considered for admission to the Program. Program Leadership is available to meet with high school students and their parents, or with current UAB students, to discuss the Program.

Advising and Information

Dr. Scott Wilson
Program Director, Undergraduate Neuroscience Program
Associate Professor of Neurobiology, School of Medicine
(205) 975-5573
livvy01@uab.edu

Dr. Cristin Gavin
Co Director, Undergraduate Neuroscience Program
Assistant Professor of Neurobiology, School of Medicine
(205) 934-6433
cfgavin@uab.edu

Dr. Rajesh Kana
Co-Director, Undergraduate Neuroscience Program
Associate Professor of Psychology
(205) 934-3171
rkana@uab.edu

Dr. David Knight
Co-Director, Undergraduate Neuroscience Program
Associate Professor of Psychology
(205) 996-6344

</table>
Medical school requires 6 hours of college math. AP Calculus can be substituted for 3 credit hours, but pre-medical students must take another math course at UAB. MA 180 will satisfy the requirement; therefore, students planning to attend medical school should take MA 180.

Research credit hours (NBL/PY 398) are distributed across multiple semesters. Students should register for NBL 398 if their research mentor resides in the School of Medicine, and PY 398 if their mentor resides in the College of Arts and Sciences. NBL 398 and PY 398 credit can be applied toward completion of the Science and Technology Honors Program.

Neuroscience majors in the laboratory-based research track should be working under the direction of a faculty mentor no later than the first semester of their junior year. However, students may identify a mentor and begin conducting research following completion of their Laboratory Research Orientation in their freshman year.

**Recommended but not Required:**

- NBL 225 No Self Control: Motivation, Reward and Addiction (3 credit hours)
- NBL 327: 100 Things You’ve Always Wanted to Know About the Brain (3 credit hours)
- NBL 245 The Neurobiology of Learning and Memory (3 credit hours)
- VIS 427 - Dauphin Island Sea Lab (DISL) (3 credit hours, May Miniterm)
- BY 330 Cell Biology (3 credit hours)
- BY 210 Genetics (3 credit hours)
- PY 335 Motivation and Emotion (3 credit hours)
- PY 372 Social Psychology (3 credit hours)

Premedical students should take SOC 100.

**Academic Performance Requirement:** Neuroscience majors must maintain an overall GPA of 3.2 to remain in the program. Any students falling below the academic requirement will be given 1 semester to raise their GPA and a subsequent semester of academic probation with the program.

Peace, Justice and Ecology

Interdisciplinary Minor

Directors: Loretta Cormier, Douglas Fry, and Chris Kyle (Anthropology)

Faculty: Baker (Social Work), Becker (Environmental Health Sciences), Biga (Sociology), Copes (Justice Sciences), Dickinson (Environmental Health Sciences), Ertas (Government), Keitt (History), King (History), Petri (Human Studies)

The Peace, Justice, and Ecology minor, housed in the College of Arts and Sciences, is an interdisciplinary program for students seeking a broad learning experience in human-ecological interactions, bio-cultural diversity, and strategies to foster social justice, peace, and environmental sustainability from a holistic perspective. The Peace, Justice, and Ecology studies minor offers students the opportunity to examine themes of ecological adaptation and sustainability as well as environmental health and human rights in local, cross-cultural, and global contexts, and to apply scientific, philosophical, and ethical reasoning to real-world problems.

Students interested in Peace Studies and this particular minor can contact Dr. Douglas Fry, Chair of the Department of Anthropology (Heritage Hall 315).

Grade Requirement

A C or better is required in all courses applied to the minor.

Women's and Gender Studies

Interdisciplinary Minor

Director: Lisa Sharlach (Government)

Faculty: Baker (Social Work), M. Bellis (English), Chapman (English), Cormier (Anthropology), Dallow (Art History), Doss (History), Drentena (Sociology), Forman (Media Studies), Gunther-Canada (Government), King (History), Koskinen (Theatre), Lariscy (English), Morgan (African American Studies & Justice Sciences), Murray (History), Sharlach (Government)

Women's and Gender Studies, formerly Women's Studies, is an interdisciplinary minor within the College of Arts and Sciences. Courses address sexuality and the gendered dynamics of history, politics, literature and the arts, philosophy and theology, health, and socio-cultural practices. The minor may be of interest to students pursuing careers in government, the justice system, education, social services, economic development and the health professions.

Total Hours: 18

Grade & Residency Requirement

A C or better is required in all courses applied to the minor. At least half of the minor must be completed at UAB.

Department of Anthropology

Chair: Douglas P. Fry

The Anthropology Department offers the Bachelor of Arts degree and the Master of Arts degree. In addition to the Anthropology Major, the department offers two minors, one in Anthropology and the other in Peace, Justice, and Ecology. Anthropology is a social science discipline committed to the comparative and historical study of humankind. Anthropology is the broadest in scope and the most methodologically diverse of the social sciences.

Our departmental mission is to advance knowledge of anthropology through scientific and humanistic research, high quality teaching, professional publications, and community outreach. The faculty conducts research, teaches, and trains in the four subfields of anthropology, cultural anthropology, linguistics, archaeology and biological anthropology as well as in the applied areas of peace and conflict studies, ecology, social justice, and human rights. Current faculty do research and teach in areas of satellite or space archaeology, Egyptology, medical anthropology, historical ecology, paleo-ecology, war and political violence, peace studies, human rights, and social justice. The research and teaching focus on peace, human rights, justice, and ecology is being expanded. For instance, Anthropology hosts the Peaceful Societies website and cooperates with the UAB Institute for Human Rights (HRI).

Students interested in careers in the fields of law, teaching, public service, international affairs, business, journalism, and a variety of other areas involving the social sciences and humanities will find the anthropology major beneficial and rewarding. Anthropology provides a solid foundation for the following careers: multicultural training, cross-cultural research, international health, forensic science, cultural resource management, national park service, teaching, international business, language interpreters, primatology, global issues, environmental conservation, tribal anthropology, and museum curation.

An undergraduate student has latitude in selecting a personalized program of study in the major that satisfies individual interests and
maintains the holistic integrity of an undergraduate degree in general anthropology.

**Anthropology Graduate Program**
For information, contact the Department Chair or the Graduate Program Director.

---

**Grade & Residency Requirement**

A grade of C or better is required in all courses applied to the minor. At least half of the minor must be completed at UAB.

**Honors Program in Anthropology**

**Purpose**

The Anthropology Honors Program is designed to prepare students for advanced work at the graduate or professional level.

**Eligibility**

All regularly admitted students with a declared major in anthropology are eligible to enter the program, although continuing participation requires maintenance of an overall 3.0 GPA and a 3.25 GPA in anthropology.

Thirty-three semester hours in anthropology are required plus the completion of one of three statistics/foreign language options listed below. Students will be required to complete a minor.

Total Hours
Three courses in a foreign language, including one at the 200 level or above (or demonstrated proficiency at the 200 level) 9-11

Total Hours 9-11

1 STH students can substitute STH 301 for one of the Statistics courses

Benefits

Students will benefit from the Anthropology Department Honors Program by acquiring additional research skills to successfully enter and compete in internationally-oriented graduate and professional programs. Students who complete the program will graduate “With Honors in Anthropology.”

Contact

For additional information and/or admission to the Anthropology Honors Program, contact the Department Chairperson, 322 Heritage Hall, Birmingham, AL 35294-1152; Telephone (205) 934-3508.

Department of Art & Art History

Chair: Lauren Lake

The Department of Art and Art History grants the following undergraduate degrees: a Bachelor of Arts and a Bachelor of Fine Arts. The B.A. has two areas of concentration: Art Studio and Art History. The department awards a Master of Arts in Art History in conjunction with the University of Alabama at Tuscaloosa. The MA in Art Education degree is granted through the School of Education. UAB’s Department of Art and Art History is accredited by the National Association of Schools of Art and Design. Nationally and internationally active scholars and artists who promote creative inquiry, scholarship and innovation are actively teaching in their classrooms and studios.

Art History:
Emphasizing skills in critical thinking and visual literacy, students study a breadth of art history across time periods and culture preparing students for a wide range of careers and graduate study.

The Master of Arts degree in Art History prepares students for further academic study at the doctoral level or for professional careers in teaching, museums, galleries, and other arts-related fields.

Studio Art:
Studio art courses enable students to emphasize the skills and concepts of communicating visually, critically and conceptually. Students are encouraged to create a trajectory and drive for making art through experiencing the disciplines of the fine arts and design.

Students gain hands-on experience as they learn to formulate an understanding of the principles and elements of artistic practice. Students execute artworks by choosing media and technologies that support their ideas. They learn to develop sound research and production values, work in teams, analyze artwork, create professional portfolios and present their work orally and in writing.

Bachelor of Arts with a Major in Art and an Art History Concentration

The B.A. degree in Art is offered for students who seek a liberal arts education with a concentration in art history.

Must earn a C or better in all coursework.

**ARH 497** Seminar: Contemporary Art

### Footnotes

1. Freshmen must take either University 101 or another College of Arts and Sciences Freshman Year Experience Course.
2. Note: ARH 203, or ARH 204, or ARH 206 will also satisfy Core Curriculum Area II.

### Bachelor of Fine Arts -Major in Art

The Department of Art and Art History’s Bachelor of Fine Arts degree offers students an intensive exploration across a breadth of media and depth of discipline. Within this context, the undergraduate student prepares to be an artist or designer, begin a career in the arts, or to continue their studies in graduate school. Students gain skills and competencies including: team-based learning, technology, communication, problem solving, aesthetic judgment, interdisciplinary approaches, innovative thinking, critical analysis and professional development throughout their program of study. The BFA exhibition, a highlight of the undergraduate career, both demonstrates and celebrates the students’ accomplishments.

### Notes:

Admission to the B.F.A. program requires a portfolio review of the student’s work submitted to the B.F.A. committee of the Department of Art and Art History. Portfolios are reviewed twice a year, in the Fall and Spring semesters, following announced deadlines for application to the program. Students must receive a C or higher grade in all studio courses. Students select a member of the studio faculty to serve as their primary mentor for their B.F.A. exhibition/capstone course which occurs each spring in the Abroms-Engel Institute for the Visual Arts.

### Requirements

- A C or better is required in all coursework.

#### Freshman Year Experience

1. College of Arts and Sciences Freshman Year Experience 1

#### Required Art Studio Courses

Select two of the following:

- ARH 203 Ancient and Medieval Art
- ARH 204 Early Modern-Contemporary Art
- ARH 206 Survey of Asian Art

**Art History Electives**

Select four of the following:

- ARH 101 The Art Experience

**Total Hours:** 6

---

### Minor in Art Studio

**Requirements**

**Art Foundations**

Choose four of the following:

- ARS 100 Drawing Foundations
- ARS 101 Two-Dimensional Design Foundations
- ARS 102 Three-Dimensional Design Foundations
- ARS 103 Digital Imaging & Design Foundations

**Total Hours:** 12

---

*General Electives should be taken to reach 120 hour requirement.*
ARS 104  Four-Dimensional Design Foundations  
ARS 110  Visual Literacy & Application Foundations  
ARS 280  Creativity and Imagination  

Art History Survey  
Choose one of the following:  
ARH 203  Ancient and Medieval Art  
ARH 204  Early Modern-Contemporary Art  
ARH 206  Survey of Asian Art  

Art Studio Courses  
Choose one of the following:  
ARS 200  Experiential Drawing  
ARS 210  Experiential Painting  
ARS 220  Experiential Sculpture  
ARS 230  Experiential Ceramics  
ARS 240  Experiential Printmaking  
ARS 250  Experiential Graphic Design  
ARS 270  Experiential Photography  

Total Hours  18  

Honors in Art History & Art Studio  

HONORS IN ART HISTORY:  

Purpose  
The Honors Program in Art History is designed for outstanding art history students. Through a program emphasizing critical analysis, enhanced writing and original research proficiencies, students will develop skills necessary to professional careers in the arts and humanities and to further graduate study.  

Benefits  
Students will work closely with faculty mentor and develop extensive research and writing skills. They will also receive a certificate at the spring UAB Honors Convocation and will graduate “With Honors in Art History.”  

Eligibility  
To be accepted into the Honors Program in Art History, a student must:  

- Be a B.A. Art major (Concentration in Art History).  
- Have at least a 3.5 GPA in Art History courses.  
- Have at least a 3.0 GPA overall.  
- Have completed at least 12 hours in art history, 3 hours of which must be at the 400-level.  
- Submit an Art History Honors Program application form to the B.A. Art History Advisor for the Department of Art and Art History.  

Application forms can be found on the department website. The Department Chair approves admission into the program in consultation with the art history faculty. Admission is acknowledged by a formal letter.  

Requirements  

- Complete all required courses for the B.A. Art (Art History concentration) major.  
- Maintain a 3.5 GPA in art history and 3.0 GPA overall.  
- In the senior year, complete ARH 499 Honors Thesis. This course may fulfill one of the art history 400-level elective requirements for the degree. Student should have completed ARH 489 as a prerequisite (capstone course for B.A. Art major)  
  - ARH 499 Honors Thesis is a directed study course where the student will work intensively with a faculty mentor to write a formal, extensive research paper on a topic of the student’s choice.  
  - Prior to registration in ARH 499, typically the preceding semester, the student will select a member of the art history faculty to serve as faculty mentor and submit a thesis project proposal (3-5 pages in length plus bibliography).  
  - Upon approval of the proposal by the faculty mentor, student may register in ARH 499.  
  - Formatting, title page, and length guidelines for the thesis may be obtained from the Art History advisor or faculty mentor.  
  - Obtain signature of faculty mentor on Honors Thesis final approval form.  
  - Submit 1 copy of signed approval form to B.A. Art History Advisor who will submit the form to the chair of the department.  
  - Signed approval form must be submitted by last day of classes (Fall and Spring semesters only), preceding the week of final exams.  
  - Submission of electronic copy of the thesis to the department chair.  

Contact  
For more information and/or admission to the Art History Honors Program, please review the application form found on the department website under student resources.  

HONORS IN ART STUDIO:  

Purpose  
Honors in Studio Art acknowledges outstanding overall achievement in the major, as demonstrated by the quality and depth of a student’s work. To apply, eligible students must participate in an ARS491 AND submit a portfolio which includes an artist statement. Application for honors does not insure receipt of honors.  

Benefits  
You will receive a certificate at the spring UAB Honors Convocation and will graduate “With Honors in Art Studio.”  

Eligibility  
To be accepted into the Honors Program in Art History, a student must:  

- Be a B.F.A. Art Studio major.  
- Have at least a 3.5 GPA in studio art courses.  
- Have at least a 3.0 GPA overall.  
- Have completed at least 12 hours in art history, 3 hours of which must be at the 400-level.  
- Submit an Honors application form to your BFA Exhibition faculty.  

Application forms can be found on the department website. The Department Chair approves admission into the program in consultation with the art studio faculty. You will receive notification if your application from the Chair of the Department.  

Requirements  

- Complete all required courses for the B.F.A. major.  
- Maintain a 3.5 GPA in studio art and 3.0 GPA overall.
in biology:

- In the senior year, complete ARS 491: BFA Exhibition course. Student should have completed ARS 489 as a prerequisite (capstone course for B. F. A. Art major)
  - ARS 489 BFA Exhibition a directed study course where the student will work intensively with a faculty mentor to create an exhibition and portfolio around a theme of the student’s choice.
- Obtain signature of faculty mentor on Honors final approval form
- Submit a signed approval form to the departmental Chair's office.
- Signed approval form must be submitted by last day of classes (Fall and Spring semesters only), preceding the week of final exams.
- Submission of electronic copy of the portfolio (including artist statement) to the department honors faculty mentor.
- The awarding of honors is the decision of the Studio Art faculty. In addition to the above criteria, the following also play a role in the awarding of honors:
  + You demonstrated familiarity with the critical issues in the areas of your work
  + Your BFA Exhibition faculty member observed you to be self-directed and highly motivated throughout the course of study.
  + Your work in the Senior Exhibition revealed an informed level of critical, conceptual, and technical competence.

Contact

For more information, please review the application form found on the department website under student resources.

Department of Biology

Chair: Steven N. Austad

The Department of Biology has experienced faculty dedicated to research and teaching with interests ranging from the molecular to the ecological level. The broad expertise of our faculty allows diverse emphasis in cellular, molecular, developmental, environmental, evolutionary, genetic, marine, and organismal biology. Our faculty have been recognized by the University and by national and international biological organizations for their excellence in research and teaching.

The curriculum in biology provides general and specific courses for non-majors and prepares the major for graduate study in biology; the professional schools of human and veterinary medicine, dentistry, optometry, and allied health sciences. Additionally, the curriculum prepares the non-major and major student with knowledge required for careers in secondary science education, environmental education, wildlife management in both the public and private sectors, and other careers dependent upon comprehension of biological sciences. The Department of Biology also has a well established Honors curriculum for those students who excel in academics and wish to participate in biological research. This program allows students to conduct research under the mentorship of faculty in the Department of Biology or the School of Medicine, and to graduate with departmental honors. The department offers the following B.S. degrees in biology as well as a minor in biology:

1. Major in Biology – Integrative Biology Concentration
2. Major in Biology – Marine Science Concentration
3. Major in Biology – Molecular Biology Concentration

Grade Point Average (Majors and Minors)

A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB. The current UAB course repeat policy will be used in calculating the grade point average.

Transfer Credit

Biology courses in which a grade of D is earned at another institution cannot be applied toward requirements for the major or minor. Students will not be given more credit (semester hours) toward the major or minor than awarded for equivalent courses at UAB, nor more than 8 semester hours of credit in any introductory sequence or combination of courses. Excess hours in these courses may, however, be applied as electives toward the 120 semester hours necessary to satisfy the general degree requirements.

A minimum of 9 semester hours in the major and 6 semester hours in the minor in biology must be taken at UAB.

Graduate Programs

The Department of Biology offers graduate study leading to the degrees of Master of Science and Doctor of Philosophy. Further information may be found in the UAB Graduate School Catalog.

Accelerated Master of Science Programs

Fifth Year M.S. Program

The Department of Biology offers an opportunity to earn a B.S. and an M.S. degree in a total of five years. This program offers qualified students mentorship during undergraduate study and supplements professional degrees such as medicine, dentistry, and optometry. The student works closely with a faculty member in an area of intensive research which prepares the student for a Ph.D. degree program in the biological sciences or a future health professions career. It also builds teaching skills for academic careers. Admission to the program requires a minimum 3.25 grade point average; three letters of recommendation; an interview with the admissions committee; and a satisfactory score on the Graduate Record Examination by fall of the senior year. For additional information, please contact Dr. Stephen Watts, Graduate Program Director, at (205) 934-2045 or sawatts@uab.edu.

- BY 437  Epigenetics
- BY 469  Molecular Ecology and Phylogenetics

Capstone Experience
Select one of the following (only one can count towards major):  4
- BY 490  Bio Capstone: Human Physiology
- BY 491  Biology Capstone - Evolution
- BY 492  Biology Capstone - Undergraduate Research
- BY 493  Biology Capstone - Honors Research

Electives
Select Biology (BY) courses to total the 40 hour Biology Requirement

Total Hours  56-58

1  Note: Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement and the Biology Major Requirement

2  Biology Majors must complete 40 hours in Biology (BY) courses approved for the major, including BY 123 and BY 124 with a C or better (fulfilling Core Curriculum Area III and the courses taken to satisfy the requirements below. Additional courses to total 40 semester hours selected after consultation with an advisor and consideration of interests and career goals. At least 9 hours must be 400-level or higher. No more than 6 total hours of BY 394, BY 397, BY 398, and BY 492 can be applied towards the 40 hours of Biology (BY) courses. Note: BY 101, BY 102, BY 108, BY 109, BY 111, BY 112, BY 116, and BY 261 cannot be applied toward the Biology major.

GPA Requirement & Residency
A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB in order to graduate. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of nine semester hours in the major must be taken at UAB. Transfer students should be aware of the Department of Biology's policy regarding transfer credit.

Additional Requirements
General Electives
Students must take general electives to reach the 120 semester hour requirement.

Graduating Seniors
Students must take a biology major fields test and a departmental survey.

Core Curriculum
Students must take a Philosophy course that meets the QEP Ethics and Civic Responsibility Requirement, either PHL 115 or PHL 116.

Bachelor of Science with a Major in Biology and a Marine Science Concentration
he marine science concentration and the molecular biology track prepare students for careers in marine science or research careers in the basic or medically-related sciences.

BY 255 Invertebrate Zoology
BY 256 Vertebrate Zoology
BY 271 Biology of Microorganisms
BY 442 Experimental Physology
MESC 402 Marine Vertebrate Zoology
MESC 407 Marine Botany
MESC 413 Marine Invertebrate Zoology

Physiology and Development
Select one of the following: 3-4
BY 314 Embryology
BY 409 Principles of Human Physiology
BY 410 Comparative Animal Physiology
BY 420 General Endocrinology
BY 440 Immunology
BY 451 Plant Biology
BY 475 Comparative Developmental Biology

Cellular/Molecular
Select one of the following: 3
BY 311 Molecular Genetics
BY 330 Cell Biology
BY 434 Functional Genomics and Systems Biology
BY 437 Epigenetics

Capstone Experience
Select one of the following (only one capstone course can count toward the major): 4
BY 490 Bio Capstone: Human Physiology
BY 491 Biology Capstone - Evolution
BY 492 Biology Capstone - Undergraduate Research
BY 493 Biology Capstone - Honors Research

Electives
Electives in Biology to total 40 hours

Total Hours 74-76

1. Note: Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement and the Biology Major Requirement.

2. These hours include BY 123 and BY 124 with a C or better (fulfilling in Core Curriculum Area III) and the courses taken to satisfy the requirements below. All of the courses listed below are approved for the major; consult your advisor for a list of additional courses. At least 9 hours must be 400-level or higher. No more than 6 total hours of BY 394, BY 397, BY 398, and BY 492 can be applied towards the 40 hours of Biology (BY) courses. Note: BY 101, BY 102, BY 108, BY 109, BY 111, BY 112, BY 116, and BY 261 cannot be applied toward the Biology major.

GPA Requirement & Residency
A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB in order to graduate. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of nine semester hours in the major must be taken at UAB. Transfer students should be aware of the Department of Biology's policy regarding transfer credit.

Additional Requirements
General Electives
Students must take general electives to reach the 120 semester hour requirement.

Graduating Seniors
Students must take a biology major fields test and a departmental survey.

Core Curriculum
Students must take a Philosophy course that meets the QEP Ethics and Civic Responsibility Requirement, either PHL 115 Contemporary Moral Issues or PHL 116 Bioethics.

</tbody>
</table>

1 Note: BY 123 and BY 124 may also satisfy the Core Curriculum Area III: Natural Sciences requirement; check the Core Curriculum for your particular major.
2 Not more than a total of three hours in BY 397, BY 398, and BY 498 may be counted toward the minor.
3 Note: BY 101, BY 102, BY 108, BY 109, BY 111, BY 112, BY 116, and BY 261 cannot be applied toward the Biology minor.

**GPA Requirement & Residency**

A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB in order to graduate. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of six semester hours in the minor must be taken at UAB. Transfer students should be aware of the Department of Biology’s policy regarding transfer credit.

**Honors Program in Biology**

**Purpose**

The Biology Honors Program offers motivated students the opportunity to develop research and communication skills in preparation for a graduate or professional career.

**Eligibility**

To be accepted into the Biology Honors Program, a student must:

- Have earned a 3.5 GPA in biology courses attempted.
- Have earned a 3.0 GPA overall.
- Have completed 18 semester hours in biology courses.
- Have enrolled in BY 398 (Undergraduate Research) for at least one semester hour.
- Have arranged with a faculty sponsor in biology to do a research project.

**Requirements**

Students in the Biology Honors Program will be required to have the following:

- Six semester hours in BY 498 (Honors Research), with each semester hour per term requiring a minimum of four hours of laboratory work per week.
- A formal research proposal, submitted by the end of the first semester of Honors Research, including an introduction, proposed methods, and relevant literature citation.
- A formal written report in the form of a scientific paper.
- An oral or poster presentation at Biology Research Day or the UAB Expo.

In some instances, it will be recommended that biology honors students give a formal presentation of their work at a scientific meeting. Funds may be provided to support participation at such a meeting.

**Benefits**

In addition to the educational and career benefits of participation in the Biology Honors Program, students who complete the program will be honored at the annual Biology Honors Research Day and will graduate “With Honors in Biology.”

**Contact**

For more information and/or admission to the Biology Honors Program, contact Dr. Thane Wibbels, Campbell Hall, Room 255A, Birmingham, AL 35294-1170; Telephone (205) 934-4419 or E-mail twibbels@uab.edu

**Department of Chemistry**

**Chair**: Richard Dluhy

The Department of Chemistry provides several undergraduate degree programs for chemistry majors and general course offerings for non-majors. All B.S. chemistry degrees are designed to comply with American
Chemical Society (ACS) accreditation standards and provide a strong foundation in chemistry that prepares students to be highly qualified to work as professional chemists, pursue advanced studies leading to the Ph.D. degree in chemistry or biochemistry, or gain admission to professional schools in medicine, dentistry, optometry, pharmacy, work as forensic chemists in regional, state, and federal forensic laboratories, work as professional chemists in industrial or government laboratories, or pursue certification to be chemistry educators. Students must accumulate 400 hours of laboratory experiences beyond general chemistry in order for their degree to qualify for ACS certification.

The department offers the following ACS-approved B.S. degrees in chemistry as well as a minor in chemistry:

1. Major in Chemistry
2. Major in Chemistry with a Biochemistry Track
3. Major in Chemistry with a Chemical Education Track
4. Major in Chemistry with a Forensic Chemistry Track
5. Major in Chemistry with a Polymer Chemistry Track

The B.S. degree in chemistry with a biochemistry track, or a B.S. degree in chemistry, with biology as a minor, is recommended for students with career interests in medicine, dentistry, optometry, pharmacy, or other health-related fields. Students whose interests include careers in federal, state, or local forensic laboratories are encouraged to obtain a degree in chemistry with the forensic chemistry track.

The required curricula associated with the B.S. degree in chemistry with available options, and a suggested program of study, are available from the Department of Chemistry Advising Office and on the Department of Chemistry website (www.uab.edu/chemistry).

An exciting feature of the Department of Chemistry’s B.S. degree is the opportunities for undergraduate chemistry majors to participate in world-class research programs. Students are encouraged to become involved in research early in their undergraduate careers. Students are engaged in all aspects of meaningful and significant research programs that cover a variety of projects and encompass every area of chemistry, and biochemistry, and extend into interdisciplinary programs within the UAB biomedical research complex. Students demonstrating success in their research projects are encouraged to present their work at regional and national scientific meetings and are supported by departmental travel scholarships.

All students majoring in chemistry are required to meet with the Undergraduate Advisor (Mr. James Grimes) each term prior to registration. The advisor's contact information is 205-934-7529 or chemadvise@uab.edu.

Grade Point Average
At least a 2.0 average for all required chemistry courses and a 2.0 average for all required chemistry courses taken at UAB are compulsory for either a major or minor in chemistry. The current UAB course repeat policy and course forgiveness policy will be used in calculating the grade point average.

Transfer Credit / Residency
All chemistry majors and minors must take at least two of the following courses (with laboratories) at UAB, and at least one of these courses with laboratory must be at the 200 level or higher: CH 115/CH 116, CH 117/CH 118, CH 235/CH 236, CH 237/CH 238, CH 325/CH 325L CH 345/CH 345L, CH 355/CH 355L, CH 426/CH 427 or CH 440/CH 427, CH 450/CH 450L, CH 480/CH 480L, or CH 481/CH 481L. Chemistry majors must also take CH 493 at UAB, and at least two of these courses at UAB (if not already satisfied by the residency requirement mentioned above): CH 426/CH 427 or CH 440/CH 427, CH 450/CH 450L, CH 463 or CH 464, CH 480/CH 480L, CH 481/CH 481L, or CH 497 (which can only count once, for three credit hours, toward this requirement). Chemistry credit from another institution cannot be applied toward requirements for a chemistry major or minor at UAB if the grade is W, WP, WF, D, or F. Courses taken through the Cooperative Exchange Program must be approved in advance and in writing by the chemistry department chair in order for courses to apply toward requirements for a chemistry major or minor.

Core Curriculum for Chemistry
Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

Graduate Programs
The Department of Chemistry offers graduate study leading to the degrees of Doctor of Philosophy and Master of Science. Further information may be obtained from the Graduate Program Director of the Department of Chemistry, the UAB Graduate School Catalog, or the departmental web site (http://www.uab.edu/chemistry).

5 th year master’s degree in biochemistry
This is a research intensive degree program and to be eligible for admission in the senior year, students must start their undergraduate research experience as early as possible, preferably in their sophomore year.

Admission Requirements:
- achieved status of Senior chemistry major
- GPA of 3.0 or higher
- enrolled in CHEM 297 (Introduction to Undergraduate Research) by the Fall semester of the Junior year
- selection of faculty research mentor (in the Department of Chemistry or Department of Biochemistry & Molecular Genetics) by Spring semester of the Junior year
- GPA of 3.0 or higher

Admission to the 5 th-year MS program will additionally require:
- satisfactory performance on Graduate Record Exam (GRE) taken in the Senior year (first term)
- strong letter of nomination for admission to the program from their undergraduate research mentor

The 5 th-year M.S. Chemistry/Biochemistry Oversight Committee, composed of two faculty members from the Department of Chemistry (including the Department of Chemistry Graduate Program Director) and two faculty members from the Department of Biochemistry (GBS-BSSB theme including the GBS-BSSB Graduate Program Director) will review applicants and approve admission to the program.
Bachelor of Science with a Major in Chemistry

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area III Sciences: CH 115, CH 116 or CH 114, CH 117, CH 118 or CH 119

Area III Mathematics: MA 125

CH 464 Physical Biochemistry Laboratory
CH 471 Medicinal Chemistry and Drug Discovery
CH 472 Chemistry of Natural Products
CH 480 Polymer Chemistry I. Basic Principles
CH 481 Polymer Chemistry II. Fundamental Properties
CH 497 Undergraduate Research (two terms strongly recommended)

Capstone Requirement

Select one of the following: 3-4
CH 493 Chemistry in Culture & Ethics
or CH 495 Ethics in Chemical Research & CH 497 and Undergraduate Research

Total Hours 45-49

1 The calculus-based PH 221 - PH 222 sequence is strongly recommended.
2 Each of these courses can only count once toward the chemistry major. If a student wishes to use both CH 426 and 440 as part of the chemistry major, CH 297 may substitute for the lab requirement for the second course the student takes, if the student meets the eligibility requirements for CH 297 and is accepted by an approved faculty mentor for laboratory research.
3 To count this course as the chemistry elective requires also taking CH 297 Undergraduate Research Experiences before graduation. To do so, the student must meet the eligibility requirements for CH 297 and be accepted by an approved faculty mentor for laboratory research.

GPA Requirement

- At least a 2.0 average in all required chemistry courses and a 2.0 average in all required chemistry courses taken at UAB are mandatory for a major in chemistry.
- The current UAB course forgiveness policy will be used in calculating the grade point average.

GPA Requirement

- At least a 2.0 average in all required chemistry courses and a 2.0 average in all required chemistry courses taken at UAB are mandatory for a major in chemistry.
- The current UAB course forgiveness policy will be used in calculating the grade point average.

Additional Requirements

FYE/FLC Requirement

Students must also fulfill the FYC/FLC Requirement, if applicable.

Completion automatically satisfies three semester hours of Core Curriculum Area II: Fine Art & Humanities.

These courses may constitute a biology minor; please see biology department advisor or GPS if interested in this minor.

The calculus based sequence PH 221 & PH 222 is strongly recommended.
Bachelor of Science with a Major in Chemistry and a Polymer Chemistry Track

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Chemistry Elective

Select one of the following:

- CH 325: Physical Chemistry I with Calculus: Thermodynamics and Chemical Kinetics (3-4 hours)
- CH 345: Inorganic Chemistry: Principles and Applications of Chemical Periodicity
- CH 355: Quantitative Analysis
- CH 426: Physical Chemistry II: Structure/Bonding and Molecular Spectroscopy
- CH 440: Transition Metal Chemistry
- CH 450: Instrumental Analysis
- CH 451: Chemometrics
- CH 459: Special Topics in Analytical Chemistry
- CH 460: Fundamentals of Biochemistry
- CH 461: Advanced Biochemistry I
- CH 463: Biochemistry Laboratory
- CH 464: Physical Biochemistry Laboratory
- CH 471: Medicinal Chemistry and Drug Discovery
- CH 472: Chemistry of Natural Products
- CH 480: Polymer Chemistry I. Basic Principles
- CH 481: Polymer Chemistry II. Fundamental Properties

Total Hours: 19-20

Honors Program in Chemistry

Purpose

The Chemistry Honors Program is aimed toward outstanding chemistry majors and is designed to enhance the students’ problem solving, critical thinking, and communication skills. The program provides an excellent preparation for graduate school or professional careers.

Eligibility

Acceptance into the Chemistry Honors Program requires the student to:

- Have earned a 3.25 GPA in required chemistry courses attempted;
- Have earned a 3.0 GPA overall;
- Have completed the following courses:

  Requirements

<table>
<thead>
<tr>
<th>Course</th>

<td></td>
</tr>
</tbody>
</table>

- Have arranged with a faculty mentor to do a research project in chemistry; and
- Have submitted the honors program application form and a one-page honors research proposal to the Chemistry Honors Director.

Requirements

- Prior approval of the Chemistry Honors Director.
- Prior completion of 6 semester hours of undergraduate research CH 497.
- Enrollment in Honors Thesis, CH 499, requiring a senior thesis written in ACS format for a scientific paper.
- An oral presentation and defense of the thesis before the student’s Honors Research Committee.

Where appropriate, the Honors Committee may recommend that chemistry honors students make a formal presentation of their work at
the annual meeting of the Alabama Academy of Science or a regional or national meeting of the American Chemical Society.

Benefits
In addition to the benefits associated with a mentoring program that fosters a spirit of inquiry, independence, and initiative and integrates the student’s prior course work into a working knowledge of chemistry in the laboratory, the student who completes the program will graduate “With Honors in Chemistry.”

Contact
For more information and/or admission to the Chemistry Honors Program, contact

Dr. Gary Gray
Director of the Department of Chemistry Honors Program
Chemistry Building, Room 288
Birmingham, AL 35294-1240
Telephone (205) 934-8094
e-mail: gmgray@uab.edu

Department of Communication Studies
Chair: Dr. Timothy Levine

The Department of Communication Studies is concerned with human interaction and communication in all of its forms. The department offers concentrations in Communication Management and Mass Communication.

Students interested in studying communication should consult the department chair or undergraduate coordinator as well as the requirements set by the College of Arts and Sciences.

Major in Communication Studies with Communication Management Concentration

The Communication Management concentration is designed for students interested in the general principles of communication from interpersonal relationships to the theory and practice of public dialogue. A minor is available in Communication Management for non-majors.

Major in Communication Studies with a Mass Communication Concentration

The Mass Communication concentration allows students to specialize in journalism, broadcasting, or public relations. Minors are available in Mass Communication. A Minor is required for a degree in Mass Communication.

Specializations
Students interested in developing a concentration in mass communication may select from one of three specializations available in the department: journalism, broadcasting, or public relations. Students specializing in one of the mass communication specializations may also major or minor in communication management.

Journalism
The curriculum in journalism is designed to prepare students for work with newspapers, magazines and company publications. In addition to courses in writing, reporting, and editing, the journalism program frequently offers special courses aimed at meeting the media demands of Birmingham, its people, and its publications.

Broadcasting
Students in broadcasting prepare for professional careers in television production, news operations, or management. In addition to skills courses, students are given a strong theoretical foundation designed for both the media professional and the potential graduate student in mass communication.

Public Relations
Public relations is a pre-professional program designed to acquaint students with the theoretical knowledge and the practical skills necessary for relating ideas and information to man “publics.” The program stresses writing, oral, analytical skills and media selection.

**Mass Media Internship**

Take at least two hours in the following:
- CMST 491 Internship 2

**Writing**

Select one of the following:
- CMST 308 Newswriting and Reporting II 3
- CMST 315 Communication Leadership and Management
- CMST 320 Introduction to Advertising
- CMST 360 Feature Writing
- CMST 400 Professional Presentations

**Major Electives**

Select two courses not previously taken: 6
- CMST 311 Organizational Communication
- CMST 315 Communication Leadership and Management
- CMST 320 Introduction to Advertising
- CMST 321 Persuasion Communication
- CMST 322 Argumentation Theory
- CMST 343 Public Relations Methods II
- CMST 353 Sports and Media Relations
- CMST 356 Propaganda and Public Persuasion
- CMST 364 Crisis Management
- CMST 365 Social Media Strategy and Management
- CMST 366 Digital Design and Animation
- CMST 413 Nonverbal Communication
- CMST 425 Communication in Social and Personal Relationships
- CMST 455 Seminar in Political Communication
- CMST 491 Internship

**Total Hours** 41

1. Completion of CMST 105 automatically satisfies the Core Curriculum Area IV Speech requirement.
2. Students can minor in Communication Management

**Additional Requirements**

**Minor**

Completion of a minor is not required for this degree.

**Proposed Program of Study for a Major in Communication Management**

1. Public Speaking is highly recommended as a core choice for Communication Studies majors and minors.
2. Ideally, at the end of the first year, the student would have completed the university composition requirement (6 hours), 6 hours of humanities, 9 hours of social science, and 3 hours of science and mathematics.
3. Select two courses from CMST 310, CMST 311, CMST 315, CMST 339 or CMST 356.
4. Select two courses from CMST 300, CMST 301, CMST 309 or CMST 310.
5. Select two courses from CMST 401, CMST 413, CMST 414, CMST 455 or CMST 492.
6. Select two courses from CMST 400, CMST 411, CMST 415 or CMST 492.

Senior

First Term | Hours | Second Term | Hours
---|---|---|---
CMST 491 | 1-3 | CMST 493 | 3

**Total credit hours: 37-39**

1 Ideally, at the end of the first year, the student would have completed the university composition requirement (6 hours), 6 hours of humanities and fine arts, 9 hours of social science, and 4 hours of science and mathematics.

2 Public Speaking is highly recommended as a core choice for Communication Studies majors and minors; however, other options exist.

---

Proposed Program of Study for a Major in Mass Communication with a Journalism Specialization

**Freshman**

First Term | Hours | Second Term | Hours
---|---|---|---
EH 101 | 1 | EH 102 | 3
CMST 101 | 3 | CMST 103 | 3
CMST 105 | 3

9 | 6

**Sophomore**

First Term | Hours | Second Term | Hours
---|---|---|---
CMST 210 | 3 | CMST 310 | 3
MC/CM Elective (300 level or above) | 3 | CMST 402 | 3

6 | 6

**Junior**

First Term | Hours | Second Term | Hours
---|---|---|---
CMST 306 | 3 | CMST 360 | 3
CMST 350 | 3 | CMST 495 | 3
CMST 494 | 3 | MC/CM Elective (300 level or above) | 3

9 | 9

**Senior**

First Term | Hours | Second Term | Hours
---|---|---|---
CMST 491 | 1-3 | MC/CM Elective (300 level or above) | 3

1-3 | 3

**Total credit hours: 49-51**

1 EH 101 and EH 102 are listed because they are prerequisites for CMST 210, which is required for these specializations (Public Relations and Journalism). Additionally, at the end of the first year, the student would have completed the university composition requirement (6 hours), 6 hours of humanities and fine arts, 9 hours of social science, and 4 hours of science and mathematics.

2 Public Speaking is highly recommended as a core choice for Communication Studies majors and minors; however, other options exist.

---

Minor in Communication Management

A minor for non-majors consists of the following:

**Requirements** | Hours
---|---
CMST 105 | Introduction to Human Communication | 3
CMST 311 | Organizational Communication | 3
CMST 413 | Nonverbal Communication | 3
Three additional courses, approved by departmental advisor or chair. | 9

**Total Hours** | 18

---

Minor in Mass Communication

**Requirements** | Hours
---|---
CMST 103 | History of Mass Media | 3
CMST 210 | Newswriting and Reporting I | 3

**Communication Studies Electives**

Under advisement by the Program Director of Broadcasting, Journalism or Public Relations, select four 300-level or 400-level Mass Communication courses.

15
Honors in Communication Studies

The Honors Program in Communication Studies offers an enhanced and challenging academic experience for exceptional and highly motivated undergraduate students, especially those considering graduate school. Students who complete the program will graduate “With Honors in Communication Studies.”

Eligibility and Application Process

To be eligible, a student must be a declared Communication Studies major and must have a cumulative, institutional, and Communication Studies GPA of 3.5 or above.

Requirements

1. Fulfill the normal requirements for the Communication Management major or Mass Media concentrations.
2. Submit a completed Communication Studies Honors Program application form to the Director of Departmental Honors for approval. Students must secure permission of the Director and their mentor in order to enter the Communication Studies Honors Program.
3. Maintain and graduate with a cumulative, institutional, and Communication Studies GPA of 3.5 or above.
4. Successfully complete and defend (no later than four weeks before graduation) an Undergraduate Honors Thesis conducted under the supervision of a faculty member in the department.

Chair: Yuliang Zheng

The Department of Computer and Information Sciences (CIS) offers a BA degree in CIS, a BS degree in CIS, a BS degree in Digital Forensics (offered jointly with Justice Sciences), and a minor in CIS. The BS degree in CIS is accredited by the Computing Accreditation Commission of ABET, abet.org (http://www.abet.org/wp-signup.php?new=abet.org), and is designed for students desiring a more in-depth exploration of computer science, giving students a broad background in the structure and theory of information, programming methodologies, and the hardware and software of computer systems. There is also a concentration that offers an opportunity for specialization in computer networking. The BA degree in CIS is designed for students wishing to apply the tools and techniques of computer science to solving interdisciplinary problems in science, arts, humanities, business, and other areas, equipped with T-shaped knowledge and skill sets. The BS in Digital Forensics is an interdisciplinary degree that prepares graduates for a professional career in the field of digital forensics and cyber security. Minors are available for students who are not CIS majors but who expect to use the computer in the application area of their major field. For more information, see the CIS department web site at cis.uab.edu.

Requirements for students transferring to the CIS major from other programs within UAB

Students admitted to an undergraduate program at UAB may transfer to CIS provided they have earned a UAB GPA of 2.0 or better.

Requirements for students transferring to the CIS major from other institutions

Transfer students from other institutions may transfer to the CIS program provided they have earned a GPA of 2.0 or better. If this requirement is not met, transfer students must transfer as a Liberal Arts major in the College of Arts and Sciences, meet the GPA requirement, and then apply to become a CIS major.

Grade point average

For both the major and minor, a grade of C or better is required in each of the computer and information sciences courses. If a student receives a grade D or F in any CIS course, then the student will only be allowed one chance to retake that course and pass it (grade C or better).

CIS courses taken at another institution for which a grade of D was received may not be counted toward the CIS major or the CIS minor.

All CIS majors must maintain a GPA of 2.2 or better in all CIS courses taken. If the CIS GPA falls below 2.2, then the student will be put on probation and must raise his or her CIS GPA to 2.2 or above within a year after being placed on probation. At the end of the probation term, if the CIS GPA is not at or above 2.2, then the student will be dismissed from the major, and be reclassified as an undeclared major in the College of Arts and Sciences. Note that this requirement is in addition to the minimum UAB GPA of 2.0 or better required to be in good standing. A student who is dismissed from the CIS major as described here may reapply to be CIS major provided the student has raised his or her CIS GPA to 2.2 or higher and also has a UAB GPA to 2.0 or better.
300 and 400-level courses

In the CIS major, at least 12 semester hours of CIS courses at the 300 level or above must be taken at UAB. Any CIS course at the 300 level or above can be taken to satisfy the 12 semester hour CIS elective credit. A maximum of 3 semester hours may be obtained in Directed Readings. Although not required, CIS majors have the option to structure their 12 semester hours of CIS program electives as a specialization in Computer Networking. Course substitutions may be made within this specialization with CIS advisor approval.

CIS courses at the 400-level and above are normally restricted to CIS Majors. Non-majors may register for such courses only with the specific permission of the specific course Instructor.

Graduate Programs

The Department of Computer and Information Sciences offers graduate study leading to the Master of Science in Computer and Information Sciences, and Doctor of Philosophy in Computer and Information Sciences. We also offer, jointly with Justice Sciences, a Master of Science degree in Computer Forensics and Security Management. Further information may be obtained from the department or the UAB Graduate School Catalog.

Advanced undergraduates with a CIS GPA of 3.0 or better may take graduate courses with the permission of the instructor.

Accelerated Master of Science Program

The Department of Computer and Information Sciences offers an opportunity to earn a B.S. and an M.S. degree in a total of five years. This program offers qualified students mentorship during undergraduate study. The student works closely with a faculty member in an area of intensive research that prepares the student for a Ph.D. degree program in computer science or a future career in computer science. Admission to the program requires a minimum 3.5 GPA, three letters of recommendation from faculty, including one from their mentor, and an interview with the admissions committee. Students should apply for entrance into the accelerated M.S. program by the end of their sophomore year. If the student does not enter with AP credits, it may be necessary to take some summer courses. For additional information, please contact Dr. Chengcui Zhang, Graduate Program Director, at (205) 934-2213 or czhang02@uab.edu.

UABTeach

The CIS Department participates in UABTeach (https://www.uab.edu/uabteach). For more information, see the UABTeach (https://www.uab.edu/uabteach) website at https://www.uab.edu/uabteach/

cis electives

select 3 hours from 300-level or higher cis courses (cs 330 is recommended)

total hours | 16 |
Note: A student who takes CS 330 as the elective will be ready to apply directly to the CIS M.S. program.

**GPA Requirement and Residency**

A student must have at least a 2.0 average in all CIS courses attempted and a 2.0 average in all CIS courses taken at UAB. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of six semester hours in the minor must be taken at UAB. Transfer students should be aware of the Department of Computer and Information Science’s policy regarding transfer credit.

**Honors Program: Computer and Information Sciences**

**Purpose**

The Computer and Information Sciences Honors Program offers outstanding, highly motivated students the opportunity to develop research skills in preparation for graduate work or a professional career.

**Eligibility**

In order to be accepted into the Computer and Information Sciences Honors program, a student must:

- have earned a 3.5 GPA in computer and information sciences (CS) courses;
- have earned a 3.0 GPA overall;
- have completed 18 semester hours in CS courses;
- have arranged with a faculty sponsor in Computer and Information Sciences to do a research project.

**Requirements**

Students in the Computer and Information Sciences Honors Program will be required to have the following:

- during their first semester in the honors program, enroll in exactly 1 semester hour of Undergraduate Honors Research (CS 398), during which a formal research proposal will be developed and submitted, including an introduction, proposed methods, and relevant literature citation
- a total of 3 semester hours in Undergraduate Honors Research (CS 398) with each semester hour involving a minimum of three hours of laboratory work per week during the semester of enrollment;
- a formal written report in the form of a scientific paper; and
- an oral or poster presentation at a Computer and Information Sciences departmental seminar.

In some instances, it will be recommended or required that Computer and Information Sciences Honors students give a formal presentation of their work at a scientific meeting.

**Benefits**

In addition to the educational and career benefits of participating in the Computer and Information Sciences Honors program, students who complete the program will graduate “With Honors in Computer and Information Sciences.”

**Contact**

For more information and/or admission to the Computer and Information Sciences Honors program, contact:

**Department of Criminal Justice**

**Chair:** Jeffery Walker

The Department of Criminal Justice offers programs of study leading to a Bachelor of Science in Criminal Justice (BSCJ), a Master of Science in Criminal Justice (MSCJ), a joint Bachelor of Science in Digital Forensics (BSDL), a Master of Science in Forensic Science (MSFS), a joint Master of Science in Criminal Justice/Master of Science in Public Administration (MSCJ/MPA), a joint Master of Science in Computer Forensics and Security Management (MSCFSM). The Department also offers undergraduate minors in Forensics Science, Legal Affairs, and a joint minor in Forensic Psychology. The department also sponsors category “A” and “B” graduate Certificate Programs in Computer Forensics.

**Bachelor of Science with a Major in Criminal Justice**

The program leading to the Bachelor of Science in Criminal Justice offers students broad academic exposure to the fields of criminal justice and criminology, and while providing opportunities for students to take courses in computer forensics/cybercrime and forensic science. The primary mission of the program is to educate students by developing in them the knowledge and skills necessary to be successful in the field of criminal justice, including:

1. Major theoretical explanations of crime/delinquency.
2. The logic and procedures associated with the research process, including understanding statistical analysis.
3. The substantive, procedural, and operational aspects of the criminal justice system and its processes.
4. The ethical foundations for the system.

Each of these areas is developed through activities associated with specific courses in the curriculum as well as through an Internship/Capstone experience during the student’s senior year.

Undergraduate students interested in Forensic Science should consult the MSFS Program Director to learn more about the field. Students
interested in the Legal Affairs minor should contact the Pre-Law Program Director. Students interested in the Bachelor of Science in Digital Forensics or Forensic Psychology minor should contact the Department Chair.

Select one of the following:
- JS 497 Internship and Capstone in Criminal Justice for Practitioners
- JS 498 Distance Internship and Capstone in Criminal Justice
- JS 499 Internship and Capstone in Criminal Justice

**Statistics Requirement**

Select one of the following:
- JS 120 Introduction to Statistics
- MA 180 Introduction to Statistics
- SOC 310 Sociological Literacy
- PY 216 Elementary Statistical Methods

**Electives (must include at least 3 hours at 400-level)** 12

**Total Hours** 42

**Grade and Residency Requirement**

A grade of C or better is required in all Justice Science courses. At least 3 hours must be taken at the 300 level or higher and 9 hours must be taken at the 400-level or higher. Students must have a 2.3 cumulative GPA prior to applying for their Internship.

**Additional Requirements**

**Minor**

A minor is not required for this degree. Students are encouraged to take a minor in an area related to crime and justice. Contact the criminal justice advisor for more information about minors.

**General Electives**

Students must take general electives to reach the 120 semester hour requirement.

**Total credit hours: 120-122**

1 Select One: HY 101, HY 102, HY 104, HY 105, HY 120 or HY 121.
2 Select One: EH 216, EH 217, EH 218, EH 221, EH 222, EH 223 or EH 224.
3 Select One: ARH 101, ARH 203, ARH 204, ARH 206, MU 120, THR 100, THR 105 or THR 200.

**Minor in Criminal Justice**

The minor in criminal justice is designed for students who are majoring in a discipline related to human and societal issues or in the sciences. Crime, justice, and community have relevance to almost all fields. The
minor in criminal justice provides students with the background they need to understand these issues in the broader context of society.

**Legal Affairs Minor (18 Semester Hours)**

The minor in Legal Affairs is designed to help students learn to think both critically and creatively about law, rather than to specifically prepare them for law school. Because the program is interdisciplinary and presents law as the subject of liberal inquiry, students in the program examine law from various perspectives. The minor exposes students to both general law and specific aspects of both substantive and procedural law – civil and criminal; and helps them understand not only litigation, but alternatives to it.

- EC 450  | 3     |
- IS 472  | 3     |
- LS 246  | 3     |

**Total Hours** 18

A grade of “C” or better is required for all courses.

**Minor in Forensic Psychology**

Forensic Psychology is the professional practice by psychologists within the areas of clinical psychology, counseling psychology, neuropsychology, and school psychology, when they are engaged regularly as experts in an activity primarily intended to provide professional psychological expertise to the judicial system. Forensic psychologists work with individuals who may present a variety of mental health issues within the context of the civil law (e.g., personal injury suits, civil commitment proceedings, child custody disputes, or workers’ compensation cases) and criminal law (e.g., insanity, competency to stand trial, assessment of future violence potential, or treatment of sex offenders). The minor is co-sponsored by the Department of Justice Sciences and the Department of Psychology, and is intended to expose students with an interest in forensic psychology to a broad-based overview of the field. A total of 24 semester hours is required to complete the minor.

**Students will select 2 of the following forensic science electives:**

- ANTH 401  | 3     |
- PY 376    | 3     |

**Total Hours** 6
Honors Program in Criminal Justice

Purpose

The Criminal Justice Honors Program encourages and prepares outstanding students to pursue a career in the field of Criminology/Criminal Justice by providing an opportunity to undertake projects under the guidance of faculty mentors. The program promotes initiative, creativity, and independent thinking among academically talented students.

Eligibility

Students are admitted to the Honors Program based on an evaluation conducted by the Honors Program Coordinator and a committee of faculty members. Students seeking admission to the Honors Program must:

- Be a second freshman.
- Have a cumulative GPA of 3.25 or higher and a GPA of 3.25 or higher in all Justice Sciences courses attempted.

Benefits

Participation in the Criminal Justice Honors Program provides opportunities for academically talented students to have unique access to faculty and to interact with other honors students in an environment that encourages creative and innovative thinking. Completion of the honors program is advantageous when applying to graduate programs in the field. Students who complete the program will graduate from UAB “With Honors in Criminal Justice.”

Requirements

Requirements for the Honors Program include completing the remainder of the students’ elective courses for the Criminal Justice major and being active in the Criminal Justice Student Association and in Honors Program activities.

Selected junior or senior students in the Honors Program may be invited by faculty members to complete a senior project. This will require taking JS 481 Honors Research (Fall semester) and JS 482 Honors Research and Colloquium (Spring semester), completing the Honors Research Project, and presenting the results of the project at the Department’s Honor’s Research Colloquium. Students are also encouraged to present the results at an undergraduate conference or at professional conference, such as the Annual Meetings of the Southern Criminal Justice Association.

Contact

For additional information on the Criminal Justice Honors Program, please contact

Dr. Shelly McGrath
Department of Criminal Justice

Department of English

Chair: Alison Chapman
Director, Graduate Studies: Kyle Grimes
Director, Undergraduate Studies: Daniel Siegel
Director, Creative Writing Program: Kerry Madden-Lunsford
Director, Freshman Composition and Developmental Program: Christopher Minnix
Director, Professional Writing: Bruce McComiskey
Director, Linguistics: David Basilico
Director, Departmental Honors: Adam Vines
Director, Internships: Cynthia Ryan

The Department of English offers programs of study leading to the degree of Bachelor of Arts with a major or minor in English. The department offers four tracks to the English major: an English major with a concentration in literature, an English major with a concentration in professional writing, an English major with a concentration in creative writing, and an English major with a concentration in linguistics. The department offers four different minors: a minor in English literature, a minor in professional writing, a minor in creative writing, and a minor in linguistics. The Department of English also offers courses leading to the Master of Arts degree in English. Further information about the department and its programs may be obtained from the department website (http://www.uab.edu/cas/english) or the department office; information on the graduate program may also be found in the UAB Graduate School Catalog.

English Literature

The study of English literature challenges students to develop their skills in reading, critical analysis, and written expression and also to develop a deeper appreciation of the aesthetic and historical contexts in which authors wrote. Students may pursue a concentration in literature within the English major or a minor in literature.

Creative Writing

Students may pursue a concentration in creative writing within the English major or a minor in creative writing, taking workshops in poetry, fiction, creative nonfiction, and writing for young people; one forms class; and special topics in creative writing.
Linguistics: Interdisciplinary Program

Students interested in a concentration in linguistics within the English major or a minor in linguistics are invited to participate in an interdisciplinary program. The linguistics concentration and minor are designed for students interested in careers represented by the participating disciplines that might involve detailed knowledge of natural or artificial languages. Note that the program is not necessarily one for “people who speak a lot of languages,” but rather is intended for students interested in the structure and function of language. Students should consult the program director for advising.

Professional Writing

Students interested in non-fiction writing for corporate and public life may pursue a concentration in professional writing within the English major or a minor in writing.

**Capstone**

Select one of the following: 3

- EH 411 Capstone Internship
- EH 495 Honors Capstone Thesis
- EH 496 Capstone Seminar

**Total Hours**: 42

1. Completing this requirement will automatically satisfy the Core Curriculum Area II: Literature requirement.
2. EH 411 and EH 495 must be approved. This requirement should be satisfied in the student's final year.

**Additional Requirements**

- Students majoring in English must achieve a grade of C or higher in all courses applied toward the major requirement.
- Fifteen semester hours of English courses at the 300 and 400 levels must be taken at UAB.
- Eighteen semester hours of English courses must be at the 400 level.
- A single course may not count toward more than one departmental requirement.

**Bachelor of Arts with a Major in English and a Concentration in Creative Writing**

- EH 483 British Romanticism
- EH 485 British Victorian Poetry
- EH 487 Nineteenth-Century British Novel
- EH 488 British Novel: The Modern Age
- EH 489 James Joyce

**Professional Writing**

Select one of the following: 3

- EH 304 Editing in Professional Contexts
- EH 315 Introduction to Professional Writing
- EH 340 Developing Digital Documents
- EH 403 Business Writing
- EH 404 Technical Writing
**Study of English as a Language**

Select one of the following:  
- EH 350 Introduction to Linguistics  
- EH 351 Structure of English  
- EH 352 The Structure of English Words  
- EH 355 Introduction to Sociolinguistics  
- EH 356 Semantics  
- EH 360 Phonology  
- EH 393 Special Topics in Linguistics  
- EH 450 Advanced Grammar  
- EH 451 Generative Grammar  
- EH 452 Grammar and Usage for English Teachers  
- EH 453 History of the English Language  
- EH 454 The Biology of Language  
- EH 493 Special Topics in Linguistics

**Beginning Creative Writing Genre Workshops**

Select two of the following:  
- EH 205 Introduction to Creative Writing  
- EH 305 Beginning Poetry Writing Workshop  
- EH 306 Beginning Poetry Writing Workshop  
- EH 307 Beginning Creative Nonfiction Writing Workshop  
- EH 308 Beginning Creative Nonfiction Writing Workshop  
- EH 309 Beginning Fiction Writing Workshop  
- EH 310 Beginning Fiction Writing Workshop

**Advanced Creative Writing Genre Workshops**

Select two of the following:  
- EH 405 Poetry Writing Workshop (Seminar)  
- EH 406 Poetry Writing Workshop (Seminar)  
- EH 407 Creative Nonfiction Writing Workshop (Seminar)  
- EH 408 Creative Nonfiction Writing Workshop (Seminar)  
- EH 409 Fiction Writing Workshop (Seminar)  
- EH 410 Fiction Writing Workshop (Seminar)  
- EH 412 Forms of Poetry  
- EH 413 Forms of Creative Nonfiction  
- EH 415 Forms of Fiction  
- EH 429 Creative Writing: Special Topics  
- EH 436 Workshop in Writing for Young People  
- EH 437 Workshop in Writing for Young People

**Creative Writing Elective**

Select one of the following:  
- EH 205 Introduction to Creative Writing  
- EH 305 Beginning Poetry Writing Workshop  
- EH 306 Beginning Poetry Writing Workshop  
- EH 307 Beginning Creative Nonfiction Writing Workshop  
- EH 308 Beginning Creative Nonfiction Writing Workshop  
- EH 309 Beginning Fiction Writing Workshop  
- EH 310 Beginning Fiction Writing Workshop  
- EH 405 Poetry Writing Workshop (Seminar)  
- EH 406 Poetry Writing Workshop (Seminar)  
- EH 407 Creative Nonfiction Writing Workshop (Seminar)  
- EH 408 Creative Nonfiction Writing Workshop (Seminar)  
- EH 409 Fiction Writing Workshop (Seminar)  
- EH 410 Fiction Writing Workshop (Seminar)  
- EH 429 Creative Writing: Special Topics  
- EH 436 Workshop in Writing for Young People

**Workshop in Writing for Young People**

- EH 376 African American Poetry Tradition  
- EH 359 African American Dramatic Tradition  
- EH 361 African American Autobiography  
- EH 368 African-American Special Topics  
- EH 369 African Literature  
- EH 371 African American Literature, 1746-1954  
- EH 372 African American Literature, 1954-Present

**Creative Writing: Special Topics**

- EH 374 World, British, and Irish Literature I: Before 1660  
- EH 375 World, British, and Irish Literature II: 1660-Present  
- EH 376 World, British, and Irish Literature III: 1800-Present  
- EH 377 World, British, and Irish Literature IV: 1865-Present

**Fiction Writing Workshop (Seminar)**

- EH 381 Introduction to Fiction Writing  
- EH 382 Fiction Writing Workshop (Seminar)

**Creative Nonfiction Writing Workshop (Seminar)**

- EH 383 Creative Nonfiction Writing Workshop  
- EH 384 Creative Nonfiction Writing Workshop (Seminar)

**Poetry Writing Workshop (Seminar)**

- EH 385 Poetry Writing Workshop  
- EH 386 Poetry Writing Workshop (Seminar)

**Beginning Fiction Writing Workshop**

- EH 387 Beginning Fiction Writing Workshop  
- EH 388 Beginning Fiction Writing Workshop (Seminar)

**Beginning Poetry Writing Workshop**

- EH 389 Beginning Poetry Writing Workshop  
- EH 390 Beginning Poetry Writing Workshop (Seminar)

**Beginning Creative Nonfiction Writing Workshop**

- EH 391 Beginning Creative Nonfiction Writing Workshop  
- EH 392 Beginning Creative Nonfiction Writing Workshop (Seminar)

**Beginning Poetry Writing Workshop**

- EH 393 Beginning Poetry Writing Workshop  
- EH 394 Beginning Poetry Writing Workshop (Seminar)

**Introduction to Creative Writing**

- EH 395 Introduction to Creative Writing  
- EH 396 Introduction to Creative Writing (Seminar)

**Workshop in Writing for Young People**

- EH 397 Workshop in Writing for Young People  
- EH 398 Workshop in Writing for Young People

**Capstone**

Select one of the following:  
- EH 411 Capstone Internship  
- EH 495 Honors Capstone Thesis  
- EH 496 Capstone Seminar

**Bachelor of Arts with a Major in English and a Concentration in Linguistics**

- EH 475 English Renaissance Poetry and Prose
- EH 476 Shakespeare
- EH 478 Milton
- EH 480 The Restoration
- EH 481 The Eighteenth Century: Literature and Culture
- EH 482 The Eighteenth Century: Theory and Interpretation
- EH 486 Eighteenth-Century British Novel

**Literature post-1800**

Select five of the following: 15

- EH 327 Post-1800 Literature: Special Topics
- EH 339 Twentieth Century Theater
- EH 365 African American Literature, 1746-1954
- EH 366 African American Literature, 1954-Present
- EH 414 Modern British and European Drama
- EH 416 Modern American Poetry
- EH 427 Post-1800 Literature: Special Topics
- EH 431 Special Topics in Film
- EH 442 Literary Theory and Criticism, the Twentieth Century to the Present
- EH 444 Women’s Literature and Theory
- EH 462 American Literature, 1820 - 1870
- EH 463 American Literature, 1870 - 1914
- EH 464 American Literature, 1914 - 1945
- EH 465 American Literature, 1945-Present
- EH 466 The Slave Narrative and Its Literary Expressions
- EH 468 The Harlem Renaissance
- EH 483 British Romanticism
- EH 485 British Victorian Poetry
- EH 487 Nineteenth-Century British Novel
- EH 488 British Novel: The Modern Age
- EH 489 James Joyce

**Study of English as a Language**

Select one of the following: 3

- EH 350 Introduction to Linguistics
- EH 351 Structure of English
- EH 352 The Structure of English Words
- EH 355 Introduction to Sociolinguistics
- EH 356 Semantics
- EH 360 Phonology
- EH 393 Special Topics in Linguistics
- EH 450 Advanced Grammar
- EH 451 Generative Grammar
- EH 452 Grammar and Usage for English Teachers
- EH 453 History of the English Language
- EH 454 The Biology of Language
- EH 493 Special Topics in Linguistics

**Required Course in Professional Writing**

Select five of the following: 15

- EH 203 Writing in Birmingham
- EH 302 Intermediate Writing
- EH 303 Advanced Composition
- EH 304 Editing in Professional Contexts
- EH 311 English Internship
- EH 330 Professional Writing: Special Topics
- EH 332 Public Discourse: Special Topics
- EH 340 Developing Digital Documents
- EH 401 Tutoring Writing
- EH 402 Writing in Popular Periodicals
- EH 403 Business Writing
- EH 404 Technical Writing
- EH 411 Capstone Internship
- EH 430 Professional Writing: Special Topics
- EH 432 Public Discourse: Special Topics
1. Completing this requirement will automatically satisfy the Core Curriculum Area II: Literature requirement.

2. Students may petition the Director of Professional Writing to have one relevant course in English or another discipline count toward this requirement.

3. EH 411 and EH 495 must be approved. This requirement should be satisfied in the student's final year.

Additional Requirements

- Students majoring in English must achieve a grade of C or higher in all courses applied toward the major requirement.
- Fifteen semester hours of English courses at the 300 and 400 levels must be taken at UAB.
- Eighteen semester hours of English courses must be at the 400 level.
- A single course may not count toward more than one departmental requirement.

Select one of the following: 3

- EH 205 Introduction to Creative Writing
- EH 305 Beginning Poetry Writing Workshop
- EH 306 Beginning Poetry Writing Workshop
- EH 307 Beginning Creative Nonfiction Writing Workshop
- EH 308 Beginning Creative Nonfiction Writing Workshop
- EH 309 Beginning Fiction Writing Workshop
- EH 310 Beginning Fiction Writing Workshop
- EH 311 English Internship
- EH 405 Poetry Writing Workshop (Seminar)
- EH 406 Poetry Writing Workshop (Seminar)
- EH 407 Creative Nonfiction Writing Workshop (Seminar)
- EH 408 Creative Nonfiction Writing Workshop (Seminar)
- EH 409 Fiction Writing Workshop (Seminar)
- EH 410 Fiction Writing Workshop (Seminar)
- EH 412 Forms of Poetry
- EH 413 Forms of Creative Nonfiction
- EH 415 Forms of Fiction
- EH 429 Creative Writing: Special Topics
- EH 436 Workshop in Writing for Young People
- EH 437 Workshop in Writing for Young People

Total Hours 18

Additional Requirements

- Students minoring in Linguistics must achieve a grade of C or higher in all courses applied toward the minor.
- English courses at the 300 and 400 levels must be taken at UAB.
- At least six of the eighteen hours required for the minor must be taken at the 400 level.
- A single course may not count toward more than one departmental requirement.

Linguistics Electives

Select four of the following: 12

- EH/LING 351 Structure of English
- EH/LING 352 The Structure of English Words

Total Hours 18
Benefits of participating in the Honors Program in English include individual mentoring by exceptional faculty and useful practice in undertaking extended work in the area of English, American, African American, and world literatures; creative writing; linguistics; or professional writing and rhetoric. Writing the thesis gives students the chance to work one-on-one with outstanding research faculty in all fields of English study. Our honors students thus gain valuable writing and critical experience, personalized writing instruction, and the opportunity to acquire especially strong letters of recommendation from committee members. Students completing the program are recognized at the English Department Awards Reception and will graduate from UAB "With Honors in English" at their UAB commencement.

Eligibility
To be eligible for the Honors Program in English, a student must be enrolled as a UAB English major, have earned a 3.5 GPA in English courses taken and a 3.0 GPA overall, and have completed EH 301 Reading, Writing, and Research for English Majors.

Requirements
Qualified students electing to enter and complete the Honors Program in English must do the following:

• Submit a completed English Honors Program application form to the Director of Departmental Honors for approval. Students must secure permission of the Director in order to enter the English Honors Program.
• Select a member of the English graduate faculty to serve as a faculty mentor and one other member of the English graduate faculty to serve with that mentor and the Director on the Honors Thesis Committee.
• Fill out a Senior Thesis Committee Form and give it to the Director for approval.
• Enroll in EH 494 English Honors Research and EH 495 Honors Capstone Thesis in consecutive terms.
• During EH 494 English Honors Research, write a thesis proposal and have it approved by the Honors Thesis Committee. Once approved, a copy of the proposal should be given to the Director.
• During EH 495 Honors Capstone Thesis, write the thesis under the committee’s guidance.
• Obtain final approval of the senior thesis from all members of the Honors Thesis Committee.
• Complete a final, one-hour public defense of the thesis.
• Students who earn an A in EH 495 will graduate with Departmental Honors. Students who earn a B or C will not graduate with Departmental Honors but will still fulfill the capstone requirement.

Contact
Program descriptions are available from the department website (www.uab.edu/cas/english) or the department office.

Internships in English
The English Department, in cooperation with university-wide and off-campus partners, offers its majors and minors internship experiences that enhance their attractiveness to prospective employers. Many internships have resulted in part-time or full-time employment after the semester has concluded. Within the English department, opportunities include assisting the editors of PMS: poemmemoirstory and Birmingham Poetry Review. Students also intern in other parts of the university; past collaborations have included the School of Education and UAB Health Systems Marketing. Organizations within the Birmingham community specializing in magazine and book publishing, non-profit fund raising, and business communications round out possibilities for acquiring the practical experience that will enhance students’ resumes while helping them to build a professional portfolio demonstrating their knowledge and skills.

English majors interested in internships should meet with Dr. Cynthia Ryan, Director of Internships, to discuss eligibility requirements and
available internship opportunities. Students accepted for internships enroll in either EH 311 or EH 411. EH 311 requirements include at least the following: performance of 10-15 hours of research or publications activities per week, as defined by the on-site supervisor, completion of journal entries that draw on the intern's experiences, and completion of a written report addressing an aspect of the internship approved by Dr. Ryan in consultation with the student. On-site supervisors also provide written evaluations of interns, feedback that can assist students as they pursue careers following graduation. EH 411 satisfies the Capstone requirement for the major and involves more academic work, including more extensive journal assignments, regular meetings with the Director and other EH 411 students, participation in discussion sessions with scheduled speakers, and a final professional portfolio and exit interview. Students who wish to enroll in EH 411 should be late-term juniors or seniors. Internships are graded classes, and final grades are based on the student's work ethic and written work and are determined by the Director in consultation with the student's on-site internship supervisor.

Eligibility and Procedures

Students must meet the following requirements to be eligible for an English internship:

- Must be enrolled full-time as English majors or minors at UAB
- Must have a minimum overall GPA of 3.0 or higher for an off-campus internship or an on-campus research internship, and a 2.5 overall GPA or higher for a publications internship
- Must have at least junior standing or the equivalent course credits
- Must be approved for the internship by the Director of Internships
- Must be able to work the required number of hours (10-15) to fulfill commitments to the employer
- If awarded an internship, must enroll in EH 311 or EH 411 for the internship semester and—under the supervision of the Internship Director—must fulfill all requirements for that course.

Students who qualify for English internships should follow these procedures:

- Make an appointment with the Director of Internships, Dr. Cynthia Ryan, at the beginning of the semester prior to the semester in which you hope to hold an internship.
- Following the meeting, complete the Internship Application Form, available from the Director of Internships or from http://www.uab.edu/cas/english/student-resources/undergraduate-students/internships
- Stay in contact with the Internship Director for information about scheduling interviews with potential employers and prepare — with the assistance of the Internship Director — for interviews.
- Once accepted by the on-site supervisor for an internship, contact the Internship Director to enroll in EH 311 or EH 411.

Questions:

For more information about the Internship program in English, contact Dr. Cynthia Ryan at cynryan@uab.edu. HB211, (205) 934-8600.

Department of Foreign Languages and Literatures

Chair: Julian Arribas

The Department of Foreign Languages and Literatures offers a multifaceted foreign language program that will meet the diverse global challenges facing students of the 21st century. The Department offers programs of study leading to the degree of Bachelor of Arts in Foreign Languages with concentrations in French and Spanish. The Department offers minor programs in Chinese, French, German, Japanese, Spanish and Spanish for Business, as well as a Certificate of Spanish for Specific Purposes. There are also opportunities for students to take courses in Arabic, Italian and courses about foreign cultures and literatures in English. Additional courses in foreign languages may be taken through the Birmingham Area Consortium for Higher Education (BACHE). Promoting a comprehensive view of foreign cultures, languages and literatures enhances the students’ ability to compete in the job market and/or pursue graduate or professional studies.

Our programs are rooted in diversity within and across cultures, and foster the international exchange of knowledge and information between humanities scholars, teachers and other professionals. Our instructional methods are aligned with national standards. The foreign language experience at UAB includes classroom learning, scholarship and research, experiential learning, and extracurricular opportunities.

The UAB Department of Foreign Languages and Literatures offers traditional language, culture, civilization, linguistics and literature classes and also enrolls students in such fields as literature in translation, film and cultural studies, foreign media and society, US Latino topics, applied linguistics and languages for the professions.

The Department also offers an Honors Track Program and internships in Foreign Languages to students in Spanish for Specific Purposes, and for qualified majors with Departmental approval. Furthermore, we promote and sponsor opportunities for study abroad in conjunction with UAB Education Abroad programs. UAB Distinguished Professor Emeritus of French, William C. Carter has built one of the world's largest collections of books by and about French author Marcel Proust. The collection is housed on campus in Mervyn H. Sterne Library and includes original letters and other documents.

For more information about our programs, online placement exams, internships, events and sponsored study abroad opportunities, visit the Department of Foreign Languages and Literatures web site at http://www.uab.edu/cas/languages/.

Language Placement

To assure that students taking foreign language courses are properly placed, all students must take a placement exam in the language before enrolling in foreign language classes. Students enrolling in Arabic, Chinese, Italian and Japanese will work directly with designated foreign language faculty members to ensure proper placement. Placement exams in French, Spanish, and German are available online at the Department of Foreign Languages and Literatures web site: https://www.uab.edu/cas/languages/student-resources/placement-tests. The level at which native/heritage language speakers may begin formal language study will be determined by the appropriate foreign language advisor after the student has taken the online placement exam. Exceptional native/heritage language students may apply for Credit by Examination (CLEP). The College Level Examination Program (CLEP) is available in French, German, and Spanish.
Major

The Department of Foreign Languages and Literatures offers programs of study leading to the degree of Bachelor of Arts in Foreign Languages with concentrations in French and Spanish. Students who major or minor in foreign languages are encouraged to consult the Department web page to identify the appropriate departmental advisor to assist in formulating an individual program of study.

The foreign language major requires completion of the introductory sequence (Introductory French I and II or Introductory Spanish I and II) or the equivalent.

Concentration in French

The French concentration/track at UAB offers an articulated approach to the study of the French language and the culture, civilization and literature of the French-speaking world. Literacy skills and understanding (e.g., reading, writing, speaking) are developed throughout the course of study, as is the nurturing of critical and analytical skills. Majors will leave the program with the ability to engage in critical and cross-cultural analysis. Students have the opportunity to do in-depth work in special topics seminars (e.g., Advanced Grammar, French Civilization, Contemporary France, French Film, Fin-de-siècle Literature, Francophone literature and current issues.) Typically, French concentration majors have more than one major or a complement of minors to facilitate the applied aspect of language study (e.g., pre-health, education, art, anthropology, communication studies, business, criminal justice). Students graduating from UAB with a concentration in French have gone on to graduate or professional school and/or employment in such fields as business, education, government, industry, international relations, law, public health, medicine, hotel and restaurant management and publishing.

The French concentration has opportunities for community outreach activities (e.g., internships, service learning) in Alabama, and has diverse study abroad opportunities from which to choose. We work very closely with students to personalize their studying experience. We also help them to find ways to enhance their language and culture skills through unique experiences abroad (e.g., application for French government youth grants and internships, teaching exchanges).

The Department requires students to enroll in more than one language to learn about varied linguistic structures and receive a broader cross-cultural perspective.

Concentration in Spanish

The Spanish concentration/track at UAB offers an articulated approach to the study of the Spanish language and the culture, civilization and literature of the Spanish-speaking world. Literacy skills and understanding (e.g., reading, writing, speaking) are developed throughout the course of study, as well as the nurturing of critical and analytical skills. Majors will leave the program with the ability to engage in critical and cross-cultural analysis. Students have the opportunity to do in-depth work in special topics seminars like Afro-Hispanic writers, Hispanic and Latino topics, peninsular film applied linguistics, and social linguistics. Typically, Spanish concentration majors have more than one major or a complement of minors to facilitate the applied aspect of language study (e.g., pre-health, nursing, education, anthropology, communication studies, business, and international studies). Students graduating from UAB with a concentration in Spanish have gone on to graduate or professional school and/or employment in such fields as business, education, government, industry, international relations, law, medicine, publishing, translation, and interpretation.

The Spanish concentration major has significant opportunities for community outreach activities (e.g., internships, service learning) in Alabama, and has diverse study abroad opportunities from which to choose.

The Department requires students to enroll in more than one language to learn about varied linguistic structures and receive a broader cross-cultural perspective.

Minor

Twelve semester hours at the 200 level or above are required for the minor in Chinese, French, German, Japanese, Spanish, or Business Spanish. No course in which a grade below C has been earned may be counted toward the minor requirement. The Department of Foreign Languages and Literatures strongly recommends that more than half of student course work for the minor be completed on the UAB campus. Students that transfer courses from non-UAB programs into the UAB minor programs will be examined for placement and proficiency level. At least 6 hrs. of the credits applied toward the minor must be taken at UAB. Exceptions to this rule can be granted with the permission of the Chair.

Foreign Language Media Services

The computer-based Foreign Language Media Services (FLMS) at UAB enables students, faculty and community users to access and utilize foreign languages and cultures in a digital environment in order to provide multi-dimensional learning and research opportunities. The FLMS plays an integral role in the activities and services of the UAB Department of Foreign Languages and Literatures and also serves as a support center for the University. The FLMS enables the UAB Department of Foreign Languages and Literatures to respond to the demand for additional language resources, the requirements for a wider range of tasks being performed in the languages, a greater number of language learners of different types and a broader array of instructional modes.

For more information about FLMS, online placement exams and internships, visit the Department of Foreign Languages and Literatures web site: http://www.uab.edu/cas/languages/.

Foreign Language Education

The Department of Foreign Languages and Literatures offers graduate foreign language classes regularly. The Department of Foreign Languages and Literatures provides content courses and collaborates on advising for graduate degrees in foreign language education. Students interested in seeking one of the graduate degrees in foreign language education should contact the UAB Department of Curriculum and Instruction (School of Education).

### Spanish for Specific Purposes

The Department of Foreign Languages and Literatures offers a Spanish for Specific Purposes (SSP) Certificate. The certificate is built upon the existing Spanish program and course offerings with modifications and additions. The courses are designed for traditional as well as non-traditional candidates. The objective of this certificate is not only to fulfill UAB degree candidates' academic and future needs, but also to reach out to local professionals. The courses are content-, vocabulary-, and culture-based. Students learn the vocabulary, language and cultural background that they will use in their professional field through extensive practice in class and beyond the classroom as well. Upon successful completion of the program, candidates will receive an official UAB Certificate of Completion, which will also be recorded on their transcript.

Candidates who wish to obtain a UAB Spanish for Specific Purposes Certificate must fulfill the following requirements:
1. Have the Spanish prerequisites specific to each SSP class.
2. Enter with and maintain a minimum 2.8 GPA in Spanish courses.
3. Submit an application online following the link provided below and receive formal acceptance to the SSP program.
4. Obtain a B grade or above in all SSP courses.
5. Complete a minimum of 18 credit hours of SSP classes (6 courses) in the UAB Department of Foreign Languages and Literatures, of which a minimum of 12 credits (4 courses) must be at the 300 level (SPA 304, FLL 333, and two other 300 level SPA courses).
6. Complete a successful SSP Service Learning course (FLL 333, 3 credit hours) as part of the 18 credit hour requirement.
7. Upon completion of the program, take the Oral Profiency Interview by computer (OPic) in Spanish and earn the performance rank of Intermediate-Mid or above.
8. Have a minimum of 12 credit hours of successful college level work (grade C or above in all courses), with the following distribution (minimum): at least 6 credit hours in Area 1 (English Composition), at least 3 credit hours in Area 2 (Arts and Humanities), at least 3 credit hours in Area 4 (Social Sciences) (non-degree-seeking candidates only).

For detailed information about the SSPC courses, registration process and procedures, a downloadable registration form and other updates, please visit our web site at http://www.uab.edu/cas/languages/

Honors in Foreign Languages

Purpose
The Foreign Languages Honors Program is designed for qualified, self-motivated foreign languages majors. Through special course distribution and credit hours requirements, as well as a directed honors thesis, students are prepared for in-depth foreign language research and related graduate or professional opportunities.

Eligibility
Acceptance into the Foreign Languages Honors Program requires the student to:

- Be a Foreign Languages major
- Have at least sophomore standing
- Have at least 6 hours at the 300-level in UAB foreign languages courses
- Have at least a 3.25 GPA in UAB foreign languages courses
- Have at least an overall 3.0 GPA
- Have submitted a Formal Application for the Foreign Languages Honors Program to the Department Chair or have been recommended to the program by a member of the department.

Requirements

- Completion of required courses for the Foreign Language major
- Submission of a formal project proposal to DFLL faculty Mentor and DFLL Chair
- Agreement and acceptance by a DFLL faculty Mentor and DFLL Chair of a research project
- Constitution of a former Honors Committee with membership that consists of the DFLL faculty Mentor and two faculty Consultants
- Registration for 3 credit hours of FLL 410
- Public Defense of the research project
- Acceptance of the completed project by the student’s Honors Committee
- Submission of an archival copy of the completed project signed by the Honors Committee to the office of the DFLL

Contact
For more information and/or admission to the Foreign Languages Honors Program, please contact:
Chair of the Department
Department of Foreign Languages and Literatures
Humanities Building 407

Department of Government

Chair: Wendy Gunther-Canada, Ph.D.

The Department of Government offers programs of study leading to the Bachelor of Arts degree in political science and the Master of Public Administration degree.

Political science is concerned with the observation and comprehension of government in human society. The curriculum in political science provides selective opportunities to study systematically and critically American government and politics, to compare various national political systems, to investigate conflict and cooperation among nation-states, to explore the historical development of political theory, analyze the organization and management of public affairs, and to master the methods of political research.

The political science major is an appropriate background for careers in law; social science teaching; state, local, and federal government; foreign diplomacy and international affairs; journalism; campaigns and electioneering; non-profit advocacy; and political research.

Bachelor of Arts with a Major in Political Science

A grade of C or better is required in all Political Science courses. In fulfilling the requirements below, students must have 17 hours at the 300-level or above, 9 of which must be at the 400 level.

Political Science Electives  
Select 9 credit hours in Political Science (PSC)  

Total Hours  36  

1  Completing PSC 101, PSC 102, and PSC 103 will automatically satisfy nine hours of Core Curriculum Area IV.  
2  Students must complete 9 hours of the major classes at the 400 level.  

Additional Requirements  
A minor is required for this degree.  

Students must take general electives to reach the 120 semester hours requirement.

Political Science Electives 3

Select 9 credit hours from Political Science courses, including two at the 300-level or above.

| Total Hours | 18 |

1 PSC 101 may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.
2 PSC 102 and PSC 103 may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.
3 PSC 221 will count toward this requirement and may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.

Honors Program in Political Science

Purpose

The Political Science Honors Program is designed to provide outstanding political science majors with the opportunity for advanced study of the political process. Honors students have the opportunity to complete an independent research project while working closely with a faculty member. The advanced study provided by the honors program accelerates a student’s preparation for graduate or professional training.

Eligibility

Criteria for entering freshmen are:

• A 3.25 high school GPA and ACT composite score of 20 (or equivalent SAT score).
• Declaration of political science as the student’s major.
• A letter of intent.

Criteria for students already enrolled at UAB or transfer students are:

• Completion of nine semester hours of political science.
• A 3.0 cumulative GPA and a 3.25 GPA in political science (and maintenance of these minima).
• Declaration of political science as the student’s major.
• A letter of intent.
• Faculty approval.

Requirements

Students in the Political Science Honors Program are required to do the following:

• Enroll in the Honors Program (replaces the requirement for a specialization).
• Complete one of the following advanced seminars:

<table>
<thead>
<tr>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSC 401 Seminar in American Government</td>
</tr>
<tr>
<td>PSC 402 Seminar in Comparative Politics</td>
</tr>
<tr>
<td>PSC 403 Seminar in International Relations</td>
</tr>
<tr>
<td>PSC 404 Seminar in Political Theory</td>
</tr>
</tbody>
</table>

• Enroll in three semester hours of PSC 497 after completion of the advanced seminar for advanced research in the selected subfield.
• Prepare an advanced research project (after completion of PSC 497), which will lead to the development of a substantial research paper and, in some cases, a senior thesis.
• Present research project findings to a colloquium of other PSC 497 students and department faculty.
• Participate in Pi Sigma Alpha, the national political science honor society.

Benefits

Honors students will benefit from one-on-one mentoring with faculty in the department, which will lead to a more thorough understanding of the field and practice of political science. This is particularly useful as students choose career goals, such as graduate school, law school, public service, the foreign service, or other opportunities. Additionally, students who complete the program will receive a certificate at the annual UAB Honors Convocation and will graduate “With Honors in Political Science.”
Contact

For more information and/or admission to the Political Science Honors Program, contact the Political Science Program Director, 414 Heritage Hall, Birmingham, AL 35294-1152; Telephone (205) 934-9680.

Department of History

Chair: Colin Davis, Ph.D.

The Department offers the Bachelor of Arts degree and the Master of Arts degree in History. The department also includes the Media Studies program (formerly known as Digital Community Studies Program) which offers a minor.

In its broadest sense, the discipline of history provides the background for all other subjects and disciplines. The classical goal of self-knowledge can be enhanced through the study of history. The analytical study of history provides an understanding of “why we are what we are” and “how we came to be where we are today.” The purpose of historical study is not only an understanding of our own past and present, but an appreciation of the evolution of other cultures, civilizations, and nations.

Students interested in careers in the fields of law, teaching, public service, international affairs, business, journalism, and a variety of other areas involving the social sciences and humanities will find the history major beneficial and rewarding.

The Media Studies Program offers a minor for students interested in opportunities for applied research in local communities through the use of new media technology. The minor provides students a solid grounding in the history, theory and practice of documentary film, film history, oral history, ethnography, community studies, and media theory. Students will gain experience in community-based research, as well as attain proficiency in various new media technologies.

Bachelor of Arts with a Major in History

A grade of C or better is required in all History (HY) courses.

1 May also apply toward Core Curriculum Area IV.
2 Students may not take both HY 101 and HY 104 or both HY 102 and HY 105.
3 May also apply toward Core Curriculum Area IV.

Note: At least 6 semester hours in history above the 300 level must be taken at UAB. No grade below C may be counted toward the history minor.

Honors Program in History

Purpose

The History Honors Program is designed for outstanding history majors at UAB and allows qualified students to write a Honor’s Thesis based on original research. Faculty-led independent research for the senior thesis provides students with experience in applying historical methods and analytical writing techniques. This more advanced study helps prepare undergraduate history majors for graduate work in the field or for postgraduate training in other areas such as law, theology, and medicine. Students who complete the program will graduate “With Honors in History.”

Eligibility

To be eligible for the History Honors Program, students must complete at least 60 semester hours with a minimum 3.0 overall GPA and a minimum 3.5 GPA in history courses. At least 24 semester hours in the history major (including HY 300 Historian’s Craft ) must be completed prior to acceptance in the Honors Program.

Interested students must apply for the program which includes submitting a prospectus with bibliography. The application must include the signature of a History Department faculty member who has agreed to direct the Honor’s Thesis. If the student is accepted to the program, the student and the thesis director will choose two additional faculty members to make up the student’s thesis committee. The thesis committee will determine whether the student’s completed thesis qualifies for honors.

Requirements

The History Honors Program requires 39 total semester hours in history and maintenance of an overall 3.0 GPA and a 3.5 GPA in history courses through graduation.

Additional requirements include:

</tbody>
</table>

Total Hours 39

1 The department recommends that this course be taken after completion of the lower-division survey requirement and before taking upper-division courses.
2 These courses may not be transferred from another institution and must be taken at UAB.

Honors students may take one or two graduate seminars in history for undergraduate credit with permission of the Director of the History Undergraduate Program. This credit may not be used for graduate credit.

Contact

For additional information on the History Honors Program, contact the Department of History, Director of History Undergraduate Program or Chair; Telephone (205) 934-5634.

Department of Mathematics

Chair: Rudi Weikard
Associate Chair: John C. Mayer

The Department of Mathematics offers courses in pure and applied mathematics and a major and minor in mathematics leading to employment in education, government, business, and industry. In addition, mathematics courses are offered to support programs in the physical, social, biological, and health sciences and in engineering, business, and education. Students considering a major or minor in mathematics should consult the undergraduate advisor, Dr. Hutchison, at (205) 934-2154 to arrange for counseling on career and academic objectives and program planning.
The Department of Mathematics Web site (http://www.uab.edu/mathematics/) summarizes information about the Departmental programs.

For the major there are four distinct B.S. degree tracks in mathematics:

1. Mathematics (traditional track)
2. Mathematics with Honors
3. Applied Mathematics and Scientific Computation
4. Mathematical Reasoning

Students interested in secondary teaching certification in mathematics normally take the traditional track. Students interested in middle school teaching normally take the mathematical reasoning track. Certification courses are part of the UABTeach (https://www.uab.edu/uabteach) program.

Mathematics Fast-Track Program

The Department of Mathematics has an accelerated program for qualified students. Through this Fast-Track option, a mathematics major can earn a BS degree and an MS degree in mathematics in four to five years (depending upon whether summer terms are included). As another option, students can pursue a BS in mathematics and an MS in biostatistics by choosing the biostatistics track at the end of the third year. Each individual Fast-Track student works with a mentor from the graduate faculty on a mathematics research project during every term. Fast-Track students will usually begin taking graduate mathematics courses after the third year, and are automatically admitted to the graduate program in the fourth year, if performing satisfactorily. Students who complete this program will be prepared for continued graduate work in mathematics and the sciences, or for careers in industry. Fast-Track scholarships are available. For more information, contact the Honors Program Director, Dr. Oversteegen, at (205) 934-2154.

Course Numbering System

Mathematics course numbers indicate both the level and area of the course. The first digit (0, 1, 2, 3, or 4) indicates developmental (no degree credit), freshman, sophomore, junior, or senior level, respectively. The second and third digits indicate area, according to this scheme:

- 00–10 — Pre-calculus
- 11–19 — History of mathematics and mathematical reasoning
- 20–29 — Logic and foundations
- 30–39 — Algebra
- 40–49 — Analysis
- 50–59 — Differential equations
- 60–69 — Applications-oriented courses
- 70–79 — Geometry and topology
- 80–89 — Probability and statistics
- 90–99 — Special topics, seminars, and independent research

For example, MA 454 Intermediate Differential Equations is an advanced level differential equations course. Calculus courses (MA 125, MA 126, and MA 227) are exceptions to the area numbering scheme.

Graduate Programs

The Department of Mathematics offers graduate study leading to the degrees of Master of Science in mathematics (thesis or non-thesis option) and Doctor of Philosophy in applied mathematics. Further information may be obtained from the Graduate Program Director, or the UAB Graduate School Catalog.

See the UAB Graduate School Catalog for descriptions of graduate courses.

</table>

Two or three electives selected from courses numbered 300 or above, each of which must have at least a calculus (MA 125) prerequisite. MA 313 counts toward the major only for students in UABTeach. MA 411 does not count toward the major.

Choose one of the following Advanced Mathematics sequences:

- MA 434 Algebra I: Linear
- MA 435 Algebra II: Modern
- MA 454 Intermediate Differential Equations
- MA 455 and Partial Differential Equations I
- MA 455 Partial Differential Equations I
- MA 461 and Modeling with Partial Differential Equations
- MA 463 Operations Research I
- MA 464 and Operations Research II
- MA 470 Differential Geometry I
- MA 471 and Differential Geometry II
- MA 474 Introduction to Topology I
- MA 475 and Introduction to Topology II
- MA 485 Probability
- MA 486 and Mathematical Statistics
- MA 485 Probability
- MA 587 and Advanced Probability

**Total Hours** 39

1 Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement. MA 126, MA 252 and MA 361 are all quantitative literacy (QL) and writing (W) courses satisfying the QEP requirements of the core. In addition, MA 125 is a QL course. UAB requires that all students complete a capstone requirement. For this track the capstone requirement is MA 441 .
Three electives are required if MA 434/MA 435 is chosen as the advanced sequence.

**Grade Requirement**

A grade of C or better is required in each course counted toward the major.

**Minor**

- A minor is required for this degree. Those interested in secondary education can select the STEM Education minor offered by the School of Education.

**General Electives**

Students must take general electives to reach the 120 semester hour requirement.

**Bachelor of Science with a Major in Mathematics and an Applied Mathematics and Scientific Computation Track**

This track aims to provide graduates with the mathematical and computational skills needed to develop and maintain mathematical models from the Sciences, Engineering, Medicine, and the Biosciences, Business, and elsewhere.

A mathematical model is a rendering of some real-world system into the language of mathematics, usually taking the form of a single partial differential equation, or a system of such equations. The development of effective mathematical models is a fundamental need of our society, based as it is upon science and technology, and these models act as the indispensable link between humanity and the multitude of machines that we use to manage and investigate our world.

**Mathematics Electives**

Two additional electives selected from courses numbered 300 or above, and from areas 30-99 of the course numbering system for mathematics.

**Advanced Mathematics Electives**

Select three additional electives from the following courses:

- MA 435 Algebra II: Modern
- MA 444 Vector Analysis
- MA 445 Complex Analysis
- MA 454 Intermediate Differential Equations

- MA 455 Partial Differential Equations I
- MA 461 Modeling with Partial Differential Equations
- MA 462 Intro to Stochastic Differential Equations
- MA 463 Operations Research I
- MA 464 Operations Research II
- MA 467 Gas Dynamics
- MA 468 Numerical Analysis
- MA 484 Mathematical Finance
- MA 485 Probability
- MA 486 Mathematical Statistics
- MA 497 Research Methods in Mathematics
- MA 587 Advanced Probability

1. Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement. MA 126 and MA 252 are quantitative literacy (QL) and writing (W) courses satisfying the QEP requirements of the Core Curriculum. In addition, MA 125 is a QL course. UAB requires that all students must complete a capstone requirement. For this track the capstone requirement is one of MA 455, MA 461, and MA 486.

2. MA 260 Introduction to Linear Algebra and MA 434 Algebra I: Linear cannot both be counted.

**Grade Requirement**

A grade of C or better is required in each course counted toward the major.

**Minor**

- A minor in the sciences, business, or engineering is required for this degree. Students in UABTeach (https://www.uab.edu/uabteach) may select the minor in STEM Education offered by the School of Education.

**General Electives**

Students must take general electives to reach the 120 semester hour requirement.

**Bachelor of Science with a Major in Mathematics and a Mathematical Reasoning Track**

The Mathematical Reasoning Track is designed to develop a deeper level of understanding of mathematical thinking, including a deepening knowledge of important mathematical ideas, understanding the role of inquiry and reflection in learning mathematics, understanding the role of cultivating a productive disposition in tackling mathematical problems, and developing the ability to communicate mathematics to audiences at different levels. In particular, this track is appropriate for students interested in pursuing certification in mathematics at the middle school level.

**Requirements**

<table>

</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>MA 125 Calculus I</td>
</tr>
<tr>
<td>4</td>
<td>or MA 225 Calculus I - Honors</td>
</tr>
</tbody>
</table>

Select two courses from the following three groups:

- MA 106 Pre-Calculus Trigonometry 2
Department of Mathematics

or MA 107 Pre-Calculus Algebra and Trigonometry
MA 110 Finite Mathematics
or MA 418 Statistics for Teachers
MA 126 Calculus II
or MA 226 Calculus II - Honors

Additional Required Mathematics Courses
MA 311 History of Mathematics I 3
MA 313 Patterns, Functions and Algebraic Reasoning 3
MA 314 Geometric and Proportional Reasoning 3
MA 316 Numerical Reasoning 3
MA 361 Mathematical Modeling 3
MA 411 Integrating Mathematical Ideas 3

Mathematics Electives
Two electives selected from courses numbered 227 and above. 6

Total Hours 34-35

1 Completion of MA 106 or MA 107 automatically satisfies the Core Curriculum Area III: Math requirement. MA 106, MA 107, MA 110, MA 125, MA 361, MA 418 are all quantitative literacy courses satisfying the QEP requirements of the Core Curriculum. In addition, MA 361 is a QEP writing (W) course. UAB requires that all students complete a capstone requirement. The capstone requirement for this track is MA 411. At least three courses in this major must be at the 400 level.

2 Students cannot count both MA 106 and MA 107 toward their major.

3 MA 419 cannot be repeated for credit toward this major.

Grade Requirements
A grade of C or better is required in each course counted toward the major. Requirements are 34-36 semester hours in mathematics with 24 at the upper level (courses numbered 300 and above). Nine hours must be taken at the 400 level.

Minor
- A minor is required for this degree. Those interested in middle school education can select the STEM Education minor offered by the School of Education.

General Electives
Students must take general electives to reach the 120 semester hour requirement

</tr>
<tr>
<td>Mathematics Electives</td>
<td></td>
</tr>
<tr>
<td>Select nine hours from Mathematics courses numbered 200 or above</td>
<td>9</td>
</tr>
</tbody>
</table>

Total Hours: 21

1. MA 125 Calculus I may also satisfy the Core Curriculum Area II: Math requirement; check the Core Curriculum for your particular major.
2. At least 6 semester hours of which must have a calculus (MA 125) prerequisite. (MA 260 Introduction to Linear Algebra and MA 434 Algebra I: Linear cannot both be counted.) MA 411 does not count toward the minor.

#### GPA & Residency Requirement

A minimum grade of C is required in all courses applied to the minor. A minimum of six semester hours with a calculus (MA 125) prerequisite must be completed at UAB.

#### Honors Program

The Mathematics Honors Program is designed for advanced, motivated students. Through a mentored research program format and seminars,
research and communication skills are developed in preparation for a graduate or professional career.

The Mathematics Honors Program fosters a spirit of inquiry, independence, and initiative along with providing an overview of the relationships among the branches of mathematics studied. The student will have an early opportunity to tackle a mathematical research project while interacting one-on-one with faculty members in a research setting. The mentoring, the approved seminars, and the oral presentation or poster should all contribute to the student’s development. Upon completion of the program, the student will graduate “With Honors in Mathematics.”

Acceptance into the Mathematics Honors Program requires the student:

• to be a mathematics major in the traditional track;
• to have earned a 3.5 GPA in mathematics courses attempted;
• to have earned a 3.0 GPA overall;
• to have arranged with one or more faculty mentors to work on undergraduate research projects for six semester hours distributed over two or more terms; and
• to have filled out and submitted the Mathematics Honors Program application form to the Undergraduate Program Director.

Major requirements for the Mathematics Honors Program:

• to be a mathematics major in the traditional track;
• to complete an additional 9 hours of approved seminar (3 hours) and research (6 hours);
• to have earned a 3.5 GPA in mathematics courses and a 3.0 GPA overall; and
• to present an oral or poster presentation on mathematics in an academic setting

Department of Music

Chair: Patrick Evans

The Department of Music offers the Bachelor of Arts degree with a major in Music. Optional concentrations in Music Education (including teacher certification) and Music Technology are also available in the Bachelor of Arts degree program. Students majoring in other fields may complete a minor in Music or Music Technology and may take music courses as electives. The Department of Music is accredited by the National Association of Schools of Music.

The Department of Music offers instruction at a variety of levels to provide a balanced musical education for a broad spectrum of students. Areas of instruction include music theory and composition, music history and literature, music performance, music education, and music technology. Courses in music theory explore the materials and techniques employed in music composition. History and literature courses present the evolution of musical styles in the context of our cultural heritage, and identify certain works that represent the highest levels of artistic achievement. Performance activities develop individual musical skills through personal creative involvement. Music Education prepares students to teach music at the nursery through high school level. Music Technology explores current developments in computers and their applications to and impact on the creation, presentation, and recording of music. Full updated information is available on the Department of Music web site at www.uab.edu/cas/music.

Music Ensembles

Students of all majors are invited to participate in a variety of musical ensembles: Blazer Band, Brass Ensembles, Chamber Singers, Computer Music Ensemble, Concert Choir, Gospel Choir, Guitar Ensemble, Jazz Combo, Jazz Ensemble, Marching Band, Opera Workshop, Orchestra, Percussion Ensemble, Steel Drum Band, Electro-Acoustic Percussion Group, Piano Ensemble, Symphony Band, Wind Symphony, and Woodwind Ensembles. Other ensembles may become available depending on student interest and available resources.

Music Scholarships

The Myrtle Jones-Steele and James Darrell McAnnally Scholarships (piano), the W. Ronald Clemmons Endowed Music Scholarship, the Alys Robinson Stephens Scholarship (any instrument or voice), and other scholarships are awarded each year to qualified music majors.
Choral, Opera, Wind Symphony, and Marching Band scholarships are also competitively based and are awarded to any full-time student enrolled in the university for participation in those ensembles. The Music Technology Scholarships, Stevie Wonder Scholarships, and Audistate 55 Music Technology and Jazz Scholarships are awarded to students in the Music Technology program. Auditions are scheduled throughout the year for admission to the Department of Music. Auditions are scheduled throughout the year. Examinations may also be required to determine the appropriate placement of students within the curriculum. Students should contact the music office at (205) 934-7376 or email uabmusic@uab.edu (%20uabmusic@uab.edu) for specific audition requirements and to schedule a date on which they may complete this requirement. Once the audition is complete, students will be informed of one of three outcomes:

1. Admission to the Department is granted and they may enroll as a music major.
2. Admission to the Department is conditional, in which case they are admitted as a Pre-Music major. Students admitted into this preliminary program have one year to gain full admission as a music major.
3. Admission to the Department is denied.

In the case of number 2 above, students must re-audition in order to gain full admission as a music major. In the event they are not accepted, they will be advised to seek another major within the University. Once fully or conditionally admitted to the Department of Music, students will work closely with a music faculty adviser and an academic adviser within the College of Arts and Sciences, who will monitor their progress and advise in the selection of appropriate courses. All students must audition during the term preceding the expected entrance date. Admission to UAB does not guarantee admission to the Department of Music.

Music Theory Entrance Exams

All incoming students must take a music theory placement exam upon entering the music program. To sign up for the Music Theory Placement Exam, please contact the UAB Music Office at (205) 934-7376, or by email: uabmusic@uab.edu.

First-Year Music Theory Entrance Exam

All new music students must either pass the placement examination with a minimum score of 70%, or successfully complete MU 100 Fundamentals of Music, with a grade of “C” or higher, before they are eligible to enter MU 221 Music Theory I, and MU 224 Aural Skills I. Students will be notified of the results at least two days prior to the first day of classes.

In preparing to take the entrance exam, students may wish to review the first four chapters in the following textbooks:

- *Tonal Harmony* by Stefan Kostka and Dorothy Payne

Exceptions:

A. Pre-enrollment Credit

Students who enroll and pass a music fundamentals course from an accredited college prior to enrolling at UAB may enroll in MU 221 and MU 224 A grade of “C” is considered passing.

B. Advanced Placement Exam Exemption (AP Music Theory)

Students who score a “3” or higher on both parts of the AP Music Theory Exam may place out of MU 221 and MU 224; students cannot test out of MU 222, Music Theory II, and/or MU 225, Aural Skills II.

AP exam scores must be sent to the Associate Chair of the Department, Dr. Paul Mosteller (songman@uab.edu), before the first day of fall classes. Students who fail to send their scores will not be allowed to enroll in MU 221 and MU 224

C. State Schools for the Fine Arts

Students who attend an accredited state sponsored school for the fine arts and pass its “Advanced Placement” music theory class with a grade of “B” may place out of MU 221 and MU 224 and enroll in MU 222 and MU 225 in the spring semester; students cannot test out of MU 222 and/or MU 225

Music Theory Placement Exam for Transfer Students

All transfer students with prior music theory credits are required to take a Music Theory Placement Exam.

For transfer credits to be considered equivalent to Music Theory I-IV and Aural Skills I-IV, courses taken at another college must have included an Aural Skills course. If a separate Skills course was taken, both the laboratory and the related music theory course must have been completed with a grade of “C” or higher. On the basis of placement exam results, the faculty will place the student in the appropriate course, which may be at a lower level than the student’s transfer credits indicate. Students must pass the placement examination with a minimum score of 70%. Students will be notified of the results of the placement exam at least two days prior to the first day of classes.

In preparing to take the placement exam, students may wish to review the following materials according to the last course successfully completed in their theory sequence:

- Theory I: Fundamentals; diatonic harmony; basic part-writing; Roman numeral analysis;
- Theory II: Diatonic harmony; part-writing; Roman numeral and non-chord tone analysis; basic musical form;
- Theory III: Diatonic and chromatic harmony; form and analysis;
- Theory IV: Diatonic and advanced chromatic harmony; form and analysis; late Romantic harmony; modes; 20th-century techniques (12-tone analysis and set theory).

Students may wish to consult the following textbooks:

- *Tonal Harmony* by Stefan Kostka and Dorothy Payne
Music in Theory and Practice by Bruce Benward

Form in Tonal Music by Douglass M. Green

Piano Proficiency

All Music Majors must demonstrate basic proficiency at the piano keyboard by the end of their third semester of study as a UAB Music Major. Students who are not able to pass the Piano Proficiency Examination upon entering the music degree program should enroll in Class Piano (MUP 124) until they are able to do so. Up to three semester hours of credit earned in Class Piano may be counted toward general electives.

Piano Proficiency Examination Requirements

Purpose

To demonstrate functional keyboard skills at a level appropriate for students majoring in Music, Music Technology, or Music Education.

Procedure

All Music, Music Technology, and Music Education majors must pass the Piano Proficiency Examination by the end of their third semester of study as a UAB Music Major. Students with considerable experience in piano may be allowed to take the examination during their first term without enrolling for Class Piano. In the event they are not successful, they should enroll in Class Piano until the proficiency exam has been passed. All other students should enroll in Class Piano and continue enrollment until the exam has been passed. Students should plan to pass the Piano Proficiency Examination at the end of their third semester of music study at UAB. All Music majors are required to pass the Piano Proficiency Examination MUP 125 before being permitted to enroll in MU 322 Music Theory IV. Proficiency examinations will be scheduled during the final examination week of each semester. The instructor of MUP 125 and two other faculty members will administer the exam. Students wishing to take the proficiency exam must contact the instructor at least one week before the last day of classes to schedule a time and place for the exam. The exam will be approximately fifteen minutes in duration and will cover examples from the areas listed below. The examination may be attempted once each semester until it is passed. Music Education majors cannot enter the TEP (Teacher Education Program) without first completing this requirement.

Students have two options leading to the completion of the Piano Proficiency requirement.

• Incoming freshmen will be advised to enroll in class piano in their first semester. Passing the final exam of the second semester (advanced) course will count as passing the piano proficiency exam. They must still register for the piano proficiency exam for zero credit for transcript purposes.

• Students may elect to take the piano proficiency exam in August, December, or April, without enrolling in the class piano sequence. If they pass the exam, they are not required to take class piano at all. If they do not pass the exam, they must enroll in the two-semester sequence and pass the second-semester exam.

• Transfer students who have a documented piano proficiency exam pass (either transcript or letter from department chair) will not be required to take the exam or the class.

• Transfer students who have not passed a proficiency exam, even if they have taken some class piano, must take the UAB piano proficiency exam in August. If they pass the exam, they have met the Piano Proficiency requirement; if not, they must enroll in either the two-semester sequence, or the second semester, depending on the results of the exam.

• In all of the above circumstances, the student must register for MUP 125 (zero credit) for transcript purposes.

Required Skills

The student is expected to demonstrate proficiencies in the areas of sight reading, performance, technique, and related functional skills including transposing and improvising simple accompaniments.

• Sight-reading of song arrangements and/or simple solo piano literature such as a selected example from Chapter 5, pages 195-219 in Progressive Class Piano by Elmer Heerema.

• Performance:
  • A solo selected from the following list or from repertoire of comparable difficulty (memorization optional).
    • J.S. Bach - Little Preludes
    • Clementi - Sonatinas
    • Schumann - Album for the Young
  • Two patriotic songs: America and The Star-Spangled Banner. Music may be used.

• Technique:
  • All major and harmonic minor scales: Two octaves in parallel motion, hands together.
  • All major and minor arpeggios: Two octaves, hands together.

• Functional Skills:
  • Accompaniment improvisations (see Progressive Class Piano; each chapter contains sections on harmonization and improvisation).
  • Transpose a simple accompaniment or song at sight (see Progressive Class Piano, Chapter 5 pages 195-204 for examples).
  • Play the progression I-IV-I 6 4-V7-I hands together in all major and minor keys.

Performance Attendance Requirement

All Music majors are expected to attend Music Department concerts and programs, and are required to attend a minimum of 15 events per term. To satisfy the Department's performance attendance requirement, all music majors must enroll in and successfully complete MUP 001 every term of enrollment, except during the term of the capstone experience (seven terms). A grade of P (pass) or NP (not pass) will be assigned accordingly for a student’s attendance at concerts. Music Convocation, Department-sponsored lectures, and other events approved previously by the Department. For more specific information concerning the Performance Attendance requirement, students are urged to consult the Department of Music’s Student Handbook.

Clarification for students that enter the UAB Department of Music as freshmen:

• Once you have passed Performance Attendance for a total of seven terms, your PA requirement is complete.

• You are not required to register for PA during your capstone semester.

• You are only required to register for PA during the fall and spring semesters; summer registration is not required. Summers may be
used to "make up" a term if needed, but it should be noted that successful completion during summer terms is more difficult.

Clarification for transfer students and students who change major to Music:

- If you enter UAB with no Performance Attendance credits from another approved institution, you must enroll for and successfully complete PA every semester (fall and spring) you are a Music major at UAB. For example, if you are a UAB Music major for five semesters (including your capstone semester), you must pass PA four terms.
- If you enter the UAB Department of Music with one or more credits in Performance Attendance from another approved institution, you must still pass PA for each semester (fall and spring) you are a Music major at UAB, except for the capstone semester.
- You are not required to register for PA during your capstone semester.

Music Capstones

UAB policy states: "Freshman students entering UAB in fall 2009 or after, must successfully complete the capstone course or experience required by their major program or school in order to graduate. All students graduating in 2013 or later must complete a capstone requirement." This UAB policy is fulfilled by the Music Education and Music Technology internships for music majors with those concentrations. All other Music majors should complete MUP 497, Senior Recital/Project, during their last semester.

Teacher Certification

Students who wish to prepare for careers as music teachers in schools at the pre-college level will need to complete the requirements for the professional teaching certificate issued by the Alabama Department of Education. These requirements are met by completing the curriculum for the Bachelor of Arts in Music Education degree. Because the Alabama State Board of Education frequently changes or adds teacher certification requirements, it is essential that students stay informed about current certification requirements. Therefore, Music Education majors are required to meet with their Music adviser and an adviser in the School of Education before registration each semester.

The Alabama teaching certificate is issued for two teaching fields in music: instrumental music and vocal/choral music, both valid for kindergarten through grade twelve. Students in any of the teacher certification areas in Music Education are required to earn credit in at least one music ensemble per term for a minimum of seven terms. In fulfilling the participation requirement, instrumental students must enroll in an instrumental ensemble and vocal/choral students must enroll in a vocal/choral ensemble. At least six terms of the required ensemble participation must include involvement in the appropriate Major Ensemble (see above). Credit earned in excess of the minimum semester hour requirements for ensembles may be applied to music electives within the general studies portion of the teacher certification program.

Minor in Music or Music Technology

The minor consists of 26 semester hours of coursework in music. Students who minor in Music or Music Technology should have some prior musical experience and must audition on their performing instrument. Music courses in which a grade below C is earned may not be counted toward the minor. Minors are encouraged to participate in music ensembles throughout their academic program. Students should contact the music office at (205) 934-7376 or email uabmusic@uab.edu for specific audition requirements and to schedule an audition.

Transfer Students

A student may not apply more hours of transfer credit toward any requirement for a major or minor in music than are awarded for the equivalent courses at UAB. Excess hours in any required area may be applied as electives. Music majors must complete at least nine semester hours in music at UAB. Minors must complete at least six semester hours
in music at UAB. See the section of the catalog titled “Completion of a Degree” for additional residency requirements.

The stated requirements for majors and minors in music are intended to assure a balanced academic program. In evaluating transfer credits, therefore, course content as well as the number of credits in particular areas must be considered in order to determine whether courses taken at other colleges satisfy UAB requirements. To be considered equivalent to Music Theory I–IV and Aural Skills I–IV, courses taken at another college must have included “aural skills.” If a separate “theory laboratory” was taken, both the laboratory and the related music theory course must have been satisfactorily completed. Transfer students will be required to demonstrate by examinations, auditions, and other means that their current knowledge and skills meet expected standards. Auditions will be required to determine placement in applied music courses and conducting. Transfer students majoring in music will be required to pass the UAB Piano Proficiency Examination unless written verification is provided from the appropriate official at the former college which shows that they have passed an equivalent examination at that institution.

Music majors who transfer to UAB and students who change their major from another field to music may either:

1. Complete the normal ensemble participation requirement for their degree program.
2. Participate in an ensemble during each term they are enrolled as a music major at UAB, with no fewer than three terms of participation in UAB ensembles.

In either case, the semester hour ensemble requirement must be met by transfer and/or UAB credit. Students must be officially enrolled in an ensemble in order to fulfill the participation requirement.

Music majors who transfer to UAB and students who change their major from another field to music may either:

1. Complete the normal performance attendance requirement.
2. Enroll in and successfully complete MUP 001 during each term they are enrolled as a music major at UAB, with no fewer than three terms.

Courses transferred from a two-year college cannot be used to satisfy requirements for work at advanced levels (courses numbered 300 or higher). No more than 60 semester hours may be transferred from a two-year college.

**Scheduling of Courses**

Certain music courses are offered one time each year or once every two years, according to a Department plan. A copy of this plan may be obtained from the Department of Music. Several courses are offered irregularly, according to need.

**Academic Advising**

Each music major is assigned a Departmental academic adviser. The student MUST meet with his/her adviser before registering for classes each semester. Music Education majors must also meet with an academic adviser in the School of Education each semester.

---

1. Each level of Music Theory and Aural Skills is co-requisite, i.e., they must be taken at the same time. A grade of "C" or better must be earned in order to proceed to the next level. After this is accomplished, a student may retake one of the two co-requisite courses for the purpose of improving their grade.

2. Students must participate in at least one semester hour of Music Ensemble per term for a minimum of seven terms. Music Ensembles are divided into two groups, "Major Ensembles" and "Minor Ensembles." Music majors must complete at least six hours in a Major Ensemble, with the remaining hour in either a Major or Minor Ensemble.

### Education

This course must be taken PRIOR TO admission to TEP:
- EDU 200  
  Education as a Profession  
  3

Students may take NO MORE THAN FOUR of the following courses PRIOR TO admission to TEP. Students who ignore this admonition assume responsibility for their own mistakes.
- EDF 362  
  Foundations of Education I: Social, Historical, Philosophical  
  3
- EPR 363  
  Foundations of Education II: Psychological  
  3

Methods Block 1
- MU 431  
  Methods of Teaching Music N-6  
  3
- EDR 421  
  Reading in Context Areas  
  1

Methods Block 2
- MU 433  
  Methods I: Instrumental Music  
  3
- ECY 300  
  Survey of Special Education  
  3

Methods Block 3
- MU 463  
  Methods II: Instrumental Music  
  3
- EPR 411  
  Measurement and Evaluation in Education  
  3
- EHS 497  
  Special Problems in Education  
  3

### Internship

These courses must be taken AFTER admission to TEP.
- EMU 490  
  Internship in Music Education  
  6
- EMU 499  
  Internship Seminar in Music Education N - 12  
  1

**Total Hours**: 92

---

1. Completing this requirement will also count toward Core Curriculum Area II.
2. Completing this requirement will also count toward Core Curriculum Area IV.
3. Each level of Music Theory and Aural Skills is co-requisite, i.e., they must be taken at the same time. A grade of "C" or better must be earned in order to proceed to the next level. After this is accomplished, a student may retake one of the two co-requisite courses for the purpose of improving their grade.
4. Students must participate in at least one semester hour of Music Ensemble per term for a minimum of seven terms. Music Ensembles are divided into two groups, Major Ensembles and Minor Ensembles. Music majors must complete at least six hours in a Major Ensemble, with the remaining hour in either a Major or Minor Ensemble.
5. Students must take EMU 490 and EMU 499 in the same term.

</tr>
</tbody>
</table>

#### Music Ensemble

- Select six hours from the following courses (all courses may be repeated for credit) 6
  - MUP 110 Gospel Choir
  - MUP 220 Concert Choir
  - MUP 120 University Chorus
  - MUP 221 Jazz Combo
  - MUP 225 Symphony Band
  - MUP 230 Guitar Ensemble
  - MUP 231 Orchestra
  - MUP 232 Marching Band
  - MUP 234 Percussion Ensemble
  - MUP 235 Wind Symphony
  - MUP 236 Jazz Ensemble
  - MUP 237 Blazer Band
  - MUP 320 Chamber Singers
  - MUP 321 Women's Chorale
  - MUP 341 Computer Music Ensemble
  - MUP 353 Piano Ensemble
  - MUP 420 Opera Workshop

#### Applied Music

- Select three hours from Music Performance (MUP) courses designated “Private Lessons” (each course may be repeated for credit) 3
  - MUP 140 Private Lessons: Voice
  - MUP 150 Private Lessons: Piano
  - MUP 161 Private Lessons: Flute
  - MUP 162 Private Lessons: Oboe
  - MUP 163 Private Lessons: Clarinet
  - MUP 164 Private Lessons: Saxophone
  - MUP 166 Private Lessons: Bassoon
  - MUP 171 Private Lessons: Trumpet
  - MUP 172 Private Lessons: French Horn
  - MUP 173 Private Lessons: Trombone
  - MUP 174 Private Lessons: Euphonium
  - MUP 175 Private Lessons: Tuba
  - MUP 180 Private Lessons: Percussion
  - MUP 191 Private Lessons: Violin
  - MUP 192 Private Lessons: Viola
  - MUP 193 Private Lessons: Cello
  - MUP 194 Private Lessons: Bass
  - MUP 195 Private Lessons: Guitar

Total Hours 26

Music Honors Program

Purpose

The Music Honors Program is designed for highly talented, self-motivated students majoring in music. Through individual instruction and mentoring by the student’s applied faculty member, he/she will present a full public recital on his/her major instrument or present a series of original compositions. In the Department of Music this program is also referred to as the Young Performing Artists Program.

Eligibility

Acceptance to the Music Honors Program requires the student to:

- Be a music major.
- Be of at least sophomore standing in music.
- Be admitted to 300-level private lessons.
- Earn and maintain an overall GPA of 3.0 and a minimum cumulative GPA of 3.25 in all music courses.

Requirements

- Have permission of his/her applied instructor.
- Be recommended and accepted to the program by members of the music faculty by way of an end-of-semester jury.
- Present a 30 minute (junior year) and/or 1 hour (senior year) preliminary recital before the music faculty. Permission from the faculty must be granted before proceeding to a public recital.
- In consultation with the applied teacher, arrange and program a recital, write program notes, and assemble the program.
- Present a 30 minute (junior year) and/or 1 hour (senior year) public recital.

Benefits

Students will receive valuable individual attention and a public recital sponsored by the Department of Music. On most occasions, the performance is accompanied by a professional accompanist and is recorded onto compact disc. This recording is of great use to students when they are applying for music positions, graduate schools, fellowships, and assistantships. Students who complete the program will graduate “With Honors in Music.”
Department of Philosophy

Chair: Gregory Pence

The Department of Philosophy offers the Bachelor of Arts degree with a major in philosophy, as well as a minor in philosophy and course offerings for non-majors and non-minors. The department also sponsors an interdisciplinary minor in Philosophy and Law, described below.

The program for majors is built around two aims. First, the major offers study of the methods, problems, and history of philosophy. Second, it exposes the student to analysis of contemporary moral issues and philosophical puzzles. Throughout the major goal is to teach students to present and analyze critically arguments, both orally and in writing. Graduates of the department have pursued such careers as teaching, law, medicine, counseling, and business.

Further information about the department and its programs may be obtained at the department’s website: www.uab.edu/philosophy.

There are three different ways in which to major in philosophy at UAB:

- The general track.
- The individually designed track.
- The honors track.

When a student first declares a major in philosophy, he or she is classified in the general track. Students remain in this track unless they request entry into the individually designed track or are successfully admitted upon request into the honors track. These requests are made of the department chair.

The general track appeals to students with broad philosophic interests as well as to students desiring a second major or who need a flexible class schedule. The individually designed track is designed in consultation with a faculty advisor in areas such as applied ethics, bioethics, history of ideas, law and society, religion, and science and the modern world. Students graduating in the honors track graduate “With Honors in Philosophy.”

A grade of "C" or better is required in all philosophy courses for the minor.

Minor in Philosophy & Law

Director: Theodore Benditt (Philosophy)

The Philosophy and Law minor provides interested students with a secondary specialization focusing upon the philosophical underpinnings of the political and legal systems of the United States as well as the modes of thought found in the legal system. Because legal argument frequently uses ideas found in moral thought, exposure to the theory or history of ethics is critical. The program may be of interest to students contemplating a career in law and in related careers, though it is not intended as a pre-law or legal studies program.

Major in Philosophy with Honors

The Philosophy Honors Program is designed for qualified, self-motivated students. It is suited for those contemplating graduate work in philosophy or in professional fields in which an honors degree is desired. Through special distribution and credit hour requirements and a directed honors thesis, honors students are prepared for in-depth philosophical research and related graduate and professional opportunity. For acceptance in Philosophy Honors Program a student must:

- be a philosophy first major
- have at least sophomore standing
- have at least nine semester hours in UAB philosophy courses
- have at least a 3.5 GPA in UAB philosophy course work
- submit an application to the department (applications are available from department office)

Additional Requirements For Honors in Philosophy Degree

Course Grade and GPA Requirement

No course in which a grade below C has been earned may be counted toward the major. A 3.6 GPA in philosophy (PHL) courses is required for graduation with honors.

Department of Physics

Chair: Ilias Perakis

Physics is a basic science concerned with the study of the universe and the matter, space-time, energy and interactions that take place among them. It includes core theories of classical mechanics, electromagnetism, quantum mechanics, relativity, and thermodynamics. Practical applications of these theories are covered in courses such as Physics of Biomedical Processes and Technologies, Physics of Renewable Energy Systems, Nanoscale Science & Applications, Biophysics, Laser Physics, Optics, and Solid State Physics. There are opportunities for physics majors to excel through research participation in funded projects, where stipends are available through research grants or the established NSF/NASA REU Program, by joining the Honors Physics Program, and by participating in the Society of Physics Students.

The Department of Physics offers courses in astronomy, physics, and physical science. The B.S. degree, with a major in physics, emphasizes...
the understanding of the theories of physics to solve fundamental and
applied problems in science and technology by using critical thinking
and systematic analysis. Physicists work effectively in many careers
which require these skills, such as, basic, applied, and medical research;
medical, financial, and legal services; product design and development;
computer programming and software development; management,
administration, and quality control; as well as in higher and secondary
education.

The Department of Physics is a partner in the UABTeach initiative.
UABTeach lets undergraduate students receive both their B.S. degree
in physics and full teaching certification in four years. More information
about the coordination between UABTeach and the UAB Physics
Undergraduate program is available at the UABTeach Web site (http://
www.uab.edu/uabteach/).

The department offers the following B.S. degrees and concentrations as
well as a minor in physics:

1. Major in Physics
2. Major in Physics – Advanced Physics Track
3. Major in Physics – Applied Physics Track
4. Major in Physics – Computational Physics Track
5. Major in Physics – Biophysics Track

A Bachelor of Science degree with Honors in Physics is available for
all tracks, and offers the motivated and capable physics major with the
enhanced opportunity to develop the research, problem-solving and
communication skills necessary to excel in a scientific career or in the
marketplace.

Advising for all physics majors is provided by a professional advisor in
conjunction with physics faculty members.

The Department of Physics Web site (http://www.uab.edu/physics/)
summarizes information about the Departmental programs. Further
information may be obtained from Dr. Renato Camata, Undergraduate
Program Director at (205) 934-8143, camata@uab.edu.

Graduate Programs

The Department of Physics offers graduate study leading to the degrees
of Master of Science and Doctor of Philosophy in physics. Further
information may be obtained from Dr. Mary Ellen Zvanut, Graduate
Program Director at (205) 934-6661, mezvanut@uab.edu, or the UAB
Graduate School Catalog.

See the UAB Graduate School Catalog for descriptions of graduate
courses.

Bachelor of Science with a Major in
Physics

The curriculum of the Major in Physics provides fundamental knowledge
in the core theories of physics.

| MA 485 Probability          |       |
| MA 486 Mathematical Statistics | 3-4  |

Total Hours                  60-61
Grade Requirement
Students must earn a grade of “C” or better in all courses applied to this major.

Additional Requirements
Physics or General Electives
Students must take physics or general electives to reach the 120 semester hour requirement.

Minor
A minor is required for this degree, unless a double major is being earned.

Advanced Physics Track
The Advanced Physics Track is designed to prepare students for graduate studies in physics or other physical sciences. In addition to a strong foundation in the key theories of physics, this track encourages students to enroll in numerous advanced physics electives to broaden and deepen their preparation in physics.

Applied Physics Track
The Applied Physics Track is designed to prepare students for careers in industry or other technology enterprises. A judicious choice of courses that qualify as Applied Physics Track courses allows graduates to develop a competitive set of professional skills.

Computational Physics Track
The Computational Physics Track is designed to provide graduates with valuable computational skills in the areas of simulation of physical processes, big data processing and experimental analysis, and high levels of mathematical reasoning.

Bachelor of Science with a Major in Physics and a Biophysics Track
The Biophysics Track is a multidisciplinary program of study designed to place students in medical school, graduate school in the biosciences, teaching positions, or biotech enterprises. A balanced, flexible mix of physics, chemistry, biology and math is required.

Total Hours 71

Grade Requirement
Students must earn a grade of “C” or better in all courses applied to this major.

Additional Requirements
A biophysics track student who has taken all or part of the PH 201-202 sequence before declaring a physics major may petition to have those courses substitute for PH 221-222.

Physics and General Electives
Students must take physics or general electives to reach the 120 semester hour requirement.

Minor
A minor is required for this degree, unless a double major is being earned.

Suggested plans for majoring in physics
The plans provided below are meant to assist you in your path toward the B.S. degree in physics. Choose Group 1, 2, or 3, depending on your affiliation with the Science and Technology Honors Program (STHP) or the University Honors Program (UHP). Then identify within the chosen group the plan that best matches your goals and background. Please consult with an academic advisor to select the most suitable plan for you:

Group 1: Physics majors not in the Science and Technology Honors Program or the University Honors Program
- Plan 1A: Graduate School Bound and/or Strong HS Math/Physics (Freshmen with Calculus I Credit)
- Plan 1B: Graduate School Bound and/or Solid HS Math/Physics (Freshmen without Calculus I Credit)
- Plan 1C: Intensive Physics Track (Freshmen without Calculus I Credit)
- Plan 1D: Physics Track (Students with large science/engineering loads; double majors; UABTeach [https://www.uab.edu/uabteach])
- Plan 1E: Biophysics Track (Students with large interdisciplinary course loads; UABTeach [https://www.uab.edu/uabteach])

Group 2: Physics majors in the Science and Technology Honors Program
- Plan 2A: Graduate School Bound and/or Strong HS Math/Physics (Freshmen with Calculus I Credit)
- Plan 2B: Graduate School Bound and/or Solid HS Math/Physics (Freshmen without Calculus I Credit)

Group 3: Physics majors in the University Honors Program
- Plan 3A: Graduate School Bound and/or Solid HS Math/Physics
- Plan 3B: Biophysics Track (Students with large interdisciplinary course load; UABTeach [https://www.uab.edu/uabteach])

Plan 1A: Graduate School Bound - Freshman with Calculus I Credit
This plan is recommended for:
- Students with strong high school math and/or physics preparation
- Students who plan to pursue Graduate Studies in physics or related areas
- This plan is not intended for students in STHP or UHP

Plan 1D: Physics Track

This plan is recommended for:
- Students with large science or engineering course loads in areas other than physics.
- Students pursuing more than one major or students in the UABTeach (https://www.uab.edu/uabteach) Program
- This plan is not intended for students in STHP or UHP

Total Hours | 18

1 PH 221 General Physics I and PH 222 General Physics II may also satisfy the Core Curriculum Area III: Natural Sciences requirement; check the Core Curriculum for your particular major.

GPA & Residency Requirement

A minimum grade of "C" is required in all courses applied to the minor, as well as all mathematics course prerequisites. A minimum of two physics courses must be completed at UAB.

Honors Program in Physics

The Physics Honors Program offers the motivated and capable physics major enhanced opportunities to develop the research, problem solving, and communication skills necessary for a dedicated effort in the scientific enterprise. By designing, describing, and defending a research project, the honors graduate will have a documented capacity for success in graduate school or in any career where scientific critical thinking, motivation, and accomplishment are valued.

Eligibility

Acceptance into the Physics Honors Program requires the student to:

- have earned a 3.25 GPA in physics courses attempted.
- have earned a 3.0 GPA overall.
- have completed 16 semester hours in physics, including PH 351-PH 352.

Requirements

Students graduating with Physics Honors are required to have completed the following:

- arrangement with a faculty sponsor to do a physics research project satisfying expectations for six semester hours of PH 495 Honors Research
- selection of an Honors Committee.
- committee approval of a written research proposal.
- completion of the proposed six semester hours of PH 495 Honors Research.
- maintenance of a 3.25 GPA in physics courses and an overall 3.0 GPA.
- a written report in the format required by an appropriate journal.
- an oral or poster presentation of the research project to the Honors Committee.

Benefits

The goal of the Physics Honors Program is to train capable undergraduates for uncommon accomplishment in academic research. The new physics honors graduate will have documented experience and productivity commonly found in second- or third-year graduate students. Ideally, the research project will result in publication and presentation at a national conference, giving the honors graduate strong credentials for graduate or medical/professional school, for industrial research, for science writing, and for teaching. Contacts made through publication and conferences and informed references written by mentor and committee members give the honors graduate a significant edge in the job market. The successful honors student will be recognized at the UAB Honors Convocation and will graduate "With Honors in Physics."

Dr. Renato P. Camata
Director Undergraduate Physics Program
E-Mail: camata@uab.edu
Department of Psychology

Chair: Dr. Karlene K. Ball
Director of Undergraduate Studies: Dr. Maria Hopkins

The curriculum in psychology provides a flexible program for the psychology major leading to the Bachelor of Science degree. Alternatively, students can earn a minor in psychology or take advantage of the numerous course offerings that are open to all students. The department provides a variety of experiences to give students an understanding of the basic principles and mechanisms of behavior. The scientific method is emphasized throughout the curriculum. Students with a major or minor in psychology are encouraged to obtain first-hand experience with both the creation of new knowledge (research) and the application of that knowledge in community and treatment settings. There are many opportunities for students to gain firsthand research experience by working with individual faculty members in a variety of laboratory, clinical, and field research settings. In addition, numerous community and treatment facilities provide settings for students to observe and participate in the application of psychological principles to the solution of individual and social problems.

In addition to providing a major field of study as part of a liberal arts and science education, the B.S. degree in psychology prepares students for graduate study in psychology. The degree also provides a strong intellectual foundation for a variety of careers in areas such as teaching, counseling, social work, human factors engineering, community planning, sales, management, personnel administration, ministry, law, politics, and various health professions, including psychiatry, nursing, medicine, optometry, public health, and physical and occupational therapy. For information on preparation for these careers, see the Psychology Department Undergraduate website, http://www.uab.edu/cas/psychology/undergraduate

Psychology is an evolving discipline, and after a period of time the material taught in a psychology course is no longer current. For this reason, the Department of Psychology reserves the right to deny credit toward its major and minors for Elementary Statistical Methods (PY 216) and upper level (300 and above) courses completed more than 12 years prior to graduation.

Graduate Program

The Department of Psychology offers programs of study leading to the Doctor of Philosophy (Ph.D.) degree in three areas of psychology: medical clinical psychology (co-sponsored by the School of Medicine), behavioral neuroscience, and lifespan developmental psychology. Although the Master of Science (M.S.) degree is awarded as an intermediate degree in some Ph.D. programs, a terminal M.S. degree program is not offered. Individuals interested in the graduate program should contact the Department of Psychology or the UAB Graduate School.

Bachelor of Science with a Major in Psychology

To qualify for a B.S. degree in psychology, students must complete a minimum of 38 semester hours of courses in psychology and 6 semester hours of coursework in biology, chemistry, or physics, as listed below.

1. BY 111, BY 112, CH 100 and PH 100 may not be taken to satisfy this requirement. Most biology, chemistry, and physics courses that satisfy the Area III Core Curriculum requirement will also satisfy this requirement of the major. It is recommended that students consult with the psychology advisor about this requirement.

2. Completing PY 101 or 201 and PY 212 will also satisfy 6 of the 12 required hours in Core Curriculum Area IV.
Six hours must be taken at the 400 level. The remaining 3 hours may be taken at either the 300 or 400 level. PY 396 Teaching Practicum in Psychology, PY 397 Community-Based Practicum in Psychology and PY 398 Research Practicum in Psychology may not be used to fulfill more than three hours of this requirement.

Grade and Residency Requirement
A grade of C or better is required in all courses applied to the major. At least 15 hours at the 300 level or above, including at least 9 hours at the 400 level, must be completed at UAB.

Additional Requirements

Minor
A minor is recommended but not required for this degree.

General Electives
Students must take general electives to reach the 120 semester hour graduation requirement.

Students are encouraged to assist with ongoing research projects and/or obtain experience with the application of psychology in teaching or community settings. Academic credit may be earned for these experiences. Students may apply a maximum of 3 semester hours of PY 398 (research), and/or PY 396 (teaching), and/or PY 397 (community) to their major and minor requirements. Students preparing to attend graduate school in psychology are strongly encouraged to participate in the Psychology Honors Program, get involved faculty research projects, and develop a strong background in natural sciences, mathematics, and computer science.

Psychology majors may be required to complete a general psychology examination at the time they declare psychology as their major, as well as a second examination upon completion of the course requirements for a B.S. degree in psychology. Although these examinations may be required for graduation, they are intended for program assessment purposes only. Performance on these examinations will not affect students’ grade point averages, nor will they be a factor in determining whether students qualify for the baccalaureate degree.

1 Select One: HY 101, HY 102, HY 104, HY 105, HY 120 or HY 121.
2 Select One: ARH 101, ARH 203, ARH 204, ARH 206, MU 120, THR 100, THR 105 or THR 200.
3 Select One: EH 216, EH 217, EH 218, EH 221, EH 222, EH 223 or EH 225
4 Must include six hours of approved Biology (BY), Chemistry (CH), or Physics (PH) courses.
5 Select One: PY 303, PY 312, PY 313, PY 325, PY 350, PY 353, PY 354, PY 361, PY 363, PY 370, PY 372, PY 380 or PY 390.

A minor is recommended for Psychology Majors.

Minor in Psychology
To qualify for a minor in psychology, students must complete a minimum of 18 semester hours of courses in psychology, as listed below.
Grade & Residency Requirement
A grade of "C" or better is required in all courses applied to the minor. At least six hours at the 300-level or above must be completed at UAB.

Psychology Honors Program

Purpose
Participation in the Psychology Honors Program provides an enriched learning environment for psychology majors with excellent academic records who are interested in pursuing graduate study and a career in psychology, medicine, or other health related professions. The program provides students with a strong foundation in behavioral science through an enhanced program of study and the opportunity to conduct research with an individual member of the faculty. Students who complete the program will qualify for the B.S. in psychology and graduate "With Honors in Psychology."

Eligibility
Students may apply for admission to the program at any time after being at UAB for at least one semester, provided they will attend UAB for at least three additional semesters in order to complete their honors thesis and program-specific coursework (PY 399 and PY 499). Students should submit an application form (available from their psychology advisor or the department website) to the Director of the Psychology Honors Program (mgcrowe@uab.edu), and an interview will be scheduled.

For admission to the program students should have a minimum GPA of 3.50 in psychology coursework, an overall GPA of 3.50 or above (at UAB as well as any transfer institution), and grades of A or B in core English and Mathematics courses.

Requirements
Students in the Psychology Honors program must complete a minimum of 48 semester hours of courses in psychology and 6 semester hours of coursework in biology, chemistry, or physics, as listed below.

Grade and Residency Requirement
A grade of C or better is required in all courses applied to these requirements. Overall GPA, Psychology GPA, and Institutional GPA (courses taken at UAB) must all be at least 3.50 and maintained at a minimum 3.50 to remain in and graduate from the Honors Program. At least 18 hours at the 300 level or above, including all honors and practicum courses must be completed at UAB.
Take PY 399 Psychology Honors Seminar in any three semesters after joining honors program. Take PY 499 Psychology Honors Thesis concurrently with the last enrollment in PY 399. Note that these courses are only offered in the Spring and Fall semesters.

If these classes are completed, students fulfill the requirement of Psychology Capstone and do not take PY 490.

Take at least 5 hours of PY 398 Research Practicum in Psychology hours of and at least 1 hour of PY 396 Teaching Practicum in Psychology or PY 397 Community-Based Practicum in Psychology.

Requirements for the general psychology examination, described above for the major in psychology, also apply to students in the Psychology Honors Program. As psychology majors, honors students have a full-time academic advisor available in the psychology department (Dr. Eric Gamphier); Room 415 Campbell Hall; Telephone: (205) 934-3850; E-mail: redfox@uab.edu

Contact

For more information and an application for admission to the Psychology Honors Program, see the undergraduate psychology web site at http://www.uab.edu/cas/psychology/undergraduate. You can also contact the Honors Program Director, Dr. Michael Crowe, at mgcrowe@uab.edu

Department of Social Work

Chair: Dr. David E. Pollio

The baccalaureate social work program is fully accredited by the Council on Social Work Education and prepares graduates for employment at the beginning level of professional social work practice as well as for graduate-level professional education. The mission is to educate undergraduate students from a social science perspective in both problem-solving skills and social work values to prepare them for generalist practice with diverse populations in an increasingly complex and interconnected world, emphasizing social and economic justice for populations at risk. The program encourages social work career development through affiliation with professional organizations, pursuit of graduate education, and involvement in continuing education.

Students seeking to formally declare Social Work as a major must officially apply to the Social Work Professional program. Upon submitting the application and a signed academic check sheet all applicants are expected to submit a four question essay which will be evaluated by Department of Social Work faculty to determine admission.

Required course work includes acquisition of social work knowledge, values, and skills essential to social work practice, research, and policy. The curriculum culminates with a full-time, one-term field practicum.

No minor is required for social work majors. Instead, selected social and behavioral science courses provide a foundation for the professional courses. These foundation courses include:

ANTH 101 Introduction to Cultural Anthropology 3
AAS 200 or other approved minority studies course 3

These courses must be completed with a grade of C or better. Additionally, students are required to take at least one biology course and laboratory that includes content about human beings (BY 102 or BY 123), also completed with a grade of C or better. This requirement may be taken as part of the Core Curriculum.

---

**Purpose**

The Social Work Honors Program will provide preparation for graduate study or professional careers in Social Work. The program is designed to enhance students’ problem solving skills, critical and independent thinking, and application of research/evidence-based practice.

**Benefits**

- Honors students will benefit from one-on-one mentoring with faculty in the department, professional presentations and exposure which will enhance the student’s understanding of the field and practice of social work;
- Students who complete the program will graduate “With Honors in Social Work.”

**Minimum Eligibility Requirements**

- Completion or currently enrolled in the following required social work courses (SW 100, SW 200, SW 203, SW 222);
- Declaration and acceptance into the social work major (application can be in the process of being reviewed at the time of submission);
- Must have a minimum 3.5 overall GPA and a minimum 3.8 GPA in required social work courses.

**Application Process**

Submit application material to the Department of Social Work office.

The application deadline(s) are as follows:

- Fall Admission: No later than 2nd Friday in March
- Spring Admission: No later than 2nd Friday in November

Submit a “Social Work Honors Program Application” with the following documents:

- A Honors Program Application Form*
- An unofficial copy of transcript
- A recommendation letter from an instructor of SW 100, SW 200, SW 203, or SW 222**
- A resume

*NOTE: The application must be typed.

**A recommendation letter must be sent directly to Ms. Walker (cdwalker@uab.edu)

**Review Process**

- Review of application by faculty members
- Interview with the Honors Program Director

**Requirements**

To complete the departmental honors program, students must earn 10 honors credit hours and must maintain a minimum 3.5 overall GPA and a minimum 3.8 GPA in required social work courses and honors courses through graduation. Honors sections will be offered in the following courses:

- SW 320 Honors (3 credits)
- SW 494 Honors (3 credits)*
- SW 498 (1 credit)**

---

1. Online option is available.

**Grade Requirement**

A C or better is required in all courses applied to the minor.
Department of Sociology

Chair: William Cockerham

Sociology is the scientific study of human social behavior, from the smallest group interactions to the broadest and most complex social processes. As a social science, the discipline analyzes the patterns of behavior in all types of social relationships. This field has broad scope and relevance and can be crafted to best serve a student’s career or post-degree education.

The Department of Sociology offers three majors in sociology: Bachelor of Arts degrees in 1) General Sociology, 2) Social Psychology Concentration in Sociology, and a Bachelor of Science degree in 3) Medical Sociology. Minors are offered in General Sociology, Medical Sociology, and Social Psychology.

The undergraduate program in general sociology is designed to complement UAB’s location in a large metropolitan area. Such a location provides an excellent laboratory for study in several areas, including social inequality and urban sociology, as well as, medical sociology and social psychology. Students may choose from several courses in each of these areas to best compliment their career goals. The general sociology major provides a broad background for students who are not planning a career in sociology but who want an understanding of the nature and development of social structures and social issues-knowledge that can be applied to a variety of occupations and careers. Additionally, the general sociology degree serves as useful pre-professional training for careers such as law, business, education, and government. Finally, the program helps prepare students for graduate study in sociology and other social sciences.

The social psychology concentration provides a perspective on interpersonal relationships that draws on research conducted in sociology and psychology. In the broadest sense, social psychology is the study of how people’s behaviors and thoughts influence, and are influenced by, the actions of others. As a field of study, social psychology has typically focused on the study of persons in face-to-face situations and small group settings. The social psychology concentration prepares students for careers in service-oriented fields such as health professions, education, business, and government, and graduate work in social psychology.

Medical sociology provides an analytic framework for understanding the social contexts of health, illness, and health care. The Bachelor of Science degree in Medical Sociology is a research-focused degree that prepares students for graduate studies in medical sociology or a career in health-related services, medical (social) research, or government data analysis. In addition, when the Bachelor of Science in Medical Sociology is paired with pre-professional medical programs, students are provided with additional rigor in the social dynamics of the careers of their choice (nursing, medical school, and the health professions).

Graduate Program

For information on the graduate program in sociology, please consult the Department of Sociology or the UAB Graduate School Catalog.

Bachelor of Arts with a Major in Sociology

Grade and Level Requirement

- A grade of "C" or better is required in all Sociology courses.
- SOC 489 must be completed at UAB. A total of 9 hours at 400+ must be taken in residence at UAB. Transfer students must earn at least 12 semester hours in residence.

**Requirements**

1. Must choose three of the following: Minority Women's Health, Women's Health, Women and Violence, Human Trafficking, Adolescent Pregnancy, Women and Reproduction, or Women and Sexuality

### Grade and Residency Requirement

Transfer students must take at least 6 semester hours in sociology at UAB including at least 3 semester hours in courses numbered above 300. A grade of C or better is required in all courses applied toward the minor, including transfer courses.

### Minor in Medical Sociology

Medical sociology focuses on study of the social causes and consequences of health and illness. In addition, it analyzes health organizations and institutions, the social behavior of health personnel and consumers of health care, as well as international patterns of health services. It is a particularly relevant minor for students preparing for a career in a health profession such as medicine, nursing, dentistry, or optometry.

A "C" or better is required in all courses applied to the minor. At least six hours of the minor must be completed at UAB, including three hours at the 300-level or above.

Honors Program in Sociology

Purpose
The Sociology Honors Program is designed to help prepare outstanding undergraduate majors for graduate study in sociology or a career in medical sociology. The program offers a mentored research experience, and under faculty supervision, students will be exposed to a wide range of sociological perspectives and research areas.

Eligibility
Acceptance into the Sociology Honors Program requires the following:

- A cumulative GPA in Sociology courses of 3.3 or above.

Requirements
The following is required to graduate with honors in the Sociology Honors Program:

- Completion of the required sociology courses.
- Completion of two-semester Honors seminar 498/499.
- Completion of a senior-level thesis or Service Learning Project or Research Project under faculty supervision.

Benefits
Participation in the Sociology Honors Program provides a unique opportunity for highly motivated, academically talented undergraduate students to have access to and interact with faculty in an environment that encourages creativity and independent scholarship. Seminar participation and research experience will be important to nurturing the student’s sociological imagination. Completion of the Honors Program is an advantage when applying to graduate school or looking for employment in an appropriate discipline-oriented field. Finally, students who complete the program will graduate “With Honors in Sociology.”

Contact
For additional information and/or admission to the Sociology Honors Program, contact:

The Director of Undergraduate Programs
Department of Sociology
460H Heritage Hall Bldg
Birmingham, AL 35294-1152
Telephone: (205) 934-3307

Honors Program in Social Psychology

Purpose
The Social Psychology Honors Program is designed to help prepare outstanding undergraduate majors for graduate study in Social Psychology or a career in medical Social Psychology. The program offers a mentored research experience, and under faculty supervision, students will be exposed to a wide range of sociological perspectives and research areas.

Eligibility
Acceptance into the Social Psychology Honors Program requires the following:

- Completion of the required Social Psychology courses; including Introduction to Sociology, Theory, Research Methods and Statistics (by the end of the fall term of the year the student enters the honor’s program).
- An undergraduate cumulative GPA of 3.00 or above.
- Junior or senior level standing (admittance to Honors Program must take place before August 1).

Requirements
The following is required to graduate with honors in the Social Psychology Honors Program:

- A cumulative GPA in Social Psychology courses of 3.3 or above.
• Completion of the required Social Psychology courses.
• Completion of two-semester Honors seminar 498/499.
• Completion of a senior-level Thesis or Service Learning Project or Research Project under faculty supervision.

Benefits
Participation in the Social Psychology Honors Program provides a unique opportunity for highly motivated, academically talented undergraduate students to have access to and interact with faculty in an environment that encourages creativity and independent scholarship. Seminar participation and research experience will be important to nurturing the student’s sociological imagination. Completion of the Honors Program is an advantage when applying to graduate school or looking for employment in an appropriate discipline-oriented field. Department of Theatre

Chair: Mr. Kelly Dean Allison, MFA
The Department of Theatre subscribes to the philosophy that classroom study and practical experience are complementary and of equal value. A wide array of courses related to the performing arts and film are taught in well-equipped studios and smart classrooms. Production opportunities are available in state-of-the-art production facilities, the Morris K. Sirote Theatre and the Odess Theatre in the Alys Robinson Stephens Performing Arts Center.

Majors
The Department of Theatre offers a Bachelor of Arts (BA) in Theatre, a Bachelor of Fine Arts (BFA) in Musical Theatre, a minor in Theatre, and an individually designed major (IDM) in Film. In addition, students can earn an interdisciplinary minor in Film Studies. The department also offers an honors program for qualified students.

All BA Theatre majors are admitted on a general track. Those who wish to specialize are given the opportunity to audition and interview for one of two pre-professional concentrations: Performance or Design and Production. The general track provides a student with a broad education in all areas of theatre. The pre-professional performance concentration focuses on acting, with an emphasis on movement and vocal training. The pre-professional design and production concentration focuses on developing design and production skills in the areas of scenery, costume, lighting and audio.

The Musical Theatre BFA training program focuses on musical theatre performance skills with 72 semester hours in theatre, music and dance. An audition is required to declare a Musical Theatre major. Auditions are held three times during the academic year starting in November. Enrollment is limited so students who wish to pursue a Musical Theatre BFA are encouraged to audition early.

An Individually Designed Major is a program of study that is tailored to the individual needs of each student and is available to self-motivated students. Film IDM majors normally begin with a common 30 credit hour core of film-related courses. A minimum of fifteen additional credit hours are chosen by students in areas that will prepare them to accomplish their specific career goals. All IDM plans of study require approval from the Department of Theatre Chair and the Dean of the College of Arts and Sciences, as well as consultation with a faculty mentor and an academic advisor in the College of Arts and Sciences.

Theatre faculty provide individual mentoring and advising to help students matriculate and achieve their academic and professional goals. All majors and minors are expected to show progress toward completing university core requirements, participate in department productions, and to be professional both in attitude and actions while representing the department.

Scholarships, Stipends, and Other Financial Aid
In addition to university financial aid, stipends and scholarships are available through the Department of Theatre to qualified students. Students awarded Theatre stipends and scholarships are expected to remain in academic good standing. Department scholarships require an overall GPA of 2.5 and a 3.0 GPA for all Theatre courses. Students with department stipends must maintain an overall GPA of 2.25. For more information, call (205) 934-3236 or visit the department web site at www.uab.edu/cas/theatre.

### Honors Program in Theatre

#### Purpose

The Theatre Honors Program is designed for outstanding students majoring in Theatre. Through mentored work on an individually developed creative project or research topic, students will develop skills in preparation for graduate school or a professional career.

#### Eligibility

Acceptance into the Theatre Honors Program requires the student to:

- Be a Theatre major.
- Have earned a 3.5 GPA in Theatre courses attempted.
• Have earned a 3.0 GPA overall.
• Have completed:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>THR 124 Theatre Technology: Scenery and Lighting</td>
<td>3</td>
</tr>
<tr>
<td>THR 125 Theatre Technology: Costumes and Makeup</td>
<td>3</td>
</tr>
<tr>
<td>THR 154 Beginning Acting</td>
<td>3</td>
</tr>
<tr>
<td>THR 210 Introduction to Theatrical Design</td>
<td>3</td>
</tr>
<tr>
<td>THR 235 Analysis of Dramatic Literature</td>
<td>3</td>
</tr>
</tbody>
</table>

• Have completed 60 hours toward the BA degree.
• Have completed at least two UAB Theatre production practicum.

Requirements

• Completion of required courses for the Theatre major.
• Arrangement with a faculty mentor for a creative or research project.
• Submission of a formal project proposal to the faculty mentor and the Honor’s committee.
• Registration for 3 credit hours of THR 496.
• Public presentation of the honors project.
• Acceptance of the completed project by the faculty mentor and the Honor’s committee.
• Submission of an archival copy of the project to the Theatre Department.

Benefits

In addition to the educational benefits of working on a mentored, individually designed project, honors majors receive a certificate at the Spring UAB Honors Convocation and will graduate “With Honors in Theatre.”

Director of University Honors Program: Michael E. Sloane, Ph.D.

Director of Science and Technology Honors Program: Diane C. Tucker, Ph.D.

The UAB Honors College brings together intellectually curious students from all majors to form a close-knit community of emerging scholars. Our honors courses are designed to prepare students to communicate effectively in written and oral form, demonstrate critical thinking skills, integrate knowledge across domains, participate effectively in team endeavors, and function as ethical citizens of communities.

All UAB Honors College students benefit from the following:

• Innovative honors seminars
• Honors sections of core and elective courses
• Unique experiential learning opportunities in service learning, undergraduate research, and study abroad
• Special speaker series, discussion groups, and student activities
• Smaller class sizes
• Additional academic advising
• Optional honors housing
• Honors New Student Retreat

Honors Student Leadership

Leadership development is an integral part of the honors student experience. UAB Honors College offers opportunities for students through workshops, coursework, and events throughout the year. In addition, we offer three formal student leadership groups:

• Honors Ambassadors: A highly selective group of outstanding honors students. Honors Ambassadors are our official representatives and participate in a number of activities and events that connect visitors and other constituents of the UAB community – prospective students and their families; current students and alum/ administrators; faculty; and staff – to the UAB Honors College.

• Honors College Leadership Council (HCLC): Elected representatives of the Honors College student body, the HCLC leads efforts to advocate for the needs of the honors community, promotes the visibility of the Honors College both on and off campus, and seeks to foster a sense of community within the Honors College. The HCLC plans service, social, and educational events for all honors students.

• Honors Resident Assistants: Selected by both UAB Honors College and UAB Housing and Residence Life, Honors RAs live with our first-year students in the New Freshman Residence Hall. They help honors students adjust to college life and create community among new students.

Honors Faculty Fellows

UAB Honors College established our Honors Faculty Fellows program in 2016 to create stimulating academic enrichment experiences and enhance community. Faculty members are nominated and selected each summer. Recent Honors Faculty Fellows activities include a science fiction book club, an honors running club, and monthly seminars on timely topics (e.g., deception in politics, the minimum wage, gun violence).

Curriculum

UAB Honors College students can either pursue our Personalized Pathway or choose one of our Specialized Programs in global and community leadership (GCL), science and technology (STH), or interdisciplinary arts and sciences (UHP). We encourage students to visit http://www.uab.edu/honors for additional information on the Personalized Pathway and Specialized Programs. In addition, many of our honors students participate in departmental (major-specific) honors programs or Fast Track Fifth Year Master’s Programs. When possible, we also offer opportunities for students to take special seminars typically available only to graduate students. These enhanced curricular and co-curricular opportunities are designed to stimulate high-ability students, build community, and prepare students to accomplish their long-term goals.

UAB Honors College Admission Requirements

Incoming Freshmen:

In order to be admitted to the UAB Honors College, students must first be admitted to the University of Alabama at Birmingham. Following general university admission, there are two paths for incoming freshmen to join the UAB Honors College:

- **Invitation** – Admitted students with a minimum ACT score of 28 or SAT score of 1260 and a 3.5 GPA will receive an invitation in the mail to join the UAB Honors College. Students who join the UAB Honors College prior to January 15 will have the option of applying to specialized programs in science and technology, interdisciplinary arts and sciences, and global and community leadership. All students offered admission into the UAB Honors College or its programs must confirm their enrollment online no later than May 1 of their senior year.

- **Application** – Students who do not meet the standardized test score or GPA requirements must submit an application in order to be considered for admission. A committee of faculty and staff will review these materials and notify students of their admission status.

To learn more about enrolling in the UAB Honors College, please visit http://www.uab.edu/honorscollege/.

Current and Transfer Students:

Current UAB students and transfer students may be eligible for admission into the UAB Honors College, provided that they have earned at least 12 hours of credit with a minimum 3.5 collegiate GPA. All current and transfer students must earn at least 18 credits of honors-level coursework during their time at UAB. Prospective current and transfer students should contact the Office of Honors Advising and Retention at honorsadvising@uab.edu to discuss possible admission into the UAB Honors College based on their existing academic profiles and future trajectories.

Continuation in the Honors College

UAB Honors College students are required to maintain a **3.0 cumulative UAB GPA** to remain in good standing. Each student's academic record is evaluated at the end of fall and spring semesters and any student who falls below the minimum requirement will be placed on immediate probation. A student on probation will be required to meet with an Honors College advisor or the director of their program to discuss the student’s action plan to raise the cumulative UAB GPA to at least 3.0. Students on probation have up to one year to raise their UAB GPA at least 3.0. The probation period ends when a student’s GPA rises to at least 3.0 or after 1 year has elapsed.

Continued failure to meet minimums after the one year probationary period will result in suspension from the Honors College. Suspension includes the loss of all privileges associated with being an honors student, including priority registration and honors graduation designation. In rare circumstances, a student may appeal to the Dean of the Honors College for an extension of the probation period or for reinstatement. Additional requirements may be required by individual honors programs for students to remain in good standing.

Honors-Level Courses

All UAB Honors College students must complete a minimum of 18 credit hours of honors-level coursework to graduate with **Distinguished Honors**. Students who choose to earn 30 or more honors credits will graduate with **High Distinguished Honors**. Specific requirements for our Personalized Pathway and our Specialized Programs are detailed in these sections. Honors credits can be earned in the following ways:

1. Courses offered with an HC prefix
2. Courses offered with an STH, HON, or GCLH prefix
3. Honors-level course sections offered through academic departments
4. Honors by Contract*
5. Courses required for departmental honors programs

*Honors by Contract* allows students to augment their experiences in standard courses. Within the first two weeks of the semester, an interested student should meet with a faculty member to devise an honors contract. Contract details vary, but they share a commitment to academic excellence above and beyond the minimum requirements for the course. Some faculty may require additional readings, labs, papers, or research. Others may ask students to complete qualitatively different work while maintaining the same quantity of assignments. Once the faculty member and student have agreed on the contract, they both sign an Honors by Contract form which the faculty member submits to the UAB Honors College. Forms are due no later than the second week of the semester the student is enrolled in the course.

Commitment to Excellence

Honors College admission is a noteworthy achievement, recognizing not only demonstrated academic excellence but also potential for future success. The UAB Honors College is a scholarly community comprised of students, faculty, and staff who commit themselves to high standards of intellectual and personal integrity. As such, honors students should be among the most respectful, hard-working participants in any classroom. They should challenge themselves to think in new ways and to remain open to insight from others. In addition, they should be ethical community members continually looking for ways to serve their peers, the campus, and the local community.

Personalized Pathway

The UAB Honors College is dedicated to innovative courses, hands-on experiential learning, service learning, and – most importantly – the individuality and diversity of our brilliant students.

Those learning experiences – and those unique students – just don’t fit into the standard college curriculum. Some of our students pick up second majors or interesting minors, or they incorporate electives from multiple programs to give them a more well-rounded education. Others create individualized majors that reflect their unique mosaic of interests. To make sure their curiosity is fed, their passion is pursued, and their
fire stays stoked, we guide our students in charting their own course with their own personalized curriculum.

**Benefits**

Working with an honors advisor each semester, students pursuing a Personalized Path develop their interests and talents into goals. Then they work together to create a personalized curriculum that will take them places no standard, one-size-fits-all curriculum ever could. One of the greatest benefits to the Personalized Path is its flexible and customizable curriculum. Rather than being told which honors courses to take each semester, students constructing a Personalized Path choose from an array of more than 30 honors courses each term. And when students discover new interests, their honors advisors help them identify honors coursework and experiential learning opportunities that align with those new passions.

**Coursework**

In a Personalized Path, honors students take a mixture of honors seminars, honors sections of core and elective courses, honors experiential learning courses, and honors by contract. These classes are smaller in size (maximum of 25 students per section) and provide students with uniquely engaging curricular experiences.

- **Honors Freshman Seminar:** These multidisciplinary seminars, designed for first year students, cover topics not typically offered at UAB and are taught by some of our most outstanding faculty. Students choose from 10-15 topics each fall. Prior examples include: Media and Society; Healing: Ritual, Relationships and Faith; Justice for All? Education and Opportunity in America; Design Thinking for Innovators; and Health and Humanity: Being a Global Leader.
- **Honors Core and Elective Courses:** Enhanced sections of regular courses that provide students with a high level of engagement and critical thinking.
- **Honors Experiential Learning Courses:** Students may participate in individual projects in service learning, research, internships, or education abroad. The UAB Honors College also offers specific experiential courses, including recent study abroad courses in the Netherlands and Cuba.
- **Honors by Contract:** Students may work individually with a faculty member to enhance a standard course with academic work going above and beyond the common requirements of the class.

**Community**

Students pursuing a Personalized Path are immersed in the UAB Honors College community through activities each semester organized by our student leaders, advisors, and Honors Faculty Fellows. Even before classes begin, the Honors College offers orientation dinners and an Honors New Student Retreat to introduce students to one another and prepare them for success at UAB. Once on campus, our Honors RAs facilitate monthly programming in the residence halls, and students receive a weekly newsletter making them aware of college-wide service opportunities, social events (e.g., Holiday Soiree, Spring Ball), and professional development workshops. Students also have access to exclusive space for studying and spending time with friends.

**Honors-Level Courses**

UAB Honors College students on our Personalized Pathway must complete a minimum of 18 credit hours of honors-level coursework in order to graduate with Distinguished Honors. Students who choose to earn 30 or more honors credits will graduate with High Distinguished Honors.

Honors credits can be earned in any of the following ways:

1. Courses offered with an HC prefix
2. Courses offered with an STH, HON, or GCLH prefix
3. Honors-level course sections offered through academic departments
4. Honors by Contract*
5. Courses required for departmental honors programs

*Honors by Contract allows students to augment their experiences in standard courses. Within the first two weeks of the semester, an interested student should meet with a faculty member to devise an honors contract. Contract details vary, but they share a commitment to academic excellence above and beyond the minimum requirements for the course. Some faculty may require additional readings, labs, papers, or research. Others may ask students to complete qualitatively different work while maintaining the same quantity of assignments. Once the faculty member and student have agreed on the contract, they both sign an Honors by Contract form which the faculty member submits to the UAB Honors College. Forms are due no later than the second week of the semester the student is enrolled in the course.

**Honors Seminar**

Students are required to complete an honors seminar during their first year in the Honors College. Available seminars will be communicated each semester through the honors advisors.

**Experiential Learning**

Students are required to complete a minimum of one experiential learning course at UAB. These courses may include service learning, study abroad, research, or internships.

**Specialized Programs**

Not all Honors College students choose a personalized pathway — some find a perfect academic fit in one of our three specialized honors programs. The Global and Community Leadership Honors Program (p. 262), Science and Technology Honors Program (p. 262), and University Honors Program (p. 265) lay out a curriculum of courses and experiences to thoroughly explore global leadership, science and technology, or interdisciplinary arts and sciences.

Once students have been admitted to the UAB Honors College, they may apply to one or more of the specialized programs. Admission to these programs is competitive, and students must submit an additional program application no later than January 15.

**Experiential Learning Scholars Program**

Based on the outstanding success of this pilot program, the UAB Honors College now incorporates experiential learning for all honors students, and we are no longer accepting applications for this program.

**EL 199. Honors Experiential Learning Plan. 0 Hours.**

Provides an opportunity for a customized learning plan to integrate the student’s values, goals, academic plan to include but not limited to applicable and relevant research, service learning, and study abroad experiences.
Global & Community Leadership

Students in the Global and Community Leadership (GCL) Honors Program know that they’re members of a community — not just a local one, but a global one. Social justice issues like educational disparities, poverty, food insecurity, environmental degradation, and health care access touch lives in every country, in every big city and small village, at every socioeconomic level. GCL prepares honors students to explore, understand, and take a leadership role in addressing those issues and making lives better.

Vision

Through the GCL Honors Program, students combine their academic interests and personal passion to be transformational leaders for the 21st century.

Mission

The GCL Honors Program challenges students to think critically about how they can be good citizens of communities. GCL students gain appreciation of diverse perspectives and practice applying knowledge to community development.

Values

• Participatory citizenship
• Ethical leadership
• Creative problem-solving
• Effective communication

Community

GCL students are a tight knit community of students wanting to make the world a better place. Our elected student Leadership Council for GCL plans monthly global and community education and outreach events, service projects, and social activities that are open to all UAB Honors College students.

Application

For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honors. GCL is intentionally flexible and is available for students to enter as late as the third year.

Coursework

GCL students must complete a minimum of 18 hours of designated honors coursework to graduate with Distinguished Honors in Global and Community Leadership; students may complete 30 hours of honors coursework to graduate with High Distinguished Honors in Global and Community Leadership.

Required GCL coursework

12 hours of designated GCL honors coursework:

- Honors Seminar HC 110-120 (3 credit hours) — Seminar on a topic related to GCL’s mission, topics vary annually
- Burning Issues: GCLH 150 (3 credit hours) – Overview of various issues facing society (e.g., human rights, sustainability, healthcare access, educational reform). Course includes guest speakers, topical readings, and significant reflective writing. Ultimately, students will identify an issue that ignites their passion – their “burning issue.”
- Fanning the Flame: Variable courses (3 credit hours) – Student will select a course that provides further exploration of the student’s “burning issue.”
- Stoking the Fire - Leadership in Action: GCLH 350 (3 credit hours) – Students will learn, develop, and put into practice a pragmatic skill set for management and operations in social change leadership.

Six additional hours of honors coursework:

Students should take the remaining hours from approved honors courses relevant to GCL’s mission. GCL administration will designate appropriate honors courses for GCL students each semester, and students will choose the courses that are most applicable to their own passions and goals.

For students who choose to earn 30 hours of honors credit, the additional 12 hours of honors coursework can be earned through non-GCL specific honors seminars, honors sections of core courses, honors by contract, and/or school/departmental honors programs.

Experiential Learning

GCL students are required to complete a minimum of one experiential learning course at UAB. These courses may include service learning, study abroad, research, or internships. If taken for honors credit, the experiential learning course may help fulfill the honors requirement. If not taken for honors credit, the course will not be applied to the total number of honors credit hours but can still satisfy the experiential learning requirement.

Science and Technology Honors Program

Program Director: Diane C. Tucker, Ph.D.
Associate Directors: Joe L. March, Ph.D., and Joel L. Berry, Ph.D.
Program Manager: Clay Walls, B.A.

The Science and Technology Honors Program at UAB revolutionizes the undergraduate experience. Acceptance to the program places students in the company of fellow scholars and world-renowned researchers. Science and Technology Honors (STH) students synthesize ideas from multiple disciplines to tackle real, meaningful scientific problems. The unique, four-year STH curriculum of coursework, seminars, mentored research, and leadership challenges builds community and sharpens scientific thinking.

This unique program is the only one of its kind in Alabama. It is designed for the best and brightest students whose academic and extracurricular
achievements demonstrate intellectual curiosity, energy, creativity, and leadership abilities. Graduates of the STH Program are well prepared for graduate study at the Master’s or Doctoral level as well as for professional school.

Mission

To prepare scientific leaders of the next generation by engaging students in interdisciplinary classroom, leadership, research, and innovation experiences which culminate in the dissemination of new scientific knowledge.

Vision

- UAB’s Science and Technology Honors Program will recruit a diverse group of talented undergraduate students, involve faculty from across the university as teachers and mentors, and provide a unique educational experience for students.
- Through interdisciplinary courses and laboratory research experiences, STH students will be exposed to the power of integrating multidisciplinary approaches and will apply this perspective to research and innovation problems.
- STH students will be trained in scientific thinking and communication and will conduct and disseminate original research or scholarship under the supervision of a faculty mentor.
- STH graduates will be well prepared for graduate and professional study and will show evidence of leadership in academic, economic, and policy areas related to science and technology during their careers.

Benefits

Students in the STH Program work closely with research faculty and participate in original scientific research. During the first two years, the program prepares students with the knowledge and skills they need to get started in research. Beginning as early as the freshman or sophomore year, students work closely with a faculty mentor on an individualized project, learning about research and innovation through apprenticeship. STH students are encouraged to attend national conferences and to publish their research in scientific journals.

The program is a closely knit community with approximately 50 undergraduate students admitted each year. The small number encourages collaboration among students, interaction with faculty, and sharing of ideas. Students receive priority registration and take science and technology focused sections of core courses such as English Composition II (EH 102). In addition, STH students can earn graduate credit, providing an advantage when pursuing an advanced degree.

Coursework

The academic portion of the Science and Technology Honors Program builds upon UAB’s research strengths in science and technology. Special interdisciplinary courses such as Introduction to the Scientific Process (STH 199) and the Interdisciplinary Seminar (STH 299) examine topics from many scientific and technical perspectives, illustrating how scientists integrate multiple fields of study when approaching research and development questions.

Students discover the methodologies and techniques used in a variety of research areas, including biology, cell biology, chemistry, molecular genetics, computer and information systems, engineering, neuroscience, psychology, physics, and more. In their Research Approaches (STH 201) course, students get hands-on experience in laboratory techniques and generate original data for presentation at the UAB Expo.

Exclusive seminars put students face to face with UAB’s best known researchers who share their insights and experiences from the lab and the field. The entire curriculum is designed to encourage independent thinking, questioning of ideas, innovative problem-solving, and skill in scientific communication. STH coursework also integrates seamlessly with honors programs in science and technology majors.

The program culminates in a two-year intensive research experience under the direction of UAB faculty. Students build upon the methods they have learned in their courses and seminars to propose and conduct an independent research or innovation project in collaboration with their faculty mentor. This project becomes the student’s Honors Thesis. The Honors Thesis is prepared for publication in a scientific journal and for presentation at a national conference. Thus, many STH students will both publish a scientific paper and present at a national conference before graduating from UAB. Students in the program must complete 30 hours of honors coursework, which includes 13 hours of Science and Technology Honors courses and at least 6 hours of independent research under the direction of a faculty mentor to complete their Honors Thesis research. Honors versions of many core courses have been developed and can contribute to the 30 hours of honors credit required.

The Honors Thesis may also take the form of a capstone or clinical innovation project developed in consultation with and approval of the program director.
- A capstone project draws together students’ experience and is useful for students planning career paths other than bench research. Students will delineate the scope of the project, resources needed, and the anticipated product. The project could be proposed by a team of students with the scope adjusted and the expectation that several students will contribute.
- The clinical innovation pathway allows students to develop expertise in applied innovation within medical settings through a series of courses that provide exposure to clinical settings and guide them through a client-centered design process. The final product may include a working prototype, patent application, or business plan, depending on the scope of the proposed project. Students will have the option to develop an idea into a project either as an individual or as part of a team.

Who Should Apply

This program is best suited for students who are intensely curious about science and excited about the prospect of becoming a generator of new knowledge in their field. In addition to curiosity about science, successful applicants generally have a strong academic record and plan to pursue a career in science or technology. STH students typically have a GPA of 3.5 or higher in their high school academic courses and ACT or SAT scores at or above the 90th percentile in math and science. Because the program values diversity and strives to accommodate talented students, applications are reviewed individually and invited applicants are personally interviewed.

Students interested in applying to STH must first be admitted to the UAB Honors College. Following admission to the College, interested students may then submit an application to the STH Program. This application and two letters of reference must be received by January 15 of the student’s
senior year of high school. For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honorscollege/.

**STH Signature Courses**

Each student in the program takes the following STH Program coursework during their first two years in the program to prepare for their independent research experience.

**STH 199 Introduction to the Scientific Process.** Fall semester of freshman year. Students work in teams to analyze current scientific problems under investigation by UAB faculty, learning about how scientists approach problems and conduct their research, including ethics and institutional review of human and animal research.

**STH 201 Research Approaches.** Spring semester of freshman year. Systematic training in foundational research methodologies and opportunity to application of the methods in research laboratories. Students choose among biotechnology training, advanced chemical analysis, or engineering design and materials analysis.

**STH 299 Interdisciplinary Seminar.** Fall semester of sophomore year. This course illustrates the synergy achieved by interdisciplinary analysis of problems. Example topics include High Voltage Innovation, Neurobiology of Learning and Memory, Energy Generation and Conservation, Disorders of the Central Nervous System, and Creating a Culture of Sustainability.

**STH 301 Statistics and Design Overview.** Spring semester of sophomore year. Introduction to principles of research design and statistical analysis, including a statistics laboratory for hands on experience. Students may satisfy the statistics requirement by earning credit for an equivalent statistics course approved by the STH program director, e.g., PUH 250, PY 216, or MA 180. Alternative credit through AP or IB may also be accepted.

**Curriculum**

To graduate with High Distinguished Honors in Science and Technology, students must complete a minimum of 30 semester hours of honors coursework including the following courses:

- **a** Students must take an honors section of EH 102 focused on scientific communication and technical writing, usually either in the fall or spring semester of the first year, depending on whether they come to UAB already having earned credit for EH 101. Students who come to UAB having earned credit for both EH 101 and EH 102 should take this course cross-listed at the 200-level as EH 202, usually in their first semester.

- **b** Students may satisfy the statistics requirement by earning credit for an equivalent statistics course approved by the program director, e.g., PUH 250 Biostatistics, PY 216 Elementary Statistical Methods, or MA 180 Introduction to Statistics. Alternative credit through AP or IB may also be accepted.

- **c** Students may substitute no more than three (3) of the six (6) required research credit hours with equivalent research credit course(s) in the department of their major with approval of the program director, e.g., BY 398, CH 497, BME 494, PY 398, NBL 398, PH 498, CS 398, MA 398, or BMD 497, for STH 398 and/or STH 399 which will also be counted towards their cumulative total of 30 honors hours.

- **d** Students completing a capstone or innovation thesis instead of a traditional research thesis may substitute STH 394 and/or STH 397 instead of research credit hours. The number and type of hours needed to fulfill this requirement will depend on the thesis plan developed with and approved by the program director. In all cases, a cumulative total of 30 credit hours of honors coursework must still be earned.

University Honors Program

Program Director: Michael E. Sloane, Ph.D.
Associate Director: William J. Rushton, IV, Ph.D.
Program Manager: Donna Andrews, M.P.A.
Student Counselor: Rebecca Freeman, M.A.

The University Honors Program draws on the wide range of resources available at a comprehensive research university and concentrates those resources within a small, personal, liberal arts setting. Designed for students who want to satisfy their intellectual curiosity both inside and outside the classroom, the program accepts about 50 students a year representing a wide variety of disciplines, backgrounds, and interests. The program offers an innovative, interdisciplinary arts and sciences curriculum taught by faculty who are known for their excellence in teaching and scholarship. Without delaying progress toward a degree, the University Honors Program provides students an opportunity to participate in a community of committed scholars, to form close relationships with faculty, to explore new ideas, and to share their ideas and interests in the friendly confines of the Spencer Honors House.

Benefits

Students in the University Honors Program (UHP) receive a more intensive and innovative education that consists of a 33 credit hour interdisciplinary arts and sciences curriculum that replaces a student’s regular core curriculum without adding any additional time to degree completion. Students take two, nine-credit hour interdisciplinary courses and five UHP honors seminars on topics not offered in the regular academic departments. Since the five UHP honors seminars are capped at 16 UHP students, they get to know their instructors and other students very well, providing a sense of community and identity within the larger university context. UHP students have the opportunity to develop their leadership skills by involvement with several student-lead UHP committees and university-wide organizations and initiatives. UHP students receive priority registration and are typically involved in undergraduate research mentored by renowned faculty.

The Spencer Honors House, with all of its facilities, belongs exclusively to students in the UHP and is accessible to them at all times. UHP students have the opportunity to participate in a wide variety of cultural, social, and scholarly events and are funded to present their research at state, regional, and national honors conferences. After completing the program, students graduate with a special designation on their transcripts. In addition, UHP students are recognized annually at the UHP Honors Day ceremony. Graduation from the UHP, with its broad interdisciplinary arts and sciences curriculum gives students a distinct advantage when applying for national awards and scholarships as well as graduate or professional schools.

Spencer Honors House

The center of identity and community for the University Honors Program is the Spencer Honors House, located on campus in the spacious and attractive environment of the Old Church at 1190 10th Avenue South. All instructional and social activities of the University Honors Program take place there. The Spencer Honors House is also available for day-to-day use by UHP students for recreation, studying, meeting, and relaxing. The facilities include a kitchen, lounge areas, library, computer clusters, and pool and Ping-Pong tables. The offices of the director, associate director, program manager, and student counselor are also located in the Spencer Honors House.

Scholarships

The Hess-Abroms Honors Scholarships, awarded annually, are valued at $24,000 each and provide $6,000 per year. Application is open to incoming freshmen. The award is based on superior academic achievement, creativity or talent, strong motivation, character, and intellectual promise. Application materials are made available at the time of interview. The University Honors Program also has a number of smaller ($1,000-$2,000) annual scholarships that are awarded in May each year. Students who have committed to entering the program can apply for these scholarships that are distributed based on merit and need.

Application

For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honorscollege/.

Honors Coursework

Instead of the 41 semester hours of Core Curriculum requirements, students in the University Honors Program take 33 semester hours of honors coursework and three semester hours in mathematics. In addition,
they participate in a variety of special events, most of which are centered in the Spencer Honors House. While in no way delaying progress toward a degree or interfering with commitment to a major, the University Honors Program provides a stimulating range and depth of scholarly pursuits within an interdisciplinary arts and sciences context. Students have frequent individual contact with the teaching faculty and have unusual opportunities for independent projects and research.

Honors students have two options for completing their 33 semester hours in honors:

- Two 9-semester-hour fall-semester interdisciplinary honors courses plus five 3-semester-hour honors seminars (only two of which can be related to the student’s major or minor); or
- Two 9-semester-hour fall-semester interdisciplinary honors courses, a minimum of three 3-semester-hour honors seminars (not related to the student’s major or minor), and up to six semester hours of departmental honors coursework within the student’s major (with the total number of semester hours adding up to 33).

The interdisciplinary honors courses are offered during the fall semester and are open only to University Honors students. These courses are team-taught by faculty members (usually six) from different schools in the university and by guest lecturers from the medical center, the business, and other areas. Each interdisciplinary course is organized thematically and designed to cover a broad range of material so the student is introduced to all areas covered by the Core Curriculum and to a wide variety of other areas as well. Topics of past interdisciplinary courses have included "Minds and Realities," "In Search of Human nature," "It's About Time," and "The Anatomy of Desire." As part of the course, each student works on an independent project related to the central theme. Since instructors are committed to full-time teaching of this course, students receive ample advice and guidance on their projects.

The University Honors program offers about 18-20 different honors seminars each year. Some are cross-listed in other departments and so are open to all students at UAB. These seminars are offered during the fall semester, spring semester, and summer term and are limited to 16 students. Honors seminars are available in a variety of different fields and focus on issues that are of major interest within the field and also have implications and applications beyond it. Examples of honors seminars which have been taught are "Ethnographic Filmmaking," "China’s Next place," "Cognitive Brain Imaging," "Philosophy, Psychology, and the Economics of Happiness," "Existentialism and Modern Literature."

### Additional Information about the Curriculum Core Requirement in Mathematics

In addition to the honors coursework, University Honors Program students must fulfill the mathematics requirement of Area III of the Core Curriculum.

### Credit for Participation in Honors

Students may receive up to three semester hours of credit, graded on a pass/fail basis, for participating in the range of special events sponsored by the University Honors Program. Those events include:

- The monthly lecture
- First Thursday Lecture series
- Afternoon receptions for visiting speakers

### Credit for Community Service

Students may receive up to three semester hours of credit, graded on a pass/fail basis, for completing long-term service projects. Available projects are announced before each semester and typically include:

- Work at a recycling center
- Homeless shelter
- Public school

As well as regular meetings to reflect on these service projects.

### Independent Study

Students may propose an internship or independent study project in place of one seminar. An example of such a project is an internship at city hall, leading to a policy proposal on some area of city government. Proposals for these projects must be approved by the Honors Council.

### Honors Research

Students can register for one, two, or three credit hours of Honors Research, and receive a letter grade for their research. Students arrange for a research mentor and conduct a project under the guidance of a faculty mentor.

### Continuation in the Program

A student who leaves the University Honors Program for any reason will receive full credit toward graduation for all coursework completed in the program. The director of the University Honors Program will designate which of the Core Curriculum requirements have been fulfilled by the individual student’s honors coursework. In addition to the UAB Honors College’s requirement to maintain a 3.0 cumulative UAB GPA, UHP students are expected to maintain a 3.0 average in University Honors Program coursework.

**School of Education**

**Dean:** Deborah L. Voltz

The School of Education offers a wide range of educator preparation degrees and teacher certification options as well as non-teacher education majors, concentrations, and minors.

**Educator Preparation Options.** The School of Education offers educator preparation options that are fully approved by the Council for the National Council for Accreditation of Teacher Education and the Alabama State Board of Education (ALSBOE). These options lead to Bachelor of Science degrees and Alabama teacher certification in early childhood and elementary education, high school (secondary) education, and kinesiology (physical education). The School of Education also collaborates with the College of Arts and Sciences to offer pathways to teacher certification in a wide range of teaching fields, including music, science, and mathematics.

**Kinesiology, Community Health and Human Services Preparation Options.** There are several non-educator preparation options available for individuals seeking degrees at the undergraduate level. These degrees prepare students for employment in a variety of wellness, health, and fitness and sports (community, commercial, clinical, and corporate) agencies/facilities and/or admission to health-related graduate programs (e.g., physical therapy, medicine, occupational therapy). Degrees, majors, concentrations, and minors are available in community health, human services and kinesiology.

**Non-Teacher Certification Programs**

At the undergraduate level, students may complete non-teacher certification concentrations in the following areas:

Office of Clinical Experiences

The Office of Clinical Experiences is responsible for coordinating student teaching and other clinical experiences for the School of Education. Information concerning student teaching applications, placement, and field experiences may be found in Suite 232 in the Education Building.

Office of Student Services

The Office of Student Services is located in Suite 232 in the Education Building, provides academic advising to undergraduate Education majors. This office is also responsible for academic records and recommendations for teacher certification for the School of Education. Application materials for the Teacher Education Program and for Alabama teacher certification can be found at http://www.uab.edu/soestudent-services/.

Alabama teacher certification programs and basic degree requirements vary among majors. Students should contact this office early in their studies to be certain they will meet School of Education requirements and Alabama Department of Education teacher certification requirements. The Alabama State Department of Education sets requirements for teacher education majors. Changes to these requirements may occur periodically so students should meet with their academic advisor at least once per semester to receive the most updated information about the Alabama State Department of Education requirements.

Honors Program in Exercise Science and Fitness Leadership

The Department of Human Studies offers an Honors Program for Exercise Science and Fitness Leadership students. Highly qualified students will have the opportunity to work one-on-one with a mentor in an area of mutual interest and conduct either a research or civic engagement project designed to meet some particular need as it relates to pertinent areas of fitness, exercise, and physical activity. For more information go to: http://www.uab.edu/education/student-services/current-students/get-involved/honors-program.

Honors Program in Early Childhood and Education

Students in the Early Childhood and Elementary Honors Program graduate with departmental honors that will be designated on their transcripts and recognized during commencement exercises. In order to become eligible for this designation, students must meet the following criteria:

- Demonstrated commitment to Early Childhood and Elementary Education.
- Junior standing and the completion of nine (9) hours pre-professional education courses from ECY 300, EEC 300, EEC 301, EDF 362, and EPR 363.
- 3.5 GPA in Education courses taken, 3.0 GPA overall.

In order to participate in the Honors Program and graduate with "Honors Designation", students must file an application with the Office of Curriculum & Instruction (Room 100) following an invitation from the respective program area. Following acceptance, students must enroll and complete the following two Education Honors Courses: EDH 491 - Honors Education Research and EDH 492 - Honors Education Service Project. Students must maintain an overall GPA of 3.0 or above and 3.25 in education courses through graduation.

EDH 491 - Education Research. Prerequisite: admission into the EEC Honors Program.

EDH 492 - Honors Education Service Project. Prerequisite: admission into the EEC Honors Program and completion of EHS 491.

Admission and Program of Student Requirements

Admission and program of student requirements for all undergraduate degrees, majors, and concentrations may be located at http://www.uab.edu/education/student-services/admissions/checklists/undergraduate/bachelors

TEP Retention Requirements

A student may be dropped from the Teacher Education Program for failure to maintain satisfactory academic performance or professional dispositions as described by School of Education policy. Consistent with UAB policy on readmission, students readmitted to UAB must complete all program requirements, including TEP admissions and retention and completion requirements as outlined in the catalog under which they are officially readmitted.

1. Additional retention requirements by program:

   a. Early Childhood/Elementary Education

      i) Grade of "C" or better in all Pedagogy I courses (EDR 440, EEC 402, EEC 405, EEC 406, and EEC 494) and a GPA of 3.0 or higher in the Pedagogy I courses.

      ii) Grade of "C" or better in all Pedagogy II courses (EEC 412, EEC 413, EEC 414, EDR 443, and EEC 494) and a GPA of 3.0 or higher in the Pedagogy II courses.
Student Teaching Requirements

All students seeking baccalaureate degrees leading to teaching certificates must participate in a student teaching internship. All students must apply for student teaching by January 31 of the academic year that precedes student teaching. Applications are available online at the School of Education website, Office of Clinical Experiences. For additional information contact the Office of Clinical Experiences in Suite 232 of the Education Building.

To be eligible for this internship, students must have an approved student teaching application based on the following:

**Early Childhood/Elementary Education:**

1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the Early Childhood/Elementary program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.30 in all Teaching Field courses.
8. Passing score on all three parts of the Alabama Educator Certification Testing Program (AECAP).
9. Passing score on all parts of the Praxis II: Elementary Education Multiple Subjects.
11. Passing score on Praxis II: Teaching Reading.
12. Passing score on Praxis II: Principles of Learning and Teaching K-6 or the edTPA.
13. Demonstration of the dispositions needed to be successful as a teacher of young children, including children with special needs.
14. Documentation of requisite field experience hours in schools.
15. Criminal history background check status shown as "cleared" on the Alabama State Department of Education database.

Students approved to teach in Early Childhood/Elementary Education must be concurrently enrolled in EEC 491 Internship in P-3/3-6 and EEC 490 Internship Seminar in P-6 Education.

Students cannot take additional coursework besides these two courses during the term in which they student teach.

**Kinesiology: (Physical Education):**

1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the Kinesiology program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.75 in all Teaching Field courses.
7. Completion of all teaching field courses (KIN 307, KIN 308, KIN 311, KIN 320, KIN 320L, KIN 400, KIN 402, KIN 409, and KIN 489) with a grade of "C" or better.
8. Passing score on the Praxis I.
10. Passing score on Praxis II: Principles of Learning and Teaching K-6 (Code 5622) or Praxis II: Principles of Learning and Teaching 7-12 or the edTPA.
11. Demonstration of the dispositions needed to be successful as a teacher.
12. Documentation of the requisite field experience hours in schools.
13. Criminal history background check status shown as "cleared" on the Alabama State Department of Education database.

**High School and Middle School Education:**

1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the High School Education program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.75 in all Teaching Field courses.
7. Completion of all coursework. In some instances, a student may be allowed to take a teaching field course during the semester that immediately follows the student teaching semester. Students should regularly consult with their advisor to plan their program so that all teaching field courses are completed prior to student teaching.
8. Passing score on all three parts of the Praxis I.
9. Passing score on the appropriate Praxis II Subject Assessment.
10. Passing score on Praxis II: Principles of Learning and Teaching 7-12 or the edTPA.
11. Demonstration of the dispositions needed to be a successful teacher of middle and high school students, including students with special needs.
12. Documentation of requisite field experience hours in schools.
13. Criminal history background check status shown as "cleared" on the Alabama State Department of Education database.

Students approved to teach in Secondary Education must be concurrently enrolled in EHS 490 Secondary School Student Teaching I and EHS 489 Internship Seminar in Secondary Education. Students cannot take additional coursework besides these two courses during the term in which they student teach.

**TEP Completion and Certification Requirements**

A student who satisfies TEP admission and retention requirements and who meets the following completion requirements will be recommended for "Class B" teacher certification. Students must apply for certification. Certification application packets are available on the School of Education-Office of Student Services website www.uab.edu/soestudentservices, and should be completed and returned to the Office of Student Services, Suite 232, Education Building during the semester of program completion.

1. Students must have a minimum 2.75 higher education GPA, 2.75 teaching field GPA, and 2.75 professional studies GPA with no grade below "C" in professional studies courses.
2. Students must complete all courses on the Alabama State Board of Education approved checklist for the teaching field(s) in which certification is sought.
3. Students must demonstrate readiness to teach through on-the-job performance as a student teacher. This evaluation is conducted by
the School of Education faculty and appropriate personnel from local school systems.

4. Students must document a passing score on the Praxis I and all appropriate Praxis II and/or the edTPA. Official score reports must be sent to both UAB and the Alabama State Department of Education.

5. The Alabama State Department of Education has additional requirements for teacher certification. Included in these are fees associated with obtaining a certificate which are set by legislative action and may be changed. Students seeking initial certification are required to obtain background clearance to determine any criminal history through a fingerprint review conducted by the Alabama Bureau of Investigation (ABI) and the Federal Bureau of Investigation (FBI) prior to the issuance of a teaching certificate. A current application and fee payment for official transcripts are also required. Information on these requirements is available in the Office of Student Services, Suite 232, Education Building, and is included in the certification application packet.

Teacher Certification for Students who Hold a Baccalaureate Degree

There are several routes to teacher certification in the state of Alabama for those who already hold a baccalaureate degree. One option is to return to school to complete the current undergraduate coursework required for teacher certification. In general, individuals exercising this option are required to meet the same requirements for admission to, retention in, and exit from the Teacher Education Program as indicated above. Additionally, these students are required to have a program plan approved by the department chair before enrolling in any courses. A second option is to pursue the Alternative Master’s Program. Completion of this program and all its requirements leads to a master’s degree in education and Alabama “Class A” teacher certification.

Additional information on these and other options may be found on the Alabama State Department of Education’s website (www.alsde.edu) or by contacting The Office of Student Services.

UAB School of Education / Department of Curriculum and Instruction
(205) 934-8371
lmeadows@uab.edu

UABTeach (https://www.uab.edu/uabteach) is the program for all students seeking certification to teach secondary school (grades 6-12) in the sciences and mathematics, and in middle school mathematics (grades 4-8), with an undergraduate degree. It is a cooperative program among the College of Arts and Sciences (CAS), the School of Education, and the School of Engineering. To obtain teaching certification in Chemistry, Biology, Physics, General Science, or Mathematics, students major in their STEM field (Science, Technology, Engineering, and Mathematics) and participate in the UABTeach program. UABTeach is not a major, but rather leads to a minor in STEM Education (through the School of Education) and a Class B teaching certificate. Students considering seeking teaching certification in a STEM field should contact both their STEM advisor and the UABTeach advisor (HHB 210, 205-975-7424, UABTeach (https://www.uab.edu/uabteach)).

UABTeach consists of a sequence of eight courses (24 credit hours), ideally taken over eight semesters as outlined below. Courses with an EHS prefix are normally taken in sequence. However, there are pathways for students entering UABTeach after the first semester of their freshman year, and up until the first semester of their junior year, described in detail on the UABTeach website, which allows some overlap of courses. Normally, students can complete the UABTeach courses without adding any additional time to their degree, provided they are on schedule in their STEM major, and have not already begun their junior year. Currently, UABTeach courses are offered only in Fall and Spring semesters.

* Semester 1: Step1, Inquiry Approaches to Teaching (EHS 125, 1 hour; also counts as First Year Experience course in CAS)
* Semester 2: Step2, Inquiry-Based Lesson Design (EHS 126, 1 hour)
* Semester 3: Knowing and Learning in Mathematics and Science (EHS 325, 3 hours)
* Semester 4: Perspectives on Science and Mathematics (HY 275) or Science, Knowledge, and Reality (PHL 270, 3 hours)
* Semester 5: Classroom Interactions (EHS 326, 3 hours)
* Semester 6: Research Methods* (number varies with STEM department, 3 hours) OR Functions and Modeling** (MA 361, 3 hours)
* Semester 7: Project-Based Instruction (EHS 327, 3 hours)
* Semester 8: Apprentice Teaching (EHS 425 and EHS 426, 7 hours)

* The Research Methods course is required for all UABTeach students earning science certification, and it is recommended for future math teachers.
** Functions and Modeling is required for all UABTeach students earning mathematics certification, and it is recommended for future science teachers.

The following table lists the currently available certifications, and the majors leading to them, under UABTeach.

The UABTeach website provides additional information on the program and the requirements for each certification option.
Students can begin the program in either fall or spring semesters. For more information, please visit the UABTeach website: http://www.uab.edu/uabteach/

**Minor in STEM (Science, Technology, Engineering, and Math) Education**

The STEM Education Minor includes the same courses UABTeach (https://www.uab.edu/uabteach) students take to earn Alabama teacher certification. So UABTeach (https://www.uab.edu/uabteach) students can add a minor with no additional coursework and have an element of their academic transcript reflect the work they have done to prepare themselves for teaching. The STEM Education Minor also includes an elective pathway designed to allow UABTeach (https://www.uab.edu/uabteach) students who elect not to complete Apprentice Teaching (EHS 425) and their certification requirements to add education electives to bring their minor coursework up to the required minimum of 18 hours.

**Total Hours**: 18

¹ The elective course structure is designed to allow UABTeach students who elect not to complete certification to earn a minor without enrolling in Apprentice Teaching, which is the student teaching option in UABTeach

² Course may not be used as a minor elective if also counted toward the students’ major

³ e.g. BY 492, CH 492, PH 494. Course may not be used as a minor elective if also counted toward the students’ major.

### Department of Curriculum and Instruction

**Chair**: Lynn Kirkland, Ed.D

The Department of Curriculum and Instruction offers undergraduate programs leading to a B.S. degree and Alabama “Class B” certification in early childhood/elementary education (grades P-6) and secondary education (grades 6-12). Teacher education programs are offered in conjunction with the College of Arts and Sciences in the following areas: music (choral and instrumental), science, and mathematics.

Students preparing to teach are expected to participate in a series of planned assignments in community and/or school settings both before and after admission to the Teacher Education Program. These opportunities to work with children and youth are designed to enhance the students’ professional development and to supplement their campus coursework.

### Early Childhood Education - Non-Certification Program

The early childhood education non-certification program is designed to prepare students to work in a variety of early care and educational settings serving children ages birth to five. Career options include but are not limited to childcare administration, childcare resource and referral, and teaching in preschool and Head Start classrooms. Students successfully completing the program will receive a baccalaureate degree in early childhood education. In addition to studying general child development content, students will learn the basics of planning, implementing, and evaluating early childhood programs. Professional preparation includes courses in child development, curriculum, instructional strategies, assessment, and technology. The program includes extensive field experiences in infant, toddler, and preschool classrooms.

There are two pathways to earning an early childhood non-certification bachelor’s degree. One option, the 2+2 option, is designed for students who complete an Associate degree in child development at an Alabama community college. These students transfer to UAB and complete the second half of the early childhood education non-certification bachelor’s degree program. Option two is for students who begin their post-secondary education at a four-year institution.

### Core Curriculum for Early Childhood Education (Non-Certification Program) ¹

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

¹ Core Curriculum Area IV: PY 101 Introduction to Psychology & SOC 100 Introduction to Sociology preferred.

### Bachelor of Science with a Major in Early Childhood Education (Non-Certification)

1. Total Hours

2. Course may not be used as a minor elective if also counted toward the students’ major

3. e.g. BY 492, CH 492, PH 494. Course may not be used as a minor elective if also counted toward the students’ major.
Early Childhood and Elementary Education (Teacher Certification Program)

The early childhood/elementary education program is designed as a double major program. Students successfully completing the program and all requirements outlined below will receive a baccalaureate degree and be eligible for Alabama “Class B” professional teaching certificates in early childhood education (grades P-3) and elementary education (grades K-6).

Professional preparation includes courses in humanistic and behavioral studies, early childhood education, elementary education, curriculum and teaching, evaluation of teaching and learning, extensive pre-internship field experiences in P-6 settings, and an internship. Students must work closely with their faculty advisor for appropriate selection of courses in each area of general and professional studies.

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

on track for all requirements.

once per term and also with a content advisor in CAS to insure they stay on track for all requirements. Students should consult with their education advisor and complete all requirements (such as state mandated tests) leading to teacher certification from the UABTeach Program. For more information on UABTeach contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach.

Middle School Education

A program in middle grades mathematics (grades 4-8) is offered in conjunction with the College of Arts and Sciences. Students following this program must meet TEP entrance, retention, and completion requirements as outlined in previous sections in order to be recommended for Alabama teacher certification. Students seeking certification in middle grades mathematics should complete the Mathematical Reasoning track of the Mathematics major within the Department of Mathematics (See Catalog). For education course requirements, contact the Office of Student Services (934-7530), within the School of Education, for the current checklist. This program is a part of the UABTeach Program. For more information on UABTeach contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach.

High School Education- English Language Arts and General Social Science

Secondary education offers a major in secondary education and certification for grades 6-12 in English language arts (ELA) and in general social science (GSS). Candidates obtaining certification in these two teaching fields must either have an academic major (in English for ELA or in history for GSS) or meet the highly qualified condition specified by the Alabama State Department of Education (ALSDE). Because of teacher certification requirements, content coursework may slightly differ from those courses required of traditional English or history majors. Thus, candidates should follow the appropriate program checklist assigned by the Office of Student Services within the School of Education to insure that they meet certification requirements. Although an academic major in English or history may be built into the certification checklists, candidates should seek advising for these content majors from College of Arts and Science (CAS) advisors to insure they meet all current degree requirements for either English or history. Students who complete requirements for both an academic major and an education major will receive a single degree with both majors listed.

Due to ALSDE regulations for teachers, Core Curriculum requirements for education majors are more specific than Core Curriculum requirements for academic majors. Students should seek advising and obtain a program checklist from the Office of Student Services, Education Building, Suite #232, Phone: (205) 934-7530. Students should also consult with their education advisor once per term and also with a content advisor in CAS to insure they stay on track for all requirements.

Bachelor of Science with a Major in High School Education/English Language Arts

This curriculum results in a major in secondary education with teacher certification in English language arts.

Requirements  Hours
EH 301  Reading, Writing, and Research for English Majors  3

Select one of the following:
EH 217  World Literature I: Before 1660  3
EH 218  World Literature II: 1660-Present  3

Select one of the following:
EH 223  American Literature I: Before 1865  3
EH 224  American Literature II: 1865-Present  3

Select one of the following:
EH 401  Tutoring Writing  6
EH 402  Writing in Popular Periodicals
EH 403  Business Writing
EH 404  Technical Writing
EH 430  Professional Writing: Special Topics  3
EH 433  Academic Writing

Select one of the following:
EH 419  Young Adult Literature  3
EDR 441  Literature for Adolescents
EH 476  Shakespeare

Other Literature Courses
From the courses below, select one American and one British.

Pre -1800
Select one of the following:
EH 461  American Literature, 1620 - 1820  3
EH 469  Medieval Culture: Literature and Society
EH 470  Arthurian Legend
EH 471  Beowulf in Context
EH 473  Chaucer: Pilgrimage to Canterbury
EH 474  English Renaissance Drama (Excluding Shakespeare)
EH 475  English Renaissance Poetry and Prose
EH 478  Milton
EH 481  The Eighteenth Century: Literature and Culture
EH 482  The Eighteenth Century: Theory and Interpretation
EH 486  Eighteenth-Century British Novel

Post 1800
Select one of the following:
EH 414  Modern British and European Drama
EH 416  Modern American Poetry
EH 442  Literary Theory and Criticism, the Twentieth Century to the Present
EH 460  American Women Writers Before 1900
EH 462  American Literature, 1820 - 1870
EH 463  American Literature, 1870 - 1914
EH 464  American Literature, 1914 - 1945
EH 483  British Romanticism
EH 487  Nineteenth-Century British Novel
EH 488  British Novel: The Modern Age
EH 489  James Joyce

Select one of the following:
EH 365  African American Literature, 1746-1954  3
EH 366  African American Literature, 1954-Present
EH 422  African Literature
EH 423  African Women's Literature
EH 424  African-American Special Topics
EH 445  Special Topics in African American Literature
EH 447  African American Dramatic Tradition
EH 448  African American Poetry Tradition
EH 466  The Slave Narrative and Its Literary Expressions
EH 467  Black Women Writers
EH 468  The Harlem Renaissance

Select one of the following:
EH 350  Introduction to Linguistics
EH 351  Structure of English
EH 452  Grammar and Usage for English Teachers

Take a 400-level EH course as approved by your advisor.  3

Total Hours  33

Bachelor of Science with a Major in High School Education/General Social Science

This curriculum results in a major in secondary education, with teacher certification in general social science. A history major may also be obtained by completing requirements specific to that major.

High School Education – All Areas of Science and Mathematics

Programs leading to grades (6-12) certification in biology, chemistry, physics, general science, and mathematics are offered in conjunction with the College of Arts and Sciences and the School of Engineering as part of the UABTeach (https://www.uab.edu/uabteach) program. The UABTeach (https://www.uab.edu/uabteach) program is an innovative program modeled after the national UTeach program developed at the University of Texas at Austin. The aim of this program is to produce well-prepared teachers of mathematics and the sciences within a 4-year period and to increase the number of teachers in the STEM (science, technology, engineering, and mathematics) disciplines. The UABTeach (https://www.uab.edu/uabteach) program requires a major in an academic field such as biology, chemistry, engineering, mathematics, etc. The program requires several innovative and intensive education courses aimed at preparing teachers for grades 6-12 and leading to Class B teacher certification. The academic majors are housed within the appropriate departments within the College of Arts and Sciences and the School of Engineering. Students should contact their CAS or Engineering advisors for advising on their major. Information on the Education components of the program can be found by contacting the Office of Student Services, Education Building, Suite #232, Phone: (205) 934-7530. For more information contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach.

Bachelor of Science with a Major in High School Education/ Mathematics, Biology, Chemistry, General Science, Physics

UAB offers certification in grades 6-12 for Mathematics, Biology, Chemistry, General Science, and Physics through the UABTeach (https://www.uab.edu/uabteach) program. Students in STEM majors in the College of Arts and Sciences and the School of Engineering may seek teacher certification in an appropriate field listed above. Students majoring in computer science or engineering should contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach, for guidance in selecting a certification area.

Core Curriculum Mathematics, Biology, Chemistry, General Science, Physics

Students should follow the core curriculum for their STEM major. See the catalog for majors in CAS and Engineering and speak with an advisor in these programs.

Major Requirements Mathematics, Biology, Chemistry, General Science, Physics

Students should follow the curriculum prescribed for their STEM major. See the catalog for majors in CAS and Engineering and speak with an advisor in these programs.

Total Hours: 18

Minor in STEM (Science, Technology, Engineering, and Math) Education

The STEM Education Minor includes the same courses UABTeach (https://www.uab.edu/uabteach) students take to earn Alabama teacher certification. So UABTeach (https://www.uab.edu/uabteach) students can add a minor with no additional coursework and have an element of their academic transcript reflect the work they have done to prepare themselves for teaching. The STEM Education Minor also includes an elective pathway designed to allow UABTeach (https://www.uab.edu/uabteach) students who elect not to complete Apprentice Teaching (EHS 425) and their certification requirements to add education electives to bring their minor coursework up to the required minimum of 18 hours.

Research Methods

1. The elective course structure is designed to allow UABTeach students who elect not to complete certification to earn a minor without enrolling in Apprentice Teaching, which is the student teaching option in UABTeach.
2. Course may not be used as a minor elective if also counted toward the students' major.
3. e.g., BY 492, CH 492, PH 494. Course may not be used as a minor elective if also counted toward the students' major.

Department of Human Studies

Chair: Kristi Menear

The Department of Human Studies offers undergraduate majors in both Community Health and Human Services and Kinesiology. Community Health and Human Services majors choose between two concentrations: Community Health (non-teaching) or Human Services (non-teaching). Community Health and Human Services also offers a minor in Community Health and a minor in Human Services. Kinesiology majors choose among three concentrations: Physical Education Teacher Certification (grades P-12), Fitness Leadership (non-teaching), or Exercise Science (non-teaching). Kinesiology also offers a minor in Athletic Coaching and a minor in Exercise Science. Programs leading to degrees and/or certificates in Counseling and Educational Leadership are offered at the graduate level.

Students should contact the Office of Student Services, Suite 232, Education Building, (205) 934-7530, early in their studies to obtain the name of their advisor and pertinent program information related to the Core Curriculum. Students should consult their advisor prior to each registration period for the appropriate guidance (e.g., students are expected to take courses in the appropriate sequence, including prerequisites).

The Department of Human Studies offers an Honors Program for Exercise Science and Fitness Leadership students. Highly qualified students will have the opportunity to work one-on-one with a mentor in an area of mutual interest and conduct either a research or civic engagement project designed to meet some particular need as it relates to pertinent areas of fitness, exercise, and physical activity. For more information go to: http://www.uab.edu/education/studentservices/current-students/get-involved/honors-program.

Major in Community Health and Human Services with a Community Health Concentration

A grade of “C” or better is required in all majors courses.

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area II Humanities and Fine Arts: CMST 101
Area III Natural Science with Lab: BY 101 & BY 102 and CH 105 & CH 106

Area IV Social Science: PY 101 or SOC 100 and one of the following: ANTH 101 or GEO 121

Literature sequence preferred: EH 217 & EH 218 or EH 221 & EH 222 or EH 223 & EH 224

### Kinesiology Programs

Students majoring in Kinesiology may choose from three concentrations: teacher certification, exercise science, and fitness leadership. The teacher certification program prepares students for entry into teaching positions in grades P-12. The exercise science program prepares students for graduate work in exercise physiology or health related
careers such as physical therapy and occupational therapy. The fitness leadership program prepares students to be fitness leaders in fitness centers, clinics, or industrial settings.

**Kinesiology Major: Teacher Certification**

A grade of "C" or better is required in all math, science, and major courses.

**Core Curriculum for Kinesiology Major: Teacher Certification.**

**EH 101/102** requires one grade of at least a "B" or higher and one grade of "C" or higher for teacher certification.

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

### Internship

KIN 499  Fitness Internship  
3

**Total Hours**  
123-128

Students need to take 5-23 hours of General Electives to reach the 120 hour requirement in order to graduate.

1  This elective is in addition to the 3 hours of KIN 499 in the Internship section. No more than a total of 6 hours of KIN 499 may be applied to the degree.
2  Courses taken may not be applied to both major requirements and core curriculum. A maximum of 10 hours of PH, MA, CH, or BY courses can be taken to meet this requirement.
3  Either PY 330 or PY 218 will count as a major elective

### Kinesiology Major: Fitness Leadership Concentration

A grade of "C" or better is required in all math, science, and major courses. Note: UAB requires 120 total semester hours in order to graduate. Students with this major will need additional electives to meet this requirement.

#### Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

- Area II Humanities and Fine Arts: CMST 101
- Area III Natural Science with Lab: PH 201 or BY 101 & BY 102
- Area IV Social Science: PY 101

Minor in Kinesiology: Exercise Science

A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and minor. Students cannot apply courses toward both major and minor course requirements.

Students may need to take additional electives to reach the 19 hour requirement in order to receive the minor (e.g. students who fulfill the HE 140 "0" credit hour waiver).

The BY 115, BY 116, and HE 140 requirements are waived for ONLY students majoring in Biomedical Sciences, who have completed BMD 310 (4 hrs.), BMD 315 (4 hrs.), and CDS 425 (1 hr.), respectively. As BMD 310, BMD 315, and CDS 425 cannot be used to satisfy both the Biomedical Sciences major and the Exercise Science minor, students must replace these 9 hours with courses from the Electives listed below.

These replacement hours must include KIN 307.

Community Health and Human Services Minors

The Community Health and Human Services program offers two minors. The Community Health minor provides background information related to health issues and health programming. A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and a minor.
See Kinesiology Program policy for "0" credit hour HE 140 waiver criteria. Students who meet the HE 140 waiver requirements need to take an additional 3 hour Elective to reach the minimum 19 hour requirement in order to receive the minor.

### Exercise Science
- KIN 400 Physiology of Exercise 4

### Electives (Choose 1-5 Hours)
- KIN 132 Group Exercise Leadership 1
- KIN 307 Applied Kinesiology 3
- KIN 402 Basic Athletic Training 2
- KIN 405 Sports Nutrition 3
- KIN 440 Principles of Conditioning the Athlete 3
- KIN 450 Physical Activity for Individuals with Disabilities/SL 3
- KIN 451 Physical Activity for Senior Adults 3
- KIN 460 Clinical Exercise Physiology 3
- KIN 470 Advanced Treatment Athletic Training 3
- KIN 485 Exercise Testing/Prescription 3
- KIN 499 Fitness Internship 3

### Minor in Kinesiology: Athletic Coaching
A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and minor.

## School of Engineering

**Dean:** J. Iwan Alexander  
**Senior Associate Dean:** Timothy M. Wick  
**Associate Dean for Undergraduate Programs:** Zoe B. Dwyer

The School of Engineering provides professional education in engineering through the Departments of Biomedical Engineering; Civil, Construction, and Environmental Engineering; Electrical and Computer Engineering; Materials Science and Engineering; and Mechanical Engineering. The School of Engineering offers programs of study leading to Bachelor of Science in Biomedical Engineering, Bachelor of Science in Civil Engineering, Bachelor of Science in Electrical Engineering, Bachelor of Science in Materials Engineering, and Bachelor of Science in Mechanical Engineering. All undergraduate programs are accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Each undergraduate curriculum is comprised of four components: the UAB Core Curriculum as specified for engineering majors; basic mathematics and science courses; a series of engineering courses intended to provide a breadth of technical education; and concentrated study in a particular engineering discipline. The curricula are designed to prepare the graduate to practice the profession of engineering and effectively participate as a member of society. Additionally, the School of Engineering participates in UABTeach (https://www.uab.edu/uabteach). For more information, see the UABTeach website at www.uab.edu/uabteach/.

At the graduate level, the School of Engineering offers programs of study leading to the Master of Science in Biomedical Engineering, the Master of Science in Civil Engineering, the Master of Science in Electrical Engineering, the Master of Science in Materials Engineering, and the Master of Science in Mechanical Engineering. A Master of Engineering degree is offered with concentrations in Advanced Safety Engineering and Management, Construction Engineering Management, Information Engineering and Management, Design and Commercialization, Structural Engineering and Sustainable Smart Cities. The Doctor of Philosophy degree in Biomedical Engineering and the Doctor of Philosophy degree in Interdisciplinary Engineering are also offered. Joint Doctor of Philosophy degrees are offered in Materials/Metallurgical Engineering, Materials Science, and Civil Engineering. A shared Doctor of Philosophy degree in Computer Engineering is available.

In order to keep pace with accreditation standards as well as educational and technological developments, the School of Engineering reserves the right to make changes in its degree requirements. Changes may be applied to students already enrolled; but, in such cases, every effort will be made to give the student the benefit of the new educational program without imposing undue hardships.

### Vision
To be nationally and internationally recognized as a top research-oriented School of Engineering: a first choice for a quality undergraduate and graduate education.

### Mission
To create and apply knowledge for the benefit of society, and to prepare engineering graduates to be immediately productive and able to adapt and to lead in a rapidly changing environment.

### Goals
- Provide an excellent educational experience for a community of highly capable students that reflect the diversity of our society.
Students seeking admission to Biomedical Engineering are admitted to Pre-Mechanical Engineering majors based on their intended program. Students are admitted as Pre-Civil, Pre-Electrical, Pre-Materials, or Pre-Mechanical Engineering major based on their intended program. Undecided students are admitted as Pre-General Engineering with an ACT score of 28 or higher (or SAT equivalent) and a high school GPA of at least 3.20 if applicable, an institutional (UAB) GPA of 3.20. Transfer and returning students receive a Pre-Engineering designation for a minimum of one semester following admission to UAB and are admitted to their chosen department upon completion of the minimum requirements listed below.

Students who are seeking admission to the School of Engineering and are currently enrolled in other UAB schools or divisions must have an institutional (UAB) GPa of 2.20 (3.20 for Pre-Biomedical) or greater and must be eligible to enroll in Pre-Calculus Algebra (MA 105) or higher in the pre-calculus series.

**Requirements for Advancing from Pre-Engineering to Civil, Electrical, Materials or Mechanical Engineering**

In order to advance from pre-engineering to one of the engineering majors listed above, students must meet the following minimum requirements:

- Sophomore standing
- Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
- Completion (C or better) of two required science courses with appropriate labs
- Completion of EGR 110 and EGR 111 (or EGR 200), ME 102 Engineering Graphics, and EGR 150
- An institutional (UAB) GPA of 2.20

**Requirements for Advancing from Pre-Engineering to Biomedical Engineering**

In order to advance from pre-engineering to Biomedical Engineering, students must meet all of the following minimum requirements:

- Sophomore standing
- Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
- Completion (C or better) of two required science courses with appropriate labs
- Completion of EGR 110 and EGR 111 (or EGR 200)
- Completion of ME 102 Engineering Graphics
- An institutional (UAB) GPA of 3.20 (and cumulative [UAB + transfer] GPA of 3.20 if applicable)

If a Pre-Biomedical or Pre-Engineering student is not eligible to advance into Biomedical Engineering after completing a maximum of 64 hours of course work, they may advance into another engineering major if the qualifications for that major (as listed above) are met.

**Change of Major within the School of Engineering**

Students changing majors within the School of Engineering should follow procedures outlined under Declaration of Major in this catalog. Students must meet the requirements listed previously.

**Transfer Credit**

In addition to guidelines for transfer credit outlined in the current UAB catalog, the following policies apply to students transferring into the School of Engineering:
1. The UAB School of Engineering may grant transfer credit for engineering, math, and science courses taken at another institution only if a grade of C or higher was earned. Students admitted to the School of Engineering who have earned a grade of D in a course within a required sequence of courses may be required to repeat all or part of the sequence.

2. Engineering technology courses are not equivalent to engineering courses.

**Transient Credit**

In addition to guidelines for transient credit outlined in the current UAB catalog, Engineering requires the following:

The prerequisites for any course that is part of a student's UAB engineering program must be satisfied prior to starting the course. This requirement must be met for courses taken at UAB and for courses the student wishes to take as transient and transfer the credit to UAB under the UAB Transient policy. Additionally, a student who has attempted but failed to successfully complete a UAB course offered by their specific engineering program must repeat that course at UAB for credit.

**Dual Degree Program Participants**

Dual degree program participants from cooperating four-year institutions must provide the following information to School of Engineering advisors in order to advance from pre-engineering to an engineering major:

- A letter or email from the student acknowledging their participation in the Dual Degree Program and intent to complete an Engineering degree at UAB.
- A letter from the cooperating institution stating that the student has successfully completed the general education requirements at that institution, and will be awarded a degree from the institution upon completion of UAB Engineering requirements.

**Reasonable Progress**

All students in the School of Engineering must continually make reasonable progress toward the completion of their academic programs. To assure that students are achieving reasonable academic progress towards graduation, the School of Engineering provides academic advice and planning each term through EGR 110 and EGR 111 and appointments with assigned engineering advisors. During advising, students receive a registration access code (RAC) which will allow them to register for courses the following semester. Pre-Engineering students in all disciplines are advised by engineering faculty in the School of Engineering’s Office of Academic Programs (OAP). Upon admission to Biomedical, Civil, Electrical, Materials or Mechanical Engineering, students are advised by engineering faculty within their major.

Reasonable progress is defined as follows:

1. All students must comply with appropriate prerequisite and concurrent requirements for all courses in which they enroll. Students will be administratively withdrawn from engineering courses for which they do not meet prerequisite or concurrent requirements.
2. All required courses offered by the student’s specific engineering program failed at UAB must be repeated and successfully completed at UAB for the student to apply the credit to satisfy degree requirements.
3. The School of Engineering follows the University’s Course Repeat and Forgiveness Policy as previously stated in this catalog.
4. Engineering students with the exception of students majoring in biomedical engineering must maintain a GPA of at least 2.00 in all UAB courses and all UAB engineering courses. Biomedical engineering majors must maintain an institutional (UAB) GPA of at least 3.00.
5. Engineering students must successfully complete two courses applicable to their engineering program within an academic year.
6. If a pre-engineering student is not eligible to advance to an engineering major within 64 hours, the student may be dismissed from the School of Engineering and may not seek readmission to the School of Engineering until another baccalaureate degree is earned.

**Academic Warning, Probation, and Suspension**

The School of Engineering follows the UAB Policy for Academic Warning, Probation, and Suspension with the following additions:

1. Students on Academic Warning or Probation are advised to register for no more than 14 semester credit hours per term.
2. While on Academic Warning or Probation, students may only register for 100- and 200-level engineering courses, or repeat courses for which they previously earned a grade of D or F.
3. Students suspended from the University will be removed from the School of Engineering and returned to Undeclared - Interest in Engineering student in the University Academic Success Center if another major is not specified at the time of suspension. Students may not seek readmission to the School of Engineering unless, and until, the requirements for advancing from a pre-engineering designation to Civil, Electrical, Materials, Mechanical, or Biomedical Engineering are met.
4. First-term freshmen students in Biomedical Engineering who have an institutional (UAB) GPA below a 3.00 will be placed on academic warning in Biomedical Engineering. If their institutional (UAB) GPA is not a 3.00 or greater after the next term enrolled, the student will be placed on academic probation in Biomedical Engineering. Biomedical students (excluding first-term freshmen) who have an institutional (UAB) GPA below a 3.00 will be placed on academic probation in Biomedical Engineering. Biomedical Engineering students on academic probation who do not attain an institutional (UAB) GPA of 3.00 in their next term attempted will be reclassified as Pre-General Engineering.

**Appeal for Reinstatement to the School of Engineering**

A student suspended from the School of Engineering must meet the requirements necessary to advance to their intended major before petitioning for reinstatement. The petition should be addressed to the Senior Associate Dean and should clearly state the circumstances resulting in their dismissal from the School and include steps taken to resolve the deficiency. The student's petition should be received in the Office of the Associate Dean of Engineering no later than five working days prior to the beginning of the desired semester of re-entry.

**Graduation Requirements**

In addition to satisfying the general UAB graduation requirements (Baccalaureate Degrees), all engineering students must earn an engineering grade point average (GPA) of at least 2.00 in order to graduate. The engineering grade point average includes all engineering course work applicable to the degree attempted at UAB. Students who
are on academic warning or probation cannot graduate from the School of Engineering. BME students must also have an institutional GPA of 3.00 or higher and have earned a grade of C or better in all BME courses to graduate.

Individual engineering programs may have additional graduation requirements which can be found in the program description.

Office of Academic Programs

Director: Dr. Zoe B. Dwyer

The freshman year program is similar among the engineering curricula at UAB. It is based upon substantial high school preparation in English, mathematics, and natural sciences. Students must enroll in appropriate English, chemistry, or mathematics sequences according to placement. Incomplete preparation at the high school level is not unusual, and coursework to strengthen the student's academic background is routinely offered by UAB. Advice on this subject may be obtained from the Office of Academic Programs.

² Except for Electrical Engineering
³ Except for Electrical Engineering and Mechanical Engineering

Pre-Health Program Option

Any undergraduate program in engineering can be configured to satisfy pre-health requirements but requires additional coursework. Further information on pre-health program options can be obtained from:

https://www.uab.edu/cas/advising/pre-health-advising • Dr. Dale S. Feldman • School of Engineering, Pre-Health Program Coordinator • Hoehn Engineering Building • 1075 13th Street South • Room 361 • Birmingham, Alabama 35294-4440

Core Curriculum as Specified for Engineering Majors

Students in the School of Engineering follow the University Core Curriculum, which includes EH 101 English Composition I and EH 102 English Composition II, with the following exceptions and additional specifications:

1. Engineering students are required to take 9 hours in Core Curriculum Area II: Humanities and Fine Arts to include a minimum of 3 semester hours in literature and 3 semester hours in the fine arts. The following courses are recommended as they best complement the technical coursework of engineering programs: CMST 101 Public Speaking, EH 217 World Literature I: Before 1660, EH 218 World Literature II: 1660-Present, PHL 115 Contemporary Moral Issues, and PHL 116 Bioethics.

2. Engineering students should take the following course to satisfy the Core Curriculum Area III Mathematics requirement: MA 125 Calculus I.

3. Engineering students should take the following courses to satisfy the Core Curriculum Area III Natural Science requirement: PH 221 General Physics I and PH 222 General Physics II.

4. Engineering students are required to take 9 hours in Core Curriculum Area IV: History, Social and Behavioral Sciences to include a minimum of 3 semester hours in history. Please note: for Core Area IV, students cannot apply more than 8 hours of History. The following courses are recommended as they best complement the technical coursework of engineering programs: EC 210 Principles of Microeconomics, EC 211 Principles of Macroeconomics, ITS 101 Introduction to International Studies, PY 101 Introduction to Psychology, SOC 100 Introduction to Sociology, and SOC 245 Contemporary Social Problems.

5. Engineering majors must complete a six-semester-hour sequence in either Area II or Area IV. To be considered a sequence, courses must have the same prefix and must be sequential if possible. Sequences in history, such as HY 101 Western Civilization I and HY 102 Western Civilization II or literature, such as EH 221 British and Irish Literature I: Before 1800 and EH 222 British and Irish Literature II: 1800-Present are common. Two courses in a foreign language such as ARA 101 and ARA 102; CHI 101 and CHI 102; FR 101 and FR 102; FR 201 and FR 202; GN 101 and GN 102; GN 201 and GN 202; JPA 101 and JPA 102; SPA 101 and SPA 102; and SPA 201 and SPA 202 also fulfill this requirement. Any two Area II courses in one of the following disciplines: ARH, PHL or THR; or any two Area IV courses in one of the following disciplines: ANTH, EC, PSC, PY, or SOC, can also fulfill this requirement.

University Requirements for the School of Engineering

In order to receive a degree in the School of Engineering at UAB, a student must have at least 128 semester hours of acceptable credit.

Minors

Students majoring in disciplines other than engineering may choose a minor in engineering to become familiar with topics such as biomedical engineering, environmental engineering, electrical systems, engineering materials, thermodynamic sciences, applied mechanics, or software engineering. Because technology greatly affects most aspects of society, the study of technology in conjunction with the pursuit of a non-engineering major can provide a worthwhile career-oriented educational experience.
Because enrollment in engineering courses is restricted, it is essential that students with declared minors in engineering receive an approved program of study. These students should visit the School of Engineering Office of Academic Programs to receive relevant information. Students planning to minor in engineering should exercise care in the selection of courses to meet the requirements of their major as well as concurrently satisfying prerequisite requirements for engineering courses. Students should be particularly aware of the mathematics and natural sciences prerequisites.

Students majoring in engineering may select a minor offered from outside their engineering discipline as listed below, with the exception of engineering science.

To satisfy the minor requirements, a minimum grade point average of 2.00 is required for all engineering coursework attempted for all programs. Transfer students wishing to earn a minor in engineering must take at least nine (9) semester hours at UAB and earn a minimum GPA of 2.00 in UAB engineering courses attempted. Students who are not majoring in biomedical engineering but wish to enroll in 300- or 400-level BME courses must fulfill course prerequisites, have an institutional (UAB) GPA of at least 3.00, and be approved by the BME Undergraduate Program Director.

A non-engineering major who wishes to minor in engineering may choose one of the minor programs listed here.

**Business Administration Minor for Non-Business Majors**

Engineering students may choose to pursue a Minor in Business Administration. This minor combined with an undergraduate engineering degree and co-op/internship experience provides a powerful and highly sought-after combination in today’s competitive economy. Engineering students interested in exploring the Business Administration Minor should contact the academic advisor in the School of Engineering at (205) 934-8410.

**Honors in Engineering**

Honors Programs are offered by all undergraduate degree programs in the School of Engineering.

- Biomedical Engineering
- Civil Engineering
- Electrical Engineering
- Materials Engineering
- Mechanical Engineering
Purpose
The honors programs are intended to enrich educational opportunities for talented students in the School of Engineering.

Eligibility
Students who have earned a GPA of at least 3.25 (3.75 for BME); have completed MA 227 Calculus III or EGR 265 Math Tools for Engineering Problem Solving; and receive departmental endorsement are invited to participate in an engineering honors program. Invitations are extended by the Dean's office during spring semester of each year.

Community college transfer students who have earned a GPA of at least 3.50 (3.75 for BME); have completed MA 227 Calculus III; and have been elected to Phi Theta Kappa are also eligible.

Requirements
Honors programs require nine credit hours of honors coursework.

- Students enroll in EGR 301 Honors Research I, a one-hour course, no later than junior year. Students participating in the Science and Technology Honors program are not required to take EGR 301.
- Students enroll in two one-hour seminars which can be taken at any time in their course of study.
- Students complete six hours of credit in departmental honors research.
- Individual programs may vary in the way credit is awarded. For information regarding departmental requirements, contact the departmental program director.

Benefits
Students who complete an engineering honors program will have earned nine credit hours in honors coursework. Honors research beyond the required six hours may be applied as graduate credit. Three credit hours of honors research may be applied as an undergraduate elective according to departmental policy. Students who complete an honors program in engineering with a minimum GPA of 3.0 will receive a bachelor's degree "with Honors" in addition to any University honors designations.

Contact
For more information about Engineering Honors Programs, contact:

Dr. Timothy M. Wick • Senior Associate Dean and Professor of Biomedical Engineering • School of Engineering • Birmingham, AL 35294-4440 • Telephone (205) 934-8410

Department of Biomedical Engineering
Chair: Jianyi Zhang, M.D., Ph.D.

Biomedical engineering (BME) is the application of engineering principles and technology to the solution of problems in the life sciences and medicine. Biomedical engineers create knowledge and develop technologies that improve healthcare delivery and patient outcomes with an emphasis on reducing healthcare costs. Graduates create and apply knowledge at the interface of life sciences and engineering for the benefit of society. The BME undergraduate program prepares graduates to be immediately productive and able to adapt to a rapidly changing environment. The curriculum includes engineering core courses, mathematics, calculus-based physics, biology, chemistry, humanities, social and behavioral sciences, biomedical engineering core courses and electives. The curriculum culminates in a capstone design experience where interdisciplinary teams apply knowledge to solve real-world engineering problems. A bachelor's degree in BME from UAB provides a foundation in medical devices, biomedical implants, biomaterials, and biomedical instrumentation to compete in an increasingly technical medical field, and also prepares students for graduate school, medical school, or professional school.

The Biomedical Engineering program is currently accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Freshmen with an ACT score of 28 or higher (or SAT equivalent) and a high school GPA of 3.20 or higher may be admitted directly to the Biomedical Engineering program. Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

BME students must maintain an institutional (UAB) GPA of at least 3.0. First-term BME freshmen students who have an institutional GPA below 3.0 will be placed on academic warning in BME. If their institutional GPA is not at least 3.0 after the next term enrolled, they will be placed on academic probation in BME. BME undergraduates (other than first-term freshmen) who do not have an institutional GPA of at least 3.0 will be placed on BME academic probation. If at the end of the next term in which they enroll, their institutional GPA is not at least 3.0, they will be reclassified as Pre-General Engineering. To be re-admitted to the BME program, a student must have an institutional GPA of at least 3.20 and make a formal application for readmission.

BME students must have an institutional GPA of at least 3.0 and have completed at least 64 hours of coursework applicable to their degree before they may register for 300-level and 400-level BME courses. BME students must also have an institutional GPA of at least 3.00 or higher and have earned a grade of C or better in all BME courses to graduate. In addition to fulfilling course prerequisites, non-BME students (including pre-BME students and students seeking a BME minor) who wish to enroll in 300-level and 400-level BME courses must have an institutional (UAB) GPA of at least 3.00 as well as permission of the BME Undergraduate Advisor. Non-BME majors may not enroll in BME 423, BME 498, or BME 499. In addition, a minimum overall GPA of 3.00 is required for all engineering coursework applied to a BME minor. Transfer students seeking a BME minor must take at least nine (9) semester hours and earn a minimum GPA of 3.00 in UAB engineering courses attempted before enrolling in BME courses.

Vision
To be an internationally recognized, research-oriented Department of Biomedical Engineering: a top choice for undergraduate and graduate education.

Mission
To improve healthcare by making scientific discoveries, solving problems and advancing technology using quantitative methods; to prepare
graduates to succeed in the evolving fields of biomedical engineering and biotechnology.

Educational Objectives
Graduates of the Biomedical Engineering undergraduate program will:

1. Gain admission to graduate or professional school, or employment in engineering and/or health related professions and
2. Pursue opportunities for professional growth, development, and service

Total credit hours: 128

1. Transfer students may substitute EGR 200 for EGR 110 and EGR 111.
2. May substitute MA 227 and MA 252 for EGR 265 and one Math/Science/Engineering/Biomedical Engineering Elective.
3. Students using this curriculum as a pre-health professional program (pre-med, pre-dental, or pre-optometry) may use CH 237, CH 238 or CH 460 for this elective.
4. Please refer to the Core Curriculum as specified for engineering majors.
5. Seminar may be taken during any semester.
Department of Civil, Construction, and Environmental Engineering

Chair: Fouad H. Fouad
The Department of Civil, Construction, and Environmental Engineering offers a broad-based program in civil engineering, which covers mechanics and structures, soils, surveying, transportation, water resources, environmental engineering, and construction engineering management. Computer applications are emphasized in all areas. The program is based on a strong foundation of mathematics, physical sciences, humanities, and social sciences and is supported by a series of basic courses from other engineering disciplines. The primary objective of the program is to prepare students for entry into the civil engineering profession as design engineers. The Civil, Construction, and Environmental Engineering Department is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Electives in the academic program may be selected from courses in structural engineering, construction engineering management, environmental engineering, geotechnical engineering, and transportation engineering. These courses allow students to emphasize a particular area in their undergraduate academic program. Judicious selection of these electives may be used as additional preparation for a specific design career or for entry into a specialized civil engineering certificate or engineering graduate program.

Qualified, motivated undergraduate students may also participate in the Departmental Honors Program.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appears; and graduation requirements.

Vision
To become a department of top choice for civil engineering students, faculty and industry partners wanting a real world experience in a metropolitan setting.

Mission
To advance civil engineering knowledge through innovative, rigorous and practice-based education, research, and outreach to better serve our students, community, and society at large.

Educational Objectives
The Civil, Construction, and Environmental Engineering Department has developed the following educational objectives for graduates of the Civil Engineering program. Three to six years after graduation, graduates who choose to practice in the Civil Engineering field should:

- Achieve a level of technical competency that allows them to advance in engineering practice and/or research
- Pursue lifelong learning, such as graduate study and other professional education, and professional licensure
- Engage in service to the profession through involvement in professional societies, community activities, and educational outreach

Experiential Learning
The Civil, Construction, and Environmental Engineering Department strongly encourages students to participate in experiential learning opportunities; such as industry co-ops, engineering internships, and research with department faculty. These programs greatly enhance a student’s education and provide the real-world experience employers look for after graduation. The School of Engineering has a dedicated staff member to assist students in finding and applying to these programs and the Civil, Construction, and Environmental Engineering Department will work with students to tailor programs of study that will allow them to participate in these programs while completing their degrees in a timely manner.

The University of Alabama at Birmingham - DRAFT COPY

Civil Engineering Electives
Select nine hours from Civil Engineering (CE) Courses at the 400-level or above.

Construction Engineering Management Electives
CE 600 Sustainable Construction
CE 601 Construction Methods
CE 603 Construction Accounting and Financial Management
CE 604 International Construction Contracts and Law
CE 605 Project Management
CE 606 Advanced Project Management
CE 607 Engineering Entrepreneurship
CE 631 Environmental Law
CE 649 Engineering Liability

Environmental Engineering Electives
CE 430 Water Supply/Drainage Design
CE 433 Solid and Hazardous Wastes Management
CE 434 Air Quality Modeling and Monitoring
CE 480 Introduction to Water and Wastewater Treatment
CE 485 Engineering Hydrology

Geotechnical Engineering Electives
CE 426 Foundation Engineering

Structural Engineering Electives
CE 420 Advanced Mechanics
CE 426 Foundation Engineering
CE 453 Design of Wood Structures
CE 454 Design of Masonry Structures
CE 456 Prestressed Concrete Design
CE 460 Structural Mechanics
CE 461 Introduction to the Finite Element Method
CE 462 Advanced Structural Analysis
CE 464 Structural Dynamics
CE 467 Wind and Seismic Loads
CE 468 Bridge Engineering

Transportation Engineering Electives
CE 442 Highway Materials and Construction
CE 443 Pavement Design and Construction
CE 457 Concrete Technology

Total Hours 62

1 One of these is required for the major, the other may be taken as a Civil Engineering Elective.

Concentration in Sustainable Engineering Design and Construction
Students seeking the degree of BSCE may add a concentration in Sustainable Engineering and Construction by appropriate selection of their Civil Engineering Electives (400-Level) courses (9 credit hours total).

Requirements
Select three of the following courses:

CE 431 Energy Resources
CE 433 Solid and Hazardous Wastes Management
CE 434 Air Quality Modeling and Monitoring
CE 600 Sustainable Construction
CE 601 Construction Methods
CE 608 Green Building Design

Total Hours 9

Please refer to the School of Engineering Overview for School policies related to admission, academic progress, reasonable progress toward degree, and graduation.

Curriculum for the Bachelor of Science in Civil Engineering (BSCE)

The University of Alabama at Birmingham - DRAFT COPY
Core Curriculum Area II: Humanities & Fine Art 3
Core Curriculum Area IV: Social and Behavioral Science 3
Civil Engineering Elective (400-Level) 3

Total credit hours: 128

1 Transfer students may substitute EGR 200 for EGR 110/EGR 111
2 Students may also replace EGR 265 and a 400-level CE elective with MA 227 and MA 252.
3 Please refer to the Core Curriculum as specified for Engineering majors.
4 Any 400-level UAB Civil Engineering courses not included as a requirement in Civil Engineering curriculum may be selected.
5 Students may choose to take either CE 480 offered in fall terms or CE 430 offered in spring terms.

The Department of Civil, Construction, and Environmental Engineering offers six Category A Certificates in the following areas:

- Certificate in Construction Engineering Management
- Certificate in Environmental Engineering
- Certificate in Geotechnical Engineering
- Certificate in Structural Engineering
- Certificate in Sustainable Engineering Management
- Certificate in Transportation Engineering

The requirements are as follows:

- Students must be admitted to the Department as either undergraduate or graduate students in Civil, Construction, and Environmental Engineering
- Certificates require a minimum of 15 semester hours consisting of one required undergraduate course (which will also count toward the BSCE degree at UAB) and four graduate level elective courses in the area of specialization
- Graduate level elective courses taken may be applied to the certificate as well as a MSCE degree
- One course, up to three semester hours, may be transferred from another institution: this may be the required course or one of the graduate level courses
- Only one course listed with an asterisk (*) may be applied to a certificate; i.e., for the transportation certificate, students may apply either CE 649 or CE 658
- Courses taken from UA and UAH by IITS may be applied to certificates
- Elective course may be taken at the 500, 600, or 700 level

### Department of Electrical and Computer Engineering

**Chair:** Murat M. Tanik, Ph.D.

**Degree Offered:**  
BSEE

**Director:** David Green

**Phone:** (205) 934-8440

**Email:** dgreen@uab.edu

**Website:** https://www.uab.edu/engineering/ece/undergrad

The Electrical Engineering program in the Department of Electrical and Computer Engineering at UAB embodies a curriculum of 128 semester hours that is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org. In addition to courses in pre-engineering, mathematics, calculus-based physics, chemistry, and the humanities/social sciences, students take a core of fundamental engineering coursework outside of electrical engineering, a core of courses in the breadth of electrical engineering, and electrical engineering elective courses. A bachelor’s degree in electrical engineering (BSEE) can provide the foundation that a student will need in any of the areas of electrical engineering, including advanced analog and digital electronics, microprocessor applications, biomedical instrumentation, digital computer systems, software systems, electric utility power systems, digital control, industrial electronics, and machinery control.

Each student must complete a senior design team project that comprises six (EE 498 Team Design Project I and EE 499 Team Design Project II) semester hours of coursework.

**Vision**

To be a nationally recognized Department of Electrical and Computer Engineering: a first choice for undergraduate and graduate education

**Mission**

To prepare graduates to be immediately productive and able to adapt to a rapidly changing environment while also creating and applying knowledge for the benefit of Birmingham, the state, and beyond

**Electrical Engineering Program Objectives**

The Electrical Engineering undergraduate program prepares graduates to:

- Succeed in a career or graduate studies in electrical engineering
- Approach problem solving with an engineering mindset
- Grow professionally

The materials engineering program at UAB has a curriculum of 128 total credit hours that has been continuously accredited since 1971 by the Engineering Accreditation Commission (EAC) of ABET. Students can substitute MA 227 and MA 252 for EGR 265 and EE 254.

Materials engineering is about the development, production, modification, and application of engineering materials to meet the specific needs of society. At the base of materials engineering is an understanding of the structures and forces that control the engineering properties of metals, ceramics, polymers, and composites. Students learn how to control the properties of materials, how to select the optimum material and predict its behavior under various environmental and service conditions, and how to alter this behavior through materials design, process, research, and development. Materials Engineers are employed in every major industry, such as medicine or dentistry. The department has very active research programs in metal casting and composite materials.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

The department also offers courses of study leading to the Master of Science and Doctor of Philosophy degrees in materials engineering. These programs are described in the UAB Graduate School Catalog.

Vision
To be an internationally recognized research-oriented department – a first choice for undergraduate and graduate education.

Mission
To excel in research for the benefit of society while educating students at all levels to be immediately productive.

Educational Objectives
Our Materials Engineering undergraduate program will produce functioning professionals who:

- Advance in materials engineering or related professional positions
- Continue to develop intellectually and professionally

First Term 15  
Second Term 15  
Total Hours 30

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111
2. Students may also take MA 227 and MA 252 for Engineering Problem Solving and either the SCI/MA or one SCI/MA/EGR elective.
3. Please refer to the Core Curriculum as specified for Engineering majors.
4. Students may substitute EE 300 Engineering Problem Solving II or PUH 250 Biostatistics for CE 344 Civil Engineering Analysis I if there are scheduling conflicts.
5. Completion of Departmental Honors Program satisfies three credits of either a Materials Engineering Elective or an Engineering/Mathematics/Science Elective.

Department of Mechanical Engineering

Chair: David L. Littlefield

Mechanical engineering is a broad-based discipline that embraces two major areas—mechanical systems and thermal systems. With an understanding of the phenomena associated with these topics, mechanical engineers conceive and design a variety of devices, machines, and systems to meet the needs and desires of a modern economy. Mechanical engineers also engage in other engineering functions such as applied research, development, and management. During the next decade and beyond, mechanical engineers will have a primary role in addressing the problems relating to manufacturing, productivity and safety in the workplace, supply and efficient utilization of energy, transportation, enhancement of the environment, and human rehabilitation.

The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org. The Mechanical Engineering Program embodies a curriculum of 128 semester credit hours. In addition to courses in pre-engineering, mathematics, calculus-based physics, chemistry, humanities, and social sciences, the mechanical engineering curriculum also includes a core of fundamental engineering coursework and advanced courses in thermodynamics, fluid mechanics, heat transfer, mechanics of machinery, and mechanical design. Laboratory experiences are provided in each area to illustrate the application of theory in engineering practice. During the senior year, the curriculum provides for electives that allow specializations in the areas of mechanical systems or energy systems or for further exposure in both areas. With additional coursework, the mechanical engineering program can also be utilized as a pre-health curriculum.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.
Vision
To be a nationally and internationally recognized research-oriented mechanical engineering department—a first choice for undergraduate and graduate education.

Mission
To prepare students to be immediately productive and able to adapt to and lead in a rapidly changing environment and to create and apply knowledge for the benefit of society.

Program Educational Objectives
The Mechanical Engineering Undergraduate Program will prepare graduates to:

- Succeed in Engineering and/or related professional positions
- Continue to develop professionally

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111
2. Please refer to the Core Curriculum as specified for Engineering majors.
4. Course must be approved by ME Undergraduate Program Director.
5. Mechanical systems electives include: ME 430, ME 464, ME 470, ME 475, ME 477, and ME 478.
6. Thermal fluids electives include: ME 411, ME 421, ME 445, ME 448, ME 449, ME 454, and ME 455.
7. Electives with computer-aided engineering content include: ME 421 and ME 464

School of Health Professions

Dean: Harold P. Jones, PhD
Senior Associate Dean for Academic & Faculty Affairs: Donna J. Slovensky, PhD
Senior Associate Dean for Strategic Partnerships & Enterprise Development: M. Patrick McNees, PhD
Associate Dean for Research & Science: David B. Allison, PhD
Assistant Dean for Administrative & Fiscal Affairs: Melanie L. Talbot, MBA, CPA
Assistant Dean for Student Recruitment, Engagement & Success: Tracee M. Synco, PhD
Assistant Dean for Undergraduate Research & Honors: Fred (Ted) Bertrand, III, PhD

The School of Health Professions delivers educational programs to prepare health personnel who will improve the services in health care and the systems through which these services are provided. In keeping with the mission of the University of Alabama at Birmingham, the resources and programs of the school are dedicated to excellence in teaching, research, and scholarly activity and to service to the institution, the community, and the professions represented by programs of the school.

Degree options in the School of Health Professions include undergraduate, master’s, and doctoral programs sponsored by five academic departments – Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy. In addition, minors, certificates, and post-doctoral fellowships are available in some specialized areas. The School sponsors more than 25 degree and certificate options, all of which require students to apply for and be accepted to the specific degree or certificate program.

The School of Health Professions is committed to the practice of ethical standards of conduct. School policies, procedures, and regulations reflect this commitment and are in compliance with those of the University of Alabama at Birmingham. To ensure continued practice of ethical standards, the administration and the standing committees of the school...
SHP Admissions

Entrance requirements for the individual educational programs of SHP vary. Persons desiring admission to a particular program should consult the appropriate section of the University Catalogs for specific entrance requirements, application process, and program information. Students who attend an institution other than UAB are encouraged to seek academic advisement from the intended program as early as possible to plan for completion of program prerequisites.

Application for admission to UAB to complete program entrance or pre-professional requirements at UAB may be made to the Office of Undergraduate Admissions (http://www.uab.edu/students/undergraduate-admissions). Admission to UAB does not guarantee admission to the professional phase of any SHP program.

The School of Health Professions welcomes applications from all individuals who are prepared for the programs offered. All applicants must offer acceptable evidence of ability and intent to meet the academic standards specified by the particular program into which admission is desired. In addition, certain immunizations are required prior to enrollment; see UAB Student Health and Insurance Programs and UAB Immunization Policy. Accepted students are subject to background check and drug screen requirements. Applicants are considered regardless of race, color, religion, gender, sexual orientation, national origin, disability unrelated to program performance, disabled veteran status, or Vietnam era veteran status (see UAB Equal Opportunity Policy). Persons who have not yet decided upon a specific health career may obtain information from the SHP Office of Student Recruitment, Engagement, and Success, School of Health Professions Building, Room 230, 1705 University Boulevard; telephone: (205) 934-4195.

SHP Mission, Vision, Values

The mission of the School of Health Professions is “To improve health care through teaching, research, and translation of discoveries into practice in partnership with the UAB community.” The School vision is, “To be recognized as the leading school of health professions – shaping the future of healthcare.” Fulfilling the mission requires faculty and staff to embrace the following organizational values:

- Accountability
- Collaboration/Cooperation
- Diversity
- Excellence
- Innovation/ Creativity
- Integrity/Ethical behavior
- Open communication
- Professional behavior

SHP First Year Experience

All freshmen admitted to the university are required to complete a first year experience (FYE) course. The FYE sponsored by SHP, HRP 101 Experience the University Transition, is designed to ease the transition between high school and university experiences and to prepare students for success in health professions majors. The course is delivered in a blended seminar/online format. Students interact with faculty, advisers, and other students to learn academic skills and personal lifestyle management tactics to make their freshman experience positive and academically rewarding. Social interaction and engagement in the UAB community are key goals as well.

Core Curriculum

All SHP majors are required to comply with the UAB core curriculum for a baccalaureate degree. However, most professional curricula in the school include specific prerequisite coursework that should be considered in making choices about options within the core curriculum. Students are strongly encouraged to make early contact with academic advisers in the School of Health Professions to plan their course schedules to meet the dual requirements of the core curriculum and the requirements of their chosen major. The courses identified in Area V of the core curriculum (Elective and Pre-professional Credits) differ by major, and are subject to change as programs respond to changes in workforce requirements. Students should work closely with their academic advisers to plan their programs of study during the freshman and sophomore years.

School-Wide Core / Capstone

The School of Health Professions does not specify a common core for all programs. Students must comply with the UAB core curriculum and the degree requirements for their chosen major. All SHP programs include capstone experiences, either a supervised practicum, a didactic course, or a combination of both.

University Requirements

In order to receive a degree at UAB, a student must have a minimum 120 semester hours of acceptable credit.

Interdisciplinary Majors / Minors

Interdisciplinary majors are not offered by the School of Health Professions. Students may elect to pursue any minor available at UAB in addition to their major, but minor study is not required. Several minor options are available in the School of Health Professions.

Minor in Biomedical Sciences

The minor in Biomedical Sciences requires completion of 18 semester hours of coursework; including 12 hours of required BMD courses and 6 elective hours. All courses (including prerequisites) must be completed with a grade of C or better and students must maintain a 2.5 overall GPA. Students must apply to the Biomedical Sciences program for admission to the minor.

School of Health Professions Undergraduate Research and Honors Programs

The School of Health Professions Undergraduate Research and Honors Programs provide experiential opportunities for undergraduate students to develop project leadership and research skills in a team environment to prepare for careers in health care or for graduate study in the health professions. All students' projects are presented publicly in an appropriate professional forum.

SHP Honors Program. A cohort of students is accepted into the SHP Honors Program each year. Admission criteria include a 3.25 GPA and recommendation by the program director of the student's major. Honors students participate in four semester credits of interdisciplinary seminars and a minimum of six semester credits in honors projects under the direction of a faculty and community mentor. Projects may involve community research or service learning activities, and are completed by teams of students. Students who successfully complete all program requirements graduate with School Honors.

SHP Undergraduate Research Opportunities. Students who wish to pursue a mentored research experience outside of, or in addition to, the Honors Program are paired with a faculty mentor to complete a research activity consistent with their goals and abilities that will contribute meaningfully to their mentor's research.

Mentored Research Project. Students who wish to complete individual projects must be registered for Mentored Research in the Health Professions while working with their mentor. Project hours completed will be documented on the student's academic transcript. The number of credit hours allocated to the project is negotiated among the student, the mentor, and the Assistant Dean.

Research Team Experiential Learning. Students may participate in a 3-semester team based research experience that pairs student teams with research mentors, to address research issues. Students participate in a two-credit research/team work/project development course, and then
complete a minimum of six semester hours of research in a team. Teams of students who complete this experience will receive a certificate from the School for their professional portfolios.

For information about application to any honors or research activity, or to make an appointment to discuss required courses and project work, please contact Dr. Ted Bertrand by email at fbrtrnd@uab.edu. Additional information is available on the SHP website at: http://www.uab.edu/shp/home/departments-programs.

**Clinical and Diagnostic Sciences**

The Department of Clinical and Diagnostic Sciences sponsors the B.S. in Biomedical Sciences. Undergraduate degrees in Medical Technology and Nuclear Medicine ended in 2016. Students interested in these degrees should contact the Department to discuss graduate degree options, which are available for both Clinical Laboratory Science and Nuclear Medicine Technology.

**School of Health Professions Honors Program**

The School of Health Professions Honors Program provides opportunities for students in School of Health Professions degree programs to develop leadership and research skills to prepare for careers in health care or for graduate and professional study in the health professions. Students participate in two semester credits of interdisciplinary seminars and four semester credits in honors projects under the direction of a faculty mentor. Projects may involve research, service learning, or leadership activities. The student’s project, whether scholarly, service, or leadership, is presented publicly in an appropriate professional forum. A limited number of students are accepted into the Honors Program each year. Admission criteria include a 3.25 GPA, recommendation by the program director of the student’s major, and a letter of support from their faculty mentor. Students who successfully complete the program graduate with School Honors.

**Biomedical Sciences**

**Program Director:** Kari J. Dugger, PhD

The B.S. in Biomedical Sciences program curriculum is designed to prepare students for entry into the biomedical science workforce or for graduate and professional study in the health professions. Many of the prerequisites for admission to identified graduate programs can be incorporated into the student’s program of study. This allows students to create a tailored undergraduate educational experience to prepare for further study in an area of choice such as physician assistant studies, medicine, dentistry, optometry, physical therapy, biotechnology, clinical laboratory science, genetic counseling, and many more.

**Admission Requirements**

Admission options are based on the student’s previous academic work and personal interests. Students intending to enroll in the B.S. in Biomedical Sciences program must meet all UAB undergraduate admission and academic requirements. The following additional requirements also apply and must be met prior to acceptance into the Biomedical Sciences program.

**Program Admission from High School**

Must be a graduate of an accredited high school with a grade point average of a 2.75 or higher on a 4.0 scale for admission. Achieved an ACT Composite Score of 22 or higher. Must place in College English 101 or higher and College Math 105 or higher. Must meet all UAB undergraduate admission and academic requirements.

If accepted, complete the UAB medical history questionnaire and physical, provide proof of required immunizations, and receive satisfactory screening by the UAB Medical Center Student Health Service. If accepted, a background check and drug screening will be required at admission and again prior to any practicum placement.

**Program Admission from Community College or University, including UAB**

Must meet all UAB undergraduate admission and academic requirements. If accepted, complete the UAB medical history questionnaire and physical, provide proof of required immunizations, and receive satisfactory screening by the UAB Medical Center Student Health Service. Must hold a 2.75 or higher Overall GPA on a 4.0 scale for admission to the Biomedical Sciences Program. If accepted, a background check and drug screening will be required at admission and may be required again prior to any practicum or lab placement.

**Other Biomedical Sciences Program Requirements**

Grades of C or better are required for any Biomedical Sciences coursework. A minimum of 2.75 Overall GPA and 2.00 UAB institutional GPA must be maintained to remain enrolled in the B.S. in Biomedical Sciences program.

**Application Procedure**

Applicants are accepted at any time, and students may be enrolled during any term. Applicants should submit the following materials:

To the UAB Undergraduate Admissions Office:

- Completed UAB undergraduate application form, including SHP as the school, and application fee, if applicable (if enrolled at UAB in another major, complete a Change of School/Major Request using the online form available on BlazerNET (https://www.uab.edu/blazernet)).
- Official transcripts from each college or university attended

**Recommended Courses Core Curriculum**

Students, in consultation with their academic advisor, should sequence coursework to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog.

Although the courses listed below are recommendations, students are required to earn a satisfactory grade in MA 106 or MA 125 for the major.

Area II (non-Literature option): CMST 101

Area III Mathematics: MA 106 or MA 125
Contact for additional information:
B.S. in Biomedical Sciences Program (BMD) Program
School of Health Professions Building
University of Alabama at Birmingham
1705 University Boulevard
Telephone: (205) 996-4721
Email: bmd@uab.edu (askCDS@uab.edu)
Web address: http://www.uab.edu/shp/cds/biomedical-sciences

The Biomedical Sciences (BMD) program has partnered with several graduate programs to provide students with enhanced opportunities to prepare for graduate professional education.

Early Acceptance Program with M.S. Degree in Clinical Laboratory Science

Qualified BMD juniors must have an overall GPA of 3.0 and a prerequisite GPA of 3.25, a GRE of 305, and must have a demonstrated interest in CLS. In consultation with the CLS Admissions Coordinator and BMD advisor, BMD students with provisional admission to the CLS program will take selected graduate level courses to meet BMD degree or elective requirements. These competencies would then be waived for the CLS master’s program. For more information, contact the Program Director for Clinical Laboratory Sciences or the BMD adviser.

Early Acceptance Program with M.S. Degree in Nuclear Medicine Technology

Qualified BMD juniors must have an overall GPA of 3.0 and a science GPA of 3.25, and must have a demonstrated interest in NMT. BMD students with provisional admission to the NMT program must complete all required NMT prerequisites, and will take selected graduate level courses to meet BMD degree or elective requirements. For more information, contact the Program Director for Nuclear Medicine Technology or the BMD adviser.

4 + 1 Partnership with M.S. Degree in Biotechnology

Qualified BMD juniors (at least 60 hours of course work) must have an overall GPA of 3.25 and demonstrated interest in BT. In addition, BMD students must take the GRE or MCAT by the second semester of their junior year and have a GRE combined score of at least 300, or a MCAT score of 28. BMD students who are admitted to the 4+1 program will take selected BT courses to fulfill BMD degree or elective requirements. These competencies would then be waived for the BT master’s program. For more information, contact the Program Director for Biotechnology or the BMD adviser.

Early Acceptance Program with PharmD Degree at the Lake Erie College of Osteopathic Medicine

This opportunity is available for BMD majors prior to their third year of study, who are interested in obtaining a doctorate in Pharmacy after graduation. Students who qualify for admission into both the BMD program and the LECOM EAP program, and maintain qualifying EAP LECOM credentials until completion of the BMD program will be admitted into LECOM PharmD program. More information can be found here:

http://lecom.edu/admissions/entrance-requirements/early-acceptance-programs or by contacting the BMD program director at BMD@uab.edu.

### Health Services Administration

The Department of Health Services Administration sponsors degree programs at the doctoral, master's, and baccalaureate levels, including a baccalaureate program in Health Care Management, and undergraduate minors in Health Care Management, Health Information Management, and Clinical Coding and Reimbursement.

### Health Care Management

**Program Director:** Bryan K Breland, DrPH, JD, MPA

The Bachelor of Science in Health Care Management (HCM) was established at UAB in 1982. The program prepares graduates to be effective leaders in mid-level management positions in all types of health care organizations, including hospitals, ambulatory care centers, physician practices, long term care facilities, home health care agencies, and more. Job and career growth opportunities for midlevel managers in the health care industry are very good. Many changes are occurring in our healthcare delivery system that require well educated and technically trained individuals in operational management positions.

More than 900 individuals have graduated from the program to date, and approximately 450 students are currently enrolled. The HCM degree offers a pathway into entry- and mid-level management careers for some and serves as a foundation for success in graduate-level academic or professional degree programs for others. Career opportunities for HCM graduates exist in acute care facilities, physician practices, long term care, managed care, ambulatory care, corporate health programs, public health, pharmaceutical sales, and numerous companies providing consulting and vendor services in the healthcare industry.

There are six focused HCM curriculum tracks available to students based on the student's previous academic work, current professional status, personal interests, and future goals:

- **General Manager** track prepares students for leadership positions managing health operations, developing a vision and strategies for growth, and to ensure patients receive high quality and efficient care.
Students in this track complete the professional curriculum courses and electives selected in collaboration with the HCM student adviser.

- Clinical Manager track is restricted to graduates of certificate and/or associate degree programs who are credentialed or licensed in a health professions discipline. Graduates of this track typically apply their management and leadership skills in facilities or organizational units that provide services in their clinical discipline.
- Pre-professional track is designed for undergraduate students whose academic goal is completion of a master’s level graduate or professional degree program such as health administration, health informatics, occupational therapy, physical therapy, biotechnology, surgical physician assistant, medical school, dental school or other graduate level health professions programs. Prerequisites for admission to identified graduate programs can be incorporated into the program curriculum.
- Long Term Care Administration track is for individuals intending to pursue a career in long-term care, including those who will manage resident care facilities. The curriculum prepares students to test for licensure as a long term care administrator.
- HCM - Occupational Therapy Fast Track allows qualified students entering UAB as a freshman to complete the BS in Health Care Management and the MS in Occupational Therapy in five years. This option will benefit those students who plan to test for licensure as occupational therapists by reducing the number of courses and time required to obtain the BS and MS degrees separately.
- HCM - Health Informatics Fast Track allows qualified students to complete the BS in Health Care Management and the MS in Health Informatics in four years, including summers.

Admission Requirements

Students intending to enroll in the Health Care Management program must meet all UAB undergraduate admission and academic requirements. The following additional requirements also apply for admission and progression in the HCM program.

Program Admission from High School

Entering freshmen are admitted to the HCM-HI or HCM-OT Fast Tracks or the General Manager Track for the first year and may elect to transition to the Pre-professional or Long Term Care Administration Tracks in the sophomore year, if qualified. The Clinical Manager Track requires previous post-secondary work and is not available directly from high school.

General Manager Track

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 2.5 or higher on a 4.0 scale.

HCM Occupational Therapy Fast Track

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must have achieved an ACT Composite Score of 24 or higher.
- Must be eligible for placement in EH 101 and MA 105 or higher.

HCM Health Informatics Fast Track

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must be eligible for placement in EH 101 or MA 105 or higher.

Program Admission From Community College or University, Including UAB

General and Clinical Manager Tracks

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 2.5 or higher on a 4.0 scale.
- Must have a UAB institutional GPA of 2.5, if applicable.
- Clinical Manager track is restricted to graduates of certificate and/or associate degree programs who are credentialed or licensed in a health professions discipline.

Pre-professional and Long Term Administration Tracks

- Must be a graduate of an accredited high school.
- Must have a high school grade point average (GPA) of 2.75 or higher on a 4.0 scale.
- Must have a UAB institutional GPA of 2.75, if applicable.
- Students admitted to General Manager track who wish to transfer to Pre-Professional or Long Term Care Administration tracks must meet the minimum 2.75 overall and institutional GPA.

HCM - Occupational Therapy Fast Track

- Must be a graduate of an accredited high school.
- Must be a freshman with less than 30 hours of coursework at the time of transfer.
- Must have an overall grade point average (GPA) of 3.0 or higher on a 4.0 scale.
- Must have an ACT Composite Score of 24 or higher.
- Have or be eligible for placement in EH 101 or MA 105 or higher.

HCM - Health Informatics Fast Track

- Must be a graduate of an accredited high school.
- Must be a freshman with less than 60 hours of coursework at the time of transfer.
- Must have an overall grade point average (GPA) of 3.25 or higher on a 4.0 scale.
- Have or be eligible for placement in EH 101 or MA 105 or higher.

Drug Screen and Background Check

Students are required to complete a background check and drug screening upon admission to the program and again prior to internship placement by School policy. Instructions for requesting the background check and appropriate consent forms are provided at the time of the program admission.

Application Procedure

Applications are accepted by UAB at any time. Students may begin the program at the start of any full academic term. Applicants should submit the following materials:
To the UAB Undergraduate Admissions Office:

- Completed UAB undergraduate application form, indicating SHP as the school, and application fee, if applicable https://idm.uab.edu/myuab/login?from=ugadmapp
- Official transcripts from each high school, college, or university attended.

The student should request an appointment with the program manager/advisor prior to the term of initial enrollment. It is essential to have transcripts of previous coursework during the enrollment interview.

Bachelor of Science with a Major in Health Care Management

Grade and Residency Requirements

- 2.5 G.P.A. (overall and institutional) required for the Clinical Manager and General Manager Tracks.
- 2.75 G.P.A. (overall and institutional) required for the Pre-Professional and Long Term Care Administrator Tracks.
- 3.0 GPA required for the HCM OT Fast Track; grade of B required in all prerequisite coursework for the HCM OT Fast Track.
- 3.2 GPA required for the HCM HI Fast Track; grade of B required in all prerequisite coursework for the HCM HI Fast Track.
- Internship required during final semester, after all didactic coursework is completed.

Prerequisites Requirement

Select one of the following: 3

- MA 105 Pre-Calculus Algebra (or higher)
- MA 110 Finite Mathematics (Only accepted with approval from the Program Director for the Clinical Manager Track)

School of Nursing

Dean: Doreen C. Harper, PhD, RN, FAAN
Senior Associate Dean for Academic Affairs: Linda Moneyham, DNS, RN
Associate Dean for Clinical Affairs and Partnerships: Cynthia S. Selleck, DSN, ARNP
Associate Dean for Research and Scholarship: Karen Meneses, PhD, RN, FAAN

Mission of the School of Nursing

The University of Alabama at Birmingham School of Nursing, as part of a research university and academic health center, shapes patient-centered health care by preparing recognized nurse leaders who excel as clinicians, researchers, and educators in Alabama, nationally and internationally.

Approvals/Accreditation

The University of Alabama at Birmingham (UAB) is accredited by the Southern Association of Colleges and Schools (SACS). The School of Nursing is approved by the Alabama Board of Nursing and is accredited by the Commission on Collegiate Nursing Education (CCNE).

Bachelors in Nursing (BSN) Degree

Baccalaureate preparation in nursing is the basic educational level for entry into professional nursing practice. This foundational education includes both academic and professional nursing courses that provide a base for clinical competence and informed judgments about health and patient care in a variety of settings. These settings include, but are not limited to, home/community agencies, outpatient/ambulatory care, and hospital-based practice ranging from chronic to high acuity. Baccalaureate nursing education builds upon knowledge acquired from the humanities and biological, physical, social, and behavioral sciences. By engaging in state-of-the-art technologies, simulations, and other teaching strategies, the graduate is prepared to care for families and individuals of all ages. The integration of principles of nursing research and principles of leadership and management also assist the graduate to function as an informed member of an interdisciplinary health team. Graduates of the program are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to become a registered nurse (RN).
Student Learning Outcomes
The BSN Curriculum is designed to prepare graduates for entry into professional nursing practice. This foundation offers both academic and professional nursing courses that provide the base for clinical competence and informed judgments about health care situations and care of patients in both in- and out-patient settings. The curriculum prepares nurses to:

• Apply knowledge from diverse liberal arts educational content to generalist nursing care principles and practice experiences.
• Incorporate a basic understanding of organizational systems and the application of knowledge and skills needed to provide safe, quality care to individual patients and to function as part of an interprofessional team.
• Participate in and utilize structure, process, and outcome measures to evaluate the implementation of patient safety and quality improvement initiatives.
• Demonstrate and understanding of the basic elements of the evidence-based practice and participate in the retrieval, appraisal, and application of best practices.
• Demonstrate skills in the ethical use of healthcare information communication technology (ICT) and how technology supports safe practice and examination of patient data for outcome analysis.
• Demonstrate skills in the ethical use of healthcare policy, advocacy, global health, legal, and regulatory issues as factors that may influence healthcare delivery and practice.
• Utilize effective intra and interprofessional communication skills to advocate for evidence-based, holistic care as a member of the healthcare team.
• Assess determinants of health in relation to multiple factors (genetics, environmental exposure, family history, individual health, and hearth preferences) to guide and advocate for the delivery of hearth promotion/disease prevention strategies.
• Apply knowledge of nursing history, nursing history, nursing standards, ad one's own beliefs and values to the application of professional nursing behaviors, communication, and actions.
• Practice safe, evidence-based, compassionate, holistic, and patient and family centered care applying knowledge of leadership and healthcare delivery for individuals and communities.

BSN Admission for Traditional Students*
Admission decisions are competitive based on the applicant’s overall academic record and criteria described below.

Admission Criteria

• The minimum cumulative GPA and minimum foundation cumulative GPA for all traditional BSN applicants is 2.75 at the time of application (includes transfer students). Admission is competitive and is based on space available. A minimum cumulative GPA of 2.75 does not guarantee admission to the School of Nursing.
• Students are eligible to apply when they have successfully completed a minimum of 41 semester credit hours. Successful completion of all pre-nursing foundation courses with a "C" or above must be met prior to matriculation into the nursing program.

Students offered admission to the SON who are enrolled in pre-nursing coursework must make a “C” or better in every foundation course for the nursing major. The final minimum cumulative/overall Nursing Foundation Coursework GPA must be a 2.75 or greater on all coursework must be met prior to matriculation into the nursing program.

• Admission decisions are highly competitive and based on the applicant’s academic record and application at the time of the application deadline. *All grades (UAB and other colleges/universities) from previous terms must be posted on applicant's UAB transcript by the application deadline.
• A resume, outlining health care interest/experience, campus/community involvement, leadership, employment, etc. will be due by the application deadline. Resumes should not be more than one page in length and should only include activities after graduation from high school.
• Applicants are strongly encouraged to provide proof of work/volunteer experience in a healthcare setting as part of the application process. The healthcare work is to be documented by letters from a supervisor (on agency letterhead) and/or time sheets and must consist of a minimum of 60 hours of paid or volunteer work in a healthcare setting. Completion of a nursing skills course does not meet this criterion for BSN applicants.
• Applicants to the School of Nursing are strongly recommended to demonstrate a record of full-time study and a minimum number of course repeats/grade forgiveness options.

Special Options for Traditional BSN Admission

UAB Dean’s Nursing Scholars Program
• UAB Dean’s Nursing Scholars Program for Entering Freshmen is a special early admission option for academically qualified high school seniors who have an ACT score of 24 or above or a composite SAT score of 1130 (old), 1680 (new) and a minimum cumulative GPA of 3.2. This option insures admission to the nursing program as long as a minimum GPA of 3.2 is maintained in the BSN foundation courses and a minimum cumulative GPA of 3.0 is maintained. Students who apply for this program can only use 12 hours of dual enrollment coursework from high school.

http://www.uab.edu/nursing/home/special-initiatives/scholars-programs

Prior to Enrollment for Upper Division Nursing Courses

• CPR certification will be due prior to registration for upper division courses (listed are approved courses)
• American Heart Association’s Healthcare Provider Course (Course C or BLSC)
• American Red Cross’ Professional Rescuer Course
• Medical Clearance, a Background Check, and a Drug Screen are required prior to beginning class for all upper division nursing courses and must be maintained throughout the program until the student graduates. Failure to comply may result in administrative withdrawal from the program.

Application Deadlines
Fall and Spring admission dates listed at - https://www.uab.edu/nursing/home/student-information/acad-prog/application-deadlines

All transfer students must be admitted to the University one month prior to the School of Nursing application deadline.
Applicants will receive an admissions decision a minimum of 4 weeks after application for the semester for which they are applying.

Future updates on the BSN admission process will be posted on the School of Nursing website (www.uab.edu/nursing) and will be available from your Pre-Nursing Advisor. If you have any questions concerning these changes, please feel free to contact the School of Nursing Office of Student Affairs at http://www.uab.edu/nursing/home/student-information/contact-us.

Traditional Students are those students who seek to enter the Undergraduate BSN program and are not a RN.

Additional Requirements

Pre-application Credit Hour Requirement
Successful completion of all core and pre-nursing requirements and a minimum of 41 semester hours are prerequisites for admission to the School of Nursing. Final coursework may be in progress.

Grade of C or greater required for all core, pre-nursing and major in nursing courses and a minimum of a 2.75 for the core, pre-nursing and major in nursing courses to be considered for application.

Pre-application mandatory meeting with pre-nursing advisor
In order to apply to the School of Nursing, all students must meet with their pre-nursing advisor to evaluate completion of all School of Nursing requirements for application and receive a Certificate of Advisement used to obtain an application for the School of Nursing

Freshman Year Experience
Students entering UAB with less than 24 credit hours who plan to enter the nursing program are required by the University to take a 2 hour approved Freshman Year Experience course in order to graduate. This increases the total number of credit hours to 127 that is required for graduation from the BSN program for these students

BSN Course Requirements

BSN Foundation Courses
Grades for these courses will be used to calculate the BSN Foundation grade point average used in the determination for admission to the BSN program; a minimum grade of C is required in each course.

#### Second Degree BSN Students Course Requirements

- **Traditional Entry** [http://www.uab.edu/nursing/home/student-information/acad-prog/bsn](http://www.uab.edu/nursing/home/student-information/acad-prog/bsn)
- **Accelerated Entry** [http://www.uab.edu/nursing/home/student-information/acad-prog/amnp](http://www.uab.edu/nursing/home/student-information/acad-prog/amnp)

Individuals who have completed a previous undergraduate degree, outside the field of nursing, and who have met the UAB criteria for School of Nursing admissions, may be considered for admission to the School of Nursing at the University of Alabama at Birmingham (UAB) Bachelor of Science of Nursing (BSN) program or the Accelerated Master's into Nursing Pathway (AMNP). Second-degree students seeking the BSN degree are admitted fall and spring terms. The AMNP program is a graduate level program, and results in a Master of Science in Nursing and admits in the spring term.

#### Second Degree Applicant Requirements

- Earned at least a bachelor’s degree in a major other than nursing at a regionally accredited institution.
- A pre-nursing foundation course GPA of at least 2.75 and an overall GPA of 2.75 OR A pre-nursing foundation course GPA of at least 2.75 and a GRE General Test score of: 293 (or 1000 on previous scale) on the Verbal and Quantitative sections and; 4 or better on the analytical writing skills portion.
- Submit all material, follow the same processes, and adhere to the same deadlines/requirements as all other undergraduate BSN applicants.
- Admission as a degree-seeking, pre-nursing student through the UAB Office of Undergraduate admissions. The on-line application for the UAB Office of Undergraduate Admissions is available at [https://www.uab.edu/home/apply-for-uab-admission](https://www.uab.edu/home/apply-for-uab-admission) along with contact information.
- Advisement with an assigned Pre-Nursing Advisor is a requirement for application to the School of Nursing.
- Once admitted as an undergraduate pre-nursing student to UAB, you will be notified through an offer of admission letter to contact your assigned Pre-Nursing Advisor at (205) 975-7529 for pre-nursing academic advisement.
- Second degree students are eligible for the Honors in Nursing Program.

The following prerequisite courses (32 credit hours) must be successfully completed (with a grade of C or greater) prior to the student being considered for admission to the undergraduate program in the School of Nursing:

Total Hours 32

1 If a student takes Microbiology at UAB, please contact your pre- nursng advisor for appropriate required course. Otherwise, a second science with lab may be substituted (excluding Geology and Astronomy).

Second-degree applicants must submit all material, follow the same processes and adhere to the same deadlines and requirements as all other undergraduate BSN applicants. The upper-division Nursing course requirements (66 credit hours) and the length of the program (five semesters) for second-degree applicants/students are the same as for the basic BSN applicants/students.

For information related to specific programs of study please refer to the School of Nursing catalog.

**Proposed Program of Study for a Major in Nursing**

Students may deviate from this curriculum plan only with the permission of the BSN Program Coordinator/Honors Program Coordinator.

Students entering UAB with less than 24 credit hours who plan to enter the nursing program are required to take a 2 hour approved Freshman Year Experience course in order to graduate.

Total Hours: 13

1 The nursing elective may be taken any term prior to graduate but the recommended time is for the summer semester between the Junior and Senior year.

**Honors in Nursing**

**Purpose**

Provide research experiences that engage students, faculty, and staff with the community to identify and meet community needs and to enhance academic engagement.

**Eligibility**

Acceptance into the Nursing Honors Program requires the student to:

- Be accepted into the School of Nursing
- Have earned a 3.40 GPA in Foundation courses
- Have earned a 3.00 GPA UAB and overall GPA
- Have submitted the Honors Program Application Form
- Have been selected by Honors Committee from application, transcript evaluation, and interview
- BSN, Second degree BSN students, and RN-BSN Mobility students are eligible for participation in the nursing honors program

**Requirements**

- Maintenance of a 3.00 GPA (UAB) and a 3.25 GPA in nursing courses through graduation.
- Completion of a minimum of 6 credit hours designated for honors clinical courses/seminars.
- An oral or poster presentation at a designated meeting in the School of Nursing, professional meeting or scientific session.

**Benefits**

Students who successfully complete the program will receive a certificate of acknowledgement at the UAB Honors Convocation and will graduate “With Honors in Nursing”. Students who participate in both the UAB Honors program and the School of Nursing Honors program will graduate “With University Honors in Nursing”.

The UAB Honors in Nursing Program endeavors to offer specific students enrichment opportunities beyond the traditional courses. Comprised of three courses that encompass six credit hours, the program adds three additional credit hours to the standard curriculum. A detailed explanation of the three semester hours of coursework include:

- A focus on the introduction to nursing research, research ethics and the fundamentals of research critique. In addition, research groups are created and assigned to an established/funded research teams.
(most congruent with the students identified research interest when possible). While students do not actively participate in the research team until semester three of the program, each student group completes an annotated bibliography specific to the research question of their team.

1. A focus on the introduction to nursing research, research ethics and the fundamentals of research critique. In addition, research groups are created and assigned to an established/funded research teams (most congruent with the students identified research interest when possible). While students do not actively participate in the research team until semester three of the program, each student group completes an annotated bibliography specific to the research question of their team.

2. Additional research education that includes research terminology, design, strengths/limitations of select designs, sampling principles, data interpretation, and dissemination. At the conclusion of semester two, each group builds upon the annotated bibliography to complete a review of the literature paper specific to the primary research question of the team.

3. Completion of a 90-hour practicum as a member of their assigned research team and engagement in activities across the research spectrum. Each group develops an abstract and presents a poster at the UAB Undergraduate Research Expo that highlights the specific work completed during the practicum.

Admission Requirements for the BSN Degree: RN-BSN Option
The RN-BSN Option for registered nurses (RNs) is distance-accessible program with a one-time, 2 day on campus intensive requirement. The program is designed to provide an opportunity for advanced placement in the program of nursing studies for individuals with previous nursing knowledge and/or experience. The RN-BSN Option is open to any student who has submitted evidence of successful completion of an accredited diploma or associate degree nursing program and who is licensed to practice as an RN. Admission to the RN-BSN Option is available in the fall and spring terms.

Upon admission to the School of Nursing, RNs can earn their BSN in as few as 2 terms; however, the curriculum plan can be individualized for students who choose to decelerate their pace due to other commitments (average time for completion is 3 to 4 terms).

Requirements for admission include the following:

- Admission grade point average of at least 2.5 on a 4.0 scale.
- A grade of at least "C" in Human Anatomy, Human Physiology, Microbiology, and Descriptive Statistics. There are no time limits on general studies courses for RN-BSN Option students.
- Evidence of successful completion of an accredited diploma or associate degree nursing program and a current license to practice as a registered nurse in the state in which you will do your practicum course.
- Advisement with the Student Nurse Recruiter at the School of Nursing (can be done before applying to UAB).
- RN-BSN Option students are eligible for the Honors in Nursing Program.

Admission is based upon the academic record, admission application, and all supporting documents.

Additionally, RN-BSN Option students entering the RN-BSN Option who have a Bachelor’s degree from a regionally accredited school with a minimum of 120 credit hours will be exempt for all general studies requirements except for Area V requirements. Students can ask for an exemption from Area V courses based on a review of transcripts and resume/CV by the RN-BSN Option Coordinator. Descriptive statistics would not be included in this exemption.

**Student with a bachelor's degree may also qualify for the ADN to MSN option. https://www.uab.edu/nursing/home/student-information/acad-prog/msn

</tr>
</tbody>
</table>

1 36 credits of validated courses from previous nursing content will be awarded after successful completion of NUR 474, NUR 475, NUR 381, and NUR 347.
2 Students may replace these courses with graduate level nursing courses, after meeting with their faculty advisor.

Students planning to continue towards the MSN Degree

A student may qualify for substitution of up to two courses from their RN-BSN Option courses as listed above. Any course substituted will go towards the students BSN degree, and will be waived from their master’s degree requirements if the course is part of that master’s specialty coursework.

A student will need to apply for the masters of nursing program through the on-line graduate application.

For admission in good standing to the MSN program:

- Cumulative grade point average of at least 3.0 on a 4.0 scale, or on the last 60 semester hours.
- A score of 410 on the MAT; or a combined score of 293 (or a 1000 on the previous scale) on the verbal and quantitative sections of the Graduate Record Examination (GRE) or a score of 480 on the GMAT.
- Letters of professional reference attesting to the applicant’s potential for graduate study.

GRE, GMAT, and MAT are waived for students with a 3.2 or better GPA. The GRE/GMAT/MAT Waiver Process allows eligible candidates for
masters’ study to have the requirement of satisfactory GRE, GMAT or MAT scores waived for admission if the student has BSN Grade Point Average (GPA) of 3.2 or above on a 4.0 scale. Students in the RN-BSN-MSN option must maintain a cumulative grade point average of at least 3.0 and follow their approved curriculum plan.

School of Public Health

About the School of Public Health

The School of Public Health was established in 1978 when Dr. William Bridges established a program to address community health problems. His activity captivated a great deal of press and attracted the attention of Dr. Jarvis Ryals, a neurologist, 1965 UAB graduate, and donor. He initiated the creation of the building that the school now occupies and requested that it be named after his parents.

For over thirty years, the School of Public Health has continued Dr. Bridges’ crusade to improve health and living conditions in local Alabama communities and has expanded that vision to all areas of the world. Through research, education, and community outreach, we address community and global health problems and train the next generation of innovative public health workers.

The mission of the School of Public Health is to lead in developing, disseminating and applying knowledge to prevent disease and promote health in the human population. Because of its inherent breadth, public health is comprised of many disciplines. Thus the school achieves its mission by bringing the various disciplines together to educate individuals who will be working to prevent disease and improve the health of the school’s constituent populations. These individuals include experienced public health and other health professionals, undergraduates with education backgrounds in the sciences, and persons from developing countries with health-related backgrounds. An implicit part of this mission is a commitment to increase and validate, through research and practice, the body of knowledge upon which the school’s educational programs are necessarily based.

Contact Information

Dean: Max Michael, MD
Associate Dean for Graduate Programs: Peter M. Ginter, MBA, PhD
Assistant Dean for Undergraduate Programs: Suzanne E. Judd, PhD
Undergraduate Student Advisors: Nicole Gravitt, MA, NCC
Advisor’s Contact Number: (205) 934-4993
Major Offered: Bachelor of Science in Public Health
Minor Offered: Public Health
Website: www.soph.uab.edu/undergraduate

Bachelor of Science in Public Health Competencies

- Understand historical milestones in public health and how they influence current practice.
- Explain disease processes from a biological, environmental, social and behavioral perspective.
- Identify the role of health disparities in studying the health needs of communities and improving population health.
- Describe how data and study design methodology are utilized in quantifying public health problems.
- Communicate public health approaches, messages, and findings effectively both orally and in writing.

Bachelor of Science in Public Health Degree Concentrations

The bachelor’s degree is designed to give students a foundational understanding of public health issues and methods. The UAB School of Public Health will offer a Bachelor of Science in Public Health with concentrations in the following three areas:

- Environmental Health Sciences Concentration
- Global Health Studies Concentration
- Public Health Concentration

website: http://www.soph.uab.edu/bachelors
Catalog: www.soph.uab.edu/undergraduate

Bachelor of Science with a Major in Public Health

The B.S in Public Health degree program will train students in multidisciplinary approaches to public health practice and research. The degree will explore both quantitative and qualitative aspects of public health at all levels of analysis. Graduates will advance, through employment or further education, to become the new generation of public health professionals prepared to face the emerging challenges to human health from a population perspective.

The B.S. degree in Public Health will be offered through the UAB School of Public Health which is the only Council on Education for Public Health (CEPH) accredited degree in the state. The Public Health major will provide a broad and rigorous sequence of courses in biostatistics, epidemiology, public health systems, behavior science, and environmental health sciences. Students must choose one of the following concentrations: public health, environmental health sciences, or global health studies.

Program Completion Requirements

- Credit hours required in major: 27 hours plus a 1 hour first year experience course
- Credit hours required in concentration: 18 hours
- Credit hours in institutional general education or core curriculum: 41 hours
- Credit hours in required or free electives: 34 hours
- Total credit hours required for completion: 120 hours

A concentration in Environmental Health Sciences will prepare you to protect both the environment and workers by identifying and eliminating health hazards. The environmental health sciences concentration will teach you to identify toxins and their effects on human and natural populations. Environmental scientists work in public and private sector careers to address problems such as pollution, water safety, and ecosystem protection.

Environmental Health Sciences Concentration

A concentration in Environmental Health Sciences will prepare you to protect both the environment and workers by identifying and eliminating health hazards. The environmental health sciences concentration will teach you to identify toxins and their effects on human and natural populations. Environmental scientists work in public and private sector careers to address problems such as pollution, water safety, and ecosystem protection.

Public Health Honors Track

Students may consider pursuing school honors by applying to the Honors Track. The following requirements must be met in order to be considered for the school wide honors.

1. Take the Sophomore Seminar Course (PUH 292) and receive a grade of B or better
2. Must have 3.0 university GPA and have completed 60 hours of coursework with at least 24 hours of PUH course work to apply for the honors track ($500 scholarship if you are accepted)
3. Maintain a 3.0 after admitted
4. Identify a faculty mentor within 3 semesters of graduation
5. Complete additional experiential learning outside of course work totaling: 20 hours of service to the school, 40 hours of practice to the profession, and 40 hours of research. All hours must be reviewed and approved by faculty mentor.

Bachelor of Science in Public Health with a Concentration in Global Health Studies

Global Health Studies Concentration

As a student in the Global Health Studies concentration you will learn about health conditions that affect people around the world and associated challenges that make these issues difficult to address such as poverty, cultural beliefs, and population dynamics. This program will prepare you to work both locally and globally in public health by studying the effects of disease and learning how to plan and implement public health programs.

- PUH 450 - Statistical Programming and Database Analysis
- PUH 491 - Directed Study in Public Health
- PUH 498 - Undergraduate Research in Public Health
- GHS 320 - Global Health Service Learning (service learning)
- GHS 420 - Field Studies: Jamaica (service learning)
- GHS 429 - Intensive Global Health Training - SIFAT (service learning)

**Minor in Public Health**

Public Health is an exciting and growing field of study. The field challenges its professionals to confront complex health issues, such as improving access to health care, controlling infectious disease, and reducing environmental hazards, violence, substance abuse, and injury. A Bachelor in Public Health is an undergraduate degree, which trains students in the essential skills needed to plan, initiate and manage healthcare programs. Research has shown the impact of healthy lifestyles on the rate of incidence of illnesses and on increasing longevity; hence, public health is now considered a very significant area of study.

AAS-African American Studies Courses

Courses

AAS 100. African American Studies Seminar. 1 Hour.
AAS 100 is an initial course that introduces new majors and minors to the field and the African American Studies Program. Emphases will be placed on exploring the history and development of the AAS Program, major and minor requirements, internship and service learning opportunities and career options. Required of all new majors & minors.

AAS 150. Let’s BMEN. 1 Hour.
Given the historical and current retention rate at colleges/universities in the U.S.; this class is designed to assist young scholars in navigating an academic environment. This course will explore issues such as masculinity, cultural identity, leadership and education relative to African American males. It seeks to provide students with tools and strategies that can be employed as they matriculate though their college experience.

AAS 165. Jazz Styles: History and Appreciation. 3 Hours.
American jazz with emphasis on instrumental and vocal performers, jazz bands, and combos. Development of big band, swing, and popular music.

AAS 200. Introduction to African-American Studies. 3 Hours.
Examination of seven core areas of African American Studies: History, Religion, Social Organization, Politics, Economics, Creative Production, and Psychology. Emphasizes major thematical theoretical and critical discourses of Black Studies, and its emergence as a political/social movement and discipline. Relates the latter to the complexity and diversity of contemporary movements such as Civil Rights, Free Speech, Black Power, and Afro-centricism. Majors and minors in African American Studies should complete this course before enrolling in any higher level AAS course. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

AAS 201. Honors Introduction to African American Studies. 3 Hours.
An advanced study of African American Studies as a discipline. Examines the seven core areas of the field with an emphasis on the major theories, critical discourses, and the emergence of Black Studies as a field of inquiry.

AAS 220. History of Sport: The African American Experience. 3 Hours.
This course provides a socio-cultural and historical overview of the African American athletes (male and female) that contributed to sports as we know them today. Focus will begin on the historical figures that helped shape sports culture and will continue into discussions about the role African-Americans play in collegiate and professionals sports today.

AAS 223. African-Amer Hist to Civil War. 3 Hours.
Survey of the African American experience from Pre-Colonial Africa to the End of the Civil War.

AAS 224. African American History Since 1865. 3 Hours.
Survey of late 19th century to present African American history.
AAS 250. Special Topics in African-American Studies. 3 Hours.
Specific topic in African American Studies.

AAS 260. History of Afro-Latin America. 3 Hours.
This course surveys the history of those countries of Latin America, e.g. Cuba, Brazil and Colombia, that comprise the heart of the New World's African diaspora, having received most of the roughly 10 million Africans brought to Latin American shores during the centuries-long transatlantic slave trade. It explores the dramatic experiences of Afro-Latin Americans including their roles in the destruction of slave systems, creation of nations based on democratic principles, and rise of vibrant multicultural societies.

AAS 290. Writing in African American Studies. 3 Hours.
Course offers students continued practice in reading, research, and writing central to academic investigation and to interdisciplinary approaches. Develops skills in writing across disciplines and critical thinking. Emphasizes readings on diverse, contemporary, and multicultural issues in African American Studies. Writing, Ethics and Civic Responsibility are significant components of this course.

AAS 300. African American Music. 3 Hours.
Survey, history and appreciation of African derived music and its presence in the United States from its earliest forms in spirituals, blues and jazz to contemporary forms of be-bop, hip-hop, reggae, and rap.

AAS 301. History and Tradition of Gospel Music. 3 Hours.
The purpose of this course is to broaden the knowledge of American Gospel Music history and to identify the valuable contributions of this genre by studying its eras and major contributors.

AAS 310. Black Image: Screen and Television. 3 Hours.
History and definition of the image of the African-ancestored people in the United States through cinema and television.

AAS 311. Race and Representation in Media. 3 Hours.
The course critically assesses the depiction of race in various visual media presentations. It explores how race is projected in media and how these media structures can create, support stereotypes of race and perpetuate social inequalities.

AAS 320. African Identity/Personality. 3 Hours.
This course is a study of the African identity, personality, and the concept of “blackness,” with particular emphasis on what it means to be black in America. An adequate discourse on the complexities of African American Studies requires a multi-disciplinary approach that considers the expansive nature of the African Experience in North America. Accordingly, any substantive intellectual and scholarly foundation for critically understanding the salient areas of this course require the application of cross-discipline areas of study involving race, culture, socioeconomic, history, African American political behavior, and psychosocial theories of development. Quantitative Literacy is a significant component of this course.

AAS 325. Black Psychology. 3 Hours.
This course examines and explores theory, research, and practice related to the study of psycho-social experiences from the worldview of Africans in America.

AAS 330. African Aesthetics and Traditional Religion. 3 Hours.

AAS 335. The Psychology of Hip Hop. 3 Hours.
Psychology of Hip Hop uses hip hop music and culture as conceptual lenses for analyzing and interpreting the life experiences of people of African descent throughout the African diaspora. Drawing mainly on psychology as well as other social sciences, this course is intended to provide students with an understanding of the psycho-historical and psycho-social development of African Americans relative to hip hop culture. This course explores and examines the thesis that African American music is an expression of African American life. Thus hip hop music and culture serve as soundtracks that allow the opportunity to listen to and learn from this particular manifestation of what W. E. B. Du Bois called the souls/psychology of Black folk.

AAS 350. Research Methods in African American Studies. 3 Hours.
Research Methods in African Studies will introduce students to a general conceptual framework for ordering the social theories and methods that people of African descent have used to interpret and understand Africana life experiences.

Prerequisites: AAS 200 [Min Grade: C]

AAS 366. African American Literature II. 3 Hours.
Cultural values from James Baldwin in 1950s, through black nationalist, civil rights, and black feminist movements, to contemporary writers such as Ishmael Reed, Charles Johnson, and Toni Morrison.

Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C]) and AAS 200 [Min Grade: C]

AAS 400. Seminar in African American Studies. 3 Hours.
Specific topic in African American Studies.

AAS 420. Public Health and Medical Issues in African Communities. 3 Hours.
This course introduces students to important health issues that face the African American community. The goals are to increase awareness and stimulate discussion about health problems facing African Americans, factors believed to cause, contribute or worsen these problems, and steps now taken to alleviate or eliminate these problems.

Prerequisites: AAS 200 [Min Grade: C]

AAS 448. African American Poetry Tradition. 3 Hours.
Development of African American poetry from its early works to the present, including Wheatley, Dunbar, Hughes, Brooks, and Angelou.

Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

AAS 490. African American Studies Internship. 3 Hours.
On campus and off campus training positions in filed utilizing cross disciplinary skills, with some positions offering external funding. Students should contact the Program Director for listings of available positions and application procedures. May be counted as elective only. Preq: Junior or senior standing as African American Studies major and approval of application. May be repeated once for credit. Permission of the Program Director is needed.

AAS 493. Capstone Seminar. 3 Hours.
Specific topics vary...The course will provide an opportunity for students to reflect upon and to use the knowledge, skills and dispositions developed in previous African American Studies coursework. This course or AAS 495 required of all AAS majors. AAS 493 is ideally taken in the final undergraduate semester. Preq: 9 hours AAS coursework at the 400 level and permission of the Program Director. 3 hours.
AAS 495. Individual Studies. 3 Hours.
Specific topics vary. An individually designed course for semi-independent research or guided readings in areas and subjects that synthesize the African American Studies core areas. The course will provide an opportunity for students to reflect upon and use the knowledge, skills, and disposition developed in previous African American Studies coursework. This course or AAS 493 required of all AAS majors. AAS 495 is ideally taken in the final undergraduate semester. Consult Program Director for procedure to apply for this course.

AAS 497. Honors Seminar. 3 Hours.
The African American Studies Departmental Honors Program requires completion of a two course sequence. This first course in the sequence provides students with an overview of the research process. Students are taught the basics of research, statistical analysis and techniques of making a formal presentation of research. Under the guidance of the Program Director and faculty mentor, students are required to develop an honors research project.
Prerequisites: AAS 200 [Min Grade: B] and AAS 325 [Min Grade: B] and AAS 350 [Min Grade: B]

AAS 498. Honors Project. 3 Hours.
Under the guidance of the faculty mentor, students complete the project and make a formal presentation of the research.
Prerequisites: AAS 497 [Min Grade: B]

AC-Accounting Courses

Courses

AC 200. Principles of Accounting I. 3 Hours.
Basic concepts with focus on how accounting events affect financial statements. Emphasizes preparation, communication and use of external financial reports, accrual versus cash, receivables, payables, inventory, recording long-term operational assets, long-term liabilities, stockholders' equity, recording procedures, and financial statement analysis dealing with the benefits and risks associated with that information.
Prerequisites: AC 200 [Min Grade: C]

AC 299. Competency Exam for AC 200. 0 Hours.
Provides a review of introductory financial accounting and an introductory financial accounting competency exam.
Prerequisites: AC 200 [Min Grade: D]

AC 300. Financial Accounting I. 3 Hours.
Review of the financial accounting system, and in-depth coverage of the environment of financial accounting, conceptual framework of financial accounting, financial statements, time value of money, cash, receivables, and inventory.
Prerequisites: AC 200 [Min Grade: B] and AC 201 [Min Grade: C]

AC 304. Accounting Information Systems. 3 Hours.
Transaction processing cycles of accounting system; internal control, development, and control of information systems; emerging development of information technology.
Prerequisites: (AC 201 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 305. Professional Development in Accountancy. 1 Hour.
This course will introduce students to the Accountancy profession, the recruitment process for internships and entry-level positions in accounting; the traditions, expectations and ethical demands of the profession; and the availability of diverse career options.

AC 309. Intermediate Accounting for Corporate Careers. 3 Hours.
The course explores the major components of the balance sheet elements assets, liabilities and equity as well as revenue recognition.
Prerequisites: AC 300 [Min Grade: C]

AC 310. Financial Accounting II. 3 Hours.
Continuation of AC 300. Inventories, plant assets, intangible assets, current liabilities, long-term debt and stockholders' equity.
Prerequisites: AC 300 [Min Grade: B]

AC 320. Financial Accounting Survey. 3 Hours.
Accounting cycle, financial accounting theory, financial statements, cash and receivables, inventories, plant assets, intangible assets, current liabilities, long-term debt, stockholders' equity, investments, income taxes, pension benefits, leases, error correction, and reporting of accounting changes and earnings per share. Not open to accounting majors.
Prerequisites: (AC 201 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 364. Taxation and the Working Poor. 3 Hours.
Students will explore the objectives and consequences of the U.S. federal tax system in relation to the working poor. Topics covered will include the Earned Income Tax Credit, progressive and regressive taxes, and income redistribution as the result of tax provisions. In addition, students will study common mis-perceptions of those living in poverty. The course will consist of classroom instruction, tax preparation training, completion of a tax certification test, and volunteer tax preparation at a community-based site. This course is open to both business and non-business majors and assumes no prior knowledge of accounting or tax. The course is a service-learning course and will satisfy the experiential-learning requirement in the Collat School of Business.
Prerequisites: GPAO 2.00

AC 401. Cost Accounting. 3 Hours.
Basic theory and procedures involving cost determination, analysis, and control. Cost allocations, application of overhead, budgeting, standard costs, job order, process and by-product costing, spoilage, and quantitative techniques. Junior standing required.
Prerequisites: AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00 or AC 320 [Min Grade: C] and GPAT and GPAO 2.00 or AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00 or AC 320 [Min Grade: C] and GPAU 2.00 and GPAO 2.00

AC 402. Income Taxation I. 3 Hours.
Fundamentals and basic concepts of taxation of various entities, with emphasis on federal income taxation of individuals.
Prerequisites: (AC 201 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 413. Internal Auditing. 3 Hours.
Theory and practice of internal auditing and application of internal auditing principles and techniques to selected audit problems.
Prerequisites: (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
AC 414. Governmental and Not-for-Profit Accounting. 3 Hours.
Budgetary and fund accounting as applied to municipalities, other governmental units, and institutions operating as nonprofit entities.
Prerequisites: (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 423. External Auditing. 3 Hours.
This course covers the major phases of an external audit including preliminary engagement procedures, planning the audit, evaluation of ICFR, substantive audit procedures, and reporting.
Prerequisites: AC 310 [Min Grade: C] (Can be taken Concurrently)

AC 430. Financial Accounting III. 3 Hours.
Prerequisites: AC 310 [Min Grade: C]

AC 440. International Accounting: From a User's Perspective. 3 Hours.
Development of international accounting knowledge needed to make informed decisions in global business environment.
Prerequisites: AC 300 [Min Grade: C]

AC 441. International Accounting: Study Abroad. 3 Hours.
Development of international accounting knowledge needed to make informed decisions in global business environment through study abroad.
Prerequisites: AC 440 [Min Grade: C]

AC 452. Income Taxation II. 3 Hours.
Completion of fundamentals of taxation for individuals. Basic concepts and laws applicable to partnerships and corporations. Tax research techniques and tax planning concepts.
Prerequisites: (AC 402 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 402 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 464. Accounting Internship. 3 Hours.
Work experience enabling students to better integrate academic knowledge with practical applications by exposure to accounting practice and business environment.
Prerequisites: AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and (AC 402 [Min Grade: C] or AC 423 [Min Grade: C])

AC 472. Forensic Accounting and Information Tech Auditing. 3 Hours.
Introduction to the practice of forensic accounting and its relationship to auditing in settings characterized by extensive reliance on information technology. An emphasis on audit methodology as applied to accounting information systems.
Prerequisites: (AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 473. Fraud Examination. 3 Hours.
Advanced forensic accounting concepts with a primary focus on occupational fraud and abuse--its origins, perpetration, prevention, and detection.
Prerequisites: (AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 474. Forensic Accounting Practicum. 1-3 Hour.
Work experience requiring the application of forensic accounting concepts and methods.
Prerequisites: (AC 472 [Min Grade: C] and AC 473 [Min Grade: C] and LS 471 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 472 [Min Grade: C] and AC 473 [Min Grade: C] and LS 471 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 480. Advanced Financial Accounting. 3 Hours.
Business combinations, consolidated financial statements, multinational accounting, and partnerships.
Prerequisites: AC 430 [Min Grade: B]

AC 490. Advanced Topics in Accounting. 3 Hours.
Contemporary professional accounting issues. Preq: Permission of instructor.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

AC 495. Accounting Capstone. 3 Hours.
Course brings together in one setting the learned skills and knowledge needed in a professional career in accounting. Permission of the Accounting and Finance Department Chair required.
Prerequisites: (AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and FN 310 [Min Grade: C] and AC 402 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and AC 402 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 499. Directed Readings. 1-3 Hour.
Readings and independent study in selected areas.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

AFS-Aerospace Studies Courses

Courses

AFS 101. Air Force Today. 1 Hour.
Topics relating to Air Force and national defense. Purpose, structure, and career opportunities in U.S. Air Force. Written communication.

AFS 101L. Leadership Laboratory I. 0 Hours.
Laboratory to accompany AFS 101.

AFS 102. Air Force Today. 1 Hour.
Interpersonal communication. Effective listening techniques; verbal and nonverbal communication. Practical exercises and group projects to demonstrate barriers to effective communication and techniques to overcome barriers.

AFS 102L. Leadership Lab. 0 Hours.
Laboratory to accompany AFS 102.

AFS 201. Development of Air Power. 1 Hour.
Historical survey of technological innovation in warfare. Emergence of air power; significance in war and national security policy implementation.

AFS 201L. Leadership Laboratory II. 0 Hours.
Laboratory to accompany AFS 201.

AFS 202. Development of Air Power. 1 Hour.
Leadership and followership traits in context of modern military force. Ethical standards of military officers and Air Force core values. Total quality management.

AFS 202L. Leadership Lab. 0 Hours.
Laboratory to accompany AFS 202.
AFF 300. Field Training. 2 Hours.
Four-week training and evaluation course to select potential candidates for Professional Officer Course. Rigorous physical training.

AFF 301. Air Force Leadership and Management. 3 Hours.
Selected concepts, principles, and theories of Air Force leadership and management. Individual leadership skills and personal strengths and weaknesses as applied to Air Force environment.

AFF 301L. Leadership Laboratory III. 0 Hours.
Laboratory to accompany AFF 301.

AFF 302. Air Force Leadership and Mgt. 3 Hours.
Selected concepts, principles, and theories of Air Force leadership and management. Individual leadership skills and personal strengths and weaknesses as applied to Air Force environment.

AFF 302L. Leadership Lab. 0 Hours.
Laboratory to accompany AFF 302.

AFF 401. National Security Policy. 3 Hours.
Basic elements of national security policy and process. Roles and missions of air power in implementing national security policy.

AFF 401L. Leadership Laboratory IV. 0 Hours.
Laboratory to accompany AFF 401.

AFF 402. Air Force Policy and Process. 3 Hours.
Need for national security; evolution and formulation of American defense policy and strategy; methods for managing conflict; alliances and regional security agreements; analysis of arms control, threat of war, and terrorism. The military as a profession, officership, and military justice system. Refinement of communication skills.

AFF 402L. Leadership Lab. 0 Hours.
Laboratory to accompany AFF 402.

ANTH-Anthropology Courses

Courses

ANTH 101. Introduction to Cultural Anthropology. 3 Hours.
Cultures of world's peoples; ideas used to explain similarities and differences among human groups. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 102. Introduction to Biological Anthropology. 3 Hours.
Biological evolution; interpretation of human fossil record; race; human population genetics and primate behavior.

ANTH 104. Introduction to Peace Studies. 3 Hours.
An overview of concepts and practices related to conflict, social justice, and peace. Students are introduced to theories, terms, analytical skills and tools in terms of peace building and conflict transformation.

ANTH 106. Introductory Archaeology. 3 Hours.
Archaeological methods and theory used to reconstruct and interpret past. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 120. Language and Culture. 3 Hours.
Nonverbal communication; language origins and acquisition; universals; language classification and processes of change; language as expression of cultural values and social structure; beginning componental and structural analysis. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 200. Applied Anthropology. 3 Hours.
Applied anthropology stresses the practical application of anthropological perspectives, theories, and methods to the real world needs of contemporary communities, organizations, and institutions. Within this context, applied anthropology is viewed as a critically important fifth subfield of anthropology ideally suited to aid in the resolution of modern challenges. Topics addressed include global challenges related to public policy; the environment; sustainable development; health, poverty, social, racial, and gender inequality; social advocacy; and cultural tolerance.

ANTH 201. Monkeys and Apes. 3 Hours.
Behavior and social organization of humans' closest living relatives. Living primates and why they behave as they do.

ANTH 202. Science Fiction and Anthropology. 3 Hours.
Anthropological concepts in works of science fiction; the place of anthropology in contemporary science fiction literature, film, and television. Topics include culture, language, archaeology and human evolution.

ANTH 210. Human Evolution. 3 Hours.
Human organism's evolution as systemic whole. Process of human evolutionary change as depicted in behavior and fossil record.

ANTH 211. Human Evolution. 3 Hours.
Prehistoric America north of Mexico from terminal Pleistocene to early historic times.

Prerequisites: ANTH 101 [Min Grade: C]

ANTH 226. Archaeological Field School. 1-6 Hour.
Participation in all phases of excavation, laboratory study, and report preparation. Off campus.

ANTH 231. Archaeology of the Origins of Civilization in Egypt, Mesopotamia, and the Mediterranean. 3 Hours.
Development of complex society in the Fertile Crescent and surrounding lands in Egypt, Mesopotamia, and Mediterranean from origins of agriculture to Alexander the Great.

ANTH 235. Immigration Transnationalism and Diasporas. 3 Hours.
What happens to culture and the social organization of groups after they migrate from one country to another? This course focuses on two possible responses: (1) How immigrants assimilate to the host society through a process of becoming disorganized or uprooted and then reorganizing themselves in a new context, and (2) How immigrants, or transnationals are influenced by their persisting ties to their home countries and elsewhere.

ANTH 236. Peoples of World/South America Indians. 3 Hours.
Ethnology of indigenous peoples of South America including ecological adaptation, social organization, religious systems, and culture change. Emphasis on lowland South Americans.

ANTH 244. Peoples of the World: Africa. 3 Hours.
Local and regional African cultures. Geographical, racial, and historical backgrounds; contemporary African social systems.

ANTH 245. Peoples of the World: Mediterranean. 3 Hours.
This course covers both the western part of the Ancient Middle East and the Mediterranean Area, first introducing Neolithic Europe and Turkey/Anatolia (e.g., Catal Huyuk; Stonehenge), but focusing on Bronze Age Greece, the Aegean, and Anatolia:ca. 3000-1200 BCE. This includes an examination of the Minoans and Mycenaean in the first part of the course (e.g., Knosso; Thera; Mycenae), and a look at the Hittites and Trojans in the second half of the semester (e.g., Hattusa; Troy), culminating with the Trojan War and Sea Peoples ca. 1200 BCE.
ANTH 248. Peoples of the World: Latin America. 3 Hours.
Holistic survey of cultures of Latin America from pre-Columbian times to present. Processes of cultural change (including revolution), ethnic group relations, and functioning of contemporary societies.

ANTH 262. Mythbusters! Arch hoaxes, doc. 3 Hours.
This course will provide an in depth examination of a number of known and not-so-well known archaeological hoaxes throughout history, allowing the class to explore the myriad of social, legal, and economic pressures which precipitated such discoveries. The course will explore subjects like the shoroud of Turin, Atlantis, the Jesus Tomb, and the curse surrounding the discovery of King Tutankhamen's tomb in 1922. As part of the course, students will watch and evaluate a number of documentaries for the "truth" behind the story, and will follow ongoing media coverage of major archaeological discoveries.

ANTH 290. Study Abroad: Chilapa, Guerrero, Mexico. 3 Hours.
Orientation to and popular culture in Chilapa; Mexican history and ethnology, regional history and ethnology, and local economy and human ecology.

ANTH 292. Anthropology of Slavery. 3 Hours.
This course is a mixed format including, lectures, student projects, and potential fieldwork. The class will provide a broad cross-cultural perspective on different types of slavery that have existed across the globe (Americas, Africa, the Near East, Oceania) and examine slavery in the American South, especially Alabama. Issues of race, hierarchy, ethnicity, political, economy, religion, ideology, and social relations will be discussed.

ANTH 299. Contemporary Global Issues. 3 Hours.
This course explores anthropological perspectives, applications, and contributions to solving contemporary world problems including: terrorism, warfare, genocide; global warming and sustainable development; global epidemic disease and new pandemics; torture and human rights abuses; global capitalism, sweatshops, and economic justice; poverty and hunger; illiteracy; child labor and child soldiers; and human population explosion.

ANTH 309. Egypt in the Age of the Pyramids. 3 Hours.
This course begins with the Prehistoric and Predynastic-Early Dynastic roots of Ancient Egypt, and focuses upon the pyramid building age of the Old through Middle Kingdoms, and concludes with the Second Intermediate Period (i.e., Dynasties 1-17: ca. 3200 BC - 1550 BCE). It will focus broadly on the archaeology, history, art, architecture, religion, and literature of this period. It is designed to stand independently of its companion course Imperial and Post-imperial Egypt.

ANTH 310. Imperial and Post-Imperial Egypt. 3 Hours.
This course focuses mainly on Egypt's imperial period, spanning the New Kingdom (Dynasties 18-20: ca. 1550-1150/1069 BCE), and concludes with a shorter overview of the post-imperial period of Egypt's encounters with the Kushite (Nubian), Assyrian, Neo-Babylonian, and Persian empires (Dynasties 21-31: ca. 1069-332 BCE). It focuses broadly on the archaeology, history, art, architecture, religion, and literature of this time span and is designed to stand independently of its companion course Egypt in the Age of the Pyramids.

ANTH 318. Anthropology of Development. 3 Hours.
Effects of Western penetration of indigenous societies and role of anthropologists in development projects in Third World.

ANTH 319. Food and Culture. 3 Hours.
This course is designed to present a broad view of the role of food in human culture through time and in a variety of geographic settings, offering students and opportunity to reflect on the cultural meanings of food in human life. Class lectures, assigned readings, and films will be used to enhance each student's understanding of the subject from a cross cultural perspective. We will examine the biological basis of diet, how foodways develop and change, how and why anthropologists study diet, and variations in foodways around the world.

ANTH 320. Comparative Religion. 3 Hours.
The cross cultural study of ritual, religion, the sacred, and the spiritual is unique to the discipline of anthropology (which investigates humans and their culture across space and time). Concepts of the sacred and what we refer to as "religion" can be found in all cultures both past and present. For the purposes of this course the term religion may be viewed broadly as human beliefs and practices associated with supernatural or non-empirical beings and forces, including spirituality, witchcraft, cults, magic, superstition. The goal of this course is for students to gain a broad understanding of religion cross culturally, to closely examine case studies of particular religious practices in their culture context, to explore theories of religion and their evolution, and to achieve a perspective of cultural relativism and a greater appreciation of human diversity.

ANTH 329. Egypt: Archeological Field Study. 3-6 Hours.
Two week field school in Egypt. Students will visit Egypt old and new, including Islamic Cairo, Coptic churches, the pyramids of Giza, Alexandria, the tombs and temples of Luxor (Valley of the Kings), Aswan (Abu Simbel), and an archaeological excavation. Experience Egyptian folklore through dance and musical performances.

ANTH 330. Nationalism Ethnicity and Violence. 3 Hours.
Social and cultural analysis of ethnicity and nationalist ideologies particularly where these have led to violent confrontations within modern nation-states. Primordialist versus constructionist theories of difference; varying weight to be attributed to political, historical, and cultural factors in study of nationalism; politics of culture versus politics of culture.

ANTH 340. Archeology and History Bible Lands. 3 Hours.
Archaeology and History of the Bible Lands. Examination of region spanning modern Syria, Lebanon, Israel, and Jordan from 10,000-585 BC.

ANTH 351. Anthropology of Human Rights. 3 Hours.
Examination of conceptual, political, and legal aspects of human rights from an anthropological perspective. Topics considered may include: state violence; the history of human rights claims; the opposition of cultural rights and human rights claim; human rights as a form of political discourse; human rights practices in select contemporary settings.

ANTH 352. Primatology. 3 Hours.
Biology, behavior, and distribution of living nonhuman primates. Field studies of old-world monkeys and apes.

ANTH 355. Archaeology of Alabama. 3 Hours.
This course will explore the archaeology of Alabama with an emphasis on current regional research which may include historical archaeology, industrial archaeology, and the archaeology of Native Americans. It may include both field and class room components.

ANTH 357. Anthropology of Gender. 3 Hours.
Roles of women, men, and other genders from a cross-cultural perspective; includes bio-cultural approaches to sex and gender and changing gender roles over time. Course involves substantial writing component in essay examinations and research papers. Writing is a significant component of this course.
ANTH 360. Ecological Anthropology. 3 Hours.
Interactions among behavioral, technological, organizations, and ideological features of human cultures that serve to adapt societies to their physical environment. 3 hours in ANTH required.

ANTH 365. Economic Anthropology. 3 Hours.
Comparative ethnology of economic organizations and processes in non-industrial societies. Precapitalist social settings and transformations of precapitalist economies that have occurred, and are occurring, as result of development and expansion of industrial capitalism.

ANTH 370. Music in World Cultures. 3 Hours.
Characteristics of musical styles in various cultures throughout world.

ANTH 371. Service Learning in Anthropology. 3 Hours.
This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.

ANTH 400. Human Osteology. 3 Hours.
This class focused on the identification of human skeletal remains. As a combined laboratory and lecture course it provides the groundwork for much of the work in biological and forensic anthropology.

ANTH 401. Forensic Anthropology. 4 Hours.
Applied human osteology, emphasizing ability to identify age, sex, and population type of skeletal material. Effects of disease and behavior on bones.

ANTH 404. Human Rights, Peace, and Justice. 3 Hours.
This course offers an introductory exploration of theories, concepts, and issues involved in the study of peace, human rights, social justice, and conflict resolution. It considers the relationship of human rights to achieving peace with justice, including the role of international law. It introduces the concepts of positive peace, human security, and global interdependence. Finally, the course includes an examination and critique of anthropological approaches to peace and the associated practical applications to real world conflicts, rights violations, and global challenges.

ANTH 407. Peace Ethology. 3 Hours.
This course provides insights into causes, mechanisms, development, function, and evolution of peaceful behavior in humans and nonhuman animals. The course shows how studying the role of peaceful behavior in the survival and propagation of animal life has direct significance for improving our understanding of the evolved abilities for peace in humans.

ANTH 408. Conflict Resolution in Cross-Cultural Perspective. 3 Hours.
This course explores conflict and conflict management from an anthropological perspective. It includes ethnographic examples from around the globe. Do all societies engage in war? How are conflicts handled in other cultures? The course will challenge a Western view that humans are naturally violent and warlike and consider some interesting anthropological controversies. Specific topics considered include conflict models, origins of war, conflict resolution, socialization of conflict styles, third party mediation, and ways to reduce violence and prevent war.

ANTH 409. Peace through Global Governance. 3 Hours.
Global governance represents a new dimension in social organization. Anthropology has much to contribute to understanding it. Global governance has the potential to promote social progress and human development, the protection of human rights, peace, and human security. The course examines security—military, collective, and human security—and the evolution of international identity, norms, values, and laws and their contributions to the development of global civil society.

ANTH 411. Advanced Field Archaeology. 0-6 Hours.
Archaeological field and laboratory techniques, including excavation, surveying, and artifact analysis and description; general problems of archaeological interpretation.

ANTH 412. Peaceful Societies and Peace Systems. 3 Hours.
This course explores peaceful societies, some of which are internally peaceful and some of which do not make war, as well as peace systems, that is, clusters of neighboring societies that do not make war on each other and possibly not with any outside groups either. The main questions addressed in the course are: How do peaceful societies and peace systems manage to successfully keep the peace? What lessons do peaceful societies and peace systems hold for creating a less violent and warless world?

ANTH 413. Peace & Environmental Sustainability. 3 Hours.
By highlighting that ecology sets the stage for the social and economic domains, this course traces our interdependence with nature and makes the case that sustaining the natural conditions that are essential for the functioning of the ecosystem on which our lives depends equals sustaining peace. The course takes a positive peace perspective on environmental sustainability goals and methods to achieve them.

ANTH 414. Prehistory of War and Peace in North America. 3 Hours.
This course explores the origins, development, and consequences of conflict and warfare among the prehistoric and early historic indigenous cultures of North America, as well as the complimentary processes of cooperation and peace-making. Archaeological, biological, and ethnohistorical sources are utilized to understand the ways in which war and peace were carried out among Native American cultures from the earliest evidence of human occupation to European contact and beyond. Both indigenous and European practices of war and peace are considered.

ANTH 415. Ethnographic Research Methods. 6 Hours.
Ethnographic Field Methods classroom instruction and practical experience in techniques of ethnographic fieldwork, including participant observation, household surveys, structured and unstructured interviewing, and genealogies.

ANTH 416. War & Peace in Ancient Mesopotamia. 3 Hours.
“War & Peace in Ancient Mesopotamia” (ca. 10,000 - 323 BCE) begins with an introduction to the advent of farming, urban life, various crafts, writing, and other innovations in the region of the “Two Rivers,” namely the Tigris and Euphrates’ flood plain. It proceeds with the rise and fall of early state complex societies and empires in the Bronze and Iron Ages, and terminates in the Persian period. Although providing much focus on diverse issues dealing with war, alliances, diplomacy, treaties, and peace, this course also integrates a comprehensive background context and overview of other aspects of past societies in this region, including history, archaeology, language, literature, religion, architecture, art, material culture, and trade. The course material is introductory, with no specific prerequisite, but a prior enrollment in either ANTH 245 (Peoples of the Mediterranean), or ANTH 340 (Archaeology & History of Bible Lands), is helpful since these courses introduce past societies from contemporary, adjacent regions frequently in direct contact with Ancient Mesopotamia.
ANTH 418. The Power of Nonviolence. 3 Hours.
This course introduces students to the theory and practice of nonviolence as a manner of social change and as a philosophy. The course explores some of the classic writings on nonviolence such as those by Tolstoy, Gandhi, and King as well as current research findings on the efficacy of nonviolent social change, for instances, the work of Sharp, Nagler, Ackerman, and Chenoweth. Readings, films, small group and whole class discussions, guest lectures by activists will contribute to an understanding of the necessary skills for practicing and promoting nonviolent social change. Students will develop projects and presentations that utilize an online nonviolence database.

ANTH 419. Religion, Reconciliation, & Forgiveness. 3 Hours.
This course examines the role of religion, spirituality, reconciliation, apology, and forgiveness in conflict situations, from the individual to the global. Topics include the role of religion in both war and peace. The course has a cross-cultural and inclusive dimension and goes well beyond Christianity to also consider Buddhism, Confucianism, Islam, and other religions. The spiritual dimensions of Gandhian nonviolence are also considered.

ANTH 420. Cultural Transformation: Our History, Our Future. 3 Hours.
The course will explore the significance of Eisele's Partnership-Domination Model and the socio-cultural systems informed by it. The course will focus on the practical application of the partnership approach for promoting peace and human rights across social levels from the family, schools, community, upward to the global level. Consideration will be given to how to transform values, institutions, economics, and politics from domination to partnership.

ANTH 421. Technological Monitoring of Human Rights and Conflicts. 3 Hours.
This class will give students an overview of how humanitarian work intersects with innovation and technological advances. The class will introduce students to how social media, remote sensing technologies/ drones, cell phones, open source, crowd sourcing, Big Data, cloud computing, the Internet, and sensors are all changing how we collect data and interpret the world around us, and how that information is revolutionizing humanitarian and conflict monitoring.

ANTH 422. Landscape Archaeology. 3 Hours.
The course will cover the techniques and strategies employed by archaeologists to reconstruct past landscape, which involves scientific testing, remote sensing, GIS, survey, excavation and environmental analysis. Examples will be drawn from projects across diverse landscape types in Europe, the Middle East, Africa, Central America and Asia. In-field and laboratory application of techniques will be emphasized.

ANTH 423. Vikings: Raiders, Traders, Farmers. 3 Hours.
The Vikings are most popularly thought of as warriors raiding settlements along the northern coastline of Europe during the Viking Age (ca. 793 – 1050 AD), but their society and activities extended well beyond this scope. This course furnishes an overview of Viking social structure, subsistence, art, architecture, religion, language, and literature. It covers hostile and peaceful interactions with the peoples of Greenland, the Arctic, Labrador and Newfoundland and considers the evidence for Norse explorations and influence in North America.

ANTH 430. Zooarchaeology. 3-6 Hours.
Methods and theories of zooarchaeological research are discussed in this lab/lecture course. Practical experience in processing, identification, and interpretation of animal bone remains from archaeological sites forms a large part of this class.
Prerequisites: ANTH 106 [Min Grade: C]

ANTH 432. Villains, Victims, & Vigilantes. 3 Hours.
This course examines ways in which the concepts of “rights” and “justice” are understood and enacted in local communities, particularly in regions of the world experiencing high rates of violent criminality. Beginning with a review of formal law and legal principles underlying state systems of justice, the course surveys settings in which dissatisfaction with state efforts to protect rights have induced communities to develop alternate policing and judicial institutions.

ANTH 434. Observing the Earth from Space. 3 Hours.
The course will give students the ability to analyze remotely sensed data from satellite images as part of the newly established Joint Programs for Remote Sensing and Health. Students will learn about the physics and mathematics behind remote sensing. They will also learn about wide range of satellite images and techniques to analyze them via ERDAS Imagine, ER Mapper and other programs. Applications of remote sensing to a variety of fields will form a key component of the class. The course will culminate in a term project involving remote sensing applications to the UAB faculty-led initiatives in health, medicine, geography and anthropology. There will be a weekly lab component of the course.

ANTH 436. Community Internship. 3-6 Hours.
Application of anthropological approaches to efforts in public or private sector.

ANTH 437. Real World Remote Sensing Applications. 3 Hours.
This course will be offered as a research seminar focusing on real world applications of remote sensing technology. Students will work closely with UAB professors and scientists at NASA's Marshall Space Flight Center in Huntsville doing original remote sensing research on new satellite datasets. These datasets cover diverse areas including terrorism, global warming, health, anthropology/archaeology, atmospheric studies, urban expansion and coastal management. Students will be responsible for analyzing the satellite imagery and presenting papers to NASA.

ANTH 438. The Conquest of Mexico. 3 Hours.
This course examines the Spanish conquest of Mexico from both Spanish and indigenous perspectives. It further surveys the institutionalization of Spanish control over the fallen Aztec Empire the broader intellectual and material consequences of the conquest.

ANTH 439. Ethnography of Mexico. 3 Hours.
Survey of the incorporation of rural Mexican communities into the country's developing industrial economy.

ANTH 442. Historical Archaeology. 3 Hours.
This course involves all stages of archaeological filed work at a historical archaeology site. Students will learn survey skills, excavation, mapping, recovery, and post-field analysis techniques.

ANTH 444. Theories of Anthropology. 3 Hours.
This course provides an overview of the discipline and theories of anthropology, taking into consideration perspectives from the classic four anthropological sub-disciplines. It is intended for students entering the UAB graduate program who do not have a strong background in the four sub-fields of anthropology. Concepts and theory are covered in cultural anthropology, linguistic anthropology, biological anthropology, and archaeology.

ANTH 445. Medical Anthropology & Health Disparities. 3 Hours.
This course explores the bio-cultural basis of health and cross-cultural variation in illness and healing which includes theoretical bases of medical anthropology, comparative health care systems, and social, political, and economic issues related to health care delivery around the globe.
ANTH 446. Explorers, Mummies and Hieroglyphs. 3 Hours.
This course provides a thematic approach to pharaonic Egypt in general, with one portion covering diverse aspects such as geography, an overview of the history of Dynasties 1-31, society and government, daily religion, mortuary religion, architecture, literature, the military, trade, economy, and daily life. Another portion of the course provides several documentaries regarding early to more recent explorers and Egyptologists (e.g., Belzoni; Champollion; Petrie; Carter; modern Egyptology) with written responses. The third part introduces Egyptian hieroglyphs in eight grammar classes and follow-up user-friendly, in-class exercises, aiming to enable students to translate basic hieroglyphic texts.

ANTH 447. Advanced Peace Studies. 3 Hours.
Intensive exploration of concepts and issues involved in the study of peace, social justice, nonviolence, and conflict resolution. Students will engage in an in-depth examination and critique of anthropological approaches to peace and the associated theoretical and practical problems and applications. ANTH 104 (Introduction to Peace Studies) is recommended before taking this class, but not required.

ANTH 450. Advanced Cultural Anthropology. 3 Hours.
Critical review of theoretical approaches in cultural anthropology.

ANTH 451. Advanced Archaeological Anthropology. 3 Hours.
This course examines the theoretical approaches of 20th century archaeology: historical, processual, and post-processual. This reading intensive seminar is focused on theory and its impact on practice and the development of the subdiscipline of archaeology relative to anthropology.

ANTH 452. Advanced Linguistic Anthropology. 3 Hours.
Historical development of theory and field practice of linguistics; acquisition, sociolinguistics, nonverbal communication, semiotics, and ethnosemantics; applied linguistics.
Prerequisites: ANTH 120 [Min Grade: C]

ANTH 453. Advanced Biological Anthropology. 3 Hours.
Human evolution and primatology; race; human genetics. Tasks performed by physical anthropologists.
Prerequisites: ANTH 102 [Min Grade: D]

ANTH 454. Biological Anthropology and Contemporary Issues. 3 Hours.
This course applies a biological anthropological perspective to explore what it means to be human and to develop critical perspectives on our culture, science, and media. How did humanity arrive in its current position? How do we understand human diversity? What can we learn from the differences among people, their overwhelming biological similarity, and their common humanity? How do we use this knowledge to build a sustainable future for ourselves?

ANTH 458. Human Sexuality. 3 Hours.
This course will explore human sexuality and gender from an anthropological perspective, including biological and cultural perspectives, as well as the areas where anthropology meets psychology. The evolution of sexual behavior in humans and in non-human primates will be examined, as well as how sexuality is embedded in socio-cultural context both across and within societies.

ANTH 459. Politics, Drugs and Society in Latin America. 3 Hours.
This course will examine the role of drug production and the drug trade in the economic and political life of Latin American societies. Viewed historically and ethnographically, the course will include coverage of the traditional uses of drugs in indigenous societies as well as the more recent globalization of the industry.

ANTH 460. Historical Ecology. 3 Hours.
This course explores the topic of Historical Ecology and examines the relationship between humans and their environments from the perspectives of history, anthropology, archaeology, ecology, and biogeography.

ANTH 464. Political Anthropology. 3 Hours.
Individuals and associations of individuals in all societies variously compete and cooperate in the course of daily life. This course will draw upon the global inventory of ethnographic information to examine these political processes. Whereas the causes of socio-political competition and cooperation vary widely from one culture to the next, socio-political competition and cooperation are nevertheless universal facts of life for individuals living in a society.

ANTH 467. Museum Studies. 3 Hours.
This course uses case studies, analysis of topical issues, and problem-based learning exercises to explore the many aspects of museum studies relevant to the administration and management of not-for-profit museums. This course provides an interdisciplinary introduction to museum work.

ANTH 475. Intern in Peace, Justice and Environmental Study. 1-3 Hour.
Individually designed program that places students in local environmental organizations, divisions of local businesses or government, or special projects to gain professional experience in preparation for careers focused on peace, social justice, and/or environment.

ANTH 486. Special Problems in Applied Anthropology. 3 Hours.
Supervised study of specified topic area; defined problem explored in depth; topics determined by student and instructor interest.

ANTH 487. Special Problems in Peace Research. 1-3 Hour.
Supervised study of specified topic area in peace studies; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 488. Special Problems in Human Rights. 1-3 Hour.
Supervised study of specified topic area in Human Rights; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 490. Special Problems in Cultural Anthropology. 3 Hours.
Supervised study of specified topic area; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 492. Special Problems in Archaeology. 3,6 Hours.
Supervised study of in-depth study of specified topic area in archaeology. Topics determined by student and instructor interest.

ANTH 494. Special Problems in Linguistics. 3 Hours.
Supervised study of in-depth study of specified topic area in linguistics. Topics determined by student and instructor interest.

ANTH 496. Special Problems in Biological Anthropology. 3 Hours.
Supervised, in-depth study of specified topic area in biological anthropology. Topic determined by student and instructor interest.

ANTH 497. Special Topics in Anthropology. 3 Hours.
Topics vary. See class schedule for topic.

ANTH 498. Honors Thesis Research. 3-6 Hours.
Independent development of research project.

ARA - Arabic Courses
Courses

ARA 101. Introductory Arabic I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Modern Standard Arabic (MSA) is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ARA 102. Introductory Arabic II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where MSA Arabic is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ARA 190. Study Abroad: Arabic. 1-8 Hour.
Approved novice level study abroad program in an Arabic-speaking country. Course of study will vary according to array of approved offerings and student interest. Permission of department chair required.

ARA 201. Intermediate Arabic I. 3 Hours.
This is a continuation of ARA 102. Emphasis is placed on reading authentic Arabic materials and communicative competence. There will be a focus on the meaning of sentences rather than words, which would enable the students to read and speak with more fluency and better comprehension. Students will not only engage in studying authentic Arabic materials (written, audio, and/or video, official forms, etc.), but are also required to evaluate them for others. They will also be guided to function in specific situations where they have to use only the target language to communicate their ideas and then write about them. Additionally, they will be exposed to some particular aspects of the cultures, customs, literary traditions and other artistic expressions of the Arabic-speaking world.

ARA 202. Intermediate Arabic II. 3 Hours.
This course focuses on enhancing students’ linguistic and cultural competence in the Arabic speaking-world. Class activities will include role-playing, individual student presentations and extramural group projects. While the class is focused on content instruction, attention will also be paid to Arabic Language through selected activities that enhance the students’ reading, writing, and conversational skills. Intermediate-high proficiency in reading, writing, listening and speaking Arabic is the targeted outcome.

Prerequisites: ARA 201 [Min Grade: C]

ARA 290. Arabic for Study Abroad. 1-6 Hour.
This study-abroad Arabic course aims at improving students’ oral fluency. It will help students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content will also include discussion and analysis of current cultural topics. Arabic 290 will be conducted entirely in Arabic.

ARA 299. Directed Readings in Arabic. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Arabic students. Course design is determined by the instructor and student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Arabic language and culture. Intermediate proficiency in reading, writing, listening and speaking Arabic is the targeted outcome.

ARA 390. Study Abroad: Arabic. 1-6 Hour.
Approved advanced level study abroad program in an Arabic-speaking country. Course of study will vary according to array of approved offerings. Permission of the department chair required.

ARA 399. Directed Readings: Arabic. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Arabic language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Arabic language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Arabic is the targeted outcome. 9 hours in Intermediate Arabic or equivalent and permission of the department chair required.

ARH-Art History Courses

Courses

ARH 101. The Art Experience. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of art materials and techniques. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 203. Ancient and Medieval Art. 3 Hours.
Introduction to Western art from prehistoric cave paintings to Gothic Cathedrals. Focusing on ancient Eurasia, Mesopotamia, Egypt, Greece, Rome, and medieval Europe, this course examines the images, monuments, and ideas that shaped the pre-modern world. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 204. Early Modern-Contemporary Art. 3 Hours.
Introduction to Western art from Renaissance painting to current bio-sculpture. Focusing on Europe, its colonies, the United States, and global contemporary art, this course examines the images, monuments, and ideas that shaped the modern world. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 205. African/Native American/Oceanic Art. 3 Hours.
Significant monuments and styles of non-western cultures.

ARH 206. Survey of Asian Art. 3 Hours.
Art and culture of India, China, and Japan. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 405. African Art. 3 Hours.
Survey of the arts of Africa, ranging from Ancient Egypt through the contemporary period.

Prerequisites: ARH 203 [Min Grade: C]

ARH 409. Egypt in the Age of the Pyramids. 3 Hours.
This course spans the period 5000 B.C through 1550 B.C. (Predynastic and Dynasties 1-17), which encompasses Egypt's pyramid building age. It will focus broadly on the art, archaeology, history, architecture, religion, and literature of this period. It is designed to stand independently of its companion course Imperial and Post-Imperial Egypt.

Prerequisites: ARH 203 [Min Grade: C]
ARH 410. Imperial and Post Imperial Egypt. 3 Hours.
This course spans the years of 1550 B.C. to the Ptolemaic-Roman periods, which covers Egypt's glorious imperial era (New Kingdom: Dynasties 18-10) and its decline in Dynasties 21-31, with the rise of other empires and Macedonian and Roman control of Egypt. It focuses broadly on the art, archaeology, history, architecture, religion, and literature of this time span and is designed to stand independently of its companion course Egypt in the Age of the Pyramids.
Prerequisites: ARH 203 [Min Grade: C]

ARH 419. Arts of Death in the Middle Ages. 3 Hours.
The visual culture of death and the afterlife from the Roman catacombs to cadaver tombs, 300-1500.
Prerequisites: ARH 204 [Min Grade: C]

ARH 421. Italian Renaissance Art. 3 Hours.
The visual arts of the Italian Renaissance (1300-1550) in their historic context.
Prerequisites: ARH 204 [Min Grade: C]

ARH 422. The Birth of Painting: Portable Pictures Across Renaissance Europe. 3 Hours.
The emergence of modern easel painting, 1300-1600.
Prerequisites: ARH 204 [Min Grade: C]

ARH 423. Study Abroad: European Art. 3 Hours.
On-site study of art and architecture in Europe.

ARH 424. Northern Renaissance Art. 3 Hours.
The visual arts of the Northern Renaissance (1300-1600) in their historic context.
Prerequisites: ARH 204 [Min Grade: C]

ARH 430. Eighteenth-Century Art in Europe. 3 Hours.
Prerequisites: ARH 204 [Min Grade: C]

ARH 431. Seventeenth-Century Painting. 3 Hours.
Painting in Europe from Italian and Spanish Baroque through the Dutch Golden Age.
Prerequisites: ARH 204 [Min Grade: C]

ARH 435. Arts of Power in Early Modern Europe. 3 Hours.
The visual arts in service of kings, popes, and the people, 1300-1700.
Prerequisites: ARH 204 [Min Grade: C]

ARH 440. 19th-Century Art I: Neoclassicism, Romanticism, Realism. 3 Hours.
Painting, sculpture, and graphic arts in Europe, 1780-1860.
Prerequisites: ARH 204 [Min Grade: C]

ARH 441. 19th-Century Art II: Impressionism and Post-Impressionism. 3 Hours.
Painting, sculpture, and graphic arts in Europe, 1860-1900.
Prerequisites: ARH 204 [Min Grade: C]

ARH 450. American Art to 1900. 3 Hours.
Painting, sculpture, and architecture in the U.S., with an emphasis on 19th Century.
Prerequisites: ARH 204 [Min Grade: C]

ARH 460. Twentieth-Century Art to 1945. 3 Hours.
Painting, sculpture, and architecture in Europe and the United States, 1900-1945.
Prerequisites: ARH 204 [Min Grade: C]

ARH 461. Modern Design. 3 Hours.
History of modern design. Will examine various design disciplines, design theory, well as the relationships between design, fine art, architecture, and popular culture.
Prerequisites: ARH 204 [Min Grade: C]

ARH 464. Art Since 1945. 3 Hours.
Painting, sculpture, and architecture primarily in the United States, 1945 to present.
Prerequisites: ARH 204 [Min Grade: C]

ARH 465. Aspects of Contemporary Art. 3 Hours.
Topics in contemporary art, ca. 1970 to the present. Course offerings will vary from year to year and will study a specific historical moment, medium, theme, or subject.
Prerequisites: ARH 204 [Min Grade: C]

ARH 467. Modern Architecture. 3 Hours.
History of modern architecture, covering examples from the late 18th century to the present and emphasizing the United States.
Prerequisites: ARH 204 [Min Grade: C]

ARH 468. Race and Representation. 3 Hours.
History of 20th-Century African American art in context of contemporary theories of identity and issues of diversity, and in relation to African art. Includes study of objects in the Birmingham Museum of Art. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ARH 204 [Min Grade: C]

ARH 470. Tomb Art in East Asia. 3 Hours.
What is the purpose of a tomb? How do its structure and décor convey ancient perceptions of death? Who are the occupants, and how did they envision their journey into the afterlife? This course is a survey of the funerary arts of China, Korea, and Japan. By investigating tombs, shrines, sarcophagi, wall paintings, and grave goods throughout East Asia, we will gain a deeper understanding of ancient religions, social structures, ethnic identities, and cross-cultural interactions. Lectures will be supplemented by several visits to the Museum's Asian collections.
Prerequisites: ARH 206 [Min Grade: C]

ARH 471. Topics in Asian Cinema. 3 Hours.
This course offers students an introduction to a vital aspect of contemporary Asian culture, recognizing that film can be an important focus of contemporary, cultural commentary and critique. The course presumes no prior knowledge of Asia or cinema and its artistic tradition. The goal of the course is to view and discuss, as a class, approximately ten films, emphasizing an understanding of their cultural background and an appreciation of their aesthetic merits as films and cultural settings in Asia. Attendance at weekly screenings is mandatory. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ARH 206 [Min Grade: C]

ARH 472. Buddhist & Hindu Art in India to 1200. 3 Hours.
This course explores the environments of worship and devotion particular to India’s major indigenous religious traditions, from their earliest expressions in approximately the fifth century BCE through to the arrival of Islam in India, ca. 1200. We will examine aesthetic conventions, religious ideals, and urban cultures by focusing on the sculpture and architecture traditions of Hinduism, Buddhism, and Jainism.
Prerequisites: ARH 206 [Min Grade: C]

ARH 473. Japanese Prints/Printmakers. 3 Hours.
A history of Japanese block prints and printmakers from seventeenth through twentieth centuries.
Prerequisites: ARH 206 [Min Grade: C]
ARH 474. Landscape and Image in East Asia. 3 Hours.
This course surveys the major traditions of landscape art in East Asia. We will explore the ways in which places and spaces are transformed into famous places and sacred sites and consider the critical role played by visual representation in this process. Major topics include the relationship between landscape and power, cultural memory, literature, mythology, seasonality, travel, and literati culture. We will examine the functions of landscape art in various cultural, geographical, and temporal contexts of East Asia. We will look at landscape painting in China from the Tang through the Ming dynasties and consider the complex processes of cultural dissemination and adaptation by looking at the reception of Chinese landscape painting tradition in Korea and Japan.
Prerequisites: ARH 206 [Min Grade: C]

ARH 475. Japanese Art. 3 Hours.
Art and culture, Neolithic era through nineteenth century.
Prerequisites: ARH 206 [Min Grade: C]

ARH 477. Piety and Power: Art in India after 1200. 3 Hours.
This course looks at the arts of India after 1200, when Indian art and culture was increasingly influenced and altered by religious and secular powers from outside the subcontinent. We will examine Islamic art and architecture under the patronage of various Sultanate traditions, and finally the Mughals, who expressed their power and piety in monumental architecture and extensively illustrated books. We will also consider the influence of Europeans in South Asia, culminating with the colonial project of the British Raj. Ongoing negotiations between these newly-arriving groups and Indians older, indigenous traditions will be studied. Throughout the course we will dissect the categories of knowledge about South Asia and its art that were constructed primarily by the British, considering, for example, the usefulness of dividing India’s art history into categories of “Hindu,” “Islamic,” “European,” and etc.
Prerequisites: ARH 206 [Min Grade: C]

ARH 478. Buddhist Arts of East Asia. 3 Hours.
Survey of art and architecture created for Buddhist religious purposes in China, Japan, and to a lesser extent Korea and Central Asia. The course will include a brief overview of Buddhist monuments in South Asia, study of the iconography of Buddhist images in graphic and sculptural media, and analysis of a variety of Buddhist styles in painting, sculpture, and architecture.
Prerequisites: ARH 206 [Min Grade: C]

ARH 479. Study Abroad: Art & Culture of South Asia. 3 Hours.
This course allows students to become immersed in the art and culture of Asia through direct experience in the field. Focus will primarily be on South Asia but may vary with each course offering to include Nepal, Tibet, and Southeast Asia. Preliminary lectures in Birmingham and significant written assignments required.

ARH 480. Art Criticism and Theory. 3 Hours.
A topic course on subjects in art criticism and theory. The specific focus will vary by instructor and may emphasize either non-Western or Western theories, criticisms, and approaches.
Prerequisites: ARH 204 [Min Grade: C]

ARH 481. Special Topics: Early Modern Art. 3 Hours.
Special topics in the arts of the Early Modern period in the Western art tradition. Subject will vary with each offering.
Prerequisites: ARH 203 [Min Grade: C] or ARH 204 [Min Grade: C]

ARH 482. Special Topics: Modern Art. 3 Hours.
A special topics course on subjects in the Modern period in the Western tradition, beginning in the later eighteenth century. Specific course topics will vary by semester.
Prerequisites: ARH 204 [Min Grade: C]

ARH 483. Special Topics: Gender and the Visual Arts. 3 Hours.
Topic will vary, depending on instructor. This course will address ways in which gender has affected the history of artistic practice and patronage. It will consider such issues as the gendering of pictorial practice and space, strategies of representing gendered subjects, and the impact of women as patrons of art and architecture.

ARH 484. Special Topics: Contemporary Art. 3 Hours.
Special topics in the arts of the Contemporary period in the Western Art tradition. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARH 485. Special Topics: Museum Studies. 3 Hours.
Prerequisites: ARH 206 [Min Grade: C] or ARH 206 [Min Grade: C]

ARH 486. Special Topics: South Asia. 3 Hours.
Special topics in the arts of South Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 487. Special Topics: Field Study. 3 Hours.
Prerequisites: ARH 204 [Min Grade: C]

ARH 488. Special Topics: East Asian Art. 3 Hours.
Special topics in the arts of East Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 489. Art History Senior Capstone. 3 Hours.
This course will assess students’ knowledge of art history and assist them in applying what they have learned. Students will explore post-baccalaureate options, prepare professional materials, and hone art historical skills through a variety of activities such as conducting research, writing for different audiences, curating exhibitions, and presenting research at a symposium. Offered each fall. Should be taken at the senior level.
Prerequisites: ARH 204 [Min Grade: C] or ARH 203 [Min Grade: C] or ARH 206 [Min Grade: C]

ARH 490. Art Theory: Special Topics. 3 Hours.
Topic of art theory will vary with each offering.
Prerequisites: ARH 203 [Min Grade: D] or ARH 204 [Min Grade: D] or ARH 206 [Min Grade: D]

ARH 491. Independent Study. 3-4 Hours.
Project proposed by student and approved by Art History instructor.

ARH 492. Museum/Gallery Internship. 3 Hours.
Through active participation in the daily operations of a museum, gallery, or art space, students will acquire direct working knowledge of a cooperating art institution. Students will be required to work at the institution a minimum of 10 supervised hours per week during the term.

ARH 493. Seminar: South Asian Art. 3 Hours.
Seminar in the arts of South Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 494. Seminar: East Asian Art. 3 Hours.
Seminar in the arts of East Asia. Subject will vary with each offering.

ARH 495. Seminar: Early Modern Art. 3 Hours.
Seminar in Early Modern Art. Subject will vary with each offering.
Prerequisites: ARH 203 [Min Grade: C] or ARH 204 [Min Grade: C]
ARS 496. Seminar: Modern Art. 3 Hours.
Seminar in Modern Art. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARS 497. Seminar: Contemporary Art. 3 Hours.
Seminar in Contemporary Art. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARS 498. AEIVA Internship. 3 Hours.
The AEIVA Intern Team will participate in all phases of daily gallery operations, ranging from curatorial practices, exhibition design, video/photographic documentation and production, technical and analytical writing, graphic design, etc. This team will act as a support staff for the AEIVA curatorial/administrative staff in a hands-on museum/gallery work environment. May be repeated to a maximum of 6 semester hours.

ARS 499. Honors Thesis. 3 Hours.
For students accepted into honors program in art history. Directed study in art history, in which student works with a faculty mentor to write an extensive research paper on a topic of the student's choice. Recommended to be taken at the senior level, the semester prior to graduation. Permission of instructor required. ARH 489 recommended.

ARS-Art Studio Courses

Courses

ARS 100. Drawing Foundations. 3 Hours.
Students will investigate the fundamentals of drawing in order to learn the elements and principles of art, to improve their dexterity and visual perception, and build skill for advanced arts practice.

ARS 101. Two-Dimensional Design Foundations. 3 Hours.
The course provides students with a foundational knowledge of two-dimensional creative media and an understanding of working with the elements and principles of art and design.

ARS 102. Three-Dimensional Design Foundations. 3 Hours.
The course provides foundational knowledge of three-dimensional art and design focusing on the organization of space and form using a variety of materials, processes, and tools. Students will investigate formal, functional and conceptual issues while developing effective material choices, construction methods, and a safe studio working practice.

ARS 103. Digital Imaging & Design Foundations. 3 Hours.
An introduction to the digital means of image capture, creation, manipulation, imaging software (such as Adobe Photoshop, Illustrator, InDesign), and research. Theme-driven projects explore type and image, collage, identity, story-telling, transformation, historical precedence, best practices and file management.

ARS 104. Four-Dimensional Design Foundations. 3 Hours.
This course introduces the fundamental principles of four-dimensional art and design through a survey of concepts, techniques, and technological practices. Basic concepts of art and design will be taught with the use of computers, video and sound equipment. In focusing on the relations between space, time and motion the 4D course extends and supplements the other Foundations courses and prepares students to continue their work with art and design.

ARS 110. Visual Literacy & Application Foundations. 3 Hours.
Students will learn to interpret visual images through closely engaging with the act of looking and making. Instruction will focus on the principles and elements of art and design and examines the work and studio practice of contemporary artists.
ARS 260. Experiential New Media. 3 Hours.
This course will introduce the discipline of new media through creative explorations, development of skills and material use. Students will engage in action research of their creative practice and collaboration experiences. Media practices including sound, animation and video capturing, as well as experimental projection techniques for the fine arts will be taught. Students will work with dedicated audio and video equipment to learn the basics of sound editing and capturing video footage. Dedicated projects such as in camera editing, montage and stop motion animation will allow students to build upon video editing skills. Historical context of media arts is given through screenings, readings and response papers. Technical workshops are given throughout the semester.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C]

ARS 270. Experiential Photography. 3 Hours.
This course will introduce the discipline of photography through creative explorations and development of basic skills and material use. Students will engage in action research of their creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 280. Creativity and Imagination. 3 Hours.
This course provides students with a practical and theoretical basis for creative and imaginative practice. Students will explore issues of creativity, imagination and innovation through sketchbook exercises, discussions, and studying the work of notable artists and innovators in historical and contemporary contexts. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARS 295. Special Topics in Studio Art: Beginning. 1-3 Hour.
Specialized beginning studio problems in Studio Art. Subject will vary with each offering.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 105 [Min Grade: C]

ARS 300. Drawing - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 301. Drawing - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 302. Drawing - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 310. Painting - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C] and ARS 102 [Min Grade: C]

ARS 311. Painting - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 312. Painting - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 320. Sculpture - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 321. Sculpture - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 322. Sculpture - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 330. Ceramics - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]
ARS 331. Ceramics - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 332. Ceramics - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 340. Printmaking - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 341. Printmaking - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 342. Printmaking - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 350. Graphic Design - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 351. Graphic Design - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 352. Graphic Design - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 360. New Media - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 361. New Media - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 362. New Media - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 370. Photography - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 371. Photography - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 372. Photography - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]
ARS 395. Special Topics in Studio Art: Intermediate. 3 Hours.
Specialize studio art problems at the intermediate level. Subject will vary with each offering.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 105 [Min Grade: C]

ARS 400. Advanced Drawing. 3 Hours.
Advanced studies in drawing with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 300 [Min Grade: C]

ARS 410. Advanced Painting. 3 Hours.
Advanced studies in the discipline of painting with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 310 [Min Grade: C] and ARS 311 [Min Grade: C] and ARS 312 [Min Grade: C]

ARS 420. Advanced Sculpture. 3 Hours.
Advanced studies in the discipline of sculpture with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 320 [Min Grade: C] and ARS 321 [Min Grade: C] and ARS 322 [Min Grade: C]

ARS 430. Advanced Ceramic Sculpture. 3 Hours.
Advanced studies in the discipline of ceramics with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 330 [Min Grade: C] and ARS 331 [Min Grade: C] and ARS 332 [Min Grade: C]

ARS 440. Advanced Printmaking. 3 Hours.
Advanced studies in the discipline of printmaking with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 340 [Min Grade: C] and ARS 341 [Min Grade: C] or ARS 342 [Min Grade: C]

ARS 450. Advanced Graphic Design. 3 Hours.
Advanced studies in the discipline of graphic design with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 350 [Min Grade: C] and ARS 352 [Min Grade: C] and ARS 351 [Min Grade: C]

ARS 459. Graphic Design Field Internship. 3 Hours.
Work in approved graphic design office under guidance of field supervisor and Department of Art and Art History instructor.
Prerequisites: ARS 350 [Min Grade: C] and ARS 351 [Min Grade: C]

ARS 460. Advanced New Media. 3 Hours.
Advanced studies in the discipline of new media with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 360 [Min Grade: C] and ARS 361 [Min Grade: C] and ARS 362 [Min Grade: C]

ARS 470. Advanced Photography. 3 Hours.
Advanced studies in the discipline of photography with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation.
Prerequisites: ARS 370 [Min Grade: C] and ARS 371 [Min Grade: C] and ARS 372 [Min Grade: C]

ARS 489. Professionalism, Project Management and Entrepreneurship. 3 Hours.
This capstone professional development course will provide students with knowledge and experience in the intersection of art and business for career in the arts. Students will conduct research, write about art and prepare materials and gain valuable insight into the inner workings of a career in the arts and identify your options and learn how to survive in a continually evolving marketplace. The course aims to familiarize students with ongoing theoretical, methodological and tactical issues in volder in art making and scholarship. Offered each fall. Should be taken at the senior level.

ARS 490. Independent Study in Studio Art. 1-9 Hour.
Students plan a course of study, meeting times and expectations in cooperation with a faculty member.

ARS 491. B.F.A. Exhibition. 3 Hours.
B.F.A. students plan, prepare and present an exhibition of work during final spring semester under the direction of a faculty member of the students choosing. Course meeting times and expectations are developed with the faculty.

ARS 492. Studio or Gallery Internship. 3 Hours.
Through active participation in the daily operations of a museum, gallery, studio, or art space, students will acquire direct working knowledge of a cooperating art institution. Students will be required to work at the institution a minimum of 10 supervised hours per week during the term.

ARS 495. Special Topics-Interdisciplinary. 3 Hours.
Interdisciplinary and inter-media approaches to art making. Courses offer integrated, multidimensional approach to art-making. Topics vary each semester.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 498. AEIVA Internship. 3 Hours.
The AEIVA Intern Team will participate in all phases of daily gallery operations, ranging from curatorial practices, exhibition design, video/photographic documentation and production, technical and analytical writing, graphic design, etc. This team will act as a support staff for the AEIVA curatorial/administrative staff in a hands-on museum/gallery work environment. May be repeated to a maximum of 6 semester hours.

AS-American Studies Courses

Courses

AS 201. Studies in American Culture. 3 Hours.
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other "texts" from art, music, industrial and technological developments, folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society, including Native Americans, African American, immigrants and women.

AS 202. Studies in American Culture. 3 Hours.
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other texts from art, music, industrial and technological developments, and folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society, including Native Americans, African Americans, immigrants, and women.
AS 301. Studies in American Culture. 3 Hours.
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other texts from art, music, industrial and technological developments, and folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society including Native Americans, African Americans, immigrants, and women.

AS 401. Senior Seminar in American Studies. 3 Hours.
Topics of national and regional interest from any discipline but sufficiently broad to allow focus on specific intellectual problems using analytical skills and interdisciplinary methods learned in Core Curriculum courses, required elective courses, and chosen major. Should be taken during senior year.
Prerequisites: AS 201 [Min Grade: D] and AS 202 [Min Grade: D]

ASEM - Advanced Safety Engineering and Management

Courses

ASEM 461. Occupational Health & Safety Management Systems. 3 Hours.
Prerequisites: MG 302 [Min Grade: C]

ASEM 462. Hazard Identification and Risk Assessment. 3 Hours.
Criticality of proactive hazard identification and risk assessment for mitigation of serious workplace incidents. Techniques include Preliminary Hazard List (PHL), Preliminary Design Hazard Analysis (PHA), System Hazard Analysis (SHA), Subsystem Hazard Analysis (SSHA). Management’s role in establishing policies and guidelines for acceptance of residual risk.
Prerequisites: MG 302 [Min Grade: C]

ASEM 463. Incident Investigation and Root Cause Analysis. 3 Hours.
Human error and error provocative environments. System design for the “failing human.” Rasmussen’s model of Drift to Danger and Reason’s “Swiss Cheese Model.” Analysis techniques include five why, fishbone, event trees and fault tree analysis (FTA). Case studies heavily emphasized.
Prerequisites: MG 302 [Min Grade: C]

Focus on ANSI/ASSE Z10-2012 and ISO 18001.
Prerequisites: MG 302 [Min Grade: C]

AST-Astronomy Courses

Courses

AST 101. Astronomy of the Universe. 3 Hours.
Survey of the universe of matter and energy. Interpretation of observations to develop a self-consistent view of the universe, basic physical laws and structures, cosmic history and evolution. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 102. Astronomy of Stellar Systems. 3 Hours.
Mechanisms and processes of universe and interrelationships as systems, including nature of stars and galaxies: formation, interior processes, including energy generation, evolution, and galaxies as systems. Lecture and laboratory. Quantitative Literacy is a significant component of this course. Requires concurrent enrollment in AST 112 laboratory. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 103. Astronomy of the Solar System. 3 Hours.
Descripive and interpretive approach to solar and interplanetary phenomena, comets, and cometary/meteor relationships, asteroids and planetesimals, planetary surfaces, atmospheres, and interior structures. Physical law governing the solar system and quest for understanding its history and evolution, including formation. Lecture. Requires concurrent enrollment in AST 113 laboratory. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 105. Extraterrestrial Life. 3 Hours.
Interdisciplinary treatment (astronomy, chemistry, biology, planetary science, communications, and information sciences) of the universe as habitat, cosmic chemistry of molecules and evolution, environmental requirements, origin and occurrence of life, search for evidence, intelligence, communication, and contact. Lecture and laboratory. Concurrent enrollment in AST 115 laboratory required. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 107. Astronomy of the Universe Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 101. Quantitative Literacy is a significant component of this course. Must take with AST 101 to receive credit.
Prerequisites: AST 101 [Min Grade: D](Can be taken Concurrently)

AST 112. Astronomy of Stellar Systems Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 102. Quantitative Literacy is a significant component of this course. Must take with ST 102 to receive credit.
Prerequisites: AST 102 [Min Grade: D](Can be taken Concurrently)

AST 113. Astronomy of the Solar Systems Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 103. Must take AST 103 to receive credit.
Prerequisites: AST 103 [Min Grade: D](Can be taken Concurrently)
BMD 315. Extracellular Life Laboratory. 1 Hour. Laboratory experience illuminates topics presented in AST 105. Must take AST 105 to receive credit. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: AST 105 [Min Grade: C] (Can be taken Concurrently)

BMD-Biomedical Sciences

Courses

BMD 150. Introduction to the Biomedical Sciences. 1 Hour. Introduction to career paths within the Biomedical Sciences. Topics will address student needs and interests and current trends in the Biomedical Sciences. Emphasis will be placed on developing an individualized educational plan based on a student's academic and professional interests.

BMD 201. Contemporary Issues in Biomedical Sciences. 1 Hour. A survey of current policy topics and industry trends in biomedical sciences, health, and medicine.

BMD 202. Survey of the Biomedical Sciences Literature. 1 Hour. Techniques for searching, retrieving, reading, and analyzing the expert information used by biomedical researchers and health professions practitioners.

BMD 300. Laboratory Techniques in Biotechnology I. 2 Hours. Basic laboratory techniques in biotechnology utilizing a lab notebook, basic lab instruments, and making solutions. Basic molecular biology and mammalian cell culture techniques used in studying gene regulation.
Prerequisites: CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BMD 310. Clinical Anatomy and Histology. 4 Hours. Exploration of the functional anatomy of the human body through gross and microscopic studies of cells, tissues, and organ systems; survey of body systems; correlations between the structures and functions of the body's various systems; association of major embryonic developmental events with functional gross anatomy.
Prerequisites: BY 123 [Min Grade: C]

BMD 315. Clinical Physiology and Pharmacology for Health Professions I. 4 Hours. Basic concepts of physiology and pharmacology related to human organ systems and drug categories; human physiological principles and their application to pharmacology; membrane physiology, muscle physiology, physiology of the autonomic nervous system and the cardiovascular system; application of physiologic principles to drug pharmacokinetic and pharmacodynamics models.
Prerequisites: CH 115 [Min Grade: C] and (CH 114 [Min Grade: C] or CH 116 [Min Grade: C]) and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C]) and BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BMD 317. Clinical Physiology and Pharmacology for Health Professions II. 4 Hours. Basic concepts of physiology and pharmacology related to human organ systems and drug categories; human physiological principles and their application to pharmacology; renal, respiratory, gastrointestinal and endocrine systems; application of physiological principles to drug pharmacokinetic and pharmacodynamics models.
Prerequisites: BMD 315 [Min Grade: C]

BMD 320. Survey of Cell Biology for Health Professions. 3 Hours. Molecular and cellular biosciences from a highly-integrated systems perspective; principles of eukaryotic cell structure and function, macromolecules, gene expression, signaling, division, differentiation, energy transformation and metabolism in cells; endocytosis, intramembrane transport, protein targeting, organelle biosynthesis, protein sorting, exocytosis, cell shape, motility, and cell-to-cell interaction; signal transduction processes and cellular functions required for cell growth and programmed cell death.
Prerequisites: BMD 320 [Min Grade: C]

BMD 330. Clinical Microbiology for Health Professions. 3 Hours. Clinically-based study of bacteriology, parasitology, mycology, and virology and the human host response to each; mechanisms of microbial pathogenicity and complex interactions with the host that produce symptoms of disease.
Prerequisites: BMD 320 [Min Grade: C]

BMD 380. Research Methods and Scientific Literacy for the Biomedical Sciences. 3 Hours. Introduction to basic research methodology; review of statistical methods in health professions research. Emphasis will be given to preparing students to critically evaluate medical and scientific literature as well as web-based materials.
Prerequisites: HCM 360 [Min Grade: C] or MA 180 [Min Grade: C] or QM 214 [Min Grade: C] or PY 216 [Min Grade: C] or PUH 250 [Min Grade: C]

BMD 400. Laboratory Techniques in Biotechnology II. 2 Hours. Laboratory techniques used in biotechnology, including cloning genes into an expression vector; transforming into E. coli; and transfection into mammalian cells for study of gene regulation and expression.
Prerequisites: BMD 300 [Min Grade: C]

BMD 410. Clinical Biochemistry for Health Professions. 3 Hours. Current concepts of human biochemistry and molecular biology; protein structure and function, enzymes, intermediary metabolism, biosynthesis of lipids, and utilization of lipids; special emphasis on the molecular basis of inherited genetic diseases, acquired diseases, and clinically-related biochemistry.
Prerequisites: CH 235 [Min Grade: C] and (CH 234 [Min Grade: C] or CH 236 [Min Grade: C]) and CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

BMD 420. Pathophysiology for Health Professions. 4 Hours. Problem-oriented study of general disease processes and the major subdivisions of general pathology: cellular adaptations, tissue injury and renewal, neoplasia, environmental and nutritional pathology, and pediatric disorders; cellular alterations and inflammation, genetic, immunological, nutritional and circulatory disorders; effects of infection, chemical and physical agents, blood and vascular diseases, neoplasia and aging as they apply to selected organ systems.
Prerequisites: BMD 317 [Min Grade: C]

BMD 430. Clinical Immunology for Health Professions. 3 Hours. Basic immunology and the fundamental principles relating to the immune response in normal and disease states; antigens, antibodies, cells and structures of the immune system; process of immunity, allergies, transplantation and diseases; emphasis on the genetics, mechanisms, and regulation of the immune system in human health and disease.
Prerequisites: BMD 320 [Min Grade: C]
BMD 475. Capstone Experience in the Biomedical Sciences. 2-4 Hours.
Mentored capstone project to explore an area of student interest demonstrating curriculum integration. The capstone project should culminate in a formal scholarly work. Senior Standing required.
Prerequisites: BMD 315 [Min Grade: C] and BMD 317 [Min Grade: C] and BMD 320 [Min Grade: C]

BMD 490. Directed Readings in Biomedical Sciences. 1-3 Hour.
Directed readings and/or literature review under the direction of a faculty member. Approval of faculty sponsor and program director required.

BMD 495. Practicum in Biomedical Sciences. 1-6 Hour.
Course combines the practical workplace experience gained through an internship or service learning activity with a seminar component to guide reflective assessment of the total experience. Approval of faculty sponsor and program director required.

BMD 497. Directed Biomedical Sciences Research Studies. 1-6 Hour.
Students will conduct a field, laboratory, or literary study project culminating in a formal paper and/or presentation as directed by the supervising instructor. Approval of faculty sponsor and program director required.

BME-Biomedical Engineering Courses

Courses

BME 011. Undergraduate Coop/Internship in BME. 0 Hours.
Engineering workplace experience in preparation for the student’s intended career.

BME 210. Engineering in Biology. 3 Hours.
Application of engineering to the study of biology on the cellular and molecular level. Engineering solutions in genomics, proteomics, and nanotechnology to investigate cellular and molecular process.
Prerequisites: BY 123 [Min Grade: C] and PH 222 [Min Grade: C] (Can be taken Concurrently) and BY 210 [Min Grade: C] (Can be taken Concurrently)

BME 310. Biomaterials. 3 Hours.
Introduction to wide range of materials used for biomedical applications. Physical, chemical and mechanical properties of biomaterials.
Prerequisites: MSE 280 [Min Grade: C] and BME 210 [Min Grade: C]

BME 311. Biomaterials for Non-Majors. 3 Hours.
Wide range of materials used for biomedical applications. Physical, chemical and mechanical properties of biomaterials.
Prerequisites: MSE 280 [Min Grade: C]

BME 312. Biocomputing. 3 Hours.
Introduction to computational techniques used in biomedical engineering.
Prerequisites: BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] and (EGR 265 [Min Grade: C] or MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and MA 260 [Min Grade: C] (Can be taken Concurrently)

BME 313. Bioinstrumentation. 3 Hours.
An introduction to instrumentation used to make biological and physiological measurements. Techniques include acquisition and analysis of bioelectric signals and several imaging modalities.
Prerequisites: EE 312 [Min Grade: C] and (MA 227 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C])

BME 333. Biomechanics of Solids. 3 Hours.
Application of mechanics of solids principles to biomedical engineering problems; stress-strain of bone, viscoelasticity and constitutive equations of tissues, mechanics of the cell, introduction to molecular mechanics.
Prerequisites: EGR 265 [Min Grade: C] (Can be taken Concurrently) or MA 227 [Min Grade: C] (Can be taken Concurrently) and MA 252 [Min Grade: C] (Can be taken Concurrently) and ME 215 [Min Grade: C] (Can be taken Concurrently)

BME 340. Bioimaging. 3 Hours.
Overview of diagnostic imaging including major imaging modalities such as X-Ray/CT, Nuclear Imaging, Ultrasound, Magnetic Resonance and in vivo molecular imaging approaches. Physical principles of image formation, image interpretation and patient safety.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and BME 210 [Min Grade: C] and EE 312 [Min Grade: C] (Can be taken Concurrently)

BME 350. Biological Transport Phenomena. 3 Hours.
Basic mechanisms and mathematical analysis of transport processes with biological and biomedical applications. Analysis of flow, transport and reaction processes for biological fluids and biological molecules with applications towards development of artificial organs, drug delivery systems and tissue engineering products.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and BME 210 [Min Grade: C] (Can be taken Concurrently) and BY 409 [Min Grade: C] (Can be taken Concurrently) and ME 215 [Min Grade: C] (Can be taken Concurrently)

BME 401. Undergraduate Biomedical Engineering Seminar. 1 Hour.
Undergraduate seminar.

BME 408. Advanced Biological Transport Phenomena. 3 Hours.
Application of fluid mechanics in blood flow in the circulatory system; cardiovascular fluid mechanics, wall shear stress and the development of atherosclerosis, viscoelastic behavior of the arteries, non-Newtonian character of blood.
Prerequisites: BME 350 [Min Grade: C] and (CE 220 [Min Grade: C] or BME 333 [Min Grade: C])

BME 417. Engineering Analysis. 3 Hours.
Solutions to engineering problems involving ordinary and partial differential equations; Laplace transform, power series, Bessel functions, Legendre polynomials, Fourier series, Fourier integral and transform, Sturm-Liouville and separation of variables.
Prerequisites: (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) or EGR 265 [Min Grade: C]

BME 420. Implant-Tissue Interactions. 3 Hours.
An overview of implant biocompatibility including tissue histology, histopathology of implant response and the regulatory process for medical devices. Emphasis placed on ethical issues related to design, development, and implementation of biomedical implants. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: BME 310 [Min Grade: C] or BME 311 [Min Grade: C]

BME 423. Living Systems Analysis and Biostatistics. 3 Hours.
Basic concepts and techniques of measurement processing and analysis of data from living systems. Statistics, analysis of variance and regression analysis. Emphasis is placed on writing lab reports in a style similar to research papers. BME 423L must be taken concurrently.
Prerequisites: BME 312 [Min Grade: C]
BME 423L. Living Systems Analysis and Biostatistics Laboratory. 0 Hours.
Labs include blood flow data acquisition and analysis, implant biocorrosion testing, evaluation and analysis of cell proliferation, and apoptosis. The laboratory component of BME 423 and must be taken concurrently.

BME 435. Tissue Engineering. 3 Hours.
Principles underlying strategies for regenerative medicine such as stem-cell based therapy, scaffold design, proteins or genes delivery, roles of extracellular matrix, cell-materials interactions, angiogenesis, tissue transplantation, mechanical stimulus and nanotechnology.
Prerequisites: BME 310 [Min Grade: C] or BME 311 [Min Grade: C]

BME 443. Medical Image Processing. 3 Hours.
Fundamental topics of medical image processing to practical applications using conventional computer software.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] or MA 252 [Min Grade: C]) and PH 222 [Min Grade: C]

BME 450. Computational Neuroscience. 3 Hours.
This course examines the computational principles used by the nervous system. Topics include: biophysics of axon and synapse, sensory coding (with an emphasis on vision and audition), planning and decision-making, and synthesis of motor responses. There will be an emphasis on systems approach throughout. Homework includes simulations.
Prerequisites: BME 312 [Min Grade: C]

BME 454. Introduction to Pharmaceutical Engineering. 3 Hours.
This course is designed to introduce the science and biopharmaceutical principles of drug delivery to undergraduate students of Biomedical Engineering. Graduate students of BME, Pharmacology & Toxicology and Chemistry are also eligible to take it as an elective course.
Prerequisites: BME 310 [Min Grade: D] or CH 115 [Min Grade: D] and MA 225 [Min Grade: C]

BME 461. Bioelectric Phenomena. 3 Hours.
Quantitative methods in electrophysiology of neural, cardiac, and skeletal muscle systems.
Prerequisites: PH 222 [Min Grade: C] and BME 312 [Min Grade: C]

BME 471. Continuum Mechanics of Solids. 3 Hours.
Matrix and tensor mathematics, fundamentals of stress, momentum principles, Cauchy and Piola-Kirchoff stress tensors, static equilibrium, invariance, measures of strain, Lagrangian and Eulerian formulations, Green and Almansi strain, deformation gradient tensor, infinitesimal strain, constitutive equations, finite strain elasticity, strain energy methods, 2-D Elasticity, Airy Method, viscoelasticity, mechanical behavior of polymers.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (BME 333 [Min Grade: C] or CE 220 [Min Grade: C])

BME 475. Quantitative Biomechanics of Injury & Rehabilitation. 3 Hours.
Students will learn the material, mechanical, electrophysiological and energetic principles of human movement. Students will learn about the healthy nonimpaired system and compare to systems impaired by injury or disability for applications in rehabilitation.
Prerequisites: ME 215 [Min Grade: C]

BME 489. Undergraduate Research in Biomedical Engineering. 0 Hours.
Undergraduate research experiences in biomedical engineering.
Prerequisites: EGR 200 [Min Grade: C] or (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

BME 490. Special Topics in Biomedical Engineering. 3 Hours.
Special Topic in Biomedical Engineering.

BME 491. Individual Study in Biomedical Engineering. 1-6 Hour.
Individual Study in Biomedical Engineering.

BME 494. Honors Research I. 1-3 Hour.
Research experiences for undergraduates enrolled in the departmental honors program. The student should write a proposal and make a presentation based on the proposal.
Prerequisites: EGR 301 [Min Grade: C]

BME 495. Honors Research II. 1-3 Hour.
Research opportunities for undergraduate students in the Biomedical Engineering Honors Program. Research areas include cardiac electrophysiology, brain imaging, biomedical implants, and tissue engineering.
Prerequisites: BME 494 [Min Grade: C]

BME 496. Biomedical Engineering Honors Seminar. 1 Hour.
Must be enrolled in an Honors Program.

BME 498. Capstone Design I Product Development. 3 Hours.
Design and development of medical-products. Through experiential learning, students go through the early phases of engineering design innovation for medical products, starting with clinical immersion to determine a critical health-care need. Engineering students work in multi-disciplinary teams that include students from the School of Business to develop design concepts for both a client-based prototype and a commercializable version. Designs take into account client needs as well as legal, regulatory, and marketing requirements. Business ethics are also covered. Emphasis is placed on communication in both oral and written format to targeted audiences.
Prerequisites: BME 310 [Min Grade: C](Can be taken Concurrently) and BME 312 [Min Grade: C](Can be taken Concurrently) and BME 313 [Min Grade: C](Can be taken Concurrently) and BME 333 [Min Grade: C](Can be taken Concurrently)

BME 498L. Senior Design and Product Development Laboratory. 0 Hours.
Lab component for BME 498 Senior Design Product Development. Laboratory activities include break-out sessions for team discussions (Problem definition and brainstorming of solutions), training and use of computer design software (Creo, CES Edupak, ABAQUS), and machine shop training for prototype development. Must be taken concurrently with BME 498.
BME 499. Capstone Design II. 3 Hours.
Capstone design project; a continuation of BME 498. Through experiential learning, student teams consisting of engineering and business students complete the engineering design process for their client-based prototype incorporating engineering standards and realistic constraints. Student teams develop a business plan to present to potential business partners and product development teams from established companies. Additional skills learned in this part of the design process include: development of business proposals, project planning and scheduling, project execution and resource scheduling, communication of design, and interim and final design reviews. Emphasis is placed on communication of design and design justification in both an oral and written format to targeted audiences.
Prerequisites: BME 498 [Min Grade: C] and ME 102 [Min Grade: C]

BME 499L. Capstone Design II Lab. 0 Hours.
Exposure to engineering skills common to all senior design projects. Students working in teams solicit input from clients and instructions. The laboratory component of BME 499 and must be taken concurrently.

BUS-Business Courses

Courses

BUS 101. Introduction to Business. 3 Hours.
This course will enable students to understand the breadth of business opportunities and careers as well as assist in their transition to college and the Collat School of Business through the inclusion of First Year Experience (FYE).

BUS 102. Business Foundations. 3 Hours.
This course will enable students to understand the breadth of business opportunities and careers as well as introduce them to the Collat School of Business.

BUS 110. Essentials of Financial Literacy. 3 Hours.
An introductory course dealing with the mathematics of money and financial literacy.

BUS 300. Business Honors Research Methods. 3 Hours.
First of three required courses for students participating in the Collat School of Business Honors Program. Course provides student with an overview of leadership literature and with necessary research, writing and communication skills for successful participation in the Collat School of Business Honors Program.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

BUS 301. Business Honors Reading Seminar. 1 Hour.
This course will facilitate development of an acceptable Business Honors Thesis/Project Proposal to be submitted to the Collat School of Business Honors Committee by exposing students to a selection of books and periodicals that are not typically assigned in other courses. Book selections will vary from semester to semester. Students will read, discuss, and write a review of each assigned work. Prereq: Acceptance into a UAB Honors Program or permission of instructor. May be repeated with permission of Honors Program Director.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

BUS 305. Professional Development for Today’s Workplace. 1 Hour.
This course prepares students for experiential learning and internship opportunities. Students will gain an understanding of networking, personal branding, career planning, strategic career search, interviewing techniques, salary negotiation, and professional etiquette in today’s global workplace.

BUS 310. Accounting and Finance for Nonbusiness Majors. 3 Hours.
An introduction to accounting, financial reporting and the basic principles of business finance. Not open to majors in the Collat School of Business.
Prerequisites: (BUS 102 [Min Grade: C] and GPAT and GPAO 2.00) or (BUS 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 311. Creating & Delivering Customer Value. 3 Hours.
An introduction of managerial and marketing principles used to create and deliver customer value in organizations.
Prerequisites: (GPAT and GPAO 2.00 and BUS 102 [Min Grade: C]) or (GPAU 2.00 and GPAO 2.00 and BUS 102 [Min Grade: C]) or BUS 101 [Min Grade: C]

BUS 350. Business Communications. 3 Hours.
BUS 350 provides effective communication skills for business contexts. This course is writing intensive and emphasizes grammar, mechanics, word usage, formatting, and style appropriate for professional business messages.
Prerequisites: (EH 102 [Min Grade: C] and GPAT and GPAO 2.00) or (EH 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EH 107 [Min Grade: C] and GPAT and GPAO 2.00) or (EH 107 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 410. Integrating Business Functions. 3 Hours.
Course integrates various elements that impact the success of business enterprises. Not open to majors in the Collat School of Business.
Prerequisites: (GPAT and GPAO 2.00 and BUS 310 [Min Grade: C] and BUS 311 [Min Grade: C]) or (GPAU 2.00 and GPAO 2.00 and BUS 310 [Min Grade: C] and BUS 311 [Min Grade: C])

BUS 450. Strategic Management Capstone Experience. 3 Hours.
Senior seminar integrating functional business fields of accounting, economics, finance, information systems, management, marketing, production policy and decision making. This course is writing intensive and students must demonstrate an ability to write to appropriate audiences and incorporate pertinent external sources. Strong emphasis on ethical reasoning and decision-making and relating material to contemporary business events and issues. Must be senior in last term.

BUS 495. Business Honors Seminar, I. 3 Hours.
Study of the strategy-setting process for a business or other complex organization with emphasis on role of chief executive officer and other leaders in that process. Research, analysis, communications and presentation skills practiced.

BUS 496. Business Honors Seminar, II. 3 Hours.
Continuation of BUS 495, overview of business ethics and emphasis on skills required to complete final work project for the Collat School of Business Honors Program. Good standing in the Collat School of Business Honors Program and second semester senior standing required.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

BY-Biology Courses
Courses

BY 101. Topics in Contemporary Biology. 3 Hours.
Selected topics in the current understanding of biological systems, ranging from humans to ecosystems. Particular focus on scientific issues such as human diseases, genetic engineering, emerging infectious diseases, environmental causes of disease, and climate change, as well as analysis of these issues as presented in print and electronic media. NOTE: Not for biology majors or minors (with BY 102). This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

BY 102. Topics Contemporary Biology Laboratory. 1 Hour.
Experiments and demonstrations in contemporary biology with strong emphasis placed on understanding the systems of the human body. Drawing and writing assignments will focus on the structure and function of the important systems of the human body. Quantitative Literacy is a significant component of this course.

BY 108. Human Population and the Earth’s Environment. 3 Hours.
Influence of human population on Earth’s environment. Specific attention will be paid to environmental issues such as population growth, climate change, water and energy resources, pollution, waste disposal, plant and animal extinctions, and food resources. Strong emphasis will be placed on determining solution to the variety of environmental problems facing the earth. Lecture and film. Ethics and Civic Responsibility are significant components of this course.

BY 109. Laboratory in Environmental Science. 1 Hour.
Experiments on topics essential to study of environment and which reveal complexity of solving environmental problems. Writing, Ethics and Civic Responsibility are significant components of this course.
Prerequisites: BY 108 (Min Grade: D)[Can be taken Concurrently] or ENV 108 (Min Grade: D)[Can be taken Concurrently]

BY 110. Extended Topics in Contemporary Biology. 3 Hours.
Selected topics in contemporary biology of interest to students with minimal background in biology. Topics presented in interactive lecture/discussion format. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences. NOTE: Only general elective credit for biology major or minor.
Prerequisites: BY 101 (Min Grade: D)

BY 112. Ext Topics Contemporary Biology Laboratory. 1 Hour.
Further examination, interpretation, and discussion of topics in BY 111. Independent and group projects. NOTE: Only general elective credit for biology major or minor.
Prerequisites: BY 111 (Min Grade: D)[Can be taken Concurrently]

BY 115. Human Anatomy. 4 Hours.
Principles of vertebrate structure with emphasis on gross and microscopic human anatomy. Survey of human embryology and evolution. Lecture and laboratory.

BY 115L. Human Anatomy Laboratory. 0 Hours.
Human Anatomy Lab required with BY 115 lecture.

BY 116. Introductory Human Physiology. 4 Hours.
Integrated functions of human cells, tissues, and organ systems. NOTE: Only general elective credit for biology majors or minors. Lecture and laboratory.
Prerequisites: BY 115 (Min Grade: C) and (CH 105 [Min Grade: C] and CH 106 [Min Grade: C] or CH 115 [Min Grade: C] and CH 116 [Min Grade: C] or CH 114 [Min Grade: C] or CH 117 [Min Grade: C] and CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 116L. Introductory Human Physiology Laboratory. 0 Hours.
Human Physiology Lab required with BY 116 lecture.

BY 123. Introductory Biology I. 4 Hours.
Basic chemistry, cell structure and function, metabolism, genetics, evolution, bacteria, and protists. For major in biology and related fields. Quantitative Literacy and Writing are significant components of this course. Lecture and laboratory. Eligible for, enrolled in, or have completed MA 106, MA 107, MA 125, or MA 126. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 106 [Min Grade: C] (Can be taken Concurrently) or MA 107 [Min Grade: C] (Can be taken Concurrently) or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently) or MA 126 [Min Grade: C] (Can be taken Concurrently) or MA 226 [Min Grade: C] (Can be taken Concurrently) or MA 250 (Min Grade: C) or (A02 25 and HSCG 3.50) or (A02 24 and HSCG 3.50) or (A02 25 and HSCG 3.50) or A02 26 (Min Grade: C) or (S02 580 and HSCG 3.50) or (S02 560 and HSCG 3.50) or (S02 580 and HSCG 3.50) or S02 600 or MAC1 17 or MAAD 24

BY 123L. Introductory Biology I Laboratory. 0 Hours.
Introductory Biology I Lab required with BY 123 lecture.

BY 124. Introductory Biology II. 4 Hours.
The course emphasizes the transition from cell, to tissue, to organs in multicellular systems. Specific attention in the course will be paid to a survey of the various groups of plants, fungi, invertebrates and vertebrates. Strong emphasis will be placed on comparing the anatomy and physiology of the major organ systems in humans with those of other organisms. The course is designed to expand the students understanding of the process of scientific writing. Quantitative Literacy and Writing are significant components of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: BY 123 [Min Grade: C]

BY 124L. Introductory Biology II Laboratory. 0 Hours.
Introductory Biology II Lab required with BY 124 lecture.

BY 210. Genetics. 3 Hours.
Principles and mechanisms of inheritance: structure, action, and regulation of genes; molecular genetic technology and application to human health and agriculture. Preparation for advanced courses in biology.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 213. Phage Genomics I. 4 Hours.
Phage Genomics I is the first semester of a year-long lecture, laboratory, and web-enhanced course designed to provide an authentic research experience for undergraduate students. The course will address themes and techniques from across biology including microbiology, phage genetics, molecular biology, bioinformatics, and electron microscopy. Preqs: completed application (contact biology advisor) and permission of instructor. Freshmen and sophomores only.

BY 214. Phage Genomics II. 4 Hours.
This course is the second semester of a year-long lecture, laboratory, and web-enhanced class designed to provide an authentic research experience for undergraduate students. Students will learn the concepts and procedures for: annotating segments of a unique mycobacteriophage genome to indentify open reading frames, genes, and regulatory sequences; compare this bacteriophage genome to other sequenced bacteriophage genomes; compare and analyze amino acid sequences to reveal relationships between species; writing and presentation of scientific results. Freshmen and sophomores only.
Prerequisites: BY 213 [Min Grade: C]
BY 216. Pathophysiology. 3 Hours.
The course addresses epidemiologically relevant human pathologies resulting in disrupted homeostasis with an emphasis toward causal agents, mechanism of injury at the cellular and histological levels, pathogenic manifestations at the cellular, histologic, organ system and organismal levels, and applicable treatment strategies currently used in their medical detection, intervention and management. The course stresses modalities for human disease including genetic mutation, infection, neoplasia, immune dysfunction, preventable behaviors, endocrine alterations, and aging. The course specifically integrates the pathogenic model(s) impact on stress reactions, immune defenses, hematology, ventilation-respiration, cardiovascular perfusion, fluid balance, and nutrition. The course incorporates some remediation of the normal physiology and genetics required for homeostasis and introduces clinical profiling and case study learning.
Prerequisites: BY 116 [Min Grade: C] or BY 409 [Min Grade: D] or BY 124 [Min Grade: D] and (BY 261 [Min Grade: C] or BY 271 [Min Grade: C])

BY 220. CLOne: Chromatin Laboratory 1. 0-4 Hours.
Students will learn laboratory skills in molecular genetics, with a focus on generating CRISPR guide RNAs and testing their efficiency in Drosophila cells. The students will be introduced to the scope of the project, read relevant literature, and will conclude their research experience by writing a journal-style report on their results.
Prerequisites: BY 123 [Min Grade: D]

BY 245. Fundamentals of Scientific Investigation. 3 Hours.
The course covers the basics of scientific investigation with an emphasis on understanding methods of the scientific process, experimental design, data interpretation and presentation and scientific writing. Special emphasis will be placed on the use of data management and statistical packages to address the most common types of data analysis used to investigate specific applications in biology. Quantitative Literacy is a significant component of this course. Recommend course is taken before junior year.
Prerequisites: BY 124 [Min Grade: C]

BY 255. Invertebrate Zoology. 4 Hours.
Invertebrate phyla, emphasizing evolutionary relationships, biological principles demonstrated by invertebrates, and significance of invertebrates in total ecology. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 255L. Invertebrate Zoology Laboratory. 0 Hours.
Invertebrate Zoology Lab required with BY 255 lecture.

BY 256. Vertebrate Zoology. 4 Hours.
Comparative approach to the structure, function, ecology, life history, and conservation of vertebrates. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C] and CH 115 [Min Grade: C] and (CH 116 [Min Grade: C] or CH 114 [Min Grade: C])

BY 256L. Vertebrate Zoology Laboratory. 0 Hours.
Vertebrate Zoology Lab required with BY 256 lecture.

BY 260. Botany. 4 Hours.
Development, structure, physiology, and diversity of plants, emphasizing vascular plants. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 260L. Botany Laboratory. 0 Hours.
Botany Lab required with BY 260 lecture.

BY 261. Introduction to Microbiology. 4 Hours.
Cell structure and function, microbial genetics, viruses, and epidemiology and infectious disease. NOTE: Cannot be applied toward requirements for a biology major. Lecture and laboratory.
Prerequisites: BY 116 [Min Grade: C] and BY 123 [Min Grade: C] or CH 107 [Min Grade: C] or CH 108 [Min Grade: C] or CH 235 [Min Grade: C] or CH 234 [Min Grade: C] or CH 236 [Min Grade: C] or CH 237 [Min Grade: C] or CH 238 [Min Grade: C] or CH 239 [Min Grade: C]

BY 261L. Introduction to Microbiology Laboratory. 0 Hours.
Introduction to Microbiology Lab required with BY 261 lecture.

BY 267. Tropical Ecology. 3 Hours.
Major tropical ecotypes; ecology of terrestrial, aquatic, and marine tropical organisms. Major portion conducted at tropical field station in Caribbean. Lecture and field trips (May session, alternate years). Permission of Instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 268. Galapagos Ecology. 3 Hours.
An overview of the ecology of the Galapagos Island, with an emphasis on the ecology of terrestrial and marine organisms. Major portion of course conducted on the Galapagos Islands. Lecture & field trips. Permission of instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 269. Rain Forest Ecology. 3 Hours.
Physical and environmental factors that structure rain forest, biodiversity of life, and interactions of its organisms. Prominent biota. Major portion of course taught at tropical field station in Costa Rica. Lecture and field trips (May session, alternate years). Permission of instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 271. Biology of Microorganisms. 4 Hours.
Microbiology with emphasis on molecular aspects of microbial cell structure, function, and diversity. Host defense mechanisms, infectious disease, and microbial ecology. Preparation for advanced courses in biology. Lecture and laboratory.
Prerequisites: BY 210 [Min Grade: D] and CH 117 [Min Grade: D] and (CH 118 [Min Grade: D] or CH 119 [Min Grade: D])

BY 271L. Biology of Microorganisms Laboratory. 0 Hours.
Biology of Microorganisms Lab required with BY 271 lecture.

BY 280. Biology of Aging. 3 Hours.
Current understanding of aging, measurement of aging changes, theories of aging, and aging changes in various human systems.
Prerequisites: BY 123 [Min Grade: C]

BY 311. Molecular Genetics. 3 Hours.
Prokaryotic and eukaryotic gene structure and function.
Prerequisites: BY 210 [Min Grade: D]

BY 314. Embryology. 3 Hours.
Descriptive and experimental studies of vertebrate development at the molecular, cellular and tissue levels.
Prerequisites: CH 117 [Min Grade: D] and CH 118 [Min Grade: D]

BY 327. Histology. 4 Hours.
Microscopic anatomy of cells, tissues, and organs of animals; correlation of structure and function. Techniques and methodology. Lecture and laboratory.
Prerequisites: BY 115 [Min Grade: D] or BY 124 [Min Grade: D]

BY 327L. Histology Laboratory. 0 Hours.
Histology Lab required with BY 327 lecture.
BY 330. Cell Biology. 3 Hours.
Biological molecules and metabolic processes; energetics; synthesis and regulation of macromolecules; differential gene expression; membranes and organelles; cytoskeleton; cell cycle and growth of normal and neoplastic cells.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and CH 235 [Min Grade: C](Can be taken Concurrently) and CH 234 [Min Grade: C](Can be taken Concurrently) or CH 236 [Min Grade: C](Can be taken Concurrently)

BY 362. Neurobiology. 3 Hours.
This course teaches the biological basis of nervous system function, i.e., how the central nervous system is organized, and how neurons, synapses and neuronal circuits function in order to produce behavior. The course also provides the student with basic concepts in mammalian neuroendocrinology and age-related changes in nervous system structure and function.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 394. Biology Laboratory Teaching. 1-3 Hour.
Student will assist in instruction of a biology laboratory. Student is required to attend scheduled preparatory sessions each week, assist in teach assigned laboratory section, help develop student assignments such as examinations and/or practicals and assist the laboratory coordinator in other capacities as assigned. Students work under the direction of the course instructor and/or the laboratory coordinator. Student must have completed the course in which the student is assisting with a grade of B or higher. Permission of the instructor is required. May be repeated for credit to a maximum of three semester hours.

BY 395. Special Topics in Biology. 1-4 Hour.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 397. Advanced Directed Readings. 1-3 Hour.
Reading and independent study in selected areas under supervision of faculty sponsor. May be repeated for total of three semester hours credit. 12 semester hours of BY with BY GPA of 3.0 and permission of instructor required.

BY 398. Undergraduate Research. 1-3 Hour.
Research project under supervision of faculty sponsor. May be repeated for a total of 3 semester hours credit. 12 semester hours of BY with GPA of 3.0 and permission of instructor required.

BY 405. Microbial Physiology. 3 Hours.
Microbial structure and function, growth, metabolism, and regulation of cellular activity.
Prerequisites: BY 271 [Min Grade: D] and BY 235 [Min Grade: D] and CH 236 [Min Grade: D] or CH 234 [Min Grade: D]

BY 407. Microbial Ecology. 3 Hours.
Microorganisms in nature; interactions with each other and with environment.
Prerequisites: BY 271 [Min Grade: D]

BY 409. Principles of Human Physiology. 4 Hours.
The lecture and laboratory course uses humans as a model system to investigate physiological processes occurring at cell, tissue, organ, and system levels. Additionally the use of experimental examples and laboratory experiments and the interpretation of data will be used to understand all aspects of productivity. The class is designed to improve scientific writing skills related to research experiment. Writing and Quantitative Literacy are significant components of this course. Foundation in anatomy recommended (BY 115 or BY 256).
Prerequisites: BY 210 [Min Grade: D] and CH 237 [Min Grade: D] and CH 238 [Min Grade: D] or CH 239 [Min Grade: D]

BY 409L. Principles of Human Physiology Laboratory. 0 Hours.
Human Physiology Lab required with BY 408 and BY 409 lecture.

BY 410. Comparative Animal Physiology. 3 Hours.
Comparative examples to illustrate general principles of physiology; study of how animals function in their environment.
Prerequisites: BY 256 [Min Grade: D]

BY 411. Advanced Human Anatomy. 4 Hours.
This course is a detailed, advanced examination of gross human anatomy and histology. In a laboratory setting, students achieve course objectives by dissecting a human cadaver, and by observing prosected cadavers and casted models.
Prerequisites: BY 115 [Min Grade: C] or BY 124 [Min Grade: C] or BY 409 [Min Grade: C]

BY 416. Cellular Physiology. 3 Hours.
Biochemical and thermodynamic aspects of cellular energy metabolism. Foundation in physiology recommended (BY 124, BY 116, BY 409 or BY 410).
Prerequisites: BY 330 [Min Grade: D] and CH 237 [Min Grade: D] (Can be taken Concurrently) and CH 238 [Min Grade: D](Can be taken Concurrently) or CH 239 [Min Grade: D]

BY 419. Reproductive Physiology. 3 Hours.
Comparative reproductive physiology in mammals, with emphasis on humans.
Prerequisites: BY 256 [Min Grade: D] and CH 235 [Min Grade: D] and CH 236 [Min Grade: D] or CH 234 [Min Grade: D]

BY 420. General Endocrinology. 3 Hours.
The central theme of this course is the role of hormone chemical messengers in the regulation of physiological processes. Topics include structure of endocrine cells and glands, hormone synthesis and chemistry, physiological effects of hormones, and mechanisms of hormone action. Emphasis is placed on vertebrate systems, but instructive invertebrate systems are also considered.
Prerequisites: BY 256 [Min Grade: D]

BY 426. Evolutionary Medicine. 3 Hours.
An evolutionary approach to issues relating to human health and disease.
Prerequisites: BY 116 [Min Grade: C] or BY 409 [Min Grade: C] and BY 330 [Min Grade: C]

BY 429. Evolution. 3 Hours.
The course includes the history of evolutionary thought and modern evolutionary theory. Discussions cover (but are not limited to) the history of life, mechanisms of evolutionary change, sexual selection, adaptation, speciation, and molecular evolution. Students will also be introduced to historical and contemporary studies of evolution on a wide variety of topics and organisms.
Prerequisites: BY 210 [Min Grade: D]
BY 431. Principles of DNA Technology. 3 Hours.
Manipulation of genes and their regulation; techniques used in recombinant DNA technology. Lecture.
Prerequisites: BY 210 [Min Grade: D] and BY 311 [Min Grade: D]

BY 432. Biological Information Resources. 3 Hours.
The National Center for Biological Information (NCBI) website is a treasure house of information and tools for researchers in all areas of modern Biology. The goal of this course is to provide guidance for students who wish to become familiar with the NCBI website through an online learning experience. They will learn many of the features available at this site and will gain experience using some of the tools. The course will be taught completely online and will consist of 1) Guidelines for navigating through NCBI, 2) Study guide questions for students to answer online, 3) NCBI tutorials with questions to be answered online, 4) Assignments with questions to be answered online, 5) Online exams.
Prerequisites: BY 311 [Min Grade: D]

BY 433. Advanced Molecular Genetics. 3 Hours.
Molecular genetics of eukaryotic organisms, including analysis of the features and nature of eukaryotic genomes, genes, nucleosomes, and chromosomes; processes involved, such as transcription, splicing, transposition, and signal transduction. The role of molecular biology in cell growth and cancer. Lecture.
Prerequisites: BY 311 [Min Grade: D]

BY 434. Functional Genomics and Systems Biology. 3 Hours.
Systems biology is an inter-disciplinary study underlying complex biological processes as integrated systems of many interacting components. This course will give students a foundation in understanding complex biological interactions at the molecular, network and genomic level. This course will cover state-of-the-art high throughput established and novel approaches used in genome sequencing, transcriptomics, proteomics and metabolomics to obtain, integrate and analyze complex data. The students will also get familiar with knowledge on experimental perturbation of genomes, gene regulatory networks, comparative genomics and evolution, basic bioinformatics. This course will be a combination of text based lectures and discussions of the current literature relevant to Functional Genomics and Systems Biology.
Prerequisites: BY 210 [Min Grade: C]

BY 435. Natural History of Vertebrates. 4 Hours.
Lecture and field study of adaptations of vertebrate classes for survival in particular environments. Survey and classification of local vertebrates. Lecture and laboratory.
Prerequisites: BY 256 [Min Grade: C]

BY 435L. Natural History of Vertebrates Laboratory. 0 Hours.
Natural History of the Vertebrates Lab required with BY 435 lecture.

BY 437. Epigenetics. 3 Hours.
This course provides a survey of the field of epigenetics, introducing the student to the diverse areas of epigenetic research in a variety of eukaryotic systems. The course combines lectures with discussion of primary literature and research talks from invited faculty speakers working in epigenetics. In addition to providing an overview of the field of epigenetics, this course emphasizes working with primary scientific literature and the development of critical reading skills. Recommended that Molecular Genetics be completed prior to enrollment.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 440. Immunology. 3 Hours.
Immune system and functions of host humoral and cellular immune responses. Mechanisms of antigen and antibody reactions and basic immunological methods.
Prerequisites: BY 271 [Min Grade: C] and BY 330 [Min Grade: C]

BY 442. Experimental Phycology. 4 Hours.
The course uses Algae as a model system to investigate various experimental approaches to assessing productivity with specific emphasis placed on classification, respiration, photosynthesis, growth and nutrient limitation. Additionally the use of experimental examples and laboratory experiments and the interpretation of data will be used to understand all aspects of productivity. Designed to improve scientific writing skills related to research experiments. Writing and Quantitative Literacy are significant components of this course.
Prerequisites: BY 124 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 442L. Experimental Phycology Laboratory. 0 Hours.
Experimental Phycology Lab required with BY 442 lecture.
Prerequisites: BY 124 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 448. Psychoneuroimmunology. 3 Hours.
How neuroendocrine and immune systems communicate with each other. Regulatory processes mediated by interactions between these systems and application to diseases.
Prerequisites: BY 440 [Min Grade: D]

BY 450. Plant Physiology. 4 Hours.
Metabolic activities and growth processes of plants, with emphasis on photosynthesis, respiration, germination, dormancy, and hormones; physiological phenomena associated with phases of development. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: D] and CH 235 [Min Grade: D] and (CH 236 [Min Grade: D] or CH 234 [Min Grade: D])

BY 450L. Plant Physiology Laboratory. 0 Hours.
Plant Physiology Lab required with BY 450 lecture.

BY 451. Plant Biology. 3 Hours.
This course introduces the student to the basic concepts of plant biology including plant diversity, structure, physiology, metabolism, reproduction, genetics, molecular biology, evolution and ecology. It is targeted to Biology Majors and Biology Graduate Students. This class brings together knowledge and methodologies from a number of different disciplines to provide students with an intensive and comprehensive plant curriculum from the molecular to the organismal level.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 452. Field Botany. 4 Hours.
Plant identification and classification; consideration of phylogenetic systems. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: D]

BY 452L. Field Botany Laboratory. 0 Hours.
Field Botany Lab required with BY 452 lecture.

BY 453. Mycology. 4 Hours.
Fungi, including morphology, development, physiology, taxonomy, and phylogeny. Lecture and laboratory.
Prerequisites: [BY 260 [Min Grade: D] or BY 271 [Min Grade: D] and CH 235 [Min Grade: D] or CH 236 [Min Grade: D] or CH 234 [Min Grade: D])

BY 453L. Mycology Laboratory. 0 Hours.
Mycology Lab required with BY 453 lecture.
BY 456. Comparative Vertebrate Anatomy. 4 Hours.
Study of the anatomical systems of vertebrates in an evolutionary and functional context. Covers form, function, development and phylogeny of vertebrates, with overviews of organ systems, and the major adaptive events of vertebrate evolution. Labs complement lectures with dissections of representative species, and surveys of specializations in other forms. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 456L. Comparative Vertebrate Anatomy Lab. 0 Hours.
Comparative Vertebrate Anatomy Lab required with BY 456 lecture.
Prerequisites: BY 124 [Min Grade: C]

BY 460. Advanced Invertebrate Zoology. 3 Hours.
This course takes an in-depth look at aspectd of the biology of the Echinodermata and Crustacea. The course format includes lectures, guest lectures, and student critiques of papers from the scientific literature. There is a field trip to Blunt Springs to search for echinoderm fossils. Lecture and student projects.
Prerequisites: BY 255 [Min Grade: D]

BY 465. Limnology. 4 Hours.
Chemical and physical principles of lakes and streams; biology of freshwater and estuarine organisms. Lecture and laboratory.
Prerequisites: BY 255 [Min Grade: D] or BY 256 [Min Grade: D] or BY 260 [Min Grade: D]

BY 465L. Limnology Laboratory. 0 Hours.
Limnology Lab required with BY 465 lecture.

BY 467. Population Ecology. 3 Hours.
The course covers the structure and dynamics of populations with an emphasis on understanding how reproduction, mortality and dispersal interact to control fluctuations in population size and structure. Special emphasis will be placed on the use of computer models and interpretation of data to address specific applications in conservation biology and natural resource management. Quantitative Literacy is a significant component of this course.
Prerequisites: BY 124 [Min Grade: C]

BY 469. Molecular Ecology and Phylogenetics. 3 Hours.
Course will survey processes and patterns of molecular evolution and methods of phylogenetic analysis using DNA sequences, amino acid sequences, and molecular markers.
Prerequisites: BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 470. Ecology. 3 Hours.
Ecosystems and population biology. Lecture.
Prerequisites: BY 255 [Min Grade: D] or BY 256 [Min Grade: D] or BY 260 [Min Grade: D] or BY 271 [Min Grade: D]

BY 471. Ecology Laboratory. 1 Hour.
Laboratory in ecosystems and population biology. May be taken concurrently with BY 470.
Prerequisites: BY 470 [Min Grade: D] (Can be taken Concurrently)

BY 474. Chemical Ecology. 3 Hours.
Study of chemical interactions between organisms or between organisms and their environment. Topics include chemical signaling between organisms, sensing of the chemical environment, and chemical defenses against predators, pathogens, biofoulers, or competitors. Students will be introduced to these topics in wide variety of terrestrial and aquatic habitats, with a special emphasis on marine organisms.
Prerequisites: BY 124 [Min Grade: C] and CH 235 [Min Grade: C]

BY 475. Comparative Developmental Biology. 3 Hours.
Mechanisms of development with emphasis on comparative biology.
Prerequisites: BY 210 [Min Grade: D]

BY 480. Emergency Medicine Internship. 3 Hours.
This semester-long internship is designed to provide undergraduate students with an authentic hands-on medical research experience. The course will allow students the opportunity to assist faculty members and residents of the UAB Department of Emergency Medicine in their clinical research studies. Specifically, students will be involved in patient recruitment for the study, determine patient eligibility, reading information about the studies to patients, and collecting data regarding patient history. Students will also have the methodology associated with clinical research. Junior or senior standing, minimum GPA of 3.5, completed application and acceptance into the internship program required.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 490. Bio Capstone: Human Physiology. 4 Hours.
Physiological processes occurring at cell, tissue, organ, and system levels in mammals with emphasis on humans. Students that enroll in this capstone experience will be expected to do additional work to fulfill their biology capstone requirement. Lecture and Laboratory. Foundation in anatomy recommended (Human Anatomy or Vertebrate Zoology).
Prerequisites: BY 210 [Min Grade: D] and CH 237 [Min Grade: D] and (CH 238 [Min Grade: D] or CH 239 [Min Grade: D])

BY 491. Biology Capstone - Evolution. 4 Hours.
The course introduces the history of evolutionary thought and modern evolutionary theory. Discussions cover (but are not limited to) the history of life, mechanisms of evolutionary change, sexual selection, adaptation, speciation, and molecular evolution. Students will be introduced to historical and contemporary studies of evolution on a wide variety of topics and organisms. Students that enroll in this class as their capstone experience are expected to do writing and ethics assignments to fulfill their capstone requirement.

BY 492. Biology Capstone - Undergraduate Research. 4 Hours.
Research project under supervision of faculty sponsor. Student must enroll for 4 credit hours and must have senior standing. Students who enroll in this course as their capstone experience will be required to do additional work to fulfill their biology capstone requirement.

BY 493. Biology Capstone - Honors Research. 4 Hours.
Research project under supervision of faculty sponsor. You must enroll in 4 credit hours and you must have senior standing. Students that identify this course as their capstone experience will be required to do additional work to fulfill their biology capstone requirement.

BY 495. Special Topics in Biology. 0-4 Hours.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]
BY 496. Fundamentals of Clinical Research. 3 Hours.
Issues relevant to the conduct of clinical research: ethics, hypothesis testing, study design, and data collection and management. Lecture and clinical interaction with patients. Prerequisites: Junior or Senior level biology majors; 15 hours of biology credit with a 3.5 GPA in biology courses, and permission of instructor.

BY 498. Honors Research. 1-6 Hour.
Research project for students admitted to Honors Research Program. Two or three terms required during which minimum of 6 semester hours must be earned. Grade assigned at completion of program. 18 hours of biology with minimum GPA of 3.5 in biology classes and admission to Honors Research Program required.

BY 499. Biology Seminar. 1 Hour.
Student presentations and discussions. Subject matter varies by term. See current class schedule for topic. Senior standing and permission of instructor required.

CAS-College of Arts & Sciences Courses

Courses

CAS 101. Success in Biology and Natural Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the biology in context of the university. It is meant to help prepare students for a successful collegiate career in the study of biology and natural sciences.

CAS 102. Success in Chemistry and Natural Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the Chemistry in context of the university. It is meant to help prepare students for a successful collegiate career in the study of chemistry and natural sciences.

CAS 103. Success in the Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of science.

CAS 104. Success in Soc/ Behavioral Sci. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the social and behavioral sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of social and behavioral sciences.

CAS 105. Success in Psychology and Social Sciences. 2 Hours.
The objective of this course is to introduce freshmen to an education in psychology and the social sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of psychology and social sciences.

CAS 106. Success in the Humanities. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the humanities in context of the university. It is meant to help prepare students for a successful collegiate career in the study of the humanities.

CAS 107. Success in Music. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in music in context of the university. It is meant to help prepare students for a successful collegiate career in the study of music.

CAS 108. Success in Communication. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in communication in context of the university. It is meant to help prepare students for a successful collegiate career in the study of communication.

CAS 109. Success in World Cultures and Foreign Languages. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in foreign languages and world cultures in context of the university. It is meant to help prepare students for a successful collegiate career in the study of world cultures and foreign languages.

CAS 110. Success in Art. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in art in context of the university. It is meant to help prepare students for a successful collegiate career in the study of art.

CAS 111. Success in Theatre. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in theatre in context of the university. It is meant to help prepare students for a successful collegiate career in the study of theatre.

CAS 112. Success in College. 1 Hour.
The objective of this course is to introduce incoming freshmen to a successful path in college. It is meant to help prepare students for a successful collegiate career in any field of study.

CAS 399. Perceptions:Poverty in Amer/SL. 3 Hours.
This service-learning course engages students in critical analysis of perceptions and policies about poverty in the United States while providing essential tax preparation and services to members of our local community. Academic coursework will focus on perceptions and misperceptions of those in poverty, race and poverty, socioeconomic issues faced by low-income families, federal and state policies toward working families, predatory lending practices that erode wealth, and strategies to address poverty in the United States.

CAS 400. General Studies Career Readiness Capstone Project. 1 Hour.
This capstone experience course is designed for students who opted for an interdisciplinary major to develop a portfolio and reflect on their academic accomplishments, interdisciplinary intellectual interests, and the skills they have acquired in light of their specific career goals.

CAS 401. General Studies Independent Studies. 2 Hours.
Course designed for students who opted for an interdisciplinary major to explore an interdisciplinary topic and develop an integrative research portfolio.

CAS 402. General Studies Interdisciplinary Independent Readings. 3-6 Hours.
This individualized course of directed readings focuses on a rigorous in-depth exploration of an interdisciplinary research topic and the development of a comprehensive research project for program director and instructor are required.

CAS 405. General Studies Professional Internship. 3 Hours.
Experiential learning course designed for students who opted for an interdisciplinary major, allowing them to gain valuable professional experience and develop a reflective professional activity portfolio related to an interdisciplinary academic trajectory. The experience will be relevant to the student’s academic and career plans.

CDS-Clinical & Diagnostic Sciences
Courses

CDS 300. Microbiology for the Health Professions. 3 Hours.
A course in which the basic, and some advanced, concepts of microbiology are presented as they relate to health sciences and medicine. The course consists of nine units, each of which contains multiple lessons. The units cover the scope of microbiology, a survey of microorganisms, the study of microorganisms, microbial physiology, the control of microbial growth, microbial genetics, immunity, microbial pathogenesis, and microbial processes.

CDS 301. Microbiology Laboratory for Health Professions. 1 Hour.
Students will learn to practice laboratory safety, correctly operate a compound light microscope, prepare and interpret the results of various stains, cultivate, isolate and identify pathogenic microorganisms, and perform and interpret simple serologic assays.

CDS 400. Fundamentals of Phlebotomy and Body Fluid Collection. 1 Hour.
An in depth course in phlebotomy covering aspects of safety procedures, hygiene, capillary puncture, venipuncture, arterial access and maintenance, intravenous access and maintenance, drug administration via IV, intramuscular and subcutaneous methods and non-blood collections of bodily fluids.

CDS 405. Survival Spanish for Health Professionals. 1 Hour.
Health care professionals will be introduced to basic vocabulary, useful questions and expressions in Spanish needed to communicate in practical health care situations. Students will participate in speaking exercises, dialogue, and role-play activities (field-specific scenarios).

CDS 410. Introduction to Electrocardiography. 1 Hour.
Study of the essentials of 12-lead EKG interpretation including discussion of various lead systems. Identification of typical cardiac rhythms and discussion of abnormal anatomy and physiology consistent common cardiac arrhythmias.
Prerequisites: (BY 123 [Min Grade: C] and BY 124 [Min Grade: C]) or (BY 115 [Min Grade: C] and BY 116 [Min Grade: C]) or (BMD 310 [Min Grade: C] and BMD 315 [Min Grade: C])

CDS 420. Competencies in Genetics for Health Professions. 2 Hours.
Overview of core competencies in genetics; develops knowledge, skills, and attitudes needed to provide effective and comprehensive health services to individuals and families.

CDS 425. First Aid and Healthcare Provider CPR and AED Course. 1 Hour.
The goal of this course is to provide the student with the knowledge and skills needed to perform basic first aid and CPR procedures for adult, child and infant victims according to the American Heart Association (AHA) Standards.

CDS 430. Advanced Cardiac Life Support. 1 Hour.
Provides students with the knowledge and skills needed to perform Advanced Cardiac Life Support (ACLS) according to the American Heart Association (AHA) standards.

CDS 440. Physics in Bio-Medical Sciences. 3 Hours.
Qualitative and quantitative applied physical concepts pertaining to medical applications. Selected physical concepts used in biology, human anatomy, physiology, and medical diagnosis and treatment.
Prerequisites: PH 201 [Min Grade: C]

CDS 444. Social and Behavioral Science for the Health Professions. 3 Hours.
Health and behavior are influenced by multiple psychological, behavioral, social, and cultural factors. An understanding of these factors is essential to addressing health problems and eliminating health disparities and inequalities. This course will provide an overview of biopsychosocial factors that influence health status and outcomes. Community engagement and service learning is an essential component of this course.

CDS 450. Introduction to Medical History Taking and Physical Examination. 3 Hours.
Introduction to the proper way to elicit a comprehensive medical history, perform a physical examination, and report the findings in a systematic and concise format.

CE-Civil Engineering Courses

Courses

CE 011. UG Coop/Internship in CE. 0 Hours.
Engineering workplace experience in preparation for the student's intended career.

CE 200. Engineering Geology. 2 Hours.
The Course covers the fundamentals and advanced topics of plate tectonics, mineral formation, sedimentary / igneous / metamorphic rocks, structural deformations, weathering and erosion, groundwater migration, and slope stability.

CE 210. Statics. 3 Hours.
Prerequisites: EGR 200 [Min Grade: C](Can be taken Concurrently) or HC 111 [Min Grade: C] or EGR 111 [Min Grade: C](Can be taken Concurrently) and (MA 126 [Min Grade: C] or MA 126 [Min Grade: P]) or MA 226 [Min Grade: C] and (PH 221 [Min Grade: C] or PH 221 [Min Grade: P])

CE 220. Mechanics of Solids. 3 Hours.
Prerequisites: CE 210 [Min Grade: C]

CE 221. Mechanics of Solids Laboratory. 1 Hour.
Standard tensile, torsion, bending, and column tests. Strain gage installation and applications. Measurement of forces, displacements, strains, and other variables. Writing is a significant component of this course.
Prerequisites: CE 220 [Min Grade: D](Can be taken Concurrently)

CE 222. Civil Engineering Materials Laboratory. 1 Hour.
Materials testing laboratory evaluating properties of materials of construction such as cement, aggregates, concrete, asphalt, and masonry. Design of Portland cement concrete mixes. Writing is a significant component of this course.
Prerequisites: CE 220 [Min Grade: D](Can be taken Concurrently)
CE 230. Plane Surveying. 3 Hours.
Care and use of surveying instruments, surveying methods, error theory, traversing, stadia, mapping techniques, circular and parabolic curves, areas, and volumes. CE 230L must be taken concurrently.
Prerequisites: MA 125 [Min Grade: C]

CE 230L. Plane Surveying Laboratory. 0 Hours.
To provide the student with an understanding of the principles of land measurement, the instruments and techniques used in surveying, theory of errors and mathematical precision in engineering analysis and design. To provide an introduction to route surveying, and the principles of horizontal and vertical curves. Companion to CE 230 and must be taken concurrently.

CE 236. Environmental Engineering. 3 Hours.
Air/water pollution and solid waste. Quality of environment. Environmental health. Regulations and legal considerations. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently) and CH 117 [Min Grade: C]

CE 236L. Environmental Engineering Laboratory. 0 Hours.
Laboratory equipment and methods. Chemical, and physical tests to determine characteristics of water and wastewater. Companion lab to CE 236 and must be taken concurrently.

CE 332. Soil Engineering. 4 Hours.
Soil identification and properties, stress concepts, permeability settlement analysis, soil compaction, bearing capacity, shear strength of soil, and slope stability. CE 332L must be taken concurrently.
Prerequisites: CE 200 [Min Grade: D] and CE 220 [Min Grade: D]

CE 332L. Soil Engineering Laboratory. 0 Hours.
Soil classification, strength tests, permeability and consolidation tests. Companion to CE 332 and must be taken concurrently.

CE 337. Hydraulics. 3 Hours.
Fundamentals of hydraulics including properties of water; hydrostatic forces and pressures; flow, head losses, and related phenomena in pipes; river hydrograph routing; statistical hydrology; flow in open channels; culvert design; applied hydraulic modeling. Must have a grade of C or better to complete the course.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

CE 344. Civil Engineering Analysis I. 3 Hours.
Inspection and treatment of data using exploratory data analysis. Introduction to probability. Basic data analysis using comparisons and regression, hypothesis testing, and analysis of variance. Quality control and reliability analyses. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

CE 345. Transportation Engineering. 3 Hours.
Function, influence, characteristics and operation of transportation systems and facilities, focusing primarily on highway systems. Geometric design, operations, and transportation planning are covered.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C] and PH 221 [Min Grade: C]

CE 360. Structural Analysis. 3 Hours.
Reactions, shears, moments, and axial forces in determinate and indeterminate structures. Influence lines; moment area and energy methods of computing deflections; methods of truss and frame analysis. Computer applications. Must have a grade of C or better to complete the course.
Prerequisites: CE 220 [Min Grade: D]

CE 395. Engineering Economics. 3 Hours.
Fundamental concepts of engineering economy. Introduction to cost and revenue estimating and cash flow analysis for engineering projects. Choosing between alternatives taking into account the time value of money, depreciation, inflation, income taxes and risk factors.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

CE 410. FE Review for Civil Engineers. 1 Hour.
Review concepts of the engineering core and civil engineering in preparation for the Fundamentals of Engineering (FE) exam.

CE 415. Building Information Modeling (BIM). 3 Hours.
This class will be an introduction to the virtual world of design and construction. Topics covered will include uses for technology, what is BIM, and will have a focus on AutoCAD and Revit Software. An emphasis will be placed on the use of these tools and their practical applications to the real world environment. Students will be provided with the software through the Autodesk Student community and will be required to complete a Multi-Step term Project.
Prerequisites: ME 102 [Min Grade: D]

CE 420. Advanced Mechanics. 3 Hours.
Variation of stress at point including determination of principal and maximum shear stresses. Basic problems involving symmetrical deformation; thickwall cylinders and spheres. Torsions of noncircular sections. Curved beams. Failure Theories. Unsymmetrical bending and shear center.
Prerequisites: CE 220 [Min Grade: D]

CE 426. Foundation Engineering. 3 Hours.
Application of principles of soil mechanics to: determine bearing capacity and settlement of spread footings, mats, single piles and pile groups; site investigation, evaluate data from field and tests; estimation of stresses in soil masses; lateral resistance of piles and pile group; retaining walls, sheetpiles, and coffer-dams.
Prerequisites: CE 332 [Min Grade: D]

CE 430. Water Supply/Drainage Design. 3 Hours.
Water requirements; wastewater characteristics. Hydraulics and design of sewers; distribution and reuse of water. Development of water supplies; design considerations.
Prerequisites: CE 337 [Min Grade: C]

CE 431. Energy Resources. 3 Hours.
Overview of the various energy resources: oil, natural gas, coal, nuclear, hydro, solar, geothermal, biomass, wind, and ocean energy resources, in terms of supply, distribution, recovery and conversion, environmental impacts, economies, policy, and technology. Advantages and limitations of various energy resources. Concepts and opportunities for energy conservation; including electric power generation, changing role of electric utilities, transportation applications, and energy use in developing countries. Field trips.
Prerequisites: CE 236 [Min Grade: D]

CE 433. Solid and Hazardous Wastes Management. 3 Hours.
Overview of waste characterizations, regulations, and management options. The course covers fundamentals of landfill design, recycling, incineration, emerging disposal technologies, federal and state laws, and hazardous waste treatment, and ultimate disposal of hazardous waste.
Prerequisites: CE 236 [Min Grade: D]

CE 434. Air Quality Modeling and Monitoring. 3 Hours.
Atmospheric pollutant effects, reactions and sources. Air dispersion modeling. Ambient monitoring.
Prerequisites: ME 251 [Min Grade: C]
CE 440. Civil Engineering Honors Research. 3 Hours.
Departmental honors students work closely with faculty researchers and graduate students in departmental concentration specialties to develop research skills. Enrollment is limited to undergraduate students enrolled in CCEE Departmental Honors Program.

CE 441. Civil Engineering Honors Seminar. 1 Hour.
Seminar focusing on student research and guest presentations of various topics of interest to civil and environmental engineering students.

CE 443. Pavement Design and Construction. 3 Hours.
Analysis of stresses and strains in pavement systems. Design and construction of flexible and rigid pavements, base courses, and subgrades. Effects of loading on pavement life.
Prerequisites: CE 345 [Min Grade: D]

CE 450. Structural Steel Design. 3 Hours.
Tension members, columns, beams, and beam columns. Simple connections. Load Resistance Factor Design (LRFD) approaches.
Prerequisites: CE 360 [Min Grade: C]

CE 453. Design of Wood Structures. 3 Hours.
Design and detailing of timber structures. Properties and specifications for dimension and glulam timber. Design of beams, columns, beam-columns, connections (nail and bolts), roof diaphragms, and shear walls. Design of timber structures to meet the requirements of the National Design Specification Standards.
Prerequisites: CE 360 [Min Grade: C]

CE 454. Design of Masonry Structures. 3 Hours.
Design and detailing of masonry structures. Nomenclature, properties, and specifications for components. Design of assemblages, simple masonry structures, unreinforced and reinforced elements, and complex masonry structures.
Prerequisites: CE 360 [Min Grade: C]

CE 455. Reinforced Concrete Design. 3 Hours.
Behavior, strength, and design of reinforced concrete structural members (beams, columns, one-way slabs, and continuous beams) subjected to moment, shear, and axial forces according to the American Concrete Institute Building Code Requirements for Structural Concrete (ACI 318). Crack control and serviceability considerations. Introduction to the design of reinforced concrete structures.
Prerequisites: CE 360 [Min Grade: C]

CE 456. Prestressed Concrete Design. 3 Hours.
Principles and concepts of design in prestressed concrete including elastic and ultimate strength analyses for flexural, shear, bond, and deflection. Principles of concordancy and linear transformation for indeterminate prestressed structures.
Prerequisites: CE 455 [Min Grade: D]

CE 460. Structural Mechanics. 3 Hours.
Elastic beam deflections, beam columns, lateral torsional buckling, column stability, plastic design, plate bending, and yield line theory.
Prerequisites: CE 360 [Min Grade: C]

CE 461. Introduction to the Finite Element Method. 3 Hours.
Prerequisites: CE 360 [Min Grade: C]

CE 462. Advanced Structural Analysis. 3 Hours.
Analysis of indeterminate structures utilizing both classical and matrix methods. Use of large-scale computer programs.
Prerequisites: CE 360 [Min Grade: C]

CE 464. Structural Dynamics. 3 Hours.
Prerequisites: CE 360 [Min Grade: C] and ME 215 [Min Grade: C]

CE 467. Wind and Seismic Loads. 3 Hours.
Methods for calculating loads on structures caused by extreme winds and earthquakes. Calculation of wind loads on various types of structures according to theory and codes. Determination of earthquake loads on structures using structural dynamics and codes.
Prerequisites: CE 360 [Min Grade: C]

CE 468. Bridge Engineering. 3 Hours.
Bridge loads, steel beam bridges, composite beam bridges, bridge bearings, reinforced and prestressed concrete slab and T-beam bridges, bridge evaluations and ratings, and upgrade methodologies; computer applications.
Prerequisites: CE 450 [Min Grade: D] and CE 455 [Min Grade: D](Can be taken Concurrently)

CE 480. Introduction to Water and Wastewater Treatment. 3 Hours.
Physical unit operations and chemical/biological unit processes for water and wastewater treatment. Design of facilities for treatment. Treatment and disposal of sludge.
Prerequisites: CE 236 [Min Grade: D]

CE 485. Engineering Hydrology. 3 Hours.
Hydrologic principles including the hydrologic cycle, precipitation data and stream-flow measurements. Applications to engineering problems: stream-flow analysis, and watershed management.
Prerequisites: CE 337 [Min Grade: C]

CE 489. Undergraduate Engineering Research. 0 Hours.
Undergraduate research experiences in civil, construction and/or environmental engineering.
Prerequisites: [EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]] or EGR 100 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

CE 490. Special Topics in (Area). 3 Hours.
Special Topics in (Area).

CE 491. Individual Study in (Area). 1-3 Hour.
Individual Study in (Area).

CE 497. Construction Engineering Management. 3 Hours.
Study of construction management services that include: project planning, scheduling, estimating, budgeting, contract administration, agreements and ethics. Emphasis is made on the management of manpower, materials, money and machinery.
Prerequisites: CE 395 [Min Grade: D]
CE 499. Capstone Design Project. 3 Hours.
Students work in teams to complete a capstone design project that incorporates the major aspects of civil engineering design including structural, geotechnical, environmental, transportation, and construction management components. The course also includes lecturing and assignments related to professionalism including engineering ethics, leadership, and management. Normally taken during last term before graduation. CE 498 is a companion lab and must be taken concurrently.

Prerequisites: CE 332 [Min Grade: D] and CE 337 [Min Grade: C] and CE 345 [Min Grade: D] and (CE 450 [Min Grade: D] or CE 455 [Min Grade: D]) and CE 430 [Min Grade: D](Can be taken Concurrently) or CE 480 [Min Grade: D](Can be taken Concurrently) or CE 497 [Min Grade: D](Can be taken Concurrently)

CH-Chemistry Courses

Courses

CH 100. Chemical Problem Solving. 3 Hours.
Development of quantitative skills and introduction to basic chemical concepts to prepare students for CH 115. Successful completion of MA 098 or more advanced math, or placement in a more advanced math, is strongly recommended prior to taking this course.

Prerequisites: (A02 20 and HSCG 2.00) or (S02 480 and HSCG 2.00) or A02 21 or S02 500 or MAAD 15 or MA 098 [Min Grade: P] or MA 098 [Min Grade: C] or MA 102 [Min Grade: D](Can be taken Concurrently) or MA 105 [Min Grade: D](Can be taken Concurrently) or MA 106 [Min Grade: D](Can be taken Concurrently) or MA 107 [Min Grade: D](Can be taken Concurrently) or MA 110 [Min Grade: D](Can be taken Concurrently) or MA 125 [Min Grade: D](Can be taken Concurrently) or MA 225 [Min Grade: D](Can be taken Concurrently)

CH 105. Introductory Chemistry I. 3 Hours.
Fundamental facts, principles, theory, and applications of chemistry. Qualitative in nature; for non-science majors and nursing students with no previous background in chemistry. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

Prerequisites: MA 098 [Min Grade: P] or MA 098 [Min Grade: C] or MA 102 [Min Grade: D](Can be taken Concurrently) or MA 105 [Min Grade: D](Can be taken Concurrently) or MA 106 [Min Grade: D](Can be taken Concurrently) or MA 107 [Min Grade: D](Can be taken Concurrently) or MA 109 [Min Grade: D](Can be taken Concurrently) or MA 110 [Min Grade: D](Can be taken Concurrently) or MA 125 [Min Grade: D](Can be taken Concurrently) or (A02 20 and HSCG 2.00) or A02 21 or (S02 480 and HSCG 2.00) or S02 500 or MAAD 15

CH 105R. Introductory Chemistry I Recitation. 0 Hours.
Introductory Chemistry I recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 105 Introductory Chemistry I required.

CH 106. Introductory Chemistry I Laboratory. 1 Hour.
Emphasizes development of lab skills and demonstration of chemical principles covered in CH 105. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 105 strongly recommended.

CH 107. Introductory Chemistry II. 3 Hours.
Fundamental organic and biochemistry. The second part of the chemistry sequence for non-science majors and nursing students. Covers concepts of organic chemistry and biochemistry. Emphasis on molecules involved in life processes. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

Prerequisites: CH 105 [Min Grade: C] or CH 115 [Min Grade: C]

CH 107R. Introductory Chemistry II Recitation. 0 Hours.
Introductory Chemistry II recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 107 Introductory Chemistry II required.

CH 108. Introductory Chemistry II Laboratory. 1 Hour.
Emphasizes development of lab skills and demonstration of phenomena covered in CH 107. Not applicable to a major or minor in chemistry. Writing assignments structured to build on scientific reasoning. Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 107 strongly recommended.

CH 114. General Chemistry I Laboratory (Honors). 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 115. Writing assignments structured to build on scientific reasoning. (Core Area III) Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 107 strongly recommended.

CH 115. General Chemistry I. 3 Hours.
Stoichiometry, quantum theory, atomic structure, chemical bonding, acids-bases, colligative properties and periodicity. Laboratory emphasizes quantitative analysis. Writing assignments structured to build on scientific reasoning. Concurrent enrollment in CH 115 General Chemistry I Recitation required. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

Prerequisites: MA 102 [Min Grade: B] or (MA 105 [Min Grade: C] or MA 105 [Min Grade: P]) or MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 109 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: D](Can be taken Concurrently) or MA 125 [Min Grade: D](Can be taken Concurrently) or A02 23 and HSCG 3.00) or (A02 24 and HSCG 3.00) or (A02 25 and HSCG 2.50) or A02 26 or (S02 540 and HSCG 3.50) or (S02 560 and HSCG 3.50) or (S02 580 and HSCG 2.50) or S02 600 or MAC1 17 or MAAD 21

CH 115R. General Chemistry I Recitation. 0 Hours.
General Chemistry I recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 115 General Chemistry I required.

CH 116. General Chemistry I Laboratory. 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 115. Writing assignments structured to build on scientific reasoning. Concurrent enrollment or prior completion of CH 115 General Chemistry I recommended. Quantitative Literacy is a significant component of this course.
CH 117. General Chemistry II. 3 Hours.
Solutions, chemical kinetics, chemical thermodynamics, chemical equilibrium and special topics (organic, biochemistry, descriptive chemistry) Writing assignments structured to build on scientific reasoning. Concurrent enrollment in CH 117R General Chemistry II Recitation required. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: CH 115 [Min Grade: C]

CH 117R. General Chemistry II Recitation. 0 Hours.
General Chemistry II Recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 117 General Chemistry II required.

CH 118. General Chemistry II Laboratory. 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 117. Writing assignments structured to build on scientific reasoning. Concurrent enrollment or prior completion of CH 117 General Chemistry II recommended. Quantitative Literacy is a significant component of this course.

CH 119. General Chemistry II Laboratory (Honors). 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 117. Writing assignments structured to build on scientific reasoning. [Core Area III] Quantitative Literacy is a significant component of this course. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required. Concurrent enrollment or prior completion of CH 117 strongly recommended.

CH 201. Research Methods in Chemistry. 3 Hours.
Comprehensive approach for developing research skills used in chemistry and biochemistry research laboratories. Permission of instructor required.
Prerequisites: CH 115 [Min Grade: C][Can be taken Concurrently]

CH 234. Organic Chemistry I Laboratory (Honors). 1 Hour.
Emphasis placed on development of techniques used in organic research laboratories and scientific writing. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required.
Prerequisites: CH 235 [Min Grade: C][Can be taken Concurrently]

CH 235. Organic Chemistry I. 3 Hours.
Prerequisites: CH 117 [Min Grade: C]

CH 235R. Organic Chemistry I Recitation. 0 Hours.
Organic Chemistry I recitation is used to build problem-solving skills in study-group environments. Concurrent enrollment in CH 235 Organic I required.

CH 236. Organic Chemistry I Laboratory. 1 Hour.
Techniques of organic chemistry. Synthesis, purification, and characterization of organic compounds. Concurrent enrollment or prior completion of CH 235 strongly recommended.
Prerequisites: CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

CH 237. Organic Chemistry II. 3 Hours.
Reactions of aromatic compounds and carbonyl containing functional groups: aldehydes, ketones, acids, esters and amides. Molecules of biological interest, such as proteins and carbohydrates. Concurrent enrollment in CH 237R Organic II Recitation required.
Prerequisites: CH 235 [Min Grade: C]

CH 237R. Organic Chemistry II Recitation. 0 Hours.
Organic Chemistry II recitation is used to build problem-solving skills in study-group environments. Concurrent enrollment in CH 237 Organic II required.

CH 238. Organic Chemistry II Laboratory. 1 Hour.
Synthesis, purification, and characterization of organic compounds using instrumental analysis and identification of unknowns. Concurrent enrollment or prior completion of CH 237 strongly recommended.
Prerequisites: CH 235 [Min Grade: C] and (CH 234 [Min Grade: C] or CH 236 [Min Grade: C])

CH 239. Organic Chemistry II Laboratory (Honors). 1 Hour.
Synthesis, purification and characterization of organic compounds using instrumental analysis, molecular modeling, scientific writing and oral presentation. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required.
Prerequisites: CH 237 [Min Grade: C][Can be taken Concurrently]

CH 297. Undergraduate Research Experiences. 1 Hour.
Research experience in selected areas of chemistry under supervision of faculty mentor. 3 or more labs hours per week, GPA of 2.5 in required chemistry courses, permission of faculty mentor and chemistry academic advisor required.

CH 325. Physical Chemistry I with Calculus: Thermodynamics and Chemical Kinetics. 4 Hours.
Thermodynamics, chemical equilibria, and chemical kinetics. Lecture and laboratory. Prior completion of PH 221 and CH 355 strongly recommended. Prior completion or concurrent enrollment in MA 227 strongly recommended. Concurrent enrollment in CH 325L Physical Chemistry I Lab required.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 201 [Min Grade: C] or PH 221 [Min Grade: C])

CH 325L. Physical Chemistry I Laboratory: Thermodynamics and Chemical Kinetics. 0 Hours.
Thermodynamics and chemical kinetics laboratory required with CH 325 lecture. Concurrent enrollment in CH 325 Physical Chemistry I required.

CH 345. Inorganic Chemistry: Principles and Applications of Chemical Periodicity. 4 Hours.
Systematic coverage of descriptive chemistry. Chemical reactivity using structural and electronic parameters. Development of chemical understanding and intuition of elements and their compounds, as well as industrial and environmental applications. Lecture and laboratory. Concurrent enrollment in CH 345L Inorganic Chemistry: Principles and Applications of Chemical Periodicity Lab required.
Prerequisites: CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

CH 345L. Inorganic Chemistry Lab: Principles and Applications of Chemical Periodicity. 0 Hours.
Principles and Applications of Chemical Periodicity Laboratory required with CH 345 lecture. Concurrent enrollment in CH 345 Inorganic Chemistry: Principles and Applications of Chemical Periodicity required.
CH 355. Quantitative Analysis. 4 Hours.
Principles of analytical measurements, statistical and volumetric techniques, spectrophotometric analysis, and chromatography, with emphasis on equilibrium and applications. Lecture and laboratory. Concurrent enrollment in CH 355L Quantitative Analysis Lab required.
Prerequisites: CH 117 [Min Grade: C]

CH 355L. Quantitative Analysis Laboratory. 0 Hours.
Emphasizing quantitative analysis laboratory. Concurrent enrollment in CH 355 Quantitative Analysis required.

CH 391. Cooperative Education in Chemistry. 2-3 Hours.
Analysis of the concepts and models of chemistry with emphasis on computational skills for chemistry and science teachers. Appropriate for students seeking certification as chemistry or science teachers. Junior or senior standing and minimum GPA of 2.5 or above required. Requires permission of and evaluation by appropriate faculty advisor.

CH 416. Chemical Demonstrations I. 3 Hours.
Demonstration and analysis of safe, practical and effective experiments suitable for middle/high school students. At least 50 demonstrations will be performed. Not applicable to a major or minor in chemistry. Requires permission of instructor.

CH 417. Chemical Demonstrations II. 3 Hours.
Demonstration and analysis of safe, practical and effective experiments suitable for middle/high school students. At least 50 demonstrations will be performed. Not applicable to a major or minor in chemistry. Requires permission of instructor.

CH 426. Physical Chemistry II: Structure/Bonding and Molecular Spectroscopy. 3 Hours.
Quantum mechanics, chemical bonding, and molecular spectroscopy. Laboratory work correlated with lecture material. Prior completion of CH 325 and MA 227 strongly recommended. (Formerly CH 326).
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 202 [Min Grade: C] or PH 221 [Min Grade: C]) and CH 427 [Min Grade: C] (Can be taken Concurrently)

CH 427. Molecular Structure and Spectroscopy Laboratory. 1 Hour.
Laboratory with emphasis on structure/bonding in main group and transition metal compounds. Laboratory will utilize molecular orbital theory and molecular spectroscopy (including nuclear magnetic resonance (NMR), infrared(IR), ultra-violet-visible(UV-vis), and mass(ms) spectroscopy and X-ray crystallography.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 202 [Min Grade: C] or PH 222 [Min Grade: C]) and CH 237 [Min Grade: C]

CH 429. Special Topics in Physical Chemistry. 1-3 Hour.
Special Topics in selected areas of physical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 439. Special Topics in Organic Chemistry. 1-3 Hour.
Special Topics in selected areas of organic chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 440. Transition Metal Chemistry. 3 Hours.
Relationship between bonding, structure, and properties of compounds including reactions, mechanisms, and catalysis of organometallic and bioinorganic chemistry.
Prerequisites: CH 345 [Min Grade: C] and CH 427 [Min Grade: C] (Can be taken Concurrently)

CH 449. Special Topics in Inorganic Chemistry. 1-3 Hour.
Special Topics in selected areas of inorganic chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 450. Instrumental Analysis. 4 Hours.
Focus on modern analytical chemistry instrumentation including chemical separations, spectroscopies (atomic absorption, infrared, UV-visible, fluorescence), mass spectroscopy, and thermal analysis. Concurrent enrollment in CH 450L Instrumental Analysis Laboratory is required and correlated with lecture material.
Prerequisites: CH 115 [Min Grade: C]

CH 450L. Instrumental Analysis Laboratory. 0 Hours.
Instrumental Analysis Lab. Concurrent enrollment in CH 450 Instrumental Analysis is required.

CH 451. Chemometrics. 3 Hours.
Introduction to basic data analysis techniques that include testing hypotheses, establishing tendencies and correlations, experimental design, etc. The course is designed to provide a support to a research chemist in effectively solving everyday problems associated with production and interpretation of experimental data.

CH 459. Special Topics in Analytical Chemistry. 1-3 Hour.
Special Topics in selected areas of analytical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 460. Fundamentals of Biochemistry. 3 Hours.
Overview of biochemical principles; chemistry of aqueous solutions, biochemical building blocks including amino acids, carbohydrates, lipids, and nucleotides; examination of metabolic pathways and enzymes that mediate catabolic and anabolic metabolism of carbohydrates, lipids, amino acids, and nucleic acids. Application of clinical correlations of metabolism to human nutrition and disease. This course is designed for Chemistry majors as well as students interested in medicine, dentistry, optometry, or pharmacy.
Prerequisites: CH 237 [Min Grade: C]

CH 461. Advanced Biochemistry I. 3 Hours.
Protein structure and function, enzymology, DNA structure, prokaryotic replication, transcription, and protein synthesis. Membrane structure and function, carbohydrate structure and function. Methods for isolating and characterizing macromolecule structure and function including chromatography, gel electrophoresis, CD, UV, and fluorescence spectroscopy, mass spectroscopy, X-ray crystallography and nuclear magnetic resonance spectroscopy.
Prerequisites: CH 460 [Min Grade: C]

CH 463. Biochemistry Laboratory. 3 Hours.
Introduction to modern biounalysis techniques used for the expression, isolation, and characterization of proteins and other biological macromolecules. Space is limited. Students with the Chemistry Major with the Biochemistry Track have priority.
Prerequisites: CH 355 [Min Grade: C] and CH 460 [Min Grade: C]

CH 464. Physical Biochemistry Laboratory. 3 Hours.
Physical/analytical approaches (including mass spectroscopy and NMR) toward determination of macromolecular structures, ligand binding, and enzymology. Space is limited. Students with the Chemistry Major in the Biochemistry Track have priority. Concurrent or prior enrollment in CH 461 is recommended.
Prerequisites: CH 325 [Min Grade: C] and CH 355 [Min Grade: C] and CH 460 [Min Grade: C]

CH 469. Special Topics in Biochemistry. 1-3 Hour.
Special topics in selected areas of biochemistry, biophysical chemistry, or structural biochemistry under supervision of faculty sponsor. Requires permission of instructor.
Prerequisites: CH 462 [Min Grade: C]
CH 471. Medicinal Chemistry and Drug Discovery. 3 Hours.
Emphasis in design and synthesis strategies for biologically active compounds directed toward common macromolecular drug targets. Selected examples of successful design for clinically used drug classes are presented.
Prerequisites: CH 237 [Min Grade: C] and CH 460 [Min Grade: C]

CH 472. Chemistry of Natural Products. 3 Hours.
The principal focus of this course will be the introduction of synthesis and medicinal chemistry of natural products. Drug discovery using natural products, with specific examples in the areas of antibacterial, anticaner, and analgesic drugs will be introduced. An overview of structural classes, biosynthetic pathways and application of asymmetric synthesis in the synthesis of specific examples from each class will be discussed. This course is intended for undergraduate students at the senior level. Prior completion of prerequisite courses with a grade of B or better strongly recommended.
Prerequisites: CH 235 [Min Grade: C] and CH 234 [Min Grade: C] or CH 236 [Min Grade: C] and CH 237 [Min Grade: C] and CH 238 [Min Grade: C] or CH 239 [Min Grade: C]

CH 477. Radiochemistry for the Life Sciences. 3 Hours.
This course is intended to act as an introduction to radiochemistry. It will cover production, instrumentation, and radiochemistry techniques to make use of radiotracers in the life sciences from basic biological and environmental applications to medical imaging and therapy.

CH 480. Polymer Chemistry I. Basic Principles. 4 Hours.
Basic chemical principles of polymers with the focus on synthesis, characterization, and applications of synthetic and biological macromolecules. Prior completion of CH 237, CH 325, and CH 355 (and MSE 350 for MSE students) recommended.
Prerequisites: CH 117 [Min Grade: C]

CH 480L. Polymer Chemistry I Laboratory. 0 Hours.
Polymer Chemistry I Laboratory. Concurrent enrollment in CH 480

CH 481. Polymer Chemistry II. Fundamental Properties. 4 Hours.
Fundamentals of chemical, physical and molecular properties of polymers in bulk and solution. Concurrent enrollment in CH 481L Polymer Chemistry II Laboratory required. Prior completion of CH 237, CH 325, and CH 355 (and MSE 350 for MSE students) recommended.
Prerequisites: CH 117 [Min Grade: C]

CH 481L. Polymer Chemistry II Laboratory. 0 Hours.
Polymer Chemistry II Laboratory. Concurrent enrollment in CH 481

CH 489. Special Topics in Polymer Chemistry. 1-3 Hour.
Special topics in selected areas of polymer chemistry under supervision of faculty sponsor. Requires permission of instructor.

CH 492. Research Methods. 1-3 Hour.
This course is required in the UABTEACH program and is specially designed to meet the needs of future teachers. Students meet two hours per week for non-traditional, interactive lectures and two hours per week for lab. The course is cross-listed (Physics, Chemistry, and Biology). It provides students with the tools that scientists use to solve scientific problems; gives students the opportunity to use these tools in a laboratory setting; makes students aware of how scientists communicate with each other through peer-reviewed scientific literature; and enables students to understand how scientists develop new knowledge and insights. The course requires a substantial amount of writing.

CH 493. Chemistry in Culture & Ethics. 3 Hours.
Designed to explore the impact of chemical innovations on society; challenges students to consider ethical use of chemical innovations and broader impacts of chemistry in society. Writing assignments are structured to build on scientific reasoning. Capstone course for Chemistry majors.
Prerequisites: CH 237 [Min Grade: C]

CH 495. Ethics in Chemical Research. 1 Hour.
Designed to explore the impact of chemical innovations on society; challenges students to consider ethical use of chemical innovations and broader impacts of chemistry in society. Writing assignments are structured to build on scientific reasoning. Capstone course for Chemistry majors.
Prerequisites: CH 237 [Min Grade: C] and CH 497 [Min Grade: C](Can be taken Concurrently)

CH 497. Undergraduate Research. 3 Hours.
Research project conducted under the supervision of a faculty mentor. Two semesters are highly recommended for minimum accumulation of 6 semester hours. A progress report is required each semester and a comprehensive written report in ACS format is required at the completion of the project. Permission of faculty mentor and chemistry academic advisor required; GPA 2.5 or greater overall; GPA 3.0 or greater in required chemistry courses.

CH 498. Chemistry Teaching Methods. 3 Hours.
This course provides chemistry majors who will be future chemistry teachers with insights into the fundamental principles of chemistry in a way that can be transported to the classroom. The course will cover all aspects of teaching, measurements of effectiveness, and outcomes. Permission of instructor required.
Prerequisites: CH 237 [Min Grade: C]

CH 499. Honors Research and Thesis. 3 Hours.
Research project conducted under the supervision of faculty mentor. Prior completion of 6 hours of CH 497, or 3 hours of CH 497 and 3 hours of STH equivalent, and admission to the Chemistry Honors Program. Requires research proposal on file with and approved by chemistry honors director. The course concludes with a written honors thesis and oral presentation and defense. Chemistry GPA 3.25 or greater; overall GPA 3.0 or greater and permission of instructor required.
Prerequisites: CH 497 [Min Grade: C]

CHHS-Community Health and Human Services Courses

Courses

CHHS 140. First Aid. 3 Hours.
Knowledge and skills needed to perform basic first aid and CPR procedures.

CHHS 141. Personal Health. 3 Hours.
Knowledge and skills that support a healthy lifestyle. Stress management, cardiovascular health, nutrition, and fitness.

CHHS 223. Introduction to Disease Prevention in Health Education Promotion. 3 Hours.
Disease etiology, incidence, prevalence, prevention, and control. Impact of various diseases on society.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) and (KIN 222 [Min Grade: C] or HE 222 [Min Grade: C] or HPE 200 [Min Grade: C])
CHHS 300. Ethics in Policy and Health Promotion. 3 Hours.
The candidate is introduced to professional ethics and policy implication in the helping professions. This course focuses on the knowledge, skills and values essential for ethical decision-making in responsible practice. Case studies through integrated learning will be utilized for discussion, self-exploration and skill building for problem solving of ethical issues and dilemmas.

CHHS 305. Social & Cultural Diversity. 3 Hours.
This course promotes the knowledge and skills needed to explore issues of diversity in a productive, professional and ethical manner. Topics span the discipline of public health and integrate materials, concepts, and frameworks from numerous fields in public health, health promotion, environmental health and health policy.

CHHS 342. Introduction to Health Education/Promotion. 3 Hours.
Foundations of health education and health promotion. Key concepts, definitions, models, theories, and skills.  
Prerequisites: HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C] or KIN 222 [Min Grade: C] or HPE 200 [Min Grade: C]

CHHS 343. Behavioral Theory in Health Education/Promotion. 3 Hours.
Application of health education theories and methods to assist individuals and groups with planned behavior change. Basic steps of program planning and implementation. Multiple assignments to reinforce ethics and civic responsibility in the profession. Ethics and Civic Responsibility are significant components of this course.

Prerequisites: (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C]) and (HE 223 [Min Grade: C] or CHHS 223 [Min Grade: C]) and (HE 342 [Min Grade: C] or CHHS 342 [Min Grade: C])

CHHS 350. Introduction to Human Services. 4 Hours.
This course is an introductory course in studying the field of human services. Content will include learning about what “human services” is, the helping process, and the roles and duties of those calling themselves “human service” providers. Coverage will also include learning about a broad range of services, jobs, functions, and roles human service professionals provide in everyday life. Basic principles, concepts, and theory in the helping field will be covered.

CHHS 356. HIV Awareness, and Healthy Relationships. 4 Hours.
The student will be able to facilitate workshops on Sexual Decision Making, maintain an ideal level of quality of life. By the end of this course the student will be able to communicate accurate information related to sexual issues, sexual decision making, sexuality of special populations, and sexual complications.

CHHS 344. Behavioral Theory in Health Education/Promotion. 3 Hours.
This course promotes skills appropriate for selected health problems, problem solving, and referrals. Skills to enhance communication with clients, peers, and community members at large. Health-related theories, communication theories, and marketing strategies.

Prerequisites: CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or HE 222 or KIN 222 [Min Grade: C] and CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]

CHHS 352. Community Resources/Identification/Mobilization in Human Services. 3 Hours.
This course provides an overview of community change, and it discusses theoretical issues and principles that promote change. Further, it introduces models of community change, provision of services, change agents, identification of resources, and community mobilization.

CHHS 345. Community Resources/Identification/Mobilization in Human Services. 3 Hours.
The intent of this course is to provide students will the skills to facilitate group presentations on health related content to their peers. Students will complete the Certified Peer Education Training a comprehensive, interactive, and skills-based training. Students will learn about the programs and services offered at the UAB Student Health and Wellness Center and be able to articulate this to new student users. Students will learn basic alcohol and other drug information in preparation for presentation to their peers.

CHHS 415. Case Management in Human Services. 3 Hours.
This course is an introductory course in studying the field of human services. Content will include learning about what “human services” is, the helping process, and the roles and duties of those calling themselves “human service” providers. Coverage will also include learning about a broad range of services, jobs, functions, and roles human service professionals provide in everyday life. Basic principles, concepts, and theory in the helping field will be covered.

Prerequisites: EPR 350 [Min Grade: C] or CHHS 350 [Min Grade: C]

CHHS 420. Helping Skills in Human Services. 3-4 Hours.
This course promotes skills appropriate for selected health problems, problem solving, and referrals. It also promotes skills to enhance communication with clients, peers, and community members at large.

CHHS 421. Health Communications & Health Coaching. 3 Hours.
Skills appropriate for selected health problems, problem solving, and referrals. Skills to enhance communication with clients, peers, and community members at large. Health-related theories, communication theories, and marketing strategies.

Prerequisites: CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or HE 222 or KIN 222 [Min Grade: C] and CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]

CHHS 422. Health Communications & Health Coaching. 3 Hours.
This course promotes skills appropriate for selected health problems, problem solving, and referrals. Skills to enhance communication with clients, peers, and community members at large. Health-related theories, communication theories, and marketing strategies.

CHHS 423. Human Sexuality. 3 Hours.
Biological, sociological, psychological, and ethical aspects of human sexuality. Biological overview, behavioral variations, research in sexuality, social issues, sexual decision making, sexuality of special populations, and sexual complications.

CHHS 424. Community Resources/Identification/Mobilization in Human Services. 3 Hours.
This course provides an overview of community change, and it discusses theoretical issues and principles that promote change. Further, it introduces models of community change, provision of services, change agents, identification of resources, and community mobilization.

CHHS 425. Community Resources/Identification/Mobilization in Human Services. 3 Hours.
The intent of this course is to provide students will the skills to facilitate group presentations on health related content to their peers. Students will complete the Certified Peer Education Training a comprehensive, interactive, and skills-based training. Students will learn about the programs and services offered at the UAB Student Health and Wellness Center and be able to articulate this to new student users. Students will learn basic alcohol and other drug information in preparation for presentation to their peers.

CHHS 426. Student Health & Wellness Center Peer Education. 3 Hours.
The intent of this course is to provide students will the skills to facilitate group presentations on health related content to their peers. Students will complete the Certified Peer Education Training a comprehensive, interactive, and skills-based training. Students will learn about the programs and services offered at the UAB Student Health and Wellness Center and be able to articulate this to new student users. Students will learn basic alcohol and other drug information in preparation for presentation to their peers.

CHHS 427. SHAPE Peer Education. 3 Hours.
This course is designed to provide students with the knowledge and skills needed to effectively communicate accurate information related to sexual health and decision-making. The concept of total health and the effects of lifestyle and decision-making on the quality of life will be emphasized. Students will learn decision-making and other skills that will enable them to make healthy choices and engage in healthy activities to improve and maintain an ideal level of quality of life. By the end of this course the student will be able to facilitate workshops on Sexual Decision Making, HIV Awareness, and Healthy Relationships.
CHHS 431. Planning and Implementing Health Education/Promotion Programs. 3 Hours.
Content and process planning, implementing, and evaluating programs in health education and health promotion. Sociological, psychological, and epidemiological foundations of health promotion programs. Development of practical skills for school, occupational, clinical, and community settings. A comprehensive program planning assessment will reinforce quantitative literacy in the profession. Quantitative Literacy is a significant component of this course.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) or HPE 200 [Min Grade: C] or KIN 222 [Min Grade: C] or HE 222 [Min Grade: C] and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 432. Administration of Health Education/Promotion Programs. 3 Hours.
Administrative theory and practice related to health and fitness programs in various settings. Management issues, professional issues, and personal professionalism. Writing is a significant component of this course.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C]) or HPE 200 [Min Grade: C] or KIN 222 [Min Grade: C] or HE 222 [Min Grade: C] and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 452. Evaluation and Grantsmanship. 3 Hours.
Evaluation of health education programs and curricula. Current thought and practice related to evaluation and the grant writing process.
Prerequisites: (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C])

CHHS 455. Fund Raising in Human Services. 3 Hours.
This course introduces students to the area of fund raising, development, special events, annual fund, major gifts, capital campaigns, and basic finance in the nonprofit sector. It is also appropriate for students working in other areas of Human Services as well as other majors who plan to work with nonprofits or governmental agencies. The course will also give students the foundation and tools needed to implement these plans into action. By the end of the course students will have developed at least one major fundraising plan focusing on one area.

CHHS 460. Leadership in Non-Profit Administration. 3 Hours.
This course provides the opportunity for study of administrative practices as related to health/fitness programs in various settings. Emphasis is on program administration and management. Consideration is also given to health/fitness professional issues.

CHHS 489. Intervention Strategies for Health Education/Promotion. 3 Hours.
Methods and materials; media used in professional health education practice. Nature of effective helping relationships. Selection, development, and critique for health instruction; Development of lesson plans. Barriers and ethical issues related to planned health behavior change.
Prerequisites: (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 490. Special Projects in Health Education. 1-6 Hour.
Exploration of health-related topic via professional literature or research project.

CHHS 491. Problems in Health Education. 1-6 Hour.
Controversial topics in health education or topics identified as state or national priority.

CHHS 498. Lifespan Dimensions in Women’s Health and Nutrition. 3 Hours.
Highlights will include health issues specific to women, chronic diseases, body image and eating disorders, health promotion and disease prevention, pregnancy, childbirth and lactation, weight loss/maintenance, menopause and ageing, fitness management and stress management.

CHHS 499. Community Health & Human Services Internship. 3-9 Hours.
Supervised work experience in a pre-approved community agency/organization.
Prerequisites: CHHS 431 [Min Grade: C] or HE 431 [Min Grade: C]

**CHI-Chinese Courses**

**Courses**

**CHI 101. Introductory Chinese I. 3 Hours.**
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

**CHI 102. Introductory Chinese II. 3 Hours.**
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

**CHI 190. Study Abroad: Chinese. 1-8 Hour.**
Approved novice level study abroad program in a Chinese-speaking country. Course of study will vary according to array of approved offerings student interest. Permission of department chair required.

**CHI 201. Intermediate Chinese I. 3 Hours.**
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. Conducted in Chinese. (CORE AREA II).

**CHI 202. Intermediate Chinese II. 3 Hours.**

**CHI 203. Intermediate Chinese Language & Culture. 3 Hours.**
This course aims to improve student linguistic and cultural fluency necessary for functioning in the Chinese-speaking world. The course examines several cultural topics as well as language patterns in everyday speech. While emphasis will be placed on oral skills, attention will also be given to the written Chinese that one encounters in daily life. Topics may include: Life of the Chinese People, Chinese Folk Customs, Chinese Arts and Crafts, Chinese Architecture, Traditional Chinese Ideology, Traveling around China, and etc.
CHI 204. Intermediate Chinese Language and Culture II. 3 Hours.
This course uses film as a medium to explore various aspects of Chinese culture and helps students understand the Chinese language. A wide range of movie genres are covered, including drama, action and thriller movies, etc. Students develop skills in reading, writing, speaking, listening and critical thinking. In addition, students will be introduced to the field of film studies and learn how to critically analyze and critique a movie.
Prerequisites: CHI 201 [Min Grade: C]

CHI 206. Chinese for the Professions. 3 Hours.
Intensive conversation and acquisition of vocabulary for the professionals while focusing on culture(s) of the Chinese-speaking world. This course aims to further develop communicative competence within the cultural context of the Chinese-speaking world; to foster critical thinking skills, such as, problem-identification and solving, decision-making, anticipation and planning, client understanding, and negotiation techniques; to expand students’ functional vocabulary, in particular, the language of the Chinese-speaking professional world; to promote a better understanding of Chinese business culture; and to develop professional basic writing skills.

CHI 290. Study Abroad: Chinese. 1-6 Hour.
This study-abroad Chinese course helps students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content also includes discussion and analysis of current cultural topics. Conducted in Chinese. Permission of the Department Chair and Director of Education Abroad required.

CHI 299. Directed Readings in Chinese. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Chinese students. Course design is determined by the instructor and student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Chinese language and culture. Intermediate proficiency in reading, writing, listening and speaking Chinese is the targeted outcome.

CHI 300. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Permission of the Department Chair and Director of Education Abroad required.

CHI 399. Directed Readings: Chinese. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Chinese language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of the Chinese language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Chinese is the targeted outcome. Permission of the Department Chair required.

CHI 490. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Conducted in Chinese. Permission of the Department Chair and Director of Education Abroad required.

CMST-Communication Studies

Courses

CMST 100. Media & Society. 3 Hours.
Examines the impact of mediated messages on society. What theories help to shape perception and understanding of the interplay between media, society, and human behavior.

CMST 101. Public Speaking. 3 Hours.
Effective public speaking. Analysis, research, organization, delivery, to enhance speaking performance. This course meets the Core Curriculum requirements for Area II: Humanities.

CMST 103. History of Mass Media. 3 Hours.
The history of newspapers, books, magazines, radio, television, cinema, recording industry, and the internet, focusing on current events, civic responsibilities and the role, value of diversity when appropriate. Ethics and Civic Responsibility are significant components of this course.

CMST 105. Introduction to Human Communication. 3 Hours.
Communication and persuasion as ideas in Western thought, ranging from Greek to contemporary period. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

CMST 110. Introduction to Interpersonal Communication and Relationships. 3 Hours.
This class introduces students to interpersonal communication research and theory; focusing on emotion management, passion, jealousy, romantic attraction, betrayal, conflict, deception, and the successful maintenance of romantic, family, and friendship relationships.

CMST 210. Newswriting and Reporting I. 3 Hours.
Recognizing news, gathering information, and writing news. Though the emphasis is on newspaper journalism, this is a foundational news writing course for all mass communication majors and minors.
Prerequisites: EH 102 [Min Grade: B] or EH 107 [Min Grade: B]

CMST 255. Introduction to Political Campaign Communication. 3 Hours.
A discussion of current theories and practices related to political campaign communication. This will included relevant media theories, campaign strategies, campaign financing, speech writing, and other topics as they relates to political campaigning.

CMST 283. Visual Media Production I. 3 Hours.
Intro to digital video production camera operation, framing, composition, lighting and audio with both multi-camera and single camera applications.

CMST 300. Human Communication in Everyday Life. 3 Hours.
Learning to express what we mean and to understand others is the foundation of this course. Human communication will review the following basic concepts:Components of human communication, interpersonal relationships, perceptions, and relational concerns.

CMST 301. Classical Theories of Social Influence. 3 Hours.
Classical systems of rhetoric applied to contemporary theory building in communication. Works selected from among Sophists, as well as Plato and Aristotle.

CMST 305. Applied Communication Theory. 3 Hours.
Major theoretical approaches to issues involved in human communication. Various psychological and sociological conceptualizations of communication process.

CMST 306. Investigative Reporting. 3 Hours.
Gathering and writing in-depth news; covering courts, police, schools, and county and city governments.
Prerequisites: MC 210 [Min Grade: C] or CMST 210 [Min Grade: C] or MC 106 [Min Grade: C]
CMST 308. Newswriting and Reporting II. 3 Hours.
Practice in gathering and writing news, with experience in writing under pressure of deadlines and covering beats.
Prerequisites: CMST 210 [Min Grade: C] or MC 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 309. Interviewing. 3 Hours.
Theory and practice in various types of interviews, such as employment, counseling, research, and journalistic.

CMST 310. Communications and Teamwork. 3 Hours.
Theories of small group communication and practice in decision making in various group formats as part of organizational structure.

CMST 311. Organizational Communication. 3 Hours.
Theories and models of communication in organizational settings. Analysis and diagnosis of communicative patterns and consideration of methods for implementing appropriate communication models in organizations.

CMST 315. Communication Leadership and Management. 3 Hours.
Theory and research on leadership and communication management. Specific attention to contexts in which leaders and managers function.

CMST 320. Introduction to Advertising. 3 Hours.
Survey of methods, techniques, and strategy involved in creating an advertising campaign.

CMST 321. Persuasion Communication. 3 Hours.
An introduction to the study and practice of persuasive discourse using both the rhetorical and behavioral science traditions.

CMST 322. Argumentation Theory. 3 Hours.
Bases of argument and nature of issues in controversy. Evidence, logic, refutation, and argumentative formats. Recommended for pre-law as well as general students.

CMST 324. Gender, Sex Similarities and Differences in Communication. 3 Hours.
This class introduces students to gender and how it influences communication and relationships in a variety of personal and professional contexts. Theory, research, and historical perspectives are reviewed and applied to interpersonal, family, romantic, educational, health, and organizational contexts.

CMST 326. Sports in the Mass Media. 3 Hours.
An introduction to the study of communication as it relates to sports. Topics include discussions of athlete-coach interactions, fan behaviors, and media coverage of sporting events.

CMST 335. Communication and Sports. 3 Hours.
An introduction to the study of communication as it relates to sports. Topics include discussions of athlete-coach interactions, fan behaviors, and media coverage of sporting events.

CMST 339. Introduction to Public Relations. 3 Hours.
Survey of public relations in the United States. Relationships among marketing, advertising and public relations.

CMST 340. Public Relations Principles. 3 Hours.
Relationship of business, industrial, educational, health, and service institutions to audiences. Public relations as management function in areas of communication analysis, counseling, and public information activities.
Prerequisites: (CMST 210 [Min Grade: C] or MC 210 [Min Grade: C]) and (CMST 339 [Min Grade: C] or CM 339 [Min Grade: C] or MC 339 [Min Grade: C])

CMST 343. Public Relations Methods II. 3 Hours.
Graphics, brochure and newsletter design, slide shows, broadcast PSAs, and multimedia presentations.
Prerequisites: CMST 340 [Min Grade: C] or MC 340 [Min Grade: C]

CMST 350. Publication Editing and Design. 3 Hours.
News selection, copy editing, picture editing, and headline writing.
Prerequisites: CMST 210 [Min Grade: C] or CM 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 353. Sports and Media Relations. 3 Hours.
An examination of the role of media relations in the sports communication environment. Students will acquire multiple competencies, including writing press releases, putting together media kits and media guides, preparing press conferences, and arranging interviews for sports personalities.

CMST 356. Propaganda and Public Persuasion. 3 Hours.
Theory and practice of propaganda with emphasis on mass media as tools of propagandist. Nazi, Soviet, and U.S. propaganda analyzed and critiqued in context of communication theory and ethics.

CMST 360. Feature Writing. 3 Hours.
Finding subjects, collecting information, interviewing, writing, and marketing magazine and newspaper features.
Prerequisites: CMST 210 [Min Grade: C] or CM 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 364. Crisis Management. 3 Hours.
The course will provide sufficient knowledge about crisis management in order to perform professional duties with all available information in how to anticipate and respond to a crisis—both negative and positive. Historical and traditional responses to crises will be examined, and particular instances of response by corporations, politicians, and government to disasters and catastrophic events analyzed. A crisis environment and preparation of a response will be simulated.
Prerequisites: EH 101 [Min Grade: D] or CMST 210 [Min Grade: D]

CMST 365. Social Media Strategy and Management. 3 Hours.
Basics of strategic design and management for social media.

CMST 366. Digital Design and Animation. 3 Hours.
Basics of design for digital media, including web and motion graphics.

CMST 370. Introduction to Broadcast Media. 3 Hours.
Broadcasting and digital technology, history of radio and television, economics of broadcasting, government regulation of industry, and assessment of media in society.

CMST 371. Copywriting for Broadcast Media. 3 Hours.
Copywriting for freelance, in-station, agency, corporate in-house, and institutional settings.
Prerequisites: CMST 103 [Min Grade: C] or MC 101 [Min Grade: C]

CMST 380. Health Communication. 3 Hours.
Bases of theory and practice of communication in health-care setting. Emphasis on communication contexts and relationships.

CMST 382. Current Issues in Health Communication. 3 Hours.
A project-based course in the current methods of communicating health information. Students will research the foundations of communication strategies in health care and plan a program of health information to be tested with an actual population. Email, telephone health, are just two areas of study for students. Students should plan for some time to be devoted to a community project.
CMST 383. Visual Media Production II. 3 Hours.
Advanced digital video production for media applications on the web, television and film.
Prerequisites: CMST 283 [Min Grade: C] or MC 283 [Min Grade: C]

CMST 391. Sports Communication Practicum. 3 Hours.
The student will gain practical experience by working in a sports environment on a regular basis. The experience will be directed by a communication studies faculty member, while the day-to-day experiences of the student will be directed by a supervisor in the work environment.

CMST 400. Professional Presentations. 3 Hours.
Advanced speaking and delivery techniques in professional settings. Audience analysis, professional delivery, research, and application of theories of persuasion.

CMST 401. Instructional Communication. 3 Hours.
Communication problems in the classroom. Translation of data into lecture discussion. Empirical research on verbal and nonverbal elements of effective presentation.

CMST 402. Mass Communication Law. 3 Hours.
Legal limitations and privileges affecting publishing and broadcasting. Major court decisions. Fair comment, libel, right of privacy, fairness doctrine, and license renewal.

CMST 403. Pragmatics and Human Interaction. 3 Hours.
This course examines how people use language to create meanings within conversations; with a focus on the nature of language, speech act theory, conversation analysis, face and face maintenance, sexism in language, conversation implicature, honesty, and deception.

CMST 405. Contemporary Philosophies of Communication. 3 Hours.
Twentieth-century systems of Western rhetoric. Concepts selected from among works of Burke, Weaver, Toulmin, Perelman, Richards, and McLuhan.

CMST 411. Organizational Communication Project. 3 Hours.
Theory and research in communication audits of organizations.
Prerequisites: CMST 311 [Min Grade: C] or CM 311 [Min Grade: C]

CMST 413. Nonverbal Communication. 3 Hours.
Elements of nonverbal behavior (physical appearance, gestures, space, voice) which affect communication in person-to-person situations.

CMST 414. Language and Thought. 3 Hours.

CMST 415. Intercultural & International Communication. 3 Hours.
Communication problems in intercultural and multicultural contexts. Interpretations and otherness. Ethnocentrism and culture. Analysis of one culture interpreting another, with emphasis on modern societies.

CMST 416. Issues in Global Communication. 3 Hours.

CMST 417. Cyborg Communication. 3 Hours.
The study of how people use online communities to mirror, extend, idealize and fantasize their everyday lives. Exploration of how online communities are formed, maintained and dissolved will be made.

CMST 425. Communication in Social and Personal Relationships. 3 Hours.
The course offers an in-depth examination of the role of communication in the initiation, development, maintenance, and termination of social, professional, and personal relationships.

CMST 440. Public Relations Methods I. 3 Hours.
Planning and executing ongoing programs and campaigns to improve organizational and institutional relations with publics. Preparing and distributing news releases, reports, letters, pamphlets, position papers, public statements, speeches, and backgronders.
Prerequisites: CMST 340 [Min Grade: C] or MC 340 [Min Grade: C]

CMST 442. Conducting Public Relations Campaigns. 3 Hours.
National and local programs that illustrate good and bad practices. Student teams research, plan, and design public relations campaign for client.

CMST 455. Seminar in Political Communication. 3 Hours.
Emerging cross-disciplinary field of political communication. Literature and propositions surrounding key approaches, methods, and substantive areas of inquiry in political communication.

CMST 458. Media Criticism. 3 Hours.
Rhetorical systems for appraising persuasive messages and campaigns in twenty-first century.

CMST 460. Communication and Social Movements in America. 3 Hours.
Exploration of role of public communication in political, religious, social, and economic evolution of America. Movements include war and peace, revolution, slavery, feminist concerns, and industrial change.

CMST 461. Media Economics. 3 Hours.
Basic economic principles in the theories of Adam Smith, Davis Richardo and Karl Marx. Economy and communication as part of a social life. What’s the value? Value in linguistics and economics. F. von Hayeck and the idea of pricing as a means of signaling. Pricing and consumption of goods in Industrial Society. Understanding media from the viewpoint of economic concepts and procedures.

CMST 480. Seminar in Health and Medical Communication. 3 Hours.
Advanced communication theory and research in health-care setting. Impact of interpersonal, organizational, and mass communication policy in field of human health and medicine.

CMST 481. Communication and Aging. 3 Hours.
Biological, neurological, and socio-psychological effects of aging on communication process. Communication with elderly in various health and medical contexts.

CMST 483. Visual Media Production III. 3 Hours.
Applied advanced digital video production.
Prerequisites: CMST 383 [Min Grade: C] or MC 383 [Min Grade: C]

CMST 491. Internship. 1-3 Hour.
Students who meet eligibility requirements may take three hours of academic credit per semester for participating in an advisor approved internship experience. All internships require a minimum of 70 hours of work per academic credit per semester.

CMST 492. Independent Study. 1-3 Hour.
The purpose of this class is to provide the student with an opportunity to conduct significant research under the direct supervision of a Communication Studies faculty member. This research is to be an extension of an existing class or classes that you have already taken. It is not to be used to replace existing classes or fulfill requirements that existing classes already fill.
CMST 493. Special Topics in Communication Studies. 3 Hours.  
Topics selected by faculty.

CMST 494. Communication Research Methods. 3 Hours.  
Research questions, design, methodology, data gathering, and analysis.  
Practice in conducting, interpreting, and communicating research findings  
to public. Ethical considerations of conductions research with human  
subjects. Ethics and Civic Responsibility are significant components of  
this course. Junior standing required.

CMST 495. Mass Media and Society. 3 Hours.  
Mass communication research from 1940s to present. Transactional  
model of communication and symbolic-interactionist perspective used  
among other approaches to evaluate role of mass media in twenty-first  
century America.

COP-Co-Operative Work Program

Courses

COP 011. Cooperative Work Program Full-Time. 12 Hours.  
**Engineering students should register for your department’s co-op  
course. In order for a Co-op Work (COP) experience to be recognized  
by the University and posted to an academic transcript, a student must  
register prior to the term he or she plans to participate. If a student fails  
to register by the last day to add classes, as published each term, the  
experience will not be posted to his or her transcript retroactively. This  
course has requirements including: an employer offer letter, student  
self-assessment, employer assessment, and a final essay. Information  
will be provided upon enrollment. Failure to register for co-op may  
affect a student's status at UAB as well as eligibility for loan deferment  
and/or health insurance. Students who are registered should consult  
their academic department to determine if they are eligible to receive  
aademic credit for their experience. For more information, please  
contact Career & Professional Development at 934-4324.

COP 012. Cooperative Work Program Part-Time. 6 Hours.  
**Engineering students should register for your department's co-op  
course. In order for a Co-op Work (COP) experience to be recognized  
by the University and posted to an academic transcript, a student must  
register prior to the term he or she plans to participate. If a student fails  
to register by the last day to add classes, as published each term, the  
experience will not be posted to his or her transcript retroactively. This  
course has requirements including: an employer offer letter, student  
self-assessment, employer assessment, and a final essay. Information  
will be provided upon enrollment. Failure to register for co-op may  
affect a student's status at UAB as well as eligibility for loan deferment  
and/or health insurance. Students who are registered should consult  
their academic department to determine if they are eligible to receive  
a academic credit for their experience. For more information, please  
contact Career & Professional Development at 934-4324.

COP 021. Walt Disney - Cooperative Work Program Full-Time. 12  
Hours.  
Cooperative work program full-time. Student must submit a letter from  
Disney for term employed and should consult your academic advisor for  
approval.

CS-Computer Science Courses

Courses

CS 103. Introduction to Computation. 4 Hours.  
An introduction to computation and computational thinking, explored  
through programming in Python. Python is a scripting programming  
language that encourages exploration and quick development. This  
course assumes no prior programming experience and is appropriate  
for students in any discipline, such as linguistics, biology, business,  
and art. The student will leave the course with the ability to write clear  
and well-designed programs that solve interesting problems, and an  
appreciation of the power and beauty of computation. Strings, tuples,  
lists, dictionaries; branching, iteration, abstraction through functions,  
recursion, higher order programming; insertion sort, binary search, turtle  
graphics, binary numbers, introduction to classes. Principles of software  
development are emphasized, including specification, documentation,  
testing, debugging, exception handling. This course has a laboratory  
component.

CS 103L. Introduction to Computation Lab. 0 Hours.  
Laboratory to accompany CS103.

CS 130. Introduction to Cyber Security. 3 Hours.  
This course introduces students to the rapidly evolving and critical  
international arenas of privacy, information security, and critical  
infrastructure, and is designed to develop knowledge and skills for  
security of information and information systems at both individual and  
organizational levels. Stakeholders of information security and privacy.  
Framework of information security and privacy. Nature of common  
information hazards. Common cyber attacks and counter-measures.  
Operation and limitations of information and system safeguards. Ethics,  
privacy, policy and information decisions. Legal aspects, professional  
practices, and standards for information security and privacy. Security of  
national critical infrastructures.

CS 199. Special Topics in Computer Science. 1-3 Hour.  
Selected topics in Computer Science. This course may or may not have a  
laboratory component or be taught online.

CS 199L. Special Topics Lab. 0 Hours.  
Project oriented hands-on approach lab. Mandatory first day of  
attendance.

CS 203. Object-Oriented Programming. 4 Hours.  
A second course in computational thinking, through the lens of object  
oriented programming. Fundamental concepts of object oriented  
programming and basic data structures. Types, classes, objects,  
inheritance, containers, OO software design, program structure and  
organization, reflection, generic programming. Lists, trees, stacks,  
queues, heaps, search trees, hash tables, graphs, complexity analysis.  
This course has a laboratory component.  
Prerequisites: CS 103 [Min Grade: C] or CS 201 [Min Grade: C]

CS 203L. Object-Oriented Programming Lab. 0 Hours.  
Laboratory to accompany CS203.

CS 222. Mobile Application Development. 3 Hours.  
Introduction to application development for mobile devices including  
those built on Android, iOS and Windows Phone using a popular mobile  
application development platform such as Cordova. Covers unique  
requirements and constraints of mobile applications, foundations of  
mobile application development, syntax and semantics of web languages  
such as HTML, CSS and related frameworks, client side scripting  
including JavaScript and associated techniques such as jQuery and Ajax,  
principles for the design and evaluation of mobile user interfaces, storage  
and sensors. Lecture and laboratory.  
Prerequisites: CS 103 [Min Grade: C]
CS 222L. Mobile Application Development Laboratory. 0 Hours.
Laboratory to accompany CS 222.

CS 250. Discrete Structures. 3 Hours.
Discrete mathematics for computer science, including elementary propositional and predicate logic, sets, relations, functions, counting, elementary graph theory, proof techniques including proof by induction, proof by contradiction, and proof by construction.
Prerequisites: CS 103 [Min Grade: C] or CS 201 [Min Grade: C] and (MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C] or MA 126 [Min Grade: C] or MA 227 [Min Grade: C])

CS 303. Algorithms and Data Structures. 4 Hours.
Techniques for design and analysis of algorithms; efficient algorithms for sorting, searching, graphs, and string matching; and design techniques such as divide-and-conquer, recursive backtracking, dynamic programming, and greedy algorithms.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 303L. Algorithms and Data Structures Laboratory. 0 Hours.
Project oriented hands-on approach to accompany CS 303.

CS 306. Programming in Perl. 1 Hour.
Basic syntax and data types, data structures, functions, scoping, regular expressions and pattern matching, libraries and modules, program composition, best practices.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 309. Programming in Mathematica. 1 Hour.
Syntax, semantics and concepts of programming in Mathematica: expressions, lists, patterns and rules, functional programming, procedural programming, recursion, numeric, strings, graphics and visualization, dynamic expressions, optimization, and applications.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 330. Computer Organization and Assembly Language Programming. 3 Hours.
Register-level architecture of modern digital computer systems, digital logic, machine-level representation of data, assembly-level machine organization, and alternative architectures. Laboratory emphasizes machine instruction execution, addressing techniques, program segmentation and linkage, macro definition and generation, and computer solution of problems in assembly language.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 330L. Computer Organization and Assembly Language Programming Lab. 0 Hours.
Laboratory to accompany CS330.

CS 333. System Programming in C. 3 Hours.
Unix architecture and internals with an emphasis on Linux, shell scripting, distributions of Linux for various computing platforms including large and desktop computers, and embedded computing devices, introduction to the C programming language, system programming in C covering signals and process control, networking, I/O, concurrency and synchronization, memory allocation, threads, debugging, library development and usage.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 334. Networking. 3 Hours.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 334L. Networking Lab. 0 Hours.
Project oriented hands-on approach to accompany CS 334. Mandatory first day of class.

CS 350. Automata and Formal Languages. 3 Hours.
Finite-state automata and regular expressions, context-free grammars and pushdown automata, computability.
Prerequisites: CS 250 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 355. Probability and Statistics in Computer Science. 3 Hours.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 380. Scientific Computing. 3 Hours.
Scientific computing is the foundation of many key areas of computer science (e.g., machine learning, graphics, vision, cryptography) and of companies like Google. A main object of study in this course is the matrix, including matrix computation (matrix multiplication, null space, solution of linear systems, least squares) and applications (image filtering, face detection, compression). Other topics may include wavelets, root finding, quadrature, and Fourier transform.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 391. Special Topics. 1-3 Hour.
Selected Topics in Computer Science.

CS 392. Special Topics. 1-3 Hour.
Selected Topics in Computer Science.

CS 398. Undergraduate Honors Research. 1-3 Hour.
Research project under supervision of faculty sponsor. Prerequisite: 18 semester hours in computer and information sciences with grade point average of 3.5 in computer and information sciences and permission of instructor.

CS 399. Directed Readings. 1-3 Hour.
Selected readings, research and project development under the direction of a faculty member. Permission of instructor.
Prerequisites: CS 203 [Min Grade: D] and CS 250 [Min Grade: D]
CS 401. Programming Languages. 3 Hours.
CS401 is a programming language overview course. The course will discuss computability, lexing, parsing, type systems, and ways to formalize a language's semantics. The course will introduce students to major programming paradigms, such as functional programming and logic programming, and their realization in programming languages. Students will solve problems using different paradigms and study the impact on program design and implementation. The course enables students to assess strengths and weaknesses of different languages for problem solving.

Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 401L. Programming Languages Laboratory. 0 Hours.
Laboratory to accompany CS401.

CS 402. Compiler Design. 3 Hours.
Study the design and implementation of compilers, including front-end (lexer, parser, type checking), to mid-end (intermediate representations, control-flow analysis, dataflow analysis, and optimizations) to back-end (code generation). Students will get hands-on experience by implementing several compiler components.

Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 403. Cloud Computing. 3 Hours.
Introduction to cloud computing, definition, history, models of service delivery, IaaS/PaaS/SaaS clouds, Public/private/Hybrid clouds, cloud architectures, cloud storage, data center design issues, cloud programming systems, MapReduce programming, security and privacy issues, application development on commercial Cloud Computing Platforms, building mobile apps with a cloud based backend, using cloud APIs in PaaS/IaaS/SaaS platforms.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 410. Introduction to Databases. 3 Hours.
Relational model of databases, structured query language, normalized structure of database management systems based on relational model, and security and integrity of databases.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 415. Multimedia Databases. 3 Hours.
Multimedia information processing, multimedia database architecture, multimedia database retrieval, semantic models for multimedia databases.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 416. Big Data Programming. 3 Hours.
Introduction to Big Data, Properties of Big Data, platforms, programming models, applications, business analytics programming, big data processing with Python, R, and SAS, MapReduce programming with Hadoop.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 417. Database Security. 3 Hours.
Database fundamentals, introduction to database security, overview of security models, access control models, covert channels and inference channels, MySQL security, Oracle security, Oracle label security, developing a database security plan, SQL server security, security of statistical databases, security and privacy issues of data mining, database applications security, SQL injection, defensive programming, database intrusion prevention, audit, fault tolerance and recovery, Hippocratic databases, XML security, network security, biometrics, cloud database security, big database security.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 419. Investigating Online Crimes. 3 Hours.
Introduction to cyber-investigative techniques involving network forensics. Students will develop and learn to apply new programs and techniques to automatically evaluate digital evidence from network packet captures, emails, server logs, social media, darknets and online forums related to cyber crime cases from both a law enforcement and incident response perspective.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 420. Software Engineering. 3 Hours.
Design and implementation of large-scale software systems, software development life cycle, software requirements and specifications, software design and implementation, verification and validation, project management and team-oriented software development. Lecture and laboratory.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 420L. Software Engineering Laboratory. 0 Hours.
Laboratory to accompany CS 420.

CS 421. Advanced Web Application Development. 3 Hours.
Introduction to web application design and development. Includes traditional web applications utilizing server-side scripting as well as client/server platforms. Covers responsive design for both mobile and desktop users, as well as hands on server provisioning and configuration. Other topics include web security problems and practices, authentication, database access, application deployment and Web API design, such as REpresentational State Transfer (REST).

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 421L. Advanced Web Application Development Laboratory. 0 Hours.
Laboratory to accompany CS 421.

CS 423. Network Security. 3 Hours.
Conventional network security (symmetric and public-key cryptography). Message encryption and authentication. Secure communication between computers in a hostile environment, including E-mail (PGP), virtual private networks (IPSec), remote access (SSH), and E-commerce (SSL), firewalls, intrusion detection and prevention, security of IEEE 802.11 wireless networks (WEP, WPA), mandatory weekly Linux-based lab.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 423L. Network Security Laboratory. 0 Hours.
Laboratory to accompany CS423.
CS 425. Metrics and Performance. 3 Hours.
The theory and practice of metrics and performance. Querying theory and statistical analysis.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 426. Secure Software Development. 3 Hours.
Why and how software fails, characteristics of secure and resilient software, life cycle of secure software development, metrics and models for secure software maturity, design methodology, best practices for secure programming, secure software for mobile computing, cloud computing and embedded systems, methodology for testing and validation.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 427. Software Design and Integration. 3 Hours.
This course provides hands-on experience in the design and integration of software systems. Component-based technology, model-driven technology, service-oriented technology, and cloud technology are all explored. Software design basics, including the decomposition of systems into recognizable patterns, the role of patterns in designing software and design refactoring, and attributes of good design. Agile culture, CASE tools, tools for continuous integration, build, testing, and version control.
Prerequisites: CS 420 [Min Grade: C]

CS 429. Software Engineering Research Project. 3 Hours.
This is a project-based research course in software engineering, involving significant implementation and experimentation under the supervision of a faculty member. A project proposal must be accepted before registering for this course.
Prerequisites: CS 420 [Min Grade: C]

CS 430. Computer Architecture. 3 Hours.
Introduction to computer architecture, including memory subsystems, direct-mapped and set-associative cache and multi-level cache subsystems, direct-access devices including RAID and SCSI disk drives, processor pipelining including super-scalar and vector machines, parallel architectures including SMP, NUMA and distributed memory systems, Interrupt mechanisms, and future microprocessor design issues.
Prerequisites: CS 330 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 431. Distributed Systems. 3 Hours.
Introduction to distributed systems, distributed hardware and software concepts, communication, processes, naming, synchronization, consistency and replication, fault tolerance, security, client/server computing, web technologies, enterprise technologies.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 432. Parallel Computing. 3 Hours.
Introduction to parallel computing architectures and programming paradigms. Theoretical and practical aspects of parallel programming and problem solving. Design, development, analysis, and evaluation of parallel algorithms.
Prerequisites: (CS 303 [Min Grade: C] and CS 330 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 433. Operating Systems. 3 Hours.
Introduction to operating systems. This course looks at the internal design and operation of a modern operating system. Topics include interrupt handling, process scheduling, memory management, virtual memory, demand paging, file space allocation, file and directory management, file/user security and file access methods. Several comparisons among current operating systems are used, with attention to Windows and Unix in particular.
Prerequisites: CS 330 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 433L. Operating Systems Laboratory. 0 Hours.
Laboratory to accompany CS 433.

CS 434. Virtualization. 3 Hours.
Theory and practice of virtualization. Origins, history, technical and economic motivations. Relationship to network operating systems and operating system architecture. Simulation, Emulation, Virtualization of CPUs, networks, storage, desktops, memory, devices, and combinations thereof. Different approaches to virtualization, including hardware assists and software-only techniques. Techniques, approaches, and methodologies for scale-out and scale-up computing, including security, performance and economic concerns.
Prerequisites: CS 433 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 435. Network Programming. 3 Hours.
Remote procedure call and client-server mechanisms. Protocol definition and compilation; client and server stubs and application code; transport independence; multiple client and server systems. Applications, e.g., remote database query and update and image filtering and archiving; systems programming and file systems contexts.
Prerequisites: CS 334 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 436. Computer Security. 3 Hours.
Study of the breadth of major computer security topics including cyber threats, malware, information assurance, authorization, applied cryptography, web security, mobile and wireless security, network security, systems/software security, database and storage security, user-centered security, and best security practices and countermeasures.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 437. Digital Media Forensics. 3 Hours.
Digital media forensics addresses all stored digital evidence types faced by cyber security professionals and computer forensics examiners. Students will learn to analyze character encoding, file formats, and digital media, including hard drives, smartphones and other portable devices, and cloud-hosted evidence, as well as disk acquisition, duplication and evidence preservation techniques and how to apply these techniques in typical criminal investigation scenarios.
Prerequisites: CS 303 [Min Grade: C] and CS 330 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 437L. Digital Media Forensics Lab. 0 Hours.
Laboratory to accompany CS 437.
CS 440. Introduction to Bioinformatics. 3 Hours.
This course introduces students to the field of bioinformatics, emphasizing the application of computational tools and methodology in genomics, analysis of protein functions and structures, and DNA sequencing. Students learn how to use a high level programming language such as Python together with software tools such as BLAST and ArrayTrack to solve bioinformatics problems.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 441. Algorithms in Bioinformatics. 3 Hours.
This course covers the design and analysis of algorithmic techniques applied in bioinformatics. Topics include sequence comparison, alignment and matching, suffix tree, sequence database search, phylogenetic tree, genome rearrangement, motif finding, RNA prediction, and peptide sequencing.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 442. Mobile and Wireless Security. 3 Hours.
Mobile/wireless devices are ubiquitous, raising the potential for many cyber threats. This course examines security vulnerabilities inherent in many existing and emerging mobile and wireless systems, ranging from smartphones to wearables and RFID tags. In addition to exposing security vulnerabilities, defensive mechanisms to address these vulnerabilities drawn from existing deployments and research literature will be studied.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 443. Cloud Security. 3 Hours.
Definition of cloud computing, cloud computing models, privacy, authenticity and integrity of outsourced data, proof of data possession / retrievability, cloud forensics, malware analysis as a service, remote verification of capability and reliability, proof of availability, economic attacks on clouds and outsourced computing, virtual machine security, trusted computing technology and clouds, verifiable resource accounting, cloud-centric regulatory compliance issues and mechanisms, business and security risk models, secure MapReduce, applications of secure cloud computing, private information retrieval and cloud cartography.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 444. Network Forensics. 3 Hours.
This course covers concepts and methods involved in unraveling network intrusions, DDoS, and other untoward network behavior.

Prerequisites: CS 303 [Min Grade: C] and CS 336 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 445. Modern Cryptography. 3 Hours.
Theory and practices of modern cryptographic techniques, algorithms and protocols, including formal analysis. Secret key encryption algorithms, public key encryption algorithms, stream ciphers, one-way hashing algorithms, authentication and identification, digital signatures, signcryption, key establishment and management, secret sharing and data recovery, zero-knowledge proofs, public key infrastructures, efficient implementation, cryptanalytic attacks and countermeasures, security models, assumptions and proofs.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 446. Digital Currency. 3 Hours.
Fundamental principles of digital cash systems including Bitcoin, Ripple and other notable cryptocurrencies. Topics to be covered include how a cryptocurrency works, blockchain and other decentralized consensus protocols, proof of work, proof of stake, security and privacy of cryptocurrencies, cryptographic techniques for digital currency, and applications of blockchain in peer-to-peer trust establishment, smart contracts, digital asset management, financial exchanges and distributed autonomous organization.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 447. Biomedical Modeling. 3 Hours.
Modeling and analysis of biomedical datasets. Aspects of image processing and shape modeling related to biomedical datasets, morphometry, alignment, surgical planning, case studies.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 452. Advanced Algorithms and Applications. 3 Hours.
This course introduces students to the design and analysis of fundamental algorithms that underpin many fields of importance ranging from data science, business intelligence, finance and cyber security to bioinformatics. Algorithms to be covered include dynamic programming, greedy technique, linear programming, network flow, sequence matching, search and alignment, randomized algorithms, page ranking, data compression, and quantum algorithms. Both time and space complexity of the algorithms are analyzed.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 454. Malware Analysis Lab. 0 Hours.
Laboratory to accompany CS 454.

CS 456. Web Security. 3 Hours.
The web uses advanced applications that run on a large variety of browsers that may be built using programming languages such as JavaScript, AJAX, Google Web Toolkit and Apache Struts, to name a few. This course studies how core web technologies work, the common security vulnerabilities associated with them, and how to build secure web applications that are free from these vulnerabilities.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 457. Penetration Testing and Vulnerability Assessment. 3 Hours.
This course focuses on penetration testing and vulnerability analysis. It introduces methodologies, techniques and tools to analyze and identify vulnerabilities in stand-alone and networked applications. It also covers methodologies for legal and standards compliance.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 457 [Min Grade: C])
CS 460. Artificial Intelligence. 3 Hours.
This course will provide an introduction to fundamental concepts in the field of artificial intelligence. Topics typically covered include agents, search, logic and knowledge representation, probabilistic models, machine learning, natural language processing and perception.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 462. Natural Language Processing. 3 Hours.
This course provides a broad introduction to Natural Language Processing (Computational Linguistics). Topics typically covered in this course include part-of-speech tagging, syntactic parsing, semantic analysis, speech recognition, machine translation, sequence labeling algorithms, n-gram language models, statistical parsing, grammar formalisms and treesbanks.
Prerequisites: (CS 303 [Min Grade: C] and CS 350 [Min Grade: C] and CS 355 [Min Grade: C]) or CS 460 [Min Grade: C]

CS 463. Data Mining. 3 Hours.
Techniques used in data mining (such as frequent sets and association rules, decision trees, Bayesian networks, classification, clustering), algorithms underlying these techniques, and applications.

CS 467. Machine Learning. 3 Hours.
Introduction to machine learning, the design of algorithms that can make predictions about the future based on past experience. Emphasizes practical considerations for developing efficient and accurate machine learning models, and theoretical underpinnings of different learning algorithms.
Prerequisites: (CS 303 [Min Grade: C] and CS 355 [Min Grade: C] and MA 125 [Min Grade: C]) or CS 460 [Min Grade: C] or (CS 303 [Min Grade: C] and MA 225 [Min Grade: C])

CS 469. Introduction to the Internet of Things. 3 Hours.
Definition of the Internet of Things (IoT), history, IoT components, device specifications and examples, architectures, protocols, applications, security and privacy issues, programming and development environments for IoT, interoperability, interfacing IoT devices via web and mobile applications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 470. Computer Graphics and Data Visualization. 3 Hours.
Computer graphics and its application to the visualization of data for data science. Computer graphics: raster images, coordinate frames, matrix transforms, perspective and orthographic viewing, color, shading, visibility, quaternions and animation, triangle meshes, smooth curves and surfaces, texture mapping, graphics programming. Data visualization: Tufte's design rules, using colour to visualize, histograms, graph visualization, silhouettes and nonphotorealistic rendering, medical illustration, contouring, principal component analysis (PCA).
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 473. Computer Vision. 3 Hours.
Image smoothing and filtering, feature detection, segmentation, calibration and alignment, object recognition, morphology, projective geometry, scale space.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 474. 3D Printing. 3 Hours.
3D Printing : design, materials, and aesthetics. Students will do projects which result in unique artifacts created by 3D printing. Multi-disciplinary teams are encouraged. Societal and legal implications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 475. Visualization. 3 Hours.
Advanced computer graphics techniques aimed at scientific visualization applications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 476. Foundations of Game Development. 3 Hours.
An exploration of the Unreal game development engine and game development using Unreal and C++. This course assumes no prior C++ programming experience, game development experience or experience with the Unreal engine. The student will gain foundational knowledge of the Unreal Engine, C++, game design and development.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 226 [Min Grade: C])

CS 482. Simulation Methodology. 3 Hours.
Foundations for computer modeling and simulation, with accent on discrete systems: random number and process generation; statistical bases with probability and frequency distribution orientation; Monte Carlo experiments and general purpose modeling.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 483. Open Source Security Systems. 3 Hours.
An introduction to the design, implementation, evaluation and maintenance of secure software systems and applications using open source technologies, with an emphasis on hands-on experience. Topics include: open source ecosystems, open source security methodologies and models, notable open source software systems and projects, quality and security assurance through open source, open source supply chain security, major open source cryptographic packages; designing, implementing and maintaining security systems using open source technologies; assessment and regulatory compliance using open source tools, and open source hardware.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 484. Robot Motion. 3 Hours.
Path planning algorithms. Configuration space, potential functions, roadmaps, cell decomposition, probabilistic motion planning, compliant motion.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 485. Foundations of Data Science. 3 Hours.
This introductory course in data science teaches fundamental concepts and techniques in statistical inference and big data analytics. Topics include: high-dimensional space, singular value decomposition, random graphs, random walks and Markov chains, data streaming and sketching, and basics of data mining and machine learning.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 486. Software-Defined Networking. 3 Hours.
Software defined networking (SDN) allows a logically centralized software component to manage and control the behavior of an entire network. Topics to be covered include abstractions and layered architecture of SDN, data, control and management planes, network virtualization, programming SDN, network functions (e.g. routing, load balancing and security), comparison of OpenFlow and proprietary SDN technologies, and network optimization with SDN.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 487. Complex Networks. 3 Hours.
Introduction to complex network theory and real-world applications in biology, physics, sociology, national security and cyber enabled technology systems such as social networks. Essential network models including small world networks, scale free networks, spatial and hierarchical networks together with methods to generate them with a computer will be discussed. In addition, various techniques for the analysis of networks including network modeling and evolution, community structure, dynamic network analysis, and network visualization will be explored.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 489. Cyber Risk Management. 3 Hours.
This course develops knowledge and skills in risk based information security management geared toward preventive management and assurance of security of information and information systems in technology-enabled environments. It focuses on risk assessments, risk mitigation strategies, risk profiling and sensitivity, quantitative and qualitative models of calculating risk exposures, security controls and services, threat and vulnerability management, financing the cost of security risks, and return on investment for information security initiatives. The course presents several risk assessment models with an ultimate goal of identifying and realizing the unique and acceptable level of information risk for an organization.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 491. Special Topics. 3 Hours.
Special Topics in Computer Science.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 492. Special Topics. 3 Hours.
Special Topics in Computer Science.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 496. Research Seminar. 1 Hour.
Participation in research seminar directed by a faculty member.

CS 497. Competitive Programming Techniques. 1 Hour.
This course will help students become more competitive in a programming competition such as the ACM programming contest by exploring numerous problem solving techniques and algorithms not covered in the traditional curriculum.

CS 498. Research Methods in Computer Science. 3 Hours.
This course is designed to provide future computer science teachers with the tools that computer science uses to develop new knowledge. Students will design, implement, and document independent research inquiry. Students will learn how scientists communicate through peer-reviewed publications and evaluate conflicting scientific claims. Work is closely coordinated with the work of students from other content disciplines so that students see the similarity and differences of research methods in their own field as compared with those of other science disciplines.
Prerequisites: EHS 126 [Min Grade: D]

CS 499. Senior BS Capstone. 3 Hours.
This capstone course consolidates key concepts in the undergraduate BS curriculum and prepares students for their professional careers. Teamwork and writing are key themes of the course. Students discuss and write about topics in ethics, professional practice, entrepreneurship, intellectual property, licensing (e.g., GPL, MIT), privacy, continuing professional development, professional networking tools, compliance, tolerance, inclusion, appreciation of diversity, and contemporary issues. In a software engineering project, students work in a team to put to practice principles and techniques that they have acquired throughout the undergraduate curriculum. Students take the Major Field Test in Computer Science as a requirement for completing this course. Students should be CIS BS majors in their last year of undergraduate study. Lecture and laboratory.
Prerequisites: CMST 101 [Min Grade: C] and PHL 115 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 499L. Senior Capstone Laboratory. 0 Hours.
Laboratory to accompany CS 499.

DB-Distribution Courses

DB 320. Distribution Management. 3 Hours.
Introduction to basic problems, concepts and management practices of distribution firms and manufacturing relationships. History of types of distributor organizations, functions and role of industrial distribution in the economy.
Prerequisites: MK 303 [Min Grade: C](Can be taken Concurrently)

DB 430. Distribution Operations. 3 Hours.
The course emphasizes distribution operations decision making. There are heavy emphases on profitability analysis, margin management, pricing and price negotiations, and managing inventory investments.
Prerequisites: DB 320 [Min Grade: C] and AC 200 [Min Grade: C] and AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and OM 214 [Min Grade: C] and LS 246 [Min Grade: C] and OM 215 [Min Grade: C] and (BUS 101 [Min Grade: C] or BUS 102 [Min Grade: C]) and BUS 110 [Min Grade: C]

DB 435. Distribution Policies and Quality Issues. 3 Hours.
The course examines issues involved in customer relationship strategy and management in industrial and medical business markets. Topics include channel strategy and management, B2B e-commerce strategy and applications, strategic account management processes and systems, customer profitability and lifetime value, multi-channel selling models, negotiations and other operational strategies and technologies used by distributors and manufacturers.
Prerequisites: DB 320 [Min Grade: C]

DB 495. Distribution Directed Studies Practicum. 3 Hours.
Issues in managing distributors, both as suppliers for and customers of manufacturers and other businesses. Students work with host distributor/manufacturer on current and future distribution problem areas. Students develop an in-depth research analysis of the host distributor/manufacturer.

DCS-Digital Community Stud Courses
Courses

DCS 101. Media and Society. 3 Hours.
This course serves as an introduction to the theory and practice of media production. Topics include the practice of looking, a cross-cultural look at visual representation, and the impact of media on society.

DCS 150. Introduction to Film and History. 3 Hours.
This course will examine fiction and non-fiction films as socially significant documents. Students will receive an introduction to the techniques of film analysis in the class.

DCS 201. History of Documentary Film. 3 Hours.
This course will provide a history of the documentary tradition by studying the major stylistic movements, works, and filmmakers of non-fiction film and photography in the 20th century.

DCS 208. Women in Film. 3 Hours.
This course will provide a history of women in film, focusing on both women working in the film industry and the representation of women on screen. The course will focus on American film history, 1930’s Hollywood to the present.

DCS 250. Community and Service. 3-6 Hours.
This service-learning course provides students the opportunity to explore social and community issues by volunteering with a local agency, non-profit or community group. Students will use multimedia to highlight their community partner, document their experience and share their interests. Methods such as participant observation and ethnographic field approaches will provide the framework for student exploration.

DCS 266. New Urbanism. 3 Hours.
This course investigates the community development model of New Urbanism which promotes the values of walkability, diversity and connectivity for healthy living and neighborhood sustainability. Students will explore local communities, connecting New Urbanist design principles to community values and social interaction.

DCS 291. Community Ethnography and Public History. 3 Hours.
This experiential course addresses how to investigate and represent local community history and stories through the methodologies of service learning, participant observation, ethnographic research and oral history. This class addresses the concepts of human memory, nostalgia, folklore, storytelling and public history. Students will learn how to use new media technologies, such as digital video, podcasting and website production, as a way to represent community history and culture for the public.

DCS 309. American Independent Film. 3 Hours.
This course will provide a history of the American Independent filmmaking tradition by studying the major stylistic movements, works, and filmmakers of the 1970s-the present.

DCS 390. Life, Liberty, and the Pursuit of Happiness: Representing American Identity on Film. 3 Hours.
An interdisciplinarian course in which students investigate the formation and representation of early American identity and produce their own films representing contemporary American identity.

DCS 391. Digital Storytelling. 3 Hours.
In this non-fiction video production course, students will learn how to use new media technologies, such as digital video, digital audio, music, graphics, and still photography, as a way to represent community history, personal narratives, and local culture for the public.

DCS 401. Ethnographic Filmmaking/SL. 6 Hours.
This course is an interdisciplinary course in which students pair up to produce a short documentary film which represents a community in the Birmingham area. The course contains four key elements: 1) community outreach, 2) intro to social science theory and methods, 3) film theory and the aesthetics of filmmaking, and 4) technical aspects of camera work and digital video editing. This is a designated service-learning course intergrating academic learning, civic learning and meaningful service to the community. Preq: Permission of the instructor.
Prerequisites: DCS 101 [Min Grade: C] and DCS 201 [Min Grade: C]

DCS 450. Media and Public Service. 3 Hours.
This course offers students hands-on experience creating and analyzing media pieces about community issues, including documentary films, public service announcements, translation of academic research to lay audiences, and multimedia grant proposals and reports. Emphasis will be on communicating effectively in the non-profit sector. This course is a designated capstone experience. Permission of Instructor.
Prerequisites: DCS 401 [Min Grade: C]

DCS 455. Professional Producing. 3 Hours.
This course offers students the practical application of producing skills and techniques to prepare them for professional work in the media and film industry. The course includes project development, budgeting, grant and pitch preparation, professional reel and website development. Emphasis is on non-fiction media.
Prerequisites: DCS 401 [Min Grade: C]

DCS 460. Independent Media Studies. 3-6 Hours.
This course will provide an opportunity for advanced students to pursue individual projects in multimedia studies. Prerequisites: Permission of the Instructor.
Prerequisites: DCS 401 [Min Grade: C]

DCS 470. Internship in Media Studies. 3-6 Hours.
Internships will provide students with the opportunity for hands-on experience with digital technology in workplace setting. This course is a designated capstone experience. Permission of the Instructor.
Prerequisites: DCS 401 [Min Grade: C]

EC 110. Economics and Society. 3 Hours.
Economic principles and development of economic analysis. Combines key elements of EC 210 and 211. Primarily intended for majors in School of Education seeking to meet certification requirements; also open to students outside School of Business who wish to survey economics in one course. Not open to entering freshmen; not open to majors in School of Business or economics majors in the College of Arts and Sciences.
EC 210. Principles of Microeconomics. 3 Hours.
This course is an introduction to microeconomic analysis. Students will learn why markets often function well without any centralized control and reasons why they sometimes do not, and why basic microeconomic models often are able to explain, predict and improve the world around us. The emphasis is on how the intuitive notions of optimization and equilibrium provide a unifying framework for understanding human behavior, as well as simple ways in which economists use real-world data to answer specific questions.

EC 211. Principles of Macroeconomics. 3 Hours.
This course is an introduction to macroeconomic analysis, which pertains to the overall economy. We study economy-wide phenomena such as the growth rate of national economic output, rates of inflation and unemployment, and learn how macroeconomists design government policies that improve aggregate economic performance.

EC 300. Economic History of the U.S.. 3 Hours.
This course spans the economic history of the U.S. from colonial times to present. Topics covered include the U.S. Constitution, national economy, wars, ethnicity, race, gender, distribution of wealth and power, social conflict and reform, entrepreneurs, workers, workplace, popular culture, and foreign affairs.

EC 301. Money and Banking. 3 Hours.
Money supply, banking system, and other financial institutions; how money affects aggregate economic activity.
Prerequisites: EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00

EC 302. Law and Economics. 3 Hours.
This is an introduction to Law and Economics, that is, the application of economic analysis to legal questions. The course offers a survey of core issues (including property, contracts, and torts), an exposition of alternative approaches to those issues, and a discussion of important implications for economics, law, political science, philosophy, public administration, and sociology. The instructor encourages students to concurrently sign up for the course Cooperation and Competition (EC 330).
Prerequisites: (GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 303. Labor Economics. 3 Hours.
Economic analysis in dealing with major aspects of such problems as employment, wages, hours, unionism, labor-management relations, and social security. Influence of psychological and institutional factors.
Prerequisites: GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C]

EC 304. Microeconomics. 3 Hours.
Advanced economic principles underlying value and distribution with additional training in application of these principles to problems of analysis. Preq: Completion of all pre-business requirements.
Prerequisites: EC 210 [Min Grade: C] and GPAT or GPAO 2.00 and EC 210 [Min Grade: C] and GPAU 2.00 or GPAO 2.00

EC 305. Macroeconomics. 3 Hours.
Forces determining level of income and employment in economic systems, with special reference to United States. Causes and cures of unemployment. Role of government in maintaining high level of employment.
Prerequisites: GPAT and GPAO 2.00 and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 211 [Min Grade: C]

EC 306. Health Care Economics. 3 Hours.
This course seeks to apply economic analysis to issues in health care. Students will review the basic tools of economic analysis and discuss the evolving trends and institutional features in the health care industry. Students will then use an economic way of thinking to address contemporary health care issues from an economic perspective. This will include consideration of the supply and demand for health care, hospitals, insurance and managed care, health labor markets, chronic disease, prescription drugs, and government policy.
Prerequisites: EC 210 [Min Grade: C]

EC 308. Economics of Environment. 3 Hours.
Use of economic analysis to examine interaction between economic institutions and physical environment. Specific topics: social costs and benefits of economic growth, interactions between private business and public welfare, and socioeconomic systems and goals.
Prerequisites: GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C]

EC 310. Managerial Economics. 3 Hours.
Economic theory and its application to managerial decision making process. Demand analysis, estimation, cost analysis, market analysis, pricing strategy.
Prerequisites: (EC 211 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 315. Sports Economics. 3 Hours.
An introduction into the economics of both amateur and professional sports. Basic economic principles are used to detail fan demand, team output/success, and the complexities of league/conference organization, sports rules, racial disparities, and government attempts to regulate sports. Specific focus is placed on the use of statistics to evaluate salaries and the most valuable attributes, players, and positions of many sports to produce a win.

EC 320. Behavioral Economics. 3 Hours.
Incorporation of psychology into models of economic behavior. These models are applied to a variety of fields including industrial organization, marketing, and negotiation.
Prerequisites: (EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 330. Game Theory. 3 Hours.
This course studies strategic interaction between economic agents. Topics include finding Nash equilibria in sequential- and simultaneous-move games, game-changing strategic moves & their credibility, manipulating information, cooperation & coordination, auctions, bargaining, voting and incentives. The emphasis is on developing strategic intuition and understanding how and why results in experimental and real-world play often differ from those predicted by the underlying theory.
Prerequisites: (EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 401. Mathematical Approach in Economics and Business. 3 Hours.
Mathematical approach in economics and business.
Prerequisites: (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
EC 403. Monetary Economics. 3 Hours.
Current theories of monetary policy and management, historical
development of theory and practice, contemporary policies employed
by monetary authorities, institutions concerned, evaluation of policies
and reform, and interrelations between monetary factors and economic
processes.
Prerequisites: (EC 304 [Min Grade: C] and EC 301 [Min Grade: C] or EC
305 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 304 [Min Grade:
C] and EC 301 [Min Grade: C] or EC 305 [Min Grade: C] and GPA 2.00
and GPAO 2.00)

EC 404. Topics in Public Policy. 3 Hours.
Topics in Public Policy.
Prerequisites: (EC 304 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 405. Economic Development and Growth. 3 Hours.
Problems of economic development; growth of less developed economies
compared with those of advanced economies. Theories of economic
development. Policy measures to promote development of growth, with
emphasis on measures to accelerate development of countries.
Prerequisites: (EC 304 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 406. Topics in the History of Economic Theory. 3 Hours.
The development of economic thought from antiquity to the end of
the twentieth century, with emphasis on the synthesis of evolving ideas
constituting current economic theory.
Prerequisites: (EC 211 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 210 [Min Grade: C] and GPAO 2.00 and GPAO 2.00)

EC 407. International Economics. 3 Hours.
Analysis of theoretical principles underlying international trade and
investment, and international monetary relations. Study includes the
effects on domestic and foreign economies of commercial, monetary and
fiscal policies. (Also IB 407).
Prerequisites: (EC 210 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 211 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 210 [Min Grade: C] and GPAO 2.00 and GPAO 2.00)

EC 408. Econometrics. 3 Hours.
This course is an introduction to micro-econometric empirical methods.
Students will learn how to specify and estimate regression equations,
varying econometric models and the appropriate situations for using
them, the implications of estimated parameters, and the conditions
under which causal effects are identified. The focus is on application, i.e.
conceptualization, interpretation and hands-on data analysis.
Prerequisites: EC 210 [Min Grade: C] and QM 214 [Min Grade: C]

EC 411. Public Finance. 3 Hours.
Principles of taxation, government expenditures, borrowing, and fiscal
administration.
Prerequisites: (EC 304 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 412. Urban Economics. 3 Hours.
Economic issues and structure of metropolitan areas. Economic growth
and decay of urban regions. Specific topics: housing, education,
employment, political economy, and public safety.
Prerequisites: EC 210 [Min Grade: C] and GPA and GPAO 2.00 and EC 210 [Min Grade: C] and GPA and GPAO 2.00 and EC 211 [Min
Grade: C] and GPAU 2.00 and GPAO 2.00

EC 413. Urban Economics. 3 Hours.
EC 414. Industrial Organization. 3 Hours.
Structure and performance of monopolistic and oligopolistic industries,
emphasizing efficiency, pricing policies, and investment decisions. Extent
and nature of concentration in economy as whole.
Prerequisites: (EC 304 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 420. Applied Forecasting. 3 Hours.
Practical use of various forecasting techniques on business and
economic data. Topics include dynamic regression models, exponential
smoothing, forecast criteria, moving averages, seasonality, and univariate
Box Jenkins ARIMA modeling.
Prerequisites: (EC 210 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 425. Applied Regression Analysis. 3 Hours.
Simple, multilinear, and polynomial regression analysis. Model selection,
inferential procedures, and application with computer.
Prerequisites: (QM 215 [Min Grade: C] and GPA and GPAO 2.00) or
(QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 440. Economics for Educators. 3 Hours.
Students will gain an understanding of both basic economic principles
and entrepreneurship and learn innovative methods of transferring
economic knowledge to elementary and secondary students. Students
will also become well-versed in the National and Alabama State
standards of learning. Only open to education majors and certified
teachers in K-12. This class is not open to economics or business majors.

EC 450. Economics, Institutions & Law. 3 Hours.
The course will study the microeconomic and macroeconomic
consequences of different institutional environments and arrangements
of designed incentives. This will include political, regulatory and legal
structures and rules, both as pertain to actual institutions at the macro
level (e.g., the Federal Reserve, the IMF, the World Bank) and regulated
structures at the micro level (households and firms). The presumed
conceptual frameworks will be based on intermediate microeconomics
and introductory macroeconomics. Normative justification of institutional
designs will be addressed. EC 320 is a recommended prerequisite.
Prerequisites: (EC 211 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 210 [Min Grade: C] and GPAO 2.00 and GPAO 2.00)

EC 460. Economics Internship. 3 Hours.
The economics internship program offers qualified students the
opportunity to gain first-hand experience in local organizations for a term
while receiving academic credit. Participating organizations are expecting
students to receive high-quality work from the students they sponsor. The active
participation by students in actual business decisions of the sponsoring
organization is the primary interest of the internship.
Prerequisites: (EC 304 [Min Grade: C] and GPA and GPAO 2.00) or
(EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 490. Advanced Topics in Economics. 3 Hours.
Selected topics in economics.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

EC 499. Directed Readings in Economics. 1-3 Hour.
Investigation of specific areas in economics.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)
ECE-Early Childhood Education Courses

Courses

ECE 320. Introduction to Curriculum and Teaching. 3 Hours.
Provides basic knowledge of early childhood curriculum for programs serving children birth to age five in a variety of settings. Emphasizes the relationship of child growth and development in the planning and implementation of all areas of curriculum. Whole program overview. Extensive field experience required. Open access.

ECE 331. Creative Learning Expression: Young Child. 1-3 Hour.
Planning and implementation of activities in art, music, movement, and play considering growth patterns of individual child. Emphasis on preserving and maintaining creative expressions. Laboratory experiences. Extensive field experience required. Open access.

ECE 332. Literature for the Young Child. 3 Hours.
Literature suitable for young children (grades Nu3). Reading aloud, storytelling, and other planned experiences. Extensive field experience required. Open access.

ECE 334. Young Children: Family/School. 3 Hours.
Introduction and practicum in early childhood education. Programs, teaching opportunities, professional organizations and publications, trends, contemporary problems, parent involvement, and family relationships. Conducting parent conferences and using volunteers in classroom. Directed observation and participation with children in learning environments required. Extensive field experience required. Open access.

ECE 337. Language Experiences for the Young Child. 3 Hours.
Emphasizes the language processes in language arts and effective teaching strategies for children birth to five with particular focus on infants and toddlers. Open Access.

ECE 390. Practicum in Early Childhood Education. 1-6 Hours.
Supervised teaching in an early childhood program serving children ages birth to five. Assignments include participation, observation, planning and implementing lessons.

Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 410. Organize Programs: Young Children. 3 Hours.
Trends, practices, and research in administration, organization, evaluation, and design of early childhood programs. Main focus NAEYC Accreditation.

Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 445. Young Children: Math/Science/Social Studies. 6 Hours.
Provides for development of concepts required for teaching mathematics, science, and social studies to young children. Emphasizes child growth and development as a basic for planning and teaching the three curricular areas in a variety of programs. Includes teaching methods and use of technology. Extensive field experience required.

Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 446. Communication Arts/Reading: Young Child. 6 Hours.
Nature of reading and language arts experiences for pre-school children. Technology, materials, experiences, programs, strategies to facilitate development of communication abilities with emphasis on preserving and maintaining creative expression. Integration of learning in areas of listening, speaking, reading, composition, literature, handwriting, spelling and other communication arts. Extensive field experience required.

Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 448. Infant/Toddler Development. 3 Hours.
The course covers the social-emotional, physical, cognitive, language, and creative development of infants and toddlers and the corresponding appropriate curriculum materials to support development. Extensive field experience required. Open access.

ECE 449. Education Environment: Infant/Parent. 3 Hours.
This course provides an overview of infant and toddler parenting programs. Topics include parent as child's first teacher, teacher as parent educator, organization and management strategies for parent/child educational programming, parent involvement, and family literacy. Extensive field experience required. Open access.

ECE 460. Current Topics in Early Childhood Education Assessment. 3 Hours.
In-depth experiences in evaluating growth and development of children. Techniques for assessing needs, motivations, self-concept and achievements of children.

Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 490. Student Teaching in Early Childhood Education I. 9 Hours.
Supervised teaching in early childhood program (grades N-3).

Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C] and ECE 445 [Min Grade: C] and ECE 446 [Min Grade: C] and ECE 460 [Min Grade: C]

ECE 491. Student Teaching in Early Childhood Education II. 3-9 Hours.
Supervised teaching in early childhood program (grades N-3).

ECE 492. Home Visitation Curriculum Projects. 3 Hours.
Field projects in home visitation with parents and children ages 0-5.

ECE 494. Field Work in Early Childhood Education. 3-4 Hours.
Observation and participation experiences with children ages 0-3.

Prerequisites: ECE 448 [Min Grade: C] and ECE 449 [Min Grade: C] and EEC 301 [Min Grade: C]

ECG-Counseling, Human Services Courses

Courses

ECG 150. Career Planning and Management. 3 Hours.
Understanding aptitudes, abilities, and interests as related to career alternatives. Group and individual experiences aid self-direction in planning and career management. Values, preferences, skills, and personal resources matched with educational and employment opportunities using variety of experiences and resources.

ECG 152. Let’s BMEN: How to successfully Navigate the collegiate Experience. 1 Hour.
This course is design to be an academic tool for participants in the BMEN program. Academic skills, and resources along with male perspectives of color will also be presented.

ECG 155. Job Search Strategies. 1 Hour.
Current occupational information, employer information, and job market trends. Relevance of academic preparation to world of work. Job search strategies and resume preparation.
ECT-Collaborative Teacher Educ Courses

Courses

ECG 300. Career Mapping. 3 Hours.
Get what you want by identifying and building key skills being sought by employers and graduate school admission committees today. This course provides an interactive exploration into arriving at your destination and having fun along the way. Gain tips and insights from executives in your field into professional development, resume/interviewing, communication, team building, networking (live and virtual), and other key areas necessary to help you present yourself as the applicant of choice. Master these steps and begin to map your journey toward career success.

ECG 420. Alcoholism. 3 Hours.
Emotional, intellectual, psychological, and social aspects of alcoholism.

ECG 422. Strategy for Attitude Devmt. 3 Hours.
Dynamics of positive and negative attitudes. Techniques and exercises for improving communication, empathy, and awareness. Techniques for determining personal strengths, setting goals, managing time, and developing strong positive attitudes.

ECG 423. Strategy Effective Interviewin. 3 Hours.
Selected interviewing skills described, demonstrated, and practiced in role play with feedback to increase effectiveness in interviewing.

ECG 424. Constructive Conflict Mgmnt. 3 Hours.
Strategies of constructive conflict management in multicultural settings. Synthetic culture laboratory organized to practice managing conflict in safe context. Strategies for mediating conflict focus on increased awareness, knowledge, and skills for reframing conflict.

ECG 438. Interpersonal Skills Develop. 3 Hours.
Classroom lectures plus experiential, structured exercises in small groups for development of more effective interpersonal communication skills.

ECG 451. Issues/Helping Professions. 1-3 Hour.
Discussion of issues in the helping professions.

ECG 463. Intro Interpreting for Deaf. 3 Hours.
Basic theories, principles, and practices of interpreting for deaf in general and specialized settings; guidelines appropriate in situational settings. Development of interpreting skills and manual communications skills. 
Prerequisites: ECG 462 [Min Grade: C]

ECG 470. Crisis Intervention Techniques. 3 Hours.
Crisis counseling theory, applications of crisis intervention, and crisis situations.

ECG 474. Sem Death Dying and Bereav. 3 Hours.
Attitudes, beliefs, and response to death, dying, and bereavement. Multicultural perspective. Implications for counseling.

ECT-Collaborative Teacher Educ Courses

Courses

ECY-Special Education Courses

Courses

ECY 300. Survey of Special Education. 3 Hours.
Characteristic and needs of children and youth with exceptionalities. Special education law and policy, characteristics of children and youth with disabilities and their families, and critical issues in the field of special education. This course fulfills requirements for Ethics and Civil Responsibility (ECR).
Prerequisites: EDU 200 [Min Grade: C](Can be taken Concurrently)

ECY 494. Special Topics in Education. 1-6 Hour.
Current topics in Education are presented and discussed.

EDA-Art Education Courses

Courses

EDA 483. Methods of Teaching Art. 3 Hours.
Preparation to teach art in schools. Learning experiences necessary for development of essential teaching competencies. Materials and methods in art studio media, technology skills for art classroom, art history and criticism, and current issues in art education.

EDA 484. Methods of Teaching Art Laboratory. 1 Hour.
Observations in schools. Concurrent enrollment in EDA 483 required.

EDA 490. Student Teaching in Art N-12. 3-9 Hours.
Supervised student teaching in elementary and secondary art.

EDA 499. Internship Seminar in Art Educ. 1 Hour.
Problem solving related to situations such as classroom management, grading, professionalism and ethics, legal issues, and teacher’s rights.

EDF-Foundations of Education Courses

Courses

EDF 361. Ethical Issues in Professional Practice. 2 Hours.
Examines professional ethics and legal issues related to teaching, student supervision, contractual obligation, conditions of employment, and other workplace issues related to conduct and practice in the field of public school teaching. Legal mandates and professional codes of ethics are analyzed. Also addressed are the development of professional judgment and of moral decision making abilities.

EDF 362. Foundations of Education I: Social, Historical, Philosophical. 3 Hours.
Realities of contemporary professional education and active participatory field experience in teaching situations. Seminars on current issues and problems in education, role and value of diversity in education, and the construction and implementation of ethically defensible pedagogies. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EDU 200 [Min Grade: C](Can be taken Concurrently)

EDF 363. Special Topics in Education Foundations. 3 Hours.
Educational Foundations Special Topics.

EDH-Education Honors Courses
Courses

EDT 300. Teaching and Technology. 3 Hours.
Knowledge and skills of variety of microcomputer applications used in teaching; use of latest information technologies to access available resources on campus, Internet, and e-mail.

EDT 440. Workshops in Education: Technology Issues. 3 Hours.

EDU-Education Courses

Courses

EDU 100. Touch the Future. 2-3 Hours.
Introduction to education for students with the intent to be teachers and students entering professions where a degree in education would be beneficial. Students own experiences will be used as input for developing habits of mind and dispositions necessary for success in the field of education. Required for entering freshmen education majors.

EDU 200. Education as a Profession. 3 Hours.
Formal introduction to the Teacher Education Program (TEP). Using writing and discussion, the class provides a clear and realistic understanding of issues involved in choosing education as a career. Writing is a significant component of this course.

EDU 210. Writing and Speaking Skills for the Education Professional. 3 Hours.
Development of essential writing and speaking skills required for successful education practice. Writing is a significant component of this course.

EDU 300. Special Topics in Education. 3 Hours.
This course will focus on various topics currently trending in education.

EDU 425. Stem Applications for the Classroom. 1 Hour.
This course will familiarize teacher candidates with STEM applications in the classroom, including state initiatives such as Alabama Math and Science Initiative (AMSTI).

EDU 481. Student Teaching: Early Childhood and Elementary Education. 9 Hours.
Supervised teaching experience in an inclusive collaborative/elementary school setting providing instruction to elementary students with high and low incidence disabilities.Completion of all coursework on Early Childhood/Elementary/Collaborative Teaching: K-6 Checklists and Permission of advisor required.

EE-Electrical & Computer Egr Courses

Courses

EE 011. Coop/Internship in EE. 0 Hours.
Engineering workplace experience in preparation for the student's intended career.

EE 210. Digital Logic. 3 Hours.
Number systems and codes. Boolean algebra and combinational logic. Arithmetic and logic circuits. Memory elements. Synchronous sequential logic. Lecture and computer laboratory. 
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently)
EE 233. Engineering Programming Methods. 3 Hours.
Program design techniques, data structures, coding and documentation standards. File I/O. Product design and life cycles. Testing and software tools. Lecture and computer laboratory. 
Prerequisites: (MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or EE 130 [Min Grade: C] or EE 314 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and PH 222 [Min Grade: C] and EE 300 [Min Grade: C] or ME 130 [Min Grade: C]).

EE 254. Applied Numerical Methods. 3 Hours.
Selected mathematical and computational topics appropriate to the numerical solution of engineering problems. 
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or EE 130 [Min Grade: C] or EE 310 [Min Grade: C]).

EE 300. Engineering Problem Solving II. 3 Hours.
Selected mathematical and computational topics appropriate to the solution of engineering problems, including probability and statistics. 
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or EE 130 [Min Grade: C]).

EE 305. Fundamentals of Electrical Engineering. 3 Hours.
Survey of topics fundamental to field of electrical engineering. For non-engineering majors. Not available for credit toward engineering major. 
Prerequisites: MA 109 [Min Grade: C].

EE 312. Electrical Systems. 3 Hours.
Introduction to DC circuit analysis, AC steady-state analysis, first-order transient analysis, ideal transformers, and electrical safety. For non-EE majors. 
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C].

EE 314. Electrical Circuits. 3 Hours.
Introduction to DC circuit analysis, AC steady-state analysis, first-order transient analysis, and electrical safety. For EE Majors. 
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C].

EE 314R. Electrical Circuits Recitation. 0 Hours.
An application based course designed to reinforce concepts from EE 314. 
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C].

EE 316. Electrical Networks. 4 Hours.
Analysis of circuits using classical differential/integral techniques, Laplace transforms, and two-port network parameters. Circuit solution using simulation. EE 316L must be taken concurrently. Quantitative Literacy is a significant component of this course. 
Prerequisites: EGR 265 [Min Grade: D] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: D](Can be taken Concurrently) and EH 101 [Min Grade: C] and PH 222 [Min Grade: C] and EE 314 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 226 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]).

EE 316L. Electrical Networks Laboratory. 0 Hours.
Electrical Networks laboratory component. EE 316 must be taken concurrently.

EE 318. Methods of System Analysis. 3 Hours.
Time-domain and frequency-domain methods for modeling and analyzing continuous and discrete-time signals and systems. Fourier, Laplace, and Z transform methods. 
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C].

EE 333. Engineering Programming Using Objects. 3 Hours.
Software development emphasizing object-oriented methods. Design and develop programs using existing classes and newly created classes. A graphical user interface framework will be used as extensive example of Object Oriented System. Develop skills in project management, written and oral communication, teams, and an introduction to ethics and intellectual property issues. 
Prerequisites: EE 233 [Min Grade: D].

EE 337. Introduction to Microprocessors. 4 Hours.
Application of microcomputers to engineering problems such as data acquisition and control. Topics include CPU architecture, assembly language, and input/output interfacing. EE 337L must be taken concurrently. 
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D].

EE 337L. Introduction to Microprocessors Laboratory. 0 Hours.
Introduction to Microprocessors laboratory component. EE 337 must be taken concurrently.

EE 341. Electromagnetics. 3 Hours.
Mathematical techniques used to solve electromagnetics problems. Fundamental concepts and applications for dynamic and static problems. Electromagnetic wave propagation and transmission. Transmission lines. 
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and PH 222 [Min Grade: D] and EE 300 [Min Grade: D](Can be taken Concurrently) and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C] or EE 316 [Min Grade: C]).

EE 351. Electronics. 4 Hours.
Solid-state electronics, bipolar junction and field-effect transistor (FET) properties, biasing, frequency response, single and multistage amplifier circuits. EE 351L must be taken concurrently. 
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and EE 210 [Min Grade: C] and PH 222 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C].

EE 351L. Electronics Laboratory. 0 Hours.
Electronics laboratory component. EE 351 must be taken concurrently.

EE 361. Machinery I. 4 Hours.
Fundamentals and applications of polyphase circuits, magnetic circuits, transformers, polyphase synchronous and asynchronous machines. EE 361L must be taken concurrently. 
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and PH 222 [Min Grade: C].

EE 361L. Machinery I Laboratory. 0 Hours.
Machinery I laboratory component. EE 361 must be taken concurrently.
EE 412. Practical Computer Vision. 3 Hours.
Fundamentals and applications of computer vision: image preprocessing, detection, segmentation, registration, classification and recognition, texture and color, visual tracking.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and EGR 150 [Min Grade: C] and EE 300 [Min Grade: D] and EE 314 [Min Grade: C] and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 418. Wireless Communications. 3 Hours.
Wireless communication system topics such as propagation, modulation techniques, multiple access techniques, channel coding, speech and video coding, and wireless computer networks.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 421. Communication Systems. 3 Hours.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 423. Digital Signal Processing. 3 Hours.
Digital filter analysis and design. FFT algorithms. Applications of digital signal processing in engineering problems such as data acquisition and control. Lecture and laboratory.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 426. Control Systems. 3 Hours.
Prerequisites: EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 427. Controls and Automation. 3 Hours.
Power control devices and applications. Relay logic and translation to other forms. Programmable logic controllers. Proportional-integral-derivative and other methods for process control. Modern laboratory instrumentation and man-machine interface software. Lecture and laboratory.
Prerequisites: EE 233 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D]

EE 431. Analog Integrated Electronics. 4 Hours.
Advanced analysis and design using op-amps, with emphasis on error analysis and compensation. Applications include signal conditioning for instrumentation, instrumentation amplifiers, nonlinear and computational circuits. Butterworth and Chebyshev filter design, power amplifier design, voltage regulator design, and oscillators. A-to-D and D-to-A conversion methods. Laboratory exercises emphasize design techniques. Lecture and laboratory.
Prerequisites: EE 210 [Min Grade: C] and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: D], EE 318 [Min Grade: C] and (Can be taken Concurrently) and EE 351 [Min Grade: D]

EE 432. Introduction to Computer Networking. 3 Hours.
Computer networking and engineering standards related to networking. Networking hardware, software, and protocols including TCP/IP protocol suite. Internetworking, LANS, and typical applications.
Prerequisites: EE 233 [Min Grade: D]

EE 433. Engineering Software Solutions. 3 Hours.
Project planning, specification, design, implementation, and testing of software solutions for engineers. Waterfall model of development and agile development methods. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D] and EE 333 [Min Grade: D] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) and EE 130 [Min Grade: C] or EE 134 [Min Grade: C]

EE 434. Power Semiconductor Electronics. 3 Hours.
Fundamentals of integrated circuit design for radio-frequency and power converter circuits. Course content includes basic voltage circuit theory, matching networks, high frequency MOS model, low-noise-amplifier, voltage controlled oscillator, fundamentals of power electronics, power semiconductor switches, steady-state equivalent circuit modeling, DC transformer model, basic AC equivalent circuit modeling, linearization and perturbation, etc. Students will require accomplishing a computer aided design, simulation and chip layout of an integrated circuit design project.
Prerequisites: EE 316 [Min Grade: C] and EE 318 [Min Grade: D] and EE 351 [Min Grade: D]

EE 437. Introduction to Embedded Systems. 3 Hours.
Applications of microprocessors in engineering problems such as data acquisition, control, and real-time input/output. Lecture and laboratory.
Prerequisites: BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or EE 130 [Min Grade: C] or ME 130 [Min Grade: C] and EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 438. Computer Architecture. 3 Hours.
Advanced microprocessor topics including cache design, pipelining, superscalar architecture, design of control units, microcoding, and parallel processors. Comparison of advanced, contemporary microprocessors from Intel and IBM. EE 337 (Introduction to Microprocessors) is a recommended prerequisite for this course.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 444. Real-Time Process & Protocols. 3 Hours.
Hands-on laboratory course covering topics in real-time computer systems such as algorithms, state-machine implementations, communication protocols, instrumentation, and hardware interfaces.
Prerequisites: EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 447. Internet/Intranet Application Development. 3 Hours.
Development of models and applications using Internet/Intranet technologies such as JavaScript, Dynamic HTML, server side scripting, multi-tier models, and XML. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D]

EE 448. Software Engineering Projects. 3 Hours.
Object-oriented concepts and design. Unified Modeling Language and design patterns. Provides a project environment for implementation of systems using object-oriented techniques. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D] and EE 333 [Min Grade: D]

EE 452. Digital Systems Design. 3 Hours.
Digital system design, verification, and simulation using VHDL. Lecture and laboratory.
Prerequisites: EE 337 [Min Grade: D] and EE 210 [Min Grade: C] and EE 233 [Min Grade: D]
EE 458. Medical Instrumentation. 3 Hours.
Fundamental operating principles, applications, and design of electronic instrumentation used in measurement of physiological parameters.
**Prerequisites:** EE 351 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C]

EE 461. Machinery II. 3 Hours.
Physical principles of DC machines. Mathematical analysis of generator designs using equivalent circuits and magnetization curves. Calculation of motor speed, torque, power, efficiency, and starting requirements. Solid-state speed control systems.
**Prerequisites:** EE 361 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C]

EE 471. Power Systems I. 3 Hours.
Components of power systems. Performance of modern interconnected power systems under normal and abnormal conditions. Calculation of inductive and capacitive reactances of three-phase transmission lines in steady state.
**Prerequisites:** EE 361 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 361 [Min Grade: D]

EE 472. Power Systems II. 3 Hours.
**Prerequisites:** EE 471 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 361 [Min Grade: D]

EE 473. Protective Relaying of Power Systems. 3 Hours.
Operating principles of protective relays. Protection of transmission lines, generators, motors, transformers, and buses.
**Prerequisites:** (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 361 [Min Grade: D]

EE 485. Engineering Operations. 3 Hours.
Economic, procedural, planning, and control aspects of engineering projects. Ethics and Civic Responsibility are significant components of this course.
**Prerequisites:** (EGR 111 [Min Grade: C] or EGR 200 [Min Grade: C]) and EE 210 [Min Grade: C] and (EE 314 [Min Grade: C] or EE 312 [Min Grade: C])

EE 489. Undergraduate Engineering Research. 0 Hours.
Undergraduate research experiences in electrical engineering.
**Prerequisites:** (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C] or EGR 200 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

EE 490. Special Topics in (Area). 3 Hours.
Topic assigned with course.

EE 491. Special Problems in (Area). 3 Hours.
Topic assigned with course.

EE 492. Honors Research I. 4 Hours.
Departmental honors students work closely with faculty to develop research skills.
**Prerequisites:** EGR 301 [Min Grade: P](Can be taken Concurrently)

EE 493. Honors Research II. 4 Hours.
Departmental honors students work closely with faculty to develop research skills.
**Prerequisites:** EGR 301 [Min Grade: P]

EE 498. Team Design Project I. 3 Hours.
Senior Design Team Project Course Part I. Analysis and design of assigned team project, including design review and documentation. Must have an approved Application for Degree on file and must be in final year of his/her program.
**Prerequisites:** EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D] and EE 337 [Min Grade: D] and EE 485 [Min Grade: D](Can be taken Concurrently) and EE 351 [Min Grade: D](Can be taken Concurrently)

EE 499. Team Design Project II. 3 Hours.
Senior Design Team Project Course Part II. Capstone design project: design and implementation of assigned team project, including design review, demonstration, and documentation. Must have an approved Application for Degree on file and must be in final year of his/her program.
**Prerequisites:** EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 300 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 318 [Min Grade: D] and EE 337 [Min Grade: D] and EE 485 [Min Grade: D] and EE 421 [Min Grade: D](Can be taken Concurrently) and EE 431 [Min Grade: D](Can be taken Concurrently) and EE 431 [Min Grade: D](Can be taken Concurrently)

**EEC-Elem & Early Childhood Courses**

**Courses**

**EEC 240. Child Growth/Development/Learning I. 3 Hours.**
Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on children's growth. Early childhood (birth-6 years). Includes field experiences.

**EEC 241. Child Growth/Development/Learning II. 3 Hours.**
Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on children's growth. Middle childhood (6-12 years). Includes field experiences.

**EEC 300. Child Development/Family Relationships. 3-4 Hours.**
Interrelationship of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on human growth from conception through adolescent years. Extensive field experience required.

**Prerequisites:** EDU 200 [Min Grade: C]

**EEC 301. Introduction to P-6 Education. 3 Hours.**
Basic knowledge of early childhood and elementary school curricula in variety of settings from infancy programs through elementary school. Theories and practical approaches to teaching and to curriculum development; relationship between child growth and development and areas of curriculum. Observation in early childhood and elementary programs required. Extensive field experience required.

**Prerequisites:** EDU 200 [Min Grade: C]
ECC 302. Expressive Arts (P-6). 1 Hour.
Creativity through numerous experiences in music, theatre, dance, and visual arts. Experiences correlate with literacy skills, critical thinking skills, symbols, and images that can be directly applied to both teacher-centered and child-centered methods of teaching. Extensive field experience required.

ECC 402. Primary Math Methods. 3 Hours.
A math methods course focusing on emergent mathematical concepts for young children. Extensive field experience required.

ECC 405. Children’s Literature in Early Childhood and Elementary Education. 3 Hours.

ECC 406. Language Arts in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Communication-based approach in developing effective language arts program. All aspects of language arts program addressed. Extensive field experience required.

ECC 411. Discipline and Classroom Management. 3 Hours.
Theoretical and practical application of various theories of discipline. Development of skills in management of student behavior and classroom environment.

ECC 412. Math in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of mathematics program. Computational skills and problem solving. Field experiences required.

Prerequisites: EEC 405 [Min Grade: C] and EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

ECC 413. Science in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of science program. Inquiry, science process skills, and concept development. Extensive field experience required.

Prerequisites: EEC 405 [Min Grade: C] and EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

ECC 414. Social Studies in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of social studies curriculum. Teaching strategies, program articulation, and instructional planning. Extensive field experience required.

Prerequisites: EEC 405 [Min Grade: C] and EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

ECC 415. Learning Environments through Positive Behavior Support. 3 Hours.
Theoretical approaches that focus on child centered curriculum, classroom management, discipline strategies and cultural, linguistic, and developmentally appropriate instruction. Extensive field experience required.

ECC 440. Workshop in Education: Strategies for English Learners. 1-6 Hour.
Strengthen proficiency in teaching English learners in the mainstream classroom. Develop understanding of second language acquisition, culturally responsive teaching, accommodations for varying language levels, and appropriate assessments for English learners. Practice family planning, implementing, and managing sheltered instructions.

ECC 460. Current Topics in Education. 3 Hours.
Topics vary. May be repeated for maximum of six hours of differing topics.

ECC 465. Teaching Globe and Map Skills. 3 Hours.
Concepts and skills related to understanding functional use of globes and maps. Strategies and methods for teaching concepts and skills to children. Curriculum scope, sequence, continuity, and application within social studies program. Materials and resources for teaching. Admission to TEP required.

ECC 490. Internship in P-3/3-6. 9 Hours.
Supervised capstone teaching experience in early childhood (P-3) and elementary (K-6) program. Gradual assumption of responsibility for planning and teaching for the entire class (minimum of 12 weeks). Supervision in working with resource professionals and parents.

ECC 491. Internship Seminar in P-6 Education. 1,3 Hour.
Supports and extends efforts of student teaching. Problem solving related to classroom situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

ECC 492. Individual Curriculum Project: Area Specific. 3-6 Hours.
Field projects in curriculum modification and improvement of classroom practice. Permission of instructor required.

ECC 493. Individual Readings. 1-3 Hour.
Individualized readings on special topics. Permission of instructor required.

ECC 494. Field Work in Early Childhood and Elementary Education. 2 Hours.
Observation and participation experiences with children.

EGR-Engineering Courses

Courses

EGR 110. Introduction to Engineering I. 1 Hour.
Introduction to profession of engineering, engineering specialties; education requirements; team work and present and future societal demands on profession.

Prerequisites: MA 105 [Min Grade: C](Can be taken Concurrently) or MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently)

EGR 111. Introduction to Engineering II. 1 Hour.
Ethics and safety; career opportunities in engineering, introduction to engineering design and technical communications; team work and present and future societal demands on profession.

Prerequisites: EGR 110 [Min Grade: C]

EGR 125R. Engineering Applications of Calculus I. 1 Hour.
An application based course designed to reinforce concepts from MA 125.

EGR 126R. Engineering Applications of Calculus II. 1 Hour.
An application based course designed to reinforce concepts from MA 126.
EGR 150. Computer Methods in Engineering. 3 Hours.
An introduction to engineering computation using MATLAB language and Excel. Basic programming skills using built-in functions is emphasized. Generation and manipulation of vectors and matrices, operations on vectors/matrices, plotting, iterations calculations. If/else and other logical constructs, and data input/output are covered. Engineering applications are used throughout the course.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently)

EGR 197. Engineering Approaches to Problem Solving I. 1-3 Hour.
EGR 197 offers an introduction to arationally developed method of solving practical problems. This is engineering. Starting with the ancient Greeks, who initiated reasoned speculation, and the Romans, who made practical use of it, the course develops an understanding of why we approach problems the way we do.

EGR 198. Engineering Approaches to Problem Solving II. 1-3 Hour.
Building on engineering principles, focus on the engineering process. Develop and practice good communication, collaboration and presentation skills. Explore interdisciplinary approaches through hands-on projects.

EGR 199. Engineering Approaches to Problem Solving III. 1-3 Hour.
EGR 199 builds on knowledge gained in EGR 197 and 198. While EGR 197 & 198 regarded the theories and practice of integrational engineering principles, this course focuses on innovation. The hows of creating new solutions to old problems will be explored.

EGR 200. Introduction to Engineering Design. 2 Hours.
Profession of engineering; ethics and safety, engineering specialties and career opportunities, educational requirements, introduction to engineering design, team work and technical communications, and present and future societal demands on profession.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] (Can be taken Concurrently) or MA 106 [Min Grade: C] (Can be taken Concurrently) or MA 107 [Min Grade: C] (Can be taken Concurrently) or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently)

EGR 265. Math Tools for Engineering Problem Solving. 4 Hours.
Designed to allow engineering majors to utilize the terminology and problem-solving approaches inherent to engineering, while completing their mathematical preparation.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

EGR 301. Honors Research I. 1 Hour.
Introduces students to research methodology, ethics, data analysis, and technical communication. Students must be invited into program in order to enroll.
Prerequisites: MA 227 [Min Grade: C] or EGR 265 [Min Grade: D]

EGR 400. Special Topics in (Study Abroad). 0-9 Hours.
Independent studies in various subject and/or service areas outside the state of Alabama or the continental United States.

EGR 410. Engineering Service Learning in Education. 1-6 Hour.
Course provides students an opportunity to help students in K-12 to analyze and solve problems using engineering concepts and design process to engage and excite them about engineering, science, and technology.

EGR 420. Engineering in Service Learning through EiSAL. 0-6 Hours.
This course will allow engineering students the opportunity to communicate and live in other cultural environments, allowing them to share interdisciplinary engineering design and analysis in a real-world setting. It will also allow them the opportunity to work in multi-cultural groups to solve a common problem.

EGR 440. Social Responsibility in Global Health. 1 Hour.
This course provides students with an understanding of key social and economic concepts of global health that, together with an understanding of interprofessional collaboration and community partnerships, will enable them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the interprofessional global health service learning program at the University of Alabama at Birmingham.

EGR 441. Interprofessional Collaboration (IPC) and Community Partnerships in Global Health. 1 Hour.
This course provides students with an understanding of principles of interprofessional collaboration and community partnerships that, together with key social and economic concepts of global health, enables them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners.

EGR 442. EGR Service Learning in Interprofessional Global Health Service Learning I: Project Planning. 1 Hour.
This course provides students with an opportunity to apply principles of interprofessional collaboration, community partnerships, and global health in the development of a plan to address a global health problem in collaboration with a community partner. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the global health service learning program at the University of Alabama at Birmingham.

EGR 450. Engineering Service Learning: Teaching Experiences. 1 Hour.
This course provides engineering students the opportunity to assist engineering faculty and fellow students in a tutorial environment by serving as teaching assistants in engineering service courses.

EGR 481. Interdisciplinary Project Lab. 3 Hours.
Multidisciplinary student teams (engineering, business, arts) engineer devices based on client needs. The project team will collaborate with the client to establish an appropriate engineering design to meet user needs. Students are trained in product development, product design, engineering validation and will develop training and documentation market analysis, business plan and a go-to-market strategy as appropriate for the project.
Prerequisites: (ME 102 [Min Grade: C] and CE 210 [Min Grade: C] and EE 312 [Min Grade: C] or CE 360 [Min Grade: C] or EE 337 [Min Grade: D] and EE 351 [Min Grade: D]) or (ME 322 [Min Grade: C] and ME 371 [Min Grade: C]) or MSE 281 [Min Grade: D]

EGR 490. Special Topics in (Area). 0-6 Hours.
Special Topics in engineering.

EGR 499. Industrial Distribution Senior Design Project. 4 Hours.
Capstone design project: interdisciplinary design teams, ethics, materials selection, the design process, development of a proposal, project planning and scheduling, project execution and resource scheduling. Successful completion and oral defense of a design project. Limited to students majoring in Industrial Distribution.
EH-English Courses

Courses

EH 091. Introduction to College English. 5 Hours.
Foci on connections between reading and writing, especially as they relate to a writer’s purpose and development of academic writing. Includes review of grammar, punctuation, and usage, with emphasis on editing skills and writing effective paragraphs and expository essays. Required for students who score below 20 on the English or Reading portions of the ACT test. Prepares students for EH 101; may not be used for fulfillment of any degree requirement.

EH 096L. Introduction to Freshman Writing I. 3 Hours.
EH 096L provides individualized, hands-on support to students in EH 106 through writing studio sessions with their EH 106 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 106. Students must pass EH 096L in order to make a C or above in EH 106.

EH 097L. Introduction to Freshman Writing II. 2 Hours.
EH 097L provides individualized, hands-on support to students in EH 107 through writing studio sessions with their EH 107 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 107. Students must pass EH 097L in order to make a C or above in EH 107.

EH 101. English Composition I. 3 Hours.
Process and final product of expository and analytical essays. Research and documentation required on most essays. Students must receive grade of C or higher in EH 101 and 102 to complete Core Curriculum requirement in English language. (Also see CLEP examinations and AP examinations.).

Prerequisites: EH 091 [Min Grade: C] or 480 or SATR 26 or EHWS 29 and EHR 18)

EH 102. English Composition II. 3 Hours.
Process and final product of argumentative essays. Research and documentation required on most essays. Students must receive grade of C or higher in EH 101 or EH 102 to complete Core Curriculum requirement in English language. (Also see CLEP examinations and AP examinations.).

Prerequisites: EH 101 [Min Grade: C]

EH 105. Ada Long Creative Writing Workshop. 1 Hour.
Introductory course in creative writing for high school students with demonstrated creative writing abilities.

EH 106. Introduction to Freshman Writing I. 3 Hours.
English 106 provides a hands-on, individualized study of expository and analytical writing, including developing strong processes of drafting, revising and editing. Co-requisite with EH 096L. EH 106 and EH 096L are required for students who score below 20 on the English or Reading portions of the ACT test. Students must receive grade of C or higher in EH 106 and grade P for EH 096L and grade of C or higher in EH 107 and grade P for EH 097L to complete Core Curriculum in English Language. (Also see CLEP examinations and AP examinations).

Prerequisites: EH 106 [Min Grade: C] and EH 096L [Min Grade: P]

EH 106L. Introduction to Freshman Writing I--Lab. 3 Hours.
EH 106L provides individualized, hands-on support to students in EH 106 through writing studio sessions with their EH 106 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 106. Students must pass EH 106L in order to make a C or above in EH 106.

EH 107. Introduction to Freshman Writing II. 3 Hours.
English 107 provides a hands-on, individualized study of research, academic writing, and argumentation, including developing strong processes of drafting, revising and editing. Co-requisite with EH 097L. EH 107 and EH 097L are required for students who score below 20 on the English or Reading portions of the ACT test. Students must receive grade of C or higher in EH 106 and grade P for EH 096L and grade of C or higher in EH 107 and grade P for EH 097L to complete Core Curriculum in English Language. (Also see CLEP examinations and AP examinations).

Prerequisites: EH 106 [Min Grade: C] and EH 096L [Min Grade: P]

EH 107L. Introduction to Freshman Writing II--Lab. 2 Hours.
EH 107L provides individualized, hands-on support to students in EH 107 through writing studio sessions with their EH 107 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 107. Students must pass EH 107L in order to make a C or above in EH 107.

Prerequisites: EH 106 [Min Grade: C] and EH 106L [Min Grade: P]

EH 108. English Composition I for Second Language Writers. 3 Hours.
Process and final product of expository and analytical essays with support for second language writers. Research and documentation required on most essays. Students must receive grade of C or higher in EH 108 and EH 109 to complete core curriculum requirement in English language. (Also see CLEP examinations and AP examinations.).

Prerequisites: EH 108 [Min Grade: C]

EH 109. English Composition II for Second Language Writers. 3 Hours.
Process and final product of argumentative essays with support for second language writers. Research and documentation required on most essays. Students must receive grade of C or higher in EH 108 and EH 109 to complete Core Curriculum requirement in English Language. (Also see CLEP examinations and AP examinations.).

Prerequisites: EH 109 [Min Grade: C]

EH 202. English Composition II: Scientific and Technical Communication. 3 Hours.
This course will be paired with EH 102, enrolling students from the Science and Technology Honors Program who have already completed (or received credit for) EH 102. In addition to covering material required for all sections of EH 102, this course introduces students to the specific rhetorical elements of scientific and technical discourse.

Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

EH 203. Writing in Birmingham. 3 Hours.
Improvement of skills for public writing, using Birmingham as geographical, historical, and institutional context. Emphasis on issues related to Birmingham’s past and present, including the ethics and civic responsibilities of Birmingham residents. Ethics and Civic Responsibility and Writing are significant components of this course.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 205. Introduction to Creative Writing. 3 Hours.
An introduction to the writing of fiction, poetry, and the creative essay. Emphasis on fundamentals of writing creatively, with students producing original work in each of the three genres.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 210. Interpreting Film. 3 Hours.
Introduction to film analysis, surveying the language of film, the structure of film narrative, major genres, and the relationship between film and its social context.

Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
EH 212. Forms of Literature. 3 Hours.
Study of literary forms and genres such as poems, short stories, novels, plays, films, and other kinds of literature. Emphasis on techniques of each form. Writing is a significant component of this course.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 213. Ideas in Literature. 3 Hours.
Investigation of an idea or theme as it appears in a diverse set of literary works. Emphasis on the ways in which works of literature engage with and interrogate broader cultural ideas. Writing is a significant component of this course.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 214. Introduction to Literature: Special Topics. 3 Hours.
Study of an individual author, a specific genre, or an important literary movement. Selections will vary according to instructor. Writing is a significant component of this course.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 216. Introduction to Literature. 3 Hours.
Short stories, novellas, poems, and plays from variety of historical periods and cultures. Emphasis on techniques of each genre. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 217. World Literature I: Before 1660. 3 Hours.
World literature before 1660. Emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 218. World Literature II: 1660-Present. 3 Hours.
World literature since 1660. Emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 221. British and Irish Literature I: Before 1800. 3 Hours.
British/Irish literature from Anglo-Saxon period to end of eighteenth century with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 222. British and Irish Literature II: 1800-Present. 3 Hours.
British/Irish literature from end of eighteenth century into twentieth century with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 223. American Literature I: Before 1865. 3 Hours.
American literature from 1620 to 1865 with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 224. American Literature II: 1865-Present. 3 Hours.
American literature 1865 to present with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 300. Engineering Communication. 2 Hours.
Introduces engineering students to the theory and practice of communicating effectively in various organizational contexts. Subjects covered include managing and producing professional reports, proposals, and feasibility studies; communicating ethically in the workplace; and presenting ideas to multiple audiences in written and oral formats. Required for most undergraduate engineering majors.
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) or EGR 200 [Min Grade: C] or EGR 100 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

EH 301. Reading, Writing, and Research for English Majors. 3 Hours.
Designed to improve skills for critical writing about literary texts. Strong emphasis on analytical thinking and on the ethics of argumentation. Required for English majors; recommended prior to taking 400-level courses.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 302. Intermediate Writing. 3 Hours.
This course is designed for non-English majors who wish to improve the quality of their writing.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 303. Advanced Composition. 3 Hours.
Improvement of skills for academic and public writing, focusing on analysis and critique. Writing is a significant component of this course.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 304. Editing in Professional Contexts. 3 Hours.
Theory and practice of editorial/rhetorical concerns throughout writing process, particularly as related to professional contexts. Writing is a significant component of this course.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 305. Beginning Poetry Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 306. Beginning Poetry Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 307. Beginning Creative Nonfiction Writing Workshop. 3 Hours.
Seminar teaching fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 308. Beginning Creative Nonfiction Writing Workshop. 3 Hours.
Seminar teaching fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 310. Beginning Fiction Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
EH 311. English Internship. 3 Hours.
On-campus and off-campus training positions in fields utilizing language and writing skills, with some positions offering external funding. Students should contact the Director of Internships to discuss available positions and application procedures. May be counted as elective only in professional writing concentration and writing minor with approval of the Undergraduate Director.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 315. Introduction to Professional Writing. 3 Hours.
Introduces students to professional writing as a discipline and teaches them to compose professional documents. Recommended prior to taking 400-level courses.

EH 318. Science Fiction. 3 Hours.
Modern science fiction, including novels and short stories by Asimov, Heinlein, LeGuin, and others.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 324. African-American Special Topics. 3 Hours.
See Class Schedule for Topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 326. Pre-1800 Literature: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 327. Post-1800 Literature: Special Topics. 3 Hours.
See Class Schedule for Topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 328. English Elective: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 329. Literature of the Vikings. 3 Hours.
Old Norse mythology, poetry, and sagas in translation. Background for Beowulf.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 330. Professional Writing: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.

EH 332. Public Discourse: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.

EH 339. Twentieth Century Theater. 3 Hours.
Study of major works in 20th century drama.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 340. Developing Digital Documents. 3 Hours.
Provides students the opportunity to plan, write, and design documents using computer aided publishing technologies.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 350. Introduction to Linguistics. 3 Hours.
Introduction to the scientific study of language with a main focus on principles underlying phonology morphology, syntax and semantics. Relationship between language and society, psycholinguistics and language typology may also be addressed.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 351. Structure of English. 3 Hours.
Description and analysis of present-day English grammar with particular attention paid to the structure of phrases, clauses and sentences, including parts of speech, coordination, subordination, tense, aspect, voice, grammatical functions, agreement and clause types.
