

Department of Communication Studies

Chair: Dr. Timothy Levine

The Department of Communication Studies is concerned with human interaction and communication in all of its forms. The department offers concentrations in Communication Management, Sports Communication, and Mass Communication.

Students interested in studying communication should consult the department chair or college advisor as well as the requirements set by the College of Arts and Sciences.

Major in Communication Studies with Communication Management Concentration

The Communication Management concentration is designed for students interested in the general principles and applications of communication from interpersonal relationships to organizational and health settings, to the theory and practice of public dialogue. A minor is available in Communication Management for non-majors.

Major in Communication Studies with Sports Communication Concentration

The Sports Communication Concentration is designed to prepare students for careers in the fastest growing area within the field of communication. Sports communications includes sports information, sports media relations, sports administration, and sports management.

Major in Communication Studies with a Mass Communication Concentration

The Mass Communication concentration allows students to specialize in journalism, broadcasting, or public relations. Minors are available in Mass Communication. A Minor is required for a degree in Mass Communication.

Specializations

Students interested in developing a concentration in mass communication may select from one of three specializations available in the department: journalism, broadcasting, or public relations. Students specializing in one of the mass communication specializations may also major or minor in communication management.

Journalism

The curriculum in journalism is designed to prepare students for work with newspapers, magazines and company publications. In addition to courses in writing, reporting, and editing, the journalism program frequently offers special courses aimed at meeting the media demands of Birmingham, its people, and its publications.

Broadcasting

Students in broadcasting prepare for professional careers in digital media, television production, news operations, or management. In addition to skills courses, students are given a strong theoretical foundation designed for both the media professional and the potential graduate student in mass communication.

Public Relations

Public relations is a pre-professional program designed to acquaint students with the theoretical knowledge and the practical skills necessary to master all aspects of the public relations process.

The program stresses writing, oral and analytical skills, ethical reasoning, problem solving, strategic thinking, media selection, and identification of publics. Students receive hands-on experience in developing client representation skills as well as strengthening essential team-building, networking and leadership skills. Students also participate in the internship program which gives them actual on-the-job experience.

Accelerated Learning Opportunities

The Department of Communication Studies offers a Communication Management Master's (ABM) option for high-achieving undergraduate students. All CM Graduate classes may be used for undergraduate BA in Communication Studies through the ABM, excluding: CM 618, CM 675, CM 698, CM 699.
