Department of Accounting and Finance

Chair: Stephanie Yates, Ph.D

The Department of Accounting and Finance strives to provide a quality, practice-oriented educational experience to a diverse undergraduate and graduate student population. The faculty contributes to the understanding and application of knowledge through its teaching, research and service activities.

The Department is responsible for courses, concentrations, majors and minors in accounting and finance. Below is an overview of each major. Detailed degree requirements are located on the Majors Tab above.

Accounting Major

The objective of the major in accounting is to provide conceptual accounting and business knowledge as a foundation for professional careers in public accounting, private or industrial accounting, and governmental or not-for-profit accounting, or for pursuing study at the graduate level.

The various accounting career choices available to students mandate different course emphasis, and our curriculum offers a selection of course choices. Students may further specialize by pursuing the concentration in forensic accounting and information technology auditing.

Accelerated Bachelor's/Master's Program (ABM)

A successful graduate of the ABM will earn a bachelor's degree and Master of Accounting degree from the University of Alabama at Birmingham Collat School of Business in an accelerated time period compared to the independent completion of these two degrees. Students will graduate with a Bachelor degree upon completion of the Bachelor degree requirements, then graduate with a Masters' degree upon completing the requirements for the Master of Accounting.

Admissions

The Accelerated Bachelors/Master's Program is for exceptional students. The accepted student will have:

- an average GPA of 3.5 in all institutional courses
- a minimum of 60 credit hours (36 of these credit hours must have been taken at UAB)

Before applying, the student must meet with their graduate program coordinator and their undergraduate advisor to discuss program requirements; students should also meet with a financial aid/scholarship advisor to determine the impact of ABM on their scholarships and/or aid award. The student should also be advised that additional credit hours may be required for licensure as a CPA.

Upon acceptance, a detailed plan of study must be mapped out specific to each ABM student. This plan must be agreed upon by the student, their undergraduate academic advisor, and graduate program coordinator and strictly adhered to while in the ABM program to guarantee their continued participation in the ABM. Acceptance into the program takes place after a student has earned 60 credit hours of coursework. Admission is by a committee chaired by the graduate program director, consisting of the graduate program director and department program coordinator.

To maintain status in ABM, the student must:

- maintain an institutional GPA of 3.25 or higher
- receive a B (or higher) in all courses taken while still an undergraduate student
- maintain full time student status at UAB
- Accounting and Finance Department will waive the hour requirement for internship terms if the internship causes them to drop below the full time student hour requirement.

If any of these requirements is violated, the student will be withdrawn from the ABM program. If a student is withdrawn from the ABM program, they will retain credit for the courses already completed in the program.

Once the student has completed all undergraduate course requirements for graduation, their undergraduate degree will be awarded. Once the student graduates from a bachelor's degree program, they enter the Master of Accounting program and must maintain the requirements of that program. Tuition is then charged at the graduate rate.

To accelerate progress through the Master of Accounting degree, a limited number of courses (up to 12 credit hours) may be counted toward the completion of the bachelor's degree and toward the completion of the Master of Accounting degree. The selected Master of Accounting courses must be approved by the student's undergraduate academic advisor.

Graduate courses allowed for credit sharing are the following:

- AC 523 External Auditing (requires approval of program director)
- AC 530 Financial Accounting III (prerequisite - AC 310)
- AC 557 Business Law for Accountants (requires approval of program director) AC 573 Fraud Examination (prerequisite - AC 423/523)
- AC 580 Advanced Accounting (prerequisite - AC 430/530) AC 600 Accounting Research (prerequisite - AC 430/530)
- AC 612 Governance and the Business Environment (prerequisite - AC 401)

Finance Major

The finance curriculum is designed to provide an understanding of financial operating and investment problems in both financial and non-financial businesses. Careers are available in areas such as government, securities businesses, banking, insurance, real estate, savings and other financial intermediaries, and in the financial management of non-financial businesses.

Uniform CPA Exam

Eligibility requirements for sitting for the Uniform CPA examination vary among the states and territories. For detailed information about these requirements, please contact the National Association of State Boards of Accountancy (NASBA) at https://nasba.org/stateboards/. The state of Alabama, through its Accountancy Laws and the Alabama State Board of Public Accountancy (ASBPA, www.asbpa.alabama.gov/), requires that applicants for the Uniform CPA Examination hold a baccalaureate degree from an accredited institution and possess a total of 120 semester hours of postsecondary education, including at least 24 semester hours of accounting in specified areas at the upper-division or graduate level.
and 24 semester hours in business-related courses. The UAB 120-hour undergraduate accounting program does not provide all of the classes needed for a 150 hour CPA licensure in Alabama. The M.Ac. combined with either the 24-hour bridge (outlined under Admission Requirements) or an undergraduate program will provide the necessary hours.

**Other Professional Accounting Certifications**

Other examinations leading to professional certification (CMA, CIA, CFA, etc.) generally do not require academic coursework beyond the baccalaureate degree. Students interested in other accounting certifications should contact an undergraduate Accounting advisor or a member of the accounting faculty for further information.

AC 264. Taxation and the Working Poor. 3 Hours.
Students will explore the objectives and consequences of the U.S. federal
tax system in relation to the working poor. Topics covered will include
the Earned Income Tax Credit and child tax credit. In addition, students
will study common misperceptions of those living in poverty. The course
will consist of classroom instruction, tax preparation training, completion
of a tax certification test, and volunteer tax preparation at a community-
based site. This course is open to both business and non-business
majors and assumes no prior knowledge of accounting or tax. The course
is a service-learning course and will satisfy the experiential learning
requirement in the Collat School of Business. This course meets Blazer
