This catalog contains information on UAB's academic programs offered in the following schools:

- Arts and Sciences (p. 139)
- Business (p. 114)
- Education (p. 282)
- Engineering (p. 303)
- Health Professions (p. 322)
- Honors (p. 264)
- Nursing (p. 332)
- Public Health (p. 338)

Catalog Disclaimer

Although this catalog intends to reflect any policies or rules of the Board of Trustees of the University of Alabama referred to or incorporated herein, students are cautioned that changes or additions to such policies or rules may have become effective since the publication of this material. In the event of such a conflict, the current statements of the Board policy contained in the official minutes and manuals of rules, bylaws, and guidelines shall prevail. Thus, the provisions of this catalog are not to be regarded as a contract between the Board of Trustees of the University of Alabama, the University of Alabama at Birmingham (or any of its schools) and the student. The University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students, these changes to be effective when determined by the appropriate authority within the University. These changes will govern current and formerly enrolled students. Registration of all students is accepted subject to these conditions.

Produced through the Office of the Registrar.

About UAB

Over five decades, UAB has evolved from an academic extension center into an autonomous, comprehensive urban university and academic health center within the University of Alabama System. UAB has established wide-ranging programs in the College of Arts and Sciences and the schools of Business, Dentistry, Education, Engineering, Health Professions, Medicine, Nursing, Optometry and Public Health, with graduate programs serving all major units. Fall 2017 enrollment was a record-high 20,902 students. The freshman class had an average ACT of 25.1, and a high school GPA of 3.66.

UAB is situated near downtown Birmingham and the historic Five Points South district. The campus stretches across 100 square blocks and occupies more than 100 primary buildings. UAB is Alabama's largest single-site employer, with more than 23,000 employees and an economic impact exceeding $7.15 billion annually on the state.

Accreditation

The University of Alabama at Birmingham is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees at the baccalaureate, masters, specialist, and doctorate levels.

Questions related to the accreditation of The University of Alabama at Birmingham should be directed to the Commission on Colleges at:

Commission on Colleges
Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, Georgia 30033
Phone: (404) 679-4500
Fax: (404) 679-4558

Many academic programs have additional accreditation from organizations appropriate to the academic discipline.

If you have questions related to issues such as admission requirements, educational programs, and financial aid that are not answered in this publication, please contact UAB at:

General Information

Role Statement

UAB’s undergraduate instructional programs are broad-based and designed to serve the needs of a diverse student body without sacrificing a strong general education foundation. Programs range from the liberal arts and sciences to professionally oriented studies, including business, education, engineering, and the health disciplines. UAB’s baccalaureate offerings are shaped by its location in the state’s largest metropolitan area, by its mandate to serve a large and heterogeneous constituency, by its responsibility to contribute to the economic and professional development of Birmingham and the state, and by its role of providing support to a nationally recognized academic health sciences center.

At the graduate level, programs serve the career needs of educators and business leaders, as well as those involved in advancing the frontiers of the health sciences. Training for health professionals is available through programs at the baccalaureate, master’s, doctoral, and professional degree levels.

UAB also has the primary responsibility for meeting the state’s health professional needs. It offers a comprehensive range of programs which encompass both basic preparation and sophisticated graduate and specialty training in medicine, dentistry, optometry, nursing, the health professions, and public health.

As one of the nation’s leading research institutions, UAB emphasizes both basic and applied research. Although the majority of the university’s research effort is in the biomedical sciences and related areas, all instructional programs are expected to participate in research activities. UAB’s urban setting necessitates the development of research programs that are responsive to the city’s economic, social, and cultural needs. Much of the research conducted at UAB is interdisciplinary in nature and is organized through centers that bring together experts in a number of
related fields to concentrate on a particular problem or issue. UAB’s total research expenditures exceeded $538 million in 2016, and the university currently ranks eighth among public universities in funding from the National Institutes of Health.

As the senior public doctoral-level institution in the state’s major urban area, UAB is also committed to providing comprehensive programs in continuing education consistent with the quality and diversity of its other offerings. The university’s faculty, staff, and students also serve as resources to the area through activities related to professional, economic, and cultural growth and development.

Cultural Opportunities

UAB’s urban location offers students unique cultural opportunities. Located within walking distance of the campus is the Five Points South district, with several nationally recognized restaurants alongside shops, art galleries, and music clubs. Not far from campus are the Birmingham Museum of Art, the Civil Rights Institute, the historic Alabama Theatre and Lyric Theatre, and the Birmingham-Jefferson Convention Complex. Other nearby sites include Sloss Furnaces, a post-Civil War iron foundry that has been converted into a museum and informal music hall, and Oak Mountain Amphitheater, an outdoor facility that features music-industry headliners.

UAB also has a flourishing arts program. Dozens of major music events are produced each season at UAB, in addition to numerous theater productions and student and professional art exhibitions. The Alys Robinson Stephens Performing Arts Center is Birmingham’s home for the performing arts and the anchor of UAB’s burgeoning Cultural Arts Corridor. The Center features a 1,400-seat concert hall, a 350-seat theater, and a 150-seat recital hall, and regularly schedules nationally and internationally known artists and orchestras and features faculty and student productions and concerts. The Abroms-Engel Institute for the Visual Arts houses the Department of Art and Art History and hosts world-class exhibits and cultural events.

Student Life

UAB offers a rich variety of student life activities through its many academic organizations, honor clubs, fraternities and sororities, and volunteer groups. The university houses more than 180 campus organizations, including numerous national honorary societies, more than 120 professional clubs and interest groups, spirit teams, intramural and recreational sports, and an established student government organization.

The campus is rich in social activity and the arts and culture. The Campus Green is a vibrant hub of campus life, with serene outdoor spaces and state-of-the-art residence halls, dining facilities and academic buildings, along with the award-winning Campus Recreation Center. UAB’s new Hill Student Center is an architecturally striking facility that houses, among other amenities, a student welcome center, bookstore, and meeting, conference, and auditorium space. A few blocks away, the UAB Cultural Arts Corridor offers a host of free activities for students, including exhibitions, lectures and performances.

UAB’s athletic program is a Division I member of the NCAA and a founding member of Conference USA. UAB athletes participate in 18 intercollegiate sports and have earned championships in baseball, men’s tennis, women’s tennis, women’s basketball, and men’s golf.

The University of Alabama System

With more than 65,500 students, The University of Alabama System is Alabama’s largest higher education enterprise, composed of three dynamic institutions striving to provide the people of Alabama with regionally and nationally prominent teaching, research, and service programs with a profound impact on our state.

The University of Alabama opened for admission of students on April 18, 1831, in Tuscaloosa. During the first half of the twentieth century and in addition to its regular educational programs at the Tuscaloosa campus, the university began to offer additional educational opportunities to residents in urban communities throughout Alabama. The Birmingham and Huntsville centers evolved into new university campuses. In September 1966, all university operations in Birmingham were designated as the University of Alabama in Birmingham by the University of Alabama Board of Trustees. This action established the University of Alabama in Birmingham as one of the three major campuses of the university. The University of Alabama in Huntsville had been initiated as a four-year school in 1964.

In June 1969, the campuses were given autonomy within the framework of the University of Alabama System, each having its own administrative structure with a president as the chief executive officer. A chancellor was appointed in June 1976 as chief administrative officer of the system. In 1984, the name of the University of Alabama in Birmingham was changed to the University of Alabama at Birmingham.

Medical, Dentistry, Optometry, or Law

Students wishing to pursue careers in medicine, dentistry, optometry, or law complete a program of undergraduate study (usually culminating in a baccalaureate degree) before entering the appropriate professional school. “Pre-medicine,” “pre-dentistry,” “pre-optometry” and “pre-law” are not majors.

Individually Designed Majors

Students whose educational objectives are not well served by any of the regular majors may propose an individually designed major. Such program proposals require approval of the appropriate dean.

ROTC

UAB has Army and Air Force ROTC (Reserve Officer Training Corps) units in which Birmingham-area college students may participate.

Cooperative Education Program

UAB’s Cooperative Education Program helps students identify work opportunities that combine practical experience with academic studies. Some academic departments give credit for carefully structured work experiences.

Non-Academic Policies

Student Conduct Code

The Student Conduct Code promotes honesty, integrity, accountability, rights and responsibilities expected of students consisted with the core missions of the University of Alabama at Birmingham. This Code describes the standards or behavior for all students, and outlines student’s rights, responsibilities, and the campus processes for adjudicating alleged violations. Behavior that violates UAB standards of
conduct listed within the Student Conduct Code and elsewhere will be subject to disciplinary action through the appropriate conduct process. Whether it is determined that an individual or group is responsible for the violation(s), either by direct involvement or by condoning, encouraging, or covering up the violation, appropriate response will occur with respect to the individual(s) and/or group involved.

Equal Opportunity and Discriminatory Harassment Policy

UAB is committed to equal opportunity in education and employment, and the maintenance and promotion of nondiscrimination and prevention of discriminatory harassment in all aspects of education, recruitment and employment of individuals throughout the university.

Immunization Policy

UAB requires that first-time entering students, international students and scholars, and students in health-related schools provide proof of immunization against certain diseases.

Non-Resident Tuition Policy

This policy addresses non-resident tuition, certification of residency status by campus officials, and establishment of campus policies to administer an appeals process.

Drug-Free Campus Policy for Students

Unlawful possession, use, manufacture, distribution, or dispensing of illicit drugs, controlled substances, or alcoholic beverages by any UAB student is prohibited.

Drug-Free Campus Policy for Students - Attachment A

This attachment for the Drug-free Campus Policy for Students outlines the Federal penalties and sanctions for the illegal possession of a controlled substance.

Drug-Free Campus Policy for Students - Attachment B

This attachment to the Drug-free Campus Policy for Students outlines the health risks associated with the use of drugs and alcohol.

Drug Free Campus/Workplace Policy - Attachment B.1

This Attachment to the Drug-Free Campus and Drug-Free Workplace Policies outlines effects related to the consumption of alcohol.

Drug-Free Campus Policy for Students - Attachment C

This attachment to the Drug-Free Campus Policy describes available programs through UAB offering counseling and assistance for drug and alcohol abuse.

Copyright Policy

The University of Alabama at Birmingham (the "University") is dedicated to instruction, research and service to benefit society and encourages its faculty, staff and students to carry out scholarly endeavors in an open and free atmosphere, and to publish the results of such work without restraint, consistent with applicable law and policy.

Patent Policy

UAB encourages the development of procurement and licensing of patents for inventions in the interest of the public, the inventor, and the university.

Data Protection and Security Policy

Data (electronic) created at UAB must be protected and maintained in accordance with all applicable federal and state laws and university policies.

Student E-Mail Address Policy

November 10, 2003

See also:

Electronic Data Processing Security Policy
Acceptable Use Policy
Network Usage Guidelines

Purpose

UAB provides electronic mail resources in support of its instruction, research, and service activities. The purpose of this policy is to establish the use of electronic mail (e-mail) as one of the official methods for communicating with UAB students.

Official Communications Using E-Mail Addresses

In a similar manner as mail distribution of paper communiqués to a student’s “permanent” address is considered an official method for distributions to students, so also are official e-mail messages sent by UAB to a student’s @UAB.EDU e-mail address considered an official distribution method. For purposes of this policy, “official” communiqués or e-mails as used here are those established as “official” through other approval mechanisms in place at UAB.

Student Requirements and Responsibilities

Every student enrolled at UAB must have an e-mail address that ends with “@UAB.EDU”. Such an e-mail address is required for a student to register for UAB credit courses. It is the student’s responsibility to obtain an official UAB e-mail address in a timely manner from the UAB e-mail registering system (BlazerID World Wide Web site). This will require the student also to have a valid, current, and reliable electronic mailbox through an Internet Service Provider (ISP) or portal or on a server administered by the student’s academic department, or on the central mail service provided by the Office of the Vice President for Information Technology. It is the student’s responsibility to check his or her e-mail regularly for distribution of official UAB communiqués. UAB recommends that e-mail be checked at least once a day, when practicable. UAB is not responsible for lost, rejected, or delayed e-mail forwarded by UAB from a student’s @UAB.EDU address to off campus or unsupported e-mail services or providers. Such lost, rejected, or
delayed e-mail does not absolve the student from responsibilities associated with an official UAB communiqué sent to the student's official UAB e-mail address ("@UAB.EDU"). If there is a change in a student's e-mail address to which the"@UAB.EDU" alias address is re-directed, it is the student's responsibility to make the changes in the UAB e-mail registering system.

**UAB Responsibilities**

UAB will ensure that all students have access to an e-mail account and will provide means for students who do not otherwise have access to e-mail-capable computers to be able to check their e-mail through such mechanisms as computer labs, the UAB libraries, and public terminals. UAB will provide mechanisms to allow students to request that their e-mail addresses not be published in a similar way that other student directory information is not published. However, unpublished e-mail addresses will be used for sending official UAB communiqués to students including communications to a group of students such as a course e-mail list. Students also will be provided mechanisms for requesting that their e-mail addresses not be used for general UAB mailings that are not official communications with students. UAB is not responsible for the handling or mishandling of students’ e-mail by non-UAB providers or by unofficial (non-@UAB.EDU) e-mail servers.

**Student Records Policy**

The University of Alabama at Birmingham student records policy complies with the Family Educational Rights and Privacy Act of 1974, as amended. All students enrolled or previously enrolled at UAB have certain rights with regard to information included in their education records. These rights are the subject of this policy.

Bacha, Jeffrey  
College of Arts and Sciences
Department of English, Assistant Professor of English, 2012, B.A. (University of Michigan-Flint), M.A. (Georgia State University), Ph.D. (Purdue), Rhetoric and Composition, Professional and Technical Communication

Baker, Danielle  
School of Nursing
Instructor of Nursing, 2011, B.S.N., M.S.N. (Jacksonville State)

Baker, Elizabeth H.  
College of Arts and Sciences
Department of Sociology, Assistant Professor of Sociology, 2012, B.A., M.A. (Bowling Green), Ph.D. (Pennsylvania State)

Ball, Karlene K.  
College of Arts and Sciences
Department of Psychology, University Professor and Chair, Department of Psychology; Director, Center for Research in Applied Gerontology; Professor of Psychology, Associate Director, Comprehensive Center for Healthy Aging, 1996, B.A. (Indiana), M.S., Ph.D. (Northwestern)

Bangalore, Purushotham  
College of Arts and Sciences
Department of Computer Science, Professor of Computer Science and Assistant Director of C&I-JFR, 2003, B.E. (Bangalore-India), M.S., Ph.D. (Mississippi State)

Barnard, Anthony C. L.  
College of Arts and Sciences

Barrett, Doug  
College of Arts and Sciences
Department of Art, Art History, Associate Professor of Art, 2008, B.F.A. (Central Florida), M.F.A. (Florida), Graphic Design, Typography, Visual Culture, Designer as Author, Design Fiction, Japan

Basilico, David Anthony  
College of Arts and Sciences
Department of English, Associate Professor of English; Director, Linguistics Program, 1993, B.A. (Brown), Ph.D. (Arizona), Linguistic Theory, Syntax and Semantics, Cognitive Science

Batey, David Scott  
College of Arts and Sciences
Department of Social Work, Assistant Professor, 2015, B.S., M.S.W., Ph.D. (Alabama)
Baulos, Doug
College of Arts and Sciences
Department of Art History, Assistant Professor of Art, 2003, B.F.A. (UAB), M.F.A. (New Orleans), Drawing, Book Arts, Medical Scientific Illustration

Bauman, Robert P.
College of Arts and Sciences
Department of Physics, Professor Emeritus of Physics, 1967, B.S., M.S. (Purdue), Ph.D. (Pittsburgh)

Bear, Andrew
College of Arts and Sciences
Department of History, Assistant Professor, 2016, B.A., M.A., Ph.D. (Northwestern University)

Beard, Craig W.
Mervyn H. Sterne Library
Mervyn H. Sterne Library, Associate Librarian, Reference Services, Mervyn H. Sterne Library, 1990, B.A. (Harding), M.A.R. (Harding Graduate School of Religion), M.L.S. (Florida State)

Becker, Brooke A.
Mervyn H. Sterne Library

Becker, David J.
School of Public Health
Department of Health Care Organization and Policy, Associate Professor, 2005, Ph.D. (University of California - Berkley), Specializes in health, labor and regulatory economics

Bej, Asim K.
College of Arts and Sciences
Department of Biology, Professor of Biology, 1991, B.S., M.Sc. (Calcutta), Ph.D. (Louisville), Gut Microbiome of Model Organisms in Relation to the Environment and Human Health

Bellis, Peter
College of Arts and Sciences
Department of English, Professor of English, 2007, B.A. (Amherst), M.A. (Texas-Austin), M.A., Ph.D. (Johns Hopkins), American Literature

Berry, Joel L.
School of Engineering
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering; Director of BME Undergraduate Program; Associate Director, UAB Science and Technology Honors Program, 2010, B.S., B.S.M.E., M.S.M.E. (UAB), Ph.D. (Wake Forest), Cardiovascular biomechanics and tissue engineering

Bertrand, Fred (Ted)
School of Health Professions
Department of Clinical and Diagnostic Sciences, Associate Professor, 2014, Ph.D. (UAB), Cancer Bell Signaling and Microenvironment Regulation of Tumor Initiation and Development

Bethard, Steven J.
College of Arts and Sciences
Department of Computer Science, Assistant Professor of Computer Science, 2013, B.A., B.S. (Arizona), Ph.D. (Colorado)

Biasini, Fred J.
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, Director, Developmental Psychology Doctoral Program, 1983, B.A. (St. Vincent); M.S. (St. Francis); Ph.D. (Alabama)

Biga, Chris F.
College of Arts and Sciences
Department of Sociology, Teaching Associate Professor of Sociology, 2012, B.A. (Nebraska), M.A. (New Orleans), Ph.D. (Washington State)

Biga, Peggy
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2012, B.S., M.S. (Angelo State), Ph.D. (Idaho), Physiology and Developmental Biology

Blanton, Robert G.
College of Arts and Sciences
Department of Political Science and Public Administration, Professor, 2014, B.A. (North Carolina), M.A., Ph.D. (South Carolina)

Blanton, Shannon L.
College of Arts and Sciences
Department of Political Science and Public Administration, Professor, Dean, Honors College, 2014, B.A. (Georgia College), M.A. (Georgia), Ph.D. (South Carolina)

Blokh, Alexander
College of Arts and Sciences
Department of Mathematics, Professor of Mathematics, 1992, Ph.D. (Kharkov State), Dynamical Systems

Boggiano, Mary M.
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2000, B.A., M.A., Ph.D. (Texas at El-Paso)

Bolus, Norman E.
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor and Program Director, Nuclear Medicine Technology Program, 1999, M.P.H. (UAB)

Bond, Margaret D.
College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of French, 2009, B.A. (Virginia), B.A., M.A. (UAB)

Bonta, Bruce
College of Arts and Sciences
Department of Anthropology, Research Associate, 2015, B.A. (Bucknell), SLS (Maine)

Bowen, Pamela
School of Nursing
Assistant Professor of Nursing, 2005, B.S.N. (UAB), B.A. (Faulkner), M.S.N., Ph.D. (UAB)
Bowers, Deborah
School of Nursing
Instructor of Nursing, 2017, B.S.N., M.S.N., D.N.P. (UAB)

Boyar, Scott L.
School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2009, B.S. (Keene State College), M.B.A. (University of San Diego), Ph.D. (Mississippi State)

Boylan, Douglas M.
School of Engineering
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2005, B.S., M.S, Ph.D. (Tulane)

Brande, Scott
College of Arts and Sciences
Department of Chemistry, Associate Professor of Chemistry, 1979, B.S. (Rochester), M.S. (California Institute of Technology), Ph.D. (SUNY-Stony Brook)

Brandwein, Craig
College of Arts and Sciences
Department of Music, Assistant Professor of Music, 2016, B.S., M.A. (Long Island)

Braswell, Mary
College of Arts and Sciences

Braziel, James
College of Arts and Sciences
Department of English, Associate Professor of English, 2010, B.A. (Georgia), M.F.A (Bowling Green State), Creative Writing, Poetry, Science Fiction

Breland, Bryan
School of Health Professions
Department of Health Services Administration, Assistant Professor, 2009, DrPH, JD, MPH, MPH, Community and Organizational Emergency Preparedness, Healthcare Policy

Bria, Victoria
School of Nursing
Instructor of Nursing, 2017, B.S.N., M.S.N. (Samford)

Bristow, Alice S.
School of Nursing
Instructor of Nursing, 2011, B.S. (Alabama); B.S.N., M.S.N. (UAB)

Britt, Sylvia E.
School of Nursing
Assistant Professor of Nursing, 2007, B.S.N. (Medical College of Georgia), M.S.N., D.S.N. (UAB)

Brouillette, Wayne J.
College of Arts and Sciences
Department of Chemistry, Emeritus Professor of Chemistry, 1979, B.S. (West Florida), M.S., Ph.D. (Kansas)

Brown, Michelle
School of Health Professions
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2000, M.S. (UAB), Transfusion Medicine and Interprofessional Education

Bryant, Pamela
School of Nursing
Assistant Professor, 2008, B.S.N., M.S.N., D.N.P. (UAB)

Budhwani, Henna
School of Public Health
Department of Health Care Organization and Policy, Assistant Professor, 2012, M.P.H., Ph.D. (UAB), Health disparities and global health

Bunn, Michele
School of Business
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Marketing, 2013, PhD (UNC: Chapel Hill)

Burke, Donald S.
School of Engineering
Department of Advanced Safety Engineering and Management, Assistant Professor of Mechanical Engineering; Program Director, Advanced Safety Engineering and Management Program; Track Leader, Advanced Safety Engineering, Interdisciplinary Engineering PhD Program, 2013, B.S., Ph.D. (UAB)

Buys, Katie Crawford
School of Nursing
Instructor of Nursing, 2011, B.S.N. (Samford); M.S.N., M.P.H., D.N.P. (UAB)

Byrd, Elizabeth
School of Nursing
Instructor of Nursing, 2017, B.S.N., M.S.N. (UAB)

Byrd, Jim
School of Business
Department of Accounting and Finance, Instructor of Accounting, Program Director, MAc, 2013, B.S. (Auburn), M.B.A. (Georgia State), M.A., Ph.D. (UAB), CPA, CHFP

Cain, Cindy L
College of Arts and Sciences
Department of Sociology, Assistant Professor of Sociology, 2005, B.A. (Indiana), M.A., P.h.D. (Arizona)

Callahan, Dale
School of Engineering
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering; Director, Information Engineering and Management; Associate Dean for Professional Programs and Industry Relations, 2000, B.E.E. (Auburn), M.B.A. (Auburn-Montgomery), M.S.E.E. (UAB), Ph.D. (Alabama), P.E. (Alabama), Entrepreneurship, Innovation and Social Media

Camata, Renato
College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 2000, B.S. (Universidade de São Paulo), M.S., Ph.D. (Caltech), Crystal growth and properties of thin film materials; physical vapor deposition of semiconductor, electroceramic and electronic quantum materials; aerosol processes in nanomaterials fabrication; nanostructured materials

Cannon, Joseph J.
College of Arts and Sciences
Department of Theatre, Assistant Professor of Theatre, 2004, B.A. (UAB), M.F.A. (Arizona)

Carlito, Delores
Mervyn H. Sterne Library

Carpenter, Jennifer
School of Nursing
Instructor of Nursing, 2017, B.A. (Auburn), M.S.N. (UAB)

Carpenter, Randy
School of Health Professions
Department of Health Informatics, M.S.H.I., Adjunct Professor (Health Services Administration)

Carroll, Mary Jacque
College of Arts and Sciences
Department of Social Work, Assistant Professor and Director of Field Education, 2017, B.S. (Wofford College), M.S.W. (South Carolina)

Catledge, Shane A.
College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 2004, B.S. (California State –Sacramento), Ph.D. (UAB), Synthesis and properties of nanostructured super-hard materials; chemical vapor deposition (CVD) of diamond films and novel nanostructured coatings for industrial cutting and biomedical implant applications; molecular sensing using fluorescent nanodiamond; mechanical properties

Cato, Shelly
College of Arts and Sciences

Catron, Kelly
School of Nursing
Instructor of Nursing, 2010, B.S.N., M.S.N., D.N.P. (UAB)

Causey, Cora
School of Education
Department of Curriculum and Instruction, Instructor of Early Childhood and Elementary Education, 2014, B.A., (Birmingham Southern), M.A., Ph.D. (UAB)

Centeno, María Jesús
College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of Spanish, 2006, B.A. (Universidad Autónoma de Madrid), M.A. (Georgia)

Chambless, Krista
College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of Spanish, 2006, B.A., M.A., Ph.D. (Alabama)

Chapman Lambert, Crystal
School of Nursing
Assistant Professor, 2014, B.S.N., A.A., M.S.N., Grad Certificate, Ph.D. (South Florida)

Chapman, Alison
College of Arts and Sciences
Department of English, Professor of English; Chair, Department of English, 2000, B.A. (Davidson), M.A., Ph.D. (Pennsylvania), Renaissance Poetry and Prose

Chapman, Gary H.
College of Arts and Sciences
Department of Art Art History, Professor of Art, 1990, B.S., B.A. (Berea), M.F.A. (Cranbrook Academy), Painting, Drawing, Mixed Media, Figuration

Chawla, Krishan Kumar
School of Engineering
Department of Materials Science and Engineering, Professor Emeritus of Materials Science and Engineering, 1998, B.S. (Banaras Hindu, India), M.S., Ph.D. (Illinois, Urbana-Champaign), Metal, Ceramic, and Polymer Matrix Composite Materials; Fibers; Foams

Chen, Cheng-Chien
College of Arts and Sciences
Department of Physics, Assistant Professor of Physics, 2016, B.S. (National Tsing-Hua University), Ph.D. (Stanford University), condensed matter theory; scientific supercomputing; big data analytics; photon-based spectroscopies; non-equilibrium dynamics and emergent phenomena in strongly correlated systems; unconventional superconductors; quantum magnets; interacting topological states of matter

Chen, Dongquan
School of Health Professions
Department of Health Informatics, Ph.D., Research Assistant Professor (Health Services Administration)

Chiasera, Janelle
School of Health Professions
Department of Clinical and Diagnostic Sciences, Professor, Chair, and Interim Program Director (Clinical Laboratory Sciences), 2006, Ph.D. (Ohio State), Diabetes Mellitus and its complications

Childs, Gwendolyn
School of Nursing
Associate Professor of Nursing, 2007, B.S.N. (Lander), M.S.N. (Medical College of Georgia), Ph.D. (South Carolina)

Cho, Won
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2011, B.M. (Manhattan), M.M. (Boston), D.M.A. (Memphis)

Christensen, Lois M.
School of Education
Department of Curriculum and Instruction, Professor of Early Childhood and Elementary Education, 1996, B.A., M.A. (Arizona State), Ph.D. (Texas AM)

Cinnella, Pasquale
School of Engineering
Department of Mechanical Engineering, Professor of Mechanical Engineering; Undergraduate Program Director, 2017, B.S. (University of Bari, Italy), Ph.D. (Virginia Polytechnic Institute and State University), Dynamics

Clabough, Jeremiah
School of Education
Department of Curriculum and Instruction, Assistant Professor of Secondary Education, 2012, B.A. (Maryville College), M.S., Ph.D. (Tennessee)
Claus, Nancy  
School of Nursing  
Instructor of Nursing, 2010, B.S., (UAB), A.D. (Wallace State Community College), B.S.N. (Georgia Southern), M.S.N. (Jacksonville State)

Clavell, Alicia  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Instructor of Business Communications, 2011, B.A. (Berry College), M.A. (UAB)

Clay, Olivio  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, 2007, B.S., M.A., Ph.D. (UAB)

Coblentz, Travis  
College of Arts and Sciences  
Department of Philosophy, CCI, 2018, M.A., Ph.D. (Baylor University)

Cochran, John Brock  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Instructor of Spanish, 2012, B.A. (Auburn), M.A. (North Carolina in Charlotte)

Cofield, Stacy S.  
School of Public Health  
Department of Biostatistics, Associate Professor , 2003, Ph.D. (Virginia Commonwealth), Mixed-Effects Models, Clinical Trial Design, Management, and Analysis, Out-of-Hospital Cardiac Arrest and Resuscitation.

Coles, Karen M.  
School of Nursing  
Instructor of Nursing, 1993, B.S.N. (Michigan State); M.S.N., D.N.P. (UAB)

Conner, David A.  
School of Engineering  

Cook, Edwin W. III  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Director, Medical/Clinical Psychology Doctoral Program, 1986, B.S. (Pennsylvania), M.S., Ph.D. (Wisconsin)

Copes, J. Heith  
College of Arts and Sciences  
Department of Criminal Justice, Professor, 2001, B.S. (Southwestern Louisiana), M.A., Ph.D., (Tennessee), Qualitative Methods, Criminal Decision Making, Visual Criminology

Corbetta, Renato  
College of Arts and Sciences  
Department of Political Science and Public Administration, Associate Professor, 2005, B.A., M.A. (Portland State), Ph.D. (Arizona)

Corcoran, Stephanie  
School of Education  
Department of Curriculum and Instruction, Assistant Professor of School Psychology, 1998, B.A., Ed.S., Ph.D. (UA)

Cormier, Loretta  
College of Arts and Sciences  
Department of Anthropology, Associate Professor of Anthropology, 2000, B.S. (Florida), M.A. (UAB), Ph.D. (Tulane)

Cowart, Larry  
School of Business  
Department of Accounting and Finance, Assistant Professor of Finance, 2007, B.S. (Athens), M.B.A. (Samford), Ph.D. (Georgia)

Cracco, Derek A.  
College of Arts and Sciences  
Department of Art Art History, Associate Professor of Art, 1999, B.F.A. (Louisiana State), M.F.A. (Syracuse), Printmaking, Computer graphics, Color Theory

Crawley, Diane  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Instructor of Legal Studies, 2014, JD (Samford)

Crecelius, Andrew  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Marketing, 2016, PhD (University of Missouri)

Crooks, Elizabeth  
School of Nursing  
Instructor of Nursing, 2011, B.S.N. (Catholic University of America), M.S.N. (Case Western Reserve), D.N.P. (UAB)

Crowe, Michael  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Assistant Director of the Center for Research on Applied Gerontology, 2006, B.S. (Illinois), M.A., Ph.D. (Southern California)

Cullen, Clark  
College of Arts and Sciences  
Department of Sociology, Teaching Assistant Professor of Sociology, 2009, B.A. (Mississippi); M.A., Ph.D. (UAB)

Culver, Sarah E.  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Economics, 1993, B.S., M.A., Ph.D. (Houston)

Cummings, Catheleen A.  
College of Arts and Sciences  
Department of Art Art History, Associate Professor of Art History, 2006, B.A. (Mills College), M.A. (University of London), M.A. and Ph.D. (Ohio State), South Asian Art

Currie, Erin  
School of Nursing  
Assistant Professor, 2014, B.S.N. (Florida State); M.S.N., Ph.D. (UAB)

Cusic, Anne M.  
College of Arts and Sciences  
Department of Biology, Associate Professor of Biology, 1988, B.S. (UAB), M.S. (Samford), Ph.D. (UAB), General Biology and Reproductive Biology

</tbody>
</table>
Dunbar, Jessie
College of Arts and Sciences
Department of English, Assistant Professor of English, 2013, B.A. (Clark Atlanta University), M.A. (Georgia), Ph.D. (Emory), Nineteenth and Twentieth-Century African American Literature and Black Diaspora Studies

Dwyer, Zoe. B.
School of Engineering
Department of Materials Science and Engineering, Associate Professor of Materials Science and Engineering; Associate Dean for Undergraduate Programs, 1999, B.S., M.S., Ph.D. (UAB)

Earwood, Martha
College of Arts and Sciences
Department of Criminal Justice, Teaching Assistant Professor of Criminal Justice Internship Coordinator, 2003, B.S., M.S. (Georgia State), Corrections, Victimology, Restorative Justice, Experiential Learning.

Eberhardt, Alan
School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering; Associate Chair of Education, Biomedical Engineering; Director of Master of Engineering in Design and Commercialization, 1991, B.S., M.S. (Delaware), Ph.D. (Northwestern), Solid Mechanics, Injury Biomechanics, Biomedical Implants, Analytical and Numerical Methods in Biomechanics

Edmonds, Christopher
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2013, B.S. (Colorado State), M.B.A. (UAB), Ph.D. (Virginia Tech)

Edmonds, Jennifer
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2013, B.S. (Birmingham-Southern), M.Acc., Ph.D. (Virginia Tech)

Edmonds, Mark
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2015, BS, MA (UAB), PhD (Southern Illinois)

Edwards, Courtney
School of Nursing
Instructor of Nursing, 2016, B.S.N. (Tuskegee University), M.S.N. (UAB)

Edwards, Griffin
School of Business
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Economics, 2013, PhD (Emory)

Eisler, Riane
College of Arts and Sciences
Department of Anthropology, Research Associate, 2015, B.A., J.D. (UCLA), DHL (Case Western), DHL (Saybrook)

Ennis, Robin
School of Education
Department of Curriculum and Instruction, Assistant Professor of Collaborative Teacher Education K-12, 2015, B.A. (Birmingham Southern), M.Ed. (Vanderbilt), Ph.D. (Georgia State)

Erdmann, Mitzy
College of Arts and Sciences
Department of Chemistry, Instructor, 2016, B.S. (Loyola University), M.S. (UAB), Ph.D. (UAB)

Ernest, James R.
School of Education
Department of Curriculum and Instruction, Professor of Early Childhood and Elementary Education, 2010, B.A. (The University of Exeter, Exeter, England), M.A. (Louisiana State), Ph.D. (UAB)

Esposito, Richard A.
School of Engineering
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2011, B.S. (Auburn), M.S. (Auburn; Samford), Ph.D. (UAB), P.G. (Alabama, Georgia, Florida, Mississippi, Tennessee), Carbon Dioxide Sequestration; Power Generation

Estes, Jr., Norman
School of Health Professions
Robert Department of Clinical and Diagnostic Sciences, Assistant Professor, 2015, Ph.D. (UAB)

Etheridge, Sherita
School of Nursing
Instructor of Nursing, 2008, B.S.N. (UNA), M.S.N. (UAB)

Evans, Patrick
College of Arts and Sciences
Department of Music, Professor and Chair, 2015, B.M., B.M.E. (Montevallo), M.M., D.M. (Florida State)

Evans, Retta
School of Education
Department of Human Studies, Associate Professor of Community Health and Human Services, 2003, B.S., (Fort Hays), M.S. (Northeastern), Ph.D. (Arkansas), Health Education/ Adolescent and young adult health, nutrition physical activity, body image, school health

Fanucchi, Michelle
College of Joint Health Sciences

Fast, Vladimir G.
School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1997, B.S., M.S. Physics, Ph.D. in Biophysics (Moscow Institute of Physics and Technology), Optical imaging of electrical and ionic activity in the heart mechanisms of cardiac arrhythmias and defibrillation

Fathallah-Shaykh, Hassan
College of Arts and Sciences
Department of Applied Mathematics, Professor of Neurology; Mathematics; Integrative, Developmental and Cell Biology; Biomedical, Electrical, and Mechanical Engineering, 2008, M.D. (American University of Beirut), Ph.D. (Illinois at Chicago), Mathematical Biology, Systems biology of cancer, Dynamics of molecular networks, Biological rhythms
Fedorov, Vladimir V.  
Department of Physics, Research Assistant Professor of Physics, 2007, M.S. (Moscow Institute of Physics), Ph.D. (Russian Academy of Science), Physical and mathematical science; coherent and laser spectroscopic characterization of doped laser materials; solid-state lasers; laser spectroscopy for molecular-sensing applications

Feldman, Dale S.  
School of Engineering
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 1985, B.S. (Northwestern), M.S. (Dayton), Ph.D. (Clemson), Biomaterials, Soft-tissue biomechanics, Polymeric implants

Fiedler, Robin L.  
School of Education
Department of Human Studies, Instructor of Educational Psychology and Research, 2008, B.S. (Edinboro), M.Ed. (Virginia Commonwealth), Ph.D. (Auburn), Measurement, Educational Psychology, Educational Statistics

Fisher, Gordon  
School of Education
Department of Human Studies, Associate Professor of Kinesiology, 2012, B.S. (Hillsdale), M.S. (Mississippi State), Ph.D. (Auburn), Postdoctoral Fellow (UAB), Exercise Physiology; Exercise/Nutrition, Mitochondrial Bioenergetics, Oxidative Stress, and Chronic Inflammation

Flammini, Steve  
School of Health Professions
Department of Health Informatics, Credit Course Instructor (Health Services Administration)

Fogger, Susanne  
School of Nursing
Professor of Nursing, 2010, B.S.N. (Wayland Baptist University), M.S.N., D.N.P. (South Alabama)

Foley, Robin D.  
School of Engineering
Department of Materials Science and Engineering, Associate Professor of Materials Science and Engineering, 1990, B.S., M.S. (Illinois, Urbana-Champaign), Ph.D. (Wisconsin-Madison), Materials Characterization, Physical Metallurgy, Metals Casting

Fontaine, Kevin  
School of Public Health
Department of Health Behavior, Professor and Chair, 2012, Ph.D. (Victoria University, UK), Obesity, non-descriptive placebo responses, resistance exercise, mirror visual feedback for pain, movement restrictions in Chronic Fatigue Syndrome, and the effects of carbohydrate restricted diets on systemic inflammation

Forbes, Laura  
School of Education
Department of Human Studies, Professor of Community Health and Human Services, 2005, B.S. (Ball State), M.S. (Central Florida), Ph.D. (South Carolina), Health education program planning and administration / Youth and adult drug use prevention programs / Student assistance programs/ Adolescent Mental Health/ Various college health topics

Forman, Michele  
College of Arts and Sciences

Fouad, Fouad H.  
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Chair, Department of Civil, Construction, and Environmental Engineering; Director, UAB Sustainable Smart Cities Research Center; Interim Director, Civil Engineering Construction Management Online Master Program, 1981, B.S.C.E. (Alexandria, Egypt), M.S.C.E. (Texas), Ph.D. (Texas AM), P.E. (Alabama, Texas), Structural Engineering, Reinforced Concrete, Concrete Materials

Franklin, Gregory A.  
School of Engineering
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering, 2007, B.S., M.S., Ph.D. (UAB), P.E. (Alabama), Electric utility power systems, power system protection, power line communications

Franks, Alan E.  
College of Arts and Sciences
Department of Communication Studies, Assistant Professor; Director, Broadcasting, 2013, B.S. (UAB); MFDI (Sydney); MFA (Montana State)

Friday, R. David  
School of Health Professions
Department of Health Informatics, M.S.H.I., Adjunct Instructor (Health Services Administration)

Fry, Douglas P.  
College of Arts and Sciences
Department of Anthropology, Professor Chairperson, 2014, B.A. (UCSB), M.A., Ph.D. (Indiana)

Fu, Richard  
School of Business
Department of Accounting and Finance, Associate Professor of Finance, 2006, Ph.D. (Georgia Institute of Technology)

Gainey, Denise  
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2002, B.M.E. (Florida State), M.M. (North Texas), D.M.A. (Kentucky)

Gakumo, C. Ann  
School of Nursing
Associate Professor of Nursing, 2009, B.S.N. (Tuskegee), Ph.D. (UAB)

Gampher, J. Eric  
College of Arts and Sciences
Department of Psychology, Assistant Professor of Psychology, 2008, B.S. (Florida State), Ph.D. (UAB)

Gardner, Elizabeth A.  
College of Arts and Sciences
Department of Criminal Justice, Associate Professor and Director, Master of Science in Forensic Science Program, 2007, B.S. (Penn State), PhD. (Michigan State), Drug Chemistry, Legal Highs, Gun Powder Residue, Laser Induced Breakdown Spectroscopy, Pharmaceutical Spam
Genau, Amber L.  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2010, B.S., M.S. (Iowa State); Ph.D. (Northwestern), Metal solidification and microstructure formation, Quantitative analysis of complex three-dimensional structures, Ternary eutectic microstructures

George, Remo  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2008, M.S. (Mahtma Gandhi University), Ph.D. (UAB), Using Molecular Beacons for Detection and Attenuation of Mycobacteria

Ghanta, Vithal K.  
College of Arts and Sciences  
Department of Biology, Professor of Biology, 1971, B.S. (G.C.W. College), M.S. (Banaras Hinda), Ph.D. (Southern Illinois), Research Interest: Cancer Immunology, Immunology, and Biology of Aging

Gilchrist, Roger L.  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 1999, B.S., M.S., Ph.D. (Wyoming), Human Anatomy and Physiology

Gilmer, Dianne  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Instructor of Civil, Construction, and Environmental Engineering; Co-Founder and Assistant Director of Online Civil Engineering Construction Management Master’s Program, 2009, B.S. (Samford), MEng-CEM (UAB), Engineering Online Education, Learning Management System Applications, Student Retention in Online Learning Programs

Gladysz, Gary  
School of Engineering  
Department of Materials Science and Engineering, Adjunct Associate Professor of Materials Science and Engineering, 2017, B.E. (Youngstown State University), M.S. (Ohio University), Ph.D. (New Mexico Institute of Mining and Technology), Materials Science and Engineering, Chemical Engineering; Syntactic Foams

Goldman, Jay  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Distinguished Service Professor Dean Emeritus, 2017, Ph.D. (Washington University in St. Louis)

Goldman, Renitta L.  
School of Education  
Department of Curriculum and Instruction, Professor of Special Education, 1984, B.A. (Washington), M.S. (North Carolina State), Ph.D. (Missouri)

Golightly, Beverly  
School of Health Professions  
Department of Health Informatics, M.S.H.A., Credit Course Instructor (Health Services Administration)

Goodin, Burel  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology and Anesthesiology, 2012, B.S. (Illinois College); M.A. (Boston University of Medicine); M.A., Ph.D (Maryland, Baltimore)

Gordon, Bruce  
School of Business  
Department of Accounting and Finance, Professor and Program Director of Finance, 2016, BS (Jacksonville State), MA (University of Alabama), PhD (Virginia Tech)

Grau, Grace  
School of Nursing  
Instructor of Nursing, 2011, B.S.N. (Miami), M.S.N. (UAH), D.N.P. (UAB)

Graveline, Jeffrey D.  
Mervyn H. Sterne Library  

Graves, Lila V.  
College of Arts and Sciences  
Department of English, Associate Professor of English Emerita, 1976, B.S., M.A., Ph.D. (Auburn), Prose Fiction, Eighteenth-Century British Literature

Gray, Gary M.  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry, 1983, B.S., Ph.D. (Lehigh)

Gray, Rosianna R.  
College of Arts and Sciences  
Department of Biology, Assistant Professor, 2017, B.S. (Stillman College), M.S., Ph.D. (UA), General Biology Microbiology, STEM Education, and Metacognition

Green, David G.  
School of Engineering  
Department of Electrical and Computer Engineering, Instructional Professor Emeritus of Electrical and Computer Engineering, 1981, B.S.E., M.S.E (UAH), Collaborative Systems, Internet Applications, and Engineering Education

Griffin, John A.  
School of Engineering  
Department of Materials Science and Engineering, Research Assistant Professor of Materials Science and Engineering, 2011, B.S.Mt.E, M.S.Mt.E. (UAB), Metals Casting, Testing and Characterization, Nondestructive Evaluation

Griffin, O. Hayden  
College of Arts and Sciences  
Department of Criminal Justice, Associate Professor and Director, Master of Science in Criminal Justice Program, 2013, J.D. (University of Richmond), Ph.D. (University of Florida), Corrections, Policy, Drugs and Society, Law and Society

Griffin, Russell  
School of Public Health  
Department of Epidemiology, Assistant Professor, 2012, Ph.D. (UAB), Improving quality of care among trauma and burn patients, utilization of peritoneal dialysis in rural populations, and predictors of acute kidney injury among neonates.

Grimes, Gary J.  
School of Health Professions  
Department of Health Informatics, Ph.D., Professor (Electrical and Computer Engineering)
Grimes, L. Kyle  
Department of English, Professor of English; Director of Graduate Studies Department of English, 1990, B.A. (Dartmouth), M.A., Ph.D. (Illinois)

Grostick, Sara S.  
Department of Health Informatics, M.A., Associate Professor (Health Services Administration)

Guest, Kristi C.  
Department of Psychology, Assistant Professor of Psychology, 2003, B.S., M.A., Ph.D. (UAB)

Gunnels, Ken  
Department of Management, Information Systems, and Quantitative Methods, Instructor of Information Systems, 2011, B.S. (UAB); M.B.A. (Samford); M.S., MIS, Ph.D. (Alabama)

Gunther-Canada, Wendy A.  
Department of Political Science and Public Administration, Professor, 1992, B.A. (Utah), M.A., Ph.D. (Rutgers)

Gurley, Dennis Keith  
Department of Human Studies, Associate Professor of Educational Leadership, 2012, B.A. (Trinity), M.Ed., Ed.D. (Wichita State), Pre-Service and In-Service Development for School Leaders, Professional Learning Communities, and Organizational Theory

Guthrie, James Ronald  

Hadley, Mark  
Department of Marketing, Industrial Distribution, Economics, Professor of Surgery; Professor of Marketing and Industrial Distribution; Spinal Surgery and Medical Equipment and Supplies Distribution, 2008, B.A. (Stanford), M.D. (Albany Medical College)

Haider, Mohammad  
Department of Electrical and Computer Engineering, Associate Professor of Electrical and Computer Engineering, 2011, Ph.D. (Tennessee-Knoxville), Low-power Sensor Electronics, Wireless Telemetry, and Wireless Power Transfer

Hall, Cheryl D.  
Department of Theatre, Assistant Professor of Theatre, 1989, B.A. (Southern Illinois), M.F.A. (Arizona)

Hall, Sean  
Department of Human Studies, Assistant Professor of Counselor Education, 2012, B.A., M.A. (Florida Gulf Coast), Ph.D. (Old Dominion), Counselor Education, Clinical Mental Health Counseling, Assessment and Intervention Techniques, Processes and Outcomes Research, Dropout Prevention

Hallman, Melanie  
School of Nursing 
Instructor of Nursing, 1998, B.S.N., M.S.N. (UAB), D.N.P. (UAB)

Hamilton, Denise  
School of Health Professions 
Department of Health Administration, Instructor (Health Services Administration): Health Care Finance

Hamilton, Tracy P.  
School of Arts and Sciences 
Department of Chemistry, Associate Professor of Chemistry, 1991, B.S., M.S., Ph.D. (Arkansas)

Hammack, Glenn G.  
School of Health Professions 
Department of Health Informatics, O.D., M.S.H.I., Assistant Professor (Health Services Administration)

Hammond, Stephanie  
School of Nursing 
Assistant Professor of Nursing, 2010, B.S.N. (Alabama), M.S.N., D.N.P. (UAB)

Han, Youngshook  
School of Nursing 
Assistant Professor of Nursing, 1996, B.S.N., M.S.N. (Chungnam National University), M.S.N., Ph.D. (University of Wisconsin)

Hansen, John  
School of Business 
Department of Marketing, Industrial Distribution, Economics, Associate Professor of Marketing, 2009, B.S., M.B.A. (Troy), Ph.D. (Alabama)

Haque, Sejuty  
School of Engineering 
Department of Materials Science and Engineering, Adjunct Associate Professor of Materials Science and Engineering, 2017, BDS (University of Dhaka, Bangladesh), Ph.D. (Hokkaido University, Japan), Materials Science and Engineering, Dental Materials

Hardin, J. Michael  
School of Health Professions 
Department of Health Informatics, Ph.D., Credit Course Instructor (Health Services Administration)

Hardy, Carter  
School of Arts and Sciences 
Department of Philosophy, Visiting Assistant Professor of Philosophy, 2017, Ph.D. (University of South Florida)

Harper, Doreen  
School of Nursing 
Professor and Dean of Nursing, 2005, B.S.N. (Cornell), M.S.N. (Catholic), Ph.D. (Maryland)

Harris, Linda S.  
Mervyn H. Sterne Library 
Mervyn H. Sterne Library, Associate Librarian: Head, Reference Services, Mervyn H. Sterne Library, 1984, B.A. (Stillman), M.S.L.S. (Atlanta)

Harris, Melissa L.  
School of Arts and Sciences 
Department of English, Professor of English; Director of Graduate Studies Department of English, 1990, B.A. (Dartmouth), M.A., Ph.D. (Illinois)
Department of Biology, Assistant Professor of Biology, 2016, B.S., Ph.D. (UC Davis), Somatic Stem Cells, Aging, Genetics and Genomics, Pigmentation Biology

Harris, Yolanda
School of Nursing
Instructor of Nursing, 2011, B.S.N. (Samford), M.S.N. (UAB)

Hasan, Ragib
College of Arts and Sciences
Department of Computer Science, Assistant Professor of Computer Science, 2011, B.S. (Bangladesh), M.S., Ph.D. (Illinois Urbana-Champaign)

Hawkins, Richard B.
School of Nursing
Department of Civil, Construction, and Environmental Engineering, Instructor of Civil, Construction, and Environmental Engineering, 2017, B.S.Ch. (Montevallo), MEng-CEM (UAB), Environmental Engineering, Structural Testing, Construction Management

Heaton, Karen
School of Nursing
Associate Professor of Nursing, 2008, BSN (UAB), MSN (Louisville) Ph.D. (Kentucky)

Hebard, Stephen P.
School of Education
Department of Human Studies, Assistant Professor of Counselor Education, 2015, B.S. (East Stroudsburg), M.S., Ph.D. (North Carolina-Greensboro), Motivational Interviewing, sport counseling, athlete mental health and performance

Hemrick, James
School of Engineering
Department of Materials Science and Engineering, Adjunct Assistant Professor of Materials Science and Engineering, 2017, B.S. (University of Missouri-Rolla), M.S. (Georgia Institute of Technology), Ph.D. (University of Missouri-Rolla), Ceramic Engineering, Materials Science and Engineering

Hendricks, Peter
School of Public Health
Department of Health Education and Health Promotion, Associate Professor, 2010, Ph.D. (South Florida), Tobacco use initiation, maintenance, and relapse, with a goal of developing novel and potentially more efficacious interventions for intractable smoking behavior

Hernandez, S. Robert
School of Health Professions
Department of Health Services Administration, Professor and Program Director, Doctoral Program in Administration-Health Services, 1972, DrPH (UNC - Chapel Hill), Strategic Planning for Health Care Organizations, Health Care Organization Theory, Human Resources Management

Herzig, Terrell W.
School of Health Professions
Department of Health Informatics, M.S.H.I., Credit Course Instructor (Health Services Administration)

Hettich, Dana L.
Mervyn H. Sterne Library

Hicks, Joan C.
School of Health Professions
Department of Health Informatics, M.S.H.I., Assistant Professor (Health Services Administration)

Hickson, Mark III
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 1987, B.S., M.A. (Auburn), M.A. (Mississippi State), Ph.D. (Southern Illinois); J.D. (Birmingham School of Law)

Hill, Kelly L.
School of Education
Department of Curriculum and Instruction, Temp Assistant Professor of English as a Second Language, 2015, B.S., M.A., Ed.S., Ph.D. (UAB)

Hilton, David
College of Arts and Sciences
Department of Physics, Associate Professor of Physics, 2007, B.S., M.S. (Rochester), M.S., Ph.D. (Cornell), Ultrafast spectroscopy and ultrashort pulse generations; ultrafast terahertz spectroscopy; correlated electron materials; superconductivity; high-magnetic field spectroscopy; magnetic semiconductors; complex functional nanomaterials; materials in extreme environments

Hitchcock, Laurel
College of Arts and Sciences
Department of Social Work, Assistant Professor, 2013, B.A. (Wisconsin-Madison), M.P.H. (UAB), M.S.W. (Alabama), Ph.D. (Alabama)

Hodges, Ashley
School of Nursing
Associate Professor of Nursing; Assistant Dean for Graduate Clinical Programs, 2009, B.S.N. (Alabama), M.A. (Seton Hall), M.S.N., Ph.D. (UAB)

Hogewood, Connie M.
School of Nursing
Instructor of Nursing, 2014, B.G.S., B.S.N., M.S.N. (Samford)

Holloway, Stacey
College of Arts and Sciences
Department of Art Art History, Assistant Professor of Art, 2009, B.F.A (Purdue), M.F.A. (Minnesota-Twin Cities), Sculpture, Ceramics, Engineering

Hood, Anthony
School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor, 2011, B.S., M.S. (UAB), Ph.D. (UAB)

Hopkins, Maria
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, Director, Undergraduate Studies of Psychology, 2007, B.S., M.A., Ph.D. (UAB)

Hosch, Ian E.
School of Engineering
Department of Civil, Construction, and Environmental Engineering, Assistant Professor of Civil, Construction and Environmental Engineering, 2012, B.S.C.E., M.S.C.E, Ph.D. (UAB), Structural Engineering, Engineering Mechanics, Geotechnical Engineering
Howard, Jack Lee  School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, Interim Chair, 2009, B.S., A.M., Ph.D. (University of Illinois at Urbana-Champaign)

Huang, Xuan  School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Quantitative Methods, 2010, B.E. (Tsinghua University, Beijing), M.Sc., Ph.D. (Massachusetts, Amherst)

Hurst-Wajszczuk, Kristine  College of Arts and Sciences
Department of Music, Associate Professor of Music, 2007, B.M., M.M. (Westminster Choir-Rider), D.M.A. (Colorado-Boulder)

Hutchings, William (Bill)  College of Arts and Sciences
Department of English, Professor of English, 1981, A.B. (Transylvania), M.A., Ph.D. (Kentucky), Modern British Fiction, Modern Drama, World Literature

Hutchison, Jeanne S.  College of Arts and Sciences
Department of Mathematics, Assistant Professor of Mathematics, 1970, B.S. (Creighton), M.A., Ph.D. (California-Los Angeles)

Hutson, Susan  School of Health Professions
Department of Clinical and Diagnostic Sciences, Associate Professor Emeritus, Respiratory Therapy Program, 1976, M.A.E. (UAB)

Hyde, Michael T.  School of Nursing
Instructor of Nursing, 2012, B.S.N., M.S.N. (Alabama)

Ibelema, Minabere  College of Arts and Sciences
Department of Communication Studies, Associate Professor of Communication Studies, 1995, B.A. (Wilberforce), M.A., Ph.D. (Ohio State)

Iles, Karen E.  School of Public Health
Department of Environmental Health Sciences, Associate Professor, 2015, Ph.D. (Guelph), Research administration, especially conflict of interest regulations; cell-signaling responses to pulmonary injury focusing on pollutant-derived and bacterial insults; signaling mechanisms for endogenous antioxidants, such as glutathione, to decrease pulmonary injury; molecular nutrition and gene expression.

Irving, Howard L.  College of Arts and Sciences
Department of Music, Professor of Music, 1981, B.Mus. (Centenary), M.M., Ph.D. (Louisiana State)

Jablonski, Rita S.  School of Nursing
Professor of Nursing, 2012, B.S.N. (Holy Family), M.S.N. (La Salle), Ph.D. (Virginia)

Jack, Ave  School of Business
Department of Accounting and Finance, Instructor of Accounting, 2011, BIE (Georgia Institute of Technology), MS (Boston University), MAEd (UAB)

Jack, Eric  School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management; Dean, Faculty Development and Research, 2001, B.S. (Georgia Institute of Technology), M.B.A. (Wright State), Ph.D. (Cincinnati)

Jannett, Thomas C.  School of Engineering
Department of Electrical and Computer Engineering, Professor Emeritus of Electrical and Computer Engineering, 1984, B.S.E., M.S.E. (UAB), Ph.D. (Auburn), Sensor Networks, Biomedical Instrumentation and Control Systems

Janowski, Gregg M.  School of Engineering
Department of Materials Science and Engineering, Professor of Materials Science and Engineering; Associate Provost for Assessment and Accreditation, 1990, B.S., M.S., Ph.D. (Michigan Technological), X-Ray Diffraction, Composite Materials, Physical Metallurgy, Structure-Processing-Property Relationships

Jennings, Matthew  School of Nursing
Instructor of Nursing, 2009, B.A. (Augusta State); M.Ed. (Troy State)

Jepkemboi, Grace  School of Education
Department of Curriculum and Instruction, Assistant Professor of Early Childhood and Elementary Education, 2008, B.Ed. (Egerton University, Kenya), M.A. (Moi University, Kenya), Ph.D. (UAB)

Jessee, Margaret Jay  College of Arts and Sciences
Department of English, Assistant Professor of English, 2013, B.A., M.A. (Tennessee), Ph.D. (Arizona), Gender Studies, Women’s Literature, American Literature

Johnson, Karmie M.  School of Nursing
Assistant Professor of Nursing, 2012, B.S., M.S.N., D.N.P. (UAB); B.S.N. (South Alabama)

Johnson, Margaret  College of Arts and Sciences
Department of Chemistry, Assistant Professor of Chemistry, 2013, B.S., Ph.D. (Simon Fraser)

Johnson, Marlene  College of Arts and Sciences
Department of Theatre, Associate Professor of Theater, 2006, B.A. (Asbury), M.A. (Miami-Oxford), M.F.A. (Virginia Commonwealth)

Johnson, Walter  College of Arts and Sciences
Department of Mathematics, Instructor of Mathematics, Introductory Math Curriculum Director, 2002, B.S.EE. (Auburn), M.A.Ed. (UAB)
Johnston, Rick  
School of Business  
Department of Accounting and Finance, Associate Professor and Program Director of Accounting, 2015, BC (University of Toronto), MBA (University of Western Ohio), PhD (University of Pennsylvania)

Johnstone, John K.  
College of Arts and Sciences  
Department of Computer Science, Associate Professor and Undergraduate Program Director of Computer Science; Associate Professor of Ophthalmology, 1994, B.S. (Saskatchewan-Canada), M.S., Ph.D. (Cornell)

Jolly, Pauline  
School of Public Health  
Department of Epidemiology, Professor, 1991, M.P.H., Ph.D. (Johns Hopkins), Infectious Disease Epidemiology, International Health and Global Studies.

Jololian, Leon  
School of Engineering  
Department of Electrical and Computer Engineering, Associate Professor and Associate Chair of Electrical and Computer Engineering, 2017, Ph.D. (New Jersey Institute of Technology), Software Engineering, Internet of Things, Mobile and Cloud Computing, and Machine Learning

Jones, Alison  
School of Nursing  
Assistant Professor, 2015, B.S.N., M.S.N., Certificate, Ph.D. (Kentucky)

Jones, Harold P.  
School of Health Professions  
Professor and Dean, School of Health Professions, 2001, Ph.D. (Duke)

Jones, Warren T.  
College of Arts and Sciences  
Department of Computer Science, Professor Emeritus of Computer Science, 1979, B.S.E.E. (Georgia Institute of Technology), M.S. (Georgia State), M.S., Ph.D. (Georgia Institute of Technology), P.E. (Kentucky)

Jordan, Jeremy  
School of Nursing  
Instructor of Nursing, 2017, B.S.N., M.S.N. (UAB)

Judd, Suzanne E.  
School of Public Health  
Department of Biostatistics, Assistant Dean for Undergraduate Education, Associate Professor, 2008, Ph.D. (Emory), Vitamin D, Longitudinal Cohort Studies, Data Management, Stroke, Dietary Patterns and Population Nutrition

Jun, Ho-Wook  
School of Engineering  
Department of Biomedical Engineering, Associate Professor of Biomedical Engineering, 2006, BS, MS (Hanyang University, South Korea), Ph.D. (Rice), Biomimetic nanotechnology, Biomaterials, Tissue engineering

Kain, Margaret M.  
Mervyn H. Sterne Library  
Mervyn H. Sterne Library, Senior Assistant Librarian; Electronic Resources Librarian; Cataloging Collection Management, Mervyn H Sterne Library, 2006, B.S. (Auburn-Montgomery), M.L.S. (Alabama)

Kana, Rajesh K.  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology; Co-Director, Undergraduate Neuroscience Program, 2007, B.S. (Calicut), M.A. (Annamalai), Ph.D. (Indian Institute of Technology)

Kannappan, Ramaswamy  
School of Engineering  
Department of Biomedical Engineering, Assistant Professor of Biomedical Engineering, 2015, BPharm, MPharm (Tamilnadu DR. M.G.R. Medical University - India), Ph.D. (Niigata University - Japan), Aging cardiomyopathy, Cardiac stem cells

Karpeshina, Yulia  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics, 1995, M.S., Ph.D. (Saint Petersburg, Russia), Partial Differential Equations and Mathematics Physics

Kasman, Yakov  
College of Arts and Sciences  
Department of Music, Distinguished Professor in Music; Artist in Residence, 2002, B.M. (Music College of Moscow Conservatory), M.M., D.M.A. (Moscow State Conservatory)

Kavouras, Ilias  
School of Public Health  
Department of Environmental Health Sciences, Associate Professor, 2015, Ph.D. (Crete, Greece), Air Pollution, Wildfires, Climate Change, Organic Aerosol, Asthma, Heart Disease

Kawai, Ryoichi  
College of Arts and Sciences  
Department of Physics, Associate Professor of Physics, 1991, B.S., M.S., Ph.D. (Waseda, Japan), Condensed-matter theory; biophysics theory; materials physics theory; computational physics; open quantum systems

Keith, Verna M  
College of Arts and Sciences  
Department of Sociology, Professor and Chair of Sociology, 2012, B.A. (Kansas), M.A., P.h.D. (Kentucky)

Keitt, Andrew W.  
College of Arts and Sciences  
Department of History, Associate Professor of History, 1999, B.A. (Duke), M.A., Ph.D. (UC-Berkeley)

Keltner, Joan  
School of Nursing  
Professor of Nursing, 1980, A.S. (Columbia State Community College), B.S.N. (UNA), M.S.N., D.N.P. (UAB)

Kemp, Dustin W.  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2016, B.S. (Texas AM); M.S. (Florida Atlantic); Ph.D. (Georgia), Marine Ecology and Physiology, Global Climate Change

Kempf, Mirjam  
School of Nursing  
Professor of Nursing, 2010, M.P.H., (UAB), Ph.D. (Institute for Medical Microbiology and Hygiene, Julius-Maximilians-Universitat)

Kennedy, Bridgett H.  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology

Department of Foreign Languages and Literatures, Instructor of Chinese, 2013, B.A. (Jinan University, China), B.S. (UAB), Chinese Language Training Program (Troy; Sun Yat-sen University, China)

Mack, June  College of Arts and Sciences
Department of Communication Studies, Associate Professor of Theatre, 2001, B.A. (Hollins), M.F.A. (Florida State), M.Ed. (Harvard)

Madden-Lunsford, Kerry  College of Arts and Sciences
Department of English, Associate Professor of English; Director of Creative Writing, 2009, B.A., M.F.A. (Tennessee)

Maddox, John  College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of Foreign Languages, 2014, B.A., B.S.Ed., M.A. (Georgia), Ph.D. (Vanderbilt)

Mahapatra, Majoj K.  School of Engineering
Department of Materials Science and Engineering, Assistant Professor of Materials Science Engineering, 2015, B.Tech (University of Calcutta - India), M.Tech (IT-BHU - India), Ph.D. (Virginia Tech), Ceramics and glasses for advanced energy systems, Structural ceramics, Solid waste immobilization, Chemistry-processing-structure-property relationship, Electrochemistry, Materials degradation

Major, Melba  College of Arts and Sciences
Department of English, Assistant Professor of English, 2014, B.A. (Union), M.A., (UAB), M.F.A. (Antioch)

March, Joe L.  College of Arts and Sciences
Department of Chemistry, Professor of Chemistry; Associate Director, Science and Technology Honors Program, 1999, B.S., M.S. (Southwestern Texas), Ph.D. (Texas)

Marion, Ken R.  College of Arts and Sciences
Department of Biology, Professor Emeritus of Biology, 1971, B.A., Ph.D. (Washington University, St. Louis), Animal Natural History and Aquatic Environmental Biology

Marstrander, Jon  School of Engineering
Department of Electrical and Computer Engineering, Instructor of Electrical and Computer Engineering, 2005, B.S.E.E., M.S.E.E. (UAB), P.E. (Alabama), Signal and Image Processing, Embedded Systems, and Field Programmable Gate Arrays

Martin, Heather  Mervyn H. Sterne Library

Martin, James C.  College of Arts and Sciences
Department of Physics, Associate Professor Emeritus of Physics, 1980, B.S. (Florida State), Ph.D. (Georgia Tech), Physics and Science Education

Martyshkin, Dmitri V.  College of Arts and Sciences
Department of Physics, Research Assistant Professor, 2010, B.S. (Novosibirsk State University, Russia), M.S., Ph.D. (UAB), Development of spectroscopic characterization of doped laser materials; solid-state lasers; laser spectroscopy for molecular-sensing applications

May, Josh  College of Arts and Sciences
Department of Philosophy, Assistant Professor of Philosophy, 2013, Ph.D. (University of California System: Santa Barbara)

Mayer, John C. College of Arts and Sciences
Department of Mathematics, Professor of Mathematics; Associate Chair, Department of Mathematics, 1984, B.A. (Randolph-Macon), M.A., Ph.D. (Florida), Topology, Continuum Theory, Dynamical Systems, Mathematics Education

Mayoral-Hernández, Roberto College of Arts and Sciences
Department of Foreign Languages and Literatures, Associate Professor of Spanish, 2008, Licenciatura (Universidad Complutense de Madrid), Diploma de Estudios Avanzados (Universidad Autónoma de Madrid), Ph.D. (Southern California)

McCarthy, Shannon N. School of Education
Department of Human Studies, Assistant Professor of Counselor Education, 2014, B.A. (Pennsylvania State), M.A. (Central Florida), Ph.D. (Florida)

McClintock, James B. College of Arts and Sciences
Department of Biology, Endowed University Professor of Polar and Marine Biology, 1987, B.S. (California), M.S., Ph.D. (South Florida), Marine Invertebrate Chemical Ecology, Climate Change Biology

McComiskey, Bruce College of Arts and Sciences
Department of English, Professor of English, 1998, B.A., M.A. (Illinois State), Ph.D. (Purdue), Rhetorical and Composition

McGill, Lisa College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Washington); A.M. (Illinois at Urbana-Champaign)

McDaniel, David R. School of Engineering
Department of Mechanical Engineering, Research Associate Professor of Mechanical Engineering, 2008, B.S. (US Air Force Academy), M.S. (George Washington University), Ph.D. (Colorado, Colorado Springs), High Performance Computing; Computational Fluid Dynamics; Multidisciplinary Air Vehicle Simulation

McFarland, Carl E. Jr. College of Arts and Sciences
Department of Psychology, Professor Emeritus (Psychology), Behavioral Neuroscience, 1975, B.A., M.S., Ph.D. (Kansas)

McGrath, Shelly A. College of Arts and Sciences

Department of Criminal Justice, Associate Professor, 2008, B.S. (St. Mary’s), M.S. (Ball State), Ph.D. (Southern Illinois), Quantitative Methods, Crime Mapping, Violence

McGuinness, Teena School of Nursing
Professor of Nursing; Chair Department of Family, Community, and Health Systems, 2007, B.S.N. (Old Dominion), M.S. (Virginia Commonwealth), Ph.D. (Pittsburgh)

McKnight, Andrew School of Education
Department of Human Studies, Associate Professor of Foundations of Education, 2003, B.A. (Virginia Commonwealth), M.A.Ed. (William Mary), Ph.D. (North Carolina at Greensboro), Social/Cultural Theory, Diversity and Equity, Ethics, Current Educational Policy, and the Emotional Contexts of Schooling

McLain, Rhonda School of Nursing
Assistant Professor of Nursing; Assistant Dean for Evaluation, 2005, B.S.N. (College of Mt. St. Joseph), M.N. (Emory), D.S.N. (UAB)

McLernon, Dennis J. College of Arts and Sciences
Department of Theatre, Professor of Theatre, Head of Performance, 2000, B.A. (Allentown), M.Ed. (Auburn-Montgomery), M.F.A. (Alabama-Alabama Shakespeare Festival)

McPherson, Heather A. College of Arts and Sciences
Department of Art History, Professor of Art History, 1982, B.A. (Oregon), M.A. (Sorbonne), Ph.D. (Washington), Modern European Art (18th -20th Century), focusing on portraiture

Meadows, Lee School of Education
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 1993, B.A. (Mississippi), M.A. (Texas), Ph.D. (Georgia)

Meakin, Robert School of Engineering
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2007, B.S. (Brigham Young), M.S., Ph.D. (Stanford), Software Engineering for Multi-Disciplinary, Physics-Based Simulation Capability Development; Computational Geometry; Aerodynamics of Multiple-Bodies in Proximate Flight

Mehta, Tapan School of Health Professions
Department of Physical Therapy, Assistant Professor, 2013, PhD (UAB)

Menear, Kristi S. School of Education
Department of Human Studies, Professor of Kinesiology, 2001, B.A. (Louisiana), M.A., Ph.D. (New Orleans), Adapted physical education/activity, wellness for individuals with disabilities

Meneses, Karen School of Nursing
Professor of Nursing; Associate Dean of Research, 2007, B.S. (Georgetown), M.S., Ph.D. (Boston College)

Merritt, Stephen College of Arts and Sciences

Department of Anthropology, Assistant Professor of Anthropology, 2013, B.S., M.A., Ph.D. (Rutgers)

Mersmann, James  
College of Arts and Sciences

Department of English, Associate Professor of English. Emeritus, 1973, B.A. (Missouri-Kansas City), M.A., Ph.D. (Kansas)

Messina, Frank M.  
School of Business

Department of Accounting and Finance, Professor of Accounting, 1993, B.S. (Livingston), M.Acc., Ph.D. (Mississippi State), C.P.A.

Metcalf, Sevante K.  
School of Business

Department of Accounting and Finance, Instructor, 2012, B.A., M.B.A. (UAB)

Michael III, Max  
School of Public Health

Midyette, Paula  
School of Nursing

Instructor of Nursing, 2017, B.S.N., M.S.N. (UAB)

Millard, Andre J.  
College of Arts and Sciences

Department of History, Professor of History, 1989, B.A. (Nottingham-England), M.A. (Mississippi), Ph.D. (Emory)

Miller, Brianna  
School of Health Professions

Department of Clinical and Diagnostic Sciences, Assistant Professor, 2004, M.S. (UAB), Transfusion Medicine

Miller, Kenneth  
School of Business

Department of Marketing, Industrial Distribution, Economics, Instructor of Marketing and Industrial Distribution; Executive Director, MBA Programs, 2008, B.S. (Auburn), M.B.A. (Golden Gate), Ed.D. (Vanderbilt)

Miller, Stephen J.  
College of Arts and Sciences

Department of History, Associate Professor of History, 2001, B.A. (Wisconsin-Madison), M.A., Ph.D., (UCLA)

Milligan, Gary  
School of Nursing

Assistant Professor of Nursing; Mobility Program Coordinator, 2008, B.S.N. (Birmingham-Southern), M.S.N. (Jacksonville State), M.S.H.A., D.N.P. (UAB)

Mittner, Rebecca S.  
School of Nursing

Associate Professor of Nursing, 2010, B.S.N. (Georgia), M.S.N. (Wisconsin), Ph.D. (Maryland)

Minnix, Christopher  
College of Arts and Sciences

Department of English, Assistant Professor of English; Director, Freshman Composition, 2012, B.S. (Grace College), M.A. (Radford), Ph.D. (Tennessee), Rhetorical Theory, Transnational Rhetoric, Compositions Studies, Writing Program Administration

Mirman, Daniel  
College of Arts and Sciences

Department of Psychology, Associate Professor of Psychology, 2016, B.A. (Cornell); Ph.D. (Carnegie Mellon)

Mirman, Jessica H.  
College of Arts and Sciences

Department of Psychology, Associate Professor of Psychology, 2016, B.A. (Delaware); M.A., Ph.D. (Fordham)

Mirov, Sergey B.  
College of Arts and Sciences

Department of Physics, University Professor, 1993, Master (Moscow Power Engineering Institute), Ph.D. (USSR Academy of Sciences), Experimental quantum electronics, solid-state lasers, laser spectroscopy

Mitchell, Dana  
School of Nursing

Instructor of Nursing, 2009, B.S.N. (Alabama); M.S.N., D.N.P. (UAB)

Moak, Stacy C.  
College of Arts and Sciences

Department of Social Work, Professor, 2016, B.S. (Southern Mississippi), J.D. (Loyola), Ph.D. (New Orleans)

Mohr, Robert D.  
College of Arts and Sciences

Department of Physics, Instructor of Physics, 2003, B.S. (North Georgia), M.S. (Clemson), Ph.D. (Alabama), Computational applications to theoretical astrophysical problems

Moneyham, Linda  
School of Nursing

Professor of Nursing; Senior Associate Dean for Academic Affairs, 2007, B.S.N. (Berea College), M.S.N. (Kentucky), D.S.N. (Indiana)

Monroe, Charles A.  
School of Engineering

Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2012, B.S. (Penn State), M.S., Ph.D. (Iowa), Metals Casting, Design for Manufacture, Process Modeling

Monti, Denise  
College of Arts and Sciences

Department of Biology, Assistant Professor of Biology, 2013, B.S. (Cornell), M.P.H., Ph.D. (UAB), Phage Biology, STEM Teaching and Learning

Moore, John K.  
College of Arts and Sciences

Department of Foreign Languages and Literatures, Associate Professor of Spanish, 2003, B.A. (University of the South), M.A.T. (Middle Tennessee State), Ph.D. (North Carolina-Chapel Hill)

Moradi, Lee  
School of Engineering

Department of Mechanical Engineering, Professor of Mechanical Engineering; Director of Engineering and Innovative Technology Development, 1996, B.S., M.S., Ph.D. (UAB), Vibrations; Systems Engineering; Finite Elements Method

Morgan, Kathryn  
College of Arts and Sciences

Department of Criminal Justice, Associate Professor; Director of African American Studies, 1991, B.S., M.A. (Texas Woman's), Ph.D. (Florida State), Corrections, Criminological Theory, Minorities, Violence
Morris, Jeffrey J.  
Department of Biology, Assistant Professor of Biology, 2015, B.S. (Kennesaw State); Ph.D. (Tennessee-Knoxville), Experimental Evolution and Phytoplankton Physiology

Morrison, Kelly  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 2015, B.A. (Illinois at Urbana-Champaign); M.A., Ph.D. (Michigan State)

Morrison, Shannon  
School of Nursing  
Associate Professor of Nursing, 2010, B.S.N., M.S.N. (Jacksonville State), Ph.D. (UAB)

Mosley, Michael  
School of Nursing  
Instructor of Nursing, 2015, B.S.N. (Jacksonville State); M.S.N. (UAB)

Moss, Jacqueline  
School of Nursing  
Professor of Nursing; Chair, Associate Dean for Technology and Innovation, 2011, B.S.N., M.S.N (Georgia State) Ph.D. (Maryland)

Mowling, Claire M.  
School of Education  
Department of Human Studies, Assistant Professor of Kinesiology, 2015, B.S., M.S. (Troy State), Ed.D. (Auburn), Physical Education

Mrug, Sylvie  
College of Arts and Sciences  
Department of Psychology, Professor of Psychology, 2005, B.S., M.S., Ph.D. (Purdue)

Muccio, Donald D.  
College of Arts and Sciences  
Department of Chemistry, Professor of Chemistry, 1982, B.S., Ph.D. (Ohio State)

Mukhtar, Karolina  
College of Arts and Sciences  
Department of Biology, Associate Professor of Biology, 2010, M.S. (Szczecin), Ph.d. (Cologne), Plant Molecular Biology

Mukhtar, Shahid  
College of Arts and Sciences  
Department of Biology, Assistant Professor of Biology, 2010, B.Sc., M.Sc. (Faisalabad), Ph.D. (Cologne) , Genetics, Molecular Biology, Functional Genomics, and Bioinformatics, and Network Biology

Mumford, Gregory  
College of Arts and Sciences  
Department of Anthropology, Associate Professor of Anthropology, 2007, B.S., M.A., Ph.D. (Toronto)

Munchus III, George M.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods , Professor of Management, 1976, B.S., M.B.A., Ph.D. (North Texas State), A.P.S.

Murfree, Allen J.  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Instructor; Student Relations Manager, 2014, B.Sc. (Southern Polytechnic State University), MEng (UAB), Engineering Online Education, Construction Project Risk Management

Murphy, Danny L.  
School of Nursing  
Instructor of Nursing, 1988, B.S. (Wayland Baptist); M.E.N.G. (UAB)

Murray, Pamela S.  
College of Arts and Sciences  
Department of History, Professor of History, 1990, B.A. (New Mexico State), M.A., Ph.D. (Tulane)

Murray, Sean P.  
College of Arts and Sciences  
Department of Music, Associate Professor of Music, 2017, B.A., M.A., Ph.D. (Florida State)

Musa, Phillip F.  
School of Business  
Department of Management, Information Systems, and Quantitative Methods , Associate Professor of Management, 2000, B.S., M.S., M.B.A. (Texas Tech)

Nabors, Eddie  
School of Business  
Department of Accounting and Finance, Instructor of Accounting and Internship Coordinator, 2011, B.S. (Alabama), M.Acc. (University of West Florida)

Nakhmani, Arie  
School of Engineering  
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 2011, B.Sc., M.Sc., Ph.D (Technion - Israel Institute of Technology), Computer Vision, Visual Tracking, Biomedical Image Analysis, Systems and Control

Navarette, Liliana  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2008, M.S. (Alabama), Instrumentation, Minority Health Disparities, Physics Education

Navasca, Carmeliza  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 2012, B.A. (California - Berkeley), Ph.D. (California - Davis), Multilinear Algebra, Control Theory, Optimization, Data Mining

Neilson, Michael J.  
College of Arts and Sciences  
Department of Chemistry, Professor Emeritus of Geology, 1975, B.S., Ph.D. (New England, Australia)

Neiva, Eduardo  
College of Arts and Sciences  
Department of Communication Studies, Professor of Communication Studies, 1993, B.A. (Catholic University of Rio de Janeiro), M.A., Ph.D. (Federal University of Rio de Janeiro)

Nelson III, Leonard "Jack"  
School of Public Health
Nelson, Dalton S.  
School of Engineering  
Department of Electrical and Computer Engineering, Assistant Professor of Electrical and Computer Engineering, 1994, B.S.E.E., M.S.E.E., (UAB), Ph.D. (UAH), P.E. (Alabama), Intelligent Control Systems, Medical Instrumentation, Software Systems and Algorithm Development  

Nelson, Sharonica  
School of Education  
Department of Curriculum and Instruction, Visiting Assistant Professor of Secondary Education, 2017, B.S., M.S. (Jacksonville State), Ed.D. (Walden)  

Nichols, Lynn Stover  
School of Nursing  
Associate Professor of Nursing, Interim Assistant Dean for Undergraduate and Pre-Licensure Programs, 2014, B.S.N., M.S.N., Ph.D. (UAB)  

Nichols, Robert H.  
School of Engineering  
Department of Mechanical Engineering, Research Professor of Mechanical Engineering, 2002, B.S. (Mississippi State), M.S., Ph.D. (Tennessee), Propulsion; Computational Fluid Dynamics; Turbulence Modeling  

Nikles, Jacqueline A.  
College of Arts and Sciences  
Department of Chemistry, Associate Professor of Chemistry, 2001, B.S. (Marietta College), Ph.D. (Case Western Reserve)  

Ning, Haibin  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor, 2010, B.E. (Central South University, China); M.S. (Guangxi University, China), Ph.D. (UAB), Polymer Matrix Composite Materials, Metal; Design and Modeling  

Nkashama, Mubenga N.  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics, 1989, B.S., M.S. M.S., Ph.D. (Catholic University of Louvain, Belgium), Partial Differential Equations; Nonlinear Analysis; Continuum Dynamical Systems  

Nordlund, Thomas M.  
College of Arts and Sciences  
Department of Physics, Associate Professor Emeritus of Physics, 1990, B.A. (Oregon), M.S., Ph.D. (Illinois), Physics education; biological imaging and self-assembly  

O'Kelley, Sarah E.  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2012, B.A., M.A., Ph.D. (Alabama)  

Olive, J. Fred  
Mervyn H. Sterne Library  

Oliveira, Anna  
School of Health Professions  
Department of Clinical and Diagnostic Sciences, Assistant Professor, 2011, DrPH (UAB), Infectious Diseases, Global Health, Food Safety  

Oliver, Nathan  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Instructor of Management, 2003, B.S. (UAB), M.B.A. (Alabama AM)  

Orihuela, Carlos L.  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Professor of Spanish, 1994, B.A. - Licenciatura in Literature (Universidad Nacional Mayor De San Marcos, Lima), M.A., Ph.D. (Pittsburgh)  

Oversteegen, Lex G.  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics, 1980, Kandidaat Doctorandus (Amsterdam), Ph.D. (Wayne State), Topology, Continuum Theory, Dynamical Systems  

O'Leary, Malinda Blair  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Assistant Professor of Spanish, 2005, B.A., M.Ed. (UAB), Ph.D. (Alabama)  

O'Neil, Peter V.  
College of Arts and Sciences  
Department of Mathematics, Professor Emeritus of Mathematics, 1978, B.S. (Fordham), M.S., Ph.D. (Rensselaer Polytechnic Institute), Graph Theory, Combinatorics  

Padilla, Luz  
School of Public Health  
Department of Epidemiology, Assistant Professor, 2016, M.S.P.H.; M.D. (Guadalajara), International health disparities and Global Studies  

Page, Amy  
College of Arts and Sciences  
Department of Theatre, Assistant Professor of Theatre, 2014, B.A. (Winthrop), M.F.A. (North Carolina)  

Panion III, Henry  
College of Arts and Sciences  
Department of Music, University Professor of Music, 1987, B.S. (Alabama AM), M.A., Ph.D. (Ohio State)  

Parcak, Sarah H.  
College of Arts and Sciences  
Department of Anthropology, Associate Professor of Anthropology, 2006, B.A. (Yale), M.A., Ph.D. (Cambridge)  

Parris, Kailrin  
School of Nursing  
Instructor of Nursing, 2014, B.S.N. (William Carey); M.S.N. (Phoenix); D.N.P. (Case Western)  

Patel, Bela  
School of Nursing  
Instructor of Nursing, 2016, B.S., M.S.N. (UAB)
Patrician, Patricia
School of Nursing
Professor of Nursing; Rachel Z. Booth Endowed Chair in Nursing, 2008, B.S.N. (Wilkes), M.S.N. (Texas), M.S. (U.S. Army War College), Ph.D. (Pennsylvania)

Patterson, Heather
School of Nursing
Instructor of Nursing, 2012, B.S.N. (UAB), PharmD (Auburn)

Patterson, James C.
College of Arts and Sciences
Department of Chemistry, Assistant Professor of Chemistry, 2007, B.A. (Carleton), Ph.D. (California – Santa Barbara)

Paustian, Pamela E.
School of Health Professions
Department of Health Services Administration, Assistant Professor and Program Director, Health Care Management Program, 2001, PhD (UAB), Leadership Resilience, Managerial, and Operational Practices in Healthcare, Technology Driven Approaches to Education

Pellathy, Elisabeth
College of Arts and Sciences

Pelt, Elizabeth
School of Nursing
Instructor of Nursing, 2017, B.S.N. (McKendree University), M.S.N. (University of Cincinnati)

Pence, Gregory E.
College of Arts and Sciences
Department of Philosophy, Chair Professor of Philosophy, 1976, B.A. (William and Mary), M.A., Ph.D. (New York)

Perakis, Ilias
College of Arts and Sciences
Department of Physics, Professor and Chair, 2015, BS (National Technical University of Athens); MS, PhD (Illinois, Urbana-Champaign), Theoretical computational condensed matter physics; simulation of time-dependent nonlinear phenomena away from equilibrium; optical properties of quantum electronic materials; theory of laser-driven quantum phase transitions and metastable quantum phases; quantum kinetic simulations of ultrafast spectroscopy experiments; harnessing quantum coherence with laser pulses

Phillips, Jennan
School of Nursing
Associate Professor of Nursing, 2008, B.S.N. (Samford), M.S.N., D.S.N. (UAB)

Phillips, Scott L.
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2008, B.A. (Brigham Young), M.A. (Central Florida), Ph.D. (Iowa)

Pilkerton, Patty A.
Mervyn H. Sterne Library

Pillay, Selvum
School of Engineering
Department of Materials Science and Engineering, Associate Professor and Chair of Materials Science and Engineering, 2007, Bach (M L Suttan Technikon), M.S.M.E. (Florida AM), Ph.D. (UAB), Polymer Matrix Composites, Manufacturing and Processing, Design for Manufacture; R D to Commercialization

Pimentel, Michael
School of Business
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Marketing, 2018, B.S., M.B.A., P.h.D. (UA)

Pirkelbauer, Peter
College of Arts and Sciences
Department of Computer Science, Assistant Professor of Computer Science, 2012, Dipl.-Ing. (Linz, Austria), MBA, Ph.D. (Texas AM University), Compilers, Runtime Systems, High Performance Computing, Non-Blocking Software Design

Plaisance, Eric
School of Education
Department of Human Studies, Assistant Professor of Kinesiology, 2013, B.S. (Nicholls State), M.S. (United States Sports Academy), Ph.D. (Auburn), Exercise Physiology, Exercise and nutritional based strategies to improve blood glucose and lipid metabolism

Polack, Lisa-Ann
School of Business
Department of Accounting and Finance, Assistant Professor of Accounting, 2017, BA, MS (Florida Atlantic Univeristy), PhD (Texas AM)
Pollard, Andrew  School of Engineering  Department of Biomedical Engineering, Professor of Biomedical Engineering, 1996, B.S.E., M.S.E., Ph.D. (Duke), Cardiac electrophysiology, Computer simulations and Modeling of electrical signals of the heart

Pollio, David  College of Arts and Sciences  Department of Social Work, Distinguished Professor and Chair, 2014, B.A., M.S.W. (Virginia), Ph.D. (Michigan)

Pollio, Elizabeth Whitney  School of Nursing  Instructor of Nursing, 2017, B.S.N. (UAB), M.S.N. (UA)

Polson, Shannon  School of Nursing  Instructor of Nursing, 2010, B.A. (West Georgia); M.S.N. (UAB)

Ponder, Jennifer  School of Education  Department of Curriculum and Instruction, Associate Professor of Elementary Education, 2015, B.S., M.A. (UAB), Ph.D. (Indiana)

Powers, Summer  School of Nursing  Assistant Professor of Nursing; Co-Coordinator of AMNP Program, 2009, B.S.N. (Southern Mississippi), M.S.N., D.N.P. (UAB)

Powers, Thomas L.  School of Business  Department of Marketing, Industrial Distribution, Economics, Professor of Marketing and Industrial Distribution, 1985, B.S., M.B.A. (Eastern Michigan), Ph.D. (Michigan State)

Prado, Josephine  School of Education  Department of Curriculum and Instruction, Assistant Professor of English as a Second Language, 2013, B.A. (Agnes Scott College); M.A., Ph.D. (Alabama)

Prather-Kinsey, Jenice  School of Business  Department of Accounting and Finance, Professor of Accounting; Chair, Department of Accounting and Finance, 2001, B.S. (Lindenwood), M.S. (Illinois), PhD. (Alabama), C.P.A.

Preskitt, Julie  School of Public Health  Department of Health Care Organization and Policy, Associate Professor, 2010, M.S.O.T., M.P.H. (UAB), Ph.D. (Auburn), Children with special health care needs, maternal and child health policy, disability policy, and underinsurance/adequacy of insurance

Price, William  College of Arts and Sciences
Department of Political Science and Public Administration, Associate Professor, Director, Institute for Human Rights, 2016, M.A., Ph.D. (Zurich)

Reynolds, Jeff W.  
College of Arts and Sciences
Department of Music, Associate Professor of Music, 1998, B.M. (Samford), M.M. (Southwestern Baptist Theological Seminary), D.M.A. (Illinois)

Reynolds, Robert C.  
College of Arts and Sciences
Department of Chemistry, Research Professor of Chemistry, 2012, B.S. (University of Virginia), Ph.D. (Duke)

Reynolds, Jeff W.  
College of Arts and Sciences
Professor of Nursing, 1997, B.S.N. (Creighton), M.S.N. (Medical College of Georgia), Ph.D. (Georgia State)

Richmond, Virginia Peck  
College of Arts and Sciences
Department of Communication Studies, Professor of Communication Studies, 2006, B.A. (West Virginia Institute of Technology), M.A. (West Virginia), Ph.D. (Nebraska)

Riddle, Nicole C.  
College of Arts and Sciences
Department of Biology, Assistant Professor of Biology, 2012, B.S. (Missouri), Ph.D. (Washington University in St. Louis), Epigenetics and Chromatin Structure

Rieger, Sonja O.  
College of Arts and Sciences
Department of Art Art History, Professor of Art, 1979, B.A. (Massachusetts), M.F.A. (Rutgers), Photography, Fine Art Digital Printing, Alternative Process, Perception Space and Installation, WPA Photographers in Alabama, children of the Klan, the Psychology of Adoption

Rinker, Erika H.  
College of Arts and Sciences
Department of Foreign Languages and Literatures, Assistant Professor of German, 2008, B.A. (Wake Forest), M.A., Ph.D. (Washington in Saint Louis)

Rivera, C. Julio  
School of Business
Department of Management, Information Systems, and Quantitative Methods, Associate Professor of Information Systems, 1988, B.S., M.S. (Texas AM), M.B.A. (Southern Mississippi), Ph.D. (Mississippi State)

Roberts, Steve  
College of Arts and Sciences
Department of Music, Associate Professor of Music, 2007, B.M. (Oberlin), M.M., D.M.A. (Illinois)

Robinson, Cheryl  
School of Nursing
Associate Professor of Nursing, 2011, B.S.N. (Alabama), M.S.N. (Colorado), D.N.S. (LSU)

Robinson, Josh  
School of Business
Department of Marketing, Industrial Distribution, Economics, Assistant Professor of Economics, 2012, PhD (Emory)

Roche, Cathy C.  
School of Nursing
Assistant Professor, 2014, B.S. (South Florida), Ph.D. (UAB)

Rodriguez, Christina M.  
College of Arts and Sciences
Department of Psychology, Associate Professor of Psychology, 2013, B.S. (Miami), M.S., Ph.D. (Florida)

Rogers, Jack M.  
School of Engineering
Department of Biomedical Engineering, Professor of Biomedical Engineering, 1994, B.S., M.S., Ph.D. (California-San Diego), Cardiac electrophysiology, Computer simulations, Signal analysis of cardiac arrythmias

Ross, Douglas H.  
School of Engineering
Department of Mechanical Engineering, Assistant Professor of Mechanical Engineering, 2008, B.S. (Illinois), M.S., Ph.D. (UAB), Computer Aided Design; Undergraduate Education; Machine Design

Roussel, Linda  
School of Nursing
Professor of Nursing, DNP Program Coordinator, 2013, B.S.N. (Williams Cary), M.S.N. (Southern Mississippi), Ph.D. (UAB)

Rubio, Laura  
College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of Spanish, 2016, B.A. (Spain), A.B.D. (UA)

Rushton IV, William James  
College of Arts and Sciences
Department of English, Assistant Director, Honors Program; Adjunct Lecturer of English, 1998, B.A. (Vanderbilt), A.B. (Oxford), M.A., Ph.D. (Virginia)

Russell, Jackie  
School of Business
Department of Accounting and Finance, Instructor of Accounting, 2013, B.S. (Birmingham-Southern), M.Acc. (Birmingham-Southern), J.D. (Miles)

Russo-Skinner, Giuliana  
College of Arts and Sciences
Department of Foreign Languages and Literatures, Instructor of Italian, 2015, B.A. (G. D’Annunzio U., Pescara, Italy); M.Ed. (UAB); M.A. (Ca’Foscari U., Venezia, Italy)

Ryan, Cynthia  
College of Arts and Sciences
Department of English, Associate Professor of English; Director, Internships, 1998, B.S., M.A. (Illinois State), Ph.D. (Purdue), Composition, Profesional Writing, Public Discourse, Medical Rhetoric

Saito, Yoshimi  
College of Arts and Sciences
Department of Mathematics, Professor Emeritus of Mathematics, 1983, B.A., M.A., Ph.D. (Kyoto, Japan), Scattering Theory, Differential Equations
Sample, Nevette  School of Nursing
Instructor of Nursing, 2014, B.A. (Duke); M.S.H.A. (UAB)

Sanabria, Daniel  School of Business
Department of Accounting and Finance, Instructor of Finance, 2016, B.S., M.B.A. (UAB)

Santiago, Ana Maria  College of Arts and Sciences

Santoro, Nick J.  School of Engineering
Department of Mechanical Engineering, Research Associate Professor of Mechanical Engineering, 2007, B.S., M.S. (Alabama), Power Generation; Thermal Dynamics; Internal Combustion Engines

Sathiakumar, Nalini  School of Public Health
Department of Epidemiology, Professor, 1988, M.D., Dr.PH., Environmental Epidemiology, Occupational Epidemiology, Chronic Disease Epidemiology

Savage, Arline  School of Business
Department of Accounting and Finance, Department Chair and Professor of Accounting, 2012, Ph.D. (University of Port Elizabeth-South Africa), CA (SA)

Savage, Grant  School of Business
Department of Management, Information Systems, and Quantitative Methods, Professor of Management, 2011, B.A. (Connecticut), M.A., Ph.D. (Ohio State)

Saxena, Nitesh  College of Arts and Sciences
Department of Computer Science, Associate Professor of Computer Science; MS CFSM Program Co-Director, 2011, B.S. (Kharagpur), M.S., Ph.D. (University of California-Irvine)

Schimizzi, Anthony J.  Mervyn H. Sterne Library

Schnomelier, Kimberly A.  College of Arts and Sciences
Department of Theatre, Associate Professor of Theatre, 1991, B.F.A. (Miami), M.F.A. (Northwestern)

Schwebel, David C.  College of Arts and Sciences
Department of Psychology, Professor of Psychology, Associate Dean of Research in the Sciences, 2000, B.A. (Yale), M.A., Ph.D. (Iowa)

Scripa, Rosalia  School of Engineering
Department of Materials Science and Engineering, Professor Emeritus of Materials Science and Engineering; Professor of Biomedical Engineering, 2017, B.S. (Alfred), M.S. (Penn State), Ph.D. (Florida), P.E. (Alabama), Structure and Properties of Glass and Ceramics, Semiconductor Crystal Growth, Electronic and Magnetic Materials, Growth and Characterization of II-VI Semiconducting Compounds

Seger, Laura  College of Arts and Sciences
Department of Philosophy, CCI, 2017, M.A., Ph.D. (Indiana University-Bloomington)

Segner, E. P. Jr.  School of Engineering

Selinger, Nikita  College of Arts and Sciences
Department of Mathematics, Assistant Professor of Mathematics, 2015, Ph.D. (Jacobs University, Bremen), Conformal Dynamics; Teichmüller Theory

Selleck, Cynthia  School of Nursing
Professor and Associate Dean for Clinical Affairs Partnerships, 2010, B.S.N., (Emory), M.S.N. (Vanderbilt), D.S.N. (UAB)

Sen, Bisakha  School of Public Health
Department of Health Care Organization and Policy, Professor, 2002, Ph.D. (Ohio State), Effects of environmental and policy changes on behaviors and health outcomes of vulnerable changes, including substance use, sexual activity, obesity, injury, and health service utilization

Shackleford, Lee  College of Arts and Sciences
Department of Theatre, Assistant Professor of Theatre, 2000, B.A. (UAB), M.F.A. (Southern Illinois)

Shaia, Jacquelyn S.  College of Arts and Sciences
Department of Communication Studies, Assistant Professor of Communication Studies, 2015, B.A., Ph.D. (UAB); J.D. (Cumberland School of Law)

Sharlach, Lisa  College of Arts and Sciences
Department of Political Science and Public Administration, Associate Professor, 2004, B.A. (California), M.A. (California), Ph.D. (California-Davis)

Shealy, David L.  College of Arts and Sciences
Department of Physics, Professor Emeritus of Physics, 1973, B.S., Ph.D. (Georgia), Geometrical optics; laser beam shaping optics; radiative transfer; caustic and optical aberration theory

Sheng, Shibin (Simon)  School of Business
Department of Marketing, Industrial Distribution, Economics, Professor of Marketing, 2011, B.S. (Tsinghua University), Ph.D. Economics (Tsinghua University) Ph.D. Marketing (Virginia Tech)

Shipman, Sallie  School of Nursing
Shores, Melanie L.  
School of Education  
Department of Human Studies , Associate Professor of Educational Psychology and Research, 2005, B.S., M.A.M., M.A., Ph.D. (Auburn), Gender studies, Math/Science education, and Assessment and measurement

Shterenberg, Roman G.  
College of Arts and Sciences  
Department of Mathematics, Associate Professor of Mathematics, 2007, M.S., Ph.D (St. Petersburg State University – Russia), Mathematical Physics, Spectral Theory, Inverse Problems, Partial Differential Equations, Non-linear Partial Differential Equations

Sicking, Dean L.  
School of Engineering  
Department of Mechanical Engineering, Professor of Mechanical Engineering, 2012, B.S., M.S., Ph.D. (Texas AM), Crashworthiness Design; Sports Safety Equipment; Computational Mechanics

Siegel, Daniel  
College of Arts and Sciences  
Department of English, Associate Professor of English; Director, Undergraduate Studies, 2002, B.A. (Chicago), M.A., Ph.D. (Virginia), Nineteenth-Century British Literature and Culture, The Novel, Cinema

Simien, Clayton  
College of Arts and Sciences  
Department of Physics, Assistant Professor of Physics, 2013, B.S. (Prairie View AM), Ph.D. (Rice), Strongly correlated ultracold neutral plasmas; next generation frequency standards; precision measurements and variations in fundamental constants; quantum dipolar gases and rare-earth elements; laser cooling; nanotechnology; atomic sensors

Simien, Daneesh  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2014, B.S., M.S., Ph.D. (Rice University), Self Corrective and Response, "Smart" Nano Scale Composite Materials, Structure-Property Relationships of Polymer Composites Inclusive of Rheological and Electrical Properties, Nano Scale Sensors and Flexible Robust Electronics

Simon, Cliff  
College of Arts and Sciences  
Department of Theatre, Professor of Theatre, 2002, B.A. (Queens), M.F.A. (Texas-Austin)

Simpson, Laura  
Mervyn H. Sterne Library  

Sims, Michele  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Reading and Secondary Education, 1999, B.A., M.S. (CUNY), Ed.D. (Pennsylvania)

Sims, Omar T.  
College of Arts and Sciences  
Department of Social Work, Assistant Professor, 2015, A.B., M.S.W., Ph.D. (Georgia)

Sims, Sandra  
School of Education  
Department of Human Studies , Associate Professor of Kinesiology, 2005, B.S. (Montevallo), M.A. (UAB), Ed.S. (UAB), Ph.D. (Southern Mississippi), Physical Education/ Youth fitness, school health fitness / Advocacy initiatives and legislation for healthy youth

Simányi, Nándor  
College of Arts and Sciences  
Department of Mathematics, Professor of Mathematics, 1999, M.S., Ph.D. (Rolánd Eötvös - Hungary), Dr.M.S. (Hungarian Academy of Sciences), Dynamical Systems, Ergodic Theory, Topology

Sistiopiku, Virginia P.  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering, Associate Professor of Civil, Construction and Environmental Engineering, 2002, B.S. (Aristotelian University of Thessaloniki), M.S., Ph.D. (Iinois-Chicago), Transportation Engineering, Traffic Engineering

Slaughter, Lauren  
College of Arts and Sciences  
Department of English, Assistant Professor of English, 2007, B.A. (Kenyon), M.F.A. (Alabama), M.A. (Montana)

Sloane, Michael E.  
College of Arts and Sciences  
Department of Psychology, Associate Professor of Psychology, Director, University Honors Program, 1982, B.A., M.A. (University College, Dublin), Ph.D. (Northwestern)

Smith, Angel  
School of Business  
Department of Accounting and Finance, Instructor of Accounting, 2008, B.S., MAc. (UAB)

Smith, Glenda  
School of Nursing  
Assistant Professor of Nursing, 2006, B.S.N., (North Carolina Central), M.S.N. (Vanderbilt), D.S.N. (Texas-Houston Health Science Center)

Smith, Tedra  
School of Nursing  
Assistant Professor of Nursing, 2012, B.S.N. (Auburn), M.S.N., D.N.P. (UAB)

Smith, Tommy G.  
School of Education  
Department of Curriculum and Instruction, Associate Professor of Secondary Education, 1989, B.S., M.S., Ed.D. (Auburn)

Snyder, Scott W.  
School of Education  
Department of Human Studies , Associate Professor of Research and Early Childhood Special Education, 1988, B.A. (SUNY-Potsdam), M.S., Ph.D. (Purdue), Program evaluation, applications of the Rasch model to scale construction, grading in K-16 education, applications of systems theory and Bronfenbrenner’s theory to education and related programs

Song, Chen  
School of Business  
Department of Accounting and Finance, Instructor of Accounting, 2013, BS (Beijing Information Technology Institute), MA (Virginia Tech)
Song, Yuhua  
School of Engineering  
Department of Biomedical Engineering, Assistant Professor of  
Biomedical Engineering, 2006, B.S. (Jilin University of Technology), M.S.  
(Harbin University of Science and Technology), Ph.D. (Harbin Institute  
of Technology), Computational biomechanics, Computational biology,  
Multiscale modeling

Sorge, Robert  
College of Arts and  
Sciences  
Department of Psychology, Assistant Professor of Psychology, 2012,  
H.B.Sc. (McMaster), M.A. (Wilfrid Laurier), Ph.D. (Concordia)

Souillac, Geneviève  
College of Arts and  
Sciences  
Department of Anthropology, Visiting Associate Professor, 2016, B.A.  
(Sydney), M.A.s (Sydney, EHESS Paris, KU Leuven), Ph.D. (Hong Kong)

Spence, Paul H.  
Mervyn H. Sterne  
Library  
Mervyn H. Sterne Library, Professor Emeritus, Mervyn H. Sterne Library,  
1970, A.B., M.A. (Emory), Ph.D. (Illinois)

Spezzini, Susan K.  
School of Education  
Department of Curriculum and Instruction, Associate Professor of  
English as a Second Language, 2005, B.A., M.A. (California), Ph.D.  
(Alabama)

Stanishevskaya, Irina  
Mervyn H. Sterne  
Library  
Mervyn H. Sterne Library, Senior Assistant Librarian, Cataloging  
Collection Management, Mervyn H. Sterne Library, 2008, B.S.  
(Belarusian University of Culture), M.L.I.S. (Alabama)

Stanishevsky, Andrei  
College of Arts and  
Sciences  
Department of Physics, Associate Professor of Physics, 2002, M.S.  
(Minsk Radioengineer Institute-USSR), Ph.D. (Belarus Academy of  
Sciences –USSR), Focused ion beam micro- and nanofabrication; PVD  
thin films deposition, characterization, and application; nanoparticle  
research

Stanley, Glenda  
School of Nursing  
Instructor of Nursing, 2015, B.H.S. (Kentucky); M.A. (Moorehead State)

Stansell, Laura R.  
College of Arts and  
Sciences  
Department of Mathematics, Instructor of Mathematics, 2007, B.S.  
(Berry), M.S. (Southern Mississippi), M.S. (UAB)

Starr, Shannon  
College of Arts and  
Sciences  
Department of Mathematics, Associate Professor of Mathematics, 2012,  
B.A. (California - Berkeley), Ph.D. (California - Davis), Mathematical  
Physics and Probability

Stavrinos, Despina  
College of Arts and  
Sciences
Department of Sociology, Assistant Professor of Sociology, 2012, B.A., M.A. (Michigan), Ph.D. (Cincinnati)

Sánchez-López, Lourdes  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Associate Professor of Spanish; Director, Spanish for Specific Purposes Certificate Program, 2001, B.A. (Universidad de Granada), M.A. (Southern Mississippi), M.A., Ph.D. (Universidad de Jaén)

Taherian, Hessam  
School of Engineering  
Department of Mechanical Engineering, Assistant Professor of Mechanical Engineering, 2010, B.S. (Isfahan University of Technology, Iran), M.S. (Amirkabir University of Technology, Iran), Ph.D. (Dalhousie, Canada)

Takamiya, Yumi  
College of Arts and Sciences  
Department of Foreign Languages and Literatures, Visiting Assistant Professor of Japanese, 2015, B.A. (Bunkyo University, Japan), M.A. (Wisconsin-Madison), Ph.D. (Purdue)

Tanik, Murat M.  
School of Engineering  
Department of Electrical and Computer Engineering, Professor and Chair of Electrical and Computer Engineering, 1998, B.S. (Middle East Technical), M.C.S., Ph.D. (Texas AM), Software Systems Engineering, Quantum Information Theory, Embedded Systems

Taub, Edward  
College of Arts and Sciences  
Department of Psychology, University Professor of Psychology, 1986, B.A. (Brooklyn), M.A. (Columbia), Ph.D. (New York)

Temple, Cheryl  
College of Arts and Sciences  

Temple, Gale M.  
College of Arts and Sciences  
Department of English, Associate Professor of English; Director, Graduate Studies, 2001, B.S. (Michigan), M.A., Ph.D. (Loyola-Chicago), Early American Literature and Culture

Temples, Taryn  
School of Nursing  
Instructor of Nursing, 2017, B.S.N (Clemson), M.S.N. (Samford)

Terndrup, Thomas E.  
School of Health Professions  
Department of Health Informatics, M.D., Professor (Emergency Medicine)

Thomas, Vinoy  
School of Engineering  
Department of Materials Science and Engineering, Assistant Professor of Materials Science and Engineering, 2007, B.S., M.S. (University of Kerala, India), Ph.D. (Sree Chitra Tirunal Institute for Medical Sciences Technology, India), Polymeric Biomaterials and 3D Composite Scaffolds for Tissue Engineering, Nanomaterials and Nanodiamonds for Biomedical Applications, Green Materials Synthesis and Structure-Property Relationships

Thomeer, Mieke B.  
College of Arts and Sciences  
Department of Sociology, Assistant Professor of Sociology, 2014, B.A. (Virginia), M.A., Ph.D. (Texas)

Thompson, Sam  
School of Business  
Department of Management, Information Systems, and Quantitative Methods, Assistant Professor of Information Systems, 2013, B.A., M.B.A. (Texas A M), M.S., P.h.D. (UA)

Tojad, Natalie  
College of Arts and Sciences  
Department of Criminal Justice, Assistant Professor, 2017, B.A. (California-San Diego), M.S. (Bowling Green State), Ph.D. (Arizona State), Policing, Use of Force, De-escalation, Qualitative Methods

Tofani, Peter  
School of Nursing  
Assistant Dean of Student Affairs; Instructor of Nursing, 2008, B.S. (The United States Military Academy), MS (Pennsylvania State)

Tollefsbol, Trygve  
College of Arts and Sciences  
Department of Biology, Professor of Biology, 1998, B.S. (Houston), M.S., D.O., Ph.D. (North Texas Health Sciences Center), Gene Regulation in Cancer and Aging

Treutel, Rita B.  
College of Arts and Sciences  

Trimm, Jerry "Mickey"  
School of Health Professions  
Department of Health Services Administration, Associate Professor, Health Care Management, 2006, Ph.D. (UAB)

Trost, Zina  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2015, B.A. (Fordham); M.S., Ph.D. (Ohio)

Tucker, Diane C.  
College of Arts and Sciences  
Department of Psychology, Professor of Psychology, Director, Science and Technology Honors Program, 1984, B.S., M.S., Ph.D. (Iowa)

Turan, Bulent  
College of Arts and Sciences  
Department of Psychology, Assistant Professor of Psychology, 2011, B.S. (Bogazici), M.A. (Loyola), Ph.D. (Stanford)
Turel, Noa  
Department of Art History, Assistant Professor of Art History, 2012,  
B.A. (State University of New York), M.A. (University of London), Ph.D.  
(California-Santa Barbara), North Renaissance Art, Late Medieval and  
Early Modern Visual Culture and Science, Performance Art and theory  

Turnbull, Elizabeth  
School of Business  
Department of Marketing, Industrial Distribution, Economics, Instructor of  
Business, 2010, MBA (University of South Alabama)  

Turner-Henson, Anne  
School of Nursing  
Professor of Nursing, 1982, B.S.N. (Medical College of Georgia), M.N.  
(Emory), D.S.N. (UAB)  

Tyson, Lawrence E.  
School of Education  
Department of Human Studies, Associate Professor of Counselor  
Education, 1997, B.A. (Atlantic Christian), M.Ed. (Rollins), Ph.D.  
(Mississippi State), School counseling, factors affecting academic  
performance, adventure based counseling  

Uddin, Nasim  
School of Engineering  
Department of Civil, Construction, and Environmental Engineering,  
Professor of Civil, Construction and Environmental Engineering, 2001,  
B.S. (University of Engineering and Technology, Bangladesh), M.S.  
(Oklahoma-Norman), Ph.D. (SUNY Buffalo), P.E. (New York), Structural  
Engineering, Wind and Seismic Loads, Bridge Design  

Uswatte, Gitendra  
College of Arts and  
Sciences  
Department of Psychology, Professor of Psychology, 2001, B.A.  
(Princeton), M.A., Ph.D., (UAB)  

Vaidya, Uday K.  
School of Engineering  
Department of Materials Science and Engineering, Professor of Materials  
Science and Engineering; Chair of Materials Science and Engineering;  
Director, Materials Processing and Applications Development (MPAD)  
Center, 2001, B.S.M.E. (Karnataka University, India), M.S. (Shivaji  
University, India), Ph.D. (Auburn), Composites Application Development;  
Thermoset and Thermoplastic Polymer Matrix Composites; Design,  
Manufacturing Processing Modeling; Nondestructive Evaluation and  
Dynamic Response; RD to Commercialization  

Van Matre, Joseph G.  
School of Business  
Department of Management, Information Systems, and Quantitative  
Methods, Professor of Quantitative Methods, 1971, B.E.E., M.B.A.  
(Auburn), Ph.D. (Alabama)  

Van Sant, John E.  
College of Arts and  
Sciences  
Department of History, Associate Professor of History and Interim Chair,  
2000, B.A., M.A. (UC-Davis), Ph.D. (Oregon)  

Vance, David  
School of Nursing  
Professor of Nursing; Director of Research Development, 2004, B.S.  
(Virginia Tech), M.S. (New Orleans), M.G.S. (Miami), Ph.D. (UAB)

Yang, Fan College of Arts and Sciences
Department of Communication Studies, Professor, 2017, B.A. (China Youth University for Political Science), M.A. (University of Miami), Ph.D. (University of Miami)
Admission to Undergraduate Programs

UAB welcomes applications from all individuals whose preparation and abilities give them a reasonable chance of success in its programs. All applicants must offer acceptable evidence of ability and intent to meet the academic standards of the university. Admission decisions are based on a number of factors including a previous record of satisfactory academic performance, strength of curriculum, and test scores. Admission to the university is valid for one academic year.

The application for admission, application instructions, and application deadlines can be accessed at http://www.uab.edu/chooseuab.

Applications are processed in the order in which they are complete and ready for a decision.

Prospective students currently attending high school may apply as early as the summer before their senior year. Tentative admission will be granted on the basis of ACT or SAT scores and high school records through the junior year. A final official transcript reflecting work completed in the senior year and confirmation of graduation will be reviewed before a student’s final admission. Admission to the university is valid for one academic year.

The application for admission, application instructions, and application deadlines can be accessed at http://www.uab.edu/chooseuab. Applications are processed in the order in which they are complete and ready for a decision.

Prospective students currently attending another college or university may apply one year prior to the date of the desired term of enrollment. However, tentative admission will be granted with no more than one term pending on the basis of an evaluation of coursework from all colleges and
universities attended. A final official transcript reflecting work completed will be reviewed before a student’s final admission.

Credentials and documentation required for admission vary by application status. To be considered official, all academic documents required for admission must be sent to UAB directly from the high school, colleges/universities attended, and testing agencies. All credentials submitted as part of the application for admission become and remain the property of the university and will not be returned to the student, duplicated, or transferred to another institution.

Any change in a student’s record prior to enrollment will necessitate a new review of the application. Any omissions or misrepresentations on a student’s application for admission will automatically invalidate consideration by and acceptance to UAB. If, after a student is admitted to the university, information comes to light that indicates an applicant did not meet all admission requirements, the applicant’s offer of admission will be rescinded.

Priority Application Deadlines
Prospective students are encouraged to apply well in advance of the date of the desired term of enrollment but no more than one year.

<table>
<thead>
<tr>
<th>Entry Term</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>June 1</td>
</tr>
<tr>
<td>Spring</td>
<td>November 1</td>
</tr>
<tr>
<td>Summer</td>
<td>March 15</td>
</tr>
</tbody>
</table>

The application for admission, application fee, and all supporting official academic documents must be complete and received in the Office of Undergraduate Admissions by 5 p.m. on the respective deadline date. If the deadline falls on a weekend or university holiday, applications will be considered the following business day.

Admission to Specific Schools or Programs
Admission to the university as an undergraduate student may not be the final step required to gain admission to the desired school or academic program. For the undergraduate programs listed below, additional steps or requirements are required:

- College of Arts and Sciences (Immunology, Music, Musical Theatre, Neuroscience)
- School of Education (Teacher Education Program)
- School of Engineering
- School of Health Professions
- School of Nursing

Further information on the additional steps required is given in the section of this catalog devoted to the particular school/college.

Declaration of School and Major
Applicants are asked to indicate an intended major field of study on the application for admission. Applicants who do not have a general field of interest may request admission as Undeclared. International students must declare a major.

Admission Appeal Procedure
Applicants denied admission to the undergraduate program who believe they have extenuating circumstances that might justify a different decision may appeal for further consideration.

Freshmen
1. Applicants must complete and submit a Supplemental Admission Application. Any academic or personal information that would help the committee to make a fair and informed decision should be provided. A Supplemental Admission Application may be obtained from the Office of Undergraduate Admissions.
2. Applicants must submit a letter of recommendation from a guidance counselor or teacher who can speak knowledgeably about the applicant’s academic background and potential.
3. Students who are admitted through this procedure may be admitted to the Blazing Start program or with terms and conditions set forth by the appeals committee.

Non-Traditional Freshmen (Graduated from high school four or more years ago and have not attended college)
1. Applicants must submit a letter addressed to the Admission Appeals Committee which addresses several issues regarding educational goals:
   - What is your educational objective?
   - How would a UAB education help you achieve your personal or career goals?
   - What deterred you from enrolling in college before this time?
   - To what extent are these factors still pertinent today?
   - What challenges to successfully completing your education at UAB do you foresee?
   - What steps have you taken to prepare for academic success at UAB?
   - What support systems do you have in place to ensure success?
2. Students who are admitted through this procedure:
   - Will be admitted to and advised in the Vulcan Materials Academic Success Center.
   - Must adhere to all policies and procedures of academic warning status.
   - Must limit their first-term course load to a maximum of 12 semester hours.

Transfer/Former UAB Students
1. Applicants must submit a letter addressed to the Admission Appeals Committee which addresses several issues regarding educational goals:
   - Reasons the applicant did not do satisfactory academic work when previously enrolled.
   - What the applicant has done since last enrolled in school.
   - What steps the applicant has taken to prepare for academic success at UAB.
   - Goals for personal development, career and education.
   - Why the applicant is now better able to complete goals than when last enrolled in school.
2. Students who are admitted through this procedure:
• Will be admitted to and advised through the Vulcan Materials
  Academic Success Center.
• Must adhere to all policies and procedures of probation status.
• Must limit their first-term course load to a maximum of 12
  semester hours.

Both freshman and transfer/former student appeal documentation should
be submitted to the attention of the Admission Appeals Committee.
Students who wish to appeal are highly encouraged to do so well in
advance of the deadline. The deadline to submit all required appeal
documentation is one week after the application for admission deadline of
the desired term of enrollment.

Advanced Placement (AP), International
Baccalaureate (IB), College Level
Examination Program (CLEP)

UAB awards credit to students who have earned designated scores on
Advanced Placement (AP) Program examinations of the College Board.
AP examinations are usually taken at the end of an AP-designed course
of study in high school. Credit, if awarded, will be recorded without grades
or quality points and will not, therefore, be included in the calculation of
the grade point average.

Credits awarded by other institutions for Advanced Placement (AP),
International Baccalaureate (IB), and the College Level Examination
Program (CLEP) must be reevaluated to determine if credit will be
awarded at UAB. Students wishing to submit such credits should send an
official score report to the Office of Registration and Academic Records.

UAB score requirements for Advanced Placement, International
Baccalaureate, and the College Level Examination Program are available
online (http://www.uab.edu/students/admissions/credit-equivalencies).

Equal Opportunity Policy

UAB administers its educational programs and activities, including
admission, without regard to race, color, religion, sex, sexual orientation,
age, national origin, disability unrelated to job performance or Vietnam-
era or disabled veteran status. The full text of this policy can be found
here.

Office of Undergraduate Admissions

Mailing Address for Documents and Credentials: Box 99 • 1720 2nd
Ave S • Birmingham, AL 35294-4600

Physical Address: 1701 11th Avenue South • Birmingham, Alabama
35294-4412

(205) 934-8221 or (800) 421-8743 • ChooseUAB@uab.edu
(undergradadmit@uab.edu) • www.uab.edu/chooseuab

Freshman Admission

UAB employs a holistic approach when reviewing candidates for
admission to the university. Consideration for admission is based on
three critical performance factors: (1) strength of curriculum, (2) grade
point average (GPA), and (3) ACT and/or SAT test score. All applicants
are considered on an individual basis.

College preparatory curriculum requirements:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4 units</td>
<td>To include composition and literature</td>
</tr>
<tr>
<td>Science</td>
<td>3 units</td>
<td>To include two courses with laboratory components</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3 units</td>
<td>To include algebra I and II, geometry, pre-calculus or other college preparatory or advanced level senior math</td>
</tr>
<tr>
<td>Social Science</td>
<td>3 units</td>
<td>History, psychology, sociology, etc.</td>
</tr>
<tr>
<td>Foreign Language</td>
<td>1 unit</td>
<td>One Language</td>
</tr>
<tr>
<td>Additional Core Courses</td>
<td>3 units</td>
<td></td>
</tr>
</tbody>
</table>

Home-Schooled Students

UAB welcomes applications from students who are schooled at home.
Home schooled high school students are reviewed for admission and for
academic scholarships following the same criteria utilized for students
who attend public and private high schools. The official high school
transcript should contain the titles of courses in each subject area
beginning with grade nine, course grades, overall GPA on a 4.0 scale,
course grading scale, signature and contact information of the school
administrator.

Freshman Enrollment Deposit

All first-time freshmen are required to pay a non-refundable $200
Freshman Enrollment Deposit to secure a place in the entering class. Of
the $200 paid, $150 will satisfy the Goin’ Green New Student Orientation
fee and $50 will be applied to the student’s account balance. Students
may not apply for on-campus housing or make a reservation for Goin’
Green New Student Orientation until the Freshman Enrollment Deposit is
submitted.

Deadline: May 1 to submit the Freshman Enrollment Deposit or request a
deferral of payment.

Deferral Requests: Entering freshmen who have demonstrated financial
need may request a deferral of payment. Deferrals will only be granted for
students who have submitted a Free Application for Federal Student Aid
(FAFSA) to UAB.

Exemptions: First-time freshmen who (1) enroll in the spring semester
and/or (2) graduated from high school three years ago or more.

Joint Admission Program

Freshman applicants seeking admission to UAB who do not meet
admission requirements may be offered Joint Admission at one of UAB’s
community college partners. This Joint Admission Program offer is based
upon a holistic review of each applicant’s academic record. The Joint
Admission Program is for Alabama residents only.

Students who accept the offer of Joint Admission must meet the following
requirements to participate in the program:

Maintain continuous full-time enrollment at the community college (fall/
spring).
Earn an Associates Degree from the community college prior to transitioning to UAB through the Joint Admission Program.

Maintain a 2.0 GPA in all transferable college coursework.

Participate in Goin' Green New Student Orientation and confer with a UAB academic advisor prior to registering for their first term at UAB.

Joint Admission students will have the ability to utilize a variety of programs, resources and facilities at UAB while actively enrolled in the program, and transition directly to UAB once completing their Associates Degree.

Transfer Admission (http://uab.edu/transferapply)

Applicants with a minimum of 24 transferable college semester hours (not including dual enrollment coursework earned while attending high school) must:

1. Have a minimum grade point average of 2.0 in all such work.
2. Be considered in good standing at all previously attended colleges or universities.

Applicants who have earned college credits, but fewer than 24 semester hours, must have a 2.0 grade point average in all transferable college work attempted and also satisfy freshman admission requirements (See "Freshman Admission"). (p. 40)

Applicants who are permanent residents but attended a college or university outside of the United States must meet the same admission requirements as international students (See "International Admission (p. 41)").

Eligibility of College Credits for Transfer

The eligibility of credit for transfer to UAB depends on the subject matter of the credit and on the accreditation status of the institution that awarded the credit.

Technical/vocational credits or remedial credits, whether earned at UAB or at any other institution of higher education, are not eligible for transfer and may not, therefore, be used to satisfy degree requirements. The exception to this rule is when the transfer of certain courses applicable to specific professional degree programs is approved in advance by the appropriate department. The accepted courses will be posted only while the student is in the degree program approving the credit. If the student changes programs, the courses will be removed. Credits earned while on academic suspension from UAB or another institution may be eligible for transfer. However, the UAB forgiveness policy can only be applied to grades earned at UAB.

Transfer credit in academic subjects will be considered for transfer to UAB from post-secondary institutions that are fully accredited by one of the six regional accrediting associations (see below) that offer the baccalaureate degree or associate's degree leading to the baccalaureate degree. If an institution is not yet accredited, but has acquired candidate status from a regional accrediting agency, then academic credits from the institution will be considered for transfer to UAB.

- Middle States Association of Colleges and Schools
- Higher Learning Commission (North Central Association of Colleges and Schools)
- New England Association of Schools and Colleges
- Northwest Association of Schools and Colleges
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

Academic credit earned at Alabama Community Colleges during the initial organization of the Alabama College System (1965-1967) will be acceptable for transfer to UAB.

College courses completed at unaccredited non-candidate institutions are not usually considered for transfer to UAB. However, applicants with credits in this category may contact the Office of the Registrar for information on the "Credit by Portfolio (https://www.uab.edu/students/admissions/credit-equivalencies/portfolio)" option. The official determination of acceptability of courses from other institutions is the responsibility of the Office of the Provost.

Students with credits from institutions outside the United States should review transfer of international credits.

Credits awarded by other institutions for Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP (http://catalog.uab.edu/undergraduate/progresstowarddegree/clep)) and Advanced International Certificate of Education (AICE) must be reevaluated to determine if credit will be awarded at UAB. Students wishing to submit such credits should send an official score report to the Office of the Registrar.

Limitations of Transferred Credit

One half of the credit hours required for a degree may be transferred from a two-year college provided the courses are numbered as freshman- (100) and sophomore-level (200) courses.

Acceptance of Transfer Credits toward a Degree

College-level coursework transferred from a regionally accredited institution will be shown on the UAB transcript; however, applicability of the course toward a degree is determined by the student’s major department.

Admission as an International Student

International students are defined as any applicant who is not a U.S. Citizen or Permanent Resident. International students should apply at least six months in advance of desired attendance date in order to facilitate timely admission and enrollment.

Freshman Admission

Minimum admission requirements for applicants who have completed secondary school abroad under a grading system different from the U.S. system:

1. Minimum overall GPA of 2.75.
2. Minimum TOEFL score of 77 on the Internet-based version or minimum IELTS score of 6.0 overall with a minimum of 5.5 on each section of the exam, if English is not the applicant’s native language.
3. Minimum ACT composite score of 20 or SAT score (EBRW + M) of 1020 if English is the applicant’s native language. Prospective students on select government scholarship programs and entities sending students that have UAB institutional agreements may qualify for an exemption from this requirement.
A TOEFL or IELTS score is not required if the applicant has attended a U.S. high school for at least two years.

Transfer Admission
Minimum admission requirements for applicants who have attended a college or university outside the United States:

1. Minimum overall GPA of 2.0.
2. Minimum TOEFL score of 77 on the Internet-based version or minimum IELTS score of 6.0 overall with a minimum of 5.5 on each section of the exam, if English is not the applicant’s native language.

NOTE: Applicants who have earned fewer than 24 semester hours at a postsecondary institution will also need to meet the minimum admission requirements for freshmen.

Student Visa
To obtain documents for an F-1 or J-1 student visa, applicants must provide a letter verifying support from the student’s financial sponsor, an original or certified copy of a bank statement confirming a balance sufficient to cover the first year’s tuition, fees, and living expenses, and a clearance form if transferring from another school within the United States.

To meet the requirements of the F-1 visa, international students must be full-time students. Full-time students are defined as those earning a minimum of 12 semester hours of credit for two consecutive semesters.

All others must provide a copy of their visa or I-797 approval notices about their status to International Student and Scholar Services.

Health Insurance
All international students are required to register with the UAB Student Health Service and to carry a health and accident insurance policy approved by the UAB Student Health Service.

Readmission of Former UAB Students
Former students who have not been enrolled in undergraduate courses at UAB for one academic year or more must apply for readmission. Former students are subject to the same conditions as newly-admitted students.

Former UAB students who are returning to continue their programs of study should consult with their academic advisor or department chair to determine whether curriculum or degree requirements have changed since their last enrollment.

Post-Baccalaureate Admission
Degree Seeking
Persons with a baccalaureate degree who wish to seek a second baccalaureate degree must apply by the published deadline and have a minimum grade point average of 2.0 in all undergraduate coursework attempted.

Non-Degree Seeking
Persons with a baccalaureate degree who wish to:

1. Meet prerequisites for advanced programs or
2. Satisfy requirements for professional certification

Must apply by the published deadline and submit an official transcript from the college or university from which the baccalaureate degree was earned.

Admission as a Non-Degree Student
Students who wish to enroll in undergraduate courses with no intent of pursuing a degree should apply by the published deadline to be considered as a non-degree seeking student (Temporary, Transient, and Non-Degree Post-Baccalaureate). The following restrictions apply to non-degree students:

1. Ineligible for financial aid or priority registration.
2. If a course is over-enrolled, non-degree students may be dropped in favor of degree-seeking students.
3. May not participate in intercollegiate sports.

Temporary
A prospective student seeking personal enrichment or career enhancement may be admitted as a Temporary student. Temporary students are limited to applying a maximum of 24 semester hours to a UAB degree program.

Applicants in this category must be at least 25 years of age unless enrolling in an approved certificate program. Students must provide a letter of good standing if they have attended another college or university within the last year.

Transient Students
Persons who want to transfer credit earned at UAB back to their home institution where they are enrolled as a full-time student may be admitted as Transient students.

Requirements: Applicants for Transient status must submit an official transcript or letter of good standing from the home institution. Enrollment as a Transient student is typically for one term, with a maximum of two consecutive semesters.

Change from Non-Degree to Degree Status
A student with a non-degree classification who wishes to change to a degree-seeking classification must reapply for admission by submitting an application for admission, application fee, and all required transcripts. To be admitted as a degree-seeking student, the individual must:

1. Meet the published application deadline and admission requirements.
2. Submit all documentation required for a degree-seeking applicant.

Concurrent Enrollment and Dual Enrollment/Dual Credit
UB welcomes applications from exceptional high school juniors and seniors who wish to earn college credit while still enrolled in high school. Evidence must be presented that enrollment at UAB would enhance the student’s educational experience beyond that available in high school.

Requirements include:

1. A minimum grade point average of 3.0.
2. A recommended ACT score of 25 or SAT score of 1170 (combined EBRW + M).
3. A letter of permission from a parent or guardian.
4. A letter of approval from the high school principal or guidance counselor.

**Concurrent Enrollment**

A student applies for Concurrent Enrollment in order to take courses as a non-degree student at UAB, while concurrently enrolled as a junior or senior in high school. This option may be appropriate for students whose high schools do not participate in the Dual Enrollment/Dual Credit program.

**Dual Enrollment/Dual Credit**

The Dual Enrollment/Dual Credit option is available only to those students whose high schools have a formal Dual Enrollment/Dual Credit agreement with UAB. A high school junior or senior may apply for dual enrollment/dual credit in order to take courses as a non-degree student at UAB while still completing high school and apply credit earned at UAB both toward college requirements and toward the high school diploma.

Individual courses taken by dual enrollment/dual credit must be pre-approved by the student’s high school. Prior to each term of enrollment under the dual enrollment/dual credit option, the student must submit a letter from the high school identifying the pre-approved course(s) to be taken for dual credit.

**Admission as an Auditor**

Applicants who wish to audit credit courses must follow standard admission procedures and meet minimum admission requirements.

**New Student Orientation**

Orientation is offered several times prior to the beginning of each term for all incoming freshmen and transfer students. Sessions include information about resources and services available to students to help them be successful. Additionally, new students meet with faculty and academic advisors and register for classes. Attendance at New Student Orientation is required for all new degree-seeking freshmen and transfer students prior to their first term of enrollment.

**Office of New Student Orientation**

Hill Student Center, Suite 201 • 1400 University Boulevard • Birmingham, Alabama 35294 • Telephone: (205) 975-7999 • E-Mail: goingreen@uab.edu • Web: https://www.uab.edu/students/orientation

**Student Involvement and Leadership**

UAB Student Experience would like to invite you to complete your UAB experience by becoming involved in the many activities and organizations available to you as a student. Events range from relaxing at free movies or comedy shows, involvement in student governance, cheering on the Blazers, writing for the Kaleidoscope student newspaper, rappelling down a cliff, hiking the Grand Canyon and so much more. Each semester brings new events, new organizations, opportunities to make friends, get physically fit, learn, socialize, relax, and have a good time becoming a part of the Blazer community! We want you to get involved!!

This section of the catalog contains an alphabetical list of many of the activities and organizations and activities available to students.

**Student Involvement & Leadership**

The Office of Student Involvement and Leadership is responsible for developing the leadership capacity of students and supporting student organizations as integral members of the University community by serving as a leadership and organizational development clearinghouse. The mission of the Office of Student Involvement and Leadership is to serve as full partners in the collegiate experience by empowering students through intentional programs that foster personal and
professional development, while enhancing campus pride and commitment to the greater Birmingham community.

Students who engage in programs, activities, and services provided by the Office of Student Involvement and Leadership will be able to choose opportunities that foster collaboration with others by finding value in the contribution of viewpoints that differ from their own, develop a spirit of public-mindedness that influences civic engagement with local and global communities while creating spaces that generate a more porous and interactive flow of knowledge between campus and community, and develop their leadership and professional skills (such as critical thinking, event planning, conflict resolution), allowing them to succeed in all roles of a team and use these skills to build a foundation for future career success.

Civic Engagement
The Office of Student Involvement and Leadership promotes and supports service and community involvement through engaging our students in a variety of meaningful service activities. The office serves as a resource center for community service programming in order to help students expand their understanding of social/community issues, develop leadership skills, and work on solutions to real life problems. The Blazers on Break alternative spring break program and Summer Service Weekends promotes community service, develops leadership skills, and creates strong bonds among participants who travel to another community to participate in volunteer work addressing issues such as environmental protection, children, affordable housing, hunger, education, HIV/AIDS awareness, and disabilities. Through local partner fairs and large scale programs like Into the Streets Day of Service, Awareness Weeks, and Martin Luther King, Jr. Day of Service, students can get involved in many ways to make a positive difference on the lives of others in our community.

Fraternities and Sororities
Looking to excel in your academics? Have incredible leadership opportunities? Give back to the community and a cause bigger than yourself? Most importantly, looking for a home away from home? The fraternities and sororities here have set the bar high for UAB students in terms of scholarship, leadership, philanthropy and service, and brotherhood and sisterhood. We currently have over twenty fraternities and sororities across four councils: the Panhellenic Council, Interfraternity Council, National Pan-Hellenic Council, and Multicultural Greek Council. Our diverse groups welcome students from all backgrounds, and will help you lay a foundation for success that lasts long after your college years have ended.

Leadership Programs
The Office of Student Involvement and Leadership coordinates campus-wide leadership programming to help students reach their potential in and out of the classroom. In addition to one-on-one leadership consultations, our office coordinates Leadership Foundations, a co-hort style leadership class, and programs such as Lunch with a Leader, Dinner with the Dean, the Fall Leadership Conference, the Winter Leadership Retreat, and the annual Etiquette Dinner.

Educating is an integral part of what our office does, whether it is offering weekly seminar-style learning through the LEAD (Leadership Education And Development) on Demand program, a chance to sharpen networking skills through an annual etiquette dinner, or how to be an effective leader as a member of UAB LEAD. We also offer a scholarship annually to an emerging leader.

Honor Societies
UAB recognizes many nationally affiliated honor societies that acknowledge scholastic achievement, citizenship, and outstanding leadership among students. Check out our honor societies at uab.edu/bsync.

Student Organizations
UAB recognizes over 300 student-led organizations concerned with the academic, social, and personal development of students. Organizations include groups with interests in religion, music, athletics, and cultural diversity. Additionally, nearly every academic major is represented by a student organization. Check out our organizations at uab.edu/bsync.

University Programs
University Programs bring entertaining, diverse, and educational events to UAB. University Programs produces Homecoming, TalentSearch, SpringFest, Fall Concert, Film Series, comedians, late night programs, music, and other special events.

Undergraduate Student Government
The Undergraduate Student Government Association (USGA) is the voice for the undergraduate student body and represents student issues, concerns, and views to the administration. USGA provides programs and services for undergraduate students in the Schools of Business, Education, Engineering, Health Professions, Nursing, Public Health, and the College of Arts and Sciences. Elections for these executive council and senate positions are held each Spring semester. Students can also serve on USGA committees or be appointed to the cabinet or student court. Freshman may get involved through Freshman Forum.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Student Multicultural and Diversity Programs
In support of UAB’s mission of global citizenship, Student Multicultural and Diversity Programs (SMDP) seeks to cultivate a campus wide academic community characterized by:

- Social justice education
- Student advocacy and empowerment
- Affirmation of social identities
- An intersectional approach to gender, race, sex, class, sexuality, ability status, country of origin, faith, and language
- Providing cultural and identity specific programs

SMDP provides learning environments that value and respect underrepresented student populations as a means to contribute to student success. In collaboration with campus and community partners, SMDP acts as an institutional resource for identity based policy, education, and outreach efforts.
Black Student Awareness Committee

Through educational events and programs, the Black Student Awareness Committee (BSAC) strives to increase the awareness of issues surrounding the Black community on our campus, within the city of Birmingham, and across the nation. BSAC encourages celebration of Black heritage, celebrates the accomplishments of Black people on and around the campus, and offers insight into the future of Black America.

Blazer Male Excellence Network

The BMEN Peer Mentoring Program is designed to provide academic and social support to Black male students entering UAB. BMEN's overall goal is to improve the quality of life for the new student by partnering a returning student with a new student, and by staff providing information on navigating the collegiate experience inside and outside the classroom. The mentors are selected each spring and go through extensive training to offer the best services possible. At UAB, improving the retention and graduation rates of its students is a primary objective of the University. Nationally, black males have the lowest retention rate of any group on most college campuses. The BMEN Peer Mentoring Program is one way to connect black males to the University and help them successfully transition to UAB.

Free Food For Thought

Free Food for Thought (FFFT) aims to create a space for students, and sometimes community members, to share their thoughts and opinions about ‘hot topic’ or ‘hot button’ current events and issues. Each semester a topic is chosen for discussion and each session is framed around that topic. FFFT encourages building a community that values inclusion and social justice. Interested participants exchange viewpoints on topics like these, resulting in a greater awareness about issues and experiences across social and personal identities. Learning from one another through facilitated, respectful discussion can help us value the contributions of peers. Just as the title espouses, food is served at all of our sessions.

Global Citizenship 101

Global Citizenship 101’s primary objective is to reach out to local high schools in an endeavor to educate students on the importance of being a Global Citizen. Over the course of the program, students learn about different global issues ranging from local and state concerns, like prison overcrowding and gun control, to problems that stretch across multiple countries, such as global water shortages and famine. This gives students an interdisciplinary outlook and understanding on how issues are handled successfully and why governments fail to solve major global problems. This program is a critical first step into international and cultural understanding of complex issues and can have a lasting effect that continues to help students grow and be receptive to new ideas.

Intergroup Dialogue

For many, faith, agnosticism, and atheism are important aspects of their identity. This dialogue group aims to create a space for a small number of students to discuss this aspect of themselves. In conversations such as these, emotions rise, debate ensues, and there is a fast end to positive conversation. To ensure an open space, with intentional conversation, the tenants of dialogue are taught to all participants and will be maintained in the space by two peer facilitators.

International Mentors

UAB International Mentors is a program that provides incoming international students with valuable information about UAB, Birmingham, and the United States. International Mentors serve the UAB international community by offering programming, support, and assistance to better meet the needs of incoming new students. The mentors are chosen through a highly selective process each spring and go through extensive training to offer the best services possible.

Safe Zone Peer Educators

SafeZone Peer Educators are a group of volunteer undergraduate students who provided education and training around issues of gender, sexuality, power and oppression. SafeZone Peer Educators provide a visible network where all UAB undergraduate, graduate and professional students can receive knowledge and ask questions in a welcoming space in order to help make campus a safer, more accepting place for LGBTQ students, staff, faculty and visitors. Each semester, three open sessions are offered to all UAB students: SafeZone 101, SafeZone 201, and Trans 101. Lunch-n-learns and special topics are also offered throughout the year.

Social Justice Advocacy Council

The Social Justice Advocacy Council (SJAC) is a programming, leadership and advocacy board comprised of a diverse group of students that promote multicultural awareness and inclusive excellence. Our objective is to celebrate diversity of identity, broaden cultural understanding, encourage unity, empower marginalized and underrepresented groups, educate about identity related issues, and promote intercultural interactions between all communities of people at The University of Alabama at Birmingham.

Theatre Activities

UAB Department of Theatre

The UAB Department of Theatre presents several productions each year in the Alys Stephens Center’s Sirote Theatre and the Odess Theatre. Students of all majors can audition, build productions and participate on running crews for credit. Special ticket pricing is available for UAB students. For more information, contact the Department of Theatre at (205) 934-3236.

Ambassadors

The UAB Ambassador Program is the oldest and most prestigious student program on campus. This select group of 22 dedicated students are committed to the University by serving as the official hosts and hostesses at recognized activities and events of UAB. At all times, these student leaders represent UAB through their actions, demeanor, and speech. Ambassadors are selected each spring semester via application and interview.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.
Athletic Team Support Groups
Blazer support groups include the UAB Golden Girls, Cheerleaders (small coed), mascot (Blaze), Blazer Band, and the UAB Marching Blazers. These groups perform at UAB basketball, volleyball, and at a variety of events in Birmingham. Each spring tryouts are held and are based on performance and interviews. For more information on cheerleaders, mascot, and Golden Girls, contact the Athletic Team Support Office, Room 190, Campus Rec Center, (205) 975-5376 or email Ryan Martin at rmartin1@uab.edu (%20rmartin1@uab.edu). For information on the Blazer Band and the UAB Marching Blazers, call the band office at (205) 975-BAND (975-2263). You can also visit the website www.uab.edu/spirit.

BlazeRadio
Hear music from your favorite artist, get the 411 on celebrity news and find out what's happening on campus 24 hours a day at BlazeRadio, UAB's student Web radio station. Tune in online, or download our Live365 smartphone app, and listen to the latest alternative, rock, hip hop, jazz, dance, and country music and more. You can also check out our popular news, sports, and talk shows that are all produced by and for UAB students.

If a job in radio is what you hope to achieve, BlazeRadio offers volunteer spots on the air and behind the scenes. Check the BlazeRadio site for details on programming, promotion, technology, and management positions. On-air slots require an audition. Get started by completing an application in the Office of Student Media.

To tune in, go to www.uab.edu/studentmedia and click on our live stream link. Our studio is located in Suite 130 in the Hill Student Center located at 1400 University Blvd. You can call us at (205) 934-3354 (WBLZ), or send us an email at info@InsideUAB.com (info@insideuab.com).

Good Games UAB
The Good Games UAB (gg.UAB) program aims to create an environment that fosters a community of students with diverse backgrounds who actively engage in numerous eSports initiatives and activities throughout the school year. Our organization provides extensive programming, hands-on experience and mentoring to promote eSports culture within the community while increasing career awareness for students looking to jump-start their journey into the industry by connecting them with companies in the Greater Birmingham area. All students enrolled at UAB are eligible for membership.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentaffairs/.

Miss UAB
The spotlight shines on students both on stage and behind the scenes in the Miss UAB Scholarship Pageant, an official preliminary to the Miss Alabama and Miss America pageants. Held each fall, the pageant showcases each contestant’s talent and achievement and provides scholarships to help them pursue educational goals. Get involved by joining the pageant’s planning committees which promote the contestants, produce the show, recruit judges, or take the stage as a contestant!

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Music Ensembles
Students of all majors are invited to participate in instrumental or vocal music ensembles offered through the Department of Music. Each group performs on campus several times each year; some also perform for selected off-campus events. Some prior experience and brief auditions are required. Several scholarships are available each year for students who perform with these groups. For more information, contact the Department of Music, (205) 934-7376.

Vocal Groups
Chamber Singers
This choral ensemble performs a variety of music representing different periods and styles. The group is open to students of all majors. A short audition is required. For more information, please contact Dr. Brian Kittredge at (205) 975-2599 or briank@uab.edu.

Concert Choir
This auditioned choral ensemble performs music representing a variety of periods and styles. Some music-reading ability is needed. The group is open to students of all majors. A short audition is required. For more information, please contact Dr. Brian Kittredge at (205) 975-2599 or briank@uab.edu.

Gospel Choir
This ensemble primarily performs choral literature from the major eras of American Gospel Music. It is open to students of all majors. Students with significant skill in playing gospel, jazz and/or pop keyboard, rhythm guitar, bass guitar, saxophone, and drums are also encouraged to participate in the Gospel Choir. For more information, please contact Mr. Kevin Turner at (205) 934-6155 or kturner@uab.edu.

Honor Societies
UAB recognizes many nationally affiliated honor societies that acknowledge scholastic achievement, citizenship, and outstanding leadership among students. Check out our honor societies at uab.edu/bsync.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Leadership and Service Council (LSC)
The LSC consists of 12 selected student leaders and is responsible for coordinating various events and programs related to serving others and creating awareness for current social issues. Advised by the Office of Student Involvement & Leadership, LSC has five committees, and these student leaders are responsible for all aspects of events sponsored by the LSC, including event logistics, marketing, and volunteers. LSC also assists with the planning and execution of other events sponsored by Civic Engagement, including Civic Engagement Fairs, Blazers on Break, and Summer Service Weekends. Selection for this council takes place in the spring semester.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, or www.uab.edu/studentaffairs/.

**Opera Workshop**
This ensemble performs opera scenes and musical theater excerpts, as well as fully staged, complete operas. It is open to students of all majors. A short audition is required. For more information, please contact Dr. Kristine Hurst-Wajszczuk at (205) 934-8906 or khw@uab.edu.

**Bands**

**Blazer Band**
As part of the university band program, the Blazer Band provides support for UAB Blazer basketball. It performs at all home and selected away games and for post-season events such as the annual Conference USA tournament. For further information, please contact the band office at (205) 975-BAND (975-2263).

**Jazz Ensemble and Jazz Combos**
Instrumentalists can further their musical knowledge and creative skills by performing classic and contemporary jazz, swing, and rhythm and blues. For further information, please contact Dr. Steve Roberts at (205) 934-6154 or jazztpt@uab.edu.

**UAB Marching Blazers**
The UAB Marching Blazers is part of the university band program, and produces high-quality experiences for students and fantastic entertainment for diverse audiences. The Marching Blazers go beyond the traditional role of collegiate marching bands by performing for professional sporting events; local, regional, and national marching band competitions and parades; and international travel and competitions. Scholarships are available. For further information, contact the band office at (205) 975-BAND (975-2263).

**Wind Symphony and Symphony Band**
As part of the university band program, the Wind Symphony and Symphony Band perform the finest concert band literature in campus concerts, selected special performances, and an annual spring tour. Band placement is contingent upon a brief audition. Scholarships are available for students who participate in the Wind Symphony or Symphony Band and the Marching Blazers. For further information, please contact the band office at (205) 975-BAND (975-2263).

**Student Media**
*Kaleidoscope*, UAB’s student newspaper, was here before there was a UAB. Students have been gathering, editing, and distributing the news about the UAB community since 1967.

Throughout the years, "Kscope," as it is known on campus, has played a vital role in helping keep students informed as well as providing a public forum for the discussion of timely issues of interest to our community. As times have changed, so has UAB’s Student Media -- trading in typewriters for computers, adding more color to its print edition, and aggressively converging what had once been a print-only medium into a contemporary operation that delivers content not only in print but daily on the web and through mobile devices.

And, UAB’s Student Media has expanded along the way with these innovative media:
- Interactive Student Media, the web services group that powers Kscope online.
- Streaming internet radio (BlazeRadio (http://www.uab.edu/studentmedia))
- Literary and visual arts magazine (Aura Literary Arts Review)
- Television web channel (UABTV (http://www.uab.edu/studentmedia))

Regardless of the medium, however, at the heart of these operations are students who gain real-world experience and training that has equipped them for entry into the professional world. Over the years, teams of students have won numerous regional and national awards for journalistic excellence.

Student Media alums have gone on to work for a variety of media, ranging from community journalism to major metropolitan operations across the U.S. with most crediting their experiences with student media at UAB as essential to their careers.

Today, students produce content for all facets of these operations, including wrangling multimedia and mobile technologies to adapt the medium for display on smartphones and tablets. These innovations are produced by students themselves and are among some of the most cutting-edge concepts in collegiate journalism in the nation.

Student Media is always looking for those who want to join a team dedicated to finding the next great idea in serving our community. Perhaps that’s you. Contact us today.

For more information, contact:

**Student Media Office**
Hill Student Center, 1400 University Blvd., Suite 130 • Telephone (205) 934-3354 • Find us on B-Sync or Email: info@insideuab.com

**Student Organizations**
UAB recognizes over 300 student-led organizations concerned with the academic, social, and personal development of students. Organizations include groups with interests in religion, music, athletics, and cultural diversity. Additionally, nearly every academic major is represented by a student organization. Check out our organizations at uab.edu/bsync.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

**UAB TrailBlazers**
The UAB TrailBlazers (http://www.uab.edu/trailblazers) are UAB’s official student recruitment team. TrailBlazers assist the Office of New Student Programs by providing in-depth information about UAB to prospective students and their families. Chosen annually, TrailBlazers strive to ensure that students know about the diverse academic, cultural, and extracurricular interests found within the UAB community. These highly motivated, energetic, and dedicated students are chosen to represent the Division of Enrollment Management at special on- and off-campus recruitment events and campus tours. For more information, contact the Office of New Student Programs Campus Visit Center, Hill Student Center, Suite 201, (205) 934-9098 or TrailBlazers@uab.edu.

**UAB Leadership and Service Council**
The UAB Leadership and Service Council is a student-led organization that prepares students to become active citizens and effective leaders.
in their communities by providing them with civic engagement and leadership development opportunities that support their personal and professional development. Membership on the council affords students the opportunity to develop relationships with other civic-minded students, and to apply classroom and experiential learning to understanding and addressing social issues.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, www.uab.edu/studentinvolvement.

Undergraduate Student Government Association (USGA)

The Undergraduate Student Government Association (USGA) is the voice for the undergraduate student body and represents student issues, concerns, and views to the administration. USGA provides programs and services for undergraduate students in the Schools of Business, Education, Engineering, Health Professions, Nursing, Public Health, and the College of Arts and Sciences. Elections for these executive council and senate positions are held each Spring semester. Students can also serve on USGA committees or be appointed to the cabinet or student court. Freshman may get involved through Freshman Forum.

For more information about USGA, contact the Office of Student Involvement and Leadership, usga@uab.edu (getinvolved@uab.edu), (205) 934-8060, Hill Student Center 230, or www.uab.edu/usga.

University Programs Board

The University Programs Board (UPB) is the student programming organization on campus. UPB works cooperatively with the Office of Student Involvement and Leadership to provide programs, entertainment, activities, and special events such as homecoming, Miss UAB, comedians, concerts, movies, and other special events.

For more information, contact the Office of Student Involvement and Leadership, getinvolved@uab.edu, (205) 934-8020, Hill Student Center 230, or www.uab.edu/studentaffairs.

Student Services & Facilities

This page contains a list of facilities and services available to UAB students. For further information on these and other facilities and activities, contact the Information Desk (https://www.uab.edu/studentaffairs/studentcenter), located at the Hill Student Center or refer to the UAB student handbook, Direction, at https://www.uab.edu/students/ and on BlazerNET (http://www.uab.edu/blazernet) on the Student Resources tab.

Academic Advising

Academic advising is designed to assist students in identifying and achieving their educational and career goals. Specific guidance is given in selecting majors and choosing courses to satisfy degree requirements. Each student is assigned an academic advisor based on their choice of school and major.

Birmingham Area Consortium for Higher Education (BACHE) Library Cooperation

The Birmingham Area Consortium for Higher Education (BACHE) consists of UAB, Birmingham-Southern College, Miles College, the University of Montevallo, and Samford University. Students, faculty, and staff at BACHE institutions may access the resources of all member libraries simply presenting their valid ID cards. It is best for students to discuss research projects first with the reference staff at UAB's library before using other member libraries. The rules and regulations of the lending library are in effect.

http://www.uab.edu/bache/

Campus Recreation

The Campus Recreation Center (CRCT) offers students, staff, and alumni access to a state-of-the-art recreation facility. The UAB Campus Recreation Center offers premier programs, facilities, and services! You will find something for everyone – from free weights, multipurpose courts, an aquatic center, group fitness studios, nutrition education, cardio-fitness areas, a climbing wall, and much more.

The 150,000 square foot facility covers three floors: four basketball/volleyball courts; five racquetball courts (one of which can be converted to squash and four for wallball); four aerobics studios; one performance studio; 18,000 square feet of weight and cardio-fitness areas; a game room; Kid Zone; an aquatics center with both lap and leisure components; a multi-purpose court used for indoor soccer, floor hockey, indoor flag football and badminton; an indoor track; and a climbing wall.

Patrons can also take advantage of the wellness services here at the Campus Recreation Center, which offer personal fitness assessments, massage therapy, and personal training. In addition, we have a Campus Rec Pro Shop in house, so if you forget something we’ve got you covered and the PowerZone to keep you fueled before and after your workout. Lastly, we have a number of lockers available for rent in 12 month or 3 month contracts. Space is limited, so contact membership services at 205-996-5038 today if you are interested! If you prefer not to purchase a locker, we have several areas in the facility, including the locker rooms, with day use lockers available; just bring a lock, store your belongings while you workout with your own lock, and take it with you when you leave - Free of charge! The CRCT is located at 1501 University Boulevard next to the Campus Green.

Aquatics

The Aquatic Center housed within the Campus Recreation Center provides a place for members to swim laps as well as meet their leisure aquatic needs by swimming laps, floating through the lazy river or taking a dip in the hot tub. In addition, the aquatics program offers swim classes, private lessons, life-guarding certifications WSI (Water Safety Instructor) classes, and pool parties for special events. For questions about pool party requests and/or other pool activities, please visit our website www.uab.edu/campusrecreation.

Fitness & Wellness Services (https://www.uab.edu/students/campusrecreation)

The Fitness and Wellness programs offered at the UAB Campus Recreation Center range from traditional Ufit classes and Studio V performance classes to personal training packages and wellness massage services. For more information on all of our fitness and wellness services or to schedule an appointment today, please contact fitness@uab.edu.

Ufit & Instructional Group Fitness Classes

Ufit classes are FREE to anyone with an active CRCT membership. Feel free to drop in any time or day of the week to participate in the wide variety of classes available! Instructional classes are offered throughout the year and provide anyone pre-registered with a more advanced learning experience. If you are interested in participating in any one of the instructional classes please register at our Membership desk. All Instructional classes are open for active members and non-members.

- We offer a wide variety of fitness classes, designed to fit your scheduling needs. From seasoned cyclers to those wanting to try yoga for the first time, Ufit has a class that will get you moving! Please visit our website to view our current schedule.

- New and challenging classes are continually being offered throughout the year! Look for classes like Cardio & Strength, Bootcamp, Women’s Strength Training, Group Cycling, Aqua Fit. Other classes include: Fit Barre, Step Jump & Pump, Yoga, Pilates, Hip Hop, Zumba, Bosu, Latin Dance, Bharatanatyam Dance and TRX Training. Register online here (https://www.uab.edu/students/campusrecreation/membership).

Wellness Catering

Wellness Catering is a program designed to cater any recreation, health, and/or wellness topic to the UAB community. All programs are presented by a recreation professional and can be modified for your groups exact...
needs. Topics covered vary from fitness trends, healthy eating habits, to fitness and nutrition demonstrations. Departments have the opportunity to pick a topic to be presented at a staff meeting, lunch group, or any time of your choice!

**Complete Fitness Assessments**

Fitness Assessments provide individuals with their baseline measurements of flexibility, endurance, blood pressure, muscular strength, body composition, and cardiovascular fitness. The results of these tests are reviewed by a certified Personal Trainer and are used to help personalize a tailored workout plan specifically for you. To schedule your Fitness Assessment please email the Graduate Assistant of Fitness & Wellness kpian@uab.edu (krickels@uab.edu) and complete the Health History Questionnaire as well as the Fitness Assessment Form prior to the appointment.

**Personal Training**

Do you want to get back into shape or simply looking to kick start a new workout? Personal Training is the service for you! Here at the UAB Campus Recreation Center we offer a variety of Personal Training packages for both members and students. Check out our Personal Training (https://www.uab.edu/students/campusrecreation/programs/fitwell/personal-training) now for complete pricing, packing, and details.

**Massage Therapy Services**

Celebrate a little YOU time by scheduling yourself a massage today! Appointments are available for 30 or 60 minutes and are performed by certified massage therapists. Choose from a variety of massage packages in order to customize the perfect relaxation for you. Massage therapy appointments are based upon the therapists' schedules and availability. Please allow at least 24 hours advanced notice of your preferred appointment time in order for us to best schedule your appointment.

For more information or to schedule your next appointment, please email a completed Health History Form (https://www.uab.edu/graduate/images/acrobat/forms/SHW_noclinicalinternational.pdf) and preferred days/times for your appointment to fitness@uab.edu today!

**Competitive Sports** (http://www.uab.edu/campusrecreation/programs/competitive-sports)

The Competitive Sports program offers activities such as Intramurals and Club Sports that involve individual and team competition.

**Intramurals**

All UAB students, staff, and faculty are eligible to participate in intramural sports. Faculty and Staff must adhere to the specific entrance policies if they are not campus recreation facility members. Individuals in any team league must have their campus card in possession to be eligible to participate.

Every team league is offered in men's, women's and co-rec format. Each league will have a 4 week regular season followed by a single elimination playoff. For more information please visit our website or contact intramurals@uab.edu.

Want to sign up? (http://www.imleagues.com/School/Home.aspx?SchId=927a5b36e944220acad259198ffe8f2)

**Individual Tournaments / Events**

All single day tournaments are single or double elimination. Tournaments offered include: badminton, corn hole, billiards, table tennis, swim meet, track & field, triathlon, Texas Hold'em, and sand volleyball.

View tournaments here (http://www.uab.edu/campusrecreation/programs/competitive-sports).

*All tournaments start at 6:30 pm with registration starting at 6 pm.
*Tournaments will be free

**Club Sports**

A club sport is an organized group of individuals established to promote interest in a sport and develop skills of its members in that sport. A club sport may be organized for recreational, instructional, performance, or competitive purposes. For more information please visit our website or contact spettigr@uab.edu.

**Adventure Recreation**

Adventure Recreation offers outdoor trips and clinics throughout the year including: kayaking, backpacking, camping, climbing, canoeing and whitewater rafting. Also offered are relay certification and lead climbing programs. Trips and clinics, such as the Wilderness First Responder training, are open to university students, faculty/staff, alumni, and the community. Contact outdoors@uab.edu for more information on trips, clinics, and rentals.

**Climbing Wall**

Located on the mezzanine level of the Campus Recreation Center, the 42' tall by 36' wide climbing wall offers 1,512 square feet of climbing. The wall’s climbing surface is constructed of reinforced polymer concrete panels and imprinted to match the look and feel of natural rock. Open to university students, faculty/staff, and alumni. The community may use the wall by private group rental.

**Team Building**

Campus recreation offers many opportunities for team building initiatives, catering toward campus groups, corporate outings, school groups and more! Our enthusiastic and skilled facilitators will guide your group through fun activities focused on enhancing or developing vital workplace and life skills such as teamwork, cooperation, communication, and trust. Our program can accommodate groups of any size. Initiatives work on developing or enhancing; communication, teamwork, trust, cooperation, team building, planning, and other common work place functions. Contact fagan422@uab.edu.

**Rentals**

The Outdoor Pursuits Rental Center offers outdoor equipment for various events and is open to university students, faculty/staff, alumni, and the community. Whether backpacking, camping, or canoeing, the rental center has multiple rental time spans on the equipment you might need like sleeping bags, tents, backpacks, and cooking sets.

**Campus Dining**

Dining on-campus gives you the advantage of never having to worry about keeping cash on hand and never losing your parking space. At UAB we have eleven (11) restaurants on-campus. Just swipe your ONE Card and dine! For more information about Campus Dining, please stop by the UAB Campus Dining office located on the top floor of the
Commons on the Green next to the Den, or call (205) 996-6567. You can also visit us online at www.uab.edu/dining/.

For a map of dining locations and updated hours of operation visit: www.uab.edu/students/dining/locations-hours.

Meal Plans
Your meal plan gives you the advantage of never having to worry about keeping cash on hand to eat on-campus. Just swipe your ONE Card and dine. For meal plan options and requirements visit www.uab.edu/students/dining/meal-plans.

Dining Dollars
Dining Dollars are funds that you receive from your campus dining fee. All full-time undergraduate students (those students taking twelve (12) or more credit hours on campus) will be assessed a $225 Campus Dining Fee during fall and spring semesters. This Dining Dollars fee is loaded onto a student’s OneCard and is used as a declining balance account accepted at all on campus dining locations. Dining Dollars are not part of a student’s meal plan.

Hill Student Center
With over 162,000 square feet, the UAB Hill Student Center is the living room of the university. It’s a place where you can find friends, meals, books, and a variety of student services, meetings and activities. You can find building maps and hours online at uab.edu/studentcenter.

The Hill Student Center has a variety of dining options. In the food court you will find a Panera Bread, Mein Bowl Asian Market, and a Full Moon Bar-B-Que. On the second floor you will find a Starbucks.

The Hill Student Center also offers a variety of meeting rooms and event spaces. It houses eleven meeting rooms, all equipped with audio/visual equipment and can comfortably accommodate meetings as small as eight or as large as forty. The Hill Student Center also has a 6,722 square-foot multipurpose ballroom that is divisible into four different size configurations.

It is easy to reserve spaces in the Hill Student Center simply visit uab.edu/studentcenter to view availability and request space.

Libraries
UAB Libraries hold more than two million volumes and provide access to thousands of relevant digital resources for information, instruction, and research in support of UAB’s vast academic and medical enterprise. The UAB Libraries system comprises Mervyn H. Sterne Library (http://www.mhsl.uab.edu) and the Lister Hill Library of the Health Sciences (http://library.uab.edu/help) as well as the Lister Hill Library of the Health Sciences (http://library.uab.edu/help).

Named in memory of the late Birmingham philanthropist and civic leader Mervyn H. Sterne shortly after it opened in 1973, the library has seminar rooms, study rooms, lockable study carrels, computers, printers, scanners, copiers, and seating for 1,350 users. The first floor of the library was renovated in 2010 to make it even more user-friendly and houses the University Writing Center and a Starbucks. Due to student requests, Sterne Library has extended hours, opening 24 hours a day for five days a week except during holidays and summer terms. For more information on resources and services, visit the Sterne Library website at www.mhsl.uab.edu, call Reference Services at (205) 934-6364 or User Services at (205) 934-4338, or request help by email, text, or chat at help (http://library.uab.edu/help).

The Mervyn H. Sterne Library houses a collection of more than one million items and numerous electronic resources that support teaching and research in the arts and humanities, business, education, engineering, natural sciences and mathematics, and social and behavioral sciences. The library is located at 917 13th Street South and online at www.mhsl.uab.edu. (http://www.mhsl.uab.edu) The website is the gateway to all library services and collections including the Undergraduate Research Toolkit, subject- and course-specific Library Guides, and a list of FAQs. Services include research assistance, citation consultations, workshops and faculty-requested classes, assistance with locating materials, and interlibrary loan.

Lister Hill Library of the Health Sciences (http://www.uab.edu/lister)

The Lister Hill Library of the Health Sciences, the largest biomedical library in the state, provides services and resources for UAB students, research and teaching faculty, and clinicians in medicine, nursing, optometry, dentistry, public health, health professions, and joint health sciences. The library was established in 1945, and then dedicated in 1971 in honor of Senator Joseph Lister Hill, a champion for health care and library legislation.

Lister Hill Library, located at 1700 University Boulevard, provides collaborative and group study space on the first floor and quiet study space on the second floor. Lister Hill Library’s website at www.uab.edu/lister provides 24/7 access to databases, electronic journals, ebooks, LHL Guides, FAQs, and recorded classes and tutorials. Services include consultations for conducting searches, guidance for citing resources, assistance with locating materials, and interlibrary loan services. For more information on resources and services, visit the Lister Hill Library website at www.uab.edu/lister, call (205) 934-2230, or request help by email, text, or chat at www.uab.edu/lister/ask.

The Lister Hill Library at University Hospital, located in the West Pavilion, provides onsite support for education, research, and patient care. Access the resources and services for clinicians through the LHL@UH website at www.uab.edu/lhluh or call (205) 934-2275 for more information.

The UAB Historical Collections, located on the third floor of Lister Hill Library, includes the Reynolds-Finley Historical Library (http://www.uab.edu/reynolds), UAB Archives (http://www.uab.edu/archives), and the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). The Reynolds-Finley Historical Library contains rare books, pamphlets, and manuscripts in the history of medicine, science, and health-related fields. This collection dates from the mid-14th century to
the early 20th century and includes a core of world-renowned medical classics with important concentrations on medicine in the Civil War, the South, and early Americana. UAB Archives is the official repository for the permanent records of the University and for archival collections held by UAB. One collecting area for manuscripts is the history of the health sciences, but the repository preserves collections with a wide variety of topics. The Alabama Museum of the Health Sciences preserves over seven hundred years of medical history with instruments, specimens, equipment, and pharmacology used by health care professionals throughout the world, with a special emphasis on material used on and around the University of Alabama at Birmingham campuses. Please call (205) 934-4475 for more information on the Reynolds-Finley Historical Library (http://www.uab.edu/reynolds) or the Alabama Museum of the Health Sciences (http://www.uab.edu/amhs). Call (205) 934-1896 for more information on UAB Archives (http://www.uab.edu/archives).

Math Learning Lab

Located on the second floor of Heritage Hall, the Math Learning Lab offers free tutoring in basic and intermediate algebra, pre-calculus algebra and trigonometry, business calculus, finite mathematics, elementary statistics, and calculus I, II, and III. One-on-one tutoring and homework help are available with no appointment necessary.

Smolian International House

The Bertha and Joseph Smolian International House, 1600 10th Avenue South, offers services and activities for international students and scholars. Known as the I-House, it provides a focal point for programs and activities designed to foster a free exchange of information and international understanding. The facility includes meeting space for campus groups, as well as community groups having an international purpose. For additional information or a schedule of activities, call (205) 934-3328.

http://www.uab.edu/global/international-students-and-scholars

Student Housing and Residence Life

Student Housing facilities include a suite-style residence hall, a semi-suite style residence hall, and four apartment-style residence halls. Student Housing is centrally located on campus and is within walking distance of all classroom buildings, libraries, campus dining facilities, the Medical Center, and the Campus Recreation Center and other student recreation facilities.

Student Housing is limited to full-time undergraduate and graduate students who are admitted to UAB and who are in good standing. “Good Standing” means not on academic or disciplinary suspension. A full-time undergraduate student must be registered for at least 12 credit hours and a full-time graduate student must be registered for at least 9 credit hours throughout the entire academic year. The summer term is treated under a separate contract. Students will be required to satisfy these eligibility standards throughout the term of their Student Housing Contract and to inform Student Housing and Residence Life of any changes in his/her status, which may affect his/her eligibility.

Residence Life Coordinators and Resident Assistants (RAs) serve as live-in professional staff and student leaders within the residence halls. The Residence Life Program consists of educational, cultural, recreational, and social events based on the needs and interests of the residents. In addition to planning these programs, trained staff members are available to answer questions, make appropriate referrals, and assist residents with personal or academic problems.

Since housing at UAB is limited, students should apply as early as possible, particularly if on campus housing is desired for the fall semester. Submitting a Housing Application does not guarantee a space for fall. Every effort will be made to inform applicants of availability. Applications should be completed on-line. For first time applicants a $25 non-refundable application fee is due along with a $250 prepayment of the room fees for the fall term. Returning residents are also required to submit a $250 prepayment at the time of application. All Student Housing rooms are assigned on a first come, first served basis.

Any questions or concerns may be directed to studenthousing@uab.edu or by telephone at (205) 996-0400. You can also visit the Student Housing & Residence Life website for additional information and resources at uab.edu/housing.

The UAB Bookstore

The UAB Bookstore is located at 1400 University Boulevard inside the new Hill Student Center. The bookstore posts official lists of UAB courses and stocks the textbooks and all other items necessary for successful UAB coursework. Most textbooks can be purchased new or used. The option to rent textbooks is also available for most courses. The bookstore carries study aids, reference materials, school and office supplies; medical instruments, lab coats, and scrubs; and the largest assortment of UAB logo apparel and gifts available. Contact the UAB Bookstore at (205) 996-2665 or visit the store online at www.shopuab.com (http://www.shopuab.com)

University Writing Center

Located on the first floor of Mervyn Sterne Library, the University Writing Center (http://www.uab.edu/writingcenter) (UWC) is UAB students’ go-to place for writing assistance, whether the task at hand is a Freshman Composition paper, a lab report, or a graduate school application essay. In a friendly and professional one-on-one setting, UWC tutors teach students to use writing to discover, apply, and communicate knowledge in all disciplines. Students commonly visit to get help with understanding a writing assignment; brainstorming ideas; developing outlines and claims; understanding and applying instructor feedback; and revising and editing complete drafts. While UWC tutors do not edit for students, they can help students identify their common errors and develop stronger editing processes.

In addition to one-on-one sessions in the Sterne Library location, the UWC offers online consultations for students enrolled in online courses; Ask-a-Tutor, an email service for short writing questions; and regular workshops on topics of common interest. To make an appointment, visit the UWC’s website (http://www.uab.edu/writingcenter) and log onto the online scheduling system with your Blazer ID and password. Like the UWC’s Facebook (http://www.facebook.com/UABWritingCenter) page and follow the UWC’s Twitter (http://www.twitter.com/UABWritingCntr) page to stay in touch and find out about upcoming workshops.

One Stop

What if you could get answers to your questions about your student account, financial aid and registration all in one place? Stop running from office to office and make the One Stop your first and possibly your only stop! If we can’t help you on the spot, we’ll do the leg-work for you or connect you to the appropriate resource.
Contact us by email, phone, or in person.
One Stop Student Services, Room 103 of the Hill Student Center, 1400 University Blvd
onestop@uab.edu
(205) 934-4300, 855-UAB-1STP (822-1787)
8:00 am - 5:00 pm, Monday - Thursday
9:00 am - 5:00 pm, Friday

Information Center

Information regarding programs, services, and activities at UAB is available at the UAB Information Center. Referrals to the appropriate department, office, or person may be made for more specific information. The Information Center is located just inside the 14th Street entrance of the Hill Student Center, 1400 University Blvd. For additional information, call (205) 934-8000, or see the Web page at https://www.uab.edu/studentaffairs/studentcenter/

Division of Student Affairs
www.uab.edu/cpd

UAB students are making a substantial investment of time and money by pursuing higher education, and our office takes each student’s career goals seriously. Creating a career plan requires specific goals and milestones. All graduate and undergraduate students have access to the full range of services provided by UAB’s department of Career & Professional Development.

Our services are intentionally designed around current workforce trends and industry best practices. Here is a broad list of services offered by Career & Professional Development:

• Individual career coaching
• Personalized, in-person resume reviews
• Interview practice for jobs, internships, medical school, and graduate school programs
• Monthly career workshops (topics vary based on workforce trends)
• Professional and Industry Speaker Panels
• Career Fairs
• Credit-based courses:
  • Career Mapping (UNIV 300) – 3 credits – 50% online, 50% in-person
  • Job Search Essentials (UNIV 200) – 1 credit – 100% online
• HireABlazer – UAB’s career management system for students

All UAB students have access to HireABlazer through BlazerNet and can download the HireABlazer app for their phone.

Both students and parents can stay informed of career events and receive professional development information via Twitter (@uabcareerserve) or Facebook (Career & Professional Development) and services to better prepare students for options after graduation from UAB, including admission to graduate and first-professional schools or initial entrance into a competitive job market. This multi-faceted program focuses on academic excellence and social development. The program takes students from the freshman year of college to graduation and beyond, which exemplifies the program’s motto “each one, reach one.” All programs and services are designed to help students ease their transition to college, maximize their college experience, achieve their goals, and prepare for the next phase of their lives. For more information, contact Student Multicultural and Diversity Programs in the Campus Recreation Center room 190, Telephone (205) 934-8225, electronic mail jonesc1@uab.edu or read about our programs and services on the Student Multicultural and Diversity Programs Website, https://www.uab.edu/students/diversity/.

Multicultural Scholars Program (MSP)

The Multicultural Scholars Program (MSP) provides special resources and services to better prepare students for options after graduation from UAB, including admission to graduate and first-professional schools or initial entrance into a competitive job market. This multi-faceted program focuses on academic excellence and social development. The program takes students from the freshman year of college to graduation and beyond, which exemplifies the program’s motto “each one, reach one.” All programs and services are designed to help students ease their transition to college, maximize their college experience, achieve their goals, and prepare for the next phase of their lives. For more information, contact Student Multicultural and Diversity Programs in the Campus Recreation Center room 190, Telephone (205) 934-8225, electronic mail jonesc1@uab.edu or read about our programs and services on the Student Multicultural and Diversity Programs Website, https://www.uab.edu/students/diversity/.

ONE Card

The UAB ONE Card serves as the official student ID and offers access to a variety of services and resources on and around campus. Students use the ONE Card to enter residence halls and the Campus Recreation Center, attend UAB athletic and cultural events and check out materials from UAB libraries. With their ONE Card, students can enjoy discounts on tickets to a wide variety of on and off-campus events through the UAB Ticket Office. The ONE Card also functions as a debit card, allowing...
students a convenient and secure way to pay for goods and services at a variety of on campus and local area merchant locations.

General information about the UAB ONE Card, including a list of carding locations, is available at www.uab.edu/onecard. Note: A photo ID is required to have your initial ONE Card made. Questions about ONE Card services can be directed to onestop@uab.edu or (205) 934-4300.

Parking
All students who desire to park in UAB student parking facilities must purchase a permit from Parking and Transportation Services. Permits can be purchased by the term or for the full academic year. Fees vary according to lot. Contact Parking and Transportation Services at (205) 934-3513, for details, or visit online at www.uab.edu/parking/.

Both the university and the City of Birmingham issue citations in student lots to vehicles illegally parked or not displaying a proper permit. Students are responsible for paying all fines and fees imposed. Any delinquent ticket payments may be added to the student’s account in the Student Accounting Office. If a student accumulates three or more delinquent tickets and/or accumulates more than $45.00 in citations, the student’s vehicle may be immobilized or impounded at his or her expense.

Handicapped spaces are conveniently located throughout campus. A valid handicap permit must be displayed to park in a handicapped space in addition to the applicable parking permit. All state issued handicap parking permits MUST be registered with the UAB Parking Office in order to avoid a citation and park in a restricted UAB lot or deck.

For additional information and a campus parking map, contact:

UAB Parking and Transportation Services
608 Eighth Street South • Telephone (205) 934-3513 • E-mail: uabparking@uab.edu • Website: www.uab.edu/parking/

Blazer Express
The UAB Blazer Express Transit System is a service that provides transportation throughout the University campus. With a valid UAB ID badge, students, employees, and authorized visitors can enjoy fare-free bus transportation along 6 designated routes. Buses are ADA-accessible and can seat up to 35 riders. Bus service is provided Monday – Friday from 5:30A – 12:00A. Safety escort service is available through Blazer Express seven days a week from 9:00PM – 5:30 AM by calling (205) 934-8772.

Motorist Assistance Roadside Service (MARS)
Motorist Assistance Roadside Service (MARS) is a free service available to all visitors, students, and employees parking on campus who need help with a dead battery, flat tire, keys locked in a car, or empty gas tank. The service is available weekdays 7:30 AM - 10:00 PM, except University holidays. For assistance, call (205) 975-6277.

Placement Test
The UAB Testing Office provides individual placement testing. Group testing is also available at times and locations listed each term in the UAB Class Schedule. For further information, contact the Testing Office, 936 Building, 936 19th Street South (205) 934-3704.

http://www.uab.edu/testing/

Student Health & Wellness Center
The Student Health & Wellness Center (SHWC) provides a comprehensive and integrated program of services to meet the medical, counseling and wellness needs of UAB’s undergraduate, graduate and professional students. Creating a healthy campus and promoting student wellness are essential to supporting student learning and success. The SHWC is staffed by a group of committed medical providers, counselors, nurses, clinicians, wellness promotion professionals, and support staff who embrace the opportunity to meet your wellness, medical and counseling needs. Those services and resources are available in the state-of-the-art Student Health & Wellness Center located at 1714 9th Ave. South (LRC building), Birmingham, AL 35294-1270. Blazer Express has convenient drop-off and pick-up locations near the Student Health & Wellness Center. Patient and client parking is available at the South entrance to the building.

Health Services
Student Health Services offer comprehensive primary care services including acute and chronic care, women’s health, a Registered Dietitian, mental health evaluation and treatment, immunizations, allergy immunotherapy, and treatment of minor emergencies. A Sports Medicine and Sexual Health Clinic are also available, as well as a Certified Athletic Trainer located in the UAB Recreational Center. On-site lab and x-ray services are available. After-hour’s consultation is provided through provider on call coverage, 24 hours a day/7 days a week/365 days a year. To ensure convenience and access, the Health Services operates under an open-access appointment scheduling system. Go to www.uab.edu/students/health for more information or to schedule an appointment through our patient portal (https://studentwellness.uab.edu/login_directory.aspx). You may also call (205) 934-3580 to schedule an appointment or for general information. All currently enrolled UAB undergraduate and graduate students have access to medical office visits, evaluation and development of a treatment plan at no additional out of pocket cost beyond the payment of regular UAB tuition. Diagnostic testing (lab and x-ray) is available on a fee-for-service basis and can be billed to the student’s insurance. A more complete listing of no-cost services and those services available, but at additional cost, can be accessed at http://www.uab.edu/students/health/services.

Counseling Services
Counseling Services assists in developing students’ potential in physical, academic, spiritual, psychosocial, emotional, and vocational areas. Common presenting concerns include depression, anxiety, grief, relationship concerns, stress management, eating disorders, alcohol or substance abuse concerns, identity, conflict, gender transition and trauma. In addition to individual and couples counseling, services include wellness programs, group opportunities, and educational resources. Confidential counseling services are available to all currently enrolled UAB students at no cost. For more information or to schedule an appointment call (205) 934-5816 or visit http://www.uab.edu/students/counseling/.

Counseling Services operates under an open-access appointment scheduling system. Go to www.uab.edu/students/health for more information or to schedule an appointment through our patient portal (https://studentwellness.uab.edu/login_directory.aspx). Wellness Promotion

Wellness Promotion aims to provide students with programs, education, and resources toward personal wellness. Currently focusing on Interpersonal Violence Prevention and a Collegiate Recovery Community, Wellness Promotion is committed to equipping students with the information and resources needed to achieve healthy and balanced lives. Our Interpersonal Violence Prevention services include large scale events such as Take Back the Night, workshops, trainings, and internship and volunteer opportunities. Our Collegiate Recovery Community welcomes students and participants committed to long-term recovery, health, and wellness. Collegiate Recovery Community services include health and wellness events, sober social options, community involvement, and academic support. Wellness Promotion has also launched a peer education program, the Promoters of Wellness, which is a group of students who are nationally Certified Peer Educators that provide peer education through outreach and coaching services. A complete list of programs, services, and information to schedule a peer coaching session can be found at www.uab.edu/students/wellness or www.uab.edu/pow.

Student Insurance Coverage (Mandatory and Optional)

All full time students enrolled in a degree seeking program have a mandatory requirement to have major medical health insurance to ensure coverage for hospital, emergency room, specialty physician care and diagnostic testing. For more information on the mandatory insurance coverage requirement go to the SHWC website at https://www.uab.edu/students/health/insurance-waivers/mandatory-insurance-waivers

Information regarding the Student Health Insurance Plan for full-time registered undergraduate students taking a minimum of 9 credit hours and full-time graduate students taking a minimum of 6 credit hours can be found at https://www.uab.edu/students/health/insurance-waivers/mandatory-insurance-waivers. All students enrolled in a clinical program that has a mandatory health insurance requirement will continue to have the same requirement regardless of the number of credit hour of enrollment.

To learn more about services available through the Student Health and Wellness Center, please visit any of the following websites.

Student Health Services http://www.uab.edu/students/health/

TRIO Academic Services

Fully funded by the U.S. Department of Education, TRIO Academic Services (Student Support Services) offers assistance to UAB's degree-seeking undergraduate students who are either first generation college students (neither parent has a bachelor's degree), are low-income, or have a disability. The program seeks to increase eligible students' chances of graduating from UAB in four years. Students participate in the program from their entrance to UAB as freshmen or sophomores until graduation.

Intensive services are provided during the freshman and sophomore years; fewer services are provided during the junior and senior years. Services offered include free tutoring from freshman courses through senior courses, workshops to improve study skills, computerized basic skills assistance, computer training and usage, counseling and referral, graduate and professional school admission assistance, and educational and cultural activities. Students also receive a UAB-funded incentive stipend that increases yearly. Student who enter the TRIO program as freshmen, remain in good standing, and graduate in four years, will be eligible for the largest amount of money. Students are required to be full time and complete a minimum of 27 semester hours with at least a 2.0 grade point average each year. Required developmental courses are counted in these 27 semester hours. Students must maintain eligibility for financial aid if needed and participate fully in needed program services.

Priority acceptance is given to conditionally admitted freshmen who are attending UAB for the first time during fall semester. Limited space is available for freshmen and sophomores who are already attending UAB. New Participant Applications are available from April 1st to August 25th of each year. An application can be downloaded by clicking on the link below (this link will only be active from April 1st to August 25th) or can be picked up from our office during this time period. Applications are also emailed to newly admitted students accepted to UAB between April 1st and July 1st. The application deadline is August 25th.

Download Trio Academic Services Application

TRIO STEM-H

THE TRIO STEM-H (SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS, AND HEALTH SCIENCES) PROGRAM @ UAB IS AN EDUCATIONAL OPPORTUNITY THAT IS FEDERALLY FUNDED BY THE U.S. DEPARTMENT OF EDUCATION. THE MISSION OF TRIO STEM-H IS TO PROVIDE ACADEMIC AND PERSONAL SUPPORT TO HELP PARTICIPANTS BE SUCCESSFUL AS THEY PURSUE THEIR EDUCATIONAL GOALS AT UAB.

What are the benefits of being in the TRIO STEM-H Program?

• Individualized Guidance: One-on-one assistance to help students make a smooth transition to college, develop goals and create a graduation plan.
• Academic Support: Weekly tutoring sessions and workshops.

• Workshops: Sessions on time management, learning styles, résumé writing etc.

• Financial Advising: Assistance in applying for financial aid (FAFSA), scholarship searches, and financial counseling including help in creating a budget, managing credit, debt and personal finances.

• Career and Academic Guidance: Success Coaching and assistance with academics, including career and educational planning, mentoring, graduate school tours, and career development.

• Resources: Access to textbooks, calculators, reference materials, computers, FREE printing, graduate school prep tests and quiet study space.

• Money: STEM-H Grant-Aid and UAB Stipend.

• Cultural Events: Free cultural events and trips that will broaden horizons and enrich life experiences. Also STEM-H provides opportunities to study abroad.

• Campus Connections: A place to feel connected with others and UAB.

Who Can Participate in TRIO STEM-H?

All classifications selected have an academic need and:

• are first-generation college students (neither parent completed a bachelor’s degree),

• have a documented physical, psychological or learning disability (that may affect their role as a college student), and/or

• have a limited family income (determined by taxable income level and family size)

How do I find out more information? Contact us at sbenjamin@uab.edu or visit us in the Hill Student Center, Suite 315.

Director: Brian E. Johnson, Ph.D.

Coordinator: Megan K. Talpash

Contact: www.uab.edu/educationabroad | 205-975-6611

Mission

The mission of the UAB Office of Education Abroad (UABEA) is to administer, establish, and send UAB students on high-quality education abroad opportunities to prepare them for success in the globalized world.

Description

Pursuant to our mission, UABEA engages in the activities described below.

Study Abroad: Take courses for which academic credit is received and transferred to UAB on our supported study abroad programs. This includes academic credit for student exchanges, UAB affiliate programs, and faculty-led programs that feature traditional classes, research, service learning, internships, volunteerism, shadowing, clinical rotation, and observations. Our office can help students with aspects from selecting a program to facilitating their transition back to UAB.

Student Organizations Abroad: Travel abroad as part of a UAB student organization; including Outreach Abroad, Outdoor Pursuits, artistic performances, athletic activities, or other student organization travel. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Student Conference Travel Abroad: Present at or attend a conference that takes place abroad as a UAB representative. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

Passport Services: Apply for a passport conveniently on campus. As an official U.S. Department of State Passport Acceptance Facility, we are happy to accept passport applications for students, employees, and members of the community. Our passport service is open to the public.

Destinations

With programs in over 45 different countries, there’s something for everyone. Programs are available in the United Kingdom, Italy, Spain, France, China, Germany, Costa Rica, Australia, Ireland, Japan, and many more countries. Over 40 UABEA programs cost approximately the same as UAB tuition + room + board.

Dates

Programs are available for fall semester, spring semester, academic year, calendar year, summer, Thanksgiving Break, and Spring Break.

Languages

Programs are available in English, as well as all of the foreign languages taught at UAB (and a few that aren’t).

Eligibility

To be eligible to apply for our programs, one must:

1. be an enrolled UAB student;
2. be 19 years of age or older (or have parental permission); and
3. be in good academic, disciplinary, and financial standing with UAB.

Some programs have additional eligibility requirements, such as GPA minima, listed on the individual program webpages.

Students may petition to the Director of Education Abroad for a possible exception to the eligibility criteria.

Subjects of Study

Students may take core curriculum courses while abroad, as well as courses for their major and minors. Elective credits are also available.

Course Articulation

Students need to consult with UABEA before studying abroad to initiate course articulation, the process by which UAB course equivalency is determined for each course to be taken while studying abroad. Course articulation involves the student, UABEA, the host study abroad university, and UAB department chairs and advisors all working together and commonly takes approximately one month to complete.

It is highly recommended that the students contact UABEA to begin the course articulation process at least one month before the application deadline for the selected program. Students who don’t begin the articulation process early enough prior to studying abroad, may not know
how, or if, their courses abroad will count toward completion of a UAB degree.

Grade Posting

All grades earned while abroad will be posted to the student’s UAB transcript and included in GPA calculations. Letter grades are used rather than pass/fail marks. In all cases, students must participate fully in all course activities and meet all stated course requirements. Auditing of any course abroad is not permitted. The process of grade posting varies depending on the program type:

UAB Exchanges are programs for which UABEA has established an exchange agreement with a university abroad. Students earn direct UAB course credit. Students on exchanges are usually mainstreamed into regular classes with the student body at their university abroad. Courses taken on student exchanges will begin with IN (“INternational” indicating that the course took place at an international UAB exchange location) and a two-letter subject code such as ME (Mechanical Engineering), GN (German), SP (Spanish), etc. to indicate the subject that was studied. Additionally, each of the courses are numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university. INxx courses are repeatable. INxx courses include:

UAB Affiliate Programs are co-organized by UABEA in cooperation with an education abroad provider and/or a foreign university. Students receive a transcript from the foreign university or U.S. university of record and have transfer credit appear on their UAB transcript. UAB affiliate programs include the UAB/USAC and UAB/ISA programs listed here (http://educationabroad.uab.edu/index.cfm?FuseAction=Programs.ListAll&). Courses taken on UAB Affiliate Programs will begin with INTL (“INTernational” indicating that the course took place at an international UAB Affiliate Program) plus the host institution subject code to indicate the subject that was studied. Additionally, each of the courses is numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university.

UAB Faculty-Led Programs are UAB courses that are developed and taught by UAB faculty and have a field trip that takes place far from campus, usually outside of the United States. The field trips are typically about 1 to 2 weeks in duration and the entire class, faculty leader and students, travel together. Students earn direct UAB course credit. For UAB Faculty-Led Programs, the instructor will assign the final grade as is normally done for any UAB class taught on campus. (See the Grading Policies and Practices (p. 90) section of the UAB Catalog of Undergraduate Programs). UAB Faculty-Led Programs are designated with SA following the course title.

UAB Internship/Practicum Courses Abroad are UAB courses through which students do an internship or practicum, actually working abroad in a company or organization related to the student’s area of study, and earn direct UAB course credit. For UAB Internship/Practicum Courses Abroad the instructor will assign the final grade as is normally done for any UAB internship/practicum course taken domestically.

Residency

Courses taken on UAB Exchanges, UAB/USAC programs, UAB/ISA programs, U.S. - UK Fulbright Commission Summer Institutes, U.S. Department of State Critical Language Scholarship Program, Clinton Scholarship at the American University in Dubai, UAB Faculty-Led Programs, and UAB Internship/Practicum Courses Abroad will satisfy the UAB residency requirement. Students need to contact UABEA to ensure their Graduation Planning System records are noted accordingly.

Changes of Grades

Requests for grade changes to UABEA must be accompanied by official documentation sent directly from the host university.
UAB Testing Office

The UAB Testing Office provides testing services for UAB students, prospective students, and the community at large. The following tests and/or services are available:

- Admissions examinations for undergraduate and graduate programs
- American College Testing Program (ACT)
- Scholastic Aptitude Test (SAT)
- Miller Analogies Test (MAT) (acceptable to some graduate programs)
- College Level Examination Program (CLEP)—General and Subject Examinations
- Correspondence examination monitoring
- Professional licensing/certification/registration examinations

For further information on any of the above, contact the UAB Testing Office, 936 Building, 936 19th Street South, Telephone (205) 934-3704.

UAB Ticket Office

The UAB Ticket Office is an excellent source for acquiring the best seats to campus events, including performances at the Alys Stephens Center, and UAB Blazers Football and Basketball games. It also serves as the point-of-purchase for events sponsored by the Department of Student Life and other UAB organizations and off-campus agencies. In addition, the UAB Ticket Office offers discounted tickets for Carmike and Regal Cinemas, and to most major theme parks across the southeast, including Six Flags over Georgia, Alabama Splash Adventure and Dollywood.

Discounts to the major aquariums in the area are also available including: Georgia Aquarium and Ripley’s Aquarium of the Smokies. First-class postage stamps are also available for purchase (UAB internal requisitions are accepted). For additional information, contact the UAB Ticket Office, located inside One Stop Student Services in Room 103 of the Hill Student Center, 1400 University Blvd., Birmingham, AL 35294-1150 Telephone: (205) 934-8000.

Visit our website https://www.uab.edu/students/one-stop/ticket-office

UAB Transfer Center

The UAB Transfer Center assists transfer students throughout the transfer process, from admissions to enrollment. Transfer Center staff evaluate coursework from other colleges and universities, but students can also use the Transfer Equivalency web resource at http://www.uab.edu/students/admissions/credit-equivalencies/transfer to determine how courses may transfer to UAB. For more information, email TransferCenter@uab.edu

Veterans Services

UAB Veterans Services (UAB-VS) assists veterans, reservists, guardsmen, and dependents of disabled or deceased veterans to access their educational benefits. UAB-VS serves as a liaison between the student and the local and federal agencies, including the State Department of Education, Department of Defense, and the Department of Veterans Affairs. The office staff assist students in applying for educational benefits, securing tutorial assistance and obtaining veterans work-study positions. For further information, contact UAB Veterans Services, Hill Student Center, Room 313, 1400 University Blvd., Telephone (205) 996-0404 or read about our programs and services at www.uab.edu/students/veterans

VA Complaint Policy

Any VA Complaint against the school should be routed through the VA GI Bill Feedback System by going to the following link: http://www.benefits.va.gov/GIBILL/Feedback.asp. The VA will then follow up through the appropriate channels to investigate the complaint and resolve it satisfactorily.

Choice Act

The University of Alabama at Birmingham in the State of Alabama complies with section 702 - Tuition under Veteran's Access Choice and Accountability Act of 2015, providing for resident (in-state) tuition and fees for the following:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post 9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Alabama while attending a school located in the State of Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge from a period of active duty service;
- Anyone using transferred Post – 9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in the State of Alabama while attending a school located in the State of Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor’s discharge from a period of active duty service;
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b) (9) who lives in the State of Alabama while attending a school located in the State of Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member’s death in the line of duty following a period of active duty service;
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge or death described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States code.

Financial Information

Tuition and Fees

Undergraduate Courses

The Detailed Tuition and Fee Schedule is available online https://www.uab.edu/students/paying-for-college/detailed-tuition-and-fees

Estimated Tuition and Fees

To ascertain Tuition and Fees Schedule please visit BlazerNET located online at www.uab.edu/blazernet

Deadlines

Student account payment deadlines are available on the Academic Calendar for each term at http://www.uab.edu/academiccalendar. Students who do not make the initial payment of 100 percent of the total account balance by the first payment deadline will automatically be enrolled in the Blazer Flex Plan which will include a $25 enrollment fee. The Blazer Flex Plan allows students to make payments in three equal installments. Payment deadline dates are available on the Academic
Penalties

Students who fail to pay by the deadline are subject to substantial late fees. Students with delinquent accounts will not be allowed to register at UAB, and transcript requests will not be honored until all accounts are paid in full. The list of penalties is available online at http://www.uab.edu/students/paying-for-college/when-to-pay.

How to Pay

Payments can be made via the web with a Blazer ID and Password at www.uab.edu/blazernet. The One Stop office also has a drop box where checks can be dropped off. Payments can also be made at Student Accounting Services. All fees are due by the published deadline, as indicated on the UAB Academic Calendar at http://www.uab.edu/academicalendar. For tuition questions please call Student Accounting Services at (205) 934-3570.

Withdrawal from Courses

To avoid academic penalty, a student must withdraw from a course by the withdrawal deadline shown in the academic calendar and receive a grade of W (withdrawn). The withdrawal period ends at approximately 75% of the academic term. Failure to attend class does not constitute a formal drop or withdrawal.

Withdrawal from courses can only be accomplished using official procedures. The official withdrawal must be completed online in BlazerNET. In extraordinary circumstances, if it is impossible for the student to withdraw online the student may mail a withdrawal letter to the Office of the Registrar. The official date of withdrawal will be the date the letter is received in this office. If the official date of withdrawal is after the last day to drop without paying, no tuition or fees will be refunded.

For financial aid purposes, the date of last class attendance will be the official date of withdrawal unless otherwise documented. Note that individual schools may have withdrawal rules in addition to the above.

Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student's performance prior to withdrawal unless otherwise documented. In such instances, students requesting an exception to policy must provide the cause specific documentation in order for the request to be considered.

Requests are evaluated only from written documentation and not through appointments or telephone calls. Information and forms are available online. (https://www.uab.edu/students/one-stop/policies/exceptions-to-academic-policy/academic-policy-appeal) (Please note that grievances of an academic nature are addressed through the Academic Grievance Policy). Requests for exceptions must be submitted at the earliest possible time. Consideration will not be given to any request submitted later than the term immediately following the term for which the exception is being requested. A full reduction in tuition and associated fees will be made for appropriately documented serious illnesses or military service activation, which preclude a student from continuing his/her studies at UAB. For students receiving refunds, such refunds will first be applied to any outstanding obligations and to any scholarship, grant, or loan the student has received for that term. A student who is receiving any form of Federal Title IV Financial Aid will be liable for any unearned funds received as determined by the Federal Return of Funds Policy (check with Student Accounting Office (http://financialaffairs.uab.edu/content.asp?id=261145) for details.)

Failure to adhere to the published drop and withdrawal deadlines (as outlined in the UAB Catalog and the UAB Class Schedule) does not qualify under this policy as an Academic Exception.

Financial Aid to Students

Students should apply for financial aid if they need assistance in paying the cost of education. Students applying for financial aid are considered for all programs for which they are eligible. Assistance generally takes the form of a combination of grant, loan, and employment. The amount of the award is based on the financial need of the student, taking into consideration the student’s total expenses and the family’s financial circumstances. A nationally recognized method of analysis approved by the federal government is used to determine the family’s ability to pay toward the cost of education.

Applying for Financial Aid

Students are encouraged to complete the Free Application for Federal Student Aid (FAFSA) available online at http://fafsa.gov/ in October. The earliest students can submit the FAFSA is October 1. Instructions and UAB forms are available online at https://www.uab.edu/students/paying-for-college. Since some of the aid programs have limited funding, students are encouraged to submit all required forms to the financial aid office by December 1 for financial aid for the following fall to ensure they receive aid from all programs for which they are eligible. In order to meet the tuition and fee deadlines, completed applications should be submitted no later than 30 days prior to the tuition due date. Students must reapply for financial aid each academic year.

Since procedures and rules are subject to change, students interested in applying for financial aid can receive further information online at www.uab.edu/financialaid.

Contact

Student Financial Aid
Repayment of principal and interest begins immediately after the loan has been disbursed. Annual loan limits are the cost of attendance minus other aid.

Scholarships and Merit-Based Awards

Freshmen
To be eligible for a Freshman Academic Scholarship at UAB, Alabama residents must submit their undergraduate admission application and all required documentation (official high school transcript and official ACT and/or SAT scores) by December 1 of their senior year in high school (May 1 for out-of-state residents). Entering freshmen who have their admission documents postmarked by that date are automatically considered for ACT & GPA-based scholarships upon admission to UAB. The December test scores from their senior year will be the last scores considered for scholarship purposes. The examined GPA will be the cumulative GPA at the time of admission. All scholarships are awarded on a first-come, first-served basis to qualified students. Scholarships from specific schools and departments may require additional applications, and their deadlines may be earlier than December 1. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART, UAB’s Blazer Scholarship Management and Resource Tool, beginning October 1 of each year at uab.edu/bsmart.

For Alabama Residents

Presidental Recognition Scholarship: Tuition and academic fees for up to 15 credit hours per semester (fall and spring only) with an ACT of 30 or higher and a cumulative GPA of 3.5 or higher.

Collegiate Honors Scholarship: $5,500 with an ACT of 27-29 and a cumulative GPA of 3.5 or higher or an ACT of 30-36 and a cumulative GPA of 3.0-3.49.

UAB Breakthrough Scholarship: $3,000 with an ACT of 24-26 and a cumulative GPA of 3.5 or higher.

UAB Academic Achievement Scholarship: $2,000 with an ACT of 20-23 and a cumulative GPA of 3.5 or higher or an ACT of 24-29 and a cumulative GPA of 3.0-3.49.

For Out-of-State Residents

Blazer Elite Scholarship: $15,000 with an ACT of 30 or higher and a cumulative GPA of 3.5 or higher.

Blazer Gold Scholarship: $12,000 with an ACT of 26-29 and a cumulative GPA of 3.5 or higher.

Blazer Pride Scholarship: $10,000 with an ACT of 24-25 and a cumulative GPA of 3.5 or higher or an ACT of 26-36 and a cumulative GPA of 3.0-3.49.

Blazer Distinction Scholarship: $7,500 with an ACT of 20-23 and a cumulative GPA of 3.5 or higher or an ACT of 24-25 and a cumulative GPA of 3.0-3.49.

For National Merit Finalists and National Hispanic Recognition Program Scholars

Entering freshmen who are recognized as National Merit Finalists or National Hispanic Recognition Program Scholars are eligible to receive the UAB Presidential Scholarship for National Scholars, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 4 years (8 academic semesters). The award

Financial Aid Programs

Federal Pell Grants
The federal government has allocated funds that currently provide grants up to $5,920 per year for eligible students. All undergraduate students needing financial assistance should apply.

Federal Supplemental Educational Opportunity Grants
Federal Supplemental Educational Opportunity Grants provide assistance for undergraduate students who demonstrate financial need. The maximum annual grant at UAB is $1,500.

Federal College Work-Study Program
Eligible undergraduate and graduate students may work part time and earn money to help pay their educational expenses while attending school. On-campus and off-campus jobs are available in areas related to the student's educational interests.

Federal Direct Subsidized Loan
The Federal Direct Subsidized Loan is a need-based loan for undergraduate students with a current fixed rate of 4.45%. Repayment begins six months after the student's enrollment level drops below half time. The annual loan limit combined with the Federal Direct Unsubsidized Loan is $5,500 for freshmen, $6,500 for sophomores, and $7,500 for juniors and seniors.

Federal Direct Unsubsidized Loan
This is a non-need-based loan with a current fixed rate of 4.45% for undergraduate students. Interest must be paid while the student is in school or must be capitalized as agreed upon by the borrower and lender. Repayment of the principal and any capitalized interest begins when the student's enrollment status drops below half time. The annual loan limit combined with the Federal Direct Subsidized Loan is $5,500 for freshmen, $6,500 for sophomores, and $7,500 for juniors and seniors.

Additional Federal Direct Unsubsidized Loan
Independent students or dependent students whose parents cannot borrow under the Federal Direct PLUS Program may borrow $4,000 as freshmen and sophomores, $5,000 as juniors and seniors.

The aggregate limits for Federal Direct Loans are $31,000 for dependent undergraduates and $57,500 for independent undergraduates. Students must be attending at least half-time to be eligible for the Federal Direct Loan Program.

Federal Direct Parent Loan for Undergraduate Students
This is a non-need-based loan with a current fixed rate of 7%. Repayment of principal and interest begins immediately after the loan has been disbursed. Annual loan limits are the cost of attendance minus other aid.
also provides a one-year on-campus housing allotment for the freshman year and a one-time technology stipend of $1,000 for the fall semester of the first year. In addition, students will receive a one-time $2,500 stipend to be used for experiential learning (education abroad, internships, co-ops, etc.) To obtain this scholarship, National Merit Finalists must name UAB as their first choice with the National Merit Scholarship Corporation (NMSC). National Hispanic Recognition Program Scholars must send a copy of their notification letter and certificate to scholarships@uab.edu by May 31 of their senior year in high school.

For International Students

UAB International Scholarship: This scholarship, valued at US $5,000 per year, is available to international students who are enrolling as first-year, full-time, degree-seeking students in an undergraduate program at UAB. To be considered, applicants must meet the following requirements: graduate from a secondary or high school outside of the United States, have a minimum grade point average of 3.0/4.0, have not enrolled in post-secondary work, anticipate holding an F-1 visa and currently live outside of the United States. Students must be accepted prior to May 1 for the August intake (November 1 for the January intake). The examined GPA will be the cumulative GPA at the time of admission. All scholarships are awarded on a first-come, first-served basis as funds are available and are renewable for a total of 4 years (8 academic semesters). Students who are receiving governmental scholarships or other external support are not eligible to receive this award.

Other Scholarships for which Entering Freshmen May Apply

To apply for additional scholarship opportunities, students must first submit the General Application in BSMART, UAB’s Blazer Scholarship Management and Resource Tool, at uab.edu/bsmart. Once the General Application is completed, students will be matched with scholarships for which they may qualify and prompted to answer additional questions, if necessary.

AP Achievement and Recognition Awards for High School Seniors in the Birmingham City School System: Advanced Placement (AP) students who are currently enrolled in 1 of the 7 high schools in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn) may receive 1 of 2 AP Awards. To be considered, students must be admitted to UAB by March 1 of their senior year in high school, complete the Free Application for Federal Student Aid (FAFSA) by March 1, complete a minimum of 2 AP courses, earn grades of B or higher in all AP coursework, and submit an AP Recognition Award Application at uab.edu/bsmart by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Applicants should demonstrate outstanding character and integrity, potential for leadership, and the promise of significant achievement in his or her chosen field. Approximately ten applicants will be selected to participate in an on-campus interview in late February or early March, and one entering freshman will be selected as the Charles William Ireland Scholar. Students must be U.S. citizens or permanent residents to receive this award.

Charles William Ireland Presidential Honors Scholarship: This prestigious scholarship was established for high-achieving high school seniors from outside the state of Alabama. Selection is based on outstanding academic achievement and demonstrated leadership ability. This four-year scholarship covers tuition and academic fees for up to 15 credit hours of non-resident tuition each semester (fall and spring only). Students must be U.S. citizen or permanent residents to receive this award.

Distinguished Young Women Scholarship: A one-year scholarship of $750 is available to each Alabama resident who represents her county at the Distinguished Young Women of Alabama State Finals. Up to 2 participants may also be nominated by the Distinguished Young Women of Jefferson County Program (Alabama residents only). To be considered, students must be admitted to UAB for the fall semester immediately following their high school graduation. They must also submit the General Application in BSMART, and complete 3 additional questions for the Distinguished Young Women Scholarship, 1 of which requires them to upload written verification of their participation/selection.
from Distinguished Young Women. The deadline for completing the scholarship application is May 31 of the senior year in high school.

**Dottie Monro Presidential Minority Scholarship:** This renewable award is for incoming freshmen who are minority students. Consideration is based on financial need and academic achievement. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents.

**George G. Seibels, Jr. Scholarship:** This one-year award is available to entering freshmen. Award amounts vary each year, but they typically range from $500-$2,000. To be considered, students must be admitted to an undergraduate program at UAB, complete the General Application in BSMART, and answer the supplemental essay question for the George G. Seibels, Jr. Scholarship by February 1. Consideration is based on leadership potential, solid academic promise, high moral character, and an expressed interest in civic affairs, public service, or patriotic affairs. To receive this award, students must be U.S. citizens or permanent residents.

**I Am My Brother’s Keeper Scholarship:** UAB sponsors a scholarship opportunity for up to 2 entering freshmen who have participated in Birmingham’s I Am My Brother’s Keeper (IAMBK) Leadership Institute. (The institute is not directly affiliated with UAB.) To be considered, students must be admitted to UAB for the upcoming fall semester by March 1 of their senior year in high school, have an ACT composite score of 24 or higher, submit the Free Application for Federal Student Aid (FAFSA) by March 1, and provide documentation from the IAMBK Institute, confirming fulfillment of all the IAMBK requirements. Selected recipients will receive a 4-year award that guarantees the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid.

**International Baccalaureate (IB) Scholarships:** Entering freshmen who are IB Diploma Candidates or IB Diploma Holders may be eligible to receive special scholarship funding. (For the purpose of this scholarship, “Diploma Candidates” are students who are fulfilling all coursework requirements for the IB Diploma, completing the Extended Essay, Creativity, Action and Service, and Theory of Knowledge components.) To be considered, students must be admitted to UAB for the summer or fall term immediately following their high school graduation and submit an IB Diploma Candidate Award Application at uab.edu/bsmart by March 1. (Students must first submit the General Application in BSMART in order to access the IB Diploma Candidate Award Application.) Selected students will initially be awarded the Diploma Candidate amount ($1,000 per year). If they earn the IB Diploma, their awards will automatically be upgraded to the IB Diploma Holder Scholarship ($2,500 per year) after their official IB scores are received.

**Jane Knight Lowe Scholarship:** This renewable award is for entering freshmen who are graduates of a public or private high school in Madison County, Alabama. To be considered, students must be pursuing a degree in a health-related profession, demonstrate solid academic promise, and exhibit financial need, as determined by their FAFSA results. Students must be admitted to UAB by March 1 of their senior year in high school, have a cumulative GPA of 3.0 or higher, and submit the Free Application for Federal Student Aid (FAFSA) by March 1. To receive this award, students must be enrolled full-time and be U.S. citizens or permanent residents.

**Martha Corbin Scholarship:** This renewable scholarship is based on the academic achievements of entering freshmen who are residents of Alabama. To be considered, students must have a 3.0 overall grade point average and be admitted to an undergraduate program at UAB. Students must enroll full-time and be U.S. citizens or permanent residents to receive this award.

**McCallum Presidential Scholarship:** This renewable award annually provides $12,000 toward tuition costs and a UAB summer research stipend of $1,000. It also provides an on-campus housing allotment of up to $6,200 each year (fall and spring only). To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Applicants should demonstrate solid academic promise, diligence and the desire to be an effective citizen, as shown by participation and leadership in extracurricular and/or community activities. Approximately ten applicants will be selected to participate in an on-campus interview in late February or early March, and one entering freshman will be selected as the McCallum Presidential Scholar. Students must be U.S. citizens or permanent residents to receive this award.

**Natalie T. and James A. Garland Educational Assistance Fund:** This one-year award is for children of current, full-time, non-exempt employees of the UAB Women and Infants Center (including nursing and support staff, but excluding executive staff). To be considered, students must be admitted to, or enrolled in, an undergraduate program at UAB and have an overall grade point average of 3.0 or higher. First preference will be given to entering freshmen. Students must be eligible for and certified as a dependent for the UAB Educational Assistance Program in order to receive this award. Preference will be given to students who complete the Free Application for Federal Student Aid (FAFSA) by December 1 and demonstrate financial need, as determined by its results.

**Raise UAB Scholarship:** Students who are following UAB on the Raise.me website and are currently enrolled in 1 of the 7 high schools in the Birmingham City School System (A.H. Parker, George Washington Carver, Huffman, P.D. Jackson-Olin, Ramsay, Wenonah, or Woodlawn) may be eligible to earn up to $8,000 in scholarship funds. Raise.me is a website that provides students in grades 9-12 with an opportunity to earn “micro-scholarships” (small scholarships tied to specific achievements) for actions that prepare them to succeed in college, such as taking honors, AP, or IB coursework, participating in extracurricular activities, and attending college-preparatory events. To be considered, students must be admitted to UAB by December 1 of their senior year in high school, be following UAB on Raise.me, have a cumulative unweighted GPA of 3.0 or higher, and have added all grades (for at least 15 high school course credits) and activities to their Raise.me portfolio by February 1 of the senior year. The total amount earned will be disbursed over a four-year (eight-semester) period, allowing students to receive up to $1,000 per semester.

**Regions Academic Scholarship:** This renewable award annually provides $12,500 toward tuition costs and a UAB summer research stipend of $1,000. It also provides an on-campus housing allotment of up to $6,200 each year (fall and spring only). To be considered, students must be enrolled full-time and be U.S. citizens or permanent residents to receive this award.
of 33-36 and a cumulative GPA of 3.5 or higher. Selection is based on outstanding academic achievement and demonstrated leadership ability. Approximately ten applicants will be selected to participate in an on-campus interview in late February or early March, and one entering freshman will be selected as the Regions Academic Scholar. Students must be U.S. citizens or permanent residents to receive this award.

**Roberts and Mildred Blount Presidential Endowed Scholarship:**
This four-year award, which annually provides $5,000 toward tuition costs, is for an outstanding entering freshman who is graduating from an accredited high school in Elmore County, Alabama. To be considered, students must be admitted to an undergraduate program at UAB, have a cumulative GPA of 3.0 or higher, and complete the General Scholarship Application by February 1. Selected candidates will be invited to interview for this award in late February or early March. Students must be enrolled full-time and be U.S. citizens or permanent residents to receive this award.

**UAB Presidential Scholarship:** A limited number of entering freshmen will be selected to receive this prestigious scholarship, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 4 years (8 academic semesters). The award also provides a one-year on-campus housing allotment for the freshman year. To be considered, students must submit the Presidential and Endowed Scholarship Application in BSMART by February 1. To access this online application, Alabama residents must be admitted to UAB for the upcoming summer or fall semester by December 1 of their senior year in high school with an ACT of 33-36 and a cumulative GPA of 3.5 or higher. Students must be U.S. citizens or permanent residents to receive this award.

**UAB SpeakFirst Award:** This UAB-sponsored scholarship is for entering freshmen who are selected and certified by the officials of Impact Alabama as having completed the requirements of the SpeakFirst initiative. This 4-year award guarantees that the cost of tuition and academic fees for up to 15 credit hours per semester (fall and spring only) will be met with gift aid. Up to 4 awards may be made each year. To receive this award, Impact Alabama's candidates must be admitted to UAB for the upcoming fall semester by May 1 of their senior year in high school with a minimum ACT score of 20 and a cumulative GPA of 2.75 or higher. Students must also complete the Free Application for Federal Student Aid (FAFSA) and be U.S. citizens or permanent residents to receive this award.

**W. Ann Reynolds Scholarship:** This award is for entering freshmen and current UAB students who are admitted to, or currently enrolled in, an undergraduate degree-seeking program at UAB. Applicants should demonstrate financial need, leadership ability, and academic achievement while earning an overall grade point average of 3.5 or higher by the time of application.

**Youth Leadership Development Program Scholarship:** This renewable scholarship is available to students who are nominated by the Greater Alabama Council Youth Leadership Development Program. (Please see www.alydp.com (http://www.alydp.com) for more information.) Up to 4 entering freshmen may receive this award each year. For scholarship consideration, nominees must be admitted to UAB by May 1 of their senior year of high school, earn a composite ACT score of 24 or higher, and have a cumulative high school grade point average of 2.5 or higher. Students must be U.S. citizens or permanent residents to receive this award. (Please note: This scholarship may be stacked on an existing UAB scholarship; however, the student’s total scholarship amount cannot exceed the monetary value of a UAB Presidential Scholarship.)

**Transfer Students**
New students transferring from 2-year community colleges are automatically considered for one of the following Transfer Academic Scholarships upon admission to UAB. All scholarships are awarded on a funds-available basis and are renewable for a total of two years. To be eligible for an academic scholarship, transfer students must be admitted to UAB by May 1 for the upcoming summer or fall semester (November 1 for the upcoming spring semester), have a minimum GPA of 3.5, and be enrolled full-time at your community college during 3 of the 4 semesters immediately preceding the March 1 deadline (3 of the 5 semesters immediately preceding the November 1 deadline). Students must send an updated, official transcript that contains their most recent grades by the scholarship deadline. International students, part-time students, and students with previous coursework from another 4-year institution will not be considered.

Scholarships from specific schools and departments may require additional applications, and their deadlines may vary. To view these opportunities, identify their deadlines, and access their application(s), log in to BSMART, UAB’s Blazer Scholarship Management and Resource Tool, beginning October 1 of each year at uab.edu/bsmart.

**Transfer Academic Scholarships**

**Phi Theta Kappa Scholarship:** This two-year scholarship, valued at $6,000 per year, is reserved for transfer students who are members of Phi Theta Kappa (PTK) and have a cumulative GPA of 3.5 or higher based on all transferrable coursework. PTK membership must either be noted on their official college transcript or a letter must be received from their faculty sponsor by the scholarship deadline, confirming membership. Students must be U.S. citizens or permanent residents to receive this award.

**UAB Transfer Excellence Scholarship:** This two-year scholarship, valued at $1,500 per year, is reserved for transfer students with a cumulative GPA of 3.75 or higher based on all transferrable coursework, who are not members of Phi Theta Kappa.

**UAB Transfer Scholarship of Distinction:** This two-year scholarship, valued at $1,000 per year, is reserved for transfer students with a cumulative GPA of 3.5-3.74 based on all transferrable coursework, who are not members of Phi Theta Kappa.

**Other Scholarships for which Entering Transfer Students May Apply**

**All-Alabama Academic Team Scholarship:** This two-year scholarship, valued at $1,000 per year, is available to entering transfer students who are All-Alabama Academic Team (AAAT) members. To be considered, students must be admitted to UAB for the summer or fall semester that immediately follows the receipt of their AAAT honor. They must also submit the General Application in BSMART, and complete 3 additional questions for the All-Alabama Academic Team (AAAT) Scholarship, 1 of which requires them to upload their AAAT letter from the Alabama Community College System. The deadline for completing the scholarship application is May 1. Please note: this award cannot be stacked on top of the Transfer Presidential Scholarship.

**Transfer Presidential Scholarship:** A limited number of entering transfer students will be selected to receive this prestigious scholarship, which provides tuition and academic fees for up to 15 credit hours per semester (fall and spring only) for a total of 2 years (4 academic
should be performed while the student is enrolled at The University of Alabama at Birmingham. Students must be U.S. citizens or permanent residents to receive this award.

Birmingham Racing Commission Scholarship: Selection for this one-year award is based on the academic achievements of current full-time UAB students who are residents of Jefferson County, Alabama. To be considered, students must have an overall grade point average of 3.0 or higher and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Charles "Charlie" Campbell Endowed Memorial Scholarship: This one-year scholarship is based on the academic achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have an overall grade point average of 3.0 or higher and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award. Preference will be given to students who reside in Bessemer, Alabama.

Crawford T. and Virginia Johnson Presidential Scholarship: A two-year scholarship based on the academic achievement, leadership, and extracurricular activities of current sophomore students who are residents of the Birmingham Metropolitan Statistical Area (Blount, Jefferson, Shelby, St. Clair or Walker counties). To be considered, students must have a cumulative UAB grade point average of 3.5 or higher, have completed a minimum of 48 semester hours of coursework by the scholarship deadline, and be enrolled in a regular undergraduate program at UAB. Students must be enrolled full-time and be a U.S. citizen or permanent resident to receive this award.

Ehney A. Camp Jr., Endowed Scholarship: A renewable award based on financial need, leadership, and the academic achievements of current full-time UAB students. To be considered, students must have earned a 3.25 cumulative UAB grade point average and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Helping Other People Excel (HOPE) Scholarship: This one-year scholarship is based on the financial need, academic achievement, and extracurricular activities of current full-time UAB students who are residents of Blount, Jefferson, Shelby, St. Clair, and Walker counties of Alabama. Students must be U.S. citizens or permanent residents to receive this award.

Jack Edwards Alabama Power Foundation Scholarship: A one-year award that is based on the academic achievements of current full-time UAB students who are residents of Alabama. To be considered, students must be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Joann F. Bashinsky Scholarship: A renewable one-year scholarship that is based on the solid academic promise and achievement of deserving students who are enrolled in any undergraduate or graduate program at UAB. To be considered, students are expected to be enrolled full-time and have a minimum overall GPA of 3.0 prior to the submission of the application.
Joseph F. Volker Memorial Scholarship: A one-year scholarship based on the academic achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have an overall grade point average of 3.0 or higher and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Mary Elizabeth Adams Endowed Scholarship: This one-year award is based on the academic achievements, financial need, and extracurricular activities of current UAB students who self-identify as having type I diabetes. To be considered, applicants must have earned at least an overall 3.5 grade point average, earned at least a 25 on the ACT (or an equivalent score on the SAT) and demonstrated leadership ability and achievement in previous pursuits, whether of a scholastic or extracurricular nature. Students must also be an Alabama resident and a U.S. citizen or permanent resident to receive this award. Preference will be given to students who plan to pursue a degree in the sciences, or who have declared a pre-medicine major.

Memorial Fund for the Four Children Scholarship: This scholarship is given in honor of Denise McNair, Cynthia Wesley, Carole Robertson, and Addie Mae Collins, the four girls who died in the 1963 bombing of the Sixteenth Street Baptist Church in Birmingham, Alabama. Growing out of that tragedy, the Memorial Fund for the Four Children Scholarship has awarded more than $250,000 in scholarships to over 70 exceptional students since the first grants were made for the 1984-85 school year. By raising funds and awarding scholarships annually, the Fund helps deserving students fulfill their dream of getting a college education – an opportunity swept away from Addie Mae, Denise, Carole and Cynthia in 1963. It is the hope that this award will further the understanding of the principles of human and civil rights and to enhance the quality of life of all area citizens. This award is reserved for currently enrolled UAB Students and is based on financial need and academic achievement.

Nellie Whitworth Flaherty and Lula McCord Whitworth Endowed Scholarship: A one-year scholarship based on the academic achievements of current female UAB students who have been or are in the work force and are returning to school to complete their education on either a part-time or full-time basis. To be considered, students must have at least an overall grade point average of 2.5 or higher, demonstrate financial need and be admitted to a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

Samuel Ullman Scholarship: This renewable scholarship is based on the leadership, academic and individual achievements of current full-time UAB students who are residents of Alabama. To be considered, students must have earned at least a 3.0 grade point average and be admitted to a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

The Alliance for LGBT Equality at UAB Scholarship: To be considered for this award, students must be currently enrolled in, or admitted to, a degree-granting program at UAB and demonstrate solid academic promise and achievement, earning at least a 3.0 grade point average in any coursework completed prior to the time of application. Preference will be given to applicants who can demonstrate service to the Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) community. Applicants are evaluated on the totality of their situation: academic achievement, financial need, demonstrated service to the LGBTQ community, demonstrated leadership skills, and present and future goals.

The Howlin’ Mad Smith Detachment of the Marine Corps League Sponsored Scholarship: This scholarship is based on the academic achievement of current full-time UAB students who are current or former members of the U.S. Marine Corps. To be considered, students must demonstrate leadership in their community, have a cumulative UAB grade point average of 2.5 or higher and be enrolled in a regular degree-granting program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

UAB Affinity Cardholders Scholarship: Selection for this one-year award is based on the financial need, academic achievement, and extracurricular activities of current full-time UAB students. To be considered, students must have earned at least a 2.5 cumulative UAB grade point average and be enrolled in a regular undergraduate program at UAB. Students must be U.S. citizens or permanent residents to receive this award.

UAB General Scholarship: A one-year award based on the financial need, academic achievements, and extracurricular activities of current full-time UAB students. To be considered, students must have achieved Junior or Senior standing in a degree-seeking program at UAB, have a minimum 3.0 cumulative UAB grade point average and be U.S. citizens or permanent residents.

UAB Leadership Council Scholarship: A one-year award based on the academic achievement and extracurricular activities of current sophomore students who are residents of the Birmingham Metropolitan Statistical Area. To be considered, students must have a cumulative UAB grade point average of 3.0 or higher, have completed a minimum of 60 semester hours of coursework at the time the award is received, and be enrolled in a regular undergraduate program at UAB. Students must be enrolled full-time and be a U.S. citizen or permanent resident to receive this award.

UAB Women's Club Scholarship: A one-time award for women who are considered either full- or half-time undergraduate students currently enrolled in or admitted to a degree-granting program. Selection is based on academic merit and financial need. Preference is given to students with a cumulative UAB GPA of 3.0 or higher, and priority is given to students who have returned to school to complete their degree. Applications are evaluated on recommendations, communication skills and career goals.

Vettes-4-Vets Endowed Scholarship: This scholarship is based on the academic achievement, leadership, and community involvement of students who are currently enrolled in, or admitted to, a degree-granting program at UAB. Students must also be current or former members of a branch of the United States Military. To be considered, students should have earned at least a 2.5 cumulative UAB grade point average (on a 4.0 scale) in any coursework completed prior to the time of application.

Virginia and Anna Praytor Scholarship: A renewable scholarship that is based on the academic achievements of current UAB students who are graduates of a high school in the Birmingham Public School system. To be considered, students must have earned at least a 3.0 cumulative UAB grade point average. Students must be U.S. citizens or permanent residents to receive this award.

W. Ann Reynolds Endowed Presidential Scholarship: This scholarship is awarded to entering freshmen and current UAB students who are admitted to, or currently enrolled in, an undergraduate degree-seeking program at UAB. Applicants should demonstrate financial need,
leadership ability, and academic achievement while earning at least an overall 3.5 grade point average by the time of application.

Program-Related Scholarships

The following are Honors College and Honors College Program-Related Scholarships. Please contact the Honors College or individual program listed for more information on the application process.

Honors College:

Britt and Susan Sexton Endowed Honors Scholarship: Applicants must be in a degree-granting program through the Honors College. Preference given to first year undergraduate students. Applicants should show solid academic promise and have earned a 3.5 grade point average. Applicants should also display a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have passionately explored these pursuits. Preference will also be given to those with a fervor for community involvement and service-related volunteer activities.

Woman's Club House of the Third District of the Alabama Federation of Women's Clubs, Inc., Endowed Honors Scholarship: Applicants must be in a degree-granting program through the Honors College. Preference given to first year, female students. Applicants should show solid academic promise and have earned a 3.5 grade point average. This award is based on merit and need; however, applicants do not have to qualify for federal financial assistance to be considered. Applicants should also display a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and have passionately explored these pursuits. Preference will also be given to those with a fervor for community involvement and service-related volunteer activities.

Edith and Franklyn Zimmerman Endowed Honors Scholarship: Applicants must be in a baccalaureate degree-granting program through the Honors College. Preference given to first year undergraduate students. Applicants should demonstrate solid academic promise and achievement and have earned at least an overall 3.5 (on a 4.0 scale) grade point average in coursework completed prior to the time of application and have earned a score of at least 25 on the ACT or an equivalent score on the SAT. Applicants should also demonstrate leadership ability and achievement in previous pursuits, whether of a scholastic or extracurricular nature.

University Honors Program (UHP):

Boman-Powell Student Travel Award: Established by Daphne and Richard Powell in honor of their mothers to enable students in the University Honors Program to travel to regional and national conferences or for education abroad. This fund allows UHP students to expand their educational experience through travel that would not otherwise be possible because of financial constraints. There is no formal application form, but any UHP student may apply by contacting the UHP Director and providing Documentation of the program/conference and costs associated with participation.

Hess-Abroms Honors Scholarship Endowment: Applicants must be students in the University Honors Program. This four-year scholarship is typically awarded to incoming freshmen accepted to the University Honors Program. Applicants should demonstrate superior academic achievement (as reflected in grades, test scores, and class rank), creativity or talent (as in the sciences, fine arts, leadership, or independent study), strong motivation, exemplary character, and intellectual promise. All applicants for the University Honors Program are encouraged to apply for this scholarship. Applications due mid-February.

Steven C. Smith Discovery Award: Applicants must be currently enrolled in, or admitted to, a degree-granting program at UAB and accepted to the University Honors Program. First preference will be given to entering first-year students in the program. Applicants should demonstrate solid academic promise and achievement and have earned at least a 3.0 grade point average in any coursework completed prior to the time of application. The award of this scholarship will be based on both merit and need. Applicants should display interest in a wide variety of artistic, cultural, and extracurricular activities and academic pursuits and must have a passion for exploring these pursuits as avenues of opportunity present themselves. Preference will also be given to applicants with a fervor for community involvement, particularly service-related volunteer activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applications do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

William J. Rushton III/Alabama Power Foundation Scholarship Endowment: Applicants must be incoming or current members of the University Honors Program in good standing and be residents of Alabama. This award is based on merit and need. Applicants should have a strong academic background, a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

William M. Spencer III Endowed Honors Scholarship: Applicants must be admitted to or be current members of the University Honors Program. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

Juliet Nunn Pearson Scholarship: Applicants must be entering UAB freshmen admitted to the University Honors Program. Preferences are given to non-traditional students, pre-professional students, and/or minority students. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to academic achievement and extracurricular activities. Financial need will be determined by the scholarship selection committee based on the information provided by the student when applying for the award. Applicants do not have to qualify for federal financial assistance in order to be considered for this award. Applications for all one-year scholarships are due May 1. Applicants are automatically considered for all one-year scholarships for which they are eligible.

Nelson and Maye Hill Honors Fund: Applicant must be a student in the University Honors Program and be accepted to an academic Study
Abroad program. This award is based on merit and need. Applicants should have a strong academic background and a strong commitment to the academic and extracurricular activities of the University Honors Program. No application deadline.

Science and Technology Honors Program (STHP):

Wells Fargo Scholars Program: Applicants must be enrolled in the Science and Technology Honors Program and have at least a 3.0 GPA. Preference is given to students with unmet financial need who are from groups underrepresented in their field of study. The award is based on merit and need, but applicants do not have to apply for federal financial assistance to be considered. This program awards 4-year scholarships to STHP students with strong academic backgrounds who have a desire to pursue a research career. The award is for underrepresented minorities and females majoring in Chemistry, Engineering, Math, and Computer Science. An application and interview are required for consideration. The application process typically opens in December of each year and closes in January.

Wells Fargo Summer Scholars Academic Enrichment Awards: This program awards scholarships of up to $2,500 to current STHP students. These competitive, merit-based awards are used to support summer research and academic activities. A call for applications for each scholarship opportunity will be announced to all current students each year (typically in late February) along with the application instructions and deadlines (typically mid-March).

Student Academic Engagement

Education Abroad

Pushpamala Deosthale Scholarship for Study Abroad: This scholarship, established in 1999, was named in the memory of Ms. Pushpamala Deosthale and was established by contributions coming in part from her son, Dr. Duleep C. Deosthale, a former director of a predecessor office to UAB Education Abroad. This scholarship awards funds to be used for tuition and fees for a UAB Education Abroad-approved fall or spring program.

Dr. John Downey Jones Scholarship for Study Abroad: This scholarship, established in 1993, was named in the honor of Dr. John Downey Jones, Jr., a former director of a predecessor office to UAB Education Abroad. This scholarship awards funds to be used for tuition and fees for a UAB Education Abroad-approved fall or spring program.

For more information, including eligibility and application instructions, visit www.uab.edu/educationabroad.

ROTC

Kelly Ingram VFW Post 668 Distinguished Army ROTC Cadet Scholarship: Non-renewable Award to the most outstanding student selected from among the incoming senior class of ROTC. Applicants must have a 3.0 GPA. Determined by the Army ROTC program and the Office for Student Financial Aid.

College and School Scholarships

College of Arts & Sciences

The UAB College of Arts and Sciences offers over 50 scholarships. In order to be considered for a scholarship you must have a declared College of Arts and Sciences major and submit a scholarship application.

While most of these scholarships require you to already be enrolled in the College, there are some awards available for incoming students. Important information, including the application process, eligibility requirements, and deadlines, are available on the UAB College of Arts and Sciences website: http://www.uab.edu/cas/home/scholarships

In addition some departments offer their own scholarships. If you are interested in a scholarship or award offered by a specific department, please visit its website for more information.

The Lauren McLellan Sanders Scholarship is an annual award. Recipients of the scholarship may apply for the award in subsequent years.

Jane White Mulkin Endowed Scholarship: This scholarship is awarded annually to a student enrolled in, or admitted to the Departments of Art and Art History, Communication Studies, English, Foreign Languages and Literatures, Music, Philosophy or Theatre. Preference given to applicants in need of financial assistance, particularly non-traditional students who are attending school while working. Applicants must be residents of Alabama.

NASA-Alabama Space Grant Program Scholarships: Scholarships are available to science and engineering students through the NASA-Alabama Space Grant Program. Apply through the Department of Physics.

National Alumni Society Dean’s Scholarship: The National Alumni Society Dean’s Scholarship is a college-wide scholarship and is open to students currently enrolled in or admitted to a degree-granting program in the College of Arts and Sciences who have demonstrated solid academic promise and leadership qualities, and have at least an overall 3.0 grade point average.

Tennant and Susan McWilliams Endowed Scholarship: This scholarship is awarded annually to a student enrolled in, or admitted to a degree-granting program in the College of Arts and Sciences who have demonstrated solid academic promise and leadership qualities, and have at least an overall 3.0 grade point average.

School of Education Scholarships
All Scholarships and Awards are for students in good standing and pursuing degrees from the School of Education. Other stipulations and requirements are noted with each Award or Scholarship listing.

Dr. Lydia L. Alexander Endowed Student Award in Education
Dr. Lydia L. Alexander was a long-time faculty member and served six years as Assistant Dean in the School of Education. She retired in 1998, but continues to work in and give back to the community through Alpha Kappa Alpha sorority and other charitable organizations. Dr. Alexander received the Lifetime Achiever award from the Oliver Robinson Foundation in 2012 and remains an ardent proponent of quality education.

Criteria:
• Applicant must be a Junior or Senior student seeking a degree in Secondary Education from the School.

Beta Chi ESG Clint Bruess Health Education Scholarship
In 2009 and in recognition of his long years of service to UAB and the School of Education, the Eta Sigma Gamma Beta Chi chapter Executive Board at UAB established this Scholarship in honor of Dr. Clint E. Bruess.
Dr. Bruess was a School faculty member, and served as Chair of the Department of Human Studies from 1981 through 1987 and subsequently as Dean of the School of Education from 1988 until 1999.

Criteria:

- Applicants must be pursuing a degree in a Health Education-related major.
- Applicants should demonstrate solid academic promise and have earned at least a 3.3 grade point average.
- Preference will be given to those-deserving financial assistance as determined by the UAB Office of Student Financial Aid.

The Early Childhood Education Graduate Student Award

A thoughtful donor and friend of the UAB School of Education has created an award to assist deserving students who are enrolled in the UAB School of Education Early Childhood Education program.

Criteria:

- Applicants must demonstrate a successful work and/or leadership experience.
- Recipients must maintain a 3.0 GPA.
- In the absence of such applicant, consideration may be given to students enrolled in the Alternative Master's Program.

The Virginia Horns-Marsh Endowed Scholarship

Dr. Virginia Horns-Marsh began her UAB career in 1969, when the University was first designated as an autonomous institution. She worked tirelessly to promote early childhood education and served as the Director of the School’s Early Childhood Education Program, Early Childhood Education Doctoral Program and Metropolitan Education Studies, as Chair of the Department of Curriculum and Instruction. A gift from Dr. Horns-Marsh and gifts from family, friends and colleagues created this Scholarship to provide opportunities for success to future Early Childhood Educator candidates.

Criteria:

- Preference will be given to students enrolled in Early Childhood Education and Development of Health Education/Health Promotion in the School.
- In the absence of such applicant, consideration may be given to exceptional doctoral students in the School of Education, then exceptional graduate students in Early Childhood Education, Elementary Education or Secondary Education.
- Recipients must maintain a 3.0 GPA in all coursework.

The Dr. Delbert H. and Dr. Roberta Long School of Education Endowed Scholarship

As long-time UAB faculty, Dr. Delbert Long and Dr. Roberta Long distinguished themselves by their commitment to educating future teachers and education administrators. Before coming to UAB, Doctors Long taught in Nepal, Indonesia, Czechoslovakia and Germany, among other places, sharing their love of learning and passion for education. They created this Scholarship in order to make access to an education degree easier for students and thereby fostering opportunities to train quality teachers for future generations.

Criteria:

- Applicants must be an undergraduate enrolled in or admitted to TEP;
- In the absence of such an applicant, consideration may be given to students enrolled in the Alternative Master's Program.
- Recipients must maintain a 3.0 GPA.
- Applicants must demonstrate a successful work and/or leadership experience.
- Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.

The Virginia Horns-Marsh Endowed Scholarship

Dr. Virginia Horns-Marsh began her UAB career in 1969, when the University was first designated as an autonomous institution. She worked tirelessly to promote early childhood education and served as the Director of the School’s Early Childhood Education Program, Early Childhood Education Doctoral Program and Metropolitan Education Studies, as Chair of the Department of Curriculum and Instruction. A gift from Dr. Horns-Marsh and gifts from family, friends and colleagues created this Scholarship to provide opportunities for success to future Early Childhood Educator candidates.

Criteria:

- Preference will be given to students enrolled in Early Childhood Education and Development of Health Education/Health Promotion in the School.
- In the absence of such applicant, consideration may be given to exceptional doctoral students in the School of Education, then exceptional graduate students in Early Childhood Education, Elementary Education or Secondary Education.
- Recipients must maintain a 3.0 GPA in all coursework.

The Dr. Delbert H. and Dr. Roberta Long School of Education Endowed Scholarship

As long-time UAB faculty, Dr. Delbert Long and Dr. Roberta Long distinguished themselves by their commitment to educating future teachers and education administrators. Before coming to UAB, Doctors Long taught in Nepal, Indonesia, Czechoslovakia and Germany, among other places, sharing their love of learning and passion for education. They created this Scholarship in order to make access to an education degree easier for students and thereby fostering opportunities to train quality teachers for future generations.

Criteria:

- Applicants must be an undergraduate enrolled in or admitted to TEP;
- In the absence of such an applicant, consideration may be given to students enrolled in the Alternative Master's Program.
- Recipients must maintain a 3.0 GPA.
- Applicants must demonstrate a successful work and/or leadership experience.
- Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.

The Virginia Horns-Marsh Endowed Scholarship

Dr. Virginia Horns-Marsh began her UAB career in 1969, when the University was first designated as an autonomous institution. She worked tirelessly to promote early childhood education and served as the Director of the School’s Early Childhood Education Program, Early Childhood Education Doctoral Program and Metropolitan Education Studies, as Chair of the Department of Curriculum and Instruction. A gift from Dr. Horns-Marsh and gifts from family, friends and colleagues created this Scholarship to provide opportunities for success to future Early Childhood Educator candidates.

Criteria:

- Preference will be given to students enrolled in Early Childhood Education and Development of Health Education/Health Promotion in the School.
- In the absence of such applicant, consideration may be given to exceptional doctoral students in the School of Education, then exceptional graduate students in Early Childhood Education, Elementary Education or Secondary Education.
- Recipients must maintain a 3.0 GPA in all coursework.
• Applicants must be learning and/or physically challenged.
• In the absence of such applicants, recipients must be preparing to teach learning and/or physically challenged individuals.
• Recipients must be accepted into TEP or a degree-seeking education program in the graduate school of the School of Education.
• Candidates must be full-time and have completed 24 hours (undergraduate) or 18 hours (graduate).
• Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.

The Maryann Manning Endowed Literacy Scholarship

Upon Dr. Maryann Manning’s retirement from UAB, friends, colleagues and admirers created this scholarship as a tribute to her many years of service and passion to enhance literacy learning around the world.

Criteria:
• Preference will be given to those involved with quality literacy instruction in pre-K through 6th grade.
• Applicants should have at least a 3.0 GPA.
• Preference will be given to those who show financial need as determined by UAB Office of Student Financial Aid.

The Kathryn Cramer Morgan Memorial Scholarship

A long-time resident of Birmingham, Mrs. Morgan was an esteemed employee at UAB, serving as administrative assistant to Dr. S. Richards Hill, Jr., UAB’s second president. She and her husband, Mr. Thomas Henry Morgan, were active participants in University life for over four decades, hosting numerous international students pursuing degrees at UAB. Her loving husband created this scholarship after her death in 1990 as a way to memorialize and honor her life and passion to improve our education systems with enhanced teaching and scholarship.

Criteria:
• In the absence of qualified student candidates, visiting scholars or professors may be funded.

The National Alumni Society Dean’s Scholarship

The National Alumni Society Dean’s Scholarship is a school-wide scholarship given by the National Alumni Society.

Criteria:
• Students should be able to demonstrate solid academic promise and leadership qualities
• Applicants should have at least a 3.0 GPA.

The Dr. Eddie P. Ort Endowed Award

Dr. Eddie P. Ort spent his career training educators, both in UAB classrooms and with in-service education programs for elementary and middle school teachers in the greater Birmingham area. He was a recognized leader in social studies education. Dr. Ort and his family created this Scholarship to assist deserving students conducting their final Research Project in the Educational Specialist Degree program.

Criteria:
• Applicants must have a faculty advisor’s approval to begin an Educational Specialist Research Project.
• Preference will be given to students beginning their research project.

The Frances M. Owens Endowed Scholarship

A native of Birmingham and UAB alumna, Frances M. Owens taught English and social studies at Mountain Brook Junior High School. She is a member of the UAB National Alumni Society and remains a faithful supporter of many programs across the UAB campus. Mrs. Owens created this Scholarship to provide assistance and greater opportunity to those diagnosed with ADD/ADHD become educators, and thereby better serve and positively impact students in our K-12 school systems.

Criteria:
• Preference will be given to entering freshmen students with ADD/ADHD registered through UAB Disability Support Service.
• Applicants must be a full-time undergraduate student.

Dr. Mabel C. Robinson Memorial Endowed Scholarship

This Scholarship was created by the friends and family of Dr. Mabel C. Robinson, and in tribute to her life-long work in physical and health education. Dr. Robinson spent her life advocating for greater opportunities for girls and women in athletics and physical and health education. Her efforts were assisted by passage of Title IX legislation and by the health and wellness and education faculty at UAB. This Scholarship will help foster opportunities for students to earn a degree from UAB and be better prepared to enter the profession.

Criteria:
• Applicants must be pursuing an undergraduate degree in health or exercise education-related degrees.
• Preference shall be given to females.

The Mildred, Mack & Blanche Stewart Teacher Education Endowed Scholarship

Mildred Stewart Snipes was the first elementary guidance counselor in the Jefferson County Public School System, working 36 years at Gardendale Elementary School. Her firm belief when women have access to education, their cultural influence will permeate their families as well as the children they teach. Mrs. Snipes created this scholarship to create opportunities to assist students in becoming strong, passionate and well-trained educators who will positively impact students’ lives. The Scholarship was created as a memorial to her parents Mack and Blanche Stewart who fostered a love of learning and sense of giving back to the community.

Criteria:
• Applicants must have graduated from the Jefferson County Public School System, or Spain Park, Leeds, Hewitt-Trussville, or any high school in Bibb, Blount, Cullman, St. Clair, Shelby, Tuscaloosa or Walker Counties.
• Preference will be given to entering freshman
• If no freshmen apply, consideration may be given to transfer students from community colleges that attended previously mentioned schools.
• Recipients must maintain a 3.0 GPA.
• Applicants who are transfer students from a community college must apply and be accepted into TEP and be seeking certification from the State Department of Education.

The Ruth M. Strong Scholarship
Dr. Ruth M. Strong spent her professional life helping children find a brighter tomorrow. She began her teaching career at McCaw Elementary School, where she implemented a reading program which grew into the Birmingham City Schools Right-to-Read Program. She was named Director of this reading initiative. She also served as Program Specialist for Reading, Director of the Magnet School Program, and Assistant Superintendent for Instruction for the Birmingham City School System. This Scholarship is provided annually by a generous gift from Dr. Strong, and supports a student who will carry forward Dr. Strong’s proud legacy.

Criteria:
• Applicants must be accepted in the TEP as an undergraduate
• In the absence of undergraduate candidates, students accepted into the Alternative Master’s Program may be considered.
• Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.
• Preference will be given to underrepresented, low-income and minority students.

Dr. Ruth M. Strong spent her professional life helping children find a brighter tomorrow. • Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.
• Preference will be given to underrepresented, low-income and minority students.

The Tevendale Family Scholarship
Jackie and William Alan “Bill” Tevendale are long-time supporters of education and educational opportunities in the greater Birmingham area. Both remain active volunteers, and Mr. Tevendale was the first Alabamian recognized with the National Operation School Bell Award by the Assistance League. The entire Tevendale family equally values educational opportunities, and with this Scholarship intends to create opportunity for future educators who will, in turn, leave a positive impact on the community.

Criteria:
• Recipient must maintain a 3.0 GPA.
• Recipients must demonstrate financial need as determined by the UAB Office of Student Financial Aid.
• Preference will be given to first generation college students.
• Preference will be given to students who are active in their communities, including the UAB community.

School of Education Alumni Scholarship
This Scholarship is provided annually through the generosity of School of Education alumni and friends who contribute to the School’s Scholarship efforts and/or Area of Greatest Need.

Criteria:
• Recipients must maintain a 3.0 GPA.
• Preference will be given to those who show financial need as determined by UAB Office of Student Financial Aid.

Glenda R. Elliott Endowed Scholarship
The Glenda R. Elliott Endowed Scholarship was created by faculty in the Counselor Education Program in the School of Education and members of the UAB Zeta Chapter of Chi Sigma Iota in honor and tribute to her and her years of service to UAB. Dr. Elliott is a licensed professional counselor, certified counselor supervisor, and has more than 40 years of experience as a counselor educator. She retired from UAB in 1994, is adjunct faculty for the Counselor Education Program, and Associate Professor Emerita.

Criteria:
• Applicants must be enrolled in the counselor education program as graduate students.

The Joyce G. Sibley Educational Computing Award
Dr. Joyce Sibley and her husband Dr. William Sibley have long supported educational opportunities for students. Knowing that learners benefit greatly when using the right tools, Dr. Sibley wanted to put a computer into the hands of an outstanding future teacher. This Award provides a desktop, tablet, or other personal computer for a deserving student.

Criteria:
• Preference is given to students that do not own a computer.
• Applicants must be a junior or senior admitted to the teacher education program.
• In the absence of such applicants, students admitted to the Alternative Master's Program may be considered.
• Recipients must maintain a 3.25 GPA.

Jack Tribble Scholarship
Mr. Jack Tribble was an ardent supporter of UAB and a long-time fan of football. Although Mr. Tribble did not have an opportunity himself to attend college, he had a strong desire to make a college education affordable and an option for worthy students. At his death, UAB learned of Mr. Tribble’s generous bequest meant to support students who need financial assistance and are physical education majors. Each year, the Kinesiology Program selects a student recipient who best exemplifies Mr. Tribble’s interests and passion.

Criteria:
• Recipients must be majoring in physical education.
• Preference will be given to must demonstrate financial need as determined by the UAB Office of Student Financial Aid.

School of Business

Accounting Advisory Council Scholarship: A scholarship(s) is awarded to a student with an accounting major with a 3.0/4.0 minimum GPA who is enrolled in or has completed AC300. For further information, contact the School of Business at (205) 934-8813.

**Thomas & Betts Endowed Industrial Distribution Scholarship:** Annual scholarships are awarded to entering freshman, transfer or currently enrolled student who designate Industrial Distribution as their major. High school GPA, ACT or SAT scores, participation in extra-curricular activities, financial need, and career goals will be considered. Currently enrolled ID students with good academic standing, commitment to completing degree requirements in ID, participation in extracurricular activities and community service will be considered for the scholarship.

**Juanita and William H. Van Matre Endowed Scholarship:** $1000 is awarded to at least one entering freshman or transferring junior college student who intends to pursue a degree in the UAB School of Business. The recipient is preferred to be from a rural area and have good character. They must earn at least 27 hours per academic year and maintain a 3.0 GPA. Recipients are chosen based upon academic promise and need.

**Warren, Averett, Kimbrough & Marino Scholarship:** A scholarship, valued at $1,500, is awarded annually to a senior accounting major or Master of Accounting student in the School of Business with a minimum 3.0/4.0 GPA. For further information, contact the School of Business at (205) 934-8813.

**Young Men’s Business Club Scholarship:** At least one scholarship valued at $2,000 is awarded annually to a currently full time enrolled UAB student In the School of Business who will be entering their junior or senior year. Selection is based on high academic standing, financial need, and community service.

**School of Engineering**

Entering freshmen in the School of Engineering are automatically considered for all school-wide academic scholarships after being accepted to UAB. The admissions application to the University serves as the application for engineering scholarships. No additional scholarship application materials are required. Students who wish to be considered for engineering scholarships should be admitted to the University no later than December 1 of their senior year.

All scholarships are merit based, and most are renewable for a total of four years. School of Engineering Scholarship Awards range from $1,000 to $5,000 per year and may be combined with other scholarship offers.

**Entering Freshman Scholarships**

The UAB School of Engineering offers the following scholarships to incoming freshman for the 2015-2016 academic year. In-state students must be admitted by December 1, 2015 and out-of-state students must be admitted by May 1, 2016 in order to be considered.

**IN STATE Amount of Scholarship**

- 33-36 ACT, 3.5 or Higher GPA $2,500
- 30-32 ACT, 3.5 or Higher GPA $2,500
- 27-29 ACT, 3.5 or Higher GPA $2,000
- 25 or 26 ACT, 3.5 or Higher GPA $1,000

**OUT OF STATE Amount of Scholarship**

- 33-36 ACT, 3.5 or Higher GPA $5,000
- 30-32 ACT, 3.5 or Higher GPA $5,000
- 27-29 ACT, 3.5 or Higher GPA $3,000
- 25 or 26 ACT, 3.5 or Higher GPA $2,000

Students who have an ACT of 30 or higher, but have a GPA of 3.49 or lower, will be considered for scholarships on an individual basis.

Scholarship amounts and eligibility criteria are subject to change in future years.

**Additional scholarships available to currently enrolled or soon-to-be enrolled, UAB engineering students:**

**Dean’s Scholarship**

**Amount:** $250/$100 Per Student

This scholarship is awarded to those students who remain on the Dean’s or Presidential Honors list for both the fall and spring semester in an academic year. For students who receive Presidential Honors for both of these terms, a $250 scholarship will be awarded at the beginning of the following fall semester. For students who receive Presidential Honors and/or are on the Dean’s
list, a $100 scholarship will be awarded at the beginning of the following fall semester. The dean of the School of Engineering will also host an event at the beginning of the fall semester where he will speak and they will have an opportunity to congregate and ask questions about the upcoming year.

Mentor Scholarships  
Amount: $1,200 Per Academic Year ($600 per semester)  
The School of Engineering Mentor Program offers scholarships to students that apply, are selected, and commit to offering 50 hours of mentoring to their fellow engineering students each semester. Students that would like to be considered for a mentor position should have at least a 3.0 GPA in all coursework and be friendly and approachable.

Dupuis Leadership Scholarship  
Amount: $1,500 Per Student  
School of Engineering Dupuis Leadership Scholars have the opportunity to impact the future of the School of Engineering, while receiving a $1,500 scholarship. Specifically, the Leadership Scholars play a major role in several student recruiting initiatives, including making brief, personal presentations to high school students and parents during UAB Days, coordinating and serving as tour guides for groups taking part in scheduled School of Engineering tours, and participating in a limited number of additional recruiting events.

Dupuis Leadership Scholars must be a academically successful rising junior or senior with at least 30 hours of credit completed at UAB and must take initiative, possess organizational skills, present themselves well, and be personable and friendly. To apply for a Dupuis Leadership Scholar position, students must submit their résumé, including all college activities. From these submissions, the Leadership Scholars committee will select applicants for interviews. Final selections will be made following interviews.

Transfer Scholarship  
Amount: $1,000  
To be considered for this scholarship, applicants must have a minimum GPA of 3.5 and have earned at least 45 semester hours of academic coursework relevant to an engineering degree, including successful completion of Calculus 2. International students, part-time students, and students with previous coursework from another 4-year institution will not be considered.

Information about the scholarships below will be sent to eligible students by email:
Adam Telle Memorial Endowed Award Scholarship in Mechanical Engineering  
Clayton V. Reuse/Birmingham ASHRAE Endowed Scholarship  
Leah McCraney Memorial Endowed Scholarship in Advanced Safety Engineering and Management

For more information about the following awards, engineering students should contact the UAB National Alumni Society:  
Mobolaji O. Kukoyi, P.E. UAB National Alumni Society Scholar Award  
Dr. Ray Watts Textbook Scholarship UAB National Alumni Society Scholar Award  

UAB National Alumni Society Brandon Keith Jacobs Memorial Scholarship

School of Health Professions

Dean’s Merit Scholarship: These scholarships are used to recruit or retain outstanding students enrolled in SHP academic programs. Selection is based upon academic achievement, including but not limited to, grade point average and standardized test scores. Selection of awardees is made by SHP academic programs.

Dean’s Diversity Scholarship: These scholarships are used to recruit or retain students from under-represented groups who will enhance the diversity of SHP academic programs, and consequently the diversity of the health professions workforce. Recipients must meet the University’s definition of under-represented groups. Selection of awardees is made by SHP academic programs.

SHP Scholarship: These scholarships are funded through a combination of allocated budget monies from the Dean and proceeds from the SHP Endowed Scholarship fund, which was established in 1988 through gifts from faculty, staff, and friends of the School. These scholarships are used to recruit or retain students who will enhance the diversity of SHP programs or who have outstanding academic credentials, including but not limited to, grade point average and standardized test scores. Selection of awardees is made by the SHP Scholarship Committee; applications are submitted by SHP program directors on behalf of qualified students. The number and amount of awards are determined by the Scholarship Committee based upon available funds.

Lettie Pate Whitehead Foundation Scholarship: These scholarships are made possible by an annual grant from the Lettie Pate Whitehead Foundation, based in Atlanta, Georgia. The Whitehead family was the first to secure an exclusive contract to bottle and sell Coca-Cola throughout most of the United States. Applicants must be young women from the Southeastern states who are pursuing an undergraduate or graduate degree in one of the SHP programs and who demonstrate financial need. Selection is made by the SHP Office of Student Recruitment, Engagement, and Success. For more information contact the Assistant Dean for Student Affairs at (205) 934-4195.

Ethel M. and Jessie D. Smith Endowed Nursing and Allied Health Scholarship: This endowment provides scholarships for both the School of Health Professions and the School of Nursing. SHP applicants must be admitted to or enrolled in a SHP baccalaureate program and be a resident of the state of Alabama at the time of enrollment. Selection is made by the SHP Office of Student Recruitment, Engagement, and Success. For more information contact the Assistant Dean for Student Affairs at (205) 934-4195.

Matthew F. McNulty, Jr., Health Services Emergency Loan: Students enrolled in the professional phase of programs in the School of Health Professions are eligible to apply for this low-interest loan. The fund was originally established by the University Hospital Auxiliary, and its purpose is to provide support for students needing emergency assistance. The amount of the loan will depend upon the student’s needs. Inquiries should be directed to the SHP Office of Student Recruitment, Engagement, and Success. For more information contact the Assistant Dean for Student Affairs at (205) 934-4195.

Patricia Ann Amos Endowed Scholarship (Clinical Laboratory Sciences): The Patricia Ann Amos Scholarship endowment was established in 2002 through gifts given by Ms. Amos and other donors. Ms. Amos retired from UAB in 1988 after 28 years of service as a
medical technology faculty member, department chair, and assistant dean. Applicants must be accepted into the professional phase of the Clinical Laboratory Sciences Program and have satisfactory academic performance. Selection is made by a committee comprised of the Clinical Laboratory Sciences faculty. The number and amount of the awards given each year is determined by the committee based upon the availability of funds.

Cooperative Clinical Laboratories of Huntsville Endowed Scholarship/Loan (Clinical Laboratory Sciences): The CCLH Scholarship/Loan Fund endowment was created in 1991 by the Huntsville Cooperative School of Medical Technology, Huntsville Hospital, Crestwood Hospital, Huntsville Diagnostic Laboratory and Humana Hospital Huntsville. Applicants must be full-time students in the UAB Clinical Laboratory Sciences Program with preference given to those who reside in northern Alabama or who wish to obtain employment as a clinical laboratory scientist at a Huntsville institution. Scholarship awards are an amount equal to 25% of UAB tuition and fees; loan recipients may receive an amount equal to the total of tuition and fees for the duration of the program. The loan is repaid subsequent to graduation; however, recipients who are employed as clinical laboratory scientists for one year at a designated Huntsville institution are forgiven the total. Selection is made by a committee comprised of the CCLH representatives and a UAB Clinical Laboratory Sciences faculty member.

Elbert and Panzie Purser Scholarship (Physician Assistant): The Purser Scholarship was established in 1979 and subsequently endowed in 1983 through a gift from the Elbert H. Purser Trust. Applicants must be admitted to or enrolled in the UAB Physician Assistant program and must be natives of the state of Alabama. Selection is made by a committee of the Physician Assistant program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Earl W. Hall Loan (Physician Assistant): Seniors in the Physician Assistant Program with emergency financial needs are eligible to apply for this low-interest loan. Inquiries should be directed to the Director, Physician Assistant Program.

Henry L. Laws Scholarship Loan (Physician Assistant): Students with financial need who are enrolled in or accepted for enrollment in the Physician Assistant Program may apply for this loan. Inquiries should be directed to the Director, Physician Assistant Program.

Alabama HIMSS President’s Endowed Award in Health Informatics: The Alabama HIMSS Endowed Award Fund was established in 2004 by a generous gift from the Alabama chapter of the Healthcare Information and Management Systems Society to be awarded annually to recognize and provide financial support to an outstanding senior student enrolled in the UAB Master of Science in Health Informatics program as determined by a committee of the MSHA faculty and the President of Alabama HIMSS or his or her chosen representative.

Alabama Hospital Association Scholarship (Health Administration): This scholarship is sponsored annually by a gift from the Alabama Hospital Association for a student admitted to or enrolled in the UAB Master of Science in Health Administration program, based upon criteria established by the Association. Eligible students are identified by the MSHA program faculty; selection is made by the Alabama Hospital Association leadership in consultation with the faculty.

Robert C. Chapman Endowed Scholarship (Health Administration): The Robert C. Chapman Endowed Scholarship was established in 2003 through a generous gift from Robert C. (Bob) Chapman, an alumnus of the M.S. in Health Administration program and a long-time supporter and preceptor for the program. Applicants must be enrolled in or admitted to the MSHA program, demonstrate solid academic promise, financial need, leadership potential and high ethical standards. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Michael E. Garrigan Endowed Scholarship (Health Administration): The Michael E. Garrigan Endowed Scholarship was established in 2000 by a generous gift from Mike Garrigan, an alumnus of the MSHA program and long-time supporter and preceptor for the program. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

HSA 25th Anniversary Endowed Scholarship (Health Administration): This scholarship endowment was established through generous gifts made by faculty, alumni, and friends of the MSHA program given to commemorate the 25th anniversary of the Health Administration program. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

The Richard A. Lind Endowed Scholarship Fund (Health Administration): This scholarship endowment was established in 2000 through the generosity of an anonymous donor. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Medical Group Management Association Endowed Scholarship (Health Administration): The MGMA Scholarship Endowment was established in 1987 through gifts from the Medical Group Management Association of Alabama and the MGMA Birmingham Chapter to support students who are committed to entering the profession of medical practice management. Applicants must be residents of the state of Alabama, have completed two terms of study in the MSHA program, and demonstrate academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

J. Kenneth Roan Memorial Endowed Scholarship (Health Administration): This scholarship endowment was established in 1985 in memory of J. Kenneth Roan, a native of Decatur, Alabama and a
pioneer in the field of psychiatric care facilities. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Preference is given to students interested in pursuing a career in the administration of mental health facilities. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Scott Braxton Ryland Memorial Endowed Scholarship (Health Administration): The Scott Ryland Memorial Scholarship endowment was established in 2004 through gifts made by family, friends, and colleagues of Mr. Ryland, an alumnus of the MSHA program and a student in the Administration-Health Services Ph.D. program at the time of his death at age 33. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Jon E. Vice Scholarship (Health Administration): This scholarship was established in 2005 in honor of MSHA alumnus Jon E. Vice and in recognition of his financial support and volunteer leadership for both the Department of Health Services Administration and the School of Health Professions. The scholarship is funded by a portion of the proceeds from the Health Services Administration 25th Anniversary Scholarship endowment, which was established through a fund-raising drive chaired by Mr. Vice. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Robert J. Zasa Endowed Scholarship (Health Administration): The Robert J. Zasa Scholarship endowment was established in 2000 through a generous gift by Mr. Zasa, an alumnus of the MSHA program who has provided long-time support to the program as a student mentor and guest lecturer. Applicants must be enrolled in or admitted to the MSHA program and demonstrate solid academic promise as well as financial need. Selection is made by a committee of the MSHA program faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

The Alabama Power Service Organization/Glenda Harris Scholarship (Dietetic Internship/Nutrition Sciences): This scholarship is sponsored by the Alabama Power Service Organization to honor Glenda Harris and to promote educational opportunities to deserving young adults in the Department of Nutrition Sciences. Selection is made by the Nutrition Sciences faculty; the number and amount of the awards are subject to the availability of funds.

Rebecca L. Bradley Endowed Scholarship (Dietetic Internship): This scholarship endowment was established in 2005 in honor of Rebecca L. Bradley for her many years of dedicated service as a faculty member and director of the UAB Dietetic Internship program, a position she retained until her retirement in 1998. Applicants must be admitted to or enrolled in the UAB Dietetic Internship Program. Selection is made by the Dietetic Intern program faculty; the number and amount of the awards are determined annually by the faculty based upon the availability of funds.

Carol Brewster Craig Endowed Scholarship (Dietetic Internship/Nutrition Sciences): The Carol Brewster Craig Endowed Scholarship was established 1992 by gifts made in honor of Ms. Craig, professor and director of the Division of Human Nutrition and Dietetics until her retirement, to commemorate the occasion of the 25th anniversary of the Dietetic Internship program at UAB. Applicants must be admitted to or enrolled in the professional phase of either the Dietetic Internship or the M.S. Nutrition Sciences degree programs and demonstrate solid academic promise. Selection of the recipients is made by a departmental scholarship committee; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Howerde E. Sauberlich Endowed Award for Excellence in Nutrition Sciences Research: The Sauberlich Award endowment was established in 2003 in memory of Dr. Howerde E. Sauberlich, longtime nutrition sciences faculty member and a pioneer in the study of macro- and micronutrients, through a generous gift from his wife, Irene, along with gifts from other donors. The award is used to recognize and financially support students for superior performance in research of an area of the nutrition sciences. Selection is made by departmental committees for the Clinical Nutrition master’s program and the Nutrition Sciences Ph.D. program; the number and amount of the awards are determined by the committees based upon the availability of funds.

Carroline Amari Endowed Scholarship (Occupational Therapy): The Carroline “Cat” Amari Endowed Scholarship was established in 2006 in honor of Cat Amari for her many years of service as a faculty member, program director and mentor to many OT students. It is the first endowed scholarship to have been established for Occupational Therapy students at UAB. Selection is made by a committee of the Department of Occupational Therapy faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Elizabeth Davis Scholarship (Occupational Therapy): The Elizabeth Davis Scholarship is made possible by contributions made by family and friends of Ms. Davis in appreciation for care she received from an occupational therapist. Selection is made by a committee of the Department of Occupational Therapy faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Occupational Therapy Memorial Scholarship (Occupational Therapy): The OT Memorial Scholarship is funded through contributions by alumni, faculty, and friends of the program wishing to honor their loved ones. Selection is made by a committee of the Department of Occupational Therapy faculty; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Randy Gilner Emergency Loan (Physical Therapy): This no-interest loan may be awarded to students enrolled in the Department of Physical Therapy. Inquiries should be directed to the Chair of the Physical Therapy Department.

HEALTHSOUTH Rehabilitation Corporation Endowed Scholarship (Physical Therapy): This scholarship endowment was established in 1991 by a gift from HealthSouth Rehabilitation Corporation. Applicants must be Alabama residents, must be enrolled in the Doctor of Physical Therapy program at UAB and should demonstrate solid academic progress. Selection is made by the Department of Physical Therapy Financial Aid Committee; the number and amount of the annual awards are determined by the committee based upon the availability of funds.

Shirley Shaddeau Memorial Endowed Scholarship (Physical Therapy): The Shirley Shaddeau Memorial Scholarship endowment was established through a generous gift from Sue Shaddeau to honor the memory of her sister, Shirley Shaddeau, and her dedication to
the profession of physical therapy. The fund has received additional
collections from family, alumni and friends. Applicants must be enrolled
in the first professional degree program in Physical Therapy, demonstrate
solid academic promise, financial need and be of high moral character.
Selection is made by the Department of Physical Therapy Financial Aid
Committee; the number and amount of the annual awards are determined
by the committee based upon the availability of funds.

School of Nursing

The School of Nursing at UAB has an excellent scholarship program
in which many students participate. Because of the size of some of
these scholarship endowments, the school is able to award multiple
students scholarships from the same endowed fund. The scholarship
application process is simple. One application is needed to be considered
for all undergraduate or graduate scholarships. Please call the School of
Nursing Office of Student Affairs at 205-934-5483 or visit the website at:
http://www.uab.edu/nursing/home/son-scholarships for complete details
regarding eligibility and application deadlines.

The following is a listing of scholarships at the University of Alabama
School of Nursing at UAB.

Alice L. McCallum Endowed Nursing Scholarship: Established by
family and friends of Dr. Charles A. McCallum, Jr., and the late Alice L.
McCallum. Criteria: admission to or current full-time enrollment in the
School of Nursing, a cumulative grade point average of at least 3.0
on a 4.0 scale, and must demonstrate financial need as determined by
the UAB Office of Student Financial Aid. Preference will be given to first
year students enrolled in the undergraduate or graduate pre-licensure
programs.

Barbara and Emmet O’Neal Endowed Nursing Scholarship:
Established by
family and friends of Barbara O’Neal and the late Emmet O’Neal. Mr. O’Neal left a legacy as a generous benefactor and supporter
of the people of Birmingham, and Mrs. O’Neal is a member of the School of Nursing’s Board of Visitors. Criteria: admission to or current full-time
enrollment in study leading to a degree at the School of Nursing, a
cumulative grade point average of at least 3.2 on a 4.0 scale, and must
demonstrate financial need as determined by the UAB Office of Student
Financial Aid. Preference will be given to students who have a desire to
pursue a career in community-based nursing.

Benjamin and Roberta Russell Nursing Scholarship: Established
with funds received from the Benjamin and Roberta Russell Foundation.
Criteria: admission to or current full-time enrollment in study leading to a
degree in nursing at the University of Alabama School of Nursing at UAB,
cumulative grade point average of at least 3.0 on a 4.0 scale, and must
demonstrate financial need as determined by the UAB Office of Student
Financial Aid. Preference will be given to students who have a desire to
pursue a career in physical therapy.

Board of Visitors Endowed Veterans Nursing Care Scholarship:
Established by the UAB School of Nursing Board of Visitors with
proceeds from the 2009 MASH fundraising event. Criteria: admission to
or current full-time enrollment in study leading to a degree in the School
of Nursing at UAB, a cumulative grade point average of at least 3.0 on a
4.0 scale, and applicants must demonstrate financial need as determined
by the UAB Office of Financial Aid. First preference will be given to
students who demonstrate an interest in and commitment to providing
nursing care for veterans and their families.

Board of Visitors Endowed Nursing Scholarship: Established with
funds raised by the UAB School of Nursing Board of Visitors. Criteria:
admission to or current full-time enrollment in study leading to a degree
in the School of Nursing at UAB, and a cumulative grade point average
of at least 3.0 on a 4.0 scale. Preference will be given to those who
are residents of Alabama, and who express a desire to live and work in
Alabama following graduation.

Board of Visitors Endowed Scholarship in Doctoral Nursing:
Established with funds raised by the UAB School of Nursing Board of
Visitors to support deserving doctoral nursing students. Criteria: Must be
currently enrolled or admitted to a doctoral degree-granting program in
the School of Nursing and have earned at least an overall 3.0 grade point
average in coursework completed prior to the time of application.

Brock Family Endowed Nursing Scholarship: The Harry B. and Jane
H. Brock Foundation has made generous gifts to create an endowed
scholarship at the School of Nursing, in recognition of the nursing career
of their daughter, Barrett Brock MacKay (MSN 1979), who is a member
of the School’s Board of Visitors. Criteria: admission to or current full-
time enrollment in a degree-seeking program in the School of Nursing.
Applicants must have at least an overall 2.8 grade point average on a 4.0
scale at the time of the scholarship application. Preference will be given
to applicants that demonstrate financial need as determined by the UAB
Office of Financial Aid.

Carolyn Farrior Boone Endowed Nursing Scholarship:
Established by
Mr. and Mrs. James B. Boone, Jr., of Tuscaloosa, Alabama. Mr. Boone
serves as Chairman of the Board and Director of Boone Newspapers,
Inc. His wife, Carolyn, is a retired nurse and a member of the UAB
School of Nursing Board of Visitors. Criteria: admission to or current full-
time enrollment in the School of Nursing. Applicants must demonstrate
financial need as determined by the UAB Office of Financial Aid.

Catherine S. and Lee J. Styslinger, Jr., Endowed Nursing
Scholarship: Established by Catherine and Lee Styslinger, Jr., well
known residents of Birmingham and throughout the state of Alabama for
their leadership and generous philanthropic support. Catherine is member
of the UAB School of Nursing Board of Visitors. Criteria: admission to or
current full-time enrollment in study leading to a degree at the School
of Nursing, and a cumulative grade point average of at least 3.0 on a
4.0 scale, and must demonstrate financial need as determined by the UAB
Office of Student Financial Aid. Preference will be given to students
enrolled in the undergraduate and/or graduate pre-licensure programs.

Delia and John Robert Endowed Nursing Scholarship: Established with
funds raised by the Delia and John Robert Trust to support students
seeking a professional nursing career. Criteria: current full-time
enrollment in study leading to a degree in nursing at the UAB School
of Nursing and a cumulative grade point average of at least 3.0. Preference
will be given to those for whom the decision to return to school is a
second life choice; or who may have pursued a degree in nursing earlier
in life and been forced by circumstances to stop that education; or who
are returning to school in order to seek an advanced degree in nursing.

Dorothy G. Sterne Nursing Scholarship Fund: Established with funds
received from the Dorothy Sterne estate through the provisions of her
will. Preference will be given to Calhoun County, Alabama, residents
enrolled full-time in study leading to the BSN degree at the UAB School
of Nursing.
Dr. Charles E. Flowers, Jr. Endowed Nursing Scholarship: Established by Dr. Flowers' widow, Dr. Juanzetta S. Flowers, and family, colleagues and friends of Dr. Charles E. Flowers, this scholarship was created to assist deserving students who are enrolled in the UAB School of Nursing. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing. Applicants should have a cumulative 3.0 grade point average in foundational and overall coursework completed prior to the time of application.

Dr. Margaret Millsap Memorial Endowed Award in Nursing: Established by alumni of the UAB School of Nursing and members of the Nu Chapter of Sigma Theta Tau International, the Honor Society of Nursing, and colleagues of Dr. Margaret Israel Millsap to provide financial support for deserving advanced practice nursing students. Criteria: Must be currently enrolled in the undergraduate program in the School of Nursing and demonstrate solid academic promise and have earned a cumulative 2.8 (on a 4.0 scale) grade point average in coursework prior to the time of application.

Dr. Paul W. Scockel III and Mary Lou Scockel and William A. Honeycutt and Christine R. Honeycutt Endowed Scholarship: Established by Mr. and Mrs. Paul S. Scockel in honor and memory of their parents Dr. Paul W. Scockel III and Mary Lou Scockel and William A. Honeycutt and Christine R. Honeycutt. Criteria: must demonstrate financial need as defined by the UAB Financial Aid Office, earned at least an overall 3.0 grade point average, and be currently enrolled in, or admitted to a degree-granting program at UAB School of Nursing.

Eileen Marie Mahan Endowed Scholarship in Nursing Scholarship: Established in memory of Eileen Marie Mahan (MSN 1980), who died in an automobile accident. This memorial scholarship is to enable deserving graduate students in the School of Nursing. Criteria: admission to or current full-time enrollment in a degree-seeking graduate program at the UAB School of Nursing, a cumulative grade point average of 3.0 out of 4.0, and must demonstrate financial need as determined by the UAB Office of Financial Aid.

Eileen S. Meyer Endowed Nursing Scholarship: Established by Dr. Bruce Burns in honor of his wife, Eileen S. Meyer, CRNP as a surprise for her 40th birthday. Criteria: Must be currently enrolled in, or admitted to, a degree-granting program in the School of Nursing and demonstrate solid academic promise in foundational and overall coursework completed prior to the time of application. Applicants must demonstrate excellent skills in physical diagnosis, as attested to by letters of recommendation from faculty. Applicants must demonstrate excellent skills in communication and interpersonal relationships as attested to by letters of recommendation from faculty and I or employers. Students do not have to qualify for federal assistance to be considered for this award.

Elizabeth Jane Harper Memorial Scholarship: Established by family members as a memorial to Elizabeth Jane Harper, who was a student at the UAB School of Nursing. Criteria: must be currently enrolled as a full-time student in study leading to the BSN degree at the UAB School of Nursing, be in good standing, and show financial need as defined by the UAB Financial Aid Office.

Elizabeth Stullenbarger Endowed Nursing Scholarship: Established by UAB School of Nursing Professor Emerita, Dr. Elizabeth Stullenbarger together with other friends of the School of Nursing to provide financial support to deserving nursing students. Criteria: must be currently enrolled in, or admitted to, a degree-granting program in the School of Nursing, with first preference given to full-time students in the undergraduate and graduate pre-licensure programs. Applicants should have earned at least an overall 3.0 grade point average in foundational and overall coursework completed prior to the time of application.

Dr. Elwynn “Chick” Hale Endowed Nursing Scholarship: Established by family and friends of the late Dr. Elwynn “Chick” Hale in her memory to assist deserving nursing students at the UAB School of Nursing. An alumna of the School, Dr. Hale was also a beloved faculty member from 1974 to 1990, and served as a member of the School’s Board of Visitors until her death. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, and a cumulative grade point average of 3.0 on a 4.0 scale. Preference given to students who are citizens of Alabama or who express a desire to work in Alabama following graduation.

Emmet and Mary Anne O’Neal Endowed Nursing Scholarship: Established with gifts from family and friends of the late Mary Anne and Emmet O’Neal, who, during their lifetime, set an example of grace and benevolence for their family and for the Birmingham community. Criteria: admission to or current full-time enrollment in study leading to a degree in nursing at the UAB School of Nursing, cumulative grade point average of at least a 3.0 on a 4.0 scale, and a demonstrated financial need as determined by the UAB Office of Student Financial Aid.

Ethel M. and Jesse D. Smith Nursing and Allied Health Scholarship: Established by Dr. Bettye Jane Smith as a memorial to her parents, Ethel McCarty Smith and Jesse Doswell Smith. Criteria: must demonstrate financial need as defined by the UAB Financial Aid Office, reside in the state of Alabama, have a cumulative grade point average of at least 3.0 on a 4.0 scale, and be admitted to or enrolled in full-time study leading to the BSN degree at the UAB School of Nursing.

Fay B. Ireland Endowed Nursing Scholarship: Established by Mrs. William R. Ireland, Sr., to support native Alabama students pursuing a degree at the UAB School of Nursing. Criteria: applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

Florence A. Hixson Endowed Nursing Scholarship: Established by family, friends, and colleagues of Dr. Florence Alberta Hixson, the first Dean of the UAB School of Nursing. Criteria: current full-time enrollment in study leading to an advanced degree at the UAB School of Nursing and a cumulative grade point average of at least 3.0 on a 4.0 scale.

Francis S. Falkenburg Endowed Nursing Scholarship: Established by the family of Francis S. Falkenburg, former member of the State Legislature of Alabama and lobbyist for UAB and the Alabama State Nurses Association. Criteria: admission to or current full-time enrollment in the undergraduate program in the School of Nursing and demonstrate financial need as determine by the family of Gladys Farmer Colvin, who was a nurse for many years at the Jefferson County Department of Public Health. Criteria: admission to or current full-time enrollment in the PhD program in the UAB School of Nursing and have a cumulative grade point average of 3.0 or above on a 4.0 scale.

Governors Lurleen B. and George C. Wallace Memorial Fund: Established by James T. Parsons and his late wife, Bobbie Parsons, to honor her parents, Governor Lurleen Burns Wallace and Governor George Corley Wallace. Bobbie served as a member of the UAB School of Nursing Board of Visitors for 18 years. Gov. Lurleen Wallace respected and admired the work of nurses, and Gov. George Wallace was a strong supporter of UAB and provided significant support through funding and
legislation. This fund is used for scholarships and many other worthy purposes within the UAB School of Nursing.

**The Hill Crest Foundation Endowed Nursing Scholarship:** Established by the Hill Crest Foundation to provide financial assistance to deserving students who are admitted to the UAB School of Nursing. Criteria: Students must be currently enrolled in, or admitted to, a degree-granting program in the School of Nursing. First preference will be given to students seeking a second degree in the Accelerated Masters in Nursing Pathway (AMNP). Applicants must have at least an overall 3.0 grade point average in foundational and overall coursework completed prior to the time of application.

**James Coleman Lee, Sr., Endowed Nursing Scholarship:** Established by the late James C. Lee, Jr. and his wife Rose, through the Buffalo Rock Company to honor the memory of Mr. Lee’s father, James Coleman Lee, Sr., this scholarship was created to encourage students to enter the nursing profession and to make it possible for many future nurses to focus on their studies without the burden of financial pressure. Criteria: admission to the UAB School of Nursing. Applicants should demonstrate solid academic promise and have earned at least a cumulative 2.8 grade point average on a 4.0 scale in coursework prior to the time of application. Preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Financial Aid.

**Jaran F. Lowder Endowed Scholarship:** Established by Mr. Thomas H. Lowder and his late wife, Jarman, to encourage students to enter the nursing profession and to make it possible for many future students in the School of Nursing to focus on their studies without the burden of financial pressures. Mrs. Lowder (BSN 1973) served on the Board of Visitors for the School of Nursing until her untimely passing. Criteria: must be admitted to or enrolled in a full-time degree-seeking program at the School of Nursing, have a cumulative 3.0 grade point average on a 4.0 scale in coursework at the time of application. Applicants will demonstrate high moral character and preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Financial Aid.

**Jean Riley Tomlinson Endowed Nursing Scholarship:** Established by Mrs. Jean Riley Tomlinson, longtime member and former chair of the UAB School of Nursing Board of Visitors. This scholarship pays tribute to the nurses and physicians specializing in cardiovascular illnesses that provided excellent care to her late husband, Jack O. Tomlinson, Sr. It is the Tomlinson’s intent that this scholarship make a significant difference for students in need of financial assistance for higher education. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, a cumulative grade point average of at least a 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Financial Aid. Preference will be given to those who have demonstrated an interest in cardiovascular nursing.

**Jernigan Endowed Nursing Scholarship:** Established by the late Thomas E. Jernigan, Sr. and his wife Donna. Mrs. Jernigan is a member of the UAB School of Nursing Board of Visitors. Criteria: must have a cumulative grade point average of at least 3.0 on a 4.0 scale, and be eligible to enroll full-time in a junior level clinical nursing course at the University of Alabama School of Nursing at UAB. Preference will be given to those who demonstrate leadership potential or ability through participation in extracurricular activities or similar experiences.

**Jo Ann Barnett Endowed Nursing Scholarship:** Established with funds from friends, colleagues and family of the late Jo Ann Barnett (BSN 1987, MSN 1990), this scholarship was created to honor Ms. Barnett’s memory and to benefit students in the School of Nursing. Criteria: admission to or current full-time enrollment in the UAB School of Nursing MSN program, with preference given to those students pursuing a career in neonatal nursing or oncology nursing. Applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

**John Wilson Rodgers Endowed Memorial Scholarship:** Established by Dr. Marguerite Rodgers Kinney (DIPNL 1961), a former faculty member at the UAB School of Nursing, as a memorial to her father. Criteria: good academic standing, current full-time enrollment in study leading to the MSN degree. Preference will be given to applicants who are pursuing, or their program of study shows that they plan to pursue, advanced study in cardiovascular nursing and demonstrate financial need as determined by the UAB Office of Student Financial Aid.

**Junior Board of Visitors Endowed Nursing Scholarship:** Established by the UAB School of Nursing Junior Board of Visitors with proceeds from the No-Show Ball fundraisers. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, have earned a cumulative 3.0 grade point average on a 4.0 scale, and deserving of financial assistance as determined by the UAB Office of Financial Aid. First preference will be given to students demonstrating an interest and commitment to providing pediatric nursing care.

**Lois and Barry Luther National Alumni Society Endowed Nursing Scholarship:** Established by UAB School of Nursing alumna and former faculty member, Lois Luther and her husband, Barry Luther to provide financial assistance to undergraduate nursing students. Criteria: Must be admitted to a degree-granting program at the School of Nursing and have earned at least a 2.5 in coursework completed prior to the time of application. Students do not have to qualify for federal assistance to be considered for this award.

**Lois Drolet Luckie Endowed Nursing Scholarship:** Established in memory of Mrs. Lois Luckie by her loving husband, Robert Luckie, Jr. This scholarship is awarded in honor of Holli Kemper (BSN 1985), one of Mrs. Luckie’s oncology nurses. According to the late, Mr. Luckie, Ms. Kemper constantly “went the extra mile” during his wife’s terminal illness, carrying out her duties with great professionalism, cheerfulness and sympathetic skill. Criteria: must be admitted to or enrolled full-time in the School of Nursing, a cumulative grade point average of at least 3.0 on a 4.0 scale. Preference will be given to applicants who express an interest in oncology nursing.

**Mable E. Lamb Endowed Nursing Scholarship:** Established with funds from a planned gift to honor Dr. Lamb’s commitment to educating the nurses of the future. Criteria: must have a cumulative grade point average of at least 2.8 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Financial Aid.

**Margaret and Bradford Kidd Endowed Nursing Scholarship:** Established by Margaret and the late, William Bradford Kidd. Mrs. Kidd is a member of the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, must have a cumulative grade point average of at least 3.0 on a 4.0 scale, and applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

**Margaret Parks Kendrick Nursing Scholarship:** Established by Dr. Marvin Hayne Kendrick as a memorial to his mother, Margaret Parks Kendrick. Criteria: must show financial need as defined by the UAB Financial Aid Office, be admitted to or enrolled in full-time study leading to the BSN degree at the University of Alabama School of Nursing at UAB,
and have a cumulative grade point average of at least 3.0 on a 4.0 scale. Preference will be given to residents of Crenshaw County, Alabama.

Marie Carter Bonner Memorial Scholarship: established by friends and associates as a memorial to Mrs. Bonner, who worked as a nurse at UAB Hospital for more than 20 years and served as Director of Psychiatric Nursing. Criteria: admission to or current full-time enrollment in study leading to a degree in the School of Nursing at UAB, and a cumulative grade point average of at least 3.0. Preference will be given to applicants who express an interest in psychiatric-mental health nursing.

Mary L. O’Koren School of Nursing Alumni Association Endowed Scholarship: Established with funds received from the late, Dr. Marie L. O’Koren and members of the alumni association of the UAB School of Nursing, in honor of Dr. O’Koren’s many years of service as dean of the School. Criteria: admission to or current full-time enrollment in study leading to a degree in nursing at the UAB School of Nursing, cumulative grade point average of at least a 3.0 on a 4.0 scale, and a demonstrated financial need as determined by the UAB Office of Student Financial Aid.

Marie S. Ingalls Endowed Nursing Scholarship: Established by funds from the estate of Marie S. Ingalls, a noted civic leader and philanthropist, who was a member of the UAB School of Nursing Board of Visitors. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing. Applicants must have at least an overall 3.0 grade point average on a 4.0 scale at the time of the scholarship application.

Martha F. Tilt Endowed Nursing Scholarship: Established by Mrs. Tilt’s three sons, family, and friends - with the intent that nursing students be given a helping hand into a profession through this scholarship, and in memory of one inspirational role model who lived and defined the profession - a lady who gained her rewards in life through befriending, comforting and caring for others. Mrs. Tilt had the heart of a nurse and shared it freely with everyone she met. Criteria: admission to or current full-time enrollment at the School of Nursing, and a cumulative grade point average of at least 2.5 on a 4.0 scale. First preference will be given to mature, non-traditional, first-year nursing undergraduate students, as defined by the University, and to those applicants who plan to practice nursing either in a clinical or a hospital setting upon graduation. Preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Student Financial Aid.

Mary G. Nash Endowed Nursing Scholarship: Established by colleagues and friends to pay tribute to Dr. Mary G. Nash and her service to the School of Nursing, University Hospital, and UAB. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing Preference will be given to applicants who plan to work in Alabama upon graduation. The School of Nursing Office of Development and Alumni Affairs announces application deadlines and procedures.

Mary Josephine Harwell Nursing Scholarship: Established with funds received from the estate of Mary Josephine Harwell through the provisions of her will. Criteria: must be admitted to or currently enrolled full-time in study leading to the BSN degree at the UAB School of Nursing, and have a cumulative grade point average of 2.5 or higher. Preference will be given to residents of Elmore County, Alabama, and neighboring counties, and those who show financial need as defined by the UAB Financial Aid Office.

Nancy Eastman Harp Oncology Endowed Nursing Scholarship: Established Dr. J. Patrick Daugherty and her family and friend, as a memorial to Mrs. Harp (BSN 1972) - an oncology nurse and a graduate of the UAB School of Nursing who was killed in a tragic automobile accident. Criteria: current full-time enrollment in the oncology concentration of the MSN degree, a cumulative grade point average of at least 3.0, and evidence of marked achievement or potential for marked achievement in oncology nursing.

Peggy Spain McDonald Endowed Nursing Scholarship: Established by the late, Peggy Spain McDonald, a longtime community leader in Birmingham. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, a cumulative grade point average of at least 3.0 on a 4.0 scale, and must demonstrate financial need as determined by the UAB Office of Student Financial Aid. Preference will be given to those who have demonstrated an interest in geriatric nursing.

Rachel Z. Booth Endowed Nursing Scholarship: Established by the UAB School of Nursing Board of Visitors with proceeds from the 2005 “MASH: Make Another Scholarship Happen” fundraising event. Dr. Booth served as the School of Nursing’s third dean from 1987-2005. Criteria: students must be currently enrolled in, or admitted to, a doctoral program in the UAB School of Nursing, a cumulative grade point average of at least 3.2 on a 4.0 scale, and applicants must demonstrate financial need as determined by the UAB Office of Financial Aid.

The Reese Phifer, Jr. Endowed Nursing Scholarship: Established by the Reese Phifer, Jr., Memorial Foundation to support Alabama students pursuing degrees in nursing and to honor the late Mr. Phifer. The scholarship assists Alabama residents who are currently enrolled in, or have been admitted to, the baccalaureate, masters or doctoral degree-seeking program within the UAB School of Nursing. Criteria: admission to or current full-time enrollment in study leading to a degree in the School of Nursing, a grade point average of at least 3.0 on a 4.0 scale, and must be a resident of the state of Alabama.

Rylee/Casper Endowed Nursing Scholarship: Established by a charitable gift from Mrs. Gladys Muriel Rylee Casper who was a 1947 diplomat of the School of Nursing and served for more than two decades as a nurse in the armed forces. Criteria: admission to or current full-time enrollment in a degree-seeking program at the UAB School of Nursing, demonstrate financial need as determined by the UAB Office of Student Financial Aid, and applicants must be residents of the State of Alabama. Preference will be given to applicants from Bibb, Chilton, or Perry Counties.

Seth Houston McCain, Jr. and Elizabeth Morgan McCain Endowed Scholarship in Pediatric Nursing - Established by the Junior Board of Visitors in memory of twin babies for whom the scholarship is named, to provide financial assistance to deserving nursing students specializing in pediatric care. Criteria: Must be admitted to or currently enrolled in the graduate program in the UAB School of Nursing. First preference will be given to applicants wishing to pursue a career in neonatal nursing. Applicants should have earned at least an overall 3.0 grade point average in coursework completed prior to the time of application.

SOS Foundation Scholarship: Established with funds received from the Sabin Oral Sunday (SOS) Foundation of Jefferson County. Preference will be given to a Jefferson County, Alabama, resident enrolled full-time in study leading to the BSN degree at the UAB School of Nursing.

The Robert Luckie Family Endowed Nursing Scholarship: Established by Robert E. Luckie, Jr., to enable deserving nursing students attending the UAB School of Nursing realize their dream of receiving a quality education. Criteria: admission to or current full-time...
enrollment in a degree-seeking program in the UAB School of Nursing, a cumulative grade point average of 2.8 on a 4.0 scale. Preference will be given to students who are citizens of Alabama or who express a desire to work in Alabama following graduation and demonstrate financial need as determined by the UAB Office of Financial Aid.

The School of Nursing Dean’s Merit Endowed Scholarship: Four scholarships are available per year to undergraduate students. Three of these scholarships are two-year renewable scholarships and one is for one year only. The amount of the scholarship is $1,000 per year. Criteria: a “B” (3.0) average on all collegiate pre-nursing work attempted. For renewal of a two-year scholarship, a student must maintain a 2.5 grade point average on nursing courses. All applicants for admission to study leading to the BSN degree at the School of Nursing are automatically considered for the Dean’s Scholarship.

The School of Nursing Faculty and Staff Endowed Scholarship: Established with funds from School of Nursing Faculty and Staff, this scholarship was established to benefit the training and education of deserving nursing students. Criteria: admission to or current full-time enrollment in a degree-seeking program in the University of Alabama School of Nursing at UAB and an overall 3.5 (on a 4.0 scale) grade point average in coursework completed prior to time of application.

The Student/Alumni Endowed Nursing Scholarship: Established with funds raised from current and former students, this scholarship was developed by former students who wanted to make a difference in the lives of future students. Every year, former students contribute through the School of Nursing’s Annual Fund. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least 3.0 on a 4.0 scale

Thelma Walker Mitchell Endowed Nursing Scholarship: Established with funds from the estate of Thelma Walker Mitchell, who was a 1941 graduate of the Hillman Hospital School of Nursing at what is now UAB. She made maternal and child health nursing her life’s work, including many years as a nursing consultant to the Alabama State Department of Public Health Bureau of Maternal and Child Health in Montgomery.

Terri J. Broach Nursing Scholarship Endowment: Established by friends and family members as a memorial to the late Terri J. Broach, who was a student at the UAB School of Nursing. Criteria: must be a resident of the State of Alabama, be admitted to or enrolled in full-time study leading to the BSN degree in nursing at UAB, and have a cumulative grade point average of 2.5 or above. Preference will be given to those who have an active relationship with a church, synagogue, or other religious institution or order, and those who show financial need as defined by the UAB Financial Aid Office

Thor-Louck Endowed Nursing Scholarship: Established with funds from Isobel H. Thorp and Phyllis M. Loucks, beloved former faculty members of the School of Nursing. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least 3.0 on a 4.0 scale

The UAB Hospital Auxiliary Endowed Nursing Scholarship - Established by the UAB Hospital Auxiliary to assist nursing students currently working at UAB Hospital or in the UAB Health System and with an intention of practicing at UAB Hospital with the completion of their studies. Criteria: must be undergraduate students currently enrolled or admitted to the School of Nursing, with first preference given to applicants planning to work at UAB Hospital after graduation. Applicants should have earned at least an overall 3.0 grade point average. Applicants must work at UAB Hospital in a part-time or full-time capacity, have completed one full year of employment and be in good standing. A reference letter from the applicant’s immediate supervisor is required as part of the scholarship application and will be used to determine good standing.

Virginia Bonds Black Endowed Nursing Scholarship – Established by Virginia Bonds Black to provide financial assistance to deserving nursing students. Ms. Black, a 1955 diploma graduate of Jefferson Hillman School of Nursing, spent her entire career as a dedicated servant to others. Criteria: must be currently enrolled in, or admitted to the School of Nursing at UAB and have earned at least an overall 2.8 (on a 4.0 scale) grade point average.

William Groce Campbell Endowed Nursing Scholarship: Established by Myrtle Campbell Bell in memory of her brother, William Groce Campbell, this scholarship was created to benefit students in the UAB School of Nursing. Criteria: admission to or current full-time enrollment in a degree-seeking program in the School of Nursing, and a minimum grade point average of 2.8 on a 4.0 scale.

William C. Howton Endowed Nursing Scholarship – Established by the late, William C. Howton in honor of his two daughters who are registered nurses. Criteria: must be admitted to or enrolled in the undergraduate program at the UAB School of Nursing and have earned at least an overall 3.0 grade point average on a 4.0 scale. Preference will be given to applicants who are deserving of financial assistance as determined by the UAB Office of Student Financial Aid.

Worthington-Cargo Family Endowed Nursing Scholarship: Established by Nancy and Allan Worthington to support students in the Doctor of Nursing Practice Program who plan to pursue an Advanced Clinical Specialization in Adult Gerontology. Criteria: must show financial need as defined by the UAB Financial Aid Office and have a cumulative grade point average of 3.0 or above. Preference will be given to residents of Alabama who plan to continue to work in Alabama as a doctoral-prepared clinical nurse.

Comer Nursing Scholarship: Established with funds received from the Comer Foundation. The Comer Foundation Scholarship program serves as a tribute to the tradition and future commitment in support of higher education. Criteria: must show financial need as defined by the UAB Financial Aid Office, be a resident of the State of Alabama, have a cumulative grade point average of 3.0 or above, intend to practice nursing in the State of Alabama, and be enrolled full-time in study leading to the BSN degree at the University of Alabama School of Nursing at UAB.

Lettie Pate Whitehead Foundation Scholarship: The Lettie Pate Whitehead Foundation was established in 1946 by Conkey Pate Whitehead. Mr. Whitehead established the Foundation as a memorial to his mother. Criteria: Exclusively for the purpose of providing need-based scholarships to deserving Christian women who are residents of one of the following states: Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Virginia.

Violet Terrell Clark Nursing Scholarship: Established by Mr. and Mrs. Steve M. Bates in memory of Jean Clark Bates’ mother, Violet Terrell Clark. Criteria: admission to or current full-time enrollment in study leading to a degree at the School of Nursing, and a cumulative grade point average of at least 3.2 on a 4.0 scale. Preference will be given to applicants who plan to work with underprivileged patient populations upon graduation.
Academic Common Market

The Academic Common Market is an interstate agreement among selected southern states for sharing academic programs at both the baccalaureate and graduate levels. Participating states are able to make arrangements for their residents who qualify for admission to enroll in specific programs in other states on an in-state tuition basis. Participating states are Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

If you are not an Alabama resident and you wish to enroll at UAB as an Academic Common Market student, you must be accepted for admission into a UAB program to which your state has obtained access for its residents through the Academic Common Market coordinator in your home state.

Certification of eligibility must be received by the Office of Undergraduate Admission before the first day of class in the initial semester of registration to obtain in-state tuition status for the entire program; otherwise, in-state tuition status will be awarded beginning with the semester following receipt of this certification. Please note that if a student who enrolls at UAB as an Academic Common Market student changes majors, the student will revert to paying out-of-state tuition.

To obtain the name and address of a state coordinator, visit the Academic Common Market web site (www.sreb.org/page/1304/) (http://www.sreb.org/page/1304).

Progress Toward a Degree

Responsibilities

The student is responsible for selecting and registering for courses necessary for reasonable progress toward the degree sought. The minimum requirement for reasonable academic progress is that the student must pass a minimum of 24 semester hours of coursework in an academic year.

The Office of the Registrar is responsible for registration, recording and reporting grades; maintaining current and permanent records on all students; enforcing rules on academic warning, probation and suspension; certifying students for graduation; and issuing transcripts. The office is located in the 1605 Building, 1605 11th Avenue South, Birmingham, Alabama 35294-4300, (205) 934-8228.

Students must notify the Office of the Registrar of address changes so that notices and other materials are sent to the current address. Changes may be made online in BlazerNET or in person.

Freshman Year Experience

Students entering UAB with less than 24 hours of college credit must successfully complete a first year experience (FYE) course in their first 24 credit hours at UAB. FYE courses include freshman learning communities, U101, and school-specific FYE courses.

Capstone Course

All UAB students must successfully complete the capstone course or experience required by their major program or school in order to graduate.

Declaration of a Major

All students must declare a degree-awarding major by the time they earn 60 semester hours of coursework, including courses currently in progress, before registering for the next semester. Students who (1) have been dismissed from a degree-awarding major or professional program, (2) have over 60 semester hours of coursework, including courses currently in progress, and (3) are in a non-degree awarding major must declare a new degree-awarding major before enrolling for a second semester. Students who do not declare a major within the stated timeframe will not be allowed to register for the next term and must contact their academic advisor and change their major before enrolling.

Newly admitted students who have previously earned 75 or more hours without receiving a baccalaureate degree must declare a degree-awarding major during their first term of enrollment.

Conditions for acceptance of a student into a major vary by department, school, and college. Majors should be declared or changed online at Normal 0 false false false EN-US X-NONE X-NONE MicrosoftInternetExplorer4 /* Style Definitions */ table.MsoNormalTable {mso-style-name:"Table Normal"; mso-tstyle-rowband-size:0; mso-tstyle-rowband-depth:0; mso-tstylecollapse:0; mso-style-parent:""; mso-padding-alt:0in 5.4pt 0in 5.4pt; mso-para-margin:0in; mso-para-margin-bottom:.0001pt; mso-pagination:widow-orphan; font-size:10.0pt; font-family:"Times New Roman","serif";}

School, Major, or Address Changes

Changes or corrections to a student’s address, telephone number, school, or major can be made online through BlazerNet or at or in person at One Stop Student Services, Room 103 of the Hill Student Center, 1400 University Blvd., Birmingham, Alabama 35294-1150.

Course Enrollment

Terms and Course Offerings

There are three academic terms during a calendar year: fall semester, spring semester, and summer semester. The fall and spring semesters each consist of approximately 14 weeks of classes, followed by one week of final examinations. The summer term consists of five sessions, each with its own time and format. The five summer term sessions are as follows: a fourteen-week session that runs throughout the summer term; the intensive May session, consisting of the first three weeks of the summer semester; a ten week session, beginning after the May session ends and running until the end of the summer semester; and the summer A and summer B sessions, which are seven weeks long and run back-to-back concurrently with the fourteen week session. The courses to be offered during a particular term are listed in the online Class Schedule. Summer/Fall class schedules are available to students in early March; spring semester schedules are available in late October. Early registration in April allows current students to enroll in fall semester classes on a priority basis. Class schedules are available in BlazerNET (http://www.uab.edu/blazernet) and also online http://www.uab.edu/home/academics.

Undergraduate Students in Graduate Courses

With the approval of their advisor, the undergraduate program director or department chair, and the instructor, UAB undergraduate students may be allowed to register for a graduate course. Credits earned by undergraduate students may be applied to either an undergraduate degree or a graduate degree, but not both. If the student is subsequently admitted to the Graduate School, use of this credit toward a graduate degree requires the approval of the graduate program director and the Graduate School dean. (The Graduate School does not give credit for any grade below a “C”:.) Credits that have been used toward the baccalaureate degree cannot be used a second time toward a graduate degree.

Registration

A student wishing to attend any of the three academic terms must register for that specific term. A student is eligible to register if he/she has been admitted to UAB, the student’s financial records in the Student Accounting Office are clear, and the student is in good academic standing. An early registration period for fall semester will occur every spring for degree-seeking students.

A degree-seeking student who has not registered for course work over a period of one academic year must reapply for admission to resume study as a degree-seeking student. If accepted, the student is subject to the policies of the catalog current at the time of re-enrollment.

Registration can be accomplished online through BlazerNET (http://www.uab.edu/blazernet).

Credit Hours and Loads

The unit of credit at UAB is the semester hour. Course descriptions indicate the number of semester hours that may be earned for a particular course. A standard course load for a full-time student is 15 semester hours of course work in a semester. At least 12 semester hours of course work are required for full-time status. Registration for more than 18 semester hours in a term or more than three semester hours in the May Session requires approval by the dean or the dean’s representative of the school in which the student is majoring.

Prerequisites for a Course

Prerequisites are enforced for UAB students. Prerequisites are waived for transient students taking courses at UAB. It is the student’s responsibility to ensure that prerequisites for a course are met before registering for the course. Advisors are available to help with this determination. After term grade processing, students preregistered for a course in which they do not meet the prerequisites, will be dropped from the course.

First Class Attendance

An instructor has the prerogative to drop a student from a course if the student is absent without prior notification from the first class of a term. Such action is at the discretion of the instructor, and absence from the first class does not automatically drop the student from the course. If a student wishes to drop or withdraw from the course, the student must follow official drop or withdrawal procedures. A student who misses the first class of a term is responsible for determining his/her status in the class.

Attendance and Excused Absence Policy

UAB recognizes that the academic success of individual students is related to their class attendance and participation. Each course instructor is responsible for establishing policies concerning class attendance and make-up opportunities. Any such policies, including points for attendance and/or participation, penalties for absences, limits on excused absences, total allowable absences, etc., must be specified in the course syllabus provided to students at the beginning of the course term. Such policies are subject to departmental oversight and may not, by their specific prescriptions, negate or circumvent the accommodations provided below for excused absences.

The University regards certain absences as excused and in those instances requires that instructors provide a reasonable accommodation for the student who misses assignments, presentations, examinations, or other academic work of a substantive nature by virtue of these excused absences. Examples include the following:

- Absences due to jury or military duty, provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences of students registered with Disabilities Services for disabilities eligible for “a reasonable number of disability-related absences” provided students give their instructors notice of a disability-related absence in advance as soon as possible.
- Absences due to participation in university-sponsored activities when the student is representing the university in an official capacity and as a critical participant, provided that the procedures below have been followed:
  - Before the end of the add/drop period, students must provide their instructors with advance written notification from the sponsoring unit or department.
  - If a change in the schedule occurs, students are responsible for providing their instructors with advance written notification from the sponsoring unit or department.
- Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students.
- Absences due to religious observances provided that students give faculty written notice prior to the drop/add deadline of the term.

In these instances, instructors must devise a system for reasonable accommodation including, for example, policies allowing for dropped exams/ quizzes, make-up exams, rescheduling of student classroom presentations or early or later submission of written assignments.

Add/Drop Procedures

Drop/Add deadlines are published in the Academic Calendar (https://www.uab.edu/students/academics/academic-calendar) available online. In the case of fall and spring semesters, the last day to drop a class without paying full tuition is the eighth calendar day of the term; the last day to add a class is also the eighth calendar day of the term.

It is the student’s responsibility to initiate add/drop procedures. Students may drop and add courses online after they have registered and until
the drop/add deadline online using BlazerNET (http://www.uab.edu/blazernet) or in person in One Stop Student Services.

Students may register online if space is available or use the add/drop form and receive an instructor’s signature and special permission to enroll in classes that are filled to capacity. A student beginning the registration process during the late registration period will be assessed a late registration fee of $75.

**Withdrawing from Courses**

To avoid academic penalty, a student must withdraw from a course by the withdrawal deadline shown in the academic calendar and receive a grade of W (withdrawn). The withdrawal period ends at approximately 75% of the academic term. Failure to attend class does not constitute a formal drop or withdrawal.

Withdrawal from courses can only be accomplished using official procedures. The official withdrawal must be completed online in BlazerNET. In extraordinary circumstances, if it is impossible for the student to withdraw online the student may mail a withdrawal letter to the Office of the Registrar. The official date of withdrawal will be the date the letter is received in this office. If the official date of withdrawal is after the last day to drop without paying, no tuition or fees will be refunded.

For financial aid purposes, the date of last class attendance will be the official date of withdrawal unless otherwise documented. Note that individual schools may have withdrawal rules in addition to the above.

Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

**Exceptions**

All students are responsible for adhering to UAB’s academic policies, as published in the UAB Undergraduate Catalog. The Provost may make exceptions to policies. Exceptions will only be made in extraordinary circumstances. Only in cases of serious illness, which precludes a student from attending classes, or a call to active military service, can a student qualify under this policy for either administrative or academic withdrawal from courses from that semester. In such instances, students requesting an exception to policy must provide the cause specific documentation in order for the request to be considered.

Requests are evaluated only from written documentation and not through appointments or telephone calls. Information and forms are available online. (https://www.uab.edu/students/one-stop/policies/exceptions-to-academic-policy/academic-policy-appeal) (Please note that grievances of an academic nature are addressed through the Academic Grievance Policy). Requests for exceptions must be submitted at the earliest possible time. Consideration will not be given to any request submitted later than the term immediately following the term for which the exception is being requested.

A full reduction in tuition and associated fees will be made for appropriately documented serious illnesses or military service activation, which preclude a student from continuing his/her studies at UAB. For students receiving refunds, such refunds will first be applied to any outstanding obligations and to any scholarship, grant, or loan the student has received for that term. A student who is receiving any form of Federal Title IV Financial Aid will be liable for any unearned funds received as determined by the Federal Return of Funds Policy (check with Student Accounting Office (http://financialaffairs.uab.edu/content.asp?id=261145) for details.)

Failure to adhere to the published drop and withdrawal deadlines (as outlined in the UAB Catalog and the UAB Class Schedule) does not qualify under this policy as an Academic Exception.

**Contact**

Exceptions to Academic Policy • Office of the Registrar • 1605 11th Avenue South • Birmingham, AL 35205 • (205) 934-8228

**Unofficial Withdrawal Policy**

Students that choose not to attend one or more courses are not automatically withdrawn or dropped from these courses and are required to follow the proper withdrawal procedures of the University. If the student stops attending one or more courses and does not formalize the withdrawal through the Office of the University Registrar, this act will be considered an unofficial withdrawal. This includes students who earn failing grades in all courses if it is determined the student ceased attending classes prior to the end of the payment period or term. A student who discontinues attending one or more classes without dropping or requesting an official withdrawal will receive a failing grade for that course for that enrollment term. The withdrawal date for students who unofficially withdraw is the last date of attendance reported by the student’s instructor(s). The withdrawal date for students registered for multiple courses will be the latest date reported by the student’s instructor(s).

Prior to the Last Day to Drop/Add, as noted on the Academic Calendar, students receiving Federal Title IV aid are required to officially notify the Financial Aid Office of their intent to withdraw from the enrollment term. For information regarding potential consequences of withdrawing while in receipt of Title IV funding, please see UAB’s policy regarding the Return of Title IV Funds.

Financial Aid recipients who completely withdraw from all courses or cease to attend all courses prior to completing over 60% of the term, may be subject to repay a prorated amount of the federal financial aid received for the term. For information regarding potential consequences of withdrawing while in receipt of Title IV funding, please see UAB’s policy regarding the Return of Title IV Funds.

**Course Completion**

**Final Examinations**

The final examination for each course is scheduled for a designated period during finals week. The final examination time cannot be changed without the approval of the appropriate dean. A student with three or more exams scheduled in one day or two exams scheduled during the same final exam period may request to have one exam rescheduled by mutual agreement between student and instructor. The student’s request to the instructor should include appropriate written documentation of his/her schedule and should be provided to the instructor at least 14 calendar days prior to the last day of classes. Faculty are encouraged to work collaboratively with students and other faculty when such situations arise. Faculty reserve the right to administer an alternate examination at the rescheduled time.
Grading Policies and Practices

Grade Report

Final grades of all students are recorded and posted to their transcripts. In determining these final grades, the faculty may consider such things as grades received in daily recitations, written work, laboratory work, tests, and final examinations. Grade reports are available online.

Grades Assigned by the Faculty

A (superior achievement)

B (above average)

C (average)

D (minimally adequate)

F (failing)

P (passing) Applicable only to a course taken on a pass/fail basis.

I (incomplete) is a temporary notation which is assigned at the discretion of the instructor, and only if the following three conditions are met.

• The student is, according to the instructor’s assessment, currently unable to complete course requirements.

• The student is, according to the instructor’s assessment, currently passing or has demonstrated the potential for passing the course.

• The student has made arrangements with the instructor, prior to the grade submission deadline, for completing the course requirements.

It is the responsibility of the student receiving an Incomplete to arrange with the instructor whatever action is needed to remove the Incomplete at the earliest possible date. If make-up work requires classroom attendance in a subsequent term, the student must register for the course as an auditor (with the instructor’s permission) and must pay tuition and associated fees.

An Incomplete will not be calculated in the student’s grade point average for the term in which the notation appears. However, an Incomplete that is not changed by the Instructor by the grade submission deadline of the next semester automatically converts to an F. A notation of Incomplete may not be used to meet a prerequisite requirement. A student cannot graduate with an Incomplete notation on his or her academic record.

MT (Multi-term) is a temporary notation which may be assigned in departmentally approved courses, including theses, practica, and internships, if work cannot be completed within one semester. A notation of MT will not be calculated in the student’s grade point average for the term in which the notation appears. However, an MT notation that is not changed by the instructor by the grade submission deadline of the next semester automatically converts to an F. A student cannot graduate with an MT notation on his or her academic record.

Notations Assigned by the Office of the Registrar

W (withdrawn) A notation assigned by the Office of the Registrar reflecting an administrative action initiated by the student in accordance with regulations governing withdrawal from courses. “W” (withdrawn) may not be assigned by the instructor.

N (no grade submitted) A temporary notation made by the Office of the Registrar if no grade (A, B, C, D, F, I, or P) is assigned the student by the course instructor. This notation is used only when the Office of Registrar is unable to obtain a grade from the instructor prior to the issuing of grades for the semester or when the course is designed to extend beyond a single term. It remains the instructor’s responsibility to assign a permanent grade. If the instructor has not submitted a grade by the end of the following term, the “N” (no grade submitted) is changed automatically to an “F” (failing) by the Office of the Registrar. The notation “N” cannot be extended.

Study Abroad Grading Policy

Auditing

Auditing of any study abroad courses will not be permitted. This policy has been put into effect to ensure full participation by all students on such programs. This policy includes UAB student exchanges, UAB faculty-led programs, Non-UAB Programs (third party programs), and any other study abroad programs.

Grade Assignment and Posting of Study Abroad Grades to the UAB Transcript

In cases where a student is receiving a transcript from a foreign institution, UAB will honor the U.S. equivalent of the final grade that is assigned by that host institution and posted to the official transcript of said host institution. If a foreign institution assigns a pass/fail grade on the official host institution transcript, then the UAB transcript will reflect such a pass/fail grade.

For those programs in which a UAB faculty member is teaching a course, the instructor will assign the final grade as is normally done for any regular UAB class taught on campus. See the Grading Policies and Practices section of the UAB Undergraduate Catalog (p. ). In most cases letter grades shall be assigned. Assignment of a pass/fail grade will be left to the discretion of the faculty leader/instructor of the course and will be determined on a case-by-case basis.

In all cases, students must participate fully in all course activities and meet all stated course requirements.

Grade Assignment and Posting of the Washington Center Grades to the UAB Transcript

UAB students wishing to participate in the Washington Center internship program must receive written permission from their academic department at UAB to enroll in the UAB internship course offered by their department prior to applying to the Washington Center. After permission is granted by the student’s academic department at UAB, but before the start of the internship, the student will enroll in the UAB internship course offered by the permission-granting department at UAB and will be assigned a UAB faculty member who will act as the instructor of record. The instructor will assign a final grade as is normally done for the internship course in that UAB department.

The Washington Center also offers courses and seminars, which will not count toward a UAB degree.
Grade Change Policy
Final grades for an I (Incomplete) or an MT (Multi-term) should be submitted no later than the grade submission deadline of the semester after the notation was originally assigned; Incomplete and Multi-term notations not changed by that time will convert to Fs. In general, end-of-course grades submitted to the Office of the Registrar are final and are not subject to change by reason of revision of the teacher’s judgment; nor are submitted grades to be revised on the basis of a second trial (e.g., a new examination or additional work undertaken or completed).
Grade changes submitted in order to correct an error in computation or transcription must be made within two semesters after the grades were originally submitted. These grade changes must be submitted via BlazerNET and require the teacher’s statement as to the reason for the change, the approval of the department head, and the approval of the dean of the school in which the course is taught.

Auditing Courses
As an alternative to full participation in a course, students may audit the course. Auditors do not receive grades and do not usually participate in the examinations; however, instructors have the option of establishing requirements for a satisfactory audit.

Audit is similar to regular enrollment. Students choosing this option must be admitted to UAB; enroll in the course by completing a UAB registration form, indicating “AU” in the column labeled “Sem. Hrs.”; obtain the signature of the instructor; and pay the same tuition and fees as regular enrollees. Provided the instructor’s requirements are met, the course will appear on the transcript with the notation “AU” and zero semester hours credit.

If the requirements are not met, a “W” will be entered on the transcript.

Course registration, withdrawal, and drop policies apply to audited courses. In instances of over-enrollment, preference is given to students taking courses for credit, and auditing students may be dropped.

A student is not permitted to change from audit to credit or credit to audit at any time.

Courses Taken on a Pass/Fail Basis
A degree-seeking student who is in good standing may request permission from an instructor to register for a course on a pass/fail basis. The course must be one for which the student is eligible to register and cannot be among those used to satisfy core requirements. The department housing the student’s major must approve all courses taken on a pass/fail basis if used to satisfy major and minor requirements. A student must declare the intention to take a course on pass/fail basis by notifying the instructor prior to the first class meeting. It is recommended that students consult their academic advisors prior to taking any course as pass/fail.

Grades awarded for a pass/fail course are “P” (pass) or “F” (fail). A grade of “P” carries full credit for the course, but the course is not counted in calculating the grade point average. At most, twelve semester hours taken on a pass/fail basis may be used to satisfy degree requirements (not including courses for which “P” or “F” is the only grade awarded).

Course Repeat
A student may repeat any course in an effort to improve grades and/or to improve understanding of the course content. Students are encouraged to seek advice of an academic advisor before repeating courses.

A student may repeat an individual course no more than one time (for a total of two attempts). Under exceptional circumstances, and upon approval of a formal electronic appeal submitted to the Associate Dean of the College or School in which the course is taught, a student may be allowed to repeat a course for a second time (for a total of 3 attempts). A student may not appeal to repeat a course more than a second time. In order for an appeal to be considered, it must be submitted prior to the first day of the applicable term.

Both the original grade and the repeated grade(s) will show on the student’s transcript. Both grades will also be calculated in the student’s grade point average (GPA) unless the forgiveness policy is applied. It is the student’s responsibility to notify the Office of the Registrar of his/her applying the forgiveness policy to a repeated course. The process is not automatic. (See Forgiveness Policy below). Academic departments and schools may have additional provisions regarding how repeat courses affect the calculation of GPA.

A course repeat takes place any time a student retakes a course for which that student has already received an A, B, C, D, F, P, W, AU, NP, MT, or N. Students should not re-enroll in a course for which they have been assigned a grade of I (incomplete) and will not be affected by this policy unless the I converts to a grade of F. Courses which are designed to be repeated (e.g. Independent Study, Special Topics, Music Recital, etc.) are exempt from this policy.

University Forgiveness Policy
UAB offers the undergraduate student a forgiveness option by which courses taken at UAB may be repeated at UAB, and the grade for the first course will be excluded from the calculation of his/her grade point average (GPA). If a student has repeated a course more than once, the student may choose which grade should be removed from the calculation. Only courses for which the student has received a grade of C, D, or F may be repeated under this option. The forgiveness policy may be used a maximum of four (4) times, only once for any course, which allows a student to use the forgiveness for four different courses. The transcript will show both the original grade and the course repeat grade, but only the grade points and credit hours earned in the repeated courses will be counted toward degree completion and averaged into the student’s GPA. Once a course grade is declared forgiven, the decision is irrevocable. (The forgiveness policy can be invoked at any time for a repeated course; however, all forgiveness requests must be made prior to application for degree). It is the student’s responsibility to notify the Office of the Registrar of his/her applying the forgiveness policy to a repeated course. The process is not automatic.

The Forgiveness Policy can only be applied to grades earned at UAB and may not be applied after the student has graduated. Forgiveness forms are available online (https://www.uab.edu/students/one-stop/grades/forgiveness-form-forgiveness-policy) and also in One Stop Student Services.

Note that individual schools may have course repeat and forgiveness policy rules in addition to the above.

In accordance with the UAB Academic Honor Code, any course grade of F for academic misconduct supersedes any other grade or notation.
The New Start Option

The New Start Option serves the student who previously accumulated a poor academic record, but who has recently demonstrated the ability to succeed in college-level work at UAB. The option enables the student to eliminate from the grade point calculation all grades and credit hours earned prior to the date of the New Start and begin anew with work from that point forward. To be eligible, a student must not have been enrolled in an academic institution for at least five (5) consecutive calendar years.

The policy does not apply to college graduates or to admission policies in the Schools of Nursing and Health Professions, nor to college graduates, admission policies and progress toward degree in the School of Education’s Teacher Education Programs leading to certification. Students seeking degrees in a Non-Certification Program are eligible for the New Start Option.

To apply for the New Start Option (https://www.uab.edu/students/academics/new-start-option), the student must obtain the written approval of an academic advisor. The application must be filed with the Office of the Registrar prior to graduation and must specify a date, called the New Start date, prior to which all grades and notations are voided. This application is available online: New Start Option (https://www.uab.edu/students/academics/images/documents/new-start-petition-form.pdf).

The application will not be considered until the following are met:

1. The student’s transcript contains at least 24 semester hours of course work applicable to a degree (i.e. hours earned, but not necessarily to a particular major) at UAB, posted after the requested New Start date.
2. The Higher Education GPA on all work taken after the requested New Start date, as well as the UAB GPA, must be at least 2.0.

Policies governing the New Start Option are as follows:

1. Upon approval of the application, all grades (including passing grades) and notations listed on the transcript prior to the New Start date are placed in a separate listing on the transcript and are voided for purposes of satisfying UAB degree requirements and computing GPA. The transcript carries the notation: “Approved for New Start (date); work prior to this date is not calculated in GPA or applied toward a degree.”
2. All work completed after the New Start date is counted toward completion of a degree, in accordance with policies of the catalog in effect at the New Start date. The transcript will be re-evaluated from the New Start date. The forgiveness policy applies only to courses taken after the New Start date.
3. A course completed before the New Start date, and which is a prerequisite for a course to be taken later, must be taken again even if successfully completed before the New Start date, unless explicit exception is made by the chair of the department in which the course is taught.
4. The student may employ alternative credit to replace some voided courses taken prior to the New Start date.
5. A student may not use the New Start Option to graduate with honors.
6. The New Start Option may be granted only once during the student’s academic career at UAB and is irrevocable.

Academic Warning, Probation, and Suspension

Academic Warning

A first-term freshman (a student with no previous college credit, except through dual enrollment) will be placed on academic warning if a grade point average of at least 2.0 is not earned during the first term of enrollment. The freshman must meet with his/her academic advisor before the next registration period. If the second term’s UAB grade point average is not 2.00 or higher, the freshman will be placed on academic probation.

Academic Probation

A student (other than a first-term freshman) will be placed on academic probation if his/her UAB grade point average falls below 2.00 and will be required to meet with his/her academic advisor before the next registration period. At this meeting, the student and advisor will agree on a plan of action that will best help the student with his/her academic progress (e.g., courses to take or repeat, supplemental instruction, reduced credit hour load, basic skills seminars, etc.). The Academic Plan will be monitored by the student’s academic advisor throughout the probationary period. While on academic probation, the student must earn a minimum 2.0 term GPA each term of enrollment, or they will be suspended (first suspension is one term; any subsequent suspension is one year). In order to clear academic probation, the student must earn a UAB GPA of at least 2.0.

Academic Suspension

If while on academic probation a student fails to achieve a minimum term GPA of 2.0, the student will be suspended for one term. When returning from the one-term suspension, the student must meet with his/her academic advisor to be reinstated prior to registering for classes. The student will be reinstated on academic probation and must achieve a 2.0 or higher term grade point average each term until the UAB grade point average is at least 2.00. The student must achieve a UAB grade point average of at least 2.00 to have the academic probation removed.

Students wishing to return to UAB after a one-year suspension must submit an application for readmission and a letter of appeal for readmission to the Office of Undergraduate Admission. The deadline for a student to submit an application and letter of appeal for readmission will be eight weeks prior to the date of intended enrollment. By this deadline, an applicant must have submitted any attending documentation to support the appeal.

If readmitted to UAB after a one-year suspension, the student will be admitted under probation and must achieve a 2.00 grade point average each term until the UAB grade point average is at least 2.00. If both the term grade point average and the UAB grade point average fall below 2.00, the student will be placed on suspension for one year.

Credits earned while on academic suspension from UAB or another institution may be eligible for transfer. However, the UAB Forgiveness Policy can only be applied to grades earned at UAB.

Note that individual schools may have probation and/or suspension rules in addition to the above.
All notations of academic warning, probation or suspension are a permanent part of a student’s transcript.

**Appeal of a One-Term Academic Suspension**

Students academically suspended from UAB for one term are not allowed to register for classes at UAB until the end of the suspension period. If a student appeals successfully, he or she will be immediately eligible for readmission.

The procedure for a student to appeal an academic suspension decision is as follows:

1. The suspended student must present a petition describing the extraordinary personal circumstances that contributed to his or her academic deficiencies. Such events must be highly unusual such as the death of an immediate relative, a serious illness, severe financial distress, or personal crisis. Each individual wishing to appeal an academic suspension is required to submit a petition outlining the reasons for the applicant’s previous academic problems and how the applicant plans to correct the problems. Each petition must be accompanied by appropriate documentation relative to the need for additional consideration and/or substantiating the extenuating circumstances related to the appeal. The student petition should be received in the Office of the Registrar no later than five working days prior to the beginning of the desired semester of entry. The suspension appeal documentation will be forwarded to the Suspension Appeals Committee.

2. The Suspension Appeals Committee is composed of five members (two faculty members appointed by the Provost’s designee, one student designated by the Student Government Association, one representative from Registration and Academic Records, and the University Registrar) who will review all petitions.

3. Should the Suspension Appeals Committee determine that an extraordinary personal event contributed significantly to the student's academic deficiencies, and there is evidence of an adequate plan to address these extraordinary circumstances, they will recommend that the student be reinstated on academic probation. The student must maintain a minimum 2.0 grade point average or reach the retention standards each semester he or she remains in this status.

4. The decision of the suspension appeals committee is final.

The Office of the Registrar is the administrative unit responsible for the academic suspension appeals process. This unit is responsible for coordinating the appeals process, maintaining the official records and producing annual reports.

**Classification of Students**

Students are classified as sophomores when they have earned 30 semester hours of credit, juniors when they have earned 60 semester hours of credit, and seniors when they have earned 90 semester hours of credit.

**Overall Credits and Grade Point Average**

The official determination of “credit hours earned,” “credit hours attempted,” and “grade point average” is made only by the Office of the Registrar. The following sections indicate how these figures are calculated. Transfer work and courses taken at UAB are treated on the same basis. Developmental courses are not included in calculations of credit hours earned, credit hours attempted, or grade point average.

**Credit Hours Earned**

The student’s “credit hours earned” are increased by:

1. Earning a passing grade (D or better) in a course for which the student was registered for credit.

2. Obtaining the “Pass” grade in a course taken on a pass/fail basis.

3. Obtaining the “Pass” grade for alternative credit.

**Credit Hours Attempted**

The student’s “credit hours attempted” are increased by:

1. Receiving an A, B, C, D, or F in a course for which the student was registered for credit.

2. Receiving the “Fail” grade in a course taken on a pass/fail basis.

**Grade Points**

Four quality grade points are awarded for each semester hour for which the student received an A grade; three quality grade points are awarded for each semester hour in which a B is obtained; two quality grade points are awarded for each semester hour in which a C is obtained; and one quality grade point is awarded for each semester hour in which a D is obtained. No quality grade points are awarded for an F.

**Grade Point Average**

The grade point average is determined by taking the grade points obtained and dividing by the credit hours attempted (not credit hours earned). The UAB grade point average is determined using only work attempted at UAB. The cumulative (overall) grade point average is determined by calculating all college work attempted.

**Academic Honors**

UAB compiles and publishes an honor roll at the close of each regular term. Only UAB work is considered. To be eligible for the Presidential Honors List, students must be registered for and complete at least 12 semester hours of credit and have a 4.0 grade point average for the term. Students who register for and complete at least 12 semester hours of credit and who attain a grade point average of at least 3.6 are included in the Dean's List for the term. Superior scholastic achievement may be further recognized by election to membership in appropriate national honorary societies.
Transfer Credits

Collegiate coursework earned at postsecondary institutions that are fully accredited (or in candidacy status) by regional accrediting associations will be considered for transfer to UAB and may be applied toward the fulfillment of degree requirements.

Courses Taken as a Transient Student

To take a course at another institution while enrolled as a degree-seeking student at UAB, a student must submit a Transient Student Request via BlazerNET prior to enrolling in the course. The student must check with his/her academic advisor to determine whether the course is transferrable and will be applicable toward a degree at UAB. Further, the student must be in good academic standing (i.e., has a minimum 2.0 GPA at UAB).

Alternative Credit Opportunities

In some instances academic credit may be awarded for work done in a format other than a college course. Credits earned in this way are recorded on the transcript with a grade of P. Such credits may not be used in repeating a course and may not be awarded for work equivalent to a course that is a prerequisite to a course already taken for credit. No more than 45 semester hours of alternative credit may be applied toward a degree.

Opportunities for earning credit outside the normal course format include:

Advanced Placement (AP)
The amount of credit awarded and the examination score required are stated in the current policy. To determine which tests are eligible for UAB credit please see the Advanced Placement Credit Table (p. 97).

College Level Examination Program (CLEP)
The CLEP General Examination must be taken before 15 semester hours of college work have been completed. The subject-area examinations are assigned credit as listed in the UAB CLEP Policy statement. For more information on CLEP testing schedules, fees and study guide information, please contact the UAB Testing Office http://www.uab.edu/testing or call (205) 934-5503. To determine which tests are eligible for UAB credit please see the College Level Examination Program Credit Table (p. 98).

International Baccalaureate Credit (IB)
Academic credit may be awarded for scores of five or higher on IB standard-level and higher-level examinations. To determine which tests are eligible for UAB credit please see the International Baccalaureate Credit Table (p. 100).

Credit by Examination (CBE)
A degree-seeking student may petition to obtain credit for a course by taking an examination; however, not all programs will accept CBE. It is the student’s responsibility to verify the applicability of CBE courses for major/minor requirements. The relevant department must agree to create and grade the examination. If a student takes CBE in a course that he/she has already taken for credit, the grade for CBE will not replace the grade for the previous course. The fee for CBE is based on the current rate of tuition according to level (undergraduate/graduate) and residency status. The Credit by Examination application is available online: CBE Form. (https://www.uab.edu/students/admissions/images/forms/credit-by-exam-application.pdf)

Credit by Portfolio (CBP)
A degree-seeking student may petition to receive credit for a course on the basis of a portfolio of information documenting knowledge of the course material. The chair of the appropriate department and dean of the school make the final decision on acceptability of the materials for credit. The fee for CBP is based on the current rate of tuition according to level (undergraduate/graduate) and residency status. The Credit by Portfolio application is available online: CBP Form.

Non-collegiate Courses
Credit may be awarded for non-collegiate courses in accordance with American Council on Education recommendations and approval of the appropriate department chair and dean.

Credit for Military Experiences
UAB evaluates military service and educational experiences completed by active-duty military service and Coast Guard personnel. UAB is an institutional member of Service Members’ Opportunity Colleges.

Dante’s Subject Standardized Tests (DSST)
The DSST, prepared by the Chauncey Group, is a nationally recognized credit by examination program that awards college credit for courses taken by examination. DSST Examinations are scheduled individually, by appointment. To determine which tests are eligible for UAB credit please see the DANTES Subject Standardized Test Credit Table (p. 99).

Cooperative Exchange Programs

Birmingham Area Consortium for Higher Education (BACHE)
UAB, Birmingham-Southern College, Miles College, the University of Montevallo, and Samford University have established the Birmingham Area Consortium for Higher Education (BACHE) to expand educational opportunities for their students. Please visit the web site http://www.uab.edu/bache/ for more information on BACHE. Any full-time, degree-seeking UAB student who is in good academic standing may, with written permission from his/her academic advisor and dean, and at no additional charge, take a course at another cooperative exchange institution if it is not offered at UAB and it is deemed to be beneficial to the student’s overall educational program. All courses eligible to be taken through the cooperative exchange programs must be articulated by UAB prior to the student’s registration. Credit for work completed under the cooperative programs will be posted on the student’s record as UAB credit.

The University of Alabama System
UAB students may also enroll in courses at the University of Alabama and the University of Alabama in Huntsville through the University of Alabama System Cooperative Exchange Program. Any full-time, degree-seeking UAB student who is in good academic standing may, with written permission from his/her academic advisor and dean, and at no additional charge, take a course at another cooperative exchange institution if it is not offered at
UAB and it is deemed to be beneficial to the student’s overall educational program. All courses eligible to be taken through the cooperative exchange programs must be articulated by UAB prior to the student’s registration. Credit for work completed under the cooperative programs will be posted on the student’s record as UAB credit.

Conduct and Complaints

Student Conduct

The university expects mature and honorable behavior from every student and reserves the right to take appropriate disciplinary action when such behavior is not forthcoming.

Academic Conduct

All UAB students are expected to be familiar with the UAB Academic Honor Code as well as any honor codes that are specific to their schools or disciplines.

The code represents a commitment to integrity in the academic community and a respect for an individual’s educational endeavors:

I have read and, by choosing to become a member of the UAB academic community, accept the UAB Academic Honor Code. I understand that violation of this code will result in penalties as severe as expulsion from the university. I promise and confirm that I will not, at any time and under any circumstances, involve myself with abetting, cheating, plagiarism, fabrication, or misrepresentation while enrolled as a student at the University of Alabama at Birmingham.

The UAB Academic Honor Code

UAB expects all members of its academic community to function according to the highest ethical and professional standards. Students, faculty, and the administration of the institution must be involved to ensure this quality of academic conduct. Academic misconduct undermines the purpose of education. Such behavior is a serious violation of the trust that must exist among faculty and students for a university to nurture intellectual growth and development. Academic misconduct can generally be defined as acts of dishonesty in an academic or related matter.

Academic dishonesty includes, but is not limited to, the following categories of behavior:

ABETTING is helping another student commit an act of academic dishonesty. Allowing someone to copy your quiz answers or use your work as their own are examples of abetting.

CHEATING is the unauthorized use or attempted use of unauthorized materials, information, study aids, the work of others, or computer-related information.

PLAGIARISM means claiming as your own the ideas, words, data, computer programs, creative compositions, artwork, etc., done by someone else. Examples include improper citation of referenced works, the use of commercially available scholarly papers, failure to cite sources, or copying another person’s ideas.

FABRICATION means presenting falsified data, citations, or quotations as genuine.

MISREPRESENTATION is falsification, alteration, or the misstatement of the contents of documents, academic work, or other materials related to academic matters, including work substantially done for one class as work done for another without receiving prior approval from the instructor.

Violations of the UAB Academic Honor Code are punishable by a range of penalties, from receiving a failing grade on an assignment to an F in the course to dismissal. Any course grade of F for academic misconduct supersedes any other grade or notation for that class. Withdrawal from a course while a possible violation of the Academic Honor Code is under review will not preclude the assignment of a course grade that appropriately reflects the student’s performance prior to withdrawal if the violation is substantiated.

Procedure for Suspected Violation

In the event of a suspected violation of the Academic Honor Code, UAB follows this procedure:

1. Upon reaching the conclusion that academic dishonesty may have occurred and that action is warranted, the instructor should inform the student of the charge as soon as possible. The student has the right to hear the instructor’s reasons for making the charge, to inspect all relevant evidence in the instructor’s possession, and to respond to the charge. Based on the student’s response and all the evidence, the instructor will determine if a penalty is appropriate. If a penalty is deemed appropriate, the instructor will inform the student of the action to be taken. If the student is not in agreement with the findings or the penalty, the instructor will provide the student with a written statement of the action taken and the basis for it. A copy of this letter will be sent to the chair of the department.

2. Within two weeks of this notification of a judgment of academic dishonesty, the student may appeal the instructor’s decision by letter to the chair of the department or his/her designated representative. The chair, acting expeditiously, should take testimony from the student, the instructor, and all appropriate witnesses and make a decision. If the chair reverses the finding of academic misconduct, the instructor must reexamine the work in question and assign credit without prejudice. In the event that the chair is the instructor in the course, the dean will replace the chair in the appeal process.

3. In cases where a grade of F is assigned in the course and the student has utilized the appeal process described above (in section 2), the student has two weeks to appeal the decision by letter to the dean of the school responsible for the course. The dean should acknowledge receipt of the student’s appeal and inform the student of the course of action within 10 working days of the date the appeal is received in the dean’s office. At the dean’s discretion, an advisory panel may be appointed to study the appeal and make a recommendation to the dean. However, it is the responsibility and prerogative of the dean alone to make, in a timely manner, the final decision. The decision of the dean is final.

4. In cases where the final decision concerning an academic misconduct charge is an F for the course, a letter to this effect will be sent to the Office of the Registrar and be kept on file. The course repeat policy will not apply to course grades resulting from instances of academic misconduct. In these cases, the grades of F received will be computed in the UAB grade point average.

A student who has received the grade of F for two instances of academic misconduct will be expelled from the university. Under certain circumstances, a student may be expelled on the first offense. The student will be duly informed of the pending expulsion and will be provided the opportunity to be heard. The student has two weeks after notification to file a request for an appeal hearing with the Office of the Provost. The ad hoc appeals committee will consist of two people
designated by the Provost, one student appointed by the President of the USGA, and two faculty members appointed by the chair of the Faculty Senate. The Provost will designate the person to serve as chair who will coordinate and preside at all meetings. Students expelled from UAB for academic misconduct will have that noted on their transcripts.

In addition, students should consult the policies of the school/program in which they are enrolled to determine school/program guidelines and penalties regarding academic misconduct and suspension for academic misconduct. Schools that suspend a student on the first offense may post this offense on the student’s UAB academic record.

A student suspended from a UAB school for academic misconduct will have a hold placed on his/her registration and will not be permitted to enroll in another UAB school without that school’s permission. Some UAB programs have policies preventing enrollment of students with past academic misconduct offenses.

Note that individual schools may have academic misconduct rules in addition to the above.

**Non-Academic Conduct**

Your first priority at UAB is to get a great education, plain and simple. The Non-Academic Conduct Policy, maintained by the Office of Student Engagement, provides the guidelines that protect your chance at getting that top-quality education by setting the standard for what it means to be a successful student.

**Non-Academic Student Conduct Policy**

Student Engagement, specifically regarding student conduct is one of many channels that the university can use to foster the personal development of its students. In cases where a student engages in non-academic misconduct, the conduct process is also an approach that we use to protect the safety of the university community. While the conduct process does adjudicate misconduct, it is not a legal system. The conduct process does not use the same procedures, burdens of proof, or rules of evidence as the legal systems. In order to maintain an educational tone, the university takes steps to ensure that the process is as non-adversarial as possible, while still safeguarding the rights of students.

The non-academic misconduct process is an integral part of the educational mission and goals of UAB and Student Life. The Office of Student Engagement oversees and implements the non-academic misconduct process. The nonacademic misconduct process is designed to provide and help maintain an educational atmosphere with emphasis on developing individual understanding and acceptance of personal and social responsibilities; creating a sense of belonging within a welcoming environment; and challenging and supporting students to reflect, integrate, and act upon their UAB experience.

Report a violation of the Code of Conduct

**Student Complaints**

**Academic Matters**

Judgments on academic matters are most appropriately made by individuals with expertise in the particular academic discipline involved. For this reason, complaints by students on academic matters are the responsibility of the department and school involved. Normally, such complaints can be resolved quickly through discussion with the faculty directly involved. In rare situations where such resolution does not occur, the student should contact the chair of the appropriate academic department to file a formal grievance. The student’s grievance should be submitted in writing and accompanied by any appropriate documentation. Grievances should be submitted at the earliest possible time. Consideration will not be given to any grievance submitted later than the end of the term immediately following the term in which the matter in question arose. The department should acknowledge the date the grievance is received and provide notice to the student of when an answer may be expected. It is the responsibility of the department chair to provide an answer to the student within 10 working days. If the matter cannot be settled within the department, the student has 10 working days from the department’s response to appeal the matter to the dean of the school in which the department is located. The dean should acknowledge receipt of the student’s appeal and inform the student of the course of action within 10 working days of the date the appeal is received in the dean’s office. At the dean’s discretion, an advisory panel may be appointed to study the disagreement and make a recommendation to the dean. However, it is the responsibility and prerogative of the dean alone to make, in a timely manner, a decision on any academic disputes which have not been resolved at lower levels, and the decision of the dean is final.

**Non-Academic Matters**

When complaints on non-academic matters cannot be settled by the persons directly involved, a written complaint should be forwarded to the appropriate office. If the administrative officer is unsuccessful in resolving the complaint, it may then be forwarded in writing to the Provost or a designee for further consideration. For specific information concerning the procedures and processes for non-academic complaints and grievances, contact the Office of Student Engagement or visit the following web site: http://www.uab.edu/students/sarc/

the major (at or above the 400 level) must be completed at UAB or on a
residency requirement. A minimum of nine semester hours required for
abroad. Courses taken as alternative credit or as a non-degree student
taken at UAB or on a program supported by the UAB Office of Education
Abroad must be taken at UAB. At least 21 of the last 30 semester hours must be
At least 25 percent of the total semester hours required for graduation
must include any necessary prerequisites for the new major and all major
requirements. The residency requirement must be met for each degree.

Completion of a Degree

Requirements

Baccalaureate Degrees

Requirements for the baccalaureate degree at UAB include at least
120 semester hours of appropriately distributed courses, a UAB GPA of
2.00, a 2.00 GPA on all college work attempted (Higher Education grade
point average), and satisfaction of the Core Curriculum, major, minor
(if required), and residency requirements, along with all other criteria
specified by the school or department governing the major.

Students are subject to the catalog policies in effect at the time of their
most recent admission as a degree-seeking student, with the following
exceptions. Seven years after the date of their first enrollment as a
dergree-seeking student, policies of the catalog currently in effect become
applicable. The student who is not enrolled at UAB for 12 consecutive
months must meet the requirements of the catalog in effect at the
time of re-enrollment. For courses required for the major or minor, the
administering department(s) may establish written policies for the re-
certification of courses taken more than seven years previously.

Residency

At least 25 percent of the total semester hours required for graduation
must be taken at UAB. At least 21 of the last 30 semester hours must be
taken at UAB or on a program supported by the UAB Office of Education
Abroad. Courses taken as alternative credit or as a non-degree student
(excluding post-baccalaureate students) may not be used to satisfy the
residency requirement. A minimum of nine semester hours required for
the major (at or above the 400 level) must be completed at UAB or on a
program supported by the UAB Office of Education Abroad. Individual
departments may have additional requirements.

Total Credits and Averages

The minimum total credit hours required for a baccalaureate degree is
120 semester hours. The student must have a higher education grade
point average of at least 2.00 (C) in all credit hours attempted at all
institutions including UAB and an average of at least 2.00 (C) in all credit
hours attempted at UAB.

Distribution of Credits

In addition to the overall requirements mentioned above, there are
important requirements for the distribution of credits. All programs
of study leading to the baccalaureate degree have as an essential
component a common Core Curriculum. Students majoring in the Schools
of Business, Education, Engineering, Nursing, and Health Professions
satisfy Core Curriculum requirements in addition to specific school
requirements and requirements in their chosen major(s). In the College
of Arts and Sciences students meet Core Curriculum requirements,
requirements for a major specialization, and any requirements for a
minor, specialization or concentration, if required.

Major

Requirements for majors vary and can be found in the sections of
this catalog on the specific academic unit responsible for the major. A
minimum C average in the major is required for graduation. Furthermore,
the academic unit responsible for the major may require the student to
repeat, or otherwise compensate for, any course required for the major in
which a grade below C was earned. Majors should be declared (https://
www.uab.edu/students/academics/student-success/declare-your-major)
before, or changed  (https://www.uab.edu/students/academics/changing-majors)
online. Some majors are subject to additional admission requirements
and enrollment limitations.

Double Major

Students who wish to double major must maintain an affiliation with
one school and graduate under that school’s core curriculum and major
requirements. In addition, the student must complete the requirements for
the second major including all prerequisites. It is important for students
to maintain contact with advisors of both majors so that requirements are
completed for both majors.

Dual/Multiple Degrees

A bachelor’s degree is based on at least 120 semester hours of
coursework. For each additional degree, a student must complete at least
30 semester hours of work over and above the work done for the first
degree. As with the first degree, work done for each additional degree
must include any necessary prerequisites for the new major and all major
requirements. The residency requirement must be met for each degree.

Second Bachelor’s Degree

After graduating with a bachelor’s degree, a student may earn a second
bachelor’s degree by completing in residence, with an average of C or
better, at least 30 semester hours of work taken subsequent to awarding
of the first degree. Work done for the second degree must include any
necessary prerequisites for the new major and all major requirements.
The first degree, whether earned at UAB or another regionally accredited
institution, must be based on at least 120 semester hours of fully
credited work. No minor is required for the second degree. A student

The University of Alabama at Birmingham
interested in earning a second degree is required to have the program of study approved by the school in advance.

**Minor**

The availability of minors is indicated in the sections of this catalog on the various schools. The course requirements for the minor are specified in the catalog section for the department offering the minor. The department offering the minor may require the student to repeat, or otherwise compensate for, any course required for the minor in which a grade below C was earned. Whether a minor is required for a particular major is specified in the catalog section for the school in which the major resides.

**Individually Designed Majors and Minors**

Students with specific career goals or with unique intellectual objectives may propose majors and minors designed to meet their individual academic needs. The Individually Designed Major requires a minimum of 40 semester hours in the major, of which at least 20 semester hours must be in courses numbered at or above 300 and approved for use towards a major, with a minimum of a C average. Students are not permitted to apply the same individual course(s) to satisfy both a minor and a major. In addition, students must prepare a rationale for a nonstandard major-level course of study, complete Core Curriculum requirements, and complete any additional requirements set by the school in which the degree will be awarded. The Individually Designed Minor requires completion of 21 semester hours, of which nine semester hours must be in courses numbered at or above 400, with a minimum of a C average. The Individually Designed Major or Minor must be reviewed and approved by the departments involved, by the dean of the school in which the degree will be awarded, and by the Office of the Registrar. For advising on program development and approval procedures, consult the Office of the Registrar, registrar@uab.edu; 1605 11th Avenue South, Birmingham, AL 35294.

**Limitations on Some Types of Credit**

For some types of credit, there are limitations on the amount that can be applied toward the minimum hours required for a baccalaureate degree (usually 120 semester hours).

1. For credits transferred from a two-year college, the limit is no more than one-half the number required for a baccalaureate degree, provided that the work is freshman (100) or sophomore (200) level.
2. For alternative work, including Advanced Placement, College Level Examination Program, credit by examination, evaluation of non-collegiate-sponsored courses, credit for military services courses, International Baccalaureate credit, and credit by portfolio, the limit is no more than 45 semester hours.

**Bachelor’s Degree with Honors**

The Higher Education grade point average is used in conferring academic honors at graduation and is based on all college work attempted. Honors designations are conferred according to the following GPA Ranges:

<table>
<thead>
<tr>
<th>GPA Range</th>
<th>Designation</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50 - 3.69</td>
<td>cum laude</td>
</tr>
<tr>
<td>3.70 - 3.89</td>
<td>magna cum laude</td>
</tr>
<tr>
<td>3.90 or above</td>
<td>summa cum laude</td>
</tr>
</tbody>
</table>

Honors designations at commencement are based on the grades reported at the end of the previous term and may not reflect all earned honors.

**Procedures for Applying for a Degree**

Students are advised to file an online application for degree at least two terms prior to completing work for a baccalaureate degree. This will allow time for the application to be processed and completion of degree requirements to be verified. The absolute deadline to apply for degree is the tenth day of the term in which the student plans to graduate. Online applications are available at http://www.uab.edu/commencement/degree-applications.

**Graduation**

Official UAB graduation ceremonies are held in April, August, and December for graduates of the preceding semester or term. Graduates are listed in the commencement program for that term. Students who have completed the requirements for baccalaureate degrees are urged to attend.

Students receive their diplomas approximately four weeks after the end of the regular term in which they complete their degree requirements, provided the application for degree is submitted by the published deadline. Please visit the commencement website for additional information http://www.uab.edu/commencement.

**The UAB Undergraduate Academic Experience**

**Shared Vision for a UAB Graduate**

The Shared Vision for a UAB Graduate reflects high expectations in the areas of Communication, Knowledge, Problem-Solving, and Citizenship.

**Communication - A UAB graduate**

- Participates effectively in the world of ideas and information.
- Reads with comprehension, attention to detail, and an awareness of context, tone, and interconnections with other texts, life experiences, and public events.
- Writes correctly and effectively in response to specific needs and for diverse audiences and contexts.
- Speaks effectively as determined by audience, setting, and circumstances.
- Uses information technology effectively for professional communication.

**Knowledge - A UAB graduate**

- Possesses a depth and breadth of knowledge sufficient for informed decision-making.
- Demonstrates substantial knowledge in a disciplinary major.
- Differentiates among methodologies, major ideas and figures, and specific information or issues relevant to the sciences and humanities.
- Uses effectively the technology appropriate for one’s discipline.

**Problem-Solving - A UAB graduate**

- Collects and evaluates data and analyzes complex issues, using appropriate methods.
• Demonstrates critical thinking skills by synthesizing information, making reasonable arguments, and arriving at logical conclusions.
• Demonstrates quantitative reasoning by interpreting data in multiple formats and applying quantitative methods to solve complex problems.
• Demonstrates the ability to achieve goals through collaboration.

Citizenship - A UAB graduate

• Is aware of contemporary issues and prepared to engage responsibly in the community.
• Understands civic responsibility and engages in informed decision-making with respect to social and political issues.
• Recognizes that values and ethics are integral to one’s academic, personal, and professional life.
• Respects the significant role of diversity in the contemporary world.

The Shared Vision for a UAB Graduate is achieved through the UAB Undergraduate Academic Experience, which begins with the first year experience and the core curriculum; continues with major courses, elective courses, and perhaps courses required for a minor or certificate; and culminates in a capstone experience.

First Year Experience

Every UAB first year student will share a common foundation for learning, whatever their majors or professional goals. This common foundation is found in the Discussion Book and the First Year Experience (FYE) course.

Discussion Book

Since 2005, UAB has selected an annual UAB Discussion Book as one focal point for uniting first year students with the returning students, faculty, and staff of this research extensive campus. In addition to providing all UAB community members with a common ground for discussion, the Common Reading program provides a contextualized foundation upon which students, faculty, and staff may explore personal and shared interests in issues related to civic engagement and social awareness. The Discussion Book has literary merit, raises complex questions, is relevant to contemporary issues, and broadens the reader’s understanding of diversity in a meaningful way. Students are able to purchase the book at the UAB Bookstore during New Student Orientation.

Intentionally designed to foster a sense of community among all participants, programming related to UAB’s Common Read includes activities throughout the academic year in courses, residence hall activities, and student life. The Common Read provides a focus point for students to explore and discuss their transitional experiences during their collegiate journey and is integrated into First Year Experience courses that are taught by the Vulcan Material Academic Success Center team as well as other core curriculum courses. Partnerships among colleagues within the Division of Student Affairs increases the diversity of events offered that connect curricular engagement through co-curricular activities in students’ residence halls and social space as well as the classroom.

First Year Experience Course Requirement

Students entering UAB with fewer than 24 hours of college credit must enroll in and pass a first year experience (FYE) course in their first 24 credit hours at UAB.

FYE courses are the gateway to undergraduate education at UAB. FYE courses improve student success by helping to bridge the gap between high school experiences and university expectations and enhance successful progress towards graduation by establishing the foundations for academic achievement and holistic development. FYE courses include:

- Freshman Learning Communities
- College-, School-, or Department-focused FYE courses, which may be the required option for certain majors (check catalog requirements).

Core Curriculum Requirements

Sometimes called general education courses, the core curriculum is a selection of required and elective courses that together promote six competencies which build the foundation for attainment of the Shared Vision for a UAB Graduate.

A graduating student should be able to demonstrate the following core competencies:

• Reading and writing skills sufficient to ensure access to information and ideas in the institution’s curriculum as well as in society at large.
• An ability to reason and evaluate information within the context of the natural world.
• The ability to collect and evaluate information within the context of the scientific method and to use this ability to further one’s understanding of the natural world.
• The ability to apply mathematical skills and quantitative reasoning to solve problems and interpret information.
• The ability to reason and evaluate information within the context of the social and behavioral sciences and to use this ability to further one’s understanding of the social, economic, and political environment.
• Knowledge of contemporary and/or historical issues.

Who is required to fulfill the Core Curriculum Requirements?

• First time college freshmen who have no credit for college work (excepting credit earned while still enrolled in high school).
• Those returning UAB students or transfer students who are enrolling as a degree student after an absence from college of more than 12 months.
• Students who enrolled for the first time in any institution of higher education in Fall 1998 or later and who subsequently transferred to the University of Alabama at Birmingham.

Any student with a valid articulation contract from an Alabama two-year school will be able to enroll under the terms of the contract. Contracts prior to Fall 1998 must have been submitted to UAB’s Office of Admission according to the procedures in place at the time.
Since Fall Term 2000, all undergraduate students entering UAB have been subject to the 1998 Core Curriculum requirements.

Can One Satisfy Core Curriculum Requirements with Alternative Credit?

Students may satisfy certain Core Curriculum requirements by presenting credit earned through the following: Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP), and Credit by Examination (CBE). Students with AP, IB, or CLEP credit must have official documents sent to the Office of Enrollment Management, ATTN: Alternative Credit, 1605 Building, 1605 11th Avenue South, (205) 934-5503, for evaluation and acceptance before credit can be posted on the UAB transcript.

What Courses Satisfy Core Curriculum Requirements?

Core curriculum requirements are divided into four areas, and all students must fulfill requirements in each area. See Collat School of Business and School of Engineering sections of this catalog for their specific variations. Majors may also have specific requirements in each area, as indicated in this catalog.

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

What is the relationship between the core competencies and the core curriculum courses?

The matrix below identifies how specific core curriculum courses introduce or reinforce the desired core competencies which build the foundation for attainment of the Shared Vision for a UAB Graduate.

Faculty who teach courses in the disciplines have identified these core competencies as essential for success in upper-division major courses.

UAB has chosen to place special emphasis on three essential competencies embedded in the six core competencies identified below. These targeted competencies are writing, quantitative literacy, and ethics & civic responsibility. Core courses which intentionally provide specific instruction in, practice of, and assessment of writing, quantitative literacy, and ethics & civic responsibility are identified below with a W, QL, and/or ECR.

The UAB Core Curriculum Matrix

Core Competency

Demonstrate reading and writing skills sufficient to ensure access to information and ideas in the institution’s curriculum, as well as in society at large.

- FR 101 Introductory French I 4
- MA 105 Pre-Calculus Algebra 3
- MA 106 Pre-Calculus Trigonometry 3
- MA 107 Pre-Calculus Algebra and Trigonometry 4

Core Competency
Demonstrate knowledge of contemporary and/or historical issues.

Requirements

**Core Curriculum Courses in Which Introduced**
Learning Outcomes for Writing include:

1. Respond to an assigned topic in a way that shows responsible concern for an identified audience.

2. Write a logical argument that makes an unambiguous claim, marshals reasonable and appropriate evidence, and takes seriously the perspectives of others by fairly presenting and responding to alternative claims.

3. Incorporate external sources pertinent to the argument and document such sources accurately and appropriately, demonstrating academic integrity when referencing the ideas of others.

4. Demonstrate an appropriate level of competence in grammar, usage, and mechanics.

5. Accurately use the writing conventions appropriate to the discipline.

Quantitative Literacy (QL)

Quantitative literacy is fundamental to solving quantitative problems that occur in school, life, and work, and in communicating solutions to those problems to others. Quantitative literacy builds on mathematics, but unlike “pure math,” it emphasizes the application of quantitative methods in a wide variety of contexts. Quantitatively literate students are able to understand and, as necessary, interpret a problem in quantitative terms and then solve it using appropriate methods. Like verbal literacy, quantitative literacy is critical to effective citizenship, communication, and personal and social responsibility. Quantitative Literacy courses have a “QL” designation in their description. To foster this essential competency, every program ensures that its majors take a minimum of two QL courses between the First Year Experience and the Capstone.

Learning Outcomes for Quantitative Literacy:

1. Compute using arithmetic and algebra, work with units of measurement, translate verbal descriptions into mathematical form, and/or evaluate the reasonableness of quantitative assertions.

2. Interpret and construct tables, graphs, and schematic representations of relationships among objects and concepts.

3. Draw conclusions based on probabilities, costs, benefits, and risks.

4. Use quantitative evidence as a basis for reasoning, problem-solving, and argument

5. Design empirical research, evaluate research designs, and analyze data to draw conclusions about research hypotheses.

6. Communicate quantitative information using numbers and words appropriate to the audience.

Ethics and Civic Responsibility (ECR)

The role of a university is to prepare students to function effectively and engage responsibly in both the academic community and post-graduation life. Ethical decisions should be academic, personal, and professional goals for everyone. Effective and responsible living depends upon the ability of individuals to strive for excellence, to make informed and ethical decisions, to accept responsibility for one’s choices, and to practice good citizenship as part of multiple larger social units. Ethics and Civic Responsibility courses are have an “ECR” designation in their description. To foster this essential competency, every program ensures that its majors take a minimum of two ECR courses between the First Year Experience and the Capstone.

Learning Outcomes for Ethics and Civic Responsibility:

1. Understand and practice ethical reasoning and decision-making

2. Be knowledgeable about contemporary events and issues

3. Understand civic responsibility

4. Understand the role and value of diversity
Capstone Requirement

UAB’s undergraduate programs culminate in a capstone requirement. The capstone provides a summative opportunity for students to draw upon, synthesize, and apply what they have learned to an original project and/or real life application. Depending on the discipline, the capstone may involve such components as collaborative projects, internships, service learning, fieldwork, independent research, community outreach, and/or thesis writing. In every case capstones include a set of well-defined learning outcomes, significant writing, and integration of discipline-specific competencies in quantitative literacy and in ethics and civic responsibility. Most importantly the capstone provides an enriching bridge experience for students between their undergraduate education and post-graduation lives.

All UAB students must successfully complete the capstone course or experience required by their major program or school in order to graduate.

Academic Engagement & Global Citizenship

The Office of Academic Engagement and Global Citizenship is comprised of two offices and three programs that promote academically enriching and engaging experiences for students across campus. UAB Education Abroad (p. 107) administers and establishes study abroad programs, assistance for student organization travel abroad, assistance for student travel to attend conferences that take place abroad as a UAB representative, and passport application acceptance services. The UAB Office for Service Learning and Undergraduate Research (p. 109) engages students, faculty members, and community partners into academically-based service experiences that both enrich student learning and provide community benefit. The Office also supports and fosters the research, scholarship, and creative activities across all disciplines between students and their faculty and community mentors.

Education Abroad

**Director:** Brian E. Johnson, Ph.D.

**Coordinator:** Megan K. Talpash

**Contact:** www.uab.edu/educationabroad | 205-975-6611

**Mission**

The mission of the UAB Office of Education Abroad (UABEA) is to administer, establish, and send UAB students on high-quality education abroad opportunities to prepare them for success in the globalized world.

**Description**

Pursuant to our mission, UABEA engages in the activities described below.

**Study Abroad:** Take courses for which academic credit is received and transferred to UAB on our supported study abroad programs. This includes academic credit for student exchanges, UAB affiliate programs, and faculty-led programs that feature traditional classes, research, service learning, internships, volunteerism, shadowing, clinical rotation, and observations. Our office can help students with aspects from selecting a program to facilitating their transition back to UAB.

**Student Organizations Abroad:** Travel abroad as part of a UAB student organization; including Outreach Abroad, Outdoor Pursuits, artistic performances, athletic activities, or other student organization travel. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

**Student Conference Travel Abroad:** Present at or attend a conference that takes place abroad as a UAB representative. Our office can help students register travel with the university, obtain the necessary education abroad insurance, and prepare for the trip.

**Passport Services:** Apply for a passport conveniently on campus. As an official U.S. Department of State Passport Acceptance Facility, we are happy to accept passport applications for students, employees, and members of the community. Our passport service is open to the public.

**Destinations**

With programs in over 45 different countries, there’s something for everyone. Programs are available in the United Kingdom, Italy, Spain, France, China, Germany, Costa Rica, Australia, Ireland, Japan, and many more countries. Over 40 UABEA programs cost approximately the same as UAB tuition + room + board.

**Dates**

Programs are available for fall semester, spring semester, academic year, calendar year, summer, Thanksgiving Break, and Spring Break.

**Languages**

Programs are available in English, as well as all of the foreign languages taught at UAB (and a few that aren’t).

**Eligibility**

To be eligible to apply for our programs, one must:

1. be an enrolled UAB student;
2. be 19 years of age or older (or have parental permission); and
3. be in good academic, disciplinary, and financial standing with UAB.

Some programs have additional eligibility requirements, such as GPA minima, listed on the individual program webpages.

Students may petition to the Director of Education Abroad for a possible exception to the eligibility criteria.

**Subjects of Study**

Students may take core curriculum courses while abroad, as well as courses for their major and minors. Elective credits are also available.

**Course Articulation**

Students need to consult with UABEA before studying abroad to initiate course articulation, the process by which UAB course equivalency is determined for each course to be taken while studying abroad. Course articulation involves the student, UABEA, the host study abroad university, and UAB department chairs and advisors all working together and commonly takes approximately one month to complete.

It is highly recommended that the students contact UABEA to begin the course articulation process at least one month before the application deadline for the selected program. Students who don’t begin the articulation process early enough prior to studying abroad, may not know
how, or if, their courses abroad will count toward completion of a UAB degree.

**Grade Posting**

All grades earned while abroad will be posted to the student's UAB transcript and included in GPA calculations. Letter grades are used rather than pass/fail marks. In all cases, students must participate fully in all course activities and meet all stated course requirements. Auditing of any course abroad is not permitted. The process of grade posting varies depending on the program type:

**UAB Exchanges** are programs for which UABEA has established an exchange agreement with a university abroad. Students earn direct UAB course credit. Students on exchanges are usually mainstreamed into regular classes with the student body at their university abroad. Courses taken on student exchanges will begin with IN ("INternational" indicating that the course took place at an international UAB exchange location) and a two-letter subject code such as ME (Mechanical Engineering), GN (German), SP (Spanish), etc. to indicate the subject that was studied. Additionally, each of the courses are numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university. INxx courses are repeatable. INxx courses include:

| INAB | Study Abroad Arabic |
| INAH | Study Abroad Art History |
| INAN | Study Abroad Anthropology |
| INAR | Study Abroad Art Studio |
| INAT | Study Abroad Astronomy |
| INBE | Study Abroad Biomedical Engineering |
| INBU | Study Abroad Business |
| INBY | Study Abroad Biology |
| INCH | Study Abroad Chinese |
| INCM | Study Abroad Communication Studies |
| INCS | Study Abroad Computer & Information Science |
| INCY | Study Abroad Chemistry |
| INDC | Study Abroad Digital Community |
| INEC | Study Abroad Economics |
| INED | Study Abroad Education |
| INEE | Study Abroad Electrical Engineering |
| INEH | Study Abroad English |
| INES | Study Abroad Earth Science |
| INEV | Study Abroad Environmental Science |
| INFN | Study Abroad Finance |
| INFR | Study Abroad French |
| INGN | Study Abroad German |
| INHY | Study Abroad History |
| INIS | Study Abroad International Studies |
| INIT | Study Abroad Italian |
| INJP | Study Abroad Japanese |
| INJS | Study Abroad Justice Sciences |
| INMA | Study Abroad Mathematics |

**UAB Affiliate Programs** are co-organized by UABEA in cooperation with an education abroad provider and/or a foreign university. Students receive a transcript from the foreign university or U.S. university of record and have transfer credit appear on their UAB transcript. UAB affiliate programs include the UAB/USAC and UAB/ISA programs listed here (http://educationabroad.uab.edu/index.cfm?FuseAction=Programs.ListAll&). Courses taken on UAB Affiliate Programs will begin with INTL ("INTernationaL" indicating that the course took place at an international UAB Affiliate Program) plus the host institution subject code to indicate the subject that was studied. Additionally, each of the courses is numbered. All courses are variable in the number of credit hours students can receive based upon their enrollment at the host university.

UAB Faculty-Led Programs are UAB courses that are developed and taught by UAB faculty and have a field trip that takes place far from campus, usually outside of the United States. The field trips are typically about 1 to 2 weeks in duration and the entire class, faculty leader and students, travel together. Students earn direct UAB course credit. For UAB Faculty-Led Programs, the instructor will assign the final grade as is normally done for any UAB class taught on campus. (See the Grading Policies and Practices (p. 90) section of the UAB Catalog of Undergraduate Programs). UAB Faculty-Led Programs are designated with SA following the course title.

UAB Internship/Practicum Courses Abroad are UAB courses through which students do an internship or practicum, actually working abroad in a company or organization related to the student's area of study, and earn direct UAB course credit. For UAB Internship/Practicum Courses Abroad the instructor will assign the final grade as is normally done for any UAB internship/practicum course taken domestically.

**Residency**

Courses taken on UAB Exchanges, UAB/USAC programs, UAB/ISA programs, U.S. - UK Fulbright Commission Summer Institutes, U.S. Department of State Critical Language Scholarship Program, Clinton Scholarship at the American University in Dubai, UAB Faculty-Led Programs, and UAB Internship/Practicum Courses Abroad will satisfy the UAB residency requirement. Students need to contact UABEA to ensure their Graduation Planning System records are noted accordingly.

**Changes of Grades**

Requests for grade changes to UABEA must be accompanied by official documentation sent directly from the host university.
Service Learning and Undergraduate Research

**Director:** Amy Badham

**Office of Service Learning and Undergraduate Research** (http://www.uab.edu/servicelearning)

As a UAB student, you can explore and pursue your interests through service learning and research opportunities. Service - both local and global - and the pursuit of knowledge through research, scholarship, and creative activities are vital and core to UAB’s mission. Service learning and research opportunities are available to all students who want to engage with today’s pressing issues and problems. UAB’s Office of Service Learning and Undergraduate Research works to bring students, faculty members, and community partners together to advance student learning and provide community benefit through for-credit academic courses and non-credit campus and experiential opportunities in all disciplines across campus.

**Service Learning**

UAB is fortunate to be situated in the heart of a vibrant urban community with a large number of passionate and highly effective nonprofit organizations. The directors and staff members of these organizations - working to reduce systemic poverty, advocate for clean air and water, or increase access to healthcare, among many other issues - collaborate with UAB’s faculty members and students in academic service learning courses. Service with a local or global community partner is integrated into these courses to enhance student learning of course content, to provide community benefit, and to produce participatory citizens. You also gain real-life, hands-on experience that enables you to be a top-notch candidate in job and graduate school interviews.

The Office of Service Learning and Undergraduate Research helps students find service learning courses and meaningful, long-term community service experiences. In addition, it advises and supports faculty members and community partners who are providing experiences that integrate academic learning and civic engagement.

**Service Learning Courses**

The list of service learning courses grows and changes each semester as UAB faculty are continually developing new courses and integrating service learning into existing courses. Eligibility to participate in a service learning course depends on the particular course requirements as established by the department and professor. For the most up-to-date list of service-learning courses available, perform an Advanced Search in the UAB Class Schedule, and select “Service Learning” in the attribute box.

**International Service Learning Opportunities**

UAB Education Abroad offers service-learning opportunities associated with study abroad programs and UAB student organization travel abroad. For details on international service learning opportunities, see www.uab.edu/educationabroad.

For More Information on Service Learning:

- Visit Heritage Hall Room 527
- http://www.uab.edu/servicelearning/
- www.facebook.com/UABServiceLearning
- Twitter: @UABServeLearn

Undergraduate Research

As one of the 108 institutions in the nation currently classified as a “Very High Research University” by the Carnegie Classification of Institutions of Higher Education (http://carnegieclassifications.iu.edu), UAB attracts students, faculty, and staff from all over the world to engage in groundbreaking, innovative research across the disciplines. As an undergraduate student, you have the opportunity to participate in research, investigation, performance, scholarship, or creative activities in collaboration with a mentor to enhance and illuminate your learning.

The Office of Service Learning and Undergraduate Research helps students engage in research, scholarship, and creative activities in collaboration with a faculty mentor via an academic course or through an independent project. The office also provides opportunities for students to showcase their scholarship through the Spring, Summer, and Fall Expo events. In addition, it provides programming and workshops to students and faculty members to advance, facilitate and promote undergraduate research.

**Undergraduate Research Courses**

Eligibility to participate in a research-designated course depends on the particular course requirements as established by the department and professor. The list of undergraduate research courses grows and changes each semester. For the most up-to-date list of research courses available, perform an Advanced Search in the UAB Class Schedule, and select “Undergraduate Research” in the attribute box.

For More Information on Undergraduate Research:

- Visit Heritage Hall Room 527
- https://www.uab.edu/undergraduateresearch/
- https://www.facebook.com/UABUndergradResearch/

**Early Medical School Acceptance Program (EMSAP)**

The Early Medical School Acceptance Program (EMSAP) offers superior high school seniors the assurance that after completing undergraduate studies at UAB, they will enter the UAB School of Medicine, Dentistry, or Optometry. EMSAP students can complete an excellent undergraduate program and gain conditional admission into UAB’s world-renowned medical programs.

To be considered for admission to EMSAP, students must have the following:

- Four years of English
- Four years of mathematics
- At least one year each of chemistry or physics and biology, preferably AP or IB level
- A grade point average of at least 3.5 (on a 4.0 scale) in academic subjects, and
- An ACT composite score of at least 30 or a redesigned SAT score of 1400
- U.S. citizenship or lawful permanent residence

Selected candidates who meet the academic criteria are interviewed by members of the Admissions committee of the respective professional schools. In making its final selections, the committee considers maturity and exposure to medicine, as well as letters from teachers. Students can
English Language Programs, INTO UAB

INTO UAB

At INTO UAB, international students join a supportive community committed to helping them integrate with ease into American university life while preparing for degree studies. Unique programs help improve academic and English language skills, and helpful faculty and staff ensure students adjust to life in the US. Students studying in the INTO UAB Center have all the benefits of campus life at an American university. Living and learning in the heart of UAB’s campus, international students develop friendships with American and international students and have access to all of the academic, social and cultural resources and activities at The University of Alabama at Birmingham.

Pathway Programs

INTO UAB offers academic Pathway programs designed to prepare students to progress with confidence to UAB undergraduate and graduate degree programs.

Academic English Program

The Academic English program at INTO UAB prepares international students for university study in the US. This academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at UAB through development of:

- Listening
- Speaking
- Reading
- Writing
- Vocabulary and pronunciation skills
- Correct grammar usage
- Academic study skills

Program Highlights

- Intensive English instruction to prepare for university study
- Academic advising and support throughout the program
- Small class sizes
- Highly trained and experienced instructors

Program Courses

Level 1-2

- Integrated Skills
- Vocabulary Building
- Writing
- Reading

Level 3-5

- Grammar in Use
- Academic Listening and Speaking
- Academic Reading
- Academic Writing

Program Outcomes

After finishing this intensive program, successful students will be able to:

- Interact comfortably in the US classroom with professors and fellow students
- Understand US values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the internet and UAB libraries databases to conduct academic research
- Read, understand and critically evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

Understand the Pathway Program

INTO UAB’s Undergraduate Pathway program combines intensive language study, academic skills development and academic coursework in a program designed to move students successfully through the first year of their four-year degree program of study in the US.

The Undergraduate Pathway program is for students who:

- Want to study for an undergraduate degree in the US
- Desire additional academic, language and cultural support in order to succeed during the first year at a US university
- May need to improve English language skills
- May have a lower GPA than required for direct admission to degree program
- Meet any or all of the above criteria

In addition to intensive English instruction, Pathway students take core academic courses including math, science, writing and other courses required of all students, domestic and international. All Undergraduate Pathway courses are UAB credit-bearing courses. Undergraduate Pathway programs are available in the fall, spring and summer semesters. Some programs will require taking courses in the summer in order to complete the degree in four years. Programs such as engineering may require a fifth year to complete a bachelor’s degree.

Program Benefits

Pathway students receive the highest level of support during their transition abroad, making the program an ideal choice for international students who are driven to achieve high academic goals. Other benefits include:

- Guaranteed progression to a UAB degree program (upon successful completion of a Pathway program)
- Full integration with domestic and international students on the UAB campus

Pathway students only apply for EMSAP programs as seniors in high school. They must first be admitted to UAB by December 1st and then must complete the EMSAP application online by December 15th. For further information, including criteria for remaining in good standing in EMSAP, please see the EMSAP web site at: [http://www.uab.edu/emsap/](http://www.uab.edu/emsap/) or contact the Office of Undergraduate Admissions by email at chooseuab@uab.edu or by phone at (205) 934-8221.
• Access to all UAB cultural events, athletic events and activities including UAB’s state-of-the-art recreation center
• Classrooms and accommodations in the heart of UAB’s compact and accessible campus with shopping, dining and other services located nearby
• Individual supplemental tutoring
• Highly trained and experienced university instructors
• Academic advising throughout the program

Prepare for Success
At the end of the first year, Pathway students should be able to:
• Communicate effectively in written and spoken English
• Interact fully with professors and fellow students in a US classroom setting
• Understand research, reference and citation standards for American academic papers
• Use on-campus technology including computer hardware and software
• Read, comprehend and critically evaluate academic texts and problems
• Take useful and accurate notes in academic lectures

Undergraduate Pathway Programs
• Business
• Computer and Information Science
• Engineering
• General Studies
• Public Health
• Science

Graduate Pathway
The innovative Graduate Pathway Programs offered at INTO UAB are designed to develop international students’ academic knowledge and strengthen their language ability and study skills, enabling them to progress successfully to a UAB graduate degree program.

There are two Pathway options for students with the equivalent of a four-year undergraduate bachelor’s degree:

Standard Pathway (two semesters)
• Students with an equivalent four-year bachelor’s degree and TOEFL iBT 65+, IELTS 5.5 PTEA 44 or completion of Academic English Level 4.

Accelerated Pathway (one semester)
• Students with an equivalent four-year bachelor’s degree and TOEFL iBT 80+, IELTS 6.5, PTEA 53

Decide if the Program is Right for You
The Graduate Pathway program is for students who:
• Want to study for a graduate degree in the US
• Desire additional academic, language and cultural support in order to succeed during the first year at a US university
• May need to improve English language skills
• May have a lower GPA than required for direct admission to degree program
• Meet any or all of the above criteria

Graduate Pathway Programs at UAB:
• Master of Science in Biotechnology
• Master of Business Administration (MBA)
• Master of Science in Computer and Information Science
• Master of Engineering in Design and Commercialization
• Master of Science in Civil Engineering
• Master of Science in Electrical Engineering
• Master of Science in Materials Engineering
• Master of Science in Mechanical Engineering
• Master of Science in Public Health
• Master of Science in Computer Forensics and Security Management—one track for undergrad degrees in the field/one track for undergrad degrees out of the field
• Master of Public Administration
• Master of Arts in Early Childhood Education
• Master of Arts in Special Education
• Master of Arts in TESOL
• Master of Science in Health Informatics

ROTC
Both the United States Army and Air Force offer Reserve Officer Training Corps (ROTC) at UAB. Air Force ROTC courses are taught on the Samford University campus.

Army ROTC
Faculty: LTC Skells, CPT Araujo, MSG Scott, SFC Marlow, Mr. Parker, Mr. Garcia, Mr. Abbott, Ms. Edwards, Ms. Scott

The Army Reserve Officers Training Corps (ROTC) program offered at UAB under federal laws and Acts of Congress. Students may compete for two, three, or four year full tuition ROTC scholarships just by attending an ROTC class.

ROTC develops leadership and problem solving skills training, through hands-on training and classroom instruction by experienced, active-duty Army officers and non-commissioned officers. Students learn the necessary skills to become successful civilian or military professionals. Students apply leadership, organizational and personnel management skills in a variety of challenging environments.

Qualified students may obtain a commission as a Second Lieutenant, with the opportunity to serve as either full time in the active Army, or full or part time in the National Guard or U.S. Army Reserve.

Enrollment
All students are eligible to apply to the program. The Army ROTC program offers several courses that may be counted as electives. The Lower Division is designed to benefit students with a broad range of professional goals. The Upper Division leads to a presidential commission as a Second Lieutenant in the U.S. Army. Enrolled students who actively pursue a commission may earn a Minor in Military Science.
Lower Division
Lower Division courses are normally taken in the freshman and sophomore years. Veterans may take a compressed version of the Lower Division sequence in the summer as a six-week, all-expense-paid leadership seminar. Successful completion of the Lower Division gives students the credentials necessary for enrollment in the Upper Division.

Upper Division
Upper Division courses are taken during the final two years of college and include an advanced summer seminar between the junior and senior years. Students in the Upper Division are paid $450 to $500 per month while enrolled, and earn a salary for all summer internships.

Scholarship Program
Army ROTC offers opportunities for scholarships covering full tuition. Students may apply for three-year or two-year scholarships. Each scholarship covers tuition, provides an annual allotment of $1,200 for books and fees, and gives students a tax-free allowance each month classes are in session. The allowance increases each year: $300 per month during the student’s freshman year, $350 per month during the sophomore year, $450/month during the junior year, and $500 per month during the senior year. Army ROTC scholarships are awarded on the basis of merit. Family income has no bearing on eligibility for an award. For more details, see the Financial Aid section of this catalog or contact the scholarship advisor at the ROTC Department, Telephone (205) 934-8749.

Partnership in Nursing Education
Army ROTC also offers a unique scholarship opportunity for UAB School of Nursing students under the Partnership in Nursing Education (PNE) program. These scholarships not only cover tuition, books and fees, and the monthly allowance, but also guarantee progression into the upper division clinical nursing classes. Two-year, three-year, or four-year scholarships are available for all qualified nursing majors. See the Financial Aid section of this catalog or contact the scholarship advisor at the ROTC Department, Telephone (205) 934-8749.

Veterans
Students with prior military experience can fulfill credit requirements for the ROTC Lower Division sequence. If credit is granted, and provided the student is not on a three-year Army ROTC Scholarship, veterans may bypass the freshman and sophomore years of ROTC and enroll directly in the Upper Division sequence. Students with prior service may be eligible for special veteran scholarships. In addition to any financial assistance from ROTC, veterans are still qualified to receive any and all GI Bill, Army College Fund, or VEAP benefits to which they are entitled.

Simultaneous Membership Program
Students may take advantage of the Simultaneous Membership Program (SMP), which allows participation in ROTC and enlistment in the Army National Guard or Reserve at the same time. SMP Students serve as officer trainees in a Guard or Reserve unit and perform duties commensurate with the grade of Second Lieutenant. SMPs are paid at the rate of at least a Sergeant E-5 for Guard or Reserve service.

Minor in Military Science
Students who are actively pursuing a commission as a Lieutenant (active duty or reserve duty) may pursue a minor in Military Science. Contact the Department of Military Science, (205) 934-8763, or UAB Academic Programs and Policy for more information.

Honors Program
As part of the Military Honors Program, military science students with outstanding qualities of leadership, academics, and high moral character may be designated by the Professor of Military Science as “Distinguished Military Students.” Upon earning a commission as a Second Lieutenant and a baccalaureate degree, select students may be designated “Distinguished Military Graduates.”

Further Information
For further information on the UAB Army ROTC program, contact the Professor of Military Science at (205) 934-8763 or 934-8749, or visit the web site at http://www.uab.edu/armyrotc.

Air Force ROTC
The Air Force Reserve Officer Training Corps (ROTC) program provides college men and women with the opportunity to compete for a commission as a Second Lieutenant in the United States Air Force upon graduation. The program is divided into the General Military Course and the Professional Officer Course. The General Military Course includes courses offered during the first two years of the program and is open to all students without military obligation. The Professional Officer Course includes junior and senior level courses and is restricted to those who meet entry requirements or have special permission from the Professor of Aerospace Studies. Air Force ROTC students can gain confidence, leadership training, communication skills, and an appreciation for the role of the military in contemporary society. Call (205) 726-2859 for complete information.

General Military Course
The General Military Course consists of:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFS 101</td>
<td>Air Force Today</td>
</tr>
<tr>
<td>AFS 102</td>
<td>Air Force Today</td>
</tr>
<tr>
<td>AFS 201</td>
<td>Development of Air Power</td>
</tr>
<tr>
<td>AFS 202</td>
<td>Development of Air Power</td>
</tr>
</tbody>
</table>

These courses are open to all students regardless of qualifications for military service or intent to compete for commission. As part of the General Military Course, students examine the basic organization and structure of the Air Force, appreciate the historical significance of air power, apply basic communication skills, and receive an introduction to total quality management. Each course is one semester hour credit.

Scholarship Programs
Four-year college scholarships are available to highly qualified high school seniors. Interested students should visit www.afrotc.com (https://www.afrotc.com) or contact the nearest Air Force ROTC program for more information. Applications are due by December 1 of the senior year in high school.

Three-year and two-year scholarships are also available to college students. Air Force ROTC scholarships pay college tuition, and books. Scholarship students also receive a monthly tax-free stipend ranging from $300 to $500 depending on academic year in school. Family income has no bearing on eligibility for an award. For additional information, contact
the Aerospace Studies Department at (205) 726-2859. Uniforms and textbooks for all aerospace studies courses are provided at no charge.

Leadership Laboratory

Leadership Laboratory is an integral part of the Air Force ROTC program. It provides an opportunity for students to apply classroom teachings to actual environments. Each course has an associated leadership laboratory. The laboratory meets for two hours each week during the term. Instruction is conducted within the framework of an organized cadet corps with a progression of experiences designed to develop leadership potential. Leadership Laboratory involves a study of the life and work of Air Force junior officers. Students develop their leadership potential in a practical, supervised laboratory, which typically includes field trips to Air Force installations throughout the United States.

The first two years of Leadership Laboratory involve activities classified as initial leadership experiences. This includes studying Air Force Customs & Ceremonies, Drill & Ceremonies; giving military commands; instructing, correcting, and evaluating the preceding skills; studying the environment of an Air Force base; and learning about career opportunities available to commissioned officers. The last two years of Leadership Laboratory consist of activities classified as advanced leadership experiences. They involve planning, organizing, coordinating, directing, and controlling the military activities of the cadet corps; preparing and presenting briefings and other oral and written communications; and providing interviews, guidance, and information to increase the understanding, motivation, and performance of other cadets.

Field Training

Air Force ROTC field training is offered during the summer months at selected Air Force bases throughout the United States. Students in the four-year program participate in 23 days of field training, usually between their sophomore and junior years. The major areas of study in the 23 days of field training program include officership training, career orientation, base functions and the Air Force environment, and physical training.

Minor Requirements for Aerospace Studies

To earn a Minor in Aerospace Studies, the student must have a 3.0 GPA or better in all Aerospace Studies courses, and a “C” or better in all required classes. No grade below a “C” will count towards the Minor in Aerospace Studies. This must include at least two courses of the Military Science 300 Sequence (6 semester hours), and two courses of the Military Science 400 sequence (6 semester hours).

Failure to successfully complete CLC will prevent a student from earning a minor in Military Science. This is a required summer training program for 33 days of training and evaluation in skills and leadership ability, conducted at Ft. Knox, Kentucky.

Total Hours 24

The Vulcan Materials Academic Success Center

The Vulcan Materials Academic Success Center (VMASC) promotes and fosters undergraduate student success, enhances academic performance, and inspires students to achieve their academic, professional, and personal goals. Our resources are intentionally designed to facilitate experiences that encourage student persistence and prepare students for life after graduation.

Academic Services

Exploratory Advising

Academic advising at UAB supports the teaching and learning mission of the University by guiding students through their academic journey and helping students understand the value of achieving their goals in and out of the classroom. The Exploratory Advising initiative is designed to support students who have not declared a major, or are considering changing their major, and want to think more critically about the options among all of UAB’s degree-granting programs. Our team of Academic Advisors are professionally trained to assist you as you prepare to declare your major and define your career interests. We feel strongly that Academic advising captures the essence of a student’s potential by focusing on the development of a mutually beneficial academic and graduation plan of action. To make an appointment with your Academic Advisor, please visit us here, (https://www.uab.edu/students/academics/student-success/who-is-my-advisor)

Supplemental Instruction

Supplemental Instruction (SI) is an academic support model that utilizes peer-assisted study sessions to improve student persistence and success.
within specific, historically difficult courses. The weekly review sessions are facilitated by “SI Leaders”, students who have previously done well in the course (received an A or B) and who attend all class lectures, take notes, and work directly with the course’s faculty. The program encourages collaborative learning and shows students how to integrate course content and study skills. SI is a free and voluntary service.

Supplemental Instruction is associated with improved student outcomes such that students who attend SI sessions earn one half to a whole letter grade higher than their peers who do not attend SI sessions. Data indicate that SI is an effective method to enhance student success across disciplines. More information on SI can be found here. (https://www.uab.edu/students/academics/student-success/supplemental-instruction)

Success Advising

Success Advising is facilitated by a professional educators in the VMASC and takes place in a one on one session. Sessions are conducted in an effort to identify and assess any external factors that may be impairing a student’s overall success at UAB. Students are welcome to seek success advising on a need basis, or welcome to set up a regular schedule to meet with their success advisor throughout the semester to create and track implementation of an academic success plan based on their individual goals. The goal of success advising is to provide the student with the skills and resources necessary in all areas directly correlated to academic and overall student success. Appointments can be made online here. (https://mytutor.uab.edu:4443)

Tutoring

The Vulcan Material Academic Success Center provides free course-specific tutoring services to UAB undergraduate students. Tutoring is offered in both one-on-one and group sessions. Our tutoring sessions are tailored to address undergraduate students’ questions and needs as we aim to foster independent learning. Appointments can be made online here. (https://mytutor.uab.edu:4443)

Academic Success Workshops

Academic success workshops are designed to provide students with an interactive experience that will enhance their academic learning. Workshops are organized by topic and designed to meet the demands of college-level academics. Common topics presented are related to Study Skills, Learning Strategies, and Time Management. All workshops are facilitated by faculty or staff at UAB and are offered throughout the semester. The schedule of events may be viewed here.

For more information or to make an appointment, please stop by the Vulcan Materials Academic Success Center (http://www.uab.edu/success) on the second floor of the Education building, 901 13th Street South, across from the Sterne Library Starbucks, or please call 934-8184.

Collat School of Business

Dean: Eric P. Jack, Ph.D.
Senior Associate Dean: Karen N. Kennedy, Ph.D.
Associate Dean for Research, Innovation, and Faculty Success: Molly McLure Wasko, Ph.D.

UB’s Collat School of Business is the only named school at the University of Alabama at Birmingham, a world-renowned academic research center. We offer eight undergraduate and three graduate degree programs in Face-to-Face and Online formats to serve the varying needs of students.

Located in the heart of Alabama’s business center, the Collat School of Business offers an engaging learning environment with classrooms extending well beyond the walls of the UAB campus. Our unique location allows our faculty to integrate the practical experiences of the state’s leading companies — from Fortune 500 corporations to entrepreneurial startups — into the programs we offer. Our students gain valuable, real-world experience through a wide variety of internships and other opportunities in the business community. Opening in fall 2018, the Collat School of Business will be housed in a state of the art building designed to blend innovative classroom and learning spaces.

The Collat School of Business is accredited at the baccalaureate and master’s levels by AACSB International and holds separate AACSB International accreditation for our undergraduate and master’s programs in accounting, an accomplishment held by only 174 other U.S. business schools.

Our programs are designed to meet the many diverse educational needs of modern organizations. Additionally, our faculty members are involved in research and service activities that advance knowledge in business, mentor students and assist our stakeholders in accomplishing their unique goals.

At the undergraduate level, the Collat School of Business offers programs of study leading to the Bachelor of Science degree with majors in accounting, economics, finance, human resource management, industrial distribution, information systems, management and marketing. Each program combines a broad exposure to the arts and sciences with comprehensive preparation in all areas of business. In addition, recognizing the undeniable advantage of practical experience as part of a rich academic program, all degree-seeking students engage in at least one of several options for Experiential Learning credit. Those options include internship (paid or volunteer), study abroad, a business analysis project, a service learning project, a research project or completion of the Business Honors Program. Students work with their academic advisor to determine which option is most appropriate.

At the graduate level, the Graduate School of Management offers programs of study leading to the Master of Business Administration, Master of Accounting or Master of Science in Management Information Systems degrees. Programs resulting in a dual degree are offered in cooperation with the School of Public Health (MPH/MBA), the School of Health Professions (MSHA/MBA), the School of Medicine (MD/MBA), the School of Dentistry (DMD/MBA) and the School of Optometry (OD/MBA). The Ph.D. degree in administration/health services is offered in cooperation with the School of Health Professions.

Mission, Vision and Values Statements

Mission Statement

We create and disseminate business knowledge that transforms the lives of our students and stakeholders by leveraging our locational advantages for the benefit of our local, national and global constituents.

Vision Statement

We strive to be a known business school focused on leadership, innovation and entrepreneurship.
Values Statement

We value:

• Quality teaching, research, and professional and public service by faculty, staff, and students;
• Relevance and innovation in curriculum, instructional methods, research, and professional and public service;
• Intellectual growth, professional and ethical development of our students;
• A collegial environment of academic freedom and faculty governance;
• Partnerships with our internal and external constituencies;
• Diversity in our students, faculty, staff and community;
• High standards of professional, ethical conduct, and a climate that fosters continuous improvement.

Admission Requirements

Beginning Freshmen

Beginning freshmen, admitted with conditional or unconditional status, may enroll in the Collat School of Business.

Two-Year College Transfers

Students considering transferring to UAB from a two-year college should consult with their two-year college advisor about specific courses that are transferable to UAB and the Collat School of Business. UAB’s Collat School of Business requirements include those defined in the Alabama General Studies articulation program for a major in business. The public speaking requirement may be taken as part of Area II and the pre-calculus course may be taken as part of Area III. Students planning to major in industrial distribution should see the footnoted exceptions to the Core Curriculum requirements in regard to elective hours.

In cases where enrollment has been interrupted by one year or more, transfer students are expected to meet catalog requirements in effect at the time that they enter UAB.

Only 60 applicable semester hours of two-year college coursework can be applied toward a UAB degree.

Transfers from Other Institutions

Admission to the Collat School of Business is open to those students who are admitted to UAB as degree-seeking or as non degree-seeking students. Students must have a minimum 2.0 cumulative grade point average. Before an upper-level business course may be attempted, a minimum grade of C in the stated prerequisite(s) for the Collat School of Business course(s) is required.

Transfers within UAB

Degree-seeking students changing their major from schools and the college within UAB will be admitted to the Collat School of Business provided they have a minimum 2.0 overall grade point average. Before an upper-level business course may be attempted, a minimum grade of C in the stated prerequisite(s) for the Collat School of Business course(s) is required.

Students Readmitted to UAB

Degree-seeking students, non-degree seeking students and post-baccalaureate students readmitted to UAB may be admitted to the Collat School of Business.

Former students are expected to meet catalog requirements in effect at the time they re-enter UAB, when one year or more of enrollment at UAB has lapsed or when another college has been attended since last enrolling at UAB.

Non-Degree Seeking Students

Admission of non degree-seeking students to the Collat School of Business is restricted to those students who already have a four-year degree from a regionally accredited college or university.

The following policies apply:

1. Post-baccalaureate students not seeking a UAB business degree will be classified in the major that was selected on the application or as a Collat School of Business undeclared major. They may enroll in any undergraduate business course in which the stated course prerequisite(s) has been completed with a minimum grade of C. Students having less than a C in prerequisite courses or those who completed the prerequisites many years earlier are advised to repeat the prerequisites (see specific major for any deviation).

2. Post-baccalaureate students seeking a UAB undergraduate business degree will be classified in the appropriate major. Once the decision to seek a business degree is made, post-baccalaureate students are expected to meet all catalog requirements in effect at the time of their admission or readmission to UAB.

3. Students are responsible for providing transcripts to their advisors for verification of prerequisites.

Transient Students

Transient students who wish to attempt Collat School of Business courses should be aware of the following:

1. It is the student’s responsibility to verify with the advisor at the home institution that courses taken at the Collat School of Business will transfer back to the home institution.

2. Note that if enrolled in a business course that fills and there is degree-seeking student demand, the transient students are withdrawn from the filled class.

Are you considering a transfer to UAB and the Collat School of Business? Please make an appointment with one of our advisors (205-934-8813). Remember to bring an unofficial copy of all previous college work to be able to discuss your course of study with the advisor.

All information regarding our business programs and the Collat School of Business is available at http://www.uab.edu/business/. You may check about class availability on BlazerNet, select the Student Services tab and scroll to class schedule.

Admission Classification

Undergraduate students entering the Collat School of Business are admitted with a self-selected major classification. Majors include accounting, economics, finance, industrial distribution, information systems, management and marketing. Students may explore business majors while classified as undeclared business majors. Freshmen are expected to choose a degree granting major prior to completion of 60
semester hours. Transfer students who have earned 60 credit hours prior to entering UAB and are admitted as undeclared business majors must choose a degree granting major within two terms of enrollment at UAB.

Lower level prerequisite business courses must be completed with a grade of C or better before attempting upper-level business courses (those numbered 300 or higher). Any request for deviations from the requirements must be petitioned through the academic advisor for the department in which the course resides.

Collat School of Business advisors are available within each academic department in the Business-Engineering Complex or by telephone (205) 934-8813.

Curriculum Outline
The Collat School of Business reserves the right to modify curricula and specific courses of instruction, to alter requirements for graduation, and to change the majors to be awarded at any time the school may determine. Such changes may be applicable to either prospective or currently enrolled students.

The curriculum outline that follows is formatted to show how course requirements of the Collat School of Business concur with the UAB Core Curriculum requirements. Students, in cooperation with their advisor, should sequence these requirements in a manner to meet stated prerequisite requirements for specific courses in their curriculum.

UAB CORE CURRICULUM REQUIREMENTS
Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

Business students should take the following courses in the Core Curriculum.
2. Core Curriculum Area II: Humanities and Fine Art, select one of the following:
   a. ARH 101 The Art Experience
   b. MU 120 Music Appreciation
   c. THR 100 Introduction to the Theatre.
3. Core Curriculum Area III: Natural Science and Mathematics, select one of the following:
   a. MA 105 Pre-Calculus Algebra
   b. MA 125 Calculus I.

1. All majors must complete one international business course. Accounting majors take AC 440. Finance majors take FN 412. Economics majors take EC 407 International Economics.
of four (4) times, only once for any course, allowing a student to use the forgiveness for four different courses.

Students should process all repeats before applying for degree to insure a correct graduation GPA calculation.

Economics, Industrial Distribution, Management, and Marketing Majors

1. Earn at least a cumulative 2.0 GPA in all courses required for the above listed majors.
2. Earn a cumulative 2.0 GPA (transfer and UAB courses).
3. Earn a 2.0 GPA at UAB.

Students may opt to utilize the university’s course forgiveness policy to calculate the GPA for economics, industrial distribution, management, and marketing majors. Using this policy, courses taken at UAB may be repeated at UAB, and the grade for the first attempt will be excluded from the calculations of the GPA. Only courses for which the student has received a grade of C or below may be repeated with this option. The transcript will show the original grade for the course and the repeated grade for the course, however, only the grade points and credit hours earned when the course is repeated will be counted toward degree completion and averaged into the student’s GPA. The forgiveness policy may be used a maximum

Residency Requirement

Of the 21 to 27 semester hours of upper-level major courses required for a departmental major, at least 15 semester hours must be completed at UAB. In addition, 50 percent (30 to 33 semester hours) of business hours required must be taken at UAB. These hours exclude nine hours of economics and six hours of statistics.

Minors in Business

The Collat School of Business offers minors in accounting, business administration, economics, finance, information systems, management, and marketing, and sports and entertainment marketing. These minors are available to all UAB students with the exception of the minors in international business and in sports and entertainment marketing which are available only to School of Business majors.

The following requirements apply to minors:

1. Students must meet the following grade point requirements:
   - Have a 2.0 cumulative GPA (includes all schools attended)
   - Have a 2.0 UAB GPA

2. Students must have the following:
   - A minimum grade of C in all lower level business courses required for the minor, including minor courses transferred. All minors allow the use of the university’s course forgiveness policy;
   - A minimum overall average of C in UAB business courses required for the minor, (check specific minor for any deviations)
   - At least 12 semester hours of the minor courses taken in the Collat School of Business (the accounting, finance, and information systems minors have additional requirements).
3. All required 200-level business courses listed for selected minor must be completed, with a grade of C, prior to enrollment in the 300 and 400-level courses listed (check specific minor for any deviations).

4. Students may enroll and receive a grade of (A, B, C, D, or F) for any business course a maximum of 2 (two) times only.

5. Students who wish to take upper-level business courses other than those specified in the selected minor must meet all prerequisites for those courses and have permission from the Collat School of Business.

6. Collat School of Business majors may also earn a business minor, with the exception of the minor in Business Administration. The minor must include at least nine semester hours beyond the requirement of the student's selected business major. The Collat School of Business undergraduate advisors can assist business majors in tailoring a business minor.

**Minor in Accounting**

Must earn a grade of "C" or better and overall GPA of 2.0 in all courses required for this minor.

**Minor in Entrepreneurship**

The Minor in Entrepreneurship is intended to prepare students for new economic realities by providing a foundation in business and entrepreneurial thinking. It is intended to complement the core knowledge they are gaining in their chosen major so that they can find new opportunities to practice within their field. The primary objective is to provide students with the tools they need to think and act entrepreneurially.

**Eligibility**

This minor is open to all students. Students must also have a minimum overall 2.0 GPA.

Minor in International Business

Students with strong professional skills and an understanding of international business are in high demand in today’s global economy.

The international business minor is available to undergraduate majors as a complement to the student’s major course work. Students will enhance their knowledge and understanding of the global context and practices of international business and will develop skills necessary to compete in a culturally-diverse, global business world.

This minor is interdisciplinary with course work from U.S. and non-U.S. sources, in-classroom and outside-of-classroom experiences, and course work from across the UAB campus. The IB minor encourages students to gain perspectives and to experience other cultures by studying abroad. The IB program director ensures that students gain international business exposure and network with global industry professionals.

Must earn a grade of “C” or better in stated prerequisite courses and have an overall 2.0 GPA in all courses required for this minor.

Requirements: 18 hours

UAB Professional Sales Certificate Program

Purpose

The Professional Sales Certificate is designed for undergraduate students of all majors pursuing a sales career or wishing to enhance his/her interpersonal communication skills in a business environment. This program helps students distinguish themselves as committed professionals in sales and customer service. In addition to the course work shown below, students will be involved in out-of-class activities, including job shadowing and mentorship. Students with a Professional Sales Certificate are well-prepared for entry-level sales careers and have a competitive advantage in the job market. All majors from across UAB are eligible to compete for entrance. Classes are kept small to ensure individual attention is provided for each student.

Eligibility

Submission of completed application form, available in BEC 219 or from one of the contact people below:

- Resume demonstrating characteristics that support a successful sales career (strong work ethic, etc);
• Achievement of an overall 2.0 G.P.A. and be in good academic standing with the university;
• Commitment to extra-curricular involvement in the Professional Sales Program activities;
• Complete a panel interview with the Professional Sales Program Leadership Team members.

Undergraduate Certificate in Social Media

Purpose

The objective of the social media certificate is to help our students and working professionals advance in their careers by improving understanding about how to use the latest social media technologies to benefit organizational stakeholders, such as managers, organizations, employees, customers and partners. Our emphasis is on the application of new and emerging social media technologies, to serve those currently working in IS and marketing related fields, and to prepare individuals from other fields to build the skills needed to succeed in social media careers.

Eligibility

Open to all students majoring in business. Students must have an overall GPA of 2.5 or higher to be admitted to this certificate program.

Requirements

| Students choose 4 of the 5 course option below to equal 12 hours | 12     |
| Social Media & Virtual Communities |       |
| Web Analytics |       |

Honors in Business

Purpose

The Collat School of Business Honors Program is designed for qualified and self-motivated students pursuing business-related undergraduate degrees or otherwise having a demonstrated interest in business. Through a mentored program format, students will develop research and communication skills in preparation for a professional career and/ or graduate study. Although students may focus their research into any of the disciplines in the Collat School of Business, the Business Honors Program has overarching themes of leadership and ethics.

Eligibility

Entry into the Collat School of Business Honors Program is by invitation. Students may apply to be considered for an invitation.

To be eligible for the Collat School of Business Honors Program, students must:

• Have earned a 3.5 GPA in Business Courses;
• Have earned a 3.0 GPA overall;
• Have a major or minor in the Collat School of Business or be invited to submit an application;
• Have submitted a Business Honors Program Application form or be invited to submit an application;
• Have been selected from application and transcript evaluation.

Requirements

• Enroll Spring Semester of junior year in BUS 300 Introduction to Leadership Seminar for 3 credit hours;
• Enroll Fall Semester of senior year in BUS 496, Business Honors Seminar II (Independent Research), for three credit hours
• Enroll Spring Semester of senior year in BUS 495 Business Honors Seminar I (Strategic Leadership), for three credit hours
• Present your research in a public forum, such as at the Undergraduate Research Expo.

Benefits

In addition to educational benefits and enhanced credentials for graduate school or professional pursuits, students with business majors or minors will graduate “With Honors in Business” or “With Honors in Economics”.

Contact

For more information and/or admission to the Collat School of Business Honors Program, contact:

Collat School of Business Honors Program Director

Dr. Barbara A. Wech  * 710 13th Street South  •  Birmingham, AL  •  E-mail: bawech@uab.edu
Department of Accounting and Finance

Department Chair: Arline Savage, Ph.D.

The Department of Accounting and Finance is responsible for activities in accounting and finance.

Mission Statement

The Department strives to provide a quality, practice-oriented educational experience to a diverse undergraduate and graduate student population. The faculty contributes to the understanding and application of knowledge through its teaching, research and service activities.

Uniform CPA Exam

As of January 1, 2016, the State of Alabama requires that applicants for the Uniform CPA Exam hold a baccalaureate degree from an accredited institution and possess a total of 120 semester hours of post-secondary education, including at least 24 semester hours of accounting at the upper-division or graduate level. However, 150 semester hours are required to be certified as a public accountant.

There are two ways that UAB students can meet these requirements:

1. By obtaining an undergraduate accounting degree (or its equivalent) and completing certain additional coursework as specified under state law. Students interested in this option should contact an undergraduate advisor in The Department of Accounting and Finance for specific guidance. Students interested in this option and that hold degrees from other institutions should contact an undergraduate business advisor as well as apply to the university as a post baccalaureate degree-seeking student.

2. By obtaining a Master of Accounting degree. The Department of Accounting and Finance offers a master’s program that is fully accredited by AACSB International. Students interested in this option and that hold degrees from other institutions should contact an undergraduate business advisor as well as apply to the UAB Graduate School Catalog for admission policies.

Other Professional Accounting Certifications

Other examinations leading to professional certification (CMA, CIA, CFA, etc.) generally do not require academic coursework beyond the baccalaureate degree. Students interested in other accounting certifications should contact an undergraduate Accounting advisor or a member of the accounting faculty for further information.

Accounting Major

The objective of the major in accounting is to provide conceptual accounting and business knowledge as a foundation for professional careers in public accounting, private or industrial accounting, and governmental or not-for-profit accounting, or for pursuing study at the graduate level.

The various accounting career choices available to students mandate different course emphasis, and our curriculum offers a selection of course choices. Students may further specialize by pursuing the concentration in forensic accounting and information technology auditing.

Students must earn a minimum grade of a B in AC 200 to become an accounting major. The grade of B in AC 200 is a prerequisite for AC 300. Accounting majors who wish to pursue a career path in public accounting must earn a minimum grade of a B for the financial accounting course sequence of AC 300, AC 310, and AC 430. The grade of a B in each of these courses is a prerequisite for the subsequent course in this series. The grade of B in AC 430 is also a prerequisite for the elective financial accounting course AC 480. A minimum grade of C is required for all other accounting courses. In addition, students must earn a minimum grade of C and have an overall C average in all major courses. At least 15 hours of the major must be taken at UAB. The university’s course forgiveness policy may be applied to this major.

Finance Major

The finance curriculum is designed to provide an understanding of financial operating and investment problems in both financial and non-financial businesses. Careers are available in areas such as government, securities businesses, banking, insurance, real estate, savings and other financial intermediaries, and in the financial management of non-financial businesses.

Finance majors must earn a minimum grade of C in all finance courses and have an overall 2.0 GPA in all major courses. At least 15 hours of the major must be taken at UAB. The university course forgiveness policy may be applied to any finance concentration.

¹ All business majors are required to participate in experiential education. This requirement may carry 0 - 3 credit hours. This requirement may be met by satisfactory completion of one of the following courses or other course/project approved by the department chair: AC 364, AC 464, AC 474, BUS 496, DB 495, EC 460, ENT 445, ENT 426, FN 460, FN 358, FN 359, IB 495, IS 464, MG 445, MK 425, MK 445. Please see your advisor for specific options for your major.

Concentration in Forensic Accounting and Information Technology Auditing

The increased attention focusing on inappropriate and fraudulent behavior within the business community in recent years has led to the creation of a concentration in Forensic Accounting and Information Technology Auditing at UAB. This concentration introduces accounting and information systems students to the basics of fraud, IT audits, fraud examination and forensic accounting. Although of value to anyone in the financial information professions, it is designed to appeal to those students with an interest in becoming Certified Fraud Examiners (CFEs).

Accounting and information systems majors may choose, (as a part or in addition to the courses required for the major), the following series of courses which make up the concentration:

<table>

Finance majors may select a concentration in **Financial Management** or **Investments and Institutions** or **Real Estate**.

### Financial Management Concentration

Students who expect to own and/or operate small businesses, or who wish to seek employment as financial analysts in large corporations, and government agencies should select this concentration. Topics studied include financial analysis and forecasting, capital budgeting, working capital management, valuation theory, and other specialized areas in finance.

**Requirements**

<table>
<thead>
<tr>

<td>FN 350 Equity Portfolio Management</td>
</tr>
<tr>
<td></td>
<td>FN 370 Principles of Real Estate</td>
</tr>
<tr>
<td></td>
<td>FN 410 Intermediate Financial Management</td>
</tr>
</tbody>
</table>

**Select three or four from the following:**

| 12 | FN 311 Short-Term Financial Management |
|    | FN 360 Fundamentals of Healthcare Financial Management |
|    | FN 411 Advanced Financial Management |
|    | FN 453 Financial Risk Management |

**If three are selected from above, select one from the following:**

| FN 351 Bond Portfolio Management |
| FN 420 Financial Sales & Trading |
| FN 452 Management of Financial Intermediaries |
| FN 470 Real Estate Finance |
| FN 475 Real Estate Investment Analysis and Valuation |
| AC 401 Cost Accounting |
| AC 402 Income Taxation I |
| EC 420 Applied Forecasting |

**Total Hours** 27

### Investments and Institutions Concentration

Students who wish to prepare for careers in financial institutions (such as banks, thrifts, insurance companies, and credit unions), or the securities industry (such as a stockbroker, portfolio manager, financial planner, or securities analyst), should select this concentration. Topics include commercial bank management, credit analysis, trust services, securities markets, and portfolio management, economic forecasting, and real estate.

**Requirements**

<tr>
<td></td>
<td>FN 350 Equity Portfolio Management</td>
</tr>
</tbody>
</table>

**Required Concentration Courses**

| 9 | FN 452 Management of Financial Intermediaries |
| FN 470 Real Estate Finance |
| FN 475 Real Estate Investment Analysis and Valuation |

**Select one from the following:**

| FN 311 Short-Term Financial Management |
| FN 351 Bond Portfolio Management |
| FN 360 Fundamentals of Healthcare Financial Management |
| FN 411 Advanced Financial Management |
| FN 420 Financial Sales & Trading |
| FN 359 Green and Gold Fund Portfolio Management |
| FN 453 Financial Risk Management |
| FN 460 Finance Internship |
| AC 401 Cost Accounting |
| AC 402 Income Taxation I |
| EC 420 Applied Forecasting |

**Total Hours** 27

### Real Estate Concentration

Students who wish to focus on commercial real estate finance and investment analysis should select this concentration. Topics included, but not limited to, are the commercial real estate industry and preparation for related entry positions with developers, lenders, appraisers, brokers, investment bankers, real estate advisors, real estate trusts and consulting firms, both nonprofit organizations and government agencies.

**Requirements**

| FN 453 Financial Risk Management |
| FN 460 Finance Internship |
| AC 401 Cost Accounting |
| AC 402 Income Taxation I |
| EC 420 Applied Forecasting |

**Total Hours** 27
Admissions Requirement

Students must be admitted to the School of Business. Please review the School of Business Admissions Requirements.

School of Business Requirements

Students must adhere to all School of Business Academic Requirements and Finance major GPA requirements. Use of the university’s course forgiveness policy is allowed.

Free Electives

If the courses taken to satisfy all of the requirements will not meet the minimum credit hour requirement to graduate, free electives may be taken to reach the required number of hours.

### Department of Management, Information Systems and Quantitative Methods

**Interim Chair:** Jack L. Howard, Ph.D.

The Department of Management, Information Systems and Quantitative Methods supports the mission of the Collat School of Business through the department’s majors and course offerings. The department will offer an educational foundation that will prepare students for professional careers and enable them to pursue graduate studies.

The department is responsible for activities in management, information systems, and quantitative methods.

1. Must earn a grade of C or better in all stated prerequisites for all business courses and have an overall 2.0 GPA.
2. Must be taken as a senior in last term.
3. All business majors are required to participate in experiential education. This requirement may carry 0-3 credit hours. This requirement may be met by satisfactory completion of one of the following courses or other course/project approved by your Program: AC 464, AC 474, BUS 496, DB 495, EC 460, ENT 445, ENT 426, FN 460, FN 358, FN 359, IB 495, IS 464, MG 445, MK 425, MK 445.

Bachelor of Science with a Major in Management and a Business Administration Concentration

The business administration concentration is designed for students who seek more flexibility within the management major by allowing them to select courses from other disciplines to round out the major. Besides providing greater flexibility, the student can select advanced studies in other areas of business such as finance, information systems, economics and marketing.

Bachelor of Science with a Major in Management and a Concentration in Operations Management

The management major is designed to provide students with the ability to be effective decision makers in an organizational setting. The objective of the major is to enable students to acquire the knowledge and skills necessary for gaining entry into a management career and for sustaining successful performance throughout that career. Internships and elective courses in entrepreneurship are also available.

Students must earn at least a grade of C in all stated prerequisite courses for all of the management concentrations. An overall 2.0 GPA in all courses used in the major is also required. At least 15 hours of the major courses must be taken at UAB. The university's course forgiveness policy may be applied to all management major concentrations.

Management majors have the option of choosing one of the following concentrations: Business Administration, Human Resource Management, or Operations Management as a major. A student not choosing a concentration will have a Management degree with no concentration.

Admissions Requirement

Students must be admitted to the Collat School of Business. Please review the School’s Admissions Requirements.

Collat School of Business Requirements

Students must adhere to all Collat School of Business Academic Requirements and Information Systems major requirements. The university’s course forgiveness policy is allowed.

Free Electives

If the courses taken to satisfy all of the requirements will not meet the minimum credit hour requirement to graduate, free electives may be taken to reach the required number of hours.

Department of Marketing, Industrial Distribution, and Economics

Chair: Dr. Mike Wittmann

The Department of Marketing, Industrial Distribution, and Economics supports the mission of the School of Business through the department's majors and course offerings. Majors within the department are designed around discipline-based theory and real-world applications.

The department is responsible for activities in marketing, industrial distribution, economics, and legal studies.

Total Hours 25

Bachelor of Science with a Major in Marketing

The objective of the major in marketing is to prepare students for a wide range of marketing positions in both business and not-for-profit organizations and to place our graduates in rewarding and productive careers. Graduates find career opportunities in marketing management, marketing research, supply chain management, professional sales, purchasing, promotion, and advertising. The major is an excellent foundation for graduate work in marketing, Law School or an M.B.A. degree. Students must concentrate in an area of marketing through elective courses offered by the MIDE and MISO departments. Concentrations include Marketing Management, Retail Marketing Management, and Social Media Marketing.

Students must earn at least a grade of C in all stated prerequisite courses for the marketing requirements. A 2.0 GPA for all courses applied to the major is also required. At least 15 hours of the major courses must be taken at UAB.

Concentration in Marketing Management

Requirements Hours
Marketing Major Courses
- DB 320 Distribution Management 3
- MK 330 Professional Selling 3
- MK 408 Marketing Research 3
- MK 410 Integrated Marketing Communication 3

Bachelor of Science with a Major in Industrial Distribution

The Charles & Patsy Collat Industrial Distribution Program is one of a small number of such programs in the world that prepares graduates for technical sales, operations, logistics, marketing and purchasing positions specifically for industrial, technical and medical firms. This challenging and engaging program provides two highly focused tracks from which students choose between as an area of concentration: Industrial Distribution or Medical Equipment and Supplies Distribution. These concentrations allow students the opportunity to gain specialized knowledge unique to each of these industries.

</tbody>
</table>

Total Hours 27

The Industrial Distribution concentration provides students with a comprehensive understanding of issues and solutions facing suppliers, distributors, and customers as they move technical products and provide services through supply chain networks. Preparing students for careers with manufacturers or distributors in a technical industry, graduates are prepared to work in positions such as sales, operations, or purchasing for companies that manufacture technical equipment or for companies that distribute these products. While enrolled in the ID Program, students receive instruction and mentoring from faculty in the Collat School of Business as well as from faculty in the School of Engineering. An internship is a required component of the ID Program which enables students to receive direct training and exposure to the field in which they are preparing to work.

Concentration in Medical Equipment and Supplies Distribution

The Medical Equipment & Supplies Program integrates specially tailored health care coursework with the Distribution curriculum to prepare graduates for careers in the medical equipment and supplies industry. Emphasis is placed on the structure of the health care industry, medical
terminology and medical and health care industry purchasing systems. A unique feature of the Program is the experiential learning opportunities that are designed to give students specific knowledge of the fast growing medical equipment and supplies industry. Medical Distribution students, for example, have opportunities to experience the operating room theater during surgery and witness first-hand the duties and responsibilities of the medical supplier in achieving successful patient outcomes. In combination, the Program provides students with the skills necessary for success in a variety of positions in our country’s medical supply chain. Graduates have been hired by the top medical manufacturers and distributors in positions such as operations, technical sales, purchasing, and inventory management, among others. In addition, many students have been accepted to medical school upon graduation from this Program.

**Industrial Distribution Electives**

The Industrial Distribution Program permits students to choose the following areas of emphasis through the selection of approved electives:

**ID and Sales Certificate:**

- **Requirements**
  - **Hours**
  - MK 420  Sales Management  3
  - MK 425  Advanced Professional Selling  3

Completion of this sequence constitutes completion of the Professional Sales Certificate Program.

**Industrial Distribution and Marketing:**

- **Requirements**
  - **Hours**
  - MK 312  Retail Marketing  3
  - MK 408  Marketing Research  3
Mathematical Economics Concentration
(and Math Minor)

Students who choose the mathematical economics concentration will earn both a major in economics and a minor in mathematics by taking the required course work. This track is well suited for those students who wish to pursue graduate studies in economics, finance, or any other quantitative discipline. It also provides the student with excellent preparation for quantitative and analytical careers, such as those in the actuarial science or those in economic consulting.

Students must earn a minimum grade of C in all stated prerequisite courses for any economics major concentration. A 2.0 GPA in all courses applied to the major is also required. At least 15 hours of these courses must be taken at UAB. The university’s course forgiveness policy may be applied to either economics major concentration.

Concentration in Philosophy, Politics and Economics

The Philosophy, Politics and Economics Concentration focuses on topics in the intersection of philosophy, political science and economics. This concentration trains students to attack a wide range of problems using rigorous analytical techniques. It is an excellent basis for graduate study in philosophy, public policy, or political science, as well as for those planning to attend law school or for those anticipating careers in journalism, politics, management, intelligence, marketing, industrial organization and many other fields.

Students must earn at least a grade of C in all stated prerequisite courses for an economics major concentration. A 2.0 GPA in all courses used in the major is also required. At least 15 hours of these courses must be taken at UAB. The university’s course forgiveness policy may be applied to either economics major concentration.

</tbody>
</table>

1 Must earn a grade of C or better in stated prerequisites, have overall 2.0 GPA, and have overall 2.0 GPA in all major courses.
All business majors are required to participate in experiential education. This requirement may be met by satisfactory completion of one of the following courses or other course/project approved by your academic advisor: AC 464, AC 474, BUS 496, DB 495, EC 460, FN 460, IB 495, IS 464, MG 445, MK 425, MK 445.

### Admissions Requirement

Students must be admitted to the School of Business. Please review the School of Business Admissions Requirements.

### School of Business Requirements

Students must adhere to all School of Business Academic Requirements and major requirements. The university's course forgiveness policy is allowed.

### Free Electives

If the courses taken to satisfy all of the requirements will not meet the minimum credit hour requirement to graduate, free electives may be taken to reach the required number of hours.

## College of Arts & Sciences

**Dean:** Robert E. Palazzo  
**Senior Associate Dean for Undergraduate Academic Affairs:** Catherine Daniélou  
**Associate Dean for Advising:** Kimberly Schnormeier  
**Associate Dean for Interdisciplinary and Creative Innovation:** Yogesh K. Vohra  
**Associate Dean for Research in the Sciences:** David C. Schwebel

The College of Arts and Sciences includes departments in the arts, humanities, mathematics, social, behavioral, natural and physical sciences.

The College offers 28 degree programs leading to a Bachelor’s degree and 23 programs leading to a masters or doctoral degree. Situated at the center of an internationally renowned research university and academic medical center, students and faculty in the College of Arts and Sciences have unparalleled opportunity to be part of the innovative and ground-breaking research and creative work that is the signature of UAB.

We offer a student-centered, experiential curriculum designed to prepare students not only for the careers and challenges of the 21st century but also to be the leaders in the global marketplace of ideas. Every undergraduate program in the arts and sciences is designed to insure that students cultivate strong oral and written communication skills, proficiency in mathematical and analytical reasoning, and sophisticated appreciation of ethics and civic engagement. Graduates with an arts and sciences major develop the ability to understand diverse perspectives making them better prepared to work creatively and productively with others to solve the most important problems of our times.

Honors programs and honors level study are offered in almost every department, along with mentored research and study abroad for interested students. Our metropolitan location provides an endless number of internship placements coordinated with an academic program of study. Each year many of our students pursue at least one of these opportunities.

Interdisciplinary programs of study are increasingly interesting as we realize the benefits of multiple perspectives and methods to advance understanding and improve solutions. Students in the College of Arts and Sciences can pursue formal interdisciplinary programs such as African-American Studies or International Studies. The Bachelor of General Studies (BGS) degree is another interdisciplinary option that prepares students for careers in various professional fields where fundamental critical thinking and inquiry skills as well as rigorous writing and communication skills are of key importance. We also welcome very motivated students to work with their academic adviser and faculty to design an individualized, interdisciplinary major in a focused area. Among the fields that some of our students have chosen to focus on are: Asian Studies, Children Studies, Chinese Studies, Film Studies, Forensic Science, Health and Society, International Development, International Health, Japanese Studies, Legal Studies, New Media, Quantitative Economics, Sports and Health in Society, Translational Research, Women’s Studies.

The UAB Core Curriculum requirements and the specific major and minor requirements for graduation are listed below for each Bachelor’s degree option.

### The UAB Core Curriculum

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

### Additional Requirements

Departments within the College have policies on the grade level of acceptable work that may be applied towards the major or minor. All College of Arts and Sciences majors must take general electives to reach the 120 semester hour requirement. At least 9 semester hours of the major must be at the 400 level or above. All students must have a capstone experience. In addition to the number of hours there is a
requirement of at least a C average in courses counted toward the major and also in courses counted toward the minor for all students majoring in Biology, Chemistry, Computer and Information Sciences, Mathematics, Physics. At least one-third of the hours in both the major and minor must be completed at UAB, and at least a C average must be maintained in these courses.

Requirements for students majoring or minoring in Communication Studies, Government, International Studies, History, Psychology, Social Work, Sociology: courses counted toward one major or minor may not be applied to meet the requirements of another major or minor; credit will be allowed for job-training instructional programs that have been evaluated and approved by an agency of the American Council on Education, or comparable evaluating agency, and when the work in question is germane to the student's program. Normal 0 false false false EN-US X-NONE X-NONE MicrosoftInternetExplorer4 /* Style Definitions */ table.MsoNormalTable {mso-style-name:"Table Normal"; mso-tstyle-rowband-size:0; mso-tstyle-colband-size:0; mso-style-noshow:yes; mso-style-priority:99; mso-style-parent:""; mso-padding-alt:0in 5.4pt 0in 5.4pt; mso-para-margin:0in; mso-para-margin-bottom:.0001pt; mso-pagination:widow-orphan; font-size:11.0pt; font-family:"Calibri"; mso-ascii-font-family:Calibri; mso-ascii-theme-font:minor-latin; mso-fareast-font-family:"Times New Roman"; mso-fareast-theme-font:minor-fareast; mso-hansi-font-family:Calibri; mso-hansi-theme-font:minor-latin; mso-bidi-font-family:"Times New Roman"; mso-bidi-theme-font:minor-bidi;}

Requirements for students majoring in African American Studies, Anthropology, Art/Art History, Criminal Justice, English, Film (minor), Foreign Languages, Music, Philosophy, Theatre: relevant courses counted toward one major or minor in one of these seven fields may be applied to meet the requirements of a major or minor in another of these specific fields. After doing so, if a student has not achieved the minimum required credit hours for graduation, the remaining hours may be fulfilled through courses of the student’s choosing, consistent with all other degree requirements.

**Teacher Certification**

UAB offers baccalaureate level (Class B) secondary (grades 6-12) teacher certification in Chemistry, Biology, General Science, History, General Social Science, English Language Arts, Mathematics, Music-Instrumental, Music-Choral, and middle school (grades 4-8) teacher certification (Class B) in Mathematics. To obtain certification in fields outside science and mathematics, students must major in their teaching field and education. Requirements for the major in the College of Arts and Sciences may be found in the appropriate department listing. To obtain certification in Chemistry, Biology, Physics, General Science, and Mathematics, students major in their teaching field and participate in the UABTeach program (Heritage Hall Building 210), which leads to a minor in STEM Education and Class B teacher certification. Requirements for the major in the College of Arts and Sciences may be found in the appropriate department listing. Because of specific Alabama Teacher Certification requirements, students seeking certification should consult with the School of Education Student Success Center (Room 100, Education Building) early in their academic careers, or consult directly with UABTeach if in science or mathematics. UAB also offers non-traditional fifth year masters’ level (Class A) certification in the above disciplines. Students majoring in one of the above fields should contact the School of Education Student Success Center for more information about program admission requirements.

**Interdisciplinary Programs**

Interdisciplinary programs of study are increasingly interesting as we realize the benefits of multiple perspectives and methods to advance understanding and improve solutions. Students in the College of Arts and Sciences can pursue formal interdisciplinary programs such as African-American Studies or International Studies. The Bachelor of General Studies (BGS) degree is also an interdisciplinary degree that will prepare students for careers in various professional fields where fundamental critical thinking and inquiry skills, rigorous writing and communication skills, as well as team work skills are of key importance. Other possibilities for interdisciplinary study include for example Media Studies or Film Studies at the minor level. The Interdisciplinary Minors list below indicates our choices in the College of Arts and Sciences.

We also encourage motivated students to work with their academic advisor and faculty to design an individualized, interdisciplinary major in a focused area. The Individually Designed Major option is available to all students in good standing who are interested in working independently, and can only be made possible using courses available at UAB. Among the many different fields that some of our students have chosen to focus on are: Asian Studies, Children Studies, Chinese Studies, Film-making, Film Studies, Health and Society, Integrative Media, International Development, International Health, Japanese Studies, Latin American Studies, Legal Studies, Media Production, Sports and Health in Society, Social Media, Sports Economics, Women's Studies. Students who may be interested in designing their own major should contact their academic advisor or email Dr. Catherine Danielou at danielou@uab.edu.

**African American Studies**

**Director:** Kathryn Morgan

The African American Studies Program is an interdisciplinary program that integrates the humanities, social and behavioral sciences and health related fields. A major in African American Studies leads to a Bachelor of Arts Degree. The Program also offers a minor. Since the Program requires only 40 hours for completion, students are encouraged to consider a “double major” with African American Studies.

The curriculum offered by the African American Studies Program advances knowledge about continental and diasporic African and African-American cultures and the history, literature, art, music, politics, economics, and religion associated with these cultures.

Our mission is to encourage critical thinking, develop analytical and writing skills, promote understanding and appreciation of contributions made by African Americans, and illuminate the complexity of race and the African American experience.

In addition to taking the required core classes for the major, students will have the opportunity to select one of three areas of emphasis: Global and Minority Health and Social Justice; Historical Investigation and Cultural Awareness; and History and Culture of Afro-Caribbean and Latino People.

The plan of study prepares students with critical knowledge, research skills, and communication skills to further their education in graduate and professional study in a variety of disciplines including African American Studies, Public Health, Criminal Justice, Public Administration, and Education; obtain employment in public health, social sciences,
business and related fields; communicate effectively; and demonstrate the application of knowledge through community engagement.

The revised curriculum provides students more course options for completing the requirements of the degree. The revised curriculum also provides Areas of Emphasis that lead to a variety of career and graduate school opportunities. The three areas include: Global and Minority Health and Social Justice; Historical Investigation and Cultural Awareness; and the History and Culture of Afro-Caribbean and Latino People. As an African American Studies major, students select an area of study and complete enough hours to pursue a Master’s or secure employment in that area. Students are able to develop goals early in their academic careers and strategies for achieving their goals.

In addition to the major in African American Studies, the Program also offers a minor. Students are required to complete 18 hours of coursework to fulfill the requirements for the minor. Students may also complete the minor online. Online courses will allow students to fulfill the minor requirements.

African American Studies Honors Program

PURPOSE
The purposes of the Honors Program in African American Studies are to promote academic excellence; provide opportunity for majors to do extensive study and research in the discipline; and prepare academically talented majors to pursue graduate school or professional careers.

ELIGIBILITY
• completion of required AAS courses:
   • AAS 200  Introduction to African American Studies
   • AAS 320  (African Identity and Personality),
   • AAS 350  (Research Methods in African American Studies)
• undergraduate cumulative GPA of 3.00
• GPA of 3.25 in AAS courses
• junior-senior level standing

REQUIREMENTS
• completion of required courses for the AAS major
• approval by the Program Director
• completion of AAS 497  Honors Seminar (Fall Semester)
• completion of AAS 498  Honors Thesis/Project (Spring Semester)
• formal presentation of the final project

BENEFITS
Participation in the African American Studies Honors program provides opportunities for academically talented students to have unique access to faculty and to interact with other honors students in an environment that encourages creative and innovative thinking. Seminar participation and research experience will be useful for graduate study or a career in the field. Completion of the Honors program is an advantage when applying to graduate programs. Finally, students who complete the program will be recognized at the African American Studies outstanding student ceremony and will graduate “With Honors in African American Studies.”
Minor in American Studies

enhances majors that are either national or international in scope. It counterbalances more narrowly focused majors; at the same time, it prepares students for a variety of careers. An American studies minor complements and is useful in the social sciences while developing skills of interdisciplinary thinking useful in the American studies thus provides a broad background in liberal arts and a multifaceted understanding of American life and history. The minor in American studies thus provides a broad background in liberal arts and social sciences while developing skills of interdisciplinary thinking useful in a variety of careers. An American studies minor complements and counterbalances more narrowly focused majors; at the same time, it enhances majors that are either national or international in scope.

The University of Alabama at Birmingham
The bachelor of science in digital forensics (BSDF) is an interdisciplinary degree that prepares graduates for a professional career in the field of digital forensics and cyber security. The focus of the program is and understanding of the procedures and processes necessary to discover, recover, analyze, and present in court information that has been stored on digital devices, including mainframe and personal computers, cellular telephones, tablets, gaming and other devices used during illegal activities. Students graduating with the BSDF degree will be prepared to fill entry- and advanced-level positions with federal, state, and local law enforcement agencies; with public and private sector non-profit companies; and with private sector for-profit companies. Students completing the program will also be prepared to pursue graduate studies (master’s and doctoral-level) in computer science, criminal justice, information systems, and information technology or pursue law school.

The courses in the BSDF are a mixture of criminal justice and computer science. The goal is to provide graduates with the tools they need in computer programming and operations to work effectively within a computer environment, and also the skills needed to understand the behavior of those who may be a threat to computer systems and/or engage in cybercrime. Additionally, graduates will have an understanding of the legal systems and processes necessary to gather digital evidence and support a computer investigation in court if necessary.

**Bachelor of Science with a Major in Digital Forensics**

The bachelor of science in digital forensics (BSDF) is an interdisciplinary degree that prepares graduates for a professional career in the field of digital forensics and cyber security. The focus of the program is and understanding of the procedures and processes necessary to discover, recover, analyze, and present in court information that has been stored on digital devices, including mainframe and personal computers, cellular telephones, tablets, gaming and other devices used during illegal activities. Students graduating with the BSDF degree will be prepared to fill entry- and advanced-level positions with federal, state, and local law enforcement agencies; with public and private sector non-profit companies; and with private sector for-profit companies. Students completing the program will also be prepared to pursue graduate studies (master’s and doctoral-level) in computer science, criminal justice, information systems, and information technology or pursue law school.

CS 330  Computer Organization and Assembly Language Programming  3
CS 334  Networking  3
CS 423  Network Security  3

Total Hours  45

1 All students graduating with the BSDF will be required to complete an internship. These internships will place students in a law enforcement or intelligence agency at the federal, state, or local level; or in a cybersecurity related position within a business industry such as banking (Regions, Wells Fargo), finance (Visa, Deloitte), computers (Facebook, Google), or retail (Walmart, Target). Students will gain practical experience in their future employment, and will be able to test the skills they developed in the program.

A grade of C or better is required in all courses. Students must have a 2.3 cumulative GPA prior to applying for their Internship. Students must take general electives to reach the 120 semester hour requirement.

Environmental Science

Interdisciplinary Minor
The minor in environmental science enables students to receive a broad background both in the sciences and in the application of scientific principles to environmental problems.

**General Studies**

### Bachelor of General Studies

**Director:** Catherine Daniélou  
**College of Arts and Sciences Dean’s Office**

The Bachelor of General Studies (BGS) degree is a flexible interdisciplinary degree that allows students to choose a general curriculum that meets their individual goals and provides room for exploration and inquiry. The BGS prepares students for careers in various professional fields, including government, health care, real estate, general social services, and the service-producing sector, law, retail, and private industry where fundamental critical thinking and inquiry skills as well as rigorous writing and communication skills are of key importance.

The Bachelor of General Studies is a broad-based option supported by all undergraduate programs offering a minor at UAB. UAB offers a choice of over 80 minors. The BGS program integrates all our undergraduate campus in the choice of options. The program goals are to 1) equip students with a broad-based higher education allowing them to perform efficiently in the workplace; 2) prepare students to understand an increasingly complex and multifaceted world; and 3) help students to demonstrate a multidisciplinary base of knowledge.

Undergraduate students graduating with a degree in General Studies work with the assigned BGS advisor and select two minors of their choice offered at UAB. Graduating students are expected to: 1) write, communicate, and present effectively; 2) evaluate and interpret information as well as societal issues critically and analytically; 3) apply knowledge and modes of inquiry from several disciplines; and 4) demonstrate integrative learning.

The Bachelor of General Studies provides broad well-rounded rigorous educational opportunities to traditional and non-traditional students contemplating careers for which a Bachelor's degree and university-level reading, writing, communication and critical thinking skills are required.

**Program Director:**  
Catherine Danielou, PhD, Dean's Office, College of Arts and Sciences  
934-4653, danielou@uab.edu

**Program Advisor:**  
Kip Hubbard, MA, College of Arts and Sciences, Advising Office  
Heritage Hall Building 402, 934-6135, kiph@uab.edu

### Bachelor of General Studies

**Degree requirements:**

Successful completion of any 2 UAB minors* of student’s choice

**Capstone Requirement:**

Select one of the following:

- CAS 400 – General Studies Capstone (1 credit)
- Or another UAB approved Capstone course

Total Hours: Estimated 36 – 51 hours (minors being a minimum of 18 hours)**

*Students majoring in General Studies must achieve a grade of C or higher in all courses applied toward the major requirements.

*Students majoring in General Studies must meet residency requirements and complete 9 hours at the 400 level or above taken at UAB.

**A single course may not count toward more than one minor requirement.

### Gerontology

#### Interdisciplinary Minor

**Director:** Patricia L. Sawyer  
**Committee on Undergraduate and Graduate Education in Gerontology**

**Director:** Sawyer (Center for Aging)  
**Associate Director:** Shevchenko (Health Professions)

**Members:** Austad (Biology), Ball (Psychology), Curtis (Division of Gerontology, Geriatrics, and Palliative Care), Fordham (Nursing), Galvin (Public Health), Ghana (Biology), Wadley (Psychology)
Gerontology is the study of the processes of aging in all their diversity—the complex interaction of individual, social, and organizational phenomena producing change over the entire life span. Gerontological education necessarily encompasses many traditional disciplines in the biological, behavioral, medical, and social sciences, as well as numerous professional specialties. The philosophy of the Gerontology Education Program is that research and instruction of the highest quality are achieved when faculty and students are trained within their parent discipline or field and apply their insights to questions of aging through interdisciplinary education. In this sense, students bring a firm disciplinary background with a specialized body of knowledge into their future endeavors.

UAB’s Gerontology Education Program offers interdisciplinary courses in gerontology, leading to an undergraduate minor. The study of gerontology at this level provides students educated in various disciplines with the background needed to work in programs related to aging and the aged. The program’s main goals are to provide students with a thorough background in existing theory and research in gerontology and to supplement their existing backgrounds and professional disciplines.

The academic program is administered by the director of the Gerontology Education Program. The director is also responsive to the guidance of the Committee on Undergraduate and Graduate Education in Gerontology and serves as chair of the committee. The committee is made up of representatives from academic departments throughout UAB who are active in the study of aging and the aged. The director reports to the dean of the College of Arts and Sciences and to the director of the Center for Aging.

The multidisciplinary gerontology program is offered to all UAB students in good standing. The program has the sponsorship and support of the College of Arts and Sciences and the Center for Aging. Students may obtain the program’s Operating Policies: Standards and Procedures Manual through the program director.

Grade Requirement

A grade of C or better is required in all courses applied to the minor. Additionally, students must have a GPA of at least 2.5 in all courses applied to the minor.

International Studies

Interdisciplinary Major and Minor

Director: Renato Corbetta

Faculty: Corbetta, Sharlach, Zahariadis (Government); Kyle (Anthropology), Liber, Murray, Van Sant, Ward (History); Biga, Cockerham (Sociology); Cummings (Art and Art History); Danielou (Foreign Languages and Literatures)

The International Studies Program promotes a holistic appreciation of the different values and structures that characterize the world’s diverse societies, as well as an understanding of the institutions that produce economic, social, cultural, and political interdependence among nations.

A major or minor in international studies provides students with the background necessary to pursue a variety of public and private-sector careers. Employment opportunities are as numerous and varied as the interests and abilities of individual students. Majors may find employment in diplomatic or foreign service; international business, law, or labor relations; international development, social service, the travel industry, or health agencies and cultural organizations. Many of our students pursue graduate work in the fields of international relations, international development, peace studies, conflict resolution studies, public health, or law. We encourage all International Studies majors to study abroad, minor in a foreign language, and hope that they will pursue internship opportunities as well. The minor complements any major area by providing students with an international focus in their field.

The program is administered by the College of Arts and Sciences. In addition, courses taught in other schools and professional programs at UAB may be relevant to the curriculum developed by a student in pursuit of his or her specific career goals.

International Studies is an interdisciplinary major. Courses eligible to apply to this major may vary with the emphasis that a student chooses. See your advisor for identifying an appropriate curriculum in your area of interest.

Grade and Level Requirement

A grade of C or better is required in all International Studies courses. Students must demonstrate second-year proficiency in a foreign language. Students must ensure that at least 9 hours are taken in an approved geographic concentration. Geographic areas currently include Europe, Africa, Asia, Latin America and the Middle East. At least 15 credits must be taken at the 300 level including 9 hours at 400 level. Students must fulfill an international experience. This requirement may be satisfied by one of the following: participation in a study abroad program; participation in a course with a substantial international, applied component to it; participation in the Model Arab League simulation program; participation in a course with a substantial international, applied component; or participation in an internship with an international organization or company or an entity offering an international component.

Additional Requirements

General Electives

Students must take general electives to reach the 120 semester hour requirement.

Total Hours 18

Grade & Residency Requirement
A C or better is required in all International Studies courses applied to the minor. At least half of the minor must be completed at UAB or through BACHE.

Honors Program in International Studies

Purpose
The ITS Honors Program is designed for qualified, self-motivated international studies majors. Through special course distribution and credit hours requirements, as well as a directed honors thesis, students are prepared for in-depth ITS research and related graduate or professional opportunities.

Eligibility
Students must meet the following eligibility criteria:

1. 3.0 cumulative GPA at UAB, 3.3 GPA in ITS (and maintenance of these minima).
2. Junior standing.
3. Declaration of ITS as student’s major.
4. Letter of Intent to the Director. The Director approves admission into the program in consultation with the ITS faculty.

Requirements
Students are required to successfully complete the following:

1. Completion of ITS 470 or ITS 471 Seminar in International Studies (3 credits).
2. Enrollment in ITS 497 Honors Research in International Studies (3 credits) after completion of the Seminar.
3. Following completion of ITS 497, preparation of an advanced research project which will lead to the development of a substantial research paper and, in some cases, a senior thesis under faculty supervision (all faculty affiliated with ITS are eligible to supervise the paper).
4. Defense of paper/thesis in colloquium, composed of ITS faculty and other ITS 497 students
5. Participation in SIR, the international studies honor society

Benefits
Honors students will benefit from one-on-one mentoring with faculty in the program, which will lead to a more thorough understanding of the field and practice of international studies. This is particularly useful as students choose career goals, such as graduate school, international public service, the U.S. Foreign Service, or other opportunities. Additionally, students who complete the program will receive a certificate at the annual UAB Honors Convocation and will graduate “With Honors in International Studies.”

Contact
For more information and/or admission to the International Studies Honors Program, contact the ITS Director, 560 Heritage Hall, UAB, Birmingham, AL 35294-1152; Telephone (205) 934-5643.

Media Studies
Interdisciplinary Minor

Director: Michele Forman (Department of History)

The Media Studies minor is an interdisciplinary program for students interested in learning the theory and production practices of new media technology. The minor provides students a solid grounding in the history, theory and practice of documentary film, film history, oral history, ethnography, community studies, and media theory. Students will gain experience in community-based research, as well as attain proficiency in various new media technologies.

The courses are taught by members of the UAB Arts and Sciences faculty, offering students instruction in digital video cinematography, field audio recording, computer-based editing, applied research techniques, and professional presentation methods. The minor in Media Studies emphasizes experiential learning and offers students opportunities for hands-on participation in local communities through service learning and internships with non-profit organizations, businesses, and educational and governmental institutions.

Requirements
The Media Studies minor will require 18 semester hours, including three courses in the core for the minor (9 hours), six hours of additional advanced media studies coursework (either 2 courses or one 6 hour-course), and one elective (3 hours). The elective will be drawn from a number of relevant courses already existing in the curriculum of the College of Arts and Sciences involving technology, media, and/or community studies. No grade below C will be counted as credit for the minor.
Minor in Media Studies

**Requirements**

**Media Studies Core**

Select three of the following:

- DCS 101 Media and Society
- DCS 150 Introduction to Film and History
- DCS 201 History of Documentary Film
- DCS 208 Women in Film
- DCS 309 American Independent Film
- DCS 390 Life, Liberty, and the Pursuit of Happiness: Representing American Identity on Film
- DCS 391 Digital Storytelling

**Advanced Media Studies Elective**

Select two of the following:

- DCS 250 Community and Service
- DCS 401 Ethnographic Filmmaking/SL
- DCS 450 Media and Public Service
- DCS 455 Professional Producing
- DCS 460 Independent Media Studies
- DCS 470 Internship in Media Studies
- DCS 490 Special Topics in Media
- DCS 499 Special Topics in Media Studies

**Elective**

Select one of the following:

- ANTH 123 Comparative Cultures through Films
- ANTH 366 Urban Anthropology
- ANTH 415 Ethnographic Research Methods
- ARS 103 Digital Imaging & Design Foundations
- ARS 104 Four-Dimensional Design Foundations
- ARS 250 Experiential Graphic Design
- ARS 260 Experiential New Media
- ARS 280 Creativity and Imagination
- ARS 361 New Media- Special Topics 2
- ARS 360 New Media - Special Topics 1
- ARS 362 New Media- Special Topics 3
- ARS 454 Multimedia Productions
- EH 210 Interpreting Film
- EH 431 Special Topics in Film
- GEO 109 Intro to Urban Geography
- HY 207 The American Film
- HY 227 Technology and Society
- HY 305 Popular Culture in American History
- HY 431 American Film and Violent Society
- PSC 270 Law and Film
- PSC 370 Politics and the Media
- SOC 275 Urban Sociology
- WS 480 Special Topics in Women’s and Gender Studies

**Total Hours** 18

Natural Science

**Interdisciplinary Major**

The purpose of the Natural Science degree is to enable students to receive a general science education based on a course of study which is broader, but less in-depth in a single area, than a typical science major in the College of Arts and Sciences.

Requirements are successful completion of 30 semester hours approved and offered by one science department (designated the major) and 27 semester hours approved and offered by a second science department (designated the minor). The five science departments are found within the College of Arts and Sciences and include Biology, Chemistry, Computer Science, Mathematics, and Physics. At least 9 semester hours of the major must be at the 400 level or above. The major requires a Capstone experience.

Because departments within the college offer a variety of courses for diverse purposes, not every course listed in this catalog can be counted toward the natural science degree. Students must obtain approval of a plan of study leading toward this degree from the department chair of both the major and minor departments. It is advisable to do this as soon as possible to avoid taking courses that might not be approved toward the degree.

In addition to the number of hours, there is a requirement of at least a C average in courses counted toward the major and also in courses counted toward the minor. At least one-third of the hours in both the major and minor must be completed at UAB, and at least a C average must be maintained in these courses. Individual departments may be contacted for specific listings of courses required or recommended for the major or minor in that department for the natural science degree, or for information about particularly effective major/minor pairings.

Students interested in pursuing a major in Natural Science should email Dr. Catherine Danielou, Senior Associate Dean for Undergraduate Academic Affairs in the College of Arts and Sciences, and will be referred to an appropriate academic adviser (danielou@uab.edu), or call (205) 934-5643.

Neuroscience

Neuroscience is an ideal major for motivated students who want to pursue careers in medicine, research, and other health related disciplines. The curriculum for a BS degree in Neuroscience combines coursework in biology, chemistry, math, physics, psychology, and neurobiology to provide students an interdisciplinary understanding of the body’s most complex organ system.

The UAB Undergraduate Neuroscience Program (UNP) ([http://www.uab.edu/cas/neuroscience](http://www.uab.edu/cas/neuroscience)) is an interdisciplinary major between the Department of Neurobiology ([https://www.uab.edu/medicine/neurobiology](https://www.uab.edu/medicine/neurobiology)) in the School of Medicine and the Department of Psychology in the College of Arts and Sciences. Neuroscience is the study of the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions. Neuroscience also seeks to understand the molecular basis of nervous system disorders and diseases. Multidisciplinary in nature, the field of Neuroscience spans the anatomy, evolution, development, genetics, biochemistry, cell biology, physiology, electrophysiology, pharmacology, circuitry and pathology of the nervous system. Therefore, neuroscience integrates biology, chemistry, physics, mathematics, psychology, and computer science. It is one of the most rapidly advancing fields in biomedical research.

The goals of the UNP are to prepare and advance UAB undergraduates to careers in research and health-related sciences in highly competitive programs and to enable UAB graduates to become accomplished...
research scientists, clinicians and health-care professionals who will be ideally equipped for future study of the nervous system and treatment and discovery of cures for neurological, psychiatric and neurodevelopmental disorders and injury.

The UNP and its Training Faculty accomplish these goals by four complementary mechanisms. First, students are provided with a solid academic and intellectual foundation through coursework in biology, chemistry, mathematics, physics, psychology and neuroscience (http://www.uab.edu/cas/neuroscience/academic-programs/the-major). Second, students conduct original hands-on laboratory research under the direction of faculty mentors (http://www.uab.edu/cas/neuroscience/people/faculty-directory) to learn the state-of-the-art experimental approaches and methods in Neuroscience research. Third, students are mentored in the development of skills in scientific method, experimental analysis, and effective oral and written communication (http://www.uab.edu/cas/neuroscience/academic-programs/research). Students are expected to become active “colleagues” in faculty laboratories, which should result in publications in scientific journals and presentations at professional meetings. Fourth, students are provided with one-on-one academic and career counseling to identify professional programs most suited to their interests, and strategies to be competitive applicants to these programs.

Students earning the B.S. in Neuroscience at UAB are ideally suited for admission into the nation’s most prestigious graduate programs, and medical and professional schools.

Admissions
The UNP is designed for graduating high school seniors and college freshmen or sophomores with a strong academic record and the motivation to pursue a career in biomedical science. Please note carefully the following items.

High school students with an ACT score of 28 or higher and a GPA of 3.5 or higher (the UAB Honors College admissions criteria) are eligible for immediate acceptance into the Neuroscience major. Others may choose to attend UAB before applying in the freshman or sophomore year. Current UAB students whose high school credentials meet the minimum requirements and/or whose academic performance in freshman science courses is excellent may apply at any time (http://www.uab.edu/cas/neuroscience/academic-programs/apply). Please contact Dr. Cristin Gavin (cfgavin@uab.edu) or Dr. Rajesh Kana (rkana@uab.edu), if you would like to be considered for admission to the Program. Program Leadership is available to meet with high school students and their parents, or with current UAB students, to discuss the Program.

Advising and Information

Program Leadership:
Dr. Cristin Gavin
Co Director, Undergraduate Neuroscience Program
Assistant Professor of Neurobiology, School of Medicine
(205) 934-6433

**General**
Neuroscience majors in the laboratory-based research track should be working under the direction of a faculty mentor no later than the first semester of their junior year. However, students may identify a mentor and begin conducting research following completion of their Laboratory Research Orientation and Responsible Conduct of Research Training in their freshman year.

Recommended but not Required:

NBL 225 No Self Control: Motivation, Reward and Addiction (3 credit hours)
NBL 240 Introduction to Neuroscience Methods (3 credit hours)
NBL 327 100 Things You've Always Wanted to Know About the Brain (3 credit hours)
NBL 245 The Neurobiology of Learning and Memory (3 credit hours)
PY 470 Introduction to Neurobiology (3 credit hours)
BY 330 Cell Biology (3 credit hours)
BY 210 Genetics (3 credit hours)
PY 236 Research Biomethodology (3 credit hours)
PY 305 Medical Psychology (3 credit hours)
PY 335 Motivation and Emotion (3 credit hours)

PY 372 Social Psychology (3 credit hours)
PY 390 Animal Behavior (3 credit hours)

Premedical students should take SOC 100.

Academic Performance Requirement: Neuroscience majors must maintain an overall GPA of 3.0 to remain in the program. Any students falling below the academic requirement will be given 2 semesters to raise their GPA and a subsequent semester of academic probation with the program.

| ANTH 106 | Introductory Archaeology | |
| ANTH 299 | Contemporary Global Issues | |
| ANTH 330 | Nationalism Ethnicity and Violence | |
Women's and Gender Studies

Interdisciplinary Minor

Director: Lisa Sharlach (Government)

Faculty: Baker (Social Work), M. Bellis (English), Chapman (English), Cormier (Anthropology), Dallow (Art History), Doss (History), Drentea (Sociology), Forman (Media Studies), Gunther-Canada (Government), King (History), Koskinen (Theatre), Lariscy (English), Morgan (African American Studies & Justice Sciences), Murray (History), Sharlach (Government)

Women's and Gender Studies, formerly Women's Studies, is an interdisciplinary minor within the College of Arts and Sciences. Courses address sexuality and the gendered dynamics of history, politics, literature and the arts, philosophy and theology, health, and socio-cultural practices. The minor may be of interest to students pursuing careers in government, the justice system, education, social services, economic development and the health professions.

The following is not a comprehensive list of courses; other courses can be considered for credit in the Women's and Gender Studies Program. For full descriptions of courses other than Women's and Gender Studies, refer to the appropriate department's course listings in this catalog. Note: Special topics courses with the same numerical designation may be repeated for credit. However, courses with the same content may not be repeated.

Grade & Residency Requirement

A C or better is required in all courses applied to the minor. At least half of the minor must be completed at UAB.

Department of Anthropology

Chair: Dr. Douglas P. Fry

The Anthropology Department offers the Bachelor of Arts degree and the Master of Arts degree. In addition to the Anthropology Major, the department offers two minors, one in Anthropology and the other in
Peace, Justice, and Ecology. Anthropology is a social science discipline committed to the comparative and historical study of humankind. Anthropology is the broadest in scope and the most methodologically diverse of the social sciences.

Our Departmental mission is to advance knowledge of anthropology through scientific and humanistic research, high quality teaching, professional publications, and community outreach. The faculty conducts research, teaches, and trains in the four subfields of anthropology, cultural anthropology, linguistics, archaeology and biological anthropology as well as in the applied areas of peace and conflict studies, ecology, social justice, and human rights. Current faculty do research and teach in areas of satellite or space archaeology, Egyptology, medical anthropology, historical ecology, paleo-ecology, war and political violence, peace studies, human rights, and social justice. The research and teaching focus on peace, human rights, justice, and ecology is being expanded. For instance, Anthropology hosts the Peaceful Societies website and cooperates with the UAB Institute for Human Rights (HRI).

Students interested in careers in the fields of law, teaching, public service, international affairs, business, journalism, and a variety of other areas involving the social sciences and humanities will find the anthropology major beneficial and rewarding. Anthropology provides a solid foundation for the following careers: multicultural training, cross-cultural research, international health, forensic science, cultural resource management, national park service, teaching, international business, language interpreters, primatology, global issues, environmental conservation, tribal anthropology, and museum curation.

An undergraduate student has latitude in selecting a personalized program of study in the major that satisfies individual interests and maintains the holistic integrity of an undergraduate degree in general anthropology.

Anthropology Graduate Program

**Grade & Residency Requirement**

A grade of C or better is required in all courses applied to the minor. At least half of the minor must be completed at UAB.

### Honors Program in Anthropology

**Purpose**

The Anthropology Honors Program is designed to prepare students for advanced work at the graduate or professional level.

**Eligibility**

All regularly admitted students with a declared major in anthropology are eligible to enter the program, although continuing participation requires maintenance of an overall 3.0 GPA and a 3.25 GPA in anthropology.

Thirty-three semester hours in anthropology are required plus the completion of one of three statistics/foreign language options listed below. Students will be required to complete a minor.

Two courses in a foreign language (or demonstrated proficiency at the 102 level)  8
Total Hours  12

Requirements  Hours
Option 3  
Three courses in a foreign language, including one at the 200 level or above (or demonstrated proficiency at the 200 level)  9-11
Total Hours  9-11

1  STH students can substitute STH 301 for one of the Statistics courses

Benefits

Students will benefit from the Anthropology Department Honors Program by acquiring additional research skills to successfully enter and compete in internationally-oriented graduate and professional programs. Students who complete the program will graduate “With Honors in Anthropology.”

Contact

For additional information and/or admission to the Anthropology Honors Program, contact the Department Chairperson, 322 Heritage Hall, Birmingham, AL 35294-1152; Telephone (205) 934-3508.

Department of Art & Art History

Chair: Dr. Jessica Dallow

The Department of Art and Art History grants the following undergraduate degrees: a Bachelor of Arts and a Bachelor of Fine Arts. The B.A. has two areas of concentration: Art Studio and Art History. The department awards a Master of Arts in Art History in conjunction with the University of Alabama at Tuscaloosa. The the MA in Art Education degree is granted through the School of Education. UAB’s Department of Art and Art History is accredited by the National Association of Schools of Art and Design. Nationally and internationally active scholars and artists who promote creative inquiry, scholarship and innovation are actively teaching in their classrooms and studios.

Art History:
Emphasizing skills in critical thinking and visual literacy, students study a breadth of art history across time periods and culture preparing students for a wide range of careers and graduate study.

The Master of Arts degree in Art History prepares students for further academic study at the doctoral level or for professional careers in teaching, museums, galleries, and other arts-related fields.

Studio Art:
Studio art courses enable students to emphasize the skills and concepts of communicating visually, critically and conceptually. Students are encouraged to create a trajectory and drive for making art through experiencing the disciplines of the fine arts and design.

Students gain hands-on experience as they learn to formulate an understanding of the principles and elements of artistic practice. Students execute artworks by choosing media and technologies that support their ideas. They learn to develop sound research and production values, work in teams, analyze artwork, create professional portfolios and present their work orally and in writing.

Bachelor of Arts with a Major in Art and an Art History Concentration

The B.A. degree in Art is offered for students who seek a liberal arts education with a concentration in art history.

Must earn a C or better in all coursework.

- ARH 497 Seminar: Contemporary Art
- ARH 498 Seminar: Art Studio
**Bachelor of Arts with a Major in Art and an Art Studio Concentration**

The B.A. degree in Art is offered for students who seek a liberal arts education with a concentration in art studio.

**Requirements**

A C or better is required in all coursework.

**Freshman Year Experience**

1. Freshmen must take either University 101 or another College of Arts and Sciences Freshman Year Experience Course.
2. For students accepted into honors program: ARH 499 and two courses from Art History (ARH) at the 400-level.
3. Chinese or Japanese must be approved by the art history undergraduate advisor (alternatively, students may receive equivalent placement; this option reduces the credit hours of this requirement to zero).

**Total Hours**

* Bachelor of Arts with a Major in Art and an Art Studio Concentration: 47 hours

---

**Select one of the following:**

1. **Foreign Language Requirement**
   - CHI 101 Introductory Chinese I
   - JPA 101 Introductory Japanese I
   - Introductory Chinese II
   - Introductory German II
   - Introductory French II
   - Introductory German II
   - Introductory Japanese II

---

**Required Art Studio**

* Required Art Studio: 18 hours

**College of Arts and Sciences Freshman Year Experience**

* College of Arts and Sciences Freshman Year Experience: 1 hour

---

**200-Level Art Studio**

* 200-Level Art Studio: 6 hours

---

**300-Level Art Studio**

* 300-Level Art Studio: 18 hours

---

**400-Level Art Studio**

* 400-Level Art Studio: 9 hours

---

**500-Level Art Studio**

* 500-Level Art Studio: 9 hours
Department of Art & Art History

300-Level Art Studio
Choose two of the following (must have 200 level prerequisite) 6
ARS 300 Drawing - Special Topics 1
ARS 301 Drawing - Special Topics 2
ARS 302 Drawing - Special Topics 3
ARS 310 Painting - Special Topics 1
ARS 311 Painting - Special Topics 2
ARS 320 Sculpture - Special Topics 1
ARS 321 Sculpture - Special Topics 2
ARS 322 Sculpture - Special Topics 3
ARS 330 Ceramics - Special Topics 1
ARS 331 Ceramics - Special Topics 2
ARS 332 Ceramics - Special Topics 3
ARS 340 Printmaking - Special Topics 1
ARS 341 Printmaking - Special Topics 2
ARS 342 Printmaking - Special Topics 3
ARS 350 Graphic Design - Special Topics 1
ARS 351 Graphic Design - Special Topics 2
ARS 352 Graphic Design - Special Topics 3
ARS 360 New Media - Special Topics 1
ARS 361 New Media - Special Topics 2
ARS 362 New Media - Special Topics 3
ARS 370 Photography - Special Topics 1
ARS 371 Photography - Special Topics 2
ARS 372 Photography - Special Topics 3

400 Level Requirements 9
ARS 495 Special Topics - Interdisciplinary (repeat two times)
ARS 489 Professionalism, Project Management and Entrepreneurship

Art History Requirements
Select one of the following survey courses: 3
ARH 204 Early Modern-Contemporary Art
ARH 206 Survey of Asian Art
Select one of the following (Ancient, Medieval, Early Modern, Non-Western): 3
ARH 405 African Art
ARH 409 Egypt in the Age of the Pyramids
ARH 410 Imperial and Post Imperial Egypt
ARH 419 Arts of Death in the Middle Ages
ARH 421 Italian Renaissance Art
ARH 422 The Birth of Painting: Portable Pictures Across Renaissance Europe
ARH 423 Study Abroad: European Art
ARH 424 Northern Renaissance Art
ARH 431 Seventeenth-Century Painting
ARH 435 Arts of Power in Early Modern Europe
ARH 470 Tomb Art in East Asia
ARH 471 Topics in Asian Cinema
ARH 472 Buddhist & Hindu Art in India to 1200
ARH 473 Japanese Prints/Printmakers
ARH 474 Landscape and Image in East Asia
ARH 477 Piety and Power: Art in India after 1200
ARH 478 Buddhist Arts of East Asia
ARH 479 Study Abroad: Art & Culture of South Asia
ARH 481 Special Topics: Early Modern Art
ARH 486 Special Topics: South Asia
ARH 488 Special Topics: East Asian Art
ARH 493 Seminar: South Asian Art
ARH 494 Seminar: East Asian Art
ARH 495 Seminar: Early Modern Art
Choose one of the following (Modern and Contemporary Art): 3
ARH 430 Eighteenth-Century Art in Europe
ARH 440 19th-Century Art I: Neoclassicism, Romanticism, Realism
ARH 441 19th-Century Art II: Impressionism and Post-Impressionism
ARH 450 American Art to 1900
ARH 460 Twentieth-Century Art to 1945
ARH 461 Modern Design
ARH 464 Art Since 1945
ARH 465 Aspects of Contemporary Art
ARH 467 Modern Architecture
ARH 468 Race and Representation
ARH 480 Art Criticism and Theory
ARH 482 Special Topics: Modern Art
ARH 483 Special Topics: Gender and the Visual Arts
ARH 484 Special Topics: Contemporary Art
ARH 487 Special Topics: Field Study
ARH 496 Seminar: Modern Art
ARH 497 Seminar: Contemporary Art

Total Hours 49

Footnotes
1 Freshmen must take either University 101 or another College of Arts and Sciences Freshman Year Experience Course.
2 Note: ARH 203, or ARH 204, or ARH 206 will also satisfy Core Curriculum Area II.

Bachelor of Fine Arts - Major in Art
The Department of Art and Art History’s Bachelor of Fine Arts degree offers students an intensive exploration across a breadth of media and depth of discipline. Within this context, the undergraduate student prepares to be an artist or designer, begin a career in the arts, or to continue their studies in graduate school. Students gain skills and competencies including: team-based learning, technology, communication, problem solving, aesthetic judgment, interdisciplinary approaches, innovative thinking, critical analysis and professional development throughout their program of study. The BFA exhibition, a highlight of the undergraduate career, both demonstrates and celebrates the students’ accomplishments.

Notes:
Admission to the B.F.A. program requires a portfolio review of the student’s work submitted to the B.F.A. committee of the Department of Art and Art History. Portfolios are reviewed twice a year, in the Fall and Spring semesters, following announced deadlines for application to the program. Students must receive a C or higher grade in all studio courses. Students select a member of the studio faculty to serve as their primary mentor for their BFA exhibition capstone course which occurs each spring in the Abroms-Engel Institute for the Visual Arts.

Requirements
Freshman Year Experience 1

A C or better is required in all coursework.

ARS 270 Experiential Photography

Total Hours 18

Honors in Art History & Art Studio

HONORS IN ART HISTORY:

Purpose
The Honors Program in Art History is designed for outstanding art history students. Through a program emphasizing critical analysis, enhanced writing and original research proficiencies, students will develop skills necessary to professional careers in the arts and humanities and to further graduate study.

Benefits
Students will work closely with faculty mentor and develop extensive research and writing skills. They will also receive a certificate at the spring UAB Honors Convocation and will graduate “With Honors in Art History.”

Eligibility
To be accepted into the Honors Program in Art History, a student must:

• Be a B.A. Art major (Concentration in Art History).
• Have at least a 3.5 GPA in Art History courses.
• Have at least a 3.0 GPA overall.
• Have completed at least 12 hours in art history, 3 hours of which must be at the 400-level.
• Submit an Art History Honors Program application form to the B.A. Art History Advisor for the Department of Art and Art History.

Application forms can be found on the department website. The Department Chair approves admission into the program in consultation with the art history faculty.

Requirements

• Complete all required courses for the B.A. Art (Art History concentration) major.
• Maintain a 3.5 GPA in art history and 3.0 GPA overall.
• In the senior year, complete ARH 499 Honors Thesis. This course may fulfill one of the art history 400-level elective requirements for the degree. Student should have completed ARH 489 as a prerequisite (capstone course for B.A. Art major)
  • ARH 499 Honors Thesis is a directed study course where the student will work intensively with a faculty mentor to write a formal, extensive research paper on a topic of the student’s choice.
  • Prior to registration in ARH 499, typically the preceding semester, the student will select a member of the art history faculty to serve as faculty mentor and submit a thesis project proposal (ca. 3 pages in length plus bibliography).
  • Upon approval of the proposal by the faculty mentor, student may register in ARH 499.
  • Formatting, title page, and length guidelines for the thesis should be discussed with the Art History advisor or faculty mentor.
• Obtain signature of faculty mentor on Honors Thesis final approval form.
• Submit 1 copy of signed approval form to Art History Advisor who will submit the form to the chair of the department.
• Signed approval form must be submitted by last day of classes (Fall and Spring semesters only), preceding the week of final exams.
• Submission of electronic copy of the thesis to the faculty mentor and to the department chair.

Contact
For more information and/or admission to the Art History Honors Program, please review the application form found on the department website under student resources.

HONORS IN ART STUDIO:

Purpose
Honors in Studio Art acknowledges outstanding overall achievement in the major, as demonstrated by the quality and depth of a student’s work. To apply, eligible students must participate in an ARS491 AND submit a portfolio which includes an artist statement. Application for honors does not insure receipt of honors.

Benefits
You will receive a certificate at the spring UAB Honors Convocation and will graduate “With Honors in Art Studio.”
Eligibility
To be accepted into the Honors Program in Art History, a student must:

- Be a B.F.A. Art Studio major
- Have at least a 3.5 GPA in studio art courses.
- Have at least a 3.0 GPA overall.
- Have completed at least 12 hours in art history, 3 hours of which must be at the 400-level.
- Submit an Honors application form to the your BFA Exhibition faculty.

Application forms can be found on the department website. The Department Chair approves admission into the program in consultation with the art studio faculty. You will receive notification if your application from the Chair of the Department.

Requirements
- Complete all required courses for the B.F.A. major.
- Maintain a 3.5 GPA in studio art and 3.0 GPA overall.
- In the senior year, complete ARS 491: BFA Exhibition course. Student should have completed ARS 489 as a prerequisite (capstone course for B. F.A. Art major)
  - ARS 489 BFA Exhibition a directed study course where the student will work intensively with a faculty mentor to create an exhibition and portfolio around a theme of the student’s choice.
- Obtain signature of faculty mentor on Honors final approval form
- Submit a signed approval form to the departmental Chair’s office.
- Signed approval form must be submitted by last day of classes (Fall and Spring semesters only), preceding the week of final exams.
- Submission of electronic copy of the portfolio (including artist statement) to the department honors faculty mentor.
- The awarding of honors is the decision of the Studio Art faculty. In addition to the above criteria, the following also play a role in the awarding of honors:
  + Your work in the Senior Exhibition revealed an informed level of directed and highly motivated throughout the course of study.
  + Your BFA Exhibition faculty member observed you to be self-directed and highly motivated throughout the course of study.
  + Your work in the Senior Exhibition revealed an informed level of critical, conceptual, and technical competence.

Contact
For more information, please review the application form found on the department website under student resources.

Department of Biology
Chair: Dr. Steven N. Austad

The Department of Biology has experienced faculty dedicated to research and teaching with interests ranging from the molecular to the ecological level. The broad expertise of our faculty allows diverse emphasis in cellular, molecular, developmental, environmental, evolutionary, genetic, marine, and organismal biology. Our faculty have been recognized by the University and by national and international biological organizations for their excellence in research and teaching.

The curriculum in biology provides general and specific courses for non-majors and prepares the major for graduate study in biology; the professional schools of human and veterinary medicine, dentistry, optometry, and allied health sciences. Additionally, the curriculum prepares the non-major and major student with knowledge required for careers in secondary science education, environmental education, wildlife management in both the public and private sectors, and other careers dependent upon comprehension of biological sciences. The Department of Biology also has a well established Honors curriculum for those students who excel in academics and wish to participate in biological research. This program allows students to conduct research under the mentorship of faculty in the Department of Biology or the School of Medicine, and to graduate with departmental honors. The department offers the following B.S. degrees in biology as well as a minor in biology:

1. Major in Biology – Integrative Biology Concentration
2. Major in Biology – Marine Science Concentration
3. Major in Biology – Molecular Biology Concentration

Grade Point Average (Majors and Minors)
A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB. The current UAB course repeat policy will be used in calculating the grade point average.

Transfer Credit
Biology courses in which a grade of D is earned at another institution cannot be applied toward requirements for the major or minor. Students will not be given more credit (semester hours) toward the major or minor than awarded for equivalent courses at UAB, nor more than 8 semester hours of credit in any introductory sequence or combination of courses. Excess hours in these courses may, however, be applied as electives toward the 120 semester hours necessary to satisfy the general degree requirements.

A minimum of 9 semester hours in the major and 6 semester hours in the minor in biology must be taken at UAB.

Graduate Programs
The Department of Biology offers graduate study leading to the degrees of Master of Science and Doctor of Philosophy. Further information may be found in the UAB Graduate School Catalog.

Accelerated Master of Science Programs

Fifth Year M.S. Program
The Department of Biology offers an opportunity to earn a B.S. and an M.S. degree in a total of five years. This program offers qualified students mentorship during undergraduate study and supplements professional degrees such as medicine, dentistry, and optometry. The student works closely with a faculty member in an area of intensive research which prepares the student for a Ph.D. degree program in the biological sciences or a future health professions career. It also builds teaching skills for academic careers. Admission to the program requires a minimum 3.25 grade point average; three letters of recommendation; an interview with the admissions committee; and a satisfactory score on the Graduate Record Examination by fall of the senior year. For additional information, please contact Dr. Stephen Watts, Graduate Program Director, at (205) 934-2045 or sawatts@uab.edu.

- BY 429 Evolution
- BY 435 Natural History of Vertebrates
- BY 467 Population Ecology
- BY 470 Ecology
- BY 474 Chemical Ecology

#### Organismal

Select one of the following: 4
- BY 255 Invertebrate Zoology
- BY 256 Vertebrate Zoology
- BY 271 Biology of Microorganisms
- BY 442 Experimental Phycology

#### Physiology and Development

Select one of the following: 3-4
- BY 314 Embryology
- BY 409 Principles of Human Physiology
- BY 410 Comparative Animal Physiology
- BY 420 General Endocrinology
- BY 440 Immunology
- BY 451 Plant Biology
- BY 475 Comparative Developmental Biology

#### Cellular/Molecular

Select one of the following: 3

BY 311 Molecular Genetics
BY 330 Cell Biology
BY 434 Functional Genomics and Systems Biology
BY 437 Epigenetics
BY 469 Molecular Ecology and Phylogenetics

### Capstone Experience

Select one of the following (only one can count towards major): 4
- BY 490 Bio Capstone: Human Physiology
- BY 491 Biology Capstone - Evolution
- BY 492 Biology Capstone - Undergraduate Research
- BY 493 Biology Capstone - Honors Research

### Electives

Select Biology (BY) courses to total the 40 hour Biology Requirement

### Total Hours

56-58

---

1 Note: Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement and the Biology Major Requirement

2 Biology Majors must complete 40 hours in Biology (BY) courses approved for the major, including BY 123 and BY 124 with a C or better (fulfilling Core Curriculum Area III and the courses taken to satisfy the requirements below. Additional courses to total 40 semester hours selected after consultation with an advisor and consideration of interests and career goals. At least 9 hours must be 400-level or higher. No more than 6 total hours of BY 394, BY 397, BY 398, and BY 492 can be applied towards the 40 hours of Biology (BY) courses. Note: BY 101, BY 102, BY 108, BY 109, BY 111, BY 112, BY 116, and BY 261 cannot be applied toward the Biology major.

### GPA Requirement & Residency

A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB in order to graduate. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of nine semester hours in the major must be taken at UAB. Transfer students should be aware of the Department of Biology’s policy regarding transfer credit.

### Additional Requirements

#### General Electives

Students must take general electives to reach the 120 semester hour requirement.

#### Graduating Seniors

Students must take a biology major fields test and a departmental survey.

### Core Curriculum

Students must take a Philosophy course that meets the QEP Ethics and Civic Responsibility Requirement, either PHL 115 or PHL 116.

### Bachelor of Science with a Major in Biology and a Marine Science Concentration

The marine science concentration and the molecular biology track prepare students for careers in marine science or research careers in the basic or medically-related sciences.

Elective Courses

Electives in Biology to total 40 hours.

Total Hours: 171

1. Note: Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement and the Biology Major Requirement.

2. Including BY 123 and BY 124 with a C or better (fulfilling Core Curriculum Area III) and the courses taken to satisfy the requirements below. All of the courses listed below are approved for the major; consult your advisor for a list of additional courses. At least 9 hours must be 400-level or higher. No more than 6 total hours of BY 394, BY 397, BY 398, and BY 492 can be applied towards the 40 hours of Biology (BY) courses. Note: BY 101, BY 102, BY 108, BY 109, BY 111, BY 112, BY 116, and BY 261 cannot be applied toward the Biology major.

GPA Requirement & Residency

A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB in order to graduate. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of nine semester hours in the major must be taken at UAB. Transfer students should be aware of the Department of Biology’s policy regarding transfer credit.

Additional Requirements

General Electives

Students must take general electives to reach the 120 semester hour requirement.

Graduating Seniors

Students must take a biology major fields test and a departmental survey.

Core Curriculum

Students must take a Philosophy course that meets the QEP Ethics and Civic Responsibility Requirement, either PHL 115 or PHL 116.

</tr>
</tbody>
</table>

**Biology Electives**

Select 6 hours from 200-level or higher Biology (BY) courses.

**Total Hours** 17

1. Note: BY 123 and BY 124 may also satisfy the Core Curriculum Area III: Natural Sciences requirement; check the Core Curriculum for your particular major.
2. Not more than a total of three hours in BY 397, BY 398, and BY 498 may be counted toward the minor.
3. Note: BY 101, BY 102, BY 108, BY 109, BY 111, BY 112, BY 116, and BY 261 cannot be applied toward the Biology minor.

### GPA Requirement & Residency

A student must have at least a 2.0 average in all biology courses attempted and a 2.0 average in all biology courses taken at UAB in order to graduate. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of six semester hours in the minor must be taken at UAB. Transfer students should be aware of the Department of Biology’s policy regarding transfer credit.

### Honors Program in Biology

**Purpose**

The Biology Honors Program offers motivated students the opportunity to develop research and communication skills in preparation for a graduate or professional career.

**Eligibility**

To be accepted into the Biology Honors Program, a student must:

- Have earned a 3.5 GPA in biology courses attempted.
- Have earned a 3.0 GPA overall.
- Have completed 18 semester hours in biology courses.
- Have enrolled in BY 398 (Undergraduate Research) for at least one semester hour.
- Have arranged with a faculty sponsor in biology to do a research project.

**Requirements**

Students in the Biology Honors Program will be required to have the following:

- Six semester hours in BY 498 (Honors Research), with each semester hour per term requiring a minimum of four hours of laboratory work per week.

### Note

1. Assumes student is placed in MA 106
2. Assumes student has had one year of High School Chemistry with a grade of C or better.
3. Assumes no Advanced Placement (AP), Dual Enrollment, International Baccalaureate (IB), or College Level Examination Program (CLEP) credit.
4. Must complete at least one Literature Core II and two History Core IV or two Literature Core II and one History Core IV.
5. BY 101, BY 102, BY 111, BY 112, BY 116 and BY 261 do not count toward Biology electives.
6. Must earn a Biology GPA of at least 2.0
7. See Biology Advisor once each term.
8. Some Biology (BY) courses rotate every other year (BY 245) see advisor.
• A formal research proposal, submitted by the end of the first semester of Honors Research, including an introduction, proposed methods, and relevant literature citation.
• A formal written report in the form of a scientific paper.
• An oral or poster presentation at Biology Research Day or the UAB Expo.

In some instances, it will be recommended that biology honors students give a formal presentation of their work at a scientific meeting. Funds may be provided to support participation at such a meeting.

Benefits
In addition to the educational and career benefits of participation in the Biology Honors Program, students who complete the program will be honored at the annual Biology Honors Research Day and will graduate “With Honors in Biology.”

Contact
For more information and/or admission to the Biology Honors Program, contact Dr. Thane Wibbels, Campbell Hall, Room 255A, Birmingham, AL 35294-1170; Telephone (205) 934-4419 or E-mail twibbels@uab.edu

Department of Chemistry
Chair: Dr. Richard Dluhy

The Department of Chemistry provides several undergraduate degree programs for chemistry majors and general course offerings for non-majors. All B.S. chemistry degrees are designed to comply with American Chemical Society (ACS) accreditation standards and provide a strong foundation in chemistry that prepares students to be highly qualified as professional chemists, pursue advanced studies leading to the Ph.D. degree in chemistry or biochemistry, or gain admission to professional schools in medicine, dentistry, optometry, pharmacy, work as forensic chemists in regional, state, and federal forensic laboratories, work as professional chemists in industrial or government laboratories, or pursue certification to be chemistry educators. Students must accumulate 400 hours of laboratory experiences beyond general chemistry in order for their degree to qualify for ACS certification.

The department offers the following ACS-approved B.S. degrees in chemistry as well as a minor in chemistry:

1. Major in Chemistry
2. Major in Chemistry with a Biochemistry Track
3. Major in Chemistry with a Chemical Education Track
4. Major in Chemistry with a Forensic Chemistry Track
5. Major in Chemistry with a Polymer Chemistry Track

The B.S. degree in chemistry with a biochemistry track, or a B.S. degree in chemistry, with biology as a minor, is recommended for students with career interests in medicine, dentistry, optometry, pharmacy, or other health-related fields. Students whose interests include careers in federal, state, or local forensic laboratories are encouraged to obtain a degree in chemistry with the forensic chemistry track.

The required curricula associated with the B.S. degree in chemistry with available options, and a suggested program of study, are available from the Department of Chemistry Advising Office and on the Department of Chemistry website (www.uab.edu/chemistry).

An exciting feature of the Department of Chemistry’s B.S. degree is the opportunities for undergraduate chemistry majors to participate in world-class research programs. Students are encouraged to become involved in research early in their undergraduate careers. Students are engaged in all aspects of meaningful and significant research programs that cover a variety of projects and encompass every area of chemistry, and biochemistry, and extend into interdisciplinary programs within the UAB biomedical research complex. Students demonstrating success in their research projects are encouraged to present their work at regional and national scientific meetings and are supported by departmental travel scholarships.

All students majoring in chemistry are required to meet with the Undergraduate Advisor (Mr. James Grimes) each term prior to registration. The advisor's contact information is 205-934-7529 or chemadvise@uab.edu.

Grade Point Average
At least a 2.0 average for all required chemistry courses and a 2.0 average for all required chemistry courses taken at UAB are compulsory for either a major or minor in chemistry. The current UAB course repeat policy and course forgiveness policy will be used in calculating the grade point average.

Transfer Credit / Residency
All chemistry majors and minors must take at least two of the following courses (with laboratories) at UAB, and at least one of these courses with laboratory must be at the 200 level or higher: CH 115/CH 116, CH 117/CH 118, CH 235/CH 236, CH 237/CH 238, CH 325/CH 325L CH 345/CH 345L, CH 355/CH 355L, CH 426/CH 427 or CH 440/CH 427, CH 450/CH 450L, CH 480/CH 480L, or CH 481/CH 481L. Chemistry majors must also take CH 493 at UAB, and at least two of these courses at UAB (if not already satisfied by the residency requirement mentioned above): CH 426/CH 427 or CH 440/CH 427, CH 450/CH 450L, CH 463 or CH 464, CH 480/CH 480L, CH 481/CH 481L, or CH 497 (which can only count once, for three credit hours, toward this requirement). Chemistry credit from another institution cannot be applied toward requirements for a chemistry major or minor at UAB if the grade is W, WP, WF, D, or F. Courses taken through the Cooperative Exchange Program must be approved in advance and in writing by the chemistry department chair in order for courses to apply toward requirements for a chemistry major or minor.

Core Curriculum for Chemistry
Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

Graduate Programs
The Department of Chemistry offers graduate study leading to the degrees of Doctor of Philosophy and Master of Science. Further information may be obtained from the Graduate Program Director of the Department of Chemistry, the UAB Graduate School Catalog, or the departmental web site (http://www.uab.edu/chemistry).

5th year master’s degree in biochemistry
This is a research intensive degree program and to be eligible for admission in the senior year, students must start their undergraduate
research experience as early as possible, preferably in their sophomore year.

Admission Requirements:

- achieved status of Senior chemistry major
- GPA of 3.0 or higher
- enrolled in CHEM 297 (Introduction to Undergraduate Research) by the Fall semester of the Junior year
- selection of faculty research mentor (in the Department of Chemistry or Department of Biochemistry & Molecular Genetics) by Spring semester of the Junior year and enroll in CHEM 497 (Undergraduate Research) by Spring semester of the Junior year

Admission to the 5th-year MS program will additionally require:

- satisfactory performance on Graduate Record Exam (GRE) taken in the Senior year (first term)
- strong letter of nomination for admission to the program from their undergraduate research mentor

The 5th-year M.S. Chemistry/Biochemistry Oversight Committee, composed of two faculty members from the Department of Chemistry (including the Department of Chemistry Graduate Program Director) and two faculty members from the Department of Biochemistry (GBS-BSSB theme including the GBS-BSSB Graduate Program Director) will review applicants and approve admission to the program.

Bachelor of Science with a Major in Chemistry

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area III Sciences: CH 115, CH 116 or CH 114, CH 117, CH 118 or CH 119

Area III Mathematics: MA 125

| CH 481 Polymer Chemistry II. Fundamental Properties |       |
| CH 497 Undergraduate Research (two terms strongly recommended) | |

Capstone Requirement

Select one of the following: 3-4

| CH 493 Chemistry in Culture & Ethics            |       |
| CH 495 Ethics in Chemical Research             |       |
| or CH 496 & CH 497 Undergraduate Research      |       |

Total Hours | 45-49 |

1. The calculus-based PH 221 - PH 222 sequence is strongly recommended.
2. Each of these courses can only count once toward the chemistry major. If a student wishes to use both CH 426 and 440 as part of the chemistry major, CH 297 may substitute for the lab requirement for the second course the student takes, if the student meets the eligibility requirements for CH 297 and is accepted by an approved faculty mentor for laboratory research.
3. To count this course as the chemistry elective requires also taking CH 297 Undergraduate Research Experiences before graduation. To do so, the student must meet the eligibility requirements for CH 297 and be accepted by an approved faculty mentor for laboratory research.
GPA Requirement

- At least a 2.0 average in all required chemistry courses and a 2.0 average in all required chemistry courses taken at UAB are mandatory for a major in chemistry.
- The current UAB course forgiveness policy will be used in calculating the grade point average.

Total Hours 59-61

1 The calculus based PH 221 & PH 222 is strongly recommended.
2 To count this course as the biochemistry elective requires also taking CH 297 Undergraduate Research Experiences before graduation. To do so, the student must meet the eligibility requirements for CH 297 and be accepted by an approved faculty mentor for laboratory research.

GPA Requirement

- At least a 2.0 average in all required chemistry courses and a 2.0 average in all required chemistry courses taken at UAB are mandatory for a major in chemistry.
- The current UAB course forgiveness policy will be used in calculating the grade point average.

Bachelor of Science with a Major in Chemistry and a Forensic Chemistry Track

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area II (non-Literature option): CMST 101
Area III Sciences: CH 115, CH 116 or CH 114, CH 117, CH 118 or CH 119

Area III Mathematics: MA 125

Total Hours: 83-85

1. Completion automatically satisfies three semester hours of Core Curriculum Area II: Fine Art & Humanities.
2. These courses may constitute a biology minor; please see biology department advisor or GPS if interested in this minor.
3. The calculus based sequence PH 221 & PH 222 is strongly recommended.

GPA Requirement

- At least a 2.0 average in all required chemistry courses and a 2.0 average in all required chemistry courses taken at UAB are mandatory for a major in chemistry.
- The current UAB course forgiveness policy will be used in calculating the grade point average.

Additional Requirements

FYE/FLC Requirement

Students must also fulfill the FYC/FLC Requirement, if applicable.

Bachelor of Science with a Major in Chemistry and a Chemical Education Track

Capstone Requirement  
Select one of the following: 3-4  
CH 493 Chemistry in Culture & Ethics  
or CH 495 Ethics in Chemical Research  
& CH 497 Undergraduate Research

Total Hours 52-56

1 The calculus based PH 221-PH 222 sequence is strongly recommended.  
2 Each of these courses can only count once toward the chemistry major. If a student wishes to use both CH 426 and 440 as part of the chemistry major, CH 297 may substitute for the lab requirement for the second course the student takes, if the student meets the eligibility requirements for CH 297 and is accepted by an approved faculty mentor for laboratory research.  
3 To count this course as the chemistry elective requires also taking CH 297 Undergraduate Research Experiences before graduation. To do so, the student must meet the eligibility requirements for CH 297 and be accepted by an approved faculty mentor for laboratory research.

This program alone DOES NOT lead to certification to teach chemistry. Advising in the School of Education is STRONGLY recommended.

GPA Requirement

Total credit hours: 121

1 May also satisfy the Core Curriculum Area III: Natural Sciences requirement.

GPA and Residency Requirement

• At least a 2.0 average in required chemistry courses and a 2.0 average in required chemistry courses taken at UAB are mandatory for a minor in chemistry.

• The current UAB course forgiveness policy will be used in calculating the grade point average.

• Chemistry courses in which a grade of W, WP, WF, D or F is earned at another institution cannot be applied toward requirements for the chemistry major or minor.

• Students will not be given more semester-hours credit toward the major or minor than awarded for equivalent courses at UAB.

• All chemistry minors must take at least two of the following courses (at least one with its accompanying laboratory) at UAB: CH 235/CH 236, CH 237/CH 238, CH 325/CH 325L, CH 345/CH 345L, CH 355/CH 355L, CH 426/CH 427 or CH 440/CH 427, CH 450/CH 450L, CH 480/CH 480L, or CH 481/CH 481L.

• Courses taken on a pass/fail basis do not count toward a CH minor.

Honors Program in Chemistry

Purpose

The Chemistry Honors Program is aimed toward outstanding chemistry majors and is designed to enhance the students’ problem solving, critical thinking, and communication skills. The program provides an excellent preparation for graduate school or professional careers.

Eligibility

Acceptance into the Chemistry Honors Program requires the student to:

• Have earned a 3.25 GPA in required chemistry courses attempted;

• Have earned a 3.0 GPA overall;

• Have completed the following courses:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>

<tr>
<td>or CH 239</td>
<td>1</td>
</tr>
</tbody>
</table>

Chemistry Elective

Select one of the following: 3-4

CH 325 Physical Chemistry I with Calculus: Thermodynamics and Chemical Kinetics
CH 345 Inorganic Chemistry: Principles and Applications of Chemical Periodicity
CH 355 Quantitative Analysis
CH 426 Physical Chemistry II: Structure/Bonding and Molecular Spectroscopy
CH 440 Transition Metal Chemistry
CH 450 Instrumental Analysis
CH 451 Chemometrics
CH 459 Special Topics in Analytical Chemistry
CH 460 Fundamentals of Biochemistry

CH 461 Advanced Biochemistry
CH 463 Biochemistry Laboratory
CH 464 Physical Biochemistry Laboratory
CH 471 Medicinal Chemistry and Drug Discovery
CH 472 Chemistry of Natural Products
CH 480 Polymer Chemistry I. Basic Principles
CH 481 Polymer Chemistry II. Fundamental Properties

Total Hours 19-20

1 See GPS for list of courses that can satisfy core and/or major requirements.

2 The calculus-based physics sequence, PH 221 & PH 222, is strongly recommended, instead of the PH 201 & PH 202 sequence.

3 CH 450/450L can substitute for CH 426/427 or 440/427
• Have arranged with a faculty mentor to do a research project in chemistry; and
• Have submitted the honors program application form and a one-page honors research proposal to the Chemistry Honors Director.

**Requirements**

• Prior approval of the Chemistry Honors Director.
• Prior completion of 6 semester hours of undergraduate research CH 497.
• Enrollment in Honors Thesis, CH 499, requiring a senior thesis written in ACS format for a scientific paper.
• An oral presentation and defense of the thesis before the student’s Honors Research Committee.

Where appropriate, the Honors Committee may recommend that chemistry honors students make a formal presentation of their work at the annual meeting of the Alabama Academy of Science or a regional or national meeting of the American Chemical Society.

**Benefits**

In addition to the benefits associated with a mentoring program that fosters a spirit of inquiry, independence, and initiative and integrates the student’s prior course work into a working knowledge of chemistry in the laboratory, the student who completes the program will graduate “With Honors in Chemistry.”

**Contact**

For more information and/or admission to the Chemistry Honors Program, contact

Dr. Gary Gray
Director of the Department of Chemistry Honors Program
Chemistry Building, Room 288
Birmingham, AL 35294-1240
Telephone (205) 934-8094
e-mail: gmgray@uab.edu

---

**Department of Communication Studies**

**Chair:** Dr. Timothy Levine

The Department of Communication Studies is concerned with human interaction and communication in all of its forms. The department offers concentrations in Communication Management, Sports Communication, and Mass Communication.

Students interested in studying communication should consult the department chair or undergraduate coordinator as well as the requirements set by the College of Arts and Sciences.

**Major in Communication Studies with Communication Management Concentration**

The Communication Management concentration is designed for students interested in the general principles of communication from interpersonal relationships to the theory and practice of public dialogue. A minor is available in Communication Management for non-majors.

---

**Major in Communication Studies with Sports Communication Concentration**

The Sports Communication Concentration is designed to prepare students for careers in the fastest growing area within the field of communication. Sports communications includes sports information, sports media relations, sports administration, and sports management.

**Major in Communication Studies with a Mass Communication Concentration**

The Mass Communication concentration allows students to specialize in journalism, broadcasting, or public relations. Minors are available in Mass Communication. A Minor is required for a degree in Mass Communication.

**Specializations**

Students interested in developing a concentration in mass communication may select from one of three specializations available in the department: journalism, broadcasting, or public relations. Students specializing in one of the mass communication specializations may also major or minor in communication management.

**Journalism**

The curriculum in journalism is designed to prepare students for work with newspapers, magazines and company publications. In addition to courses in writing, reporting, and editing, the journalism program frequently offers special courses aimed at meeting the media demands of Birmingham, its people, and its publications.

**Broadcasting**

Students in broadcasting prepare for professional careers in television production, news operations, or management. In addition to skills courses, students are given a strong theoretical foundation designed for both the media professional and the potential graduate student in mass communication.

**Public Relations**

Public relations is a pre-professional program designed to acquaint students with the theoretical knowledge and the practical skills necessary to master all aspects of the public relations process. The program stresses writing, oral and analytical skills, ethical reasoning, problem solving, strategic thinking, media selection, and identification of publics. Students receive hands-on experience in developing client representation skills as well as strengthening essential team-building, networking and leadership skills. Students also participate in the internship program which gives them actual on-the-job experience.

### Honors in Communication Studies

The Honors Program in Communication Studies offers an enhanced and challenging academic experience for exceptional and highly motivated undergraduate students, especially those considering graduate school. Students who complete the program will graduate “With Honors in Communication Studies.”
Eligibility and Application Process

To be eligible, a student must be a declared Communication Studies major and must have a cumulative, institutional, and Communication Studies GPA of 3.5 or above.

Requirements

1. Fulfill the normal requirements for the Communication Management major or Mass Media concentrations.
2. Submit a completed Communication Studies Honors Program application form to the Director of Departmental Honors for approval. Students must secure permission of the Director and their mentor in order to enter the Communication Studies Honors Program.
3. Maintain and graduate with a cumulative, institutional, and Communication Studies GPA of 3.5 or above.
4. Successfully complete and defend (no later than four weeks before graduation) an Undergraduate Honors Thesis conducted under the supervision of a faculty member in the department.

Contact

1. For more information and/or admission to the Communication Studies Honors Program, please contact the Chair of the Department.

Department of Computer Science

Chair: Dr. Yuliang Zheng

The Department of Computer Science (CS) offers a BA degree in CS, a BS degree in CS, a BS degree in Digital Forensics (offered jointly with Justice Sciences), and a minor in CS. The BS degree in CS is accredited by the Computing Accreditation Commission of ABET, abet.org (http://www.abet.org/wp-signup.php?new=abet.org), and is designed for students desiring a more in-depth exploration of computer science, giving students a broad background in the structure and theory of information, programming methodologies, and the hardware and software of computer systems. There is also a concentration that offers an opportunity for specialization in computer networking. The BA degree in CS is designed for students wishing to apply the tools and techniques of computer science to solving interdisciplinary problems in science, arts, humanities, business, and other areas, equipped with T-shaped knowledge and skill sets. The BS in Digital Forensics is an interdisciplinary degree that prepares graduates for a professional career in the field of digital forensics and cyber security. Minors are available for students who are not CS majors but who expect to use the computer in the application area of their major field. For more information, see the CS department web site at cs.uab.edu.

Requirements for students transferring to a CS major from other programs within UAB

Students admitted to an undergraduate program at UAB may transfer to CS provided they have earned a UAB GPA of 2.0 or better.

Requirements for students transferring to a CS major from other institutions

Transfer students from other institutions may transfer to the CS program provided they have earned a GPA of 2.0 or better. If this requirement is not met, transfer students must transfer as a Liberal Arts major in the College of Arts and Sciences, meet the GPA requirement, and then apply to become a CS major.

Grade point average

For both the major and minor, a grade of C or better is required in each of the computer science courses. If a student receives a grade D or F in any CS course, then the student will only be allowed one chance to retake that course and pass it (grade C or better).

CS courses taken at another institution for which a grade of D was received may not be counted toward the CS major or the CS minor.

All CS majors must maintain a GPA of 2.2 or better in all CS courses taken. If the CS GPA falls below 2.2, then the student will be put on probation and student must raise his or her CS GPA to 2.2 or above within a year after being placed on probation. At the end of the probation term, if the CS GPA is not at or above 2.2, then the student will be dismissed from the major, and be reclassified as an undeclared major in the College of Arts and Sciences. Note that this requirement is in addition to the minimum UAB GPA of 2.0 or better required to be in good standing. A student who is dismissed from the CS major as described here may reapply to be CS major provided the student has raised his or her CS GPA to 2.2 or higher and also has a UAB GPA to 2.0 or better.

300 and 400-level courses

In the Bachelor of Science in Computer Science major, at least 12 semester hours of CS courses at the 300 level or above must be taken at UAB. In the Bachelor of Arts in Computer Science major, at least 12 semester hours of CS courses at the 200 level or above must be taken at UAB. Any CS course at the 300 level or above can be taken to satisfy the 12 semester hour CS elective credit. A maximum of 3 semester hours may be obtained in Directed Readings. Although not required, CS majors have the option to structure their 12 semester hours of CS program electives as a specialization in Computer Networking. Course substitutions may be made within this specialization with CS advisor approval.

CS courses at the 400-level and above are normally restricted to CS Majors. Non-majors may register for such courses only with the specific permission of the specific course Instructor.

Graduate Programs

The Department of Computer Science offers graduate study leading to the Master of Science in Computer Science, and Doctor of Philosophy in Computer Science. We also offer, jointly with Justice Sciences, a Master of Science degree in Computer Forensics and Security Management. Further information may be obtained from the department or the UAB Graduate School Catalog.

Advanced undergraduates with a CS GPA of 3.0 or better may take graduate courses with the permission of the instructor.

Accelerated Master of Science Program

The Department of Computer Science offers an opportunity to earn a B.S. and an M.S. degree in a total of five years. This program offers qualified students mentorship during undergraduate study. The student works closely with a faculty member in an area of intensive research that prepares the student for a Ph.D. degree program in computer science or a future career in computer science. Admission to the program requires a minimum 3.5 GPA, three letters of recommendation from faculty, including one from their mentor, and an interview with the admissions
committee. Students should apply for entrance into the accelerated M.S. program by the end of their sophomore year. If the student does not enter with AP credits, it may be necessary to take some summer courses. For additional information, please contact Dr. Chengcui Zhang, Graduate Program Director, at (205) 934-2213 or czhang02@uab.edu.

UABTeach

The CS Department participates in UABTeach (https://www.uab.edu/uabteach). For more information, see the UABTeach (https://www.uab.edu/uabteach) website at https://www.uab.edu/uabteach/.

Bachelor of Arts with a Major in Computer Science

Requirements | Hours
---|---
A grade of C or better is required in all of the following courses. At least 12 hours of CS courses at the 200-level or above must be taken at UAB.

Mathematics Requirement
- MA 125 Calculus I | 4

Required CS Courses
- CS 103 & 103L: Introduction to Computer Science in Python and Introduction to Computer Science in Python Lab | 4
- CS 203 & 203L: Object-Oriented Programming and Object-Oriented Programming Lab | 4
- CS 250 Discrete Structures | 3
- CS 303 Algorithms and Data Structures | 4
- CS 330 Computer Organization and Assembly Language Programming | 3
- CSA 499 Senior BA Capstone | 3

Complete one of the following courses:
- CS 420 Software Engineering
- CS 433 Operating Systems

CS Electives | 12
Select four courses in Computer Science (CS), each course at the 200-level or above, and each course at least 3 hours. One of these 4 courses must be at the 400-level or above.

A minor is required
If a student completes a double major, the minor requirement is waived.

Total Hours | 40

1 Students may take a maximum of 3 hours combined of the following independent study courses: CS 398 CS 399, CS 496.

Bachelor of Science with a Major in Computer Science

Requirements | Hours
---|---
Mathematics Requirements | 1, 2
- MA 125 Calculus I | 4
- MA 126 Calculus II | 4
- Select two of the following: 6-7
  - MA 227 Calculus III
  - MA 252 Introduction to Differential Equations
  - MA 260 Introduction to Linear Algebra
  - MA 360 Scientific Programming 3
  - MA 361 Mathematical Modeling
  - MA 434 Algebra I: Linear
  - MA 440 Advanced Calculus I

MA 444 Vector Analysis
- MA 445 Complex Analysis
- MA 463 Operations Research I
- MA 470 Differential Geometry
- MA 472 Geometry I
- MA 485 Probability

Natural Sciences Requirement | 12
12 semester hours are required in two different laboratory sciences. These 12 hours must include one of the following two-course sequences, and all 12 hours must be chosen from the following courses:
- BY 123 Introductory Biology I & BY 124 and Introductory Biology II
- CH 115 General Chemistry I & CH 116 and General Chemistry I Laboratory
- CH 117 General Chemistry II & CH 118 and General Chemistry II Laboratory
- PH 221 General Physics I & PH 222 and General Physics II

Required Computer Science Courses | 1
- CS 103 Introduction to Computer Science in Python | 4
- CS 203 Object-Oriented Programming | 4
- CS 250 Discrete Structures | 3
- CS 303 Algorithms and Data Structures | 4
- CS 330 Computer Organization and Assembly Language Programming | 3
- CS 350 Automata and Formal Languages | 3
- CS 355 Probability and Statistics in Computer Science | 3
- CS 401 Programming Languages | 3
- CS 420 Software Engineering | 3
- CS 433 Operating Systems | 3
- CS 499 Senior BS Capstone | 3

Electives
Complete twelve hours in Computer Science courses at the 300-level or above. A maximum of 3 hours combined of the following independent courses may be taken: CS398, CS399, CS496. A maximum of two of the following courses may be used:
- EE 337 Introduction to Microprocessors
- EE 452 Digital Systems Design
- MA 360 Scientific Programming 3
- MA 361 Mathematical Modeling
- PHL 372 Minds and Machines

If taking the Computer Networking specialization, the twelve hours in electives must be chosen from the following list:
- CS 334 Networking
- CS 336 Network Security
- CS 410 Database Application Development
Additional Requirements

General Electives

Students must take general electives to reach the 120 semester hour requirement. These must include CMST 101 Public Speaking and PHL 115 Contemporary Moral Issues.

Total credit hours: 120

Note: A student who takes CS 330 as the elective will be ready to apply directly to the CS M.S. program.

GPA Requirement and Residency

A student must have at least a 2.0 average in all CS courses attempted and a 2.0 average in all CS courses taken at UAB. The current UAB course repeat policy will be used in calculating the grade point average. A minimum of six semester hours in the minor must be taken at UAB. Transfer students should be aware of the Department of Computer Science’s policy regarding transfer credit.

Honors Program: Computer Science

Purpose

The Computer Science Honors Program offers outstanding, highly motivated students the opportunity to develop research skills in preparation for graduate work or a professional career.

Eligibility

In order to be accepted into the Computer Science Honors program, a student must:

- have earned a 3.5 GPA in computer science (CS) courses;
- have earned a 3.0 GPA overall;
- have completed 18 semester hours in CS courses;
- have arranged with a faculty sponsor in Computer Science to do a research project.

Requirements

Students in the Computer Science Honors Program will be required to have the following:

- during their first semester in the honors program, enroll in exactly 1 semester hour of Undergraduate Honors Research (CS 398), during which a formal research proposal will be developed and submitted, including an introduction, proposed methods, and relevant literature citation
- a total of 3 semester hours in Undergraduate Honors Research (CS 398) with each semester hour involving a minimum of three hours of laboratory work per week during the semester of enrollment;
- a formal written report in the form of a scientific paper; and
• an oral or poster presentation at a Computer Science departmental seminar.

In some instances, it will be recommended or required that Computer Science Honors students give a formal presentation of their work at a scientific meeting.

Benefits
In addition to the educational and career benefits of participating in the Computer Science Honors program, students who complete the program will graduate “With Honors in Computer Science.”

Contact
For more information and/or admission to the Computer Science Honors program, contact:

Dr. John K. Johnstone
1300 University Blvd. Room 125, Campbell Hall
Birmingham, AL 35294-1170
Telephone (205) 975-5633
E-mail: jkj@uab.edu

Department of Criminal Justice

Chair: Dr. Jeffery Walker

The Department of Criminal Justice offers programs of study leading to a Bachelor of Science in Criminal Justice (BSCJ), a Master of Science in Criminal Justice (MSCJ), a joint Bachelor of Science in Digital Forensics (BSDF), a Master of Science in Forensic Science (MSFS), a joint Master of Science in Criminal Justice/Master of Science in Public Administration (MSCJ/MPA.), a joint Master of Science in Computer Forensics and Security Management (MSCFSM). The Department also offers undergraduate minors in Forensics Science, Legal Affairs, and a joint minor in Forensic Psychology. The department also sponsors category “A” and “B” graduate Certificate Programs in Computer Forensics.

Bachelor of Science with a Major in Criminal Justice

The program leading to the Bachelor of Science in Criminal Justice offers students broad academic exposure to the fields of criminal justice and criminology, and while providing opportunities for students to take courses in computer forensics/cybercrime and forensic science. The primary mission of the program is to educate students by developing in them the knowledge and skills necessary to be successful in the field of criminal justice, including:

1. Major theoretical explanations of crime/delinquency.
2. The logic and procedures associated with the research process, including understanding statistical analysis.
3. The substantive, procedural, and operational aspects of the criminal justice system and its processes.
4. The ethical foundations for the system.

Each of these areas is developed through activities associated with specific courses in the curriculum as well as through an Internship/Capstone experience during the student’s senior year.

Undergraduate students interested in Forensic Science should consult the MSFS Program Director to learn more about the field. Students interested in the Legal Affairs minor should contact the Department Chair. Students interested in the Bachelor of Science in Digital Forensics or Forensic Psychology minor should contact the Department Chair.

Internship & Capstone
Select one of the following:

- CJ 497 Internship and Capstone in Criminal Justice for Practitioners 3-6
- CJ 499 Internship and Capstone in Criminal Justice 3-6

Statistics Requirement
Select one of the following:

- CJ 120 Introduction to Statistics 3
- MA 180 Introduction to Statistics
- SOC 310 Sociological Literacy
- PY 216 Elementary Statistical Methods

Electives (must include at least 3 hours at 400-level) 12

Total Hours 48-54

Grade and Residency Requirement
A grade of C or better is required in all Justice Science courses. At least 3 hours must be taken at the 300 level or higher and 9 hours must be taken at the 400 – level or higher. Students must have a 2.3 cumulative GPA prior to applying for their Internship.

Additional Requirements

Minor
A minor is not required for this degree. Students are encouraged to take a minor in an area related to crime and justice. Contact the criminal justice advisor for more information about minors.

General Electives
Students must take general electives to reach the 120 semester hour requirement.

2 Select One: EH 216, EH 217, EH 218, EH 221, EH 222, EH 223 or EH 224.
3 Select One: ARH 101, ARH 203, ARH 204, ARH 206, MU 120, TH 100, THR 105 or THR 200.

GPA Requirement: A C or better is required in all courses applied to the minor.

Legal Affairs Minor (18 Semester Hours)
The minor in Legal Affairs is designed to help students learn to think both critically and creatively about law, rather than to specifically prepare them for law school. Because the program is interdisciplinary and presents law as the subject of liberal inquiry, students in the program examine law from various perspectives. The minor exposes students to both general and specific aspects of both substantive and procedural law – civil and criminal; and helps them understand not only litigation, but alternatives to it.

Minor in Legal Affairs
Requirements Hours
Required Courses
CJ 150 Foundations of Law 3
CJ 230 The Judicial Process in America: An Overview 3
Core Electives
Select three of the following courses: 9
CJ 330 Criminal Law
CJ 331 Criminal Procedure
CJ 332 Criminal Evidence
CJ 333 Trial Advocacy
CJ 413 The Legal Profession
CJ 434 Mock Trial Competition
CJ 444 Law and Society
PSC 261 Law and Society
PSC 270 Law and Film
PSC 380 The Politics of Constitutional Law
PSC 381 The Bill of Rights
PSC 430 American Constitutional Law I
PSC 465 International Law

Additional Electives
Select one of the following: 3
AC 473 Fraud Examination
EC 302 Law and Economics
EC 450 Economics, Institutions & Law
IS 472 Forensic Accounting and Information Tech Auditing
LS 246 Legal Environment of Business
LS 471 Legal Elements of Fraud Investigation
MG 413 Employment Law
PHL 120 Practical Reasoning
PHL 135 The Rule of Law
PHL 220 Introduction to Symbolic Logic
PHL 320 Intermediate Symbolic Logic
PHL 435 Philosophy of Law
PY 125 Introduction to Forensic Psychology
Minor in Forensic Science

Students must have completed prerequisite courses before taking some of the courses. A grade of “C” or better is required for all courses.

Transfer Students must earn at least 9 hours of PY or CJ credit at UAB, 6 hours of which must be at the 300 level or higher.

Minor in Forensic Psychology

Forensic Psychology is the professional practice by psychologists within the areas of clinical psychology, counseling psychology, neuropsychology, and school psychology, when they are engaged regularly as experts in an activity primarily intended to provide professional psychological expertise to the judicial system. Forensic psychologists work with individuals who may present a variety of mental health issues within the context of the criminal law (e.g., personal injury suits, civil commitment proceedings, child custody disputes, or workers’ compensation cases) and criminal law (e.g., insanity, competency to stand trial, assessment of future violence potential, or treatment of sex offenders). The minor is co-sponsored by the Department of Criminal Justice and the Department of Psychology, and is intended to expose students with an interest in forensic psychology to a broad-based overview of the field. A total of 24 semester hours is required to complete the minor.

Honors Program in Criminal Justice

Purpose

The Criminal Justice Honors Program encourages and prepares outstanding students to pursue a career in the field of Criminal Justice by providing an opportunity to undertake projects under the guidance of faculty mentors. The program promotes initiative, creativity, and independent thinking among academically talented students.

Eligibility

Students are admitted to the Honors Program based on an evaluation conducted by the Honors Program Coordinator and a committee of faculty members. Students seeking admission to the Honors Program must:

- Be a second freshman.
- Have a cumulative GPA of 3.25 or higher and a GPA of 3.25 or higher in all Justice Sciences courses attempted.

Benefits

Participation in the Criminal Justice Honors Program provides opportunities for academically talented students to have unique access to faculty and to interact with other honors students in an environment that encourages creative and innovative thinking. Completion of the honors program is advantageous when applying to graduate programs in the field. Students who complete the program will graduate from UAB “With Honors in Criminal Justice.”

Requirements

Requirements for the Honors Program include completing the remainder of the students’ elective courses for the Criminal Justice major and being active in the Criminal Justice Student Association and in Honors Program activities.

Selected junior or senior students in the Honors Program may be invited by faculty members to complete a senior project. This will require taking JS 481 Honors Research (Fall semester) and JS 482 Honors Research and Colloquium (Spring semester), completing the Honors Research Project, and presenting the results of the project at the Department’s Honors Research Colloquium. Students are also encouraged to present the results at an undergraduate conference or at professional conference, such as the Annual Meetings of the Southern Criminal Justice Association.
Contact
For additional information on the Criminal Justice Honors Program, please contact
Professor Martha Earwood
Department of Criminal Justice

Department of English
Chair: Alison Chapman
Director, Graduate Studies: Kyle Grimes
Director, Undergraduate Studies: Daniel Siegel
Director, Creative Writing Program: Kerry Madden-Lunsford
Director, Freshman Composition and Developmental Program: Christopher Minnix
Director, Professional Writing: Bruce McComiskey
Director, Linguistics: David Basilico
Director, Departmental Honors: Adam Vines
Director, Internships: Cynthia Ryan

The Department of English offers programs of study leading to the degree of Bachelor of Arts with a major or minor in English. The department offers four tracks to the English major: an English major with a concentration in literature, an English major with a concentration in professional writing, an English major with a concentration in creative writing, and an English major with a concentration in linguistics. The department offers four different minors: a minor in English literature, a minor in professional writing, a minor in creative writing, and a minor in linguistics. The Department of English also offers courses leading to the Master of Arts degree in English. Further information about the department and its programs may be obtained from the department website (http://www.uab.edu/cas/english) or the department office; information on the graduate program may also be found in the UAB Graduate School Catalog.

English Literature
The study of English literature challenges students to develop their skills in reading, critical analysis, and written expression and also to develop a deeper appreciation of the aesthetic and historical contexts in which authors wrote. Students may pursue a concentration in literature within the English major or a minor in literature.

Creative Writing
Students may pursue a concentration in creative writing within the English major or a minor in creative writing, taking workshops in poetry, fiction, creative nonfiction, and writing for young people; one forms class; and special topics in creative writing.

Linguistics: Interdisciplinary Program
Students interested in a concentration in linguistics within the English major or a minor in linguistics are invited to participate in an interdisciplinary program. The linguistics concentration and minor are designed for students interested in careers represented by the participating disciplines that might involve detailed knowledge of natural or artificial languages. Note that the program is not necessarily one for “people who speak a lot of languages,” but rather is intended for students interested in the structure and function of language. Students should consult the program director for advising.

Professional Writing
Students interested in non-fiction writing for corporate and public life may pursue a concentration in professional writing within the English major or a minor in writing.

1. Completing this requirement will automatically satisfy the Core Curriculum Area II: Literature requirement.
2. All Creative Writing students are encouraged to take EH 376, Shakespeare, or EH 476, Shakespeare.
3. Students may petition the Director of Creative Writing to allow one relevant course in English or a related discipline to count toward this requirement. Examples include, but are not limited to, EH 311, English Internship; THR 215, Playwriting I; and THR 216, Screenwriting I.
4. Both EH 411, Capstone Internship, and EH 495, Honors Capstone Thesis, must be approved. Students should complete this requirement in their final year.

Additional Requirements
- Students majoring in English must achieve a grade of C or higher in all courses applied toward the major requirement.
- Fifteen semester hours of English courses at the 300 and 400 levels must be taken at UAB.
- Eighteen semester hours of English courses must be at the 400 level.
- A single course may not count toward more than one departmental requirement.

1. Must be approved: LING 393/EH 393, LING 493/EH 493, LING 494/ANTH 494 & LING 495/ANTH 495.
2. Students may petition the Program Director to have one relevant non-Linguistics course in English or another discipline that does not appear on this list count toward this requirement.

Honors in English

Purpose
The English Honors program is designed for outstanding English majors. In their senior year, qualified students write a Senior Thesis under the supervision of an Honors Thesis Committee.

Benefits
Benefits of participating in the Honors Program in English include individual mentoring by exceptional faculty and useful practice in undertaking extended work in the area of English, American, African American, and world literatures; creative writing; linguistics; or professional writing and rhetoric. Writing the thesis gives students the chance to work one-on-one with outstanding research faculty in all fields of English study. Our honors students thus gain valuable writing and critical experience, personalized writing instruction, and the opportunity to acquire especially strong letters of recommendation from committee members. Students completing the program are recognized at the English Department Awards Reception and will graduate from UAB "With Honors in English" at their UAB commencement.
Eligibility

To be eligible for the Honors Program in English, a student must be enrolled as a UAB English major, have earned a 3.5 GPA in English courses taken and a 3.0 GPA overall, and have completed EH 301 Reading, Writing, and Research for Literature Classes.

Requirements

Qualified students electing to enter and complete the Honors Program in English must do the following:

• Submit a completed English Honors Program application form to the Director of Departmental Honors for approval. Students must secure permission of the Director in order to enter the English Honors Program.
• Select a member of the English graduate faculty to serve as a faculty mentor and one other member of the English graduate faculty to serve with that mentor and the Director on the Honors Thesis Committee.
• Fill out a Senior Thesis Committee Form and give it to the Director for approval.
• Enroll in EH 494 English Honors Research and EH 495 Honors Capstone Thesis in consecutive terms.
• During EH 494 English Honors Research, write a thesis proposal and have it approved by the Honors Thesis Committee. Once approved, a copy of the proposal should be given to the Director.
• During EH 495 Honors Capstone Thesis, write the thesis under the committee’s guidance.
• Obtain final approval of the senior thesis from all members of the Honors Thesis Committee.
• Complete a final, one-hour public defense of the thesis.
• Students who earn an A in EH 495 will graduate with Departmental Honors. Students who earn a B or C will not graduate with Departmental Honors but will still fulfill the capstone requirement.

Contact

Program descriptions are available from the department website (www.uab.edu/cas/english) or the department office.

Internships in English

The English Department, in cooperation with university-wide and off-campus partners, offers its majors and minors internship experiences that enhance their attractiveness to prospective employers. Many internships have resulted in part-time or full-time employment after the semester has concluded. Within the English department, opportunities include assisting the editors of PMS: poemmemoirstory and Birmingham Poetry Review. Students also intern in other parts of the university; past collaborations have included the School of Education and UAB Health Systems Marketing. Organizations within the Birmingham community specializing in magazine and book publishing, non-profit fund raising, and business communications round out possibilities for acquiring the practical experience that will enhance students’ resumes while helping them to build a professional portfolio demonstrating their knowledge and skills.

English majors interested in internships should meet with Dr. Cynthia Ryan, Director of Internships, to discuss eligibility requirements and available internship opportunities. Students accepted for internships enroll in either EH 311 or EH 411. EH 311 requirements include at least the following: performance of 10-15 hours of research or publications activities per week, as defined by the on-site supervisor, completion of journal entries that draw on the intern’s experiences, and completion of a written report addressing an aspect of the internship approved by Dr. Ryan in consultation with the student. On-site supervisors also provide written evaluations of interns, feedback that can assist students as they pursue careers following graduation. EH 411 satisfies the Capstone requirement for the major and involves more academic work, including more extensive journal assignments, regular meetings with the Director and other EH 411 students, participation in discussion sessions with scheduled speakers, and a final professional portfolio and exit interview. Students who wish to enroll in EH 411 should be late-term juniors or seniors. Internships are graded classes, and final grades are based on the student’s work ethic and written work and are determined by the Director in consultation with the student’s on-site internship supervisor.

Eligibility and Procedures

Students must meet the following requirements to be eligible for an English internship:

• Must be enrolled full-time as English majors or minors at UAB
• Must have a minimum overall GPA of 3.0 or higher for an off-campus internship or an on-campus research internship, and a 2.5 overall GPA or higher for a publications internship
• Must have at least junior standing or the equivalent course credits
• Must be approved for the internship by the Director of Internships
• Must be able to work the required number of hours (10-15) to fulfill commitments to the employer
• If awarded an internship, must enroll in EH 311 or EH 411 for the internship semester and—under the supervision of the Internship Director—must fulfill all requirements for that course.

Students who qualify for English internships should follow these procedures:

• Make an appointment with the Director of Internships, Dr. Cynthia Ryan, at the beginning of the semester prior to the semester in which you hope to hold an internship.
• Following the meeting, complete the Internship Application Form, available from the Director of Internships or from http://www.uab.edu/cas/english/student-resources/undergraduate-students/internships
• Stay in contact with the Internship Director for information about scheduling interviews with potential employers and prepare — with the assistance of the Internship Director — for interviews.
• Once accepted by the on-site supervisor for an internship, contact the Internship Director to enroll in EH 311 or EH 411.

Questions:

For more information about the Internship program in English, contact Dr. Cynthia Ryan at cynryan@uab.edu. HB211, (205) 934-8600.

Department of Foreign Languages and Literatures

Chair: Dr. Julian Arribas

The Department of Foreign Languages and Literatures offers a multifaceted foreign language program that will meet the diverse global challenges facing students of the 21st century. The Department offers programs of study leading to the degree of Bachelor of Arts in Foreign
Languages with concentrations in French and Spanish. The Department offers minor programs in Chinese, French, German, Japanese, Spanish and Spanish for Business, as well as a Certificate of Spanish for Specific Purposes. There are also opportunities for students to take courses in Arabic, Italian, Portuguese, and courses about foreign cultures and literatures in English. Additional courses in foreign languages may be taken through the Birmingham Area Consortium for Higher Education (BACHE). Promoting a comprehensive view of foreign cultures, languages and literatures enhances the students' ability to compete in the job market and/or pursue graduate or professional studies.

Our programs are rooted in diversity within and across cultures, and foster the international exchange of knowledge and information between humanities scholars, teachers and other professionals. Our instructional methods are aligned with national standards. The foreign language experience at UAB includes classroom learning, scholarship and research, experiential learning, and extracurricular opportunities.

The UAB Department of Foreign Languages and Literatures offers traditional language, culture, civilization, linguistics and literature classes and also enrolls students in such fields as literature in translation, film and cultural studies, foreign media and society, US Latino topics, applied linguistics and languages for the professions.

The Department also offers an Honors Track Program and internships in Foreign Languages to students in Spanish for Specific Purposes, and for qualified majors with Departmental approval. Furthermore, we promote and sponsor opportunities for study abroad in conjunction with UAB Education Abroad programs. UAB Distinguished Professor Emeritus of French, William C. Carter has built one of the world's largest collections of books by and about French author Marcel Proust. The collection is housed on campus in Mervyn H. Sterne Library and includes original letters and other documents.

For more information about our programs, online placement exams, internships, events and sponsored study abroad opportunities, visit the Department of Foreign Languages and Literatures web site at http://www.uab.edu/cas/languages/.

Language Placement
To assure that students taking foreign language courses are properly placed, all students must take a placement exam in the language before enrolling in foreign language classes. Students enrolling in Arabic, Chinese, Italian, Japanese, and Portuguese will work directly with designated foreign language faculty members to ensure proper placement. Placement exams in French, Spanish, and German are available online at the Department of Foreign Languages and Literatures web site: https://www.uab.edu/cas/languages/student-resources/placement-tests. The level at which native/heritage language speakers may begin formal language study will be determined by the appropriate foreign language advisor after the student has taken the online placement exam. Exceptional native/heritage language students may apply for Credit by Examination (CBE). The College Level Examination Program (CLEP) is available in French, German, and Spanish.

Major
The Department of Foreign Languages and Literatures offers programs of study leading to the degree of Bachelor of Arts in Foreign Languages with concentrations in French and Spanish. Students who major or minor in foreign languages are encouraged to consult the Department web page to identify the appropriate departmental advisor to assist in formulating an individual program of study.

The foreign language major requires completion of the introductory sequence (Introductory French I and II or Introductory Spanish I and II) or the equivalent.

Concentration in French
The French concentration/track at UAB offers an articulated approach to the study of the French language and the culture, civilization and literature of the French-speaking world. Literacy skills and understanding (e.g., reading, writing, speaking) are developed throughout the course of study, as is the nurturing of critical and analytical skills. Majors will leave the program with the ability to engage in critical and cross-cultural analysis. Students have the opportunity to do in-depth work in special topics seminars (e.g., Advanced Grammar, French Civilization, Contemporary France, French Film, Fin-de-siècle Literature, Francophone literature and current issues.) Typically, French concentration majors have more than one major or a complement of minors to facilitate the applied aspect of language study (e.g., pre-health, education, art, anthropology, communication studies, business, criminal justice). Students graduating from UAB with a concentration in French have gone on to graduate or professional school and/or employment in such fields as business, education, government, industry, international relations, law, public health, medicine, hotel and restaurant management and publishing.

The French concentration has opportunities for community outreach activities (e.g., internships, service learning) in Alabama, and has diverse study abroad opportunities from which to choose. We work very closely with students to personalize their studying experience. We also help them to find ways to enhance their language and culture skills through unique experiences abroad (e.g., application for French government youth grants and internships, teaching exchanges).

The Department recommends students to enroll in more than one language to learn about varied linguistic structures and receive a broader cross-cultural perspective.

Concentration in Spanish
The Spanish concentration/track at UAB offers an articulated approach to the study of the Spanish language and the culture, civilization and literature of the Spanish-speaking world. Literacy skills and understanding (e.g., reading, writing, speaking) are developed throughout the course of study, as well as the nurturing of critical and analytical skills. Majors will leave the program with the ability to engage in critical and cross-cultural analysis. Students have the opportunity to do in-depth work in special topics seminars like Afro-Hispanic writers, Hispanic and Latino topics, peninsular film applied linguistics, and social linguistics. Typically, Spanish concentration majors have more than one major or a complement of minors to facilitate the applied aspect of language study (e.g., pre-health, nursing, education, anthropology, communication studies, business, and international studies). Students graduating from UAB with a concentration in Spanish have gone on to graduate or professional school and/or employment in such fields as business, education, government, industry, international relations, law, medicine, publishing, translation, and interpretation.

The Spanish concentration major has significant opportunities for community outreach activities (e.g., internships, service learning) in
Alabama, and has diverse study abroad opportunities from which to choose.

The Department recommends students to enroll in more than one language to learn about varied linguistic structures and receive a broader cross-cultural perspective.

**Concentration in Applied Professional Spanish (APS)**

The concentration/track in Applied Professional Spanish at UAB is a program intended to prepare students (specially as a double major) to develop the necessary communicative skills and cultural knowledge to serve the needs of the U.S. Hispanic community in professional settings (such as health care, business and management, social work, criminology, education, translation, and interpretation) and better prepare students for a career with an international scope. This carefully-designed, progressive coursework is a combination of professionally-focused Spanish courses, advanced Spanish linguistics courses, contemporary Hispanic culture courses, and practical experience (service learning and internship). While maintaining a firm Humanities foundation within the tradition of the Liberal Arts, the overarching goal of the APS program is to enhance students’ professional preparation for a global job market as well as for domestic positions that require proficiency in Spanish and understanding of U.S. Hispanic culture. Courses are offered in various formats (seated, online, hybrid) and schedules (morning, afternoon, and evening) to accommodate both regular and returning students with a full-time job.

**Minor**

Twelve semester hours at the 200 level or above are required for the minor in Chinese, French, German, Japanese, Spanish, or Business Spanish. No course in which a grade below C has been earned may be counted toward the minor requirement. The Department of Foreign Languages and Literatures strongly recommends that more than half of student course work for the minor be completed on the UAB campus. Students that transfer courses from non-UAB programs into the UAB minor programs will be examined for placement and proficiency level. At least 6 hrs. of the credits applied toward the minor must be taken at UAB. Exceptions to this rule can be granted with the permission of the Chair.

**Foreign Language Media Services**

The computer-based Foreign Language Media Services (FLMS) at UAB enables students, faculty and community users to access and utilize foreign languages and cultures in a digital environment in order to provide multi-dimensional learning and research opportunities. The FLMS plays an integral role in the activities and services of the UAB Department of Foreign Languages and Literatures and also serves as a support center for the University. The FLMS enables the UAB Department of Foreign Languages and Literatures to respond to the demand for additional language resources, the requirements for a wider range of tasks being performed in the languages, a greater number of language learners of different types and a broader array of instructional modes.

For more information about FLMS, online placement exams and internships, visit the Department of Foreign Languages and Literatures web site: http://www.uab.edu/cas/languages/.

**Foreign Language Education**

The Department of Foreign Languages and Literatures offers graduate foreign language classes regularly. The Department of Foreign Languages and Literatures provides content courses and collaborates on advising for graduate degrees in foreign language education. Students interested in seeking one of the graduate degrees in foreign language education should contact the UAB Department of Curriculum and Instruction (School of Education).

**Bachelor of Arts with a Major in Foreign Languages (Concentration in French)**

*At least 18 credits must be taken at UAB*

Spanish for Specific Purposes

The Department of Foreign Languages and Literatures offers a Spanish for Specific Purposes (SSP) Certificate. The certificate is built upon the existing Spanish program and course offerings with modifications and additions. The courses are designed for traditional as well as non-traditional candidates. The objective of this certificate is not only to fulfill UAB degree candidates' academic and future needs, but also to reach out to local professionals. The courses are content-, vocabulary-, and culture-based. Students learn the vocabulary, language and cultural background that they will use in their professional field through extensive practice in class and beyond the classroom as well. Upon successful completion of the program, candidates will receive an official UAB Certificate of Completion, which will also be recorded on their transcript.

Candidates who wish to obtain a UAB Spanish for Specific Purposes Certificate must fulfill the following requirements:

1. Have the Spanish prerequisites specific to each SSP class.
2. Enter with and maintain a minimum 2.8 GPA in Spanish courses.
3. Submit an application online following the link provided below and receive formal acceptance to the SSP program.
4. Obtain a B grade or above in all SSP courses.
5. Complete a minimum of 18 credit hours of SSP classes (6 courses) in the UAB Department of Foreign Languages and Literatures, of which a minimum of 12 credits (4 courses) must be at the 300 level (SPA 304, FLL 333, and two other 300 level SPA courses).
6. Complete a successful SSP Service Learning course (FLL 333, 3 credit hours) as part of the 18 credit hour requirement.
7. Upon completion of the program, take the Oral Proficiency Interview by computer (OPIc) in Spanish and earn the performance rank of Intermediate-Mid or above.
8. Have a minimum of 12 credit hours of successful college level work (grade C or above in all courses), with the following distribution (minimum): at least 6 credit hours in Area 1 (English Composition), at least 3 credit hours in Area 2 (Arts and Humanities), at least 3 credit hours in Area 4 (Social Sciences) (non-degree-seeking candidates only).

For detailed information about the SSPC courses, registration process and procedures, a downloadable registration form and other updates, please visit our web site at http://www.uab.edu/cas/languages/

Honors in Foreign Languages

Purpose

The Foreign Languages Honors Program is designed for qualified, self-motivated foreign languages majors. Through special course distribution and credit hours requirements, as well as a directed honors thesis, students are prepared for in-depth foreign language research and related graduate or professional opportunities.

Eligibility

Acceptance into the Foreign Languages Honors Program requires the student to:

- Be a Foreign Languages major
- Have at least sophomore standing
- Have at least 6 hours at the 300-level in UAB foreign languages courses
- Have at least a 3.25 GPA in UAB foreign languages courses
- Have at least an overall 3.0 GPA
- Have submitted a Formal Application for the Foreign Languages Honors Program to the Department Chair or have been recommended to the program by a member of the department.

Requirements

- Completion of required courses for the Foreign Language major
- Submission of a formal project proposal to DFLL faculty Mentor and DFLL Chair
- Agreement and acceptance by a DFLL faculty Mentor and DFLL Chair of a research project
- Constitution of a former Honors Committee with membership that consists of the DFLL faculty Mentor and two faculty Consultants
- Registration for 3 credit hours of FLL 410
- Public Defense of the research project
- Acceptance of the completed project by the student's Honors Committee
- Submission of an archival copy of the completed project signed by the Honors Committee to the office of the DFLL

Contact

For more information and/or admission to the Foreign Languages Honors Program, please contact:
Chair of the Department
Department of Foreign Languages and Literatures
Humanities Building 407

Department of Political Science and Public Administration

Interim Chair: Dr. Angela Lewis

The Department of Government offers programs of study leading to the Bachelor of Arts degree in political science and the Master of Public Administration degree.

Political science is concerned with the observation and comprehension of government in human society. The curriculum in political science provides selective opportunities to study systematically and critically American government and politics, to compare various national political systems, to investigate conflict and cooperation among nation-states, to explore the historical development of political theory, analyze the organization and management of public affairs, and to master the methods of political research.

The political science major is an appropriate background for careers in law; social science teaching; state, local, and federal government;
foreign diplomacy and international affairs; journalism; campaigns and electioneering; non-profit advocacy; and political research.

**Bachelor of Arts with a Major in Political Science**

A grade of C or better is required in all Political Science courses. In fulfilling the requirements below, students must have 17 hours at the 300-level or above, 9 of which must be at the 400 level.

**Political Science Electives**

Select 9 credit hours in Political Science (PSC)

| Total Hours | 36 |

1. Completing PSC 101, PSC 102, and PSC 103 will automatically satisfy nine hours of Core Curriculum Area IV.

2. Students must complete 9 hours of the major classes at the 400 level.

**Additional Requirements**

A minor is required for this degree.

Students must take general electives to reach the 120 semester hours requirement.

**Total Hours:** 18

1. PSC 101 may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.
2. PSC 102 and PSC 103 may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.
3. PSC 221 will count toward this requirement and may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.

### Honors Program in Political Science

#### Purpose

The Political Science Honors Program is designed to provide outstanding political science majors with the opportunity for advanced study of the political process. Honors students have the opportunity to complete an independent research project while working closely with a faculty member. The advanced study provided by the honors program accelerates a student’s preparation for graduate or professional training.

#### Eligibility

Criteria for entering freshmen are:

- A 3.25 high school GPA and ACT composite score of 20 (or equivalent SAT score).
- Declaration of political science as the student’s major.
- A letter of intent.

Criteria for students already enrolled at UAB or transfer students are:

- Completion of nine semester hours of political science.
- A 3.0 cumulative GPA and a 3.25 GPA in political science (and maintenance of these minima).
- Declaration of political science as the student’s major.
- A letter of intent.

**OR**

- Junior standing.
- Completion of nine semester hours of political science.
• A 3.0 cumulative GPA and a 3.25 GPA in political science courses in the last 30 percent of coursework attempted (and maintenance of these minima).
• Declaration of political science as the student’s major.
• Letter of intent.
• Faculty approval.

Requirements
Students in the Political Science Honors Program are required to do the following:

• Enroll in the Honors Program (replaces the requirement for a specialization).
• Complete one of the following advanced seminars:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSC 401</td>
<td>3</td>
</tr>
<tr>
<td>PSC 402</td>
<td>3</td>
</tr>
<tr>
<td>PSC 403</td>
<td>3</td>
</tr>
<tr>
<td>PSC 404</td>
<td>3</td>
</tr>
</tbody>
</table>

• Enroll in three semester hours of PSC 497 after completion of the advanced seminar for advanced research in the selected subfield.
• Prepare an advanced research project (after completion of PSC 497), which will lead to the development of a substantial research paper and, in some cases, a senior thesis.
• Present research project findings to a colloquium of other PSC 497 students and department faculty.
• Participate in Pi Sigma Alpha, the national political science honor society.

Benefits
Honors students will benefit from one-on-one mentoring with faculty in the department, which will lead to a more thorough understanding of the field and practice of political science. This is particularly useful as students choose career goals, such as graduate school, law school, public service, the foreign service, or other opportunities. Additionally, students who complete the program will receive a certificate at the annual UAB Honors Convocation and will graduate “With Honors in Political Science.”

Contact
For more information and/or admission to the Political Science Honors Program, contact the Political Science Program Director, 414 Heritage Hall, Birmingham, AL 35294-1152; Telephone (205) 934-9680.

Department of History
Interim Chair: Dr. John Van Sant

The Department offers the Bachelor of Arts degree and the Master of Arts degree in History. The department also includes the Media Studies program (formerly known as Digital Community Studies Program) which offers a minor.

In its broadest sense, the discipline of history provides the background for all other subjects and disciplines. The classical goal of self-knowledge can be enhanced through the study of history. The analytical study of history provides an understanding of “why we are what we are” and “how we came to be where we are today.” The purpose of historical study is not only an understanding of our own past and present, but an appreciation of the evolution of other cultures, civilizations, and nations.

Students interested in careers in the fields of law, teaching, public service, international affairs, business, journalism, and a variety of other areas involving the social sciences and humanities will find the history major beneficial and rewarding.

The Media Studies Program offers a minor for students interested in opportunities for applied research in local communities through the use of new media technology. The minor provides students a solid grounding in the history, theory, and practice of documentary film, film history, oral history, ethnography, community studies, and media theory. Students will gain experience in community-based research, as well as attain proficiency in various new media technologies.

Bachelor of Arts with a Major in History
A grade of C or better is required in all History (HY) courses.

History Electives
Select seven courses in History (HY) not listed above, including three at the 400-level and two at the 300-level or above. Students must take two of their electives in U.S. history and two in non-U.S. history; one of the two non-U.S. history electives must be a non-Western history.

Total Hours: 39

1 Completion of this requirement will automatically satisfy Core Curriculum Area IV: History.
2 Students may not take both HY 101 and HY 104 or both HY 102 and HY 105.
3 Students may not take no more than a total of 6 semester hours of the following independent studies courses: Directed Readings in History (HY 491/HY 492) or Internship in Public History (HY 482).
4 Students must take 18 semester hours in 300- and 400-level courses at UAB.

</tr>
</thead>
</table>
| Select two of the following:  
| HY 101 | Western Civilization I  
| HY 102 | Western Civilization II  
| HY 104 | World History to 1600  
| HY 105 | World History 1600 to the Present |

### History Electives

Select six hours from 300-level or above History (HY) courses and three hours any level history.

**Total Hours**

1. May also apply toward Core Curriculum Area IV.
2. Students may not take both HY 101 and HY 104 or both HY 102 and HY 105.
3. May also apply toward Core Curriculum Area IV.

**Note:** At least 6 semester hours in history above the 300 level must be taken at UAB. No grade below C may be counted toward the history minor.

### Honors Program in History

#### Purpose

The History Honors Program is designed for outstanding history majors at UAB and allows qualified students to write a Honor’s Thesis based on original research. Faculty-led independent research for the senior thesis provides students with experience in applying historical methods and analytical writing techniques. This more advanced study helps prepare undergraduate history majors for graduate work in the field or for postgraduate training in other areas such as law, theology, and medicine. Students who complete the program will graduate “With Honors in History.”

#### Eligibility

To be eligible for the History Honors Program, students must complete at least 60 semester hours with a minimum 3.0 overall GPA and a minimum 3.5 GPA in history courses. At least 24 semester hours in the history major (including HY 300 Historian’s Craft) must be completed prior to acceptance in the Honors Program.

Interested students must apply for the program which includes submitting a prospectus with bibliography. The application must include the signature of a History Department faculty member who has agreed to direct the Honor’s Thesis. If the student is accepted to the program, the student and the thesis director will choose two additional faculty members to make up the student’s thesis committee. The thesis committee will determine whether the student’s completed thesis qualifies for honors.

#### Requirements

The History Honors Program requires 39 total semester hours in history and maintenance of an overall 3.0 GPA and a 3.5 GPA in history courses through graduation.

**Additional requirements include:**

<table>

| HY 120 | The United States To 1877  
| HY 121 | The United States Since 1877 |
five years (depending upon whether summer terms are included). As can earn a BS degree and an MS degree in mathematics in four to five years. This Fast-Track option is designed for qualified students. Through this Fast-Track option, a mathematics major can earn both degrees in four to five years. Students interested in secondary teaching certification in mathematics normally take the traditional track. Students interested in middle school teaching normally take the mathematical reasoning track. Certification courses are part of the UABTeach (https://www.uab.edu/uabteach) program.

Department of Mathematics

Chair: Dr. Rudi Weikard
Associate Chair: Dr. John C. Mayer

The Department of Mathematics offers courses in pure and applied mathematics and a major and minor in mathematics leading to employment in education, government, business, and industry. In addition, mathematics courses are offered to support programs in the physical, social, biological, and health sciences and in engineering, business, and education. Students considering a major or minor in mathematics should consult the undergraduate advisor, Dr. Hutchison, at (205) 934-2154 to arrange for counseling on career and academic objectives and program planning.

The Department of Mathematics Web site (http://www.uab.edu/mathematics/) summarizes information about the Departmental programs.

For the major there are four distinct B.S. degree tracks in mathematics:

1. Mathematics (traditional track)
2. Mathematics with Honors
3. Applied Mathematics and Scientific Computation
4. Mathematical Reasoning

Students interested in secondary teaching certification in mathematics normally take the traditional track. Students interested in middle school teaching normally take the mathematical reasoning track. Certification courses are part of the UABTeach (https://www.uab.edu/uabteach) program.

Mathematics Fast-Track Program

The Department of Mathematics has an accelerated program for qualified students. Through this Fast-Track option, a mathematics major can earn a BS degree and an MS degree in mathematics in four to five years. Fast-Track students will usually begin taking graduate mathematics courses after the third year, and are automatically admitted to the graduate program in the fourth year. Students can pursue a BS in mathematics and an MS in biostatistics by choosing the biostatistics track at the end of the third year.

Honors students may take one or two graduate seminars in history for undergraduate credit with permission of the Director of the History Undergraduate Program. This credit may not be used for graduate credit.

Contact

For additional information on the History Honors Program, contact the Department of History, Director of History Undergraduate Program or Chair; Telephone (205) 934-5634.

Course Numbering System

Mathematics course numbers indicate both the level and area of the course. The first digit (0, 1, 2, 3, or 4) indicates developmental (no degree credit), freshman, sophomore, junior, or senior level, respectively. The second and third digits indicate area, according to this scheme:

- 00–10 — Pre-calculus
- 11–19 — History of mathematics and mathematical reasoning
- 20–29 — Logic and foundations
- 30–39 — Algebra
- 40–49 — Analysis
- 50–59 — Differential equations
- 60–69 — Applications-oriented courses
- 70–79 — Geometry and topology
- 80–89 — Probability and statistics
- 90–99 — Special topics, seminars, and independent research

For example, MA 454 Intermediate Differential Equations is an advanced level differential equations course. Calculus courses (MA 125, MA 126, and MA 227) are exceptions to the area numbering scheme.

Graduate Programs

The Department of Mathematics offers graduate study leading to the degrees of Master of Science in mathematics (thesis or non-thesis option) and Doctor of Philosophy in applied mathematics. Further information may be obtained from the Graduate Program Director, or the UAB Graduate School Catalog.

See the UAB Graduate School Catalog for descriptions of graduate courses.

MA 461  Modeling with Partial Differential Equations  
MA 468  Numerical Analysis  

**Mathematics Electives and Advanced Mathematics Sequence**  
12  
Two or three electives selected from courses numbered 300 or above, each of which must have at least a calculus (MA 125) prerequisite. MA 313 counts toward the major only for students in UABTeach. MA 411 does not count toward the major. 

Choose one of the following Advanced Mathematics sequences:  
MA 434  & MA 435  Algebra I: Linear and Algebra II: Modern  
MA 454  & MA 455  Intermediate Differential Equations and Partial Differential Equations I  
MA 455  & MA 461  Partial Differential Equations I and Modeling with Partial Differential Equations  
MA 474  & MA 475  Introduction to Topology I and Introduction to Topology II  
MA 485  & MA 486  and Mathematical Statistics  
MA 485  & MA 587  Probability and Advanced Probability  

Total Hours 39

1 Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement. MA 126, MA 252 and MA 361 are all quantitative literacy (QL) and writing (W) courses. In addition, MA 125 is a QL course. UAB requires that all students complete a capstone requirement. For this track the capstone requirement is MA 441.

2 Three electives are required if MA 434/MA 435 is chosen as the advanced sequence.

**Grade Requirement**
A grade of C or better is required in each course counted toward the major.

**Minor**
- A minor is required for this degree. Those interested in secondary education can select the STEM Education minor offered by the School of Education.

**General Electives**
Students must take general electives to reach the 120 semester hour requirement

**Bachelor of Science with a Major in Mathematics and an Applied Mathematics and Scientific Computation Track**

This track aims to provide graduates with the mathematical and computational skills needed to develop and maintain mathematical models from the Sciences, Engineering, Medicine and the Biosciences, Business, and elsewhere.

A mathematical model is a rendering of some real-world system into the language of mathematics, usually taking the form of a single partial differential equation, or a system of such equations. The development of effective mathematical models is a fundamental need of our society, based as it is upon science and technology, and these models act as the indispensable link between us humans and the multitude of machines that we use to manage and investigate our world.

Total Hours 39

1 Completion of MA 125 automatically satisfies the Core Curriculum Area III: Math requirement. MA 126 and MA 252 are quantitative literacy (QL) and writing (W) courses. In addition, MA 125 is a QL course. UAB requires that all students complete a capstone requirement. For this track the capstone requirement is one of MA 455, MA 461, and MA 486.

2 MA 260 Introduction to Linear Algebra and MA 434 Algebra I: Linear cannot both be counted.

**Grade Requirement**
A grade of C or better is required in each course counted toward the major.
Minor

- A minor in the sciences, business, or engineering is required for this degree. Students in UABTeach (https://www.uab.edu/uabteach) may select the minor in STEM Education offered by the School of Education.

General Electives

Students must take general electives to reach the 120 semester hour requirement.

Bachelor of Science with a Major in Mathematics and a Mathematical Reasoning Track

The Mathematical Reasoning Track is designed to develop a deeper level of understanding of mathematical thinking, including a deepening knowledge of important mathematical ideas, understanding the role of inquiry and reflection in learning mathematics, understanding the role of cultivating a productive disposition in tackling mathematical problems, and developing the ability to communicate mathematics to audiences at different levels. In particular, this track is appropriate for students interested in pursuing certification in mathematics at the middle school level.

Mathematics Electives

Two electives selected from the following courses: MA 260 or MA 434, 6

MA 418, MA 419, MA 435, MA 472, MA 485

Total Hours: 34-35

Grade Requirements

A grade of C or better is required in each course counted toward the major. Requirements are 34-36 semester hours in mathematics with 24 at the upper level (courses numbered 300 and above). Nine hours must be taken at the 400 level.

Minor

- A minor is required for this degree. Those interested in middle school education can select the STEM Education minor offered by the School of Education.

General Electives

Students must take general electives to reach the 120 semester hour requirement.

<td>4</td>
</tr>
</tbody>
</table>

Mathematics Electives

Select nine hours from Mathematics courses numbered 200 or above.

Total Hours: 21

1 MA 125 Calculus I may also satisfy the Core Curriculum Area III: Math requirement; check the Core Curriculum for your particular major.
2 At least 6 semester hours of which must have a calculus (MA 125) prerequisite. (MA 260 Introduction to Linear Algebra and MA 434 Algebra I: Linear cannot both be counted.) MA 411 does not count toward the minor.

GPA & Residency Requirement

A minimum grade of C is required in all courses applied to the minor. A minimum of six semester hours with a calculus (MA 125) prerequisite must be completed at UAB.

Honors Program

The Mathematics Honors Program is designed for advanced, motivated students. Through a mentored research program format and seminars, research and communication skills are developed in preparation for a graduate or professional career.

The Mathematics Honors Program fosters a spirit of inquiry, independence, and initiative along with providing an overview of the relationships among the branches of mathematics studied. The student will have an early opportunity to tackle a mathematical research project while interacting one-on-one with faculty members in a research setting. The mentoring, the approved seminars, and the oral presentation or poster should all contribute to the student’s development. Upon completion of the program, the student will graduate “With Honors in Mathematics.”

Acceptance into the Mathematics Honors Program requires the student:

• to be a mathematics major in the traditional track;
• to have earned a 3.5 GPA in mathematics courses attempted;
• to have earned a 3.0 GPA overall;
• to have arranged with one or more faculty mentors to work on undergraduate research projects for six semester hours distributed over two or more terms; and
• to have filled out and submitted the Mathematics Honors Program application form to the Undergraduate Program Director.

Major requirements for the Mathematics Honors Program:

• to be a mathematics major in the traditional track;
• to complete an additional 9 hours of approved seminar (3 hours) and research (6 hours);
• to have earned a 3.5 GPA in mathematics courses and a 3.0 GPA overall; and
• to present an oral or poster presentation on mathematics in an academic setting.

Suggested Curriculum for the Honors Program:

Department of Music

Chair: Dr. Patrick Evans
The Department of Music offers the Bachelor of Arts degree with a major in Music. Optional concentrations in Music Education (including teacher certification) and Music Technology are also available in the Bachelor of Arts degree program. Students majoring in other fields may complete a minor in Music or Music Technology and may take music courses as electives. The Department of Music is accredited by the National Association of Schools of Music.

The Department of Music offers instruction at a variety of levels to provide a balanced musical education for a broad spectrum of students. Areas of instruction include music theory and composition, music history and literature, music performance, music education, and music technology. Courses in music theory explore the materials and techniques employed in music composition. History and literature courses present the evolution of musical styles in the context of our cultural heritage, and identify certain works that represent the highest levels of artistic achievement. Performance activities develop individual musical skills through personal creative involvement. Music Education prepares students to teach music at the nursery through high school level. Music Technology explores current developments in computers and their applications to and impact on the creation, presentation, and recording of music. Full updated information is available on the Department of Music web site at www.uab.edu/cas/music.

Music Ensembles

Students of all majors are invited to participate in a variety of musical ensembles: Blazer Band, Brass Ensembles, Chamber Singers, Computer Music Ensemble, Concert Choir, Gospel Choir, Guitar Ensemble, Jazz Combo, Jazz Ensemble, Marching Band, Opera Workshop, Orchestra, Percussion Ensemble, Steel Drum Band, Electro-Acoustic Percussion Group, Piano Ensemble, Symphony Band, Wind Symphony, and Windwood Ensembles. Other ensembles may become available depending on student interest and available resources.

Music Scholarships

The Myrtle Jones-Steele and James Darrell McAnnally Scholarships (piano), the W. Ronald Clemmons Endowed Music Scholarship, the Alys Robinson Stephens Scholarship (any instrument or voice), and other scholarships are awarded each year to qualified music majors. Choral, Opera, Wind Symphony, and Marching Band scholarships are also competitively based and are awarded to any full-time student enrolled in the university for participation in those ensembles. The Music Technology Scholarships, Stevie Wonder Scholarships, and Audiostate 55 Music Technology and Jazz Scholarships are awarded to students in the Music Technology program. Auditions are scheduled throughout the year for award for the next academic year. For an application or further information about music scholarships or any of the programs and activities described above, call the Department office, (205) 934-7376, or visit the departmental web page: http://www.uab.edu/cas/music/admissions.

Admittance for Music Majors

Students who wish to pursue a degree in music must first apply for admission to the UAB Office of Undergraduate Admissions. In addition, students must complete an audition before members of the music faculty for admission to the Department of Music. Auditions are scheduled throughout the year. Examinations may also be required to determine the appropriate placement of students within the curriculum. Students should contact the music office at (205) 934-7376 or email uabmusic@uab.edu (%20uabmusic@uab.edu) for specific audition requirements and to schedule a date on which they may complete this requirement. Once the audition is complete, students will be informed of one of three outcomes:

1. Admission to the Department is granted and they may enroll as a music major.
2. Admission to the Department is conditional, in which case they are admitted as a Pre-Music major. Students admitted into this preliminary program have one year to gain full admission as a music major.
3. Admission to the Department is denied.

In the case of number 2 above, students must re-audition in order to gain full admission as a music major. In the event they are not accepted, they will be advised to seek another major within the University. Once fully or conditionally admitted to the Department of Music, students will work closely with a music faculty adviser and an academic adviser within the College of Arts and Sciences, who will monitor their progress and advise in the selection of appropriate courses. All students must audition during the term preceding the expected entrance date. Admission to UAB does not guarantee admission to the Department of Music.

Music Theory Entrance Exams

All incoming students must take a music theory placement exam upon entering the music program. To sign up for the Music Theory Placement Exam, please contact the UAB Music Office at (205) 934-7376, or by email: uabmusic@uab.edu.

First-Year Music Theory Entrance Exam

All new music students must either pass the placement examination with a minimum score of 70%, or successfully complete MU 100 Fundamentals of Music, with a grade of “C” or higher, before they are eligible to enter MU 221 Music Theory I, and MU 224 Aural Skills I. Students will be notified of the results at least two days prior to the first day of classes.

In preparing to take the entrance exam, students may wish to review the first four chapters in the following textbooks:

- Tonal Harmony by Stefan Kostka and Dorothy Payne
- Music in Theory and Practice by Bruce Benward

Exceptions:

A. Pre-enrollment Credit

Students who enroll and pass a music fundamentals course from an accredited college prior to enrolling at UAB may enroll in MU 221 and MU 224 A grade of “C” is considered passing.

B. Advanced Placement Exam Exemption (AP Music Theory)

Students who score a “3” or higher on both parts of the AP Music Theory Exam may place out of MU 221 and MU 224; students cannot test out of MU 222, Music Theory II, and/or MU 225, Aural Skills II.

AP exam scores must be sent to the Associate Chair of the Department, Dr. Paul Mosteller (songman@uab.edu), before the first day of fall classes. Students who fail to send their scores will not be allowed to enroll in MU 221 and MU 224.

C. State Schools for the Fine Arts
Students who attend an accredited state sponsored school for the fine arts and pass its “Advanced Placement” music theory class with a grade of “B” may place out of MU 221 and MU 224 and enroll in MU 222 and MU 225 in the spring semester; students cannot test out of MU 222 and/or MU 225.

Music Theory Placement Exam for Transfer Students

All transfer students with prior music theory credits are required to take a Music Theory Placement Exam.

For transfer credits to be considered equivalent to Music Theory I-IV and Aural Skills I-IV, courses taken at another college must have included an Aural Skills course. If a separate Skills course was taken, both the laboratory and the related music theory course must have been completed with a grade of “C” or higher. On the basis of placement exam results, the faculty will place the student in the appropriate course, which may be at a lower level than the student’s transfer credits indicate. Students must pass the placement examination with a minimum score of 70%. Students will be notified of the results of the placement exam at least two days prior to the first day of classes.

In preparing to take the placement exam, students may wish to review the following materials according to the last course successfully completed in their theory sequence:

- Theory I: Fundamentals; diatonic harmony; basic part-writing; Roman numeral analysis;
- Theory II: Diatonic harmony; part-writing; Roman numeral and non-chord tone analysis; basic musical form;
- Theory III: Diatonic and chromatic harmony; form and analysis;
- Theory IV: Diatonic and advanced chromatic harmony; form and analysis; late Romantic harmony; modes; 20th-century techniques (12-tone analysis and set theory).

Students may wish to consult the following textbooks:

- Tonal Harmony by Stefan Kostka and Dorothy Payne
- Music in Theory and Practice by Bruce Benward
- Form in Tonal Music by Douglas M. Green

Piano Proficiency

Functional keyboard facility must be demonstrated by ALL music majors at UAB. This is accomplished by means of the required Piano Proficiency Exam. All Music majors are required to pass the Piano Proficiency Exam (MUP 125) before being permitted to enroll in MU 322, Music Theory IV. This may be accomplished by passing the proficiency exam upon entering UAB, or by taking two semesters of Class Piano (MUP 124) and successfully completing the proficiency exam requirements in the context of the course. Up to three semester hours of credit earned in Class Piano may be counted toward general electives.

Piano Proficiency Examination Requirements

Purpose

To demonstrate functional keyboard skills at a level appropriate for students majoring in Music, Music Technology, or Music Education.

Procedure

All Music, Music Technology, and Music Education majors must pass the Piano Proficiency Examination by the end of their third semester of study as a UAB Music Major. Students with considerable experience in piano may be allowed to take the examination during their first term without enrolling for Class Piano. In the event they are not successful, they should enroll in Class Piano until the proficiency exam has been passed. All other students should enroll in Class Piano and continue enrollment until the exam has been passed. Students should plan to pass the Piano Proficiency Examination at the end of their third semester of music study at UAB. All Music majors are required to pass the Piano Proficiency Examination MUP 125 before being permitted to enroll in MU 322 Music Theory IV. Proficiency examinations will be scheduled during the final examination week of each semester. The instructor of MUP 125 and two other faculty members will administer the exam. Students wishing to take the proficiency exam must contact the instructor at least one week before the last day of classes to schedule a time and place for the exam. The exam will be approximately fifteen minutes in duration and will cover examples from the areas listed below. The examination may be attempted once each semester until it is passed. Music Education majors cannot enter the TEP (Teacher Education Program) without first completing this requirement.

Students have two options leading to the completion of the Piano Proficiency requirement.

- Incoming freshmen will be advised to enroll in class piano in their first semester. Passing the final exam of the second semester (advanced) course will count as passing the piano proficiency exam. They must still register for the piano proficiency exam for zero credit for transcript purposes.
- Students may elect to take the piano proficiency exam in August, December, or April, without enrolling in the class piano sequence. If they pass the exam, they are not required to take class piano at all. If they do not pass the exam, they must enroll in the two-semester sequence and pass the second-semester exam.
- Transfer students who have a documented piano proficiency exam pass (either transcript or letter from department chair) will not be required to take the exam or the class.
- Transfer students who have not passed a proficiency exam, even if they have taken some class piano, must take the UAB piano proficiency exam in August. If they pass the exam, they have met the Piano Proficiency requirement; if not, they must enroll in either the two-semester sequence, or the second semester, depending on the results of the exam.
- In all of the above circumstances, the student must register for MUP 125 (zero credit) for transcript purposes.

Required Skills

The student is expected to demonstrate proficiencies in the areas of sight reading, performance, technique, and related functional skills including transposing and improvising simple accompaniments.

- Sight-reading of song arrangements and/or simple solo piano literature such as a selected example from Chapter 5, pages 195-219 in Progressive Class Piano by Elmer Heerema.
- Performance:
  - Two patriotic songs: America and The Star-Spangled Banner. Music may be used.
  - A solo selected from the following list or from repertoire of comparable difficulty (memORIZATION OPTIONAL).
• J.S. Bach - Little Preludes
• Clementi - Sonatinas
• Schumann - Album for the Young

• Technique:
  • All major and white-key harmonic minor scales (i.e., minor scales with the tonic of A, B, C, D, E, F, or G): Two octaves in parallel motion, hands together.
  • All major and white-key minor arpeggios: Two octaves, hands together.

• Functional Skills:
  • Accompaniment improvisations (see Progressive Class Piano; each chapter contains sections on harmonization and improvisation).
  • Transpose a simple accompaniment or song at sight (see Progressive Class Piano, Chapter 5 pages 195-204 for examples).
  • Play the progression I-IV-I 6–V7-I hands together in all major and white-key minor keys.

Performance Attendance Requirement

All Music majors are expected to attend Music Department concerts and programs, and are required to attend a minimum of 15 events per term. To satisfy the Department’s performance attendance requirement, all music majors must enroll in and successfully complete MUP 001 every term of enrollment, except during the term of the capstone experience (seven terms). A grade of P (pass) or NP (not pass) will be assigned accordingly for a student’s attendance at concerts, Music Convocation, Department-sponsored lectures, and other events approved previously by the Department. For more specific information concerning the Performance Attendance requirement, students are urged to consult the Department of Music’s Student Handbook.

Clarification for students that enter the UAB Department of Music as freshmen:

• Once you have passed Performance Attendance for a total of seven terms, your PA requirement is complete.
• You are not required to register for PA during your capstone semester.
• You are only required to register for PA during the fall and spring semesters; summer registration is not required. Summers may be used to “make up” a term if needed, but it should be noted that successful completion during summer terms is more difficult.

Clarification for transfer students and students who change major to Music:

• If you enter UAB with no Performance Attendance credits from another approved institution, you must enroll for and successfully complete PA every semester (fall and spring) you are a Music major at UAB. For example, if you are a UAB Music major for five semesters (including your capstone semester), you must pass PA four terms.
• If you enter the UAB Department of Music with one or more credits in Performance Attendance from another approved institution, you must still pass PA for each semester (fall and spring) you are a Music major at UAB, except for the capstone semester.
• You are not required to register for PA during your capstone semester.

Ensemble Participation Requirement

Students in the B.A. degree program in Music are required to participate for credit in at least one music ensemble per term for a minimum of seven terms. To fulfill the participation requirement, instrumental students must enroll in an instrumental ensemble, and vocal/choral students must enroll in a vocal/choral ensemble. At least six of the seven terms of the required ensemble participation must include involvement in one of the following major ensembles: Concert Choir, Marching Band, Wind Symphony, Symphony Band, and Orchestra. Other ensembles may be considered major ensembles, but only for students whose major instrument is listed here: Jazz Ensemble (Bass, Bass Guitar, Guitar, and Piano), Guitar Ensemble (Bass Guitar, Guitar), and Piano Ensemble (Piano). All other ensembles are considered minor ensembles. Credit earned in excess of the seven semester hour minimum requirement stated above may be applied toward electives.

Students in the Music Technology program may fulfill up to four of their required ensemble hours in Computer Music Ensemble or the UAB Jazz Ensemble. The remaining three hours must be in the major ensembles named above. Music Technology majors with principal performing instrument of guitar, bass guitar, piano, drum set, or percussion may satisfy the major ensemble participation requirement by enrolling in a UAB jazz combo or UAB Jazz Ensemble. Music Technology majors with principal performing instrument of saxophone, trombone, or trumpet may satisfy the major ensemble participation requirement by enrolling in the UAB Jazz Ensemble or Computer Music Ensemble for up to four semesters. The remaining three hours must be in the major ensembles named in the preceding paragraph.

Clarification for students that enter the UAB Department of Music as freshmen:

• Once you have earned credit in ensembles as stated above for a total of seven terms, your ensemble participation requirement is complete.
• You are not required to register for an ensemble during your capstone semester.

Clarification for transfer students and students who change major to Music:

• If you enter UAB with no ensemble credits from another approved institution, you must participate for credit every semester (fall and spring) you are a Music major at UAB, except for the capstone semester.
• If you enter the UAB Department of Music with one or more ensemble credits from another approved institution, you must still participate for credit in an appropriate ensemble for each semester (fall and spring) you are a Music major at UAB, except for the capstone semester.
• You are not required to register for an ensemble during your capstone semester.

Music Capstones

UAB policy states: “Freshman students entering UAB in fall 2009 or after, must successfully complete the capstone course or experience required by their major program or school in order to graduate. All students graduating in 2013 or later must complete a capstone requirement.” This UAB policy is fulfilled by the Music Education and Music Technology internships for music majors with those concentrations. All other Music majors should complete MUP 497, Senior Recital/Project, during their last semester.
Teacher Certification

Students who wish to prepare for careers as music teachers in schools at the pre-college level will need to complete the requirements for the professional teaching certificate issued by the Alabama Department of Education. These requirements are met by completing the curriculum for the Bachelor of Arts in Music Education degree. Because the Alabama State Board of Education frequently changes or adds teacher certification requirements, it is essential that students stay informed about current certification requirements. Therefore, Music Education majors are required to meet with their Music adviser and an adviser in the School of Education before registration each semester.

The Alabama teaching certificate is issued for two teaching fields in music: instrumental music and vocal/choral music, both valid for kindergarten through grade twelve. Students in any of the teacher certification areas in Music Education are required to earn credit in at least one music ensemble per term for a minimum of seven terms. In fulfilling the participation requirement, instrumental students must enroll in an instrumental ensemble and vocal/choral students must enroll in a vocal/choral ensemble. At least six terms of the required ensemble participation must include involvement in the appropriate Major Ensemble (see above). Credit earned in excess of the minimum semester hour requirements for ensembles may be applied to music electives within the general studies portion of the teacher certification program.

Minor in Music or Music Technology

The minor consists of 26 semester hours of coursework in music. Students who minor in Music or Music Technology should have some prior musical experience and must audition on their performing instrument. Music courses in which a grade below C is earned may not be counted toward the minor. Minors are encouraged to participate in music ensembles throughout their academic program. Students should contact the music office at (205) 934-7376 or email uabmusic@uab.edu for specific audition requirements and to schedule an audition.

Transfer Students

A student may not apply more hours of transfer credit toward any requirement for a major or minor in music than are awarded for the equivalent courses at UAB. Excess hours in any required area may be applied as electives. Music majors must complete at least nine semester hours in music at UAB. Minors must complete at least six semester hours in music at UAB. See the section of the catalog titled “Completion of a Degree” for additional residency requirements.

The stated requirements for majors and minors in music are intended to assure a balanced academic program. In evaluating transfer credits, therefore, course content as well as the number of credits in particular areas must be considered in order to determine whether courses taken at other colleges satisfy UAB requirements. To be considered equivalent to Music Theory I–IV and Aural Skills I–IV, courses taken at another college must have included “aural skills.” If a separate “theory laboratory” was taken, both the laboratory and the related music theory course must have been satisfactorily completed. Transfer students will be required to demonstrate by examinations, auditions, and other means that their current knowledge and skills meet expected standards. Auditions will be required to determine placement in applied music courses and conducting. Transfer students majoring in music will be required to pass the UAB Piano Proficiency Examination unless written verification is provided from the appropriate official at the former college which shows that they have passed an equivalent examination at that institution.

Music majors who transfer to UAB and students who change their major from another field to music may either:

1. Complete the normal ensemble participation requirement for their degree program.
2. Participate in an ensemble during each term they are enrolled as a music major at UAB, with no fewer than three terms of participation in UAB ensembles.

In either case, the semester hour ensemble requirement must be met by transfer and/or UAB credit. Students must be officially enrolled in an ensemble in order to fulfill the participation requirement.

Music majors who transfer to UAB and students who change their major from another field to music may either:

1. Complete the normal performance attendance requirement.
2. Enroll in and successfully complete MUP 001 during each term they are enrolled as a music major at UAB, with no fewer than three terms.

Courses transferred from a two-year college cannot be used to satisfy requirements for work at advanced levels (courses numbered 300 or higher). No more than 60 semester hours may be transferred from a two-year college.

Scheduling of Courses

Certain music courses are offered one time each year or once every two years, according to a Department plan. A copy of this plan may be obtained from the Department of Music. Several courses are offered irregularly, according to need.

Academic Advising

Each music major is assigned a Departmental academic adviser. The student MUST meet with his/her adviser before registering for classes each semester. Music Education majors must also meet with an academic adviser in the School of Education each semester.

### Applied Music

Select six hours from the following courses designated “Private Lessons” at the 200 level or higher (each course may be repeated for credit.)
Each level of Music Theory and Aural Skills is co-requisite, i.e., they must be taken at the same time. A grade of "C" or better must be earned in order to proceed to the next level. After this is accomplished, a student may retake one of the two co-requisite courses for the purpose of improving their grade.

Students must participate in at least one semester hour of Music Ensemble per term for a minimum of seven terms. Music Ensembles are divided into two groups, "Major Ensembles" and "Minor Ensembles." Music majors must complete at least six hours in a Major Ensemble, with the remaining hour in either a Major or Minor Ensemble.

Bachelor of Arts with a Major in Music and a Concentration in Music Technology

Requirements
First Year Experience
CAS 112 Success in College 1

Music Theory and Aural Skills 1
MU 221 Music Theory I 4
& MU 224 and Aural Skills I
MU 222 Music Theory II 4
& MU 225 and Aural Skills II
MU 321 Music Theory III 4
& MU 324 and Aural Skills III
MU 322 Music Theory IV 4
& MU 325 and Aural Skills IV

Music Theory V Elective
Select three hours from the following courses: 3
MU 359 Composition I
MU 445 Modal Counterpoint
MU 446 Tonal Counterpoint
MU 448 Orchestration
MU 451 Topics in Music Theory
MU 455 Form and Analysis
MU 458 Contemporary Techniques
MU 459 Composition II

Music History and Literature
MU 366 Music in World Cultures 2
MU 472 Music Hist/Lit 1750-Present 3

Music Technology
MU 115 Computer Music I 3
MU 245 Recording Technology I 3
MU 341 Computer Music II 3
MU 342 Computer Music III 3
MU 345 Recording Technology II 3

MU 441 Multimedia Productions 3

Music Ensembles 2
Major Ensembles: Take at least 6 hours
MUP 220 Concert Choir
MUP 225 Symphony Band
MUP 230 Guitar Ensemble
MUP 231 Orchestra
MUP 232 Marching Band
MUP 235 Wind Symphony
MUP 236 Jazz Band
MUP 353 Piano Ensemble

Minor Ensembles:
MUP 110 Gospel Choir
MUP 221 Jazz Combo
MUP 234 Percussion Ensemble
MUP 237 Blazer Band
MUP 320 Chamber Singers
MUP 321 Women's Chorale
MUP 341 Computer Music Ensemble
MUP 342 Commercial Music Ensemble
MUP 420 Opera Workshop

Applied Music
Select four hours from Music Performance (MUP) courses designated "Private Lessons" at the 200-level or higher (each course may be repeated for credit)

MUP 240 Private Lessons: Voice
MUP 250 Private Lessons: Piano
MUP 253 Private Lessons: Jazz Piano
MUP 261 Private Lessons: Flute
MUP 262 Private Lessons: Oboe
MUP 263 Private Lessons: Clarinet
MUP 264 Private Lessons: Saxophone
MUP 266 Private Lessons: Bassoon
MUP 267 Private Lessons: Jazz Saxophone
MUP 271 Private Lessons: Trumpet
MUP 272 Private Lessons: French Horn
MUP 273 Private Lessons: Trombone
MUP 274 Private Lessons: Euphonium
MUP 275 Private Lessons: Tuba
MUP 276 Private Lessons: Jazz Trumpet
MUP 277 Private Lessons: Jazz Trombone
MUP 280 Private Lessons: Percussion
MUP 281 Private Lessons: Jazz Percussion
MUP 291 Private Lessons: Violin
MUP 292 Private Lessons: Viola
MUP 293 Private Lessons: Cello
MUP 294 Private Lessons: Bass
MUP 295 Private Lessons: Guitar
MUP 296 Private Lessons: Jazz Guitar
MUP 297 Private Lessons: Jazz Bass
MUP 340 Private Lessons: Voice
MUP 350 Private Lessons: Piano
MUP 361 Private Lessons: Flute
MUP 362 Private Lessons: Oboe
MUP 363 Private Lessons: Clarinet
MUP 364 Private Lessons: Saxophone
MUP 366 Private Lessons: Bassoon
Bachelor of Arts with a Major in Music and a Concentration in Music Education (Instrumental)

---

1 Each level of Music Theory and Aural Skills is co-requisite, i.e., they must be taken at the same time. A grade of "C" or better must be earned in order to proceed to the next level. After this is accomplished, a student may retake one of the two co-requisite courses for the purpose of improving their grade.

2 Students must participate in at least one semester hour of Music Ensemble per term for a minimum of seven terms. Music Ensembles are divided into two groups, "Major Ensembles" and "Minor Ensembles." Students completing the Music Technology concentration have two options for fulfilling this requirement:
  - Option A requires at least six hours in a Major Ensemble, with the remaining hour in either a Major or Minor Ensemble
  - Option B allows students to take up to four hours in the Minor Ensemble course MUP 341 Computer Music Ensemble, with the remaining hours in Major Ensembles.

### Music Honors Program

#### Purpose

The Music Honors Program is designed for highly talented, self-motivated students majoring in music. Through individual instruction and mentoring by the student’s applied faculty member, he/she will present a full public recital on his/her major instrument or present a series of original compositions. In the Department of Music this program is also referred to as the Young Performing Artists Program.
Eligibility
Acceptance to the Music Honors Program requires the student to:

• Be a music major.
• Be of at least sophomore standing in music.
• Be admitted to 300-level private lessons.
• Earn and maintain an overall GPA of 3.0 and a minimum cumulative GPA of 3.25 in all music courses.

Requirements

• Have permission of his/her applied instructor.
• Be recommended and accepted to the program by members of the music faculty by way of an end-of-semester jury.
• Present a 30 minute (junior year) and/or 1 hour (senior year) preliminary recital before the music faculty. Permission from the faculty must be granted before proceeding to a public recital.
• In consultation with the applied teacher, arrange and program a recital, write program notes, and assemble the program.
• Present a 30 minute (junior year) and/or 1 hour (senior year) public recital.

Benefits
Students will receive valuable individual attention and a public recital sponsored by the Department of Music. On most occasions, the performance is accompanied by a professional accompanist and is recorded onto compact disc. This recording is of great use to students when they are applying for music positions, graduate schools, fellowships, and assistantships. Students who complete the program will graduate “With Honors in Music.”

Contact
For more information concerning the Department of Music Honors Program, please contact:

Dr. William Price, Coordinator
Young Performing Artists Program

Department of Philosophy

Chair: Dr. Gregory Pence

The Department of Philosophy offers the Bachelor of Arts degree with a major in philosophy, as well as a minor in philosophy and course offerings for non-majors and non-minors. The department also sponsors an interdisciplinary minor in Philosophy and Law, described below.

The program for majors is built around two aims. First, the major offers study of the methods, problems, and history of philosophy. Second, it exposes the student to analysis of contemporary moral issues and philosophical puzzles. Throughout the major goal is to teach students to present and analyze critically arguments, both orally and in writing.

Graduates of the department have pursued such careers as teaching, law, medicine, counseling, and business.

Further information about the department and its programs may be obtained at the department’s website: www.uab.edu/philosophy.

Besides the general major, there are two other ways in which to major in philosophy at UAB:

• The Ethics Track.
• The Honors Track.

When a student first declares a major in philosophy, he or she is classified in the general path. Students remain in this path unless they request entry into the individually designed path or are successfully admitted upon request into the honors path. These requests are made of the department chair.

Students graduating in the Honors Track graduate “With Honors in Philosophy.” The Ethics Track emphasizes study in ethics, value theory, and public policy.

Minor in Philosophy & Law

Director: Theodore Benditt (Philosophy)

The Philosophy and Law minor provides interested students with a secondary specialization focusing upon the philosophical underpinnings of the political and legal systems of the United States as well as the modes of thought found in the legal system. Because legal argument frequently uses ideas found in moral thought, exposure to the theory or history of ethics is critical. The program may be of interest to students contemplating a career in law and in related careers, though it is not intended as a pre-law or legal studies program.

Ethical Theory

Select one of the following:

- 3 PHL 125 Introduction to Ethics
- PHL 215 History of Moral Philosophy
- PHL 315 Ethics: Theories of Good and Evil

Electives

Select two of the following (other courses may be selected with approval of director):

- 3 CJ 150 Foundations of Law
- 3 CJ 230 The Judicial Process in America: An Overview
- 3 PSC 330 The American Judicial Process
- 3 PSC 340 American Political Thought
- 3 PSC 380 The Politics of Constitutional Law
- 3 PSC 381 The Bill of Rights
- 3 PSC 404 Seminar in Political Theory

Total Hours: 18

Major in Philosophy with Honors

The Philosophy Honors Program is designed for qualified, self-motivated students. It is suited for those contemplating graduate work in philosophy or in professional fields in which an honors degree is desired. Through special distribution and credit hour requirements and a directed honors thesis, honors students are prepared for in-depth philosophical research and related graduate and professional opportunity. For acceptance in Philosophy Honors Program a student must

- be a philosophy first major
- have at least sophomore standing
- have at least nine semester hours in UAB philosophy courses
- have at least a 3.5 GPA in UAB philosophy course work
- submit an application to the department (applications are available from department office)

Additional Requirements For Honors in Philosophy Degree

Course Grade and GPA Requirement

A grade of "C" or better is required in all philosophy courses for the minor.

A grade of "C" or better is required in all philosophy courses for the minor.

---

**Department of Physics**

**Chair:** Dr. Ilias Perakis

Physics is a basic science concerned with the study of the universe and the matter, space-time, energy and interactions that take place among them. It includes core theories of classical mechanics, electromagnetism, quantum mechanics, relativity, and thermodynamics. Practical applications of these theories are covered in courses such as Physics of Biomedical Processes and Technologies, Physics of Renewable Energy.
Systems, Nanoscale Science & Applications, Biophysics, Laser Physics, Optics, and Solid State Physics. There are opportunities for physics majors to excel through research participation in funded projects, where stipends are available through research grants or the established NSF/NASA REU Program, by joining the Honors Physics Program, and by participating in the Society of Physics Students.

The Department of Physics offers courses in astronomy, physics, and physical science. The B.S. degree, with a major in physics, emphasizes the understanding of the theories of physics to solve fundamental and applied problems in science and technology by using critical thinking and systematic analysis. Physicists work effectively in many careers which require these skills, such as, basic, applied, and medical research; medical, financial, and legal services; product design and development; computer programming and software development; management, administration, and quality control; as well as in higher and secondary education.

The Department of Physics is a partner in the UABTeach initiative. UABTeach lets undergraduate students receive both their B.S. degree in physics and full teaching certification in four years. More information about the coordination between UABTeach and the UAB Physics Undergraduate program is available at the UABTeach Web site (http://www.uab.edu/uabteach/).

The department offers the following B.S. degrees and concentrations as well as a minor in physics:

1. Major in Physics
2. Major in Physics – Advanced Physics Track
3. Major in Physics – Applied Physics Track
4. Major in Physics – Computational Physics Track
5. Major in Physics – Biophysics Track

A Bachelor of Science degree with Honors in Physics is available for all tracks, and offers the motivated and capable physics major with the enhanced opportunity to develop the research, problem-solving and communication skills necessary to excel in a scientific career or in the marketplace.

Advising for all physics majors is provided by a professional advisor in conjunction with physics faculty members.

The Department of Physics Web site (http://www.uab.edu/physics/) summarizes information about the Departmental programs. Further information may be obtained from Dr. Renato Camata, Undergraduate Program Director at (205) 934-8143, camata@uab.edu.

Graduate Programs

The Department of Physics offers graduate study leading to the degrees of Master of Science and Doctor of Philosophy in physics. Further information may be obtained from Dr. Mary Ellen Zvanut, Graduate Program Director at (205) 934-6661, mezvanut@uab.edu, or the UAB Graduate School Catalog.

See the UAB Graduate School Catalog for descriptions of graduate courses.

Bachelor of Science with a Major in Physics

The curriculum of the Major in Physics provides fundamental knowledge in the core theories of physics.

Requirements

- **Required Mathematics Courses**
  - MA 125 Calculus I 4
  - MA 126 Calculus II 4
  - MA 227 Calculus III 4
  - MA 252 Introduction to Differential Equations 3

- **Required Physics Courses**
  - PH 110 Topics in Contemporary Physics 1
  - PH 221 General Physics I 4
  - PH 222 General Physics II 4
  - PH 351 Modern Physics I 4
  - PH 352 Modern Physics II 4
  - PH 420 Mathematical Methods of Physics I 3
  - PH 432 Statistical Thermodynamics I 3
  - PH 445 Electromagnetic Theory I 3
  - PH 450 Introductory Quantum Mechanics I 3
  - PH 461 Classical Mechanics I 3
  - PH 499 Physics Capstone 3

- **Required Chemistry Courses**
  - CH 115 General Chemistry I
  - & CH 116 and General Chemistry I Laboratory
  - CH 117 General Chemistry II
  - & CH 118 and General Chemistry II Laboratory

- **Mathematics Elective**
  - Select one of the following courses: 3-4
    - MA 260 Introduction to Linear Algebra
    - MA 265 Math Tools for Engineering Problem Solving
    - MA 268 Introduction to Mathematical Biology
    - MA 311 History of Mathematics I
    - MA 312 History of Mathematics II
    - MA 360 Scientific Programming
    - MA 361 Mathematical Modeling
    - MA 411 Integrating Mathematical Ideas
    - MA 419 Special Topics
    - MA 434 Algebra I: Linear
    - MA 435 Algebra II: Modern
    - MA 440 Advanced Calculus I
    - MA 441 Advanced Calculus II
    - MA 444 Vector Analysis
    - MA 445 Complex Analysis
    - MA 453 Transforms
    - MA 454 Intermediate Differential Equations
    - MA 455 Partial Differential Equations I
    - MA 456 Partial Differential Equations II
    - MA 461 Modeling with Partial Differential Equations
    - MA 462 Intro to Stochastic Differential Equations
    - MA 463 Operations Research I
    - MA 464 Operations Research II
    - MA 467 Gas Dynamics
    - MA 468 Numerical Analysis
Bachelor of Science with a Major in Physics and an Advanced Physics Track

In addition to the requirements for the Major in Physics, students in this track are required to complete a minimum of nine semester hours of courses offered by Physics or other UAB departments that qualify as Advanced Physics Track courses.

Total Hours 9

The Advanced Physics Track is designed to prepare students for careers in industry or other technology enterprises. A judicious choice of courses that qualify as Advanced Physics Track courses allows graduates to develop a competitive set of professional skills.

Bachelor of Science with a Major in Physics and a Computational Physics Track

In addition to the requirements of the Major in Physics, students in the Computational Physics Track are required to complete a minimum of nine semester hours of computationally intensive courses offered by Physics or other UAB departments.

</table>

The Advanced Physics Track is designed to prepare students for graduate studies in physics or other physical sciences. In addition to a strong foundation in the key theories of physics, this track encourages students to enroll in numerous advanced physics electives to broaden and deepen their preparation in physics.
The Computational Physics Track is designed to provide graduates with valuable computational skills in the areas of simulation of physical processes, big data processing and experimental analysis, and high levels of mathematical reasoning.

Bachelor of Science with a Major in Physics and a Biophysics Track

The Biophysics Track is a multidisciplinary program of study designed to place students in medical school, graduate school in the biosciences, teaching positions, or biotech enterprises. A balanced, flexible mix of physics, chemistry, biology and math is required.

Total Hours 72

Additional Requirements

A biophysics track student who has taken all or part of the PH 201-202 sequence before declaring a physics major may petition to have those courses substitute for PH 221-222.

Suggested plans for majoring in physics

The plans provided below are meant to assist you in your path toward the B.S. degree in physics. Choose Group 1, 2, or 3, depending on your affiliation with the Science and Technology Honors Program (STHP) or the University Honors Program (UHP). Then identify within the chosen group the plan that best matches your goals and background. Please consult with an academic advisor to select the most suitable plan for you:

**Group 1:** Physics majors not in the Science and Technology Honors Program or the University Honors Program
• Plan 1A: Graduate School Bound and/or Strong HS Math/Physics (Freshmen with Calculus I Credit)
• Plan 1B: Graduate School Bound and/or Solid HS Math/Physics (Freshmen without Calculus I Credit)
• Plan 1C: Intensive Physics Track (Freshmen without Calculus I Credit)
• Plan 1D: Physics Track (Students with large science/engineering loads; double majors; UABTeach (https://www.uab.edu/uabteach))
• Plan 1E: Biophysics Track (Students with large interdisciplinary course loads; UABTeach (https://www.uab.edu/uabteach))

Group 2: Physics majors in the Science and Technology Honors Program

• Plan 2A: Graduate School Bound and/or Strong HS Math/Physics (Freshmen with Calculus I Credit)
• Plan 2B: Graduate School Bound and/or Solid HS Math/Physics (Freshmen without Calculus I Credit)
• Plan 2C: Physics Track (Students with large science/engineering; double majors; UABTeach (https://www.uab.edu/uabteach))
• Plan 2D: Biophysics Track (Students with large interdisciplinary course load; UABTeach (https://www.uab.edu/uabteach))

Group 3: Physics majors in the University Honors Program

• Plan 3A: Graduate School Bound and/or Solid HS Math/Physics
• Plan 3B: Biophysics Track (Students with large interdisciplinary course load; UABTeach (https://www.uab.edu/uabteach))

Plan 1A: Graduate School Bound - Freshman with Calculus I Credit

This plan is recommended for:
- Students with strong high school math and/or physics preparation
- Students who plan to pursue Graduate Studies in physics or related areas
- This plan is not intended for students in STHP or UHP

</tbody>
</table>

**Total Hours**

1. PH 221 General Physics I and PH 222 General Physics II may also satisfy the Core Curriculum Area III: Natural Sciences requirement; check the Core Curriculum for your particular major.

---

### GPA & Residency Requirement

A minimum grade of "C" is required in all courses applied to the minor, as well as all mathematics course prerequisites. A minimum of two physics courses must be completed at UAB.

### Honors Program in Physics

The Physics Honors Program offers the motivated and capable physics major enhanced opportunities to develop the research, problem solving, and communication skills necessary for a dedicated effort in the scientific enterprise. By designing, describing, and defending a research project, the honors graduate will have a documented capacity for success in graduate school or in any career where scientific critical thinking, motivation, and accomplishment are valued.

### Eligibility

Acceptance into the Physics Honors Program requires the student to:

- have earned a 3.25 GPA in physics courses attempted.
- have earned a 3.0 GPA overall.
- have completed 16 semester hours in physics, including PH 351-PH 352.

### Requirements

Students graduating with Physics Honors are required to have completed the following:

- arrangement with a faculty sponsor to do a physics research project satisfying expectations for six semester hours of PH 495 Honors Research
- selection of an Honors Committee.
- committee approval of a written research proposal.
- completion of the proposed six semester hours of PH 495 Honors Research.
- maintenance of a 3.25 GPA in physics courses and an overall 3.0 GPA.
- a written report in the format required by an appropriate journal.
- an oral or poster presentation of the research project to the Honors Committee.

### Benefits

The goal of the Physics Honors Program is to train capable undergraduates for uncommon accomplishment in academic research. The new physics honors graduate will have documented experience and productivity commonly found in second- or third-year graduate students. Ideally, the research project will result in publication and presentation at a national conference, giving the honors graduate strong credentials for graduate or medical/professional school, for industrial research, for science writing, and for teaching. Contacts made through publication and conferences and informed references written by mentor and committee members give the honors graduate a significant edge in the job market. The successful honors student will be recognized at the UAB Honors Convocation and will graduate "With Honors in Physics."

### Contact

Dr. Renato P. Camata
Director Undergraduate Physics Program
E-Mail: camata@uab.edu
School should contact the Department of Psychology or the UAB Graduate Program is not offered. Individuals interested in the graduate program intermediate degree in some Ph.D. programs, a terminal M.S. degree behavioral neuroscience, and lifespan developmental psychology.

The Department of Psychology offers programs of study leading to the Bachelor of Science degree. Alternatively, students can earn a minor in psychology or take advantage of the numerous course offerings that are open to all students. The department provides a variety of experiences to give students an understanding of the basic principles and mechanisms of behavior. The scientific method is emphasized throughout the curriculum. Students with a major or minor in psychology are encouraged to obtain first-hand experience with both the creation of new knowledge (research) and the application of that knowledge in community and treatment settings. There are many opportunities for students to gain firsthand research experience by working with individual faculty members in a variety of laboratory, clinical, and field research settings. In addition, numerous community and treatment facilities provide settings for students to observe and participate in the application of psychological principles to the solution of individual and social problems.

In addition to providing a major field of study as part of a liberal arts and science education, the B.S. degree in psychology prepares students for graduate study in psychology. The degree also provides a strong intellectual foundation for a variety of careers in areas such as teaching, counseling, social work, human factors engineering, community planning, sales, management, personnel administration, ministry, law, politics, and various health professions, including psychiatry, nursing, medicine, optometry, public health, and physical and occupational therapy. For information on preparation for these careers, see the Psychology Department Undergraduate website, http://www.uab.edu/cas/psychology/undergraduate

Psychology is an evolving discipline, and after a period of time the material taught in a psychology course is no longer current. For this reason, the Department of Psychology reserves the right to deny credit toward its major and minors for Elementary Statistical Methods (PY 216) and upper level (300 and above) courses completed more than 12 years prior to graduation.

Graduate Program

The Department of Psychology offers programs of study leading to the Doctor of Philosophy (Ph.D.) degree in three areas of psychology: medical clinical psychology (co-sponsored by the School of Medicine), behavioral neuroscience, and lifespan developmental psychology. Although the Master of Science (M.S.) degree is awarded as an intermediate degree in some Ph.D. programs, a terminal M.S. degree program is not offered. Individuals interested in the graduate program should contact the Department of Psychology or the UAB Graduate School.

Bachelor of Science with a Major in Psychology

To qualify for a B.S. degree in psychology, students must complete a minimum of 38 semester hours of courses in psychology and 6 semester hours of coursework in biology, chemistry, or physics, as listed below.

¹ BY 111, BY 112, CH 100 and PH 100 may not be taken to satisfy this requirement. Most biology, chemistry, and physics courses that satisfy the Area III Core Curriculum requirement will also satisfy this requirement of the major. It is recommended that students consult with the psychology advisor about this requirement.

² Completing PY 101 or PY 201 and PY 212 will also satisfy 6 of the 12 required hours in Core Curriculum Area IV.

³ PY 396 Teaching Practicum in Psychology, PY 397 Community-Based Practicum in Psychology and PY 398 Research Practicum in Psychology may not be used to fulfill more than three hours of this requirement.

Grade and Residency Requirement

A grade of C or better is required in all courses applied to the major. At least 15 hours at the 300 level or above, including at least 9 hours at the 400 level, must be completed at UAB.

Additional Requirements

Minor

A minor is recommended but not required for this degree.
General Electives

Students must take general electives to reach the 120 semester hour graduation requirement.

Students are encouraged to assist with ongoing research projects and/or obtain experience with the application of psychology in teaching or community settings. Academic credit may be earned for these experiences. Students may apply a maximum of 3 semester hours of PY 398 (research), and/or PY 396 (teaching), and/or PY 397 (community) to their major and minor requirements. Students preparing to attend graduate school in psychology are strongly encouraged to participate in the Psychology Honors Program, get involved faculty research projects, and develop a strong background in natural sciences, mathematics, and computer science.

Psychology majors may be required to complete a general psychology examination at the time they declare psychology as their major, as well as a second examination upon completion of the course requirements for a B.S. degree in psychology. Although these examinations may be required for graduation, they are intended for program assessment purposes only. Performance on these examinations will not affect students’ grade point averages, nor will they be a factor in determining whether students qualify for the baccalaureate degree.

¹ PY 101 Introduction to Psychology or PY 201 Honors Introduction to Psychology may also be eligible to count toward Core Curriculum Area IV; check the Core Curriculum for your particular major.
Grade & Residency Requirement
A grade of "C" or better is required in all courses applied to the minor. At least six hours at the 300-level or above must be completed at UAB.

Psychology Honors Program

Purpose
Participation in the Psychology Honors Program provides an enriched learning environment for psychology majors with excellent academic records who are interested in pursuing graduate study and a career in psychology, medicine, or other health related professions. The program provides students with a strong foundation in behavioral science through an enhanced program of study and the opportunity to conduct research with an individual member of the faculty. Students who complete the program will qualify for the B.S. in psychology and graduate "With Honors in Psychology."

Eligibility
Students may apply for admission to the program at any time after being at UAB for at least one semester, provided they will attend UAB for at least three additional semesters in order to complete their honors thesis and program-specific coursework (PY 399 and PY 499). Students should submit an application form (available from their psychology advisor or the department website) to the Director of the Psychology Honors Program (mgcrowe@uab.edu), and an interview will be scheduled.

Requirements
Students in the Psychology Honors program must complete a minimum of 48 semester hours of courses in psychology and 6 semester hours of coursework in biology, chemistry, or physics, as listed below.

Grade and Residency Requirement
A grade of C or better is required in all courses applied to these requirements. Overall GPA, Psychology GPA, and Institutional GPA (courses taken at UAB) must all be at least 3.50 and maintained at a minimum 3.50 to remain in and graduate from the Honors Program. At least 18 hours at the 300-level or above, including all honors and practicum courses must be completed at UAB.

Contact
For more information and an application for admission to the Psychology Honors Program, see the undergraduate psychology web site at http://www.uab.edu/cas/psychology/undergraduate. You can also contact the Honors Program Director, Dr. Michael Crowe, at mgcrowe@uab.edu

Department of Social Work
Chair: Dr. David E. Pollio
The baccalaureate social work program is fully accredited by the Council on Social Work Education and prepares graduates for employment at the beginning level of professional social work practice as well as for graduate-level professional education. The mission is to educate undergraduate students from a social science perspective in both problem-solving skills and social work values to prepare them for generalist practice with diverse populations in an increasingly complex and interconnected world, emphasizing social and economic justice for populations at risk. The program encourages social work career development through affiliation with professional organizations, pursuit of graduate education, and involvement in continuing education.

Students seeking to formally declare Social Work as a major must officially apply to the Social Work Professional program. Upon submitting the application and a signed academic check sheet all applicants are expected to submit a four question essay which will be evaluated by Department of Social Work faculty to determine admission.

Required course work includes acquisition of social work knowledge, values, and skills essential to social work practice, research, and policy. The curriculum culminates with a full-time, one-term field practicum.

No minor is required for social work majors. Instead, selected social and behavioral science courses provide a foundation for the professional courses. These foundation courses include:

<table>

1. Online option is available.

Grade Requirement

"C" or better is required in all courses applied to the minor.

Purpose

The Social Work Honors Program will provide preparation for graduate study or professional careers in Social Work. The program is designed to enhance students’ problem solving skills, critical and independent thinking, and application of research/evidence-based practice.

Benefits

- Students who complete the program will graduate "With Honors in Social Work."
- Completion or currently enrolled in the following required social work courses (SW 100, SW 200, SW 203, SW 222, SW 222L);
- Declaration and acceptance into the social work major (application can be in the process of being reviewed at the time of submission);
- Must have a minimum 3.5 overall GPA and a minimum 3.8 GPA in required social work courses.

Application Process

Submit application material to the Department of Social Work office.

The application deadline(s) are as follows:

- Fall Admission: No later than 2nd Friday in March
- Spring Admission: No later than 2nd Friday in November

Submit a "Social Work Honors Program Application" with the following documents:

- A Honors Program Application Form*
- An unofficial copy of transcript
- A recommendation letter from an instructor of SW 100, SW 200, SW 203, or SW 222**
- A resume

*NOTE: The application must be typed.

**A recommendation letter must be sent directly to Dr. Stacy Moak (stacym@uab.edu).

Review Process

- Review of application by faculty members
- Interview with the Honors Program Director

Requirements

To complete the departmental honors program, students must earn 10 honors credit hours and must maintain a minimum 3.5 overall GPA and a minimum 3.8 GPA in required social work courses and honors courses through graduation. Honors sections will be offered in the following courses:

- SW 320 Honors Research (3 credits)
- SW 494 Honors Field Seminar (3 credits)
- SW 496 Honors Seminar (3 credits)*
- SW 498 Honors Independent Study (1 credit)**

*Must be taken as the required social work elective
**Additional course for Honors Program students only

Department of Sociology

Chair: Dr. Verna Keith

Sociology is the scientific study of human social behavior, from the smallest group interactions to the broadest and most complex social processes. As a social science, the discipline analyzes the patterns of behavior in all types of social relationships. This field has broad scope.
and relevance and can be crafted to best serve a student's career or post-degree education.

The Department of Sociology offers three majors in sociology: Bachelor of Arts degrees in 1) General Sociology, 2) Social Psychology Concentration in Sociology, and a Bachelor of Science degree in 3) Medical Sociology. Minors are offered in General Sociology, Medical Sociology, and Social Psychology.

The undergraduate program in general sociology is designed to complement UAB's location in a large metropolitan area. Such a location provides an excellent laboratory for study in several areas, including social inequality and urban sociology, as well as, medical sociology and social psychology. Students may choose from several courses in each of these areas to best compliment their career goals. The general sociology major provides a broad background for students who are not planning a career in sociology but who want an understanding of the nature and development of social structures and social issues-knowledge that can be applied to a variety of occupations and careers. Additionally, the general sociology degree serves as useful pre-professional training for careers such as law, business, education, and government. Finally, the program helps prepare students for graduate study in sociology and other social sciences.

The social psychology concentration provides a perspective on interpersonal relationships that draws on research conducted in sociology and psychology. In the broadest sense, social psychology is the study of how people's behaviors and thoughts influence, and are influenced by, the actions of others. As a field of study, social psychology has typically focused on the study of persons in face-to-face situations and small group settings. The social psychology concentration prepares students for careers in service-oriented fields such as health professions, education, business, and government, and graduate work in social psychology. Medical sociology provides an analytic framework for understanding the social contexts of health, illness, and health care. The Bachelor of Science degree in Medical Sociology is a research-focused degree that prepares students for graduate studies in medical sociology or a career in health-related services, medical (social) research, or government data analysis. In addition, when the Bachelor of Science in Medical Sociology is paired with pre-professional medical programs, students are provided with additional rigor in the social dynamics of the careers of their choice (nursing, medical school, and the health professions).

Graduate Program

For information on the graduate program in sociology, please consult the Department of Sociology or the UAB Graduate School Catalog.

Bachelor of Arts with a Major in Sociology

Grade and Level Requirement

- A grade of "C" or better is required in all Sociology courses.
- SOC 489 must be completed at UAB. A total of 9 hours at 400+ must be taken in residence at UAB. Transfer students must earn at least 12 semester hours in residence.

Total Hours: 18

1  SOC 100 Introduction to Sociology may also be eligible to count toward Core Curriculum Area IV.
2  SOC 245 will count toward this requirement, and may also be eligible to count toward Core Curriculum Area IV.

Grade & Residency Requirement

A "C" or better is required in all courses applied to the minor. At least six hours of the minor must be completed at UAB, including three hours at the 300-level or above.

Minor in Medical Sociology

Medical sociology focuses on study of the social causes and consequences of health and illness. In addition, it analyzes health organizations and institutions, the social behavior of health personnel and consumers of health care, as well as international patterns of health services. It is a particularly relevant minor for students preparing for a career in a health profession such as medicine, nursing, dentistry, or optometry.

A grade of “C” or Better is required for all courses within the Medical Sociology Minor.

Grade and Residency Requirement

Transfer students must take at least 6 semester hours in sociology at UAB including at least 3 semester hours in courses numbered above 300. A grade of C or better is required in all courses applied toward the minor, including transfer courses.

Grade & Residency Requirement
A "C" or better is required in all courses applied to the minor. At least six hours of the minor must be completed at UAB, including three hours at the 300-level or above.

Honors Program in Sociology

Purpose
The Sociology Honors Program is designed to help prepare outstanding undergraduate majors for graduate study in sociology or a career in medical sociology. The program offers a mentored research experience, and under faculty supervision, students will be exposed to a wide range of sociological perspectives and research areas.

Eligibility
Acceptance into the Sociology Honors Program requires the following:

- Completion of the required sociology courses including Introduction to Sociology, Theory, Research Methods and Statistics (by the end of the fall term of the year the student enters the honor’s program).
- An undergraduate cumulative GPA of 3.00 or above.
- A junior or senior level standing (admittance to Honors Program must take place before August 1).
- A cumulative GPA in Sociology courses of 3.3 or above.

Requirements
The following is required to graduate with honors in the Sociology Honors Program:

- Completion of the required sociology courses.
- Completion of two-semester Honors seminar 498/499.
- Completion of a senior-level thesis or Service Learning Project or Research Project under faculty supervision.

Benefits
Participation in the Sociology Honors Program provides a unique opportunity for highly motivated, academically talented undergraduate students to have access to and interact with faculty in an environment that encourages creativity and independent scholarship. Seminar participation and research experience will be important to nurturing the student’s sociological imagination. Completion of the Honors Program is an advantage when applying to graduate school or looking for employment in an appropriate discipline-oriented field. Finally, students who complete the program will graduate “With Honors in Sociology.”

Contact
For additional information and/or admission to the Sociology Honors Program, contact:

The Director of Undergraduate Programs
Department of Sociology
460H Heritage Hall Bldg
Birmingham, AL 35294-1152
Telephone: (205) 934-3307

Telephone (205) 934-3307

Department of Theatre

Chair: Mr. Kelly Dean Allison, MFA
The Department of Theatre subscribes to the philosophy that classroom study and practical experience are complementary and of equal value. A wide array of courses related to the performing arts and film are taught in well-equipped studios and smart classrooms. Production opportunities are available in state-of-the-art production facilities, the Morris K. Sirote Theatre and the Odess Theatre in the Alys Robinson Stephens Performing Arts Center.

Majors
The Department of Theatre offers a Bachelor of Arts (BA) in Theatre, a Bachelor of Fine Arts (BFA) in Musical Theatre, a minor in Theatre, and an individually designed major (IDM) in Film. In addition, students can earn an interdisciplinary minor in Film Studies. The department also offers an honors program for qualified students.

All BA Theatre majors are admitted on a general track. Those who wish to specialize are given the opportunity to audition and interview for one of two pre-professional concentrations: Performance or Design and Production. The general track provides a student with a broad education in all areas of theatre. The pre-professional performance concentration focuses on acting, with an emphasis on movement and vocal training. The pre-professional design and production concentration focuses on developing design and production skills in the areas of scenery, costume, lighting, and audio.

The Musical Theatre BFA training program focuses on musical theatre performance skills with 72 semester hours in theatre, music and dance. An audition is required to declare a Musical Theatre major. Auditions are held three times during the academic year starting in November. Enrollment is limited so students who wish to pursue a Musical Theatre BFA are encouraged to audition early.

An Individually Designed Major is a program of study that is tailored to the individual needs of each student and is available to self-motivated students. Film IDM majors normally begin with a common 30 credit hour core of film-related courses. A minimum of fifteen additional credit hours are chosen by students in areas that will prepare them to accomplish their specific career goals. All IDM plans of study require approval from the Department of Theatre Chair and the Dean of the College of Arts and Sciences, as well as consultation with a faculty mentor and an academic advisor in the College of Arts and Sciences.

Theatre faculty provide individual mentoring and advising to help students matriculate and achieve their academic and professional goals. All majors and minors are expected to show progress toward completing university core requirements, participate in department productions, and to be professional both in attitude and actions while representing the department.

Scholarships, Stipends, and Other Financial Aid
In addition to university financial aid, stipends and scholarships are available through the Department of Theatre to qualified students. Students awarded Theatre stipends and scholarships are expected to remain in academic good standing. Department scholarships require an overall GPA of 2.5 and a 3.0 GPA for all Theatre courses. Students with department stipends must maintain an overall GPA of 2.25. For more information, call (205) 934-3236 or visit the department website at www.uab.edu/cas/theatre.

Honors Program in Theatre

Purpose

The Theatre Honors Program is designed for outstanding students majoring in Theatre. Through mentored work on an individually developed creative project or research topic, students will develop skills in preparation for graduate school or a professional career.

Eligibility

Acceptance into the Theatre Honors Program requires the student to:

- Be a Theatre major.
- Have earned a 3.5 GPA in Theatre courses attempted.
- Have earned a 3.0 GPA overall.
- Have completed:

  Requirements

  - THR 124 Theatre Technology: Scenery and Lighting 3
  - THR 125 Theatre Technology: Costumes and Makeup 3
  - THR 154 Beginning Acting 3
  - THR 210 Introduction to Theatrical Design 3
  - THR 235 Analysis of Dramatic Literature 3

  - Have completed 60 hours toward the BA degree.
  - Have completed at least two UAB Theatre production practicum.

Requirements

- Completion of required courses for the Theatre major.
- Arrangement with a faculty mentor for a creative or research project.
- Submission of a formal project proposal to the faculty mentor and the Honor's committee.
- Registration for 3 credit hours of THR 496.
• Public presentation of the honors project.
• Acceptance of the completed project by the faculty mentor and the Honors committee.
• Submission of an archival copy of the project to the Theatre Department.

Benefits
In addition to the educational benefits of working on a mentored, individually designed project, honors majors receive a certificate at the Spring UAB Honors Convocation and will graduate “With Honors in Theatre.”

Contact
For more information and/or admission to the Theatre Honors Program, please contact:

Director of Honors Advising and Retention: Amy Atkinson, MAE
Director of Science and Technology Honors Program: Diane C. Tucker, Ph.D.
Director of University Honors Program: Michael E. Sloane, Ph.D.
Constituent Engagement Specialist: Leann Pellicio, MA

Curriculum
The UAB Honors College brings together intellectually curious students from all majors to form a close-knit community of emerging scholars. Our honors courses are designed to prepare students to communicate effectively in written and oral form, demonstrate critical thinking skills, integrate knowledge across domains, participate effectively in team endeavors, and function as ethical citizens of communities.

UAB Honors College students can either pursue our Personalized Pathway or choose one of our Specialized Programs in global and community leadership (GCL), science and technology (STH), or interdisciplinary arts and sciences (UHP). We encourage students to visit http://www.uab.edu/honors for additional information on the Personalized Pathway and Specialized Programs. In addition, many of our honors students participate in departmental (major-specific) honors programs or Fast Track Fifth Year Master’s Programs. These enhanced curricular and co-curricular opportunities are designed to stimulate high-ability students, build community, and prepare students to accomplish their long-term goals.

All UAB Honors College students benefit from the following:
• Smaller class sizes
• Innovative honors seminars

• Honors sections of core and elective courses
• Unique experiential learning opportunities in service learning, undergraduate research, and study abroad
• Special speaker series, discussion groups, and student activities
• Additional academic advising
• Optional honors housing
• Honors New Student Retreat (Required)
• Opportunities for Honors Student Leadership
• Engagement with Honors Faculty Fellows

Honors Student Leadership
Leadership development is an integral part of the honors student experience. UAB Honors College offers opportunities for students through workshops, coursework, and events throughout the year. In addition, we offer four formal student leadership groups:

• Honors Ambassadors: A highly selective group of outstanding honors students, Honors Ambassadors are our official representatives and participate in a number of activities and events that connect visitors and other constituents of the UAB community – prospective students and their families; current students and alumni; administrators, faculty, and staff – to the UAB Honors College.
• Honors College Leadership Council (HCLC): Elected representatives of the Honors College student body, the HCLC leads efforts to advocate for the needs of the honors community, promotes the visibility of the Honors College both on and off campus, and seeks to foster a sense of community within the Honors College. The HCLC plans service, social, and educational events for all honors students.
• Honors Resident Assistants: Selected by both UAB Honors College and UAB Housing and Residence Life, Honors RAs live with our first-year students in the honors floors and help honors students adjust to college life and create community among new students.
• Honors Peer Mentors/Retreat Leaders: These student leaders serve as a first point of connection for first year students, helping to ensure that they have the resources to find their place at UAB and in the Honors College. The select group of upperclassman work directly with incoming honors students to welcome them to the Honors community and assist new students in becoming acclimated to university life.

Honors Faculty Fellows
UAB Honors College established our Honors Faculty Fellows program in 2016 to create stimulating academic enrichment experiences and enhance community. Faculty members are nominated and selected each summer. Recent Honors Faculty Fellows activities include a science fiction book club, an honors running club, resiliency training, and monthly seminars on timely topics (e.g., deception in relationships, the minimum wage, gun violence).

UAB Honors College Commitment to Excellence

Honors College admission is a noteworthy achievement, recognizing not only demonstrated academic excellence but also potential for future success. The UAB Honors College is a scholarly community comprised of students, faculty, and staff who commit themselves to high standards of intellectual and personal integrity. As such, honors students should be among the most respectful, hard-working participants in any classroom. They should challenge themselves to think in new ways and to remain open to insight from others. In addition, they should be ethical community members continually looking for ways to serve their peers, the campus, and the local community.

Admission Requirements

Incoming Freshmen:

In order to be admitted to the UAB Honors College, students must first be admitted to the University of Alabama at Birmingham. Following general university admission, there are two paths for incoming freshmen to join the UAB Honors College:

- Invitation – Admitted students with a minimum ACT score of 28 or redesigned SAT score of 1310 (ERW+M) and a 3.5 GPA will receive an invitation to join the mail to join the UAB Honors College. Students who join the UAB Honors College prior to the published deadline will have the option of applying to specialized programs in science and technology, interdisciplinary arts and sciences, and global and community leadership. All students offered admission into the UAB Honors College or its programs must confirm their enrollment no later than May 1 of their senior year.

- Application – Students who do not meet the standardized test score or GPA requirements must submit an application in order to be considered for admission. A committee of faculty and staff will review these materials and notify students of their admission status.

To learn more about enrolling in the UAB Honors College, please visit http://www.uab.edu/honors

Current and Transfer Students:

Current UAB students and transfer students may be eligible for admission into the UAB Honors College, provided that they have earned at least 12 hours of credit with a minimum 3.5 collegiate GPA. All current and transfer students must earn at least 18 credits of honors-level coursework during their time at UAB. Prospective current and transfer students should apply at http://www.uab.edu/honors and meet with an honors advisor to discuss possible admission into the UAB Honors College based on their existing academic profiles and future trajectories.

Continuation in the Honors College

UAB Honors College students are required to maintain a 3.0 cumulative UAB GPA to remain in good standing. Each student’s academic record is evaluated at the end of fall and spring semesters and any student who falls below the minimum requirement will be placed on immediate probation. A student on probation will be required to meet with an Honors College advisor or the director of their program to discuss the student’s action plan to raise the cumulative UAB GPA to at least 3.0. Students on probation have up to one year to raise their UAB GPA at least 3.0. The probation period ends when a student’s GPA rises to at least 3.0 or after 1 year has elapsed.

Continued failure to meet minimums after the one year probationary period will result in suspension from the Honors College. Suspension includes the loss of all privileges associated with being an honors student, including priority registration and honors graduation designation. In rare circumstances, a student may appeal to the Dean of the Honors College for an extension of the probation period or for reinstatement. Additional requirements may be required by individual honors programs for students to remain in good standing.

Honors-Level Courses

All UAB Honors College students must complete a minimum of 18 credit hours of honors-level coursework to graduate with Distinguished Honors. Students who earn 30 or more honors credits will graduate with High Distinguished Honors. Specific requirements for our Personalized Pathway and our Specialized Programs are detailed in these sections.

Personalized Pathway

The UAB Honors College is dedicated to innovative courses, hands-on experiential learning, service learning, and – most importantly – the individuality and diversity of our brilliant students. Those learning experiences – and those unique students – just don’t fit into the standard college curriculum. Some of our students pick up second majors or interesting minors, or they incorporate electives from multiple programs to give them a more well-rounded education. Others create individualized majors that reflect their unique mosaic of interests. To make sure their curiosity is fed, their passion is pursued, and their fire stays stoked, we guide our students in charting their own course with their own personalized curriculum.

Benefits

Working with an honors advisor each semester, students pursuing a Personalized Path develop their interests and talents into goals. Then they work together to create a personalized curriculum that will take them places no standard, one-size-fits-all curriculum ever could. One of the greatest benefits to the Personalized Path is its flexible and customizable curriculum. Rather than being told which honors courses to take each semester, students constructing a Personalized Path choose from an array of more than 30 honors courses each term. And when students discover new interests, their honors advisors help them identify honors coursework and experiential learning opportunities that align with those new passions.

Community

Students pursuing a Personalized Path are immersed in the UAB Honors College community through activities each semester organized by our student leaders, advisors, and Honors Faculty Fellows. Even before classes begin, the Honors College offers orientation dinners and an Honors New Student Retreat to introduce students to one another and prepare them for success at UAB. Once on campus, our Honors RAs facilitate programming in the residence halls, and students receive a weekly newsblast making them aware of college-wide service opportunities, social events (e.g., Holiday Soiree, Spring Ball), and professional development workshops. Students also have access to exclusive space for studying and spending time with friends.
Honors-Level Courses

UAB Honors College students on our Personalized Pathway must complete a minimum of 18 credit hours of honors-level coursework in order to graduate with Distinguished Honors. Students who choose to earn 30 or more honors credits will graduate with High Distinguished Honors.

In a Personalized Path, honors students take a mixture of honors seminars, honors sections of core and elective courses, honors experiential learning courses, and honors by contract. These classes are smaller in size (generally 25 or fewer students) and provide students with uniquely engaging curricular experiences.

Honors Seminars: These multidisciplinary seminars cover topics not typically offered at UAB and are taught by some of our most outstanding faculty. Prior examples include: Justice for All? Education and Opportunity in America; Persuasion: How to Get More of What You Want and Make Others Feel Good About Giving It to You; and 100 Things About the Brain.

Honors Courses: These include enhanced sections of courses offered through regular academic departments that provide students with a high level of engagement and critical thinking as well as courses required for departmental honors programs.

Honors Experiential Learning Courses: The UAB Honors College offers specific experiential courses, including recent study abroad courses in Cuba and Iceland as well as service learning with local community partners. Students may also participate in individual projects in service learning, research, internships, or education abroad.

Honors by Contract: Students may augment their experiences in upper-level standard courses. An interested student should meet with a faculty member to devise an honors contract. Contract details vary, but they share a commitment to academic excellence above and beyond the minimum requirements for the course. Students interested in Honors by Contract should download the appropriate forms in the Honors College Canvas site. Except in rare circumstances, honors by contract is restricted to courses at the 300/400 level.

Honors Seminar

Students are required to complete at least one honors seminar during their first year in the Honors College. Available seminars will be communicated each semester through the honors advisors.

Experiential Learning

Students are required to complete a minimum of one experiential learning course at UAB. These courses may include service learning, study abroad, research, or internships.

Specialized Programs

Not all Honors College students choose a personalized pathway — some find a perfect academic fit in one of our three specialized honors programs. The Global and Community Leadership Honors Program (p. 266), Science and Technology Honors Program (p. 267), and University Honors Program (p. 270) lay out a curriculum of courses and experiences to thoroughly explore global leadership, science and technology, or interdisciplinary arts and sciences.

Once students have been admitted to the UAB Honors College, they may apply to one or more of the specialized programs. Admission to these programs is competitive, and students must submit an additional program application by the published deadline.

Global & Community Leadership

Director of Honors Advising and Retention: Amy Atkisson, MAE

Students in the Global and Community Leadership (GCL) Honors Program know that they’re members of a community — not just a local one, but a global one. Social justice issues like educational disparities, poverty, food insecurity, environmental degradation, and health care access touch lives in every country, in every big city and small village, at every socioeconomic level. GCL prepares honors students to explore, understand, and take a leadership role in addressing those issues and making lives better.

Vision

Through the GCL Honors Program, students combine their academic interests and personal passion to be transformational leaders for the 21st century.

Mission

The GCL Honors Program challenges students to think critically about how they can be good citizens of communities. GCL students gain appreciation of diverse perspectives and practice applying knowledge to community development.

Values

• Participatory citizenship
• Ethical leadership
• Creative problem-solving
• Effective communication

Community

GCL students are a tight knit community of students wanting to make the world a better place. Our elected student Leadership Council for GCL plans monthly global and community education and outreach events, service projects, and social activities that are open to all UAB Honors College students.

Application

For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honors. GCL is intentionally flexible and is available for students to enter as late as the third year.

Coursework

GCL students must complete a minimum of 18 hours of designated honors coursework to graduate with Distinguished Honors in Global and Community Leadership; students may complete 30 hours of honors coursework to graduate with High Distinguished Honors in Global and Community Leadership.
Required GCL coursework

12 hours of designated GCL honors coursework:

Honors Seminar HC 110-120 (3 credit hours) – Seminar on a topic related to GCL’s mission; topics vary annually

Burning Issues: GCLH 150 (3 credit hours) – Overview of various issues facing society (e.g., human rights, sustainability, healthcare access, educational reform). Course includes guest speakers, topical readings, and significant reflective writing. Ultimately, students will identify an issue that ignites their passion – their “burning issue.”

Fanning the Flame: Variable courses (3 credit hours) – Student will select a course that provides further exploration of the student’s “burning issue.”

Stoking the Fire - Leadership in Action: GCLH 350 (3 credit hours) – Students will learn, develop, and put into practice a pragmatic skill set for management and operations in social change leadership.

Six additional hours of honors coursework:

Students should take the remaining hours from approved courses relevant to GCL’s mission. GCL administration will designate appropriate honors courses for GCL students each semester, and students will choose the courses that are most applicable to their own passions and goals.

For students who choose to earn 30 hours of honors credit, the additional 12 hours of honors coursework can be earned through non-GCL specific honors seminars, honors sections of core courses, honors by contract, and/or school/departmental honors programs.

Experiential Learning

GCL students are required to complete a minimum of one experiential learning course at UAB. These courses may include service learning, study abroad, research, or internships. If taken for honors credit, the experiential learning course may help fulfill the honors requirement. If not taken for honors credit, the course will not be applied to the total number of honors credit hours but can still satisfy the experiential learning requirement.

Science and Technology Honors Program

Program Director: Diane C. Tucker, Ph.D.
Associate Directors: Joe L. March, Ph.D., and Joel L. Berry, Ph.D.
Program Manager: Clay Walls, B.A.

The Science and Technology Honors Program at UAB revolutionizes the undergraduate experience. Acceptance to the program places students in the company of fellow scholars and world-renowned researchers. Science and Technology Honors (STH) students synthesize ideas from multiple disciplines to tackle real, meaningful scientific problems. The unique, four-year STH curriculum of coursework, seminars, mentored research, and leadership challenges builds community and sharpens scientific thinking.

This unique program is the only one of its kind in Alabama. It is designed for the best and brightest students whose academic and extracurricular achievements demonstrate intellectual curiosity, energy, creativity, and leadership abilities. Graduates of the STH Program are well prepared for graduate study at the Master’s or Doctoral level as well as for professional school.

Mission

To prepare scientific leaders of the next generation by engaging students in interdisciplinary classroom, leadership, research, and innovation experiences which culminate in the dissemination of new scientific knowledge.

Vision

• UAB’s Science and Technology Honors Program will recruit a diverse group of talented undergraduate students, involve faculty from across the university as teachers and mentors, and provide a unique educational experience for students.

• Through interdisciplinary courses and laboratory research experiences, STH students will be exposed to the power of integrating multidisciplinary approaches and will apply this perspective to research and innovation problems.

• STH students will be trained in scientific thinking and communication and will conduct and disseminate original research or scholarship under the supervision of a faculty mentor.

• STH graduates will be well prepared for graduate and professional study and will show evidence of leadership in academic, economic, and policy areas related to science and technology during their careers.

Benefits

Students in the STH Program work closely with research faculty and participate in original scientific research. During the first two years, the program prepares students with the knowledge and skills they need to get started in research. Beginning as early as the freshman or sophomore year, students work closely with a faculty mentor on an individualized project, learning about research and innovation through apprenticeship. STH students are encouraged to attend national conferences and to publish their research in scientific journals.

The program is a closely knit community with approximately 50 undergraduate students admitted each year. The small number encourages collaboration among students, interaction with faculty, and sharing of ideas. Students receive priority registration and take science and technology focused sections of core courses such as English Composition II (EH 102). In addition, STH students can earn graduate credit, providing an advantage when pursuing an advanced degree.

Coursework

The academic portion of the Science and Technology Honors Program builds upon UAB’s research strengths in science and technology. Special interdisciplinary courses such as Introduction to the Scientific Process (STH 199), the Interdisciplinary Seminar (STH 299), Big Ideas in Science and Innovation (STH 240), and Current Challenges in Translating Science into Benefit (STH 340) examine topics from many scientific and technical perspectives, illustrating how scientists integrate multiple fields of study when approaching research and development questions.

Students discover the methodologies and techniques used in a variety of research areas, including biology, cell biology, chemistry, molecular genetics, computer and information systems, engineering, neuroscience,
psychology, physics, and more. In their Research Approaches (STH 201) course, students get hands-on experience in laboratory techniques and generate original data for presentation at the UAB Expo.

Exclusive seminars put students face to face with UAB’s best known researchers who share their insights and experiences from the lab and the field. The entire curriculum is designed to encourage independent thinking, questioning of ideas, innovative problem-solving, and skill in scientific communication. STH coursework also integrates seamlessly with honors programs in science and technology majors.

The program culminates in a two-year intensive research experience under the direction of UAB faculty. Students build upon the methods they have learned in their courses and seminars to propose and conduct an independent research or innovation project in collaboration with their faculty mentor. This project becomes the student’s Honors Thesis. The Honors Thesis is prepared for publication in a scientific journal and for presentation at a national conference. Thus, many STH students will both publish a scientific paper and present at a national conference before graduating from UAB. Students in the program must complete 30 credit hours of honors coursework, which includes at least 6 credit hours of independent research under the direction of a faculty mentor to complete their Honors Thesis research. Honors versions of core courses can contribute to the 30 hours of honors credit required.

The Honors Thesis may also take the form of a capstone or clinical innovation project developed in consultation with and approval of the program director.

- A capstone project draws together students’ experience and is useful for students planning career paths other than bench research. Students will delineate the scope of the project, resources needed, and the anticipated product. The project could be proposed by a team of students with the scope adjusted and the expectation that several students will contribute.
- The clinical innovation pathway allows students to develop expertise in applied innovation within medical settings through a series of courses that provide exposure to clinical settings and guide them through a client-centered design process. The final product may include a working prototype, patent application, or business plan, depending on the scope of the proposed project. Students will have the option to develop an idea into a project either as an individual or as part of a team.

Who Should Apply

This program is best suited for students who are intensely curious about science and excited about the prospect of becoming a generator of new knowledge in their field. In addition to curiosity about science, successful applicants generally have a strong academic record and plan to pursue a career in science or technology. STH students typically have a GPA of 3.5 or higher in their high school academic courses and ACT or SAT scores at or above the 90th percentile in math and science. Because the program values diversity and strives to accommodate talented students, applications are reviewed individually and applicants are personally interviewed.

Students interested in applying to STH must first be admitted to the UAB Honors College. Following admission to the College, interested students may then submit an application to the STH Program. This application and accompanying recommendation must be received by the published deadline. For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honors.

STH Signature Courses

Each student in the program takes the following STH Program coursework during their first two years in the program to prepare for their independent research experience:

- Introduction to the Scientific Process (STH 199). Fall semester of freshman year. Students work in teams to analyze current scientific problems under investigation by UAB faculty, learning about how scientists approach problems and conduct their research, including ethics and institutional review of human and animal research.
- Research Approaches (STH 201). Spring semester of freshman year. Systematic training in foundational research methodologies and opportunity to application of the methods in research laboratories. Students choose among biotechnology training, advanced chemical analysis, or engineering design and materials analysis.
- Interdisciplinary Seminar (STH 299). Fall semester of sophomore year. This course illustrates the synergy achieved by interdisciplinary analysis of problems. Example topics include High Voltage Innovation, Neurobiology of Learning and Memory, Energy Generation and Conservation, Disorders of the Central Nervous System, and Creating a Culture of Sustainability.
- Problem Analysis and Project Planning (STH 151) and Prime Time Leadership (STH 250). Spring semester of freshman year and fall or spring semester of sophomore year, respectively. This two-course leadership preparation sequence teaches students to apply leadership and teamwork skills to analyze a problem or need and develop a plan to address the need then carry through the resulting project. Students develop measurable outcomes, communicate with stakeholders, document the project’s outcome, and prepare for a public presentation of the project.
- Big Ideas in Science and Innovation (STH 240). Sophomore or junior year. This course will integrate skills developed in STH 199, STH 201, STH 299, and EH 102/202 to examine current controversies and challenges in science and technology. Students will analyze scientific research and explore the “conversation” between scientists and other constituencies regarding the interpretation and application of the findings.
- Current Challenges in Translating Science into Benefit (STH 340). Junior or senior year. This course will build upon students’ research experiences by exploring the spectrum of basic to applied research in which each investigation is embedded. Through reading original scientific papers and using technical databases, students will explore “wicked problems” and develop innovative solutions.

Curriculum

To graduate with High Distinguished Honors in Science and Technology, students must complete thirty (30) semester hours of honors coursework including the following courses:

<table>

STH 199 Research Approaches 3

Scientific and Technical Communication a

EH 102 English Composition II (honors section focused on Scientific and Technical Communication) 3
or EH 202 English Composition II: Scientific and Technical Communication

Statistics b

Students must complete an approved statistics course. The honors section of PUH 250 (Biostatistics) is highly recommended.

Leadership Preparation

STH 151 Problem Analysis and Project Planning 1
STH 250 Prime Time Leadership 1

Honors Proposal and Thesis Seminars

STH 395 Honors Proposal Preparation 2
STH 400 Honors Thesis Preparation 2

Honors Research

Minimum number of research credit hours required c, d 6

STH 398 Honors Research or STH 399 Honors Thesis Research

a Students should take an honors section of EH 102 focused on scientific and technical communication (usually designated by "STH" following the course title) either in the fall or spring semester of the first year, depending on whether they come to UAB already having earned credit for EH 101. Students who come to UAB with credit for both EH 101 and EH 102 should instead take the cross-listed course EH 202, usually in their first semester. In any case, a student should take either EH 102 or EH 202 at UAB but not both.

b Students may satisfy the statistics requirement by earning credit for any statistics course approved by the program director, e.g., PY 216 Elementary Statistical Methods or BME 423 Living Systems Analysis and Biostatistics. Alternative credit through AP or IB may also be accepted if approved by the program director.

c Students must have a minimum of six (6) research credit hours comprised of any combination of STH 398 and/or STH 399. Research credit may be earned in fall, spring, and/or summer semesters in any increments as chosen by students at their convenience. Students may substitute no more than three (3) of the six (6) required research credit hours with equivalent research credit course(s) in the department of their major with approval of the program director. All honors research credit applies to the thirty (30) hours of honors credit needed to complete the program.

d Students completing a capstone or innovation thesis instead of a traditional research thesis may substitute STH 394 and/or STH 397 instead of research credit hours. The number and type of hours needed to fulfill this requirement will depend on the thesis plan developed with and approved by the program director. In all cases, a cumulative total of 30 credit hours of honors coursework must still be earned.

Total credit hours: 30

Explanation of Footnotes

† Students should take an honors section of EH 102 focused on scientific and technical communication (usually designated by "STH" following the course title) either in the fall or spring semester of the first year, depending on whether they come to UAB already having earned credit for EH 101. Students who come to UAB with credit for both EH 101 and EH 102 should instead take the cross-listed course EH 202, usually in their first semester. In any case, a student should take either EH 102 or EH 202 at UAB but not both.

§ The honors section of PUH 250 Biostatistics is highly recommended to fulfill the statistics requirement. Students may also satisfy this requirement by taking any statistics course approved by the program director, e.g., PY 216 Elementary Statistical Methods or BME 423 Living Systems Analysis and Biostatistics. Alternative credit through AP or IB may also be accepted if approved by the program director.

§ Students must have a minimum of six (6) research credit hours comprised of any combination of STH 398 and/or STH 399. Research credit may be earned in fall, spring, and/or summer semesters in any increments as chosen by students at their convenience. Students may substitute no more than three (3) of the six (6) required research credit hours with equivalent research credit course(s) in the department of their major with approval of the program director. All honors research credit applies to the thirty (30) hours of honors credit needed to complete the program.
University Honors Program

Program Director: Michael E. Sloane, Ph.D.
Associate Director: William J. Rushton, IV, Ph.D.
Program Manager: Donna Andrews, M.P.A.
Student Counselor: Rebecca Freeman, M.A.

The University Honors Program draws on the wide range of resources available at a comprehensive research university and concentrates those resources within a small, personal, liberal arts setting. Designed for students who want to satisfy their intellectual curiosity both inside and outside the classroom, the program accepts about 50 students a year representing a wide variety of disciplines, backgrounds, and interests. The program offers an innovative, interdisciplinary arts and sciences curriculum taught by faculty who are known for their excellence in teaching and scholarship. Without delaying progress toward a degree, the University Honors Program provides students an opportunity to participate in a community of committed scholars, to form close relationships with faculty, to explore new ideas, and to share their ideas and interests in the friendly confines of the Spencer Honors House.

Benefits

Students in the University Honors Program (UHP) receive a more intensive and innovative education that consists of a 33 credit hour interdisciplinary arts and sciences curriculum that replaces a student's regular core curriculum without adding any additional time to degree completion. Students take two, nine-credit hour interdisciplinary courses and five UHP honors seminars on topics not offered in the regular academic departments. Since the five UHP honors seminars are capped at 16 UHP students, they get to know their instructors and other students very well, providing a sense of community and identity within the larger university context. UHP students have the opportunity to develop their leadership skills by involvement with several student-lead UHP committees and university-wide organizations and initiatives. UHP students receive priority registration and are typically involved in undergraduate research mentored by renowned faculty.

The Spencer Honors House, with all of its facilities, belongs exclusively to students in the UHP and is accessible to them at all times. UHP students have the opportunity to participate in a wide variety of cultural, social, and scholarly events and are funded to present their research at state, regional, and national honors conferences. After completing the program, students graduate with a special designation on their transcripts. In addition, UHP students are recognized annually at the UHP Honors Day ceremony. Graduation from the UHP, with its broad interdisciplinary arts and sciences curriculum gives students a distinct advantage when applying for national awards and scholarships as well as graduate or professional schools.

Spencer Honors House

The center of identity and community for the University Honors Program is the Spencer Honors House, located on campus in the spacious and attractive environment of the Old Church at 1190 10th Avenue South. All instructional and social activities of the University Honors Program take place there. The Spencer Honors House is also available for day-to-day use by UHP students for recreation, studying, meeting, and relaxing. The facilities include a kitchen, lounge areas, library, computer clusters, and pool and Ping-Pong tables. The offices of the director, associate director, program manager, and student counselor are also located in the Spencer Honors House.

Scholarships

The Hess-Abroms Honors Scholarships, awarded annually, are valued at $24,000 each and provide $6,000 per year. Application is open to incoming freshmen. The award is based on superior academic achievement, creativity or talent, strong motivation, character, and intellectual promise. Application materials are made available at the time of interview. The University Honors Program also has a number of smaller ($1,000-$2,000) annual scholarships that are awarded in May each year. Students who have committed to entering the program can apply for these scholarships that are distributed based on merit and need.

Application

For more information on applying to the Honors College or its programs, visit http://www.uab.edu/honorscollege/.

Honors Coursework

Instead of the 41 semester hours of Core Curriculum requirements, students in the University Honors Program take 33 semester hours of honors coursework and three semester hours in mathematics. In addition, they participate in a variety of special events, most of which are centered in the Spencer Honors House. While in no way delaying progress toward a degree or interfering with commitment to a major, the University Honors Program provides a stimulating range and depth of scholarly pursuits within an interdisciplinary arts and sciences context. Students have frequent individual contact with the teaching faculty and have unusual opportunities for independent projects and research.

Honors students have two options for completing their 33 semester hours in honors:

- Two 9-semester-hour fall-semester interdisciplinary honors courses plus five 3-semester-hour honors seminars (only two of which can be related to the student's major or minor); or
- Two 9-semester-hour fall-semester interdisciplinary honors courses, a minimum of three 3-semester-hour honors seminars (not related to the student's major or minor), and up to six semester hours of departmental honors coursework within the student's major (with the total number of semester hours adding up to 33).

The interdisciplinary honors courses are offered during the fall semester and are open only to University Honors students. These courses are team-taught by faculty members (usually six) from different schools in the university and by guest lecturers from the medical center, the business, and other areas. Each interdisciplinary course is organized thematically and designed to cover a broad range of material so that the student is introduced to all areas covered by the Core Curriculum and to a wide variety of other areas as well. Topics of past interdisciplinary honors courses have included "Minds and Realities," "In Search of Human nature," "It's About Time," and "The Anatomy of Desire." As part of the course, each student works on an independent project related to the central theme. Since instructors are committed to full-time teaching of this course, students receive ample advice and guidance on their projects.

The University Honors program offers about 18-20 different honors seminars each year. Some are cross-listed in other departments and so are open to all students at UAB. These seminars are offered during the fall semester, spring semester, and summer term and are limited to 16 students. Honors seminars are available in a variety of different fields and focus on issues that are of major interest within the field and also have implications and applications beyond it. Examples of honors seminars which have been taught are "Ethnographic Filmmaking," "China's Next

**Additional Information about the Curriculum Core Requirement in Mathematics**

In addition to the honors coursework, University Honors Program students must fulfill the mathematics requirement of Area III of the Core Curriculum.

**Credit for Participation in Honors**

Students may receive up to three semester hours of credit, graded on a pass/fail basis, for participating in the range of special events sponsored by the University Honors Program. Those events include:

- The monthly lecture
- First Thursday Lecture series
- Afternoon receptions for visiting speakers
- The fall film series
- Workshops
- Field trips

**Credit for Community Service**

Students may receive up to three semester hours of credit, graded on a pass/fail basis, for completing long-term service projects. Available projects are announced before each semester and typically include:

- Work at a recycling center
- Homeless shelter
- Public school

As well as regular meetings to reflect on these service projects.

**Independent Study**

Students may propose an internship or independent study project in place of one seminar. An example of such a project is an internship at city hall, leading to a policy proposal on some area of city government. Proposals for these projects must be approved by the Honors Council.

**Honors Research**

Students can register for one, two, or three credit hours of Honors Research, and receive a letter grade for their research. Students arrange for a research mentor and conduct a project under the guidance of a faculty mentor.

**Continuation in the Program**

A student who leaves the University Honors Program for any reason will receive full credit toward graduation for all coursework completed in the program. The director of the University Honors Program will designate which of the Core Curriculum requirements have been fulfilled by the individual student’s honors coursework. In addition to the UAB Honors College’s requirement to maintain a 3.0 cumulative UAB GPA, UHP students are expected to maintain a 3.0 average in University Honors Program coursework.

2. Select 3 of the following: HON 201, HON 202, HON 203, HON 204, HON 205, HON 206, HON 207, HON 208, HON 209, HON 211, HON 251, HON 252, hon 254, hon 255, hon 257, hon 258, hon 259, hon 261, hon 262

**Joint Programs**

The Genetics and Genomic Sciences, Immunology, and Neuroscience BS degrees are joint between the College of Arts and Sciences and the School of Medicine. These interdisciplinary programs emphasize a strong foundation in the basic sciences with applications to specific areas of medicine.

The Department of Biomedical Engineering is joint between the School of Engineering and the School of Medicine. It offers a Bachelor of Science in Biomedical Engineering degree that applies engineering principles to the solution of problems in the life sciences and medicine.

**Biomedical Engineering**

Chair: Jianyi Zhang, M.D., Ph.D.
Biomedical engineering (BME) is the application of engineering principles and technology to the solution of problems in the life sciences and medicine. Biomedical engineers create knowledge and develop technologies that improve healthcare delivery and patient outcomes with an emphasis on reducing healthcare costs. Graduates create and apply knowledge at the interface of life sciences and engineering for the benefit of society. The BME undergraduate program prepares graduates to be immediately productive and able to adapt to a rapidly changing environment. The curriculum includes engineering core courses, mathematics, calculus-based physics, biology, chemistry, humanities, social and behavioral sciences, biomedical engineering core courses and electives. The curriculum culminates in a capstone design experience where interdisciplinary teams apply knowledge to solve real-world engineering problems. A bachelor’s degree in BME from UAB provides a foundation in medical devices, biomedical implants, biomaterials, and biomedical instrumentation to compete in an increasingly technical medical field, and also prepares students for graduate school, medical school, or professional school.

The Biomedical Engineering program is currently accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Freshmen with an ACT score of 28 or higher (or SAT equivalent) and a high school GPA of 3.20 or higher may be admitted directly to the Biomedical Engineering program. Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

BME students must maintain an institutional (UAB) GPA of at least 3.00. First-term BME freshmen students who have an institutional GPA below 3.00 will be placed on academic warning in BME. If their institutional GPA is not at least 3.0 after the next term enrolled, they will be placed on academic probation in BME. BME undergraduates (other than first-term freshmen) who do not have an institutional GPA of at least 3.00 will be placed on BME academic probation. If at the end of the next term in which they enroll, their institutional GPA is not at least 3.00, they will be reclassified as Pre-General Engineering. To be re-admitted to the BME program, a student must have an institutional GPA of at least 3.20 and make a formal application for readmission.

BME students must have an institutional GPA of at least 3.00 and have completed at least 64 hours of coursework applicable to their degree before they may register for 300-level and 400-level BME courses. BME students must also have an institutional GPA of 3.00 or higher and have earned a grade of C or better in all BME courses to graduate.

In addition to fulfilling course prerequisites, non-BME students (including pre-BME students and students seeking a BME minor) who wish to enroll in 300-level and 400-level BME courses must have an institutional (UAB) GPA of at least 3.00 as well as permission of the BME Undergraduate Advisor. Non-BME majors may not enroll in BME 423, BME 498, or BME 499. In addition, a minimum overall GPA of 3.00 is required for all engineering coursework applied to a BME minor. Transfer students seeking a BME minor must take at least nine (9) semester hours and earn a minimum GPA of 3.00 in UAB engineering courses attempted before enrolling in BME courses.

Vision
To be an internationally recognized, research-oriented Department of Biomedical Engineering: a top choice for undergraduate and graduate education.

Mission
To improve healthcare by making scientific discoveries, solving problems and advancing technology using quantitative methods; to prepare graduates to succeed in the evolving fields of biomedical engineering and biotechnology.

Educational Objectives
Graduates of the Biomedical Engineering undergraduate program will have:

1. Gained admission to graduate or professional school, or gained employment in engineering and/or health related professions and service
2. Pursed opportunities for professional growth, development, and

**Biomedical Engineering Electives**

Select six credit hours from the following: 6

- BME 408 Advanced Biological Transport Phenomena
- BME 417 Engineering Analysis
- BME 420 Implant-Tissue Interactions
- BME 435 Tissue Engineering
- BME 450 Computational Neuroscience
- BME 461 Bioelectric Phenomena
- BME 471 Continuum Mechanics of Solids
- BME 490 Special Topics in Biomedical Engineering
- BME 491 Individual Study in Biomedical Engineering
- BME 494 Honors Research

**Engineering/Math/Science Electives**

Select six credit hours from the following or from the list of Biomedical Engineering electives above: 6

- CE 337 Hydraulics
- CE 345 Transportation Engineering
- CE 360 Structural Analysis
- CE 395 Engineering Economics
- CE 420 Advanced Mechanics
- CE 433 Solid and Hazardous Wastes Management
- ME 360 Introduction to Mechatronic Systems Engineering
- ME 370 Kinematics and Dynamics of Machinery
- ME 371 Machine Design
- ME 464 Introduction to Finite Element Method
- MSE 281 Physical Materials I
- MSE 281L Physical Materials I Laboratory
- MSE 380 Thermodynamics of Materials
- MSE 401 Materials Processing
- MSE 430 Polymeric Materials
- BY 271 Biology of Microorganisms
- BY 271L and Biology of Microorganisms Laboratory
- BY 280 Biology of Aging
- BY 311 Molecular Genetics
- BY 330 Cell Biology
- BY 362 Neurobiology
- CH 235 Organic Chemistry I
- CH 237 Organic Chemistry II
- CH 355 Quantitative Analysis
- CH 460 Fundamentals of Biochemistry
- MA 313 Patterns, Functions and Algebraic Reasoning
- MA 360 Scientific Programming
- MA 361 Mathematical Modeling
- MA 453 Transforms
- MA 485 Probability

| BME 401 | Undergraduate Biomedical Engineering Seminar | 1 |

**Required Introduction to Engineering Course(s)**

| EGR 110 | Introduction to Engineering I | 2 |
| & EGR 111 | and Introduction to Engineering II | |
| or EGR 200 | Introduction to Engineering | |

**Biomedical Engineering Electives**

Select three of the following courses:

- BME 310: Biomaterials
- BME 312: Biocomputing
- BME 313: Bioinstrumentation
- BME 333: Biomechanics of Solids
- BME 340: Bioimaging
- BME 350: Biological Transport Phenomena

**Biomedical Engineering Electives**

Select two of the following courses:

- BME 408: Advanced Biological Transport Phenomena
- BME 417: Engineering Analysis
- BME 420: Implant-Tissue Interactions
- BME 423: Living Systems Analysis and Biostatistics
- BME 435: Tissue Engineering
- BME 443: Medical Image Processing
- BME 446: Principles of MRI
- BME 450: Computational Neuroscience
- BME 461: Bioelectric Phenomena
- BME 471: Continuum Mechanics of Solids
- BME 480: Biomolecular Modeling

**Total Hours** 21

**Honors in Engineering**

**Purpose**

The honors programs are intended to enrich educational opportunities for talented students in the School of Engineering.

**Benefits**

Students who complete an engineering honors program will have earned nine credit hours in honors coursework. Honors research beyond the required six hours may be applied as graduate credit. Three credit hours of honors research may be applied as an undergraduate elective according to departmental policy. Students who complete an honors program in engineering with a minimum cumulative GPA of 3.0 will receive a bachelor's degree "with Honors" in addition to any University honors designations.

**Eligibility**

In order to be eligible to participate in departmental honors programs, students must meet the following:

- Minimum institutional (UB) GPA of 3.25 and minimum cumulative GPA of 3.0 (BME students must earn a minimum institutional (UB) GPA and cumulative GPA of 3.75)
- Completion of MA 227 Calculus III or EGR 265 Math Tools for Engineering Problem Solving with a C or better
- Enrollment as a full-time UAB student for a minimum of one semester
- Departmental endorsement

Invitations are extended by the Dean’s office during spring semester of each year.

**Requirements**

Honors programs require nine credit hours of honors coursework.

- Students enroll in EGR 301 Honors Research I, a one-hour course, no later than junior year. Students participating in the Science and Technology Honors program are not required to take EGR 301.
- Students enroll in two one-hour seminars which can be taken at any time in their course of study.
- Students complete six hours of credit in departmental honors research.
- Individual programs may vary in the way credit is awarded. For information regarding departmental requirements, contact the departmental program director listed below.

**Contact**

Honors Programs are offered by all undergraduate degree programs in the School of Engineering.

- Biomedical Engineering ([http://www.uab.edu/engineering/bme/undergraduate/honors](http://www.uab.edu/engineering/bme/undergraduate/honors)) (Dr. Alan Eberhardt (%20aeberhar@uab.edu))

The central goals of the GGS undergraduate major is to provide students with a strong educational and research background and prepare them to become accomplished research scientists, clinicians, and health-care professionals who will be equipped with the knowledge to contribute to future discoveries in genetics and genomics. Our faculty, through their strong academic and research experience and expertise in the fields of genetics and genomic sciences, will help students accomplish these goals through the following mechanisms:

- **Academic coursework** - students are provided with a strong academic and intellectual foundation through coursework in biology, chemistry, mathematics, physics, genetics, and genomics.
- **Authentic research experience** – Qualified students are offered opportunities to perform laboratory research under the direction of faculty mentors to learn cutting-edge experimental approaches and innovative methods in genetics and genomics research.
- **Mentoring and career guidance** - students are provided with academic and career counseling to identify graduate and professional programs, or jobs most suited to their interests.

## Admissions

The GGS program is designed for graduating high school seniors and college freshmen or sophomores with a strong academic record and the motivation to pursue a career in the biomedical sciences.

### Genetics & Genomic Sciences

The UAB Undergraduate Program in Genetics and Genomic Sciences (GGS) is an interdisciplinary major between the Department of Genetics in the School of Medicine and the Department of Biology in the College of Arts and Sciences. Genetics refers to study of genes and their roles in inheritance, while genomics describes investigations of large sets of genes or gene products, up to and including the entire genome. Genetics is one of the most important fields in biological sciences, and affects all aspects of our lives. There have been major breakthroughs in the fields of genetics and genomics during the last decade, and this has created a significant need for individuals with training in these cutting-edge disciplines.

Transfer students may substitute EGR 200 for EGR 110 and EGR 111.

May substitute MA 227 and MA 252 for EGR 265 and one Math/Science/Engineering/Biomedical Engineering Elective.

Students using this curriculum as a pre-health professional program (pre-med, pre-dental, or pre-optometry) may use CH 237, CH 238 or CH 460 for this elective.

Please refer to the Core Curriculum as specified for engineering majors.

Seminar may be taken during any semester.
To successfully complete the GGS Honors Program you will need to:

- Take 6-9 semester hours of GGSC 390 Honors Research in Genetics and Genomic Sciences (GGSC 493) course during the junior or senior year. This course should be taken during the first semester after completion of the research project, or alternatively can be taken concurrently with GGS Honors Research in Genetics and Genomic Sciences (GGSC 390) during the student’s final semester of supervised research. Can also be taken to fulfill the Capstone requirement.
- Complete a formal written report in the form of a scientific paper.
- Submit an oral or poster presentation at Biology Research Day or the UAB Expo during their junior or senior year. Under special circumstances, the poster may be presented at other times of the year pending approval of the Program Directors.

### Honors Eligibility

To be accepted into the Genetics and Genomic Sciences Honors Program, you must:

- Have completed at least 45 credit hours
- Have a 3.5 GPA in GGSC and Biology courses
- Have a 3.2 GPA overall
- Have already completed BY 123 and 123L, BY 124 and 124L, BY 210, CH 115/116, and CH 117/118
- Honors Research in Genetics and Genomic Sciences can also be taken as part of the University Honors Programs. GGS majors generally enter their research labs in the fall semester of their junior year; however, they may begin their research work in the spring semester of their sophomore year or earlier with permission of the Program Directors.
- Qualified non-Honors students will be encouraged, but not required to participate in research as part of their GGS BS degree. Non-Honors students must receive permission from the Program Directors before entering a research lab. In addition, they must complete the course requirements listed above. However, these students will register for the GGSC 380 Undergraduate Research in Genetics and Genomic Sciences and GGSC 492 Undergraduate Research Seminar in Genetics and Genomic Sciences courses.

---

### Required for Genetics and Genomic Sciences Honors Students

To successfully complete the GGS Honors Program you will need to:

- Take 6-9 semester hours of GGSC 390 Honors Research in Genetics and Genomic Sciences. Each semester hour per term requires a minimum of 3 hours of laboratory work per week.
- Complete the required Occupational Health and Safety training courses.
- Submit a formal research report by the end of each semester of Honors Research. The proposal should include a summary of the student’s research findings incorporating an introduction, methods, and relevant literature review.

---

Second Term: **14**
The Undergraduate Immunology Program requires students to take the core sciences as part of their curriculum, they will meet the prerequisites for entry into graduate and professional schools.

The Undergraduate Immunology Program and its Faculty will accomplish the goals of the program through four interrelated mechanisms. First, students will be provided an outstanding academic and intellectual foundation through their coursework in biology, chemistry, physics, mathematics and immunology. Second, students will be immersed in a laboratory research setting where they will learn state-of-the-art research techniques and methodologies that will enable them to address important questions in Immunology through one-on-one interactions with faculty mentors and research laboratory personnel. Third, students will be able to gain skills and knowledge related to the scientific method, critical thinking, problem solving, data analysis and scientific communication (both oral and written) that will allow them to become an integral member of a research team and to present their work at poster sessions at local, regional and national meetings. Fourth, students will be able to access academic and career counseling to determine the career path that is ideally suited to their interests, as well as to identify professional or graduate programs and how best to prepare to be highly competitive for entrance into such programs.

The Undergraduate Immunology Program is designed to prepare graduates to pursue careers in research or health-related professions. Successful graduates will be competitive for acceptance into highly competitive graduate or professional degree programs that will enable them to become accomplished scientists, clinicians and health-care professionals who will contribute to efforts to elucidate the function of the immune system as it relates to health and disease. Graduates will be at the forefront of efforts to fight emerging infectious diseases, to address global health problems, to develop new vaccines, or to find treatments for chronic diseases, including cancer, autoimmunity or asthma.

Admissions

The Undergraduate Immunology Program is designed for graduating high school seniors and college freshmen and sophomores with an outstanding academic record and the desire to pursue a career in biomedical research, medicine or the health professions. Successful applicants to the Program should meet the admissions criteria below.

High school students with a GPA of 3.5 or better and an ACT score of 28 or better will be considered for immediate acceptance into the Immunology Program. High school students who do not meet these requirements may be accepted into the program as pre-immunology majors. Any student who is admitted as a pre-immunology major must have an overall GPA #3.0 after 24 credits of work at UAB, a GPA #3.25 in their Biology, Chemistry, Physics and Mathematics (MA 105 and higher) coursework, and have taken a freshman year curriculum that is compatible with the Program.

Current UAB students and transfer students from other institutions who are freshmen or sophomores (non-direct admits) may select Immunology for their major, but must have an overall GPA #3.0 and must have demonstrated excellent academic performance in science/mathematics courses and have a GPA #3.25 in those courses.

Students must maintain an overall GPA #3.0 in order to remain in good academic standing in the Program. If a student’s overall GPA falls below 3.0, they will have one semester to bring their overall grade to 3.0 or better.

Those who wish to apply to the Program should contact the Program Directors (uihp@uab.edu) for additional information. The Director, Dr. 

---

**Immunology**

The UAB Undergraduate Immunology Program was established in 2016 as a joint program between the Department of Microbiology in the School of Medicine and the Department of Biology in the College of Arts and Sciences. The goal of the Immunology Major is to insure that undergraduates acquire knowledge in the fundamental aspects of Immunology, including the cells, organs and tissues that comprise the immune system and how the system functions as a whole to protect humans against infectious diseases. The science of Immunology is multidisciplinary and encompasses the study of both normal processes that confer protection and pathophysiological processes that cause disease. Normal processes include the response to microbial pathogens, vaccines and cancer, which confer "immunity." Abnormal functions of the immune system contribute to significant disease processes that include: asthma/allergy, autoimmunity, inflammatory syndromes (cancer, diabetes, heart disease, chronic neurological diseases), immunodeficiencies (both congenital and acquired), and transplant rejection.

The Undergraduate Immunology Program will provide students with a solid foundation in the core sciences, including chemistry, physics and biology. Students will be required to take inorganic, organic and biochemistry, as well as introductory biology, genetics, and the biology of microorganisms. Because the Undergraduate Immunology Program has a strong focus on these core sciences, majors will have the necessary foundation upon which to learn the principles of the immune system with respect to its normal and pathophysiological function. Moreover, because the Undergraduate Immunology Program requires students to take the core sciences as part of their curriculum, they will meet the prerequisites for entry into graduate and professional schools.

---

</tbody>
</table>

1. Students must satisfactorily complete a minimum of 120 semester hours (including Core Curriculum) with no grades lower than a C in the major.

2. Complete either trig-based or calculus-based physics series.

3. Undergraduate Research: Immunology Majors are required to be engaged in a minimum of 6 semester credit hours of research under the direction of a faculty member beginning no later than the first semester of their junior year. However, qualified students may identify a mentor and begin conducting research as early as their freshman year. Course credit will be provided via MIC 398, MIC 492*, MIC 498 or MIC 499*.

4. Students must complete 18 hours of General Electives from Honors or any Core Area. The following are recommended but not required: BY 245 BY 330, BY 409 BY 433, BY 434, BY 437, BY 490, BY 491, GGSC 310, GGSC 410

Academic Performance: Immunology majors must maintain an overall GPA of 3.0 or better to remain in the program. Majors will be allowed one semester to raise their GPA.

Capstone Requirement: Students can fulfill their Capstone requirement by taking either MIC 403, MIC 404, MIC 492 or MIC 499 or BY 490 or BY 491. In order to receive Honors in Immunology, students must take MIC 499.

Honors Program in Immunology

Purpose

The Immunology Honors Program offers motivated students the opportunity to develop research, communication and responsible conduct of research skills in preparation for a professional career in research or the health professions.

Eligibility

To be accepted into the Immunology Honors Program, you must:

- Have completed at least 45 credit hours.
- Have a GPA 3.5 in BY, CH and MIC courses.
- Have a GPA 3.25 overall.
- Have already completed BY 123 and 123L, BY 124 and 124L, BY 210, CH 115/116, and CH 117/118.
- Have arranged with a faculty sponsor to do a research project and received approval from the Program Director.
- Honors Research in Immunology and Host Defense can also be taken as part of the University Honors Programs. Immunology majors
generally enter their research labs in the fall semester of their junior year; however, they may begin their research work in the spring semester of their sophomore year or earlier with permission of the Program Directors.

Requirements.

To successfully complete the Immunology Honors Program, students will need to:

- Complete the required Occupational Health and Safety training courses.
- Take a minimum of 6 semester credit hours of MIC 498 Honors Research in Immunology and Host Defense. Each semester credit hour per term requires a minimum of 3 hours of laboratory work per week.
- Submit a formal research proposal by the end of the first semester of Honors Research. The proposal should include a synopsis of the proposed research incorporating an introduction, proposed methods, and relevant literature review.
- Take the Honors Research Seminar in Immunology and Host Defense (MIC 499) course during the junior or senior year. This course can be taken to fulfill the Capstone requirement.
- Complete a formal written report in the form of a scientific paper.
- Submit an oral or poster presentation at Biology Research Day or the UAB Expo during their junior or senior year. Under special circumstances, the poster may be presented at other times of the year pending approval of the Program Directors.

Immunology 4-Year Plan

1. Often use AP credit for EH 101, can take EH 102 instead
2. Sometimes taken summer after freshman year
3. BY 440 requires permission of the program director.

Neuroscience

Neuroscience is an ideal major for motivated students who want to pursue careers in medicine, research, and other health related disciplines. The curriculum for a BS degree in Neuroscience combines coursework in biology, chemistry, math, physics, psychology, and neurobiology to provide students an interdisciplinary understanding of the body's most complex organ system.

The UAB Undergraduate Neuroscience Program (UNP) (http://www.uab.edu/cas/neuroscience) is an interdisciplinary major between the Department of Neurobiology (https://www.uab.edu/medicine/neurobiology) in the School of Medicine and the Department of Psychology in the College of Arts and Sciences. Neuroscience is the study of the development, structure and function of the nervous system, with a special focus on the brain and its role in behavior and cognitive functions. Neuroscience also seeks to understand the molecular basis of nervous system disorders and diseases. Multidisciplinary in nature, the field of Neuroscience spans the anatomy, evolution, development, genetics, biochemistry, cell biology, physiology, electrophysiology, pharmacology, circuitry and pathology of the nervous system. Therefore, neuroscience integrates biology, chemistry, physics, mathematics, psychology, and computer science. It is one of the most rapidly advancing fields in biomedical research.

The goals of the UNP are to prepare and advance UAB undergraduates to careers in research and health-related sciences in highly competitive programs and to enable UAB graduates to become accomplished research scientists, clinicians and health-care professionals who will be ideally equipped for future study of the nervous system and treatment and discovery of cures for neurological, psychiatric and neurodevelopmental disorders and injury.

The UNP and its Training Faculty accomplish these goals by four complementary mechanisms. First, students are provided with a solid academic and intellectual foundation through coursework in biology, chemistry, mathematics, physics, psychology and neuroscience (http://www.uab.edu/cas/neuroscience/academic-programs/the-major). Second, students conduct original hands-on laboratory research under the direction of faculty mentors (http://www.uab.edu/cas/neuroscience/people/faculty-directory) to learn the state-of-the-art experimental approaches and methods in Neuroscience research. Third, students are mentored in the development of skills in scientific method, experimental analysis, and effective oral and written communication (http://www.uab.edu/cas/neuroscience/academic-programs/research). Students
are expected to become active "colleagues" in faculty laboratories, which should result in publications in scientific journals and presentations at professional meetings. Fourth, students are provided with one-on-one academic and career counseling to identify professional programs most suited to their interests, and strategies to be competitive applicants to these programs.

Students earning the B.S. in Neuroscience at UAB are ideally suited for admission into the nation’s most prestigious graduate programs, and medical and professional schools.

Admissions

The UNP is designed for graduating high school seniors and college freshmen or sophomores with a strong academic record and the motivation to pursue a career in biomedical science. Please note carefully the following items.

High school students with an ACT score of 28 or higher and a GPA of 3.5 or higher (the UAB Honors College admissions criteria) are eligible for immediate acceptance into the Neuroscience major. Others may choose to attend UAB before applying in the freshman or sophomore year. Current UAB students whose high school credentials meet the minimum requirements and/or whose academic performance in freshman science courses is excellent may apply at any time (http://www.uab.edu/cas/neuroscience/academic-programs/apply). Please contact Dr. Cristin Gavin (cfgavin@uab.edu) or Dr. Rajesh Kana (rkana@uab.edu), if you would like to be considered for admission to the Program. Program Leadership is available to meet with high school students and their parents, or with current UAB students, to discuss the Program.

| & 222L                   | and General Physics Laboratory II |

General

| MA 125                  | Calculus I |
| PHL 116                 | Bioethics |

Statistics

Select one of the following: ¹

3-4

| NBL 210                 | Scientific Reasoning and Medical Research Design |
| PUH 250                 | Biostatistics |
| STH 301                 | Statistics and Design Overview |
| PY 216                  | Elementary Statistical Methods |
| & 216L                  | and Elementary Statistical Methods Laboratory |
| MA 180                  | Introduction to Statistics |

Research

Students may choose to complete a laboratory- or literature-based research thesis.

For the research-based thesis students complete:
1 Medical school requires 6 hours of college math. AP Calculus can be substituted for 3 credit hours, but pre-medical students must take another math course at UAB. MA 180 will satisfy the requirement; therefore, students planning to attend medical school should take MA 180.

2 Research credit hours (NBL/PY 398) are distributed across multiple semesters. Students should register for NBL 398 if their research mentor resides in the School of Medicine, and PY 398 if their mentor resides in the College of Arts and Sciences. NBL 398 and PY 398 credit can be applied toward completion of the Science and Technology Honors Program.

Neuroscience majors in the laboratory-based research track should be working under the direction of a faculty mentor no later than the first semester of their junior year. However, students may identify a mentor and begin conducting research following completion of their Laboratory Research Orientation and Responsible Conduct of Research Training in their freshman year.

Recommended but not Required:
NBL 225 No Self Control: Motivation, Reward and Addiction (3 credit hours)
NBL 240 Introduction to Neuroscience Methods (3 credit hours)
NBL 327 100 Things You've Always Wanted to Know About the Brain (3 credit hours)
NBL 245 The Neurobiology of Learning and Memory (3 credit hours)
PY 470 Introduction to Neurobiology (3 credit hours)
BY 330 Cell Biology (3 credit hours)
BY 210 Genetics (3 credit hours)
PY 236 Research Biometodology (3 credit hours)
PY 305 Medical Psychology (3 credit hours)
PY 335 Motivation and Emotion (3 credit hours)
PY 372 Social Psychology (3 credit hours)
PY 390 Animal Behavior (3 credit hours)

Premedical students should take SOC 100.

Academic Performance Requirement: Neuroscience majors must maintain an overall GPA of 3.0 to remain in the program. Any students falling below the academic requirement will be given 2 semesters to raise their GPA and a subsequent semester of academic probation with the program.

Total Hours 18-19
Kinesiology (P-12) | Kinesiology (Physical Education) | Human Studies
---|---|---
Physics (6-12) | Physics | Curriculum & Instruction

* Please refer to UABTeach information located in the College of Arts and Sciences portion of the Undergraduate Catalog and in the sections that follow.

** These programs require a dual major in the teaching field and high school education. Individuals seeking certification in General Science must complete a major in biology, chemistry, or physics and meet additional coursework requirements as approved by the Alabama State Department of Education.

Please Note: Students seeking teacher certification in the programs above must meet all requirements for program admission, retention, completion, and certification as required by the Alabama State Department of Education (ALSDE). Alabama certification regulations are subject to change and requirements delineated in this catalog may not reflect current requirements. Therefore, students are urged to seek advisement through the Office of Student Services each term to stay abreast of current teacher certification requirements.

These baccalaureate degrees above lead to Class B certification. Once a student has successfully completed all degree and program requirements, he or she can apply for Alabama teacher certification through the School of Education Office of Student Services. The School of Education only recommends a student for certification, and the ultimate decision is made by the Alabama State Board of Education.

Non-Teacher Certification Programs

At the undergraduate level, students may complete non-teacher certification concentrations in the following areas:

STEM Education | Science, Technology, UABTeach Engineering and Mathematics

Office of Clinical Experiences

The Office of Clinical Experiences is responsible for coordinating student teaching and other clinical experiences for the School of Education. Information concerning student teaching applications, placement, and field experiences may be found in Suite 232 in the Education Building.

Office of Student Services

The Office of Student Services is located in Suite 232 in the Education Building, provides academic advising to undergraduate Education majors. This office is also responsible for academic records and recommendations for teacher certification for the School of Education. Application materials for the Teacher Education Program and for Alabama teacher certification can be found at http://www.uab.edu/soestudentservices/

Alabama teacher certification programs and basic degree requirements vary among majors. Students should contact this office early in their studies to be certain they will meet School of Education requirements and Alabama Department of Education teacher certification requirements. The Alabama State Department of Education sets requirements for teacher education majors. Changes to these requirements may occur periodically so students should meet with their academic advisor at least once per semester to receive the most updated information about the Alabama State Department of Education requirements.

Honors Program in Exercise Science and Fitness Leadership

The Department of Human Studies offers an Honors Program for Exercise Science and Fitness Leadership students. Highly qualified students will have the opportunity to work one-on-one with a mentor in an area of mutual interest and conduct either a research or civic engagement project designed to meet some particular need as it relates to pertinent areas of fitness, exercise, and physical activity. For more information go to: http://www.uab.edu/education/studentservices/current-students/get-involved/honors-program.

Honors Program in Early Childhood and Education

Students in the Early Childhood and Elementary Honors Program graduate with departmental honors that will be designated on their transcripts and recognized during commencement exercises. In order to become eligible for this designation, students must meet the following criteria:

- Demonstrated commitment to Early Childhood and Elementary Education.
- Junior standing and the completion of nine (9) hours pre-professional education courses from ECY 300, EEC 300, EEC 301, EDF 362, and EPR 363.
- 3.5 GPA in Education courses taken, 3.0 GPA overall.

In order to participate in the Honors Program and graduate with “Honors Designation”, students must file an application with the Office of Curriculum & Instruction (Room 100) following an invitation from the
respective program area. Following acceptance, students must enroll and complete the following two Education Honors Courses: EDH 491 - Honors Education Research and EDH 492 - Honors Education Service Project. Students must maintain an overall GPA of 3.0 or above and 3.25 in education courses through graduation.

EDH 491 - Education Research. Prerequisite: admission into the EEC Honors Program.

EDH 492 - Honors Education Service Project. Prerequisite: admission into the EEC Honors Program and completion of EHS 491.

Admission and Program of Student Requirements

Admission and program of student requirements for all undergraduate degrees, majors, and concentrations may be located at http://www.uab.edu/education/studentservices/admissions/checklists/undergraduate/bachelors

TEP Retention Requirements

A student may be dropped from the Teacher Education Program for failure to maintain satisfactory academic performance or professional dispositions as described by School of Education policy. Consistent with UAB policy on readmission, students readmitted to UAB must complete all program requirements, including TEP admissions and retention and completion requirements as outlined in the catalog under which they are officially readmitted.

1. Additional retention requirements by program:
   a. Early Childhood/Elementary Education
      i) Grade of "C" or better in all Pedagogy I courses (EDR 440, EEC 402, EEC 405, EEC 406, and EEC 494) and a GPA of 3.0 or higher in the Pedagogy I courses.
      ii) Grade of "C" or better in all Pedagogy II courses (EEC 412, EEC 413, EEC 414, EDR 443, and EEC 494) and a GPA of 3.0 or higher in the Pedagogy II courses.

Student Teaching Requirements

All students seeking baccalaureate degrees leading to teaching certificates must participate in a student teaching internship. All students must apply for student teaching by January 31 of the academic year that precedes student teaching. Applications are available online at the School of Education website, Office of Clinical Experiences. For additional information contact the Office of Clinical Experiences in Suite 232 of the Education Building.

To be eligible for this internship, students must have an approved student teaching application based on the following:

Early Childhood/Elementary Education:

1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the Early Childhood/Elementary program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.30 in all Teaching Field courses.
8. Passing score on all three parts of the Alabama Educator Certification Testing Program (AECAP).
9. Passing score on all parts of the Praxis II: Elementary Education Multiple Subjects.
11. Passing score on Praxis II: Teaching Reading.
12. Passing score on Praxis II: Principles of Learning and Teaching K-6 or the edTPA.
13. Demonstration of the dispositions needed to be successful as a teacher of young children, including children with special needs.
14. Documentation of requisite field experience hours in schools.
15. Criminal history background check status shown as "cleared" on the Alabama State Department of Education database.

Kinesiology: (Physical Education):

1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the Kinesiology program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.75 in all Teaching Field courses.
7. Completion of all teaching field courses (KIN 307, KIN 308, KIN 311, KIN 320, KIN 320L, KIN 400, KIN 402, KIN 409, and KIN 489) with a grade of "C" or better.
8. Passing score on the Praxis I.
10. Passing score on Praxis II: Principles of Learning and Teaching K-6 (Code 5622) OR Praxis II: Principles of Learning and Teaching 7-12 or the edTPA.
11. Demonstration of the dispositions needed to be successful as a teacher.
12. Documentation of the requisite field experience hours in schools.
13. Criminal history background check status shown as "cleared" on the Alabama State Department of Education database.

High School and Middle School Education:

1. Formal admission to the Teacher Education Program (TEP).
2. Student teaching application approved by the faculty in the High School Education program.
3. Minimum higher education GPA of 2.75.
4. Minimum GPA of 2.75 in core curriculum courses.
5. Minimum GPA of 2.75 in all Professional Studies courses.
6. Minimum GPA of 2.75 in all Teaching Field courses.
7. Completion of all coursework. In some instances, a student may be allowed to take a teaching field course during the semester that immediately follows the student teaching semester. Students should
regularly consult with their advisor to plan their program so that all teaching field courses are completed prior to student teaching.

8. Passing score on all three parts of the Praxis I.
9. Passing score on the appropriate Praxis II Subject Assessment.
10. Passing score on Praxis II: Principles of Learning and Teaching 7-12 or the edTPA.
11. Demonstration of the dispositions needed to be a successful teacher of middle and high school students, including students with special needs.
12. Documentation of requisite field experience hours in schools.
13. Criminal history background check status shown as “cleared” on the Alabama State Department of Education database.

Students approved to teach in Secondary Education must be concurrently enrolled in EHS 490 Secondary School Student Teaching I and EHS 489 Internship Seminar in Secondary Education. Students cannot take additional coursework besides these two courses during the term in which they student teach.

TEP Completion and Certification Requirements

A student who satisfies TEP admission and retention requirements and who meets the following completion requirements will be recommended for "Class B" teacher certification. Students must apply for certification. Certification application packets are available on the School of Education-Office of Student Services website www.uab.edu/soestudentservices, and should be completed and returned to the Office of Student Services, Suite 232, Education Building during the semester of program completion.

1. Students must have a minimum 2.75 higher education GPA, 2.75 teaching field GPA, and 2.75 professional studies GPA with no grade below "C" in professional studies courses.
2. Students must complete all courses on the Alabama State Board of Education approved checklist for the teaching field(s) in which certification is sought.
3. Students must demonstrate readiness to teach through on-the-job performance as a student teacher. This evaluation is conducted by the School of Education faculty and appropriate personnel from local school systems.
4. Students must document a passing score on the Praxis I and all appropriate Praxis II and/or the edTPA. Official score reports must be sent to both UAB and the Alabama State Department of Education.
5. The Alabama State Department of Education has additional requirements for teacher certification. Included in these are fees associated with obtaining a certificate which are set by legislative action and may be changed. Students seeking initial certification are required to obtain background clearance to determine any criminal history through a fingerprint review conducted by the Alabama Bureau of Investigation (ABI) and the Federal Bureau of Investigation (FBI) prior to the issuance of a teaching certificate. A current application and fee payment for official transcripts are also required. Information on these requirements is available in the Office of Student Services, Suite 232, Education Building, and is included in the certification application packet.

Teacher Certification for Students who Hold a Baccalaureate Degree

There are several routes to teacher certification in the state of Alabama for those who already hold a baccalaureate degree. One option is to return to school to complete the current undergraduate coursework required for teacher certification. In general, individuals exercising this option are required to meet the same requirements for admission to, retention in, and exit from the Teacher Education Program as indicated above. Additionally, these students are required to have a program plan approved by the department chair before enrolling in any courses. A second option is to pursue the Alternative Master’s Program. Completion of this program and all its requirements leads to a master's degree in education and Alabama "Class A" teacher certification.

Additional information on these and other options may be found on the Alabama State Department of Education's web site (www.alsde.edu) or by contacting The Office of Student Services.

UABTeach

Visit the UABTeach website (https://www.uab.edu/uabteach/) for more information.

Program Co-Directors

UAB College of Arts and Sciences / Department of Mathematics
(205) 934-2154
jmayer@uab.edu

Lee Meadows
UAB School of Education / Department of Curriculum and Instruction
(205) 934-8371
lmeadows@uab.edu

UABTeach (https://www.uab.edu/uabteach) is the program for all students seeking certification to teach secondary school (grades 6-12) in the sciences and mathematics, and in middle school mathematics (grades 4-8), with an undergraduate degree. It is a cooperative program among the College of Arts and Sciences (CAS), the School of Education, and the School of Engineering. To obtain teaching certification in Chemistry, Biology, Physics, General Science, or Mathematics, students major in their STEM field (Science, Technology, Engineering, and Mathematics) and participate in the UABTeach program. UABTeach is not a major, but rather leads to a minor in STEM Education (through the School of Education) and a Class B teaching certificate. Students considering seeking teaching certification in a STEM field should contact both their STEM advisor and the UABTeach advisor (HHB 210, 205-975-7424, UABTeach (https://www.uab.edu/uabteach)).

UABTeach consists of a sequence of eight courses (24 credit hours), ideally taken over eight semesters as outlined below. Courses with an EHS prefix are normally taken in sequence. However, there are pathways for students entering UABTeach after the first semester of their freshman year, and up until the first semester of their junior year, described in detail on the UABTeach website, which allow some overlap of courses. Normally, students can complete the UABTeach courses without adding any additional time to their degree, provided they are on schedule in their STEM major, and have not already begun their junior year. Currently, UABTeach courses are offered only in Fall and Spring semesters.

- Semester 1: Step1, Inquiry Approaches to Teaching (EHS 125, 1 hour; also counts as First Year Experience course in CAS)
- Semester 2: Step2, Inquiry-Based Lesson Design (EHS 126, 1 hour)
• Semester 3: Knowing and Learning in Mathematics and Science (EHS 325, 3 hours)
• Semester 4: Perspectives on Science and Mathematics (HY 275) or Science, Knowledge, and Reality (PHL 270, 3 hours)
• Semester 5: Classroom Interactions (EHS 326, 3 hours)
• Semester 6: Research Methods* (number varies with STEM department, 3 hours) OR Functions and Modeling** (MA 361, 3 hours)
• Semester 7: Project-Based Instruction (EHS 327, 3 hours)
• Semester 8: Apprentice Teaching (EHS 425 and EHS 426, 7 hours)

* The Research Methods course is required for all UABTeach students earning science certification, and it is recommended for future math teachers.
** Functions and Modeling is required for all UABTeach students earning mathematics certification, and it is recommended for future science teachers.

The following table lists the currently available certifications, and the majors leading to them, under UABTeach.

Minor in STEM (Science, Technology, Engineering, and Math) Education

The STEM Education Minor includes the same courses UABTeach (https://www.uab.edu/uabteach) students take to earn Alabama teacher certification. So UABTeach (https://www.uab.edu/uabteach) students can add a minor with no additional coursework and have an element of their academic transcript reflect the work they have done to prepare themselves for teaching. The STEM Education Minor also includes an elective pathway designed to allow UABTeach (https://www.uab.edu/uabteach) students who elect not to complete Apprentice Teaching (EHS 425) and their certification requirements to add education electives to bring their minor coursework up to the required minimum of 18 hours.

</tbody>
</table>

Total Hours 18

1 The elective course structure is designed to allow UABTeach students who elect not to complete certification to earn a minor without enrolling in Apprentice Teaching, which is the student teaching option in UABTeach
2 Course may not be used as a minor elective if also counted toward the students' major
3 e.g. BY 492, CH 492, PH 494. Course may not be used as a minor elective if also counted toward the students' major.

Department of Curriculum and Instruction

Interim Chair: Tonya Perry, Ph.D.

The Department of Curriculum and Instruction offers undergraduate programs leading to a B.S. degree and Alabama “Class B” certification in elementary education (grades K-6), early childhood/elementary education (grades Pre-K-6), and secondary education (grades 6-12). Teacher education programs are offered in conjunction with the College of Arts and Sciences in the following areas: music (choral and instrumental), science, and mathematics.

Students preparing to teach are expected to participate in a series of planned assignments in community and/or school settings both before and after admission to the Teacher Education Program. These opportunities to work with children and youth are designed to enhance the students’ professional development and to supplement their campus coursework.

Early Childhood Education - Non-Certification Program

The early childhood education non-certification program is designed to prepare students to work in a variety of early care and educational settings serving children ages birth to five. Career options include but are not limited to childcare administration, childcare resource and referral, and teaching in preschool and Head Start classrooms. Students successfully completing the program will receive a baccalaureate degree in early childhood education. In addition to studying general child development content, students will learn the basics of planning, implementing, and evaluating early childhood programs. Professional preparation includes courses in child development, curriculum,
instructional strategies, assessment, and technology. The program includes extensive field experiences in infant, toddler, and preschool classrooms.

There are two pathways to earning an early childhood non-certification bachelor’s degree. One option, the 2+2 option, is designed for students who complete an Associate degree in child development at an Alabama community college. These students transfer to UAB and complete the second half of the early childhood education non-certification bachelor’s degree program. Option two is for students who begin their post-secondary education at a four-year institution.

Core Curriculum for Early Childhood Education (Non-Certification Program) ¹

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undergraduate_experience)

¹ Core Curriculum Area IV: PY 101 Introduction to Psychology & SOC 100 Introduction to Sociology preferred.

Total Hours 74

Early Childhood and Elementary Education (Teacher Certification Program)

The early childhood/elementary education program is designed as a double major program. Students successfully completing the program and all requirements outlined below will receive a baccalaureate degree and be eligible for Alabama “Class B” professional teaching certificates in early childhood education (grades P-3) and elementary education (grades K-6).

Professional preparation includes courses in humanistic and behavioral studies, early childhood education, elementary education, curriculum and teaching, evaluation of teaching and learning, extensive pre-internship field experiences in P-6 settings, and an internship. Students must work closely with their faculty advisor for appropriate selection of courses in each area of general and professional studies.

**Middle School Education**

A program in middle grades mathematics (grades 4-8) is offered in conjunction with the College of Arts and Sciences. Students following this program must meet TEP entrance, retention, and completion requirements as outlined in previous sections in order to be recommended for Alabama teacher certification. Students seeking certification in middle grades mathematics should complete the Mathematical Reasoning track of the Mathematics major within the Department of Mathematics (See Catalog). For education course requirements, contact the Office of Student Services (934-7530), within the School of Education, for the current checklist. This program is a part of the UABTeach Program. For more information on UABTeach contact Dr. Lee Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website at www.uab.edu/uabteach.

**High School Education**

Secondary education has programs leading to teacher certification in biology, chemistry, physics, general science, English language arts, general social science, mathematics, and music education as described below.

**Arts Education with a Concentration in Music (Instrumental and Vocal/Choral)**

Programs leading to grades (P-12) certification in music (instrumental and vocal/choral) are offered in conjunction with the Department of Music within the College of Arts and Sciences. Candidates obtain a major in music and should seek advising on music courses from their music/CAS advisors. Candidates also complete a series of education courses leading to teacher certification and should seek advising related to teacher certification from the Office of Student Services, Education Building, Suite #232, Phone: (205) 934-7530. Candidates must meet all requirements for admission to the Teacher Education Program (TEP) and complete all requirements (such as state mandated tests) leading to teacher certification. Students should consult with their education advisor once per term and also with a content advisor in CAS to ensure they stay on track for all requirements.

**High School Education - English Language Arts and General Social Science**

Secondary education offers a major in secondary education and certification for grades 6-12 in English language arts (ELA) and in general social science (GSS). Candidates obtaining certification in these two teaching fields must either have an academic major (in English for ELA or in history for GSS) or meet the highly qualified condition specified by the Alabama State Department of Education (ALSDE). Because of teacher certification requirements, content coursework may slightly differ from those courses required of traditional English or history majors. Thus, candidates should follow the appropriate program checklist assigned.
by the Office of Student Services within the School of Education to ensure that they meet certification requirements. Although an academic major in English or history may be built into the certification checklists, candidates should seek advising for these content majors from College of Arts and Science (CAS) advisors to insure they meet all current degree requirements for either English or history. Students who complete requirements for both an academic major and an education major will receive a single degree with both majors listed.

Due to ALSDE regulations for teachers, Core Curriculum requirements for education majors are more specific than Core Curriculum requirements for academic majors. Students should seek advising and obtain a program checklist from the Office of Student Services, Education Building, Suite #232, Phone: (205) 934-7530. Students should also consult with their education advisor once per term and also with a content advisor in CAS to insure they stay on track for all requirements.

Bachelor of Science with a Major in High School Education/English Language Arts

This curriculum results in a major in secondary education with teacher certification in English language arts.

Requirements | Hours |
---|---|
HY 101 Western Civilization I | 3  
HY 102 Western Civilization II | 3  
HY 120 The United States To 1877 | 3  
HY 121 The United States Since 1877 | 3  
HY 225 History of Alabama | 3  
HY 300 The Historian's Craft | 3  
Non- Western History (* Please consult your advisor*) | 3  
History Electives at 300/400 Level (9 hours at 400 Level) | 15  
HY 497 History Capstone | 3  
| Total Hours | 39

For other history courses see the current checklist in the Offices of Student Services within the School of Education. See the requirements for a history major within the catalog listings for the College of Arts and Sciences. You should confer with advisors in Education and CAS about specific history requirements. Students seeking teacher certification may have more specific requirements than non-certification students.

High School Education – All Areas of Science and Mathematics

Programs leading to grades (6-12) certification in biology, chemistry, physics, general science, and mathematics are offered in conjunction with the College of Arts and Sciences and the School of Engineering as part of the UABTeach (https://www.uab.edu/uabteach) program. The UABTeach (https://www.uab.edu/uabteach) program is an innovative program modeled after the national UTeach program developed at the University of Texas at Austin. The aim of this program is to produce well prepared teachers of mathematics and the sciences within a 4-year period and to increase the number of teachers in the STEM (science, technology, engineering, and mathematics) disciplines. The UABTeach (https://www.uab.edu/uabteach) program requires a major in an academic field such as biology, chemistry, engineering, mathematics, etc. The program requires several innovative and intensive education courses aimed at preparing teachers for grades 6-12 and leading to
Class B teacher certification. The academic majors are housed within
the appropriate departments within the College of Arts and Sciences
and the School of Engineering. Students should contact their CAS or
Engineering advisors for advising on their major. Information on the
Education components of the program can be found by contacting
the Office of Student Services, Education Building, Suite #232,
Phone: (205) 934-7530. For more information contact Dr. Lee Meadows
(%20lmeadows@uab.edu), (205) 975-7424, or visit the website at
[www.uab.edu/uabteach](https://www.uab.edu/uabteach).

**Bachelor of Science with a Major in High School Education/ Mathematics, Biology, Chemistry, General Science, Physics**

UAB offers certification in grades 6-12 for Mathematics, Biology,
Chemistry, General Science, and Physics through the UABTeach (https://www.uab.edu/uabteach) program. Students in STEM majors in
the College of Arts and Sciences and the School of Engineering may
seek teacher certification in an appropriate field listed above. Students
majoring in computer science or engineering should contact Dr. Lee
Meadows (%20lmeadows@uab.edu), (205) 975-7424, or visit the website
at www.uab.edu/uabteach, for guidance in selecting a certification area.

**Core Curriculum Mathematics, Biology, Chemistry, General Science, Physics**

Students should follow the core curriculum for their STEM major. See the
catalog for majors in CAS and Engineering and speak with an advisor in
these programs.

**Major Requirements Mathematics, Biology, Chemistry, General Science, Physics**

Students should follow the curriculum prescribed for their STEM major. See the
catalog for majors in CAS and Engineering and speak with an advisor in
these programs.

Only students who are formally admitted into the Teacher Education Program in Middle School Mathematics may take EMS 330 and EMS 352, and these must be taken AFTER admission to TEP.

**Total Hours: 18**

---

### Minor in STEM (Science, Technology, Engineering, and Math) Education

The STEM Education Minor includes the same courses UABTeach students take to earn Alabama teacher certification. So UABTeach students can add a minor with no additional coursework and have an element of their academic transcript reflect the work they have done to prepare themselves for teaching. The STEM Education Minor also includes an elective pathway designed to allow UABTeach students who elect not to complete Apprentice Teaching and their certification requirements to add education electives to bring their minor coursework up to the required minimum of 18 hours.

**Requirements**

- EHS 125: Inquiry Approaches to Teaching
- EHS 216: Step 2: Inquiry Based Lesson Designs
- EHS 325: Knowing and Learning in Mathematics and Science
- EHS 326: Classroom Interactions
- EHS 327: Project-Based Instruction

**Approved Elective Courses**

- PHL 270: Science, Knowledge, and Reality
- HY 275: Perspectives on Science & Mathematics
- EHS 425: Apprentice Teaching & EHS 426: and Apprentice Teaching Seminar
- MA 361: Mathematical Modeling

**Research Methods**

**Education Elective course approved by UABTeach academic advisor**

**Total Hours: 18**

---

1. Non-Western History Select One: HY 271, HY 476 or HY 477.

2. Course may not be used as a minor elective if also counted toward the students’ major.

---

1. The elective course structure is designed to allow UABTeach students who elect not to complete certification to earn a minor without enrolling in Apprentice Teaching, which is the student teaching option in UABTeach.
Department of Human Studies

Chair: Kristi Menear

The Department of Human Studies offers undergraduate majors in both Community Health and Human Services and Kinesiology. Community Health and Human Services majors choose between two concentrations: Community Health (non-teaching) or Human Services (non-teaching). Community Health and Human Services also offers a minor in Community Health and a minor in Human Services. Kinesiology majors choose among three concentrations: Physical Education Teacher Certification (grades P-12), Fitness Leadership (non-teaching), or Exercise Science (non-teaching). Kinesiology also offers a minor in Athletic Coaching and a minor in Exercise Science. Programs leading to degrees and/or certificates in Counselor Education and Educational Leadership are offered at the graduate level.

Students should contact the Office of Student Services, Suite 232, Education Building, (205) 934-7530, early in their studies to obtain the name of their advisor and pertinent program information related to the Core Curriculum. Students should consult their advisor prior to each registration period for the appropriate guidance (e.g., students are expected to take courses in the appropriate sequence, including prerequisites).

The Department of Human Studies offers an Honors Program for Exercise Science and Fitness Leadership students. Highly qualified students will have the opportunity to work one-on-one with a mentor in an area of mutual interest and conduct either a research or civic engagement project designed to meet some particular need as it relates to pertinent areas of fitness, exercise, and physical activity. For more information go to: http://www.uab.edu/education/home/hs/honors-program.

Major in Community Health and Human Services with a Community Health Concentration

A grade of “C” or better is required in all majors courses.

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area II Humanities and Fine Arts: CMST 101
Area III Natural Science with Lab: BY 101 & BY 102 and CH 105 & CH 106
Area IV Social Science: PY 101 or SOC 100 and one of the following: ANTH 101 or GEO 121

Literature sequence preferred: EH 217 & EH 218 or EH 221 & EH 222 or EH 223 & EH 224

### Kinesiology Programs

Students majoring in Kinesiology may choose from three concentrations: teacher certification, exercise science, and fitness leadership. The teacher certification program prepares students for entry into teaching positions in grades P-12. The exercise science program prepares students for graduate work in exercise physiology or health related careers such as physical therapy and occupational therapy. The fitness leadership program prepares students to be fitness leaders in fitness centers, clinics, or industrial settings.

#### Kinesiology Major: Teacher Certification

A grade of "C" or better is required in all math, science, and major courses.

#### Core Curriculum for Kinesiology Major: Teacher Certification

EH 101/102 requires one grade of at least a "B" or higher and one grade of "C" or higher for teacher certification.

Refer to Core Curriculum (http://catalog.uab.edu/shared/uab_undegraduate_experience)

| MA 126 Calculus II                                 |       |
| PH 202 College Physics II                          |       |
| PH 222 General Physics II                          |       |

| KIN 499 Fitness Internship                         | 3     |

**Total Hours**: 123-128

Students need to take 5-23 hours of General Electives to reach the 120 hour requirement in order to graduate.
This elective is in addition to the 3 hours of KIN 499 in the Internship section. No more than a total of 6 hours of KIN 499 may be applied to the degree.

Courses taken may not be applied to both major requirements and core curriculum. A maximum of 10 hours of PH, MA, CH, or BY courses can be taken to meet this requirement.

Either PY 330 or PY 218 will count as a major elective.

Kinesiology Major: Fitness Leadership Concentration

A grade of "C" or better is required in all math, science, and major courses. Note: UAB requires 120 total semester hours in order to graduate. Students with this major will need additional electives to meet this requirement.

Required Courses in Core Curriculum

Students, in consultation with their academic advisor, must sequence requirements to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. These courses are required for this major and can also fulfill core curriculum requirements:

Area II Humanities and Fine Arts: CMST 101

Area III Natural Science with Lab: PH 201 or BY 101 & BY 102

Area IV Social Science: PY 101

Minor in Community Health

The Community Health Minor provides students with a background in helping individuals and communities. A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and a minor. This minor is open to all students except Community Health majors. This minor is offered completely online.

Total Hours: 20

Minor in Kinesiology: Exercise Science

A grade of "C" or better is required in all courses in the minor. Students cannot apply courses toward both a major and minor. Students cannot apply courses toward both major and minor course requirements. Students may need to take additional electives to reach the 19 hour requirement in order to receive the minor (e.g. students who fulfill the HE 140 "0" credit hour waiver).

The BY 115, BY 116, and HE 140 requirements are waived for ONLY students majoring in Biomedical Sciences, who have completed BMD 310 (4 hrs.), BMD 315 (4 hrs.), and CDS 425 (1 hr.), respectively. As BMD 310, BMD 315, and CDS 425 cannot be used to satisfy both the Biomedical Sciences major and the Exercise Science minor, students must replace these 9 hours with courses from the Electives listed below. These replacement hours must include KIN 307.

See Kinesiology Program policy for "0" credit hour HE 140 waiver criteria. Students who meet the HE 140 waiver requirements need to take an additional 3 hour Elective to reach the minimum 19 hour requirement in order to receive the minor.

Vision

To be nationally and internationally recognized as a top research-oriented School of Engineering; a first choice for a quality undergraduate and graduate education

Mission

To create and apply knowledge for the benefit of society, and to prepare engineering graduates to be immediately productive and able to adapt and to lead in a rapidly changing environment

Goals

- Provide an excellent educational experience for a community of highly capable students that reflect the diversity of our society
- Develop an education and research program that fosters the development of a community of scholars capable of defining and solving problems to benefit society
- Develop an internationally recognized research program focused in distinctive multi-disciplinary areas
- Develop extensive and mutually beneficial relationships that foster understanding, respect, and a sense of common responsibility
- Provide an environment where faculty and staff can achieve their full potential for the mutual benefit of the School and the individual

School of Engineering Office of Academic Programs

UAB School of Engineering • Hoehn Engineering Building • 1075 13th Street South Suite 101 • Birmingham, Alabama 35294-4440 • Telephone: (205) 934-8410 • Email: enginfo@uab.edu (info@uab.edu)

UAB Admissions Office

1701 11th Ave South • Birmingham, Alabama 35294-1150 • Telephone: (205) 934-8221 • Email: chooseuab@uab.edu (undergradadmit@uab.edu)

Pre-college Preparation

The recommended program of high school preparation for the study of engineering includes four units of English; four units of mathematics
(including algebra, geometry, trigonometry, and calculus); four units of science (biology, chemistry, and physics are strongly recommended); and four units of social science (history, psychology, sociology, etc.). Mechanical drawing, keyboarding, and computer science are also excellent preparatory courses.

Admission to the School of Engineering

First-Term Freshmen

In addition to satisfying the general requirements for admission to UAB listed in the Undergraduate Catalog, individuals must meet the following requirements:

• For admission as a Biomedical Engineering major, an ACT composite score > 28 (or SAT equivalent) and high school GPA > 3.20
• For admission as a Pre-Engineering major, an ACT Math sub score > 22 (or SAT equivalent) and high school GPA > 3.0

Pre-Engineering students who meet the requirement for admission to the School of Engineering and subsequently place in Pre-Calculus Algebra (MA 105) or higher will be designated as Undeclared Engineering majors. Students admitted to UAB conditionally or on academic probation are not eligible for admission to the School of Engineering.

Students who do not meet the above criteria are admitted as Undeclared – Interest in Engineering student in the Vulcan Materials University Academic Success Center.

Transfer Students, Re-Admitted Students, Change of Major

In addition to math placement into Pre-Calculus Algebra (MA 105) or higher, all other students (transfer, students seeking readmission to UAB, students entering the School of Engineering from another UAB program) must have a cumulative GPA > 2.20 and, if applicable, an institutional (UAB) GPA > 2.20 to be admitted to the School of Engineering. These students are admitted as Undeclared Engineering majors. Transfer and returning students may receive an Undeclared Engineering designation for a minimum of one semester following admission to UAB and are admitted to their chosen department upon completion of the minimum requirements listed below.

Suggested Freshman Year

The freshman year program is similar among the engineering curricula at UAB. It is based upon substantial high school preparation in English, mathematics, and natural sciences. Students must enroll in appropriate English, chemistry, or mathematics sequences according to placement. Incomplete preparation at the high school level is not unusual, and coursework to strengthen the student’s academic background is routinely offered by UAB. Advice on this subject may be obtained from the Office of Academic Programs.

Total Hours 33

Requirements for Advancing from Pre-Engineering to Civil, Electrical, Materials or Mechanical Engineering

In order to advance to one of the engineering majors listed above, students must meet the following minimum requirements:

• Sophomore standing
• Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
• Completion (C or better) of two required science courses with appropriate labs
• Completion of EGR 110 Introduction to Engineering I and EGR 111 Introduction to Engineering II (or EGR 200 Introduction to Engineering), ME 102 Engineering Graphics, and EGR 150 Computer Methods in Engineering
• An institutional (UAB) GPA > 2.20

If a Pre-Engineering or Undeclared Engineering student is not eligible to advance to an engineering major within 64 hours, the student may be dismissed from the School of Engineering and may not seek readmission to the School of Engineering until another baccalaureate degree is earned.

Requirements for Advancing from Pre-Engineering to Biomedical Engineering

In order to advance to Biomedical Engineering, students must meet all of the following minimum requirements:

• Sophomore standing
• Completion (C or better) of MA 125 Calculus I and MA 126 Calculus II
• Completion (C or better) of two required science courses with appropriate labs
• Completion of EGR 110 Introduction to Engineering I and EGR 111 Introduction to Engineering II (or EGR 200 Introduction to Engineering)
• Completion of ME 102 Engineering Graphics
• An institutional (UAB) GPA > 3.20 (and cumulative [UAB + transfer] GPA > 3.20 if applicable)

If a Pre-Engineering or Undeclared Engineering student is not eligible to advance into Biomedical Engineering after completing a maximum of 64 hours of coursework, they may advance into another engineering major if the qualifications for that major (as listed above) are met.
Dual Degree Program Participants
Dual degree program participants from cooperating four-year institutions must provide the following information to School of Engineering advisors in order to advance from Pre-Engineering or Undeclared Engineering to an engineering major:

- A letter or email from the student acknowledging their participation in the Dual Degree Program and intent to complete an Engineering degree at UAB.
- A letter from the cooperating institution stating that the student has successfully completed the general education requirements at that institution and will be awarded a degree from the institution upon completion of UAB Engineering requirements.

Change of Major within the School of Engineering
Students changing majors within the School of Engineering should follow procedures outlined under Declaration of Major in this catalog. Students must meet the requirements listed previously.

Mandatory Academic Advising
To assure that students are progressing toward graduation, the School of Engineering faculty advisors provide academic advice and planning each term. During advising, students receive a registration access code (RAC) which will allow them to register for courses the following semester. Pre-Engineering and Undeclared Engineering students are advised by engineering faculty in the School of Engineering’s Office of Academic Programs (OAP). Upon admission to Biomedical, Civil, Electrical, Materials or Mechanical Engineering, students are advised by engineering faculty within their major.

Pre-Health Program Option
Any undergraduate program in engineering can be configured to satisfy pre-health requirements but requires additional coursework. Further information on pre-health program options can be obtained from:

Pre-Health Advising (https://www.uab.edu/cas/advising/pre-health-advising) • Dr. Dale S. Feldman • School of Engineering, Pre-Health Program Coordinator • Hoehn Engineering Building • 1075 13th Street South • Room 361 • Birmingham, Alabama 35294-4440

Core Curriculum as Specified for Engineering Majors
Students in the School of Engineering follow the University Core Curriculum, which includes EH 101 English Composition I and EH 102 English Composition II, with the following exceptions and additional specifications:

1. Engineering students are required to take 9 hours in Core Curriculum Area II: Humanities and Fine Arts to include a minimum of 3 semester hours in literature and 3 semester hours in the fine arts. The following courses are recommended as they best complement the technical coursework of engineering programs: CMST 101 Public Speaking; EH 217 World Literature I: Before 1660; EH 218 World Literature II: 1660-Present; PHL 115 Contemporary Moral Issues; and PHL 116 Bioethics.

2. Engineering students should take the following course to satisfy the Core Curriculum Area III Mathematics requirement: MA 125 Calculus I.

3. Engineering students should take the following courses to satisfy the Core Curriculum Area III Natural Science requirement: PH 221 General Physics I and PH 222 General Physics II.

4. Engineering students are required to take 9 hours in Core Curriculum Area IV: History, Social and Behavioral Sciences to include a minimum of 3 semester hours in history. Please note: for Core Area IV, students cannot apply more than 6 hours of History. The following courses are recommended as they best complement the technical coursework of engineering programs: EC 210 Principles of Microeconomics; EC 211 Principles of Macroeconomics; ITS 101 Introduction to International Studies; PY 101 Introduction to Psychology; SOC 100 Introduction to Sociology; and SOC 245 Contemporary Social Problems. The School of Engineering and the Department of History offers HY 106 World History and Technology I and HY 107 World History and Technology II, which also meets this requirement.

5. Engineering majors must complete a six-semester-hour sequence in either Area II or Area IV. To be considered a sequence, courses must have the same prefix and must be sequential if possible. Sequences in history, such as HY 101 Western Civilization I and HY 102 Western Civilization II or literature, such as EH 221 British and Irish Literature I: Before 1800 and EH 222 British and Irish Literature II: 1800-Present are common. Two courses in a foreign language such as ARA 101 Introductory Arabic I and ARA 102 Introductory Arabic II or any other sequential language courses offered by UAB. Any two Area II courses in one of the following disciplines: ARH, PHL or THR; or any two Area IV courses in one of the following disciplines: ANTH, EC, PSC, PY, or SOC, can also fulfill this requirement.

Reasonable Progress
All students in the School of Engineering must continually make reasonable progress toward the completion of their academic programs. Reasonable progress is defined as follows:

1. Engineering students, with the exception of students majoring in biomedical engineering, must maintain a GPA of at least 2.00 in all UAB courses and all UAB engineering courses. Biomedical engineering majors must maintain a GPA of at least 2.00 in all UAB courses and all UAB engineering courses. Biomedical engineering majors must maintain an institutional (UAB) GPA of at least 3.00.

2. Engineering students must successfully complete two courses applicable to their engineering program within an academic year.

3. All required courses offered by the student’s specific engineering program failed at UAB must be repeated and successfully completed at UAB for the student to apply the credit to satisfy degree requirements.

4. If a Pre-Engineering or Undeclared Engineering student is not eligible to advance to an engineering major within 64 hours, the student may be dismissed from the School of Engineering and may not seek readmission to the School of Engineering until another baccalaureate degree is earned.

Transfer Credit
In addition to guidelines for transfer credit outlined in the current UAB catalog, the following policies apply to students transferring into the School of Engineering:

The University of Alabama at Birmingham
1. The School of Engineering may grant transfer credit for engineering courses taken at another institution only if a grade of C or higher was earned.
2. Students admitted to the School of Engineering who have earned a grade of D in a course within a required sequence of courses may be required to repeat all or part of the sequence.
3. Engineering technology courses are not equivalent to engineering courses.

Prerequisite and Transient Requirements

All students must comply with appropriate prerequisite and concurrent requirements for all courses in which they enroll. Prerequisites are enforced for engineering courses and must be satisfied prior to starting the course. Students will be administratively withdrawn from engineering courses for which they do not meet prerequisite or concurrent requirements.

Prerequisite requirements must be met for required courses taken at UAB as well as all courses taken as transient with the intent to transfer the credit to UAB under the UAB Transient policy. Additionally, a student who has attempted but failed to successfully complete a UAB course offered by their specific engineering program must repeat that course at UAB for credit.

Transient Students taking UAB Engineering Courses

In addition to guidelines for transient credit outlined in the current UAB catalog, prerequisites are enforced for students wishing to register for Engineering courses who are transient at UAB.

Academic Warning, Probation, and Suspension

The School of Engineering follows the UAB Policy for Academic Warning, Probation, and Suspension with the following additions:

1. Students on Academic Warning or Probation are advised to register for no more than 14 semester credit hours per term.
2. While on Academic Warning or Probation, students may only register for 100- and 200-level engineering courses or repeat courses for which they previously earned a grade of D or F. The School of Engineering follows the University’s Course Repeat and Forgiveness Policy as previously stated in this catalog.
3. Students suspended from the University will be removed from the School of Engineering and returned to Undeclared - Interest in Engineering student in the Vulcan Materials University Academic Success Center (https://www.uab.edu/students/academics/student-success) if another major is not specified at the time of suspension. Students may not seek readmission to the School of Engineering unless, and until, the requirements for advancing to Civil, Electrical, Materials, Mechanical, or Biomedical Engineering are met.
4. First-term freshmen students in Biomedical Engineering who have an institutional (UAB) GPA below a 3.00 will be placed on academic probation in Biomedical Engineering. If their institutional (UAB) GPA is not a 3.00 or greater after the next term enrolled, the student will be placed on academic probation in Biomedical Engineering. Biomedical students (excluding first-term freshmen) who have an institutional (UAB) GPA below a 3.00 will be placed on academic probation in Biomedical Engineering. Biomedical Engineering students on academic probation who do not attain an institutional (UAB) GPA of 3.00 in their next term attempted will be reclassified as Undeclared Engineering.

Appeal for Reinstatement to the School of Engineering

A student suspended from the School of Engineering must meet the requirements necessary to advance to their intended major before petitioning for reinstatement. The petition should be addressed to the Senior Associate Dean and should clearly state the circumstances resulting in their dismissal from the School and include steps taken to resolve the deficiency. The student’s petition should be received in the Office of the Associate Dean of Engineering no later than five business days prior to the beginning of the desired semester of re-entry.

Graduation Requirements

All engineering students must earn a minimum of 128 semester hours and an engineering grade point average (GPA) of at least 2.00 in order to graduate. The engineering grade point average includes all engineering coursework applicable to the degree attempted at UAB. Students who are on academic warning or probation cannot graduate from the School of Engineering. BME students must also have an institutional GPA of 3.00 or higher and have earned a grade of C or better in all BME courses to graduate.

Individual engineering programs may have additional graduation requirements which can be found in the program description.

Minors

Students majoring in disciplines other than engineering may choose a minor in engineering to become familiar with topics such as biomedical engineering, environmental engineering, electrical systems, engineering materials, thermodynamic sciences, applied mechanics, or software engineering. Because technology greatly affects most aspects of society, the study of technology in conjunction with the pursuit of a non-engineering major can provide a worthwhile career-oriented educational experience.

Because enrollment in engineering courses is restricted, it is essential that students with declared minors in engineering receive an approved program of study. These students should visit the School of Engineering Office of Academic Programs to receive relevant information. Students planning to minor in engineering should exercise care in the selection of courses to meet the requirements of their major as well as concurrently satisfying prerequisite requirements for engineering courses. Students should be particularly aware of the mathematics and natural sciences prerequisites.

Students majoring in engineering may select a minor offered from outside their engineering discipline as listed below, with the exception of engineering science.

To satisfy the minor requirements, a minimum grade point average of 2.00 is required for all engineering coursework attempted for all programs. Transfer students wishing to earn a minor in engineering must take at least nine (9) semester hours at UAB and earn a minimum GPA of 2.00 in UAB engineering courses attempted. Students who are not majoring in biomedical engineering but wish to enroll in 300- or 400-level BME courses must fulfill course prerequisites, have an institutional
A non-engineering major who wishes to minor in engineering may choose one of the minor programs listed here.

**Minor in Applied Mechanics**  
**Offered through the Department of Civil Construction and Environmental Engineering**

**Requirements**  
**Hours**

**Grade Requirement**
A minimum GPA of 2.00 is required for all engineering coursework.
Transfer students must earn a minimum GPA of 2.00 in UAB engineering courses attempted.

**Required Engineering Courses**
- CE 210: Statics 3
- CE 220: Mechanics of Solids 3
- CE 360: Structural Analysis 3
- ME 215: Dynamics 3

**Civil Engineering Electives**
Select three of the following courses: 9
- CE 420: Advanced Mechanics
- CE 460: Structural Mechanics
- CE 461: Introduction to the Finite Element Method
- CE 462: Advanced Structural Analysis
- CE 464: Structural Dynamics

**Total Hours**: 21

**Minor in Biomedical Engineering**  
**Offered through the Department of Biomedical Engineering**

**Requirements**  
**Hours**

**Grade Requirement**
A minimum GPA of 3.00 is required for all engineering coursework.
Transfer students must earn a minimum GPA of 3.00 in UAB engineering courses attempted.

**Required Biomedical Engineering Courses**
- BME 210: Engineering in Biology 3
- BME 401: Undergraduate Biomedical Engineering Seminar 1

**Required Introduction to Engineering Course(s)**
- EGR 110: Introduction to Engineering I 2
- & EGR 111: and Introduction to Engineering II  
  or EGR 200: Introduction to Engineering

**Biomedical Engineering Electives**
Select three of the following courses: 9
- BME 310: Biomaterials
- BME 312: Biocomputing
- BME 313: Bioinstrumentation
- BME 333: Biomechanics of Solids
- BME 340: Bioimaging
- BME 350: Biological Transport Phenomena

**Biomedical Engineering Electives**
Select two of the following courses: 6
- BME 408: Advanced Biological Transport Phenomena
- BME 417: Engineering Analysis
- BME 420: Implant-Tissue Interactions
- BME 423: Living Systems Analysis and Biostatistics

**Total Hours**: 21

**Minor in Civil Engineering**  
**Offered through the Department of Civil Construction and Environmental Engineering**

**Requirements**  
**Hours**

**Grade Requirement**
A minimum GPA of 2.00 is required for all engineering coursework.
Transfer students must earn a minimum GPA of 2.00 in UAB engineering courses attempted.

**Required Civil Engineering Courses**
- CE 210: Statics 3
- CE 220: Mechanics of Solids 3
- CE 230: Plane Surveying 3
- CE 236: Environmental Engineering 3

**Civil Engineering Electives**
Select three of the following courses: 9
- CE 332: Soil Engineering
- CE 345: Transportation Engineering
- CE 360: Structural Analysis
- CE 395: Engineering Economics
- CE 450: Structural Steel Design
- CE 453: Design of Wood Structures
- CE 455: Reinforced Concrete Design
- CE 457: Concrete Technology

**Total Hours**: 21

**Minor in Electrical Engineering**  
**Offered through the Department of Electrical and Computer Engineering**

**Requirements**  
**Hours**

**Grade Requirement**
A minimum GPA of 2.00 is required for all engineering coursework.
Transfer students must earn a minimum GPA of 2.00 in UAB engineering courses attempted.

**Required Electrical Engineering Courses**
- EE 210: Digital Logic 3
- EE 233: Engineering Programming Methods 3
- EE 300: Engineering Problem Solving II 3
- EE 314: Electrical Circuits 3
- EE 316: Electrical Networks 4
- EE 351: Electronics 4

**Required Engineering Course**
- EGR 150: Computer Methods in Engineering 3

**Total Hours**: 23

### Business Administration Minor for Non-Business Majors

Engineering students may choose to pursue a Minor in Business Administration. This minor combined with an undergraduate engineering degree and co-op/internship experience provides a powerful and highly sought-after combination in today’s competitive economy. Engineering students interested in exploring the Business Administration Minor should contact the academic advisor in the School of Engineering at (205) 934-8410.

### Honors in Engineering

**Purpose**

The honors programs are intended to enrich educational opportunities for talented students in the School of Engineering.

**Benefits**

Students who complete an engineering honors program will have earned nine credit hours in honors coursework. Honors research beyond the required six hours may be applied as graduate credit. Three credit hours of honors research may be applied as an undergraduate elective according to departmental policy. Students who complete an honors program in engineering with a minimum cumulative GPA of 3.0 will receive a bachelor’s degree “with Honors” in addition to any University honors designations.
Eligibility
In order to be eligible to participate in departmental honors programs, students must meet the following:

- Minimum institutional (UAB) GPA of 3.25 and minimum cumulative GPA of 3.0 (BME students must earn a minimum institutional (UAB) GPA and cumulative GPA of 3.75)
- Completion of MA 227 Calculus III or EGR 265 Math Tools for Engineering Problem Solving with a C or better
- Enrollment as a full-time UAB student for a minimum of one semester
- Departmental endorsement

Invitations are extended by the Dean’s office during spring semester of each year.

Requirements
Honors programs require nine credit hours of honors coursework.

- Students enroll in EGR 301 Honors Research I, a one-hour course, no later than junior year. Students participating in the Science and Technology Honors program are not required to take EGR 301.
- Students enroll in two one-hour seminars which can be taken at any time in their course of study.
- Students complete six hours of credit in departmental honors research.
- Individual programs may vary in the way credit is awarded. For information regarding departmental requirements, contact the departmental program director listed below.

Contact
Honors Programs are offered by all undergraduate degree programs in the School of Engineering.

- Biomedical Engineering (http://www.uab.edu/engineering/bme/undergraduate/honors) (Dr. Alan Eberhardt (aeberhar@uab.edu))
- Civil Engineering (http://www.uab.edu/engineering/home/14-departments-research/dept-civil-const-envir-eng/1298-honors-program) (Dr. Fouad Fouad (ffouad@uab.edu))
- Electrical Engineering (Dr. Karthik Lingasubramanian (klinga@uab.edu))
- Materials and Science Engineering (https://www.uab.edu/engineering/home/departments-research/mse/honors) (Dr. Amber Genau (agenau@uab.edu))
- Mechanical Engineering (Dr. Pasquale Cinnella (pc1@uab.edu))

Department of Biomedical Engineering
Chair: Jianyi Zhang, M.D., Ph.D.

Biomedical engineering (BME) is the application of engineering principles and technology to the solution of problems in the life sciences and medicine. Biomedical engineers create knowledge and develop technologies that improve healthcare delivery and patient outcomes with an emphasis on reducing healthcare costs. Graduates create and apply knowledge at the interface of life sciences and engineering for the benefit of society. The BME undergraduate program prepares graduates to be immediately productive and able to adapt to a rapidly changing environment. The curriculum includes engineering core courses, mathematics, calculus-based physics, biology, chemistry, humanities, social and behavioral sciences, biomedical engineering core courses and electives. The curriculum culminates in a capstone design experience where interdisciplinary teams apply knowledge to solve real-world engineering problems. A bachelor’s degree in BME from UAB provides a foundation in medical devices, biomedical implants, biomaterials, and biomedical instrumentation to compete in an increasingly technical medical field, and also prepares students for graduate school, medical school, or professional school.

The Biomedical Engineering program is currently accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Freshmen with an ACT score of 28 or higher (or SAT equivalent) and a high school GPA of 3.20 or higher may be admitted directly to the Biomedical Engineering program. Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

BME students must maintain an institutional (UAB) GPA of at least 3.00. First-term BME freshmen students who have an institutional GPA below 3.00 will be placed on academic warning in BME. If their institutional GPA is not at least 3.0 after the next term enrolled, they will be placed on academic probation in BME. BME undergraduates (other than first-term freshmen) who do not have an institutional GPA of at least 3.00 will be placed on BME academic probation. If at the end of the next term in which they enroll, their institutional GPA is not at least 3.00, they will be reclassified as Pre-General Engineering. To be re-admitted to the BME program, a student must have an institutional GPA of at least 3.20 and make a formal application for readmission.

BME students must have an institutional GPA of at least 3.00 and have completed at least 64 hours of coursework applicable to their degree before they may register for 300-level and 400-level BME courses. BME students must also have an institutional GPA of 3.00 or higher and have earned a grade of C or better in all BME courses.

In addition to fulfilling course prerequisites, non-BME students (including pre-BME students and students seeking a BME minor) who wish to enroll in 300-level and 400-level BME courses must have an institutional (UAB) GPA of at least 3.00 as well as permission of the BME Undergraduate Advisor. Non-BME majors may not enroll in BME 423, BME 498, or BME 499. In addition, a minimum overall GPA of 3.00 is required for all engineering coursework applied to a BME minor. Transfer students seeking a BME minor must take at least nine (9) semester hours and earn a minimum GPA of 3.00 in UAB engineering courses attempted before enrolling in BME courses.

Vision
To be an internationally recognized, research-oriented Department of Biomedical Engineering: a top choice for undergraduate and graduate education.

Mission
To improve healthcare by making scientific discoveries, solving problems and advancing technology using quantitative methods; to prepare
graduates to succeed in the evolving fields of biomedical engineering and biotechnology.

**Educational Objectives**

Graduates of the Biomedical Engineering undergraduate program will have:

1. Gained admission to graduate or professional school, or gained employment in engineering and/or health related professions and
2. Pursued opportunities for professional growth, development, and service

**Bachelor of Science in Biomedical Engineering**

**Total Hours** 62

1. With departmental approval. At most 3 hours of BME 494 or BME 491 may be used for elective credit.
2. Student must be enrolled in BME Honors Program.
Other courses may be selected as electives, but must be approved by a BME faculty advisor.

Concentration in Biomechanics

Students seeking the degree of BSBME may add a concentration in Biomechanics by appropriate selection of their Mathematics/Science/Engineering Electives (3 credit hours), Engineering Elective (3 credit hours), and BME Electives (6 credit hours).

Total credit hours: 128

1 Transfer students may substitute EGR 200 for EGR 110 and EGR 111.
2 May substitute MA 227 and MA 252 for EGR 265 and one Math/Science/Engineering/Biomedical Engineering Elective.
3 Students using this curriculum as a pre-health professional program (pre-med, pre-dental, or pre-optometry) may use CH 237, CH 238 or CH 460 for this elective.
Please refer to the Core Curriculum as specified for engineering majors.

Seminar may be taken during any semester.

Department of Civil, Construction, and Environmental Engineering

Chair: Fouad H. Fouad

The Department of Civil, Construction, and Environmental Engineering offers a broad-based program in civil engineering, which covers mechanics and structures, soils, surveying, transportation, water resources, environmental engineering, and construction engineering management. Computer applications are emphasized in all areas. The program is based on a strong foundation of mathematics, physical sciences, humanities, and social sciences and is supported by a series of basic courses from other engineering disciplines. The primary objective of the program is to prepare students for entry into the civil engineering profession as design engineers. The Civil, Construction, and Environmental Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Electives in the academic program may be selected from courses in structural engineering, construction engineering management, environmental engineering, geotechnical engineering, and transportation engineering. These courses allow students to emphasize a particular area in their undergraduate academic program. Judicious selection of these electives may be used as additional preparation for a specific design career or for entry into a specialized civil engineering certificate or engineering graduate program.

Qualified, motivated undergraduate students may also participate in the Departmental Honors Program.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appears; and graduation requirements.

Vision

To become a department of top choice for civil engineering students, faculty and industry partners wanting a real world experience in a metropolitan setting.

Mission

To advance civil engineering knowledge through innovative, rigorous and practice-based education, research, and outreach to better serve our students, community, and society at large.

Educational Objectives

The Civil, Construction, and Environmental Engineering Department has developed the following educational objectives for graduates of the Civil Engineering program. Three to six years after graduation, graduates who choose to practice in the Civil Engineering field should:

- Achieve a level of technical competency that allows them to advance in engineering practice and/or research
- Pursue lifelong learning, such as graduate study and other professional education, and professional licensure
- Engage in service to the profession through involvement in professional societies, community activities, and educational outreach

Experiential Learning

The Civil, Construction, and Environmental Engineering Department strongly encourages students to participate in experiential learning opportunities; such as industry co-ops, engineering internships, and research with department faculty. These programs greatly enhance a student's education and provide the real-world experience employers look for after graduation. The School of Engineering has a dedicated staff member to assist students in finding and applying to these programs and the Civil, Construction, and Environmental Engineering Department will work with students to tailor programs of study that will allow them to participate in these programs while completing their degrees in a timely manner.

Total credit hours: 128

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111
2. Students may also replace EGR 265 and a 400-level CE elective with MA 227 and MA 252.
3. Please refer to the Core Curriculum as specified for Engineering majors.
4. Any 400-level UAB Civil Engineering courses not included as a requirement in Civil Engineering curriculum may be selected.
5. Students may choose to take either CE 480 offered in fall terms or CE 430 offered in spring terms.

The Department of Civil, Construction, and Environmental Engineering offers six Category A Certificates in the following areas:

- Certificate in Construction Engineering Management
- Certificate in Environmental Engineering
- Certificate in Geotechnical Engineering
- Certificate in Structural Engineering
- Certificate in Sustainable Engineering Management
- Certificate in Transportation Engineering

The requirements are as follows:

- Students must be admitted to the Department as either undergraduate or graduate students in Civil, Construction, and Environmental Engineering
- Certificates require a minimum of 15 semester hours consisting of one required undergraduate course (which will also count toward the BSCE degree at UAB) and four graduate level elective courses in the area of specialization
- Graduate level elective courses taken may be applied to the certificate as well as a MSCE degree
- One course, up to three semester hours, may be transferred from another institution: this may be the required course or one of the graduate level courses
- Only one course listed with an asterisk (*) may be applied to a certificate; i.e., for the transportation certificate, students may apply either CE 649 or CE 658
- Courses taken from UA and UAH by IITS may be applied to certificates
- Elective course may be taken at the 500, 600, or 700 level

**Certificate in Environmental Engineering**

**Engineering Electives**
Select electives from the following list to earn 12 semester hours:

**Structural Analysis Electives (Minimum 3 Hours)**
- CE 516 Mechanical Vibrations
- CE 520 Advanced Mechanics
- CE 560 Structural Mechanics
- CE 561 Introduction to the Finite Element Method
- CE 562 Advanced Structural Analysis
- CE 564 Structural Dynamics
- CE 612 Theory of Elasticity
- CE 615 Theory of Elastic Stability
- CE 617 Theory of Plates and Shells
- CE 663 Finite Element Methods

**Structural Design Electives (Minimum 3 Hours)**
- CE 526 Foundation Engineering
- CE 553 Design of Wood Structures
- CE 554 Design of Masonry Structures
- CE 556 Prestressed Concrete Design
- CE 567 Wind and Seismic Loads
- CE 568 Bridge Engineering
- CE 650 Advanced Structural Steel
- CE 667 Prestressed Concrete Design
- Other Electives (Maximum 3 Hours)
  - CE 542 Hwy Materials and Construction
  - CE 557 Concrete Technology
  - CE 649 Engineering Liability
  - CE 658 Engineering Management

**Other Electives (Maximum 3 Hours)**
- CE 542 Hwy Materials and Construction
- CE 557 Concrete Technology
- CE 649 Engineering Liability
- CE 658 Engineering Management

1 Only one of these courses may be applied to this certificate.

The Electrical Engineering program in the Department of Electrical and Computer Engineering at UAB embodies a curriculum of 128 semester hours that is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org. In addition to courses in pre-engineering, mathematics, calculus-based physics, chemistry, and the humanities/social sciences, students take a core of fundamental engineering coursework outside of electrical engineering, a core of courses in the breadth of electrical engineering, and electrical engineering elective courses. A bachelor’s degree in electrical engineering (BSEE) can provide the foundation that a student will need in any of the areas of electrical engineering, including advanced analog and digital electronics, microprocessor applications, biomedical instrumentation, digital computer systems, software systems, electric utility power systems, digital control, industrial electronics, and machinery control.

Each student must complete a senior design team project that comprises six (EE 498 Team Design Project I and EE 499 Team Design Project II) semester hours of coursework.

**Vision**

To be a nationally recognized Department of Electrical and Computer Engineering: a first choice for undergraduate and graduate education

**Mission**

To prepare graduates to be immediately productive and able to adapt to a rapidly changing environment while also creating and applying knowledge for the benefit of Birmingham, the state, and beyond

**Electrical Engineering Program Objectives**

The Electrical Engineering undergraduate program prepares graduates to:

- Succeed in a career or graduate studies in electrical engineering
- Approach problem solving with an engineering mindset
- Grow professionally

Total credit hours: 128

1 Only first term freshman take EGR 110/ EGR 111. All others take EGR 200 (a 2-hour course).
2 Students can substitute MA 227 and MA 252 for EGR 265 and EE 254.
3 Core Curriculum Area II: Humanities & Fine Art or Area IV: Social & Behavioral Science. Please refer to the Core Curriculum as specified for Engineering majors.
4 Must be chosen from the approved list of electives.

Department of Materials Science and Engineering

Chair: Selvum Brian Pillay
Undergraduate Program Director: Robin D. Foley

Materials engineering is about the development, production, modification, and application of engineering materials to meet the specific needs of society. At the base of materials engineering is an understanding of the structures and forces that control the engineering properties of metals, ceramics, polymers, and composites. Students learn how to control the properties of materials, how to select the optimum material and predict its behavior under various environmental and service conditions, and how to alter this behavior through materials design, process, research, and development. Materials Engineers are employed in every major industry, including aerospace, chemical, automotive, metals casting, biomedical, and microelectronics.

The materials engineering program at UAB has a curriculum of 128 semester credit hours that has been continuously accredited since 1971 by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org. In addition to courses in mathematics, calculus-based physics, chemistry, and the humanities/social sciences, students take a core of fundamental engineering course work and a sequence of materials engineering courses. The required materials engineering courses address ceramics, polymers, composite materials, and metals. They emphasize the relationships among properties, structure, processing, and performance. Materials engineering elective courses are also offered to introduce students to leading-edge materials engineering topics. In addition to the general materials engineering program, students can specialize in Biomaterials, Polymer Matrix Composites, or Metallurgy by proper selection of their electives (see Concentrations).

The curriculum prepares graduates to directly enter the professional practice of materials science and engineering, to pursue graduate studies in materials science and engineering, or enter a professional school, such as medicine or dentistry. The department has very active research programs in metal casting and composite materials.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.

The department also offers courses of study leading to the Master of Science and Doctor of Philosophy degrees in materials engineering. These programs are described in the UAB Graduate School Catalog.

Vision

To be an internationally recognized research-oriented department – a first choice for undergraduate and graduate education.

Mission

To excel in research for the benefit of society while educating students at all levels to be immediately productive.

Educational Objectives

Our Materials Engineering undergraduate program will produce functioning professionals who:

- Advance in materials engineering or related professional positions
- Continue to develop intellectually and professionally

Bachelor of Science in Materials Science Engineering

### Total credit hours: 128

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111
2. Students may also take MA 227 and MA 252 for Engineering Problem Solving and either the SCI/MA or one SCI/MA/EGR elective.
3. Please refer to the Core Curriculum as specified for Engineering majors.
4. Students may substitute EE 300 Engineering Problem Solving II or PUH 250 Biostatistics for CE 344 Civil Engineering Analysis I if there are scheduling conflicts.
5. Completion of Departmental Honors Program satisfies three credits of either a Materials Engineering Elective or an Engineering/Mathematics/Science Elective.

### Department of Mechanical Engineering

**Chair:** David L. Littlefield

Mechanical engineering is a broad-based discipline that embraces two major areas—mechanical systems and thermal systems. With an understanding of the phenomena associated with these topics, mechanical engineers conceive and design a wide variety of devices, machines, and systems to meet the needs and desires of a modern economy. Mechanical engineers also engage in other engineering functions such as applied research, development, and management. During the next decade and beyond, mechanical engineers will have a primary role in addressing the problems relating to manufacturing, productivity and safety in the workplace, supply and efficient utilization of energy, transportation, enhancement of the environment, and human rehabilitation.

The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET, [http://www.abet.org](http://www.abet.org). The Mechanical Engineering Program embodies a curriculum of 128 semester credit hours. In addition to courses in pre-engineering, mathematics, calculus-based physics, chemistry, humanities, and social sciences, the mechanical engineering curriculum also includes a core of fundamental engineering coursework and advanced courses in thermodynamics, fluid mechanics, heat transfer, mechanics of machinery, and mechanical design. Laboratory experiences are provided in each area to illustrate the application of theory in engineering practice. During the senior year, the curriculum provides for electives that allow specializations in the areas of mechanical systems or energy systems or for further exposure in both areas. With additional coursework, the mechanical engineering program can also be utilized as a pre-health curriculum.

Please refer to the School of Engineering overview for policies regarding admission; change of major; transfer credit; transient status; dual degree programs; reasonable progress; academic warning, probation, and suspension; reinstatement appeals; and graduation requirements.
Vision
To be a nationally and internationally recognized research-oriented mechanical engineering department – a first choice for undergraduate and graduate education.

Mission
To prepare students to be immediately productive and able to adapt to and lead in a rapidly changing environment and to create and apply knowledge for the benefit of society.

Program Educational Objectives
The Mechanical Engineering Undergraduate Program will prepare graduates to:
• Succeed in Engineering and/or related professional positions
• Continue to develop professionally

Bachelor of Science in Mechanical Engineering

Total credit hours: 128

1. Transfer students may substitute EGR 200 for EGR 110/EGR 111
2. Please refer to the Core Curriculum as specified for Engineering majors.
4. Course must be approved by ME Undergraduate Program Director.
5. Mechanical systems electives include: ME 430, ME 464, ME 470, ME 475, ME 477, and ME 478.
6. Thermal fluids electives include: ME 411, ME 421, ME 445, ME 448, ME 449, ME 454, and ME 455.
7. Electives with computer-aided engineering content include: ME 421 and ME 464.

School of Health Professions

Dean: Harold P. Jones, PhD
Senior Associate Dean for Academic & Faculty Affairs: Donna J. Slovensky, PhD
Senior Associate Dean for Strategic Partnerships & Enterprise Development: M. Patrick McNees, PhD
Senior Executive Associate Dean: Janelle M. Chiasera, PhD
Assistant Dean for Administrative & Fiscal Affairs: Melanie L. Talbot, MBA, CPA
Assistant Dean for Student Recruitment, Engagement & Success: Tracee M. Synco, PhD
Assistant Dean for Undergraduate Research & Honors: Fred (Ted) Bertrand, III, PhD

The School of Health Professions delivers educational programs to prepare health personnel who will improve the services in health care and the systems through which these services are provided. In keeping with the mission of the University of Alabama at Birmingham, the resources and programs of the school are dedicated to excellence in teaching, research, and scholarly activity and to service to the institution, the community, and the professions represented by programs of the school.

Degree options in the School of Health Professions include undergraduate, master’s, and doctoral programs sponsored by five academic departments – Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy. In addition, minors, certificates, and post-doctoral fellowships are available in some specialized areas. The School sponsors more than 25 degree and certificate options, all of which require students to apply for and be accepted to the specific degree or certificate program.

The School of Health Professions is committed to the practice of ethical standards of conduct. School policies, procedures, and regulations reflect this commitment and are in compliance with those of the University of Alabama at Birmingham. To ensure continued practice of ethical standards, the administration and the standing committees of the school (Faculty Affairs, Academic Affairs, Student Affairs) regularly review school policies and procedures. All research endeavors are in compliance with policies of the UAB Institutional Review Board.
SHP Admissions

Entrance requirements for the individual educational programs of SHP vary. Persons desiring admission to a particular program should consult the appropriate section of the University Catalogs for specific entrance requirements, application process, and program information. Students who attend an institution other than UAB are encouraged to seek academic advisement from the intended program as early as possible to plan for completion of program prerequisites.

Application for admission to UAB to complete program entrance or pre-professional requirements at UAB may be made to the Office of Undergraduate Admissions (http://www.uab.edu/students/undergraduate-admissions). Admission to UAB does not guarantee admission to the professional phase of any SHP program.

The School of Health Professions welcomes applications from all individuals who are prepared for the programs offered. All applicants must offer acceptable evidence of ability and intent to meet the academic standards specified by the particular program into which admission is desired. In addition, certain immunizations are required prior to enrollment; see UAB Student Health and Insurance Programs and UAB Immunization Policy. Accepted students are subject to background check and drug screen requirements. Applicants are considered regardless of race, color, religion, gender, sexual orientation, national origin, disability unrelated to program performance, disabled veteran status, or Vietnam era veteran status (see UAB Equal Opportunity Policy). Persons who have not yet decided upon a specific health career may obtain information from the SHP Office of Student Recruitment, Engagement, and Success, School of Health Professions Building, Room 230, 1705 University Boulevard; telephone: (205) 934-4195.

SHP Mission, Vision, Values

The mission of the School of Health Professions is “To improve health care through teaching, research, and translation of discoveries into practice in partnership with the UAB community.” The School vision is, “To be recognized as the leading school of health professions – shaping the future of healthcare.” Fulfiling the mission requires faculty and staff to embrace the following organizational values:

- Accountability
- Collaboration/Cooperation
- Diversity
- Excellence
- Innovation/Creativity
- Integrity/Ethical behavior
- Open communication
- Professional behavior

SHP First Year Experience

All freshmen admitted to the university are required to complete a first year experience (FYE) course. The FYE sponsored by SHP, HRP 101 Experience the University Transition, is designed to ease the transition between high school and university experiences and to prepare students for success in health professions majors. The course is delivered in a blended seminar/online format. Students interact with faculty, advisers, and other students to learn academic skills and personal lifestyle management tactics to make their freshman experience positive and academically rewarding. Social interaction and engagement in the UAB community are key goals as well.

Core Curriculum

All SHP majors are required to comply with the UAB core curriculum for a baccalaureate degree. However, most professional curricula in the school include specific prerequisite coursework that should be considered in making choices about options within the core curriculum. Students are strongly encouraged to make early contact with academic advisers in the School of Health Professions to plan their course schedules to meet the dual requirements of the core curriculum and the requirements of their chosen major. The courses identified in Area V of the core curriculum (Elective and Pre-professional Credits) differ by major, and are subject to change as programs respond to changes in workforce requirements. Students should work closely with their academic advisers to plan their programs of study during the freshman and sophomore years.

School-Wide Core / Capstone

The School of Health Professions does not specify a common core for all programs. Students must comply with the UAB core curriculum and the degree requirements for their chosen major. All SHP programs include capstone experiences, either a supervised practicum, a didactic course, or a combination of both.

University Requirements

In order to receive a degree at UAB, a student must have a minimum 120 semester hours of acceptable credit.

Interdisciplinary Majors / Minors

Interdisciplinary majors are not offered by the School of Health Professions. Students may elect to pursue any minor available at UAB in addition to their major, but minor study is not required. Several minor options are available in the School of Health Professions.

Research Technician Certificate.

Undergraduate students who wish to explore an individual research experience may apply for the Research Technician Certificate. The certificate program is designed to provide didactic and experiential coursework to build knowledge and skills appropriate to entry level work in research laboratories or in support of non-laboratory research. Students are expected to develop the following behaviors and skills through their experiences and courses:

- Understanding and application of responsible conduct of research
- Critical thinking and analytical skills
- Project management skills
- Experience in data logging and in communicating research results
- Experience in the application and performance of a variety of laboratory techniques
- Experience in the application of statistical methods for data analysis

Students will complete a total of 21 credits, including six hours of mentored research spread over at least two semesters, and a blend of required and elective courses selected from their degree major’s course of study. Students who complete this program will receive a Research Technician Certificate from the School of Health Professions, which will be reflected on their academic transcript.

For information about application to this certificate or any undergraduate research activity, or to make an appointment to discuss required courses and project work, please contact Dr. Ted Bertrand by email at:
fbtrnd@uab.edu. Additional information is available on the SHP website at: http://www.uab.edu/shp/urh.

Minor in Biomedical Sciences

The minor in Biomedical Sciences requires completion of 18 semester hours of coursework; including 12 hours of required BMD courses and 6 elective hours. All courses (including prerequisites) must be completed with a grade of C or better and students must maintain a 2.5 overall GPA. Students must apply to the Biomedical Sciences program for admission to the minor.

School of Health Professions Undergraduate Research and Honors Programs

The School of Health Professions Undergraduate Research and Honors Programs provide experiential opportunities for undergraduate students to develop project leadership and research skills in a team environment to prepare for careers in health care or for graduate study in the health professions. All students' projects are presented publicly in an appropriate professional forum.
SHP Honors Program. A cohort of students is accepted into the SHP Honors Program each year. Admission criteria include a 3.25 GPA, an application process, and starting the 3rd year of the major. Honors students participate in four semester credits of interdisciplinary seminars and a minimum of six semester credits in honors projects under the direction of a faculty and community mentor. Projects may involve community research or service learning activities, and are completed by teams of students. Students who successfully complete all program requirements graduate with School Honors.

**SHP Undergraduate Research Opportunities.** Students who wish to pursue a mentored research experience outside of, or in addition to, the Honors Program are paired with a faculty mentor to complete a research activity consistent with their goals and abilities that will contribute meaningfully to their mentor’s research.

Mentored Research Project. Students who wish to complete individual projects must be registered for Mentored Research in the Health Professions while working with their mentor. Project hours completed will be documented on the student’s academic transcript. The number of credit hours allocated to the project is negotiated among the student, the mentor, and the Assistant Dean.

Research Team Experiential Learning. Students may participate in a 3-semester team based research experience that pairs student teams with research mentors, to address research issues. Students participate in a two-credit research/team work/project development course, and then complete a minimum of six semester hours of research in a team. Teams of students who complete this experience will receive a certificate from the School for their professional portfolios.

Research Technician Certificate. Students who wish to expand their individual research experience may apply to the Research Technician Certificate Track. Students must participate in six hours of mentored research spread over at least two semesters, as well as complete a blend of required and elective courses selected from their degree major’s course of study. Students who complete this track will receive a Research Technician Certificate, which will be reflected on their transcript.

For information about application to any honors or research activity, or to make an appointment to discuss required courses and project work, please contact Dr. Ted Bertrand by email at fbrtrnd@uab.edu. Additional information is available on the SHP website at: http://www.uab.edu/shp/urh.

**Clinical and Diagnostic Sciences**

The Department of Clinical and Diagnostic Sciences sponsors the B.S. degree and minor in Biomedical Sciences in addition to graduate degree and certificate programs in several clinical specialty areas. Elective coursework is available to students in the School of Health Professions and to students in other UAB degree programs.

**Biomedical Sciences**

**Program Director:** Kari J. Dugger, PhD

The B.S. in Biomedical Sciences program curriculum is designed to prepare students for entry into the biomedical science workforce or for graduate and professional study in the health professions. Many of the prerequisites for admission to identified graduate programs can be incorporated into the student’s program of study. This allows students to create a tailored undergraduate educational experience to prepare for further study in an area of choice such as physician assistant studies, medicine, dentistry, optometry, physical therapy, biotechnology, clinical laboratory science, genetic counseling, and many more.

**Admission Requirements**

Admission options are based on the student’s previous academic work and personal interests. Students intending to enroll in the B.S. in Biomedical Sciences program must meet all UAB undergraduate admission and academic requirements. The following additional requirements also apply and must be met prior to acceptance into the Biomedical Sciences program.

**Program Admission from High School**

Must be a graduate of an accredited high school with a grade point average of a 2.75 or higher on a 4.0 scale for admission. Achieved an ACT Composite Score of 22 or higher. Must place in College English 101 or higher and College Math 105 or higher. Must meet all UAB undergraduate admission and academic requirements. If accepted, complete the UAB medical history questionnaire and physical, provide proof of required immunizations, and receive satisfactory screening by the UAB Medical Center Student Health Service. If accepted, a background check and drug screening will be required at admission and again prior to any practicum placement.

**Program Admission from Community College or University, including UAB**

Must meet all UAB undergraduate admission and academic requirements. If accepted, complete the UAB medical history questionnaire and physical, provide proof of required immunizations, and receive satisfactory screening by the UAB Medical Center Student Health Service. Must place in College English 101 or higher and College Math 105 or higher. Must hold a 2.75 or higher Overall GPA on a 4.0 scale for admission to the Biomedical Sciences Program. If accepted, a background check and drug screening will be required at admission and may be required again prior to any practicum or lab placement.

**Other Biomedical Sciences Program Requirements**

Grades of C or better are required for any Biomedical Sciences curriculum requirements. A minimum of 2.75 Overall GPA and 2.00 UAB institutional GPA must be maintained to remain enrolled in the B.S. in Biomedical Sciences program.

**Application Procedure**

Applicants are accepted at any time, and students may be enrolled during any term. Applicants should submit the following materials:

To the UAB Undergraduate Admissions Office:

- Completed UAB undergraduate application form, including SHP as the school, and application fee, if applicable (if enrolled at UAB in another major, complete a Change of School/Major Request
using the online form available on BlazerNET (https://www.uab.edu/blazernet)).

- Official transcripts from each college or university attended

### Recommended Courses Core Curriculum

Students, in consultation with their academic advisor, should sequence coursework to meet any stated prerequisite requirements for specific courses in their curriculum, including UAB Core Curriculum requirements stated in this catalog. Although the courses listed below are recommendations, students are required to earn a satisfactory grade in MA 106 or MA 125 for the major.

Area II (non-Literature option): CMST 101
Area III Mathematics: MA 106 or MA 125
Area IV non-History: PY 101 or PY 212

### Contact for additional information:

B.S. in Biomedical Sciences Program (BMD) Program
School of Health Professions Building
University of Alabama at Birmingham
1705 University Boulevard
Telephone: (205) 996-4721
Email: bmd@uab.edu (askCDS@uab.edu)
Web address: http://www.uab.edu/shp/cds/biomedical-sciences

The Biomedical Sciences (BMD) program has partnered with several graduate programs to provide students with enhanced opportunities to prepare for graduate professional education.

### Early Acceptance Program with M.S.
**Degree in Clinical Laboratory Science**

Qualified BMD juniors must have an overall GPA of 3.0 and a prerequisite GPA of 3.25, a GRE of 305, and must have a demonstrated interest in CLS. In consultation with the CLS Admissions Coordinator and BMD advisor, BMD students with provisional admission to the CLS program will take selected graduate level courses to meet BMD degree or elective requirements. These competencies would then be waived for the CLS master’s program. For more information, contact the Program Director for Clinical Laboratory Sciences or the BMD adviser.

### Early Acceptance Program with M.S.
**Degree in Nuclear Medicine Technology**

Qualified BMD juniors must have an overall GPA of 3.0 and a science GPA of 3.25, and must have a demonstrated interest in NMT. BMD students with provisional admission to the NMT program must complete all required NMT prerequisites, and will take selected graduate level courses to meet BMD degree or elective requirements. For more information, contact the Program Director for Nuclear Medicine Technology or the BMD adviser.

### 4 + 1 Partnership with M.S. Degree in Biotechnology

Qualified BMD juniors (at least 60 hours of course work) must have an overall GPA of 3.25 and demonstrated interest in BT. In addition, BMD students must take the GRE or MCAT by the second semester of their junior year and have a GRE combined score of at least 300, or a MCAT score of 28. BMD students who are admitted to the 4+1 program will take selected BT courses to fulfill BMD degree or elective requirements. These competencies would then be waived for the BT master’s program. For more information, contact the Program Director for Biotechnology or the BMD adviser.

### Early Acceptance Program with PharmD
**Degree at the Lake Erie College of Osteopathic Medicine**

This opportunity is available for BMD majors prior to their third year of study, who are interested in obtaining a doctorate in Pharmacy after graduation. Students who qualify for admission into both the BMD program and the LECOM EAP program, and maintain qualifying EAP LECOM credentials until completion of the BMD program will be admitted into LECOM PharmD program. More information can be found here: http://lecom.edu/admissions/entrance-requirements/early-acceptance-programs or by contacting the BMD program director at BMD@uab.edu.

### Minor in Biomedical Sciences

The minor in Biomedical Sciences requires completion of 18 semester hours of coursework; including 12 hours of required BMD courses and 6 elective hours. All courses (including prerequisites) must be completed with a grade of C or better and students must maintain a 2.5 overall GPA. Students must apply to the Biomedical Sciences program for admission to the minor.

### Health Services Administration

The Department of Health Services Administration sponsors degree programs at the doctoral, master's, and baccalaureate levels, including a baccalaureate program in Health Care Management, and undergraduate minors in Health Care Management, Health Information Management, and Clinical Coding and Reimbursement.

### Health Care Management

**Program Director:** Bryan K Breland, DrPH, JD, MPA

The Bachelor of Science in Health Care Management (HCM) was established at UAB in 1982. The program prepares graduates to be effective leaders in mid-level management positions in all types of health care organizations, including hospitals, ambulatory care centers, physician practices, long term care facilities, home health care agencies, and more. The curriculum serves as a foundation for success in graduate-level academic or professional degree programs, from the masters in health administration or health informatics to clinical professional programs, such as occupational and physical therapy, medicine and dentistry.
The HCM program and course of study can be adapted to the student’s interests and strengths in the dynamic and evolving healthcare industry. The HCM General Manager track prepares students for leadership positions managing health operations, developing a vision and strategies for growth, and to ensure patients receive high quality and efficient care. There are specialty and fast tracks available to students based on previous academic work, current professional status, personal interests, and future goals.

Concentration Tracks

HCM concentration tracks focus a student’s time and attention on defined area of interest throughout the course of study when he or she has more specific objectives, such as executive leadership that may require professional school, clinical management that will require licensure or certification, or one of the many growing areas of specialty in long term care administration. Concentration tracks may have higher admissions criteria - more information below.

• Clinical Manager track is restricted to graduates of certificate and/or associate degree programs who are credentialed or licensed in a health professions discipline. Graduates of this track typically apply their management and leadership skills in facilities or organizational units that provide services in their clinical discipline.

• Pre-professional track is designed for undergraduate students whose academic goal is completion of a master’s level graduate or professional degree program such as health administration, health informatics, occupational therapy, physical therapy, biotechnology, surgical physician assistant, medical school, dental school or other graduate level health professions programs. Prerequisites for admission to identified graduate programs can be incorporated into the program curriculum.

• Long Term Care Administration track is for individuals intending to pursue a career in long-term care, including those who will manage resident care facilities. The curriculum prepares students to test for licensure as a long term care administrator.

Fast Tracks

HCM Fast Tracks offer students a rare advantage in higher education - savings, both in terms of time and money. Students earn a bachelor's and master's degree in less time by taking advantage of the thoughtfully integrated curriculum. We have available fast track programs that accelerate your potential in Occupational Therapy, Health Informatics, and Healthcare Quality and Safety. Fast tracks may have higher admissions criteria - more information below.

• Occupational Therapy (OT) Fast Track allows qualified students entering UAB as a freshman to complete the BS in Health Care Management and the MS in Occupational Therapy in five years. This option will benefit those students who plan to test for licensure as occupational therapists by reducing the number of courses and time required to obtain the BS and MS degrees separately.

• Health Informatics (HI) Fast Track allows qualified students to complete the BS in Health Care Management and the MS in Health Informatics in 12 semesters; that's four years, including summers - less time than the average student takes to complete the BS degree alone.

• Healthcare Quality and Safety (HQS) Fast Track prepares qualified students to complete the BS in Health Care Management and the Master of Science in Healthcare Quality and Safety in 13 semesters - just over 4 years if the student takes summer courses while in the program. UAB is one of only a few universities to offer a graduate program in this field.

Program Admission

Applications to the HCM Program are accepted through the UAB Office of Undergraduate Admissions at any time. Students may begin the program at the start of any full academic term. Information and the online application for freshman, transfer, returning, and non-traditional admissions is available at https://www.uab.edu/students/admissions/apply.

Students intending to enroll in the Health Care Management program must meet all undergraduate admission and academic requirements for UAB and the School of Health Professions.

Entering freshmen are admitted directly to the HCM program through the UAB Office of Undergraduate Admissions and designate concentration or fast tracks through the program’s dedicated academic advisors. Admission to the program from high school requires graduation from an accredited high school with a grade point average (GPA) of 2.5 or higher on a 4.0 scale. Transfer admissions from another college or university and UAB students changing their declared major to HCM must have an overall GPA of 2.5 or higher and an institutional GPA of 2.5 or higher, if applicable.

Eligibility for HCM Tracks

Eligibility for the HCM concentration and fast tracks further requires the following:

• Clinical Manager track is restricted to graduates of certificate and/or associate degree programs who are credentialed or licensed in a health professions discipline. Satisfactory evidence of the credential must be provided to the HCM program office.

• Pre-professional and Long Term Care Administration Tracks require a high school, overall, and institutional (as applicable) GPA of 2.75 or higher.

• The HCM Fast Tracks require a high school, overall, and institutional (as applicable) GPA of 3.0 or higher.

• The HCM Fast Tracks require applicants have or be eligible for placement in EH 101 or MA 105 or higher.

• The HCM Occupational Therapy (OT) Fast Track requires an ACT Composite Score of 24 or higher.

• Admission to the HCM Fast Tracks is subject to the approval of Program Director for the associated graduate program. The process for approval will be coordinated by the HCM academic advisors in advance of the student's acceptance and notification.

• Admission to the HCM Fast Tracks may be denied on the basis that the applicant has previously earned credit hours toward the bachelor's degree to prevent the coordinated matriculation into the graduate program. Application to the OT Fast Track should be made prior to accruing 30 hours toward the bachelor's degree. Application to the HI and HQS Fast Tracks should be made prior to accruing 60 credit hours.

Drug Screen and Background Check

Students are required to complete a background check and drug screening upon admission to the program and again prior to internship placement. Instructions for requesting the background check and
appropriate consent forms are provided at the time of the program admission. A positive drug screen or unfavorable background check may prevent the applicant from completing the program requirements and will be evaluated in accordance with the academic policies of the school and university.

**Academic Requirements**

The minimum overall and institutional GPA required for admission to the program and designated concentration or fast track must be maintained for continued enrollment throughout the program. A student whose GPA falls below the minimum will be allowed two semesters to recover before dismissal from the major. A student who is dismissed from the HCM major in such a manner may reapply once the student has raised his or her overall and institutional GPA to the program or track minimum. A letter grade of C or higher is required for each course in the program curriculum. A minimum of 120 semester hours are required for award of the BS degree, including at least 40 semester hours in courses at the 300-level or above. No minor is required. Students may take general electives to reach the required minimum semester hours. No more than 14 semester hours of clinical education (clinical rotations or clinical practice) may be applied toward the degree. A management internship (with an organization whose service or function is related to the HCM curriculum) is required in the student's final semester of baccalaureate work. Students in the Clinical Manager Track will complete a 3-credit hour (120 contact hours) internship. All other tracks will complete a 6-credit hour (240 contact hours) internship.

**Contact Information**

For more information about the Bachelor of Science in Health Care Management, contact
Susan Packa, HCM Program Manager - packa@uab.edu

**Bachelor of Science with a Major in Health Care Management**

The Bachelor of Science Health Care Management prepares students for more than a career in management and leadership in an industry that is more than a good place to work. Students in this degree will grow to appreciate the complex and distinctive nature of health care and acquire the critical thinking and discerning skills needed for today's evolving healthcare market. The General Manager Track provides a strong foundation for mid-level management in health care and related organizations, as well as graduate studies in health administration, public health, and other health-related programs.

**BSHCM Program Concentration Tracks**

The **Clinical Manager Track** is designed for early-career and seasoned clinical professionals who are motivated to manage clinical units and services. The concentration allows for consideration of the student's past or concurrent clinical education in meeting degree requirements. The required internship is abbreviated, recognizing the student's familiarity with the environment while providing an opportunity to demonstrate newly-acquired management and leadership skills.

The **Pre-professional Track** customizes the student's academic plan to include the specific requirements of a professional graduate program identified as the student's intended course of study. Whether medical or dental school, occupational or physical therapy, this academic track will ensure that you get everything you need for a strong foundation and competitive application.

The **Long Term Administration Track** provides instruction and experiential learning in the continuum of health care and social services provided to those living with health issues that impede their ability to

A six semester hour sequence in literature or history is required; if a second literature is chosen it will apply as three of the elective hours in Core Curriculum Area II: Humanities and Fine Art; if a second history is chosen it will apply as three of the elective hours in Core Curriculum Area IV: Social and Behavioral Sciences.

The Health Care Management program offers minor options for undergraduate students upon approval from the HCM program director.

Minor in Clinical Coding and Reimbursement

The Clinical Coding and Reimbursement minor requires completion of 24 semester hours of course work. Students must contact the Health Care Management program office for admission to the minor, and must have a 2.5 GPA to qualify. All courses must be completed with a grade of C or better.

School of Nursing

Dean: Doreen C. Harper, PhD, RN, FAAN
Senior Associate Dean for Academic Affairs: Linda Moneyham, DNS, RN
Associate Dean for Clinical Affairs and Partnerships: Cynthia S. Selleck, DSN, ARNP
Associate Dean for Research and Scholarship: Karen Meneses, PhD, RN, FAAN

Mission of the School of Nursing
The University of Alabama at Birmingham School of Nursing, as part of a research university and academic health center, shapes patient-centered health care by preparing recognized nurse leaders who excel as clinicians, researchers, and educators in Alabama, nationally and internationally.

Approvals/Accreditation
The University of Alabama at Birmingham (UAB) is accredited by the Southern Association of Colleges and Schools (SACS). The School of Nursing is approved by the Alabama Board of Nursing. The Baccalaureate Degree Program in Nursing at the University of Alabama at Birmingham (UAB) School of Nursing is accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).

Bachelors in Nursing (BSN) Degree
Baccalaureate preparation in nursing is the basic educational level for entry into professional nursing practice. This foundational education includes both academic and professional nursing courses that provide a base for clinical competence and informed judgments about health and patient care in a variety of settings. These settings include, but are not limited to, home/community agencies, outpatient/ambulatory care, and hospital-based practice ranging from chronic to high acuity. Baccalaureate nursing education builds upon knowledge acquired from the humanities and biological, physical, social, and behavioral sciences. By engaging in state-of-the-art technologies, simulations, and other teaching strategies, the graduate is prepared to care for families and individuals of all ages. The integration of principles of nursing research and principles of leadership and management also assist the graduate to function as an informed member of an interdisciplinary health team. Graduates of the program are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to become a registered nurse (RN).

Student Learning Outcomes
The BSN Curriculum is designed to prepare graduates for entry into professional nursing practice. This foundation offers both academic and professional nursing courses that provide the base for clinical competence and informed judgments about health care situations and care of patients in both in- and out-patient settings. The curriculum prepares nurses to:

- Apply knowledge from diverse liberal arts educational content to generalist nursing care principles and practice experiences.
- Incorporate a basic understanding of organizational systems and the application of knowledge and skills needed to provide safe, quality care to individual patients and to function as part of an interprofessional team.
- Participate in and utilize structure, process, and outcome measures to evaluate the implementation of patient safety and quality improvement initiatives.
- Demonstrate and understanding of the basic elements of the evidence-based practice and participate in the retrieval, appraisal, and application of best practices.
- Demonstrate skills in the ethical use of healthcare information communication technology (ICT) and how technology supports safe practice and examination of patient data for outcome analysis.
- Demonstrate skills in the ethical use of healthcare policy, advocacy, global health, legal, and regulatory issues as factors that may influence healthcare delivery and practice.
- Utilize effective intra and interprofessional communication skills to advocate for evidence-based, holistic care as a member of the healthcare team.
- Assess determinants of health in relation to multiple factors (genetics, environmental exposure, family history, individual health, and health preferences) to guide and advocate for the delivery of health promotion/disease prevention strategies.
- Apply knowledge of nursing history, nursing history, nursing standards, ad one’s own beliefs and values to the application of professional nursing behaviors, communication, and actions.
- Practice safe, evidence-based, compassionate, holistic, and patient and family centered care applying knowledge of leadership and healthcare delivery for individuals and communities.

BSN Admission for Traditional Students*
Admission decisions are competitive based on the applicant’s overall academic record and criteria described below.

Admission Criteria

- The minimum cumulative GPA and minimum foundation cumulative GPA for all traditional BSN applicants is 2.75 at the time of application (includes transfer students). Admission is competitive and is based on space available. A minimum cumulative GPA of 2.75 does not guarantee admission to the School of Nursing.
- Students are eligible to apply when they have successfully completed a minimum of 41 semester credit hours. Successful completion of all pre-nursing foundation courses with a “C” or above must be met prior to matriculation into the nursing program.

Students offered admission to the SON who are enrolled in pre-nursing coursework must make a “C” or better in every foundation course for the nursing major. The final minimum cumulative/overall Nursing Foundation Coursework GPA must be a 2.75 or greater on all coursework must be met prior to matriculation into the nursing program.

- Admission decisions are highly competitive and based on the applicant’s academic record and application at the time of the application deadline. “All grades (UAB and other colleges/universities) from previous terms must be posted on applicant’s UAB transcript by the application deadline.”
- A resume, outlining health care interest/experience, campus/community involvement, leadership, employment, etc. will be due by the application deadline. Resumes should not be more than one page in length and should only include activities after graduation from high school.

Student Learning Outcomes

<table>

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIM 475</td>
<td>Electronic Health Records</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours: 18
• Applicants are strongly encouraged to provide proof of work/volunteer experience in a healthcare setting as part of the application process. The healthcare work is to be documented by letters from a supervisor (on agency letterhead) and/or time sheets and must consist of a minimum of 60 hours of paid or volunteer work in a healthcare setting. Completion of a nursing skills course does not meet this criterion for BSN applicants.

• Applicants to the School of Nursing are strongly recommended to demonstrate a record of full-time study and a minimum number of course repeats/grade forgiveness options.

Special Options for Traditional BSN Admission

UAB Dean’s Nursing Scholars Program

• UAB Dean’s Nursing Scholars Program for Entering Freshmen is a special early admission option for academically qualified high school seniors who have an ACT score of 24 or above or a composite SAT score of 1130 (old), 1680 (new) and a minimum cumulative GPA of 3.2. This option insures admission to the nursing program as long as a minimum GPA of 3.2 is maintained in the BSN foundation courses and a minimum cumulative GPA of 3.0 is maintained. Students who apply for this program can only use 12 hours of dual enrollment coursework from high school.

http://www.uab.edu/nursing/home/special-initiatives/scholars-programs

Prior to Enrollment for Upper Division Nursing Courses

• CPR certification will be due prior to registration for upper division courses (listed are approved courses)
• American Heart Association’s Healthcare Provider Course (Course C or BLSC)
• American Red Cross’ Professional Rescuer Course
• Medical Clearance, a Background Check, and a Drug Screen are required prior to beginning class for all upper division nursing courses and must be maintained throughout the program until the student graduates. Failure to comply may result in administrative withdrawal from the program.

Application Deadlines

Fall and Spring admission dates listed at - https://www.uab.edu/nursing/home/student-information/acad-prog/application-deadlines

All transfer students must be admitted to the University one month prior to the School of Nursing application deadline.

Applicants will receive an admissions decision a minimum of 4 weeks after application for the semester for which they are applying.

Future updates on the BSN admission process will be posted on the School of Nursing website (www.uab.edu/nursing) and will be available from your Pre-Nursing Advisor. If you have any questions concerning these changes, please feel free to contact the School of Nursing Office of Student Affairs at http://www.uab.edu/nursing/home/student-information/contact-us.

Traditional Students are those students who seek to enter the Undergraduate BSN program and are not a RN.

Additional Requirements

Pre-application Credit Hour Requirement

Successful completion of all core and pre-nursing requirements and a minimum of 41 semester hours are prerequisites for admission to the School of Nursing. Final coursework may be in progress.

Grade of C or greater required for all core, pre-nursing and major in nursing courses and a minimum of 2.75 for the core, pre-nursing and major in nursing courses to be considered for application.

Pre-application mandatory meeting with pre-nursing advisor

In order to apply to the School of Nursing, all students must meet with their pre-nursing advisor to evaluate completion of all School of Nursing requirements for application and receive a Certificate of Advisement used to obtain an application for the School of Nursing

Freshman Year Experience

Students entering UAB with less than 24 credit hours who plan to enter the nursing program are required by the University to take a 2 hour approved Freshman Year Experience course in order to graduate. This increases the total number of credit hours to 127 that is required for graduation from the BSN program for these students

BSN Course Requirements

BSN Foundation Courses

Grades for these courses will be used to calculate the BSN Foundation grade point average used in the determination for admission to the BSN program; a minimum grade of C is required in each course.

Second Degree BSN Students Course Requirements

- Traditional Entry http://www.uab.edu/nursing/home/student-information/acad-prog/bsn
- Accelerated Entry http://www.uab.edu/nursing/home/student-information/acad-prog/amnp
Individuals who have completed a previous undergraduate degree, outside the field of nursing, and who have met the UAB criteria for School of Nursing admissions, may be considered for admission to the School of Nursing at the University of Alabama at Birmingham (UAB) Bachelor of Science in Nursing (BSN) program or the Accelerated Master’s into Nursing Pathway (AMNP). Second-degree students seeking the BSN degree are admitted fall and spring terms. The AMNP program is a graduate level program, and results in a Master of Science in Nursing and admits in the spring term.

Second Degree Applicant Requirements

- Earned at least a bachelor’s degree in a major other than nursing at a regionally accredited institution.
- A pre-nursing foundation course GPA of at least 2.75 and an overall GPA of 2.75 OR A pre-nursing foundation course GPA of at least 2.75 and a GRE General Test score of: 293 (or 1000 on previous scale) on the Verbal and Quantitative sections and; 4 or better on the analytical writing skills portion.
- Submit all material, follow the same processes, and adhere to the same deadlines/requirements as all other undergraduate BSN applicants.
- Admission as a degree-seeking, pre-nursing student through the UAB Office of Undergraduate admissions. The on-line application for the UAB Office of Undergraduate Admissions is available at https://www.uab.edu/home/apply-for-uab-admission along with contact information.
- Advisement with an assigned Pre-Nursing Advisor is a requirement for application to the School of Nursing.
- Once admitted as an undergraduate pre-nursing student to UAB, you will be notified through an offer of admission letter to contact your assigned Pre-Nursing Advisor at (205) 975-7529 for pre-nursing academic advisement.
- Second degree students are eligible for the Honors in Nursing Program.

The following prerequisite courses (32 credit hours) must be successfully completed (with a grade of C or greater) prior to the student being considered for admission to the undergraduate program in the School of Nursing:

<table>

</tr>
</tbody>
</table>

Total Hours 32

1. If a student takes Microbiology at UAB, please contact your pre-nursing advisor for appropriate required course. Otherwise, a second science with lab may be substituted (excluding Geology and Astronomy).

Second-degree applicants must submit all material, follow the same processes and adhere to the same deadlines and requirements as all other undergraduate BSN applicants. The upper-division Nursing course requirements (66 credit hours) and the length of the program (five semesters) for second-degree applicants/students are the same as for the basic BSN applicants/students.

For information related to specific programs of study please refer to the School of Nursing catalog.

Proposed Program of Study for a Major in Nursing

Students may deviate from this curriculum plan only with the permission of the BSN Program Coordinator/Honors Program Coordinator.

Students entering UAB with less than 24 credit hours who plan to enter the nursing program are required to take a 2 hour approved Freshman Experience course in order to graduate.

The UAB Honors in Nursing Program endeavors to offer specific students "With University Honors in Nursing". Honors program and the School of Nursing Honors program will graduate "With Honors in Nursing". Students who participate in both the UAB Honors program and the School of Nursing Honors program will graduate "With University Honors in Nursing".

The nursing elective may be taken any term prior to graduate but the recommended time is for the summer semester between the Junior and Senior year.

Honors in Nursing

Purpose

Provide research experiences that engage students, faculty, and staff with the community to identify and meet community needs and to enhance academic engagement.

Eligibility

Acceptance into the Nursing Honors Program requires the student to:

1. Be accepted into the School of Nursing
2. Have earned a 3.40 GPA in Foundation courses
3. Have earned a 3.00 GPA UAB and overall
4. Have submitted the Honors Program Application Form
5. Have been selected by Honors Committee from application, transcript evaluation, and interview
6. BSN, Second degree BSN students, and RN-BSN Mobility students are eligible for participation in the nursing honors program

Requirements

1. A focus on the introduction to nursing research, research ethics and the fundamentals of research critique. In addition, research groups are created and assigned to an established/funded research teams (most congruent with the students identified research interest when possible). While students do not actively participate in the research team until semester three of the program, each student group completes an annotated bibliography specific to the research question of their team.

2. Additional research education that includes research terminology, design, strengths/limitations of select designs, sampling principles, data interpretation, and dissemination. At the conclusion of semester two, each group builds upon the annotated bibliography to complete a review of the literature paper specific to the primary research question of the team.

3. Completion of a 90-hour practicum as a member of their assigned research team and engagement in activities across the research spectrum. Each group develops an abstract and presents a poster at the UAB Undergraduate Research Expo that highlights the specific work completed during the practicum.

Benefits

Students who successfully complete the program will receive a certificate of acknowledgement at the UAB Honors Convocation and will graduate “With Honors in Nursing”. Students who participate in both the UAB Honors program and the School of Nursing Honors program will graduate “With University Honors in Nursing”.

The UAB Honors in Nursing Program endeavors to offer specific students enrichment opportunities beyond the traditional courses. Comprised of three courses that encompass six credit hours, the program adds three additional credit hours to the standard curriculum. A detailed explanation of the three semester hours of coursework include:

A focus on the introduction to nursing research, research ethics and the fundamentals of research critique. In addition, research groups are created and assigned to an established/funded research teams (most congruent with the students identified research interest when possible). While students do not actively participate in the research team until semester three of the program, each student group completes an annotated bibliography specific to the research question of their team.

Admission Requirements for the BSN Degree: RN-BSN Option

The RN-BSN Option for registered nurses (RNs) is distance-accessible program with a one-time, 2 day on campus intensive requirement. The program is designed to provide an opportunity for advanced placement in the program of nursing studies for individuals with previous nursing knowledge and/or experience. The RN-BSN Option is open to any student who has submitted evidence of successful completion of an accredited diploma or associate degree nursing program and who is licensed to practice as an RN. Admission to the RN-BSN Option is available in the fall and spring terms.

Upon admission to the School of Nursing, RNs can earn their BSN in as few as 2 terms; however, the curriculum plan can be individualized for students who choose to decelerate their pace due to other commitments (average time for completion is 3 to 4 terms).

Requirements for admission include the following:

1. Admission to UAB as a regular pre-RN-BSN Option student through the Office of Undergraduate Admissions. (Recommended to contact the Nurse Recruiter in the Office of Student Affairs at 205-934-3534 PRIOR to applying to UAB.)
2. Application for admission to the School of Nursing RN-BSN Option.
3. Admission grade point average of at least 2.5 on a 4.0 scale.
4. A grade of at least "C" in Human Anatomy, Human Physiology, Microbiology, and Descriptive Statistics. There are no time limits on general studies courses for RN-BSN Option students.
5. Evidence of successful completion of an accredited diploma or associate degree nursing program and a current license to practice as a registered nurse in the state in which you will do your practicum course.

Total credit hours: 125-126

1 The nursing elective may be taken any term prior to graduate but the recommended time is for the summer semester between the Junior and Senior year.
• Advisement with the Student Nurse Recruiter at the School of Nursing (can be done before applying to UAB).
• RN-BSN Option students are eligible for the Honors in Nursing Program.

Admission is based upon the academic record, admission application, and all supporting documents.

Additionally, RN-BSN Option students entering the RN-BSN Option who have a Bachelor’s degree from a regionally accredited school with a minimum of 120 credit hours will be exempt for all general studies requirements except for Area V requirements. Students can ask for an exemption from Area V courses based on a review of transcripts and resume/ CV by the RN-BSN Option Coordinator. Descriptive statistics would not be included in this exemption.

**Student with a bachelor’s degree may also qualify for the ADN to MSN option. [https://www.uab.edu/nursing/home/student-information/acad-prog/msn](https://www.uab.edu/nursing/home/student-information/acad-prog/msn)**

**Additional Requirements**

**RN License**

Only students who are licensed RNs may complete the RN-BSN Option curriculum.

**Pre-Application Advisor Contact**

Students interested in the RN-BSN Option should contact the Student Nurse Recruiter who advises the RN-BSN Option students. Please call 205-934-5491 to speak to the advisor.

**Progression Requirements**

The RN student who has successfully completed all prerequisite courses and the courses listed below will receive equivalency credit of 36 semester hours for specified clinical nursing courses.

**Flexible Scheduling**

This distance-accessible option offers RNs the flexibility to complete the BSN requirements while maintaining work and family responsibilities. Faculty are available in person or in virtual classroom format.

**Practicum Course**

There is one leadership practicum course in the RN-BSN Option. This course is designed to enable RN students to build on their existing clinical expertise, broaden their exposure to different specialty areas, and apply theory learned throughout the curriculum. Faculty will assist the RN in planning experience that meet the course objective. For students who live outside the Birmingham area, faculty will assist in arranging preceptored leadership experience.

**RN-BSN Option Course Requirements**

**BSN Foundation Courses**

Grades for these courses will be used to calculate the BSN Foundation grade point average for admission into the School of Nursing.

1 36 credits of validated courses from previous nursing content will be awarded after successful completion of NUR 474, NUR 475, NUR 381, and NUR 347.
2 Students may replace these courses with graduate level nursing courses, after meeting with their faculty advisor.

Students planning to continue towards the MSN Degree

A student may qualify for substitution of up to two courses from their RN-BSN Option courses as listed above. Any course substituted will go towards the students BSN degree, and will be waived from their master’s degree requirements if the course is part of that master’s specialty coursework.

A student will need to apply for the masters of nursing program through the on-line graduate application.

For admission in good standing to the MSN program:

- Cumulative grade point average of at least 3.0 on a 4.0 scale, or on the last 60 semester hours.
- A score of 410 on the MAT; or a combined score of 293 (or a 1000 on the previous scale) on the verbal and quantitative sections of the Graduate Record Examination (GRE) or a score of 480 on the GMAT.
- Letters of professional reference attesting to the applicant’s potential for graduate study.

GRE, GMAT, and MAT are waived for students with a 3.2 or better GPA. The GRE/GMAT/MAT Waiver Process allows eligible candidates for masters’ study to have the requirement of satisfactory GRE, GMAT or MAT scores waived for admission if the student has BSN Grade Point Average (GPA) of 3.2 or above on a 4.0 scale. Students in the RN-BSN-MSN option must maintain a cumulative grade point average of at least 3.0 and follow their approved curriculum plan.

School of Public Health

About the School of Public Health

The School of Public Health was established in 1978 when Dr. William Bridges established a program to address community health problems. His activity captivated a great deal of press and attracted the attention of Dr. Jarvis Ryals, a neurologist, 1965 UAB graduate, and donor. He initiated the creation of the building that the school now occupies and requested that it be named after his parents.

For over thirty years, the School of Public Health has continued Dr. Bridges’ crusade to improve health and living conditions in local Alabama communities and has expanded that vision to all areas of the world. Through research, education, and community outreach, we address community and global health problems and train the next generation of innovative public health workers.

The mission of the School of Public Health is to lead in developing, disseminating and applying knowledge to prevent disease and promote health in the human population. Because of its inherent breadth, public health is comprised of many disciplines. Thus the school achieves its mission by bringing the various disciplines together to educate individuals who will be working to prevent disease and improve the health of the school’s constituent populations. These individuals include experienced public health and other health professionals, undergraduates with education backgrounds in the sciences, and persons from developing countries with health-related backgrounds. An implicit part of this mission is a commitment to increase and validate, through research and practice, the body of knowledge upon which the school’s educational programs are necessarily based.

Bachelor of Science in Public Health Competencies

- Understand historical milestones in public health and how they influence current practice.
- Explain disease processes from a biological, environmental, social and behavioral perspective.
- Identify the role of health disparities in studying the health needs of communities and improving population health.
- Describe how data and study design methodology are utilized in quantifying public health problems.
- Communicate public health approaches, messages, and findings effectively both orally and in writing.

Bachelor of Science in Public Health Degree Concentrations

The bachelor's degree is designed to give students a foundational understanding of public health issues and methods. The UAB School of Public Health will offer a Bachelor of Science in Public Health with concentrations in the following three areas:

- Environmental Health Sciences Concentration
- Global Health Studies Concentration
- Public Health Concentration

Catalog: www.soph.uab.edu/undergraduate

Bachelor of Science with a Major in Public Health

The B.S in Public Health degree program will train students in multidisciplinary approaches to public health practice and research. The degree will explore both quantitative and qualitative aspects of public health at all levels of analysis. Graduates will advance, through employment or further education, to become the new generation of public health professionals prepared to face the emerging challenges to human health from a population perspective.

The B.S. degree in Public Health will be offered through the UAB School of Public Health which is the only Council on Education for Public Health (CEPH) accredited degree in the state. The Public Health major will provide a broad and rigorous sequence of courses in biostatistics, epidemiology, public health systems, behavior science, and environmental health sciences. Students must choose one of the following concentrations: public health, environmental health sciences, or global health studies.

Program Completion Requirements

- Credit hours required in major: 27 hours plus a 1 hour first year experience course
- Credit hours required in concentration: 18 hours
- Credit hours in institutional general education or core curriculum: 41 hours
- Credit hours in required or free electives: 34 hours
- Total credit hours required for completion: 120 hours

Undergraduate Program Concentrations

Bachelor of Science in Public Health with a Concentration in Environmental Health Sciences

Environmental Health Sciences Concentration

A concentration in Environmental Health Sciences will prepare you to protect both the environment and workers by identifying and eliminating health hazards. The environmental health sciences concentration will teach you to identify toxins and their effects on human and natural populations. Environmental scientists work in public and private sector careers to address problems such as pollution, water safety, and ecosystem protection.

Bachelor of Science in Public Health with a Concentration in Global Health Studies

Global Health Studies Concentration

As a student in the Global Health Studies concentration you will learn about health conditions that affect people around the world and associated challenges that make these issues difficult to address such as poverty, cultural beliefs, and population dynamics. This program will prepare you to work both locally and globally in public health by studying the effects of disease and learning how to plan and implement public health programs.

Bachelor of Science in Public Health with a Concentration in Public Health

Public Health Concentration

Public Health Concentration - Public health is multi-disciplinary. This concentration allows flexibility for the student wishing to sample public health courses from a variety of disciplines.

Catalog: www.soph.uab.edu/minor
Minor in Public Health

Public Health is an exciting and growing field of study. The field challenges its professionals to confront complex health issues, such as improving access to health care, controlling infectious disease, and reducing environmental hazards, violence, substance abuse, and injury. A Bachelor in Public Health is an undergraduate degree, which trains students in the essential skills needed to plan, initiate and manage healthcare programs. Research has shown the impact of healthy lifestyles on the rate of incidence of illnesses and on increasing longevity; hence, public health is now considered a very significant area of study.

Number of hours required: 18 hours

- 15 hours offered by the School of Public Health
- 3 hours of electives - The elective may be any course from the approved list below not already being used towards the minor.

Visit the following page to view undergraduate Public Health electives: http://catalog.uab.edu/undergraduate/schoolofpublichealth/#courseinventory

AAS 100. African American Studies Seminar. 1 Hour.
AAS 100 is an initial course that introduces new majors and minors to the field and the African American Studies Program. Emphases will be placed on exploring the history and development of the AAS Program, major and minor requirements, internship and service learning opportunities and career options. Required of all new majors & minors.

AAS 150. Let’s BMEN. 1 Hour.
Given the historical and current retention rate at colleges/universities in the U.S.; this class is designed to assist young scholars in navigating an academic environment. This course will explore issues such as masculinity, cultural identity, leadership and education relative to African American males. It seeks to provide students with tools and strategies that can be employed as they matriculate though their college experience.
AAS 165. Jazz Styles: History and Appreciation. 3 Hours.
American jazz with emphasis on instrumental and vocal performers, jazz bands, and combos. Development of big band, swing, and popular music.

AAS 200. Introduction to African-American Studies. 3 Hours.
Examination of seven core areas of African American Studies: History, Religion, Social Organization, Politics, Economics, Creative Production, and Psychology. Emphasizes major thematic theoretical and critical discourses of Black Studies, and its emergence as a political/social movement and discipline. Relates the latter to the complexity and diversity of contemporary movements such as Civil Rights, Free Speech, Black Power, and Afro-centricism. Majors and minors in African American Studies should complete this course before enrolling in any higher level AAS course. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

AAS 201. Honors Introduction to African American Studies. 3 Hours.
An advanced study of African American Studies as a discipline. Examines the seven core areas of the field with an emphasis on the major theories, critical discourses, and the emergence of Black Studies as a field of inquiry.

AAS 220. History of Sport: The African American Experience. 3 Hours.
This course provides a socio-cultural and historical overview of the African American athletes (male and female) that contributed to sports as we know them today. Focus will begin on the historical figures that helped shape sports culture and will continue into discussions about the role African-Americans play in collegiate and professionals sports today.

AAS 223. African-Amer Hist to Civil War. 3 Hours.
Survey of the African American experience from Pre-Colonial Africa to the End of the Civil War.

AAS 224. African American History Since 1865. 3 Hours.
Survey of late 19th century to present African American history.

AAS 235. Introduction to African History and Culture. 3 Hours.
Media representations of an uncivilized Africa marked by political instability, hunger and wars is pervasive. This introductory course on African culture and History takes the student on a journey of Africa from “inception” to date. The course will explore early empires of Africa and Africa’s rich political and cultural traditions, diversity, conflicts and religion. This course will analyze historical events like the Transatlantic slave trade, the scramble for, and partition of Africa, colonialism and neo-colonialism on the African Continent, the struggle for independence and the role of America in emergent African Nations; and current events like the role of the African Union, ECOWAS and other regional organizations and the influence of Africa in world politics. It will also introduce Students to African Diaspora – causes, patterns and peculiar conflicts of diasporic existence and assimilation into American culture and society. The course serves as a launching pad to understanding Black and African-American studies.

AAS 250. Special Topics in African-American Studies. 3 Hours.
Specific topic in African American Studies.

AAS 260. History of Afro-Latin America. 3 Hours.
This course surveys the history of those countries of Latin America, e.g., Cuba, Brazil and Colombia, that comprise the heart of the New World’s African diaspora, having received most of the roughly 10 million Africans brought to Latin American shores during the centuries-long transatlantic slave trade. It explores the dramatic experiences of Afro-Latin Americans including their roles in the destruction of slave systems, creation of nations based on democratic principles, and rise of vibrant multicultural societies.

AAS 290. Writing in African American Studies. 3 Hours.
Course offers students continued practice in reading, research, and writing central to academic investigation and to interdisciplinary approaches. Develops skills in writing across disciplines and critical thinking. Emphasizes readings on diverse, contemporary, and multicultural issues in African American Studies. Writing, Ethics and Civic Responsibility are significant components of this course.

AAS 300. African American Music. 3 Hours.
Survey, history and appreciation of African derived music and its presence in the United States from its earliest forms in spirituals, blues and jazz to contemporary forms of be-bop, hip-hop, reggae, and rap.

AAS 301. History and Tradition of Gospel Music. 3 Hours.
The purpose of this course is to broaden the knowledge of American Gospel Music history and to identify the valuable contributions of this genre by studying its eras and major contributors.

AAS 310. Black Image: Screen and Television. 3 Hours.
History and definition of the image of the African-ancestored people in the United States through cinema and television.

AAS 311. Race and Representation in Media. 3 Hours.
The course critically assesses the depiction of race in various visual media presentations. It explores how race is projected in media and how these media structures can create, support stereotypes of race and perpetuate social inequalities.

AAS 320. African Identity/Personality. 3 Hours.
This course is a study of the African identity, personality, and the concept of ‘blackness’ with particular emphasis on what it means to be black in America. An adequate discourse on the complexities of African American Studies requires a multi-disciplinary approach that considers the expansive nature of the African Experience in North America. Accordingly, any substantive intellectual and scholarly foundation for critically understanding the salient areas of this course require the application of cross-discipline areas of study involving race, culture, socioeconomics, history, African American political behavior, and psychosocial theories of development. Quantitative Literacy is a significant component of this course.

AAS 325. Black Psychology. 3 Hours.
This course examines and explores theory, research, and practice related to the study of psycho-social experiences from the worldview of Africans in America.

AAS 330. African Aesthetics and Traditional Religion. 3 Hours.
AAS 335. The Psychology of Hip Hop. 3 Hours.
Psychology of Hip Hop uses hip hop music and culture as conceptual lenses for analyzing and interpreting the life experiences of people of African descent throughout the African diaspora. Drawing mainly on psychology as well as other social sciences, this course is intended to provide students with an understanding of the psycho-historical and psycho-social development of African Americans relative to hip hop culture. This course explores and examines the thesis that African American music is an expression of African American life. Thus hip hop music and culture serve as soundtracks that allow the opportunity to listen to and learn from this particular manifestation of what W. E. B. Du Bois called the soul/psycheology of Black folk.

AAS 345. Pulpits in Protest: Social Change Speeches from the Black Church and Beyond. 3 Hours.
This course is largely constructed around the study and the discussion of four major social movements involving African Americans and the protest speeches, sermons, and songs given by women and men from the Black Church and beyond. The course demonstrates the power of oration and rhetoric and how this medium was leveraged to expose oppression and bring about social change of the oppressed. The course is organized chronologically with an emphasis on the ideas of black social thought within the black church, political protest, and the speeches, sermons, and songs given in a particular movement with efforts to initiate social change.

AAS 350. Research Methods in African American Studies. 3 Hours.
Research Methods in Africana Studies will introduce students to a general conceptual framework for ordering the social theories and methods that people of African descent have used to interpret and understand Africana life experiences.
Prerequisites: AAS 200 [Min Grade: C]

AAS 366. African American Literature II. 3 Hours.
Cultural values from James Baldwin in 1950s, through black nationalist, civil rights, and black feminist movements, to contemporary writers such as Ishmael Reed, Charles Johnson, and Toni Morrison.
Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C]) and AAS 200 [Min Grade: C]

AAS 400. Seminar in African American Studies. 3 Hours.
Specific topic in African American Studies.

AAS 420. Public Health and Medical Issues in African Communities. 3 Hours.
This course introduces students to important health issues that face the African American community. The goals are to increase awareness and stimulate discussion about health problems facing African Americans, factors believed to cause, contribute or worsen these problems, and steps now taken to alleviate or eliminate these problems.
Prerequisites: AAS 200 [Min Grade: C]

AAS 448. African American Poetry Tradition. 3 Hours.
Development of African American poetry from its early works to the present, including Wheatley, Dunbar, Hughes, Brooks, and Angelou.
Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

AAS 490. African American Studies Internship. 3 Hours.
On campus and off campus training positions in filed utilizing cross disciplinary skills, with some positions offering external funding. Students should contact the Program Director for listings of available positions and application procedures. May be counted as elective only. Preq: Junior or senior standing as African American Studies major and approval of application. May be repeated once for credit. Permission of the Program Director is needed.

AAS 493. Capstone Seminar. 3 Hours.
Specific topics vary...The course will provide an opportunity for students to reflect upon and to use the knowledge, skills and dispositions developed in previous African American Studies coursework. This course or AAS 495 required of all AAS majors. AAS 493 is ideally taken in the final undergraduate semester. Preq: 9 hours AAS coursework at the 400 level and permission of the Program Director. 3 hours.

AAS 495. Individual Studies. 3 Hours.
Specific topics vary. An individually designed course for semi-independent research or guided readings in areas and subjects that synthesize the African American Studies core areas. The course will provide an opportunity for students to reflect upon and use the knowledge, skills, and disposition developed in previous African American Studies coursework. This course or AAS 493 required of all AAS majors. AAS 495 is ideally taken in the final undergraduate semester. Consult Program Director for procedure to apply for this course.

AAS 497. Honors Seminar. 3 Hours.
The African American Studies Departmental Honors Program requires completion of a two course sequence. This first course in the sequence provides students with an overview of the research process. Students are taught the basics of research, statistical analysis and techniques of making a formal presentation of research. Under the guidance of the Program Director and faculty mentor, students are required to develop an honors research project.
Prerequisites: AAS 200 [Min Grade: B] and AAS 325 [Min Grade: B] and AAS 350 [Min Grade: B]

AAS 498. Honors Project. 3 Hours.
Under the guidance of the faculty mentor, students complete the project and make a formal presentation of the research.
Prerequisites: AAS 497 [Min Grade: B]

AC-Accounting Courses

Courses

AC 200. Principles of Accounting I. 3 Hours.
Basic concepts with focus on how accounting events affect financial statements. Emphasizes preparation, communication and use of external financial reports, accrual versus cash, receivables, payables, inventory, recording long-term operational assets, long-term liabilities, stockholders, equity, recording procedures, and financial statement analysis dealing with the benefits and risks associated with that information.
Prerequisites: BUS 110 [Min Grade: C]

AC 201. Principles of Accounting II. 3 Hours.
Basic concepts associated with internal reporting. Use of relevant information for planning, control, and decision making. Cost behavior, cost allocation, product costing, budgeting, responsibility accounting, and capital budgeting.
Prerequisites: AC 200 [Min Grade: C]

AC 299. Competency Exam for AC 200. 0 Hours.
Provides a review of introductory financial accounting and an introductory financial accounting competency exam.
Prerequisites: AC 200 [Min Grade: D]

AC 300. Financial Accounting I. 3 Hours.
Review of the financial accounting system, and in-depth coverage of the environment of financial accounting, conceptual framework of financial accounting, financial statements, time value of money, cash, receivables, and inventory.
Prerequisites: AC 200 [Min Grade: B] and AC 201 [Min Grade: C]
AC 304. Accounting Information Systems. 3 Hours.
Transaction processing cycles of accounting system; internal control, development, and control of information systems; emerging development of information technology.
Prerequisites: (AC 201 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 305. Professional Development in Accountancy. 1 Hour.
This course will introduce students to the accounting profession, the recruitment process for internships and entry-level positions in accounting; the traditions, expectations and ethical demands of the profession; and the availability of diverse career options.

AC 309. Intermediate Accounting for Corporate Careers. 3 Hours.
The course explores the major components of the balance sheet elements, liabilities and equity as well as revenue recognition.
Prerequisites: AC 300 [Min Grade: C]

AC 310. Financial Accounting II. 3 Hours.
Continuation of AC 300. Inventories, plant assets, intangible assets, current liabilities, long-term debt and stockholders’ equity.
Prerequisites: AC 300 [Min Grade: B]

AC 320. Financial Accounting Survey. 3 Hours.
Accounting cycle, financial accounting theory, financial statements, cash and receivables, inventories, plant assets, intangible assets, current liabilities, long-term debt, stockholders’ equity, investments, income taxes, pension benefits, leases, error correction, and reporting of accounting changes and earnings per share. Not open to accounting majors.
Prerequisites: (AC 201 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 364. Taxation and the Working Poor. 3 Hours.
Students will explore the objectives and consequences of the U.S. federal tax system in relation to the working poor. Topics covered will include the Earned Income Tax Credit, progressive and regressive taxes, and income redistribution as the result of tax provisions. In addition, students will study common mis-perceptions of those living in poverty. The course will consist of classroom instruction, tax preparation training, completion of a tax certification test, and volunteer tax preparation at a community-based site. This course is open to both business and non-business majors and assumes no prior knowledge of accounting or tax. The course is a service-learning course and will satisfy the experiential-learning requirement in the Collat School of Business.
Prerequisites: GPAO 2.00

AC 401. Cost Accounting. 3 Hours.
Basic theory and procedures involving cost determination, analysis, and control. Cost allocations, application of overhead, budgeting, standard costs, job order, process and by-product costing, spoilage, and quantitative techniques. Junior standing required.
Prerequisites: (AC 300 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 320 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (AC 320 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 402. Income Taxation I. 3 Hours.
Fundamentals and basic concepts of taxation of various entities, with emphasis on federal income taxation of individuals.
Prerequisites: AC 300 [Min Grade: C]

AC 413. Internal Auditing. 3 Hours.
Theory and practice of internal auditing and application of internal auditing principles and techniques to selected audit problems.
Prerequisites: (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 414. Governmental and Not-for-Profit Accounting. 3 Hours.
Budgetary and fund accounting as applied to municipalities, other governmental units, and institutions operating as nonprofit entities.
Prerequisites: (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 423. External Auditing. 3 Hours.
This course covers the major phases of an external audit including preliminary engagement procedures, planning the audit, evaluation of ICFR, substantive audit procedures, and reporting.
Prerequisites: AC 310 [Min Grade: C](Can be taken Concurrently)

AC 430. Financial Accounting III. 3 Hours.
Prerequisites: AC 310 [Min Grade: B]

AC 440. International Accounting: From a User's Perspective. 3 Hours.
Development of international accounting knowledge needed to make informed decisions in global business environment.
Prerequisites: AC 300 [Min Grade: C]

AC 441. International Accounting: Study Abroad. 3 Hours.
Development of international accounting knowledge needed to make informed decisions in global business environment through study abroad.
Prerequisites: AC 440 [Min Grade: C]

AC 452. Income Taxation II. 3 Hours.
Completion of fundamentals of taxation for individuals. Basic concepts and laws applicable to partnerships and corporations. Tax research techniques and tax planning concepts.
Prerequisites: (AC 402 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 402 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 464. Accounting Internship. 3 Hours.
Work experience enabling students to better integrate academic knowledge with practical applications by exposure to accounting practice and business environment.
Prerequisites: AC 300 [Min Grade: C] and AC 304 [Min Grade: C] and AC 310 [Min Grade: C] and (AC 402 [Min Grade: C] or AC 423 [Min Grade: C])

AC 472. Information Technology Auditing. 3 Hours.
Introduction to the practice of information technology auditing. An emphasis is placed on information technology auditing standards and methodology, as well as guidance on auditing general computer controls and application controls.
Prerequisites: AC 304 [Min Grade: C]

AC 473. Fraud Examination. 3 Hours.
Advanced forensic accounting concepts with a primary focus on occupational fraud and abuse—its origins, perpetration, prevention, and detection.
Prerequisites: AC 304 [Min Grade: C] and AC 300 [Min Grade: C]
AC 474. Forensic Accounting Practicum. 1-3 Hour.
Work experience requiring the application of forensic accounting concepts and methods.
Prerequisites: (AC 472 [Min Grade: C] and AC 473 [Min Grade: C] and LS 471 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 472 [Min Grade: C] and AC 473 [Min Grade: C] and LS 471 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

AC 480. Advanced Financial Accounting. 3 Hours.
Business combinations, consolidated financial statements, multinational accounting, and partnerships.
Prerequisites: AC 430 [Min Grade: B]

AC 490. Advanced Topics in Accounting. 3 Hours.
Contemporary professional accounting issues. Preq: Permission of instructor.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

AC 495. Business Analysis and Valuation Using Financial Statements. 3 Hours.
This case-based accounting capstone course articulates the linkage between accounting and finance and provides a framework for using financial statement data in business analysis and valuation contexts. Topics include business strategy, accounting and financial analysis, financial forecasting, and an introduction to business valuation.
Prerequisites: (AC 309 [Min Grade: C] or AC 310 [Min Grade: C]) and FN 310 [Min Grade: C]

AC 499. Directed Readings. 1-3 Hour.
Readings and independent study in selected areas.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

AFS-Aerospace Studies Courses

Courses

AFS 101. Air Force Today. 1 Hour.
Topics relating to Air Force and national defense. Purpose, structure, and career opportunities in U.S. Air Force. Written communication.

AFS 101L. Leadership Laboratory I. 0 Hours.
Laboratory to accompany AFS 101.

AFS 102. Air Force Today. 1 Hour.
Interpersonal communication. Effective listening techniques; verbal and nonverbal communication. Practical exercises and group projects to demonstrate barriers to effective communication and techniques to overcome barriers.

AFS 102L. Leadership Lab. 0 Hours.
Laboratory to accompany AFS 102.

AFS 201. Development of Air Power. 1 Hour.
Historical survey of technological innovation in warfare. Emergence of air power; significance in war and national security policy implementation.

AFS 201L. Leadership Laboratory II. 0 Hours.
Laboratory to accompany AFS 201.

AFS 202. Development of Air Power. 1 Hour.
Leadership and followership traits in context of modern military force. Ethical standards of military officers and Air Force core values. Total quality management.

AFS 202L. Leadership Lab. 0 Hours.
Laboratory to accompany AFS 202.

AFS 300. Field Training. 2 Hours.
Four-week training and evaluation course to select potential candidates for Professional Officer Course. Rigorous physical training.

AFS 301. Air Force Leadership and Management. 3 Hours.
Selected concepts, principles, and theories of quality Air Force leadership and management. Individual leadership skills and personal strengths and weaknesses as applied to Air Force environment.

AFS 301L. Leadership Laboratory III. 0 Hours.
Laboratory to accompany AFS 301.

AFS 302. Air Force Leadership and Mgt. 3 Hours.
Selected concepts, principles, and theories of quality Air Force leadership and management. Individual leadership skills and personal strengths and weaknesses as applied to Air Force environment.

AFS 302L. Leadership Lab. 0 Hours.
Laboratory to accompany AFS 302.

AFS 401. National Security Policy. 3 Hours.
Basic elements of national security policy and process. Roles and missions of air power in implementing national security policy.

AFS 401L. Leadership Laboratory IV. 0 Hours.
Laboratory to accompany AFS 401.

AFS 402. Air Force Policy and Process. 3 Hours.
Need for national security; evolution and formulation of American defense policy and strategy; methods for managing conflict; alliances and regional security agreements; analysis of arms control, threat of war, and terrorism. The military as a profession, officership, and military justice system. Refinement of communication skills.

AFS 402L. Leadership Lab. 0 Hours.
Laboratory to accompany AFS 402.

ANTH-Anthropology Courses

Courses

ANTH 101. Introduction to Cultural Anthropology. 3 Hours.
Cultures of world's peoples; ideas used to explain similarities and differences among human groups. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 102. Introduction to Biological Anthropology. 3 Hours.
Biological evolution; interpretation of human fossil record; race; human population genetics and primate behavior.

ANTH 104. Introduction to Peace Studies. 3 Hours.
An overview of concepts and practices related to conflict, social justice, and peace. Students are introduced to theories, terms, analytical skills and tools in terms of peace building and conflict transformation.

ANTH 106. Introductory Archaeology. 3 Hours.
Archaeological methods and theory used to reconstruct and interpret past. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ANTH 120. Language and Culture. 3 Hours.
Nonverbal communication; language origins and acquisition; universals; language classification and processes of change; language as expression of cultural values and social structure; beginning componential and structural analysis. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.
ANTH 200. Applied Anthropology. 3 Hours.
Applied anthropology stresses the practical application of anthropological perspectives, theories, and methods to the real world needs of contemporary communities, organizations, and institutions. Within this context, applied anthropology is viewed as a critically important fifth subfield of anthropology ideally suited to aid in the resolution of modern challenges. Topics addressed include global challenges related to public policy; the environment; sustainable development; health, poverty, social, racial, and gender inequality; social advocacy; and cultural tolerance.

ANTH 202. Science Fiction and Anthropology. 3 Hours.
 Anthropological concepts in works of science fiction; the place of anthropology in contemporary science fiction literature, film, and television. Topics include culture, language, archaeology and human evolution.

ANTH 210. Monkeys and Apes. 3 Hours.
Behavior and social organization of humans' closest living relatives. Living primates and why they behave as they do.

ANTH 211. Human Evolution. 3 Hours.
Human organism's evolution as systemic whole. Process of human evolutionary change as depicted in behavior and fossil record.

ANTH 222. Prehistory of North America. 3 Hours.
Prehistoric America north of Mexico from terminal Pleistocene to early historic times.
Prerequisites: ANTH 101 [Min Grade: C]

ANTH 226. Archaeological Field School. 1-6 Hour.
 Participation in all phases of excavation, laboratory study, and report preparation. Off campus.

ANTH 231. Archaeology of the Origins of Civilization in Egypt, Mesopotamia, and the Mediterranean. 3 Hours.
Development of complex society in the Fertile Crescent and surrounding lands in Egypt, Mesopotamia, and Mediterranean from origins of agriculture to Alexander the Great.

ANTH 235. Immigration Transnationalism and Diasporas. 3 Hours.
What happens to culture and the social organization of groups after they migrate from one country to another? This course focuses on two possible responses: (1) How immigrants assimilate to the host society through a process of becoming disorganized or uprooted and then reorganizing themselves in a new context, and (2) How immigrants, or transnationally are influenced by their persisting ties to their home countries and elsewhere.

ANTH 242. Peoples of World/South America Indians. 3 Hours.
Ethnology of indigenous peoples of South America including ecological adaptation, social organization, religious systems, and culture change. Emphasis on lowland South Americans.

ANTH 244. Peoples of the World: Africa. 3 Hours.
Local and regional African cultures. Geographical, racial, and historical backgrounds; contemporary African social systems.

ANTH 245. Peoples of the World: Mediterranean. 3 Hours.
This course covers both the western part of the Ancient Middle East and the Mediterranean Area, first introducing Neolithic Europe and Turkey/Anatolia (e.g., Catal Huyuk; Stonehenge), but focusing on Bronze Age Greece, the Aegean, and Anatolia:ca. 3000-1200 BCE. This includes an examination of the Minoans and Mycenaeans in the first part of the course (e.g., Knosso; Thera; Mycenae), and a look at the Hittites and Trojans in the second half of the semester (e.g., Hattusas; Troy), culminating with the Trojan War and Sea Peoples ca. 1200 BCE.

ANTH 248. Peoples of the World: Latin America. 3 Hours.
Holistic survey of cultures of Latin America from pre-Columbian times to present. Processes of cultural change (including revolution), ethnic group relations, and functioning of contemporary societies.

ANTH 262. Mythbusters! Arch hoaxes, doc. 3 Hours.
This course will provide an in depth examination of a number of known and not-so-well known archaeological hoaxes throughout history, allowing the class to explore the myriad of social, legal, and economic pressures which precipitated such discoveries. The course will explore subjects like the shroud of Turin, Atlantis, the Jesus Tomb, and the curse surrounding the discovery of King Tutankhamen's tomb in 1922. As part of the course, students will watch and evaluate a number of documentaries for the "truth" behind the story, and will follow ongoing media coverage of major archaeological discoveries.

ANTH 290. Study Abroad: Chilapa, Guerrero, Mexico. 3 Hours.
Orientation to and popular culture in Chilapa; Mexican history and ethnology, regional history and ethnology, and local economy and human ecology.

ANTH 292. Anthropology of Slavery. 3 Hours.
This course is a mixed format including, lectures, student projects, and potential fieldwork. The class will provide a broad cross-cultural perspective on different types of slavery that have existed across the globe (Americas, Africa, the Near East, Oceania) and examine slavery in the American South, especially Alabama. Issues of race, hierarchy, ethnicity, political, economy, religion, ideology, and social relations will be discussed.

ANTH 299. Contemporary Global Issues. 3 Hours.
This course explores anthropological perspectives, applications, and contributions to solving to contemporary world problems including: terrorism, warfare, genocide; global warming and sustainable development; global epidemic disease and new pandemics; torture and human rights abuses; global capitalism, sweatshops, and economic justice; poverty and hunger; illiteracy; child labor and child soldiers; and human population explosion.

ANTH 309. Egypt in the Age of the Pyramids. 3 Hours.
This course begins with the Prehistoric and Predynastic-Early Dynastic roots of Ancient Egypt, and focuses upon the pyramid building age of the Old through Middle Kingdoms, and concludes with the Second Intermediate Period (i.e., Dynasties 1-17): ca. 3200-1550 BCE). It will focus broadly on the archaeology, history, art, architecture, religion, and literature of this period. It is designed to stand independently of its companion course Imperial and Post-imperial Egypt.

ANTH 310. Imperial and Post-Imperial Egypt. 3 Hours.
This course focuses mainly on Egypt’s imperial period, spanning the New Kingdom (Dynasties 18-20): ca. 1550-1150/1069 BCE), and concludes with a shorter overview of the post-imperial period of Egypt’s encounters with the Kushite (Nubian), Assyrian, Neo-Babylonian, and Persian empires (Dynasties 21-31): ca. 1069-332 BCE). It focuses broadly on the archaeology, history, art, architecture, religion, and literature of this time span and is designed to stand independently of its companion course Egypt in the Age of the Pyramids.

ANTH 318. Anthropology of Development. 3 Hours.
Effects of Western penetration of indigenous societies and role of anthropologists in development projects in Third World.
ANTH 319. Food and Culture. 3 Hours.
This course is designed to present a broad view of the role of food in human culture through time and in a variety of geographic settings, offering students and opportunity to reflect on the cultural meanings of food in human life. Class lectures, assigned readings, and films will be used to enhance each student’s understanding of the subject from a cross-cultural perspective. We will examine the biological basis of diet, how foodways develop and change, how and why anthropologists study diet, and variations in foodways around the world.

ANTH 320. Comparative Religion. 3 Hours.
The cross-cultural study of ritual, religion, the sacred, and the spiritual is unique to the discipline of anthropology (which investigates humans and their culture across space and time). Concepts of the sacred and what we refer to as “religion” can be found in all cultures both past and present. For the purposes of this course the term religion may be viewed broadly as human beliefs and practices associated with supernatural or non-empirical beings and forces, including spirituality, witchcraft, cults, magic, and superstition. The goal of this course is for students to gain a broad understanding of religion cross culturally, to closely examine case studies of particular religious practices in their culture context, to explore theories of religion and their evolution, and to achieve a perspective of cultural relativism and a greater appreciation of human diversity.

ANTH 329. Egypt: Archeological Field Study. 3-6 Hours.
Two week field school in Egypt. Students will visit Egypt old and new, including Islamic Cairo, Coptic churches, the pyramids of Giza, Alexandria, the tombs and temples of Luxor (Valley of the Kings), Aswan (Abu Simbel), and an archeological excavation. Experience Egyptian folklore through dance and musical performances.

ANTH 330. Nationalism Ethnicity and Violence. 3 Hours.
Social and cultural analysis of ethnicity and nationalistic ideologies particularly where these have led to violent confrontations within modern nation-states. Primordialist versus constructionist theories of difference; varying weight to be attributed to political, historical, and cultural factors in study of nationalism; politics of culture versus culture of politics.

ANTH 340. Archeology and History Bible Lands. 3 Hours.
Archaeology and History of the Bible Lands. Examination of region spanning modern Syria, Lebanon, Isreal, and Jordan from 10,000-585 BC.

ANTH 351. Anthropology of Human Rights. 3 Hours.
Examination of conceptual, political, and legal aspects of human rights from an anthropological perspective. Topics considered may include: state violence; the history of human rights claims; the opposition of cultural rights and human rights claim; human rights as a form of political discourse; human rights practices in select contemporary settings.

ANTH 353. Primatology. 3 Hours.
Biology, behavior, and distribution of living nonhuman primates. Field studies of old-world monkeys and apes.

ANTH 355. Archaeology of Alabama. 3 Hours.
This course will explore the archaeology of Alabama with an emphasis on current regional research which may include historical archaeology, industrial archaeology, and the archaeology of Native Americans. It may include both field and class room components.

ANTH 357. Anthropology of Gender. 3 Hours.
Roles of women, men, and other genders from a cross-cultural perspective; includes bio-cultural approaches to sex and gender and changing gender roles over time. Course involves substantial writing component in essay examinations and research papers. Writing is a significant component of this course.

ANTH 360. Ecological Anthropology. 3 Hours.
Interactions among behavioral, technological, organizations, and ideological features of human cultures that serve to adapt societies to their physical environment. 3 hours in ANTH required.

ANTH 365. Economic Anthropology. 3 Hours.
Comparative ethnology of economic organizations and processes in non-industrial societies. Precapitalist social settings and transformations of precapitalist economies that have occurred, and are occurring, as result of development and expansion of industrial capitalism.

ANTH 370. Music in World Cultures. 3 Hours.
Characteristics of musical styles in various cultures throughout world. Prerequisites: MU 120 [Min Grade: C]

ANTH 371. Service Learning in Anthropology. 3 Hours.
This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.

ANTH 400. Human Osteology. 3 Hours.
This class focused on the identification of human skeletal remains. As a combined laboratory and lecture course it provides the groundwork for much of the work in biological and forensic anthropology.

ANTH 401. Forensic Anthropology. 4 Hours.
Applied human osteology, emphasizing ability to identify age, sex, and population type of skeletal material. Effects of disease and behavior on bones.

ANTH 404. Human Rights, Peace, and Justice. 3 Hours.
This course offers an introductory exploration of theories, concepts, and issues involved in the study of peace, human rights, social justice, and conflict resolution. It considers the relationship of human rights to achieving peace with justice, including the role of international law. It introduces the concepts of positive peace, human security, and global interdependence. Finally, the course includes an examination and critique of anthropological approaches to peace and the associated practical applications to real-world conflicts, rights violations, and global challenges.

ANTH 407. Peace Ethology. 3 Hours.
This course provides insights into causes, mechanisms, development, function, and evolution of peaceful behavior in humans and nonhuman animals. The course shows how studying the role of peaceful behavior in the survival and propagation of animal life has direct significance for improving our understanding of the evolved abilities for peace in humans.

ANTH 408. Conflict Resolution in Cross-Cultural Perspective. 3 Hours.
This course explores conflict and conflict management from an anthropological perspective. It includes ethnographic examples from around the globe. Do all societies engage in war? How are conflicts handled in other cultures? The course will challenge a Western view that humans are naturally violent and warlike and consider some interesting anthropological controversies. Specific topics considered include conflict models, origins of war, conflict resolution, socialization of conflict styles, third party mediation, and ways to reduce violence and prevent war.

ANTH 409. Peace through Global Governance. 3 Hours.
Global governance represents a new dimension in social organization. Anthropology has much to contribute to understanding it. Global governance has the potential to promote social progress and human development, the protection of human rights, peace, and human security. The course examines security—military, collective, and human security—and the evolution of international identity, norms, values, and laws and their contributions to the development of global civil society.
ANTH 411. Advanced Field Archaeology. 0-6 Hours.
Archaeological field and laboratory techniques, including excavation, surveying, and artifact analysis and description; general problems of archaeological interpretation.
Prerequisites: ANTH 101 [Min Grade: C]

ANTH 412. Peaceful Societies and Peace Systems. 3 Hours.
This course explores peaceful societies, some of which are internally peaceful and some of which do not make war, as well as peace systems, that is, clusters of neighboring societies that do not make war on each other and possibly not with any outside groups either. The main questions addressed in the course are: How do peaceful societies and peace systems manage to successfully keep the peace? What lessons do peaceful societies and peace systems hold for creating a less violent and warless world?

ANTH 413. Peace & Environmental Sustainability. 3 Hours.
By highlighting that ecology sets the stage for the social and economic domains, this course traces our interdependence with nature and makes the case that sustaining the natural conditions that are essential for the functioning of the ecosystem on which our lives depends equals sustaining peace. The course takes a positive peace perspective on environmental sustainability goals and methods to achieve them.

ANTH 414. Prehistory of War and Peace in North America. 3 Hours.
This course explores the origins, development, and consequences of conflict and warfare among the prehistoric and early historic indigenous cultures of North America, as well as the complimentary processes of cooperation and peace-making. Archaeological, biological, and ethnohistorical sources are utilized to understand the ways in which war and peace were carried out among Native American cultures from the earliest evidence of human occupation to European contact and beyond. Both indigenous and European practices of war and peace are considered.
Prerequisites: ANTH 101 [Min Grade: C] or ANTH 106 [Min Grade: C]

ANTH 415. Ethnographic Research Methods. 6 Hours.
Ethnographic Field Methods classroom instruction and practical experience in techniques of ethnographic fieldwork, including participant observation, household surveys, structured and unstructured interviewing, and genealogies.

ANTH 416. War & Peace in Ancient Mesopotamia. 3 Hours.
"War & Peace in Ancient Mesopotamia" (ca. 10,000 - 323 BCE) begins with an introduction to the advent of farming, urban life, various crafts, writing, and other innovations in the region of the "Two Rivers," namely the Tigris and Euphrates' flood plain. It proceeds with the rise and fall of early state complex societies and empires in the Bronze and Iron Ages, and terminates in the Persian period. Although providing much focus on diverse issues dealing with war, alliances, diplomacy, treaties, and peace, this course also integrates a comprehensive background context and overview of other aspects of past societies in this region, including history, archaeology, language, literature, religion, architecture, art, material culture, and trade. The course material is introductory, with no specific prerequisite, but a prior enrollment in either ANTH 245 (Peoples of the Mediterranean), or ANTH 340 (Archaeology & History of Bible Lands), is helpful since these courses introduce past societies from contemporary, adjacent regions frequently in direct contact with Ancient Mesopotamia.

ANTH 418. The Power of Nonviolence. 3 Hours.
This course introduces students to the theory and practice of nonviolence as a manner of social change and as a philosophy. The course explores some of the classic writings on nonviolence such as those by Tolstoy, Gandhi, and King as well as current research findings on the efficacy of nonviolent social change, for instances, the work of Sharp, Nagler, Ackerman, and Chenoweth. Readings, films, small group and whole class discussions, guest lectures by activists will contribute to an understanding of the necessary skills for practicing and promoting nonviolent social change. Students will develop projects and presentations that utilize an online nonviolence database.

ANTH 419. Religion, Reconciliation, & Forgiveness. 3 Hours.
This course examines the role of religion, spirituality, reconciliation, apology, and forgiveness in conflict situations, from the individual to the global. Topics include the role of religion in both war and peace. The course has a cross-cultural and inclusive dimension and goes well beyond Christianity to also consider Buddhism, Confucianism, Islam, and other religions. The spiritual dimensions of Gandhian nonviolence are also considered.

ANTH 420. Cultural Transformation: Our History, Our Future. 3 Hours.
The course will explore the significance of Eissler's Partnership-Domination Model and the socio-cultural systems informed by it. The course will focus on the practical application of the partnership approach for promoting peace and human rights across social levels from the family, schools, community, upward to the global level. Consideration will be given to how to transform values, institutions, economics, and politics from domination to partnership.

ANTH 421. Technologial Monitoring of Human Rights and Conflicts. 3 Hours.
This class will give students an overview of how humanitarian work intersects with innovation and technological advances. The class will introduce students to how social media, remote sensing technologies/ drones, cell phones, open source, crowd sourcing, Big Data, cloud computing, the Internet, and sensors are all changing how we collect data and interpret the world around us, and how that information is revolutionizing humanitarian and conflict monitoring.

ANTH 422. Landscape Archaeology. 3 Hours.
The course will cover the techniques and strategies employed by archaeologists to reconstruct past landscape, which involves scientific testing, remote sensing, GIS, survey, excavation and environmental analysis. Examples will be drawn from projects across diverse landscape types in Europe, the Middle East, Africa, Central America and Asia. In-field and laboratory application of techniques will be emphasized.

ANTH 423. Vikings: Raiders, Traders, Farmers. 3 Hours.
The Vikings are the most popularly thought of as warriors raiding settlements along the northern coastline of Europe during the Viking Age (ca. 793 – 1050 AD), but their society and activities extended well beyond this scope. This course furnishes an overview of Viking social structure, subsistence, art, architecture, religion, language, and literature. It covers hostile and peaceful interactions with the peoples of Greenland, the Arctic, Labrador and Newfoundland and considers the evidence for Norse explorations and influence in North America.

ANTH 430. Zooarchaeology. 3-6 Hours.
Methods and theories of zooarchaeological research are discussed in this lab/lecture course. Practical experience in processing, identification, and interpretation of animal bone remains from archaeological sites forms a large part of this class.
Prerequisites: ANTH 106 [Min Grade: C]
ANTH 432. Villains, Victims, & Vigilantes. 3 Hours.
This course examines ways in which the concepts of “rights” and “justice” are understood and enacted in local communities, particularly in regions of the world experiencing high rates of violent criminality. Beginning with a review of formal law and legal principles underlying state systems of justice, the course surveys settings in which dissatisfaction with state efforts to protect rights have induced communities to develop alternate policing and judicial institutions.

ANTH 434. Observing the Earth from Space. 3 Hours.
The course will give students the ability to analyze remotely sensed data from satellite images as part of the newly established Joint Programs for Remote Sensing and Health. Students will learn about the physics and mathematics behind remote sensing. They will also learn about wide range of satellite images and techniques to analyze them via ERDAS Imagine, ER Mapper and other programs. Applications of remote sensing to a variety of fields will form a key component of the class. The course will culminate in a term project involving remote sensing applications to the UAB faculty-led initiatives in health, medicine, geography and anthropology. There will be a weekly lab component of the course.

ANTH 436. Community Internship. 3-6 Hours.
Application of anthropological approaches to efforts in public or private sector.

ANTH 437. Real World Remote Sensing Applications. 3 Hours.
This course will be offered as a research seminar focusing on real world applications of remote sensing technology. Students will work closely with UAB professors and scientists at NASA’s Marshall Space Flight Center in Huntsville doing original remote sensing research on new satellite datasets. These datasets cover diverse areas including terrorism, global warming, health, anthropology / archaeology, atmospheric studies, urban expansion and coastal management. Students will be responsible for analyzing the satellite imagery and presenting papers to NASA.

ANTH 438. The Conquest of Mexico. 3 Hours.
This course examines the Spanish conquest of Mexico from both Spanish and indigenous perspectives. It further surveys the institutionalization of Spanish control over the fallen Aztec Empire the broader intellectual and material consequences of the conquest.

ANTH 439. Ethnography of Mexico. 3 Hours.
Survey of the incorporation of rural Mexican communities into the country’s developing industrial economy.

ANTH 442. Historical Archaeology. 3 Hours.
This course involves all stages of archaeological field work at a historical archaeology site. Students will learn survey skills, excavation, mapping, recovery, and post-field analysis techniques.

ANTH 444. Theories of Anthropology. 3 Hours.
This course provides an overview of the discipline and theories of anthropology, taking into consideration perspectives from the classic four anthropological sub-disciplines. It is intended for students entering the UAB graduate program who do not have a strong background in the four sub-fields of anthropology. Concepts and theory are covered in cultural anthropology, linguistic anthropology, biological anthropology, and archaeology.

ANTH 445. Medical Anthropology & Health Disparities. 3 Hours.
This course explores the bio-cultural basis of health and cross-cultural variation in illness and healing which includes theoretical bases of medical anthropology, comparative health care systems, and social, political, and economic issues related to health care delivery around the globe.

ANTH 446. Explorers, Mummies and Hieroglyphs. 3 Hours.
This course provides a thematic approach to pharaonic Egypt in general, with one portion covering diverse aspects such as geography, an overview of the history of Dynasties 1-31, society and government, daily religion, mortuary religion, architecture, literature, the military, trade, economy, and daily life. Another portion of the course provides several documentaries regarding early to more recent explorers and Egyptologists (e.g., Belzoni; Champollion; Petrie; Carter; modern Egyptology) with written responses. The third part introduces Egyptian hieroglyphs in eight grammar classes and follow-up user-friendly, in-class exercises, aiming to enable students to translate basic hieroglyphic texts.

ANTH 447. Advanced Peace Studies. 3 Hours.
Intensive exploration of concepts and issues involved in the study of peace, social justice, nonviolence, and conflict resolution. Students will engage in an in-depth examination and critique of anthropological approaches to peace and the associated theoretical and practical problems and applications. ANTH 104 (Introduction to Peace Studies) is recommended before taking this class, but not required.

ANTH 450. Advanced Cultural Anthropology. 3 Hours.
Critical review of theoretical approaches in cultural anthropology.

ANTH 451. Advanced Archaeological Anthropology. 3 Hours.
This course examines the theoretical approaches of 20th century archaeology: historical, processual, and post-processual. This reading intensive seminar is focused on theory and its impact on practice and the development of the subdiscipline of archaeology relative to anthropology.

ANTH 452. Advanced Linguistic Anthropology. 3 Hours.
Historical development of theory and field practice of linguistics; acquisition, sociolinguistics, nonverbal communication, semiotics, and ethnosemantics; applied linguistics.

Prerequisites: ANTH 120 [Min Grade: C]

ANTH 453. Advanced Biological Anthropology. 3 Hours.
Human evolution and primatology; race; human genetics. Tasks performed by physical anthropologists.

Prerequisites: ANTH 102 [Min Grade: D]

ANTH 454. Biological Anthropology and Contemporary Issues. 3 Hours.
This course applies a biological anthropological perspective to explore what it means to be human and to develop critical perspectives on our culture, science, and media. How did humanity arrive in its current position? How do we understand human diversity? What can we learn from the differences among people, their overwhelming biological similarity, and their common humanity? How do we use this knowledge to build a sustainable future for ourselves?.

ANTH 458. Human Sexuality. 3 Hours.
This course will explore human sexuality and gender from an anthropological perspective, including biological and cultural perspectives, as well as the areas where anthropology meets psychology. The evolution of sexual behavior in humans and in non-human primates will be examined, as well as how sexuality is embedded in socio-cultural context both across and within societies.

ANTH 459. Politics, Drugs and Society in Latin America. 3 Hours.
This course will examine the role of drug production and the drug trade in the economic and political life of Latin American societies. Viewed historically and ethnographically, the course will include coverage of the traditional uses of drugs in indigenous societies as well as the more recent globalization of the industry.
Courses

ARA 101. Introductory Arabic I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Modern Standard Arabic (MSA) is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ARA 102. Introductory Arabic II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where MSA Arabic is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

ARA 190. Study Abroad: Arabic. 1-8 Hour.
Approved novice level study abroad program in an Arabic-speaking country. Course of study will vary according to array of approved offerings and student interest. Permission of department chair required.

ARA 201. Intermediate Arabic I. 3 Hours.
This is a continuation of ARA 102. Emphasis is placed on reading authentic Arabic materials and communicative competence. There will be a focus on the meaning of sentences rather than words, which would enable the students to read and speak with more fluency and better comprehension. Students will not only engage in studying authentic Arabic materials (written, audio, and/or video, official forms, etc.), but are also required to evaluate them for others. They will also be guided to function in specific situations where they have to use only the target language to communicate their ideas and then write about them. Additionally, they will be exposed to some particular aspects of the cultures, customs, literary traditions and other artistic expressions of the Arabic-speaking world.

ARA 202. Intermediate Arabic II. 3 Hours.
This course focuses on enhancing students' linguistic and cultural competence in the Arabic speaking-world. Class activities will include role-playing, individual student presentations and extramural group projects. While the class is focused on content instruction, attention will also be paid to Arabic Language through selected activities that enhance the students' reading, writing, and conversational skills. Intermediate-high proficiency in reading, writing, listening and speaking Arabic is the targeted outcome.

Prerequisites: ARA 201 [Min Grade: C]

ARA 290. Arabic for Study Abroad. 1-6 Hour.
This study-abroad Arabic course aims at improving students' oral fluency. It will help students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content will also include discussion and analysis of current cultural topics. Arabic 290 will be conducted entirely in Arabic.

ARA - Arabic Courses

ANTH 460. Historical Ecology. 3 Hours.
This course explores the topic of Historical Ecology and examines the relationship between humans and their environments from the perspectives of history, anthropology, archaeology, ecology, and biogeography.

ANTH 464. Political Anthropology. 3 Hours.
Individuals and associations of individuals in all societies variously compete and cooperate in the course of daily life. This course will draw upon the global inventory of ethnographic information to examine these political processes. Whereas the causes of socio-political competition and cooperation vary widely from one culture to the next, socio-political competition and cooperation are nevertheless universal facts of life for individuals living in a society.

ANTH 467. Museum Studies. 3 Hours.
This course uses case studies, analysis of topical issues, and problem-based learning exercises to explore the many aspects of museum studies relevant to the administration and management of not-for-profit museums. This course provides an interdisciplinary introduction to museum work.

ANTH 483. Intern in Peace, Justice and Environmental Study. 1-3 Hour.
Individually designed program that places students in local environmental organizations, divisions of local businesses or government, or special projects to gain professional experience in preparation for careers focused on peace, social justice, and/or environment.

ANTH 486. Special Problems in Applied Anthropology. 3 Hours.
Supervised study of specified topic area; defined problem explored in depth; topics determined by student and instructor interest.

ANTH 487. Special Problems in Peace Research. 1-3 Hour.
Supervised study of specified topic area in peace studies; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 488. Special Problems in Human Rights. 1-3 Hour.
Supervised study of specified topic area in Human Rights; defined problem explored in depth. Topics are determined by student and instructor interest.

ANTH 490. Special Problems in Cultural Anthropology. 3 Hours.
Supervised study of specified topic area; defined problem explored in depth; topics determined by student and instructor interest.

ANTH 492. Special Problems in Archaeology. 3,6 Hours.
Supervised in-depth study of specified topic area in archaeology. Topics determined by student and instructor interest.

ANTH 494. Special Problems in Linguistics. 3 Hours.
Supervised in-depth study of specified topic area in linguistics. Topics determined by student and instructor interest.

ANTH 496. Special Problems in Biological Anthropology. 3 Hours.
Supervised, in-depth study of specified topic area in biological anthropology. Topic determined by student and instructor interest.

ANTH 497. Special Topics in Anthropology. 3 Hours.
Topics vary. See class schedule for topic.

ANTH 498. Honors Thesis Research. 3-6 Hours.
Independent development of research project.
ARH 203. Ancient and Medieval Art. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of art materials and techniques. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 204. Early Modern-Contemporary Art. 3 Hours.
Introduction to Western art from prehistoric cave paintings to Gothic Cathedrals. Focusing on ancient Eurasia, Mesopotamia, Egypt, Greece, Rome, and medieval Europe, this course examines the images, monuments, and ideas that shaped the pre-modern world. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 205. African/Native American/Oceanic Art. 3 Hours.
Significant monuments and styles of non-western cultures.

ARH 206. Survey of Asian Art. 3 Hours.
Art and culture of India, China, and Japan. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARH 409. Egypt in the Age of the Pyramids. 3 Hours.
This course spans the period 5000 B.C. through 1550 B.C. (Predynastic and Dynasties 1-17), which encompasses Egypt's pyramid building age. It will focus broadly on the art, archaeology, history, architecture, religion, and literature of this period. It is designed to stand independently of its companion course Imperial and Post-Imperial Egypt.

ARH 410. Imperial and Post Imperial Egypt. 3 Hours.
This course spans the years of 1550 B.C. to the Ptolemaic-Roman periods, which covers Egypt's glorious imperial era (New Kingdom: Dynasties 18-10) and its decline in Dynasties 21-31, with the rise of other empires and Macedonian and Roman control of Egypt. It focuses broadly on the art, archaeology, history, architecture, religion, and literature of this time span and is designed to stand independently of its companion course Egypt in the Age of the Pyramids.

Prerequisites: ARH 203 [Min Grade: C]

ARH 419. Arts of Death in the Middle Ages. 3 Hours.
The visual culture of death and the afterlife from the Roman catacombs to cadaver tombs, 300-1500.

Prerequisites: ARH 204 [Min Grade: C]

ARH 421. Italian Renaissance Art. 3 Hours.
The visual arts of the Italian Renaissance (1300-1550) in their historic context.

Prerequisites: ARH 204 [Min Grade: C]

ARH 422. The Birth of Painting: Portable Pictures Across Renaissance Europe. 3 Hours.
The emergence of modern easel painting, 1300-1600.

Prerequisites: ARH 204 [Min Grade: C]

ARH 423. Study Abroad: European Art. 3 Hours.
On-site study of art and architecture in Europe.

ARH 424. Northern Renaissance Art. 3 Hours.
The visual arts of the Northern Renaissance (1300-1600) in their historic context.

Prerequisites: ARH 204 [Min Grade: C]

ARH 430. Eighteenth-Century Art in Europe. 3 Hours.

Prerequisites: ARH 204 [Min Grade: C]

ARH 431. Seventeenth-Century Painting. 3 Hours.
Painting in Europe from Italian and Spanish Baroque through the Dutch Golden Age.

Prerequisites: ARH 204 [Min Grade: C]

ARH 435. Arts of Power in Early Modern Europe. 3 Hours.
The visual arts in service of kings, popes, and the people, 1300-1700.

Prerequisites: ARH 204 [Min Grade: C]

ARH 440. 19th-Century Art I: Neoclassicism, Romanticism, Realism. 3 Hours.
Painting, sculpture, and graphic arts in Europe, 1780-1860.

Prerequisites: ARH 204 [Min Grade: C]

ARH 441. 19th-Century Art II: Impressionism and Post-Impressionism. 3 Hours.
Painting, sculpture, and graphic arts in Europe, 1860-1900.

Prerequisites: ARH 204 [Min Grade: C]

ARH 450. American Art to 1900. 3 Hours.
Painting, sculpture, and architecture in the U.S., with an emphasis on 19th Century.

Prerequisites: ARH 204 [Min Grade: C]

ARH 460. Twentieth-Century Art to 1945. 3 Hours.
Painting, sculpture, and architecture in Europe and the United States, 1900-1945.

Prerequisites: ARH 204 [Min Grade: C]
ARH 461. Modern Design. 3 Hours.
History of modern design. Will examine various design disciplines, design theory, as well as the relationships between design, fine art, architecture and popular culture.
Prerequisites: ARH 204 [Min Grade: C]

ARH 464. Art Since 1945. 3 Hours.
Painting, sculpture, and architecture primarily in the United States, 1945 to present.
Prerequisites: ARH 204 [Min Grade: C]

ARH 465. Aspects of Contemporary Art. 3 Hours.
Topics in contemporary art, ca. 1970 to the present. Course offerings will vary from year to year and will study a specific historical moment, medium, theme, or subject.
Prerequisites: ARH 204 [Min Grade: C]

ARH 467. Modern Architecture. 3 Hours.
History of modern architecture, covering examples from the late 18th century to the present and emphasizing the United States.
Prerequisites: ARH 204 [Min Grade: C]

ARH 468. Race and Representation. 3 Hours.
History of 20th-Century African American art in context of contemporary theories of identity and issues of diversity, and in relation to African art. Includes study of objects in the Birmingham Museum of Art. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ARH 204 [Min Grade: C]

ARH 470. Tomb Art in East Asia. 3 Hours.
What is the purpose of a tomb? How do its structure and décor convey ancient perceptions of death? Who are the occupants, and how did they envision their journey into the afterlife? This course is a survey of the funerary arts of China, Korea, and Japan. By investigating tombs, shrines, sarcophagi, wall paintings, and grave goods throughout East Asia, we will gain a deeper understanding of ancient religions, social structures, ethnic identities, and cross-cultural interactions. Lectures will be supplemented by several visits to the Museum's Asian collections.
Prerequisites: ARH 206 [Min Grade: C]

ARH 471. Topics in Asian Cinema. 3 Hours.
This course offers students an introduction to a vital aspect of contemporary Asian culture, recognizing that film can be an important focus of contemporary, cultural commentary and critique. The course presupposes no prior knowledge of Asia or cinema and its artistic tradition. The goal of the course is to view and discuss, as a class, approximately ten films, emphasizing an understanding of their cultural background and an appreciation of their aesthetic merits as films and cultural settings in Asia. Attendance at weekly screenings is mandatory. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: ARH 206 [Min Grade: C]

ARH 472. Buddhist & Hindu Art in India to 1200. 3 Hours.
This course explores the environments of worship and devotion particular to India's major indigenous religious traditions, from their earliest expressions in approximately the fifth century BCE through to the arrival of Islam in India, ca. 1200. We will examine aesthetic conventions, religious ideals, and urban cultures by focusing on the sculpture and architecture traditions of Hinduism, Buddhism, and Jainism.
Prerequisites: ARH 206 [Min Grade: C]

ARH 473. Japanese Prints/Printmakers. 3 Hours.
A history of Japanese block prints and printmakers from seventeenth through twentieth centuries.
Prerequisites: ARH 206 [Min Grade: C]

ARH 474. Landscape and Image in East Asia. 3 Hours.
This course surveys the major traditions of landscape art in East Asia. We will explore the ways in which places and spaces are transformed into famous places and sacred sites and consider the critical role played by visual representation in this process. Major topics include the relationship between landscape and power, cultural memory, literature, mythology, seasonality, travel, and literati culture. We will examine the functions of landscape art in various cultural, geographical, and temporal contexts of East Asia. We will look at landscape painting in China from the Tang through the Ming dynasties and consider the complex processes of cultural dissemination and adaptation by looking at the reception of Chinese landscape painting tradition in Korea and Japan.
Prerequisites: ARH 206 [Min Grade: C]

ARH 475. Japanese Art. 3 Hours.
Art and culture, Neolithic era through nineteenth century.
Prerequisites: ARH 206 [Min Grade: C]

ARH 477. Piety and Power: Art in India after 1200. 3 Hours.
This course looks at the arts of India after 1200, when Indian art and culture was increasingly influenced and altered by religious and secular powers from outside the subcontinent. We will examine Islamic art and architecture under the patronage of various Sultanate traditions, and finally the Mughals, who expressed their power and piety in monumental architecture and extensively illustrated books. We will also consider the influence of Europeans in South Asia, culminating with the colonial project of the British Raj. Ongoing negotiations between these newly-arriving groups and Indians older, indigenous traditions will be studied. Throughout the course we will dissect the categories of knowledge about South Asia and its art that were constructed primarily by the British, considering, for example, the usefulness of dividing India's art history into categories of “Hindu,” “Islamic,” “European,” and etc.
Prerequisites: ARH 206 [Min Grade: C]

ARH 478. Buddhist Arts of East Asia. 3 Hours.
Survey of art and architecture created for Buddhist religious purposes in China, Japan, and to a lesser extent Korea and Central Asia. The course will include a brief overview of Buddhist monuments in South Asia, study of the iconography of Buddhist images in graphic and sculptural media, and analysis of a variety of Buddhist styles in painting, sculpture, and architecture.
Prerequisites: ARH 206 [Min Grade: C]

ARH 479. Study Abroad: Art & Culture of South Asia. 3 Hours.
This course allows students to become immersed in the art and culture of Asia through direct experience in the field. Focus will primarily be on South Asia but may vary with each course offering to include Nepal, Tibet, and Southeast Asia. Preliminary lectures in Birmingham and significant written assignments required.

ARH 480. Art Criticism and Theory. 3 Hours.
A topics course on subjects in art criticism and theory. The specific focus will vary by instructor and may emphasize either non-Western or Western theories, criticisms, and approaches.
Prerequisites: ARH 204 [Min Grade: C]

ARH 481. Special Topics: Early Modern Art. 3 Hours.
Special topics in the arts of the Early Modern period in the Western art tradition. Subject will vary with each offering.
Prerequisites: ARH 203 [Min Grade: C] or ARH 204 [Min Grade: C]

ARH 482. Special Topics: Modern Art. 3 Hours.
A special topics course on subjects in the Modern period in the Western tradition, beginning in the later eighteenth century. Specific course topics will vary by semester.
Prerequisites: ARH 204 [Min Grade: C]
ARH 483. Special Topics: Gender and the Visual Arts. 3 Hours.
Topic will vary, depending on instructor. This course will address ways in which gender has affected the history of artistic practice and patronage. It will consider such issues as the gendering of pictorial practice and space, strategies of representing gendered subjects, and the impact of women as patrons of art and architecture.

ARH 484. Special Topics: Contemporary Art. 3 Hours.
Special topics in the arts of the Contemporary period in the Western Art tradition. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARH 485. Special Topics: Museum Studies. 3 Hours.
Museum operation; organization and preparation of exhibitions; cataloging objects in collection; experience with UAB Institute of Visual Art and Birmingham Museum of Art.
Prerequisites: ARH 204 [Min Grade: C] or ARH 206 [Min Grade: C]

ARH 486. Special Topics: South Asia. 3 Hours.
Special topics in the arts of South Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 487. Special Topics: Field Study. 3 Hours.
Trips to prominent museums and galleries in United States. Preliminary lectures in Birmingham and significant written assignments required.
Prerequisites: ARH 204 [Min Grade: C]

ARH 488. Special Topics: East Asian Art. 3 Hours.
Special topics in the arts of East Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 489. Art History Senior Capstone. 3 Hours.
This course will assess students' knowledge of art history and assist them in applying what they have learned. Students will explore post-baccalaureate options, prepare professional materials, and hone art historical skills through a variety of activities such as conducting research, writing for different audiences, curating exhibitions, and presenting research at a symposium. Offered each fall. Should be taken at the senior level.
Prerequisites: ARH 204 [Min Grade: C] or ARH 203 [Min Grade: C] or ARH 206 [Min Grade: C]

ARH 490. Art Theory: Special Topics. 3 Hours.
Topic of art theory will vary with each offering.
Prerequisites: ARH 203 [Min Grade: D] or ARH 204 [Min Grade: D] or ARH 206 [Min Grade: D]

ARH 491. Independent Study. 3-4 Hours.
Project proposed by student and approved by Art History instructor.

ARH 492. Museum/Gallery Internship. 3 Hours.
Through active participation in the daily operations of a museum, gallery, or art space, students will acquire direct working knowledge of a cooperating art institution. Students will be required to work at the institution a minimum of 10 supervised hours per week during the term.

ARH 493. Seminar: South Asian Art. 3 Hours.
Seminar in the arts of South Asia. Subject will vary with each offering.
Prerequisites: ARH 206 [Min Grade: C]

ARH 494. Seminar: East Asian Art. 3 Hours.
Seminar in the arts of East Asia. Subject will vary with each offering.

ARH 495. Seminar: Early Modern Art. 3 Hours.
Seminar in Early Modern Art. Subject will vary with each offering.
Prerequisites: ARH 203 [Min Grade: C] or ARH 204 [Min Grade: C]

ARH 496. Seminar: Modern Art. 3 Hours.
Seminar in Modern Art. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARH 497. Seminar: Contemporary Art. 3 Hours.
Seminar in Contemporary Art. Subject will vary with each offering.
Prerequisites: ARH 204 [Min Grade: C]

ARH 498. AEIVA Internship. 3 Hours.
The AEIVA Intern Team will participate in all phases of daily gallery operations, ranging from curatorial practices, exhibition design, video/photographic documentation and production, technical and analytical writing, graphic design, etc. This team will act as a support staff for the AEIVA curatorial/administrative staff in a hands-on museum/gallery work environment. May be repeated to a maximum of 6 semester hours.

ARH 499. Honors Thesis. 3 Hours.
For students accepted into honors program in art history. Directed study in art history, in which student works with a faculty mentor to write an extensive research paper on a topic of the student's choice. Recommended to be taken at the senior level, the semester prior to graduation. Permission of instructor required. ARH 489 recommended.

ARS-Art Studio Courses

Courses

ARS 100. Drawing Foundations. 3 Hours.
Students will investigate the fundamentals of drawing in order to learn the elements and principles of art, to improve their dexterity and visual perception, and build skill for advanced arts practice.

ARS 101. Two-Dimensional Design Foundations. 3 Hours.
The course provides students with a foundational knowledge of two-dimensional creative media and an understanding of working with the elements and principles of art and design.

ARS 102. Three-Dimensional Design Foundations. 3 Hours.
The course provides foundational knowledge of three-dimensional art and design focusing on the organization of space and form using a variety of materials, processes, and tools. Students will investigate formal, functional and conceptual issues while developing effective material choices, construction methods, and a safe studio working practice.

ARS 103. Digital Imaging & Design Foundations. 3 Hours.
An introduction to the digital means of image capture, creation, manipulation, imaging software (such as Adobe Photoshop, Illustrator, InDesign), and research. Theme-driven projects explore type and image, collage, identity, story-telling, transformation, historical precedence, best practices and file management.

ARS 104. Four-Dimensional Design Foundations. 3 Hours.
This course introduces the fundamental principles of four-dimensional art and design through a survey of concepts, techniques, and technological practices. Basic concepts of art and design will be taught with the use of computers, video and sound equipment. In focusing on the relations between space, time and motion the 4D course extends and supplements the other Foundations courses and prepares students to continue their work with art and design.

ARS 110. Visual Literacy & Application Foundations. 3 Hours.
Students will learn to interpret visual images through closely engaging with the act of looking and making. Instruction will focus on the principles and elements of art and design and examines the work and studio practice of contemporary artists.
ARS 195. Special Topics in Studio Art: Intro (non-art majors). 1-3 Hour.
Specialized introductory studio problems in Studio Art for non-art majors. Subject will vary with each offering.

ARS 200. Experiential Drawing. 3 Hours.
This course will expand students' knowledge of drawing and will explore a variety of approaches and media to improve their creative practice. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 210. Experiential Painting. 3 Hours.
This course will introduce the discipline of painting through creative explorations, development of skills and understanding of materials use. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 220. Experiential Sculpture. 3 Hours.
This course will introduce the discipline of sculpture through creative explorations, development of skills and understanding of materials use. Students will engage in active research of their individual creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 230. Experiential Ceramics. 3 Hours.
This course will introduce the discipline of ceramics through creative explorations and development of skills and material use. Students will engage in action research of their creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 240. Experiential Printmaking. 3 Hours.
This course will introduce the discipline of printmaking through creative explorations and development of skills and material use. Students will engage in action research of their creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 250. Experiential Graphic Design. 3 Hours.
This course will introduce the discipline of graphic design through creative explorations and development of skills and material use. Students will engage in action research of their creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C]

ARS 260. Experiential New Media. 3 Hours.
This course will introduce the discipline of new media through creative explorations, development of skills and material use. Students will engage in action research of their creative practice and collaborative experiences. Media practices including sound, animation and video capturing, as well as experimental projection techniques for the fine arts will be taught. Students will work with dedicated audio and video equipment to learn the basics of sound editing and capturing video footage. Dedicated projects such as in camera editing, montage and stop motion animation will allow students to build upon video editing skills. Historical context of media arts is given through screenings, readings and response papers. Technical workshops are given throughout the semester.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C]

ARS 270. Experiential Photography. 3 Hours.
This course will introduce the discipline of photography through creative explorations and development of basic skills and material use. Students will engage in action research of their creative practice and collaborative experiences.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 110 [Min Grade: C]

ARS 280. Creativity and Imagination. 3 Hours.
This course provides students with a practical and theoretical basis for creative and imaginative practice. Students will explore issues of creativity, imagination and innovation through sketchbook exercises, discussions, and studying the work of notable artists and innovators in historical and contemporary contexts. This course meets the Core Curriculum requirements for Area II: Fine Arts.

ARS 285. Special Topics in Studio Art: Beginning. 1-3 Hour.
Specialized beginning studio problems in Studio Art. Subject will vary with each offering.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 105 [Min Grade: C]

ARS 300. Drawing - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 301. Drawing - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 302. Drawing - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of drawing.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 200 [Min Grade: C] and ARS 280 [Min Grade: C]
ARS 310. Painting - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C] and ARS 102 [Min Grade: C]

ARS 311. Painting - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 312. Painting - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of painting.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 210 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 320. Sculpture - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 321. Sculpture - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 322. Sculpture - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of sculpture.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 220 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 330. Ceramics - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 331. Ceramics - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 332. Ceramics - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of ceramics.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 230 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 340. Printmaking - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 341. Printmaking - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 342. Printmaking - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of printmaking.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 240 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 350. Graphic Design - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 351. Graphic Design - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design.
Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]
ARS 352. Graphic Design - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of graphic design. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 250 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 360. New Media - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 361. New Media - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 362. New Media - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of new media. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 260 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 370. Photography - Special Topics 1. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 371. Photography - Special Topics 2. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 372. Photography - Special Topics 3. 3 Hours.
Topics vary each semester. This course provides students with opportunities to engage in a range of methods, materials, sources, concepts and dialogue related to the discipline of photography. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 270 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 395. Special Topics in Studio Art: Intermediate. 3 Hours. 
Specialize studio art problems at the intermediate level. Subject will vary with each offering. 
**Prerequisites:** ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 105 [Min Grade: C]

ARS 400. Advanced Drawing. 3 Hours. 
Advanced studies in drawing with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 300 [Min Grade: C]

ARS 410. Advanced Painting. 3 Hours. 
Advanced studies in the discipline of painting with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 310 [Min Grade: C] and ARS 311 [Min Grade: C] and ARS 312 [Min Grade: C]

ARS 420. Advanced Sculpture. 3 Hours. 
Advanced studies in the discipline of sculpture with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 320 [Min Grade: C] and ARS 321 [Min Grade: C] and ARS 322 [Min Grade: C]

ARS 430. Advanced Ceramic Sculpture. 3 Hours. 
Advanced studies in the discipline of ceramics with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 330 [Min Grade: C] and ARS 331 [Min Grade: C] and ARS 332 [Min Grade: C]

ARS 440. Advanced Printmaking. 3 Hours. 
Advanced studies in the discipline of printmaking with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 340 [Min Grade: C] and ARS 341 [Min Grade: C] or ARS 342 [Min Grade: C]

ARS 450. Advanced Graphic Design. 3 Hours. 
Advanced studies in the discipline of graphic design with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 350 [Min Grade: C] and ARS 352 [Min Grade: C] and ARS 351 [Min Grade: C]

ARS 459. Graphic Design Field Internship. 3 Hours. 
Work in approved graphic design office under guidance of field supervisor and Department of Art and Art History instructor. 
**Prerequisites:** ARS 350 [Min Grade: C] and ARS 351 [Min Grade: C]

ARS 460. Advanced New Media. 3 Hours. 
Advanced studies in the discipline of new media with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 360 [Min Grade: C] and ARS 361 [Min Grade: C] and ARS 362 [Min Grade: C]

ARS 470. Advanced Photography. 3 Hours. 
Advanced studies in the discipline of photography with an emphasis on in-depth individually generated projects. Students will focus on professional development and portfolio preparation. 
**Prerequisites:** ARS 370 [Min Grade: C] and ARS 371 [Min Grade: C] and ARS 372 [Min Grade: C]
ARS 498. Professionalism, Project Management and Entrepreneurship. 3 Hours.
This capstone professional development course will provide students with knowledge and experience in the intersection of art and business for career in the arts. Students will conduct research, write about art and prepare materials and gain valuable insight into the inner workings of a career in the arts and identify your options and learn how to survive in a continually evolving marketplace. The course aims to familiarize students with ongoing theoretical, methodological and tactical issues in visual art making and scholarship. Offered each fall. Should be taken at the senior level.

ARS 490. Independent Study in Studio Art. 1-9 Hour.
Students plan a course of study, meeting times and expectations in cooperation with a faculty member.

ARS 491. B.F.A. Exhibition. 3 Hours.
B.F.A. students plan, present and exhibit an exhibition of work during final spring semester under the direction of a faculty member of the students choosing. Course meeting times and expectations are developed with the faculty.

ARS 492. Studio or Gallery Internship. 3 Hours.
Through active participation in the daily operations of a museum, gallery, studio, or art space, students will acquire direct working knowledge of a cooperating art institution. Students will be required to work at the institution a minimum of 10 supervised hours per week during the term.

ARS 495. Special Topics-Interdisciplinary. 3 Hours.
Interdisciplinary and inter-media approaches to art making. Courses offer integrated, multidimensional approach to art-making. Topics vary each semester.

Prerequisites: ARS 100 [Min Grade: C] and ARS 101 [Min Grade: C] and ARS 102 [Min Grade: C] and ARS 103 [Min Grade: C] and ARS 104 [Min Grade: C] and ARS 110 [Min Grade: C] and ARS 280 [Min Grade: C]

ARS 498. AEIVA Internship. 3 Hours.
The AEIVA Intern Team will participate in all phases of daily gallery operations, ranging from curatorial practices, exhibition design, video/photographic documentation and production, technical and analytical writing, graphic design, etc. This team will act as a support staff for the AEIVA curatorial/administrative staff in a hands-on museum/gallery work environment. May be repeated to a maximum of 6 semester hours.

AS-American Studies Courses

Courses

AS 201. Studies in American Culture. 3 Hours.
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other "texts" from art, music, industrial and technological developments, and folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society, including Native Americans, African Americans, immigrants, and women.

AS 202. Studies in American Culture. 3 Hours.
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other texts from art, music, industrial and technological developments, and folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society, including Native Americans, African Americans, immigrants, and women.

AS 301. Studies in American Culture. 3 Hours.
Team-taught, interdisciplinary study of American society and culture through selected readings from American literature and history, as well as other texts from art, music, industrial and technological developments, and folk and popular culture. Specific topics vary with instructors; materials for study include cultural experiences and expressions of diverse groups within American society including Native Americans, African Americans, immigrants, and women.

AS 401. Senior Seminar in American Studies. 3 Hours.
Topics of national and regional interest from any discipline but sufficiently broad to allow focus on specific intellectual problems using analytical skills and interdisciplinary methods learned in Core Curriculum courses, required elective courses, and chosen major. Should be taken during senior year.

Prerequisites: AS 201 [Min Grade: D] and AS 202 [Min Grade: D]

ASEM - Advanced Safety Engineering and Management Courses

ASEM 461. Occupational Health & Safety Management Systems. 3 Hours.

Prerequisites: MG 302 [Min Grade: C]

ASEM 462. Hazard Identification and Risk Assessment. 3 Hours.
Criticality of proactive hazard identification and risk assessment for mitigation of serious workplace incidents. Techniques include Preliminary Hazard List (PHL), Preliminary Design Hazard Analysis (PHA), System Hazard Analysis (SHA), Subsystem Hazard Analysis (SSHA). Management's role in establishing policies and guidelines for acceptance of residual risk.

Prerequisites: MG 302 [Min Grade: C]

ASEM 463. Incident Investigation and Root Cause Analysis. 3 Hours.
Human error and error provocative environments. System design for the "failing human." Rasmussen's model of Drift to Danger and Reason's "Swiss Cheese Model." Analysis techniques include five why, fishbone, event trees and fault tree analysis (FTA). Case studies heavily emphasized.

Prerequisites: MG 302 [Min Grade: C]

Focus on ANSI/ASSE Z10-2012 and ISO 18001.

Prerequisites: MG 302 [Min Grade: C]

AST-Astronomy Courses
Courses

AST 101. Astronomy of the Universe. 3 Hours.
Survey of the universe of matter and energy. Interpretation of observations to develop a self-consistent view of the universe, basic physical laws and structures, cosmic history and evolution. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 102. Astronomy of Stellar Systems. 3 Hours.
Mechanisms and processes of universe and interrelationships as systems, including nature of stars and galaxies: formation, interior processes, including energy generation, evolution, and galaxies as systems. Lecture and laboratory. Quantitative Literacy is a significant component of this course. Requires concurrent enrollment in AST 112. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 103. Astronomy of the Solar System. 3 Hours.
Descriptive and interpretive approach to solar and interplanetary phenomena, comets, and cometary/meteor relationships, asteroids and planetesimals, planetary surfaces, atmospheres, and interior structures. Physical law governing the solar system and quest for understanding its history and evolution, including formation. Lecture. Requires concurrent enrollment in AST 113 laboratory. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 105. Extraterrestrial Life. 3 Hours.
Interdisciplinary treatment (astronomy, chemistry, biology, planetary science, communications, and information sciences) of the universe as habitat, cosmic chemistry of molecules and evolution, environmental requirements, origin and occurrence of life, search for evidence, intelligence, communication, and contact. Lecture and laboratory. Concurrent enrollment in AST 115 laboratory required. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

AST 111. Astronomy of the Universe Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 101. Quantitative Literacy is a significant component of this course. Must take with AST 101 to receive credit.
Prerequisites: AST 101 [Min Grade: D](Can be taken Concurrently)

AST 112. Astronomy of Stellar Systems Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 102. Quantitative Literacy is a significant component of this course. Must take with ST 102 to receive credit.
Prerequisites: AST 102 [Min Grade: D](Can be taken Concurrently)

AST 113. Astronomy of the Solar Systems Laboratory. 1 Hour.
Laboratory experience demonstrates how astronomy is practiced through observation experiences, laboratory experiments, and exercises involving analysis of data. Specific experiences illuminate topics presented in AST 103. Must take AST 103 to receive credit.
Prerequisites: AST 103 [Min Grade: C](Can be taken Concurrently)

AST 115. Extraterrestrial Life Laboratory. 1 Hour.
Laboratory experience illuminates topics presented in AST 105. Must take AST 105 to receive credit. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: AST 105 [Min Grade: C](Can be taken Concurrently)

BMD-Biomedical Sciences

Courses

BMD 150. Introduction to the Biomedical Sciences. 1 Hour.
Introduction to career paths within the Biomedical Sciences. Topics will address student needs and interests and current trends in the Biomedical Sciences. Emphasis will be placed on developing an individualized educational plan based on a student's academic and professional interests.

BMD 201. Contemporary Issues in Biomedical Sciences. 1 Hour.
A survey of current policy topics and industry trends in biomedical sciences, health, and medicine.

BMD 202. Survey of the Biomedical Sciences Literature. 1 Hour.
Techniques for searching, retrieving, reading, and analyzing the expert information used by biomedical researchers and health professions practitioners.

BMD 300. Laboratory Techniques in Biotechnology I. 2 Hours.
Basic laboratory techniques in biotechnology utilizing a lab notebook, basic lab instruments, and making solutions. Basic molecular biology and mammalian cell culture techniques used in studying gene regulation.
Prerequisites: CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BMD 310. Clinical Anatomy and Histology. 4 Hours.
Exploration of the functional anatomy of the human body through gross and microscopic studies of cells, tissues, and organ systems; survey of body systems; correlations between the structures and functions of the body's various systems; association of major embryonic developmental events with functional gross anatomy.
Prerequisites: BY 123 [Min Grade: C]

BMD 315. Clinical Physiology and Pharmacology for Health Professions I. 4 Hours.
Basic concepts of physiology and pharmacology related to human organ systems and drug categories; human physiological principles and their application to pharmacology; membrane physiology, muscle physiology, physiology of the autonomic nervous system and the cardiovascular system; application of physiologic principles to drug pharmacokinetic and pharmacodynamics models.
Prerequisites: CH 115 [Min Grade: C] and (CH 114 [Min Grade: C] or CH 116 [Min Grade: C]) and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C]) and BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BMD 317. Clinical Physiology and Pharmacology for Health Professions II. 4 Hours.
Basic concepts of physiology and pharmacology related to human organ systems and drug categories; human physiological principles and their application to pharmacology; renal, respiratory, gastrointestinal and endocrine systems; application of physiological principles to drug pharmacokinetic and pharmacodynamics models.
Prerequisites: BMD 315 [Min Grade: C]
BMD 320. Survey of Cell Biology for Health Professions. 3 Hours.
Molecular and cellular biosciences from a highly-integrated systems
perspective; principles of eukaryotic cell structure and function,
macromolecules, gene expression, signaling, division, differentiation,
ergy transformation and metabolism in cells; endocytosis,
intramembrane transport, protein targeting, organelle biosynthesis,
protein sorting, exocytosis, cell shape, motility, and cell-to-cell interaction;
signal transduction processes and cellular functions required for cell
growth and programmed cell death.
Prerequisites: BMD 320 [Min Grade: C]

BMD 330. Clinical Microbiology for Health Professions. 3 Hours.
Clinically-based study of bacteriology, parasitology, mycology, and
virology and the human host response to each; mechanisms of microbial
pathogenicity and complex interactions with the host that produce
symptoms of disease.
Prerequisites: BMD 320 [Min Grade: C]

BMD 380. Research Methods and Scientific Literacy for the
Biomedical Sciences. 3 Hours.
Introduction to basic research methodology; review of statistical methods
in health professions research. Emphasis will be given to preparing
students to critically evaluate medical and scientific literature as well as
web-based materials.
Prerequisites: HCM 360 [Min Grade: C] or MA 180 [Min Grade: C]
or QM 214 [Min Grade: C] or PY 216 [Min Grade: C] or PUH 250 [Min
Grade: C]

BMD 400. Laboratory Techniques in Biotechnology II. 2 Hours.
Laboratory techniques used in biotechnology, including cloning genes
into an expression vector; transforming into E. coli; and transfection into
mammalian cells for study of gene regulation and expression.
Prerequisites: BMD 300 [Min Grade: C]

BMD 410. Clinical Biochemistry for Health Professions. 3 Hours.
Current concepts of human biochemistry and molecular biology; protein
structure and function, enzymes, intermediary metabolism, biosynthesis
of lipids, and utilization of lipids; special emphasis on the molecular basis
of inherited genetic diseases, acquired diseases, and clinically-related
biochemistry.
Prerequisites: CH 235 [Min Grade: C] or (CH 234 [Min Grade: C] and
CH 236 [Min Grade: C]) and CH 237 [Min Grade: C] and (CH 238 [Min
Grade: C] or CH 239 [Min Grade: C])

BMD 420. Pathophysiology for Health Professions. 4 Hours.
Problem-oriented study of general disease processes and the major
subdivisions of general pathology: cellular adaptations, tissue injury
and renewal, neoplasia, environmental and nutritional pathology, and
pediatric disorders; cellular alterations and inflammation, genetic,
immunological, nutritional and circulatory disorders; effects of infection,
chemical and physical agents, blood and vascular diseases, neoplasia
and aging as they apply to selected organ systems.
Prerequisites: BMD 317 [Min Grade: C]

BMD 430. Clinical Immunology for Health Professions. 3 Hours.
Basic immunology and the fundamental principles relating to the immune
response in normal and disease states; antigens, antibodies, cells
and structures of the immune system; process of immunity, allergies,
transplantation and diseases; emphasis on the genetics, mechanisms,
and regulation of the immune system in human health and disease.
Prerequisites: BMD 320 [Min Grade: C]

BMD 475. Capstone Experience in the Biomedical Sciences. 2-4
Hours.
Mentored capstone project to explore an area of student interest
demonstrating curriculum integration. The capstone project should
culminate in a formal scholarly work. Senior Standing required.
Prerequisites: BMD 315 [Min Grade: C] and BMD 317 [Min Grade: C]
and BMD 320 [Min Grade: C]

BME-Biomedical Engineering Courses

**Courses**

BME 011. Undergraduate Coop/Internship in BME. 0 Hours.
Engineering workplace experience in preparation for the student's
intended career.

BME 210. Engineering in Biology. 3 Hours.
Application of engineering to the study of biology on the cellular and
molecular level. Engineering solutions in genomics, proteomics,
and nanotechnology to investigate cellular and molecular process.
Prerequisites: BY 123 [Min Grade: C] and PH 222 [Min Grade: C]
(Can be taken Concurrently) and BY 210 [Min Grade: C](Can be taken
Concurrently)

BME 310. Biomaterials. 3 Hours.
Introduction to wide range of materials used for biomedical applications.
Physical, chemical and mechanical properties of biomaterials.
Prerequisites: MSE 280 [Min Grade: C] and BME 210 [Min Grade: C]

BME 311. Biomaterials for Non-Majors. 3 Hours.
Wide range of materials used for biomedical applications. Physical,
chemical and mechanical properties of biomaterials.
Prerequisites: MSE 280 [Min Grade: C]

BME 312. Biocomputing. 3 Hours.
Introduction to computational techniques used in biomedical engineering.
Prerequisites: (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])
and (EGR 265 [Min Grade: C] or MA 227 [Min Grade: C] and MA 252
[Min Grade: C]) and MA 260 [Min Grade: C](Can be taken Concurrently)

BME 313. Bioinstrumentation. 3 Hours.
An introduction to instrumentation used to make biological and
physiological measurements. Techniques include acquisition and analysis
of bioelectric signals and several imaging modalities.
Prerequisites: EE 312 [Min Grade: C] and MA 227 [Min Grade: C] and
MA 252 [Min Grade: C] or EGR 265 [Min Grade: C]
BME 333. Biomechanics of Solids. 3 Hours.
Application of mechanics of solids principles to biomedical engineering problems; stress-strain of bone, viscoelasticity and constitutive equations of tissues, mechanics of the cell, introduction to molecular mechanics.
Prerequisites: EGR 265 [Min Grade: C] or MA 227 [Min Grade: C] and MA 252 [Min Grade: C] (Can be taken Concurrently) and ME 215 [Min Grade: C] (Can be taken Concurrently)

BME 340. Bioimaging. 3 Hours.
Overview of diagnostic imaging including major imaging modalities such as X-Ray/CT, Nuclear Imaging, Ultrasound, Magnetic Resonance and in vivo molecular imaging approaches. Physical principles of image formation, image interpretation and patient safety.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and BME 210 [Min Grade: C] and EE 312 [Min Grade: C] (Can be taken Concurrently)

BME 350. Biological Transport Phenomena. 3 Hours.
Basic mechanisms and mathematical analysis of transport processes with biological and biomedical applications. Analysis of flow, transport and reaction processes for biological fluids and biological molecules with applications towards development of artificial organs, drug delivery systems and tissue engineering products.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and BME 210 [Min Grade: C] (Can be taken Concurrently) and BY 409 [Min Grade: C] (Can be taken Concurrently) and ME 215 [Min Grade: C] (Can be taken Concurrently)

BME 401. Undergraduate Biomedical Engineering Seminar. 1 Hour. Undergraduate seminar.

BME 408. Advanced Biological Transport Phenomena. 3 Hours.
Application of fluid mechanics in blood flow in the circulatory system; cardiovascular fluid mechanics, wall shear stress and the development of atherosclerosis, viscoelastic behavior of the arteries, non-Newtonian character of blood.
Prerequisites: BME 350 [Min Grade: C] and (CE 220 [Min Grade: C] or BME 333 [Min Grade: C])

BME 417. Engineering Analysis. 3 Hours.
Solutions to engineering problems involving ordinary and partial differential equations; Laplace transform, power series, Bessel functions, Legendre polynomials, Fourier series, Fourier integral and transform, Sturm-Liouville and separation of variables.
Prerequisites: (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) or EGR 265 [Min Grade: C]

BME 420. Implant-Tissue Interactions. 3 Hours.
An overview of implant biocompatibility including tissue histology, histopathology of implant response and the regulatory process for medical devices. Emphasis placed on ethical issues related to design, development, and implementation of biomedical implants. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: BME 310 [Min Grade: C] or BME 311 [Min Grade: C]

BME 423. Living Systems Analysis and Biostatistics. 3 Hours.
Basic concepts and techniques of measurement processing and analysis of data from living systems. Statistics, analysis of variance and regression analysis. Emphasis is placed on writing lab reports in a style similar to research papers. BME 423L must be taken concurrently.
Prerequisites: BME 312 [Min Grade: C]

BME 423L. Living Systems Analysis and Biostatistics Laboratory. 0 Hours.
Labs include blood flow data acquisition and analysis, implant biocorrosion testing, evaluation and analysis of cell proliferation, and apoptosis. The laboratory component of BME 423 and must be taken concurrently.

BME 435. Tissue Engineering. 3 Hours.
Principles underlying strategies for regenerative medicine such as stem-cell based therapy, scaffold design, proteins or gene delivery, roles of extracellular matrix, cell-materials interactions, angiogenesis, tissue transplantation, mechanical stimulus and nanotechnology.
Prerequisites: BME 310 [Min Grade: C] or BME 311 [Min Grade: C]

BME 443. Medical Image Processing. 3 Hours.
Fundamental topics of medical image processing to practical applications using conventional computer software.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] or MA 252 [Min Grade: C]) and PH 222 [Min Grade: C]

BME 450. Computational Neuroscience. 3 Hours.
This course examines the computational principles used by the nervous system. Topics include: biophysics of axon and synapse, sensory coding (with an emphasis on vision and audition), planning and decision-making, and synthesis of motor responses. There will be an emphasis on systems approach throughout. Homework includes simulations.
Prerequisites: BME 312 [Min Grade: C]

BME 454. Introduction to Pharmaceutical Engineering. 3 Hours.
This course is designed to introduce the science and biopharmaceutical principles of drug delivery to undergraduate students of Biomedical Engineering. Graduate students of BME, Pharmacology & Toxicology and Chemistry are also eligible to take it as an elective course.
Prerequisites: BME 310 [Min Grade: D] and CH 115 [Min Grade: D] and CH 116 [Min Grade: D]

BME 461. Bioelectric Phenomena. 3 Hours.
Quantitative methods in electrophysiology of neural, cardiac, and skeletal muscle systems.
Prerequisites: PH 222 [Min Grade: C] and BME 312 [Min Grade: C]

BME 462. Cardiac Electrophysiology. 3 Hours.
Experimental and computational method on cardiac electrophysiology, ionic current, action potentials, electrical propagation, the electrocardiogram, electromechanical coupling, cardiac arrhythmias, effects of electric fields in cardiac tissue, defibrillation and ablation.
Prerequisites: BME 312 [Min Grade: C]

BME 471. Continuum Mechanics of Solids. 3 Hours.
Matrix and tensor mathematics, fundamentals of stress, momentum principles, Cauchy and Piola-Kirchoff stress tensors, static equilibrium, invariance, measures of strain, Lagrangian and Eulerian formulations, Green and Almansi strain, deformation gradient tensor, infinitesimal strain, constitutive equations, finite strain elasticity, strain energy methods, 2-D Elasticity, Airy Method, viscoelasticity, mechanical behavior of polymers.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (BME 333 [Min Grade: C] or CE 220 [Min Grade: C])
BME 472. Industrial Bioprocessing and Biomanufacturing. 3 Hours.
This course will introduce students to the growing industries related to biomedical, biopharmaceutical and biotechnology. It is targeted to offer the students marketable skills to work in a vital area of economic growth and also convey some of the challenges and opportunities awaiting.
Prerequisites: BME 310 [Min Grade: C](Can be taken Concurrently) or BY 330 [Min Grade: C](Can be taken Concurrently) or CH 460 [Min Grade: C](Can be taken Concurrently)

BME 475. Quantitative Biomechanics of Injury & Rehabilitation. 3 Hours.
Students will learn the material, mechanical, electrophysiological and energetic principles of human movement. Students will learn about the healthy nonimpaired system and compare to systems impaired by injury or disability for applications in rehabilitation.
Prerequisites: ME 215 [Min Grade: C]

BME 489. Undergraduate Research in Biomedical Engineering. 0 Hours.
Undergraduate research experiences in biomedical engineering.
Prerequisites: EGR 200 [Min Grade: C] or (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

BME 490. Special Topics in Biomedical Engineering. 3 Hours.
Special Topic in Biomedical Engineering.

BME 491. Individual Study in Biomedical Engineering. 1-6 Hour.
Individual Study in Biomedical Engineering.

BME 494. Honors Research I. 1-3 Hour.
Research experiences for undergraduates enrolled in the departmental honors program. The student should write a proposal and make a presentation based on the proposal.
Prerequisites: EGR 301 [Min Grade: C] or STH 201 [Min Grade: C]

BME 495. Honors Research II. 1-3 Hour.
Research opportunities for undergraduate students in the Biomedical Engineering Honors Program. Research areas include cardiac electrophysiology, brain imaging, biomedical implants, and tissue engineering.
Prerequisites: BME 494 [Min Grade: C]

BME 496. Biomedical Engineering Honors Seminar. 1 Hour.
Must be enrolled in an Honors Program.

BME 498. Capstone Design I Product Development. 3 Hours.
Design and development of medical-products. Through experiential learning, students go through the early phases of engineering design innovation for medical products, starting with clinical immersion to determine a critical health-care need. Engineering students work in multi-disciplinary teams that include students from the School of Business to develop design concepts for both a client-based prototype and a commercializable version. Designs take into account client needs as well as legal, regulatory, and marketing requirements. Business ethics are also covered. Emphasis is placed on communication in both oral and written format to targeted audiences.
Prerequisites: BME 310 [Min Grade: C](Can be taken Concurrently) and BME 312 [Min Grade: C](Can be taken Concurrently) and BME 313 [Min Grade: C](Can be taken Concurrently) and BME 333 [Min Grade: C](Can be taken Concurrently)

BME 498L. Senior Design and Product Development Laboratory. 0 Hours.
Lab component for BME 498 Senior Design Product Development. Laboratory activities include break-out sessions for team discussions (Problem definition and brainstorming of solutions), training and use of computer design software (Creo, CES Edupak, ABAQUS), and machine shop training for prototype development. Must be taken concurrently with BME 498.

BME 499. Capstone Design II. 3 Hours.
Capstone design project; a continuation of BME 498. Through experiential learning, student teams consisting of engineering and business students complete the engineering design process for their client-based prototype incorporating engineering standards and realistic constraints. Student teams develop a business plan to present to potential business partners and product development teams from established companies. Additional skills learned in this part of the design process include: development of business proposals, project planning and scheduling, project execution and resource scheduling, communication of design, and interim and final design reviews. Emphasis is placed on communication of design and design justification in both an oral and written format to targeted audiences.
Prerequisites: BME 498 [Min Grade: C] and ME 102 [Min Grade: C]

BME 499L. Capstone Design II Lab. 0 Hours.
Exposure to engineering skills common to all senior design projects. Students working in teams solicit input from clients and instructions. The laboratory component of BME 499 and must be taken concurrently.

BUS-Business Courses

Courses

BUS 101. Introduction to Business. 3 Hours.
This course will enable students to understand the breadth of business opportunities and careers as well as assist in their transition to college and the Collat School of Business through the inclusion of First Year Experience (FYE).

BUS 102. Business Foundations. 3 Hours.
This course will enable students to understand the breadth of business opportunities and careers as well as introduce them to the Collat School of Business.

BUS 110. Essentials of Financial Literacy. 3 Hours.
An introductory course dealing with the mathematics of money and financial literacy.

BUS 300. Business Honors Research Methods. 3 Hours.
First of three required courses for students participating in the Collat School of Business Honors Program. Course provides student with an overview of leadership literature and with necessary research, writing and communication skills for successful participation in the Collat School of Business Honors Program.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)
BUS 301. Business Honors Reading Seminar. 1 Hour.
This course will facilitate development of an acceptable Business Honors Thesis/Project Proposal to be submitted to the Collat School of Business Honors Committee by exposing students to a selection of books and periodicals that are not typically assigned in other courses. Book selections will vary from semester to semester. Students will read, discuss, and write a review of each assigned work. Preq: Acceptance into a UAB Honors Program or permission of instructor. May be repeated with permission of Honors Program Director.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

BUS 305. Professional Development for Today's Workplace. 1 Hour.
This course prepares students for experiential learning and internship opportunities. Students will gain an understanding of networking, personal branding, career planning, strategic career search, interviewing techniques, salary negotiation, and professional etiquette in today's global workplace.

BUS 310. Accounting and Finance for Nonbusiness Majors. 3 Hours.
An introduction to accounting, financial reporting and the basic principles of business finance. Not open to majors in the Collat School of Business. Prerequisites: (BUS 102 [Min Grade: C] and GPAT and GPAO 2.00) or (BUS 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 311. Creating & Delivering Customer Value. 3 Hours.
An introduction of managerial and marketing principles used to create and deliver customer value in organizations. Prerequisites: (GPAT and GPAO 2.00 and BUS 102 [Min Grade: C]) or (GPAU 2.00 and GPAO 2.00 and BUS 102 [Min Grade: C]) or BUS 101 [Min Grade: C]

BUS 350. Business Communications. 3 Hours.
BUS 350 provides effective communication skills for business contexts. This course is writing intensive and emphasizes grammar, mechanics, word usage, formatting, and style appropriate for professional business messages. Prerequisites: (EH 102 [Min Grade: C] and GPAT and GPAO 2.00) or (EH 102 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EH 107 [Min Grade: C] and GPAT and GPAO 2.00) or (EH 107 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 400. Business Honors Seminar. 3 Hours.
This course will facilitate completion of an accepted Business Honors Thesis/Project Proposal. Students conduct independent research and present work in progress. Acceptance to the Collat School of Business Honors Program required. Prerequisites: (BUS 300 [Min Grade: C] and GPAT and GPAO 2.00) or (BUS 300 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

BUS 410. Integrating Business Functions. 3 Hours.
Course integrates various elements that impact the success of business enterprises. Not open to majors in the Collat School of Business. Prerequisites: (GPAT and GPAO 2.00 and BUS 310 [Min Grade: C] and BUS 311 [Min Grade: C]) or (GPAT and GPAO 2.00 and BUS 310 [Min Grade: C] and BUS 311 [Min Grade: C])

BUS 450. Strategic Management Capstone Experience. 3 Hours.
Senior seminar integrating functional business fields of accounting, economics, finance, information systems, management, marketing, production policy and decision making. This course is writing intensive and students must demonstrate an ability to write to appropriate audiences and incorporate pertinent external sources. Strong emphasis on ethical reasoning and decision-making and relating material to contemporary business events and issues. Must be senior in last term.

BUS 455. Business Honors Seminar, I. 3 Hours.
Study of the strategy-setting process for a business or other complex organization with emphasis on role of chief executive officer and other leaders in that process. Research, analysis, communications and presentation skills practiced.

BUS 495. Business Honors Seminar, II. 3 Hours.
Continuation of BUS 495, overview of business ethics and emphasis on skills required to complete final work project for the Collat School of Business Honors Program. Good standing in the Collat School of Business Honors Program and second semester senior standing required. Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

BY-Biology Courses

Courses

BY 101. Topics in Contemporary Biology. 3 Hours.
Selected topics in the current understanding of biological systems, ranging from humans to ecosystems. Particular focus on scientific issues such as human diseases, genetic engineering, emerging infectious diseases, environmental causes of disease, and climate change, as well as analysis of these issues as presented in print and electronic media. NOTE: Not for biology majors or minors (with BY 102). This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

BY 102. Topics Contemporary Biology Laboratory. 1 Hour.
Experiments and demonstrations in contemporary biology with strong emphasis is placed on understanding the systems of the human body. Drawing and writing assignments will focus on the structure and function of the important systems of the human body. Quantitative Literacy is a significant component of this course.

BY 108. Human Population and the Earth's Environment. 3 Hours.
Influence of human population on Earth's environment. Specific attention will be paid to environmental issues such as population growth, climate change, water and energy resources, pollution, waste disposal, plant and animal extinctions, and food resources. Strong emphasis will be placed on determining solution to the variety of environmental problems facing the earth. Lecture and film. Ethics and Civic Responsibility are significant components of this course.

BY 109. Laboratory in Environmental Science. 1 Hour.
Experiments on topics essential to study of environment and which reveal complexity of solving environmental problems. Writing, Ethics and Civic Responsibility are significant components of this course.

BY 110. Laboratory in Environmental Science. 1 Hour.
Experiments on topics essential to study of environment and which reveal complexity of solving environmental problems. Writing, Ethics and Civic Responsibility are significant components of this course.

BY 111. Extended Topics in Contemporary Biology. 3 Hours.
Selected topics in contemporary biology of interest to students with minimal background in biology. Topics presented in interactive lecture/discussion format. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences. NOTE: Only general elective credit for biology major or minor. Prerequisites: BY 101 [Min Grade: D]

BY 112. Ext Topics Contemporary Biology Laboratory. 1 Hour.
Further examination, interpretation, and discussion of topics in BY 111. Independent and group projects. NOTE: Only general elective credit for biology major or minor. Prerequisites: BY 111 [Min Grade: D]
BY 115. Human Anatomy. 4 Hours.
Principles of vertebrate structure with emphasis on gross and microscopic human anatomy. Survey of human embryology and evolution. Lecture and laboratory.

BY 115L. Human Anatomy Laboratory. 0 Hours.
Human Anatomy Lab required with BY 115 lecture.

BY 116. Introductory Human Physiology. 4 Hours.
Integrated functions of human cells, tissues, and organ systems. NOTE: Only general elective credit for biology majors or minors. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]
Curriculum requirements for Area III: Natural Sciences.

BY 116. Introductory Human Physiology Laboratory. 0 Hours.
Human Physiology Lab required with BY 116 lecture.
Prerequisites: BY 116 [Min Grade: C](Can be taken Concurrently)

BY 123. Introductory Biology I. 4 Hours.
Basic chemistry, cell structure and function, metabolism, genetics, evolution, bacteria, and protists. For major in biology and related fields. Quantitative Literacy and Writing are significant components of this course. Lecture and laboratory. Eligible for, enrolled in, or have completed MA 106, MA 107, MA 125, or MA 126. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently) or MA 126 [Min Grade: C](Can be taken Concurrently) or MA 226 [Min Grade: C](Can be taken Concurrently) or (A02 23 and HSCG 3.50) or (A02 24 and HSCG 3.00) or (A02 25 and HSCG 2.50) or A02 26 or (S02 540 and HSCG 3.50) or (S02 560 and HSCG 3.00) or (S02 580 and HSCG 2.50) or S02 600 or MAC1 17 or MAAD 24 or (SAT2 580 and HSCG 3.50) or (SAT2 600 and HSCG 3.00) or (SAT2 620 and HSCG 2.50) or SAT2 640

BY 123L. Introductory Biology I Laboratory. 0 Hours.
Introductory Biology I Lab required with BY 123 lecture.

BY 124. Introductory Biology II. 4 Hours.
The course emphasizes the transition from cell, to tissue, to organs in multicellular systems. Specific attention in the course will be paid to a survey of the various groups of plants, fungi, invertebrates and vertebrates. Strong emphasis will be placed on comparing the anatomy and physiology of the major organ systems in humans with those of other organisms. The course is designed to expand the students understanding of the process of scientific writing. Quantitative Literacy and Writing are significant components of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: BY 123 [Min Grade: C]

BY 124L. Introductory Biology II Laboratory. 0 Hours.
Introductory Biology II Lab required with BY 124 lecture.

BY 210. Genetics. 3 Hours.
Principles and mechanisms of inheritance; structure, action, and regulation of genes; molecular genetic technology and application to human health and agriculture. Preparation for advanced courses in biology.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 213. Phage Genomics I. 4 Hours.
Phage Genomics I is the first semester of a year-long lecture, laboratory, and web-enhanced course designed to provide an authentic research experience for undergraduate students. The course will address themes and techniques from across biology including microbiology, phage genetics, molecular biology, bioinformatics, and electron microscopy. Preqs: completed application (contact biology advisor) and permission of instructor. Freshmen and sophomores only.

BY 214. Phage Genomics II. 4 Hours.
This course is the second semester of a year-long lecture, laboratory, and web-enhanced class designed to provide an authentic research experience for undergraduate students. Students will learn the concepts and procedures for: annotating segments of a unique mycobacteriophage genome to indentify open reading frames, genes, and regulatory sequences; compare this bacteriophage genome to other sequenced bacteriophage genomes; compare and analyze amino acid sequences to reveal relationships between species; writing and presentation of scientific results. Freshmen and sophomores only.
Prerequisites: BY 213 [Min Grade: C]

BY 216. Pathophysiology. 3 Hours.
The course addresses epidemiologically relevant human pathologies resulting in disrupted homeostasis with an emphasis toward causal agents, mechanism of injury at the cellular and histological levels, pathogenic manifestations at the cellular, histologic, organ system and organismal levels, and applicable treatment strategies currently used in their medical detection, intervention and management. The course stresses modalities for human disease including genetic mutation, infection, neoplasia, immune dysfunction, preventable behaviors, endocrine alterations, and aging. The course specifically integrates the pathogenic model's impact on stress reactions, immune defenses, hematolgy, ventilation-respiration, cardiovascular perfusion, fluid balance, and nutrition. The course incorporates some remediation of the normal physiology and genetics required for homeostasis and introduces clinical profiling and case study learning.
Prerequisites: BY 116 [Min Grade: C] or BY 409 [Min Grade: C] or BY 124 [Min Grade: C] and (BY 261 [Min Grade: C] or BY 271 [Min Grade: C])

BY 220. CLOne: Chromatin Laboratory 1. 0-4 Hours.
Students will learn laboratory skills in molecular genetics, with a focuses on generating CRISPR guide RNAs and testing their efficiency in Drosophila cells. The students will be introduced to the scope of the project, read relevant literature, and will conclude their research experience by writing a journal-style report on their results.
Prerequisites: BY 123 [Min Grade: D]

BY 245. Fundamentals of Scientific Investigation. 3 Hours.
The course covers the basics of scientific investigation with an emphasis on understanding methods of the scientific process, experimental design, data interpretation and presentation and scientific writing. Special emphasis will be placed on the use of data management and statistical packages to address the most common types of data analysis used to investigate specific applications in biology. Quantitative Literacy is a significant component of this course. Recommend course is taken before junior year.
Prerequisites: BY 124 [Min Grade: C]

BY 255. Invertebrate Zoology. 4 Hours.
Invertebrate phyla, emphasizing evolutionary relationships, biological principles demonstrated by invertebrates, and significance of invertebrates in total ecology. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]
BY 255L. Invertebrate Zoology Laboratory. 0 Hours.
Invertebrate Zoology Lab required with BY 255 lecture.

BY 256. Vertebrate Zoology. 4 Hours.
Comparative approach to the structure, function, ecology, life history, and conservation of vertebrates. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C] and CH 115 [Min Grade: C] and (CH 116 [Min Grade: C] or CH 114 [Min Grade: C])

BY 256L. Vertebrate Zoology Laboratory. 0 Hours.
Vertebrate Zoology Lab required with BY 256 lecture.

BY 260. Botany. 4 Hours.
Development, structure, physiology, and diversity of plants, emphasizing vascular plants. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 260L. Botany Laboratory. 0 Hours.
Botany Lab required with BY 260 lecture.

BY 261. Introduction to Microbiology. 4 Hours.
Cell structure and function, microbial genetics, viruses, and epidemiology and infectious disease. NOTE: Cannot be applied toward requirements for a biology major. Lecture and laboratory.
Prerequisites: BY 116 [Min Grade: C] and BY 123 [Min Grade: C] or CH 107 [Min Grade: C](Can be taken Concurrently) and CH 108 [Min Grade: C](Can be taken Concurrently) or CH 235 [Min Grade: C] and CH 234 [Min Grade: C] or CH 236 [Min Grade: C] or CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

BY 261L. Introduction to Microbiology Laboratory. 0 Hours.
Introduction to Microbiology Lab required with BY 261 lecture.

BY 267. Tropical Ecology. 3 Hours.
Major tropical ecoregions; ecology of terrestrial, aquatic, and marine tropical organisms. Major portion conducted at tropical field station in Caribbean. Lecture and field trips (May session, alternate years). Permission of Instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 268. Galapagos Ecology. 3 Hours.
An overview of the ecology of the Galapagos Island, with an emphasis on the ecology of terrestrial and marine organisms. Major portion of course conducted on the Galapagos Islands. Lecture & field trips. Permission of course instructor.
Prerequisites: BY 124 [Min Grade: D]

BY 269. Rain Forest Ecology. 3 Hours.
Physical and environmental factors that structure rain forest, biodiversity of life, and interactions of its organisms. Prominent biota. Major portion of course taught at tropical field station in Costa Rica. Lecture and field trips (May session, alternate years). Permission of instructor required.
Prerequisites: BY 124 [Min Grade: D]

BY 271. Biology of Microorganisms. 4 Hours.
Microbiology with emphasis on molecular aspects of microbial cell structure, function, and diversity. Host defense mechanisms, infectious disease, and microbial ecology. Preparation for advanced courses in biology. Lecture and laboratory.
Prerequisites: BY 210 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 271L. Biology of Microorganisms Laboratory. 0 Hours.
Biology of Microorganisms Lab required with BY 271 lecture.

BY 280. Biology of Aging. 3 Hours.
Current understanding of aging, measurement of aging changes, theories of aging, and aging changes in various human systems.
Prerequisites: BY 123 [Min Grade: C]

BY 311. Molecular Genetics. 3 Hours.
Prokaryotic and eukaryotic gene structure and function.
Prerequisites: BY 210 [Min Grade: D]

BY 314. Embryology. 3 Hours.
Descriptive and experimental studies of vertebrate development at the molecular, cellular and tissue levels.
Prerequisites: CH 117 [Min Grade: C] and CH 118 [Min Grade: C]

BY 327. Histology. 4 Hours.
Microscopic anatomy of cells, tissues, and organs of animals; correlation of structure and function. Techniques and methodology. Lecture and laboratory.
Prerequisites: BY 115 [Min Grade: C] or BY 124 [Min Grade: C]

BY 327L. Histology Laboratory. 0 Hours.
Histology Lab required with BY 327 lecture.

BY 330. Cell Biology. 3 Hours.
Biological molecules and metabolic processes; energetics; synthesis and regulation of macromolecules; differential gene expression; membranes and organelles; cytoskeleton; cell cycle and growth of normal and neoplastic cells.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and CH 235 [Min Grade: C](Can be taken Concurrently) and CH 234 [Min Grade: C](Can be taken Concurrently) or CH 236 [Min Grade: C](Can be taken Concurrently) or CH 237 [Min Grade: C](Can be taken Concurrently)

BY 362. Neurobiology. 3 Hours.
This course teaches the biological basis of nervous system function, i.e., how the central nervous system is organized, and how neurons, synapses and neuronal circuits function in order to produce behavior. The course also provides the student with basic concepts in mammalian neuroendocrinology and age-related changes in nervous system structure and function.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C]

BY 394. Biology Laboratory Teaching. 1-3 Hour.
Student will assist in instruction of a biology laboratory. Student is required to attend scheduled preparatory sessions each week, assist in teach assigned laboratory section, help develop student assignments such as examinations and/or practicals and assist the laboratory coordinator in other capacities as assigned. Students work under the direction of the course instructor and/or the laboratory coordinator. Student must have completed the course in which the student is assisting with a grade of B or higher. Permission of the instructor is required. May be repeated for credit to a maximum of three semester hours.

BY 395. Special Topics in Biology. 1-4 Hour.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 210 [Min Grade: C]

BY 397. Advanced Directed Readings. 1-3 Hour.
Reading and independent study in selected areas under supervision of faculty sponsor. May be repeated for total of three semester hours credit. 12 semester hours of BY with BY GPA of 3.0 and permission of instructor required.

BY 398. Undergraduate Research. 1-3 Hour.
Research project under supervision of faculty sponsor. May be repeated for a total of 3 semester hours credit. 12 semester hours of BY with GPA of 3.0 and permission of instructor required.
**BY 405. Microbial Physiology. 3 Hours.**
Microbial structure and function, growth, metabolism, and regulation of cellular activity.
**Prerequisites:** BY 271 [Min Grade: C] and CH 235 [Min Grade: C] and (CH 236 [Min Grade: C] or CH 234 [Min Grade: C])

**BY 407. Microbial Ecology. 3 Hours.**
Microorganisms in nature; interactions with each other and with environment.
**Prerequisites:** BY 271 [Min Grade: C]

**BY 409. Principles of Human Physiology. 4 Hours.**
The lecture and laboratory course uses humans as a model system to investigate physiological processes occurring at cell, tissue, organ, and system levels. Additionally, the use of experimental examples and laboratory experiments and the interpretation of data will be used to understand all aspects of productivity. The class is designed to improve scientific writing skills related to research experiment. Writing and Quantitative Literacy are significant components of this course. Foundation in anatomy recommended (BY 115 or BY 256).
**Prerequisites:** BY 210 [Min Grade: C] and CH 237 [Min Grade: C] and CH 238 [Min Grade: C] or CH 239 [Min Grade: C]

**BY 409L. Principles of Human Physiology Laboratory. 0 Hours.**
Human Physiology Lab required with BY 408 and BY 409 lecture.

**BY 410. Comparative Animal Physiology. 3 Hours.**
Comparative examples to illustrate general principles of physiology; study of how animals function in their environment.
**Prerequisites:** BY 256 [Min Grade: C]

**BY 411. Advanced Human Anatomy. 4 Hours.**
Regional study of human gross anatomy by dissection of human donor bodies.
**Prerequisites:** BY 115 [Min Grade: C]

**BY 416. Cellular Physiology. 3 Hours.**
Biochemical and thermodynamic aspects of cellular energy metabolism. Foundation in physiology recommended (BY 124, BY 116, BY 409 or BY 410).
**Prerequisites:** BY 330 [Min Grade: C] and CH 237 [Min Grade: C] (Can be taken Concurrently) and CH 238 [Min Grade: C] (Can be taken Concurrently) or CH 239 [Min Grade: C]

**BY 419. Reproductive Physiology. 3 Hours.**
Comparative reproductive physiology in mammals, with emphasis on humans.
**Prerequisites:** BY 256 [Min Grade: C] and CH 235 [Min Grade: C] and (CH 236 [Min Grade: C] or CH 234 [Min Grade: C])

**BY 420. General Endocrinology. 3 Hours.**
The central theme of this course is the role of hormone chemical messengers in the regulation of physiological processes. Topics include structure of endocrine cells and glands, hormone synthesis and chemistry, physiological effects of hormones, and mechanisms of hormone action. Emphasis is placed on vertebrate systems, but instructive invertebrate systems are also considered.
**Prerequisites:** BY 256 [Min Grade: C]

**BY 426. Evolutionary Medicine. 3 Hours.**
An evolutionary approach to issues relating to human health and disease.
**Prerequisites:** (BY 116 [Min Grade: C] or BY 409 [Min Grade: C]) and BY 330 [Min Grade: C]

**BY 429. Evolution. 3 Hours.**
The course includes the history of evolutionary thought and modern evolutionary theory. Discussions cover (but are not limited to) the history of life, mechanisms of evolutionary change, sexual selection, adaptation, speciation, and molecular evolution. Students will also be introduced to historical and contemporary studies of evolution on a wide variety of topics and organisms.
**Prerequisites:** BY 210 [Min Grade: C]

**BY 431. Principles of DNA Technology. 3 Hours.**
Manipulation of genes and their regulation; techniques used in recombinant DNA technology. Lecture.
**Prerequisites:** BY 210 [Min Grade: D] and BY 311 [Min Grade: D]

**BY 432. Biological Information Resources. 3 Hours.**
The National Center for Biological Information (NCBI) website is a treasure house of information and tools for researchers in all areas of modern Biology. The goal of this course is to provide guidance for students who wish to become familiar with the NCBI website through an online learning experience. They will learn many of the features available at this site and will gain experience using some of the tools. The course will be taught online consisting of 1) Guidelines for navigating through NCBI, 2) NCBI tutorials with sample questions to be answered online wherever appropriate, and 3) assignments and exams to be answered online.
**Prerequisites:** BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C] and BY 311 [Min Grade: C]

**BY 433. Advanced Molecular Genetics. 3 Hours.**
Molecular genetics of eukaryotic organisms, including analysis of the features and nature of eukaryotic genomes, genes, nucleosomes, and chromosomes; processes involved, such as transcription, splicing, transposition, and signal transduction. The role of molecular biology in cell growth and cancer. Lecture.
**Prerequisites:** BY 311 [Min Grade: D]

**BY 434. Functional Genomics and Systems Biology. 3 Hours.**
Systems biology is an inter-disciplinary study underlying complex biological processes as integrated systems of many interacting components. This course will give students a foundation in understanding complex biological interactions at the molecular, network and genomic level. This course will cover state-of-the-art high throughput established and novel approaches used in genome sequencing, transcriptomics, proteomics and metabolomics to obtain, integrate and analyze complex data. The students will also get familiar with knowledge on experimental perturbation of genomes, gene regulatory networks, comparative genomics and evolution, basic bioinformatics. This course will be a combination of text based lectures and discussions of the current literature relevant to Functional Genomics and Systems Biology.
**Prerequisites:** BY 210 [Min Grade: C]

**BY 435. Natural History of Vertebrates. 4 Hours.**
Lecture and field study of adaptations of vertebrate classes for survival in particular environments. Survey and classification of local vertebrates. Lecture and laboratory.
**Prerequisites:** BY 256 [Min Grade: C]

**BY 435L. Natural History of Vertebrates Laboratory. 0 Hours.**
Natural History of the Vertebrates Lab required with BY 435 lecture.
BY 437. Epigenetics. 3 Hours.
This course provides a survey of the field of epigenetics, introducing the student to the diverse areas of epigenetic research in a variety of eukaryotic systems. The course combines lectures with discussion of primary literature and research talks from invited faculty speakers working in epigenetics. In addition to providing an overview of the field of epigenetics, this course emphasizes working with primary scientific literature and the development of critical reading skills. Recommended that Molecular Genetics be completed prior to enrollment.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 440. Immunology. 3 Hours.
Immunee system and functions of host humoral and cellular immune responses. Mechanisms of antigen and antibody reactions and basic immunological methods.
Prerequisites: BY 271 [Min Grade: C] and BY 330 [Min Grade: C]

BY 442. Experimental Phycology. 4 Hours.
The course uses Algae as a model system to investigate various experimental approaches to assessing productivity with specific emphasis placed on classification, respiration, photosynthesis, growth and nutrient limitation. Additionally the use of experimental examples and laboratory experiments and the interpretation of data will be used to understand all aspects of productivity. Designed to improve scientific writing skills related to research experiments. Writing and Quantitative Literacy are significant components of this course.
Prerequisites: BY 124 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 442L. Experimental Phycology Laboratory. 0 Hours.
Experimental Phycology Lab required with BY 442 lecture.
Prerequisites: BY 124 [Min Grade: C] and CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

BY 448. Psychoneuroimmunology. 3 Hours.
How neuroendocrine and immune systems communicate with each other. Regulatory processes mediated by interactions between these systems and application to diseases.
Prerequisites: BY 440 [Min Grade: C]

BY 450. Plant Physiology. 4 Hours.
Metabolic activities and growth processes of plants, with emphasis on photosynthesis, respiration, germination, dormancy, and hormones; physiological phenomena associated with phases of development. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: C] and CH 235 [Min Grade: C] and (CH 236 [Min Grade: C] or CH 234 [Min Grade: C])

BY 450L. Plant Physiology Laboratory. 0 Hours.
Plant Physiology Lab required with BY 450 lecture.

BY 451. Plant Biology. 3 Hours.
This course introduces the student to the basic concepts of plant biology including plant diversity, structure, physiology, metabolism, reproduction, genetics, molecular biology, evolution and ecology. It is targeted to Biology Majors and Biology Graduate Students. This class brings together knowledge and methodologies from a number of different disciplines to provide students with an intensive and comprehensive plant curriculum from the molecular to the organismal level.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 452. Field Botany. 4 Hours.
Plant identification and classification; consideration of phylogenetic systems. Lecture and laboratory.
Prerequisites: BY 260 [Min Grade: C]

BY 452L. Field Botany Laboratory. 0 Hours.
Field Botany Lab required with BY 452 lecture.

BY 453L. Mycology Laboratory. 0 Hours.
Mycology Lab required with BY 453 lecture.

BY 456. Comparative Vertebrate Anatomy. 4 Hours.
Study of the anatomical systems of vertebrates in an evolutionary and functional context. Covers form, function, development and phylogeny of vertebrates, with overviews of organ systems, and the major adaptive events of vertebrate evolution. Labs complement lectures with dissections of representative species, and surveys of specializations in other forms. Lecture and laboratory.
Prerequisites: BY 124 [Min Grade: C]

BY 456L. Comparative Vertebrate Anatomy Lab. 0 Hours.
Comparative Vertebrate Anatomy Lab required with BY 456 lecture.
Prerequisites: BY 124 [Min Grade: C]

BY 460. Advanced Invertebrate Zoology. 3 Hours.
This course takes an in-depth look at aspects of the biology of the Echinodermata and Crustacea. The course fromat includes lectures, guest lectures, and student critiques of papers from the scientific literature. There is a field trip to Blunt Springs to search for echinoderm fossils. Lecture and student projects.
Prerequisites: BY 255 [Min Grade: C]

BY 465. Limnology. 4 Hours.
Chemical and physical principles of lakes and streams; biology of freshwater and estuarine organisms. Lecture and laboratory.
Prerequisites: BY 255 [Min Grade: C] or BY 256 [Min Grade: C] or BY 260 [Min Grade: C]

BY 465L. Limnology Laboratory. 0 Hours.
Limnology Lab required with BY 465 lecture.

BY 467. Population Ecology. 3 Hours.
The course covers the structure and dynamics of populations with an emphasis on understanding how reproduction, mortality and dispersal interact to control fluctuations in population size and structure. Special emphasis will be placed on the use of computer models and interpretation of data to address specific applications in conservation biology and natural resource management. Quantitative Literacy is a significant component of this course.
Prerequisites: BY 124 [Min Grade: C]

BY 468. Conservation Genetics. 3 Hours.
This intensive course will introduce students to the genetic tools of modern population biology – which ones are available, practical, and useful for particular questions – and how these genetic analyses have been applied to a wide variety of ecological topics, including: dispersal, life histories, recruitment, habitat and mate choice, local selection, genetic differentiation, the conservation of biodiversity, and speciation. Importantly, this course is an opportunity to become proficient at applying molecular tools to bolster ecological studies. Time will be spent in lectures and learning practical coding and data analyses.

BY 469. Molecular Ecology and Phylogenetics. 3 Hours.
Course will survey processes and patterns of molecular evolution and methods of phylogenetic analysis using DNA sequences, amino acid sequences, and molecular markers.
Prerequisites: BY 124 [Min Grade: C] and BY 210 [Min Grade: C]
BY 470. Ecology. 3 Hours.
Ecosystems and population biology. Lecture.
Prerequisites: BY 255 [Min Grade: C] or BY 256 [Min Grade: C] or BY 260 [Min Grade: C] or BY 271 [Min Grade: C]

BY 471. Ecology Laboratory. 1 Hour.
Laboratory in ecosystems and population biology. May be taken concurrently with BY 470.
Prerequisites: BY 470 [Min Grade: D](Can be taken Concurrently)

BY 474. Chemical Ecology. 3 Hours.
Study of chemical interactions between organisms or between organisms and their environment. Topics include chemical signaling between organisms, sensing of the chemical environment, and chemical defenses against predators, pathogens, biofoulers, or competitors. Students will be introduced to these topics in wide variety of terrestrial and aquatic habitats, with a special emphasis on marine organisms.
Prerequisites: BY 124 [Min Grade: C] and CH 235 [Min Grade: C]

BY 475. Comparative Developmental Biology. 3 Hours.
Mechanisms of development with emphasis on comparative biology.
Prerequisites: BY 210 [Min Grade: C]

BY 480. Emergency Medicine Internship. 3 Hours.
This semester-long internship is designed to provide undergraduate students with an authentic hands-on medical research experience. The course will allow students the opportunity to assist faculty members and residents of the UAB Department of Emergency Medicine in their clinical research studies. Specifically, students will be involved in patient recruitment for the study, determine patient eligibility, reading information about the studies to patients, and collecting data regarding patient history. Students will also have the methodology associated with clinical research. Junior or senior standing, minimum GPA of 3.5, completed application and acceptance into the internship program required.

BY 485. Special Topics in Biology. 0-4 Hours.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 489. Chromatin Biology Research Lab. 0-3 Hours.
This Classroom Undergraduate Research Experience is designed for students transferring to UAB and introduces them to original research in a classroom setting. The students will learn laboratory skills in molecular genetics by producing the reagents such as plasmid constructs or recombinant proteins. The students will be introduced to the scope of the project, read relevant literature, and will conclude their research experience by writing a journal-style report on their results. Thus, this course promotes proficiency in laboratory skills, writing of laboratory reports, and scientific literacy.

BY 490. Bio Capstone: Human Physiology. 4 Hours.
Physiological processes occurring at cell, tissue, organ, and system levels in mammals with emphasis on humans. Students that enroll in this capstone experience will be expected to do additional work to fulfill their biology capstone requirement. Lecture and Laboratory. Foundation in anatomy recommended (Human Anatomy or Vertebrate Zoology).
Prerequisites: BY 210 [Min Grade: C] and CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

BY 491. Biology Capstone - Evolution. 4 Hours.
The course introduces the history of evolutionary thought and modern evolutionary theory. Discussions cover (but are not limited to) the history of life, mechanisms of evolutionary change, sexual selection, adaptation, speciation, and molecular evolution. Students will be introduced to historical and contemporary studies of evolution on a wide variety of topics and organisms. Students that enroll in this class as their capstone experience are expected to do writing and ethics assignments to fulfill their capstone requirement.

BY 492. Biology Capstone - Undergraduate Research. 4 Hours.
Research project under supervision of faculty sponsor. Student must enroll for 4 credit hours and must have senior standing. Students who enroll in this course as their capstone experience will be required to do additional work to fulfill their biology capstone requirement.

BY 493. Biology Capstone - Honors Research. 4 Hours.
Research project under supervision of faculty sponsor. You must enroll in 4 credit hours and you must have senior standing. Students that identify this course as their capstone experience will be required to do additional work to fulfill their biology capstone requirement.

BY 495. Special Topics in Biology. 0-4 Hours.
This course will consider topics from the various disciplines in the biological sciences and the topic will differ each term. Course requirements may include lecture, laboratory, readings, discussion, reporting, and internships or fieldwork, which may be conducted on- or off-campus. May be taken more than once for credit.
Prerequisites: BY 123 [Min Grade: C] and BY 124 [Min Grade: C] and BY 210 [Min Grade: C]

BY 496. Fundamentals of Clinical Research. 3 Hours.
Issues relevant to the conduct of clinical research: ethics, hypothesis testing, study design, and data collection and management. Lecture and clinical interaction with patients. Prerequisites: Junior or Senior level biology majors; 15 hours of biology credit with a 3.5 GPA in biology courses, and permission of instructor.

BY 498. Honors Research. 1-6 Hour.
Research project for students admitted to Honors Research Program. Two or three terms required during which minimum of 6 semester hours must be earned. Grade assigned at completion of program. 18 hours of biology with minimum GPA of 3.5 in biology classes and admission to Honors Research Program required.

BY 499. Biology Seminar. 1 Hour.
Student presentations and discussions. Subject matter varies by term. See current class schedule for topic. Senior standing and permission of instructor required.

CAS-College of Arts & Sciences Courses

Courses

CAS 101. Success in Biology and Natural Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the biology in context of the university. It is meant to help prepare students for a successful collegiate career in the study of biology and natural sciences.
CAS 102. Success in Chemistry and Natural Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the Chemistry in context of the university. It is meant to help prepare students for a successful collegiate career in the study of chemistry and natural sciences.

CAS 103. Success in the Sciences. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of science.

CAS 104. Success in Soc/ Behavioral Sci. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the social and behavioral sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of social and behavioral sciences.

CAS 105. Success in Psychology and Social Sciences. 2 Hours.
The objective of this course is to introduce freshmen to an education in psychology and the social sciences in context of the university. It is meant to help prepare students for a successful collegiate career in the study of psychology and social sciences.

CAS 106. Success in the Humanities. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in the humanities in context of the university. It is meant to help prepare students for a successful collegiate career in the study of the humanities.

CAS 107. Success in Music. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in music in context of the university. It is meant to help prepare students for a successful collegiate career in the study of music.

CAS 108. Success in Communication. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in communication in context of the university. It is meant to help prepare students for a successful collegiate career in the study of communication.

CAS 109. Success in World Cultures and Foreign Languages. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in foreign languages and world cultures in context of the university. It is meant to help prepare students for a successful collegiate career in the study of world cultures and foreign languages.

CAS 110. Success in Art. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in art in context of the university. It is meant to help prepare students for a successful collegiate career in the study of art.

CAS 111. Success in Theatre. 2 Hours.
The objective of this course is to introduce incoming freshmen to an education in theatre in context of the university. It is meant to help prepare students for a successful collegiate career in the study of theatre.

CAS 112. Success in College. 1 Hour.
The objective of this course is to introduce incoming freshmen to a successful path in college. It is meant to help prepare students for a successful collegiate career in any field of study.

CAS 399. Perceptions: Poverty in Amer/SL. 3 Hours.
This service-learning course engages students in critical analysis of perceptions and policies about poverty in the United States while providing essential tax preparation and services to members of our local community. Academic coursework will focus on perceptions and misperceptions of those in poverty, race and poverty, socioeconomic issues faced by low-income families, federal and state policies toward working families, predatory lending practices that erode wealth, and strategies to address poverty in the United States.

CAS 400. General Studies Career Readiness Capstone Project. 1 Hour.
This capstone experience course is designed for students who opted for an interdisciplinary major to develop a portfolio and reflect on their academic accomplishments, interdisciplinary intellectual interests, and the skills they have acquired in light of their specific career goals.

CAS 401. General Studies Independent Studies. 2 Hours.
Course designed for students who opted for an interdisciplinary major to explore an interdisciplinary topic and develop an integrative research portfolio.

CAS 402. General Studies Interdisciplinary Independent Readings. 3-6 Hours.
This individualized course of directed readings focuses on a rigorous in-depth exploration of an interdisciplinary research topic and the development of a comprehensive research project for program director and instructor are required.

CAS 405. General Studies Professional Internship. 3 Hours.
Experiential learning course designed for students who opted for an interdisciplinary major, allowing them to gain valuable professional experience and develop a reflective professional activity portfolio related to an interdisciplinary academic trajectory. The experience will be relevant to the student’s academic and career plans.

CDS-Clinical & Diagnostic Sciences

Courses

CDS 300. Microbiology for the Health Professions. 3 Hours.
A course in which the basic, and some advanced, concepts of microbiology are presented as they relate to health sciences and medicine. The course consists of nine units, each of which contains multiple lessons. The units cover the scope of microbiology, a survey of microorganisms, the study of microorganisms, microbial physiology, the control of microbial growth, microbial genetics, immunity, microbial pathogenesis, and microbial processes.

CDS 301. Microbiology Laboratory for Health Professions. 1 Hour.
Students will learn to practice laboratory safety, correctly operate a compound light microscope, prepare and interpret the results of various stains, cultivate, isolate and identify pathogenic microorganisms, and perform and interpret simple serologic assays.

CDS 400. Fundamentals of Phlebotomy and Body Fluid Collection. 1 Hour.
An in depth course in phlebotomy covering aspects of safety procedures, hygiene, capillary puncture, venipuncture, arterial access and maintenance, intravenous access and maintenance, drug administration via IV, intramuscular and subcutaneous methods and non-blood collections of bodily fluids.
CDS 405. Survival Spanish for Health Professionals. 1 Hour.
Health care professionals will be introduced to basic vocabulary, useful questions and expressions in Spanish needed to communicate in practical health care situations. Students will participate in speaking exercises, dialogue, and role-play activities (field-specific scenarios).

CDS 410. Introduction to Electrocardiography. 1 Hour.
Study of the essentials of 12-lead EKG interpretation including discussion of various lead systems. Identification of typical cardiac rhythms and discussion of abnormal anatomy and physiology consistent common cardiac arrhythmias.
Prerequisites: (BY 123 [Min Grade: C] and BY 124 [Min Grade: C]) or (BY 115 [Min Grade: C] and BY 116 [Min Grade: C]) or (BMD 310 [Min Grade: C] and BMD 315 [Min Grade: C])

CDS 420. Competencies in Genetics for Health Professions. 2 Hours.
Overview of core competencies in genetics; develops knowledge, skills, and attitudes needed to provide effective and comprehensive health services to individuals and families.
Prerequisites: BMD 320 [Min Grade: C] or BY 330 [Min Grade: C] CDS 425. First Aid and Healthcare Provider CPR and AED Course. 1 Hour.
The goal of this course is to provide the student with the knowledge and skills needed to perform basic first aid and CPR procedures for adult, child and infant victims according to the American Heart Association (AHA) Standards.

CDS 430. Advanced Cardiac Life Support. 1 Hour.
Provides students with the knowledge and skills needed to perform Advanced Cardiac Life Support (ACLS) according to the American Heart Association (AHA) standards.

CDS 440. Physics in Bio-Medical Sciences. 3 Hours.
Qualitative and quantitative applied physical concepts pertaining to medical applications. Selected physical concepts used in biology, human anatomy, physiology, and medical diagnosis and treatment.
Prerequisites: PH 201 [Min Grade: C]

CDS 444. Social and Behavioral Science for the Health Professions. 3 Hours.
Health and behavior are influenced by multiple psychological, behavioral, social, and cultural factors. An understanding of these factors is essential to addressing health problems and eliminating health disparities and inequalities. This course will provide an overview of biopsychosocial factors that influence health status and outcomes. Community engagement and service learning is an essential component of this course.

CDS 450. Introduction to Medical History Taking and Physical Examination. 3 Hours.
Introduction to the proper way to elicit a comprehensive medical history, perform a physical examination, and report the findings in a systematic and concise format.

CE-Civil Engineering Courses

Courses

CE 011. UG Coop/Internship in CE. 0 Hours.
Engineering workplace experience in preparation for the student's intended career.

CE 200. Engineering Geology. 2 Hours.
The Course covers the fundamentals and advanced topics of plate tectonics, mineral formation, sedimentary / igneous / metamorphic rocks, structural deformations, weathering and erosion, groundwater migration, and slope stability.

CE 210. Statics. 3 Hours.
Prerequisites: EGR 200 [Min Grade: C][Can be taken Concurrently] or HC 111 [Min Grade: C] or EGR 111 [Min Grade: C][Can be taken Concurrently] and (MA 126 [Min Grade: C] or MA 126 [Min Grade: P]) or MA 226 [Min Grade: C] and (PH 221 [Min Grade: C] or PH 221 [Min Grade: P])

CE 220. Mechanics of Solids. 3 Hours.
Prerequisites: CE 210 [Min Grade: C]

CE 221. Mechanics of Solids Laboratory. 1 Hour.
Standard tensile, torsion, bending, and column tests. Strain gage installation and applications. Measurement of forces, displacements, strains, and other variables. Writing is a significant component of this course.
Prerequisites: CE 220 [Min Grade: D][Can be taken Concurrently]

CE 222. Civil Engineering Materials Laboratory. 1 Hour.
Materials testing laboratory evaluating properties of materials of construction such as cement, aggregates, concrete, asphalt, and masonry. Design of Portland cement concrete mixes. Writing is a significant component of this course.
Prerequisites: CE 220 [Min Grade: D][Can be taken Concurrently]

CE 230. Plane Surveying. 3 Hours.
Care and use of surveying instruments, surveying methods, error theory, traversing, stadia, mapping techniques, circular and parabolic curves, areas, and volumes. CE 230L must be taken concurrently.
Prerequisites: MA 125 [Min Grade: C]

CE 230L. Plane Surveying Laboratory. 0 Hours.
To provide the student with an understanding of the principles of land measurement, the instruments and techniques used in surveying, theory of errors and mathematical precision in engineering analysis and design. To provide an introduction to route surveying, and the principles of horizontal and vertical curves. Companion to CE 230 and must be taken concurrently.

CE 236. Environmental Engineering. 3 Hours.
Air/water pollution and solid waste. Quality of environment. Environmental health. Regulations and legal considerations. Ethics and Civic Responsibility are significant components of this courses.
Prerequisites: MA 125 [Min Grade: C][Can be taken Concurrently] or MA 225 [Min Grade: C][Can be taken Concurrently] and CH 117 [Min Grade: C]
CE 236L. Environmental Engineering Laboratory. 0 Hours.
Laboratory equipment and methods. Chemical, and physical tests to
determine characteristics of water and wastewater. Companion lab to CE
236 and must be taken concurrently.

CE 332. Soil Engineering. 4 Hours.
Soil identification and properties, stress concepts, permeability settlement
analysis, soil compaction, bearing capacity, shear strength of soil, and
slope stability. CE 332L must be taken concurrently.
Prerequisites: CE 200 [Min Grade: D] and CE 220 [Min Grade: D]

CE 332L. Soil Engineering Laboratory. 0 Hours.
Soil classification, strength tests, permeability and consolidation tests.
Companion to CE 332 and must be taken concurrently.

CE 337. Hydraulics. 3 Hours.
Fundamentals of hydraulics including properties of water; hydrostatic
forces and pressures; flow, head losses, and related phenomena in
pipes; river hydrograph routing; statistical hydrology; flow in open
channels; culvert design; applied hydraulic modeling. Must have a grade
of C or better to complete the course.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

CE 344. Civil Engineering Analysis I. 3 Hours.
Inspection and treatment of data using exploratory data analysis.
Introduction to probability. Basic data analysis using comparisons and
regression, hypothesis testing, and analysis of variance. Quality control
and reliability analyses. Quantitative Literacy is a significant component
of this course.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

CE 345. Transportation Engineering. 3 Hours.
Function, influence, characteristics and operation of transportation
systems and facilities, focusing primarily on highway systems. Geometric
design, operations, and transportation planning are covered.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and
PH 221 [Min Grade: C]

CE 360. Structural Analysis. 3 Hours.
Reactions, shears, moments, and axial forces in determinate and
indeterminate structures. Influence lines; moment area and energy
methods of computing deflections; methods of truss and frame analysis.
Computer applications. Must have a grade of C or better to complete
the course.
Prerequisites: CE 220 [Min Grade: D]

CE 395. Engineering Economics. 3 Hours.
Fundamental concepts of engineering economy. Introduction to cost
and revenue estimating and cash flow analysis for engineering projects.
Choosing between alternatives taking into account the time value of
money, depreciation, inflation, income taxes and risk factors.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

CE 410. FE Review for Civil Engineers. 0 Hours.
Review concepts of the engineering core and civil engineering in
preparation for the Fundamentals of Engineering (FE) exam.

CE 415. Building Information Modeling (BIM). 3 Hours.
This class will be an introduction to the virtual world of design and
construction. Topics covered will include uses for technology, what
is BIM, and will have a focus on AutoCAD and Revit Software. An
emphasis will be placed on the use of these tools and their practical
applications to the real world environment. Students will be provided
with the software through the Autodesk Student community and will be
required to complete a Multi-Step term Project.
Prerequisites: ME 102 [Min Grade: D]

CE 420. Advanced Mechanics. 3 Hours.
Variation of stress at point including determination of principal and
maximum shear stresses. Basic problems involving symmetrical
deflection; thickwall cylinders and spheres. Torsions of noncircular
sections. Curved beams. Failure Theories. Unsymmetrical bending and
shear center.
Prerequisites: CE 220 [Min Grade: D]

CE 426. Foundation Engineering. 3 Hours.
Application of principles of soil mechanics to: determine bearing capacity
and settlement of spread footings, mats, single piles and pile groups; site
investigation, evaluate data from field and tests; estimation of stresses
in soil masses; lateral resistance of piles and pile group; retaining walls,
sheetpiles, and coffer-dams.
Prerequisites: CE 332 [Min Grade: D]

CE 430. Water Supply/Drainage Design. 3 Hours.
Water requirements; wastewater characteristics. Hydraulics and design of
sewers; distribution and reuse of water. Development of water supplies;
design considerations.
Prerequisites: CE 337 [Min Grade: C]

CE 431. Energy Resources. 3 Hours.
Overview of the various energy resources: oil, natural gas, coal, nuclear,
hydro, solar, geothermal, biomass, wind, and ocean energy resources,
in terms of supply, distribution, recovery and conversion, environmental
impacts, economies, policy, and technology. Advantages and limitations
of various energy resources. Concepts and opportunities for energy
conservation; including electric power generation, changing role of
electric utilities, transportation applications, and energy use in developing
countries. Field trips.
Prerequisites: CE 236 [Min Grade: D]

CE 433. Solid and Hazardous Wastes Management. 3 Hours.
Overview of waste characterizations, regulations, and management
options. The course covers fundamentals of landfill design, recycling,
incineration, emerging disposal technologies, federal and state laws, and
hazardous waste treatment, and ultimate disposal of hazardous waste.
Prerequisites: CE 236 [Min Grade: D]

CE 434. Air Quality Modeling and Monitoring. 3 Hours.
Atmospheric pollutant effects, reactions and sources. Air dispersion
modeling. Ambient monitoring.
Prerequisites: ME 251 [Min Grade: C]

CE 440. Civil Engineering Honors Research. 3 Hours.
Departmental honors students work closely with faculty researchers and
graduate students in departmental concentration specialties to develop
research skills. Enrollment is limited to undergraduate students enrolled
in CCEE Departmental Honors Program.

CE 441. Civil Engineering Honors Seminar. 1 Hour.
Seminar focusing on student research and guest presentations of various
topics of interest to civil and environmental engineering students.

CE 443. Pavement Design and Construction. 3 Hours.
Analysis of stresses and strains in pavement systems. Design and
construction of flexible and rigid pavements, base courses, and
subgrades. Effects of loading on pavement life.
Prerequisites: CE 345 [Min Grade: D]

CE 450. Structural Steel Design. 3 Hours.
Tension members, columns, beams, and beam columns. Simple
connections. Load Resistance Factor Design (LRFD) approaches.
Prerequisites: CE 360 [Min Grade: C]
CE 453. Design of Wood Structures. 3 Hours.
Design and detailing of timber structures. Properties and specifications for dimension and glulam timber. Design of beams, columns, beam-columns, connections (nail and bolts), roof diaphragms, and shear walls. Design of timber structures to meet the requirements of the National Design Specification Standards.
Prerequisites: CE 360 [Min Grade: C]

CE 454. Design of Masonry Structures. 3 Hours.
Design and detailing of masonry structures. Nomenclature, properties, and specifications for components. Design of assemblages, simple masonry structures, unreinforced and reinforced elements, and complex masonry structures.
Prerequisites: CE 360 [Min Grade: C]

CE 455. Reinforced Concrete Design. 3 Hours.
Behavior, strength, and design of reinforced concrete structural members (beams, columns, one-way slabs, and continuous beams) subjected to moment, shear, and axial forces according to the American Concrete Institute Building Code Requirements for Structural Concrete (ACI 318). Crack control and serviceability considerations. Introduction to the design of reinforced concrete structures.
Prerequisites: CE 455 [Min Grade: D]

CE 456. Prestressed Concrete Design. 3 Hours.
Principles and concepts of design in prestressed concrete including elastic and ultimate strength analyses for flexural, shear, bond, and deflection. Principles of concordancy and linear transformation for indeterminate prestressed structures.
Prerequisites: CE 455 [Min Grade: D]

CE 460. Structural Mechanics. 3 Hours.
Elastic beam deflections, beam columns, lateral torsional buckling, column stability, plastic design, plate bending, and yield line theory.
Prerequisites: CE 360 [Min Grade: C]

CE 461. Introduction to the Finite Element Method. 3 Hours.
Prerequisites: CE 360 [Min Grade: C]

CE 462. Advanced Structural Analysis. 3 Hours.
Analysis of indeterminate structures utilizing both classical and matrix methods. Use of large-scale computer programs.
Prerequisites: CE 360 [Min Grade: C]

CE 464. Structural Dynamics. 3 Hours.
Prerequisites: CE 360 [Min Grade: C] and ME 215 [Min Grade: C]

CE 467. Wind and Seismic Loads. 3 Hours.
Methods for calculating loads on structures caused by extreme winds and earthquakes. Calculation of wind loads on various types of structures according to theory and codes. Determination of earthquake loads on structures using structural dynamics and codes.
Prerequisites: CE 360 [Min Grade: C]

CE 468. Bridge Engineering. 3 Hours.
Bridge loads, steel beam bridges, composite beam bridges, bridge bearings, reinforced and prestressed concrete slab and T-beam bridges, bridge evaluations and ratings, and upgrade methodologies; computer applications.
Prerequisites: CE 450 [Min Grade: D] and CE 455 [Min Grade: D](Can be taken Concurrently)

CE 480. Introduction to Water and Wastewater Treatment. 3 Hours.
Physical unit operations and chemical/biological unit processes for water and wastewater treatment. Design of facilities for treatment. Treatment and disposal of sludge.
Prerequisites: CE 236 [Min Grade: D]

CE 485. Engineering Hydrology. 3 Hours.
Hydrologic principles including the hydrologic cycle, precipitation data and stream-flow measurements. Applications to engineering problems: stream-flow analysis, and watershed management.
Prerequisites: CE 337 [Min Grade: C]

CE 488. Undergraduate Engineering Research. 0 Hours.
Undergraduate research experiences in civil, construction and/or environmental engineering.
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) or EGR 100 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

CE 490. Special Topics in (Area). 3 Hours.
Special Topics in (Area).

CE 491. Individual Study in (Area). 1-3 Hour.
Individual Study in (Area).

CE 497. Construction Engineering Management. 3 Hours.
Study of construction management services that include: project planning, scheduling, estimating, budgeting, contract administration, agreements and ethics. Emphasis is made on the management of manpower, materials, money and machinery.
Prerequisites: CE 395 [Min Grade: D]

CE 499. Capstone Design Project. 3 Hours.
Students work in teams to complete a capstone design project that incorporates the major aspects of civil engineering design including structural, geotechnical, environmental, transportation, and construction management components. The course also includes lecturing and assignments related to professionalism including engineering ethics, leadership, and management. Normally taken during last term before graduation. CE 498 is a companion lab and must be taken concurrently.
Prerequisites: CE 332 [Min Grade: D] and CE 337 [Min Grade: C] and CE 345 [Min Grade: D] and (CE 450 [Min Grade: D] or CE 455 [Min Grade: D]) and CE 430 [Min Grade: D](Can be taken Concurrently) or CE 480 [Min Grade: D](Can be taken Concurrently) and CE 497 [Min Grade: D](Can be taken Concurrently)
Courses

CH 100. Chemical Problem Solving. 3 Hours.
Development of quantitative skills and introduction to basic chemical concepts to prepare students for CH 115. Successful completion of MA 098 or more math, or placement in a more advanced math, is strongly recommended prior to taking this course. 
Prerequisites: (A02 20 and HSCG 2.00) or (S02 480 and HSCG 2.00) or A02 21 or S02 500 or MAAD 15 or MA 098 [Min Grade: P] or MA 098 [Min Grade: C] or MA 102 [Min Grade: D] (Can be taken Concurrently) or MA 105 [Min Grade: D] (Can be taken Concurrently) or MA 106 [Min Grade: D] (Can be taken Concurrently) or MA 107 [Min Grade: D] (Can be taken Concurrently) or MA 110 [Min Grade: D] (Can be taken Concurrently) or MA 125 [Min Grade: D] (Can be taken Concurrently) or MA 225 [Min Grade: D] (Can be taken Concurrently) or SAT2 510 and HSCG 2.00 or SAT2 530

CH 105. Introductory Chemistry I. 3 Hours.
Fundamental facts, principles, theory, and applications of chemistry. Qualitative in nature; for non-science majors and nursing students with no previous background in chemistry. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences. Concurrent enrollment in CH 105R Introductory Chemistry I Recitation required. 
Prerequisites: MA 098 [Min Grade: P] or MA 098 [Min Grade: C] or MA 102 [Min Grade: D] (Can be taken Concurrently) or MA 105 [Min Grade: D] (Can be taken Concurrently) or MA 106 [Min Grade: D] (Can be taken Concurrently) or MA 107 [Min Grade: D] (Can be taken Concurrently) or MA 110 [Min Grade: D] (Can be taken Concurrently) or MA 125 [Min Grade: D] (Can be taken Concurrently) or (A02 20 and HSCG 2.00) or A02 21 or (S02 480 and HSCG 2.00) or S02 500 or MAAD 15 or (SAT2 510 and HSCG 2.00) or SAT2 530

CH 105R. Introductory Chemistry I Recitation. 0 Hours.
Introductory Chemistry I recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 105 Introductory Chemistry I required.

CH 106. Introductory Chemistry I Laboratory. 1 Hour.
Emphasizes development of lab skills and demonstration of chemical principles covered in CH 105. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 105 strongly recommended.

CH 107. Introductory Chemistry II. 3 Hours.
Fundamental organic and biochemistry. The second part of the chemistry sequence for non-science majors and nursing students. Covers concepts of organic chemistry and biochemistry. Emphasis on molecules involved in life processes. Writing assignments structured to build on scientific reasoning. Not applicable to a major or minor in chemistry. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences. Concurrent enrollment in CH 107R Introductory Chemistry II Recitation is required.
Prerequisites: CH 105 [Min Grade: C] or CH 115 [Min Grade: C]

CH 107R. Introductory Chemistry II Recitation. 0 Hours.
Introductory Chemistry II recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 107 Introductory Chemistry II required.

CH 108. Introductory Chemistry II Laboratory. 1 Hour.
Emphasizes development of lab skills and demonstration of phenomena covered in CH 107. Not applicable to a major or minor in chemistry. Writing assignments structured to build on scientific reasoning. Quantitative Literacy is a significant component of this course. Concurrent enrollment in or prior completion of CH 107 strongly recommended.

CH 114. General Chemistry I Laboratory (Honors). 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 115. Writing assignments structured to build on scientific reasoning. (Core Area III) Quantitative Literacy is a significant Component of this course. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required. Concurrent enrollment or prior completion of CH 115 strongly recommended.

CH 115. General Chemistry I. 3 Hours.
Stoichiometry, quantum theory, atomic structure, chemical bonding, acids-bases, colligative properties and periodicity. Laboratory emphasizes quantitative analysis. Writing assignments structured to build on scientific reasoning. Concurrent enrollment in CH 115R General Chemistry I Recitation required. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 102 [Min Grade: B] or (MA 105 [Min Grade: C] or MA 105 [Min Grade: P]) or MA 106 [Min Grade: C] (Can be taken Concurrently) or MA 107 [Min Grade: C] (Can be taken Concurrently) or MA 109 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently) or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 125 [Min Grade: P] or (A02 23 and HSCG 3.50) or (A02 24 and HSCG 3.00) or (A02 25 and HSCG 2.50) or A02 25 or (S02 540 and HSCG 3.50) or (S02 560 and HSCG 3.00) or (S02 580 and HSCG 3.50) or S02 600 or (SAT2 580 and HSCG 3.50) or (SAT2 620 and HSCG 2.50) or SAT2 640 or MAC1 17 or MAAD 21

CH 115R. General Chemistry I Recitation. 0 Hours.
General Chemistry I recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 115 General Chemistry I required.

CH 116. General Chemistry I Laboratory. 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 115. Writing assignments structured to build on scientific reasoning. Concurrent enrollment or prior completion of CH 115 General Chemistry I recommended. Quantitative Literacy is a significant component of this course.

CH 117. General Chemistry II. 3 Hours.
Solutions, chemical kinetics, chemical thermodynamics, chemical equilibrium and special topics (organic, biochemistry, descriptive chemistry) Writing assignments structured to build on scientific reasoning. Concurrent enrollment in CH 117R General Chemistry II Recitation required. Quantitative Literacy is a significant component of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: CH 115 [Min Grade: C]
CH 117R. General Chemistry II Recitation. 0 Hours.
General Chemistry II Recitation is used to build problem-solving skills in a study-group environment. Included in these sections are homework, quizzes, lecture related problems, and exams. Concurrent enrollment in CH 117 General Chemistry II required.

CH 118. General Chemistry II Laboratory. 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 117. Writing assignments structured to build on scientific reasoning. Concurrent enrollment or prior completion of CH 117 General Chemistry II recommended. Quantitative Literacy is a significant component of this course.

CH 119. General Chemistry II Laboratory (Honors). 1 Hour.
Emphasizes development of laboratory skills and quantitative analyses related to CH 117. Writing assignments structured to build on scientific reasoning. Core Area III Quantitative Literacy is a significant component of this course. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required. Concurrent enrollment or prior completion of CH 117 strongly recommended.
Prerequisites: CH 115 [Min Grade: C] or CH 114 [Min Grade: B] or CH 116 [Min Grade: A]

CH 201. Research Methods in Chemistry. 3 Hours.
Comprehensive approach for developing research skills used in chemistry and biochemistry research laboratories. Permission of instructor required.
Prerequisites: CH 115 [Min Grade: C] (Can be taken Concurrently)

CH 234. Organic Chemistry I Laboratory (Honors). 1 Hour.
Emphasis placed on development of techniques used in organic research laboratories and scientific writing. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required.
Prerequisites: CH 235 [Min Grade: C] (Can be taken Concurrently)

CH 235. Organic Chemistry I. 3 Hours.
Prerequisites: CH 117 [Min Grade: C]

CH 235R. Organic Chemistry I Recitation. 0 Hours.
Organic Chemistry I recitation is used to build problem-solving skills in study-group environments. Concurrent enrollment in CH 235 Organic I required.

CH 236. Organic Chemistry I Laboratory. 1 Hour.
Techniques of organic chemistry. Synthesis, purification, and characterization of organic compounds. Concurrent enrollment or prior completion of CH 235 strongly recommended.
Prerequisites: CH 117 [Min Grade: C] and (CH 118 [Min Grade: C] or CH 119 [Min Grade: C])

CH 237. Organic Chemistry II. 3 Hours.
Reactions of aromatic compounds and carbonyl containing functional groups: aldehydes, ketones, acids, esters and amides. Molecules of biological interest, such as proteins and carbohydrates. Concurrent enrollment in CH 237R Organic II Recitation required.
Prerequisites: CH 235 [Min Grade: C]

CH 237R. Organic Chemistry II Recitation. 0 Hours.
Organic Chemistry II recitation is used to build problem-solving skills in study-group environments. Concurrent enrollment in CH 237 Organic Chemistry II required.

CH 238. Organic Chemistry II Laboratory. 1 Hour.
Synthesis, purification, and characterization of organic compounds using instrumental analysis and identification of unknowns. Concurrent enrollment or prior completion of CH 237 strongly recommended.
Prerequisites: CH 235 [Min Grade: C] and (CH 234 [Min Grade: C] or CH 236 [Min Grade: C])

CH 239. Organic Chemistry II Laboratory (Honors). 1 Hour.
Synthesis, purification and characterization of organic compounds using instrumental analysis, molecular modeling, scientific writing and oral presentation. Permission of instructor or enrollment in Honors College or Chemistry Scholars program required.
Prerequisites: CH 237 [Min Grade: C] (Can be taken Concurrently)

CH 297. Undergraduate Research Experiences. 1 Hour.
Research experience in selected areas of chemistry under supervision of faculty mentor. A minimum of 4 hours of laboratory hours per week, GPA of 2.5 in required chemistry courses, permission of faculty mentor and chemistry academic advisor required.

CH 325. Physical Chemistry I with Calculus: Thermodynamics and Chemical Kinetics. 4 Hours.
Thermodynamics, chemical equilibria, and chemical kinetics. Lecture and laboratory. Prior completion of PH 221 and CH 355 strongly recommended. Prior completion or concurrent enrollment in MA 227 strongly recommended. Concurrent enrollment in CH 325L Physical Chemistry I Lab required.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 201 [Min Grade: C] or PH 221 [Min Grade: C])

CH 325L. Physical Chemistry I Laboratory: Thermodynamics and Chemical Kinetics. 0 Hours.
Thermodynamics and chemical kinetics laboratory required with CH 325 lecture. Concurrent enrollment in CH 325 Physical Chemistry I required.

CH 345. Inorganic Chemistry: Principles and Applications of Chemical Periodicity. 4 Hours.
Systematic coverage of descriptive chemistry. Chemical reactivity using structural and electronic parameters. Development of chemical understanding and intuition of elements and their compounds, as well as industrial and environmental applications. Lecture and laboratory. Concurrent enrollment in CH 345L Inorganic Chemistry: Principles and Applications of Chemical Periodicity Lab required.
Prerequisites: CH 237 [Min Grade: C] and (CH 238 [Min Grade: C] or CH 239 [Min Grade: C])

CH 345L. Inorganic Chemistry Lab: Principles and Applications of Chemical Periodicity. 0 Hours.
Laboratory for CH 345 Inorganic Chemistry: Principles and Applications of Chemical Periodicity required.

CH 355. Quantitative Analysis. 4 Hours.
Principles and Applications of Chemical Periodicity Laboratory required with CH 345 lecture. Concurrent enrollment in CH 345 Inorganic Chemistry: Principles and Applications of Chemical Periodicity required.

CH 355L. Quantitative Analysis Laboratory. 0 Hours.
Principles of analytical measurements, statistical and volumetric techniques, spectrophotometric analysis, and chromatography, with emphasis on equilibrium and applications. Lecture and laboratory. Concurrent enrollment in CH 355L Quantitative Analysis Lab required.
Prerequisites: CH 117 [Min Grade: C]

CH 355L. Quantitative Analysis Laboratory. 0 Hours.
Emphasizing quantitative analysis laboratory. Concurrent enrollment in CH 355 Quantitative Analysis required.
CH 391. Cooperative Education in Chemistry. 2-3 Hours.
Analysis of the concepts and models of chemistry with emphasis on computational skills for chemistry and science teachers. Appropriate for students seeking certification as chemistry or science teachers. Junior or senior standing and minimum GPA of 2.5 or above required. Requires permission of and evaluation by appropriate faculty advisor.

CH 416. Chemical Demonstrations I. 3 Hours.
Demonstration and analysis of safe, practical and effective experiments suitable for middle/high school students. At least 50 demonstrations will be performed. Not applicable to a major or minor in chemistry. Requires permission of instructor.

CH 417. Chemical Demonstrations II. 3 Hours.
Demonstration and analysis of safe, practical and effective experiments suitable for middle/high school students. At least 50 demonstrations will be performed. Not applicable to a major or minor in chemistry. Requires permission of instructor.

CH 426. Physical Chemistry II: Structure/Bonding and Molecular Spectroscopy. 3 Hours.
Quantum mechanics, chemical bonding, and molecular spectroscopy. Laboratory work correlated with lecture material. Prior completion of CH 325 and MA 227 strongly recommended.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 202 [Min Grade: C] or PH 222 [Min Grade: C]) and CH 427 [Min Grade: C](Can be taken Concurrently)

CH 427. Molecular Structure and Spectroscopy Laboratory. 1 Hour.
Laboratory with emphasis on structure/bonding in main group and transition metal compounds. Laboratory will utilize molecular orbital theory and molecular spectroscopy (including nuclear magnetic resonance (NMR), infrared(IR), ultra-violet-visible(UV-vis), and mass(ms) spectroscopy and X-ray crystallography.
Prerequisites: CH 117 [Min Grade: C] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (PH 202 [Min Grade: C] or PH 222 [Min Grade: C]) and CH 237 [Min Grade: C]

CH 429. Special Topics in Physical Chemistry. 1-3 Hour.
Special Topics in selected areas of physical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 439. Special Topics in Organic Chemistry. 1-3 Hour.
Special Topics in selected areas of organic chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 440. Transition Metal Chemistry. 3 Hours.
Relationship between bonding, structure, and properties of compounds including reactions, mechanisms, and catalysis of organometallic and bioinorganic chemistry.
Prerequisites: CH 345 [Min Grade: C] and CH 427 [Min Grade: C](Can be taken Concurrently)

CH 449. Special Topics in Inorganic Chemistry. 1-3 Hour.
Special Topics in selected areas of inorganic chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 450. Instrumental Analysis. 4 Hours.
Focus on modern analytical chemistry instrumentation including chemical separations, spectroscopies (atomic absorption, infrared, UV-visible, fluorescence), mass spectroscopy, and thermal analysis. Concurrent enrollment in CH 450L Instrumental Analysis Laboratory is required and correlated with lecture material.
Prerequisites: CH 117 [Min Grade: C]

CH 450L. Instrumental Analysis Laboratory. 0 Hours.
Instrumental Analysis Lab. Concurrent enrollment in CH 450 Instrumental Analysis is required.

CH 451. Chemometrics. 3 Hours.
Introduction to basic data analysis techniques that include testing hypotheses, establishing tendencies and correlations, experimental design, etc. The course is designed to provide a support to a research chemist in effectively solving everyday problems associated with production and interpretation of experimental data.

CH 459. Special Topics in Analytical Chemistry. 1-3 Hour.
Special Topics in selected areas of analytical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 460. Fundamentals of Biochemistry. 3 Hours.
Overview of biochemical principles; chemistry of aqueous solutions, biochemical building blocks including amino acids, carbohydrates, lipids, and nucleotides; examination of metabolic pathways and enzymes that mediate catabolic and anabolic metabolism of carbohydrates, lipids, amino acids, and nucleic acids. Application of clinical correlations of metabolism to human nutrition and disease. This course is designed for Chemistry majors as well as students interested in medicine, dentistry, optometry, or pharmacy.
Prerequisites: CH 237 [Min Grade: C]

CH 461. Advanced Biochemistry. 3 Hours.
Protein structure and function, enzymology, DNA structure, prokaryotic replication, transcription, and protein synthesis. Membrane structure and function, carbohydrate structure and function. Methods for isolating and characterizing macromolecule structure and function including chromatography, gel electrophoresis, CD, UV, and fluorescence spectroscopy, mass spectroscopy, X-ray crystallography and nuclear magnetic resonance spectroscopy.
Prerequisites: CH 460 [Min Grade: C]

CH 463. Biochemistry Laboratory. 3 Hours.
Introduction to modern bioanalytical techniques used for the expression, isolation, and characterization of proteins and other biological macromolecules. Space is limited. Students with a Chemistry Major with either the Biochemistry or Forensic Tracks have priority.
Prerequisites: CH 355 [Min Grade: C] and CH 460 [Min Grade: C]

CH 464. Physical Biochemistry Laboratory. 3 Hours.
Physical/analytical approaches (including mass spectroscopy and NMR) toward determination of macromolecular structures, ligand binding, and enzymology. Space is limited. Students with the Chemistry Major with the Biochemistry Track have priority. Concurrent or prior enrollment in CH 461 is recommended.
Prerequisites: CH 325 [Min Grade: C] and CH 355 [Min Grade: C] and CH 460 [Min Grade: C]

CH 469. Special Topics in Biochemistry. 1-3 Hour.
Special Topics in selected areas of biochemistry, biophysical chemistry, or structural biochemistry under supervision of faculty sponsor. Requires permission of instructor.
Prerequisites: CH 462 [Min Grade: C]

CH 471. Medicinal Chemistry and Drug Discovery. 3 Hours.
Introduction to modern bioanalytical techniques used for the expression, isolation, and characterization of proteins and other biological macromolecules. Space is limited. Students with a Chemistry Major with either the Biochemistry or Forensic Tracks have priority.
Prerequisites: CH 237 [Min Grade: C] and CH 460 [Min Grade: C]

CH 467. Special Topics in Analytical Chemistry. 1-3 Hour.
Special Topics in selected areas of analytical chemistry under the supervision of faculty sponsor. Requires permission of instructor.

CH 471. Medicinal Chemistry and Drug Discovery. 3 Hours.
Emphasis in design and synthesis strategies for biologically active compounds directed toward common macromolecular drug targets. Selected examples of successful design for clinically used drug classes are presented.
Prerequisites: CH 237 [Min Grade: C] and CH 460 [Min Grade: C]
CH 472. Chemistry of Natural Products. 3 Hours.
The principal focus of this course will be the introduction of synthesis and medicinal chemistry of natural products. Drug discovery using natural products, with specific examples in the areas of antibacterial, anticancer, and analgesic drugs will be introduced. An overview of structural classes, biosynthetic pathways and application of asymmetric synthesis in the synthesis of specific examples from each class will be discussed. This course is intended for undergraduate students at the senior level. Prior completion of prerequisite courses with a grade of B or better strongly recommended.

**Prerequisites:** CH 235 [Min Grade: C] and CH 234 [Min Grade: C] or CH 236 [Min Grade: C] and CH 237 [Min Grade: C] and CH 238 [Min Grade: C] or CH 239 [Min Grade: C]

CH 477. Radiochemistry for the Life Sciences. 3 Hours.
This course is intended to act as an introduction to radiochemistry. It will cover production, instrumentation, and radiochemistry techniques to make use of radiotracers in the life sciences from basic biological and environmental applications to medical imaging and therapy.

CH 480. Polymer Chemistry I. Basic Principles. 4 Hours.
Basic chemical principles of polymers with the focus on synthesis, characterization, and applications of synthetic and biological macromolecules. Prior completion of CH 237, CH 325, and CH 355 (and MSE 350 for MSE students) recommended.

**Prerequisites:** CH 117 [Min Grade: C]

CH 480L. Polymer Chemistry I Laboratory. 0 Hours.
Polymer Chemistry I Laboratory. Concurrent enrollment in CH 480 Polymer Chemistry I required.

CH 481. Polymer Chemistry II. Fundamental Properties. 4 Hours.
Fundamentals of chemical, physical and molecular properties of polymers in bulk and solution. Concurrent enrollment in CH 481L Polymer Chemistry II Laboratory required. Prior completion of CH 237, CH 325, and CH 355 (and MSE 350 for MSE students) recommended.

**Prerequisites:** CH 117 [Min Grade: C]

CH 481L. Polymer Chemistry II Laboratory. 0 Hours.
Polymer Chemistry II Laboratory. Concurrent enrollment in CH 481 Polymer Chemistry II required.

CH 489. Special Topics in Polymer Chemistry. 1-3 Hours.
Special topics in selected areas of polymer chemistry under supervision of faculty sponsor. Requires permission of instructor.

CH 492. Research Methods. 1-3 Hour.
This course is required in the UABTEACH program and is specially designed to meet the needs of future teachers. Students meet two hours per week for non-traditional, interactive lectures and two hours per week for lab. The course is cross-listed (Physics, Chemistry, and Biology). It provides students with the tools that scientists use to solve scientific problems; gives students the opportunity to use these tools in a laboratory setting; makes students aware of how scientists communicate with each other through peer-reviewed scientific literature; and enables students to understand how scientists develop new knowledge and insights. The course requires a substantial amount of writing.

CH 493. Chemistry in Culture & Ethics. 3 Hours.
Designed to explore the impact of chemical innovations on society; challenges students to consider ethical use of chemical innovations and broader impacts of chemistry in society. Writing assignments are structured to build on scientific reasoning. Capstone course intended for graduating senior Chemistry majors.

**Prerequisites:** CH 237 [Min Grade: C] and CH 325 [Min Grade: C]

CH 495. Ethics in Chemical Research. 1 Hour.
Designed to explore the impact of chemical innovations on society; challenges students to consider ethical use of chemical innovations and broader impacts of chemistry in society. Writing assignments are structured to build on scientific reasoning. Capstone course intended for graduating senior Chemistry majors.

**Prerequisites:** CH 237 [Min Grade: C] and CH 497 [Min Grade: C] (Can be taken Concurrently) and CH 325 [Min Grade: C]

CH 497. Undergraduate Research. 3 Hours.
Research project conducted under the supervision of a faculty mentor. Two semesters are highly recommended for minimum accumulation of 6 semester hours. A progress report is required each semester and a comprehensive written report in ACS format is required at the completion of the project. Permission of faculty mentor and chemistry academic advisor required; GPA 2.5 or greater overall; GPA 3.0 or greater in required chemistry courses.

CH 498. Chemistry Teaching Methods. 3 Hours.
This course provides chemistry majors who will be future chemistry teachers with insights into the fundamental principles of chemistry in a way that can be transported to the classroom. The course will cover all aspects of teaching, measurements of effectiveness, and outcomes. Permission of instructor required.

**Prerequisites:** CH 237 [Min Grade: C]

CH 499. Honors Research and Thesis. 3 Hours.
Research project conducted under the supervision of faculty mentor. Prior completion of 6 hours of CH 497. Admission to the Chemistry Honors Program is required; a research proposal must be on file with and approved by Chemistry Honors Director. The course concludes with a written honors thesis and oral presentation and defense. Chemistry GPA 3.25 or greater; overall GPA 3.0 or greater required.

**Prerequisites:** CH 497 [Min Grade: C]

**CHHS-Community Health and Human Services Courses**

**Courses**

**CHHS 140. First Aid. 3 Hours.**
This course provides students with knowledge and skills necessary to perform basic first aid and CPR procedures.

**CHHS 141. Personal Health & Wellness. 3 Hours.**
This course provides students with knowledge and skills that support a healthy lifestyle. Topics include dimensions of wellness, psychological health, spiritual health, stress, social health, nutrition, weight management, fitness, sexual behavior/issues, addictions related to alcohol, tobacco, and other drugs, preventable diseases and infectious illnesses, consumer health, injury and violence prevention, and environmental health.

**CHHS 200. Quality of Life. 2 Hours.**
Total health; effects of lifestyle on total health. Decision-making skills to enable health enhancing choices and engage in health enhancing activities to improve and maintain health status. For education majors only.
CHHS 223. Introduction to Disease Prevention in Community Health and Human Services. 3 Hours.
This course examines the determinants of health and well-being including disease etiology, prevalence, prevention, control and treatment techniques. The course will differentiate between local, state, federal, and international health organizations.
Prerequisites: CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C] and (KIN 222 [Min Grade: C] or HE 222 [Min Grade: C] or HPE 200 [Min Grade: C]).

CHHS 300. Ethics and Policy in Human Services. 3 Hours.
This course introduces students to the role of professional ethics and policy implication in the helping professions. Students will focus on the knowledge, skills and values essential for ethical decision-making in responsible practice. Case studies through integrated learning will be utilized for discussion, self-exploration, and skill building for problem solving of ethical issues and dilemmas.

CHHS 305. Social and Cultural Diversity in Human Services. 3 Hours.
This course promotes the knowledge and skills needed to explore issues of diversity in a productive, professional and ethical manner. Topics span the discipline of public health and integrate materials, concepts, and frameworks from numerous fields in public health, health promotion, environmental health and health policy.

CHHS 342. The Health Education/Promotion Specialist. 3 Hours.
This course conveys the foundations of the Health Education/Promotion profession and the necessary competencies of the Health Education Specialist. Topics include background and history of health education/promotion, philosophical foundations, introduction to theories and planning models, professional ethics, settings and organizations for health education/promotion, application of data, current literature, future trends, and discipline specific careers paths.
Prerequisites: HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C] or KIN 222 [Min Grade: C] or HPE 200 [Min Grade: C].

CHHS 343. Behavioral Theory in Health Education/Promotion. 3 Hours.
This designated service learning course goes into depth regarding theories for health behavior change with an introduction to basic planning models. Interactive assignments related to theories and community service learning activities are significant aspects of this course.
Prerequisites: HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C] and (HE 223 [Min Grade: C] or CHHS 223 [Min Grade: C]) and (HE 342 [Min Grade: C] or CHHS 342 [Min Grade: C]).

CHHS 350. The Human Services Professional. 4 Hours.
This course introduces the evolving field of human services. Content will include learning about what “human services” is, the helping process, and the roles and duties of those calling themselves “human service” providers. Coverage will also include learning about a broad range of services, jobs, functions, and roles human service professionals provide. Basic principles, concepts, and theory in the helping field will be covered.

CHHS 402. Mental Health, Stress Management & Wellness Promotion. 3 Hours.
This course explains how an individual can manage their internal and external stressors to optimize their mental and emotional well-being. Topics span the discipline of health promotion and wellness, including theoretical models, discussions on the importance of relationships and social support, personality differences and risk of disease, how attitudes and emotions can change body chemistry, heart rates, hormone levels, and immunity against disease.

CHHS 404. Global Trends in Health Education/Promotion. 3 Hours.
This course will introduce students to past and current global health issues and health education/promotion priorities around the world. Health education and promotion practices in different countries within various regions of the world will be explored.

CHHS 408. Substance Abuse Prevention and Education. 3 Hours.
Concept, manifestation, and causes of addiction. Major drug classifications and their effects. Potential of drug use as preventative mechanism.

CHHS 415. Case Management in Human Services. 3 Hours.
This course is an introductory course in studying the field of human services. Content will include learning about what “human services” is, the helping process, and the roles and duties of those calling themselves “human service” providers. Coverage will also include learning about a broad range of services, jobs, functions, and roles human service professionals provide in everyday life. Basic principles, concepts, and theory in the helping field will be covered.
Prerequisites: CHHS 300 [Min Grade: C] or CHHS 350 [Min Grade: C].

CHHS 420. Helping Skills in Human Services. 3-4 Hours.
This course promotes skills appropriate for selected health problems, problem solving, and referrals. It also promotes skills to enhance communication with clients, peers, and community members at large.

CHHS 421. Health Communications & Health Coaching. 3 Hours.
Skills appropriate for selected health problems, problem solving, and referrals. Skills to enhance communication with clients, peers, and community members at large. Health-related theories, communication theories, and marketing strategies.
Prerequisites: CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C] or HE 222 or KIN 222 [Min Grade: C] and CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C].

CHHS 423. Human Sexuality. 3 Hours.
This course provides an overview of biological, sociological, psychological, and ethical aspects of human sexuality as encountered by health education specialists and human services practitioners. Content related to an anatomical overview, sexual decision making process, harm reduction approaches, social norms, societal issues, gender stereotypes, sexual complications, and the sexuality of special populations are emphasized.

CHHS 425. Community Mobilization in Human Services. 3 Hours.
This course provides an overview of the need for community change, explores how community change activities relate to the change agent’s professional goals, and provides a theoretical framework to deepen the understanding of community mobilization. The focus on successful models of community change, settings and services in which change takes place, and inclusion of diverse community resources provides a strong foundation for community advocacy.

CHHS 426. Wellness Promotion Peer Educators Part 1. 3 Hours.
The intent of this course is to provide students with the skills to facilitate group presentations on health-related content to their peers. Students will complete the Certified Peer Education Training a comprehensive, interactive, and skills-based training. Students will learn about the programs and services offered at the UAB Student Health and Wellness Center and will be able to articulate this to new student users. Students will learn basic alcohol and other drug information in preparation for presentation to their peers.
CHHS 427. SHAPE Peer Education. 3 Hours.
This course is designed to provide students with the knowledge and skills needed to effectively communicate accurate information related to sexual health and decision-making. The concept of total health and the effects of lifestyle and decision-making on the quality of life will be emphasized. Students will learn decision-making and other skills that will enable them to make healthy choices and engage in healthy activities to improve and maintain an ideal level of quality of life. By the end of this course the student will be able to facilitate workshops on Sexual Decision Making, HIV Awareness, and Healthy Relationships.

CHHS 428. Wellness Promotion Peer Education Part 2. 3 Hours.
This course involves course involves students active engagement in the delivery of peer education programs and services to the UAB campus community. The purpose of the Wellness Promotion Peer Education Part 2 course is to provide candidates with a supervised, field-based, work experience in a wellness promotion setting.
Prerequisites: CHHS 426 [Min Grade: C]

CHHS 431. Planning and Implementing Health Education/Promotion Programs. 3 Hours.
This course emphasizes content and process planning and implementation of health education/promotion programs. Major topics include the foundations and models of the planning process; factors that impact health education/promotion; use and development of basic needs assessment; introduction to measurements; mission statements, goals, and objectives; community organizing/building; resources, and marketing.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or KIN 222 [Min Grade: C] or HE 222 [Min Grade: C]) and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 432. Administration of Health Education/Promotion Programs. 3 Hours.
This course is focused on issues that surround the best practices for administration and management of health education/promotion programs in a variety of settings. Topics include leadership and professionalism, theories, needs assessment, quantitative and qualitative data, fiscal and human resources, delivery of health education/promotion, and communication and advocacy.
Prerequisites: (CHHS 141 [Min Grade: C] or HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or KIN 222 [Min Grade: C] or HE 222 [Min Grade: C]) and (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C]) and (CHHS 343 [Min Grade: C] or HE 343 [Min Grade: C])

CHHS 452. Evaluation and Grantsmanship in Health Education/Promotion Programs. 3 Hours.
This course enhances knowledge, competencies and skills required to obtain funding and to evaluate health education/promotion programs for defined health issues and audiences. The course emphasizes elements of evaluating intervention activities at micro- and macro-levels including determining needs and assets, writing realistic goals and measurable objectives, incorporating quantitative and qualitative data, and evaluating behavior change. The course also focuses on grant preparation, including topics such as engaging funders, establishing grant need, planning grant activities, creating a budget, and program sustainability.
Prerequisites: (CHHS 342 [Min Grade: C] or HE 342 [Min Grade: C])

CHHS 455. Fundraising and Grantmanship in Human Services. 3 Hours.
This course introduces students to the area of fund raising, fund development, special events, annual fund, major gifts, capital campaigns, grant writing, and basic finance in the nonprofit sector. The course provides the foundation and tools necessary to implement fundraising plans.
Courses

CHI 101. Introductory Chinese I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

CHI 102. Introductory Chinese II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

CHI 190. Study Abroad: Chinese. 1-8 Hour.
Approved novice level study abroad program in a Chinese-speaking country. Course of study will vary according to array of approved offerings student interest. Permission of department chair required.

CHI 201. Intermediate Chinese I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Chinese is spoken. Conducted in Chinese. (CORE AREA II).

CHI 202. Intermediate Chinese II. 3 Hours.

CHI 203. Intermediate Chinese Language & Culture. 3 Hours.
This course aims to improve student linguistic and cultural fluency necessary for functioning in the Chinese-speaking world. The course examines several cultural topics as well as language patterns in everyday speech. While emphasis will be placed on oral skills, attention will also be given to the written Chinese that one encounters in daily life. Topics may include: Life of the Chinese People, Chinese Folk Customs, Chinese Arts and Crafts, Chinese Architecture, Traditional Chinese Ideology, Traveling around China, and etc.

CHI 204. Intermediate Chinese Language and Culture II. 3 Hours.
This course uses film as a medium to explore various aspects of Chinese culture and helps students understand the Chinese language. A wide range of movie genres are covered, including drama, action and thriller movies, etc. Students develop skills in reading, writing, speaking, listening and critical thinking. In addition, students will be introduced to the field of film studies and learn how to critically analyze and critique a movie.

Prerequisites: CHI 201 [Min Grade: C]

CHI 206. Chinese for the Professions. 3 Hours.
Intensive conversation and acquisition of vocabulary for the professionals while focusing on culture(s) of the Chinese-speaking world. This course aims to further develop communicative competence within the cultural context of the Chinese-speaking world; to foster critical thinking skills, such as, problem-identification and solving, decision-making, anticipation and planning, client understanding, and negotiation techniques; to expand students' functional vocabulary, in particular, the language of the Chinese-speaking professional world; to promote a better understanding of Chinese business culture; and to develop professional basic writing skills.

CHI 290. Study Abroad: Chinese. 1-6 Hour.
This study-abroad Chinese course helps students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content also includes discussion and analysis of current cultural topics. Conducted in Chinese. Permission of the Department Chair and Director of Education Abroad required.

CHI 299. Directed Readings in Chinese. 1-3 Hour.
This is an individualized course of directed readings and activities for intermediate Chinese students. Course design is determined by the instructor and student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Chinese language and culture. Intermediate proficiency in reading, writing, listening and speaking Chinese is the targeted outcome.

CHI 390. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Permission of the Department Chair and Director of Education Abroad required.

CHI 399. Directed Readings: Chinese. 1-3 Hour.
This is an individualized course of directed readings and activities for advanced students of Chinese language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of the Chinese language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Chinese is the targeted outcome. Permission of the Department Chair required.

CHI 490. Study Abroad: Chinese. 1-6 Hour.
Advanced program in a Chinese-speaking country. Course of study will vary according to array of approved offering and student interest. Conducted in Chinese. Permission of the Department Chair and Director of Education Abroad required.

CJ-Criminal Justice

Courses

CJ 100. Introduction to the Criminal Justice System. 3 Hours.
Introduction to criminal justice as a system consisting of interactions among three main components: police, courts, and corrections and the processes involving those components.

CJ 101. Crime and Criminality. 3 Hours.
Examination of the causes and consequences in society of crime/delinquency, including theoretical explanations, sources of data on crime/delinquency, and efforts at controlling the behavior.
CJ 110. Introduction to Forensic Science. 3 Hours.
Overview of the major components of forensic science including death investigation, toxicology, osteology, questioned documents, law, and criminalistics.

CJ 115. Comparative Criminal Justice Systems. 3 Hours.
Analysis of police, judicial, and correctional components found in the world's four major legal systems: Common Law, Islamic, Napoleonic and Socialist.

CJ 120. Introduction to Statistics. 3 Hours.
Introduction to basic statistical theory and analysis. Course emphasizes computation, units of measurement, and evaluation of quantitative assertions; interpretation of quantitative data; use of quantitative data for problem-solving; and communication of information using numbers/words appropriate for the audience. Quantitative Literacy is a significant component of this course.

CJ 125. Introduction to Forensic Psychology. 3 Hours.
Overview of issues involving the intersection of law and psychology. Focus on role of clinical assessment of competency, scientific jury selection, expert witnesses in court, punishment and sentencing, and related issues.

CJ 150. Foundations of Law. 3 Hours.
Examination and analysis of the evolution, function, and sources of law and legal systems in Western culture.

CJ 160. Introduction to Private Security. 3 Hours.
Survey of the field of private security, including organizational, administrative, operational, and liability issues common to it.

CJ 170. Introduction to Crime Scene Analysis. 3 Hours.
Overview of crime scene investigation (CSI), including history of crime scene investigation; processing techniques and methods used to document and preserve evidence found at crime scenes.

CJ 210. Introduction to Digital Forensics. 3 Hours.
This course provides a general introduction to the concepts, theories, principles, and practice of digital forensics. Topics include types of digital forensics, DOS/LINUX commands and DF, forensic acquisition and validation, forensic methodologies, file systems and file examination, expert testimony, legal issues, and challenges for the field. This course prepares students for advanced courses in program and in digital forensics.

CJ 220. Police in America: An Overview. 3 Hours.
Introduction to the history and evolution of modern law enforcement in the United States, including the role and functions of police in the community.
Prerequisites: CJ 100 [Min Grade: C] (Can be taken Concurrently) or JS 100 [Min Grade: C]

CJ 230. The Judicial Process in America: An Overview. 3 Hours.
Introduction to the structure and function of American courts, including judicial selection and behavior, the prosecution function, jury system, and the role of lawyers.
Prerequisites: CJ 100 [Min Grade: C] or JS 100 [Min Grade: C]

CJ 240. Corrections in America: An Overview. 3 Hours.
Introduction to history and evolution of probation, prisons, parole, and community-based programs for adult and juvenile offenders.
Prerequisites: CJ 100 [Min Grade: C] or JS 100 [Min Grade: C]

CJ 250. Criminalistics: An Overview. 3 Hours.
Introduction to identification and application of major types of physical trace evidence in criminal cases involving analysis and comparison. Laboratory component included; Laboratory fee is charged.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 210. Introduction to Digital Forensics. 3 Hours.
This course provides a general introduction to the concepts, theories, principles, and practice of digital forensics. Topics include types of digital forensics, DOS/LINUX commands and DF, forensic acquisition and validation, forensic methodologies, file systems and file examination, expert testimony, legal issues, and challenges for the field. This course prepares students for advanced courses in program and in digital forensics.

CJ 220. Police in America: An Overview. 3 Hours.
Introduction to the history and evolution of modern law enforcement in the United States, including the role and functions of police in the community.
Prerequisites: CJ 100 [Min Grade: C] (Can be taken Concurrently) or JS 100 [Min Grade: C]

CJ 230. The Judicial Process in America: An Overview. 3 Hours.
Introduction to the structure and function of American courts, including judicial selection and behavior, the prosecution function, jury system, and the role of lawyers.
Prerequisites: CJ 100 [Min Grade: C] or JS 100 [Min Grade: C]

CJ 240. Corrections in America: An Overview. 3 Hours.
Introduction to history and evolution of probation, prisons, parole, and community-based programs for adult and juvenile offenders.
Prerequisites: CJ 100 [Min Grade: C] or JS 100 [Min Grade: C]

CJ 250. Criminalistics: An Overview. 3 Hours.
Introduction to identification and application of major types of physical trace evidence in criminal cases involving analysis and comparison. Laboratory component included; Laboratory fee is charged.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 210. Introduction to Digital Forensics. 3 Hours.
This course provides a general introduction to the concepts, theories, principles, and practice of digital forensics. Topics include types of digital forensics, DOS/LINUX commands and DF, forensic acquisition and validation, forensic methodologies, file systems and file examination, expert testimony, legal issues, and challenges for the field. This course prepares students for advanced courses in program and in digital forensics.

CJ 220. Police in America: An Overview. 3 Hours.
Introduction to the history and evolution of modern law enforcement in the United States, including the role and functions of police in the community.
Prerequisites: CJ 100 [Min Grade: C] (Can be taken Concurrently) or JS 100 [Min Grade: C]

CJ 230. The Judicial Process in America: An Overview. 3 Hours.
Introduction to the structure and function of American courts, including judicial selection and behavior, the prosecution function, jury system, and the role of lawyers.
Prerequisites: CJ 100 [Min Grade: C] or JS 100 [Min Grade: C]

CJ 240. Corrections in America: An Overview. 3 Hours.
Introduction to history and evolution of probation, prisons, parole, and community-based programs for adult and juvenile offenders.
Prerequisites: CJ 100 [Min Grade: C] or JS 100 [Min Grade: C]

CJ 250. Criminalistics: An Overview. 3 Hours.
Introduction to identification and application of major types of physical trace evidence in criminal cases involving analysis and comparison. Laboratory component included; Laboratory fee is charged.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]
CJ 340. Terrorism and the Intelligence Community. 3 Hours.
Examines application of the intelligence cycle (collection, analysis, management & dissemination of information) to the war on terrorism using case studies of successes and failures.
Prerequisites: JS 337 [Min Grade: C] or CJ 337 [Min Grade: C]

CJ 341. Correctional Institutions. 3 Hours.
Introduction to prisons, jails, and juvenile institutions in the U.S.; evolution of penology and correctional change strategies; inmate social system; prison stress, violence, and reform.
Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]

CJ 342. Probation and Parole. 3 Hours.
Analysis of history, structure, and function of probation and parole systems in the United States; pre-sentence investigations; offender selection and classification; offender supervision; and agency administration.
Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]

CJ 343. Community-Based Corrections. 3 Hours.
Examination of contemporary redefinition of correctional functions emphasizing development and use of community resources; diversion of offenders from criminal justice system; nontraditional correctional programs.
Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C] and (JS 240 [Min Grade: C] or CJ 240 [Min Grade: C])

CJ 350. Advanced Criminalistics. 3 Hours.
Examination of advanced criminalistics, including biological or genetic properties of evidence, trace evidence analytics, and firearm and tool-mark examinations.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 352. Forensic Science Laboratory II. 3 Hours.
Basic identification and individualization of common, frequently occurring physical evidence materials, with emphasis on biological materials.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 360. Criminology. 3 Hours.
Identification and assessment of early and modern theories concerning the causes of crime in society.
Prerequisites: JS 101 [Min Grade: C] or CJ 101 [Min Grade: C]

CJ 362. Victimology. 3 Hours.
Examination of the criminal-victim relationship and societal reaction to victims including victim services, restitution, and compensation.
Prerequisites: JS 100 [Min Grade: C] or CJ 100 [Min Grade: C] and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

CJ 380. Media, Crime & Justice. 3 Hours.
Examination of issues in crime and justice as depicted in popular media, including motion pictures, television, video, and other media.

CJ 390. The Death Penalty in America. 3 Hours.
Overview of capital punishment in America including its history and justification, major Supreme Court rulings, current issues, and future directions.

CJ 400. Drugs and Society. 3 Hours.
This course teaches students the pharmacological effects of and different categories of drugs. Different theories of drug use are discussed as well as the historical development of drug laws. Various harms associated with drug use are discussed as well as the consequences of drug prohibition. Lastly, students are expected to understand the different methods of drug research.

CJ 402. Computer Forensics. 3 Hours.
Use of analytical and investigative techniques in criminal or civil litigation to identify, collect, examine and preserve evidence/information magnetically stored or encoded.

CJ 403. Restorative Justice. 3 Hours.
Introduction to, and analysis of, movement in criminal justice to institutionalize peaceful approaches to harm, problem-solving and violations of legal and human rights. Includes discussion of specific programs, critical evaluation of these programs, and analysis of future directions of the movement.

CJ 404. Serial Killers. 3 Hours.
Examination of the psychology and sociology of serial killers, including case studies, agency responses and related issues.

CJ 407. Special Topics in Criminal Justice. 3 Hours.
In-depth analysis of substantive topic in criminal justice or criminology including contemporary issues, ethics, historical review, or related topics. Varies by semester and by Instructor. May be repeated twice for credit.

CJ 408. Juvenile Delinquency. 3 Hours.
Introduction to the nature, scope, and causes of illegal behavior by juveniles, and societal responses to that behavior.

CJ 410. Criminal Justice Ethics. 3 Hours.
Analysis of systems of ethics and their applicability to problems in the administration of the justice system including those facing police officials, lawyers, judges, and correctional professionals. Writing and Ethics and Civic Responsibility are significant components of this course.

CJ 411. Juvenile Justice System. 3 Hours.
Introduction to the evolution and operation of specialized agencies and procedures to address juvenile law-breaking, including emerging problems and solutions.

CJ 412. Juvenile Law. 3 Hours.
Review and analysis of emerging statutory and case law in American juvenile justice.

CJ 413. The Legal Profession. 3 Hours.
Weekly seminars conducted by accomplished practitioners in civil litigation, criminal prosecution, criminal defense, labor and employment law, products liability, domestic relations, military justice, environmental, indigent legal aid, and alternative dispute resolution (ADR) techniques.

CJ 415. Investigating Online Crimes. 3 Hours.
Introduction to cyber investigative techniques involving focused analysis of email and websites; examination of legal process and preparing evidence in cyber crime cases; rules concerning introduction of digital evidence.

CJ 417. Criminal Law. 3 Hours.
In-depth analysis of substantive topic in criminal justice or criminology including contemporary issues, ethics, historical review, or related topics. Varies by semester and by Instructor. May be repeated twice for credit.

CJ 418. Psychological Aspects of Crime. 3 Hours.
Examination of the psychology and sociology of serial killers, including case studies, agency responses and related issues.

CJ 420. Crime Scene Investigation. 3 Hours.
Examination of advanced criminalistics, including biological or genetic properties of evidence, trace evidence analytics, and firearm and tool-mark examinations.

CJ 422. Forensic Science Laboratory III. 3 Hours.
Basic identification and individualization of common, frequently occurring physical evidence materials, with emphasis on biological materials.

CJ 424. Advanced Criminalistics. 3 Hours.
Examination of advanced criminalistics, including biological or genetic properties of evidence, trace evidence analytics, and firearm and tool-mark examinations.

CJ 433. Criminal Justice Programs. 3 Hours.
Examination of systems of ethics and their applicability to problems in the administration of the justice system including those facing police officials, lawyers, judges, and correctional professionals. Writing and Ethics and Civic Responsibility are significant components of this course.

CJ 434. Mock Trial Competition. 3 Hours.
Represent UAB as member of Mock trial Team in invitational, regional, and national competition. May be repeated for maximum of 12 hours of which not more than 6 hours may be counted toward fulfilling major or minor requirements.
CJ 436. The Intelligence Community. 3 Hours.
Weekly seminars by intelligence community experts covering relevant topics including state fusion centers; proliferation of intelligence units within first responder agencies; growing role of the private sector; and local prosecution for intelligence agency abuse.

CJ 437. Cybercrime and Forensics. 3 Hours.
Overview of all aspects of media forensics including analysis of character encoding, file formats, and digital media; examination of disk acquisition and duplication techniques; application of media forensic techniques in criminal investigation scenarios.
Prerequisites: JS 402 [Min Grade: C] or CJ 402 [Min Grade: C]

CJ 440. White Collar and Corporate Crime. 3 Hours.
Introduction to, and analysis of, illegal/deviant behavior occurring in complex organizational settings, including theoretical explanations; patterns and case studies; and control strategies.

CJ 441. Terrorism and Social Control. 3 Hours.
Exploration of causes and consequences of terrorism and how governments respond, including investigation, prosecution, and punishment of terrorists.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

CJ 442. Race, Crime, Gender and Social Policy. 3 Hours.
Examination of how subordinate status of minority groups (African Americans, Hispanics, Native Americans and Women) affects interaction with the justice system as offenders, victims, and professionals.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

CJ 443. Women and the Criminal Justice System. 3 Hours.
Examination of women's experiences as offenders, victims, and professionals in the criminal and civil justice systems.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

CJ 444. Law and Society. 3 Hours.
Examination of relationship between law and society, including how law is used to facilitate or retard social change, social control, and social conflict.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 150 [Min Grade: C] or CJ 150 [Min Grade: C]) or JS 230 [Min Grade: C] or CJ 230 [Min Grade: C]

CJ 445. Juvenile Corrections. 3 Hours.
Examination of historical and contemporary efforts to reduce juvenile delinquency through institutional and community-based programs; innovative programs; evaluation of program effectiveness.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

CJ 450. Questioned Death Investigation. 3 Hours.
Introduction to and analysis of questioned deaths, including techniques used in case investigation; overview and history of coroners' offices structure and function in the U.S.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 451. Research Methods in Forensic Science. 3 Hours.
Review of routinely used research methods to conduct forensic science scientific studies.
Prerequisites: CJ 110 [Min Grade: C] or JS 110 [Min Grade: C]

CJ 453. Investigation of Fires and Explosions. 3 Hours.
Introduction to arson investigation including overview of specific techniques used in case investigation; case preparation and presentation in court.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 456. Forensic Approaches to Osteology. 3 Hours.
Introduction study of structure and function of bones with particular emphasis on ability to identify age, sex, and population type of skeletal material.
Prerequisites: JS 110 [Min Grade: C] or CJ 110 [Min Grade: C]

CJ 460. Violence: An American Tradition. 3 Hours.
Examines violence as an American tradition, including historical acts of violence as catalysts for social change, destructive or negative violence, and policies and prevention strategies.

CJ 463. Urban Structures. 3 Hours.
One of the oldest explanations of criminal behavior is that crime is concentrated in particular areas of the city. This class examines the structure of cities, how they grow, and particularly how they decline. It addresses how this decline can produce high levels of crime. It also addresses how cities can be revitalized, and how the justice system can work to reduce crime in these areas.

CJ 465. Cold Case Analysis. 3 Hours.
Introduction to methods used in analyzing unsolved cases, including innovative technology, 3rd party investigators, and teams.

CJ 466. Spatial Analysis. 3 Hours.
This skills-based class will introduce students to the application of geographic information systems (GIS) to crime-related topics and issues.

CJ 481. Honors Research. 3 Hours.
Undergraduate research project developed and completed under direction of faculty mentor.

CJ 482. Honors Research and Colloquium. 3 Hours.
Completion of undergraduate Honors Project under the guidance of a faculty mentor with presentation of project at department colloquium.

CJ 483. Patterns in Crime. 3 Hours.
Examination of the major correlates of crime and criminality; critical examination of major sources of information from which data on crime correlates are gathered.
Prerequisites: (JS 100 [Min Grade: C] or CJ 100 [Min Grade: C]) and (JS 101 [Min Grade: C] or CJ 101 [Min Grade: C])

CJ 490. Independent Research in Criminal Justice. 1-3 Hour.
Independent readings, research or project approved and directed by a criminal justice faculty member who supervises proposed plan of study. Permission of Department Chair.

CJ 492. Study Abroad in Criminal Justice. 3 Hours.
This course affords students the opportunity engage in academic study outside of the U.S. to examine substantive topics in crime and justice. Students spend time (to be determined by the specific program) at a destination point, where they engage with students and faculty members in classroom and research settings at partner post-secondary institutions, experience immersion in foreign culture, and engage in comparative analysis of policies and programs relating to crime and justice.
Prerequisites:

CMST 210 or MC 210 or EH 102 [Min Grade: C] or EH 107 [Min Grade: B]

Practice in gathering and writing news, with experience in writing under pressure of deadlines and covering beats.

CMST 304. Argumentation Theory. 3 Hours.

Bases of argument and nature of issues in controversy. Evidence, logic, refutation, and argumentative formats. Recommended for pre-law as well as general students.
CMST 324. Gender, Sex Similarities and Differences in Communication. 3 Hours.
This class introduces students to gender and how it influences communication and relationships in a variety of personal and professional contexts. Theory, research, and historical perspectives are reviewed and applied to interpersonal, family, romantic, educational, health, and organizational contexts.

CMST 326. Sports in the Mass Media. 3 Hours.
An introduction to the study of communication as it relates to sports. Topics include discussions of athlete-coach interactions, fan behaviors, and media coverage of sporting events.

CMST 335. Communication and Sports. 3 Hours.
An introduction to the study of communication as it relates to sports. Topics include discussions of athlete-coach interactions, fan behaviors, and media coverage of sporting events.

CMST 339. Introduction to Public Relations. 3 Hours.
Survey of public relations in the United States. Relationships among marketing, advertising and public relations.

CMST 340. Public Relations Principles. 3 Hours.
Relationship of business, industrial, educational, health, and service institutions to audiences. Public relations as management function in areas of communication analysis, counseling, and public information activities.
Prerequisites: CMST 210 [Min Grade: C] or MC 210 [Min Grade: C] and (CMST 339 [Min Grade: C] or CM 339 [Min Grade: C] or CMST 339 [Min Grade: C])

CMST 343. Public Relations Methods II. 3 Hours.
Graphics, brochure and newsletter design, slide shows, broadcast PSAs, and multimedia presentations.
Prerequisites: CMST 340 [Min Grade: C] or MC 340 [Min Grade: C]

CMST 350. Publication Editing and Design. 3 Hours.
News selection, copy editing, picture editing, and headline writing.
Prerequisites: CMST 210 [Min Grade: C] or CM 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 353. Sports and Media Relations. 3 Hours.
An examination of the role of media relations in the sports communication environment. Students will acquire multiple competencies, including writing press releases, putting together media kits and media guides, preparing press conferences, and arranging interviews for sports personalities.

CMST 356. Propaganda and Public Persuasion. 3 Hours.
Theory and practice of propaganda with emphasis on mass media as tools of propagandist. Nazi, Soviet, and U.S. propaganda analyzed and critiqued in context of communication theory and ethics.

CMST 360. Feature Writing. 3 Hours.
Finding subjects, collecting information, interviewing, writing, and marketing magazine and newspaper features.
Prerequisites: CMST 210 [Min Grade: C] or MC 210 [Min Grade: C] or MC 106 [Min Grade: C]

CMST 364. Crisis Management. 3 Hours.
The course will provide sufficient knowledge about crisis management in order to perform professional duties with all available information in how to anticipate and respond to a crisis—both negative and positive. Historical and traditional responses to crises will be examined, and particular instances of response by corporations, politicians, and government to disasters and catastrophic events analyzed. A crisis environment and preparation of a response will be simulated.
Prerequisites: EH 101 [Min Grade: D] or CMST 210 [Min Grade: D]

CMST 365. Social Media Strategy and Management. 3 Hours.
Basics of strategic design and management for social media.

CMST 366. Digital Design and Animation. 3 Hours.
Basics of design for digital media, including web and motion graphics.

CMST 370. Introduction to Broadcast Media. 3 Hours.
Broadcasting and digital technology, history of radio and television, economics of broadcasting, government regulation of industry, and assessment of media in society.

CMST 371. Copywriting for Broadcast Media. 3 Hours.
Copywriting for freelance, in-station, agency, corporate in-house, and institutional settings.
Prerequisites: CMST 103 [Min Grade: C] or MC 101 [Min Grade: C]

CMST 380. Health Communication. 3 Hours.
Bases of theory and practice of communication in health-care setting. Emphasis on communication contexts and relationships.

CMST 382. Current Issues in Health Communication. 3 Hours.
A project-based course in the current methods of communicating health information. Students will research the foundations of communication strategies in health care and plan a program of health information to be tested with an actual population. Email, telephone health, are just two areas of study for students. Students should plan for some time to be devoted to a community project.

CMST 383. Visual Media Production II. 3 Hours.
Advanced digital video production for media applications on the web, television and film.
Prerequisites: CMST 283 [Min Grade: C] or MC 283 [Min Grade: C]

CMST 391. Sports Communication Practicum. 3 Hours.
The student will gain practical experience by working in a sports environment on a regular basis. The experience will be directed by a communication studies faculty member, while the day-to-day experiences of the student will be directed by a supervisor in the work environment.

CMST 400. Professional Presentations. 3 Hours.
Advanced speaking and delivery techniques in professional settings. Audience analysis, professional delivery, research, and application of theories of persuasion.
Prerequisites: CMST 210 [Min Grade: C] and CMST 339 [Min Grade: C] and CMST 340 [Min Grade: C]

CMST 401. Instructional Communication. 3 Hours.
Communication problems in the classroom. Translation of data into lecture discussion. Empirical research on verbal and nonverbal elements of effective presentation.

CMST 402. Mass Communication Law. 3 Hours.
Legal limitations and privileges affecting publishing and broadcasting. Major court decisions. Fair comment, libel, right of privacy, fairness doctrine, and license renewal.

CMST 403. Pragmatics and Human Interaction. 3 Hours.
This class examines how people use language to create meanings within conversations; with a focus on the nature of language, speech act theory, conversation analysis, face and face maintenance, sexism in language, conversation implicature, honesty, and deception.

CMST 405. Contemporary Philosophies of Communication. 3 Hours.
Twentieth-century systems of Western rhetoric. Concepts selected from among works of Burke, Weaver, Toulmin, Perelman, Richards, and McLuhan.

CMST 411. Organizational Communication Project. 3 Hours.
Theory and research in communication audits of organizations.
Prerequisites: CMST 311 [Min Grade: C] or CM 311 [Min Grade: C]
CMST 413. Nonverbal Communication. 3 Hours.
Elements of nonverbal behavior (physical appearance, gestures, space, voice) which affect communication in person-to-person situations.

CMST 414. Language and Thought. 3 Hours.

CMST 415. Intercultural & International Communication. 3 Hours.
Communication problems in intercultural and multicultural contexts. Interpretations and otherness. Ethnocentrism and culture. Analysis of one culture interpreting another, with emphasis on modern societies.

CMST 416. Issues in Global Communication. 3 Hours.

CMST 417. Cyborg Communication. 3 Hours.
The study of how people use online communities to mirror, extend, idealize and fantasize their everyday lives. Exploration of how online communities are formed, maintained and dissolved will be made.

CMST 425. Communication in Social and Personal Relationships. 3 Hours.
The course offers an in-depth examination of the role of communication in the initiation, development, maintenance, and termination of social, professional, and personal relationships.

CMST 440. Public Relations Methods I. 3 Hours.
Planning and executing ongoing programs and campaigns to improve organizational and institutional relations with publics. Preparing and distributing news releases, reports, letters, pamphlets, position papers, public statements, speeches, and backrounders.
Prerequisites: CMST 340 [Min Grade: C] or MC 340 [Min Grade: C]

CMST 442. Conducting Public Relations Campaigns. 3 Hours.
National and local programs that illustrate good and bad practices. Student teams research, plan, and design public relations campaigns for client.
Prerequisites: CMST 210 [Min Grade: C] and CMST 339 [Min Grade: C] and CMST 340 [Min Grade: C] and CMST 400 [Min Grade: C]

CMST 445. Seminar in Political Communication. 3 Hours.
Emerging cross-disciplinary field of political communication. Literature and propositions surrounding key approaches, methods, and substantive areas of inquiry in political communication.

CMST 458. Media Criticism. 3 Hours.
Rhetorical systems for appraising persuasive messages and campaigns in twenty-first century.

CMST 460. Communication and Social Movements in America. 3 Hours.
Exploration of role of public communication in political, religious, social, and economic evolution of America. Movements include war and peace, revolution, slavery, feminist concerns, and industrial change.

CMST 461. Media Economics. 3 Hours.
Basic economic principles in the theories of Adam Smith, Davis Richardo and Karl Marx. Economy and communication as part of a social life. What’s the value? Value in linguistics and economics. F. von Hayeck and the idea of pricing as a means of signaling. Pricing and consumption of goods in Industrial Society. Understanding media from the viewpoint of economic concepts and procedures.

CMST 480. Seminar in Health and Medical Communication. 3 Hours.
Advanced communication theory and research in health-care setting. Impact of interpersonal, organizational, and mass communication policy in field of human health and medicine.

CMST 481. Communication and Aging. 3 Hours.
Biological, neurological, and socio-psychological effects of aging on communication process. Communication with elderly in various health and medical contexts.

CMST 483. Visual Media Production III. 3 Hours.
Applied advanced digital video production.
Prerequisites: CMST 383 [Min Grade: C] or MC 383 [Min Grade: C]

CMST 491. Internship. 1-3 Hour.
Students who meet eligibility requirements may take three hours of academic credit per semester for participating in an advisor approved internship experience. All internships require a minimum of 70 hours of work per academic credit per semester.

CMST 492. Independent Study. 1-3 Hour.
The purpose of this class is to provide the student with an opportunity to conduct significant research under the direct supervision of a Communication Studies faculty member. This research is to be an extension of an existing class or classes that you have already taken. It is not to be used to replace existing classes or fulfill requirements that existing classes already fill.

CMST 493. Special Topics in Communication Studies. 3 Hours.
Topics selected by faculty.

CMST 494. Communication Research Methods. 3 Hours.
Research questions, design, methodology, data gathering, and analysis. Practice in conducting, interpreting, and communicating research findings to public. Ethical considerations of conductions research with human subjects. Ethics and Civic Responsibility are significant components of this course. Junior standing required.

CMST 495. Mass Media and Society. 3 Hours.
Mass communication research from 1940s to present. Transactional model of communication and symbolic-interactionist perspective used among other approaches to evaluate role of mass media in twenty-first century America.

COP-Co-Operative Work Program

Courses

COP 011. Cooperative Work Program Full-Time. 12 Hours.
**Engineering students should register for your department's co-op course. In order for a Co-op Work (COP) experience to be recognized by the University and posted to an academic transcript, a student must register prior to the term he or she plans to participate. If a student fails to register by the last day to add classes, as published each term, the experience will not be posted to his or her transcript retroactively. This course has requirements including: an employer offer letter, student self-assessment, employer assessment, and a final essay. Information will be provided upon enrollment. Failure to register for co-op may affect a student's status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered should consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact Career & Professional Development at 934-4324.**
COP 012. Cooperative Work Program Part-Time. 6 Hours.
**Engineering students should register for your department's co-op course. In order for a Co-op Work (COP) experience to be recognized by the University and posted to an academic transcript, a student must register prior to the term he or she plans to participate. If a student fails to register by the last day to add classes, as published each term, the experience will not be posted to his or her transcript retroactively. This course has requirements including: an employer offer letter, student self-assessment, employer assessment, and a final essay. Information will be provided upon enrollment. Failure to register for co-op may affect a student's status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered should consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact Career & Professional Development at 934-4324.

COP 021. Walt Disney - Cooperative Work Program Full-Time. 12 Hours.
Cooperative work program full-time. Student must submit a letter from Disney for term employed and should consult your academic advisor for approval.

CS-Computer Science Courses

Courses

CS 102. Principles of Computer Science. 4 Hours.
This is an introductory course for non-CS majors to learn the fundamental concepts and topics of Computer Science (CS), and how CS is now impacting and changing every person's way of life. Students will explore the use of block-based and/or text-based programming languages to form computational solutions to problems. The main topics covered include program design, software development, abstract thinking, information analysis, the Internet, algorithmic methodology. The course will also discuss other topics including (but not limited to) modeling real-life phenomena, computing as a creative activity, social uses and abuses of information, and the foundations of cybersecurity. This course has a laboratory component.

**Prerequisites:** MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 106 [Min Grade: C] or MA 125 [Min Grade: C] or MA 126 [Min Grade: C] or MA 225 [Min Grade: C] or MA 227 [Min Grade: C] or MA 226 [Min Grade: C]

CS 102L. Principles of Computer Science Lab. 0 Hours.
Laboratory to accompany CS102.

CS 103. Introduction to Computer Science in Python. 4 Hours.
An introduction to computation and computational thinking, explored through programming in Python. Python is a scripting programming language that encourages exploration and quick development. This course assumes no prior programming experience and is appropriate for students in any discipline, such as linguistics, biology, business, and art. The student will leave the course with the ability to write clear and well-designed programs that solve interesting problems, and an appreciation of the power and beauty of computation. Strings, tuples, lists, dictionaries; branching, iteration, abstraction through functions, recursion, higher order programming; insertion sort, binary search, turtle graphics, binary numbers, introduction to classes. Principles of software development are emphasized, including specification, documentation, testing, debugging, exception handling. This course has a laboratory component.

**Prerequisites:** MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 106 [Min Grade: C] or MA 125 [Min Grade: C] or MA 126 [Min Grade: C] or MA 225 [Min Grade: C] or MA 227 [Min Grade: C] or MA 226 [Min Grade: C]

CS 103L. Introduction to Computer Science in Python Lab. 0 Hours.
Laboratory to accompany CS103.

CS 130. Introduction to Cyber Security. 3 Hours.
This course introduces students to the rapidly evolving and critical international arenas of privacy, information security, and critical infrastructure, and is designed to develop knowledge and skills for security of information and information systems at both individual and organizational levels. Stakeholders of information security and privacy. Framework of information security and privacy. Nature of common information hazards. Common cyber attacks and counter-measures. Operation and limitations of information and system safeguards. Ethics, privacy, policy and information decisions. Legal aspects, professional practices, and standards for information security and privacy. Security of national critical infrastructures.

CS 199. Special Topics in Computer Science. 3 Hours.
Selected topics in Computer Science. This course may or may not have a laboratory component or be taught online.

**CS 199L. Special Topics Lab. 0 Hours.**
Project oriented hands-on approach lab. Mandatory first day of attendance.

CS 203. Object-Oriented Programming. 4 Hours.
A second course in computational thinking, through the lens of object oriented programming. Fundamental concepts of object oriented programming and basic data structures. Types, classes, objects, inheritance, containers, OO software design, program structure and organization, reflection, generic programming. Lists, trees, stacks, queues, heaps, search trees, hash tables, graphs, complexity analysis. This course has a laboratory component.

**Prerequisites:** CS 103 [Min Grade: C] or CS 201 [Min Grade: C]

CS 203L. Object-Oriented Programming Lab. 0 Hours.
Laboratory to accompany CS203.

CS 221. Web Development. 3 Hours.
Fundamental concepts of web development. Client side application development using web languages and technologies. Client-server communication. Responsive design. User interaction models. Server-side development. This course has a laboratory component.

**Prerequisites:** CS 103 [Min Grade: C]

CS 221L. Web Development Laboratory. 0 Hours.
Laboratory to accompany CS 221.
CS 222. Mobile Application Development. 3 Hours.
Introduction to application development for mobile devices including those built on Android, iOS and Windows Phone using a popular mobile application development platform such as Cordova. Covers unique requirements and constraints of mobile applications, foundations of mobile application development, syntax and semantics of web languages such as HTML, CSS and related frameworks, client side scripting including JavaScript and associated techniques such as jQuery and Ajax, principles for the design and evaluation of mobile user interfaces, storage and sensors. Lecture and laboratory.
Prerequisites: CS 103 [Min Grade: C]  
CS 222L. Mobile Application Development Laboratory. 0 Hours.  
Laboratory to accompany CS 222.

CS 250. Discrete Structures. 3 Hours.
Discrete mathematics for computer science, including elementary propositional and predicate logic, sets, relations, functions, counting, elementary graph theory, proof techniques including proof by induction, proof by contradiction, and proof by construction.
Prerequisites: CS 103 [Min Grade: C] or CS 201 [Min Grade: C] and (MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C] or MA 126 [Min Grade: C] or MA 227 [Min Grade: C])

CS 303. Algorithms and Data Structures. 4 Hours.
Techniques for design and analysis of algorithms; efficient algorithms for sorting, searching, graphs, and string matching; and design techniques such as divide-and-conquer, recursive backtracking, dynamic programming, and greedy algorithms.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 303L. Algorithms and Data Structures Laboratory. 0 Hours.  
Project oriented hands-on approach to accompany CS 303.

CS 309. Programming in Mathematica. 1 Hour.  
Syntax, semantics and concepts of programming in Mathematica: expressions, lists, patterns and rules, functional programming, procedural programming, recursion, numeric, strings, graphics and visualization, dynamic expressions, optimization, and applications.
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 330. Computer Organization and Assembly Language Programming. 3 Hours.  
Register-level architecture of modern digital computer systems, digital logic, machine-level representation of data, assembly-level machine organization, and alternative architectures. Laboratory emphasizes machine instruction execution, addressing techniques, program segmentation and linkage, macro definition and generation, and computer solution of problems in assembly language.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 330L. Computer Organization and Assembly Language Programming Lab. 0 Hours.  
Laboratory to accompany CS330.

CS 333. System Programming in C. 3 Hours.  
Unix architecture and internals with an emphasis on Linux; shell scripting, distributions of Linux for various computing platforms including large and desktop computers, and embedded computing devices, introduction to the C programming language, system programming in C covering signals and process control, networking, I/O, concurrency and synchronization, memory allocation, threads, debugging, library development and usage.
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 334. Networking. 3 Hours.  
Prerequisites: CS 250 [Min Grade: C] and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 334L. Networking Lab. 0 Hours.  
Project oriented hands-on approach to accompany CS 334. Mandatory first day of class.

CS 350. Automata and Formal Languages. 3 Hours.  
Finite-state automata and regular expressions, context-free grammars and pushdown automata, computability.
Prerequisites: CS 250 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 355. Probability and Statistics in Computer Science. 3 Hours.  
Prerequisites: CS 250 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (CS 203 [Min Grade: C] or CS 302 [Min Grade: C])

CS 380. Matrix Computation. 3 Hours.  
Matrix computation is the foundation of data science, of many key areas of computer science (machine learning, computer graphics, computer vision, high performance computing), and of companies like Google. The main object of study in this course is the matrix, including matrix computation (matrix multiplication, null space, solution of linear systems, least squares) and applications (e.g., image filtering, face detection, compression).
Prerequisites: CS 203 [Min Grade: C] and CS 250 [Min Grade: C]

CS 391. Special Topics. 3 Hours.  
Selected Topics in Computer Science.

CS 392. Special Topics. 3 Hours.  
Selected Topics in Computer Science.

CS 398. Undergraduate Honors Research. 1-3 Hour.  
Research project under supervision of faculty sponsor. Prerequisite: 18 semester hours in Computer Science with grade point average of 3.5 in Computer Science and permission of instructor.

CS 399. Directed Readings. 1-3 Hour.  
Selected readings, research and project development under the direction of a faculty member. Permission of instructor.
Prerequisites: CS 203 [Min Grade: D] and CS 250 [Min Grade: D]
CS 401. Programming Languages. 3 Hours.
CS 401 is a programming language overview course. The course will discuss computability, lexing, parsing, type systems, and ways to formalize a language’s semantics. The course will introduce students to major programming paradigms, such as functional programming and logic programming, and their realization in programming languages. Students will solve problems using different paradigms and study the impact on program design and implementation. The course enables students to assess strengths and weaknesses of different languages for problem solving.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]
CS 401L. Programming Languages Laboratory. 0 Hours.
Laboratory to accompany CS401.

CS 402. Compiler Design. 3 Hours.
Study the design and implementation of compilers, including front-end (lexer, parser, type checking), to mid-end (intermediate representations, control-flow analysis, dataflow analysis, and optimizations) to back-end (code generation). Students will get hands-on experience by implementing several compiler components.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 403. Cloud Computing. 3 Hours.
Introduction to cloud computing architectures and programming paradigms. Theoretical and practical aspects of cloud programming and problem-solving involving compute, storage and network virtualization. Design, development, analysis, and evaluation of solutions in cloud computing space including machine and container virtualization technologies.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 403L. Cloud Computing Lab. 0 Hours.
Laboratory to accompany CS403.

CS 404. Digital Media Forensics. 3 Hours.
Digital media forensics addresses all stored digital evidence types faced by cyber security professionals and Computer Forensics Examiners. Students will learn to analyze character encoding, file formats, and digital media, including hard drives, smartphones, and cloud-hosted evidence, as well as disk acquisition and duplication techniques and how to apply these techniques in typical criminal investigation scenarios.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 404L. Digital Media Forensics Lab. 0 Hours.
Laboratory to accompany CS404.

CS 410. Database Application Development. 3 Hours.
Relational model of databases, structured query language, relational database design and application development, database normal forms, and security and integrity of databases.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 415. Multimedia Databases. 3 Hours.
Multimedia information processing, multimedia database architecture, multimedia database retrieval, semantic models for multimedia databases.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 416. Big Data Programming. 3 Hours.
Introduction to Big Data, Properties of Big Data, platforms, programming models, applications, business analytics programming, big data processing with Python, R, and SAS, MapReduce programming with Hadoop.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 417. Database Security. 3 Hours.
Database fundamentals, introduction to database security, overview of security models, access control models, covert channels and inference channels, MySQL security, Oracle security, Oracle label security, developing a database security plan, SQL server security, security of statistical databases, security and privacy issues of data mining, database applications security, SQL injection, defensive programming, database intrusion prevention, audit, fault tolerance and recovery, Hippocratic databases, XML security, network security, biometrics, cloud database security, big database security.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 419. Investigating Online Crimes. 3 Hours.
Introduction to cyber-investigative techniques involving network forensics. Students will develop and learn to apply new programs and techniques to automatically evaluate digital evidence from network packet captures, emails, server logs, social media, darknets and online forums related to cyber crime cases from both a law enforcement and incident response perspective.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 420. Software Engineering. 3 Hours.
Design and implementation of large-scale software systems, software development life cycle, software requirements and specifications, software design and implementation, verification and validation, project management and team-oriented software development. Lecture and laboratory.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 420L. Software Engineering Laboratory. 0 Hours.
Laboratory to accompany CS 420.

CS 421. Advanced Web Application Development. 3 Hours.
Introduction to web application design and development. Includes traditional web applications utilizing server-side scripting as well as client/server platforms. Covers responsive design for both mobile and desktop users, as well as hands on server provisioning and configuration. Other topics include web security problems and practices, authentication, database access, application deployment and Web API design, such as REpresentational State Transfer (REST).
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 421L. Advanced Web Application Development Laboratory. 0 Hours.
Laboratory to accompany CS 421.

CS 422. Mobile Application Development. 3 Hours.
Fundamental concepts of mobile application development. Hybrid application development using web application technologies. Mobile form factor specific concerns. Client-server communication. Multi-screen design. Mobile application UX. Native development basics. This course has a laboratory component.
Prerequisites: CS 303 [Min Grade: C] and CS 221 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 423L. Mobile Application Development Laboratory. 0 Hours.
Laboratory to accompany CS423.

CS 426. Secure Software Development. 3 Hours.
Why and how software fails, characteristics of secure and resilient software, life cycle of secure software development, metrics and models for secure software maturity, design methodology, best practices for secure programming, secure software for mobile computing, cloud computing and embedded systems, methodology for testing and validation.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 427. Software Design and Integration. 3 Hours.
This course provides hands-on experience in the design and integration of software systems. Component-based technology, model-driven technology, service-oriented technology, and cloud technology are all explored. Software design basics, including the decomposition of systems into recognizable patterns, the role of patterns in designing software and design refactoring, and attributes of good design. Agile culture, CASE tools, tools for continuous integration, build, testing, and version control.

Prerequisites: CS 420 [Min Grade: C]

CS 429. Software Engineering Research Project. 3 Hours.
This is a project-based research course in software engineering, involving significant implementation and experimentation under the supervision of a faculty member. A project proposal must be accepted before registering for this course.

Prerequisites: CS 420 [Min Grade: C]

CS 430. Computer Architecture. 3 Hours.
Introduction to computer architecture, including memory subsystems, direct-mapped and set-associative cache and multi-level cache subsystems, direct-access devices including RAID and SCSI disk drives, processor pipelining including super-scalar and vector machines, parallel architectures including SMP, NUMA and distributed memory systems, interrupt mechanisms, and future microprocessor design issues.

Prerequisites: CS 330 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 431. Distributed Systems. 3 Hours.
Introduction to distributed systems, distributed hardware and software concepts, communication, processes, naming, synchronization, consistency and replication, fault tolerance, security, client/server computing, web technologies, enterprise technologies.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 432. Parallel Computing. 3 Hours.
Introduction to parallel computing architectures and programming paradigms. Theoretical and practical aspects of parallel programming and problem solving. Design, development, analysis, and evaluation of parallel algorithms.

Prerequisites: CS 303 [Min Grade: C] and CS 330 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 433. Operating Systems. 3 Hours.
Introduction to operating systems. This course looks at the internal design and operation of a modern operating system. Topics include interrupt handling, process scheduling, memory management, virtual memory, demand paging, file space allocation, file and directory management, file/user security and file access methods. Several comparisons among current operating systems are used, with attention to Windows and Unix in particular.

Prerequisites: CS 330 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 433L. Operating Systems Laboratory. 0 Hours.
Laboratory to accompany CS 433.

CS 434. Virtualization. 3 Hours.
Theory and practice of virtualization. Origins, history, technical and economic motivations. Relationship to network operating systems and operating system architecture. Simulation, Emulation, Virtualization of CPUs, networks, storage, desktops, memory, devices, and combinations thereof. Different approaches to virtualization, including hardware assists and software-only techniques. Techniques, approaches, and methodologies for scale-out and scale-up computing, including security, performance and economic concerns.

Prerequisites: CS 433 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 435. Network Programming. 3 Hours.
Remote procedure call and client-server mechanisms. Protocol definition and compilation; client and server stubs and application code; transport independence; multiple client and server systems. Applications, e.g., remote database query and update and image filtering and archiving; systems programming and file systems contexts.

Prerequisites: CS 334 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 436. Computer Security. 3 Hours.
Study of the breadth of major computer security topics including cyber threats, malware, information assurance, authorization, applied cryptography, web security, mobile and wireless security, network security, systems/software security, database and storage security, user-centered security, and best security practices and countermeasures.

Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 437. Digital Media Forensics. 3 Hours.
Digital media forensics addresses all stored digital evidence types faced by cyber security professionals and computer forensics examiners. Students will learn to analyze character encoding, file formats, and digital media, including hard drives, smartphones and other portable devices, and cloud-hosted evidence, as well as disk acquisition, duplication and evidence preservation techniques and how to apply these techniques in typical criminal investigation scenarios.
Prerequisites: CS 303 [Min Grade: C] and CS 330 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 437L. Digital Media Forensics Lab. 0 Hours.
Laboratory to accompany CS 437.

CS 440. Introduction to Bioinformatics. 3 Hours.
This course introduces students to the field of bioinformatics, emphasizing the application of computational tools and methodology in genomics, analysis of protein functions and structures, and DNA sequencing. Students learn how to use a high level programming language such as Python together with software tools such as BLAST and ArrayTrack to solve bioinformatics problems.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 441. Algorithms in Bioinformatics. 3 Hours.
This course covers the design and analysis of algorithmic techniques applied in bioinformatics. Topics include sequence comparison, alignment and matching, suffix tree, sequence database search, phylogenetic tree, genome rearrangement, motif finding, RNA prediction, and peptide sequencing.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 442. Mobile and Wireless Security. 3 Hours.
Mobile/wireless devices are ubiquitous, raising the potential for many cyber threats. This course examines security vulnerabilities inherent in many existing and emerging mobile and wireless systems, ranging from smartphones to wearables and RFID tags. In addition to exposing security vulnerabilities, defensive mechanisms to address these vulnerabilities drawn from existing deployments and research literature will be studied.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 443. Cloud Security. 3 Hours.
Definition of cloud computing, cloud computing models, privacy, authenticity and integrity of outsourced data, proof of data possession / retrievability, cloud forensics, malware analysis as a service, remote verification of capability and reliability, proof of availability, economic attacks on clouds and outsourced computing, virtual machine security, trusted computing technology and clouds, verifiable resource accounting, cloud-centric regulatory compliance issues and mechanisms, business and security risk models, secure MapReduce, applications of secure cloud computing, private information retrieval and cloud cartography.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 444. Network Forensics. 3 Hours.
This course covers concepts and methods involved in unraveling network intrusions, DDOS, and other untoward network behavior.
Prerequisites: CS 303 [Min Grade: C] and CS 336 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 445. Modern Cryptography. 3 Hours.
Theory and practices of modern cryptographic techniques, algorithms and protocols, including formal analysis. Secret key encryption algorithms, public key encryption algorithms, stream ciphers, one-way hashing algorithms, authentication and identification, digital signatures, signcryption, key establishment and management, secret sharing and data recovery, zero-knowledge proofs, public key infrastructures, efficient implementation, cryptanalytic attacks and countermeasures, security models, assumptions and proofs.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 446. Digital Currency. 3 Hours.
Fundamental principles of digital cash systems including Bitcoin, Ripple and other notable cryptocurrencies. Topics to be covered include how a cryptocurrency works, blockchain and other decentralized consensus protocols, proof of work, proof of stake, security and privacy of cryptocurrencies, cryptographic techniques for digital currency, and applications of blockchain in peer-to-peer trust establishment, smart contracts, digital asset management, financial exchanges and distributed autonomous organization.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 447. Biomedical Modeling. 3 Hours.
Modeling and analysis of biomedical datasets. Aspects of image processing and shape modeling related to biomedical datasets, morphometry, alignment, surgical planning, case studies.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 452. Advanced Algorithms and Applications. 3 Hours.
This courses introduce students to the design and analysis of fundamental algorithms that underpin many fields of importance ranging from data science, business intelligence, finance and cyber security to bioinformatics. Algorithms to be covered include dynamic programming, greedy technique, linear programming, network flow, sequence matching, search and alignment, randomized algorithms, page ranking, data compression, and quantum algorithms. Both time and space complexity of the algorithms are analyzed.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 454. Malware Analysis. 3 Hours.
Hands-on course teaching static, dynamic and contextual analysis of malware. Malware analysis, and investigation is taught through interaction with both "classroom" and "wild" malware samples. Defensive and counter-measure techniques for both corporate and law enforcement environments are explored.
Prerequisites: CS 303 [Min Grade: C] and CS 330 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 454L. Malware Analysis Lab. 0 Hours.
Laboratory to accompany CS 454.

CS 456. Web Security. 3 Hours.
The web uses advanced applications that run on a large variety of browsers that may be built using programming languages such as JavaScript, AJAX, Google Web Toolkit and Apache Struts, to name a few. This course studies how core web technologies work, the common security vulnerabilities associated with them, and how to build secure web applications that are free from these vulnerabilities.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 457. Penetration Testing and Vulnerability Assessment. 3 Hours.
This course focuses on penetration testing and vulnerability analysis. It introduces methodologies, techniques and tools to analyze and identify vulnerabilities in stand-alone and networked applications. It also covers methodologies for legal and standards compliance.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 457 [Min Grade: C])

CS 460. Artificial Intelligence. 3 Hours.
This course will provide an introduction to fundamental concepts in the field of artificial intelligence. Topics typically covered include agents, search, logic and knowledge representation, probabilistic models, machine learning, natural language processing and perception.
Prerequisites: CS 303 [Min Grade: C] and CS 350 [Min Grade: C]

CS 462. Natural Language Processing. 3 Hours.
This course provides a broad introduction to Natural Language Processing (Computational Linguistics). Topics typically covered in this course include part-of-speech tagging, syntactic parsing, semantic analysis, speech recognition, machine translation, sequence labeling algorithms, n-gram language models, statistical parsing, grammar formalisms and treebanks.
Prerequisites: (CS 303 [Min Grade: C] and CS 350 [Min Grade: C] and CS 355 [Min Grade: C]) or CS 460 [Min Grade: C]

CS 463. Data Mining. 3 Hours.
Techniques used in data mining (such as frequent sets and association rules, decision trees, Bayesian networks, classification, clustering), algorithms underlying these techniques, and applications.

CS 467. Machine Learning. 3 Hours.
Introduction to machine learning, the design of algorithms that can make predictions about the future based on past experience. Emphasizes practical considerations for developing efficient and accurate machine learning models, and theoretical underpinnings of different learning algorithms.
Prerequisites: (CS 303 [Min Grade: C] and CS 355 [Min Grade: C] and MA 125 [Min Grade: C]) or CS 460 [Min Grade: C] or (CS 303 [Min Grade: C] and CS 355 [Min Grade: C] and MA 225 [Min Grade: C])

CS 469. Introduction to the Internet of Things. 3 Hours.
Definition of the Internet of Things (IoT), history, IoT components, device specifications and examples, architectures, protocols, applications, security and privacy issues, programming and development environments for IoT, interoperability, interfacing IoT devices via web and mobile applications.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 470. Computer Graphics. 3 Hours.
This course studies computer graphics, the study of the creation and manipulation of shape models and images, and its companion, data visualization, the study of the modeling and visual interpretation of large datasets, fundamental to data science for exploration of large datasets. Topics include shape modeling, rendering and lighting models, human physiology relevant to visualization, the use of colour in visualization, viewing and camera modeling, matrix transforms for motion and viewing, animation, visibility analysis, visualization of spatial data using charts, visualization of non-spatial data such as graphs, nonphotorealistic rendering, and exploration of graphics and data visualization through code.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 473. Computer Vision and Convolutional Neural Networks. 3 Hours.
Computer vision, the study of the interpretation of images, is central to many areas of computer science, including data science and machine learning, driverless cars, biomedical computing, image computation for social media, and face detection in security. Recent algorithms for vision also leverage deep learning with convolutional neural networks for object recognition. Topics in this course include image smoothing and filtering, edge detection, segmentation, clustering, Hough transform, deformable contours, object recognition, and machine learning for object recognition using large image datasets.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 475. Data Visualization. 3 Hours.
Data visualization is a core component of data science, offering mechanisms for exploring data. This course covers the fundamentals of data visualization, including the use of charts, colour in visualization, visualization design, graph visualization, mesh generation, nonphotorealistic rendering, and human physiology relevant to visualization. Exploration through code.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 476. Foundations of Game Development. 3 Hours.
An exploration of the Unreal game development engine and game development using Unreal and C++. This course assumes no prior C++ programming experience, game development experience or experience with the Unreal engine. The student will gain foundational knowledge of the Unreal Engine, C++, game design and development.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 226 [Min Grade: C])

CS 477. Open Source Security Systems. 3 Hours.
An introduction to the design, implementation, evaluation and maintenance of secure software systems and applications using open source technologies, with an emphasis on hands-on experience. Topics include: open source ecosystems, open source security methodologies and models, notable open source software systems and projects, quality and security assurance through open source, open source supply chain security, major open source cryptographic packages; designing, implementing and maintaining security systems using open source technologies; assessment and regulatory compliance using open source tools, and open source hardware.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 484. Robot Motion. 3 Hours.
Path planning algorithms, Configuration space, potential functions, roadmaps, cell decomposition, probabilistic motion planning, compliant motion.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 485. Foundations of Data Science. 3 Hours.
This introductory course in data science teaches fundamental concepts and techniques in statistical inference and big data analytics. Topics include high-dimensional space, singular value decomposition, random graphs, random walks and Markov chains, data streaming and sketching, and basics of data mining and machine learning.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])
CS 486. Software-Defined Networking. 3 Hours.
Software defined networking (SDN) allows a logically centralized software component to manage and control the behavior of an entire network. Topics to be covered include abstractions and layered architecture of SDN, data, control and management planes, network virtualization, programming SDN, network functions (e.g. routing, load balancing and security), comparison of OpenFlow and proprietary SDN technologies, and network optimization with SDN.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 487. Complex Networks. 3 Hours.
Introduction to complex network theory and real-world applications in biology, physics, sociology, national security and cyber enabled technology systems such as social networks. Essential network models including small world networks, scale free networks, spatial and hierarchical networks together with methods to generate them with a computer will be discussed. In addition, various techniques for the analysis of networks including network modeling and evolution, community structure, dynamic network analysis, and network visualization will be explored.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 489. Cyber Risk Management. 3 Hours.
This course develops knowledge and skills in risk based information security management geared toward preventive management and assurance of security of information and information systems in technology-enabled environments. It focuses on risk assessments, risk mitigation strategies, risk profiling and sensitivity, quantitative and qualitative models of calculating risk exposures, security controls and services, threat and vulnerability management, financing the cost of security risks, and return on investment for information security initiatives. The course presents several risk assessment models with an ultimate goal of identifying and realizing the unique and acceptable level of information risk for an organization.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 491. Special Topics. 3 Hours.
Special Topics in Computer Science.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 492. Special Topics. 3 Hours.
Special Topics in Computer Science.
Prerequisites: CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 496. Research Seminar. 1 Hour.
Participation in research seminar directed by a faculty member.

CS 497. Competitive Programming Techniques. 1 Hour.
This course will help students become more competitive in a programming competition such as the ACM programming contest by exploring numerous problem solving techniques and algorithms not covered in the traditional curriculum.

CS 498. Research Methods in Computer Science. 3 Hours.
This course is designed to provide future computer science teachers with the tools that computer science uses to develop new knowledge. Students will design, implement, and document independent research inquiry. Students will learn how scientists communicate through peer-reviewed publications and evaluate conflicting scientific claims. Work is closely coordinated with the work of students from other content disciplines so that students see the similarity and differences of research methods in their own field as compared with those of other science disciplines.
Prerequisites: EHS 126 [Min Grade: D]

CS 499. Senior BS Capstone. 3 Hours.
This capstone course consolidates key concepts in the undergraduate BS curriculum and prepares students for their professional careers. Teamwork and writing are key themes of the course. Students discuss and write about topics in ethics, professional practice, entrepreneurship, intellectual property, licensing (e.g., GPL, MIT), privacy, continuing professional development, professional networking tools, compliance, tolerance, inclusion, appreciation of diversity, and contemporary issues. In a software engineering project, students work in a team to put to practice principles and techniques that they have acquired throughout the undergraduate curriculum. Students take the Major Field Test in Computer Science as a requirement for completing this course. Students should be CIS BS majors in their last year of undergraduate study. Lecture and laboratory.
Prerequisites: (CMST 101 [Min Grade: C] or CM 101 [Min Grade: C]) and PHL 115 [Min Grade: C] and CS 303 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

CS 499L. Senior Capstone Laboratory. 0 Hours.
Laboratory to accompany CS 499.

DB-Distribution

Courses

DB 320. Distribution Management. 3 Hours.
Introduction to basic problems, concepts and management practices of distribution firms and manufacturing relationships. History of types of distributor organizations, functions and role of industrial distribution in the economy.
Prerequisites: MK 303 [Min Grade: C] (Can be taken Concurrently)

DB 430. Distribution Operations. 3 Hours.
The course emphasizes distribution operations decision making. There are heavy emphases on profitability analysis, margin management, pricing and price negotiations, and managing inventory investments.
Prerequisites: DB 320 [Min Grade: C] and AC 200 [Min Grade: C] and AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and QM 214 [Min Grade: C] and QM 215 [Min Grade: C] and BUS 101 [Min Grade: C] or BUS 102 [Min Grade: C] and BUS 110 [Min Grade: C]

DB 435. Distribution Policies and Quality Issues. 3 Hours.
The course examines issues involved in customer relationship strategy and management in industrial and medical business markets. Topics include channel strategy and management, B2B e-commerce strategy and applications, strategic account management processes and systems, customer profitability and lifetime value, multi-channel selling models, negotiations and other operational strategies and technologies used by distributors and manufacturers.
Prerequisites: DB 320 [Min Grade: C]
DB 495. Distribution Directed Studies Practicum. 3 Hours.
Issues in managing distributors, both as suppliers for and customers of manufacturers and other businesses. Students work with host distributor/manufacturer on current and future distribution problem areas. Students develop an in-depth research analysis of the host distributor/manufacturer.

DCS-Digital Community Stud Courses

Courses

DCS 101. Media and Society. 3 Hours.
This course offers an introduction to the study of the media industries and their impact on society. Aimed at consumers of media of any form, this course examines the technology, aesthetics, and rhetoric of the media through history and encourages a critical analysis about media's influence on our understanding of social reality.

DCS 150. Introduction to Film and History. 3 Hours.
This course will examine fiction and non-fiction films as socially significant documents. Students will receive an introduction to the techniques of film analysis in the class.

DCS 201. History of Documentary Film. 3 Hours.
This course will provide a history of the documentary tradition by studying the major stylistic movements, works, and filmmakers of non-fiction film and photography in the 20th century.

DCS 208. Women in Film. 3 Hours.
This course will provide a history of women in film, focusing on both women working in the film industry and the representation of women on screen. The course will focus on American film history, 1930's Hollywood to the present.

DCS 250. Community and Service. 3-6 Hours.
This service-learning course provides students the opportunity to explore social and community issues by volunteering with a local agency, non-profit or community group. Students will use multimedia to highlight their community partner, document their experience and share their interests. Methods such as participant observation and ethnographic field approaches will provide the framework for student exploration.

DCS 266. New Urbanism. 3 Hours.
This course investigates the community development model of New Urbanism which promotes the values of walkability, diversity and connectivity for healthy living and neighborhood sustainability. Students will explore local communities, connecting New Urbanist design principles to community values and social interaction.

DCS 291. Community Ethnography and Public History. 3 Hours.
This experiential course addresses how to investigate and represent local community history and stories through the methodologies of service learning, participant observation, ethnographic research and oral history. This class addresses the concepts of human memory, nostalgia, folklore, storytelling and public history. Students will learn how to use new media technologies, such as digital video, podcasting and website production, as a way to represent community history and culture for the public.

DCS 309. American Independent Film. 3 Hours.
This course will provide a history of the American Independent filmmaking tradition by studying the major stylistic movements, works, and filmmakers of the 1970s-the present.

DCS 390. Life, Liberty, and the Pursuit of Happiness: Representing American Identity on Film. 3 Hours.
An interdisciplinary course in which students investigate the formation and representation of early American identity and produce their own films representing contemporary American identity.

DCS 391. Digital Storytelling. 3 Hours.
In this non-fiction video production course, students will learn how to use new media technologies, such as digital video, digital audio, music, graphics, and still photography, as a way to represent community history, personal narratives, and local culture for the public.

DCS 401. Ethnographic Filmmaking/SL. 6 Hours.
This course offers students the practical application of producing skills and techniques to prepare them for professional work in the media and film industry. The course includes project development, budgeting, grant and pitch preparation, professional reel and website development. Emphasis will be on communicating effectively in the non-profit sector. This course is a designated capstone experience. Permission of Instructor.
Prerequisites: DCS 401 (Min Grade: C)

DCS 450. Media and Public Service. 3 Hours.
This course offers students hands-on experience creating and analyzing media pieces about community issues, including documentary films, public service announcements, translation of academic research to lay audiences, and multimedia grant proposals and reports. Emphasis will be on communicating effectively in the non-profit sector. This course is a designated capstone experience. Permission of Instructor.
Prerequisites: DCS 401 (Min Grade: C)

DCS 455. Professional Producing. 3 Hours.
This course offers students the practical application of producing skills and techniques to prepare them for professional work in the media and film industry. The course includes project development, budgeting, grant and pitch preparation, professional reel and website development. Emphasis is on non-fiction media.
Prerequisites: DCS 401 (Min Grade: C)

DCS 460. Independent Media Studies. 3-6 Hours.
This course will provide an opportunity for advanced students to pursue individual projects in multimedia studies. Prerequisites: Permission of the Instructor.
Prerequisites: DCS 401 (Min Grade: C)

DCS 470. Internship in Media Studies. 3-6 Hours.
Internships will provide students with the opportunity for hands-on experience with digital technology in workplace setting. This course is a designated capstone experience. Permission of the Instructor.
Prerequisites: DCS 401 (Min Grade: C)

DCS 490. Special Topics in Media. 3 Hours.
Study of thematic topics throughout media studies. This course is a designated capstone experience.

EC-Economics Courses
Courses

**EC 110. Economics and Society. 3 Hours.**
Economic principles and development of economic analysis. Combines key elements of EC 210 and 211. Primarily intended for majors in School of Education seeking to meet certification requirements; also open to students outside School of Business who wish to survey economics in one course. Not open to entering freshmen; not open to majors in School of Business or economics majors in the College of Arts and Sciences.

**EC 210. Principles of Microeconomics. 3 Hours.**
This course is an introduction to microeconomic analysis. Students will learn why markets often function well without any centralized control and reasons why they sometimes do not, and why basic microeconomic models often are able to explain, predict and improve the world around us. The emphasis is on how the intuitive notions of optimization and equilibrium provide a unifying framework for understanding human behavior, as well as simple ways in which economists use real-world data to answer specific questions.

**EC 211. Principles of Macroeconomics. 3 Hours.**
This course is an introduction to macroeconomic analysis, which pertains to the overall economy. We study economy-wide phenomena such as the growth rate of national economic output, rates of inflation and unemployment, and learn how macroeconomists design government policies that improve aggregate economic performance.

**EC 300. Economic History of the U.S.. 3 Hours.**
This course spans the economic history of the U.S. from colonial times to present. Topics covered include the U.S. Constitution, national economy, wars, ethnicity, race, gender, distribution of wealth and power, social conflict and reform, entrepreneurs, workers, workplace, popular culture, and foreign affairs.

**EC 301. Money and Banking. 3 Hours.**
Money supply, banking system, and other financial institutions; how money affects aggregate economic activity.
**Prerequisites:** EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPAO 2.00 and EC 211 [Min Grade: C] and EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00

**EC 302. Law and Economics. 3 Hours.**
This is an introduction to Law and Economics, that is, the application of economic analysis to legal questions. The course offers a survey of core issues (including property, contracts, and torts), an exposition of alternative approaches to those issues, and a discussion of important implications for economics, law, political science, philosophy, public administration, and sociology. The instructor encourages students to concurrently sign up for the course Cooperation and Competition (EC 330).
**Prerequisites:** (GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**EC 303. Labor Economics. 3 Hours.**
Economic analysis in dealing with major aspects of such problems as employment, wages, hours, unionism, labor-management relations, and social security. Influence of psychological and institutional factors.
**Prerequisites:** GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C]

**EC 304. Intermediate Microeconomics. 3 Hours.**
Advanced economic principles underlying value and production with additional training in application of these principles to problems of analysis.
**Prerequisites:** EC 210 [Min Grade: C] and GPAT or GPAO 2.00 and EC 210 [Min Grade: C] and GPAU 2.00 or GPAO 2.00

**EC 305. Intermediate Macroeconomics. 3 Hours.**
Forces determining income and employment in economic systems, with special reference to the United States and other Industrialized Countries. Causes of unemployment and inflation. Role of government in maintaining stable prices and sustained growth.
**Prerequisites:** GPAT and GPAO 2.00 and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 211 [Min Grade: C]

**EC 306. Health Care Economics. 3 Hours.**
This course seeks to apply economic analysis to issues in health care. Students will review the basic tools of economic analysis and discuss the evolving trends and institutional features in the health care industry. Students will then use an economic way of thinking to address contemporary health care issues from an economic perspective. This will include consideration of the supply and demand for health care, hospitals, insurance and managed care, health labor markets, chronic disease, prescription drugs, and government policy.
**Prerequisites:** EC 210 [Min Grade: C]

**EC 308. Economics of Environment. 3 Hours.**
Use of economic analysis to examine interaction between economic institutions and physical environment. Specific topics: social costs and benefits of economic growth, interactions between private business and public welfare, and socioeconomic systems and goals.
**Prerequisites:** GPAT and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] or GPAU 2.00 and GPAO 2.00 and EC 210 [Min Grade: C] and EC 211 [Min Grade: C]

**EC 310. Managerial Economics. 3 Hours.**
Economic theory and its application to managerial decision making process. Demand analysis, estimation, cost analysis, market analysis, pricing strategy.
**Prerequisites:** (EC 211 [Min Grade: C] and EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**EC 320. Behavioral Economics. 3 Hours.**
Incorporation of psychology into models of economic behavior. These models are applied to a variety of fields including industrial organization, marketing, and negotiation.
**Prerequisites:** (EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**EC 330. Game Theory. 3 Hours.**
This course studies strategic interaction between economic agents. Topics include finding Nash equilibria in sequential- and simultaneous-move games, game-changing strategic moves & their credibility, manipulating information, cooperation & coordination, auctions, bargaining, voting and incentives. The emphasis is on developing strategic intuition and understanding how and why results in experimental and real-world play often differ from those predicted by the underlying theory.
**Prerequisites:** (EC 210 [Min Grade: C] and GPAT and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
EC 401. Mathematical Approach in Economics and Business. 3 Hours.
Mathematical approach in economics and business.
Prerequisites: (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 304 [Min Grade: C] or EC 310 [Min Grade: C] and GPAT and GPAO 2.00)

EC 402. Law and Economics. 3 Hours.
Let’s say that you own a home on a nice half-acre lot. What does that ownership mean? Can you do anything you wish with your property? Can you add on 5 additional levels to your home, making it a 7-story monolith? Can you start a chicken farm on your land? If you can’t, then is it really your property? Law and economics explains property rights and the appropriate rules for competing uses of property. What if you slip on a grape in the fruit section at the local grocery store and break your hip? Is the store responsible for your medical expenses or are you? Should the justice system require that the store make sure that nobody ever slips on a stray grape? How much responsibility does the shopper have to take the proper amount of care in walking through a produce section? Law and economics helps to analyze the effects of different rules regarding accidents and liability. What is the best way to punish a murderer? Is the same punishment appropriate for someone who has engaged in securities fraud? If not, what is the best way to punish the fraudulent broker? Is punishment supposed to be a deterrent or is it meant to be retribution? Does your answer to the previous question lead you to different punishment conclusions? Law and economics helps determine what are efficient and effective punishment rules.

EC 403. Monetary Economics. 3 Hours.
Current theories of monetary policy and management, historical development of theory and practice, contemporary policies employed by monetary authorities, institutions concerned, evaluation of policies and reform, and interrelations between monetary factors and economic processes.
Prerequisites: (EC 304 [Min Grade: C] and EC 301 [Min Grade: C] or EC 305 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 304 [Min Grade: C] and EC 301 [Min Grade: C] or EC 305 [Min Grade: C] and GPAT and GPAO 2.00)

EC 404. Topics in Public Policy. 3 Hours.
Topics in Public Policy.
Prerequisites: (EC 304 [Min Grade: C] and GPAU 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 405. Economic Development and Growth. 3 Hours.
Problems of economic development; growth of less developed economies compared with those of advanced economies. Theories of economic development. Policy measures to promote development of growth, with emphasis on measures to accelerate development of countries.
Prerequisites: (EC 304 [Min Grade: C] and GPAU 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 407. International Economics. 3 Hours.
Analysis of theoretical principles underlying international trade and investment, and international monetary relations. Study includes the effects on domestic and foreign economies of commercial, monetary and fiscal policies. (Also IB 407).
Prerequisites: (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPAO 2.00)

EC 408. Topics in the History of Economic Theory. 3 Hours.
The development of economic thought from antiquity to the end of the twentieth century, with emphasis on the synthesis of evolving ideas constituting current economic theory.
Prerequisites: (EC 211 [Min Grade: C] and GPAU 2.00) or (EC 211 [Min Grade: C] and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 409. Econometrics. 3 Hours.
This course is an introduction to micro-econometric empirical methods. Students will learn how to specify and estimate regression equations, various econometric models and the appropriate situations for using them, the implications of estimated parameters, and the conditions under which causal effects are identified. The focus is on application, i.e. conceptualization, interpretation and hands-on data analysis.
Prerequisites: EC 210 [Min Grade: C] and QM 214 [Min Grade: C]

EC 411. Public Finance. 3 Hours.
Principles of taxation, government expenditures, borrowing, and fiscal administration.
Prerequisites: (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 413. Urban Economics. 3 Hours.
Economic issues and structure of metropolitan areas. Economic growth and decay of urban regions. Specific topics: housing, education, employment, political economy, and public safety.
Prerequisites: EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00 or (EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 414. Industrial Organization. 3 Hours.
Structure and performance of monopolistic and oligopolistic industries, emphasizing efficiency, pricing policies, and investment decisions. Extent and nature of concentration in economy as whole.
Prerequisites: (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 304 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 415. Sports Economics. 3 Hours.
The study of the economics of sports allows the student to see how various tools and theories can actually be applied to solving problems the student may see presented frequently in the mainstream news. By studying the economics of sport it is hoped that the student can approach economics in the context of a subject the student already finds interesting. Furthermore, in the end this class is not only designed to be interesting, but also a rigorous introduction to the application of economic theory.
Prerequisites: EC 210 [Min Grade: C]

EC 420. Applied Forecasting. 3 Hours.
Practical use of various forecasting techniques on business and economic data. Topics include dynamic regression models, exponential smoothing, forecast criteria, moving averages, seasonality, and univariate Box Jenkins ARIMA modeling.
Prerequisites: (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (EC 210 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

EC 425. Applied Regression Analysis. 3 Hours.
Simple, multilinear, and polynomial regression analysis. Model selection, inferential procedures, and application with computer.
Prerequisites: (QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)
EC 440. Economics for Educators. 3 Hours.
Students will gain an understanding of both basic economic principles and entrepreneurship and learn innovative methods of transferring economic knowledge to elementary and secondary students. Students will also become well-versed in the National and Alabama State standards of learning. Only open to education majors and certified teachers in K-12. This class is not open to economics or business majors.

EC 450. Economics, Institutions & Law. 3 Hours.
The course will study the microeconomic and macroeconomic consequences of different institutional environments and arrangements of designed incentives. This will include political, regulatory and legal structures and rules, both as pertain to actual institutions at the macro level (e.g., the Federal Reserve, the IMF, the World Bank) and regulated structures at the micro level (households and firms). The presumed conceptual frameworks will be based on intermediate microeconomics and introductory macroeconomics. Normative justification of institutional designs will be addressed. EC 320 is a recommended prerequisite.
Prerequisites: (EC 211 [Min Grade: C] and EC 304 [Min Grade: C] and GPAT and GPA 2.00) or (EC 211 [Min Grade: C] and EC 304 [Min Grade: C] and GPAU 2.00 and GPAPO 2.00)

EC 460. Economics Internship. 3 Hours.
The economics internship program offers qualified students the opportunity to gain first-hand experience in local organizations for a term while receiving academic credit. Participating organizations are expecting to receive high-quality work from the students they sponsor. The active participation by students in actual business decisions of the sponsoring organization is the primary interest of the internship.
Prerequisites: (EC 304 [Min Grade: C] and EC 305 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAT and GPA 2.00) or (EC 304 [Min Grade: C] and EC 305 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and GPAU 2.00 and GPAPO 2.00)

EC 490. Advanced Topics in Economics. 3 Hours.
Selected topics in economics.
Prerequisites: (GPAT and GPAPO 2.00) or (GPAU 2.00 and GPAPO 2.00)

EC 499. Directed Readings in Economics. 1-3 Hour.
Investigation of specific areas in economics.
Prerequisites: (GPAT and GPAPO 2.00) or (GPAU 2.00 and GPAPO 2.00)

ECE-Early Childhood Educ Courses

Courses

ECE 320. Early Childhood Curriculum and Teaching. 3 Hours.
Provides basic knowledge of early childhood curriculum for programs serving preschool children in a variety of settings. Emphasizes the relationship of child growth and development in the planning and implementation of all areas of curriculum. Whole program overview. Extensive field experience required.

ECE 331. Creative Learning Expression: Young Child. 1-3 Hour.
Planning and implementation of activities in art, music, movement, and play considering growth patterns of individual child. Emphasis on preserving and maintaining creative expressions. Laboratory experiences. Extensive field experience required. Open access.

ECE 332. Literature for the Young Child. 3 Hours.
Literature suitable for young children (birth-age 8). Reading aloud, storytelling, and other planned experiences. Extensive field experience required. Open access.

ECE 334. Young Children: Family/School. 3 Hours.
Introduction and practicum in early childhood education. Programs, teaching opportunities, professional organizations and publications, trends, contemporary problems, parent involvement, and family relationships. Conducting parent conferences and using volunteers in classroom. Directed observation and participation with children in learning environment required. Extensive field experience required. Open access.

ECE 347. Language Experiences for the Young Child. 3 Hours.
Emphasizes the learning processes in language arts and effective teaching strategies for children birth to age five with particular focus on infants and toddlers. Open Access.

ECE 390. Practicum in Early Childhood Education. 1-6 Hour.
Supervised teaching in an early childhood program serving children ages birth to five. Assignments include participation, observation, planning and implementing lessons.
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 410. Organize Programs: Young Children. 3 Hours.
Trends, practices, and research in administration, organization, evaluation, and design of early childhood programs. Main focus NAEC Accreditation.

ECE 445. Young Children: Math/Science/Social Studies. 3-6 Hours.
Provides for development of concepts required for teaching mathematics, science, and social studies to young children. Emphasizes child growth and development as a basic for planning and teaching the three curricular areas in a variety of programs. Includes teaching methods and use of technology. Extensive field experience required.
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 446. Communication Arts/Reading: Young Child. 3-6 Hours.
Nature of reading and language arts experiences for pre-school children. Technology, materials, experiences, programs, strategies to facilitate development of communication abilities with emphasis on preserving and maintaining creative expression. Integration of learning in areas of listening, speaking, reading, composition, literature, handwriting, spelling and other communication arts. Extensive field experience required.
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 448. Infant/Toddler Development. 3 Hours.
The course covers the social-emotional, physical, cognitive, language, and creative development of infants and toddlers and the corresponding appropriate curriculum materials to support development. Extensive field experience required. Open access.

ECE 449. Education Environment: Infant/Parent. 3 Hours.
This course provides an overview of infant and toddler parenting programs. Topics include parent as child’s first teacher, teacher as parent educator, organization and management strategies for parent/child educational programming, parent involvement, and family literacy. Extensive field experience required. Open access.
Prerequisites: ECE 448 [Min Grade: C]

ECE 460. Current Topics in Early Childhood Education Assessment. 3 Hours.
In depth experiences in evaluating growth and development of children. Techniques for assessing needs, motivations, self-concept and achievements of children.
Prerequisites: ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]

ECE 490. Student Teaching in Early Childhood Education I. 9 Hours.
Supervised teaching in early childhood program (grades N-3).
Prerequisites: (ECE 320 [Min Grade: C] or EEC 301 [Min Grade: C]) and ECE 445 [Min Grade: C] and ECE 446 [Min Grade: C] and ECE 460 [Min Grade: C]
ECG 451. Issues/Helping Professions. 1-3 Hour.
Discussion of issues in the helping professions.

ECG 438. Interpersonal Skills Develop. 3 Hours.
Classroom lectures plus experiential, structured exercises in small groups for development of more effective interpersonal communication skills.

ECG 451. Issues/Helping Professions. 1-3 Hour.
Discussion of issues in the helping professions.

ECG 410. Sign Language I: Survival. 3 Hours.
Beginning course in manual communication. Finger spelling and language of signs to facilitate communication with individuals who have severe hearing impairments.

ECG 461. Sign Language II: Intermediate. 3 Hours.
Manual communication; signed English. Finger spelling and language of signs.
Prerequisites: ECG 460 [Min Grade: C]

ECG 462. Sign Language III: Advanced. 3 Hours.
American Sign Language. Syntax structure for more effective communication with adult deaf persons. Sign concept and concept transmission.
Prerequisites: ECG 461 [Min Grade: C]

ECG 463. Intro Interpreting for Deaf. 3 Hours.
Basic theories, principles, and practices of interpreting for deaf in general and specialized settings; guidelines appropriate in situational settings. Development of interpreting skills and manual communications skills.
Prerequisites: ECG 462 [Min Grade: C]

ECG 470. Crisis Intervention Techniques. 3 Hours.
Crisis counseling theory, applications of crisis intervention, and crisis situations.

ECG 474. Sem Death Dying and Bereav. 3 Hours.
Attitudes, beliefs, and response to death, dying, and bereavement. Multicultural perspective. Implications for counseling.

EDC-Art Education Courses

Courses
EDA 483. Methods of Teaching Art. 3 Hours.
Preparation to teach art in schools. Learning experiences necessary for development of essential teaching competencies. Materials and methods in art studio media, technology skills for art classroom, art history and criticism, and current issues in art education.

EDA 484. Methods of Teaching Art Laboratory. 1 Hour.
Observations in schools. Concurrent enrollment in EDA 483 required.

EDA 490. Student Teaching in Art N-12. 3-9 Hours.
Supervised student teaching in elementary and secondary art.

EDA 499. Internship Seminar in Art Educ. 1 Hour.
Problem solving related to situations such as classroom management, grading, professionalism and ethics, legal issues, and teacher’ s rights.

EDF-Foundations of Education Courses
Courses

EDF 361. Ethical Issues in Professional Practice. 3 Hours.
Examines professional ethics and legal issues related to teaching, student supervision, contractual obligation, conditions of employment, and other workplace issues related to conduct and practice in the field of public school teaching. Legal mandates and professional codes of ethics are analyzed. Also addressed are the development of professional judgment and of moral decision making abilities.

EDF 362. Foundations of Education I: Social, Historical, Philosophical. 3 Hours.
This course addresses the relationship among educators, schools, and society through seminars, field experiences in schools, and exposure to civic and community organizations. Historical and contemporary perspectives on political, economic, and social issues and problems in education, the role and value of diversity and equity in education, an introduction to professional ethics, and the importance of civic responsibility are significant components of this course.
Prerequisites: EDU 200 [Min Grade: C] (Can be taken Concurrently)

EDF 363. Special Topics in Education Foundations. 3 Hours.
Educational Foundations Special Topics. This course addresses a range of special topics related to educational foundations. Course design and focus will vary and may include service learning and study away formats.

EDH-Education Honors Courses

Courses

EDH 300. Classics in Education. 3 Hours.
This course is designed to provide students with an introduction to several significant classic texts in the field of education. It will also model for students skills for critically evaluating texts and their relevance to education broadly considered. It will also model for students literature review research. They will be guided in the process of writing an effective term paper.

EDH 491. Honors: Education Research. 1-3 Hour.
This course is designed to enhance students research and inquiry skills and professional orientation within a community of learners. Research project under supervision of faculty sponsor.

EDH 492. Honors: Educ Service Project. 1-3 Hour.
This course is designed to engage students in a school or community-based service project that will enrich students educational experiences and enhance the lives of the children or other constituents for whom the service is provided. Service project under supervision of faculty sponsor.

EDT-Educational Technology Courses

Courses

EDT 300. Teaching and Technology. 3 Hours.
Knowledge and skills of variety of microcomputer applications used in teaching; use of latest information technologies to access available resources on campus, Internet, and e-mail.

EDT 440. Workshops in Education: Technology Issues. 1-3 Hour.
This course focuses on current issues, trends, and techniques related to teaching with technology. Topics include emerging education technologies, innovative technology integration, virtual reality in the classroom, differentiation and personalization with technology, & digital citizenship.

EDU-Education Courses

Courses

EDU 100. Touch the Future. 2-3 Hours.
Introduction to education for students with the intent to be teachers and students entering professions where a degree in education would be beneficial. Students own experiences will be used as input for developing habits of mind and dispositions necessary for success in the field of education. Required for entering freshmen education majors.

EDU 200. Education as a Profession. 3 Hours.
Formal introduction to the Teacher Education Program (TEP). Using writing and discussion, the class provides a clear and realistic understanding of issues involved in choosing education as a career. Writing is a significant component of this course.

EDU 210. Writing and Speaking Skills for the Education Professional. 3 Hours.
Development of essential writing and speaking skills required for successful education practice. Writing is a significant component of this course.

EDU 200. Education as a Profession. 3 Hours.
Formal introduction to the Teacher Education Program (TEP). Using writing and discussion, the class provides a clear and realistic understanding of issues involved in choosing education as a career. Writing is a significant component of this course.

EDU 425. Stem Applications for the Classroom. 1 Hour.
This course will familiarize teacher candidates with STEM applications in the classroom, including state initiatives such as Alabama Math and Science Initiative (AMSTI).
EDU 481. Student Teaching: Early Childhood and Elementary Education. 9 Hours.
Supervised teaching experience in an inclusive collaborative/elementary school setting providing instruction to elementary students with high and low incidence disabilities. Completion of all coursework on Elementary/Elementary/Cooperative Teaching: K-6 Checklists and Permission of advisor required.

EE-Electrical & Computer Egr Courses

Courses

EE 011. Coop/Internship in EE. 0 Hours.
Engineering workplace experience in preparation for the student's intended career.

EE 210. Digital Logic. 3 Hours.
Number systems and codes. Boolean algebra and combinational logic. Arithmetic and logic circuits. Memory elements. Synchronous sequential logic. Lecture and computer laboratory.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently)

EE 233. Engineering Programming Methods. 3 Hours.
Program design techniques, data structures, coding and documentation standards. File I/O. Product design and life cycles. Testing and software tools. Lecture and computer laboratory.
Prerequisites: (MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] (Can be taken Concurrently) or MA 225 [Min Grade: C] (Can be taken Concurrently) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

EE 254. Applied Numerical Methods. 3 Hours.
Selected mathematical and computational topics appropriate to the numerical solution of engineering problems.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: D]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

EE 300. Engineering Problem Solving II. 3 Hours.
Selected mathematical and computational topics appropriate to the solution of engineering problems, including probability and statistics.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C])

EE 305. Fundamentals of Electrical Engineering. 3 Hours.
Survey of topics fundamental to field of electrical engineering. For non-engineering majors. Not available for credit toward engineering major.
Prerequisites: MA 109 [Min Grade: C]

EE 312. Electrical Systems. 3 Hours.
Introduction to DC circuit analysis, AC steady-state analysis, first-order transient analysis, ideal transformers, and electrical safety. For non-EE majors.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C]

EE 314. Electrical Circuits. 3 Hours.
Introduction to DC circuit analysis, AC steady-state analysis, first-order transient analysis, and electrical safety. For EE Majors.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C]

EE 314R. Electrical Circuits Recitation. 0 Hours.
An application based course designed to reinforce concepts from EE 314.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C]

EE 316. Electrical Networks. 4 Hours.
Analysis of circuits using classical differential/integral techniques, Laplace transforms, and two-port network parameters. Circuit solution using simulation. EE 316L must be taken concurrently. Quantitative Literacy is a significant component of this course.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C] (Can be taken Concurrently) and EH 101 [Min Grade: C] and PH 222 [Min Grade: C] and EE 314 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C])

EE 316L. Electrical Networks Laboratory. 0 Hours.
Electrical Networks laboratory component. EE 316 must be taken concurrently.

EE 318. Signals and Systems. 3 Hours.
Time-domain and frequency-domain methods for modeling and analyzing continuous and discrete-time signals and systems. Fourier, Laplace, and Z transform methods.
Prerequisites: EE 300 [Min Grade: D] and EE 316 [Min Grade: C]

EE 333. Engineering Programming Using Objects. 3 Hours.
Software development emphasizing object-oriented methods. Design and develop programs using existing classes and newly created classes. A graphical user interface framework will be used as extensive example of Object Oriented System. Develop skills in project management, written and oral communication, teams, and an introduction to ethics and intellectual property issues.
Prerequisites: EE 233 [Min Grade: D]

EE 337. Introduction to Microprocessors. 4 Hours.
Application of microcomputers to engineering problems such as data acquisition and control. Topics include CPU architecture, assembly language, and input/output interfacing. EE 337L must be taken concurrently.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D]

EE 337L. Introduction to Microprocessors Laboratory. 0 Hours.
Introduction to Microprocessors laboratory component. EE 337 must be taken concurrently.

EE 341. Electromagnetics. 3 Hours.
Mathematical techniques used to solve electromagnetics problems. Fundamental concepts and applications for dynamic and static problems. Electromagnetic wave propagation and transmission. Transmission lines.
Prerequisites: EE 300 [Min Grade: D] (Can be taken Concurrently) and EE 316 [Min Grade: C]

EE 351. Electronics. 4 Hours.
Solid-state electronics, bipolar junction and field-effect transistor (FET) properties, biasing, frequency response, single and multistage amplifier circuits. EE 351L must be taken concurrently.
Prerequisites: EE 210 [Min Grade: C] and EE 316 [Min Grade: C]
EE 351L. Electronics Laboratory. 0 Hours.
Electronics laboratory component. EE 351 must be taken concurrently.

EE 361. Machinery I. 4 Hours.
Fundamentals and applications of polyphase circuits, magnetic circuits, transformers, polyphase synchronous and asynchronous machines. EE 361L must be taken concurrently.
Prerequisites: EE 316 [Min Grade: C] and PH 222 [Min Grade: D]

EE 361L. Machinery I Laboratory. 0 Hours.
Machinery I laboratory component. EE 361 must be taken concurrently.

EE 412. Practical Computer Vision. 3 Hours.
Fundamentals and applications of computer vision: image preprocessing, detection, segmentation, registration, classification and recognition, texture and color, visual tracking.
Prerequisites: EGR 150 [Min Grade: C] and EE 318 [Min Grade: D]

EE 418. Wireless Communications. 3 Hours.
Wireless communication system topics such as propagation, modulation techniques, multiple access techniques, channel coding, speech and video coding, and wireless computer networks.
Prerequisites: EE 316 [Min Grade: D]

EE 421. Communication Systems. 3 Hours.
Prerequisites: EE 318 [Min Grade: D]

EE 423. Digital Signal Processing. 3 Hours.
Digital filter analysis and design. FFT algorithms. Applications of digital signal processing in engineering problems such as data acquisition and control. Lecture and computer laboratory.
Prerequisites: EE 318 [Min Grade: D]

EE 426. Control Systems. 3 Hours.
Prerequisites: EE 318 [Min Grade: D]

EE 427. Controls and Automation. 3 Hours.
Power control devices and applications. Relay logic and translation to other forms. Programmable logic controllers. Proportional-integral-derivative and other methods for process control. Modern laboratory instrumentation and man-machine interface software. Lecture and laboratory.
Prerequisites: EE 233 [Min Grade: D] and (EE 312 [Min Grade: C] or EE 314 [Min Grade: C]) and EE 316 [Min Grade: C] and EE 318 [Min Grade: D] and EE 351 [Min Grade: D] and (EGR 150 [Min Grade: C] or EE 130 [Min Grade: C] or ME 130 [Min Grade: C] or EE 134 [Min Grade: C])

EE 431. Analog Integrated Electronics. 4 Hours.
Advanced analysis and design using op-amps, with emphasis on error analysis and compensation. Applications include signal conditioning for instrumentation, instrumentation amplifiers, nonlinear and computational circuits, Butterworth and Chebyshev filter design, power amplifier design, voltage regulator design, and oscillators. A-to-D and D-to-A conversion methods. Laboratory exercises emphasize design techniques. Lecture and laboratory.
Prerequisites: EE 210 [Min Grade: C] and EE 318 [Min Grade: D] (Can be taken Concurrently) and EE 351 [Min Grade: D]

EE 432. Introduction to Computer Networking. 3 Hours.
Computer networking and engineering standards related to networking. Networking hardware, software, and protocols including TCP/IP protocol suite. Internetworking, LANs, and typical applications.
Prerequisites: EE 233 [Min Grade: D]

EE 433. Engineering Software Solutions. 3 Hours.
Project planning, specification, design, implementation, and testing of software solutions for engineers. Waterfall model of development and agile development methods. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D] and EE 333 [Min Grade: D] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or EE 130 [Min Grade: C] or ME 130 [Min Grade: C] or EE 134 [Min Grade: C])

EE 434. Power Semiconductor Electronics. 3 Hours.
Fundamentals of integrated circuit design for radio-frequency and power converter circuits. Course contents include basics of RF circuit theory, matching networks, high frequency MOS model, low-noise-amplifier, voltage controlled oscillator, fundamentals of power electronics, power semiconductor switches, steady-state equivalent circuit modeling, DC transformer model, basic AC equivalent circuit modeling, linearization and perturbation, etc. Students will require accomplishing a computer aided design, simulation and chip layout of an integrated circuit design project.
Prerequisites: EE 316 [Min Grade: C] and EE 318 [Min Grade: D] and EE 351 [Min Grade: D]

EE 437. Introduction to Embedded Systems. 3 Hours.
Applications of microprocessors in engineering problems such as data acquisition, control, and real-time input/output. Lecture and laboratory.
Prerequisites: BME 150 [Min Grade: C] or EGR 150 [Min Grade: C] or EE 130 [Min Grade: C] or ME 130 [Min Grade: C] and EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 438. Computer Architecture. 3 Hours.
Advanced microprocessor topics including cache design, pipelining, superscalar architecture, design of control units, microcoding, and parallel processors. Comparison of advanced, contemporary microprocessors from Intel and IBM. EE 337 (Introduction to Microprocessors) is a recommended prerequisite for this course.
Prerequisites: EE 210 [Min Grade: C] and EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 444. Real-Time Process & Protocols. 3 Hours.
Hands-on laboratory course covering topics in real-time computer systems such as algorithms, state-machine implementations, communication protocols, instrumentation, and hardware interfaces.
Prerequisites: EE 233 [Min Grade: D] and EE 337 [Min Grade: D]

EE 447. Internet/Intranet Application Development. 3 Hours.
Development of models and applications using Internet/Intranet technologies such as JavaScript, Dynamic HTML, server side scripting, multi-tier models, and XML. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D]

EE 448. Software Engineering Projects. 3 Hours.
Object-oriented concepts and design. Unified Modeling Language and design patterns. Provides a project environment for implementation of systems using object-oriented techniques. Lecture and computer laboratory.
Prerequisites: EE 233 [Min Grade: D] and EE 333 [Min Grade: D]

EE 452. Digital Systems Design. 3 Hours.
Digital system design, verification, and simulation using VHDL. Lecture and laboratory.
Prerequisites: EE 337 [Min Grade: D]
EE 458. Medical Instrumentation. 3 Hours.
Fundamental operating principles, applications, and design of electronic instrumentation used in measurement of physiological parameters.
Prerequisites: EE 351 [Min Grade: D]

EE 461. Machinery II. 3 Hours.
Physical principles of DC machines. Mathematical analysis of generator designs using equivalent circuits and magnetization curves. Calculation of motor speed, torque, power, efficiency, and starting requirements. Solid-state speed control systems.
Prerequisites: EE 361 [Min Grade: D]

EE 471. Power Systems I. 3 Hours.
Components of power systems. Performance of modern interconnected power systems under normal and abnormal conditions. Calculation of inductive and capacitive reactances of three-phase transmission lines in steady state.
Prerequisites: EE 361 [Min Grade: D]

EE 472. Power Systems II. 3 Hours.
Prerequisites: EE 471 [Min Grade: D]

EE 473. Protective Relaying of Power Systems. 3 Hours.
Operating principles of protective relays. Protection of transmission lines, generators, motors, transformers, and buses.
Prerequisites: EE 361 [Min Grade: D]

EE 485. Engineering Operations. 3 Hours.
Economic, procedural, planning, and control aspects of engineering projects. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: (EGR 111 [Min Grade: C] or EGR 200 [Min Grade: C]) and EE 210 [Min Grade: C] and (EE 314 [Min Grade: C] or EE 312 [Min Grade: C])

EE 489. Undergraduate Engineering Research. 0 Hours.
Undergraduate research experiences in electrical engineering.
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C] or EGR 200 [Min Grade: C]) and (EE 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C](Can be taken Concurrently)

EE 490. Special Topics in (Area). 3 Hours.
Topic assigned with course.

EE 491. Special Problems in (Area). 3 Hours.
Topic assigned with course.

EE 492. Honors Research I. 4 Hours.
Departmental honors students work closely with faculty to develop research skills.
Prerequisites: EGR 301 [Min Grade: P](Can be taken Concurrently)

EE 493. Honors Research II. 4 Hours.
Departmental honors students work closely with faculty to develop research skills.
Prerequisites: EGR 301 [Min Grade: P]

EE 498. Team Design Project I. 3 Hours.
Senior Design Team Project Course Part I. Analysis and design of assigned team project, including design review and documentation. Must have an approved Application for Degree on file and must be in final year of his/her program.
Prerequisites: EE 318 [Min Grade: D] and EE 337 [Min Grade: D] and EE 485 [Min Grade: D](Can be taken Concurrently) and EE 351 [Min Grade: D](Can be taken Concurrently)

EE 499. Team Design Project II. 3 Hours.
Senior Design Team Project Course Part II. Capstone design project: design and implementation of assigned team project, including design review, demonstration, and documentation. Must have an approved Application for Degree on file and must be in final year of his/her program.
Prerequisites: EE 498 [Min Grade: D] and EE 333 [Min Grade: D](Can be taken Concurrently) and EE 341 [Min Grade: D](Can be taken Concurrently) and EE 361 [Min Grade: D](Can be taken Concurrently) and EE 421 [Min Grade: D](Can be taken Concurrently) and EE 426 [Min Grade: D](Can be taken Concurrently) and EE 431 [Min Grade: D](Can be taken Concurrently)

EEC-Elem & Early Childhood Courses

Courses

Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on children's growth. Early childhood (birth-6 years). Includes field experiences.

Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on children's growth. Middle childhood (6-12 years). Includes field experiences.

EEC 300. Child Development/Family Relationships. 3-4 Hours.
Interrelationships of physical, emotional, intellectual, and social development, and influence of home, school, and social environments on human growth from conception through adolescent years. Extensive field experience required.
Prerequisites: EDU 200 [Min Grade: C]

EEC 301. Introduction to P-6 Education. 3 Hours.
Basic knowledge of early childhood and elementary school curricula in variety of settings from infancy programs through elementary school. Theories and practical approaches to teaching and to curriculum development; relationship between child growth and development and areas of curriculum. Observation in early childhood and elementary programs required. Extensive field experience required.
Prerequisites: EDU 200 [Min Grade: C]

EEC 302. Expressive Arts (P-6). 1 Hour.
Creativity through numerous experiences in music, theatre, dance, and visual arts. Experiences correlate with literary skills, critical thinking skills, symbols, and images that can be directly applied to both teacher-centered and child-centered methods of teaching. Extensive field experience required.

EEC 402. Primary Math Methods. 3 Hours.
A math methods course focusing on emergent mathematical concepts for young children. Extensive field experience required.
EEC 405. Children’s Literature in Early Childhood and Elementary Education. 3 Hours.

EEC 406. Language Arts in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Communication-based approach in developing effective language arts program. All aspects of language arts program addressed. Extensive field experience required.

EEC 411. Discipline and Classroom Management. 3 Hours.
Theoretical and practical application of various theories of discipline. Development of skills in management of student behavior and classroom environment.

EEC 412. Math in Early Childhood and Elementary Education. 3 Hours.
Materials and methods. Scope, sequence, and content of mathematics program. Computational skills and problem solving. Field experiences required.
Prerequisites: EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

EEC 413. Science in Early Childhood and Elementary Education. 1-3 Hour.
Materials and methods. Scope, sequence, and content of science program. Inquiry, science process skills, and concept development. Extensive field experience required.
Prerequisites: EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

EEC 414. Social Studies in Early Childhood and Elementary Education. 1-3 Hour.
Materials and methods. Scope, sequence, and content of social studies curriculum. Teaching strategies, program articulation, and instructional planning. Extensive field experience required.
Prerequisites: EEC 406 [Min Grade: C] and EDR 440 [Min Grade: C] and EEC 402 [Min Grade: C]

EEC 415. Learning Environments through Positive Behavior Support. 1-3 Hour.
Theoretical approaches that focus on child centered curriculum, classroom management, discipline strategies and cultural, linguistic, and developmentally appropriate instruction. Extensive field experience required.

EEC 440. Workshop in Education: Strategies for English Learners. 1-6 Hour.
Strengthen proficiency in teaching English learners in the mainstream classroom. Develop understanding of second language acquisition, culturally responsive teaching, accommodations for varying language levels, and appropriate assessments for English learners. Practice family planning, implementing, and managing sheltered instructions.

EEC 460. Current Topics in Elementary and Early Childhood Education. 3-6 Hours.
Topics vary. May be repeated for maximum of six hours of differing topics. Open Access.

EEC 465. Teaching Globe and Map Skills. 3 Hours.
Concepts and skills related to understanding functional use of globes and maps. Strategies and methods for teaching concepts and skills to children. Curriculum scope, sequence, continuity, and application within social studies program. Materials and resources for teaching.

EEC 490. Internship in P-3/3-6. 9 Hours.
Supervised capstone teaching experience in early childhood (P-3) and elementary (K-6) program. Gradual assumption of responsibility for planning and teaching for the entire class (minimum of 12 weeks). Supervision in working with resource professionals and parents.

EEC 491. Internship Seminar in P-6 Education. 1-3 Hour.
Supports and extends efforts of student teaching. Problem solving related to classroom situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

EEC 492. Individual Curriculum Project: Area Specific. 3-6 Hours.
Field projects in curriculum modification and improvement of classroom practice. Permission of instructor required.

EEC 493. Individual Readings. 1-3 Hour.
Individualized readings on special topics. Permission of instructor required.

EEC 494. Field Work in Early Childhood and Elementary Education. 2 Hours.
Observation and participation experiences with children.

EGR-Engineering Courses

Courses

EGR 110. Introduction to Engineering I. 1 Hour.
Introduction to engineering as a profession, ethics and safety, engineering specialties, educational requirements, and team work; and present and future societal demands on profession. This is the first course in a two-course sequence for first-year students.
Prerequisites: MA 105 [Min Grade: C](Can be taken Concurrently) or MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be taken Concurrently)

EGR 111. Introduction to Engineering II. 1 Hour.
Introduction to engineering specialties; career opportunities in engineering; introduction to engineering design, technical communication, and team work; and present and future societal demands on profession. This is the second course in a two-course sequence for first-year students.
Prerequisites: EGR 110 [Min Grade: C]

EGR 125R. Engineering Applications of Calculus I. 1 Hour.
An application based course designed to reinforce concepts from MA 125.

EGR 126R. Engineering Applications of Calculus II. 1 Hour.
An application based course designed to reinforce concepts from MA 126.

EGR 150. Computer Methods in Engineering. 3 Hours.
An introduction to engineering computation using MATLAB language and Excel. Basic programming skills using built-in functions is emphasized. Generation and manipulation of vectors and matrices, operations on vectors/matrices, plotting, iterations calculations. If/else and other logical constructs, and data input/output are covered. Engineering applications are used throughout the course.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C](Can be taken Concurrently)
EGR 197. Engineering Approaches to Problem Solving I. 1-3 Hour.
EGR 197 offers an introduction to a rationally developed method of solving practical problems. This is engineering. Starting with the ancient Greeks, who initiated reasoned speculation, and the Romans, who made practical use of it, the course develops an understanding of why we approach problems the way we do.

EGR 198. Engineering Approaches to Problem Solving II. 1-3 Hour.
Building on engineering principles, focus on the engineering process. Develop and practice good communication, collaboration and presentation skills. Explore interdisciplinary approaches through hands-on projects.

EGR 199. Engineering Approaches to Problem Solving III. 1-3 Hour.
EGR 199 builds on knowledge gained in EGR 197 and 198. While EGR 197 & 198 regarded the theories and practice of integrational engineering principles, this course focuses on innovation. The hows of creating new solutions to old problems will be explored.

EGR 200. Introduction to Engineering. 2 Hours.
Introduction to the profession of engineering, ethics and safety, engineering specialties, career opportunities, and educational requirements; introduction to engineering design, team work, and technical communication; and present and future societal demands on profession.

Prerequisites: (MA 102 [Min Grade: C] or MA 105 [Min Grade: C] (Can be taken Concurrently) or MA 106 [Min Grade: C] [Can be taken Concurrently]) or MA 107 [Min Grade: C] [Can be taken Concurrently] or MA 125 [Min Grade: C] [Can be taken Concurrently] or MA 225 [Min Grade: C] [Can be taken Concurrently]

EGR 265. Math Tools for Engineering Problem Solving. 4 Hours.
Designed to allow engineering majors to utilize the terminology and problem-solving approaches inherent to engineering, while completing their mathematical preparation.

Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

EGR 301. Honors Research I. 1 Hour.
Introduces students to research methodology, ethics, data analysis, and technical communication. Students must be invited into program in order to enroll.

Prerequisites: (MA 227 [Min Grade: C] or EGR 265 [Min Grade: C])

EGR 400. Special Topics in (Study Abroad). 0-9 Hours.
Independent studies in various subject and/or service areas outside the state of Alabama or the continental United States.

EGR 410. Engineering Service Learning in Education. 1-6 Hour.
Course provides students an opportunity to help students in K-12 to analyze and solve problems using engineering concepts and design process to engage and excite them about engineering, science, and technology.

EGR 420. Engineering in Service Learning through EiSAL. 0-6 Hours.
This course will allow engineering students the opportunity to communicate and live in other cultural environments, allowing them to share interdisciplinary engineering design and analysis in a real-world setting. It will also allow them the opportunity to work in multi-cultural groups to solve a common problem.

EGR 440. Social Responsibility in Global Health. 1 Hour.
This course provides students with an understanding of key social and economic concepts of global health that, together with an understanding of interprofessional collaboration and community partnerships, will enable them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the interprofessional global health service learning program at the University of Alabama at Birmingham.

EGR 442. EGR Service Learning in Intropofessional Global Health Service Learning I: Project Planning. 1 Hour.
This course provides students with an opportunity to apply principles of interprofessional collaboration, community partnerships, and global health in the development of a plan to address a global health problem in collaboration with a community partner. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the global health service learning program at the University of Alabama at Birmingham.

EGR 450. Engineering Service Learning: Teaching Experiences. 1 Hour.
This course provides engineering students the opportunity to assist engineering faculty and fellow students in a tutorial environment by serving as teaching assistants in engineering service courses.

EGR 481. Interdisciplinary Project Lab. 3 Hours.
Multidisciplinary student teams (engineering, business, arts) engineer devices based on client needs. The project team will collaborate with the client to establish an appropriate engineering design to meet user needs. Students are trained in product development, product design, engineering validation and will develop training and documentation market analysis, business plan and a go-to-market strategy as appropriate for the project.

Prerequisites: (ME 102 [Min Grade: C] and ME 210 [Min Grade: C] and EE 322 [Min Grade: C]) or CE 360 [Min Grade: C] or ME 371 [Min Grade: C] and EE 337 [Min Grade: C] or EE 351 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 371 [Min Grade: C]) or MSE 281 [Min Grade: D]

EGR 490. Special Topics in (Area). 0-6 Hours.
Special Topics in engineering.

EGR 499. Industrial Distribution Senior Design Project. 4 Hours.
Capstone design project: interdisciplinary design teams, ethics, materials selection, the design process, development of a proposal, project planning and scheduling, project execution and resource scheduling. Successful completion and oral defense of a design project. Limited to students majoring in Industrial Distribution.

EH-English Courses
Courses

EH 091. Introduction to College English. 5 Hours.
Focuses on connections between reading and writing, especially as they relate to a writer's purpose and development of academic writing. Includes review of grammar, punctuation, and usage, with emphasis on editing skills and writing effective paragraphs and expository essays. Required for students who score below 20 on the English or Reading portions of the ACT test. Prepares students for EH 101; may not be used for fulfillment of any degree requirement.

EH 096L. Introduction to Freshman Writing I. 3 Hours.
EH 096L provides individualized, hands-on support to students in EH 106 through writing studio sessions with their EH 106 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 106. Students must pass EH 096L in order to make a C or above in EH 106.

EH 097L. Introduction to Freshman Writing II. 2 Hours.
EH 097L provides individualized, hands-on support to students in EH 107 through writing studio sessions with their EH 107 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 107. Students must pass EH 097L in order to make a C or above in EH 107. Prerequisites: EH 106 [Min Grade: C] and EH 096L [Min Grade: P]

EH 101. English Composition I. 3 Hours.
Process and final product of expository and analytical essays. Research and documentation required on most essays. Students must receive grade of C or higher in EH 101 and 102 to complete Core Curriculum requirement in English language. (Also see CLEP examinations and AP examinations.) Prerequisites: EH 091 [Min Grade: C] or (A01 20 and A03 20) or (S01 480 or SATR 26) or (EHWS 29 and EHRS 18) or (TCW 23 or TIW 23) or IEW 6.5

EH 102. English Composition II. 3 Hours.
Process and final product of argumentative essays. Research and documentation required on most essays. Students must receive grade of C or higher in EH 101 or EH 102 to complete Core Curriculum requirement in English Language. (Also see CLEP examinations and AP examinations.) Prerequisites: EH 101 [Min Grade: C]

EH 105. Ada Long Creative Writing Workshop. 1 Hour.
Introductory course in creative writing for high school students with demonstrated creative writing abilities.

EH 106. Introduction to Freshman Writing I. 3 Hours.
EH 106 provides a hands-on, individualized study of expository and analytical writing, including developing strong processes of drafting, revising and editing. Co-requisite with EH 096L. EH 106 and EH 096L are required for students who score below 20 on the English or Reading portions of the ACT test. Students must receive grade of C or higher in EH 106 and grade P for EH 096L and grade of C or higher in EH 107 and grade P for EH 097L to complete Core Curriculum in English Language. (Also see CLEP examinations and AP examinations.) Prerequisites: EH 101 [Min Grade: C] and EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 107. Introduction to Freshman Writing II. 3 Hours.
EH 107 provides a hands-on, individualized study of research, academic writing, and argumentation, including developing strong processes of drafting, revising and editing. Co-requisite with EH 097L. EH 107 and EH 097L are required for students who score below 20 on the English or Reading portions of the ACT test. Students must receive grade of C or higher in EH 106 and grade P for EH 096L and grade of C or higher in EH 107 and grade P for EH 097L to complete Core Curriculum in English Language. (Also see CLEP examinations and AP examinations.) Prerequisites: EH 106 [Min Grade: C] and EH 096L [Min Grade: P]

EH 107L. Introduction to Freshman Writing II–Lab. 2 Hours.
EH 107L provides individualized, hands-on support to students in EH 107 through writing studio sessions with their EH 107 instructor and tutors in the University Writing Center. Graded pass/fail. Co-requisite with EH 107. Students must pass EH 107L in order to make a C or above in EH 107. Prerequisites: EH 106 [Min Grade: C] and EH 107L [Min Grade: P]

EH 108. English Composition I for Second Language Writers. 3 Hours.
Process and final product of expository and analytical essays with support for second language writers. Research and documentation required on most essays. Students must receive grade of C or higher in EH 108 and 109 to complete core curriculum requirement in English language. (Also see CLEP examinations and AP examinations.) Prerequisites: IEW 5.5 or TIW 16 or TCW 16

EH 109. English Composition II for Second Language Writers. 3 Hours.
Process and final product of argumentative essays with support for second language writers. Research and documentation required on most essays. Students must receive grade of C or higher in EH 108 and EH 109 to complete Core Curriculum requirement in English Language. (Also see CLEP examinations and AP examinations.) Prerequisites: EH 108 [Min Grade: C]

EH 202. English Composition II: Scientific and Technical Communication. 3 Hours.
This course will be paired with EH 102, enrolling students from the Science and Technology Honors Program who have already completed (or received credit for) EH 102. In addition to covering material required for all sections of EH 102, this course introduces students to the specific rhetorical elements of scientific and technical discourse. Prerequisites: EH 101 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

EH 203. Writing in Birmingham. 3 Hours.
Improvement of skills for public writing, using Birmingham as geographical, historical, and institutional context. Emphasis on issues related to Birmingham's past and present, including the ethics and civic responsibilities of Birmingham residents. Ethics and Civic Responsibility and Writing are significant components of this course. Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 205. Introduction to Creative Writing. 3 Hours.
An introduction to the writing of fiction, poetry, and the creative essay. Emphasis on fundamentals of writing creatively, with students producing original work in each of the three genres. Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 210. Interpreting Film. 3 Hours.
Introduction to film analysis, surveying the language of film, the structure of film narrative, major genres, and the relationship between film and its social context. Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
EH 212. Forms of Literature. 3 Hours.
Study of literary forms and genres such as poems, short stories, novels, plays, films, and other kinds of literature. Emphasis on techniques of each form. Writing is a significant component of this course. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 213. Ideas in Literature. 3 Hours.
Investigation of an idea or theme as it appears in a diverse set of literary works. Themes vary by section; consult the English Department website for a list of section themes. Emphasis on the ways in which works of literature engage with and interrogate broader cultural ideas. Writing is a significant component of this course. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 214. Introduction to Literature: Special Topics. 3 Hours.
Study of an individual author, a specific genre, or an important literary movement. Selections will vary according to instructor. Writing is a significant component of this course. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 216. Introduction to Literature. 3 Hours.
Short stories, novellas, poems, and plays from variety of historical periods and cultures. Emphasis on techniques of each genre. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 217. World Literature I: Before 1660. 3 Hours.
World literature before 1660. Emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 218. World Literature II: 1660-Present. 3 Hours.
World literature since 1660. Emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 221. British and Irish Literature I: Before 1800. 3 Hours.
British/Irish literature from Anglo-Saxon period to end of eighteenth century with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 222. British and Irish Literature II: 1800-Present. 3 Hours.
British/Irish literature from end of eighteenth century into twentieth century with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 223. American Literature I: Before 1865. 3 Hours.
American literature from 1620 to 1865 with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 224. American Literature II: 1865-Present. 3 Hours.
American literature 1865 to present with emphasis on writing and literary analysis. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Literature. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 300. Engineering Communication. 2 Hours.
Introduces engineering students to the theory and practice of communicating effectively in various organizational contexts. Subjects covered include managing and producing professional reports, proposals, and feasibility studies; communicating ethically in the workplace; and presenting ideas to multiple audiences in written and oral formats. Required for most undergraduate engineering majors. 
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C]) or EGR 200 [Min Grade: C] or EGR 100 [Min Grade: C] and (EH 102 [Min Grade: C] or EH 107 [Min Grade: C])

EH 301. Reading, Writing, and Research for Literature Classes. 3 Hours.
Designed to improve skills for critical writing about literary texts. Strong emphasis on analytical thinking and on the ethics of argumentation. Required for English majors; recommended prior to taking 400-level courses. 
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 302. Intermediate Writing. 3 Hours.
This course is designed for non-English majors who wish to improve the quality of their writing. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 303. Advanced Composition. 3 Hours.
Improvement of skills for academic and public writing, focusing on analysis and critique. Writing is a significant component of this course. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 304. Editing in Professional Contexts. 3 Hours.
Theory and practice of editorial/rhetorical concerns throughout writing process, particularly as related to professional contexts. Writing is a significant component of this course. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 305. Beginning Poetry Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 307. Beginning Creative Nonfiction Writing Workshop. 3 Hours.
Seminar teaching fundamentals for beginners; emphasis on techniques and style through readings and student's own writing. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 308. Beginning Fiction Writing Workshop. 3 Hours.
Fundamentals for beginners; emphasis on techniques and style through readings and student's own writing. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 311. English Internship. 3 Hours.
On-campus and off-campus training positions in fields utilizing language and writing skills, with some positions offering external funding. Students should contact the Director of Internships to discuss available positions and application procedures. May be counted as elective only in professional writing concentration and writing minor with approval of the Undergraduate Director. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 315. Introduction to Professional Writing. 3 Hours.
Introduces students to professional writing as a discipline and teaches them to compose professional documents. Recommended prior to taking 400-level courses. 
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
EH 318. Science Fiction. 3 Hours.
Modern science fiction, including novels and short stories by Asimov, Heinlein, LeGuin, and others.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 324. African-American Special Topics. 3 Hours.
See Class Schedule for Topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 326. Pre-1800 Literature: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 327. Post-1800 Literature: Special Topics. 3 Hours.
See Class Schedule for Topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 328. English Elective: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 329. Literature of the Vikings. 3 Hours.
Old Norse mythology, poetry, and sagas in translation. Background for Beowulf.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 330. Professional Writing: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.

EH 332. Public Discourse: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.

EH 339. Twentieth Century Theater. 3 Hours.
Study of major works in 20th century drama.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 340. Developing Digital Documents. 3 Hours.
Provides students the opportunity to plan, write, and design documents using computer aided publishing technologies.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 350. Introduction to Linguistics. 3 Hours.
Introduction to the scientific study of language with a main focus on principles underlying phonology morphology, syntax and semantics. Relationship between language and society, psycholinguistics and language typology may also be addressed.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 351. Structure of English. 3 Hours.
Description and analysis of present-day English grammar with particular attention paid to the structure of phrases, clauses and sentences, including parts of speech, coordination, subordination, tense, aspect, voice, grammatical functions, agreement and clause types.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 352. The Structure of English Words. 3 Hours.
Introduction to English vocabulary elements and word formation, including topics in history of English and sound patterns as these topics relate to word formation. Does not count as literature for Core Curriculum requirement.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 355. Introduction to Sociolinguistics. 3 Hours.
Social factors that play role in language usage and learning; emphasis on American English.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 356. Semantics. 3 Hours.
Meaning in language with reference to questions of synonymy, ambiguity, and language use.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 360. Phonology. 3 Hours.
Sound patterning of languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 365. African American Literature, 1746-1954. 3 Hours.
Cultural values from colonial writer Lucy Terry, through slavery and emancipation, to Ralph Ellison and writers of early 1950s. Emphasis on role of diversity and how historical issues of race relate to modern contexts. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 366. African American Literature, 1954-Present. 3 Hours.
Cultural values from James Baldwin in 1950s, through black nationalist, civil rights, and black feminist movements, to contemporary writers such as Ishmael Reed, Charles Johnson, and Toni Morrison. Emphasis on role of diversity and how historical issues of race relate to modern contexts. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 367. Southern Literature. 3 Hours.
Literature of American South: Faulkner, Jefferson, Douglass, Chopin, O'Connor, and others.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 369. The American Dream. 3 Hours.
Literature expressing values and ideals of American people from Hawthorne and Thoreau to Richard Wright and Adrienne Rich.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 376. Shakespeare. 3 Hours.
Five or six plays: one history, one comedy, three major tragedies. Intensive study of two or more tragedies.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 389. Bible as Literature. 3 Hours.
Cultural values from colonial writer Lucy Terry, through slavery and emancipation, to Ralph Ellison and writers of early 1950s. Emphasis on role of diversity and how historical issues of race relate to modern contexts. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]
EH 393. Special Topics in Linguistics. 3 Hours.
See class schedule for topic.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 401. Tutoring Writing. 3 Hours.
Seminar focusing on the improvement of writing skills through understanding theories of tutoring. Preparation of future teachers for tutor training and writing center development. Writing is a significant component of this course.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C] or EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C]

EH 402. Writing in Popular Periodicals. 3 Hours.
Current theory regarding production, distribution, and consumption of popular periodicals, with extensive practice contributing to these sources. Writing is a significant component of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 403. Business Writing. 3 Hours.
Advanced writing course focusing on writing clearly and ethically in professional business contexts, with particular emphasis on memos, letters, resumes, and reports. Writing, Ethics and Civic Responsibility are significant components of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 204 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 404. Technical Writing. 3 Hours.
Advanced writing concentrating on short informal and long formal reports. Quantitative literacy is a significant component of the course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 405. Poetry Writing Workshop (Seminar). 3 Hours.
Intermediate poetry seminar conducted through critique of student writing.
Prerequisites: EH 305 [Min Grade: C] or EH 306 [Min Grade: C]

EH 407. Creative Nonfiction Writing Workshop (Seminar). 3 Hours.
Intermediate creative nonfiction seminar conducted through critique of student writing.
Prerequisites: EH 307 [Min Grade: C] or EH 308 [Min Grade: C]

EH 409. Fiction Writing Workshop (Seminar). 3 Hours.
Intermediate prose fiction seminar conducted through critique of student writing.
Prerequisites: EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 411. Capstone Internship. 3 Hours.
This course is available to qualified English majors who wish to apply their knowledge and skills to a work setting. Students will fulfill the requirements for a university capstone course by reflecting on the applicability of disciplinary knowledge to internship responsibilities. Students should contact the Director of Internships to discuss available positions and application procedures.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 411L. Lab Section for Capstone Internship. 0 Hours.
Lab to supplement the Capstone Internship.

EH 412. Forms of Poetry Writing Workshop. 3 Hours.
Study of prosody and works of major formalist poets. Includes writing poems in received forms and modes and critiquing those in workshop setting.
Prerequisites: EH 405 [Min Grade: C] or EH 406 [Min Grade: C]

EH 413. Forms of Creative Nonfiction. 3 Hours.
Intensive study of one or more major nonfiction forms such as memoir, essay, or literary journalism. Includes writing nonfiction forms and critiquing them in a workshop setting.
Prerequisites: EH 407 [Min Grade: C] or EH 408 [Min Grade: C] or EH 409 [Min Grade: C] or EH 410 [Min Grade: C]

EH 414. Modern British and European Drama. 3 Hours.
Techniques and problems of modern European drama: Ibsen, Shaw, Chekhov, Synge, Pirandello, Brecht, Beckett, and others.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 415. Forms of Fiction. 3 Hours.
Intensive study of one or more aspects of fiction. Includes writing and critique in a workshop setting.
Prerequisites: EH 407 [Min Grade: C] (Can be taken Concurrently) or EH 408 [Min Grade: C] or EH 409 [Min Grade: C] or EH 410 [Min Grade: C]

EH 416. Modern American Poetry. 3 Hours.
Selections from Frost, Stein, Stevens, Pound, Eliot, Williams, Doolittle, Jeffers, Moore, McKay, Loy, Toomer, Crane, Hughes, and others.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 419. Young Adult Literature. 3 Hours.
Close reading of young adult literature and study of its form and history, its assumptions about adolescent psychology, and its literary relationship to the traditional canon.
Prerequisites: EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 420. World Literature. 3 Hours.
Selections in translation from Greek, Roman, and Hebrew classics, other literature, and oral tradition.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 421. World Literature. 3 Hours.
Selections in translation from European, African, and South American writers.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 422. African Literature. 3 Hours.
Selected novels, short stories, autobiographies, folk tales, drama, essays, films, songs from pre-colonial Africa to the present, including works by Emetcha, wa Thiongo'o, Head, Achebe, Ba, Armah, Laye, Salih, Soyinka, and Abrahams.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 423. African Women's Literature. 3 Hours.
Writing in all genres by African women from pre-colonial Africa to the present, by Emechta, wa Thiongo'o, Head, Achebe, Ba, Armah, Laye, Salih, Soyinka, and Abrahams.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 424. African-American Special Topics. 3 Hours.
See Class Schedule for topic. May be repeated.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 426. Pre-1800 Literature: Special Topics. 3 Hours.
See Class Schedule for topic. May be repeated.
Prerequisites: EH 301 [Min Grade: C] (Can be taken Concurrently)
EH 427. Post-1800 Literature: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 428. English Elective: Special Topics. 3 Hours.
See class schedule for topic. May be repeated.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 429. Creative Writing: Special Topics. 3 Hours.
Seminar in creative writing; see class schedule for topic. May be repeated.
**Prerequisites:** EH 305 [Min Grade: C] (Can be taken Concurrently) or EH 306 [Min Grade: C] or EH 307 [Min Grade: C] or EH 308 [Min Grade: C] or EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 430. Professional Writing: Special Topics. 3 Hours.
See Class Schedule for topic. May be repeated.
**Prerequisites:** EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 431. Special Topics in Film. 3 Hours.
In-depth study of a specialized topic in film, for example, a particular national cinema, one or more directors, a development in film history or genre, or issues in visual representation.
**Prerequisites:** EH 210 [Min Grade: C] (Can be taken Concurrently) or EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 432. Public Discourse: Special Topics. 3 Hours.
See course schedule for topics. Counts as Public Discourse in the English major concentration in Professional Writing and the English minor in Writing.
**Prerequisites:** EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 222 [Min Grade: C] or EH 224 [Min Grade: C] (Can be taken Concurrently) or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 433. Academic Writing. 3 Hours.
Introduction for students in all disciplines, to the processes of scholarly inquiry and the most common genres of academic writing, including critiques, bibliographies, proposals, conference presentations, and articles. Writing is a significant component of this course.
**Prerequisites:** EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C] (Can be taken Concurrently)

EH 435. Teaching Creative Writing. 3 Hours.
Examines current theory and practice in teaching creative writing, particularly in secondary schools and introductory college-level classes.
**Prerequisites:** EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 436. Workshop in Writing for Young People. 3 Hours.
Intermediate workshop in writing for young people through critique of student writing.
**Prerequisites:** EH 307 [Min Grade: C] or EH 308 [Min Grade: C] or EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 437. Workshop in Writing for Young People. 3 Hours.
Intermediate workshop in writing for young people through critique of student writing.
**Prerequisites:** EH 307 [Min Grade: C] or EH 308 [Min Grade: C] or EH 309 [Min Grade: C] or EH 310 [Min Grade: C]

EH 441. Literary Theory and Criticism, the Ancients to the Nineteenth Century. 3 Hours.
Introduction to theories of art and literary production in the contexts of aesthetics and culture from Plato to the end of the nineteenth century.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 442. Literary Theory and Criticism, the Twentieth Century to the Present. 3 Hours.
Introduction to theories of art and literary production in the contexts of aesthetics and culture from Russian formalism to the present.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 443. Archetype and Myth. 3 Hours.
Recurring images, underlying patterns, and shapes-of-meaning in poetry, fiction, and fairy tales.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 444. Women's Literature and Theory. 3 Hours.
Literary works and theoretical perspectives of Angelou, Chopin, Hong, Kingston, Hurston, Walker, Woolf, Plath, and others.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 446. African American Autobiography. 3 Hours.
Personal narratives by African Americans, including texts by Wheatley, Douglass, Jacobs, Wilson, DuBois, Johnson, Hurston, Hughes, Wright, Baldwin, Angelou, and Moody.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 447. African American Dramatic Tradition. 3 Hours.
Development of African American dramatic tradition from the nineteenth century through the Harlem Renaissance and Black Arts movement to contemporary postmodernism, including Brown, Hurston, Baraka, and Wilson.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 448. African American Poetry Tradition. 3 Hours.
Development of African American poetry from its early works to the present, including Wheatley, Dunbar, Hughes, Brooks, and Angelou.
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 450. Advanced Grammar. 3 Hours.
Present-day English grammar.
**Prerequisites:** EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 451. Generative Grammar. 3 Hours.
Introduction to Chomskian linguistic theory. Knowing a language involves knowing an intricate set of rules; this course gives one approach to modeling this linguistic knowledge.
**Prerequisites:** EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 452. Grammar and Usage for English Teachers. 3 Hours.
Overview of English grammar and usage, focusing on those topics that are presented in the classroom. Topics will include the difference between prescriptive and descriptive grammar, parts of speech, types of verbs, grammatical functions, agreements, sentence structure, tense, aspect, voice finite clauses, nonfinite clauses, clause types, Focus also on Reed-Kellogg sentence diagramming.
**Prerequisites:** EH 350 [Min Grade: C] or EH 351 [Min Grade: C]
EH 453. History of the English Language. 3 Hours.
Overview of language evolution from Proto-Indo-European to modern English dialects, including phonological shifts, dialectal distinctions, language families and orthographical and syntactical changes.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 454. The Biography of Language. 3 Hours.
Vocal tract and neuroanatomical specializations for language, language acquisition, genetic language disorders, language and other primates, and evolution of language.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

EH 455. Digital Publishing. 3 Hours.
Introduces students to new technologies for digital communication and the ways in which these technologies influence how people read, write, interact with, and share information.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 456. Visual Rhetoric. 3 Hours.
Analysis of the rhetorical characteristics of texts that incorporate both images and words in order to persuade audiences. Writing is a significant component of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 457. Writing and Medicine. 3 Hours.
This course examines how the realm of medical knowledge and practice is written or constructed according to particular social and ethical values. Overarching institutional assumptions and norms as well as specific texts and practices will be considered in our study of medical discourse. Writing, Ethics and Communications are significant components of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 459. Discourse Analysis. 3 Hours.
Advanced practice in the analysis and writing of public discourse, with emphasis on the social politics of linguistic choices. Writing is a significant component of this course.
Prerequisites: EH 203 [Min Grade: C] or EH 205 [Min Grade: C] or EH 210 [Min Grade: C] or EH 214 [Min Grade: C] or EH 216 [Min Grade: C] or EH 217 [Min Grade: C] or EH 218 [Min Grade: C] or EH 221 [Min Grade: C] or EH 222 [Min Grade: C] or EH 223 [Min Grade: C] or EH 224 [Min Grade: C]

EH 460. American Women Writers Before 1900. 3 Hours.
Survey of American women's writing before 1900.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 461. American Literature, 1620 - 1820. 3 Hours.
Representative American writing from colonial period to Washington Irving.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 462. American Literature, 1820 - 1870. 3 Hours.
Representative writers such as Alcott, Cooper, Poe, Hawthorne, Melville, Emerson, Fuller, Fern, Harper, Thoreau, Jacobs, Whitman, Stowe, and Dickinson.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 463. American Literature, 1870 - 1914. 3 Hours.
Realism and naturalism: Twain, James, Howells, Crane, Jewett, Wharton, Dreiser, Norris, and Chopin, among others.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 464. American Literature, 1914 - 1945. 3 Hours.
Selected fiction, poetry, and drama of major American writers such as Eliot, Faulkner, Hemingway, Hurston, O'Neil, and Wright.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 465. American Literature, 1945-Present. 3 Hours.
Selected fiction, poetry, and drama in context of post-war cultural trends and literary movements.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 466. The Slave Narrative and Its Literary Expressions. 3 Hours.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 467. Black Women Writers. 3 Hours.
Evolution of Afrocentric feminist consciousness through early and contemporary writings including works by Aidoo, Conde, Cooper, Chase-Riboud, Marshall, Morrison and Naylor.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 468. The Harlem Renaissance. 3 Hours.
Black writers during Harlem Renaissance movement. Includes Johnson, Toomer, Murray, Larsen, McKay, Thurman, Reed, and Morrison.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 469. Medieval Culture: Literature and Society. 3 Hours.
Exploration through art, literature, and history of dominant themes of Middle Ages, from Germans to Dante and Chaucer.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 470. Arthurian Legend. 3 Hours.
King Arthur and his knights in literature from sixth-century history and formulation of legend in Middle Ages to its use in twentieth century.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 471. Beowulf in Context. 3 Hours.
Beowulf and various texts that bear upon it (including modern literary and film adaptations), as well as a close study of the Norse analogues of the Old English epic. All texts in Modern English translation. Not appropriate for those who have taken EH 649.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 472. Introduction to Old English. 3 Hours.
An introduction to the language and literature of early medieval England (pre-1100), culminating in analyses of The Dream of the Rood and The Battle of Maldon in the original alliterative verse.

EH 473. Chaucer: Pilgrimage to Canterbury. 3 Hours.
Selections from Canterbury Tales and Chaucer's fourteenth-century milieu.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)

EH 474. English Renaissance Drama (Excluding Shakespeare). 3 Hours.
Plays by Marlowe, Kyd, Jonson, Tourneur, Webster, Middleton, and Ford.
Prerequisites: EH 301 [Min Grade: C](Can be taken Concurrently)
EH 475. English Renaissance Poetry and Prose. 3 Hours.  
Topics vary. Broad survey of period or close analysis of genre, theme, or author.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 476. Shakespeare. 3 Hours.  
Study of several major plays.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 478. Milton. 3 Hours.  
Selected prose and poetry, including Paradise Lost.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 480. The Restoration. 3 Hours.  
Interdisciplinary exploration of selected poems, plays, and essays by Restoration authors. Authors and topics vary.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 481. The Eighteenth Century: Literature and Culture. 3 Hours.  
Interdisciplinary exploration of texts that focuses on social, economic, and political backgrounds. Topics and authors vary.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 482. The Eighteenth Century: Theory and Interpretation. 3 Hours.  
Interdisciplinary exploration of selected texts by 18th-century authors that focuses on their formal and philosophical contexts. Authors and topics vary.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 483. British Romanticism. 3 Hours.  
Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Hazlitt, Lamb, and DeQuincy.  
**Prerequisites:** EH 481 [Min Grade: C] (Can be taken Concurrently)

EH 485. British Victorian Poetry. 3 Hours.  
Selected works by Tennyson, Browning, Arnold, and others.  
**Prerequisites:** EH 301 [Min Grade: C] (Can be taken Concurrently)

EH 486. Eighteenth-Century British Novel. 3 Hours.  
Selected works by Fielding, Defoe, Sterne, Smollet, Richardson.  
**Prerequisites:** EH 481 [Min Grade: C] (Can be taken Concurrently)

EH 487. Nineteenth-Century British Novel. 3 Hours.  
Selected works by Austen, Dickens, Thackeray, Bronte, Trollope, Eliot, or other novelists.  
**Prerequisites:** EH 483 [Min Grade: C] (Can be taken Concurrently)

EH 488. British Novel: The Modern Age. 3 Hours.  
Selected works by Conrad, Lawrence, Joyce, Woolf, Ford, and others.  
**Prerequisites:** EH 485 [Min Grade: C] (Can be taken Concurrently)

EH 489. James Joyce. 3 Hours.  
Joyce’s fiction through Ulysses.  
**Prerequisites:** EH 487 [Min Grade: C] (Can be taken Concurrently)

EH 493. Special Topics in Linguistics. 3 Hours.  
See class schedule for topic.  
**Prerequisites:** EH 350 [Min Grade: C] or EH 351 [Min Grade: C]

EH 494. English Honors Research. 3 Hours.  
This is an individual studies course for outstanding students beginning their work on an honors capstone thesis. During the first course of a two-course sequence, students will conduct research for that thesis and write a full-length prospectus for that thesis with an extended bibliography.  
**Prerequisites:** EH 301 [Min Grade: C]

EH 495. Honors Capstone Thesis. 3 Hours.  
This is an individual studies course for outstanding students completing their work on an honors capstone thesis. During this second course of a two-course sequence, students will write and defend their thesis.  
**Prerequisites:** EH 301 [Min Grade: C]

EH 496. Capstone Seminar. 3 Hours.  
Specific topics vary. This seminar will provide an opportunity for students to reflect upon and to use the knowledge, skills, and dispositions developed in previous English coursework. Required of all English majors. EH 496 is ideally taken in the final undergraduate semester.  
**Prerequisites:** EH 301 [Min Grade: C]

EH 497. Individual Studies. 1-3 Hour.  
Student and faculty member work together to define project; student conducts research and presents results as written report.

---

**EHS-Secondary Education (EHS)**

**Courses**

**EH 125. Inquiry Approaches to Teaching. 1 Hour.**  
This Step 1 allows students to explore teaching as a career at no cost. Following an introduction to the theory and practice behind excellent inquiry-based science and mathematics instruction, students teach lessons in elementary classrooms to gain firsthand experience in planning and implementation. The goal of Step 1 is to have students explore the possibility of teaching in science, mathematics, or computer science. Students teach science or mathematics lessons in local elementary classrooms and obtain first-hand experience with planning and implementing inquiry-based curriculum.

**EH 126. Step 2: Inquiry Based Lesson Designs. 1 Hour.**  
In Step 2, students continue developing the lesson planning skills learned in EH 125: Step 1. After observing a lesson being taught in a local school district classroom, students plan and teach three inquiry-based lessons to sixth, seventh, or eighth graders. Middle school science or mathematics classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the Step 2 students assigned to them.  
**Prerequisites:** EHS 125 [Min Grade: C]

**EH 320. Geography for Teachers. 3 Hours.**  
Unifying themes and concepts of geography. Culture and characteristics of places, especially as caused by relationships between humans and their environment.

**EH 325. Knowing and Learning in Mathematics and Science. 3 Hours.**  
Knowing and Learning in Mathematics and Science is the first in a sequence of three, 3-credit teaching methods courses in the UABTeach program. Knowing and Learning in Mathematics and Science is more than simply a general survey of theories in the STEM fields, its goal being for students to construct a model of knowing and learning that will guide their future classroom practice. Students begin by considering what standards for knowing are to be used, how knowing and learning are structured, and how what is known changes and develops. Ultimately, students must think about the tensions between general, cross-disciplinary characterizations of knowing (e.g., intelligence) and the specifics of coming to understand powerful ideas in mathematics and science.  
**Prerequisites:** EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] (Can be taken Concurrently)
EHS 326. Classroom Interactions. 3 Hours.
Classroom Interactions builds on the Knowing and Learning course, moving from a focus on thinking and learning to a focus on teaching and learning. The course is centered around a close examination of the interplay between teachers, students, and content, and how these types of interactions enable students to develop deep conceptual understanding. The goals for this course are to: Provide students with opportunities to see how theories explored in Knowing and Learning play out in instructional settings by designing and implementing instructional activities informed by their own understanding of what it means to know and learn mathematics and science, and then evaluating the outcomes of those activities on the basis of student artifacts (i.e., what students say, do, or create). It provides students with frameworks for thinking about equity issues in the classroom and larger school settings, make students aware of equity issues in classroom settings and their effects on learning, and provide students with strategies for teaching diverse students equitably.
Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] and EHS 325 [Min Grade: C]

EHS 327. Project-Based Instruction. 3 Hours.
Project-Based Instruction (PBI) is the capstone course in the sequence of teaching methods courses (Knowing and Learning, Classroom Interactions, and PBI) UTeach students take prior to Apprentice Teaching. PBI is the course in which a number of the major principles and themes of the UTeach program—integration of mathematics and science content; infusion of technology in representation, analysis, modeling, assessment and contextualization of content; immersion in intensive field-based experiences; and a focus on designing equitable learning environments for diverse students—are synthesized as the students develop an intellectually challenging project-based instructional unit. When students complete PBI, they are fully prepared for Apprentice Teaching.
Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] and EHS 325 [Min Grade: C] and EHS 326 [Min Grade: C]

EHS 401. Secondary Education Curriculum and Methods. 3 Hours.
Interaction with middle and high school teachers and students and representatives from support agencies in their respective environments. Extensive field experience required.

EHS 402. Practicum I. 1 Hour.
Reading strategies for 6-12 instruction provide foundation for constructing lesson plans in EHS 401.

EHS 425. Apprentice Teaching. 6 Hours.
The purpose of Apprentice Teaching is to offer UABTeach students a culminating experience that provides them with the tools needed for their first teaching jobs. In Apprentice Teaching, students are immersed in the expectations, processes, and rewards of teaching. When making placements, UABTeach master teachers consider each apprentice teacher’s characteristics and abilities as well as the cooperating teacher’s teaching and mentoring styles.

EHS 426. Apprentice Teaching Seminar. 1 Hour.
Apprentice teachers sign up for two courses: the one-hour Seminar and the six-hour Apprentice Teaching course. The Apprentice Teaching seminar provides a supportive environment where apprentice teachers share their experiences and work on solutions to difficulties they are experiencing. The seminar is a good forum for students to get the guidance they consistently want on classroom management.

EHS 430. Practicum. 1 Hour.
Field experience in school-based setting. Admission to Alternative Master’s Program required.

EHS 436. Methods I: English Language Arts, 6-12. 3 Hours.
Introduction to teaching English language arts in secondary school settings. Developing basic skills in planning, instruction, and assessment. Admission to TEP required.

EHS 438. Methods I: Social Science, 6-12. 3 Hours.
Introduction to teaching the social sciences in secondary school settings. Developing basic skills in planning, instruction, and assessment. Admission to TEP required.

EHS 456. Classroom Management in Secondary Schools. 3 Hours.
Management and instructional problems in secondary schools; techniques for improving study skills and developing better instructional planning.

EHS 458. Science Technology and Society: A Primer for Educators. 3 Hours.
Nature of momentous changes: origin, current status, and future direction. Role of educational community in helping young people better understand and deal with various issues raised.

EHS 465. Methods II: Mathematics 6-12. 3 Hours.
Planning and organization, methods and techniques of teaching mathematics. Extensive field experience required. Note: Fee will apply to course.

EHS 466. Methods II: Language Arts 6-12. 3 Hours.
Curriculum and instruction in English/language arts. Extensive field experience required. Note: Fee will apply to course.

EHS 467. Methods II: Science 6-12. 3 Hours.
Teaching methods and curricula in secondary science programs. Extensive field experience required. Note: Fee will apply to course.

EHS 468. Methods II: Social Science 6-12. 3 Hours.
Curriculum and instruction in social studies. Extensive field experience required. Note: Fee will apply to course.

EHS 469. Secondary School Curriculum: Foreign Language. 3 Hours.
Approaches and methods of teaching and testing foreign language. Selection and use of audiosvisual equipment and materials. Extensive field experience required. Note: Fee will apply to course.

EHS 470. Practicum II. 1 Hour.
Coherent view of effective teaching and instructional design in middle and high schools. Extensive guided teaching experiences. Students implement full range of instructional process: planning, delivery, and evaluation.

EHS 471. Special Education Accommodation / Modification Lab. 1 Hour.
Knowledge and skills for helping students with special needs to successfully progress in the general education curriculum. Managing verbal and physical aggression, collaborative teaching, and strategies for adapting the general education curriculum for students with special needs.

EHS 489. Internship Seminar in Secondary Education. 1,3 Hour.
Supports and extends efforts of student teaching. Problem solving related to classroom situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

EHS 490. Secondary School Student Teaching I. 3-9 Hours.
Capstone experience involving observation and teaching in secondary schools.

EHS 491. Secondary School Student Teaching II. 3-6 Hours.
Supervised teaching in high school.
ELI-English Language Institute Courses

Courses

ELI 011. Reading Level I. 0 Hours.
Students will learn reading skills to get meaning from simple non-fiction, non-academic texts in English. Students will learn general vocabulary. Objectives: Students will read at least 14 non-fiction non-academic texts of up to 200 words in English. The texts are written for use with Level 1 students. Students will learn and practice basic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 012. Integrated Skills I. 0 Hours.
Grammar, vocabulary, speaking, and listening will be learned and practiced together. Students will learn form, meaning, and pronunciation of simple present, simple past, present continuous, and going to; nouns, adjectives and adverbs. They will practice this language in spoken and written activities. Students will learn and practice form, meaning, and pronunciation of basic vocabulary. They will learn basic speaking skills through practice of grammar and vocabulary in communicative activities. Students will develop basic listening skills to get meaning from classroom and recorded speech that uses the grammar and vocabulary.

ELI 013. Vocabulary Building. 1 Hour.
Students will learn basic vocabulary that is useful in daily life, in topic groups including time & calendar, daily activities, family, weather, clothes, food, furniture, and places in town. Students will learn the meaning, pronunciation, and form (spelling, part of speech, plurals and non-count, collocations, and phrasal verbs) of the words.

ELI 014. Writing Level I. 0 Hours.
Students will complete at least 10 paragraphs of up to 100 words. Paragraphs will include topic, supporting, and concluding sentences. Students will follow the process of generating content, analyzing models, outlining, and writing 2 drafts with teacher, peer, and self-editing. Students will learn and practice Level 1 mechanics, grammar, sentence structure, and functional language for content area.

ELI 015. Support for Beginners. 0 Hours.
This course is designed to support Level Pre-1 students in their outcomes for ELC 013 Vocabulary Building 1 and ELC 012 Integrated Skills 1.

ELI 021. Reading Level 2. 0 Hours.
Objectives: Students will develop reading skills to get meaning from non-fiction non-academic and simplified academic texts in English. Students will learn general vocabulary. Students will read at least 12 non-fiction non-academic and simplified academic texts of up to 400 words in English. Texts are graded for use with Level 2 students. Students will learn and practice general reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 022. Integrated Skills: Grammar, Listening and Speaking Level II. 0 Hours.
Grammar, vocabulary, speaking, and listening will be learned and practiced together. Students will improve their use simple present, simple past, present continuous, and going to; and learn present perfect, present continuous for future, comparatives and superlatives, modals, quantifiers, and basic infinitives and gerunds. They will practice language in spoken and written activities. Students will learn and practice form, meaning, and pronunciation of general vocabulary. They will develop their speaking fluency through communicative activities, and their listening skills to get meaning from classroom and recorded speech. Students will also develop their writing skills through communicative activities.

ELI 023. Vocabulary Building Level 2. 0 Hours.
Students will learn vocabulary that is useful in daily life, in topic groups including personality, emotions, health, emergencies, errands, workplace, geography, hobbies & sports, and transportation. Students will learn the meaning, pronunciation, and form (spelling, part of speech, plurals and non-count, collocations, and phrasal verbs) of the words.

ELI 024. Writing Level II. 0 Hours.
Students will complete at least 4 academic paragraphs of up to 120 words. Paragraphs will include topic, supporting, and concluding sentences. Students will follow the process of generating content, analyzing models, outlining, and writing 2 drafts with teacher, peer, & self-editing. Students will learn and practice mechanics, grammar, sentence structure, and functional language for paragraph genre.

ELI 031. Academic Reading Level III. 0 Hours.
Students will read at least 12 non-fiction academic texts of 600-1000 words in English. Texts are those graded for use with Level 3 students, and authentic articles and excerpts. Students will learn and practice basic academic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 032. Speaking and Listening Skills Level III. 0 Hours.
Students will develop their speaking skills to communicate in groups, and give short presentations on general and simplified academic topics. Students will develop their listening skills to get meaning and take notes on graded & authentic conversations and academic lectures. Students will learn basic academic vocabulary on listening and speaking topics. Speaking and listening skills and vocabulary will be studied together with 4 popular and academic topics. Students will develop their communicative speaking skills in topic-based interactive activities. They will give at least 4 short presentations with attention to non-verbal communication. They will receive feedback on their pronunciation and grammar use. Students will listen to at least 4 recorded conversations and authentic academic lectures. They will learn basic lecture note-taking skills with guided outlines. Students will learn form, meaning, and pronunciation of topic vocabulary.

ELI 033. Grammar: Using English Accurately Level III. 0 Hours.
Students will develop their ability to accurately use verb tenses, and relative clauses. Students will apply this grammar in speaking and expository writing. Students will learn form, meaning, and pronunciation of all English verb tenses in contrast. They will learn restrictive and non-restrictive subject and object relative clauses. Students will practice this language in written and spoken controlled exercises, and apply it in freer written and spoken activities.
ELI 034. Academic Writing III. 0 Hours.
Students will learn to write short academic essays. Students will complete 4 academic essays of at least 250 words in these genres: descriptive, comparison, opinion, and narrative. Essays will include introduction, body (1-2), and conclusion paragraphs. Students will follow the process of generating content, analyzing models, outlining, and writing 2 drafts with teacher, peer, and self-editing. Students will learn and practice Level 3 language, including adverb and adjective clauses, and functional language for essay genre.

ELI 041. Academic Reading Level IV. 0 Hours.
Students will develop reading skills to get meaning from non-fiction academic texts and fiction in English. Students will learn academic vocabulary. Students will read at least 12 texts, including non-fiction academic texts and fiction of 800-1200 words in English. Texts are authentic articles and excerpts. Students will develop their academic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 042. Speaking Listening Skills Level IV. 0 Hours.
Students will develop their speaking skills to communicate spontaneously in groups, and give presentations on academic topics. Students will develop their listening skills to get meaning from and take notes on authentic conversations and academic lectures. Students will learn academic vocabulary contextualized in the listening and speaking topics. Speaking and listening skills and vocabulary will be integrated into 4 academic topics. Students will develop their communicative speaking skills in interactive activities. They will prepare and give at least 4 presentations, with attention to organization and basic visual aids. They will receive feedback on their grammar use and pronunciation. Students will listen to at least 4 authentic recorded conversations and academic lectures, and develop their lecture note-taking skills with guided outlines. Students will learn the form, meaning, and pronunciation of topic vocabulary.

ELI 043. Grammar: Using English Accurately Level IV. 0 Hours.
Students will learn and develop their ability to accurately use modals, gerunds and infinitives, articles and nouns, passives, and conditionals. Students will apply this grammar in speaking and expository writing. Students will learn form, meaning, and pronunciation of modals including past, gerunds and infinitives, nouns and article use, passives in all tenses, and conditionals. Students will practice this language in written and spoken controlled exercises, and apply it in freer written and spoken activities.

ELI 044. Academic Writing IV. 0 Hours.
Students will learn to write longer and more developed academic essays. Objectives: Students will complete 3 academic essays of at least 450 words in these genres: classification, cause/effect, and argument. Essays will include introduction, 3 or more body paragraphs, and conclusion paragraph. Students will follow the process of generating content, analyzing models, outlining, and writing 3 drafts with teacher, peer, and self-editing. Students will learn and practice Level 4 language, including adverb and adjective clauses, and functional language for essay genre.

ELI 051. Academic Reading Level V. 0 Hours.
Goals: Students will expand their reading skills to get meaning from non-fiction academic texts in English. Students will learn academic vocabulary. Objectives: Students will read at least 12 non-fiction academic texts of up to 800-2000 words in English. Texts are authentic articles or excerpts. Students will expand their academic reading skills and strategies, text analysis, and vocabulary skills. Students will learn the form, meaning, and pronunciation of vocabulary in the readings.

ELI 052. Oral Communication Level V. 0 Hours.
Goals: Students will expand their speaking skills to communicate spontaneously on academic topics in small groups, and give professional presentations on academic topics. Students will expand their listening skills to extract meaning from and take notes on authentic academic conversations and lectures. Students will learn academic vocabulary contextualized in the listening and speaking topics. Objectives: Speaking and listening skills and vocabulary will be integrated into 4 academic topics. Students will expand their communicative speaking skills in interactive activities with academic topics and tasks. They will prepare and give at least 4 presentations, with focus on organization and visual aids. They will receive feedback on their grammar and pronunciation. Students will listen to at least 4 authentic recorded conversations and 4 academic lectures, and generate their own lecture note-taking outlines. Students will learn the form, meaning, and pronunciation of contextualized vocabulary.

ELI 053. Using English Accurately Level V. 0 Hours.
Goals: Students will expand their ability to use grammar common to academic contexts such as cause & effect, compare & contrast, narrative, problem & solution, and persuasion. They will apply new and revised grammar in speaking and expository writing in these contexts. Objectives: Students will learn new grammar, and expand on known grammar commonly used in specific academic contexts. They will focus on form, meaning, and pronunciation of various tenses, sentence structures, and functional language used to speak and write academically. Students will practice this language in spoken and written controlled exercises, and apply it in speaking in groups and presentations, and writing in academic contexts.

ELI 054. Academic Writing Level V. 0 Hours.
Goals: Students will develop skills to write academic research papers. Students will develop their citing, quoting, paraphrasing, and summarizing skills, and learn APA format for external sources. They will learn to integrate source information into their essays. Objectives: Students will write 2 research papers of 500-750 words. For an expository essay, students will develop evaluative criteria, conduct on-line research, generate content, outline, and write 2 drafts with teacher, peer, and self-editing. For a reporting essay, students will read published sources on a medical problem, write a rough and detailed outline, and 2 drafts with teacher, peer, and self-editing. Students will expand their ability to quote, paraphrase, and summarize, and learn APA citation format. Students will expand their reading ability and use complex sentence structures.

ELI 061. Special Programs in Speaking and Listening. 0 Hours.
Students practice extensive speaking, including pronunciation instruction and feedback, teaching on conversation strategies, and discussions about culturally relevant topics. Students also practice listening skills in this interactive environment through podcasts, videos, and other media with a particular emphasis on note taking skills. Vocabulary building is incorporated into this class and emphasizes American expressions and current idioms, which enables students to understand informal English with greater fluency. In addition, class discussions usher in a deeper analysis of American culture.
ELI 062. Special Programs Using Grammar in Conversation. 0 Hours.
Grammar in practice means using English accurately, not simply knowing English grammar rules for a test. The Grammar in Conversation class emphasizes accuracy and fluency. Students review some of the most common grammatical errors in spoken English, including those that frequently impede comprehensibility, and then practice producing the forms accurately in fluent speech. In this way, this class supports previous grammar study but also capitalizes on the possibilities for fluency practice that a short-term immersion program provides.

ELI 063. Special Programs Reading and Writing. 0 Hours.
Grammar in practice means using English accurately, not simply knowing English grammar rules for a test. The Grammar in Conversation class emphasizes accuracy and fluency. Students review some of the most common grammatical errors in spoken English, including those that frequently impede comprehensibility, and then practice producing the forms accurately in fluent speech. In this way, this class supports previous grammar study but also capitalizes on the possibilities for fluency practice that a short-term immersion program provides.

ELI 071. Pronunciation/Accent Training I. 0 Hours.
This course focuses on improving your American English pronunciation and accent. The desired outcome of this course is that your speech will be more easily understood by speakers of English.

ELI 072. Pronunciation/Accent Training II. 0 Hours.
This course focuses on continuing to improve your American English pronunciation and accent through practicing previously studied skills in active conversation. The primary desired outcome of this course is that your accent will be more easily understood by speakers of English. The secondary outcome is that you will be more comfortable and fluent when speaking in English.

ELI 075. Business Listening and Speaking. 0 Hours.
This course is designed to improve students’ business English skills. In particular, listening and speaking skills will be the focus of this course. Business professionals or persons presently working in the U.S. will benefit from the speaking and listening skills learned in this class. The class will also feature business-related vocabulary, idioms, and culture discussions.

ELI 076. Business Writing Skills. 3 Hours.
The following are objectives for this course: Improve understanding of the different types of business writing and appropriate use of each type (business letters, emails, memos, reports, cover letters, resumes, proposals); enhance familiarity with common business letter formats, the various parts of a business letter and the purpose of each part; create business English writing that is clear, concise and specific; learn techniques of self-editing; improve the following grammar skills: use of articles, prepositions, gerunds and infinitives, contractions, comma usage, punctuation, recognition of sentence fragments, and appropriate use of adjectives and adverbs; and improve the following language usage skills: formal vs. informal language, linking fragments, numbers in writing, and accuracy of vocabulary.

ELI 091. Common Hour. 0 Hours.
This course is designed to provide additional support to students in the Intensive English Program. This course serves as an extended orientation that will help students integrate into campus life and navigate through cultural adjustment while learning about the USA/State/Local/UAB cultures and procedures. The class is not a language learning class. The focus of the class is on knowledge. Translation help will be provided as needed.

ELI 101. Academic Writing for Non-Native English Speakers I. 3 Hours.
This course focuses on the development of various types of writing required in university courses. Becoming fluent in the organizational structure of writing in the American academic setting will be emphasized. In addition, grammar and mechanics are reviewed. Students will practice all aspects of the writing process: generating ideas, drafting, revising, and editing.

ELI 102. Academic Reading for Non-Native English Speakers II. 3 Hours.
This course expands academic reading skills and strategies, text analysis, and vocabulary skills for application in an academic environment. In addition, students will build academic vocabulary range through analyzing vocabulary contextualized in the readings. Students will expand their reading skills to extract meaning from non-fiction academic texts in English, which will feature authentic articles or excerpts.

ELI 203. Academic Listening and Speaking for Non-Native English Speakers I. 3 Hours.
This course emphasizes the development and practice of speaking and listening skills necessary for successful communication in the university environment. Specifically, this course focuses on effective strategies for listening to lectures, participating in classroom discourse, and giving presentations. In addition, students will engage in oral fluency practice and pronunciation improvement.

ELI 205. Using English Skills for Academic Success. 3 Hours.
This course will provide a venue for structured practice with all academic English language skills, including reading, writing, speaking, and listening, in an integrated format for second-semester INTO UAB undergraduate standard pathway students. Students will employ a variety of English skills in ways that will mimic what is expected in an actual undergraduate classroom format. The course will feature much feedback from the instructor to facilitate improvement; content will take into account the other courses in the pathway to maximize learning.

ELI 206. Accelerated English Skills for Academic Success. 3 Hours.
This course will provide a venue for structured practice with all academic English language skills, including reading, writing, speaking, and listening, in an integrated format for INTO UAB undergraduate accelerated pathway students. Students will employ a variety of English skills in ways that will mimic what is expected in an actual undergraduate classroom format, with the intention of accelerating transfer of English language skills to the American academic environment. The course will feature much feedback from the instructor to facilitate improvement; content will take into account the other courses in the pathway to maximize learning.

ELI 401. Academic Reading & Writing for the Graduate Student 1. 3 Hours.
This two-semester, multi-skill course, designed for non-native English speaking graduate students needing English language skill improvement, will focus on reading and writing skill development, with additional outcomes in improved grammar usage and vocabulary expansion. The course will emphasize academic reading skills and strategies and text analysis, using non-fiction academic texts in English, and it will also build academic vocabulary range through analyzing vocabulary contextualized in the readings. Then, students will use readings to practice various types of writing. Becoming fluent in the organizational structure of writing in the American academic setting will be emphasized, and grammar instruction will be addressed as needed. Students will practice all aspects of the writing process: generating ideas, drafting, revising, and editing.
ELI 402. Academic Speaking & Listening for the Graduate Student 1. 3 Hours.
This two-semester, multi-skill course, designed for non-native English speaking graduate students needing English language skill improvement, will focus on the development and practice of speaking and listening skills necessary for successful communication in the university environment, with additional outcomes related to pronunciation training. Specifically, this course focuses on effective strategies for listening to lectures, participating in classroom and general academic discourse, and giving presentations. In addition, the course provides a focus on pronunciation and opportunities for oral fluency practice.

ELI 403. Academic Reading & Writing for the Graduate Student 2. 3 Hours.
The second part of a two-semester, multi-skill course for non-native English speaking graduate students needing English language skill improvement, this course will continue building skills in reading, writing, grammar, and vocabulary for use in graduate coursework. Reading passages from authentic texts, as well as summarizing and paraphrasing passages from texts, will be included.

ELI 404. Academic Speaking & Listening for the Graduate Student 2. 3 Hours.
The second part of a two-semester, multi-skill course for non-native English speaking graduate students needing English language skill improvement, this course will build on the previous course in focusing on the development and practice of speaking and listening skills necessary for success in a graduate academic environment. The course will provide a venue for structured practice with these English language skills in an integrated format, as students mimic in class what transpires in the graduate classroom. The course will feature much feedback from the instructor to facilitate improvement, as well as an emphasis on pronunciation practice.

ELI 405. Academic English Skills for the Graduate Student. 3 Hours.
This course will provide a venue for structured practice with all academic English language skills, including reading, writing, speaking, and listening, in an integrated format for INTO UAB accelerated graduate pathway students. Students will employ a variety of English skills in ways that will mimic what is expected in an actual graduate classroom format, with the intention of accelerating transfer of English language skills to the American academic environment. The course will feature much feedback from the instructor to facilitate improvement.

EMS-Middle School Education Courses

Courses

EMS 326. Class Room Interactions. 3 Hours.
Classroom Interactions builds on the Knowing and Learning course, moving from a focus on thinking and learning to a focus on teaching and learning. The course is centered around a close examination of the interplay between teachers, students, and content, and how these types of interactions enable students to develop deep conceptual understanding. The goals for this course are to: Provide students with opportunities to see how theories explored in Knowing and Learning play out in instructional settings by designing and implementing instructional activities informed by their own understanding of what it means to know and learn mathematics and science, and then evaluating the outcomes of those activities on the basis of student artifacts (i.e., what students say, do, or create). It provides students with frameworks for thinking about equity issues in the classroom and larger school settings, make students aware of equity issues in classroom settings and their effects on learning, and provide students with strategies for teaching diverse students equitably. EMS 326 is a cross-listed section of EHS 326 and is specifically designed for student pursuing middle school teaching certification in science or mathematics.

Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] and EHS 325 [Min Grade: C]

EMS 327. Project-Based Instruction. 3 Hours.
Project-Based Instruction (PBI) is the capstone course in the sequence of professional development courses (Knowing and Learning, Classroom Interactions, and PBI) UTeach students take prior to Apprentice Teaching. PBI is the course in which a number of the major principles and themes of the UTeach program—integration of mathematics and science content; infusion of technology in representation, analysis, modeling, assessment and contextualization of content; immersion in intensive field-based experiences; and a focus on designing equitable learning environments—are synthesized as the students develop an intellectually challenging project-based instructional unit. When students complete PBI, they are fully prepared for Apprentice Teaching.

Prerequisites: EHS 125 [Min Grade: C] and EHS 126 [Min Grade: C] and EHS 325 [Min Grade: C] and EHS 326 [Min Grade: C]

EMS 351. Teaching Language Arts in Middle/Junior High School. 3 Hours.
Methods of teaching middle grades language arts. Extensive field experiences required. Supervision fee.

EMS 352. Teaching Mathematics in Middle/Junior High School. 3 Hours.
Methods of teaching middle grades mathematics. Extensive field experiences required. Admission to TEP required.

EMS 355. Laboratory/Practicum in Middle School Education. 1 Hour.
This course serves as a laboratory practicum for undergraduate students who are pursuing teacher certification in middle school education.

EMS 425. Apprentice Teaching. 6 Hours.
The purpose of Apprentice Teaching is to offer UABTeach students a culminating experience that provides them with the tools needed for their first teaching jobs. In Apprentice Teaching, students are immersed in the expectations, processes, and rewards of teaching. When making placements, UABTeach master teachers consider each apprentice teacher’s characteristics and abilities as well as the cooperating teacher’s teaching and mentoring styles. EMS 425 is a cross-listed section of EHS 425 and is specifically designed for student pursuing middle school teaching certification in science or mathematics.
EMS 426. Apprentice Teaching Seminar. 1 Hour.
Apprentice teachers sign up for two courses: the one-hour Seminar and the six-hour Apprentice Teaching course. The Apprentice Teaching seminar provides a supportive environment where apprentice teachers share their experiences and work on solutions to difficulties they are experiencing, including classroom management.

EMS 451. Workshop in the Middle School. 1-3 Hour.
This course is a workshop for undergraduate students who wish to teach at the middle school level.

EMU-Music Education Courses

Courses

EMU 402. Methods of Teaching Music N-6. 3 Hours.
Organization of appropriate music concepts and musical experiences for all elementary children; development of methods and skills needed for direct student involvement in musical experiences for each grade level.

EMU 403. Methods of Teaching Music N-6 Lab. 1 Hour.
Public school observation experiences for music education students enrolled in EMU 402.

EMU 404. Methods of Teaching Music in Secondary Education. 3 Hours.
Aims, principles, and philosophies of music; various methods of teaching in secondary schools for both non-performance music classes and instrumental and vocal activities. Laboratory includes direct method application in secondary music classrooms.

EMU 405. Methods of Teaching Music in Secondary Education Lab. 1 Hour.
Public school observation experiences for music education students enrolled in EMU 404.

EMU 490. Internship in Music Education. 6-9 Hours.
Supervised capstone teaching experience in grades N-12 as appropriate to student's teaching field (general music, instrumental music, or vocal/choral music).

EMU 499. Internship Seminar in Music Education N - 12. 1-3 Hour.
Capstone course for the B.A. in Music Education. Students will demonstrate the skills expected of a professional music educator. This course is a supervised teaching course where the student is expected solve problems in all issues related to classroom management, assessment, and music making. Included in the assessment will be the creation of professional documents, appropriate budgets, and supervised teaching experiences. Prerequisites: Completion of methods courses with no grade below C. Corequisite: EMU 490. 1 hour.

ENT-Technology

Entrepreneurship Courses

Courses

ENT 270. Introduction to Entrepreneurial Management. 3 Hours.
This introductory course in entrepreneurship is intended to expose students to the entrepreneurial life cycle of a high growth start-up from opportunity identification, to funding and growth, through to harvesting the rewards. Students will learn to think like entrepreneurs, be exposed to entrepreneurial decision making, and learn the dynamics of customer validation through the Lean Startup model.

ENT 420. Entrepreneurial Finance. 3 Hours.
Examine the elements of entrepreneurial finance, focusing on technology-based start-up ventures and the early stages of company development. This course addresses key questions which challenge all entrepreneurs: How much money can and should be raised and from whom; what is a reasonable valuation of the company; and how should funding, employment contracts and exit decisions be structured. Prerequisites: ENT 270 [Min Grade: C] and (FN 310 [Min Grade: C] or BUS 310 [Min Grade: C])

ENT 421. Entrepreneurial Market Analysis and Planning. 3 Hours.
This course is designed to help students identify and validate market opportunities and to develop business ideas and business models to match those opportunities. Students will learn to analyze markets, industries and business environments. They will also learn to generate innovative ideas. Finally, they will learn to develop plans to take their ideas to market. Prerequisites: (MK 303 [Min Grade: C] or BUS 311 [Min Grade: C]) and ENT 270 [Min Grade: C]

ENT 422. Strategic Operations for Entrepreneurs. 3 Hours.
This course will explore the strategic decisions that early stage entrepreneurial managers face in growing their business. With a focus on the Lean Startup methodology, students will learn how to develop the assumptions behind their business model, create measurable tests for these assumptions, and make critical decisions based on customer data. Prerequisites: ENT 270 [Min Grade: C]

ENT 424. New Product Development. 3 Hours.
This course is part one of a two semester course, taught jointly with the Department of Biomedical Engineering. In this course business students are paired with senior biomedical engineering students in a two semester, team-based learning experience in which the teams conceive, design and build a prototype medical device and the accompanying business plan and design to bring the product to market. The course will focus on business planning activities including market research, competitive analysis, intellectual property protection, basic finances and business model design. In addition, instruction, feedback and coaching on interdisciplinary teamwork will be incorporated throughout the semester.

ENT 425. Entrepreneurial Leadership. 3 Hours.
This course focuses on the attributes of successful entrepreneurial leaders and the factors that differentiate them from less successful ones. Students learn the principles and application of leading entrepreneurial organizations through selected case studies and face-to-face presentations and discussions with locally and nationally known entrepreneurs. Prerequisites: ENT 270 [Min Grade: C]

ENT 426. Practicum in Commercialization. 3 Hours.
This course offers qualified students the chance to gain first hand experience in product commercialization while receiving academic credit. Students work in cross-disciplinary teams with senior engineering students to develop a commercialization plan corresponding to an original product design.

ENT 445. Entrepreneurial Internship. 3 Hours.
Standard internship with entrepreneurial business or organization. Junior standing and 2.0 minimum overall GPA. Must be currently enrolled in the Collat School of Business as a degree-seeking student or declared minor in business. Prerequisites: GPAO 2.00
ENT 450. I-Corps Lean Startup. 3 Hours.
Student teams will execute the Lean Startup approach to develop a business model following the highly successful I-Corps methodology. This is a team-based course where students will spend the semester exploring the viability of a new business venture. Students will be organized into startup teams and be expected to fully execute all areas of the business model canvas by testing their business assumptions through customer/stakeholder interviews. Students must apply for enrollment with the instructor. This course has a major group project component.

ENT 499. Directed Study in Entrepreneurship. 3 Hours.
Supervised project in a specific area of entrepreneurship. This is an experiential course for completion of a minor in entrepreneurship. Course may be on-line or face-to-face.

### ENV-Environmental Science Courses

#### Courses

ENV 108. Human Population and the Earth’s Environment. 3 Hours.
Influence of human population on Earth’s environment. Specific attention will be paid to environmental issues such as population growth, climate change, water and energy resources, pollution, waste disposal, plant and animal extinctions, and food resources. Strong emphasis will be placed on determining solution to the variety of environmental problems facing the earth. Lecture and film. Ethics and Civic Responsibility are significant components of this course. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

ENV 109. Laboratory in Environmental Science. 1 Hour.
Experiments on topics essential to study of environment and which reveal complexity of solving environmental problems. Writing, Ethics and Civic Responsibility are significant components of this course. 
**Prerequisites:** ENV 108 [Min Grade: D](Can be taken Concurrently) or BY 108 [Min Grade: D](Can be taken Concurrently)

### EPI-Epidemiology

#### Courses

EPI 222. Public Health Issues in Physical Activity and Obesity. 3 Hours.
The purpose of this course is to provide an overview of the components of health and fitness within the context of the epidemiological evidence establishing the links between various types of health behaviors and risk factors (e.g., physical activity, body composition, diet, sleep, etc.) and health outcomes.

### EPR-Educational Psychology Courses

#### Courses

EPR 214. Introduction to Educational Statistics. 3 Hours.
This introductory statistics course will cover basic descriptive and inferential statistics, including: Measures of central tendency; measures of variability; frequency distributions; normal curve of distribution; sampling; hypothesis testing, analysis of variance; correlation; regression; and introduction to chi-square.

EPR 363. Foundations of Education II: Psychological. 3 Hours.
Psychological principles basic to the understanding of the learner, learning process, and learning situation is covered, as well as all major principles of Human Development. Twenty hours of field experiences required.
**Prerequisites:** EDU 200 [Min Grade: C](Can be taken Concurrently)

EPR 410. Measurement and Evaluation in Education. 3 Hours.
For early childhood/elementary education majors only. Basic concepts and principles of measurement and evaluation of personal and academic progress in classroom. Formative and summative assessment; Response to Instruction; and PLAN2020. Elementary descriptive statistics and measurement techniques used in student evaluation. Quantitative literacy is a significant component of this course.

EPR 411. Measurement and Evaluation in Education. 3 Hours.
For secondary education majors only. Principles of student assessment. Basic concepts and principles of measurement and evaluation of personal and academic progress in classroom; Formative and summative assessment; Response to Instruction; and PLAN2020. Elementary descriptive statistics and measurement techniques used in student evaluation. Quantitative Literacy is a significant component of this course. Admission to TEP required.
**Prerequisites:** EHS 436 [Min Grade: C] or EHS 438 [Min Grade: C] or MU 432 [Min Grade: C] or MU 433 [Min Grade: C]

### ES-Earth Science Courses

#### Courses

ES 101. Physical Geology. 3 Hours.
Study of the earth, its materials and natural resources, processes of change, natural hazards to mankind. Lecture. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

ES 102. Physical Geology Laboratory. 1 Hour.
Study of properties and uses of rocks and minerals. Study of landscapes and various types of maps. One laboratory session per week.
**Prerequisites:** ES 101 [Min Grade: D](Can be taken Concurrently)

ES 103. History of the Earth. 3 Hours.
Interpretation of Earth’s history through geologic time. Study of life on Earth through the fossil record. Lecture. This course, when taken with its corresponding laboratory, meets the Core Curriculum requirements for Area III: Natural Sciences.

ES 104. History of the Earth Laboratory. 1 Hour.
Sedimentary materials and environments of formation. Fossil identification. Geologic time and principles of age-dating. One laboratory session per week.

ES 105. Physical Geography. 3 Hours.
Atmosphere, weather, climate and climatic regions, and soils.

ES 109. Planet Earth. 3 Hours.
Major topics and problems in modern earth science. Nature of solid Earth and its atmosphere, climatic change, Earths resources, interaction of Earth with sun, and planetary geology. Selected readings and videotapes.
ES 110. The Geography of Alabama. 3 Hours.
The physical geography of Alabama: geologic setting, landscape, climate and weather, soils and vegetation, natural resources.

ES 120. Geology for Engineers. 3 Hours.
The solid earth, the nature of the earth’s crust, surficial processes.

ES 191. Co-op Work Program. 2-3 Hours.

**FLC-Freshman Learning Comm Courses**

**Courses**

FLC 101. Freshman Seminar. 3 Hours.
As the anchor course for each Freshman Learning Community, the Freshman Seminar introduces students to the Shared Vision for a UAB Graduate and especially to the targeted competencies (writing, quantitative literacy, ethics and civic responsibility) within the context of a particular academic theme or focus.

**FLL-Foreign Languages Courses**

**Courses**

FLL 101. Introductory Foreign Language I. 3 Hours.
Introduction to a less commonly taught Foreign Language and culture. Essentials of language and culture needed for communication. Includes listening comprehension, speaking, writing, and reading. Offered on demand in target language. Language selection rotates. (Core Area II).

FLL 102. Introductory Foreign Language II. 3 Hours.
This course continues introducing students to a less commonly taught Foreign Language and culture. Essentials of language and culture needed for communication. Includes listening comprehension, speaking, writing, and reading. Offered on demand in target language. Language selection rotates.

**Prerequisites:** FLL 101 [Min Grade: D]

FLL 120. Foreign Cultures. 3 Hours.
Exploration of the customs, traditions, languages, ancestry, religions, values, and institutions of varied western and non-western nations through the use of humanities disciplines. Strong emphasis on the epistemology, production, and reception of culture, within and beyond the borders of a particular nation-state. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

FLL 121. Special Topics through World Cultures. 3 Hours.
This course has been designed to introduce students to some of the most significant cultural topics across the languages and civilizations represented in the DFLL through a cultural medium, such as music, film, or food. The course, team-taught by selected faculty of the different languages, will explore and reflect on ideas and attitudes, customs and traditions, identities and values of diverse western and non-western civilizations. Offered in English, it does not require previous knowledge of foreign languages.

FLL 160. Freshman Year Experience: Foreign Languages. 1 Hour.
The objective of this course is to introduce incoming freshmen to an education in foreign languages and world cultures in context of the university. It is meant to help prepare students for a successful collegiate career in the study of foreign languages.

FLL 190. Study Abroad: Foreign Language. 1-8 Hour.
Approved novice level study abroad program for a foreign language not regularly offered at UAB, which takes place in a foreign country. Permission of the Department Chair and the Study Abroad Director.

FLL 199. Directed Reading: Foreign Lang. 3 Hours.
This is an individualized course of directed readings and activities for novice Foreign Language students in a foreign language that is not offered regularly at UAB. The course may be offered in the case of a visiting professor in a language that is beyond the scope of regular instructional languages. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy and knowledge of foreign languages.

FLL 200. Foreign Literatures in English Translation. 3 Hours.
Introduction to cross-cultural theory of genre and human experience with a particular emphasis on the historical and cultural context in which literary traditions are shaped, interpreted and reinvented. FLL 200 invites the students to think critically about the formation of literary canons and the ethics of translating cultural difference/sameness. Ethics and Civic Responsibility are significant components of this course.

FLL 290. Study Abroad: Foreign Language. 1-6 Hour.
Approved novice level study abroad program for a foreign language not regularly offered at UAB, which takes place in a foreign country. Permission of the Department Chair and the Study Abroad Director.

FLL 299. Directed Reading: Foreign Lang. 3 Hours.
This is an individualized course of directed readings and activities for intermediate Foreign Language students in a foreign language that is not offered regularly at UAB. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy and knowledge of foreign languages. Permission of Department Chair required.

FLL 303. History of World Movies I: The Origins to 1960. 3 Hours.
From the first silent movies to the development of the modern color sound movie of Hollywood in the fifties: comparison and contrast of the views of major film makers of the sixty years of the 20th century.

FLL 304. History of World Movies II. 3 Hours.
From the modern color sound movie of the fifties and the Nouvelle Vague to the latest movies produced around the globe: comparison and contrast of the views of filmmakers of the last forty years.

FLL 333. Foreign Language Internship/SL. 1-6 Hour.
Faculty-supervised opportunity for practical experience in tasks of international scope, may provide opportunities to use language(s) studied or applications of cultural knowledge.

FLL 334. Foreign Language Internship. 0 Hours.
Faculty-supervised opportunity for practical experience in tasks of international scope, may provide opportunities to use language(s) studied or applications of cultural knowledge.

FLL 350. Intro to Romance Linguistics. 3 Hours.
This course provides an introduction to the grammar of Romance languages, with emphasis on French and Spanish. Students will learn about the phonology (sound system), morphology, and syntax of French and Spanish. The course content is presented in a contrastive way, and it is related to the historical background that led to the separation of Latin into the modern Romance languages.

**Prerequisites:** EH 102 [Min Grade: C] or EH 107 [Min Grade: C]
FN 101. Personal Finance. 3 Hours.
Selected aspects of finance encountered by an individual during his or her lifetime. Lower-level elective credit only. Not applicable to the finance major. Open to all UAB students.

FN 102. Money and Society. 3 Hours.
The basic principles of the use of money in society are presented in a decision making framework. The objective of this course is to provide students with the tools necessary to analyze financial issues from a global and societal perspective.

FN 103. Money Management 101. 1 Hour.
Covers selected aspects of financial planning encountered by an individual during his or her lifetime. Cannot count as credit toward the finance major.

FN 104. Debt Management 101. 1 Hour.
Covers selected aspects of managing credit and insurance needs that an individual might encounter during his or her lifetime. Does not count toward the finance major.

FN 105. Saving and Investing 101. 1 Hour.
Covers selected aspects of managing investments that an individual might encounter during his or her lifetime. Does not count toward the finance major.

FN 310. Fundamentals of Financial Management. 3 Hours.
Introduction to the basic principles of financial management emphasizing quantitative and qualitative analysis of time value of money, stock and bond valuation, and capital budgeting; risk/return analysis, cost of capital, capital structure and cash flow analysis.
Prerequisites: AC 200 [Min Grade: C] and EC 210 [Min Grade: C] and QM 214 [Min Grade: C]

FN 311. Short-Term Financial Management. 3 Hours.
Multidisciplinary approach to analysis of financial statements and working capital management. Financial planning, corporate liquidity, and short-term financial policy issues.
Prerequisites: (AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 320. Financial Research Methods. 3 Hours.
Introduction to commercial and publicly available financial research databases and the basics of data analysis.
Prerequisites: (IS 303 [Min Grade: C] and FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (IS 303 [Min Grade: C] and EC 301 [Min Grade: C] and FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 330. Quantitative Financial Analysis. 3 Hours.
Introduction to the basic quantitative tools of finance with a focus on the use of statistics in financial analysis.
Prerequisites: FN 215 [Min Grade: C] and AC 201 [Min Grade: C]

FN 350. Equity Portfolio Management. 3 Hours.
Investment theory with emphasis on risk-return tradeoff, equity investment instruments and environment, sources and interpretation of investment information, portfolio theory, market indices, options and futures, and international investing.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 351. Bond Portfolio Management. 3 Hours.
Fixed income markets and instruments, including valuation and portfolio strategies. Derivatives of fixed income securities.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 355. Green and Gold Fund Financial Analyst. 1 Hour.
The Green and Gold Fund is UAB's student-managed investment portfolio. Fund members perform actual investment portfolio management with real money. A student must hold the position of analyst.

FN 359. Green and Gold Fund Portfolio Management. 1-3 Hour.
The Green and Gold Fund is UAB's student-managed investment portfolio. Fund members perform actual investment portfolio management with real money. For three credit hours, a student must hold the position of CIO, chief economist, or portfolio manager. For one credit hour, a student must hold the position of analyst.
Prerequisites: FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and FN 490 [Min Grade: C]

FN 360. Fundamentals of Healthcare Financial Management. 3 Hours.
Basic principles of healthcare financial management emphasizing time value of money, stock and bond valuation, and capital budgeting; risk/return analysis, cost of capital, capital structure, and cash flow analysis in the context of Healthcare organizations.
Prerequisites: AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C]

FN 370. Principles of Real Estate. 3 Hours.
Upper division course designed to provide the student with a solid foundation for making real estate decisions. Course involves computer-based assignments.
Prerequisites: AC 200 [Min Grade: C] and EC 210 [Min Grade: C] and QM 214 [Min Grade: C]
FN 410. Intermediate Financial Management. 3 Hours.
Analysis of long-term corporate financial management; detailed stock and bond valuation, cost of capital, capital budgeting, cash-flow analysis, capital structure, and dividend policy.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 411. Advanced Financial Management. 3 Hours.
Case method approach to study of applied and special topics in financial management; spreadsheet applications used in analysis of initial public offerings, imbedded options, leases, mergers, bankruptcy, and pension plan management.
Prerequisites: (FN 410 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 410 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 412. International Financial Management. 3 Hours.
Financial analysis and decision making in international context. All traditional areas of corporate finance explored.
Prerequisites: FN 310 [Min Grade: C] or BUS 310 [Min Grade: C]

FN 420. Financial Sales & Trading. 3 Hours.
This course introduces interactive trading in financial instruments. Students learn the principles of asset price discovery through real-time trading in a variety of markets, including equities, bonds, options and derivatives. Topics addressed include asset valuation, portfolio management, and risk management in the context of real-time trading of financial instruments.
Prerequisites: (FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and FN 351 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 452. Management of Financial Intermediaries. 3 Hours.
Roles, activities, and functions of financial institutions and their interrelationships.
Prerequisites: (FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and FN 351 [Min Grade: C] and GPAU 2.00) or (FN 310 [Min Grade: C] and FN 350 [Min Grade: C] and GPAT and GPAO 2.00)

FN 453. Financial Risk Management. 3 Hours.
Domestic and international risk management issues. Tools to measure and manage interest rate; exchange rate and commodity price risks.
Prerequisites: (FN 350 [Min Grade: C] and FN 410 [Min Grade: C] and GPAU 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 460. Finance Internship. 3 Hours.
A work experience to enable students to better integrate academic knowledge with practical applications and to enhance students’ educational experiences by making subsequent study more meaningful. Permission of the instructor required.
Prerequisites: (FN 310 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 470. Real Estate Finance. 3 Hours.
A study of the instruments, techniques and institutions of real estate finance and the use of financial analysis in real estate decisions.
Prerequisites: (FN 370 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 370 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 475. Real Estate Investment Analysis and Valuation. 3 Hours.
A study of investment analysis for real estate decisions, including taxation, risk, financial leverage, land use and market analysis will be covered in depth.
Prerequisites: (FN 310 [Min Grade: C] and FN 370 [Min Grade: C] and GPAT and GPAO 2.00) or (FN 310 [Min Grade: C] and FN 370 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

FN 490. Advanced Topics in Finance. 3 Hours.
Issues and problems in selected areas of finance.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

FN 496. Business Analysis and Valuation Using Financial Statements. 3 Hours.
This case-based accounting and finance capstone course articulates the linkage between accounting and finance and provides a framework for using financial statement data in business analysis and valuation contexts. Topics include business strategy, accounting and financial analysis, financial forecasting, and an introduction to business valuation.
Prerequisites: FN 410 [Min Grade: C] or AC 300 [Min Grade: C] or AC 320 [Min Grade: C]

FN 499. Directed Readings in Finance. 1-3 Hour.
Supervised study of specific areas of finance.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

FR-French Courses

Courses

FR 101. Introductory French I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where French is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 101L. Introductory French I Lab Practice. 1 Hour.
Lab for Introductory French I.

FR 102. Introductory French II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where French is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 102L. Introductory French II Lab Practice. 1 Hour.
Lab for Introductory French II.

FR 108. Introductory Intensive French. 4 Hours.
Intensive study of the essentials of language needed for proficient communication. This is a high-paced course, which includes basic exercises in listening comprehension, speaking, writing and reading, as it combines FR 101 and 102. Includes a one-hour lab requirement. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 190. Study Abroad. 1-8 Hour.
First-year level of approved study-abroad program in a French-speaking country.
FR 201. Intermediate French I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where French is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

Continuation of french 201. Continued review of grammar and composition through written exercises of reading, writing, listening comprehension, and speaking skills. Conducted in French. This course meets the Core Curriculum requirements for Area II: Humanities.

FR 206. Intermediate Business French. 3 Hours.
Concentration on writing letters, negotiations and vocabulary build-up for the legal, medical or business fields. Conducted in French. May not concurrently enroll in FR 306.

FR 210. Intermediate French Culture. 3 Hours.
Overview of contemporary French cultural identity, in the context of geographical, social and educational dynamics. Conducted in French. May not concurrently enroll in FR 310.

FR 211. Intermediate Survey of French Literature. 3 Hours.
Intermediate-level overview of French literature and civilization from the seventeenth century to the present. Conducted in French. May not concurrently enroll in FR 311.

FR 220. Intermediate French Composition. 3 Hours.
Fundamental composition course focusing on syntactical patterns of French, vocabulary building, correct usage, stylistic control, writing skills, and free composition. Conducted in French. May not concurrently enroll in FR 320. Writing is a significant component of this course.

FR 230. Intermediate French Conversation. 3 Hours.
Acquisition of conversational and listening skills, vocabulary, and oral automatisms. Conducted in French. May not concurrently enroll in FR 330.

FR 290. Study Abroad. 1-6 Hour.
Approved program in a French-speaking country. Prerequisite: Permission of Department Chair.

FR 305. French-Speaking Cinema. 3 Hours.

FR 306. Business French. 3 Hours.
Concentration on writing letters, negotiations and vocabulary build-up for the legal, medical, or business fields. Conducted in French.

FR 307. Advanced Grammar and Composition I. 3 Hours.
Thorough review of principles of French grammar, vocabulary, and idioms. Also comparative linguistics and phonetics. Conducted in French.

FR 308. Advanced Grammar and Composition II. 3 Hours.

FR 310. Advanced French Culture. 3 Hours.
Overview of the culture of contemporary France with emphasis on social, political, and economic institutions. Concentrates on understanding and comparing French cultural, social, educational, institutional, political, and technological dynamics, at an advanced level. Conducted in French. May not take concurrently with FR 210.

FR 311. Greatest Hits of French Literature. 3 Hours.
This course is an overview of French civilization, culture, literature, and the arts from early to contemporary times. Highlights of best selling works of various authors, with emphasis on fundamental literary concepts and distinctive stylistic features of French discourse, will be reviewed. Conducted in French. May not be taken concurrently with FR 211.

FR 320. Advanced French Composition. 3 Hours.
Fundamental composition course which focuses on the syntactical patterns of French, vocabulary building, correct usage, stylistic control, writing skills, and free composition. Integrates the four language skills into a structured approach to composition. Conducted in French. May not take concurrently with FR 220.

FR 330. Advanced French Conversation. 3 Hours.
Acquisition of conversational and listening skills, vocabulary, and oral automatisms. Conducted in French. Preq: 6 hours of French at the minor level (or equivalent) or permission of instructor. May not concurrently enroll in FR 230.

FR 390. Study Abroad. 1-6 Hour.
Approved program in a French-speaking country.

FR 399. Special Readings in French. 1-3 Hour.
Individualized course of directed readings and activities for students of French. Permission of Department Chair required.

FR 401. Pre-Revolutionary France (1610-1789). 3 Hours.
Literature, culture, and civilization of seventeenth- and eighteenth-century France, reflecting the historical and literary ambience in which Ancient Regime writers, philosophers, and artists worked. Selected works of representative authors. Conducted in French.

FR 402. Post-Revolutionary France (1789-1913). 3 Hours.
Literature, culture, and civilization of late eighteenth-, nineteenth-, and early twentieth-century France, illustrating the impact of the French Revolution on the historical and literary ambience of Europe and the Americas. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 403. Fin-de-Siecle France (1895-1940). 3 Hours.
Major literary and artistic movements of fin-de-siecle France, from La Belle Epoque period through World War I. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 404. French Literature since 1940. 3 Hours.
Cultural trends and literary movements from World War II to the present, including existentialism and the Nouveau Roman. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.

FR 405. Francophone Literature. 3 Hours.
French-speaking literature outside France that developed through colonization, decolonization, revolution, and emigration. Representative writers from Francophone countries with emphasis on Africa and the Caribbean. Selected works of representative authors. Selections will vary according to instructor. Conducted in French.
FR 410. Special Topics in French. 3 Hours.
Seminar on individual authors, specific genres, important literary movements, or literary discourse/theory. Selected works of representative authors. Selections will vary according to instructor. Conducted in French. May be repeated for credit.

FR 412. French Civilization: before 1789 Pre-Revolutionary. 3 Hours.
Historical and cultural foundation of France, from its conquest by Julius Caesar to the French Revolution. Conducted in French.

FR 413. French Civilization after 1789 Post-Revolutionary. 3 Hours.
The history and myths of France after the French Revolution that produced French civilization. Conducted in French.

FR 490. Study Abroad: French. 1-6 Hour.
Approved program in a French-speaking country.

FR 499. Directed Studies. 1-3 Hour.
Individualized course of directed readings and activities for students of French. Permission of Department Chair required.

GCLH-Global Comm Ldshp Honors Courses

Courses

GCLH 150. Burning Issues. 3 Hours.
Introductory course for students in the Global and Community Leadership Honors Program. Students will learn about various issues impacting the world today. Course will include guest speakers, topical readings, and significant reflective writing. Ultimately, students will select the issue that ignites their passion – their “burning issue”.

GCLH 210. Thinking Locally and Globally. 1-3 Hour.
This course engages students in moderator development techniques needed to conduct community forums and exposes them to cross-cultural participatory decision-making through an immersion experience.
Prerequisites: GCLH 105 [Min Grade: C] and GCLH 205 [Min Grade: C]

GCLH 301. Leadership and Community Engagement. 1-3 Hour.
This course provides students with field experiences in partnership with community or local government agencies. Through readings, discussions and written reflections, students will explore the meaning of leadership and community engagement. Student placements are based on an issue of interest, thus allowing them to apply knowledge gained in both their major field and leadership courses. The goal of the course is to bring students to a deeper understanding of their role as leaders in service to the community and in applying knowledge for the benefit of Birmingham and beyond.
Prerequisites: GCLH 105 [Min Grade: C] and GCLH 205 [Min Grade: C] and GCLH 210 [Min Grade: C] and HAC 301 [Min Grade: C]

GCLH 350. Stoking the Fire: Leadership in Action. 3 Hours.
Practical application of leadership skills for students in the Global and Community Leadership Honors Program. Students will learn, develop, and put into practice a pragmatic skill set for management and operations in social change leadership.

GER-Gerontology Courses

Courses

GER 280. Biology of Aging. 3 Hours.
Current understanding of aging, measurement of aging changes, theories of aging, and aging changes in various human systems.
Prerequisites: BY 123 [Min Grade: D]

GER 285. Introduction to Aging. 3 Hours.
Aging experience in modern world. Theories of aging, dimensions of aging, everyday concerns associated with aging, and future prospects of aging.Guest lectures by professionals in the field and other faculty in gerontology.

GER 309. Community Resources for Special Populations. 3 Hours.
Analysis of community-based programs for specific populations: older citizens, persons with HIV/AIDS, and the chronically ill.

GER 397. Advanced Directed Readings in the Biology of Aging. 1-3 Hour.
Reading and independent study in selected areas under supervision of faculty sponsor. Gerontology topic required.

GER 398. Research Practicum in Psychology. 1-3 Hour.
Independent project, study, or reading supervised by member of faculty.

GER 403. Politics of Aging. 3 Hours.
Role of aging in political process. Political demands made by elderly, role of aging in political decision-making, and policy outputs relevant to older population.

GER 407. Pathology of Memory. 3 Hours.
Memory disorders from standpoint of experimental psychology and neuropsychology. Amnesic syndrome, dementia, transient memory disorders, Alzheimer’s disease, epidemiology and public health issues.

GER 411. Bio-Psycho-Social Aspects of Aging for the Health. 3 Hours.
Overview of current gerontological-geriatric information. Special needs of the elderly in receiving healthcare services.
GER 420. Anthropology of Old Age. 3 Hours.
Anthropology of Old Age: Cross-cultural perspective of status alternatives for elderly. Examination of differing roles, especially kinship, of elderly in Africa, Europe, Oceania, Middle East, and various ethnic groups in U.S.

GER 425. Psychology of Aging. 3 Hours.
Age changes in human cognition and behavior. Sensory processes, memory, intelligence, physiology and health, psychopathology, and life-span development and adjustment.

GER 438. Gerontology and Geriatrics Multidisciplinary Core. 3 Hours.

GER 455. Minority Aging. 3 Hours.
Cross-racial/ethnic exploration on national level of special problems of minority aged groups such as Latinos, Blacks, Chinese, Japanese, Koreans, Pacific-Asians, and American Indians. Family, church, healthcare, housing, adult education, retirement, income, and recreation.
Prerequisites: SOC 100 [Min Grade: D]

GER 456. Death and Dying. 3 Hours.
Death and dying from sociological and social psychological perspectives. Social significance of death as human existential phenomenon. Recent trends in definition, distribution, and handling of death and dying (e.g., interaction with dying persons, hospice movement, and funeral practices).
Prerequisites: SOC 100 [Min Grade: D]

GER 457. The Aging Family. 3 Hours.
Exploration of changes in family structure; status of aging in family in various societies; intra-and inter-generational relations; family-related role transitions.
Prerequisites: SOC 100 [Min Grade: D]

GER 462. Environment and Aging. 3 Hours.
Analysis of special consequences of residential environment for older people. Patterns of residence among elderly; fit between lifestyles and types of residence; consequences of living in segregated versus age-integrated neighborhoods, retirement homes, and nursing homes; examination of policy options.

GER 480. Women and Aging. 1 Hour.
Subjects of special interest, such as women and religion, women in civil rights movement, and theories of women's studies. Varies in content depending upon topic. Students may enroll under these numbers multiple times but topic may not be repeated.

GER 485. Age Stratification. 3 Hours.
Description of normal aging process; survey of individual troubles and group social problems associated with aged. Specific topics include health, economic status, work/retirement, family relations, housing/living environments, and transportation problems.

GER 488. Sociological Practice. 3 Hours.
Students will be involved in community research projects related to intergenerational relations, aging, medicine, and/or health. Placement in community organizations, e.g., schools, senior centers, to focus on research methods related to social policy.
Prerequisites: SOC 100 [Min Grade: D]

GER 490. Independent Study and Special Courses in Sociology. 1-3 Hour.
Individually designed programs for students wishing to conduct semi-independent research or guided reading in gerontology.

GER 491. Independent Study and Special Courses in Sociology. 1-3 Hour.
Individually designed programs for students wishing to conduct semi-independent research or guided reading in gerontology.

GER 498. Independent Study I. 1-3 Hour.
Community service projects under direction of faculty.

GER 499. Independent Study II. 1-3 Hour.
Community service projects under direction of faculty.

GGSC-Genetic and Genomic Sciences

Courses

GGSC 101. Your Genome. 3 Hours.
Advances in genetics and genomics, and especially the sequencing of the human genome, are making it possible to customize medical care to the specific needs of an individual. This course will introduce students to basic concepts in genetics and genomic sciences, as well as familiarize them with the various tools available that enable personalization of healthcare. Students from a wide range of disciplines with minimum scientific background can participate, and there is no required textbook. This course is intended for non-Genetics and Genomic Sciences majors.

GGSC 201. Research Experience in Molecular Genetics. 3 Hours.
A course-based authentic research experience with genomic technologies such as CRISPR-Cas9 (programmable nucleases) to make genetic modifications in a model organism.

GGSC 250. Special Topics in Genetics and Genomics Sciences. 1-3 Hour.
Covers different topics including fundamentals and applications in the fields of genetics and genomics.

GGSC 310. Genome Structure and Organization. 3 Hours.
This course will cover the general concepts of genomics including gene structure and function, genomic technologies and their applications, and comparative genomics.
Prerequisites: BY 210 [Min Grade: C] and CH 117 [Min Grade: C] and CH 118 [Min Grade: C]

GGSC 320. Colloquium in Genetics and Genomics Science. 1 Hour.
Faculty-led seminar course that exposes students to cutting edge research topics and career opportunities in the fields of genetics and genomics. Students will read assigned articles and be prepared for discussion.

GGSC 350. Special Topics in Genetics and Genomics Sciences. 1-3 Hour.
Covers different topics including fundamentals and applications in the fields of genetics and genomics.

GGSC 355. Independent Study in Genetics and Genomics Sciences. 1-3 Hour.
In-depth study of fundamentals and applications in the fields of genetics and genomics under the direct supervision of a faculty member. Permission of Instructor Only.

GGSC 380. Undergraduate Research in Genetics and Genomics Sciences. 1-3 Hour.
Research project for non-GGS Honors students under the supervision of a faculty sponsor. May be repeated for a total of 9 semester credit hours in a 2 or 3 semester period.

GGSC 390. Honors Research in Genetics and Genomics Sciences. 1-3 Hour.
Research project for GGS Honors students under the supervision of a faculty sponsor. May be repeated for a total of 9 semester credit hours in a 2 or 3 semester period.
GGSC 410. Genetic Basis of Human Disease. 3 Hours.
This course will focus on the medical applications of genetics and genomics. Topics covered include, but are not limited to major forms of chromosomal abnormalities, mutations and genetic disorders, genetic risk assessment and population genetics, and genomic approaches to diagnosis.
Prerequisites: BY 210 [Min Grade: C] and CH 117 [Min Grade: C] and CH 118 [Min Grade: C] and (GGSC 310 [Min Grade: C] or BY 311 [Min Grade: C])

GGSC 420. Applications of Bioinformatics. 3 Hours.
Introduction to computational tools and bioinformatics databases used in the fields of genetics and genomic sciences. This course will cover a wide variety of different bioinformatics applications, which will be taught through use of available on-line bioinformatics resources. Topics covered include large-scale genomic databases, sequence analysis systems, protein sequence analysis, structural bioinformatics, proteome folding, and homology modeling.
Prerequisites: BY 210 [Min Grade: C] and CH 117 [Min Grade: C] and CH 118 [Min Grade: C] and (GGSC 310 [Min Grade: C] or BY 311 [Min Grade: C])

GGSC 490. Model Systems for Genetics Disorders. 3 Hours.
Invertebrate and non-human vertebrate species are commonly used in scientific research work to provide significant insights into human genetic processes and disease. This course focuses on the different methods and strategies by which researchers use these systems for genetic and genomic analyses of human biology and relevant disorders. Model organisms covered include, but are not limited to nematodes (C. elegans), fruit flies (Drosophila sp.), zebrafish (Danio rerio), and mice (Mus musculus). Capstone course (GGS majors). Students that enroll in this class as their capstone experience are expected to do writing or presentation assignments to fulfill their capstone requirement.
Prerequisites: BY 210 [Min Grade: C] and CH 117 [Min Grade: C] and CH 118 [Min Grade: C] and (GGSC 310 [Min Grade: C] or BY 311 [Min Grade: C])

GGSC 491. Personalized Genomic Medicine. 3 Hours.
Significant developments in the fields of genetics and genomics are making it possible to tailor medical care to the specific needs of patients. New diagnostic tests, up to and including whole genome sequencing, provide increasingly powerful tools for the identification of the genetic basis of both rare and common disorders. Better understanding of the causes of disease are permitting drugs to be developed that precisely target disease mechanisms, increasing the efficacy and avoiding side effects. These and other new advances are leading to major changes in healthcare delivery and provide the consumer with new opportunities and complex choices. This course will focus on exploring state-of-the-art genetic, genomic, and informatic tools now available to enable personalization of healthcare. Capstone course (GGS majors). Students that enroll in this class as their capstone experience are expected to do writing or presentation assignments to fulfill their capstone requirement.
Prerequisites: BY 210 [Min Grade: C] and CH 117 [Min Grade: C] and CH 118 [Min Grade: C] and (GGSC 310 [Min Grade: C] or BY 311 [Min Grade: C])

GGSC 492. Undergraduate Research Seminar in Genetics and Genomic Sciences. 3 Hours.
Elective course for non-GGS Honors students who perform at least two semesters of GGSC 380. Over the course of the semester, students will learn how to develop and complete a paper or thesis on their research work while working closely with a supervising faculty member. In addition, the course will prepare them to present their research findings in a seminar format. Through these activities, students will develop effective skills in both written and oral scientific communication. Students will present a formal seminar on their research at the end of the course. This course can be taken the first semester following the completion of the research project, or alternatively can be taken concurrently with Undergraduate Research in Genetics and Genomic Sciences (GGSC 380) during the student's final semester of supervised research. Designated a Capstone course (GGS majors).

GGSC 493. Honors Research Seminar in Genetics and Genomic Sciences. 3 Hours.
All GGS Honors students are required to take this weekly course. Over the course of the semester, students will learn how to develop and complete a paper or thesis on their research work while working closely with a supervising faculty member. In addition, the course will prepare them to present their research findings in a seminar format. Through these activities, students will develop effective skills in both written and oral scientific communication. Students will present a formal seminar on their research at the end of the course. This course can be taken the first semester following the completion of the research project, or alternatively can be taken concurrently with Honors Research in Genetics and Genomic Sciences (GGSC 390) during the student's final semester of supervised research. Can be taken as a Capstone course (GGS majors).

GL-Geology Courses

GN-German Courses

Courses

GN 101. Introductory German I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where German is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 101L. Introductory German I Lab Practice. 1 Hour.
Lab for Introductory German I.

GN 102. Introductory German II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where German is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.
GN 102L. Introductory German II Lab Practice. 1 Hour.
Lab for Introductory German II.

GN 190. Study Abroad. 1-8 Hour.
Approved novice-level program in German-speaking country. Course of study will vary according to array of approved offering and student interest. Permission of the Department Chair and Director of Education Abroad required.

GN 201. Intermediate German I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where German is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 202. Intermediate German II. 3 Hours.
Continuation of GN 201. Conducted in German. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 203. German Culture and Civilization. 3 Hours.
Introduction to historical and contemporary aspects of German culture through readings and other media. Emphasizes continued development of oral and written skills. Conducted in German.

GN 204. Readings in German Literature. 3 Hours.
Selections from representative modern authors. Emphasis on oral and written practice. Conducted in German. This course meets the Core Curriculum requirements for Area II: Humanities.

GN 205. German for the Professions. 3 Hours.
Intensive conversation course designed to acquaint students with more extensive vocabulary of German-speaking professionals. Students also learn about the cultural context in which German is used in various professions. Conducted in German.

GN 206. German for Technology and Media. 3 Hours.
Practice in the use of technology and media in German Studies. Conducted in German.

GN 210. German Culture and Civilization II. 3 Hours.
Highlights of cultural history from the Middle Ages to the present.

GN 290. Study Abroad. 1-6 Hour.
Approved program in a German-speaking country.

GN 299. Special Readings in German. 1-3 Hour.
This is an individualized course of directed readings and activities for intermediate students of German. Course design is determined by the instructor and the student, and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of German language and culture. Intermediate proficiency in reading, writing, listening and speaking German is the targeted outcome. Permission of Department Chair required.
Prerequisites: GN 201 [Min Grade: D]

GN 390. Study Abroad. 1-6 Hour.
Approved program in a German-speaking country.

GN 399. Directed Readings in German. 3 Hours.
Special Readings in German.

GN 480. Special Topics in German Literature. 3 Hours.
Emphasis on particular authors, genres, or topics. May be repeated for credit.

GN 490. Study Abroad: German. 1-6 Hour.
Approved program in a German-speaking country.

GN 499. Directed Studies in German. 3 Hours.
Directed studies. Permission of Department Chair required.

HC-Honors College

Courses

HC 101. Honors College Leadership. 1-3 Hour.
This course is the first course in the three-course Honors College leadership series. Specifically, this course is an introduction to the study of leadership; including the study of traits and characteristics of leaders, values & ethics used in leadership, the situational nature of leadership, the importance of Emotional Intelligence in leadership, and the study of leadership as a team activity.

HC 110. Honors Seminar: Special Topics. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience course.

HC 111. Honors Seminar in Engineering. 1-3 Hour.
Honors College seminar in Engineering. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 112. Honors Seminar in Public Health. 0-3 Hours.
Honors College seminar in Public Health. Course content varies and is based on topics in Public Health of interest to honors students. Freshmen honors students may take in lieu of a First Year Experience course.

HC 113. Honors Seminar in Education. 1-3 Hour.
Honors College seminar in Education. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 114. Honors Seminar in Business. 1-3 Hour.
Honors College seminar in Business. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 115. Honors Seminar in Health Professions. 1-3 Hour.
Honors College seminar in Health Professions. Course content varies and is based on health-related topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 116. Honors Seminar in Social and Behavioral Sciences. 1-3 Hour.
Honors College seminar in Social and Behavioral Sciences. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 117. Honors Seminar in Natural Sciences and Mathematics. 1-3 Hour.
Honors College seminar in Natural Sciences and Mathematics. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 118. Honors Seminar in Arts and Humanities. 1-3 Hour.
Honors College seminar in Arts and Humanities. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.
HC 119. Honors Seminar. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 120. Honors Seminar. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students. Honors students may take in lieu of a First Year Experience (FYE) course.

HC 200. Participation in Honors. 1 Hour.
Student must participate in and reflect on at least eight enrichment events sponsored by the UAB Honors College including lectures, workshops and service projects.

HC 201. Leadership Skills. 1-3 Hour.
This course is the second course in the three-course Honors College leadership series. HC 101 focused on leadership principles and individual characteristics that contribute to a leader's style. HC 201 will focus on planning the project to be carried out in HC 301 and on related leadership skills such as communication methods, professionalism and the identification of measureable outcomes.
Prerequisites: HC 101 [Min Grade: C]

HC 211. Honors Seminar in Engineering. 1-3 Hour.
Honors College seminar in Engineering. Course content varies and is based on topics of interest to honors students.

HC 212. Honors Seminar in Public Health. 1-3 Hour.
Honors College seminar in Public Health. Course content varies and is based on topics in Public Health of interest to honors students.

HC 213. Honors Seminar in Education. 1-3 Hour.
Honors College seminar in Education. Course content varies and is based on topics of interest to honors students.

HC 214. Honors Seminar in Business. 1-3 Hour.
Honors College seminar in Education. Course content varies and is based on topics of interest to honors students.

HC 216. Honors Seminar in Social and Behavioral Sciences. 1-3 Hour.
Honors College seminar in Social and Behavioral Sciences. Course content varies and is based on topics of interest to honors students.

HC 217. Honors Seminar in Math and Science. 1-3 Hour.
Honors College seminar in Natural Sciences and Mathematics. Course content varies and is based on topics of interest to honors students.

HC 218. Honor Seminar in Arts and Humanities. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students.

HC 219. Honors Seminar. 1-3 Hour.
Honors College seminar. Course content varies and is based on topics of interest to honors students.

HC 300. Contemporary Social Issues, Leadership and Scholarship. 0-3 Hours.
Analysis of classical and modern foundations and principles of leadership and a survey of contemporary social issues. Practice in scholarship essay writing, interviewing, and critical thinking. Intended for national and international scholarship and fellowship applicants. Enrollment limited to sophomores and juniors.

HC 301. Advanced Leadership Skills and Practice. 1-3 Hour.
Provides students with an opportunity to lead an independent project using leadership principles and skills.
Prerequisites: HC 201 [Min Grade: C]

HC 311. Honors Seminar in Engineering. 1-3 Hour.
Advanced Honors College seminar in Engineering. Course content varies and is based on topics of interest to honors students.

HC 312. Honors Seminar in Public Health. 1-3 Hour.
Advanced Honors College seminar in Public Health. Course content varies and is based on topics in Public Health of interest to honors students.

HC 313. Honors Seminar in Education. 1-3 Hour.
Advanced Honors College seminar in Education. Course content varies and is based on topics of interest to honors students.

HC 314. Honors Seminar in Business. 1-3 Hour.
Advanced Honors College seminar in Business. Course content varies and is based on topics of interest to honors students.

HC 316. Honors Seminar in Social and Behavioral Sciences. 1-3 Hour.
Advanced Honors College seminar in Social and Behavioral Sciences. Course content varies and is based on topics of interest to honors students.

HC 317. Honors Seminar in Natural Sciences and Mathematics. 1-3 Hour.
Advanced Honors College seminar in Natural Sciences and Mathematics. Course content varies and is based on topics of interest to honors students.

HC 318. Honors Seminar in Arts and Humanities. 1-3 Hour.
Advanced Honors College seminar in Arts and Humanities. Course content varies and is based on topics of interest to honors students.

HC 319. Honors Seminar: Special Topics. 1-3 Hour.
Advanced Honors College seminar. Course content varies and is based on topics of interest to honors students.

HC 395. Honors Study Abroad. 0-3 Hours.
Students will participate in an honors study abroad experience. Instructor and Director of Education Abroad approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 396. Honors Service Learning. 0-3 Hours.
Students will propose and complete a service learning project under the supervision of a faculty member. Instructor approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 397. Honors Independent Study. 0-3 Hours.
Students will propose and complete an honors-level academic project under the supervision of a faculty mentor. Instructor approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 398. Honors Undergraduate Research Studies. 0-3 Hours.
Students will propose and conduct an undergraduate research project under the supervision of a faculty mentor. Instructor approval required. Must be an Honors College student in good standing. May be repeated for credit.

HC 399. Internships or Co-op Studies. 0-3 Hours.
Students will propose and complete an internship or co-op experience under the supervision of a faculty mentor. Must be an Honors College student in good standing. Instructor approval required. May be repeated for credit.
HC 401. Honors Independent Leadership Project. 1-3 Hour. Students will propose and complete a leadership experience under the supervision of a faculty mentor. Must be an Honors College student in good standing. Instructor approval required. May be repeated for credit.

Prerequisites: HC 301 [Min Grade: C]

HCM-Health Care Management

Courses

HCM 302. Principles of Management in Health Care. 3 Hours. Basic management concepts in context of health care organizations; oral and written communication; planning and goal setting; decision-making and problem solving; personnel selection; performance appraisal.

HCM 305. Effective Communication and Professionalism in Health Care. 2 Hours. Professional traits, behaviors, skills, and attitudes needed to perform in a professional, ethical, and competent manner in the health care environment.

HCM 316. Accounting and Finance for Health Care. 3 Hours. Introduction to financial accounting in health care organizations; reasoning and methods of financial accounting in for-profit, not for profit and government entities; and health care industry characteristics affecting financial management.

Prerequisites: (MA 105 [Min Grade: C] or MA 110 [Min Grade: C])

HCM 318. Law for Health Care Professionals. 3 Hours. Principles of law and U.S. legal system as applied in health care organizations; documentation, privacy, security, and release of health information; liability, consent, and malpractice.

HCM 320. Microcomputer Applications for Health Care Professionals. 3 Hours. Word Processing, spreadsheet, database, file management, information systems, internet, and presentation applications in managerial functions.

HCM 325. Healthcare Law and Ethics. 3 Hours. Principles of law and ethics in the U.S. healthcare legal system as applied in health care organizations; patient's rights, privacy, security confidentiality, informed consent, documentation and release of health information, liability, and malpractice.

HCM 330. Health Care Systems. 3 Hours. Overview of U.S. health care system; implications of environmental trends and health care policy on health care organizations; introduction to financing of health care.

HCM 350. Medical Terminology for Health Professionals. 3 Hours. Systematic study of medical terminology with emphasis on constructing, understanding and using medical terms. Content includes diseases, symptoms & signs of disease, diagnostic, and clinical procedures and treatment modalities.

HCM 360. Statistics for Managers. 3 Hours. Basic descriptive and inferential statistics as applied in managerial processes; computer-based graphic analysis of data; use of computer-based statistical software; application of statistical process control tools. Quantitative Literacy is a significant component of this course.

Prerequisites: MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

HCM 375. Managerial Epidemiology. 3 Hours. Methods and applications of managerial epidemiology; measurement and epidemiological tools that inform health care management decisions.

Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 401. Organizational Studies in Health Care. 4 Hours. Behavioral science concepts including leadership, managing change, negotiating and conflict resolution, team building, organizational assessment, marketing, and entrepreneurship in the context of health care organizations.

Prerequisites: (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 402. Economics for Healthcare Managers. 3 Hours. Principles of economics of the health care system on the basis of incentives, risk management, asymmetrical information, and moral hazards; practical application of economic principles, including supply and demand, market structure and forecasting.

Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 403. Operations Management in Health Care Organizations. 4 Hours. Operational functions of mid-level managers in health care organizations including work design and re-engineering; systems theory; development, planning, and analysis; ergonomics and work environment; quality improvement techniques.

Prerequisites: (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 405. Human Resource Management in Health Care Organizations. 4 Hours. Managerial activities in health care organizations related to job descriptions, recruiting, interviewing, hiring, firing, orientation, benefits, appraisal, discipline, and developing clinical and non-clinical personnel.

Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 407. Strategic Management in Health Care Organizations. 3 Hours. Overview of strategic management process; strategic planning in health care organizations from perspective of mid-level manager; emphasis on operational level implementation and control.

Prerequisites: AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C]

HCM 409. Personnel Management in Long-Term Care. 1 Hour. Planning for staffing and staff development of clinical and non-clinical personnel in long-term care facilities.

Prerequisites: AHS 405 [Min Grade: C] or HCM 405 [Min Grade: C]

HCM 410. Long Term Care Facilities Management. 3 Hours. Overview of administrative responsibility for physical facilities; environmental safety; emergency preparedness and response; interdependence and functioning of medical, nursing, social, dietary, and other key resident services.

HCM 411. Biological, Psychological, and Sociological Issues of Aging. 3 Hours. Overview of current gerontological-geriatric information; special needs of the elderly in receiving health care services.

Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 415. Ethics for Health Care Professionals. 3 Hours. Overview of major ethical theories; ethical decision making models; application to patients rights, confidentiality, informed consent, professional relationships, and allocation of scarce resources. Ethics and Civic Responsibility are significant components of this course.

Prerequisites: (AHS 318 [Min Grade: C] or HCM 318 [Min Grade: C]) and (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])
HCM 416. Financial Management in Health Care Organizations. 3 Hours.
Overview of financial management functions at the department level; budgeting and cost analysis for department-level operations and capital expenditures. Fulfills the requirements in Quantitative Literacy.
Prerequisites: (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]) and (AC 200 [Min Grade: C] and AC 201 [Min Grade: C]) or BUS 310 [Min Grade: C] or HCM 316 [Min Grade: C]

HCM 417. Financial Management for Long Term Care Administrators. 2 Hours.
Overview of financial management practices and reimbursement issues and methodologies in long term care facilities.
Prerequisites: (AHS 416 [Min Grade: C] or HCM 416 [Min Grade: C]) and (AHS 421 [Min Grade: C] or HCM 421 [Min Grade: C])

HCM 418. Legal and Regulatory Issues in Long Term Care. 3 Hours.
Governance and administrative responsibilities for compliance with LTC licensure laws, government and accrediting regulations, and facility policies.
Prerequisites: (AHS 318 [Min Grade: C] or HCM 318 [Min Grade: C] or HCM 325) and (AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C])

HCM 420. Long Term Care Resident Care and Quality. 2 Hours.
Planning, managing, and evaluating programs that enhance resident quality of life in long-term care facilities.
Prerequisites: HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]

HCM 421. Introduction to Long Term Care Administration. 3 Hours.
Introduction to the long term care industry and nursing facility operations through seminars, independent media research, and experiential learning.
Prerequisites: HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]

HCM 425. Healthcare Reimbursement Methods. 3 Hours.
Review of diverse financial systems within American healthcare, focus on reimbursement methods and payment systems and how they affect providers and payers. Review of major insurance programs, federal health care legislation, legal/regulatory issues, diagnosis and procedure coding systems, and the impact of coding on reimbursement, compliance and fraud and abuse.
Prerequisites: (AHS 350 [Min Grade: C] or HCM 350 [Min Grade: C]) and (HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C])

HCM 430. Documentation Requirements in Long Term Care. 2 Hours.
Overview of clinical documentation requirements in long term care facilities, including the Resident Assessment Instrument, Minimum Data Set, and Patient Care Plan. Additional focus on information privacy and security.
Prerequisites: (HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]) and (HCM 421 [Min Grade: C] or AHS 330 [Min Grade: C])

HCM 431. Planning and Implementing HE. 3 Hours.
Content and process planning, implementing, and evaluating programs in health education and health promotion. Sociological, psychological, and epidemiological foundations of health promotion programs. Development of practical skills for school, occupational, clinical, and community settings. A comprehensive program planning assessment will reinforce quantitative literacy in the profession. Quantitative Literacy is a significant component of this course.

HCM 432. Continuum of Long-Term Care. 3 Hours.
Survey of providers of long term and elder care, including scope of services provided, review of reimbursement methodologies, clientele served, and political issues affecting their operational practices.
Prerequisites: (HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]) and (HCM 421 [Min Grade: C] or AHS 421 [Min Grade: C])

HCM 435. Clinical and Administrative Information Systems. 3 Hours.
Overview of information systems and applications in health care organization; issues and challenges in system design and implementation.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 450. Quality Management in Health Care. 3 Hours.
Concepts of monitoring and evaluating the quality and appropriateness of patient care and services provided in health care organizations; overview of regulatory guidelines and industry standards; current issues in quality measurement and outcomes.
Prerequisites: AHS 330 [Min Grade: C] or HCM 330 [Min Grade: C]

HCM 460. Research Methods. 3 Hours.
Introductory research methods course for the design and conduct of interdisciplinary health services research, including study design, research ethics, descriptive and advanced statistics, and research reporting.
Prerequisites: (AHS 360 [Min Grade: C] or HCM 360 [Min Grade: C]) or MA 180 [Min Grade: C] or QM 214 [Min Grade: C] or PY 216 [Min Grade: C]

HCM 474. Service Learning in Health Care Management. 2 Hours.
Classroom and experiential learning through designed community based or clinically related service experiences. Students work with community partners to monitor patient health and welfare while gaining insight into the barriers to healthcare access, costs, and quality.
Prerequisites: (AHS 401 [Min Grade: C] or HCM 401 [Min Grade: C]) and (AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C]) and (AHS 405 [Min Grade: C] or HCM 405 [Min Grade: C]) and (AHS 407 [Min Grade: C] or HCM 407 [Min Grade: C]) and (AHS 480 [Min Grade: C] or HCM 480 [Min Grade: C])

HCM 481. Health Care Management Internship. 3,6 Hours.
Capstone course places students in selected healthcare setting supervised by experienced preceptors. Students are exposed to day-to-day managerial functions and participate in organizational projects. Students draw upon, synthesize, and apply classroom learning to healthcare organization environments. Activities focus on the development of problem solutions, effective communications and research skills. Projects focus on Service Learning and students also explore the culture, ethical issues and community impact of the organization.
Prerequisites: (AHS 401 [Min Grade: C] or HCM 401 [Min Grade: C]) and (AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C]) and (AHS 405 [Min Grade: C] or HCM 405 [Min Grade: C]) and (AHS 407 [Min Grade: C] or HCM 407 [Min Grade: C]) and (AHS 480 [Min Grade: C] or HCM 480 [Min Grade: C])

HCM 482. Current Issues in Health Care. 3 Hours.
Identification of current issues in the health care industry, with an emphasis on analyzing organizational impact.
Prerequisites: HCM 330 [Min Grade: C] or AHS 330 [Min Grade: C]
HCM 483. Long Term Care Health Care Management Internship. 6-10 Hours.
Supervised experience in managerial functions in selected long-term care health care organizations.
Prerequisites: AHS 401 [Min Grade: C] or HCM 401 [Min Grade: C]
and AHS 403 [Min Grade: C] or HCM 403 [Min Grade: C] and AHS 405
[Min Grade: C] or HCM 405 [Min Grade: C] and AHS 407 [Min Grade: C]
or HCM 407 [Min Grade: C].

HIM-Health Information Mgmt Courses

Courses

HIM 318. Survey of Human Anatomy and Physiology for Coding. 3 Hours.
Survey course on the structure and function of the body. A systems
approach emphasizing basic anatomy and physiology of the human body.
Prerequisites: AHS 350 [Min Grade: C]

HIM 405. Clinical Information I. 3 Hours.
Study of diseases with emphasis on medical terminology relevant
to clinical documentation in inpatient and outpatient health care
settings. Course content includes manifestation of disease, diagnostic
and therapeutic procedures, and pharmacology for cardiovascular,
respiratory, blood, lymphatic, immune, musculoskeletal, integumentary,
and endocrine body systems and sense organs, oncology and psychiatry.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C] or HIM
318 [Min Grade: C]

HIM 410. Clinical Information II. 3 Hours.
Study of diseases with emphasis on medical terminology relevant
to clinical documentation in inpatient and outpatient health care
settings. Course content includes manifestation of disease, diagnostic
and therapeutic procedures, and pharmacology for cardiovascular,
respiratory, blood, lymphatic, immune, musculoskeletal, integumentary,
and endocrine body systems and sense organs, oncology and psychiatry.
An emphasis will be put on writing a professional paper on a clinical topic.
Writing is a significant component of this course.

HIM 415. Introduction to Health Information Management. 3 Hours.
Study of HIM profession and employment opportunities; functions of a
HIM department and ancillary hospital departments; HIM professional
ethics; HIM professional associations; applications of principles of
management to the efficient administration of health information
services; numbering, filing and preservation of records; master patient
index and the role of The Joint Commission and other accrediting
agencies. An emphasis is placed on the student's ability to apply
HIM professional ethics in real world case scenarios. Ethics and Civic
Responsibility are significant components of this course.

HIM 416. Health Data Concepts. 3 Hours.
Study of the origin, uses, content and format of health care data across
the continuum of health care including both paper and electronic health
records; accreditation, certification and licensures standards applicable
to health records and documentation requirement in various healthcare
facilities relative to the Joint Commission on Accreditation of Healthcare
Organizations, Center for Medicare and Medicaid Services, American
Osteopathic Association and Alabama requirements.
Prerequisites: HIM 415 [Min Grade: C](Can be taken Concurrently)

HIM 417. Pathology for Coders. 3 Hours.
Study of disease with emphasis on the pathology relevant to clinical
documentation in health care settings; includes manifestation of disease,
diagnostic and therapeutic procedures, and pharmacology, for all body
systems.
Prerequisites: AHS 350 [Min Grade: C] and (HIM 318 [Min Grade: C]
or BY 115 [Min Grade: C] or BY 116 [Min Grade: C])

HIM 418. Documentation Standards for Health Data. 3 Hours.
Origin, uses, content, and format of data across the continuum of
health care, including paper and electronic health records; primary and
secondary data sources; documentation best practices; accreditation
standards and regulations applicable to documentation requirements.
Prerequisites: AHS 350 [Min Grade: C] and AHS 318 [Min Grade: C]

HIM 425. Epidemiology and Applied Statistics in Health Care
Organizations. 3 Hours.
Concepts of epidemiology; basic biostatistics; vital statistics; data
collection and data presentation; study designs. Quantitative Literacy is a
significant component of this course.

HIM 430. Clinical I. 1 Hour.
Supervised projects/assignments at approved professional practice sites
where student applies theory from HIM courses. Projects/assignments
include: filing and retrieval, registration processes, assembly/analysis
of paper/electronic records; confidentiality and release of medical
information; security, storage and retention of health records; HIM
department systems analysis and workflow; HIM department organization
and functions; and paper/electronic forms design.

HIM 431. Clinical II. 1 Hour.
Supervised projects/assignments at approved professional practice sites
where student applies theory from HIM courses. Projects/assignments
include: identification of statistical reporting and data requirements;
regulatory, compliance and quality responsibilities/functions; case
management or utilization management functions, ICD-9-CM/CPT-4
coding; case mix management; revenue cycle; and HIM department
productivity.

HIM 440. ICD-10-CM Coding. 4 Hours.
Diagnostic and procedural coding, including the principles of ICD-10-CM
coding and UHDDS guidelines.
Prerequisites: HIM 405 [Min Grade: C] and BY 115 [Min Grade: C] and
BY 116 [Min Grade: C] or HIM 318 [Min Grade: C]

HIM 441. Diagnostic Coding for Health Care Organizations. 3 Hours.
Study of diagnostic and procedural coding including the principles of
ICD-10CM/PCS and UHDDS guidelines; assignment and sequencing of
principal diagnosis and procedure.
Prerequisites: AHS 350 [Min Grade: C] and HIM 318 [Min Grade: C]
and HIM 417 [Min Grade: C] and HIM 418 [Min Grade: C](Can be taken
Concurrently)

HIM 443. Information Resource Management. 3 Hours.
Overview of information management functions related to obtaining,
managing, and using information to improve patient outcomes and health
care facility performance in patient care, governance, management, and
support processes.
HRP 450. Clinical Research. 3 Hours.
Study of design concepts and information systems to support clinical and health services research and investigation, e.g. drug companies, genetic engineering firms, academic institutions and individual researchers; major national research policy-making bodies, their research protocols and their management of information. Students will perform statistical analysis and display of data and results and will critically evaluate published reports of clinical and epidemiological studies.
Prerequisites: HIM 425 [Min Grade: C]

HRP 455. Reimbursement and Regulatory Requirements for HIM. 3 Hours.
Financial aspects of healthcare involving prospective reimbursement; managing the coding function in healthcare organization; quality assurance of coded data; DRGs and other case mix systems; security issues under HIPAA.
Prerequisites: HIM 440 [Min Grade: C] and HIM 460 [Min Grade: C]

HRP 458. Clinical Terminology and Vocabulary. 3 Hours.
Overview of clinical terminologies, vocabularies and classification systems including purposes, organization and structures, mappings in the electronic health record (EHR), and future roles in eHIM.
Prerequisites: HIM 440 [Min Grade: C]

HRP 460. Coding/Classification Systems. 3 Hours.
Ambulatory care coding -- CPT-4, HCPCS, and CMS’s coding and reporting requirements for ambulatory care.
Prerequisites: HIM 405 [Min Grade: C]

HRP 465. Clinical Evaluation and Outcomes Research. 3 Hours.
Review of current approaches to measuring, evaluating, and reporting clinical outcomes in health care organizations.

HRP 470. Data Management. 3 Hours.
Data collection for enterprise; reportable and specialized databases; data mining of healthcare data; data information; file structures; data security; and data retrieval.
Prerequisites: AHS 435 [Min Grade: C]

HRP 475. Electronic Health Records. 3 Hours.
Strategies for developing and implementing the framework and conceptual model of the electronic health record for enterprise-wide data collection, archiving, aggregation and reporting, and data security of health information for patient care.
Prerequisites: AHS 318 [Min Grade: C]

HRP 481. Issues in Health Information Management. 1-4 Hour.
A seminar that emphasizes management skills/tools used in HIM practice and highlights current developments in HIM. Emphasis on writing documents (e.g. memo, policy, team charter, teaching plan); emphasis on calculating productivity, FTEs and costs for alternative solutions to reduce backlog in a designated function; and emphasis on the HIM professional’s role in advocacy for current national issues in HIM practice, such as privacy and security of health information and the personal health record.

HRP 200. Responsible Conduct of Research Training. 0 Hours.
Provides required RCR training for undergraduates conducting any form of research at UAB.

HRP 300. Survey of Health Professions. 2 Hours.
A survey of undergraduate and graduate health professions that provide patient care and other services in the health care delivery system. Designed to assist undergraduate students in career investigation.

HRP 401. Honors Seminar I. 1 Hour.
Introduction to leadership and team principles.

HRP 402. Honors Seminar II. 1 Hour.
Advanced leadership and team principles. Skills development in information critiquing, report writing, and presentation techniques.

HRP 405. Team-Based Problem Solving in the Health Professions. 2 Hours.
Blend of didactic, online, and mentored team work; development of effective team skills, including assessment, conflict management, and project development and management; information searching and critiquing, literature review, and technical writing. May be taken for Honors credit.

HRP 410. Honors Research Project. 1-3 Hour.
Development and completion of a scholarly project for presentation and publication under the direction of a faculty mentor. Two to four terms required for a minimum accumulation of 4 semester hours.

HRP 411. Honors Community Service Project. 1-3 Hour.
Development and completion of a community-based team project for presentation and publication under the direction of a faculty mentor.

HRP 415. Mentored Research in the Health Professions. 1-6 Hour.
Field, laboratory, literary study, service learning or community based research project directed by a supervising mentor.

HRP 475. Special Topics in Health Services or Clinical Research. 1-4 Hour.
Faculty-led exploration of current topics and issues in health services or clinical research.

HUM-Humanities

Courses

HUM 120. Introductory Humanities Seminar. 3 Hours.
Special topics to introduce students to the study of the humanities.

HUM 160. First Year Experience in HUM. 1 Hour.
The objective of this course is to introduce incoming freshmen to an education in the humanities in context of the university. It is meant to help prepare students for a successful collegiate career in the study of the humanities.

HY-History Courses

Courses

HY 101. Western Civilization I. 3 Hours.
This course examines the diverse cultures which are included in what is commonly referred to as the West. Students develop an understanding of the evolution of religious, political, social, military and economic structures and relationships in Europe and the Middle East up to 1600. Students develop an appreciation of how individuals have influenced and been influenced by time and place. Ethics and Civic Responsibility are significant components to this course. This course meets the Core Curriculum requirements for Area IV: History.
HY 102. Western Civilization II. 3 Hours.
This course examines developments in the Western World since 1600. Since for most of this period, European culture dominated the world the course will also examine interactions between the West and non-European cultures. The course focuses on political, economic, social and cultural developments and stresses change and continuity over time as well as the various ideas and debates which have marked the modern West. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 104. World History to 1600. 3 Hours.
This course is designed to provide students with an understanding of the development of major world civilizations from pre history to the early modern era (ca. 1600 CE). The principal characteristics of these civilizations such as political development, social structure, gender relations, religious beliefs and philosophies, will be examined. The ultimate goal is for students to see the world around them with an increased understanding and appreciation for the societies, traditions, and ideas that existed in the past and in many cases still exist and influence us today. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 105. World History 1600 to the Present. 3 Hours.
This course will examine many significant world historical developments from the beginning of the early modern era (approximately 1600 CE) to the present. These historical developments include: intellectual movements, political revolutions and nationalism, industrialization, cultural changes, and the relationship between Western and non-Western societies. The ultimate goal of this course is for students to perceive the world around them with an increased understanding and appreciation for the diverse societies, traditions, and ideas that existed in the past and in many cases still exist and influence us today. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 106. World History and Technology I. 3 Hours.
Survey of the role of technology in history from prehistoric times to the beginning of the Scientific Revolution. The first of a two-course sequence, it begins in the Paleolithic and Neolithic Eras and ends with the era of European global expansion. Students will consider not only about the great advances of humankind but also the scientific principles behind them, focusing on major themes such as power, water, transportation, and materials. The course uses tech as a lens through which to study humans’ increasing control of the environment and interactions with the world around them.

HY 107. World History and Technology II. 3 Hours.
Survey of the role of technology in history from the Enlightenment to the present day. It is the second of a two-course sequence. The course moves through the British Industrial Revolution in the 17th century and ends in the 21st century with examination of current issues and trends. Both the positive and negative impacts of technology development, including imperialism and Third World development, will be addressed.

HY 120. The United States To 1877. 3 Hours.
This course provides an introduction to some of the main political, social, cultural, and economic developments in American history from the era of exploration and colonial settlement through the end of the Civil War. Central themes of the course will include the cross-cultural encounters (and clashes) in the Americas between various European and native peoples; the spectacular growth of European settlements in North America; the creation (always contested) of an American national identity; the emergence of a market economy and the question of American ideas of success and happiness. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 121. The United States Since 1877. 3 Hours.
This course assists students in gaining a sophisticated understanding of the development of modern America - its politics, economics and social fabric together with how these have helped shape its foreign involvement. In the process, this course helps students understand the big idea of “change over time” and how all people face the choice of using change to help themselves and others - or not do this with resultant consequences. Finally, this course offers “lessons” out of our past about civic engagement, cultural diversity, and emerging globalism - “values” for productive citizenship on the contemporary scene. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: History.

HY 201. Economic History of the United States. 3 Hours.
Economic developments of U.S. from colonial times to present, focusing on business organization, technology and innovation.

HY 202. Reacting to the Past. 3 Hours.
Reacting to the Past” is an award-winning pedagogy involving complex, collaborative role-playing games in which students seek to attain “victory objectives” while grappling with central tests in the history of ideas. The class will conduct several Reacting games that will allow students to explore key moments in intellectual and cultural history.

HY 203. History of American Technology. 3 Hours.
History of civilization of new technology in the United States emphasizing role of inventors and engineers.

HY 206. Introduction to Film and History. 3 Hours.
This course will examine fiction and non-fiction films as socially significant documents. Students will receive an introduction to the techniques of film analysis in the class.

HY 207. The American Film. 3 Hours.
Creation and development of motion pictures in the United States, including how films are made, American film industry, and impact of Hollywood on American culture.

HY 208. Women in Film. 3 Hours.
This course will provide a history of women in film, focusing on both women working in the film industry and the representation of women on screen. The course will focus on American film history, 1930's Hollywood to the present.

HY 210. History of American Medicine. 3 Hours.
Survey of patterns and trends in American medicine.

HY 214. Roman Republic. 3 Hours.
Survey of Roman history, society, and culture from the founding of the city of Rome in 753 BCE to the death of Julius Caesar in 44 BCE. Course covers the conquest of Italy, the Punic wars, and the conquest of the Hellenistic kingdoms. Emphasis on the impact of military success on the lifestyle and culture of the Roman people.
HY 217. History of Ancient Greece. 3 Hours.
Ancient Greece from prehistory to Alexander and the Hellenistic age.

HY 218. History of the Roman Empire. 3 Hours.
Survey of Roman history, society, and culture from the death of Julius Caesar in 44 BCE to the reign of Constantine in the early fourth century CE, with an emphasis on how the Roman empire ruled.

HY 219. Late Antiquity and Early Middle Ages. 3 Hours.
This course explores the transition from the Classical Greco-Roman Mediterranean world to the Middle Ages. It begins with the conversion of the Roman Empire to Christianity. Then it explores the collapse of the Western Roman Empire and the continuation of the Eastern Empire (known to historians as the Byzantine Empire). It places Mohammad and the rise of Islam in its historical context and explores the impact of the early Islamic conquests. The course will finish around the year 800 with the reign of Charlemagne in the West and Islamic Abbasid Dynasty ruling in Baghdad.

HY 223. African-American History to 1865. 3 Hours.
Ancient African civilizations and their demise, the slave trade and slavery in New World to the Civil War.

HY 224. African-American History Since 1865. 3 Hours.
Survey of late 19th century to present African American history.

HY 225. History of Alabama. 3 Hours.
Social, economic, and political survey of state from prehistory to present.

HY 226. History and Development of Birmingham. 3 Hours.
Social, economic, and political survey of the Birmingham area.

HY 227. Technology and Society. 3 Hours.
Relationship of machines and people in modern industrial society. Topics from recent American history and from contemporary problems.

HY 228. Southern Industrial History. 3 Hours.
Provides an overview of the major social, economic, and political developments behind the numerous attempts to industrialize the South from the post Civil War period to the present. Attention will be paid to Birmingham's Industrial District, the impact of World War I and World War II on Southern Industry, Labor Music, Women in Industry, Organized Labor and Unions, as well as the impact of the Space and Automobile Industry on the Modern South.

HY 230. Middle East 550 BCE to 1453 CE. 3 Hours.
Survey course on the history of the Middle East from the rise of the Persian Empire to the Ottoman conquest of Constantinople. Course covers the Persian Empire, Alexander the Great's conquests, Rome in the Middle East, the early Islamic Conquests, and the impact of the Crusades. The development of Judaism, Christianity, and Islam are emphasized.

HY 234. The World Since 1945. 3 Hours.
Events and trends from the end of the Second World War to the present, emphasizing the origins of the Cold War, decolonization, Europana integration, globalization, the rise of China, India and Japan, the revolutions in Easten Europe in 1989 and the collapse of communism in the Soviet Union, the third wave of democratization, Islamic fundamentalism, 9/11, and the international financial crisis of 2008-2009.

HY 235. War in the Modern World. 3 Hours.
American military history from colonial times to present, including impact of Western ideas and technology on national defense policy.

HY 236. Europe Since 1945. 3 Hours.
After the Nazi catastrophe, what was to be the future of Europe? After sketching the context of unparalleled death and destruction, this course focuses on European reconstruction on both sides of the Iron Curtain. While contrasting Eastern and Western regimes, course will also seek to compare postwar recovery plans, cultural aesthetics, and shared legacies borne out of the experience of World War II. Strong emphasis is given to questions of memory and national identity, the history of European integration in the West, and socialist interdependence in the East. After 1989, course will focus on the expansion of the European Union, alongside transnational cultural phenomena such as European soccer, environmentalism, spaces of memory, and the loaded question of Europe’s “boundaries” in the east and southeast.

HY 237. Eastern Europe 1600-1918. 3 Hours.
Before WWI, Eastern Europe consisted of a patchwork of ethnic groups ruled by four empires, which were ultimately destroyed with the rise of nationalism. This course explores this lost world of Eastern Europe in the Age of Empire and attends to four conceptual areas which dominated it: the concept and practice of Empire; the genesis, development, and triumph of nationalism; the contribution of the region's diverse Jewish population; and questions surrounding the ultimate downfall of this world. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 238. Eastern Europe 1914-Present. 3 Hours.
This course traces drastic transformative processes which remade Eastern Europe during the violent twentieth century, including: nationalism, ethnic cleansing, genocide, the Holocaust, communism, the Cold War, and European integration. Virulent nationalism, Nazi atrocities, and the vicious revenge they inspired decimated the multiethnic world that had come before and forged ethnically homogenous nation-states with rigid frontiers. With previous understandings of property rights, moral responsibility, and neighborliness undermined, and with Soviet armies occupying the ruins that remained, communists and their unwitting nationalist allies found fertile ground for the establishment of command economies, which repressed the traumatized survivors of the Second World War and their descendants until 1989. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 239. The Holocaust. 3 Hours.
On the basis of extensive reading, this course introduces students to the central problems surrounding the Nazi genocide of European Jewry as well as the postwar memory debates which have resulted from it. We will examine Jewish culture, contributions, and integration in pre-1932 Europe, as well as after the Holocaust, and conclude by exploring the contemporary influence of the Holocaust, such as in Israeli national identity. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 245. Introduction to Latin American History. 3 Hours.
A sweeping survey of Latin American history from colonial times through the contemporary era focusing on forces and patterns that have shaped the region as a whole, making it broadly distinct from our own “Anglo” America.
HY 247. Indians, Spaniards & Creoles. 3 Hours.
A history of Latin American society and civilization in the formative era of Iberian (Spanish & Portuguese) colonialism, 1492 through c. 1810. The course looks at major precolombian civilizations; the Spanish Conquest; and nature of Spanish-Indian relations. It stresses the impact of Iberian values, norms, and institutions, i.e. Church and State, on the emergence of unique new hybrid or Creole societies by the end of the period.

HY 248. Modern Latin America. 3 Hours.
A survey of Latin American history from c. 1810 to the present. Covers the vital era of political independence and, through “case studies” of major countries, examines key trends and developments that have shaped the region and its 21 nations since then. Major topics include 19th century nation-state formation and economic modernization; 20th century urbanization, nationalism, social revolution, military dictatorships, and democratization, including the rise of influential women’s (and feminist) movements.

HY 251. Nineteenth-Century Europe. 3 Hours.
National consolidation, imperialist adventure, and European society and politics from 1815 to 1914.

HY 252. Twentieth Century Europe. 3 Hours.
Europe as transformed by total war, economic dislocation, rise of totalitarian movements, and post-1945 integration from 1914 to present.

HY 257. The Celtic Fringe: Ireland, Scotland, Wales. 3 Hours.
History of “other” British nations: Irish, Scots, and Welsh. Internal development and relations with England.

HY 258. Britain and the Third World. 3 Hours.
This course examines the relations between Great Britain, the modern world’s first superpower and non-European peoples all over the world. In addition to examining issues of Empire, the course stresses the cultural interactions that were critical in the development of the modern world and the problems and opportunities of multi-ethnic societies. The course emphasizes those areas in Africa, Asia and the Middle East where the encounters between the British and the native culture created situations which are still major issues for the twentieth century world. Parallels to American experiences are also discussed. Ethics and Civic Responsibility are significant components of this course.

HY 259. Social History of Crime. 3 Hours.
This course examines the various approaches historians have made to the social and cultural history of criminal violence. While the topic is one that applies to every human society, most of the material deals with Europe and the United States.

HY 260. History of Afro-Latin America. 3 Hours.
This course surveys the history of those countries of Latin America, e.g. Cuba, Brazil and Colombia, that comprise the heart of the New World’s African diaspora, having received most of the roughly 10 million Africans brought to Latin America shores during the centuries-long transatlantic slave trade. It explores the dramatic experiences of Afro-Latin Americans including their roles in the destruction of slave systems, creation of nations based on democratic principles, and rise of vibrant multicultural societies.

HY 262. Introduction to Early Modern Spanish History. 3 Hours.
Survey of the history of Spain from the 15th to the 18th centuries with emphases on the social and cultural effects of European expansion, race and religion, the Inquisitions, and Spain’s contribution to European art and literature.

HY 263. History of the Russian Empire. 3 Hours.
Russian history from prehistory to 1917, focusing on development of Russian state and its social and political character.

HY 264. Russian Revolution: 1917-1921. 3 Hours.
Russian Revolution with emphasis on political, social, and national conflicts in cities, in countryside, and in non-Russian areas.

Bolshevik Revolution and role of Soviet Union as world power.

HY 270. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 271. Traditional East Asian History and Culture. 3 Hours.
An introduction to the histories and cultures of East Asia (China, Japan, Korea, and Southeast Asia) from ancient times to 1800.

HY 272. Modern East Asia. 3 Hours.
A political and social history of East Asia and East Asia’s relations with the West from 1800 to present.

HY 275. Perspectives on Science & Mathematics. 3 Hours.
This course explores the intellectual, social, and cultural history of science and mathematics from the Renaissance to the present. It is designed for students in UABTeach and for general education students in order to put this broader history and context to work in science and mathematics education and to improve your writing, research, and information analysis skills.

HY 278. Untold Stories: Oral History. 3 Hours.
This course teaches the techniques and theories of oral history as a primary way to uncover untold or “hidden” histories of ordinary people. Students will conduct interviews of persons who participated in an aspect of history or who witnessed an important era.

HY 279. Women Rogues, Radicals and Reformers. 3 Hours.
This course looks at women as agents of their own history in the United States and of American society as a whole. It concentrates on how women have defined and used sexual politics, political radicalism, and reform agendas from the 1600s to the 1960s.

HY 280. Historic Preservation and Public Policy. 3 Hours.
Ways to research, assess, and use historic buildings and architecture as a way to study history and inform public policy.

HY 285. Mapping Our World. 3 Hours.
This course will focus on the historical applications of mapping and map-making. It will provide a background to geometric mapping and Geography using aerial photography, satellite remote sensing, Geographic Information Systems (GIS), and historical maps and related datasets. Students will be taught the importance of maps to a wide range of fields from a number of academic specialists. This will include the physical sciences (NASA atmospheric applications), biological sciences (environmental mapping), social sciences (crime mapping and archaeologial mapping), health sciences (disease mapping), and humanities (religious mapping). Students will work in UAB labs and in broader Birmingham on learning ArcGIS and mapmaking skills, and will submit an e-Portfolio by the end of the semester. Quantitative Literacy is a significant component of this course.

HY 289. Topics in African American History. 3 Hours.
Special studies in African American historical topics.

HY 290. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 291. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 292. Topics in History/Sl. 3 Hours.
Special studies of historical topics. May be repeated. Service Learning.
HY 300. The Historian's Craft. 3 Hours.
This course examines the values, methodology, and materials of historical analysis. During the semester students will develop their writing skills, study the quantitative aspects of historical scholarship and examine the ethical and civic responsibilities historians bear towards the profession and the larger community. Writing is a significant component of this course.

HY 303. Women in American History. 3 Hours.
Changing economic, political, and social roles of women from colonial period to present.

HY 304. U.S. Civil Rights Movement. 3 Hours.
History of civil rights from late 19th century to present; significance of movement to those involved and to rest of American society.

HY 305. Popular Culture in American History. 3 Hours.
Mass culture of U.S. through films and recorded sound, from creation of entertainment industry in 19th century to television and counterculture of 1960s.

HY 307. The American Film. 3 Hours.
Creation and development of motion pictures in the United States, including how films are made, American film industry, and the impact of Hollywood on American culture.

HY 308. History of Popular Music in the United States. 3 Hours.
Creation of musical entertainment, the changing audience, and diffusion of recordings from earliest recordings of music hall songs to rap and hip hop.

HY 309. American Independent Film. 3 Hours.
Focuses on the rise of the independent film in the 1980s and the struggle with mainstream Hollywood studios for dominance of cinema in the 1990s. Covers independent film makers, finance, scripts and what it takes to make a personal film.

HY 310. Film in the 1960s. 3 Hours.
The sixties were a revolutionary time for films and the film industry, and this course surveys film from Europe and Asia but with special emphasis on American film and the way it reflected the counter culture.

HY 311. History of the Documentary Film. 3 Hours.
Studies the development of the film documentary and the issues of representing reality on film. Deals with film aesthetic and the techniques of making films. Looks at American and European documentaries.

HY 312. Rock n Roll and Race Relations. 3 Hours.
Looks at popular music as a part of American Culture. Concentrates on the rise of R and B and rock n roll as the signifiers of a new youth culture in the United States with special emphasis on music in Birmingham.

HY 313. Indie Rock from Punk to Post Modern. 3 Hours.
Covers the rise of indie rock from the punks of the 1970s to the Seattle Sound of the 1990s, and its impact on popular culture. Also examines the influence of sampling, electronica and dance music on the alternative culture of the 1980s.

HY 314. Roman Republic. 3 Hours.
Survey of Roman history, society, and culture from the founding of the city of Rome in 753 BCE to the death of Julius Caesar in 44 BCE. Course covers the conquest of Italy, the Punic wars, and the conquest of the Hellenistic kingdoms. Emphasis on the impact of military success on the lifestyle and culture of the Roman people.

HY 317. History of Ancient Greece. 3 Hours.
Ancient Greece from prehistory to Alexander and the Hellenistic age.

HY 318. History of the Roman Empire. 3 Hours.
Survey of Roman history, society, and culture from the death of Julius Caesar in 44 BCE to the reign of Constantine in the early fourth century CE, with an emphasis on how the Roman Empire ruled.

HY 319. Late Antiquity and Early Middle Ages. 3 Hours.
This course explores the transition from the Classical Greco-Roman Mediterranean world to the Middle Ages. It begins with the conversion of the Roman Empire to Christianity. Then it explores the collapse of the Western Roman Empire and the continuation of the Eastern Empire (known to historians as the Byzantine Empire). It places Mohammad and the rise of Islam in its historical context and explores the impact of the early Islamic conquests. The course will finish around the year 800 with the reign of Charlemagne in the West and Islamic Abbasid Dynasty ruling in Baghdad.

HY 320. Political History From Roosevelt to Roosevelt. 3 Hours.
History of the period between 1900 and 1945, with emphasis on national politics.

HY 321. Political History Since FDR. 3 Hours.
A History of United States since 1945, with a special emphasis on national politics; includes Cold War domestic and foreign policy, the rights revolutions, changing political ideologies and identities, globalization and its effects.

HY 322. The Great Depression in Film. 3 Hours.
Examines the causes and effects of the Great Depression using both fictional and documentary films and required readings; students will analyze how Hollywood interpreted the lives of Americans during that period.

HY 325. Southern Politics in the 20th Century. 3 Hours.
The social and economic bases of Southern politics.

HY 326. Mansions, Mines, and Jim Crow. 3 Hours.
This course will study the history of Birmingham (1871-1950) by examining the few men who owned the mines and mills, the masses of men who worked for them, and the way that Jim Crow segregation kept the system from working.

HY 327. Southern Labor History. 3 Hours.
Unique conditions and people who formed Southern labor history. Changing contours of slave, industrial, and post-industrial labor force.

HY 329. US Women's Labor History. 3 Hours.
Role and influence of working women on American history as social and political force in creating work identity and culture.

HY 330. Middle East 550 BCE to 1453 CE. 3 Hours.
Survey course on the history of the Middle East from the rise of the Persian Empire to the Ottoman conquest of Constantinople. Course covers the Persian Empire, Alexander the Great's conquests, Roman in the Middle East, the early Islamic Conquests, and the impact of the Crusades. The development of Judaism, Christianity, and Islam are emphasized.

HY 334. The World Since 1945. 3 Hours.
Events and trends from the end of the Second World War to the present, emphasizing the origins of the Cold War, decolonization, European integration, globalization, the rise of China, India, and Japan, the revolutions in Eastern Europe in 1989 and the collapse of communism in the Soviet Union, the third wave of democratization, Islamic fundamentalism, 9/11, and the international financial crisis of 2008-2009.
HY 336. Europe Since 1945. 3 Hours.
After the Nazi catastrophe, what was to be the future of Europe? After sketching the context of unparalleled death and destruction, this course focuses on European reconstruction on both sides of the Iron Curtain. While contrasting Eastern and Western regimes, course will also seek to compare postwar recovery plans, cultural aesthetics, and shared legacies borne out of the experience of World War II. Strong emphasis is given to questions of memory and national identity, the history of European integration in the West, and socialist interdependence in the East. After 1989, course will focus on the expansion of the European Union, alongside transnational cultural phenomena such as European soccer, environmentalism, spaces of memory, and the loaded question of Europe’s “boundaries” in the east and southeast.

HY 337. Eastern Europe 1600-1918. 3 Hours.
Before WWI, Eastern Europe consisted of a patchwork of ethnic groups ruled by four empires, which were ultimately destroyed with the rise of nationalism. This course explores this lost world of Eastern Europe in the Age of Empire and attends to four conceptual areas which dominated it: the concept and practice of Empire; the genesis, development, and triumph of nationalism; the contribution of the region’s diverse Jewish population; and questions surrounding the ultimate downfall of this world. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 338. Eastern Europe 1914-Present. 3 Hours.
This course traces drastic transformative processes which remade Eastern Europe during the violent twentieth century, including: nationalism, ethnic cleansing, genocide, the Holocaust, communism, the Cold War, and European integration. Virulent nationalism, Nazi atrocities, and the vicious revenge they inspired decimated the multiethnic world that had come before and forged ethnically homogenous nation-states with rigid frontiers. With previous understandings of property rights, moral responsibility, and neighborliness undermined, and with Soviet armies occupying the ruins that remained, communists and their unwitting nationalist allies found fertile ground for the establishment of command economies, which repressed the traumatized survivors of the Second World War and their descendants until 1989. Students in this course compose six critical essays surrounding secondary and primary analyses of these conceptual areas and engage in regular course discussions.

HY 339. The Holocaust. 3 Hours.
The Holocaust is the great tragedy of modern history. The Nazis brought industrial efficiency to mass murder and killed millions of innocents. This class will trace the political, economic and cultural roots of this genocide and examine the vast organization that carried it out.

HY 340. Popular Culture in the 1960s. 3 Hours.
This class will examine music, film, fashion and sport in the 1960s. Students will discover why the 60s were “swinging,” and what constituted cool in the coolest decade ever.

HY 341. The U.S. and Latin America. 3 Hours.
A history of the multi-faceted, often troubled, relations between the U.S. and its nearest southern neighbors since the early nineteenth century. While touching on various aspects of those relations, it stresses the geopolitical aspect, focusing on conflicts that have arisen as a result of different interests and perceptions as well as basic power asymmetries.

HY 342. Sex & Latin American Society. 3 Hours.
A social history of Latin America that traces the evolution of relations between the sexes since the colonial period and focuses on the role of gender (socially-constructed rather than biological differences between men and women), along with race, class, and other factors, in shaping the experiences of women in particular.

HY 343. Modern Latin America. 3 Hours.
A survey of Latin American history from c. 1810 to the present. Covers the vital era of political independence and, through “case studies” of major countries, examines key trends and developments that have shaped the region and its 21 nations since then. Major topics include 19th century nation-state formation and economic modernization; 20th century urbanization, nationalism, social revolution, military dictatorships, and democratization, including the rise of influential women’s (and feminist) movements.

HY 351. Continental Enlightenment 1680-1790. 3 Hours.
Ideas and politics during 18th century, focusing on Western Europe outside France; new ideas about society, religion, and government in Italian and German states.

HY 353. The Christians in History. 3 Hours.
Origins, development, and spread of Christianity from antiquity to the modern world.

HY 355. The Reformation. 3 Hours.
Issues and meanings of the Protestant and Catholic Reformations of the 16th and 17th centuries, with particular attention to intellectual, social, and political dimensions.

HY 357. Religion in Early Modern European History. 3 Hours.
Examines the theological, social and political upheavals that shaped religious life and how religion permeated early modern culture from the abstract philosophical debates to the most mundane daily activities.

HY 359. Social History of Crime. 3 Hours.
This course examines the various approaches historians have made to the social and cultural history of criminal violence. While the topic is one that applies to every human society, most of the material deals with Europe and the United States.

HY 360. The Celtic Fringe: Ireland, Scotland, Wales. 3 Hours.
History of other Britain nations: Irish, Scots, and Welsh. Internal development and relations with England.

HY 361. Britain and the Third World. 3 Hours.
British foreign policy, emphasizing Empire and British relations with peoples outside Europe.

HY 370. End of the U.S.S.R.. 3 Hours.
An analysis of Gorbachev's impact on the Soviet Union and the social and political forces he unleashed.

HY 371. Traditional East Asian History and Culture. 3 Hours.
An introduction to the histories and cultures of East Asia (China, Japan, Korea, and Southeast Asia) from ancient times to 1800.

HY 372. Modern East Asia. 3 Hours.
A political and social history of East Asia and East Asia’s relations with the West from 1800 to present.

HY 375. The Pacific War, 1931-1945. 3 Hours.
The military and political conflict between Japan, China, and the United States from the Manchurian Incident to the atomic bombings of Hiroshima and Nagasaki.

</table>
HY 422. Ethnic Cleansing & Genocide 1912-2012. 3 Hours.
With strong attention to definitions and critical approaches to comparative history, this course examines the varied forms of forced population movements in recent European history, moving from precedents during and after World War I through the era of upheaval during and after World War II. A significant portion of the course examines the legacy of these movements after 1945 and then broadens discussion to examine global forced population movements in the postwar period (India/Pakistan, Palestine/Israel, Rwanda, etc.) and contemporary cases. Alongside intensive readings, it incorporates a critical research paper devoted to an instance or aspect of forced population movement.

HY 423. Southern Women: Image and Reality. 3 Hours.
Southern women's lives from colonial period into 20th century. Contrasts myths, particularly myth of belle on pedestal, with realities of women's lives.
Prerequisites: HY 120 [Min Grade: C]

HY 424. Emergence of Modern American 1877-1945. 3 Hours.
Focused study of the final appearance of an industrial economy and the different approaches to the government it generated, including the various reform movements (populism, socialism, progressivism, latent civil rights, women's movement, New Deal) that spun out of this experience.
Prerequisites: HY 121 [Min Grade: C]

HY 427. History of American Technology. 3 Hours.
Development and impact of new technology in U.S. from colonial period to present.

HY 428. Technology and American Life. 3 Hours.
Impact of technology on modern American life and culture; automobile, television, and computer.

HY 429. Workers in American Society. 3 Hours.
Seventeenth century artisans to contemporary factory and office workers, organized and unorganized; effect of industrial and technological revolution on American labor, society, and politics.

HY 430. U.S. Labor History. 3 Hours.
Examines the multi-faceted lives of American workers from the colonial period to the late 20th Century with emphasis on their changing lives as economics changed.

HY 431. American Film and Violent Society. 3 Hours.
History of violent movies in the United States from earliest silent films to new gangster films of Quentin Tarantino. Meaning of these films and what they say about American society.

HY 432. Labor History in Film. 3 Hours.
Examines and contrasts the imagery of working class life with documentary and film.

HY 435. American Urban History. 3 Hours.
Major patterns of urbanization and urban life in American history.

HY 436. Money and Capitalism. 3 Hours.
The primary objective of this course is to acquaint students with the development of fundamental concepts in economic theory and major economic thinkers, their works and ideas from the late 18th century up to the recent past. There will be an emphasis on the evolution and synthesis of ideas basic to current economic theory. Written research, oral discussion, and critical analysis will make up a significant part of this course. Students will have ample opportunity to read, analyze, and discuss various issues and to consider, in a respectful but rigorous manner, the arguments, reasoning, and viewpoints of others. Significant weight will be given to participation in class discussions.

HY 439. American Environmental History. 3 Hours.
Changing perspectives on American environment and major issues in environmental history.

HY 440. The Holocaust on Film. 3 Hours.
This class provides an overview of the ever increasing number of films about the Holocaust. Film and television has educated the world about this tragedy, from the first documentaries about the liberated camps to the global popularity of Schindler's List. Students will examine the way this genocide has been depicted on film and how we remember the victims.

HY 446. Nations of the Andes. 3 Hours.
A study of the vital Andean region of South America since the time of the Inca Empire, with special focus on the rise of the modern-day countries of Peru, Chile, Ecuador and Colombia. Explores their struggles, starting in the 19th century, to transform their ethnically diverse, highly stratified societies into modern and more inclusive nations. Major topics include the impact of 19th century liberal nation-building and agro-export economies as well as 20th century nationalism, “indigenismo”, social conflict, populism, revolutionary movements and contemporary ethnic rights movements; also, the rise of illicit drug-production and trafficking.

HY 447. Modern Mexico. 3 Hours.
Examines the evolution of the Mexican nation and its relations with the rest of the world from c.1800 to the present. This includes the country’s dramatic 19th century struggles for political unity and survival; the U.S.-Mexican War and origins of Mexicans’ Yankeephobia; the epic Mexican Revolution of 1910 and its impact; and rise of modern Mexican nationalism as well as contemporary trends such as the restoration of electoral democracy since c. 2000.

HY 448. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 449. Topics in History. 3 Hours.
Special studies of historical topics. May be repeated.

HY 450. Topics in Ancient History. 3 Hours.
Special studies in ancient historical topics. May be repeated.

HY 451. History of Greece. 3 Hours.
Ancient Greece from prehistory to Alexander and Hellenistic Age.

HY 452. History of Rome. 3 Hours.
Ancient Rome from time of Etruscans through Republic and Empire until decline in the 4th century A.D.

HY 453. Clash of Civilizations. 3 Hours.
This course critically analyzes the conception of a clash between “eastern” and “western” civilizations through historical based case studies. Possible topics include the Greco-Persian wars, the early Islamic conquests, the Crusades, the Israeli-Palestinian Conflict, and the War on Terror.

HY 454. Topics in Middle Eastern History. 3 Hours.
Special studies in Middle Eastern historical topics.

HY 455. Renaissance and Reformation. 3 Hours.
From background of medieval society to birth of commercial, urban society; individualism; development of centralized territorial state; popular piety; humanism and art.
Prerequisites: HY 101 [Min Grade: D]

HY 456. Seventeenth-Century Europe: Absolutism, Revolution and Science. 3 Hours.
Evaluation of Seventeenth century through a study of the economy and society, statecraft and politics, warfare and the military revolution, the English civil war, the scientific revolution, and court life and absolutism.
HY 457. Nineteenth-Century Europe. 3 Hours.
National consolidation, imperialist adventure, and European society and politics, 1815-1914.

HY 458. Modern Europe. 3 Hours.
Europe as transformed by total war, economic dislocation, and rise of totalitarian movements; 1914 to present.

HY 459. Spain and the Spanish Inquisition. 3 Hours.
Examines early modern Spanish history covering the breakdown of the Spanish "convivencia," the rise of the Catholic kings and the absolutist state, the establishment of a Spanish colonial empire and its ultimate decline of power, as well as an examination of the Spanish Inquisition and its institutional development and function as a tool of the Spanish state.

HY 460. Ancient and Medieval Britain. 3 Hours.
Celtic, Anglo-Saxon, Roman, and Viking influences and evolution of kingdom from Norman Conquest to reign of Edward III.

HY 461. English History: 1307-1660. 3 Hours.
Social and political history of England from peasant uprisings of the late 14th century through Wars of the Roses, Tudor years, and civil war of the 17th century.

HY 462. Early Modern Britain. 3 Hours.
History of the nations of the British Isles from the civil wars of the 16th century to the beginning of the Victorian Age.

HY 463. Victorian Britain. 3 Hours.
Social and political history of 19th century Britain.

HY 464. Modern Great Britain. 3 Hours.
Problems facing Britain in the 20th century, including end of empire, economic decline, and political restructuring.

HY 465. French Enlightenment. 3 Hours.
French Enlightenment as intellectual and social phenomenon.

HY 466. The French Revolution. 3 Hours.
Revolution as social, political, and cultural event and its place in modern European history and historiography.

HY 467. Modern France 1815 - Present. 3 Hours.
Economic, social and political history of France and the contentious issues of equality, democracy, and liberty between the Napoleonic era and the present.

HY 468. German Catastrophe 1815-2012. 3 Hours.
After the collapse of Nazism, Germany was in ruins, truncated to a fraction of its former size, occupied and divided by hostile powers, and stained by the infamy of barbaric war crimes, most especially the Holocaust of Europe's Jews. After first examining the rise of German power and influence in nineteenth and early twentieth-century Europe (with emphasis on German nationalism, ideological tensions, Jewish life, industrialization, and Germany's relations with its Eastern neighbors), this course examines how defeat and resulting extremism after the First World War bred an environment in which the Nazis could seize power. Step by step, we will explore how an entirely new East Central Europe was forged in the terrible fires of 1938-1948, and we will examine how the resulting ruptures in memory and self-understanding wrought by this German Catastrophe were buried, manipulated, and confronted over the course of the Cold War and to the present day.

HY 469. Stalin and Stalinism. 3 Hours.
The life and times of Joseph Stalin (1878-1953) and his impact on the development of the Soviet Union after Lenin's death in 1924.
Prerequisites: HY 102 [Min Grade: C] or HY 105 [Min Grade: C] or HY 121 [Min Grade: C]

HY 470. The Soviet Union Since 1953. 3 Hours.
Soviet economic, political, and social trends since Stalins death in 1953.
Prerequisites: HY 102 [Min Grade: C] or HY 105 [Min Grade: C] or HY 121 [Min Grade: C]

HY 471. Russian Intellectual History. 3 Hours.
The emergence of modern Russian intellectual thought from Peter the Great (1682-1725) to the outbreak of the First World War with special emphasis on philosophy, literature, history and the issue of the Russian identity, as formulated by those who claim that Russia is part of the West and those who claim that it is a completely exceptional political and culture entity.

HY 472. Terror and Terrorism from French Revolution to Present. 3 Hours.
History of terrorism from its advent during the French Revolution of 1789 to the global war of present time reviewing three main instances of terrorism in history; French Revolution from 1793 through 1794, Russia in the 1870s and 1880s and their civil war between 1918 and 1921, and the present-day conflicts involving the United States and the Middle East.

HY 473. The Cold War. 3 Hours.
A survey and assessment of the dynamic relationship between the United States and its allies and the Soviet Union and the People's Republic of China from the Second World War to 1991 and the collapse of the USSR. This course emphasizes the domestic as well as the international sources of this conflict, starting with the Second World War and communist ideology. It will cover the rise and fall of the international communist order, highlighting the differences between Soviet and Chinese efforts to reform their post-Stalinist and post-Mao systems in the 1980s, and the US role in this process.

HY 474. Modern China. 3 Hours.
China's political, social and cultural history from the final decades of the Qing dynasty in the 19th century to its re-emergence as a major world power in the late 20th century.

HY 475. Modern China. 3 Hours.
China's political, social and cultural history from the final decades of the Qing dynasty in the 19th century to its re-emergence as a major world power in the late 20th century.

HY 476. Japan to the 19th Century. 3 Hours.
Japan's political and cultural history from its legendary beginnings to the final decades of the Tokugawa shogunate.

HY 477. Modern Japan. 3 Hours.
Japan's political and cultural history from the Meiji Restoration to the present.

HY 478. Topics in European History. 3 Hours.
Special Studies in European History. May be repeated.

HY 479. Topics in European History. 3 Hours.
Special Studies in European History. May be repeated.

HY 480. Historic Preservation and Public Policy. 3 Hours.
Ways to research, assess, and use historic buildings and architecture as a way to study history and inform public policy.

HY 481. Public History. 3 Hours.
Various approaches to interest and inform general public of local and state history. Visits to public history sites around Birmingham area.

HY 482. Internship in Public History. 1-3 Hour.
Individually designed program that allows students to work in local historic museums, archives, or other sites to gain professional experience in public history.

HY 483. Internship in Environmental Studies. 1-3 Hour.
Individually designed program that places students in local environmental organizations, divisions of local businesses or government, or special projects to gain professional experience in preparation for an environmental career.

HY 484. Topics in African American History. 3 Hours.
Special studies in African American historical topics. May be repeated.
INFO 403 [Min Grade: C] and INFO 404 [Min Grade: C]

INFO 498. Bioinformatics Capstone Research II. 3 Hours.
Students will be allowed to rotate to different program faculty or continue with their mentor from BY/CS 498 Bioinformatics Capstone Research I. With close mentoring and guidance from program faculty, the student will identify a capstone project or continue their existing bioinformatics project. The capstone project is expected to culminate in a formal scholarly work reflecting integration of the scientific knowledge gained through the project. The scholarly work may take the form of a written manuscript or semester report.
Prerequisites: INFO 403 [Min Grade: C] and INFO 404 [Min Grade: C]

IS-Information Systems Courses

Courses

IS 204. Introduction to Business Programming. 3 Hours.
An introductory course addressing the concepts, structures, and use of an event-driven programming language to implement business solutions. Emphasis is placed on developing general problem-solving strategies and implementing solutions through algorithm development.
Prerequisites: MA 105 [Min Grade: C]

IS 301. Introduction to Database Management Systems. 3 Hours.
An introductory course on database management systems. Emphasis is placed on providing students with the fundamental knowledge necessary to model business data needs, design logical data models, and design, implement, and use of a physical database in application development.
Prerequisites: IS 321 [Min Grade: C]

IS 302. Business Data Communications. 3 Hours.
A study of data communications technologies used for business. The technologies include local and wide area networks, as well as telephony. Network management and security are also emphasized.

IS 303. Information Systems. 3 Hours.
A survey course covering the theory and application of management information systems in business environments. Includes planning, development and implementation of business strategies that leverage information systems for competitive advantage.
Prerequisites: (GPAT and GPAU 2.00) or (GPAU 2.00 and GPAO 2.00)
IS 305. Introduction to Application Development. 3 Hours.
A course addressing the concepts, structures, and use of object-oriented problem solving and the C# programming language. Emphasis is placed on developing general problem-solving strategies and implementing solutions through algorithm development using object class models and C#.
Prerequisites: (IS 204 [Min Grade: C] and GPAT and GPAO 2.00)

IS 321. Systems Analysis. 3 Hours.
Focuses on the planning, decision making tasks and requisite skills necessary for the analysis of information systems.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

IS 331. Enterprise Operating Systems. 3 Hours.
This course is an introductory course to large-scale computing systems known as Enterprise Systems. Students will learn how Enterprise Systems provide the critical infrastructure for 90% of Fortune 500 companies to ensure security, cloud capability, mobility and business analytics.
Prerequisites: IS 204 [Min Grade: D]

IS 332. Intro to COBOL Programming. 3 Hours.
This course provides an Introduction to Programming in COBOL. Emphasis on Structured Coding techniques and COBOL within the context of Enterprise software support and maintenance. Several computer assignments required.
Prerequisites: IS 331 [Min Grade: D](Can be taken Concurrently)

IS 413. Introduction to Information Security. 3 Hours.
This course serves as an introduction to the field of information security where students will develop a basic understanding of the information security principles. Students will be able to understand the business value of information security and its legal/ethical considerations. Students will also gain an appreciation for security planning and risk management and how risk may be mitigated through technical, physical, and administrative controls.
Prerequisites: IS 413 [Min Grade: C]

IS 414. Information Security Planning and Management. 3 Hours.
Primary objectives of the course are for the student to develop an understanding of key information security concepts, develop an understanding of how people, technology, and organizational policies should be developed and managed to safeguard an organization’s information resources, learn how to manage under uncertainty and risk, develop policies and procedures to make information systems secure, and learn how to audit and recover from security breaches.
Prerequisites: IS 413 [Min Grade: C]

IS 415. Social Media & Virtual Communities. 3 Hours.
This course focuses on how social media and virtual communities are changing business in fundamental ways. The course helps students gain practical facility in the use of social media tools and learn meta-skills like how to use new social media tools, how to use filters to make sense of social media, and how to curate news and reports in a manner that contributes to business knowledge and intellect.

IS 416. Web Analytics. 3 Hours.
The Web Analytics course introduces technologies and tools used to realize the full potential of web sites. The course focuses on collection and use of web data such as web traffic and visitor information to design web sites that will enable firms to acquire, convert and retain customers.

IS 417. Introduction to Business Intelligence. 3 Hours.
This course covers topics of knowledge management and business intelligence from an organizational IT perspective. The content of the course includes discussion of and readings on the nature of knowledge; knowledge discovery, generation, capture, transfer, sharing, and application; and includes discussion of the core IT capabilities necessary to deliver Business Intelligence in organizations. The development and use of data warehouses and data marts to support business analytics is discussed.

IS 418. Applied Data Science for Information Systems. 3 Hours.
A course in Business Analytics focusing on the extraction and preparation of data for analysis, applying analysis methods, and reporting analysis results. Students will also examine issues related to data stewardship and provenance.
Prerequisites: IS 204 [Min Grade: C] and IS 301 [Min Grade: C] and IS 321 [Min Grade: C] and IS 417 [Min Grade: C]

IS 420. Web Application Development. 3 Hours.
This course will cover concepts, principles, and methods related to the design and implementation of web applications. The course will also cover a basic understanding and technical skills of both client and server technologies, and build simple web applications.
Prerequisites: IS 204 [Min Grade: D]

IS 421. Mobile Application Development. 3 Hours.
This course will cover concepts, principles, and methods related to the design and implementation of mobile applications. Emphasis is placed on the developing web content and creating applications for mobile devices, including Internet/business practices and techniques for delivery on mobile platforms.
Prerequisites: IS 204 [Min Grade: D]

IS 431. Enterprise Transaction Systems. 3 Hours.
CICS (Customer Information Control System) is the world-wide transaction processor that’s used for interactive transactions on IBM mainframe computers. The vast majority of the CICS code for those applications is in the form of CICS commands that are embedded within COBOL programs, and this course will help you develop a solid understanding of what you have to do to become a proficient CICS programmer.
Prerequisites: IS 331 [Min Grade: D] and IS 332 [Min Grade: D]

IS 432. Enterprise Database Systems. 3 Hours.
The IBM DB2 database management system is the standard in enterprise data management for z/OS and earlier mainframe operating systems. Although several programming languages work with DB2, COBOL is the most commonly used in the mainframe environment. Students will be introduced to fundamentals of database analysis, design and implementation. This course teaches the use of the industry-standard Structured Query Language within a COBOL program to retrieve and update data stored in DB2 databases.
Prerequisites: IS 331 [Min Grade: D] and IS 332 [Min Grade: D]

IS 464. IS Internship. 3 Hours.
Work experience enabling students to better integrate academic knowledge with practical applications by exposure to information systems and the business environment. 2.0 GPA in IS courses and permission of instructor required. Must be an Information Systems major. Sponsoring business may require additional courses.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)
ITL-Italian Courses

Courses

ITL 101. Introductory Italian I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Italian is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

Prerequisites: ITL 101 [Min Grade: D]

ITL 190. Study Abroad: Italian. 1-6 Hour.
Approved novice level study abroad program in an Italian-speaking country.

ITL 201. Intermediate Italian I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Italian is spoken.

ITL 299. Directed Readings in Italian. 1-3 Hour.
Approved upper level study abroad program in an Italian-speaking country. Permission of Department Chair and Study Abroad Director.

ITL 300. Study Abroad. 1-6 Hour.
Approved upper level study abroad program in an Italian-speaking country. Permission of Department Chair and Study Abroad Director.

ITL 399. Independent Study. 3 Hours.
This is an individualized course of directed readings and activities for advanced students of Italian language and culture. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of the Italian language and culture. Intermediate-high or Advanced-low proficiency in reading, writing, listening and speaking Italian is the targeted outcome. Permission of the Department Chair required.

ITS-International Studies Courses

Courses

ITS 101. Introduction to International Studies. 3 Hours.
A survey of the problems and practice of global cooperation and conflict. Particular attention is paid to issues of global power, wealth and social justice. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

ITS 110. Directed Readings in International Studies. 1-3 Hour.
Critique of current popular works in International Studies. Prerequisite: permission of ITS director.

ITS 223. International Study Abroad. 3 Hours.
Independent study done in International setting in conjunction with non-UAB academic program. Prerequisite: permission of ITS Director.

ITS 229. International Study Abroad. 3 Hours.
Current events in international setting. Part of program supported by UAB Education Abroad. Permission of ITS director and UAB Education Abroad director.

ITS 250. Special Topics. 3 Hours.
Topics in world geography and international issues. Prerequisite: permission of ITS director.

ITS 299. Problems in International Studies. 1-3 Hour.
Study of international relations and world culture subjects.

ITS 470. Seminar in International Studies. 3 Hours.
International Studies exit seminar that draws together program themes and summarizes main threads of current global issues. Prerequisite: permission of ITS director.

ITS 471. Seminar in International Studies. 3 Hours.
Analyzing and writing in depth about the ethics and rationale for using and abusing the film medium to relate to, undermine, or support political authority. Writing, Ethics and Civic Responsibility are significant components of this course.

ITS 480. Advanced Problems in International Studies. 1-3 Hour.
Independent study. Prerequisite: permission of ITS director.

ITS 482. Internship in International Affairs. 1-3 Hour.
Individually arranged assignments in international companies or organizations, monitored and evaluated by the director of international studies. Prerequisite: permission of ITS director.

ITS 497. Honors Research in International Studies. 3 Hours.
Directed research by international studies honors students under faculty supervision. Prerequisite: open only to International Studies Honors students by permission of ITS director.

ITS 499. Advanced Seminar in International Studies. 3 Hours.
Special-topic seminar treating major current event or international problem.
JPA- Japanese Courses

Courses

JPA 101. Introductory Japanese I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Japanese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

JPA 102. Introductory Japanese II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Japanese is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

Prerequisites: JPA 101 [Min Grade: D]

JPA 190. Study Abroad. 1-6 Hour.
Approved novice level study abroad program in Japan. :Permission of Department Chair required.

JPA 201. Intermediate Japanese I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Japanese is spoken. (CORE AREA II).

Prerequisites: JPA 102 [Min Grade: D]

Continuation of JPA 201. Conducted in Japanese. (CORE AREA II).

Prerequisites: JPA 201 [Min Grade: D]

JPA 203. Intermediate Japanese Language & Culture I. 3 Hours.
This course aims at improving students' linguistic and cultural fluency necessary for functioning in Japanese. Class activities will consist of communicative exercises such as role-playing. While emphasis will be placed on oral skills, attention will also be given to the written Japanese that one encounters in daily life, particularly in signage and forms. Topics may include: Conversational Japanese in such settings as restaurant, store, public transportation, airport, post office, hospital, home-stay, hotel, and local attractions.

Prerequisites: JPA 102 [Min Grade: D]

JPA 204. Intermediate Japanese Language & Culture II. 3 Hours.
This course focuses on developing students' reading and writing skills to increase Japanese literacy. It will also expand students' vocabulary, grammatical understanding, listening and speaking. Topics may include: Examples will be taken from authentic popular literature, manga and anime, folktales, letters, e-mails and songs. Students will learn how to write basic compositions and make speeches.

Prerequisites: JPA 202 [Min Grade: C]

JPA 205. Business Japanese. 3 Hours.
Japanese course focusing on the effective communication skills essential in professional fields and the understanding of the Japanese business world. Students develop their verbal, listening, reading, and writing proficiency in Business Japanese and acquire culturally appropriate interpersonal communication skills needed to deal with a variety of business situations. Students are expected to effectively employ their language skills to explore and analyze current business trends and issues in Japan. Conducted in Japanese.

Prerequisites: JPA 203 [Min Grade: C]

JPA 210. Discourse and Culture in Japanese. 3 Hours.
Study of the significance of cultural knowledge in understanding the meaning of language. The course focuses Japanese learners to understand values, expectations and appropriate behavior in Japanese culture, as well as the theoretical underpinnings of pragmatics and discourse analysis. Conducted in Japanese.

Prerequisites: JPA 202 [Min Grade: C]

JPA 211. Contemporary Issues in Japanese Society. 3 Hours.
Study of selected themes in contemporary Japanese society and culture, through reading and discussion of contemporary debates in periodicals, news sources and other media. Readings will focus on such themes as work and social pressure, gender inequality, social alienation, declining birthrates, aging and social support, media images, and education. Conducted in Japanese.

Prerequisites: JPA 202 [Min Grade: C]

JPA 290. Japanese for Study Abroad. 1-12 Hour.
This study-abroad Japanese course aims at improving students' oral fluency. It will help students develop intermediary conversational skills as they study in total immersion. The emphasis will be on efficient target language production at the intermediate level, as well as an oral and comprehension skills, communicative strategies, and the acquisition of vocabulary relating to a variety of domains. The course content will also include discussion and analysis of current cultural topics. JPA 290 will be conducted entirely in Japanese. Permission of department chair required.

JPA 299. Directed Readings in Japanese. 1-3 Hour.
This is an individualized course of directed readings and activities for intermediate Japanese students. Course design is determined by the instructor and student and will be tailored to the needs of the student. The goal of the course is to increase general literacy in and knowledge of Japanese language and culture. Intermediate proficiency in reading, writing, listening and speaking Japanese is the targeted outcome. Prerequisites: JPA 202 or equivalent.

Prerequisites: JPA 202 [Min Grade: C]

JPA 306. Advanced Business Japanese. 3 Hours.
Advanced Japanese course focusing on the effective advanced communication skills essential in professional fields and the understanding of the Japanese business world. Students develop their advanced verbal, listening, reading, and writing proficiency in Business Japanese and acquire culturally appropriate interpersonal communication skills needed to deal with a variety of business situations. Students are expected to effectively employ their language skills to explore and analyze current business trends and issues in Japan. Conducted in Japanese.

Prerequisites: JPA 204 [Min Grade: C]

JPA 390. Study Abroad. 1-6 Hour.
Approved upper-level study abroad program in a Japanese-speaking country. Permission of Department Chair and Study Abroad Director.
KIN-Kinesiology

Courses

KIN 101. Beginning and Advanced Beginning Swimming. 1 Hour.
This course provides the student with basic aquatic safety skills as well as aquatic survival skills. The strokes include beginner, front crawl, elementary back stroke, breast stroke, back crawl and side stroke. Intermediate or advanced swimmers will be administratively withdrawn from the course.

KIN 102. Intermediate Swimming/ Swimmer Course. 1 Hour.
The intermediate swim course is part of the American Red Cross “Learn to Swim” Program, which is designed for learning and improving swim strokes. Gaining the knowledge and skills needed in basic water safety is the common theme in providing the information and resources to make participation in aquatics activities a lifetime pursuit. Students must be able to jump in the deep end, recover and tread or float for one minute, then swim 25 yards using crawl stroke or elementary backstroke.

KIN 103. Lifeguard Training. 1 Hour.
The American Red Cross Lifeguarding course focuses on training people who are already good swimmers. The course covers the skills and knowledge required for effective lifeguarding at swimming pools and at nonsurf, open-water beaches. Must be able to swim 300 yards continuously and surface dive 7 - 10 feet to retrieve a 10 lb. object.

KIN 104. Tennis. 1 Hour.
Course will provide students with the knowledge and skill needed to play the game of tennis.

KIN 105. Golf. 1 Hour.
This course includes beginning skills, rules and etiquette for recreational golf.

KIN 108. Weight Training and Aerobics. 1 Hour.
This course includes basic weight training and aerobic instruction and workouts.

KIN 110. Racquetball. 1 Hour.
Beginning skills, rules, and strategy.

KIN 112. Dance and Gymnastics. 1 Hour.
This course provides future teachers background in planning and conducting basic dance and gymnastic instruction. Intended for physical education majors.

KIN 114. Rec Games/Outdoor Leisure. 1 Hour.
This course will enable students to experience a wide variety of recreational games and outdoor leisure pursuits.

KIN 115. Weight Training. 1 Hour.
Instruction on basic resistance training principles and techniques for beginning and intermediate trainees.

KIN 116. Ballroom and Latin Dancing. 1 Hour.
This course includes instruction of the more popular social Latin and Ballroom dances.

KIN 117. Team Sports. 1 Hour.
This course will enable students to learn the basic skills of different team sports (such as team handball, football, volleyball, basketball, soccer, speedball, tchoukball, and rugby). Students will practice those skills to have the ability to gain skill proficiency in playing the sports as well as teaching others to play the sport.

KIN 118. Sports Using Implements. 1 Hour.
This course will enable students to learn the basic skills of different sports that require use of an implement (i.e., badminton, cricket, hockey, lacrosse, softball, and tennis). Students will practice those skills to have the ability to gain skill proficiency in playing the sport as well as teaching other to play the sport.

KIN 119. Football. 1 Hour.
Basic skills, rules and strategies.

KIN 120. Volleyball. 1 Hour.
Basic skills, rules and strategies.

KIN 121. Soccer. 1 Hour.
Basic skills, rules and strategies.

KIN 122. Basketball. 1 Hour.
Basic skills, rules and strategies.

KIN 123. Softball. 1 Hour.
Basic skills, rules and strategies.

KIN 124. Beginning Whitewater Kayaking. 1 Hour.
This course is designed to take interested student from zero knowledge to being able to competently maneuver a Kayak in flat water and demonstrate basic paddling safety skills.

KIN 125. Cheerleaders and Dance Team. 1 Hour.
Open to members of UAB cheerleading and dance teams only.

KIN 126. Flying Disc Sports. 1 Hour.
Students in this class will learn the basic skills of throwing and catching flying discs. They can incorporate these techniques in the popular games including Ultimate and Disc Golf.

KIN 127. Running and Jogging. 1 Hour.
This course includes basic running and jogging instruction and training.

KIN 128. Rock Climbing. 1 Hour.
Introduction to the fundamentals of rock climbing. Lectures and drills designed to give students an introduction to the skills and knowledge to rock climb safely in a single pitch sport climbing environment.

KIN 129. Aikido. 1 Hour.
Series of techniques adapted to respond to a variety of attacks and to multiple attackers.

KIN 130. Scuba Diving. 1 Hour.
This course includes physiology, physics, safety issues, and guidelines of recreational scuba diving through lectures, quizzes, and final exams. Students will learn and be able to demonstrate the proper assembly and use of scuba equipment as well as proper swimming and breathing techniques. Students must provide their own snorkel, fins, and mask. Must be able to tread water for 10 minutes and swim 200 yards.
KIN 131. Aerobics. 1 Hour.
Opportunity to improve cardiovascular fitness, flexibility, muscular strength and endurance and body composition in a group setting. Improves rhythm and coordination, body and space awareness, energy management appreciation of a healthy lifestyle and mental focus and concentration.

KIN 132. Group Exercise Leadership. 1 Hour.
Review and application of exercise science theory to group exercise. Repertoire of exercise for flexibility, strength, aerobic dance, and step training. Practice teaching each segment of a class at end of course will be able to teach a 60 minute group exercise class.
Prerequisites: (KIN 115 [Min Grade: C] or PE 115 [Min Grade: C]) and (KIN 131 [Min Grade: C] or PE 131 [Min Grade: C])

KIN 133. Aerobic Training. 1 Hour.
The purpose of this course is to provide information and experiences in aerobic exercise training, heart rate monitoring, and fitness assessment.

KIN 134. The College Athlete: Concerns and Issues. 3 Hours.
Needs of and demands on college athletes. Time management, study skills and habits, drug use and abuse, drug testing and NCAA rules, use of trainer and training facilities, and nutritional practices. Holistic health with emphasis on keeping athletic experience in perspective.

KIN 136. Intro to Physical Education Fitness and Sport. 3 Hours.
Introduction to the fields; professional organizations, career opportunities, historical development, and philosophical and scientific foundations.

KIN 201. Officiating Techniques. 2 Hours.
Knowledge and practical experience in officiating various team and individual sports. Includes officiating UAB intramurals.

KIN 206. Introduction to Teaching Physical Education. 3 Hours.
Research on teaching physical education and sociocultural influences on children as learners; development of basic teaching skills.

KIN 222. Concepts of Health and Fitness. 3 Hours.
Fitness and related health concepts. Fitness assessment, variety of fitness-related activities, and development of personal fitness program. Nutrition and cardiovascular health.

KIN 300. Organization and Administration of Physical Education. 3 Hours.
This course is designed to provide the student with opportunities to increase their knowledge of problems and issues involved in the organization and administration of physical education programs in elementary and secondary schools.

KIN 301. Teaching Health Education and Physical Education in Elementary Schools. 3 Hours.
For classroom teachers. Communicating and working with physical education specialists, selecting developmentally appropriate activities, and integrating movement activities and concepts into classroom subjects. Background information and skills to implement health education in grades K-5.
Prerequisites: HE 141 [Min Grade: C] or HPE 200 [Min Grade: C] or HE 222 [Min Grade: C]

KIN 305. Motor Development. 3 Hours.
Development of motor skills, physical fitness, and perceptual motor abilities across life span; concentration on preschool population. Students will be required to communicate effectively in writing the information obtained via assessment of the above elements of motor development. In addition, quantitative literacy will be assessed in terms of the student's ability to interpret the assessment data to plan appropriate physical activities.

KIN 307. Applied Kinesiology. 3 Hours.
Knowledge of anatomical terminology and analysis of internal muscular forces that act on bones resulting in motion at major movable joints. Identification and application of biomechanics to comprehend the external and internal biomechanical forces that occur in human movement.
Prerequisites: BY 115 [Min Grade: C] and (MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 126 [Min Grade: C] or MA 225 [Min Grade: C] or MA 226 [Min Grade: C])

KIN 308. Adapted Physical Education. 3 Hours.
Prescription and planning physical activity for individuals with disabilities.
Prerequisites: ECY 300 [Min Grade: C]

KIN 311. Elementary School Physical Education. 3 Hours.
The course will include the nature and content of a developmentally appropriate elementary physical education program.

KIN 320. Fitness/Motor Skill Acquisition. 3 Hours.
This course will enable candidates to acquire the knowledge and the skills necessary to analyze and appropriately teach motor skills and design developmentally appropriate fitness activities for adolescents applicable to all physical activity settings.

KIN 320L. Sports Skill Proficiency. 1 Hour.
This course will enable candidates to acquire the knowledge and the skills necessary to teach the critical elements needed to perform all basic sport skills. Candidates will demonstrate skill proficiency in the sport skills as well as the ability to teach others to perform the skills.

KIN 323. Techniques Teaching LIFE Skills in Sec. Schools. 3 Hours.
This course will enable candidates to learn techniques and strategies for teaching LIFE (Lifelong Individualized Fitness Education) skills typically covered in a high school physical education program. Admission to TEP required.

KIN 340. Planning/Management of Fitness Facilities. 3 Hours.
Management, marketing, operational leadership, evaluation, and planning principles of commercial, corporate, clinical, and community health/fitness facilities.
Prerequisites: (KIN 136 [Min Grade: C] or PE 136 [Min Grade: C]) and (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 400. Physiology of Exercise. 4 Hours.
Knowledge of acute and chronic physiological responses to exercise. Includes clinical laboratory experiences.
Prerequisites: BY 116 [Min Grade: C]

KIN 402. Basic Athletic Training. 2 Hours.
Knowledge and skills in organization and administration, mechanisms of injury, recognition and evaluation of injuries, injury management, general nutritional concerns, medical conditions and taping and bracing techniques.
Prerequisites: BY 115 [Min Grade: C] (Can be taken Concurrently) and KIN 136 [Min Grade: C] (Can be taken Concurrently) or PE 136 [Min Grade: C]

KIN 405. Sports Nutrition. 3 Hours.
Digestion, absorption and metabolism of nutrients and ergogenic aids relative to sports performance.
Prerequisites: BY 116 [Min Grade: C]

KIN 407. Coaching Young Athletes. 3 Hours.
The course is designed to increase the students’ knowledge and understanding of the principles of coaching regarding sport psychology, sport pedagogy, sport physiology, and sport management. This course will include a practicum for hands-on learning opportunities.
KIN 409. Assessment in Physical Education. 3 Hours.
This course emphasizes the development, implementation, and analysis of assessments within K-12 physical education programs, including assessment of the cognitive, physical, and psychomotor domains including program assessment.

KIN 440. Principles of Conditioning the Athlete. 3 Hours.
Isometric, isotonic, eccentric, variable resistance, and isokinetic training; tapering of the athlete; designing endurance and resistance training programs; weight training techniques for specific sports.
Prerequisites: BY 115 [Min Grade: C] and (KIN 400 [Min Grade: C] or PE 400 [Min Grade: C])

KIN 450. Physical Activity for Individuals with Disabilities/SL. 3 Hours.
Knowledge and skills needed to meet the unique fitness and physical activity needs of individuals with various disabilities. Design and implementation of personal training/fitness programs and disability sports/recreation programs for individuals with disabilities based on assessments of health-related strengths and needs. This is a designated service-learning course integrating academic learning, civic learning, and meaningful service to the community.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 451. Physical Activity for Senior Adults. 3 Hours.
Knowledge and skills needed to be a leader of exercise, dance, and fitness for older adults.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 460. Clinical Exercise Physiology. 3 Hours.
In depth study of the use of exercise as a form of treatment and prevention of chronic disease.
Prerequisites: BY 116 [Min Grade: C] and (HE 141 [Min Grade: C] or CHHS 141 [Min Grade: C])

KIN 470. Advanced Treatment Athletic Training. 3 Hours.
Seminar in treatment and prevention of athletic injuries.
Prerequisites: KIN 402 [Min Grade: C] or PE 402 [Min Grade: C]

KIN 485. Exercise Testing/Prescription. 3 Hours.
Knowledge and skills needed to perform pre-exercise health risk and physical fitness assessments, interpret results and develop exercise prescriptions for apparently healthy individuals and individuals with medically controlled diseases (based on ‘American College of Sports Medicine’ guidelines). This course also includes a high level review of exercise physiology and applied kinesiology, and application of behavioral and motivational strategies to support clients in adopting and maintaining healthy lifestyle behaviors.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C] and (HE 140 [Min Grade: C] or CHHS 140 [Min Grade: C]) and (KIN 307 [Min Grade: C] or PE 307 [Min Grade: C]) and (KIN 400 [Min Grade: C] or PE 400 [Min Grade: C])

KIN 489. Instructional Strategy for Physical Education K-12. 6 Hours.
This course will focus on information to help potential physical educators attain teaching skills and knowledge necessary to design, implement and evaluate developmentally appropriate K-12 physical education programs. Students will gain hands-on experience with small groups of students in elementary, middle and high school settings.

KIN 492. Special Projects in Kinesiology. 1-6 Hour.
Designed as an independent study for students who wish to conduct an in-depth investigation into a physical education related topic.

KIN 493. Problems in Kinesiology. 3-6 Hours.
Provides students with current information regarding a selected physical education related issue. Classes taught under this course title are outside the current physical education program requirements.

KIN 495. Elementary/Secondary Physical Education Student Teaching. 9 Hours.
Student teaching provides an opportunity for physical education teacher education candidates to synthesize and apply all knowledge and skills acquired during previous coursework. Interns teach for 15 weeks at two levels, elementary and either middle or high school. The candidates must pass edTPA assessments to receive teacher certification.

KIN 496. Physical Education Internship Seminar. 3 Hours.
Supports and extends efforts of student teaching. Problem solving related to situations such as classroom management, grading, professionalism and ethics, legal issues, teacher rights, and others that occur during internship.

KIN 499. Fitness Internship. 3-6 Hours.
Takes place in a setting that is related to the degree and major area of emphasis and serves as the culminating experience of the formal education process. Students complete their internship hours with guidance from their agency supervisor.
Prerequisites: (KIN 485 [Min Grade: C] or PE 485 [Min Grade: C]) and (KIN 136 [Min Grade: C] or PE 136 [Min Grade: C]) and (KIN 400 [Min Grade: C] or PE 400 [Min Grade: C]) and (KIN 307 [Min Grade: C] or PE 307 [Min Grade: C])

LCB-FLC in Business

Courses

LCB 101. Dollars and Sense/SL. 3 Hours.
This anchor course will take a practical approach to introducing students to the very real issue of managing their finances in the college environment by engaging them in creating a lifetime financial plan as well as participating in a service learning project. Topics of this course include financial literacy and the mathematics of money. This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.

LCB 102. Roadmap Professional Succes. 3 Hours.
What is professionalism? What does it mean to be a professional? This course will use your experiences and define these difficult terms together. Then explore many aspects of professionalism including ethical decision making, communication, creative thinking, emotional intelligence, and expectations of professional standards. You will learn by practicing and helping others, guest speakers, readings, class discussions, and a variety of other learning tools. Open to all majors, this course is designed to help you now as you go through school and build your resume as well as after graduation as you BECOME a professional.

LCB 103. I Lead: Access Ldshp Potential. 3 Hours.
This anchor course will examine qualities of effective leaders and how leadership skills can affect everything from your personal relationships to your career development. Students will develop their own leadership goals and show specific plans to achieve these goals. Self assessment tools will be used in this course to help students identify what type of leadership qualities and characteristics they have.
LING-Linguistics Courses

Courses

LING 221. Introductory Descriptive Linguistics. 3 Hours.
Description and analysis of non-Western languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 260. Language and Culture. 3 Hours.
Nonverbal communication; language origins and acquisition; universals; language classification and processes of change; language as expression of cultural values and social structures; beginning componental and structural analysis.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 350. Introduction to Linguistics. 3 Hours.
Introduction to the scientific study of language with a main focus on principles underlying phonology, morphology, syntax and semantics. Relationship between language society, psycholinguistics and language typology may also be addressed.
Prerequisites: EH 301 [Min Grade: C]

LING 351. Structure of English. 3 Hours.
Description and analysis of present-day English grammar with particular attention paid to the structure of phrases, clauses and sentences, including parts of speech, coordination, subordination, tense, aspect, voice, grammatical functions, agreement and clause types.
Prerequisites: EH 201 [Min Grade: C]

LING 352. The Structure of English Words. 3 Hours.
Introduction to English vocabulary elements and word formation, including topics in history of English and sound patterns as these topics relate to word formation. Does not count as literature for Core Curriculum requirement.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 355. Introduction to Sociolinguistics. 3 Hours.
Social factors that play role in language usage and learning; emphasis on American English.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 356. Semantics. 3 Hours.
Meaning in language with reference to questions of synonymy, ambiguity, and language use.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 360. Phonology. 3 Hours.
Sound patterning of languages.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 393. Special Topics in Linguistics. 3 Hours.
See class schedule for topic.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

LING 450. Advanced Grammar. 3 Hours.
Present-day English grammar.
Prerequisites: EH 250 [Min Grade: C] or EH 251 [Min Grade: C]

LING 451. Generative Grammar. 3 Hours.
Introduction to Chomskian linguistic theory. Knowing a language involves knowing an intricate set of rules; this course gives one approach to modeling this linguistic knowledge.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 452. Grammar and Usage for English Teachers. 3 Hours.
Overview of English grammar and usage, focusing on those topics that are presented in the classroom. Topics will include the difference between prescriptive and descriptive grammar, parts of speech, types of verbs, grammatical functions, agreement, sentence structure, tense, aspect, voice, finite clauses, nonfinite clauses, clause types. Focus also Reed-Kellogg sentence diagramming.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 453. History of the English Language. 3 Hours.
Overview of language evolution from Proto-Indo European to modern English dialects, including phonological shifts, dialectal distinctions, language families, and orthographical and syntactical changes.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 454. The Biology of Language. 3 Hours.
Vocal tract and neuroanatomical specializations for language, language acquisition, genetic language disorders, language and other primate, and evolution of language.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 466. Computational Linguistics. 3 Hours.
Computational Linguistics.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]
LING 493. Special Topics in Linguistics. 3 Hours.
See class schedule for topic.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 494. Special Problems in Linguistics. 3 Hours.
Supervised in-depth study of specified topic area in linguistics. Topics determined by student and instructor interest.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LING 495. Special Problems in Linguistics. 3 Hours.
Supervised in-depth study of specified topic area in linguistics. Topics determined by student and instructor interest.
Prerequisites: EH 350 [Min Grade: C] and LING 350 [Min Grade: C] or EH 351 [Min Grade: C] and LING 351 [Min Grade: C]

LS-Legal Studies Courses

Courses
LS 246. Legal Environment of Business. 3 Hours.
This course is required for all students in the Collat School of Business. Students acquire a general knowledge of the legal environment of business.

LS 457. Business Law for Accountants. 3 Hours.
Legal forms of business organization, including partnerships and corporations. Commercial paper, especially negotiable instruments; sales under Uniform Commercial Code; other CPA examination material. Junior standing required.
Prerequisites: (LS 246 [Min Grade: C] and GPAT and GPAO 2.00) or (LS 246 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

LS 471. Legal Elements of Fraud Investigation. 3 Hours.
Key legal principles and courtroom procedures relevant to forensic accounting, and survey of related topics--criminology theories, evidence management, and litigation services.
Prerequisites: (LS 246 [Min Grade: C] and GPAT and GPAO 2.00) or (LS 246 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

LT-Foreign Literature English Courses

Courses
LT 420. World Literature I. 3 Hours.
Selections in translation from Greek, Latin, and Hebrew classics as well as other world literature, and from oral tradition.

LT 421. World Literature II. 3 Hours.
Selections in translation from world writers. Overview of a rotating selection of genres, texts, author, societies and regions of the world.

LT 425. French Literature in English Translation. 3 Hours.
Selections in translation from major Francophone writers. Overview of a rotating selection of genres texts and authors. Focus on the relevant questions of genre and on the French-speaking societies in which the works were produced.

LT 426. German Literature in English Translation. 3 Hours.
Selections in translation from major Spanish or Hispano-American writers. Overview of rotating selection of genres, texts, authors, and regions of the Hispanic World. Focus on the relevant questions of genre and on the German-speaking society in which the works were produced.

LT 427. Spanish and/or Spanish-American Literature in English. 3 Hours.
Selections in translation from major Spanish or Hispano-American writers. Overview of a rotating selection of genres, texts, authors and regions of the Hispanic World. Focus on the relevant questions of genre and on the Spanish-speaking societies in which the works were produced.

LT 430. Brazilian or Portuguese Literature in English Translation. 3 Hours.
Selections in translation from major Portugues or Brazilian writers. Overview of a rotating selection of genres, text, authors, and regions of the Lusophone World. Focus on the relevant questions of genre and on the Portuguese-speaking societies in which the works were produced.

LT 431. Individual Studies. 1-3 Hour.
Individualized course of directed readings and activities for students of languages other than those commonly taught at UAB. Permission of department chair required.

MA-Mathematics Courses

Courses
MA 094. Basic Mathematics. 3 Hours.
Whole numbers, fractions, decimals, ratios and proportions, percentages, integers, basic geometry, and basic algebra including linear equations and applications. Designed to prepare students for MA 110, Finite Mathematics. Students preparing to take MA 102 should take MA 098. Attendance at the first meeting is mandatory. MA 094 section QL is an on-line version of MA 094 intended primarily for students who have job conflicts or live a long distance from the campus. There are no campus based meetings with the on-line class. However, students in the on-line version of MA 094 are required to interact with peers and the instructor through an on-line format and should be able to work independently and be motivated self-starters who are confident in their ability to master mathematics. Non-credit; does not contribute to any degree requirements. 0.000 Credit Hours.

MA 098. Basic Algebra. 3 Hours.
Arithmetic of integers, rational numbers, real numbers, exponents, polynomial algebra, factoring, rational functions, linear and quadratic equations, elementary geometry, verbal problems. Designed to prepare students for college level math courses. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. MA 098 section QL is an on-line version of MA 098 and is intended primarily for students who have job conflicts or live a long distance from the campus. There are no campus based meetings with the on-line class. However, students in the on-line version of MA 098 are required to interact with peers and the instructor through an on-line format and should be able to work independently and be motivated self-starters who are confident in their ability to master mathematics. Non-credit; does not contribute to any degree requirements. 0.000 Credit Hours.
MA 102. Intermediate Algebra. 3 Hours.

Absolute values, Cartesian coordinates, graphs of linear equations, concept of a function, linear systems, algebra of polynomials, factoring of polynomials, algebra of rational expressions, literal equations, word problems involving linear, rational and quadratic models, integer and rational exponents, radical expressions, rational, radical and quadratic equations, complex numbers. Consists of one, mandatory, scheduled 50 minute lecture per week, plus one, mandatory, scheduled 50 minute lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Quantitative Literacy is a significant component of this course. MA 102 section QL is an on-line version of MA 102 and is intended primarily for students who have job conflicts or live a long distance from the campus. There are no campus based meetings with the on-line class. However, students in the on-line version of MA 102 are required to interact with peers and the instructor through an on-line format and should be able to work independently and be motivated self-starters who are confident in their ability to master mathematics.

Prerequisites: MA 098 [Min Grade: P] or (A02 20 and HSCG 2.50) or A02 21 or (S02 480 and HSCG 2.50) or S02 500 or MAAD 15 or MA1 085 or MA 098 [Min Grade: C] or (SAT2 510 and HSCG 2.50) or SAT2 530

MA 105. Pre-Calculus Algebra. 3 Hours.

Functions from algebraic, geometric (graphical), and numerical points of view, including polynomial, rational, logarithmic, and exponential functions; inverse functions; systems of equations and inequalities; quadratic and rational inequalities; complex and real roots of polynomials; applications and modeling, both scientific and business. Supports development of quantitative literacy. Consists of one scheduled 50 minute lecture per week, plus one 50 minute scheduled lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. May not be enrolled in Undergraduate Certificate. Lecture, online at least 80%. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.

Prerequisites: MA 102 [Min Grade: C] or (A02 22 and HSCG 3.50) or (A02 23 and HSCG 3.00) or (A02 24 and HSCG 2.50) or (S02 520 and HSCG 3.50) or (S02 540 and HSCG 3.00) or (S02 560 and HSCG 2.50) or S02 580 or MAAD 21 or MA 080 or A02 25 or (S02 580 and HSCG 3.50) or (S02 570 and HSCG 3.00) or (SAT2 580 and HSCG 3.50) or SAT2 530

MA 106. Pre-Calculus Trigonometry. 3 Hours.

Trigonometric functions (circular functions) and their inverses, graphs, and properties; right triangle trigonometry and applications; analytical trigonometry, trigonometric identities and equations; polar coordinates; complex numbers; laws of sines and cosines; conic sections. Supports development of quantitative literacy. Consists of one scheduled 50 minute lecture per week, plus one 50 minute scheduled lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.

Prerequisites: MA 105 [Min Grade: C] or (A02 25 and HSCG 3.50) or (A02 26 and HSCG 3.00) or A02 27 or (S02 580 and HSCG 3.50) or (S02 600 and HSCG 3.00) or S02 620 or MAC1 17 or MA3 080 or (SAT2 600 and HSCG 3.50) or (SAT2 620 and HSCG 3.00) or SAT2 640

MA 107. Pre-Calculus Algebra and Trigonometry. 4 Hours.

Functions, their graphs and applications, including polynomial, rational, algebraic, exponential, logarithmic, and trigonometric functions. A fast-paced course designed as a review of the algebra and trigonometry needed in calculus. (MA107 is a combination of MA105 Pre-Calculus Algebra and MA106 Pre-Calculus Trigonometry taught in a single semester.) Satisfies core curriculum requirement in mathematics. Supports development of quantitative literacy. Consists of two scheduled 50 minute lectures per week, plus one 50 minute scheduled lab meeting per week, plus 50 minutes of individually scheduled lab time per week. Attendance at the first day of class is mandatory. Attendance at the first lab meeting is mandatory. Quantitative literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.

Prerequisites: MA 102 [Min Grade: B] or (A02 24 and HSCG 3.50) or (A02 25 and HSCG 3.00) or (A02 26 and HSCG 2.50) or A02 27 or MA 21 or MA4 085 or (S02 560 and HSCG 3.50) or (S02 580 and HSCG 3.00) or (S02 600 and HSCG 2.50) or S02 620 or SAT2 580 and HSCG 3.50) or (SAT2 600 and HSCG 3.00) or (SAT2 620 and HSCG 2.50) or SAT2 640

MA 110. Finite Mathematics. 3 Hours.

An overview of topics of finite mathematics and applications of mathematics for the liberal arts student. Topics include counting, permutations, combinations, basic probability, conditional probability, descriptive statistics, binomial and normal distributions, statistical inference, and additional selected topics. Students construct models of problem situations, translate verbal descriptions into mathematical form, interpret and create schematic representations of mathematical relationships, use quantitative evidence as a basis for reasoning, argument, and drawing conclusions, and communicate their results to an audience appropriately. May not be enrolled in Undergraduate Certificate. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.

Prerequisites: MA 094 [Min Grade: C] or MA 098 [Min Grade: C] or MA 102 [Min Grade: C] or (A02 20 and HSCG 2.00) or A02 21 or (S02 480 and HSCG 2.00) or S02 500 or MAAD 15 or MA1 085 or SAT2 510 and HSCG 3.50) or SAT2 580 or MAAD 21 or MA 080 or A02 25 or (S02 550 and HSCG 3.50) or (SAT2 570 and HSCG 3.00) or (SAT2 580 and HSCG 2.50) or SAT2 600

MA 120. Introduction to Symbolic Logic. 3 Hours.

Modern theory of deductive inference. Emphasis on recognizing valid forms of reasoning. Truth-function theory and some concepts of one-variable quantification theory. May not be used to satisfy Core Curriculum requirement in mathematics.

MA 125. Calculus I. 4 Hours.

Limit of a function; continuity, derivatives of algebraic, trigonometric exponential, and logarithmic functions, application of derivative to extremal problems, optimization, and graphing; Newton method; the definite integral and its application to area problems; fundamental theorem of integral calculus, average value, and substitution rule. Quantitative literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.

Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or (A02 25 and HSCG 3.50) or (A02 26 and HSCG 3.00) or A02 27 or (S02 580 and HSCG 3.50) or (S02 600 and HSCG 3.00) or S02 620 or MAC2 16 or MAN 080 or SAT2 600 and HSCG 3.50) or (SAT2 620 and HSCG 3.00) or SAT2 640

MA-Mathematics Courses
MA 126. Calculus II. 4 Hours.
Techniques of integration; applications in integration such as volume, arc length and work; infinite series, Taylor series; polar coordinates; parametric equations; plane and space vectors; lines and planes in space. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 180. Introduction to Statistics. 3 Hours.
Descriptive and inferential statistics, probability distributions, estimation, hypothesis testing. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 224. Intermediate Symbolic Logic. 3 Hours.
Full development of quantification theory, including identity and definite description, and soundness and completeness proofs. Skill in formal proof emphasized, as well as ability to express arguments from natural language in artificial language.
Prerequisites: MA 120 [Min Grade: C] or PHL 220 [Min Grade: C]

MA 225. Calculus I - Honors. 4 Hours.
Limit of a function; continuity, derivatives of algebraic, trigonometric exponential, and logarithmic functions, application of derivative to extremal problems, optimization, and graphing; Newton method; the definite integral and its application to area problems; fundamental theorem of integral calculus, average value, and substitution rule. Students will be required to display an in-depth understanding of these topics through a complete justification of their work on tests and through participation in class projects. Quantitative literacy is a significant component of this course.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or (A02 25 and HSCG 3.50) or (A02 25 and HSCG 3.50) or A02 27 or (S02 580 and HSCG 3.50) or (S02 600 and HSCG 3.00) or MAC2 16 or MA 080

MA 226. Calculus II - Honors. 4 Hours.
Techniques of integration; applications in integration such as volume, arc length and work; infinite series, Taylor series; polar coordinates; parametric equations; plane and space vectors; lines and planes in space. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 225 [Min Grade: C] or MA 125 [Min Grade: C]

MA 227. Calculus III. 4 Hours.
Vector functions, functions of two or more variables, partial derivatives, quadric surfaces, multiple integration and vector calculus, including Green's Theorem, curl and divergence, surface integrals, and Gauss' and Stokes' Theorem. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 252. Introduction to Differential Equations. 3 Hours.
First order differential equations (separable, linear, exact, and additional non-linear examples using MAPLE), modeling with first order DE's, examples of systems of first order DE's, theory of higher order linear DE's (homogeneous and non-homogeneous, superposition of solutions, linear independence and general solutions, initial and boundary value problems), solution of constant coefficient homogeneous linear equations, variation of parameters and Green's functions with complicated cases done using MAPLE. Modeling projects in the course will emphasize the use of MAPLE to do the heavy lifting. Quantitative Literacy and Writing are significant components of this course. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 260. Introduction to Linear Algebra. 3 Hours.
Linear equations and matrices; real vector spaces, basis, diagonalization, linear transformations; determinants, eigenvalues, and eigenvectors; inner product spaces, matrix diagonalization; applications and selected additional topics. MA 260 and MA 434 may not both be counted toward the major or minor. This course meets the Core Curriculum requirements for Area III: Mathematics.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 265. Math Tools for Engineering Problem Solving. 4 Hours.
An applied mathematics course designed to utilize the terminology and problem-solving approaches inherent to engineering, while completing the mathematical preparation of most engineering students. This course includes elements of MA 227 and MA 252.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 268. Introduction to Mathematical Biology. 3 Hours.
This course, designed at the interface of several disciplines, targets undergraduate students in biology, mathematics, and engineering. We will review the biology of problems that arise in nature and medicine and study the mathematics that allows us to tackle these problems. This course serves as an introduction, by example, to multivariable calculus, discrete and continuous differential equations in one or more variables, vectors, matrices, linear and non-linear dynamical systems, and basic concepts of chaos. Biological topics may include single species and interacting population dynamics, modeling infectious and dynamic diseases, regulation of cell function, molecular interactions and receptor-ligand binding, biological oscillators, and an introduction to biological pattern formation. There will also be discussions of current topics of interest such as tumor growth and angiogenesis, HIV and AIDS, and control of the mitotic clock.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 298. Research in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics. Freshman or sophomore standing recommended. Prerequisites: Permission of instructor.

MA 311. History of Mathematics I. 3,4 Hours.
Development of mathematical principles and ideas from an historical viewpoint, and their cultural, educational and social significance.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 312. History of Mathematics II. 3 Hours.
Development of mathematical principles and ideas from an historical viewpoint, and their cultural, educational and social significance.
Prerequisites: MA 311 [Min Grade: C]
MA 313. Patterns, Functions and Algebraic Reasoning. 3 Hours.
Problem solving experiences, inductive and deductive reasoning, patterns and functions, some concepts and applications of geometry for elementary and middle school teachers. Topics include linear and quadratic relations and functions and some cubic and exponential functions. Number sense with the rational number system including fractions, decimals, and percents will be developed in problem contexts. An emphasis will be on developing algebraic thinking and reasoning.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 314. Geometric and Proportional Reasoning. 3 Hours.
Problem solving experiences, inductive and deductive reasoning, concepts and applications of geometry and proportional reasoning. Topics include analysis of one-, two- and three-dimensional features of real objects, ratio and proportionally, similarity, and congruence, linear, area, and volume measurement, and the development of mathematically convincing arguments. An emphasis will be on developing geometric and proportional thinking and reasoning.
Prerequisites: MA 313 [Min Grade: C]

MA 315. Probabilistic and Statistical Reasoning. 3 Hours.
Descriptive and inferential statistics, probability, estimation, hypothesis testing. Reasoning with probability and statistics is emphasized.
Prerequisites: MA 313 [Min Grade: C]

MA 316. Numerical Reasoning. 3 Hours.
Develop an understanding of number and improve numerical reasoning skills specifically with regard to place value, number relationships that build fluency with basis facts, and computational proficiency; developing a deep understanding of numerous diverse computational algorithms; mathematical models to represent fractions, decimals and percents, equivalencies and operations with fractions, decimals and percents; number theory including order of operations, counting as a big idea, properties of number, primes and composites, perfect, abundant and significant numbers, and figurate numbers; inductive and deductive reasoning with number.
Prerequisites: MA 313 [Min Grade: C]

MA 317. Extending Algebraic Reasoning. 3 Hours.
Extension of algebraic and functional reasoning to polynomials, rational, exponential, and logarithmic functions; problem-solving involving transfer among representations (equation, graph, table); proof via symbolic reasoning, contradiction, and algorithm; interpretation of key points on graphs (intercepts, slope, extrema); development of facility and efficiency in manipulating symbolic representations with understanding; appropriate use of technology and approximate versus exact solutions; functions as models.
Prerequisites: MA 313 [Min Grade: C]

MA 360. Scientific Programming. 3 Hours.
Programming and mathematical problem solving using Matlab, Python, FORTRAN or C++. Emphasizes the systematic development of algorithms and numerical methods. Topics include computers, floating point arithmetic, iteration, GNU/Linux operating system, functions, arrays, Matlab graphics, image processing, robotics, solving linear systems and differential equation arising from practical situations, use of debuggers and other debugging techniques, and profiling; use of callable subroutine packages like LAPACK and differential equation routines; parallel programming. Assignments and projects are designed to give the students a computational sense through complexity, dimension, inexact arithmetic, randomness, simulation and the role of approximation.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 361. Mathematical Modeling. 3 Hours.
Mathematical modeling using computer software, including spreadsheets, systems dynamics software, and computer algebra systems; connections to calculus and functions are emphasized. Students make presentations to the class; justification of mathematical claims and quality of student presentations are assessed. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 398. Research in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Junior standing recommended. Permission of instructor required.

MA 411. Integrating Mathematical Ideas. 3 Hours.
This course will integrate ideas from algebra, geometry, probability, and statistics. Emphasis will be on using functions as mathematical models, becoming fluent with multiple representations of functions, and choosing the most appropriate representations for solving a specific problem. Students will be expected to communicate mathematics verbally and in writing through small group, whole group, and individual interactions.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and MA 314 [Min Grade: C](Can be taken Concurrently) or MA 316 [Min Grade: C]

MA 412. Quantitative Literacy. 3 Hours.
This course will integrate ideas from algebra, geometry, probability, and statistics. Emphasis will be on using functions as mathematical models, becoming fluent with multiple representations of functions, and choosing the most appropriate representations for solving a specific problem. Students will be expected to communicate mathematics verbally and in writing through small group, whole group, and individual interactions.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and MA 314 [Min Grade: C](Can be taken Concurrently) or MA 316 [Min Grade: C]

MA 418. Statistics for Teachers. 3 Hours.
Descriptive and inferential statistics, probability distributions, estimation, hypotheses testing, regression. Writing assignment on a project drawing from the above topics. Quantitative Literacy is a significant component of this course.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 419. Special Topics. 1-4 Hour.
Topics vary; may be repeated for credit.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 434. Algebra I: Linear. 3 Hours.
Abstract vector spaces, subspaces, dimension bases, linear transformations, matrix algebra, matrix representations of linear transformations, determinants. MA 260 and MA 434 may not both be counted toward the minor.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 435. Algebra II: Modern. 3 Hours.
Rings, including the rings of integers and of polynomials, integral domains, fields and groups. Homomorphism, isomorphism. As time permits, Galois theory, semi-groups, quotient groups, models, or other areas of algebra may be included. Students present proofs from a list of pre-assigned theorems to the class. Logical correctness and proper mathematical proof-writing style are assessed.
Prerequisites: MA 434 [Min Grade: C] or MA 260 [Min Grade: C]

MA 440. Advanced Calculus I. 3 Hours.
Real numbers, sequences and series, continuity, differential and integral calculus, exponential and logarithm functions, sine and cosine functions. Students present proofs from a list of pre-assigned theorems to the class. Written versions of the proofs are posted for easy access in subsequent proofs. Logical correctness and proper mathematical proof-writing style are assessed. Writing and Quantitative Literacy are significant components of the course.
Prerequisites: MA 227 [Min Grade: C]
MA 441. Advanced Calculus II. 3 Hours.
Real numbers, sequences and series, continuity, differential and integral calculus, exponential and logarithm functions, sine and cosine functions. Students present proofs from a list of pre-assigned theorems to the class. Written versions of the proofs are posted for easy access in subsequent proofs. Logical correctness and proper mathematical proof-writing style are assessed. Writing and Quantitative Literacy are significant components of the course.
Prerequisites: MA 440 [Min Grade: C]

MA 444. Vector Analysis. 3 Hours.
Review and application of multiple integrals; Jacobians and change of variables in multiple integrals; line and surface integrals; Green, Gauss, and Stokes theorems, with applications to physical sciences and computation in spherical and cylindrical coordinates.
Prerequisites: MA 227 [Min Grade: C]

MA 445. Complex Analysis. 3 Hours.
Analytic functions, complex integration and Cauchy's theorem, Taylor and Laurent series, calculus of residues and applications, conformal mappings.
Prerequisites: MA 227 [Min Grade: C]

MA 453. Transforms. 3 Hours.
Theory and applications of Laplace and Fourier transforms.
Prerequisites: MA 252 [Min Grade: C]

MA 455. Intermediate Differential Equations. 3 Hours.
Topics from among Frobenius series solutions, Sturm-Liouville systems, nonlinear equations, and stability theory.
Prerequisites: MA 252 [Min Grade: C]

MA 456. Partial Differential Equations I. 3 Hours.
Classification of second order partial differential equations; background on eigenfunction expansions and Fourier series; integrals and transforms; solutions of the wave equations, reflection of waves; solution of the heat equations in bounded and unbounded media; Laplace's equation, Dirichlet and Neumann problems. Written project reports required. Quantitative Literacy and Writing are significant components of this course.
Prerequisites: MA 252 [Min Grade: C]

MA 457. Partial Differential Equations II. 3 Hours.
Classification of second order partial differential equations; background on eigenfunction expansions and Fourier series; integrals and transforms; solution of the wave equations, reflection of waves; solution of the heat equation in bounded and unbounded media; Laplace's equation, Dirichlet and Neumann problems.
Prerequisites: MA 455 [Min Grade: C]

MA 461. Modeling with Partial Differential Equations. 3 Hours.
Practical examples of partial differential equations; derivation of partial differential equations from physical laws; introduction to MATLAB and its PDE Tool-box, and COMSOL using practical examples; an overview of finite difference and finite element solution methods; specialized modeling projects in topics such as groundwater modeling, scattering of waves, medical and industrial imaging, continuum mechanics and deformation of solids, Fluid mechanics including the class boat race, financial derivative modeling, and acoustic and electromagnetic wave applications. Written project reports required for all homework assignments. Quantitative Literacy and Writing are significant components of this course.
Prerequisites: MA 252 [Min Grade: C]

MA 462. Intro to Stochastic Differential Equations. 3 Hours.
Stochastic differential equations arise when random effects are introduced into the modeling of physical systems. Topics include Brownian motion and Wiener processes, stochastic integrals and the Ito calculus, stochastic differential equations, and applications to financial modeling, including option pricing.
Prerequisites: MA 485 [Min Grade: C]

MA 467. Gas Dynamics. 3 Hours.
Euler's equations for inviscid flows, rotation and vorticity, Navier-Stokes equations for viscous flows, hyperbolic equations and characteristics, rarefaction waves, shock waves and entropy conditions, the Riemann problem for one-dimensional gas flows, numerical schemes.
Prerequisites: MA 252 [Min Grade: C] and MA 360 [Min Grade: C]

MA 468. Numerical Analysis I. 3 Hours.
Prerequisites: MA 227 [Min Grade: C] or MA 252 [Min Grade: C]

MA 469. Numerical Analysis II. 3 Hours.
Prerequisites: MA 468 [Min Grade: C]

MA 470. Differential Geometry. 3 Hours.
Theory of curves and surfaces: Frenet formulas for curve, first and second fundamental forms of surface; global theory; abstract surfaces, manifolds, Riemannian geometry.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 472. Geometry I. 3 Hours.
The axiomatic method; Euclidean geometry including Euclidean constructions, basic analytic geometry, transformational geometry, and Klein's Erlangen Program. Students present proofs from a list of pre-assigned theorems to the class. Logical correctness and proper mathematical proof-writing style are assessed.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 473. Geometry II. 3 Hours.
Analytical geometry, Birkhoff's axioms, and the complex plane; structure and representation of Euclidean isometries; plane symmetries; non-Euclidean (hyperbolic) geometry and non-Euclidean transformations; fractal geometry; algorithmic geometry. Course integrates intuition/exploration and proof/explanation.
Prerequisites: MA 472 [Min Grade: C] and (MA 260 [Min Grade: C] or MA 434 [Min Grade: C])

MA 474. Introduction to Topology I. 3 Hours.
Essence and consequences of notion of continuous function developed. Topics include metric spaces, topological spaces, compactness, connectedness, and separation.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 475. Introduction to Topology II. 3 Hours.
Introduction to Topology II. 3 Hours.
Essence and consequences of notion of continuous function developed. Topics include metric spaces, topological spaces, compactness, connectedness, and separation.
Prerequisites: MA 474 [Min Grade: C]

MA 480. Introduction to Statistics. 3 Hours.
Descriptive and inferential statistics, probability distributions, estimation, hypothesis testing. Recommended that two years of high school algebra or MA 102 has been completed before taking course.
MA 484. Mathematical Finance. 3 Hours.
Prerequisites: MA 434 [Min Grade: C] or MA 435 [Min Grade: C] or MA 260 [Min Grade: C] and (MA 485 [Min Grade: C] or MA 585 [Min Grade: C])

MA 485. Probability. 3 Hours.
Probability spaces, combinatorics, conditional probabilities and independence. Bayes rule, discrete and continuous distributions, mean value and variance, moment generation function, joint distributions, correlation, Central Limit Theorem, Law of Large Numbers, random walks, Poisson process.
Prerequisites: MA 126 [Min Grade: C] or MA 226 [Min Grade: C]

MA 486. Mathematical Statistics. 3 Hours.
Sampling techniques and data analysis, Simulation, Point estimation, Confidence intervals, Sufficient statistics, Rao-Cramer lower bound, Tests for binomials, Tests for normals, Goodness-of-fit test, Contingency tables, Two factor analysis, Regression, Order statistics, Nonparametric methods: Wilcoxon test, Run test, and Kolmogorov-Smirnov test. A computer project that involves a written report. Quantitative Literacy and Writing are significant components of this course.
Prerequisites: MA 485 [Min Grade: C]

MA 490. Mathematics Seminar. 1-3 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites Permission of instructor.

MA 491. Special Topics in Mathematics. 1-3 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics.

MA 492. Special Topics in Mathematics. 1-3 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics.

MA 493. Special Topics in Mathematics. 1-3 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics.

MA 494. Special Topics in Mathematics. 1-6 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics.

MA 495. Special Topics in Mathematics. 1-6 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics.

MA 496. Special Topics in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics.

MA 497. Research Methods in Mathematics. 1-3 Hour.
Through experience in designing and carrying out investigations, learn how scientists and mathematicians gain knowledge, evaluate scientific and mathematical claims when they conduct, and design and carry out investigations to answer new questions. Work is closely coordinated with the work of students from other content disciplines so that students see the similarity and differences of research methods in their own field as compared with those of science and mathematics inquiry as a whole. Enrollment in UABTeach is required.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

MA 498. Research in Mathematics. 1-12 Hour.
This course covers special topics in mathematics and the applications of mathematics. May be repeated for credit when topics vary. Prerequisites vary with topics. Senior standing recommended.

MA 499. Honors Research in Mathematics. 1-12 Hour.
Mentored research in mathematics leading to a written research report and a public presentation in the form of a talk or poster. Admission restricted to students admitted to Honors in Mathematics. Permission of instructor required.

ME-Mechanical Engineering Courses

Courses

ME 011. Coop/Internship in ME. 0 Hours.
Engineering workplace experience in preparation for the student’s intended career.

ME 102. Engineering Graphics. 2 Hours.
Basic concepts in technical sketching, computer-aided drawing and design, projections, sections, and dimensioning.
Prerequisites: MA 105 [Min Grade: C](Can be taken Concurrently) or MA 106 [Min Grade: C](Can be taken Concurrently) or MA 107 [Min Grade: C](Can be taken Concurrently) or MA 125 [Min Grade: C](Can be taken Concurrently) or MA 225 [Min Grade: C]

ME 103. Drawing, Design and Measurement for Industrial Distribution. 3 Hours.
Technical sketching and reading of engineering drawings and analysis of systems involving human performance. For non-engineering majors. Not available for credit toward engineering major.

ME 215. Dynamics. 3 Hours.
Prerequisites: CE 210 [Min Grade: C]

ME 241. Thermodynamics I. 3 Hours.
Thermodynamic definitions, properties of a pure substance, ideal, and real gases, work, and heat. Fundamental laws of thermodynamics, entropy, reversible cycles, and irreversibility.
Prerequisites: PH 221 [Min Grade: C] and CH 115 [Min Grade: C] and (CH 116 [Min Grade: C] or CH 114 [Min Grade: C]) and MA 126 [Min Grade: C](Can be taken Concurrently) or MA 226 [Min Grade: C](Can be taken Concurrently)
ME 242. Thermodynamics II. 3 Hours.
Application of thermodynamic principles to engineering systems; vapor power cycles; gas turbine cycles; Otto and Diesel cycles; refrigeration cycles; mixtures of ideal gases; psychrometrics.
Prerequisites: ME 241 [Min Grade: C] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

ME 251. Introduction to Thermal Sciences. 2 Hours.
Introduction to thermodynamics and heat transfer for non-mechanical engineering majors.
Prerequisites: (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and PH 221 [Min Grade: C]

ME 302. Overview of Mechanical Components. 3 Hours.
An introduction to statics, dynamics, strength of materials, and engineering design. Transformation of energy, thermodynamics, heat transfer, and fluid mechanics. For non-engineering majors. Not available for credit toward engineering major.

ME 321. Introduction to Fluid Mechanics. 3 Hours.
Fluid properties, fluid statics, fluid in motion (control volume method), pressure variation in flowing fluids (Bernoulli equation), principles of momentum and energy transport, dimensional analysis and similitude, internal flow and external flow.
Prerequisites: ME 241 [Min Grade: C] and (MA 227 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C] or EGR 150 [Min Grade: C]) and CE 210 [Min Grade: C] or ME 150 [Min Grade: C] or EGR 150 [Min Grade: C]

ME 322. Introduction to Heat Transfer. 3 Hours.
Fundamentals of heat transfer and their application to practical problems, including steady and transient heat conduction, external and internal forced convection, natural convection and radiation.
Prerequisites: ME 321 [Min Grade: C]

ME 360. Introduction to Mechatronic Systems Engineering. 3 Hours.
Prerequisites: ME 215 [Min Grade: C] and ME 364 [Min Grade: C]

ME 361. Thermo-Fluids Systems. 3 Hours.
Pressure, temperature, fluid flow, and heat transfer instrumentation and their application to measurements of mass, heat, and momentum transport, flow characterization, heat engine and refrigeration cycles, and other thermal-fluids experiments. Experimental uncertainty analysis. Writing proficiency is required. ME 361L must be taken concurrently.
Prerequisites: ME 242 [Min Grade: C] (Can be taken Concurrently) and ME 322 [Min Grade: C] (Can be taken Concurrently)

ME 361L. Thermo-Fluids Systems Laboratory. 0 Hours.
Lab component for ME 361 Thermo-Fluids Systems. ME 361 must be taken concurrently.

ME 364. Linear Algebra and Numerical Methods. 3 Hours.
Linear equations and matrices, real vector bases, matrix decompositions, linear transformations; determinants, eigenvalues, eigenvectors; numerical methods for linear systems of equations, integration, ordinary differential equations; approximation, interpolation, least squares fits.
Prerequisites: (MA 227 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C]) and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C])

ME 370. Kinematics and Dynamics of Machinery. 3 Hours.
Displacement, velocity and acceleration analysis, synthesis and design of linkages and mechanisms for various engineering applications on the basis of motion requirements. Static and dynamic force analysis of linkages, balancing of rotors and reciprocating machines. Significant consideration is given to designing geometry of gear sets: spur, helical, worm, and bevel gears. Analysis of planetary sets and drivetrains completes the course. Computer workshops support the learning process of main technical components.
Prerequisites: ME 102 [Min Grade: C] and ME 215 [Min Grade: C]

ME 371. Machine Design. 3 Hours.
Body stress, deflection and fatigue strength of machine components. Failure theories, safety factors and reliability, surface damage. Application to the design of gears, shafts, bearings, welded joints, threaded fasteners, belts and chains, keys, pins, springs, as well as mechanical design and selection of other machine components. Software applications, design projects, and exposure to hardware and systems are used to reinforce concepts.
Prerequisites: CE 220 [Min Grade: C] and (BME 150 [Min Grade: C] or EGR 150 [Min Grade: C]) and ME 215 [Min Grade: C]

ME 405. Manufacturing Processes. 3 Hours.
Processing of metals, glasses, ceramics, and composites. Power processing, casting, welding, rapid solidification, and other advanced methods.
Prerequisites: MSE 280 [Min Grade: C] and CE 220 [Min Grade: C] and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C])

ME 411. Intermediate Fluid Mechanics. 3 Hours.
Applications of fluid dynamic principles to engineering flow problems such as turbo-machinery flow and one-dimensional compressible flow. Vorticity, potential flow, viscous flow, Navier-Stokes solutions, and boundary layers.
Prerequisites: ME 321 [Min Grade: C] and ME 364 [Min Grade: C]

ME 421. Introduction to Computational Fluid Dynamics Basics. 3 Hours.
Governing equations for fluid flows, classifications of flow regimes, and approaches to analyze fluid flow problems. Introduction to Computational Fluid Dynamics (CFD), mesh generation, boundary conditions, numerical solution of equations governing fluid flows, and visualization. Hands-on exercises using a commercial CFD solver.
Prerequisites: ME 321 [Min Grade: C]

ME 430. Vehicular Dynamics. 3 Hours.
Introduction to the fundamentals of mechanics and analytical methods for modeling vehicle dynamics and performance. Topics include tire-road interaction modeling, vehicle longitudinal dynamics and traction performance, lateral dynamics, handling, stability of motion and rollover, as well as contribution of the drivetrain system, steering system and suspension configurations to the dynamics of a vehicle. Software applications, projects, and exposure to hardware and systems are used to reinforce concepts.
Prerequisites: ME 215 [Min Grade: C]

ME 431. Introduction to Vehicle Drive Systems Engineering. 3 Hours.
Engineering fundamentals of mechanical and mechatronic, hybrid-electric, and electric drive systems. Applications to passenger cars and commercial vehicles. Drive system and component design, including main clutches and torque converters, transmissions, transfer cases, and drive axles. Introduction to plug-in hybrid-electric vehicles.
Prerequisites: ME 215 [Min Grade: C] and ME 370 [Min Grade: C] (Can be taken Concurrently)
ME 445. Combustion. 3 Hours.
Evaluation of the impact of fuel characteristics and operating conditions on the performance of coal-fired electric utility steam-raising plant and the prospects for continued reliance on coal as fuel for electric power generation. The phenomena emphasized are the behavior of turbulent jets; ignition, devolatilization and combustion of coal particles; radiative heat transfer and the effect of ash deposits on heat transfer; formation of air pollutants and their removal from combustion products; integrated gasification combined cycle; and capture and sequestration of carbon dioxide.
Prerequisites: ME 242 [Min Grade: C] and ME 322 [Min Grade: C]

ME 448. Internal Combustion Engines. 3 Hours.
Fundamentals of reciprocating internal combustion engines: engine types, engine components, engine design and operating parameters, thermo-chemistry of fuel-air mixtures, properties of working fluids, ideal models of engine cycles, engine operating characteristics, gas-exchange processes, fuel metering, charge motion within the cylinder, combustion in spark-ignition and compression ignition engines. Software applications, projects, and exposure to hardware and systems are used to reinforce concepts.
Prerequisites: ME 242 [Min Grade: C] and ME 242 [Min Grade: C]

ME 449. Power Generation. 3 Hours.
Application of thermodynamics, fluid mechanics, and heat transfer to conversion of useful energy. Includes terrestrial and thermodynamic limitations, fossil fuel power plants, renewable energy sources, and direct energy conversion.
Prerequisites: ME 242 [Min Grade: C]

ME 454. Heating, Ventilating and Air Conditioning. 3 Hours.
Fundamentals and practice associated with heating, ventilating, and air conditioning; study of heat and moisture flow in structures, energy consumption, and design of practical systems.
Prerequisites: ME 242 [Min Grade: C]

ME 455. Thermal-Fluid Systems Design. 3 Hours.
Comprehensive design problems requiring engineering decisions and code/Standard compliance. Emphasis on energy system components: piping networks, pumps, heat exchangers. Includes fluid transients and system modeling.
Prerequisites: ME 322 [Min Grade: C]

ME 456. Building Energy Modeling and Analysis. 3 Hours.
Computer modeling of energy use and thermal comfort in buildings using several software tools. Interpretation and analysis of the results. Implementing energy efficiency measures in the model and studying the effects on energy use.
Prerequisites: ME 242 [Min Grade: C] and ME 322 [Min Grade: C]

ME 461. Mechanical Systems. 3 Hours.
This course concentrates on main technical principles and aspects of mechanical systems design. The course also provides fundamental knowledge on test equipment and experimental techniques for experimenting on main technical principles of mechanical design. This course discusses data acquisition systems and signal conditioning, and design of experiments. Writing proficiency is required. ME 461L must be taken concurrently.
Prerequisites: CE 220 [Min Grade: C] and ME 215 [Min Grade: C]

ME 461L. Mechanical Systems Laboratory. 0 Hours.
Lab Component of ME 461 Mechanical Systems. ME 461 must be taken concurrently.

ME 464. Introduction to Finite Element Method. 3 Hours.
Prerequisites: CE 220 [Min Grade: C]

ME 470. Introduction to Continuum Mechanics. 3 Hours.
Fundamentals and application of mechanics principles to problems in continuous media. Matrix and tensor mathematics, fundamentals of stress, kinematics and deformation of motion, conservation equations, constitutive equations and invariance, linear and nonlinear elasticity, classical fluids, linear viscoelasticity.
Prerequisites: EGR 265 [Min Grade: C] or (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) and CE 220 [Min Grade: C]

ME 475. Mechanical Vibrations. 3 Hours.
Prerequisites: (MA 227 [Min Grade: C] and MA 252 [Min Grade: C]) or EGR 265 [Min Grade: C] and ME 215 [Min Grade: C]

ME 477. Systems Engineering. 3 Hours.
Exposure to the field of systems engineering, mission design, requirements development, trade studies, project life cycle, system hierarchy, risk analysis, cost analysis, team organization, design fundamentals, work ethics, compare and evaluate engineering alternatives, systems thinking.

ME 478. Automated Manufacturing. 3 Hours.
Introduction to automated manufacturing technology. Components of automated systems (controllers, sensors and actuators) and automated manufacturing sub-systems (3D printer, CNC, robot and computer vision) will be studied in a lecture/lab environment with hands on activities.
Prerequisites: ME 102 [Min Grade: C] and EGR 150 [Min Grade: C]

ME 480. Instrumentation and Measurements. 3 Hours.
Through exploration of fundamental measurement concepts and techniques for data acquisition and validation. Explanation of important selection criteria for the identification and configuration of commercially available data acquisition devices. Students will get hands-on experience following best practices for data acquisition (high speed vs low speed) relevant to their field of study or career. Many types of sensors, their underlying technology, and measurement techniques will be discussed (i.e. accelerometers, load cells, Digital Image Correlation, etc.) to demonstrate best practices for sensor selection for a wide range of specialized applications.

ME 489. Undergraduate Research in Mechanical Engineering. 0 Hours.
Undergraduate research experiences in mechanical engineering.
Prerequisites: (EGR 110 [Min Grade: C] and EGR 111 [Min Grade: C] or EGR 100 [Min Grade: C] or EGR 200 [Min Grade: C]) and (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and PH 221 [Min Grade: C] (Can be taken Concurrently)

ME 490. Special Topics in (Area). 1-4 Hour.
Special Topics in (Area).

ME 491. Individual Study in (Area). 1-4 Hour.
Individual Study in (Area).
ME 494. Mechanical Engineering Seminar. 1 Hour.
Required for ME undergraduate Honors Program students. Presentations by students, faculty, and guests regarding current research.

ME 496. Honors Research. 1-6 Hour.
Research opportunities for undergraduate students in the Mechanical Engineering Honors Program.
Prerequisites: EGR 301 [Min Grade: P]

ME 498. Capstone Design Project I. 3 Hours.
Capstone design project: interdisciplinary design teams, ethics, materials selection, design process, development of proposal, project planning and scheduling, project execution and resource scheduling, and communication of design.
Prerequisites: (ME 322 [Min Grade: C] and ME 360 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 370 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 371 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 370 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 371 [Min Grade: C]) or (ME 370 [Min Grade: C] and ME 371 [Min Grade: C]) and MSE 401 [Min Grade: C](Can be taken Concurrently) or ME 405 [Min Grade: C](Can be taken Concurrently)

ME 499. Capstone Design Project II. 3 Hours.
Continuation of ME 498. Capstone interim and final design reviews with written and oral reports. ME 498 must be taken the term immediately before ME 499.
Prerequisites: (ME 322 [Min Grade: C] and ME 360 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 370 [Min Grade: C]) or (ME 322 [Min Grade: C] and ME 371 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 370 [Min Grade: C]) or (ME 360 [Min Grade: C] and ME 371 [Min Grade: C]) or (ME 370 [Min Grade: C] or ME 371 [Min Grade: C]) or ME 498 [Min Grade: C]

MESC-Marine Environmental Sci Courses

Courses

MESC 106. Introduction to Oceanography. 4 Hours.
General introduction to the physics, chemistry, geology, and biology of the ocean. Lecture, laboratory, and field trips. Course is taught at Dauphin Island Sea Lab.

MESC 128. Ocean Science. 4 Hours.
Marine environment and relation of ocean to man. Lecture, laboratory, and field work. For non-science majors. Does not count towards the biology major or minor. General elective credit only. Course is taught at Dauphin Island Sea Lab.

MESC 201. Oceanology of the Gulf of Mexico. 2 Hours.
Descriptive study of the oceanology of the Gulf of Mexico and adjacent waters, including coastal zone, continental shelf, and deep ocean. Course is taught at Dauphin Island Sea Lab.

MESC 204. Coastal Geomorphology. 2 Hours.
Shape and land forms along coast; factors determining formation. Lecture and lab. Course is taught at Dauphin Island Sea Lab.

MESC 206. Marine Biology. 4 Hours.
Invertebrates, vertebrates, and marine plants. Lecture, laboratory, and field work. Permission of instructor required. Course is taught at Dauphin Island Sea Lab.
Prerequisites: BY 124 [Min Grade: D]

MESC 207. Commercial Marine Fisheries of Alabama. 2 Hours.
Biology, harvest techniques, processing, and economic value of local commercial species. Course is taught at Dauphin Island Sea Lab.

MESC 208. Biology and Conservation of Marine Turtles. 2 Hours.
Overview of the biology and conservation of marine turtles. Lecture and laboratory. Course is taught at Dauphin Island Sea Lab.
Prerequisites: BY 124 [Min Grade: D]

MESC 209. Hurricanes of the Gulf of Mexico. 2 Hours.
Survey of hurricane formation and impacts with emphasis on hurricanes in the Gulf of Mexico. Does not count towards the biology major or minor. General elective credit only. Course is taught at Dauphin Island Sea Lab.

MESC 213. Shark & Ray Biology. 2 Hours.
Introduction to the biology of sharks and rays, with emphasis on regional shark and ray fauna. Lecture and laboratory. Course is taught at Dauphin Island Sea Lab.
Prerequisites: BY 124 [Min Grade: C]

MESC 216. Shark and Ray Biology. 2 Hours.
Introduction to the biology of sharks and rays, with emphasis on regional shark and ray fauna. Lecture and laboratory. Course is taught at Dauphin Island Sea Lab.
Prerequisites: BY 124 [Min Grade: C]

MESC 220. Marine Aquaculture. 2 Hours.
This course will introduce students to techniques in marine shellfish aquaculture (both commercial and research production) with an emphasis on production techniques, water quality, nutrition, reproduction, and economics of commercially important species. This course is also designed to assist students with problem solving and communication skills.

MESC 230. The Ecology of Florida Everglades. 2 Hours.
This course will examine the natural history and ecology of one of the world's rarest and most endangered wilderness areas. The Everglades is the only area of our planet to be designated as a National Park, an International Biosphere Reserve, and a World Heritage Park. This two-week course will consist of a week of intensive lectures and discussions, focusing on the natural history, geology, hydrology, and biota of this system, and then a week of intense field time to examine the Everglades and associated systems. The field portion of the course will consist of day-long excursions and hikes, as well as tent camping in several of Florida's state parks. As such, participants should bring appropriate gear and be prepared to actively and cheerfully participate. Special fees apply and will be determined by the number of participants in the course.
Prerequisites: (BY 123 [Min Grade: C] and BY 124 [Min Grade: C]) or BY 260 [Min Grade: C] or BY 256 [Min Grade: C] or BY 255 [Min Grade: C]

MESC 302. Coastal Zone Management. 2 Hours.
Ecological features and set of physical management policies for coastal communities, with description of relevant federal and state programs. Course is taught at Dauphin Island Sea Lab.

MESC 303. Coastal Climatology. 2 Hours.
Physical factors resulting in climatic conditions of coastal regions, with emphasis on northern Gulf of Mexico. Does not count towards the biology major or minor. General elective credit only. Course is taught at Dauphin Island Sea Lab.

MESC 304. Marine Geology. 4 Hours.
Geology of ocean basins, with emphasis on continental shelves, sediments, and sedimentary processes. Course is taught at Dauphin Island Sea Lab.
Prerequisites: ES 101 [Min Grade: D] and ES 102 [Min Grade: D]
**MESC 305. Dolphins and Whales. 2 Hours.**
Classification, anatomy, and ecology of cetaceans. Lecture and laboratory. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 124 [Min Grade: D]

**MESC 330. Marine Conservation Biology. 4 Hours.**
This course will explore the major threats to marine biodiversity as well as the pros and cons of the potential solutions to these threats. In addition, students will participate in field trips that support topics covered in lecture, and will demonstrate the application of current principles in marine conservation.

**MESC 402. Marine Vertebrate Zoology. 4 Hours.**
Marine fishes, reptiles, and mammals (systematics, zoogeography, and ecology). Lecture, laboratory, and field work. 12 semester hours in biology required. Course is taught at Dauphin Island Sea Lab.

**MESC 407. Marine Botany. 4 Hours.**
Marine algae and vascular and non-vascular plants (distribution, identification, structure, ecology, and reproduction). Lecture, laboratory, and field work. 12 semester hours in biology required. Course is taught at Dauphin Island Sea Lab.

**MESC 411. Coastal Wetlands Ecology. 4 Hours.**
Habitat analysis, natural history studies, and population dynamics of selected organisms. Lecture, laboratory, and field work. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** MESC 412 [Min Grade: D] or BY 470 [Min Grade: D]

**MESC 412. Marine Ecology. 4 Hours.**
Bioenergetics, community structure, population dynamics, predation, competition, and speciation in marine ecosystems. Lecture, laboratory, and field work. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 255 [Min Grade: D] or BY 256 [Min Grade: D]

**MESC 413. Marine Invertebrate Zoology. 4 Hours.**
Natural history, systematics, and morphology of marine invertebrates. Lecture, laboratory and field work. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 124 [Min Grade: D]

**MESC 415. Coastal Ornithology. 2 Hours.**
Coastal and pelagic birds, with emphasis on ecology, taxonomy, and distribution. Lecture, laboratory, and field work. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 124 [Min Grade: D]

**MESC 417. Marine Technical Methods. 2 Hours.**
Hardware of marine science, sampling procedures, processing station location, and field equipment maintenance and operation. Prerequisite: 12 semester hours in a science discipline. Course is taught at Dauphin Island Sea Lab.

**MESC 428. Oceanography. 4 Hours.**
Physics, chemistry, biology, and geology of oceans. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** CH 117 [Min Grade: D] and CH 118 [Min Grade: D] and PH 202 [Min Grade: D] and MA 106 [Min Grade: D]

**MESC 472. Marine Aquaculture. 2 Hours.**
Science, techniques, and economics of marine aquaculture. Lecture and laboratory. BY 255 is a recommended prerequisite. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 256 [Min Grade: D] or BY 435 [Min Grade: D]

**MESC 473. Marine Fish Diseases. 4 Hours.**
Introduction to aquatic animal diseases, specifically for fish and shellfish. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 271 [Min Grade: D] and (BY 255 [Min Grade: D] or BY 256 [Min Grade: D])

**MESC 475. Marine Behavioral Ecology. 4 Hours.**
Behavior of marine organisms as it relates to survival in their environment. Lecture, laboratory and field trips. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 255 [Min Grade: D] or BY 256 [Min Grade: D]

**MESC 476. Advanced Anatomy and Evolution of Marine Fishes. 3 Hours.**
Anatomical studies of marine fishes with emphasis on function and structure; evolutionary and taxonomic relationships. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 256 [Min Grade: D]

**MESC 479. Marine Toxicology. 4 Hours.**
Selected topics of toxicology as related to the coastal environment and marine organisms. Course is taught at Dauphin Island Sea Lab.
**Prerequisites:** BY 330 [Min Grade: D] and (CH 235 [Min Grade: D] or CH 237 [Min Grade: D])

**MESC 491. Research on Special Topics. 1-6 Hours.**
Enrollment by special arrangement in any subject listed. Permission of MESC representative, Department of Biology required. Course is taught at Dauphin Island Sea Lab.

**MESC 492. Special Topics: Lecture. 2-4 Hours.**
Lectures on selected marine-related topics. Course content varies. Course is taught at Dauphin Island Sea Lab.

---

**MG-Management Courses**

**Courses**

**MG 302. Management Processes and Behavior. 3 Hours.**
This Introductory course covers the four functions of management: planning, organizing, leading, and controlling. Strategic planning, teamwork, diversity, communication, and globalization are emphasized also.
**Prerequisites:** (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

**MG 305. Nonprofit Organization Mgmt/SL. 3 Hours.**
The purpose of this course is to expose students to the historical origins of NPOs/NGOs, their favored tax status, and demands of transparency and accountability of achieving their stated missions. This course also exposes students to the challenges of managing a voluntary workforce, identifying revenue streams to fund activities, and developing strategies to ensure value creation in the nonprofit setting. This course is experiential. Students will explore the various aspects of the nonprofit sector academically and will also get first-hand experience with a chosen NPO/NGO.

**MG 306. Managing Innovation. 3 Hours.**
This course addresses selected challenges and opportunities related to managing innovation. The purpose of this course is to provide an overview of the role of creativity and innovation in organizations, examine the managerial strategies and tactics for fostering innovation, and to help students enhance their own ability to innovate.
MG 309. Hogwarts School of Leadership. 3 Hours.
The Harry Potter book/movie series is full of insights about life matters. They also teach us about how to be better business managers in addressing adversity, success, leadership, and ethics. In this class, we will examine various leadership theories and popular management/leadership books and understand them in terms of the characters and situations presented in the Harry Potter book/movie series. In order to be successful in the course, students should have read most, and preferably all, of the Harry Potter books prior to the beginning of the semester. Being very familiar with all of the movies is also acceptable.

MG 401. Organizational Behavior. 3 Hours.
Organizational behavior is the study of individuals and their behavior in the workplace. The course looks at behaviors across individual, group, and organizational levels. Broad topics include organizational behavior and leadership, understanding individuals in organizations, motivating employees, building relationships, and creating change.

Prerequisites: (MG 302 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 403. Operations Management. 3 Hours.
This course covers the strategic, tactical, and integrative roles of Operations in the management of service and manufacturing organizations in a globally competitive economy. Students will learn how to maximize efficiency and value in a business environment. Topics include productivity, design and process strategies, sustainability, ethics, quality management, supply chain strategies, scheduling, forecasting, inventory management, facilities location and layout strategies, maintenance and reliability.

Prerequisites: AC 201 [Min Grade: C] and BUS 101 [Min Grade: C] or BUS 102 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and MG 302 [Min Grade: C]

MG 405. Nonprofit Strategy and Entrepreneurship. 3 Hours.
This course takes students on the journey from a promising program idea through the steps necessary to create a viable strategic plan for your program’s business model. Working as individuals and small teams, students will work with an assigned nonprofit organization (NPO) start-up, or established NPO, seeking the next steps for their program idea. These steps include analyzing and defending a suggested business model and strategic analysis where individuals or teams suggest improvements and next steps for this NPO. Along the way students will meet and interact with local nonprofits and engage in thought-provoking brainstorming sessions with some of Birmingham’s most innovative and creative nonprofits.

MG 409. Human Resource Management. 3 Hours.
This course covers managerial problems associated with the acquisition, development, motivation, and compensation of human resources. Personnel problems such as employment, employee education and training, labor relations, industrial health and safety, and wage and salary administration.

Prerequisites: (MG 302 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 410. Labor-Management Relations. 3 Hours.
Analysis of managerial issues and opportunities associated with the development of labor-management relations policy. The impact of public policy, significance of pressure groups, negotiations and administration of the collective bargaining agreements, along with the role of the National Labor Relations Board (NLRB) and Labor Relations (LA) as a matter of policy.

Prerequisites: (MG 302 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 302 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 411. Compensation Administration. 3 Hours.
This course covers compensation administration in public and private organizations, with emphasis on determination of range, salary levels, and structures. Job evaluation, pay systems, and wage and benefits legal issues are covered.

Prerequisites: (MG 409 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 409 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 412. Organizational Staffing. 3 Hours.
Primary focus is on the employee recruiting and selection functions within organizations. Strategic staffing. Federal laws and regulations impacting staffing activities, recruitment and selection practices, hiring decision approaches, job analysis and measurement in selection will also be covered in detail.

Prerequisites: MG 409 [Min Grade: C] and QM 215 [Min Grade: C]

MG 413. Employment Law. 3 Hours.
Management of legal risks arising from hiring, promotion, and other human resources transactions, including risks arising under anti-discrimination laws (e.g., Title VII of Civil Rights Act of 1964) and income security laws (e.g., Fair Labor Standards Act and Family Medical Leave Act).

Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MG 415. International Business Dynamics. 3 Hours.
Essential information that managers need to know about international business. We will consider cultural, political, and geographic differences and develop strategies to attempt to maximize business opportunities in view of these differences.

Prerequisites: MG 302 [Min Grade: C] or BUS 311 [Min Grade: C]

MG 416. Supply Chain Management. 3 Hours.
Course takes operational view of the mechanism for matching supply and demand through the management of material and information flow. This framework is used to understand strategic, design and operational issues insupply management.

Prerequisites: (MG 403 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 403 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 417. Project Management. 3 Hours.
The course covers project management principles, methods, techniques, and tools from the perspective of the manager who must plan, schedule, organize and control non-routine activities to achieve schedule, budget and performance objectives. It traverses the life-cycle of a project and the knowledge areas that are applicable at each stage.

Prerequisites: MG 302 [Min Grade: C] and MG 403 [Min Grade: C]

MG 418. Quality Management. 3 Hours.
Concepts, techniques, and organizational requirements to ensure that quality is provided to consumer. Breadth of quality efforts, statistical quality control methods, quality circle principles, and quality assurance activities in various enterprises.

Prerequisites: (MG 403 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 403 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 425. Managing Through Leadership. 3 Hours.
Provide students with a comprehensive understanding of leadership as a phenomenon, with an emphasis on developing the skills to lead others. Major theories of leadership will be examined and students will gain insights about their individual strengths and weaknesses. Through hands-on experiences and workshops, students will develop and acquire the skills to lead high-performance teams that can optimize their productivity and deliver high-quality results.
MG 430. Management and Leadership in Sports and Entertainment Organizations. 3 Hours.
Students will gain an understanding of leadership requirements and challenges in the sports and entertainment industries. Topics include: problem solving and decision making, culture, human resource management, teams, communication, motivation, leadership, facilities and events. This is a service/experiential learning designated course.
**Prerequisites:** (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MG 438. Managerial Communication Skills. 3 Hours.
An advanced business communications course for undergraduates focusing on the verbal and nonverbal communication skills required of managers in today’s business environment.

MG 445. Management Internship. 3 Hours.
Offers qualified undergraduate students the chance to gain first-hand experience in a local business while receiving academic credit. Must be a management major, at least junior standing, C or better in MG 302 and GPA of 2.0 overall. Sponsoring business may require additional courses.
**Prerequisites:** MG 302 [Min Grade: C] and GPAO 2.0

MG 490. Management Seminar/SL. 3 Hours.
Selected management topics. This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.
**Prerequisites:** GPAU 2.00 and GPAO 2.00 and MG 302 [Min Grade: C]

MG 492. Current Topics in Production and Operations Management. 3 Hours.
Selected topics in production and operations management.
**Prerequisites:** (MG 403 [Min Grade: C] and GPAT and GPAO 2.00) or (MG 403 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 493. Current Topics in Human Resource Management. 3 Hours.
Current development and issues in human resource management.
**Prerequisites:** (MG 409 [Min Grade: C] and GPAT and GPAO 2.00) and (MG 409 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MG 499. Directed Study in Management. 1-3 Hours.
Specific areas in management.
**Prerequisites:** (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

**MK-Marketing Courses**

**Courses**

**MK 101. Introduction to Consumer Marketing. 3 Hours.**
Survey course designed to provide understanding of business marketing practices and consumer decision making processes. Open to all UAB students.

**MK 303. Basic Marketing. 3 Hours.**
Survey course of the modern business process for planning, distributing, promoting and pricing of products (goods and services) for domestic and international organizations.
**Prerequisites:** (GPAT and GPA 2) or (GPA 2 and GPAO 2)

**MK 312. Retail Marketing. 3 Hours.**
Business to consumer marketing with consideration for location, organization, buying, receiving stock inventory and control, policies, pricing, services, control and personnel management within retail establishments.
**Prerequisites:** (MK 303 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**MK 330. Professional Selling. 3 Hours.**
The course focuses on the fundamentals of professional selling and the professionalization of the field. The course combines personal selling theory with actual practice. Students develop the analytical and communicative skills useful in their future business relationship-building activities. Analytical skills are developed through an assignment that requires students to research, design, and present their own comprehensive sales scenario. Students practice their communicative skills through in-class role playing.
**Prerequisites:** (MK 303 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**MK 333. Sports Marketing. 3 Hours.**
Strategic analysis, positioning and marketing of professional and amateur sports events and organizations. The goal is to provide students with a comprehensive view of all that is required to successfully market a sporting organization or event. Junior standing required.
**Prerequisites:** (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

**MK 401. Social Media in Marketing. 3 Hours.**
Survey course of the unique aspects of marketing through social media. The focus is on the application of new and emerging social media communications systems and practices that are becoming major elements in integrated marketing communication programs.
**Prerequisites:** MK 303 [Min Grade: C]

**MK 408. Marketing Research. 3 Hours.**
Research techniques in marketing with application of research findings to decision making and formulation of marketing strategies.
**Prerequisites:** (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**MK 410. Integrated Marketing Communication. 3 Hours.**
Considers the organizations coordinated and strategic use of communication tools used in marketing including advertising, sales promotion, direct marketing, interactive media, publicity/public relations, sponsorship marketing, point-of-purchase communications and personal selling.
**Prerequisites:** (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

**MK 416. International Marketing. 3 Hours.**
International marketing activities, including environmental issues, marketing strategy and tactical considerations in entering foreign markets.
**Prerequisites:** MK 303 [Min Grade: C] or BUS 311 [Min Grade: C]

**MK 418. Digital Marketing. 3 Hours.**
Overview of various digital marketing strategies, tools, and metrics used to deliver value to businesses and consumers.
**Prerequisites:** MK 303 [Min Grade: C]
MK 419. Services Marketing. 3 Hours.
Understanding service customers, customer satisfaction, motivating service employees, improving service quality and role of services in strategy planning.
Prerequisites: (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: C] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 420. Sales Management. 3 Hours.
The course focuses on the fundamentals of professional selling and the professionalization of the field. The course combines personal selling theory with actual practice. Students develop the analytical and communicative skills useful in their future business relationship-building activities. Analytical skills are developed through an assignment that requires students to research, design, and present their own comprehensive sales scenario. Students practice their communicative skills through in-class role playing.
Prerequisites: MK 330 [Min Grade: C] (Can be taken Concurrently)

MK 425. Advanced Professional Selling. 3 Hours.
This course builds upon the basic selling skills learned in MK 330 and other communications courses. The students will focus on enhancing value-adding selling skills and developing long-term, mutually-beneficial customer relationships in a B2B context.
Prerequisites: MK 330 [Min Grade: C]

MK 440. Small Business Consulting and Research. 3 Hours.
Applied field work integrating functional business fields of management, finance, accounting, marketing, economics, production policy, and decision making related to small business enterprises.
Prerequisites: FN 310 [Min Grade: C] and MG 302 [Min Grade: C] and MK 303 [Min Grade: C]

MK 445. Marketing Internship. 3 Hours.
Offers qualified undergraduate students the chance to gain first-hand experience in a local business while receiving academic credit. Marketing major and junior standing required. Sponsoring business may require additional courses.
Prerequisites: (MK 303 [Min Grade: B] and GPAU 2.00 and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAT and GPAO 2.00) or (MK 303 [Min Grade: B] and AC 201 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 450. Strategic Marketing. 3 Hours.
Course addresses problems of marketing management with emphasis on planning, implementing and controlling marketing activities with individual firms.
Prerequisites: (BUS 350 [Min Grade: C] and FN 310 [Min Grade: C] and MK 312 [Min Grade: C] and MK 320 [Min Grade: C] and MK 408 [Min Grade: C] and MK 410 [Min Grade: C] and GPAU 2.00 and GPAO 2.00) or (BUS 350 [Min Grade: C] and FN 310 [Min Grade: C] and MK 312 [Min Grade: C] and MK 320 [Min Grade: C] and MK 408 [Min Grade: C] and MK 410 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 471. Health Care Marketing. 3 Hours.
This class is designed for upper level students with an interest in and/or who seek employment in the healthcare industry. It is also appropriate for seniors in Medical Equipment Sales and Distribution. The primary objective of this course is to provide students with a comprehensive overview of the marketing fundamentals in the health care environment. The course examines health care organizations as customers in a Business to Business environment as well as the special challenges in implementing marketing strategies.

MK 490. Special Topics in Marketing. 3 Hours.
Selected marketing topics not covered in other marketing courses.
Prerequisites: (MK 303 [Min Grade: C] and GPAU and GPAO 2.00) or (MK 303 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

MK 499. Directed Readings in Marketing. 1-3 Hour.
Specific areas in marketing.
Prerequisites: (GPAT and GPAO 2.00) or (GPAU 2.00 and GPAO 2.00)

MS-Military Science Courses

Courses

MS 101. Military Leadership. 2 Hours.
Foundations of officerhip, examines the unique duties and responsibilities of officers. Discusses organization and role of the Army; reviews basic life skills pertaining to fitness and communication; analyzes Army values and expected ethical behavior.

MS 101L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs shuld be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 102. Military Leadership. 2 Hours.
Basic leadership presents fundamental leadership concepts and doctrine. Practices basic skills that underlie effective problem solving; applies active listening and feedback skills; examines factors that influence leader and group effectiveness and examines the officer experience.

MS 102L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs shuld be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 153. Basic Military Studies. 3 Hours.
Mini-term class stressing physical training, leadership, and communication skills. Designed for students who are not able to take scheduled MS 101, 102, and 103 classes. Taken only with permission of Professor of Military Science.

MS 201. Military Leadership. 2 Hours.
Quality Leadership and Management. Emphasizes individual skills necessary to be a successful leader and manager. Instruction on written and interpersonal communications, briefing/presentation skills, hands-on office equipment and computer software training. First aid and map reading.
MS 201L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 202. Military Leadership. 2 Hours.
Continuation of Quality Leadership and Management. Through lecture, activities, films, short readings, and discussion, students examine leadership dynamics, individual and group behavioral processes and team building. Analysis of professional values and ethics. Decision making and problem solving skills.

MS 202L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 203. Leadership and Management. 2 Hours.
Quality Leadership and Management. Group and individual physical fitness programs. Health and nutrition, weight control management and counseling techniques, safety management. Logistics management, planning and organizational skills, meeting management, general employee counseling techniques.

MS 204. Rangers. 1 Hour.
Develop leadership qualities of ROTC cadets through small unit tactics, self discipline, self confidence, and resourcefulness. Cadets participate in physical training. Enrolled cadets may participate in the two-day, 27-school South East Conference invitational varsity Ranger Challenge competition.

MS 205. Rangers. 1 Hour.
Develop leadership qualities of ROTC cadets through small unit tactics, self discipline, self confidence, and resourcefulness. Cadets participate in physical training. Enrolled cadets may participate in the two-day, 27-school South East Conference invitational varsity Ranger Challenge competition.

MS 206. Rangers. 1 Hour.
Develop leadership qualities of ROTC cadets through small unit tactics, self discipline, self confidence, and resourcefulness. Cadets participate in physical training. Enrolled cadets may participate in the two-day, 27-school South East Conference invitational varsity Ranger Challenge competition.

MS 207. Airborne Operations. 3 Hours.
This course requires 210 hours of student participation in airborne operations. The student will keep a journal of daily operations at airborne school in order to develop an airborne school for dummies booklet to be used as a guide for cadets and cadre when faced with questions about airborne school. The student must produce a point paper that discusses the relevancy or lack of relevancy of airborne operations in today's Army.

MS 250. Camp Challenge. 6 Hours.
Summer, off-campus, all-expense paid, hands-on seminar. Trains students in MS 100 and 200 level skills. Attending students qualify to compete for special 2-year, full scholarships to UAB.

MS 253. Basic Military Studies. 3 Hours.
Physical training, leadership, communication skills. Designed for students who are not able to take scheduled MS 201, 202, and 203 classes. Taken only with permission of Professor of Military Science.

MS 301. Military Leadership. 3 Hours.
Leadership and Problem solving examines basic skills that underlie effective problem solving; analyzes the role officers played in the transition of the Army from Vietnam to the 21ST century; reviews the features and execution of the Leadership Development Program; analyzes military missions, plan military operations and executes squad battle drills.

Prerequisites: MS 101 [Min Grade: C] and MS 102 [Min Grade: C](Can be taken Concurrently) and MS 201 [Min Grade: C] and MS 202 [Min Grade: C]

MS 301L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also, assist in assessing subordinate cadet leaders.

MS 302. Military Leadership. 3 Hours.
Leadership and Ethics probes leader responsibilities that foster an ethical command climate; develops cadet leadership competencies; prepares for success at National Advanced Leadership Camp; recognizes leader responsibility to accommodate subordinate spiritual needs; apply principles and techniques of effective written and oral communication.

Prerequisites: MS 301 [Min Grade: C]

MS 302L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 303. Pre-Cadet Leadership Course (CLC). 3 Hours.
Platoon defensive and offensive measures; platoon movement techniques and command and staff functions. Incorporates all cadet skills for the Leadership Development and Assessment Course at Fort Lewis, Washington.

Prerequisites: MS 301 [Min Grade: C] and MS 302 [Min Grade: C]

MS 327. American Military History. 3 Hours.
Survey of American Military History from 1775 to present.

Prerequisites: MS 301 [Min Grade: C] and MS 302 [Min Grade: C]

MS 401. Military Leadership. 3 Hours.
Oral and written presentation skills, including writing and reviewing selections of military correspondence and forms; presentation of performance-oriented training; conduct of briefings and meetings; analysis of organizational morals and ethics.

Prerequisites: MS 302 [Min Grade: C] and MS 301 [Min Grade: C]

MS 401L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 402. Military Leadership. 3 Hours.
Military justice system and junior officer's use of it; Army personnel management, logistics system, and personal support agencies.

Prerequisites: MS 301 [Min Grade: C] and MS 302 [Min Grade: C] and MS 401 [Min Grade: C]
MS 402L. Leadership Lab. 0 Hours.
Labs are the primary training opportunity for and by the cadet chain of command. To be efficient, labs should be multi-echelon exercises. The MS IV cadets act on guidance from the Professor of Military Science to plan, prepare, execute and evaluate the lab and also assist in assessing subordinate cadet leaders.

MS 405. Applied Army Leadership. 3 Hours.
MSL 405, Applied Army Leadership is the capstone class for Army cadets who have completed their Military Science and Leadership level four requirements, yet still need to complete their bachelor or masters level graduation requirements before commissioning as a Second Lieutenant. MSL 405 is an advanced level course that draws upon all previous learning and experience in the ROTC program for application in leading and mentoring of the Blazers Cadet Battalion. The course places significant emphasis on independent leadership in the form of direct mentorship of Cadet MS IVs, exploration and growth in personal leadership styles and approaches and effective communication with the Assistant Professor of Military Science (APMS). This semester, you will: Advise Cadet Battalion leadership in tactical, procedural and ethical decision making. Guide Cadets in the art and science of Mission Command through engaged leadership. Explore, apply and evaluate personal leadership approaches. Communicate weekly with the PMS concerning independent mentorship and personal leadership evolution. Prepare for the transition to a career as an Army Officer.

MSE-Material Science & Egr Courses

Courses

MSE 011. Coop/Internship in MSE. 0 Hours.
Engineering workplace experience in preparation for the student's intended career.

MSE 280. Engineering Materials. 3 Hours.
Fundamentals of materials engineering, including terminology, mechanical testing and behavior, heat treating, and processing of metals, ceramics, polymers, and composites. Degradation of materials and criteria for materials selection. Course requires completion of 4 credits of Area III Science.

MSE 281. Physical Materials I. 4 Hours.
Structure of metals, ceramics and polymers; crystal bonding; phase diagrams, diffusion, dislocations and grain boundaries. Applications to the iron-carbon system, including heat treatment. MSE 281L must be taken concurrently.
Prerequisites: (MA 125 [Min Grade: C] or MA 225 [Min Grade: C]) and MSE 280 [Min Grade: D]

MSE 281L. Physical Materials I Laboratory. 0 Hours.
Laboratory component of MSE 281 and must be taken concurrently with MSE 281.

MSE 350. Introduction to Materials. 3 Hours.
Concepts and applications, crystal structure of materials, formation of microstructures, and selected structure-property relationships. Not available for credit toward engineering major. For non-engineering majors only.

MSE 350L. Introduction to Materials Laboratory. 0 Hours.
Laboratory component of MSE 350 and must be taken concurrently with MSE 350.

MSE 380. Thermodynamics of Materials. 3 Hours.
First, second, and third laws of thermodynamics. Gibbs free energy, heat capacity, enthalpy, entropy, and relationships between thermodynamic functions. Free-energy versus composition relationships; behavior of ideal and non-ideal solutions; concept of thermodynamic activity of components in solution. Applications to materials systems.
Prerequisites: CH 117 [Min Grade: D] and CH 118 [Min Grade: D] and (MA 126 [Min Grade: C] or MA 226 [Min Grade: C]) and MSE 280 [Min Grade: D]

MSE 381. Physical Materials II. 3 Hours.
Microstructural changes in response to temperature and time; vacancies, annealing, diffusion, nucleation and growth kinetics. Equilibrium and non-equilibrium microstructures. Applications to precipitation hardening and solidification of metals.
Prerequisites: MSE 281 [Min Grade: D]

MSE 382. Mechanical Behavior of Materials. 3 Hours.
Microscopic deformation mechanisms in materials leading to macroscopic properties of fatigue; creep; ductile, transitional, and brittle fracture; friction; and wear. CE 220 (Mechanics of Solids) is recommended as a prerequisite for this course.
Prerequisites: MSE 281 [Min Grade: D]

MSE 401. Materials Processing. 3 Hours.
Processing of metals, glasses, ceramics, and composites. Powder processing, casting, welding, rapid solidification, and other advanced methods. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: MSE 280 [Min Grade: D] and CE 220 [Min Grade: D]

MSE 405. Frontiers of Automotive Materials. 3 Hours.
Advanced lightweight automotive materials, manufacturing and modeling techniques. Technology advancements in cost-effective carbon, glass and related reinforcements; “green” and sustainable materials, crashworthiness and injury protection of occupants and pedestrians, metal castings, heavy truck, mass transit, fuel cell and hybrid vehicles. Students taking this class will receive a GATE certificate of training in automotive materials technologies upon successful completion.
Prerequisites: MSE 281 [Min Grade: D]

MSE 408. Nanobiomaterials. 3 Hours.
Basic tools of nanotechnology, building blocks of nanostructured materials. Behavior of materials with nanoscale structures and their technological applications, including automotive, medical, and electronic applications. Introduction to biomaterials and nanobiomaterials. Concepts in tissue engineering with special focus on nanoscaffolds and nanoparticles in drug delivery.
Prerequisites: MSE 280 [Min Grade: D]

MSE 409. Principles of Metal Casting. 3 Hours.
Production and evaluation of cast ferrous metals (gray iron, ductile iron, steel) and non-ferrous metals (brass, bronze, aluminum). Design of castings and molds. Laboratory on the gating, risering and molten metal treatment, analysis and handling techniques required to produce high quality castings. MSE 409L must be taken concurrently.
Prerequisites: MSE 280 [Min Grade: D]

MSE 409L. Principles of Metal Casting Laboratory. 0 Hours.
Laboratory component of MSE 409 and must be taken concurrently with MSE 409.
MSE 413. Composite Materials. 3 Hours.
Processing, structure, and properties of metal-, ceramic-, and polymer-matrix composite materials. Roles of interfacial bond strength, reinforcement type and orientation, and matrix selection in physical and mechanical properties of composite materials. MSE 382 (Mechanical Behavior of Materials) is recommended as a prerequisite for this course. Writing is a significant component of this course.
Prerequisites: MSE 281 [Min Grade: D]

MSE 430. Polymeric Materials. 3 Hours.
Processing methods, structure/engineering/property relationships, and applications of polymeric materials.
Prerequisites: MSE 281 [Min Grade: D] and CH 117 [Min Grade: D] and CH 118 [Min Grade: D]

MSE 430L. Polymeric Materials Laboratory. 0 Hours.
Laboratory component of MSE 430 and must be taken concurrently with MSE 430.

MSE 433. Nondestructive Evaluation of Materials. 3 Hours.
Principles, applications, and limitation of ultrasonic vibrations, acoustic emission, radiographic, magnetic particle, eddy current, and other nondestructive testing methods. Intelligent sensors and health monitoring of real structures.
Prerequisites: MSE 281 [Min Grade: D]

MSE 462. Composites Manufacturing. 3 Hours.
Principles of manufacturing and processing of polymeric matrix composites. Production techniques including filament winding, pultrusion, and liquid infusion techniques combined with design, environmental and manufacturing issues of polymer matrix composites.
Prerequisites: MSE 281 [Min Grade: D]

MSE 464. Metals and Alloys. 4 Hours.
Microstructures, properties, heat treatment, and processing of ferrous and nonferrous materials.
Prerequisites: MSE 281 [Min Grade: D]

MSE 464L. Metals and Alloys Laboratory. 0 Hours.
Laboratory component of MSE 464 and must be taken concurrently with MSE 464.

MSE 465. Characterization of Materials. 4 Hours.
Theory and practice of materials characterization, with emphasis on optical metallography, quantitative metallography, scanning electron microscopy, crystallography, and X-ray diffraction. Specific applications in metals and ceramics considered. MSE 465L must be taken concurrently.
Prerequisites: MSE 281 [Min Grade: D]

MSE 465L. Characterization of Materials Laboratory. 0 Hours.
Laboratory component of MSE 465 and must be taken with MSE 465.

MSE 470. Ceramic Materials. 4 Hours.
Structure, processing, properties, and uses of ceramic compounds and glasses. Mechanical, thermal, and electrical behavior of ceramic materials in terms of microstructure and processing variables.
Prerequisites: MSE 281 [Min Grade: D] and CH 117 [Min Grade: D] and CH 118 [Min Grade: D]

MSE 470L. Ceramic Materials Laboratory. 0 Hours.
Laboratory component of MSE 470 and must be taken concurrently with MSE 470.

MSE 474. Metals and Alloys II. 3 Hours.
Production and physical metallurgy of ferrous and non-ferrous alloys including: steel alloys, inoculation and production of ductile, gray, compacted and malleable iron; advanced heat treatments of steel and iron; conventional and ultra-high strength aluminum alloys; wrought and cast copper alloys; wrought and cast magnesium alloys.
Prerequisites: MSE 281 [Min Grade: D] and MSE 464 [Min Grade: D]

MT 350. Special Topics: Chemistry. 1-3 Hour.
Designed specifically for individual student to cover topics not covered in MLT curriculum.

MT 400. Health and Safety Management. 1 Hour.
Review of infection control principles focused on bloodborne, airborne, drug-resistant and opportunistic pathogens, and general health and safety guidelines and standards.

MT 403. Body Fluids. 1 Hour.
 Diagnosis and monitoring renal and systemic disease through the physical, biochemical, and microscopic analysis of urine and feces. Diagnosis of central nervous system and systemic disease through cerebrospinal fluid analysis. Diagnosis of metabolic and infectious disease through analysis of peritoneal fluid, synovial fluid, transudates, and exudates. Fertility testing using semen analysis.
MT 404. Body Fluid Lab. 1 Hour.
Diagnosis and monitoring renal and systemic disease through the physical, biochemical, and microscopic analysis of urine and feces. Diagnosis of central nervous system and systemic disease through cerebrospinal fluid analysis. Diagnosis of metabolic and infectious disease through analysis of peritoneal fluid, synovial fluid, transudates, and exudates. Fertility testing using semen analysis. Concurrent enrollment MT 403.
Prerequisites: MT 403 [Min Grade: C](Can be taken Concurrently)

MT 405. Laboratory Management. 3 Hours.
Current catalog description will remain unchanged. Ethics and Civic Responsibility are significant components of this course.

MT 406. Laboratory Techniques. 2 Hours.
Overview of issues and skills surrounding working in the modern laboratory environment; includes safety, collection of specimens, equipment, mathematics, measurements, microscopy, dilutions, quality assurance, basic spectrophotometry, phlebotomy, automation of laboratory testing and lab computers.

MT 418. Immunology. 3 Hours.
Physiology of immune responses to infectious agents, tumors, transplant; abnormal responses: hypersensitivity, autoimmunity, immunoproliferative disorders, and immunodeficiencies; antigen-antibody reactions; complement; principles and applications of clinical immunology.

MT 423. Clinical Microbiology. 3 Hours.
Reservoirs, modes of transmission, disease associations, and morphological and biochemical characteristics of microorganisms commonly isolated in the clinical laboratory; methods used to isolate and identify bacteria, parasites, and fungi.
Prerequisites: BY 271 [Min Grade: C] or BY 261 [Min Grade: C]

MT 424. Clinical Microbiology Laboratory. 1 Hour.
Performance of techniques and tests used in the isolation and identification of bacteria, fungi and parasites commonly seen in a clinical microbiology laboratory. Concurrent enrollment MT 423.
Prerequisites: [BY 261 [Min Grade: C] or BY 271 [Min Grade: C]] and MT 423 [Min Grade: C] (Can be taken Concurrently)

MT 426. Instrumentation and Automation. 2 Hours.
This course includes the study of the theory and principles of automation and instrumentation used in laboratories. An emphasis will be placed on quality control, quality assurance, instrumentiation principles, basic statistics, and the regulatory, and economic issues encountered in laboratories including, clinical labs, health labs, government labs, private labs and other laboratories.
Prerequisites: CH 117 [Min Grade: C] and CH 118 [Min Grade: C]

MT 427. Instrumentation and Automation Laboratory. 1 Hour.
This course includes the practical application of automation and instrumentation used in laboratories. An emphasis will be placed on quality control, quality assurance, instrumentiation principles, basic statistics, and the regulatory, and economic issues encountered in laboratories including, clinical labs, health labs, government labs, private labs and other laboratories.
Prerequisites: CH 117 [Min Grade: C] and CH 118 [Min Grade: C] and MT 426 [Min Grade: C] (Can be taken Concurrently)

MT 428. Hematology I. 4 Hours.
Systematic examination of the normal hematologic and hemostatic systems: blood cell production, structure and function; blood cell morphology; performance, evaluation and interpretation of routine and special tests; primary hemostasis, coagulation and fibrinolysis. The course includes a mandatory laboratory component.

MT 430. Immunohematology. 4 Hours.
Analyze blood group antigen-antibody reactions;donor blood collection and testing serological characteristics and immunogenetics of the major blood group systems; pretransfusion testing, basic and advanced techniques of antibody identification and problem-solving; transfusion therapy; laboratory evaluation of hemolytic disease of the newborn; and the investigation of immune coating of red cells in vivo, including autoimmune hemolytic anemia. Application of theory and problem-solving skills is emphasized.
Prerequisites: MT 418 [Min Grade: C]

MT 431. Immunohematology Laboratory. 1 Hour.
Performance and evaluation of: red cell phenotyping, antibody detection and identification, pretransfusion testing, and laboratory investigation to diagnosis and treat hemolytic anemias and adverse effects of transfusion.
Prerequisites: MT 418 [Min Grade: C] and MT 430 [Min Grade: C] (Can be taken Concurrently)

MT 432. Hematology II. 4 Hours.
Pathology of the hematologic and hemostatic systems: anemias, leukopenias, myelodysplastic syndromes, myeloproliferative syndromes, chronic leukemias, acute leukemias, primary hemostatic disorders, coagulopathies, thrombophilia, and interpretation and correlation of laboratory data supporting diagnosis and management or treatment. The course includes a mandatory laboratory component.
Prerequisites: MT 428 [Min Grade: C]

MT 433. Infectious Diseases. 3 Hours.
Pathogenic mechanisms of infectious diseases; normal flora and pathogens of various body sites; methods for collection, transport, and culturing different types of clinical specimens; interpretation of cultures.
Prerequisites: MT 423 [Min Grade: C] and MT 424 [Min Grade: C]

MT 439. Infectious Diseases Laboratory. 1 Hour.
Performance and interpretation of direct Gram stains; culturing various types of clinical specimens for isolation of bacteria; performing and interpreting tests used in the identification of potential pathogens; reporting culture results; antimicrobial susceptibility and resistance testing.
Prerequisites: MT 423 [Min Grade: C] and MT 424 [Min Grade: C] and MT 438 [Min Grade: C] (Can be taken Concurrently)

MT 442. Molecular Diagnostics. 3 Hours.
The course will focus on the development of knowledge in and the fundamental principles of: molecular biochemistry, medical genetics, molecular pathology, performance, evaluation and interpretation of molecular tests.
Prerequisites: BY 210 [Min Grade: C]

MT 443. Molecular Diagnostics Laboratory. 1 Hour.
The course will focus on applications and analysis, and the development of competencies in: nucleic acid isolation, analysis of nucleic acids and protein, cytogenetics, PCR and others.
Prerequisites: MT 442 [Min Grade: C] (Can be taken Concurrently)

MT 451. Clinical Chemistry. 4 Hours.
Theory of clinical laboratory techniques to identify and quantitate chemical analytes in body fluids and the correlation of these analytes to human disease.
Prerequisites: MT 426 [Min Grade: C] and MT 427 [Min Grade: C]

MT 452. Clinical Chemistry Laboratory. 1 Hour.
Performance of laboratory techniques used to identify and quantitate chemical analytes in body fluids and the correlation of these analytes to human disease.
Prerequisites: MT 451 [Min Grade: C]
MT 455. Research Principles. 2 Hours.
Clinical research principles and methods relevant to laboratory medicine
assays; applications of descriptive and inferential statistics with diagnostic
assay accuracy studies; development of competencies for critical
analyses of empirical research papers to determine quality of empirical
evidence and the operating characteristics of the diagnostic assays
studied and the planning process for verification studies of diagnostic
assays. Quantitative Literacy is a significant component of this course.

MT 460. Clinical Correlations. 3 Hours.
Analyze and interpret laboratory case studies; correlate clinical and
technical information obtained from various topics covered throughout the
curriculum; work with groups to present case studies with an emphasis
on application and interpretation of laboratory protocols, competence
in grammar usage and mechanics, and writing conventions required for
laboratory professionals. Writing is a significant component of this course.
Prerequisites: MT 430 [Min Grade: C](Can be taken Concurrently) and
MT 432 [Min Grade: C](Can be taken Concurrently) and MT 451 [Min
Grade: C](Can be taken Concurrently) and MT 438 [Min Grade: C](Can be
taken Concurrently)

MT 470. Certification Review. 1 Hour.
Review of medical technology/clinical laboratory science body
of knowledge with required comprehensive trial certification final
examination using self-directed online materials. Experience with the
development of a personal certification maintenance plan to meet
requirements defined by national certification agencies in Clinical
Laboratory Sciences. Medical Technology students only.
Prerequisites: MT 495 [Min Grade: C](Can be taken Concurrently)

MT 495. Clinical Practices. 1-12 Hour.
This CLS program capstone course involves directed clinical
practice in hematology, chemistry, microbiology, immunology and
immunohematology with focused activities to reinforce, integrate and
apply knowledge obtained throughout the curriculum. Students will
organize, build on, and reflect on previous assignments/experiences to
demonstrate attainment of discipline-specific writing, quantitative literacy,
ethical issues, and civic engagement.

MU-Music Courses

Courses

MU 100. Fundamentals of Music. 3 Hours.
Basic elements of music and music notation: rhythm, scales, keys, and
chords.

MU 105. Introduction to Music Technology for Non-Majors. 3 Hours.
Introductory survey course for non-music majors with emphasis placed
on exposing the general student to the vast array of software, hardware,
and basic principles of recording and editing sound and music. The
foundations of MIDI (Musical Instrument Digital Interface), digital
audio, and computer and mobile applications for music creation and
manipulation are explored, as well as the impact these technologies now
have on careers in the recording and entertainment industry. No prior
experiences as a musician or music technologist are required.

MU 115. Computer Music I. 3 Hours.
Introduction to hardware and software for creating and performing music
with computers. Concepts include digital sampling, binary computation,
properties of waveforms, graphical notation, and audio sequencing.
Quantitative Literacy is a significant component of this course.
Prerequisites: MU 100 [Min Grade: B]
MU 233. Piano Literature I. 3 Hours.
Survey of the important piano solo repertoire from Bach through Schubert. Examination of the development of keyboard repertoire from the time of the harpsichord through the time of the early piano through playing, analysis and listening. Two terms of Applied Piano required.
Prerequisites: MUP 150 [Min Grade: C]

MU 234. Vocal Literature I. 3 Hours.
Introductory survey of representative non-operatic solo vocal repertoire of North America, the British Isles, and Italy. Techniques of song study, interpretation, and performance practice. Two terms of Applied Voice required.
Prerequisites: MUP 140 [Min Grade: C]

MU 235. English and Italian Diction. 2 Hours.
Instruction in standard English and Italian stage pronunciation.

MU 236. French and German Diction. 2 Hours.
Instruction in the standard French and German stage pronunciation.

MU 245. Recording Technology I. 3 Hours.
Concepts and techniques of music production in recording studios. Required laboratory for MU 245. Limited enrollment. First class meets on campus.
Prerequisites: MU 115 [Min Grade: C] and MU 221 [Min Grade: C] and MU 224 [Min Grade: C]

MU 261. Introduction to Music Literature. 3 Hours.
Score reading and elementary analysis. Chronological survey of styles and forms of each historical period. Basic music reading ability.

MU 282. Accompanying. 3 Hours.
Principles of accompanying singers and instrumentalists; practical experience in accompanying; and facility in sight-reading for keyboard performers. Experience is gained through assigned projects and/or assigned studio accompanying.

MU 286. Music Theory IV. 3 Hours.
Emphasizes chromatic harmony, voice-leading, the expansion of tertian harmony, and includes an overview of 20th century and contemporary compositional and analytical techniques.
Prerequisites: MU 321 [Min Grade: C] and MU 324 [Min Grade: C] and MUP 125 [Min Grade: C]

MU 303. Foundations of Music Education. 3 Hours.
Analysis into the historical, social, and philosophical foundations of music education by studying the application of education principles to music and emphasizing the development of a personal philosophy towards music education.
Prerequisites: MU 203 [Min Grade: C]

MU 304. Aural Skills I. 3 Hours.
Required laboratory for MU 304. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: MU 225 [Min Grade: C] and MU 222 [Min Grade: C]

MU 305. Aural Skills II. 3 Hours.
Required laboratory for MU 305.
Prerequisites: MU 324 [Min Grade: C] and MU 321 [Min Grade: C] and MUP 125 [Min Grade: P]

MU 309. Conducting. 2 Hours.
Basic conducting techniques and rehearsal procedures.

MU 311. Marching Band Techniques. 3 Hours.
Organizing and administering a marching band, including show design and computer-assisted drill-writing experience.

MU 312. Instrumental Literature I. 3 Hours.
Introduction to the layout of instrumental scores, a history and development of the orchestra, extensive work with transpositions, ranges, and tone colors of instruments, and a thorough study of instrumental literature including orchestral, wind, and chamber music.
Prerequisites: MU 232 [Min Grade: C]

MU 313. Piano Literature II. 3 Hours.
Survey of the important solo repertoire from the early Romantic era through the present. Examination of the development of piano technique from Chopin and Liszt through Cage and Crumb by playing, analyzing and listening.
Prerequisites: MU 233 [Min Grade: C]

MU 330. Band Literature. 3 Hours.
Frequently performed modern concert band literature.

MU 331. Commercial Music Ensembles I. 3 Hours.
Open to ALL UAB students though audition, the UAB Commercial Music Ensemble provides a unique and structured environment for students to learn about performing in a professional commercial music ensemble. The ensemble will consist of a rhythm section (2 keyboards, drummer, percussionist, bassist, and two guitarists), background singers, lead vocalists, horn section (alto sax, tenor sax, trumpet, trombone, and baritone sax), and four dancers. Music performed by this section of the CME will come from Billboard-charting hits ranging from musical genres such as Pop, R & B, and Country. Students must successfully pass an audition and be chosen for the ensemble before being allowed to register for the course. Please contact the ensemble director, Craig Brandwein, at craigbrandwein@uab.edu or (205) 996-0640, for further information about audition requirements, time, and location. For Music major degree requirements, MUP 342 is classified as a MINOR ensemble.
Prerequisites: MU 222 [Min Grade: C] and MU 225 [Min Grade: C] and MU 245 [Min Grade: C] and MUP 341 [Min Grade: C]

MU 332. Computer Music III. 3 Hours.
Advanced concepts and techniques of multitrack recording in project and professional recording studio, including signal processing mixing and mastering.
Prerequisites: MU 115 [Min Grade: C] and MU 221 [Min Grade: C] and MU 224 [Min Grade: C] and MU 245 [Min Grade: C]
MU 359. Composition I. 1-2 Hour.
Discussions and creative projects designed to help beginning composers or arrangers gain experience in handling variety of musical styles, and in shaping musical ideas. May be repeated for maximum of 3 hours credit. 
Prerequisites: MU 322 [Min Grade: C]

MU 364. American Music. 3 Hours.
Music in United States from colonial times to the present. 
Prerequisites: MU 120 [Min Grade: C] or MU 261 [Min Grade: C]

MU 365. The Evolution of Jazz. 3 Hours.
Origins and survey of jazz types and styles. Lectures, recordings, and readings. 
Prerequisites: MU 120 [Min Grade: C] or MU 261 [Min Grade: C]

MU 366. Music in World Cultures. 2-3 Hours.
Characteristics of musical styles found in various cultures throughout the world. 3-hour option requires semester project directed by the instructor.

MU 367. Introduction to Ethnomusicology. 3 Hours.
Holistic approach to study of music. Musicians' training, instruments, and role in society. Methods for documenting and transcribing, social functions and economic context, and theories of performance and creativity. Ghanaian and Indian traditions, with other music, including Western, as appropriate. Six semester hours of ANTH, MU or MUP courses required. 
Prerequisites: MU 120 [Min Grade: C] or MU 120 [Min Grade: C]

MU 381. Instrumental Pedagogy. 3 Hours.
Overview of important components of teaching instrumental music in the secondary school program, including developing a personal philosophy of music education and teaching strategies. Prerequisites: Four terms of Applied Lessons (MUP 161 - 195).

MU 382. Piano Pedagogy. 3 Hours.
Study of teaching objectives, techniques, literature, methods and materials (including observation) for the pre-college student as well as the study of the history of the piano and piano mechanism. Two terms of Applied Piano required. 
Prerequisites: MUP 150 [Min Grade: C]

MU 383. Vocal Pedagogy. 3 Hours.
Principles of healthy voice production as the foundation for an approach to teaching voice. Two terms of Applied Voice required. 
Prerequisites: MUP 140 [Min Grade: C]

MU 399. Independent Studies. 1-3 Hour.
Permission of Department Chair based on written proposal submitted prior to registration.

MU 410. Music Technology Workshop. 1-3 Hour.
Workshop in Music Technology.

MU 429. Advanced Conducting/Techniques. 2 Hours.
Rehearsal techniques, expression, and interpretation. May occasionally work with University ensembles.
Prerequisites: MU 329 [Min Grade: C]

MU 431. Methods of Teaching Music N-6. 3 Hours.
Organization of appropriate music concepts and musical experiences for all young learners; elementary children; development of methods and skills needed for direct student involvement in musical experiences for each grade level.

MU 432. Methods I: Choral Music. 3 Hours.
Introduction to teaching choral music to adolescent learners. Developing basic skills in planning, instruction, and assessment.

MU 433. Methods I: Instrumental Music. 3 Hours.
Introduction to teaching instrumental music to adolescent learners. Developing basic skills in planning, instruction, and assessment.

MU 441. Multimedia Productions. 3 Hours.
Techniques for producing music for television, film, video, computer presentations, and slide shows using computer-based technologies. 
Prerequisites: MU 321 [Min Grade: C] and MU 324 [Min Grade: C] and MU 342 [Min Grade: C] and MU 345 [Min Grade: C]

MU 445. Modal Counterpoint. 3 Hours.
Important characteristics of vocal polyphonic writing based on modal scales with emphasis on style of Palestrina and other Renaissance composers. 
Prerequisites: MU 222 [Min Grade: C]

MU 446. Tonal Counterpoint. 3 Hours.
Important characteristics of polyphonic writing based on major and minor scales with emphasis on style of J.S. Bach and other eighteenth century composers. 
Prerequisites: MU 322 [Min Grade: C]

MU 448. Orchestration. 3 Hours.
Scoring techniques for orchestra, band, and other instrumental groups. 
Prerequisites: MU 322 [Min Grade: C]

MU 451. Topics in Music Theory. 3 Hours.
Aspects of music theory and analysis. May be repeated for credit. 
Prerequisites: MU 322 [Min Grade: C]

MU 455. Form and Analysis. 3 Hours.
Principles and techniques of organization in tonal music; analytical methods. 
Prerequisites: MU 322 [Min Grade: C]

MU 458. Contemporary Techniques. 3 Hours.
Techniques and materials employed in contemporary music, including nonfunctional and nontertian harmony, polyharmony, atonal and serial music, contemporary notation. 
Prerequisites: MU 322 [Min Grade: C]

MU 459. Composition II. 1-2 Hour.
Directed individual projects in composition and discussions on related topics. May be repeated for credit. 
Prerequisites: MU 359 [Min Grade: C]

MU 461. Seminar in Music Literature. 3 Hours.
Selected topics concerning specific periods, genres, and forms. May be repeated for credit.

MU 462. Methods II: Choral Music. 3 Hours.
Preparation to plan, teach and assess choral music with adolescent learners: making informed decisions about context, learners, learner differences, teaching strategies, methodologies, curricula, and assessment. 
Prerequisites: MU 432 [Min Grade: C]

MU 463. Methods II: Instrumental Music. 3 Hours.
Preparation to plan, teach, and assess instrumental music with adolescent learners: making informed decisions about context, learners, learner differences, teaching strategies, methodologies, curricula, and assessment. 
Prerequisites: MU 433 [Min Grade: C]

MU 471. Music History and Literature to 1750. 3 Hours.
Major developments of music styles and forms from pre-Christian era through Baroque. Includes critical listening to selected musical examples. 
Prerequisites: MU 222 [Min Grade: C]
MU 472. Music Hist/Lit 1750-Present. 3 Hours.
A course taken in the student’s junior or senior year that studies the major developments of musical styles and forms from the classical period through the present. This includes critical listening to selected musical examples as well as critical analysis, research and writing. Writing is a significant component of this course.
Prerequisites: MU 222 [Min Grade: C]

MU 498. Music Technology Internship. 1-2 Hour.
This capstone experience provides students in Music Technology with practical experience in.
Prerequisites: MU 342 [Min Grade: C] and MU 345 [Min Grade: C] and MU 441 [Min Grade: C]

MU 499. Independent Studies. 1-3 Hour.
Directed studies in music. Permission of Department Chair. Written proposal must be submitted prior to registration.

MUP-Music Performance Courses

Courses

MUP 001. Performance Attendance. 0 Hours.
Attendance at Department-approved musical events such as concerts, recitals, and festivals. Required of music, music technology, and music education majors.

MUP 110. Gospel Choir. 1 Hour.
Primarily performs choral literature from the Major Eras of American Gospel Music. Open to students of all majors. May be repeated for credit.

MUP 120. University Chorus. 1 Hour.
Non-auditioned ensemble open to students of all majors, performing larger masterworks for choir and orchestra. May be repeated for credit.

MUP 122. Class Voice. 1 Hour.
Fundamentals of singing for teaching or performance. Group and individual instruction.

MUP 124. Class Piano. 1 Hour.
Basic keyboard skills for adult beginner. May be repeated for maximum of 3 hours of credit.

MUP 125. Piano Proficiency Exam. 0 Hours.
Required of music majors for graduation and music education majors before entering Teacher Education Program (TEP).

MUP 130. Class Guitar. 1 Hour.
Beginning course in basic guitar techniques and music reading. Student must have a classic or acoustic guitar.

MUP 132. Class Woodwinds. 1 Hour.
Basic materials and performance techniques, primarily for music education students.

MUP 134. Class Brass. 1 Hour.
Basic materials and performance techniques, primarily for music education students.

MUP 136. Class Percussion. 1 Hour.
Basic materials and performance techniques, primarily for Music Education students.

MUP 138. Class Strings. 1 Hour.
Basic materials and performance techniques, primarily for Music Education students.

MUP 140. Private Lessons: Voice. 1 Hour.
Private instruction in voice. Limited to Music Majors and Minors.

MUP 150. Private Lessons: Piano. 1 Hour.
Private instruction in Piano. Open to all majors by audition.

MUP 161. Private Lessons: Flute. 1 Hour.
Private instruction in flute. Limited to Music majors and minors.

MUP 162. Private Lessons: Oboe. 1 Hour.
Private instruction in oboe. Limited to Music majors and minors.

MUP 163. Private Lessons: Clarinet. 1 Hour.
Private instruction in clarinet. Limited to Music majors and minors.

MUP 164. Private Lessons: Saxophone. 1 Hour.
Private instruction in saxophone. Limited to Music majors and minors.

MUP 166. Private Lessons: Bassoon. 1 Hour.
Private instruction in bassoon. Limited to Music majors and minors.

MUP 171. Private Lessons: Trumpet. 1 Hour.
Private instruction in trumpet. Limited to Music majors and minors.

MUP 172. Private Lessons: French Horn. 1 Hour.
Private instruction in french horn. Limited to Music majors and minors.

MUP 173. Private Lessons: Trombone. 1 Hour.
Private instruction in trombone. Limited to Music majors and minors.

MUP 174. Private Lessons: Euphonium. 1 Hour.
Private instruction in euphonium. Limited to Music majors and minors.

MUP 175. Private Lessons: Tuba. 1 Hour.
Private instruction in tuba. Limited to Music majors and minors.

MUP 180. Private Lessons: Percussion. 1 Hour.
Private instruction in percussion. Limited to Music majors and minors.

MUP 191. Private Lessons: Violin. 1 Hour.
Private instruction in violin. Limited to Music majors and minors.

MUP 192. Private Lessons: Viola. 1 Hour.
Private instruction in viola. Limited to Music majors and minors.

MUP 193. Private Lessons: Cello. 1 Hour.
Private instruction in cello. Limited to Music majors and minors.

MUP 194. Private Lessons: Bass. 1 Hour.
Private instruction in bass. Limited to Music majors and minors.

MUP 195. Private Lessons: Guitar. 1 Hour.
Private instruction in guitar. Limited to Music majors and minors.

MUP 220. Concert Choir. 1 Hour.
Performs choral music representing a variety of periods and styles. Some sight-reading ability necessary. May be repeated for credit.

MUP 220L. Concert Choir Learning Lab. 0 Hours.
Required Learning Lab for MUP 220 Concert Choir. Performs choral music representing a variety of periods and styles. Some sight-reading ability necessary.

MUP 221. Jazz Combo. 1 Hour.
Performs repertoire of traditional and contemporary jazz for small ensembles. Rehearsals will focus on reading from "Real Books" and will include harmonic analysis as well as a study of basic improvisation, form and style.

MUP 222. Advanced Woodwind Methods. 1 Hour.
Methods and materials for music educators in the specialized techniques of woodwind (flute, oboe, clarinet, saxophone, bassoon) pedagogy; emphasis on learning through performance and preparing and teaching in-class lessons.
Prerequisites: MUP 132 [Min Grade: C]
MUP 224. Advanced Brass Methods. 1 Hour.
Methods and materials for music educators in the specialized techniques of brass (trumpet, trombone, horn, euphonium, tuba) pedagogy; emphasis on learning through performing and teaching in-class lessons.
Prerequisites: MUP 134 [Min Grade: C]

MUP 225. Symphony Band. 1 Hour.
Performs concert band literature. Open to students of all majors. May be repeated for credit.

MUP 226. Advanced Percussion Methods. 1 Hour.
Methods and Materials for music educators in the specialized techniques of percussion pedagogy; emphasis on learning through performance and preparing and teaching in-class lessons.
Prerequisites: MUP 136 [Min Grade: C]

MUP 230. Guitar Ensemble. 1 Hour.
Performs original and pre-arranged selections of guitar ensemble literature. May be repeated for credit.

MUP 231. Orchestra. 1 Hour.
Participation in community orchestra. Open to students of all majors. May be repeated for credit.

MUP 232. Marching Band. 1 Hour.
Supports UAB football program by performing pre-game and half time shows. May also perform for other special University or community events. Open to students of all majors with marching band experience. May be repeated for credit.

MUP 233. Clarinet Choir. 1 Hour.
Performs works for clarinet choir in a chamber setting. Open to students of all majors. May be repeated for credit.

MUP 234. Percussion Ensemble. 1 Hour.
Performs original and pre-arranged selections of concert percussion literature. Advanced percussion skill necessary. Open to students of all majors. May be repeated for credit.

MUP 235. Wind Symphony. 1 Hour.
Performs finest concert band literature. Open to students of all majors. May be repeated for credit.

MUP 235L. Wind Symphony Learning Lab. 0 Hours.
Required Learning Lab for MUP 235 Wind Symphony. Performs finest concert band literature. Open to students of all majors.

MUP 236. Jazz Ensemble. 1 Hour.
Performs classic and contemporary jazz, swing, and rhythm and blues. May be repeated for credit.

MUP 237. Blazer Band. 1 Hour.
Supports UAB basketball program by performing at games. May also perform for other special University or community events. Open to students of all majors. May be repeated for credit.

MUP 238. Brass Ensemble. 1 Hour.
Performs works for brass ensemble in a chamber setting. Open to students of all majors. May be repeated for credit.

MUP 239. Tuba/Euphonium Ensemble. 1 Hour.
Performs works for low brass ensemble in a chamber setting. Open to students of all majors. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Private instruction in piano, including weekly performance class. Open to all majors by audition.

MUP 253. Private Lessons: Jazz Piano. 1.2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

MUP 260. Private Lessons: Jazz Trumpet. 1.2 Hour.
Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 262. Private Lessons: Oboe. 1-2 Hour.
Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 263. Private Lessons: Clarinet. 1-2 Hour.
Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 265. Jazz Improvisation. 3 Hours.
Jazz theory and improvisational techniques. Emphasis on basic repertory of standards and typical jazz forms. Stresses both performance and theory.

MUP 266. Private Lessons: Bassoon. 1-2 Hour.
Private instruction in bassoon. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.

MUP 267. Private Lessons: Jazz Saxophone. 1.2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 274. Private Lessons Euphonium. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 276. Private Lessons: Jazz Trumpet. 1.2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

MUP 277. Private Lessons: Jazz Trombone. 1.2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.
Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 281. Private Lessons: Jazz Percussion. 1-2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 293. Private Lessons: Cello. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 296. Private Lessons: Jazz Guitar. 1-2 Hour.
Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

Limited to Music Technology majors and minors. Weekly private lesson to be scheduled with the instructor. May be repeated for credit.

MUP 300. Chamber Singers. 1 Hour.
Advanced choral group. Performs variety of choral music representing different periods and styles. By audition only. Advanced music-reading skills required. May be repeated for credit.

MUP 310. Women's Chorale. 1 Hour.
Performs choral music for women's voices and covers a variety of periods and styles. Some sight-reading ability necessary. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be.

MUP 321. Computer Music Ensemble. 1 Hour.
Performs computer and other electronically generated music of various styles.
Prerequisites: MU 222 [Min Grade: C] and MU 225 [Min Grade: C] and MU 341 [Min Grade: C]

MUP 322. Commercial Music Ensemble. 1 Hour.

Private instruction in piano, plus weekly performance class. Open to all majors by audition.

MUP 353. Piano Ensemble. 1 Hour.
Explores piano literature for multiple performers. May be repeated for credit.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.

MUP 397. Junior Recital. 0 Hours.
Thirty-minute recital presented in the junior year.

MUP 420. Opera Workshop. 1 Hour.
Select member group. Performs staged productions of operas, opera scenes, and musical theater excerpts. Requires advanced music-reading skills. May be repeated for credit.

Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 340 [Min Grade: C]

Limited to Music majors and minors. Weekly performance class and private lesson, to be.
Prerequisites: MUP 350 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 361 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 362 [Min Grade: C]

MUP 463. Private Lessons: Clarinet. 1-2 Hour.
Private instruction in clarinet. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.
Prerequisites: MUP 363 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 364 [Min Grade: C]

MUP 466. Private Lessons: Bassoon. 1-2 Hour.
Private instruction in bassoon. Limited to Music majors and minors. Weekly performance class and private lesson, to be scheduled with instructor, are required. May be repeated for credit.
Prerequisites: MUP 366 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 371 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 372 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 373 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 374 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 375 [Min Grade: C]

Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 380 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 391 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 392 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 393 [Min Grade: C]

Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 394 [Min Grade: C]

MUP 495. Private Lessons: Guitar. 1-2 Hour.
Limited to Music Majors and Minors. Weekly performance class and private lesson, to be scheduled with the instructor, are required. May be repeated for credit.
Prerequisites: MUP 395 [Min Grade: C]

MUP 497. Senior Recital/Project. 0 Hours.
A co-curricular course taken in the student's last 30 hours that, together with their last semester of applied lessons, will culminate in a Senior Recital or Lecture-Recital. This is a capstone course for all students seeking a Bachelor of Arts (general) degree.
Courses

NBL 120. Basic Neuroscience. 3 Hours.
NBL 121. Basic Neuroscience. 3 Hours.
NBL 150. Neuroscience for Non-Majors. 3 Hours.

Neuroscience is one of the fastest growing disciplines in all of science. Using tools and perspectives adopted from across many scientific realms, neuroscience researchers have now learned more about the brain in the last two decades than in all of human history combined. Like never before, neuroscience is providing us with information pertinent to our everyday lives and in the process become a part of contemporary culture. In this lecture and discussion-based course, we will explore a range of neuroscience-related topics, including but not limited to creativity, consciousness, perception, love and emotion, brain health, motivation, stress, personality, and the differences between the male and female brain. There will be no required text for the course, and participants need no scientific background to participate.

NBL 210. Scientific Reasoning and Medical Research Design. 3 Hours.
The goal of this course is to teach biomedical research design basics and critical thinking skills in the context of neuroscience research. This knowledge should be helpful for understanding and conducting scientific research, as well as for the updated sections of the 2015 MCAT test for medical school admission.

NBL 220. Special Topics Neuroscience 1. 1 Hour.
This course covers different topics that have to do with Neurobiology.
NBL 222. Special Topics Neuroscience 2. 2 Hours.
This course covers different topics that have to do with Neurobiology.
NBL 225. No Self Control: Motivation, Reward and Addiction. 3 Hours.
Survival of self and species has been evolutionarily wired into the brain. Largely, involving sub-cortical networks, animals are strongly rewarded by beneficial outcomes and driven away from aversive situations. Overseeing these opposing subconscious determinants of motivated behavior is a pre-frontal cortical command center, which along with additional systems that provide for experiential memory and emotional significance, guide the choices we make. This course will provide the participant with an introduction to the neuronal pathways that underlie normal decision making, with a major focus on how this circuitry becomes compromised during addiction. These topics should be relevant to students interested in biomedicine, health professions or counseling.

NBL 230. Brain Science: Biology, Disorders, and Clinical Therapies. 3 Hours.
This course is an introduction to the mammalian nervous system, intended to give a strong foundation or understanding of the human brain. Topics include the composition and function of neurons and glia, sensory systems and perception, movement, basic learning and memory, and select diseases of the brain. Students also explore the principles of experimental design and apply those to contemporary neuroscience techniques.

NBL 240. Introduction to Neuroscience Methods. 3 Hours.
This course is designed to develop practical, experience-based laboratory skills in undergraduate student researchers with minimal prior laboratory exposure. Students will be exposed to a variety of techniques ranging from cellular and molecular to vertebrate animal applications. Any student that completes this course should have the rudimentary skills (and confidence!) to begin supervised research in primary laboratories around campus. No background in Neuroscience required.

NBL 245. The Neurobiology of Learning and Memory. 3 Hours.
This course focuses on the biological mechanisms involved in the processes of learning and memory in the nervous system. We will examine these mechanisms at the molecular, cellular and systems levels of the brain. Topics range from memory-associated molecules and synaptic plasticity to animal models and human behavior. In addition, students will be introduced to the many behavioral paradigms and molecular genetic techniques used by neuroscientists to study learning and memory in the brain.

NBL 298. Special Topics Neuroscience 4. 1 Hour.
This course covers different topics that have to do with Neurobiology.
NBL 310. Evolution of the Vertebrate Brain. 3 Hours.
NBL 311. From Wet Brains to Artificial Stupidity. 1-3 Hour.
NBL 323. Special Topics Neurobiology 1. 1 Hour.
This course covers different topics that have to do with Neurobiology.
NBL 324. Special Topics in Neurobiology 6. 3 Hours.
This course covers different topics that have to do with Neurobiology.
NBL 325. Special Topics Neurobiology 3. 2 Hours.
This course covers different topics that have to do with Neurobiology.
NBL 327. 100 Things You've Always Wanted to Know About the Brain. 3 Hours.
This course examines intriguing questions in neuroscience as they are presented to the layperson through TED Talks, video presentations, podcasts, Scientific American articles, and newspaper/magazine science op-eds. The aim is to expose students to a wide range of topics about the brain, some fundamental, some controversial, in ways they may not have thought about before; challenging them to discuss the evidence for and against various theories of brain function. There will be no memorization of information, only the willingness to read, post and discuss scientific opinions on articles/videos. Non-majors are encouraged!

NBL 355. Mechanisms of Synaptic Transmission. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize the development, anatomy, cellular and molecular biology and biochemistry of neurons and glial cells, and introduce electrical, biophysical and chemical signaling within and across neurons.
NBL 356. Mechanisms of Sensation, Movement & Cognition. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize mechanisms of synaptic transmission, sensory systems, neuropharmacology, and synaptic plasticity; and introduce the molecular basis of diseases and disorders of the central and peripheral nervous systems.
Prerequisites: PY 355 [Min Grade: C] or NBL 355 [Min Grade: C]
NBL 390. Neurobiology Research Laboratory. 3 Hours.
Hands-on instruction will be provided in contemporary methods used in neurobiology research. These will include molecular cloning, DNA sequencing, cell transformation and culture, western blotting, immunohistochemistry and electrophysiology.
NBL 396. Teaching Practicum in Neurobiology. 1 Hour.
Teaching experience in neurobiology courses, supervised by a faculty member. Student must have previously taken the course for which the student will work within.
NBL 397. Community-Based Practicum in Neurobiology. 1-6 Hour.
Community work in various supervised settings related to practical applications of neuroscience (for example, non-profits, educational settings, and other outreach) are significant components of this course.

NBL 398. Rescg Prac in Neurobiology-MED. 0-6 Hours.
Project or research activity supervised by faculty. Cannot be taken Pass/Fail.

NBL 399. Senior Seminar in Neuroscience. 3 Hours.
All (Thesis Track) Neuroscience majors will participate in the Senior Seminar, which is a capstone experience in their study of Neuroscience. The seminar will meet weekly for in-depth discussions of current topics in neuroscience. Over the course of the semester, students will independently develop and complete a capstone research paper on a topic of their choosing while working closely with a supervising faculty member. The research report serves as a culminating academic and intellectual experience that works to develop critical thinking, research skills, and both written and oral communication. Students will present their papers at the completion of the course. (Fall and Spring availability).

NBL 400. Special Topics in Neurobiology 1. 3 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 401. Colloquium in Basic, Cognitive and Clinical Neuroscience. 1 Hour.
The Colloquium in Basic, Cognitive and Clinical Neuroscience is a faculty seminar. The Colloquium will expose students to cutting edge research programs and technologies from approximately 25 faculty each year who serve as mentors for the Undergraduate Neuroscience Major and Graduate Neuroscience Program. Faculty will also discuss strategies for development of careers in medicine and research. Students will prepare by reading an assigned research article authored by the speaker and be prepared for a group discussion. Class meets for one and a half hours a week.

NBL 403. Special Topics in Neurobiology 2. 3 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 410. Molecular Biology of the Neuron. 3 Hours.
Molecular Neuroscience will provide students an advanced understanding of how the brain works with a focus on protein function. Everything the brain does is built upon the actions of proteins, many of which are completely unique to the brain. Together we will work to thoroughly understand the exact molecular mechanisms utilized by the brain to support the complex function of our most fascinating organ. Topics covered will include brain morphogenesis, axonal outgrowth, synapse formation, neurotransmitter biosynthesis, intracellular signaling, and the blood brain barrier. This lecture course is designed to fulfill a neuroscience major’s requirement for an advanced course. Neuroscience majors should seek course master approval before enrolling and must have a significant background in biology and/or chemistry. Students will be required to purchase a text. Grades will be assigned based on points accumulated through weekly quizzes, cumulative exams, and written reports.

Prerequisites: NBL 230 [Min Grade: C] or PY 253 [Min Grade: C] and (NBL 355 [Min Grade: C] or PY 355 [Min Grade: C]) and (NBL 356 [Min Grade: C] or PY 356 [Min Grade: C])

NBL 420. Special Topics in Neurobiology 3. 3 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 427. Special Topics in Neurobiology 5. 3 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 425. Methods in Human Neuroimaging. 3 Hours.
Cognitive neuroscience research has provided valuable insights into the workings of the human brain. The ability to perform neuroimaging studies on awake human individuals engaged in cognitive, social, sensory, and motor tasks has produced a conceptual revolution in the study of human cognition. This course will comprehensively examine the methods and techniques in neuroimaging with the primary goal of building basic knowledge in the concepts and techniques of neuroimaging. The course will explore techniques, such as single and multi cell recordings, deep brain stimulation, electroencephalography, magnetoencephalography, and diffusion tensor imaging, and focuses on functional magnetic resonance imaging. Course goals: By the end of the course, students will have gained basic knowledge in the field and will be able to read and critically assess scientific journal articles that make use of a variety of neuroimaging methods. The secondary and implicit goal of this course is to create and nurture, in students, a genuine interest in neuroscience and neuroimaging.

NBL 433. Diseases of the Nervous System. 3 Hours.
Molecular mechanisms and treatments for neurological, psychiatric, and injury based disorders and diseases of the nervous system. Topics include neurodevelopmental disorders (including intellectual disability and autism spectrum disorders), neurological disorders (including neurodegenerative and demyelinating disease), neuropsychiatric disorders (including depression disorders and schizophrenia), and injury to the nervous system (including stroke and traumatic brain and spinal cord injury).

Prerequisites: PY 356 [Min Grade: C] or NBL 356 [Min Grade: C]

NBL 434. Mechanisms of Memory. 3 Hours.
Molecular, cellular, systems and medical components of neuroscience, with an emphasis on cognition and cognitive disorders. Covers topics ranging from genes and molecules to human behavior, using cognitive function and clinical cognitive disorders as the unifying theme, with a focus on learning and memory and disorders of these processes.

Prerequisites: (NBL 355 [Min Grade: C] or PY 355 [Min Grade: C]) and (NBL 356 [Min Grade: C] or PY 356 [Min Grade: C])

NBL 440. Special Topics Neuroscience 1. 1 Hour.
This course covers different topics that have to do with Neurobiology.

NBL 442. Sp Tp Neuroscience 2. 2 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 444. Special Topics Neuroscience 3. 3 Hours.
This course covers different topics that have to do with Neurobiology.

NBL 446. Special Topics Neuroscience 4. 4 Hours.
This course covers different topics that have to do with Neuroscience.

NBL 454. Mind/Brain Course. 3 Hours.

NMT-Nuclear Medicine Tech Courses
Courses

NMT 304. Physics for Technologists. 8 Hours.
Mechanics, static and dynamic fluids, wave motion, heat, sound, electricity, magnetism, and light; fundamental concepts of physics with mathematical formulation to enhance problem-solving skills.
Prerequisites: MA 105 [Min Grade: C] or MA 106 [Min Grade: C]

NMT 320. Human Pathophysiology. 3 Hours.
Introduction to basic disease concepts, theories of disease causation and pathophysiologic disorders most frequently encountered in clinical practice.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C]

NMT 400. Intro to Clinical Nuclear Medicine Technology. 2 Hours.
Overview of professional organizations and nuclear medicine; hospital organization; medical terminology; medical records; introduction to other aspects of nuclear medicine technology including ethics concerning the hospital setting; writing assignments on professionalism and hospital ethics. Writing and Ethics and Civic Responsibility are significant components of this course.

NMT 401. Introduction to MRI Clinic. 2 Hours.
This course is designed to provide students with the practical aspect of Magnetic Resonance Imaging. The role of MRI technologists, patient management, MRI screening and safety procedures, quality assurance procedures and FDA guidelines will be discussed.
Prerequisites: NMT 424 [Min Grade: C] or NMT 417 [Min Grade: C]

NMT 404. Patient Care. 2 Hours.
Basic patient care theory and techniques including standard precautions, infection control, vital signs venipuncture patient transfer techniques, immobilization techniques, aseptic and nonaseptic techniques, oxygen administration, and medical emergencies which are required for nuclear medicine students prior to entering clinical training.

NMT 405. Cross-Sectional Anatomy. 3 Hours.
Integration of the knowledge of gross anatomy with the identification and location of structures in cross-sectional images. Computer Tomography (CT), Magnetic Resonance (MR), and Diagnostic Ultrasound (US) images in various anatomical planes will be used to locate and identify anatomical structures.

NMT 410. Medical Radiation Physics. 4 Hours.
Qualitative and quantitative concepts of radiation physics pertaining to medical applications in nuclear medicine, radiology, and radiation therapy; atomic and nuclear structure, radioactive decay, properties of radiation; x-ray production; artificial production; photon interactions in matter and shielding attenuation processes.
Prerequisites: MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

NMT 421. Instrumentation I. 3 Hours.
Theoretical and practical concepts in radiation detection instrumentation; calibration; maintenance standards; practical uses of gaseous detectors, scintillation detectors, and multichannel analyzers; quality assurance testing for nuclear medicine instrumentation including GM detectors, ionization chambers and scintillation detectors; gamma spectrometry of all commonly used nuclear medicine radionuclides. Principles of in vivo and in vitro counting and imaging using probe counters, well counters, and scintillation gamma cameras; scintillation gamma camera quality control; types of collimators used in nuclear medicine, their use and function.

NMT 421L. Instrumentation I Laboratory. 1 Hour.
Introduction to basic radiation and nuclear counting instrumentation. Utilizing proper calibration of the Multi-Channel Analyzer (MCA) and Geiger Muller (G-M) Counter. Determine the proper operating voltage, detector efficiency, window width, and amplifier gain and energy resolution of the MCA. Proper counting statistics and dual isotope counting labs will emphasize the importance of proper use of nuclear counting instrumentation.

NMT 422. Instrumentation II. 3 Hours.
Applying computer fundamentals to the acquisition and processing of nuclear medicine patient data. Quantitative planar studies as well as SPECT/PET image reconstruction, filtering, and attenuation correction are presented. Quality control of SPECT and PET camera system.
Prerequisites: NMT 421 [Min Grade: C]

NMT 423. Computed Tomography. 3 Hours.
Provide theoretical principles of Computed Tomography (CT) using the historical development of CT and the physical principles underlying CT scanning, CT Instrumentation, data acquisition, data processing and image quality.

NMT 424. Physics/Instrumentation of Nuclear Magnetic Resonance. 3 Hours.
Fundamental physical principle of nuclear magnetic resonance, including structure of atom, concept of resonance, Larmor frequency, gyromagnetic ratio, T1 and T2 and methods of generating magnetic fields; theory of operation of NMR spectrometers and imagers, including function of basic components, effects of linear gradients, signal processing, slice definition and large reconstruction.

NMT 431. Nuclear Medicine Procedures I. 4 Hours.
Study of the utilization of nuclear medicine procedures and the nuclear medicine technologist's responsibilities in completing a procedure involving the skeletal, respiratory, endocrine, gastrointestinal and genitourinary systems. Anatomy and relevant concepts in physiology are reviewed and applied to each procedure. Common pathologies demonstrated with each procedure are also discussed.
Prerequisites: BY 115 [Min Grade: C] and BY 116 [Min Grade: C]

NMT 432. Nuclear Medicine Procedures II. 4 Hours.
Instruction of various nuclear medicine procedures and the nuclear medicine technologist's responsibilities for completing a procedure involving nuclear cardiology, oncology, central nervous and hematopoietic systems and applications of position emission tomography. Anatomy and relevant concepts in physiology are reviewed and applied to each procedure. Common pathologies demonstrated with each procedure and the basics of three and twelve lead ECGs.
Prerequisites: NMT 431 [Min Grade: C]

NMT 433. Computed Tomography Procedures. 3 Hours.
Provide a solid foundation of Computed Tomography (CT) Procedures through basic CT scanning concepts and image quality, detailed discussions about CT positioning criteria, specific selections, and options in protocols. Understanding concepts in advanced CT including interventional imaging, virtual reality imaging, positron emission tomography and special procedures.
Prerequisites: NMT 405 [Min Grade: C] or RTT 402 [Min Grade: C] and NMT 423 [Min Grade: C](Can be taken Concurrently) or RTT 403 [Min Grade: C]
NMT 434. MRI Scanning and Sequence. 3 Hours.
This course will provide the students with a solid foundation of the magnetic resonance imaging (MRI) modality. Basic MRI theory will be reviewed along with detailed discussion about imaging sequences, parameter optimizations, and imaging procedures will be extensively discussed. Advanced concepts such as flow imaging, and MR spectroscopy will also be discussed.
Prerequisites: NMT 405 [Min Grade: C] and NMT 424 [Min Grade: C]

NMT 441. Radiation Protection and Biology. 3 Hours.
Principles and methods of radiation protection, health physics units, measurement, and dose limiting regulations for occupationally and non occupationally exposed individuals; radiation surveys; techniques and decontamination methods, monitoring of radioactive waste, radiation dose measurements, and radionuclide accountability; special topics, including precautions with brachytherapy patients, with patients receiving therapeutic amounts of radionuclides, and in management of accidentally contaminated individuals. Physical, chemical and biological mechanisms involved in action of different types of radiations on living cells and their components are covered. Emphasis is given to being able to interpret how to respond to a malicious radiological exposure incident in an appropriate manner.

NMT 442. Application of Radiation Protection and Biology. 1 Hour.
Introduction to basic radiation physics and radiation protection experiments, emphasizing the ALARA concept; basic concepts of radiation safety (including time, distance and appropriate shielding), half-lives, half value layers for different absorbers and radioisotopes, the inverse square law, semi-log graphing and calibration and use of nuclear counting instrumentation; proper calibration and use of the Multichannel Analyzer (MCA) and Geiger Muller (G-M) Counter; proper operating voltage, detector efficiency, and window width, proper counting statistics and dual isotope counting labs.

NMT 443. Regulatory Issues. 2 Hours.
Basic knowledge of appropriate rules, regulations and work practices governing the use of radioactive materials in the medical setting to plan for and participate in a successful radiation safety compliance management program.

NMT 451. Communication Skills. 1 Hour.
This course explores the nature of the patient-technologist relationships, technologist-hospital professional relationship and the role of the technologist as apatient educator. Therapeutic communication skills, interviewing skills, and the psychosocial aspects of being a patient are discussed.

NMT 452. Health Law for NMT. 1 Hour.
Introduction to medical law and ethics presenting an overview of major ethical theories and their relation to health law. Topics covered include ethical dilemmas and ethical decision making models and their application to clinical practice; legal principles and their application to healthcare; issues concerning professional liability, informed consent, and malpractice.

NMT 453. Seminar III. 1 Hour.
Review of current literature applied to case study presentation.

NMT 460. Radiochemistry and Radiopharmacy. 2 Hours.
Introduction to fundamentals of radiopharmacy including radionuclide generator design and operation, labeling and quality control of Tc-99m labeled compounds, unit dose preparation and a review of federal regulations pertinent to radionuclides and radiopharmaceuticals; radiopharmaceutical design, IND process and the basic concepts of internal radiation dosimetry.

NMT 461. Radiopharmacy and Pharmacology Laboratory. 1 Hour.
Utilizing the fundamentals of radiopharmacy including radionuclide generator design and operation, labeling and quality control of Tc-99m labeled compounds, unit dose preparation, and a review of federal regulations pertinent to radionuclides and radiopharmaceuticals along with the radiopharmaceutical design and the IND process and basic concepts of internal radiation dosimetry.

NMT 491. Clinical Practice I. 5 Hours.
Directed clinical practice; in vivo procedures; instrumentation quality control; radiopharmacy; applied radiation safety procedures.

NMT 492. Clinical Practice II. 7 Hours.
Directed clinical practice; in vivo procedures; instrumentation quality control; radiopharmacy; applied radiation safety procedures.
Prerequisites: NMT 491 [Min Grade: C]

NMT 493. Clinical Practice III. 4-10 Hours.
Directed clinical practice; in vivo procedures; instrumentation quality control; radiopharmacy; applied radiation safety procedures.
Prerequisites: NMT 492 [Min Grade: C]

NMT 494. CT Clinical Practice. 12 Hours.
Clinical application of the nuclear medicine program concepts with opportunity to observe, work, and train to become certified in CT; performance evaluated through clinical experiences, final evaluation, and a self-assessment.

NMT 495. MRI Clinical Practice. 12 Hours.
Clinical application of the nuclear medicine program concepts with opportunity to observe, work, and train to become certified in MRI; performance evaluated through clinical experiences, final evaluation, and a self-assessment.

NMT 499. Correlative Imaging. 3 Hours.
Capstone course encompassing all aspects of the nuclear medicine technology program to investigate and analyze the multifaceted nature of disease diagnosis and treatment in the United States, current trends in healthcare costs and payment methods, and healthcare disparities associated with these imaging tests. This course consists of the three aspects of the University Quality Enhancement Plan including Ethics and Civic Responsibility, Writing and Quantitative Literacy.

NS-Natural Sciences/Math

Courses

NS 100. NSM Honors Seminar. 3 Hours.
NSM Honors Seminar.

NS 101. Succeeding in the Sciences. 1 Hour.
This one credit-hour course is designed to introduce freshmen NSM majors to the tools and techniques that will enhance their transition to college and improve their academic success. Goal setting, critical thinking, note-taking, time management, and other academic skills applicable to success in all NSM majors will be addressed along with exploring career options and gaining insight into the scientific approach used by faculty in their research.

NTR-Nutrition Sciences
Courses

NTR 220. Contemporary Issues in Nutrition. 3 Hours.
Contemporary Issues in Nutrition is designed for non-health professional majors and will be particularly beneficial to those in education, communications, and business fields of study.

NTR 222. Nutrition and Health. 3 Hours.
Introduction to principles of nutrition; essential nutrients and their relation to growth, maintenance, and optimal functioning of the body; dietary recommendations to promote wellness and prevent chronic disease.

NTR 225. Promoting Nutrition and Wellness for Healthy Communities. 3 Hours.
This course will introduce students to one of the most critical health issues in the US today – poor nutrition, unhealthy life styles and their consequences including the epidemic of obesity. Students will learn about the diverse range of individuals impacted by this issue and will discover the range of prevention, education and support services that are offered. This course will cover the following aspects of unhealthy lifestyles/poor nutrition: history and systemic causes, education and prevention, including policy and advocacy. The course is also designed to present a multicultural perspective on the issues and students will be encouraged to engage in service-learning in the field, read literature, listen to speakers and interact with individuals representing a range of ages, genders, ethnicities and socioeconomic status.

NTR 232. Lifecycle Nutrition. 3 Hours.
Role of nutrition and dietary factors on the growth, development, and maintenance of health throughout the human life cycle. Nutritional guidelines/recommendations, special nutritional needs, physiology, and nutritional health concerns for each stage of the human lifecycle, from preconception through adulthood and aging.
Prerequisites: NTR 222 [Min Grade: C]

NTR 320. Nutrition and the Consumer. 3 Hours.
Contemporary nutrition topics that affect consumers, such as dietary supplements, food additives, food safety, food, genetically modified organisms in foods & integrative medicine. Techniques to communicate nutrition information to consumers.
Prerequisites: NTR 222 [Min Grade: C]

NTR 330. Nutrition and Metabolism. 3 Hours.
Metabolism and functions of nutrients after mixed meal intakes, including USDA MyPlate, low-carbohydrate or low-fat diets; biosynthesis of vitamins and co-factors and whole food sources; human requirements for energy, amino acids, minerals, and vitamins; food fortification; current human nutritional challenges and diseases.
Prerequisites: NTR 222 [Min Grade: C]

NTR 420. Nutritional Genetics. 3 Hours.
How behavioral practices, environmental influences, and genetic makeup interact to influence individual preferences and responses to foods. Models to incorporate the interaction of these factors in developing potential strategies to prevent disease and achieve better nutritional health.

NTR 421. Nutrition Assessment and the Nutrition Care Process. 3 Hours.
Introduction to the Nutrition Care Process (NCP), a systematic approach to providing high-quality nutrition care. The NCP provides a framework for critical thinking and decision making. Gain factual knowledge, learn to apply course material through case study application, and explore fundamental principles in medical nutrition related content areas.
Prerequisites: NTR 222 [Min Grade: D]

NUR-Nursing Courses

Courses

NUR 100. Student Success in Nursing. 2 Hours.
This course will provide instruction regarding the competencies developed by the university to assist pre-nursing freshman students in making the transition from high school to college. Within the competencies specified by the university, students will also be exposed to related topics in the School of Nursing (SON). Faculty expectations and student responsibilities will not only focus on the pre-nursing general studies but also will facilitate a platform for introducing expectations of faculty in the SON. Students will be prepped for the SON admission process, emphasizing the importance of good study habits, time management, and test taking skills. Students will visit the SON historical archive and the Lister Hill Library to view the Nightingale letters. CPR, basic skills, and a shadowing experience will give the students a sense of the holistic approach to the nursing model of care.

NUR 101. Survey of the Profession of Nursing. 2 Hours.
Will provide a greater knowledge of the nursing profession to assist pre-nursing freshmen students in making their final decision regarding their application to nursing school. Within the competencies specified by the university, students will also be exposed to related topics in the School of Nursing (SON). Faculty expectations and students responsibilities will not only focus on careers in nursing but also will facilitate a platform for introducing students to nursing regulation and career opportunities. The nursing curriculum will be presented and pedagogical links will be made between selected websites and the need for that knowledge for future registered nurses. Students will also be prepped for the licensure process, emphasizing the importance of high moral character. Guest speakers representing select Advanced Practice Nursing Roles will be available to answer questions and discuss their experiences as advanced practice nurses. Students will conclude the semester with an oral presentation on the topic of their choice.

NUR 305. Principles of Oncology Nursing. 3 Hours.
This course provides a theoretical base for students to diagnose and manage oncology health problems in adults. Emphasis is placed on integration of knowledge of pathophysiology, clinical assessment, and nursing and medical management.
Prerequisites: NUR 334 [Min Grade: C] or NUR 347 [Min Grade: C]

NUR 307. Interprofessional Global Health Service Learning I. 1 Hour.
This course provides students with an opportunity to apply principles of interprofessional collaboration, community partnerships, and global health in the development of a plan to address a global health problem in collaboration with a community partner. Students apply concepts and theories related to global health, interprofessional collaboration, team building, community partnerships, and the ecological framework developing a plan to address a specific global health problem with a community partner. The course focuses on planning a service learning project that will benefit a community partner. The project is planned and carried through by an interprofessional team. The course is primarily experiential, with students’ time spent on planning the project and learning leadership and project planning skills.
NUR 308. Interprofessional Collaboration (IPC) and Community Partnerships in Global Health. 1 Hour.
This course provides students with an understanding of principles of interprofessional collaboration and community partnerships that, together with key social and economic concepts of global health, enables them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. Working in interdisciplinary teams, students apply concepts and theories related to global health, interprofessional collaboration, team building, community partnerships, and the socioecological framework to develop a plan to address a specific global health problem with a community partner.

NUR 309L. Veterans Transition to Professional Nursing. 4 Hours.
The purpose of this course is to develop the skills necessary to complete a holistic assessment and to apply fundamental nursing concepts and processes in providing safe, quality family centered nursing care in a variety of settings, focusing on medically under-served populations. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the professional attributes of the nurse, legal and ethical implications for nursing practice and beginning care competencies.

NUR 310. Concepts of Professional Nursing. 3 Hours.
The purpose of this course is to introduce fundamental nursing concepts and processes of professional nursing that assist in providing safe, quality nursing care to clients and their families. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the professional attributes of the nurse, legal and ethical implications for nursing practice and beginning care competencies.

NUR 311L. Nursing Skills Development I. 2 Hours.
The purpose of this course is to introduce the fundamental nursing skills required to provide safe, quality care. The course focuses on the role of the nurse as caregiver. Emphasis is on basic psychomotor skills and beginning care competencies.

NUR 312L. Health Assessment Across the Lifespan. 2 Hours.
The purpose of this course is to develop the skills necessary to complete a holistic assessment including physiological, spiritual, cultural, psychological, and developmental components. The course focuses on the role of the nurse as caregiver and educator. Emphasis is placed on the skills and clinical reasoning necessary to assess clients/patients across the lifespan.

NUR 313L. Concepts of Professional Nursing Practicum I. 2 Hours.
The purpose of this course is to apply fundamental nursing concepts and processes in providing safe, quality family centered nursing care in a variety of settings. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the professional attributes of the nurse, legal and ethical implications for nursing practice and beginning care competencies.

The purpose of this course is to introduce foundational pathophysiological and pharmacokinetic concepts and processes. Emphasis is on cellular injury, immunity, fluid/electrolytes, genetics, pharmacokinetics, and medication calculation.

NUR 315. Population Focused Health Care. 2 Hours.
The purpose of this course is to introduce health care delivery systems, behaviors and practices that affect the health status and well-being of populations (or the "overall health of populations"). The focus is on the role of the nurse as caregiver, advocate, and collaborator. Emphasis is on strategies related to health promotion, illness and injury prevention, health literacy and cultural competency to improve the care of individuals, families, groups, communities and populations.

NUR 318. Pathophysiologic Concepts. 3 Hours.
The purpose of this survey course is to introduce the student to the foundation pathophysiologic processes associated with disease. The course focuses on understanding the pathophysiologic changes that occur in select common diseases of the neurological, cardiovascular, pulmonary, gastrointestinal, renal, and endocrine systems with an emphasis on the role of cellular injury, immunity, inflammation, fluid and electrolytes, and genetics.

NUR 320. Social Responsibility in Global Health. 1 Hour.
This course provides students with an understanding of key social and economic concepts of global health that, together with an understanding of interprofessional collaboration and community partnerships, will enable them to participate in developing and implementing sustainable global health projects in collaboration with local and international community partners. The course is open to undergraduate and graduate students who are enrolled in two co-requisite courses that are requirements for students participating in the interprofessional global health service learning program at the University of Alabama at Birmingham. Working in interdisciplinary teams, students apply concepts and theories related to global health, interprofessional collaboration, team building, community partnerships, and the socioecological framework to develop a plan to address a specific global health problem with a community partner.

NUR 321L. Nursing Skills Development II. 1 Hour.
The purpose of this course is to build on nursing skills attained in Nursing Skills Development I to provide safe, quality nursing care. The course focuses on the role of the nurse as caregiver and collaborator. Emphasis is on clinical reasoning and intermediate psychomotor skills and care competencies.

Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 315 [Min Grade: C]

NUR 322. Concepts of Behavioral Health Nursing. 3 Hours.
The purpose of this course is to introduce concepts of mental health and mental illness throughout the lifespan with consideration given to therapeutic communication and the implementation of safe, quality nursing care to clients and their families. Focus is on the roles of the nurse as caregiver, educator, counselor, advocate, and care manager. Emphasis is on the professional attributes of the nurse concerning legal, ethical, and cultural implications for nursing practice across the mental health-illness continuum.

Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 315 [Min Grade: C]

NUR 323L. Concepts of Behavioral Health Nursing Practicum. 2 Hours.
The purpose of this course is to implement therapeutic communication and safe, quality, family-centered nursing care to clients in mental health settings. Focus is on the roles of the nurse as caregiver, educator, counselor, advocate, and care manager. Emphasis is on the professional attributes of the nurse concerning legal, ethical, and cultural implications for nursing practice across the mental health-illness continuum.

Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 315 [Min Grade: C]
NUR 324. Pharmacotherapy & Disease Process II. 3 Hours.
The purpose of this course is to build on the knowledge gained in NUR 314 and emphasizes the application of principles of pathophysiology and pharmacotherapies to body systems. Content will align with concepts taught in Concepts of Behavioral Health and Concepts of Adult Health Nursing I.
Prerequisites: NUR 314 [Min Grade: C]

NUR 326. Concepts in Adult Health Nursing I. 3 Hours.
The purpose of this course is to introduce the student to alterations in regulation and homeostasis, protection and movement, oxygenation and coping and stress tolerance. The course focuses on the role of the nurse as caregiver and educator. Emphasis is on the nursing care and management of young, middle-age, and older adults.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 315 [Min Grade: C]

NUR 327L. Concepts of Adult Health Nursing I Practicum. 2 Hours.
The purpose of this course is to apply knowledge related to alterations in regulation and homeostasis, oxygenation, and protection and movement to the care of young, middle age, and older adults. The course focuses on the role of the nurse as caregiver, educator, and advocate. Emphasis is on the nursing care and management of young, middle-age, and older adults.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: P] and NUR 315 [Min Grade: C]

NUR 328. Pharmacotherapy I. 2 Hours.
The purpose of this survey course is to introduce students to concepts of pharmacotherapy. The focus of the course is the application of principles of pharmacotherapies to select physiologic mechanisms and body systems. Course content emphasizes nursing implications related to pharmacotherapies.
Prerequisites: NUR 318 [Min Grade: C]

NUR 333. Growth and Development. 3 Hours.
The content of this course is centered around major theories of development; including physiological, psychoanalytic, social, stimulus-response, cognitive and moral. Current areas and findings of research are investigated and research designs and methods are critiqued. Self-selected in depth studies are made and shared. Contributions of the study of development functional practice of nursing are demonstrated. Admission to the School of Nursing is required.

NUR 334. Pharmacotherapy Disease Process III. 2 Hours.
This course is a continuation of Pharmacotherapy & Disease Process II. Emphasis is on the application of principles of pathophysiology and pharmacotherapies to body systems. Content will align with concepts taught in Concepts of Adult Health Nursing II and Concepts of Maternal Child Health Nursing.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: C] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C] and NUR 324 [Min Grade: C]

NUR 335. Issues in Women's Health. 3 Hours.
This course will identify a broad range of health issues that are either unique to women or of special importance to women and will also examine the roles that women play as both providers and consumers of health care in the United States. The student will also provide with the opportunity to explore health care issues of women from adolescence through old age. The interface of gender, socio-economic disadvantages and minority status will be discussed. Feminist theory will provide the framework for exploring these issues. A primary object of this course is enabled the student to become an informed consumer of health care services.

NUR 336. Leadership. 2 Hours.
The purpose of this course is to introduce concepts of leadership development. The focus is on the roles of leader, advocate and collaborator. Emphasis is on the development of individual leadership knowledge and skills.

NUR 338. Pharmacotherapy II. 2 Hours.
This course is a continuation of NUR 328, Pharmacotherapy I. The purpose of this course is to increase student knowledge of concepts of pharmacotherapy and disease process. The focus of the course is the application of principles of pharmacotherapies to select physiologic mechanisms and body systems. Course content emphasizes nursing implications related to pharmacotherapies.
Prerequisites: NUR 328 [Min Grade: C]

NUR 345L. Basic Nursing and Health Assessment Skills. 4 Hours.
NUR 345L provides basic nursing and health assessment skills that will form the foundation for more complex knowledge and skills in subsequent nursing courses. Legal and ethical (e.g., confidentiality, documentation), communication, and health concepts are reinforced throughout the course. The role of caregiver is presented as an integral part of the health care team. Learning experiences occur in the nursing skills laboratory and are essential to the course. Although knowledge and skills in this course are focused on adults, many of the concepts are adaptable to care of patients of all ages and target populations. Admission to the School of Nursing is required.

NUR 346. Pathophysiology for Professional Nursing. 3 Hours.
This course builds on the knowledge of basic anatomy and physiology to provide the adult learner with an opportunity to apply previously learned principles in explaining physiologic adaptations to pathogenic changes for the purpose of enhancing nursing care of patients. The first part of the course emphasizes the basic concepts of pathophysiology including cellular level of response, genetic alterations, fluid and electrolytes, acid-base balance, and immune response. The second part of the course focuses on the application of the basic concepts to body systems and disease processes. The relationship between pathophysiologic concepts and nursing care of clients will be emphasized throughout the course. Admission to the School of Nursing is required.

NUR 347. Pathophysiology for Professional Nursing Practice for RNs. 3 Hours.
This course builds on basic anatomy and physiology to provide the adult learner with an opportunity to apply previously learned principles in explaining physiologic adaptations to pathogenic changes for the purpose of enhancing nursing care of patients. The first part of the course emphasizes the basic concepts of pathophysiology: cellular level of response, genetic alterations, fluid and electrolytes, acid-base balance, and immune response. The second part of the course focuses on the application of the basic concepts to body systems and disease processes. The relationship between pathophysiologic concepts and nursing care of clients will be emphasized throughout the course. Admission to the RN Mobility Program required.
NUR 355. Foundations of Professional Nursing. 4 Hours.
NUR 355 focuses on the practice of professional nursing as an evidence-based, goal-directed activity for assisting patients to achieve optimal health by meeting basic human needs, providing holistic care, and engaging in health promotion. Concepts of communication, interpersonal relationships, and nursing process as a clinical decision-making strategy are introduced. Chronic and long-term internal and external environmental variables that affect the health of adults are explored. The professional role of the caregiver is developed in diverse learning experiences. Admission to the School of Nursing is required.

NUR 356L. Foundations of Professional Nursing Practicum. 3 Hours.
In this practicum component of Foundations of Professional Nursing, students are guided in the application of content studied in the theoretical portion of the course. Competencies needed by the nurse generalist in the care of adult patients are introduced and practiced. Critical thinking and clinical decision-making skills utilized by the nurse caregiver are emphasized in diverse health care settings. Admission to the School of Nursing is required.

NUR 365. Maternal-Newborn and Women’s Health Nursing. 3 Hours.
The purpose of this course is to provide content necessary to promote the care of women, newborns, and the childbearing family. Focus is on knowledge that will be necessary for students to be able to promote, maintain, and restore the adaptation of culturally diverse well and high-risk clients related to, but not limited to, the childbearing experience. Content includes internal and external variables affecting the health of the family during the antepartal, intrapartal and postpartal phases of childbearing and the neonatal period. Content builds upon past knowledge from the scientific and humanistic disciplines, increases the student’s understanding of ethical reasoning and decision-making as applicable to this client population and contributes to the body of knowledge necessary for future nursing courses. Ethics and Civic Responsibility are significant components of this course.

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C] (Can be taken Concurrently)

NUR 366L. Maternal-Newborn and Women’s Health Nursing Practicum. 2 Hours.
The purpose of this course is to provide opportunities to utilize the nursing process and critical thinking skills in caring for women, the childbearing family, and newborns. Focus is on nursing interventions in women’s health and with the childbearing family that promote, maintain, and restore health. Clinical experiences are in primary and secondary settings.

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C] (Can be taken Concurrently)

NUR 370. Clinical Pharmacology. 3 Hours.
This course focuses on the analysis and utilization of principles of pharmacology and pharmacokinetics for the purpose of planning, implementing, and evaluating therapeutic pharmacological interventions as they relate to nursing practice. The unique characteristics of special populations related to therapeutic needs, as well as drug absorption, metabolism, and excretion are defined. Admission to the School of Nursing is required.

NUR 374. Informatics and Research for Nursing Practice. 4 Hours.
This course is designed to prepare students with the knowledge and skills to: (1) locate and evaluate research relevant to nursing practice; (2) use a problem solving approach to examine questions identified in nursing practice, and; (3) identify technological solutions to enhance patient safety and outcomes. Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.

NUR 376. Nursing of the Older Adult. 3 Hours.
NUR 376 focuses on the unique needs of older adult patients who require nursing care in a variety of health care settings. The older adult as a heterogeneous, holistic person is emphasized in light of current and future health care needs. Concepts of healthy aging, and care in the preventive, restorative, acute and chronic domains will be explored. The professional role of the nurse as advocate is developed in diverse learning activities.

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C])

NUR 378. Nursing of the Older Adult for RNs. 3 Hours.
NUR 378 focuses on the unique needs of older adult patients who require nursing care in a variety of health care settings. The older adult as a heterogeneous, holistic person is emphasized in light of current and future health care needs. Concepts of healthy aging, and care in the preventive, restorative, acute and chronic domains will be explored. The professional role of the nurse as advocate is developed in diverse learning activities. Admission to the RN Mobility Program required.

NUR 380. Spanish for Health Professionals. 3 Hours.
Intensive conversation to acquaint health professionals with intermediate structure of Spanish. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients.

NUR 381. Informatics and Research for Nursing Practice for RNs. 4 Hours.
This course is designed to prepare students with the knowledge and skills to: (1) locate and evaluate research relevant to nursing practice; (2) use a problem solving approach to examine questions identified in nursing practice, and; (3) identify technological solutions to enhance patient safety and outcomes. Quantitative Literacy is a significant component of this course.

NUR 383. Health Literacy Identifying Risk Populations. 3 Hours.
NUR 383 is designed to provide students with a greater understanding and an improved knowledge level regarding the importance of health literacy and the challenges presented by low health literacy. Interventions and planned programs that are effective in the identification of low health literacy in America will be introduced to the student. The course will provide insight to the multidimensional nature of low health literacy and provide examples of multidisciplinary research in health literacy.
NUR 385. Nursing of the Psychiatric Mental Health Client. 3 Hours. Content in NUR 385 will emphasize communication and therapeutic nursing interventions for clients adapting to internal and external environmental variables affecting mental health and psychopathology. The course focuses on the use of critical thinking and clinical decision-making skills in the promotion, maintenance and restoration of optimum mental health of individuals and families. Emphasis is placed on the independent and collaborative roles of nursing in identifying risk factors for mental disorders, assessing mental health status, and designing and implementing psychobiological and psychosocial interventions associated with expected therapeutic outcomes. 

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: P] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C] (Can be taken Concurrently)

NUR 386L. Nursing of the Psychiatric Mental Health Client Practicum. 2 Hours. This clinical course is focused on promotion, maintenance and restoration of mental health of individuals and families. Clinical experiences provide students with opportunities to utilize skills in the therapeutic use of self, critical thinking, and nursing process with clients in psychiatric mental health clinical settings. 

Prerequisites: NUR 355 [Min Grade: C] and NUR 356L [Min Grade: C] and NUR 345L [Min Grade: C] and (NUR 346 [Min Grade: C] or BY 346 [Min Grade: C] or BY 216 [Min Grade: C]) and NUR 370 [Min Grade: C] (Can be taken Concurrently)

NUR 387. Supplemental Academic Course for Support (SACS). 1-3 Hour. The purpose of this distance-accessible course is to introduce a structured format for students to review nursing concepts and processes related to a specific patient population. The course focuses on the role of the nurse as caregiver. Emphasis is on test-taking strategies and the review of didactic content to strengthen the student’s knowledge base.

NUR 388. Concepts of Adult Health Nursing II. 3 Hours. The purpose of this course is to augment previous knowledge gained in Concepts of Adult Health Nursing I related to regulation and homeostasis, protection and movement, coping and stress tolerance and oxygenation. The course focuses on the role of the nurse as caregiver, manager, collaborator, and educator. Emphasis is on the nursing care and management of young, middle-age, and older adults. 

Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: C] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 327L [Min Grade: C] and NUR 336 [Min Grade: C]

NUR 389L. Concepts of Adult Health Nursing II Practicum. 2 Hours. The purpose of this course is to apply the expand role of the nurse in providing care for patients with alterations in regulation and homeostasis, oxygenation, and protection, and movement. The course focuses on the role of the nurse as caregiver, manager, collaborator, advocate, and educator. Emphasis is on the nursing care and management of young, middle-age, and older adults. 

Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: C] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 327L [Min Grade: C] and NUR 336 [Min Grade: C]

NUR 390. Independent Study in Nursing. 1-6 Hour. Individually designed clinical learning experiences. Must be a junior year nursing student and have a written Independent Study contract signed by the faculty and the Associate Dean.

NUR 391. Independent Study in Nursing. 1-6 Hour. Individually designed clinical learning experiences. Must be a junior year nursing student and have a written Independent Study contract signed by the faculty and the Associate Dean.

NUR 392. Concepts of Maternal Child Health Nursing. 4 Hours. The purpose of this course is to build upon knowledge gained in previous nursing and pre-nursing courses in the care of childbearing and childrearing families. This course focuses on the role of the nurse as educator, caregiver, collaborator, and advocate. The course emphasizes the application of theoretical and empirical knowledge to the nursing care of neonates, infants, children, adolescents, and adult women in diverse care settings. 

Prerequisites: NUR 388 [Min Grade: C] and NUR 389L [Min Grade: C] and NUR 409 [Min Grade: C] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P]

NUR 393L. Concepts of Maternal Child Health Nursing Practicum. 3 Hours. The purpose of this course is to provide nursing practice opportunities to build upon knowledge and skills gained in previous nursing, pre-nursing and Concepts of Maternal Child Health Nursing. This course focuses on implementing the roles of the nurse as educator, caregiver, collaborator, and advocate. The course emphasizes the application of theoretical and empirical knowledge to the nursing care of neonates, infants, children, adolescents and adult women in diverse care settings. 

Prerequisites: NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P] and NUR 409 [Min Grade: C] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P]

NUR 395. Community and Public Health Nursing. 3 Hours. In this theory course, students will analyze theories, processes, issues, demographic data and epidemiological trends that affect population aggregates within diverse communities. Emphasis is on professional role development to promote nursing care focused on illness and injury prevention, health promotion, health maintenance, health education, and coordination of care for diverse aggregate groups in various community settings. Ethics and Civic Responsibility are significant components of this course. 

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 370 [Min Grade: C] and NUR 385 [Min Grade: C] and (Can be taken Concurrently) and NUR 386L [Min Grade: C] (Can be taken Concurrently) and NUR 376 [Min Grade: C] (Can be taken Concurrently)

NUR 396L. Community and Public Health Nursing Practicum. 2 Hours. In this practicum course, nursing students complete a portion of their clinical hours to advance the mission of social justice in health care through community engagement and service learning. Students apply community and public health concepts through engagement within communities as they implement the nursing process with diverse populations at various community sites; in simulated clinical activities; and at assigned community-based clinical facilities. Emphasis is on professional nurse role development focused on illness and injury prevention, health promotion, health maintenance, health education, and coordination of care for aggregate groups across the life span. 

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 370 [Min Grade: C] and NUR 385 [Min Grade: C] and (Can be taken Concurrently) and NUR 386L [Min Grade: C] (Can be taken Concurrently) and NUR 376 [Min Grade: C] (Can be taken Concurrently)
NUR 397. Community and Public Health Nursing for RNs. 4 Hours.
In this theory course, students will analyze theories, processes, issues, demographic data and epidemiological trends that affect the population aggregates within communities. Emphasis is on professional role development to promote nursing care focused on illness and injury prevention, health promotion, health maintenance, health education, and coordination of care for diverse aggregate groups in various community settings. Ethics and Civic Responsibility are significant components of this course.

NUR 401. Caring For America’s Heroes: An Introduction to the Veteran’s Healthcare Administration System. 3 Hours.
This course is designed to increase the student’s understanding of long term and high acuity internal and external environmental variables which affect the health of the unique population of adult patients, veterans, within the Veterans Healthcare Administration (VHA). Knowledge gained in this elective course can be applied to the care of VHA patients in this and subsequent didactic and practicum nursing courses.

This course content and experiences are designed to foster improvement in interpersonal communication, with an emphasis on refining interviewer skills (IPC:1-5). Course objectives will be achieved via didactic lessons in interpersonal communication concepts, evidence, and theory, as well as through complementary self-assessment, structured reflection, evaluation, discussion, and skills-building within and outside of scheduled class sessions.

NUR 403. Primary Health Care in Low Resource Countries. 3 Hours.
This course is designed for the Advanced Health Care Provider who plans to deliver primary health care in countries considered to be low resource areas as designated by the World Health Organization. These students will study the epidemiology, pathophysiology, diagnosis, and management of infectious and parasitic diseases throughout the global community. In addition, nutritional deficiencies and obstetric problems will be reviewed. Emphasis will be placed on those health problems which are not common in high resource countries. Implementation of the World Health Organization’s Integrated Management standards will be included in the study of each disease as they apply to adults, adolescents, and children. Potential personal safety issues for world travelers, and information designed to alleviate these issues will be studied. Each student will focus on a specific country or global area for a more in-depth learning experience. Restrictions: Only.

NUR 409. Healthcare and Information Technology. 2 Hours.
The purpose of this course is to integrate concepts of nursing informatics introduced in previous nursing coursework to enhance patient safety and quality outcomes. The focus is on the role of the nurse as caregiver, educator, collaborator, advocate, and consumer of research. The course emphasizes healthcare and information technologies.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: C] and NUR 314 [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 410. Evidence-Based Practice in Nursing. 2 Hours.
The purpose of this course is to provide the student with skills to apply evidence to practice. The course focuses on the role of the nurse as consumer of research. The emphasis of the course is on providing the foundation for identifying potential clinical problems, searching the literature for potential evidence-based solutions, and evaluating the quality of the research literature.
Prerequisites: NUR 310 [Min Grade: C] and NUR 311L [Min Grade: C] and NUR 312L [Min Grade: C] and NUR 313L [Min Grade: C] and NUR 315 [Min Grade: C]

NUR 419. Health Issues in Culturally Diverse Populations in the United States. 3 Hours.
This course provides students with an overview of health issues and health disparities confronting culturally diverse populations in the United States. The course also addresses genetic, cultural, historical and demographic factors that influence these health issues and disparities, implications for culturally effective health care, and for development of health policy.

NUR 426. Concepts of Complex Nursing. 2 Hours.
The purpose of this course is to integrate and apply knowledge from previous courses to the care of patients and their families experiencing complex health conditions. The course focuses on the role of the nurse as caregiver, manager, collaborator, advocate, leader, and educator. Emphasis is on the nursing care and management of diverse patients and families with complex health conditions.
Prerequisites: NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P]

NUR 427L. Concepts of Complex Nursing Practicum. 2 Hours.
The purpose of this course is to apply the expanded role of the nurse in providing family centered nursing care for clients and their families experiencing complex health conditions. The course focuses on the role of the nurse as caregiver, manager, collaborator, advocate, leader, and educator. Emphasis is on the nursing care and management of complex health issues for patients across the life-span in a variety of settings.
Prerequisites: NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P]

NUR 428. Concepts of Community and Public Health Nursing. 2 Hours.
The purpose of this course is to provide a foundation for culturally competent care to populations in a community. The focus is on the roles of educator, caregiver, advocate, coach, collaborator, and consumer of research. Emphasis is on protecting and enhancing the health of local, state, national, and global populations.
Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: P] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 336 [Min Grade: C] and NUR 327L [Min Grade: P]

NUR 429L. Concepts of Community and Public Health Nursing Practicum. 2 Hours.
The purpose of this course is to apply content from previous courses to advance the mission on social justice in health care through community engagement with vulnerable, at-risk individuals and populations. The focus is on the professional roles of caregiver, educator, advocate, health coach, counselor, leader, collaborator, and interprofessional team member. Emphasis is on injury and illness prevention, health promotion, health maintenance, health literacy, and disaster preparedness for population aggregates in local, national, and global communities.
Prerequisites: NUR 321L [Min Grade: C] and NUR 322 [Min Grade: C] and NUR 323L [Min Grade: P] and NUR 324 [Min Grade: C] and NUR 326 [Min Grade: C] and NUR 336 [Min Grade: C] and NUR 327L [Min Grade: P]

NUR 431L. Nursing Skills Development III. 1 Hour.
The purpose of this course is to build on nursing skills attained in NUR 321L to provide safe, quality care. The course focuses on the role of the nurse as caregiver and collaborator. Emphasis is on critical inquiry, clinical reasoning, problem solving and advanced psychomotor and care competencies.
Prerequisites: NUR 388 [Min Grade: C] and NUR 389L [Min Grade: P]
NUR 434. Perspectives in Global Health Leadership. 3 Hours.
This course is designed to provide students with an understanding of global aspects of health care leadership. The course will focus on identification of characteristics of global health care leaders, leadership theories, and strategies to develop one's own personal leadership abilities. The course will provide students with a unique opportunity to interact with health care leaders from countries around the world, and develop projects related to an aspect of global health care leadership of interest to each student.

NUR 435. Nursing of the Adult. 4 Hours.
NUR 435 focuses on patients across the adult lifespan who require nursing care in high acuity health care settings. Internal and external environmental variables that have implications for long-term and episodic care are studied in this course. Emphasis is placed on the use of the problem-solving process in health promotion, meeting physiological needs, and providing holistic care during illness and at the end of life. The professional role of the caregiver is further developed in increasingly complex learning experiences.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 436L. Nursing of the Adult Practicum. 3 Hours.
In the practicum component of Nursing of the Adult, students apply content learned in the companion theory course. Competencies needed by the nurse generalist in the care of adult patients are developed in increasingly complex learning experiences. Critical thinking and clinical decision-making skills utilized by the nurse caregiver in a variety of health care settings are emphasized. All Level 1 and Level 2 courses. Co- requisite: NUR 435.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 437. Principles of Genetics. 3 Hours.
This elective course provides the foundation to examination, integration, and evaluation of genetic principles to future advances in genetic health and counseling. Opportunity is given to apply ethical principles in decision making related to nursing care of families with genetic health patterns or problems. Must be enrolled in the School of Nursing.

NUR 439. Complementary Therapies and Integrative Health Care. 3 Hours.
The focus of this elective course is on holistic nursing utilizing complementary and alternative therapies and integrative health care as an emerging paradigm in the health care arena. This course will examine both the concepts of integrative health care and major complementary therapies, including theoretical basis and research support, actions, uses, contraindications, and side effects. The socio-cultural, economic, legal and ethical issues associated with complementary therapies will be included as well as standards for practice and available resources. Students will be encouraged to explore ways in which they can counsel patients regarding complementary therapies as well as potential inclusion of the therapies in their own practice.

NUR 442. Health, Education, and Social Welfare in a Global Community. 3 Hours.
The purpose of this course is to provide students with a cross-cultural experience in which they will spend time in a selected global community while learning about health, educational and social welfare issues. Students will participate in pre-trip seminar in Birmingham or on-line prior to travel. The seminar(s) will focus on an overview of the course, a model of assessing culture and an overview of selected global community's culture. Students will also participate in seminars on a variety of health, education and social welfare topics provided by the course instructor and by resource persons from the selected global community.

NUR 444. Principles of Developmental Care Newborn Infants. 3 Hours.
Provides students with an overview of principles of individualized care for newborns and infants. The course also addresses principles of family-centered care as a key component of developmental care. Students review concepts and theories related to molecular biology, fetal, infant and family development, psychology, and sociology in assessing and planning care to promote optimal development of high risk infants and families. Students explore roles of nurses and other interdisciplinary team members in developmental care, are assessed, and develop plans to promote organizational change in order to incorporate developmental care principles in a clinical setting.

Prerequisites: NUR 392 [Min Grade: C] and NUR 393L [Min Grade: P]

NUR 445. Nursing of the Child and Adolescent. 3 Hours.
Course provides knowledge that is essential for the professional nursing care of children from infancy through adolescence within the context of the family. Students examine the physical, nutritional, developmental, psychological, cognitive, psychosocial, educational, and spiritual needs of children and adolescents adapting to common and complex environmental variables that affect health. Students explore the roles of the professional nurse as caregiver, educator, advocate, and collaborator in providing nursing care to children and adolescents in a variety of settings. Writing competency is an additional focus of this course. Writing is a significant component of this course.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])

NUR 446L. Nursing of the Child and Adolescent Practicum. 2 Hours.
NUR 446L provides clinical nursing practice opportunities with children/adolescents within the context of the family in selected hospital and community settings and the nursing simulations laboratory. Students apply knowledge of physical, nutritional, developmental, psychological, cognitive, psychosocial, educational, and spiritual needs of children adapting to common and complex environmental variables that affect health. Students implement the roles of the professional nurse as caregiver, educator, advocate, and collaborator in providing nursing care to children and adolescents in a variety of settings.

Prerequisites: NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C] and NUR 385 [Min Grade: C] and NUR 386L [Min Grade: C] and NUR 370 [Min Grade: C] and (NUR 374 [Min Grade: C] or NUR 484 [Min Grade: C])
NUR 447L. Synthesis and Assimilation Practicum. 4 Hours.
The purpose of this course is the synthesis and assimilation of skills and clinical reasoning drawn from all previous nursing courses and is intended to prepare students to function independently in the management and provision of nursing care to an assigned cohort of patients. The focus of the course is on the professional roles of caregiver, educator, consumer of research, advocate, counselor, leader, and inter- and intra-professional team member. The course emphasizes quality and safety in the provision of nursing care.
Prerequisites: NUR 409 [Min Grade: C] and NUR 410 [Min Grade: C] and NUR 426 [Min Grade: C] and NUR 427L [Min Grade: P] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P] and NUR 431L [Min Grade: C]

NUR 448. Transition to Professional Nursing Practice. 2 Hours.
The purpose of this course is to facilitate the transition of the student into the role of a professional nurse. The course focuses on all professional nursing roles. Emphasis is on leadership and management theories and models, resource allocation and management, delegation, legal implications of practice, continuous quality improvement, healthcare systems, and contemporary issues in healthcare.
Prerequisites: NUR 409 [Min Grade: C] and NUR 410 [Min Grade: C] and NUR 426 [Min Grade: C] and NUR 427L [Min Grade: P] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P] and NUR 431L [Min Grade: C]

NUR 449. Synthesis Review Course. 1 Hour.
The purpose of this course is to prepare the student to successfully complete the NCLEX® examination. The course focuses on all professional nursing roles. Emphasis is on the synthesis of knowledge from all nursing courses as well as the humanities, and the social, behavioral, and natural sciences.
Prerequisites: NUR 409 [Min Grade: C] and NUR 410 [Min Grade: C] and NUR 426 [Min Grade: C] and NUR 427L [Min Grade: P] and NUR 428 [Min Grade: C] and NUR 429L [Min Grade: P] and NUR 431L [Min Grade: C]

NUR 450. Honors Seminar I - Introduction to Nursing Research. 1 Hour.
The purpose of this course is to provide the student with introductory knowledge of nursing research. The course focuses on the role of the nurse researcher with emphasis on providing the foundation for understanding the role of nursing research in nursing practice and in healthcare, conducting ethical research, and searching the literature for an area of research interest.

NUR 451. Honors Seminar II - Exploring Nursing Research. 2 Hours.
This course is designed to prepare students with the knowledge and skills to: (1) locate and examine nursing research relevant to a specific nursing problem; (2) discuss the quality of qualitative and quantitative research evidence; and (3) discuss common nursing research designs and methodologies.
Prerequisites: NUR 450 [Min Grade: C]

NUR 452L. Honors Seminar III - Research Immersion. 3 Hours.
This course provides opportunities for participation in an ongoing research project. Course content includes information about the role of teams in research, the role of the nurse in leading research teams, and guidelines for preparation of manuscripts and presentations. Course activities include discussion research projects and exploration of the student's role as a team member. Professional expectations include dissemination of research experiences with peers and communities of interest.
Prerequisites: NUR 450 [Min Grade: C] and NUR 451 [Min Grade: C]

NUR 455. Leadership and Management in Professional Nursing. 3 Hours.
This course focuses on leadership and management theories and models, resource allocation and management, delegation, conflict resolution, legal implications of practice, managed care, evaluation of practice, continuous quality improvement, healthcare systems, and contemporary issues in the workplace. Emphasis is placed on the integration of all professional role behaviors, application of research, and leadership/management of care as the transition is made from the student role to that of practicing professional nurse.
Prerequisites: NUR 435 [Min Grade: C] and NUR 436L [Min Grade: P] and NUR 445 [Min Grade: C] and NUR 446L [Min Grade: P]

NUR 456L. Leadership and Management in Professional Nursing Practicum. 5 Hours.
NUR 456L - Leadership and Management in Professional Nursing Practicum - 5 Capstone course focuses on direct and indirect clinical performance in the areas of nursing process, leadership and management, evidence-based practice, and the demonstration of professional nursing role behavior as the transition is made from student role to practicing nurse professional. As a capstone course for the BSN program, experiences in this course will also provide the student with opportunities to demonstrate discipline-specific proficiency related to writing, quantitative literacy and ethics/civic responsibility. Prerequisites: All courses in the nursing program, except NUR 395 and NUR 396L which may be taken prior to or concurrently with NUR 456L. Co-requisite: NUR 455.

NUR 457. Leadership and Management in Professional Nursing for RNs. 3 Hours.
This course focuses on leadership and management theories and models, resource allocation and management, delegation, conflict resolution, legal implications of practice, managed care, evaluation of practice, continuous quality improvement, healthcare systems, and contemporary issues in the workplace. Emphasis is placed on the integration of all professional role behaviors, application of research, and leadership/management skills.

NUR 458L. Leadership Development Practicum for RNs. 2 Hours.
This practicum is designed to enable RN students to build on their existing clinical expertise, broaden their exposure to different specialty areas, and apply theory learned throughout the BSN curriculum to meet the needs of individual clients, client groups, other health care providers, and the public at large. As a capstone course for the RN Mobility Program, specific experiences will provide the student with opportunities to develop leadership/management skills while working with aggregate groups within the community and to demonstrate discipline-specific proficiency related to writing, quantitative literacy, and ethic/civic responsibility.
Prerequisites: NUR 457 [Min Grade: C](Can be taken Concurrently)
NUR 459L. Enhanced Clinical Nursing for the RN. 1-3 Hour.
This practicum course permits the practicing RN to augment previous nursing knowledge and expand their current role as a professional nurse. The course focuses on the role of the bachelor's prepared nurse as caregiver, manager, collaborator, advocate, and educator.

NUR 462. Neonatal Behavior Assessment in Clinical Nursing Practice. 2 Hours.
This elective course provides students with the knowledge and skills of neonatal behavioral assessment. Focus is placed upon concepts underlying the Brazelton Neonatal Behavioral Assessment Scale, behavioral characteristics of newborns, and cultural differences and assessment of low and high risk neonates.
NUR 465. Concepts of Management of the High Risk Neonate. 3 Hours.
This course provides theoretical concepts essential to the nursing management of high-risk neonates and families. Students examine the impact of environmental variables on the biophysical, psychological, socio-cultural, spiritual, development, and educational needs of the neonate. The focus of the course is on the concepts of health promotion, maintenance, and restoration of the high-risk neonate and family as they adapt to environmental variables. Students examine legal, historical, political, socio-cultural, ethical, technological, and economic issues related to the care of high-risk neonates and their families. In addition, students analyze current research and the role of the professional nurse in providing care to high risk neonates and families.
Prerequisites: (NUR 365 [Min Grade: C] and NUR 366L [Min Grade: C])

NUR 474. Transition to Professional Nursing Practice. 4 Hours.
Using an online format, this course is designed to enhance the registered nurse's knowledge of the role of the professional nurse in meeting the health needs of society. Historical, legal, political, and ethical issues affecting the profession will be examined. The relationship between selected issues, trends, and theories and professional nursing practice will be analyzed. Students will examine behaviors related to various roles of the professional nurse, including caregiver, teacher, advocate, research consumer, and counselor. Additionally, this course addresses communication skills necessary to a professional nurse including writing and computer literacy. Writing and Ethics and Civic Responsibility are significant components of this course.

NUR 475. Health Assessment Across the Lifespan for RNs. 4 Hours.
The structure of the course allows the student opportunity for directed and self-directed learning experiences. In an online classroom, students are guided in a series of learning activities designed to increase the knowledge and skill of the professional nurse related to health assessment of individuals and family. In addition to physical assessment, students will review other components of a holistic assessment including spiritual, cultural, psychological, and developmental assessment. Admission to the RN Mobility Program is required.

NUR 475L. Health Assessment Across the Lifespan for RNs. 4 Hours.
The structure of the course allows the student opportunity for directed and self-directed learning experiences. In an online classroom, students are guided in a series of learning activities designed to increase the knowledge and skill of the professional nurse related to health assessment of individuals and family. In addition to physical assessment, students will review other components of a holistic assessment including spiritual, cultural, psychological, and developmental assessment. Admission to the RN Mobility Program is required.

NUR 478. Sexuality Issues in Health and Illness: A Lifespan Approach. 3 Hours.
This elective course includes the ethical, social, biological and psychological concepts of human sexuality. Open to non-nursing majors with permission of instructor.

NUR 481. Advanced Spanish for Health Professionals. 3 Hours.
This advanced course emphasizes and expands intensive conversation, technical readings and vocabulary pertinent to the medical field. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients.
Prerequisites: NUR 380 [Min Grade: C]

NUR 490. Independent Study in Nursing. 1-6 Hour.
Independent Study in Nursing. Must be a senior year nursing student and have a written Independent Study contact signed by the Associate Dean.

NUR 491. Independent Study in Nursing. 1-6 Hour.
Independent Study in Nursing. Must be a senior year nursing student and have a written Independent Study contact signed by the Associate Dean.

NUR 499. Living with Loss. 3 Hours.
This elective course includes loss, grief, body-image changes, loss due to chronic conditions, and loss of life in childhood and adulthood, explored from the viewpoint of health-care professionals.

PH-Physics Courses

Courses
PH 100. Preparatory Physics. 3 Hours.
Designed primarily for students in need of preparation for PH 201 or PH 221. Vectors, kinematics, and dynamics, including conservation laws. Emphasis placed on methods of analyzing physics problems, setting up equations for physics problems, and interpreting information in physics problems.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

PH 110. Topics in Contemporary Physics. 1 Hour.
The objective of this course is to introduce incoming freshmen to the different areas of physics and to topics that physicists are working on today. Through lectures and seminars by members of the UAB physics faculty, students are introduced to the UAB Department of Physics community, their research activities, and career opportunities for graduates in the various tracks of the Physics Undergraduate Program. Course required for physics majors in the first fall semester of residency.
PH 191. Co-operative Work Program. 2-3 Hours.
Co-Op Work Program.

PH 201. College Physics I. 4 Hours.
First term of non-calculus based physics. Linear and planar motion, Newton’s laws, work and energy, gravitation, momentum, rigid body motion, elasticity, oscillations, waves, sound, fluids, ideal gases, heat and thermodynamics. Lecture and laboratory. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 125 [Min Grade: C] or PH 100 [Min Grade: C] or MA 225 [Min Grade: C]

PH 201L. College Physics Laboratory I. 0 Hours.
Laboratory for PH 201. Lecture, laboratory, and recitation must be taken concurrently.

PH 201R. College Physics I Recitation. 0 Hours.
First term of non-calculus based physics. Linear and planar motion, Newton’s Law, work and energy, gravitation, momentum, rigid body motion, statics, elasticity, oscillations, waves, sound, fluids, ideal gases, heat, and thermodynamics. Lecture, laboratory, and recitation must be taken concurrently.

PH 202. College Physics II. 4 Hours.
Second term of non-calculus based physics. Electricity and magnetism, optics, and modern physics. Lecture, laboratory, and recitation must be taken concurrently. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: PH 201 [Min Grade: C]

PH 202L. College Physics Laboratory II. 0 Hours.
Laboratory for PH 202. Lecture, laboratory, and recitation must be taken concurrently.
PH 202R. General Physics II - Recitation. 0 Hours.
Second term of non-calculus based physics sequence covering electricity and magnetism, optics, and modern physics. Lecture, laboratory, and recitation must be taken concurrently.

PH 211. College Physics I Laboratory. 0-1 Hours.
College Physics I Laboratory.

PH 212. College Physics II Lab. 1 Hour.

PH 221. General Physics I. 4 Hours.
First term of introductory, calculus-based general physics sequence covering classical mechanics: measurements, kinematics, vectors, translational and rotational dynamics, work, energy, momentum, statics, oscillatory motion, wave motion, and sound. Lecture and laboratory. Quantitative Literacy is a significant component of this course. PH 221 General Physics I – Honors: This section of PH 221 is designed for students with strong interests and preparation in science, mathematics, and/or engineering. Topics are covered with more mathematical rigor and in greater depth than in regular sections. Second term of non-calculus based physics. Electricity and magnetism, optics, and modern physics. Lecture, laboratory, and recitation must be taken concurrently. This course meets the Core Curriculum requirements for Area III: Natural Sciences.
Prerequisites: MA 125 [Min Grade: C] or MA 225 [Min Grade: C]

PH 221L. General Physics Laboratory I. 0 Hours.
Laboratory for PH 221. Lecture, laboratory, and recitation must be taken concurrently.

PH 221R. General Physics I Recitation. 0 Hours.
First term of introductory, calculus-based general physics sequence covering classical mechanics: measurements, kinematics, vectors, translational and rotational dynamics, work, energy, momentum, statics, oscillatory motion, wave motion, and sound. Lecture, laboratory, and recitation must be taken concurrently.

PH 222. General Physics II. 4 Hours.
Second term of introductory, calculus-based general physics sequence covering electricity and magnetism: Coulomb’s Law, electric fields, Gauss’ Law, potential, capacitors and dielectrics, Ohm’s Law, DC circuits, magnetic fields, Ampere’s Law, Biot-Savart Law, Faraday’s Law, inductance, AC circuits, geometrical and physical optics. Lecture, Laboratory, and Recitation must be taken concurrently.

PH 222L. General Physics Laboratory II. 0 Hours.
Laboratory for PH 222. Lecture, Laboratory, and Recitation must be taken concurrently.

PH 222R. General Physics II - Recitation. 0 Hours.
Second term of introductory, calculus-based general physics sequence covering electricity and magnetism, Coulomb’s Law, electric fields, Gauss’ Law, potential, capacitors, and dielectrics, Ohm’s Law, DC circuits, magnetic fields, Ampere’s Law, Biot-Savart Law, Faraday’s Law, inductance, AC circuits, geometrical and physical optics. Lecture, Laboratory, and Recitation must be taken concurrently.

PH 231. General Physics I Laboratory. 0-1 Hours.
General Physics I Laboratory.
PH 352. Modern Physics II. 4 Hours.
A continuation of PH351 with more focus on the theoretical basis of modern physics topics with applications in special relativity, quantum mechanics, atomic and nuclear structure, solid-state physics, semiconductors, lasers and nanotechnology. Application of the theory to experimental measurements associated with PH352L will be a major focus. Emphasis on the use of quantitative reasoning to solve modern physics problems. Writing and scientific ethics assignments based on laboratory experiences. Lecture and laboratory. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PH 351 [Min Grade: C]

PH 352L. Modern Physics II Laboratory. 0 Hours.
Laboratory for PH 352. Experimental work in the topics associated with PH 352 at a level of investigation to more strongly develop the connections between theory and experiment. Successful students will refine their data collection, analysis, and interpretation and scientific presentation skills. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.

PH 397. Directed Reading in Physics I. 2-3 Hours.
Tutorial studies in physics offered by special arrangement. Permission of instructor.

PH 398. Directed Reading in Physics II. 2-3 Hours.
Tutorial studies in physics offered by special arrangement. Permission of instructor.

PH 410. Physics of Fluids and Polymer Solutions. 3 Hours.
This course provides an introduction to fluid mechanics and polymer physics appropriate for physics, engineering, chemistry, and biology majors. Topics include the concept of a fluid, the fluid as a continuum, properties of the velocity field, thermodynamic properties of a fluid, viscosity, pressure distribution in a fluid, basic physical laws of fluid mechanics, the Reynolds transport theorem, differential relations for a fluid particle, viscous flow, polymer solutions and thermodynamics, Brownian motion, diffusion equation, Fick’s law, Stokes-Einstein equation and hydrodynamic radius of a polymer chain, and viscosity of polymer solutions.
Prerequisites: PH 221 [Min Grade: C] and MA 252 [Min Grade: C]

PH 420. Mathematical Methods of Physics I. 3 Hours.
Prerequisites: PH 222 [Min Grade: C] and MA 252 [Min Grade: C] or EGR 265 [Min Grade: C]

PH 421. Mathematical Methods of Physics II. 3 Hours.
Prerequisites: PH 420 [Min Grade: C]

PH 423. Computational Physics. 3 Hours.
Introduces symbolic and numerical computation through examples drawn from classical and modern physics, such as, classical mechanics, electromagnetism, and quantum mechanics. Emphasizes computer-based approaches to visualization, solution of ordinary differential equations, evaluation of integrals, and finding roots, eigenvalues, and eigenvectors.
Prerequisites: MA 252 [Min Grade: C] or EGR 265 [Min Grade: C] and PH 222 [Min Grade: C]

PH 424. Biomedical Optics. 3 Hours.
The objective in this class is to present an introduction to applied optics, with an emphasis on biomedical applications.
Prerequisites: PH 222 [Min Grade: C]

PH 425. Applications of Contemporary Optics I. 3 Hours.
Prerequisites: PH 222 [Min Grade: C]

PH 426. Applications of Contemporary Optics II. 3 Hours.
Prerequisites: PH 425 [Min Grade: C]

PH 427. Geometrical Optics. 4 Hours.
Prerequisites: PH 222 [Min Grade: C]

PH 427L. Geometrical Optics Laboratory. 0 Hours.
Laboratory for PH 427. Lecture and laboratory must be taken concurrently.

PH 428. Physical Optics. 4 Hours.
Prerequisites: PH 222 [Min Grade: C]

PH 428L. Physical Optics Laboratory. 0 Hours.
Laboratory for PH 428. Lecture and laboratory must be taken concurrently.

PH 429. Applications of Contemporary Optics III. 3 Hours.
Optical interactions with materials, including nonlinear optical effects, such as birefringence, electro-optics, photoelasticity, crystal optics, acousto-optics, and phase conjugation. Optical spectroscopies, such as spectroscopic instrumentation, lasers as spectroscopic light sources, fluorescence and Raman laser spectroscopy, and applications of laser spectroscopy in chemistry, environmental research, materials science, biology, and medicine.
Prerequisites: PH 425 [Min Grade: C] and PH 426 [Min Grade: C]

PH 432. Statistical Thermodynamics I. 3 Hours.
Statistical basis of laws of thermodynamics. Ensembles and partition functions. Quantum statistics of ideal gases, including photons and electrons. Applications to solids, real gases, liquids, and magnetic systems. Transport theory.
Prerequisites: PH 351 [Min Grade: C]

PH 433. Statistical Thermodynamics II. 3 Hours.
Statistical basis of laws of thermodynamics. Ensembles and partition functions. Quantum statistics of ideal gases, including photons and electrons. Applications to solids, real gases, liquids, and magnetic systems. Transport theory.
Prerequisites: PH 432 [Min Grade: C] and PH 450 [Min Grade: C]
PH 435. Physics of Biomedical Processes and Technologies. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to biomechanical systems, biophysical networks, and bioimaging technologies.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 436. Physics of Renewable Energy Systems. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to electrical power generation from renewable resources such as solar, wind, hydrot, and ocean energy.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 445. Electromagnetic Theory I. 3 Hours.
Electromagnetic theory approached from the standpoint of fields and using Maxwell's equations.
Prerequisites: PH 222 [Min Grade: C]

PH 446. Electromagnetic Theory II. 3 Hours.
Electromagnetic theory approached from the standpoint of fields and using Maxwell's equations.
Prerequisites: PH 445 [Min Grade: C]

PH 447. Directed Reading in Electromagnetic Theory. 2-3 Hours.
Tutorial studies in electromagnetic theory offered by special arrangement.

PH 450. Introductory Quantum Mechanics I. 3 Hours.
Principles of quantum mechanics and their application to particle waves, angular momentum, tunneling, radiation, and selection rules. Perturbation and variational methods. Successful completion of PH 352 is recommended prior to registering for this class.
Prerequisites: PH 352 [Min Grade: C] and PH 461 [Min Grade: C]

PH 451. Introductory Quantum Mechanics II. 3 Hours.
Principles of quantum mechanics and their application to particle waves, angular momentum, tunneling, radiation, and selection rules. Perturbation and variational methods. Successful completion of PH 352 is recommended prior to registering for this class.
Prerequisites: PH 450 [Min Grade: C]

PH 452. Directed Reading in Quantum Mechanics. 2-3 Hours.
Tutorial studies in quantum mechanics offered by special arrangement.

PH 453. Introductory Solid State Physics I. 3 Hours.
Properties of crystal lattices, lattice dynamics, lattice imperfections, and bonding energies. Electronic properties of dielectrics, semiconductors, and metals. Ferroelectric, magnetic, and optical properties of solids.
Prerequisites: PH 451 [Min Grade: C]

PH 454. Introductory Solid State Physics II. 3 Hours.
Properties of crystal lattices, lattice dynamics, lattice imperfections, and binding energies. Electronic properties of dielectrics, semiconductors, and metals.
Prerequisites: PH 453 [Min Grade: C] and PH 451 [Min Grade: C]

PH 455. Molecular Spectroscopy. 3 Hours.
Molecular Spectroscopy.

PH 461. Classical Mechanics I. 3 Hours.
Kinematics and dynamics, including central forces, rotating coordinate systems, and generalized coordinates. Lagrangian, Hamiltonian, and other equivalent formulations of mechanics.
Prerequisites: PH 222 [Min Grade: C] and (MA 252 [Min Grade: C] or EGR 265 [Min Grade: C])

PH 462. Classical Mechanics II. 3 Hours.
Kinematics and dynamics, including central forces, rotating coordinate systems, and generalized coordinates. Lagrangian, Hamiltonian, and other equivalent formulations of mechanics.
Prerequisites: PH 461 [Min Grade: C]

PH 463. Directed Reading in Classical Mechanics. 2-3 Hours.
Tutorial studies in classical mechanics offered by special arrangement.

PH 465. Applied Mechanics and Electromagnetism I. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to biomechanical systems, biophysical networks, and bioimaging technologies.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 466. Applied Mechanics and Electromagnetism II. 3 Hours.
Integrated study of the fundamentals and dynamical principles of mechanics, electromagnetism, and select quantum physics topics, with applications to electrical power generation from renewable resources such as solar, wind, hydrot, and ocean energy.
Prerequisites: PH 461 [Min Grade: C] and PH 445 [Min Grade: C]

PH 467. Special Relativity. 3 Hours.
Principles and foundations of special relativity with applications to mechanics and electrodynamics.
Prerequisites: PH 446 [Min Grade: C] and PH 462 [Min Grade: C]

PH 468. General Relativity. 3 Hours.
Gravitational phenomena associated with and resulting from linear field equations. Equivalence principle, its implications of non-linear field, and physical consequences.

PH 469. Directed Reading in Physics. 2-3 Hours.
Tutorial studies in physics offered by special arrangement.

PH 471. Fundamentals of Spectroscopy. 3 Hours.
Explanation of phenomena related to rotational vibration and electronic spectroscopy of atoms and molecules; operational principles of spectroscopic tools including diffraction grating, waveguides and interferometers, basic group theory concepts and notation.

PH 475. Introduction to Biophysics I. 3 Hours.
Physics of biological systems: proteins, lipids, nucleic acids, supramolecular structures, and molecular motors; structure, function, energetics, thermodynamics, and bio-nanotechnology. Emphasis on systems that are best understood in physical and molecular detail. Systems will direct study, with modern physical methods introduced as needed.
Prerequisites: PH 351 [Min Grade: C]

PH 476. Introduction to Biophysics II. 3 Hours.
Physics of biological systems: proteins, lipids, nucleic acids, supramolecular structures, and molecular motors; structure, function, energetics, thermodynamics, and bio-nanotechnology. Emphasis on systems that are best understood in physical and molecular detail. Systems will direct study, with modern physical methods introduced as needed.
Prerequisites: PH 475 [Min Grade: C]
PH 481. Laser Physics I. 3 Hours.
Physical principles of laser operation and design. Spontaneous and stimulated emission, population inversion, light amplification, laser resonators, Q-switching, mode-locking, pulse shortening techniques, spectral narrowing, and tunable lasers. Individual types of lasers such as gas, solid state, dye, color center, and semiconductor. Practical applications of lasers as well as modern techniques and instrumentation in laser spectroscopy.
Prerequisites: PH 481 [Min Grade: C]

PH 482. Laser Physics II. 3 Hours.
Physical principles of laser operation and design. Spontaneous and stimulated emission, population inversion, light amplification, laser resonators, Q-switching, mode-locking, pulse shortening techniques, spectral narrowing, and tunable lasers. Individual types of lasers such as gas, solid state, dye, color center, and semiconductor. Practical applications of lasers as well as modern techniques and instrumentation in laser spectroscopy.
Prerequisites: PH 482 [Min Grade: C]

PH 485. Laser Spectroscopy. 3 Hours.
Fundamental principles, experimental techniques, instrumentation, and practical applications of laser spectroscopy.

PH 486. Semiconductor Materials in Modern Technology. 3 Hours.
Brief review of electronic materials with emphasis on traditional and cutting edge silicon technology. Competing and complementary semiconductors covered in standard lecture and seminar style. Materials: compound and tertiary semiconductors, organic semiconductors, and wide bandgap semiconductors. Applications: optical and chemical sensors, microwave electronics, high power electronics, and lasers. Specific applications and materials determined by student interests.
Prerequisites: PH 352 [Min Grade: C] or EE 351 [Min Grade: C] or CH 326 [Min Grade: C]

PH 487. Nanoscale Science and Applications. 3 Hours.
Physics of electronic, mechanical, and biological properties of materials at the nanoscale level approaching one billionth of a meter. The applications of nanoscale materials in electronic, mechanical, and biomedical systems will be emphasized. Special tools in synthesis and characterization of nanomaterials will be discussed.
Prerequisites: PH 221 [Min Grade: C] and PH 222 [Min Grade: C] or (CH 115 [Min Grade: C] and CH 117 [Min Grade: C])

PH 490. Preparations for Teaching. 1-4 Hour.
This class prepares physics majors for successful teaching experiences. The course emphasizes a foundation of practical knowledge related to expectations and duties shared by teachers in physics education, as well as an opportunity to read, reflect, and discuss current research related to physics teaching and learning in secondary and higher education.
Prerequisites: PH 352 [Min Grade: C]

PH 491. Advanced Physics Laboratory I. 1-4 Hour.
This course provides physics majors with the opportunity to integrate the physics knowledge acquired in earlier courses in a research environment under the supervision of an approved UAB faculty mentor.
Prerequisites: PH 491 [Min Grade: C]

PH 492. Advanced Physics Laboratory II. 1-4 Hour.
This course provides physics majors with the opportunity to integrate the physics knowledge acquired in earlier courses in a research environment under the supervision of an approved UAB faculty mentor.
Prerequisites: PH 492 [Min Grade: C]

PH 493. Advanced Physics Laboratory III. 1-4 Hour.
This course provides physics majors with the opportunity to integrate the physics knowledge acquired in earlier courses in a research environment under the supervision of an approved UAB faculty mentor.
Prerequisites: PH 492 [Min Grade: C]

PH 494. Research Methods in Physics. 1-3 Hour.
This course is designed to provide future physics teachers with the tools that physicists use to solve scientific problems; to give them the opportunity to use these tools in a physics laboratory setting; to make them aware of how scientists communicate with each other through peer-reviewed scientific literature; and to enable them to understand how scientists in general and physicists in particular develop new knowledge and insights, the most important of which are eventually presented in textbooks and taught in conventional science classes.
Prerequisites: EHS 126 [Min Grade: C]

PH 495. Honors Research. 3 Hours.
Research in an area of active research, under the direction of a faculty sponsor and the Honors Committee. May be repeated.
Prerequisites: PH 352 [Min Grade: C]

PH 497. Special Topics in Physics. 1-6 Hour.
Topics of current interest, such as theoretical physics, computational physics, experimental techniques. May be repeated for credit.

PH 498. Directed Research. 1-6 Hour.
Directed Research.

PH 499. Physics Capstone. 3 Hours.
Instructional sessions, conclusion of research or teaching project and career planning activities aimed at the integration of physics knowledge and competencies in scientific writing, quantitative literacy, and ethics and civic responsibility.
Prerequisites: PH 490 [Min Grade: C] or PH 491 [Min Grade: C] or PH 495 [Min Grade: C]

**PHL-Philosophy Courses**

**Courses**

**PHL 100. Introduction to Philosophy. 3 Hours.**
Introductory survey of philosophy, its nature, methods and problems. Topics typically include, among others, existence of God, freedom, knowledge, right and wrong. Classical and/or contemporary readings. This course meets the Core Curriculum requirements for Area II: Humanities.

**PHL 115. Contemporary Moral Issues. 3 Hours.**
Survey of contemporary moral problems and dilemmas; introduction to methods and concepts of moral philosophy. Topics may include abortion, euthanasia, capital punishment, economic justice, homosexuality, animal rights, and respect for nature. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

**PHL 116. Bioethics. 3 Hours.**
Moral problems and dilemmas in medicine and health professions; elementary methods and concepts of moral philosophy. Problems typically include, among others, AIDS and human and animal experimentation. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area II: Humanities.
PHL 120. Practical Reasoning. 3 Hours.
Survey of skills in critical thinking and scientific reasoning, including the ability to identify different kinds of arguments, recognize common fallacies of reasoning, and evaluate analogical, causal, and statistical arguments. Quantitative Literacy is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 125. Introduction to Ethics. 3 Hours.
Elements of moral philosophy. Moral objectivity; connections among morality, rationality, and religion; nature and significance of moral value. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 133. The Rule of Law. 3 Hours.
Law and legal institutions and processes, with emphasis on civil law. Development of legal ideas in such areas as torts, contracts, and property law. Role and history of legal institutions within political framework. Covers many topics addressed in the first year of law school. Relations between courts and legislatures. Ethics and Civic Responsibility are significant components of this course.

PHL 203. Philosophy of Religion. 3 Hours.
Religion; its nature, justification, and significance. God, evil, religious experience, faith, and reason. This course meets the Core Curriculum requirements for Area II: Humanities.

PHL 204. Philosophy and Christianity. 3 Hours.
What Christians believe and why they believe it; foundations of Christian philosophical thought. Christian concepts of God, Christ, salvation, atonement, faith, and ethics.

PHL 205. Existentialism. 3 Hours.
What Existentialists believe and why they believe it; foundations of Existentialist philosophical thought. Existentialist concepts of freedom, commitment, anxiety, and authenticity.

PHL 215. History of Moral Philosophy. 3 Hours.
Socrates to present, focusing on historical development of moral tradition that has shaped Western society. Plato, Aristotle, Aquinas, Hobbes, Hume, Kant, Mill, Nietzsche, and others.

PHL 216. Intermediate Bioethics. 3 Hours.
An in-depth examination of selected issues in Bioethics. Usually 3-4 topics will be selected from the general areas of Death and Dying, Ethical Issues at the Beginning of Human Life, Research Ethics, Justice and Medical Finance, Genetics, and the Doctor-Patient Relationship.

PHL 220. Introduction to Symbolic Logic. 3 Hours.
Modern theory of deductive inference. Emphasis on recognizing valid forms of reasoning. Truth-function theory and some beginning concepts of quantification theory. Quantitative Literacy is a significant component of this course.

PHL 230. Social and Political Philosophy. 3 Hours.
Survey of contemporary debates concerning fundamental principles of political life. Topics typically include justification of political authority, the proper role of government in society, economic justice, freedom and rights, and the free enterprise system. Ethics and Civic Responsibility are significant components of this course.

PHL 232. Classical Political Thought. 3 Hours.
Development of western political thought from Plato to Augustine. Theories of major political thinkers.

PHL 233. Modern Political Theory. 3 Hours.
Development of Western political thought from the early modern era to contemporary debates in works of Machiavelli to Mill. Theories of major political thinkers.

PHL 239. Classical Thought of India China and the West. 3 Hours.
Conceptions of self, society, and natural world.

PHL 240. History of Philosophy: Socrates Plato and Aristotle. 3 Hours.
Origins and development of Western philosophic tradition, with emphasis on writings of Plato and Aristotle. Concepts of knowledge, reality, and the good life.

PHL 270. Science, Knowledge, and Reality. 3 Hours.
Science; its nature, scope, and significance. Scientific reasoning; science as social institution; ethical issues in science.

PHL 290. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 291. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 292. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 293. Topics in Philosophy. 3 Hours.
In-depth examination of one or more problems, authors, or ideas of historical or current interest.

PHL 309. Teaching Practicum. 3 Hours.
Teaching experience in philosophy courses, supervised by a faculty member. Student must have previously taken the course for which the student will work within. Permission of Director of Undergraduate Studies required. Pass/Fail.

PHL 311. Philosophy of Science. 3 Hours.
Philosophical issues concerning the nature of science. Topics may include philosophical debates about scientific evidence; scientific explanation; empiricism, instrumentalism, and realism; the problems of induction; the demarcation problem; theories and models; laws and mechanisms; reduction; causation and explanation; observables vs. unobservables; ethical issues in science; and the social structure and impact of science.

PHL 312. Philosophy of Biology. 3 Hours.
This course surveys issues in contemporary philosophy of biology and some closely related issues. Much of the focus may be on philosophical issues concerning evolutionary biology, but issues in developmental biology, molecular biology, and immunology may also be considered. No background in biology is required. Philosophical issues involving evolution and ethics, nature vs. nurture, evolution and psychology, biological mechanisms and models, species and human nature, evolution and intelligent design, and natural selection and chance will be discussed.

PHL 314. Philosophy and Feminism. 3 Hours.
Feminism; conceptual foundations, scope, and applications. Problems typically include, among others, feminist concepts of gender, reasoning, knowledge, and ethics. Prerequisite: One previous PHL course or permission of instructor.

PHL 315. Ethics: Theories of Good and Evil. 3 Hours.
Morality; its nature, principles, and scope. Normative and critical problems in moral philosophy; moral obligation. One previous PHL course or permission of instructor required.
PHL 335. Philosophy of Law. 3 Hours.
Theories of the nature of law (natural law, realism, positivism, critical legal theory); interpretation of precedents, statutes, and Constitution; Constitutional protections such as freedom of speech and religion and the right of privacy; selected issues in criminal and civil law. Ethics and Civic responsibility are significant components of this course.

PHL 341. History of Philosophy: Descartes to Hume. 3 Hours.
Philosophy in modern era, focusing on continental rationalism and British empiricism; emphasis on theories of knowledge and reality; science, religion, and modernism. One previous PHL course or permission of instructor required. Writing is a significant component of this course.

PHL 342. History of Philosophy: Kant and 19th Century. 3 Hours.
Western philosophic tradition from Kant through end of nineteenth century. Kant, Hegel, Marx, Kierkegaard, and Mill, among others. Prerequisites: PHL 100 [Min Grade: C] or PHL 115 [Min Grade: C] or PHL 116 [Min Grade: C] or PHL 215 [Min Grade: C]

PHL 343. History of Philosophy: Twentieth Century. 3 Hours.

PHL 348. American Philosophy. 3 Hours.
Major philosophers of classical American period; Pierce, James, and Dewey. Origins and nature of American pragmatism. One previous PHL course or permission of instructor required.

PHL 350. Philosophy of Language. 3 Hours.
Language; its nature, structure, and uses. Reference, meaning, communication, and interpretation; Russell, Wittgenstein, Chomsky, and Quine, among others. One previous PHL course or permission of instructor required.

PHL 372. Minds and Machines. 3 Hours.
Artificial intelligence; its philosophical foundations and implications. Topics may include mind-body problem, nature of intelligence, machine models of mind, computational processes, and mental representation. One previous PHL course or permission of instructor required.

PHL 375. Philosophy of Mind. 3 Hours.
Mind; its nature, forms, and functions. Topics may include: concepts of mind/body, consciousness, rationality, and personal identity; free will. One previous PHL course or permission of instructor required. Writing is a significant component of this course.

PHL 390. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 391. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. One previous PHL course or permission of instructor required.

PHL 392. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher. One previous PHL course or permission of instructor required.

PHL 393. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 394. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 395. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 396. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 397. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 398. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.

PHL 399. Topics in Philosophy. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be considered in any other course or which may be treated in another course but only at an introductory level. Topics may include: special topics in some area of philosophy, interdisciplinary issues, and important work or works by a great philosopher.
PHL 402. Neuroethics. 3 Hours.
Ethical issues related to neuroscience and other sciences of the mind. Topics typically include: privacy and side effects of brain technologies; neuroscientific threats to free will; moral responsibility and mental illness; emotion and reasoning in moral judgment; cognitive enhancement and personality change; ethically sound research practices. A previous course in Philosophy is recommended. Ethics and Civic Responsibility are significant components of this course.

PHL 405. Epistemology: Theories of Knowledge. 3 Hours.
Human knowledge; its nature, sources, and limits. Concepts of truth, objectivity, evidence, and belief. Two previous PHL courses or permission of instructor required. Writing is a significant component of this course.

PHL 408. Metaphysics. 3 Hours.
Reality; its basic elements, principles of existence and identity, and appearance and reality. Concepts of cause, matter, mind, realism, and anti-realism. Two previous PHL courses or permission of instructor required.

PHL 435. Philosophy of Law. 3 Hours.
Theories of the nature of law (natural law, realism, positivism, critical legal theory); interpretation of precedents, statutes, and Constitution; Constitutional protections such as freedom of speech and religion and the right of privacy; selected issues of criminal and civil law. Requires additional work not required in PHL 335. Ethics and Civic Responsibility are significant components of this course.

PHL 441. History of Philosophy: Descartes to Hume. 3 Hours.
Philosophy in modern era, focusing on continental rationalism and British empiricism; emphasis on theories of knowledge and reality; science, religion, and modernism. Writing is a significant component of this course.

PHL 442. Hist of PHL: Kant and 19th Cent. 3 Hours.
Western philosophic tradition from Kant through end of nineteenth century. Kant, Hegel, Marx, Kierkegaard, and Mill, among others. One previous PHL course or permission of instructor required.

Prerequisites: PHL 100 [Min Grade: D] or PHL 115 [Min Grade: D] or PHL 116 [Min Grade: D] or PHL 215 [Min Grade: D]

PHL 443. History of Philosophy: Twentieth Century. 3 Hours.
Major movements and problems of twentieth century philosophy. Moore, Russell, Wittgenstein, and Quine, among others. Two previous PHL courses or permission of instructor required.

PHL 470. Philosophical Problems in the Natural and Social Sciences. 3 Hours.
Nature and uses of science. Topics may include: concepts of explanation, confirmation, scientific law, and theory; special problems in sciences. Two previous PHL courses or permission of instructor required.

PHL 490. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey using previous course work in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution. Course fulfills capstone requirement for Seniors.

PHL 491. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey using previous course work in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution. This course fulfills the capstone requirement for Seniors.

PHL 492. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey using previous course work in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution. This course fulfills the capstone requirement for seniors.

PHL 493. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution.

PHL 494. Philosophy Seminar. 3 Hours.
In-depth survey of either a topic or individual author of current interest. A systematic survey in the main areas of philosophy to produce a substantial paper. Emphasis on detailed analysis of the structure of arguments and standards for empirical evidence where relevant. Proper standards for citation and attribution.

PHL 498. Philosophy Internship. 1-3 Hour.
On-campus and off-campus training positions in fields utilizing critical language and writing skills, with some positions offering external funding. Students should contact the Department Chair to discuss available positions and application procedures. Student must be a Philosophy major or minor.

PHL 499. Directed Studies. 1-3 Hour.
Special arrangement opportunity for in-depth study. Permission of Instructor Only.

PHS-Physical Sciences Courses

Courses

PHS 02. Physical Science I. 4 Hours.
This course includes online lecture and laboratory activities and is designed to assist non-science major students in acquiring practical knowledge of established physical laws and learning scientific investigative methods. Writing and Quantitative Literacy are significant components of this course.

PHS 101. Physical Science. 4 Hours.
Scientific method and hands-on experience with integrated laboratory, discussion, and lecture. Emphasis on the use of quantitative reasoning to solve physical problems. Writing, assignments based on research and laboratory experiences that include collection and interpretation of experimental data. For nonscience majors. Lecture and laboratory. Writing and Quantitative Literacy are significant components of this course. This course meets the Core Curriculum requirements for Area III: Natural Sciences.

PHS 101L. Physical Science Laboratory. 0 Hours.
Must be taken concurrently with PHS 101 lecture.

PHS 102. Physical Science II. 4 Hours.
This course includes online lecture and laboratory activities and is designed to assist non-science major students in acquiring practical knowledge of established physical laws and learning scientific investigative methods. Writing and Quantitative Literacy are significant components of this course.

Prerequisites: PHS 101 [Min Grade: C]

PHS 102L. Physical Science II Lab. 0 Hours.
Physical Science II Laboratory.
PHS 110. Overview of Space Exploration. 3 Hours.
Descriptive approach to comparative planetology for non-science majors. Analysis of recent, ongoing, and planned space missions with regard to scientific objectives and experiment design.

PHS 141. Musical Acoustics. 3 Hours.
Scientific method and hands-on experience with integrated laboratory, discussion, and lecture, emphasizing physical principles and experiences important for understanding musical tones. For non-science majors. See MU 141. Prerequisite for this class includes completion of Core Curriculum mathematics requirement.

PHS 150. Science Writing. 3 Hours.
Scientific writing skills for science, mathematics, and engineering. Identification of audience and purpose, generation of ideas, organization of information and construction of arguments.

PHS 211. Discussion on the Nature of Matter. 3 Hours.
Honors seminar. Evolution of science and scientific method from early Greek origins in context of the study of matter. Non-mathematical, descriptive, and pictorial approach to understanding basic structure of matter and materials of technological interest. See HON 211. Scientific writing skills for science, mathematics, and engineering. Permission of instructor or admission to Honors Program.

**PSC-Political Science Courses**

**Courses**

PSC 100. Public Service. 3 Hours.
This course provides an introduction to public service values and career paths in political science and public policy. Students will learn of various career paths relevant to political science and international studies in public management and nonprofit organizations. A component of the course focuses on career preparation, resume building, professional networking, and interview strategies.

PSC 101. Foundations of American Government. 3 Hours.
This course provides an overview of the American political system. The course covers the constitutional foundations of the American political system. It explains how the institutions of American Government - Congress, the presidency, and the courts operate and how they interact with one another. Each section provides a foundation for future study. Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 102. Foundations of Comparative Politics. 3 Hours.
Compares the political cultures and institutions of various political systems around the world. Special emphasis upon the Communist and post-Communist states, religiously-based states, and countries in transition to democracy. (CP) This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 103. Foundations of International Relations. 3 Hours.
The introductory course in international relations is designed to be a survey of the problems and practice of global cooperation and conflict. Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 104. Foundations of Political Theory. 3 Hours.
This course surveys the intellectual origins and historical development of political theory from the ancient Athenian experiment in direct democracy to the contemporary American challenge of diversity in a representative government. We explore citizenship as a philosophical conversation about rights and duties, equality and liberty, and the ethical responsibility of the individual to the community.

PSC 110. Foundations of American Public Policy. 3 Hours.
Policy process at local, state, and federal levels of government. Problem identification and definition; policy formulation and enactment; implementation and evaluation; policy termination. (AG/PT).

PSC 120. Urban Politics. 3 Hours.
This course is a critical examination of the institutions of urban government, focusing on intergovernmental relations, official decision makers, and the role of group and electoral politics in metropolitan environments. (AG/PT).

PSC 170. Contemporary Political Issues. 1-3 Hour.
Selected topics of current political importance and interest. Interests identified in current schedule of classes. May be repeated with permission of department chair.

PSC 221. American State and Local Government. 3 Hours.
This course is a critical study of the institutions, functions, and processes of the state and local levels of American government. (AG/PT) This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PSC 222. Public Administration and Policy. 3 Hours.
Principles and practices of governmental administration, including organization, procedures, personnel management, budgeting, and control. (AG/PT).

PSC 260. American Foreign Policy. 3 Hours.
Creation and conduct of U.S. foreign policy. Evolution of American role in world affairs; problems, trends, and developments since World War II. (CP/IR).

PSC 261. Law and Society. 3 Hours.
This course takes a multidisciplinary approach to the study of law and examines how societal and cultural factors shape the law as well as how law affects society by looking at whether law can act as a form of social control, whether courts can bring about social change, and whether law creates societal inequality. These questions are answered in the context of current social and moral issues. (AG/PT).

PSC 266. The United Nations. 3 Hours.
Organization framework, evolving experiences and continuing problems of United Nations system for maintenance of international peace and security and for international economic and social cooperation. (IR/CP).

PSC 270. Law and Film. 3 Hours.
This course focuses on the portrayal of courts, cases, lawyers, and law in major motion pictures. The course examines the extent to which films that focus on law are affected by the legal, political, and popular culture at the time of their production as well as the extent to which films shape society’s perceptions, whether correctly or incorrectly, of law and the legal profession. (AG/PT).

PSC 271. Contemporary Political Issues. 3 Hours.
Issues of current interest in political science.
PSC 272. Model Arab League. 1 Hour.
Preparation for participation in Model Arab League simulations around the country. Individual research on the Arab League and cooperative efforts to represent an assigned country and its foreign policy on committees, such as political affairs, economics, social affairs, and others.

PSC 316. Human Rights. 3 Hours.
This course examines the definition and major facets of human rights, key issues and controversies related to human rights, as well as groups and institutions related to the promotion of human rights. Specific issues include state repression and torture, genocide, the rights of women and children, and economic rights.

PSC 317. Religion and Politics. 3 Hours.
This course investigates the relationship between religion and the American political community. Topics examined will include: the influence of religion on Early Settlement thought; the role of religion in shaping the 1st Amendment; the political evolution of Christian, Jewish and Islamic sects in the US; the court and the issue of "church and state"; religion and political activism; faith-based organizations and the implementation of public policy. (AG/PT).

PSC 318. Politics and Race in America. 3 Hours.
Politics and Race in America is an advanced level course about racial politics in the United States. This course focuses on tensions between separatism and assimilation, electoral politics and protest politics, and cooperation and competition among underrepresented groups in America. The goals of the course are for you to (a) grasp the complex dynamics of racial stratification in America and the role of politics in contributing to these dynamics and (b) pinpoint the similarities and differences of the agendas and strategies adopted by underrepresented groups, but to indicate the interaction between "racial" politics and American politics as a whole. The study of race in America provides a window into the soul of America; by learning about race in America, we learn enduring lessons about the foundations, institutions, participation, and policy in American government. After completing this course, you will be able to understand the race in America and be able to develop your own analyses about race in America. (AG/PT).

PSC 319. Civil Liberties and Civil Rights. 3 Hours.
This course examines the role of the Supreme Court in defining the fundamental rights and liberties of citizens in the United States. We analyze the inherent tension in supporting individual rights when they conflict with the will of the democratic majority.

PSC 320. Political Participation. 3 Hours.
This course focuses on forms of political participation in American national politics, including individual level public opinion, voting behavior, and the role of groups in public life. It explores the causes and consequences of individual participation in campaigns and elections, parties and interest groups, and protest movements. Ethics and Civic Responsibility are significant components of this course. (AG/PT).
Prerequisites: PSC 101 [Min Grade: D]

PSC 321. Public Opinion in American Politics. 3 Hours.
This course is an in-depth study of public opinion and the factors that shape it, including media effects, socialization, and group formation and advocacy. Students will examine the effects of public opinion on elections and policy, and explore the methods of public opinion measurement. (AG/PT).

PSC 322. Gender, Politics, & Policy. 3 Hours.
This course analyzes the history, theory and public policy of women as U.S. citizens from the colonial era through suffrage toward a woman in the White House. We examine the struggle for political rights, educational opportunity and economic equality, and gender roles in the family. We evaluate poll date, public policy debates, electoral strategies and leadership styles for women candidates for local, state, and federal office. (AG/PT).

PSC 330. The American Judicial Process. 3 Hours.
This course examines the purpose and structure of American courts; the selection of judges; the role of jurors; how federal courts set agendas, decide cases, and impact legal policy; the role of interest groups and public opinion on judicial behavior. This course is writing-intensive; students will produce a central research project that asks and answers an empirical question about the judicial system, broadly described. Writing is a significant component of this course. (AG/PT).

PSC 331. The U.S. Congress. 3 Hours.
This course in an in-depth analysis of the U.S. Congress. Students will explore the internal organization of Congress and the rules and norms that govern the legislative process. Students will also examine the roles of the president, the court, interest groups, and political parties in the legislative process. (AG/PT).
Prerequisites: PSC 101 [Min Grade: D]

PSC 332. The American Presidency. 3 Hours.
This course is a critical exploration of American presidential leadership. Students examine the legal foundations of presidential authority, popular influences on presidential politics, the role of the presidency in the broader context of American democratic government. (AG/PT).

PSC 333. Political Parties and Interest Groups. 3 Hours.
This course covers engagement and governing in American politics through the institutions of participation - political parties and interest groups. Topics include parties and political organizations in their varied forms - trade associations, membership groups, social movements and others, and the role of these organizations shaping outcomes. (AG/PT).

PSC 340. American Political Thought. 3 Hours.
This course focuses on the origins and evolution of American political theory from the colonial period to post-modernity. Investigates the philosophical legacy of the American founding and the civic republican tradition on contemporary theories of liberty, equality, and civic engagement in public life. Ethics and Civic Responsibility are significant components of this course. (AG/PT).

PSC 341. Classical Political Thought. 3 Hours.
This course analyzes the development of Western political thought in classical period from Plato to Augustine. We trace the emergence of democratic government and the political culture of the polis as represented by the philosophers and playwrights of the ancient world from Athens to Rome. (AG/PT).

PSC 342. Modern Political Theory. 3 Hours.
This course surveys the development of Western political thought from early modern era to contemporary debates from Machiavelli to King. We examine the innovation of social contract theories and the revolution in origins of modern democracies as we analyze philosophical arguments for individual consent, political authority, personal liberty, and legitimate government. (AP/PT).
PSC 343. Digital Democracy. 3 Hours.
The advent of the internet and digital media has fundamentally transformed the way humans connect, communicate, and share information. This class will look at the democratization of information as a result of the “information revolution” - i.e. the internet and digital medium as a game changer in communications, politics, health, education, citizenship, and many other sectors. Additional topics will include net neutrality, protection of consumer rights, and a touch of behavioral economics in digital commerce.
Prerequisites: PSC 104 [Min Grade: D]

PSC 350. African Politics. 3 Hours.
Following the African tradition of communication of political philosophies through narrative, our study of African politics will incorporate storytelling (in film, fiction, and poetry) as well as more standard methods of political analysis. The course addresses social, economic, and political dimensions of Africa - Northern, Southern, and Sub-Saharan - from pre-colonial era to the present. We will also examine Africa’s regional and international relations today. (CP/IR).

PSC 351. European Political Systems. 3 Hours.
Comparative analysis of politics in European nations. (CP/IR).

PSC 352. Latin/South American Political Systems. 3 Hours.
Comparative analysis of politics in Latin and South American Societies. (CP/IR).

PSC 353. Asian Political Systems. 3 Hours.
This course provides an overview of the relationships between state and society in contemporary Asia, with particular emphasis on India, Pakistan, China and Japan. Also included are a presentation of Pan-Asian relation, environmental problems, current armed conflicts and political culture. (CP/IR).

PSC 355. Politics of Development. 3 Hours.
Analysis of social, economic and political problems confronting the world's poor countries. Topics examined include national responses to the following problems: child soldiers and child labor; government corruption and transparency; ethnic conflict; environment destruction; social inequality; globalization; and cultural preservation. (CP/IR).

PSC 356. Riots Resistance Revolt. 3 Hours.
This course is an introduction to sub-state political violence. We will focus particularly closely on post-WWII resistance and revolt in North Africa.

PSC 357. Human Trafficking. 3 Hours.
The goal of this course is to address issues regarding modern slavery and human trafficking. Specifically, we will investigate the types of slavery, such as bonded labor and forced prostitution, the political, legal, economic and social dimensions of global slavery and human trafficking., and ways in which a broad variety of international and nongovernmental organizations respond to this crisis.

PSC 358. Health and Humanitarian Crisis. 3 Hours.
This course examines the concepts, actors, analytic frameworks and dilemmas related to humanitarian action. Specific issues include the changing nature of conflict, coordination difficulties among humanitarian actors, evidence shortcomings, food security, public health crises, and efforts made to reform and professionalize the humanitarian sector.

PSC 360. International Security. 3 Hours.
Analysis of arms race, process of arms control negotiations, and diffusion of nuclear weapons. (IR/CP).
Prerequisites: PSC 103 [Min Grade: D]

PSC 361. North/South International Relations. 3 Hours.
Relations between advanced industrial countries and underdeveloped countries, focusing on changing dynamics of these relations. (IR/CP).
Prerequisites: PSC 103 [Min Grade: D]

PSC 362. Diplomacy. 3 Hours.
Origins, institutions, functions and rules of modern diplomatic and consular practice and roles of diplomacy as instrument of national policy. (IR/CP).

PSC 363. Nationalism in World Politics. 3 Hours.
The primary objective of this course is to examine the political basis and implications of nationalism, as an idea and a political movement, in world politics. (IR/CP).
Prerequisites: PSC 103 [Min Grade: D]

PSC 364. Gender in World Politics. 3 Hours.
This course is an investigation of contemporary women’s and LGBT issues in world politics, with particular emphasis on cultural politics and women and development. There is also an investigation of masculinities and conflict.

PSC 365. Special Topics in Comparative Politics. 3 Hours.
Selected topics in Comparative Politics.

PSC 366. The United Nations. 3 Hours.
Organization framework, evolving experiences and continuing problems of United Nations system for maintenance of international peace and security and for international economic and social cooperation. (IR/CP).

PSC 368. Women and War. 3 Hours.
This course provides an overview of gender and armed conflict from a global perspective. In the first third of the class, we will learn about theories of gender and war. In the second third, we will apply these theories to case studies of women and war. We will also examine the roles of women in terrorism. The last third of the course concerns women and peacemaking.

PSC 370. Politics and the Media. 3 Hours.
This course covers how significant changes in communications media have affected our ability to address our political problems and make public policy. It covers the interactive relationship between real world politics and communications media, where and how we learn about candidates, elected and appointed officials, and policy issues.
Prerequisites: PSC 101 [Min Grade: D]

PSC 371. Political Propaganda in Film. 3 Hours.
Analyzing and writing in depth about the ethics and rationale for using political propaganda in film. (IR/CP).

PSC 375. Special Topics in Political Theory. 3 Hours.
Special Topics in Political Theory: selected topics in Political Theory.

PSC 380. The Politics of Constitutional Law. 3 Hours.
Decisions of the U.S. Supreme Court as related to the development of important doctrines of constitutional law. Role of judiciary; extent of federal executive and legislative power; federal taxing and commerce powers. (AG/PT).
Prerequisites: PSC 101 [Min Grade: C]

PSC 381. The Bill of Rights. 3 Hours.
Decisions of the U.S. Supreme Court as related to the development of important doctrines of constitutional law. Guarantees of Bill of Rights regarding both national and state governments; 14th Amendment. (AG/PT).
Prerequisites: PSC 101 [Min Grade: C]
PSC 382. Political Networks. 3 Hours.
The way we connect to others affects how we behave and think, even politically. The course explores how traditional and new (through social digital media) connections between individuals, groups, and institutions affect political behavior and policy outcomes both in domestic and international politics. The course also covers computational tools used to study social networks.

PSC 383. International Conflict & Conflict Management. 3 Hours.
Who fights whom, where, when, and how? And what can be done to resolve conflicts? This course investigates the causes of conflict between states, groups, and individuals. It reviews and evaluates the effectiveness of the political and legal tools at our disposal to manage conflict, including negotiation, various forms of mediation, peacekeeping and peace enforcement.

PSC 384. Diamonds, Drugs, and Guns: The Illicit Global Economy. 3 Hours.
Systematic analysis of the illicit global economy, including the causes of the leading illegal markets, the various organizations involved and key concepts used to analyze illicit markets. Particular attention is paid to the role of the state, as well as international organizations, in responding to these markets.

PSC 385. Special Topics in International Relations. 3 Hours.
Selected topics in International Relations.

PSC 386. Economics of Public Policy. 3 Hours.
The primary focus of this course is the role of government in the economy, specifically when and why the government intervenes, how it does so, and the effect of these interventions. Key economic concepts are brought to bear on leading public issues including safety and environmental policy, health policy, and social insurance.

PSC 389. Special Topics in American Government. 3 Hours.
Special topics in American Government.

PSC 400. Data, Politics, and Policy. 3 Hours.
From big data to focus groups and “small world networks,” this course explores the use and misuse of data in the policy process and in political analysis. It emphasizes strategies for using data to test hypotheses about domestic and international politics.
Prerequisites: PSC 101 [Min Grade: C] and PSC 102 [Min Grade: C] and PSC 103 [Min Grade: C] and PSC 104 [Min Grade: C]

PSC 401. Seminar in American Government. 3 Hours.
There are multiple theoretical approaches employed in the study of American political culture, behavior, institutions, and policy making. This course covers these approaches and the significant literature on the central topics in American government and politics (AG/PT).
Prerequisites: PSC 101 [Min Grade: D]

PSC 402. Seminar in Comparative Politics. 3 Hours.
This seminar is an exploration of core themes, debates, and concepts of world politics. (CP/IR).
Prerequisites: PSC 102 [Min Grade: D]

PSC 403. Seminar in International Relations. 3 Hours.
From civil war and terrorism to human rights and climate change, this capstone seminar deals with how important issues in world politics can be understood and analyzed from a multitude of theoretical perspectives. The seminar has significant writing, quantitative, and civic engagement components.
Prerequisites: PSC 103 [Min Grade: D]
PSC 471. Political Propaganda in Film. 3 Hours.
This course analyzes the ethics and rationale for using and abusing the film medium to relate to, undermine, or support political authority. The class employs a critical analysis of the explicit or implicit forms of political propaganda messages transmitted to popular culture in order to manipulate policy and public opinion. The films are drawn from four nations: United States, United Kingdom, Germany, and Russia.

PSC 495. Directed Research in Political Science. 1-6 Hour.
Directed research in political science with department faculty. Open to Political Science majors only. Requires instructor approval.

PSC 496. Independent Studies and Special Projects. 1-3 Hour.
Directed reading under supervision of member of PSC faculty.

PSC 497. Honors Research in Political Science. 3-6 Hours.
Directed research by Political Science Honors student.
Prerequisites: PSC 401 [Min Grade: A] or PSC 402 [Min Grade: A] or PSC 403 [Min Grade: A] or PSC 404 [Min Grade: A]

PSC 498. Capstone Public Affairs Internship. 1-3 Hour.
Individually arranged assignment in public or non-profit agencies or organizations, monitored and evaluated by member of department.

PSC 499. Capstone in Political Science and International Studies. 3 Hours.
This is the capstone course for all majors in political science and international studies. The course is designed to provide students with a culminating capstone experience. In this course, we will discuss a diverse set of readings that provide a comprehensive overview of the major theories and methods in Political Science or International Studies. This is a writing intensive course in which a discipline-based research paper or research project is developed and presented.

Prerequisites: PSC 400 [Min Grade: D]

PUH-Public Health

Courses

PUH 101. Transitioning to College, Exploring Public Health. 1 Hour.
This First Year Experience (FYE) course is for students majoring in or interested in Public Health. It is designed to introduce freshmen to the tools and techniques that will enhance their transition to college and improve their academic success. Goal setting, time management, faculty/peer interaction, and other relevant academic skills will be addressed. Students will also gain an understanding of the various educational opportunities and career options associated with Public Health.

This course explores the richness of public health through its disciplines and its stories to demonstrate how the understanding of the origins of epidemics determines the progress of civilization.

PUH 202. Introduction to Global Health. 3 Hours.
This course is designed to introduce students to the topic of global health and impart a basic understanding of its interdisciplinary nature, successes to date, and current challenges in the field. The first part of the course provides a basic framework for understanding global public health issues and improvement of health at a population level by exposing students to basic public health concepts of disease burden, standard indices for measuring population-based health, and highlighting global epidemiologic trends. Progress towards the Millennium Development Goals will be a focus of discussion. The second section of the course will discuss vulnerable populations and how their specific needs are prioritized and addressed. Third, the class will examine strategies for organization and delivery of health care services at a population level and examine health as a human right. Finally, the course will look at the key institutions and organizations working in tandem with health ministries to address global health and the need for major collaborative initiatives to address health disparities worldwide. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PUH 204. Health Meets Life: Sex, Drugs, Weight, and other Health Behaviors. 3 Hours.
This course will be structured around lectures, in-class activities, and discussions of lecture, readings, and current events. The successful student will engage in active listening and critical thinking of the topics presented. Students will be evaluated by class participation, projects, and exams.

PUH 205. Adolescent Health. 3 Hours.
This undergraduate course will provide an overview of critical health issues in adolescence and review the potential of emerging perspectives to advance adolescent health and promote positive youth development. This course is designed to provide students with the most current knowledge of issues influencing the health and well-being of adolescents. Theoretical frameworks that draw on an ecological perspective will provide a better understanding of how families, peers, schools, neighborhoods, and the larger community influence risk and protective factors in youth. Adolescence is a time of growth and experimentation, a period marked by establishing autonomy and confronting new challenges. Emphasis will be placed on the promotion of positive youth development, and the relevance of adolescent health issues for the science of health behavior and the broader public health arena.

PUH 210. Biological Basis of Public Health. 3 Hours.
This course will consist of lectures and in-class active-learning activities centered on deepening the students’ understanding of the fundamental biological concepts with an emphasis on significant public health problems. Each major system will be presented first as normal physiology, then, how genetics and/or specific exposures (voluntary and involuntary) contribute to diseases of public health significance. Examples may include genetics/genomics with cancer and disease susceptibility; the immune system and infectious diseases; respiratory system with asthma; the nervous system with pesticide exposure; the reproductive system, STIs and reduced fertility; and, fetal development with drug addiction. The relevance for the biological basis of public health will be underscored through a major assignment in which the student will research a current issue in public health, thoroughly explain the biological basis of the condition, identify factors (genetic and non-genetic) that may contribute to the problem, and finally propose interventions (behavior choices, genetic counseling, policy, avoiding or limiting exposures, etc.) that could lead to improvements in public health.

Prerequisites: BY 115 [Min Grade: C] or (BY 101 [Min Grade: C] and BY 102 [Min Grade: C]) or BY 123 [Min Grade: C]
PUH 220. Environmental Factors in Public Health. 3 Hours.
This didactic lecture course open to students from all majors will survey current issues and challenges in our global and local environmental and how those impact our health. It will examine the sources, exposure routes, regulation and health outcomes associated with biological, chemical, and physical agents in the environment, both naturally occurring and man-made. We will examine these agents and how they impact air, water and food quality to cause disease. Regulatory agencies, risk assessment and disaster response and preparedness will be discussed.

PUH 250. Biostatistics. 3 Hours.
Students will gain a thorough understanding of basic analysis methods, elementary concepts, statistical models and applications of probability, commonly used sampling distributions, parametric and nonparametric one and two sample tests, confidence intervals, applications of analysis of two-way contingency table data, simple linear regression, and simple analysis of variance.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C]

PUH 292. Seminars in Public Health. 1-3 Hour.
Seminar will explore current public health issues and topics locally, regionally, nationally and globally; case studies in epidemiology, issues and causes of chronic and infectious diseases, how the environment interacts with health, and how social and behavioral factors affect personal health.

PUH 299. Special Topics in Public Health. 1-6 Hour.
This special topics course will be used in the undergraduate program to cover emerging issues or specialized content not represented in the main curriculum.

PUH 302. Epid: Beyond the Outbreak. 3 Hours.
The course will provide students with a basic understanding of epidemiology history, methods, and practice. The history of epidemiology will focus on major historical events such as John Snow and the 1854 Broad Street cholera outbreak. The course will also cover basic epidemiologic methods such as measures of disease occurrence (e.g., prevalence and incidence) as well as basic study designs such as case-control and cohort studies. Later in the term, students will utilize actual epidemiologic investigations in order to learn how these methods are put into practice. The coursework will focus mostly on discussion for the first part of the course focused on the history of epidemiology. The section on methods will primarily be problem-based, performing basic analysis of epidemiologic data through calculation of prevalence/incidence and measures of association (e.g., prevalence ratio, incidence rate ratio). This work will lead to students to prepare a document on how they would respond to an outbreak in a situation described by the course master. The entire coursework will take place in a lecture format, with the class meeting twice a week.
Prerequisites: MA 102 [Min Grade: C] or MA 105 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 110 [Min Grade: C] or MA 125 [Min Grade: C] or MA 225 [Min Grade: C] and PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]

PUH 307. Public Health Policy. 3 Hours.
This course provides a comprehensive overview of public health systems in the United States. A public health system is comprised of an array of entities whose unifying mission is to promote health and well-being at the population level. The course will examine the contributions of federal agencies (Centers for Disease Control, Department of Health and Human Services), state/county/city level health departments, and public and private health care providers (hospitals, long-term care facilities, physicians and nurses) to population health.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 321. The Workplace Environment and Worker Safety and Health. 3 Hours.
This course will explore known physical and chemical hazards found in the workplace, and we will combine our technical knowledge with skills to identify and control work-related hazards. We will begin with the importance of key events and milestones in the history of worker safety and health. We will research the ethical, legal and social implications associated with the working environment. We will define the related roles and responsibilities of government, non-government agencies, private organizations, businesses and industry in worker safety and health.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 322. Environmental Justice and Ethics. 3 Hours.
In this course, students will investigate and analyze the disproportionate burdens of environmental contamination and the health disparities affecting communities of color across the U.S. and internationally. Using a broad range of examples we will look at the incidents that lead to this grass roots movement, many of which came from towns and peoples of the Deep South.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 331. The Rise of Non-Communicable Diseases Globally. 3 Hours.
This course provides an introduction to selected key topics in chronic diseases burden endured globally. We will address the following questions: How is it that people in some countries live twice as long as in others? Why is there a rising epidemic of NCDs such as cancer, heart and lung disease, obesity, and diabetes spreading globally? What are the burdens posed by these diseases? What steps are being taken to control it? What key tools are at our disposal? Who are the global actors and stakeholders addressing this global health epidemic? What is the link between globalization and the rise of NCDs?
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 333. Food, Water, and Air: the Global Environment and Health. 3 Hours.
This service-learning course will examine food security and nutrition as complex issues of sustainable human development. While learning about food security and nutrition in the classroom, students will gain further understanding of the topic through engaging with non-profit organizations in Birmingham that address food security and nutritional issues. Topics to be covered include issues of availability, access, and use of food in the domestic and global context, as well as current responses and potential solutions. The course will also focus on helping students develop a skill set for global citizenship that includes opportunities for advocacy, leadership, and critical thinking.
Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]
PUH 340. Professionalism in Public Health. 3 Hours.
The purpose of this course would be to prepare students to enter
the workforce by providing tangible skills including, but not limited to:
Ethic of Public Health, Oral and Written Communication, Personal
Presentation Skills, Leadership Styles and Working in Teams and Project
Management.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C]

PUH 341. Public Health Preparedness and Emergency Management. 3 Hours.
This course will provide participants with an understanding of Public
Health Emergency Preparedness (PHEP), exercise development, and
evaluation. During this course you will learn how to identify threats within
your community, determine what capabilities are most needed to prepare
for and meet these threats, and how to develop and evaluate exercises to
test knowledge, skills and abilities.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C]

PUH 342. Public Health Disasters. 3 Hours.
This will be a hybrid of environmental disasters and history and
consequences of world disasters.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C]

PUH 350. Beating the Odds: Statistical Modeling and Disease Prediction. 3 Hours.
This class provides an introduction into the commonly used statistical
methods that are classified as General Linear Models. By the end of the
class, students will be able to build and interpret prediction equations
using Simple and Multiple Linear Regression. Students will learn the
statistical assumptions of the models and how to check the assumptions.
Students will learn how to test group differences within a regression
framework (Analysis of Variance), test for group differences while
controlling for other variables (Analysis of Covariance). In the last weeks
of the class, students will learn how to model categorical outcomes.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C] and PUH 250 [Min Grade: C]

PUH 352. Risk Reporting: Interpreting and Writing Medical News. 3 Hours.
The main tool that scientists use to describe their work is the peer-
reviewed research article. These articles are written for a specialist
audience of other scientists and clinicians. However, human research is
of interest to patients, policies makers, and other non-scientists. Accurate
and appropriate interpretation and evaluation of scientific findings is
vitally important to their implementation. In this course students will learn
how to read and interpret scientific publications, to critically evaluate
scientific publications and media coverage of the publications, and to
write articles describing scientific findings in ways that are accessible for
a general audience. The first part of the semester will consist of lectures
and class discussions including guest lectures by science writers.
The latter part of the semester will include student-lead discussions of
scientific and mass-market articles. Evaluation will be based on reading
quizzes, class participation and submission of discussion questions
before class periods, written assignments interpreting and evaluating
scientific and mass-market articles, and a midterm and final exam.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C] and PUH 302 [Min Grade: C]

PUH 353. The Domestic Hot Zone: Major Diseases Affecting the U.S.. 3 Hours.
Though infectious diseases still contribute greatly to morbidity in the
United States, in the 20th century the causes of mortality in the United
States began to shift –known as the epidemiologic transition—from
infectious diseases to chronic diseases such as heart disease, cancer,
stroke, and diabetes. These four diseases alone account for nearly three-
quarters of a trillion dollars in medical expenditure and cause over 1.3
million deaths annually. The purpose of this class is to provide students
with detailed knowledge regarding the major diseases that affect the
United States, covering both major chronic and infectious diseases.
Each week will focus on a disease or family of diseases, and will cover
the epidemiology of the disease as well as looking at historical trends
in disease incidence and mortality and how the trends have changed
in recent years. Students will be graded through the use of take-home
assignments, a mid-term examination, and a final examination.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C] and PUH 302 [Min Grade: C]

PUH 354. Scratching the Iche: Introduction to Infection Control and Hospital Epidemiology. 3 Hours.
This course is designed to focus specifically on concepts involved with
performing epidemiological surveillance and research within a hospital
setting. With the recent advent of policies set forth by the Affordable
Care Act, emphasis has been placed on surveillance and prevention
of nosocomial infections in hospitals throughout the country. The
course will introduce students to the methodology of infection control
in a hospital setting, including how patients are tested for infectious
diseases, surveillance methodology, and how an outbreak investigation
in a hospital is performed. The course will involve guest lecturers
from different departments of the hospital, including but not limited
to Infection Control, Patient Safety and Quality, Clinical Laboratory,
and Environmental Control. Each week will cover a given topic (e.g.,
bloodstream and catheter-associated infections, multi-drug resistant
pathogens, respiratory diseases). The students will be graded through
the use of take-home assignments, a mid-term examination, two
case studies, and a group project involving a nosocomial outbreak
investigation of an infectious disease of the course master’s choice.
**Prerequisites:** PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]
and PUH 220 [Min Grade: C] and PUH 302 [Min Grade: C]

PUH 391. Directed Study in Public Health. 1-6 Hour.
This course is open to junior and senior level undergraduate students
to conduct research or explore an approved topic of interest under the
supervision of a faculty mentor. This is an individualized course and
students will have individual end of term goals, typically a comprehensive
paper and presentation.

PUH 392. Seminar in Public Health. 1-3 Hour.
Seminar will explore current public health issues and topics locally,
regionally, nationally and globally; case studies in epidemiology, issues
and causes of chronic and infectious diseases, how the environment
interacts with health, and how social and behavioral factors affect
personal health.

PUH 398. Undergraduate Research in Public Health. 1-6 Hour.
Research project conducted under the supervision of a faculty mentor.

PUH 399. Special Topics in Public Health. 1-6 Hour.
This special topics course will be used in the undergraduate program to
cover emerging issues or specialized content not represented in the main
curriculum.
PUH 405. Managing Public Health Programs. 3 Hours.
This course will consist of lectures and case discussions of management in a public health context. Management involves planning, organizing, directing, and controlling resources to achieve an organizational mission. Following a series of lectures, students will prepare an analysis of an assigned case and present the analysis to the class. Each case analysis presentation will be evaluated by other students and the evaluation presented at a subsequent class meeting. A comprehensive final examination will be administered.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 421. Nature vs. Nurture: Genes, Environment and Health. 3 Hours.
This didactic lecture course will examine how components of the world around us impact our lives and health. The classic battle of nature (genes) vs. nurture (environment) is being replaced with the understanding of how our exposure to our environment impacts gene expression, which can increase (or decrease) our own likelihood of disease. Using everyday, real-world examples we will study the environment-gene interaction and how this helps determine why some people are more disease prone than others. Each example will focus on the underlying science and the medical consequence of exposure, and will also examine exposure prevention strategies for individuals and practical legislation to reduce environmental contamination. Examples will vary from year to year, but damaging examples may include nanoparticles, smog, medical radiation, drugs and alcohol, pesticides, noise, indoor air pollution, toxic metals, plastics, food and water contamination, and sexually transmitted infections. We will also discuss how the environment can positively impact gene expression, and will include discussions of functional foods (i.e. nutraceuticals such as soy, green tea and garlic) and other alternative medicinal therapies. BY 116 or equivalent; completion of or registration in BY210 or BY330 is recommended.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 210 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 422. Fundamentals of Toxicology: Poisons and People. 3 Hours.
Basic principles in toxicology will be covered including: dose-response relationships; absorption, distribution, storage, biotransformation and elimination of toxicants; target organ toxicity; mutagenesis and carcinogenesis; and an overview of fate and transport of contaminants in the environment. The course will focus on contaminants of environmental and public health interest and will include the fascinating roles toxins have played in human history.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 210 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 432. Global Health Cases. 3 Hours.
Global Health cases refer to instances of health problems that transcend national borders. Diseases are not constrained by borders. Similarly, problems and solutions to these cases are not unique to a particular race, region, socio-political system or even level of economic development. These cases also carry the dubious reputation of having a global political and economic impact. Yet a closer look at site specific successes can yield important lessons about how to tackle the challenges confronting similar cases in other sites.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C]

PUH 434. Global Communicable Disease Challenges. 3 Hours.
This course is designed to introduce students to the major infectious diseases of public health importance globally. Since we cannot cover all infections in depth in the time allowed, we will highlight major categories of infections as well as focus on a few major infections that together cause the greatest morbidity and mortality in children or adults worldwide. The purpose of this course is to equip participants with up-to-date knowledge of resources on major infections of global importance, and their prevention and control strategies.

Prerequisites: (BY 101 [Min Grade: C] and BY 102 [Min Grade: C]) or (BY 123 [Min Grade: C] and BY 123L [Min Grade: C]) and PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 436. Maternal and Child Health in Africa and Asia. 3 Hours.
Despite significant advances in global health over the last fifty years, the burden of disease among the maternal and child health (MCH) population in certain areas of the world remains alarmingly high. While child mortality has declined over the last fifty years, maternal and neonatal mortality has seen relatively little improvement, especially in Sub Saharan Africa and South Asia, which bears a disproportionate share of the global burden of maternal and child health disease. Maternal health is especially critical due to the far ranging impact of a maternal death on the family, community, and society. Fortunately, high impact, cost-effective solutions exist to address these highly preventable maternal and child deaths. In this course we will discuss those successful MCH interventions and policies in addition to identifying different barriers and challenges to the implementation and scale up of MCH services in Africa and Asia.

PUH 441. Public Health Law and Policy. 3 Hours.
PUH 441 will be an introductory course in public health law and policy designed for undergraduate students in public health. There are no prerequisites for this course. The purpose of the course is to introduce non-lawyers to the United States legal system and to the basic principles of law relevant to public health practitioners. It is intended to provide students with basic legal knowledge to assist them in communicating with attorneys about potential legal issues that may arise in formulating policy and exercising leadership in health care organizations. An overarching theme of the course is the tension between community interests and individual rights.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

This interdisciplinary course will provide students with basic knowledge about current issues in health and society, both globally and domestically that impact the Maternal and Child Health (MCH) population, which broadly includes women of reproductive age, infants, children, and families. The course will include a specific focus on the role of poverty in the health issues of this population.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 220 [Min Grade: C]

PUH 450. Statistical Programming and Database Analysis. 3 Hours.
This class provides an introduction into the commonly used statistical programs and teaches the fundamentals of database design. By the end of the class, students will be able to design and build research databases. Students will also be taught how to conduct statistical analyses using EXCEL and SAS.

Prerequisites: PUH 250 [Min Grade: C]
PUH 491. Directed Study in Public Health. 1-6 Hour.
This course is open to junior and senior level undergraduate students to conduct research or explore an approved topic of interest under the supervision of a faculty mentor. This is an individualized course, and students will have individual end of term goals, typically a comprehensive paper and presentation.

PUH 492. Seminar in Public Health. 1-6 Hour.
Seminar will explore current public health issues and topics locally, regionally, nationally and globally; case studies in epidemiology, issues and causes of chronic and infectious diseases, how the environment interacts with health, and how social and behavioral factors affect personal health.

PUH 494. Internship/Fieldwork in Public Health. 3 Hours.
Students who meet eligibility requirements may take three hours of academic credit per semester for participating in an advisor approved internship experience.

PUH 495. Public Health Capstone Experience. 3 Hours.
This course provides students with the opportunity to synthesize information from the various courses and experiences. Students will report on their service learning experience to discuss issues and report activities. Students will present a final report on their experience and how they applied their coursework. Students must have completed 27 hours of PUH coursework and are encouraged to find a community partner for the course prior to the first day of class. This course should be taken in the last two semesters of graduating.

Prerequisites: PUH 201 [Min Grade: C] and PUH 202 [Min Grade: C] and PUH 204 [Min Grade: C] and PUH 210 [Min Grade: C] and PUH 220 [Min Grade: C] and PUH 250 [Min Grade: C] and PUH 302 [Min Grade: C] and PUH 307 [Min Grade: C]

PUH 496. Exploring Population Health. 6 Hours.
Public health is what we do together as a society to ensure the conditions in which everyone can be healthy. This course will provide students an opportunity to learn about both historical and contemporary public health issues, their effects on population health, and how public health systems are working to solve the health issues affecting our communities today. This course will focus on the Southeast United States. Students will tour historically significant sites, visit communities and community-based organizations, attend featured presentations around both contemporary and historical public health issues, as well as visit local, state, tribal and federal public health agencies to learn about their structure, programs, service delivery models, and approaches to addressing issues of public health. The sum of this experience will illustrate the interdisciplinary nature of public health practice and the need to add attention to the social determinants of health – the conditions in the social, physical, and economic environment in which people are born, live, work and age – in order to achieve health equity. Travel is required for this course. Undergraduate students must have completed their sophomore year before registering for PUH 496.

PUH 498. Undergraduate Research in Public Health. 1-6 Hour.
Research project conducted under the supervision of a faculty mentor.

PUH 499. Special Topics in Public Health. 1-6 Hour.
This special topics course will be used in the undergraduate program to cover emerging issues or specialized content not represented in the main curriculum.

PY-Psychology Courses

Courses

PY 101. Introduction to Psychology. 3 Hours.
Application of scientific method to behavior. Areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

PY 107. Psychology of Adjustment. 3 Hours.
Adaptive behavior; theories, research, and personal applications relevant to desirable behavior patterns; interpersonal skills and self-control techniques.

PY 108. Human Sexuality. 3 Hours.
Biological and psychological bases of human sexual behavior. Genetic, hormonal, and learning foundations for development of sexual and sex-related structures and of psychosexual identity and behavior. Adult sexual structures and behavior, conception control, pregnancy, lactation and parentalism, drugs and reproduction, and sexual pathology and variances.

PY 109. Drugs and Human Behavior. 3 Hours.
Historical and cultural perspectives on drug use by humans. Major classes of drugs; effects, side effects, and toxicity. Mechanisms of drug action, drug abuse, government regulations, and use of psychoactive drugs in treatment of mental disorders.

PY 125. Introduction to Forensic Psychology. 3 Hours.
Overview of issues involving the intersection of law and psychology. Focus on role of clinical assessment of competency, scientific jury selection, expert witnesses in court, punishment and sentencing, and related issues.

PY 201. Honors Introduction to Psychology. 3 Hours.
Advanced seminar in scientific study of behavior and cognitive processes. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences. Permission of Director of Undergraduate Studies required.

PY 212. Developmental Psychology. 3 Hours.
Human development from prenatal period to old age. Genetic and environmental determinants of behavior. Language, cognition, personality, social and emotional behavior, intelligence, and physical and sexual development. Applied areas include child rearing, childhood psychoses, and child abuse. This course fulfills the requirements in Ethics and Civil Responsibility (ECR).

Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 213. Cross-Cultural Perspective on Child Development. 3 Hours.
Cultural differences in determinants of child development. Effects of culturally distinct approaches to child rearing and education on infant attachment, temperament, aggression, cognitive development, peer interaction, sex-role socialization, and moral reasoning.

Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 215. Research Literacy in Psychology. 3 Hours.
This course provides an overview of the scientific process and teaches students to read and evaluate scientific reports; popular media to primary literature; emphasizing the importance of being a good consumer of information. The course also teaches students to write scientifically, following accepted formats such as APA.

Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]
PY 216. Elementary Statistical Methods. 4 Hours.
Descriptive and inferential statistics with emphasis on behavioral science applications. Measures of central tendency and variability, frequency distributions, probability, t-test, correlation, analysis of variance, and regression. Use of computers in statistical analysis of psychological research data. Quantitative Literacy is a significant component of this course. Concurrent enrollment in PY216L required.
Prerequisites: MA 105 [Min Grade: C] or MA 110 [Min Grade: C] or MA 102 [Min Grade: C] or MA 125 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 225 [Min Grade: C]
PY 216L. Elementary Statistical Methods Laboratory. 0 Hours.
Statistical Methods Laboratory required with PY 216 lecture. Concurrent enrollment in PY 216 required.
Prerequisites: MA 105 [Min Grade: C] or MA 110 [Min Grade: C] or MA 102 [Min Grade: C] or MA 125 [Min Grade: C] or MA 106 [Min Grade: C] or MA 107 [Min Grade: C] or MA 109 [Min Grade: C] or MA 225 [Min Grade: C]

PY 218. Abnormal Psychology. 3 Hours.
Research-oriented study of different types of maladaptive behavior, including symptoms, development, classification, and treatment. Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 220. Contemporary Issues in Psychology. 3 Hours.
Issues of current interest in psychology.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 222. Honors Developmental Psychology. 3 Hours.
Advanced seminar in human development from prenatal period to old age. Genetic and environmental determinants of behavior. Language, cognition, personality, social and emotional behavior, intelligence, and physical and sexual development.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 226. Honors Elementary Statistical Methods. 4 Hours.
Advanced seminar in descriptive and inferential statistics with emphasis on behavioral science applications. Measures of central tendency and variability, frequency distributions, probability, t-test, correlation, analysis of variance, and regression. Use of computers in statistical analysis of psychological research data. Quantitative Literacy is a significant component of this course. Concurrent enrollment in PY216L required.

PY 228. Honors Abnormal Psychology. 3 Hours.
Advanced seminar in research-oriented study of different types of maladaptive behavior, including symptoms, development, classification, and treatment.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 236. Research Biomethodology. 3 Hours.
This hands-on three-credit lab course is designed to instruct students on basic research methodology, animal handling techniques and compound administration. This course will allow students to gain firsthand experience with rodents (rats, mice) while learning the basics of injection, blood collection, breeding and animal care requirements. Each student will complete online animal care and use training as set forth by the UAB Institutional Animal Care and Use Committee (IACUC). Upon completion of this course students will have completed all online and Occupational health and Safety (OH&S) requirements in order to enter research labs utilizing animals and be placed onto a research protocol. This course is designed to prepare students to start in a research lab with the knowledge and training to make them successful animal researchers.

PY 240. Psychology of Social Inequality. 3 Hours.
The gap in income between the rich and the poor has been growing steadily larger in the United States for over 30 years. Psychological science has produced some surprising insights about the causes and effects of this contentious trend. Among topics that will be tackled are how poverty affects decision making, wealth changes how people treat others, and racial discrimination affects responses to stress.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 253. Brain, Mind and Behavior. 3 Hours.
How brain functions during dreaming, visual perception, aggression, learning and memory, sex, and language. Left versus right hemisphere specializations, recovery after brain damage, and neurological basis of illnesses such as schizophrenia, autism, and Parkinson¿s disease. Includes five hours of videos. Quantitative Literacy is a significant component of this course.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 302. History and Systems of Psychology. 3 Hours.
Historical origins and development of major approaches to psychology.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 303. Introduction to Cognitive Science. 3 Hours.
Introduction to the exciting new discipline of cognitive science, the interdisciplinary study of mind and intelligence. This course draws on a number of disciplines involved in unraveling the mysteries of the mind and intelligent life.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 305. Medical Psychology. 3 Hours.
Prerequisites: PY 101 [Min Grade: D] or PY 201 [Min Grade: D]

PY 312. Advanced Developmental Psychology. 3 Hours.
Current research and theory in childhood and adolescence with focus on perceptual/cognitive and social/emotional issues. Relationship between spoken language development and learning to read, linguistic development in special populations (e.g., hearing-impaired children), applications of memory research to children’s courtroom testimony, impact of preschool experience (e.g., Head Start) on academic achievement, and family and peer influence on cognitive and social development.
Prerequisites: PY 212 [Min Grade: C] or PY 222 [Min Grade: C]

PY 313. Language: Mind, Brain, and Society. 3 Hours.
Language is the greatest achievement of the human mind and brain. This course will provide an introductory survey of this amazing ability. Topics will include: speech perception, word comprehension, semantics, bilingualism, speech production, sentence processing, reading, and the social aspects of language. Throughout, the course will combine cognitive and behavioral perspectives with what is known about the brain systems that support language, and how those systems are impaired in developmental and neurological disorders. The course material will be conveyed through lectures, assigned readings, discussion of current debates, and hands-on “labs” in which students will collect data and write lab reports describing their results.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]
PY 315. Methods in Psychological Research. 4 Hours.
This course provides an overview of scientific methods used to investigate psychological phenomena, including correlational methods, quasi-experimental methods, and experimental methods. It considers issues related to problem definition, hypothesis formation, measurement, causal inference, validity, and reliability and includes a strong emphasis on writing, quantitative analysis and questions of ethics and civic responsibility. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PY 215 [Min Grade: C] and PY 216 [Min Grade: C] or (PY 214 [Min Grade: C] and PY 217 [Min Grade: C] and PY 215 [Min Grade: C])

PY 316. Research Methods in Psychology. 3 Hours.
Overview of specific research methods such as correlational, quasi-experimental, and experimental methods. Students will design and conduct research. As such it includes a strong emphasis on quantitative analysis and questions of ethics and civic responsibility. This course also provides practical knowledge of the scientific methodology such as problem definition, hypothesis formation, measurement, causal inference, validity, and reliability. Writing, Quantitative Literacy and Ethics and Civic Responsibility are significant components of this course.
Prerequisites: PY 215 [Min Grade: C] and PY 216 [Min Grade: C] or (PY 214 [Min Grade: C] and PY 215 [Min Grade: C] and PY 217 [Min Grade: C])

PY 319. Psychopathology and Culture. 3 Hours.
Cultural differences with respect to types of behavior viewed as abnormal and how such behaviors are classified and treated.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 320. Contemporary Issues in Psychology. 3 Hours.
Issues of current interest in psychology.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 325. Clinical Child Psychology. 3 Hours.
Diagnosis, prevention and treatment of psychological problems in children and adolescents. Interview techniques, behavioral and cognitive interventions, and community prevention programs. Developmental considerations emphasized.
Prerequisites: PY 218 [Min Grade: C] or PY 228 [Min Grade: C]

PY 326. Industrial/Organizational Psychology. 3 Hours.
Psychological methods applied to people at work. Selection, placement, performance appraisal, training, attitude measurement, work motivation, leadership, industrial safety, and human performance.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 330. Sport Psychology. 3 Hours.
Psychological factors in athletic performance. Psychological characteristics of successful athletes; anxiety, arousal, motivation, attention, concentration, attribution, cognition, and imagery.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 335. Motivation and Emotion. 3 Hours.
Psychobiology of motivated behaviors including eating, drinking, sleep, sex, aggression, social motivation, and emotions. Classic theories and current evidence for underlying mechanisms as well as abnormal states including circadian, sleep, and eating disorders, obesity, genetic sex abnormalities and sexual arousal disorders, drug addiction, criminal violence, psychopathy and cult membership.
Prerequisites: PY 253 [Min Grade: C] or NBL 230 [Min Grade: C]

PY 350. Personality and Intellectual Assessment. 3 Hours.
Measurement of personality and other psychological characteristics through psychological tests. Selection, administration, and interpretation of psychological tests.
Prerequisites: PY 214 [Min Grade: C] or PY 216 [Min Grade: C]

PY 353. Behavioral Neuroscience. 4 Hours.
The focus of the course is the neurobiological basis of behavior and emotion, and will cover molecular, cellular, and systems level mechanisms that mediate processes such as learning, motivation, sensation, speech, and emotional behavior. The associated lab will utilize the collection and analysis of physiological data to reinforce core course concepts.
Prerequisites: PY 253 [Min Grade: C]

PY 353L. Behavioral Neuroscience Laboratory. 0 Hours.
Behavioral Neuroscience Laboratory required with PY 353 lecture. Concurrent enrollment in PY 353 required.

PY 354. Autism: Brain and Cognition. 3 Hours.
Autism is a disorder that affects every facet of human functioning. Its multidimensional manifestation is enigmatic to researchers as well as to affected families. This course will examine the scientific research that has illuminated the nature of autism, focusing on its cognitive and biological aspects. We will examine different perspectives of thinking and various biological underpinnings of brain function, to converge on the most recent scientific consensus on the biological and psychological characterization of autism. There will be a special focus on structural and functional brain imaging studies of autism.
Prerequisites: PY 253 [Min Grade: C]

PY 355. Cellular & Molecular Neuroscience. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize the development, anatomy, cellular and molecular biology and biochemistry of neurons and glial cells, and introduce electrical, biophysical and chemical signaling within and across neurons.
Prerequisites: PY 253 [Min Grade: C] and BY 123 [Min Grade: C] and CH 115 [Min Grade: C]

PY 356. From Systems to Cognitive Neuroscience. 3 Hours.
Introduction to the cellular and molecular biology, biochemistry, biophysics, genetics and function of the mammalian nervous system. This course will emphasize mechanisms of synaptic transmission, sensory systems, neuropharmacology, and synaptic plasticity; and introduce the molecular basis of diseases and disorders of the central and peripheral nervous systems.
Prerequisites: PY 355 [Min Grade: C] or NBL 355 [Min Grade: C]

PY 361. Psychology of Learning. 3 Hours.
Issues of learning in terms of current theoretical positions. Classical conditioning, instrumental conditioning, forgetting, role of motivation, and transfer of training.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 363. Cognitive Psychology. 3 Hours.
Human cognitive functioning. Selective attention, information processing, models of learning, memory, perception, and free and structured thought processes.
Prerequisites: PY 253 [Min Grade: C]

PY 370. Personality. 3 Hours.
Comparison of major theories of personality, including philosophy of human nature; structure, dynamics, and development of personality.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]
PY 372. Social Psychology. 3 Hours.
Major theories and research in social psychology. Social perception and attribution, behavior in interpersonal relationships, and group influences on individual behavior.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 375. Philosophy of Mind. 3 Hours.
Mind: its nature, forms, and functions. Consciousness, self-consciousness, action, belief, desire, rationality, personal identity; problems such as mind-body, psychological explanation, and freedom of will. Prerequisite: one previous PHL course or permission of instructor.

PY 376. Psychology and Law. 3 Hours.
Interaction between theories and applications of psychology and practice of civil and criminal law. Insanity, malpractice, competency, civil commitment, violence, jury selection, and expert-witness testimony.
Prerequisites: PY 101 [Min Grade: C] or PY 201 [Min Grade: C]

PY 380. Perception. 3 Hours.
Contemporary theory and empirical research in sensory coding of perceptual information. Sensory transduction, physiology and anatomy of sensory systems, and psychophysical measurement techniques. Visual perception, hearing and speech, smell, and taste.
Prerequisites: PY 253 [Min Grade: C]

PY 390. Animal Behavior. 3 Hours.
The foundation of animal behavior as it relates to the study of psychobiology and evolutionary psychology. Reproductive and survival strategies, communication, learning, cognition, orientation navigation/ homing, behavioral genetics, and evolution.
Prerequisites: PY 101 [Min Grade: C] (Can be taken Concurrently) or PY 201 [Min Grade: C]

PY 396. Teaching Practicum in Psychology. 1-3 Hour.
Teaching experience in psychology courses, supervised by a faculty member. Student must have previously taken the course for which the student will work within. Permission of Director of Undergraduate Studies required. Pass/Fail.

PY 397. Community-Based Practicum in Psychology. 1-6 Hour.
Community work in various supervised settings such as Crisis Center, Department of Human Resources, etc. Permission of Director of Undergraduate Studies required. (Pass/Fail) Ethics and Civic Responsibility are significant components of this course.

PY 398. Research Practicum in Psychology. 0-7 Hours.
Project or research activity supervised by faculty. Cannot be taken Pass/Fail. Permission of Director of Undergraduate Studies required.

PY 399. Psychology Honors Seminar. 1 Hour.
Focus on preparation for graduate/professional school and conducting psychological research, including presentation of research and discussion of relevant issues in statistical analysis, research methods, and ethics. Prerequisites: Admission into the Psychology Honors Program and Elementary Statistical Methods (may be concurrent enrollment).
Prerequisites: PY 216 [Min Grade: C] (Can be taken Concurrently)

PY 401. Neuroscience Seminar. 1 Hour.
Neuroscience faculty from the School of Medicine and Psychology present current research and discuss strategies for career development in medicine and research. Group discussion follows research presentation.
Prerequisites: PY 253 [Min Grade: C]

PY 405. Biofeedback, Meditation, and Self-Regulation. 3 Hours.
History and current applications of biofeedback, meditation, and relaxation techniques.
Prerequisites: PY 215 [Min Grade: C]

PY 411. Cognitive Development. 3 Hours.
Development of and changes in memory, perception, learning, and thinking throughout the lifespan.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 412. Social Development. 3 Hours.
Contemporary theoretical models and empirical research in social development. Attachment formation in infancy, parent-child and family interactions, peer relationships, moral and pro-social development, aggression, and sex role development.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 413. Psychology of the African American Child. 3 Hours.
Psychological development of African American children from birth through adolescence. Prenatal influences on growth and development, cognitive development, practices of African American families, Black English and language development, psychological testing, self-concept, racial identification, and motivation and academic achievement.
Prerequisites: (PY 212 [Min Grade: C] and PY 222 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 415. Intellectual and Developmental Disabilities. 3 Hours.
History, causes, treatment/education, behavioral interventions, and family issues related to Intellectual and Developmental Disabilities and other developmental disabilities. Psychologist as member of interdisciplinary treatment team.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C])

PY 418. Psychotherapy and Behavior Change. 3 Hours.
Different therapeutic approaches and issues relating to their effectiveness. Principles of behavior modification.
Prerequisites: (PY 218 [Min Grade: C] or PY 228 [Min Grade: C]) and (PY 316 [Min Grade: C] or PY 315 [Min Grade: C])

PY 420. Special Topics in Psychology. 3 Hours.
Issues of current interest in psychology.
Prerequisites: PY 215 [Min Grade: C]

PY 422. Infant Development. 3 Hours.
The goal of the course is to review contemporary theory, research, and methods relevant to understanding infant development. The course focuses on both normative and atypical development because an understanding of one enriches an understanding of the other. Individual differences, sociocultural diversity, and a historical perspective on the study of all these themes will be emphasized throughout. Topics will include: Genetic and environmental influences on development & temperament; Neurodevelopment & Risk; Resilience, & Intervention; Sensory development; Cognitive development; Social cognitive development, joint attention; Language development; Emotion & emotion regulation; Social Interaction; Precursors to attachment.
Prerequisites: PY 212 [Min Grade: C] or PY 222 [Min Grade: C]

PY 423. Abnormal Child Development. 3 Hours.
Current research and theories related to aberrations of normal development processes, including autism, childhood schizophrenia, and other disorders of childhood.
Prerequisites: (PY 218 [Min Grade: C] or PY 228 [Min Grade: C])

PY 425. Psychology of Aging. 3 Hours.
A comprehensive overview of psychological aspects of aging. Topics will include age-related changes in cognitive function, behavior, sensation/perception, health, and personality, as well as dementia and other forms of psychopathology. (Also offered under Gerontology.)
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C])
PY 426. Creative Arts Therapies. 3 Hours.
The goals of the course are to provide an introduction to and overview of the educational, ethical and credentialing requirements for each of the creative arts therapies. The course includes lecture, discussion, research, and presentation requirements.

PY 431. The Dynamics of Pain. 3 Hours.
Prerequisites: (PY 253 [Min Grade: C] or NBL 230 [Min Grade: C])

PY 433. Diseases of the Nervous System. 3 Hours.
Molecular mechanisms and treatments for neurological, psychiatric, and injury based disorders and diseases of the nervous system. Topics include neurodevelopmental disorders (including intellectual disability and autism spectrum disorders), neurological disorders (including neurodegenerative and demyelinating disease), neuropsychiatric disorders (including depression disorders and schizophrenia), and injury to the nervous system (including stroke and traumatic brain and spinal cord injury).
Prerequisites: PY 353 [Min Grade: B] or PY 355 [Min Grade: C] or PY 356 [Min Grade: C]

PY 436. Statistical Programming. 3 Hours.
This course integrates an introduction to the most commonly-used statistical methods in psychology and neuroscience with an introduction to statistical programming. The statistical programming material includes basic programming concepts, and focuses on specific needs of data management, data visualization, and reproducible data analysis. The statistical methods include descriptive and inferential statistics, organized around the generalized linear modeling framework.
Prerequisites: PY 216 [Min Grade: C] or PY 226 [Min Grade: C]

PY 441. Principle Cell Neuroscience Module I. 2 Hours.
Module I: Molecules, genes and cell biology of the nervous system. The first module will cover the biochemistry, molecular and cellular biology of neurons and glial cells. Topics on biochemistry and molecular biology will include protein, lipid, carbohydrate and nucleic acid biosynthesis and structure. Next, the cell biology of neurons and glial cells will be introduced, including protein and membrane transport pathways, energy metabolism, protein turnover and gene regulation. Introductory basic concepts of nervous system development will be covered, including the differentiation of neurons and glial cells and the anatomical plan of the brain and spinal cord. This developmental neurobiology concepts are intended to be an introduction to a later graduate-level course taught in the second year (Developmental Neurobiology, Keyser).
Prerequisites: PY 253 [Min Grade: D] and PY 315 [Min Grade: D]

PY 442. Principle Cell Neuroscience Module II. 2 Hours.
Module II: Membrane biophysics and synaptic transmission The second module will introduce basic concepts of membrane biophysics, as well as the electrical and chemical signaling within and across neurons. Topics will include the resting membrane potential, passive and active propagation of electrical signals, active electrogenic properties of dendrites and axons, structure and function of voltage-gated and ligand-gated ion channels, and mechanisms of action potential conduction. The molecular and cellular mechanisms of synaptic transmission, the transfer of information between neurons, will then be covered in detail. Topics will include mechanisms of synaptic vesicle synthesis and their filling with neurotransmitters, their storage, exocytosis, endocytosis and recycling, the role of neurotransmitter transporters in clearance and termination of neurotransmitter actions, postsynaptic receptors and signal transduction pathways, as well as the dynamic changes in synaptic structure and function. Fundamental basic concepts of neurotransmitter receptor pharmacology will also be presented as the bases for understanding neuropharmacology, the effect of drugs on nerve cell function.
Prerequisites: PY 253 [Min Grade: D] and PY 315 [Min Grade: D]

PY 443. Principle Cell Neuroscience Module III. 2 Hours.
Module III: Synaptic integration, synaptic plasticity and basic neuronal circuitry The third module will focus on the modulation and integration of all the synaptic inputs arriving on neurons. Topics will include temporal and spatial summation of synaptic inputs, metabotropic and neurotransmitter factor receptors and their signal transduction mechanisms through second-messenger systems, as well as long- and short-term synaptic plasticity, including LTP and LTD as current cellular models of learning and memory. The neurochemical bases of neurological and psychiatric disorders will also be covered. Finally, sensory transduction and motor control systems will be covered as an introduction to a later graduate-level course taught in the second year (Integrative Neuroscience, Gamlin).
Prerequisites: PY 253 [Min Grade: D] and PY 315 [Min Grade: D]

PY 444. Principle Cell Neuroscience Module IV. 1 Hour.
Module IV: Discussion of classical and contemporary research articles This class will use a journal club format to dissect and discuss primary research literature on topics that parallel the material taught in lectures. Research articles will include groundbreaking seminal papers ("classical") and modern, state-of-the-art experimental approaches in Neuroscience ("contemporary")

PY 453. Advanced Behavioral Neuroscience. 4 Hours.
Neural systems which control behavior will be studied, incorporating knowledge gained from neurobiological and psychological research. Topics will include synaptic communication, sensation and perception, movement, genetic influences on behavior, motivation, emotions, psychopathology, brain plasticity, and an extended module on learning. The associated lab will utilize the collection and analysis of physiological data to reinforce core course concepts.
Prerequisites: PY 353 [Min Grade: D] or PY 355 [Min Grade: D] or PY 363 [Min Grade: D] or NBL 355 [Min Grade: D]

PY 453L. Advanced Behavioral Neuroscience Laboratory. 0 Hours.
Advanced Behavioral Neuroscience Laboratory required with PY 453 lecture. Concurrent enrollment in PY 453 required.

PY 454. Advanced Topics in Behavioral Neuroscience. 3 Hours.
Advanced Topics in Behavioral Neuroscience will cover methods and discoveries in the neuroscience of behavior, such as brain imaging, human and animal learning, perception, neurophysiology, neuropharmacology and psychiatric disorders.
Prerequisites: PY 453 [Min Grade: C]
PY 455. Psychology of Eating Disorders and Obesity. 3 Hours.
The history, epidemiology, genetic, environmental, and behavioral correlates and prevention and treatment strategies of eating disorders and obesity. Includes mechanisms of normal feeding and weight control and general research methods used to understand psychiatric disorders.
Prerequisites: PY 253 [Min Grade: C] and (PY 315 [Min Grade: C] or PY 316 [Min Grade: C]) and (PY 353 [Min Grade: C] or PY 335 [Min Grade: C] or PY 355 [Min Grade: C])

PY 457. Neural Measurement Lab. 3 Hours.
This course is about how to obtain nervous system data. It will include basic and applied research techniques, including data collection, measurement, and analysis methodology. Students will learn basic instrumentation for the measurement of autonomic and central nervous system responses related to psychological, psychophysiological, and emotional tasks.
Prerequisites: PY 253 [Min Grade: B] or PY 353 [Min Grade: C]

PY 460. Advanced Neuroscience: From Molecules to Mind. 3 Hours.
Builds on foundation set in PY 355. Provides in-depth understanding of nervous system functions at molecular, cellular, biophysical, and circuit level. Includes developmental, cognitive, systems and clinical neuroscience.
Prerequisites: PY 355 [Min Grade: C]

PY 463. Cognitive Neuroscience. 3 Hours.
Interdisciplinary study of higher-order cognitive functions in humans. Data from functional brain imaging, neurology, neuroanatomy, and neurophysiology used in study of human perception, language, learning, and memory.
Prerequisites: PY 253 [Min Grade: C] or PY 353 [Min Grade: C]

PY 464. Honors Cognitive Neuroscience. 3 Hours.
Interdisciplinary study of higher-order cognitive functions in humans. Data from functional brain imaging, neurology, neuroanatomy, and neurophysiology used in study of human perception, language, learning, and memory.
Prerequisites: PY 353 [Min Grade: C] or PY 355 [Min Grade: C] or PY 363 [Min Grade: C] or NBL 355 [Min Grade: C]

PY 465. Neural Analysis Lab. 3 Hours.
This course extends the analysis methodology from the PY 457 course and includes an advanced focus on the processes associated with data examination (probability and basic statistics), and how to model data (Simulink and Matlab).
Prerequisites: PY 457 [Min Grade: C]

PY 466. Cognitive Neuroimaging. 3 Hours.
This course will focus on examining the neural bases of higher cognitive and social functions. We will discuss the basics of functional MRI and will study scientific papers in neuroimaging to arrive at neural characterization of cognitive functions, such as: executive functions, emotion, intentionality, language comprehension, and social cognition. This course will provide students a unique opportunity to learn about the potential of neuroimaging in understanding cognition. It will also help students refine their research interests and possibly choose the field of neuroscience to pursue further studies.
Prerequisites: PY 315 [Min Grade: C] or (PY 316 [Min Grade: C] and PY 253 [Min Grade: C])

PY 470. Introduction to Neurobiology. 4 Hours.
Students will be introduced to the fundamental basis of neuronal communication and the neurobiological bases of behavior. They will use laboratory exercises to learn to form hypotheses and to collect and analyze experimental data to test their hypothesis. Topics will include invertebrate and vertebrate neuroanatomy, neurons and glia, resting potentials, action potentials, synaptic transmission, neurotransmitters and receptors, sensory transduction, and sensorimotor integration. This class is taught at the Dauphin Island Sea Lab.

PY 472. Social Psychophysiology. 3 Hours.
Current research on the effects of the social world on hormonal responses (cortisol, testosterone etc.). Several research articles will be discussed every week in a seminar format.
Prerequisites: PY 215 [Min Grade: C]

PY 474. Psychology of Strengths & Virtues. 3 Hours.
Introduction to “positive psychology,” which is the application of psychological science to questions such as what makes people happy, how do you foster hope, and is being curious an adaptive trait.
Prerequisites: PY 316 [Min Grade: C]

PY 488. Pediatric Psychology. 3 Hours.
Behavioral influence on health and illness; impact of health problems and illness on behavior and development of children and adolescents; family issues related to these interactions.
Prerequisites: (PY 212 [Min Grade: C] or PY 222 [Min Grade: C])

PY 490. Psychology Capstone/SL. 3 Hours.
Capstone emphasizes the synthesis of knowledge and research skills expected of the undergraduate Psychology major. Students are guided in conducting research within a specific content area. Use of computers in statistical analysis of psychological research data. Also includes class readings and discussions on ethical issues. Observation or community service in selected social service agencies is an integral part of the course. Ethics and Civic Responsibility, Writing and Quantitative Literacy are significant components of this course. This is a designated service-learning course integrating academic learning, civic learning and meaningful service to the community.
Prerequisites: PY 315 [Min Grade: C] or PY 316 [Min Grade: C]

PY 499. Psychology Honors Thesis. 2 Hours.
The Capstone course represents the culmination of the undergraduate major in Psychology for participants in the Psychology Honors Program. Students complete their honors thesis with guidance from their research mentor and the honors program Director, and defend their thesis in the Psychology Honors Seminar, and also present their research at a conference or in another public venue. Participation in the Honors Program in Psychology and completion of 3 semesters of PY 399 required, one of which may be concurrently enrolled.
Prerequisites: PY 399 [Min Grade: D](Can be taken Concurrently)

QM-Quantitative Methods Courses
Courses

QM 214. Quantitative Analysis I. 3 Hours.
This course is an introductory course to statistics and data analyses for business students. Students will be exposed to basic statistical concepts and procedures to handle the data. Students are expected to recognize the nature of their data, select appropriate procedures, perform requisite calculations, demonstrate computer proficiency, and explain the results to layperson.
Prerequisites: (MA 105 [Min Grade: C] or MA 109 [Min Grade: C] or MA 125 [Min Grade: C]) and BUS 110 [Min Grade: C]

QM 215. Quantitative Analysis II. 3 Hours.
QM215 is the sequel of QM214 and a continuation of introductory statistics and data analyses. Built upon students' understanding of descriptive statistics and probability, this course exposes students to inferential statistics. Upon finishing the course, students are expected to know how to formulate hypotheses, collect data, select appropriate model(s), conduct statistical analyses, and present statistical findings with proper support of statistical graphs.
Prerequisites: QM 214 [Min Grade: C]

QM 350. Quantitative Methods for Finance. 3 Hours.
Development of the mathematical foundations of undergraduate level financial modeling and analysis, including applications of calculus, probability theory, linear algebra and Monte Carlo simulation to the measurement of asset returns and the assessment of risk, to the pricing of options and other financial derivatives, and to the solution of important financial optimization problems.
Prerequisites: (QM 215 [Min Grade: C] and GPAT and GPAO 2.00) and (QM 215 [Min Grade: C] and GPAU 2.00 and GPAO 2.00)

QM 420. Applied Forecasting. 3 Hours.
Practical use of various forecasting techniques on business and economic data. Topics include dynamic regression models, exponential smoothing, forecast criteria, moving averages, seasonality, and univariate Box Jenkins ARIMA modeling. Completion of all pre-business requirements required.
Prerequisites: (GPAT and GPAO 2.00 and EC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and EC 246 [Min Grade: C] and QM 215 [Min Grade: C]) or (GPAT and GPAO 2.00 and AC 201 [Min Grade: C] and EC 210 [Min Grade: C] and EC 211 [Min Grade: C] and LS 246 [Min Grade: C] and QM 215 [Min Grade: C])

QM 490. Advanced Topics in Statistics/Management Science. 3 Hours.
Statistics/management science application to problems in business and economics.
Prerequisites: (GPAT and GPAO 2.00) or (GPAT 2.00 and GPAO 2.00)

QM 499. Directed Readings in Quantitative Methods. 1-3 Hour.
Readings and independent study in selected areas.
Prerequisites: (GPAT and GPAO 2.00) or (GPAT 2.00 and GPAO 2.00) and EC 211 [Min Grade: C] and QM 215 [Min Grade: C] and EC 210 [Min Grade: C]

RST-Respiratory Therapy Courses

Courses

RST 440. Asthma Certification Preparation Course. 4 Hours.
The content of this course will cover the asthma condition, pathophysiology of asthma, factors that contribute to acute and chronic asthma, patient history, physical examination of the asthma patient, objective measures to identify and assess asthma severity, how to assess the patient's performance and asthma protocols.

SOC-Sociology Courses

Courses

SOC 100. Introduction to Sociology. 3 Hours.
Human social life, its forms and consequences for everyday life. Social inequality and differentiation by race, ethnicity, class and gender. Assessment of the competency is through performance on course examinations, quizzes, and written assignments. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

SOC 120. Introduction to Social Psychology. 3 Hours.
How societies and groups affect perception of self and others; emotional climate and structure of group interaction; processes and dynamics of group leadership, interaction, and dissolution.

SOC 130. Intimate Relationships and the Family. 3 Hours.
Contemporary trends of marriage, cohabiting and partnerships; dating and courtship; social and psychological factors in male selection; marital adjustment; role of sex, money, and children in marriage; divorce, other crisis situations, and changing patterns of family relationships in U.S. including the increase in LGBT families.

SOC 135. Human Sexuality. 3 Hours.
Social basis of sexual interaction; varieties of sexual interaction; sexuality related to daily life; attitudes, contraceptive use, and fertility and fecundity; sex role controversies; relation to institutions such as family, religion, medicine, and education; social definitions as determinants of behavior.

SOC 200. Social Change. 3 Hours.
Understanding social change helps us to better anticipate, prepare for, and shape the future. Examination of how and why human societies have changed so profoundly since prehistoric times; focus on information and technology as catalysts for change; patterns of change in contemporary societies from world system and comparative perspectives.

SOC 220. Sociology of Sex and Gender. 3 Hours.
This course discusses the presumed biological differences; socialization differences of females and males; positions in and treatment by major institutions such as education, religion and economy; influence of gender labeling on development and lives of individuals.

SOC 235. Sociology of Religion. 3 Hours.
Social aspects of individual religious experience; organization of churches and sects; relationships among religion, science, and other institutions; Major faith groups: religion and global conflict.

SOC 245. Contemporary Social Problems. 3 Hours.
How certain social conditions or behaviors come to be seen as social problems, why they persist and how they can be changed. Emphasis on understanding contemporary issues, and how diverse social groups are impacted by them. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.
SOC 250. Sociology of Race and Ethnicity. 3 Hours.
Various ethnic and racial groups, with emphasis on theory and research on intergroup relations; internal structure, culture, and experiences of ethnic groups, with emphasis on contemporary American society.

SOC 275. Urban Sociology. 3 Hours.
Lifestyle changes in urban society; social and demographic characteristics of cities; benefits and problems resulting from these characteristics; urban problems compared with rural and suburban problems.

SOC 278. Global and International Sociology. 3 Hours.
Globalization is a pervasive feature of contemporary social life. A world economy, a world polity, and a world culture are rapidly expanding. This course examines globalization's aspects and impacts to begin understanding its causes, effects, and implications for our own lives.

SOC 280. Introduction to Medical Sociology. 3 Hours.
Social and cultural factors in defining health and illness; social determinants of health; health and illness behavior; health professionals; organization and delivery of health care in the U.S. (This course was formerly titled Health and Society).

SOC 282. Minority Health. 3 Hours.
The relationship between race, ethnicity, health, social and behavioral factors, and health policy. Health related issues specific to various racial and ethnic groups will be discussed.

SOC 283. The Sociology of Mental Health. 3 Hours.
Examination of mental and illness in its social context the social construction of mental health and illness the interrelationships between social structure, social factors, stress, coping resources and mental health experiences of mental health and illness.

SOC 285. Introduction to Aging. 3 Hours.
Aging experience in modern world. Theories of aging, dimensions of aging, everyday concerns associated with aging, and future prospects of aging.

SOC 290. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: C]

SOC 291. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 292. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 293. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 294. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 295. Special Topics in Sociology. 1-3 Hour.
Irregularly offered courses on special topics in sociology. Varies in content. May be repeated for credit but topic may not be repeated.
Prerequisites: SOC 100 [Min Grade: D]

SOC 300. Sociology of Aging. 3 Hours.
Examining the aging experience in modern society. Theories of aging, dimensions of health and illness, the interrelationships between social structure, social factors, stress, coping resources and mental health experiences of mental health and illness.

SOC 310. Sociological Literacy. 3 Hours.
Focus on the critical understanding of the sociological imagination through social research. This class will advance an understanding of the development, production, and interpretation of social research, including statistical analysis. The goal of the course is to provide students with the tools they need to become better consumers of social science research.
Prerequisites: SOC 100 [Min Grade: D]

SOC 315. The Sociology of Terrorism. 3 Hours.
Examination of the social and social psychological explanations of the phenomenon, with particular emphasis given to theories of social construction of terrorism.

SOC 316. Popular Culture. 3 Hours.
Relationship between popular culture, our cultural heritage, and present cultural identity. Connections with big business, music, sports, politics, film and mass media. Analyze cultural objects (movies), compare past mindsets with the present.

SOC 317. Sociology of Social Media. 3 Hours.
Communication and information technology as a product of social, economic, political, cultural forces. Its impact on everyday life. Focus on the Internet and how individuals use it to gather, distribute and convey information.

SOC 319. Sociology of Aging. 3 Hours.
Focus on the aging as a unique region. Examining areas such as history, politics, race relations, religion, music, personality, social types and collective behavior.
Prerequisites: SOC 100 [Min Grade: C]

SOC 320. Sociology Through Fiction. 3 Hours.
Sociological theories and concepts as illustrated in contemporary fiction. Classes will vary in terms of the fictional genre explored.

SOC 323. Social Structure and Personality. 3 Hours.
Interaction of social structure and personality; motivation, cognition, and impact of family, social class, and other institutions on personality development and mental illness.

SOC 335. Human Sexuality: A Comparative Approach. 3 Hours.
Sexual identity from a sociological perspective. Topics include: theories of sexual orientation, social movements related to sexual identity, development of sexual identity over the life course, and relationship to social institutions such as the family, medical community, and legal system.

SOC 336. Sport and Society. 3 Hours.
Sociological analysis of sport in contemporary societies. Sport as microcosm of society and modern institution; socialization process, problems of racial and sexual inequality, aggression and violence, mass media, and societal change.

SOC 340. Deviant Behavior. 3 Hours.
How and why certain behaviors, thoughts, and characteristics are labeled deviant; how and why certain individuals are labeled; consequences of being labeled; individual and group conflict; socialization to deviance; education; law enforcement; institutions; influence on family and friends.

SOC 350. Sociology of Hip Hop. 3 Hours.
Examines the emergence and impact of Hip Hop music and culture from historical, aesthetic, and sociopolitical perspectives.

SOC 370. Population Problems. 3 Hours.
Scope and method of population analysis; analysis of growth, distribution of characteristics, and changes of population of U.S.; impact of changes in population structure on American and world society.
SOC 383. Drugs and Society. 3 Hours.
Variety of legal and illegal drugs in use in our society, their history, their social effects, and strategies for control and prevention of their abuse.

SOC 395. HIV/AIDS and Society. 3 Hours.
This course explores the social impact of HIV/AIDS in local, national, and international contexts, focusing on how society has responded to and changed as a result of HIV/AIDS, including public health surveillance and interventions, policies and funding for prevention/research, and broader cultural changes.

SOC 405. Mind, Self and Society. 3 Hours.
Symbolic interaction as major theoretical perspective of sociological social psychology; origins of approach in Mead, Blumer, and Goffman. Significance of concepts such as role-taking, impression management, self, identity and symbolic interaction.

SOC 407. Development of Sociological Theory. 3 Hours.
Social thought from earliest classic thinkers to current sociological theories; interrelationship between sociological theory and research; how theories are constructed; application of theory to contemporary problems through various writing assignments. Writing is a significant component of this course.

SOC 408. Medical Sociological Theory. 3 Hours.
This course provides a basic introduction to the use of sociological theory in medical sociology. The course begins with an examination of the relevant work of classical theorists, such as Durkheim and Weber, and extends to contemporary theory, including theories that have been developed by medical sociologists.

Prerequisites: SOC 310 [Min Grade: C]

SOC 410. Social Statistics. 4 Hours.
Elementary techniques and analysis; preparation and use of graphs and tables; measures of central tendency and dispersion; probability and sampling; tests of significance and measurements of association. Quantitative Literacy is a significant component of this course.

Prerequisites: MA 102 [Min Grade: D] or MA 110 [Min Grade: D]

SOC 410L. Social Statistics Laboratory. 0 Hours.
Laboratory component of the Capstone course, required of all Sociology majors. Cross listed as SW 321L. Quantitative Literacy is a significant component of this course.

SOC 415. Social Stratification. 3 Hours.
Inequality of wealth, prestige, and power distribution examined as caste-class differences; effect of stratification on individuals and their behavior, lifestyle, and life chances.

SOC 417. Political Sociology. 3 Hours.
Political sociology traces the relationships between political ideas, government structures, social life, and the neverending efforts of individuals and groups to modify these relationships to achieve their best notions of the good life.

SOC 431. Environmental Sociology. 3 Hours.
Examines the interaction between the biophysical environment and human society, how social processes, define, construct, and alter the environment, and human causes and consequences of environmental problems.

SOC 445. Biology and Society. 3 Hours.
This course introduces students to the basic techniques and theoretical models through which modern sociologists and other social scientists incorporate genetic and biological information and processes into their understanding of society.

SOC 456. Death and Dying. 3 Hours.
Death, dying and bereavement from sociological and social psychological perspectives.

SOC 457. Family Relations over the Life Course. 3 Hours.
This course examines family relationships from middle to late adulthood from a sociological perspective. We examine issues such as caregiving, preparing for retirement, family relationships and how they vary depending on family structure, effects of divorce and remarriage, parenting at older ages and assisted reproductive technologies, transfers and saving, family ties etc. Much of the class is oriented towards how later life experiences are guided by earlier life situations.

SOC 460. Sociology of Work. 3 Hours.
Social organization of occupations; role and function in modern industrial society; gender and race; professionalism, job choices, and careers and stress; labor force composition, unemployment, and retirement. This class often does a field trip to a local business.

SOC 470. Population Dynamics. 3 Hours.
Scope and method of population analysis; analysis of growth, distribution of characteristics, and changes of population of U.S.; impact of changes in population structure on American and world society.

SOC 480. Sociology of Health and Illness. 3 Hours.
Critical evaluation of medical care system and health policy; social consequences of current health issues; social causes of health and illness; alternative practitioners and self-help groups. (This course was formerly titled Medical Sociology).

SOC 482. Gender and Health. 3 Hours.
Sociological, psychological and biological explanations of gender differences in mental and physical health across the life course.

SOC 484. Quantitative Research Methods. 3 Hours.
Comprehensive introduction to quantitative research in the social sciences, with an overview of the scientific method and the philosophy of science. Detailed study of quantitative research designs, sampling techniques, and measurement.

Prerequisites: SOC 310 [Min Grade: C]

SOC 486. Qualitative Research Methods. 3 Hours.
Learn methods for conducting qualitative sociological research including participant observation, interviews, and content analysis; ethics of qualitative research; ethnographic field strategies; preparing for and conducting in-depth interviewing and focus groups; analyzing the interrelationships between research and thinking theoretically; reading and evaluating qualitative research; proposing own research projects using appropriate qualitative methods.

Prerequisites: SOC 310 [Min Grade: C]

SOC 488. Sociological Practice/SL. 3 Hours.
Students will be involved in community research and/or service-learning projects related to a substantive area of sociology or gerontology. Placement in community organizations to focus on research or practice related to social policy.

SOC 489. The Research Experience. 4 Hours.
Capstone includes application of the basic tools of inquiry in sociological research; basic ethical issues in research; forming the research question; hypothesis testing; measurement, sampling, validity and reliability; data gathering techniques; research design; data management; disciplinary standards for writing the research proposal and reporting findings. For students in their last 30 hours.

SOC 489L. The Research Experience Laboratory. 0 Hours.
Laboratory component of the Capstone course, required of all Sociology majors.
SPA-Spanish Courses

Courses

SPA 101. Introductory Spanish I. 3 Hours.
This course introduces students to the language by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Spanish is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 101L. Introductory Spanish I Lab Practice. 1 Hour.
Lab for Introductory Spanish I.

SPA 102. Introductory Spanish II. 3 Hours.
This course continues to develop the language-learning process by focusing on the acquisition of essential elements for basic communication and development of the practical language skills (listening, speaking, reading, and writing) for communicating in daily life situations, as well as provides a broader awareness of and appreciation for the cultures of the countries where Spanish is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 102L. Introductory Spanish II Lab Practice. 1 Hour.
Lab for Introductory Spanish II.

SPA 108. Introductory Intensive Spanish. 4 Hours.
Accelerated essentials of language and culture needed for communication. Includes listening comprehension, speaking, writing, and reading. Fast-paced review of SPA 101 and SPA 102. Conducted in Spanish. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 180. Spanish for Health Professionals. 3 Hours.
Intensive conversation course to expose health professionals to basic vocabulary of Spanish-speaking patients. Focus on practical vocabulary, idiomatic expressions, and cultural patterns of Spanish-speaking patients with little or no proficiency in English. Conducted in Spanish.

SPA 190. Study Abroad. 0-8 Hours.
Approved program in a Spanish-speaking country.

SPA 201. Intermediate Spanish I. 3 Hours.
This course is designed to help students make the transition to natural communication and develop the language-learning process by focusing on the expansion of necessary elements for development of the practical language skills (listening, speaking, reading, and writing) by using cultural and literary readings as well as grammatical exercises. It also provides a broader awareness of and appreciation for the cultures of the countries where Spanish is spoken. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 202. Intermediate Spanish II. 3 Hours.
Continuation of SPA 201. Conducted in Spanish. This course meets the Core Curriculum requirements for Area II: Humanities.

SPA 203. Intermediate Spanish Review. 3 Hours.
This course is designed as a review of the content covered in Introductory Spanish I, Introductory Spanish II, Intermediate Spanish I, and Intermediate Spanish II, while deepening the knowledge and understanding about different grammatical and cultural topics. This course is especially useful for students who have already taken Spanish courses at the intermediate level but whose exposure has been limited or fragmented in recent times. The primary focus of this course is to improve communication skills in Spanish. Therefore, Spanish is the language of instruction.

Prerequisites: SPA 201 [Min Grade: D]

SPA 206. Intermediate Spanish for the Professions. 3 Hours.
Focusing on Spanish-speaking professional culture, this course emphasizes elementary-level conversation acquisition and vocabulary. Conducted in Spanish.

SPA 210. Conversation and Culture. 3 Hours.
Development of oral expression within the context of contemporary Spanish-speaking cultures. Intermediate Spanish course recommended for students who have completed Spanish 201. Given entirely in Spanish. Oral proficiency developed through conversation partners and teams. Internet technology is used to facilitate communication. Culture is learned through film and other authentic texts. Final project synthesizes cultural topics and oral language skills.
SPA 214. Introduction to Translation for the Professions. 3 Hours.
This course focuses on the improvement of the Spanish language through translation. While studying basic aspects of translation and translating short texts from a variety of sources in the context of contemporary situations, students review the most important and complex structures of the Spanish language as they relate to English. Students will work in a collaborative workshop format—In Spanish—in order to better understand the process of translating and editing one’s work.
Prerequisites: SPA 201 [Min Grade: C]

SPA 233. Intermediate Spanish Grammar in Context. 3 Hours.
This course is an intermediate-level Spanish course that focuses on the language skills of writing and speaking. It has been designed to help students improve their proficiency and fluidity in the language and in the cultures of the Spanish-speaking world, focusing on grammatical understanding, and written and oral communication in formal and informal situations. All the while, the course exposes students to a variety of authentic cultural contexts in the Hispanic world.

SPA 280. Spanish for Health Professionals. 3 Hours.
This course focuses on the Spanish-speaking health-related culture, presenting practical vocabulary, idiomatic expressions, medical terminology, and cultural attitudes of Spanish-speaking patients towards health issues. This course builds and develops the speaking, listening, and reading skills by emphasizing intensive conversation, technical reading, and vocabulary acquisition. Conducted in Spanish.

SPA 290. Study Abroad. 1-6 Hour.
Approved program in a Spanish-speaking country.

SPA 299. Special Readings in Spanish. 1-3 Hour.
Directed readings in intermediate Spanish. Studies select texts of the Spanish-speaking world to increase overall literacy in Spanish.

SPA 300. Advanced Grammar in Context. 3 Hours.
Designed to improve the use of fundamental grammatical structures of Spanish in diverse contexts. Strong emphasis is given to the development of writing skills that are appropriate for this level. Six hours of SPA courses at the minor level required. Writing is a significant component of this course.

SPA 304. Phonetics and Phonology. 3 Hours.
Course focuses on how the Spanish sound system functions in various regions. Development of pronunciation through oral practice. Conducted in Spanish.

SPA 310. Cultures of the Spanish-Speaking World. 3 Hours.
Historical overview of the heritage of Spain, Latin America, and the Hispanic U.S., with emphasis on social, political, and economic institutions. Conducted in Spanish.

SPA 311. Greatest Hits of Hispanic Literature I. 3 Hours.
This course is an overview of Spanish civilization, culture, literature, and the arts from early to contemporary times. Highlights of best selling works of various authors, with emphasis on fundamental literary concepts and distinctive stylistic features of Spanish discourse, will be reviewed. Conducted in Spanish.

SPA 312. Greatest Hits of Hispanic Literature II. 3 Hours.
This course is an overview of Latin American civilization, culture, literature, and the arts from early to contemporary times. Highlights of best selling works of various authors, with emphasis on fundamental literary concepts and distinctive stylistic features of Spanish discourse, will be reviewed. Conducted in Spanish.

SPA 313. Business Spanish. 3 Hours.
Vocabulary, idioms, protocol, and style characteristic of speaking and writing commercial Spanish. Concentration on writing letters, job descriptions, advertisements, and import-export documents. Conducted in Spanish.

SPA 314. Applied Spanish Translation and Interpretation. 3 Hours.
This course focuses on the improvement of the Spanish language for the professions through translation. While studying general aspects of translation and interpretation, and translating short texts from a variety of sources within the context of the professions, such as business, health, journalism (magazines, papers, and TV), legal, sports, and technology, students review the most important and complex structures of the Spanish language as they relate to English with an emphasis on vocabulary building. Students will work in a collaborative workshop format—in Spanish—in order to improve the process of translating, interpreting, and editing one’s work. Conducted in Spanish.

SPA 320. Hispanic Cultures Through Culinary Art. 3 Hours.
This course has been designed for advanced Spanish students to develop an understanding of cultural differences within the Spanish-speaking world through culinary art. The course focuses on cultural competence in order to appreciate the importance of food in culture and the different cooking styles of the Hispanic World. Students will discover how Hispanics shape cultural values around the kitchen table, such as business, family, holidays, and traditions. Such a thematic approach will allow students to penetrate into the universal commonalities among cultures, as well as to appreciate important differences in the various cultures. This course also develops necessary communicative skills for a professional career in the culinary sector. Offered in Spanish.

SPA 350. Hispanic Children Stories. 3 Hours.
This course has been designed to help students of Spanish transition from an intermediate to an advanced level of proficiency in the language, and move students to learn content through language and language through content. It focuses on the language skill of reading, through the exploration and understanding of Hispanic Children’s literature. This is an innovative way to introduce the literatures and cultures of the Spanish-speaking world. Conducted in Spanish.

SPA 380. Advanced Spanish for Health Professionals. 3 Hours.
This advanced course emphasizes intensive Spanish conversation, technical readings and vocabulary pertinent to the medical field. The course focuses on practical vocabulary, idiomatic expressions, medical terminology and cultural patterns of Spanish-speaking patients, and further expands on functions and notions of the language related to the medical field. Course conducted in Spanish.

SPA 390. Study Abroad. 1-6 Hour.
Approved program in a Spanish-speaking country.

SPA 399. Special Readings in Spanish. 1-3 Hour.
Directed readings in Spanish.

SPA 401. Voices of Imperial Spain. 3 Hours.
Culture and civilization of Imperial Spain from the age of the Catholic Monarchs to the close of the Hapsburg Dynasty (1469-1716). Includes a study of the art, historical documents and literature from both the center and periphery of the Empire. Selected works by representative authors will vary according to instructor. Conducted in Spanish.
SPA 402. Voices of Colonial Latin America. 3 Hours.
Culture and civilization of Colonial Latin America from the advent of European dominance to the decades following the Spanish American War (1492-1920). Emphasis on the blending of Spanish, Amerindian, and African cultural forms and their diverse literary expressions. Selected works by representative authors will vary according to instructor. Conducted in Spanish.

SPA 403. Contemporary Spanish Literature and Film. 3 Hours.
Cultural and literary trends of Spain from the transformation of Spanish society in the late nineteenth century to the post-Franco era. Conducted in Spanish.

SPA 404. Medicine and Literature in the Spanish-Speaking World. 3 Hours.
How does literature help us to understand the relationship between medicine, culture, and politics? This class, which seeks answers and related questions, focuses on the role of medical science in literary and cultural texts from Latin American countries, Spain, and the United States. Students will read short stories, poems, novel excerpts, and essays, and they will interpret films and visual art to discuss how medicine and the humanities supplement one another to create a richer understanding of the human body and its role in the historical development of Europe and the Americas. Offered in Spanish.

SPA 405. US Latino Writers. 3 Hours.
Focus on the growing body of literature written by Latinos in the United States. Explores Latino issues and cultural identity through the analysis of their narrative works and experience. Conducted in Spanish.

SPA 407. Indigenous and Indigenist Latin America. 3 Hours.
Cultural and literary forms of Amerindian, Hispanic or mixed-descent writers of Latin America. Focus on the concepts of hybridity, syncretism and mestizaje. Conducted in Spanish.

SPA 409. Spanish-Speaking Nobel Laureates. 3 Hours.
Literary masterpieces of the Spanish-speaking world. Conducted in Spanish.

SPA 411. Cervantes and the Quixote. 3 Hours.
This course will review the major episodes of Don Quixote de La Mancha, one of the most influential works of Spanish and World literature, as well as other selected works written by Cervantes. Emphasis will be given to the author’s unique contribution to the birth of the modern novel and his ingenuity to create stories that transformed all literary genres. These readings will be analyzed within the civilization of the Golden Age of Spain, while exploring a diverse array of topics, such as: love and marriage, religion, race, class, magic, madness, and honor. Conducted in Spanish.

SPA 412. Voices of Contemporary Latin America 1920-Present. 3 Hours.
Cultural and literary trends of Latin America from la nueva narrativa through the Boom and post-Boom periods. Focus on Mexico, Northern Latin America, and the Southern Cone. Conducted in Spanish.

SPA 414. Afro-Latin American Literature and Culture. 3 Hours.
The diverse cultures of many Latin American nations will be discussed with a focus on the descendants of Africa in the Americas. Slavery will be discussed during the colonial and independence periods. Black identity and cultural forms will be discussed through the writers, musicians, and filmmakers of the twentieth and twenty-first centuries. Parallels and connections will be drawn to race and history in the United States. Conducted in Spanish.

SPA 416. Special Topics in Spanish. 3 Hours.
Seminar on individual authors, specific genres, literary movements, literary discourse/theory, or transatlantic studies. Conducted in Spanish. May be repeated for credit.

SPA 420. Introduction to Hispanic Linguistics. 3 Hours.
This advanced Spanish linguistics course is intended to analyze, clarify and expand upon critical aspects of the Spanish language. The course will provide a general understanding of the Spanish sound system (phonetics and phonology), morphology and syntax, as well as an introduction to relevant topics within the field of Hispanic linguistics.

SPA 430. Spanish Sociolinguistics. 3 Hours.
This advanced Spanish linguistics course provides a general overview of sociolinguistics and the pragmatics of oral communication in Spanish. This course studies the Spanish language in its social context. In addition to specific regional linguistic features, social factors such as geography, social class, politics, race, gender, economics, education and history are discussed as determiners of the linguistic landscape.

SPA 440. History of Spanish Language. 3 Hours.
This advanced Spanish linguistics course provides a general overview of the evolution of Spanish language, while relating it to relevant historical events. It pays special attention to diachronic change in order to understand the phenomenon of language variation in a multicultural society.

SPA 450. Spanish Second Language Acquisition. 3 Hours.
This course describes the cognitive, developmental and linguistic processes involved in the acquisition of Spanish as a second language while exploring the basic research techniques used in the field.
Prerequisites: SPA 300 [Min Grade: D]

SPA 460. Globalization in the Hispanic World. 3 Hours.
This course develops a constructivist framework for the study of contemporary globalization issues in the Hispanic world by engaging students in higher-level discussions and critical thinking. Through films, music and literature, and guided research, course explores history, politics, economics and sociocultural issues of the recent Spanish-speaking world. Conducted in Spanish.

SPA 461. Contemporary Spain. 3 Hours.
This course develops a constructivist framework for the study of contemporary Spain by engaging students in higher-level discussions and critical thinking. Through films, music and literature, and guided research, course explores recent Spanish history, politics, economics and sociocultural issues. Conducted in Spanish.

SPA 462. Contemporary Latin America. 3 Hours.
This course develops a constructivist framework for the study of contemporary Latin America by engaging students in higher-level discussions, critical thinking, and active learning. Through films, music and literature (poems, short stories and novel excerpts), and guided research, course explores recent Latin American history (late 20th and 21st centuries), politics, economics and sociocultural issues and their global impact, such as the construction of a new Hispanic American identity and nationalism; the new Mexico after the Revolution; the Cuban Revolution and its aftermath; Central American revolutions and their peace processes; and the processes of democratization, development and integration in South America. Course conducted in Spanish.
SPA 485. Spanish for Leadership at the Workplace. 3 Hours.
This is a culminating course in the Applied Professional Spanish major concentration. The course provides an opportunity to practice professional Spanish through service-learning by requiring a practical experience locally or abroad. Students work side by side with well-established community partners to explore and transform the community’s linguistic landscape in order to make public spaces more accessible, inclusive and welcoming to the Spanish-speaking community. Course conducted in Spanish.

SPA 490. Study Abroad: Spanish. 1-6 Hour.
Approved program in a Spanish-speaking country.

SPA 499. Directed Studies. 1-3 Hour.
Directed readings in Spanish. Conducted in Spanish.

STH-Science and Tech Honors Courses

Courses

STH 151. Problem Analysis and Project Planning. 1 Hour.
Students will apply leadership and teamwork skills to analyze a problem or need and develop a plan to address the need. Skills such as developing measurable outcomes and communicating with stakeholders are emphasized.

STH 199. Introduction to the Scientific Process. 3 Hours.
Fall semester of freshman year. First-year Honors Seminar for students accepted in the Science and Technology Honors Program. Discussion of basic concepts of scientific methodology will be integrated with analysis of scientific journal articles and use of visual representations to communicate ideas. Students learn about research ongoing at UAB through working with a small team to analyze a scientific publication. The course will culminate in presentation of a poster representing their analysis of the article.

STH 201. Research Approaches. 3 Hours.
Spring semester of freshman year. Hands-on experience with research methods. Students participate in a lab experience such as biotechnology, engineering, molecular genetics, or chemical analysis in which they learn state-of-the-art techniques used in research laboratories.

STH 220. Special Topics in Science and Technology. 3 Hours.
Explore topics that span multiple scientific or technical disciplines addressing pertinent theoretical, practical, and ethical issues.

STH 240. Big Ideas in Science and Innovation. 3 Hours.
Seminar that builds on scientific thinking skills developed in previous STH courses. In this course, students will examine science as a way of knowing. We will explore the relationship between scientific research and the public conversation around a topic. Both primary scientific and popular press sources will be considered.

STH 250. Prime Time Leadership. 1-3 Hour.
Carry through leadership or innovation project. Document outcome of the project, report to stakeholder, and prepare public presentation of project. Prerequisites: STH 151 [Min Grade: C]

STH 299. Interdisciplinary Seminar. 3 Hours.
Fall semester of sophomore year. Team-taught course with faculty from several disciplines addressing how a complex problem is addressed by multiple disciplines. This course will illustrate the synergy achieved by interdisciplinary analysis of problems.

STH 301. Statistics and Design Overview. 3 Hours.
Spring semester of sophomore year. Introduction to statistics and research design. Covers basics of experimental design and statistical decision theory; indices of central tendency, variability, and association; graphical data presentation; and statistical inference.

STH 302. Statistics/Design Overview Lab. 1 Hour.
Spring semester of sophomore year. Computer laboratory component of STH 301 Statistics and Design Overview. Lab will illustrate principles and provide hands-on experience with statistical methods.

STH 310. Communicating Science. 1-3 Hour.
Students will collaborate with university faculty and staff to produce media products which communicate scientific concepts to the public. Permission of instructor is required.

STH 320. Advanced Topics in Science and Technology. 3 Hours.
Analyze advanced issues that span multiple scientific or technical disciplines addressing pertinent theoretical, practical, and ethical issues.

STH 340. Current Challenges in Translating Science into Benefit. 3 Hours.
Seminar to address current challenges and controversies in science and its translation into application. Students will examine the spectrum from basic science foundations through translational research to applications, for example, in medicine or energy policy. Students hone skills in analyzing original scientific papers and using technical databases. Teams of students will develop a proposal for next steps in a translational challenge.

STH 350. Next Level Leadership. 1-3 Hour.
Oversight of team organized to sustain leadership or innovation project. Prerequisites: STH 250 [Min Grade: C]

STH 390. Preparation for STEM Teaching. 0-3 Hours.
Student will assist in course instruction through working with student teams on assigned projects. Student is required to attend scheduled preparatory sessions each week, assist in teaching the assigned course section, help develop student assignments, and assist the course instructor in other capacities as assigned. Students work under the direction of the course instructor. Student must have completed the course in which the student is assisting with a grade of B or higher or have equivalent experience. Permission of the instructor is required. May be repeated for credit up to a maximum of three (3) credit hours.

STH 394. Clinical Innovation Seminar. 1-3 Hour.
Students will rotate through clinical settings to identify problems in instrumentation or procedure that impede quality or efficiency. Students will analyze these problems and develop proposals for solutions. Prototypes may be produced.

Seminar for students who are preparing to propose their honors thesis research project and have worked in a lab for a minimum of one semester. Students will present and discuss their research plans and provide input into the proposals of classmates. Honors thesis research proposals will be completed by the end of the semester and defended before a faculty committee. Students must have permission of the program director if they have not completed at least one semester of mentored research prior to taking this course.

STH 396. Internships/Community Projects/SL. 1-3 Hour.
Experiential learning through individually designed community based or clinically related experiences. Each project will have both experiential and academic components. Permission of program director is required.
STH 397. Independent Study. 1-3 Hour.
Individually designed academic course of study under the direction of a selected faculty member. Permission of the program director is required.

STH 398. Honors Research. 1-6 Hour.
Laboratory research under the supervision of a faculty mentor. Permission of program director is required.

STH 399. Honors Thesis Research. 1-6 Hour.
Undergraduate research for student's honors thesis project under the supervision of a faculty mentor. Students may register for this course after approval of their honors thesis proposal in STH 395. 
Prerequisites: STH 395 [Min Grade: C]

STH 400. Honors Thesis Preparation. 1-2 Hour.
Students will prepare their honors thesis in the format of a journal article during this course and present it to their faculty committee for approval.
Prerequisites: STH 395 [Min Grade: C]

STH 410. Innovation Internship. 3 Hours.
The first semester of this internship will be unpaid during which the student commits 12-20 hours/week to work with the company to which they are matched. The student and company representatives will develop an internship agreement which specifies the expectations for time commitment, frequency of review or supervisory meetings, and any other parameters which are felt to be important by the company representatives. A midterm review will be completed by a representative of the company and the student, and an end of term evaluation will be completed jointly by the student and the company supervisor. The internship does not obligate the student to continue to work with the company after the designated internship semester; however, after the initial internship semester, it is possible for the student to continue their work with the company on either a volunteer or a paid basis. Whether students continue to work with the company as volunteers or as paid employees, they may repeat STH 410 and earn additional credit hours toward their STHP designation.
Prerequisites: (STH 199 [Min Grade: C] or STH 213 [Min Grade: C] or STH 201 [Min Grade: C] or BY 214 [Min Grade: C]) and EH 102 [Min Grade: C]

STH 490. Practicum in STEM Teaching. 0-3 Hours.
Student will assist in course instruction through working with student teams on assigned projects and will serve in the "lead assistant" role. Student is required to attend scheduled preparatory sessions each week, assist in teaching the assigned course section, help develop student assignments, and assist the course instructor in other capacities as assigned. Students work under the direction of the course instructor. Student must have completed the course in which the student is assisting with a grade of B or higher or have equivalent experience and have completed at least 1 credit hour of STH 390. Permission of the instructor is required. May be repeated for credit up to a maximum of three (3) credit hours.
Prerequisites: STH 390 [Min Grade: P] or STH 390 [Min Grade: B]

SW-Social Work Courses

Courses

SW 100. Introduction to Social Work. 3 Hours.
This course introduces students to the value-based profession of social work. Students will have the opportunity to learn about social work's history, mission, professional values and theoretical frameworks (e.g. the systems/ecological perspective). Furthermore, students will explore areas in generalist practice and the varied roles and responsibilities of the social work profession. Students will be afforded the opportunity to examine their own personal values and how those values influence their views on social welfare problems and issues.

SW 200. Professional Communication in Social Work. 3 Hours.
This course introduces the techniques of professional writing for social work practitioners. The course is designed to enhance professional and academic writing skills. Students will study how to craft narratives for funding applications, case records, and advocacy materials. Students will be introduced to the APA style. Additionally, students will complete a technology module focusing on information technology skills such as word processing, using presentation software, and communication skills with digital and social media. This is a writing intensive course.

SW 203. Social Welfare History. 3 Hours.
This course provides an opportunity to review the history of U.S. social welfare and its relationship and impact on current social work practice. Additionally, the course explores, within a social justice context, the historical impact of social welfare policies on the well-being of individuals, especially vulnerable populations, and communities.

SW 207. Racism, Sexism and Other Isms. 3 Hours.
This course is intended to provide students with opportunities to examine various aspects of culture and cultural diversity as those aspects impact on the delivery of social services. The course also examines the impact of discrimination and oppression on various social service consumer populations.

SW 208. Disaster Preparedness. 3 Hours.
This course uses a multi-disciplinary perspective on aspects of domestic disaster preparedness and response for natural and man-made disasters. This course provides review of current recommendations on disaster preparedness, local, state and federal response networks and organizations, and psychosocial aspects of response including sheltering, crisis intervention and psychological first aid. This course does not cover international issues.

SW 222. Social Work Values. 3 Hours.
This course offers an introduction to the helping profession of social work with service learning opportunities in local social service agencies. A didactic classroom that focuses on self-awareness related values, professionalism and ethical practice. This is one of four foundation courses that student must successfully complete before fully admitted to the professional program. Must be concurrently taken with SW 222L Social Work Values Lab.

SW 222L. Social Work Values Lab. 1 Hour.
This course offers an introduction to the helping profession of social work with service learning and simulation opportunities in local social service agencies. The service learning lab integrates field observation with self-awareness related values, professionalism and ethical practice (SL).
SW 302. Social Welfare Policy Analysis. 3 Hours.
This course introduces analytical frameworks with which to evaluate contemporary U.S. social welfare policy. It is designed for students with basic knowledge of the history of social welfare. The course also examines the relationship between current policy and the practice of social work today. Additionally explored is the real-world impact of current policy on the well-being of individuals and communities, within a social justice context.
Prerequisites: SW 203 [Min Grade: C]

SW 305. Social Work in Perinatal Settings. 3 Hours.
This course covers issues facing families in perinatal settings, providing an overview of the social work role from a generalist practice model. This course covers practice issues related to services to families during pregnancy, delivery and childbirth, and the neonatal period. Topics will be covered from a multidisciplinary perspective, highlighting the impact of culture and diversity during specified times of life transition, including medical and psychosocial issues. Social Work interventions will be discussed using an evidence-based framework.

SW 313. Human Behavior and The Social Environment I. 3 Hours.
This course, the first of two required courses in Human Behavior and the Social Environment, is designed to prepare students to understand human development across the different levels of social systems. The course explores theories, concepts, and knowledge from conception through early adolescence. Content also includes discussion of how factors such as social class, sexual orientation, gender, physical ability, age, race, ethnicity, and culture influence human development and behavior.

SW 314. Human Behavior in the Social Environment II. 3 Hours.
This course, the second of two required courses in Human Behavior and the Social Environment, is designed to prepare students to understand human behavior across the life cycle. The course explores theories, concepts, and knowledge from early adolescence through death. Students acquire knowledge and understanding of human beings as individuals, as members of families, and of other social groupings, and as members of organizations, communities, and larger societal and cultural collectives. Content includes discussion of how factors such as social class, sexual orientation, gender, physical ability, age, race, ethnicity and culture influence human development and behavior.
Prerequisites: SW 313 [Min Grade: C]

SW 320. Introduction to Research Methods. 3 Hours.
This course introduces students to research theory, methods and tools; and to expand their appreciation of the quintessential role of research in guiding practice. Qualitative and Quantitative research methodologies, sampling, data collection, and data analysis, as well as skills in critiquing research studies will be taught in the context of ethical standards governing evaluation and research as set forth in the NASW Code of Ethics. This course is a part of the core curriculum of the social work program. Quantitative literacy is a significant component of this course. Honors students will have additional research related assignments.
Prerequisites: SW 320 [Min Grade: C]

SW 321. Statistics for Social Work Research. 3 Hours.
This course provides the context for understanding the analysis and interpretation of quantitative data. Descriptive and inferential statistics will be covered, along with hypothesis testing and statistical significance. Students will become more familiarized with research-informed practice and practice-informed research. Quantitative Literacy is a significant component of this course.
Prerequisites: SW 320 [Min Grade: C]

SW 322. Social Work Practice I. 3 Hours.
This course provides generalist model application of social work with concentration on the micro-level that provides the student with the opportunity to gain the knowledge, skills, understanding and competence needed for interventions at the beginning professional level. This course includes a service learning lab that allows students to practice a solution-focused relationship with emphasis on self-awareness, cultural-awareness, active listening, interviewing, and recording skills at all systems levels. Instructor’s permission is required. (SL).
Prerequisites: SW 222 [Min Grade: C] and SW 222L [Min Grade: C]

SW 322L. SW 322L Practice I Lab. 1 Hour.
This service learning lab focuses on generalist model application of social work practice at the micro level. The lab emphasizes systems theory and strengths perspectives to examine individuals and families, and gives students the opportunity to discuss and practice necessary skills for practice. This lab allows students to practice working with individuals and/ or families in local social service agencies, using ethical and professional standards based on NASW Code of Ethics (SL). Students will complete 32 hours in service learning and/or simulation experiences.
Prerequisites: SW 222 [Min Grade: C] and SW 222L [Min Grade: C]

This course addresses issues children face in today’s society and identify possible intervention strategies. This course will also identify current trends in service delivery and relevant policy issues concerning the health and well-being of children. Students will have the opportunity to examine the diversity of families in today’s society to better understand and appreciate the roles children play in their family systems.

SW 422. Social Work Practice II. 3 Hours.
This course focuses on generalist model application of social work practice at the mezzo and macro levels. The course emphasizes systems theory and strengths perspectives to examine groups, communities and organizations, and gives students the opportunity to discuss and practice necessary skills for practice. This course must be taken in conjunction with the required service learning lab that allows students to practice working with groups, communities and organizations in local social service agencies, using ethical and professional standards based on NASW Code of Ethics. (SL). Must be taken concurrently with SW 422L Practice II Lab; Instructor’s permission is required.
Prerequisites: SW 322 [Min Grade: C] and SW 322L [Min Grade: C]

SW 422L. SW 422L Practice II Lab. 1 Hour.
This service learning lab focuses on generalist model application of social work practice at the mezzo and macro level. The lab emphasizes systems theory and strengths perspectives to examine groups, communities and organizations, and gives students the opportunity to discuss and practice necessary skills for practice. This lab allows students to practice working with groups, communities and organizations in local social service agencies, using ethical and professional standards based on NASW Code of Ethics (SL). Students will complete 32 hours in service learning and/or simulation experiences.
Prerequisites: SW 322 [Min Grade: C] and SW 322L [Min Grade: C]

SW 428. Medical and Mental Health Social Work. 3 Hours.
This course provides an introduction to and overview of working with people called “patients” in medical and mental health. Through this course, students will obtain a basic understanding on how to effectively assist individuals, groups, families, and communities impacted by various illnesses. The role of the social worker on the care team in various settings will be examined. The course also examines special population groups, resource allocation, service delivery, and legal and ethical considerations.
SW 432. Juvenile Law and Process. 3 Hours.
This course is designed to provide students with an overview of the study of juvenile justice in the United States; to examine the components of the juvenile justice system including laws, court processes, and corrections. The course will examine the history and philosophy behind the original juvenile court and explore recent developments in the field. The course will include exposure to Juvenile Case Law as well as issues related to ethics, social development, community influences, rehabilitation, and reintegration of offender.

SW 452. Birmingham Neighborhood Studies. 3 Hours.
This is an interdisciplinary course that explores the visual and material culture, history, and urban development of four Birmingham neighborhoods in transition. It emphasizes community engagement through active study of Birmingham’s historic neighborhoods. Students will study and learn about the history of select Birmingham neighborhoods from different disciplinary lenses (social work, history, and art history), examine artifacts and documents related to them, and engage and collaborate with community members in order to develop written and creative projects based on their research. Projects will be presented at an exhibition at the end of the semester. This course requires significant time spent off-campus, in the Birmingham community. During the first several weeks of class, we will take field trips during class to the four different neighborhoods. Field trip permissions must be completed.

SW 454. Working in Addiction and Recovery. 3 Hours.
This course examines the impact of substance use disorder on individuals, families, groups, organizations, institutions and communities. This course is recommended for students who want to expand their knowledge and sensitivity for understanding the special problems that substance use disorder brings to society. Course content includes identification of the various drugs of abuse, major theories of addiction, and examination of the psychological and physiological consequences of substance use disorder.

SW 478. Special Topics in Social Work. 3 Hours.
Study of current issues in social work.

SW 490. Practicum in Social Work/SL. 9 Hours.
This course integrates social work knowledge and values with application of professional helping skills. Students participate in a full-time placement in approved social service agencies under supervision of master’s-level social workers. This is taken concurrently with SW 494.
Prerequisites: SW 494 [Min Grade: C] (Can be taken Concurrently)

SW 494. Practicum Seminar. 3 Hours.
This capstone course in Social Work is an integrative seminar that must be taken concurrently with SW 490 (Practicum in Social Work). The seminar reviews basic social work tools that will enhance the students' work with client systems by providing opportunities to increase their knowledge of the social work profession, practice collaborative evaluation of the benefit of clients, and engage in strategies for problem-solving. The seminar also provides a forum to review students' practicum experiences, discuss social work practice issues, and reflect on the relationship of these experiences to their overall social work education program. Social Work Honors Students will be required to complete an additional 100 hours involved in community based research.

SW 496. Social Work Honors Seminar. 3 Hours.
This course is designed to enhance students’ problem solving skills, critical and independent thinking, and application of research/evidence-based practice. Faculty mentors will assist students in exploring social work practice interest areas and will provide preparation for graduate study and/or professional careers in Social Work. This course is required for all Social Work Honors students.

SW 498. Independent Study I. 1 Hour.
This course provides opportunities for Honors students to initiate their research project and receive one-on-one mentorship. Social Work Honors students will attend a monthly seminar session to present their progress on projects. This independent study is required for all Social Work Honors students. Instructor’s permission is required.

SW 499. Independent Study II. 1-3 Hour.
This course provides opportunities for student to pursue their specific interests in social issues and topics. Students will work closely with a faculty member to design readings, assignments, and/or activities to meet their learning goals. Instructor’s permission is required.

**THR-Theatre Courses**

**Courses**

THR 100. Introduction to the Theatre. 3 Hours.
Understanding the theatre experience through class lectures, reading and writing assignments, demonstrations, discussions, and viewing live evening performances. Writing is a significant component of this course. This course meets the Core Curriculum requirements for Area II: Fine Arts.

THR 102. Introduction to Cinema. 3 Hours.
A survey of the world’s greatest films and filmmakers emphasizing historical context and development of the art form over time. This course meets the Core Curriculum requirements for Area II: Fine Arts.

THR 105. Introduction to Dance. 3 Hours.
Understanding the dance experience through class lectures, demonstrations, discussions, and viewing performances.

THR 106. Jazz I. 2 Hours.
Basic movement and combinations based on modern jazz, Broadway/theatrical styles, and popular jazz forms. May be taken 3 times for a total of 6 hours.

THR 107. Tap I. 2 Hours.
Basic rhythmic studies and combinations based on Broadway/theatrical tap styles. May be taken 3 times for a total of 6 hours.

THR 108. Ballet I. 2 Hours.
Fundamentals of classic ballet technique with emphasis on analysis and proper execution. May be taken 3 times for a total of 6 hours.

THR 124. Theatre Technology: Scenery and Lighting. 3 Hours.
Scenic construction techniques and execution of stage lighting via lectures, demonstrations, and practical application. Emphasis in tools, materials and procedure. 40 lab hours outside of scheduled classes required.

THR 125. Theatre Technology: Costumes and Makeup. 3 Hours.
Fundamentals of costume construction, finishing and manipulation. Basic stage makeup techniques. Lectures, demonstrations and practical experience. 30 lab hours outside of scheduled classes required. Need instructor permission.
THR 126. Film Technology: Cinematography, Audio and Editing. 3 Hours.
Fundamentals of film technology, camera operations, lighting, audio, editing and an introduction to the fundamentals of composing basic camera shots.

THR 154. Beginning Acting. 3 Hours.
Introduction to the basic principles of acting. Exercises in talking and listening, actions and objectives, subtext and internal monologue.

THR 160. Theatre Cornerstone. 1 Hour.
The objective of this course is to introduce incoming freshmen to the professional performing arts industry and the UAB Department of Theatre community. Its primary objective is to prepare students for a successful collegiate career in the study and practice of theatre. Course required for majors in the first fall semester of residency.

THR 200. Plays on Film. 3 Hours.
Understanding major genres of drama through lecture, analysis, reading scripts, and viewing performances. This course meets the Core Curriculum requirements for Area II: Fine Arts.

THR 202. Voice and Movement for the Actor I. 3 Hours.
This course seeks to integrate voice and body in order to develop a free, flexible, and dynamic voice and body for the actor. Students will explore body work in order to develop kinesthetic awareness in the centering, grounding, and release of tension which are essential to the freeing of the voice. Students will explore expanded field of awareness as well as breath release, support for sound, resonance, embodying sounds, vocal hygiene, and vocal dynamics with applications to speaking text.

THR 203. Voice and Movement for the Actor II. 3 Hours.
A continuation of Voice and Movement for the Actor I with special emphasis on voice/body integration, field of awareness, breath support, range, dynamics, phrasing, tempo-rhythms. Students will explore how to use the voice working with a variety of dramatic texts. Additionally, students will explore principles of the Alexander Technique. May be repeated two times with permission of instructor.

Prerequisites: THR 202 [Min Grade: C]

THR 204. Beginning Production Practicum. 1-2 Hour.
Practical directed production experience in conjunction with actual production. THR 204 and THR 404 may be repeated for a combined total of 8 hours.

THR 205. Beginning Performance Practicum. 1 Hour.
Practical directed performance experience in conjunction with actual production. Requires audition. THR 205 and THR 405 may be repeated for a combined total of 8 hours. Requires permission of instructor.

THR 206. Jazz II. 2 Hours.
Intermediate exploration of jazz idiom, musicality, and technique, with emphasis on theatrical and choreographic styles. May be taken 3 times for a total of 6 hours.

Prerequisites: THR 106 [Min Grade: C]

THR 207. Tap II. 2 Hours.
Advanced exploration of tap genre, with emphasis on musicality and technique. May be taken 3 times for a total of 6 hours.

Prerequisites: THR 107 [Min Grade: C]

THR 208. Ballet II. 2 Hours.
Continued study of classic ballet technique. May be taken 3 times for a total of 6 hours.

Prerequisites: THR 108 [Min Grade: C]

THR 210. Introduction to Theatrical Design. 3 Hours.
Study and application of elements of design in theatre setting. Roles of scenic, lighting, and costume designers and their collaborative relationship with director.

THR 215. Playwriting I. 3 Hours.
Study and practicum in playwriting with emphasis on creating works for production and/or publication. Permission of instructor required. Writing is a significant component of this course.

Prerequisites: EH 101 [Min Grade: C]

THR 216. Screenwriting I. 3 Hours.
Study and practicum in writing scripts for TV and film, with emphasis on creating works for production and/or sale.

Prerequisites: EH 101 [Min Grade: C]

THR 226. Drawing and Rendering for the Theatre. 3 Hours.
Emphasis on rendering styles and drawing skills used in developing costume, scenic, and lighting designs. Studies in color theory, basic perspective, illustrating light source and figure drawing. Work in a variety of media and styles.

Prerequisites: THR 210 [Min Grade: C]

THR 230. Stage Management. 3 Hours.
The role and responsibilities of the stage manager for live theatrical events. Emphasis on managerial theory and practice.

THR 235. Analysis of Dramatic Literature. 3 Hours.
An examination of seminal dramatic works from the Ancient Greeks to the present day. Students will apply structural analysis to these works, focusing on their dramatic action, character development and language, in order to mine the ideas contained in them and determine how these ideas might be articulated to audiences in a live stage production.

Prerequisites: EH 101 [Min Grade: C]

THR 245. Intermediate Acting. 3 Hours.
Second part of a three part sequence. This course explores and applies the techniques of the acting process as prescribed in Constantin Stanislavski's text, AN ACTOR PREPARES: given circumstances, character objectives, physical objectives, internal and external characterization techniques.

Prerequisites: THR 154 [Min Grade: C]

THR 258. Musical Theatre Performance I. 3 Hours.
This course offers an exploration of musical theatre performance by focusing on vocal production and historical style. Emphasis will be placed on specificity of performance, both vocally and physically, so that students will be able to accurately and successfully perform in different styles of musical theatre from early musicals through the 1940s. This course will also look at the relationship of the written vocal score to performance and the historical context of each piece.

Prerequisites: THR 154 [Min Grade: C]

THR 259. Musical Theatre Performance II. 3 Hours.
This course continues an exploration of musical theatre performance by focusing on vocal production and historical style. Emphasis will be placed on specificity of performance, both vocally and physically, so that students will be able to accurately and successfully perform in different styles of musical theatre from the 1950s through the present. This course will also look at the relationship of the written vocal score to performance and the historical context of each piece.

Prerequisites: THR 258 [Min Grade: C]
THR 261. Musical Theatre Showcase I. 1 Hour.
This course focuses on rehearsal and performance techniques through practical exploration of ensemble songs from assigned musical theatre selections leading to proficiency in performance skills and preparation for graduation and the profession.

THR 279. Cinematography. 3 Hours.
The theory and practice of camera work for shooting narrative and documentary films.
Prerequisites: CMST 283 [Min Grade: C]

THR 300. Exploring the African-American Creative Experience. 3 Hours.
Contributions of African Americans to theatre and dance. Creative process and application of creative process through live performance.
Prerequisites: THR 100 [Min Grade: C] or THR 200 [Min Grade: C] or THR 235 [Min Grade: C]

THR 303. History of Film I: Origins to 1960. 3 Hours.
From the first silent movies to the development of the modern color sound movie of Hollywood in the fifties: comparison and contrast of the views of major film makers of the first sixty years of the 20th Century.
Prerequisites: EH 101 [Min Grade: C]

THR 304. History of Film II: 1960 to Present. 3 Hours.
From the modern color sound movie of the fifties and the Nouvelle Vague to the latest movies produced around the globe: comparison and contrast of the views of filmmakers since the 1960s.
Prerequisites: THR 303 [Min Grade: C]

THR 306. Jazz III. 2 Hours.
Advanced study in Jazz technique and musicality with complex combinations and understanding of theatrical style. May be taken 3 times for a total of 6 hours.
Prerequisites: THR 206 [Min Grade: C]

THR 315. Playwriting II. 3 Hours.
Advanced Study and practicum in playwriting with emphasis on creating works for production and/or publication. Writing is a significant component of this course.
Prerequisites: THR 215 [Min Grade: C]

THR 316. Screenwriting II. 3 Hours.
Advanced study and practicum in writing feature-length screenplays, with emphasis on creating works for production, sale, and/or publication. May be repeated 1 time for a total of 6 hours.
Prerequisites: THR 216 [Min Grade: C]

THR 318. Stage Combat. 3 Hours.
Fighting for the stage and screen.

THR 323. Lighting Design. 3 Hours.
Exploration of the theory and practice of lighting design for live performance.
Prerequisites: THR 124 [Min Grade: C] and THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 325. Theatre Sound Design and Technology. 3 Hours.
Principles and practice of designing, engineering and propagating audio for live theatrical productions.

THR 326. Scenic Design. 3 Hours.
Exploration of the theory and practice of scene design for live performance.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 327. Costume Design. 3 Hours.
Exploration of the theory and practice of costume design for live performance. Basic principles of design, characterization and rendering technique.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 343. Experimental Performance. 3 Hours.
This course explores alternative approaches to creating performance. In addition, the course focuses on the psychology of the actor and examines techniques to reduce performance anxiety. The work culminates in the creation of a solo piece.
Prerequisites: THR 154 [Min Grade: C]

THR 355. Advanced Acting. 3 Hours.
Advanced level class in actor training. Students will be introduced to specific period styles acting techniques for Shakespearean drama, restoration drama, and emerging changes for performance techniques in the plays of Henric Ibsen and Anton Chekhov.
Prerequisites: THR 202 [Min Grade: C] and THR 254 [Min Grade: C]

THR 360. Internship. 3 Hours.
Experience in non-academic theatre under supervision of professional staff. Interns may work in single area of specialty or in rotation throughout host theatre operation and may contract for single term or academic year.

THR 361. Musical Theatre Showcase II. 1 Hour.
This course focuses on rehearsal and performance techniques through practical exploration of duet scenes and songs from assigned musical theatre selections leading to proficiency in performance skills and preparation for graduation and the profession.
Prerequisites: THR 261 [Min Grade: C]

THR 365. Directing I. 3 Hours.
Basic principles of staging, picturization, composition, focus, and movement. Text analysis, directorial scoring, and actor/director dynamics.
Prerequisites: THR 210 [Min Grade: C] and THR 235 [Min Grade: C]

THR 374. Video Editing. 3 Hours.
Digital video and audio editing.
Prerequisites: CMST 283 [Min Grade: C]

THR 375. Beginning Narrative Filmmaking. 6 Hours.
Study and practicum in producing short narrative films. Students will gain experience in screenwriting, scouting locations, designing shots, drawing storyboards, creating shooting schedules, holding auditions, casting, and editing.
Prerequisites: THR 216 [Min Grade: C] and CMST 283 [Min Grade: C] and CMST 383 [Min Grade: C]

THR 376. Intermediate Narrative Filmmaking. 3 Hours.
Expand upon the experience gained in Beginning Filmmaking by working as part of a crew (industry model) to write, cast, shoot and edit an original narrative film.
Prerequisites: THR 316 [Min Grade: C] and THR 375 [Min Grade: C]

THR 377. Acting for the Camera. 3 Hours.
A study of acting techniques for film and television.

THR 378. Film Directing. 3 Hours.
Students will study the films and directing techniques of the great film directors from around the world. They will then apply those directing techniques as they design shots and work with actors in filmmaking exercises. Activities in this course are divided between film analysis and exercises in a workshop format.
Prerequisites: THR 376 [Min Grade: C]
THR 401. NYC Showcase. 1 Hour.
Preparation of songs, monologues and scenes for presentation to casting directors and agents. Students enrolled in this course will be required to cover costs associated with travel to New York City.

THR 404. Advanced Production Practicum. 1-2 Hour.
Practical directed production experience in conjunction with actual production. Prior to taking THR 404, student must have completed the 3 required practicum credits. THR 204 and THR 404 may be repeated for a combined total of 8 credits.

THR 405. Advanced Performance Practicum. 1 Hour.
Practical directed performance experience in conjunction with actual production. Requires audition. Prior to taking THR 405, student must have completed the 3 required practicum credits. THR 205 and THR 405 may be repeated for a combined total of 8 hours.

THR 406. Special Topics in Dance. 1-3 Hour.
Specialized subjects in dance taught as opportunity allows.

THR 411. Contemporary Musical Theatre Dance Styles I. 2 Hours.
An advanced level of analysis and practice of contemporary musical theatre dance styles. Physical awareness, alignment, muscular tone, coordination, strength, and flexibility will be emphasized and analyzed for control and communication. There will be various styles introduced: Contemporary, Jazz, Street-Funk, House, Locking, and Hip-Hop.
Prerequisites: THR 306

THR 412. Contemporary Musical Theatre Dance Styles II. 2 Hours.
A continuation of Contemporary Musical Theatre Dance Styles I. An advanced level of analysis and practice of contemporary musical theatre dance styles reflecting the contemporary commercial musical theatre market. Physical awareness, alignment, muscular tone, coordination, strength, and flexibility will be emphasized and analyzed for control and communication. There will be various styles introduced: Contemporary, Jazz, Street-Funk, House, Locking, and Hip-Hop.
Prerequisites: THR 411 [Min Grade: C]

THR 420. Teaching Theatre in the Secondary School. 3 Hours.
Course provides the student with a complete understanding and utilization of the knowledge and skills needed to teach theatre at the secondary school level.

THR 425. Pattern Drafting. 3 Hours.
Students will learn garment terms, their application, and flat pattern techniques for garment development. The course requires 20 lab hours, in addition to regular class meetings.
Prerequisites: THR 125 [Min Grade: B]

THR 430. Auditioning. 3 Hours.
This course prepares the actor for graduate school and professional auditions. A working method is explored for the preparation of classical and contemporary audition pieces.
Prerequisites: THR 154 [Min Grade: C] and THR 202 [Min Grade: C]

THR 435. Dialects. 3 Hours.
Students will develop the knowledge and skills to describe and recreate oral postures, placement, and rhythms of various stage dialects.
Prerequisites: THR 202 [Min Grade: C]

THR 450. Costume History and Period Style for the Theatre. 3 Hours.
A selective study of clothing, architecture, furniture and decorative arts of different historical eras, with emphasis on popular theatrical eras and styles. Includes an examination of the societal, cultural, and economic influences which shape historical style.
Prerequisites: EH 102 [Min Grade: C] or EH 107 [Min Grade: C]

THR 451. Musical Theatre History and Script Analysis. 3 Hours.
Exploration of the origins and development of musical theatre, from the mid-18th century to the present day. Students will develop a critical sensitivity to the medium and will learn to analyze the music, plots, characters and situations of musical theatre.
Prerequisites: EH 102 [Min Grade: C] or EH 102 [Min Grade: C]

THR 455. Advanced Studio in Performance. 3 Hours.
Advanced exploration of special topics related to acting through performance including but not restricted to period styles, dialects, ensemble work, solo performance, or any other specialized genre.
Prerequisites: THR 154 [Min Grade: C]

THR 461. Musical Theatre Showcase III. 1 Hour.
This course focuses on rehearsal and performance techniques through practical exploration of scenes and solo songs from assigned musical theatre selections leading to proficiency in performance skills and preparation for graduation and the profession.
Prerequisites: THR 361 [Min Grade: C]

THR 462. Special Topics. 1-3 Hour.
Specialized subjects taught as opportunity allows.

THR 465. Directing II. 3 Hours.
Preparing performances. Director/actor communication in rehearsal, rehearsal motifs, rehearsal organization, and finishing production. Actual direction of one-act play for laboratory performance.
Prerequisites: THR 365 [Min Grade: C]

THR 470. Individual Project in Design and Production. 1-3 Hour.
Directed individual study in topics related to theatrical design and production. Individual Project in Design: The design of costumes, scenery, lighting, audio, or makeup for a mainstage production under the supervision of a faculty mentor. Individual Project in Production: Assume the position and execute the responsibilities of a specific production position, such as a cutter/draper or technical director, while under the supervision of a faculty mentor. Proposals for individual projects must be approved prior to registration.

THR 471. Advanced Studio in Scenery. 3 Hours.
Advanced exploration of special topics related to scenic design and production. May be repeated for credit.

THR 472. Advanced Studio in Costumes. 3 Hours.
Advanced exploration of special topics related to costume design and production. May be repeated for credit.

THR 473. Advanced Studio in Lighting. 3 Hours.
Advanced exploration of special topics related to lighting design and production. May be repeated for credit.

THR 474. Advanced Studio in Audio. 3 Hours.
Advanced exploration of special topics related to audio design and production. May be repeated for credit.

THR 475. Advanced Narrative Filmmaking. 3 Hours.
Expand upon the experience gained in Intermediate Filmmaking by working as part of a crew (industry model) to write, cast, shoot and edit an original narrative film.
Prerequisites: THR 376 [Min Grade: C]

THR 476. Audio for Film: Recording and Mixing. 3 Hours.
Audio recording in studio and field, proper microphone techniques, non-linear, multi-track mixing for motion pictures, radio, and television.
Prerequisites: THR 375 [Min Grade: C]
THR 478. Music Video Production. 3 Hours.
Designing, shooting, and editing a music video using film industry crew
protocol.
Prerequisites: THR 375 [Min Grade: C]

THR 480. Individual Project in Film. 1-3 Hour.
An opportunity for students to write, produce and/or direct an original film
as an independent project.

THR 481. Theatre History to 1860. 3 Hours.
An exploration of Western theatre from 500 B.C. to 1860 by focusing on
the Classical, Medieval, Renaissance, Restoration, and Enlightenment
periods. The original historical and performance contexts of plays written
during the period will be considered to illuminate the cultural and political
role of theatre through the ages. The class format includes lectures, class
discussions, group exercises, and creative and research projects.
Prerequisites: THR 235 [Min Grade: C]

THR 482. Theatre History from 1860 to Present. 3 Hours.
An exploration of nineteenth and twentieth century Western theatre,
focusing on Romanticism, Realism and Non-Realism. Also introduces
students to the most popular forms of traditional non-Western theatre
to explain their influence on the European avant-garde. Emphasis
will be placed on seminal plays, theatre spaces and design, acting
techniques, and directing styles. The class format includes lectures, class
discussions, group exercises, and creative and research projects.
Prerequisites: THR 235 [Min Grade: C]

THR 489. Individual Studies in Film. 1-3 Hour.
An opportunity for students to study a specific aspect of film production or
history.

THR 491. Theatre Capstone. 2 Hours.
An exploration of the role of theatre and the theatre artist in the
macrocosm of the world. Synthesis and assessment of the academic
theatre experience through writing assignments, class discussion, and
oral presentations focused on career preparation and planning, the role
of theatre in society, defining a personal aesthetic and collaboration.
Required for graduation in last year of residency.

THR 492. Film Internship/Capstone. 3 Hours.
A synthesis experience for students as they apply what they have learned
to a real-life, work environment.

THR 493. Musical Theatre Capstone. 2 Hours.
An exploration of the business of musical theatre including information
about contracts, unions, agents/managers, casting directors, taxes and
other life strategies in order to develop a specific plan for the next steps
after graduation. Students prepare themselves for professional careers
by developing such items as resumes, audition material, headshots and
websites.

THR 496. Honors Project. 3 Hours.
Admission into the departmental honors program.

THR 499. Individual Studies. 1-3 Hour.
Directed individual study in theatre topics unrelated to design and
production. Proposals for individual projects must be approved prior to
registration. May be repeated for credit.

**UASC - University Academic Success Center**

**Courses**

**UASC 101. Exploring UAB. 3 Hours.**
The purpose of this course is to assist students in their transition to UAB
by providing essential navigational tools and resources to encourage
student engagement and a strong persistence towards graduation.
These strategies include intentional major, degree, and career outlook
planning; using time more efficiently; developing academic skills in
reading, note taking, studying, and test taking; enhancing critical thinking
and problem solving; developing networking and communication skills;
and encouraging campus involvement.

**UASC 105. Keys to Academic Success. 2 Hours.**
The purpose of this course is to assist students in applying strategies for
college success. These strategies include using technology and library
resources for processing and retrieving information; planning and using
time more efficiently; developing academic skills in reading, note taking,
studying, and test taking; enhancing critical thinking and problem solving;
developing networking and communication skills; encouraging campus
involvement; and incorporating wellness habits.

**UASC 150. Career Planning and Management. 3 Hours.**
Understanding aptitudes, abilities, and interests as related to career
alternatives. Group and individual experiences aid self-direction
in planning and career management. Values, preferences, skills,
and personal resources matched with educational and employment
opportunities using a variety of experiences and resources.

**UASC 203. Connections: The Transfer Student Seminar. 2 Hours.**
This course is designed to facilitate the successful transition of UAB
transfer students by reinforcing the resources and skills needed to be
succeed at a research university. The course will help students explore
what it means to be a successful UAB student by providing information
about managing transitions. Students will also be introduced to campus
resources, gain knowledge of academic supports, become familiar with
university policies and procedures along with participating in out of class
activities.

**UASC 206. Sophomore Year Experience: Med School Prep 101. 2 Hours.**
The purpose of this course is to provide students with both an
introduction and understanding of the necessary requirements and
skills needed in preparation for medical school. In addition, students will
explore the foundations of medicine and health and actively participate
in service related activities to understand the reciprocal relationship
between theory and practice. Furthermore, students will use said
information to formulate group presentations for future research,
advocacy, or continued service.

**UHP-University Honors Program**

**Courses**

**UHP 101. Interdisciplinary: English. 3 Hours.**
Process and final product of expository, argumentative, and analytical
essays in a variety of disciplines. Research and documentation required
on most essays. This course is an option for freshman students admitted
to the University Honors Program, an interdisciplinary arts and sciences
curriculum that replaces the core curriculum.
UHP 103. Interdisciplinary: Psychology. 3 Hours.
Application of scientific method to behavior. Takes an interdisciplinary approach in exploring areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 104. Interdisciplinary: Theology. 3 Hours.
Introduction to foundations of the major religions. An exploration of religion, its nature, warrant, and significance. God, evil, religious experience, faith, and reason. Takes an interdisciplinary approach to religion and religious practices. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 105. Interdisciplinary: Science. 3 Hours.
Survey of scientific methodologies in biology, chemistry and physics. Recent advances and topics in modern biology, chemistry examined from an interdisciplinary approach. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 110. Participation in Honors. 1 Hour.
Student must participate in at least eight special events sponsored by the University Honors Program including special lectures, visiting speakers, workshops and field trips. Permission of instructor. Pass/Fail.

UHP 111. Interdisciplinary: Philosophy. 3 Hours.
Introductory survey of philosophy, its nature, methods, and problems explored in an interdisciplinary context. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 151. Interdisciplinary: Art and Art History. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of art materials and techniques. Not for Art majors. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 153. Interdisciplinary: Biology. 3 Hours.
Selected topics in contemporary biology for non-majors. Animal form and function, behavior, ecology, and evolution. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 154. Interdisciplinary: Literature. 3 Hours.
Short stories, novellas, poems, and plays with an emphasis on the techniques of each genre. American, British and Irish, and world literature from a variety of historical periods. Emphasis on writing and literary analysis while taking an interdisciplinary approach. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 158. Interdisciplinary: Economics. 3 Hours.
Economic principles, economic analysis, trading blocks, examined in an interdisciplinary context. Not intended for Business majors. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 160. Interdisciplinary: Government. 3 Hours.
An introduction to the institutions and processes of American government in an interdisciplinary context. Exposure to political cultures and systems around the world. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 162. Interdisciplinary: Mathematics. 3 Hours.
Mathematics is studied in an interdisciplinary context focusing on the development of quantitative reasoning skills, quantitative literacy, and deductive inference. Topics incorporate pre-calculus algebra, pre-calculus trigonometry, probability, descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 163. Interdisciplinary: Theology. 3 Hours.
Introduction to the criminal justice system. Examination of crime and delinquency in an interdisciplinary context. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 164. Interdisciplinary: Sociology. 3 Hours.
An interdisciplinary approach to human social life, its forms and consequences for everyday life. An exploration of social inequalities and differentiation by race, ethnicity, class, and gender. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 165. Interdisciplinary: Communications. 3 Hours.
Perspectives on the history of newspapers, books, magazines, radio, television, cinema, recording industry, and the Internet examined in an interdisciplinary context. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 166. Interdisciplinary: Public Health. 3 Hours.
Introduction to the scope of modern public health. Epidemiology. Epidemics and pandemics. Health behavior and occupational health and safety. This course is an option for freshman students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 194. Interdisciplinary: Social and Behavioral Science. 3 Hours.
An in-depth interdisciplinary study of major topics and movements within the fields of anthropology, history, political science, psychology, sociology, and social work. This course is an option for freshmen students admitted to the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 200. Seminar: Independent Project. 3 Hours.
The University Honors Program student writes a two-page proposal describing the scope and outcomes of the proposed project to be conducted under the mentorship of an internal and external advisor. The project replaces a regular honors seminar. HON 200 is taken for a grade (A-F). Prerequisite: The proposal must be pre-approved by a majority of the Honors Council. Permission of instructor.
UHP 201. Interdisciplinary: English. 3 Hours.
Process and final product of expository, argumentative, and analytical essays in a variety of disciplines. Research and documentation required on essays. Introduction to fundamentals of creative writing. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 203. Interdisciplinary: Psychology. 3 Hours.
Advanced application of scientific method to behavior. Areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences are studied in an interdisciplinary context. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 204. Interdisciplinary: Theology. 3 Hours.
An exploration of religion, its nature, warrant, and significance in an interdisciplinary context. God, evil, religious experience, faith, and reason. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 205. Interdisciplinary: Science. 3 Hours.
Exploration of recent developments in modern biology, chemistry, and physics in an interdisciplinary context. Basic physical laws and structures, cosmic history and evolution. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 210. Participation in Honors. 3 Hours.
Student must participate in at least eight special events sponsored by the University Honors Program including special lectures, visiting speakers, workshops and field trips. Must have completed UHP 110 or HON 110. Permission of instructor. Pass/Fail.
Prerequisites: UHP 110 [Min Grade: P]

UHP 211. Interdisciplinary: Philosophy. 3 Hours.
Introductory survey of philosophy, its nature, methods, and problems explored in an interdisciplinary context. Classic and contemporary readings. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 215. Interdisciplinary: Art and Art History. 3 Hours.
Introduction to the study of visual culture, prehistoric to present. Emphasis on form and context, and acquiring understanding of the aesthetic experience. Various media, methods, subject matter, and vocabulary discussed in an interdisciplinary context. Not for Art majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 253. Interdisciplinary: Biology. 3 Hours.
Selected topics in contemporary biology discussed in an interdisciplinary context. Animal form and function, behavior, ecology, and evolution. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 254. Interdisciplinary: Literature. 3 Hours.
American, British and Irish, and world literature from a variety of historical periods studied in an interdisciplinary context. Emphasis on writing and literary analysis. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 258. Interdisciplinary: Economics. 3 Hours.
Economic principles, economic analysis, stock exchange, trading blocks and world trade examined in an interdisciplinary context. Not intended for Business majors. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 260. Interdisciplinary: Government. 3 Hours.
An introduction to the institutions and processes of American government in an interdisciplinary context. Exposure to political cultures and systems around the world. Transitions to democracy. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 262. Interdisciplinary: Mathematics. 3 Hours.
Mathematics is studied in an interdisciplinary context focusing on the development of quantitative reasoning skills, quantitative literacy, and deductive inference. Topics incorporate pre-calculus algebra, pre-calculus trigonometry, probability, descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 263. Interdisciplinary: Justice Sciences. 3 Hours.
Introduction to the criminal justice system (police, courts, and corrections). Examination of crime and delinquency in an interdisciplinary context. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 264. Interdisciplinary: Sociology. 3 Hours.
An interdisciplinary approach to human social life, its forms and consequences for everyday life. An exploration of selective topics related to social inequalities and differentiation by race, ethnicity, class, and gender. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 265. Interdisciplinary: Communications. 3 Hours.
An interdisciplinary approach to issues in the history of newspapers, books, magazines, radio, television, cinema, recording industry, and the Internet. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 267. Seminar: Tropical Ecology. 3 Hours.
Major tropical ecotypes; ecology of terrestrial, aquatic, and marine tropical organisms. Major portion conducted at tropical field station in Caribbean. Lecture and field trips (May session). Permission of instructors, University Honors Program Director, UAB Education Abroad Director and payment of all study abroad fees required to enroll. This course is equivalent to BY 267 Tropical Ecology, which will take place in the Bahamas.
UHP 279. Interdisciplinary: Public Health. 3 Hours.
Introduction to the scope of modern public health. Interdisciplinary perspectives on epidemiology, Disease transmission, epidemics and pandemics. Health behavior and occupational health and safety. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 294. Interdisciplinary: Social and Behavioral Science. 3 Hours.
An in-depth interdisciplinary study of major topics and movements within the fields of anthropology, history, political science, psychology, sociology, and social work. This course is an option for sophomore students in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 301. Interdisciplinary: English. 3 Hours.
Process and final product of expository, argumentative, and analytical essays in a variety of disciplines. Research and documentation required on most essays. Emphasis on developing theses and arguments with textual support. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 303. Interdisciplinary: Psychology. 3 Hours.
Advanced application of scientific method to behavior. In-depth analysis of areas of psychology including learning, motivation, perception, physiological, comparative, personality, abnormal, social, clinical, child development, and individual differences. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 304. Interdisciplinary: Theology. 3 Hours.
An in-depth exploration of the nature of religion and its role in society in an interdisciplinary context. Comparative religion. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 305. Interdisciplinary: Science. 3 Hours.
Selected topics in contemporary biology, chemistry, and physics. Takes an interdisciplinary approach with a strong emphasis on understanding at the systems level. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 310. Participation in Honors. 1 Hour.
Student must participate in at least eight special events sponsored by the University Honors Program including special lectures, visiting speakers, workshops and field trips. Must have completed UHP 210 or HON 210. Permission of instructor. Pass/Fail.
Prerequisites: UHP 210 [Min Grade: P]

UHP 313. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

UHP 314. Seminar: Medicine. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of medicine, the practice of modern medicine, narrative medicine, medical instrumentation and surgical techniques. See Class Schedule for specific topic.

UHP 316. Seminar: Filmmaking. 6 Hours.
Students will document and analyze aspects of human social life using film and video. They will develop an understanding of the visual syntax and narrative structure of successful ethnographic and documentary films through discussion and criticism in the classroom as well as through short film projects of their own. Permission of instructor.

UHP 317. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

UHP 320. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

UHP 321. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

UHP 322. Seminar: Law. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions, the US Constitution, decisions of the US Supreme Court, International law, or Ethics and morality in modern society. See Class Schedule for specific topic.

UHP 323. Seminar: Sociology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human social life, social inequalities and differentiation by race, ethnicity, class, and gender. See Class Schedule for specific topic.
UHP 324. Seminar: Foreign Languages and Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics related to the customs, traditions, languages, ancestry, religions, values, and institutions of varied western and non-western nations through the use of humanities disciplines. See Class Schedule for specific topic.

UHP 325. Seminar: Psychology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in brain-behavior relationships, mental illness, cognitive science and cognitive neuroscience, learning and memory, human sexuality, personality, cross cultural issues, and human development. See Class Schedule for specific topic.

UHP 335. Seminar: Library Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: the historical role of the library in culture and society; how libraries play a role in society as disseminators, defenders and preservers of knowledge; issues affecting intellectual freedom; the effects of digital publishing on scholarship; and the evolving structure and function of libraries. See Class Schedule for specific topic.

UHP 336. Seminar: Political Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the institutions and process of American government, comparative politics, political theory, and contemporary political issues. See Class Schedule for specific topic.

UHP 342. Seminar: Medicine. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the history of medicine, the practice of modern medicine, narrative medicine, medical instrumentation and surgical techniques, and issues in bioethics. See Class Schedule for specific topic.

UHP 343. Seminar: Medicine. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in information technology, fundamentals of hardware and software, and human-computer interfaces. See Class Schedule for specific topic.

UHP 346. Seminar: Health Related Sciences. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in clinical and diagnostic sciences, nutrition, nuclear medicine technology, occupational and physical therapy, and rehabilitation sciences. See Class Schedule for specific topic.

UHP 347. Seminar: Accounting. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in accounting and taxation, management, information systems, business ethics, marketing, and industrial distribution. See Class Schedule for specific topic.

UHP 348. Seminar: Business. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in accounting and taxation, management, information systems, business ethics, marketing, and industrial distribution. See Class Schedule for specific topic.

UHP 351. Interdisciplinary: Art and Art History. 3 Hours.
Exploration of visual culture in an interdisciplinary context. The aesthetic experience. Various media, methods, subject matter, and vocabulary. Not for Art majors. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 353. Interdisciplinary: Biology. 3 Hours.
In-depth study of selected topics in contemporary biology discussed in an interdisciplinary context. From microscopic to macroscopic. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 354. Interdisciplinary: Literature. 3 Hours.
Close analysis of a selection of books from American, British and Irish, and world literature in an interdisciplinary context. Emphasis on developing themes for writing literary analyses. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 360. Interdisciplinary: Government. 3 Hours.
In-depth analysis on selective issues regarding the institutions and processes of American government in an interdisciplinary context. Exposure to political cultures and systems around the world. Transitions to democracy. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 362. Interdisciplinary: Mathematics. 3 Hours.
Mathematics is studied in an interdisciplinary context focusing on the development of quantitative reasoning skills, quantitative literacy, and deductive inference. Topics incorporate pre-calculus algebra, pre-calculus trigonometry, probability, descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.
UHP 363. Interdisciplinary: Justice Sciences. 3 Hours.
Introduction to the criminal justice system (police, courts, and corrections). Examination of crime and delinquency in an interdisciplinary context. Analyses of trends in crime statistics. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 379. Interdisciplinary: Public Health. 3 Hours.
Introduction to the scope of modern public health. Interdisciplinary perspectives on epidemiology, Disease transmission, epidemics and pandemics. Health behavior, occupational health and safety, and health policy. This course is an option in the curriculum of the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 383. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

UHP 384. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

UHP 386. Seminar: Theatre. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the theatre experience; the history of theatre; and theatre and society. See Class Schedule for specific topic.

UHP 387. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

UHP 390. Seminar: Theology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature of religion and its role in culture and society; God, evil, religious experience, faith, and reason; comparative religion; and religious practices. See Class Schedule for specific topic.

UHP 394. Interdisciplinary: Social and Behavioral Sciences. 3 Hours.
An in-depth interdisciplinary study of major topics and movements within the fields of anthropology, history, political science, psychology, sociology, and social work. This course is an option for third and fourth year Teaching Assistants in the University Honors Program, an interdisciplinary arts and sciences curriculum that replaces the core curriculum.

UHP 399. Honors Research. 1-3 Hour.
This research practicum provides students in the University Honors Program an opportunity to receive academic credit for conducting supervised research with a faculty mentor. Students are required to work 3 hours a week. The practicum does not replace any component of the University Honors curriculum. HON 399 is taken for a grade (A-F). Permission of instructor. (1-3 hrs.).

UHP 400. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

UHP 410. Seminar: Social Work. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

UHP 412. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

UHP 416. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

UHP 417. Seminar: Creative Writing. 3 Hours.
In this creative writing course, groups of writers who are joined together by aesthetic approach or political beliefs are studied. Students examine the different sub-genres, styles, and forms, and analyze how authors do what they do and learn how to apply what they learn to their own creative work. Weekly writing assignments and student workshops are designed to produce better writers and also better critical readers of others work. Literary journals are reviewed with an eye toward publication and engagement with the broader world of contemporary poetry, fiction and creative nonfiction. See Class Schedule for specific topic.

UHP 418. Seminar: Anthropology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include core topics in cultural anthropology and physical anthropology, archaeology, and linguistics. See Class Schedule for specific topic.
UHP 419. Seminar: Mathematics. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in history of mathematics, quantitative reasoning, deductive inference, probability, and descriptive and inferential statistics in the exploration of key mathematical ideas and concepts within the framework of applied math and physics.

UHP 420. Seminar: Sociology. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in human social life, social inequalities and differentiation by race, ethnicity, class, and gender. See Class Schedule for specific topic.

UHP 421. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

UHP 422. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

UHP 423. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

UHP 424. Seminar: Art & Art History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in ancient and medieval art, Renaissance art, African and Asian art, modern art, two- and three-dimensional design, graphics, and photography. See Class Schedule for specific topic.

UHP 426. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

UHP 427. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

UHP 430. Seminar: Music. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in music appreciation, history of music, music and mathematics, music perception, and musical genres. See Class Schedule for specific topic.

UHP 439. Seminar: Publishing English. 3 Hours.
This course is a recurring seminar that is designed to facilitate in the development and production of the University Honors Programs publication(s) and newsletter(s). The course will provide students with up-to-date information about the printing and publishing industry. It will also give students hands-on experience by developing publication(s) and/or newsletter(s) in class throughout the semester. At least one newsletter is issued semi-annually to students, alumni, and friends of the University Honors Program. Concepts discussed will include writing, proofreading, copy editing, photography, layout and design, printing, publishing, packaging, and distribution. Students may be expected to gather articles and artwork related to the University Honors Program, as well as write, edit, and proofread those articles.

UHP 440. Seminar: Political Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in American government, political cultures and institutions of political systems around the world, political theory, political economy, and contemporary political issues. See Class Schedule for specific topic.

UHP 446. Seminar: Political Science. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the institutions and process of American government, comparative politics, political theory, and contemporary political issues. See Class Schedule for specific topic.

UHP 447. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.
UHP 449. Seminar: English. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in creative writing; poetry; expository, argumentative, and analytical essays in a variety of disciplines. See Class Schedule for specific topic.

UHP 458. Seminar: Justice Sciences. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

UHP 459. Seminar: Justice Sciences. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the criminal justice system, crime and delinquency, trends in crime statistics, forensics, privacy, cybercrime, and corrections. See Class Schedule for specific topic.

UHP 462. Seminar: Law. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions, the US Constitution, decisions of the US Supreme Court, international law, ethics and morality in modern society. See Class Schedule for specific topic.

UHP 463. Seminar: Law. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the nature and function of law and legal institutions. The US Constitution. Decisions of the US Supreme Court. International law. Ethics and morality in modern society. See Class Schedule for specific topic.

UHP 464. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

UHP 465. Seminar: Literature. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in books, short stories, novellas, poems, and plays from variety of historical periods and cultures. See Class Schedule for specific topic.

UHP 469. Seminar: History. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in the evolution of religious, political, social, military and economic structures and relationships in Western and non-Western societies. See Class Schedule for specific topic.

UHP 488. Seminar: Business. 3 Hours.
This course is a seminar whose content may be different each time it is taught. It provides instructors with the opportunity to deal with topics that may not be covered in a regular departmental course or which may be treated in another course but only at an introductory level. Topics may include: special topics in accounting and taxation, management, information systems, business ethics, marketing, and industrial distribution. See Class Schedule for specific topic.

UNIV-University Courses

Courses

UNIV 105. Keys to Academic Success. 2 Hours.
Surviving and Thriving at UAB: A Freshman Success Course.
UNIV 200. Job Search Essentials. 1 Hour.  
This course is designed for those ready to start the job search process. This course walks you through the basic essentials needed to begin a professional job search including resume, interviewing, elevator pitch, informational interviews, networking, and company research. This course is made up of project-based, interactive activities that will culminate into a final project using LinkedIn. This course is not designed for students who do not have a specific goal. For students who are seeking the foundations of this course plus more professional development, the UNIV 300 course may be more appropriate.

UNIV 203. Connections: The Transfer Student Seminar. 2 Hours.  
This two credit course is designed to assist in the successful transition of transfer students from their previous institution to UAB. The seminar provides an opportunity for students to get to know the intellectual community they have joined, while introducing them to campus resources that will help them succeed at UAB. Each session of the seminar will address a topic or body of knowledge for the purpose of developing students as learners.

UNIV 300. Career Mapping: Navigating for Success. 3 Hours.  
UNIV 300 is for students who want to confirm their career path, get a jump start on their post-graduation job search, and make a smooth transition into the professional world. UNIV 300 uses project-based, interactive activities to help students determine an appropriate career path, explore career options, perform industry research, build a professional network, and prepare for the job search by creating an effective resume and participating in in-person mock interviews. Students also gain skills in workplace competencies like effective communication, teamwork, and dealing with feedback. This in-depth career course involves interaction with local employers and community partners.

UNIV 398. Undergraduate Research. 1-12 Hour.  

**WS-Womens Studies Courses**

**Courses**

WS 100. Introduction to Women's and Gender Studies. 3 Hours.  
Interdisciplinary study of roles of women in society through social, political, economic, philosophical, historical, and biological perspectives. Required for Women's and Gender Studies Minor. This course meets the Core Curriculum requirements for Area IV: Social and Behavioral Sciences.

WS 280. Special Topics in Women's and Gender Studies. 3 Hours.  
Subjects of special interest, such as women and religion, women and war and theories of women's studies. Varies in content depending upon topic. Students may enroll under these numbers multiple times but topic may not be repeated.

WS 357. Anthropology of Gender. 3 Hours.  
Roles of women, men, and other genders from a cross-cultural perspective; includes bio-cultural approaches to sex and gender and changing gender roles over time. Course involves substantial writing component in essay examinations and research papers. Writing is a significant component of this course.

WS 380. Special Topics: Women's and Gender Studies. 3 Hours.  
Interdisciplinary study of gender in society through social, political, economic, philosophical, historical, and biological perspectives. Required for Women's and Gender Studies Minor.

WS 400. Theory and Practice of Women's and Gender Studies: Senior Seminar. 3 Hours.  
Everyday applications of feminist and queer theories. Required for the minor.  
**Prerequisites:** WS 100 [Min Grade: D]

WS 480. Special Topics in Women's and Gender Studies. 1-3 Hour.  
Subjects of special interest, such as women and religion, women and war, and theories of women's stties. Varies in content depending upon topic. Students may enroll under these numbers multiple times but topic may not be repeated.

WS 490. Directed Readings in Women's and Gender Studies. 1-3 Hour.  
Independent study with faculty guidance of selected gender-related issues.

WS 491. Directed Studies in Women's and Gender Studies. 1-3 Hour.  
Independent research with faculty guidance on selected gender-related issues.

WS 495. Internship in Women's and Gender Studies. 1-3 Hour.  
Experience in community agency working with women or gender issues. Course requirements dependent upon number of credits student wishes to take.
